

Requirements Engineering Method Goal (MG) 8: Achieving effective communication on GDPR compliance implementation

Goals	Subgoals	Questions	Criteria/Metrics
MG8: Achieving effective communication on GDPR compliance implementation	MG8.1: facilitating cross-functional communication	Q8.1.1: Can non-technical specialists communicate about technical implementation of GDPR?	M8.1.1.1: explainability of design decisions
		Q8.1.2: Can technical specialists communicate about what is legally required?	M8.1.2.1: explainability of legal documentation
		Q8.1.3: Can roles communicate about GDPR-to-system mapping?	M8.1.3.1: use of GDPR-to-system mapping
		Q8.1.4: How easy is it to review documentation for compliance?	M8.1.4.1: usability
	MG8.2: achieving interaction and communication between the roles	Q8.2.1: Can roles jointly interpret GDPR?	M8.2.1.1: number of GDPR-to-system traces identified jointly
		Q8.2.2: Are all the roles involved and informed when required?	M8.2.2.1: number of notifications
	MG8.3: translating between legal, technical and business requirements	Q8.3.1: Does communication include all the concerns?	M8.3.1.1: every stakeholder signed off
		Q8.3.2: Can different concerns be addressed simultaneously?	M8.3.2.1: traceability between all the concerns involved
	MG8.4: communication in common language	Q8.4.1: Is there one single interpretation of GDPR for all roles?	M8.4.1.1: availability of compliance documentation
		Q8.4.2: Is interpretation useful for every role involved?	M8.4.2.1: usability of compliance documentation
