rulemaking-over-non-rules-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) which gives way to universalisation-directed-rulemaking-over-non-rules-(as ‘second-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) which gives way to positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules-(as ‘third-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument), and prospectively bringing about preempting—disjointedness-as-of-reference-of-thought-as-lacking-in-epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity-as-to-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules-(as ‘conflatedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument); and wherein the successive mindsets/references-of-thought and institutionalisations are suprastructural to each other (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought). Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness of its limited-mentation-capacity-(as of relative constitutedness towards relative conflation). It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow to deeper limited-mentation-capacity-deepening. (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency-

prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author's contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match 'an existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it', and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview's/dimension's reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/alchemic/essences/medieval registry-worldview/dimension certainly does has a name (transcendence). But then it is more the case that from an epistememic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

posture holding only one registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence is rather a beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought notion. Besides, Kant’s notion of transcendence (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as ‘phenomenal-abstractiveness of presence’ (and more precisely phenomenal-abstractiveness of presence as of ‘the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights’ transcendence implied by Descartes) rather than a construal of transcendence as implied herein as of deepening limited-mentation-capacity with respect to the-very-same-epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality as superseding–oneness-of-ontology as an all-encompassing epistemic-totalising–renewing-realisation/re-perception/re-thought of human psychical and institutionalisation disposition for meaningfulness-and-teleology, even though fundamentally enabled by developing human phenomenal-abstractiveness of presence as of epistemic-totalising_random-as-impulsive-phenomenal-abstractiveness-of-presencing-in-‘trepidatious-consciousness’ with recurrent-utter-uninstitutionalisation, epistemic-totalising_nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in-‘warped-consciousness’ with base-institutionalisation–ununiversalisation, epistemic-totalising_ordinal-as-qualifying-phenomenal-abstractiveness-of-presencing-in-‘preclusive-consciousness’ with universalisation–non-positivism/medieval, epistemic-totalising_intervalist-as-categorising-phenomenal-abstractiveness-of-presencing-in-‘occlusive-consciousness’ with positivism–procrypticism, and epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’ with deprocrypticism. Basically, Kant lacked a notion of metaphysics-of-absence (to overcome

epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage) with respect to the positivism/rational-empiricism registry-worldview/dimension. In other words, Kant is involved in an epistemological conceptualisation at a given point in time (erroneously construed as the absolute point of human thought apriorising, without a decentering sense of projection with respect to the prior and prospective). But existential-reality as of its human mental apriorising/axiomatising/referencing (heuristically at least) started well before that point and carries on well after that point, and such an exercise is more profound when it construes human mental apriorising/axiomatising/referencing along the full existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-deepening in its construal/conceptualisation of a superseding—oneness-of-ontology construed as transcendental-enabling/sublimating. Insightfully, this author construes an existential-reference/existential-tautologisation basis of such human mental apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating of successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-recomposuring-for-relative-ontological-completeness over conceptualisations of human mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity which tend to require constant heuristic adaptations to sync in contiguity with existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly

operating on the basis of an absolute point of human thought apriorising/axiomatising/referencing that doesn't recognise that successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-transcendental registry-worldviews/dimensions are defining/transcendental-enabling/sublimating for new prospective relative-ontological-completeness-of-reference-of-thought. In the bigger framework, this author holds that conceptually and operantly nothing is certain but for the certitude of existence and its oneness, thereafter defining relative certitudes by the contextualising-contiguity of existence as of human shallow to deeper limited-mentation-capacity-deepening as of its successively developed transcendental psychical and institutionalisation notions from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument non-rules-as-impulsive-or-accidented-or-random-mental-disposition to successively profound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules associated with human limited-mentation-capacity-deepening, as further elaborated in this paper. This same insight can be extended with respect to an Einstein and Bohr led theory-of-relativity and quantum-mechanics physics respectively in relation to the physics of Newton, Galileo, Leibniz; wherein the latter established the 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psyche as 'epistemic-totalising-renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing-psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)' of positivistic physics right back then in their epoch such that the overall underlying principle of ontological-primemovers-totalitative-framework as transcendental-enabling/sublimating back then is still what prevails today. It is that physics psyche established back then which enabled seemingly aloof conceptualisations of physics like theory-of-relativity and quantum-

mechanics within a decade or so of their articulations as of more profound elaboration of transcendental-enabling/sublimating ontological-primemovers-totalitative-framework to establish themselves as the central physics theories with little or no quarrel. It is interesting to grasp that such a physics and science psyche wasn't available to a Copernicus in what may be construed today as a relatively benign conceptualisation of a heliocentric model of the world, with the revolt of Galileo and others ultimately establishing that physics and science psyche over a non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating as of its non-scientific psyche. In other words however 'good-natured, well-meaning and wishful for enabling human progress' the mental-disposition in that epoch as alchemic and non-positivistic was structurally not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for 'palliative results' in terms of progress with an alchemic and non-positivistic psyche that the Newton's of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating. This same 'ontological misconstrual' naively grounded on 'palliative constructs and naïve conceptual patterning' driven by 'good-naturedness, well-meaningfulness and wishfulness' is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating construction having to do withan epistememic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home.

Such a construct as basic constitutedness is at best a sound palliative construct and naïve conceptual patterning however good-natured, well-meaning and wishful, but doesn't deal with the required pure-ontology conflatedness as of ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating in establishing a comprehensive disease theory for flu that syncs with other human diseases theories and human biology theories and general biology theories and informed by the bigger 'transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy' (construed rather as of an organic depth of ontological coherence/contiguity that is structurally/paradigmatically transcendental-enabling/sublimating contiguously as from the deeper apriorising/axiomatising/referencing of 'transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy' and not vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating conceptualised/construed relations), and so as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating is hardly established but for bare 'palliative constructs and naïve conceptual patterning' that are more often than not epistemic-totalising–self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag than truly ontological when examined closely such that the test of transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism when the implications of such notions are examined as of metaphysics-of-absence not only in terms of one registry-worldview's/dimension's meaningfulness-and-teleology but two or more, say our present positivism reference-of-thought and retrospective non-positivism reference-of-thought, their 'supposed ontological status' turn out to be ridiculous epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, exposing their true nature as rather palliative constructs and conceptual patterning. In the bigger framework can notions construed/conceptualised as of 'human subjectivity so-construed as ineffectively transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism' be given the label ontology, or rather is ontology exactly not about effective transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism?  but also when it comes to the many instances of poor scientific studies thus enabling the
 decisive superseding of palliative construals and conceptual-patterning that can hardly be
 qualified as ontological. The underlying contention of both such a present 'transcendental-

 'transcendental-enabling/sublimating deprocrypticism psyche-and-thereof-philosophy' as of
 their respective relative ontologically-veridical psychical background referencing as of
 conflatedness for knowledge/meaningfulness-and-teleology has to do with the bigger
 ontological-normalcy/postconvergence reality (of ontologically valid

knowledge/meaningfulness-and-teleology) as of its notional-conflatedness/constitutedness-to-conflatedness as the structural/paradigmatic basis by which ‘ontological-deficiency (conceptually represented as subsuming of virtue-defect or vices-and-impediments ‘with virtue not truly differentiated from ontology’ but rather such a conceptual-differentiation being represented as of our notional-epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag animate-existential-referencing/subjectification emotional-involvement implications)’ is construed fundamentally going by a registry-worldview’s/dimension’s reference-of-thought relative deficiency as prior relative-ontological-incompleteness-of-reference-of-thought (as its uninstitutionalised-threshold) thereby resolvable structurally/paradigmatically by the prospective registry-worldview’s/dimension’s reference-of-thought prospective relative-ontological-completeness-of-reference-of-thought; thus validating with regards to both reference-of-thought respectively as the ‘transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy’ and the ‘transcendental-enabling/sublimating deprocrypticism psyche-and-thereof-philosophy’ their relative ontologically-veridical background referencing as of conflatedness as of ontological-normalcy/postconvergence. Since we can perfectly conceptualise with both reference-of-thought the articulation of coherent meaningfulness-and-teleology respectively in non-positivism terms-as-of-axiomatic-constructs and non-deprocrypticism/procrypticism terms-as-of-axiomatic-constructs, or rather in terms-as-of-axiomatic-construct that do not grasp structurally/paradigmatically the respective reference-of-thought organic grounding as of underlying ontological-normalcy/postconvergence implications, and so beyond just a question of vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating conceptualised/construed relations. This elucidation points out that transcendence ‘must truly’ involve an ontological-dementation/dialectical-dementation–stranding/attributive-dialectics with the utter decentering of understanding itself

by the prospective/transcending/superseding reference-of-thought over the apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing of the prior/transcended/superseded at its uninstitutionalised-threshold as an epistememic-totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) eliciting a new apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of prospective/transcending/superseding reference-of-thought as candored/straight, dialectical-thinking and dialectically/contendingly-in-phase over the prior/transcended/superseded reference-of-thought as decandored/oblongated, dialectically-dementing and dialectically/contendingly out-of-phase. Basically, ontological-dementation/dialectical-dementation—stranding/attributive-dialectics speaks of the contingent supersedingness of prospective relative-ontological-completeness-of-reference-of-thought of prospective/transcending/superseding reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought of prior/transcended/superseded reference-of-thought, and so ‘with respect to the relative veracity/ontological-pertinence of their projected logical-processing-or-logical-implication of meaningfulness-and-teleology as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’, wherein the prior/transcended/superseded reference-of-thought is construed as dialectically-dementing and decentered/out-of-phase thus subsumed-as-supplanted while the prospective/transcending/superseding reference-of-thought is construed as dialectical-thinking and centered/in-phase thus subsuming-as-supplanting (by supratransversality—apriorising/axiomatising/referencing as of ‘intemporality-asymmetric-subsumption-of-temporality’, rather as of intellectual-and-moral-inequivalence/non-correspondence). Thus

contingently and ontologically, recurrent-utter-uninstitutionalisation is dementing and decentered thus subsumed-as-supplanted (given its failing/not-upholding-as-of-apriorising/axiomatising/referencing of rulemaking-over-non-rules) relative to base-institutionalisation–ununiversalisation as dialectical-thinking and centered, with the latter dementing and decentered thus subsumed-as-supplanted (given its failing/not-upholding-as-of-apriorising/axiomatising/referencing of universalisation-directed-rulemaking-over-non-rules) relative to universalisation–non-positivism/medievalism as dialectical-thinking and centered, with the latter dementing and decentered thus subsumed-as-supplanted (given its failing/not-upholding-as-of-apriorising/axiomatising/referencing of positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules) relative to our positivism–procrypticism as dialectical-thinking and centered, with the latter dementing and decentered thus subsumed-as-supplanted (given its failing/not-upholding-as-of-apriorising/axiomatising/referencing in preempting—disjointedness-as-of-reference-of-thought-as-lacking-in-epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity-as-to-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules) relative to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as dialectical-thinking and centered; and so successively, ‘with respect to relative ontological veridicality of logical-processing-or-logical-implication projected meaningfulness-and-teleology as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’. Ontological-dementation/dialectical-dementation—stranding/attributive-dialectics as of transcendental/interdimensional/transdimensional registry-worldview/dimension-level conceptualisation/construal as enabling prospective suprastructuration (suprastructural

psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsising-
 depth as of the overall registry-worldview's/dimension's reconstrual of superseding—oneness-
 of-ontology), is technically apprehended rather as of the 'reference-of-thought—degraded-
 devolving-as-of-uninstitutionalised-threshold' of meaningfulness-and-teleology of the
 prior/transcended/superseded registry-worldview reference-of-thought implied as of
 distractive-alignment-to-reference-of-thought in reflecting the
 prospective/transcending/superseding registry-worldview reference-of-thought
 suprastructuration as the 'new ontologically-veridical becoming-or-present-of-reference-of-
 thought' since there 'cannot be two different becoming-or-present-of-reference-of-thought'
 but rather that the prospective/transcending/superseding suprastructuration is by its
 prospective relative-ontological-completeness-of-reference-of-thought the becoming-or-
 present-of-reference-of-thought. However, in all the ontological-dementation/dialectical-
 dementation—stranding/attributive-dialectics implied successive institutional-
 cumulations/institutional-recomposures, such a 'confusion of relative ontologically-veridical
 becoming-or-present-of-reference-of-thought' induces an underlying 'paradox of
 transcendence' involved in all such transcendences wherein mental-dispositions as of
 reference-of-thought are caught between the prospective/transcending/superseding registry-
 worldview prospective relative-ontological-completeness-of-reference-of-thought and the
 prior/transcended/superseded registry-worldview prior relative-ontological-incompleteness-
 of-reference-of-thought, with respect to meaningfulness-and-teleology referencing. Consider
 in this case the human condition of transience of reference-of-thought as experienced by
 Okonkwo returning from banishment to Umuofia village in Chinua Achebe's *Things Fall
 Apart*. That is, basically and by reflex, mental-dispositions as of the formation of 'recurrent-
 utter-uninstitutionalisation non-rules-as-impulsive-or-accident-ed-or-random-mental-
 disposition reference-of-thought—categorical-imperatives/axioms/registry-teleology will not

necessarily construe transitorily at its uninstitutionalised-threshold that ‘base-institutionalisation–ununiversalisation rulemaking-over-non-rules reference-of-thought–categorical-imperatives/axioms/registry-teleology is the relative ontologically-veridical reference-of-thought (as explained further below with respect to ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed-epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’ associated with distractive-alignment-to-reference-of-thought, and ‘intemporality-asymmetric-subsumption-of-temporality’/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-of-conflatedness in aetiologisation/ontological-escalation); such that on a logical basis the averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> in recurrent-utter-uninstitutionalisation will be more inclined to turn towards the ‘prior conventional non-rules-as-impulsive-or-accidented-or-random-mental-disposition’ as reference-of-thought–categorical-imperatives/axioms/registry-teleology, and so over the ‘prospective relative pure-ontology conflatedness implying rulemaking-over-non-rules’. This is because a registry-worldview/dimension is a ‘circular-pervasiveness averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’ wherein achievement motives and temporal-stakes of the conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> so-

construed prospectively, will tend to ‘take precedence as of relative-ontological-
 incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-

 conflatedness that is the ontological-faith-notion-or-ontological-fideism—imbued-
 underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-
 reality enabling (by ultimately making available such prospective constraining social

 Even then and ultimately, it is mainly a cross-generational psychoanalytic-
 unshackling/memetic-reordering/institutional-recomposure that progressively rids the prior
 conventional constructs of their essence as of epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag that enables prospective registry-
 worldview/dimension suprastructuration/transcendence. This insight extends to all the
 successive registry-worldviews including ours as positivism—procrypticism as the relative
 pure-ontology conflatedness as of ontological-faith-notion-or-ontological-fideism—imbued-

This equally explains why the implied supratransversality—apriorising/axiomatising/referencing as of aetiologisation/ontological-escalation is necessarily a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation that needs to take into account this ‘paradox of transcendence’. And critically so, because beyond just ‘human conscious willing’, transcendence necessarily implies the ‘prospect of humans to appreciate/understand meaningfulness-and-teleology

beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought'; such that, structurally/paradigmatically/necessarily, that which gets to 'conceptualise/construe beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought' is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-moral responsibility over that which doesn't get there (and so, even with regards to a basic non-transcendental construal of asymmetrisation within a same registry-worldview's/dimension's reference-of-thought like Doctor – Patient, Parent – Child, Server – Customer, Teacher – Student etc. as ensues from a Derridean binary opposition analysis). However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the simple reason that two references-of-thought/axiomatic-constructs are at play with those adhering to the prior/transcended/superseded reference-of-thought–categorical-imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought to uphold meaningfulness-and-teleology as such, whereas in contrast adherence to the prospective/transcending/superseding as of its prospective relative-ontological-completeness-of-reference-of-thought will certainly grasp the pertinence of intemporality-asymmetric-subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-reconstituting–as-of-conflatedness aetiologisation/ontological-escalation; so construed, as prospective relative-ontological-completeness-of-reference-of-thought brings about deepening sense as to apriorising/axiomatising/referencing–psychologism of transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality/antinihilism meaningfulness-and-teleology construal for a sounder and sounder relationship with intrinsic-

reality/ontological-veridicality. [In this respect, it should be noted that in the example on the denaturing of Additionality as further articulated below with regards to the characters A, B, C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce to Z's supposedly ontologically-veridical posture, as by their prior relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought they may operate on a logic that once such a situation as A induced additionality defect deception develops as of 'lack of constraining social universal-transparency, that's fine and implicitly others could just as well consciously go along with it, and that it is just as implicitly legitimate as of the <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the prior/transcended/superseded reference-of-thought—categorical-imperatives/axioms/registry-teleology notwithstanding its failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; highlighting how across the successive registry-worldviews apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing arise, however, different the perception from 'very-crude' (with recurrent-utter-uninstitutionalisation) to 'seemingly polished' (with our positivism—procrysticism) depending on prospective relative-ontological-completeness-of-reference-of-thought. This is to point out that at uninstitutionalised-threshold temporal-dispositions as of relative-ontological-incompleteness-of-reference-of-thought do not necessarily acquiesce to intemporality-asymmetric-subsumption-of-temporality or asymmetrisation (as Z's ... looking down on A, B, C, D, E and F mental-dispositions perversion-and-derived-perversion-of-reference-of-thought as allowing for the endemisation/enculturation of the denaturing of

issue of stopping the practitioners of genital mutilation but has to do with averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> meaningfulness-and-teleology in such social-setup that is a question of a beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought notion with respect to recasting of gender rights in a prospective meaningfulness-and-teleology. Likewise, it could be asked whether such an aetiologisation/ontological-escalation notion as deprocrypticism institutionalisation implied suprastructuration over our positivism–procrypticism is rather not a beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought notion as of the present averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-disposition and mental-projection. The fact is that registry-worldviews/dimensions operate meaningfulness-and-teleology as of their ontological representation of reality within the limits of their reference-of-thought–categorical-imperatives/axioms/registry-teleology which provide them with their ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ (so derived from prior ontological-faith-notion-or-ontological-fideisim induced projective-insights/postdication/deconstruction), but then the further possibility of expanding the axiomatic-construal/axiomatic-conceptualisation of ontological representation of reality as prospective registry-worldview/dimension suprastructuration requires new projective-insights/postdication/deconstruction to establish more profound reference-of-thought–categorical-imperatives/axioms/registry-teleology as new/prospective ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific

Such that it is a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure as a beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought notion that enables the fulfilment of the promise of projective-insights/postdication/deconstruction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality effectively with deconstruction/engaged-destruktion/ontological-reconstituting—as-of-conflatedness; and so, with respect to transcending from recurrent-utter-uninstitutionalisation right up to our positivism–procrypticism institutionalisation suprastructuration, and prospectively the same human-subpotency—

(naively perceived as the only one as of mechanicalism with a poor sense of organicalism, despite the relative-ontological-incompleteness-of-reference-of-thought and override any such sense of relative pure-ontology conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought) arose by projective-insights/postdication/deconstruction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Further, even more decisively though by reflex we naively-and-erroneously tend to construe of human virtuous-dispositions or vices-and-impediments as arising mainly as of their conscious choices, paradigmatically/structurally a registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought as a beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought notion is the more decisive/salient notion as to human ‘objectively construed/analysed virtuous-dispositions or vices-and-impediments’ even though individual ‘conscious choices’ will tend to ‘simply qualify the effective possibility of such virtuous-dispositions or vices-and-impediments arising’; such that a registry-worldview/dimension incompleteness-of-reference-of-thought is paradigmatically/structurally susceptibility as a state of ‘in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought—categorical-imperatives/axioms/registry-teleology for the vices-and-impediments so implied to arise-and-be-endemised/enculturated beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought.

This explains why the ontological-contiguity—of-the-human-institutionalisation-process is basically about shifting apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments to supersede the state of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought as of human limited-mentation-capacity-deepening in handling the

more and more profound/depth of intrinsic-reality/ontological-veridicality construing reference-of-thought/axiomatic-construct that avails as of ontological-normalcy/postconvergence or increasing ontological-completeness-of-reference-of-thought; (such that such meaningfulness as expressed herein is more than just of logical construct implying simple logical meaningfulness as within only a single-as-our-present positivistic predicative-insights framework of reasoning and understanding, but requires a more profound retrospective and prospective mental-projection in its contemplation). This equally explicates the empirical reality associated with the occurrence of human transcendence cross-generationally as the timeframe for psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of projective-insights/postdication/deconstruction induced prospective/transcending/superseding registry-worldview/dimension ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ to take hold. It equally explicates why apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing (as ‘vague staging and performing’ and not truly dialectical-thinking meaningfulness-and-teleology) tend to arise in each registry-worldview/dimension at its uninstitutionalised-threshold. This has to do fundamentally with the antipodality of the mental-dispositions of postlogism-as-of-non-conviction as of effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology and prelogism-as-of-conviction as of effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology in the construal of intrinsic-reality/ontological-veridicality. It is important to grasp that such ‘prelogism-as-of-conviction existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context dynamic’ of the nature of ‘postlogism-as-of-non-conviction/distractive-alignment-to-reference-of-thought dynamism’

It is this dynamic-cumulative-aftereffect/aftereffect that underlies perversion-and-derived-perversion-of-reference-of-thought associated with uninstitutionalised-thresholds.) This thus conveys the individuation-level of analysis ontological-primemovers-totalitative-framework as well as differentiated intemporal-conflatedness-as-effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology-or-temporal-constitutedness-as-effecting-parsimony-of-meaningfulness-and-teleology (so implied by metaphysics-of-absence as of our procrypticism uninstitutionalised-threshold as disjointedness-as-of-reference-of-thought). By mental-reflex a postlogism-as-of-non-conviction stand is a 'mental-shortcut' that is fundamentally perverted as it perceives meaning as 'deterministic of others behaviours by its empty-form' while a prelogism-as-of-conviction stand is one that relates to meaning on the basis of its assumed existential validity, or at worst involves omissions or exaggerations relative to such fundamental existential validity, but doesn't countenance by mental-reflex the projection of empty-form of meaningfulness which is 'existentially invalid' in the very first place. Consequently, where there is 'lack of constraining social universal-transparency at the uninstitutionalised-threshold due to relative-ontological-incompleteness-of-reference-of-thought, postlogism-as-of-non-

conviction implied meaningfulness-and-teleology will tend to be incidentally conjugated with prelogism-as-of-conviction dispositions as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. This is the case beyond just any such specific instances and such specific postlogism-as-of-non-conviction character(s) and specific conjugated-postlogism character(s) but rather as of aftereffect/dynamic-cumulative-aftereffect, and thus defining together with the registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought at its ‘uninstitutionalised-threshold the apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as a dementing enculturation’. This is characteristic of the successive uninstitutionalised-thresholds whether as recurrent-utter-uninstitutionalisation (non-rules-as-impulsive-or-accidental-or-random-mental-disposition hollow-staging-and-performance-caricaturing as random/impulsive mental-disposition), ununiversalisation (non-universalising hollow-staging-and-performance-caricaturing like animistic attributing of misfortune to someone else’s malevolent spirit), non-positivism/medievalism (non-positivising/non-rational-empirical hollow-staging-and-performance-caricaturing like notions-and-accusations-of-sorcery) or procrpticism (disjointed-misappropriating-of-meaning hollow-staging-and-performance-caricaturing like psychopathy and social psychopathy), thus construing of a registry-worldview as of its relative-ontological-incompleteness-of-reference-of-thought as rather reflecting ‘virtue-and-ontological-veridicality’ as of its institutionalisation and ‘vices-and-impediments’ as of its uninstitutionalised-threshold. This consequently implies at the uninstitutionalised-threshold a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed-epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived

This conceptualisation as a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is empirically more true of human development which by a flawed metaphysics-of-presence overly construes in epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag the positivistic psyche almost as if it is the sole and genuine one without factoring in the notion of a continuous ‘epistemic-totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)’ in successions of human psyches arising with human limited-mentation-capacity-deepening, with the further implication of a prospective ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as a deprocrypticism psyche and its corresponding memetism or suprastructural meaningfulness-and-teleology.

Now supposed Z was another character inclined for maximalising-recomposuring-for-relative-ontological-completeness as preserving the inherent intemporality/longness of additionality as allowing civilisational/institutional-being-and-craft setup preservation, brought in by the Donor, there is no question that Z will register the newly divulged ontological-veridicality/intrinsic-reality of the defective

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and its derived-implications as perversion-and-derived-perversion-of-reference-of-thought to renew the construal/conceptualisation of what is considered as a relatively ontological-completeness-of-reference-of-thought for a prospective reference-of-thought that preserves intemporality, by factoring in the fact of this contextual relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought as it enculturates/endemises the perversion-of-reference-of-thought, and thus will be predisposed to a reconstrual/reconceptualisation of arithmetic principles factoring in and superseding this specific-type (as exposed by B's postlogism and C, D, E, F conjugated-postlogism) of 'imbricatedness/threadedness/recomposuring as existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' or 'dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought', and will look down on B, C, D, E and F mental-dispositions perversion-and-derived-perversion-of-reference-of-thought as allowing for the endemisation/enculturation of the denaturing of additionality and the implications thereof of subsequent denaturing in circularity/recurrence/repetition/repeatability that ensue where socially-functional-and-accordant (lack of constraining social universal-transparency which protects the internal-coherence of meaning for virtue'), not only as a specific/particular construal/conceptualisation but of universal import as having to do with endemisation/enculturation of perversions-of-reference-of-thought-(reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought) speaking fundamentally of the given prior relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-

ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-
 construed-by-prospective-reference-of-thought (wherein Z's disposition is an ordered-
 construct or secondnaturing institutionalisation over B, C, D, E and F mental-
 anarchy/mentarchy inducing of 'uninstitutionalised-threshold'). Though metaphorically in the
 mortal's temporal/shortness-of-register-of-meaningfulness-and-teleology terms, that 'low-
 life' of universal import may be utterly oblivious to the practicalities of B, C, D, E and F so
 engrossed in a world of 'high-life' of temporality/extrication as the 'fullness of
 meaningfulness-and-teleology' over the appreciation of the
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm, be it that the latter disposition as
 philosophically intemporal is what creates-and-enables the being in
 civilisation/institutionalised-being-and-craft in the first place, as the metaphorically 'high-
 life' of temporality/extrication cannot count on an overall principle of temporality/extrication
 for its existential sustainability (as B, C, D, E and F needs that the Donor grants the rewards
 by not factoring in the deceit, thus their existential principle doesn't sustain the
 'civilisation/institutionalised-being-and-craft setup' in which they are living in, hence
 qualified as extricatory/temporal/parasitising/co-opting as 'least-and-derived-temporal-
 operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-
 ontological-incompleteness-inducing-the-uninstitutionalised-threshold') but unavowedly and
 paradoxically rather on the parasitising/co-opting of the
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm enabling the ontological-contiguity—of-the-
 human-institutionalisation-process; and besides, it is because the intrinsic-reality/ontological-
 veridicality transcendental-enabling/sublimating as prospective ontologising (as undertaken
 by Z) can supersede denaturing postlogical-backtracking towards 'social-aggregation-

enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating' (referenced by B, C, D, E and F) that the further possibility (as transcendence) for prospective civilisation/institutionalised-being-and-craft setup as new conventioning arises. Hence the notion of 'imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' (from the perspective of the 'dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought') exposes contextually the relative temporality-to-intemporality (shortness-to-longness-of-register-of-meaningfulness-and-teleology) of human mental-dispositions implying an intellectual-and-moral-inequivalence/non-correspondence between of temporal-dispositions perversion-and-derived-perversion-of-reference-of-thought involved in postlogism and conjugated-postlogism as it discloses the temporal-dispositions individuations mental-dispositions displayed by B, C, D, E and F (as 'wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather 'a prior dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing reference-of-thought' in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' in their relationship with additionality as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-

 intemporal-preservation-entropy-or-contiguity—or-ontological-preservation whether

upholding ontological-veridicality/intrinsic-reality or not (and so whether unconsciously, expediently or consciously) is a sufficient basis so long as it is socially-functional-and-accordant such that the possibility of blurring or undermining existential-reality by ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ is just as valid, hence a failure to abstractly recognise intemporality/longness as of-existential-reality with the implication thereof as perversion-and-derived-perversion-of-reference-of-thought with respect to the registry-worldview’s/dimension’s vices-and-impediments implied by its implied relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought. Hence the reason why the vices-and-impediments inherent of a given registry-worldview/dimension cannot be structurally/paradigmatically/ontologically resolved within it as there is need for prospective ontological-completeness-of-reference-of-thought structured to inherently supersede such vices-and-impediments, whether as base-institutionalisation in superseding recurrent-utter-uninstitutionalisation, universalisation superseding base-institutionalisation—ununiversalisation, positivism superseding universalisation—non-positivism/medievalism and deprocrypticism superseding positivism—procrypticism/disjointedness-as-of-reference-of-thought. The central idea here being that the most critically important notion in the situation

of A, B, C, D, E, F and Z, is Z's upholding of prospective transcendental-enabling/sublimating over any temporal extricatory paradigm, however, the enculturation and mass thinking behind temporal extricatory paradigm. (* Noting that individuation as defined elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between shortness-to-longness-of-register-of-meaningfulness-and-teleology, that can accrue at least incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus critically enabling a dynamic-cumulative-aftereffect intradimensional and transcendental/transdimensional/interdimension/maximalising-recomposuring-for-relative-ontological-completeness analysis as metaphysics-of-absence/postdication). Finally, thus it is critical to note that the existential contextualisation above as 'imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity'-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' (from the perspective of the 'dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought') is a priori and supersedes the mere notion of additionality as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity since mere additionality is bound to wrongly represent the additions of B, C, D, E and F as correct (as it is a virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference in epistemic-totalising-self-referencing-syncretising/illusion-of-the-present-present-consciousness/mirage as metaphysics-of-presence) thus overlooking their 'wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-

 apriorising/axiomatising/referencing over B, C, D, E and F temporal-dispositions references-
 of-thought as subtransversality—apriorising/axiomatising/referencing, can be demonstrated
 in the archetype characters of say a Socrates or Rousseau (even though no human individual
 as receptacle of individuations can be qualified as purely of intemporal-disposition or purely
 of temporal-dispositions). Wherein within their respective registry-worldviews/dimensions
 setups, their maximalising-as-transcendental recomposuring mental-dispositions in projection
 for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as
 supratransversality—apriorising/axiomatising/referencing (as the grander intellectual-and-
 moral effort that can be made within their registry-worldviews/dimensions) is rather poorly
 construed to the ordinariness/averageness of thought within their respective registry-
 worldviews/dimensions setups (which mental-dispositions and conventioning – as ‘wrongly-

 existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-
 that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ – will
 rather think as irrational the projective disposition of a Socrates that doesn’t rather advance a
 temporal interest in the city-state polity but is rather bent on spreading new ideas as a natural
 philosopher while prioritising as of nonextricatory-existential-preempting-of-existential-
 unthought in his asceticism the prospective intemporal over the temporal status quo, and
 likewise with a Rousseau who isn’t advancing a temporal interest that his aristocratic stature
 should warrant like actively pursuing for landed properties and currying favours with kings
 but is rather bent principally on a prospective commitment on grasping and spreading notions
 of a renewal of the human condition as universal rights and enlightened despotism. This is
 certainly because emanantly/becomingly/solipsistically temporal-dispositions do not
 appreciate that there is a more ‘profound level of living in the realm of human
 thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-
 reference-of-thought’-as-conflatedness that then ‘invents/creates’ the structural/paradigmatic
 possibility for prospective institutionalised-being-and-craft as there isn’t any inherent
 intemporality/longness needed for maximalising-recomposuring-for-relative-ontological-
 completeness out of the ordinariness/averageness of any institutionalised-being-and-craft
 setup. Hence such intemporality/longness as maximalising-recomposuring-for-relative-
 ontological-completeness need its epistemic-totalising–renewing-realisation/re-perception/re-
 thought as of given that the-succession-of-registry-worldviews-or-dimensions-
 institutionalisations/the-ontological-contiguity—of-the-human-institutionalisation-process is
 ‘not a human epistemic-growth/transvaluative-rationalising/anamnestic-
 residuality/transepistemicity transformation exercise as of temporal-dispositions/shortness-of-
 register-of-meaningfulness-and-teleology but rather is solely a secondnaturing to supersede

the uninstitutionalised-threshold divulged by relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought'. The implication is that acting as-of-a-secondnatured nature is not enough for articulating prospective institutionalisation requiring 'intemporal projection epistemic-totalising-renewing-realisation/re-perception/re-thought' for the requisite prospective maximalising-recomposuring-for-relative-ontological-completeness, and such conceptualisations from only a secondnaturedness of thought as rather contextually temporal is not intemporal as of-universal-and-abstractive nature but is in 'epistemic-totalising-self-referencing-syncretising'/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Thus an institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation with recurrent-utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-or-medievalism with universalisation and procrypticism with positivism, in need for a renewed institutionalisation respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. This equally explain why the notion of human transcendental progress is relatively 'outlier driven' as it requires an intemporal-solipsism/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of thought more than just institutionalised secondnaturedness such that it has often been the erudition periphery of institutional-cumulations/institutional-recomposures that had tended to fundamentally put into question their present with new paradigm shifts. It is ontologically-speaking impossible to

comprehensively undermine a dimension's/registry worldview's postlogism without undermining the registry-worldview's/dimension's reference-of-thought itself as implied by its state of relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought, for instance psychopathy in positivism—procrypticism or notions of sorcery in universalisation—non-positivism/medievalism (wherein from the prospective point-of-reference respectively as deprocrypticism or positivism, it is in ontological-dementation/dialectical-dementation—stranding/attributive-dialectics as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology), given that this fundamental relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought of the given registry-worldview/dimension as reflected from ontological-normalcy/postconvergence epistemic/notional_projective-perspective, by its 'contextualising-contiguity of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' means it is structurally bound to enculturate/endemise its given postlogism. Obviously we can appreciate that without a positivistic outlook/reference-of-thought there is no chance that a non-positivism/medievalism registry-worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of human apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing in non-positivism/medievalism where the mindset/reference-of-thought is not rationally-empirical/positivising. Likewise the procrypticism/disjointedness-as-of-reference-of-thought wherein the perversion-of-reference-of-thought from a psychopathic character is contextually likely to be engaged with (as 'prelogism-as-of-conviction re-engaging reflex') and even

exploited (whether unconsciously, expediently or consciously), implies a comprehensive structural/paradigmatic undermining of the phenomena of psychopathy and social psychopathy is impossible without putting in question and undermining our uninstitutionalised-threshold as procrypticism for futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism which is effectively the structural/paradigmatic resolution of psychopathy and social psychopathy (besides palliative conceptualisations that can hardly make a dent on the comprehensively defined structural/paradigmatic phenomenon in terms-as-of-axiomatic-construct of the larger aetiologisation/ontological-escalation) just as positivism is the structural/paradigmatic ontological resolution of notions-and-accusations-of-sorcery, and ad hoc tempering with medieval postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) as instances of notions-and-accusations-of-sorcery doesn't grasp the underlying and comprehensive medieval social-construct structural/paradigmatic endemisation/enculturation of such a phenomenon. Further, registry-worldviews/dimensions being prospectively averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> with their 'intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis' or 'socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation' determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective 'intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating' to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of its relative-ontological-

incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought and accessorially its enculturating/endemising of its postlogism, and superseding both of these in the prospective registry-worldview/dimension institutionalisation. For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-primemovers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions based on such sanctified-conventioning-social-aggregation-enablers. Likewise only by articulating comprehensive and effective aetiologisation/ontological-escalation resolutions to the defect of procrypticism and its postlogism first with respect to formal constructions that the derived effectiveness/ontological-primemovers-totalitative-framework can feed back as percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> to dimensionally (registry-worldview) to undermine the relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought of our procrypticism and accessorially its enculturating/endemising of psychopathy and social psychopathy. Thus suprastructurally (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) and as of the ontological-normalcy/postconvergence ontological-completeness-of-reference-of-thought perspective, ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—

 successive institutional-cumulations/institutional-recomposures underlying the ontological-
 contiguity—of-the-human-institutionalisation-process has to do with human limited-
 mentation-capacity-(as of relative constitutedness towards relative conflation) inducing
 successive recomposuring from shallow-limited-mentation-capacity to deeper-limited-

 will only be deprocrypticism institutionalisation and not the subsuming-succession of

 existential-becoming-transitioning to deprocrypticism as well as the overall existential-

[By extension such projective-insights from a ‘notional human completed-mentation-capacity’ perspective about deprocrypticism conceptually implies that procrypticism is the actually implied epistemic-abnormalcy reflection ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology-in-arrogation, along successive limited-mentation-capacity-deepening implied uninstitutionalised-thresholds: as failing/not-upholding-as-of-apriorising/axiomatising/referencing recurrently rulemaking-over-non-rules-⟨as ‘base-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩, as failing/not-upholding-as-of-apriorising/axiomatising/referencing universalisation-directed-rulemaking-over-non-rules-⟨as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩, as failing/not-upholding-as-of-apriorising/axiomatising/referencing positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules-⟨as ‘second-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩, as failing/not-upholding-as-of-apriorising/axiomatising/referencing preempting—disjointedness-as-of-

The above articulation points out that our conceptions of rules as of their psychical and institutional implications is more of ‘our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument,-for-aposteriorising/logicising/deriving/intelligising/measuring-of-meaningfulness-and-teleology devising’ (reflected in our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology) as of the given level of our limited-mentation-capacity-deepening with respect to existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as of the superseding-oneness-of-ontology. Postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) is ‘the abnormal application of logic for virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’ or hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is very much different from ‘the normal application of logic for being-construal-or-intrinsic-reality-construal as-abstract-construal-as-of-veridical-existential-reference’ known as prelogism (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) as conviction whether good or bad conviction which is at the least ‘of sound logical-dueness of reference-of-thought’, whereas postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation being ‘of non-conviction’ do not operate on the same logical-dueness of registry//anchoring-of-meaning/meaningful-reference/ontological-reference/contending-reference/registry-worldview mental-devising-representation basis of prelogism-as-of-conviction as ‘of sound reference-of-thought’ which is reflected as mental straightness and candored. Rather postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation being about ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’, harkens back to a registry/mental-devising-representation that is reflected/perspectivated as dementing (oblongated/decandored-and-dialectically-or-contendingly-out-of-phase). Thus postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (psychopathic-and-the-temporal-dispositions-conjugation-to-it-as-conjugated-postlogism) implies fundamentally non-veridical implied reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation

and thus the apriorising–registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are undue for logical contention but rather ontologically reflected/perspectivated in perversion-of-reference-of-thought. In existential terms, postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (psychopathic-and-the-temporal-dispositions-conjugation-to-it-as-conjugated-postlogism) speaks of a disposition to engage in postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’, involving absolving/fleeting/escaping-reflex-logic, counting on the fact that others will sooner or later be in prelogism-as-of-conviction/thinking relation with the formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/impulsively-dementing, hence wrongly elevating its perversion-of-reference-of-thought into logical-contention rather than dealing with as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect. Postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (psychopathic-and-the-temporal-dispositions-conjugation-to-it-as-conjugated-postlogism) thus inherently implies and is about articulations of perversion-of-reference-of-thought with respect in the very first instance to the validity of implied reference-of-thought rather than valid articulations of logical contention as the latter is with respect to ontological-veridicality of logical-processing-or-logical-implication only after the former (reference-of-thought) has been established as veridical/true. Postlogism/outcome-sought-precedes-logical-dueness is not about a defect of logical-processing-or-logical-implication or a defect of incidenting-as-social-performance of

the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance but rather speaks of false projection of 'apriorising-reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)' of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology implying as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect as first-order faulty-mentation-procedure-deception-or-urge (inducing circularity/recurrence/repetition/repeatability of a subsequent implication of a second-order level wrongly implied deception of logical-processing-or-logical-implication of infinite deception possibilities with respect to the infinite possibilities of 'perfect logical-processing-or-logical-implication' on the false basis of the perversion-and-derived-perversion-of-reference-of-thought). Such perversion-of-reference-of-thought/mental-devising-representation-perversion has various shades of 'temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies'. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let's say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a 'dereifying act', then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from bad conviction or prelogism in that a child who has a bad conviction or prelogism is ad hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of

temporal-existential constraint. They don't initiate such a situation 'as a rational way of thinking' and even less to the gravity that the psychopath does.

One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction (bad or poor conviction), whether by omitting or exaggerating in a circumspect and ad hoc manner but relative to existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Lying as such is 'an ad-hoc defect of logical-processing-or-logical-implication or defect of incidenting-as-social-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance that doesn't speak of the true postlogism/psychopathic phenomenon which has to do with the perversion-of-reference-of-thought-and-not-of-logical-contention with regards to registry/anchoring-of-meaning/meaningful-reference/ontological-reference/contending-reference/registry-worldview as the psychopath perversion-of-reference-of-thought speaks of 'a circularity/recurrence/repetition/repeatability as enabled by social-functioning-and-accordance—as-of-social-stake-contention-or-confliction' implying a 'being or ontological or meaningfulness or existential defect' which is poorly construed as 'pathological lying at the level of logical-processing-or-logical-implication of conviction/prelogic mental-reflex engagement' rather than being construed as a mental and teleological disposition defect at the level of the reference-of-thought as of perversion-of-reference-of-thought construed as mental-unsoundness). In fact, besides 'lying' such poor characterisation of the psychopath extends to other notions like 'bullying', 'manipulating', 'fooling', etc. which are all in prelogism-as-of-conviction/thinking notions though 'bad or poor convictions' (bad or poor conviction/prelogism construed as wrong logical-processing-or-logical-implication or

wrong operation of prelogism-as-of-conviction but nonetheless prelogism-as-of-conviction). Fundamentally, psychopathic slanting is particular in that it departs from a relation to the ‘empty-form-of-meaning-as-inherently-deterministic outside the framework of a veridical existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’ contrasted with bad/poor conviction which departs with a relation to ‘omitting or exaggerating within the framework of a veridical existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’. But while poor-or-bad prelogism may be what is perceived from a ‘normal’ social and conviction point of view, particularly with adult psychopathy; these are all wrong and actually will make an analysis of the psychopath and psychopathy ontologically-flawed. The psychopath is in a state of non-conviction-or-‘existential-decontextualised-transposition’-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-‘impulsive-dementation’ (not recognising/giving-up-on the sound operation/processing of logic as the basis for deriving essence of meaning but rather perceiving meaning as just a hollow mimicking form that determines how others will act, more like a projection of form, i.e. non-conviction-or-‘existential-decontextualised-transposition’ being a state of ‘conscious, unprincipled and instrumentalised non-conviction in veridical unsoundness-or-inauthenticity-of-reference-of-thought as the psychopathic mindset/reference-of-thought ontological-primemovers-totalitative-framework value-reference reflected by its perversion-of-reference-of-thought’ in contrast to conviction as a state of ‘conscious, principled and uninstrumentalised conviction in veridical soundness-or-authenticity-of-reference-of-thought as the conviction mindset/reference-of-thought ontological-primemovers-totalitative-framework value-reference’. This is the fundamental fact that explains the evasiveness in

grasping the psychopath in its motive and orientation as the psychopath's actions can be as simple as a basic formulaic (meaning-by-the-mere-illogical-possibility-of-it-being-narrated-or-postlogism-formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented) understanding of the effects on interlocutors of endearing, pleasing, laughter, etc. in inducing distraction, empathy, suspension-of-profound-reasoning or reference-of-thought teleological-degradation in relation to its mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in undermining an prelogism-as-of-conviction perspective which reference-of-thought is veridical. All the bad or poor conviction terms above, i.e. lying, bullying, manipulating, fooling, etc., wrongly point to the fact that the psychopath is having a 'deliberative prelogism-as-of-conviction mental process' with respect to its end purpose, and thus wrongly implying it is in 'prelogism-as-of-conviction' with the wrong idea that its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought-elements/registry-elements/anchoring-of-meaning-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are existentially veridical. The psychopath is operating on the basis of 'a last mimicking denaturing postlogism—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'-with-succeeding-shifting-of-the-narratives-and-acts-foci-as-deception-of-successively-shifting-or-non-cohering-narratives-and-acts' towards 'social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating', and so to satisfy 'a faulty-mentation-procedure-deception-or-urge'; and so, one narrative iteration at a time. Now the faulty-mentation-procedure-deception-or-

urge implying ‘a convictional deliberativeness’ is coming from its interlocutor’s ‘prelogism-as-of-conviction mind’ itself which prelogically/in-conviction (as the prelogism, which is wrongly induced in distractive-alignment-to-reference-of-thought, conjoins all the denaturing postlogism—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-with-succeeding-shifting-of-the-narratives-and-acts-foci-as-deception-of-successively-shifting-or-non-cohering-narratives-and-acts as absolving/fleeting/escaping-reflex-logic, to wrongly imply a depth-of-conviction whether as of bad or good conviction/prelogism) in reality is wrongly assuming a depth-of-postlogism-slantedness/insane integration. The psychopath being postlogical—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness or pathologically/impulsively hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is not lying (or manipulating or bullying), in fact the psychopath will prefer that normal conviction minds think it is lying (or any notion of a bad-or-poor conviction rather than the idea of non-conviction), as at least they will then wrongly realign prelogically/(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) again to it with respect to its subsequent narratives to examine the pertinence of its logic/logical-processing i.e. engaging logical operating/processing and wrongly granting it conviction (be it even bad-or-poor conviction as this will then wrongly imply its wrong or poor performance of logical-processing-or-logical-implication, rather than its hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging/slanting of empty narratives that are flawed or non-existent as postlogism-as-of-non-conviction) thus wrongly involved in prelogism hence wrongly validating as real its ‘fundamental faulty-mentation-

procedure-deception-or-urge' which is its 'apriorising—reference-of-thought-
 elements/apriorising—registry-elements, that in reality are out of existential-contextualising-
 contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-
 reference-of-thought-devolving-as-of-instantiative-context', of implied—logical-dueness-or-
 scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-
 reference/teleology (instead of examining in the very first place their relevance/pertinence or
 its soundness-or-authenticity-of-reference-of-thought); in so doing, analysing its meaning as
 essence instead of analysing it as non-veridical hollow mimicking form or vague-rhyming-or-
 copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-
 vocalisation-or-subknowledging or meaning-by-the-mere-illogical-possibility-of-it-being-
 narrated or non-veridical hollow mimicking narratives. What the psychopath is doing is
 'SLANTING' or impulsive-dementing. That is to arrive at a sought-outcome by
 subknowledging-or-mimicking the non-veridical hollow-form of the meaning of other
 persons conviction narratives which it perceives as 'being blatantly deterministic' of the
 views and actions of the 'normal prelogism-as-of-conviction mind', i.e. the psychopath is
 'narrating veridical emptiness/hollow narratives'. The idea being about arriving at a sought-
 outcome by taking a posture that does not attach a depth of conviction on narratives but rather
 simply 'the mere possibility of the hollow narratives being articulated, and then integrated by
 interlocutors as real'. Thus the psychopathic postlogical mindset and by derivation
 conjugated-postlogisim/dementing-integration mindset is one of relating to meaning and
 meaningfulness as valid by 'the mere performative-form representation of meaning and
 meaningfulness' rather than veracity/ontological-pertinence of meaningfulness. The psyche is
 thus fundamentally one geared towards how to perform in interlocution rather than express a
 genuine sense of conviction and hence the disposition for extrinsic-attribution by active
 social-aggregation-enabling. Meaning and meaningfulness is seen not as an end-construct

that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism. More precisely, it is critical to distinguish between the notion of slanting (*cinglé* in French) as postlogism-as-of-non-conviction and the notion of a lie which is prelogism-as-of-conviction (be it a bad conviction) as with a lie the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implication. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implication. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-as-of-non-conviction with respect to social-stake-contention-or-confliction (and by extension

‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implicitation as a process reflecting existential-reality as of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), with respect to construing meaning and meaningfulness as prelogism-as-of-conviction, but instead construes meaning and meaningfulness as postlogism-as-of-non-conviction explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn’t have a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-

context as is the case when someone tells a lie, and actually where such a ‘coherent whole of narratives’ with respect to existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction mind/mental-disposition ‘wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative’ to wrongly imply that the slanting psychopath narratives are a ‘coherent whole of narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’, and this is the mechanism that induces conjugated-postlogism/dementing-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by conviction interlocutors is not a ‘coherent whole of narratives’ but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism-as-of-conviction alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in conviction to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn’t come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaning and meaningfulness as of prelogism-as-of-conviction with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult

psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, induces interlocutors conviction/prelogical alignment to its non-conviction/postlogical narratives whereas at childhood psychopathy interlocutors will not align in-conviction/prelogically (in order not to wrongly conjoin the psychopathic postlogical slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as conviction/prelogical narratives, and this is what actually occurs by inducing conjugated-postlogism/dementing-integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-dementing. Thus, with slanting the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implication), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-inauthenticity-of-reference-of-thought/dementing as opposed to lying deception construed in a shade of soundness-or-authenticity-of-reference-of-thought. Insightfully, it points out as well that the basis of the postlogism/psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism-as-of-conviction interlocutor mental engagement reflex who ‘aligns in-conviction’ as it will ‘normally do’ with other conviction/prelogical minds to a postlogism-as-of-non-conviction

mind, and then wrongly validates that the postlogism-as-of-non-conviction mind is in prelogism-as-of-conviction. In other words, the operation of the psychopathic mind as of its incomplete mentation development (as inclined to induce a faulty-mentation-procedure-deception) as it fails to construe meaning and meaningfulness as based on prelogism-as-of-conviction but rather as based on postlogism-as-of-non-conviction with its personality development into adulthood on this basis, paradoxically leads to the prelogism-as-of-conviction mind's deception since the latter operates on the basis that everyone must be conviction (be it bad-conviction at worst) and the notion of postlogism-as-of-non-conviction doesn't register naturally except where the personality development of the childhood psychopathy into an adult psychopath is experienced closely, and the adulthood psychopath mentation processes structure can be retraced to the delirious mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity by its dereification on a mental-processing disposition that is rather a 'dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence', and so in contrast with the expected 'reifying nuanced/multivalent mental-processing' of convictional dispositions in existential-contextualising-contiguity, however bad-or-poor their ontological-performance of convictional mental-processing. This underlies

the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a ‘conviction by non-conviction cross-perception effect’ wherein the convictional interlocutor by its mental-reflex is wrongly inclined to perceive and so specifically with adult psychopathy a ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity knowledge-reification with regards to the psychopath ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ out of existential-contextualising-contiguity–in-reification/dereification, while the psychopath view of the convictional interlocutor’s supposedly ‘reifying nuanced/multivalent mental-processing’ in existential-contextualising-contiguity knowledge-reification is rather as of its ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ inclination out of existential-contextualising-contiguity–in-reification/dereification. While at childhood psychopathy such a ‘dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence’ out of existential-contextualising-contiguity–in-reification/dereification is socially inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency of its acts, at adulthood psychopathy the lack of such universal-transparency of the postlogism-slantedness rather makes the latter ‘sound impassioned/stirring/vivid/spirited’ to the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existential-contextualising-contiguity, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter ‘apparently impassioned/stirring/vivid/spirited but rather falsely implied existential-contextualising-contiguity’ disposition tends to be socially enculturated/endemised as of conjugated-postlogism. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency–

 actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy,
 as the fact is the psychopath is very much pathological and tends to act impulsively in its
 faulty-mentation-procedure-deception as of circumstantiality. [This is more profoundly
 exposed in the conceptualisation in reflecting the ontological-contiguity—of-the-human-

 reality of human-subpotency—aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor means about human mental-disposition. The
 implication is that we ‘consistently’ have two sets of mental-dispositions having to do with

the uninstitutionalised-threshold of all registry-worldviews/dimensions; as of metaphysics-of-presence and metaphysics-of-absence representations. First, ‘human institutionalisation mental-disposition’ within the scope of a registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as-not-failing/upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication). Then, ‘human temporal uninstitutionalised-threshold mental-disposition’ construed either ‘as out of the scope of the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ or ‘the registry-worldview/dimension uninstitutionalised-threshold reference-of-thought’ (as-failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ‘by projected <formative>wooden-language—of-temporal–mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology of the registry-worldview/dimension institutionalisation reference-of-thought’, as of an ontological-normalcy/postconvergence epistemic/notional_projective-perspective) as so reflected from the prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. With the attainment of registry-worldview/dimension institutionalisation by social universal-transparency we can very much uphold a

secondnatured quasi-intemporal-disposition reference-of-thought as 'human institutionalisation mental-disposition' which is why humankind pursues institutionalisations as devising human collective emancipation from base-institutionalisation to universalisation to positivism and prospectively to deprocrypticism in resolving the vices-and-impediments of their respective uninstitutionalised-thresholds as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. But exactly for the purpose of ensuring the perpetuation of this human institutionalisation capacity (as in enabling futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism) as the very essence of human virtue itself, it is equally important to understand how institutionalisation comes to be limited at successive registry-worldviews/dimensions institutional-cumulations/institutional-recomposures (as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor) to grasp how we can then supersede/transcend prospectively. 'Human temporal uninstitutionalised-threshold mental-disposition' refers to our fixation to the mere-categorical-imperatives/axioms/registry-teleology of the registry-worldview/dimension institutionalisation reference-of-thought but failing/not-upholding-as-of-apriorising/axiomatising/referencing prospective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication as construed from the prospective registry-worldview/dimension institutionalisation reference-of-thought, and as revealed by this prospective institutionalisation existential-contextualising-contiguity-in-reification's-elucidation-of-prospective-relative-ontological-completeness-of-reference-of-

thought-devolving-as-of-instantiative-context. Fully understanding psychopathy which is the postlogism-as-of-non-conviction of the positivism–procrypticism registry-worldview/dimension institutionalisation–uninstitutionalisation reference-of-thought is inevitably tied to understanding our procrypticism as our ‘human temporal uninstitutionalised-threshold mental-disposition’ from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview institutionalisation reference-of-thought, as of ontological-normalcy/postconvergence wherein our procrypticism ‘human temporal uninstitutionalised-threshold mental-disposition’ is decentered and dialectically-dementing as dialectically-out-of-phase, just as understanding the postlogism of the universalisation–non-positivism/medievalism registry-worldview’s/dimension’s reference-of-thought like notions of and accusations of sorcery, is inevitably tied to understanding non-positivism/medievalism as the ‘human temporal uninstitutionalised-threshold mental-disposition’ so-construed from prospective positivism registry-worldview/dimension institutionalisation reference-of-thought as of ontological-normalcy/postconvergence ‘wherein the non-positivism/medieval mental-disposition is decentered and dialectically-dementing as dialectically-out-of-phase; and in both instances, construed as of their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing (as-of-their-respective-prospective-registry-worldview/dimension existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; since the prospective institutionalisation existential-contextualising-contiguity-in-reification’s-elucidation-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context speaks of a deeper limited-mentation-capacity-

(as of relative conflation) of a deeper and more correct grasp/apriorising-and-understanding of ontology/ontological-veridicality/intrinsic-reality). Effectively, 'human temporal uninstitutionalised-threshold mental-disposition' is what is reflected at uninstitutionalised-threshold as registry-worldviews/dimensions apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as of perversion-and-derived-perversion-of-reference-of-thought of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively (as applicable with the construal of psychopathy and social psychopathy postlogism) procrypticism; wherein the habitual intradimensional placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology 'nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives) scheduling or a-registry-worldview's-or-dimension's-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument', at uninstitutionalised-threshold (reflecting uninstitutionalised-threshold), is now substituted (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective of the prospective registry-worldview/dimension institutionalisation reference-of-thought) by its 'decentering and dialectical-dementation of its reference-of-thought'; which we can effectively acquiesce to as of the uninstitutionalised-thresholds but will rather have a mental complex when this is implied prospectively to imply our uninstitutionalised-threshold as procrypticism, just as all registry-worldviews/dimensions had hitherto displayed a mental complex when their construal as uninstitutionalised-threshold is implied. Thus this implied human 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural

psychology-of-dynamics' as driven by ontological-normalcy/postconvergence will explain the specific natures of registry-worldviews/dimensions references-of-thought (as 'underlying scheduling of soundness-or-authenticity-of-reference-of-thought') behind the successive registry-worldviews/dimensions institutional-cumulations/institutional-recomposures peculiar psychologisms/psychologism-constructs of meaning and meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutionalisation-universalisation psychologism, universalisation-non-positivism/medievalism psychologism, positivism-procrypticism psychologism, and prospectively deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren't or weren't other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are 'not decentered' and 'not dialectically-dementing' as of their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing rather so construed from a higher psychologism's articulation of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, deprocrypticism as decentering and dementing the positivism-procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaning and meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its

psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening) a renewing of mindset/reference-of-thought of meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity—of-the-human-institutionalisation-process leading to the successive registry-worldviews/dimensions reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the deprocrypticism worldview/dimension reference-of-thought psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct takes an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that construes meaning and meaningfulness from the prior (and even lower) registry-worldview's/dimension's reference-of-thought psychologism up to its own registry-worldview's/dimension's reference-of-thought psychologism as of its more profound existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in reflecting/perspectivating their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing. Hence this articulation of successive registry-worldviews/dimensions reference-of-thought psychologisms up to the deprocrypticism, is an initiation into deprocrypticism psychologism as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its more profound existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in reflecting/perspectivating the relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-

caricaturing of positivism–procrypticism and all the lower registry-worldviews/dimensions. Basically, this idea of ‘human temporal uninstitutionalised-threshold mental-disposition’ as metaphysics-of-absence points out that ontological analysis should rather be from the prospectively implied ‘human institutionalisation mental-disposition’, and in this instance implying an ontological analysis of psychopathy and social psychopathy from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview reference-of-thought and not the present positivism–procrypticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview reference-of-thought and not its present universalisation–non-positivism/medievalism registry-worldview reference-of-thought; as of the fact of fundamental registry-worldview/dimensional ‘prospective as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect, so construed in order to supersedes its structural/paradigmatic vices-and-impediments. Paradigmatically, this idea extends to all issues implying metaphysics-of-absence ‘human temporal uninstitutionalised-threshold mental-disposition’. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more ‘rational realistic’ construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition (‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’). Wherein, going by its first impulse with respect to its ‘construal/conceptualisation activity as of its coming into existence in the world’, human natural mental-reflex starts out with a simplistic idealism to

account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while construing/conceptualising fundamental meaningfulness-and-teleology. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn't give agency (or at the least 'perceived' sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual and moral allegiance to the supernatural and the real in adjunction, as of their 'perceived' effectiveness. With a commitment to the idealism of the supernatural not only as of its 'perceived' virtuous import, but as of 'perceived' nefarious effects to human volition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendancy of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and

post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening in construing/conceptualising meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) that actually is behind all apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence and metaphysics-of-absence ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-

functioning-and-accordance—as-of-social-stake-contention-or-confliction rather as socially-functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms-as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to

imply that there is a prospective virtuous possibility of human institutionalisation that can be grasped, and so expressed in terms-as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms-as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the ‘perpetually stable temporal-to-intemporal nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold’, across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation building up from the prior ones as of their respective elucidation-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules-as-impulsive-or-accidental-or-random-mental-disposition as failing/not-upholding-as-of-apriorising/axiomatising/referencing rulemaking-over-non-rules-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for base-institutionalisation–ununiversalisation, ununiversalisation failing/not-upholding-as-of-apriorising/axiomatising/referencing universalisation-directed-rulemaking-over-non-rules-(as ‘second-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for universalisation–non-positivism/medievalism, non-positivism/medievalism failing/not-

upholding-as-of-apriorising/axiomatising/referencing positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules-(as ‘third-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for positivism—procrypticism or prospectively, positivism failing/not-upholding-as-of-apriorising/axiomatising/referencing ‘deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as conflation of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for perpetuating-deprocrypticism). Supposed there was no apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument defect (no perversion-of-reference-of-thought) with social universal-transparency of the calculations to be done, it is fair to say ‘human institutionalisation mental-disposition’ in this reference-of-thought is of quasi-intemporal-disposition (and the whole point of human knowledge aspiration and virtue is to achieve this state or deferential-states-of-this-state as with formalisations and percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>). Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity but for failure in performance as defect of logical-processing-or-logical-implication or defect of incidenting-as-social-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) with limited grasp of intrinsic-reality at various stages of human emancipation up to the present day, such that social universal-transparency required for ‘human institutionalisation mental-disposition’ has been made transcendently available only in partial construals/conceptualisations that are as-of existential-reality, and

where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold mental-disposition’ as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental structural disposition for human temporalities-drives to adhere to the <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology (failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication) of the given registry-worldview/dimension, when incapable of construing a prospective registry-worldview reference-of-thought as providing the resolution for the vices-and-impediments associated with such a present registry-worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence) of the notion of ‘human temporal uninstitutionalised-threshold mental-disposition’ that structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be rape because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those

people/group/ethnicity deserved what happened to them because they are so and so; etc. [We can note here that such statements as of a variance of more benign to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant-threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’ in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of-meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, explaining why uninstitutionalised-thresholds are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporality) with the latter enabling epistemic-totalising—renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as of the notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct

conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology conflatedness with no conventioning complexes’! (As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as an otherness from any emotional-involvement/subjectification/notional-epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-temporal-to-intemporal-dispositions-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-

level of analysis’ as well as ‘temporal-to-intemporal-dispositions individuation-level of analysis’; for construing the implications of such ‘modular-thresholds’-of-temporal-to-intemporal-dispositions-dissociability social-functioning-and-accordance—as-of-social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing—psychologism by way of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ in resolving registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance capabilities, as the very foundational operant conceptualisation of an ontologically-contiguous ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’. This fundamentally highlights a ‘notional-conflatedness/constitutedness-to-conflatedness dynamic relationship’ with meaningfulness-and-teleology as directly reflecting ‘ontological-normalcy/postconvergence dynamics (in abstractly elucidating any given registry-worldview’s/dimension’s ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsis-ing-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding-oneness-of-ontology’, and so by the successive registry-worldviews/dimensions in corresponding snowballing succession of synopsis-ing-depth of meaningfulness-and-teleology reconstrual going by ontological-normalcy/postconvergence implications); involving successively, epistemic-totalising_random-as-impulsive-phenomenal-abstractiveness-of-presencing-in-‘trepidatious-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context/constitutedness

 for-social-functioning-and-accordance with no-temporal-to-intemporal-dispositions-non-

 involvement’ is self-centering-and-definitional of human consciousness as of our animate-
 existential-referencing/subjectification, but actually such reality is otherwise of the same
 ontologically-veridical nature as existence-as-of-its-mimetic-echoness/existence-in-

Thus an appropriate ontologically-veridical social-conceptualisation and/or storied-construct as aetiological/ontologically-escalatory that has the capacity to supersede the inherent human high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction specific element (which tend to denaturing meaningfulness-and-teleology construal, as high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction is behind manifest human ‘non-dissociability’ of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance temporal-to-intemporal thresholds’ within the ontological scope of any given institutionalisation), should be able to imply the same underlying ontologically-veridical existence-as-of-its-mimetic-echoiness/existence-in-reverberation/existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness of the superseding–oneness-of-ontology as any other truly ontologically-veridical conceptualisation, be it of animate or inanimate nature.  teleological-determinism of human functional and performance thresholds are effectively
 desubjectifiable-as-objectifiable to the point of attaining ‘effecting teleological-

 as-so-being-as-of-existential-reality/antinihilism. While the institutionalisation perspective
 tends to point to a commonness of reference-of-thought as of prospective relative-
 ontological-completeness-of-reference-of-thought construed as 'prelogism-as-of-conviction
 commitment of reference-of-thought', however at the uninstitutionalised-threshold the
 implication of such a commonness of reference-of-thought is rather as of prior relative-
 ontological-incompleteness-of-reference-of-thought further disambiguated as of temporal-
 dispositions as well as as these conjugate with postlogism perversion-of-reference-of-thought
 inducing derived-perversion-of-reference-of-thought whether beyond-the-consciousness-
 awareness-teleology-in-existential-extrication-as-of-existential-unthought, more succinctly
 qualified as 'madeupness/bottomline of reference-of-thought' in the sense that in this instance
 such interlocutors 'madeupness/bottomline of reference-of-thought' tend to be circular with

respect to their ontologically-effective ‘decided temporal/shortness-of-register-of-meaningfulness-and-teleology non-conviction commitments’ and are no longer of ‘prelogism-as-of-conviction commitment of reference-of-thought’ such that the naïve implication of a mutual logical exercise (logical-processing-or-logical-implication) is deceptive. This construal effectively enables delineation of underlying ontological-primemovers-totalitative-framework of mental-dispositions. ‘Madeupness/bottomline of reference-of-thought’ across all registry-worldviews/dimensions refers to the constituent temporal individuations mental-dispositions at a registry-worldview/dimension uninstitutionalised-threshold and points to its apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as of its uninstitutionalised-threshold pointing to an inclination for untranscendability and undementability as of mechanical-knowledge even beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought but for the constraint of prospective social universal-transparency, and so in contrast to the same registry-worldview/dimension ‘prelogism-as-of-conviction commitment of reference-of-thought’ mental-disposition that reflects its ontologically-veridical meaningfulness-and-teleology as its institutionalisation and equally points to an inclination for transcendability and dementability as of organic-knowledge once it construes of its beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought uninstitutionalised-threshold. Such construal of temporal individuations ‘madeupness/bottomline of reference-of-thought’ at uninstitutionalised-threshold is critical because then and in effect, the mental-reflex to ontologically validate these as of ‘prelogism-as-of-conviction commitment of reference-of-thought’ mental-disposition so-construed as of sound/existential-contextualising-contiguity logical-dueness is ontologically put into question given the perversion-and-derived-perversion-of-reference-of-thought. Such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating is established at the

uninstitutionalised-threshold, and not as it is circularly construed within the institutionalisation frame as a construal of logical pertinence (logical-processing-or-logical-implication), but rather priorly the determination of temporal individuations 'madeupness/bottomline of reference-of-thought' as these reflect soundness-or-authenticity-of-reference-of-thought, that is, whether or not there is perversion-and-derived-perversion-of-reference-of-thought in the first place before any implication of logical-dueness/logical-pertinence arises. Consider as metaphysics-of-absence the case of notions-and-accusations-of-sorcery in a non-positivistic social-setup uninstitutionalised-threshold which is rather in want of positivistic meaningfulness-and-teleology. Effectively establishing deconstructive ontological-veridicality implies recognising the overall registry-worldview's/dimension's relative-ontological-incompleteness-of-reference-of-thought as superstitious/non-positivistic inclined, its postlogism and conjugated postlogism as acknowledging and contending about notions-and-accusations-of-sorcery beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought leading to perversion-and-derived-perversion-of-reference-of-thought, with this succinctly reflecting the reality of temporal-dispositions of 'madeupness/bottomline of reference-of-thought' as of such non-positivism reference-of-thought uninstitutionalised-threshold. Such that it is not a logical exercise (logical-processing-or-logical-implication) that is in order which will rather be circular as fundamentally operating on false non-positivism registry-worldview's/dimension's institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology of superstition but rather one of determination of temporal individuations 'madeupness/bottomline of reference-of-thought' as this reflects postlogism denaturing and conjugated-postlogism derived-perversion-of-reference-of-thought as deconstruction of ontological-veridicality in implying prospective institutionalisation as of positivism meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-

teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation (rather than a naïve operation of logic as is further highlighted below). The fact is with or without postlogism and derived conjugated-postlogism, human ‘prelogism-as-of-conviction commitment of reference-of-thought’ tends to be relative. That is, even within an institutionalisation basis we don’t necessarily function socially absolutely on the basis of veridical sound logic as we are limited by capacity/beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought given our relative-ontological-incompleteness-of-reference-of-thought and secondly by arbitrariness in the choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute ‘prelogism-as-of-conviction commitment of reference-of-thought’ has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal paradigms and further so with respect to increasing informality as in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) of all human institutions, and particularly where social universal-transparency is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-at-the-other-moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism-slantedness. This reality of our ‘prelogism-as-of-conviction commitment of reference-of-thought’ as being in effect subpar rather than absolute and

specifically more compromised at uninstitutionalised-threshold and as associated with postlogism as conjugated-postlogism is what qualifies contextually as temporal individuations ‘madeupness/bottomline of reference-of-thought’ as a temporal mental-disposition defect contrasted to a wrongfully implied supposedly ‘prelogism-as-of-conviction commitment of reference-of-thought’ as of ontologically-sound mental-disposition. This manifestation as a social dynamic (dynamic-cumulative-aftereffect) of such contrastive ‘madeupness of reference-of-thought’ and ‘prelogism-as-of-conviction commitment of reference-of-thought’ takes the form of temporal-to-intemporal social interlocutors beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought de-convergence as of transversality-of-disambiguated-apriorising/axiomatising/referencing. Such a distinction particular at the uninstitutionalised-threshold is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the-reference-of-thought as of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the first place to establish or not perversion-and-derived-perversion-of-reference-of-thought. This delineation is in line with the idea of human temporal (shortness-of-register-of-meaningfulness-and-teleology) to intemporal (longness-of-register-of-meaningfulness-and-teleology) individuations nature as implicitly recognised in the structuring of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge notionalisation on the basis that it is equally critical to understand the possibility of the ignorances just as conceptual knowledge itself to further uphold, advance and skew for the latter. The point being that meaningfulness-and-teleology construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of ‘prelogism-as-of-conviction commitment of reference-of-thought’ as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold’ the possibility of the ontological-veridicality of interlocutors

‘madeupness/bottomline of reference-of-thought’ mental-dispositions, and as is often associated with mental-dispositions geared towards ‘flawed impression-driven, expletive-driven and non-intellectual critique’ contention. This difference between ‘madeupness/bottomline of reference-of-thought’ and ‘prelogism-as-of-conviction commitment of reference-of-thought’ critically explains how the successive registry-worldviews/dimensions psychoanalytically-unshackled/memetically-reordered/institutionally-recomposed going by the fact that projective insights about prior registry-worldview/dimension ‘madeupness/bottomline of reference-of-thought’ as of prior relative-ontological-incompleteness-of-reference-of-thought is what needs to be superseded for prospective registry-worldview/dimension institutionalisation prospective relative-ontological-completeness-of-reference-of-thought effective ‘prelogism-as-of-conviction commitment of reference-of-thought’ (as operant construal) by social universal-transparency rendering the prior registry-worldview/dimension ‘madeupness/bottomline of reference-of-thought’ (as operant construal) untenable. This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or uninstitutionalised-threshold has to do with the possibility of attaining or not attaining social universal-transparency. Where this is effectively attained, it becomes psychically and institutionally untenable for interlocutors to act as of subpar (madeupness/bottomline of reference-of-thought) to ‘prelogism-as-of-conviction commitment of reference-of-thought’. This will explain why the apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-teleology, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-

completeness-of-reference-of-thought. This imbued potency in social universal-transparency across all registry-worldviews/dimensions is what explains the possibility of social transcendence. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed ‘prelogism-as-of-conviction commitment of reference-of-thought’ to meaningfulness-and-teleology as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to ‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism-as-of-non-conviction mindset ‘madeupness/bottomline of reference-of-thought’ arises out of its temporal individuation’s surreptitiousness (‘lack of constraining social universal-transparency such that it can induce apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing rule) as of marginal social instigation (consider the targeted nature of the adult psychopath’s maturation/indirectness/spatialisation/credulity/craftiness within the scope of social functionality) while socially enabled circularly (due to the underlying prior relative-ontological-incompleteness-of-reference-of-thought as social procrypticism/disjointedness-as-of-reference-of-thought is itself an enabler for psychopathy just as a non-positivistic registry-worldview/dimension social superstition is itself an enabler for its corresponding postlogism for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogisms derived ‘madeupness/bottomline of reference-of-thought’, and so overall, on the flawed mental-reflex that such protraction of ‘madeupness/bottomline of reference-of-thought’ is supposedly ‘prelogism-as-of-conviction

commitment of reference-of-thought' (as 'lack of constraining social universal-transparency). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted 'madeupness/bottomline of reference-of-thought' doesn't socially take hold then, as such childhood postlogism perversion-of-reference-of-thought hasn't superseded the social universal-transparency in further inducing temporal-dispositions derived-perversion-of-reference-of-thought. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview's/dimension's temporal-dispositions are often construed rather as circumventive issues as of temporal extricatory paradigm, and not by ontological-veridicality insight as of structural/paradigmatic <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency is structurally/paradigmatically inherently 'advantaged ultimately' by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a cross-generational transcendence import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness-of-reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness-of-reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-thought and override any such sense of relative pure-ontology conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought conflatedness). So the transcendental meaningfulness-and-teleology implied as of projective-

insights about the prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness-of-reference-of-thought doesn't supersede the prior's 'circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology' in the short run. Chinua Achebe's *Things Fall Apart* Okonkwo returning from his long banishment construes meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness-of-reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness-of-reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his confliction with his circular-pervasiveness averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> when the foreign cultural diffusion arrived before superseding it cross-generationally. We can equally construe of the inverse situation as in H.G. Wells's *The Country of the Blind* which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez's 'seeing of the environment' reference-of-thought as of it prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought doesn't make an impression but is actually frowned upon on the habituated 'feeling of the environment' reference-of-thought as of its prior relative-ontological-incompleteness. This is because the personhood and socialhood formation have

been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is an averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> that hardly entertains its own transcendability/dementability, and why transcendence is rather cross-generational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness-of-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought from an ontological-normalcy/postconvergence epistemic/notional_projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for cross-generational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-thresholds,

including our own as positivism–procrysticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implication validity’ but rather such a demonstration is more structurally/paradigmatically, together with all other such demonstrations of the prospective epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in its circular-pervasiveness’ at its uninstitutionalised-threshold as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought; thus qualified as transcendence/suprastructuration. Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implication validity’ but rather structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/reference-of-thought meaningfulness-and-teleology apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-

incidenting-predicative-insights, ‘a contributory invalidation of non-scientific and non-positivism epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context

We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening as inducing more and more profound projective-insights construed as the successive

 'higher-level-heights

perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights' (prospective registry-worldviews/dimensions). The fundamental difficulty is that 'no given perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights' (registry-worldview/dimension) recognises that there is any above it, and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run cross-generational habituation construed as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics with the prior ontologically construed as decentered and dementing as of distractive-alignment-to-reference-of-thought, with the implication that its logical-dueness doesn't exist just as the logical-dueness of the animist reference-of-thought with their God of plane proposition doesn't ontologically exist.) We can grasp as well that it is the 'space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights' (as deprocrypticism) that ultimately provides the ideal 'ascertaining-perspectives for gauging the overall earth landscape'. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed deprocrypticism reference-of-thought construal as implying a prospective relative-ontological-completeness-of-reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/'postconvergence, thus facing the dilemma that by mental-reflex we are not 'habituated' to the notion of our reference-of-thought being construed as 'dementing and not thinking', and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as dementing and not thinking,

within non-positivism/medievalism uninstitutionalisation as dementing and not thinking,
 within ununiversalisation uninstitutionalisation as dementing and not thinking, and recurrent-
 utter-uninstitutionalisation uninstitutionalisation as dementing and not thinking. We can grasp
 this by imagining how a non-positivism uninstitutionalised-threshold will react when
 construed as dementing and not thinking with say notions-and-accusations-of-sorcery it
 considers given as a matter of fact, and imagine of such a reaction with a dementing and not
 thinking representation of ourselves construed from futural Being-development/ontological-
 framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-
 meaningfulness-and-teleology as of prospective deprocrypticism/preempting—
 disjointedness-as-of-reference-of-thought perspective as in disjointedness-as-of-reference-of-
 thought and rather in distractive-alignment-to-reference-of-thought ! Thus the reality of this
 analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-
 emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-
 of-perceived-social-stake-contention-or-conflict nature’ for the sake of deconstructive-
 engagement/engaged-destruktion because an analysis construed as of reference-of-thought is
 all about mental-soundness or unsoundness representation (with no logical engagement
 implication) hence rather of a psychoanalytic-unshackling purpose; as a change of reference-
 of-thought implies a change of
 perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of-
 meaningfulness-and-teleology as a shift of the curve-of-prospective-relative-ontological-
 completeness-of-reference-of-thought/axiomatic-construct and not a change in logic as a
 change along the same reference-of-thought/curve-of-prior-relative-ontological-
 incompleteness-of-reference-of-thought/logical-processing-or-logical-implication. In other
 words, a truly direct deprocrypticism ontological analysis will be a ‘mental break-
 in’/dementing of our positivism–procrypticism as we by reflex ‘mentally break-in’/dement a

non-positivistic reference-of-thought (as we don't engage it on the basis of the non-positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology just as a deprocrpticism analysis will not engage us on the basis of our procrpticism/disjointedness-as-of-reference-of-thought reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought of non-positivism and procrpticism/disjointedness-as-of-reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of 'relative-ontological-completeness-of-reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought' took place historically (and so for instance, as of the relative 'ontological-veridicality tolerance as stretched-truth' allowed to the animist to say 'God of plane' in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of 'ontological-veridicality tolerance as stretched-truth' is cross-generationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate 'acculturating-indigenising-pidginising transitioning settings and their social constructions as of epistemic-totalising—self-referencing-syncretising' prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation). Likewise, this 'ontological-

veridicality tolerance as stretched-truth’ as of a deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism/disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as dementing/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology in positivism–procrypticism terms-as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-dementing with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-dementing with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-dementing with respect to an implied prospective mental state of positivism, and prospectively the ‘mental tools’ available to a state of positivism–procrypticism are not logically-intelligible-but-rather-are-distractively-dementing with respect to an implied prospective mental-state of

deprocrpticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence as of appropriateness or inappropriateness of logical-processing-or-logical-implication, issues of perversion-and-derived-perversion-of-reference-of-thought rather render such notions as forgiveness/overlooking/resetting nothing more but vague epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misconstruing based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite the contrary as actually endemising/enculturating vices-and-impediments as when so-construed as a <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of reference-of-thought—categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; thus transforming such ‘denaturing notions of forgiveness/overlooking/resetting into a temporal mental-disposition ontological-primemovers-totalitative-framework ‘misconstrued vicious insight disposition’ thus rather endemising/enculturating vices-and-impediments! As the question that arises is what does it mean to forgive/overlook/reset with regards to a temporal mental state of prior relative-ontological-incompleteness-of-reference-of-thought beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought circular-pervasiveness at its uninstitutionalised-threshold in perversion-and-derived-perversion-of-reference-of-thought as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrpticism? It effectively means perpetuating the endemising/enculturation of the given uninstitutionalised-threshold reference-of-thought. What is of relevance is a veridically uninhibited/decomplexified ‘understanding of how the ontological-contiguity—of-the-human-institutionalisation-process works and induces prospective institutionalisations’ as a ‘The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct’ and not a vague ‘impression-driven/good-naturedness/wishfulness

construct'; and that virtue-as-ontology/moral/ethical act is a reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure', and so à-la-Diderot as of the Encyclopédistes positivistic liberal and scientific outlook as an opened-construct-of-meaningfulness-and-teleology with its structural/paradigmatic virtue-as-ontology implications over a non-positivism/medievalism outlook averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> that cannot be construed in forgiveness/overlooking/resetting terms-as-of-axiomatic-construct given its structural/paradigmatic vices-and-impediments implications! Such that 'our pretence to a prospective mental inclination for virtue-as-ontology' goes hand-in-hand with 'our introspection as of the structural/paradigmatic <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of the beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of our prior relative-ontological-incompleteness-of-reference-of-thought given its likelihood to induce our prospective vices-and-impediments', and thus 'our shouldering of the given transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic underlying this prior relative-ontological-incompleteness-of-reference-of-thought behind our uninstitutionalised-threshold's perversion-and-derived-perversion-of-reference-of-thought as vices-and-impediments', and so as of an opened-construct-of-meaningfulness-and-teleology prospective transcendental mental inclination for prospective relative-ontological-completeness-of-reference-of-thought virtue-as-ontology'. Otherwise,

such a notion of forgiveness/overlooking/resetting with respect to perversion-and-derived-perversion-of-reference-of-thought shouldn't be narrowly interpreted only with regards to our positivism registry-worldview/dimension in its epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> but should go back ironically to the very beginning at recurrent-utter-uninstitutionalisation to imply forgiveness/overlooking/resetting within it same averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> thus undermining the very notion in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as the very structural/paradigmatic essence of virtue-as-ontology by its reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure' as its leads to prospective registry-worldviews/dimensions of increasing prospective relative-ontological-completeness-of-reference-of-thought superseding successive structural/paradigmatic basis of vices-and-impediments; – as failing rulemaking-over-non-rules in recurrent-utter-uninstitutionalisation or failing universalisation-directed-rulemaking-over-non-rules in ununiversalisation or failing positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules in non-positivism/medievalism or failing preempting—disjointedness-as-of-reference-of-thought-as-lacking-in-epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity-as-to-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules in procrypticism, and thus requiring respectively transcending/superseding to base-

institutionalisation, universalisation, positivism and deprocrypticism. And by that same ‘ironic token’ the notion of grander human lives should not be construed as of the mental-disposition perpetuating the ontological-contiguity—of-the-human-institutionalisation-process in an opened-construct-of-meaningfulness-and-teleology allowing for reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure’ but rather averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> starting at the recurrent-utter-uninstitutionalisation in permanence that doesn’t allow for any such transcending enabled by the ontological-contiguity—of-the-human-institutionalisation-process. In other words the notion of forgiveness/overlooking/resetting with respect to perversion-and-derived-perversion-of-reference-of-thought is rather vague, as the more fundamental issue here is that human meaningfulness-and-teleology as of human limited-mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-veridicality is ‘ever structurally/paradigmatically in need for prospective relative-ontological-completeness-of-reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised—ununiversalised striving for universalisation, the universalised—non-positivist/medievalist striving for positivism and in our case the positivist—procryptist striving for deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening enabled by reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure’ and so allowed by ontological-dementation/dialectical-dementation—stranding/attributive-dialectics. Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no structural/paradigmatic issue of relative-ontological-incompleteness-of-reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived-perversion-of-reference-of-thought not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are not construed structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating within the framework in reflecting the ontological-contiguity—of-the-human-institutionalisation-process involving human limited-mentation-capacity-deepening. In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental paradigmatic/structural issue as failing rulemaking-over-non-rules is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism—procrypticism disjointedness-as-of-reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought naïve perpetuation in epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

of the fundamental vices-and-impediments with both uninstitutionalised-thresholds, thus explaining the fundamental dilemma of all institutional Establishments in their averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>. Such confusion arises from a misconstruing of what is veridically implied deconstructively/ontological-reconstitutively by ontological-dementation/dialectical-dementation—stranding/attributive-dialectics, which implies that ‘any registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of its prior relative-ontological-incompleteness-of-reference-of-thought’ is ‘a dementing-and-decentered-to-prior-institutionalisation’s-categorical-imperatives/axioms/registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as unsoundness-or-inauthenticity-of-reference-of-thought’ from the ‘prospective registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of its prospective relative-ontological-completeness-of-reference-of-thought’ as ‘a dialectical-thinking-and-centered-to-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as soundness-or-authenticity-of-reference-of-thought’. Certainly, we can recognise the veracity/ontological-pertinence of the above articulation with respect to retrospective registry-worldviews/dimensions placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of their prior relative-ontological-incompleteness-of-reference-of-thought while our positivism registry-worldview/dimension placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is always of prospective

relative-ontological-completeness-of-reference-of-thought. But when it comes to a prospective assessment wherein we are of prior relative-ontological-incompleteness-of-reference-of-thought as ‘a dementing-and-decentered-to-prior-institutionalisation’s-categorical-imperatives/axioms/registry-teleology positivism–procrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as unsoundness-or-inauthenticity-of-reference-of-thought’ from the ‘prospective presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of deprocrypticism as of its prospective relative-ontological-completeness-of-reference-of-thought’ as ‘a dialectical-thinking-and-centered-to-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as soundness-or-authenticity-of-reference-of-thought’, we are rather less apt to concur going by our epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-reference-of-thought as of our relative-ontological-incompleteness-of-reference-of-thought, and what we are doing then is ‘re-referencing from the same positivism–procrypticism relative-ontological-incompleteness-of-reference-of-thought’ and thus wrongly implying our undementability hence our untranscendability for a structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure’, and paradoxically thus by implication that there is no relative-ontological-incompleteness-of-reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal

projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology temporal/shortness-of-register-of-meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of structural/paradigmatic nature of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview's/dimension's reference-of-thought is inherently a metaphysics-of-presence construed as dialectical-thinking-and-centered-to-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology soundness-or-authenticity-of-reference-of-thought that is in a circular-evasiveness from more ontologically-veridical metaphysics-of-absence construals/conceptualisations as implied by prospective relative completeness-of-reference-of-thought which rather construes it as a dementing-and-decentered-to-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology unsoundness-or-inauthenticity-of-reference-of-thought. The ontological implication is that beforehand/axiomatically with respect to the cross-engagement of a prior relative-ontological-incompleteness-of-reference-of-thought and a prospective relative-ontological-completeness-of-reference-of-thought, the former is priorly invalidated into a dementing-and-decentered-to-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology unsoundness-or-inauthenticity-of-reference-of-thought by the latter as a dialectical-thinking-and-centered-to-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology soundness-or-authenticity-of-reference-of-

thought, invalidating by implication the logical-dueness/logical-pertinence as of logical-processing-or-logical-implication of the former. This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-of-sorcery between our positivism and the non-positivism/medieval registry-worldview/dimension going by our prospective relative-ontological-completeness-of-reference-of-thought with respect to its prior relative-ontological-incompleteness-of-reference-of-thought. But since we have been habituated as of our existential formation within our averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> to be in logical-dueness for logical-processing-or-logical-implication by default and thus always contentingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a deprocrpticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implication and thus rendering us contentingly irrelevant on the basis of our prior relative-ontological-incompleteness-of-reference-of-thought construed as disjointedness-as-of-reference-of-thought. But then ironically such a undementability posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and dialectical-thinking-and-centered-to-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-or-logical-implication valid by default. This point out that there is necessarily a central growth element of a structural/paradigmatic reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology for cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-

recomposure' allowing for dementability and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such structural/paradigmatic <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness-of-reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn't recognise the mortals that we are and we can't advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid 'human closure of meaningfulness-and-teleology' which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as an averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of deprocrypticism prospective relative-

ontological-completeness-of-reference-of-thought is restored by doing away with
 ‘ontological-veridicality tolerance as stretched-truth’ and articulating a ‘mental break-
 in’/dementing of positivism–procrpticism meaningfulness-and-teleology at its procrpticism
 uninstitutionalisation as of disjointedness-as-of-reference-of-thought from deprocrpticism
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
 incidenting-predicative-insights, just as we’ll appreciate that were the animists insistent say
 on relating to the plane as God of plane to a point implying their potential non-
 transcendability as of psychoanalytic-unshackling in due course, ‘ontological-veridicality
 tolerance as stretched-truth’ is no longer warranted but a direct ‘mental break-in’/dementing
 by a demonstration to uphold ontological-veridicality. Such a demonstration might be
 construed as of a simple paper plane demonstration of ontological-primemovers-totalitative-
 framework principles or extraordinarily a flight from the flight deck with explanation or more
 extensively articulating that things work by natural causes and effects with no spirits inside
 them thus implying that a positivism-centered meaningfulness-and-teleology is more
 ontologically pertinent. Certainly such a ‘mental break-in’/dementing demonstration with
 regards to our procrpticism reference-of-thought as of its disjointedness-as-of-reference-of-
 thought construed from a deprocrpticism reference-of-thought perspective or
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
 incidenting-predicative-insights will look weird to us going by our circularly pervasive
 epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
 procrpticism/disjointedness-as-of-reference-of-thought, but it is more of ontological-
 veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-
 consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought and
 not yet by social universal-transparency, just as had been the case from the perspective or
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-

incidenting-predicative-insights of all the uninstitutionalised-thresholds reference-of-thought with respect to the ‘mental break-in’/dementing of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness-of-reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-uninstitutionalisation, implying universalisation in base-institutionalisation–ununiversalisation, suggesting positivism in universalisation–non-positivism/medievalism and suggesting deprocrypticism in positivism–procrypticism will be perceived initially as ‘bullshit’ going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor as of our temporal inclination to subjectification/nombrilism/self-referencing. But then human temporal inclination to utter expletives is not intellectual argument but a mark of intellectual ineptness, with the ‘ontologically relevant’ intellectual issue being about understanding the ‘habituation exercise’ as of ontological-primemovers-totalitative-framework and percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> involved in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure behind the ontological-contiguity—of-the-human-institutionalisation-process as pertinent for deprocrypticism ‘without in the very least entertaining’ the averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-reflex as has been the case across all the institutional-cumulations/institutional-recomposures that has always been a drawback as of temporal extricatory paradigm and parasitising/co-

opting inclination subpar to the warranted ontological-faith-notion-or-ontological-fideism—
 imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-
 existential-reality perpetually upholding the currency in reflecting the ontological-
 contiguity—of-the-human-institutionalisation-process across-the-times; as at this point,
 intellectual commitment overtly meets ontology.) Explained in other terms, implying in a
 non-positivism social-setup that notions-and-accusations-of-sorcery are inherently vices-and-
 impediments as of the transcendental prospective positivism prospective relative-ontological-
 completeness-of-reference-of-thought will-not-be-convincing-on-a-par-with-other-
 argumentators in that social-setup but rather for such temporal/shortness-of-register-of-
 meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of
 the type oneself or another person is not involved in sorcery or a counterargument that the
 accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-
 ontological-incompleteness-of-reference-of-thought, to-be-more-convincing-on-a-par-with-
 other-argumentators in that non-positivism social-setup (but then all this will wrongfully
 validate superstition and thus fail the very point of ontology/aetiologisation/ontological-
 escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-
 enabling/sublimating as intemporality-asymmetric-subsumption-of-
 temporality’/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-
 enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-
 non-veridical-or-flawed-epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived
 temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-
 veridicality/intrinsic-reality argumentation handicap in the short run for undermining the
 postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with
 the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness-

of-reference-of-thought social referencing of meaningfulness-and-teleology which is 'superstitious' in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is 'shooting itself on the foot' in the short run. It is rather the long run cross-generational resolution construed as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics by superseding the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-completeness-of-reference-of-thought by 'continuous habituation going by the latter's ontological-primemovers-totalitative-framework in the long run as superseding the prior beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought and initiating the appropriate prospective social universal-transparency that will structurally/paradigmatically harken back to undermine the postlogism-and-conjugated-postlogism grounded on notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension. That is, it is by turning the non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought that the possibility of 'ontologically' and 'not palliatively' resolving notions-and-accusations-of-sorcery can arise in the very first instance. Likewise, it is the cross-generational resolution of our positivism–procrypticism prior relative-ontological-incompleteness-of-reference-of-thought as of its circular-pervasiveness in countenancing of procrypticism or disjointedness-as-of-reference-of-thought from apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incindenting-predicative-insights of meaningfulness-and-teleology as conceptualising, articulating and preempting such disjointed meaningfulness-and-teleology of our positivism–procrypticism that is the structural/paradigmatic resolution as of prospective relative-ontological-completeness-of-reference-of-thought that can structurally/paradigmatically

harken back in undermining the circular-pervasiveness in countenancing of ‘disjointedness-as-of-reference-of-thought’ and the enculturation/endemisation of the manifest postlogism-and-conjugated-postlogism in our positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a temporal palliative resolution within a positivism–procrypticism circular-pervasiveness closed-structure countenancing ‘disjointedness-as-of-reference-of-thought’ of meaningfulness-and-teleology, beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, and hence overlooking the structural/paradigmatic ontological vices-and-impediments implications of postlogism-and-conjugated-postlogism including psychopathy and social psychopathy arising given the relative-ontological-incompleteness-of-reference-of-thought of our procrypticism as disjointedness-as-of-reference-of-thought. This explains how and why outlier ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency at a cross-generational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency turn out to be better and possibly leading to the dismantling of the prior and vested and contingent interests. It should be grasped that the comprehensiveness/dynamic-cumulative-aftereffect of a registry-worldview’s/dimension’s ‘madeupness/bottomline of reference-of-thought’ (as an operant construal) at its uninstitutionalised-threshold is what defines it as uninstitutionalised-threshold which is decentered and dementing from the prospective institutionalisation perspective while that of its ‘prelogism-as-of-conviction commitment of reference-of-thought’ (as an operant construal) of its institutionalisation is what defines it as prior institutionalisation. (As implied by this author the nature of human individuations accounts respectively for human intemporality/longness and human temporality/shortness as the ‘more fundamentally ontological-primemovers-totalitative-framework analysable operant agency of the human

condition as of human knowledge-and-virtue or vices-and-impediments respectively as such individuations then accrue in varying degrees in individuals as of varying circumstances'; and so-construed respectively as of intemporal individuation conflatedness which enables prospective institutionalisations or temporal individuations distractive-alignment-to-reference-of-thought that induce uninstitutionalised-thresholds at all the institutionalisations uninstitutionalised-threshold.) The conceptual technique for disambiguating individuations as of 'prelogism-as-of-conviction commitment of reference-of-thought' and 'madeupness/bottomline of reference-of-thought' at uninstitutionalised-threshold has to do with what is qualified as the given 'closeness-of-tethering-trajectory or looseness-of-tethering-trajectory to prelogism-as-of-conviction commitment of reference-of-thought' of the interlocutor wherein on one extreme the prelogism-as-of-conviction mental-disposition individuation adheres to a 'closeness-of-tethering-trajectory of meaningfulness-and-teleology to prelogism-as-of-conviction commitment of reference-of-thought' (not necessarily implying their logical-processing-or-logical-implication appropriateness but logically-due as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) while on the other extreme the temporal postlogism-as-of-non-conviction individuation's mental-disposition as a 'vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging'-as-non-conviction-tethering-trajectory to prelogism-as-of-conviction commitment of reference-of-thought construed as 'madeupness/bottomline of reference-of-thought' is a mental-disposition for hollow-staging-and-performance-caricaturing (with respect to whatever narratives or acts can be made or committed opportunistically by 'vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging out of existential-contextualising-contiguity's-reifying/elucidating-of-

prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context'), while the 'madeupness/bottomline of reference-of-thought' arising as of a corresponding derived-perversion-of-reference-of-thought hollow-staging-and-performance-caricaturing of the temporal conjugated-postlogism individuation's mental-disposition is as of corresponding 'looseness-of-tethering-trajectory to prelogism-as-of-conviction commitment of reference-of-thought' (as of 'derived-vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context'). Such temporal postlogism-as-of-non-conviction individuation's mental-disposition 'madeupness/bottomline of reference-of-thought' failing existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as a 'vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging'-as-non-conviction-of-tethering-trajectory to prelogism-as-of-conviction commitment of reference-of-thought can be seen transparently in the instance of the childhood psychopathy spilling water on a chair as a dereifying mental-shortcut to accuse another. Such personality development into adult psychopathy at which point social universal-transparency is undermined with its increasing maturation/indirectness/spatialisation/credulity/craftiness and the corresponding conjugated-postlogism leads to contextualised social dynamics of temporal individuations 'looseness-of-tethering-trajectory to prelogism-as-of-conviction commitment of reference-of-thought' that underlies various shades of 'madeupness/bottomline of reference-of-thought'. As a general rule the 'closeness-of-tethering-trajectory to prelogism-as-of-conviction commitment of reference-of-thought' implies a mental-disposition for intrinsic-attribution of meaningfulness-

and-teleology involving an inclination for presuming and implying of meaningfulness-and-teleology as limited/constraint by existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context while the 'looseness-of-tethering-trajectory to prelogism-as-of-conviction commitment of reference-of-thought' implies a mental-disposition for extrinsic-attribution of meaningfulness-and-teleology as hollow-staging-and-performance-caricaturing involving an inclination for falsely presuming and implying meaningfulness-and-teleology as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging out of the limits/constraints of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Further, the individuation-level analysis highlights that it is the 'close tethering-trajectory of prelogism-as-of-conviction commitment of reference-of-thought' and 'loose tethering-trajectory of prelogism-as-of-conviction commitment of reference-of-thought' as 'madeupness/bottomline of reference-of-thought' respectively as of human intemporal and temporal mental-dispositions that establish the ontological-primemovers-totalitative-framework of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of meaningfulness-and-teleology whether as of 'direct or derived vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context' with temporal-dispositions or logically-dueness as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-

context with the intemporal/conviction mental-disposition; so-construed as of their contrastive-synopsising-depths-of-meaningfulness-and-teleology rather for a ‘conflation construal/conceptualisation’ and not a rather deceptive analytical reflex of ‘constitutedness of reference-of-thought construal/conceptualisation’. The fact is by mental-reflex we relate to social meaning by constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity which by habit or chance will often turn out to be as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as of the institutionalisation ambits of the domain-of-concern precedingly so-established/so-institutionalised by maximalising-recomposuring-for-relative-ontological-completeness, and so with hardly any consequence for our methodological imprecision/inexactitude where the established/institutionalised reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology is not ontologically superseded as at uninstitutionalised-threshold. But that is technically/abstractly speaking inappropriate from an ontological-veridicality perspective requiring unassailability/reliability/dependability at uninstitutionalised-threshold. As explained elsewhere and implied above it is the conceptualising (by maximalising-recomposuring-for-relative-ontological-completeness) of a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of conflation that enables such a certitude at uninstitutionalised-threshold of an epistememic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality by its specific institutionalisation. And that reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of the social at uninstitutionalised-threshold involves a holistic/nested-congruence social construal/conceptualisation that necessarily should factor in the reality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor but we fail to do this due to our epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasitic-drag metaphysics-of-presence disposition as of institutionalisation and thus wrongly implying intemporal construal as of our secondnature institutionalisation which while inconsequential within the ambit institutionalisation is not ontologically-veridical at the institutionalisation uninstitutionalised-threshold with the latter rather requiring a temporal-to-intemporal appraisal as of metaphysics-of-absence as its reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. The implication is that postlogism/psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal secondnature institutionalisation human nature whereas the conflatedness requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by conflatedness to establish the uninstitutionalised-threshold reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology rather as of maximalising-recomposuring-for-relative-ontological-completeness (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold, and so over the mental-reflex of assuming secondnature

institutionalisation reference-of-thought/axiomatic-construct as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold which require their own new specific reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology which so established then enables the practical effectiveness of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold situation which is necessarily beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought and without social universal-transparency of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology needed for construing postlogism/psychopathy and conjugated-postlogism as of its social model at uninstitutionalised-threshold, and so by way of maximalising-recomposuring-for-relative-ontological-completeness (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of

imbricatedness/threadedness/recomposuring existential-contextualising-contiguity's-
 reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-
 thought-devolving-as-of-instantiative-context, in contrast to elaboration-as-mere-
 extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-
 contextualising-contiguity which is what renders-operant/incidenting predicative-insights). It
 is only then that such an established institutionalisation framework allows for elaboration-as-
 mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-
 existential-contextualising-contiguity on the basis of the established reference-of-thought-
 categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology.
 Such a conceptualisation/construal is dramatically different from how we ordinarily conceive
 the construal of social meaningfulness-and-teleology before the institutionalisation of such a
 specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor
 erred in its relation with the childhood psychopathy on the basis of its commonly assumed
 social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-
 elucidation-outside-existential-contextualising-contiguity. At this individuation-level
 representation of the disambiguation of the transcending and transcended registry-
 worldviews, the visitor is using the
 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
 incidenting-predicative-insights' of positivism—procrypticism that do not factor in the
 possibility of the childhood psychopathy's slantedness as inducing procrypticism or
 'disjointedness-as-of-reference-of-thought'-as-misappropriated-meaningfulness-and-
 teleology going by the visitor's relative-ontological-incompleteness-of-reference-of-thought
 as of positivism—procrypticism, while the explainer of the situation has factored in
 deprocrypticism reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology from the childhood psychopathy slantedness. At this individuation-level, the fact is that in order to be certain to avoid a similar deception again in its relation with the childhood psychopathy the visitor will now construe of deprocrypticism reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to preempt the slanted inducing of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology and gives up on positivism—procrypticism reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new deprocrypticism reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology has superseded the prior positivism—procrypticism reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism/psychopathic

personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) by formality dynamics; with the implication of lack of social universal-transparency as the manifestation is beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence undementability across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology that implies that the registry-worldview/dimension is in circular-pervasiveness of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology will meet with a mental-complex of epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage metaphysics-of-presence and can only arise as of a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. (Such an insight can be further

 worldview/dimension perspective like postlogism in a non-positivistic social-setup as of our
 prospective relative-ontological-completeness-of-reference-of-thought perspective but it is
 more difficult to grasp from a deprocrypticism prospective perspective of analysis where we
 will rather be unpalatably represented as decentered and dementing, given our state of
 metaphysics-of-presence. Supposed with regards to a case of notions-and-accusations-of-
 sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness-

of-reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the cross-generational possibility of prospective transcendence. Supposed however that the interlocutor isn't an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness-of-reference-of-thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This new positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology voiding notions-and-accusations-of-sorcery and superstition generally as of the prior non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will more likely be taken-up-fully/habituated only cross-generationally in the middle run as the mental-reflex will constantly relapse into notions-and-accusations-of-sorcery and superstition of the prior non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, highlighting that a postlogism like psychopathy in our positivism–procrypticism or one associated with notions-and-accusations-of-sorcery in non-positivism social-setup is not truly speaking an isolated phenomenon as construed from an individuation-level of analysis but speaks in the bigger picture of an underlying registry-worldview/dimension registry-

worldview/dimension-level relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought and ‘lack of constraining social universal-transparency; such that implying that our prior positivism–procrpticism, as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, cannot longer be upheld at such uninstitutionalised-threshold but requiring in lieu a deprocrpticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will be difficult to countenance but for a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure since the issue is one of as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect. Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procrpticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of

existential-contextualising-contiguity–in-reification/dereification entertains/is-cognisant-and-
 integrative-of/is-in-notional-contiguity/epistemic-contiguity-<mentally-
 aestheticised_dialectical-thinking–qualia-schema>-with superstitious claims in its
 meaningfulness-and-teleology. An explainer to the visiting stranger in the non-positivism
 social-setup case about the whole situation would have articulated at the individuation-level
 of analysis a prospective ‘logically-due prelogism-as-of-conviction conflatedness as of
 positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’,
 going by their familiarisation with the childhood psychopathy ‘logically-undue postlogism-

 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’
 over the visiting stranger prior superstition believing ‘logically-undue conjugated-

 with both latter logically reference-of-thought construed as of distractive-alignment-to-
 reference-of-thought or lacking-an-ontologically-veridical-reference-of-thought due to their
 derived-denaturing which as of dynamic-cumulative-aftereffect/aftereffect at registry-
 worldview/dimension-level of analysis is the very ontologically-central notion of every
 registry-worldview/dimension uninstitutionalised-threshold which should thus be always
 construed as being in distractive-alignment-to-reference-of-thought with respect to its
 prospective institutionalisation. It is effectively derived-denaturing that induces
 apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as of
 uninstitutionalised-thresholds, as we can appreciate that the childhood psychopathy and the

visitor's meaningfulness-and-teleology are in effect ontologically-speaking apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. But then at the registry-worldview/dimension-level of analysis however, when compared to the simplistic individuation-level postlogism analysis insight, implying ontological-veridicality/ontological-reality on the basis of 'logically-due prelogism-as-of-conviction conflatedness as of positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology' with respect to the overall non-positivism registry-worldview/dimension as of its dynamic-cumulative-aftereffect/aftereffect with regards to the manifest registry-worldview/dimension-level social construal of superstitions and notions-and-accusations-of-sorcery in general, can only arise from a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, as the non-positivism registry-worldview/dimension in relation to the prospective positivism registry-worldview/dimension is an averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> just as our positivism–procrypticism registry-worldview/dimension in relation to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension is an averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>, in that as with all registry-worldviews/dimensions both do not contemplate of their transcendability and thus dementability, and keep on relapsing into their respective non-positivism and procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology in

lieu of the respective prospective positivism and deprocrypticism reference-of-thought–
 categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as
 of prospective relative-ontological-completeness-of-reference-of-thought. This is further
 rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-
 enabling as of human condition that undermines intrinsic-reality/ontological-veridicality
 transcendental-enabling/sublimating. This insight equally explains the pertinence of
 understanding postlogism/psychopathy in general as an epiphenomenon that can provide
 deeper insight about human nature given its ‘lateral-and-transversality-of-disambiguated-
 apriorising/axiomatising/referencing disruptive nature on human meaningfulness-and-
 teleology’ and with the structure/paradigm relatively easily perceived at childhood, much like
 the early modern human biologists relatively simplistic but counterintuitive-as-of-their-
 epochs understanding of disease provided deeper insight in understanding how the
 complexity of the human body works. Both individuation-level understanding of postlogism
 in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of
 psychopathy and social psychopathy divulge a bigger reality at the registry-
 worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by
 registry-worldview/dimension-level complexity, wherein the childhood postlogism
 individuation-level construal points out the reality at the registry-worldview/dimension-level
 of respectively a conventioning non-positivism in lieu of an ontologically-veridical
 positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology and
 a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-
 veridical deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-
 teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-

and-teleology. That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought as undermining conflatedness induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed-epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its prelogism-as-of-conviction-of-reference-of-thought’ is in an ‘intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the conflatedness as of its asymmetrisation with respect to the visitor whose reference-of-thought ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought as not factoring in the childhood psychopathy postlogism-as-of-non-conviction-of-reference-of-thought which is ‘pathologically ontologically-destructuring’ implying both the childhood psychopathy and the visitor are rather in a state of unsoundness-or-inauthenticity-of-reference-of-thought and not

bad or poor logic such that the notion of logical-ness doesn't arise in the very first place, as a reference-of-thought/axiomatic-construct is fundamentally construed as of its soundness-or-authenticity-of-reference-of-thought prior to the notion of logical-ness arising once soundness-or-authenticity-of-reference-of-thought is established; thus, given the asymmetrisation of the explainer of the situation reference-of-thought/axiomatic-construct as existential/ontological as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as contextually-manifest prospective relative-ontological-completeness-of-reference-of-thought in contrast to the visitor's 'supposed reference-of-thought/axiomatic-construct' which is non-existential/non-ontological as not-of-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as contextually-manifest prior relative-ontological-incompleteness-of-reference-of-thought. It is this fundamental fact that underlies the notion of 'distractiveness or arrogation or usurpation or co-opting' associated with the construal of the meaningfulness-and-teleology of temporal-dispositions perversion-and-derived-perversion-of-reference-of-thought as apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing in relation to intemporal meaningfulness-and-teleology as ontological; as such symmetrisation and subsequent desymmetrisation will wrongfully lead to the reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology of the visitor's reference-of-thought so ontologically-destructured by the childhood psychopathy postlogism 'dereifying act' of spilling water on a chair and accusing another, thereby undermining ontological-veridicality where logic-as-of-prelogism-as-of-conviction is wrongly assumed thus supposedly implying logical-processing-or-logical-implication is now to be engaged on the basis of the visitor's ontologically-destructured

reference-of-thought/axiomatic-construct rather than implying the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the explainer of the situation reference-of-thought/axiomatic-construct as soundness-or-authenticity-of-reference-of-thought and the visitors and childhood psychopathy ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ unsoundness-or-inauthenticity-of-reference-of-thought. The implication here is that the construal/conceptualisation of ontologically-veridical meaningfulness-and-teleology lies entirely/exclusively/supersedingly on the reference-of-thought/axiomatic-construct/curve-of-prospective-relative-ontological-completeness-of-reference-of-thought of the explainer of the situation while the logical-dueness of the visitor’s ‘supposed but rather non-existential/non-ontological reference-of-thought/axiomatic-construct/curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought’ doesn’t even arise in the very first place and fundamentally explains why its meaningfulness-and-teleology is operantly qualified as of ‘distractiveness’/distractive-alignment/dismissal-as-being-in-arrogation and so more aptly as distractive-alignment-to-reference-of-thought. Distractiveness as it implies that in such a context, ontological-veridicality is construed exclusively as of intemporal prelogism-as-of-conviction reference-of-thought conflatedness denying any implied symmetrising of meaningfulness-and-teleology from temporal-dispositions in perversion-and-derived-perversion-of-reference-of-thought as their logical-dueness doesn’t arise in the very first place, hence the reason why perversion-and-derived-perversion-of-reference-of-thought is construed more than just as of ‘ontological-destructuring-constitutedness’ but more completely and critically to avoid misconstrual rather as of distractive-alignment-to-reference-of-thought ; to point out that temporal-dispositions perversion-and-derived-perversion-of-reference-of-thought haven’t got any ‘existentially/ontologically-veridical

reference-of-thought' given that they are in arrogation/usurpation/co-opting but rather the reality of their perversion-and-derived-perversion-of-reference-of-thought is construed operantly as of temporal postlogism-as-of-non-conviction-and-conjugated-postlogism 'exercise of distracting from' the intemporal prelogism-as-of-conviction reference-of-thought as of conflatedness', and so construed as distractive-alignment-to-reference-of-thought. That is, a 'temporality distracting from intemporality' construct; wherein the 'conflatedness of intemporal prelogism-as-of-conviction projection' is misconstrued in 'denaturing' of psychopathy/postlogism with the consequent alignment to it of conjugated-postlogism as 'derived-denaturing'. In other words, prospective relative-ontological-completeness-of-reference-of-thought is 'precedingly/supersedingly structurally/paradigmatically cogent and comprehensive framework of meaningfulness-and-teleology' such that any arising temporal disruption of meaningfulness-and-teleology 'has nothing to do with constituting meaningfulness-and-teleology as of the temporal disruption prior relative-ontological-incompleteness-of-reference-of-thought', but rather meaningfulness-and-teleology is reconstrued as structuring/paradigming from the very prospective relative-ontological-completeness-of-reference-of-thought itself. Consider the case of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as perversion-of-reference-of-thought and temporal alignment in assuming the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as appropriate as derived-perversion-of-reference-of-thought as of relative-ontological-incompleteness-of-reference-of-thought and intemporal projection of appropriate apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as prospective relative-ontological-completeness-of-reference-of-thought. One cannot depart from both 'the state of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as perversion-

of-reference-of-thought or any states of temporal alignment in assuming the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as appropriate as derived-perversion-of-reference-of-thought' to construe meaningfulness-and-teleology as of intrinsic-reality/ontological-veridicality structurally/paradigmatically by their relative-ontological-incompleteness-of-reference-of-thought, as all the meaningfulness-and-teleology that can be as of intrinsic-reality/ontological-veridicality wholly lies with the intemporal projection of appropriate apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its prospective relative-ontological-completeness-of-reference-of-thought. The implication at the registry-worldview level is that base-institutionalisation 'wholly carries all the meaningfulness-and-teleology that can be as of intrinsic-reality/ontological-veridicality' over a state of recurrent-utter-uninstitutionalisation, and likewise for universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism, and in our case futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism over our positivism–procrypticism. The point here is to highlight that 'conflatedness' doesn't imply any symmetrisation of meaningfulness-and-teleology with regards to perversion-and-derived-perversion-of-reference-of-thought since the latter is structurally/paradigmatically not logically-due for logical-processing-or-logical-implication in the very first place as is erroneously assumed by temporal projection mental-reflex. But rather, it implies an utter structural/paradigmatic reconstrual of meaningfulness-and-teleology as of intrinsic-reality/ontological-veridicality wholly by the intemporal projection of the prospective relative-ontological-completeness-of-reference-of-thought. The psychoanalytic-unshackling/memetic-reordering/institutional-recomposure implications associated with perversion-and-derived-perversion-of-reference-of-

thought ultimately falls to the grander issue of prior relative-ontological-incompleteness-of-reference-of-thought as fundamentally endemising/enculturating such perversion-and-derived-perversion-of-reference-of-thought possibilities; such that an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm as maximalising-recomposuring-for-relative-ontological-completeness is not one that simply identify a perversion-of-reference-of-thought in a social-construct but as ‘covering all the possibilities for vices-and-impediments hypothetically susceptible to arise’ projects how structurally/paradigmatically the social-construct as of its beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought prior relative-ontological-incompleteness-of-reference-of-thought is ‘susceptible to integrate’ perversion-of-reference-of-thought as derived-perversion-of-reference-of-thought, and ‘build a structural/paradigmatic ontology as of prospective relative-ontological-completeness-of-reference-of-thought going from this more comprehensive-possibilities bases that doesn’t allow for incrementalism-in-relative-ontological-incompleteness’ with the implication that no logical interlocution of the averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> arises as of prior relative-ontological-incompleteness-of-reference-of-thought. We can appreciate that the childhood psychopathy ‘dereifying act’ of spilling water on a chair is a distractiveness-drive with no existentially/ontologically veridical reference-of-thought which when wrongly implied as valid prelogism-as-of-conviction reference-of-thought/axiomatic-construct leads to its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology wrongly transforming the issue into one of logic-as-of-prelogism-as-of-conviction thus supposedly implying logical-processing-or-logical-implication by wrongly

enabling logical-dueness to arise instead of an issue of unsoundness-or-inauthenticity-of-reference-of-thought implying its dismissal as distractive-alignment-to-reference-of-thought ; and this flaw extends into the visitor's conjugated-postlogism as conjugated-ignorance given its relative-ontological-incompleteness-of-reference-of-thought as of positivism–procrypticism disjointedness-as-of-reference-of-thought which is cognisant-and-integrative as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification of the childhood psychopathy slantedness, and so as a derived-distractiveness-drive with no existentially/ontologically veridical reference-of-thought which when wrongly implied falsely as ontologically-veridical reference-of-thought/axiomatic-construct also leads to its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology wrongly transforming the issue into one of logic-as-of-prelogism-as-of-conviction thus supposedly implying logical-processing-or-logical-implication by wrongly enabling logical-dueness to arise instead of an issue of derived unsoundness-or-inauthenticity-of-reference-of-thought and thus also implying as well its dismissal as distractive-alignment-to-reference-of-thought.

In both wrongful 'apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology what is produced isn't ontologically-veridical meaningfulness-and-teleology but rather dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing qualified as arrogation or usurpation or co-opting' exactly because of the induced postlogism/psychopathy distractive-alignment-to-reference-of-thought out of existentially/ontologically veridical context; and its social integration/derivation in conjugation with human temporality/shortness of

ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as conjugated-postlogism due to relative-ontological-incompleteness-of-reference-of-thought, and specifically in the case of positivism–procrypticism, due to disjointedness-as-of-reference-of-thought. This equally underlies on the basis of dynamic-cumulative-aftereffect/aftereffect at the individuation-level and registry-worldview/dimension-level of analyses the notion of ‘decentering’ as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics, as the idea of value-reference if wrongfully ontologically construed as determined by the ‘averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as non-positivism reference-of-thought’ or ‘averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as procrypticism reference-of-thought’, then in effect the phenomena of non-positivism/medievalism postlogism like notions-and-accusations-of-sorcery as well as psychopathic-postlogism-and-its-social-integration as of our procrypticism/disjointedness-as-of-reference-of-thought will respectively be wrongfully construed to be existentially/ontologically veridical. The bigger point being that symmetrisation implying mutual recognition of reference-of-thought can only arise where there is mutual appropriateness-of-reference-of-thought-as-of-conflatedness as existentially/ontologically veridical thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-authenticity-of-reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implication exercise which is then an altogether different issue of effective/ineffective logic-as-prelogism-as-of-conviction, and this latter is what tends to be falsely implied in situations of

postlogism/psychopathy and conjugated-postlogism/social-psychopathy, and need to be
 ‘ontologically dismissed offhand’ and brought back to the fundamental issue of perversion-
 and-derived-perversion-of-reference-of-thought rather reflected-as-of-soundness-or-
 authenticity-of-reference-of-thought in determining whether logical-duedness arises in the very
 first place. Central to such a dynamic-cumulative-aftereffect/aftereffect registry-
 worldview/dimension-level analysis derived from such an individuation-level insight is the
 idea that social-functioning-and-accordance—as-of-social-stake-contention-or-confliction is
 contiguous as of meaningfulness-and-teleology as of the individuation-level and registry-
 worldview/dimension-level of analysis, notwithstanding its developing complexification as of
 dynamic-cumulative-after/effect as from the individuation-level to the registry-
 worldview/dimension-level and thus with a greater opportunity for the simplistic
 individuation-level childhood postlogism/psychopathy phenomenon relatively resolvable at
 that individuation-level to fail resolution with the myriad of such cases at the circular-
 complexification registry-worldview/dimension-level of more surreptitious adulthood
 pathological postlogism/psychopathy as the
 maturation/indirectness/spatialisation/credulity/craftiness induces ‘lack of constraining social
 universal-transparency with consequent conjugated-postlogism ‘involving beyond-the-
 consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought
 dynamics further associated with a generalised social ‘lack of constraining social universal-
 transparency reflected by the given registry-worldview’s/dimension’s prior relative-
 ontological-incompleteness-of-reference-of-thought thus reflecting the uninstitutionalised-
 threshold backdrop for the registry-worldview’s/dimension’s
 apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. In
 other words, social-functioning-and-accordance—as-of-social-stake-contention-or-confliction
 is structurally/paradigmatically ‘ontologically compromised’ as of a registry-

worldview's/dimension's prior relative-ontological-incompleteness-of-reference-of-thought such that what a registry-worldview/dimension institutionalisation accede to as socially-functioning-and-accordant is limited by its given beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought with the implication that 'lack of constraining social universal-transparency at this uninstitutionalised-threshold allows for denaturing, which is rather subpar to the notional-conflatedness/constitutedness-to-conflatedness required for ontological-normalcy as 'preempting epistemic-decadence', as <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology failing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation to be construed as socially-functional-and-accordant, with the possibility for such epistemic-decadence being superseded arising only as of the prospective registry-worldview/dimension institutionalisation prospective relative-ontological-completeness-of-reference-of-thought driven by the 'non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality' in rearticulating such a prospective institutionalisation 'constraining social universal-transparency reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation taking cognisance of the prior registry-worldview's/dimension's relative-ontological-incompleteness-of-reference-of-thought; wherein notional-conflatedness/constitutedness-to-conflatedness reflects their institutionalisation and denaturing reflects their uninstitutionalised-threshold. Hence in the bigger picture explaining why the successive registry-worldviews/dimensions are construed as of reducing-epistemic-abnormalcy towards ontological-normalcy/postconvergence. As of a

protracted analysis given human limited-mentation-capacity with respect to social universal-
 transparency which critically tends to be solicited at its beyond-the-consciousness-awareness-
 teleology-in-existential-extrication-as-of-existential-unthought as in this individuation-level
 analysis, conflatedness can equally be construed as tying down transcendently-enabling-
 level—of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-
 notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism to
 ontological-normalcy as ontological-completeness-of-reference-of-thought avails as of
 ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, and hence its

perceived-social-stake-contention-or-confliction and is equally relevant with regards to innocuous knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue as it subsumes virtue-as-inherent-ontology; with dynamic-cumulative-aftereffect/aftereffect implications at the individuation-level and registry-worldview/dimension-level of analysis as of metaphysics-of-absence. In this regard, metaphysics-of-absence as articulated herein by this author is rather about, ‘human limited-mentation-capacity construed as of ontological-normalcy/postconvergence metaphysics-of-absence/Doppler-thinking as it disambiguates human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor meaningfulness-and-teleology <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’, as of historicity/ontological-eventfulness/ontological-aesthetic-tracing. For instance, the immediacy of intrinsic-reality/ontological-veridicality transcendental enabling in the natural sciences which is implicated in those fields by their ‘relatively high results-constraining-effectiveness nature’ provides metaphysics-of-absence insights with regards to obviating the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction bound to disrupt thought and analysis in the social as of its ‘relatively low results-constraining-effectiveness nature’. Along the same argument and with regards to the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction inherent in the social, it is important to grasp that such an epiphenomenon/incidental-phenomenon insight as implied herein with postlogism/psychopathy and corresponding human social dynamics implications is rather a social construction supposedly coherent ontological-commitment that goes well beyond any

given specific epiphenomenon—(in-the-overall-ecstatic-existence-supervening-conflatedness)/incidental occurring behind the inspired/insight-for-the social construction supposedly coherent ontological-commitment as of aetiologisation/ontological-escalation for universal retrospective to prospective understanding of postlogism/psychopathy and human social dynamics implications. In other words such a social construction supposedly coherent ontological-commitment is inherently the more expansive, universal, decisive, objective and easier basis for critiquing its theorising-conceptualising-operationalising narratives ‘in order to assess the veracity/ontological-pertinence of the structural/paradigmatic universal implications arrived-at of the social construction supposedly coherent ontological-commitment as of the possibilities of easily transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism myriad retrospective and prospective social contexts of analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on ‘assessing the veracity/ontological-pertinence of the structural/paradigmatic universal implications arrived-at of the social construction supposedly coherent ontological-commitment rather on the basis of any such specific epiphenomenon—(in-the-overall-ecstatic-existence-supervening-conflatedness)/incidental occurring as of its relatively poorly objectifiable-as-desubjectifiable/subjectified incidental social context for analysis. Consider similarly that an epiphenomenal/incidental occurrence of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree thus inspiring/providing-insight-for his laws of motion supposedly coherent ontological-commitment for explaining mechanical phenomena. Certainly, the inherently more expansive, universal, decisive, objective and easy basis for critiquing its theorising-conceptualising-operationalising narratives ‘in order to assess the veracity/ontological-pertinence of the structural/paradigmatic universal

implications arrived-at of his laws of motion supposedly coherent ontological-commitment is the possibilities of easily transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism myriad retrospective and prospective mechanical phenomena for analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on ‘assessing the veracity/ontological-pertinence of the structural/paradigmatic universal implications arrived-at of the laws of motion supposedly coherent ontological-commitment on the basis of the specific epiphenomenal/incidental occurrence of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree as of the latter relatively poorly objectifiable-as-desubjectifiable/subjectified incidental mechanical occurrence for analysis. In both instances, such an apparently naïve intellectual disposition will point to relative intellectual impertinence at best, and at worst conscious ontological-bad-faith/inauthenticity angling to cynically undermine universal veracity/ontological-pertinence as of the opportunity of implying poorly objectifiable-as-desubjectifiable/subjectified incidental analysis as pre-eminently of universal import. While this logic is immediately obvious with the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of many a natural sciences epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality with their disposition for replication and other experiments and observations analyses as hardly any scientist will go on if it is problematic to objectively ascertain the contextual reality of an-apple-hitting-Newton-on-the-head-while-he-sat-under-a-tree to contend that Newton’s laws of motion supposedly coherent ontological-commitment is wrong, such an insight about the supposedly coherent

ontological-commitment being wholly construed as of its ‘very own veracity/ontological-
 pertinence as of any of its objectifiable contexts’ can-and-is often easily flouted and
 sidetracked with the high temporal-to-intemporal-conjugating-emotional-
 involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-
 perceived-social-stake-contention-or-confliction that permeates the study of the social as of
 its blurriness. This equally explains why it is actually better and more critical to
 construe/conceptualise social knowledge not only on the basis of the inherent
 veracity/ontological-pertinence of supposedly coherent ontological-commitment as with the
 natural sciences but equally factoring in the human social condition as of high temporal-to-
 intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-
 referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction, and so as of
 a knowledge notionalisation exercise. In other words metaphysics-of-absence refers to any
 such projections, as of human imaginative capacity derived from our underlying
 ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-

 of what is meant by reference-of-thought–categorical-imperatives/axioms/registry-teleology,-

for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, relative to the construal/conceptualisation from the middle of the last century in the biological domain as of its specific uninstitutionalised-threshold then over which the DNA-based genetics reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology was developed which induced an altogether new dramatically different but ontologically-veridical imagery/picture of the nature of biology at that uninstitutionalised-threshold that then became a new specific institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology thereafter amenable to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity such that the prior non DNA-based construal/conceptualisation (as of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology) with respect to that now DNA-based genetics specific institutionalised epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of biology cannot longer be upheld, and this is so in the bigger picture as a contributory conflatedness within the same positivism registry-worldview institutionalisation. (In fact, the institutional-cumulations/institutional-recomposures are the conjoined effect of all specific uninstitutionalised-threshold institutionalisation breakthroughs of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology construed conjointly as of the prospective registry-worldview/dimension institutionalisation.) In this case, however the ‘emotional involvement’ in conflatedness within the same

positivism registry-worldview of appraisal is way low compared to the high ‘emotional involvement’ in making the same construct as of a contrastive transcending/superseding of a prior registry-worldview/dimension institutionalisation reference-of-thought into an entirely new/prospective registry-worldview/dimension institutionalisation reference-of-thought like between non-positivism and positivism or prospectively between our positivism–procrypticism and deprocrypticism as in this latter instance such a construal/conceptualisation is comprehensively redefining of the human psyche and tend to elicit the highest levels of ‘emotional involvement’ thus requiring rather a cross-generational adjustment as conflatedness over the prior distractive-alignment-to-reference-of-thought. In conclusion, such a construal/conceptualisation as of deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology over our positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of our ‘lived social’ uninstitutionalised-threshold with respect to psychopathy and social psychopathy and procrypticism in general is a wholly new dramatically different depth of understanding, and from our present inclination of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity within the positivism institutionalisation framework. Beyond the above contrastive individuation-level and registry-worldview/dimension-level of analysis with respect to the uptake of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, this social reality of varied social closeness-of-tethering-trajectory/looseness-of-tethering-

trajectory to prelogism-as-of-conviction commitment of reference-of-thought' implying increasing looseness-of-tethering-trajectory as of greater temporality/shortness construed as of various shades of 'madeupness/bottomline of reference-of-thought' speaks in the bigger picture of a social reality across all registry-worldviews/dimensions that tends to 'destructure any registry-worldview/dimension institutionalisation meaningfulness-and-teleology' by an 'ontological degradation effect' having to do with human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and in so doing inducing apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as uninstitutionalised-threshold. In other words, a prospective registry-worldview/dimension institutionalisation meaningfulness-and-teleology in becoming the new reference-of-thought (over the prior registry-worldview's/dimension's reference-of-thought) with its supposedly grander intemporal-preservation-entropy-or-contiguity—or—ontological-preservation reference-of-thought—categorical-imperatives/axioms/registry-teleology as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driving/behind its construal, turns out to be a prospective institutionalisation 'reset framework for human temporal-to-intemporal mental-dispositions' respectively in looseness-of-tethering-trajectory and closeness-of-tethering-trajectory to prelogism-as-of-conviction commitment of the new reference-of-thought'; as facing/dealing anew with human temporal-to-intemporal mental-dispositions but this time around doing the same thing as occurred with the prior institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology that was transcended/superseded to deliver the new registry-worldview/dimension, but now on the new registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology (with the difference as of a 'relatively

lower sensibility' arising just because of the new registry-worldview/dimension prospective relative-ontological-completeness-of-reference-of-thought limiting/constraining on the possibilities of vices-and-impediments); implying an underlying ontological-contiguity of the reality of human temporal-to-intemporal mental-dispositions across all the registry-worldviews/dimensions. Thus while 'ontologically superseding the prior beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought and prior 'lack of constraining social universal-transparency this does not imply apart from such institutionalisation-as-secondnaturing a change of human temporal-to-intemporal nature, given that this nature will further manifest at the prospective registry-worldview uninstitutionalised-threshold as its beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought and 'lack of constraining social universal-transparency inducing anew the new reference-of-thought owns apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. This social dynamism (dynamic-cumulative-aftereffect) as of the new registry-worldview/dimension uninstitutionalised-threshold can be construed ontologically as arising out of a further temporal/shortness-of-register-of-meaningfulness-and-teleology distortedness of the new epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context in the social extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) ultimately extending to the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) spheres of formal constructs distorting formal construal of meaningfulness-and-teleology, and so to a point of equilibrium of the new registry-worldview/dimension between its institutionalised meaningfulness-and-teleology and its uninstitutionalised-threshold's apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. The

operant and technical conceptualisation basis of this phenomenon has to do with the inherent nature of pure-ontology conflatedness for ontologically-veridical meaningfulness-and-teleology and ‘human temporal-to-intemporal condition’ of reception/distortion across the successive registry-worldviews/dimensions involving denaturing where there is ‘lack of constraining social universal-transparency. The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation reference-of-thought can thus be construed as of pure-ontology conflatedness for ontologically-veridical meaningfulness-and-teleology, and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework (as it supersedes the prior beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought meaningfulness-and-teleology and the prior ‘lack of constraining social universal-transparency), and then imbues the prospective institutionalisation with social validity and social structure of meaningfulness-and-teleology as of deferential-formalisation-transference. This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology conflatedness for prospective relative-ontological-completeness-of-reference-of-thought meaningfulness-and-teleology. But then in due course and at the uninstitutionalised-threshold of this prospective institutionalisation reference-of-thought, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-

reality for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) wanes as the reality of human temporal-to-intemporal nature sets in as it is related to at the uninstitutionalised-threshold by the registry-worldview's/dimension's least common denominator as <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction (in a social dynamics at the given uninstitutionalised-threshold that is a drawback-to/undermines prospective-knowledge-and-institutional-deferential-formalisation-transference as of prospective relative-ontological-completeness-of-reference-of-thought intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework, and is rather oriented to sovereign extrication over knowledge-reification at this uninstitutionalised-threshold as of social-aggregation-enabling), as of its bare constraining mechanical-knowledge since reference-of-thought—categorical-imperatives/axioms/registry-teleology are only 'mechanistically' constraining, lacking the organic-spirit or ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Anecdotally, we know as of our uninstitutionalised-threshold that in effect the technical constraints of the law tend to supersede the spirit of the law as it is naïve to think that a 'sense of rightness' is all that matters before the law, and this extends to human meaningful and organisational principles in general. Such that temporal-dispositions fulfilment of such 'mechanistic' effectiveness as mechanical-knowledge 'without the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the emanant-

kind that-had-driven the reference-of-thought construal in the first place' distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of-meaningfulness-and-teleology. Thus such implied prospective reference-of-thought, social organisations and institutions as organic meaningfulness-and-teleology then tend to develop 'subcultural reorientations' that are 'mildly alien' and 'on-occasional gravely alien' to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective reference-of-thought social and institutions meaningfulness-and-teleology. Thus for an ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework construal for the deprocrypticism prospective institutionalisation, it is critical to grasp both the inherent ontological-veracity of the meaningfulness-and-teleology behind the construal of deprocrypticism and the 'reality of a human condition of temporal-dispositions distractive-alignment-to-reference-of-thought, and so as of notional-conflatedness/constitutedness-to-conflatedness as historicity/ontological-eventfulness/ontological-aesthetic-tracing in articulating a ⟨protensive-consciousness referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness, that is preemptive of a least-common-denominator-of-social-functioning-and-accordance-effecting to bare mechanical-knowledge as of <formative>wooden-language—of-temporal-mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology inducing apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as of uninstitutionalised-threshold. This is achieved by a perpetuating metaphysics-of-absence that factors in human temporal-to-intemporal-dispositions nature. Insightfully, a storied-construct technique apprehending the temporal-to-intemporal-dispositions respective mental-

dispositions for ‘looseness-of-tethering-trajectory and closeness-of-tethering-trajectory to prelogism-as-of-conviction commitment of reference-of-thought’ can be construed, wherein the instigating temporal postlogism-as-of-non-conviction ‘looseness-of-tethering-trajectory to prelogism-as-of-conviction commitment of reference-of-thought’ (as postlogism-as-of-non-conviction temporal ‘madeupness/bottomline of reference-of-thought’) as of the childhood psychopathy (where the looseness-of-tethering-trajectory mental defect is of social universal-transparency socially like in a ‘dereifying act’ of spilling water on a chair and accusing another, pointing to a mental-shortcut as faulty-mentation-procedure-deception-or-urge in relating to social-stake-contention-or-confliction) and adult psychopath (where the looseness-of-tethering-trajectory mental defect is opaque due to its maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction) can be elucidated. The underlying process as of temporal postlogism-as-of-non-conviction/psychopathic looseness-of-tethering-trajectory mental defect beginning at childhood involves ‘its circular non-consequential vague trialing of looseness-of-tethering-trajectory to prelogism-as-of-conviction commitment of reference-of-thought’ as of its temporal postlogism ‘madeupness/bottomline of reference-of-thought’ with respect to its postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’, in full conscious-awareness-teleology, which when perceived as uncontested by the psychopath (likely to arise where the concerned party lacks insight of its underlying faulty-mentation-procedure-deception and as it seem socially-function) will ultimately lead to its slanting-deception (or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-dementing-of-narratives) inducing its apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing and its consequent derivation as conjugated-postlogism or

social psychopathy apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. This process is mirrored with the various conjugated-postlogisms conscious or unconscious aligning to the psychopathic/postlogical postlogism-as-of-non-conviction vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging. Thus effectively such a postlogism-as-of-non-conviction process is rather very simplistic, and the deception arises actually from the prelogism-as-of-conviction mental-states to be by mental-reflex in prelogism-as-of-conviction thus inducing wrongful teleological elevation of the postlogism/psychopathic meaningfulness-and-teleology, which wouldn't occur at childhood psychopathy. Finally, as of dynamic-cumulative-aftereffect and across all registry-worldviews/dimensions, the 'distractive-alignment-to-reference-of-thought of any registry-worldview/dimension institutionalisation meaningfulness-and-teleology as of its organic-knowledge' can be construed and analysed across 3 lines; - the initiating temporal postlogism distractive-alignment-to-reference-of-thought of meaningfulness-and-teleology, - the generalised temporal-dispositions to integrate such ontologically-destructured meaningfulness-and-teleology as of the registry-worldview's/dimension's relative-ontological-incompleteness-of-reference-of-thought explaining its beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought and 'lack of constraining social universal transparency, - and the prospective institutionalisation construing/conceptualising the ontological-veridicality and analysis of such registry-worldview/dimension institutionalisation meaningfulness-and-teleology distractive-alignment-to-reference-of-thought dynamics (as of the previous two) as social ontology/aetiologisation/ontological-escalation, and equally serves as an ideal storied-construct of intuitive elucidation framework. The implication of such 'temporal distractive-alignment-to-reference-of-thought of institutionalisation meaningfulness-and-teleology' across all registry-worldviews/dimensions

is that meaningfulness-and-teleology as of prospective registry-worldview/dimension institutionalisation involves ‘its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights enabling utter psychical-and-institutional conflatedness of meaningfulness-and-teleology exactly by transcending/superseding the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights behind the prior registry-worldview/dimension uninstitutionalised-threshold’. As critically the naivety of averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> within a same registry-worldview/dimension uninstitutionalised-threshold reference-of-thought is that its defect of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights arising as perversion-of-reference-of-thought due to its prior relative-ontological-incompleteness-of-reference-of-thought (as failing rulemaking-over-non-rules in recurrent-utter-uninstitutionalisation or failing universalisation-directed-rulemaking-over-non-rules in ununiversalisation or failing positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules in non-positivism/medievalism or failing preempting—disjointedness-as-of-reference-of-thought-as-lacking-in-epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity-as-to-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules in procrypticism, and thus requiring respectively transcending/superseding to base-institutionalisation, universalisation, positivism and deprocrypticism), is that meaningfulness-and-teleology can then still be upheld on the basis of the same uninstitutionalised-threshold/uninstitutionalised apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-

incidenting-predicative-insights rather than the more ontologically-veridical implication of
 prospective registry-worldview/dimension institutionalisation

 Explicating thus the structural/paradigmatic implication of the non-positivistic or our

intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm and not temporal extricatory paradigm parasitising/co-opting to the species existential-tale.] The statements articulated priorly (before the square brackets texts) speak of the reality of ‘human temporal uninstitutionalised-threshold mental-disposition’ even in our own positivism reference-of-thought registry-worldview. It is fair to say the statement made before, “Z ... will look down on B, C, D, E and F mental-dispositions perversion-and-derived-perversion-of-reference-of-thought as allowing for the endemisation/enculturation of the denaturing of additionality and the implications thereof of subsequent denaturing in circularity/recurrence/repetition/repeatability” is circumstantially relevant even in our positivistic registry-worldview wherein ‘lack of constraining social universal-transparency induces a ‘human temporal uninstitutionalised-threshold mental-disposition’ temporality/shortness or shortness-of-register-of-meaningfulness-and-teleology drive. The Milgram experiments, a demonstration par excellence of the human condition at uninstitutionalised-threshold with respect to perceived-social-stake-contention-or-confliction constraints as of human limited-mentation-capacity-(as of relative constitutedness towards relative conflation), truly reflect the inherent nature of 'human temporal uninstitutionalised-threshold mental-disposition'; and the deprocrypticism-driven understanding of which should rather be an avenue for a pivoting/decentering psychologism with respect to positivism—procrypticism registry-worldview/dimensions vices-and-impediments (just as with all previous transcendences of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>projective-totalitative—implications—imbued-

epistemic-causality,-for-explicating-ontological-contiguity', rather than a naïve metaphysics-of-presence mental complex that only serves 'flawed egos' and is of no ontologically-veridical import). The point of this distinction made between the nature of 'human institutionalisation mental-disposition' registry-worldview's/dimension's reference-of-thought and 'human temporal uninstitutionalised-threshold mental-disposition' registry-worldview's/dimension's reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between 'cumulated institutionalisation' (which we carry by being secondnatured at the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality/longness (which overall is no more greater than that of humans of previous successive registry-worldviews/dimensions); and further that we are just of the same 'human temporal uninstitutionalised-threshold mental-disposition' as all humans past when it comes to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality-drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-completeness leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, an institutionalisation-facet and an uninstitutionalised-threshold-facet, so-construed by metaphysics-of-absence, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather

construed most critically by its relative intrinsic-reality/ontological-veridicality
 transcendental-enabling/sublimating. Such metaphysics-of-absence considerations are
 critically relevant in fully appreciating the articulation herein by this author of such notions
 (that rather speak of uninstitutionalised-threshold implications with respect to ‘a social
 pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality
 transcendental-enabling/sublimating’), like deferential-formalisation-transference, ordered-
 construct, percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-
 conflation> and transversality-of-disambiguated-apriorising/axiomatising/referencing.
 Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured
 scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-
 enabling/sublimating is grounded on institutionally-determined peerage/collegiality as of
 positivistic institutionalisation deferential-formalisation-transference, so supposedly
 recognised within the social collective or ‘social framework of intersolipsistic deambulation’.
 But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as
 ‘moulting’ firstnature/intemporal conceptualisation of what developed to become today our
 scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality
 transcendental-enabling/sublimating) from the non-positivism/medievalism registry-
 worldview/dimension, we can definitely fathom that the enlightenment actors like the
 Descartes’s, Galileos, Diderots, etc. of those transitioning times would have certainly been
 circumspect with regards to any such notion of preceding social approval (for their scientific
 meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality
 transcendental-enabling/sublimating), given the social non-positivism/medievalism
 uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-
 awareness-teleology-in-existential-extrication-as-of-existential-unthought. This points to an
 altogether different social relation with the notion of scientific practice construed as of

relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, by such intemporal-solipsism/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outliers. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> possibilities enabling promising ideas, however institutionally-outlier or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturating prospective institutionalisation of scientific practice as of its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like differential-formalisation-transference, ordered-construct, percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> and transversality-of-disambiguated-apriorising/axiomatising/referencing. In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and differential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating that induces

social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness-of-reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality-<susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology> as of its free-for-all nature. The bigger point being that even in our positivism–procrysticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are

spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one another’s actions but deferring one’s understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that ‘human intemporal mental-dispositions and projections’ are the basis for ‘inventing’ human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not ‘human temporal averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-

to-prospective-apriorising-implications> mental-dispositions and projections’. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism/psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections’, and undermining a social relations with regards to knowledge and virtue that is based on ‘social consensus as of social-aggregation-enabling by human temporal averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-dispositions and projections’, and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism phenomenon including psychopathy on the assumption of an overall ‘human institutionalisation mental-disposition’ of the social as of the present as metaphysics-of-presence instead of assuming a ‘human temporal uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-absence, since the construal of our postlogism as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic/notional_projective-perspective, reflected from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human institutionalisation of an intemporality-drive whereas in

fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview's/dimension's reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the sense that it tends to be of an extricatory/temporal paradigm and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process of institutional-cumulations/institutional-recomposures, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-

recomposuring-for-relative-ontological-completeness for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates that striving for deprocrypticism to supersede positivism–procrypticism; as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnatured-construct across all institutional-cumulations/institutional-recomposures or registry-worldviews/dimensions inevitably implies a dichotomy of reference-of-thought modalities of the same perpetual temporalities-drives and intemporality-drive (given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor), respectively as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’ and ‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maxi. Virtue is essentially about the intemporality-drive as maximalising-recomposuring-for-relative-ontological-completeness for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication with reference-of-thought–categorical-imperatives/axioms/registry-teleology subservient to that purpose, and not about the temporalities-drives as ‘mere adherence as intradimensionally deterministic by form’ to reference-of-thought–categorical-imperatives/axioms/registry-teleology as these are failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of

relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication rather than upholding it, their very *raison d'être*. Interestingly, supposed by some circumstance an individual of a positivistic insight found themselves in a non-positivistic community, whether base-institutionalisation/animistic or medieval, facing a disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of an infection with the idea that a certain root or leaf in the nearby forest can be used as cure, however, the community rather believe that the forest is an evil forest and this will just make things worse for them overall. Obviously, as of its positivism prospective relative-ontological-completeness-of-reference-of-thought, by 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness its mental-disposition will be to unleash its maximalising-recomposuring-for-relative-ontological-completeness intemporality-drive to supersede the non-positivistic reference-of-thought-categorical-imperatives/axioms/registry-teleology that the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in the forest brings about cure by walking over the supposed 'evil forest', and more than just the circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community's existence. It is interesting to grasp the difference in the dereifying and reifying construal of existential-contextualising-contiguity here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed 'evil forest' will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-

disposition going by their supernatural conception of existential-contextualising-contiguity–in-reification/dereification as of their prior relative-ontological-incompleteness-of-reference-of-thought, contrasted with the positivist naturalist conception of existential-contextualising-contiguity-in-reification as-seeking-a-cure as of its prospective relative-ontological-completeness-of-reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of ‘what is meant by proof/evidence’ even in our positivism–procrysticism registry-worldview/dimension as of its prior relative-ontological-incompleteness-of-reference-of-thought, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity-reification as of singularisation/epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema> in decentering the ‘modern-take thinking’ reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness-of-reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in epistemic-totalising–self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag; with the implication that such
 ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic
 askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is
 rather in transversality-of-disambiguated-apriorising/axiomatising/referencing of the prior
 relative-ontological-incompleteness-of-reference-of-thought and the contorted prospective
 relative-ontological-completeness-of-reference-of-thought from their respective
 existentialism intelligibility stances. This contortion as of prospective relative-ontological-
 completeness-of-reference-of-thought projection is what marks ‘transcendental acts of
 ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic
 askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning’ whether of
 philosophical implications as with say Socrates or philo-religious implications as of
 nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because
 inherently the state of prior relative-ontological-incompleteness-of-reference-of-thought ever
 always fails to accompany prospective state of prospective relative-ontological-completeness-
 of-reference-of-thought but for the induced cross-generational transcendental metaphoricity
 possibility, and the contortion is more of a token as of the metaphoricity possibility for
 prospective transcendence and without which token contortion there is ‘no existential
 reference for such transcendence’, as a gesturing of metaphoricity that is ‘beyond the prior
 relative-ontological-incompleteness-of-reference-of-thought full meaningfulness-and-
 teleology implications contemplation’. The contortion implies that there is ‘nothing any more
 important than upholding the metaphoricity possibility for prospective relative-ontological-
 completeness-of-reference-of-thought’; as transcendental instigation can’t be of ordinary
 inclination at one moment and at another moment of transcendental inclination, as this will

only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-completeness-of-reference-of-thought transcendence into the ordinariness of prior relative-ontological-incompleteness-of-reference-of-thought thus psychoanalytically/exegetically/symbiologically existentially undercutting the token contortion existential reference for prospective relative-ontological-completeness-of-reference-of-thought transcendence. Thus ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ only evolves into such asceticism as of contortive metaphoricity gesturing for prospective relative-ontological-completeness-of-reference-of-thought as of nonextricatory-existential-preempting-of-existential-unthought; and has historically acted as a sort of internal cultural diffusion disposition. Such a prospective ontological conception of asceticism rather as of reasoning-through/messianic-reasoning asceticism, different from asceticism as reasoning-from-results/afterthought or institutional asceticism, should basically be understood as of the general notion that all human meaningfulness-and-teleology are naturally ‘correlate-aesthetic-constructs as of the various reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation in successive prior relative-ontological-incompleteness-towards-ontological-completenesss-of-deprocrypticism’ as of their specific reflection of the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality (just as implied with the case highlighted herein of the ‘ill-health epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’); and are so derived as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance

Critically for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism such ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ is all about undermining a nihilistic averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-disposition to prospective opened-construct-of-meaningfulness-and-teleology. The fundamental ontological dearth of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism, is that it falsely implies ‘an imaginary wholeness/nested-congruence’ of epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology with ‘no-tracing-and-as-it-neuterises’-the-dynamics-of-temporal-to-intemporal-ontological-performances thus failing to reflect existential wholeness/nested-congruence of meaningfulness-and-teleology and undermining existential-contextualising-contiguity knowledge-reification’ at a given

reference-of-thought structural/paradigmatic nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives) threshold as of its prior relative-ontological-incompleteness construed as uninstitutionalised-threshold, while falsely implying the given reference-of-thought mere identitive conceptualisations/‘candid existential expressiveness’ are existentially veridical; and it is important to grasp that every registry-worldview/dimension is of a reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that by its reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation falsely implies that its meaningfulness-and-teleology is necessarily as of ‘identitive epistemic-totalising/circumscribing/delineating dialectical-thinking’ even at its uninstitutionalised-threshold where it is effectively dementing as its reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation fails to induce an ontologically-veridical reifying trace/ontological-aesthetic-tracing of existential-contextualising-contiguity. We can imagine as of a non-positivistic social-setup reference-of-thought identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology, the ‘candid existential expressiveness’ that ‘integrates superstition as-thinking’ as of its uninstitutionalised-threshold, much like as from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism perspective we can imagine the ‘candid existential expressiveness’ in our positivism—procrypticism that ‘integrates procrypticism/disjointedness-as-of-reference-of-thought as-thinking’ as of its uninstitutionalised-threshold; and in both cases the ‘trace/ontological-aesthetic-tracing of ontological wholeness/nested-congruence’ as of existential-contextualising-contiguity knowledge-reification breaks down at the

uninstitutionalised-threshold thus assuming a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives) identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism representation of the breakdown and going on in both cases to ‘overlook effectively as-if-thinking respectively’ the ontologically-veridical reality of ‘dementing superstition’ and ‘dementing procrypticism/disjointedness-as-of-reference-of-thought’. It is singularisation/epistemic-immanence/veridical-epistemic-determinism in preempting any such structural/paradigmatic threshold construed as uninstitutionalised-threshold as implied by notional-deprocrypticism that reflects ‘ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism’ as factoring in prior registry-worldviews/dimensions reference-of-thought prior relative-ontological-incompleteness as of the ontologically-flawed threshold of its reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation from the perspective of prospective registry-worldview/dimension reference-of-thought prospective relative-ontological-completeness to construe historicity/ontological-eventfulness/ontological-aesthetic-tracing as of notionally-full existential-contextualising-contiguity knowledge-reification. In other words, existential-contextualising-contiguity as reflecting existence as the absolute a priori isn’t halted at any given registry-worldview’s/dimension’s structural/paradigmatic limit/threshold-construed-as-mathesis/motif/thrownness-disposition for ontological conception, but rather reifies as of singularisation/epistemic-immanence/veridical-epistemic-determinism as implied with ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as of notional-deprocrypticism, with such singularisation/epistemic-immanence/veridical-epistemic-determinism reflecting an historicity/ontological-eventfulness/ontological-aesthetic-tracing of all such

structural/paradigmatic limits/thresholds-construed-as-mathesis/motif/throwness-disposition
 of reference-of-thought ontological conception. In effect, such a trace/ontological-aesthetic-
 tracing can be construed as a ‘creative metaphoricity tracing’ of human temporal-to-
 intemporal ontological-performances of human meaningfulness-and-teleology as of the
 dynamics of ‘human overall Being-personality-growth and the implications for its living-
 personality-growth and institutional-personality-growth’ implied as of notional-
 deprocrpticism ontologically-uncompromised—referentialism, as a fundamental
 hermeneutic psychological science which as of singularisation/epistemic-
 immanence/veridical-epistemic-determinism articulates-and-rearticulates such
 tracing/ontological-aesthetic-tracing as of comprehensive/holistic/nested-congruence
 conflatedness from a most profound existential-contextualising-contiguity knowledge-
 reification depth of notional-deprocrpticism protracted-consciousness. Such a hermeneutic
 psychology is necessarily cognisant and departs from a construal of the fundamental
 instigation of human knowledge and emancipation as of ‘ontological-faith-notion-or-
 ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—
 as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-

 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so prior to
 assumed meaningfulness-and-teleology
 aposteriorising/logicising/deriving/intelligising/measuring. Hence such a notion cannot be
 construed on the basis of ordinarily assumed meaningfulness-and-teleology
 aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather

submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding positivism reasoning-through/messianic reasoning then ‘is-not reasoning as-of-yet’ as reasoning is then as of the non-positivism/medievalism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘as non-positivism reasoning susceptible to superstition and scholasticism-like pedantry construed as universalisation-directed-rulemaking-over-non-rules but not yet as of rational-empiricism’; with such budding positivism rather a metaphoricity instigation of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic soul-searching for the psychoanalytic-unshackling of the human subject as of a structural/paradigmatic Lacanian displacement/decentering of the human subject from its prior ‘epistemic-totality/reference-of-thought/epistemic-totalising–self-referencing-syncretising/circularity conception of meaningfulness-and-teleology as of non-positivism/medievalism’ to a prospective ‘epistemic-totality/reference-of-thought/epistemic-totalising–self-referencing-syncretising/circularity conception of meaningfulness-and-teleology as of positivism/rational-empiricism’, that is the fundamental structural/paradigmatic seeding-resolution of the ‘non-positivism/medievalism human subject superegoic vices-and-impediments’. This has the very same metaphoricity implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, as such a hermeneutic psychology supersedes our ordinary meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question

our positivism–procrysticism/disjointedness-as-of-reference-of-thought reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation for reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but rather as of its reasoning-through/messianic-reasoning is more about instigating prospective ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic soul-searching, for the psychoanalytic-unshackling of the human subject as of a structural/paradigmatic Lacanian displacement/decentering of the human subject ‘epistemic-totality/reference-of-thought/epistemic-totalising–self-referencing-syncretising/circularity conception of meaningfulness-and-teleology as from prior positivism–procrysticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrysticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as the fundamental structural/paradigmatic resolution of the ‘positivism–procrysticism human subject superegoic vices-and-impediments’. It should be noted that the way the construction of knowledge works at reference-of-thought-level of reasoning-through/messianic-reasoning is utterly counterintuitive to how we perceive prospective elucidation of human knowledge and emancipation going by the given reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation as of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. In the same vain, the idea that ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ articulation of prospective ontologically-uncompromised—referentialism deprocrypticism reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring is the route for ontologically-veridical human knowledge transformation and emancipation in futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism is very much alien to our positivism—procrypticism cloistered-consciousness. In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality/reference-of-thought/epistemic-totalising—self-referencing-syncretising/circularity conception of meaningfulness-and-teleology’ which effective dislodgment/displacement/decentering is as of a cross-generational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’ to imply that the state of recurrent-utter-

uninstitutionalisation is cognisant of emancipation but doesn't anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation, and likewise the latter doesn't anticipate the universalisation reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation which itself doesn't anticipate prospective ontologically-uncompromised—referentialism deprocrypticism. The fact is human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor at its uninstitutionalised-thresholds implies that the human psychological reflex as of its limited-mentation-capacity at any such uninstitutionalised-threshold 'is not geared to adhere to abstract ontological-veridicality' as it will operate its state of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as if in a fully-attained state of singularisation/epistemic-immanence/veridical-epistemic-determinism, as of the-very-central-implication-of-throwness, as reflected by the successive prior relative-ontological-incompleteness reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation towards ontologically-uncompromised—referentialism deprocrypticism/preempting—disjointedness-as-of-reference-of-thought; and thus from a strictly ontologically-veridical point-of-view/perspective, and so beyond our enculturated-conception,-normalisation-and-practice-of-psychology and just as various mystical-and-mythical-practices of prior non-positivism registry-worldviews/dimensions were their own sort of enculturated-conception,-normalisation-and-practice-of-psychology as of their own times, the notion of a psychological science as reinforcing/propping-up human psychology in any prior relative-

ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology state is downright ontologically ridiculous and the manifestation of an epistememic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn't wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation/epistemic-immanence/veridical-epistemic-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein dialectical-thinking reasoning-from-results/afterthought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as dialectically-dementing as of prospective dialectical-thinking reasoning-through/messianic-reasoning reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation up to the prospective ontologically-uncompromised—referentialism of deprocrypticism. As of its inherent organic knowledge, such a hermeneutic psychology parrhesiastic articulation as herein 'doesn't do gimmicks of communication' as if to imply any favour whatever as of 'emotional or whatever feel-good trading for the appreciation of the possibility for prospective human emancipation', since by its 'presencing—absolutising-identitive-constitutedness consummated/forfeiting posture' it is beyond the idea of convincing for convincing sake as it is simply 'a blunted eliciting of a solipsistic sense of intemporal/longness-of-register-of-meaningfulness-and-teleology projection in any human

and no more' with no point going beyond that point as it then becomes as of intellectual-and-moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>; and so, as its essential meaningfulness-and-teleology is as of a solipsistic transversality-of-disambiguated-apriorising/axiomatising/referencing reflection of the ontologically 'superior party' that is intrinsic-reality/ontological-veridicality/existence as the absolute a priori in its ecstatic singularity, on the same token that a natural scientist is in a transversality-of-disambiguated-apriorising/axiomatising/referencing reflection of its object of study as of existence as the ontologically 'superior party' without any need to be involved in any bogus exercises that may imply that gravity may not be 9.8 m/s^2 on earth if any given human subject isn't accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s^2 but that as well needs to be established as of the ontologically 'superior party' that is existence as the absolute a priori as of ontological-primemovers-totalitative-framework. But then the human reality across all registry-worldviews/dimensions, isn't inherently 'of immediate intellectual responsiveness' to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the 'obvious reality' of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the 'existentially invested nature as of assumed reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation' of human 'epistemic-totalising/circumscribing/delineating meaningfulness-

and-teleology'/reference-of-thought-devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its 'dialectical-thinking' prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its 'dementing' uninstitutionalised-threshold which it tends to represent as nondescript/ignorable void (actually speaking of akraasiatic-drag-denatured-and-dementing-narratives), for the possibility of its prospective transcendence-and-sublimity into prospective institutionalisation. This reality is known as human 'dementative constraint' to prospective institutionalisation transcendence-and-sublimity as of the possibility of prospective relative-ontological-completeness-of-reference-of-thought. Human dementative constraint is fundamentally associated with poor universal-transparency with respect to social-stake-contention-or-confliction at uninstitutionalised-thresholds. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity and on that token fails to tip the balance over the 'social obfuscation dynamic effect' of <formative>wooden-language—of-temporal-mere-form/virtualities/dereification/akraasiatic-drag-denatured-and-dementing-narratives as of the prior institutionalisation's reference-of-thought—categorical-imperatives/axioms/registry-teleology that stifle the transcendence-and-sublimity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness-of-reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of human dementative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity as implied by a 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' that

emphasises the ‘Lacanian subject’ growth as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics, rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity, and thus making the given presence reference-of-thought as our positivism—procrypticism ‘all-determinative of what can be construed as psychological emancipation’ as of its epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag despite the fact of its prior relative-ontological-incompleteness-of-reference-of-thought to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought. The underlying issue here as well as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism has to do with deficient human capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) in construing meaningfulness-and-teleology beyond the constraint of ‘human lifespan of depth-of-thought’ to a more profound appreciation of the underlying possibility for human transcendence-and-sublimity as of human

intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. In this regard as of lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension is the human temporal inclination to decontortion construed as a disposition to undermine ‘intemporal ontological-veracity as of universal existential import’ for the sake of ‘temporal narrow-and-specific existentially-invested advantage/interest with little concern about emancipatory universal meaningfulness-and-teleology’, and so as the very contrary disposition to reasoning-through/messianic-reasoning contortion. Decontortion as of human epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag incrementalism-in-relative-ontological-incompleteness is rather counter to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition by its deterministic hanging onto prior relative-ontological-incompleteness-of-reference-of-thought reasoning-from-results/afterthought while ignoring/overlooking the ontological-veracity implications of the trace/ontological-aesthetic-tracing of reifying existential-contextualising-contiguity, and thus adopting a dereification posture as enabled by ‘lack of constraining social universal-transparency’. Such a human disposition to decontortion at uninstitutionalised-thresholds arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology as it reflects existence’s coherence/contiguity as of singularisation/epistemic-immanence/veridical-epistemic-determinism. But then such a decontorting disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually dementing and prospectively dialectically-primitive, notwithstanding our

attendant epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag and vague untransvaluated–temporal-
 intemporality gesturing. The ontological-contiguity—of-the-human-institutionalisation-
 process can thus be construed as one of increasingly undermining the human subject temporal
 decontortion disposition not to dispense-with-immediacy-for-relative-ontological-
 completeness; wherein across the successive institutional-cumulations/institutional-
 recomposures, decontortion is ontologically-constrained both as of the ‘dynamic construal of
 appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal
 of appropriate-as-intemporal existential human mental-disposition’. The former is
 ontologically-constrained as of ontological-primemovers-totalitative-framework in
 undermining the human temporal inclination to phenomenality/phenomenal-manifestation
 decontortion, while human temporal mental-disposition for decontortion is additionally
 ontologically-constrained with availability of universal-transparency. Relatively objectified
 phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly
 subjected to decontortion while relatively subjective phenomenality/phenomenal-
 manifestation as implied in the social is rather easily subjected to decontortion as of
 blurriness and emotional-involvement. In another respect the implications of flawed
 identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-
 epistemic-determinism as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-
 determinism also has implications with the ontological-performance as of the effective
 productivity potential of human knowledge construction. In this regard, this author contends
 that the historically recurrent critique of naïve formalisation particularly in many a field of
 study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and
 epistemology naively construed as of inherent transcendental signifier’ such as in the analytic
 tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as

many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism implied as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity knowledge-reification as of singularisation/epistemic-immanence/veridical-epistemic-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity without the constraint of existential-contextualising-contiguity knowledge-reification as of existence as the absolute a priori as its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and-sublimity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care-and-episteme. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-

mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already precedingly/supersedingly as of ‘ecstatic holism/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic holism/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness with respect to temporal-to-intemporal ontological-performance which is what enables the reification of existence/intrinsic-reality/ontological-veridicality. In this regard for instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its existential-contextualising-contiguity knowledge-reification with regards to the possibility of human transcendence-and-sublimity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative constitutedness nature just an implied existentially decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with respect to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, in contrast to the reifying conflatedness connotative nature of ‘speech activity’ discourse as of its contextualising ecstatic-holism/nested-congruence; such that the

<formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity posture that is as of ecstatic-holism/nested-congruence as with the latter. Such a conclusion can be extended to other analytic tradition concepts assuming rather an atomising/taking-to-pieces formalisation orientation like the broader notion of language games when rather analysed as of a denotative/connotative constitutedness nature outside existential-contextualising-contiguity whereas in contrast this author construes of the ontologically-veridical reflection of the social purview as better served by the notion of ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’ as of its reifying conflatedness connotative nature reflecting the ontological-veracity/ontological-performance of human-subpotency epistemic/notional_projective-perspective meaningfulness-and-teleology articulated within any given registry-worldview/dimension social-setup going by its supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction exposing it to existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness epistemic/notional_projective-perspective of ontological-primemovers-totalitative-framework as of prospective relative-ontological-completeness <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’, and so-construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism

 conceptually and operantly ontologically efficacious inherently by its ecstatic-holism/nested-
 congruence as it reflects holistically the ‘temporal-to-intemporal-dispositions accordions
 ontological-performances-including-virtue-as-ontology of narratives’ as of the social
 epistemic-totality of meaningfulness-and-teleology. This holistic insight is reflected in the
 Derridean deconstruction orientation with its obvious narratology implications pertinence to
 literary studies as of its conflatedness with existential-contextualising-contiguity in contrast
 to such a notion like language games when construed rather in constitutedness. This
 difference of conceptualising comes down to the atomising/taking-to-pieces flaw reflex of
 constituting-towards-epistemic-totality implied as of ontologically-flawed identitive-

This specific deficiency of the analytic tradition as so-reflected in many of its conceptualisations has to do with the very notion of knowledge as being about supposedly coherent ontological-commitment as of ‘affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking

of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as
axiomatic-construct', and logic actually being in effect the 'inner working

In this regard, 'speech activity' discourse speaks of an supposedly coherent ontological-
commitment as of 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-
world/conditions' as expressed above (with regards to the social contextualisation beyond
just speech for the possibility of human transcendence-and-sublimity...) which is then being

'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-

This underlying notion of ontological-performance speaks more fundamentally of aetiologisation/ontological-escalation, as explicitly underlined in all transcendence-and-sublimity elucidating/reifying subject-matters and sciences, unlike approaches that do-not-or-poorly-appreciate the fact that just as scientific studies are transformative the study of the social rightly articulated beyond-institutional-being-and-craft is just as transformative with regards to prospective human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, even though it is more subject to higher emotional-involvement as of its displacement/decentering-of-the-human-subject <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity. Whereas the analytic tradition posture as with 'speech act' gives precedence to logical-commitment as reflected in its atomising/taking-to-pieces formalisation approach (implied as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity) geared towards identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism, which by the token of working by atomising/taking-to-pieces formalisation on specific aspects or specific interpretation as of formalisation construct ignores/overlooks 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as the veridical supposedly coherent ontological-commitment in want of existential-contextualising-contiguity knowledge-

reification for knowledge as ontologically-veridical meaningfulness-and-teleology, as can be validated and falsified by ontological-primemovers-totalitative-framework <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity. This fundamental difference of conceptualisation very often underlies the disagreements between the analytic philosophical orientation and other philosophical traditions, in the sense that while the latter might be implicitly implying supposedly coherent ontological-commitment about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ when making its argument, the former will tend to be making a logical-commitment argument as of formalisation construct that ignores/overlooks-and-hence-is-poorly-constrained to the precedence/supersedingness/ascendency of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in need of existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity, and goes on to naively deploy outside existential-contextualising-contiguity knowledge-reification such logic notions like non-sequitur, fallacies, etc. and/or mere categorising denotative/connotative formalisations in constitutedness as ends in themselves, rather than construing logic as of the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ of supposedly coherent ontological-commitment for knowledge elucidating/reifying which validation and falsifiability is rather a matter of ontological-primemovers-totalitative-framework <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity. The fundamental point here is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-

existence/the-nature-of-the-world/conditions' as of Being and beings as reflected in first-level ontology and second-level ontologies, and logic cannot derive the superseding/preceding ecstatic existential veridicality of Being and beings which validation and falsifiability is ever always a matter of ontological-primemovers-totalitative-framework <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity. Being and beings construed-as-of-ontology/apriorising/axiomatising/referencing in the conceptualising of the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality or any epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or any-issue-in-existence as knowledge, and so as of articulated axiomatic-constructs; is rather reflected either in affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking when the conceptualising is in prospective relative-ontological-completeness or is reflected in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing when the conceptualising is in prior relative-ontological-incompleteness, and in both instances as substantiated or unsubstantiated respectively by ontological-primemovers-totalitative-framework in reflection of the ascendancy of existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. For instance, with the affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs over classical-mechanics—axiomatic-constructs as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing. This is also the case as of the

affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking of the ‘relative-ontological-completeness-of-reference-of-thought’ over ‘relative-ontological-incompleteness-of-reference-of-thought’ as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing; for instance, futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism over our positivism–procrypticism or in the case of our positivism over prior non-positivism–medievalism. Logic arises as a mental-reflex of the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ in knowledge construing-as-of-ontology/apriorising/axiomatising/referencing of Being and beings. However, because a reference-of-thought is already an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as of its underlying affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking, logic seems to be the only mental exercise involved since the underlying affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is ever so pervasive-and-transparent to contemplation by mental-reflex, such that when the affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking of covert flawed-as-dementing apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is implied with

 towards antinihilistic undermining of sophistic/pedantic dispositions as of incrementalism-in-
 relative-ontological-incompleteness. With the very blurry nature of the social, even with the
 best of intentions as when continental philosophers try to engage the analytic tradition, the
 experience has often turned out poorly given the failure to explicitly grasp/appreciate the
 conflicting implications of their differing knowledge commitments as of supposedly coherent
 ontological-commitment implied ecstatic-holism/nested-congruence with the former and
 logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as
 going by conceptual-patterning, it can be naively implied that similar conceptual wordings
 imply similar knowledge commitments and operant articulations. In the same vein, one can
 say that notions like spacetime, force, atoms, etc. in the physics epistemic-totalising-

 veridicality/existential-reality are inherent supposedly coherent ontological-commitment

that are in need of existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity, and logic can only be the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of such supposedly coherent ontological-commitment, and all the physics that is relevant is their further existential-contextualising-contiguity knowledge-reification as physics knowledge as of its ontological-veridical meaningfulness-and-teleology as can be validated and is falsifiable by ontological-primemovers-totalitative-framework <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity. Even mathematics it is often underestimated works rather an supposedly coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existential-contextualising-contiguity knowledge-reification constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological-commitment ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with

this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ insight about supposedly coherent ontological-commitment articulated as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and not mere logic, with logic not able by itself to derive ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as it is often naively implied but instead reflecting the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ and as any such implied derivation is rather as of explicated/implicated coherence/contiguity with another/other ‘transversally devolving-or-complementary ontological/axiomatic-construct conceptions’ as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ providing insight

about supposedly coherent ontological-commitment in producing knowledge as meaningfulness-and-teleology; such that critically, appropriate philosophical phenomenal insight with regards to ‘the general and normal day to day experience about living itself’ as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to ontological-primemovers-totalitative-framework, and so because such well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’ in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of conflatedness than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a holistic conflatedness demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded onticising construal of existence as of epistemic-totalising-devolved purviews of existence so-construed as subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implicit as of overall existence metaphoricity/ecstasy panintelligibility-as-reifying-and-

empowering-reflexivity-of-ecstatic-existence as of supervening-conflatedness. Knowledge as meaningfulness-and-teleology, whether of underlying ontological-construal or ontical-construal, is epistemically validated as of supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework. Inherently, because human-subpotency supposedly coherent ontological-commitment is very much intimately linked with the ontological-performance of human as of prospective relative-ontological-completeness appraisal, it is always ever the case that as of human epistemic-totalising-thrownness-in-existence the validation of knowledge as meaningfulness-and-teleology as of supposedly coherent ontological-commitment is equally as of the-very-same-epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality or epistemic-totalising-devolved-purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality constructs; which construal is necessarily as of conflatedness with respect to the-very-same-epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality or epistemic-totalising-devolved-purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality and relative-ontological-completeness as of human limited-mentation-capacity-deepening, thus invalidating the epistemic-veracity of constitutedness of knowledge. The implication here is that the epistemic-veracity of knowledge as meaningfulness-and-teleology is rather as of the ‘epistemic-totalising construal as of existence’ with epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality rather ‘narrowing-construals of their specifically-implied human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated-human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation, and hence of nested-congruence with existence’. This further points out that the traditional explicated constitutedness conception of the notion of cause-and-effect so-

implied herein as ontological-primemovers-totalitative-framework is actually epistemically-impertinent and flawed; as this traditional conception tends beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought to imply unconnectedness-with/not-in-nested-congruence with the-very-same-epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality or epistemic-totalising-devolved-purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality, hence implicitly-or-explicitly liable to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. This constitutedness nature of the notion of cause-and-effect so-implied veridically as ontological-primemovers-totalitative-framework arises as of the ‘basic and mere mimicking and deployment’ of supposedly science approaches and methodologies on the naïve assumption that their mere deployment is inherently of epistemic-veracity, such that such deployment when it undermines the ‘inherently nested-congruence of the-very-same-epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality or epistemic-totalising-devolved-purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality’ is in effect just elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Rather any such science approaches and methodologies striving to validate knowledge as meaningfulness-and-teleology by the supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness, is necessarily instigated as from a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while in many ways such

an elucidation hardly needs to be explicated in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness, this unexplicated implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity as of conflatedness; so-implied as of their supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be

undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidating outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ is very often incomplete, of-divided-theorisation and/or ‘poor coherence of theorisation with operant approaches and methodologies’, when it comes to many a social domain-of-study; as quite often theorisation in many a social domain-of-study strives on disparateness, rather than a tendency to ‘ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness enforced’ unifying coherence as in many a natural science domains-of-study, with the consequence that studies are often aloof to direct existential-contextualising-contiguity knowledge reifying exercise as of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups structurally/paradigmatically stifle the possibility for conceptualisation as of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness sublimating-validation/desublimating-invalidating implications, beyond their conventioning-referencing enframing. Ultimately the bigger issue arises as of the poorly-singularised/poorly-immanent nature of many a social domain-of-study unlike the grand singularised/immanent ‘epistemic-totalising/circumscribing/delineating foregrounding—entailment’ that are actually actively sought in the natural sciences; and this author portends that the suprastructuralism/postmodernism as of deprocrypticism ontology as ‘true-

ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ holds the promise for such effective grand singularised/immanent social conceptualisation that doesn’t dodge/ignore/disregard outstanding questions about the human existential reality including structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so-implied in our present positivism-procrypticism ‘contingent-ontology—as-of-conventioning-referencing’ and just as well when ‘science ideology’ seem to subvert and undermine science-in-practice. Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a ‘comprehensively elucidated/reified foregrounding—entailment of the given natural science domain-of-study’ with specialism more of a furtherance of such a foregrounding—entailment scheme in a strong arborescent syncing with the subject-matter general-theoretical-level, in many such social domain-of-study of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> (including some science domains as well which naively tend to draw comprehensive social and human implications of their studies) the drawback to such specialisms is often associated with ‘major interpretative loopholes at the general-theoretical-level of the subject-matter’ with regards to the knowledge-reification implications of supposedly specialisation domains and their studies since such an approach fails to effectively validate its methodological and conclusive implications with respect to the subject-matter general-theoretical-level implied ontology as of the subject-matter specific epistemic-conception phenomenal/manifest_subpotency-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—epistemic-perspective-of-

apriorising/axiomatising/referencing-conceptualisation so-reflected in its philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. This weakness is often reflected in naïve use of statistics and methods as well as drawing out conclusions based rather on ordinary average-thinking interpretation as of human-subpotency ‘rather than interpretations and conclusions ensuing naturally and arborescently as from existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness knowledge-reification implications derived from the general-theoretical-level of the subject-matter as reflecting ontological-contiguity’ whereas this is ever always the case with good practice in the natural sciences and just as well as with an increasingly self-conscious social science as specifically upheld by postmodern-thought. For instance, the internal-coherence/nested-congruence speaking of the underlying foregrounding—entailment implications articulated herein in reflecting the ontological-contiguity—of-the-human-institutionalisation-process can be garnered by the fact that all the knowledge-reification herein implied arises as of the very same underlying ‘objectifying cogent unifying process and gesturing’ as of ‘the <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness’, which is exactly what avails in the good practices of the natural sciences as driven by their ‘cogent-unifying-operant-dynamics’ whether with regards to say ‘objectifying chemical processes articulation’, ‘objectifying physical principles articulation’ or ‘objectifying biological processes articulations’, contrary to a practice of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> in many a social domain-of-study wherein supposedly reified knowledge ‘hardly has any underlying implied knowledge-

reification process/gesturing for its derivation’ as ‘cogent-unifying-operant-dynamics’ such that these turn out to be poorly operant or non-operant with the conceptual-patterning gesturing of mere-referring-confused-with-explicating, mere-mentioning-confused-with-deriving and mere-conceptual-synonymising-confused-for-knowledge-reification, such that the underlying ‘cogent-unifying-operant-dynamics’ of the supposed knowledge-reification is hardly operantly existent or is operantly non-existent. Bizarrely, the blurriness of the social seem to be misconstrued as implying knowledge-reification in the social should reflect such blurriness-as-of-disparateness rather than the ultimate objectifying foregrounding—entailment, and so by conjugating ‘relative-ontological-completeness <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’ together with ‘subject-matter breadth and depth’ to achieve such an overall subject-matter knowledge-reification as of objectifying foregrounding—entailment, in order to elucidate the blurriness. Such that quite often as of institutional practice the notion of foregrounding—entailment is often misconstrued non-aporetically/undilemmatically/unreframed/untransformed as ‘merely bringing together disparate conceptualisations for their cross-examination (on the basis of prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation)’ in a naïve substitution of the idea that foregrounding—entailment truly speaks of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint elicited reframing/transforming/reconstrual underlying ‘cogent-unifying-operant-dynamics’ that ‘runs-through/deflates’ implied conceptualisations in elucidating their ontological-veracity by its capacity to ‘objectively deflate-all-conceptualisations as of operant <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity in existential-contextualising-contiguity conflatedness’ as herein implied (involving prospective

 contrasting-and-comparison of disparate conceptualisations poorly reflecting underlying
 existential-contextualising-contiguity conflatedness; and further, such an insight of
 underlying ‘cogent-unifying-operand-dynamics’ as herein implied is often misconstrued as
 being monotonous (whereas such ‘supposedly monotonous process/gesturing of knowledge-

naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively uninsightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of existential-contextualising-contiguity conflatedness that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring/uninstitutionalised-thresholding to further advance its constructive/institutionalising nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeness transcendental-and-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of the <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity

of existential-contextualising-contiguity conflatedness. It is thus not surprising that naive disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> leads to subject-matters and studies whose supposed knowledge-reification tend to be most heavily dependent on ‘peering to a fault’ of the contingent-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily constrained to existential-reality as of underlying supposedly coherent ontological-commitment as validatable and falsifiable by ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as it is critically the case in the good practices of the natural sciences. The implication here is that the modern positivist ‘identitive conception of meaningfulness-and-teleology’ as of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism is basically caught up in its very own enframed averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> which as of its presencing—absolutising-identitive-constitutedness is rather ‘predisposed to a mental-reflex of construing concepts and conceptualisations in absolute terms of conceptual-patterning by mere referring, mentioning and synonymisation of concepts and conceptualisations as of a presencing—absolutising-identitive-constitutedness inclination in epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that poorly or doesn’t recognise the transforming nature of concepts and conceptualisations as of <formative>projective-totalitative–implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness involving the displacement/decentering-of-the-human-subject for

postmodern-thought cannot truly be understood in terms-as-of-axiomatic-construct of naïve

positivistic modern thought in its epistemic-totalising—self-referencing-

construes of such postmodern concepts and conceptualisations substitutively in its
predisposition of presencing—absolutising-identitive-constitutedness by its mere referring,

mentioning and synonymising of postmodern concepts and conceptualisations thus undermining the inherent postmodern-thought implied elucidation, derivation and knowledge-reification of concepts and conceptualisations, and as such identitive positivistic modern thought fundamentally fails to recognise and factor in the aforementioned postmodern-thought knowledge-reification process/gesturing as of <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness. Such a recurrent ontologically-flawed predisposition is tantamount to say construing Newtonian physics in the absolute terms-as-of-axiomatic-construct of its concepts and conceptualisations of say space, time, force, etc. to then project this predisposition by mere referring, mentioning and synonymisation of these Newtonian physics concepts and conceptualisations as if of Einsteinian physics in the hope that this will enable the elucidation, derivation and knowledge-reification of Einsteinian physics, whereas the latter implies an utterly different reification process/gesturing for its specific physics elucidation, derivation and knowledge-reification as of its <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness. It is rather the suprastructuralism/postmodernism reification process/gesturing as of <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness that supersedingly induces postmodern-thought implied concepts and conceptualisations elucidation, derivation and knowledge-reification, just as the same can be said of Einsteinian physics reification process/gesturing as of <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness in supersedingly inducing its specific

implied concepts and conceptualisations elucidation, derivation and knowledge-reification of say space-time, force, etc. In both instances, when interpreted from the relative-ontological-incompleteness perspective in ontologically-flawed presencing—absolutising-identitive-constitutedness of naïve positivistic modern thought or Newtonian physics respectively, suprastructuralism/postmodern-thought and Einsteinian physics will be ‘qualified negatively as relativistic’ since the latter do not assume a presencing—absolutising-identitive-constitutedness with concepts like truth, space, time, force, etc. and the latter rather perceive these as ontologically-flawed elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity as from the relative-ontological-completeness perspective which emphasises construing existential-reality as it manifests itself as of existential-contextualising-contiguity in conflatedness; and likewise, the fact that existential-contextualising-contiguity in conflatedness ‘epistemically implies human limited-mentation-capacity-deepening for construing ontological-veracity’, thus ‘putting-in-question/deflating by difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism’ all presencing—absolutising-identitive-constitutedness traditional conceptions beyond their simplistic conceptual-patterning to reflect underlying ecstatic-existence, will tend to be construed from the relative-ontological-incompleteness perspective in presencing—absolutising-identitive-constitutedness as nominalistic rather than as of ‘foregrounding—entailment edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as from the relative-ontological-completeness perspective. In other words, the concepts and conceptualisations of postmodern-thought are meaningless without their relevant and underlying theoretical background framework gesturing, and there is no point in construing them as of simplistic conceptual-patterning by mere referring, mentioning and

synonymisation as if these are of positivistic modern thought theoretical background
 framework gesturing just as the same can be said of striving for the elucidation, derivation
 and knowledge-reification of Einsteinian physics concepts and conceptualisations as if of
 Newtonian physics concepts and conceptualisations by mere referring, mentioning and
 synonymisation as if of the latter. In both cases, the <formative>projective-totalitative–

 knowledge-reification process/gesturing arises as of a general misunderstanding of what is
 generally implied with regards to any given knowledge-reification process/gesturing. As
 indicated before all subject-matters/domains-of-study effectively reflect existence’s overall

<formative>projective-totalitative-implications—imbued-epistemic-causality,-for-
 explicating-ontological-contiguity of relative-ontological-incompleteness/relative-
 ontological-completeness/relative-ontological-incompleteness, such that for instance even a
 naïve traditional conception of the physics domain-of-study as of atomising/taking-to-pieces
 constitutedness is shown to be veridically rather as of existential-contextualising-contiguity
 conflatedness going by the successive relative-ontological-completeness physics conception
 of such notions as space, time, etc. in epistemic-totalising development of successive theories
 say Cartesian, Newtonian, Einsteinian, String theory, etc. using the very same notions and
 derived-notions but with different implications. This epistemic-totalising nature of all
 domains-of-study in existential-contextualising-contiguity conflatedness as of
 <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-
 explicating-ontological-contiguity, speaks of the epistemic-veracity of the fact that ‘all
 knowledge is truly developed as of a hermeneutic circle for relative-ontological-
 completeness’ that involves human limited-mentation-capacity-deepening. This hermeneutic
 circle knowledge-reification process/gesturing is furthermore reflected in both human
 scholarly-and-pedagagic exercise wherein subject-matters/domains-of-study are grasped in
 successive articulations of deeper and deeper hermeneutic insight as of maximalising-
 recomposuring-for-relative-ontological-completeness. The implication here is that
 postmodern knowledge-reification process/gesturing simply integrates this notion in the sense
 that top-level postmodern scholars articulate their knowledge-reification process/gesturing at
 its ‘appropriate hermeneutic circle level of postmodern knowledge-reification’ no different
 from say top-level physicists and natural scientists articulating their knowledge-reification
 process/gesturing at their ‘appropriate hermeneutic circle level of top-level physics/natural-
 science knowledge-reification’. In both instances, the knowledge-reification
 process/gesturing implies that the scholar or student striving to engage at that top-level

understanding, needs to grasp the ‘preceding formative/pedagogic hermeneutic circle levels of knowledge-reification’. Such a supposed scholar or student cannot depart from ordinary/banal averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of an averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> predisposition to incrementalism-in-relative-ontological-incompleteness. The fact is the various pedagogic hermeneutic circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness are meant to transmit an ‘epistemic-totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that ‘epistemic-totalising/comprehensive organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower hermeneutic circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic circle of knowledge-reification in its maximalising-recomposuring-for-relative-ontological-completeness. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> level of knowledge conception, and implicated in its knowledge-reification gesturing/process is the notion that the prior/all-the-prior hermeneutic circle level(s) of the

subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a 'hermeneutic circle of levels of understanding' more or less very transparent, with regards to the blurriness of the social such a postmodern-thought 'hermeneutic circle of levels of understanding' rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the 'parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aestheticisation of underlying reference-of-thought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation', and one's intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge mathesis/motif/throwness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to ontological-primemovers-totalitative-framework as of inherent existence/ontological implications, as fundamentally requiring contemplative reification arising with human limited-mentation-capacity-deepening, with the implication that any philosophical, historial and social conception of knowledge is not an imprimatur discretion/whim-of-thought exercise on the basis of 'relic-or-orthodoxy knowledge' induced disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> but rather implying a furtherance of the overall hermeneutic exercise involved in the advancement of all human knowledge as of epistemic-totalising—renewing-realisation/re-perception/re-thought, wherein all such

knowledge-reification is a hermeneutic circle involving: the analyst's/philosopher's baseline originary up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications whether say with a natural science domain like hereditary as of its given specificity or philosopher's thought as of the general ontological comprehensiveness of philosophical thought; to then credibly analyse the coherence of the given prior contribution on the basis of the analyst's/philosopher's baseline originary up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications as to what it brings and reflects about current knowledge-reification; and then the analyst's/philosopher's reflection on the shortfall in the ontological-performance of the given prior contribution while reflecting the epochal constraints for such a shortfall going beyond a construal of the given prior contribution as mere 'relic-or-orthodoxy knowledge'; and finally, the analyst's/philosopher's conceptual interpretation as its prospective contribution that is subject to validation and falsifiability as of inherent existence/ontological implications thus amenable to foregrounding—entailment with other so-constructed knowledge-reification, that are well beyond a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> orientation driven by the cultivation of mere imprimatur discretion/whim-of-thought 'relic-or-orthodoxy knowledge' disposition. It is important to appreciate here that a history of postmodern-thought criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity, is particularly telling not about postmodern thinkers knowledge-reification epistemic-veracity but rather 'the knowledge-reification epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought which they supposedly do not understand'. Even more critically, the question can be raised whether such critics profoundly appreciate the overall

human knowledge-reification process/gesturing as herein articulated, and whether this very fact isn't linked to the knowledge-reification methodological difficulties arising in many social domains-of-study 'assuming a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> epistemic-disposition that is in many ways poorly constrained to existential-reality' with the result of their relative knowledge-reification passivity with regards to many a social issue 'but for adventures into social commentary divorced from genuine operant knowledge-reification implications'; and in this regards could it be that the true 'unsaid issue with suprastructuralism/postmodern-thought' lies with its parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected existential-contextualising-contiguity in conflatedness, an issue that has always been a difficult knot throughout the ontological-contiguity—of-the-human-institutionalisation-process but which inevitably has to be dealt with for the possibility of prospective human institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity involved in knowledge-reification, and is reflected in a lack of parrhesiastic and hermeneutic insight that 'poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern positivist averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-

implications> in its given reference-of-thought reproducibility—mathesis/motif/throwness-
 disposition,—as—reproducibility-of-aestheticisation with no or poor insight of prior-and-
 prospective human becoming as of existential-contextualising-contiguity in conflatedness’;
 and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia
 and hermeneutic insight. This lack is quite often reflected in such misconstrued analyses of
 traditional philosophical figures by a failure to understand the overall coherent narrative of
 such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness-
 as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism
 ending up quite often claiming the incoherence of such figures and/or of their narrative
 accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding
 requires the critic’s own parrhesiastic insight and then hermeneutic conceptualisation to then
 develop the capacity to grasp first of all such traditional philosophical figures underlying
 knowledge-reification process/gesturing and thus be able to understand how such knowledge-
 reification process/gesturing develops and why, and thus enabling the grasp not only of the
 accuracy of narrated accounts and notions but equally insight about the nuanced and covertly
 narrated accounts and notions, and all these while being informed by the immediate and
 broader underlying social background and implicated social and philosophical stakes of
 contention-and-confliction. In this regards, more than just the simpleminded analysis of
 traditional philosophical figures, such parrhesiastic and hermeneutic analytical insight
 actually converges with the epochal philosophical implications of existential-contextualising-
 contiguity in conflatedness and are actually more scientifically profound in that respect than
 meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but
 structurally/paradigmatically conceptualise the extended existential possibilities of
 falsifiability and validation in determining ontological-veracity as of a critical exercise of
 epistemic-totalising—renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-

of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-
and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-
consciousness’. In this regards, such hermeneutic and parrhesiastic depth of analysis is more
profoundly driven beyond the specific accuracy of narrative accounts about traditional
philosophical figures but goes on to analyse the structural/paradigmatic possibilities of
overall human social transformation reflected in the narrative accounts of such traditional
philosophical figures. For instance, the ontological-veracity of Socratic philosophy is rather
more strongly based on the overall social implications and underlying narrative of its novel
universalising-idealisation that ‘runs-through/is-deflating’ by its event instigating traditional
philosophical figures and schools, and as pursued by their successors including the stoics,
cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-
and-teleology infrastructure impact with respect to societies of the Mediterranean including
the Roman empire and subsequent religio-political developments. In another respect, it is
often touted from a presencing—absolutising-identitive-constitutedness orientation that
Socratic philosophers were institutionally ‘anti-democratic’, going particularly by the
Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing
ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning as our modern
conception of democracy; but this is rather unnuanced with regards to what was a more
pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-
rule democracy’ is not what prevails today and more critically the fact is the modern
democracy model whether of direct or indirect manifestations is rather more critically
informed by these criticisms of the Socratic philosophers (and not intellectual inspiration
from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed
expertising and expertising-institutions for the comprehensive process of our modern
democracy’ such that modern day crises of democratic governance with regards to bad

governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity that then feeds into prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-reification gesturing and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve presencing—absolutising-identitive-constitutedness basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure in reflecting the ontological-contiguity—of-the-human-institutionalisation-process) but rather the more critical insight lies with its novel and transformative universalising-classificatory knowledge-reification gesturing as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding positivism more than just as garnered from the precised narrative accounts about budding positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure

impact on the developing enlightenment social developments and as this budding positivism metaphoricity epistemic-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-
 implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-
 insight-or-intuition-or-foresight-as-of-embodied-consciousness’, and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity such that a prevailing notion has developed within as to imply philosophy doesn’t necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that ‘dodges potential parrhesiastic implications from its very own tentative analyses’ speaks of ‘a supposed intellectualism’ that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the ‘mother of all disciplines’. The fact is ‘philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture’ but rather ‘a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity’. In this regards, the transcendental-and-sublimity possibilities

of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be ‘human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of meaningfulness-and-teleology infrastructure’, something which a-lifespan-of-existence-implications projection as of an averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> is not structured/paradigmed to do! But then the phenomenological question arising with respect to the fact that many a social domain-of-study ‘tend to assume a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> epistemic-disposition that is in many ways poorly constrained to existential-reality’, is how exactly does such lack of ‘cogent-unifying-operant-dynamics’ affect the realisation of the full knowledge-reification potentiality of domains-of-study as of their supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework as of existence-potency? Insightfully, this fundamentally has to do with the contrastive implications in construing ontological-primemovers-totalitative-framework as of good-practice/epistemic-veracity and bad-practice/epistemic-impertinence for knowledge-reification; wherein objectifying foregrounding—entailment as good-practice/epistemic-veracity of knowledge-reification involves the construal of ontological-primemovers-totalitative-framework as of ‘cogent-unifying-operant-dynamics of primemovers’ so-construed veridically as ‘ontological-primemovers-totalitative-framework as of existential-contextualising-contiguity conflatedness’, whereas disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>

as bad-practice/epistemic-impertinence of knowledge-reification involves the construal of ontological-primemovers-totalitative-framework as ‘disparateness/disjointing of primemovers’ so-construed wrongly as ‘ontological-primemovers-totalitative-framework in constitutedness outside existential-contextualising-contiguity’. Thus ‘disparateness/disjointing of primemovers as disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>’ basically undermines the veridical underlying ‘ontological-totalitative-framework as of existential-contextualising-contiguity conflatedness’, and thus undermines aetiologisation/ontological-escalation predicative-effectivity–sublimation-<as-to-underlying-ontological-commitment-implications>. ‘Disparateness/Disjointing of primemovers as disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>’ undermines the inherent ‘cogent-unifying-operant-dynamics of primemovers’ reflecting existential-contextualising-contiguity conflatedness, such that the supposed exercise of knowledge-reification ends up ‘losing the edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of axiomatic-constructs as reflective of existential-reality’; as of the flawed disparateness/disjointing of overall inherent existential-reality edginess/incisiveness, and further reflected variously as temporal over-emphasising and/or underemphasising/ignoring of primemovers reflecting ‘ontological-totalitative-framework as of existential-contextualising-contiguity conflatedness’, and so due to ‘human-subpotency presencing—absolutising-identitive-constitutedness epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as well as lack of prospective intemporal parrhesiastic aestheticisation for prospectively renewed reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation’ thus undermining existence-potency-prospective-digression-of-epistemic-totalising–renewing-

While in many a natural science ‘the high-and-immediate subjection to existential/experimental falsifiability and validation as of <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of conceptualisations’ acts as a strong constraining effect in relatively undermining ‘disparateness/disjointing of primemovers’ and rather encouraging ‘cogent-unifying-operant-dynamics of primemovers’ reflecting existential-contextualising-contiguity conflatedness, ‘the blurriness and remoteness of falsifiability and validation as of <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of conceptualisations’ in many a social domain-of-study relatively undermines ‘good-practice/epistemic-veracity selectiveness towards cogent-unifying-operant-dynamics of primemovers’ reflecting existential-contextualising-contiguity conflatedness, as the latter is inclined to an institutional-disposition that construes of the unification of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> substitutively as merely ‘human-subpotency institutional-practice driven unification as of vague contrasting-and-comparison’ rather than as of ‘existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness driven foregrounding—entailment’. This equally explains this author emphasis that ontological-veridicality cannot be construed as the mutual-agreement as of human-subpotency but rather as of the constraining implications of existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness on human-subpotency. Human meaningfulness-and-teleology as of its ontological-performance is the outcrop of human-subpotency conscious-able aestheticisation of ecstatic-existence.

Human aestheticisation speaks of the extensive manifest outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations of human meaningfulness-and-teleology as from: human ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. Basically, human meaningfulness-and-teleology refers to human-subpotency conscious-able aestheticisation of ecstatic-existence as of varying human ontological-performance in veridically reflecting existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. Underlying the ontological-performance of human-subpotency conscious-able aestheticisation of ecstatic-existence is both the human instigative-drivenness construed as originariness-parrhesia,—as-spontaneity-of-aestheticisation and human reproducibility—mathesis/motif/thrownness-disposition,—as-reproducibility-of-aestheticisation reflected-together in all human meaningfulness-and-teleology, as-of-their-inversely-varying-emphasis; and more specifically ‘as institutive of underlying reference-of-thought’, their implied spontaneity and reproducibility—mathesis/motif/thrownness-disposition,—as-reproducibility-of-aestheticisation conjointly drive ‘human existence historicity/ontological-eventfulness/ontological-aesthetic-tracing creative aestheticisation of meaningfulness-and-teleology’. In this regards, originariness-parrhesia,—as-spontaneity-of-aestheticisation is marked by its greater taxing of human limited-mentation-capacity and specifically so as it ‘re-stakes/put-back-at-stake the capacity of human ontological-performance by its renewing spontaneity-of-aestheticisation’ over already set/established prior reproducibility—mathesis/motif/thrownness-disposition,—as-reproducibility-of-aestheticisation; and so as ‘human corresponding-sublimation-inducing,-

deficient/prospectively-limitative/prospectively-constraining in its ontological-performance-including-virtue-as-ontology construal of ecstatic-existence to which it only bears an ‘as of’ semblance (in any of its given presencing) that isn’t constraining in anyway on ‘the becoming of ecstatic-existence/transcendental-signifier’ such that ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy> from such human-subpotency prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation ever always warrant prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation and thus the epistemic-ricochetting/transepistemicity prospective implications for renewed reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation; and so, in order to ‘prospectively elevate the ontological-performance of human aestheticisation of meaningfulness-and-teleology in the construal of existential-reality’ while overcoming the stalling in ontological-performance underlying the mere complexification of the prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation. This inversely-varying-emphasis of originariness-parrhesia,—as—spontaneity-of-aestheticisation and reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation is so-reflected with: prospective reactualising of ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’ (as derived from the reconstruing/reconsideration of both mere-tracial-and-symbolisation-manifest aestheticisation and signification-as-of-existential-reality-manifest aestheticisation); prospective reactualising of ‘mere-tracial-and-symbolisation-manifest aestheticisation as of as of human conscious-able works-of-art/artistry’, for instance

in the dynamic reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation reflected with genres of music as of their originariness-parrhesia,—as—spontaneity-of-aestheticisation setting-up/establishing of drifting/derivating apriorising/axiomatising/referencing—re-originariness/re-origination; and prospective reactualising of ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’, and this is more fundamentally with respect to human underlying supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,—re-perception,—re-thought-in-epistemic-conflatedness, and so-construed from a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. The latter (‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’) relates for instance to the ontological-contiguity—of-the-human-institutionalisation-process: in the dynamic reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation reflected within the successive registry-worldviews/dimensions reference-of-thought-level ‘edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for devolving meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring’ as averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>, and the originariness-parrhesia,—as—spontaneity-of-aestheticisation enabling the institutional-cumulation/institutional-recomposure to occur by driving the human ontological-contiguity—of-the-human-institutionalisation-process as of prospective

intemporal parrhesiastic ontological-faith-notion-or-ontological-fideism—imbued-

 process with respect to living-development—as-to-personality-development meaningfulness-

disposition,—as—reproducibility-of-aestheticisation’ with respect to unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance-including-virtue-as-ontology wherein originariness-parrhesia,—as—spontaneity-of-aestheticisation re-stakes/puts-back-at-stake the reconstruing of existential-reality despite the taxingness-of-originariness. This human aestheticisation process involves inversely-varying-emphasis of originariness-parrhesia,—as—spontaneity-of-aestheticisation and reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation (so-construed as of ‘high/low parrhesiastic-pressure-of-aestheticisation’ with respect to ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’), reflecting the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’. For instance with regards to living-development—as-to-personality-development meaningfulness-and-teleology, human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as for instance the notion

of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development-as-to-personality-development human aestheticisation of meaningfulness-and-teleology ('high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' as of a 'more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation') in existential-contextualising-contiguity conflatedness involving 'hermeneutic reactualising as epistemic-totalising—renewing-realisation/re-perception/re-thought' always entails the three human aestheticisation manifest elements: 'perceptive motif-manifest aestheticisation as of human conscious-able imagery', 'mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry', and 'signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity'. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' already speaks of the 'hermeneutic reactualising as epistemic-totalising—renewing-realisation/re-perception/re-thought' long before a child's language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is rather in reality the 'teleological outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' of a rather 'complex sense of meaningfulness-and-teleology aestheticisation' induced from a 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' driven

‘hermeneutic reactualising as epistemic-totalising–renewing-realisation/re-perception/re-
 thought’ that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-
 phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-
 the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, as the
 child already has a ‘complex sense of meaningfulness-and-teleology aestheticisation’ before
 its ‘recognised’ acquisition of ‘language-as-phonetic/written-signification-construct
 outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-
 incrusting/plating/coating-as-institutional-manifestation’, and that acquisition of a specific
 ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-
 historically-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-
 manifestation’ in due course (though annunciative) is rather secondary-and-prolongative of
 the child’s evolving underlying human ‘complex sense of meaningfulness-and-teleology
 aestheticisation’ as of its ‘high parrhesiastic-pressure-of-aestheticisation for social-
 integration-and-evolving’. It is this underlying ‘complex sense of meaningfulness-and-
 teleology aestheticisation’ that is truly of ‘existentially developing/becoming-as-of-social-
 integration-and-evolving relevant meaningfulness-and-teleology’ ontological analysis in
 existential-contextualising-contiguity conflatedness (and as it may then be reflected in
 practice with regards to its analysis on the basis of any specific ‘language-as-
 phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-
 the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’); and
 so, reflecting ‘its prior-not-recognised-as-language-acquisition stage’, ‘its recognised-as-
 language-acquisition stage’ and ‘its subsequent-deepening-of-recognised-as-language-
 acquisition stage and as this extends to specialised language or secondary language
 developments’. Beyond ‘living-development–as-to-personality-development meaningfulness-
 and-teleology aestheticisation’ (as implied above with living-development–as-to-personality-

development aestheticisation of underlying becoming ‘complex sense of meaningfulness-and-teleology aestheticisation’ as of the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ of language), with human ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ as of any given conventioned human ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, such an insight about ‘high/low parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as to the implications of ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ is highly informing about ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ and so highlighting the collective social ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ in reflection of ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ of any given conventioned human ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’. It is important thus to grasp that ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ is rather established institutionally as of the collective social human ‘complex sense of meaningfulness-and-teleology aestheticisation’ that drives human social institutions, and that while ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-

incrusting/plating/coating-as-institutional-manifestation’ does reflect this collective social human ‘complex sense of meaningfulness-and-teleology aestheticisation’ rather as an ‘institutional-development-as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions’ in existential-contextualising-contiguity conflatedness, it is ontologically-flawed for ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ to be construed in constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity (even as on occasion such an ontologically-flawed construal in identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism may be incidentally/accidentally/ad-hocly seemingly veridical but ontologically-flawed in principle from the perspective of the precedence over ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of the collective social human ‘complex sense of meaningfulness-and-teleology aestheticisation’ as of the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation’ of language, as of the implied ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic reactualising as epistemic-totalising—renewing-realisation/re-perception/re-thought’ in difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism). This is so because ‘human <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-

ontological-completeness orientation' supersedes any such human 'institutional-
 development-as-to-social-function-development meaningfulness-and-teleology
 outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-
 incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like
 language', in its existential-contextualising-contiguity conflatedness (even as the latter had
 been precedently contributive to that purposefulness-reflexivity) such that such a human
 'institutional-development-as-to-social-function-development meaningfulness-and-teleology
 outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-
 incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like
 language' is more critically a passive ready-at-hand conception that is
 epistemically/notionally ever always critical only in existential-contextualising-contiguity
 conflatedness as it is adapted to 'human <formative>projective-totalitative-implications—
 imbued-epistemic-causality,-for-explicating-ontological-contiguity purposefulness-reflexivity
 for prospective relative-ontological-completeness orientation'. This basically explains the
 constantly developing nature of human 'institutional-development-as-to-social-function-
 development meaningfulness-and-teleology outcome/outfit/shell—construed-historially-as-
 of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-
 manifestation/conflatedness conceptions like language' which are not truly absolutely of
 present-at-hand as to wrongly imply presencing—absolutising-identitive-constitutedness-of-
 meaningfulness-and-teleology (even as the privileged social conceptualisation of say
 language is as of 'language as the complete possibilities of language as of an absolute present
 conception usually of a privileged end-institution purpose'). Insightfully, we can garner that it
 is 'human <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-
 explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-
 ontological-completeness orientation' implied as of maximalising-recomposuring-for-

relative-ontological-completeness that fundamentally renders/makes human institutional-development—as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions’ to be necessarily as of existential-contextualising-contiguity in conflatedness and not in constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. In another respect, ‘living-development—as-to-personality-development meaningfulness-and-teleology aestheticisation’ is of ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with regards to human childhood to adulthood personality development as of the forming individual need to assimilate/integrate human progressive cultural cumulation, and this is very much in contrast to ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ that rather cumulatively holds-on-to and complexifies the culturally cumulated outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations from historically accrued ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ construed as of human institutional-cumulation such as with regards to any specific ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’. This will explain why the ontological-contiguity—of-the-human-institutionalisation-process as of ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation’ is ‘highly parrhesiastically economical’ as reflected in the overall ontological-contiguity—of-the-human-institutionalisation-process ‘more and more profound enlarging-framework of

reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-
 aestheticisation’; wherein only the perception of unduly

 mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation epistemic-
 ricochettingly/transepistemically elicits ‘high parrhesiastic-pressure-of-aestheticisation for
 social-integration-and-evolving’. This is so because given the taxingness-of-originariness any
 such ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ has
 to resolve considerably unduly
 aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-
 performance-including-virtue-as-ontology of prior reproducibility—
 mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation for such
 ‘institutional-development—as-to-social-function-development meaningfulness-and-teleology
 aestheticisation’ underlying ‘hermeneutic reactualising as epistemic-totalising—renewing-
 realisation/re-perception/re-thought’ to be worth the epistemic-ricochetting/transepistemicity
 effort, with the preference for any such effort rather directed at the complexification of the
 prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-
 aestheticisation. This will explain for instance why as of the furtherance in reflecting the
 ontological-contiguity—of-the-human-institutionalisation-process, the ‘institutional-
 development—as-to-social-function-development meaningfulness-and-teleology
 aestheticisation’ with regards to language development hasn’t warranted any ‘high
 parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ with respect to
 new language creation but this has rather been directed towards language complexification as
 of advancing human knowledge and construction-of-the-Self. In the bigger picture, the above
 human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically

with language acquisition) is reflective of the fact that the specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation, reflected in human underlying supposedly coherent ontological-commitment, is ultimately potentiated/ontologisable as of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’. This instigation of human aestheticisation of meaningfulness-and-teleology so-reflected in ‘human existence historicity/ontological-eventfulness/ontological-aesthetic-tracing creative aestheticisation of meaningfulness-and-teleology’ driven as of originariness-parrhesia,—as-spontaneity-of-aestheticisation in renewing reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation involves an ‘overall flux of human meaningfulness-and-teleology of varying temporal-to-intemporal ontological-performances’ wherein such a flux construed as human aporetic dissemination is confronted to ‘existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness validative/invalidative selectivity/deselectivity’ enabling living-development—as-to-personality-development meaningfulness-and-teleology, institutional-development—as-to-social-function-development meaningfulness-and-teleology and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology meaningfulness-and-teleology; and thereof reflected in the secondnatured institutionalisation framework of the given registry-worldview suprasocial-construct and its averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-

to-prospective-apriorising-implications> as uninstitutionalised-threshold. It is important here to grasp that despite any human registry-worldview/dimension epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ontologically-flawed inclination to think otherwise, its given suprasocial-construct and its given averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> ‘are not the absolute possibility of ontological-performance’, as of their induced reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, for the prospective aestheticisation of human intemporal-as-ontological meaningfulness-and-teleology given that such suprasocial-construct and averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> are effectively rather secondnatured institutionalisation outcome of reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. In this regards, the more profound basis for prospective generation of human intemporal-as-ontological meaningfulness-and-teleology arises as of transepistemic/epistemic-ricochetting originariness-parrhesia,—as—spontaneity-of-aestheticisation that renews reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of prospective existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,—re-perception,—re-thought-in-epistemic-conflatedness sublimating-validation/desublimating-invalidation implications of human limited-mentation-capacity-deepening. This underlying insight is reflective of the fact that ‘secondnaturedness is no substitute for originariness as of the <formative>projective-totalitative—implications—imbued-epistemic-causality,—for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness’, as originariness is ever always about

‘intemporal parrhesiastic seeding-promise epistemic-growth/transvaluative-
 rationalising/anamnestic-residuality/transepistemicity of the registry-worldview/dimension
 meaningfulness-and-teleology beyond just its mechanical reproducibility—

 possibility of further prospective parrhesiastic instigation as from ontological-faith-notion-or-

 as-so-being-as-of-existential-reality’ in contrast to the essentially mechanical/mere-form of
 reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-
 aestheticisation of secondnatureddness. This fundamental originariness and secondnatureddness
 conundrum in reflecting the ontological-contiguity—of-the-human-institutionalisation-
 process is reflected by the fact that the human Self is ever always in disseminative
 constructiveness/destructuring defining its given registry-worldview/dimension shiftiness-of-
 the-Self as of ‘a subpar existence-potency-prospective-digression-of-epistemic-totalising—

aestheticisation in the construal of ecstatic-existence, is one in want of candid analysis as of the very same prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation but rather the ontological-veracity of originariness-parrhesia,—as—spontaneity-of-aestheticisation for prospective/renewed reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation; as perfectly understood by the Socratic philosophers advancing of universalising-idealisation relative to the Ancient sophists non-universalising inclination, budding positivists/rational-empiricists advancing of positivism/rational-empiricism relative to the medieval-scholastics pedantic dogmatism and equally as of our positivism—procrypticism this author construes practices of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> not constrained to existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness but rather institutionalised imprimatur as of institutional-being-and-craft as intellectually wanting and in need of the advancing of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought foregrounding—entailment edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In other words, the uninstitutionalised-thresholds of all registry-worldviews/dimensions as of their shiftiness-of-the-Self are the aporetic point at which their languages collapse into ‘wooden languages’ that are from a prospective perspective not profound but mechanical/mere-form reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation thus inherently raising up the underlying ontological-veracity issue of their prospectively-aporetic/prospectively-undecidable/prospectively-dilemmatic/prospectively-indeterminate/prospectively-deficient/prospectively-limitative/prospectively-constraining ontological-performance-including-virtue-as-ontology of prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation that can only

be dealt with as of prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation so-
 construed as ‘intemporal parrhesiastic seeding-promise epistemic-growth/transvaluative-
 rationalising/anamnestic-residuality/transepistemicity of the registry-worldview/dimension
 meaningfulness-and-teleology beyond just its mechanical reproducibility—
 mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation for the
 possibility of further prospective parrhesiastic instigation as from ontological-faith-notion-or-
 ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—
 as-so-being-as-of-existential-reality’. The fact is that the possibility for prospective
 institutionalisation transcendence-and-sublimity is ever always underdetermined, as between
 prior reasoning-from-results/afterthought and prospective reasoning-through/messianic-
 reasoning is the ‘aporia of underdetermined madness’ that human ontological-faith-notion-
 or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality epistemic-
 growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity renders possible
 as prospective ontological-veracity is only then epistemic-ricochettingly/transepistemically
 salvageable as of existence-potency-prospective-digression-of-epistemic-totalising—
 renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness sublimating-
 validation/desublimating-invalidity implications as of ontological-primemovers-
 totalitative-framework. That is, between reasoning—as-reasoning-from-results/afterthought
 and reasoning—as-reasoning-through/messianic-reasoning is ‘aporetic underdetermined
 madness’ that renders a pretence of hanging unto prior reproducibility—
 mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation more like ‘a
 pretence of already grasping the complete implications of ecstatic-existence while
 ignoring/not-registering the epistemic-ricochetting/transepistemicity implications of
 prospective relative-ontological-completeness’ and rather speaks in effect of a nihilistic

averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>; and this temporal nihilism at uninstitutionalised-thresholds has ever always been associated with a corresponding intemporal asceticism for opened-construct-of-meaningfulness-and-teleology (not partaking as of transversality-of-disambiguated-apriorising/axiomatising/referencing in any such ‘wooden language’) that is the sine qua non for the habituation of the possibility of prospective transcendence-and-sublimity. Overcoming this ‘aporia of underdetermined madness’ despite human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, has ever always been the absolutely determinative possibility for the fulfilment of the construction-of-humanity-as-of-its-developing-construction-of-the-Self enabling human transcendence-and-sublimity to arise; as its overcoming has ever always elicited humankind’s ability to ascetically go beyond its ‘prior comfort zone’ to reconstrue its future emancipatory possibilities. In this regard, the idea of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity, however its recurrent outlier intemporal instigation as of originariness-parrhesia,—as—spontaneity-of-aestheticisation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, speaks to the fact that the sense of prospective base-institutionalisation in prior recurrent-utter-uninstitutionalisation is potentially an actionable possibility as of the latter’s ‘parrhesiastic structure’ construed as ‘its-given-developed-level-of-Will/Spirit/Drive in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-

 likewise between base-institutionalisation and universalisation, non-positivism/medievalism
 and positivism/rational-empiricism, and prospectively positivism-procrypticism and
 deprocrypticism. But then in reflecting the ontological-contiguity—of-the-human-
 institutionalisation-process what is easily lost is exactly ‘this most vital but brittle

 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality epistemic-
 growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity element of
 meaningfulness-and-teleology instigating the successive transcendences-and-sublimity’, as
 the very renewing of reproducibility—mathesis/motif/thrownness-disposition,—as—
 reproducibility-of-aestheticisation seems to induce a ‘deferment of human instinctual
 responsibility’ as to temporally imply ‘human ontological-performance strategies are valid by
 their mechanical/mere-form alignment to any such reproducibility—
 mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing
 human naïve untransvaluated—temporal-intemporality as of the shiftiness-of-the-Self of the
 corresponding registry-worldview/dimension wherein the eliciting of a mutual sense of
 temporality/shortness within such a framework as of epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag is wrongly reconstrued as ‘intemporality’
 (but then we can garner from our vantage modern positivism perspective that such defective
 process in prior registry-worldviews/dimensions effectively spoke of their corresponding
 uninstitutionalised-threshold and the same does applies in our own respect from a prospective

perspective). In this regards the prospective deprocrypticism registry-worldview/dimension, as of its notional-deprocrypticism reflexivity of this human limited-mentation-capacity instigating ‘aporetic deficiency of ontological-performance’ along the overall ontological-contiguity—of-the-human-institutionalisation-process, effectively elicits originariness-parrhesia,—as—spontaneity-of-aestheticisation but then as of its ‘foregrounding—entailment edginess/incisiveness—of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, it is not receptive to a human dephasing shiftiness-of-the-Self as of ‘deferment of human instinctual responsibility’ that dehistorialises humankind into Being/Existential homelessness as a vague temporal-to-intemporal nihilism wherein we wrongly deify our presencing—absolutising-identitive-constitutedness epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag while paradoxically failing to articulate a coherent existential narrative underlying human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
imbued-temporal-to-intemporal-dispositions—existentialism-form-factor involving a developing historicity/ontological-eventfulness/ontological-aesthetic-tracing of human recurrent destructuring-threshold-of-ontological-performance/uninstitutionalised-threshold and its superseding with human recurrent constructiveness-of-ontological-performance, and so beyond just the nombrilism of our lifespans. This orientation is very much the peculiarity of deprocrypticism as in reality all the other prior registry-worldviews/dimensions are notionally/epistemically various levels of notional-procrypticism-or-notional-disjointedness-as-of-reference-of-thought (in successive relative-ontological-completeness as of increasing notional-deprocrypticism or increasing notional-preempting—disjointedness-as-of-reference-of-thought) but it is prospective deprocrypticism ontological-faith-notional-or-ontological-fideism epistemic-growth/transvaluative-rationalising/anamnestic-

residuality/transepistemicity specific originariness-parrhesia,—as—spontaneity-of-aestheticisation that converges with its reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation and reflects an indistinctness between the two that overcomes human shiftiness-of-the-Self undermining ‘deferment of human instinctual responsibility’ in perpetuating the human transcendence-and-sublimity narrative; and so-construed as implying that deprocrypticism as of its protensive—self-consciousness achieves an epistemic-ricochetting/transepistemicity ‘explanation of everything’ as implied with human limited-mentation-capacity-deepening so-reflected with the ontological-contiguity—of-the-human-institutionalisation-process epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity as to difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism

 human virtue at constructiveness-of-ontological-performance and vices-and-impediments at
 destructuring-threshold-of-ontological-performance overrides/supersedes the
 naïve/ontologically-flawed traditional orientation as of presencing—absolutising-identitive-
 constitutedness/identitive-constitutedness-as-epistemic-totality-dereification-in-
 dissingularisation-as-flawed-epistemic-determinism failing to grasp the dynamism implied in
 the Socratic knowledge-is-virtue insight when it attributes to individuals inherence of good-
 naturedness or bad-naturedness and ‘failing to construe of the knowledge-driven

 incompleteness/relative-ontological-completeness implications that then reflects the
 manifestation of human virtue at constructiveness-of-ontological-performance and human
 vices-and-impediments at destructuring-threshold-of-ontological-performance’. The bigger
 point here is that it is at the edginess/incisiveness—of-
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of
 deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as ‘point of
 <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-

explicating-ontological-contiguity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process’ that one can reflect upon the ‘notional-procrypticism/notional-disjointedness as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism’ of our procrypticism–positivism meaningfulness-and-teleology in order to construe its induced virtue at constructiveness-of-ontological-performance and vices-and-impediments at destructuring-threshold-of-ontological-performance as of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. We can thus appreciate that just as a presencing—absolutising-identitive-constitutedness/identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism assessment of the virtue and vices-and-impediments of individuals in any of the preceding registry-worldviews/dimensions will find them relatively wanting/deficient with regards to our positivism, this ‘is not decisively/critically the case on the basis that we are inherently better individuals than any of the prior registry-worldviews/dimensions individuals’ but rather a question of us being at the vantage backend of the institutional-cumulation/institutional-recomposure in reflecting the ontological-contiguity—of-the-human-institutionalisation-process relative-ontological-incompleteness/relative-ontological-completeness implications of limited-mentation-capacity-deepening, pointing out that what is decisive/critical for inducing human virtue over vices-and-impediments rather lies with the assessment of any such registry-worldview/dimension prospective ‘point of <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process’ as so-implied by the prospective registry-worldview/dimension edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it reflects upon the preceding registry-worldview/dimension ‘notional-procrypticism/notional-disjointedness as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism’ in order to construe/assess/supersede by its induced virtue at the prospective constructiveness-of-ontological-performance over vices-and-impediments at the destructuring-threshold-of-ontological-performance as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The overall emphasis herein of the conjunction between psychopathic manifestation with the ontological-contiguity—of-the-human-institutionalisation-process arises in the sense that as previously articulated the ‘postlogism/psychopathy-as-of-dialectically-dementing destructuring-threshold-of-ontological-performance’ manifestation of any given registry-worldview/dimension is just a ‘difference-in-kind/difference-in-aposteriorising-or-logicising-or-deriving-in-determining-‘mutually-relative-validity-by-invalidity-as-to-the-veracity-of-any-given-existential-instantiation’,-though-in-notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking—qualia-schema>-of-the-very-same-mutually-abstract-apriorising-or-axiomatising-or-referencing-conceptualisation’ on the basis of the same epistemic-totalising/circumscribing/delineating edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument construed as of the ‘underlying apriorising/axiomatising/referencing—psychologism/mental-schema’ of the given registry-worldview’s/dimension’s reference-of-thought-devolving meaningfulness-and-teleology. Thus a registry-worldview’s/dimension’s ‘postlogism/psychopathy-as-of-dialectically-dementing destructuring-threshold-of-ontological-performance’ manifestation is rather as of an ‘inordinarily/unexpectedly/anormally lower-threshold of human limited-

mentation-capacity in failing dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for living-development-as-to-personality-development' that is just a difference-in-kind/difference-in-aposteriorising-or-logicising-or-deriving-in-determining-'mutually-relative-validity-by-invalidity-as-to-the-veracity-of-any-given-existential-instantiation',-though-in-notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema>-of-the-very-same-mutually-abstract-apriorising-or-axiomatising-or-referencing-conceptualisation to the registry-worldview's/dimension's 'ordinary/expected/assumed-normal higher-threshold of human limited-mentation-capacity in failing dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for living-development-as-to-personality-development' considered as 'prelogism/dialectical-thinking constructiveness-of-ontological-performance' manifestation. The implication here is that 'postlogism/psychopathy-as-of-dialectically-dementing destructuring-threshold-of-ontological-performance' disposition rather 'manifests as ontologically-flawed inordinary/unexpected/anormal catching-up-by-extrinsic-attribution for social-functioning-and-accordance (in contrast to ontologically-veridical 'prelogism/dialectical-thinking constructiveness-of-ontological-performance' disposition ordinary/expected/assumed-normal intrinsic-attribution for social-functioning-and-accordance) as of the edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of the given registry-worldview/dimension for aposteriorising/logicising/deriving/intelligising/measuring cognisant-and-integrative social meaningfulness-and-teleology, and manifesting as 'postlogism/psychopathy-as-of-dialectically-dementing destructuring-threshold-of-ontological-performance', as of existential-contextualising-contiguity conflatedness becoming as from childhood postlogism/psychopathy destructuring-threshold-of-ontological-performance overt manifestation to adulthood postlogism/psychopathy destructuring-

threshold-of-ontological-performance covert manifestation. Along this same line of difference-in-kind/difference-in-aposteriorising-or-logicising-or-deriving-in-determining-‘mutually-relative-validity-by-invalidity-as-to-the-veracity-of-any-given-existential-instantiation’,-though-in-notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking—qualia-schema>-of-the-very-same-mutually-abstract-apriorising-or-axiomatising-or-referencing-conceptualisation implied between the ‘postlogism/psychopathy-as-of-dialectically-dementing destructuring-threshold-of-ontological-performance’ disposition and ‘prelogism/dialectical-thinking constructiveness-of-ontological-performance’ disposition within a given registry-worldview/dimension reference-of-thought-devolving meaningfulness-and-teleology, between two registry-worldviews/dimensions as of their relative-ontological-incompleteness/relative-ontological-completeness we can equally construe that the same registry-worldview/dimension construed rather in relative-ontological-incompleteness as of its ‘ordinary/expected/assumed-normal higher-threshold of human limited-mentation-capacity in failing dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for living-development—as-to-personality-development’, and previously considered as supposedly of ‘prelogism/dialectical-thinking constructiveness-of-ontological-performance’ manifestation in its existential-contextualising-contiguity conflatedness is now rather turning out at its destructuring-threshold-of-ontological-performance to be (as of <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology) veridically of manifest ‘dialectically-dementing-as-of-postlogism/psychopathy-(as-of-the-‘dementing—qualia-schema’-at-its-uninstitutionalised-threshold-it-wrongly-implies-as-nondescript/ignorable-void) at the registry-worldview’s/dimension’s destructuring-threshold-of-ontological-

Hence, ‘all the human home that exists’ is as of the full implications of the perpetuation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as it explains what is the human and its becoming beyond any epochally blinded nombrilism. But then while realistically the ontological-contiguity—of-the-human-institutionalisation-process is driven as of human epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity and secondnature institutionalisation dispositions with respect to the fact that the human averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> disposition of all registry-worldviews/dimensions is very much capable of countenancing however fragile prospective relative-ontological-completeness implications; that is, until

when that fragility is exploited by temporal sophistic/pedantic dispositions in wrongly and cynically implying the equivalence of prospective intemporal-projection and prior temporal-projection as to when ancient Sophists elicit the contemplation of Socratic philosophers intemporal universalising-idealisation narrative in terms of their epochal averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> non-universalising narrative, as to when medieval-scholasticism fail to engage prospective budding positivism/rational-empiricism meaningfulness-and-teleology and harkening rather to its dogmatism pedantry, and as to when modern day intellectual muddlement seems to be blinded to the implication of ‘prospective event/aporetic thinking implied deprocrypticism/preempting—disjointedness-as-of-reference-of-thought’ and take the route of eliciting disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> unconstrained to existential-reality as of ontological-primemovers-totalitative-framework such that even the idea of a human existential narrative tends to be put into question together with a tendency to question the pertinence of historically transformative figures and movements, and so in a ‘disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> impotence-inducing exercise’ (as to the fact that where there is uncertainty, whether real or unreal, ontological implications cannot then be effectively derived). The manifest reality of human ontologisation/ontological-veracity/aestheticisation-towards-ontology is thus one that is ever sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence> as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. This is reflected inherently in the fact that given human limited-mentation-capacity, human aestheticisation is

ever always reactualising/recomposuring towards a fully ontologising reproducibility—
 mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as of
 edginess/incisiveness—of-
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; that is, human
 aestheticisation as from prospective originariness-parrhesia,—as—spontaneity-of-
 aestheticisation instigation develops by recomposuring as from ‘perceptive motif-manifest

 Basically, human aestheticisation, in reflection of human limited-mentation-capacity and
 human limited-mentation-capacity-deepening possibility, ever always involves a ‘human
 disposition in portraying/reflecting/construing existence/ontological-veracity’ as of
 ‘presencing—absolutising-identitive-constitutedness finitism of aestheticisation’ and as of
 ‘human-subpotency—aporia/undecidability/dilemma/ought-

 institutional constructs like language, cultural practices, etc. are inherently of their given
 cultural specifcness. In this regards, the social-setup in its furtherance of human

aestheticisation towards human ontologising of meaningfulness-and-teleology is ever always drawn between ‘presencing—absolutising-identitive-constitutedness finitism of aestheticisation’ rather in constitutedness as of its reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation and ‘human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint non-presencing-<as-to-existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,—re-perception,—re-thought-in-epistemic-conflatedness>/transcending infinitism of aestheticisation possibilities’ rather in conflatedness as of instigative originariness-parrhesia,—as—spontaneity-of-aestheticisation; explaining the structural/paradigmatic nature of human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as to the respective possibility bound by either a non-transcendental averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> and a transcendental opened-construct-of-meaningfulness-and-teleology with regards to reference-of-thought-level edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. The prospect for prospective transcendence-and-sublimity is thus in many ways outlier to any given social-setup by the mere token that it more critically construes of ontologisation/ontological-veracity/aestheticisation-towards-ontology as being within the framework of its value-construct ‘presencing—absolutising-identitive-constitutedness finitism of aestheticisation’ and so in incoherence with outlying implied ‘human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint non-

This is fundamentally what explains why the state of recurrent-utter-uninstitutionalisation cannot all of a sudden start reasoning as of base-institutionalisation, and the latter as of universalisation, the latter as of positivism/rational-empiricism and prospectively the latter as of deprocrypticism. The overall point here is that it is the ‘parrhesiastic structure’ as of

parrhesiastic-aestheticisation that ‘invents/creates’ the prospective registry-worldview’s/dimension’s reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation, and carries the ‘intemporal parrhesiastic seeding-promise epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity of the registry-worldview/dimension meaningfulness-and-teleology beyond just its mechanical reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation for the possibility of further prospective parrhesiastic instigation as from ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’. But then human temporality/shortness loses sight of this ‘parrhesiastic instigative intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic seeding-promise of prospective knowledge-reification’ and assumes at the given registry-worldview/dimension destructuring-threshold-of-ontological-performance ‘an absolutising disposition as of temporal/sophistic-as-ontologically-flawed/ontological-bad-faith reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation seeding-misprising as mere-form of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation reflected in the absolutising of normativities, conventions, practices, etc.’ without or a poor sense of the ‘intemporal parrhesiastic seeding-promise epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity of the registry-worldview/dimension meaningfulness-and-teleology beyond just its reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ (that is, as the shiftiness-of-the-Self loses sight of ‘Will/Spirit/Drive parrhesiastic instigative dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension’). Such an ‘absolutising

disposition with the registry-worldview/dimension mere-form of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ is what underlies disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> at a registry-worldview/dimension destructuring-threshold-of-ontological-performance ‘wherein normativities, conventions, practices, etc. as secondnature institutionalised constructs assume absolute determinism that flawily override any parrhesiastic epistemic-totalising—renewing-realisation/re-perception/re-thought of ontological-veracity’, and explains the Sophists—ideal-type-or-individuation non-universalising inclination on the basis that that social practice is absolutely deterministic of meaningfulness-and-teleology and the medieval-scholasticism-pedants—ideal-type-or-individuation non-positivising/medievalism dogma on the basis that that social practice is absolutely deterministic of meaningfulness-and-teleology, as well as present day overall intellectual muddlement as of institutional-being-and-craft normativities, conventions, practices, etc. in ‘procrypticism/disjointedness-as-of-reference-of-thought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as of its lack of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought foregrounding—entailment edginess/incisiveness—of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ on the basis that such social practices are absolutely deterministic of meaningfulness-and-teleology. In other words, adherence to prospective knowledge-reification as of human temporality/shortness arises as of the existentially constraining untenability of positive-opportunism induced reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation but doesn’t necessarily elicits intemporal parrhesiastic seeding-promise epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity for prospective knowledge-reification as of ‘a weak social

mental-reflex that any parrhesiastic epistemic-totalising–renewing-realisation/re-
 perception/re-thought of ontological-veracity will put in question prior reproducibility—
 mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation as can be
 reflected in normativities, conventions, practices, etc.’, and this is what explains the
 prevalence of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-
 reflect-ontological-contiguity> at uninstitutionalised-thresholds as ‘mere-form of
 reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-
 aestheticisation’ temporally takes pride-of-place and so unconstrained to prospective
 existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-
 perception,-re-thought-in-epistemic-conflatedness sublimating-validation/desublimating-
 invalidation implications ‘as of parrhesiastic epistemic-totalising–renewing-realisation/re-
 perception/re-thought of ontological-veracity’ thus providing the framework for ontological-
 bad-faith/inauthenticity and sophistry hanging on unto secondnatured normativities,
 conventions, practices, etc. thus rendering prospective transcendence-and-sublimity impotent.
 Thus ‘the possibility for prospective human transcendence-and-sublimity is ever always a
 renewed parrhesiastic structure’ that as of its reasoning-through/messianic-reasoning can
 overcome such an averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-
 meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-
 prospective-apriorising-implications>, and so counterintuitively to any given registry-
 worldview/dimension notion/sense of transcendence-and-sublimity as rather occurring along
 its already secondnatured established reproducibility—mathesis/motif/throwness-
 disposition,—as–reproducibility-of-aestheticisation normativities, conventions, practices, etc.;
 and this very much explains why the successive registry-worldviews/dimensions are
 successive parrhesiastic instigation of renewed reproducibility—mathesis/motif/throwness-
 disposition,—as–reproducibility-of-aestheticisation. Further the ‘renewed parrhesiastic

structure’ in undermining prior ‘reference-of-thought-level and thus reference-of-thought-devolving-level of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>’ implies ‘foregrounding—entailment as of existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’, and not ‘unification as of human-subpotency elicited contrasting-and-comparison’ as the latter just leads to a complexification of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> along the very same reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation as of an ontologically-flawed human-subpotency dialogical-equivalence that ‘allows the mortals that we are to average our thoughts’ rather than existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness imposing ontological-veracity as of prospective ontological-primemovers-totalitative-framework. This explains why the universalising-idealisation of Socratic philosophers, budding positivists thought and herein as well suprastructuralism/postmodern-thought are all characterised in their knowledge-reification not by an articulation along the prior established reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation but rather prospective existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness constraining parrhesiastic aestheticisation of prospective reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation, that in all three cases looks down upon the notion of human-subpotency sophistic/pedantic pretence of foregrounding—entailment that is no more than complexification of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>. Critically as of such parrhesiastic instigation of prospective relative-ontological-completeness

the prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation ‘sycophantic-sophistic pretences of candour’ are edgily/incisively trampled-upon parrhesiastically as the Socratic philosophers go out of their way to highlight the intellectual discredit of the sophists, as budding positivists go out of their way to highlight medieval-scholasticism dogma, and likewise suprastructuralism/postmodern-thought is beyond just our positivism—procrypticism reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation and as reflected herein with the parrhesiastic highlighting of institutional-being-and-craft and intellectual muddlement as of positivism—procrypticism ‘disjointedness-as-of-reference-of-thought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as of its lack of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought foregrounding—entailment edginess/incisiveness—of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; as all that is as of knowledge-reification at uninstitutionalised-thresholds is necessarily as of prospective parrhesiastic instigation beyond the priorly parrhesiastic instigated reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation. In all these three instances of parrhesiastic instigation for human transcendence-and-sublimity, it is important to grasp that their validation lies in their ‘parrhesiastic epistemic-totalising—renewing-realisation/re-perception/re-thought of reference-of-thought-level reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ construed as from <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness as of ‘existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness induced foregrounding—entailment at registry-worldview/dimension reference-of-thought-level for

In furtherance of this prospective epistemic-ricochetting/transepistemicity indictment, this author laments a covert practice of an intellection that has been critical of postmodern-thought but in latter years ‘reformulates the implications of postmodern ideas’ as original thought even as such practices supposedly passes their institutional thresholds of admissibility with the caveat though that much of such thought is poorly operant given its ad-hoc depth of knowledge-

reification gesturing/process as of disparateness-of-conceptualisation-<unforegrounding-
 disentanglement,-failing-to-reflect-ontological-contiguity> implications, and along the same
 parthesiastic prospective epistemic-ricochetting/transepistemicity line this author is very
 much befuddled of a perverted exercise to undermine the originality of this work supposedly
 because of the theoretical orientation by a naïve ad-hoc synonymising exercise that this
 author is very much confident fails as it overlooks the coherence and knowledge-reification
 gesturing/process articulated herein. Generally, such perversion of thought as it discreetly
 networks fails society in the long-run when it seems to assume a foreshadowing posture with
 regards to what can be thought or not thought as of a ‘realpolitiking of thought’ exercise.
 Such intellectual shadiness of vague highmindedness is no more different from the gross
 inanity of ancient sophists or medieval-scholastic pedants, as of naïve shallowminded

In another respect this author's re-elaboration of postmodern difference conception, as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism contends that this effectively captures-and-reflects the evolving reality of existential-contextualising-contiguity knowledge-reification of human meaningfulness-and-teleology, and so over analytic atomising/taking-to-pieces formalisation approach as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism that goes on to analyse as if all the analysis that has ever been is as of presencing—absolutising-identitive-constitutedness while ignoring the <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of human underlying relative-ontological-incompleteness/relative-ontological-completeness with respect to temporal-to-intemporal ontological-performance as from past to present to future with regards to existential-contextualising-contiguity knowledge-reification. Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism that often poorly reflect the 'ecstatic holism/nested-congruence' of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity and then reifies-out conceptualisations as of difference-conflatedness-as-totalitative-reification-in-singularisation-

as-veridical-epistemic-determinism. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic holism/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic holism/nested-congruence’ of existential phenomenality framework of their study. Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic holism/nested-congruence’ proponents thought, failing to factor in the existential-contextualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic holism/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology/knowledge as of

existential-contextualising-contiguity knowledge-reification', as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions', and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining ontological-primemovers-totalitative-framework disposition rather than an orientation towards the 'transversality-of-disambiguated-apriorising/axiomatising/referencing or transversal-analysis-towards-validatory-selectivity-for-foregrounding—entailment of conceptualisations-and-interpretations' as constrained to ontological-primemovers-totalitative-framework which is what further reifies the body of knowledge by enabling existence as the transcendental-enabling/sublimating/transcendental-signifier to continually select the trace/ontological-aesthetic-tracing of sound and complementary conceptualisations-and-interpretations out of a genuine ecstatic reproducibility—mathesis/motif/throwtness-disposition,—as—reproducibility-of-aestheticisation disseminative insight, with unsound/superseded conceptualisations-and-interpretations being discarded thereafter. Concretely, we can easily appreciate the greater pertinence of a Foucauldian statement of relative truth as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism, construable rather as a more precise theoretical, conceptual and operant notion of truth by its existential-contextualising-

contiguity knowledge-reifying <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as reflected with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’ as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and so when compared to the atomising/taking-to-pieces formalisation notion of truth-value as of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. Such a construal of relative truth doesn’t imply a lack of commitment in truth, but is utterly the contrary as of ‘a much more critical and ontologically decisive commitment to truth and growing truth’ as any pertinent critique can garner in Foucault’s truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth ‘expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of presencing—absolutising-identitive-constitutedness’, and displaces/decenters the human subject as of its presencing—absolutising-identitive-constitutedness cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-

pieces formalisation dereifying rhetorisations that border on averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> populist interpretations rather than elevating human ontological construal of the social domain-of-study! This author contends that existence as the absolute a priori as of its ecstatic singularity actually points to appropriate attitude/mental-disposition/care-and-episteme as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism for existential-contextualising-contiguity knowledge-reification of every domain-of-study; as the fact remains that the domain-of-study of the social world is utterly different as of existential-contextualising-contiguity from the domain-of-study of the natural world, and not to mention that even within the natural world or social world there are equally subject-matters peculiarities that require their own specific approaches to elucidation/reification as of existential-contextualising-contiguity – and this said without undermining the idea of the ecstatic singularity of existence from which all such subject-matter-human-specialisms ecstatically arise as veridically implied by singularisation/epistemic-immanence/veridical-epistemic-determinism speaking of an underlying ecstatic commonness though not common phenomenality. Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to existential-contextualising-contiguity elucidation/reification rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to existential-contextualising-contiguity knowledge-reification by the implicated immediate-constraining ontological-primemovers-totalitative-framework transcendence-and-sublimity whereas the human world is rather blurry in this regard and hence requires the requisite explicated insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity. In many

ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of existential-contextualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning rather than existential-contextualising-contiguity knowledge-reification <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity. Actually, formalisation in the natural sciences and mathematics is the effective ‘formatting outcome’ of an implicated creative process of existential-contextualising-contiguity knowledge-reification. This process is one of human limited-mentation-capacity-deepening as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance of meaningfulness-and-teleology as of the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality with increasing prospective relative-ontological-completeness’ reflected as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism, and not just a prior formalisation exercise as mere conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity reflected as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism; with

‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance of meaningfulness-and-teleology as of the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality with increasing prospective relative-ontological-completeness’ rather reflected as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism which implied singularisation/epistemic-immanence/veridical-epistemic-determinism enables transcendence-and-sublimity which is ‘concurrently formatted as formalisation’. Thus we know of the recurrent stories of ‘mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity guise’ as of the insight of their existential-contextualising-contiguity knowledge-reification of the physics domain, with such mathematics ‘very often not well presented but essentially sublime’, and thereafter such existential-contextualising-contiguity initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity insight while ‘exquisitely formalised in concurrence’. This reality of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance of meaningfulness-and-teleology as of the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality with increasing prospective relative-ontological-completeness’ is very much obvious from the accounts of ‘successive partial contributions-and-failures’ that lead to major breakthroughs in the natural sciences as of the ‘very same epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’; with this ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-

epistemic-determinism ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance of meaningfulness-and-teleology as of the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality with increasing prospective relative-ontological-completeness’ construed as occurring within the very same scientist, across scientists of the same interest-of-study in a generation, and across scientists of the same developing interest-of-study cross-generationally as of the ‘very same epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. In this regard, we can appreciate that as of their differing ontological-performance the threshold where the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs projects its prospective relative-ontological-completeness is considered as dialectical-thinking, and striving to operate the classical-mechanics—axiomatic-constructs in its projected prior relative-ontological-incompleteness is effectively dialectically-dementing; even though both address the ‘very same physics epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. The implications of flawed formalisation credo as of conceptual patterning identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism implied dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism extends, as of its flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends to belittle and trivialise original knowledge contributions geared towards creative existential-contextualising-contiguity knowledge-reification while naively overrating contributions to knowledge of a conceptual patterning orientation, in further blurring the study of the social with mischaracterisations and poor appreciation of transcendence-and-sublimity implications

and ultimately induces self-perpetuating artifices of institutional-being-and-craft that mechanically ‘paradoxically then supersede knowledge’ as of its very organic authenticity. One recurrent consequence of the formalisation credo that keeps on arising for instance in the analytic tradition of philosophy as of its non-holism or ‘poor conflatedness of holism/nested-congruence’, is that the underlying conception about growing the body of human knowledge seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by their cross-analysis as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Basically, the underlying implication of conflatedness, and so over naïve constitutedness, is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the holistic/nested-congruence implication of existence as the absolute a priori as of its ecstatic singularity’, and thus implies the articulation of all such ontologically-veridical conceptualisations as of singularisation/epistemic-immanence/veridical-epistemic-determinism; while avoiding any such conceptualising naivety that may imply ‘existence in existence’ as this can only lead to flawed conceptualisations, epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and logocentrism as of constitutedness. Critically, no concepts have any veridical meaningfulness-and-teleology but only rather as of their conflatedness with existence, and cannot be construed as ‘existing in existence’ as implied by constitutedness which just leads to ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism implied identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of existential-contextualising-contiguity

knowledge-reification end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existential-contextualising-contiguity knowledge-reification, and so over the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the existential-contextualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. This failure in fully appreciating the import of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance of meaningfulness-and-teleology as of the-very-same-epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality with increasing prospective relative-ontological-completeness’ as of implied singularisation/epistemic-immanence/veridical-epistemic-determinism has fundamental <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity, as transcendence-and-sublimity only arise as of human expansion of its reifying grasp of existential-contextualising-contiguity. Consider in this regard that the repeated maximalising-recomposuring-for-relative-ontological-completeness articulation by this author on the theme

of conceptual patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars cross-generationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative existential-contextualising-contiguity knowledge-reification perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originally/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative existential-contextualising-contiguity knowledge-reification <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or

both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance of meaningfulness-and-teleology as of the-very-same-epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existential-contextualising-contiguity knowledge-reification. Ultimately, and it is this author’s contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrpticism/preempting—disjointedness-as-of-reference-of-thought ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I

think therefore I am', and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia 'left it' to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating to 'continually select' rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity, leading to our present refined positivism/rational-empiricism conception! But then because our present 'positivism—procrypticism human subject is rather undecentered' relative to the prospective postmodern—deprocrypticism self-conscious mindset we fail to truly appreciate the structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of 'leaving it' to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating to 'continually select' postmodern—deprocrypticism disseminative orientations for transcendence-and-sublimity, in the same vain that the 'non-positivism/medievalism undecentered human subject' failed to truly appreciate the structural/paradigmatic disseminative implications of prospective positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlier-intellectuals, 'apparently and falsely surpass existence as the absolute a priori'. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-

formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existential-contextualising-contiguity knowledge-reification here implies human displacement/decentering even though our temporal/shortness-of-register-of-meaningfulness-and-teleology dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-teleology. This further speaks to the fact that human knowledge is much more than distantly/remotely abstracted conceptions of meaningfulness-and-teleology of trite existential-contextualising-contiguity knowledge-reification <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity, as on critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into contortioning asceticism as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure ontology’ orientation grounded on creative existential-contextualising-contiguity knowledge-reification is ever always a ‘conflatedness holism/nested-congruence’ as it aspires to grasping and articulating meaningfulness-and-teleology as portends to the wholeness/nested-congruence of the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality; with such construal in reality rather very much as of singularisation/epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existential-contextualising-contiguity knowledge-reification’

develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Likewise, the underlying deprocrypticism-or-preempting—disjointedness-as-of-reference-of-thought conflatedness holism/nested-congruence suprastructuralism conception herein is rather articulated as of singularisation/epistemic-immanence/veridical-epistemic-determinism as of epistemic reflection of the ecstatic singularity of existence as the absolute a priori. Unlike the constitutedness rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of conflatedness holism/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity with ‘the ecstatic singularity of the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying

dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation/epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their constitutedness token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection 'as of creative existential-contextualising-contiguity knowledge-reification' of existence as the absolute a priori in its ecstatic singularity. The naivety of implied constitutedness in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of conflatedness in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of 'holistic/nested-congruence conflatedness with existence as of its ecstatic singularity'. While in many ways the natural sciences as immediately-and-directly constrained by ontological-primemovers-totalitative-framework are naturally and ad-hocly structured/paradigmed to implicitly construe wholeness/nested-congruence of conception as of 'holistic/nested-congruence conflatedness with existence as of its ecstatic singularity' with regards to their conceptualisations, this cannot be said of the same of the social as of the need for its self-conscious understanding of wholeness/nested-congruence conception as of 'conflatedness with existence as of its ecstatic singularity' given its inherent blurriness, epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and emotional-

involvement, in order to then achieve parallel level of ontological-primemovers-totalitative-framework knowledge conception as of singularisation/epistemic-immanence/veridical-epistemic-determinism. In effect this ontological difficulty fundamentally has to do with the inherent difficulty of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) construed as ‘dispensing-with-shallow-mathesis/motif/thrownness-disposition’-for-relative-ontological-completeness-by-reification; with human self-consciousness rather prone to its given reference-of-thought reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for its knowledge construal. The insight for singularisation/epistemic-immanence/veridical-epistemic-determinism being that as of its ‘dispensing-with-shallow-mathesis/motif/thrownness-disposition’-for-relative-ontological-completeness-by-reification, as increasing prospective relative-ontological-completeness-of-reference-of-thought towards ontologically-uncompromised—referentialism avails, effectively the construal of the social assumes the requisite reproducibility—mathesis/motif/thrownness-disposition,—as–reproducibility-of-aestheticisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for wholeness/nested-congruence conceptualisation as of the conflatedness of ‘prospective ontological-normalcy/postconvergence ontologically-uncompromised—referentialism

deprocrypticism

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument', as implied by the suprastructuralism conception herein in fully reflecting the ecstatic singularity of existence as the absolute a priori, and so over our present parsimony/disparateness of conceptualisations 'reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as-of-ontologically-compromised—categorising positivism—procrypticism

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'. Thus we can appreciate here that ultimately singularisation/epistemic-immanence/veridical-epistemic-determinism is not just artificially prompted but is rather the structural/paradigmatic consequence of the prospective relative-ontological-completeness-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, ultimately as of prospective ontological-normalcy/postconvergence ontologically-uncompromised—referentialism deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. Our mental-disposition is caught up between its capacity to conceptualise as of singularisation/epistemic-immanence/veridical-epistemic-determinism implied prospective relative-ontological-completeness conflatedness and dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism implied prior relative-ontological-incompleteness constitutedness; and basically intemporal ontological-performance arises by drawing out the full <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of meaningfulness-and-teleology exclusively as of singularisation/epistemic-immanence/veridical-epistemic-determinism implied conflatedness prospective relative-ontological-completeness as it enables 'ontological-performance to be utterly as of predictable structural/paradigmatic internal-necessity/determinism so-construed

as immanence-function-conflatedness'. Thus the inherent ecstatic singularity of existence carries intemporal 'immanence-functions-conflatedness <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity' as of singularisation/epistemic-immanence/veridical-epistemic-determinism conflatedness, while dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism constitutedness arises as of epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ontological-construal defect when naively failing to convey the 'immanence-function-conflatedness implication' of overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated-human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation. Thus naturalistic methodologies are only as pertinent as of their explaining of underlying background of the social as of physical and biological reality, but not as substitutive explanations as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated-human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation of social immanence as this is bound to induce constitutedness. Basically, immanence-function-conflatedness speaks of the counterintuitive mental-reflex for drawing out the full <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity for ‘creative understanding’/insight as of singularisation/epistemic-immanence/veridical-epistemic-determinism, going by existence’s ecstatic singularity as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—epistemic-perspective-of-

apriorising/axiomatising/referencing-conceptualisation. This immanence-function-conflatedness insight is effectively what marks prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as of an utterly different protensive self-consciousness from our hesitant and occlusive positivism—procrypticism self-consciousness. Hence existence's ecstatic singularity is very much akin with the Deleuzian plane of immanence construed herein as of existence's ecstatic singularity immanence/internal-necessity <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of singularisation/epistemic-immanence/veridical-epistemic-determinism; the ontological implication here being that 'we are as potently transcendental as from our flawed constitutedness' or 'we are as potently immanent as of our virtuous conflatedness'. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of constitutedness, as all the objectifying discursivity that is ontologically-veridical is as of the conflatedness of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of non-positivism mindset 'supposedly in an objectifying/contending discursivity' with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstition, spiritualism, etc. This same conception holds with the deprocrypticism immanence-function-conflatedness overriding the meaningfulness-and-teleology of procrypticism/disjointedness-as-of-reference-of-thought mindset 'supposedly in an objectifying/contending discursivity' with the deprocrypticism mindset, as the latter reflects the underlying positivism—procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both

instances, the issue lies in the lack of a common
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
 meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring,
 with immanence-function-conflatedness implying that all the meaningfulness-and-teleology
 is necessarily as of the prospective relative-ontological-completeness over the prior relative-
 ontological-incompleteness; respectively as of positivism and deprocrypticism. If by
 anticipation we do know immanently that a non-positivism mindset is bound to a non-
 positivistic-as-existentially-superstitious
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of
 structural/paradigmatical internal-necessity/determinism insight from positivism immanence-
 function-conflatedness with the obviousness there is no point implying an ontologically-
 flawed objectifying/contending discursivity in assessing the non-positivism existentially-
 superstitious inclination, the same implication will extend to deprocrypticism immanence-
 function-conflatedness as of structural/paradigmatical internal-necessity/determinism insight
 with regards to anticipating the disjointedness-as-of-reference-of-thought
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our
 positivism–procrypticism mental-disposition with no pretence of such a positivism–
 procrypticism ontologically-flawed objectifying/contending discursivity in assessing the
 disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-
 conflatedness is all about reflecting the straightforwardness of ontological-primemovers-
 totalitative-framework as of singularisation/epistemic-immanence/veridical-epistemic-
 determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive
 predisposition to make of its objectifying/contending discursivity as
 structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior
 relative-ontological-incompleteness meaningfulness-and-teleology as if of prospective

relative-ontological-completeness

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-function-conflatedness equally highlights knowledge as of its essential organic construct implications. As a constitutedness predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity as of prospective relative-ontological-completeness-of-reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective

emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness-of-reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, this author contends that similarly a deprocrypticism contortion reifying gesture necessarily questioning our positivism–procrypticism disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the necessary organic knowledge for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought transcendence. The implication of organic knowledge conception is that the state of recurrent-utter-uninstitutionalisation by its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument fails the objectifying/contending discursivity as of prospective base-institutionalisation immanence-function-conflatedness, likewise does base-institutionalisation–ununiversalisation fails as of prospective universalisation immanence-function-conflatedness, universalisation–non-positivism/medievalism fails as of prospective positivism immanence-function-conflatedness, and prospectively positivism–procrypticism fails in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism immanence-function-conflatedness; so-implied as of singularisation/epistemic-immanence/veridical-epistemic-determinism reflection of existence’s ecstatic singularity. Hence ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-

 for-explicating-ontological-contiguity’ implied organic knowledge is ever always as of the
 structural/paradigmatic internal-necessity/determinism of prospective relative-ontological-
 completeness-reference-of-thought as of immanence-function-conflatedness, with the
 pretence of prior relative-ontological-incompleteness-of-reference-of-thought for
 objectifying/contending discursivity nothing more but flawed epistemic-totalising-self-
 referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal meaningfulness-
 and-teleology. The study of the social as of immanence-function-conflatedness insight grasp
 that the blurriness, epistemic-totalising-self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag and remoteness of cause-and-effect
 invoke a more refined conception of ontological-primemovers-totalitative-framework as
 reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while
 cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian
 research-programme perspective given the complexity of the social just as many a complex
 domain in the natural sciences in effect assume the research-programme epistemic model;
 consider that while the natural sciences are generally more amenable to strong immediate
 cause-and-effect determination, such complex studies like string theory in physics, medical
 research, etc. tend to assume in effect the research-programme epistemic model. The
 underlying insight here is that many a complex study purview as well as the study of the
 social given its poorly constraining immediate cause-and-effect determination, renders
 knowledge validation more of a ‘construct of comprehensive-coherence and competitive
 claim to ontological pertinence as of extensive research-programme implications’, but this

should however implicitly reflect concurrently the underlying notions of falsifiability-or-deferring-falsifiability and validation-or-deferring-validation. This author contends that it is the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existential-contextualising-contiguity knowledge-reification in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential-contextualising-contiguity knowledge-reification. This insight equally informs this author’s conviction that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity knowledge-reification, as well as existential-contextualising-contiguity knowledge-reification as of the disposition for advancing the metalevel transversality-of-disambiguated-apriorising/axiomatising/referencing foregrounding—entailment of the ‘structural/paradigmatic disseminative implications of postmodern and other human textuality/hermeneutics/possibilities-of-existential-interpretation/axiomatisation-of-existence’ thought, that the ontological-pertinence assumes ontological-primemovers-totalitative-framework unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as of existential-contextualising-contiguity knowledge-reification as implied by the articulation of authenticity herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care—and—episteme ‘implication of ontological-primemovers-totalitative-framework’, on the basis that the very first epistemic

frontier for ontological-pertinence lies with the scholarly developed creative insight for existential-contextualising-contiguity knowledge-reification as knowledge. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme existential-contextualising-contiguity knowledge-reification, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-thresholds, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> socially intelligible meaningfulness-and-teleology conceptualisation in epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic intemporality/longness parrhesiastic askance, and as of immanence-function-conflatedness ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated-temporal-intemporality

manifestations that usurp and undermine human transcendence. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrpticism social-setup to perceive our positivism–procrpticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrpticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded

knowledge and epistemic paradigms as of their ultimate existential-contextualising-contiguity
 knowledge-reification as knowledge; such that the immediacy of contention of
 appropriateness of epistemic and methodological approaches is less critical, as ultimately all
 knowledge constructs and their epistemic and methodological commitments face their long
 term bottomline reevaluation as to their relative existential-contextualising-contiguity
 knowledge-reification as knowledge construed as their research-programmes. This speaks of
 the fact that such a conception of epistemic commitment as of research-programme is
 effectively one of epistemic singularisation/epistemic-immanence/veridical-epistemic-
 determinism so-implied as of ontological-normalcy/postconvergence associated with
 ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming
 the limiting effect of our present conception of epistemic commitment as rather
 dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of
 ontologically-compromised—categorising positivism-procrypticism. Thus, if immanence-
 function-conflatedness reveals that it is the ‘projected research-programme of any given
 knowledge construct as of its prospective relative existential-contextualising-contiguity
 knowledge-reification’ that is its preeminent epistemic and methodological validation,
 ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly
 to prospective relative existential-contextualising-contiguity knowledge-reification are
 nothing more but epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag predispositions that pretend to supersede
 existence as the absolute a priori, and institutionalised, such epistemic-totalising–self-
 referencing-syncretising/circularity/interiorising/akrasiatic-drag predispositions may actually
 be structurally/paradigmatically stifling for the possibility of prospective knowledge and
 transcendence, and more seriously so where the possibility of varied research-programme
 choices are difficultly entertainable without institutional backing for research needing major

funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality but with contrastive underlying relative-ontological-incompleteness/relative-ontological-completeness. It is quite absurd to think that the possibility of prospective human transcendence especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering

of the subject' was what brought about the positivistic mindset today that allowed for modern day science to develop and just as well modern day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further 'decentering of the human subject' as implied by deprocrypticism/preempting—disjointedness-as-of-reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence. Immanence-function-conflatedness analytical implications equally arise as of the 'countervailing transversality-of-disambiguated-apriorising/axiomatising/referencing relation induced as of ontological-primemovers-totalitative-framework' between 'existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating' and 'the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination', as this transversality-of-disambiguated-apriorising/axiomatising/referencing is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional-deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity, and so as of the structural/paradigmatic implication of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Thus prospective relative-ontological-completeness is inherently bound with its

very own epistemic <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity as of the ‘decentering of the human subject’ involved in knowledge-reification. This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold’ and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating transversally induced ontological-primemovers-totalitative-framework selective epistemic-veracity transcendence-and-sublimity. In this regard and at the general epistemic level of reference-of-thought-devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’ is one associated with increasing thinning out of epistemic-veracity as of prospective relative-ontological-completeness <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity induced from ontological-primemovers-totalitative-framework. Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity—of-the-human-institutionalisation-process which is

deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> epistemic impertinence. Prospective notional-deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness-of-reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism—procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating determinant selector as of the deprocrypticism/preempting—disjointedness-as-of-reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the deprocrypticism epistemic-veracity as of such disseminative research-programme coherence

and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity. Such a deprocrypticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-disambiguated-apriorising/axiomatising/referencing constraining to the ‘superior party’ that is existence/existential-possibilities, and thus specifically giving room for many an instance of

obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their conflatedness holism/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence as the absolute a priori. Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existential-contextualising-contiguity knowledge-reification as of their critical operant implications and unmuddled conceptions. Furthermore, the deprocrypticism epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>. With the <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity that the deprocrypticism/preempting—disjointedness-as-of-reference-of-thought extended-informality requires an organic-knowledge type of pedagogy based on eliciting an ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic sense-of-things, over the usual mechanical-knowledge type of pedagogy which is rather based on eliciting positive-opportunism sense-of-things. This is

critical because the deprocrypticism reference-of-thought warrants a more originary/as-of-event mental-disposition ‘beyond just responsiveness to secondnature institutionalisation’ but equally the capacity to assume the epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen behind the ‘inventing’ as of reasoning-through/messianic-reasoning with respect to ‘upholding and defending ontological-veridicality beyond constraining-and/or-secondnature institutionalisation framework’ as well as actually perpetuating prospective ontologically-veridical sublimity-as-of-deprocrypticism-immanent-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of-reference-of-thought. With the foregoing immanence-function-conflatedness insight, of most critical importance and decisiveness as structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism meaningfulness-and-teleology is the need for a deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness absolutising epistemic reference, specifically as so-construed from our positivism—procrypticism registry-worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological

orientation of traditional psychology/psychoanalysis; wherein ‘the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy rather than as of epistemic-abnormalcy’ considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as of our epistemic-totalising—throwness-in-existence. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective ontological-performance. Such a human-subpotency flawed absolutising epistemic reference for meaningfulness-and-teleology can be construed as of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’; as of ‘human-subpotency temporality/shortness flawed absolutising epistemic reference’ as it induces flawed ontological-performance as by its epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag it ‘wrongly seem to advantageously substitute’ for the potent as intemporal absolutising epistemic reference ontological-performance of existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness/intrinsic-reality/ontological-veridicality. It is this construction-of-the-Self human-subpotency deficiency element construed as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ that raises-the-charge-that-and-reflects-the-notion-that the mental-disposition of recurrent-utter-uninstitutionalisation is structurally/paradigmatically bound to fail the ontological-performance-including-virtue-as-

ontology of base-institutionalisation mental-disposition, that of base-institutionalisation–ununiversalisation will likewise fail as of universalisation mental-disposition, universalisation–non-positivism/medievalism will likewise fail as of positivism mental-disposition, and prospectively our positivism–procrypticism will likewise fail as of deprocrypticism mental-disposition. This element of the dynamic evolution of the human psyche and the underlying instigative agency, herein articulated as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’, is mostly lost to traditional psychology that doesn’t register our own positivism–procrypticism prior relative-ontological-incompleteness-of-reference-of-thought as of an ontological-normalcy/postconvergence/referentialism notional-deprocrypticism perspective of analysis as of singularisation/epistemic-immanence/veridical-epistemic-determinism. We can perceive the ‘epistemic-totalising/circumscribing/delineating dementing–qualia-schema’ associated with akrasia-susceptibility-or-akrasiatic-drag complex only from the perspective of prospective relative-ontological-completeness-of-reference-of-thought, and so as of the latter’s difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as from the ontological-conguity of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, as it reflects-and-contemplates of the uninstitutionalised-threshold of the prior relative-ontological-incompleteness-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, whereas the prior relative-ontological-incompleteness-reference-of-thought mental-disposition reflects its uninstitutionalised-threshold as a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives) of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> by ‘resetting its

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is flawed at its uninstitutionalised-threshold' thus taking a flawed posture of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>. Such akrasia-susceptibility-or-akrasiatic-drag complex 'epistemic-totalising/circumscribing/delineating dementing-qualia-schema' is reflected as of the 'epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior relative-ontological-incompleteness-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as mathesis/motif/thrownessdisposition-at-its-uninstitutionalised-threshold'. Consider the akrasia-susceptibility-or-akrasiatic-drag complex 'epistemic-totalising/circumscribing/delineating dementing-qualia-schema' from a prospective positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in this regards, with respect to 'God of plane' type of expression in an animistic/base-institutionalisation setup wherein their fundamental apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument psychologism of meaningfulness-and-teleology in epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its uninstitutionalised-threshold as a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives) whereas such a representation as a nondescript/ignorable void wouldn't be recognised from the positivism/rational-empiricism perspective as of its prospective relative-

ontological-completeness-of-reference-of-thought. Likewise, as of prospective insight, the
 nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-
 narratives) we imply as of our positivism–procrypticism disjointedness-as-of-reference-of-
 thought is certainly prospectively contemplable in futural Being-development/ontological-
 framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-
 meaningfulness-and-teleology as of prospective deprocrypticism reflection of our akrasia-
 susceptibility-or-akrasiatic-drag complex ‘epistemic-totalising/circumscribing/delineating
 dementing–qualia-schema’ of positivism–procrypticism disjointedness-as-of-reference-of-

 deprocrypticism ontological-contiguity, whereas from our positivism–procrypticism
 perspective we’ll tend to a ‘resetting of the
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ of positivism–
 procrypticism in ontological-disconguity as of identitive-constitutedness-as-epistemic-

 of the traditional notion of akrasia, as akrasia-susceptibility-or-akrasiatic-drag complex is

relative-ontological-completeness <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity in accounting for human differences of ontological-performance-including-virtue-as-ontology. This author contends that such a traditional psychology approach to construction-of-the-Self is constituted as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. Thus the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ refers to the mental dispositional state of paradigmatic/structural rationalised-closedness-of-ontological-performance-of-the-self ‘as bound to define-and-shape any given registry-worldview’s/dimension’s specific ontological-performance-including-virtue-as-ontology-and-vices-and-impediments’. Rather an ontologically-veridical construction-of-the-Self is necessarily in conflatedness as of the intemporal absolutising epistemic reference of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness constrainous-implications-over-human-subpotency so-implied as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism and construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. Such a conflatedness construction-of-the-Self is one that is structurally/paradigmatically enframed in grasping the ‘notional dissonance/consonance of human superego and existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’, as it construes of human-subpotency reference-of-thought given level of ontological-veridicality-commitment/aetiologisation/ontological-escalation/otherliness implications; and so as devolvingly thereof, construction-of-the-Self is the individual autonomous ecstatic/existential registering, contemplating, responding, conceptualising, articulating, effecting and acting-out of its social meaningfulness-and-

teleology as of the <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of living-development-as-to-personality-development, institutional-development-as-to-social-function-development and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Thus fundamentally the <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity and orientations underlying construction-of-the-Self as of a deprocrypticism conception is rather transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self as of institutional-cumulations/institutional-recomposures with successive registry-worldviews/dimensions human-subpotency reference-of-thought induced recurrently from the instigative <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics. Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not

factor in such a state of ‘human-subpotency in its epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’, and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework. Thus intemporal ontological-performance ever always warrants human prospective relative-ontological-completeness-of-reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance-including-virtue-as-ontology arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human epistemic-totalising–thrownness-in-existence the possibility for prospective human institutionalisation enabling transcendence-and-sublimity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning

knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought
 emancipatory possibilities, and then contend to make any given reasoning-from-
 results/afterthought knowledge and virtue limits intellectually and morally deterministic as of
 a nihilistic averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-
 meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-
 prospective-apriorising-implications>? In this regard, the anti-nihilist stance implies that the
 very first notion of human ontological-performance-including-virtue-as-ontology as of human
 epistemic-totalising–thrownness-in-existence induced anxiety lies in the fact that as of
 intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic
 askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative
 capacity to build and/or adhere to prospective relative-ontological-completeness possibilities.
 It is this insight that validates the ontological-veracity of the conception of ‘human akrasia-
 susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-
 fracturing/desublimation/gimmickiness complex’, and it is inherently so-validated as of
 ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

 congruence ahistorically-and-aculturally reflects-and-accounts-for the transitioning
 ontological-contiguity—of-the-human-institutionalisation-process development of the human
 species psyche. This insight equally specifically underlies the psychoanalytic ontological-

veracity of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ as it reflects the basic human psychological nature across all ages and times, so appraised as from the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation with respect to prospective relative-ontological-completeness-of-reference-of-thought <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity in accounting for human differences of ontological-performance-including-virtue-as-ontology across the successive registry-worldviews/dimensions reference-of-thought-level of ontological-performances as well as the temporal-to-intemporal differences of ontological-performances as of each registry-worldview’s/dimension’s reference-of-thought-devolving-level, rather than flawed impression-driven/good-naturedness/wishfulness conceptualisation as of inherent identitive essences flawed accounting of human differences. This idea of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ fundamentally harkens back to the notion of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of its ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’; wherein successive prospective relative-ontological-completeness-of-reference-of-thought generate structural/paradigmatic existential implications as of ‘successive specific less-and-less-degenerate human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ with respect to the successive registry-worldviews/dimensions construction-of-the-Self, as of their ontological-performance-including-virtue-as-ontology-and-vices-and-impediments. Basically, construction-of-the-Self

is herein construed rather as: ‘the self, as of its epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag metaphoricity, as of its evolving-and-devolving constraining reference-of-thought pitting its axiomatic structuring/paradigming apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument correspondingly with existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness/intrinsic-reality/ontological-veridicality, as so-entertainable/permissible by its given registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance’, in construction-of-the-Self’s existential narrative; involving existential reactive temporisation/bouncing-off of construction-of-the-Self elements (- akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex, - repression and releasement as subconsciousness, and - anxiety as of reconstitution/reparation involving dreaming/psychical-reshuffling as unconsciousness; as of a psychological analysis of direct mental-processing ontological-performance implications with respect to the constructiveness-of-ontological-performance of the social epistemic-totality of meaningfulness-and-teleology so-reflected in construction-of-the-Self all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process). The psychoanalytic pertinence of human akrasia-susceptibility-or-akrasiatic-drag complex, so-implied as ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’, is hinted at even by traditional psychology but rather indirectly as of its ontologically-flawed perspective as of human-subpotency epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag when it recognises that we do fall short of intemporal ontological-performance, but strangely enough hardly has there been articulated any conception about this obviously fundamental structuring/paradigming ontologically-veridical implication of human-subpotency psyche

 ontologically pertinent, and so out of our presencing—absolutising-identitive-constitutedness

The implied psychoanalysis is one that propounds that all the psychoanalysis that is ontologically-veridical is rather as of the ‘displacement/decentering of human-subpotency epistemic/notional_projective-perspective towards the realisation of the full existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness epistemic perspective’ in order to induce transcendence-and-sublimity, so-construed as superegoic cleansing as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in dispensing-with-immediacy-for-relative-ontological-completeness/contemplative-distention; as of a prospective psychoanalysis rather constrained to existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism ‘notional preempting—disjointedness-as-of-reference-of-thought’/notional-deprocrypticism. We can fundamentally appreciate that just in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is associated with epistemic-veracity foregrounding—entailment with the increasing existential ousting of superfluous notions like superstitions, etc., likewise ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ as of prospective relative-ontological-completeness epistemically shrinks with the ontological-contiguity—of-the-human-institutionalisation-process. This reality in reflecting the ontological-contiguity—of-the-human-institutionalisation-process very much explains the statement ‘I know that I know nothing’ made by Socrates reflecting his conception of anamnesis, as the state of human limited-mentation-capacity implies that it is foolhardy to articulate in presencing—absolutising-identitive-constitutedness terms meaningfulness-and-teleology as of absolutising reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation but rather ‘the anamnesis of meaningfulness-and-teleology reflects prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation as of recurrent transepistemic renewing of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ (and so, in reflecting the ontological-contiguity—of-the-human-institutionalisation-process epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity as of difference-

 <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-

 virtue, given that what approaches absolutising capacity in the human is rather the ‘sense-of-
 right-orientation with regards to human-subpotency—aporia/undecidability/dilemma/ought-

 residuality/transepistemicity mental-disposition’) and not any presencing—absolutising-
 identitive-constitutedness as reproducibility—mathesis/motif/throwness-disposition,—as—
 reproducibility-of-aestheticisation. This in many ways explains many a critic
 misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and
 the forms/ideas on the one hand and Aristotle on the other hand as of his
 phronesis/practicality emphasis (on the basis of the specific universalising-idealisation
 phronetic/practicality situations as to its defining existence-potency-prospective-digression-
 of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-
 conflatedness). The fact is that Socrates (and as momentarily reflected in his abhorrence of
 writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing
 by writing that is not necessarily pedagogically instructive’, and thus not contradictory with
 Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing
 overall philosophical insight beyond just their universalising-idealisation renewed
 reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-

 with mythical recollection was caught up in the universalising-idealisation

Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness-and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation is what induces existential-contextualising-contiguity and thus allows prospective epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity insight for further human limited-mentation-capacity-deepening (as to ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity and not any notion of vague innateness besides the existentially inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/throwness-

disposition,—as—reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification, and so in all domains without exception, is one of a dynamic complementary relationship between epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity and phronesis existential-contextualising-contiguity in order to grasp ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy> as so reflected with prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation for renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic philosophers universalising-idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy>, and that such a possibility lies in perpetual knowledge-reification disposition

as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior non-universalising sophistry with universalising-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existential-contextualising-contiguity as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising-idealisation phronesis existential-contextualising-contiguity at the latter’s destructuring-threshold-of-ontological-performance, as well as anticipate the overall human institutional process as herein conceptualised as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of phronesis existential-contextualising-contiguity.

induced as of the displacement/decentering-of-the-human-subject in its prior relative-ontological-incompleteness
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so as of
 epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity
 that exploits the supposedly coherent ontological-commitment so-implied as of a social-setup
 ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’
 which opens it up to prospective intemporal-as-ontological metaphoricity. The reality thus is
 that prospective transcendence from a presencing—absolutising-identitive-constitutedness
 perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a
 constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment
 to which the social-setup cannot overtly turn around and wholly assume a contradictory
 nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-
 teleology mostly as of prospective cross-generational reasoning-from-results/afterthought. In
 this regards as of the possibility of futural Being-development/ontological-framework-
 expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
 and-teleology as of prospective deprocrypticism transcendence, this author is of the opinion
 that any intellectual endeavour must precedingly guarantee that it is truly involved in a
 transparent ontological reification exercise exclusively as of the full existence-potency-
 prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-
 thought-in-epistemic-conflatedness reflection of its ontological-veracity or ontological-
 impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally
 undermine and ridicule the underlying intellectual a priori aspiration for reification. In this
 regards, and as of extensive contemplation, it is this author opinion that in many ways such
 ontological virginity with regards to intellectual practice today is covertly being undermined
 at the more fundamental level of social emancipation contemplation, and explains why this

author has seen it as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to such naïve conventioning-referencing which seem to imply that as of its anti-knowledge

posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor there is an effective mechanism of human institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that's why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness supersedes human-subpotency, and it is the latter that adjusts to the former. This is exactly what is reflected by ontological-fracturing, wherein the potential for ontological-normalcy/postconvergence is structurally/paradigmatically fractured-at-given-ontologically-compromised-thresholds in the epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the successive given levels in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; from recurrent-utter-uninstitutionalisation ontological-fracturing, base-institutionalisation—ununiversalisation ontological-fracturing, universalisation—non-positivism-medievalism ontological-fracturing, positivism—procrypticism ontological-

fracturing towards futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism ontological-normalcy/postconvergence; as of the implications of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’ in instigating ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’. Ontological-fracturing as such is a reflection of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and points out that the way we tend to conceptualise/construe-of idealisation as reflected in rules, institutional essence, institutional processes and ideals is ontologically-flawed/wrong as the assumption is one that tends to imply beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought only human intemporal ontological-performance by mental-reflex, rather than the reality of human temporal-to-intemporal ontological-performances of any given idealisation; speaking of the reality that any idealisation construed as of rules, institutional essence, institutional processes and ideals is structurally/paradigmatically bound to be ontological-fractured as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

dispositions—existentialism-form-factor. The implication here is that all projections of idealisation should be anticipatory-and-preemptive of the possibility of their prospective ontological-fracturing, for efficient institutionalisation deferential-formalisation-transference and percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>, ‘in order to be more ontologically pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of such idealisations with regards to their more profound transcendence-and-sublimity implications. In the same vein, we tend as of habit to construe of the fulfilment of human ideals as of the inherent institution and/or inherent individual identitive dispositions, rather than the fact that it is actually brought about by the structural/paradigmatic relations as of projected principles and essences implied intemporally (in cognisance of human temporal-to-intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-intemporal-individuation projection rather than falling back to identitive individual inherence or institutional inherence. As even where it may seem that any given individual or institutional ontological-performance is inherent, the underlying structural/paradigmatic reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-appropriate-intemporal-individuation projection for ontological-performance in that individual or institution rather than just identitive inherence. In the bigger scheme of things, human institutionalisation outcome as of deferential-formalisation-transference and percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> doesn’t substitute for the epistemic-totalising–renewing-realisation/re-perception/re-thought as of the underlying epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity individuation disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. The bigger point here is that there is never going to be an inherent suprasocial or averaging-of-

thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> framework that ‘invents’ and accounts for prospective social transcendence-and-sublimity idealisation, in the way that human idealisation is often wrongly construed and propounded. All the human idealisation that exists is as of effective individuals and institutional intemporal individuation projection for prospective epistemic-totalising–renewing–realisation/re-perception/re-thought of what they as of reasoning-through/messianic-reasoning idealise as from their underlying baseline registry-worldview/dimension reference-of-thought and the subsequent secondnature institutionalisation of its given intemporal ontological-performance-including-virtue-as-ontology; and so, beyond the naivety of construing a given registry-worldview/dimension reasoning-from-results/afterthought as a suprasocial or averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> absolutising epistemic reference of ontological-veracity for prospective transcendence-and-sublimity idealisation. highlight that the traditional reasoning-from-results/afterthought construct is construed: - for the Platonic idea transcendence-and-sublimity as of sophistry, - for the Cartesian cogito transcendence-and-sublimity as of scholasticism pedantry, and prospectively for deprocrypticism transcendence-and-sublimity as of spurious institutional-being-and-craft muddlement. Effectively, human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor implies that metaphoricity why tending ultimately towards intemporality, is effectively of both intemporal/longness-of-register-of-meaningfulness-and-teleology and temporal/shortness-of-register-of-meaningfulness-and-teleology manifestations. But any given social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension meaningfulness-and-teleology as well as the fact that human perceived social-stake-contention-or-confliction interests drift within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities, implies that any such registry-worldview/dimension social-setup has basic structuring/paradigming supposedly coherent ontological-commitment for its effective functioning which lays it prospectively exposed to metaphoricity as of prospective ontological-primemovers-totalitative-framework as from prospective existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness epistemic/notional_projective-perspective; as such a registry-worldview/dimension would difficultly renege, as of contradictory and incoherent implications, on such critical prospective ontological-veracity implications of such prospective relative-ontological-completeness of meaningfulness-and-teleology. It is this element that equally ultimately renders the study of the social, notwithstanding its strong

underlying epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of potentially the same ontological-performance possibility as with the natural sciences. That is the apparent conventioning-referencing of the social as of an immediacy perspective naively implies the social is of a poor supposedly coherent ontological-commitment but from a more profound level of appreciation this not the case as explained above, as in effect a society/social-setup conventioning projects correspondingly a profound supposedly coherent ontological-commitment as of its ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ which is then enabling for the critical metaphoricity of prospective meaningfulness-and-teleology ontological-veracity implications of ontological-primemovers-totalitative-framework as of prospective relative-ontological-completeness. In other words, as of transversality-of-disambiguated-apriorising/axiomatising/referencing of human metaphoricity of temporal-to-intemporal–ontological-performances-of-narratives, we know that the ontological-primemovers-totalitative-framework that underlies existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness sublimating-validation/desublimating-invalidiation implications of ontological-veracity is bound in the long run to select/skew-toward the intemporal/ontological over the temporal, whether as of internal cultural transformation or cultural diffusion. This is exactly why the overall ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’ ultimately has a direction as of intemporal-preservation-entropy-or-contiguity—or–ontological-

preservation, notwithstanding structural/paradigmatic implications of 'human temporal-to-intemporal-dispositions accordions at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities'. We can appreciate both with regards to the social fabric as well as the natural sciences this common basis of supposedly coherent ontological-commitment from a long-term perspective, in the sense that technical and scientific progress associated with the industrial revolution 'could hardly be socially reneged' not only in Western Europe but with respect to its diffusion throughout the world, and so because the supposedly coherent ontological-commitment of human societies conventioning as of their 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' render themselves exposed to the transcendence-and-sublimity of the prospective relative-ontological-completeness as projected by the industrial revolution underlying technical and scientific knowledge manifesting as of existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness selection/skewing of ontological-primemovers-totalitative-framework <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity and so because these project beyond subjectivity-of-truth-as-of-human-subpotency as implied by the universal objectivity as of existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness of the underlying sciences and their applications. It is this insight as of 'existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness selection/skewing of ontological-primemovers-totalitative-framework <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity' that animates the elucidation of metaphoricity herein as of ontology-driven 'ontologically-

hegemonising-narrative ontological-performance-including-virtue-as-ontology', more than just a notion of mere subjective human-subpotency epistemic/notional_projective-perspective narratives; and so, as underlined by human limited-mentation-capacity-deepening inducing prospective relative-ontological-completeness-of-reference-of-thought <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity. This ontology-driven assessment of intemporality/longness metaphoricity perspective rejects the often wrongly made critique of relative-for-the-mere-sake-of-relative-disparateness by atomising/taking-to-pieces identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism critiques when misrepresenting the ontologically-veridical observations/remarks/'constatations' as of ecstatic-holism/nested-congruence of postmodern thinkers. Rather as construed herein, relative truth speaks to human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of the <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of prospective relative-ontological-completeness, and so construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism perspective. In other words, this author contends that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening; and this notion of relative truth is reflected in their works/research-programmes that undermine our epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism perspective. Further, the implication as well is that the adjudicator/transcendental-enabling/sublimating/transcendental-signifier with regards to truth as it enables

transcendence-and-sublimity then is existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as of its ontological-primemovers-totalitative-framework <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity selecting/skewing for ontological-pertinence within the underlying human metaphoricity scheme of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’, and not just mere human subjectivity. Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment so implied as of a social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior paradigms of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just ‘mere transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a

suprasocial or averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> human mindset processing’, but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought unlike our subsequent reasoning-from-results/afterthought contemplation afterwards ‘wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> comprehensive sense of prospective metaphoricity’. This points to a more comprehensive reality of human epistemic-veracity arising as of our epistemic-totalising–thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought non-presencing-<as-to-existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> ricochetting that speaks of the structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-

as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-

potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-
re-thought-in-epistemic-conflatedness>. In a certain way this is obvious, when we appreciate
that having the right epistemic-veracity should provide the direct possibility for constructing

its structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility of prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity as of prospective meaningfulness-and-teleology as knowledge on a vague notion of any presencing—absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn't rise to projectively contemplate and appraise of such prospective meaningfulness-and-teleology as knowledge prospectively implicated epistemic-veracity of research-programme and validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just simplistic transmission/spreading of prospective meaningfulness-and-teleology as knowledge, even though this can be relevant as of a shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology as say the commonality of such metaphoricity inclined outlier thinkers sharing a common emancipatory metaphoricity mathesis/motif-thrownness-disposition like Socrates, Plato, Aristotle and their schools with their universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with budding positivism/rational-empiricism. But rather beyond such shared prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology that is instigative, metaphoricity is critically about the prospective ricochetting structuring/paradigming implications for inducing such prospective meaningfulness-and-teleology implications on the fabric of the social as an epistememic-

totality framework beyond-the-consciousness-awareness-teleology-in-existential-extrication-
 as-of-existential-unthought, as the supposedly coherent ontological-commitment of 'self-
 assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' of the
 social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity.
 This is so because in the long run transversality-of-disambiguated-
 apriorising/axiomatising/referencing of temporal-to-intemporal-ontological-performances-of-
 narratives is rather as of ontological-primemovers-totalitative-framework selecting/skewing-
 towards intemporality/ontological-veracity as of existence-potency-prospective-digression-
 of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-
 conflatedness as-to-ontologically-uncompromised-ontological-
 normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup
 value construct lies somewhere between the possibility of its conventioning-referencing and
 its presencing—absolutising-identitive-constitutedness Being-development/ontological-
 framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-
 meaningfulness-and-teleology, when it comes to assessing the possibility of prospective
 meaningfulness-and-teleology inducing of metaphoricity. It is not necessarily the case that a
 society that doesn't or poorly appreciate the implication of science will value as of
 immediacy prospective Being-development/ontological-framework-expansion-as-to-depth-
 of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology like the
 cultivation of science over its conventioning-referencing as a cultural inclination or
 metaphysical predisposition or a creed; as we can appreciate the contrasting disposition
 towards the cultivation of science as in Europe and the Arabic world during the medieval
 period, or even disparity in ontological progressiveness within the very same societies at
 various epochs. Thus the assumption that any given society or period is absolutely
 turned/committed to prospective Being-development/ontological-framework-expansion-as-

to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology including our modern period, is a flawed appraisal; as in many ways, beyond our epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at institutional functioning easily points out the pre-eminence of spurious institutional-being-and-craft muddlement highlighting an uninstitutionalised-threshold as of the privileging of conventioning-referencing over purely prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism metaphoricity in our positivism–procrypticism; as its brings to the self-consciousness the reality that the implication of such a deprocrypticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; this author contends the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness. The ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-

 present positivism-procrypticism wherein its conventioning-referencing procrypticism
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument falsely seem to
 project ontological-pertinence why assuming little or no prospective Being-

 of-existential-unthought posture; as such conventioning-referencing narratives increasingly
 protrude into supposedly prospective Being-development/ontological-framework-expansion-

 purviews in usurpation, and so together with generalised intellectual teleological-decadence-

 mental-disposition to prospective Being-development/ontological-framework-expansion-as-
 to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and

presencing—absolutising-identitive-constitutedness conventioning-referencing speaks at a more fundamental level of the reality that the human subject is not psychologically necessarily driven by an absolute commitment to prospective ontological-veracity given its registry-worldview/dimension structural ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’; and thus that it has an ontological-veracity destructuring/uninstitutionalised-thresholding, where beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought it will relate to ontological-veracity as relatively impertinent on critical occasions as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and so-reflected socially as of the uninstitutionalised-threshold. The underlying insight about such ontological-veracity destructuring/uninstitutionalised-thresholding is that the state of human-subpotency is one where overall its capacity to reflect existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism is inherently limited such that human meaningfulness-and-teleology construal ever always varies as of ‘individual whim/impulsion narratives ontological-performances’, ‘averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> narratives ontological-performances’, ‘suprasocial narratives ontological-performances’ and ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’, with the latter as critically bound to fulfil ontological-veracity as of its direct and utter subjection to the superior party that is existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-

conflatedness/intrinsic-reality/ontological-veridicality as of ontological-primemovers-
 totalitative-framework and then its deferential-formalisation-transference and percolation-
 channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> implications,
 while it can be appreciated that the preceding three dispositions as of their epistemic-
 totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag are not
 critically as so-committed to ontological-veracity. Narratives as such are the very epistemic-
 totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag drive for
 human meaningfulness-and-teleology underlying language development, wherein
 ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-

 profoundness is as of singularisation/epistemic-immanence/veridical-epistemic-determinism
 and so over the temporal–ontological-performances-of-narratives as of
 dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Unsuspectingly,
 the reality of projected narratives as of human-subpotency–
 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions–existentialism-form-factor across the
 institutional-cumulation/institutional-recomposure is rather regular and stable as of the
 dynamics of temporal-to-intemporal–ontological-performances-of-narratives, and so as of
 their respectively poor to profound dispensing-with-immediacy-for-relative-ontological-
 completeness/contemplative-distension implications with regards to social-stake-contention-
 or-confliction at the given registry-worldview/dimension. It is equally critical to note that as
 of the profoundness of their social-stake-contention-or-confliction existential-investment,
 temporal–ontological-performances-of-narratives will drag out as of dialectically-dementing-
 ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-
 <mentally-aestheticised_dementing–qualia-schema>’ of akrasia-susceptibility-or-akrasiatic-

drag complex in obviation of prospective ontological-veracity without the constraining untenability as of ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness of intemporal ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’, going by the fact that the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ opens it up to the prospective intemporal-as-ontological metaphoricity of ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’. The reality of a regular and stable dynamic of human temporal-to-intemporal–ontological-performances-of-narratives across the institutional-cumulation/institutional-recomposure, critically and naturally makes of anthropology more of a universally and operantly principled construction of human existence reification as of anthropopsychology, beyond more or less a traditional orientation categorising epistemic disposition with regards to human cultural life, the social and practices of specific societies, with respect to the coherence of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor

<formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity as of the structural/paradigmatic <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’; as reflected as of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Basically, the possibility in reflecting the ontological-contiguity—of-the-human-institutionalisation-process arises as of human

generation of ‘temporal-to-intemporal-dispositions accordions ontological-performances-including-virtue-as-ontology of narratives’ as of the specific destructuring/uninstitutionalised-thresholding of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. It is ultimately ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’ that is implicated with respect to the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ opening it up to prospective intemporal-as-ontological metaphoricity, such that sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing in reflecting the ontological-contiguity—of-the-human-institutionalisation-process can effectively be construed as of the dynamism of the ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’, as it supersedes temporal-ontological-performances-of-narratives as of its constraining to existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as of ontological-primemovers-totalitative-framework over human-subpotency, and so with respect to human construal of existence and purviews of existence. We can appreciate in this regards the ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’ drive in generally overcoming human egregious superstitious beliefs towards our positivism and science orientation today as well as ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ about purviews-of-existence which are today articulated in institutionalised frameworks as of subject-matter narratives like physics, law, biology, etc. delegating social opinionatedness and substituting social deferential-formalisation-transference and percolating-channelling for ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’. The ontological-

contiguity—of-the-human-institutionalisation-process successive overcoming of uninstitutionalised-thresholds involves a migration of the hegemony of social meaningfulness-and-teleology away from ‘individual whim/impulsion narratives ontological-performances’, ‘averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> narratives ontological-performances’ and ‘suprasocial narratives ontological-performances’ which reflect human-subpotency epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatric-drag, towards the hegemony of ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’ rather reflecting existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as validated or invalidated by ontological-primemovers-totalitative-framework, thus involving the displacement/decentering-of-the-human-subject with regards to human transcendence-and-sublimity arising as of constraining to existence/intrinsic-reality/ontological-veridicality. As such we can appreciate that our present positivism institutionalisation outcome is the result of prior institutional-cumulation/institutional-recomposure in succession of mainly the ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’ as of existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness, while all ‘individual whim/impulsion narratives ontological-performances’, ‘averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> narratives ontological-performances’ and ‘suprasocial narratives ontological-performances’ as of human sub-potency constraining were discarded. The implication here is that prospective relative-ontological-completeness will necessarily imply a discarding of our

present positivism–procrypticism ‘individual whim/impulsion narratives ontological-performances’, ‘averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> narratives ontological-performances’ and ‘suprasocial narratives ontological-performances’ as of human-subpotency, for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’ as of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness involving the displacement/decentering-of-the-human-subject; reflecting the latter’s profoundness in dispensing-with-immediacy-for-relative-ontological-completeness as enabling Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. This author further contends that as of our positivism–procrypticism uninstitutionalised-threshold in disjointedness-as-of-reference-of-thought, futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’ is not meant in anyway to be explicative, as of the idea of falsely validating our defective procrypticism/disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, thus wrongly inducing procrypticism/disjointedness-as-of-reference-of-thought epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; but rather has to project as of prospective epistemic-ricochetting/transepistemicity the requisite deferential-formalisation-transference and percolation-channelling-<epistemic-totalising-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Besides and overlaid on this underlying human-subpotency background deficiency as of human-subpotency—aporia/undecidability/dilemma/ought-

indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

dispositions—existentialism-form-factor, is the reality that human meaningfulness-and-teleology fundamentally develops out of the constructive/institutionalising and destructuring/uninstitutionalised-thresholding nature of the social-construct (as significant otherness to the individual), and as this social-construct conventioning-referencing is thereof reflected in its relationship with inherent ontological-veracity as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, that goes into building the individual capacity to uphold ontological-veracity when the social-construct as its significant otherness

is constructive/institutionalising of meaningfulness-and-teleology as knowledge while by the same token can undermine the individual capacity to uphold ontological-veracity when the social-construct as significant otherness is as of destructuring/uninstitutionalised-thresholding of meaningfulness-and-teleology as knowledge; as social-construct settings are fundamentally the background of significant otherness for their inherent generalised purposefulness and their enlivening of the possibility for individual human purposefulness as well, such that beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought the notion of ontological-veracity is not necessarily of absolute pertinence to the individual as of pure ontology implications of aetiologisation/ontological-escalation where individual possible construal of ontological-veracity is subject to its perception/engagement/endearament of specific and/or suprasocial-construct settings significant otherness destructuring/uninstitutionalised-thresholding implications of its possible constructive/institutionalising construal of ontological-veracity. This destructuring/uninstitutionalised-thresholding effect of social-construct settings with regards to individual possible constructive/institutionalising construal of ontological-veracity is validated by the idea that even the most assured critique in the ontological-veracity of their ideas when this elicits the uninstitutionalised-threshold cannot just articulate them as if the social-construct is 'purely/absolutely receptive-as-constructive/institutionalising to ontological-veracity' but need to implicitly recognise the social-construct predisposition to destructure such meaningfulness-and-teleology as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold, and so in order by its dispensing-with-immediacy-for-relative-ontological-completeness/contemplative-distension to strategically articulate such meaningfulness-and-teleology going by the possibility of the social-construct as of its potential constructive/institutionalising significant otherness to tolerate it in the immediacy, even as the social-construct is rather predisposed in the

immediacy to destructure at this uninstitutionalised-threshold as of its registry-worldview/dimension structural ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. From the foregoing, while the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ opens it up to prospective intemporal-as-ontological metaphoricity, it is rather ‘naïve to construe of social-stake-contention-or-confliction in any social-setup as absolutely about ontological-veracity’ giving a social-construct predisposition to destructure meaningfulness-and-teleology as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold; with any such superseding ontological-veracity at the social-setup uninstitutionalised-threshold rather beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, as base-institutionalisation implied meaningfulness-and-teleology is beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of recurrent-utter-uninstitutionalisation, that of universalisation is beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of base-institutionalisation—ununiversalisation, that of positivism is beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of universalisation—non-positivism/medievalism, and prospectively that of deprocriticism is beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of positivism—procriticism; and so because any given registry-worldview/dimension structural ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ defines the social-construct institutionalisation threshold perceived intemporal meaningfulness-and-teleology as of its reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-

explicating-ontological-contiguity for affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking of prospective registry-worldview/dimension. The ultimate point here being that critically the notion of human transcendence-and-sublimity more often than not occur as ‘reasoning-through/messianic-reasoning projection-beyond-the-presencing-human-self-consciousness-as-reinventing-prospective-non-presencing-<as-to-existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>-human-self-consciousness’ rather than as it can wrongly be implied with ‘reasoning-from-results/afterthought postures as of presencing—absolutising-identitive-constitutedness self-consciousness mastery and direction’ which are rather ontologically-flawed epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. In this regards, ontological-veracity as of a perpetual predisposition for prospective relative-ontological-completeness is ensured by supposedly coherent ontological-commitment to undermine the social-construct predisposition to destructure meaningfulness-and-teleology as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold, and enable the construal of prospective ontological-veracity by ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’, as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism, over ‘individual whim/impulsion

narratives ontological-performances’ and ‘suprasocial narratives ontological-performances’ in their various flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism postures. The social epistemic-totality reality of the metaphoricity flux of temporal-to-intemporal–ontological-performances-of-narratives thus implies that in effect a social-setup is a construct of ‘temporal-to-intemporal-dispositions accordioneing ontological-performances-including-virtue-as-ontology of narratives’ asan epistememic-totality of meaningfulness-and-teleology, wherein the most universalising/ontologising/institutionalising of narratives as of ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’ is structurally superseding over more specific and spurious temporal–ontological-performances-of-narratives but with all such temporal-to-intemporal–ontological-performances-of-narratives susceptible to recombination in unsuspecting ways given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—

It is this possibility of narratives recombination as of formative and enculturating implications as well as the criss-crossing of formal and informal spheres/settings differing temporal-to-intemporal value-references that renders even universalising/ontologising/institutionalising narratives susceptible to recombination with

temporal—ontological-performances-of-narratives, thus leading to their possible ontological denaturing as of uninstitutionalised-threshold implications. Ultimately, this author contends that conceptualising ontological-veracity reflecting existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism as this underlies retrospective, present to prospective meaningfulness-and-teleology rather boils down to grasping prospective relative-ontological-completeness <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity as of notional-deprocrypticism.  beyond the notion of subjectivity as of ontological-primemovers-totalitative-framework
 validation and falsifiability implications. It is important to grasp that since every registry-
 worldview/dimension social-construct is involved in a constructive (as of its institutionalising
 disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold)
 relationship with ontological-veracity, this is exactly what inevitably validates the articulation
 of ontological-veracity/ontological-veridicality as more completely involving the
 displacement/decentering-of-the-human-subject priorly as implied with Derridean
 deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative
 in reflecting the need to undermine human destructuring/uninstitutionalised-thresholding to
 further advance its constructive/institutionalising nature, thus overcoming underlying
 logocentrism as of prospective relative-ontological-completeness implications; reflecting the
 fact that human knowledge is more completely a two-fold process involving building the
 right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for
 that given right mindset-as-of-prospective-relative-ontological-completeness as of projected
 conflatedness. This is very much unlike the Ricoeurian narrative theory conception that while
 of palliative and practical significance is in relative constitutedness since it poorly deals with
 logocentrism implications as of prior relative-ontological-incompleteness on ontological-
 veracity; as it construes of ‘logocentric habituated social conditions’ as inherently ontological
 or beyond ontological treatment while failing to countenance the ‘decentering heavy lifting’
 involved in undermining ontologically impertinent ‘logocentric habituated social conditions’
 in enabling the ontological-contiguity—of-the-human-institutionalisation-process as of

Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising and destructuring/uninstitutionalised-thresholding nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrpticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising and destructuring/uninstitutionalised-thresholding nature is effectively what underlies in ontologically neutral/objective terms-as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism—procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms-as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-

confliction over its fuller pure ontology as of prospective relative-ontological-completeness deprocrypticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-prot Humanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding positivism. With respect to deconstruction in this regard, this author contends that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism–procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction as of its disjointedness-as-of-

reference-of-thought but that a more fuller pure ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness deprocrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality/longness and temporality/shortness as to human limited-mentation-capacity relative ontological-performance-including-virtue-as-ontology. It is effectively from this fuller pure ontology perspective of prospective relative-ontological-completeness deprocrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective relative-ontological-completeness deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter's state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in

a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness positivism/rational-empiricism, we don't ideally construe of science as of its pure ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising and destructuring/uninstitutionalised-thresholding nature inherently points out why human transcendence-and-sublimity as of intemporal metaphoricity epistemic pertinence doesn't lie with any inherent suprasocial framework or inherent averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> framework. The fact is that the inherent human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor renders such averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> framework or suprasocial framework epistemic pertinence for prospective transcendence-and-sublimity untenable, as susceptible to prospective

dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Such epistemic pertinence for prospective human transcendence-and-sublimity is rather structured/paradigmed dynamically as of prospective reasoning-through/messianic-reasoning epistemic-ricochetting/transepistemicity possibility exploiting the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ which opens it up to prospective intemporal-as-ontological metaphoricity. It is by this token that the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

The insight here is that the epistemic possibility for human prospective aetiologisation/ontological-escalation as reflected in all prior transcendence-and-sublimity is more decisively about such intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

 the term ‘antiakrasiatic’ also along the same lines is further meant to emphasise the
 underlying idea that akrasia is a ‘notion of lack’ which ‘anti disposition’ as of relative-

This existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness ontological-veracity perspective reflects the fact that as of our human-subpotency, beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought we-fail-to-factor-in/we-are-oblivious-to our human limited-mentation-capacity implications as of our ontologically-compromised epistemic-totalising—thrownness-in-existence, so-reflected with the successive registry-worldviews/dimensions reference-of-thought-level reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity, to then proceed in affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking as of our existential-instantiations and so defectively as if we have no limited-mentation-capacity and no ontologically-uncompromised epistemic-totalising—thrownness-in-existence; and this with respect to our articulated—or—acquiesced-to meaningfulness-and-teleology ontological-performance-including-virtue-as-ontology, such that inherently our ontological-performance is ever always constrained as of constructive and destructuring-threshold-of-ontological-performance of meaningfulness-and-teleology. The destructuring-threshold-of-ontological-performance of human articulated—or—acquiesced-to meaningfulness-and-teleology ontological-performance, and as structurally/paradigmatically reflected at the uninstitutionalised-threshold, speaks of a threshold at which as of our human-subpotency we fail to assume the intellectual-and-moral responsibility arising as of ontological-veridicality so-reflected as from the full implications

of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness ontological-veracity perspective insight of affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking. This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human ‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. Insightfully, we can appreciate that the absolute human ontologically-veridical antiakrasiatic disposition can only be as of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism so-reflected with futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension, over human-subpotency–as-of-ontologically-compromised-epistemic-abnormalcy so-reflected variously with the preceding successive registry-worldviews/dimensions; wherein notional-deprocrypticism as of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness will rather speak of prospective ‘ontologically-hegemonising-narrative ontological-performance-including-virtue-as-ontology’ which as of its inherent constructive ontological-performance is of a structural/paradigmatic implication that ultimately supersedes the destructuring-threshold-of-ontological-performance notionally underlying human-subpotency. Thus all the problem of human ontologically-flawed

antiakrasiatic disposition boils down to construing the underlying human mental-processing disposition, construed as of phenomenal-abstractiveness implications, as from human-subpotency dispositional possibilities of ontological-performances to existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness possibility of ontological-performance. In this respect, we can appreciate that the successive registry-worldviews/dimensions reference-of-thought in reflecting the ontological-contiguity—of-the-human-institutionalisation-process are effectively differing structural/paradigmatic antiakrasiatic dispositions-as-of-self-consciousness varying from most ontologically-flawed as of recurrent-utter-uninstitutionalisation to most ontologically-veridical as futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism. We can further appreciate that all the successive registry-worldviews/dimensions reference-of-thought are marked at their reference-of-thought-devolving-level by temporal-to-intemporal ontological-performances speaking of differing ontological-performances-including-virtue-as-ontology of intemporal and disambiguated temporal ontologically-flawed antiakrasiatic-disposition as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation reflecting <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives. This analysis so far sums up the overall framework of human temporal-to-intemporal ontologically-flawed antiakrasiatic disposition as of the social epistemic-totality of meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. Further and of much more profound reification implications, is

the reality that the social-construct constructive and destructuring nature can be fundamentally accounted for by the fact that human antiakrasiatic disposition aspiration is truly reflected as from the effective implications of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic

askesis-or-acumen reasoning-through/messianic-reasoning ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’; thus with the latter reconceptualised as ‘human-subpotency equivalence/correspondence antiakrasiatic-aspiration ontological-performance’.

This reflects the epistemic-veracity of construing human-subpotency ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ of its articulated—or-acquiesced-to meaningfulness-and-teleology as from existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness ontological-performance, which underlies beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought the universal-transparency of the social epistemic-totality of meaningfulness-and-teleology with respect to social-stake-contention-or-confliction; with the implication here that human-subpotency is ever always as-of-its-level-of-constructiveness-of-ontological-performance/institutionalisation-by-destructuring/uninstitutionalised-threshold in ‘a metaphorising vacillating-conception’ of the social epistemic-totality of meaningfulness-and-teleology as can be fully reflected from existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness epistemic perspective in ontological-normalcy/postconvergence. This thus points out that human-subpotency ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ supposedly of universal-transparency is mainly and rather the

overtly presumed social posture of articulated—or—acquiesced-to meaningfulness-and-teleology ontological-performance, and that human-subpotency implications of human limited-mentation-capacity induces covert-pretence-of-equivalence/correspondence—antiakrasiatic-aspiration-ontological-performance construed as destructuring-transitoriness-as-of-deratiocination/deratiocontiguity; as implying in effect a destructuring-by-flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-

This destructuring-transitoriness-as-of-deratiocination/deratiocontiguity exactly

reflects the destructuring-threshold-of-ontological-performance as the point where human-subpotency from its ‘destructuring relative-ontological-incompleteness ontologically-flawed perspective’ is in an epistememic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that systematically represents it’s the reality of its destructuring-by-flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as so-construed notionally/epistemically from the ‘prospective relative-ontological-completeness as of existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness constructiveness perspective’) as a nondescript/ignorable void that actually speaks of akrasiatic-drag-denatured-and-dementing-narratives, and goes on to systematically ‘contend recurrently’ on the basis of its ontologically-flawed destructuring apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Consider the case of the destructuring-threshold-of-ontological-performance with a ‘God of plane’ proposition in say an animistic social-setup (reflecting the underlying ‘animistic superstitious epistemic-totalising/circumscribing/delineating–narrative-disposition’ and not any such notion as propositional attitude because human meaningfulness-and-teleology is epistemic-totalising/circumscribing/delineating as of its given epistemic-totalising–thrownness-in-existence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument thus construed in notional-conflatedness with existence-as-of-existential-instantiations and as its ‘epistemic-totalising/circumscribing/delineating–narrative-disposition’ can then be reflected in an infinite number of propositions by that notional-conflatedness with existence-as-of-existential-instantiations as so-construed in such approaches as Derridean deconstruction and Foucauldian discourse analysis, as such a reification is all about elucidating the ontological-

 wrongly holds on to an ontologically-flawed ‘epistemic-totalising/circumscribing/delineating

 prior relative-ontological-incompleteness as of ‘epistemic-

 defining its uninstitutionalised-threshold. Destructuring-transitoriness-as-of-

deratiocination/deratiocontiguity as it speaks to the reference-of-thought-devolving-level is a most potent social phenomenon in the extended-informality rather than defined-and-constrained formalised social-settings (though it more fundamentally speaks of the uninstitutionalised-threshold implied overall registry-worldview/dimension prospective structural/paradigmatic ontological-performance deficiency), as of the dearth of ontologically-hegemonising-narrative as of ‘epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation/epistemic-immanence/veridical-epistemic-determinism’ in the extended-informality with the latter variously substituted as of human phenomenal-abstractiveness ‘epistemic-totalising_random-as-impulsive destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism’, ‘epistemic-totalising_nominal-as-tendentious destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism’, ‘epistemic-totalising_ordinal-as-qualifying destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism’ and ‘epistemic-totalising_intervalist-as-categorising destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism’ as these covertly pass as constructiveness disposition in ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’, thus distinctly destructuring. It is important to grasp here that this

 digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness projection to prospective positivism insight of
 aetiologisation/ontological-escalation with regards to say the reflection of deconstructing-
 transitoriness-as-of-deratiocination/deratiocontiguity in the manifestation of notions-and-
 accusation-of-sorcery in a non-positivism social-setting social-stake-contention-or-
 confliction, with the construal of such purportedly constructiveness disposition of
 ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ as of
 positivism ontologically-hegemonising-narrative not necessarily telling from within the

perspective of the non-positivism human-subpotency social-stake-contention-or-confliction narratives, but for the implied prospective metaphoricity as prospective ontologically-hegemonising-narrative of positivism. Insightfully, such an ontological-normalcy/postconvergence destructuring-threshold-of-ontological-performance analysis insight is more like a projective contrast as with the case of the BODMAS characters deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity operation of Arithmetic construed as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism in epistemic-abnormalcy and with regards to our normally conceived apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity for the operation of Arithmetic as of singularisation/epistemic-immanence/veridical-epistemic-determinism in ontological-normalcy. Basically, such an ontological-normalcy/postconvergence destructuring-threshold-of-ontological-performance analysis speaks of the reality of human ontological-dementation/dialectical-dementation—stranding/attributive-dialectics insights; and the appreciation of the latter as to the displacement/decentering-of-the-human-subject in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is a requisite for understanding such an ontological-normalcy/postconvergence destructuring-threshold-of-ontological-performance analysis. The destructuring-threshold-of-ontological-performance analysis is highly abstracted from such an ontological-normalcy/postconvergence epistemic/notional_projective-perspective (so-understood as of ontological-normalcy/postconvergence/Doppler-thinking perspective of analysis). It reflects the abstract development of human-subpotency ‘dynamic phenomenal-abstractiveness possibilities in

their psychodynamic operant conflatedness with the social epistemic-totality of
 meaningfulness-and-teleology'. This psychodynamic operant conflatedness reflects human-
 subpotency 'constructiveness-of-ontological-performance/institutionalisation-by-
 destructuring/uninstitutionalised-threshold metaphorising vacillating-conception of the social
 epistemic-totality of meaningfulness-and-teleology'; as can veridically be construed from
 existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-
 perception,-re-thought-in-epistemic-conflatedness epistemic perspective as of ontological-
 normalcy/postconvergence with respect to assessing 'equivalence/correspondence
 antiakrasiatic-aspiration ontological-performance'. This destructuring-threshold-of-
 ontological-performance analysis further highlights the 'transitive nature' of the human
 psyche across the various registry-worldviews/dimensions uninstitutionalised-thresholds in
 reflecting the ontological-contiguity—of-the-human-institutionalisation-process with respect
 to destructuring at all uninstitutionalised-thresholds; as so-implied by ontological-
 dementation/dialectical-dementation—stranding/attributive-dialectics. The comprehensive
 social susceptibility to destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as
 the defining element of the social-construct destructuring is what underlies passive to active
 social mobbishness phenomena as of human limited-mentation-capacity social dynamic
 implications of lacking social ontologically-hegemonising-narrative. The failing cogency and
 individual wariness of the social as of the lack of a comprehensive expectation of
 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance' arises
 because of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as of its
 implied destructuring-threshold-of-ontological-performance parasitism epistemic-totalising—
 self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as beyond-the-
 consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought this
 reflects the individual psyche conception of the social especially as of its extended-

informality as not necessarily of high operant ‘equivalence/correspondence antiakrasiatic-
 aspiration ontological-performance’, and is further reflected in a social dynamics of dual
 overt and covert implicated interpretations of social phenomenality arising as of beyond-the-
 consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought
 cognisance-and-adaptation to the reality of the ontologically compromisable possibility of
 social meaningfulness-and-teleology. Insightfully, it can be appreciated that the ontological-
 contiguity—of-the-human-institutionalisation-process is one long process involving the
 undermining of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity at
 uninstitutionalised-thresholds with relative ‘equivalence/correspondence antiakrasiatic-
 attainment ontological-performance’ as of ontologically-hegemonising-narrative implied as
 of prospective ‘epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism
 constructiveness disposition in singularisation/epistemic-immanence/veridical-epistemic-
 determinism’. In this regard, we can appreciate anthropologically as of human limited-
 mentation-capacity-deepening implications the destructuring-transitoriness-as-of-
 deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social
 constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative
 implied with social enlightenment and the sciences rendered many purviews of existence as
 of relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance’.
 We can similarly project of the same with respect to our positivism—procrypticism
 disjointedness-as-of-reference-of-thought destructuring-transitoriness-as-of-
 deratiocination/deratiocontiguity at its uninstitutionalised-threshold as to be prospectively
 superseded by deprocrypticism preempting—disjointedness-as-of-reference-of-thought
 ontologically-hegemonising-narrative thus rendering human ontological-performance
 correspondence with the-very-same-epistemic-totalising—purview-of-construal-as-immanent-
 existence/intrinsic-reality/ontological-veridicality as of prospective relative

‘equivalence/correspondence antiakrasiatic-attainment ontological-performance’. This destructuring-threshold-of-ontological-performance analysis effectively points to the fact that human akrasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as to the destructuring implications at uninstitutionalised-thresholds implied human-subpotency epistemic/notional_projective-perspective in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism relative to existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness epistemic/notional_projective-perspective in singularisation/epistemic-immanence/veridical-epistemic-determinism. This overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation of the social-construct as from the elucidation/reification as ‘destructuring-threshold-of-ontological-performance analysis’ is rather notionally/epistemically reflective of the social-construct constructiveness-of-ontological-performance, as such an antiakrasiatic analysis of uninstitutionalised-thresholds notionally/epistemically reflects the ontological-contiguity—of-the-human-institutionalisation-process; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that

the very same epistemic/notional conceptualisation with respect to the human subject as with natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct ontological-primemovers-totalitative-framework <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-of-ontological-performance and as reflected at uninstitutionalised-thresholds. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance destructuring-threshold-of-ontological-performance and uninstitutionalised-threshold, and it is this difficult task of cross-generational mobilisation that enables the prospective constructiveness-of-ontological-performance for human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the

intemporal mental-dispositions behind the superseding of destructuring-threshold-of-ontological-performance need to be integrated into the very core of such secondnature formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up being denatured as of deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this inevitably actually occurs and reoccurs throughout the ontological-contiguity—of-the-human-institutionalisation-process; such that prospective social-construct constructiveness-of-ontological-performance and institutionalisation is ever always a process of maximalising-recomposuring-for-relative-ontological-completeness to prospectively recapture the edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for prospective organic-knowledge lost in secondnature institutionalisation with the latter construed in temporality/shortness often bound to induce incrementalism-in-relative-ontological-incompleteness as of poor apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably across the various registry-worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, the universally-transparent articulation-and-implications (as herein) of human destructuring as reflected by ‘epistemic-totalising/circumscribing/delineating dementing—qualia-schema’ and constructiveness as reflected by ‘epistemic-totalising/circumscribing/delineating dialectical-thinking—qualia-schema’ inherently elicits from the human-subpotency epistemic/notional_projective-perspective reflected as of the ‘epistemic-totalising/circumscribing/delineating dementing—qualia-schema’ in epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a sense of temporal social-stake-

contention-or-confliction existential-investment ushering in the furthering of
 temporality/shortness as of untransvaluated–temporal-intemporality inclination and
 accompanying sophistic/pedantic complexes. But from the intemporal-as-ontological
 teleologically-elevated projection reflected as from existence-potency-prospective-
 digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness epistemic/notional_projective-perspective for
 aetiologisation/ontological-escalation such temporal-dispositions are rather unwarranted and
 irrelevant since such aetiologisation/ontological-escalation is rather geared towards the
 prospective relative-ontological-completeness implied social-stake-contention-or-confliction
 as of human intemporal/ontological/social/species/universal/transcendental/maximalising-
 recomposuring-for-relative-ontological-completeness paradigm and not the prior relative-
 ontological-incompleteness social-stake-contention-or-confliction in extricatory/temporal
 paradigm; and candidly so to the extent that the intemporal-as-ontological dispensing-with-
 immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as
 of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-
 collateralising-protohumanity’ -to- ‘attain-sublimating-humanity’,-as-to-existence-potency-
 prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-
 thought-in-epistemic-conflatedness to supersede human temporality/shortness averaging-of-
 thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-
 of-‘nondescript/ignorable-void’ -with-regards-to-prospective-apriorising-implications>) is not
 interpreted from a temporal existential-extricator-as-of-existential-unthought perspective as
 ineptness warranting the furtherance of temporal-dispositions as of untransvaluated–
 temporal-intemporality inclination and accompanying sophistic/pedantic complexes as well
 as to the extent of entailing prospective relative-ontological-completeness. We can appreciate
 in this regards that the intemporal projection as of base-institutionalisation implies an

incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its 'epistemic-totalising/circumscribing/delineating dementing-qualia-schema' in epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and likewise with the intemporal projection as of universalisation over base-institutionalisation-ununiversalisation, positivism over universalisation-non-positivism/medievalism and prospectively deprocrypticism over positivism-procrypticism. In this regards, the notion of dementing as reflected as of 'epistemic-totalising/circumscribing/delineating dementing-qualia-schema' of prior relative-ontological-incompleteness is tied-to and a necessarily associated notion with that of dialectical-thinking as reflected as of 'epistemic-totalising/circumscribing/delineating dialectical-thinking-qualia-schema' with respect to the possibility of a protracted-consciousness conceptualisation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; and as this explains the successive construction-of-the-Self reflected in the successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of an 'epistemic-totalising/circumscribing/delineating dementing-qualia-schema' by its self-conscious epistemic-totalising-renewing-realisation/re-perception/re-thought as of its epistemic-totalising-thrownness-in-existence that structurally/paradigmatically allows for the possibility of prospective institutionalisation involving the displacement/decentering-of-the-human-subject. Unlike our naïve human-subpotency epistemic/notional_projective-perspective inclined to perceive prior registry-worldviews/dimensions in their 'epistemic-totalising/circumscribing/delineating dementing-qualia-schema' in stigmatising terms-as-of-axiomatic-construct, the ontological-veracity from existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness epistemic/notional_projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective

relative-ontological-completeness dialectical-thinking reflected as of ‘epistemic-totalising/circumscribing/delineating dialectical-thinking–qualia-schema’ can only arise as of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure possibility of prior relative-ontological-incompleteness dementing reflected as of ‘epistemic-totalising/circumscribing/delineating dementing–qualia-schema’, and so whether from a retrospective, present or prospective perspective; speaking of the ‘miracle of the human mind malleable potential as of the human-subject-emancipatory-relativism-driven-recomposing-constructivism-towards-singularisation’, and implying an obligation for any given registry-worldview/dimension to maximise this human capacity for Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of its growing self-consciousness and self-awareness. In fact, the notion of dementing as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-uninstitutionalisation is of an ‘epistemic-totalising/circumscribing/delineating dementing–qualia-schema’ with respect to prospective base-institutionalisation ‘epistemic-totalising/circumscribing/delineating dialectical-thinking–qualia-schema’, and likewise universalisation with respect to base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism with respect to positivism, and our present positivism–procrypticism with respect to prospective deprocrypticism. The fact is, even the said prospective transcendence-and-sublimity emancipators across the successive registry-worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-institutionalisation-process are just as equally relatively enmeshed in many ways with their reference-of-thought old psychology ‘epistemic-totalising/circumscribing/delineating dementing–qualia-schema’ like say Newton’s involvement with alchemy, and the idea of projecting to a prospective ‘epistemic-totalising/circumscribing/delineating dialectical-thinking–qualia-schema’ speaks of a first

level of human uninhibitedness/decomplexification that is exactly what allows for human emancipation. This further shows how our seemingly objectified presencing—absolutising-identitive-constitutedness positivism—procrypticism disposition is all-encompassing as of our epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag when we construe of ourselves as ‘dialectical-thinking as of in-the-absolute’ without projecting that just as prior generations of humans were both dialectical-thinking as of their constructiveness-of-ontological-performance reflected as of ‘epistemic-totalising/circumscribing/delineating dialectical-thinking—qualia-schema’ at their relative-ontological-completeness and dialectically-dementing as of their destructuring-threshold-of-ontological-performance reflected as of ‘epistemic-totalising/circumscribing/delineating dementing—qualia-schema’ at their relative-ontological-incompleteness, we equally manifest the same and so-perceived from the prospective relative-ontological-completeness of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. The critical point here has to do with the fact that beyond the ‘contingent-ontologies—as-of-conventioning-referencing’ of successive registry-worldviews/dimensions, in their averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as of their ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism, that are enabled by human limited-mentation-capacity-deepening as herein implied successively as of non-rules of recurrent-utter-uninstitutionalisation, rulemaking-over-non-rules of base-institutionalisation, universalisation-directed-rulemaking-over-non-rules of universalisation, positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules of our positivism and preempting—disjointedness-as-of-reference-of-thought-as-lacking-in-epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity-as-to-mere-

formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules of futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism; the ontological-contiguity—of-the-human-institutionalisation-process can thus be qualified as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ as its opened-construct-of-meaningfulness-and-teleology reflects the comprehensive ontological-veracity of the successive registry-worldviews/dimensions becoming as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. This ‘true-ontology—as-of-Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ is ultimately construed as of notional-conflatedness with futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as notional-deprocrypticism, reflecting the fact that the ontological-contiguity—of-the-human-institutionalisation-process as of successive registry-worldviews/dimensions outcomes can be construed as one of human successive failings to attain deprocrypticism/preempting—disjointedness-as-of-reference-of-thought singularisation/epistemic-immanence/veridical-epistemic-determinism and so up to the prospective human attaining of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought singularisation/epistemic-immanence/veridical-epistemic-determinism. Thus the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ highlights that as of our positivism—procrypticism averaging-of-thought-<as-to-leveling/ressentiment/closed-

construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as of its ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism, we are involved in a fundamental disjointedness-as-of-reference-of-thought in the sense that we seem to imply in our epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that our ‘positivism–procrysticism contingent-ontology—as-of-conventioning-referencing’ as reflected by our positivist science ideology and humanism ideology seemingly surpasses the very ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ in reflecting the ontological-contiguity—of-the-human-institutionalisation-process that engendered our positivism/rational-empiricism creating as of epistemic-ricochetting the said science without the science ideology and the said human emancipation without the humanism ideology. This fundamental disjointedness explains why and how our positivist science ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought rather turns out to be denaturing and undermines prospective Being-development/ontological-framework-development, and explains our inclination to ask the wrong questions given the false sense of certainty arising from this ‘positivism–procrysticism contingent-ontology—as-of-conventioning-referencing’. Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development—as-to-social-function-development and living-development—as-to-personality-development, more critically point to the ontological-veracity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

development-as-infrastructure-of-meaningfulness-and-teleology’ as of its implied intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation registry-worldviews/dimensions; and so critically by the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. In this regards, as applies with our positivism—procrypticism and so just as with any other prior relative-ontological-incompleteness registry-worldviews/dimensions averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as of their ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism, there has always been an ontologically-flawed inclination that the given registry-worldview’s/dimension’s ‘contingent-ontology—as-of-conventioning-referencing’ in its epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag inherently carries all the prospective possibilities of human emancipation and so oblivious-and-substituting of the underlying ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. In other words, unlike we may contemplate as of our positivism/rational-empiricism presencing—absolutising-identitive-constitutedness mindset, the notion of prospective human emancipation wasn’t alien to the recurrent-utter-uninstitutionalisation mindset though such a conception by mental-reflex was projected as of its very own ‘recurrent-utter-uninstitutionalisation contingent-ontology—as-of-conventioning-referencing’ averaging-of-

thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-

This displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure further points out from the perspective in reflecting the ontological-contiguity—of-the-human-institutionalisation-process 'true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology' the underlying ontological-veracity of human ontological-dementation/dialectical-dementation—stranding/attributive-dialectics as it speaks of the human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as actually of an underlying coupling of dialectical-thinking constructiveness-of-ontological-performance as reflected by 'epistemic-totalising/circumscribing/delineating dialectical-thinking—qualia-schema' and

dialectically-dementing destructuring-threshold-of-ontological-performance as reflected by ‘epistemic-totalising/circumscribing/delineating dementing–qualia-schema’. Ultimately, human ontological-dementation/dialectical-dementation–stranding/attributive-dialectics is the notion underlying human self-consciousness as of construction-of-the-Self all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. It all arises from the ‘human capacity for decomplexified/uninhibited dementing’ in order to then ‘prospectively induce originally/as-of-event prospective dialectical-thinking’. In this regards, we can factor in for instance that more critically rather than construing the prospective reification of the humanities and philosophy for instance in terms of breakthroughs along the lines of say exceptional methods or capacity along the lines of our ‘positivism–procrpticism contingent-ontology—as-of-conventioning-referencing’, the reality of any such transcendence-and-sublimity will rather be ‘a more candid face-up with our procrpticism/disjointedness-as-of-reference-of-thought’ as herein implied by this author as of the notion of ‘beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought institutional-being-and-craft, muddlement and other intellectual complexes/inhibitions’ that structurally/paradigmatically as of a destructuring-threshold-of-ontological-performance cloud/undermine the potential for further intellectual emancipation, and so similar to the breakthrough that brought about budding positivism/rational-empiricism as of say the reasoning-through/messianic-reasoning Galilean gesturing paradigm based on the fact that looking in the telescope we can appreciate how the planets moved around the sun and as this budding positivism/rational-empiricism reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation was relayed by other budding positivists, and so over the destructuring-threshold-of-ontological-performance

of traditional medieval no-trouble disposition to perceive and take comfort in traditional scholasticism reasoning-from-results/afterthought pedantry as if critical reification will arise by that pathway. In other words, the possibility of all human prospective transcendence-and-sublimity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism-in-relative-ontological-incompleteness disposition but rather more concretely only after human decomplexing/uninhibiting paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness level for human emancipation as of maximalising-recomposuring-for-relative-ontological-completeness; and this is effectively reflected in all cases of human transcendence-and-sublimity. Whether of low or high emotional-involvement, it is inevitably the case that the paradigmatic/structural possibility for prospective human transcendence-and-sublimity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure; as we can appreciate for instance that without the secondnature institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to acquiesce to such breakthroughs like

theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, as of human ontological-dementation/dialectical-dementation—stranding/attributive-dialectics implied prospective dialectical-thinking and prior dialectical-dementing, is merely a reflection of the fact that human meaningfulness-and-teleology is ever always as of the very same overall purview that is existence but then as of various state of huma relative-ontological-incompleteness/relative-ontological-completeness of reference-of-thought so-construed as registry-worldviews/dimensions, such that human meaningfulness-and-teleology is thus of lower to higher ontological-veracity/ontological-performance as of relative-ontological-completeness. Further as of human epistemic-totalising—thrownness-in-existence with human meaningfulness-and-teleology rather undertaken on the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality and thereof devolving as of existence-as-of-existential-instantiations, the implication is that human meaningfulness-and-teleology is thus ‘a-given-epistemic-totalising—thrownness-in-existence-epistemic-totalising-construct on existence-as-of-devolving-existential-instantiations’ as reflected in the ontological-veracity/ontological-performance of its given epistemic-totalising—thrownness-in-existence registry-worldview/dimension reference-of-thought-devolving meaningfulness-and-teleology; such that inherently the possibility of prospective virtue and prospective grander ontological-veracity/ontological-performance as required for prospective transcendence-and-sublimity beyond/superseding the given epistemic-totalising—thrownness-in-existence registry-worldview/dimension ontological-veracity/ontological-performance as so-reflected in its ‘apriorising-teleological-thresholding—as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’ in its prospective relative-ontological-incompleteness cannot spontaneously arise without a displacement/decentering-

It is this epistemic-totalising–throwness-in-existence induced epistemic-totalising/circumscribing/delineating nature of human meaningfulness-and-teleology that renders it necessarily an exercise of epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of existence-in-devolving-existential-instantiations; such that the construal of human meaningfulness-and-teleology is rather as of the given epistemic-totalising–throwness-in-existence registry-worldview/dimension ‘apriorising-teleological-thresholding–as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’, as of epistemic-totalising/circumscribing/delineating–narrative. However, from a traditional/modern/positivism history construal perspective, such a perceptive/astute historicity/ontological-eventfulness/ontological-aesthetic-tracing is hardly reflected as it tends to induce a naïve, flawed and incomplete representation of the past as being mainly as of the ‘cumulation of human dialectical-thinking representations epistemic-totalising/circumscribing/delineating—narratives and as this is often further skewed towards the locus of the present registry-worldview/dimension (positivism/rational-empiricism) dialectical-thinking representation’, and thus in many ways failing to project fundamentally the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—

imbued-temporal-to-intemporal-dispositions—existentialism-form-factor and further fails to echo the metaphoricity/existential-ecstasy of the sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing of meaningfulness-and-teleology as of the ‘ontological-contiguity—of-the-human-institutionalisation-process dynamics of successive dialectical-thinking representation and dialectical-dementing representation of meaningfulness-and-teleology’ reflected in ‘successive construction-of-the-Self underlying the sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing as of successive self-consciousness for meaningfulness-and-teleology’ as from recurrent-utter-uninstitutionalisation trepidatious-selfconsciousness, base-institutionalisation—ununiversalisation warped-selfconsciousness, universalisation—non-positivism/medievalism preclusive-selfconsciousness, our present positivism—procrypticism occlusive-selfconsciousness and prospective deprocrypticism protensive-selfconsciousness; with this underlying a poor conception of human psychology that poorly and hardly recognises the transepistemic/epistemic-ricochetting veracity of human constructiveness-of-ontological-

performance and destructuring-threshold-of-ontological-performance as of relevance to prospective meaningfulness-and-teleology/knowledge-reification. This comprehensive elucidation as of existence-potency-prospective-digression-of-epistemic-totalising–renewing–realisation,-re-perception,-re-thought-in-epistemic-conflatedness and human-subpotency implications of ontological-performance articulated above, can more fully be abstracted to reflect the overall ‘effecting-phenomenality underlying existence and existential-manifestations’. The implied underlying singularisation/epistemic-immanence/veridical-epistemic-determinism of existence as of existence-potency-prospective-digression-of-epistemic-totalising–renewing–realisation,-re-perception,-re-thought-in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notionally/epistemically reflecting the ecstatic singularity of existence speaks of the imbued structural/paradigmatic unity of the reflected existential sublimation manifestations. Such an ecstatic singularity of existence is what renders intelligibility possible as of the ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>projective-totalitative–implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human). This ecstatic singularity of existence is its primordial ineffability, as beyond any epistemic-totalising–thrownness-in-existence appraisal but then enabling the meaningfulness-and-teleology validatory possibility of any such state of epistemic-totalising–thrownness-in-existence by way of ontological-primemovers-totalitative-framework <formative>projective-totalitative–implications—imbued-epistemic-causality,-for-explicating-ontological-

contiguity. The ecstatic singularity of existence is the very shepherding/ushering/heralding possibility for existence's intelligibility. Thus the supervening unity of all existential sublimation manifestations arises as of their notional-conflatedness intelligibility derived from the primordial ineffability of 'coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human); and this primordial ineffability is thus the epistemic guidance for the construal of intelligibility in all existential sublimation manifestations. This very intertwining of existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as of ontological-primemovers-totalitative-framework potential implications with ‘phenomenal/manifest_subpotencies-<in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence> in epistemic-totalising—thrownness-in-existence’ is the metaphoricity/ecstasy of existence in its supervening notional-conflatedness intelligibility. This basically captures the very notions of singularisation/epistemic-immanence/veridical-epistemic-determinism and dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as can be reflected in explicating ‘phenomenal/manifest_subpotencies-<in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence> in epistemic-totalising—thrownness-in-existence’ ontological-veracity/ontological-performances as of ontological-primemovers-totalitative-framework potential implications of existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness, as stood out outstanding/in-waiting/in-abeyance/in-pending. Thus existence can be construed more succinctly as of an epistemic unity reflected theoretically, conceptually and operantly in ‘notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’ as of existence’s supervening-conflatedness

In all these instances, the sophists as of its existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness-dereification for averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension accrue prospectively the sophists react as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness as of the weaknesses associated in all human transcendence-and-sublimity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sublimity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity implications necessarily involves a parrhesiastic

reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension which is ‘never always the easiest of notion’ for human averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness-dereification for averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> disposition meant at stifling the possibility for prospective transcendence-and-sublimity, and so beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding positivists, the notion of dialogical-equivalence and intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>’ rather than ‘apriorising-teleological-elevation-in-ontological-contiguity’ to avoid wrongly implying dialogical-equivalence, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness as of the underlying registry-worldview/dimension reference-of-

thought epistemic-totalising-devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-hoc/makeshift/nonprincipled-syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-thresholds arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled-syllogising mindset or the budding positivists/rational-empiricists dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-equivalence arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence as of ‘apriorising-teleological-

degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-
 aestheticised_dementing-qualia-schema>' does not avail as of epistemic-veracity and thus
 ontological-veracity as of the 'apriorising-teleological-degradation-in-notional-
 discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>'
 closed epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-
 drag in prior relative-ontological-incompleteness which rather warrants psychoanalytic-
 unshackling/memetic-reordering/institutional-recomposure for prospective relative-
 ontological-completeness. This is akin to the mathematician opened to mutual calculating
 even where one could produce a wrong solution as of
 aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance
 but this only holds with the mathematical
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for
 engaging genuinely and naturally in the calculations; where that
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost,
 fundamentally the notion of mutual calculating is then ontologically and epistemically
 flawed. Ultimately, the notion of meaningfulness-and-teleology as of ontological-veracity is
 about the 'reasoning-through transversality-of-disambiguated-
 apriorising/axiomatising/referencing' of contentions for the determination of existence-
 potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-

 <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-
 explicating-ontological-contiguity; and it is rather different from a sovereign construct
 grounded on sovereign choice whether there is ontological-veracity or ontological-
 impertinence. The human existential tale as 'humanity project' has ever always been one of
 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic

implied in the ‘seeding promise of human-subpotency ontological-performance
equivalence/correspondence with the full-potency-of-existence-as-of-its-
coherence/contiguity’. The secondnatured institutionalisation constructs as of sovereign
institutions and establishment frameworks are ‘not to be necessarily-and-absolutely
considered as knowledge reifying frameworks’, as could falsely be implied by cohorting
sovereign institutions and establishments surreptitiously usurping the knowledge-reification
role and as beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-
existential-unthought surreptitiously defining what can be thought or not thought. The fact is
such implied suprasocial-constructs are mainly secondnatured whether as sovereign
representation or establishment constructs, and can easily be caught up in their own
epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in
prior relative-ontological-incompleteness with respect to social-stake-contention-or-
confliction and are thus not the absolutising framework of human meaningfulness-and-
teleology, as the social knowledge-reification role must always be opened to ‘intemporal
individuation ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-
of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic

possibility of its arising in any humans and in whatever specific purviews of existence, as this
is what is instigative of ‘true-ontology—as-of-Being-development/ontological-framework-
expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
and-teleology’; as it is only by the latter process that the ‘suprasocial obsession/myopism as
of a given registry-worldview/dimension social-stake-contention-or-confliction’ can be
superseded, as of reconstruing recurrent-utter-uninstitutionalisation suprasocial-construct

rather as of base-institutionalisation, base-institutionalisation–ununiversalisation suprasocial-construct rather as of universalisation, universalisation–non-positivism/medievalism suprasocial-construct rather as of positivism, and prospectively positivism–procrypticism suprasocial-construct rather as of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. We can appreciate in this regards that the universalising-idealisation philosophers and budding positivists trajectory of contemplation were actually counterintuitive to what their respective suprasocial-construct construed as human progress and the possibility for human progress. The naivety of referring to the suprasocial-construct conventioning-referencing as of its framework of establishments and sovereign institutions as if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’, is nothing but epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-unaccounted internally because (but from the existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism deprocrypticism perspective) structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its defective ontological-performance as it surreptitiously implies that it is absolute beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought’.

The fact is, it is this possibility of the universalising-idealisation philosophers

Socrates/Plato/Aristotle and the budding positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing

is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. This author contends, as of the implications of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> and suprasocial-construct meaningfulness-and-teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism–procrypticism is equally subject to our averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> and suprasocial-construct underlying disjointedness-as-of-reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness at destructuring-threshold-of-ontological-performance which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments of non-positivism as of animism or medievalism and thereof their devolving associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought

supersedes-and-deflates the overall vices-and-impediments of our positivism–
 procrypticism/disjointedness-as-of-reference-of-thought underlying the devolving social
 manifestation of psychopathy and social psychopathy. Thus the practice of construing
 absolutely the epistemic-totalising–self-referencing–
 syncretising/circularity/interiorising/akrasiatic-drag
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of any given
 registry-worldview/dimension in relative-ontological-incompleteness like our positivism–
 procrypticism speaks of a loss of ontology as ‘true-ontology—as-of-Being–
 development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
 infrastructure-of-meaningfulness-and-teleology’ to the given registry-worldview/dimension
 conventioning-referencing. In this regards, we can appreciate that our own projection of
 prospective deprocrypticism implied Being-development/ontological-framework-expansion–
 as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology
 as of its prospective singularisation/epistemic-immanence/veridical-epistemic-determinism
 will construe of our present positivism–procrypticism conventioning-referencing as
 dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism to be more than
 just as of our traditional, cultural and aesthetic idiosyncratic habituations grounded on our
 positivism–procrypticism underlying reference-of-thought that more or less supresses the
 possibility of prospective ‘true-ontology—as-of-Being-development/ontological-framework-
 expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
 and-teleology’, and equally garner that just as the sophists—ideal-type-or-individuation of
 ad-hoc/makeshift/nonprincipled–syllogising mindset and medieval-scholasticism-pedants—
 ideal-type-or-individuation never factored in that their respective supposedly presencing—
 absolutising-identitive-constitutedness construal of ontology as sophistic/pedantic ad-
 hoc/makeshift/nonprincipled–syllogising and medieval scholastic pedantry were to be

reconstrued as rather being of contingent-ontology—as-of-conventioning-referencing respectively by Socratic philosophers universalising-idealisation and budding positivists as of their respective prospective parrhesiastic revaluation of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’; likewise, our supposedly positivism—procrypticism presencing—absolutising-identitive-constitutedness construal of ontology as reflected in present subject-matters in many ways will be reconstrued as contingent-ontology—as-of-conventioning-referencing as of deprocrypticism implied prospective parrhesiastic revaluation of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. As such deprocrypticism ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ reflects that: our philosophising should rather be able to conceptualise its epistemic-emanence as a holistic conflatedness reifying of the-very-same-epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality as of transepistemic/epistemic-ricochetting retrospective-to-prospective implications of relative-ontological-completeness-of-reference-of-thought underlying the ontological-dementation/dialectical-dementation—stranding/attributive-dialectics in reflecting the ontological-contiguity—of-the-human-institutionalisation-process and as such construal of philosophy is rather considered as morphing as of human division of labour into the disparate subject-matter purviews-of-construal-of-existence reification and so in reflection of existence’s supervening-conflatedness, and with all human meaningfulness-and-teleology remaining of philosophical epistemic-veracity relevance as of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought singularisation/epistemic-immanence/veridical-epistemic-determinism

history considered mainly as of succession of dialectical-thinking representations inducing a loss of authentic-and-profound contemplative human projection both retrospectively and prospectively, as can be more pertinently be derived as of historicity/ontological-eventfulness/ontological-aesthetic-tracing ontologically-hegemonising-narrative implications reflecting the dynamics of human dialectical-thinking representation and dialectical-dementing representation as of human ontological-dementation/dialectical-dementation—stranding/attributive-dialectics, as such historicity/ontological-eventfulness/ontological-aesthetic-tracing can very much inherently grasp the metaphoricity of human meaningfulness-and-teleology as implied by its ‘apriorising-teleological-thresholding—as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’, since ‘individual-collective-and-social constructiveness-of-ontological-performance or destructuring-threshold-of-ontological-performance as of any given registry-worldview/dimension reference-of-thought-and-reference-of-thought-devolving is of teleological/narrative apriorising/axiomatising/referencing determinism’ so-construed as from prospective registry-worldview/dimension existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness epistemic/notional_projective-perspective singularisation/epistemic-immanence/veridical-epistemic-determinism edginess/incisiveness—of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity for dialectical-thinking representation and dialectical-dementing representation; and wherein the in-effect supervening-conflatedness of phenomenal/manifest_subpotencies-<in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence> with existence speaks of existence’s ecstatic singularity as so-reflected as of notional-deprocrypticism singularisation/epistemic-immanence/veridical-epistemic-

determinism of meaningfulness-and-teleology in conceptualising ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. Ultimately, Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology points to the fundamental dialecticism of human meaningfulness-and-teleology; as to the fact that the human is that which is in epistemic-totalising—thrownness-in-existence as of recurrent-utter-uninstitutionalisation epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by its reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument but then is warranted to ontologically-complete itself successively as of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. The human then is what is warranted to reconstrue Rousseauian perfectibility out of its epistemic-totalising—thrownness-in-existence flawed constructiveness-of-ontological-performance as of its destructuring-threshold-of-ontological-performance, as it can’t pretend to avoid this purposefulness as it is, as of its any presencing—absolutising-identitive-constitutedness state, the outcome of such purposefulness as relayed with the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. This coherently explains the inevitability of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning prospective relative-ontological-completeness-of-reference-of-thought; as when the organic-

knowledge avails it is much more than just an idea of choice but rather an obligation as of the implied inherently antiakrasiatic disposition that can't afford to overlook as if lacking the organic-knowledge for degrading into epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existential-extrication-as-of-existential-unthought. When the dialecticism of human meaningfulness-and-teleology as of its prospective ontological-performance implications as of virtue at constructiveness-of-ontological-performance and vices-and-impediments at destructuring-threshold-of-ontological-performance shows itself to be definitely determinable and is no longer the bigger issue for prospective human emancipation but rather the bigger issue becoming one of human psychological cognisance and adjustment to any such prospective emancipatory meaningfulness-and-teleology as so-reflected across the successive registry-worldviews/dimensions transcendence-and-sublimity. The underlying difficulty of all such psychoanalytic-unshackling/memetic-reordering/institutional-recomposure is all about how can a mindset adjusted as of its epistemic-totalising-thrownness-in-existence as of its given epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for construing meaningfulness-and-teleology in averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> ever gets prodded into contemplating an opened-construct-of-meaningfulness-and-teleology speaking supposedly of more ontologically profound prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of meaningfulness-and-teleology as implied as of prior transcendences from recurrent-utter-uninstitutionalisation to base-institutionalisation, etc. But then as all along the successive registry-worldviews/dimensions transcendences, such a parrhesiastic exercise is ever always

caught up between accommodating human temporality/shortness and existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness which knows of no such accommodation for human temporality, inevitably the existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness transcendental-enabling/sublimating implications necessarily comes ahead of human temporality/shortness emotional convenience. The certitude and determination of human meaningfulness-and-teleology as from this hindsight, as so-reflected from singularisation/epistemic-immanence/veridical-epistemic-determinism as of prospective deprocrypticism meaningfulness-and-teleology, will necessarily imply dementing implications of edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument with respect to our positivism–procrypticism meaningfulness-and-teleology as dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism even as we are thereby emotionally inconvenienced, just as singularisation/epistemic-immanence/veridical-epistemic-determinism as from our positivism perspective of meaningfulness-and-teleology will necessarily imply dementing implications of edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument with respect to prior non-positivism/medievalism meaningfulness-and-teleology as dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism even as we can appreciate the emotional inconvenience of the non-positivism/medievalism establishment mental-dispositions. Basically it is this supervening-conflatedness reflexivity of existence as of the 'phenomenal/manifest_subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> in epistemic-totalising–thrownness-in-existence' phenomena/manifestations shepherded/ushered/heralded as of existential constraining by

 ontological-performance’, when it comes to the ‘social-construction of meaningfulness-and-
 teleology as of social-stake-contention-or-confliction’. This fundamental saddling of the
 human construction-of-the-Self as of ‘a fixed/set framework of existentially-constraining

possibility of temporal-to-intemporal ontological-performance' can be referred to as the 'shiftiness-of-the-Self', and construed as the beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought that arises as of human lack of 'intemporal antiakrasiatic disposition for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of-epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) as of human limited-mentation-capacity-deepening for prospective relative-ontological-completeness'. The 'shiftiness-of-the-Self' thus refers to any given registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance 'specific bottomline—of-mere-mathesis/motif/throwness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self', beyond which bottomline—of-mere-mathesis/motif/throwness-disposition the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance allows/disregards/unaccounts for human temporal shiftiness as defining its prospective destructuring-threshold-of-ontological-performance, and so beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought; and this is exactly what explains the differentiation of registry-worldviews/dimensions as of their relative-ontological-completeness-of-reference-of-thought. The 'shiftiness-of-the-Self' structurally/paradigmatically defines the given 'edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflected as of

singularisation-as-of-intemporality/dissingularisation-as-of-temporality of the

 'apriorising-teleological-thresholding-as-teleological-framework/narrative-framework of

 construction of meaningfulness-and-teleology as of social-stake-contention-or-confliction' as
 reflected at the prospective superseding/transcending registry-worldview/dimension, as from
 existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-

 institutionalisation 'edginess/incisiveness—of-
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflected as of
 singularisation-as-of-intemporality/dissingularisation-as-of-temporality of the

 for dispensing-with-immediacy-for-relative-ontological-completeness-by-
 reification/contemplative-distension as of human limited-mentation-capacity-deepening for
 prospective relative-ontological-completeness' in undermining the prior registry-
 worldview's/dimension's 'shiftiness-of-the-Self' that defines its destructuring-threshold-of-
 ontological-performance as uninstitutionalised-threshold; and thus moving the ontological-

 Thus we can appreciate fundamentally that, as reflected in reflecting the ontological-

 has ever always been more critically about the ‘existentially-operant constraining’ for:
 moving the ontological-contiguity—of-the-human-institutionalisation-process bar of
 ‘shiftiness-of-the-Self’ to the prospective registry-worldview’s/dimension’s-reference-of-
 thought-for-social-functioning-and-accordance ‘specific bottomline—of-mere-
 mathesis/motif/throwness-disposition for the constructiveness of meaningfulness-and-
 teleology as of its specific construction-of-the-Self’ in order to undermine human
 destructuring-threshold-of-ontological-performance; rather than truly eliminating human
 ‘shiftiness-of-the-Self’ arising from the ever always present human ‘temporal/sophistic-as-
 ontologically-flawed/ontological-bad-faith reproducibility—mathesis/motif/throwness-
 disposition,—as-reproducibility-of-aestheticisation seeding-misprising of reasoning-from-

 ontological-contiguity—of-the-human-institutionalisation-process as of the successive
 registry-worldviews/dimensions given ‘edginess/incisiveness—of-

 prospective relative-ontological-completeness', in the restructuring/reparadigming of human
 'social-construction of meaningfulness-and-teleology as of social-stake-contention-or-

 institutionalisation-process bar of 'shiftiness-of-the-Self' to the prospective registry-
 worldview's/dimension's—reference-of-thought-for-social-functioning-and-accordance
 'specific bottomline—of-mere-mathesis/motif/thrownness-disposition for the constructiveness
 of meaningfulness-and-teleology as of its specific construction-of-the-Self': so-construed as
 from recurrent-utter-uninstitutionalisation non-rules 'shiftiness-of-the-Self'; base-
 institutionalisation—ununiversalisation rulemaking-over-non-rules 'shiftiness-of-the-Self';
 universalisation—non-positivism/medievalism universalisation-directed-rulemaking-over-non-

 capacity to 'spontaneously' be able to articulate 'social-construction of meaningfulness-and-

 ontological-completeness registry-worldview/dimension is fundamentally hampered by its

In this regard, we can more specifically appreciate the central and transformative implications of the Socratic philosophers universalising-idealisation as of the prospective universalisation registry-worldview/dimension 'social-construction of meaningfulness-and-teleology as of social-stake-contention-or-confliction', wherein such prospective 'shiftiness-of-the-Self' as induced by the Socratic philosophers universalising-idealisation construed as universalisation-directed-rulemaking-over-non-rules inducing the secondnatured institutionalisation of the universalisation registry-worldview's/dimension's—reference-of-thought-for-social-functioning-and-accordance 'specific bottomline—of-mere-mathesis/motif/thrownness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self' brought about the coherently universalising construction of meaningfulness-and-teleology with the associated elevated level of ontological-performance as manifested with the Socratic method for universal consistency and coherence, Plato's ideas for universal consistency and coherence and Aristotle's qualifying-categories and universalising-syllogism for universal consistency and coherence; thus superseding/transcending the ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled—syllogising mindset as of base-institutionalisation mere rulemaking-over-non-rules 'shiftiness-of-the-Self'. This is the more profound explanation for the hegemonising ontological-grip thereafter of the Socratic

philosophers defining universalisation meaningfulness-and-teleology thereafter over the antiquity and their defining relevance in the latter meaningfulness-and-teleology of all the medieval societies of the Mediterranean and beyond, and so especially as the increasing population mixing thereafter particularly with the Roman empire naturally required/called-for ‘universally coherent, consistent and credible meaningfulness-and-teleology infrastructure as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ that went well beyond traditional ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset; as of the knowledge reifying capacity-and-template for developing and cumulating such universalising-idealisation coherence and consistency across culturally diverse peoples and across space and time. The Socratic philosophers crucial and defining emphasis for differentiating themselves from sophists—ideal-type-or-individuation was very much a self-conscious insight as of the requisite parrhesiastic gesturing of ‘intemporal antiakrasiatic disposition for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-prot Humanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) as of human limited-mentation-capacity-deepening for prospective relative-ontological-completeness’ to allow for the requisite universalising-idealisation ‘edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflected as of singularisation-as-of-intemporality/dissingularisation-as-of-temporality of the

Basically, human destructuring-threshold-of-ontological-performance as highlighted as of the constructiveness-and-destructuring-framework of ‘shiftiness-of-the-Self’ and as reflected in any given registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance ‘specific bottomline—of-mere-mathesis/motif/throwness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self’ arises as of destructuring-transitoriness—as-of-deratiocination/deratiocontiguity, so-construed as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism induced deratiocination-or-deratiocontiguity; wherein as of flawed edginess/incisiveness—of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity, dialectical-dementing representation is wrongly singularised/immanent while dialectical-thinking representation is wrongly dissingularised/not-immanent. This actually points out why dialogical-inequivalence/intellectual-and-moral-inequivalence as of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-

While as of human-subpotency temporal epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag we may be inclined to construe of the notion of dialogical-equivalence as absolutely requisite, the fact is dialogical-equivalence cannot supersede existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness sublimating-validation/desublimating-invalidation implications where its eliciting is structurally/paradigmatically flawed for the simple reason that knowledge as of implied underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity is all about existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness and not about human sovereignty; in the sense that for instance gravity on earth as 9.8 m/s^2 doesn't heed to any human sovereignty exercise as of dialogue as the latter is only as pertinent as it structurally/paradigmatically implies an intermediative process for the deferred-outcome as of existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness but not otherwise, and as being subpotent with existence it is the human that has to ensure that its meaningfulness-and-teleology coincides with existential veracity, such that where dialogical-equivalence is wrongly implied and thus likely to undermine existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness what gives in is the false notion of dialogical-equivalence. This is equally reflected in the idea that the

Pseudo-edginess/pseudo-incisiveness as such exploits the natural and habitual human mental-reflex as of any given registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance to systemically imply and attribute dialogical-equivalence with regards to social-stake-contention-or-confliction as of 'apriorising-teleological-elevation-in-ontological-contiguity'. While this mental-reflex is usually valid in most circumstances, however, in the specific circumstances of pseudo-edginess/pseudo-incisiveness manifestation this is ontologically-flawed as the latter is in effect rather in 'apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>' invalidating any such pretence of dialogical-equivalence. Thus this rather undermines the natural and habitual human mental-reflex where it wrongly construes of the vocalisation/interjection/expletive intensification associated with such pseudo-edginess/pseudo-incisiveness as speaking of profound affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking that is beyond contention-as-certain. Thus inducing destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as of the pseudo-edginess/pseudo-incisiveness manifestation of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism instigated destructuring-transitoriness-as-of-deratiocination/deratiocontiguity rather in dialectical-dementing representation but now engaged in dialogical-equivalence of contention as if of dialectical-thinking representation. performance implications of human limited-mentation-capacity-deepening. It is this <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity construal of human meaningfulness-and-teleology ‘constrained-existentially-as-of-its supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’ that effectively validates the ‘epistemic-veracity of notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’; wherein the notion of ‘relative-ontological-incompleteness/relative-ontological-completeness of ontological-performance’ captures the entire possibilities of human meaningfulness-and-teleology ontological-performance, and as such a <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity construal reflects overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed-human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. It is this <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity construal that allows for intelligibility and renewing-intelligibility to arise in the first place as of relative-ontological-completeness. This ‘intelligibility and renewing-intelligibility’ arises from ‘<formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity conflatedness of construal-and-reconstrual of existential-contextualising-contiguity as of human limited-mentation-capacity-deepening maximalising-recomposuring-for-relative-ontological-completeness’, and not as ontologically-flawed atomising/taking-to-pieces constitutedness rather as of elaboration-as-mere-

extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. The validation of the epistemic-totalitative nature of existential meaningfulness-and-teleology as of ‘relative-ontological-incompleteness/relative-ontological-completeness of ontological-performance’ implications is much more directly obvious in the natural sciences which do not imply any inherent splitting/disparateness of intrinsic-reality but rather points to a <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity construal of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ in their knowledge foregrounding—entailment schemes. The underlying explanation for disparateness here is effectively construed as a question of the implications of ‘relative-ontological-incompleteness/relative-ontological-completeness of ontological-performance’ wherein varying ontologically-flawed superfluous, superstitious, mystical and cultic interpretations of the natural world epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality speaks rather of states of relative-ontological-incompleteness and the prospective possibility of ontologically-veridical grander unifying scientific explanation of the natural world epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality speaks rather of relative-ontological-completeness. Such <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity construal points out that disparateness of meaningfulness-and-teleology as often wrongly projected in many a social domain-of-study is not an inherently sovereign notion as to the fact that construal as of relative-ontological-incompleteness cannot be ‘qualified as sovereign and beyond the countenance of its ontological-veracity as from relative-ontological-completeness perspective’ given that all human meaningfulness-and-teleology are of supposedly coherent

ontological-commitment as so-reflected by its self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction'; such that while recognising the human-subpotency epistemic-veracity perspective of say a given social-setup attributing an ailment to say magic, this doesn't override the notion of inherent ontological-veridicality as of existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness epistemic/notional_projective-perspective wherein modern society in relative-ontological-completeness attributes the ailment to say flu. In order words, sovereign commitments, recognised as of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, do not override the pre-eminence of supposedly coherent ontological-commitment as of existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness epistemic/notional_projective-perspective, in which case no human transcendence-and-sublimity will be possible. Stated another way, if Einstein's or Bohr's seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn't annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as of existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness over the mortals that we as human beings are in order for transcendence-and-sublimity to be possible; and that reality with respect to knowledge doesn't speak of totalitarianism as will often be sophistically usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity construal equally points out that the-very-same-epistemic-

totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality or any epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality does not imply the structural/paradigmatic change of existence-as-of-existential-contextualising-contiguity but rather that change is the outcome of human limited-mentation-capacity-deepening maximalising-recomposuring-for-relative-ontological-completeness involving ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of prospective dialectical-thinking representation and prior dialectical-dementing representation; with the implication here that the issue of knowledge is all about developing human-subpotency towards existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. The conflatedness of existential-contextualising-contiguity in the natural sciences is often poorly perceived inherently because of their subject-matter/domain-of-study implicated nature of philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’; such that it is often wrongly construed in atomising/taking-to-pieces constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity but with little consequence since such an atomising/taking-to-pieces constitutedness is generally an ontologically-flawed afterthought reflection/contemplation whereas operantly beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought scientists generally adopt a conflatedness of existential-contextualising-contiguity posture. The reality of existential-contextualising-contiguity conflatedness here is validated by the fact that ‘abstract scientific notions are not the point of departure scientists contemplation’ as they are rather ‘delved in

existential-contextualising-contiguity in <formative>projective-totalitative-implications—
 imbued-epistemic-causality,-for-explicating-ontological-contiguity conflatedness to then
 reflect abstract scientific notions in existential-contextualising-contiguity knowledge-
 reification or depart from existential-contextualising-contiguity already reified abstract
 scientific notions to then reflect further abstract scientific notions in existential-
 contextualising-contiguity knowledge-reification’. For instance, we can appreciate that
 physics never establish any absolute atomising/taken-into-pieces notion of say atoms, space,
 time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-
 teleology/knowledge as physics knowledge-reification. Rather we can better appreciate the
 occurrence of existential-contextualising-contiguity knowledge-reification as of
 <formative>projective-totalitative-implications—imbued-epistemic-causality,-for-
 explicating-ontological-contiguity construal in the sense that our ordinary thought process
 itself is as of epistemic-totalising existential-contextualising-contiguity construal of notions
 like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces
 constitutedness even when we may harbour such a confusion, and likewise the development
 of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally epistemic-
 totalising as to the fact that these imply various ways of reconceptualising the notions of
 space, time, force, etc. as of the precedence of epistemic-totalising—renewing-realisation/re-
 perception/re-thought of existential-contextualising-contiguity of such notions like space,
 time, force, etc. in <formative>projective-totalitative-implications—imbued-epistemic-
 causality,-for-explicating-ontological-contiguity conflatedness to then articulate their
 abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn’t any
 absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are
 ‘constituted once-and-for-all to later on build/reify physics knowledge as of progressive
 constituting’ but rather physics knowledge is always epistemic-retotalising/re-holistic of ‘the

very same physics notions and their derived implications of new notions’ as of existential-contextualising-contiguity in conflatedness involving human limited-mentation-capacity-deepening hermeneutics in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness. We can appreciate that the atomising/taking-to-pieces disposition that is often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility nature of existential-contextualising-contiguity in epistemic conflatedness in their domains-of-study’ implies that their knowledge-reification should increasingly be explicitly holistic/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness, as even the natural sciences are implicitly epistemically holistic by the mere fact of the ‘precedence of existential-contextualising-contiguity in <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity in epistemic conflatedness to which their abstract notions are aligned’ as well as so-implied by their foregrounding—entailment orientations which drives their knowledge-reification gesturing for unification as to ontological-contiguity as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their axiomatic-construct ‘apriorising-teleological-thresholding—as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’) have a more inherently elaborate panintelligibility nature of existential-contextualising-contiguity supervening-conflatedness thus rendering its methodology more explicitly holistic and teleological even as it is often naively and wrongly construed as ‘a relatively weaker natural science’ from a naïve epistemic constitutedness perspective. This underlying epistemic-totalising existential-contextualising-contiguity insight reflects ecstatic-existence’s supervening-conflatedness as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—epistemic-

perspective-of-apriorising/axiomatising/referencing-conceptualisation; wherein inherently ‘more immediate epistemically constrained to ontological-primemovers-totalitative-framework’ domains-of-study like physics and the natural sciences generally are of a less elaborate existential-contextualising-contiguity conceptualisation nature in epistemic conflatedness and can thus be ontologically-falsely be perceived as being of atomising/taking-to-pieces epistemic constitutedness while inherently ‘less immediate epistemically constrained to ontological-primemovers-totalitative-framework’ domains-of-study like the social domains-of-study are more of an elaborate existential-contextualising-contiguity conceptualisation nature in epistemic conflatedness that speaks to the need for their appropriate holistic hermeneutic depth of ontological-construal, and in both cases in reflecting the implications of human limited-mentation-capacity-deepening hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness for construing their veridical historicity/ontological-eventfulness/ontological-aesthetic-tracing. In many ways the natural sciences by the immediate constraining of their ontological-primemovers-totalitative-framework implicitly avoid atomising/taking-to-pieces constitutedness but the misunderstanding that their knowledge-reification gesturing is effectively as of atomising/taking-to-pieces constitutedness in other domains-of-study ends up having naïve and distortive effects on such domains-of-study knowledge-reification and particularly so with regards to the development of their self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. This author contends that this poor self-conscious philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-

intuition-or-foresight-as-of-embodied-consciousness' is the structurally/paradigmatically defining issue of many of the social domains-of-study today, as in effect many such domains are turned into technicality as of institutional-being-and-craft imprimatur, 'fallback to unquestioned/dogmatic normativities' and 'habituated dispositions' which priorly enframed subject-matters and institutional-setups structurally/paradigmatically stifle the possibility for conceptualisation as of existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness sublimating-validation/desublimating-invalidating implications beyond their conventioning-referencing enframing, so-implied as of the perspective of notional-deprocrypticism prospective 'true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology'. Thus existence's overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation implies the 'primacy of a <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity basis for conception due to human epistemic-totalising—thrownness-in-existence' as 'existence doesn't wait for the human to incrementally have the complete picture' and thus it is 'the human subject who has to aspire maximalisingly to conform-as-of-its-self-consciousness-growth with existence in a <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity conception', and this further indicts our traditional conception of induction as being epistemically incremental wrongly construed as of incrementalism-in-relative-ontological-incompleteness that underlies dispositions for epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag because of 'failure to draw <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-

explicating-ontological-contiguity as of displacement/decentering-of-the-human-subject and wrongly construing presencing—absolutising-identitive-constitutedness situations as of absolute/absolutising grounding’, whereas in reality human epistemic-totalising—thrownness-in-existence rather points out that the epistemic-veracity of induction is rather as of ‘maximalising <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’ (which is rather as of epistemic-retotalising/re-holistic of meaningfulness-and-teleology as to epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness with regards to successive inductions) rightly construed as of maximalising-recomposuring-for-relative-ontological-completeness and ‘totalitatively involving human limited-mentation-capacity-deepening’ with displacement/decentering-of-the-human-subject; and such a misconstruing of the effective notion of induction speaks of ‘an ontologically-flawed modern positivistic academicism proceduralism reflex of incrementalism-in-relative-ontological-incompleteness’ that misses-out-on and ends up pruning-and-enframing the natural human <formative>projective-totalitative—implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity construal predisposition. The specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation, reflecting human underlying supposedly coherent ontological-commitment, is ultimately potentiated as of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’, as this drives epistemic-

ricochettingly/transepistemically the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ in developing successive reference-of-thought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation reflecting human successive self-consciousness/construction-of-the-Self that transcendently-and-sublimely transform human-reflexivity-in-ecstatic-existence so-construed as of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; wherein we can appreciate that the instigation of universalising-idealisation meaningfulness-and-teleology infrastructure or subsequent positivising/rational-empiricism meaningfulness-and-teleology infrastructure transform human potentiation construed as ‘human-subpotency convergence to existence’ with regards respectively to the specific base-institutionalisation or rational-empiricism/positivism self-consciousness/construction-of-the-Self implied as of the specific Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign

that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is structurally/paradigmatically

potentially conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance-including-virtue-as-ontology arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human epistemic-totalising—thrownness-in-existence the possibility for prospective human institutionalisation enabling transcendence-and-sublimity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance-including-virtue-as-ontology as of human epistemic-totalising—thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to

prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments as of ‘self-conscious drive’ cannot be qualified to be of natural determinism implications when unmasked. Panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence ‘speaking epistemically with respect to the overall phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> including human-subpotency epistemic-perspective’, inherently reflects the veridical-epistemic-determinism as of existence-potency-prospective-digression-of-epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness in the construal of any such phenomenal/manifest_subpotency-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> ‘apriorising-teleological-thresholding-as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’, with human-subpotency ‘apriorising-teleological-thresholding-as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’ effectively construable in reflecting the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. The overall implied notion of ‘intemporality-asymmetric-

subsumption-of-temporality’ as advanced here is one of supratransversality—apriorising/axiomatising/referencing over subtransversality—apriorising/axiomatising/referencing rather as of intellectual-and-moral-inequivalence/non-correspondence. Such a mental-disposition of substituting old reference-of-thought—categorical-imperatives/axioms/registry-teleology with new ones of prospective registry-worldview/dimension as implied by epistemic-totalising—renewing-realisation/re-perception/re-thought as of institutional moulting underlies the concept of ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness, in dealing with the fact that by reflex all registry-worldviews/dimensions are structured not to construe of their very own prospective transcendence, and thus relating to their reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation on an incrementalism-in-relative-ontological-incompleteness basis as ‘absolute by the mere form’ whether failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at the uninstitutionalised-threshold. The non-positivistic animistic or medieval social setup as of its incrementalism-in-relative-ontological-incompleteness disposition coming into grips with the positivistic interlocutor’s purpose will probably construe it as most contemptuous by its construal of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (whether as of its rulemaking-over-non-rules-⟨as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩ of base-institutionalisation/animism or as of its universalisation-directed-rulemaking-over-non-rules-⟨as ‘second-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument⟩ of

Likewise, this ontological-normalcy/postconvergence insight can equally be projected of our 'positivism–procrypticism registry-worldview's/dimension's reference-of-thought' from 'futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview's/dimension's reference-of-thought'; wherein deprocrypticism existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as of its 'deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as of preempting—disjointedness-as-of-reference-of-thought-as-lacking-in-epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity-as-to-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules is the virtuous-ontological resolution of the positivism–procrypticism registry-worldview's/dimension's reference-of-thought structural/paradigmatic vices-and-impediments, as it further contendingly implies a prospective decentering and dialectically-dementation reflection/perspectivation of positivism–procrypticism. We can imagine that futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup as ‘grandest living’ but rather the maximalising-recomposuring-for-relative-ontological-completeness ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic/notional_projective-perspective. There is nothing inherently wrong with

procrypticism (that is, paradoxically we shouldn't be existing today!), and which contradictorily as well, as 'biting the hand of such intemporal inventing', itself should not be transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview's/dimension's denaturing averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> so-construed prospectively are rather more pertinent) in order to 'invent' prospective deprocrypticism, rather reflecting intellectual absurdity; and speaking rather besides a natural weakness of human incapacity that can arise and do arise as a result of our limited-mentation-capacity rendering us unconscious/unaware/as-of-the-poorer-halves-of-ourselves which is fathomable/understandable, of a graver problem if that was to be the case even when we then 'understand', of intellectual and moral irresponsibility of failing/not-upholding-as-of-apriorising/axiomatising/referencing to do our own 'homework' with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness that enables human memetic-rescheduling (institutional-recomposure/psychoanalytic-unshackling) as from recurrent-utter-uninstitutionalisation to present day positivism–procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal essence of that 'inventing' it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory paradigm relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the <formative>wooden-

language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough 'reflecting' the uninstitutionalised-threshold, represented ontologically as decentered and dialectically-dementing), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft 'inventing'. But then transcendental constructs of meaning and meaningfulness going beyond the 'conventioning limits' of a given registry-worldview/dimension by definition are not actually perceived as 'most critical in value' going by 'intradimensional conventions' which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaning and meaningfulness, is an afterthought social recognition by the prospective registry-worldview's/dimension's reference-of-thought institutionalisation, not the social recognition of their own registry-worldview's/dimension's reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence as all knowledge is not about being responsive to the mortals that we are (including this author's mortality as anyone's else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating of an intersolipsistic nature. It is equally important to grasp that transcendence is the more profound origination of reference-of-

thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’ (whether as base-institutionalisation, universalisation, positivism or prospectively deprocrpticism knowledge), and the idea of neutral/equable knowledge is a ‘mental complex of institutional inherence’ arising from incrementalism-in-relative-ontological-incompleteness naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating and not social-aggregation-enabling, transcendence (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn’t involve contrariety, as it implies superseding the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) maximalising-recomposuring-for-relative-ontological-completeness epistemic-totalising–renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness mental-reflex. The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of

apriorising/axiomatising/referencing—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence, it will be naïve to imply that knowledge is neutral failing/not-upholding-as-of-apriorising/axiomatising/referencing to register that all knowledge is the outcome of transcendence as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologies (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is actually the argument of the prior transcendence of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn’t naturally factor in its very own relative-ontological-incompleteness-of-reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence implications for completing the reference-of-thought, and so not only

with regards to transcendence of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence for prospective registry-worldview's/dimension's reference-of-thought as so validated by ontological-normalcy/postconvergence. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought within the positivism–procrypticism registry-worldview/dimension ‘dynamic social construction of perceived social-stake-contention-or-confliction’. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced ‘lack of constraining social universal-transparency hence speaking of the positivism–procrypticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-worldview's/dimension's uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism–procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-

construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory paradigm. This is very much in sync with the reality that at a registry-worldview's/dimension's uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primemovers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or cross-generationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in deprocrypticism conflatedness and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-

positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness-of-reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation conflatedness directed to the bigger and subsuming issue of relative-ontological-incompleteness-of-reference-of-thought for inducing deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogisms. Conflatedness as such implies an utter shift as the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought now being construed as dementing-and-decentered-to-prior-institutionalisation’s-categorical-imperatives/axioms/registry-teleology as denaturing.] The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as perversion-of-reference-of-thought) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument systematically keeps on making wrong measurements-as-of-aposteriorising/logicising/deriving/intelligising/measuring-purpose (systematically flawed

meaningfulness) as its fundamental as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance defect (or intradimensional-defect, in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring-purpose (flaw logical-processing/act-execution-implication meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate logical-processing-or-logical-implication meaningfulness where the contextual-ambiguity-constraint(s) are resolved. In the bigger scheme of things (at the transcendental/transdimensional/interdimensional level) postlogism epistemic-decadence and its integration as perversion-and-derived-perversion-of-reference-of-thought of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation defines a registry-worldview's/dimension's uninstitutionalised-threshold; arising in 'socially-perceived-value as of social-stake-contention-or-confliction' situations. This is ontologically/intemporally represented or stranded-as-rightfully-oblongated/decandored postlogical mindsets in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts' as absolving/fleeting/escaping-reflex-logic (which are not ignored/overlooked but cored/stranded-as-rightfully-oblongated/decandored) wherein ontologically-speaking the psychopath's interlocutors had hitherto by new logical-processing-or-logical-implication as 'conviction/prelogical re-engaging reflex'

 candored/straightness rather than decandored/oblongatedness are recurrent-utter-
 uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively,
 procrypticism. The conscious or unconscious exercise of ‘subknowledging/mimicking the
 non-veridical hollow/empty form of the meaning of narratives’, whether by a psychopath or a
 temporally-inclined mental-disposition pedestal, in view of getting interlocutors to wrongly
 align prelogically/in-conviction/prelogically and perceive the non-veridical hollow
 mimicking form of the meaning of narratives as veridical/true/real is known as perversion-of-
 reference-of-thought, requiring ontologically, at the ‘uninstitutionalised-threshold’,
 ‘distractive-alignment-to-reference-of-thought which is decandored/oblongated, non-

apriorising/axiomatising/referencing (contrasted to prelogism which is candored, straightness, conviction, dialectically-or-contendingly-in-phase and logically-congruent). From an intemporal/ontologising perspective i.e., aetiological understanding of the abstract human animal, perversion-of-reference-of-thought rather calls to engage with the unsoundness-or-inauthenticity-of-reference-of-thought/apriorising–registry of the postlogical mindset/reference-of-thought as transversality-of-disambiguated-apriorising/axiomatising/referencing and not operating/processing logic based on the articulated perversion-of-reference-of-thought, so as to ‘invalidate the projected false apriorising–registry’s implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology, and consequently to articulate a manifestation of mental-slantedness/decandoring/‘distractive-alignment-to-reference-of-thought’/mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/distractive-temporal-priorisation (and not soundness-or-authenticity-of-reference-of-thought/candoring/prelogism/organic-comprehension-thinking) of the mind’s mental perversion/defect; and so, as an abject and mentally dialectically-or-contendingly-out-of-phase – as-the-temporal-mind-pedestals-are-dialectically-out-of-phase/dialectically-primitive – from ‘an ordered construct from the intemporal as ontological mindset’. Since the state of exhibiting a demonstrated perversion-of-reference-of-thought annuls temporal-dispositions’ implied logical-dueness/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology as ‘logically contending’; from a pure ontological-veridicality perspective, more like a medieval mind with a superstitious registry-worldview reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation doesn’t has the implied-profile-or-

implied-stature and the implied-presumptuousness-or-implied-arrogation to logically contend about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring positivistic mental-disposition). This technique of mentally grasping the psychopath and other postlogical minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogical mental-dispositions which mental-alignment are rather non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented with respect to meaning).

Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism-as-of-conviction mind to wrongly elevate psychopathic meaningfulness as of ‘existential-contextualising-contiguity’ rather than reflect the reality of its ‘formulaic meaning’ which is ‘meaning-by-the-mere-illogical-possibility-of-it-being-narrated’. So when we talk about psychopathy we are talking about perversion-of-reference-of-thought rather than logical defect (defect of logical operation/processing/contention). This distinction is critical. Why? Basically, meaning is what defines/predicates value, thought and action. Meaning has two elementary aspects: reference-of-thought or axioms or categorical-imperatives (reflected-as-soundness-or-authenticity-of-reference-of-thought, by the prospective relative-ontological-completeness-of-reference-of-thought and logic (logical-operation/processing/contention/implication-of-act-execution, and so, ‘fundamentally and

validatorily' on the basis of sound reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation in the very first instance). Meaning and meaningfulness is thus
 essentially about the 'operation of reference-of-thought as-of-its-veracity/ontological-
 pertinence as-soundness-or-authenticity-of-reference-of-thought', with logic/logical-
 processing basically about the operation of reference-of-thought as rules as of ontological-
 coherence/superseding–oneness-of-ontology validated as of established ontological-
 veridicality/intrinsic-reality/existential-reality. [Otherwise stated, meaning has 'reference-of-
 thought' reflecting its being/ontological/existential veridicality, and logic as an operation of

 meaningfulness and knowledge, the relatively ontologically-complete-reference-of-thought

reference/teleology as being ‘existentially’ established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality.] Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-authenticity-of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-authenticity-of-reference-of-thought in the first place) so ‘we don’t tend to question the being/ontological/existential veridicality of reference-of-thought-(reflected-as-soundness-or-authenticity-of-reference-of-thought)’. But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the ‘deliriousness/delirious-effect/cinglé-effect’ of the implied-reference-of-thought/implied-registry and its elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology is rather obvious and we don’t normally process/operate logically the childhood psychopathy’s non-veridical hollow mimicking narratives since ‘we just invalidate those apriorising–registry-elements to start with as not of being/ontological/existential veridicality’. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘existential-contextualising-contiguity sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness as of its unsound-reference-of-thought/unsoundness-or-inauthenticity-of-reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-

inauthenticity-of-reference-of-thought by way of distractive-alignment-to-reference-of-thought and then reflect the reference-of-thought or registry-teleology of John as perversion-of-reference-of-thought or mental-perversion in terms-as-of-axiomatic-construct of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect of logical-processing-or-logical-implication or defect of incidenting-as-social-performance of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance, but rather as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’)

by the denaturing of the reference-of-thought or the soundness-or-authenticity-of-reference-of-thought of meaning over which denaturing he tries to get interlocutors to operate/process logic; and ‘is not even contending and that he is the subject of prelogism-as-of-conviction contention about his perversion-of-reference-of-thought/mental-perversion/unsoundness-or-inauthenticity-of-reference-of-thought’. The above is the fundamental nature of psychopathy and ‘it should not be lost even more critically at the adulthood stage and the corollary of social psychopathy’ as increasingly prelogism-as-of-conviction minds will tend to align to adult psychopaths and other postlogical teleological mindsets wrongfully as prelogical/conviction/candored/straightened/prelogism instead of rightfully keeping a decandored/oblongated/distractive-alignment-to-reference-of-thought

The underlying fact about meaning is that the apriorising–registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising–registry (reference-of-thought) apply? I.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-imperatives/axioms/registry-teleology which are: implied-logical-dueness-or-implied-scape (the implied-logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-inauthenticity-of-reference-of-thought, i.e., slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-dementing-of-narratives! So with the psychopath, you don’t watch the

logic, you watch out for the reference-of-thought/apriorising–registry for mental-perversion or the psychopath’s unsoundness-or-inauthenticity-of-reference-of-thought! Not only that, it is important to note that this unsoundness-or-inauthenticity-of-reference-of-thought as perversion-of-reference-of-thought do protract and an ignorant prelogism-as-of-conviction mind acting prelogically (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) on such postlogism-as-of-non-conviction non-veridical hollow mimicking narratives is ‘technically psychopathic as well’ as they are in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex to the psychopath’s ‘denaturing postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ as non-veridical and dialectically/contendingly out-of-phase. This is known as conjugated-postlogism/dementing-integration (whether conjugated to in ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation), which is to be construed as ‘distractive-alignment-to-reference-of-thought and once it is induced by ignorance it leads to an undermining of ‘deductive social universal-transparency which protects the internal-coherence of meaning as of soundness-or-authenticity-of-reference-of-thought and corresponding virtue’ and so by way of ‘induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ at ‘uninstitutionalised-threshold’ of registry-worldviews, with subsequent conjugating ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-

negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, the conjugated-postlogism/dementing-integration is derived from the psychopath's initiated postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and goes on to lead to social psychopathy; more like a dumb-and-dumb/miscuing degeneration effect. It should be noted that both psychopathic postlogism and conjugated-postlogism cases of unsoundness-or-inauthenticity-of-reference-of-thought (as slanted and cohering-slanted, respectively), by their 'least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold', involve 'disjointedness-as-of-reference-of-thought' misappropriated meaningfulness in arrogation by the fact that taken singularly from the same interlocutor in different circumstances, each (hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) narrative is apparently coherent but 'construed together as of the retracing of set-of-narratives' these reveal 'unsoundness-or-inauthenticity-of-reference-of-thought as dementing'. It is rather their respective 'retracing of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of set-of-narratives together' that reveals 'postlogical slanting unsoundness-or-inauthenticity-of-reference-of-thought perversion-of-reference-of-thought' and 'conjugated-postlogism cohering-slanted unsoundness-or-inauthenticity-of-reference-of-thought derived-perversion-of-reference-of-thought (dementing-integration)'; as in successive postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts' and corresponding conjugated-postlogical conjoining of the iterating narratives, the succeeding changing/decentering/non-cohering foci (thus revealing the 'deliriousness/delirious-effect/cinglé-effect' as unsoundness-or-inauthenticity-of-reference-of-thought inducing the dementing which is

particularly obvious at childhood psychopathy but its perception easily gets lost at adult psychopathy with psychopath increasing maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction) are constantly modified with circumstantial hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation by ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’; and so in order to wrongly imply the apriorising—reference-of-thought-elements/apriorising—registry-elements as the foundation for its faulty-mentation-procedure-deception-or-urge. However, the natural level of human interlocution engagement ‘is not the enlightenment of the retracing of an interlocutor’s sets-of-narratives’ (as this could vary anywhere from say a few days or weeks to years of conviction engagement, for such an insight to arise), but rather as of ‘specific singular circumstantial narrative of interlocution without a comprehensive existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context projection’ by which interlocutors deduce circumstantially. Thus the postlogical-and-conjugated-postlogical habit of producing sets-of-narratives (which collective retracing reveals their unsoundness-or-inauthenticity-of-reference-of-thought and perversion-and-derived-perversion-of-reference-of-thought from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context insight, but singularly out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context are apparently of soundness-or-authenticity-of-reference-of-thought) come to be endemised and enculturated socially, as of -‘least-and-derived-temporal-

operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold'. Further, this 'natural level of human interlocution engagement is a perpetuation' explaining why the conjugated-postlogism mental-disposition is one of 'slanted-cohering/conjoining' as it rather re-rationalises the latest iterated narrative as an elucidation rather than a further dementing of adult psychopath/postlogism (as obvious with the child psychopathy 'delirium effect' as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology, create a new foundation for further dementing when wrongly eliciting in an interlocutor logical-processing-or-logical-implication issue, such that one salient manifestation of conjugated-postlogism arises with many of such an interlocutor vaguely articulating propositions based on such falsely 'apriorising-reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)'. The idea that the 'natural level of human interlocution engagement is a perpetuation' can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism reference-of-thought terms when invalidated positivistic terms doesn't imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), as their reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability, and in the big picture in all likelihood can only be 'weaned from' cross-generationally as of psychoanalytic-unshackling/memetic-

reordering/institutional-recomposure. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold-(as-procrypticism)’, thus equally implying a epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circularity/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold or procrypticism/disjointedness-as-of-reference-of-thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’. That revealing unsoundness-or-inauthenticity-of-reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) mental-disposition to resolve the equation of the traditional arithmetic principles as reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without factoring that such reference-of-thought–categorical-imperatives/axioms/registry-teleology are only as pertinent (not by habit

or tradition or expediency) but as of when they are truly for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or ontological-normalcy to then articulate the necessary ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ over naïve elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity (as of <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology) that is only pertinent when it is of the existential existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality. It is important thus to know that since the defect of psychopathy and its derivation as social psychopathy has nothing to do with logical-processing but everything to do with perversion-of-reference-of-thought/perversion-of-axiomatic-construct and the false ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ which are implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology, it is simply maximalising-recomposuring-for-relative-ontological-completeness that is ontologically called for to invalidate the psychopathic ‘implied falsehood’ by invalidating the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity’s-

reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology, and not involve in any elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity which will ‘hollow-constitute’ and falsely validate the deceptive foundation of ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity)’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. This is most apparent with childhood psychopathy as with the dereifying example of spilling water on a chair where it is directly obvious there is no elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity to be had/entertained nor any logical analysis but rather maximalising-recomposuring-for-relative-ontological-completeness invalidating that the implied-logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentation-procedure-deception-or-urge of the ‘apriorising–reference-of-thought-

elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’.

This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING or impulsive-dementing is actually about ‘denaturing postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic basis for the psychopath to be slanted/‘cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnante)’ as opposed to a logical motivation of a conviction or prelogical mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism-as-of-conviction logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-narrated) over the previous narrative, and so in ‘denaturing postlogical-backtracking devoided-of-conviction-or-prelogism-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his

house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogical-backtracking devoided-of-conviction-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-thought or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implication on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogical-mindset is to be seen as being conviction/prelogical even if it is a perception of bad-conviction since that will validate the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ on the basis that it was the logical-processing-or-logical-implication that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising–registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implication by ‘prelogism-as-of-conviction re-engaging reflex’ wrongly turning the issue

into one of logical-processing-or-logical-implication instead of construing a perversion-of-reference-of-thought ‘dementing/unsoundness-or-inauthenticity-of-reference-of-thought manifestation’). The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogical-backtracking devoided-of-conviction-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction to or prelogism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘perverted-outcome-sought-precedes-existentially-veridical-logical-ness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical-logical-ness-precedes-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (which is an unusual and rare social experience given that a psychopathic personality and postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation are an outlier phenomenon) with one set-of-interlocutors will

involve either a temporal commitment to the postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (due to the ‘lack of constraining social universal-transparency as inducing vices-and-impediments which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation from some interlocutors with no more commitment given the inconsistency of the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic, in time speaking to the fundamental mental denaturing involved in postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, and so for the shallowness of the postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation the extrinsic-attribution inclination is in constant need for new sets-of-interlocutors. The mental process that takes place in the ignorant prelogism-as-of-conviction mind is a prelogic/existential-contextualising-contiguity /conviction alignment (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) to the psychopath’s (meaning-by-the-mere-illogical-possibility-of-it-being-narrated) postlogism-formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented projection (distractive-alignment-to-reference-of-thought) such that the former’s mind is rather in a hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation ‘conjoining looping narratives (of flawed-existential-elevation-of-reference-of-thought and developing a conviction or prelogism out of them), to

the psychopath's 'denaturing postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'-with-'successive-shifting-of-the-narratives-and-acts-foci'-construed-as-'deception-of-successively-shifting-or-noncohering-narratives-and-acts'towards 'social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating' as non-veridical and dialectically/contendingly out-of-phase. But again, this is just when the temporal prelogical/prelogism-as-of-conviction mind is ignorant of the slanted mental state of the psychopath.

The general and complete operative psychopath perversion-of-reference-of-thought mechanism (it isn't necessarily completed in all manifestations as is rather a 'mental roaming/drifting-cycle disposition known as postlogism-retreating' that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted 'out of context' unfavourably with non-veridical hollow mimicking narratives about the psychopath's 'socially-perceived-value as of social-stake-contention-or-confliction target' (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; 'consternation' wherein narratives with a 'sense of dismay' are induced on the interlocutor about the psychopath's social-stake-contention-or-confliction target, 'revulsion' wherein narratives with a 'sense of repugnance' are induced on the interlocutor about the target, 'certainty' wherein narratives with a 'false sense of undoubtedness' are projected about the target on the interlocutor, and finally 'a sense of passive or suggestive alienation' towards the psychopath's target is projected upon the interlocutor to 'subconsciously induce a sense of alienation from the

target'. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity perversion-of-reference-of-thought thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding 'temporal-dispositions miscuing' which is 'misconstrued as intrinsic ontological depth-of-conviction'.

The underlying reason for the entirety of this mental process in the psychopath has to do with its 'formulaic formulaic perception of meaning' (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging faulty-mentation-procedure-deception/meaning-by-the-mere-illogical-possibility-of-it-being-narrated) which poorly perceives 'conviction contentions' not in the 'essence/conviction sense' but rather as 'formulaic formulaic mental alienation schemes' wherein perverted-outcome-sought-precedes-existentially-veridical-logical-dueness (in order words the developmental psychology of the psychopath is actually to perceive conviction meaning as formulaic-schemes/meaning-by-the-mere-illogical-possibility-of-it-being-narrated, to which it responds in kind), and so is in transversality-of-disambiguated-apriorising/axiomatising/referencing to prelogism-as-of-conviction, and strives to 'square off [as perversion-of-reference-of-thought at uninstitutionalised-threshold involving organic-comprehension-thinking ('intemporal-prioritisation-of-reference-of-thought'-as-conflatedness) being circumvented/distracted by mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in an epistememic-totalising-self-referencing-syncretising; and so, in transversality-of-disambiguated-apriorising/axiomatising/referencing along 3-pedestals

(psychopath's slantedness/impulsive-dementation transversality-of-disambiguated-apriorising/axiomatising/referencing pedestal, temporal-dispositions transversality-of-disambiguated-apriorising/axiomatising/referencing pedestals, and the intemporal-disposition transversality-of-disambiguated-apriorising/axiomatising/referencing pedestal in their ontological-escalation/aetiologisation), enabling the stranding-dialectics, and not epistemic-totalising—self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase, of mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as being distractive to organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology)]' to ultimately prevent its own 'perceived social alienation' by inducing the alienation of its 'perceived social-stake-contention-or-confliction target' over a social-stake-contention-or-confliction paradigm. Critically, it should be understood that passive or suggestive alienation is actually the summum of the possibilities of the psychopath's meaningful finality that starts from prevaluation (neutral narrations).

It should be noted that the mental state of the psychopath's interlocutor as 'ignorance-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing' is not really ontologically-speaking a prelogical/conviction mental state but rather technically a 'miscuing/dialectically-or-contendingly-out-of-phase postlogical mental state'. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as 'committed-by-temporality/interest over intrinsic-veridicality' whether in the form of

affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation.

It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding perversion-of-reference-of-thought or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of procrypticism/disjointedness-as-of-reference-of-thought registry-worldview/dimension perversion-of-reference-of-thought of both the psychopath and its interlocutors (even when the interlocutor is at best ignorant of the underlying psychopathic state), requiring ‘distractive-alignment-to-reference-of-thought at ‘uninstitutionalised-threshold’ initiated by the psychopath’s postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, and resolved suprastructurally by a deprocryptic mindset/reference-of-thought making reference to superseding deprocryptic reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (just like an accusation of witchcraft in medieval society is not veridically/ontologically a ‘contention’ but rather a ‘protracted manifestation’ of non-positivism/medieval registry-

worldview/dimension perversion-of-reference-of-thought by the dynamism of non-positivism/medieval mindset, resolved/structurally-rendered-inoperant suprastructurally by a positivistic mindset/reference-of-thought making reference to superseding positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology). It should be noted that suprastructuring implies reflection about an abject and mentally dialectically-or-contendingly-out-of-phase [non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing/not-veridical-thinking-reference-rather-dementing-reference as-the-temporal-dispositions-are-dialectically-out-of-phase/dialectically-primitive as suprastructurally reflected by an ‘ordered construct from the intemporal/ontologising disposition’ (since the state of exhibiting/demonstrating perversion-of-reference-of-thought will annul temporal-dispositions pedestals/statures/presumptuousness as dialectical-thinking/‘logically contending’, more like a medieval mind with a superstitious registry-worldview doesn’t has the stature/presumptuousness to ‘logically contend’ about the ontological veridicality of an accusation of witchcraft with a suprastructuring positivistic mind, as the former makes syncretic/circular references to non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology in its supposed articulation of logic).]

Paradoxically, the normal prelogism-as-of-conviction mind is so attached by conviction-reflex/prelogical-reflex-admittance-reflex/in-phase-reflex to the notion of the essence of conviction meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism-as-of-conviction in their apriorising–registry, and so because psychopathy is a relatively outlier phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental

energy’ to be verifying in detail the apriorising–registry – implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology – of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by extension all postlogisms//outcome-sought-precedes-logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlier phenomenon and hence not usually integrated in many an individual’s conceptualisation of social relations and phenomena. That’s why the manifestation of bad conviction, contrasted to the psychopath’s non-conviction-or-‘existential-decontextualised-transposition’-or-impulsively-dementing, is ad hoc, circumspect and highly contextualised since the prelogism-as-of-conviction mind even when acting temporally/badly has a hard time escaping from conviction or prelogism (it has qualms/conscience) while the psychopath’s non-conviction-or-‘existential-decontextualised-transposition’-or-impulsively-dementing is comprehensive since the psychopath naturally doesn’t attach any ‘emotional involvement’ and qualms to the meaning of the narratives it articulates (it views them just as non-veridical hollow mimicking form narratives that determine its interlocutors prelogism-as-of-conviction dispositions and actions). In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-narrated which ‘subknowledging/mimics’ the fundamental elements of ‘conviction deductive meaning’ such that the (adult) psychopath’s non-veridical hollow mimicking narratives come across

paradoxically as highly credulous. Basically the relevant question for the psychopath is: ‘how was the hollow mimicking form that can be grasped in a prelogism-as-of-conviction mind deterministic of other prelogism-as-of-conviction minds behaviours, and how can I then mimic-and-project this hollow mimicking form to determine how others minds will act. These parallel formulaic-projection/extrinsic-attribution induced-meaningfulness elements (meaning-by-the-mere-illogical-possibility-of-it-being-narrated) with their corresponding prelogism-as-of-conviction/intrinsic-attribution veridical-meaningfulness elements (which are subknownledged/mimicked) involve: ‘toning-triggering/snappings-of-impression/tenseness-of-interlocutory-engagement-(easily copied with conjugated-postlogism at an intuitive-level)’ as subknowledging ‘prelogism-as-of-conviction toning/mannerisms’; ‘hollow mimicking presumptuousness/arrogation/usurpation’ as subknowledging ‘prelogism-as-of-conviction suppositions’; ‘folie-raisonnante/non-veridical assumptions’ as subknowledging ‘veridical assumptions’; ‘absolving/fleeting/escaping-reflex-logic’ as subknowledging ‘prelogism-as-of-conviction logical operation narratives’; inductive/contextual limitation as subknowledging ‘principles/projected-logic’; structured-manipulation/deception-or-mimicking-or-gotcha-logic as subknowledging ‘value referencing/applicative-logic’; ‘taking-out-of-context/offsetting logic’ as subknowledging ‘veridical contexts logic’, and ‘extrinsic-attribution acts with respect to conventioning/social-temporal-thresholding contexts on the basis that acts by the psychopath to elicit the temporal-self-interest of its interlocutors will override intrinsic right or wrong; whether such actions include praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.’ as subknowledging ‘intrinsic-attribution of acts as inherently right or wrong’. On the above basis, the psychopath’s relation to ‘deductive meaning’ is actually reverting to ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging as non-conviction/postlogical-backtracking—iterative-looping-‘set-of-

dereifying-hollow-narratives-and-acts’ deductions’ as ‘revert deduction’ whereas ‘conviction deductions’ emphasise the intrinsic attributive essence of deductions with corresponding latent forms of prosody, psychopathic vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging ‘revert or non-conviction/postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ deductions’ imply the psychopath overemphasises in a consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction; thus naturally the psychopathic mindset/reference-of-thought has an unusually large repertoire of ‘sense of meaningfulness associated with empty forms of prosody’ since it artificially perceives them as more critical than the conviction mind’s intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging), and can be an advanced insight of a ‘psychopathic/postlogical and social

psychopathic/conjugated-postlogism situation', construable with an appropriate maximalising-recomposuring-for-relative-ontological-completeness. This mirrors the operant case highlighted further below, wherein the implied meaningfulness (of postlogical/psychopathic, conjugated-postlogism/dementing-integration and conviction mental-dispositions) is existentially-traced as of the circularity/recurrence/repetition/repeatability as of 'existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding-oneness-of-ontology' to establish ontological-veridicality, and not simply operating on the 'naïve supposition of universal human prelogism-as-of-conviction' without factoring the non-conviction/postlogical-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing mental-disposition of the postlogical/psychopathic and conjugated-postlogism/dementing-integration mindsets/reference-of-thought.

It is important to note that the psychopath's targeting is highly evolutive throughout its life (along human personality development stages) as 'socially-perceived-value as of social-stake-contention-or-confliction' with others arise and 'the possibility of going undetected' permits. The psychopath being 'out-of-phase' is pushed by a faulty-mentation-procedure-deception/urge/folie raisonnée, and the idea of psychopath's having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism-as-of-conviction mental-alignment or in-phasing or prelogism to the last narrative(s) of the psychopath and rationalising prelogically/by-essence/candor all its previous 'denaturing postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'-with-'successive-shifting-of-the-narratives-and-acts-foci'-construed-as-'deception-of-successively-shifting-or-noncohering-narratives-and-acts' towards 'social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-

enabling/sublimating’ as non-veridical and dialectically/contendingly out-of-phase’ over ‘the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ instead of mentally aligning postlogically/by-form/slantedness/distractive-alignment-to-reference-of-thought before reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) a protracted unsoundness-or-inauthenticity-of-reference-of-thought/insanity). In fact, the psychopath’s faulty-mentation-procedure-deception-or-urge occurs because of overthinking (elevating its perverted registry/mimicking-subknowledging to wrongly contend with it) rather than underthinking downgrading the perversion-of-reference-of-thought-⟨reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought and not contending with it⟩, just as is naturally done with a ‘childhood cinglé’ who is not yet surreptitious and the delirium is rather obvious. Actually, instead of being ‘deliberate of thought’/‘conviction logical motive’, the psychopath ‘impulsively learns’ as of its non-conviction/postlogical faulty-mentation-procedure-deception-or-urge from the successive experiences of its failing/not-upholding-as-of-apriorising/axiomatising/referencing childhood postlogism-slantedness as it grows into an adult by learning first to be socially-functional-and-accordant while being matured, indirect, spatialising, credulous and crafty about its postlogism-slantedness so that it starts becoming effective in inducing conviction minds to align in-conviction to its non-conviction/hollow narratives. Thus, social universal-transparency’ of its slanted/postlogical narratives mental-disposition at childhood ‘gets lost’ socially at adulthood to many a conviction mind just getting acquainted but this is basically the same hollow-formulaic structure. This social loss-of-awareness of the social universal-transparency as being postlogism-formulaic-non-conviction further elicits a ‘sense of temporality’ as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in many an acquainted or non-acquainted (ignorance) conviction minds to the psychopathic postlogism-

formulaic-non-conviction-or-hollow-staging-and-performance-caricaturing-of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-existential-
decontextualising-transposition/dementing narratives as if it was truly
‘thinking’/prelogical/conviction/about-effective-reality thus inducing the phenomenon of
social-psychopathy. Thus, a non-ignorant temporal pedestal mindset/reference-of-thought
whether affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
negative-social-aggregation/temporal-enculturation-or-temporal-endemisation may find it in
their temporal-self-interest to cynically elevate the psychopath’s postlogism-as-of-non-
conviction/slantedness/hollow-staging-and-performance-caricaturing-of-
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-mimicking-
or-subknowledging, when this is not socially universally transparent (at uninstitutionalised-
threshold). Further, the element of the need to be socially-functional-and-accordant first,
implies that psychopathy is ‘more than just the drive of a pathological individual’ but
inevitably psychopathy and correspondingly social psychopathy involves a ‘social split-
dynamism’ wherein the ‘unordinary eliciting’ of temporal interest among some as extrinsic-
attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards,
etc.) is the basis for the targeting of another or others, further compounded by the fact that
while so-called ‘rules of sound logic’ abstractly permeate more or less effectively most of our
formal setups, their sociological pertinence is actually far from established, but for the fact
that broad and large general education diminishes social egregiousness in this respect, as
specifically ‘reasoning by significant others’ is actually the more common mental-disposition
in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-
incompleteness-to-meaningfulness-and-teleology) including the ‘informal spaces’ of formal
setups, with the result that this is a further factor that makes psychopathy poorly graspable as
simply of individual denaturing dynamics rather than of social denaturing dynamics, thus

better construed phenomenally as social psychopathy; as logic will often tend to be ‘rationalised in social rather than abstract terms’ depending on level of individuals intuition about the underlying dynamism of the postlogism-as-of-non-conviction mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors).

Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath’s childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social universal-transparency-but-rather-select-transparency-to-some about the nature of the psychopath’s veridical mental state) when the ‘temporal prelogism-as-of-conviction interlocutor’, by the mechanism of ‘induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ at the point of lack of social universal-transparency about the psychopathic postlogism/slantedness non-conviction in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (and wherein there is no transparency about temporal-to-intemporal-dispositions disambiguation/unequivalences/alienative-hierarchisation), becomes ‘affordable’ (as it doesn’t think it has got anything to lose personally), ‘negatively opportunistic’ (as it occasionally finds a temporal-self-interest in backing the psychopath, even though it knows better), ‘negatively exacerbatory’ (as it gains some insight in the psychopath’s mental process and actually strives to copy it adhocly, as a successful way of going about one’s temporal-

self-interest). There is equally a social dynamism aspect wherein the issue of ‘social allegiance, affordability and initial prelogism-as-of-conviction alignment to psychopath-and/or-the-protracted-postlogism’ comes to override the issue of ‘intrinsic rightness’ leading to what is known as ‘social-chainism or negative-social-aggregation or social-discomfiture’ which in turn (because individuals find ‘apparent social success and conventioning/social-temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of social psychopathy’. The underlying mental-disposition of the psychopath as postlogical and the temporal prelogical/conviction minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution). Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticismor emanant-wrong/demented-shades-of-the-real-set-of-narratives, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’.

At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding-as-of-apriorising/axiomatising/referencing slanted mental process as it faces the negating social

reaction of its immediate family environment and the grander society with respect to its slanting/impulsive-dementing. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘perverted-outcome-sought-precedes-existentially-veridical-logical-duedness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge for postlogical slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge for postlogical slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogical slantedness is relayed to apparently sound conviction interlocutors, and so along five factors:

- MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-inauthenticity-of-reference-of-thought/slantedness become harder to perceive);
- INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner);
- SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking

narratives and comparing with the effective social reality context to establish whether the narratives are sound);

- CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine conviction narratives’ and at an even deeper level mimicking ‘profound conviction mindsets on issues’ the psychopath has witnessed or has experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its slanting/impulsive-dementing in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the slanting/impulsive-dementing, etc. since it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding-as-of-apriorising/axiomatising/referencing is an experiential basis that ultimately skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) it into more strategic postlogical slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation or dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness or ‘uninstitutionalised-threshold’) of many an interlocutor;

- CRAFTINESS (with increasingly greater crude-to-polished apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing):

Actually when it comes to social-and-confliction-stakes, the psychopath being postlogism-as-of-non-conviction construes meaningfulness as a hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation construct driven as an apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing exercise (with respect to same-terms-of-expressions/seemingly-same-implied-meaningfulness with regards to ordinary meaning) as determining of others/conviction interlocutors behaviours and mental-dispositions; this is rather crude with the childhood-psychopath/cinglé such that it fails to elicit conviction in others as the postlogical-effect is rather ‘delirious’ then (as in the case of wetting a chair) but the postlogism at adulthood psychopathy becomes rather polished/less-crude in its effect ‘with maturation/indirectness/spatialisation/credulity’ to the point then of eliciting a prelogical/conviction mental-disposition as conjugated-postlogism/dementing-integration (conjugated-ignorance, conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-chainism and conjugated-temporal-enculturation) which is hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation with respect to the meaningfulness of reference-of-thought—categorical-imperatives/axioms/registry-teleology from the apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. The psychopath perceives instances of rebuttal of its postlogism not essentially in terms-as-of-axiomatic-construct of the rightness or wrongness of the postlogical acts as a conviction/prelogical mental-disposition will but rather in terms-as-of-axiomatic-construct of not delivering well and failing/not-upholding-as-of-apriorising/axiomatising/referencing in its apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing of the postlogical narratives with the idea of how to further confound/muddle hence the reason it is

recursive (postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’) as absolving/fleeting/escaping-reflex-logic to the point of faking remorsefulness or being a victim as long as fundamentally it ‘succeeds in placing its interlocutor in a prelogism-as-of-conviction relation to its non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism mental-disposition’ in order for the former to conjoin to its postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’). So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogical narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated.

But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to

resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex-logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, which is what validates logical-processing-or-logical-implication as a process reflecting existential-reality as of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), in the formation of a basic and normal conviction/prelogical (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) mindset/reference-of-thought’ inducing rather a non-conviction/postlogical mindset/reference-of-thought as it relates to meaning and meaningfulness as a faulty-mentation-procedure-deception-or-urge relative to social-stake-contention-or-confliction’ (explaining its absolving/fleeting/escaping-reflex-logic mental-disposition); rather than as of the ‘requisite existentially veridical logical-dueness (of apriorising–reference-of-thought-elements/apriorising–registry-elements) and logical-

processing-soundness driven construct' associated with a conviction/prelogical mindset/reference-of-thought. And this fundamental faulty-mentation-procedure-deception-or-urge relative to social-stake-contention-or-confliction of its non-conviction/prelogical mindset/reference-of-thought then goes on to account for the developmental psychology of the psychopath from childhood to adulthood wherein it gains maturation/indirectness/spatialisation/credulity/craftiness in circumventing its postlogism failing/not-upholding-as-of-apriorising/axiomatising/referencing experiences at childhood and early adolescence to achieve the registry-worldview's/dimension's—reference-of-thought-for-social-functioning-and-accordance at adulthood. The paradox being that the conviction/prelogical mindset/reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter's deliriousness/delirious-effect/cinglé-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as conviction/prelogical with respect to meaning and meaningfulness as of 'requisite existentially veridical logical-dueness (of apriorising—reference-of-thought-elements/apriorising—registry-elements) and logical-processing-soundness driven construct'. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while conviction, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency of our acts at 'uninstitutionalised-threshold' thus there is not 'intemporal social universal-transparency of temporal-to-intemporal-dispositions disambiguation/unequivalences/alienative-hierarchisation,' thus creating an 'induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-

fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ derived from the psychopath’s initiated postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation). That is, abstractly, with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ humans do solipsistically/emanantly/becomingly suffer perpetually, at ‘uninstitutionalised-threshold’, from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the ‘extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)’, then ‘a induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ will elicit the ‘mediocrity/averageness of mind’. This is strongly the case with psychopathy which when ‘successful’ (and not perceived deliriously but rather wrongly integrated prelogically/in-conviction) will often perfectly elicit an ‘induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality dynamism’ in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as ‘social psychopathy’ as a result of the psychopath’s initiated postlogism in hollow-

constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (involving protracted/derived slantedness), in the absence of social universal-transparency on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (at the point of such lack of social universal-transparency of its postlogism-slantedness to many a conviction interlocutor as the ‘uninstitutionalised-threshold’).

Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of-meaningfulness-and-teleology) or temporal (shortness-of-register-of-meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging/mimicking, by virtue of its ontological-primemovers-totalitative-framework and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence/civilisation, in an intemporal-preservation-entropy-or-contiguity—or—ontological-preservation exercise, from an recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-

entropy-or-contiguity—or—ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge-⟨dementing-as-if-of-sound-knowledge⟩/pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the future institutionalisation/intemporalisation this author qualifies as deprocrypticism (preempting procrypticism, so construed by ‘deprocrypticism ontologically-perspectival-elevated/pedestaling-as-dialectical-thinking-teleological-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought (as prior intemporal reference-of-thought—categorical-imperatives/axioms/registry-teleology) of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of the reference-of-thought—categorical-imperatives/axioms/registry-teleology behind an institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity—or—ontological-preservation re-institutionalisation of prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology). To grasp this better say for instance the normal arithmetic we know $2+2=4$, $5+1=6$, $7-3=4$, etc. was to be undermine by a new human perversion-of-reference-of-thought caused by a disease wherein we tend to say $2+2=5$, $5+1=7$ and $7-3=3$, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-of-disambiguated-apriorising/axiomatising/referencing ontological-normalcy/postconvergence). Thus reference-of-thought—categorical-imperatives/axioms/registry-teleology are ‘inventions’ that are as

pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity-or-ontological-preservation). Hence a false subknowledging/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to-reference-of-thought of mental-devising-representation and the articulation of new reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation reflecting intrinsic reality. These registry-worldview/dimension perversions-of-reference-of-thought include:

- RECURRENT-UTTER-UNINSTITUTIONALISATION (base perversion-of-reference-of-thought-(reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought), resolved/structurally-rendered-inoperant by BASE-INSTITUTIONALISATION categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy),

- UNUNIVERSALISATION (perversion-of-reference-of-thought of base-institutionalisation reference-of-thought-categorical-imperatives/axioms/registry-teleology, resolved/structurally-rendered-inoperant by UNIVERSALISATION categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy),

- NON-POSITIVISM/MEDIEVALISM (perversion-of-reference-of-thought of universalisation reference-of-thought-categorical-imperatives/axioms/registry-teleology, resolved/structurally-rendered-inoperant by POSITIVISM categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy), and prospectively,

- Procrypticism/disjointedness-as-of-reference-of-thought (slanted perversion-of-reference-of-thought of positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology, resolved/structurally-rendered-inoperant prospectively by DEPROCRIPTICISM categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy).

In the bigger scheme of things such ‘institutional-cumulations/institutional-recomposures’ as articulated above gives coherence in conceptualising a continuity in the human emanant/becoming anthropological experience [putting into perspective and not excepting any particular stage of institutionalisation/intemporalisation, as we might tend to do by focussing on the present positive registry-worldview which is just the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, while ignoring the ‘effective and causative intemporal behind the institutional-cumulation/institutional-recompose transcendental/psychoanalytic-unshackling process’, which skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions.] Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which

fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can’t afford not to pass ‘so-called modern man’ through the ‘distilling process’ (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) as it is because every successive transcendental level ‘did its homework’ that we are in the positivistic world, and we can’t confuse ‘being at the backend of the institutional-cumulation/institutional-recomposure’ with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining perversion-of-reference-of-thought that is). Hence ‘our homework’ is to articulate our very own perversion-of-reference-of-thought for the possibilities of the future, and not strive to arrive at a normalcy of ‘our temporal-preservation-as-pseudointemporality-preservation’ which speaks of inherent relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, with respect to ontological-normalcy as we get at our ‘uninstitutionalised-threshold’; instead enabling ‘intemporal preservation’ (by oblongating/decandoring/distractive-alignment-to-reference-of-thought of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as ‘procrypticism’/emanant-wrong/demented-shades-of-the-real, for a prospective anticipation and preemption of this known as ‘deprocrypticism’)!

It should be noted that while ‘institutional-cumulation’ and ‘institutional-recomposure’ are used interchangeably, however, the two terms carry two different

connotative emphases necessary to make the conceptualisation complete. ‘Institutional-cumulation’ emphasises the contiguity of the process of human institutional transcendence (with respect to intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposed peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposed in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposed into deprocrepticism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposing/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposing. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter institutional-recomposure/successive memetic reordering show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of

the emanant institutional-cumulation paradigm, utilising the outcome of previous institutional-cumulation effort. Hence the epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity instigation recurrently inducing the institutionalisation/intemporalisation process (is not analogical but a contiguous notion by it intemporal-preservation-entropy-or-contiguity—or—ontological-preservation across institutional-cumulations) applies universally across space and time (beyond the institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocrypticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposeure analysis) is not, as may wrongly be thought, analogical but is rather ‘a contiguous meaningful reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation referencing’ across all cumulating/recomposuring institutionalisations); i.e., memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold, and so, across all cumulating/recomposuring institutionalisations whether from a retrospective, present or prospective perspective. Memetic-reordering (psychoanalytic-unshackling/memetic-reordering/institutional-recomposeure process) can then be defined as arising when a registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology is transcended [at its uninstitutionalised-threshold involving-organic-comprehension-thinking in contrast with mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation; in transversality-

such as recurrent-utter-uninstitutionalisation ‘demented mental-devising-representation’ by
base-institutionalisation, ununiversalisation ‘demented mental-devising-representation’ by
universalisation, non-positivism/medievalism ‘demented mental-devising-representation’ by
positivism, and prospectively, procrypticism ‘demented mental-devising-representation’ by
deprocrypticism. This brings up the notion that while candoring/straightness is the way
meaning is represented within any registry-worldview/dimension

institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, this is just a mental-devising-representation for implying intemporality-of-thought without which meaningfulness is not functional in the registry-worldview's/dimension's (recomposed)-consciousness-awareness-teleology, but then at that same prior registry-worldview's/dimension's uninstitutionalised-threshold, transcendence into a prospective registry-worldview's/dimension's (recomposed)-consciousness-awareness-teleology put into question this candoring/straightness mental-devising-representation and the prior registry-worldview's/dimension's consciousness-awareness-teleology is then represented as demented/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or stranding-dialectics. Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology and ontological-veridicality/ontological-contiguity of reference-of-thought (from the ontological-normalcy/postconvergence epistemic/notional_projective-perspective); with the ontologically-veridical/ontological-contiguity mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ stranded as oblongated/decandored in reflection/perspectivation of their veridical perversion-of-reference-of-thought, beyond their epistemic-totalising—self-referencing-syncretising/present-consciousness/illusion-of-the-present. Hence we know of the following stranded registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and

prospectively procrypticism/disjointedness-as-of-reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments of the prior (uninstitutionalised-threshold) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrypticism.

Each of such institutional-recomposures (along the institutional-cumulation process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows:

(i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently-’dialectically-dementing-or-subknowledging-or-perversion-of-reference-of-thought-and-corresponding-epistemic-totalising–self-referencing-syncretising’ relation to meaningfulness).

(ii) for Universalisation, it has to do with requisite ‘projection rules/principles’ as ‘a memetic ontological entrapment’ for superseding ununiversalisation (as perversion-of-reference-of-thought of base-institutional meaningfulness).

(iii) for Positivism, it has to do with the requisite ‘empirical rules/principles’ as ‘a memetic ontological entrapment’ for superseding non-positivism/medievalism (as perversion-of-reference-of-thought of universalistic meaningfulness).

(iv) for Rational-Realism (Deprocrypticism), it prospectively has to do with ‘temporal-to-intemporal-dispositions accountability/intemporality-skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) rules/principles’ as ‘a memetic ontological entrapment’

for superseding procrypticism (as the perversion-of-reference-of-thought of positivistic meaningfulness).

Thus in the bigger scheme of things, just as a contrastive dialectical insight (from our present vantage position of the positivism backend of the institutional-cumulation/institutional-recomposure process), will strongly highlight by ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought’, recurrent-utter-uninstitutionalisation, ununiversalisation and non-positivism/medievalism as non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing/not-veridical-thinking-reference-rather-dementing-reference/perversion-of-reference-of-thought-and-not-of-logical-contention, this shows ontologically speaking that it isn’t out-of-the-stranding-template to prospectively imply (beyond our own illusion-of-the-present/present-consciousness) such a prospective stranding-dialectics of our perversion-of-reference-of-thought as of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of our registry-worldview/dimension (positivistic meaningfulness) as procrypticism/disjointedness-as-of-reference-of-thought. Noting as well that uninstitutionalised-thresholds like recurrence-of-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism equally had a sense of straightness/candor of their meaningfulness in a full blossoming of their own existentialism/full-existential-depth-implications paradigm as we do in our positivistic/procrypticism registry-worldview, within the ambits of their the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation. But then their stranding from their prospective institutionalisation/intemporalisation represents them as oblongated/decandored/dialectically-or-contendingly-out-of-phase/dialectically-primitive as the transcendental

backdrop/opportunity for the prospective registry-worldview/dimension. This when extrapolated will equally apply with our present positivism/procrypticism uninstitutionalisation/unintemporalisation for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation/intemporalisation, and any ‘complex’ we’ll have about that has to do with our illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage than the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective). This equally explains why uninstitutionalised-thresholds equally carried a complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure process.

With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of hodgepodging of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> (undisambiguation as temporal-to-intemporal-dispositions are wrongly given the same elevation), and relevantly so at the procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold. The very specific nature of the deprocryptic transcendence/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor at the procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘temporal-to-intemporal-dispositions disambiguation’ to avoid

wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or–ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves stranding-dialectics temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as hodgepodging of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema>. Deprocripticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging as postlogism) constructs, and not as may wrongly be reflected by the natural reflex to be conviction/prelogical, as conviction (existential-contextualising-contiguity/meaningful-projection-of-intrinsicness/authentic-vocalisation/prelogism) constructs], to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)’ for the fulsome articulation of ontology as ‘abject (postconvergence) ontological-veridicality/ontological-contiguity in conscious transdimensional/transcendental-memetic-depth (thinking-and-dementing-dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or

prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (unlike all prior institutionalisations which are rather intradimensional in their meaningful-depth construed only as a closed epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ‘dialectical-thinking-dynamism’). As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this temporal-to-intemporal-dispositions nature of deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency of ‘knowledge notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity; in contrast to the hotchpotching of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> of temporal-dispositions and particularly in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) which covers all informal spheres of institutions and society generally. So because knowledge notionalisation recognises that in a specie of temporal-to-intemporal-dispositions individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) for the supersedingness/lead of the intemporal-disposition

individuation is responsible for elevating human uninstitutionalised-threshold across the successive institutional-cumulations/institutional-recomposures by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phrasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one’s way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation–ununiversalisation, then higher and higher with universalisation–non-positivism-or-medievalism and our positivism–procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts will hardly be seen as vices in an recurrent-utter-uninstitutionalised registry-worldview. Knowledge notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-temporal-to-intemporal-dispositions–implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of-meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of-meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-thresholds) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy (in its becoming in a

conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘thinking-dementing dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, deprocrypticism going by ontological-normalcy implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a thinking-dementing dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflatedness as dialectical transformation as-prospective reference-of-thought’ in its ‘functional institutionalised/intemporalised-approximating-or-proxying-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ as renewing existentialism/full-depth-of-existential-implications meaningfulness and thought; with such non-thresholding ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflatedness as dialectical transformation, as-prospective reference-of-thought, approximating/proxying being of ontological-normalcy/postconvergence and suprastructural nature as the fulsome attainment of the institutionalisation/intemporalisation ideal (ontological-normalcy) culminating with deprocrypticism. The paradox of ontological-normalcy/postconvergence brought to bear with deprocrypticism will imply ontologically/intemporally that a registry-worldview/dimension-and-as-of-all-successive-registry-worldviews/dimensions can be seen as being in ‘demented hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation defect’ in

need of ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflatedness of the ‘demented hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation defect’ in an existentialism/full-depth-of-existential-implications articulation of demented temporal-dispositions ‘conviction-misconstruals/non-convictions’ of slanting/impulsive-dementing/miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi-conventioning-rationalising/temporal-enculturation/temporal-endemisation over ‘a wrong conviction/non-misconstrual reflex’ to meaningfulness in a transcendental/transdimensional analysis involving ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’ over an intradimensional epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag analysis. Insightfully, it implies the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework illumination driven institutionalisation over an impression-driven/good-naturedness/wishfulness conceptualisation as the-Good sticks by essence to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and reinvents reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for prospective/transcending/superseding registry-worldview to comply with intemporal-preservation-entropy-or-contiguity—or—ontological-preservation when the prior one fails, while the latter sticks by form to reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation whether this fails intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or not. The conceptualisation of reference-of-thought—categorical-imperatives/axioms/registry-teleology refers to the same deconstructed/ontological-reconstituting—as-of-conflatedness notion; axioms emphasises and

hints of ‘basis’ and ‘foundation’ as well as ‘fundamental validation’ as of existential-reality, categorical-imperatives emphasises and hints of ‘necessity’, ‘rigour’, ‘constraining’ and ‘enforcing’, while registry-teleology (short for the apriorising–registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) emphasises the ‘operant’ aspect as of human situatedness existential-instantiation elements implied when producing meaningfulness-and-teleology. The reference-of-thought is the fundamental-dispositional mentation architecture for human referencing or construing of meaningfulness-and-teleology, and is capable of ontological-reconstituting—as-of-conflatedness/deconstruction involving ontological-dementation/dialectical-dementation—stranding/attributive-dialectics with corresponding stranding-dialectics ontologically-extending-into-the-existentialism-becoming of personhoods-and-socialhood-formation. This explains human transcendental capacity and sublimity as well as perversion-of-reference-of-thought. More precisely, perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implies as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect as of ‘non-conviction-being-teleology’ (reflecting ‘non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing-defects’) and so in effective postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation wherein perverted-outcome-sought-precedes-existentially-veridical-logical-dueness whether as slantedness/impulsive-dementation (postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’) or induced as

ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and so ideally reflected in ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness organic-comprehension as ‘ontological-reconstituting-as-of-conflatedness/deconstruction of new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’. Fundamentally perversion-of-reference-of-thought has to do with the defect of the reference-of-thought and not the defect of ontological-veridicality/ontological-contiguity (which is rather a logical-process/implication-of-act-execution defect and which implies an ‘implication-of-notion-of-agreement-or-disagreement’), as can be reflected in ontological-normalcy/postconvergence/from-ontological-normalcy. A reference-of-thought speaks of the fundamental appropriateness/soundness-or-authenticity-of-reference-of-thought of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation irrespective of their appropriate or inappropriate logical-processing-or-logical-implication with respect to ontological-contiguity/ontological-veridicality, and implying sound reference-of-thought further emphasises appropriate incidental logical-processing-or-logical-implication in producing the right outcome. Hence a registry-worldview/dimensional defect is one of systematic defect of reference-of-thought; whether when recurrent-utter-uninstitutionalisation reference-of-thought as of non-rules-as-impulsive-or-accidental-or-random-mental-disposition-(as ‘basic constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) is failing/not-upholding-as-of-apriorising/axiomatising/referencing rulemaking-over-non-rules-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for base-institutionalisation, ununiversalisation is failing/not-upholding-as-of-apriorising/axiomatising/referencing universalisation-directed-rulemaking-over-non-rules-(as 'second-level presencing—absolutising-identitive-constitutedness of reference-of-thought' apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for universalisation, non-positivism/medievalism is failing/not-upholding-as-of-apriorising/axiomatising/referencing positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules-(as 'third-level presencing—absolutising-identitive-constitutedness of reference-of-thought' apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for positivism or prospectively, positivism is failing/not-upholding-as-of-apriorising/axiomatising/referencing preempting—disjointedness-as-of-reference-of-thought-as-lacking-in-epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity-as-to-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules required for deprocrypticism. Thus fundamentally 'dialectically-dementing'/unsoundness-or-inauthenticity-of-reference-of-thought does not arise because of failure of logical-processing-or-logical-implication but rather because of failure of reference-of-thought as of perversion-and-derived-perversion-of-reference-of-thought. This is unlike the case where logical-engagement of mental-devising-representation as 'dialectical-thinking'/soundness-or-authenticity-of-reference-of-thought is still relevant where there is failing/not-upholding-as-of-apriorising/axiomatising/referencing logical-processing-or-logical-implication (like calculating the answer of an arithmetic operation wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to arithmetic axioms to produce the right answer. But this is invalid and not applicable where the issue is about deliberate disposition not to adhere to arithmetic axioms

but usurp them (whether consciously, expediently or unconsciously). Soundness-or-authenticity-of-reference-of-thought on the other hand implies being-or-ontological-or-existential-or-meaningfulness-and-teleology disposition as of ‘conviction-being-teleology’ (reflecting ‘conviction-logical-processing-or-logical-implication’ and at worst conviction-defects of logical-processing-or-logical-implications’) and so in effective prelogism wherein logical-process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so construed from a more profound ontological-normalcy/postconvergence insight. This is the fundamental basis and backdrop for an insight for drawing ‘the implications of the (preceding and superseding) ontological-normalcy/postconvergence nature of intrinsic-reality as ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation)’, in reflecting/perspectivating/highlighting ‘the mental-devising-representations of registries/references constructs and protractedly of registry-worldviews/dimensions (on the basis of the ontological-dementation/dialectical-dementation—stranding/attributive-dialectics) whether as of registry-soundness and thus as ‘dialectical-thinking representations’ (thinking or stranded-as-straight/candored-and-dialectically-in-phase) or as of perversion-of-reference-of-thought and thus as ‘dialectically-dementing representations’ (dementing or stranded-as-oblongated/decandored-and-dialectically-out-of-phase-or-dialectically-primitive), and so ontologically-extending-into-their-existentialism-becoming. Such dialectical articulation of mental-devising-representations can be conceptualised as defining individuations in terms-as-of-axiomatic-construct of ‘conviction-being-teleology’ (thinking or stranded-as-straight/candored-and-dialectically-in-phase) and ‘non-conviction-being-teleologies’ (dementing or stranded-as-oblongated/decandored-and-dialectically-out-of-phase-or-dialectically-primitive). In so doing reflecting/perspectivating/highlighting the teleological-dispositions-of-individuations in their non-conviction-being-temporalities and conviction-

being-intemporality as ontological-primemovers-totalitative-framework dispositional constructs; with ‘non-conviction-being-teleologies’ individuations acting in ‘circumventive/distractive-temporal-prioritisation-of-reference-of-thought mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation’ protracting as prior/transcended/superseded registry-worldviews/dimensions (in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation defectively/non-veridically of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation whether or not it fails intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’) with respect to ‘conviction-being-teleology’ individuation acting in ‘“intemporal-prioritisation-of-reference-of-thought’-as-conflatedness organic-comprehension-thinking’ protracting as prospective-or-emancipating/transcending/superseding registry-worldviews/dimensions (ontological-reconstituting—as-of-conflatedness/deconstruction of new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). Such demented mental-devising-representations of ‘non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’-being-teleologies’ reflected in iteration as ‘non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’ (with corresponding protracting as ‘dialectically-dementing’/unsoundness-or-inauthenticity-of-reference-of-thought prior/transcended/superseded registry-worldviews/dimensions) are utterly different from mental-devising-representations of ‘conviction being teleology’ reflected in iteration as conviction-logical-processing-or-logical-

implication and conviction-defects of logical-processing-or-logical-implications, with conviction-defects of logical-processing-or-logical-implications having to do with appropriate or inappropriate logical-processing-or-logical-implication (with corresponding protracting as ‘dialectical-thinking’/soundness-or-authenticity-of-reference-of-thought prospective/transcending/superseding registry-worldviews/dimensions). The mental-devising-representations of ‘conviction being teleology’ performers (reflected as conviction-logical-processing-or-logical-implication and conviction-defects of logical-processing-or-logical-implications) with respect to subsequent acts ‘of-similar-or-derived-contextualisation’ by their performers always harken back to a reflex of ‘dialectical-thinking or stranded-as-straight/candored-and-dialectically-in-phase’ to imply the upholding of ‘ontological-reference/contending-reference’; and so, for the simple reason that the state of being conviction (whether the act is defective or not) implies a ‘mental-disposition’ of the performer to be intemporal/ontological, and in the instance of conviction-defects of logical-processing-or-logical-implications the defects simply have to do with inappropriate logical-processing-or-logical-implication, and not unsound-mental-disposition or perversion-of-reference-of-thought (which in this latter case will speak of a mental-disposition to act with non-conviction-or-‘existential-decontextualised-transposition’ with regards to subsequent acts of similar context by their performers). Hence the mental-devising-representations of ‘conviction-being-teleology’ performers subsequent acts from their prior acts acknowledged to be conviction-logical-processing-or-logical-implication and conviction-defects of logical-processing-or-logical-implications are ‘validated/projected by reflex as ‘possibly-thinking’/possibly-soundness-or-authenticity-of-reference-of-thought and not invalidated by reflex as ‘possibly-dementing’/possibly-unsoundness-or-inauthenticity-of-reference-of-thought in implying the upholding of their reference-of-thought status. [To illustrate, suppose X and Y are contending (ontological-reference) to know what $5+4$ will give as answer

(ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn't perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as $5+4=8$, we talk of a conviction-implication-of-act-execution-defect as X sincerely wants to calculate to produce the right answer but X's logical-processing-or-logical-implication failed. This doesn't invalidate the notion that Y can still engage X as 'possibly-thinking'/possibly-soundness-or-authenticity-of-reference-of-thought in contending (appropriateness-of-reference-of-thought-as-of-conflatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic.] While the mental-devising-representation of 'non-conviction-being-teleologies' performers subsequent acts of-similar-or-derived-contextualisation to their prior acts verified to be non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing priorly demented are 'invalidated/projected by reflex as 'possibly-dementing'/possibly-unsoundness-or-inauthenticity-of-reference-of-thought and not 'possibly-thinking'/possibly-soundness-or-authenticity-of-reference-of-thought in implying the revoking of their reference-of-thought status. [To illustrate, suppose X above rather slyly and deliberately (non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing) miscalculated (non-ontological-reference/non-contending-reference) the answer (of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>) and Y grasps this, then this invalidates the notion that Y can still 'genuinely' engage X (ontological-pertinence) with regards to another arithmetic operation of-similar-or-derived-contextualisation, with respect to the upheld context behind X's sly and deliberate basis for miscalculating.]

The implication being that in a contention among interlocutors in recurrent-utter-uninstitutionalisation, the mentation is very much different from ours (positivism) as any imagined pretext is a legitimate one with emphasis being rather on established dominance/subservience relations, with base-institutionalisation the mentation was to arbitrarily invoke any of a number of recognised or incidentally introduced rules that are in one’s favour and again where dominance/subservience relations played a large part, while with universalisation while power relations also played a part the rules and rulemaking-over-non-rules-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) was set/given however skewed towards the dominance of say a leader or family/clanic group or priestly class or outright social class; with positivism though, while relatively universal and empirical, the weakness lies in the ontological-contiguity of the contextualisation of rules and rulemaking-over-non-rules-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) (hence not ‘absolutely rational’ with regards to its socially-betraying-threshold-of-ontologising-depth-of-analysis) which preempting—disjointedness-as-of-reference-of-thought-as-lacking-in-epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity-as-to-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules as deprocrypticism existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context involving existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality preempting ‘the dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing rational-empiricism/positivising-rules’ as ‘uncompromising ontological-reconstituting—as-of-conflatedness’ focuses on, as enabling a ‘fulsome ontologising’. Interestingly, while the socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation explains how and why successive institutional-cumulations/institutional-recomposures are at their given institutionalisation levels on the basis of a memetic/suprastructural-meaningfulness analysis or a transcendental/transdimensional-meaningfulness analysis, the notion of socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-

betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation actually initially applies intradimensionally in all registry-worldviews/dimensions and it is actually the ‘intemporal/ontological signal’ for the need of prospective transcending/superseding due to ‘failing/not-upholding-as-of-apriorising/axiomatising/referencing intradimensional ontologising/intemporal-preservation’. Insightfully, we can grasp the ‘intemporal/ontological signal’ pointing to a socially-betraying-threshold-of-ontologising-depth-of-analysis with regards to a dimension’s/registry-worldview ‘dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag phenomenon’ like psychopathy and social psychopathy (with respect to procrypticism or perversion-of-reference-of-thought of positivistic meaningfulness) or accusations and notions of sorcery (with respect to medievalism); as this has to do with human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor individuations dispositions wherein intradimensionally, the ‘socially-betraying-threshold-of-ontologising-depth-of-analysis’ (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness) is rather an overall registry-worldview/dimension perversion-of-reference-of-thought aftereffect rather as an indirect comprehensive socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness) arising from the ‘cumulative effect’ of the various temporal-to-intemporal-dispositions individuations dispositions with respect to intradimensionally operant implications of perversion-of-reference-of-thought, as the various ‘temporal-dispositions individuations’ will, at that uninstitutionalised-threshold, betray

 betraying ontologising/ontological-depth-of-analysis/intemporal-preservation thus inducing
 prospective institutionalisation/intemporalisation by positive-opportunism and the intemporal
 percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> of
 such emancipation/transcendence. Thus for instance with regards to adult psychopathy and
 the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of
 psychopathy and its violation of social norm, with the idea that psychopathy is associated
 with temporal-dispositions destructuring-thresholding ‘as the positivism—procrysticism

ontological-preservation (in conjugation to
 ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
 negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve
 to simply analyse on the basis that other interlocutors have an intemporal/ontological
 disposition, in the very first instance. Thus the need, in order to attain such a prior requisite
 ontological/intemporal foundation, to formalise (as deferential-formalisation-transference)
 contexts of psychopathy and social psychopathy (and generally formalise contexts of

 attain priorly an ontological/intemporal foundation), before conducting ‘a truly
 ontological/intemporal analysis’ as the-Good/understanding/knowledge-
 reification/ontological-primemovers-totalitative-framework construct, which necessarily
 implies projecting into a prospective/transcending/superseding registry-
 worldview/dimension, in this case deprocrypticism; as otherwise the ‘ordinary’ reasoning of a

 or the uninstitutionalised-threshold of the registry-worldview/dimension (procrypticism being
 the fundamental ontologising limits of a positivistic registry-worldview/dimension), will
 pervert/corrupt the possibility of ‘a truly ontological/intemporal analysis as the-

Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct' preempting the said perversion-of-reference-of-thought phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it 'becomes existentially in a dynamism of conventioning and ontology'. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to perversion-of-reference-of-thought phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant 'theme and the intellectual projection behind its ontological analysis' seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in

many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation [or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be universalised as they require that others do not act likewise or their implications should be limited to given target(s) and not be universalised, since their fundamental teleology is not intemporal/not-of-universal-import but speak more of temporal motive.] In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions.

The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm, contrasted with a temporal extricatory paradigm, is necessarily the prospective transcending/superseding registry-worldview/dimension. Consider the case of contending about a perversion-of-reference-of-thought like accusations and notions of sorcery in a non-positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the registry-worldview’s/dimension’srecomposed-consciousness-awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having

socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ aligned with ontological-normalcy is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/(recomposured)-consciousness-awareness-teleology in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived meaningfulness-and-teleology thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is one that aligns with and is driven by ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) wherein ontological-normalcy is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy (postconvergence) abstractly refers to any relevant/implied registry-worldview/dimension that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or deprocrypticism as having reference-of-thought status, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-

positivism/medievalism or procrypticism which is then correspondingly devoid of reference-of-thought, and so going by the inherent human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor that arises by the mere fact that all the institutionalisations are of the same form-factor since their ‘snowballed differences’ arise solely due to ‘the deepening of limited-mentation-capacity-(as of relative constitutedness towards relative conflation)’. Ontological-normalcy as such will imply that the successive institutionalisations are rather shifts-in-the-curve-of-prospective-relative-ontological-completeness-of-reference-of-thought-as-of-ontological-normalcy (shifts-in-the-curve-of-human-grasp-of-one-ontology/‘ontological-reference-of-veridicality’, which will graphically/as-imagery imply ‘human-grasping-capacity’ on one axis and ‘depth-of-ontology/ontological-reference-of-veridicality/ontological-completeness’ as the institutional-cumulations/institutional-recomposures on the other axis or dialecticisms-of-an-imperfect-human-grasping-of-‘ontological-reference-of-veridicality’-which-mastery-improves-dialectically) which rather implies defects of perversion-of-reference-of-thought or unsoundness-or-inauthenticity-of-reference-of-thought of corresponding prior/transcended/superseded registry-worldviews/dimensions implying a voiding of their reference-of-thought as ontologically-veridical as these become the subject of contention and aetiologisation/ontological-escalation from the corresponding prospective/transcending/superseding registry-worldviews/dimension which is then the ontologically-veridical reference-of-thought. It should be noted that a defect of logical-processing-or-logical-implication or defect of incidenting-as-social-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance (unlike a perversion-of-reference-of-thought) implies movement-along-the-same-curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought of a given

registry-worldview's/dimension's reference-of-thought whether as an inappropriate/poor-or-bad or appropriate/good or any other variation of the logical-processing-or-logical-implication, and doesn't fundamentally voids the reference-of-thought status with regards to the possibility of an appropriate logical-processing-or-logical-implication in another instance. This insight is critical because the defect of logical-processing-or-logical-implication or defect of incidenting-as-social-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance will often be implied with regards to an issue and resolution of perversion-of-reference-of-thought which rather speaks to a defect of reference-of-thought status construed as perversion-and-derived-perversion-of-reference-of-thought speaking of a structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance defect or an intradimensional-defect. For instance, there is no intradimensional resolution of sorcery accusations and notions of sorcery as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm within a non-positivism/medievalism world, as what is required is a shift-in-the-curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought-as-of-ontological-normalcy to imply a prospective transcending/superseding positivistic registry-worldview/dimension as the resolution wherein positivising/rational-empiricism takes pride of place as reference-of-thought of meaningfulness. This applies with all perversion-of-reference-of-thoughts in all institutionalisations as the reference-of-thought is what gives registry/anchoring-of-meaning/meaningful-reference/ontological-reference/contending-reference/registry-worldview status which is voided in the instance of perversion-of-reference-of-thought with such perversion-of-reference-of-thought defining that registry-worldview/dimension

uninstitutionalised-threshold as it then becomes, by way of ‘ontological-
 dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’,
 the subject of contention and aetiologisation/ontological-escalation. This implies that
 psychopathy and social psychopathy as perversion-of-reference-of-thought phenomenon in
 the positivistic registry-worldview/dimension (procrypticism) requires a shift-in-the-curve-of-
 prospective-relative-ontological-completeness-of-reference-of-thought-as-of-ontological-
 normalcy from positivism to deprocrypticism registry-worldview/dimension as
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm resolution to psychopathy and social
 psychopathy, and so beyond an extricatory/temporal paradigm which will wrongly imply a
 movement-along-the-curve-of-prior-relative-ontological-incompleteness-of-reference-of-
 thought-as-of-ontological-normalcy that preserves procrypticism (perversion-of-reference-of-
 thought of positivistic meaningfulness-and-teleology) while inducing dialectical-dementing—
 epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag
 within the same defective procrypticism registry-worldview/dimension which requires
 prospective transcendence as deprocrypticism. Insightfully again with regards to ontological-
 normalcy and ontological-normalcy/postconvergence critical for a ‘dialectical-thinking-
 psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’, just
 in reflecting the ontological-contiguity—of-the-human-institutionalisation-process has to do
 with a human-limited-mentation-capacity maximalising-recomposuring-for-relative-
 ontological-completenessly institutionalising from prospective base-institutionalisation
 preempting recurrent-utter-uninstitutionalisation (as the perversion-of-reference-of-thought as
 to dialectical-dementing—epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag of recurrent-utter-uninstitutionalisation),
 prospective universalisation preempting base-institutionalisation—ununiversalisation (as the

perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of base-institutionalisation—ununiversalisation), prospective positivism preempting universalisation—non-positivism/medievalism (as the perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of universalisation—non-positivism/medievalism), and prospectively, prospective deprocrypticism pre-empting positivism—procrypticism (as the perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of positivism—procrypticism); with the implication that deprocrypticism is actually recomposuringly subsuming of positivism which is subsuming of universalisation and it too recomposuringly subsuming of base-institutionalisation (all these with their respective personhoods-and-socialhood-formation existentialisms/full-depths-existential-implications). cumulation/recomposuring/reordering/reorientation. In the case of dementing acts of-similar-

or-derived-contextualisation with regards to slantedness/impulsive-dementation (with an underlying element of physiological issue with regards to psychopathic personalities) and the derived social dynamisms of social psychopathy, such implied ‘deconstruction/ontological-reconstituting-as-of-conflatedness perpetuation of the hermeneutic circle ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought analysis’ is potentially beyond just ‘benign-and-specific-shallow-contexts-scale-of-implications’ but can be more profound involving institutions and individuals contextualisation as individuals-lives-and-institutional-lives-scale-of-implications and in the bigger scheme of things where such dynamics involve social structuring effects on perceived meaningfulness and values in the overall social-setup it has a social-structure-scale-of-implications (specifically not only in terms-as-of-axiomatic-construct of vices-and-impediments but also in undermining the enculturation of intellectual/emancipatory dispositions). Effectively, such a deconstruction/ontological-reconstituting-as-of-conflatedness perpetuation of the hermeneutic circle ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought analysis’ ontologically-extending-as-the-existentialism-becoming of conviction-being-teleology individuation as intemporal/ontological (longness-of-register-of-meaningfulness-and-teleology) and non-conviction-being-teleologies individuations as temporal (shortness-of-register-of-meaningfulness-and-teleology), will comprehensively articulate in ‘a deconstruction/ontological-reconstituting-as-of-conflatedness perpetuation of the hermeneutic circle ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought analysis’ reflecting/perspectivating/highlighting temporal-dispositions pseudo-ontological-finalities, across social-setups and institutional settings with their evolving 'socially-perceived-value as of social-stake-contention-or-confliction'. The state of ‘non-conviction-being-teleologies’ requires ‘dialectically-dementing’/unsoundness-

or-inauthenticity-of-reference-of-thought mental-devising-representations and implies the revoking of reference-of-thought status with respect to interlocution of-similar-or-derived-contextualisation (in the very first instance) while the state of ‘conviction-being-teleology’ implies a ‘dialectical-thinking’/soundness-or-authenticity-of-reference-of-thought mental-devising-representation implying a veridical reference-of-thought with respect to interlocution (in the very first instance), and enabling the second instance of engaging in terms-as-of-axiomatic-construct of logical pertinence to establish (postconvergence) ontological-veridicality/ontological-contiguity. Typically, such an insight with regards to a ‘non-conviction-being-teleology’ is obvious and transparent with respect to the childhood psychopathy/cinglée mental-disposition, given that an initial encounter often involves a natural ‘dialectical-thinking reflex’ by the interlocutor with respect to their initial narratives but after some familiarisation we come to understand that the initial narratives are in fact demented and thus our expectation of the subsequent narratives they iterate is to initiate or be ready to align by a mental-devising-representation as a ‘dialectically-dementing reflex’. This dementing veridicality explains both the childhood and adult psychopath disposition for absolving-logic-or-perpetually-fleeting-logic-reflex-or-escaping-logic based on extrinsic-attribution wherein the mental-disposition is to move postlogically/pervverted-outcome-sought-precedes-existentially-veridical-logical-dueness from one set of narratives to the other and one set of interlocutors to the other with the idea convincing is the notion of getting more people ‘mechanically convinced by vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’ and not an articulation of conviction/existential-contextualising-contiguity principle, be it by adhering to the mere hollow form of principles and narratives in existential-decontextualisation as being deterministic of others inclinations and actions. Intrinsic-reality in its ontological-normalcy/postconvergence indicates that effectively the

conjugating/inflecting/deriving/mimicking/in-protraction-to-psychopathic-dementing (which is often the case with the adult-psychopathic dementing) whether unconscious (ignorance) or conscious (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) effectively underlies an ontologically valid mental-devising-representation reflex as ‘dialectically-dementing’/unsoundness-or-inauthenticity-of-reference-of-thought of such derived ‘non-conviction-being-teleologies’. In the bigger scheme of things, it equally explains our mental-devising-representation ‘dialectically-dementing’/unsoundness-or-inauthenticity-of-reference-of-thought underlying reflex with respect to prior/transcended/superseded registry-worldviews/dimensions and ‘dialectical-thinking’/soundness-or-authenticity-of-reference-of-thought mental-devising-representation underlying reflex with respect to prospective/transcending/superseding registry-worldviews/dimensions. A perversion-of-reference-of-thought speaks of a hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation defect (as sticking ‘in form’ to reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that are ontologically defective rather than as being an adjunct to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation per se, and so due to having attained the socially-betraying-threshold-of-ontologising-depth-of-analysis and thus not initiating ontological-reconstituting—as-of-conflatedness/deconstruction in superseding this socially-betraying-threshold-of-ontologising-depth-of-analysis) as impression-driven/good-naturedness/wishfulness defect of ‘dialectically-dementing’/unsoundness-or-inauthenticity-of-reference-of-thought mental-devising-representation; since ontological-reconstituting—as-of-conflatedness/deconstruction as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework of new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-

It should thus be noted that the dementing of reference-of-thought of a registry-worldview/dimension

implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting—as-of-conflatedness/deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of ‘perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ behind say sorcery and psychopathy; even though such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-worldviews with respect to ontological-normalcy, with the need for ontological-reconstituting—as-of-conflatedness/deconstruction). In other words, the state of being non-positivism/medievalism with respect to ontological-normalcy is already a defective state ‘in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought—categorical-imperatives/axioms/registry-teleology for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism—procrypticism is in absolute sync with ontological-normalcy by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure, as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an abject hermeneutic circle exercise of ontological-reconstituting—as-of-conflatedness/deconstruction (of our temporal-to-intemporal-dispositions nature)’ how procrypticism (dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as to mere formulaic positivistic meaningfulness-and-teleology) in a positivistic registry-worldview structurally endemises psychopathy and social psychopathy. Insightfully, for a grander grasp

of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-implications form-factor’; which is fundamentally defined by ontological-normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting—as-of-conflatedness/deconstruction (which is the critical subsuming mechanism for re-establishing reference-of-thought and ontological-veridicality/ontological-contiguity as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, above and beyond the simple hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of defective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of any registry-worldview/dimension and requiring their prospective suprastructuring). This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the institutional-cumulation/institutional-recomposure, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’; which define their specificities and potentials which are basically abstractly of ‘a same form-factor’, with regards to the reality of their temporal-to-intemporal-dispositions and the existential implications on every registry-worldview/dimension thereof, though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought. Ontological-entrapment (as a deterministic point of

reference that defines dialectical-out-of-phasing/dialectical-primitivity registry-worldview/dimension, and thus avoiding any confusing effects to analysis of the stranding-dialectics of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics) is attained by ‘keeping or aligning’ placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogism-or-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness-or-non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing (with no shifting by reflex into conviction-or-prelogism) of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of the wrong ontological-references/contending-references of all established perversion-of-reference-of-thought prior/transcended/superseded registry-worldviews/dimensions, in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation failing/not-upholding-as-of-apriorising/axiomatising/referencing reference-of-thought–categorical-imperatives/axioms/registry-teleology as the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with respect to ontological-normalcy represented by the rightful ontological-references/contending-references of the prospective/transcending/superseding registry-worldviews/dimensions whose mentation/mental-devising representation are ‘kept or aligned’ as ‘ontologically-reconstituting’-or-prelogical-or-logical-process-precedes-outcome-or-conviction, as in ontological-reconstituting–as-of-conflatedness/deconstruction of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with sound reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. A ‘dialectical-thinking-

psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' as being ontologically-driven is one where placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (as 'dialectical-thinking' or 'dialectically-dementing') is the reflected/perspectivated implication as 'dialectical-thinking' or 'dialectically-dementing' of ontological-normalcy/postconvergence or it is one that is ontology-driven. This equally explains why a prior/transcended/superseded registry-worldview's/dimension's reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive given it is sticking to its 'good-natured' but 'ontologically-wrong and failing' reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) as the prospective/transcending/superseding registry-worldview/dimension has the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework sound reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (in ontological-reconstituting—as-of-conflatedness/deconstruction); wherein no amount of 'good-naturedness' of any individuation based on the former (prior/transcended/superseded) reference-of-thought can fundamentally supersede its structural/paradigmatic vices-and-impediments, but for the 'emancipatory moulting' (psychoanalytic-unshackling/memetic-reordering/recomposuring) into reference-of-thought of the latter (prospective/transcending/superseding) of such would-be emancipating individuation/intellectuals and consequent institutionalisation/intemporalisation as transcendence. That is why there is no ontologically-veridical intradimensional resolution of issues and notions of sorcery for instance in a non-positivism/medievalism social-setup with any such pretence being nothing but a 'temporal extricatory paradigm' to satisfy temporal

preservation', but for implying a prospective need for a positivistic registry-
 worldview/dimension as
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm in satisfying intemporal-preservation-
 entropy-or-contiguity—or—ontological-preservation. Likewise there is no intradimensional
 resolution of a phenomenon like psychopathy and its social corollary in a
 procrypticism/disjointedness-as-of-reference-of-thought registry-worldview/dimension (the

 Fundamentally, the reason for all the dimensions/registry-worldview perversion-of-reference-
 of-thoughts as limited-mentation-capacity-(as of relative constitutedness towards relative
 conflation) has to do with the veracity/ontological-pertinence of our temporal-to-intemporal
 as individuations of shortness-to-longness-of-register-of-meaningfulness-and-teleology, such
 that whenever relatively sound reference-of-thought—categorical-imperatives/axioms/registry-
 teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are
 institutionalised/intemporalised, human temporality in hollow-constituting—as-disjointed-

misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuation
dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-
capacity-(as of relative constitutedness towards relative conflation), to this as
hollow/formulaic constraining deterministic constructs which have to be exploited by the
mere determinism-of-form about how others will act (hollow-constituting—as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation) rather than the
essence as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation being
sought originally by the institutionalised/intemporalised reference-of-thought—categorical-
imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—
or—ontological-preservation (ontological-reconstituting—as-of-conflatedness). This
fundamental dilemma of the cross-section of human mentation disposition is ‘a lost cause’,
given the reality of the notion of a shortness-to-longness-of-register-of-
meaningfulness/temporal-to-intemporal-dispositions inherent in a limited-mentation-
capacity-(as of relative constitutedness towards relative conflation); any resolution is not by
wrongly implying any ‘epistemic-growth/transvaluative-rationalising/anamnestic-
residuality/transepistemicity transformation’ but rather institutionalisation/intemporalisation
by its inherent eliciting of positive-opportunism to the grander cross-section of society in the
medium to long-run wherein intemporal-disposition/longness-of-register-of-meaningfulness-
and-teleology individuation dispositions by artifice/institutionalisation/intemporalisation
come to constrain-or-dominate the social-construct (over temporal-dispositions/shortness-of-
register-of-meaningfulness-and-teleology-or-hollow-constituting—as-disjointed-
misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuations
dispositions); with corresponding percolation-channelling-<epistemic-totalising-
reoriginariness/reorigination-in-conflation> facilitating the perpetuation of such intemporal
enculturation even when such positive-opportunism gets weaker with grander

institutionalisations/intemporalisations, and so as the grander human good. This underlies the fundamental construct of rational-realism that human progress is the outcome of human increasingly realistic grasp of what man is with ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since basically knowing-is-acting!

Rational-realism (deprocrypticism) as such involves rather distractive-alignment-to-reference-of-thought /decandoring with three paradigmatic teleologies:

- subknowledging-impulse/impulsive-dementation temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (stranded-as-rightfully-oblongated/decandored and not epistemic-totalising–self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase);
- subknowledging-temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (stranded-as-rightfully-oblongated/decandored and not epistemic-totalising–self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase); and
- the intemporally given and ontologising teleology which ontologically reflects/perspectivates the subknowledging-impulse/impulsive-dementation-temporal-disposition-(psychopath) and the subknowledging-registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the stranding-dialectics backdrop of new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Thus at the uninstitutionalised-threshold, it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘un-transcendable’ (acting

as if in intemporal-preservation-entropy-or-contiguity—or—ontological-preservation while actually in temporal preservation-as-pseudointemporality; hence dementable/no-longer-thinking) due to epistemic-totalising—self-referencing-syncretising/present-consciousness/illusion-of-the-present/mirage as metaphysics-of-presence which blinds the temporal-dispositions to the registry-worldview’s/dimension’s ‘intemporal preservation discontinuity’ as a result of the perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought-defects (and not logical defect) of slanting/impulsive-dementing (psychopath) and the consequent derived – miscuing, disjointed-logic, logical-drag, unconscionability-drag, and sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation; arising from the conjugation with the relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism. The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag for psychoanalytic-unshackling/memetic-reordering/institutional-recomposure on the basis of prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendence/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendences

(occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal perversion-of-reference-of-thought existential mental orientation to avoid epistemic-totalising–self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase (for example, no ‘God of plane’ for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness of a transcendent registry-worldview/dimension in terms-as-of-axiomatic-construct of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently cross-generationally since transcendence/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of reference-of-thought/soundness-or-authenticity-of-reference-of-thought, and so beyond logical defect). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-

positivism/medievalism and prospectively deprocryptic being/ontology over procrypticism/disjointedness-as-of-reference-of-thought.

The dynamism of social psychopathy and the perversion-of-reference-of-thought involved with regards to both the psychopath and protracted social psychopathy (requiring ‘distractive-alignment-to-reference-of-thought at ‘uninstitutionalised-threshold’) can be resumed as follows. Basically, the psychopath is involved in postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ in a committed drifting-circularity/roaming (of non-veridical dialectically-or-contendingly-out-of-phase narratives ‘it wants to falsely represent veridically’), leading to temporal-dispositions slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect (contrasted to ontologising/intemporal conventioning-rationalising) and temporal-enculturation/temporal-endemisation effect, and these, hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, conjoining and conjugating to temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and fundamentally referenced from base ontologising effectivity (intemporal preservation); in ephemeral/temporal and ontologic/intemporal contrast, thus reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the stranding-dialectics of temporal-dispositions denaturing of social psychopathy (subknowledging/mimicking) arising from initiating phenomenal psychopathy (subknowledging impulse) involving a distractive-alignment-to-reference-of-thought construal (as the backdrop of new recomposuring reference-of-thought—categorical-

imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—
or—ontological-preservation and ultimately enabling its transcendental collapsing/overriding
for institutional-recomposure/prospective-memetic-reordering). That's how the 'given
reality' is being subknowned/registry-perverted. The technique to be utilised
comprehensively for grasping the social psychopathy dynamism is by articulating an
intemporal-referencing transversality-of-disambiguated-apriorising/axiomatising/referencing
ontological-normalcy/postconvergence reality construct (by intemporal transversality-of-
disambiguated-apriorising/axiomatising/referencing ontological-normalcy/postconvergence is

and re-orientating the mimicking-subknowledging into a

or—ontological-preservation),

2. Psychopath's slanting/impulsive-'dialectical-dementing—epistemic-totalising-self-

3. Psychopath’s interlocutor’s perversion-of-reference-of-thought in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex narratives integration from its prelogical/conviction rationalisation (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) of the last psychopath’s postlogical non-veridical hollow mimicking narratives in circularity as well,

4. Analyst’s reflection/perspectivation of the above 3 mechanisms as postlogical/subknowledging/mimicking/registry-perverting with contention never being about logical operation/processing/contention of the non-veridical hollow mimicking narratives but rather mental-slantedness/decandoring (distractive-alignment-to-reference-of-thought) of the

psychopath and the interlocutors as ‘a manifestation of vice-and-impediment (never contention), i.e. rEORIENTATION’,

5. Analyst’s intellectual articulation known as SUPRASTRUCTURING, wherein the universal ontological implication of social psychopathy dynamism across the human species (across space-and-time)/the-social/ontological-paradigm is drawn so that the principles so articulated can be applied in all incidental cases of social psychopathy dynamism (with the intellectual responsibility of avoiding just an ad hoc/circumstantial based analysis and never elevating such poor rationalisations into an ontology, i.e. avoid the extrication-paradigm). SUPRASTRUCTURING effectively involves: (a) ‘registering’/stranding-dialectics of the perversion-of-reference-of-thought associated with social psychopathy dynamism, i.e. procrypticism/disjointedness-as-of-reference-of-thought mental-slantedness/decanoring (b) ‘superseding’ by developing universal axiomatic construct/categorical-imperatives preempting ‘(a)’ above which are habituated over a generation or two of the human species for deprocrypticism institutionalisation/intemporalisation transcendence involving its formalisations and internalisations (psychoanalytic-unshackling by: (i) articulating a social universal-transparency of the registry-worldview-perversion, (ii) generating ontological-primemovers-totalitative-framework ‘internal contradiction’ in the perversion-of-reference-of-thought registry-worldview (iii) registering/stranding-dialectics the perversion-of-reference-of-thought perversion-of-reference-of-thought/mental-perversion/dimension defect for prospective preemption with new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the prospective registry-worldview/dimension (iv) intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic (being-dialectically-or-contendingly-out-of-

phase/logically-incongruent/transversal) to reflect/perspectivate a mental-devising-
 representation of the superseded/transcended registry-worldview/dimension as ontologically-
 demented/dialectical-demented (perversion-of-reference-of-thought/as
 structural/paradigmatic denaturing construed as being/ontological/existential-defect or the
 registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-
 accordance defect or intradimensional-defect/unsoundness-or-inauthenticity-of-reference-of-
 thought/mental-perversion/subknowledging/mimicking-and-corresponding-epistemic-
 totalising-self-referencing-syncretising), inducing a 'habituation' of the
 prospective/superseding/transcending registry-worldview/dimension cross-generationally.
 For instance, structurally the positivistic mental frame is in alienated-disposition/logically-
 incongruent and generates internal contradiction towards the non-positivism/medievalism
 mental frame as otherwise you have epistemic-totalising-self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag or the registering of meaning in terms-as-
 of-axiomatic-construct of the registry-worldview/dimension that needs to be
 superseded/preceded/overridden/abjected, for instance, retrospectively the 'god of plane'...
 type of proposition from an early animistic society which doesn't comes to terms with the
 prospective positivist worldview construct as it hangs on to its non-positivist reference-of-
 thought-categorical-imperatives/axioms/registry-teleology, and this will equally apply
 prospectively between deprocrypticism and procrypticism as the procryptic
 mindset/reference-of-thought will strive to register meaning not prospectively taking account
 of procrypticism as a 'mental perversion/defect', and likewise retrospectively with the
 'medieval mindset' with respect to the positivist mental frame. This obviously calls for an
 'intellectual/scientism detachment' towards the perversion-of-reference-of-thought registry-
 worldview/dimension, with an intemporal-disposition sense of contributing to the bigger
 possibilities for of the species, i.e.

intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm as opposed to an extricatory or incremental or ‘disjointedness-as-of-reference-of-thought’ or temporal-accommodation paradigm which is about temporal interest, and so, beyond ‘temporal emotional involvement’ or at ‘reality personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the nature of human temporality/shortness in an ontological construct).

This way of hermeneutic ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any epistemic-totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal as of the inherent nature of existential-reality’ is central to the Deprocripticism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the reference-of-thought–categorical-imperatives/axioms/registry-teleology devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as perversion-of-reference-of-thought in the mental-devising-representation of intrinsic-reality/ontological-veridicality, thus requiring new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology to ‘preserve the abstract and intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. Deprocripticism’s suprastructuralism involves ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-

reality/ontological-veridicality transcendental-enabling existence-potency-prospective-
 digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness so-construed as longness-of-register-of-meaningfulness-and-
 teleology over shortness-of-register-of-meaningfulness-and-teleology’; and so, beyond just
 about a prospective moral virtue but the prospective overall the-
 Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework
 construct as ‘ontology and its subsuming of virtue’, just as positivism is beyond just about a
 moral virtue but comprehensively an overall the-Good/understanding/knowledge-
 reification/ontological-primemovers-totalitative-framework construct carrying a virtue that
 supersedes the vices-and-impediments of the non-positivism/medievalism registry-
 worldview/dimension). It calls for a knowledge construct, whether social or physical,
 beyond just positivistic categorisation of knowledge but as ‘ontological-
 normalcy/postconvergence referentialism as of intemporal-preservation-entropy-or-
 contiguity–or–ontological-preservation ontology’. Thus, the doppler-thinking exercise of
 suprastructuralism enables the conceptualisation/construal of institutionalisation-or-
 intemporalisation-or-intemporal-preservation-entropy-or-contiguity–or–ontological-
 preservation in grasping the denaturing of reference-of-thought–categorical-
 imperatives/axioms/registry-teleology as of ontological-normalcy/postconvergence basis of
 analysis, and by so doing grasping the precedingness/supersedingness/ascendency of
 intrinsic-reality. [Referentialism involves a reference-of-thought (characteristic of
 deprocrypticism) construing existence and existential-conceptualisation/construal as about
 the ‘precedingness of becoming’ as of conflation rather than constitutedness (notwithstanding
 the instances of the latter’s contingent approximating-nature for conceptualisation/construal
 construed as presencing—absolutising-identitive-constitutedness). Constitutedness tend to
 fallaciously imply ‘existence of things in existence’ whereas conflation rightly implies

‘things becoming in existence rather as subsumed-in-existence in a superseding–oneness-of-ontology’; so because constitutedness takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-constitutedness of reference-of-thought’ perpetually when aware of its deficiency. Conflation takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) as of metaphysics-of-absence, and as implied by the notion of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that goes beyond <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasitic-drag-denatured-and-dementing-narratives of the registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication. Thus, constitutedness will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by constitutedness in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as a contingent resetting resolution for the

induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of axiomatic-
construct/reference-of-thought’ (by elaboration-as-mere-
extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-
contextualising-contiguity) that will then require another contingent resetting resolution for
the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of
reference-of-thought’ down the line when aware of its further critical defect again (though, in
a sense the entire recomposuring process could be qualified as a ‘practical presencing—
absolutising-identitive-constitutedness’ exercise). But then the inherent nature of existence in
relation to human limited-mentation-capacity-(as of relative constitutedness towards relative
conflation) construal of it is one of evasiveness as implied by the
‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-
reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-
thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—
rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-
ontologically-same-existential-reality’ such that we are only occasionally and partially aware
about the critical defective nature implied by constitutedness in categorisation schemes, thus
fundamentally defining the limits even of a presencing—absolutising-identitive-
constitutedness as of existential-conceptualisations/construals. The implication is beyond just
the notion of knowledge construal/conceptualisation categorisation schemes and scheming
but extends to the very inherent construal/conceptualisation of knowledge as of its implied
ontological and virtue construct itself; so because the structural/paradigmatic basis of
categorisation scheming are equally the structural/paradigmatic basis of the inherent analysis
and meaningfulness-and-teleology construed/conceptualised. Since categorisation schemes
(whether construed/conceptualised beyond-the-consciousness-awareness-teleology-in-
existential-extrication-as-of-existential-unthought) define the ‘reference-of-thought of

categorisation construal/conceptualisation of knowledge', it is critical to grasp that the inherent structural/paradigmatic limits/defects of such 'reference-of-thought of categorisation construal/conceptualisation of knowledge' are systemic hence inducing 'flawed-existential-elevation-of-reference-of-thought' as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/dementing-teleological-differentiation-as-of-subtransversality—apriorising/axiomatising/referencing) at the given 'reference-of-thought of categorisation construal/conceptualisation of knowledge'. Beyond its conceptualisation as of knowledge categorisation and categorisation scheming but rather as of effective ontological-and-virtue conceptualisation/construal, constitutedness implies a simplistic/trite categorical relation in the construal/conceptualisation of meaningfulness-and-teleology as of its ontological and virtue essence that is susceptible to defect as perversion-of-reference-of-thought or derived-perversion-of-reference-of-thought; and as such, constitutedness will speak of subtransversality—apriorising/axiomatising/referencing and various shades of temporality/shortness in their 'constitutedness and conjugated-constitutedness of reference-of-thought' including psychopathic slantedness constitutedness. The comparison highlighted further below with respect to the 6 BODMAS characters and character A (Addition) as the additionality defect character, is most telling of the inherent nature of human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) induced constitutedness which is conceptually associated with conceptualisation/construal of 'human temporal uninstitutionalised-threshold mental-disposition' (since such a construal fully reflect the reality of a human temporal-to-intemporal reference-of-thought nature, with high 'constitutedness and conjugated-constitutedness of reference-of-thought' of temporal-dispositions reference-of-thought, much like the 'conjugated-constitutedness of reference-of-thought' of the other BODMAS characters to A's fundamental postlogism-slantedness pathological condition/constitutedness as when insisting on upholding the

 and not factoring in A's underlying condition and defect as constitutedness, and so out of
 sync with the existential-contextualising-contiguity's-reifying/elucidating-of-prospective-
 relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-
 context as the more fundamental a priori whose imbricatedness/threadedness/recomposuring
 reveals the fundamental defect of applying additionality reference-of-thought—categorical-
 imperatives/axioms/registry-teleology by elaboration-as-mere-
 extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-
 contextualising-contiguity.). The resolution by imbricatedness/threadedness/recomposuring is
 most telling of the inherent nature of conflation which is conceptually associated with
 'human institutionalisation mental-disposition'; as conflation speaks of a more profound
 relation in the construal/conceptualisation of meaningfulness-and-teleology as of its
 ontological and virtue essence that is susceptible to uphold intemporal-preservation-entropy-
 or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which
 always factor in human limited-mentation-capacity-(as of relative constitutedness towards
 relative conflation) by a re-equilibrating metaphysics-of-absence/postdication, and so even
 when elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-
 elucidation-outside-existential-contextualising-contiguity is denaturing as exposed by
 existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-
 ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, to
 further construe new reference-of-thought—categorical-imperatives/axioms/registry-
 teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation
 factoring in the imbricatedness/threadness/recomposuring reflecting the existential-

contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Conflation, as so-construed in referentialism, by striving to sync with the very inherent evasive nature of existence in its imbricatedness/threadedness/recomposuring (with respect to human limited-mentation-capacity-(as of relative constitutedness towards relative conflation)) as of referentialism is absolutely referencing on the basis of ontological-normalcy or ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as being the preceding notion for construal/conceptualisation with respect to existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, and so grasped as conflation emphasises projective-insights for upholding ontological-normalcy or ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence conflation will tend to avoid systemic defects of analysis associated with constitutedness requiring re-categorisation/re-adaptation/re-classification as 'presencing—absolutising-identitive-constitutedness'. Conflation is thus naturally inclined to induce 'appropriate-existential-elevation-of-reference-of-thought' by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-dialectical-thinking-teleological-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing). As so articulated, these two concepts operantly address in a storied-construct or any other operant conceptualisation the notion of a 'Différance-disambiguation-of-ontologically-veridical-meaningfulness' as meaning produced apparently with the 'same-terms-of-expressions/seemingly-same-implied-meaningfulness' (seemingly of veridical-ontological reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in the various instances) but actually implying 'different relations to an ontologically veridical

reference-of-thought', underlined by the disambiguated temporal-to-intemporal-dispositions. Further, constitutedness and conflation, as so articulated, are such fundamental notions with respect to how humans limited-mentation-capacity-(as of relative constitutedness towards relative conflation) come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-understanding, and insightfully explain the fundamental basis of the consecutive transformations of human psychologisms as induced by 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' at the transcendental/transdimensional/interdimensional-level of institutionalisations as well as at the individuation-level with respect to conception and misconceptions of meaningfulness-and-teleology not only with respect to understanding but equally dynamics of 'personality formation and teleological-differentiation', and so specifically as associated with the dynamics implied of a human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, further reflected in the overall dynamics of postlogism and conjugated-postlogism (including the dynamics of psychopathy and social psychopathy as social reprising out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of psychopathic pathological insane-fitment, as of fundamental/most-simplistic constitutedness socially reprised with 'conjugated-constitutedness of reference-of-thought') as well as grasping fundamental dynamics of institutions and especially as influenced by the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) which is highly subject to the reality of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—

imbued-temporal-to-intemporal-dispositions—existentialism-form-factor (emphasising socially-functional-and-accordant thresholds rather than abject ontology, thus giving room for ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’). These two concepts are critical relative to grasping and analysing human choice/notions relative to reference-of-thought—categorical-imperatives/axioms/registry-teleology of meaningful-frameworks. Other implications have to do with human personality development psychology in relation to meaning and meaningfulness extending to the construal/conceptualisation of language development and the overall human ontological-contiguity—of-the-human-institutionalisation-process as well as aesthetics and ethics. In a further elaboration of constitutedness and conflation with respect to psychologism, the reason why a prospective/transcending/superseding registry-worldview/dimension needs its own knowledge-construct reference-of-thought psychologism has to do with the fact that every registry-worldview/dimension has ‘its own specific constitutedness/conflation psychological complex reflex mechanism’ wherein its limits in the construal/conceptualisation of intrinsic-reality/ontological-veridicality are defined, and this is subpar to the prospective/transcending/superseding registry-worldview/dimension knowledge-construct reference-of-thought which thus needs its own corresponding psychologism for its superseding meaningfulness-and-teleology, achieved by ‘presencing—absolutising-identitive-constitutedness’ as constitutedness re-categorisation/re-adaptation/re-classification’. Consider the example of the ‘God of plane’ type of expression in an animistic/base-institutionalisation setup, where their fundamental psychologism is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the line the latter’s meaningfulness-and-teleology epistemic-totalising—self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag, by way of continuous ‘presencing—
 absolutising-identitive-constitutedness’ as ‘recurrent re-categorisation/re-adaptation/re-
 classification of the prior constitutedness of reference-of-thought’ is critically rid of the very
 essence of animistic/base-institutionalisation psychologism inducing an overall break into a
 positivism psychologism. It is interesting to note that going by the psychologism of a base-
 institutionalisation social-setup reference-of-thought for instance, the idea of arithmetic as we
 may grasp today in a positivistic registry-worldview/dimension Being-
 development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
 infrastructure-of-meaningfulness-and-teleology, and as of its operant nature, isn’t the case in
 its operant conceptualisation in such a base-institutionalisation social-setup epistemic-
 totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-
 context as rather the mental-disposition
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in the use of
 numbers is more about acting in currying favours or in view to receiving favours
 meaningfully as of ‘epistemic-totalising_nominal-as-tendentious-phenomenal-
 abstractiveness-of-presencing-in-‘warped-consciousness’-enabling-
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
 incidenting-predicative-insights-of-existential-contextualising-contiguity’s-
 reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-
 thought-devolving-as-of-instantiative-context’ (as can be observed by anthropologists in
 various forms in many a hunter-gatherer and animist societies), rather than use of numbers
 considered as of such a relatively independent-domain and exactness of meaningfulness-and-
 teleology orientation as we construe of arithmetic and mathematics in say a universalisation
 or positivism registry-worldview/dimension Being-development/ontological-framework-
 expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-

and-teleology epistemic-totalising/circumscribing/delineating reference-of-thought-
 devolving. Thus use of numbers is defined by other ideas in such early hunter-gather and
 animist societies given Being-development/ontological-framework-expansion—as-to-depth-
 of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology like the
 notion of wealth accumulation, which will be predominantly about ‘inducing a sense of social
 obligation or faithfulness or deference’ from other persons, and so together with other
 cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc.
 Psychologism (as being central in conflation or rather ‘presencing—absolutising-identitive-
 constitutedness’ as recurrent re-categorisation/re-adaptation/re-classification of
 constitutedness), refers to the underlying human reflex mental scheme of a given registry-
 worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede
 its psychological complex in construing ontological-primemovers-totalitative-framework
 transcendental-enabling/sublimating and corresponding meaningfulness-and-teleology’. The
 bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation
 spontaneously articulate and relate to meaningfulness-and-teleology as humans in base-
 institutionalisation—ununiversalisation, who do not do likewise as humans in
 universalisation—non-positivism/medievalism, who do not do likewise as humans in
 positivism—procrypticism? Is it a difference in species, as of successive species? Obviously,
 no! As we know from history and anthropology that cultural diffusion has shown that all
 humans are able to come to terms and operate at the highest forms of human
 institutionalisation. This fundamentally points to the centrality of a registry-
 worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-
 setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising
 and determined by its specific limited-mentation-capacity-(as of relative constitutedness in
 relation to conflation) construal/conceptualisation as soundness-or-authenticity-of-reference-

of-thought'. The underlying human psyche is in need of a 'framework of intelligibility construal/conceptualisation' as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-(as of relative constitutedness towards relative conflation), can then project 'mental and existential investment' in a world of perceived stakes (social, natural and/or supernatural) in a 'social framework of intersolipsistic deambulation' (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-(as of relative constitutedness towards relative conflation) determining its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the 'social framework of intersolipsistic deambulation'. This 'social framework of intersolipsistic deambulation' is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulations/institutional-recomposures which are thus equally in a linearity. This notion of 'social framework of intersolipsistic deambulation' harkens back to that of human institutionalisation by its socially-functional-and-accordant thresholds of temporal-to-intemporal-dispositions further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation's reference-of-thought-categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought-categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted

representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence, the present registry-worldview's/dimension's reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness-of-reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a 'contingent ontologising-capacity driven apriorising/axiomatising/referencing-psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' that is counterintuitive to a stigmatic/mented psychology as conceptualised today. As we come to recognise that such an approach renders the meaningfulness-and-teleology as value-reference of every registry-worldview/dimension at the backend of the institutional-cumulation/institutional-recomposure as the absolute determinant of what can be psychology, with a naivety that doesn’t allow consciously, (as consciously decentering and pivoting with respect to human psychical and institutionalisation implications), for prospective transcendence, as it doesn’t

factor in the said registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought to then project that there may be a prospective relative-ontological-completeness-of-reference-of-thought which meaningfulness-and-teleology as value judgment transforms psychological-construal/psychologism. The best possible outcome in this regard is as of the construal of a ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as it establishes prospective relative-ontological-completeness-of-reference-of-thought by social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. As setting up the relevant contingent psychologism is only by a construal that the best possible psychology-construct/psychologism is necessarily attained by successive registry-worldviews/dimensions construals/conceptualisations by their contingent prospective relative-ontological-completeness-of-reference-of-thought by social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (that is, ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’), and so successively across all registry-worldviews/dimensions, whether retrospectively or prospectively. This insight about the nature of a mented/stigmatic psychology compares with the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in both instances, human mentation capacity is construed as absolutely given at all times, with

that mentation capacity rather ‘reflexively and erroneously’ absolutely construed as of the positivistic mindset/reference-of-thought, and what is not factored in is the fact that there is a human limited-mentation-capacity that maximalisingly-recomposures as of human shallow to deeper limited-mentation-capacity inducing the successive registry-worldviews/dimensions institutionalisations reference-of-thought with their own ‘specific institutionalisation/uninstitutionalised-threshold mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ as of their prospective relative-ontological-completeness-of-reference-of-thought with respect to their social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; with the implications being that social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as of prospective relative-ontological-completeness-of-reference-of-thought redefines prospective meaningfulness-and-teleology and the corresponding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, implying an epistememic-totalising–renewing-realisation/re-perception/re-thought based on prospective maximalising-recomposuring-for-relative-ontological-completeness ultimately as of ‘notional-deprocrypticism’; as this consciously factors in the reality of the need of transcendence as decentering/pivoting with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and overall existential becoming. This validates the notion of ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as of its construing of notional-deprocrypticism as ‘deprocrypticism suprastructuration’ or ‘deprocrypticism suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology as of the

overall registry-worldview/dimension reconstrual of superseding–oneness-of-ontology’ (enabling the epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context/conflation of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of the deprocrypticism socially-functional-and-accordant as of intemporal/ontological contiguity, with no-temporal-to-intemporal-dispositions-non-dissociability, thus upholding deprocrypticism as preempting—disjointedness-as-of-reference-of-thought-as-lacking-in-epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity-as-to-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules). Thus, with notional-deprocrypticism further enabling the abstract intemporal/ontological contiguity grasp of human ‘individuation-level and registry-worldview/dimension-level meaningfulness-and-teleology’ as it can accrue at the intradimensional-level of individuals-notionally-as-receptacles-of-temporal-to-intemporal-individuations and individuals-as-institutionally-constrained-actors-as-of-intersolipsistic-deambulation, and hence ontologically-adjoins in its construal/conceptualisation the construct of the individual and the social as of ‘deprocrypticism suprastructuration’ or ‘deprocrypticism suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsis-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding–oneness-of-ontology’ (just as in the natural sciences, physics ontologically-adjoins chemistry and chemistry ontologically-adjoins biology). This is in contrast with an ontologically non-contiguous stigmatic/mented psychology construct which relative ‘third-

level presencing—absolutising-identitive-constitutedness’ largely limits its notion to ‘affect’, and not a full-blown ontological-contiguity as conflation elaborated ‘meaningfulness-and-teleology’ determination in full ontological converging with the social (as metaphysics-of-absence of the social, ‘conflation psychologism’ based on ‘temporal-to-intemporal contrastive-synopsising-depths-of-meaningfulness-and-teleology’ going by the ‘referentialism technique of point-referencing, explained elsewhere,’ that restores existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in undermining procrypticism or disjointedness-as-of-reference-of-thought). Hence by recurrent re-categorisation/re-adaptation/re-classification of constitutedness of reference-of-thought as a ‘presencing—absolutising-identitive-constitutedness’ exercise at worldview-level, institutional-level and operant-level of meaningfulness-and-teleology, the requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for epistemic-totalising–renewing-realisation/re-perception/re-thought for prospective transcendence is achieved. Insightfully, (beyond ‘presencing—absolutising-identitive-constitutedness’) the full <formative>projective-totalitative–implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity of conflation as implied with referentialism as the underlying transcendental memetic/suprastructural-meaningfulness fugue reflecting existential-reality will take an even more critical bearing with respect to deprocrypticism psychologism as unlike the articulation as presencing—absolutising-identitive-constitutedness (rather heuristically and beyond consciousness-awareness-teleology) in previous institutional-cumulations/institutional-recomposures, with deprocrypticism conflation is rather bound to be perceived and construed as of the (recomposured)-consciousness-awareness-teleology in its full potential on the basis of referentialism as of the full development of ontological-normalcy/postconvergence. Thus, the notion of conflation

(including ‘presencing—absolutising-identitive-constitutedness’) can be conceptualised across all transcendences as providing the ‘centering platform’ (that reflects the imbricatedness/threadedness/recomposuring of existential-reality as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) as the prospective registry-worldview/dimension institutionalisation reference-of-thought, for ‘decentering’ the prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought in its ‘constitutedness and conjugated-constitutedness of reference-of-thought’ with respect to the prospective registry-worldview/dimension institutionalisation reference-of-thought overall existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context meaningfulness-and-teleology; (as ontology/ontological-veridicality/intrinsic-reality increasingly supersedes ‘prior-conventioning as social-aggregation-enabling’, wherein for instance scientific explanations psychologism (as of prospective conflation) supersede mythical/supernatural/alchemic explanations psychologism (as of prior constitutedness) as ‘prospective-conventioning as transcendental-enabling/sublimating’; interestingly, highlighting how and why transcendence for prospective institutionalisation is construed in transcendental-enabling/sublimating terms as its strive for a prospective relative-ontological-completeness-of-reference-of-thought necessarily implies a more profound grasp of intrinsic-reality/ontological-veridicality with respect to the prior as uninstitutionalised-threshold prior relative-ontological-incompleteness-of-reference-of-thought revealing which by reflex adopts a social-aggregation-enabling disposition with respect to the prior-conventioning). In this respect, ultimately the full achievement of conflation will involve fully expanding the sphere of relative intrinsic-

reality/ontological-veridicality transcendental-enabling/sublimating, as of ‘intemporal knowledge constraining construct’, for thorough construal/conceptualisation of social reality which is relatively highly prone to ‘constitutedness and conjugated-constitutedness of reference-of-thought and thus resultant presencing—absolutising-identitive-constitutedness’ as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) to constitutedness as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by ‘presencing—absolutising-identitive-constitutedness’ when aware of defective constitutedness) with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and its overall existential becoming, as so reflected in the succession of registry-worldviews/dimensions; deprocrypticism by its very transcendental essence comprehensively comes into grips with the constitutedness in positivism–procrypticism as it attains more than just ‘presencing—absolutising-identitive-constitutedness’ but an overall comprehensive conflation insight as of ontological-normalcy/postconvergence referentialism for superseding positivism–procrypticism. Conflation as of ontological-normalcy/postconvergence referentialism in superseding constitutedness, provides resolution as of 3 aspects of meaningfulness-and-teleology: firstly, with respect to temporal instigating as constitutedness like psychopathic-slantedness insane-fitment ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation and its derivation with respect to temporal reprisings of such constitutedness as ‘conjugated-constitutedness of reference-of-thought’ associated with conjugated-postlogism temporal reprisings by construing/conceptualising such perversion-and-derived-perversion-of-

reference-of-thought phenomenon, and re-establishing social universal-transparency that by itself is the fundamental basis for human knowledge-and-virtue; secondly, articulating the universal aetiologisation/ontological-escalation as of ontological-reconstituting-as-of-conflatedness; and thirdly, highlighting the structural/paradigmatic pivoting/decentering as prospective ontological-completeness-of-reference-of-thought possibilities. It should be noted that ‘a mentation reflex as decentered and in ontological-dementation/dialectical-dementation–stranding/attributive-dialectics’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and dialectical-thinking’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and dialectical-thinking’ instead of ‘a mentation reflex as decentered and in ontological-dementation/dialectical-dementation–stranding/attributive-dialectics’. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence, the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as the necessary/requisite backdrop for the construal of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ushering in deprocrypticism as prospective

institutionalisation. In this regard, we'll certainly inherently relate to preceding successive uninstitutionalised-thresholds of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in ontological-dementation/dialectical-dementation–stranding/attributive-dialectics, though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-thresholds by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in ontological-dementation/dialectical-dementation–stranding/attributive-dialectics); while we can recognise successively the centered and dialectical-thinking nature of base-institutionalisation, universalisation and positivism, though probably less so of deprocrypticism institutionalisation as it points to the decentering and ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of conflation as of centering and dialectical-thinking reference-of-thought implied with institutionalisations and constitutedness as of decentering and ontologically/dialectically-dementing reference-of-thought implied with uninstitutionalised-thresholds; prompting the respective institutionalisation and uninstitutionalised-threshold psychologisms as of the apriorising/precedingness of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context reflecting this reality beyond and above our subpar epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought in positivism–procrypticism from a deprocrypticism perspective, just as we'll recognise for instance that a universalisation–non-positivism/medievalism

mental-disposition contending against positivism institutionalisation meaningfulness is actually acting out a subpar epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought as of the apriorising/precedingness of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context reflecting this reality beyond and above it from the positivism perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as decentered and in ontological-dementation/dialectical-dementation-stranding/attributive-dialectics of an uninstitutionalised-threshold is hardly just one of 'simplistic knowledge elucidation' but rather an elucidation as of intellectual courage in bluntly asserting decentering and ontological-dementation/dialectical-dementation-stranding/attributive-dialectics. Intellectual courage as imbuing knowledge with organic profoundness of intemporal philosophy rather than just a mechanical construct of technicalities is the central driver for all initiated transcendences and prospective institutionalisations, as this goes beyond intellectual institutional-being-and-craft, since there is 'no magical knowledge technicality' for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness-of-reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is 'altogether not a knowledge elucidation problem' with respect to the implied representation of uninstitutionalised-threshold as decentered and in ontological-dementation/dialectical-

dementation—stranding/attributive-dialectics but rather a ‘psychological complex issue’ of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in ‘psychologism terms as of epistemic-totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag’, as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; as more fundamentally, Galileo’s use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset/reference-of-thought has ‘mentally shut-off’ to, but fundamentally about the ‘psychological complex’ of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (epistemic-totalising—renewing-realisation/re-perception/re-thought foundation as new placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology) requisite knowledge or meaningfulness-and-teleology reference-of-thought. Such equally applies with respect to deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence is construed not in terms-as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms-as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretionary contemplative aspect of the knowledge, behind the

thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretionary contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primemovers-totalitative-framework outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought conjure up explanations/meaningfulness-and-teleology in terms-as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence requiring its own reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating ontological-primemovers-totalitative-framework outcomes as its mechanical-knowledge aspect but further requires a development of the discretionary contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsis-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold psychologism. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied reference-of-thought of meaningfulness-and-teleology as of cross-generational psychoanalytic-unshackling involving epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the ultimate cross-generational alignment to the prospective/transcending/superseding registry-worldview reference-of-thought, as a positivistic registry-worldview reference-of-thought. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal projecting mental-disposition’ behind ontological-primemovers-totalitative-framework validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contiguity as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across all the successive registry-worldviews as at all their uninstitutionalised-threshold temporal-individuations-as-shortness-of-register-of-meaningfulness-and-teleology are a drawback to transcendence (by adherence to <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-

development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation meaningfulness-and-teleology implies that transcendence rather reasoned in our positivism–procrypticism terms of psychologism is inevitably denaturing as of ontological-normalcy/postconvergence epistemic/notional_projective-perspective; as it is in need of the organic-knowledge of the prospective institutionalisation psychologism or deprocrypticism psychologism as conflatedness (conflation psychologism) on the basis of the ‘referentialism technique of point-referencing (explained elsewhere), which involves ‘contrastive temporal-to-intemporal synopsising-depth from a deprocrypticism perspective’ that re-establishes existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context and in so doing undermines the relatively defective terms of ‘positivism–procrypticism uninstitutionalisation psychologism’ (disjointedness-as-of-reference-of-thought) and setting up ‘deprocrypticism organic-knowledge institutionalisation psychologism including the discretionary contemplative as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality aspect in preempting—disjointedness-as-of-reference-of-thought or upholding jointedness’, as structurally/paradigmatically transcending the overall vices-and-impediments of positivism–procrypticism registry-worldview/dimension. The further implication is that deprocrypticism is rather construed as a perpetuating metaphysics-of-absence which driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality can then enable that way the perpetual upholding of organic-knowledge. This ‘mechanical-knowledge by organic-knowledge’ implication for conceptualising institutional-cumulations/institutional-recomposures is validated by ‘contingent ontologising-capacity driven

apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. This can be further expounded as follows in similar terms. The ontological-contiguity—of-the-human-institutionalisation-process behind the institutional-cumulations/institutional-recomposures doesn’t only imply that the ontological-contiguity—of-the-human-institutionalisation-process is simplistically the result of ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ successively as: non-rules-as-impulsive-or-accidented-or-random-mental-disposition in recurrent-utter-uninstitutionalisation, ‘rulemaking-over-non-rules’ in base-institutionalisation–universalisation, ‘universalisation-directed-rulemaking-over-non-rules’ in universalisation–non-positivism/medievalism, ‘positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules’ in positivism–procrypticism, and prospectively in deprocrypticism, ‘preempting—disjointedness-as-of-reference-of-thought-as-lacking-in-epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity-as-to-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules’. Rather the ontological-contiguity—of-the-human-institutionalisation-process is driven by human limited-mentation-capacity as of deepening limited-mentation-capacity in the human drive to grasp a same intrinsic-reality/ontological-veridicality that doesn’t change with respect to existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness (with change rather reflected as a result of human limited-mentation-capacity-deepening), such that in addition to the human limited-mentation-capacity-deepening eliciting the successive ‘social-universally-transparent-and-implicitly-formulated direct-constraining-

construct’ as highlighted above equally inherently imply (and so, as of complement to human limited mentation capacity), a grander non-constraining element qualified as ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ in-complement-to and reflecting the incompleteness of the ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’; with both the ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ and the ‘complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ implying the ‘organic-knowledge’ while just the ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ is the ‘mechanical-knowledge’. The underlying idea is that an individuation in recurrent-utter-uninstitutionalisation notwithstanding its non-rules-as-impulsive-or-accidented-or-random-mental-disposition (social-universally-transparent-and-implicitly-formulated direct-constraining-construct), wherein human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor still applies and if they project intemporally/longness-of-register-of-meaningfulness-and-teleology, is not necessarily utterly devoid of a basic sense of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as virtue-as-of-ontological-emancipation on the basis that it doesn’t recognise rulemaking-over-non-rules as of ‘mechanical-knowledge’, but while that can as well be the case when projecting temporally/shortness-of-register-of-meaningfulness-and-teleology as of the registry-worldview’s/dimension’s-reference-of-

thought-for-social-functioning-and-accordance in such a setup as not constrained by any
 rulemaking-over-non-rules (based on mere ‘mechanical non-knowledge’ of non-rules-as-
 impulsive-or-accidented-or-random-mental-disposition in recurrent-utter-
 uninstitutionalisation), however at the intemporal-threshold as of the registry-
 worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance
 notwithstanding its limited-mentation-capacity, by intemporal-projection it will be able to
 summon heuristically a sense of the-Good/understanding/knowledge-reification/ontological-

 ‘rulemaking-over-non-rules’ as the new ‘mechanical-knowledge’ as well as implying the

 forming the new ‘organic-knowledge’. Likewise, base-institutionalisation–ununiversalisation
 too by dynamic-cumulative-aftereffect at its intemporal-threshold of the registry-

worldview's/dimension's—reference-of-thought-for-social-functioning-and-accordance

notwithstanding limited-mentation-capacity, the intemporally projecting individuation will be able to summon heuristically a sense of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework, from its 'complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation', (beyond the mere 'mechanical-knowledge' of 'rulemaking-over-non-rules') as 'organic-knowledge', for maximalising-recomposuring-for-relative-ontological-completeness (as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm) leading by a dynamic-cumulative-aftereffect to the subsequent prospective universalisation—non-positivism/medievalism as of the new 'social-universally-transparent-and-implicitly-formulated direct-constraining-construct' of 'universalisation-directed-rulemaking-over-non-rules' as the new 'mechanical-knowledge' as well as implying the 'complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation', with both forming the new 'organic-knowledge'. The ontological-contiguity—of-the-human-institutionalisation-process carries on this way right up to deprocrypticism, such that across the successive institutionalisations apart from the intemporal-threshold of the registry-worldview's/dimension's—reference-of-thought-for-social-functioning-and-accordance as explained above; with respect to temporal-thresholds of the registry-worldview's/dimension's—reference-of-thought-for-social-functioning-and-accordance or

defect of incidenting-as-social-performance of the registry-worldview's/dimension's—reference-of-thought-for-social-functioning-and-accordance, temporal mental-dispositions are rather in arrogation/usurpation relation with the determinant nature of 'social-universally-transparent-and-implicitly-formulated direct-constraining-construct' as 'mechanical-knowledge', and so as <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology, while failing/not-upholding-as-of-apriorising/axiomatising/referencing the 'complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation' which together with the 'mechanical-knowledge' make up the 'organic-knowledge', and so rather as of temporal extricatory paradigm. This further involves shades-of-temporality as postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of 'reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing' inducing defects of logical-processing-or-logical-implication as well as postlogism inducing defect of reference-of-thought or perversion-of-reference-of-thought. Postlogism as such involves deliberate and wrong pretence of rational projection of thought (as of teleologically-degraded synopsis-ing-depth) whereas existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-

completeness-of-reference-of-thought-devolving-as-of-instantiative-context reveals that such thought derives from ‘denaturing axiomatic relation’ as the <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the reference-of-thought—categorical-imperatives/axioms/registry-teleology of mechanical-knowledge as deterministic for temporal/shortness-of-register-of-meaningfulness-and-teleology purpose in disdain of the intemporal/longness-of-register-of-meaningfulness-and-teleology essence of knowledge as of its organic essence. The conjugation of other shades-of-temporality to postlogism induces their respective conjugated-postlogism leading by dynamic-cumulative-aftereffect to a broader social derived-perversion-of-reference-of-thought construed as social-postlogism that fundamentally is denaturing of meaningfulness-and-teleology at the given uninstitutionalised-threshold as apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing, in want for prospective institutionalisation. The underlying insight being that human formulation of meaningfulness-and-teleology is necessarily incomplete because of its limited-mentation-capacity and thus comes with an inherent sense/projection of ontological-appropriateness, and as of human developing ontological-completeness-of-reference-of-thought, as the driving element in upholding ontological-contiguity/ontological-veridicality. This notion as reflected by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality (as it enables the further expansion of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance intemporal-thresholds and so as of ontological-emancipation-beyond-just-virtue) should be the critical and decisive constructive/institutionalising element for attaining deprocrypticism wherein the ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ as mechanical-knowledge is construed as overlapping with the ‘complementing grander social-

universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-

 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driven ontological-
 contiguity—of-the-human-institutionalisation-process points to the fact that the traditional
 construal of knowledge often tacitly as of intemporal/longness-of-register-of-meaningfulness-

 and doesn’t fit with the reality of human-subpotency—aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor as upheld by the mediocrity principle underlying a
 rational-realism perspective, and explains why articulating knowledge merely as
 ‘mechanical-knowledge’ is bound to lead to its distortion/perversion/misconstrual by the
 mere fact of human temporal/shortness-of-register-of-meaningfulness-and-teleology mental-
 disposition adhering rather to <formative>wooden-language—of-temporal—mere-

 underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-
 reality to overcome such distortion/perversion/misconstrual; as in fact despite such a vague
 idealism as intemporal-romanticism, implicitly where highly pressing we tend to be obliged
 to recognised this temporal-to-intemporal reality as implied in the way we go about
 developing many a social formal construct. Thus deprocrypticism knowledge as overlapping

the mechanical with the organic, as of the intemporal/longness-of-register-of-meaningfulness-and-teleology mental-disposition driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the mechanical-knowledge, is a further validation of the idea of notionalisation of knowledge which emphasises in principle and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemporal human disposition in relating to mechanical-knowledge as of prospective possibilities for a better preempting of temporality/shortness and skewing towards the intemporal/longness-of-register-of-meaningfulness-and-teleology, and so as of organic-knowledge overlapping. Further, the reality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor means that human meaningfulness at all times is more of ‘a solipsistic transversality-of-disambiguated-apriorising/axiomatising/referencing of human meaningfulness as of temporal-to-intemporal mental-dispositions transversality-of-disambiguated-apriorising/axiomatising/referencing’ and ‘not a ‘solipsistic commonness of meaningfulness that wrongly implies no temporal-to-intemporal mental-dispositions’, as any commonness is ‘a commonness implied with respect to secondnaturing institutionalisation as of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction thresholds’, with the implication that there is no point acting and relating with knowledge as if it is about a solipsistic transformation into intemporality/longness but rather relating to it as a secondnaturing exercise of skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating or deferential-formalisation-transference) with respect to the institutionalisation/intemporalisation process as virtue (a notion equally implied by many a prophesying metaphysico-theological construct as the intemporality/longness and

transcendental projections as of their limited-mentation-capacity in their own times in resolving the issues of human temporality/shortness in their times). In which case while such intemporality/longness cannot be construed as of a social commonness of reference-of-thought, it's occurrence if it does occur can only be construed in transversality-of-disambiguated-apriorising/axiomatising/referencing (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzschean metaphor 'God is dead', as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual and moral sublimity, and not the notion of intellectual and moral decadence. *Thus to sum up, the overall notion of conflation in relation with other elucidative associated notions can further be clarified as follows in 'interdimensional/transdimensional/transcendental terms in reflecting the ontological-contiguity—of-the-human-institutionalisation-process' as well as 'individuation terms of human temporal-to-intemporal mental-dispositions'. With regards to the interdimensional/transdimensional/transcendental ontological-contiguity—of-the-human-institutionalisation-process level, we can construe of conflation as of the epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-'protensive-consciousness'-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context potency implied as of ontological-normalcy/postconvergence and reconstrued in the successive prospective relative-ontological-completeness-of-reference-of-thought, wherein the referentialism technique for

conflation known as point-referencing delineates/disambiguates the various institutional-cumulations/institutional-recomposures as of ontological-normalcy/postconvergence revealing their ‘contrastive-synopsising-depths-of-meaningfulness-and-teleology’ as the varying synopsising-depth of human meaningfulness-and-teleology (recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism which as ‘notional-deprocrypticism’ is the ‘point of point-referencing for conflation’, by the construal of its ontological-contiguity—of-the-human-institutionalisation-process reference-of-thought as of ontological-normalcy/postconvergence), with respect to the same intrinsic-reality/ontological-veridicality such that such varying is attributed to human limited-mentation-capacity-deepening as of conflatedness (or construed as from constitutedness/‘presencing—absolutising-identitive-constitutedness’ to conflation) inducing both the registry-worldviews/dimensions institutionalisation-facets (‘centered/in-phase’ and ‘dialectical-thinking’) and uninstitutionalised-threshold-facets (‘decentered/out-of-phase’ and dialectically-dementing as hollow-staging-and-performance-caricaturing). Supposed a notional conflatedness or conflation abstraction across all the registry-worldviews/dimensions on the basis of the referentialism technique of point-referencing (‘notional-deprocrypticism-or-as-from-recurrent-utter-uninstitutionalisation—to-deprocrypticism’) is undertaken with respect to establishing ‘reference-of-thought/structural/paradigmatic—ontological-performance-including-virtue-as-ontology relative to social-stake-contention-or-confliction’, it will fundamentally be perceived sceptically by the respective uninstitutionalised-thresholds as it ‘decenters and dementes beforehand/as-of-a-priori’ as of their respective prior relative-ontological-incompleteness-of-reference-of-thought, so implied by their given social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-

rendering its meaningfulness-and-teleology apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing at the positivism–procrysticism uninstitutionalisation, while it ‘pointlessly strives to be centered and dialectical-thinking by reflex’ by not recognising its uninstitutionalised-threshold or the procrysticism uninstitutionalisation reference-of-thought in disjointedness-as-of-reference-of-thought (as all ‘present-states’ of registry-worldviews/dimensions do by reflex), and thus rather involved in epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaning as of epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. But then we know and can appreciate that all the prior registry-worldviews/dimensions were ‘decentered and dementing beforehand/as-of-a-priori’ going by ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. This ‘anti-transcendence as anti-uninstitutionalised-threshold and anti-prospective institutionalisation mental-disposition’ of all ‘present-states’ of all registry-worldviews/dimensions is due to the fact of such ‘present-states’ epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag desymmetrisation alignment overly-overemphasising the registry-worldview/dimension institutionalisation-facet in a corresponding relation with a dissymmetrical alignment over underemphasising its uninstitutionalised-threshold-facet, but with such representation becoming critically ontologically untenable at the registry-worldview/dimension uninstitutionalised-threshold where meaningfulness-and-teleology breaks into hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument.  of its referential and ontological-normalcy/postconvergence emanance perspective and as a
 doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across
 the entire social construction-of-meaning called deprocrypticism, much like positivism did
 over non-positivism/medievalism or universalisation over ununiversalisation or base-
 institutionalisation over tter-uninstitutionalisation. Central to such ‘a universal notion of
 deprocrypticism’ is the idea of an abject-recomposuring-ontologising by upholding
 ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-
 preservation-entropy-or-contiguity—or—ontological-preservation, involving postdication with
 postdicatory techniques and postdicatory mindset/reference-of-thought in reflection of the
 suprastructural and ontological-normalcy/postconvergence nature of intrinsic-reality (more
 like the positivistic registry-worldview is all about existential positivistic conceptualisations,
 positivistic techniques and basic positivistic mindset/reference-of-thought superseding
 existential alchemic conceptualisations, alchemic techniques and a basic alchemic
 mindset/reference-of-thought that defined the non-positivism/medievalism registry-
 worldview/dimension); involving ensuring intemporal-disposition organic-comprehension-
 thinking that upholds-and-is-the reference-of-thought for ontological-contiguity/ontological-
 veridicality, over mechanical-comprehension-dementing in hollow-constituting—as-

disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation by temporal-dispositions meaningfulness hotchpotching/disjointing’ as perverted-and-derived-perverted-reference-of-thought and induces notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> as of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument.] In the bigger picture of human institutional transcendence, this is very much in line with the transcending/superseding of human uninstitutionalised-threshold ‘with increasing cumulation of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity’ that defined the successive institutional-cumulations/institutional-recomposures specificities as: existential base-institutionalising with base-institutionalising techniques and base-institutionalising mindset/reference-of-thought (Base-institutionalisation); existential universalising with universalising techniques and universalising mindset/reference-of-thought (Universalisation); existential positivising/rational-empiricism with positivising techniques and positivising mindset/reference-of-thought (Positivism); and prospectively ‘existential ontologising’, and so beyond its conventioning incrementalism-in-relative-ontological-incompleteness disjointedness-as-of-reference-of-thought as of temporal-accommodation of positivistic meaningfulness, as ‘existentially abject postdicatory ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation’, with postdicatory methods and techniques and an overall postdicatory mindset/reference-of-thought (Deprocrpticism). Existential ontologising is effectively the human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology aspiration towards a fulsome grasp of intrinsic-reality/full-ontological-veridicality as fulfilling ontological-normalcy; all along the institutional-cumulation/institutional-recomposure levels but for incomplete human

placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity the preceding institutionalisation levels are more like successive compromises towards deprocrypticism as ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). A critical distinction between deprocrypticism institutionalisation and positivistic institutionalisation has to do with the former uncompromising relation with respect to upholding ontological-contiguity thus overcoming the temporal-emananances-registries hotchpotching (averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> or banality-of-thought dynamism, and specifically in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) even though it is very much present in the formal sphere as well) and the incrementalism-in-relative-ontological-incompleteness and notional-disjointedness-as-of-reference-of-thought inherent in the positivistic mindset, thus the latter tends relatively to be weakly ontologically-contiguous with all the existential implications thereof, whether with regards to virtue construal or subject-matters issues. Further as with all transcendences, the transcendence going from procrypticism, or the dialectical-dementing (perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag) of positivistic meaningfulness-and-teleology, to deprocrypticism will involve a psychoanalytically demented deconstruction/ontological-reconstituting—as-of-conflatedness of our present positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology wherein this is presently stranded-as-straight/candored-and-dialectically-or-contendingly-in-phase to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology wherein

the deprocrypticism mindset/reference-of-thought reflects/perspectivates the positivistic
 placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-
 teleology at its uninstitutionalised-threshold in hollow-constituting—as-disjointed-
 misappropriation-of-meaningfulness-and-failing-intemporal-preservation or stranded-as-
 oblongated/decandored-and-dialectically-or-contendingly-out-of-phase. So the
 deprocrypticism institutionalisation (as a renewed existentialism/full-depth-of-existential-
 implications meaningfulness-and-teleology or memetic-refinement) ontologising involves an
 ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-
 reconstituting—as-of-conflatedness as dialectical transformation, as-prospective reference-of-
 thought, of intradimensional-meaningfulness psychoanalytically into-dementation/as-
 dementing of our present positivistic mindset/reference-of-thought at its uninstitutionalised-
 threshold. Even though as with all transcended registry-worldviews/dimensions such an
 implied veridical placeholder-setup/mental-devising-representation/mentation/consciousness-
 awareness-teleology will probably sound unintelligible/existentially-suprastructural due to
 our positivistic illusion-of-the-present/epistemic-totalising—self-referencing-
 syncretising/present-consciousness/mirage; as the reference-of-thought, in articulating
 ontological-normalcy/postconvergence and the suprastructural nature of intrinsic-
 reality/ontological-veridicality, moves away from a positivistic registry-worldview
 registrying/dueness to a deprocrypticism registry-worldview registrying/dueness with the

dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (just as successive registry-worldviews/dimensions reference-of-thought, in a conceptual grasp of ontological-normalcy/postconvergence and the suprastructural nature of intrinsic-reality/ontological-veridicality, had priorly moved from an utter-institutionalisation registrying/dueness/existentialism to a base-institutionalisation registrying/dueness/existentialism, to a universalisation registrying/dueness/existentialism and then presently a positivistic registrying/dueness/existentialism, with corresponding ontological-dementation/dialectical-dementation—stranding/attributive-dialectics stranding prospective/superseding/transcending registry-worldviews/dimensions meaningfulness as organic-comprehension-thinking and the prior/superseded/transcended registry-worldviews/dimensions meaningfulness as mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation; as-and-when-it-is-established that an institutionalisation is no longer intemporal-preservational, when it is ‘perversion-of-reference-of-thought its reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at its uninstitutionalised-threshold). It should be noted that human uninstitutionalised-threshold refers to the point where a specific institutionalisation is failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation by a formulaic adherence (lip-servicing) to reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation hence attaining its uninstitutionalised-threshold wherein the ontological-veridicality of the mental-devising-representation is ‘in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and not organic-comprehension-thinking’, and we can envision retrospectively

the points of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of preceding registry-worldviews/dimensions from our vantage point of being at the backend of the institutional-cumulation/institutional-recomposure process like an insight in the recurrent-utter-institutionalised ‘so-called savage’ mindset/reference-of-thought or the medieval mindset, for instance. Likewise such a mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation registry-worldview projection though of a different nature of the positivistic registry-worldview/dimension can be made prospectively from a deprocrypticism insight that overrides our illusion-of-the-present/epistemic-totalising—self-referencing-syncretising/present-consciousness/mirage given its more suprastructural and ontological-normalcy/postconvergence vantage perspective in relation to intrinsic-reality/ontological-veridicality/ontological-referencing. The general underlying principle for deprocrypticism methods and techniques is that of being abjectly ontologising, beyond positivistic meaningfulness conventioning and temporal-accommodation as ‘ontologically-reconstituting/deconstruction’ for undermining notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> arising from temporal-dispositions perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and as it upholds veridical ontological-veridicality/ontological-contiguity as the veridical reference-of-thought; which is what is actually up for contention and is effective contention (organic-comprehension-thinking) over what is being ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>’, and is actually dementing (mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) and not contending.] When implied specifically with regards to psychopathy and social

awareness-teleology capacity for upholding positivism/rational-empiricism; and prospectively, for deprocrypticism the circumspection will involve contrastive temporal-to-intemporal-dispositions analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity for upholding the intemporal-disposition as ontology. Critically, human analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-thinking and mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, respectively as the mental-devising-representation of dialectical-thinking representation and dementing representation. Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments but such a social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism. The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander deprocrypticism institutionalisation level within the treatment of the institutional-cumulations/institutional-recomposures meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework backdrop and background that informs and deepens

understanding of the overall meta-conceptual analysis of perversion-of-reference-of-thought issues [issues arising from the tempering or false implying of the apriorising—registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology and thus inducing a fundamental flaw with the reference-of-thought in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implication], which in turn further enlighten the incidental analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation.

It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its ontological-primemovers-totalitative-framework, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemporalisation entropy (intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) involves:

- recurrent-utter-uninstitutionalisation [initial state of ‘perversion-of-reference-of-thought’ that intemporally calls for the introduction of reference-of-thought—categorical-

imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation as base-institutionalisation),

- base-institutionalisation institutionalisation/intemporalisation [whose reference-of-
thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation ‘perversion-of-reference-of-thought’ as
ununiversalisation intemporally calls for universalisation],

- universalisation institutionalisation/intemporalisation [whose reference-of-thought–
categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-
contiguity–or–ontological-preservation ‘perversion-of-reference-of-thought’ as non-
positivism/medievalism intemporally calls for positivism],

- positivism institutionalisation/intemporalisation [prospectively, whose reference-of-
thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-
entropy-or-contiguity–or–ontological-preservation ‘perversion-of-reference-of-thought’ as
procrypticism intemporally calls for deprocrypticism],

- and prospectively deprocrypticism institutionalisation/intemporalisation [whose
reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-
preservation-entropy-or-contiguity–or–ontological-preservation will carry the ‘virtuous and
intellectual responsibility’ to recognise that ‘perversion-of-reference-of-thought is an
endemic human mental defect/perversion disposition retrospectively to prospectively, and
that this is ‘a lost cause’ due fundamentally to mediocrity principle of humans having in
reality ‘temporal-to-intemporal-dispositions’ and not ‘universal intemporal-disposition’, and
the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and
preemptive of ‘perversion-of-reference-of-thought’ perpetually at the ‘uninstitutionalised-
threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional
people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts

that structurally bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity).

We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s *Things Fall Apart* on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence is by cultural diffusion rather than by internal philosophical transcendence. Basically, all transcendences involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence due to perversion-and-derived-perversion-of-reference-of-thought and the registry-worldview’s/dimension’s relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought supersedes/precedes logical-processing-or-logical-implication), so you rather have a reinvention as epistemic-totalising–renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the

psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence to liberate themselves before secondnaturing/institutionalising for the new possibilities for the species; noting that, this doesn’t mean that the Descartes, Comtes, Galileos, Newtons, Darwins... of the world, miraculously came up with positivism to supersede/precede/override/abject medievalism, as they were of medieval stock but by philosophical transcendence could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical)!

Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology), the psychopath’s and other postlogical articulations have a nefarious effect, on social meaning particularly in ‘spheres of extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)’ of society in general and social institutions, as the postlogical perversion-of-reference-of-thought induces mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation with many an interlocutor, and which by

slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect, undermines the sophistication/intricacy of thought involved with organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology), and often leads to a social dynamism of plainness and mediocrity which is subpar and corrupting to social and institutions teleological potential. In-conviction (prelogically), mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is vis a vis organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology), a ‘defect of contiguity (ontological-contiguity)’ in terms-as-of-axiomatic-construct of an intemporal point-of-reference of meaningfulness; with mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation involving miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of the organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) point-of-referencing of intemporal/ontological-veridicality. Basically, organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) carries the idea of ‘a higher teleology complex of being more profound with respect to mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation’ with respect to meaningfulness-and-teleology ontological-veracity in terms-as-

of-axiomatic-construct of registry-teleology implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. However, with psychopathy and postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented, a further dimension is added to the defects of mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation which are more or less acts/occasional defects then, as conjugating these into as structural/paradigmatic denaturing construed as of being/ontological/existential-defect or the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect, as meaningfulness is now not about a 'defect of failing/not-upholding-as-of-apriorising/axiomatising/referencing contiguity' intemporality/ontological-veridicality as of specific existential-instantiation ontological-performance but rather a defect in being in ontological-contiguity with non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented as postlogical temporality/shortness perversion-of-reference-of-thought of meaningfulness-and-teleology, as the mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation aligns to the psychopath's/postlogical-mind's slantedness and is thus insane/slantedness integrative. And this, in its fulsome articulation taken beyond individual and social contexts to the comprehensive registry-worldview/dimension speaks of an underlying 'perversion-of-reference-of-thought registry-worldview/dimension defect of

reference-of-thought–categorical-imperatives/axioms/registry-teleology: wherein recurrent-utter-uninstitutionalisation, as of its inherently-non-rules-state-in-relation-to-meaningfulness-and-teleology requires prospective base-institutionalisation–ununiversalisation which as of its inherently-rulemaking-over-non-rules-state-in-relation-to-meaningfulness-and-teleology requires universalisation–non-positivism/medievalism which as of its inherently-universalisation-directed-rulemaking-over-non-rules-state-in-relation-to-meaningfulness-and-teleology requires positivism–procrypticism as of its inherently-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules-state-in-relation-to-meaningfulness-and-teleology, and prospectively positivism–procrypticism which as of its inherent disjointedness-as-of-reference-of-thought requires deprocrypticism. And this memetic-reordering/psychoanalytic-unshackling process, is fundamentally about ‘the precedingness/supersedingness/ascendency/postconvergence of the entropy to preserve intemporality’ known as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, with the idea that reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are as pertinent only as these preserve intemporality, and are collapsed/overridden by new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, when shown not to be preserving intemporality, as when of perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with regards to the preceding reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Further a registry-worldview dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding-as-of-

apriorising/axiomatising/referencing

reference-of-thought–categorical-

imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–

or–ontological-preservation rather than implying prospective ones for intemporal-

preservation-entropy-or-contiguity–or–ontological-preservation; such that ontologically-

speaking the phenomenon is in a circularity/recurrence/repetition/repeatability as of

reference-of-thought denaturing and relative-ontological-incompleteness, and

endemised/enculturated (with a temporal rationalising reasoning that actually validates the

veridicality of a human temporal-to-intemporal disposition that should not be confused with

a secondnatured/institutionalised disposition in relation to virtue). This effectively forms the

recomposed backdrop for prospective transcendental construct of deprocrypticism, as the

‘ontologising organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-

reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-

teleology) that reflects/perspectivates the protracted mechanical-comprehension-dementing in

hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-

intemporal-preservation’. But then, a psychopath can be so irrational that in temporal terms it

might do a lot of ‘good’ to a specific individual or group of individuals (for instance, steal

and distribute or even some other things but coming initially from a vice; as may be enabled

by the psychopath’s faulty-mentation-procedure-deception-or-urge to attain an outcome).

This dynamic element can make psychopathy and social psychopathy difficult to deal with as

a social phenomenon, as the questions are not only how culpable is the psychopath but extend

to who is temporally getting what from the psychopathic situation, what accounts and

narratives should be believed, etc., thus requiring an abject and intemporally uncompromising

ontological conceptualisation to construct an ontological-primemovers-totalitative-framework

science. That said, beyond just about such a present worldly take to societal issues, there is a

bigger question of the universal implications on human civilisation of postlogism in hollow-

constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and perversion-of-reference-of-thought phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation behind human civilisation.

It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal conviction or prelogical mind’, which are antipodal as the normal mind is by reflex conviction/prelogical/existential-contextualising-contiguity and by reflex will tend to see a conviction or prelogism in narratives while the psychopath is non-conviction-or-‘existential-decontextualised-transposition’-or-‘apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’/impulsively-demented/formulaic (meaning-by-the-mere-illogical-possibility-of-it-being-narrated)/postlogical and does has an covert vista when not forewarned/experienced about its nature in wrongfully inducing a sense of conviction in the normal mind by non-conviction narrating (an insight that is easily picked up seeing the childhood psychopathy growing into an adolescent and an adult, as its more covert mental structure at adulthood can be retraced and associated to the awkwardness of expression at early life in understanding what the adult psychopath is up to), hence the reason a mind in search of conviction or prelogism (normal prelogism-as-of-conviction mind) will speak of a pathological liar, by liar wrongly granting the psychopath a conviction, be it a bad or poor conviction, in the very first place, hence aligning integratively to the psychopath instead of aligning in transversality-of-disambiguated-apriorising/axiomatising/referencing. It is rather a flaw in the prelogism-as-of-conviction mind’s perception (prelogism or conviction while the psychopath’s mental-disposition is formulaic-non-conviction-or-existential-decontextualised-

enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnatured/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a temporal-to-intemporal creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal disposition structurally brings more overall good and hence skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) man in the medium to long perspective towards ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework (institutionalised, formalised and internalised)’. This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing with our solipsism at ‘uninstitutionalised-threshold’ we aren’t anymore intemporal (the-Good as longness-of-register-of-meaningfulness-and-teleology) than temporal (shortness-of-register-of-meaningfulness-and-teleology) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing temporal-to-intemporal-dispositions disambiguation with a stranding-dialectics highlighting organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) and the distracting mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. Why talk of ‘uninstitutionalised-threshold’? This is the

underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a paradigm of the human present as modern into a paradigm of across-and-of-all-times! Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposing from recurrent-utter-uninstitutionalisation, based-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and un insightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation covers the concepts of temporal preservation (including subknowledging, mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involves ‘mental candoring’ where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the continuity as entropy

is the exercise of candoring as ‘straightness/soundness-or-authenticity-of-reference-of-thought registering/registry-teleology’ (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as ‘perverted/brazen-but-unsoundness-or-inauthenticity-of-reference-of-thought registering/registry-teleology’ (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and-’dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension); with this latter representation undermining the ‘temporal-dispositions solipsistic/emanant postlogical miscuing presumptuousness/arrogation effect’ as the unconscionability-drag responsible for perversion-of-reference-of-thought across the institutional-cumulations/institutional-recomposures, whether in the perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism/disjointedness-as-of-reference-of-thought.

Such a transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness conceptualisation, for a novel genuinely universal psychology as anthropopsychology, involved in all successive institutional-cumulations/institutional-recomposures for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is profoundly elucidated with associated notions as follows:

- The concept of ‘stranding’/stranding-dialectics is the very drive (in providing insight on the transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness ontological-primemovers-totalitative-framework, i.e.

temporal-to-intemporal-dispositions) for such a conceptualisation of anthropopsychology or ‘genuinely universal psychology’. The philosophical conceptualisation of stranding is rather ‘temporal-to-intemporal-dispositions disambiguation’ which serves to avoid the conviction-reflex/prelogical-reflex-admittance-reflex/in-phase-reflex (instead of rightly aligning by the dialectically-or-contendingly-out-of-phase reflex or transversality-of-disambiguated-apriorising/axiomatising/referencing reflex) of ‘intemporal-disposition’ being wrongly attributed to all interlocutors by reflex without ensuring that their disposition is effectively intemporal and not temporal. Stranding-dialectics, and the corresponding notion of epistemic-totalising—self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase, are central to transcendental psychoanalytic-unshackling and memetic-reordering. Stranding ensures the ‘upholding of the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective) of the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ by articulating the veridically contiguous ontological mental-devising-representation of the transcending (and so, in a veridical dialectic and existential psychoanalytic reorientation as oblongated/decandored in representing/implying defective/perverted temporality). It implies reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) hollow and in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic as of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as these

 secondnaturing and ‘not as temporal-dispositions transformation’ to wrongly imply a
 universal epistemic-growth/transvaluative-rationalising/anamnestic-

 mental-devising-representation we may have from a positivistic standpoint of the non-
 positivism/medievalism mind as oblongated/decandored is not recognised by the non-
 positivism/medievalism mindset/reference-of-thought by its syncretic reflex to be
 functionally in its mental straightness and candored (even though such a representation is
 ontologically wrong regarding its mental-devising-representation with respect to the its

uninstitutionalised-threshold requiring positivism insitutionalisation/intemporalisation). Prospectively, the stranding-dialectics of our own mental-devising-representation by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as oblongated and decandored at our uninstitutionalised-threshold requiring deprocrypticism institutionalisation/unintemporalisation will equally meet withan epistememic-totalising—self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase reflex that will not recognise its slantedness and decandored veridicality. The intemporal-disposition is rather about emphasising institutionalisation/intemporalisation percolation channels as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically in stranding-dialectics notwithstanding their epistemic-totalising—self-referencing-syncretising-as-wrongfully-straight/candored. This is ontologically foundational (more like the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit of arithmetic cannot be undermined in any way possible and you then have the possibility of sound arithmetic thereafter). Stranding-dialectics prevents temporal-dispositions (in the articulation and re-articulation of narratives) by the ‘temporal-dispositions

disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-articulated are of intemporal-disposition teleology hence wrongly implying candored and straightness, whereas these are in effect epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag iterating narratives of temporal-dispositions teleologies’; and so, by way of coring which involves accounting-for-temporal-dispositions-defect/dialectical-dementing—epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (the-perversion-of-the-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) and avoiding setting-aside which rather involves glossing-over-temporal-dispositions-defect/dialectical-dementing—epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (the-perversion-of-the-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation). This ensures in effect ‘the stranding-dialectics-in-a-contiguity-of-increasing-ontology/ontological-normalcy/postconvergence’. Ontology is an altogether coherent construct with no room for excepting from coherence, which then simply implies the superseding of any such pretence of an excepting. (For instance, we can be calculating the sum $(5 * 5) + 5 - 5$, and make the mistake to say $5 * 5 = 24$ but then overlook it and agree together that the answer should be 24 and go on to resolve the entire equation as 24. This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or epistemic-totalising–self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase or circularity or notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema>, as there is no veridical meaningfulness that exists out of ontology or isn’t in ontological-contiguity) is highly prevalent in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-

meaningfulness-and-teleology) of society as social-aggregation-enabling, the reason we strive to formalise whether in terms-as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn't adjust to man and it is man that adjusts to reality. The stranding-dialectics-in-a-contiguity-of-increasing-ontology/ontological-normalcy/postconvergence implies that an interlocutor's retrospectively demonstrable narratives miscuing and subsequent perversion-of-reference-of-thought speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and perversion-of-reference-of-thought meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging/mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. In other words, stranding-dialectics ensure an affixing of temporal-dispositions perversion-of-reference-of-thought teleologic orientations denaturing to the corresponding temporal perversion-of-reference-of-thought mindsets in their ontological-escalation/aetiologisation without letting for a disjunction/skipping into intemporal/straightness-of-mental-devising-representation disposition teleologic orientation, and so, to the point of the temporal-dispositions collapsing/overriding ('dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) with the new prospective reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation of the transcending registry-worldview/dimension. For instance, the mental-devising-representation

of a non-positivism/medievalism mindset/reference-of-thought relating to say an accusation of sorcery by an intemporal positivistic mindset/reference-of-thought will not be limited to that particular instance but carries the ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation’ that speaks to metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation dispositions of that non-positivism/medievalism mindset/reference-of-thought by way of stranding-dialectics from the intemporal positivistic mindset, and upholding such the ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation’ for the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure that collapses/overrides the non-positivism/medievalism mindset/reference-of-thought cross-generationally (consider the diffusion of positivistic registry-worldview and its psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of non-positivistic registry-worldviews in the 19th and early 20th century). Stranding defines the ‘decandored registry-worldview/dimension dialectically-or-contendingly-out-of-phase/dialectically-primitive) mental-devising-representation’ such as the mental-devising-representation of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so, beyond the illusion-of-the-present/present-consciousness of all these successive registry-worldviews/dimensions which in their epistemic-totalising-self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality/longness rather than decandored/oblongated mental-devising-representation as temporality. Stranding is validated by the fact that transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal-

dispositions transformation into intemporal-disposition as epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity'; and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/abjects the consciousness-awareness-teleology of temporal-dispositions such that 'they are not called upon in argumentation', just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/abjects our thinking or not of it! Thus stranding-dialectics is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation channels (formalisms and internalisations) mechanism with the implied ontological-primemovers-totalitative-framework and positive-opportunism as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. At which point stranding-dialectics articulates temporal-dispositions teleologies orientations as 'subknowledging/mimicking/mental-perversions/slantedness manifestations at that 'uninstitutionalised-threshold', i.e. the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of temporal-dispositions undermining the very 'intemporal-preservation-entropy' supposedly they are supposed to uphold). Ultimately and in the bigger picture, (with teleology fundamentally construed as 'phenomenal/manifest epistemic reflexivity in existence as ontological' and with regards to the specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation) the teleology for ontological-dementation/dialectical-dementation–stranding/attributive-dialectics reflects the human-

subpotency for attaining cross-generational transcendence with corresponding dialectical and psychoanalytic existential reorientations ('dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure), and it is well beyond the idea of just a 'structural/paradigmatic argumentation convincing' intradimensionally as to presencing—absolutising-identitive-constitutedness (based-on-the-categorical-imperatives/axioms/registry-teleology-of-the-registry-worldview/dimension as absolutised) as to a registry-worldview/dimension in relative-ontological-incompleteness that is ontologically-deficient/dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, in the first place; as teleology as such reflects human-subpotency sublimation-over-desublimation possibilities in existence as to underlying supposedly coherent ontological-commitment. Ontology being the intemporal-disposition, the exercise of 'directing' convincing as logical-processing/logical-operation to temporal-dispositions is inherently unwarranted and is rather of epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase as it wrongly implies that temporal-dispositions perversion-of-reference-of-thought of their dimension's/registry worldview's reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is of sound mental representation; rather what should be implied is the prospective intemporality/longness instead preserving prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation with pertinence being about 'articulating and directing' intemporal/ontologically-contiguous meaningfulness-

trading doesn't allow reflexively. The 'transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness complex-of-stranding' refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation when it is demonstrated that it is perversion-of-reference-of-thought as perversion-of-the-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and rather syncretises in operating those same reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation prospectively; while that same registry-worldview/dimension intuitively recognises that a prior/superseded registry-worldview/dimension mental-devising-representation as stranded is ontologically veridical as the prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it's reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at its uninstitutionalised-threshold. The reason for the human 'transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness complex-of-stranding' is that a registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when epistemic-totalising—self-referencing-syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-

so-called-modern-man wouldn't have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own stranding-dialectics/elucidation-and-superseding-of-its-perversion-of-reference-of-thought-as-to-dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding-as-of-apriorising/axiomatising/referencing its 'own homework' for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the institutional-cumulation/institutional-recomposure ontological-contiguity—of-the-human-institutionalisation-process!

As an anthropopsychological disposition, rational-realism as deprocrpticism just like all successive transcendences in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a 'positive-minded/well-meaning disposition with respect to man/the-human-species' with the idea that 'it is better working with what intemporally/ontologically is (that is, the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) to achieve the best intellectual and moral outcome for man' than 'working with what-one-wishes' from a wrong temporal/impression-driven construal'. The idea of understanding the ontology of human temporal mental defect is not to 'idle' in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of 'presencing—absolutising-identitive-constitutedness consummated/forfeiting posture' with regards to human temporality/shortness wouldn't however acquiesce to the naïve disconcertment that takes the 'presencing—absolutising-identitive-constitutedness consummated/forfeiting posture' of intemporality/longness for temporal correctness towards which the intemporal-disposition is

definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Such a rational-realism as deprocrypticism disposition views the fundamental anthropopsychology drive for transcendence which involves stranding-dialectics for transcendence by decandoring/oblongating (representation of perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase) on the basis of the veridicality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor rationally, and ontologically represents the social-construct (as validated by the shifting relation of social conventioning and purist ontology) as being in effect ‘a highly cohesive paradigm’ at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation but ‘a poorly cohesive extricatory paradigm’ at uninstitutionalised-threshold. The notion of the social-construct as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm is actually an aspirational ideal and reference for ‘human intemporal projection towards it’ but it isn’t ontologically veridical by the inherent solipsistic human nature due to a temporal-to-intemporal-dispositions human reality, and thus the need for institutionalisation to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) towards intemporality/intemporal-preservation as human secondnaturating. This elucidation is vital in pointing out that the teleology of rational-realism as deprocrypticism (with teleology fundamentally construed as ‘phenomenal/manifest epistemic reflexivity in existence as ontological’ and so as to the specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-

existence—imbued-and-educed—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation), is not to strive for the wrong notion of human intemporal/ontological ‘congruence’ with respect to knowledge and virtue (as human dispositions are not congruent, as thus the idea of ontological-congruence of the intemporal-disposition with temporal-dispositions will compromise intemporality, and hence compromise ontology), but rather to aspire for a transversality-of-disambiguated-apriorising/axiomatising/referencing of human intemporal-disposition with respect to temporal-dispositions (as this upholds and doesn’t compromise the ontological veridicality in intemporal-disposition projection as to the ontological reality of human temporal-to-intemporal-dispositions at uninstitutionalised-thresholds). That is, knowledge notionalisation involving grasping and understanding both the ignorances/temporal-dispositions and ideals to better skew/deferential-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-upholding-as-of-apriorising/axiomatising/referencing to understand or overlooking the ignorances/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge-⟨dementing-as-if-of-sound-knowledge⟩/mimick-and-syncretise at uninstitutionalised-threshold with the dialectical consequence of the development of the successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality-of-disambiguated-apriorising/axiomatising/referencing and not nested-congruence to uphold intemporality, and hence a complete ontology. To put it in other terms, for instance, transversality-of-disambiguated-apriorising/axiomatising/referencing of ‘keeping the faith’ only in the intrinsic operation of rules of arithmetic (transversality-of-disambiguated-apriorising/axiomatising/referencing among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-

disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is transcendental-enabling/sublimating) is vital to preserving ‘ontological arithmetic’ as transcendental-enabling/sublimating, whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’.

* It should be noted that in the stranding-dialectics-in-a-contiguity-of-increasing-ontology/ontological-normalcy/postconvergence dialecticism of transcendence involving the transcended and the transcending dimensions, the terms highlighting the transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-primitive, etc. do not carry the same connotation as a shallower temporal analysis intradimensional to the transcended dimension. The idea is not to idle in articulating meaningfulness within the dimension in need of transcendence. For instance, a positive mind’s articulation of defective meaningfulness in non-positivism/medievalism registry-worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in terms-as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a

positivistic worldview's transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decadent, perverted don't carry the ordinary and temporal connotations of stigmatising under a temporal extricatory paradigm. Rather, these are critical and actively sought after notions that provide the 'dialectical backdrop' for enabling prospective transcendence by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. The idea is that these notions are veridically dialectical notions that apply in all transcendences unlike a simplistic 'history fixating conceptualisation' will have. In other words, our non-positivism/medievalism ancestors' possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a deprocrpticism institutionalisation/intemporalisation with respect to procrpticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are 'capacity-wise same' as per temporal-to-intemporal going by a paradigm of mentation-capacity (shortness-of-register-of-meaningfulness-and-teleology to longness-of-register-of-meaningfulness-and-teleology) with respect to the intemporal-preservation-entropy-or-contiguity-or-ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure process. ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving 'temporal-to-

intemporal-dispositions accountability' beyond an 'idle temporal-dispositions stigmatisation'. In that spirit, it can be reasoned that the intradimensional 'ontological blindspot' in human mental-devising-representation [wherein temporal perversion-of-reference-of-thought by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of temporal-dispositions perversions/defects of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of 'reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing' conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing], actually points to a decandored/slantedness of the temporal-dispositions (and not candored/straightness), and is definitional of all registry-worldviews/dimensions perversion-of-reference-of-thought whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, as these are in epistemic-decadence-and-derived-epistemic-decadence, i.e. not veridical but perverted and requiring transcendence. This basically undermines the idea that any such registry-worldview/dimension temporal-dispositions should be encouraged to be 'epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in meaning' in a logical engagement with it from an intemporal/ontological perspective (of ontological-normalcy/postconvergence), as it is rather in perversion-and-derived-perversion-of-reference-of-thought of its reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. Instead this requires a transversality-of-disambiguated-apriorising/axiomatising/referencing

(due to the dialectically-out-of-phasing/unsoundness-or-inauthenticity-of-reference-of-thought/dementedness with regards to the veridical ontology of temporal-dispositions registries); wherein the intemporal-disposition (which is ontological) doesn't recognise nor acquiesce to the implied-logical-dueness-or-implied-scape and subsequent apriorising—registry-elements of implied-profile-or-implied-stature, implied-presumptuousness-or-implied-arrogation, implied-assumptions, implied-value-reference and implied-teleology projected by the temporal-dispositions, but rather advances that there is perversion-of-reference-of-thought requiring a transversality-of-disambiguated-apriorising/axiomatising/referencing 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposeure for prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. For instance, there is no possible logical engagement but rather a transversality-of-disambiguated-apriorising/axiomatising/referencing between the recurrent-utter-institutionalised and base-institutionalised mindsets/references-of-thought, likewise between the ununiversalised and universalised mindsets/references-of-thought, non-positivism/medievalism and positivistic mindsets/references-of-thought, and prospectively procrypticism and deprocrypticism mindsets/references-of-thought. Just as there would have been no ontological possibility for a positivistic worldview without the backdrop of the stranding-as-rightfully-oblongated/decandored/in-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of the perversion of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of non-positivism/medievalism uninstitutionalisation, there can't equally be an ontological eventuality of futural Being-

development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism without the ‘requisite uninhibited/decomplexified mental-devising-representation’ by the stranding-as-rightfully-oblongated/decandored/in-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of procrypticism/emanant-wrong-or-demented-shades-of-the-real perversion of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as the backdrop for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as a structural/paradigmatic human-social-cross-sectional resolution for the virtues of deprocrypticism and superseding of the vices-and-impediments of procrypticism at its uninstitutionalised-threshold. This construal is placed on a solid firmament (that is able to supplant any intradimensional illusion-of-the-present mental-devising-representation) by the ‘ontological-primemovers-totalitative-framework retracing (for temporal-to-intemporal-dispositions disambiguation articulation)’ that demonstrably oblongates/decandors temporal-dispositions as it articulates the dialecticism of a registry-worldview’s/dimension’s transcendence (transcending-dimension/organicism and transcended-dimension/mechanicism), on the validity of the stranding-contiguity-of-ontology. Logic and logical-congruence is ontologically valid only as an after-transcendence exercise when through the institutionalisation/intemporalisation percolation channels, the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the transcending-registry-worldview/dimension in organicism is institutionalised/intemporalised by positive-opportunism with the induced social universal-transparency (of both the perversion-of-

* It should be noted that this element of deconstructed meaningfulness is obviously reflected in the articulation of this paper itself in a creative, referential and dynamic grasp of reference-of-thought and meaningfulness-and-teleology in a rather ephemeral subject, the social. In this regard, the hermeneutic exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this ‘rather relatively benign idiosyncrasy’ in this paper as the reader may come across and is the explanation for many of the author’s insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic design in a ‘continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence’ analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic insight extending to the possibility of a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposure possibilities for transcendental institutionalisation/intemporalisation of deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). To further elucidate, the underlying idea of ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness (organic-comprehension-thinking) holds that ‘critically what matters with respect to ontology and virtue is simply and completely intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective), and holds that other and subsequent notions are as pertinent as they are intemporally-preservational and where those same supposed notions social use was not intemporally-preservational but perverted/subknowledged/mimicked/confounded, their ontological and virtuous validity is nullified; as it is their relay of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation without notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-

What's the meaning of being good-natured/kind/humble/responsible/friendly/sociable/etc. in a subknowledging or perverted or corrupt social-setup or a philosophically-underdeveloped but presumptuous meaningful context (H.G. Wells's country of the blind paradigm, for instance), or worst still in teleologically-degraded social situations that may be mobbish or genocidal, wherein by our illusion-of-the-present/present-consciousness/epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasitic-drag we apparently demonstrate such qualities but ontologically we aren't veridically intemporal-preservational? And even more pertinent, what will those same qualities mean at the uninstitutionalised-threshold of recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation, positivism, and prospectively deprocrepticism, with their evolving reference-of-thought-categorical-imperatives/axioms/registry-teleology wherein prospective meaningfulness-and-teleology is beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought? The only answer that cuts it in all ways, is inevitably intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality (mentation-capacity-wise, as longness-of-register-of-meaningfulness-over-shortness-of-register-of-meaningfulness-and-teleology, more than just an abstraction as it carries the notion of a contiguous existentialism/full-depth-of-existential-implications transdimensional-meaningfulness/memetic-refinement as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting-as-of-conflatedness in dialectical transformation as of prospective reference-of-thought tied to the intemporal-preservation-entropy-or-contiguity-or-ontological-preservation). Even the idea of morality as being construed as of a sense of morality is vague self-referencing, as it is rather virtue as of knowledge-construct/intersolipsistic-intercessory-notion/notional-referential-

notion/articulation of superseding—oneness-of-ontology enabling the possibility in reflecting the ontological-contiguity—of-the-human-institutionalisation-process of successive registry-worldviews/dimensions that is truly of ontological relevance. The idea of conceptualising morality out of such ontology-driven basis is more or less delusional however ‘good-natured’ when we consider that even a community of miscreants will have to construe of a semblance however perverted of moral conceptualisation that allows for individuals self-preservation and only of a degree of variance however big such a variance is perceived with supposed grander moral conceptualisations that do not factor in the structural relation of virtue to ontology as of successive developing prospective relative-ontological-completeness-of-reference-of-thought. As semblances of virtue-constructs out of ‘sense of good-naturedness’ not factoring in the ‘unchangeable’ reality of human temporal/shortness-of-register-of-meaningfulness-and-teleology and intemporal/longness-of-register-of-meaningfulness-and-teleology mental-dispositions across all registry-worldviews will simply ‘romantically and naively’ provide a deterministic framework that can be temporally undermined by adhering to <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of such reference-of-thought—categorical-imperatives/axioms/registry-teleology in subverting intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, pointing to the pertinence of construing virtue and ontology contiguously as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, so construed as organic-knowledge. This is the central idea of ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness that informs organic-comprehension-thinking. ‘Intemporal-prioritisation-of-reference-of-thought’-as-conflatedness further holds that in the bigger scheme of things, it is intemporal-preservation in its entropy/contiguity that is the referencing of stranding as to stranding-dialectics (as of dementing representation when

temporally-preservational-as-pseudointemporality-preservation or of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> or dialectical-thinking representation when intemporally-preservational/ontological-contiguity. ‘Intemporal-prioritisation-of-reference-of-thought’-as-conflatedness highlights effectively that ontological meaningfulness is contiguous as highlighted further in the paper with regards to virtue ‘as a contiguous mentation-capacity (longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology transience)’ of ontological-contiguity conceptualisation for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. Finally, by affirming ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective) over notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as perverted, ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness validates ‘the stranding/mental-devising-representation of temporal-dispositions in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag) as transversal/logically-incongruent-and-in-distractive-alignment-to-reference-of-thought to organic-comprehension-thinking (intemporal-disposition’s ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness). Basically, with regards to the ‘psychologism of precedence as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology’ with respect to ‘a prospective/transcending/superseding registry-worldview’s/dimension’s

In other words, distractive-alignment-to-reference-of-thought by the dementing and decentering of the prior-as-present/transcended/superseded beforehand/as-of-a-priori implies that the prospective/transcending/superseding reference-of-thought is a more profound representation of intrinsic-reality/ontological-veridicality (with regards to deprocrypticism as of the non-disjointedness/jointedness of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) by the 'distractive-alignment-to-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument point-of-departure-of-construal' over and subsuming-and-supplanting the presencing-as-prior/transcended/superseded reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as of its disjointedness-as-of-reference-of-thought of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument with regards to positivism–procrypticism), as validated by existential-contextualising-contiguity's-

reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. *Thus, distractive-alignment-to-reference-of-thought is an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument point-of-departure-of-construal of reference-of-thought as it is about assuming beforehand/as-of-a-priori for logical-contention as dialectical-thinking and centered the prospective/transcending/superseding reference-of-thought (as of its prospective relative-ontological-completeness-of-reference-of-thought) in dementing and decentering the prior-as-present/transcended/superseded reference-of-thought (as of its prior relative-ontological-incompleteness-of-reference-of-thought), as validated by existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Critically, for aetiologisation/ontological-escalation as of an intemporal synopsis depth of analysis what is decisive with regards to a postlogism manifestation is the grasp of the reality of prior relative-ontological-incompleteness-of-reference-of-thought as 'in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought—categorical-imperatives/axioms/registry-teleology for a postlogism manifestation; and just as we can appreciate that the organic-knowledge depth of base-institutionalisation is what is required as resolution for postlogism manifestations in recurrent-utter-uninstitutionalisation, likewise that of universalisation as resolution with postlogism manifestations in base-institutionalisation—ununiversalisation, that of positivism as resolution with postlogism manifestations in universalisation—non-positivism/procrypticism, the organic-knowledge depth of deprocrypticism is what is required as resolution for postlogism manifestations in positivism—procryptism. This articulation is also important because while it can be countenance retrospectively, however prospective our metaphysics-of-presence as of our epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex and so beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought beforehand/as-of-a-priori, will tend towards ‘a circular epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ego complex that rather circularly upholds procrypticism-as-of-disjointedness-as-of-reference-of-thought of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, just as occurred in all the prior registry-worldviews/dimensions. For instance and as stated before, such a statement and mental-disposition of the type Socrates or Rousseau by their relative asceticism as of nonextricatory-existential-preempting-of-existential-unthought as compared to others of their statuses (conjugated as of various shades of temporal teleologically-degraded synopsising-depth of meaningfulness-and-teleology psychologism) in their respective social-setups from a non-transcendental as of its epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perspective by its epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is rather circularly impervious and will not recognise any dissociation between such a mental-projection/psychologism prior relative-ontological-incompleteness-of-reference-of-thought and the mental-projection/psychologism prospective relative-ontological-completeness-of-reference-of-thought of Socrates or Rousseau in construing the grander notion of social aetiologising/ontological-escalation as of a transcendental-perspective (as of a teleologically-elevated intemporal synopsising-depth of meaningfulness-and-teleology psychologism contrasted to such teleologically-degraded shades-of-temporal synopsising-depth of meaningfulness-and-teleology). This elucidation is important because an insightful storied-construct with regards to psychopathy and social psychopathy and the overall relative-ontological-incompleteness-of-reference-of-thought as the underlying disjointedness-as-of-reference-of-thought of procrypticism relative to prospective ontological-completeness-of-reference-of-thought as deprocrypticism will fundamentally be based on such contrastive mental-projections/psychologisms as of non-transcendental as epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perspective and the primacy of transcendental perspective (inherently so because the state of prospective relative-ontological-completeness-of-reference-of-thought precedes and supersedes the state of prior

Taken to the bigger registry-worldview/dimension or intradimensional level, this points to a registry-worldview/dimension derived-perversion state of temporal-dispositions at the present uninstitutionalised-threshold involving the subknowledging/mimicking-and-syncretising of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of positivistic meaningfulness known as procrypticism/disjointedness-as-of-reference-of-thought, calling prospectively for deprocrypticism.

Without ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness disposition the possibility for transcendence from perversion-of-reference-of-thought (as prior intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology) to prospective ones which are intemporal-preservational, the institutional-cumulation/institutional-recomposure process will not occur and be regenerative, as the circumventive/distractive-temporal-prioritisation-of-reference-of-thought mental-dispositions rather strives to arrive at an equilibrium at the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a registry-worldview/dimension whether these are intemporal-preservational or not, hence have little transcendental capacity. Going by an ‘ontologically contiguous comparison’ with reference to Arithmetic where a condition was to cause a character to resolve additionality as $1+3=5$, $2+5=8$, $5+6=12$, etc., the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective) of additionality with regards to this character will always involve as of reference-of-thought–categorical-imperatives/axioms/registry-teleology that subtracts 1 from the results of that character’s operations of additions (as the imbricatedness/threadedness/recomposuring for upholding existential-reality), and the usual principles of additionality (its traditional reference-of-thought–categorical-imperatives/axioms/registry-teleology of simply summing directly) will be existentially rendered null and void in order to allow for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Now supposed such a framework (reference-of-thought) for resolving Arithmetic calculations now involves the contribution of 6 characters working in collaboration with each contributing their specific arithmetic principle role while taking cognisance of the others roles in ‘resolving arithmetic calculations’ (as ontological-completeness-of-reference-of-thought, and so taking into account the prior mentioned

character with its defect of additionality; wherein such a framework is BODMAS-based with character B working on brackets operations, character O working on order operations, character D working on division operations, character M working on multiplication operations, the priorly mentioned character A working on addition operations and character S working on subtraction operations, and so (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective) setup for resolving arithmetic calculations (ontological-completeness-of-reference-of-thought setup). Naturally, the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (as the usual BODMAS Arithmetic rules) should apply but this is no longer existentially the case in this instance, where the equation is for instance $7(\sqrt{64+3-1}) - (6+4-2) \div 2$. Going by the natural arithmetic rules for BODMAS, the equation will be resolved first with the brackets, and within the brackets for the first brackets the order operation is first carried out, that is, $\sqrt{64}=8$ and then addition $8+3=11$, then subtraction $11-1=10$. For the second brackets, addition as $6+4=10$, then subtraction as $10-2=8$. The division operation then follows with the second brackets result as $8 \div 2=4$. Then the multiplication operation with the first brackets result as $7 \times 10=70$. Finally, comes the subtraction with $70-4=66$ as the final answer that is ontologically-veridical (in ontological-normalcy/postconvergence). But then, in this particular case where character A (Addition) operation of additionality is perverted as stated above as a result of its condition, the equation will resolve as $\sqrt{64}=8$, $8+3=12$, $12-1=11$, for the first brackets, and $6+4=11$, $11-2=9$, for the second brackets. The division operation with the second brackets yields $9 \div 2=4.5$, and the multiplication operation with the first brackets yields $7 \times 11=77$. Finally, subtracting both brackets gives $77-4.5=72.5$ as the final result which is ontologically wrong (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective), and points to the fact that all the 6 BODMAS characters, not only A (Addition) the additionality defect character

have failed ontological-veridicality/ontological-contiguity as of their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective), as reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are not by themselves the definitive basis for ontology/intrinsic-reality/existential-reality as these are only as pertinent as they are ontologically-veridical/ontologically-continuous/contextually-contiguous (in ontological-normalcy/postconvergence). This ontological state with respect to all the characters registries (not only A) is known as perversion-and-derived-perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought, as ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective) precedes projected <formative>wooden-language—of-temporal-mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology, with reference-of-thought—categorical-imperatives/axioms/registry-teleology nothing more but human mental inventions (construed by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) for the sake of achieving ontology/intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and pertinent in that regard only when not-failing/upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication. Hence the notion of ontological-normalcy/postconvergence and postdication construes intemporal-preservation-entropy-or-

contiguity—or—ontological-preservation as superseding/preceding over projected <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology in affirming ontology/ontological-veridicality/intrinsic-reality (notwithstanding their traditional personhoods-and-socialhood-formation mental-dispositions anchored on projected <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology).

In which case the resolution for the Arithmetic equation (supposedly where A, Addition, is unamendable due to a condition), will involve the other characters taking cognisance of A's (Addition's) condition and adhere to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation over projected <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology in affirming ontology/ontological-veridicality/intrinsic-reality (as the appropriateness-of-reference-of-thought-as-of-conflatedness over A's induced dementing-reference/perversion-of-reference-of-thought).

Thus the new categorical-imperatives/axiom/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation deployed with respect to resolving calculations (ontological-completeness-of-reference-of-thought will integrate the notion that additionality requires subtracting 1 from its results as well as taking cognisance that other characters will be perverted in their operation if they do not take cognisance of A's (Addition's) condition and subtract 1 from it before their operation (whether by unconsciously by ignorance, expediently by affordability, and consciously by

opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-
 aggregation/temporal-enculturation-or-temporal-endemisation). For instance, B (Brackets) is
 still in a position to articulate an ontological-normalcy/postconvergence ontological-
 veridicality/ontological-contiguity of reference-of-thought (from ontological-
 normalcy/postconvergence epistemic/notional_projective-perspective) by factoring in all the
 defects as follows: by reverting all other characters operation up to the point they had to deal
 with A (Addition) and subtracting 1 from the results at these points before allowing the other
 characters operations, which then yields the right result. That is $77 \div 7 = 11$ and $4.5 \times 2 = 9$ as
 reverting back, then $11 - 1 = 10$ and $9 - 1 = 8$ to factor in A's (Addition's) additionality defect to
 yield the results of the two brackets. Before then letting back the division and multiplication
 operations for both brackets respectively, giving $8 \div 2 = 4$ and $7 \times 10 = 70$. Finally $70 - 4 = 66$,
 giving the final result that is ontologically-veridical (in ontological-
 normalcy/postconvergence). So this approach is the new reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation which is ontologically-veridical/of-intrinsic-reality that B should
 be operating. In the bigger scheme of things, this explains institutional-
 cumulation/institutional-recomposure/memetic-reordering/psychoanalytic-reorientation with
 respect to an animal that is always bound to perversion-of-reference-of-thought as to
 dialectical-dementing—epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag by the very fundamental veridicality of
 its temporal-to-intemporal-dispositions nature. But then, this being an uninstitutionalised-
 threshold, B going by human-subpotency–aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor at uninstitutionalised-threshold may just as well due
 to there being 'no institutionalisation constraining' (i.e., no social universal-transparency of

perversion-of-reference-of-thought, no internal-contradiction induced from ontological-primemovers-totalitative-framework, no dementing of the perversion-of-reference-of-thought, and no intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of temporality/shortness inducing corresponding formalisation and internalisation as values), choose to act because of one temporal reason or the other whether by ignorance of the need for this new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-(for-intemporal-preservation-entropy) or affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (i.e., induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality); and so, fail to follow the latter reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that are intemporally-preservational. That is, choosing circumventive/distractive-temporal-prioritisation-of-reference-of-thought and thus failing/not-upholding-as-of-apriorising/axiomatising/referencing the possibility of transcendence. That being the case, this doesn't in anyway undermine the intrinsic reality/ontological-veridicality/reference-of-thought (in ontological-normalcy/postconvergence) of the above equation as being equal to 66 with the need for new requisite reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation not only for this particular circumstance of the BODMAS characters but all such circumstances that may arise as a perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought thus requiring ontological-

dementation/dialectical-dementation—stranding/attributive-dialectics of all such temporal-dispositions. It further speaks of how B will likely act in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation (of uninstitutionalised-threshold, where the constraining elements of institutionalisation are not available i.e. social universal-transparency of perversion-of-reference-of-thought, internal-contradiction induced from ontological-primemovers-totalitative-framework inoperance, stranding-dialectics the perversion-of-reference-of-thought, and intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of temporality, with corresponding formalisation and internalisation as values), thence defining the given temporal-dispositions of B aetiologisation/ontological-escalation to be accounted for from similar individuations in such situations as a registry-worldview/dimension problem, in order to ensure intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as ontology. In the bigger scheme of things, this calls for a prospective registry-worldview/dimension institutionalisation articulation that supersedes/overrides such a temporal dynamism of perversion-of-reference-of-thought dispositions at various social roles going from A's condition, and the potential overlooking of the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation dispositions by all the other characters (B, O, D, M and S). Underlying such an intemporal orientation is the idea that fundamentally the conjugation of such an ontological-dementation/dialectical-dementation—stranding/attributive-dialectics and subsequent conjugation as with B above to the temporal-dispositions of a registry-worldview/dimension speaks fundamentally of the uninstitutionalised-threshold of that registry-worldview/dimension, reflected/perspectivated by the marginal perversion-of-reference-of-thought defect of its reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-

contiguity—or—ontological-preservation with the prior registry-worldview/dimension now dementing or stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase, with a prospective institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as the new straightness/candored-and-dialectically-or-contendingly-in-phase.

Ontological-dementation/dialectical-dementation—stranding/attributive-dialectics doesn't confuse appropriateness of the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for the prior institutionalisation as implying the prior mental-devising-representation is appropriate for prospective institutionalisation as it needs to undergo its own requisite 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure to enable and regenerate intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. This by itself explains why the different registry-worldviews/dimensions are seemingly demented with respect to one another (from the prospective perspectives), and not that we are talking about different species of humans, as transcendentalism for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is the foundational concept retrospectively, presently and prospectively; even though by the illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage, all dimensions, and not only ours, tend to think of themselves as definitely mentally straight/candored-and-dialectically-or-contendingly-in-phase with no uninstitutionalised-threshold which is obviously fallacious. The reason for this is that 'dialectical-thinking'/soundness-or-authenticity-of-reference-of-thought (as mental straightness/candored-and-dialectically-or-contendingly-in-phase) starts-and-ends/is-sound at institutionalised/intemporalised-

thresholds-of-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation where the reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy/configuity is in ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective). Where instead such reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation is of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>/non-ontological-reference-or-non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing (not-veridical-thinking-reference-rather-dementing-reference), it is 'dementation' that is occurring (stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase). This is further compounded by epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, that is, wrongful upholding and projection of the stranding-as-mentally-straight-and-candored-and-dialectically-or-contendingly-in-phase mental-devising-representation at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation unto the uninstitutionalised-threshold that requires new mentation capacity, and this is not ontologically consistent and fundamentally undermines and overlook the idea of an insight about a prospective transcendence with the present registry-worldview corresponding as the superseded perversion-of-reference-of-thought registry-worldview/dimension. Thus but for the inherent difficulty of living and experiencing the effective personhoods-and-socialhood-formation existentialism across all the registry-worldviews/dimensions, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument 'beyond any one registry-worldview/dimension meaningfulness' like ours is perfectly possible in garnering a more profound and informed insight on human nature whether presently,

retrospectively to prospectively. In the bigger scheme of things, just as logic can only be grounded on coherent and concrete reference-of-thought–categorical-imperatives/axioms/registry-teleology based articulations for its ontological effectiveness and veridicality, human ontological transcendental possibilities arise from human individuations that correspond to the appropriate intemporal-projecting existential becoming allowing for such ontological possibilities, and the latter is enabled by apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it ‘reasons’ beyond the reference-of-thought–categorical-imperatives/axioms/registry-teleology within just a given registry-worldview/dimension as if it were the absolute mental-devising-representation with respect to intrinsic-reality, and instead hold that transdimensional/transcendental (unlike ordinary meaning which reasons only on intradimensional reference-of-thought–categorical-imperatives/axioms/registry-teleology) is what brings us closer to absolute mental-devising-representation with respect to intrinsic-reality as ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Memetism as suprastructural-meaningfulness is able to do that because it can proxy ontological-normalcy in a dynamic dialectical juxtapositioning/doppler-thinking of ‘dialectical-thinking mental-devising-representation’ and ‘dialectically-dementing mental-devising-representation’ from successive ontological dialectical-moments of human shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) behind the successive institutional-cumulations/institutional-recomposures, wherein the dialectically transcending/superseding institutional-cumulation/institutional-recomposure of relatively deeper limited-mentation-capacity-(as of relative conflation) is the shifted reference-of-thought (dialectically-in-phase) and is thus of ‘dialectical-thinking mental-devising-representation’ as it is in (postconvergence) ontological-veridicality/ontological-

contiguity while the prior transcended/superseded institutional-cumulation/institutional-recomposure of relatively shallow limited-mentation-capacity-(as of relative constitutedness) is no longer the reference-of-thought (dialectically-out-of-phase or dialectically-primitive) and is thus of ‘dialectically-dementing mental-devising-representation’ as it is of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>; thus transcendently coming into grips with a shifting but more and more profound notion of reference-of-thought (in-phasing) and corresponding ontological-veridicality/ontological-contiguity as enabled by ontological-normalcy or ontological-normalcy/postconvergence.

The conceptual pertinence in this Arithmetic ontological-contiguity comparison can be rearticulated as follows for greater clarity. As previously highlighted the developmental psychology of the psychopath from childhood to adulthood, involves a child psychopath who is dysfunctional as its subknowledging-impulse/impulsive-dementation/postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is relatively transparent to interlocutors and it induces a ‘delirious effect’ given that it hasn’t yet matured, is not yet indirect, is not yet spatialising, is not yet credulous and is not yet crafty in ‘its postlogism-as-of-non-conviction’; conditions which it increasingly attains from adolescence to adulthood with a corresponding inducing of the development of social psychopathy as its psychopathy conjugates/inflects/gets-mimicked with the temporal-dispositions of ignorance, unconsciously, and consciously with affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, in an absolving/fleeting/escaping-reflex-logic eliciting social psychopathy involving moving from various non-veridical/hollow sets-of-postlogical-in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as

absolving/fleeting/escaping-reflex-logic, to others and from different sets of interlocutors to others. It is obvious that A's condition/subknowledging-impulse/impulsive-dementation disposition as an adult psychopath isn't systematic with every interlocutor but rather it arises only in the face of perceived-social-stake-contention-or-confliction-and-confliction-targets and furthermore the profoundness of the postlogism-slantedness manifestation is directly related to the gravity of the perceived-social-stake-contention-or-confliction the situation and how the 'evolving social psychopathy situation permits'. Hence the notion of A having an absolute condition wherein it increments additionality by 1 is rather an absolute ideal conceptualisation, as in reality it is a question of degree and highly circumscribed with the adult psychopath who needs to have a postlogical-equilibrium that can be socially-functional-and-accordant, unlike the dysfunctional child psychopath. This comparison equally articulates the nature of uninstitutionalised-thresholds. Consider B (together with the other BODMAS characters) in the instance where despite A's conditions they were to stick to the registry-worldview's/dimension's institutionalisation reference-of-thought-categorical-imperatives/axioms/registry-teleology thus effectively producing the wrong result 72.5 for the particular equation which is not intemporal preservational (not ontologically ontological-normalcy/postconvergence) and likewise for all other equation where A's condition applies, we'll then be talking about an uninstitutionalised-threshold. The implication is that the registry-worldview/dimension then loses its qualification as being intemporally-preservational, and the psychological tool that is then elicited (from a prospective and new reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as articulated with the arithmetic technique that corrected the equation result from 72.5 to 66 by adjusting for A's condition which is now the reference-of-thought or veridical-thinking-reference-over-dementing-reference/ontologically-veridical/ontological-contiguity registry-

worldview/dimension) is known as ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. Even though going by its illusion-of-the-present/present-consciousness, the superseded registry-worldview/dimension will still wrongfully strive for a mental-devising-representation at that uninstitutionalised-threshold of ‘ontological-thinking (not demented)’/stranding-as-wrongfully-mentally-straight/candored-and-dialectically-or-contendingly-in-phase which is ontologically wrong, just as all epistemic-totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness registry-worldviews/dimensions do at their uninstitutionalised-threshold. For instance, the recurrent-utter-uninstitutionalisation mindset/reference-of-thought doesn’t think of itself that way but rather as a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives) or a-registry-worldview’s-or-dimension’s-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing with respect to its apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing, and such a representation of its mentation is the invention/mental-devising-representation of the base-institutionalisation mindset by its better ontological-completeness-of-reference-of-thought, likewise with ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively with procrypticism and deprocrypticism, we will certainly be hardly pre-inclined to acquiesce to a demented mental-devising-representation of our perversion-of-reference-of-thought with respect to the denaturing of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness. This insights perfectly highlight that our psychological nature is actually about mental-devising-

representation which is meant to serve notionally the pertinence of supposed ontological articulations with respect to intrinsic reality, and it doesn't has any end to itself but for such dialectical readjustments to ontological-veridicality as 'dialectical-thinking'/soundness-or-authenticity-of-reference-of-thought/candored-and-dialectically-or-contendingly-in-phase with regards to an intemporal-preservational registry-worldview/dimension institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation, and with superseded/transcended registry-worldviews/dimensions which are not intemporal-preservational at their uninstitutionalised-threshold as 'dialectically-dementing'/oblongated/decanored-and-dialectically-or-contendingly-out-of-phase explaining the nature of mental-devising-representation of all institutional-cumulations/institutional-recomposures whether from the perspective of a retrospect, our present or prospective point-of-reference. Another aspect highlighted by the Arithmetic equation comparison is with respect to the appropriateness and defects of meaningful references with respect to ontological-veridicality/intrinsic-reality. The comparison highlights 3 transversality-of-disambiguated-apriorising/axiomatising/referencing pedestals of meaningfulness. Firstly, A's condition with respect to additionality with the idea that it is bound to fail any arithmetic calculation involving additionality. Thus the subknowledging-impulse/impulsive-dementation pedestal is of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>/non-ontological-reference-or-non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing (not-veridical-thinking-reference-rather-dementing-reference). This is effectively the pedestalled state of psychopathic postlogism-as-of-non-conviction in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as of vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-

subknowledging inducing existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context/non-veridical-hollow-narratives to be reflected/perspectivated from the intemporal/ontological angle as unsoundness-or-inauthenticity-of-reference-of-thought or perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and so in epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or absolving/fleeting/escaping-reflex-logic, from one set-of-postlogical-narratives to the other and one set of interlocutors to the other, in line with its 'short cut' mental relation to meaningfulness as extrinsic-attribution (the temporal eliciting of the temporality/shortness of others is the sufficient basis for getting one's way) as opposed to intrinsic-attribution wherein the intrinsic ontological-veridicality of meaning is the complete and sufficient basis for its pertinence and upholding. This subknowledging-impulse/impulsive-dementation disposition points out that the actual and given meaningfulness being subknowned/pervertedly-represented is ontologically-veridical both registry-wise (soundness-or-authenticity-of-reference-of-thought-wise) and logic-wise (the normal arithmetic operation of the BODMAS equation) as it is intemporally preservational and thus ontologically-veridical/reference-of-thought/ontological-contiguity. It is this pedestal that is the organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) pedestal, organic as it is both registry-wise (soundness-or-authenticity-of-reference-of-thought-wise) and logic-wise striving for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. It is the superseding and intemporal pedestal for articulating ontological meaningfulness (intrinsic-attribution). The third pedestal as demonstrated involves the integrating and epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by temporal-

dispositions both unconsciously (ignorance) and consciously (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) with A's condition/sub-knowledging impulse as if it was ontologically veridical, and obviously leading to the wrong result thus failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. In the case with B it involved resolving the Arithmetic equation as if A's condition was appropriate resulting in 72.5 which is 'epistemically-decadent in notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>' rather than 66 which is ontologically veridical. This is the mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation pedestal, as registry-wise it is not striving for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and so fundamentally its logical-contention is voided (as apriorising—registry precedes and defines logical pertinence), such that such a disposition that integrates subknowledging-or-mimicking-impulse/impulsive-dementation registry-worldview-wise/dimensional-wise speaks of the registry-worldview/dimension as in ontological-dementation/dialectical-dementation—stranding/attributive-dialectics at that uninstitutionalised-threshold. The fourth meaningful reference is actually a variance of the given organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) pedestal which is registry-wise and logic-wise pertinent. It is about the intellectual and virtue driven aetiologisation/ontological-escalation (as per this paper aim and other studies) in grasping the human ontological implications and articulating the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct for the possibility of a conceptual insight and structural/paradigmatic resolution with regards to (at the registry-

worldview/dimension or intradimensional level) procrypticism/the-reality-of-human-temporal-to-intemporal-dispositions-with-consequential-positivistic-meaningfulness-perversion/emanant-wrong-or-demented-shades-of-the-real, resolved by depcrypticism. Comparatively, for instance, articulating new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to resolve the uninstitutionalised-threshold from 72.5 to the ontologically-veridical 66, and so not only with regards to the specific but as a structural/paradigmatic institutionalisation/intemporalisation for perpetuating intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This pedestalled articulation points out that the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) pedestal (ontological-veridicality/reference-of-thought) is transversal/transversality-of-disambiguated-apriorising/axiomatising/referencing and not actually in logical-congruence with both the subknowledging-impulse/impulsive-dementation pedestal (ontological-decadence/non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing/not-veridical-thinking-reference-rather-dementing-reference) and the mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation pedestal (epistemic-decadence/non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing/not-veridical-thinking-reference-rather-dementing-reference) which is relates to as dementing (as their implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are all undue and pervertedly implied). So we then speak of an abject/maximalising-recomposuring-for-relative-ontological-completeness (not incrementalism-in-relative-ontological-

incompleteness) ‘ordered construct’ of the meaningfulness of the intellectual aetiologisation/ontological-escalation as the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) pedestal reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the registry/registry-worldview defects of both the subknowledging-impulse pedestal and the mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation pedestal. Ontologically-speaking, a temporal naivety with regards to psychopath and its protraction as social psychopathy is that going by the dynamism of its faulty-mentation-procedure-deception-or-urge towards ‘extrinsic-attribution’ (the eliciting of the temporality/shortness of others is the sufficient basis for getting one’s way), is that the number of people ‘convinced’ by perverted extrinsic-attribution involving social-and-temporal-trading can have any bearing to the ontological-veridicality/intrinsic-reality in any way. While temporally-speaking, psychopathic situations often lead to a-country-of-the-blind-and-the-one-eye kind of scenario, wherein a thousand blinds may strive to convention out the one-eye, but then it wouldn’t still cut it, ontologically-speaking. (Certainly, it is equally and very possible that if such a one-eye isn’t beholden to a ‘sense of intemporality’ and it is rather temporally-inclined, it might equally take the easier route of reasoning in terms-as-of-axiomatic-construct of country-of-the-blind temporality/shortness whether with respect to temporally outdoing or undermining the phenomena by acting in a manner that is overall of a temporal/shortness-of-register-of-meaningfulness-and-teleology nature. But that will still be temporality/shortness and the notion of an aetiologisation/ontological-escalation as of intemporality/longness will no more be better advanced. Further beyond and more than just with respect to one case of psychopathy but as of intellectual-and-moral-inequivalence/non-correspondence construing the universal human social phenomena of

psychopathic postlogism and conjugated-postlogism across space and time together with the bigger insight of grasping human nature and the overall possibilities thereof. Insightfully, as well it won't be surprising that such a universal projection will possibly meet with a more protracted-and-protracting psychopathy and social psychopathy manifestation going by overall human temporal-to-intemporal mental-disposition existential-form-factor as varied temporal-dispositions come into the frame and are elicited, just as an intemporal projection within a non-positivism/medievalism setup aspiring for a positivistic registry-worldview/dimension-level resolute construal of their corresponding postlogism-as-of-non-conviction like notions-and-accusations-of-sorcery and which is not palliative to a given situation will equally elicit a social protractedness of the phenomenon as varied temporal-dispositions come into the frame and are equally elicited. But then that is an inevitability with respect to the more critical universal projection low-life purposefulness in both meaningful-frameworks). Rather this then points to the nature of postlogical perversion-of-reference-of-thought with temporal-dispositions; (unconsciously) ignorance and (consciously) other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Ontologically, it is then the subject of contention and aetiologisation/ontological-escalation of the organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) pedestal, both in apriorising-registry and registry-worldview terms as it is reflected/perspectivated as ontological-dementation/dialectical-dementation-stranding/attributive-dialectics. The critical reason for this is that the intemporal-disposition is rather inclined to be abject about intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as the complete and sufficient stand for knowledge and virtue with anything else being denaturing much in

parallel as intrinsic-reality transcendental-enabling/sublimating doesn't accommodate human temporality, and so will not even entertain involving in anyway with social-and-temporal-trading exercise which is non-ontological (since it is fundamentally a perversion-and-derived-perversion-of-reference-of-thought, and has nothing to do with issues of defect of logical-processing-or-logical-implication or defect of incidenting-as-social-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance).

This can further be elucidated analysing perversion-of-reference-of-thought of a different nature in a superseded registry-worldview/dimension like non-positivism/medievalism registry-worldview/dimension which should provide an even greater insight analysing from our present perspective, and we can then comparatively project this with respect to deprocrpticism and procrpticism. For instance, accusations of witchcraft in non-positivism/medievalism societies are ontologically about subknowledging/perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought/dementing based on the fact that such societies didn't develop and integrate notions of empirical and rational cause-and-effect positivistic ideas as reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation (a mentation-capacity that further furthers the intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as present day positivistic registry-worldview), as it universally informs the present positivistic worldview and thus the impossibility to sound intelligible in case such an accusation of witchcraft is made today. So structurally, the non-positivism/medievalism society is shaped-and-inclined to integrate and entertain phantasmagorical notions of someone being accused as a witch or sorcerer. We can garner a similar insight just as with the 'disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation' above, where supposed an intemporal

mindset/reference-of-thought who is in a non-positivism/medievalism society was to be accused of witchcraft by someone inclined to accuse people of witchcraft (because of a pathological-condition/subknowledging-impulse/impulsive-dementation) and who obviously is wrong, as we know today that the notion of witchcraft is ontologically unsound and ridiculous as the ability to perform magic and the like by anyone cannot be demonstrated veridically. The disposition to accuse people of witchcraft will be the subknowledging-impulse/impulsive-dementation pedestal. The disposition to entertain and further exploit such situations (as anthropologists perfectly understand the abhorrent role of such notions as witchcraft in the social-stake-contention-or-confliction of non-positivism/medievalism societies) in conjugation of temporal-dispositions that are universally-recurrent or universal across all times (postlogism-slantedness, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) is the mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation pedestal which is rather an extricatory paradigm (of the situation, to fulfil temporal inclinations or distractive-temporal-prioritisation and not intemporal preservation); given the lack of a social universal-transparency of the idea that the notion of witchcraft is bogus, with corresponding lack of perceived untenability/internal-contradiction/internal-incoherence/institutional-constraining of such a notion, thus a collective-consciousness that doesn't register it as demented (as we do today) and finally, no ontological alienating reason for not believing, endemising and enculturating the phenomenon of witchcraft. The organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) pedestal will rather be an inclination to see that the lack of empirical and rational reference-of-thought—categorical-

imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation of the non-positivism/medievalism registry-
 worldview/dimension is actually, in the bigger scheme of things, what is at the basis of not
 only the ‘one locale accusation of witchcraft, specifically so with this individual but its
 general integration as a socially viable and entertained notion in this locale’. But more
 critically, from its
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm to be intemporally-preservational, more than
 the notion of just attaining only to the ‘one-locale’ accusation of witchcraft, for the
 intemporal mindset/reference-of-thought in organic-comprehension-thinking
 (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-
 of-register-of-meaningfulness-and-teleology) the problem is now the insight about the
 intellectually and morally wrong in metaphorically-a-million-and-one-instances-and-
 locales/aetiologisation/ontological-escalation of accusation of witchcraft and the implications
 across all societies of the human species qualified as non-positivism/medievalism, with the
 bigger ontological implications of this specific accusation rather being how is this
 enlightening structurally about the endemisation and enculturation of vices-and-impediments
 associated with superstition in the said registry-worldview/dimension. That is, the problem is
 now about the aetiologisation/ontological-escalation that can be made to address such lack of
 positivistic empirical and rational notions in all possible human societies qualified as non-
 positivism/medievalism. In other words, the graver ‘ontological-dementation/dialectical-
 dementation–stranding/attributive-dialectics problem’ for the organic-comprehension-
 thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-
 conflatedness/longness-of-register-of-meaningfulness-and-teleology)/‘intemporal-
 prioritisation-of-reference-of-thought’-as-conflatedness pedestal is ‘why is society non-

positivism/medievalism, and it is not in 'mentation equivalence' with a subknowledging-impulse/impulsive-dementation mindset/reference-of-thought pedestal accusing it of witchcraft and the specific locale where such an accusation is made in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/temporal prioritisation pedestal that entertains notions of witchcraft (as the intemporal mindset/reference-of-thought is thus anecdotally 'boxing far below its weight'). Rather it is about articulating a comprehensive structural/paradigmatic dialecticism reasoning-through/abjection (not reasoning-with incrementalism-in-relative-ontological-incompleteness with temporal-dispositions mindsets) between non-positivism/medievalism and positivism for prospective 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure away from the vices-and-impediments of a non-positivism/medievalism superstitious mental-disposition towards a prospective positivistic mental-disposition which is the virtue that is the 'structural/paradigmatic resolution' to the superseded registry-worldview/dimension not only superstitious specific vices-and-impediments but equally critical the overall structural/paradigmatic <formative>projective-totalitative—imbued-epistemic-causality,-for-explicating-ontological-contiguity such superstition to the creative emancipation of human meaningfulness and action. With this insight the ontological 'terms of reasoning' of the subknowledging-impulse/impulsive-dementation pedestal is a wrong and naïve 'mentation equivalence' in dementedly striving to establish whether the accused is involved in witchcraft; the 'terms of reasoning' of the mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation pedestal is a wrong and naïve 'mentation equivalence' in dementedly striving to establish and examine whether the accusation of witchcraft is true or not, with all

the implied existential implications meaningfulness in both cases; and the ‘terms of reasoning’ of the organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) will be to be dismissive of the two prior pedestals as in ontological-dementation/dialectical-dementation–stranding/attributive-dialectics and stranded-as-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase since in reality the elements of their apriorising–registry are perverted (implied-logical-dueness – of accusation of witchcraft, implied-profile, implied-presumptuousness/arrogation, implied-assumptions, implied-value-reference and implied-teleology), and the issue will rather be about reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the perversion-of-reference-of-thought of a registry-worldview/dimension that endemises and enculturates the belief in superstition and witchcraft for a structural/paradigmatic resolution as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. In other words, the temporal-dispositions are not logically-contending but ontologically or dialectically demented as they are rather the subject of contention and aetiologisation/ontological-escalation from the intemporal-disposition given that these are dialectically-or-contendingly-out-of-phase and-epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag.

The reason for the above ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness pedestalling is simple. ‘Intemporal-prioritisation-of-reference-of-thought’-as-conflatedness pedestalling carries the implication that reference-of-thought and meaningfulness is fundamentally/ontologically structured for ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and hence the precedence of higher-intemporal-teleologies (organic-comprehension-thinking pedestal) over low temporal teleologies of reference-of-thought and

meaningfulness (perversion-of-reference-of-thought as to dialectical-dementing—epistemic-
 totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag); and that
 subpar structuring of reference-of-thought and meaningfulness not for intemporal-
 preservation-entropy-or-contiguity—or—ontological-preservation but rather for perversion-of-
 reference-of-thought of subpar reference-of-thought—categorical-imperatives/axioms/registry-

 superseding/transcending registry/registry-worldview reference-of-thought/veridical-

 applies between the superseding/transcending deprocrypticism and the
 superseded/transcended procrypticism registry-worldviews/dimensions with organic-
 comprehension-thinking in ‘intemporal-prioritisation-of-reference-of-thought’-as-

While the ontological-dementation/dialectical-dementation—stranding/attributive-dialectics with respect to non-positivism/medievalism has to do with not integrating empirical and rational positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology and the corresponding social implications, the ontological-dementation/dialectical-dementation—stranding/attributive-dialectics with procrypticism has to do with not integrating the veridicality of temporal-dispositions perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag of positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as knowledge notionalisation and a corresponding ontological-dementation/dialectical-dementation—stranding/attributive-dialectics ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness pedestalling to reflect/perspectivate the subknowledging-impulse/impulsive-dementation pedestal and the mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation pedestal from an organic-comprehension pedestal ‘ontological-reference of thought and meaningfulness’ for a superseding deprocrypticism institutionalisation as a universal/intemporal/ontological/intrinsic-attribution/longness-of-register-of-meaningfulness/human-species-level paradigm across all space and all time (and not a temporal, extricatory, shortness-of-register-of-meaningfulness-and-teleology, individuals, extrinsic-attribution, incidental or incremental or ‘disjointedness-as-of-reference-of-thought’ or temporal-accommodation paradigm that endemises and enculturates procrypticism) to induce the appropriate prospective cross-generational ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure.

This conceptual ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of (superseded registry/registry-worldview-or-dimension) mental-devising-representation as oblongated/decandored-and-dialectically-or-contendingly-out-of-phase (demented) and (superseding registry/registry-worldview-or-dimension) mental-devising-representation as straightness/candored-and-dialectically-or-contendingly-in-phase (thinking) is critical in grasping the nature of ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness with respect to circumventive/distractive-temporal-prioritisation-of-reference-of-thought as the former is ‘abject’ intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (and thus the requisite reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in order to arrive at 66/intemporal-preservation is downright uncompromisable). Circumventive/distractive-temporal-prioritisation-of-reference-of-thought involves various shades of incrementalism-in-relative-ontological-incompleteness temporal-accommodation with institutionalisation being rather a secondnaturing to a given set of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as per percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> and a positive-opportunism institutionalisation constraining. This is ‘no emanance transformation’ of temporal-dispositions into the intemporal-disposition; as such a notion can only be solipsistic to individuals beyond the possibility of institutionalisation secondnaturing (point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/induced-ring-of-gyges-effect/point-of-solipsistic-threshold). Thus at the uninstitutionalised-threshold, circumventive/distractive-temporal-prioritisation-of-reference-of-thought will very well do with an outcome (other than 66)

whether it is failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, given its solipsistic disparate nature (noncontiguous/discrete hence of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>) with respect to the notion of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as being about intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and so, especially when postlogical and integrating the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of postlogism/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness. And critically, it should be noted that ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness is about the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as registry-worldview/dimension defining, and not about good-naturedness/vague-temporal-impression-driven notions that may arise in circumstantial situations. This Arithmetic ontological-contiguity comparison equally gives an insight on why temporal-to-intemporal-dispositions-pedestals-disambiguation is needed with 3 pedestals [organic-comprehension/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness pedestal for which the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as ontology supersedes perversion-of-reference-of-thought (as prior intemporal reference-of-thought—categorical-imperatives/axioms/registry-teleology) which are actually meant to represent it at uninstitutionalised-threshold, mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation pedestal for which reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are wrongly related to as an end by themselves at

uninstitutionalised-threshold, and postlogical-including-psychopathic/subknowledging-impulse/impulsive-dementation/vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging pedestal for which the hollow form of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for perversion-of-reference-of-thought of reference-of-thought and meaningfulness is a sound existential construct.] That is, in the bigger scheme when it comes to deciding between ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective) and the human temporal psyche, what gives-in is the human temporal psyche (and so for the betterment of the species); that is, from an animal that was emanantly/becomingly/solipsistically successively of a mental-devising-representation perspective stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and from a prospective articulation, procrypticism/disjointedness-as-of-reference-of-thought, and so respectively, for their successive institutionalisations mental-devising-representation perspectives as stranded-as-straight/candored-and-dialectically-or-contendingly-in-phase of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. In other words, across all times the ‘limits of thought’ is not ‘the averageness/banality/temporalisation of thought’ but rather ‘the disposition to intemporalise and ontologise human thought’, and so whether from a sense of intrinsic-reality one mortal is rightfully saying that the world is round and by expediency a majority of mortals are saying it is flat. That is the singular construct that man cannot lose across all generations to enable the perpetual existential regeneration of civilisation beyond just being a secondnatured construct as mere-institutionalised-being-and-craft (which can often actually turn out to be alien to the

intemporal-disposition apriorising–registry, that we can all potentially cultivate, that created, creates, and needs to keep creating the conditions for institutionalisation perpetuation)!

It should be noted that the establishment of the reality of an apriorising/axiomatising/referencing–registry’s, or in the bigger picture, registry-worldview’s/dimension’s reference-of-thought, dialectical-out-of-phasing at an uninstitutionalised-threshold speaks of that apriorising–registry’s or registry-worldview’s/dimension’s referene-of-thought ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics’/stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase (as it is ‘devoid of reference-of-thought and correspondingly ontological-veridicality/ontological-contiguity’ given its epistemic-decadence/psychopath or epistemic-decadence/psychopath’s-temporal-interlocutor, as perversion-of-reference-of-thought the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), and so, in a state of transversality-of-disambiguated-apriorising/axiomatising/referencing as perceived from the superseding/transcending intemporal-disposition or registry-worldview/dimension which voids the registry-pervverting/subknowledging/dementing-temporal-dispositions’ transcended-or-superseded-registry-worldview’s/dimension’s apriorising–registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. [This as ontological-dementation/dialectical-dementation–stranding/attributive-dialectics is what prevents the epistemic-totalising–self-referencing-syncretising-as-straight-and-candored, of the recurrence-of-in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic (which are veridically of notional-

discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> as wrongly implied postlogically-as-rather-being-prelogical; as the instigation (by psychopath) recurrently-of-in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ and as the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation integration/conjoining (psychopath’s temporal-interlocutors) recurrently-of-in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’, and in so doing intemporally/ontologically reflecting/perspectivating/highlighting the ontological-veridicality/ontological-reality of the psychopath’s effective epistemic-decadence and the psychopath’s temporal-interlocutors’ epistemic-decadence as effectively stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase in various shades of temporality.] For instance in registry-worldview/dimension terms, the ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics’/stranding-as-rightfully-oblongated/decandored-and-dialectically-out-of-phase of the non-positivism/medievalism mindset/reference-of-thought with respect to the positivistic mindset/reference-of-thought (of the former perversion of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at the uninstitutionalised-threshold of positivistic meaningfulness) wherein there can’t be a logical nested-congruence or engagement between the two mindsets as these do not have common reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, with the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence

epistemic/notional_projective-perspective) as contention exercise being about the positivistic mindset/reference-of-thought reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the non-positivism/medievalism registry-worldview/dimension as a manifestation of mental-defect/perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought at the uninstitutionalised-threshold of non-positivism/medievalism meaningfulness requiring positivistic meaningfulness, and in the bigger scheme of things requiring the secondnaturing of positivistic (as against non-positivism/medievalism) reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

The point then is that, from a transcending registry-worldview/dimension, the relation with its transcended registry-worldview/dimension is ‘not ontologically an exercise in logical-congruence with the transcended registry-worldview/dimension as a dialectical-thinking exercise’ but rather ontologically an exercise in transversality-of-disambiguated-apriorising/axiomatising/referencing by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) a demented-representation as manifestation-and-not-contention of the transcended registry-worldview/dimension denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation for prospective positivistic meaningfulness, as stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contentingly-out-of-phase, and avoiding the conviction-reflex/prelogical-reflex-admittance-reflex/in-phase-reflex which wrongly elevates perversion-of-reference-of-thought into logical-contention. Ontological-dementation/dialectical-dementation–stranding/attributive-dialectics is effectively the mental-devising-representation of the dialectical-primitivities/dialectical-out-of-phasing registry-worldviews/dimensions of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively

procrypticism (dementing of positivistic meaningfulness) or-emanant-wrong/demented-shades-of-the-real, from successive veridical reference-of-thought or veridical-thinking-reference-over-dementing-reference (ontological-veridicality/ontological-contiguity) as base-institutionalisation, universalisation, positivism and deprocrypticism respectively which are mentally stranded-as-rightfully-straight/candored-and-dialectically-or-contendingly-in-phase.

Ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as such redefines psychology as a postdicatory science (tying the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool), that is memetically/meaningfully not limited to-and-within one dimension-or-registry-worldview/intradimensionally but by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) perversion-of-reference-of-thought, is transdimensional/transcendental in depth-of-meaningfulness as ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation).

Ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as such is construed at the individuation-level as of the circularity/recurrence/repetition/repeatability in delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology. This involves maximalising-recomposuring-for-relative-ontological-completeness as enabled by ontological-dementation/dialectical-dementation–stranding/attributive-dialectics in disambiguating the intemporal-disposition as ontological and temporal-dispositions at the individuation-level; while at the registry-worldview/dimension-level it reflects the determination of the relative registry-worldviews/dimensions as of relative-ontological-incompleteness-of-reference-of-thought and relative-ontological-completeness-of-reference-of-thought. The implication is that

soundness-or-authenticity-of-reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation (ontological-normalcy or ontological-normalcy/postconvergence). There is no doubt that if by some secret manner ‘some individuals from recurrent-utter-uninstitutionalisation registry-worldview/dimension’ were to appear and be able to live in our present positivistic social-setup (without us knowing beforehand that they are coming from the past to avoid inducing a confounding effect in our analysis), and intent on fully living based on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation of the recurrent-utter-uninstitutionalisation setup, our current psychology science most probably will treat them as pathological (demented). At which point, implying the conceptualisation of such an ontological-mental-pathology or dementation (in contrast to a physiological mental pathology) is much more a question of ‘ontology valour’ (ontology valour being defined as a registry-worldview’s/dimension’s ontology depth in relation to its conventioning limitations with respect to pure-intemporal-ontology). But then, crazy as it may seem, this extends ontological-mental-pathology or dementation conceptualisation, on those very same terms of ontology valour, not only retrospectively but equally prospectively, as from a prospective transcendence (with a corresponding insight about how we may be that ‘dialectically-dementing/stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase’ from such a prospective transcendence’s reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation, of course, that is, when precluding our illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage). In the bigger picture, ontological-dementation/dialectical-dementation–stranding/attributive-

dialectics effectively will seem to place human (recomposuring)-consciousness-awareness-teleology in the backseat with ontology-in-its-inherent-dialectical-abstraction taking the frontseat in the articulation of intrinsic reality and correspondingly human mental-devising-representation. Actually, registry-worldviews/dimensions are rather prospectively averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> of their own specific evolving successive existentialisms (with their full-depths-of-existential-implications specific evolving paradigms), and with specific evolving percolation-channels for prospective ontologising and ontologising-transcendence. Fundamentally, without the possibility of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics dementability-of-the-human-psyche-for-prospective-institutionalisation involving stranding-dialectics, no registry-worldview/dimension will be transcendable (hence dementable/no-longer-thinking) for prospective institutionalisation. As it is from dementation (literally ‘de-mentation’) that an unshackling/recomposuring/reordering/new-mentation of prospective intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology is possible. This is because ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as such allows for a ‘human mentation capacity renewal’ by transcendence (as it is by cumulation/reordering/recomposuring the prior institutionalisation mentation-capacity for a contiguous upholding of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that transcendence occur) of the ‘veridical reference-of-thought of meaningfulness’ since it dementes the mental-devising-representation of the old/retrospective/superseded/transcended registry-worldview/dimension ‘as not dialectical-thinking/soundness-or-authenticity-of-reference-of-thought but demented and dialectically-or-contendingly-out-of-phase at its uninstitutionalised-threshold and references the mental-

devising-representation of the new/prospective/superseding/transcending registry-worldview/dimension as ‘effectively dialectical-thinking/soundness-or-authenticity-of-reference-of-thought as a new-and-greater-mentation-capacity and dialectically-or-contendingly-in-phase; on the grounds that the veridicality of the reference-of-thought is what upholds ontological-normalcy or ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. [For instance, at its uninstitutionalised-threshold requiring a prospective positivistic registry-worldview/dimension, the non-positivism/medievalism registry-worldview/dimension which is rather superstitious/alchemic/aristocratic is rather ontologically-demented/dialectically-demented in a stranding-dialectics wherein its mental-devising-representation is demented as not thinking/unsoundness-or-inauthenticity-of-reference-of-thought and dialectically-or-contendingly-out-of-phase while the positivistic registry-worldview/dimension mental-devising-representation is dialectical-thinking/soundness-or-authenticity-of-reference-of-thought and dialectically-or-contendingly-in-phase, thus ‘granting the latter reference-of-thought (veridical-thinking-reference-over-dementing-reference)’ over the former which is ‘no longer reference-of-thought’ in the sense that ‘we can’t think in medieval terms and be considered soundness-or-authenticity-of-reference-of-thought today but rather ontologically-demented’. This dialectical conceptualisation equally applies regarding procrypticism and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldviews/dimensions.] In fact, a deconstruction insight with regards to all the interchangeable deconstructing terms in reference to the notion of ‘failing/not-upholding-as-of-apriorising/axiomatising/referencing intradimensional reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—

or-ontological-preservation' (i.e., ontological-dementation/dialectical-dementation–stranding/attributive-dialectics, perversion-of-reference-of-thought, as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview's/dimension's–reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect, unsoundness-or-inauthenticity-of-reference-of-thought, mental-perversion, subknowledging, mimicking; and-their-corresponding-epistemic-totalising-self-referencing-syncretising) indicates that ontological-dementation/dialectical-dementation–stranding/attributive-dialectics is ultimately the 'ideal reference term' for the simple reason that unlike the other terms it 'beats' the 'intuition for intradimensional/non-transcendental/non-transdimensional reasoning' and succeeds to convey, overcoming the counter-intuition, the requisite transdimensional/transcendental reasoning that achieves ontological-normalcy or ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or-ontological-preservation); as this counter-intuition for transdimensional reasoning (which is not easily superseded and not even by this author articulating the notion but for this abstraction insight) is basically due to the subconscious-strength of the 'intradimensional-subknowledging-normalcy' (epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) reference of personhood-and-socialhood-formation existentialism/full-depth-of-existential-implications such that the other notions will tend-to-get-lost-down-the-line by unconsciously returning to and/or admitting to the wrong intradimensional reflex-conceptualisations, at one point or the other, and so in lieu of and undermining the ontological-veridicality of the effectively veridical transcendental reality. Ontological-dementation/dialectical-dementation–stranding/attributive-dialectics 'beats' this counter-intuition by simply and immediately bringing to the mind an 'overarching conceptualisation' of a stranding-dialectics of superseding/transcending registry/registry-

worldview-or-dimension (as straight/candored-and-dialectically-or-contendingly-in-phase) and a superseded/transcended registry/registry-worldview-or-dimension (as oblongated/deandored-and-dialectically-or-contendingly-out-of-phase); around which all other dynamic constructions fall in place (whether organic-comprehension-thinking or mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, circumventive/distractive-temporal-prioritisation-of-reference-of-thought, subknowledging-impulse, etc.). The other deconstructing terms while having specific analytical bearings do not carry this all-encompassing quality that liberates from ‘intradimensional-subknowledging-normalcy’ (epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage inclination) as ontological-dementation/dialectical-dementation—stranding/attributive-dialectics does as it further induces ‘transdimensional or memetic thinking’ by its implied stranding-dialectics in meeting up with ‘ontological-normalcy or ontological-normalcy/postconvergence’ (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation). For instance, while the term as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect’ brings to the mind a poor ontological disposition like the other BODMAS characters disposition to systematically operate additionality overlooking A’s condition, but it is a sense of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics that carries the intuition of an uninstitutionalised-threshold, and construes a superseding/transcending registry/registry-worldview-or-dimension and a superseded/transcended registry/registry-worldview-or-dimension, and all the implications thereof. Now analysing the as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the

registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-
 accordance defect or intradimensional-defect' term thereafter, we grasp that it is the
 'epistemic-totalising-self-referencing-syncretising' in 'notional-discontiguity/epistemic-
 discontiguity-<mentally-aestheticised_dementing-qualia-schema> of
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' as of the
 perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising-self-
 referencing-syncretising/circularity/interiorising/akrasiatic-drag' that makes it as
 structural/paradigmatic denaturing construed as being/ontological/existential-defect or the
 registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-
 accordance defect or intradimensional-defect/not-an-implication-of-act-execution-defect
 and this carries the implications of a registry-worldview/dimension defining defect (in a

 dementation/dialectical-dementation—stranding/attributive-dialectics as such implies as
 structural/paradigmatic denaturing construed as being/ontological/existential-defect or the
 registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-

 defect by its relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-
 or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-
 construed-by-prospective-reference-of-thought like recurrent-utter-uninstitutionalisation
 (with respect to base-institutionalisation), ununiversalisation (with respect to
 universalisation), non-positivism/medievalism (with respect to positivism) and our own

dimension procrypticism's (the-'dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of positivistic-meaningfulness) ontological-dementation/dialectical-dementation—stranding/attributive-dialectics (with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism). A similar articulation can be made with regards to each of the other deconstructing terms where ontological-dementation/dialectical-dementation—stranding/attributive-dialectics provides the better overarching conceptualisation from an 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness reference-of-thought (veridical-thinking-reference-over-dementing-reference). Furthermore, by its stranding-dialectics, ontological-dementation/dialectical-dementation—stranding/attributive-dialectics is the only notional term that operantly and deterministically projects the requisite psychoanalytic-unshackling/memetic-reordering/recomposuring/new-mentation with regards to the implied veridical existentialism/full-depth-of-existential-implications taking into account the veridicality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor hotchpotching wherein sound knowledge/virtue is pliable to temporal denaturing and corresponding conjugation/derivation thus the need for knowledge notionalisation as a response to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor dilemma.

The very central idea about procrypticism and deprocrypticism (and for that matter the successive dialecticisms of the institutional-cumulations/institutional-recomposures) with respect to the veridicality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

dispositions—existentialism-form-factor (longness-of-depth-of-meaningfulness and shortness-of-register-of-meaningfulness-and-teleology) is in bringing to the fore and contrasting ontological-normalcy/postconvergence in its purity as ontological-normalcy and that human temporal inclination at all institutional-cumulations/institutional-recomposures threshold this purity and pervert ontological-normalcy/postconvergence, thus highlighting the follow dichotomies that are always associated with ontological-normalcy/postconvergence dialectics:

1) impetus for intemporal-preservation beyond reference-of-thought—categorical-imperatives/axioms/registry-teleology at uninstitutionalised-threshold versus impetus rather for reference-of-thought—categorical-imperatives/axioms/registry-teleology at uninstitutionalised-threshold

2) thinking as veridical reference-of-thought (veridical-thinking-reference-over-dementing-reference) of mental-devising-representation/(recomposured)-consciousness-awareness-teleology of the prospective registry-worldview/dimension as soundness-or-authenticity-of-reference-of-thought versus dementing as mental-devising-representation/(recomposured)-consciousness-awareness-teleology of the retrospective registry-worldview/dimension as unsoundness-or-inauthenticity-of-reference-of-thought as it is no longer an reference-of-thought (not-veridical-thinking-reference-rather-dementing-reference)

3) organic-comprehension-thinking as intemporal profoundness-of-thought-and-meaningfulness (longness-of-register-of-meaningfulness-and-teleology) versus mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as temporal shallowness-of-thought-and-meaningfulness (shortness-of-register-of-meaningfulness-and-teleology)

4) ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness as defining the priority of life choices or existential living as in priority all that which preserve precedingly the intemporal as it creates the institutionalisation possibilities for the furtherance of intemporality/longness versus circumventive/distractive-temporal-prioritisation-of-reference-of-thought as defining the priority of life choices or existential living as priorly unaccountable to the possibility for the furtherance of intemporality/longness whether by temporal circumventing or distraction of institutionalisation/intemporalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Central to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is an ontological-normalcy/postconvergence that doesn’t recognise any uninstitutionalised-threshold to the projected <formative>wooden-language—of-temporal–mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology considered circumventive/distractive-temporal-prioritisation-of-reference-of-thought over inherent ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; at which point of uninstitutionalised-threshold, ontological-dementation/dialectical-dementation–stranding/attributive-dialectics is implied (in organic-comprehension-thinking over mechanical comprehension or as a stranding-dialectics) for a renewed/prospective mentation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness that ‘supersedes deterministically and operantly, without any discretion allowed’, circumventive/distractive-temporal-prioritisation-of-reference-of-thought. That is ontological-dementation/dialectical-dementation–stranding/attributive-dialectics is effectively

the notion that, in recognition of the unchanging, preceding and inherent nature of intrinsic reality with respect to the human psyche (and its mental-devising-representation of intrinsic reality) which is what ‘gives-in’/collapses ontologically/as-an-ontological-reference; enables, for the articulation of new mentations as transcendence, the ‘giving-in’/collapsing of the mental-devising-representation/(recomposed)-consciousness-awareness-teleology of successive institutional-cumulations/institutional-recomposures mindsets, notwithstanding the fact that the ontological-dementation/dialectical-dementation–stranding/attributive-dialectics (of their reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) is unintelligible/existentially-suprastructural to these superseded/transcended registry-worldviews/dimensions mindsets due to their epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage disposition.

Supposed we were to make a profound analysis of our contiguous human mental-devising-representation/consciousness-awareness-teleology (in-dialectical/recomposuring-moments) from the appearance of human beings on earth, the effective linkage as new-mentations between those successive recomposuring moments (whether recurrence-of-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism-or-medievalism, positivism–procrypticism and prospectively perpetuation-of-deprocrypticism) is as ontological-dementation/dialectical-dementation–stranding/attributive-dialectics in stranding-dialectics; and this thus predicates or rather postdicates as well our own registry-worldview/dimensional ontological-dementation/dialectical-dementation–stranding/attributive-dialectics over and as denaturing positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (procrypticism) and implying a prospective need for deprocrypticism. Postdication, when alluding to an ontological-

dementation/dialectical-dementation—stranding/attributive-dialectics defining psychological science, will effectively hold that the conceptualisation of the social is very much a contiguous ontological disambiguation of a demented social of personhoods-and-socialhood-formation in existentialism/full-depth-of-existential-implications of temporal-to-intemporal-dispositions, from a prospective registry-worldview's/dimension's reference-of-thought in ontological-normalcy/postconvergence. Postdication means reasoning from a basis of ontological-normalcy/postconvergence wherein the prior/transcended/superseded registry-worldview/dimension is no longer referenced (as reference-of-thought) but 'dialectically demented/unsoundness-or-inauthenticity-of-reference-of-thought' while the prospective/transcending/superseding registry-worldview/dimension is referenced (as reference-of-thought) as 'dialectical-thinking/soundness-or-authenticity-of-reference-of-thought' in construing meaningfulness. The grander issue that always arises is in existentialism terms, whether with regards to an obvious human disposition for temporal-accommodation as circumventive/distractive-temporal-prioritisation-of-reference-of-thought of being-and-existence as conceptualised within the successions-of-existing-in-human-life-spans or rather an abstract eternal-projecting disposition of 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness wherein the articulation of meaning, being and existence is in existentialism-terms intemporally-driven on the basis that that which is in need of transcendence-and-the-intemporal (the temporal) cannot be seen-as-or-made-a-reference-of-intemporal/ontological-thought, and that it is exactly for that reason that human progress has been and will remain dialectically possible. That is, the reference-of-thought (veridical-thinking-reference-over-dementing-reference) can only be the pedestalling of an 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness as ontology with regards to apriorising—registry, contrasted to a circumventive/distractive-temporal-prioritisation-of-reference-of-thought-reference implying a perverted-registry reflected/perspectivated by its

ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. Where the natural world is resolute with no compromise with the operation of such a notion as $1+1=2$, the same cannot be resolutely affirmed in the human social-and-temporal-trading in the social world where on occasions $1+1$ will add up to 5 where the effective constraining of institutionalisation is lacking. Ontological-dementation/dialectical-dementation–stranding/attributive-dialectics (stranding) has the merits of articulating that for reference-of-thought (veridical-thinking-reference-over-dementing-reference) to establish veridicality, no such social-and-temporal-trading is beyond ontological-entrapment ‘by re-institutionalisation with new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation dialectically implying an ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of transcended reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (in our present case, deprocrypticism of procrypticism/disjointedness-as-of-reference-of-thought, for a structural/paradigmatic resolution of defective-issues or vices-and-impediments of our registry-worldview/dimension and just as critically the structurally inhibiting effect on the furtherance of human emancipative potential; just as positivism is the structural/paradigmatic resolution of defective-issues or vices-and-impediments of non-positivism/medievalism together with the structurally inhibiting effect on the furtherance of human emancipative potential, and the same applies with ununiversalisation and universalisation, and recurrent-utter-uninstitutionalisation and base-institutionalisation); thus the potential to fully close the gap with regards to ontological-veridicality of the natural sciences in a ‘renewed maturation’ of the phenomenological ontological-performance conceptualisation of the social. Though with the weakness we must be able to rise up to, that ‘the social’ is existentially ‘emotionally involved’. But this can be and is effectively overcome by ‘appropriately universalising and

detached meaningfulness by percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>' as devised for all formalised and institutionalised settings capable of introducing, upholding and internalising the ascendancy of many a social outlier thoughts and meaningfulness which from a 'purely mobbish social disposition' as may arise in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) would hardly be countenanced. The bigger picture here (and of relevance to a registry-worldview/dimension transcendence from procrypticism to deprocrypticism as the structural/paradigmatic and general resolution of the vices-and-impediments together with the structurally inhibiting effect on the furtherance of human emancipative potential of the perversion-of-reference-of-thought as to dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of positivistic meaningfulness-and-teleology, and specifically resolution of the implications of psychopathic subknowledging/perversion-of-reference-of-thought) may be to think, given our own illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, that such an analysis applies only to prior institutional-cumulations/institutional-recomposures. But the fact is that such a profound conceptualisation will have to come to terms with the reality of the implied existentialism/full-depth-of-existential-implications beyond our present sense of personhoods-and-socialhood-formation if it were to avoid platitudinising, becoming circular with dead-ends and lose its intemporal purpose and hence ontological purpose, and so for the simple reason that it is the human psyche that 'gives-in' with respect to intrinsic-reality as renewed/prospective ontological-veridicality, starting with that of the intellectual analyst/analysts itself/themselves); as the human psyche gave-in from recurrent-utter-uninstitutionalisation to base-institutionalisation, ununiversalisation to universalisation, non-

positivism/medievalism to positivism, and where renewed/prospective ontological-veridicality does establish a new registry-worldview/dimensional transcendental paradigm shift as procrypticism to deprocrypticism, then the human psyche will equally have to give-in, and by the way all transcendences meet with some resistance or the other and thus a reason for transversality-of-disambiguated-apriorising/axiomatising/referencing reflex to preserve the precedingness/supersedingness/ascendency of intrinsic-reality in adverting social-and-temporal-trading of meaningfulness. Part and parcel, of human intellectualism beyond mere-institutionalised-being-and-craft, as has historically been implied in the case with many a great human mind, is to recognise that the social-construct is ‘not an ontological absolute’ but rather a ‘conventioning construct at the limits of human ontological capacity’ and that that is ‘why it has got its defining issues and problems’ and further that ‘it progresses and transcends’, and the intellectual exercise goes beyond just reasoning within ambits of ‘temporally-and-socially-perceived-rightness-of-thinking’ to explore possibilities that might actually be ‘outright unpalatable’ in the temporo-social sense but in the bigger picture as an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm are indispensable. With the idea that an intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm that prolongs to intemporality/an-abstract-eternality while obviously of ‘less an immediate temporal existential sense of good to some humans’ is undoubtable of ‘an intemporal existential sense of good to all humans at all times’ by its percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> wherein for instance, the structural/paradigmatic effect of the law is allowing for civilisational living but its circumstantial construal and application may not be in tune with the temporal interests of many but for its institutionalising constraining. This contrast between humans appreciating intemporality/longness as potentially of universal import and at

the same time disposed occasionally to advanced their temporality, is what warrants ‘a constraining institutionalisation’. In the same vain, one may ask what’s the temporal benefit to Rousseau or Galileo instead of striving for greater aristocratic privileges for themselves; for the one to rather carry the mantle from one royal court to the other of affirming the possibility of human emancipation (by which we are all percolatively benefiting from today) or the other the mantle of a principled engagement and possibility of science starting with an uncompromising conviction from observation that the earth is not at the centre of the solar system, by which a culture of science came to be established. And finally, how coherent are temporal meaningful frames built from such intemporal grand principles but lived on temporal dispositions in extrication in contradiction to such philosophies, and what is the very relevance of such temporal enculturation and endemisation to present-day social and institutional failures in society? And what’s the role of ‘intellectual irresponsibility’ in all of this?

From an intemporal hence ontological depth-of-meaningfulness, precedingly/supersedingly, ‘limited-mentation-capacity’ (for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) is the reason for registry-worldview/dimension perversion-of-reference-of-thought defect at uninstitutionalised-threshold; implying that ‘ontological-normalcy or ontological-normalcy/postconvergence’ is actually for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation beyond the defective ‘intradimensional-subknowledging-normalcy or reflex-normalcy’ which is rather an epistememic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (illusion-of-the-present/present-consciousness) inclination to overlook/aside the notion of prospective transcendence at its own (limited-mentation-capacity-threshold) uninstitutionalised-threshold though it will obviously and paradoxically recognise the need of prior registry-

worldviews/dimensions to transcend (just as by reflex from our perspective we will recognise such a need for base-institutionalisation over recurrent-utter-uninstitutionalisation, universalisation over ununiversalisation, positivism over non-positivism/medievalism but hardly prospectively the notion that our dimension has an uninstitutionalised-threshold like procrypticism/disjointedness-as-of-reference-of-thought with the need for prospective transcendence as deprocrypticism). However, as previously indicated such an insight can only be garnered, beyond our illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage as all registry-worldviews/dimensions wrongfully imply, given that ‘doppler-thinking’ wherein our registry-worldview/dimension isn’t the absolute reference of meaningfulness (which is rather an intradimensional-subknowledging-normalcy in lieu of the ‘ontological-normalcy or ontological-normalcy/postconvergence’ as that which allows for prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation). It is this ‘ontological-normalcy or ontological-normalcy/postconvergence’ that reflects/perspectivates perversion-of-reference-of-thought defect as ontological-dementation/dialectical-dementation—stranding/attributive-dialectics as against the defective reflex-normalcy/intradimensional subknowledging-normalcy that wrongfully represent it as straightness/candored-and-dialectically-or-contendingly-in-phase. Thus the general notion of an intemporal/ontological resolution of perversion-of-reference-of-thought is more than just the instigating effect of the subknowledging-impulse/impulsive-dementation (psychopathic postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) but harkens back to the notion of the intraregistry-worldview/dimension limited-mentation-capacity-(as of relative constitutedness towards relative conflation)/uninstitutionalised-threshold in the very first place. As this is the structuring disposition for the possibility of perversion-of-reference-of-thought requiring

ontological-normalcy or ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. For instance, such perversion-of-reference-of-thought as witchcraft in the non-positivism/medievalism registry-worldview/dimension is fundamentally implying structurally a need for the right human mentation-capacity as the prospective transcendence of a positivistic registry-worldview/dimension, and likewise structurally regarding procrypticism/disjointedness-as-of-reference-of-thought with deprocrypticism (as the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework and not good-natured/vague-impress construct).

Ontological-normalcy or ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, beyond defective intradimensional-subknowledging-normalcy/reflex-normalcy, points to factoring in temporal-to-intemporal-dispositions disambiguation as ‘knowledge notionalisation’ to avoid wrongfully operating/processing of logic by the reference of the intemporal-disposition reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation which is ontological (as it is in sync with intrinsic-reality/veridicality), where dealing effectively rather with temporal-dispositions. Knowledge notionalisation factors in how temporal-dispositions relate to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (intradimensional-subknowledging-normalcy/reflex-normalcy) and at institutionalised/intemporalised-thresholds (ontological-normalcy or ontological-normalcy/postconvergence). It should be noted that the particularity for achieving all

institutional-cumulations/institutional-recomposures is about bringing the prior registry-worldview/dimension perversion-of-reference-of-thought to its placeholder-setup/mental-devising-representation/mentation/(recomposed)-consciousness-awareness-teleology awareness for the collective-mind to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure, and thus take-stock-and-supersede/transcend its limited-mentation-capacity-(as of relative constitutedness towards relative conflation)-threshold (uninstitutionalised-threshold). This is brought to the collective-consciousness so that with regards to social-stake-contention-or-confliction-and-confliction it renews its psychoanalytic-equilibrium, as the latest ‘capacity boost’ with respect to what is the grander individual-and-social good as positive-opportunism. For instance, achieving base-institutionalisation requires that it should be brought to the collective-consciousness that it is ‘perilous to survival-and-flourishing’ to remain recurrently-uninstitutionalised for the grander individual-and-social good as positive-opportunism. Once this enters the collective-consciousness this leads to an inclination for a renewed psychoanalytic-equilibrium/memetic-reorder/institutional-recomposure wherein recurrent-utter-uninstitutionalisation registry-worldview then becomes dementing/stranded-as-rightfully-oblongated/decanored-and-dialectically-or-contendingly-out-of-phase, as it is recurrently-uninstitutionalised, as the backdrop for the straightness/candoring-and-dialectically-in-phasing of base-institutionalisation registry-worldview. This is relatively direct by the existential implications to survival-and-flourishing with the lower institutional-cumulations/institutional-recomposures of base-institutionalisation, universalisation and positivism. For deprocrypticism, an even stronger emphasis has to be placed on the abstract percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> as setup from positive-opportunism for survival-and-flourishing, just as with the positivistic registry-worldview which as well is relatively deferential with percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-

in-conflation> (undermining averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> or banality-of-thought) to formalised deference like the higher developed legal system involving lesser possibility for mob-and-disparate-justice as with the lower institutional-cumulations, grander subject-matter expertise and lesser hearsays-and-vague-opinions limiting the ambit of the influence of the extended-informality-<susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology>; all geared to discriminate for supersedingness of the intemporal-disposition (longness-of-register-of-meaningfulness-and-teleology) over temporal-dispositions (shortness-of-register-of-meaningfulness-and-teleology) as percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> not only in the present but prospectively. In other words, higher institutionalisations imply greater ‘deferential-formalisation-transference’ wherein the ambits of the extended-informality-<susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology> with regards to meaningfulness shrinks as formal conceptualisations extend the intemporal-skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) and deferential model for construing meaningfulness. For instance, many a subject matter domain like meaning about the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially in deference to abstract intemporal-disposition teleological conceptualisation voiding social temporal-dispositions teleological dispositions. The reason is simple formal settings use the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework to construe knowledge and virtue conceptualisations as this is what proxies/syncs-with intrinsic-reality and hence their effective potency while on the other hand informal settings

tend more to impression-driven/good-naturedness/wishfulness conceptualisations which may sound appropriate in their epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag but are often defective by lack of universality, not ontologically-driven in terms-as-of-axiomatic-construct of understanding and often with temporal/immediate interests/shortness-of-register-of-meaningfulness-and-teleology. In this light, the articulation of the ontological-veridicality/reference-of-thought of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor-pedestals-disambiguation of our mental-devising-representation/(recomposed)-consciousness-awareness-teleology in explication of our ‘mentation capacity limitations’ accounting for our perversion-of-reference-of-thought that ‘structurally-explain’ the vices-and-impediments peculiar to our own registry-worldview/dimension (procrypticism/disjointedness-as-of-reference-of-thought) or perversion-of-reference-of-thought of positivistic meaningfulness, beyond our illusion-of-the-present/present-consciousness (just as non-positivism/medievalism ‘structurally-explains’ the peculiar vices-and-impediments and structural/paradigmatic inhibitions to human emancipation requiring prospective positivism with its corresponding ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as stranding-dialectics). The idea is not to assume an idling-temporal-disposition of stigmatising intradimensionally but rather an intemporal/ontological disposition (longness-of-register-of-meaningfulness-and-teleology), that works with ‘what is as it is’, and bring this reality to the collective-consciousness for the requisite ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recompose for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-

and-teleology as of prospective deprocrpticism (wherein procrpticism is dementing/stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase, as it subknowledges-or-mimics/perverts-the-registry-of positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation).

The idea of limited-mentation-capacity-(as of relative constitutedness towards relative conflation) (for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) fundamentally implies that reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are limited at the uninstitutionalised-threshold of the specific registry-worldview’s/dimension’s institutionalisation they enable, and are not absolute with respect to the perpetuation of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-normalcy or ontological-normalcy/postconvergence and thus need to be cumulated-upon (or rather more precisely be recomposured institutionally), wherein new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation allow for the furtherance of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. The positivistic institutionalisation reflex disposition is to imply only a human intemporal-disposition/ontological-disposition, thus wrongly elevating issues of temporal-dispositions perversion-of-reference-of-thought as being issues of intemporal-disposition/ontological-dispositions and thus wrongfully implying their ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective) rather than rightfully their notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema>/non-ontological-reference-or-non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing (not-

veridical-thinking-reference-rather-dementing-reference), and thus wrongly engaging in logical contentions instead of reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) manifestations of temporal-dispositions perversion-of-reference-of-thought, thus resulting in the consequent endemisation/enculturation of the specific vices-and-impediments of the positivistic registry-worldview (procrypticism/disjointedness-as-of-reference-of-thought). In contrast, the particularity of the superseding/transcending ‘deprocrypticism institutionalisation’ disposition over procrypticism is that prospectively it points to the ontological-veridicality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor-pedestals-disambiguation (at positivistic meaningfulness uninstitutionalised-threshold) to its mental-devising-representation/(recomposured)-consciousness-awareness-teleology to enable the ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of the collective-consciousness, and so as a knowledge notionalisation. That is, an institutionalisation setup that perpetually acknowledges and accounts for human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor disambiguation before engaging either with logical contention in the case of issues of intemporal-disposition/ontological-disposition or with reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) manifestations of perversion-of-reference-of-thought in the instance of issues of temporal-dispositions; bringing this conceptualisation to the collective-consciousness for the necessary psychoanalytic-reequilibrium/memetic-reorder/institutional-recomposure that should enable the superseding/transcending of the enculturating/endemising vices-and-impediments

together with the inhibiting effect on human emancipation potential associated with procrypticism. To further elucidate, let's explore again the Arithmetic ontological-contiguity comparison highlighted previously wherein character A had a condition whereby its results of additionality were systematically incremented by 1, its's subknowledging-impulse/impulsive-dementation highlighting an uninstitutionalised-threshold where the other characters wrongly calculated the result (the ontological-veridicality) failing/not-upholding-as-of-apriorising/axiomatising/referencing ontological-normalcy/postconvergence as intemporal-preservation-entropy-or-contiguity—or-ontological-preservation implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, as actually intemporal-preservation-entropy-or-contiguity—or-ontological-preservation supersedes the mere-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as the latter's pertinence is rather about and subsumed as a mentation capacity to uphold the former. The bigger issue with regards to all the BODMAS characters is with respect to the limits of their reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation which are readily predisposed to such perversion-of-reference-of-thought and subknowledging-impulse/impulsive-dementation whether by character A or any other character rather than just the fact that the condition (psychopathic postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation for instance) is the causative factor of their failure to in ontological-normalcy/postconvergence ensure intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. In any case the structural/paradigmatic resolution is with regards to the implications of metaphorically-a-million-and-one-instances-and-locales of perversion-of-reference-of-thought in the given registry-worldview/dimension as an

aetiologisation/ontological-escalation (as temporal-to-intemporal-dispositions individuations predictable and determinable teleologies). That is, fundamentally the appropriate conceptualisation of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is structurally-speaking about perpetually ensuring intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as the superseding/preceding notion (i.e. ontological-normalcy or ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). In this regard, we may easily construe the fundamental defects-of-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as these enable perversion-of-reference-of-thought with respect to intemporal-preservation-entropy-or-contiguity–or–ontological-preservation wherein successive institutional-cumulations/institutional-recomposures are analogical to various defective instances in operating the BODMAS equation. That is, while the condition/subknowledging-impulse/impulsive-dementation with A’s additionality results are wrongly incremented by 1, leading to the uninstitutionalised-threshold to be rightfully corrected with new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation involving subtracting 1; the defect of a second registry-worldview/dimension may involve subtracting 1 from the result of S as a condition/subknowledging-impulse/impulsive-dementation of S, requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation correction of the BODMAS characters as with the first registry-worldview/dimension to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Likewise, a third and fourth registry-worldview/dimensions defects could involve

respectively a subknowledging-impulse/impulsive-dementation/condition of M wherein the latter wrongly adds 1 to a multiplier before multiplying and a subknowledging-impulse/impulsive-dementation/condition of D wherein D wrongly subtract 1 to a divisor before dividing, with these two latter registry-worldviews/dimensions equally requiring similarly new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation adjustment of the BODMAS characters as with the first and second registry-worldviews/dimensions to uphold the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Ultimately, a deprocrypticism construal of the institutionalisation/intemporalisation process aiming to perpetually sync reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in ontological-normalcy/postconvergence, is one that will bring to the mental-devising-representation/(recomposured)-consciousness-awareness-teleology, the BODMAS characters potential temporal-dispositions to perversion-of-reference-of-thought and subknowledging-impulse/impulsive-dementation with the resultant integration unconsciously (ignorance) and consciously (other temporal-dispositions of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) inducing the various uninstitutionalised-threshold, for a suprastructural resolution to human perversion-of-reference-of-thought disposition, enabling the ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of the collective-consciousness towards knowledge notionalisation; as the recognition of the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

dispositions—existentialism-form-factor-pedestals-disambiguation then allows for acknowledging, accounting for and the structural-superseding of our vices-and-impediments thus enabling ontological-normalcy or ontological-normalcy/postconvergence as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation involving the ontological-dementation/dialectical-dementation—stranding/attributive-dialectics stranded-as-rightfully-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase of temporal-dispositions perversion-of-reference-of-thought, as ontological-dementation/dialectical-dementation—stranding/attributive-dialectics is the effective psychological tool for ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure.

The implications for the science of psychology can thus be drawn out. The articulated notion of ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics’ brings up the central conceptual role of psychology as about understanding human mental-devising-representation and the implications thereof. Central to this ontological-dementation/dialectical-dementation—stranding/attributive-dialectics process is a dialectical exercise of stranding; either as mentally oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to imply a superseded/transcended/unsound registry-or-registry-worldview/dimension or as mentally straight/candored-and-dialectically-or-contendingly-in-phase to imply a superseding/transcending/sound registry-or-registry-worldview. Ontological-dementation/dialectical-dementation—stranding/attributive-dialectics further implies that instead of a ‘conventioning influenced and driven’ more or less notational study of human psychological phenomena as is the case today; we can ‘think’ of psychology in ontological-dementation/dialectical-dementation—stranding/attributive-dialectics terms of stranding-dialectics of registry-worldview/dimensions successive existentialisms/full-depths-

by its conceptualisation as it emphasises psychological-representation/mental-devising-
representation as more ‘ontologically-driven/ontologised’ rather than ‘conventioningly-
driven/conventionalised’. In so doing, overriding and superseding the analyst illusion-of-the-

referring to the instance where the personhood-and-socialhood-formation intradimensional
conventioning induces an ‘analytical-complex’ with respect to an ontologically veridical
psychological-representation or mental-devising-representation. As implied psychological-
representation/mental-devising-representation is then fundamentally determined by the
depth/profoundness-of-ontological-veracity/depth/profoundness-of-ontological-reference of a
given registry/registry-worldview-or-dimension as it upholds ontological-normalcy or
ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-

ontological-normalcy/postconvergence appropriately points to the pertinence for ontological

reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness for an appropriate ontological-dementation/dialectical-dementation–stranding/attributive-dialectics stranding-dialectics exercise wherein the reference-of-thought (‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness) is always a moving target (due to the institutionalisation/intemporalisation process) in need for prospective dialectical reconstitution (deconstruction), which then puts a science of psychology in phase with the dialectical development of ontological-depth/profoundness-of-reference in superseding relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, in line with intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; whereas a conventioning reference is relatively in circumventive/distractive-temporal-prioritisation-of-reference-of-thought and fails to factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) and the consequent uninstitutionalised-threshold or relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought-threshold (as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation) hence failing/not-upholding-as-of-apriorising/axiomatising/referencing to imply a prospective dialectic ontological-depth/profoundness-of-reference for an appropriate ontological-dementation/dialectical-dementation–stranding/attributive-dialectics stranding-dialectics. That is, a conventioning influenced-and-driven psychology tends to equate the conventional insights at one ontological-dementation/dialectical-dementation–stranding/attributive-dialectics dialectical

moment or registry-worldview/dimension as intradimensionally set in stone and across all moments whereas an ontologically-driven psychology acknowledges and recomposes to the dialectical evolution of reference-of-thought for a comprehensive, appropriate and veridical ontological-dementation/dialectical-dementation–stranding/attributive-dialectics exercise. Such reference-of-thought of dialecticism registry-worldview-wise/dimension-wise (for ontological-dementation/dialectical-dementation–stranding/attributive-dialectics exercise in reflection/perspectivation of psychological-representation/mental-devising-representation) are the institutional-cumulations/institutional-recomposes as recurrence-of-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrypticism-or-emanant-wrong-or-demented-shades-of-the-real, and prospectively (critical for a prospective conceptualisation of psychology) perpetuation-of-deprocrypticism. This explains why this memetism/transdimensional-meaningfulness/suprastructural-meaningfulness psychology is a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as it is driven/led by a reference to dialectical/ontological-veridicality (ontological-normalcy in successive ontological-normalcy/postconvergence/postdicatory ontological-reconstituting–as-of-conflatedness/deconstruction of dialectical existentialisms/full-depths-of-existential-implications as reference-of-thought, rather than intradimensional-subknowledging-normalcy or reflex-normalcy) for ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought’ exercise in reflection/perspectivation of psychological-representation/mental-devising-representation, i.e. stranding-as-rightfully-mentally-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase for the dialectically-and-ontologically superseded/transcended/unsound registry/registry-worldview-or-dimension, and stranding-as-rightfully-mentally-straight/candored-and-dialectically-or-

contendingly-in-phase for the dialectically-and-ontologically-superseding/transcending/sound registry/registry-worldview-or-dimension. This ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is the foundation of a pure, emancipated and disinhibited psychology (both registry-and-registry-worldview-wise) as such a psychology is grounded exclusively on ontologically demonstrable references of the veridicality of registries and registry-worldviews successive existentialisms/full-depths-of-existential-implications, and the corresponding ontological veracities implied. Such a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ contrasts with a ‘mented’ or ‘stigmatic’ psychology of weak memetism/transdimensional-meaningfulness/suprastructural-meaningfulness reference-of-thought for the simple reason that it is not founded on a pure dialecticism of ontological/dialectical-referencing but rather on intradimensional conventionalised referencing which wrongly hardly proxies the veridicality of ontological-normalcy or ontological-normalcy/postconvergence or construe a dialectical-reference/ontological-reference for ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’ of psychological-representation/mental-devising-representation at uninstitutionalised-threshold. Thus it mental-devising-representation/(recomposed)-consciousness-awareness-teleology is stigmatic or mented (set-in-place-or-a-period) as stranded-as-mentally-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase for the conventioning-superseded/transcended/unsound registry/registry-worldview-or-dimension, and stranded-as-mentally-straight/candored-and-dialectically-or-contendingly-in-phase for the conventioning-superseding/transcending/sound registry/registry-worldview-or-dimension. This will explain in many ways the more or less fitful development of present day psychology, more or less ‘uncertain of the ontological/dialectical pertinence of temporal-as-out-of-phasing-representation’ (in reflecting

dialectical-dementing—epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag) thus undermining its ontological-
 referencing veracity/ontological-pertinence with respect to an ‘ontological-
 dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’
 exercise of registry-worldview/dimensions successive existentialisms/full-depths-of-
 existential-implications transdimensional-meaningfulness/memetic-refinements in
 ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-
 reconstituting—as-of-conflatedness as dialectical transformation as-prospective reference-of-
 thought. A dialectical ontological-reconstituting—as-of-conflatedness/deconstruction of
 reference-of-thought (recognising human limited-mentation-capacity-⟨as of relative
 constitutedness towards relative conflation⟩ and the need to re-institutionalised/re-
 intemporalised resulting in the subsequent institutional-cumulations/institutional-
 recomposures) as articulated above is not only the basis for memetism/transdimensional-
 meaningfulness/suprastructural-meaningfulness, but as well for avoiding what can be termed
 as the ‘ontological-circularity’ of present day psychology. Such ontological-circularities are
 engrained in all registry-worldviews/dimensions wherein the naïve pretence for a quest for
 deeper ontological-veridicality is rather just syncretic/circular and hollow-constituting—as-
 disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as
 fundamentally the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-
 for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the said
 registry-worldview/dimension are at a dead-end with a structural/paradigmatic impossibility
 for a critical breakthrough just by the mere fact that the registry-worldview/dimension has
 attained its mentation-capacity-limitation or uninstitutionalised-threshold (as the nature of
 intrinsic-reality with respect to the human psyche is ontological-normalcy/postconvergence
 or inherently preceding or inherently superseding as it doesn’t change an iota, and it is the

human psyche that gives-in in its mental-devising-representation to conform to intrinsic-reality). With such naïve efforts to keep up and develop profound meaningfulness based on the same registry-worldview's/dimension's institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology mostly a dead-end. Such ontological-circularities will include for instance the dead-end of medieval alchemy paradigm with respect to positivistic chemistry paradigm, a flat-world paradigm with respect to a round world paradigm, a creationism paradigm with respect to an evolution paradigm, a universal humanity paradigm with respect to aristocratic/racial/tribal paradigms, a science paradigm with respect to a superstition paradigm, etc. Naivety will be to think that issues of ontological-circularity in our present positivistic meaningfulness (for transcending beyond our vices-and-impediments and overcoming inherent inhibitions to human emancipation) are not in veridicality about a need for a shift in paradigm, prospectively. This brings forward fundamentally the limited-mentation-capacity-(as of relative constitutedness towards relative conflation)/uninstitutionalised-threshold construct of our times (procrypticism) and the paradigmatic implications specifically for such a 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' (as highlighted) over a relatively mented-psychology/stigmatic-psychology. What this reveals is that reality is 'not a human mental-devising-representation processing exercise'; rather it is an intrinsic ontological-normalcy/postconvergence notion that doesn't respond to human mental-devising-representation processing. The role of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as a mental-devising-representation mechanism that syncs with evolving ontological insight (insight about intrinsic reality) as ontological-normalcy is to reflect/perspectivate the dialectically-or-contendingly-out-of-phase or dialectical-primitivity at the very limit of the capability as its mental-devising-representation of a registry-worldview/dimension (uninstitutionalised-threshold), which otherwise any

epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview will overlook as it is an averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> that is exclusively operant and deterministic only to its very own reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and is not tied to intrinsic-reality but rather pertinent only for when it proxies intrinsic-reality. It is only ontological-dementation/dialectical-dementation–stranding/attributive-dialectics that can create the foundation for a new mentation (unshackle it psychoanalytically/memetically/meaningfully reorder it/recompose it) to in ontological-normalcy/postconvergence come into grips with a more profound ontological-veridicality as a new reference-of-thought (veridical-thinking-reference-over-dementing-reference) for a new existentialism/full-depth-of-existential-implications meaningfulness and thought. This insight about the intrinsic-nature-of-reality/intrinsic-reality is critical and central to understanding how ‘knowledge-deadend-paradigms’ can be overcome/superseded. Supposed B was to stick to resolving the BODMAS equation overlooking A’s condition on the basis that the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are set and given, whether these uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or not (which is what ensures proxying to intrinsic-reality), and further that the other BODMAS characters will do likewise anyway, this doesn’t in any way transform the ontological-normalcy/postconvergence ontological-veridicality/intrinsic-reality from 66 to 72.5. Such a wrong disposition rather points aetiologically for the need (in ontological-escalation) of an ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of the BODMAS characters at that uninstitutionalised-threshold. In the bigger picture, ‘knowledge-

dead-ends-paradigms' (to varying degrees of pertinence) are often the explanation of underlying social issues and problems more than just about limited human ability or insufficiently directed effort towards the resolution of such issues and problems on the basis of present paradigms. It is inevitable that emancipation from such knowledge-dead-ends-paradigms will always require that the would-be intellectual-analyst or intellectual-analysts 'blunt it' (just as intrinsic-reality is uncompromisingly blunt) to the epistemic-totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage registry-worldview/dimension that what is fundamentally needed is a 'paradigmatic-shift'. Much like observation and a rational interpretation of nature trumps dogma as with Galileo's heliocentric argument for instance, this author holds that a fundamental decomplexifying/uninhibiting of our own (procrypticism or dementing/subknowledging/perversion-of-reference-of-thought of positivistic meaningfulness) psyche as being ontologically-demented/dialectically-demented from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as reference-of-thought (veridical-thinking-reference-over-dementing-reference) opens up a new world of transcendental possibilities (wherein a comprehensive insight for addressing psychopathy and social psychopathy and other implied epiphenomena/incidental-phenomena equally lies, and critically so since the fundamental argument for a 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' has to do with the foundational nature of mental-devising-representation/mentation/recomposed-consciousness-awareness-teleology in the construction of all knowledge) at our positivistic meaningfulness uninstitutionalised-threshold; much the same way like a positivistic world opened up from the ontological-dementation/dialectical-dementation-stranding/attributive-dialectics of a non-

positivism/medievalism registry-worldview/dimension at its uninstitutionalised-threshold. To further elucidate the criticality as indicated of such a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as indicated with respect to a ‘mented’ or ‘stigmatic’ psychology can be further reemphasised clearly as such; a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is one that is being ontologically-driven or led by ontological-veridicality when it comes to mental-devising-representation by strictly adhering to the stranding-dialectics of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. In other words, it overrides the mented/stigmatic intradimensional meaningfulness mental-devising-representation and enables a transdimensional-meaningfulness mental-devising-representation, wherein a mented/stigmatic mentation stranding-dialectics in reflecting soundness-or-authenticity-of-reference-of-thought/apriorising–registry-soundness and unsoundness-or-inauthenticity-of-reference-of-thought/perversion-of-reference-of-thought (respectively stranded-as-mentally-straight/candored-and-dialectically-or-contendingly-in-phase and stranded-as-mentally-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase) is stranded to the ‘conventionalised institutionalised/intemporalised-threshold-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ whether such a threshold is the ‘appropriate basis for reference-of-thought or not and subsequent ontological-veridicality/ontological-contiguity or not, as it is limited to what is the convention thus hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation with the result that mented/stigmatic psychology is limited to hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation human intradimensional conventioning reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–

or-ontological-preservation, with no prospective/transcending/superseding possibility. For instance, we can project insightfully that a mented/stigmatic mental-disposition in a non-positivism/medievalism setup in an impression-driven/good-naturedness/wishfulness disposition but hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation(failing/not-upholding-as-of-apriorising/axiomatising/referencing reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) will raise an issue of say sorcery in terms-as-of-axiomatic-construct of who is the sorcerer or sorcerers among us, how should sorcery be stopped and prevented in the community, and not in a prospective positivistic paradigm that is more ontologically-veridical, putting in question the veracity/ontological-pertinence of the non-positivism/medievalism conventioning notion of sorcery, however ‘good-natured’/impression-driven, while raising the positivistic the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework of a positivising/rational-empiricism reference-of-thought. Such an insight prospectively will involve putting into question naïve and ever evolving constructs in our present day mented/stigmatic psychology science like personality disorders on the fundamental argument regarding the relatively poor insight about the requisite reference-of-thought to be established in the first place before then qualifying personalities with respect to such a philosophically and insightfully soundly established reference-of-thought, and not just naïve assumptions whether on the basis of popular axioms, vagueness and personal however well-meaning; with the idea of meaningfulness that goes beyond just a conventioning reference-of-thought and is rather inherently upheld by ontologically-veridical insight and pertinence. Further, such a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ that is ontologically-driven will go beyond an exercise of

mented/stigmatic phenotypes driven abstractly as inherent-personalities nature and in given settings-of-time, but grasp that human personality is critically about ontological-extending-into-existentialism-becoming of personhoods-and-socialhood-formation grounded on ontological-reconstituting-as-of-conflatedness/deconstruction as the more profound reference-of-thought and analysis, and with a more fundamental interdimensional/transdimensional/transcendental insight of the human existentialism form-factor. In this regard, it is the opinion of this author that many construed personality disorders that do not involve social deviances or not of physiological nature are actually adaptations at one time or the other in an ever-changing-and-challenging-construct that individuals make of a ‘wanting and developing social world with its stakes and confliction’, and it would rather be better to articulate personality as driven by a pertinence of being/ontological-extension-into-existentialism-or-full-depth-of-existential-implications with respect to such ‘a challenging and developing social world with its stakes and conflictions’ in the first place, otherwise we are just affirming arbitrary social classification schemes and not really involved in the requisite paradigmatic shifts; and such could further be grasped regarding specifically how many an experimental psychology schemes ‘desperately’ striving to draw social-world level conclusions can’t seem to supersede the modesty of schemes that it is just too farfetched and synoptically-limiting, thus trending more towards the defect of constitutedness in lieu of conflatedness as articulated by this author. Foucault had qualified the current focus on abnormal psychology as tending more to an ‘economic’ practice. What about the notion of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as the ‘surreptitious driving mechanism of human mental-devising-representation or mentation’ that fully encapsulates and explains human psychological development across all the times and the successive institutional-cumulations/institutional-recomposures of human existential emanance, and so as an articulation that is retrospectively, presently and prospectively

coherent? Given the fact that ontological-dementation/dialectical-dementation—stranding/attributive-dialectics very much explains human transcendence as the recurrent ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of an animal of limited-mentation-capacity-(as of relative constitutedness towards relative conflation). Such a ‘dialectical-thinking’ psychology driven by ontology or rather ontological-normalcy/postconvergence will be postdicatory, with the implications that this will fully focus the ‘kernels of postmodernism’ to usher in Suprastructuralism [an Age where humankind comes to grasp that its-meaningfulness-with-respect-to-intrinsic-reality as reflected by the successive institutional-cumulations/institutional-recomposures has been progressing (more and more realistically) by successive suprastructuring of prior/transcended/superseded registry-worldviews ‘beyond their successive corresponding recomposured-consciousness-awareness-teleology’, and introducing the veridical meaningful-frame/worldview of postmodernity with regards not only to the present but the epistemic-totalising—renewing-realisation/re-perception/re-thought past and future] with the insight that our present recomposured-placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the positivism—procrypticism registry-worldview will be subjected to this suprastructuring-meaningfulness nature of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor as well. In fact the underlying difficulty of deconstruction when extended from its ‘textual basis’ to its ‘full meaningfulness basis’ as ‘ontological-reconstituting—as-of-conflatedness’, has to do with the fact that the full implications of ‘ontological-reconstituting—as-of-conflatedness’/deconstruction is that it prospectively calls for suprastructuring-or-construal-beyond-the-consciousness-awareness-

teleology-in-existential-extrication-as-of-existential-unthought-of-a-prior registry-worldview mindset/reference-of-thought (and so as a tool of the prospective registry-worldview), as implied by the veracity/ontological-pertinence of ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought’ as the underlying human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology driving mechanism. Considering that deconstruction as ‘ontological-reconstituting–as-of-conflatedness’ necessarily implies not one but two dialectically opposed registries/meaningful-references/anchorings-of-meaning/ontological-references/contending-references/registry-worldviews of meaningfulness; with the implication that the prospective/transcending/superseding is suprastructural to (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought-of) the prior/transcended/superseded, and so as a deeper superseding–oneness-of-ontology construal/conceptualisation. The fact is that without the notion of suprastructuring, the exercise of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics will wrongly imply that the ‘dialectical-thinking’ and the ‘dialectically-dementing’ are of the same reference-of-thought of meaningfulness (which is obviously wrong), and is the effect of the illusion-of-the-present/present-consciousness/mirage/epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as we recognise this fact from a vantage perspective to the prior (utter-uninstitutionalisation, base-institutionalisation, universalisation) but have ‘a complex’ recognising such a fact at a disadvantaged positivistic/procrypticism perspective with respect to the prospective (deprocrypticism), just as all institutionalisations tend to demonstrate when their own transcendence is implied, and certainly so the higher the institutionalisation as the mindset/reference-of-thought is increasingly set to ‘relate to its institutionalised secondnature construct as being our very own individuals essential epistemic-growth/transvaluative-rationalising/anamnestic-

residuality/transepistemicity and not a secondnature construct', and thus perceived as beyond or almost beyond analysis due to the implied temporal alienating effect on us (but then it is the human psyche that gives-in to intrinsic-reality/ontological-veridicality, as the foremost rule of humanity's existential strive). Suprastructuring allows for the necessary transcendental-insight-projection-capacities for grasping the evasive Derridean conceptualisation of 'metaphysics-of-absence' projection/postdication in overcoming the illusion-of-the-present/present-consciousness/mirage/epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as 'metaphysics-of-presence'. Suprastructuring boldly answers the underlying issue involved with 'communicating the true implications of deconstruction as ontological-reconstituting-as-of-conflatedness' by highlighting the paradox that it is all about 'articulating a conceptualisation which involves implying that the reference-of-thought and meaningfulness of the seemingly reference-of-thought is unsound and needs to be superseded'. It is rather about in the very first instance putting into question a given reference-of-thought and projecting the appropriate reference-of-thought, before even proceeding to articulate more specifically meaningfulness within the projected reference-of-thought. This is akin to the idea of a positivistic mindset/reference-of-thought articulating chemistry rules and principles to an alchemic mindset/reference-of-thought for the latter's validation, requiring the latter to adopt a positivistic mindset/reference-of-thought in the very first place before issues of substantive pertinence about chemistry rule and principles are raised within their now mutually positivistic mindsets. Such an exercise requires a highly uninhibited/decomplexified human frame of mind. This may sound rather farfetched as a notion but it is important to remember that the positivistic mindset/reference-of-thought itself is the outcome of the décomplexing/uninhibiting of the human mind from earlier successive institutionalisations. Such an exercise is necessarily about psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of the

positivistic/procryptic reference-of-thought of meaningfulness-and-teleology in the middle to long run construed as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism; and with regards to Suprastructuralism as a notion, the implication is that this is a requisite idea that has to come to the collective consciousness (not just unconsciously as with prior institutionalisations, for instance the fact that notions of superstition are false had to be consciously brought up to the attention/consciousness-awareness-teleology of a non-positivism/medievalism mindset/reference-of-thought for it to effectively undergo the necessary ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure by acting as the conscious backdrop that engenders prospectively a positivistic mindset) for human emancipation into a deprocrypticism mindset; as with all psychoanalytic exercise whether of an individual or social conceptualisation nature, the idea of recognising/registering the ontological-deficiency with respect to ontological-normalcy is central to superseding it. ‘Suprastructuring as such overcomes the ‘natural human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology reflex’ (in any registry-worldview/dimension) of ‘striving to avert dementing mental-devising-representation/mentation’ (whether such averting is ontologically-veridical or not) and so by a mistaken reflex to preserve an averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality (but which closure makes its representation of intrinsic-reality inherently incomplete and biased towards

the illusion-of-the-present/present-consciousness/mirage/epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of its given registry-worldview metaphysics-of-presence), by effectively taking full cognisance of the fact that ontological-dementation/dialectical-dementation–stranding/attributive-dialectics is the driving mechanism of human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality and thus construe an opened-construct incorporating transcendental-insight-projection-capacities that enable the relative construal of the ‘dialectical-thinking’ and the ‘dialectically-dementing’ [‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought’], and so expanding the potency in construing a much more exact/thorough notion of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality and thus for ‘ontological-reconstituting–as-of-conflatedness’/deconstruction. In other words, in representing the veridically uninhibited/decomplexified nature of ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought’ that is not limited by the illusion-of-the-present/present-consciousness/mirage/epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of any registry-worldview/dimension and so at the deeper memetic/psychoanalytic level, suprastructuring as such reveals that ‘human psychology is very much an active construct associated with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>projective-totalitative–implications—imbued-epistemic-causality,-for-explicating-ontological-contiguity’ in the reflection as placeholder-setup/mental-devising-

representation/mentation/consciousness-awareness-teleology of retrospective, present and prospective institutionalisations in reflecting the ontological-contiguity—of-the-human-institutionalisation-process points-of-reference, with the truer nature and representation of human psychology ultimately tied-to/driven-by ontological-normalcy/postconvergence-construct’. [Insightfully, just as highlighted later that existence-defines/precedes-essence, ideally the construction of psychology needs to be priorly subjected to ‘a becoming that defines psychology with its veracity/ontological-pertinence arising in the ontological-reconstituting—as-of-conflatedness of that existential becoming’. Is our understanding of psychology notionally complete when we can’t seem to understand what happens in apparently mentally sound minds partaking in ‘socially degraded’ situations like murky human interest stories, mobs, genocides and even ‘the conventional acceptance and numbness to mass casualty warfare’. In other words, in the first place what is ‘ontologically normal’ beyond the subjective conventioning of the psychology science (before even worrying about the abnormal)? Further isn’t it possible to make the contribution of present day psychology more complete in constructing a more thorough and dynamic understanding of mentation/psyche in relation to individual-social-humanity aspiration, where psychology evolves in a complete existentialism cadre. In other words, so placed in a becoming/existential cadre, is psychology not meant rather than just encapsulating what the human psyche/mentation is all about as if it is a set and determinate construct (strangely enough inadvertently and often mirroring schemes of social classification, and hence of social power relations) equally involve in articulating aspiratory models for human mentation/psyche?] And such a paradigm shift with regards to present day mented/stigmatic psychology can actually be implied by prospective ontological-normalcy as deprocrypticism (involving ‘ontologically-reconstituting/deconstruction’ in upholding of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation by ‘overriding failing/not-

upholding-as-of-apriorising/axiomatising/referencing and renewing ever sound and appropriate' reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation') over the 'conventioningly-driven/conventionalised hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation whether the latter is failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Insight from ontological-normalcy as it matches placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology to ontological-veridicality (notwithstanding that this undermines habituated conventionalised mented/stigmatic placeholder-setup/mental-devising-representation/mentation) representing all the institutionalisations in a dialectical moment of appropriateness-of-reference-of-thought-as-of-conflatedness and thus mentally-straight/candored-and-dialectically-in-phase as simply involving the technique of a 'prelogical/conviction placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology teleological alignment reflex' to the implied reference-of-thought since the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is prospective/transcending/superseding and 'ontologically-reconstituting/deconstruction'; while representing all uninstitutionalised-thresholds in a dialectical moment of appropriateness-of-reference-of-thought-as-of-conflatedness and thus mentally-oblongated/deandored-and-dialectically-out-of-phase-or-dialectically-primitive as simply involving the technique of a 'postlogism-formulaic-non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing placeholder-setup/mental-devising-

representation/mentation/consciousness-awareness-teleology teleological alignment reflex’ to the implied reference-of-thought since the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is prior/transcended/superseded and rather hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. And going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ can perfectly represent the mentations/mental-devising-representations of all registry-worldviews/dimensions both as implied and driven by ontological-veridicality by way of ontological-reconstituting—as-of-conflatedness/deconstruction and point out their peculiar mented/stigmatic specificities in their hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation involving with all mented/stigmatic mental-devising-representations a circular dementing-temporal-manifestation (‘temporal-dragging-of-ontology/ontological-veridicality’ (in-a-social-dynamism-of-meaningfulness-misappropriation) of slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect. In the bigger picture, actually the fact is that the various institutionalisations/institutional-cumulations/institutional-recomposures are actually the levels at which their specific quality (whether as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism) actively and comprehensively define and characterise each of the institutionalisations while bringing the notion to the collective-consciousness/personhoods-and-socialhood-formation successive existentialisms/full-depths-

of-existential-implications. But then, such notions which can be weakly sensed in all prior institutionalisations are actually inconspicuously, selectively and occasionally introduced in the prior institutionalisation in graduated/staggered stages starting with the proto-prospective-institutionalisation right up to the prospective-institutionalisation; whether as proto-base-institutionalisation in recurrent-utter-uninstitutionalisation up to the graduated/staggered attainment of base-institutionalisation, proto-universalisation in base-institutionalisation–ununiversalisation up to the graduated/staggered attainment of universalisation, proto-positivism in universalisation–non-positivism/medievalism up to the graduated/staggered attainment of positivism, and effectively by a prospective insight, proto-deprocrypticism in positivism–procrypticism. For instance, many an alchemist in the medieval world were actually very thorough and methodical in their pursuit with skills that could be qualified as ‘rudimentary positivistic’. However, the fact that fundamentally their paradigm was a dead-end like the pursuit of the philosopher’s stone and the implications of not having an outright positivistic outlook/ideology is what mostly distinguishes them from the complexity of ‘true positivists’. Likewise, the ordinary practices in the positivistic world of deontological and jurisprudential nature, in disparate formal constructs and settings mostly, are mostly geared to carry abstract and coherent universal virtue implications with respect to all humans as the Good/understanding-driven formal principles constructs, however approximate their applicative success (a principle is a notion that can coherently uphold itself, i.e. a principle is a notion that warrants that all persons covered by its ambit act the same way or are subjected to it in the same way, and not disparately, and it carries universal import; the opposite of ‘inductive limitation’ or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be universalised as they require that others do not act likewise or their implications should be limited to given target(s) and not be universalised, since their fundamental teleology is not intemporal/not-of-universal-import but speak more of a

temporal motive). But behind that pursuit is a covert admittance that without the deontology and jurisprudence and the corresponding induced culture as artifices (however approximate their applicative success) humans in their social dynamics do not have the inherent exclusiveness of intemporal-disposition quality to ecstatically/spontaneously/solipsistically/emanantly/becomingly adhere to intemporal/universal notions on the mere basis of ‘preaching’ the intemporal/universal notions and virtues (as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) without institutionalisation design or conceptualisation! This is an unspoken recognition of the inherent reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor individuations nature, and the need to skew/design/institutionalise/intemporalise ‘the social’ for the primacy of the intemporal-disposition individuation, as secondnaturing. This is equally an unspoken insight not only to modern institutionalised/intemporalised-thresholds-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation conceptualisation of the Good (positivistic ontological-primemovers-totalitative-framework). [Such an insight is equally implied in prior institutionalisations of the-Good conceptualisations wherein for instance the prophetic philosopher using the prophecy tools of their times, as the summum of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for the social criticism of their own times, won’t naively imply ‘I have preached to you thus you’ve attain the intemporal’, but rather construe insightfully of a practice (institutionalising practice) that cultivates a relative orientation towards the reinforcement of the intemporal, say like having the believers follow a whole routine from their expression of faith, praying in conscious reinforcement, to a way of living, however approximate in its applicative success in inducing an intemporal inclination.] Positivistic secondnaturing of disparate frameworks of

deontologies, constitutions and jurisprudence and the associated culture (as longness-of-register-of-meaningfulness-and-teleology) can be seen as proto-deprocrypticism, including their individual and social internalisation in the collective consciousness, and these unsurprisingly are the few elements in the sovereignty constructs of positivistic democracies with their constituent public or private organisations and associations as well as subject matters and specialisms, that are always ferociously, blindly and without further justification upheld by regulation and law and/or newer legitimately made regulation and law even against popular whim given their ‘inherent assuredness to preserve the intemporal construct in a furtherance of intemporal-preservation percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>.

Prospectively, deprocrypticism institutionalisation will imply a superseding memetic-reordering/institutional-recomposure/new-mentation and further extension of formalisation as ‘differential-formalisation-transference’ of ‘deprocryptic formalisation’ into the extended-informality-<susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology> implying a greater underlying demystification of positivism–procrypticism/disjointedness-as-of-reference-of-thought reasoning by way of the ontological-contiguity (as from prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema>) with respect to the veridicality of human temporal-to-intemporal individuations dispositions nature that explains the nature of the positivism–procrypticism registry-worldview notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> as we become more consciously insightful, preemptive and superseding of perversion-of-reference-of-thought of positivism–procrypticism meaningfulness-and-teleology with its social-construct implications; and this insight prospectively defines the conceptualisation of the present positivism–procrypticism

registry-worldview/dimension vices-and-impediments as the backdrop for the
 deprocrpticism paradigm shift. But this equally as with all institutionalisations imply
 bringing to the collective consciousness a dialectically demented mental-devising-
 representation of the present procrpticism registry-worldview/dimension (which is prior)
 from the prospective registry-worldview/dimension (deprocrpticism) as the new reference-
 of-thought, which will seem unintelligible to the prior even though it is actually more real
 suprastructurally and in ontological-normalcy/postconvergence, just as our representation of
 medievalism though more ontologically-veridical will seem unintelligible/existentially-
 suprastructural to a medieval mindset/reference-of-thought in its closed mental-devising-
 representation of intrinsic-reality. Central to the notion of deprocrpticism/preempting—
 disjointedness-as-of-reference-of-thought as the ‘veridical reference-of-thought’ articulation
 of (ontological-normalcy/postconvergence) as ontological-veridicality/ontological-contiguity
 as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation over the
 positivism—procrpticism/disjointedness-as-of-reference-of-thought notional-
 discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> as
 of its perversion of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-
 for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and so in a
 prospective ontological-dementation/dialectical-dementation—stranding/attributive-dialectics
 moment wherein ontological-normalcy/prospective-transcendence-in-perpetually-upholding-
 intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (ontology)
 supersedes intradimensional-subknowledging-normalcy (temporal conventioning
 compromise). This dichotomy between conventioning and ontology is critical to understand
 human mentation development along the successive institutionalisations, as transcendental
 knowledge is by definition prospective and hence recognises the ontological limits/thresholds
 of conventioning as knowledge and virtue reference because to start with all conventioning

institutionalisations are structurally in want of prospective transcendence whether as recurrent-utter-institutionalised, ununiversalisation, non-positivism/medievalism or procrypticism in a prospective insight. Conventioning as such could only prospectively achieve reference-of-thought status when it prospectively coincides/proxies ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation; the holy grail of the deprocrypticism institutionalisation ideal. [But actually a conventioning construct in contrast to attaining such a prospect of ‘abject-purism-of-ontology’ rather tends to operate on the basis of least-acceptable-meaningfulness-or-value-reference-denominator for that conventioning construct, and the latter is thus the ‘effective meaningfulness-or-value-reference’ of the said conventioning construct notwithstanding any grander ontological meaningfulness-or-value-reference striving for abject-purism-of-ontology. The implication here is effectively that grander ontological and philosophical meaningfulness-or-value-references are no more pertinent in a conventioning construct than its least acceptable meaningfulness-or-value-reference-denominator but for discretionary or prestige basis of discretionary and disparate recognition, out of discretionary formalisation in inducing the secondnaturing and internalisation for that recognition. This insight is pertinent in that in the construct of ontology driven meaningfulness-and-value-references of intellectual grounding (purism-of-ontology), it is important to grasp that the social integration of meaningfulness-and-value-references in a conventioning construct is effectively a least-acceptable-meaningfulness-or-value-reference-denominator-driven dynamism, and that it is by an effective utilisation of the institutionalisation percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> mechanism that such ‘purism-of-ontology’, by it’s the-Good, can stand out in bringing to bear its human and social emancipation potential. In the same token, thus it is equally important to grasp that primacy of meaningfulness-or-

value-reference orientations in conventioning constructs do not necessarily has to do with a primacy of ontological-veridicality pertinence especially where it is not driven by intrinsic-reality transcendental-enabling/sublimating but by social-aggregation-enabling, notwithstanding that such a conventioning construct may be seen as the social reference of grander meaningfulness-and-value-references in its subject area, and so fundamentally because it is a least-acceptable-meaningfulness-or-value-reference play-out notion and not an-abstract-purism-of-ontology-reference notion.] Thus the perversion-of-reference-of-thought of meaningfulness in our positivistic registry-worldview/dimension should prospectively be subject to ontological-dementation/dialectical-dementation—stranding/attributive-dialectics with corresponding stranding-dialectics even though it won't be intelligible from our vantage superseded/transcended registry-worldview/dimension point just as with all transcended/superseded registry-worldviews/dimensions. The narrative/storying technique for a comprehensive thinking-dementing dialectical representation involves articulating a comprehensive organic-comprehension-thinking narrative in 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness by which varied induced mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation narratives in circumventing/distractive-temporal-prioritisation-of-reference-of-thought naively arise, and over which an organic-comprehension-thinking analysis dementes the mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation narratives as stranded-as-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase to articulate an aetiologisation/ontological-escalation, and so whether such mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical narratives are slanting (subknowledging-impulse), miscuing, disjointed-logic, logical-drag,

unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising and their corresponding temporal enculturation/temporal-endemisation. Explained in another way, the actual depth-of-storying involves:

- psychopathic insane-fitment formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/impulsively-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic perversion-of-reference-of-thought wrongly implied as in prelogism-as-of-conviction/thinking (the impulsive-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation);

- and this being effectively wrongly elevated as prelogical/conviction/thinking by temporal-dispositions by their hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex to these formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/impulsively-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic whether unconsciously by ignorance, and consciously by affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-

social-aggregation/temporal-enculturation-or-temporal-endemisation (the temporal-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation);

- then the reference-of-thought as the intemporal-disposition organic-comprehension-thinking in ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) of the two above as non-ontological-reference/non-contending-reference-but-rather-dementing as being in veridicality psychopathic-and-social-psychopathic phenomenon of perversion-of-reference-of-thought (the organic-comprehension-thinking);

- and so, as an ontological-escalation/aetiologisation (the organic-comprehension-thinking analytical resolution) that is essentially and prospectively deprocrpticism; ideally such a resolution articulation technique comes down to an enigmatic ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflatedness as dialectical transformation storying reflecting-or-perspectivating a procrpticism (dementing-of-positivistic-meaningfulness) registry-worldview/dimension as notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> (at positivism—procrpticism uninstitutionalised-threshold) with respect to deprocrpticism abject ontological-contiguity/ontological-veridicality (postconvergence), and so as the bigger grounding for the resolution of the epiphenomenon/incidental-phenomenon of psychopathy and social psychopathy.

By the way this operant conceptualisation is relevant with phenomena of perversion-of-reference-of-thought in all registry-worldviews/dimensions. Wherein for instance in a non-positivism/medievalism registry-worldview/dimension:

- the subknowledging-impulse/impulsive-dementation/postlogism-slantedness in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation together with its postlogical social corollary associated with instigating accusations of sorcery/witchcraft for instance involve formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/impulsively-dementing postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ (the impulsive mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation)

- and temporal-dispositions in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation by their hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives-as-of-cohering-logic-reflex to the formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ thus inducing the wrongful elevation of the formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/impulsively-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-

looping-‘set-of-dereifying-hollow-narratives-and-acts’ as being prelogical/conviction/thinking whether unconsciously by ignorance, or consciously by affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (the temporal-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation)

- with the two above being retrospectively construed from the veridical reference-of-thought of a vantage positivistic registry-worldview/dimension as being non-positivism/medievalism mindset/reference-of-thought and non-ontological-reference/non-contending-reference-but-rather-dementing and construed ontologically by their reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) as the non-positivism/medievalism sorcery phenomenon of perversion-of-reference-of-thought (the organic-comprehension-thinking)

- and so, as an ontological-escalation/aetiologisation (the organic-comprehension-thinking analytical resolution) that is essentially and prospectively positivistic, just as the ontological-escalation/aetiologisation of psychopathy and social psychopathy is essentially deprocrypticism. Likewise, one can imagine the same type of enigmatic ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflatedness as dialectical transformation storying reflecting-or-perspectivating a non-positivism/medievalism registry-worldview/dimension as notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> (at its uninstitutionalised-threshold) with respect to positivism as (postconvergence) ontological-veridicality/ontological-contiguity, as the bigger grounding for the epiphenomenon/incidental-phenomenon of say a medieval phenomenon of perversion-of-reference-of-thought like sorcery. As fundamentally,

intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm resolution as against an extricatory/temporal/non-ontological paradigm resolution fundamentally implies putting into question a registry-worldview's/dimension's reference-of-thought (to be transcended by a prospective transcending/superseding registry-worldview/dimension) that is structured to enable the endemisation and enculturation of a phenomenon of perversion-of-reference-of-thought like sorcery in the non-positivism/medievalism world; implying that an 'intemporal-disposition mindset' of positivistic disposition finding themselves in a non-positivism/medievalism social-setup will not see the proffered accusation of sorcery against them or any other individual as simply requiring defending themselves or the accused of sorcery or 'playing out' in the social-and-temporal-trading of that social-setup to extricate themselves or the accused but rather project that the registry-worldview/dimension in endemising and enculturating the possibility of accusations and notions of sorcery is structurally dialectically-primitive/dialectically-out-of-phase (thus in need of prospective transcendence), and the undermining of that registry-worldview/dimension is the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm resolution of the epiphenomenon of sorcery across metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation.

It should be noted that an intemporal or ontological or longness-of-register-of-meaningfulness-and-teleology resolution to perversion-of-reference-of-thought in any registry-worldview/dimension is well beyond the notion of resolving just an underlying causative subknowledging-impulse/impulsive-dementation (condition from say a physiological cause), like psychopathy in the positivistic registry-worldview/dimension or a sorcerer accuser in a medieval registry-worldview/dimension. That may explain the initiation

of a loss of intemporal social universal-transparency arising from postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation for instance which is then at the base of a registry-worldview's/dimension's uninstitutionalised-threshold (which is overall the structural/paradigmatic issue to be resolved), as temporal-dispositions are out of a 'deferential-formalisation-transference'/skewed ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) institutionalisation setup, whether at recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism from the insight of their respective prospective institutionalisation as the resolution in the form of base-institutionalisation, universalisation, positivism or deprocrypticism. The point is reality is as of ontological-normalcy/postconvergence and suprastructural and doesn't respond to and have nothing to do inherently with human mental-devising-representation incrementalism-in-relative-ontological-incompleteness and notional-disjointedness, as it is up to us to proxy to it and hence we can't say we want to think-one-way or we've-been-thinking-a-certain-way (as reference-of-thought—categorical-imperatives/axioms/registry-teleology) to naively imply that reality will and should comply, as failing/not-upholding-as-of-apriorising/axiomatising/referencing reference-of-thought—categorical-imperatives/axioms/registry-teleology speak of human mental-devising-representation dead-ends and the need for paradigm shifts. Likewise, a suprastructural conceptualisation is one construed beyond and not limited to the (recomposed)-consciousness-awareness-teleology or mental-devising-representation of a registry-worldview/dimension reference-of-thought—categorical-imperatives/axioms/registry-teleology, i.e. not limited to its temporal conventioning compromise. In that sense, the knowledge notionalisation is about 'a

deterministic and operant construct preserving intemporality/longness as ontology'. This translates as:

- the grander problem of a subknowledging-impulse/impulsive-dementation with the instigation of recurrent-utter-uninstitutionalisation and its temporal social recurrency is failing/not-upholding-as-of-apriorising/axiomatising/referencing (postconvergence and suprastructural) intemporal preservation as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm in all recurrent-utter-institutionalised human locales beyond just an extricator paradigm of any human locale, requiring the ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of recurrent-utter-uninstitutionalisation by a stranding-dialectics of prior/transcended/superseded recurrent-utter-uninstitutionalisation as 'demented', and prospective/transcending/superseding base-institutionalisation as 'dialectical-thinking'/soundness-or-authenticity-of-reference-of-thought and the deterministic and operant institutionalisation/intemporalisation resolution construct (and so, in an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting-as-of-conflatedness as dialectical transformation of existentialism/full-depth-of-existential-implications from the transcended to the transcending);

- the grander problem of a subknowledging-impulse/impulsive-dementation with the instigation of ununiversalisation and its temporal social recurrency is failing/not-upholding-as-of-apriorising/axiomatising/referencing (postconvergence and suprastructural) intemporal preservation as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm in all ununiversalised human locales beyond just an extricator paradigm of any one human locale, requiring the

ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of ununiversalisation by a stranding-dialectics of prior/transcended/superseded ununiversalisation as ‘demented’, and prospective/transcending/superseding universalisation as ‘dialectical-thinking’/soundness-or-authenticity-of-reference-of-thought and the deterministic and operant institutionalisation/intemporalisation resolution construct (and so, in an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflatedness as dialectical transformation of existentialism/full-depth-of-existential-implications from the transcended to the transcending);

- the grander problem of a subknowledging-impulse/impulsive-dementation with the instigation of non-positivism/medievalism with such phenomenon as witchcraft and its temporal social recurrency is failing/not-upholding-as-of-apriorising/axiomatising/referencing (postconvergence and suprastructural) intemporal preservation as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm in all non-positivism/medievalism human locales beyond just an extricatory paradigm of any one human locale, requiring the ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of non-positivism/medievalism by a stranding-dialectics of prior/transcended/superseded non-positivism/medievalism as ‘demented’, and prospective/transcending/superseding positivism as ‘dialectical-thinking’/soundness-or-authenticity-of-reference-of-thought and the deterministic and operant institutionalisation/intemporalisation resolution construct; and prospectively (and so, in an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflatedness as dialectical transformation of existentialism/full-depth-of-existential-implications from the transcended to the transcending),

- the grander problem of a subknowledging-impulse/impulsive-dementation with the instigation of procrypticism/disjointedness-as-of-reference-of-thought with such phenomenon as psychopathy and social psychopathy and its temporal social recurrency is failing/not-upholding-as-of-apriorising/axiomatising/referencing (postconvergence and suprastructural) intemporal preservation as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm in all procrypticism/disjointedness-as-of-reference-of-thought human locales beyond just an extricatory paradigm of any one human locale, requiring the ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of procrypticism/disjointedness-as-of-reference-of-thought by a stranding-dialectics of prior/transcended/superseded procrypticism/disjointedness-as-of-reference-of-thought as ‘demented’, and prospective/transcending/superseding deprocrypticism as ‘dialectical-thinking’/soundness-or-authenticity-of-reference-of-thought and the deterministic and operant institutionalisation/intemporalisation resolution construct (and so, in an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation of existentialism/full-depth-of-existential-implications from the transcended to the transcending).

* In other words, fundamental construal about the conceptual-and-institutionalisation-phenomena has to do with how any and all conceptualisations and meaningfulness harken back to ‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, qualified as the very essence of intrinsic-reality as a suprastructural and ontological-normalcy/postconvergence conjoint-ontological-and-virtue-consistency upholding construct; and in so doing, explicates successive institutional-cumulations/institutional-recomposures existentialisms/full-depths-of-existential-implications. Hence the subknowledging-impulse/impulsive-dementation/slantedness mechanism that induces perversion-of-reference-

of-thought in all institutional-cumulations/institutional-recomposures effectively define each registry-worldview/dimension respective uninstitutionalised-threshold while reflecting/perspectivating/highlighting its mental-devising-representation/(recomposed)-consciousness-awareness-teleology specific superseded/transcended ‘stranding-as-(mentally) oblongated/decandored-and-dialectically-or-contendingly-out-of-phase’ that is its uninstitutionalised-threshold (going by the ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought’). This transcended/superseded uninstitutionalised-threshold in the stranding-dialectics is a universal notion in establishing that that which is perversion-of-reference-of-thought and therefore not ontologically-veridical (superseded/transcended stranding-as-mentally- oblongated/decandored-and-dialectically-or-contendingly-out-of-phase) or the uninstitutionalised-threshold, and that which is not perversion-of-reference-of-thought and ontologically-veridical (superseding/transcending stranding-as-mentally-straight/candored-and-dialectically-or-contendingly-in-phase) or the institutionalised threshold. This is critical in overcoming our very own epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag inclination with respect to procrypticism, perversion-of-reference-of-thought of positivistic meaningfulness, that is, positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), and so beyond our illusion-of-the-present/present-consciousness as more of a veridical ontological-normalcy/postconvergence and suprastructural intrinsic-reality/ontological-veridicality to a veridical existentialism/full-depth-of-existential-veridical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (of perversion-of-reference-of-thought) over which memetic-reordering/psychoanalytic-unshackling can then occur. Otherwise, while such an insight is intuitive from our vantage positivistic registry-worldview point of reference with respect to prior registry-worldviews/dimensions

dementability/stranding-dialectics, ours will carry a complex implying wrongly it is undementable and thus non-transcendable. Such ‘perversion-of-reference-of-thought’ applies with regards to both psychopathic subknowledging-impulse/impulsive-dementation/slantedness and its corresponding postlogism-as-of-non-conviction protraction as conjugation/inflection/deriving to temporal-dispositions implying consciously taking such insane-fitment mantle and acting like the psychopathic character once committed from ignorance (due to the postlogical inducing of a loss of social universal-transparency that acts as a constrain to temporal-dispositions for institutionalisation); at which point for all effective-predicative practicalities the temporal-dispositions character is ‘technically psychopathic’. This is the underlying basis for the development of social psychopathy. That is, after ignorance-temporal-disposition conjugation/inflection/deriving of psychopathic subknowledging-impulse/impulsive-dementation/slantedness postlogism-as-of-non-conviction protraction as assuming psychopathic subknowledging-impulse/impulsive-dementation/slantedness in ignorance and out of bad-or-wrong conviction, the other temporal-dispositions respectively involve: - (affordability-temporal-disposition) assuming psychopathic subknowledging-impulse/impulsive-dementation/slantedness in affordability and out of non-conviction-or-‘existential-decontextualised-transposition’ as uninstitutionalised-animality-threshold, - (opportunism-temporal-disposition) assuming psychopathic subknowledging-impulse/impulsive-dementation/slantedness in opportunism and out of non-conviction-or-‘existential-decontextualised-transposition’ as uninstitutionalised-animality-threshold, - (exacerbation-temporal-disposition) assuming psychopathic subknowledging-impulse/impulsive-dementation/slantedness in exacerbation and out of non-conviction-or-‘existential-decontextualised-transposition’ as uninstitutionalised-animality-threshold; - (social-chainism/social-discomfiture/negative-social-aggregation-temporal-disposition) assuming psychopathic subknowledging-

impulse/impulsive-dementation/slantedness in social-chainism/social-discomfiture/negative-social-aggregation and out of non-conviction-or-‘existential-decontextualised-transposition’ as uninstitutionalised-animality-threshold; - (temporal-enculturation/temporal-endemisation-temporal-disposition) assuming psychopathic subknowledging-impulse/impulsive-dementation/slantedness in temporal-enculturation/temporal-endemisation and out of non-conviction-or-‘existential-decontextualised-transposition’ as uninstitutionalised-animality-threshold. What is specific about a mental-devising-representation of psychopathic/postlogical perversion-of-reference-of-thought and its protraction as social psychopathy to temporal-dispositions (not to be confused with the spontaneous conviction-reflex/prelogical-reflex-admittance-reflex/in-phase-reflex of wrongly implying prelogism-as-of-conviction as bad/poor conviction—wrongly implying logical nested-congruence—wrongly implying a logical contention); the specificity lies in the notion of ‘EMPTINESS of psychopathic postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ and the conjugation/inflection/derivation of that EMPTINESS to the temporal-dispositions in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogism conjoining-looping-sets-of-narratives-(construed-as-of-slanted-cohering-‘unsoundness-or-inauthenticity-of-reference-of-thought’-of-the-derived-perversion-of-reference-of-thought,-and-avoiding-any-wrongly-implied-logical-processing-engaging). It is the ‘reflection/perspectivation’ of this EMPTINESS of narratives/affirmations that is behind the notion of perversion-of-reference-of-thought, and so as intemporal organic-comprehension-thinking insight over mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation distraction. In fact, the technique for dementing involves mentally interceding/intermediating the reflected/perspectivated insight of a postlogical interlocutor’s hollow-narratives or derived-hollow-narratives with emptiness

to reflect/perspectivate its unsoundness-or-inauthenticity-of-reference-of-thought as a manifestation of as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect given the narrative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>. It is critical to note that this EMPTINESS of mental-devising-representation of perversion-of-reference-of-thought as the uninstitutionalised-threshold of (ontological-dementation/dialectical-dementation—stranding/attributive-dialectics) stranding-dialectics mentally-representing prior transcended/superseded registry-worldviews/dimensions as oblongated/decandored-and-dialectically/contendingly-out-of-phasing-or-dialectical-primitivity with respect to prospective transcending/superseding registry-worldviews/dimensions mentally-represented as mentally-straight/candored-and-dialectically-or-contendingly-in-phase; is the underlying process that permits the 'transcendental shifting of reference-of-thought (enabling ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) to the apriorising—registry of the prospective/transcending/superseding registry-worldview/dimension while the transcended/superseded registry-worldview/dimension is no longer a dialectically-in-phase reference-of-thought but of dialectically-out-of-phase meaningfulness-and-teleology perversion-of-reference-of-thought as to its dialectical-dementing—epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This process basically explains ontologically why and how humans from the very beginning to today are the same as it fundamentally grasps the dynamism of institutional-cumulation/institutional-recomposeure/memetic-reordering/psychoanalytic-reorientation that elucidates our human contiguous anthropological-continuity or anthropopsychology. Further, in the practical

elucidation of social issues having to do with an issue of perversion-of-reference-of-thought-
 (reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought) like psychopathy-and-
 social-psychopathy, it points out that the critical point is to understand what meaningful
 apriorising–registry is the ‘veridical reference-of-thought’ as reflected/perspectivated by
 soundness-or-authenticity-of-reference-of-thought/candoring-and-dialectically-or-
 contendingly-in-phase and what is rather non-ontological-reference-or-non-contending-
 reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing and
 hence demented as reflected/perspectivated by mental-slantedness/decandoring-and-
 dialectically-or-contendingly-out-of-phase; and so in an underlying conceptual framework of
 ontology as an ideal that pulls the social towards the intemporal and the real nature of the
 social rather as a ‘conventioning construct’ that while susceptible to ontological/intemporal
 influence is equally the milieu of temporal drawbacks that need to be critically undermined
 including with ‘knowledge notionalisation’ involving not only the study of the ideal but
 ‘understanding how temporal-dispositions arise and work’ to better skew/deferential-
 formalisation-transference for intemporality/ontology as institutionalisation/intemporalisation
 together with differentiating between good-naturedness which is rather impression-driven,
 vague and might actually be precarious by its meaningful disposition to extrinsic-attribution
 and associated perversion-of-reference-of-thought and the-Good which is about
 understanding in ontological-primemovers-totalitative-framework how reality is/how things
 work to deliver virtue and hence is the basis for formalisations, and actually the ‘deferential-
 formalisation-transference’ has been the process by which throughout human history,
 increasingly segments of social thinking (present-day subject-matters) are taken out of
 common hotchpotching and undisambiguated temporal-to-intemporal-dispositions in the
 extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-
 incompleteness-to-meaningfulness-and-teleology) to be given ‘formal deferential status’ to

ensure the supersedingness and internalisation of intemporal-disposition inclination to ontological-veridicality. This ontological-dementation/dialectical-dementation—stranding/attributive-dialectics insight brings up another definition of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure process relating human mental-devising-representation/(recomposured)-consciousness-awareness-teleology with the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality, wherein we can imagine ‘an initial state for memetic-reordering/institutional-recomposure of base-dementation and imagine a completed state of memetic-reordering/institutional-recomposure of non-dementation’, with the underlying mental-devising-representation/(recomposure)-consciousness-awareness-teleology taking/institutionalising/intemporalising the abstract human mind from base-dementation to non-dementation; involving at successive uninstitutionalised-threshold of the institutional-cumulations/institutional-recomposures, social universal-transparency of perversion-of-reference-of-thought, internal-contradictions induced from ontological-primemovers-totalitative-framework inoperance, stranding-dialectics divulging prospectively perversion-of-reference-of-thought, and intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of temporality, with corresponding formalisation and internalisation as values. While this process had occurred priorly rather beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought from base-institutionalisation, universalisation and up to positivism, it will possibly be more driven as-of-consciousness-awareness-teleology when it comes to attaining deprocrypticism as the latter registry-worldview/dimension is actually weaker than the preceding registry-worldviews/dimensions in eliciting a positive-opportunism and will more strongly depend on percolation-channelling-<epistemic-totalising-

reoriginariness/reorigination-in-conflation> of intemporality/longness to be realised. Dementing as thus implied can be defined as the reflecting/perspectivating/highlighting of mental-devising-representation/(recomposed)-consciousness-awareness with respect to ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) as reference-of-thought in an ontological-normalcy/postconvergence and suprastructural proxying of intrinsic-reality, beyond mental-devising-representation/(recomposed)-consciousness-awareness-teleology within any given registry-worldview/dimension representation of meaningfulness. The storying/narrating technique for relating dementing will involve projecting suprastructurally and in ontological-normalcy/postconvergence in the transcending/superseding registry-worldview/dimension for ‘ontological-reference meaningfulness’ as the intemporal-disposition (in ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness organic-comprehension-thinking), while representing temporal-dispositions as rather in the transcended/superseded registry-worldview/dimension (dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag) meaningfulness-and-teleology which is not-of-ontological-reference, and in the place of the temporal-dispositions (in-circumventive/distractive-temporal-prioritisation-of-reference-of-thought mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservations) dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag wrongful-stranding-as-mentally-straight/candored-and-dialectically-or-contendingly-in-phase, imply their rightful-stranding-as-mentally-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase; just as all prospective/transcending/superseding registry-worldviews/dimensions mentally-represent-and-relate-with their prior/transcended/superseded registry-worldviews/dimensions, even

though all the latter naturally by epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag resist such representation by the former. Noting as well that teleologically, the transcending/superseding and the transcended/superseded are in transversality-of-disambiguated-apriorising/axiomatising/referencing. That is, the two ‘reason pass each other’ (wherein the transcending/superseding is organic-comprehension-thinking while the transcended is in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) as the transcending/superseding is involved in ‘reasoning-through/over’ and not ‘reasoning-with’ the transcended/superseded (this explains why transcendence is ‘an institutionalisation-constraining/secondnaturing process’ and not ‘a first-naturing transformation process’), just as a positivistic mindset/reference-of-thought ‘can only be in reasoning-through/abjection over’ a medieval mindset/reference-of-thought and ‘not reasoning-with’ it as otherwise the former wrongly validates that there is no medieval mindset/reference-of-thought dialectical-dementing—epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (that defines medievalism as stranded-as-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase not only with regards to a narrative/implication-of-act-execution-defect but comprehensive narratives as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect given the rather continuous epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of medieval meaningfulness, and warrants in lieu of any pretence of medieval mindset/reference-of-thought contention, which is rather a manifestation of dialectical-dementing—epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as medieval

meaningfulness, a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for prospective positivistic mindset reference-of-thought—categorical-imperatives/axioms/registry-teleology in the first place for the notion of mutual contention to even arise) and in so doing wrongly validating the medieval meaningful frame (categorical-imperatives/axioms/registry-teleology-elements-of: implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) as mentally sound. It is the cause-and-effect-effective-predication by its grander grasp of intrinsic-reality that by way of untenability/internal-contradiction/internal-incoherence/institutional-constraining and social universal-transparency imposes cross-generationally the dominant as transcending/superseding meaningfulness over the dominated as transcended/superseded meaningfulness (there is no social-and-temporal-trading in that regard); as the intrinsic-reality that the transcending/superseding meaningfulness carries is suprastructural and ontological-normalcy/postconvergence and doesn’t adjust to the mortals, that we are, ‘social-and-temporal-trading’, otherwise the supposedly transcending/superseding compromises itself with respect to intrinsic-reality and losses its pertinence as a proxying reference-of-thought to intrinsic-reality, to start with. Such an insight can be garnered as, for instance, in the natural sciences we can’t negotiate about gravity being 9.8 m/s^2 , but with ‘the social’ which is rather ‘emotionally involved’, such negotiated social-and-temporal-trading idiocy is surprisingly quite recurrently articulated. It should be noted that the ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’ in upholding a mental-devising-representation of temporal-dispositions as rightfully-stranded-as-mentally-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase (dementing) is rather a comprehensive intemporality-preserving ontological-entrapment of the ‘notional-

oblongated/decandored-and-dialectically-or-contendingly-out-of-phase recurrently, for all registry-worldviews/dimensions (dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), that suprastructurally and in ontological-normalcy/postconvergence defines any specific registry-worldview/dimension dialectical-primitivity whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism/disjointedness-as-of-reference-of-thought. The bigger point is that fundamentally one can't conjugate/inflect/derive intemporality/longness out of demonstrated temporality/shortness (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>) as then one is just in epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and wrongly implying the registry-worldview/dimension is beyond transcendence or is non-transcendable (hence undementable/still-dialectical-thinking) when in fact it is dementing/subknowledging/registry-perverting-in-epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This latter idea is actually the epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex of all prior/transcended/superseded registry-worldviews/dimensions with respect to the suggestion of prospective/transcending/superseding registry-worldviews/dimensions, as we can appreciate from our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure process to be rather not true with prior transcendences though we'll in turn obviously act by reflex in epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with respect to the suggestion of prospective transcendence undermining our registry-worldview's/dimension's categorical-imperatives/axiom/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

The ontological-normalcy/postconvergence nature of intrinsic-reality as such explains why ontological-veridicality is rather a reasoning-through/abjection to apprehend intrinsic-reality, over incrementalism-in-relative-ontological-incompleteness and notional-procrypticism/notional-disjointedness-as-of-reference-of-thought which is more about ‘transversality-of-disambiguated-apriorising/axiomatising/referencing human conceptual elucidation of reality’ (given that the former emphasises ontological-primemovers-totalitative-framework as all-determinant); with reasoning-through/abjection generally implied in formal constructs and settings as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework settings while informal constructs and settings tend more to incrementalism-in-relative-ontological-incompleteness and notional-procrypticism/notional-disjointedness-as-of-reference-of-thought and hence are highly teleologically-degraded as impression-driven/good-naturedness settings. The reason is that formal constructs and settings emphasise ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness in longness-of-register-of-meaningfulness-and-teleology and hence are equally highly deferential whereas informal constructs and settings do not constrain temporal-dispositions and hence are highly subjected to circumventive/distractive-temporal-prioritisation-of-reference-of-thought in shortness-of-register-of-meaningfulness-and-teleology and are unsurprisingly rather not deferential given that they are opened to hotchpotching/undisambiguation of temporal-to-intemporal-dispositions. ‘Intemporal-prioritisation-of-reference-of-thought’-as-conflatedness points out that conventioning constructs like sub-par/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advance with circumventing/distractive-temporal-prioritisation-of-reference-of-thought, such that just as the conventioning construct of non-positivism/medievalism cannot be evoked to imply that

with respect to a non-positivism/medievalism mindset/reference-of-thought a prospective positivism mindset, which is the outcrop of an ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness exercise in non-positivism/medievalism registry-worldview/dimension, is unwarranted. Likewise, it is rather naïve and epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to advance circumventive/distractive-temporal-prioritisation-of-reference-of-thought concerning psychopathic and its social psychopathic collorary (perversion-of-reference-of-thought) in wrongly implying that a deprocrypticism ontological-escalation/aetiologisation is unwarranted. More like the evocation of circumventive/distractive-temporal-prioritisation-of-reference-of-thought about a past war criminal or rapist based on conventioning constructs like their being in the past, their settled lives, etc. doesn’t dispense them from ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness, the need for their judgment and/or in advocating unfailingly/infalibly the uncompromising notions against rape or war crimes, and so without conjugating/inflecting/deriving any excepting human temporal circumstances into it by circumventive/distractive-temporal-prioritisation-of-reference-of-thought. This further point to the dichotomy between temporal-compromising-conventioning and ontology, with an institutionalisation dialectics wherein ontology as reference-of-thought/ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation perpetually elevates conventioning. This further translates in the conceptualisation of value-and-valor with the implication that while aspiring for temporal values and valor may be the standard averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> perception, however, grander value and valor effectively lies in the universalising and philosophising orientations (as ontological-profoundness-of-thought/ontological-normalcy in

contrast to conventioning-profoundness-of-thought/intradimensional-subknowledging-normalcy) that enable the possibility, the construct and the upholding of human emancipation across successive registry-worldviews/dimensions in the very first place, that is, emancipation into base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Aristotle's advocating of the 'golden mean' is more of a heuristic and aesthetic notion but doesn't has an ontological basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework reference of 'ontological-contiguity' but for naively and wrongly implying good-natured qualities as being ontological (rather than the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation validated by ontological-contiguity or a ratio-conguity notion), and since the ontological-contiguity—of-the-human-institutionalisation-process shows that 'good-naturedness', without the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ontological-contiguity, fundamentally has little import or worst bad implications. The truest value and valor resided in what Aristotle and other thinkers or even prophesiers were striving for actually. Aristotle nor Socrates nor Plato nor the prophets (working rather more assertively on supernatural paradigms) nor latter thinkers like Descartes, Kant, Darwin, Leibniz, Rousseau strove for the golden mean in their overall endeavours. Rather from an ontologically verifiable reality as a the-Good/understanding/ontological-primemovers-totalitative-framework/ontological-contiguity they actually aspired for 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness, that is, they were prioritising and focussing on that which establishes universal and philosophical principles as first-order-ontology for-prospective-living as the backdrop for enabling better human emancipation and living (even though where relevant this will subsume-as-supplant-(as-of-relatively-more-profound-construal-of-existential-

contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) the golden mean into 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness but with the latter rather superseding/encompassing it). It is the establishment of such first-order-ontology for-prospective-living as base-institutionalisation, universalisation, positivism and prospectively depcrypticism which are of transcendental nature as 'shaping the human psyche' and providing the emancipatory umbrella for second-order-ontology and their temporal yearnings which are rather non-transcendental and cannot structurally resolve fundamental issues, and of circular institutionalised-being-and-craft. A Rousseau may not be the 'shrewdest aristocrat' in terms-as-of-axiomatic-construct of the ordinary value of personal gain of the medieval world but the first-order-ontology resolution of issues of social emancipation passes by his and likeminded first-order-ontology philosophical projection. This certainly applies with regards to defining transformative impact of transcendental constructs across all registry-worldviews/dimensions that does not compare with ordinary being-and-craft second-order-ontology sense of value which is rather intradimensionally circular and is hardly of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm addressed from first-order-ontology constructs. Granted if humans had absolute mentation capacity then 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness will be skewed ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) or rather supersede/encompass all such desirabilities implied by the golden mean. However, we don't have absolute mentation capacity and the most intemporal of our dispositions should take pride of place in defining our achievement motives whether as philosophies, causes, skillsets and talents in our value and valor aspirations, in line with the notion of a true principle, with the implication that such value and

valor is capable of rationally upholding itself and its registry-worldview prospectively when implied universally. Such an insight can further be expanded thus, it is critical to note that the institutional-cumulations/institutional-recomposures are developments of human mentation capacity in grasping its ‘internal ontological-reconstituting-as-of-conflatedness/deconstruction intermediating environment’ and the external environment. The former refers to the teleological devised representation of the relationship with the external environment like language, organisation, culture and other institutional construct by which it existentially accesses the external environment. In effect, though counterintuitive, human institutionalisation is actually an ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/intemporal-preservation preemptive construct which paradoxically elicits devised mentation that goes on to build the ‘internal ontological-reconstituting-as-of-conflatedness/deconstruction) intermediating environment’. Thus in effect base-institutionalisation is the outcome of the ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/intemporal-preservation preemption of recurrent-utter-uninstitutionalisation (recurrent/epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag for dementing/subknowledging/perversion-of-reference-of-thought), universalisation is the outcome of the ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/intemporal-preservation preemption of ununiversalisation (dementing/subknowledging/perversion-of-reference-of-thought–and–epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of base-uninstitutionalisation), positivism is the outcome of the ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/intemporal-preservation preemption of non-positivism/medievalism (dementing/subknowledging/perversion-of-reference-of-thought–and–epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

of universalisation) and prospectively, deprocrypticism is the outcome of the ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/intemporal-preservation preemption of procrypticism, so construed by ‘deprocrypticism ontologically-perspectival-elevated/pedestaling-as-dialectical-thinking-teleological-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing’; and so, in the relation between human developing mentation capacity and suprastructural-and-postconvergence-intrinsic-reality in ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). In this regard, transcendental institutionalisation is basically an ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/intemporal-preservation preemptive conceptualisation. Such “‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/intemporal-preservation preempting that actually create institutional-cumulations/institutional-recomposures’ is in fact the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework which in the face of ontological-normalcy as prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation harkens back to ontological-primemovers-totalitative-framework to establish prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (as the corresponding mental-devising-representation of the ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’ as stranding-as-mentally-straight/candored-and-dialectically-or-contendingly-in-phase) to-meet-up/proxy-with the ever dialectically suprastructural and ontological-normalcy/postconvergence intrinsic-reality, explaining the institutionalisations as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, as reflected/perspectivated by their organic-comprehension-thinking. This contrasts with the defective good-natured

construct as impression-driven and intradimensionally-tied and all so apt to existentially fail ontological-normalcy/prospective-transcendence-in-perpetually-failing-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as it is rather tied to and proxies, by mere form, with intradimensional reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation irrespective of whether these are failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or-ontological-preservation; and thus as the corresponding mental-devising-representation of the ‘ontological-dementation/dialectical-dementation—stranding/attributional-dialectics of reference-of-thought’ as stranded-as-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase, explaining the as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect, reflected in terms-as-of-axiomatic-construct of registry-teleology-mentation, behind this mental-devising-representation of the registry-worldviews/dimensions of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively procrypticism as reflected/perspectivated by their mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation.

Briefly, such an anthropopsychological/the-anthropological-continuity conceptualisation as articulated above further enables the insightful conceptualisation of ‘ontological-primemovers-totalitative-framework retracing (for temporal-to-intemporal-dispositions disambiguation articulation) analysis’ as expanded upon below, in the ‘ephemerality that is the social-construct’, on the basis of an ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity—or-ontological-

preservation understanding of the social-construct. This is central in articulating a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recompose possibilities for transcendental institutionalisation/intemporalisation of deprocrypticism (superseding the vices-and-impediments of procrypticism):

 explains the reason for stranding-dialectics including with regards to registry-

Thirdly, the ‘ontological-primemovers-totalitative-framework-retracing (for temporal-to-intemporal-dispositions disambiguation) scheme’ equally prevents the relaying of the postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as of formulaic-non-conviction-or-‘existential-decontextualised-transposition’ initiated from the psychopath to its interlocutors, to wrongly imply that the veridicality of its interlocutors narratives induced postlogically/in-nonconviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing then wrongly become prelogical/conviction, and as this conjugates/inflects (in-mimicking-protraction) with the temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and inducing miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising/temporal-enculturation-or-temporal-endemisation. Without the ‘ontological-primemovers-totalitative-framework-retracing (for temporal-to-intemporal-dispositions-pedestals-disambiguation) as reference-of-thought-scheme’ all the above will be hardly attainable as the basic fact that the ‘conviction-reflex/prelogical-reflex-admittance-reflex/in-phase-reflex instead of rightly aligning by the

Of course, this is more like a ‘notional template’ in a ‘dynamics of benign implications to grave existentialism/full-existential-depth-implications’ articulated over a functional social-construct which however ‘endemises psychopathy and social psychopathy rather at the uninstitutionalised-threshold of the positivistic meaningfulness reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation perversion-of-reference-of-thought known as procrypticism or emanant-wrong/demented-shades-of-the-real, requiring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation/intemporalisation (for the furtherance of the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or ontological-contiguity/ontological-veridicality). Further, it is important to appreciate that just as with the profoundness of treatment of subject-matters and specialisms (and even more so with regards to ‘the social’ given its characteristic ‘emotional involvement’ aspect), corresponding subject-matter

‘focussing of analysis and jargon’ will seem rather unusual and unnatural to ‘ordinary thinking’. But then ‘ordinary thinking’ is responsible for mostly nothing, if not thinking mostly in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology), and cannot be made a reference of formal thinking as issues requiring profound treatment invariably are construed based mostly on unordinary formal constructs which, granted, should be able to ultimately by their ontological-primemovers-totalitative-framework demonstrate that such formal constructs are the best ontological and virtue conceptualisation with regards to the issue or domain of concern. That’s why the populace is not asked its opinion about the law or astronomy or medicine, for instance, as the need for deferential-formalisation-transference arises for the effective ontological/intemporal treatment of domains of reality but for when the issues at stake require a sovereignty exercise requiring individuals informed consent whether political or decisional or rather as social learning/inculcation exercise; but then sovereignty exercises are not pure knowledge/ontological constructs but for the construals/conceptualisations of inherently sovereign choices as knowledge/ontological constructs of the sovereign choices. Thirdly, the conceptualisation of this paper is rather unusual and unordinary as it is transcendental by its construct and the implied registry-worldview/dimensions successive existentialisms/full-depths-of-existential-implications, and even further unusual by its phenomenological and hermeneutics methodological approaches, which frankly speaking is the only way to creatively garner such insights in broad strokes. Like with all transcendental constructs, which by definition tend to put the usual/ordinary in question, it is not surprising that it will sound highly alienating to ordinary ways of thought. However, its ethos is that it is coming from a depth of conceptualisation that is more profound than our ordinariness when it grasps that other institutionalisations whether as recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism,

positivism–procrypticism, and prospectively deprocrypticism, had their own ‘ordinariness’ in epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag no less than we do, and that the underlying ontological reasoning is beyond the illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage as metaphysics-of-presence, of any registry-worldview/dimension including our positivistic meaningful frame, to arrive at a superseding and more profound ontological-veridicality or grasp of intrinsic-reality with corresponding illuminating implications. In that sense, an argument of the type our society is great as it is, will then be meted with a same argument that there were great things happening in medieval times as well and maybe we shouldn’t have transcended into positivism; speaking of a fundamental solipsistic ontological-bad-faith/inauthenticity. One could argue in the logic of those times, the serfs were doing great feeding themselves, as many did argue; and there was no need for science, as many did argue, etc. The fact is we are the outcrop of the possibility and potential for human transcendence before which doesn’t end with us but proceeds to undermine our own registry-worldview/dimension as well. Fourthly, it is obvious that if and where what is factored in is only the folksy lifespan perspectives of individuals existentialism/full-depth-of-existential-implications of shallowness of scale and time, without the requisite philosophical depth requiring a profound appreciation, understanding and insights from ‘humanity existentialism/full-depth-of-existential-implications level scale and time’ which easily gets lost, and thus this bigger pursuit of this paper will be lost and misunderstood by such a shallowness of scale and time of thought, and non-contemplation and pseudologism as a mark of banality/folksy-logic. It is inevitable, as has been the case throughout the human past, that transcendental ideas are inevitably suprastructural/beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of the epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-

worldview/dimension in which such notions are being advanced in. Fifthly, it is more likely that a banal/folksy inclination may hardly appreciate the difference between the outcome of a mindset/reference-of-thought as a secondnatureddness and internalisation construct across successive institutionalisations with their requisite psychoanalytic-unshackling, memetic-reordering and institutional-recomposure induced from intemporal individuation disposition, and correspondingly differentiate between being so-institutionalised with a secondnaturedd and internalisation mindset/reference-of-thought and the intemporal--individuation-kind disposition that will equally be responsible out of mere intemporal-solipsism/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality (and no secondnaturing and internalisation) for institutionalising/intemporalising with regards to the present registry-worldview/dimension at its uninstitutionalised-threshold that will be behind the secondnaturing and internalisation of prospective registry-worldview/dimension. This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the institutional-cumulation/institutional-recomposure, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’ though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought, defining their specificities and potentials.

This is just a basic anthropopsychology/the-anthropological-continuity elucidation which while original and useful on its own right, is equally pertinent for an insight in the

social manifestation of psychopathy. Besides, one can imagine that a thorough grasp and creative application of the stranding-contiguity-of-ontology or ontological-normalcy or ontological-normalcy/postconvergence drive, as this psychologically reflects/perspectivates dialectically stranding-dialectics or epistemic-totalising–self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase of mental-devising-representation by which human transcendences occur can ultimately be the avenue for liberating the human mind to its full potential and directed transcending capacity. That is, transcendental capacity not only by way of a spontaneous and natural dialectical cycle of social constraints of stakes and confliction behind the ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure history but a ‘consciously directed’ abstract understanding, more like deprocrypticism-over-procrypticism could-be and would-need-to-be relatively highly consciously directed given the relatively lower immediate positive-opportunism (for survival-and-flourishing to the cross-section of human temporal interests) compared to the lower transcendences like base-institutionalisation, universalisation and positivism, but for its abstract veridical pertinence and potentially grander possibilities in the institutionalisation/intemporalisation percolation channels. Such a veering to the creatively abstract, with respect to the philosophical and the social sciences, but nonetheless ontologically veridical will be liberating/emancipatory from the ‘spontaneously natural dialectical cycle of human progress’ and is increasingly certain to be the defining feature of human civilisation.

It should be noted that Entropy as defined (‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the preceding-and-defining reference for the

hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions. (By ontological meaning is implied intemporal/veridical/purism/operant-construct/predicative-effectivity–sublimation-<as-to-underlying-ontological-commitment-implications> meaning or ontology/reality-centered-meaning as contrasted to temporal/non-veridical/compromised/non-operant-and-vague/epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaning or metaphysical/speculative/banality/social-discomfiture/temporal-human-centered meaning).

Central to the hermeneutics approach towards elucidating psychopathy and the underlying psychological science is a method I qualify as ‘referentialism’ which makes reference to the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and notions in referential and organic elucidation of the entropic construct. Referentialism as such is actually central to the spontaneity required in hermeneutics. It differs from the traditional scientific categorisation of concepts and notions, in that referentialism implies a highly contiguous, circumstantial and dynamic referencing elucidating of the superseding/preceding entropic notion while categorisation tends to be basically constitutive, definitive and ‘weakly contiguous/relatively-fragmented overall’ in its elucidation of notions, concepts and ideas. Categorisation has been very efficient with the physical and biological sciences with its classification approach enabling a profoundness of analysis while enabling excellent subject matter organisation. However, this author is of the opinion that categorisation as an approach is actually less efficient in the social sciences (and notions of an ephemeral character) as it underemphasises the ‘organic dynamism’ of social concepts and often leads to relatively trite classification schemes that are often inoperant or poorly operant given the relative ephemerality of the social world (a weakness of many categorisation classification schemes in the social sciences). On the other hand, referentialism carries the promise of ‘point-

referencing' notions and concepts in a contiguously dynamic, evolving and ontological-reconstituting-as-of-conflatedness/deconstruction way, putting emphasis on the relative relation of concepts and notions towards the central notion in its dynamic entropic conceptualisation. This author is also of the opinion that referentialism is actually the natural human cognitive development approach to acquisition and classification of knowledge with emphasis on 'the organic dynamics of understanding' wherein a child for instance doesn't necessarily grasp outright the fullness of concepts-of-meanings but rather the 'relevant dynamic contextualisation of meanings' ensuring a strongly operant and 'wealthy' relationship with meaning in the social context.

'Intemporal-preservation-entropy-or-contiguity-or-ontological-preservation re-institutionalisation' with respect to uninstitutionalised-threshold of registry-worldviews/dimensions, can be construed as follows:

Supposed all humanity across space and time that ever existed was just 'one human temporal-to-intemporal individuation', the process of general-institutionalisation from recurrent-utter-uninstitutionalisation to base-institutionalisation-ununiversalisation to ununiversalisation-non-positivism/medievalism to positivism-procrypticism, and prospectively to deprocrypticism, is actually one same process but for 'lack of the human-mentation-capacity and need for time for the cumulation of the mentation-capacity' (lack of 'brain capacity') to get it all right from the start (i.e. to fully grasp deprocrypticism starting from recurrent-utter-uninstitutionalisation to base-institutionalisation-ununiversalisation to ununiversalisation-non-positivism/medievalism to positivism-procrypticism as convergent concepts towards deprocrypticism (as 'longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, as induced by maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-

ontological-completeness-as-inducing-the-prospective-institutionalisation’ and involving more profound/richer ontological-levels over shallower/poorer ontological-levels; with deprocrypticism thus implying a ‘full-cycle ontological-contiguity—of-the-human-institutionalisation-process undermining of subknowledging/mimicking/emanant-uninstitutionalisation-disposition’). Thus the successive institutionalisations are thus construed as ‘levels of compromise’ allowing for sufficient human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) to handle the requisite transcendence even if from the very start the human doesn’t get a grasp of ‘higher institutionalisation/intemporalisation registry-worldviews/dimensions’ all-at-once/as-a-whole but achieves the ‘comprehensive institutionalisation/intemporalisation frame’ only at deprocrypticism; as it goes on to take on the successive challenges of base-institutionalising, then universalising, then positivising, and finally with deprocrypticism absolute ontological-contiguity by undermining ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology-in-arrogation’ (longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology). It should be noted that the issue of procrypticism had always been present at all times of human existence but the natural priority going by human shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) was first to have a base-institutionalisation institutionalisation, universalisation institutionalisation, positivism institutionalisation before prospectively deprocrypticism institutionalisation; more precisely, previous institutional-recomposures are indirectly (skewing towards) addressing base-institutionalisation, universalisation, positivism and deprocrypticism, up to the point of the respective institutionalisation/intemporalisation-recomposure where the reference-of-thought-as-the-registry-worldview is directly addressed. This thus explains ontological-normalcy/postconvergence across human mental-devising-representation as changes to

accommodate intrinsic reality by psychoanalytic-unshackling/memetic-reordering/institutional-recomposures of successive illusions-of-the-present/present-consciousnesses/epistemic-totalising—self-referencing-syncretising/mirage at these successive institutionalisation/intemporalisation levels including the positivism—procrypticism institutionalisation/intemporalisation, towards intrinsic-reality/ontological-veridicality; that has and will never change, and by way of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework inducing of social universal-transparency and internal logical coherence/contradiction this then validates the need for human psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. In the bigger scheme of things, it points to the fact that ontologically for the full potential of human science, this should be ‘rising from this fundamental philosophical depth/profoundness of thought’ to then transversally address the issues it raises while projecting prospectively.

A further insight can be grasped regarding the relationship between psychopathy, anthropopsychology/the-anthropological-continuity, veridicality (intrinsic reality/ontological representation), non-veridical reality (illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage as metaphysics-of-presence), human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, and registry-worldviews/dimensions (of institutionalisation/intemporalisation, universalisation, positivism, and prospectively deprocrypticism). Psychopathy points to the psychopath’s postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation but postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is equally socially

conceptualised. Postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging or meaning-by-the-mere-illogical-possibility-of-it-being-narrated is not veridical and its genuine mental-devising-representation is ‘a slantedness of the mind/mental-slantedness’ (distractive-alignment-to-reference-of-thought /dialectically-or-contendingly-out-of-phase/dialectically-primitive), as there ‘can’t be mutual logical operation/no logical nested-congruence’ between non-veridical postlogism-as-of-non-conviction in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and veridical prelogism-as-of-conviction, but for a dialectically-or-contendingly-out-of-phase (as-the-temporal-mind-is-dialectically-out-of-phase) ‘ordered construct from the superseding registry-worldview/dimension validated by ontological-primemovers-totalitative-framework and implying a psychoanalytic-unshackling of the perversion-of-reference-of-thought registry-worldview’. For instance, there isn’t any logical nested-congruence between the non-positivism/medievalism mindset/reference-of-thought and the positivistic mindset). A positivistic mind can’t explain the denaturing of the notion of witchcraft to a non-positivism/medievalism mindset as the state of being of non-positivism/medievalism means we make reference to non-positivism/medievalism reference-of-thought—categorical-imperatives/axioms/registry-teleology that end up endemising/enculturating such superstitious notions. Logic as logical-congruence only arises where there is a mutual registry-worldview reference-of-thought—categorical-imperatives/axioms/registry-teleology. What is thus needed is a ‘psychoanalytic-unshackling/memetic-reordering/institutional-recomposure’ of the medieval mindset/reference-of-thought (which is subknowledging/mimicking) wherein the untenability/internal-contradiction/internal-incoherence/institutional-constraining generated by the positivist’s scientism (superseding)

makes the medieval mind put in question its reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place. This ‘psychoanalytic-unshackling process’ equally applies prospectively (regarding the positivism–procrypticism and the deprocrypticism registry-worldviews/dimensions). In the phenomena of social psychopathy, it is important to grasp that the reflex to mentally represent the narratives of the psychopath and the protraction of the narratives by temporal conviction or prelogism minds as ‘straightness/candor/organic-comprehension-thinking of mind’ is wrong, ‘overcoming the mental-slantedness/decandoring/distractive-alignment-to-reference-of-thought is thus called for, more like we perceive the ‘slantedness of a childhood cinglé’ (in terms-as-of-axiomatic-construct of the mental state of the psychopath as well as its protraction on the psychopath’s interlocutor). In other words, *the mind is actually a mental devising tool’ whose veracity/ontological-pertinence must be validated by an abstractly veridical intrinsic-reality/ontological-veridicality. In other words, the abstract grasp of intrinsic-reality/ontological-veridicality defines mental-devising-representation as the latter is not inherently given (it is a devising tool validated by abstract intrinsic-reality/ontological-veridicality established by ontological-primemovers-totalitative-framework. For instance, while the traditional reflex of the human mental-devising-representation is disposed to think otherwise, Einstein theory-of-relativity abstraction, and likewise with many conceptualisations of a doppler-thinking nature, is more real by its ontological-primemovers-totalitative-framework, thus pointing to the error of the human reflex/impulse thinking). In another light, this explains the transformative evolution of our registry-worldviews/dimensions mental-devising-representations of reality from the recurrent-utter-uninstitutionalised earlymen to our current positivism–procrypticism registry-worldview, with the insight that our mental-devising-representation will evolve when prospective abstract reality ontological-primemovers-totalitative-framework shows that it is defective/perverted as

procrypticism/disjointedness-as-of-reference-of-thought, from a deprocryptic mental-devising-representation.

In the same vain, why we perceive the recurrent-utter-uninstitutionalised mind as that of ‘a savage’, the recurrent-utter-uninstitutionalised in its ‘epistemic-totalising-self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence perceives its mind as straight/candored and as of organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) and soundness-or-authenticity-of-reference-of-thought. It is the prospective base-institutionalised mind that ‘invents’ the representation of mental-slantedness/decandored-and-dialectically-or-contendingly-out-of-phase/dialectically-primitive) of the recurrent-utter-uninstitutionalised mind; and likewise with the ununiversalised mind and universalised mind, non-positivism/medievalism mind and positivistic mind, and prospectively, procrypticism mind and deprocrypticism mind. This variance of straightness/candored as organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) and oblongated/decandored as mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation mental-devising-representations to ascertain veridicality/intrinsic-reality of psychopathic and social-psychopathic phenomena such that the ordinary reflex to keep a straight/candored organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) with respect to the psychopath’s mindset/reference-of-thought and protracted social psychopathy non-veridical hollow mimicking narratives should be undermined by a slantedness/decandoring of the mind

as distractive-alignment-to-reference-of-thought at ‘uninstitutionalised-threshold’. The contention is an ‘ontological-entrapment’ not about logical operation/processing/contention of the ‘non-veridical hollow perversion-of-reference-of-thought narratives’ but rather reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) it as ontological-primemovers-totalitative-framework. That is, an understanding of the abstract temporal-dispositions as a specie-level/universal/intemporal paradigm as prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, i.e. transcendence as deprocrpticism. It is a psychoanalytic-unshackling ordered construct (as-the-temporal-minds-pedestals-are-out-of-phase-dialectically-or-dialectically-primitive-by-a-bare-matter-of-fact) from the intemporal-solipsistic/emanant-registry-pedestal in transversality-of-disambiguated-apriorising/axiomatising/referencing. The bigger scheme of things being the structural/paradigmatic preemption of a defective/perverted registry-worldview, in this case procrpticism/disjointedness-as-of-reference-of-thought. Such an emanant insight can be garnered from the fact that, positivism was established by the ‘diktat’/ordered-construct of the Descartes, Comtes, Galileos, Rousseaux, Newtons, Darwins... of the world, and the rest of humanity complied to the formalisms that ensue, by virtue of their proxying-to-intrinsic-reality and the positive-opportunism that led to psychoanalytic-unshackling/memetic-reordering/institutional-recomposure (towards human formalisation and internalisation)!

As registry-worldview/dimension defects or denaturing are responsible for the vices-and-impediments of the said registry-worldview/dimension; noting that the fundamental construction is a ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation’ making reference to ontological-primemovers-totalitative-framework and not a vague ‘impression/good-naturedness/wishfulness

conceptualisation' making reference to the banal averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> as may illusionary be projected intradimensionally/intra-registry-worldview (the latter being represented as oblongated non-veridical narratives by the prospective intemporal-disposition-worldview)! The reason why virtue (knowledge is virtue) is treated scientifically as highlighted above is that virtue is a 'the-Good/understanding/knowledge construct' and not a 'good-natured/impression construct'. For instance, no non-positivism/medieval mindset is 'good-natured/vague by the registry-worldview/dimension impression' enough with the fundamental defective/perverted non-positivism/medieval worldview to be able to address 'the-Good/understanding' of a positivistic mindset which will resolve or structurally-rendered-inoperant the problems of superstition and witchcraft as the former will always make reference to the defective/perverted reference-of-thought-categorical-imperatives/axioms/registry-teleology of non-positivism/medievalism no matter how 'good-natured/impression-driven' it is. The same applies with procrypticism and deprocrypticism. No procryptic (emanant-wrong/demented-shades-of-the-real-set-of-narratives) mind is impression-driven/good-naturedness/wishfulness enough to have the requisite 'the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct' insight to resolve/structurally-rendered-inoperant the issues of the vices-and-impediments of procrypticism as it is the deprocryptic mind's 'the-Good/understanding/knowledge construct' that is the virtue that carries the sound registry-worldview/axiomatic construct/categorical-imperatives to be able to do this.

- the-Good is an intemporal/ontological articulation referencing intemporality/longness in a contiguous emanance of 'transcendental/superseding abstract intemporal-preservation-entropy-or-contiguity-or-ontological-preservation' and

corresponding derived reference-of-thought–categorical-imperatives/axioms/registry-teleology; and is imbued with the ‘memetic reordering contiguity’ of institutional-cumulation/institutional-recomposure (base-institutionalisation-to-universalisation-to-positivism-to-deprocrypticism, and thereafter). The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework is notionally more of ‘a capacity and scientific construct’ (high or low mentation-capacity) rather than a ‘stigmatising construct’ (positive or negative impressions).

- ‘Good-naturedness’ is a temporal articulation that wrongly references (distractively) for temporality-sake registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology priorly-and-over ‘transcending/superseding abstract intemporal-preservation-entropy-or-contiguity-or-ontological-preservation’; and is imbued with the memetic notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> that undermines institutional-cumulation/institutional-recomposure. Good-naturedness is notionally more of a ‘stigmatising construct’ (positive or negative stigmatising) rather than ‘a capacity and scientific construct’ (high or low mentation-capacity).

- Virtue (retrospectively to prospectively) is not determined by ‘good-naturedness’/impression-driven construal/conceptualisation of meaning but rather by the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation of meaning as validated by ontological-primemovers-totalitative-framework (the emanant/becoming ontological-normalcy/postconvergence determinant of veridicality/the-quality-of-being-emanantly-real). The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation (understanding) as per veridicality demonstrated by ontological-primemovers-totalitative-framework is the complete and sufficient elaborative framework for conceptualising virtue!

Such ontological-primemovers-totalitative-framework is rather tangentially the purview of increasing realism of the institutional-cumulation/institutional-recomposure as it is contiguous with ‘human transcending across shifting virtue paradigms for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ (with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposure); going from recurrent-utter-uninstitutionalisation (impulsive-or-accidented-or-haphazard-or-random mental-disposition), base-institutionalisation (mythologies paradigm, which is of epistemic-totalising_nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in-‘warped-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context and represents virtue in terms-as-of-axiomatic-construct of allegiance/subservience transience), universalisation (mystical-principles paradigm, which is of epistemic-totalising_ordinal-as-qualifying-phenomenal-abstractiveness-of-presencing-in-‘preclusive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context and represents virtue in terms-as-of-axiomatic-construct of qualification/good-to-bad transience), positivism (principles-rationalism/positivist-idealism paradigm, which is of epistemic-totalising_intervalist-as-categorising-phenomenal-abstractiveness-of-presencing-in-‘occlusive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-

Such an articulation of the human, retrospective and prospective, skewing
 ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-
 reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-
 formalisation-transference towards/development of virtue is grounded in a the-
 Good/understanding/knowledge-driven conceptualisation on veridicality established by
 ontological-primemovers-totalitative-framework validation. The overarching and defining
 notion is that each registry-worldview/dimension is only capable of the virtue reflected by its
 intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. In other words,
 'a registry-worldview/dimension defective reference-of-thought—categorical-
 imperatives/axioms/registry-teleology as of its relative-ontological-incompleteness-of-
 reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-
 and-performance-caricaturing-so-construed-by-prospective-reference-of-thought is
 responsible for the vices-and-impediments of that registry-worldview's/dimension's
 reference-of-thought'; and, requiring prospective reference-of-thought—categorical-
 imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—
 or—ontological-preservation in anticipation and preemption of such perversion-of-reference-
 of-thought. Thus structurally it is the prospective registry-worldview/dimension which is
 always the 'prospective virtue potential' for the prior/superseded registry-

worldview/dimension. Basically, base-institutionalisation enabled the virtuous resolution of vices-and-impediments of the state of recurrent-utter-uninstitutionalisation, and likewise with universalisation and ununiversalisation, positivism and non-positivism/medievalism, and prospectively, deprocrypticism and procrypticism/disjointedness-as-of-reference-of-thought. In the present world, we no longer do institutional slavery, we talk of universal rights and equality of all people, mob judgment and mob killing is hardly practised anymore, accusations of witchcraft are now viewed as ridiculous, etc.; it is the integration of a positivist registry-worldview/dimension, with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposure that enabled such human transformation from a non-positivism/medievalism registry-worldview/dimension; and not the inherent exceptionalism, as biological or otherwise, of humans living now over their forerunners.

Basically, human ‘conviction deductive reasoning’ as prelogism is effectively a sound construct for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and hence virtue; that is, so long as it is adhered to properly. However, this is not the case on two grounds. It is critical to distinguish a defect in improper processing/operating of conviction or prelogism which is rather construed as a singular/ad hoc ‘implication-of-act-execution defect’ and can be then qualified as a ‘poor conviction’ or a ‘bad conviction’; it being nonetheless a conviction or prelogism as it holds the teleological aim of ‘intemporal preservation with a principled adherence to conviction’ even though it delivered an inappropriate/poor-or-bad logical-processing-or-logical-implication. On the other hand, a defect of non-conviction-or-‘existential-decontextualised-transposition’-or-impulsively-dementing-postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates on the ‘parasitising/co-opting’ basis that intemporal-preservation-entropy-or-contiguity—or—ontological-preservation reference-of-thought—categorical-imperatives/axioms/registry-teleology are formulaic

determinants of human thought and action and is the basis for perversion-of-reference-of-thought. Such a defect is ‘as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect’ as it rather holds the teleological aim of ‘temporal preservation/undermining-of-intemporal-preservation without a principled adherence to prelogism-as-of-conviction’ and thus speaks to the disposition to act likewise technically in a large or infinite number of cases (syncretising). It should be noted that temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) are in-of-themselves act defects and not being defects. However, such temporal-dispositions are as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect when these relay postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as of formulaic-non-conviction-or-‘existential-decontextualised-transposition’-or-impulsively-dementing (whether of the psychopath or not) inducing narratives that are slanted/demented/dialectically-or-contendingly-out-of-phase/non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing/not-veridical-thinking-reference-rather-dementing-reference/in-perversion-of-reference-of-thought-and-not-of-logical-contention and are dialectically-primitive; due to the miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising and temporal-enculturation/temporal-endemisation (occurring at the specific temporal-dispositions). For instance, going by the BODMAS equation highlighted before, the mere operation of arithmetic without factoring in

A's condition/subknowledging-impulse/impulsive-dementing of incrementalism-in-relative-ontological-incompleteness additionality with 1 leads to a systematic failure that is ontological and not a mere act defect, and defines an uninstitutionalised-threshold. It should be noted that at all uninstitutionalised-threshold, it is ontological-dementation/dialectical-dementation—stranding/attributive-dialectics that enables the mental-reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with)-representation of the as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview's/dimension's—reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect as perversion-of-reference-of-thought in construing unsoundness-or-inauthenticity-of-reference-of-thought (stranding-as-mentally-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase) from whence an exercise of 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure with new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation initiates a cross-generational transcendence. Ontologically, the mental-devising-representation of such perversion-of-reference-of-thought is as strands-of-perverting-temporal-dispositions, involving oblongating/decandoring/distractive-alignment-to-reference-of-thought, that defines the dialectical-out-of-phasing (whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and, in the prospective representation, of procrypticism) as perversion-of-reference-of-thought. For instance, in registry-worldview/dimension terms, medievalism/non-positivistic mental-disposition is systematically as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview's/dimension's—reference-of-thought-for-social-functioning-and-accordance defect

or intradimensional-defect at the uninstitutionalised-threshold where you need a positivistic mental-disposition for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. Likewise, procrypticism (perversion-of-reference-of-thought/dementing/unsoundness-or-inauthenticity-of-reference-of-thought/mental-perversion/subknowledging/mimicking-and-corresponding-epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of positivistic reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) is as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect at the uninstitutionalised-threshold where you need deprocrypticism.

Reality being blunt/incisive as it is rather preceding/superseding and ontological-normalcy/postconvergence with respect to us, is in essence an operant and deterministic construct that doesn't have any place for discrete incrementalism-in-relative-ontological-incompleteness notions but even for the cases where such discretion is artificially devised/implied, it is applied as operant and deterministic (consider quantum-mechanics). So ontologically, the mental-devising-representation of perversion-of-reference-of-thought as strands-of-perverting-temporal-dispositions is definitely accurate on two insightful grounds. Reality's bluntness/incisiveness doesn't leave room for discretionary judgments about 'good-natured'/impression-driven conceptualisations of virtue and virtuous judgment within the overarching framework of such the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework reality determinism, and such impressions can only pass for an illusion-of-the-present/present-consciousness mirage and/or epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (attempting to operate logic in a superseding registry-worldview on the basis of the reference-of-thought-categorical-

imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity– or–ontological-preservation of a superseded registry-worldview; for instance, God of plane type of statement in say an animistic society that comes in contact with foreigners and a plane). The second reason is that we can garner insight on prior/superseded institutionalisations and understand that the vices-and-impediments are actually cross-sectional to the registry-worldviews/dimensions as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought and it is intemporal philosophical development that goes on to liberate/enlighten/moult-out ‘actors of transcendence’ who in turn then shine the light across society, i.e. institutionalisation/intemporalisation by skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/differential-formalisation-transference for the supersedingness of the intemporal-disposition over temporal-dispositions for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Transcendence as such is more of a deterministic and operant process than discretionary, and works on the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework basis, even though counterintuitively we tend to turn towards impressions to construe virtue which only confuses the issue as we then wrongly define fulfilling temporal whims (good-natured impressions or not) of the ‘collective consciousness of the corresponding present-consciousness/illusion-of-the-present’ as an intemporal reference for defining virtue (with no ‘emanance disambiguation’/temporal-to-intemporal-dispositions), rather than a transcendental understanding of the-Good – i.e., knowledge/virtue-as-institutional-cumulation/recomposure-for-intemporal-preservation. This points to the fact that necessarily the structural/paradigmatic virtue construct (knowledge-driven) of recurrent-utter-uninstitutionalisation is base-institutionalisation, ununiversalisation is universalisation, non-

positivism/medievalism is positivism, and prospectively, that of our positivism—procrypticism/disjointedness-as-of-reference-of-thought is deprocrypticism/preempting—disjointedness-as-of-reference-of-thought; and so as a veridical and contiguous deterministic-and-operant psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, that knows no discretion!

There are ‘traditionally 4 human mental projections/representations/dispositions’ associated with virtuous paradigmatic construct, analysed from the perspective of an ontological-veridicality establishing ontological-primemovers-totalitative-framework:

(i) The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation (understanding) which is effectively ontologically operant.

(ii) The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation which has poor operance due to bad conviction, though prelogism-as-of-conviction nonetheless.

(iv) An impression-driven/good-naturedness/wishfulness conceptualisation involving perversion-of-reference-of-thought or slantedness operance from an ontological-primemovers-totalitative-framework perspective; which generates (distractive-alignment-to-reference-of-thought) perversion-of-reference-of-thought/mental-perversion or slantedness along reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-

intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the-Good conceptualisation; pointing to the fact that impression-driven/good-naturedness/wishfulness conceptualisations are rather inclined to induce vices-and-impediments given that the veridicality of reality (reflected by the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation) is all the virtue enabler that there is and other conceptualisations are rather distractions that are in effect vice-ridden and an impediment, and more specifically when these undermine the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation.

Impression-driven/good-naturedness/wishfulness conceptualisation lack veridical ontological-contiguity. One may query what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of each registry-worldview/dimension, and it is rather the emanant insight of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that carries the prospective transcendences which are the resolution of the successive prior registry-worldview's/dimension's uninstitutionalised-threshold vices-and-impediments; and so by successive Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism.  A drag is a vague meaningful articulation arising out of veridical incongruence due to the
 nonreality of initiating narratives or propositions, and subsequent structural/paradigmatic
 contiguity of narratives and propositions thereafter from such initial miscues and/or
 intermittent miscues. For instance, supposed going by the example where a psychopath had
 wrongly accused someone of being a paedophile (not in terms-as-of-axiomatic-construct of
 bad conviction or prelogism but rather non-conviction-or-existential-decontextualised-
 transposition-or-hollow-staging-and-performance-caricaturing-of-
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-
 demented due to the inexistence of the psychopath’s implied—logical-dueness-or-

scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), suppose the interlocutor was to go on to in-conviction relay these distortions with other interlocutors, we will talk of a ‘miscue’, and where other meaning grounded fundamentally on this miscue were to develop, we talk of ‘logical-drag’, further where comprehensive generation of social meaningfulness were to arise out of this, we talk of ‘unconscionability-drag’, and finally sub-par/formulaic-association/temporal/alibi conventioning-rationalising refers to the temporal mental-disposition to use conventioning thinking as alibi for temporal-motivated dispositions (over the inherent sense of ontological meaningfulness). Actually, strands-of-perverting-temporal-dispositions are the characteristic backdrop mental-devising-representations of superseded/transcended registry-worldviews/dimensions when we think from an ontological perspective of the soundness-or-authenticity-of-reference-of-thought projection/representation that captures the meaningful framework of a registry-worldview teleology whether regarding a society at its ununiversalisation whether as recurrent-utter-uninstitutionalisation, ununiversalisation, and medieval/non-positivistic, and prospectively, we can garner such strands-of-perverting-temporal-dispositions with respect to procrypticism from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation.

Human mental development across time validate the notion that we have consistently been in a state of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure as we institutionally skew/deferential-formalisation-transference towards intemporal-preservation-entropy-or-contiguity—or—ontological-preservation with a better grasp of reality and ontological-primemovers-totalitative-framework. Memetic-reordering (psychoanalytic-unshackling) inducing institutionalised skewing (‘intemporality-asymmetric-subsumption-of-

temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/differential-formalisation-transference towards intemporal-disposition involves: articulating a social universal-transparency of perversion-of-reference-of-thought defect; positive-opportunism as common interests to institutionally skew/differential-formalisation-transference towards intemporality; disambiguating temporal-dispositions as the backdrop for new anticipatory and preempting reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; and, intemporal projection superseding of transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic for cross-generational collapsing/overriding of temporal/dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatric-drag registry-worldview/dimension (and not instant 'argumentation convincing' intradimensionally in a registry-worldview/dimension that is defective or perversion-of-reference-of-thought in the first place), and so in transversality-of-disambiguated-apriorising/axiomatising/referencing of temporal-dispositions and the intemporal-disposition; as temporal emanant registries are inclined to aside and syncretise rather than transcend or core/take-stock of the implied perversion-of-reference-of-thought/mental-perversion at uninstitutionalised-threshold. Memetic-reordering (psychoanalytic-unshackling) is actually the institutionalisation/intemporalisation process at uninstitutionalised-threshold requiring epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity projection to overcome temporal-dispositions (to supersede epistemic-totalising—self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase), and so in a pedestalled disambiguation of ontologically veridical intemporal-disposition pedestal, slanting/postlogism in hollow-constituting—as-disjointed-

misappropriation-of-meaningfulness-and-failing-intemporal-preservation as subknowledging impulse by psychopath pedestal and slantedness/postlogical-integration as perversion-of-reference-of-thought by the temporal-dispositions pedestals. Memetic-reordering (psychoanalytic-unshackling) is thus the central notion of a new and comprehensive human psychology wherein the human psyche is more of a ‘mental devising tool’ involving candoring/prelogism/organic-comprehension-thinking and decandoring/distractive-alignment-to-reference-of-thought /mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. The former (candoring/prelogism/organic-comprehension-thinking) mental orientation points to conviction or prelogism within any registry-worldview/dimension at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation basically focussed on operating/processing logic over supposedly sound reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation while the latter (decandoring/distractive-alignment-to-reference-of-thought /mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation mental orientation points to transcending situations of uninstitutionalised-threshold whereby perversion-of-reference-of-thought/mental-perversions occur, due to the emanant reality of human temporal-to-intemporal nature, (and are relayed onto the social construct) and operates by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) perversion-of-reference-of-thought/mental-perversions to establish unsoundness-or-inauthenticity-of-reference-of-thought and as this conjugates temporally with ignorance—affordability—opportunism—exacerbation—social-chainism/negative-social-aggregation—temporal enculturation/endemisation, and the need for new and superseding reference-of-thought—categorical-imperatives/axioms/registry-

teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation.

These fundamental human mental-devising-representation or apriorising-registry tools of candoring and decandoring points to the very nature of logic. Logic requires that all interlocutors share a same reference-of-thought with regards to reference-of-thought-categorical-imperatives/axioms/registry-teleology/registry-teleology for its sound operation, thus logic can only be operated at institutionalised/intemporalised thresholds, and not as of uninstitutionalised-thresholds where there is divergence in reference-of-thought construed meaningfulness-and-teleology construed as transversality-of-disambiguated-apriorising/axiomatising/referencing. At uninstitutionalised-threshold, given the veridicality of human emanance as temporal-to-intemporal, logic is ridiculous because of the variance and unshared reference-of-thought-categorical-imperatives/axioms/registry-teleology/registry-teleology in terms-as-of-axiomatic-construct of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology with respect to argumentation, ‘socially-perceived-value as of social-stake-contention-or-confliction’. At which point no articulation is inherently more right, however, the intemporal-disposition being ontological has ontological-primemovers-totalitative-framework veridicality and carries a positive-opportunism that can allow it to dominate human temporal-dispositions reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) their registries/mental-representations perversion, and so, through social institutionalisation/intemporalisation percolation channels in the medium to long-run. It is only after such uninstitutionalised-threshold is superseded/dominated/preceded/overridden/abjected by the intemporal-disposition as an ordered construct institutionalisation/intemporalisation with corresponding human secondnaturating as internalisation and formalisation that logic becomes pertinent as it now operates only on one axiomatic-construct/categorical-imperatives/registry-teleology that

establishes the substantive/existential-contextualising-contiguity (not formulaic-projection/mimicry) and veracity/ontological-pertinence of interlocutors' articulations.

Thus the basis for Rational-Realism which is the first institutionalisation/intemporalisation recomposure that goes beyond just articulating reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation by anticipating and preempting the perversion-of-reference-of-thought of a prior/superseded registry-worldview's reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; as rational-realism take stock of the fundamental reality across all institutional-cumulations/institutional-recomposures of human temporal-to-intemporal-dispositions and doesn't just assume the wrong notion of just an intemporal-disposition with the perversion-of-reference-of-thought result that temporal-dispositions induced manifestations are not accounted for, anticipated and preempted beforehand/as-of-a-priori to prevent their perversion-of-reference-of-thought of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation at their uninstitutionalised-threshold thus ensuring ontological contiguity. So with rational-realism the institutional-cumulation/institutional-recomposure intemporal-preservation-entropy-or-contiguity–or–ontological-preservation comes around as the 'full-cycle/dynamic recomposing' that specifically anticipates and preempt priorly/ahead in its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation the notion of temporal-dispositions to dement/subknowledge-(dementing-as-if-of-sound-knowledge)/mimick-and-syncretise (rather than subsequently as a transcendence). This raises two dilemma with respect to the conceptualisation of virtue [as rational-realism implies that at the

procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation, we have to register/acknowledge priorly our inclination to subknowledge-(dementing-as-if-of-sound-knowledge) positivistic registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology to paradoxically then be able to anticipate and stifle this in the active construction of deprocryptic meaning, at which point the ontological-veridicality of meaning then involves not only logical operation/processing/contention on the basis of a sole intemporal-disposition, but equally registries-disambiguation to account for perversion-of-reference-of-thought/mental-perversion/dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by temporal-dispositions]:

(i) epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside (as being in denial of perversion-of-reference-of-thought defect) arises where a registry-worldview returns to its same reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that have been shown to be subknowledge-(dementing-as-if-of-sound-knowledge)/perversion-of-reference-of-thought/mental-perversion at the uninstitutionalised-threshold, and hence remains candored/integratively-aligned; contrasted with the instance of the adoption of a new registry-worldview's (superseding the uninstitutionalised-threshold) reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in anticipation and preemption of the afore perversion-of-reference-of-thought registry-worldview. This latter instance involves Stranding-dialectics or Coring (in reflection/perspectivation and acknowledgment of perversion-of-reference-of-thought) with corresponding decandoring/distractive-alignment-to-reference-of-thought and is what enables memetic-reordering/psychoanalytic-unshackling whereas epistemic-

totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside at best induces ‘memetic-inching/psychoanalytic-realigning’ which are not of an immediate transcending nature.

(ii) Conventioning metaphoricity involving in a continuum on one side ontologising rationalising though ontological-veridicality is not the sufficient reason for the social acceptance of rightness for rightness sake (as explained previously) and on the other side intemporality/ontology distractive sub-par/formulaic-association/temporal/alibi conventioning-rationalising.

‘Rational-Realism as of Deprocrpticism or institutionalisation/intemporalisation full-cycle’ can thus be construed as a contiguous cumulation of successive memetic-reordering (as institutional recomposuring) for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; with such successiveness due to the limitation of human mentation-capacity to be able to mimetically (across suprastructural-meaningfulnes) come full-cycle in one transcendence, explaining the recomposuring of the successive institutional-cumulations/institutional-recomposures; from recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism, positivis—procrpticism, and recomposuring full-cycle towards prospective rational-realism as of deprocrpticism.

Correspondingly, due to human limited-mentation-capacity-(as of relative constitutedness towards relative conflation), human memetic/psychoanalytic grasp-and-fulfilment of intemporal-preservation (in devising reference-of-thought—categorical-imperatives/axioms/registry-teleology) is limited at successive instances of transcendence/institutionalisation, due to:

(i) the reality of human dispositions not being just of intemporal-disposition but rather temporal-to-intemporal-dispositions (with temporal-dispositions a drawback/distractive to

intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at
 uninstitutionalised-threshold; since these induced in any given institutionalisation a ‘least-
 and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-
 incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-
 threshold’ as of temporality/shortness thus raising the issue of the uninstitutionalised-
 threshold ultimately resolved by ‘maximal-as-intemporal-operating-modality-of-reference-of-
 thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-
 inducing-the-prospective-institutionalisation’ as of intemporality, and so on, circularly with
 the ontological-contiguity—of-the-human-institutionalisation-process.)

(ii) limited memetic-reordering/psychoanalytic-unshackling mentation-capacity (in
 devising reference-of-thought—categorical-imperatives/axioms/registry-teleology) for the
 intemporal-disposition as it skews (‘intemporality-asymmetric-subsumption-of-temporality’,
 for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)
 towards institutionalisation/intemporalisation

(iii) temporal-dispositions for perversion-of-reference-of-thought at
 uninstitutionalised-threshold (non-conviction-or-existential-decontextualised-transposition-
 or-hollow-staging-and-performance-caricaturing—of-
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-
 demented/slanting/miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-

 dispositions of the prelogism-as-of-conviction act defects of
 ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
 negative-social-aggregation/temporal-enculturation-or-temporal-endemisation)

Hence intemporal-preservation is a memetically/psychoanalytically evasive construct at uninstitutionalised-threshold, the pursuit of which is veridically the human species eudaemonic contemplation, construed as ‘postconvergence memetic recomposuring’; recomposure is defined as ‘ontological-representation/ontological-memetism of intrinsic-meaningfulness [whether implying, on the one hand, an integrative/candor/organic-comprehension-thinking alignment or on the other hand, a distractive/decandored/mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/protracted-non-conviction alignment] towards intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ (as validated by veridicality/ontological-primemovers-totalitative-framework). This definition explains the succession of the recomposuring of institutionalisations with the notion that where intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is lost at a registry-worldview’s/dimension’s uninstitutionalised-threshold, a prospective registry-worldview/dimension is implied/recomposed that will ensure intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and undermines notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>/epistemic-totalising—self-referencing-syncretising/setting-aside by appropriate stranding/coring representation (-of-perverting-temporal-dispositions) as the backdrop for the prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology. That is, ‘human progress/transcendence happens as a matter of fact, with no registry-worldview/dimension having any ontological and veridical claim/pretence to extricate itself from psychoanalytic-unshackling/memetic-reordering/institutional-recomposure—as-dialectical-stranding-backdrop-for-prospective-transcendence once it is shown that it subknowledges-or-mimics (as perversion-of-reference-

of-thought) its reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at its uninstitutionalised-threshold, even though this from the temporal-dispositions mindset/reference-of-thought is always an unpalatable proposition. But then the state of being in a transcended registry-worldview/dimension (as in our present positivist registry-worldview/dimension) arises because other prior registry-worldviews/dimensions successively underwent their own psychoanalytic-unshackling/memetic-reordering/institutional-recomposure—as-dialectical-stranding-backdrop-for-prospective-transcendence for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, at their uninstitutionalised-threshold; and so, going back to the recurrent-utter-institutionalised early men who left the caves and trees, thus any denial of prospective transcendence as articulated above is an argument which incoherence emanantly imply ‘we should go back to the caves and trees’, as we’ll seem to validate that prior registry-worldviews/dimensions should never had transcended up to our very own registry-worldview/dimension, and beyond, prospectively.

Stranding (-of-pervverting-temporal-dispositions-of-reference-of-thought) should be construed at a registry-worldview’s/dimension’s uninstitutionalised/solipsistic threshold (the threshold where the registry-worldview/dimension is failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation), as the ‘base structural/paradigmatic decandored/distractive-alignment-to-reference-of-thought perversion-of-reference-of-thought defect reflex’ (not a straightness/candor/organic-comprehension-thinking/prelogism reflex), and stranding-dialectics rather points to ‘a (lack of) the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework reflection/perspectivation’ (hence a veridical ontological-primemovers-totalitative-framework as operant and deterministic, and

not an impression-driven/good-naturedness/wishfulness nor a veridically logically-
 disjointed/discretionary reflection/perspectivation). Stranding is thus articulated as non-

There is no reason for stranding-dialectics and recomposuring but for the fact that the internal coherence of a registry-worldview/dimension is failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity-or-ontological-preservation at its uninstitutionalised-threshold, as it provides the dynamic association for psychopathic/postlogical subknowledging/mimicking impulse leading to the vices-and-impediments of the registry-worldview/dimension from an intemporal/ontological perspective; and ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity-or-ontological-preservation veridicality (as ontological-primemovers-totalitative-framework) is the drive that resolves lack of human mentation-capacity for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation (at uninstitutionalised-threshold) by stranding-backdrop-for-transcendence and then recomposuring prospective registry-worldview's/dimension's institutionalisation reference-of-thought-categorical-imperatives/axioms/registry-teleology. The example highlighted on page 12 provides an excellent 'logical insight' on stranding-backdrop-for-transcendence and recomposuring of a registry-worldview/dimension that is failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity-or-ontological-preservation at its uninstitutionalised-threshold ...

[To grasp this better say for instance the normal arithmetic we know $2+2=4$, $5+1=6$, $7-3=4$, etc. was to be undermine by a new human subknowledging caused by a disease wherein we tend to say $2+2=5$, $5+1=7$ and $7-3=3$, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will

involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-of-disambiguated-apriorising/axiomatising/referencing ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘mental and institutionalisation inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation). Hence a false subknowledging/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders reference-of-thought–categorical-imperatives/axioms/registry-teleology null and void, calling for overcoming the slantedness/decantering/distractive-alignment-to-reference-of-thought of mental-devising-representation as to its unsoundness-or-inauthenticity-of-reference-of-thought arising from the perversions-and-derived-perversions-of-reference-of-thought, and the articulation of new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology reflecting the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as intrinsic reality.]

In practical terms, human/social VIRTUE is effectively articulated at ‘the crossroad of the notions’ of intemporal-disposition, ontologising/intemporal philosophical deference, conventioning, animality (the recurrent temporal-dispositions to subknowledge-(dementing-as-if-of-sound-knowledge) intemporal reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation across successive institutionalisations) and institutional recomposuring (prospective memetic-reordering).

It is important to note that an ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’, i.e. newton articulates the science of mechanics metaphorically from ‘an initial apple that hits his head why under a tree’ not because the science of mechanics will revolve around an apple that hit his head but because he’ll grasp the insight to understand the myriad and infinity of instances requiring those laws of physics. So the intemporal-as-ontological pedestal (in its treatment) involves universal projection to grasp universal principles and is not meant to ‘equivocate and idle’ with perversion-of-reference-of-thought temporal manifestations which are dialectically-or-contendingly-out-of-phase, but rather then apply the knowledge principles so articulated to the theoretically infinite incidental instances (on the validation and untenability/internal-contradiction/internal-incoherence/institutional-constraining or internal-contradictions induced by the knowledge principles ontological-primemovers-totalitative-framework).

Of course, no registry-worldview/dimension thinks of itself as prospectively dialectically-primitive/dialectically-or-contendingly-out-of-phase, and as such its ‘supposed contention’ will always by reflex strive to arrive at an equilibrium in the same registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, but the template of human transcendence shows that the intemporal prospective/superseding registry-worldview reference-of-thought takes precedence with contention construed by its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by the ontological-normalcy/postconvergence prioritisation of

the relatively intemporal/universal/intrinsic, hence, ‘the inherent cumulating/recomposuring of intemporal-preservation-entropy’ going from recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivis–procrypticism, and prospectively deprocrypticism. Such a subknowledging/mimicking/registry-worldview denaturing resistance is not attended to logically/by-logical-congruence since a perversion-of-reference-of-thought as-of-its-unsoundness-or-inauthenticity-of-reference-of-thought/subknowledging registry-worldview/dimension is circular and syncretic in its logic (as it circularly makes reference to its defective/perverted reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or–ontological-preservation) but by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure through the untenability/internal-contradiction/internal-incoherence/institutional-constraining induced by the ontological-primemovers-totalitative-framework of the prospective intemporal-disposition-worldview/dimension (with its more appropriate recomposed reference-of-thought–categorical-imperatives/axioms/registry-teleology/registry-teleology); involving rather a cross-generational collapsing/overriding of the temporal/dialectical-dementing—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension (and not instant ‘argumentation convincing’ intradimensionally in a registry-worldview/dimension that is defective as of perversion-of-reference-of-thought in the first place), and so with transversality-of-disambiguated-apriorising/axiomatising/referencing of temporal-dispositions and the intemporal-disposition, as temporal emanant registries are inclined to aside and syncretise rather than transcend or core/take-stock of the implied perversion-of-reference-of-thought registry-worldview-perversion. For instance, men did not transcend from a medieval worldview to a positivistic worldview by a ‘logical exercise’ (the logical conceptualisation we have of such a

transformation in today's positive world is rather in effect an afterthought appraisal) but because the grander grasp on reality of positivism constrained and made the medieval registry-worldview untenable/internally-contradictory (the ships that set sail around the world for spices elicit a positive commercial opportunism that is responsible for destroying the social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not coerced the destruction of a superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, coerces the need to adopt a scientific worldview, etc.). It is naïve to think that such progression occurred because of cross-sectional human 'epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity disposition'. Rather it is a secondnatured/ontological-contiguity—of-the-human-institutionalisation-process as this notion inherently validates the anthropological-continuity by distinguishing between the notion of same human natural ability across the various registry-worldviews/dimensions and the notion more and more profound institutionalised registry-worldviews/dimensions arising out of human institutional-cumulation/institutional-recomposure to the capacity bestowed by their forerunners; such that human limited-mentation-capacity is always mostly directed to the transformative of activities while taking for granted much of the bestowed knowledge heritage. Hence we can't overrate the 'epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity disposition' development of the cross-section/averageness/banality of solipsistic human thought to wrongly imply human epistemic-growth/transvaluative-rationalising/anamnestic-residuality/transepistemicity disposition is inherently intemporal, for the possibilities of human progress (due to the veridicality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor at the uninstitutionalised-threshold across all levels of

institutional-cumulation/institutional-recomposure – ‘a lost cause’ which will never be changed with the result that temporal-dispositions will always dement (perversion-of-reference-of-thought inducing as structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect/unsoundness-or-inauthenticity-of-reference-of-thought/mental-perversion/subknowledging/mimicking-and-corresponding-epistemic-totalising-self-referencing-syncretising) at uninstitutionalised-threshold (unconstrained extended informalities). But this can rather be anticipated and preempted, ‘the central tenet of deprocrypticism’ by temporal-to-intemporal-dispositions-pedestals-disambiguation before logical processing/operation. Temporal-to-intemporal-dispositions-pedestals-disambiguation being the contrasting of ‘superseding intemporal-disposition organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology)-pedestal-aetiologisation-or-ontological-escalation ordered construct’ known as deprocrypticism over-and-stranding-of ‘temporal-dispositions which are in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as perversion-of-reference-of-thought’ known as procrypticism or emanant-wrong/demented-shades-of-the-real, as the backdrop for ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; in the same way as the stranding-of-temporal-dispositions-dementing of non-positivism/medievalism provided the backdrop for positivism recomposing or that of ununiversalisation for universalisation recomposure or that of recurrent-utter-uninstitutionalisation for base-institutionalisation recomposure. It

should be noted that at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, temporal-dispositions potential inclination for dementing is suppressed by formalism and internalisation involving intemporal meaningfulness social universal-transparency, internal-contradiction, registering/stranding as sound or unsound, and alienating of unsound meaningfulness to stifle any such mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. At uninstitutionalised-threshold (extended informalities), no formalism and internalisation (generated by the intemporal-disposition for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) exists in preemption leading potentially to dementing. Basically, such a representation of organicalism and mechanicalism can be storied or narrated as follows:

Supposed going by the case highlighted where a psychopath met a stranger talking about another stranger as molesting children; the so accused stranger was actually a guardian of the child assuming various responsibilities that come with it (this represents the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) depth of meaning), the psychopath fully aware of this none the less proffered such hollow mimicking narratives to the other stranger who aligned in-conviction/prelogically/prelogically to the psychopath but is veridically now in effect non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented/postlogical by ignorance, and goes on to miscue by articulating that the accused stranger should be reported to the police or any other relevant organisation, and possibly does that. Further still, this miscuing comes to develop into disjointed-logic, logical-drag,

unconscionability-drag, temporal-dispositions preservation, and sub-par/formulaic-association/temporal/alibi conventioning-rationalising wherein ‘a comprehensive depth of perverted narratives’ has now been cultivated in the social environment. All such denaturing (and as are conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing to human temporal defects of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’) are a perversion-of-reference-of-thought-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation to the organic veridicality (deprocrypticism). In the bigger scheme of things, denaturing of apriorising—registry (as the apriorising—registry is the axiomatic-construct/categorical-imperatives on which logic operates/is processed pointing to a coherently systematic failure of logic at the uninstitutionalised-threshold; consider that the non-positivism/medievalism apriorising—registry will coherently fail logical operation/processing/contention with regards to its uninstitutionalised-threshold requiring positivism, that’s the same emanant issue with procrypticism at its uninstitutionalised-threshold requiring deprocrypticism) do not simply point to an act defect but a structural/paradigmatic denaturing construed as being/ontological/existential-defect or the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and-accordance defect or intradimensional-defect about-and-defining the vices-and-impediments of the said registry-worldview/dimension, that abstractly apply with regards in this case not to one instance of human psychopathy and one case of

social context of protracted social psychopathy but points to a registry-worldview/dimension defect that points abstractly to metaphorically-a-million-and-one-instances-and- locales/aetiologisation/ontological-escalation/an-ontological-or-existential-defect of such psychopathic and protracted social psychopathy, in the same vain as the phenomena of witchcraft in a non-positivist/medieval society ‘for an ontological/intemporal projecting mind’ is more than just a case of witchcraft in a given non-positivism/medievalism locale but goes beyond to define a dimensional defect of non-positivism/medievalism across all human societies that are qualified as non-positivism/medievalism with the idea that the ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation’ in the bigger scheme of things is more than just a locale but a universal articulation of positivistic thinking as the universal resolution of the vices-and-impediments associated with a witchcraft and superstition endemising/enculturating worldview. It should be noted that however ‘good-natured an individual’ in that worldview the basic knowledge defect of that worldview as non-empirical/superstitious defines the disposition of any such individual, as they adhere to the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of that registry-worldview/dimension, to commit vices-and-impediments associated with non-positivism/medievalism, since virtue actually lies in the- Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ of being empirical/non-superstitious/positivistic. That’s equally the problem you have with procrypticism or perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of a positivistic registry-worldview as the virtue lies in the the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ as involving psychopathic demented postlogism in hollow-constituting—as-disjointed-misappropriation-of-

meaningfulness-and-failing-intemporal-preservation, and its corollary as social psychopathy involving conjugating/inflecting/deriving demented postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation by the temporal-dispositions of ignorance, unconsciously, and consciously, affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation; slanting/dementing of positivistic registry-worldview/dimension reference-of-thought—categorical-imperatives/axioms/registry-teleology. That is, the ontological-primemovers-totalitative-framework is the perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought/dementing/subknowledging/mimicking—and—epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. In which case contention (being about intemporal-preservation-entropy-or-contiguity—or—ontological-preservation beyond just the dementing/mimicking-or-subknowledging of ‘previously recomposured/invented’ reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) becomes rather an intemporal-disposition reflection/perspectivation and ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation’ of such psychopathic/temporal-dispositions slantedness/dementing/mimicking-or-subknowledging as perversion-of-reference-of-thought/mental-perversion, and not logical-contention/contending-articulation. Such perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought in effect involves on the part of psychopathic and conscious conjugated-postlogism minds as with exacerbation-temporal-disposition ‘vice in demented perversions’ wherein the mimicry/subknowledging enters into an active dynamics with temporal-

dispositions prelogism-as-of-conviction, which elevate such non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented perversion-of-reference-of-thoughts/mental-perversions by prelogism-as-of-conviction (which is actually in effect mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as miscues to psychopathic/postlogism-slantedness, and subsequent protraction into disjointed-logic, logical-drag, unconscionability-drag, temporal-dispositions preservation and sub-par/formulaic-association/temporal/alibi conventioning-rationalising); such that this development is actually an instrumentalisation of the initial directed-dementing. Directed-dementing as such being a conscious and operant mental awareness of psychopathic/postlogical minds of the void of their narratives and teleology but understanding and acting by instrumentalisation on the basis that prelogical/conviction minds are disposed to elevate the hollow mimicking narratives (by ignorance and/or subsequently affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to wrongly validate the apriorising—registry as veridical thus falsely implying an implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology.

Just as we work with the reality that all humans are disposed to have cancer and the virtue of curing is not denying but anticipating and preempting the possibility of having cancer with medicines, lifestyle, research, etc., i.e. ‘ontology is about working with what is/knowledge-driven, and not wishful-thinking/impression-driven’ to accede to intrinsic-reality transcendental-enabling/sublimating as it enables ontological-primemovers-totalitative-framework. It is bluntly speaking an institutionalisation/intemporalisation exercise

involving the skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-formalisation-transference towards the intemporal-disposition for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, to 'pedestally dominate and override' temporal-dispositions in the cross-section/averageness/banality of solipsistic human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. Reality is actually an ontological-primemovers-totalitative-framework construct. Mythologies, metaphysics and hearsays while proto-conceptual in human development are out of kilter, and the use of ontological-primemovers-totalitative-framework conceptualisation is the central notion of ontologies. Insightfully, human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor speak of 'the-real-nature-of-man' that can be skewed with institutional recomposuring/memetic-reordering/psychoanalytic-unshackling towards intemporal-preservation-entropy-or-contiguity—or—ontological-preservation to explain how-man-can-be/the-nature-of-man at any registry-worldview level, retrospectively or prospectively. Whereas, man, if naively perceived as a whole rather only from the angle of a specific 'institutionalisation/secondnaturing level' which is in 'existential immediacy' this may seem to indicate that we are talking about 'different species' with 'different ontological determinants', which is naïve and false. The anthropopsychological approach to psychology is analogical to the development of physics which is not only on the basis of what is immediately at the conscious operational level of physicists but equally projecting into a physics conceptualisation of the macrocosm (astronomy and cosmology) as well as the microcosm (particle physics) in order to place the subject on a comprehensively sound

footing. Central to such a sound footing in the ontological-normalcy/postconvergence conceptualisation of the social domain is the idea of temporal-to-intemporal-dispositions and institutional-cumulation/institutional-recomposure.

On another note, it is critical to distinguish between a true philosophical development that arises by intemporal and an institutionalised development that is articulated to elicit ‘positive-opportunism’ in humans, so that the intellectual exercise doesn’t naively project a philosophical idealism where this doesn’t exist and by so doing undermine its work by naively projecting universal intemporality/longness and failing/not-upholding-as-of-apriorising/axiomatising/referencing to articulate a realism that takes account of temporal mental-dispositions (knowledge notionalisation, i.e. apprehending not only intemporal implications of any knowledge construct, but preempting by transversality-of-disambiguated-apriorising/axiomatising/referencing to potential temporal undermining of that intemporal idealism construct; the reason we institutionalise/intemporalise and formalise with subsequent internalisation/secondnaturing).

It should be noted that the use of the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad. intemporality/longness points to ‘what generates the greatest universal virtue as ontological which is universally-centered’ (and that this corresponds to reality-referencing and the ontology pedestal) while temporality/shortness points to ‘what generates the non-ontological as shallow interest that may be self-centered, at various pedestals, (and that this corresponds to epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and metaphysical pedestals)’. intemporality/longness and temporality/shortness as such are operant knowledge concepts while good and bad are vague and non-operant impression

concepts. In fact, why good and bad are impression-driven, intemporality/longness and temporality/shortness by their very definition above are made operant as an ontological-primemovers-totalitative-framework scientific principle (without making any reference to stigmatising impression of virtue) by the denotation as longness-of-register-of-meaningfulness-and-teleology (intemporality) and shortness-of-register-of-meaningfulness-and-teleology (temporality). That is, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' (at uninstitutionalised-threshold) the intemporal mind conceptually asks what is the best disposition in universal-depth that abstractly delivers the greatest good to all humans in similar 'socially-perceived-value as of social-stake-contention-or-confliction' setup across space and time; while temporal minds under the same notion (intemporality-temporality) conceptually assume lower and lower shades 'in mentation-capacity terms' of such an intemporal universal-depth concept articulation stressing in lieu of 'all humans' various shades of ununiversal, particular or temporal-self-interest dispositions. So there is a depth of continuity in ontological-primemovers-totalitative-framework in the notion of intemporality-temporality that doesn't need any impression-drive, and this notion can certainly be made scientifically operant as it is a contiguous mentation-capacity-based notion in terms-as-of-axiomatic-construct of low to high mentation-capacity. The idea of shortness-of-register-of-meaningfulness-and-teleology and longness-of-register-of-meaningfulness-and-teleology as such is devoid of stigmatisation which is the result of articulating meaning with respect to vague impression-driven temporal references harkening back to the prior/transcended/superseded reference-of-thought rather than the prospective/transcending/superseding reference-of-thought; since shortness-of-register-of-meaningfulness-and-teleology and longness-of-register-of-meaningfulness-and-teleology are a contiguous value construct as in epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-'protensive-consciousness'-

 thought-devolving-as-of-instantiative-context conceptualisation with a corresponding
 depth/register-of-meaningfulness (in memetic reordering depth) that allows for a grasp of the-
 Good intemporal-disposition (i.e., beyond just an intradimensional 'good-natured'
 conceptualisation) of intemporal-preservation-entropy-or-contiguity-or-ontological-
 preservation, with the memetic-reordering directly associated with the referential entropy in
 institutional-cumulation/institutional-recomposure/transcendence. Thus by
 intemporality/longness as a the-Good conceptualisation as 'longness-of-register-of-
 meaningfulness-over-shortness-of-register-of-meaningfulness-and-teleology', that specificity
 (as pursued in this paper) that informs ontological understanding of not idling and articulating
 meaningfulness in equivalence of temporality/shortness in its various shades, but rather with
 intemporal purpose and intent, and an ultimate quest for validation only as an ontological-
 primemovers-totalitative-framework conceptualisation will be qualified as 'longness-of-
 thought'; and it strives to achieve a prospective structural/paradigmatic existential registry-
 worldview/dimension conceptualisation of transcendence wherein
 aetiologisation/ontological-escalation for prospective transcendental intemporal virtue is the

underlying drive. The non-implication of an equivalence between ('intemporal-prioritisation-of-reference-of-thought'-as-conflatedness pedestalling) with temporality/shortness in its various shades will imply a knowledge conceptualisation rather from the perspective of the comprehension of human species intemporal potential rather than mere extrication within a temporal inter-individuals-and-social-stake-contention-or-confliction context, wherein for instance the focus of a positivistic-inclined mindset/reference-of-thought is not to idly engage a medieval world in medieval terms to stigmatise as a final end but rather for the virtuous human species potentiality to transcend into positivism, and on the other hand equally not to shy away from articulating, however temporally unpalatable and unintelligible-or-existentially-suprastructural for the temporal present registry-worldview/dimension, an intemporal transcendental prospection on the validation that the present registry-worldview/dimension is the outcome of a same-kind intemporal transcendental prospection with a same-kind corresponding emanance unpalatability and unintelligibility for the preceding registry-worldview/dimension, be it in that case driven by a spontaneous and natural dialectical cycle of social constraints of stakes and confliction, in contrast now to a more 'consciously directed' abstract understanding regarding deprocrypticism-over-procrypticism (with intellectual responsibility itself being defined as the spirit for authentically upholding such construing/conceptualisation and/or facilitating it as enabling further self-development together with the furthering of social/specie development).

The use of 'human mental-dispositions/individuations' as temporal-to-intemporal doesn't mean ontologically that the analyst view is that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal. But rather, it is an abstract construction of human temporal-to-intemporal mental-dispositions/individuation potential possibilities that can incidentally arise

in any individual by a circumstance or circumstances across time and space; but with a strong propensity of specific dispositions being nurtured in varying profundity across different individuals as per context. This abstract and fleeting notion is known as ‘individuation’ (more like an abstract and superseding ‘hermeneutic-aetiology’ of temporal-to-intemporal dispositions, and hence the possibility of ontological-primemovers-totalitative-framework or scientism), and is the more scientific notion over ‘individual’ (which is just the receptacle of individuations).

By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness’ whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals (ignorance-temporal-disposition individuation-pedestal, affordability-temporal-disposition individuation-pedestal, opportunism-temporal-disposition individuation-pedestal, exacerbation-temporal-disposition individuation-pedestal, social-chainism/social-discomfiture/negative-social-aggregation-temporal-disposition individuation-pedestal or temporal-enculturation/temporal-endemisation-temporal-disposition individuation-pedestal). The intemporal and temporal-dispositions-registries individuations-pedestals imply and point to the underlying ontological-primemovers-totalitative-framework basis of ‘the specific temporal-disposition meaningfulness-and-teleology. Further, by psychopathic or other postlogical subknowledging/mimicking-and-mimicking-protraction, the ‘temporal-dispositions individuations-pedestals’ wrongly conjugate/inflect/derive their apriorising—registry-elements (implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) from aligning prelogically to postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation thus effectively being postlogical, and this can thus be predicated as per the ‘specific temporal-disposition’. Such postlogical

temporal-dispositions individuations-pedestals are conjugated/inflected/derived/mimicked-protraction-to-psychopath's impulsive-dementation (as derived from both psychopathic and others postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation slantedness/insane-fitment/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness-dispositions) in epistemic-decadence (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'). While the prelogical/conviction 'ontologically-reconstituting' intemporal-disposition-teleology is rather the ontologising individuation-pedestal as it strives perpetually to define-and-redefine categorical-imperatives (by its ontologically-veridical associated registry-teleology-mentation elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) for 'intemporal/ontological preservation entropy/contiguity' as it perpetuates institutionalisation/intemporalisation/longness-of-register-of-meaningfulness-over-shortness-of-register-of-meaningfulness-and-teleology despite the natural reflex at every registry-worldview/dimension, whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, to temporally arrive at entropy on the basis of temporal-dispositions

for recurrent lawlessness to imply a sense of institutionalised living with mutual expectations. Another.

‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition to be ontological as these conjugate/inflect/derive (in mimicking-protraction) with the psychopath’s impulsive-dementation insane-fitment/slantedness/mere-possibility narratives which are dialectically-or-contendingly-out-of-phase/hollow-mimicking) inducing temporal-dispositions epistemic-decadence (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-contiguity-as-absolving/fleeting/escaping-reflex-logic or-hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex-of-the-in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-which-is-not-of-ontological-reference/not-of-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing/not-of-veridical-thinking-reference-but-rather-dementing-reference/perversion-of-reference-of-thought-and-not-of-logical-contention) as these are wrongly aligned prelogically/by-prelogism to the initiated postlogism. And so, in distractive-alignment-to-reference-of-thought in a temporal contiguity (procrypticism) allowing for the conceptualisation of the registry-worldview's/dimension's as dialectically-out-of-phasing (dialectically-primitive) over which new recomposuring reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is construed to reflect/preempt the perversion-of-reference-of-thought, for 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposeure of the prospective registry-worldview's/dimension's(deprocrypticism) new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation while keeping the temporal-dispositions downgraded/oblongated/decandored/in-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/protracted-non-conviction, and so precedingly to avoid epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag/circularity by their straightening/candoring/elevation/prelogism.

Given that at 'uninstitutionalised-threshold' human learned behaviour is primarily geared towards what is 'perceived as succeeding', whether intemporal (the-Good as longness-of-register-of-meaningfulness-and-teleology) or temporal (shortness-of-register-of-meaningfulness-and-teleology); it is this mental-devising-representation as the
