INTRODUCTION

This Catalog is the reference index for Volume 1 of the Hollis Jeffcoat Documentation Archive — Newspaper and magazine sources, 1970–1999. It pairs with the Volume 1 Archive, which contains the full editorial record: complete source cards with analytical body, year sections, and comprehensive introduction.

The Catalog is designed for working reference. Each card shows bibliographic essentials, cite flag status with flag detail, and article use. The full analytical body (claims extracted, claims rejected, quotation inventories, biography fields) lives in the Archive.

This volume covers 50 sources across 10 reading sessions, spanning newspaper and magazine coverage of Hollis Jeffcoat from 1972 through 1999. Sources were retrieved via Newspapers.com, the Sanibel Public Library's DigiFind-It digital archive, and Le Monde archives.

Flag summary. 48 sources are ✓ Clean; 2 carry △ Incomplete flags: marie-france-1984 (day-of-publication and volume not recoverable from the source) and Art-International-1989 (page number not visible in scan).

NOTE ON METHODOLOGY

This document was assembled with the assistance of a large language model AI (Anthropic's Claude). LLM assistance was used for source reading, citation auditing, claim extraction, and document generation. All outputs were reviewed by the project curator. Consult original source documents for citation; OCR errors in scanned newspaper sources are possible. The Source Reading Protocol and the Zenodo Publication Policy under which this edition was prepared are maintained as separate project documents and are available on request.
