

August 19, 2014

Dear Mrs Quinn,  
Dear Mr Morrison,  
Dear Mr Williams,  
Dear Mr Arbyn,

We have read the protocol for the Cochrane review “Prophylactic Vaccination Against human papillomaviruses to prevent prevention cervical cancer and Its Precursors”, led by Marc Arbyn, Andrew Bryant, Pierre Martin-Hirsch PL, Lan Xu, Cindy Simoens and Lauri Markowitz. (CD009069 [http://summaries.cochrane.org/CD009069/GYNAECA\\_prophylactic-vaccination-against-human-papillomaviruses-to-prevent-cervical-cancer-and-its-precursors](http://summaries.cochrane.org/CD009069/GYNAECA_prophylactic-vaccination-against-human-papillomaviruses-to-prevent-cervical-cancer-and-its-precursors) and CD009069.pdf) with great interest.

We are pleased to see that this protocol addresses many important issues related to HPV vaccines. However, we believe that some points of clarification and some changes are necessary. Attached to this e-mail is a document containing our detailed comments.

We thank you in advance for taking our remarks and our suggestions for modifications of the protocol into consideration and hope to see these acted upon.

If you have any questions or seek further clarification, please do not hesitate to contact us.

Sincerely yours,

Catherine Riva
