Providence, R. I.

Dear Sir:-

Mrs. Britton is in Cuba at present and your letter regarding Polytrichum has been turned over to me. The specimens in our set under no. 563 are evidently all P. formosum, as determined by Dr. Frye, so it would evidently be a good thing if possible to get some specimens from Kindberg of his variety P. canadense. The enclosed scraps fairly represent all ~~so~~ the so called P. Swartzii in our collection.

Yours truly,
