NFDI4
BIOIMAGE

Find out more about Information Infrastructure for BioImage Data (I3D:bio) here: i3dbio.de.

If you want to receive assistance from I3D:bio, you can get in contact with us via our Help Desk: gerbi-gmb.de/i3dbio/i3dbio-help-contact.

Videos explaining the bioimage data management tool OMERO and the use of tags, key-value pairs, ontologies, and the usage of analysis tools with OMERO can be found on YouTube. Just search for [I3D:bio's OMERO Training Videos](#).

Looking for more information about OMERO, OME-TIFF, OME-Zarr and the people behind it? Find them here: openmicroscopy.org.

You know scientists who are looking for a bioimage data repository to publish their bioimage data? Then you could point them to BioImage Archive  (BIA, ebi.ac.uk/bioimage-archive) and Image Data Resource  (IDR, idr.openmicroscopy.org). If you need further assistance, do not hesitate to contact NFDI4BIOIMAGE's Help Desk!

When dealing with bioimage metadata, remember to check out Recommended Metadata for Biological Images (REMBI). Get to the full publication and tabular metadata guide here:

Find out more about the Research Data Management for Microscopy and BioImage Analysis (NFDI4BIOIMAGE) consortium here: nfdi4bioimage.de.

NFDI4BIOIMAGE offers assistance with bioimage data management along the whole bioimage lifecycle. You can reach out to our NFDI4BIOIMAGE Data Stewards for help via our Help Desk: nfdi4bioimage.de/help-desk or via e-mail: helpdesk@nfdi4bioimage.de.

The NFDI4BIOIMAGE Coordination Office is headed by Inga Mohr and Christian Schmidt. You want to get in contact? Just drop them an e-mail at: office@nfdi4bioimage.de.

Check out our NFDI4BIOIMAGE community on Zenodo! We regularly post workshop material, talk slides, posters or papers. You can find us by searching for **NFDI4BIOIMAGE** in the community section.

Want to know more about  Nationale Forschungsdaten Infrastruktur in general? Visit nfdi.de for more information about all 26 NFDI consortia and the goals of NFDI.

doi.org/10.1038/s41592-021-01166-8.

You would like to watch some videos in addition? Search for **RDMbites Bioimage Metadata REMBI** on YouTube for insights into the metadata guide.
