Paper 8

Title: Application of reinforcement learning to requirements engineering: requirements tracing

Authors: Hakim Sultanov and Jane Huffman Hayes

1. Add the paper	
DOI	10.1109/re.2013.6636705
Research Field	Software Engineering
2. Describe the paper	
Data Analysis Method	
method	descriptive statistics
	inferential statistics
	machine learning
Data Collection Method	
method	experiment
number of participants	0
Research Question	
question	no question
hidden in text	false
highlighted in text	false
Threats to Validity	
construct validity	false
internal validity	true
external validity	true
conclusion validity	false
