

INSTITUTE OF EDUCATION
LONDON UNIVERSITY

15th July 1984

Dear Sirs,

This is just to inform you that I would like to do some THEORETICAL research at your Institute during the academic year 1984/1985 concerning:

" The Higher Mental Functions in the Field of Mathematics."

My government will cover all my financial expenses. I have already done a similar research at the Department of PSYCHOLOGY, UNIVERSITY of SHEFFIELD 1974.

I am a member of the BRITISH PSYCHOLOGICAL SOCIETY and the NATIONAL ASSOCIATION FOR GIFTED CHILDREN.

I am now EMERITUS PROFESSOR, BAGHDAD UNIVERSITY.

You might be interested to know that I had previously met the outstanding EDUCATOR Sir PERRY NUNN and his Education:

" Its Data and First Principles."

I hope I shall receive a positive answer.

Thank you in anticipation.

Dr. NOURI JAFFAR

BAGHDAD UNIVERSITY
