

The background of the card features a central illustration of a glowing yellow lightbulb with a filament that resembles a circuit board. This central lightbulb is surrounded by several smaller, dimmer lightbulbs of varying sizes. The entire scene is set against a dark blue background with white and yellow splatters, suggesting paint or ink. The text 'AI Joker' is written in white on a solid yellow rectangular background in the top left corner.

# AI Joker

You can use this card for any artificial intelligence you know. The AI joker remains exactly the same AI until the end of the game.

*You want to design your own AI cards for your game? Here are the PDF templates:*

# CycleAI

Finds the safest and fastest bike route from A to B. Safety is assessed using collaboratively generated “hotspot maps.” It was developed locally for Lisbon.

**#sports**  
**#navigation**  
**#traffic**  
**#free**

more info:

# Mycroft

The assistance system can use voice commands to play music and provide real-time information, create to-do lists or control smart home systems.

**#assistance**  
**#opensource**

more info:

**SiMAX**

Translates text-based content into 3D animated sign language using a virtual avatar. For example, for films, websites, museum tours or information for citizens.

more info:

**#translation**

The top half of the image features a vibrant blue background with a complex geometric pattern of concentric circles and radiating lines. Numerous small, stylized white envelope icons are scattered across the scene, some appearing to float or be part of the pattern. On the left side, there is a vertical orange rectangle containing the text 'hunter.io' in white, lowercase, sans-serif font.

hunter.io

Finds professional email addresses of people within companies.

**#addresssearch**  
**#free**

more info:

# Plantix

The app helps farmers to recognise (agricultural) plant diseases via a photo, gives tips for treatment, and thus increases crop yields.

**#botany**

**#free**

**#opensource**

**#opensource**

more info:

A vibrant, stylized illustration in shades of blue and white. The central focus is a large, detailed human eye with long, dark eyelashes. Surrounding this central eye are several other eyes of varying sizes and styles, some appearing as camera lenses or digital icons. Two smartphones are depicted: one on the left and one on the right, both displaying eye-related graphics on their screens. Wavy lines and abstract shapes connect the various elements, creating a sense of dynamic interaction and digital connectivity. The overall theme is visual control and accessibility.

# EyeCaptain

Makes it possible to control apps with your eye movement. It allows you to play music or use devices even if you can't use your hands.

more info:

**#assistance**  
**#opensource**

The background of the advertisement is a vibrant, abstract collage. It features a smartphone in the center, tilted diagonally, displaying a blurred interface of the Elsa app. The phone is set against a backdrop of various textures and colors, including shades of blue, orange, and white. There are stylized, hand-drawn elements scattered throughout, such as a large white bird-like shape on the right and various geometric and organic forms in blue and orange. The overall aesthetic is modern and artistic.

**Elsa**

Helps nonnative speakers to learn to speak English without an accent by providing instant feedback on pronunciation.

**#languageassistance**  
**#free**

**#natureconservation**  
**#opensource**

The background of the card features a central illustration of a glowing yellow lightbulb with a filament that resembles a neural network. This lightbulb is surrounded by a chaotic, artistic arrangement of blue and white paint splatters, bubbles, and smaller, dimmer lightbulbs. The overall aesthetic is creative and tech-inspired.

# AI Joker

You can use this card for any artificial intelligence you know. The AI joker remains exactly the same AI until the end of the game.

*You want to design your own AI cards for your game? Here are the PDF templates:*

# Seeing AI

Supports visually impaired people.  
For example, by reading texts aloud,  
recognising and describing products,  
or translating colours and light into  
speech and sounds.

**#translation**  
**#assistance**  
**#free**

more info:

The top half of the image features a stylized illustration. In the background, a large, light blue silhouette of a human head is shown in profile, facing right. Inside the head, there is a detailed scene of a coastal city with a harbor, trees, and buildings. The water in the harbor is a darker blue, and the sky is a lighter blue with some white clouds. The Seaclear logo is positioned on the left side of the image, within the head silhouette.

# Seaclear

Uses robots and object recognition to identify and remove plastic debris from the sea floor.

more info:

**#natureconservation**

strive.ai

A fitness AI that measures heart rate and analyses and predicts training conditions and success based on past data and weather conditions.

more info:

#sports

# ChatGPT

Simulates human conversations in dialogue format and provides answers to users' questions. ChatGPT can also generate programming code or texts in specific styles.

more info:

**#textgeneration**

**#free**

# Project Connect

Performs analyses for UNICEF on which schools across the world do not yet have internet access. The goal is to provide access to as many schools as possible.

**#free**

more info:

The background of the card features a central illustration of a glowing yellow lightbulb with a filament that resembles a neural network. The lightbulb is surrounded by a vibrant, abstract splash of yellow and orange paint. Scattered around this central element are numerous smaller, faint lightbulbs and circular shapes, some of which also contain neural network patterns. The overall aesthetic is one of creative technology and artificial intelligence.

# AI Joker

You can use this card for any artificial intelligence you know. The AI joker remains exactly the same AI until the end of the game.

*You want to design your own AI cards for your game? Here are the PDF templates:*

I'm very concerned about our climate and our planet. So, I wonder how AI systems can support us in the climate crisis and help reduce the destruction of our planet.

**Len Durovsky**  
**Festival manager**

I'm a farmer and I want to protect the bees in my region and fertilise my fields properly. How can I strike the right balance?

Best wishes,

**Emilia Velasquez**  
**Centro Agrícola ,Las Flores'**

# Friends are unemployed

You are too worried about your unemployed friends in this round and can't take on a mission. It's the next player's turn.

It's becoming more and more clear to me that accessibility is a very important social issue, but until now I have never really engaged with it. How could I get started?

**Lil Comet**  
**Artist and coach**

The pollution of the oceans is really a huge problem. Do you have any ideas on how we can act more effectively and quickly?

**Bianca Bürger**  
**Conservationist**

How can we make education accessible for everyone?

**Ahmad Zachei**  
**Global Partnership for Education**

# Hacker attack

Ask a player to show you their cards.  
You may choose one of their cards  
and put it in your hand.

No one draws a new AI from the deck.

It's my partner's birthday and I have no idea what to get as a present. Do you?

Best wishes,

**Johanna**

I have lost my job as a translator because my employer uses AI for everything now. What can I do?

Best regards,

**Jayden-Blue Schmidt**  
Translator, activist,  
and amateur gardener

I can't move my hands. I find it difficult to use most of my electronic devices. Is there a tool I can use?

**Marc**

# Power outage

Each player who has at least one AI on the table has to surrender one. This AI goes back to the bottom of the deck.

No one draws a new AI from the deck.

The deadline for my biology paper is getting closer. Please help me to get it done in time. I feel completely unmotivated.

Best wishes,

**Alba**

# Rapid development

You have ten seconds to look through the deck of AI cards, pick one card, and lay it out in front of you.

# Interchangeability

Anyone can use an AI.

Move one place around the table clockwise. The cards laid out on the table in front of you stay where they are, but you take the cards in your hand with you.

We are getting married this year. We are both totally uncreative, but still want to have cool and unique invitation cards. We have heard that there are great AIs that can help us?

Best wishes,

**Tom & José**

# Bias

Biases that arise in the development of an AI can mean that it discriminates.

All players who were born in the months of November through January must give back an AI card and place it at the bottom of the deck.

No one draws a new AI from the deck. Now it's the next player's turn.

# Your own mission

What problem is on your mind?  
Make up your own mission!

*You want to have your  
own mission cards for  
your game? Here are  
the PDF templates:*

# Security risk

You've forgotten to do the risk assessment for a critical AI so you have to skip this round.

It's the next person's turn.

I want a green city and healthy plants and trees. What can I do to achieve this?

Best wishes,

**A. Sedal**  
**Employee at the**  
**Environmental Agency**

# Sustainability

If we don't share our knowledge with each other but keep it to ourselves, we won't make much progress as a society. Open-source technologies share knowledge and can enable others to build on it. This is more sustainable for our society.

Take any AIs on the table that are not open source and place them back to the bottom of the deck of cards.

Note: free of charge  $\neq$  open source

My brother has been under a lot of stress for a while and has been sleeping poorly. I don't know how to help him. Do you have any ideas?

Best wishes,

**Amari**

I am deaf and speak sign language.  
Today I have a date with a person who  
does not. How can we still communicate  
with each other?

**Sascha**

# Inequality

The person with the fewest AI cards laid out in front of them can draw a card from the hand of the player with the most AI cards in front of them to reduce inequality.

If there are different players to choose from, you decide.

I just got out of the hospital with my newborn, and I'm really overwhelmed. Can you support me?

**Nilay Meyer**

I am getting older and finding it more and more difficult to do the shopping for my restaurant. Do you have any ideas on how I can make it easier for myself?

Best wishes,

**João**

**Restaurant owner of Joãrito**

# Compensation

An AI card that you have played has caused harm.

The person to your left chooses an AI card. Put it back to the bottom of the deck.

No one draws a new AI from the deck.

I have been lonely for a while.  
Do you have any ideas that could help  
me overcome my loneliness?

Best wishes,

**Vian**

I am just starting my own business as a designer. How do I get well paid orders?

Best wishes,  
**Anna Smith**

# Development boost

Put an AI card from your hand in front of you. Do not draw a new AI card from the deck.

I'm really interested in AI. I really want to find out more about it. Which AI could be especially fun for me?

Best wishes,

**Konrad Kämmerer**

My grandma is losing her sight more and more every year. I'd love to make her day-to-day life easier, but I'm rarely around. Is there anything I can do to help her?

Best wishes,  
**Tobia Freude**

# Transparency and independence

Each player may draw a new AI card. If it is open source, you can put the AI card in your hand. If it is not open source, you must put it back at the bottom of the deck.

Note: free of charge  $\neq$  open source

Most of our teachers are completely overworked. How can we make their jobs easier?

Best wishes,

**M. Mönchshammer**  
**School Board Secretariat**

I need a spring poem for my English class. And I need it in two hours!

Please help me!

**Miray**

# New power relations

Draw one card face down from each person, shuffle the cards, and deal them again.

I want to try out my new bike. Do you guys have any tips for great places to ride to?

Best wishes,  
**Bilal**

I have been trying to learn the guitar for over a year and I'm not making much progress. What can I do?

Best wishes,  
**Steffi**
