

Open Science Community – Athens: focus on researchers

Fotis Mystakopoulos

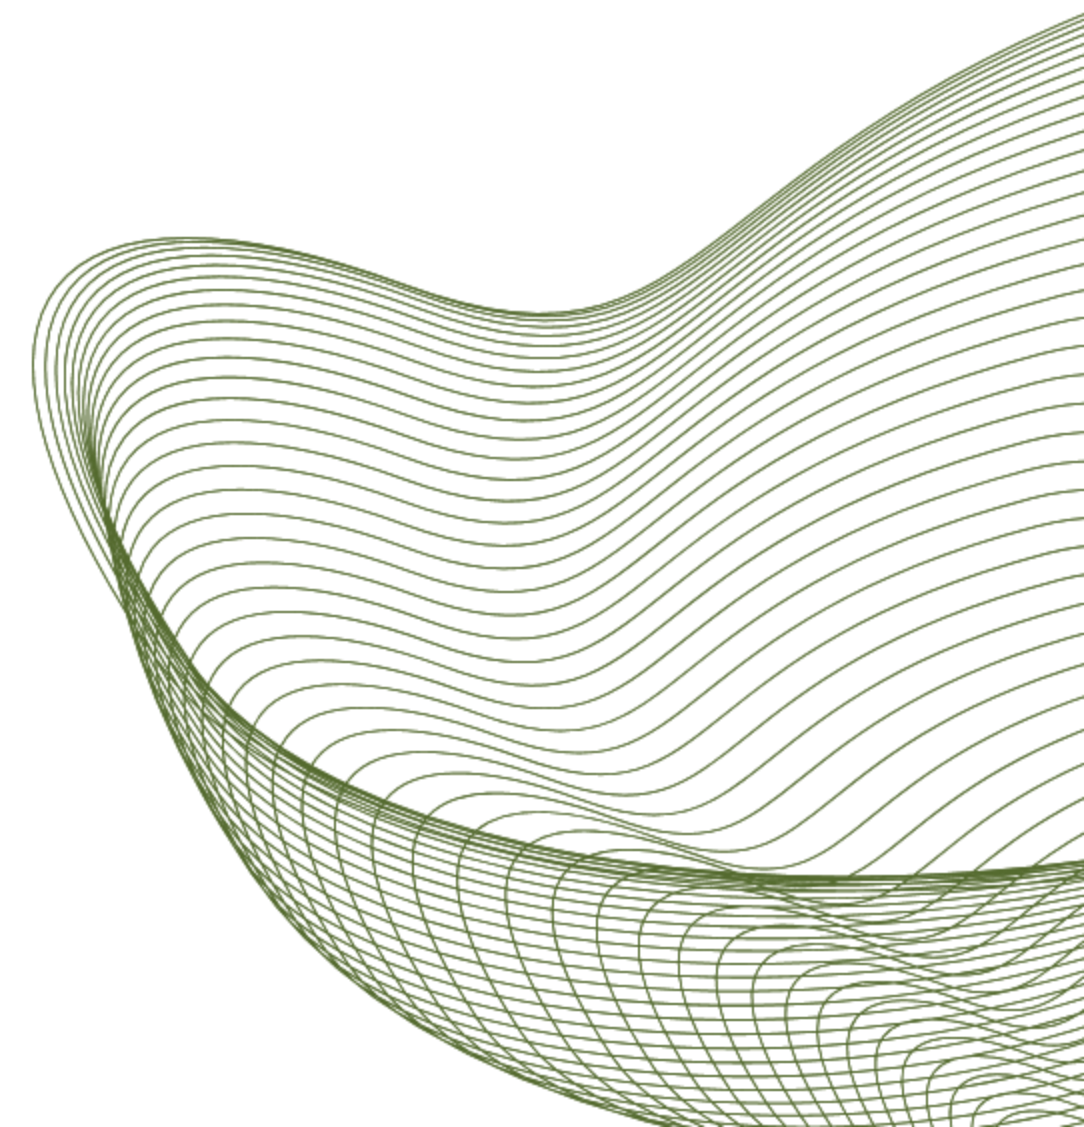

Project Policy Officer, OPERAS Research Infrastructure

EOSC FAIR Champion, FAIR IMPACT Project

Community Coordinator, Open Science Community – Athens

Open Science Community Athens
Κοινότητα Ανοικτής Επιστήμης Αθήνα

Part of a growing network

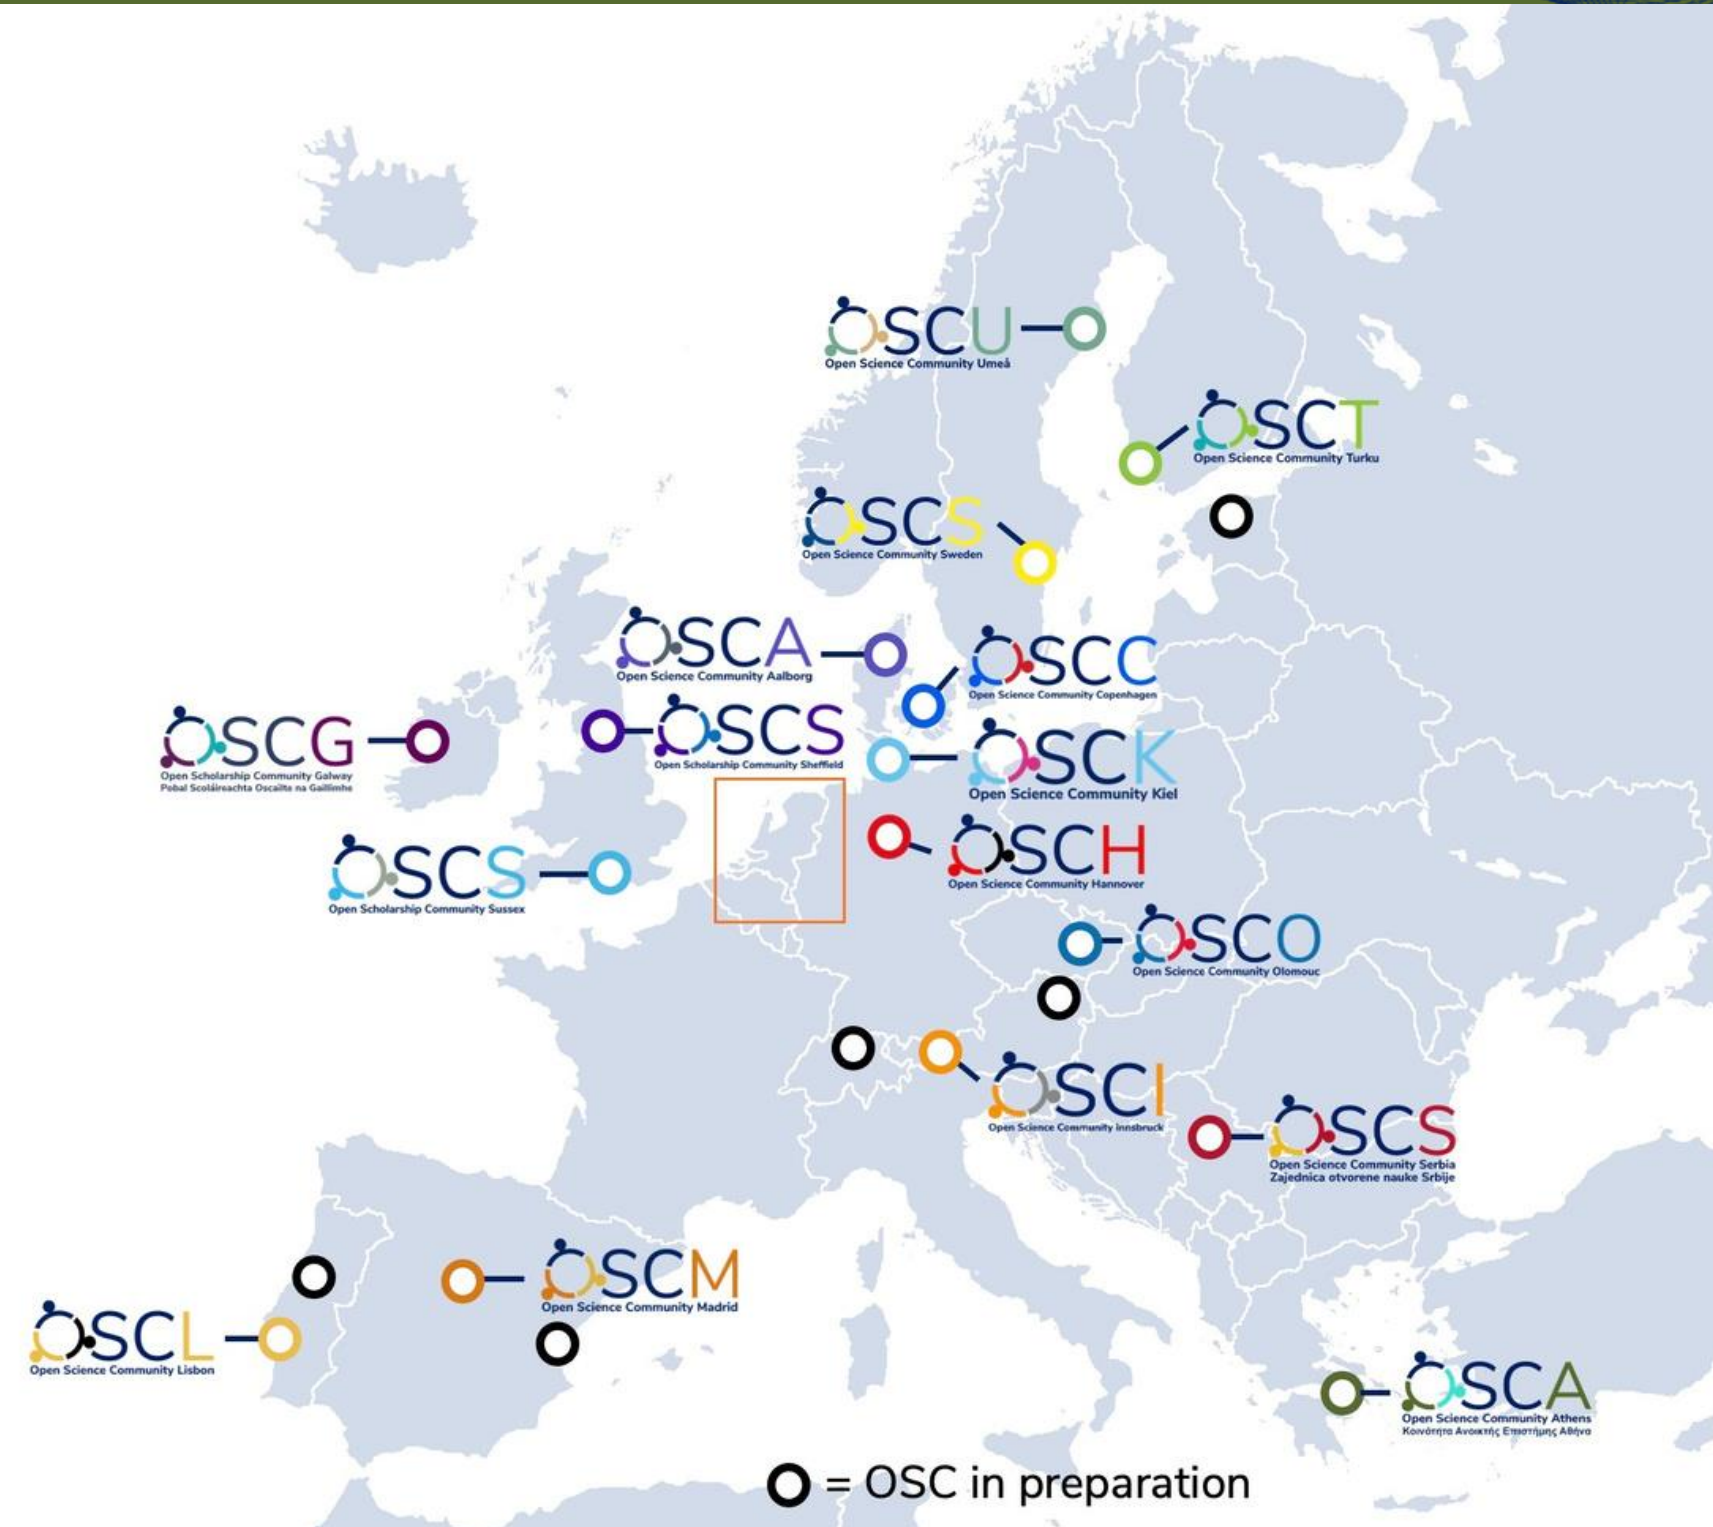

Incubator Program

- Vision & Mission
- Growing Membership
- Creating activities
- Stakeholder outreach
- Sustainability

Community (unofficially) launched in Summer 2023!

Topics of Interest

FAIR Principles

- How do we develop a PID Policy?
- How can DMPs address FAIR principles in research projects?
- What kind of licencing should you use in your research outputs?
- How do I know if a dataset is FAIR?
- How do I know if a repository aligns with FAIR Principles?

Scholarly Communications

- What are the latest developments around Open Access?
- What is the role of Open Peer Review in scientific publications?

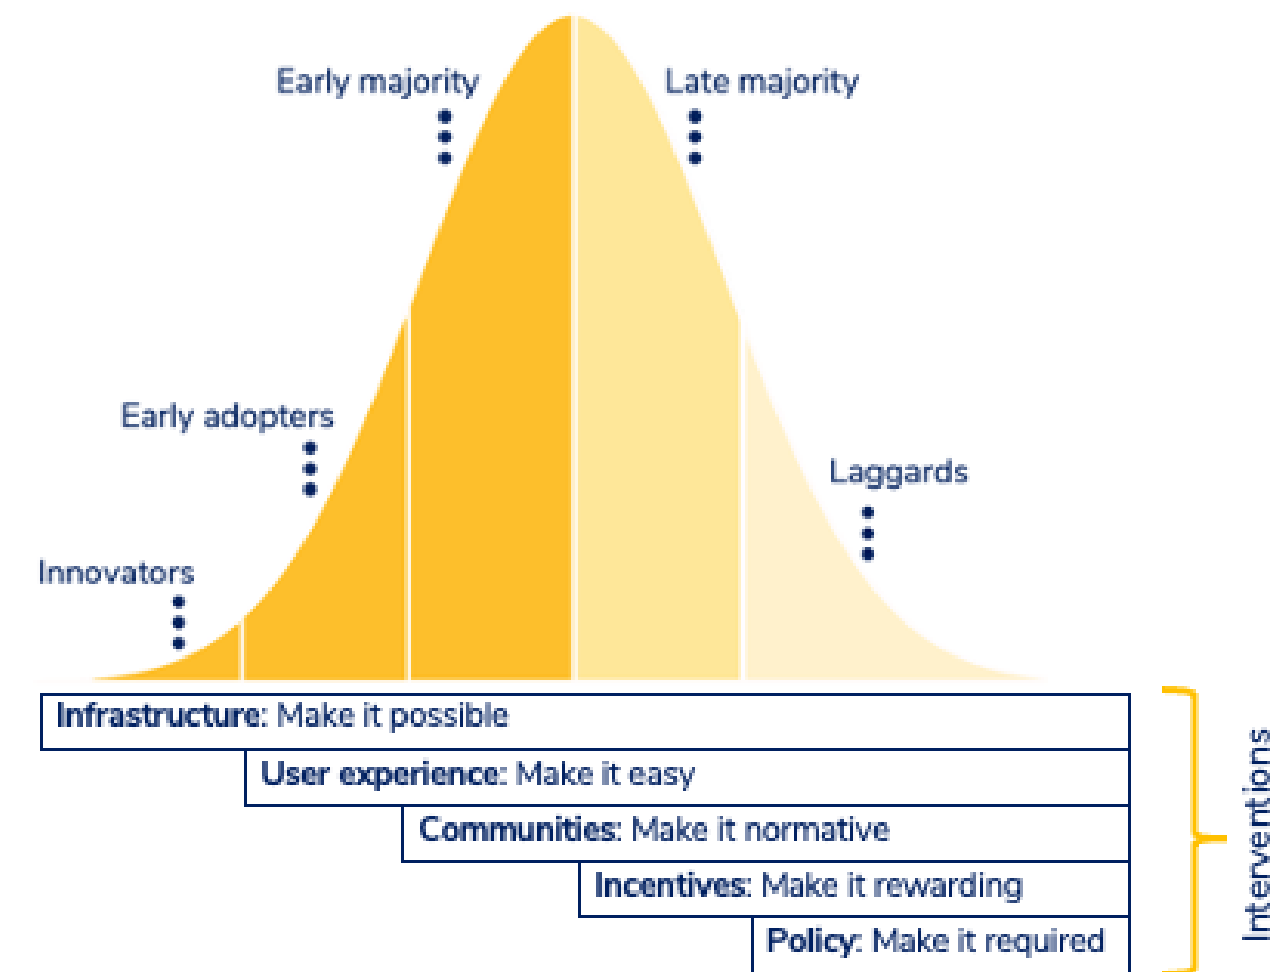

Research Assessment

- Discussing developments around CoARA
- Debating challenges around Institutional Challenges to implementing Research Assessment Reform

Target Audience

Who are the FAIR Principles for?

- Researchers
- Academics
- PhD Students
- Early Career Researchers
- Librarians
- Data Stewards

Nosek (2019) combined the Innovation Theory (Rogers, 1963) and Strategies for Culture Change (Nosek, 2019)

How can you help?

- Volunteer to become an ambassador
- Refer the community to OS Practitioners in your university
- Suggest OS Topics/Events that are relevant to your university/community

**Let's
connect!**

Please fill in the form if you want to work together to grow this community.
Together, we can identify topics to prioritise and create some digital and physical events to build awareness on Open Science topics.
