Thank you!

Agenda

- Introduction to Open Science NL:
 - Mission and tasks
 - Development of funding instruments
 - Community engagement strategy
- FAIR Data advisory panel
 - Scope and ways of working
 - Activity plan 2024 & 2025
- Q&A's

What is Open Science NL?

- Designated national funding programme for Open Science implementation (€20M/year for 10 years)
- Complementary to what knowledge institutions are doing themselves
- Part of Dutch Research Council NWO (same rules, framework) but with its own steering board

Open Science NL's mission

“ To advance and accelerate Open Science in the Netherlands with the goal of making Open Science the norm. ”

- By providing (temporary) **funding** for projects and initiatives
- By **monitoring** and evaluating progress
- By providing a forum for **exchange** of best practice
- By organising and facilitating **coordination** at a national level

Empowering communities

Financial instruments in the work programme 2024 & 2025 particularly relevant to FAIR Data

- Directly related to FAIR Data:
 - National training and community platform for research data professionals (€ 4.8M)
 - Strengthening local and thematic DCCs (€ 15M)
- Indirectly related to FAIR Data:
 - Open Science Infrastructure Programme (€ 17.5M)
 - Replication Studies Programme (€ 5.2M)
 - Research on Open Science (€ 2.8M)
 - Empowering communities (€ 3.3M)

Community engagement strategy

Open Science NL Community Engagement Strategy

Goal: ensure that the needs of the communities are reflected in the OSNL work programme design

How?

- Direct community consultation
- Advisory panels

How?

- Direct community consultation
- Advisory panels

FAIR Data Advisory Panel

The image features a solid blue background. On the right side, there are several thick, dark blue, swirling lines that overlap and curve across the frame. On the left side, the text "FAIR Data Advisory Panel" is written in a white, sans-serif font.

Scope:

Advisory panels provide **expert guidance and strategic advice** to the programme leaders in developing effective work programmes and funding instruments that take into account community needs and advance the transition to open science.

Out of scope:

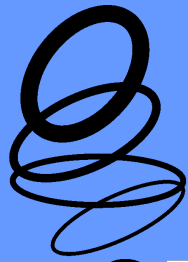

- Providing input/guidance on specific funding instruments
- Decisions pertaining to the work of OSNL

Ways of working:

- Members are experts on content or context and they join in their personal capacity
- Appointment for 2 or 3 years
- Advisory panels adhere to NWO's Code Strategy and Policy Advice
- Composition is guided by the NWO's Diversity and inclusion policy
- Meetings are twice per year
- Agendas and minutes are published

Activity plans for the panel for 2024 and 2025

- 2024:
 - Meeting in November/December:
 - Discuss community input for the future work programmes
 - Work Programme 2024 and 2025 implementation update
- 2025:
 - Meeting in Q1/Q2:
 - First ideas on how to turn community input into financial instruments
 - Work Programme 2024 and 2025 implementation update
 - Meeting in Q3:
 - Feedback on the draft Work Programme 2026 and 2027
