Akan segera dimulai...

Selamat Pagi

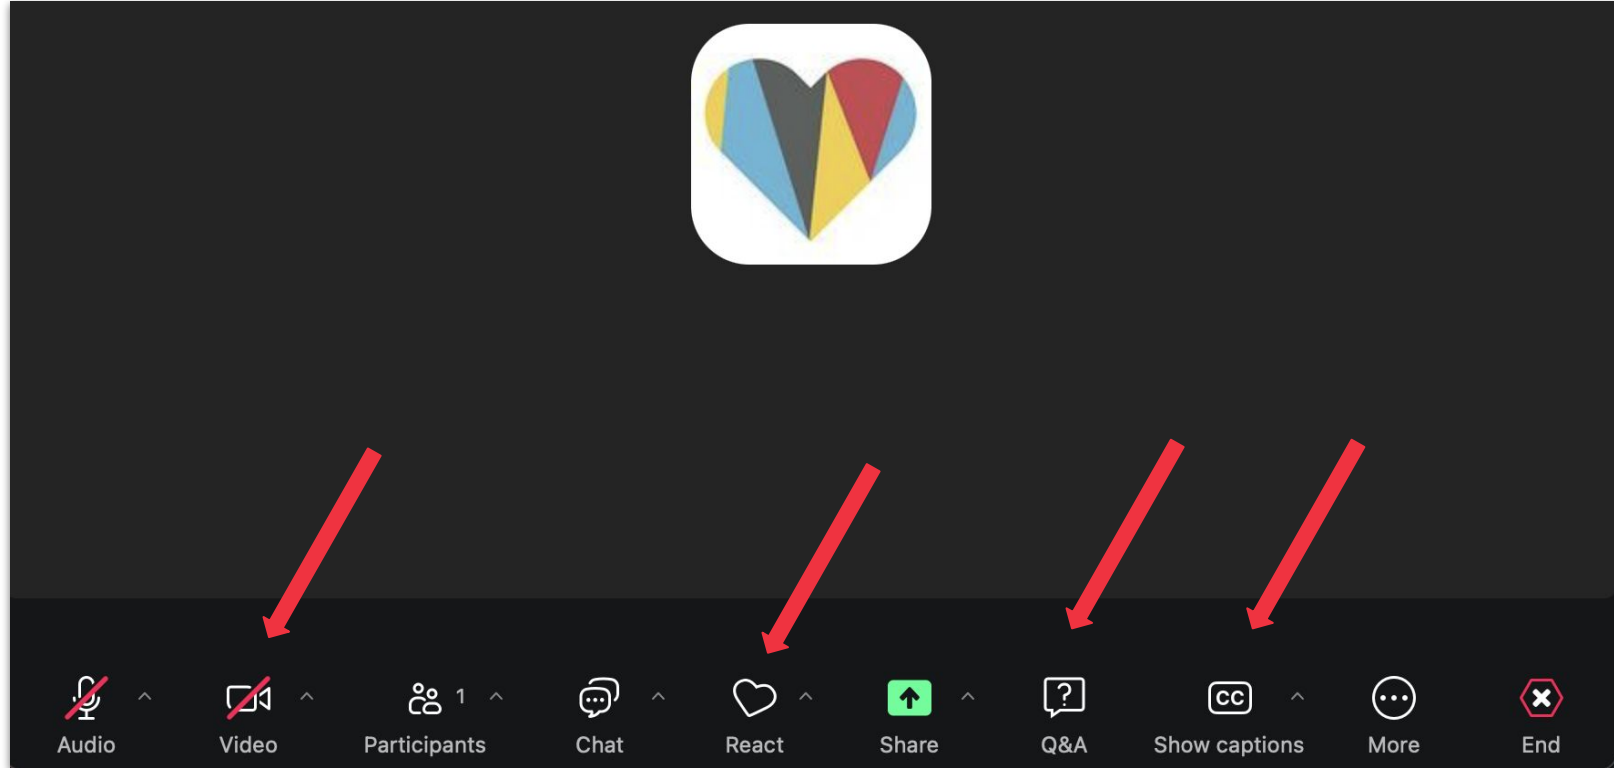

- Silahkan perkenalan di chat dengan menyebutkan Nama + asal kota + Nama Organisasi + Metode registrasi DOIs

Agenda

- Mengingatkan mengenai pentingnya Metadata
- Demonstrasi penggunaan *Participation Reports tool Crossref*
- Pengecekan Participation Reports masing-masing peserta
- Cara meningkatkan kelengkapan Metadata untuk jurnal artikel dengan menggunakan New Record Registration form
- Metadata klinik - sesi tanya dan jawab

Apa kewajiban sebagai Anggota Crossref?

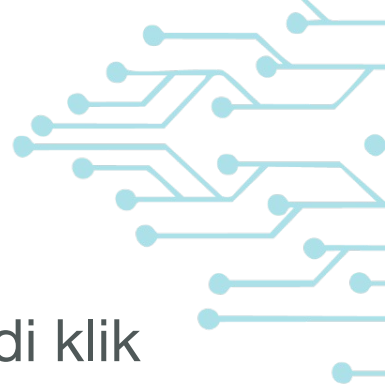

- Melakukan registrasi DOIs yang unik untuk setiap item publikasinya
- Memberikan metadata yang kaya dan akurat
- Menayangkan DOI nya pada unique landing page nya untuk setiap item yang dipublikasikan
- Menjaga data metadata untuk selalu terkini/mutakhir

Apa itu metadata?

- **Basic:** titles, dates, author names, abstracts, DOI, location URL
- **Full-text URLs:** e.g. for text-mining and Similarity Check
- **Crossmark:** updates, retractions, corrections
- **Relationships:** versions, translations, data, references, citation
- **Provenance:** publisher/funder/steward information
- **Subject-specific:** e.g. clinical trial info
- **Funding information:** Funder Registry ID, award numbers/Grant DOIs
- **Contributor & Affiliations:** ORCID iDs and ROR IDs preferred

Mendaftarkan DOIs

- Pastikan registrasi berhasil, link DOIs nya dapat di klik dan muncul ke artikel yang dituju
- Perhatikan terhadap unregistered DOI

This DOI cannot be found in the DOI System. Possible reasons are:

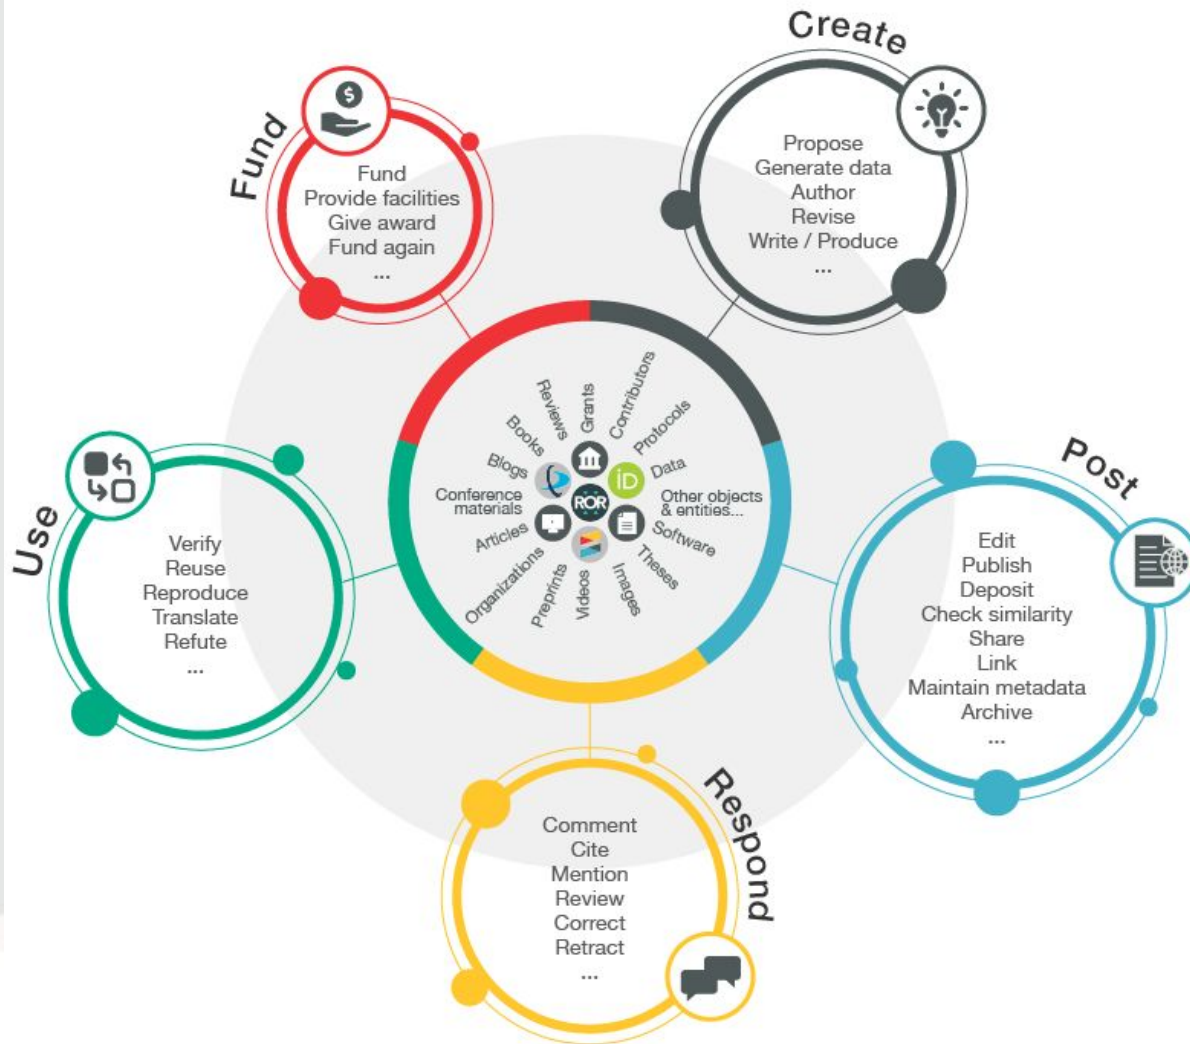

- The DOI is incorrect in your source. Search for the item by name, title, or other metadata using a search engine.
- The DOI was copied incorrectly. Check to see that the string includes all the characters before and after the slash and no sentence punctuation marks.
- The DOI has not been activated yet. Please try again later, and report the problem if the error continues.

Metode Registrasi Konten

Cara update DOI pada konten yang sudah dipublikasi

Memperbarui catatan DOI satu per satu

- Jika Anda menggunakan OJS Plugin: buka artikel yang relevan, batalkan publikasi, tambahkan elemen yang hilang, simpan, dan publikasikan ulang.
- Jika Anda menggunakan New Record Registration form: *re-deposit the whole record with the missing element.*
- Jika Anda mengirimkan XML kepada kami: kirimkan catatan XML Anda dengan elemen yang hilang. Jangan lupa untuk memperbarui timestamp Anda.

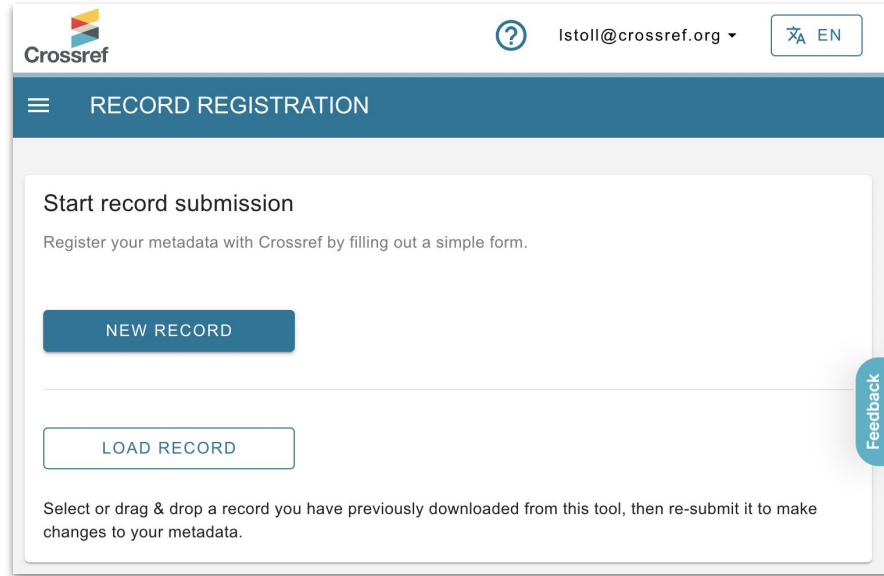

New Record Registration form

Kelebihan New Record Registration form dibandingkan Web Deposit Form:

- Kemampuan untuk registrasi referensi
- Kemampuan untuk registrasi metadata afiliasi (termasuk ID ROR)
- Validasi input untuk mencegah kesalahan pengiriman
- Pengalaman pengguna yang lebih sederhana

Catatan: pastikan jurnal Anda memiliki ISSN apabila mau menggunakan New Record Registration form

New Record Registration form

The screenshot shows the Crossref Record Registration interface. At the top, there is a header bar with the Crossref logo on the left, a user profile section in the center showing a question mark icon, the email 'lstoll@crossref.org', and a language dropdown set to 'EN'. Below the header is a dark blue navigation bar with a hamburger menu icon and the text 'RECORD REGISTRATION'. The main content area is white and contains the heading 'Start record submission' followed by the instruction 'Register your metadata with Crossref by filling out a simple form.' There are two buttons: a dark blue 'NEW RECORD' button and a white 'LOAD RECORD' button with a blue border. At the bottom, there is a note: 'Select or drag & drop a record you have previously downloaded from this tool, then re-submit it to make changes to your metadata.' A vertical 'Feedback' button is located on the right side of the main content area.

- Silahkan klik web ini <https://manage.crossref.org/records> dan log in
- Klik “New record”, kemudian pilih “Journal article”
