IsMetadataFor: <https://doi.org/10.5194/egusphere-egu24-20519>

- Title of the reliquary object - referencing the EGU Poster on a 'pragmatic approach to complex citations', though the reliquary contents contained contact cards to hand out.
- Lists of creators associated with the EGU poster with ORCIDs demonstrating use of PIDS for further metadata
- Relationship between this object (isMetadataFor) and the poster via its DOI

## Reliquary external labels - front face

Data Service

BOOST-EDS project

IsSupplementedBy:

RESEARCH DATA ALLIANCE

Complex Citations  
Working Group

- List of projects that the IPCC figure reliquary solution draws on as supplementary efforts to help refine the construction of the figure dataset reliquaries.
- These are referenced by name (no PIDS), but relationship given using the DataCite relationType 'isSupplementedBy'

## Reliquary external labels - side face 2

Reliquary Container

Artist:

Amélie-Rose Parton

- Reliquary creator metadata.
- Provides credit to the artists to acknowledge that creating the reliquary itself requires effort and a should be duly recognised
