SMART CITIZEN EDUCATION FOR A GREEN FUTURE

16 PARTNERS
IN 11 COUNTRIES

45 SCHOOLS AND
UNIVERSITIES
INVOLVED

GREEN AND SMART
EDUCATION FOR ALL

WWW.GREEN-SCENT.EU

OUR OBJECTIVE

GreenSCENT - Smart Citizen Education for a Green Future - aims to educate and empower the people of Europe to change their behaviour towards the environment by fostering empathy for the planet.

OUR TOOLS

GreenSCENT competence framework

GreenSCENT will develop a competence framework that embraces all areas of the Green Deal through a participatory and learning-by-doing design-based approach.

GreenSCENT box

Through collaboration and research-based learning, GreenSCENT will develop digital, physical and hybrid educational technologies that can be used to promote environmental awareness.

Green Licence

GreenSCENT will elaborate the ECCEL: a European "driving licence" for Climate and Environmental competences and skills
