

distinctly angulate; eyes nearly parallel the antennocular line longer than the interantennal line; antennæ rather short and stout.

Pompiloides (*castaneus* Provancher)—**argenteus** (Cresson).

Type male bearing yellow label "774" and name label "*argenteus* Cress." Dernière Provancher Collection, Public Museum, Quebec. Provancher's manuscript list proves that this is type of *castaneus*.

Argenteus (Cresson) agrees with all of the notes made on *castaneus*, and there seems to be but little doubt that the synonymy indicated by Provancher is correct.

Batazonus coquilletti (Provancher).

Type male Cat. No. 1980, U. S. Nat. Mus.

This is probably a synonym of *navus* Cresson.

DESCRIPTION OF A NEW SESIID.

BY WILLIAM BEUTENMULLER, NEW YORK.

Gaëa arizonensis, sp. nov.

Female.—Fore wings opaque, golden orange red, dusted with fuscous in the intervenular parts. All the veins, rather heavily marked with fuscous. Discal mark fuscous, edged with orange red. Hind wings transparent, veins fuscous, and the outer margins narrowly edged with orange red. Fringes fuscous. Under side of fore wings with the intervenular parts considerably brighter, orange red, as also the transverse discal mark, which is wholly orange red. Hind wings similar to the above, but with the narrow, orange red margins brighter. Head black; palpi yellow. Antennæ orange red, fuscous terminally and decidedly clavate. Abdomen brown-black with a broad, yellow band on the posterior edge of each segment, except the fourth, the last three bands broader than the three basal ones. Anal tuft lemon yellow. Under side of abdomen, with all the bands much broader and the fourth also banded. Posterior legs yellow, joints black, femora black (remaining legs wanting). Expanse 25 mm.

Habitat.—Pinal Mts., Arizona.

Described from a single female. Type: collection Dr. William Barnes.

November, 1916.

the 1980s, the number of people in the population aged 65 years and over has increased from 10.5 to 13.5 million, and the number of people aged 75 years and over from 3.5 to 4.5 million.

There is a growing awareness of the need to plan for the needs of the elderly population, and the Department of Health has set up a committee to advise on the needs of the elderly population. The committee has identified a number of key issues, including the need to improve the quality of life of the elderly population, to ensure that they have access to the services they need, and to ensure that they are protected from abuse.

The committee has also identified a number of key areas for action, including the need to improve the quality of care in residential care homes, to ensure that people in residential care homes have access to the services they need, and to ensure that people in residential care homes are protected from abuse.

The committee has also identified a number of key areas for action, including the need to improve the quality of care in residential care homes, to ensure that people in residential care homes have access to the services they need, and to ensure that people in residential care homes are protected from abuse.

The committee has also identified a number of key areas for action, including the need to improve the quality of care in residential care homes, to ensure that people in residential care homes have access to the services they need, and to ensure that people in residential care homes are protected from abuse.

The committee has also identified a number of key areas for action, including the need to improve the quality of care in residential care homes, to ensure that people in residential care homes have access to the services they need, and to ensure that people in residential care homes are protected from abuse.

The committee has also identified a number of key areas for action, including the need to improve the quality of care in residential care homes, to ensure that people in residential care homes have access to the services they need, and to ensure that people in residential care homes are protected from abuse.

The committee has also identified a number of key areas for action, including the need to improve the quality of care in residential care homes, to ensure that people in residential care homes have access to the services they need, and to ensure that people in residential care homes are protected from abuse.

The committee has also identified a number of key areas for action, including the need to improve the quality of care in residential care homes, to ensure that people in residential care homes have access to the services they need, and to ensure that people in residential care homes are protected from abuse.

The committee has also identified a number of key areas for action, including the need to improve the quality of care in residential care homes, to ensure that people in residential care homes have access to the services they need, and to ensure that people in residential care homes are protected from abuse.

- 1.—Type of *Tortrix oleraceana* sp. nov., natural size.
- 2.—Type of *T. oleraceana*, enlarged four times.
- 3.—Leaf of cabbage showing edges rolled by the larva of *T. oleraceana*.
