

WELCOME

MACHINE LEARNING TECHNICAL SHORT COURSE

WHEN

May 12-14, 2025

WHERE

Seattle, WA

Develop AI-aided earthquake catalogs through 3 key steps: event detection, association, and location

Day 1

Building and training a UNet

Quick view of CNN

Kernel: 1, 0, -1

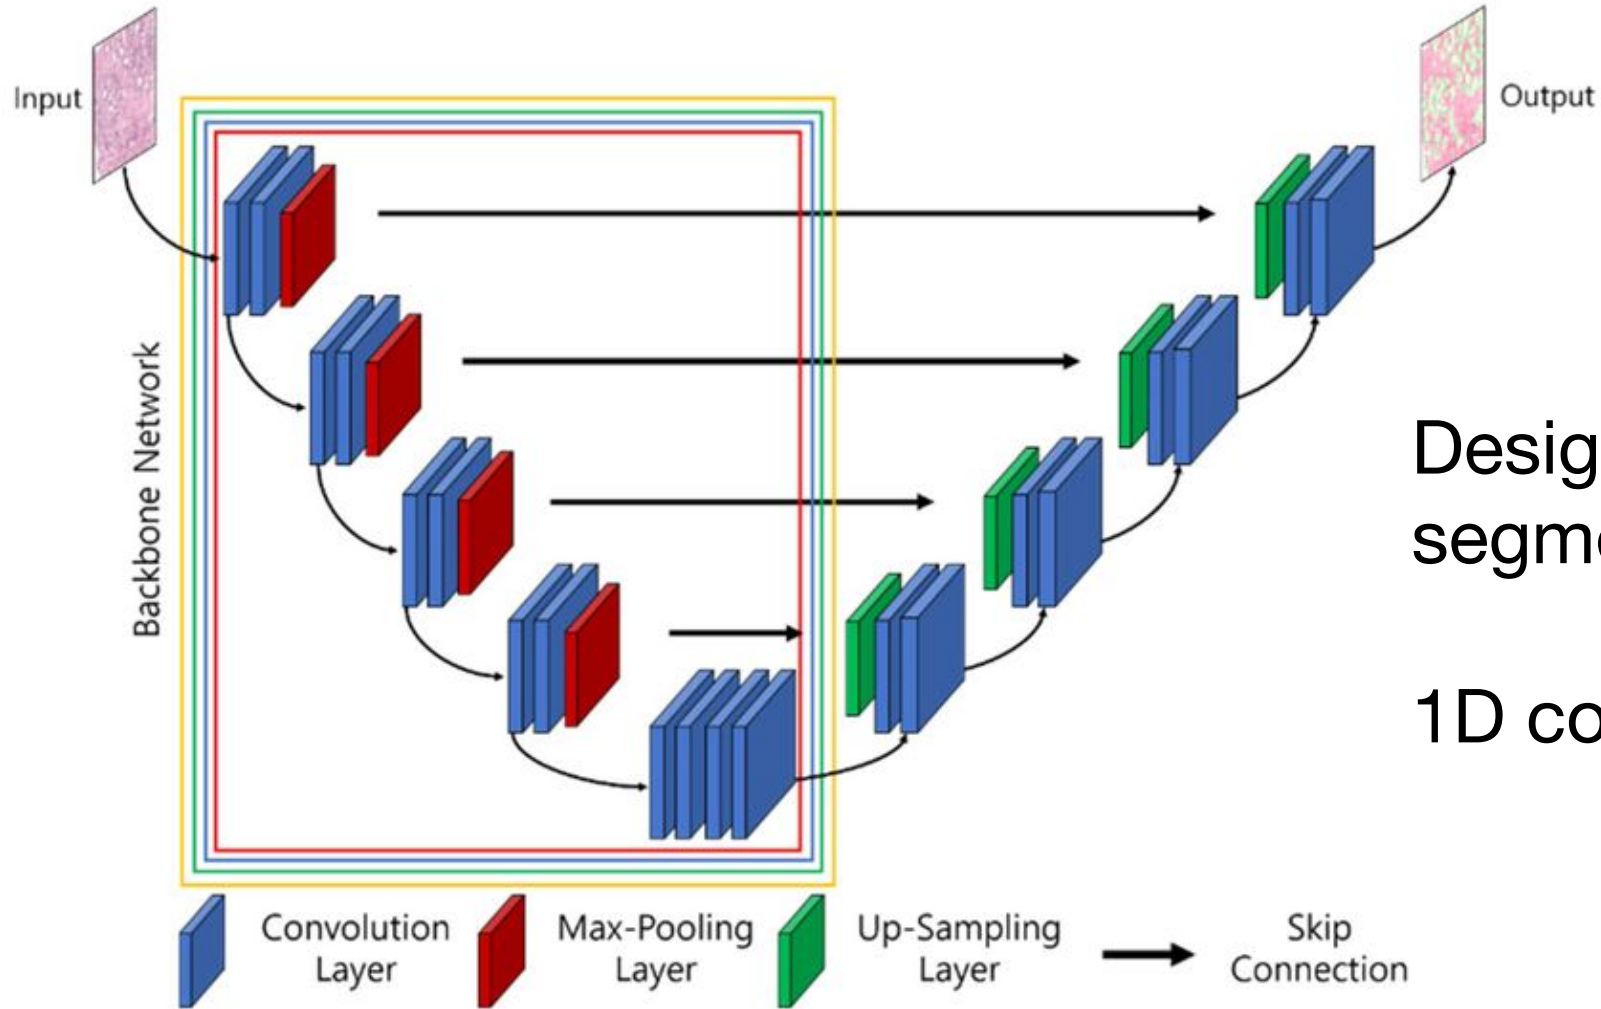

$\text{ReLU}(x) = \max(0, x)$

Autoencoder

UNet

Designed for image
segmentation with 2D conv
1D conv → 1D segmentation
