There was some fun

And some serious stuff

Moving at speed

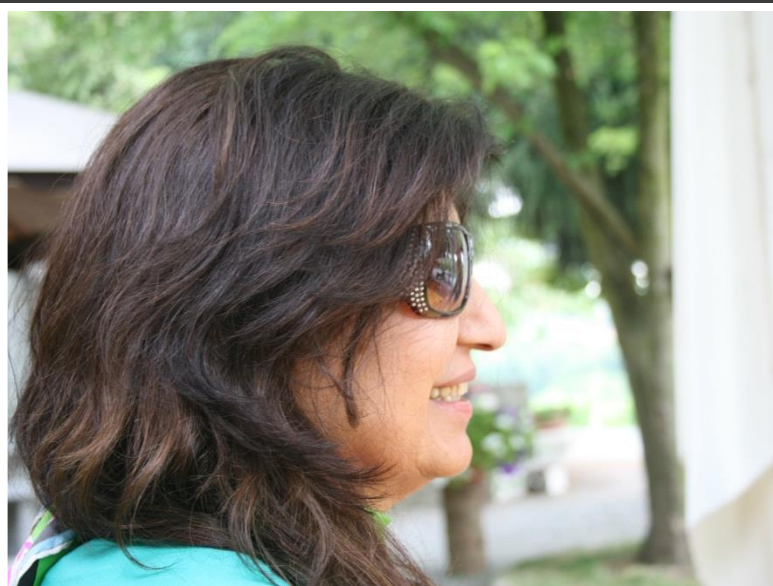

Coming down slowly

Paying close attention

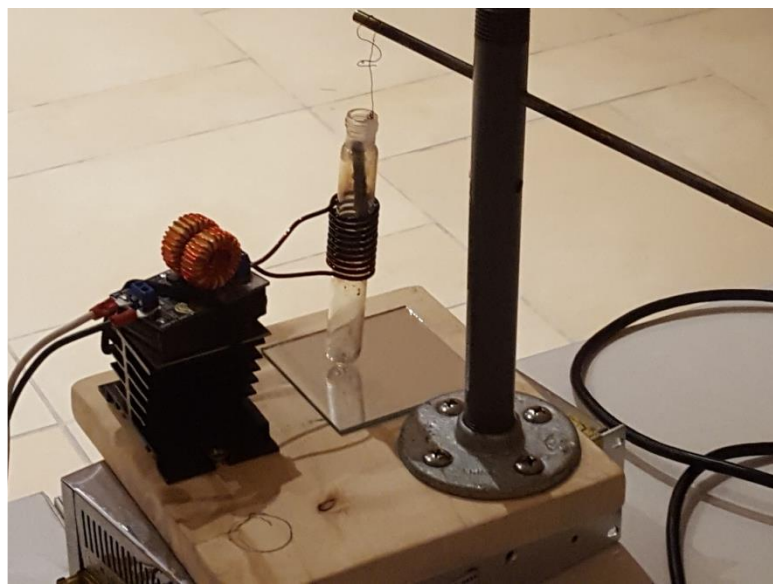

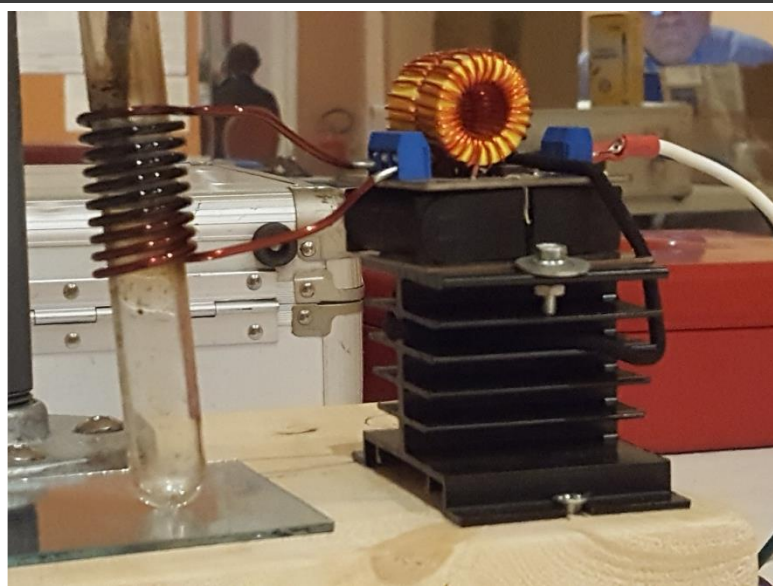

David, Finlay, and Dewey (below)

Friends and family

Serious people.

Technical (Alain Samoun)

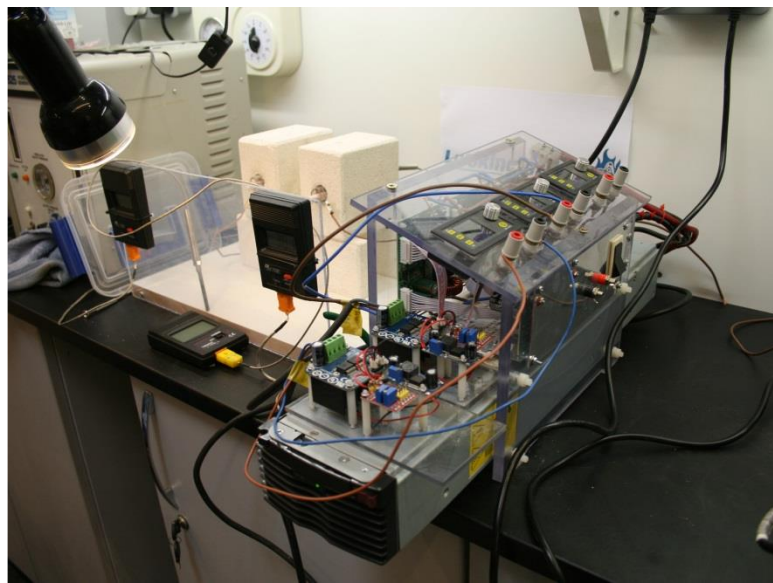

Wine Testing.

Sam and the Contessa, Mike McKubre & co

Takahasi's party & Greenyer and Egely

Spotlight on science

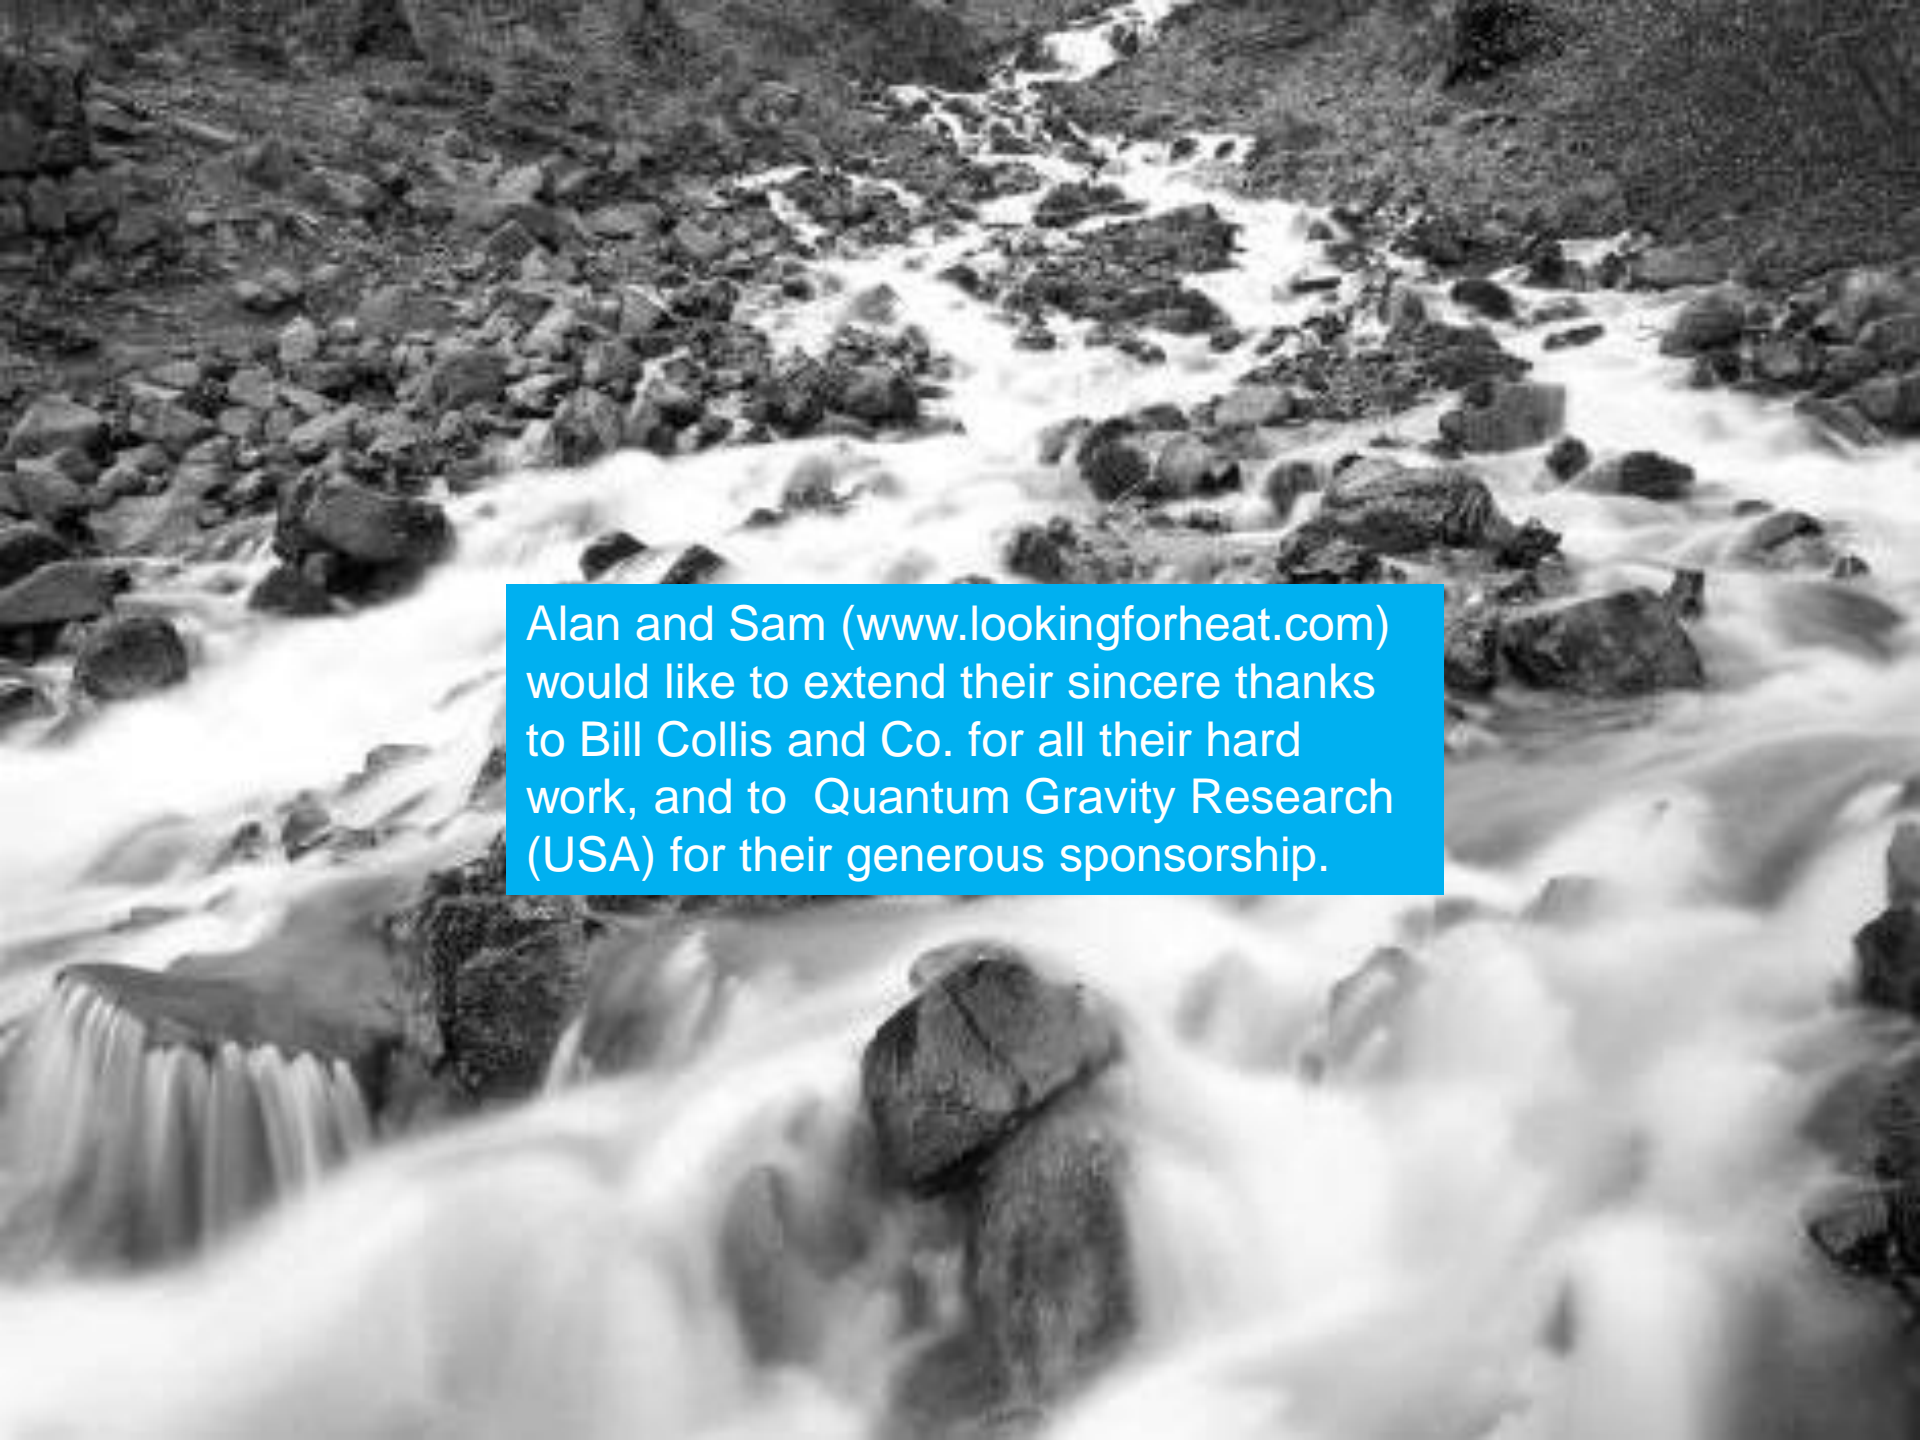

One hat, two brains.

Secrets being discussed

Jokes being told

A black and white photograph of a rocky stream with a small waterfall. The water is flowing over dark, jagged rocks, creating white foam and spray. The background shows more rocks and a forested hillside.

Alan and Sam (www.lookingforheat.com) would like to extend their sincere thanks to Bill Collis and Co. for all their hard work, and to Quantum Gravity Research (USA) for their generous sponsorship.
