**Abstract**

This annual report summarizes efforts of Computer Systems R&D Start-up YERITH$_{r\&d}$ on its Enterprise Resource Planing (ERP) software product YERITH−ERP−9.0 in this year 2023.

YERITH−ERP−9.0 was invented in October 2015 in Yaoundé, Center region of Cameroon: it is an integrated Enterprise Resource Planing software for small, medium, and large entrepreneurial organizations. An entrepreneurial organization is here recognized as either a non governmental organization (N.G.O), a governmental agency, or a commercial society.

"***Financial expense management***" and "***Human resource management***" software modules sections were improved and incorporated respectively this year. Also, several improvements on financial accounting reporting were made.

A new software product: YERITH_QVGE (https://zenodo.org/records/10070127) , was created as YERITH−ERP−9.0's runtime monitoring analysis verification module. YERITH_QVGE can run as a stand−alone product, or as a system service for YERITH−ERP−9.0 ***on the Debian Linux operating system platform***.

YERITH_QVGE (https://www.github.com/yerithd/yri-db-runtime-verif) is a state-of-the-art ***program analysis generator*** that compares with bleeding edge technology software products used at The NASA (https://www.nasa.gov), such as "LogScope" [Hav22] and "DejaVu" [HPU18] by Dr. KLAUS HAVELUND (https://www.havelund.com).

Other comparable bleeding edge technology libraries and / or tools include "libfsmtest" (https://bitbucket.org/JanPeleska/libfsmtest/src/master) by Prof. Dr. rer. nat. habil. JAN PELESKA (https://www.informatik.uni-bremen.de/agbs/jp); "EventRaceCommander" [AMK+17] and "Purify" [HJ91] at IBM (https://research.ibm.com/labs/watson); and "Valkyrie / Valgrind" (https://valgrind.org).

YERITH_QVGE's (https://zenodo.org/records/10070127) drawing tool is priced at 2, 500 EUROS.

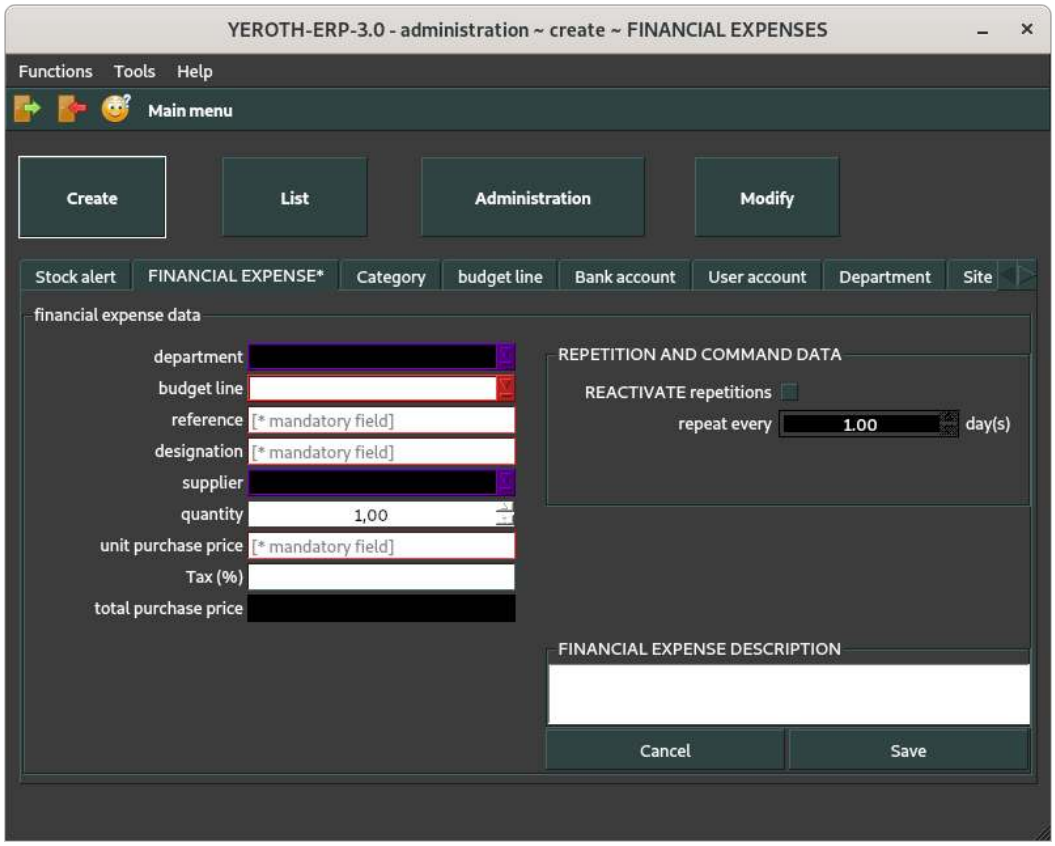
# Chapter 1

# INTRODUCTION

This chapter explains what is the Enterprise Resource Planing (ERP) software YERITH–ERP–9.0; what kind of entrepreneurial organization could make use of it; And what will be the development perspectives for the coming years.

## 1.1 YERITH–ERP–9.0: An Efficient And Simple To Use Enterprise Resource Planing Software

Figure 1.1: Financial Expense Creation Window in Administration Section



### 1.1.1 Motivation

YERITH–ERP–9.0 [Nou23f, Nou23b, Nou23c] is an **Enterprise Resource Planing (ERP)** software system that aims 'effectiveness' and 'simplicity', compared to other high ranked ERP software systems (e.g.: SAP Business One, 'Sage Gescom i7', '`Odoo Erp`', etc.).

YERITH–ERP–9.0 is implemented by me with THE USER INTERFACE LIBRARY QT [Ltd22]. Our goal when designing and implementing this ERP software system is more folds:

1) Render enterprise resource planing (erp) software system usage and manipulation as easy as reading a leisure or recreational book so to reduce user strain size.

2) Contribute to reduce poverty by improving software system technology for enterprise resource planing (erp):
   1. Best and accurate technology SHALL REDUCE management effort and produce more reliable and cost–minimized business financial accounting information that enables to anticipate and reduce time of decision making.
   2. Best and accurate technology reduces time execution of commercial business transactions, and thus, associated costs.
   3. So entrepreneurial commercial organizations could reduce a selling price without reducing its profit.

YERITH$_{r\&d}$ would be grateful for governments that are not able to provide sufficient funds for commercial versions of YERITH–ERP–9.0, to ask me for free of charge commercial versions.

### 1.1.2 Uses Of YERITH–ERP–9.0

An ERP (Enterprise Resource Planing) software is a program, and / or software system that enables its users to:

1. **Classify, Save, Search, Sort**, inventory stock article, commercial services, and assets in an electronic directorate;
2. **Sell – Check-out – Transfer – ETC.**, inventory stock article, commercial services, and assets from their electronic directorate;
3. **Create alert based on timing periods, inventory stock articles, commercial services, and / or assets quantities, etc**.
4. Save, Search, etc., **Suppliers, Employees, Clients (or Customers), Members, etc.**.
5. In summary, an ERP enables an individual, a group of people (including families), an commercial entrepreneurial organization, etc.: to overview its entrepreneurial management from a COMMERCIAL AND FINANCE viewpoint with the help of informatics (and / or computers).
6. YERITH–ERP–9.0 handles financial budget lines !

### 1.1.3 YERITH–ERP–9.0 Current Software Metrics

Figure 1.3: Represented customer sector till 2023, in percentages (%).

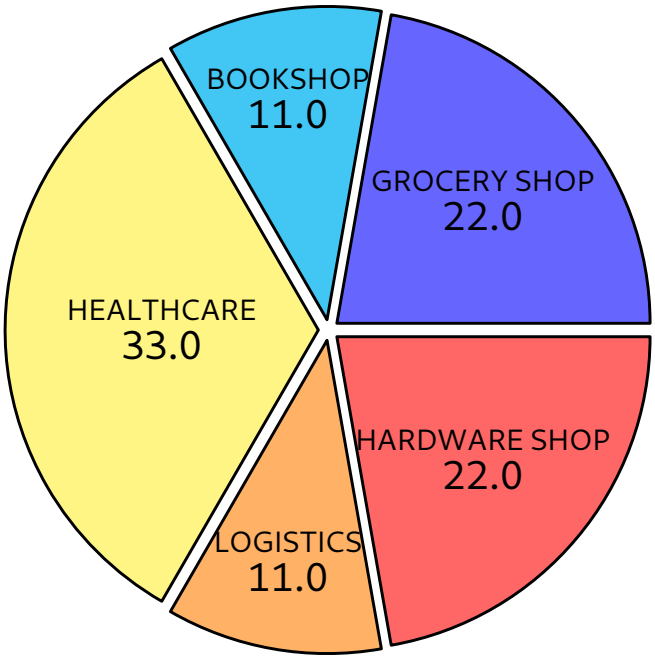

Figure 1.4: Percentage (%) of users per customer sector.

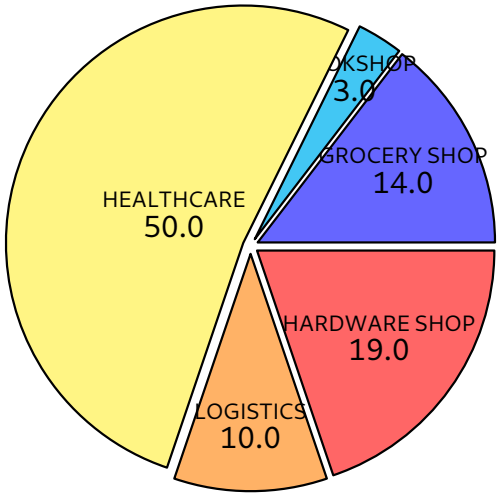

YERITH–ERP–9.0 is aimed at being simpler in usage and manipulation than older top ranked ERP software systems (e.g.: SAP Business One, 'Sage Gescom i7', 'Odoo Erp', etc.). A detailed comparison is to find in paper [Nou23b].

YERITH–ERP–9.0 could be used by any entrepreneurial organization, WHETHER governmental, OR NON GOVERNMENTAL (N.G.O) ! Applications are for instance:

1. engineering offices;
2. insurance companies;
3. JUSTICE ministries services in AFRICA;
4. etc.

## 1.3 Features To Develop for the coming Years

### 1.3.1 ADDENDUM : Laurent–tchandeu for his boss PAUL-biya mvondo

***THIS report is still in finalization in "FEBRUARY 11, 2025" because of BIYA–rdpc-cpdm regime that has destroyed my financial income through my genitor and my ambassador-uncle (LAUrent ntchandeu)*** [1] ***because PAUL biya's regime is trying to again violate cameroon elections to come supposed this year 2025 :***

- ***I have for instance indexed publicly on road that if a political ruling party for more than 60 years couldn't pay his employees for governmental action since Cameroon supposed independence in "1960"; By means of computerized mechanisms; IT IS NOT MANAGING for CAMEROON ELECTION WITH more than at least 4 000 other persons that They (government of BIYA's regime) could managed.***
- ***I directly heard that since JANUARY 2025 they have finally introduced "Aigle" (https://www.scam.prc.cm) as a new computerized payment system for civil government employees.***
- ***ALSO this new year 2025, "Immeuble YERITH" was destroyed of almost all its equipments by RDPC-teuntchou-isaac.***

### 1.3.2 Features – next

From this year onwards, YERITH–ERP–9.0 versions will not be Free and Open Source Software (FOSS).

YERITH$_{r\&d}$ would be grateful for governments that are not able to provide sufficient funds for commercial versions of YERITH–ERP–9.0, to ask me for free of charge commercial versions.

***ESPECIALLY CAMEROON GOVERNMENT that is trying to implement a human resource module for SAP Waldorf since the year 1994 : "~~SIGIPES-2~~"***
***almost 30 years at it (YEAR 2023) !***

1. Execute Information flow policy control by usage of YRI_QVGE to Reduce Over Usage of government financial budget lines .
2. PROVIDE A SAMPLE template, for francophone central Africa states, ***financial accounting plan o.h.a.d.a***.

   This financial accounting plan will enable registered companies and societies, to use YERITH–ERP–9.0 for official tax income declaration.
3. Create a new "Expert Comptable (Chartered Accountant)" application profile user type.
4. Create a module that enables users of YERITH–ERP–9.0 to provide web applications on the World Wide Web (WWW) by just pressing a button.

   Qt WebEngine Widgets C$^{++}$ Classes seem to be what to use to provide this feature to YERITH–ERP–9.0 users.
5. Improve database connection information security of YERITH–ERP–9.0 because of YRI-DB-RUNTIME-VERIF fail state (error accepting state) recovery SQL mechanism feature.

   I.e.: security of information and execution must guarantee that no intruders malware program, or code snippet, executes a malware SQL query statement.

[1] ***"THIS guja says on internet media he is looking for funds with a registered Cameroon NGO : HIS own Doctor nephew doesn't even have any funding because LAURENT harasses him as reported in JUDICIAL information (CV of Xavier NOUNDOU noumbissi attached to this document ! ").***

6. Improve fail state (error accepting state) recovery SQL mechanism of YERITH–ERP–9.0 in non SQL query statements; i.e.; create another efficient `Qt-Dbus` recovery mechanism, in form of a Remote Procedure Call (RPC). Drawback here is the cumbersome configuration mechanism of `Qt-Dbus` interface for RPC.
7. Implement offline dynamic analysis module within YRI-DB-RUNTIME-VERIF: I.e., produce analysis results based on program trace (event log).
8. Design and implement a mechanism to template solutions to class of use cases monitoring analysis verification within YRI-DB-RUNTIME-VERIF.

   I.e: define a mechanism to generate runtime monitors for several database tables column SQL query temporal safety property just using one template model.
9. Design and create a Computer Device integrated with YERITH–ERP–9.0, so to improve information security and robustness of the application.

# REPORT ON CUSTOMER EXPERIENCES AND FINDINGS

This chapter talks about customer experiences that were gained this year 2023. We could successfully have two customers this year.

## 2.1 Associated Computer Devices for YERITH–ERP–9.0

Figure 2.11: NC–300 PCI card

Figure 2.12: NC–300 terminals

We have tried to search for very cheap devices because of the low income of small and medium companies here in Cameroon.

Table 2.1 illustrates sample computer devices and associated hardware for operating YERITH–ERP–9.0.

YERITH–ERP–9.0, in its current level of software development implementation, may not be appropriate at time for very large companies, with more than 100 employees: "Runtime monitoring", as well as "Financial expense management", and "Human resource management" modules software may solve this retard in the coming years.

### 2.1.1 Printing Devices And Counseling

We counsel our customer to use HP printing device solutions because drivers are available for Debian Linux operating system (LOGO: ).

Also, it is advisable to print documents from their PDF format. Customers had for examples issues trying to perform correct printing from "LIBREOFFICE-WRITER", because of a complicated configuration system.

### 2.1.2 Computer Networking Devices

YERITH$_{r\&d}$ now counsels new customers or clients, to use Multi–User Terminal Computer NC–300 (Figure 2.10) for saving on computer hardware costs.

1 set devices of Multi–User Terminal Computer NC–300 enables up to 3 users to share a same desktop computer without the use of a computer network router (illustrated in Figure 2.6).

So their access to a LAN (Local Area Network) or Internet, occurs through the network interface of the shared desktop computer.

## 2.2 Software Ergonomics within YERITH–ERP–9.0

- Each text input field has an associated text inside the field for specifying what to search for, and where in database table column.

- Each icon or menu item is set not to be visible whenever it is not required or needed. For instance, whenever an inventory stock table is empty, icons and menu items for PDF printing (ICON: ) and CSV export (ICON: ) disappear from a user interface.

***MOTO: what is not needed is not visible.*** [1]

- Each window is accessible within 3 window GUI actions.
- Each function within a window GUI is accessible only in:
  - THROUGH A BUTTON just in front of a user on the Window.
  - THROUGH the context menu accessible using a click on the 2nd mice button.
  - THROUGH search for it in the window menu bar items.
- The settings configuration window panel has 2 types of settings:
  - computer local settings (LOCAL PARAMETERS)
  - remote server settings (SERVER PARAMETERS): only business information such as e.g.: VAT (Value Added Taxes), currency, etc.

## 2.3 Employee Training

We found that employee training is best done based on an employee skill set, and should be divided into 6 parts:

1. A visual demonstrating overview of YERITH–ERP–9.0
2. Questions based on knowledge and information acquired during visual demonstration of YERITH–ERP–9.0
3. Explanations about the key business concepts, business ideas, and software ergonomics implemented within YERITH–ERP–9.0
4. Executions of example use cases by employees
5. Questions and answers part conclusion
6. "***PLANING of general computing technology training for employees, based on observed missing knowledge during this training session*** ".

# NEW SOFTWARE FUNCTIONAL FEATURES

This chapter reports about all new ERP software functionalities introduced in this year 2023 in YERITH–ERP–9.0.

## 3.1 English to French And Vice-Versa Online Direct Translation

Users of YERITH–ERP–9.0 could now direct translate, online, without restarting application, translate YERITH–ERP–9.0 content from English into French, and Vice-Versa.

This occurs in the "Help" menu:

- in the main window
- in the administration section main window
- etc.

### 3.1.1 English Section

### 3.1.2 French Section

## 3.2 Financial Expense Management

Figure 3.2: Create a financial expense window.

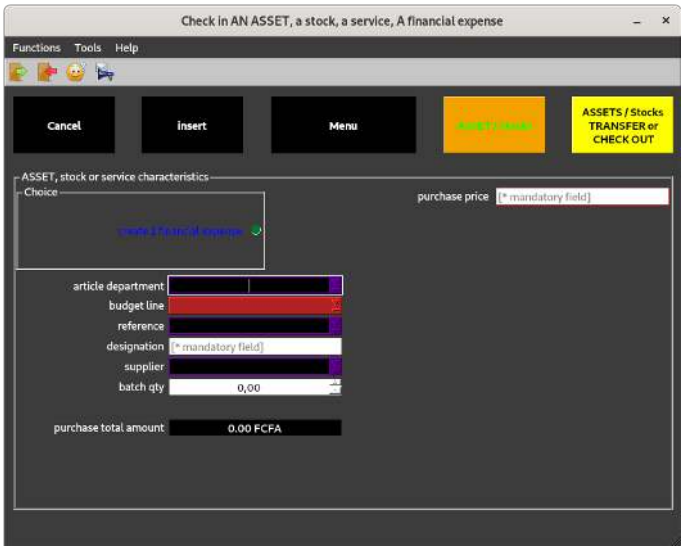

Figure 3.3: View financial expenses window.

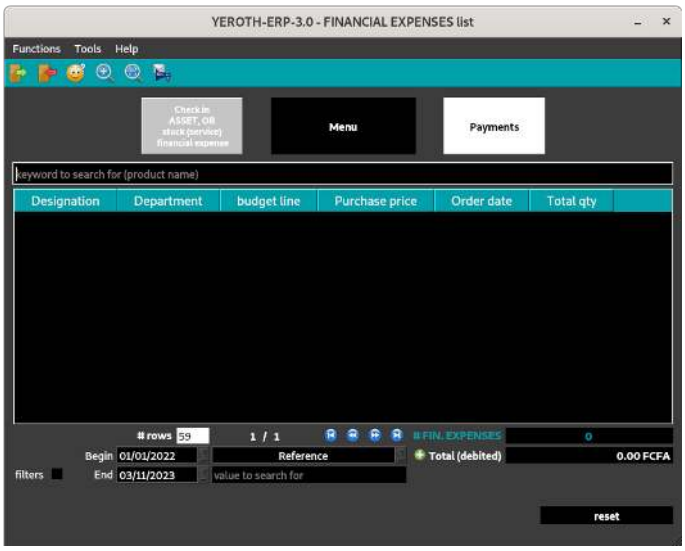

Figure 3.1 reports 2 pictures of the "Financial expense management" module we implemented this year within YERITH–ERP–9.0.

The "Financial expense management" module enables following actions:

1. File of any expense of an entrepreneurial organization; may it be an inventory stock purchase; a company physical asset; a company logical financial asset.

   Each financial expense is reported within a financial budget line, that is linked to a physical bank account, registered only in YERITH–ERP–9.0.

2. Execute a financial expense ordering at a repetitive pre–determined time period frame.

Following new usability has been added to a financial accounting summary analytic report:

1. progress bars for Report PDF printing
2. reporting of budget lines balance sheet

## 3.3 Human Resource Management

Figure 3.8: Employee listing viewing window.

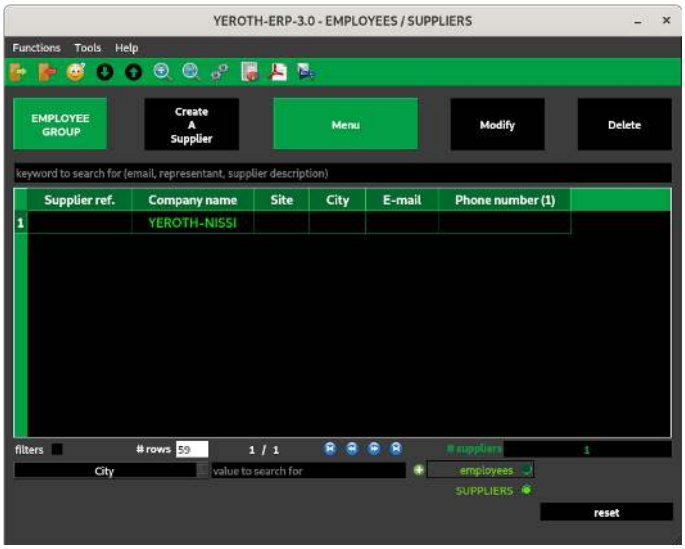

Figure 3.9: An employee belonging groups window.

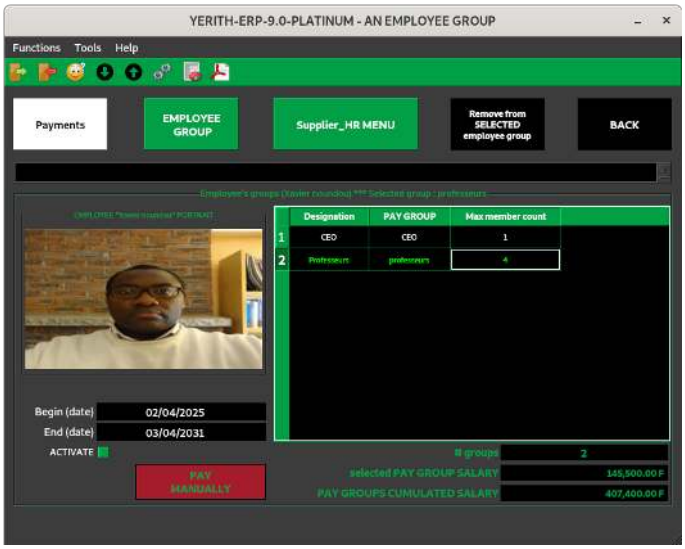

Figure 3.7 reports 2 pictures of the "Human resource management" module we implemented this year within YERITH–ERP–9.0.

YERITH–ERP–9.0 views an employee as a supplier of services. The "Human resource management" module enables following actions:

1. File an employee or a company supplier.
2. Create a pay group; each employee associated to this pay group earns a same amount of money.

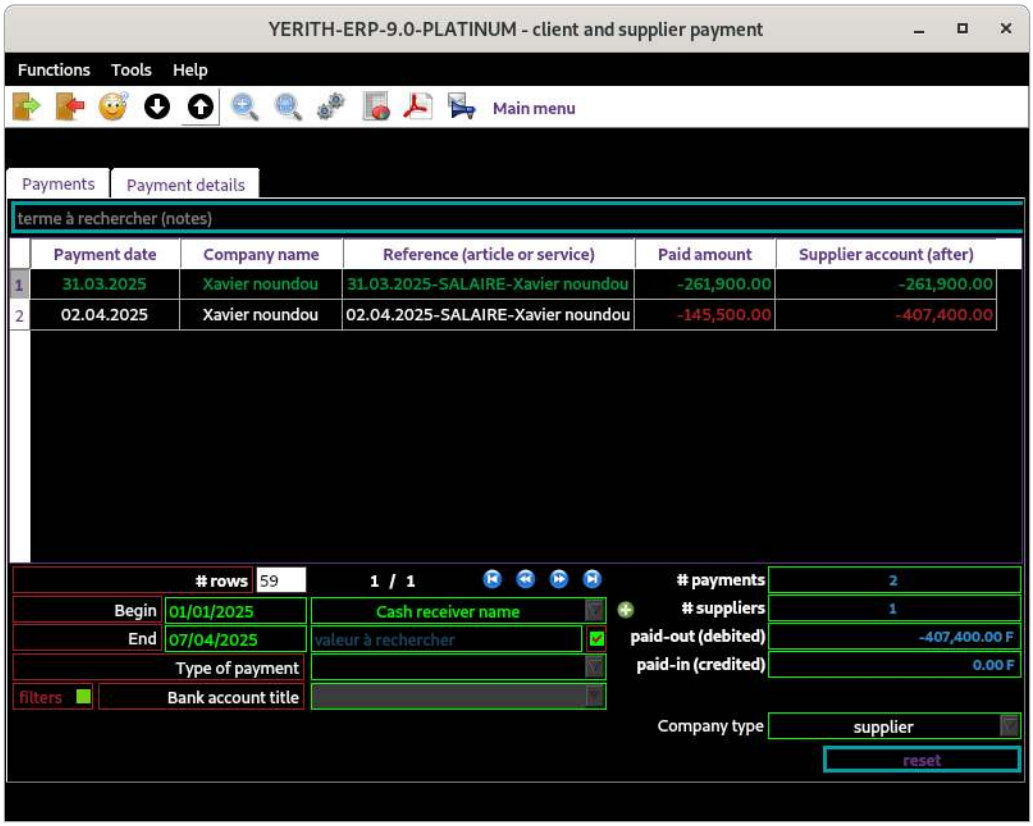
   A pay group may be linked to a particular specific company location, Or may be a company wide unspecified location pay group.

   A tax percentage amount is associated with each pay group; it could have 0% value.
3. Create an employee group associated with a pay group.
4. View, Remove, and Assign an employee to an employee group; an employee may belong to several pay group, and earns accordingly a cumulated salary per pay group.
5. View, modify time period an employee shall belong to a pay group.

   At the end of a belonging time period, an employee is Not automatically removed from a pay group. But his salary from this pay group remains calculated to 0, in any currency defined in the administrative section "Application settings".
6. View pre–calculated monthly and annual, cumulated by pay group, salary of an employee in an employee details section window ("supplier details").

### 3.3.1 Payment Registration as a Financial Expense (Commercial version only)

Figure 3.10: A payment references page within YERITH–ERP–9.0 Anew.



All employees payments registrations, as a financial expense in module "PAYMENTS", are available only in YERITH–ERP–9.0 commercial version.

WE PLAN a USB–dongle key version starting beginning year 2026.

## 3.4 Runtime Verification Monitoring Analysis Module: YERITH_QVGE System

Figure 3.11: YERITH–ERP–9.0 monitoring interface window tab.

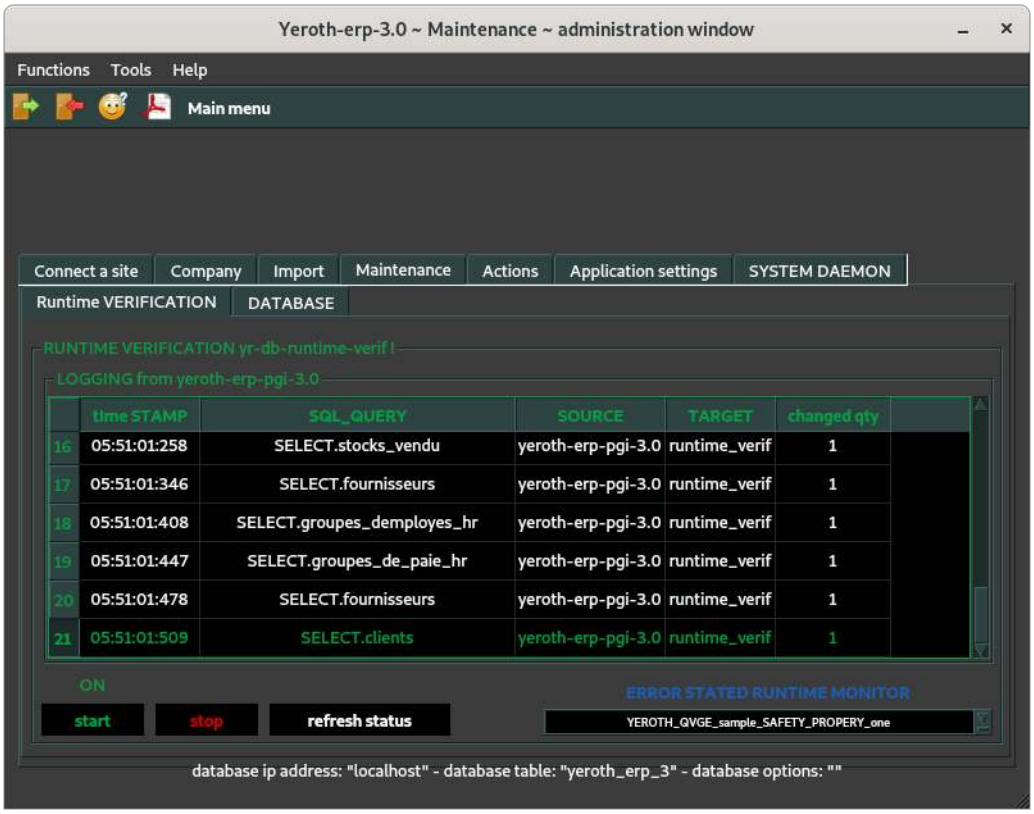


Figure 3.11 illustrates summary (AN EXPLANATION OF THE SQL QUERY, and not the exact syntax) SQL query sent to YERITH–ERP–9.0 database, with complementary information (e.g.: timestamp, etc.).

Information that appears in YERITH–ERP–9.0 monitoring interface is received by a dynamic program analyzer: "YRI-DB-RUNTIME-VERIF "; that runs as a service background process on the same computer device. ***"YRI-DB-RUNTIME-VERIF " versions that allows for OFFLINE dynamic analysis will not be open source (FOSS)***.

Each runtime monitor specification violated by an YERITH–ERP–9.0 execution is displayed in Figure 3.12. Details of each violated runtime monitor specification could be analyzed by a developer using YRI-DB-RUNTIME-VERIF (a component of YERITH_QVGE design and testing system) window interface, as shown in Figure 3.12.

Figure 3.12 illustrates a sample SQL event sequence mismatch) as specified by runtime monitor "YERITH_QVGE_sample_SAFETY_PROPERY_one_Recovery_SAMPLE".

# NEW SCIENTIFIC AND ENGINEERING INNOVATION (IN SOFTWARE QUALITY ASSURANCE)

This chapter reports about YERITH_QVGE Design and Testing System by Dynamic Program Analysis. YERITH_QVGE, a compounded software stack, has a Free And Open Source (FOSS) part, and a commercial paying part. Governments not able to pay for commercial versions of YRI_QVGE, and YRI-DB-RUNTIME-VERIF, could ask me for a free of charge version.

## 4.1 Motivations

Figure 4.1: A State Diagram Mealy Machine Design Model within YERITH_QVGE.

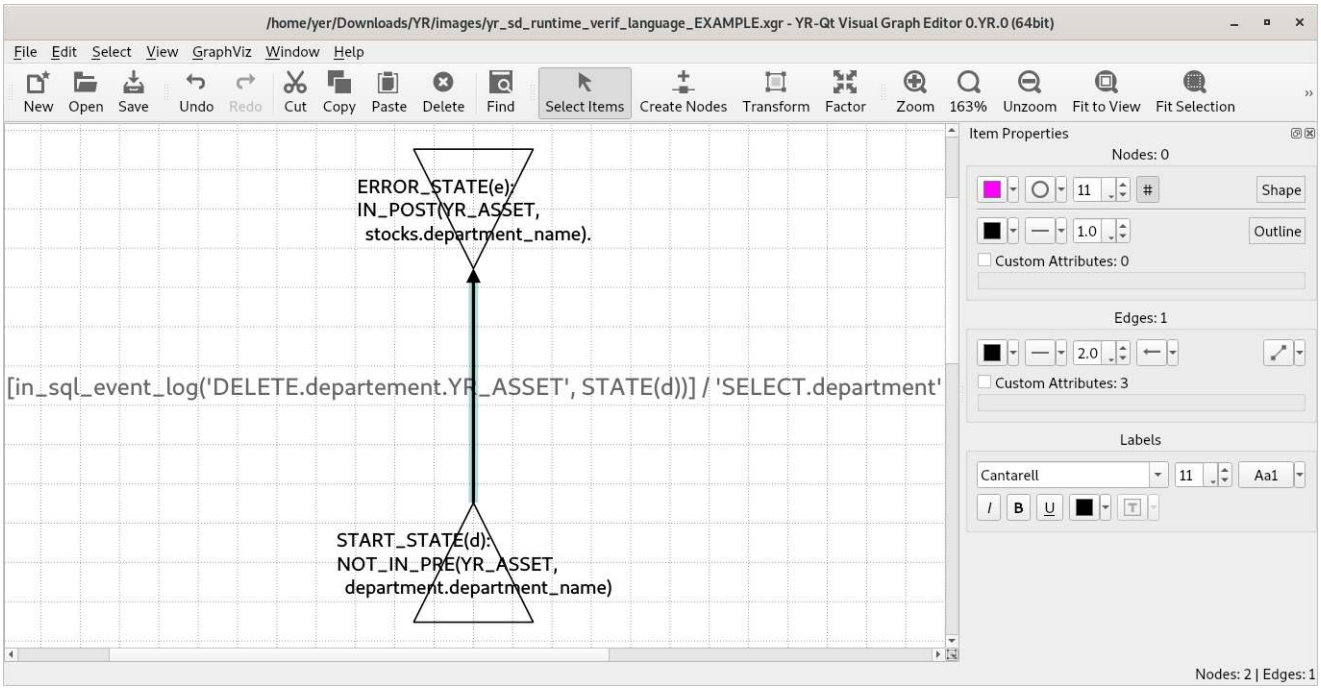

Figure 4.2: YRI_QVGE workflow.

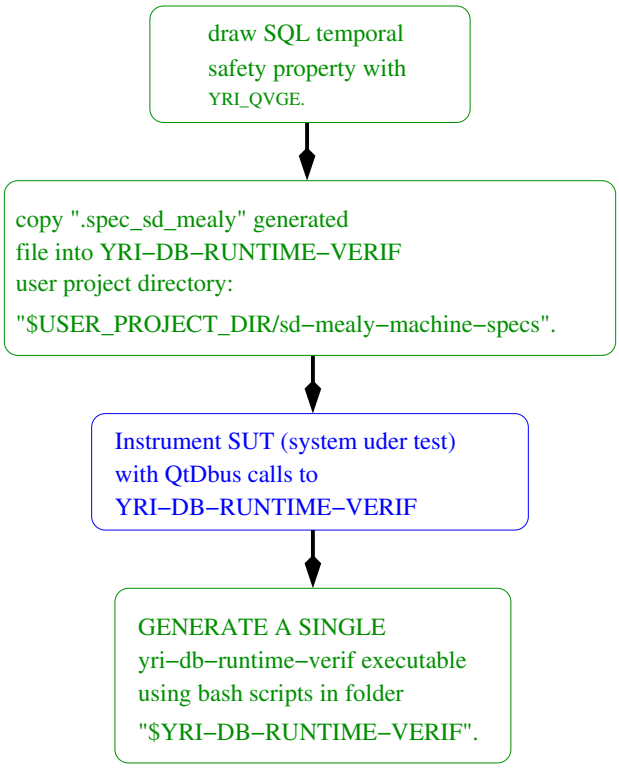

Software correctness properties are essential to maintain quality by continuous and regressive integration testing, as well as runtime monitoring the program after customer deployment.

To this intent, I have developed a stack software package of 4 complementary libraries, and / or programs named YERITH_QVGE [Nou23a, Nou23d] a test and design system by dynamic program analysis. Details of YERITH_QVGE are explained in Section 4.2.

Figure 4.1 illustrates the commercial drawing tool that is part of YERITH_QVGE. Figure 4.2 illustrates a workflow of design and testing system YERITH_QVGE.

In summary, YERITH_QVGE (YRI-DB-RUNTIME-VERIF) allows specification of a SQL temporal safety property by means of a state diagram mealy machine [NOU23g, Wik22]. In YRI-DB-RUNTIME-VERIF, a specification characterizes effects of program events (via SQL statements) on database table columns by means of set interface operations ($\in$, $\notin$), and, enable to check these characteristics hold or not at runtime. Integration testing is achieved for instance by expressing a state diagram that encompasses both Graphical User Interface (GUI) states and MySQL [Mar22] databases queries that glue them.

For example, a simple specification would encompass states between 'Department administration' and 'Stock listing' GUI interfaces, and transitions between them by means of MySQL databases operations. YRI-DB-RUNTIME-VERIF doesn't generate false warnings; YRI-DB-RUNTIME-VERIF specifications are *not desirable (forbidden) specifications (fail traces).*

## 4.2 YERITH_QVGE (YRI_QVGE) Test And Design System by Dynamic Program Analysis

Table 4.1: YRI_QVGE Design and Testing System Dependencies

| PROJECT | Required Library |

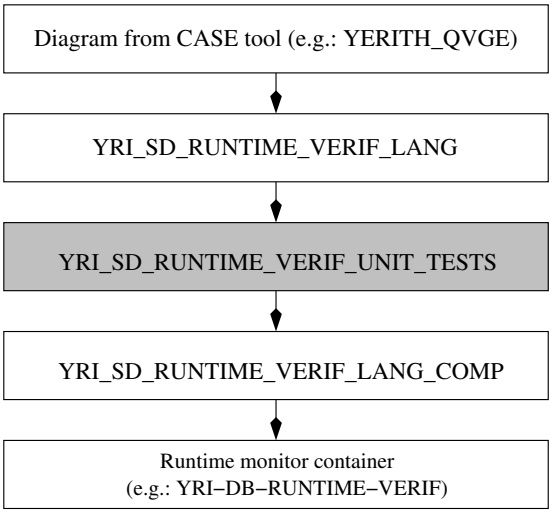
| 3) YRI_SD_RUNTIME_VERIF_UNIT_TESTS | 1) |
| 4) YRI-DB-RUNTIME-VERIF | 2) |

Figure 4.3: YRI_QVGE software library dependencies.



YERITH_QVGE (YRI_QVGE) is a CASE (Computer-Aided Software Engineering) design tool to generate "domain-specific language (DSL) YRI_SD_RUNTIME_VERIF_LANG [1]" files, to be inputted into the "compiler YRI_SD_RUNTIME_VERIF_LANG_COMP ", so to generate C++ files for the "runtime verifier tester YRI-DB-RUNTIME-VERIF [2]" that allows for manual verification of SQL correctness properties of Graphical User Interface (GUI) software.

Figure 4.3 show a diagram of the afore described process; The step of the unit tests is colored in gray because it is only for developers of YRI_QVGE intended; accordingly, Table 4.1 illustrates the same process as a software library dependency table.

Figure 4.2 illustrates a workflow diagrammatically of the afore described process.

YRI-DB-RUNTIME-VERIF inputs SQL correctness properties expressed using the formalism "*state diagram mealy machine* (YRI_SD_RUNTIME_VERIF_LANG)". Figure 4.7 illustrates a software system architecture of YRI-DB-RUNTIME-VERIF, together with the monitored program under analysis. The Free Open Source Code Software (FOSS) tool-chain of development testing is located as follows for free, EXCEPT for "YRI_QVGE " that is a Closed Source Code Software (CSCS):

### 4.2.1 SDMM: "State Diagram Mealy Machine"

Figure 4.4: A motivating example, as previous bug found in YERITH–ERP–9.0.

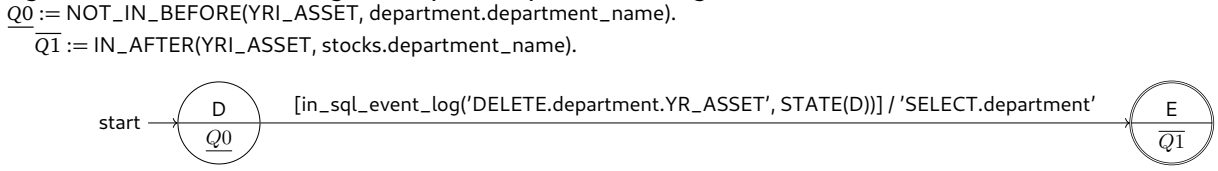

Figure 4.5: A SAMPLE state diagram mealy machine file.

```
1. yri_sd_mealy_automaton_spec yri_missing_department_NO_DELETE
2. {
3.  START_STATE(d):NOT_IN_BEFORE(YRI_ASSET,department.department_name)
4.   ->[in_sql_event_log('DELETE.departement.YRI_ASSET',STATE(d))]/'SELECT.department'->
5.    ERROR_STATE(e):IN_AFTER(YRI_ASSET,stocks.department_name).
6. }
```

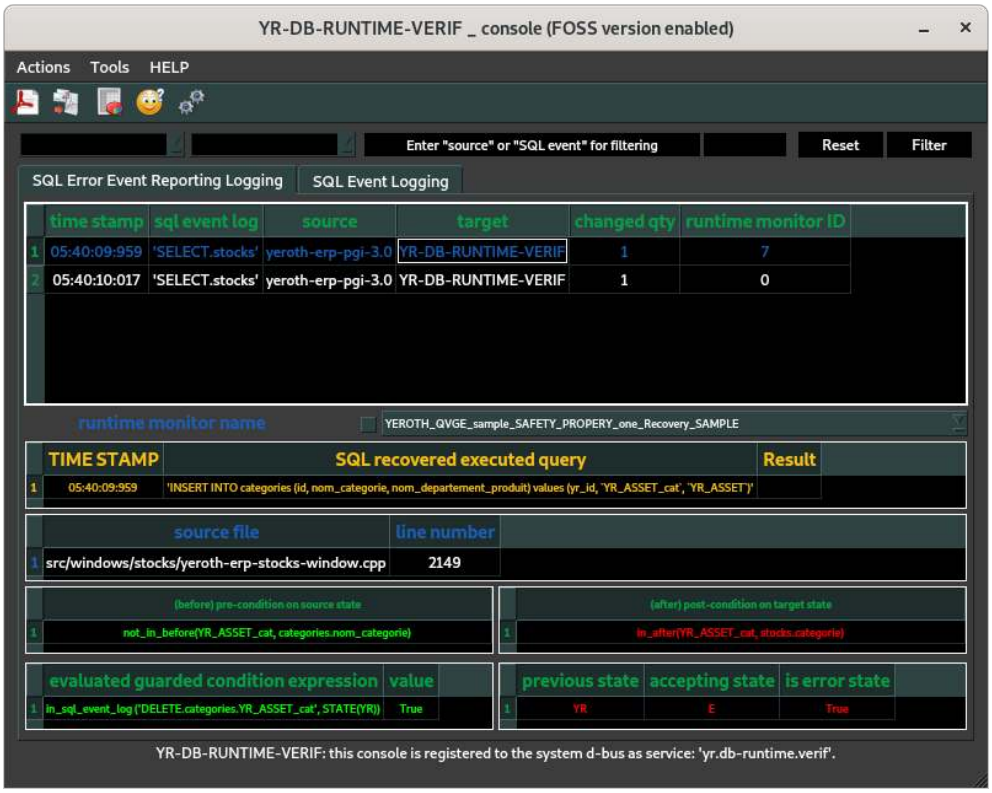
Journal article in preparation [Nou23d] introduces a simple finite state machine formalism called State Diagram Mealy Machine ("SDMM"). Compiler YRI_SD_RUNTIME_VERIF_LANG_COMP [Nou23a, Nou23d] inputs a specification as a "SDMM" and outputs a C$^{++}$ program as a runtime monitor code specification for YRI-DB-RUNTIME-VERIF dynamic program analyzer.

Figure 4.4 illustrates a simple automaton defining a "SDMM" specification. Its equivalent specification using Domain-Specific Language YRI_SD_RUNTIME_VERIF_LANG is illustrated in Figure 4.5.

YERITH$_{r\&d}$ develops and sells YRI_QVGE: a graphical drawing tool for generating YRI_SD_RUNTIME_VERIF_LANG [Nou23a, Nou23d] textual specification, as the one illustrated in Figure 4.5. Figure 4.1 illustrates a sample screenshot of YRI_QVGE.

### 4.2.2 Dynamic Program Analyzer Generator "YRI-DB-RUNTIME-VERIF" (OFFLINE analysis in commercial version)

Figure 4.6: YRI-DB-RUNTIME-VERIF error reporting window tab.



YRI-DB-RUNTIME-VERIF is a dynamic program analysis generator that inputs a text specification of a mealy automaton, and that uses state diagram mealy machine ("SDMM") library YRI_SD_RUNTIME_VERIF_LANG to generate a runtime monitor binary executable that allows to:

- **Visualize** a graph representation, generated by the DOT–Graphviz [gra22] library program, of a runtime monitor specification.
- **Visualize, export, print**, system under test (SUT) (or also called program under analysis [PUA]) SQL events emitted to its database: for this, the library user must have instrumented (added additional source code) in its program sources, so to notify YRI-DB-RUNTIME-VERIF of a query (E.G.: SELECT, etc.) to its application database.
- **Visualize, export, print**, SQL error events, as specified by the inputted "SDMM", that occur while the SUT is running (or not; using SUT SQL log event file).
- **Visualize** only SUT (system under test) SQL error events at the command line of execution as it prints out.

**YRI-DB-RUNTIME-VERIF *versions that will allow for OFFLINE (from a trace event log file) dynamic analysis will not be Free and Open Source Software (FOSS)*.**

Figure 4.6 illustrates a sample SQL error event log of Graphical User Interface (GUI) of YRI-DB-RUNTIME-VERIF.

### 4.2.3 "YRI-DB-RUNTIME-VERIF" Software Architecture

Figure 4.7: SOFTWARE ARCHITECTURE OF YRI-DB-RUNTIME-VERIF.

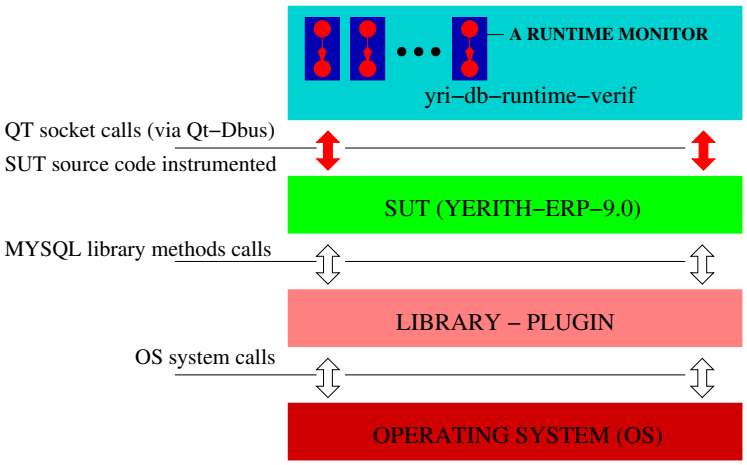


Figure 4.7 illustrates a software architecture of YRI-DB-RUNTIME-VERIF:

1. Any software layer of a software system architecture can be checked against a temporal safety property, as long as, it is instrumented and emits necessary `Qt-Dbus` [dqi22] events to YRI-DB-RUNTIME-VERIF layer.

# Chapter 5

# CONCLUSION

This chapter concludes this annual report on effort work on YERITH$_{r\&d}$ business main software product YERITH–ERP–9.0.

## 5.1 Endeavor

YERITH$_{r\&d}$ advocates for usage of a simple and efficient ERP (Enterprise Resource Planing) business software here in Africa because of a low level of formal education, and of income.

YERITH–ERP–9.0 was designed to be useful starting for people having at least 11 years of formal education at primary and collegial level here in Cameroon. ERP systems created, and, in usage in western developed countries, require advanced knowledge as detailed in [Nou23b].

## 5.2 MAJOR CONTRIBUTION IN COMPUTER ENGINEERING SCIENCE

Table 5.1: COMPARISON TABLE BETWEEN C++ [MS01], JAVASCRIPT [Fla20], AND JAVA [AGH00]. JAVASCRIPT and JAVA only have virtual machines that are in FACT REACTIVE SYSTEMS ! (WYSIWYG: What You See Is What You Get; VM: Virtual Machine)

| 11. MULTI THREADING | ✓ | | ✓ |
| 12. WYSIWYG GUI DESIGN TOOL | ✓ | | ✓ |
| 13. VIRTUAL MACHINE IS A REACTIVE SYSTEM | | ✓ | ✓ |

Table 5.1 encompasses a detailed scientific comparison between most at time of writing popular programming languages: C++, JAVASCRIPT, JAVA.

We found following reasons for introduction of virtual machines in the programming languages JAVASCRIPT, and JAVA:

- `JAVA` and `JAVASCRIPT` overcome runtime monitoring requirements by introducing language interpretation via virtual machine implementation and execution of programs.
- `C++` doesn't have a mainstream equivalent to date; due to its compiled nature.

  I advocate YRI-DB-RUNTIME-VERIF as the component through which any programming language may have for free by runtime execution, runtime monitoring capability.

## 5.3 Societal Outcome Improvement

Following points would be major improvements in society if usage of YERITH$_{r\&d}$'s computer systems products would be promoted:

- Africa has very bad institutions in terms of following–up clients files such as for example in JUSTICE palaces ministries.

  YERITH$_{r\&d}$ would love to supply governments in southern francophone Africa with affordable and useful software systems at low cost so to improve politics governance management and ACCOUNTABILITY.
- Affordability and accessibility of low priced and simple to use ERP systems may boost economy because the lack of business acumen knowledge of very young entrepreneurs would be compensate by implemented knowledge in ERP YERITH$_{r\&d}$'s YERITH–ERP–9.0.

  Let us for instance remember that at least 75% of Cameroon population is aged under 18 years old. Research investigations of YERITH$_{r\&d}$, as reported last year (2022) in [NN23], shows an introduction of YERITH–ERP–9.0 usage teaching starting at the 09$^{th}$ year (class of "5$^{ème}$ francophone", etc.) [1] of formal education in Cameroon would be very beneficial for young adult people when later on creating start-ups.

  Especially, more than 90% of this under 18 years old young people stop schooling before reaching the 1st year of university education because of lack of funding, here in Cameroon of CPDM (RDPC) political ruling party.
- Advanced Software Technology [NOU23g, Nou23e, Nou23a, Nou23d] developed for YERITH–ERP–9.0, both as Free and Open Source Software (FOSS), and as commercial priced product; would boost and improve software system quality in Africa.

TEACHING STATEMENT

1. [Teaching] and [Advising] is my priority at time since in Cameroon Software inception is very long and tedious because Cameroon authorities, Especially SED.
2. My 1st professor ~~and best educator~~ is [prof. dr. rer. nat. habil. JAN-peleska], at the University of Bremen, Bremen, Germany.; The 1st best teacher as of now was "prof. dr. dr. ULRICH KRAUSE–depsé, at the University of Bremen; as well"; THE ~~1st best leader~~ & 2nd best teacher as of now was "'[Prof. Dr.–Ing. Patrick] Lam, at the [University of Waterloo, ONTARIO, CANADA]".
3. I endeavor to teach what makes my research vivid ["*RM: Program Software Runtime Monitoring*"] and useful for young and adult people around the world; I can teach almost everything in Computer Sciences; I haven't practiced Computer Graphics, and Computer Imaging programming at all.

RESEARCHING GOALS IN COMPUTER SOFTWARE ENGINEERING – [CONTINUED]

1. Create a very cheap and pragmatic Enterprise Resource Planing (ERP) software: (e.g: YERITH–ERP–9.0–PLATINUM[?]).
2. CREATE a market place where stock exchanges occur real–time; [YERITH–ERP–9.0–TRADING–REALTIME] is used as platform for valuation of stocks; And for stock exchanges. THE market place is a physical place in "YERITH–R&D building"; THE physical stock exchanges occur outside of "YERITH–R&D building"; just a plot of land '5 meters' away on the opposite side of road leading to "YERITH R&D" !
3. CREATE a computing device for YRI–DB–RUNTIME–VERIF that would be a certified product with at least ISO, and CE stamps : [YRI–QVGE–PC–TABLET]; See also Fig. 22.

5. *CREATE a software component full–featured that enables ERP-stock data import using a technology Kind–of VOICE–to–text !*
6. *Create a framework that allows for formal method specification of static dataflow analyzes as temporal property verification formulas;*

   *Such a framework generate code software as static staged dataflow analyzes for its users.*

   *More importantly, I will try to reuse previous work done for* YRI_QVGE*[13.13] research work, as part deliverable.*
7. *TRY to integrate research results on software security in "YERITH–ERP–9.0–platinum "; from Vijay GANESH research (**https://research.gatech.edu/people/vijay-ganesh**); MOST possibly using "*SDMM*".*
8. *Automatic generation of web HTML pages from a Domain Specific Language (DSL) that is more approachable for a high level programming language perspective (i.e: similar to C++ / JAVA):* YERITH–WEB–PAGES–GENERATOR–9.0*[27.27].*
9. Create and render software analysis, debugging, and testing tools as easy as possible to use, with only finite automata theory background; and / or Typestate–API usage rule checking typestate–API knowledge (e.g.: YERITH–SAINT[34], SDMM[1d], YRI_QVGE[13.13], VALKYRIE–VALGRIND[20.20]).
10. *Prepare a course on "Software System Security Vulnerability Detection and Analysis". I prepare this course material so to implement a software system for protecting other software from malware.*
11. Create a stand–alone software product that enables medical physician to augment their efficiency in terms of patient work flow throughput : 'yerith-sante-organigramme'
    Even Dr. Christian EYOUM find this utility–tool very impressive in terms of effectiveness & simplicity if this could be really in his world (PSY) implemented !
12. Create a stand–alone tool that generates code for creating statechart C++ code for mealy machine state diagram (SDMM[1d]).
    This tool is specifically created and programmed for generating code that uses checkboxes to select options for Graphical User Interface [GUI] code.
13. Position "static dataflow analysis research and techniques" as similar as runtime verification (i.e.: circle 4 in Figure 18; e.g.:PH.D. THESIS[32], YERITH–SAINT[34]).
14. Create and produce a computer device that could be embedded into other computer devices and that will communicate with them through serial ports and / or USB interfaces SO to provide YRI_QVGE program verification to USER FINISHED products on-the-fly, AS an add-on ENGINEERED industrial product: ALSO this product could qualify for an CE—ISO–related certification for avionics, railways, automotive, and CE—ISO certifications for Healthcare : [YRI–QVGE–PC–TABLET].

## 1.1 CAMEROON new country name based on CHRISTIANITY–jesus–of–nazareth–NAME-and—TRIBES-number

Changing CMR onto YERITH as country name since JESUS–OF–Nazareth utilizes 12 237 as number of tribes for its ISRAEL tribe.

## 2.2 National Currency BILLS and / or COINS

- CMR YERITH NATIONAL Money currency as 'YERITH-dollar ("JESUS–OF–Nazareth"-dollar)'.

  THIS money currency bill and / or coin system will be backed by computing systems from YERITH R&D; AS open-sourced products :

1.) **YERITH–ERP–9.0–TRADING–REALTIME**; A software–system product created out of Enterprise Resource Planing Software **YERITH–ERP–9.0–PLATINUM**[?]; that also utilizes **YRI_QVGE**[13.13.7] that is also usable as an algorithmic trading system !

      SIMPLICE-kameni and alike people must be imprisoned.

      HIJACKING properties and down–casting businesses of elite–intellectualist from abroad like myself and others I may not even know about is what make them have a life luxurious around C.P.D.M and SED-yves-landry-galax-etoga-idiot; so called secret–services.

      " *THERE is also another "negger" working on behalf of simplice-kameni as LEAD of the so-called–cocaine-reseller wood-factory S2T-BED, called IDIOT-repeating-christian-signs; that behave like so–called "TONTON-makout' in HAITI-movies; (https://WWWURL) YOU see this kind of people that kills under behalf of a politician like BIYA; AND that you cannot even prosecute because there is no whereabouts of his origins or identities here in Cameroon-official-Communaute-URBAINE-de-YAOUNDE.* "

      " *!! ALSO this biya–cpdm–gang against a proper african descendant on AFRIKA–soil Has a motto: ABSURDITY !!!* "

      FACTS:

      1. kill where life is supposed to be saved;
         Example: USE your own blood-giver to hijack your life and properties [REFERENCE.]

         HOSPITAL is used to destroy lives.

      2. destroy where it is supposed to be killed;

         POLICE and ARMY kill people that go to them for seeking help after being robbed or whatsoever here in AFRIKA;

         so called ***UNITED–nations*** (https://www.un.org) are only a replacement for colonies by white–supremacists.

    - IT seems it is cameroon-cpdm-people who are UNITED nations workers here in CMR; HERE.

## 4.4 JUSTICE and PAST-MEMORIES to heal in Cameroon

1. [Dr. PAUL Siméon nomo, from MONATÉLÉ came to my private house in YDE–AAHALA, to arrest illegally without any notification or whatsoever; using a firefighter truck and 3 firefighter to molest myself in front of several neighbors so to discredit my life as a peaceful citizen of Cameroon.]
   HE seems this criminal assassin from BIYA private places is now living in Maryland, USA; since I went back to Canada to resign from CANADIAN–shit citizenship.

   Another cousin of mine so called "[Rodrigue Alain Sienchie]", told me that 1 day armed soldiers with uniforms came to arrest him in the house of his parents, sent by "[Dorothée SHANDA NDJATIE OWONA]"; THEN went to sodomized him at LAQUINTINIE HOSPITAL.

   "SO I SUSPECT this criminal LAURENT TCHANDEU DJATIE DOROTHÉE OWONA to have sent to my private house in Yaounde in 2017 this 'so called baptist church pastor Dr. SIMEON NOMO, PSY.D.'."
2. "Eyoum Chritian" idiot's immunity of justice because he is a psychiatrist Must be investigated !
3. 'S2TBED', finally repairs our main common road: They destroyed a previous road with LATERITE so much that IT must be fixed with concrete !
4. 'S2TBED', biya's illegal industrial forestry enterprise society, an illegal neighbor of "Immeuble YERITH" of mine, IS constantly disrupting electrical energy current supply.
5. ALL my real estate in Douala (3 3-bedrooms apartments) need to be released by a genitor of mine THAT is not anymore wanted in my life because of all atrocities SHE CONSTANTLY commits with SHANDA GREGROIRE OWONA Wolfgang TCHAMOU angela ndjatie. !!!

   SISTER'S of Rose Sangnou my genitor, Dorothée Shanda Ndjatie, IS CONSTANTLY harassing her to take me to any psychiatric institute by force, Even though there is already a criminal investigation against her and Rose Sangnou at DLA-ndokoti justice palace; DOROTHÉE is a criminal PERSON !
6. 'MADO's brother CAPTAIN pierre marcellin emana nkoa' must reimburse back my 210 000 FRANCS since SEMIL (Sécurité Militaire) told me in 2016 THAT THEY CANNOT convoke them SINCE receipts were signed by his cousin "JEAN-DE-DIEU onana".

   "MY NEIGHBOR CARINE LELE NJOUGEP TCHANA", seems to be here because of them, so to deteriorate the quality of life of legal people living here, and promote their own-beings through propaganda LIKE 'it seems THE colonel living THERE above of the hill IS the one that FIXED the road leading to your compound !
7. JUSTICE FOR BREAKING AND torturing myself ('Xavier noumbissi Noundou [DR–ING. PR. PROF. ]') in front of at least 17 people in front of my inherited personal domicile in Douala–Béedi-Cite-des-Palmiers MUST be finalized before Cameroon election 2025.
8. 'JUSTICE president and certain types of judges must be apolitical: I.e.: THEY CANNOT BELONG TO A POLITICAL PARTY !
9. ***MARTINEZ ZOGO assassin AMOUGOU BELINGA justice criminal court must be finished before Cameroon election*** 2025.
10. ***PEOPLE responsible for the drama of Edea Railway Failure in .. MUST be judged in a civil criminal court before Cameroon election*** 2025.
11. ***MILITARY SOLDIERS that killed about "7 women and their teddies in north Cameroon must be judged."***

13. ***Military Soldier must have their own facilities and amenities in cities, and not mixed intermingle anymore with civilians, AS THIS IS CURRENTLY THE CASE when they DON'T wear military attire uniform !***
    ***In fact, MILITARY SOLDIERS or Alike don't have a same behavior justice as civilians; Not talking about habits and gesture.***
14. ***Bepanda drama because of 'general MPAY' must be re-covered in a justice palace court of civilians and / or military justice !***

## 5.5 ACADEMY and Technology Research Institutions

   THIS culprit shall also try to not resell goods that were illegally imported into CMR.
3. ALL PEOPLE that were trained by the BIYA–regime as illegal para–military personal, MUST go into peace-keeper corps organization of the UNITED NATIONS or somewhere else so to keep cities and villages free of fire and all other destructive people.

   *FOR instance people like "PASCAL dayang", working at "S2TBED" of the culprit franck–biya has insinuated to myself that HE will disrupt any business activities that I–doctor–of–engineering Xavier NOUMBISSI NOUNDOU will perform in my compound !!!*

   ***[ "S2TBED"–"PASCAL dayang mercenary SED soldier" as threat in CMR !!! ]***
4. Transform all wood factories within city of YAOUNDE in computer desktop and / or laptop assembly production units

## 7.7 JUSTICE and DIVINITIES

1. ***Destruction of all secret services units in Cameroon !!***
   1. "OUATTARA people shall not anymore be opponent to christian people here in Cameroon as it is the case with Shanda–TONME jean claude" presently.
   2. People like SHANDA OWONA harass other people because they feel as safest as possible because of some kind of impunity based on their appurtenance to DGRE special unit forces ("JEAN CLAUDE shanda tonme and spouse" weren't for instance infringed in DLA–NDOKOTI palace for breaking into my compound, closed at night, with around 9 burglars; So called Technicians of "PSY–laquintinie"; around 23 : 30 at night while I was sleeping IN february 2021 in DOUALA).
   3. Politicians shall be reduced to be people applying criminal and civil laws instead of people trying to make their own ideas come through via ENTERING private life of people like "Shanda TONME jean claude" has done in the past 30 alike years with my personal family and life ('Family NOUNDOU michel', and 'Family JEAN NGONGANG') !
   4. 'SEMIL' and special alike units of Cameroonian army shall be dismantled because of reported proved or not really ATROCITY facts.

   b. SINCE people could stay without marriage, In Christianity, marriage is THE EXCEPTION, But not a sin;
   c. Any person that is not married and that is a born-again Christian cannot be managed by a married person ! THIS is because A MARRIED person couldn't qualify to understand a life at a certain level as He is living constantly with another gender !
   d. People that have marriage in traditional system normally cannot undergo a civil marriage in a christian church (I.E: TRADITIONAL system allows for Impudicity, Which is prohibited in Christianity !).
   e. Born–Again Christians don't marry at all in any type of marriage !
   f. "SHANDA–TONME jean claude's first and last son": Late (justice of attorney) "Me. Shanda Sanou Cabral Patrice" was apparently killed brutally since his body was missing from people assisting SHANDA's family for obituaries.
   g. "'HIS (jean–claude shanda–tonme) OBITUARIES in next coming years must not be public since He hasn't been a good citizen for at least hundreds of young cameroonian" that I have hear about for the last 12 years since I started by immigration process back to my homeland country Cameroon of C.P.D.M–R.D.P.C !

### 27.27.3 WHAT YERITH–WEB–PAGES–GENERATOR–9.0 Would Service & Provide

- *""*Qt 5 software development platform" enables auto–deployment for Android–google platform." (`https://`)

  *'*YERITH–ERP–PGI–9.0–WEB–SYSTEM (`https://github.com/yerithrd/yeritherppgiwebsystem`) *will reuse this functionality to generate legacy web source code files (*`HTML`*5, PHP, CSS, Javascript (GWT (Google Web Toolkit))); VIA a translation program–technology from "Qt* 5*-ui (user-interface)" files onto* YERITH–WEB–PAGES–GENERATOR–9.0 *input file coin as DSL—specific* YERITH–WEB–PAGES–GENERATOR–9.0 *files (".spec_html"); Figure 4.*;
- *We at* YERITH R&D *could then use any "Qt* 5*–Designer tool as a WYSIWYG Tool for generating Web-Html–PHP pages :* YERITH–WEB–DESIGN–TOOL*" !*
- *"We plan at mid–term to be able to generate "Software architecture proof testing–programs", both for GUI–interfaces (thick–client), and Web–interfaces (thin–client); automatically just by specifying certain behavioral interactions using state diagram mealy machines (*SDMM*[1d])."*;
- *"The so–called "Software architecture proof testing–programs" will have certain warranties about [cyber-security], about [cyber-safety], [runtime–memory usage] and [user–defined usage rules]."*.

### 27.27.4 *Implementation Technologies*

*I use "*`flex` *and* `bison` *compiler / translator generation technology" for creating* YERITH–WEB–PAGES–GENERATOR–9.0–DSL*. I plan to automatically generate code for enabling runtime monitoring of the generated web sites. A first version of this FOSS (Free And Open Source Software) is available at URL: "*git `https://github.com/yerithrd/yerith-web-pages-generator-9` *".*

### 27.27.5 YERITH–WEB–PAGES–GENERATOR–9.0–DSL *Keyword Table*

*Table 7 depicts and explains commands and directives for creating web–based HTML pages sites.*

*We plan also the generation of web sites based on an "n–*tiers architecture pattern*", illustrated for instance in Figure 6; that demonstrated solid resistance in practice for more than* 10 *years now as demonstrated by applications server existence and usage such as :*

1. **Apache tomcat application server**
2. **Glassfish application server**: mainly used in combination with `JAVA` OSI component–based software development architecture.
3. **Quercus PHP server interpreter application server**
4. **IBM websphere**

*All this work has to solve the issue of generating certain portion of web sites for customers and users of "*YERITH–ERP–9.0–PLATINUM*"[?] Enterprise Resource Planing software in a time period in-between of* 3 *years from this year* 2024 *!*

*"ALL THIS UNDER THE PROTECTION OF OUR LORD AND SAVIOR JEOVAH–NISSI IN HEAVEN."*

### 28.28.1 *Motivation*

***Numerous security vulnerabilities towards and against web applications exist :***

- ***"SQL injection :" A user tries to make a software execute a SQL query on a software–connected database by passing for instance; THROUGH user credential input SQL-code to destroy part or all your database.***

  ***user-name: 'Insert into users ('user_name', 'user_password') values ('drop table users', 'drop database')';***

- ***"Format Strings" : A software has part of it receiving directly input from an outside–world interface and using it without checking it is proper formed. Any malformed input can cause a mal–interpretation of data & could then caused for instance; A CRASH of the software under analysis !***

  ***int variable_x = 0; scanf(%s, variable_x); // Wrong format is expected by scanf !.***
  ***// scanf currently expects a string instead of an integer.***

- ***"Cross-site scripting attacks"; "Buffer–overflow"; "Man–in–the–Middle"; etc.***

- ***ALL cyber–security types We previously wrote about in this listing items could be detected by removing all tainted values of an application; I.E.; provide a validation function and / or method, for each tainted value.***

  ***THIS is best done during testing of the software product before delivery of an end–product to clients and / or customers.***

  ***A recovery from a fail state accepting error program location can be done by adding a generic recovery validating function and / or method that Could identify; and provide; best sanitizing / validating method for each tainted input.***

  ***SINCE YERITH_QVGE provide only forbidden trace specification, a recovery and detection is generally only possible after at least 1 violation of the SDMM specification property automaton has been achieved !***

  ***A usage scenario with in future coming dedicated PC–Tablet computer YRI–QVGE–PC–TABLET of YRI–DB–RUNTIME–VERIF; could be found in Figure 1.***

***Our approach to add more security & safety to open–source webshops generated by our technology YERITH–WEB–DESIGN–TOOL is manyfold :***

1.) ***USE of runtime verification & monitoring platform YRI–DB–RUNTIME–VERIF (https://github.com/yerithrd/yri-db-runtime-verif) :***
   - ***USE of standard security vulnerability breaches detection mechanisms as for Instance illustrated for Taint Analysis in this Subsection 28.28.3 !***
   - ***USE of developer–otherly specified security vulnerabilities patterns expressed as SDMM, & similarly described as for instance in Figure 8 !***

### 28.28.2 *Event Race Parallel–Concurrent Processes*

1.)

### 28.28.3 *Dynamic TAINT Analysis for Web Security*

1.) ***IN a previous work at the university–racist of waterloo, in Canadian–whitte ontario [3], we've implemented in web–server Quercus; A dynamic taint analysis using JAVA as programming language.***

***We plan to re–use Quercus as web–application server for generated webshops from*** YERITH–WEB–DESIGN–TOOL**.**

2.) ***Currently, we have created*** YRI–DB–RUNTIME–VERIF, 1 ***runtime monitoring container generator that enables creation of taint analysis engine with no coding for a developer; IT only requires to deliver a*** state diagram mealy machine (SDMM) ***specification expressed using a textual description DSL–language called YRI_SD_RUNTIME_VERIF_LANG [1c] : Figure 7;***

***This textual description (Domain-Specific Language) offers also, when a state diagram mealy machine has more than*** 2 ***states, a reference communicating processes parallel specification for the problem under analysis since processes are synchronized on each event after a*** $1^{st}$ ***event because each state of the*** state diagram mealy machine (SDMM) ***represents a potential other parallel running process state; Illustration follows for instance in Figure 8.***

### 28.28.4 *Warranties on Web Pages–Security*

1.) [*Warranties on Cyber–Safety*].

## 29.29 *WEB-QT Assembly : A comparison with* YERITH–WEB–DESIGN–TOOL

- ***WebAssembly-technology of QT–trolltech uses a platform independent binary format (called emscripten) to deliver website functionality for QT-application out–of–the–box;***

  ***Technology emscripten is not open–sourced and it is not as simple as "use of* YERITH–WEB–DESIGN–TOOL*".***

## 30.30 *WYSIWYG–Tool for generating websites*

Figure 9: YERITH–WEB–DESIGN–TOOL *: A SCREENSHOT of* YERITH–WEB–DSL–9.0 *generator within YERITH–ERP–*9.0*–platinum.*

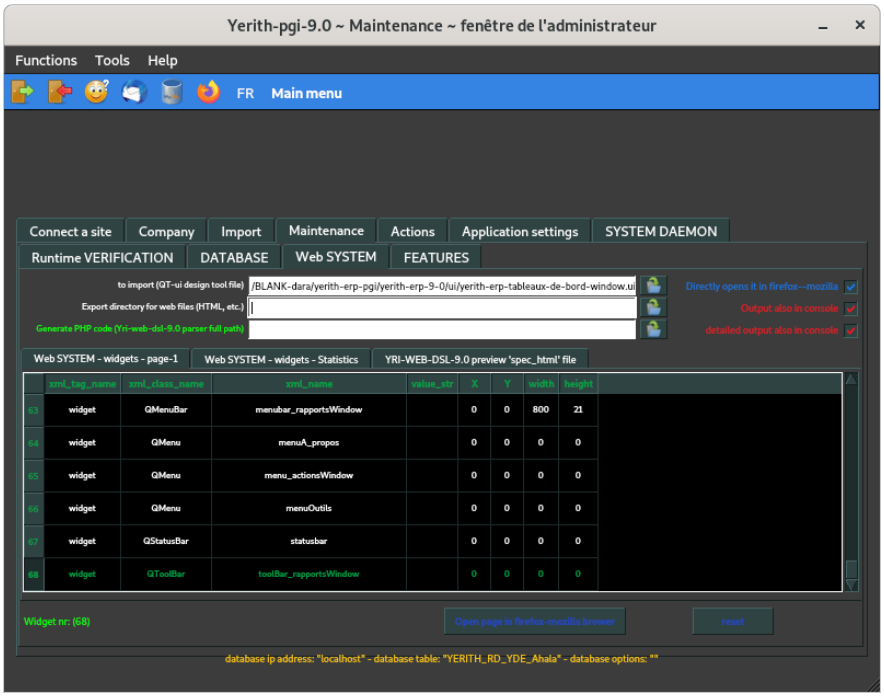

*Figure 9 illustrates a design engineering modeling window frame originating from ERP–software YERITH–ERP–*9.0*–platinum for automatically generating webshop for its users.*

### 30.30.1 Motivation

*Numerous users of ERP–YERITH–ERP–*9.0*–platinum would be also interested in having a WWW–online presentation for interacting with their clients and / or customers.*

*In our white–black paper SOFTWARE SYSTEM ARCHITECTURE OF YERITH–ERP–3.0[??] : (https://www.archive.org/download/yerith-erp-3-0-software-system-architecture_20221230/YERITH-ERP-3-0-SOFTWARE-SYSTEM-ARCHITECTURE.pdf); we motivate why we prefer fat–client software–system architecture over thin–client (also called website–architecture).*

*However we also want to enable our users to be online on the web easily by just pressing a button since costs to develop another system might be very impressing. THAT is why YERITH–ERP–*9.0*–platinum offers now for its users and / or developers an interface for automatically generating and deploying website–webshops solutions that reuse any information already present in the database created & running as a fat–thick–client (QT) architecture.*

### 30.30.2 Steps & Technology

- *Selecting QT–trolltech ui files to transform into web–HTML*5 *and / or PHP files;*
- *Pressing a button that generates PHP–HTML*5 *files via a step-by generation of* YERITH–WEB–DSL–9.0 *files.*

*Our use of* YERITH–WEB–DSL–9.0 *has advantages of preventing us of drastic changes in either HTML*5 *standards or platforms since* YERITH–WEB–DSL–9.0 *represents a website architecture as a high–level programming language (e.g.: C++, JAVA, etc.).*

1. ***Software Engineering Design & Verification using* state diagram mealy machine (SDMM), *runtime monitoring & static code analysis :***

   *a.) WE are working & researching on translating automatically viable statechart specification onto* state diagram mealy machine (SDMM) *runtime monitoring verification specifications;*

   *b.) USER requirement elicitation & specification is easily transcribed into a formal* SDMM *automaton–formula; Even by a mathematician with not much knowledge in Computer Technical Programming; As THIS is required when developers use David-Harel Startechart visual formalism as you can observe in Figure 14 !*

   *A temporal property specification using* state diagram mealy machine (SDMM) *only requires use of the following mathematic elements :*

   1.) *Logic formulas to describe prepositional formulas as conditions to trigger software system state–transitions;*

   *AND also to describe "GUARD–condition" to be checked 'VALID' before a software–system state–transition is triggered & executed by* YRI–DB–RUNTIME–VERIF*, a runtime monitoring verification container.*

   2.) *Variables : to describe states & state–conditions (pre– & post–conditions).*

   3.) *Formulas mustn't be drawn because there exists also a textual description language coined as a Domain-Specific Language called YRI_SD_RUNTIME_VERIF_LANG [1c] : Figure 12 illustrates for instance a textual description for the mealy machine state diagram drawn in Figure 13 !*

   4.) *"Statecharts by David–Harel, BECAUSE it is a visual formalism; Requires knowledge of code of drawing squares & other signs and keywords." !*

   *c.) Modeling a temporal property specification added with state–transitions pre– & post–conditions is very tedious and complicated to realize using David–harel Statechart.*

   *THIS kind of modeling is impressively more easy to realize using finite automata formalisms such as depicted in Figure 13; This figure depicts a temporal software system safety property designed with Mealy–machine, "And formalized as a state diagram mealy machine (*SDMM *(https://www.zenodo.org/records/13232567) [1d]) by myself" !*

   YRI–DB–RUNTIME–VERIF *is extremely efficient in usage and / or specification because state–conditions ("pre-condition underlined" & "post–conditions over-lined" are executed by a runtime execution "expansion algorithm" called "Method YRI_trigger_an_edge_event" that checks at no costs for users.)*

   *d.) With statecharts, specification of software system with parallel subsystem doesn't scale well starting for instance with* 8 *subsystems, because all* 8 *subsystems must be drawn* 1 *inside others !*

   *ON the contrary side,* state diagram mealy machine (SDMM) *only requires specifying an finite state automaton with more than* 2 *states, and linear in space & traversal algorithm complexity; Which is done automatically for a developer by the runtime monitoring verification generator–container* YRI–DB–RUNTIME–VERIF *!.*

   *e.) "OPEN–source version of the software system programming library QT–trolltech offers since version (at minimum number)* 5.15 *(around year* 2020*) a package called SCXML that implements David-harel statechart programming capabilities" !*

## 13.13 Software Verification with *YERITH_QVGE*

***A library or plugin at any layer (OR a combination mixture of layers) of a software system architecture could be verified and validated using YRI–DB–RUNTIME–VERIF by applying a receipt: IT would be sufficient to map each system call wanted for call sequence verification and / or validation to a MySQL query: So one doesn't need to re-create new QT-Dbus interfaces for YRI–DB–RUNTIME–VERIF: E.g.: "SYSTEM V libc". ### 13.13.1 *TAXONOMY : Software Verification vs. Program Code Verification*

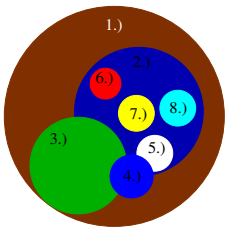
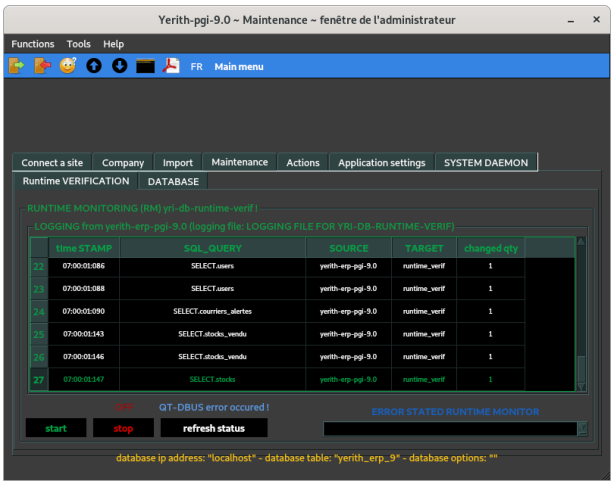
Figure 18: *"Program verification (including model checking)" is a subset (⊂) of "SOFTWARE VERIFICATION". (See also research goal 13.)*



1.) SOFTWARE VERIFICATION (SOFTWARE TESTING)
2.) PROGRAM VERIFICATION
3.) Model CHECKING
4.) RUNTIME VERIFICATION (MONITORING)
5.) UNIT TESTING (e.g.: class testing)
6.) Static Analysis (dataflow analysis)
7.) (AUTOMATIC) Theorem PROVING
8.) symbolic execution

Figure 19: *Embedded program verifier notifier within YERITH–ERP–9.0–platinum; YRI–DB–RUNTIME–VERIF runs as a background process service.*



***Software System verification** is a discipline to verify whether a software, meaning a product use at customer level and full–featured, conforms to certain software system user related usage properties.*

*In contrast, **program code verification** checks only program at the level of their source code or binary code product against code programming related properties, And not necessarily at level of a full featured user level product. Thus all code programming related properties could be cast down to certain software system related properties. It follows PROGRAM VERIFICATION is a Subset Of Software (System) Verification: illustrated in Figure 18 !*

### 13.13.2 *How to use YERITH_QVGE*

*A software component or a whole running software binary could be verified against SQL correctness temporal properties by USING* **YRI_QVGE**, *as illustrated in Figure 16:*

- *The* **1st layer** *illustrates the runtime verifier tester monitor engine:* YRI–DB–RUNTIME–VERIF, *that entails several custom runtime monitor specifications, provided by user.*
- *The* **2nd layer** *shows the* ***SUT (System Under Test)****; or* ***PUA (Program Under Analysis)****; layer that communicates with* YRI–DB–RUNTIME–VERIF *trough QT socket calls (via DBus messages). Each event message is sent to all runtime monitors. The **SUT** source code has been instrumented first, so to specify which program statements actions are to be packaged as messages to* YRI–DB–RUNTIME–VERIF. ***"INTEL-Pin" (https://www.intel.com) could also be used to instrument program binaries at runtime directly, Avoiding recompilation and even usable where source code of SUT (PUA) is unavailable.***
- *The* **3rd layer** *illustrates a library or plugin (i.e.: MySQL) that is being monitored via instrumentation of the* ***SUT****; in this case, the* ***SUT*** *is YERITH–ERP–9.0–platinum.* ***Other providers could modify An Open Source Code Version (FOSS) of YRI–DB–RUNTIME–VERIF to verify and monitor another library–plugin other than MySQL.***
- *The* **4th and last layer** *shows the Operating System (OS) layer and its communication via systems calls with the 3rd layer of the library-plugin.*

### 13.13.3 *How to use YERITH_QVGE in relation to verification cyber–security detection remediation methods.*

1. ***Model Checking*** (https://wikipedia.org):

   ***Temporal logic formalisms**, such as **LTL (Linear Temporal Logic)** (https://); Could be used to create State Diagram Mealy Machine (SDMM) (https://www.archive.org/download/yri_ictss_2023/yri_ictss_2023.pdf)[1d] and generate a binary executable of* YRI–DB–RUNTIME–VERIF *(https://www.zenodo.org/records/17316481) [1b] to perform runtime monitoring, and runtime SQL recovery of Graphical User Interface (GUI) supported software (And also not supported GUI software). Users must only note that "*SDMM*" specifications are **fail (forbidden) trace** behavior specifications of a program under analysis (**SUT**).*

   *Structures could be created on how to translate simple LTL constructs into simple "*SDMM*"; So to ease usage of* YRI–DB–RUNTIME–VERIF*;*

2. ***Runtime Verification (Monitoring; including Software Cyber–Security Exploit Detection Remediation)***:

   ***A whole class of problems involving sequencing of actions and / or method calls ranging from:***

   - *Application Programming Interface (API) checking protocol usage;*
   - WEB–APPLICATION RUNTIME MONITORING*[?] ; Software Security Vulnerability Analysis: I.E. Taint Analysis;*
   - ***Firewall security rules enforcement filtering;***
   - *Information Flow Policy Control and Enforcement : (E.g. : Figure 20);*
   - *Checking of automated and / or manual (unit) test procedure conformance with regards to TESTED PROGRAM (SOFTWARE) temporal properties;*
   - etc.

   ***Could be solved by usage of* YRI–DB–RUNTIME–VERIF*;* YRI–DB–RUNTIME–VERIF GIT–REPOSITORY*[1b]:* git *https://github.com/yerithrd/yri-db-runtime-verif* . "Pr.       - *"Jeeves Programming Language" enables static typing;*

*Table 8 compares tabularly the "Jeeves Programming Language" and "The Runtime Monitoring Verifier Tester YRI–DB–RUNTIME–VERIF". In contrast to the "Jeeves Programming Language" that specifies information flow policy and control enforcement for Python, YRI–DB–RUNTIME–VERIF is not implemented as programming language feature, and thus could be used for any software system that could emit Qt-Dbus signals ; Thus, information flow control and enforcement is run as a separate process, concurrently to the system under analysis (verification or monitoring) as pictured in Figure 16.*

*Figure 33 illustrates a sample SDMM (https://www.zenodo.org/records/13232567) [1d] specifying that a "FILE SHALL NOT be written–updated after it HAS BEEN CLOSED–DELETED".*

### 13.13.4 *Runtime Dynamic Program Interpretation Rewriting with "Jeeves"*

*The information flow policy control and enforcement solution provided by the "Jeeves Programming Language" is as follows :*

1. *A domain-specific language (DSL) is defined and embedded in a modification of the* dynamic interpreted *programming language Python. The drawback of an embedded DSL is a non re-usability in using other programming languages and framework other than those related closely to Python;*

2. *Only certain cases are flow policy control and enforcement are solved statically by "Python–Jeeves" type system;*

   *It means that 'false positives warnings' cases still exist in programmer code and couldn't be removed by static compilation and / or dynamic code interpretation.*

   *In contrast, "the mixed formal methods – runtime dynamic analysis monitoring" I used in "YRI_QVGE", don't allow by construction for 'false positives warnings': A 'false positive warning' is a message from the analyzing system that indicates an error accepting state while THERE IS IN EFFECT NO ERROR found yet.*

3. *Flow policy enforcement is solved dynamically at runtime by* dynamic code rewriting*; WE HOPE that this feature could be proved sound for all program statements because it might create uncertainty of valid flow policy enforcement at all.*

   *Differently, "YRI_QVGE" uses SQL database statement query for performing error accepting state recovery (~~or also called "Information Flow Policy Control and Enforcement"~~).*

### 13.13.6 *"Formal Methods – Runtime Dynamic Analysis" Vs. "Compiler Static Analysis Technology"*

Figure 20: ***Runtime Verification Monitoring with*** YRI–DB–RUNTIME–VERIF.

Figure 21: ***YERITH SDMM based runtime monitoring verification analysis.***

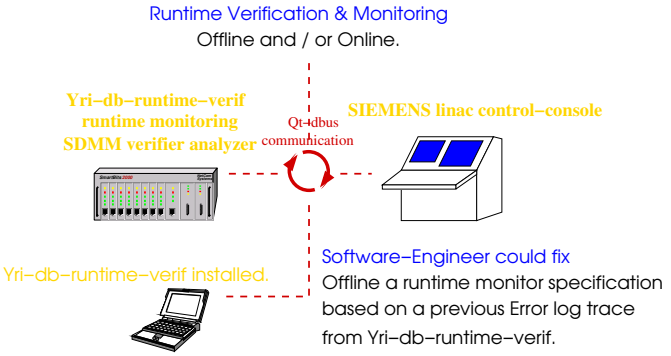

Figure 22: ***A sample [YRI–QVGE–PC–TABLET] in action.***

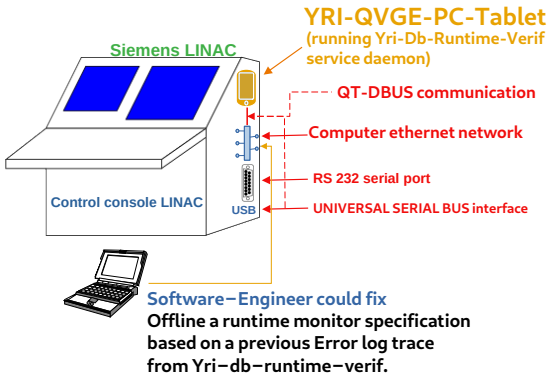

***I advocate :***

1. ***Solving problems using compiler static analysis technology; that is based on lattice-theory is more safe than formal methods algorithms at first because MANUAL model checking has to be used to prove formal methods solutions correct, which could be very tedious and lengthy; "OR EVEN INTRACTABLE". SEE the state explosion problem (https://en.wikipedia.org/wiki/Model_checking).***

   ***On the other hand static dataflow analysis algorithms based on lattice-theory are safe by construction and don't need no more proofs of consistency and validity as long as they only follow the base–pattern algorithm as for instance defined by "Gary A. kildall : A unified approach to global program optimization (https://doi.acm.org/10.1145/512927.512945)".***

   ***THE previous statement also applies when using an instance of a static dataflow analysis based on the IFDS (Interprocedural, Finite, Distributive, Subset) (https://www.semanticscholar.org/paper/Inter-procedural-data-flow-analysis-with-IFDS-IDE-Bodden/a3f7557fe673ff0711e9049cf5ece8b02a51f7f1) algorithm from "THOMAS reps" (https://www.grammatech.com) at "The University of Winsconsin-MADISON-mad". (https://www.wisc.edu)***

2. ***The formal method approach I use in solving problems listed in "Subsection 13.13.3"; a combination of formal methods with runtime dynamic analysis is as perfect as the "static dataflow analysis" standard algorithm by "Gary A. kildall", because*** YRI_QVGE ***uses only "fail (forbidden) traces" specifications and only exactly*** 1 ***outgoing edge for each transition in a state diagram mealy machine specification*** (HTTPS://WWW.ZENODO.ORG/RECORDS/13232567) ***[1d]:***

   ***A whole class of problems involving sequencing of actions and / or method calls ranging from :***

   - ***Application Programming Interface (API) checking protocol usage;***
   - ***Software Security Vulnerability Analysis: I.E. Taint Analysis;***
   - ***Information Flow Policy Control and Enforcement: I.E. ...***
   - ***Checking of automated and / or manual (unit) test procedure conformance with regards to TESTED PROGRAM (SOFTWARE) temporal properties;***
   - etc.

3. ***Runtime Verification Analysis Results Combined With Static Dataflow Analysis Algorithms à la "Gary A. kildall : A unified approach to global program optimization (https://doi.acm.org/10.1145/512927.512945)" as ; for instance implemented in "Context–Sensitive Staged Static Taint Analysis for C using LLVM" (https://www.zenodo.org/record/8051293) " :***

   - ***One could combine runtime verification analysis facts with static dataflow analysis so to reduce fail state accepting code source location paths.***

     ***For instance, applying*** YRI–DB–RUNTIME–VERIF (https://www.zenodo.org/records/17316481) ***[1b] to find an API violation rule such as a "FILE–Write–AFTER–FILE–close" as specified in Figure 33; that specifies a "*** SDMM ***DSL code*** (HTTPS://WWW.ZENODO.ORG/RECORDS/13232567) ***[1d]" for finding a write after close program execution :***

     *a.)* ***WHENEVER such a "file Close–WRITE API rule violation usage" is found by a runtime monitoring verifying analysis program binary, this information could later on be used by a static analyzer on code sources to eliminate manually from the program code sources code the found API violation RULE.***

     *b.)* ***Our work : "Context–Sensitive Staged Static Taint Analysis for C using LLVM" (https://www.zenodo.org/record/8051293) on detecting tainted path with an application for finding API usage rule violation in C++ code as ILLUSTRATED in Figure 35, COULD be used for instance !***

     *c.)* ***Symbolic Execution / test-cases-test-data generation :***

     ***WHENEVER a fail-state accepting state is found by a run execution of*** YRI–DB–RUNTIME–VERIF***;***

     1.) ***Such a run could only be executed with some test data stored somewhere in the SUT; a test case is also available for free since of the trace event log.***

     ***Such acquired test cases & test data could then be used later on to create some "testing suites" to exhibit this fail–state accepting error sequence run !***

     ***Symbolic execution run with finding of test data using a constraint solver like "Microsoft–Z3" (https://www.microsoft.com/research--idiot--z3) for instance, is only needed in case more test data and / or test cases are required for this fail–state accepting run.***

   *Having to buy currencies to European UNION, for instance for CMR, is very expensive. PART of exchanges within AFRICA borders could be done just by physical product (good) exchange between people and / or governments; Especially since getting currencies bills and / or coins is very expensive.*

## 17.17 RESEARCH WORK OVERVIEW

*THIS IS A PRELIMINARY WORK ON CHECKING TEMPORAL SAFETY PROPERTIES USING A TRACEMATCH–ALIKE SPECIFICATION LANGUAGE;* ***SOOT*** *(https://www.soot-oss.github.io/soot) AND DATAFLOW ANALYSIS IS USED TO PRESENT A STATIC WHOLE PROGRAM ANALYSIS.*

*TRACEMATCHES alike specifications enable developers to specify API usage rule drawing, as* ***a deterministic finite automaton*** *(https://www.wikipedia.org). Patrick LAM and Xavier noumbissi NOUNDOU have at this effect presented short overview slides of 30 minutes at* ***IBM workshop CASCON*** *2010* ***!*** *(https://www.sable.mcgill.ca/~clump/cdp2010/index.html).* ***PDFSAM*** *(https://www.pdfsam.org), and sample other Open Source Code Software (FOSS) ARE USED as benchmark for project evaluation.*

## 18.18 SOLUTIONS WITH LLVM BY CHRIS LATTNER AT "APPLE LTD.".

*Instead of the 1st proposed Java–Soot approach as a whole program static dataflow analysis, a whole program context–sensitive dataflow static taint analysis for C using LLVM could successfully be implemented and described in* YERITH–SAINT *(**https://www.zenodo.org/record/8051293**) [34].*

*The 1st* YERITH–SAINT *algorithm was implemented for programs written in C programming language, and used a pre–processing step for analyzing points–to set using* ***"poolalloc"*** *(https://github.com/poolalloc) from* ***Chris Lattner*** *(https://www.llvm.org).*

*BECAUSE our static dataflow taint analysis algorithm works on three-address-code, LLVM compiler framework could also apply* **YERITH–SAINT** *to JAVA code as input programming language to LLVM frontend–compiler–framework (**Example : https://github.com/polyglot-compiler/JLang**); See for instance Figure 32 !*

## 20.20 RELATED WORK: DYNAMIC PROGRAM ANALYSIS API–RULE CHECKER "TRACERORY"

*"Unread memory verification" is an instance of API (Application Programming Interface) usage rule checking.*

*""*TRACERORY*" **runtime unread memory verification tool of Jon Eyolfson"** (https://www.hdl.handle.net/10012/6206) ; "**Detecting Unread Memory Using Dynamic Binary Translation at RV** 2013 **in Turkey**" (https://www.YRITOLOOKFOR.org) , Of my former office roommate at **"ECE–Waterloo–formal–method Davis Center Room"** (https://www.watform.uwaterloo.ca), 1st floor, and colleague in static dynamic program analysis, could be outperformed with use of* YRI–DB–RUNTIME–VERIF (**https://www.zenodo.org/records/17316481**) *[1b]: "a runtime monitor container for* state diagram mealy machines (SDMM)*".*

*"*TRACERORY*" uses runtime program binary code instrumentation in **"INTEL-Pin"** (https://www.intel.com) to instrument running programs for purposes of detecting unread memory; I ignore whether **"INTEL-Pin"** (https://www.intel.com) has an open–source FOSS competitor at time yet; — Jan. 15, 2025 —.*

*Figure 33 illustrates a sample "*SDMM*" specification with instrumentation of source code with statements `'DELETE.file.f'` and `'UPDATE.file.g'` for runtime verification monitoring of API usage rule for checking memory write integrity: Runtime function "`is_alias(g, f)`" tells whether heap variable "g", and "f" refers to the same memory address. Such a "*SDMM*" specification is synchronized against a running program within a runtime monitor container:* **YRI–DB–RUNTIME–VERIF** *(https://github.com/yerithrd/yri-db-runtime-verif) .*

## 21.21 CONCLUSION

*"Due to incompatibilities with Patrick LAM; after March 10, 2015, I abandoned this research idea because I couldn't afford being laid–off without any letter or any other formal mean of communication other than telling a lie about a supposed ["Ph.D. Research Seminar"] at EIT building in Waterloo main (200 University Ave West) Campus! This project–racist–based course gave me the opportunity to learn perfection my theoretical knowledge and foundations in the following topics:

- COMPILER structure and optimizations

3.) [***Computer–Aided VERIFICATION***]:

This assignment-based course gave me the opportunity to learn foundations of the following topics:

- MANUAL THEOREM proving (also interactive theorem proving with `"interactive theorem prover"` ISABELLE–HOL (HIGH ORDER LOGIC))
- MODEL checking (EDMUND clarke et al.)
- Temporal LOGIC

The course instructor NANCY idiot day, was very verse in this material and could answer almost all questions without searching somewhere else than herself.

Table 12 illustrates all courses I VISITED successfully during my doctoral PH.D. studies degree program in Electrical & Computer Engineering at the UNIVERSITY-white-racist of waterloo.

1.) [***Program Analysis for Web Apps***]:

THIS project-based course provided myself an opportunity to DISCOVER, design and implement a web–based dynamic TAINT analysis for a PHP–JAVA interpreter; I.E. a "JAVA application server" that also interprets and use PHP libraries and code :

*"A Dynamic Taint Analysis for PHP in Quercus" (**https://www.zenodo.org/record/8051621/**)* :

1. git `https://github.com/xnoundou/xresin-taint-analysis`
2. git `https://github.com/xnoundou/xresin-taint-analysis-tests`

2.) [***Static Analysis for Software Engineering (SASE)***]:

THIS project-based course provided myself an opportunity to design and implement a static TAINT dataflow analysis: YERITH–SAINT *(**https://www.zenodo.org/record/8051293**)* :

- git `https://github.com/sazzad114/saint`

I didn't appreciate that instructor PATRICK–lam came to contest my Correct and Righteous definition of taint source and taint sink in front of class during my presentation; AND THAT he was wrong when he said we shall check the internet media; IT DOESN'T make sense to contest something that a doctor–PH.D. has prepared at least 4 weeks in advance such as he did !!!

3.) [***Online Software Security Course–racist–extreme***]:

*I took this software security course to acquire more knowledge in software security vulnerability analysis and detection from a pioneer–leader as university in this area of research as demonstrated by publications and startups created by alumni.*

*MONICA–lam (**https://stanford.edu/suif**) for instance is a very renowned scholar and tech–entrepreneur in security vulnerability research and analysis. THis online web course was very interesting from a content point of view for me as a doctor–of–engineering–ph.d..*

*ESPECIALLY because I WAS working on my "YERITH–SAINT algorithm" (**https://www.archive.org/download/jh-nissi-ece-uwaterloo-grad-talk-2014-04-16/JH_NISSI_ECE_UWATERLOO_GRAD_TALK_2014__04__16.pdf**) FOR detecting, with static dataflow code analysis "à la "Gary A. kildall : A unified approach to global program optimization (**https://doi.acm.org/10.1145/512927.512945**)"", and fixing the HEARTBLEED–security breach bug in "OpenSSL-1.0.1-f" source code (**https://heartbleed.com**) :*

- git `https://github.com/sazzad114/saint`

***"BUT i could notify when i started passing the online examination for getting a printed sent per mailbox certificate; THAT there was a kind of re-make in another stand so "that I WOULD NEVER PASS with more than 95% as required to acquire that certificate – (I HAD PAID around $500 USA dollars for attending this online graduate adult education course)" !!! "***

***"I Was almost always getting a "84% grade" ("3 times") !***
***THIS actually represents the successful passing required academic grade for a doctoral level course at WATERLOO."***

***"I HAD EVEN visited the premises of STANFORD university together with SANDY–beidu–gay–idiot-from-ghana-cuon-pd "in year 2011" while attending a formal method techniques school at ATHERTON-COLLEGE nearby "by around 40 minutes drive"."***

— I have prepared, and presented a static dataflow analysis in November 2010 at ***IBM workshop CDP CASCON*** 2010 (https://www.sable.mcgill.ca/~clump/cdp2010/index.html).

[Workshop–CDp; IBM casCon 2010]

The goal of this static dataflow analysis was to solve the issue of temporal property API rule checking in Plugin–based software.

— I co-taught and assigned marked with Patrick for courses:
1. "Programming for Performance (ECE 459)";
2. "Software Testing, Quality Assurance and Maintenance (ECE 453 / SE 465)".

— I have successfully attended the course ("CS 745 / ECE 725") – ***Computer–Aided Verification*** (https://www.cs.uwaterloo.ca/~nday), taught by "Prof. Dr. Nancy Day". I could learn about following topics:

***COURSE–ECE*** 725

I learned at least 80% of a happyfull life in ontarian Canada from THOMAS as a kind of senior brother of mine.

## 22.22 YEAR "2012" Summary-PAGES

— I co-taught and assigned marked with Patrick & Derek Rayside & Jon Eyolfson & Leo Passos, etc. for courses:

1. "Compilers (ECE 351)": ***Python scripts were written to automatically correct programming assignments from code source repositories***.

— *I went for an academic and professional internship at IBM Toronto Software Lab*;

I wanted to improve my programming languages design and implementation skills as well as BASH–scripting.

I spent 2 Academic terms (8 months) in Markham (Ontario, Canada) for this internship.

I worked there under supervision of ["*Patrick Doyle, M.ASc.*",] and then "*Prof. Vijay Sundaresan, M.Sc.*".

- I worked principally as a tester for certain optimization features of the "J9 JIT compiler" for the `JAVA` application server (Servlet container) ***IBM Websphere*** (`https://en.wikipedia.org/wiki/IBM_WebSphere_Application_Server`) under "*Prof. Vijay Sundaresan, M.Sc.*". I was writing BASH–scripts to run and evaluate implemented certain optimization features for the "J9 JIT compiler" for the `JAVA` application server.
- I could attend to lectures given at IBM Toronto Software Lab by ***"Pr. Prof. Dr.–Ing. Clark Verbrugge"*** (`https://www.sable.mcgill.ca/~clump`) from ***"McGill University"*** on Creating Optimizations for Compilers.
- I could improve my skills with the following tools among others:
  1. "GNU–bash" (`ftp://ftp.gnu.org/pub/gnu/bash`)
  2. ***"GNU–vi / GNU–vim"*** (`https://www.vim.org`)
  3. ***"GNU–screen"*** (`https://savan-nah.gnu.org/projects/screen`).

— "*Prof. Vijay Sundaresan, M.Sc.*" wanted myself to be back next summer for another internship with him at IBM: unfortunately I resigned from this engagement because I felt I had to go back in my home country: Cameroon !

— I befriended myself at IBM with ***"Aayush Prakash, M.ASc. (Waterloo,*** 2013***)"*** (`https://scholar.google.com/citations?user=hUXGzpgAAAAJ&hl=en`) .

1. I had a toyota corolla 2007 LUXUS EDITION; that's why Aayush PRAKASH 1st contacted me so I could help him mornings.

   I tried trice but I COULDN'T anymore because I COULDN'T wake up so early; because MARKHAM is a very big city with so much traffic. BUT WE STAYED friend for ever.

   THX. BRO.

2. We then became roommate in Waterloo the following fall (September – December) term; I COULD appreciate someone nice and very comfortable with my living style since I am the one that was principally renting the 2–bedroom apartment on 16–457 ALBERT–STREET.

   HE never not paid his subrent; and was also kind to learn more about how to better maintain a common washroom.

   THEN he moved to IBM after successfully graduating with a M.ASc. in Electrical & Computer Engineering from PROFESSOR-racist HIREN–patel–racist !

   I then went several times to visit AAYUSH when he moved to Toronto.

— I befriended myself in Toronto with the following fellow Cameroonian:

1. ~~***"Prof. Dr. Alexie Tcheuyap, Ph.D. (Laval, "French Literature", Quebec, Canada,*** 2008***)"***~~ ***(GAY–maker–assassin !)*** (`https://discover.research.utoronto.ca/12279-alexie-tcheuyap`);

3. ~~"Audrey Nguetie Tchamga, B.Sc. (Laval, "Actuarial Sciences", Quebec, Canada, 2008)";~~
4. '~~Judith Ngaleu, B.Sc.~~ (Montreal, "~~Telecommunication Engineering~~", ~~Quebec, Canada, 2005)";~~
5. ~~"Eunice Gapie Yemte, B.Sc. (Luxembourg, "Software Engineering", Luxembourg, 2008)"~~ (assassin);
6. ~~"Valérie Yogho, B.Sc. (Montreal, "Electrical Engineering–Power", Quebec, Canada, 2008)";~~
7. ~~"Tobie Guilliane, M.Sc. (Paris, "Financial Accounting", France, 2008)"~~ (ASSASSIN);
8. ~~"Francis Mbiele Kamga, MBA (ESG, "Business Management", Paris, France, 2007)"~~ (ASSASSIN).
9. ~~"FABRICE wilfried siemeni, B.Eng., (FH–Berlin, "Food Processing Engineering", Berlin, GERMANY, 2005); Diploma (IHN, "applied HOLISTIC NUTRITIONIST", Mississauga, Toronto, Canada, 2012); M.Sc. (FH–Berlin, "Food Processing Engineering", Berlin, GERMANY, 2006)"~~ (ASSASSIN).

— *I have attended following workshops and conferences in* 2012, together with ***"Pr. Prof. Dr.–Ing. Patrick LAM, Ph.D."*** (`https://www.patricklam.ca`), after completion of the internship at IBM Toronto Software Lab (***IBM Canada Ltd*** (`https://www.ibm.com`)):

[***WORKSHOP–local MITACS Ontario; International CONFerence; PLdi*** 2012 ]

1. "***MITACS Ontario*** (`https://www.mitacs.ca`) at the University of Waterloo on how to behave properly when having lunch and dessert with other professionals."
2. ***"Programming Language Design and IMPLEMENTATION (PLDI*** 2012***)"*** (`https://`) in Toronto downtown.

   1. ***I COULD TALK TO several researcher among employees of GRAMMATECH–racist–negger (https://www.grammatech.com) from THOMAS–reps at WISCONSIN–madison. (https://www.wisc.edu)***

## 23.23 YEAR "2013"

**Summary-PAGES**

— *I talked in–person with "Mahesh Tripunitara" about some of my non understanding about Doctor–PhD advisor of mine "Patrick Lam"; "MAHESH TRIPUNITARA" said I shall look for research collaborations within University of Waterloo and just put the name of "Patrick LAM" at end of a publication !*

I AM STILL VERY GRATEFUL for this insight into my life as a scientist that led me to try and talk successfully with following pro-eminent fellow computer scientist:

- *"Vijay Ganesh"; very proud of having learned much of how to write a paper and / or reviews of other papers with him; I cannot be a Ph.D. or doctor without this collaboration !*

  *THIS IS SOMEONE very good at teaching research skills only. I cannot say much about his private behavior since I generally don't mix my private life with professional life !*

- ["Mohammad Hamdaqa" from THE ***STAR research lab*** (https://star.uwaterloo.ca) ]

- ***"Aayush Prakash"*** (https://scholar.google.com/citations?user=hUXGzpgAAAAJ&hl=en) (from IBM internship in Markham)

- ***"Leo Passos" from Generative Software Development research group at university of waterloo*** (https://gsd.uwaterloo.ca/~lpassos)

- *"Frank Tip" (from IBM Research then as Professor at the University of Waterloo): AT all the very much inspirational about 'A SO CALLED taint analysis' in my research area at all.*

  *Before visiting CS846 of "Frank Tip", I cannot know anything about what is a Taint Analysis (**https://www.semanticscholar.org/paper/Temporal-Property-Verification-in-Plugin-based-Noundou/c68c2374b1dca17edab774ee8a1d09b015f29b33**) .*

  *THIS CS846 (Program Analysis of Web Apps) is my best course as a graduate student in terms of working on related papers and writing reviews. Frank Tip is a very good and proud research manager !!!*

  "*Only 1 tip, and you get all the clue about what you really need to do.*"

- ***"Pavel Parizek"*** (https://scholar.google.com/citations?user=M_9_-WsAAAAJ&hl=en) (from ***Programming Language Research Group (PLG)*** (https://plg.uwaterloo.ca), invited by "Ondřej Lhoták")

- ***"BORZOO"*** (https://) (very respected in RV conferences series)

  THIS [friend-kkk] of ***sebastian fischmeister from AUSTRIA–adolf–hitler*** (https://uwaterloo.ca/~sfischme) is so kind that he let myself in his office to present what I really want to perform as research. BUT i could notify an office with kind of ground–tapestry for WHAT-the-fuck.

5. etc.

## 25.25 YEARS "2014" – "03 / 2015" Summary-PAGES

— I find a very imposing book that explains in my better terms algorithms fixed point static dataflow analysis à la "Gary A. kildall : ***A unified approach to global program optimization*** (https://doi.acm.org/10.1145/512927.512945)":

- *"Advanced Compiler Design"; ISBN: "", by author from IBM: .*

THIS book doesn't destroy your brain like the book:

- *"PROGRAM ANALYSIS"; ISBN: "", by author from AMSTERDAM: .*

I implemented my own static dataflow fixed point algorithm in C$^{++}$ object–oriented, and I published it on my student Ph.D. page ~~https://ece.uwaterloo.ca/~xnoumbis~~; And on my defunct GITHUB.COM-web-page:.

I then improved and finished my static dataflow taint analysis, and starts preparing my Ph.D. research seminar as presented in booklets present in "ECE graduate students room" in EIT building !

NOT very long after this online internet–web publication; I LEAVE WATFFORM for Cameroon where I created YERITH R&D, and affiliated software systems programs.

— I met ***Pr. Prof. Dr.–Ing. Ondřej Lhoták*** (https://www.cs.uwaterloo.ca/~olhotak) in–person for a review of my created LLVM context–sensitive static dataflow analysis: HE WAS RELUCTANT only because of 1 missing application of the analysis.

— ***I assisted students in the LABORATORY for coding in C$^{++}$ during 2 weeks:***

[!!! Iranian canadian university of waterloo professors !]!!

***My colleague JON EYOLFSON (https://jeyolfson.com) with Prof. Dr.–Ing. Ladan (https://ece.star.uwaterloo.ca), went to suppress my appointment illegally since I legally, according to ECE department regulations for 2 weeks vacation for personal illness purposes, sent JON eyolfson as a replacement laboratory instructor to myself to LADAN !***

***I couldn't recover my job as teaching assistant in laboratory at my stay–return from JON EYOLFSON that I sent to Prof. Dr.–Ing. Ladan, for only 2 weeks replacement of myself !***

— I have prepared, and presented a context–sensitive static dataflow analysis in January 2015 at a DAVID R. CHERITON SCHOOL OF COMPUTER SCIENCE programming language research group (PLG) seminar talk.

[*Ph.D. Dissertation Defense at PLG*]

***I had this work successfully approved at PLG by "dear-racist-idiot Ondřej Lhoták" (https://plg.uwaterloo.ca)***.

The title of my talk was: ***CONTEXT–SENSITIVE STAGED STATIC TAINT ANALYSIS FOR C USING LLVM*** (https://www.archive.org/download/jh-nissi-ece-uwaterloo-grad-talk-2014-04-16/JH_NISSI_ECE_UWATERLOO_GRAD_TALK_2014__04__16.pdf) ; the presented application was the finding of a buffer-overflow security vulnerability in SSL (Secure Socket Layer) protocol as found in the ***"HEARTBLEED bug"*** (https://heartbleed.com) .

***"Dr.–PH.D. ALI TELAGHANI was the 1$^{st}$ iranian university of waterloo Ph.D. Candidate I reviewed. A former trainee of nancy day from watform. (https://www.watform.uwaterloo.ca) "***

AT THE conference presentation table were present among others :

(a) ***Pr. Prof. Dr. MAGNUS MADSEN*** (https://www.cs.au.dk/~magnusm)
(b) ***Pr. Prof. Dr.–Ing. "Peter Alan Burh"*** (https://www.cs.uwaterloo.ca/about/people/pabuhr)
(c) etc.

— I have prepared, and successfully presented a context–sensitive static dataflow analysis on "April 16, 2014" at an ECE graduate seminar talk.

[*Ph.D. Research Seminar*]

The title of my talk was: ***CONTEXT–SENSITIVE STAGED STATIC TAINT ANALYSIS FOR C USING LLVM*** (https://www.archive.org/download/jh-nissi-ece-uwaterloo-grad-talk-2014-04-16/JH_NISSI_ECE_UWATERLOO_GRAD_TALK_2014__04__16.pdf) .

***There was around at least 20 other students attending this seminar (kind of lecture)***.

[The goal of this static dataflow analysis was to solve the issue of temporal property API rule checking in Plugin–based software by static dataflow taint analysis.]

## 26.26 Research Outcome Hindrance

Summary-PAGES

IT WASN'T POSSIBLE TO IMPLEMENT THE STATIC WHOLE PROGRAM ANALYSIS AS PRESENTED because of the non possibility to acquire points–to information as a pre–processing standalone phase/step from SPARK POINTER ANALYSIS FRAMEWORK IN SOOT.

*It wasn't in my research interest for a "Ph.D. in Electrical & Computer Engineering" to dive into recreating a pointer analysis for **SOOT** by modifying for instance research outcome work of "AAKARSH NAIR, MASc (2009)".*

*It would be more productive to perform research with "Ondřej Lhoták" in "Mathematics Department at DAVID R. CHERITON SCHOOL OF COMPUTER SCIENCE" (**https://www.cs.uwaterloo.ca/~olhotak**) rather than with DR.-PH.D Patrick LAM at ECE Department. So I stayed out of this area of research for the "Ph.D. in Electrical & Computer Engineering"; Computer Software Engineering is more focused on developing methodologies around software rather than creating complex computer algorithms for calculation purposes; AS this is done in Computer Sciences (E.g.: "Ph.D. in Computer Science").*

***It is somehow also feasible for a "Computer Software Engineer" easily to implement a "pointer analysis as a Ph.D. in Computer Sciences could do whenever needed" !***

*I ("Doctor–PH.D. of Engineering Xavier Noumbissi Noundou") have, for instance demonstrated, I could at least at level of a pointer dataflow analysis design and implementation performed by implementing the 1st openly (FOSS) published on the internet (2015): Context-Sensitive Staged Static Dataflow Analyis for C using LLVM ! (**https://www.zenodo.org/record/8051293**) [34] : "**https://github.com/sazzad114/saint**".*

## 27.27 Research Outcome Plagiarism

Summary-PAGES

1. 1st of all, I need to mention that JON eyolfson has tried to remove all connections to my person in his documents I could see on the internet media and / or wherever else.

   ***FOR instance, JON eyolfson doesn't mention anymore he reviewed papers for OOPSLA 2010; I ASSUME because my name stays also in the document viewable from the web I COULD SEE last ..*** (https://dl.acm.org/action/showFmPdf?doi=10.1145%2F1869459&ved=2ahUKEwiboYOExb6IAxXdgP0HHfmOA2YQFnoECCIQAQ&usg=AOvVaw0DwvmxPoRXI7v__J6preeu)

   *"Doctor–PH.D of Engineering JON EYOLFSON" (**https://www.ece.utoronto.ca/people/eyolfson-j**) could for instance implement a Gary A. KILDALL (**https://en.wikipedia.org/wiki/Gary_Kildall**) static dataflow pointer analysis based on my research outcome in "Xavier Noumbissi Noundou's doctoral excerpt dissertation" (**https://www.zenodo.org/record/8051293**) ;*
   *Even though he didn't cite my previous work and also Gary A. KILDALL (**https://en.wikipedia.org/wiki/Gary_Kildall**).*

   *Instead, HE WENT ON TO CITE "John B Kam and Jeffrey D. Ullman", in 'Monotone Data Flow Analysis Frameworks' !*
   *I could also notify that the description of the flow functions in JON EYOLFSON's doctoral thesis, Acknowledged by "Professor Doctor–PH.D of ENGINEERING "~~Ana Milanova~~" from RIP (Rensselaer Polytechnic Institute) (**https://www.cs.rpi.edu/~milanova**) ", Wasn't compliant to the highest academical standard as IT IS DUE for a university in ONTARIO–CANADA.*

   *"Jon" instead of performing a pre–processed step pointer analysis result searching, went on to implement a whole program static dataflow analysis, INCORPORATING an **LLVM**–based pointer analysis, copied from my work, Without citing it ("I finished that work in 2015", While "JON Eyolfson" defended his Ph.D. thesis containing this pointer analysis in 2018).*

   *"I could also note it seems ["Ondřej Lhoták"] wasn't a member of JON eyolfson dissertation defence examination committee (**https://www.cs.uwaterloo.ca/~olhotak**), even though HE ('Ondřej Lhoták") is the most famous scientist in this area of research at the UNIVERSITY of WATERLOO based on his publication and citation record (**https://dblp.org/pid/05/469.html**). "*

1. *"Professor Araving Machinry" also used code sources results from my Static Dataflow Analysis without any citation of it in his Award winning USENIX paper; I mailed him in 2017; HE said that my work wasn't published by a peer-refereed conference and/or workshop, or whatsoever, THAT'S WHY he couldn't cite it.*

   *Instead of citing the 1st original publication of a Free and Open Source Software code (FOSS), 2015, As I have published in on 'www.github.com (git https://github.com/sazzad114/saint )'; ARAVIND cited instead my competitor BODDEN–ERIC (https://www.bodden.de) (from Germany (https://www.fr.wikipedia.org/wiki/Allemagne) and Previous colleague of Patrick LAM (https://www.patricklam.ca) at McGill University (https://www.mcgill.ca)).*

   *Long after terminating my research collaboration with Patrick LAM at University of Waterloo, ONTARIO, CANADA; I could then notify that he was talking especially to "ARAVIND machinry my competitor about my research under his supposed supervision without telling it to myself !"*

2. *A ghanaian ignorant, wretched worldwide called SANDY-beidu thinks he could behave so to alter my JEOVAH–NISSI-confidence at his underground-peggist home in bavaria–waterloo.*

   BEcause I rented a "ford fusion" during my travel to the "1st summer school on formal techniques" in ATHERTON, california; So to be mobile because I HAD TRAVELED to united states of america before when I WAS an employee of bavarian SIemens-medical-solutions; THIS guja went on to buy as his 1st car a similar "ford fusion" since he thought I WANTED to show up in front of him and ANOTHER black-afro-descendant from long-islands.

   *I AM EVEN wondering how this lady from basement science could be invited to the summer school ! AT ALL ! may be a call–girl !*

   *FROM academic level point of view, this ignorant doctor of philosophy in computer science, SeEms to ignore what I COULD BUILD AS [enterprise resource planing (ERP–system) software !!!!!!!!!]*

3. *~~JAN peleska from GERMANY~~, didn't say anything about the law against myself in Cameroon because he is the one who went to report false behaviors of myself to Cammeroon authorities about my living style in Germany without telling anything to me about.*

   *Even at German Embassy in Yaounde, I could notify a strange behavior of people working there against myself while I came to complain against ~~FRANCK–BIYA~~, son of ~~PAUL BIYA~~. ~~THIS GAY with my cousin PATRICE CABRAL SHANDA SANOU~~ (decased by now since March 18, 2024 went to destroy my investment by creating a forestry society just opposite of my lawful building for peaceful habitation usage) !*

   *JAN peleska from GERMANY, also seems to be the one that said and commanded PATRICK LAM to destroy my career because I reluctantly refused to pursue doctoral Ph.D. research (https://www.informatik.uni-bremen.de/gesy) under his supervision at the University of Bremen; I.E. Jan peleska insulted violently myself in front of HELGE LOEDING (https://www.LOEDING-ONLINE.de), SERGE FOPOUSSI NONO ACHILLE (https://www.deutsche-digitale-bibliothek.de/person/gnd/141875240), etc.*

Nomair Naeem | Pr. Prof. Dr. Ondřej Lhoták | Pr. Prof. Dr.–Ing. Frank Tip | Pr. Prof. Dr.–Ing. Patrick Lam | Pr. Prof. Dr.–Ing. Vijay Ganesh) |

   UNIVERSITY OF WATERLOO, WATERLOO, ONTARIO, CANADA [SEP. 2012 – AUG. 2015]
   $YERITH_{R\&D}$, CENTER REGION, CAMEROON — (ADDENDUM WITH TYPESTATE–API USAGE RULE CHECKING; STATE DIAGRAM MEALY MACHINE (SDMM[1d])) [JUNE 2024 – JUNE 2024]

   [*Software Safety, API (application programming interfaces) typestate checking, tracematches, temporal safety property verification, cyber–security, software security vulnerability analysis, computer software static program analysis, computer software dynamic program analysis, software testing, software integration testing, GERMAN STYLE HABILITATION, Disputation–january–2015–DC-room–PETER-ALAN-BUHR*]

   The same class of problems that solve taint analysis issues resolve also API usage rules checking for specification of forbidden usage rules as a typestate specification. A violated API typestate (tracematch–alike) usage rule corresponds to a tainted path or a sub–tainted path (E.g.: path "L4—L7—L9—L10—L11" in Figure 35).

   You specify a forbidden (fail trace) [sequence of method calls that shall not occur in the source code]. Using static dataflow taint analysis, you check whether this specified forbidden (fail trace) corresponds to a tainted path or a subpath (of a fail trace).

   "*API (application programming interfaces) usage rules [typestate formalism is a similar paradigm of specification possible for input for this static context–sensitive taint analysis; "subsequent research of mine alone reveals* state diagram mealy machine (SDMM) *as a subset of typestates* SDMM*[1d],".] of JAVA or C++ library are another realm of application of this static context–sensitive (parametric) dataflow taint analysis.*"

   *"In contrast to Tracematches that specifies WISHED BEHAVIOR (*PROGRAM TRACE*) of API user interface rule calling method sequence; as illustrated in* ***"Hendren, et al. work"*** *(https://plg.uwaterloo.ca/~olhotak/pubs/rv07.pdf), "state diagram mealy machine (*SDMM*) BY* XAVIER NOUMBISSI NOUNDOU, SPECIFIES UNWISHED BEHAVIOR (PROGRAM FORBIDDEN FAIL TRACE)" (SDMM *(**https://www.archive.org/download/yri_ictss_2023/yri_ictss_2023.pdf**)[1d]).*"

   *"One effort could be to give a formal translation methodology from "tracematches onto* state diagram mealy machine (SDMM)*"; Thus enabling automatic reuse of all tracematch specifications directly into a runtime monitor engine like* YRI–DB–RUNTIME–VERIF (**https://www.zenodo.org/records/13232567**) .*"*

   "*Patrick has not at time understood that this application is also possible by static dynamic program analysis tool created by myself at YERITH–RD:* **YRI_QVGE***[13.13]; a Free and Open Source Code Software (FOSS).*"

   "*Patrick LAM my former advisor since '2015–MARCH–10' is missing !*"

   "*Patrick LAM and Xavier noumbissi NOUNDOU have at this effect presented a short overview presentation of 30 minutes at* ***IBM workshop CASCON*** *2010! (https://www.sable.mcgill.ca/~clump/cdp2010/index.html)*"

   *A SINK IS AN ACCEPTING (error) STATE; A SOURCE IS A START STATE.* Sources and sinks are methods from the library (or plugin) used by the program under analysis (PUA). Edges are other method program instructions as seen by a THREE–Address–Code representation such as `Jimple (SOOT), Gimple (GCC), etc.`, and, or LLVM three–address–code format.

   *Since* **YERITH–SAINT** *our (Xavier, Vijay, and Patrick) static dataflow taint analysis algorithm works on three-address-code, LLVM compiler framework could also apply* **YERITH–SAINT** *to JAVA code as input programming language to LLVM frontend–compiler–framework, and perform as well API USAGE RULE check.*

   *IT means in effect that any programming language that could be inputted to LLVM frontend–compiler–framework, COULD BENEFIT FROM THIS SOFTWARE STACK api (application programming interface) rule checker.*

1. *Training in ECE Department (Electrical & Computer Engineering Department):*
Before starting my 1st formal appointment as a teaching assistant at the University of Waterloo, ON, CANADA; In year 2009, I received a group training for graduate students of the ECE (Electrical & Computer Engineering Department).

2. ~~*Passed*~~ *QUALIFICATION interview to teach OBJECT-ORIENTED PROGRAMMING WITH JAVA:*
I SUCCESSFULLY passed a presentation slides lecture for qualification interviews OF 30 minutes added with "Q&A - Questions & Answers" session; to teach Object–Oriented Java Programming to 1st year students at THE university of Waterloo in year 2012.

*NEVERTHELESS, I was not chosen as THE committee said: I QUOTE THEM: "Xavier might no be able to manage this very young age students in a class of* 100 *or more." I WAS AGED MYSELF* 29 *years old in year* 2012 *when this happened ! THX TO PATRICK–IDIOT–LAM*

THE class was given at the end to a seasoned professor named ***SEBATIAN FISCHMEISTER*** (https://ece.uwaterloo.ca/~sfischme), that leads the ***Embedded Research Group in ECE*** (https://ece.uwaterloo.ca/~sfischme).

3. This was optional. *CUT–1; Certificate in University Teaching – 1:*
"THE university of waterloo in ontario, Canada"; offers a formal training program in 4 certificates to qualify graduate students and / or whatsoever qualified persons for teaching at a UNIVERSITY.

I attended the level 1 certificate in 2010, but didn't pursue the last 3 levels because I felt I couldn't perform as fast as I wanted my doctoral research due to the high level of academic requirements due by researching in the ***"static code program analysis"*** area of research; At ***WatForm (WATERLOO FORMAL METHODS group research)*** (https://watform.uwaterloo.ca); led by ***"Prof. Dr. JOE atlee of the CS (Computer Science) Department"*** (https://www.cs.uwaterloo.ca/~jmatlee).

*WE were around* 10 *in a sumptuous and luxurious carpeted room at kind of* 3rd *level in the main building !*

*ESPECIALLY added to the fact I WAS EARNING SUCH A LOW* 999*–CAD, so I HAD to TA-teaching assisting PATRICK lam.*

I. ***Comfort excellent for work research at IBM***:

1. I was working into a brown cubicle and had so much freedom in work that I WAS SOMETIMES afraid that I AM NOT PERFORMING well.

   BUT when I STARTED working closely more with VIJAY I felt so busy that I WAS DREAMING of going home around $03:00PM$ in evening;

   IN total, IBM in MARKHAM offers very good working and research conditions for his employees, ***even better than my previous 1st full–time job as JUNIOR-SOFTWARE-DEVELOPER at SIEMENS MEDICAL SOLUTIONS in Erlangen, BAVARIA, GERMANY !!!***

   ***SIEMENS MEdical solutions was really good in Erlangen; But i didn't like seeing "BOSS gerhard" watching his arm watch any 2 minutes to make sure we only had 45 minutes lunch–break; "Secretary "gudrun" is also really helpful and smiling ! "***

II. ***ISSUES - Problems with some colleagues***:

1. ***Prof. Vijay Sundaresan, MSc. – from Bangalore, INDIA***
   THIS daemon of work was so kind that I ONLY FEEL I have satisfy him as much as he wanted and could !!!

   HE is very attracted to good and fast male workers; because female workers would only try to hijack his time for a snack !!!

   I am very proud of having work with such an amazing scientist at all !!!

   ALSO the team managers, including the chinese woman, were very kind to myself as the only male afro–descendant from AFRICA !!!
2. ***Patrick idiot Doyle, M.ASc. – from Ireland–CANADA***
   THIS ignorant as a teacher and / or mentor couldn't even pick myself at time when I Was waiting for my hiring team for the internship to come at my encounter in the biggest room where we all intern were awaiting 1st day of internship.

III. ***Duties of Graduate INTERN [Doctor of Engineering] Xavier Noumbissi Noundou***:

1. ***FIX SOFTWARE TESTING FEATURE AUTOMATION USING BASH SCRIPTS***
   I felt a lot better at this task because I could feel having a positive impact on the project team lead by manager that I don't remember names and academic titles.

   ALSO vijay sundaresan wasn't very disgusting as people working in the restaurant, that always served myself BURNed food, especially paganan-food.

   Vijay sundaresan is a very talented software lead and developer that I could ever see in my career; I VERY MUCH LIKED THE INTERACTIONS with him compared to PATRICK doyle.

   TODAY I FEEL there are 2 factors that helped:
   A. ***MCGILL university*** (https://www.mcgill.ca) graduates in Computing Sciences are very much talented compared to other students from ONTARIO.
   B. VIJAY–sundaresan was born also outside of Canada–racist–systemic like my recruiting manager that I forgot about names;

2. ***MAINTAIN CERTAIN DAYS BUG DATABASE***
   AT all not very difficult, since I WAS USED TO use CHARMNT in my previous full–time job at Siemens Medical Solutions in Erlangen, BAVARIA, germany.

3. ***ATTEND TO COURSES AT IBM TORONTO-IDIOT LABORATORY GIVEN BY "pr. prof. dr.–ing. clark-salaud verbrugge" FROM MCGILL.ca (https://mcgill.ca) "on Creating Optimizations for Compilers"***

4. ***SOLVE AS MANY AS BUGS IN COMPILER OPTIMIZATION CODE SOURCE IN C++***
   Coming from a program analysis research team, that performed more static code analysis using framework like SOOT, and LLVM; I WAS KIND OF not performing very well at this task at all because of the very applied and complicated data structures; Especially because PATRICK–indigeneous–iranian–irish–from–british–kingdom never even got me to a small talk for explaining me briefly what was the governing ideas leading the development team in MARKHAM.

   INSTEAD, i only received so many documents that I had to read and detect understand myself.

   Earning as much as 3 000 $CAD monthly, I FELT SO BAD that I Went to complain to the manager; a very kind person; that allowed then myself to work with the team lead VIJAY sundaresan...

I. ***APPLICATION FOR A STUDENT DEVELOPER POSITION AT "BERGMANN AUTOMATEN GMBH"***:

***I stumble on this offered position while I WAS LOOKING FOR A NEW DEVELOPER position part–time when I KNEW MY PROJECT with "PROF. DR. RER. POL. KLAUS–racist bönkost" would not be renewed.***

***THE position was advertised on a website for student jobs of the TUHH (https://www.tuhh.de).***

II. ***Duties of Student Software Developer [Vordiplom in Informatik] Xavier noumbissi Noundou***:

1. "LaDIVA java servlet XML parsing project development, and its installer Graphical User Interface (GUI) program developed using ***"JSWING"*** (https://) JAVA library technology."
2. "MESO": "LaDIVA java servlet XML parsing follower project development."

   The novelty in this follower project is that I INTRODUCED, based on my research skills, acquired in BREMEN, an object–relational database object mapper called "***Hibernate*** (https://www.hibernate.org) "; THIS was to be capable of giving newer customers ORACLE 9i functionalities from "LaDIVA java servlet XML parsing project" !!!
3. "C++ coding of a "Sap-ABAP protocol communication interface" to put "Bergmann Automaten GmbH" vending machines in communication with vending machine of Hamburg public library that used "BIBLIOTHECA software library"."
4. "C++ coding of ***SIPv2 control communication protocol*** (https://)."
5. Migration from "ORACLE 9i database tables" onto "MySQL database tables" for the MESO project (follower of LaDIVA software project); I used following technologies:
   a. BASH–scripting
   b. AWK scripting language.

III. ***Students living in Germany I helped during my whole time at "Bergmann Automaten GmbH, Rellingen, Hamburg":***

1. ***"paternal uncle Demo Noundou from Cameroon"***.
   Information Technology student in Bachelor of Sciences (BSc) at "***TUHH — Technische Universität Hamburg–Harbug***" (https://www.tuhh.de).

   "Demo" then obtained by "Bergmann Automaten GmbH" a position as "Bachelor student working on its thesis, project–based":

   *a*. I talked to "Mister Sven Kamrath of this request", by "Mister Demo Noundou", of a Bachelor Thesis Project.

   *b*. HE ("DEMO") then refused a final offer as full–time "JAVA software developer" because he felt he couldn't perform well in a "JAVA plain object (JPO)" software development environment.

   *c*. *"[2008] Demo Noundou, B.Sc." then accepted a position at "Canon Ltd. as* **PHP – JAVA Web Software Developer** *in Osnabrück; HE can–also wear title Dipl.–Ing. (FH)."*.

   *d*. " ***[***2015***] DEMO NOUNDOU is now at his own company in web development & training in HAMBURG.*** (https://ank-technologies.com) "

   *e*. " ***[***2024***] DEMO is also a consultant in african universities curriculum development based in KENYA, and others. NO ONE CAN BE A PROPHET IN HIS HOME–YAOUNDE.*** (https://SAINTEBIBLE.COM/jesusquoteTOCHECK) "

***"DEMO NOUNDOU, B.Sc." also had a "grade of (10.5/20)" which is not a very good grade to enter such position as the one I GOT LATER ON AT siemens medical solutions; A "GRADE OF 14.5/20" is required to apply for any entry level position at ["SIEMENS AG GERMANY–low–payer"].***

IV. ***ISSUES - Problems with some colleagues***:

1. ***Herr Sven Kamrath was very angry at myself 1 day during my stay in Rellingen to talk about an ongoing project 'LaDIVA XML Servlet Parser Server' !***
   ***"He found a subtle bug that I then fixed the same day."***

## RESEARCH AND TEACHING OBJECTIVES – UNI–RACIST BREMEN

1. CREATE A MODEL-BASED TESTING FRAMEWORK TO AUTOMATICALLY GENERATE STATECHART MODEL TEST CASES FOR REACTIVE SYSTEM SOFTWARE ([advised by Prof. Dr. rer. nat. habil. Jan Peleska]) |

   c. ***"Research Master in Computer Science Software 2-Years PROJECT"*** : CogAG project : "Robot "Arni" usage in framework of creating mapping recognition algorithms and cartography.", Cognitive Systems Group (CoSy), "Christian Freksa as Project creator and lead", CoSy – University of Bremen, GERMANY [01/2005 – 03/2007]

   [*Cognition, Cartography, RFID-tag technology,* ***TEXT–TO–SPEECH*** *(`https://`), Robot control, sensor, actuator, Debian Linux, C++, `Qt`, systemic racism*]

   *"My personal contributions were mostly in creating `QT` user interfaces code for controlling the virtual shop and the roboter "ARNI". I also was very much implicated in Software Engineering round–about code such as blackbox code for keeping a BB–blackboard software architecture between our software components and the `MySQL` database tables used to share some of the data between components of the software system."*

   *"I also worked on* ***cognitive cartography algorithms using C/C++****, together with "ALINA, Christian, Sasha, and SERDAR". I was moving the robot for* ***scanning RFID sensors stapled onto our real test grocery store, and then trying to find a way for the robot–ARNI based on customer commands on the robot*** *that were at entrance to help them find their way into the real test grocery store.* ***I used text–to–speech technology to talk with robot–ARNI to customers.*** *"*

   *I was also involved in:*
   1. *HELPING in general project organization for instance:*
      A. Writing project meeting minutes.
      B. Looking for places in train, buses for project week-end ("PROJEKT WOCHENENDE"). Etc.

   4. *Writing `JUnit` testing code for GUI code;*
   5. *Writing BASH–scripts for tackling connection problems between actuators and the Debian Linux Operating System (thanks to Christian).*

   *"Unfortunately I received a grade of only 2.7 (14/20) because I wasn't interested in cartography and cognition algorithms since this was the specialty of "Christian Freksa" and* ***"CoSy Group of Research"*** *(`https://cosy.informatik.uni-bremen.de`)."*

   *THIS IS THE REASON our project advisors "FRANK dylla", and "LUTZ frommberger" gave as justification to this baddest grade during my entire curriculum in ACADEMIA at all !*

   *I also need to mention that I was the only "SCHWARZNEGGER – black from africa" in this research group of mainly white–blond–racists like "MICHA", and "STEPHAN"...*

   *THEse 4 racists-idiot said some day I may not be very comfortable in group working with white–intellectual. I THINK "frommberger the female-male-gay–BORN-male was at origin of such systemic" sexist discrimination around myself; even during my research time under supervision of male-female–chevalie–boivert-PATRICK-lam !*

   d. "A SEMENTIC COMPARISON BETWEEN BÜCHI AUTOMA AND TIMED AUTOMATA (Grade 20/20)", AGBS–UNIVERSITY OF BREMEN, GERMANY [09/2004 – 12/2004]

   *I developed a set of transformations functions that take as input a büchi automaton and generates a timed automaton.*
   *This work was the 1st work under supervision of "Jan Peleska", at our request, because we had interest in working in avionics software development in his company "****Verified Systems International GmbH*** *(`https://www.verified.de`)".*

   *It is my uncle maternal "Théodore Wandji Ngongang" who is the one that gave me this advise at that time of my life where I was around 20 years old in Germany; "Just at my 2nd year of University."*

   *"Finally a small offer a 200 Euros monthly came after I performed 100 % for this work unpaid [details at link 1b], t hat I used as Independent study. "*

   e. "1st & 2nd Semester Software Development PROJECT (Grade 18/20)", ST–UNIVERSITY OF BREMEN, GERMANY [09/2002 – 09/2003]

   ["V"–"WATER FALL"–MODEL of Software Development, Software Engineering, Project Requirements, "Gant Diagrams", UML 2.0, XML, PHP, MySQL, `JAVA`]

   - *"This 1st and 2nd semester project, divided in 2 parts consisted in creating a multi–user dungeon server (MUD–server) where a virtual world existed; 1st year was used to elicit user software program requirements, and establish "Requirement documents using UML 2.0".*
   - *"`"telnet (port 23)"` protocol was used as client–server communication mechanism."*

*"As a student of computer science in the "FB3" of the UNIVERSITY OF Bremen, In city Bremen, HANSEATISCHE-CITY, Germany, WE had a psychologist as 1 of our lecturer called "Dipl.–Psych RALF–idiot Eric Streibl"."*

*RALF–idiot was kind of very reluctant to discriminative opportunities because I remember having visited courses on web creation based on PHP, and MariaDB, since I WAS having [a student–job (WERKSTUDENT) at "ZMML"].*

*Eric RALF–idiot also gave myself a so called course titled "PROPÄDEUTIK" where we students learned on how to effectively, clearly present our projects or work; THIS was done in groups and individually !*

*Through them, I could know more about the origins of the autonomous–HANSE-STADT of Bremen, since "GOVERNOR SMIDT" as upper–upper grandfather of "MR. RAÏNER Schulze–Smidt", was governor of BREMEN for 50–years, and is the one person that acquire land from "HANNOVER–autonomous–STATE", to create a water–port–German–haven; "BREMERHAVEN", as a city and port for the autonomous city–federal–STATE of BREMEN.*

## 1. ~~SHANDA family as a destructive life for~~ BOTH noumbissi, and NGONGANG and whereabouts families

"SHANDA Ndjatie Dorothee, and her spouse official TONME-shanda–JEAN-claude" are the 1st persons that started destruction of my life by coming into my family with so called psychiatrist, via WOLFGANG–owona.

"OWONA wolfgang" seemed to getting married with ANGELA which is a cousin maternal of mine because HE WANTS to sell my soul to AMERICAN USA societies in the sense that HE put myself into troubles via GOVERNMENTS AGENCIES, all of them Are linked to secret services to which he belongs, as I HAVE HEARD from ANGELA myself.

Frequently, HE idiot wife says he traveled to USA, so he would talk to people that want my OPEN SOURCE entrepreneurial adventures to be stopped; GET money from them, Then organize hijacking with following agencies:

1.) Social Services; so I AM NO MORE independent in the state of biya–regime;

2.) HOSPITAL like "laquintinie", etc.

Dr.–wolfgang, which is born from MINISTER owona–joseph–deceased, And mother as daughter of MINISTER owona-Gregoire has tried to put Rosicruciary organization AMORC into my life via Angela who proposed to me to join a so called "lectorium–rosicrucae" based at external relations ministry Where WOLFGANG attends with her.

## 2. WAAH (anne), spouse Kemmegni, is a subject of BIYA SPOUSE !!!

This 'megere' of my grand mother mother's side; Tchuitchui–ELIZABETH;

Is obviously a devilish demon that possesses super–natural powers in dark kingdoms; Based of 3 sacred objects I have last seen in her house in Byemassi–YDE.

1. "Buffle" horns as a representation of Money–laundry–BAPHOMET–satan
2. 2 turtles carapaces in the back of the "Buffle" horns.
3. 2 portraits of girls invoking and respectively crying;

## 3. **"SANGO, spouse Bernadette Noundou"** IS SOMEWHAT a suspect at origin of this family tragedy !!!

This pseudo-suspect seems to want to acquire my place at KING.

Laurent tchandeu ministry plenipotentiary is a subject of itself at Batchieu–Babouantou kings places.

Obviously, every member of GRAND–FATHER noundou nuclear family is a subject to this GUJA.

4. **"Victor Koliou NOUNDOU" IS A NOBODY into my life;**

THIS idiot, junior brother of my deceased late father "Théodore Noumbissi" is contacting people INCLUDING "derek rayside (drayside@uwaterloo.ca)" (Already talking with other ignorant paternal unwanted uncle "Jules NTETA noundou (julesnteta@gmail.com; julesnteta@yahoo.fr" from Cameroon external research criminal agency (DGRE));

The idiot Victor presents itself as a chief of a family where I am supposed to belong with some faked official documents from uncle politician LAURENT tchandeu-IDIOT.

OFFICIAL registered document that "Victor KOLIOU NOUNDOU" refused to give a copy to myself when I asked him about, since I am the only, according to documents written by my late grand–father Michel NOUNDOU, Legitimate SUPERVISOR OF HIS left over to children and descendants, WEALTH AND MATERIAL POSSESSIONS !

"Afriland first–bank" and "Intelligentsia employee "**Jean-PAUL–yamtche**"; And CEO currently as of April 2024", A person that I really don't really know whereabouts in his genealogy or affiliation to my late grand–father; "***Jean-PAUL–yamtche***" owns a big storey house just opposite face of our main common house entrance in Babouantou idiot village !

"Afriland first–bank" and Intelligentsia MAIN CREATOR AND INSPIRATORY person; *"Dr. PAUL fokam–kammogne"*, was, according to sayings of my genitor Rose Sangnou, 1 of an intimate friend of my late father and genitor "Théodore NOUMBISSI" !

"LAURENT tchandeu and Rose Sangnou" went to a place of "CCEI–bank (former company name and source of AFRILAND FIRST–BANK)", according to "Rose Sangnou" told myself in person when I reached age 32; That they ("LAURENT Tchandeu my paternal uncle" and "Rose SANGNOU" my genitor) gave money (BRIBED) to an employee of "CCEI–BANK" where "late Théodore NOUMBISSI" owed "*4 000 000* XAF" at his death so that ***MORTGAGE ("hypothèque" in French) on his property–land*** in ***BONABERI-DLA*** **(700 $m^2$)** would be erased everywhere in computers and documents of former 'CCEI-bank' !

"LAURENT tchandeu and Rose Sangnou" also told me, after I had an employment interview with ***"Dr. PAUL fokam–kammogne"***; that my later genitor and father "Théodore NOUMBISSI" is the one, together with "HUGUES NTOMANI TIAKO", his business partner and soul–mate at that former ancient time, THAT computerized totally all enterprises businesses of "CCEI–bank (former company name and source of AFRILAND FIRST–BANK)" !

I remember seeing my late father only 1 time in a day, around 19 : 00 at diner time; this is before we moved to Yaounde in year 1990; After he quits "CA–CORP (Computer Associates Corporation)–DLA" to open and manage solely "CA–CORP (Computer Associates Corporation)–YDE" !

5. **"LAURENT tchandeu (ltchandeu@yahoo.fr)" ASSASSINATES in an hospital "THEODORE noumbissi"; late father of mine on January** 1992**;**

AS an orphan at age of 7.5 years old, I remember uncle paternal Laurent came into our biggest house in YDE–Essos to settle in the secondary apartment at the back of our house.

6. **"LAURENT tchandeu" Tries with "Hugues Ntomani Tiako" "VIA judith ngaleu in Etobicoke (Toronto, Ontario, Canada)" to crash "my Toyota Corolla LE–**2003**" in December** 2013

This sorcerer freemason ("Hugues Ntomani Tiako"), and Christian-so-called-ORTHODOX-catholic of Roma, acknowledges that IT SHALLN'T be that I gain cause in the court of justice process THAT I have against "LAQUINTINIE and SED", that sent 9 people, including "Christian Eyoum, MD, PsyD"; in February 2021 at night around 23 : 30, to hijack and attempts to kill myself.

SED sent myself 1 time in a CABANON Because they receive 15, 000 FCFA from "*Henri Bertrand Ngatchou and my genitor ROSE Sangnou*", IN douala 2018.

"Galax Yves Landry Etoga" is personally, as a CPDM political party member, AND not as a SED authority implicated in trying to kill myself through psychiatry and / or any other means !

"Laurent Tchandeu (assassin of Ingrid's father and his elder brother in Babouantou–village)" is the one that connected "Ingrid TEUNTCHOU NOUMENI", born (geboren in German) TCHITCHUI NOUMBISSI; my uterine sister, to marry officially "THE IDIOT AND PSY–CHILD since age 12 *CHANDRIAND TEUNTCHOU NOUMENI*".

7. **"LAURENT tchandeu" Deems and Dares OR-DONATES to squeeze my financial money income VIA genitor of mine "Rose SANGNOU" Since September** 2023 **until TODAY.**

8. ***"**JULES NTETA NOUNDOU extremely dangerous person"* **is a consanguine brother (same father; another, still living mother, in same marriage) of "LAURENT tchandeu"; And his helper in almost everything dirty and / or clean here in CMR!**

9. **("Derek Rayside drayside@uwaterloo.ca") pays money to MATHGENEALOGY.ORG project so that an equivalence to my *"Doctor–Ph.D. of Engineering degree from UWATERLOO"*, will be turned from PhD into the non-academic degree ABD; just 2 weeks after talking with "JULES NTETA NOUNDOU" at his dirty—office in "YDE–élig–esssono"**

10. **"David demo noundou" tries to connect me to Laurent external security research agent "Jean–Daniel–tujilo-tchokote"; "VIA his natal village idiot babouantou friend Célestin puene (cpuene@cscmonavenir.ca)".**

11. **"David demo noundou" has written documents in Germany that I was mentally ill while staying 3 days in his rental apartment in September 2018.**

12. **"David demo noundou" is A student of myself at the TUHH; benjamin brother of my late father "THEODORE noumbissi"; since I could help him get an bachelor internship At "GEWETE GmBH", Where I was working while a student at Bremen University state.**

## 28.28 HIJACK OF MY PRIVATELY OWNED PROPERTY BY laquintinie on FEBRUARY 2021

[*r*-DR. CHRISTIAN EYOUM – tALKING AT ***BBC–british-broadcast-corporation*** (https://), AND ⋆⋆–rotarian–⋆⋆ club member in douala–sawa–tribe, chief of psy staff of LAQUINTINIE HOSPITAL IN DOUALA (LITTORAL REGION, CAMEROON)], has sent in FEB. 2021, without any official document, 7 people to break into my privately owned (closed with a steel gate) house in DOUALA, so to hijack myself and terrorize me. THIS HAPPENED AT NIGHT AROUND 11:00 PM, with BERTRAND, breaking my gate seals with a weapon of some sort (BERTRAND, was the lead thief of DR. CHRISTIAN EYOUM).

THIS HIJACK OR ATTACK on my person happened just 1 day after I denounced to PRC.CM and SHANDY-SHANDY-CABINET.COM (biological father of my mother's side cousin ANGELA) a fake "BACCALAURÉAT"-DEGREE from 'ANGELA TCHAMOU SHANDA OWONA SPOUSE DR. WOLFGANG FERNAND JR. OWONA', because her sister-cousin CYNTHIA NKWOUANO told me about this: "ANGELA WENT TO CENTRAL AFRICAN REPUBLIC and received her diploma in a hotel".

I ALSO BECAME AN AGENT OF CAMEROONIAN DEFENSE AND SECURITY FORCES ON FEBRUARY 14, 2021.

DR. CHRISTIAN EYOUM after this kidnapping, held me at LAQUINTINIE HOSPITAL for poisoning me 2 weeks, AND THEN RELEASED AN OFFICIAL DOCUMENT TO MY RELATIVE ROSE SANGNOU.

ROSE SANGNOU has since been using the fake document to go meet my clients to say that I AM A PSY PATIENT AND THAT THEY SHALL NOT DEAL ANYTHING WITH MYSELF. ROSE SANGNOU also went to meet all my privately–owned real estate properties' neighbors TO DO THE SAME.

I HAVE COMPLAINT BEFORE DOUALA–NDOKOTI JURISDICTIONAL TRIBUNAL in front of JUDGE HUGUES ALAIN YAGER MABOMA SINCE FEB. 2021:

- 3 convocations have been sent by now to DR. CHRISTIAN EYOUM; he hasn't come to respond to prosecutors.
- I am now awaiting for a "MANDAT D'EMMENER" AGAINST DR. CHRISTIAN EYOUM, a form of order from judge that will bring DR. CHRISTIAN EYOUM in front of prosecutors by police force.

## 29.29 Kidnapping on FEB. 2023 WHILE WALKING BACK IN MY YAOUNDÉ REAL ESTATE PROPERTY

1. DR. LAURE MENGUENE MVINDI accepts to send 2 thugs-burglars on the road to kidnap myself, while I was walking on street to get back into my house, and to bring me in a cab at psychiatric hospital 'JAMOT' in YAOUNDÉ; this is requested by DOROTHÉE NDJATIÉ SHANDA, spouse pr. shanda–tonme jean–claude.

   DR. LAURE MENGUENE MVINDI is chief of psychiatry staff at psychiatric hospital 'JAMOT' in YAOUNDÉ.

   DR. LAURE MENGUENE MVINDI IS VERY WELL KNOWN IN YAOUNDÉ to say disturbing voices against BAMILEKE-TRIBE, an ethnic group of the west cameroon to which, I by birth, and not by spirit [I AM A BORN AGAIN CHRISTIAN], belong.
2. AFTER 2 WEEKS OF POISONING AND TRYING TO DESTROY MY BODY WITH DRUGS AND PILLS, a yellow clothed (level of BACHELOR OF SCIENCE) gate guard OF "HÔPITAL JAMOT" that I don't remember the name, tries to SNEAK INTO my private life by calling me on my private cell phone number [ (+237) 6 52 39 69 50 ] every other day.

   I SAID TO HIM THAT I DON'T ENTERTAIN RELATIONSHIPS WITH PEOPLE LIKE HIM.

   PS: THIS GATE GUARD, yellow–clothed with an uniform, is of BETI–TRIBE like DR. LAURE MENGUENE MVINDI!
3. S2TBED, a so–called forestry society here in Yaoundé seems to be a secret agency against black–owned societies here in Cameroon.

## 30.30 Attempt to give me a psy consultation by ROSE SANGNOU's sister DR. ANNIE POKAM-KWAM

AFTER RELEASED FROM 'JAMOT', i stop taking the drugs that i was forced to intake by drink.

Knowing that this is judicial information time, I accept to talk to DR. ANNIE POKAM-KWAM, which is DOROTHÉE NDJATIÉ SHANDA and ROSE SANGNOU sister, by my own request.

My goal is at time to collect as much information as possible.

She (DR. ANNIE POKAM-KWAM) tries to convince me that i should intake psy drugs in order to be more sociable !

## 31.31 THREAT ON MY PERSON BY ROSE SANGNOU IN JUNE 2023

In June 2023, in its 25$^{th}$ week, a relative, ROSE SANGNOU, living and based in Douala for more than 60 years, comes into Yaoundé, and settle for 1 week at DOROTHÉE NDJATIÉ SHANDA's house, at her (DOROTHÉE NDJATIÉ SHANDA) invite.

ROSE SANGNOU, whom was told, no more to persecute myself, during her interrogation time at prosecutors' office in Douala-Ndokoti, starts calling me increasingly and says she is in Yaoundé because her sister (DOROTHÉE NDJATIÉ SHANDA) son, PATRICE SHANDA SANOU CABRAL, is very ill and hospitalized at Yaoundé general hospital.

ROSE SANGNOU insits that we shall meet because she is my mother. I then accept, but refused to meet up her at my private owned property in Yaoundé-Ahala-Nsimbock. We then meet up first at DOROTHÉE NDJATIÉ SHANDA house, then at supermarket 'supermarché carrefour EKIÉ' in YAOUNDÉ-ÉKIÉ.

THIS PERIOD IS judicial information investigation time, that is mostly why I accepted to meet up with her.

I NOTICE with an impression THAT my mother ROSE SANGNOU COULD HAVE BEEN BRUTALIZED ON HER LEFT KNEE. SHE SAID SHE FELT DOWN IN THE BACK OF HER SISTER'S HOUSE (DOROTHÉE NDJATIÉ SHANDA) because the maid woman SPILLED water with amidon on the floor.

AFTER FINISHING our lunch, my mother ROSE SANGNOU says I SHOULD START AGAIN TO TAKE psychiatric drugs: I IMMEDIATELY STAND UP FROM LUNCH TABLE AND RETURNS TO MY PRIVATELY OWNED PROPERTY, '**immeuble yerith**'.

## 32.32 MY SUSPISCIONS about real activities of pr. shanda–tonme jean–claude and his wife

SEVERAL TIMES, pr. shanda–tonme jean–claude invited myself to hotel PARFAIT GARDEN in yaoundé so that I COULD SEE HIM ACTING as managing director of expatriate US CITIZEN ELECTRICAL ENERGY COMPANY.

so i suspect pr. shanda–tonme jean–claude receives money from some big giants NORTH–AMERICAN COMPANIES, so to disrupt my activities in the free open source software (FOSS) AREA.

## 33.33 THREAT ON MY PERSON BY Victor Koliou Noundou IN JULY 2023

**PREVIOUSLY.** HÔPITAL ADLUCEM, a hospital in Douala–BONAMOUSSADI, that I went with paternal uncle Victor Koliou Noundou to threat a hyperglycemia, established with him (uncle Victor Koliou Noundou) THAT I SHOULD BE BROUGHT USING AN AMBULANCE to 'LAQUINITIE–CABANON' because Dr. MVONDO felt that I am not well behaving !

Victor Koliou Noundou, a brother of my late father Théodore Noumbissi ASKED MYSELF, relentlessly, if I still take the psychiatric drugs.

I need to note here that, WITHOUT ANY APPARENT REASON, another brother of my late father Théodore Noumbissi, Laurent Tchandeu, former minister plenipotentiary, sent A TRUCK WITH 6 firefighters to take me by force from my privately rented apartment in yaoundé, in the year 2015, SO TO BRING ME TO A PSYCHIATRIST OF 'JAMOT': Dr. Kamga.

IN FRONT OF ME, Dr. Kamga SAYS TO Laurent Tchandeu AND ROSE SANGNOU THAT HE CAN'T KEEP ME THERE AT 'JAMOT' BECAUSE I AM NOT A PSYCHIATRIC DISEASED PERSON.

Dr. Kamga ALSO MENTIONS THAT IF I GO TO COURT AGAINST HIM, HE WOULD PUT ALL TROUBLES on ROSE SANGNOU since WHAT SHE SAID TO HIM SO THAT HE SENT A FIREFIGHTER TRUCK to take myself by force from my privately rented apartment is wrong.

Laurent Tchandeu IS TRYING SINCE Théodore Noumbissi, my deceased (JANUARY 9, 1992) father (and chief of the NOUNDOU family), passed away, to sack my POSITION AS CHIEF OF THE FAMILY NOUNDOU:

- IN MAY 2023, politician GRÉGOIRE OWONA, grand-father of MY COUSIN MOTHER SIDE "ANGELA TCHAMOU SHANDA OWONA SPOUSE DR. WOLFGANG FERNAND JR. OWONA", comes with Laurent Tchandeu (and spouse DR. HENRIETTE POLA) in my village BABOUANTOU to open a primary school as gift from political party R.D.P.C (C.P.D.M).

## 34.34 THREAT ON MY PERSON BY Laurent Tchandeu ON AUGUST 3rd, 2023

DR. Laurent Tchandeu, a paternal uncle of mine, tries to harass myself with taking psychiatric drugs.

HE DID THIS USING TELEPHONY APPLICATION "whatsapp". ´

## 35.35 WAITING FOR judge JUDGE HUGUES ALAIN YAGER MABOMA

JUDGE HUGUES ALAIN YAGER MABOMA SEEMS TO WANT TO destroy evidences against state hospital laquintinie since He (JUDGE HUGUES ALAIN YAGER MABOMA) hasn't call by police force DR. CHRISTIAN EYOUM to come answer allegations against him about TRYING TO KILL ME with psychiatric drugs at night after HIJACKING MY PRIVATE PROPERTY IN DOUALA-CITÉ-DES-PALMIERS !

## 36.36 ARMY GENDARMERIE COLONEL KÉMAJOU harasses ROSE sangnou my mother

ROSE SANGNOU, my mother, complained to myself that KÉMAJOU is calling her very frequently to tell her I (PROF. DR.–ING. DIPL.–INF. XAVIER noumbissi NOUNDOU) is not mentally sane since HE is doing a lot of christian cross–sign while walking on Yaoundé streets.

## 37.37 ARMY GENDARMERIE COLONEL KÉMAJOU destroying my life as a neighbor

A FORMER SED (SÉCRÉTARIAT D'ÉTAT À LA GENDARMERIE) retired colonel of cameroon gendarmerie, who has spying devices AT HOME TO HEAR PHONE, OR WHATSAPP conversations; MAKES CURRENT ELECTRICITY cut–off whenever I RECEIVE MONEY so I cannot cook and refrigerate my food properly.

THIS VERY POOR PERSON, both in spirit and financially; whose wife makes money out of cooking food for street workers, COULD SUCCESSFULLY intimidate people not to come attend work or anything else into my real estate properties.

COLONEL (retired) of Army Gendarmerie KÉMAJOU couldn't lie and convince people that I DON'T POSSESS A Ph.D in Computer Engineering; since his son "Jonas Kémajou" who he also in gendarmerie told me once: "Myself I also POSSESS A Ph.D QUALIFICATION WITH NO DEGREE AT HOME" !

I am wondering in Cameroon why army intermediates in civilian life and affairs; THIS DOESN'T HAPPEN usually in rich and developed countries like Germany.

This day of **Saturday November** 18, 2023; while I was talking to a computer technician neighbor named Gabriel Takoumbe, KÉMAJOU came along walking with an indigo "Garde Présidentielle (special unit of cameroon forces attached only for the President of The Republic.)" T-shirt.

COLONEL kemajou tells me HE WANTS MY PERSON NOT TO WRITE anymore on his forfeitures against myself; in front of at least 7 young men and women, saying He didn't call my genitor mother any day before.

COLONEL kemajou sect named JÉRUSALEM APOSTOLAT, sacks every public entry road to my real estate 2–storey building (unfinished yet).

Yves Landry Galax ETOGA, chief of secret services of Cameroon seems to like to try harassing competent professors of science and technology like myself. May be He works against CAMEROONIAN SKILLED ORPHANS like my humble person in JEOVAH–NISSI in heaven !

PROF. DR. RER. NAT. HABIL. JAN PELESKA and DR. PATRICK LAM have never said anything against what is happening to myself since 3 years ago; ALSO, Patrick is a member of Rotarian organization ROSICRUCIARY !

"29" November **2023: I HAVE RENOUNCED TO AN ATTORNEY since TCHANA NJEUTCHA Synclaire is clearly going against my personal interests !**

"03" December **2023: KEMAJOU and its troops that call themselves Christians ARE HARASSING PEOPLE COMING HOME.**

"04" December **2023: I cannot recognized Cameroon where someone high qualified by myself is permanently harassed physically by illegal neighbors like KEMAJOU gendarmerie colonel Criminal.**
**KEMAJOU gendarmerie colonel tries on the street to talk to myself while I am coming back from a hardware shop.**
**It seems to myself that illegal neighbors religious sect "Jerusalem Apostolat" is trying to make confusion about my humble person wherever I go in my life; Kemajou gendarmerie colonel has tried around my neighborhood, with help of SECTARIAN OF JERUSALEM APOSTOLAT; to make noise that XAVIER noumbissi noundou IS A PSYCHIATRIC PATIENT that doesn't want to take pills !**

## 38.38 THREAT ON MY PERSON BY ROSE SANGNOU IN JANUARY 2024

ROSE SANGNOU, despite that JUDGE HUGUES ALAIN YAGER MABOMA gave her prohibition to come to my home in Yaounde during year 2023, came by force with someone that I don't know whereabouts To my neighbor "CARINE LELE njougep tchana" To incriminate her about chairs she owns by now;

I destroyed chairs that were not in good shape last year from my humble home by throwing them away outside. It seems "CARINE LELE njougep tchana" put them in her personal home without asking myself since I just threw them away; which is normal since They don't belonged to me anymore !

"30" January **2024:** It seems my genitor mother ROSE SANGNOU went to talk to gendarmerie people so they could harass myself to go for an illegal psychiatric treatment; because while I was talking to Justice "ME. ANDRÉ Mbet" today, I saw 1 gendarmerie man came into his personal office where he also, with his wife, Owns a financial transaction center.

I immediately told Justice "ME. ANDRE Mbet" about this attitude of gendarmerie people coming inside where I perform businesses to make some kind of visual and gesture signs to owners of businesses, So they wouldn't deal with myself anymore !

"24, 25" ***April* 2024:** 1 man wearing a talkie-walkie came across my personal road in Simbock YDE.

I went to talk to him since I was looking for a technician that didn't finish a work in my humble house. For 6 days now, this technician wasn't in my house anymore despite myself telling him to finish his work on my steel door.

I suspect again ***justice ("huissier") SHANDA-DJATIE and her spouse Pr. JEAN–CLAUDE shanda-tonme*** to harass my genitor and mother Rose SANGNOU to try to bring myself by force to a psychiatric destructive mind place.

JERUSALEM–APOSTOLAT rosicrucian sect tried to follow myself these last 2 days using the brigand 'Moise BATOMEN', and another person male, THAT i don't know whereabouts but that live behind "Carine Lele Njougep Tchana" house for at least 6 months from now backwards in time !

***Just 1 month before, I was stopped from walking by to our main official road by a sectarian female of Jerusalem–APOSTOLAT. I now see that it was meant to bring myself to other roads were they don't have their own people on it, so they could hijack myself properly to bring by force to a psychiatric hospital so to try to deteriorate my physical and psy body.***

## 39.39 SHANDA SANOU patrice cabral idiot son of Dorothée Shanda Owona passes away at age 33 (March 18, 2024)

"Dorothée Shanda Owona" who had tried to make myself sodomized "by Bertrand of Laquintinie" in Feb. 2021, illegally by police force.

SHE leaves now her son out of life after 3.5 years trying to destroy my life; Probably because she got some laundry money for this dirty task against A BORN-AGAIN–CHRISTIAN !

NONE of the people I have heard from coming back "from some kind of obituary ceremony" could even see any corpse of ATTORNEY OF LAW, deceased, Patrick Cabral SHANDA SANOU !

## 40.40 Dr. Annie Metiam, Spouse Eric-POKAM-WAM tries to say something illegally about my mental health publicly (May 23, 2024)

A sister of my mother and genitor ROSE SANGNOU, DR. ANNIE POKAM-KWAM, sends a RECORDED AUDIO MESSAGE via whatsapp-phone–android–application, without any request from "Rose Sangnou" and / or my person about a supposed mental health abilities report that She as GASTROENTEROLOGIST has wrote based on our investigation whatsapp call that was done in year 2023 during around the month of JUNE.

This retarded personage that was initially at "Alfred Saker School" oriented to perform Commerce AND Accounting, WITH A grade of 10.00/20 is an idiot; Not just because *she doesn't even have a "degree of Doctor of Medicine (Dr. med.)"*.

This happens unsolicited as I am having a talk together with "Rose Sangnou"; AND "PASTOR marco OF Pentecostal Christian CHURCH" ' 'chapelle de la gloire de christ" in DLA.

I AM SUSPICIOUS of this corrupt C.P.D.M aunt that has german citizenship to be from Central Intelligence Agency (CIA); hired specially to try to kill me by any means; even using sorcery.

## 41.41 YAGER MABOMA is an idiot of justice judge here in CMR

Since 2021, February that I have complaint for a group of harassers that came into my compound to brutalize myself in front of a so called judge of instruction from sawa tribal tribe, I STILL RECEIVE PEOPLE TRYING TO AGGRESS and Harass myself.

Il ressort de nos expériences en entreprises commerciales et/ou organisations non gouvernementales; Sage Gescom i7, SAP Business One, Odoo, etc., sont SIMPLEMENT TRÈS difficile à intégrer dans 1 environnement de TRAVAIL où le personnel opérationnel et/ou logistique à 1 niveau éducatif INFÉRIEUR À 1 LICENCE!

## 2.3 AVANTAGES DE L'UTILISATION DES PGI (erp en ANGLAIS)

L'utilisation des PGI (erp an anglais) aurait des avantages très imposants pour des pouvoirs publics en ce qui concerne des points suivants :

1. ***FACILITATION DE L'ÉCONOMIE;*** des petits commerçants ne maîtrisant plus des techniques de gestion commerciale MODERNE, ne souffrirait PLUS DU problème de manque de savoir!

   EN EFFET, tout les savoirs de techniques modernes en gestion commerciale et comptable SERAIENT IMPLÉMENTÉ dans YERITH–PGI–9.0!

2. ***FACILITATION DE LA COLLECTE DES IMPÔTS (fisc) :*** en effet, le calcul des recettes et des montants imposables par des administrations fiscales aux commerçants et industriels POURRAIENT ÊTRE fait directement sur la base DE LEUR (PROPRE DÉCLARATION EN LIGNE sur le média INTERNET)!

   EN EFFET, CECI EST MONNAIE COURANTE dans des grands pays industriels occidentaux TELS QUE LA RÉPUBLIQUE FÉDÉRALE D'ALLEMAGNE (RFA), LE CANADA, ETC.!

3. ***FACILITATION DE L'IMPLÉMENTATION des nouvelles politiques économiques ET FISCALES du cameroun!***

   En effet, chaque année budgétaire, des FORMULES DE CALCULS seraient automatiquement ré-actualisées dans YERITH–PGI–9.0 (YERITH–ERP–9.0 en ANGLAIS), au fin de faciliter l'implémentation des politiques financières et économiques du CAMEROUN!

## 2.4 Recommandations EFFECTIVES AU GOUVERNEMENT

### 2.4.1 Coûts TECHNOLOGIQUES

Table 2.2 – Comparaison de réutilisation au plan financier (**APPROXIMATIF**) entre YERITH–PGI–9.0 et quelques autres progiciels de gestion intégré

| CRITÈRES | YERITH–PGI–9.0 | Sage Gescom i7 | SAP Business One |
|---|---|---|---|
| **SYSTÈME D'EXPLOITATION** | Debian Linux | MS Windows | Debian Linux |
| Coût D'ACQUISITION | 30 $USA | 200 $USA | 30 $USA |
| Coût De La Formation POUR 1 TECHNICIEN | 300 $USA | VARIABLE | VARIABLE |
| Coût De La Formation POUR 1 USAGER | 500 $USA | VARIABLE | VARIABLE |
| Coût De La Maintenance (mensuel) POUR 1 ORDINATEUR | 30 $USA | VARIABLE | VARIABLE |
| **Coût De L'acquisition du PGI (ERP en ANGLAIS)** | **VARIABLE** | **VARIABLE** | **VARIABLE** |

LE TABLEAU 2.2 COMPARATIF DES RESSOURCES FINANCIÈRES RELATIVES À L'ACQUISITION ET À L'ENTRETIEN DES PROGICIELS DE GESTION INTÉGRÉ AU CAMEROUN ressort que :

1. LE SYSTÈME D'EXPLOITATION Debian Linux EST LE MEILLEUR.

### 2.4.2 Conclusions

L'UTILISATION DES PGI (ERP en Anglais) devrait être PROMUE PAR DES MESURES TELLES QUE :

1. ***LA RÉDUCTION DE CERTAINES TAXES entrepreneuriales AUX FINS DE PROMOUVOIR L'ACHAT ET / OU LA maintenance des progiciels de gestion intégré***
2. ***LA SUBVENTION financière et/ou économique de l'entrepreneur–investisseur***

EN EFFET, la ré–utilisation des pgi (ERP en anglais) AUGMENTERAIT LA PRODUCTIVITÉ DES entreprises à 1 haut niveau, DIMINUANT ainsi la faillite et la baisse de productivité !

# PERSPECTIVES D'AVENIRS

## 3.1 PLAN COMMERCIAL ET INDUSTRIEL

Figure 3.1 – Une image d'1 ordinateur portable $2-1$ (2 en 1).

JE RECOMMANDE LE financement de LA START–UP TECHNOLOGIQUE YERITH$_{r\&d}$POUR LA MISE EN ŒUVRE DES "ordinateurs portables $2-1$ (2 en 1)" MUNIS de YERITH–PGI–9.0 (EN ANGLAIS YERITH–ERP–9.0)!

En particulier, des "ordinateurs portables $2-1$ (2 en 1)" sont très ré–utilisables dans des structures et/ou secteurs industriels et/ou tertiaires avec des caractéristiques suivantes :

1. OPÉRATIONS DE GESTION AUX endroits sans tables et / ou espaces de dépôts (ex : À L'ENTRÉE D'1 SCIERIE industrielle, etc.)
2. MANQUE D'ESPACE pour le dépôt d'ordinateurs "DESKTOP" (e.g. : 1 comptoir ambulant de vente MTN [1]).

1. ENTREPRISE SUD–AFRICAINE OPÉRANT DANS LA TÉLÉPHONIE MOBILE AU CAMEROUN.

## 3.2 PLAN ÉDUCATIF

### 3.2.1 Définitions de Gestion Commerciale et Comptable

AU PLAN ÉDUCATIF, nous avons ré–écrit certaines définitions de gestion commerciale [uNu22a, uNu22b, uNu21b] AUX FINS de les rendre plus compréhensibles POUR DES JEUNES en formation au PGI (erp en ANGLAIS) YERITH–PGI–9.0 (en ANGLAIS YERITH–ERP–9.0)!

Nous avons approché des promoteurs d'établissements scolaires et universitaires professionnels AUX FINS de partager des informations et DE PRÉPARER des jeunes élèves et étudiants à l'utilisation des PGI (erp en ANGLAIS) :

1. COLLÈGE intec DOUALA (m. JEAN PIERRE moubeb, EN PERSONNE);
2. Institut Universitaire de la Côte DOUALA (M. Hypolithe Tekeu, EN PERSONNE);
3. Startup Academy 237 YAOUNDÉ (Dr. CLAUDEL noubissie, via EMAIL, WHATSAPP).

Ces 3 échanges ont été sans suite favorables pour cause de défaut de plan OHADA dans YERITH–PGI–9.0.

***L'INTÉGRATION DU SYSTÈME COMPTABLE OHADA suis son cours en ce moment!***

### 3.2.2 Intégration au Programme Officiel d'Enseignement Secondaire

Nous préconisons des points suivants aux fins de permettre aux jeunes, même ceux arrêtant des études au bas âge d'être en mesure d'utiliser efficacement 1 pgi (erp en anglais) :

1. INSTRUCTION DE YERITH–PGI–9.0 (YERITH–ERP–9.0 EN ANGLAIS) dès des classes de 4ème AU PREMIER CYCLE D'ENSEIGNEMENT SECONDAIRE FRANCOPHONE; et anglophone ÉQUIVALENT!

LE RESPECT DE CES MESURES PERMETTRA aux FUTURS gouvernements DU CAMEROUN de ne plus avoir à investir beaucoup de moyens financiers et autres; AUX FINS DE PROFESSIONNALISER des jeunes!

EN EFFET, pour ceux des jeunes qui n'iront pas bien loin dans des études, ils seront néanmoins en mesure d'exercer des professions libérales ou pas à l'aide de l'outil informatique DE BASE!

## 3.3 PLAN DE LA recherche appliquée et/ou fondamentale EN GÉNIE INFORMATIQUE

AU PLAN DE LA RECHERCHE scientifique appliquée et/ou fondamentale, YERITH–PGI–9.0 (en ANGLAIS YERITH–ERP–9.0), NOUS A PERMIS DE DÉVELOPPER DES OUTILS ET MÉTHODES DE test, vérification, et validation de progiciels [Nou23].

NOUS AVONS APPROCHÉ DES STRUCTURES DE HAUTES TECHNOLOGIES :

1. HIMORE–MEDICAL s.a.r.l (PROMOTEUR ingénieur informaticien arthur zang)

AUX FINS DE leur proposer DES COOPÉRATIONS DE VÉRIFICATION ET DE TESTS AUTOMATISÉS DE LEUR PROGICIELS dans le domaine médical cardio–vasculaire!

NOUS SOMMES SANS SUITE DE RÉPONSE JUSQU'À CE JOUR!

# Chapitre 4

# CONCLUSION

**L'UTILISATION DES progiciels de gestion intégré (EN ANGLAIS "enterprise resource planing software") DEVRAIT ÊTRE PROMUE PAR DES MESURES TELLES QUE :**

- **LA RÉDUCTION DE CERTAINES TAXES entrepreneuriales AUX FINS DE PROMOUVOIR L'ACHAT ET LA maintenance des progiciels de gestion intégré**
- **LA SUBVENTION financière et/ou économique de l'entrepreneur–investisseur**

EN EFFET, la ré–utilisation des pgi (ERP en anglais) AUGMENTERAIT LA PRODUCTIVITÉ DES entreprises à 1 haut niveau, DIMINUANT ainsi la faillite et la baisse de productivité!

## 4 RÉFLEXIONS SUR JEOVAH–NISSI (AUSSI DIT JÉSUS-DE-NAZARETH) – PRIÈRE DOMINICALE

1. JÉSUS AU CIEL.
   NOTRE PÈRE JÉSUS AU CIEL,
   QUE TON NOM SOIT SANCTIFIÉ,
   QUE TON RÈGNE VIENNE,
   QUE TA VOLONTÉ SOIT FAITES SUR LA TERRE COMME AU CIEL.

   DONNE NOUS AUJOURD'HUI NOTRE PAIN DE CE JOUR.
   PARDONNE NOUS NOS PÉCHÉS COMME NOUS PARDONNONS À CEUX QUI NOUS ONT OFFENSÉS.

   NE NOUS SOUMET POINT À LA TENTATION,
   MAIS DÉLIVRE NOUS DU PÉCHÉ,

   CAR C'EST À TOI QU'APPARTIENT
   LE RÈGNE,
   LA PUISSANCE ET LA GLOIRE.

## 5 RÉFLEXIONS SUR JEOVAH–NISSI (AUSSI DIT JÉSUS-DE-NAZARETH) – chant 1

1. L'AMOUR DE JÉSUS, EST SI MERVEILLEUX
   L'AMOUR DE JÉSUS, EST SI MERVEILLEUX
   L'AMOUR DE JÉSUS, EST SI MERVEILLEUX

   OOH QUEL AMOUR,
   COMMENT IL EST ?
   IL EST SI HAUT QU'ON NE PEUT LE RÉHAUSSER
   IL EST SI BAS QU'ON NE PEUT LE RABAISSER
   IL EST SI LARGE QU'ON NE PEUT LE CONTOURNER

   OOH QUEL AMOUR !

## 6 RÉFLEXIONS SUR JEOVAH–NISSI (AUSSI DIT JÉSUS-DE-NAZARETH) – chant 2

1. JÉSUS NOUS A AIMÉ COMME ON A JAMAIS AIMÉ
   IL (jésus-de-nazareth, jeovah–nissi) NOUS GUIDE CHAQUE JOUR
   COMME 1 ÉTOILE DANS LA NUIT.

   QUAND NOUS PARTAGEONS LE PAIN,
   IL (jésus-de-nazareth, jeovah–nissi) NOUS DONNE SON AMOUR
   C'EST LE PAIN DE L'AMITIÉ LE PAIN DE JÉSUS.

   C'EST MON CORPS, PRENEZ ET MANGEZ; C'EST MON SANG, PRENEZ ET BUVEZ;
   CAR JE SUIS LA VIE, et je suis l'amour, Ô JÉSUS EMPORTE NOUS DANS TON AMOUR

2. JÉSUS NOUS A AIMÉ COMME ON A JAMAIS AIMÉ
   SON AMOUR (jésus-de-nazareth, jeovah–nissi) FUT SI GRAND QU'IL EN MOURUT SUR 1 CROIX
   SON AMOUR (jésus-de-nazareth, jeovah–nissi) ÉTAIT SI FORT, QU'IL SORTI LIBRE ET VAINQUEUR
   C'EST LE PAIN DE L'AMITIÉ LE PAIN DE JÉSUS.

86. "02" *Décembre* 2023: Je soupçonne la société S2TBED d'être 1 société–forestière prétexte du SÉCRÉTARIAT D'ÉTAT À LA DÉFENSE pour détruire des hommes d'affaires africains-noirs.

87. "19" *Décembre* 2023: MAXIME napoa étémé m'avait dit être de la SEMIL, mais il n'est que à la base navale RMIA2.

90. "***22***" ***Décembre*** **2023 : GABRIEL takoumbe ne m'a plus recontacté: IL (GABRIEL takoumbe) a débuté à me racheter** 1 **camion de gravier dont je n'en ai plus besoin pour des travaux de maçonneries !**

**IL (GABRIEL takoumbe) serait aussi selon toute vraisemblance** 1 **agent SED (SÉCRÉTARIAT D'ÉTAT A LA DÉFENSE) !**

91. "***22***" ***Décembre*** **2023 :** ME. NTONE, avocat conseil agrée à l'ordre des avocats du Cameroun; a accepté être mon nouveau avocat conseil; Sans constitution.

ME. NTONE, mon nouveau avocat conseil, a ses bureaux près de la maison de la radio à Yaoundé, SIS IMMEUBLE GMC.

92. "***24***" ***Décembre*** **2023 :** S2TBED, entreprise forestière illégale, et appartenant à Franck BIYA, ENTRETIENT des agents de renseignements du type de l'Allemagne HITLÉRIENNE.

EN EFFET, ils ont des idées du type:

1. des herbes autour de chez toi ne sont pas encore nettoyées; même si tu n'as pas de force ou d'argent pour le moment; TU DEVRAIS ÊTRE EMMENÉ EN PSYCHIATRIE !
2. JEAN de maroua est le principal auteur de ces allégations; 1 individu ne possédant même plus 1 CERTIFICAT D'ÉTUDES DU 1$^{er}$ cycle camerounais (enfants allant jusqu'à 12 ans environ.
3. les personnes seuls sont illégales; ces personnes devraient être emmenées en psy.

   Ce type de personnages travaillent pour KEMAJOU, ivrogne et alcoolique colonel de gendarmerie; Par le biais de la société de gardiennage "General Security".

Certains éléments de la police et de la gendarmerie au Cameroun arborent des treillis similaires à ceux portés par des "militaire SS de l'Allemagne HITLÉRIENNE".

J'ai attiré ceci à l'attention de 2 hommes en tenues de police et de l'armée marine.

93. "***29***" ***Décembre*** **2023 :** JUGE D'INSTRUCTION ALAIN HUGUES YAGER MABOMA n'est pas du tout serein dans mes affaires judiciaires puisque je n'ai plus observé d'avancements.

94. "***28*" *Décembre* 2023 :** La société TATAVI S.A.R.L a envoyée 1 agent SED (Sécrétariat d'État à la Défense) à ma rencontre lorsque je voulais rencontrer 1 agent immobilier ce 28 Décembre 2023 a Yaoundé !

    CURIEUSEMENT l'immeuble abritant cette entreprise malévolente porte des couleurs vertes et jaunes, rappelant celles utilisées par la gendarmerie.

    Tout porterait a croire qu'1 bâtiment au cameroun arborant ces couleurs de jaune et de vert serait juste 1 point de renseignement de la gendarmerie nationale.

95. "***29*" *Décembre* 2023 :** 1 véhicule non immatricule a essayé de me percuter lorsque je marchais tranquillement sur la route menant à mon domicile de Yaoundé–Ahala ce jour vers "14 : 30".

    Ce véhicule avait l'air d'1 véhicule de renseignement de l'armée camerounaise.

96. "***30*" *Décembre* 2023 :** LE JOUR OU JE DÉPOSAIS MA PLAINTE arrêtée, sur recommandation du pasteur MARCO de Chapelle Gloire De Christ, de New-Deido–DOUALA, J'avais remarque la présence dans mon arrière, assise, d'1 militaire dame vêtue d'1 casquette portant la mention SEMIL (N.D.L.R: Sécurité Militaire) !

    CECI ÉTAIT EN FÉVRIER 2021.

    CET ATTENTAT VISANT À DÉTRUIRE MA VIE DE CHRÉTIEN NÉ-DE-NOUVEAU, s'est passé dans la nuit du jour suivant où j'ai rencontré 1 voisin disant pouvoir me fourvoir d'1 emploi d'agent de renseignement au ministère de la défense du Cameroun: "L'ADJUDANT CHEF MAJOR MAXIME NAPOA ETEME" !

    Je ne suis jamais allé premièrement à la rencontre du voisin "L'ADJUDANT CHEF MAJOR MAXIME NAPOA ETEME"; c'est lui qui avait établi 1 premier contact avec moi en me saluant et me montrant son domicile lorsque je sortais d'1 magasin de vente de produits d'occasions et neufs provenant de la RFA (République Fédérale d'Allemagne) !

    "L'ADJUDANT CHEF MAJOR MAXIME NAPOA ETEME" m'avait dit avoir été en visite chez moi à mon domicile de location du SED-agent "TRADIS S.A.R.L".

    La société d'échafaudage industriel "SED-agent TRADIS S.A.R.L" a déménagée de chez moi en Septembre 2023 en laissant plus de 3 mois de loyer impayés. DIRECTEUR DAVID FRANCIS EBOUTTE !

97. "***30*" *Décembre* 2023:** Henri Bertrand Ngatchou, 1 frère cadet de ma génitrice Rose Sangnou, a essayé de me faire des examens médicaux puisque je suis sans soucis de santé, Aux fins de me faire subir des arrestations dans des prisons (cabanons) de fous dans des hôpitaux psychiatriques.

    Ceci s'est passé lors de son invitation dans son village Bangou pour des célébrations du mariage de sa nièce Cynthia Nkwouano !

    J'ai cessé tout rapprochement avec cette famille NGONGANG de ma génitrice Rose Sangnou !

98. "***07*" *Janvier* 2024:** TIMOTHÉE et 1 jeune garçon, tous deux de SECTE JERUSALEM APOSTOLAT sont stationnés à mon entrée principale (au portillon) à mon arrivée venant de barrière ce dimanche matin aux alentours de 10 : 30.

## 23 ÉVÈNEMENTS MARQUANTS (SUITE) – ATTAQUES DE GUIMEZAP IUC PAUL MARTINE JACKSON TSOPMO MCGILL UNIVERSITY

99. "*08*" ***Janvier*** **2024**: L'institut Universitaire de la Côte a essayé de me faire des ennuies par rapport à l'ouverture officiel du centre de formation Informatique YERITH R&D.

LA ROSICRUCIENNE et génitrice de ma personne (Rose SANGNOU, veuve Théodore NOUMBISSI), qui partage la même sorcellerie de loge avec MARTINE GUIMEZAP et PAUL guimezap, ce fondateur de L'INSTITUT UNIVERSITAIRE DE LA CÔTE et son épouse du village BAFOU A L'OUEST; vient chez moi faire sa (IUC de Douala) publicité en arborant 1 T-SHIRT gris arborant des sigles de L'INSTITUT UNIVERSITAIRE DE LA CÔTE DE DOUALA (IUC) !

IL semblerait que je suis entouré de personnes de sorcellerie qui ne veulent pas dévoiler devant ma personne, mais qui souhaitent que je constate ceci avec du temps passé et des désespoirs manqués et / ou pas.

100. "*09*" ***Janvier*** **2024**: L'éraflure de voisine du village BAFOU comme des guimezap a fait semblant d'être me génitrice ce matin à mon passage en arborant 1 coiffure de cheveux similaires à ce que la Rosicrucienne ROSE SANGNOU veuve Théodore Noumbissi se coiffe régulièrement dans la cité de moi !

CETTE ÉRAFLURE du nom de Paulette AZEFA; dont j'ignore d'où elle serait née, a déjà essayée de me faire 1 assassinat par sa fille du SED-yves-landry-etoga-galax EN PLEINE ROUTE lorsque je traversais la demeure qu'elles occupent !

C'est à mon retour définitif de mon séjour d'études et de travail de l'occident que j'apprends que cette demeure aurait été construite avec des matériaux délibérément CAPTÉS dans mon chantier personnel qui avait pour gardien RÉNÉ Mbazeu; BEAU-FRÈRE DE Josué nkwouano; petit-frère de la génitrice Rose SANGNOU à Douala !

LA VOISINE et sœur du capitaine BIR-baitaillon-dintervention-rapide PIERRE-MARCELLIN-EMANÈ-NKOA est pourtant de la gendarmerie nationale; C'est quand même surprenant que cette ancienne chef du service de recrutement du SED vive où il y'a toute cette insécurité; En compagnie du CAPITAINE-MBIDA de l'armée de l'air du Cameroun !

101. "*09*" ***Janvier*** **2024**: L'électricien "LUCIEN" ("6 79 01 63 68") ayant installé ma pompe à eau pour mon forage, avait fait exprès de me demander de racheter 1 flotteur, sachant pertinemment que celui-ci est non approprié.

JE soupçonne l'électricien "LUCIEN" ("6 79 01 63 68") d'être aussi 1 agent SED pour contrer toute velléité de progrès dans le Cameroun, venant des camerounais authentiques, NON mariés par des loges sataniques et autres aux caucasiens !

102. "*09*" ***Janvier*** **2024**: Je me rends compte vivre dans 1 endroit ou presque toute âme essaye de me faire assassiner ou bien arnaquer en ARBORANT sed.

103. "*09*" ***Janvier*** **2024**: Ma connexion internet DE MTN afrique-du-sud EST ÉTRANGEMENT BEAUCOUP plus lente ces 3 dernières semaines !

104. "*12*" ***Janvier*** **2024**: L'institut de formation de techniciens supérieures "ISTIAM" semble être intéressé par ma start–up YERITH R&D et mes dons d'enseignant en sciences Informatiques.

JE leur soumettrai 1 nouveau curriculum vitae, en Français, approprié pour la gestion entrepreneuriale d'1 start–up au sein de leur institut de formation professionnelle.

JE communique avec son ("ISTIAM") responsable pédagogique, M. GUIMEYA; M. GUIMEYA m'avait aussi dit connaître personnellement les promoteurs de l'IUC (Institut Universitaire de la Côte); je lui ai aussi fait part de cette relation entre eux et moi.

## 24 ÉVÈNEMENTS MARQUANTS (SUITE) – ATTAQUES À LA DÉLÉGATION GÉNÉRALE DE LA SÛRETÉ NATIONALE (DGSN)

105. "***12*" *Janvier* 2024:** J'étais ce matin au commissariat de AHALA pour me tenir informer de la position de ma génitrice Rose Sangnou qui est venue il y'a quelques jours a Yaoundé semer 1 confusion sur ma personne dans mon voisinage.

Cette situation de perpétuelle mise-en-garde contre des destructions corporelles par les soins des médecins psy me persuadent d'1 ou plusieurs tentatives de m'éliminer physiquement en prenant pour cible ma génitrice et maman comme source de cette élimination physique et de l'esprit !

J'AI été oblige de me faire partir de force Puisque 1 des policières et 1 autre policier; JE ne sais pas ils avaient déjà reçu de l'argent, de LA rosicrucienne ROSE SANGNOU MA GÉNITRICE, voulait déjà me faire violence et me:

(a) pour l'1 des policières me maintenir derrière le poste sans mon consentement, alors que c'était moi le plaignant; Venu de son propre gré se plaindre du désordre de sa génitrice dans son voisinage, AU sujet de ses effets personnels que j'ai mis à la poubelle;

(b) pour 1 des policiers, DE me redemander si je souhaiterais rencontrer 1 médecin.

106. "***13*" *Janvier* 2024:** ROSE sangnou, ma mère, et génitrice, NE SAIS PLUS POURQUOI ELLE EST en ce moment dans la ville de Yaoundé, sous recommandation de DR. fernand junior wolfgang owona.

107. "***18*" *Janvier* 2024:** Madame Manga CHEF D'AGENCE DE EXPRESS UNION de barrière ne m'a plus informée si ma demande a été acceptée ou plus.

Madame Manga, m'avait d'abord fait 1 allusion à ce que je ne pourrais obtenir de prêt bancaire que si ma génitrice Rose Sangnou était impliquée.

JE lui ai rétorqué, que ceci concerne ma vie privée financière et que je fermerais mon compte EXPRESS UNION si ceci n'était pas respectée !

MADAME manga m'a dit de lui donner l'original de la copie de mon titre foncier de YAOUNDÉ-simbock; DAME r.d.p.c – Bangou et génitrice Rose SANGNOU a refusée de s'exécuter !

Le frère cadet HENRI BERTRAND ngatchou de Génitrice ROSE SANGNOU est le vice-président du R.D.P.C à Bangou.

HONORABLE datouo théodore, QUI m'avait revendu ce terrain en Novembre 2012 en est le président du R.D.P.C bangou.

DR. fernand jr wolfgang owona, Fils de FEU ministre JOSEPH OWONA, et petit-fils de MINISTRE grégoire OWONA, est du R.D.P.C à Yaoundé.

## 25 ÉVÈNEMENTS MARQUANTS (SUITE)

108. "***30*" *Janvier* 2024:** 1 gendarme assez bruyant fait irruption dans 1 kiosque MTN MOMO (Mobile Money) où JE suis entrain de reparler avec 1 huissier de justice par rapport à mon affaire d'incarcération illégale dans des cabanons pour fous PAR LA rosicrucienne et génitrice Rose Sangnou !

JE soupçonne le Sécrétaire D'État à La gendarmerie, personnellement, "Yves Galax Landry ETOGA", d'être encore à l'origine de cette énième intrusion dans mes vies privées de façon illégale !

ET ceci dans l'optique de ternir mon image de marque en vue des prochaines élections présidentielles anticipées au Cameroun en 2024 !

IL y a de ceci plusieurs semaines, lorsque j'étais à la brigade ter de gendarmerie de EBOM à Yaoundé pour me plaindre de la petite tentative d'assassinat venant de ALINE azefa, 1 voisine illégale de mes domiciles de Simbock, 1 dame gendarme en tenue militaire est entrée dans le bureau du commandant adjoint de brigade avec lequel j'étais en train de m'entretenir pour lui signifier que je n'étais pas en bon rapport avec YVES (puisque officiellement je n'ai jamais commis aucune infractions !

JE perçois tout ce cirque judiciaire sans issues comme des attaques politiques du RDPC (CPDM en anglais) !

109. "***30*" *Janvier* 2024:** "L'huissier de justice MAÎTRE ANDRÉ", du cabinet de MAÎTRE FOUMANE au niveau de "montée Anne Rouge à Yaoundé" me recommande de me déplacer pour Douala pour réclamer mon titre foncier personnel à ma génitrice et mère Rose Sangnou !

110. "***02*" *Février* 2024:** JE viens encore de me rendre au commissariat de AHALA pour rencontrer 1 officier qui m'avait été recommandé par le "procureur MBOUYOM MOFFOR Hyacinthe" de YAOUNDÉ–CENTRALE; 1 DES policier me dit d'abord qu'il est sorti et pas très loin du poste, et que je peux aller à sa rencontre séance tenante.

JE me met simplement à l'attendre de peur de ne pas être comme il faut en le recherchant à l'extérieur de l'enceinte du commissariat du 19$^{ème}$ arrondissement de Yaoundé.

JE leur dis ensuite que je m'éclipse puisque je n'ai plus assez de temps d'attente.

CE même policier me demande alors si je n'ai regardé à l'arrière du poste dans son bureau, OÙ L'ON accède en les traversant de l'intérieur où ils étaient (policiers en tenus !) !

111. "***03*" *Février* 2024:** ***Samaneh Navabpour*** M'avait pourtant, lorsque j'étais encore son collègue d'université, Prédit 1 avenir tumultueux en Afrique contemporaine, Comme pour elle EN iran.

***Amir vakili Hossein*** était aussi très sceptique pour mon avenir si je m'hasardais à retourner au Cameroun après mes études de Doctorat–PhD De l'Université de Waterloo a Waterloo (ON).

112. "***10*" *Février* 2024:** J'ETAIS CE JOUR A "HAPPINESS POTENTIAL SARL" a la rencontre de DR. fabrice wilfried siemeni.

"HECNA NGAYAM", 1 comptable de "HAPPINESS POTENTIAL SARL", a eu l'amabilité de me représenter sur internet, Pour l'obtention d'1 identifiant personnel aux impôts du Cameroun; J'en ai principalement besoin aux fins d'obtenir 1 carte bancaire "VISA CRÉDIT électron".

J'EU VENT DE CE QUE sa collègue "HECNA NGAYAM" eût essayée sans relâche de me rejoindre par téléphone, bien que j'ai toujours reprécisé aimer communiquer par "GMAIL.COM".

J'ai rencontre aussi 1 éraflure d'enseignant nomme "M. Isidore WATTAT"; DONT J'IGNORE LES PRÉNOMS ET AUTRES DÉTAILS PERSONNELS.

113. "***18*** ***Février*** **2024:** Des voisins ont pris des habitudes d'aller raconter des mensonges aux autorités sanitaires aux fins que je sois appréhendé pour 1 hôpital psy.

EN l'occurrence PIUS et son épouse Florence; "BATOMEN" et son épouse Thérèse (au sobriquet de "MA-T") !

ILS sont (FRANÇOIS, PIUS, FLORENCE, "MA-T (N.D.L.R: maman thérèse)"), des jaloux de mon succès financier d'informaticien aux Canada et En Occident ("Silicon Valley" PAR siemens medical solutions USA.) !

"M. Isidore WATTAT" de "happiness potential sarl" A LAISSÉ SES CHEVEUX poussés avec 1 barbichette comme s'il est 1 psy.

Depuis que j'ai eu à revoir 1 enfant MVONDO ASSAM chez "happiness potential sarl", IL se remarque des personnes étranges telles que DOCTORESSE MBARGA; et 1 CERTAIN PSY "M. Isidore WATTAT".

Depuis que Siemeni Fabrice Wilfried m'a appelé au téléphone 1 jour où j'avais reçu mon loyer de 160 000 francs de GERMAIN-BLAISE ndzié, mon ancien locataire à la cité-des-palmiers, ET CECI PAR 2 REPRISES, sans que je ne sache comment il fût au courant de cette entrée d'argent, J'AI préféré lui proposer 1 partenariat en affaires dans ma structure en cours de formalisation au ministère du commerce (YECEFOIQ: YERITH-CENTRE DE FORMATION INFORMATIQUE).

"FABRICE WILFRIED SIEMENI" m'a dit être intéressé, mais il n'a plus jamais manifesté 1 intérêt extérieur autre que accepter que je lui reverse 1 montant supérieur à 200 000 francs pour le rachat aux ÉTATS-UNIS de certaines fournitures non présentes sur le marché local.

"FABRICE WILFRIED SIEMENI" ME PARAIT DONC suspect dans mes arrivées en affaires.

"FABRICE WILFRIED SIEMENI" vient la 1ère fois à ma rencontre lorsque je visite la réunion "NUFI-CANADA" de TORONTO; pour me reparler de ses services de nutritionniste.

"FABRICE WILFRIED SIEMENI" m'invite ensuite a 1 cabinet conseil en nutrition au centre ville de Toronto; et par la suite souhaite passer me faire 1 consultation à domicile au niveau de mon iris Pour essayer 1 nouvelle thérapie TELLE QU'IL ME L'AVAIT REPRÉSENTE lors d'1 réunion à nufi-canada; ALEXIE TCHEUYAP, vice-recteur de l'université de Toronto en ce moment, avait été celui qui m'a présente Fabrice Wilfried Siemeni.

114. "***26*** ***Février*** **2024:** 1 dame dont j'ai oublié des noms et prénoms; Et que j'ai rencontré pour 1ère fois au magasin de consommables informatiques juste situe face "Collège Integ a Douala"; Se représente à ma personne faisant mention de ma génitrice et de ma sœur utérine INGRID.

JE me distance directement cette dernière, Pensant que celle–ci est en provenance de ma génitrice et de Christian Eyoum !

Cette jeune dame d'1 quarantaine d'année est vêtue d'1 ensemble haut jaune et d'1 jean bleue, Mentionnant "NORLAND" !

115. "***04*** ***Février*** **2024:** JEAN-PIERRE Kamgain, 1 connaissance d'enfance, au quartier New–Deido de DOUALA; essaye de me faire 1 sodomie en venant dire chez moi à mon domicile de Yaoundé qu'il souhaite y passer 1 nuit avec moi; Ceci s'est passé en Décembre 2023 !

DOROTHÉE DJATIE SHANDA OWONA, est venue en visite chez ma grande-maman TCHITCHUI Élisabeth lorsque j'y séjournais quelques 9 jours en attente de matériels informatiques pour la création et ouverture de YECEFOIQ.

116. "***03*** **Mars 2024:** JE viens de me rabaisser à manger dans 1 ”tourne–dos face Quincaillerie N.K (Nestor Kenfack)”.

”TEUNTCHOU NOUMENI ingrid”, 1 sœur utérine fait retarder des travaux de réfection de mon appartement de 3 chambres sis cité-des-palmiers !

”Honoré WOUCHE”, 1 cousin non germain maternel, qui a réalisé des tables pour YECEFOIQ (YERITH-CENTRE DE FORMATION INFORMATIQUE); M’en a reparlé.

”Honoré WOUCHE”, m,’a aussi fait savoir qu’1 ses filles est employée dans 1 plantation de "Mvondo" dans le Sud du Cameroun; JE soupçonne 1 tentative du RDPC de me mettre hors de mon réseau naturel familial et financier Puisque "HENRI BERTRAND Ngatchou" (”Propriétaire Best Car Care & Services”), aussi 1 cousin maternel de "Honoré WOUCHE", ET 1 oncle maternel à ma personne, Vient d’être nommé par cooptation, ET NON PR CANDIDATURE, Vice-président du RDPC (C.P.D.M.) à Bangou à l’Ouest–Cameroun: Son village natal !

”TEUNTCHOU NOUMENI ingrid”, EST AUSSI L’ÉPOUSE DE teuntchou isaac, membre influant au Sécrétariat D’état à la Défense (SED); 1 organisme terroriste de MVONDO ASSAM Bonivan !

”MVONDO ASSAM Bonivan”, est aussi 1 des actionnaires initiateurs de la société forestière frauduleuse, et voisine à ma demeure de Simbock–Barrière !

”TEUNTCHOU NOUMENI ingrid”, s’était pourtant solennellement désengagée de suivre 1 quelconque acte de nos propriétés de la cité–des–palmiers DE SON PROPRE GRÉ pour me les laisser de plein droits aux vues de: Sa citoyenneté ALLEMANDE; et son mariage légal à l’allemand "TEUNTCHOU NOUMENI chandriand"!

”TEUNTCHOU NOUMENI ingrid”, et "TEUNTCHOU NOUMENI chandriand" étaient tous 2 des citoyens camerounais au moment de la célébration de ce mariage frauduleux aux vues de ma non ACCEPTATION en tant que frère unique aîné de ”TEUNTCHOU NOUMENI ingrid” !

117. "***06*** **Mars 2024:** 1 porteur de sacs de ”Quincaillerie Aimé SARL”, situe non loin et en face de ”Quincaillerie N.K (Nestor Kenfack)” me dit de ne plus lui dire: ”EST CE QUE MONSIEUR AIMÉ, votre chef d’équipe est présent sur ses lieux de services” ?

118. "***10*** **Mars 2024:** M. weladji, dont j’ignore les prénoms, M’avait arnaqué 1 montant de 20 Milles FRANCS et je m’étais rendu à la ’brigade ter de gendarmerie de Akwa-Sud’ à Douala Pour re-avoir mon argent, Moyennant 5 Milles de frais aux gendarmes.

M. weladji, À ma grande surprise, N’a plus été inquiété par 1 procédure pénale !

120. "***16*** **Mars 2024:** MBIDA, voisin travaillant à la garde présidentielle du Cameroun, hors-la-loi puisque devrait vivre dans 1 caserne, EST encore entrain de faire du désordre chez moi !

IL a enfin, TELLE que rapporté par ”M. Onguene”, et ”M. Moise” de S2TBED pensé à faire réparer la route endommagée par des camions de S2TBED. C’EST à croire qu’il serait 1 actionnaire de cette entreprise illégale dans mon quartier Puisque ne respectant plus des normes environnementales de bases telles que: DES DÉCHETS d’essences de bois sur les piétons en plein 09 : 00 du matin par exemple.

”MBIDA” a fait porter des déchets de part et d’autres de la 2$^{ème}$ entrée, juste face à mon entrée principale, pour les déversées, mélangées avec de la terre, sur le rebord de mon mur de face à la route principale !

121. "***20*** **Mars 2024:** ”MANI”, 1 protégée de ”Hon. Datouo Théodore”; ancienne épouse du feu gardien des terrains à barrière-Simbock-Ahala de Datouo, me recommande à 1 frère aîné de mon ancien compagnon canadien JD TUJILO TCHOKOTÉ.

”MANI”, me recommande ainsi à ”MARCEL tiemeni”, frère aîné de JD TUJILO TCHOKOTE, qui est entrain de construire 1 barrière sur son terrain acquéris il y’a de ceci 12 ans environ, juste au même titre foncier que le mien chez l’acheteur en gros ”HONORABLE THÉODORE DATOUO”.

122. "***26*** **Mars 2024:** ”JEAN–PIERRE kamgain” me toise en pleine route lorsque je me rends à Chapelle Gloire De Christ.

123. "***26*** **Mars 2024:** "TITO MARKET SARL" (`https://`) n’a plus commandé exactement la pièce ”NC-300” de ”SavingOlogy.com” Que je désire ravoir. ILS m’ont dit être plus tranquille avec 1 KVM-switch qui serait 1 technologie plus nouvelle que celle d’1 ”***MULTI-USER TERMINAL COMPUTER***” !

Malheureusement pour eux, Je ne peux plus accepter de changements, PUISQUE j’ai déjà racheté, par exemple, des claviers à ports "PS/2" qui fonctionnent avec des ports "PS/2" du ”NC–300 Multi-User Terminal Computer” de ”SavingOlogy.com” !

AUSSI, je souhaite ravoir seulement 1 ’NC–300 Multi-User Terminal Computer” pour mes clients du fait de la facilité d’entretien face aux avancées en piratage informatique dans des années à venir: En effet, la quantité des données est très limitée avec des ports "PS/2", Comparativement aux autres ports tels que USB, DVI, etc. !

Aussi, je souhaite être purement et simplement remboursé puisque 3 semaines d’attentes et des frais de déplacements supplémentaires pour Douala ne sont plus comme il faut pour mon budget limite d’entrepreneur HIGH–TECH !

JE faisais cette commande par 1 intermédiaire puisque je n’avais pas encore 1 numéro d’identifications unique pour des impôts requis par ”***la banque Filiale UBA Ange–Raphaël***” pour l’obtention d’1 carte VISA–MASTER–CARD pour mes rachats personnifiées en ligne, Au magasin ”SavingOlogy.com” !

124. "***26*** **Mars 2024:** DR. Audrey Mbarga était très avenante ce matin lorsque je revisitais des locaux de ’happiness potential sarl’ !

L’ÉRAFLURE DE ”psy wattat” n’était plus du palier !

125. "***28*** ***Mars*** **2024**: L'ÉRAFLURE DE "Billie–joie" me suivait ce matin lorsque je revenais de rendre visite au pasteur "Marco" de CHAPELLE GLOIRE DE CHRIST.

    1 INDIVIDU vivant dans 1 petite route de quartier à new-deïdo; le quartier où je séjourne chez mon grand-père maternel en ce moment; arborant de temps à autres 1 treillis "AGENT DE SANTÉ COMMUNAUTAIRE" surnommé "MBAKO"; et Ayant des cheveux blancs ébouriffés, Me fait suivre !

126. "***31*** ***Mars*** **2024**: 1 dame vendant du poisson à la braise; vivant sur la rue où 1 "Billie–joie", précédemment cité dans mes récits se loge; ME redit à plusieurs reprises lorsque je circule sur la voie publique en faisant des signes de croix en signe D'AFFIRMATION de ma foie chrétienne, que: "C'EST à l'église qu'on fait cela" !

127. "***01*** ***Avril*** **2024**: ***L'imberbe de "RODRIGUE ALAIN sienchie ngongang"***, 1 oncle utérin, dont j'ai déboursé près de "1 000 000 **FRANCS (XAF)**" pour ses (2 billets d'avions depuis 2004, et 2005, si mes souvenirs sont exacts); SIENCHIE, dont je ne connais pas le niveau réel d'éducation, aux vues de ses idées dégénératives envers mes droits humains, Supporte avec pour raison 1 protection des faits suivants provenant de sa sœur utérine aînée DADA (n.d.l.r: HUISSIER de justice dorothée ndjatié shanda owona):

    1. "***LE DÉNOMMÉ ERIC CONSTANT fotso tchuente*** ", 1 Camerounais d'origine, vivant aux USA; a souhaité me racheté 1 de mes appartements de YDE-AHALA pour 1 montant total d'environ "7 000 000 **Francs (XAF)**" en l'an 2021 !
    2. "dada, sœur utérine de Rose sangnou, ma génitrice, À qui j'avais confié des documents de propriété m'appartenant par rachat à HONORABLE DATOUO théodore."; Voyage de Edéa, sans demander mon avis et / ou consentements; AUX FINS DE ressasser: JE NE VEUX PLUS QUE TU (n.d.l.r.: ROSE SANGNOU) redonnes ces papiers à ton fils !!!

128. "***03*** ***AVRIL*** **2024**: "MOMOKASH", service de prêt et d'emprunt de moneyMobile, NE serait plus opérationnel ces jours-ci!

129. "***03*** ***AVRIL*** **2024**: "MARCEL théophile Mpondo Kouo", alors 1 ancien camarade du "collège Alfred Saker" de Douala; EST 1 cadre directeur en fonction au groupe MTN !

    "MARCEL théophile Mpondo Kouo" était à cette époque (2000 allant à 2001) LE dernier en classe, avec des gens comme NGADJEU.

130. "***03*** ***AVRIL*** **2024**: "***JEAN ngongang, paix à son âme de personne tribale, est devenue intéressant lorsqu'il essaye de voler MON âme par*** 1 ***prière devant moi sur*** 1 ***lieu sacré de sa concession de Bankepche–Bangou.***!

    "ÉRIC CONSTANT FOTSO TCHUENTE" m'avait remis 20 000XAF aux fins de me re-déplacer sur Douala pour récupérer mon titre foncier de ma propriété de YDE-AHALA-Simbock; JE souhaitais lui revendre 1 appartement pour 1 montant total de 7 000 000 FRANCS (XAF).

    LA sœur de ma génitrice, ROSE SANGNOU; "me. (huissier de justice) SHANDA Ndjatié Dorothée Owona"; Descend de Edéa pour Douala, avant même que je ne prenne mon départ de YDE; ET INTIME 1 ordre de co–épouse à 'Rose–Sangnou': NE REMET PLUS DE TITRE FONCIER À XAVIER noumbissi noundou.

131. "***05*** ***AVRIL*** **2024**: LE fainéant de 'ME. PATRICE CABRAL shanda sanou' Est décédé en Inde. Son paternel de fainéant "SHANDA TONME jean claude" et sa maternelle de Fainéante "me. (huissier de justice) SHANDA Ndjatié Dorothée Owona" SONT CONVAINCUS qu'ils ne peuvent plus me faire passer de vis à trépas; Puisque JEOVAH-NISSI–AU–CIEL; aussi dit JÉSUS–DE–NAZARETH a intervenu en ma faveur.

132. "***08*** ***AVRIL*** **2024**: "Prof. SIEMENI de happiness potential sarl" m'a donné 1 reliquat de 10 000 FRANCS XAF sur des 15 000 FRANCS XAF restants pour son inscription à YECEFOIQ.

133. "***08*** ***AVRIL*** **2024**: "Honore Wouche", cousin germain de "Rose SANGNOU ma génitrice", est déjà assez régulier selon mes convenances gênantes chez "Rose SANGNOU" où je séjourne en ce moment à Douala.

    J'eu croire qu'IL a déjà été à l'origine d'1 de mes séquestrations arbitraires à LAQUINTINIE: Rodrigue ALAIN son cousin germain et pourfendeur négatif de ma personne lui a asséné 1 dernière visite: "IL (xavier) faut LE RAMENER DANS 1 cabanon de fou; Il lit trop la BIBLE." !

134. "***08*** ***AVRIL*** **2024**: L'université de Waterloo semble falsifier ses propres écrits aux fins de favoriser des candidats malheureux aux présidentielles au Cameroun !

    Après que "Patrick Lam, PhD, PEng", m'eut enregistré 1 équivalence de mon "Engineering Doctoral Program" achevé en Décembre 2011, le 20; comme équivalent a 1 'PhD' (DOCTOR OF PHILOSOPHY) en sciences informatiques, Son collègue et camarades d'enfances a l'école: "DEREK RAYSIDE"; Renchérit et le modifie en 1 salissure pour des noirs au Canada: "Le terme ABD." !

    C'est à croire que ces 'Canadiens' voulaient me faire assassiner sur tous des plans."

135. "***09*** ***AVRIL*** **2024**: "TITO MLARKET SARL (https://)", QUI M'AVAIT PROPOSE FAIRE 1 COMMANDE DE MATÉRIELS INFORMATIQUES Pour mon centre de formation en Informatique (YECEFOIQ), n'arrive pas me les délivrer près 2 Semaines de patiente après 1 première livraison des choses non commandées.

    "LE PASTEUR paul eya", en visite à Capelle Gloire de Christ de Deido, nous a rappelé et enseigné de ré-utiliser des contacts à la chapelle.

## 29 ÉVÈNEMENTS MARQUANTS (SUITE) – CPDM-RDPC-richard-MFEUGWANG assists ROSE SANGNOU to destroy my life

136. "*11*" ***AVRIL*** **2024**: I have met along my road today, **CPDM-RDPC cad—5 mayor Richard Mfeugwang;** He is supposed to own a transit company named GoTRANS. !

THIS IDIOT SEEMS NOT TO RECOGNIZE THAT I KNOW HE IS BEHIND ALL MY TROUBLES HERE IN MY FAMILY since this trans-go-projector; cannot recognize that He is only educated up to the 4th YEAR of secondary education compared to a Doctor of Engineering of the ivey-league-US-canada-WATERLOO !

137. "*11*" ***AVRIL*** **2024**: FRANCE de macron, Essaye de rester chez toi avec tes embargos sur des matériaux informatiques américains à Douala; CANCRE !

138. "*19*" ***AVRIL*** **2024**: Ce matin à la quincaillerie ”Le débrouillard” derrière chez moi; sis carrefour ’TITUS-EDZOA-JÉSUS-DE-NAZARETH’ à Simbock, non loin de la chefferie de block;

2 indics, 1 portant ”1 talkie-walkie” me suivent lorsque je vais re-négocier des prix de tringles pour rideaux.

139. "*20*" ***MAI*** **2024**: 1 amant de Samatha, 1 des filles de Marie (sœur aînée de Léonard); 1 ancienne copine intime de Rose Sangnou ma génitrice; au quartier new-deïdo de Douala.

Cet indic de gendarmerie portant des lunettes médicales a pris des habitudes de quotidiennement me faire des grands yeux, lorsque je suis sur mes chemins en me rends rendant en visite matinale et / ou quotidienne chez la 2ème femme de mon feu grand-papa maternel; LE regretté ”Jean-NGONGANG”:

En effet, ce monsieur me questionne de façon muette si bien que je fais des signes de croix chrétiennes aux fins de lui rétorquer que c’est 1 chrétien ne-de-nouveau de JEOVAH-NISSI-AU-CIEL qui s’en aille sans regarder au dedans de son domicile conjugal; Domicile qui n’a aucun portail en ce moment.

”PRINCE RAOUL NJONKEP”, 1 jeune oncle maternel consanguin me paraît impliqué dans cette tentative de musellement politique par le biais de fausses accusations en PSY.

”IL me semble que l’imbécile d’agent de santé communautaire surnommé ”MBAKO”; de la CUD (Communauté Urbaine de Douala)” que je rencontre déjà régulièrement assis de près où je rachète souvent à crédit de 200 FRANCS aux fins de ne pas vivre avec des pièces d’argent; Est entrain de faire des investigations sur ma vie privée.

140. "*06*" ***JUIN*** **2024**: "Me. ANDRÉ", Huissier de justice, au SED, A demandé que si le soit-disant ”Pasteur Landry” me recontacte par téléphone, Je lui signifie de me dire qu’est ce qu’il me veut de la part de ”YVES LANDRY”.

IL semblerait que APRES avoir été par effraction a mon domicile bâtit par fonds propres de ma personnes à YDE-AHALA; Ma génitrice et concurrente en affaires ”Rose sangnou”, Essaye de me faire passer pour 1 imposteur auprès des autorités compétentes du CAMEROUN du régime R.D.P.C !

IL semblerait que ”rose sangnou” couche maritalement avec ”Grégoire owona” puisqu’elle m’avait dit avoir été dans ses résidences privées de son ”village de Gomedzap dans le centre du CAMEROUN” il y’a de ceci environ 2 mois !

141. "*11*" ***JUIN*** **2024**: j’étais rendre visite à ’Waah’ (”KANYOU ANNE”); elle est ma grande-mère par ma mère. J’AI RENCONTRÉ 1 CERTAIN ’Albert ...’, petit-frère de la voisine MA(MAN)-T(HÉRÈSE).

CE fou avec des cheveux de Psychologue.

ALBERT-idiot Est entré de façon s urprenante sans sonner ou toquer au portail lorsque je balayais ce sol.

ALBERT m’a dit être 1 docteur–PH.D. de l’université de Grenoble en France, spécialisé en médecine thérapeutique (JE ME DEMANDE PERSONNELLEMENT SI IL Y’A 1 science médicale Non thérapeutique !!!).

142. "*12*" ***JUIN*** **2024**: ’Albert’ avait dit être en mesure de me redonner 1 contact d’1 docteur enseignant d’informatique de l’université des montagnes de Banekane (BAGANGTE) a l’ouest du Cameroun; Je lui avais pourtant redemande plutôt le contact d’1 enseignant d’informatique de ”l’UY 1” (N.D.L.R.: l’UNIVERSITÉ DE YAOUNDÉ 1) parce que je suis résident a Yaoundé et non à Banakane.

***LE fou ’Albert’ que j’ai rencontre pour*** 1 ***première fois à Yaoundé, m’a force a faire*** 1 ***science de psychologie sociale avec lui, Avec*** 1 ***violence qui n’a plus de nom.***

***Et ceci après être entre sans sonner ou toquer au portail lorsque je balayais le sol.***

LE salaud ’Albert ...’ était sûrement là de la part de mon ennemi personne ”Shanda tonme jean claud”e; Membre de l’AEUD, groupe qui promeut les idéaux néo-centristes ’bamilékés-grassfield’ et qui dirige l’université des montagnes dont ’albert ...’ est issue.

FIN DE CITATION.
Adieu WAAH.

PS: Je n’avais jamais su que c’est les ”KEMMEGNI–antoine” qui était derrière mes ennuies de cabanon-pour-fous-force, PAR shanda.

”CLEMENTIN DJAMENI tayou”, enseignant de l’université de Dschang ne m’avait pas dit être entrain de raconter des saletés sur moi.

”SHANDA TONME” a infesté toute mes familles, pour détruire ma réussite programmée sur terre.

143. "*12*" *JUIN* 2024: Je viens de détruire 1 appareil espion placé juste devant mon domicile.

J'ai constaté que cet appareil Entachait négativement et régulièrement le fonctionnement régulier et sans arrêt de mon téléviseur numérique, ainsi que de mes régulateurs de tension (AVR).

*Je soupçonne "ANICET MFEUKEN",* 1 *voisin dont j'ignore la profession réelle; d'être l'auteur de ce "spam" sur* 1 *ligne placée juste au dessus de mon portail d'entrée à 'SIMBOCK': c'est lui qui m'avait dit connaître le propriétaire de cette ligne dont j'ignore l'utilisation depuis plus de* 6 *ans.*

*J'ai constaté la destruction de plus de* 3 *appareils électriques numériques:*

1. *"*1 *régulateur de tension (AVR) de* 5 000 *Watts".*
2. *"L'affichage d'*1 *neuf régulateur de tension Innova de* 2 000 *Watts de moins de 3 mois d'age et racheté tout neuf à* "25 000 *Francs*"*".*
3. *"*1 *refroidisseur d'air MIDEA" de plus de* "80 000 *Francs*" *!*
4. *ADDENDUM-du—April 17, 2025:*

*Cette ligne électrique avec* 1 *appareil espion qui modifie des programmes sur mon téléviseurs numériques sans que je le souhaite appartiendrait à* "*creolink via COLONEL kemajou (*`https://`*)* " *datouo therodore.*

*l'information m'a été remis par* 1 *homme trapus, similaire à "*1 *homme à arme" que je vois régulièrement dégusté des repas frelatés au commerce du bagangte kemajou...*

*IL sillonne cette zone et celle d'en face-Entree-general-etoa-bouba-qui— avec* 1 *corolla toyota rouge.*

144. "*12*" *JUIN* 2024:

Des mon arrivée du supermarché 'Casino', face "Cathédrale Catholique orthodoxe" ce matin, ICI à YDÉ;

2 individus sombres et obscurs occupent la devanture de mon domicile privé de "Ahala-SIMBOCK", DANS LE SOUCIS de reposer 1 appareil espion dans l'enceinte de mon domicile, Sur 1 câble dont j'ignore l'entreprise ou l'organisme gouvernemental propriétaire !

JE soupçonne 1 manœuvre qui vise à me faire incarcérer pour 1 cabanon pour fous de "l'hôpital JAMÔT de YDÉ", ORGANISÉE par "DATOUO et compagnie".

Surtout que j'ai été salué lorsque je me rendais chez mon client pilote "N.K (Nestor Kenfack) quincaillerie" pour le dépannage de son "ordinateur portable-LENOVO-thinkpad-T460"; Par la "brute de gendarmerie COLONEL KEMAJOU".

CE colonel ne me remarque plus puisque il m'avait réitéré de RESTER CHEZ MOI ET LUI AUSSI QU'IL RESTERAIT CHEZ LUI.

145. "*14*" *JUIN* 2024:

"Monsieur Onguéné", ancien directeur d'exploitation de S2TBED était entrain de remettre des ordures juste à l'entrée de mes domiciles sis AHALA–Simbock !

Ce goujat de tribalisme m'avait il y'a de ceci 2 ans environ tancé de retourner chez "DES BLANCS" vivre puisque lui, "ONGUÉNÉ, du centre et du littoral du Cameroun", n'appréciait pas ma façon et manière de voir la vie, BIEN QUE CETTE MANIÈRE ET FAÇON est conforme aux lois en vigueur au "CMR".

"ONGUÉNÉ" était arrivé à YDE juste 1 journée après mon arrivée de Douala, comme s'il était entrain de me faire suivre et espionner pour que je ne puisse pas être à mon aise et conforme aux lois de la république du CMR.

Ce même "Monsieur Onguéné", natif du centre et originaire du Littoral ("Nkongsamba"); m'a même fait la proposition 1 fois de me donner sa fille en mariage; bien que "Monsieur Onguéné" sache que je suis 1 célibataire sans enfants physiques éternellement comme mon père aux cieux "JEOVAH–NISSI, aussi dit JESUS–DE–NAZARETH".

"ONGUÉNÉ", fervent supporteur de "biya–franck", serait celui la qui détruit la vie des Camerounais retournés chez eux pour participer à l'amélioration de leurs conditions de vies villageoises OU BIEN !!!

JE soupçonne même le R.D.P.C d'avoir 1 équipe spéciale contre ma vie, aux vues des évènements malheureux à mon encontre ces 3 dernières années.

***MENGUÉNÉ (Mvindi laure: n.d.l.r: psy chargée de détruire la vie des républicains dans le sud du cameroun.) et "ONGUÉNÉ" seraient sûrement des cousins du village contre L'INTELLIGENTSIA originaire de l'ouest Cameroun !!! En effet, "Onguéné" a fait*** 1 ***fois allusion à moi; "pr. dr. xavier noundou" n'étant pas saint mentalement, devant*** 1 ***parterre d'au moins*** 8 ***personnes originaires de tout rebord du CMR–natal–Et–VÉCU–DANS la misère intellectuelle.***

146. "*14*" *JUIN* 2024:

1 caissière de "Casino supermarché" à YDE, a eu l'amabilité, de me rembourser avec 1 surplus de 200 FRANCS.

En effet, "je devrais retourner 1 ticket de 175 FRANCS de monnaie non rendue la dernière fois" que j'y ai fait des achats; JE ne retrouvais plus ce ticket de 175 FRANCS vieux de plus de 3 mois.

## 31 ÉVÈNEMENTS MARQUANTS (SUITE)

147. "***20*** **Juin 2024**:
”ONGUÉNÉ” a fait placer des plantes avec graines de mauvaises herbes exactement à l’entrée de mes appartements; Ou j’ai eu à pulvériser des herbicides il y’a de ceci 4 jours maintenant.

JE conclus que c’est la bande a FRANCK–biya; Puisque ”M. ONGUÉNÉ” m’AVAIT dit être 1–”FRANCKISTE”.

148. Le fainéant de la milice privée de ”biya-mvondo-rdpc”; LUC–indic me fait suivre par des vaux-rien soit-disant que je suis entrain de marcher avec 1 SAINTE–BIBLE en main.

À croire que des indigènes (”Paulette AZEFA”, celle qui a essayée de me faire assassiner en "Janvier 2024 par sa putain de fille ”Aline AZEFA”"; J’ignore qui sont ces ”DSCHANG–bamilekes” qui vivent de vols et de raquettes à YDE.) n’ont rien à faire dans 1 monde extrêmement développé.

*J’ai essuyé déjà 1 agression physique manquée au carrefour "Tradex-Barrière" par 1 membre de la même milice R.D.P.C.*

J’empêcherais ainsi leurs opérations de satanisme en plein jour !!! ALLÉLUIA. Amen !!!

149. "***21*** **Juin 2024**: “”Le professeur THOMAS djotio ndie” de l’école polytechnique de Yaoundé vient de me recommander, moi, titulaire d’1 doctorat–PH.D. en électricité Et informatique de l’université de waterloo en ontario au canada de postuler pour 1 emploi de vacataire au sein de ce fallacieux établissement du fait de lui (E.N.S.P.Y), gérer par 1 normalien qui n’aurait reçu aucune formation d’ingénierie !

“ Aussi, je lui ai fait part de ma connaissance du professeur Clémentin Djameni Tayou de l’université de Dschang.“
“ Aussi, Comment ”Clémentin Tayou Djameni” qui m’avait fait repayer 1 ticket de train à grande vitesse partant de Bremen (Allemagne) pour Rennes (France) vers des années 2004, ”sur invitation du professeur Gilbert TCHINDO”, ne m’a plus jamais recontacté malgré mes multiples actions dans ce sens.‘

150. "***22*** **Juin 2024**: LE pousseur ”ANDERSON kensop” est venu chez moi pour quémander du sable fin aux fins de crépir 1 véranda dans son bidon ville.

1 escouade de gendarmes et policiers, armés jusqu’aux dents est arrivée au carrefour "derrière–Savonnerie–nosa" hier sur plusieurs "véhicules 4$x$4".

’L’INDIC de gendarmerie à moto rouge et de la tribu boulou’ et très clair de teint dont j’ignore des identifications avait déjà été aimable en me transportant sur ”sa moto lorsque je patientais pour Carrefour–Tradex–AHALA”.

151. "***23*** **Juin 2024**: ”STEEVE azefa” ÉTAIT ACCOMPAGNÉ D’1 PETIT GARNEMENT CET APRÈS-MIDI lorsque je les ai observé mettre quelques pierres et morceaux de bois devant mon domicile de YDE-ahala.

JE M’ÉTONNE de constater ce 29 JUIN 2024 QUE depuis que j’ai attrapé en flagrant délit de salissure ONGUÉNE de S2TBED; c’est maintenant les AZEFA-satan-dschang-bamilekes-voyou Q’il (S2TBED) envoie faire des saletés au devant de mes routes principales menant à mes appartements QU’ILS (VOYOU-BIYA-CONSORT-ouest-kemajou) Convoitent !

JE Commence à penser que mon sous-développement actuel environnemental viendrait de l’italien MARCO-sale-type-dario-Siemens qui les pilote.

1 policier du 19 ème arrondissement (AHALA), avec 1 crâne rasé est très récurrent sur ma route.

Cet idiot était 1 fois ici il y’a de ceci environ 3 mois avec 1 indic qui a essayé (Sans la présence de ce flic véreux), de pénétrer sur 1 terrain de notre concession NOUNDOU; Bien qu’elle soit clôturé de 3 cotés;

”TCHABAT BASILE le géomètre de mes terrains NOUNDOU” avait dit que personne ne pourrait s’installer ou pénétrer dans 1 terrain clôturé à au moins 3 cotés selon des lois camerounaise.

”KEMAJOU, le colonel de gendarmerie a essayé de m’interpeller cet après-midi lorsque je circulai au devant de ses domiciles sur 1 route ouverte au public.”

**JE soupçonne** 1 **beau-frère de Rose SANGNOU, en l’occurrence le ”SED–secretaire-detat-a-la-defense”; ”Dr. WOLFGANG-fernand-junior-Owona”.**

**”Ce fainéant, dont l’idiot DE SON BEAU-FRÈRE patrice cabral shanda-sanou de regretté mémoire avait dit être extrêmement violent en soi.”**

”L’IGNARE célestin puene”, ami utérin intime de JULES-nteta-noundou était aussi présent a nos cotes à ce restaurant situé au Carrefour—WARDA.

167. *Dimanche* "*21*" *Juillet* 2024: 1 brigand vêtu de tout noir dans 1 véhicule banalisé de marque "Toyota corolla" s'arrête en pleine chaussée, sur le rebord lorsque je traverse 1 route jouxtant "l'entrée principale du général d'armée camerounaise BOUBA" ...!

168. *JEUDI* "*25*" *Juillet* 2024: "Datouo, KEMAJOU" est allé faire des faux documents disant que je suis 1 schizophrène, Puisque il ne sait même plus où je vis.

"Rose SANGNOU" ma génitrice m'avait déjà redemandée de ne plus entretenir des conversations et / ou liens amicaux avec cet individu d'1 violence terrible Puisque ancien militaire de rang à l'Ouest du Cameroun du COMMANDEMENT OPÉRATIONNEL. ELLE s'était plaint de ses appels téléphoniques incessant sur sa ligne MTN !

"Rose SANGNOU" a fait des efforts pour me fournir "5 000 **Francs**" ce jour–ci.

169. *Lundi* "*29*" *Juillet* 2024: "JE m'engage à déverrouiller en apprentissage la jeune et insouciante "Christelle AKAMBA", nouvelle employée de l'ancien client Quincaillerie N.K." !

170. *Lundi* "*12*" *Août* 2024: "L'énergumène de junior-bamkoui; 1 petit type très court et très nerveux, Qui parraine le gang de malfaiteurs (malfrats) fondé par "PAULETTE azefa; est aux arrêts par mes paroles ! " !

AZEFA a des soutiens "vietkong venant de Datouo par FRANCK–biya–s2tbed". CE gang sévit dans les zones de barrières–simbock–ahala.

CETTE bande appartenant au gendarmes BAMKOUI–datouo–KEMAJOU est au cerveau d'1 réseau de vols aggravés par menaces sur personnes physiques que j'ai éprouvé par la tentative de vente d'1 frigidaire personnel de chambre au "Montant de "50 000 Francs"" à 1 certain "Georges–chien–ANDERSON-njougep".

EN prélude à cette tentative de vols aggraves, ROSE-sangnou-génitrice; m'avertissait d'1 petit dérangement qu'elle peut faire par sa sœur de bankepche–bangou, en l'occurrence la renommée "NJOUGEP–malfrat–peg"; En effet, elle est allée se renseigner sur mes transactions financières aux fins d'opposer 1 rentrée d'argent dans mes poches !

Naturellement tout ceci est sous-organise par "LE PROFESSEUR jean-claude-SALAUD-tonme" de "MENJIE-bangou".

TOUS ces signalements sont faits dans le but d'entraver la MARCHE DE LA JUSTICE dans le cadre de l'information judiciaire sur la tentative d'assassinat que j'ai subit en FÉVRIER 2021 dans la nuit aux alentours de 23 : 30 à mon domicile prive au quartier BÉEDI–DLA.

171. *Lundi* "*12*" *Août* 2024: " 1 petit bandit de capitaine-mbida de la "DSP-Division-de-la-sécurité-présidentielle vêtu de bleu tricot+jean" me regarde menaçant du visage lorsque je me déplace sur le chemin–route menant a mon domicile pas très loin de cette maudite maison des hommes avec des armes a feu en milieu de ville–civile.

JE soupçonne déjà mvondo–capitaine-emanè-nkoa-pierre-marcelin; AUSSI "rattacher à manawabe par le BIR-bataillon-d'intervention-rapide;" de rechercher à me faire assassiner PUISQUE dans mes rédactions précédentes et mon curriculum vitae ci-dessus en Anglais, j'ai déjà raconté tout ce qu'il m'a fait subir comme sévices racistes–tribales–boulu de CHIENS–nauséabonds !!

"SA sœur cadette mado" qui travaille chez etoga, m'a même déjà fait agressé par 1 homme d'1 taille de plus de 2 mètres 30 centimètres.

"SA sœur cadette mado" EST la concubine de capitaine-mbida; ET 1 gendarme en service au SED–sécrétariat-d'état-à-la-défense.

172. *Samedi* "*24*" *Août* 2024: "Colonel KEMAJOU" est en infraction sur 1 terrain de la CUY–Communauté Urbaine DE Yaoundé.

En effet, ce "sodomiseur" occupe 1 terrain que la Communauté Urbaine de Yaoundé a redemandée de détruire depuis Fevrier de cette année !

CET énergumène a même fait construire 1 escalier de béton à l'endroit de cet espace public où j'ai l'habitude de repasser pour inspecter l'évolution des travaux de réaménagements de la CUY; PUISQUE je suis 1 riverain à qui ceci serait bénéfique.

LA quantité de malfaiteurs installés près de "colonel KEMAJOU" prête à confusion; on dirait qu'il entretient des bandits ou bien comment !

173. *JEUDI* "*22*" *Août* 2024: “1 monsieur du sed–ndlr-secrétariat-détat-à-ladéfense vêtu d’1 ensemble sport gris, ou bien j’ai oublié la couleur; VIENT me perturber pendant que je relie quelques versets bibliques dans mon petit coin seul; En pleine bordure de rue; SANS gêner personne dans ses routes et autres.“

L’ignare vient discutailler sur son ordinateur téléphone mobile à très haute voix; JUSTE derrière moi qui suis assis.

LORSQUE l’on a raté sa vie honnête, on essaye d’aller faire des inquisitions (accusations mensongères contre des homme de ”JEOVAH-NISSI-AU-CIEL”).

174. *Samedi* "*26*" *Août* 2024: “Une dame de la police camerounaise en service à Yaoundé a redemandée "500 Francs" a mon oncle–cousin GUTTEMBERG–tchamaha lors d’1 contrôle inopiné de pièce d’identité et de circulation.“

NOUS (guttemberg tchamaha ntaata et son épouse MARCELLE–marie-tchamaha; ainsi que leur fils MAXIME) du marché ”Mokolo”

Une policière ayant 1 salaire minimal de "130 000 Francs" redemandant "500 Francs" à 1 ménagère ayant 5 enfants à charge et vivant de commerce au collège ”JÉSUS-MARIE” de l’église catholique orthodoxe de SIMBOCK; n’est ce pas aberrant !!!.

JE n’ai pas eu de possibilité de relire le nom et le grade de cette fonctionnaire de police d’1 système assez similaire a MAXIME–napoa-eteme en service a la base navale de DOUALA; Et scandant être en service ”au sémil–ndlr.Sécurité-MILITAIRE”

JE serais 1 petit peu choqué que ce monsieur dont 1 des filles officielles BRENDA-eyenga-biya...; redemande à briguer 1 nouveau: Surtout qu’il à déjà passe près de 55 ans dans 2 gouvernements camerounais !!! fin ce citation.

MOI, président de mes générations descendantes; je pense être mieux qualifié pour régir la position de magistrat suprême; Sans permettre que des agents du secrétariat d’état (SED) à la défense vienne par effraction au domicile d’1 diplômé de la meilleure université canadienne ontarienne en informatique de génie; POUR l’emmener de force à 23 heures 30 minutes par ”Laquintinie–assassins”.

Quand je repense n’avoir jamais vu des points de développement sur le plan numérique dans le site web–internet du président paul-biya-du-renouveau ”macronien” qui parle de l’informatisation !!!

175. *Mercredi* "*28*" *Août* 2024: “J’étais en compagnie du plombier–bir Francis Come MAGLOIRE nkoulou.“

”L’idiot de siemeni fabrice pense qu’il peut me rendre moins opulent en arrêtant mes revenues financiers par etoga le chef idiot du secretariat d’etat a la defense; ROSE sangnou me re–annonce qu’elle sera encore a YAOUNDE apres que je l’ai rencontre il y’a seulement 2-semaines de ceci.”.

176. *Vendredi* "*30*" *Août* 2024: “J’ai discutaillé avec le ”DQP–diplôme de qualification professionnelle en INFORMATIQUE marie-rose ondomo” ce jour en présence de SERGE.“

J’ai recommandé 1 ordinateur portable de marque Lenovo série de fabrication ”T–thinkpad’ d’1 montant de "70 000 Francs".

177. *Vendredi* "*06*" *SEPTEMBRE* 2024: “J’ai redemandé à ”nestor kenfack” de ne plus se mêler des affaires personnelles me concernant sans mon avis et accord.“

Cet idiot de commerçant de Panurge: ”nestor kenfack”; IL ne sait plus même se limiter à son petit commerce !

178. *mardi* "*17*" *Septembre* 2024: “”Mbouwe”–chien marius supposément être 1 technicien de froids et chauffage parait être plutôt 1 sapeur pompier de l’armée; Puisque j’ai observé 1 monsieur en treillis orange de l’armée peu après que je sois ressorti de chez moi pour retourner chez NESTOR-kenfack de QUINCAILLERIE-N.K à Barrière–tradax–ahala–YDE. ! “

Mbouwe est vêtu d’1 boucle d’oreille or aussi.

JE soupçonne "SHANDA–tonme", Agent-secret espion américain; ET à la solde de "MICROSOFT RESEARCH", d'essayer pour besoin de gains financiers, de me faire des humiliations et destructions publiques.

AVANT ceci, 2 personnes ont essayé de m'accoster alors que j'étais dans 1 petit restaurant de "N.K.–Quincaillerie"; ET dans les locaux de "N.K.–Quincaillerie" respectivement.

Le métier des membres des familles où SHANDA-tonme est entré pour faire des assassinats des élites intellectuelles camerounaises est devenue des ASSASSINS.

5. *Create a framework that allows for formal method specification of static dataflow analyzes as temporal property verification formulas;*
   *Such a framework generate code software as static staged dataflow analyzes for its users.*
   *More importantly, I will try to reuse previous work done for* YRI_QVGE*[12.12] research work, as part deliverable.*
6. *TRY to integrate research results on software security in "YERITH–ERP–9.0–platinum "; from Vijay GANESH research (**https://research.gatech.edu/people/vijay-ganesh**); MOST possibly using "*SDMM*".*
7. *Automatic generation of web HTML pages from a Domain Specific Language (DSL) that is more approachable for a high level programming language perspective (i.e: similar to C++ / JAVA):* YERITH–WEB–PAGES–GENERATOR–9.0*[27.27].*
8. Create and render software analysis, debugging, and testing tools as easy as possible to use, with only finite automata theory background; and / or Typestate–API usage rule checking typestate–API knowledge (e.g.: YERITH–SAINT[23], SDMM[?d], YRI_QVGE[12.12], VALKYRIE–VALGRIND[20.20]).
9. *Prepare a course on "Software System Security Vulnerability Detection and Analysis". I prepare this course material so to implement a software system for protecting other software from malware.*
10. Create a stand–alone tool that generates code for creating statechart C++ code for mealy machine state diagram (SDMM[?d]).
    This tool is specifically created and programmed for generating code that uses checkboxes to select options for Graphical User Interface [GUI] code.
11. Position "static dataflow analysis research and techniques" as similar as runtime verification (i.e.: circle 4 in Figure 9; e.g.:PH.D. THESIS[21], YERITH–SAINT[23]).
12. Create and produce a computer device that could be embedded into other computer devices and that will communicate with them through serial ports and / or USB interfaces SO to provide YRI_QVGE program verification to USER FINISHED products on-the-fly, AS an add-on ENGINEERED industrial product: ALSO this product could qualify for an CE—ISO–related certification for avionics, railways, automotive, and CE—ISO certifications for Healthcare : [YRI–QVGE–PC–TABLET].

## 1.1 CAMEROON new country name based on CHRISTIANITY–jesus–of–nazareth–NAME-and—TRIBES-number

Changing CMR onto YERITH as country name since JESUS–OF–Nazareth utilizes 12 237 as number of tribes for its ISRAEL tribe.

## 2.2 National Currency BILLS and / or COINS

- CMR YERITH NATIONAL Money currency as 'YERITH-dollar ("JESUS–OF–Nazareth"-dollar)'.

  THIS money currency bill and / or coin system will be backed by computing systems from YERITH R&D; AS open-sourced products :

1.) **YERITH–ERP–9.0–TRADING–REALTIME**; A software–system product created out of Enterprise Resource Planing Software **YERITH–ERP–9.0–PLATINUM**[?]; that also utilizes **YRI_QVGE**[12.12.7] that is also usable as an algorithmic trading system !

## 3.3 National Identification

1. A system allowing any of the 3 documents cited below as valid official identification for any official or inofficial activity shall be implemented in Central CEMAC:
   1. ***Valid NATIONAL IDENTITY CARD***
   2. ***Valid PASSPORT CEMAC—CEDEAO***
   3. ***Valid bank account id.***

   ***I could notify this since the law school of lagos he attended didn't issue for a certificate with exact same official birth identity names as written thereof.***

   ***THIS COUSIN OF MINE IS A CRIMINAL in all systems of justice worldwide.***
2. 1 system, computerized, and / or, a text registry book shall be created to register any Cameroon citizen with no need for any citizen to walk around with a national identity card.
3. There are some drawbacks as for instance mentioned on the website of FREE SOFTWARE FOUNDATION, in the United States of America (USA), to have a centralized registration system for citizen or People living inside a country !
4. ***"A gervais nana (gersatelgmail.com)" I know somewhere in YDE, seems to be connected as a free-mason to ""MOÏSE YAMKAM TEBIWO"" .***

         HOSPITAL is used to destroy lives.

      2. destroy where it is supposed to be killed;

         POLICE and ARMY kill people that go to them for seeking help after being robbed or whatsoever here in AFRIKA;

         so called ***UNITED–nations*** (https://www.un.org) are only a replacement for colonies by white–supremacists.

    - IT seems it is cameroon-cpdm-people who are UNITED nations workers here in CMR; HERE.

## 4.4 JUSTICE and PAST-MEMORIES to heal in Cameroon

1. [Dr. PAUL Siméon nomo, from MONATÉLÉ came to my private house in YDE–AAHALA, to arrest illegally without any notification or whatsoever; using a firefighter truck and 3 firefighter to molest myself in front of several neighbors so to discredit my life as a peaceful citizen of Cameroon.]
   HE seems this criminal assassin from BIYA private places is now living in Maryland, USA; since I went back to Canada to resign from CANADIAN–shit citizenship.

   Another cousin of mine so called "[Rodrigue Alain Sienchie]", told me that 1 day armed soldiers with uniforms came to arrest him in the house of his parents, sent by "[Dorothée SHANDA NDJATIE OWONA]"; THEN went to sodomized him at LAQUINTINIE HOSPITAL.

   "SO I SUSPECT this criminal LAURENT TCHANDEU DJATIE DOROTHÉE OWONA to have sent to my private house in Yaounde in 2017 this 'so called baptist church pastor Dr. SIMEON NOMO, PSY.D.'."
2. "Eyoum Chritian" idiot's immunity of justice because he is a psychiatrist Must be investigated !
3. 'S2TBED', finally repairs our main common road: They destroyed a previous road with LATERITE so much that IT must be fixed with concrete !
4. 'S2TBED', biya's illegal industrial forestry enterprise society, an illegal neighbor of "Immeuble YERITH" of mine, IS constantly disrupting electrical energy current supply.
5. ALL my real estate in Douala (3 3-bedrooms apartments) need to be released by a genitor of mine THAT is not anymore wanted in my life because of all atrocities SHE CONSTANTLY commits with SHANDA GREGROIRE OWONA Wolfgang TCHAMOU angela ndjatie. !!!

   SISTER'S of Rose Sangnou my genitor, Dorothée Shanda Ndjatie, IS CONSTANTLY harassing her to take me to any psychiatric institute by force, Even though there is already a criminal investigation against her and Rose Sangnou at DLA-ndokoti justice palace; DOROTHÉE is a criminal PERSON !
6. 'MADO's brother CAPTAIN pierre marcellin emana nkoa' must reimburse back my 210 000 FRANCS since SEMIL (Sécurité Militaire) told me in 2016 THAT THEY CANNOT convoke them SINCE receipts were signed by his cousin "JEAN-DE-DIEU onana".

   "MY NEIGHBOR CARINE LELE NJOUGEP TCHANA", seems to be here because of them, so to deteriorate the quality of life of legal people living here, and promote their own-beings through propaganda LIKE 'it seems THE colonel living THERE above of the hill IS the one that FIXED the road leading to your compound !
7. JUSTICE FOR BREAKING AND torturing myself ('Xavier noumbissi Noundou [Pr. Prof. Dr.–Ing. ]') in front of at least 17 people in front of my inherited personal domicile in Douala–Béedi-Cite-des-Palmiers MUST be finalized before Cameroon election 2025.
8. 'JUSTICE president and certain types of judges must be apolitical: I.e.: THEY CANNOT BELONG TO A POLITICAL PARTY !
9. ***MARTINEZ ZOGO assassin AMOUGOU BELINGA justice criminal court must be finished before Cameroon election*** 2025.
10. ***PEOPLE responsible for the drama of Edea Railway Failure in .. MUST be judged in a civil criminal court before Cameroon election*** 2025.
11. ***MILITARY SOLDIERS that killed about "7 women and their teddies in north Cameroon must be judged."***
12. "***EDGARD ALAIN MEBE NGO'O" criminal procedure in military justice courts must be achieved before Cameroon election*** 2025.
13. ***Military Soldier must have their own facilities and amenities in cities, and not mixed intermingle anymore with civilians, AS THIS IS CURRENTLY THE CASE when they DON'T wear military attire uniform !***
    ***In fact, MILITARY SOLDIERS or Alike don't have a same behavior justice as civilians; Not talking about habits and gesture.***
14. ***Bepanda drama because of 'general MPAY' must be re-covered in a justice palace court of civilians and / or military justice !***

## 5.5 ACADEMY and Technology Research Institutions

1. Promote creation of research centers for solving problems located specifically in central west Africa:
   1. Another source of revenue for CMR
   2. Improving life conditions for CMR and neighboring friend countries.
2. Enable a financing WITH non reimbursement option for doctors in science and / or engineering.

## 6.6 Employments and JOBS creation for adult people

1. THERE must be a minimum amount of jobs offer for each society that was funded by the government for researching and improving life quality in CMR and neighboring countries.
2. ***WOMEN that are selling goods outside of their home like "CAROLE mangue" (la fille de "MA–bernadette" au sécrétariat-détat-yves-idiot.) shalln't be part of SED or any governmental secret or not agencies !!!***
   THIS culprit shall also try to not resell goods that were illegally imported into CMR.
3. ALL PEOPLE that were trained by the BIYA–regime as illegal para–military personal, MUST go into peace-keeper corps organization of the UNITED NATIONS or somewhere else so to keep cities and villages free of fire and all other destructive people.

   *FOR instance people like "PASCAL dayang", working at "S2TBED" of the culprit franck–biya has insinuated to myself that HE will disrupt any business activities that I–doctor–of–engineering Xavier NOUMBISSI NOUNDOU will perform in my compound !!!*

   ***[ "S2TBED"–"PASCAL dayang mercenary SED soldier" as threat in CMR !!! ]***
4. Transform all wood factories within city of YAOUNDE in computer desktop and / or laptop assembly production units

## 7.7 JUSTICE and DIVINITIES

1. ***Destruction of all secret services units in Cameroon !!***
   1. "OUATTARA people shall not anymore be opponent to christian people here in Cameroon as it is the case with Shanda–TONME jean claude" presently.
   2. People like SHANDA OWONA harass other people because they feel as safest as possible because of some kind of impunity based on their appurtenance to DGRE special unit forces ("JEAN CLAUDE shanda tonme and spouse" weren't for instance infringed in DLA–NDOKOTI palace for breaking into my compound, closed at night, with around 9 burglars; So called Technicians of "PSY–laquintinie"; around 23 : 30 at night while I was sleeping IN february 2021 in DOUALA).
   3. Politicians shall be reduced to be people applying criminal and civil laws instead of people trying to make their own ideas come through via ENTERING private life of people like "Shanda TONME jean claude" has done in the past 30 alike years with my personal family and life ('Family NOUNDOU michel', and 'Family JEAN NGONGANG') !
   4. 'SEMIL' and special alike units of Cameroonian army shall be dismantled because of reported proved or not really ATROCITY facts.
   5. 'SEMIL', 'DGRE', 'SED', etc.; all former people wearing weapons shall be displaced into military caserns so to avoid mixing MILITARY alike people with civilians !
   6. IMPUNITY of all people wearing weapon must cease with tribunal applications of criminal laws.

## 12.12 Software Verification with *YERITH_QVGE*

***A library or plugin at any layer (OR a combination mixture of layers) of a software system architecture could be verified and validated using YRI–DB–RUNTIME–VERIF by applying a receipt: IT would be sufficient to map each system call wanted for call sequence verification and / or validation to a MySQL query: So one doesn't need to re-create new QT-Dbus interfaces for YRI–DB–RUNTIME–VERIF: E.g.: "SYSTEM V libc".***

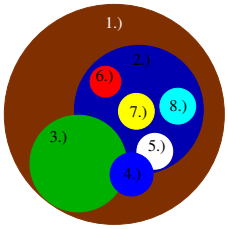
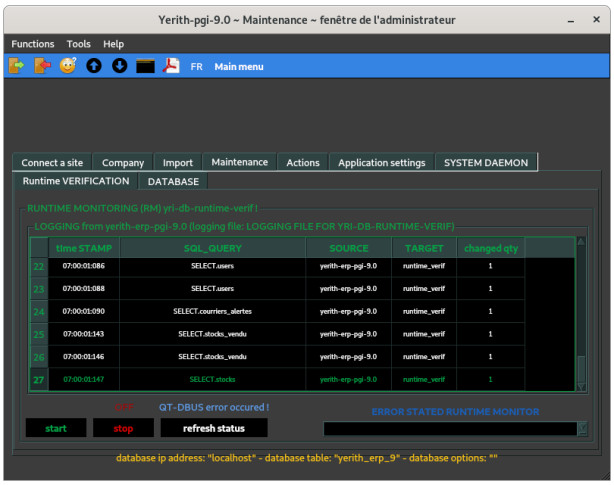
### 12.12.1 *TAXONOMY : Software Verification vs. Program Code Verification*

Figure 9: *"Program verification (including model checking)" is a subset (⊂) of "SOFTWARE VERIFICATION". (See also research goal 11.)*



1.) SOFTWARE VERIFICATION (SOFTWARE TESTING)
2.) PROGRAM VERIFICATION
3.) Model CHECKING
4.) RUNTIME VERIFICATION (MONITORING)
5.) UNIT TESTING (e.g.: class testing)
6.) Static Analysis (dataflow analysis)
7.) (AUTOMATIC) Theorem PROVING
8.) symbolic execution

Figure 10: *Embedded program verifier notifier within YERITH–ERP–9.0–platinum; YRI–DB–RUNTIME–VERIF runs as a background process service.*



***Software System verification** is a discipline to verify whether a software, meaning a product use at customer level and full–featured, conforms to certain software system user related usage properties.*

*In contrast, **program code verification** checks only program at the level of their source code or binary code product against code programming related properties, And not necessarily at level of a full featured user level product. Thus all code programming related properties could be cast down to certain software system related properties. It follows PROGRAM VERIFICATION is a Subset Of Software (System) Verification: illustrated in Figure 9 !*

*Program Analysis by Xavier–yerith (https://www.archive.org/details/yeroth-program-analysis-2023/YERITH-PROGRAM_ANALYSIS_2024_With_CURRICULUM_vitae_2024.pdf)* !

### 12.12.2 *How to use YERITH_QVGE*

*A software component or a whole running software binary could be verified against SQL correctness temporal properties by USING* YRI_QVGE*, as illustrated in Figure 7:*

- *The **1st layer** illustrates the runtime verifier tester monitor engine:* YRI–DB–RUNTIME–VERIF*, that entails several custom runtime monitor specifications, provided by user.*
- *The **2nd layer** shows the **SUT (System Under Test)**; or **PUA (Program Under Analysis)**; layer that communicates with* YRI–DB–RUNTIME–VERIF *trough QT socket calls (via DBus messages). Each event message is sent to all runtime monitors. The **SUT** source code has been instrumented first, so to specify which program statements actions are to be packaged as messages to* YRI–DB–RUNTIME–VERIF*. "INTEL-Pin" (https://www.intel.com) could also be used to instrument program binaries at runtime directly, Avoiding recompilation and even usable where source code of SUT (PUA) is unavailable.*
- *The **3rd layer** illustrates a library or plugin (i.e.: MySQL) that is being monitored via instrumentation of the **SUT**; in this case, the **SUT** is YERITH–ERP–9.0–platinum. **Other providers could modify An Open Source Code Version (FOSS) of** YRI–DB–RUNTIME–VERIF **to verify and monitor another library–plugin other than MySQL**.*
- *The **4th and last layer** shows the Operating System (OS) layer and its communication via systems calls with the 3rd layer of the library-plugin.*

### 12.12.3 *How to use YERITH_QVGE in relation to verification cyber–security detection remediation methods.*

1. ***Model Checking*** (https://wikipedia.org):

   ***Temporal logic formalisms**, such as **LTL (Linear Temporal Logic)** (https://); Could be used to create State Diagram Mealy Machine (SDMM) (https://www.archive.org/download/yri_ictss_2023/yri_ictss_2023.pdf)[?d] and generate a binary executable of YRI–DB–RUNTIME–VERIF (https://www.zenodo.org/records/10474033) [?b] to perform runtime monitoring, and runtime SQL recovery of Graphical User Interface (GUI) supported software (And also not supported GUI software). Users must only note that "*SDMM*" specifications are **fail (forbidden) trace** behavior specifications of a program under analysis (**SUT**).*

   *Structures could be created on how to translate simple LTL constructs into simple "*SDMM*"; So to ease usage of* YRI–DB–RUNTIME–VERIF*;*

2. ***Runtime Verification (Monitoring; including Software Cyber–Security Exploit Detection Remediation)***:

   ***A whole class of problems involving sequencing of actions and / or method calls ranging from:***

   - *Application Programming Interface (API) checking protocol usage;*
   - WEB–APPLICATION RUNTIME MONITORING*[27.27] ; Software Security Vulnerability Analysis: I.E. Taint Analysis;*
   - *Information Flow Policy Control and Enforcement : (E.g. : Figure 11);*
   - *Checking of automated and / or manual (unit) test procedure conformance with regards to TESTED PROGRAM (SOFTWARE) temporal properties;*
   - etc.

   ***Could be solved by usage of** YRI–DB–RUNTIME–VERIF**;** YRI–DB–RUNTIME–VERIF* GIT–REPOSITORY*[?b]: git https://github.com/yerithrd/yri-db-runtime-verif . "Pr. Prof. Dr. Jean Yang, Ph.D." from CMU–"Carnegie Melon University (https://www.cs.cmu.edu/~jyang2)" could be a potential competitor in this area of research.":*

      - *API usage rule check at 'AKITA Software (https://www.akita.com)' in USA; California (CA).*
      - *"Jeeves Programming Language" enables static typing;*
      - *Dynamic code source rewriting to achieve Semantics; implemented as an embedded Domain Specific Language (DSL) in Python programming language (IT is unclear in which document [PROFESSOR JEAN yang checks] that this code is correct).*

*Table 8 compares tabularly the "Jeeves Programming Language" and "The Runtime Monitoring Verifier Tester YRI–DB–RUNTIME–VERIF". In contrast to the "Jeeves Programming Language" that specifies information flow policy and control enforcement for Python, YRI–DB–RUNTIME–VERIF is not implemented as programming language feature, and thus could be used for any software system that could emit Qt-Dbus signals ; Thus, information flow control and enforcement is run as a separate process, concurrently to the system under analysis (verification or monitoring) as pictured in Figure 7.*

*Figure 22 illustrates a sample SDMM (https://www.zenodo.org/records/13232567) [?d] specifying that a "FILE SHALL NOT be written–updated after it HAS BEEN CLOSED–DELETED".*

### 12.12.4 *Runtime Dynamic Program Interpretation Rewriting with "Jeeves"*

*The information flow policy control and enforcement solution provided by the "Jeeves Programming Language" is as follows :*

1. *A domain-specific language (DSL) is defined and embedded in a modification of the* dynamic interpreted *programming language Python. The drawback of an embedded DSL is a non re-usability in using other programming languages and framework other than those related closely to Python;*

2. *Only certain cases are flow policy control and enforcement are solved statically by "Python–Jeeves" type system;*

   *It means that 'false positives warnings' cases still exist in programmer code and couldn't be removed by static compilation and / or dynamic code interpretation.*

   *In contrast, "the mixed formal methods – runtime dynamic analysis monitoring" I used in "YRI_QVGE", don't allow by construction for 'false positives warnings': A 'false positive warning' is a message from the analyzing system that indicates an error accepting state while THERE IS IN EFFECT NO ERROR found yet.*

3. *Flow policy enforcement is solved dynamically at runtime by* dynamic code rewriting*; WE HOPE that this feature could be proved sound for all program statements because it might create uncertainty of valid flow policy enforcement at all.*

   *Differently, "YRI_QVGE" uses SQL database statement query for performing error accepting state recovery (~~or also called "Information Flow Policy Control and Enforcement"~~).*

### 12.12.6 *"Formal Methods – Runtime Dynamic Analysis" Vs. "Compiler Static Analysis Technology"*

Figure 11: ***Runtime Verification Monitoring with*** YRI–DB–RUNTIME–VERIF.

Figure 12: *YERITH SDMM based runtime monitoring verification analysis.*

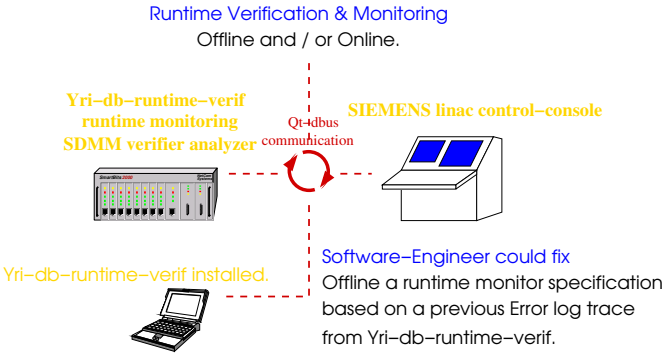

Figure 13: *A sample [YRI–QVGE–PC–TABLET] in action.*

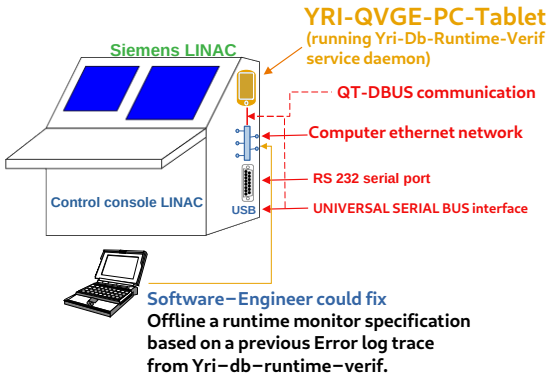

*I advocate :*

1. *Solving problems using compiler static analysis technology; that is based on lattice-theory is more safe than formal methods algorithms at first because MANUAL model checking has to be used to prove formal methods solutions correct, which could be very tedious and lengthy; "OR EVEN INTRACTABLE". SEE the state explosion problem (https://).*

   *On the other hand static dataflow analysis algorithms based on lattice-theory are safe by construction and don't need no more proofs of consistency and validity as long as they only follow the base–pattern algorithm as for instance defined by "Gary A. kildall : A unified approach to global program optimization (https://doi.acm.org/10.1145/512927.512945)".*

   *THE previous statement also applies when using an instance of a static dataflow analysis based on the IFDS (Interprocedural, Finite, Distributive, Subset) (https://www.semanticscholar.org/paper/Inter-procedural-data-flow-analysis-with-IFDS-IDE-Bodden/a3f7557fe673ff0711e9049cf5ece8b02a51f7f1) algorithm from "THOMAS reps" (https://www.grammatech.com) at "The University of Winsconsin-MADISON-mad". (https://www.uwisconsin.edu)*

2. *The formal method approach I use in solving problems listed in "Subsection 12.12.3"; a combination of formal methods with runtime dynamic analysis is as perfect as the "static dataflow analysis" standard algorithm by "Gary A. kildall", because* YRI_QVGE *uses only "fail (forbidden) traces" specifications and only exactly* 1 *outgoing edge for each transition in a state diagram mealy machine specification* (HTTPS://WWW.ZENODO.ORG/RECORDS/13232567) *[?d]:*

   *A whole class of problems involving sequencing of actions and / or method calls ranging from :*

   - *Application Programming Interface (API) checking protocol usage;*
   - *Software Security Vulnerability Analysis: I.E. Taint Analysis;*
   - *Information Flow Policy Control and Enforcement: I.E. ...*
   - *Checking of automated and / or manual (unit) test procedure conformance with regards to TESTED PROGRAM (SOFTWARE) temporal properties;*
   - etc.

3. *Runtime Verification Analysis Results Combined With Static Dataflow Analysis Algorithms à la "Gary A. kildall : A unified approach to global program optimization (https://doi.acm.org/10.1145/512927.512945)" as ; for instance implemented in "Context–Sensitive Staged Static Taint Analysis for C using LLVM" (https://www.zenodo.org/record/8051293) " :*

   - *One could combine runtime verification analysis facts with static dataflow analysis so to reduce fail state accepting code source location paths.*

     *For instance, applying* YRI–DB–RUNTIME–VERIF (https://www.zenodo.org/records/10474033) *[?b] to find an API violation rule such as a "FILE–Write–AFTER–FILE–close" as specified in Figure 22; that specifies a "*SDMM *DSL code* (HTTPS://WWW.ZENODO.ORG/RECORDS/13232567) *[?d]" for finding a write after close program execution :*

     *a.) WHENEVER such a "file Close–WRITE API rule violation usage" is found by a runtime monitoring verifying analysis program binary, this information could later on be used by a static analyzer on code sources to eliminate manually from the program code sources code the found API violation RULE.*

     *b.) Our work : "Context–Sensitive Staged Static Taint Analysis for C using LLVM" (https://www.zenodo.org/record/8051293) on detecting tainted path with an application for finding API usage rule violation in C++ code as ILLUSTRATED in Figure 24, COULD be used for instance !*

     *c.) Symbolic Execution / test-cases-test-data generation :*

     *WHENEVER a fail-state accepting state is found by a run execution of* YRI–DB–RUNTIME–VERIF*;*

     1.) *Such a run could only be executed with some test data stored somewhere in the SUT; a test case is also available for free since of the trace event log.*

     *Such acquired test cases & test data could then be used later on to create some "testing suites" to exhibit this fail–state accepting error sequence run !*

     *Symbolic execution run with finding of test data using a constraint solver like "Microsoft–Z3" (https://www.microsoft.com/research--idiot--z3) for instance, is only needed in case more test data and / or test cases are required for this fail–state accepting run.*

## 12.12.7 *CASE (Computer-Aided Software Engineering) TOOL for Software System Verification AND / OR algorithmic trading trade–time*

Figure 14: A SCREENSHOT OF *YERITH_QVGE* FOR GRAPHICAL DESIGN OF STATE DIAGRAM MEALY MACHINE (SDMM) SPECIFICATIONS; THAT COULD SPECIFY TRADE OPERATIONS BASED ON TRADE–TIME.

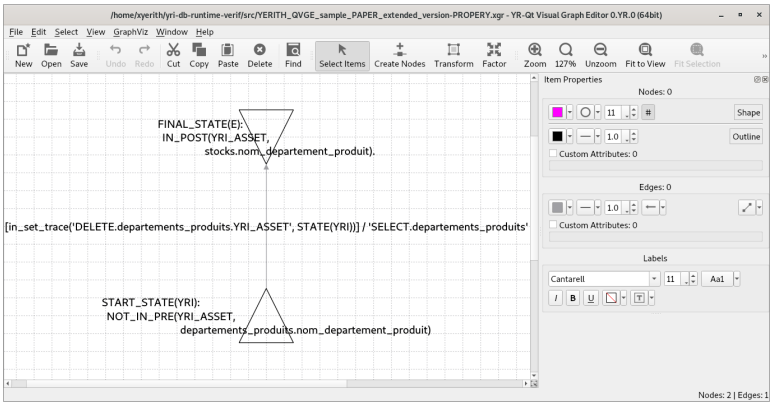

Figure 15: A SCREENSHOT OF YRI-DB-RUNTIME-VERIF SQL ERROR EVENT LOG.

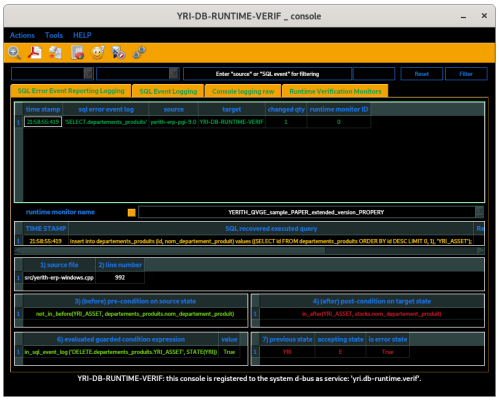

1. *[YERITH_QVGE] has also applications in specifying real–time trading operations based on trade–time;* YERITH$_{r\&d}$ *is going in the next years, to develop an algorithmic trading platform for free, Especially for exchanging inventory physical stock products (goods) for AFRICA; this is an ongoing project as an extension of the Enterprise Resource Planing SOFTWARE* YERITH–ERP–9.0–PLATINUM*[?]; [*YERITH–ERP–9.0–TRADING–REALTIME*].*

   *HAVING as physical good a currency bill and / or coin is Not impossible: THIS is what we daily practice when we buy items at a cashier and / or in street rural market; So people possessing a bill and / or coin may have advantages over people having only inventory physical consumer goods for their exchanges; SO it must be that parts of markets might Not ACCEPT currency bills AND / OR coins "for equity and fairness" since not everyone can afford buying currencies and / or bills–coins at a bank and / or financial institution. !*

   *Having to buy currencies to European UNION, for instance for CMR, is very expensive. PART of exchanges within AFRICA borders could be done just by physical product (good) exchange between people and / or governments; Especially since getting currencies bills and / or coins is very expensive.*

   ■ *RELATED work at "QUANTstamp.com"; Venture funded initially by Y-COMbinator from STANFORD.EDU (`https://www.stanford.edu`) :*

   *QuantStamp.com (`https://www.quantstamp.com`) is a firm that works mainly on solving the main problem on 'How to verify, check, a correct con-formant "bitcoin" contract on an Ethereum-platform trading (`https://`) : a so called SmartContract (`https://www.iq.wiki/wiki/quantstamp`)'.*

   *"Figure 20 shows in French language a similar "stock–physical exchange" architecture based on an Ethernet–network "RJ45, and / or Giga–USB;" for YERITH–ERP–9.0–platinum users."*

2. *Create and produce a computer device that could be embedded into other computer devices and that will communicate with them through serial ports and / or USB interfaces SO to provide* YRI_QVGE *program verification to USER FINISHED products on-the-fly, AS an add-on ENGINEERED industrial product: ALSO this product could qualify for an* ISO*–related certification for avionics, railways, automotive, and* CE*—*ISO *certifications for Healthcare: [*YRI–QVGE–PC–TABLET*].*

***POTENTIAL APPLICATIONS:***

*a.) "ON–the–fly (Add–hoc)" online / offline RUNTIME Verification MONITORING of all financial transaction operations at a financial institution; ATTACH a device at each computer and / or server using YERITH–ERP–9.0–platinum; A comparable instance figure is illustrated for a control console device at Figure 16; WHEREAS one replaces a "control console LINAC" device with SERVER / Computer.*

*b.) A linear accelerator control console communication protocol runtime monitoring (E.g.: Figure 16). A more detailed explanation graphical occurs in "Figure 11, Section 12.12.6";*

*c.) A railway track controller program runtime monitoring console at site;*

*d.) An aero-plane Maneuvering Characteristics Augmentation System (MCAS) runtime monitoring device*

      1. ***All following advantages of using YERITH–ERP–9.0–platinum contributes to reduce waiting files; THUS increase the number of customers and clients of an entrepreneurial organization !***
      2. Best and accurate technology SHALL REDUCE management effort and produce more reliable and cost–minimized business financial accounting information that enables to anticipate and reduce time of decision making.
         1.) ***Gathering an overview over all financial and commercial; And customers / clients transaction information comes in JUST 1 button pressing from business dashboard window.***
         2.) ***Exporting data onto Tabulator software*** *such as 'MS-Excel; LibreOffice-Calc, etc.' as Comma-Separated-Values (CSV), is as easy as selecting requested database table columns and Export them by pressing a button;*
         3.) ***Calculating beneficial and interests costs is just as easy as reading it from business financial dashboard report generated automatically real–time and real–data from sales and customers, and / or Acquisitions databases tables.***
      3. Best and accurate technology reduces time execution of commercial business transactions, and thus, associated costs.
         1.) ***Business Intelligence (BI) : Ranking about sold and transferred goods and / or item stocks*** *is best and just as easy done by reading it from a business commercial window dashboard; Ranking data decides what to order next for a better business turnover for your commercial financial entrepreneurial organization;*
         2.) *Ordering new item stocks is as easy as reading item stocks quantities from stocks window stock's inventory value.*
      4. So entrepreneurial commercial organizations could reduce a selling price without reducing its profit.

## 17.17 RESEARCH WORK OVERVIEW

*THIS IS A PRELIMINARY WORK ON CHECKING TEMPORAL SAFETY PROPERTIES USING A TRACEMATCH–ALIKE SPECIFICATION LANGUAGE;* ***SOOT*** *(https://www.soot-oss.github.io/soot) AND DATAFLOW ANALYSIS IS USED TO PRESENT A STATIC WHOLE PROGRAM ANALYSIS.*

*TRACEMATCHES alike specifications enable developers to specify API usage rule drawing, as* ***a deterministic finite automaton*** *(https://www.wikipedia.org). Patrick LAM and Xavier noumbissi NOUNDOU have at this effect presented short overview slides of 30 minutes at* ***IBM workshop CASCON*** *2010* ***!*** *(https://www.sable.mcgill.ca/~clump/cdp2010/index.html).* ***PDFSAM*** *(https://www.pdfsam.org), and sample other Open Source Code Software (FOSS) ARE USED as benchmark for project evaluation.*

## 18.18 SOLUTIONS WITH LLVM BY CHRIS LATTNER AT "APPLE LTD.".

*Instead of the 1st proposed Java–Soot approach as a whole program static dataflow analysis, a whole program context–sensitive dataflow static taint analysis for C using LLVM could successfully be implemented and described in* YERITH–SAINT *(https://www.zenodo.org/record/8051293) [23].*

*The 1st* YERITH–SAINT *algorithm was implemented for programs written in C programming language, and used a pre–processing step for analyzing points–to set using* ***"poolalloc"*** *(https://github.com/poolalloc) from* ***Chris Lattner*** *(https://www.llvm.org).*

*BECAUSE our static dataflow taint analysis algorithm works on three-address-code, LLVM compiler framework could also apply* **YERITH–SAINT** *to JAVA code as input programming language to LLVM frontend–compiler–framework (****Example : https://github.com/polyglot-compiler/JLang****); See for instance Figure 21 !*

## 19.19 RELATED WORK: DYNAMIC PROGRAM ANALYSIS API–RULE CHECKER "TRACERORY"

*"Unread memory verification" is an instance of API (Application Programming Interface) usage rule checking.*

*""*TRACERORY*" runtime unread memory verification tool of Jon Eyolfson" (https://www.hdl.handle.net/10012/6206) ; "****Detecting Unread Memory Using Dynamic Binary Translation at RV*** *2013* ***in Turkey****" (https://www.YRITOLOOKFOR.org) , Of my former office roommate at* ***"ECE–Waterloo–formal–method Davis Center Room"*** *(https://www.watform.uwaterloo.ca), 1st floor, and colleague in static dynamic program analysis, could be outperformed with use of* YRI–DB–RUNTIME–VERIF (**https://www.zenodo.org/records/10474033**) *[?b]: "a runtime monitor container for* state diagram mealy machines (SDMM)*".*

*"*TRACERORY*" uses runtime program binary code instrumentation in* ***"INTEL-Pin"*** *(https://www.intel.com) to instrument running programs for purposes of detecting unread memory; I ignore whether* ***"INTEL-Pin"*** *(https://www.intel.com) has an open–source FOSS competitor at time yet; — Jan. 15, 2025 —.*

*Figure 22 illustrates a sample "*SDMM*" specification with instrumentation of source code with statements 'DELETE.file.f' and 'UPDATE.file.g' for runtime verification monitoring of API usage rule for checking memory write integrity: Runtime function "is_alias(g, f)" tells whether heap variable "g", and "f" refers to the same memory address. Such a "*SDMM*" specification is synchronized against a running program within a runtime monitor container:* **YRI–DB–RUNTIME–VERIF** *(https://github.com/yerithrd/yri-db-runtime-verif) .*

## 20.20 CONCLUSION

This project–racist–based course gave me the opportunity to learn perfection my theoretical knowledge and foundations in the following topics:

- COMPILER structure and optimizations

3.) [***Computer–Aided VERIFICATION***]:

This assignment-based course gave me the opportunity to learn foundations of the following topics:

- MANUAL THEOREM proving (also interactive theorem proving with `"interactive theorem prover"` ISABELLE–HOL (HIGH ORDER LOGIC))
- MODEL checking (EDMUND clarke et al.)
- Temporal LOGIC

The course instructor NANCY idiot day, was very verse in this material and could answer almost all questions without searching somewhere else than herself.

4.) [***1st SUMMER SCHOOL on FORMAL techniques***]:

This marvelous experience gave myself opportunities to meet and hear-listen from best talented researchers in following areas of industrial research among other topics that I CANNOT ALL REMEMBER :

Table 11 illustrates all courses I VISITED successfully during my doctoral PH.D. studies degree program in Electrical & Computer Engineering at the UNIVERSITY-white-racist of waterloo.

1.) [***Program Analysis for Web Apps***]:

THIS project-based course provided myself an opportunity to DISCOVER, design and implement a web–based dynamic TAINT analysis for a PHP–JAVA interpreter; I.E. a "JAVA application server" that also interprets and use PHP libraries and code :

*"A Dynamic Taint Analysis for PHP in Quercus" (**https://www.zenodo.org/record/8051621/**)* :

1. git https://github.com/xnoundou/xresin-taint-analysis
2. git https://github.com/xnoundou/xresin-taint-analysis-tests

2.) [***Static Analysis for Software Engineering (SASE)***]:

THIS project-based course provided myself an opportunity to design and implement a static TAINT dataflow analysis: YERITH–SAINT *(**https://www.zenodo.org/record/8051293**)* :

- git https://github.com/sazzad114/saint

I didn't appreciate that instructor PATRICK–lam came to contest my Correct and Righteous definition of taint source and taint sink in front of class during my presentation; AND THAT he was wrong when he said we shall check the internet media; IT DOESN'T make sense to contest something that a doctor–PH.D. has prepared at least 4 weeks in advance such as he did !!!

3.) [***Online Software Security Course–racist–extreme***]:

*I took this software security course to acquire more knowledge in software security vulnerability analysis and detection from a pioneer–leader as university in this area of research as demonstrated by publications and startups created by alumni.*

*MONICA–lam (**https://stanford.edu/suif**) for instance is a very renowned scholar and tech–entrepreneur in security vulnerability research and analysis. THis online web course was very interesting from a content point of view for me as a doctor–of–engineering–ph.d..*

*ESPECIALLY because I WAS working on my "YERITH–SAINT algorithm" (**https://www.archive.org/download/jh-nissi-ece-uwaterloo-grad-talk-2014-04-16/JH_NISSI_ECE_UWATERLOO_GRAD_TALK_2014__04__16.pdf**) FOR detecting, with static dataflow code analysis "à la "Gary A. kildall : A unified approach to global program optimization (**https://doi.acm.org/10.1145/512927.512945**)"", and fixing the HEARTBLEED–security breach bug in "OpenSSL-1.0.1-f" source code (**https://heartbleed.com**) :*

- git https://github.com/sazzad114/saint

***"BUT i could notify when i started passing the online examination for getting a printed sent per mailbox certificate; THAT there was a kind of re-make in another stand so "that I WOULD NEVER PASS with more than 95%" as required to acquire that certificate – (I HAD PAID around $500 USA dollars for attending this online graduate adult education course)" !!! "***

***"I Was almost always getting a "84% grade" ("3 times") !***
***THIS actually represents the successful passing required academic grade for a doctoral level course at WATERLOO."***

***"I HAD EVEN visited the premises of STANFORD university together with SANDY–beidu–gay–idiot-from-ghana-cuon-pd "in year 2011" while attending a formal method techniques school at ATHERTON-COLLEGE nearby "by around 40 minutes drive"."***

— I have prepared, and presented a static dataflow analysis in November 2010 at ***IBM workshop CDP CASCON*** 2010 (https://www.sable.mcgill.ca/~clump/cdp2010/index.html).

[Workshop–CDp; IBM casCon 2010]

The goal of this static dataflow analysis was to solve the issue of temporal property API rule checking in Plugin–based software.

— I co-taught and assigned marked with Patrick for courses:
1. "Programming for Performance (ECE 459)";
2. "Software Testing, Quality Assurance and Maintenance (ECE 453 / SE 465)".

— I have successfully attended the course ("CS 745 / ECE 725") – ***Computer–Aided Verification*** (https://www.cs.uwaterloo.ca/~nday), taught by "Prof. Dr. Nancy Day". I could learn about following topics:

## 22.22 YEAR "2012" Summary-PAGES

— I co-taught and assigned marked with Patrick & Derek Rayside & Jon Eyolfson & Leo Passos, etc. for courses:

1. "Compilers (ECE 351)": ***Python scripts were written to automatically correct programming assignments from code source repositories***.

— *I went for an academic and professional internship at IBM Toronto Software Lab*;

I wanted to improve my programming languages design and implementation skills as well as BASH–scripting.

I spent 2 Academic terms (8 months) in Markham (Ontario, Canada) for this internship.

I worked there under supervision of ["*Patrick Doyle, M.ASc.*",] and then "*Prof. Vijay Sundaresan, M.Sc.*".

- I worked principally as a tester for certain optimization features of the "J9 JIT compiler" for the `JAVA` application server (Servlet container) ***IBM Websphere*** (`https://en.wikipedia.org/wiki/IBM_WebSphere_Application_Server`) under "*Prof. Vijay Sundaresan, M.Sc.*". I was writing BASH–scripts to run and evaluate implemented certain optimization features for the "J9 JIT compiler" for the `JAVA` application server.
- I could attend to lectures given at IBM Toronto Software Lab by ***"Pr. Prof. Dr.–Ing. Clark Verbrugge"*** (`https://www.sable.mcgill.ca/~clump`) from ***"McGill University"*** on Creating Optimizations for Compilers.
- I could improve my skills with the following tools among others:
  1. "GNU–bash" (`ftp://ftp.gnu.org/pub/gnu/bash`)
  2. ***"GNU–vi / GNU–vim"*** (`https://www.vim.org`)
  3. ***"GNU–screen"*** (`https://savan-nah.gnu.org/projects/screen`).

— "*Prof. Vijay Sundaresan, M.Sc.*" wanted myself to be back next summer for another internship with him at IBM: unfortunately I resigned from this engagement because I felt I had to go back in my home country: Cameroon !

— I befriended myself at IBM with ***"Aayush Prakash, M.ASc. (Waterloo,*** 2013***)"*** (`https://scholar.google.com/citations?user=hUXGzpgAAAAJ&hl=en`) .

1. I had a toyota corolla 2007 LUXUS EDITION; that's why Aayush PRAKASH 1st contacted me so I could help him mornings.

   I tried trice but I COULDN'T anymore because I COULDN'T wake up so early; because MARKHAM is a very big city with so much traffic. BUT WE STAYED friend for ever.

   THX. BRO.

2. We then became roommate in Waterloo the following fall (September – December) term; I COULD appreciate someone nice and very comfortable with my living style since I am the one that was principally renting the 2–bedroom apartment on 16–457 ALBERT–STREET.

   HE never not paid his subrent; and was also kind to learn more about how to better maintain a common washroom.

   THEN he moved to IBM after successfully graduating with a M.ASc. in Electrical & Computer Engineering from PROFESSOR-racist HIREN–patel–racist !

   I then went several times to visit AAYUSH when he moved to Toronto.

— I befriended myself in Toronto with the following fellow Cameroonian:

1. ~~***"Prof. Dr. Alexie Tcheuyap, Ph.D. (Laval, "French Literature", Quebec, Canada,*** 2008***)"***~~ ***(GAY–maker–assassin !)*** (`https://discover.research.utoronto.ca/12279-alexie-tcheuyap`);

5. "~~Eunice Gapie Yemte, B.Sc. (Luxembourg, "Software Engineering", Luxembourg, 2008)~~" (assassin);
6. "~~Valérie Yogho, B.Sc. (Montreal, "Electrical Engineering–Power", Quebec, Canada, 2008)~~";
7. "~~Tobie Guilliane, M.Sc. (Paris, "Financial Accounting", France, 2008)~~" (ASSASSIN);
8. "~~Francis Mbiele Kamga, MBA (ESG, "Business Management", Paris, France, 2007)~~" (ASSASSIN).
9. "~~FABRICE wilfried siemeni~~, ~~B.Eng., (FH–Berlin, "Food Processing Engineering", Berlin, GERMANY, 2005)~~; ~~Diploma (IHN, "applied HOLISTIC NUTRITIONIST", Mississauga, Toronto, Canada, 2012)~~; ~~M.Sc. (FH–Berlin, "Food Processing Engineering", Berlin, GERMANY, 2006)~~" (ASSASSIN).

— *I have attended following workshops and conferences in* 2012, together with ***"Pr. Prof. Dr.–Ing. Patrick LAM, Ph.D."*** (`https://www.patricklam.ca`), after completion of the internship at IBM Toronto Software Lab (***IBM Canada Ltd*** (`https://www.ibm.com`)):

1. "***MITACS Ontario*** (`https://www.mitacs.ca`) at the University of Waterloo on how to behave properly when having lunch and dessert with other professionals."
2. ***"Programming Language Design and IMPLEMENTATION (PLDI*** 2012***)"*** (`https://`) in Toronto downtown.

   1. ***I COULD TALK TO several researcher among employees of GRAMMATECH–racist–negger (https://www.grammatech.com) from THOMAS–reps at WISCONSIN–madison. (https://www.uwisconsin.edu)***

## 23.23 YEAR "2013" Summary-PAGES

— *I talked in–person with "Mahesh Tripunitara" about some of my non understanding about Doctor–PhD advisor of mine "Patrick Lam"; "MAHESH TRIPUNITARA" said I shall look for research collaborations within University of Waterloo and just put the name of "Patrick LAM" at end of a publication !*

I AM STILL VERY GRATEFUL for this insight into my life as a scientist that led me to try and talk successfully with following pro-eminent fellow computer scientist:

- *"Vijay Ganesh"; very proud of having learned much of how to write a paper and / or reviews of other papers with him; I cannot be a Ph.D. or doctor without this collaboration !*

  *THIS IS SOMEONE very good at teaching research skills only. I cannot say much about his private behavior since I generally don't mix my private life with professional life !*

- ["Mohammad Hamdaqa" from THE ***STAR research lab*** (https://star.uwaterloo.ca) ]

- *"Frank Tip" (from IBM Research then as Professor at the University of Waterloo): AT all the very much inspirational about 'A SO CALLED taint analysis' in my research area at all.*

  *Before visiting CS846 of "Frank Tip", I cannot know anything about what is a Taint Analysis (**https://www.semanticscholar.org/paper/Temporal-Property-Verification-in-Plugin-based-Noundou/c68c2374b1dca17edab774ee8a1d09b015f29b33**) .*

  *THIS CS846 (Program Analysis of Web Apps) is my best course as a graduate student in terms of working on related papers and writing reviews. Frank Tip is a very good and proud research manager !!!*

  "*Only 1 tip, and you get all the clue about what you really need to do.*"

- ***"Pavel Parizek"*** (https://scholar.google.com/citations?user=M_9_-WsAAAAJ&hl=en) (from ***Programming Language Research Group (PLG)*** (https://plg.uwaterloo.ca), invited by "Ondřej Lhoták")

- ***"BORZOO"*** (https://) (very respected in RV conferences series)

  THIS [friend-kkk] of ***sebastian fischmeister from AUSTRIA–adolf–hitler*** (https://uwaterloo.ca/~sfischme) is so kind that he let myself in his office to present what I really want to perform as research. BUT i could notify an office with kind of ground–tapestry for WHAT-the-fuck.

## 25.25 YEARS "2014" – "03 / 2015" Summary-PAGES

— I find a very imposing book that explains in my better terms algorithms fixed point static dataflow analysis à la "Gary A. kildall : ***A unified approach to global program optimization*** (https://doi.acm.org/10.1145/512927.512945)":

- *"Advanced Compiler Design"; ISBN: "", by author from IBM: .*

THIS book doesn't destroy your brain like the book:

- *"PROGRAM ANALYSIS"; ISBN: "", by author from AMSTERDAM: .*

I implemented my own static dataflow fixed point algorithm in C$^{++}$ object–oriented, and I published it on my student Ph.D. page ~~https://ece.uwaterloo.ca/~xnoumbis~~; And on my defunct GITHUB.COM-web-page:.

I then improved and finished my static dataflow taint analysis, and starts preparing my Ph.D. research seminar as presented in booklets present in "ECE graduate students room" in EIT building !

NOT very long after this online internet–web publication; I LEAVE WATFFORM for Cameroon where I created YERITH R&D, and affiliated software systems programs.

— I met ***Pr. Prof. Dr.–Ing. Ondřej Lhoták*** (https://www.cs.uwaterloo.ca/~olhotak) in–person for a review of my created LLVM context–sensitive static dataflow analysis: HE WAS RELUCTANT only because of 1 missing application of the analysis.

***My colleague JON EYOLFSON (https://jeyolfson.com) with Prof. Dr.–Ing. Ladan (https://ece.star.uwaterloo.ca), went to suppress my appointment illegally since I legally, according to ECE department regulations for 2 weeks vacation for personal illness purposes, sent JON eyolfson as a replacement laboratory instructor to myself to LADAN !***

***I couldn't recover my job as teaching assistant in laboratory at my stay–return from JON EYOLFSON that I sent to Prof. Dr.–Ing. Ladan, for only 2 weeks replacement of myself !***

— I have prepared, and presented a context–sensitive static dataflow analysis in January 2015 at a DAVID R. CHERITON SCHOOL OF COMPUTER SCIENCE programming language research group (PLG) seminar talk.

[*Ph.D. Dissertation Defense at PLG*]

***I had this work successfully approved at PLG by "dear-racist-idiot Ondřej Lhoták" (https://plg.uwaterloo.ca)***.

The title of my talk was: ***CONTEXT–SENSITIVE STAGED STATIC TAINT ANALYSIS FOR C USING LLVM*** (https://www.archive.org/download/jh-nissi-ece-uwaterloo-grad-talk-2014-04-16/JH_NISSI_ECE_UWATERLOO_GRAD_TALK_2014__04__16.pdf) ; the presented application was the finding of a buffer-overflow security vulnerability in SSL (Secure Socket Layer) protocol as found in the ***"HEARTBLEED bug"*** (https://heartbleed.com) .

***"Dr.–PH.D. ALI TELAGHANI was the 1$^{st}$ iranian university of waterloo Ph.D. Candidate I reviewed. A former trainee of nancy day from watform. (https://www.watform.uwaterloo.ca) "***

AT THE conference presentation table were present among others :

(a) ***Pr. Prof. Dr. MAGNUS MADSEN*** (https://www.cs.au.dk/~magnusm)
(b) ***Pr. Prof. Dr.–Ing. "Peter Alan Burh"*** (https://www.cs.uwaterloo.ca/about/people/pabuhr)
(c) etc.

— I have prepared, and successfully presented a context–sensitive static dataflow analysis on "April 16, 2014" at an ECE graduate seminar talk.

[*Ph.D. Research Seminar*]

The title of my talk was: ***CONTEXT–SENSITIVE STAGED STATIC TAINT ANALYSIS FOR C USING LLVM*** (https://www.archive.org/download/jh-nissi-ece-uwaterloo-grad-talk-2014-04-16/JH_NISSI_ECE_UWATERLOO_GRAD_TALK_2014__04__16.pdf) .

***There was around at least 20 other students attending this seminar (kind of lecture)***.

The goal of this static dataflow analysis was to solve the issue of temporal property API rule checking in Plugin–based software by static dataflow taint analysis.

**RESEARCH AND TEACHING OBJECTIVES 2 – Dissertation Thesis Doctor–PH.D. in Electrical & Computer Engineering – continued - Hindrance**

## 26.26 Research Outcome Hindrance

Summary-PAGES

IT WASN'T POSSIBLE TO IMPLEMENT THE STATIC WHOLE PROGRAM ANALYSIS AS PRESENTED because of the non possibility to acquire points–to information as a pre–processing standalone phase/step from SPARK POINTER ANALYSIS FRAMEWORK IN SOOT.

*It wasn't in my research interest for a "Ph.D. in Electrical & Computer Engineering" to dive into recreating a pointer analysis for **SOOT** by modifying for instance research outcome work of "AAKARSH NAIR, MASc (2009)".*

*It would be more productive to perform research with "Ondřej Lhoták" in "Mathematics Department at DAVID R. CHERITON SCHOOL OF COMPUTER SCIENCE" (**https://www.cs.uwaterloo.ca/~olhotak**) rather than with DR.-PH.D Patrick LAM at ECE Department. So I stayed out of this area of research for the "Ph.D. in Electrical & Computer Engineering"; Computer Software Engineering is more focused on developing methodologies around software rather than creating complex computer algorithms for calculation purposes; AS this is done in Computer Sciences (E.g.: "Ph.D. in Computer Science").*

***It is somehow also feasible for a "Computer Software Engineer" easily to implement a "pointer analysis as a Ph.D. in Computer Sciences could do whenever needed" !***

*I ("Doctor–PH.D. of Engineering Xavier Noumbissi Noundou") have, for instance demonstrated, I could at least at level of a pointer dataflow analysis design and implementation performed by implementing the 1st openly (FOSS) published on the internet (2015):* CONTEXT-SENSITIVE STAGED STATIC DATAFLOW ANALYIS FOR C USING LLVM ! *(**https://www.zenodo.org/record/8051293**) [23] : "**https://github.com/sazzad114/saint**".*

1. *"Professor Araving Machinry" also used code sources results from my Static Dataflow Analysis without any citation of it in his Award winning USENIX paper; I mailed him in 2017; HE said that my work wasn't published by a peer-refereed conference and/or workshop, or whatsoever, THAT'S WHY he couldn't cite it.*

   *Instead of citing the 1st original publication of a Free and Open Source Software code (FOSS), 2015, As I have published in on 'www.github.com (git https://github.com/sazzad114/saint )'; ARAVIND cited instead my competitor BODDEN–ERIC (https://www.bodden.de) (from Germany (https://www.fr.wikipedia.org/wiki/Allemagne) and Previous colleague of Patrick LAM (https://www.patricklam.ca) at McGill University (https://www.mcgill.ca)).*

   *Long after terminating my research collaboration with Patrick LAM at University of Waterloo, ONTARIO, CANADA; I could then notify that he was talking especially to "ARAVIND machinry my competitor about my research under his supposed supervision without telling it to myself !"*

2. *A ghanaian ignorant, wretched worldwide called SANDY-beidu thinks he could behave so to alter my JEOVAH–NISSI-confidence at his underground-peggist home in bavaria–waterloo.*

   BEcause I rented a "ford fusion" during my travel to the "1st summer school on formal techniques" in ATHERTON, california; So to be mobile because I HAD TRAVELED to united states of america before when I WAS an employee of bavarian SIemens-medical-solutions; THIS guja went on to buy as his 1st car a similar "ford fusion" since he thought I WANTED to show up in front of him and ANOTHER black-afro-descendant from long-islands.

   *FROM academic level point of view, this ignorant doctor of philosophy in computer science, SeEms to ignore what I COULD BUILD AS [enterprise resource planing (ERP–system) software !!!!!!!!!]*

3. *~~JAN peleska from GERMANY~~, didn't say anything about the law against myself in Cameroon because he is the one who went to report false behaviors of myself to Cammeroon authorities about my living style in Germany without telling anything to me about.*

   *Even at German Embassy in Yaounde, I could notify a strange behavior of people working there against myself while I came to complain against ~~FRANCK–BIYA~~, son of ~~PAUL BIYA~~. ~~THIS GAY with my cousin PATRICE CABRAL SHANDA SANOU~~ (decased by now since March 18, 2024 went to destroy my investment by creating a forestry society just opposite of my lawful building for peaceful habitation usage) !*

   *JAN peleska from GERMANY, also seems to be the one that said and commanded PATRICK LAM to destroy my career because I reluctantly refused to pursue doctoral Ph.D. research (https://www.informatik.uni-bremen.de/gesy) under his supervision at the University of Bremen; I.E. Jan peleska insulted violently myself in front of HELGE LOEDING (https://www.LOEDING-ONLINE.de), SERGE FOPOUSSI NONO ACHILLE (https://www.deutsche-digitale-bibliothek.de/person/gnd/141875240), etc.*

   *[Chandriand TEUNTCHOU noumeni] later on-in year 2012 get married with a uterine sister of mine called Ingrid tchitchui noumbissi; HE has tried since to put myself in psychiatric cage via my sister and my mother as reported in judicial information section of this curriculum vitae !!!*

   UNIVERSITY OF WATERLOO, WATERLOO, ONTARIO, CANADA [SEP. 2012 – AUG. 2015]
   $YERITH_{R\&D}$, CENTER REGION, CAMEROON — (ADDENDUM WITH TYPESTATE–API USAGE RULE CHECKING; STATE DIAGRAM MEALY MACHINE (SDMM[?d])) [JUNE 2024 – JUNE 2024]

   [*Software Safety, API (application programming interfaces) typestate checking, tracematches, temporal safety property verification, cyber–security, software security vulnerability analysis, computer software static program analysis, computer software dynamic program analysis, software testing, software integration testing, GERMAN STYLE HABILITATION, Disputation–january–2015–DC-room–PETER-ALAN-BUHR*]

   The same class of problems that solve taint analysis issues resolve also API usage rules checking for specification of forbidden usage rules as a typestate specification. A violated API typestate (tracematch–alike) usage rule corresponds to a tainted path or a sub–tainted path (E.g.: path "L4—L7—L9—L10—L11" in Figure 24).

   You specify a forbidden (fail trace) [sequence of method calls that shall not occur in the source code]. Using static dataflow taint analysis, you check whether this specified forbidden (fail trace) corresponds to a tainted path or a subpath (of a fail trace).

   "*API (application programming interfaces) usage rules [typestate formalism is a similar paradigm of specification possible for input for this static context–sensitive taint analysis; "subsequent research of mine alone reveals* state diagram mealy machine (SDMM) *as a subset of typestates* SDMM*[?d],".] of JAVA or C++ library are another realm of application of this static context–sensitive (parametric) dataflow taint analysis.*"

   *"In contrast to Tracematches that specifies WISHED BEHAVIOR (*PROGRAM TRACE*) of API user interface rule calling method sequence; as illustrated in* ***"Hendren, et al. work"*** *(https://plg.uwaterloo.ca/~olhotak/pubs/rv07.pdf), "state diagram mealy machine (*SDMM*) BY* XAVIER NOUMBISSI NOUNDOU, SPECIFIES UNWISHED BEHAVIOR (PROGRAM FORBIDDEN FAIL TRACE)" (SDMM *(**https://www.archive.org/download/yri_ictss_2023/yri_ictss_2023.pdf**)[?d]).*"

   *"One effort could be to give a formal translation methodology from "tracematches onto* state diagram mealy machine (SDMM)*"; Thus enabling automatic reuse of all tracematch specifications directly into a runtime monitor engine like* YRI–DB–RUNTIME–VERIF (**https://www.zenodo.org/records/13232567**) .*"*

   "*Patrick has not at time understood that this application is also possible by static dynamic program analysis tool created by myself at YERITH–RD:* **YRI_QVGE***[12.12]; a Free and Open Source Code Software (FOSS).*"

   "*Patrick LAM my former advisor since '*2015*–MARCH–*10*' is missing !*"

   "*Patrick LAM and Xavier noumbissi NOUNDOU have at this effect presented a short overview presentation of* 30 *minutes at* ***IBM workshop CASCON*** 2010***!*** *(https://www.sable.mcgill.ca/~clump/cdp2010/index.html)*"

   *A SINK IS AN ACCEPTING (error) STATE; A SOURCE IS A START STATE.* Sources and sinks are methods from the library (or plugin) used by the program under analysis (PUA). Edges are other method program instructions as seen by a THREE–Address–Code representation such as `Jimple (SOOT), Gimple (GCC), etc.`, and, or LLVM three–address–code format.

   *Since* **YERITH–SAINT** *our (Xavier, Vijay, and Patrick) static dataflow taint analysis algorithm works on three-address-code, LLVM compiler framework could also apply* **YERITH–SAINT** *to JAVA code as input programming language to LLVM frontend–compiler–framework, and perform as well API USAGE RULE check.*

   *IT means in effect that any programming language that could be inputted to LLVM frontend–compiler–framework, COULD BENEFIT FROM THIS SOFTWARE STACK api (application programming interface) rule checker.*

[ *TEACHING ASSISTANT training;*
*CUT–1 - Certificate in University Teaching* 1 ] [Summary-PAGES]

1. *Training in ECE Department (Electrical & Computer Engineering Department):*
Before starting my 1st formal appointment as a teaching assistant at the University of Waterloo, ON, CANADA; In year 2009, I received a group training for graduate students of the ECE (Electrical & Computer Engineering Department).

2. ~~*Passed*~~ *QUALIFICATION interview to teach OBJECT-ORIENTED PROGRAMMING WITH JAVA:*
I SUCCESSFULLY passed a presentation slides lecture for qualification interviews OF 30 minutes added with "Q&A - Questions & Answers" session; to teach Object–Oriented Java Programming to 1st year students at THE university of Waterloo in year 2012.

*NEVERTHELESS, I was not chosen as THE committee said: I QUOTE THEM: "Xavier might no be able to manage this very young age students in a class of* 100 *or more." I WAS AGED MYSELF* 29 *years old in year* 2012 *when this happened ! THX TO PATRICK–IDIOT–LAM*

*PATRICK–IDIOT–LAM is only* 4 *years older than myself. (**https://www.patricklam.ca**)*

THE class was given at the end to a seasoned professor named ***SEBATIAN FISCHMEISTER*** (https://ece.uwaterloo.ca/~sfischme), that leads the ***Embedded Research Group in ECE*** (https://ece.uwaterloo.ca/~sfischme).

3. This was optional. *CUT–1; Certificate in University Teaching – 1:*
"THE university of waterloo in ontario, Canada"; offers a formal training program in 4 certificates to qualify graduate students and / or whatsoever qualified persons for teaching at a UNIVERSITY.

I attended the level 1 certificate in 2010, but didn't pursue the last 3 levels because I felt I couldn't perform as fast as I wanted my doctoral research due to the high level of academic requirements due by researching in the ***"static code program analysis"*** area of research; At ***WatForm (WATERLOO FORMAL METHODS group research)*** (https://watform.uwaterloo.ca); led by ***"Prof. Dr. JOE atlee of the CS (Computer Science) Department"*** (https://www.cs.uwaterloo.ca/~jmatlee).

*AFTER my free registration, at my own request and without asking PATRICK–idiot–lam; and attendance of all* 1st *level courses at "DAVEN–PORT library on main (*200 *UNIVERSITY AVENUE WEST) campus" of the UNIVERSITY OF WATERLOO, I notice IT would be impossible to myself to finish my research in due time without issues with my doctoral advisor !!!*

*WE were around* 10 *in a sumptuous and luxurious carpeted room at kind of* 3rd *level in the main building !*

*ESPECIALLY added to the fact I WAS EARNING SUCH A LOW* 999*–CAD, so I HAD to TA-teaching assisting PATRICK lam.*

*THAT'S why I resigned.*

[ *I EVEN feared PATRICK lam was trying to make myself sick because of the amount of stipend I HAD, compared to other students like JON eyolfson who also add other stipend from NSREC–CANADA !!!* ]

"I was under supervision of my doctoral Ph.D advisor Dr.–Ph.D. of Engineering PATRICK lam".

*Racism from restaurant in india–bangalore–IBM–gay*] [***Summary Dr.–Ing. (Ph.D.) Review Research-PAGES***]

I. ***Comfort excellent for work research at IBM***:

1. I was working into a brown cubicle and had so much freedom in work that I WAS SOMETIMES afraid that I AM NOT PERFORMING well.

   BUT when I STARTED working closely more with VIJAY I felt so busy that I WAS DREAMING of going home around $03:00PM$ in evening;

   IN total, IBM in MARKHAM offers very good working and research conditions for his employees, ***even better than my previous 1st full–time job as JUNIOR-SOFTWARE-DEVELOPER at SIEMENS MEDICAL SOLUTIONS in Erlangen, BAVARIA, GERMANY !!!***

   ***SIEMENS MEdical solutions was really good in Erlangen; But i didn't like seeing "BOSS gerhard" watching his arm watch any 2 minutes to make sure we only had 45 minutes lunch–break; "Secretary "gudrun" is also really helpful and smiling ! "***

II. ***ISSUES - Problems with some colleagues***:

1. ***Prof. Vijay Sundaresan, MSc. – from Bangalore, INDIA***
   THIS daemon of work was so kind that I ONLY FEEL I have satisfy him as much as he wanted and could !!!

   HE is very attracted to good and fast male workers; because female workers would only try to hijack his time for a snack !!!

   I am very proud of having work with such an amazing scientist at all !!!

   ALSO the team managers, including the chinese woman, were very kind to myself as the only male afro–descendant from AFRICA !!!
2. ***Patrick idiot Doyle, M.ASc. – from Ireland–CANADA***
   THIS ignorant as a teacher and / or mentor couldn't even pick myself at time when I Was waiting for my hiring team for the internship to come at my encounter in the biggest room where we all intern were awaiting 1st day of internship.

III. ***Duties of Graduate INTERN [Doctor of Engineering] Xavier Noumbissi Noundou***:

1. ***FIX SOFTWARE TESTING FEATURE AUTOMATION USING BASH SCRIPTS***
   I felt a lot better at this task because I could feel having a positive impact on the project team lead by manager that I don't remember names and academic titles.

   ALSO vijay sundaresan wasn't very disgusting as people working in the restaurant, that always served myself BURNed food, especially paganan-food.

   Vijay sundaresan is a very talented software lead and developer that I could ever see in my career; I VERY MUCH LIKED THE INTERACTIONS with him compared to PATRICK doyle.

   TODAY I FEEL there are 2 factors that helped:
   A. ***MCGILL university*** (https://www.mcgill.ca) graduates in Computing Sciences are very much talented compared to other students from ONTARIO.
   B. VIJAY–sundaresan was born also outside of Canada–racist–systemic like my recruiting manager that I forgot about names;

2. ***MAINTAIN CERTAIN DAYS BUG DATABASE***
   AT all not very difficult, since I WAS USED TO use CHARMNT in my previous full–time job at Siemens Medical Solutions in Erlangen, BAVARIA, germany.

3. ***ATTEND TO COURSES AT IBM TORONTO-IDIOT LABORATORY GIVEN BY "pr. prof. dr.–ing. clark-salaud verbrugge" FROM MCGILL.ca (https://mcgill.ca) "on Creating Optimizations for Compilers"***

4. ***SOLVE AS MANY AS BUGS IN COMPILER OPTIMIZATION CODE SOURCE IN C++***
   Coming from a program analysis research team, that performed more static code analysis using framework like SOOT, and LLVM; I WAS KIND OF not performing very well at this task at all because of the very applied and complicated data structures; Especially because PATRICK–indigeneous–iranian–irish–from–british–kingdom never even got me to a small talk for explaining me briefly what was the governing ideas leading the development team in MARKHAM.

   INSTEAD, i only received so many documents that I had to read and detect understand myself.

   Earning as much as 3 000 $CAD monthly, I FELT SO BAD that I Went to complain to the manager; a very kind person; that allowed then myself to work with the team lead VIJAY sundaresan...

I. ***APPLICATION FOR A STUDENT DEVELOPER POSITION AT "BERGMANN AUTOMATEN GMBH"***:

***I stumble on this offered position while I WAS LOOKING FOR A NEW DEVELOPER position part–time when I KNEW MY PROJECT with "PROF. DR. RER. POL. KLAUS–racist bönkost" would not be renewed.***

***THE position was advertised on a website for student jobs of the TUHH (https://www.tuhh.de).***

II. ***Duties of Student Software Developer [Vordiplom in Informatik] Xavier noumbissi Noundou***:

1. "LaDIVA java servlet XML parsing project development, and its installer Graphical User Interface (GUI) program developed using ***"JSWING"*** (https://) JAVA library technology."
2. "MESO": "LaDIVA java servlet XML parsing follower project development."

   The novelty in this follower project is that I INTRODUCED, based on my research skills, acquired in BREMEN, an object–relational database object mapper called "***Hibernate*** (https://www.hibernate.org) "; THIS was to be capable of giving newer customers ORACLE 9i functionalities from "LaDIVA java servlet XML parsing project" !!!
3. "C++ coding of a "Sap-ABAP protocol communication interface" to put "Bergmann Automaten GmbH" vending machines in communication with vending machine of Hamburg public library that used "BIBLIOTHECA software library"."
4. "C++ coding of ***SIPv2 control communication protocol*** (https://)."
5. Migration from "ORACLE 9i database tables" onto "MySQL database tables" for the MESO project (follower of LaDIVA software project); I used following technologies:
   a. BASH–scripting
   b. AWK scripting language.

III. ***Students living in Germany I helped during my whole time at "Bergmann Automaten GmbH, Rellingen, Hamburg":***

1. ***"paternal uncle Demo Noundou from Cameroon"***.
   Information Technology student in Bachelor of Sciences (BSc) at "***TUHH — Technische Universität Hamburg–Harbug***" (https://www.tuhh.de).

   "Demo" then obtained by "Bergmann Automaten GmbH" a position as "Bachelor student working on its thesis, project–based":

   *a*. I talked to "Mister Sven Kamrath of this request", by "Mister Demo Noundou", of a Bachelor Thesis Project.

   *b*. HE ("DEMO") then refused a final offer as full–time "JAVA software developer" because he felt he couldn't perform well in a "JAVA plain object (JPO)" software development environment.

   *c*. *"[2008] Demo Noundou, B.Sc." then accepted a position at "Canon Ltd. as* **PHP – JAVA Web Software Developer** *in Osnabrück; HE can–also wear title Dipl.–Ing. (FH)."*.

   *e*. " ***[2024] DEMO is also a consultant in african universities curriculum development based in KENYA, and others. NO ONE CAN BE A PROPHET IN HIS HOME–YAOUNDE.*** (https://SAINTEBIBLE.COM/jesusquoteTOCHECK) "

***"DEMO NOUNDOU, B.Sc." also had a "grade of (10.5/20)" which is not a very good grade to enter such position as the one I GOT LATER ON AT siemens medical solutions; A "GRADE OF 14.5/20" is required to apply for any entry level position at ["SIEMENS AG GERMANY–low–payer"].***

IV. ***ISSUES - Problems with some colleagues***:

1. ***Herr Sven Kamrath was very angry at myself 1 day during my stay in Rellingen to talk about an ongoing project 'LaDIVA XML Servlet Parser Server' !***

## RESEARCH AND TEACHING OBJECTIVES – UNI–RACIST BREMEN

1. CREATE A MODEL-BASED TESTING FRAMEWORK TO AUTOMATICALLY GENERATE STATECHART MODEL TEST CASES FOR REACTIVE SYSTEM SOFTWARE ([advised by Prof. Dr. rer. nat. habil. Jan Peleska]) |
   UNIVERSITY OF BREMEN, BREMEN, BREMEN, GERMANY — ***"NOT fully described curriculum by myself"*** [09/2002 – 05/2007]

   a. "***Diplom–Informatiker***" : "MASTER 2" IN COMPUTER SCIENCE THESIS (DIPLOMARBEIT): "STATISTICAL TEST CASE GENERATION FOR REACTIVE SYSTEMS (GRADE 18/20)"; as part work for the **FSE–SOQUA** (2006) Research Conference Proceedings full research paper: 'Test Automation for Hybrid Systems' (VERIFIED.DE), AGBS–UNIVERSITY OF BREMEN, GERMANY [12/2006 – 05/2007]

   ["V"–"WATER FALL"–MODEL of Software Development, reactive system, UML 2.0, `HybridUML profile`, statechart, Theoretical Computer Science, TDIOHS (time discrete input output hybrid system), STCT (symbolic test case tree), uniformly distributed statistical test case generation, MBT–RT-Tester, **YRI–DB–RUNTIME–VERIF *as of now a doctor*** (`https://github.com/yerithrd/yri-db-runtime-verif`) .]

   *Algorithms developed by myself for this **'Master of Science research–based Thesis ("Diplomarbeit" in German)'** (`https://www.informatik.uni-bremen.de/agbs/qualifikationsarbeiten/diplomarbeiten_e.html`) [1a], based on 'Prof. Dr. Marie–Claude Gaudelle' research outcome, as a mathematician in France, are used in the `RT-Tester` tool of the verification and validation research and German society "**VERIFIED SYSTEMS INTERNATIONAL GMBH, SPIN–OFF THE UNIVERSITY OF BREMEN**" (`https://www.verified.de`) .*

   b. C++ CODE GENERATION PLUGIN IMPLEMENTATION WITHIN CASE tool "***Borland-Together***", AGBS–UNIVERSITY OF BREMEN, GERMANY [09/2006 – 02/2007]

   [*reactive system, UML 2.0, statechart, Theoretical Computer Science, TDIOHS (time discrete input output hybrid system), STCT (symbolic test case tree), C++ code generation, MBT–RT-Tester*]

   *Our algorithms are for the **"TDIOHS: Timed Discrete Input / Output Hybrid System"** (`https://www.informatik.uni-bremen.de/agbs/jp/papers/peleska_et_al_soqua2006.pdf`) state diagram formalism, that could be visualized by statecharts for instance using a 'Verified Systems International GmbH plug–in' for **'Borland-Together** 6' (`https://en.wikipedia.org/wiki/Micro_Focus_Together`).*

   c. ***"Research Master in Computer Science Software 2-Years PROJECT"*** : CogAG project : "Robot "Arni" usage in framework of creating mapping recognition algorithms and cartography.", Cognitive Systems Group (CoSy), "Christian Freksa as Project creator and lead", CoSy – University of Bremen, GERMANY [01/2005 – 03/2007]

   [*Cognition, Cartography, RFID-tag technology, **TEXT–TO–SPEECH** (`https://`), Robot control, sensor, actuator, Debian Linux, C++, `Qt`, systemic racism*]

   *"My personal contributions were mostly in creating `QT` user interfaces code for controlling the virtual shop and the roboter "ARNI". I also was very much implicated in Software Engineering round–about code such as blackbox code for keeping a BB–blackboard software architecture between our software components and the `MySQL` database tables used to share some of the data between components of the software system."*

   *"I also worked on **cognitive cartography algorithms using C/C++**, together with "ALINA, Christian, Sasha, and SERDAR". I was moving the robot for **scanning RFID sensors stapled onto our real test grocery store, and then trying to find a way for the robot–ARNI based on customer commands on the robot** that were at entrance to help them find their way into the real test grocery store. **I used text–to–speech technology to talk with robot–ARNI to customers.** "*

   *I was also involved in:*
   1. *HELPING in general project organization for instance:*
      A. Writing project meeting minutes.
      B. Looking for places in train, buses for project week-end ("PROJEKT WOCHENENDE"). Etc.
   2. *Searching for places ("Student sleep places – JUGENDHEBERGE") for project-week-end in groups for fasting our project development;*
   3. *Writing `LaTeX` documentation for project reports;*
   4. *Writing `JUnit` testing code for GUI code;*
   5. *Writing BASH–scripts for tackling connection problems between actuators and the Debian Linux Operating System (thanks to Christian).*

   *"Unfortunately I received a grade of only 2.7 (14/20) because I wasn't interested in cartography and cognition algorithms since this was the specialty of "Christian Freksa" and **"CoSy Group of Research"** (`https://cosy.informatik.uni-bremen.de`)."*

   *THIS IS THE REASON our project advisors "FRANK dylla", and "LUTZ frommberger" gave as justification to this baddest grade during my entire curriculum in ACADEMIA at all !*

   *I also need to mention that I was the only "SCHWARZNEGGER – black from africa" in this research group of mainly white–blond–racists like "MICHA", and "STEPHAN"...*

   *THEse 4 racists-idiot said some day I may not be very comfortable in group working with white–intellectual. I THINK "frommberger the female-male-gay–BORN-male was at origin of such systemic" sexist discrimination around myself; even during my research time under supervision of male-female–chevalie–boivert-PATRICK-lam !*

   d. "A SEMENTIC COMPARISON BETWEEN BÜCHI AUTOMA AND TIMED AUTOMATA (Grade 20/20)", AGBS–UNIVERSITY OF BREMEN, GERMANY [09/2004 – 12/2004]

   [*Vordiplom in informatik – INDEPENDENT STUDY, Bachelor Independent Study, MATHEMATICS for Computer Science, Theoretical Computer Science, timed automata, büchi automata, timed csp, set algebra*]

   *I developed a set of transformations functions that take as input a büchi automaton and generates a timed automaton.*
   *This work was the 1st work under supervision of "Jan Peleska", at our request, because we had interest in working in avionics software development in his company "**Verified Systems International GmbH** (`https://www.verified.de`)".*

   *It is my uncle maternal "Théodore Wandji Ngongang" who is the one that gave me this advise at that time of my life where I was around 20 years old in Germany; "Just at my 2nd year of University."*

   *"Finally a small offer a 200 Euros monthly came after I performed 100 % for this work unpaid [details at link 1b], t hat I used as Independent study. "*

   e. "1st & 2nd Semester Software Development PROJECT (Grade 18/20)", ST–UNIVERSITY OF BREMEN, GERMANY [09/2002 – 09/2003]

   ["V"–"WATER FALL"–MODEL of Software Development, Software Engineering, Project Requirements, "Gant Diagrams", UML 2.0, XML, PHP, MySQL, `JAVA`]

   - *"This 1st and 2nd semester project, divided in 2 parts consisted in creating a multi–user dungeon server (MUD–server) where a virtual world existed; 1st year was used to elicit user software program requirements, and establish "Requirement documents using UML 2.0".*
   - *"`"telnet (port 23)"` protocol was used as client–server communication mechanism."*
   - *"I involved myself in a project where I contributed around 7 000 lines of plain `JAVA` code of program development."*

## RESEARCH AND TEACHING OBJECTIVES – PSY–CARE – UNIVERSITY OF BREMEN

1. Psychological care |
   UNIVERSITY OF BREMEN, BREMEN, BREMEN, GERMANY [10/2002 – 07/2007]

   A. *"DIPL.–PSYCH. RALF ERIC STREIBL."*, **MATHEmatics and Computer Science Department**, University of Bremen, Germany [10/2002 – 07/2007]

   ["*Dipl.–Psych. Ralf ERIC Streibl*".]

   *"As a student of computer science in the "FB3" of the UNIVERSITY OF Bremen, In city Bremen, HANSEATISCHE-CITY, Germany, WE had a psychologist as 1 of our lecturer called "Dipl.–Psych RALF–idiot Eric Streibl"."*

   *RALF–idiot was kind of very reluctant to discriminative opportunities because I remember having visited courses on web creation based on PHP, and MariaDB, since I WAS having [a student–job (WERKSTUDENT) at "ZMML"].*

   *Eric RALF–idiot also gave myself a so called course titled "PROPÄDEUTIK" where we students learned on how to effectively, clearly present our projects or work; THIS was done in groups and individually !*

   B. *"AT–HOME–RACIST–IN–BREMEN PROGRAM"*, **Foreigner office–"Sekretariat für AUSLÄNDISCHE studierende"**, University of Bremen, Germany [JULY 2005 – AUGUST 2017]

   ["*RAÏNER schulze–smidt*".]

   *THIS program was exclusively addressed for foreign country students to gain access to german in–born families in order to accustom one to germany as a home country.*

   *"I joined this program because my maternal uncle "THÉODORE WANDJI" recommended it to myself because He was emigrating to CANADA–montreal, And would have been very far from me. "THÉODORE wandji ngongang" was the one person that welcomed and invited myself to study in BREMEN ! "*

   *AT this effect, each volunteer foreigner student would be connected to a single volunteering family of BREMEN. IN my specific case, I was assigned to the "ARISTOCRATIC"–bürgerliche family "SCHULZE–SMIDT", originating predominantly from HOLLAND into GERMANIA.*

   *MISTER "raïner–schulze–smidt", and his 2nd "SPOUSE GABRIELLE schulze-smidt" were really kind and nice to myself.*

   *Through them, I could know more about the origins of the autonomous–HANSE-STADT of Bremen, since "GOVERNOR SMIDT" as upper–upper grandfather of "MR. RAÏNER Schulze–Smidt", was governor of BREMEN for 50–years, and is the one person that acquire land from "HANNOVER–autonomous–STATE", to create a water–port–German–haven; "BREMERHAVEN", as a city and port for the autonomous city–federal–STATE of BREMEN.*

   *People and places I visit, and met, through organization of RAINER and GABI :*

   1.) *HIS cousins from Brazil by talk–only & pictures (https://); that I DON'T remember family names;*

   4.) *VISIT of MUSEUM–"Fockemuseum";*
   5.) *VISIT of "musical–theater" in "BREMEN–DOMSHEIDE";*
   6.) *"~~Bernhadine~~", "Caspar", "Johann" & "senior sister JULIA" schulze-smidt.*
   7.) *Several friends of them in need of computer technical help in terms of Software installation, and support.*
   8.) *"DOROTHEE" and "her brother Dr. oec. Sebastian Dettmers (https://)";*
   9.) *"Kryenhop family" (https://) : a leader in industrial transfer And sale of asian food and products into GERMANY :*
      a.) *Father "Rolf";*
      b.) *Daughter "SVANTSKE";*
      c.) etc.

   *"I quit this family relationship at request of "RAÏNER" and "his 2nd spouse GABRIELLE-gabi", because they thought I lied to them that I have got a position as a temporary "SOFTWARE DEVELOPER" employee earning "70 000 Euros" annually at "AMADEUS Germany GmbH", Via THE frankfurter human resource company "". ## 1. ~~SHANDA family as a destructive life for~~ BOTH noumbissi, and NGONGANG and whereabouts families

"SHANDA Ndjatie Dorothee, and her spouse official TONME-shanda–JEAN-claude" are the 1st persons that started destruction of my life by coming into my family with so called psychiatrist, via WOLFGANG–owona.

"OWONA wolfgang" seemed to getting married with ANGELA which is a cousin maternal of mine because HE WANTS to sell my soul to AMERICAN USA societies in the sense that HE put myself into troubles via GOVERNMENTS AGENCIES, all of them Are linked to secret services to which he belongs, as I HAVE HEARD from ANGELA myself.

Frequently, HE idiot wife says he traveled to USA, so he would talk to people that want my OPEN SOURCE entrepreneurial adventures to be stopped; GET money from them, Then organize hijacking with following agencies:

1.) Social Services; so I AM NO MORE independent in the state of biya–regime;

2.) HOSPITAL like "laquintinie", etc.

Dr.–wolfgang, which is born from MINISTER owona–joseph–deceased, And mother as daughter of MINISTER owona-Gregoire has tried to put Rosicruciary organization AMORC into my life via Angela who proposed to me to join a so called "lectorium–rosicrucae" based at external relations ministry Where WOLFGANG attends with her.

## 2. WAAH (anne), spouse Kemmegni, is a subject of BIYA SPOUSE !!!

This 'megere' of my grand mother mother's side; Tchuitchui–ELIZABETH;

Is obviously a devilish demon that possesses super–natural powers in dark kingdoms; Based of 3 sacred objects I have last seen in her house in Byemassi–YDE.

1. "Buffle" horns as a representation of Money–laundry–BAPHOMET–satan
2. 2 turtles carapaces in the back of the "Buffle" horns.
3. 2 portraits of girls invoking and respectively crying;

## 3. **"SANGO, spouse Bernadette Noundou"** IS SOMEWHAT a suspect at origin of this family tragedy !!!

This pseudo-suspect seems to want to acquire my place at KING.

Laurent tchandeu ministry plenipotentiary is a subject of itself at Batchieu–Babouantou kings places.

Obviously, every member of GRAND–FATHER noundou nuclear family is a subject to this GUJA.

4. **"Victor Koliou NOUNDOU" IS A NOBODY into my life;**

THIS idiot, junior brother of my deceased late father "Théodore Noumbissi" is contacting people INCLUDING "derek rayside (drayside@uwaterloo.ca)" (Already talking with other ignorant paternal unwanted uncle "Jules NTETA noundou (julesnteta@gmail.com; julesnteta@yahoo.fr" from Cameroon external research criminal agency (DGRE));

The idiot Victor presents itself as a chief of a family where I am supposed to belong with some faked official documents from uncle politician LAURENT tchandeu-IDIOT.

OFFICIAL registered document that "Victor KOLIOU NOUNDOU" refused to give a copy to myself when I asked him about, since I am the only, according to documents written by my late grand–father Michel NOUNDOU, Legitimate SUPERVISOR OF HIS left over to children and descendants, WEALTH AND MATERIAL POSSESSIONS !

"Afriland first–bank" and "Intelligentsia employee "**Jean-PAUL–yamtche**"; And CEO currently as of April 2024", A person that I really don't really know whereabouts in his genealogy or affiliation to my late grand–father; "***Jean-PAUL–yamtche***" owns a big storey house just opposite face of our main common house entrance in Babouantou idiot village !

"Afriland first–bank" and Intelligentsia MAIN CREATOR AND INSPIRATORY person; *"Dr. PAUL fokam–kammogne"*, was, according to sayings of my genitor Rose Sangnou, 1 of an intimate friend of my late father and genitor "Théodore NOUMBISSI" !

"LAURENT tchandeu and Rose Sangnou" went to a place of "CCEI–bank (former company name and source of AFRILAND FIRST–BANK)", according to "Rose Sangnou" told myself in person when I reached age 32; That they ("LAURENT Tchandeu my paternal uncle" and "Rose SANGNOU" my genitor) gave money (BRIBED) to an employee of "CCEI–BANK" where "late Théodore NOUMBISSI" owed "*4 000 000* XAF" at his death so that ***MORTGAGE ("hypothèque" in French) on his property–land*** in ***BONABERI-DLA*** **(700 $m^2$)** would be erased everywhere in computers and documents of former 'CCEI-bank' !

"LAURENT tchandeu and Rose Sangnou" also told me, after I had an employment interview with ***"Dr. PAUL fokam–kammogne"***; that my later genitor and father "Théodore NOUMBISSI" is the one, together with "HUGUES NTOMANI TIAKO", his business partner and soul–mate at that former ancient time, THAT computerized totally all enterprises businesses of "CCEI–bank (former company name and source of AFRILAND FIRST–BANK)" !

I remember seeing my late father only 1 time in a day, around 19 : 00 at diner time; this is before we moved to Yaounde in year 1990; After he quits "CA–CORP (Computer Associates Corporation)–DLA" to open and manage solely "CA–CORP (Computer Associates Corporation)–YDE" !

5. **"LAURENT tchandeu (ltchandeu@yahoo.fr)" ASSASSINATES in an hospital "THEODORE noumbissi"; late father of mine on January** 1992**;**

AS an orphan at age of 7.5 years old, I remember uncle paternal Laurent came into our biggest house in YDE–Essos to settle in the secondary apartment at the back of our house.

6. **"LAURENT tchandeu" Tries with "Hugues Ntomani Tiako" "VIA judith ngaleu in Etobicoke (Toronto, Ontario, Canada)" to crash "my Toyota Corolla LE–**2003**" in December** 2013

This sorcerer freemason ("Hugues Ntomani Tiako"), and Christian-so-called-ORTHODOX-catholic of Roma, acknowledges that IT SHALLN'T be that I gain cause in the court of justice process THAT I have against "LAQUINTINIE and SED", that sent 9 people, including "Christian Eyoum, MD, PsyD"; in February 2021 at night around 23 : 30, to hijack and attempts to kill myself.

SED sent myself 1 time in a CABANON Because they receive 15, 000 FCFA from "*Henri Bertrand Ngatchou and my genitor ROSE Sangnou*", IN douala 2018.

"Galax Yves Landry Etoga" is personally, as a CPDM political party member, AND not as a SED authority implicated in trying to kill myself through psychiatry and / or any other means !

"Laurent Tchandeu (assassin of Ingrid's father and his elder brother in Babouantou–village)" is the one that connected "Ingrid TEUNTCHOU NOUMENI", born (geboren in German) TCHITCHUI NOUMBISSI; my uterine sister, to marry officially "THE IDIOT AND PSY–CHILD since age 12 *CHANDRIAND TEUNTCHOU NOUMENI*".

7. **"LAURENT tchandeu" Deems and Dares OR-DONATES to squeeze my financial money income VIA genitor of mine "Rose SANGNOU" Since September** 2023 **until TODAY.**

8. ***"**JULES NTETA NOUNDOU extremely dangerous person"*** **is a consanguine brother (same father; another, still living mother, in same marriage) of "LAURENT tchandeu"; And his helper in almost everything dirty and / or clean here in CMR!**

9. **("Derek Rayside drayside@uwaterloo.ca") pays money to MATHGENEALOGY.ORG project so that an equivalence to my *"Doctor–Ph.D. of Engineering degree from UWATERLOO"*, will be turned from PhD into the non-academic degree ABD; just 2 weeks after talking with "JULES NTETA NOUNDOU" at his dirty—office in "YDE–élig–esssono"**

10. **"David demo noundou" tries to connect me to Laurent external security research agent "Jean–Daniel–tujilo-tchokote"; "VIA his natal village idiot babouantou friend Célestin puene (cpuene@cscmonavenir.ca)".**

11. **"David demo noundou" has written documents in Germany that I was mentally ill while staying 3 days in his rental apartment in September 2018.**

12. **"David demo noundou" is A student of myself at the TUHH; benjamin brother of my late father "THEODORE noumbissi"; since I could help him get an bachelor internship At "GEWETE GmBH", Where I was working while a student at Bremen University state.**

13. **"LAURENT tchandeu" was a "Minister Plenipotentiary of Cameroon Embassies in France, Belgium, etc. for around 30 years outside of Cameroon". Especially promoted sent outside Cameroon 1 year after assassinating his elder brother "THEODORE noumbissi".**

14. **"Henri Bertrand Ngatchou" tries to physically arrest and violates myself in front of at least 7 other people in his private residence of Bankepche-Bangou with no apparent reason other than humiliate myself.**

"Henri Bertrand Ngatchou" vows a personal and individual cult to 'Shanda Owona Biya', especially as an appointed, not applied CPDM (RDPC) political party, vice–president in Bankepche-Bangou; with "Honorable Datouo Theodore" as his president.

15. **"*RODRIGUE alain sienchié ngongang* (sienchie@gmail.com)", Ancient psychiatric patient in Düsseldorf–Germany Sends messages everywhere So I could again be hijacked into a Cabanon–cell FOR mad-ill-people; "Xavier Noumbissi Noundou" paid in total amount 2,000 Euros to help him get back "to his paternal family NGONGANG" in Deido–Dla–CMR !**

## 28.28 HIJACK OF MY PRIVATELY OWNED PROPERTY BY laquintinie on FEBRUARY 2021

[*r*-DR. CHRISTIAN EYOUM – tALKING AT ***BBC–british-broadcast-corporation*** (https://), AND ⋆⋆–rotarian–⋆⋆ club member in douala–sawa–tribe, chief of psy staff of LAQUINTINIE HOSPITAL IN DOUALA (LITTORAL REGION, CAMEROON)], has sent in FEB. 2021, without any official document, 7 people to break into my privately owned (closed with a steel gate) house in DOUALA, so to hijack myself and terrorize me. THIS HAPPENED AT NIGHT AROUND 11:00 PM, with BERTRAND, breaking my gate seals with a weapon of some sort (BERTRAND, was the lead thief of DR. CHRISTIAN EYOUM).

THIS HIJACK OR ATTACK on my person happened just 1 day after I denounced to PRC.CM and SHANDY-SHANDY-CABINET.COM (biological father of my mother's side cousin ANGELA) a fake "BACCALAURÉAT"-DEGREE from 'ANGELA TCHAMOU SHANDA OWONA SPOUSE DR. WOLFGANG FERNAND JR. OWONA', because her sister-cousin CYNTHIA NKWOUANO told me about this: "ANGELA WENT TO CENTRAL AFRICAN REPUBLIC and received her diploma in a hotel".

I ALSO BECAME AN AGENT OF CAMEROONIAN DEFENSE AND SECURITY FORCES ON FEBRUARY 14, 2021.

DR. CHRISTIAN EYOUM after this kidnapping, held me at LAQUINTINIE HOSPITAL for poisoning me 2 weeks, AND THEN RELEASED AN OFFICIAL DOCUMENT TO MY RELATIVE ROSE SANGNOU.

ROSE SANGNOU has since been using the fake document to go meet my clients to say that I AM A PSY PATIENT AND THAT THEY SHALL NOT DEAL ANYTHING WITH MYSELF. ROSE SANGNOU also went to meet all my privately–owned real estate properties' neighbors TO DO THE SAME.

I HAVE COMPLAINT BEFORE DOUALA–NDOKOTI JURISDICTIONAL TRIBUNAL in front of JUDGE HUGUES ALAIN YAGER MABOMA SINCE FEB. 2021:

- 3 convocations have been sent by now to DR. CHRISTIAN EYOUM; he hasn't come to respond to prosecutors.
- I am now awaiting for a "MANDAT D'EMMENER" AGAINST DR. CHRISTIAN EYOUM, a form of order from judge that will bring DR. CHRISTIAN EYOUM in front of prosecutors by police force.

## 29.29 Kidnapping on FEB. 2023 WHILE WALKING BACK IN MY YAOUNDÉ REAL ESTATE PROPERTY

1. DR. LAURE MENGUENE MVINDI accepts to send 2 thugs-burglars on the road to kidnap myself, while I was walking on street to get back into my house, and to bring me in a cab at psychiatric hospital 'JAMOT' in YAOUNDÉ; this is requested by DOROTHÉE NDJATIÉ SHANDA, spouse pr. shanda–tonme jean–claude.

   DR. LAURE MENGUENE MVINDI is chief of psychiatry staff at psychiatric hospital 'JAMOT' in YAOUNDÉ.

   DR. LAURE MENGUENE MVINDI IS VERY WELL KNOWN IN YAOUNDÉ to say disturbing voices against BAMILEKE-TRIBE, an ethnic group of the west cameroon to which, I by birth, and not by spirit [I AM A BORN AGAIN CHRISTIAN], belong.
2. AFTER 2 WEEKS OF POISONING AND TRYING TO DESTROY MY BODY WITH DRUGS AND PILLS, a yellow clothed (level of BACHELOR OF SCIENCE) gate guard OF "HÔPITAL JAMOT" that I don't remember the name, tries to SNEAK INTO my private life by calling me on my private cell phone number [ (+237) 6 52 39 69 50 ] every other day.

   I SAID TO HIM THAT I DON'T ENTERTAIN RELATIONSHIPS WITH PEOPLE LIKE HIM.

   PS: THIS GATE GUARD, yellow–clothed with an uniform, is of BETI–TRIBE like DR. LAURE MENGUENE MVINDI!
3. S2TBED, a so–called forestry society here in Yaoundé seems to be a secret agency against black–owned societies here in Cameroon.

## 30.30 Attempt to give me a psy consultation by ROSE SANGNOU's sister DR. ANNIE POKAM-KWAM

AFTER RELEASED FROM 'JAMOT', i stop taking the drugs that i was forced to intake by drink.

Knowing that this is judicial information time, I accept to talk to DR. ANNIE POKAM-KWAM, which is DOROTHÉE NDJATIÉ SHANDA and ROSE SANGNOU sister, by my own request.

My goal is at time to collect as much information as possible.

She (DR. ANNIE POKAM-KWAM) tries to convince me that i should intake psy drugs in order to be more sociable !

## 31.31 THREAT ON MY PERSON BY ROSE SANGNOU IN JUNE 2023

In June 2023, in its 25$^{th}$ week, a relative, ROSE SANGNOU, living and based in Douala for more than 60 years, comes into Yaoundé, and settle for 1 week at DOROTHÉE NDJATIÉ SHANDA's house, at her (DOROTHÉE NDJATIÉ SHANDA) invite.

ROSE SANGNOU, whom was told, no more to persecute myself, during her interrogation time at prosecutors' office in Douala-Ndokoti, starts calling me increasingly and says she is in Yaoundé because her sister (DOROTHÉE NDJATIÉ SHANDA) son, PATRICE SHANDA SANOU CABRAL, is very ill and hospitalized at Yaoundé general hospital.

ROSE SANGNOU insits that we shall meet because she is my mother. I then accept, but refused to meet up her at my private owned property in Yaoundé-Ahala-Nsimbock. We then meet up first at DOROTHÉE NDJATIÉ SHANDA house, then at supermarket 'supermarché carrefour EKIÉ' in YAOUNDÉ-ÉKIÉ.

THIS PERIOD IS judicial information investigation time, that is mostly why I accepted to meet up with her.

I NOTICE with an impression THAT my mother ROSE SANGNOU COULD HAVE BEEN BRUTALIZED ON HER LEFT KNEE. SHE SAID SHE FELT DOWN IN THE BACK OF HER SISTER'S HOUSE (DOROTHÉE NDJATIÉ SHANDA) because the maid woman SPILLED water with amidon on the floor.

AFTER FINISHING our lunch, my mother ROSE SANGNOU says I SHOULD START AGAIN TO TAKE psychiatric drugs: I IMMEDIATELY STAND UP FROM LUNCH TABLE AND RETURNS TO MY PRIVATELY OWNED PROPERTY, '**immeuble yerith**'.

## 32.32 MY SUSPISCIONS about real activities of pr. shanda–tonme jean–claude and his wife

SEVERAL TIMES, pr. shanda–tonme jean–claude invited myself to hotel PARFAIT GARDEN in yaoundé so that I COULD SEE HIM ACTING as managing director of expatriate US CITIZEN ELECTRICAL ENERGY COMPANY.

so i suspect pr. shanda–tonme jean–claude receives money from some big giants NORTH–AMERICAN COMPANIES, so to disrupt my activities in the free open source software (FOSS) AREA.

## 33.33 THREAT ON MY PERSON BY Victor Koliou Noundou IN JULY 2023

**PREVIOUSLY.** HÔPITAL ADLUCEM, a hospital in Douala–BONAMOUSSADI, that I went with paternal uncle Victor Koliou Noundou to threat a hyperglycemia, established with him (uncle Victor Koliou Noundou) THAT I SHOULD BE BROUGHT USING AN AMBULANCE to 'LAQUINITIE–CABANON' because Dr. MVONDO felt that I am not well behaving !

Victor Koliou Noundou, a brother of my late father Théodore Noumbissi ASKED MYSELF, relentlessly, if I still take the psychiatric drugs.

I need to note here that, WITHOUT ANY APPARENT REASON, another brother of my late father Théodore Noumbissi, Laurent Tchandeu, former minister plenipotentiary, sent A TRUCK WITH 6 firefighters to take me by force from my privately rented apartment in yaoundé, in the year 2015, SO TO BRING ME TO A PSYCHIATRIST OF 'JAMOT': Dr. Kamga.

IN FRONT OF ME, Dr. Kamga SAYS TO Laurent Tchandeu AND ROSE SANGNOU THAT HE CAN'T KEEP ME THERE AT 'JAMOT' BECAUSE I AM NOT A PSYCHIATRIC DISEASED PERSON.

Dr. Kamga ALSO MENTIONS THAT IF I GO TO COURT AGAINST HIM, HE WOULD PUT ALL TROUBLES on ROSE SANGNOU since WHAT SHE SAID TO HIM SO THAT HE SENT A FIREFIGHTER TRUCK to take myself by force from my privately rented apartment is wrong.

Laurent Tchandeu IS TRYING SINCE Théodore Noumbissi, my deceased (JANUARY 9, 1992) father (and chief of the NOUNDOU family), passed away, to sack my POSITION AS CHIEF OF THE FAMILY NOUNDOU:

- IN MAY 2023, politician GRÉGOIRE OWONA, grand-father of MY COUSIN MOTHER SIDE "ANGELA TCHAMOU SHANDA OWONA SPOUSE DR. WOLFGANG FERNAND JR. OWONA", comes with Laurent Tchandeu (and spouse DR. HENRIETTE POLA) in my village BABOUANTOU to open a primary school as gift from political party R.D.P.C (C.P.D.M).

## 34.34 THREAT ON MY PERSON BY Laurent Tchandeu ON AUGUST 3rd, 2023

DR. Laurent Tchandeu, a paternal uncle of mine, tries to harass myself with taking psychiatric drugs.

HE DID THIS USING TELEPHONY APPLICATION "whatsapp".´

## 35.35 WAITING FOR judge JUDGE HUGUES ALAIN YAGER MABOMA

JUDGE HUGUES ALAIN YAGER MABOMA SEEMS TO WANT TO destroy evidences against state hospital laquintinie since He (JUDGE HUGUES ALAIN YAGER MABOMA) hasn't call by police force DR. CHRISTIAN EYOUM to come answer allegations against him about TRYING TO KILL ME with psychiatric drugs at night after HIJACKING MY PRIVATE PROPERTY IN DOUALA-CITÉ-DES-PALMIERS !

## 36.36 ARMY GENDARMERIE COLONEL KÉMAJOU harasses ROSE sangnou my mother

ROSE SANGNOU, my mother, complained to myself that KÉMAJOU is calling her very frequently to tell her I (PROF. DR.–ING. DIPL.–INF. XAVIER noumbissi NOUNDOU) is not mentally sane since HE is doing a lot of christian cross–sign while walking on Yaoundé streets.

## 37.37 ARMY GENDARMERIE COLONEL KÉMAJOU destroying my life as a neighbor

A FORMER SED (SÉCRÉTARIAT D'ÉTAT À LA GENDARMERIE) retired colonel of cameroon gendarmerie, who has spying devices AT HOME TO HEAR PHONE, OR WHATSAPP conversations; MAKES CURRENT ELECTRICITY cut–off whenever I RECEIVE MONEY so I cannot cook and refrigerate my food properly.

THIS VERY POOR PERSON, both in spirit and financially; whose wife makes money out of cooking food for street workers, COULD SUCCESSFULLY intimidate people not to come attend work or anything else into my real estate properties.

COLONEL (retired) of Army Gendarmerie KÉMAJOU couldn't lie and convince people that I DON'T POSSESS A Ph.D in Computer Engineering; since his son "Jonas Kémajou" who he also in gendarmerie told me once: "Myself I also POSSESS A Ph.D QUALIFICATION WITH NO DEGREE AT HOME" !

I am wondering in Cameroon why army intermediates in civilian life and affairs; THIS DOESN'T HAPPEN usually in rich and developed countries like Germany.

This day of **Saturday November** 18, 2023; while I was talking to a computer technician neighbor named Gabriel Takoumbe, KÉMAJOU came along walking with an indigo "Garde Présidentielle (special unit of cameroon forces attached only for the President of The Republic.)" T-shirt.

COLONEL kemajou tells me HE WANTS MY PERSON NOT TO WRITE anymore on his forfeitures against myself; in front of at least 7 young men and women, saying He didn't call my genitor mother any day before.

COLONEL kemajou sect named JÉRUSALEM APOSTOLAT, sacks every public entry road to my real estate 2–storey building (unfinished yet).

Yves Landry Galax ETOGA, chief of secret services of Cameroon seems to like to try harassing competent professors of science and technology like myself. May be He works against CAMEROONIAN SKILLED ORPHANS like my humble person in JEOVAH–NISSI in heaven !

PROF. DR. RER. NAT. HABIL. JAN PELESKA and DR. PATRICK LAM have never said anything against what is happening to myself since 3 years ago; ALSO, Patrick is a member of Rotarian organization ROSICRUCIARY !

"29" November **2023: I HAVE RENOUNCED TO AN ATTORNEY since TCHANA NJEUTCHA Synclaire is clearly going against my personal interests !**

"03" December **2023: KEMAJOU and its troops that call themselves Christians ARE HARASSING PEOPLE COMING HOME.**

"04" December **2023: I cannot recognized Cameroon where someone high qualified by myself is permanently harassed physically by illegal neighbors like KEMAJOU gendarmerie colonel Criminal.**
**KEMAJOU gendarmerie colonel tries on the street to talk to myself while I am coming back from a hardware shop.**
**It seems to myself that illegal neighbors religious sect "Jerusalem Apostolat" is trying to make confusion about my humble person wherever I go in my life; Kemajou gendarmerie colonel has tried around my neighborhood, with help of SECTARIAN OF JERUSALEM APOSTOLAT; to make noise that XAVIER noumbissi noundou IS A PSYCHIATRIC PATIENT that doesn't want to take pills !**

## 38.38 THREAT ON MY PERSON BY ROSE SANGNOU IN JANUARY 2024

ROSE SANGNOU, despite that JUDGE HUGUES ALAIN YAGER MABOMA gave her prohibition to come to my home in Yaounde during year 2023, came by force with someone that I don't know whereabouts To my neighbor "CARINE LELE njougep tchana" To incriminate her about chairs she owns by now;

I destroyed chairs that were not in good shape last year from my humble home by throwing them away outside. It seems "CARINE LELE njougep tchana" put them in her personal home without asking myself since I just threw them away; which is normal since They don't belonged to me anymore !

"30" January **2024:** It seems my genitor mother ROSE SANGNOU went to talk to gendarmerie people so they could harass myself to go for an illegal psychiatric treatment; because while I was talking to Justice "ME. ANDRÉ Mbet" today, I saw 1 gendarmerie man came into his personal office where he also, with his wife, Owns a financial transaction center.

I immediately told Justice "ME. ANDRE Mbet" about this attitude of gendarmerie people coming inside where I perform businesses to make some kind of visual and gesture signs to owners of businesses, So they wouldn't deal with myself anymore !

"24, 25" ***April* 2024:** 1 man wearing a talkie-walkie came across my personal road in Simbock YDE.

I went to talk to him since I was looking for a technician that didn't finish a work in my humble house. For 6 days now, this technician wasn't in my house anymore despite myself telling him to finish his work on my steel door.

I suspect again ***justice ("huissier") SHANDA-DJATIE and her spouse Pr. JEAN–CLAUDE shanda-tonme*** to harass my genitor and mother Rose SANGNOU to try to bring myself by force to a psychiatric destructive mind place.

JERUSALEM–APOSTOLAT rosicrucian sect tried to follow myself these last 2 days using the brigand 'Moise BATOMEN', and another person male, THAT i don't know whereabouts but that live behind "Carine Lele Njougep Tchana" house for at least 6 months from now backwards in time !

***Just* 1 *month before, I was stopped from walking by to our main official road by a sectarian female of Jerusalem–APOSTOLAT. I now see that it was meant to bring myself to other roads were they don't have their own people on it, so they could hijack myself properly to bring by force to a psychiatric hospital so to try to deteriorate my physical and psy body.***

## 39.39 SHANDA SANOU patrice cabral idiot son of Dorothée Shanda Owona passes away at age 33 (March 18, 2024)

"Dorothée Shanda Owona" who had tried to make myself sodomized "by Bertrand of Laquintinie" in Feb. 2021, illegally by police force.

SHE leaves now her son out of life after 3.5 years trying to destroy my life; Probably because she got some laundry money for this dirty task against A BORN-AGAIN–CHRISTIAN !

NONE of the people I have heard from coming back "from some kind of obituary ceremony" could even see any corpse of ATTORNEY OF LAW, deceased, Patrick Cabral SHANDA SANOU !

## 40.40 Dr. Annie Metiam, Spouse Eric-POKAM-WAM tries to say something illegally about my mental health publicly (May 23, 2024)

A sister of my mother and genitor ROSE SANGNOU, DR. ANNIE POKAM-KWAM, sends a RECORDED AUDIO MESSAGE via whatsapp-phone–android–application, without any request from "Rose Sangnou" and / or my person about a supposed mental health abilities report that She as GASTROENTEROLOGIST has wrote based on our investigation whatsapp call that was done in year 2023 during around the month of JUNE.

This retarded personage that was initially at "Alfred Saker School" oriented to perform Commerce AND Accounting, WITH A grade of 10.00/20 is an idiot; Not just because *she doesn't even have a "degree of Doctor of Medicine (Dr. med.)"*.

This happens unsolicited as I am having a talk together with "Rose Sangnou"; AND "PASTOR marco OF Pentecostal Christian CHURCH" ' 'chapelle de la gloire de christ" in DLA.

I AM SUSPICIOUS of this corrupt C.P.D.M aunt that has german citizenship to be from Central Intelligence Agency (CIA); hired specially to try to kill me by any means; even using sorcery.

## 41.41 YAGER MABOMA is an idiot of justice judge here in CMR

Since 2021, February that I have complaint for a group of harassers that came into my compound to brutalize myself in front of a so called judge of instruction from sawa tribal tribe, I STILL RECEIVE PEOPLE TRYING TO AGGRESS and Harass myself.

- ***Our commitment to create software tools & programs for insuring a better and safe software system quality as both open–sourced and priced products, Enables now young immature software developers and engineers in under-developed Africa to have better products and quality at a low cost price : ["Software Products at YERITH R&D"]. TABLE 12, TABLE 13 illustrate sample products, both potential-in-preparation hardware, and already available (accompanying) software.***

  ***THIS statement previously made is also available for medium sized companies in west developed countries where even not far as for in year 2000, and also years before; CRASHES of aircraft "Ariane 5 occurred and other airplanes from Airbus and BOEING, causing lost of several human being lives.***

- ***YOUNG adults aged around ≈ 12 years old can now start learning using a full–featured ERP–trading stock exchange software that uses a very simplified everyday language as testified by our previous report of "Start–Up YERITH R&D" for years 2022 – 2023 : "REPORT ON WORK ABOUT YERITH–ERP–9.0 (YEAR 2023) (https://zenodo.org/records/13949884)".***

  ***This couldn't be possible years before starting 2015 when I started creating YERITH–ERP–9.0–PLATINUM; Our previous assertion is corroborated by deployment of YERITH–ERP–9.0–platinum at at least 5 locations in Yaounde & Douala, in main cities of Cameroun, which is the leader of central africa economic zone C.E.M.A.C (https://www.cemac.int).***
