

**AN INTIMATE INSIGHT ON PSYCHOPATHY AND A NOVEL HERMENEUTIC
PSYCHOLOGICAL SCIENCE**

Besides and together with a study of the social sciences and philosophy, this author's intuitive confidence in this hermeneutic design insights that underlies the arguments and discourse, is inspired from 'an intimate and spontaneous idiosyncratic philosophical exercise (praxis) in the quest for the essence of meaning', a 'craft' that has been nurtured continuously for nearly 25 years now (without conscious planning at the beginning nor at any time thereafter) since his discovery of 'philosophical questioning and discourse' at high school. An exercise that mirrors the intimate idiosyncratic exercise/praxis allowing an artist like a musician to grasp and develop memes that latter down the years enable the artist to be more or less 'consummate with respect to the personal orientation they give to their arts'. Central to all such idiosyncratic processes is a continuous idiosyncratic memetic refinement over time of rough-cuttings, internal coherences, insights, inspirations, intuitive validations, constraining, sense-of-failing, sense-of-succeeding, confidence, mental inflections and mental projections; of course as per ability and ultimate pertinence with respect to intrinsic reality!

Abstract

This paper is rather a profound hermeneutic enunciation putting into question our present understanding of psychopathy. It further articulates, in complement, a novel theoretical and methodological conceptualisation for a hermeneutic psychological science. Methodology-wise, it puts into question a traditional more or less categorical and mechanical approach to the social and behavioural sciences as it strives to introduce a creative and insightful approach for the articulation of ideas. It rather seeks to construe the scientific method as being more about falsifiability and validation but driven by a sense of creative understanding and insight of notions laid out as open-ended conceptualisations. Theory-wise, it sees continuity between anthropology and psychology as anthropopsychology behind an entropic construct of human psychology based on a recurrent re-institutionalisation mechanism for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

Introduction

Quite possibly everything about this paper whether the authoring, the approach and the substance sparks of novelty bordering on the outlandish. Further, why not take a traditional categorical approach and clearly present scientific ideas the traditional way? It is a personal insight developed more than 20 years ago, and just when the author began his B.Sc. in Sociology and Anthropology; that a study of the social and behavioural should carry the philosophical and insightful at its very core above anything else given the inherent ephemeral nature of its subject matter. When I came across the term hermeneutics (and others like phenomenology), this author felt as a personal conviction that that was the chart for the future of the social sciences. My vision in this regard is one of a social science that delves directly into the core of things and avoids platitudes. To come back to the point of this abstract, this explains my apparently tattered approach. But tattered really? No, as the central insight of my articulation is that the scientific method is a validation and falsifiability method, and not necessarily the creative method. The creative method as a hermeneutics isn't supposed to roll down and stifle its very expressiveness, and at the same time it should be articulated in such a way that an exercise of falsifiability, validation and open-ended questioning can be undertaken over it. Such a hermeneutic science calls for a mutual sense of such a hermeneutics by both the author and would-be critic. I hopefully believe the way I have articulated ideas should be able to allow for such an examination. My hermeneutic inspiration in this regard can be analogised with musical creation and music theory. The latter is there to

ensure the appropriate articulation of rules but is not really the drive of musical creation, as musical creation is rather the musician's hermeneutical insight of how to go about creating music while adhering to music theory, such that any such music is analysable/critiqued by the way it credibly adheres to music theory, and actually in exceptional cases further develop music theory. A second point that makes this method ideal is that the apparent enunciation of this paper (an outright call for a reinvention of the state of the art regarding our understanding of psychopathy and the underlying psychology science); is that it is doubtful such an articulation can be credibly presented in simple categorical terms, without rather utilising an entropic hermeneutic-referential approach based on an open-endedness for falsifiability and validation in future elaboration and development of ideas. Further, I thought it more critical (wary of platitudinising the occasion) that the purity of ideas expressed herein shouldn't be overly clouded particularly as the treatment of this paper is largely in substance virgin territory, as of the underlying conceptualisation referential drive (beyond just simplistic rhyming/speculative/interpreted categories of philosophical theories and concepts but rather as 'a driven distinct comprehensively coherent/contiguous operant-level of insights articulation, and carrying implicative and applicative operant-level possibilities going forward'; more like a song is a coherent referential whole beyond just naïve categories of disjointed percussions-and-tunes-more-or-less-similar-to-those-of-the-song construed as constituting the song.) As a matter of fact, I would rather I wrote another paper talking about influences for such an articulation for this paper going by my hermeneutic design insights. Moreover, going by the very nature of how humans develop new ideas; while many, if not most, of my arguments may be more or less 'plainly intelligible', I equally thought it important to articulate ideas I hold in deep conviction and further as many such ideas come with their requisite precise convoluted qualifications even if such ideas might not be quite intelligible from a plain and simple reading, with the notion that such a requisite insight will

be forthcoming in future critique as the very nature of the introduction of new ways of thinking often mean their unintelligibility at first (equally explains my repeating of many terms for ‘habituation’), but then it is not the pertinence of reality that compromises it is the impertinence of human certitudes that does!

In the bigger scheme of things, it is herein contended that human social and institutional progress and development is not structurally/paradigmatically contiguous as to the very inherent nature of any given institutionalised framework as all such frameworks arrive at apathetic threshold as these rather develop into denaturing <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives stifling prospective possibilities, thus requiring prospective fundamental reconception. While such prospective re-projection/re-anticipation recognises prior human cumulated knowledge as enabling institutional-cumulation/institutional-recomposure right up to the present, it also recognises at a certain point the ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ becomes critically a drawback for the possibility of knowledge-reification of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, as the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness behind the ‘inventing’/‘creation’ of prior knowledge fades into secondnature mechanical dispositions requiring the renewal of <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness prospectively. At which point, the more decisive issue is recognising and assuming the reality of a fundamental apriorising/axiomatic/referencing intellectual break/schism/estrangement with such ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’, as so-implied across sublimating

historiality/ontological-eventfulness/ontological-aesthetic-tracing between non-universalising sophistry and prospective Socratic philosophers universalising-idealisation as well as in the case of medieval-pedantic dogmatism and prospective budding-positivism, and it is herein contended likewise with regards to our modern day intellectual muddlement as of procrypticism/disjointedness-as-of-reference-of-thought (associated with a predisposition for disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>) and prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought (foregrounding—entailment-{narrowing-down—sublimation as to existence—as-sublimating-withdrawal} as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy>). Underlying all such apriorising/axiomatic/referencing intellectual break/schism/estrangement because of teleological-decadence—as-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’ as of the prospective relative-ontological-completeness perspective, as so-reflected in a <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives critically absconding (in <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as to limited-mentation-capacity implications) on the basis of the supposedly coherent ontological-commitment as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-

 <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-
 residuality/spirit-drivenness as 'knowledge becomes increasingly mechanical' and is rather a
 secondary and derivational tool for temporal self-serving posturing and is poorly perceived as
 worthy in of itself but for the imprimaturing so projected and the perceived temporal social-
 value arising with such imprimaturing and as it is increasingly associated with generalised
 incuriosity in genuine intellectual development and the substituting of mere imprimatur
 discretion/whim-of-thought over genuine knowledge-reification as of existence-potency-
 prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-
 perception,-re-thought-in-epistemic-conflatedness. This has developed in our present age of
 intellectual muddlement into the absurdity/ridiculousness of pop-intellectualism substituting

for genuine and reifying thought, as to the relentless expansion of our modern merchandising mentality to which nothing resists; and paradoxically, such a disposition hangs onto the ‘dereified as-deficient-reflexivity of our <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives-of-the-prior-registry-worldview’s/dimension’s-institutionalisation-categorical-imperatives/axioms/registry-teleology it then sophistically usurp in its teleological-degradation rather than teleologically-elevating it out of its <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>; with media-driven imprimatur increasingly usurping the role of genuine academic standard production and ultimate validity hanging on the mere imprimatur. As what becomes critical in such a context is no longer prospective knowledge-reification as the primary and essential constraining worth but rather obsession with mere sway and influence even to the point of undermining prospective knowledge-reification as supposed intellection is increasingly infused with obfuscations, falsehoods and subterfuges (as to the fact that misrepresentations and pretences to misunderstand are rather conveniently given as of perceived social-stake-contention-or-confliction and hardly reflecting a discernment about the possibility for advancing human progress) that apparently render human-subpotency/mortality bigger than existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness/immortality. But then human intellection across all ages and times come to an end not because of inherently right or inherently wrong ideas per se (as the very basic genuine striving for intellectual progress is what is critically decisive as that exercise ensures that down-the-line correct and reifying ideas will arise anyway), but critically when deliberate deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity

becomes more important than an aspiration for genuine intellection as an open-ended activity providing the possibility for human knowledge and reflexive empowerment from that knowledge. At which point, it is wrong for 'genuine intellection' not to recognise what is going on as to imply that it is veridically in dialogical-equivalence with such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity (whether or not, beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) as this only leads to a destructuring-threshold-of-ontological-performance habituation and enculturation/endemisation of such deception-and-induced-deception-as-of-ontological-bad-faith/inauthenticity rendering the supposedly empowering activity of knowledge-reification impotent as in many ways such denatured intellection openly claims as of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> inclinations that poorly appreciate existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness implications of transcendence. In many ways this intellectual falsehood (so-construed by this author as to the implausibility of genuine lack of understanding as from a serious intellectual engagement but rather a 'strategic/calculated behaviour of mere power even against genuine knowledge' which this author intimately construes as a 'decadent and dangerous conception of knowledge' that is effectively destructive of prospective human knowledge reifying and empowering possibilities) is at the 'root source' for surreptitiously ensuring that the public debate fails and thus leading to public policy defaulting into vested postures and interests especially so when such an intellectual teleological-decadence-as-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness whether by mystifications-outside-existential-contextualising-contiguity-that-are-vague-and-imprimatur-driven, misinterpretation-of-statistics-holistic-implications, denial-of-relativism-

 informed insight and the requisite human intellectual and emotional sacrifice for genuine
 knowledge-reification and prospective progress involving the authentic self and social
 transformation rather than ‘gimmicks instilling a merchandising mentality of ideas’. This then
 provides paradoxically the underlying meaningfulness-and-teleology infrastructure for
 upholding the status quo and inducing in many ways the impotence of the social sciences in
 thoroughly addressing human-subpotency–aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint of society that ultimately have serious
 structural/paradigmatic consequences associated with institutional failures (which such
 intellectualism is hardly inclined to address). Critically, such a ‘self-contented
 intellectualism’ increasingly focuses not on knowledge-reification as of existence-potency-
 prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-
 perception,-re-thought-in-epistemic-conflatedness or the critical analysis of such knowledge-
 reification but in the face of criticism rather consciously substitutes strategies of institutional
 ascendancy as of a strategy of influence by default imprimatur status rather than genuine
 knowledge-reification pertinence. It will be as naïve as implying the validity of a common
 basis for doing arithmetic where an interlocutor insists on $2 + 2$ as 5 but when appropriately
 explained the veridical assumptions of arithmetic goes on to insist $3 + 3$ as 7, speaking not of

a fundamental problem of arithmetic operation as of dialogical-equivalence but a fundamental question of ontological-bad-faith/inauthenticity on the naïve mental reflex that anyway dialogical-equivalence is ever always assumed to then adopt an apriorising/axiomatising/referencing attitude of abusing the notion of dialogical-equivalence as to wrongly implied logical-duedness. Faced with such an orientation the genuine intellectual reaction is to engage it upfront as of an inclination ‘not just to evaluate logical coherence as of correctness or incorrectness or any other evaluation in-between on the basis of ontological-good-faith/authenticity’, but beforehand ‘to equally evaluate the apriorising/axiomatising/referencing in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) as of underlying existential-contextualising-contiguity elucidation/deblurring as well as whether the veracity of such apriorising/axiomatising/referencing can be established as being of relative-ontological-completeness implications as construed necessary herein and overriding naïve apriorising/axiomatising/referencing as of presencing–absolutising-identitive-constitutedness in relative-ontological-incompleteness (that seem to undermine the absolute a priori of existence and imply that when existence doesn’t fit/digresses-from its conceptual-moulds then existence must have an inherent issue strangely enough as to be ignored/overcome by the stubborn/dogged/political upholding of such defective conceptual-moulds over inherent knowledge-reification implications as of existential-reality)’. We can appreciate that while many a subject-matter will often seem to imply that dialogical-equivalence is just assumed ‘as to the fact of merely engaging as of logical coherence without questioning the underlying ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity’, the fact is this is rather the

consequence of their universal-transparency of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework rendering the possibility of ontological-bad-faith/inauthenticity directly ridiculous as in the natural sciences given its direct universal-transparency subjection to prediction, such that we can hardly contemplate of an interlocutor insisting to imply that gravity on earth is 7 m/s^2 to ensure that calculations conform to its expectations for one interest or another; but the reality of that universal-transparency as preempting such ontological-bad-faith/inauthenticity inclinations is not so directly obvious in many a social domain-of-study and that blurred possibility effectively elicits circumstances of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> not only as of wrong ontological-conception out of good-intent (failing ‘technical ontological-good-faith/authenticity’ as of its ontological-normalcy/postconvergence epistemic-projection perspective conceptualisation) but equally as of outright ontological-bad-faith/inauthenticity (in spirit). This idea is essential in the thought of many such postmodern thinkers as Derrida and Foucault given the implications of human limited-mentation-capacity as herein construed as reflecting human constructiveness-of-ontological-performance and destructuring-threshold-of-ontological-performance. The fact is knowledge-reification is of ‘existential <formative>epistemic-totalising construal for human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)’ and nothing can be construed in discretion/whim-of-thought whether as of ignoring or on the other hand exaggerating, and just as we can fathom that we don’t have the choice to fiddle with even a single number or operation without a mathematical equation going wrong as of its existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness over our human-subpotency motives, the same actually do apply in all knowledge-reification and claims of subject-matter specificities ‘rather speak of the

difficulty with respect to human emotional-involvement and associated lack of rigour relative to knowledge-reification in addressing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint’, but not inherent constraining existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness dissimilarity of subject-matters. Just as there is no magical arithmetic or physics to resolve such a more fundamental apriorising/axiomatising/referencing situation involving ‘abusing the assuming of dialogical-equivalence’, it is wrong and foolhardy not to bluntly recognise this reality in the social domain as to the possibility of then achieving prospective transcendence as of existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness implications. The fact is the ‘a priori or axiomatic conception’ is effectively what precedes and validates logic as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity, however there is no logical-basis for the ‘a priori or axiomatic conception’ but for ‘its ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construal as of existence’ as can be validated as of strong prediction establishing its universal-transparency; and thus the ‘a priori or axiomatic conception’ is rather about ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’ as to mere ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing’

so-underlining existence—as-sublimating-withdrawal and existence—as-the-absolute-a-priori-of-conceptualisation. However, the universal-transparency generated in domains like mathematics and many a natural sciences is so efficient (as of the underlying positivism/rational-empiricism reference-of-thought achieved ‘universal-transparency as of positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules so-reflected as our present positivism/rational-empiricism apriorising/axiomatising/referencing–psychologism’ first induced by budding-positivists like Copernicus, Galileo, Descartes, Newton, Leibniz, etc.) that in many ways mathematicians ‘don’t go on to be thinking about the soundness of axioms once these are construed as of existence’ for instance with the axioms-of-addition, but this doesn’t mean that the idea of unsoundness of ‘a priori or axiomatic conception’ (as to invalidate dialogical-equivalence) doesn’t exist especially so when it comes to blurred domains not only in the social sciences but sometimes in the natural sciences as well where lack of universal-transparency arises such that there is nothing that transparently renders someone ridiculous from fiddling around ‘wrongly implying apriorising/axiomatising/referencing meaningfulness-and-teleology as of existence’ not only out of good-intent or ontological-good-faith/authenticity but ontological-bad-faith/inauthenticity as well. (In this regards, the idea of ‘putting in question dialogical-equivalence by not merely engaging for logical coherence but equally putting into question the apriorising/axiomatising/referencing meaningfulness-and-teleology’ is effectively central to all prospective institutionalisations in relative-ontological-completeness as reflected with the Socratic philosophers putting in question the apriorising/axiomatising/referencing of non-universalising sophists specifically with Socrates during his trial as to his highlighting of the inconsistencies of his accusers arguments priorly for the notion of logical coherent engagement to arise in the very first place and budding-positivists putting into question the apriorising/axiomatising/referencing of non-positivising/non-rational-empiricists medieval-

scholasticism pedants specifically as with Galileo's implicit dismissal of any such pretence of logical coherence engagement in the face of what he could see positively through the telescope with respect to the 'imaginary pedantic machinations' of his interlocutors; as in fact the very notion of prospective institutionalisation is one of renewing reference-of-thought—and-reference-of-thought-devolving—meaningfulness-and-teleology apriorising/axiomatising/referencing putting into question the <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the prior registry-worldview's/dimension's presencing—absolutising-identitive-constitutedness superseded/transcended). With such teleologically-decadent—as-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness spirit of intellectualism, it can difficultly be fathomed how such a ground-breaking event as the appearance of Einsteinian physics in early 20th century prompting great excitement and curiosity among physicists recasting the contributions of prior physicists, and then eliciting the work of many other physicists and mathematicians in the subsequent decades leading in-between to the superseding of Einsteinian physics with Bohrian physics and then Feynmanian physics, etc. as of existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness constraining, can be contemplated as of such a rather impoverished conception of genuine intellection which poorly recognises the pre-eminence of existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness over human-subpotency, notwithstanding the fact that we are at the backend of human institutional-cumulation/institutional-recomposure, and so because in many ways it is hardly the case that the priority is obsession with such intellectual emancipation rather than obsession with institutional-being-and-craft muddlement. While the

natural sciences are ‘naturally’ constrained by the stronger necessity for prediction, there is nothing that says because the social domain is relatively blurred the possibility for such rigour cannot be achieved in the social as well even as it is highly subject to social-stake-contention-or-confliction meddling; as the possibility of the undercutting of the latter’s <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives with asceticism does exist as has existed throughout sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing. Beyond the seemingly intellectual ebullience ever so portrayed today, the question can be asked to which extent it usually reflect deep curiosity for prospective knowledge-reification rather than a culture of pop-intellectualism today that seem to define our human-subpotency/mortality purposes as superseding existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness/immortality purposes, as so-reflected in the supposed intellection values conferred in many a press operation with such vague catchphrases as ‘the-greatest/most-influential thinker of our times’ as of mere influence peddling and poorly advancing the inherent importance of prospective knowledge-reification as addressing the human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of our prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation, notwithstanding the sometimes crude and unsavoury social discomfort implications in this respect. Thus in many ways such an orientation is unsettling to upcoming/future young thinkers as to what can be of profound intellection value with respect to opting for a profound intellectual commitment for prospective knowledge-reification rather than just strategies of socially perceived intellectual success within deified temporal/mortal existential frameworks; especially in the underhanded institutional presence of such avowedly teleologically-

 stooges/foils muddying the ontological-veracity of genuine thought as of its true human
 emancipatory implications, as they ‘sneak-in and sneak-out about knowing and not knowing’

 prospectively deficient, given the fact that notions of value are only as pertinent as of their

 actually be associated with vices-and-impediments, and so beyond-the-consciousness-

enabling). We can grasp in this respect that the value conception as from the non-universalising sophistry perspective had construed as decadent the prospective Socratic philosophers universalising-idealisation just as did medieval-pedantic dogmatism of budding-positivists like Galileo and Descartes; as in many ways prospective knowledge-reification requires that we supersede our emotional-involvement starting with the very intellection striving for such prospective knowledge-reification. (In any case, ultimately the reality of human knowledge-reification involves ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’, and so in transvaluation; as for instance, it can hardly be imagined that the reference-of-thought of the non-positivism/medievalism mindset as of its structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology is apt as of its edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to grasp our modern day conception of say physics given its ‘valuation framework as of its <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ that needs to be transvaluated into a positivism mindset, and it can fairly be contended that prospective issues of knowledge-reification in modern day physics having to do with theory-of-everything conception arise because of our inappropriately apt edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of an occlusive-consciousness reference-of-thought requiring prospective deprocrypticism reference-of-thought structural/paradigmatic ontologisation/ontological-veracity/aestheticisation-towards-ontology as of a protensive-consciousness (out of a full insight about causality as from the epistemic ‘relative-ontological-completeness <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-

Basically, <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as such reflects the successively induced originariness-parrhesia,—as—spontaneity-of-aestheticisation specific ‘constructiveness-by-destructuring cut-offs/thresholds of ontological-performance’ so-construed as of notional-protensive-consciousness (trepidatious-consciousness/warped-consciousness/preclusive-consciousness/occlusive-consciousness/protensive-consciousness) implications; and as eliciting any such specific construction-of-the-Self and its given registry-worldview/dimension reference-of-thought—and—reference-of-thought-devolving—meaningfulness-and-teleology overall structural/paradigmatic construct-of-meaningfulness-and-teleology as of secondnatured institutionalisation. The ‘destructuring cut-offs/thresholds of ontological-performance’ reflect prospective lack of <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness

so-reflected in the shiftiness-of-the-Self's <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives implying an ontological-performance that is rather constrained on the prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation 'despite the implications as from budding/nascent insights of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy>' for the need for prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation, to which the Self absconds (in <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as to limited-mentation-capacity implications) until the perceived induced notional—positive-opportunism from any such prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation elicits the requisite human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) (involving prospective knowledge-reification and/or deferential-formalisation-transference) for prospective secondnatured institutionalisation as of renewed prospective reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation. Furthermore, besides the conceptualisation articulated herein, what vindicates this idea of apriorising/axiomatic/referencing intellectual break/schism/estrangement is effectively that the possibility for prospective meaningfulness-and-teleology is associated with a renewed framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology which is in 'affirmation/projection by its underlying apriorising/axiomatising/referencing perspective as of edginess/incisiveness' to

the superseded framework of ontologisation/ontological-veracity/aestheticisation-towards-ontology as unaffirmed/deprojected; as to the possibility of the recovery of <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness prospectively, disentangled from ‘prior knowledge-as-of-mechanical-knowledge predisposition and its developed temporal institutional self-serving predisposition’. And finally, after many years of formative contemplation this author is rather dedicated to writing henceforth even if read/skimmed just by a handful or fortuitously or never-but-potentially, whatever cometh, hopefully over the next half a century, and thinks any human who genuinely feels strongly about the need for profound human thought should be able to do likewise, as ultimate responsibility and choice notionally lies with the individual.

 contrastive apriorising/axiomatising/referencing—conceptualisations such
 that 'the questioning of the apriorising/axiomatising/referencing
 validity/invalidity of existence itself doesn't arise in the very first place' as
 it is existence in its foregrounding—entailment-(narrowing-down—
 sublimation as to existence—as-sublimating-withdrawal) as the absolute a
 priori that gives reasons and the 'human consciousness level of epistemic-
 sufficiency-constitutedness' doesn't inherently commits
 existence/existential-manifestation as to the fact that it is the human
 consciousness that recurrently has to readjust itself in its epistemic re-
 evaluation of existence/existential-manifestation from its prior posture of
 epistemic sufficiency, as of human limited-mentation-capacity-deepening-
 (<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-

sublimation-over-desublimation ontological implications;¶ and this
conception of human knowledge-reification as of existential-
contextualising-contiguity is different from the typical notion of
analogy/mere-analogising in the sense that the latter is rather generally
about 'mere conceptualisations of common/comparative patterning and
the accompanying vague elaboration-as-mere-

outside-existential-contextualising-contiguity' without establishing the
analogy/mere-analogising coherent ontological-contiguity as of
existential-contextualising-contiguity and thus do not speak to 'a dynamics

common/comparative patterning' thus inducing blurriness of
meaningfulness-and-teleology as to disparateness-of-conceptualisation-
<unforegrounding-disentailment,-failing-to-reflect-ontological-

contextualisation-contiguity such as Einsteinian relativity
conceptualisations as to their foregrounding—entailment-(narrowing-
down—sublimation as to existence—as-sublimating-withdrawal) and so
since thought-experiments reflecting existential-contextualising-contiguity
because of their awareness of relative-ontological-completeness
implications don't fall into the ontological-flaws of presencing—
absolutising-identitive-constitutedness with respect to existence—as-
sublimating-withdrawal given that existence—is-the-absolute-a-priori-of-

differentiation between veridical knowledge-reification and analogy/mere-

should be the overall expected epistemic attitude) but for the artificial

existential-contextualising-contiguity and in many case such an approach as to blurriness of meaningfulness-and-teleology will rather distract from the more ontological-profound issue of deeper and deeper induced sublimation as of 'existential-contextualising-contiguity imbued sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence' (and this mistake is often made as to mere academicism as to a flawed knowledge-reification gesturing that projects the insights of existential-contextualising-contiguity elucidations as to ontological-contiguity implications to abstract and vague conceptualisations which ontological-contiguity is hardly established invalidating any existential-contextualising-contiguity analysis and end up equating/leveling-down everything across space and time as to wrongly imply everything is of the same ontological-contiguity thus undermining historicity/ontological-eventfulness/ontological-aesthetic-tracing insights along the same lines like absurdly striving to idly rearticulate Mendelian hereditary as from the insight garnered from say modern day genetics with a poor capacity to discern their respective historicity/ontological-eventfulness/ontological-aesthetic-tracing implications as to the overall human prospective knowledge-reification project of sublimation and human emancipation) and this insight underlies the contention herein to overcome blurriness of meaningfulness-and-teleology of our positivism—procrypticism uninstitutionalised-threshold for the prospective relative-ontological-completeness, and so-reflected as the deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation- (as-to-underlying-ontological-commitment) construed-as 'preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules apriorising/axiomatising/referencing—psychologism' given 'relative <formative>epistemic-totalising existential-contextualising-contiguity foregrounding—entailment- (narrowing-down—sublimation as to existence—as-sublimating-withdrawal) in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional_projective-perspective> as to its prospectively induced scalarising—structuring/paradigming projection as of human messianic intemporal and secondnature social-optimisation instigative potency' at its given/defined institutionalisation ontologically-pertinent epistemic-conception of 'the very same overall phenomenality/manifestation of existence—as-sublimating-withdrawal' (and so over prior positivism—procrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation- (as-to-underlying-ontological-commitment) construed-as 'mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules,-that-is-not-preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness

falsifiability

falsifiability refers to epistemic-veracity ‘determinable as from existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness construal of ontological-primemovers-totalitative-framework as reflecting existential-reality/ontological-veracity’, and thus the broader implication of falsifiability is construed basically as ‘epistemic-veracity for determining existential-reality/ontological-veracity as of <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’;¶ with the implication that since existence is the absolute a prior, the ‘becoming of existence as ecstatic-existence’ is the inherent determinative basis of falsifiability as the latter is reflexive of ontological-primemovers-totalitative-framework, and where ecstatic-existence manifestation is rather as of an ‘overall singular/unrepeatable/nonrecurring/as-of-yet-unrepeatable-or-nonrecurring unfolding manifestation’ as implied with the ambit of such theories as the big bang theory, string theory, the ontological-contiguity—of-the-human-institutionalisation-process etc., falsifiability is reflected by determining the coherence-as-of-ontological-congruence and incoherence-as-of-ontological-incongruence of any such

ambit implied 'overall singular ecstatic-existence unfolding manifestation model-theory' as reflected by 'the falsifiability of its underlying-and-subsumed-phenomena' with regards to the epistemic-veracity of their ontological-primemovers-totalitative-framework going by their specifically relevant repeatable/recurring methodological evaluations or observations or experiments, whereas where ecstatic-existence manifestation is about just a 'repeatable/recurrent ecstatic-existence manifestation phenomenon' then such an ecstatic-existence manifestation phenomenon is falsifiable as of the epistemic-veracity of its ontological-primemovers-totalitative-framework going by its specifically relevant methodological evaluations or observations or experiments

teleology speaks to 'phenomenal/manifest epistemic reflexivity in existence as ontological', and so as to any given phenomenal/manifest_subpotency-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence;¶ and teleology is thus the cognate to coherent intelligibility articulation of phenomena as to existential-reality, given that 'all phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> are epistemic situations that speak to the transitive-conflatedness-reflexivity that is existence' as 'there is no whole that is construable as existence and then beside that whole the epistemic-conception of phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> of the said whole' but rather 'the full-potency of existence is epistemically integrative of phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> as the whole';¶ the ontological-normalcy/postconvergence epistemic projective-perspective of ontological-contiguity (as the implied 'full epistemic coherence of existence' as to overall-ecstatic-existence-supervening-conflatedness) inherently explains 'the specific decoherencing-effect of phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence>', wherein 'phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> in relatively shallow <formative>epistemic-totalising mathesis/motif/thrownness-disposition in existence' and 'phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> in relatively deeper <formative>epistemic-totalising mathesis/motif/thrownness-disposition in existence' are of a correspondingly shallow teleological-depth and deeper teleological-depth in the full-potency of existence, thusly reflecting the conflatedness epistemic-conception of existence as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence;¶ teleology as implied with the ontological-contiguity—of-the-human-institutionalisation-process 'as the cognate to coherent intelligibility articulation of human registry-worldviews/dimensions induced meaningfulness-and-teleology so-construed as teleological-inflections of meaningfulness' rather speaks to 'scalarity/immanency of existence's ontological-normalcy/postconvergence' perspective as reflecting prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> and 'human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>' perspective as reflecting notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> (that is, as to notional-symmetrisation-<as-to-

There is a common word that already exists that best describes what a psychopath is philosophically-speaking. It is a French word that doesn't exactly exist in English. The word is 'cinglé' and is better translated in English as 'slanted mind' (in contrast to the straightness/candor/organic-comprehension-thinking of a 'convictionally predisposed human mind' as of prelogism or prelogism-as-of-conviction-(existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) so-construed as candidity/candour-capacity. It should equally be noted that sometimes the word cinglé is used intermittently with deranged (dérangé) which is a more general word that does not capture the socially-functional-and-accordant phenomenal specificity that is of relevance herein. In other words, 'the cinglé' perceives meaning as 'a hollow mimicking form in-of-itself that determines others behaviour' in contrast to the normal-as-of-candidity/candour-capacity human relation to meaning as of essence or conviction or prelogism we abide by (and so, even in the case of bad conviction or bad prelogism where the bad logic of the prelogism-as-of-conviction mind operates by an ad hoc and circumspect exaggeration or omission).

In other words, the psychopath manifests postlogism or postlogism-as-of-non-conviction-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) by its reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology construed as 'how can a perverted sought after outcome be obtained with an interlocutor or interlocutors with respect to a targeted end-goal or targeted individual by falsely projecting hollow-abstract logic notwithstanding that it is existentially unreal or it is faked or it is opportunistically raised or raised out-of-context (existential-decontextualised-transposition)', i.e. meaning-as-form or pathologically/impulsively hollow-constituting—as-

disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, contrasted to the normal prelogism-as-of-conviction minds prelogical state ('existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at' construed as 'what does the veridical logical-processing-or-logical-implication of a given existential situation intrinsically imply as relevant and sound outcome', i.e. meaning-as-ontologically-veridical/in-conviction, whether thereafter the logical-processing-or-logical-implication is rightly or wrongly assumed). Hence prelogism or prelogism-as-of-conviction is all about the appropriateness of logic without any implication/questioning about any issue with the reference-of-thought on which logical-processing-or-logical-implication is based, and thus the idea of re-engaging is valid on the basis that the logical-processing-or-logical-implication can be well performed subsequently despite an initial failure or possible initial failures. Whereas with postlogism or postlogism-as-of-non-conviction this essentially has to do not with an issue of logical-processing-or-logical-implication but rather an issue of perversion-of-reference-of-thought, as logical-processing-or-logical-implication is on the basis of a sound reference-of-thought (non-perversion-of-reference-of-thought) such that fundamentally 'the notion of the dueness for logical-processing-or-logical-implication' is ontologically jeopardised by the inherent perversion-of-reference-of-thought as 'first-order perversion, out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context', of apriorising-reference-of-thought-elements/apriorising-registry-elements which are denaturing of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. Further to this is the derived second-order level deception as of wrongly implied logical-processing-or-logical-implication thereof, as of infinite deception possibilities from this faulty-mentation-procedure-deception-or-urge arising where the implied first-order perversion-of-reference-of-

thought is wrongly acquiesced to as appropriateness-of-reference-of-thought-as-of-conflatedness thus wrongly implying that logical-dueness arises for logical engagement with interlocutors; and so in contrast to the infinite possibilities of ‘sound logical-processing-or-logical-implication’ from non-perversion-of-reference-of-thought. Hence postlogism is actually a usurpation/arrogation of the prelogism-as-of-conviction mentation reflex where social universal-transparency of apriorising-reference-of-thought-elements/apriorising-registry-elements is not-available/obscured as of lack of insight on existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; with the result that with respect to the reference-of-thought, postlogism ‘induces as of ontological-normalcy/postconvergence epistemic/notional_projective-perspective, a teleologically-degraded-as-dementing differentiation of existential meaningfulness-and-teleology’ unlike prelogism which ‘induces as of ontological-normalcy perspective, an elevated-as-sound-thinking differentiation of existential meaningfulness-and-teleology’. The postlogical disposition is associated pathologically with the psychopathic character as a faulty-mentation-procedure-deception-or-urge with respect to perceived social-stake-contention-or-confliction but can equally extend ad-hocly or more profoundly as a manifestation of conjugated-postlogism/dementing-integration (due to psychopathic/postlogism induced social loss-of-awareness of the social universal-transparency) where it elicits temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in situations of social-stake-contention-or-confliction.

[Fundamentally thus the issue of postlogism associated with psychopathy is structurally/paradigmatically related to human prelogism underlined by candidity/candour-capacity as to an ontological-contiguity in notional-symmetrisation-<as-to-symmetrisation-

by-desymmetrisation-in-reflecting-dialectical-thinking-by-dementing-perspectives-of-human-meaningfulness-and-teleology>; and so as the overall backdrop of human meaningfulness-and-teleology ontological-performance appraisal which elucidation underlines the more profound human hermeneutic psychology as to the elucidation of overall human becoming in existence implications of human meaningfulness-and-teleology ontological-performance. ‘Candidty/Candour-capacity’ as such involves two-levels of construal with the first-level being with regards to ‘overall ontological-contiguity of variance as difference-in-kind/difference-in-aposteriorising-or-logicising as to the ontological-performance of meaningfulness-and-teleology’ in the sense that at our institutionalised-and-uninstitutionalised-thresholds of positivism–procrpticism reference-of-thought—and–reference-of-thought-devolving–meaningfulness-and-teleology various degrees of temporal-to-intemporal individuations ontological-performance varyingly-uphold-or-fail candidty/candour-capacity as of difference-in-kind/difference-in-aposteriorising-or-logicising (so-construed as within the positivism–procrpticism <formative>epistemic-totalising_intervalist-as-categorising-phenomenal-abstractiveness-of-presencing-in-‘occlusive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incindenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context categorisation construal/conceptualisation).

The notion of ‘candidty/candour-capacity’ is more fully/completely construed/conceptualised at the second-level as from the ontological-normalcy/postconvergence epistemic-projection perspectivation underlying notional-deprocrpticism/notional-preempting—disjointing-as-of-reference-of-thought in reflection of overall human ontological-performance as to the overall ontological-contiguity—of-the-

human-institutionalisation-process (so-construed as of the deprocrypticism <formative>epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in ontological-contiguity); as reflecting the variance of the ontological-contiguity—of-the-human-institutionalisation-process as to difference-in-nature/difference-in-apriorising-or-axiomatising as from the deprocrypticism point-referencing required for a construal/conceptualisation that is uninhibited/decomplexified with respect to our positivism–procrypticism registry-worldview/dimension given <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and so as from the conflatedness construal of the prospective deprocrypticism registry-worldview’s/dimension’s reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology ontological-performance as so-reflecting the dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology while the positivism–procrypticism registry-worldview/dimension is construed as of dementing-and-decentered-prior-institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology. ‘Candidty/Candour-capacity’ as of the ontological-contiguity—of-the-human-institutionalisation-process as to difference-in-nature/difference-in-apriorising-or-axiomatising thus refers to the comprehensiveness or <formative>epistemic-totalising–social-context-construed-conflatedness of individuation and consequently social capacity for ontological-normalcy/postconvergence, so reflected in <formative>epistemic-totalising–social-context-construed-conflatedness of individual and social construal/conceptualisation of

meaningfulness-and-teleology in upholding/failing ontological-normalcy/postconvergence as reflected by reference-of-thought–closeness-of-tethering-to–prelogism-as-of-conviction (reference-of-thought–prelogism-as-of-conviction) or reference-of-thought–looseness-of-tethering-to–prelogism-as-of-conviction (reference-of-thought–madeupness/bottomlining) as explaining thus the possibility respectively of appropriateness-of-reference-of-thought-as-of-conflatedness or perversion-and-derived-perversion-of-reference-of-thought, behind the grander issue of relative-ontological-incompleteness-and-relative-ontological-completeness-of-reference-of-thought. Basically, this points to ‘notional/epistemic reflexivity perspectives of construing/conceptualising’ with respect to ontology/ontological-normalcy so-reflected with the thresholds of ‘effecting-parsimony’ as to temporality/shortness and ‘effecting-wholeness’ as to intemporality; the elucidation of which brings out the beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought social universal-transparency, enabling intemporal/ontological skewing for institutionalisation. It is the resolving as aetiologisation/ontological-escalation of ‘candidty/candour-capacity’ as of transcended/superseded psychoanalytic-backdrop for the prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operand-or-incidenting-predicative-insights overcoming human procrypticism or disjointedness-as-of-reference-of-thought that will usher in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation psyche on the same token that the resolving of non-positivism including ‘superstition’ as of transcended/superseded psychoanalytic backdrop for the prospective overcoming of human ‘non-positivising/non-rational-empirical’- hollow-staging-and-performance-caricaturing that ushered in our prospective Positivism institutionalisation psyche and the institutionalisation possibilities thereof. Notional candidty/candour-capacity

thus allows for meaningfulness to be recasted in terms-as-of-axiomatic-construct of ‘narratives of candidity/candour-capacity in existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’ reflecting more directly the candidity <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity as of successive temporal-to-intemporal individuations specifically as a capacity variance of the same construct. Furthermore, such a candidity/candour-capacity approach as syncing with a Deprocripticism reference-of-thought as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought conflatedness over our positivism-procripticism reference-of-thought and uninhibited/decomplexified from the latter, provides ‘direct ontological insight of deprocripticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology’ as to the nature of the positivism-procripticism social-functioning-and-accordance—as-of-social-stake-contention-or-confliction threshold as uninstitutionalised-threshold amenable to perversion-and-derived-perversion-of-reference-of-thought on the basis of its more simplistic and direct notion of candidity/candour-capacity variance of the same construct. Unlike the ‘-<formative>epistemic-totalising_intervalist-as-categorising-phenomenal-abstractiveness-of-presencing-in-‘occlusive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context categorisation scheme’ which rather construes an

<formative>epistemic-totalising-self-referencing-

deprocripticism candidty/candour-capacity construal/conceptualisation articulated as of ‘deprocripticism narrative of candidty/candour-capacity’ is as of a uninhibited/decomplexified conflatedness in futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocripticism registry-worldview’s/dimension’s reference-of-thought as dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology and construing our positivism–procrypticism registry-worldview/dimension as dementing-and-decentered-prior-institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology. Candidty/Candour-capacity as such highlights from the perspective of the dialectical-thinking-and-centered-prospective-institutionalisation’s-categorical-imperatives/axioms/registry-teleology soundness-or-authenticity-of-reference-of-thought as deprocripticism opened-construct-of-meaningfulness-and-teleology the dementing/unsoundness-or-inauthenticity-of-reference-of-thought of the positivism–procrypticism <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>, despite the latter’s <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apparent soundness, at its uninstitutionalised-threshold of procrypticism as <formative>wooden-language—of-temporal–mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology. In this regard and dialectically, ‘meaningfulness-and-teleology is closed and opened successively’ as of the ‘successive uninstitutionalised-thresholds and institutionalisations’ driven by the ontological-faith-notion-

In other words from an ontological-normalcy perspective implied with candidity/candour-capacity deprocripticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, ascription-constructs are naïve <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construals of human reference-of-thought/structural/paradigmatic—ontological-performance. The ontological-normalcy/postconvergence nature of intrinsic-reality/ontological-veridicality implies human reference-of-thought/structural/paradigmatic—ontological-performance is construed as it upholds/fails ontological-normalcy as from prospective relative-ontological-completeness-of-reference-of-thought and is actually a wholly internal process of conflatedness, highlighting ‘the concatenation to intemporal-projection inextricably of derived-denaturing-deprojections-in-distractiveness-of-intemporal-projection, with the former in relative intemporality/longness and the latter in relative temporality/shortness as of distractiveness’; construed as temporal-concatenation-to-intemporality-or-ontological-veridicality-as-of-‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’. As a further elucidation, by ‘protensive-consciousness’ is meant the consciousness-awareness-teleology <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity of conflatedness as an anticipatory mental-disposition with respect to depcripticism’s preempting—disjointedness-as-of-reference-of-thought Being-development and its meaningfulness-and-teleology certitude/uninhibited reference-of-thought/structural/paradigmatic—ontological-performance wherein ‘limited-mentation-

Underlying such graduated conceptualisation of human consciousness as of notional conflatedness, is the fact that as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, such human consciousness conflatedness ultimately behind the successive institutionalisation-cumulations/institutional-recomposures in reflecting the ontological-contiguity—of-the-

human-institutionalisation-process is grounded on its least common human temporality/shortness-to-intemporality/longness denominator which is the ‘constraining social universal-transparency; and while the ‘complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ is aspirational as inducing the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness mental-disposition behind the ‘inventing’ of prospective institutionalisation, it is effectively occurs spontaneously to the intemporal disposition and cannot be the basis for collective grounding of such human consciousness conflatedness as this inevitably leads to temporal concatenation to intemporality, rather its import lies solely as of solipsistic intemporal projection drive given that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is beyond the possibility of its secondnatured institutionalisation just as implied with the notion of faith in creeds. Further, the dynamics of such a graduated human consciousness as of notional conflatedness of notional-deprocrypticism can be reinterpreted operantly as of ‘notional-referentialism’ as it points to the fact that categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments are actually ‘various levels of failing to achieve the deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that ensure ontological-completeness-of-reference-of-thought’, and thus are construed as of the same notion of referentialism, as of ‘pseudo-referentialism mental-

dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ given their respectively underlying limited-mentation-capacity in achieving referentialism. While in reality these are respectively of ‘categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ they still act as if of ‘deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and so ‘in their beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought dementing’ thus generating as of their ‘pseudo-referentialism mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments levels’ their respective neuterising construed as of ‘their prior relative-ontological-incompleteness-of-reference-of-thought of meaningfulness-and-teleology’. Neuterising thus refers to human attribution of meaningfulness-and-teleology as of human limited-mentation-capacity misconstruing, with respect to existential social-stake-contention-or-confliction possibilities, such that its reference-of-thought/structural/paradigmatic—ontological-performance is relatively ontologically-incomplete/of-ontologically-compromised-mediating,-as-of-its-specific-constitutedness, and so-construed from the conflatedness of notional-deprocrypticism; thus neuterising is specifically ‘a contextually developed perversion-or-derived-perversion-of-reference-of-thought, that is secondnatured as of its prior relative-ontological-incompleteness-of-reference-of-thought with the consequent implications of relatively defective meaningfulness-and-teleology ontological-performance. For instance, as of their relative-ontological-incompleteness-of-reference-of-thought, an animist society might notice that going to a given forest leads to illness and ascribe evil to that forest but then

a prospective relative-ontological-completeness-of-reference-of-thought positivism interpretation may be that at a certain time of the day and during a certain time of the year that forest attracts mosquitoes that cause malaria for instance which can be prevented by rubbing a certain leaf on ones cloths and body, together with the fact that a given root can be used to cure the malaria, and in addition to a whole web of nuanced understanding available to the positivism meaningfulness-and-teleology relative to the ‘abject and brute’ animistic interpretation as meaningfulness-and-teleology neuterising that it is an evil forest one should not trespass together with a whole cohort of ‘imaginary tales’ in shoring up that posture, speaking of its dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. This is a most elaborate articulation of neuterising but it equally applies where meaningfulness-and-teleology is ‘just about miscued’ say between positivism—procrypticism and deprocrypticism with the latter underlying the disjointedness-as-of-reference-of-thought of the former as it neuterising, for instance in the case of psychopathy and corresponding conjugated-postlogism as social psychopathy as in the various illustrations highlighted herein and particularly as more obviously revealed with childhood psychopathy. In the bigger picture, ascriptivity-or-ascription-hardening/pseudo-referentialism arises as of notional-referentialism/notional-deprocrypticism; wherein recurrent-utter-uninstitutionalisation’s existential reference-of-thought deepest-level of neuterising is elicited by its ‘trepidatious-consciousness impulsive—ontologically-compromised-mediating,-as-of-its-specific-constitutedness

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument failing rulemaking-over-non-rules’, base-institutionalisation—ununiversalisation existential reference-of-thought next level of neuterising is elicited by its ‘warped-consciousness tendentious—ontologically-compromised-mediating,-as-of-its-specific-constitutedness

Thus basically, neuterising of the

various references-of-thought-devolving-teleological-structure-of-meaningfulness is as of ‘categorising–occlusive-consciousness/qualifying–preclusive-consciousness/tendentious–warped-consciousness/impulsive–trepidatious-consciousness—ontologically-compromised–mediating,-as-of-their-respective-specific-constitutedness mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments’ by their respective relative human limited-mentation-capacities as their respective beyond-the-consciousness-awareness-teleologies dementing/de-asserting construed as their respective prior relative-ontological-incompleteness-of-reference-of-thought neuterising, and revealing as of the notional-conflatedness of notional-deprocrypticism their ‘reference-of-thought-devolving—différance/internal-dialectics/difference-deferral’ with regards to their respective reference-of-thought/structural/paradigmatic relative transcendently-unenabled-prior-institutionalisation-level-by-prospective-uninstitutionalised-threshold; underlining the ontological implications of understanding neuterising with respect to ‘retrospective and prospective Being underdevelopment elucidations of meaningfulness-and-teleology’ as of neuterising induced failing of reference-of-thought/structural/paradigmatic—ontological-performance. Basically neuterising as so articulated is the conception of ‘the ontological-performance of the various institutionalisations references-of-thought-devolving-teleological-structure-of-meaningfulness’ so-conceptualised from the notional-conflatedness of notional-deprocrypticism protensive-consciousness, and such an ontologically-veridical evaluation of neuterising is construed as a deneuterising—referentialism reflecting-ontologically-veridical-‘affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking’-and-ontologically-flawed-‘dementing/deassertion’ as of the various institutionalisations references-of-thought-devolving-teleological-structure-of-meaningfulness’. The implication here being that neuterising ‘can be disambiguated as of the fundamental human limited-mentation-capacity induced <formative>epistemic-

Insightfully and counterintuitively for elucidative construal, neuterising as of epistemic-abnormalcy/relative-ontological-incompleteness-of-reference-of-thought is rather ‘a derived-construction as deficient of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought’, as it is the elucidation of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought as truly reflecting intrinsic-reality/ontological-veridicality, whether we are aware of it as of dialectical-thinking or unaware as unconscious beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought as of dementing/deassertion, that reveals neuterising as of epistemic-abnormalcy/relative-ontological-incompleteness-of-reference-of-thought as it is construed in its ontological-veridicality as ‘a deficient derived-

construction of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought'. This insight equally explains why it is 'through the deficient derived-construction of conflatedness' that is construed the ontologically-veridical nature of 'distractive-alignment-to-reference-of-thought'-ontological-destructuring-constitutedness. Understanding and overcoming neutering as such reveals the beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought dynamism of human temporal-to-intemporal individuations mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as critical across all the registry-worldviews/dimensions construed as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics. The ontological-veridicality of a 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' as associated with 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity' is one grounded as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics on 'decentering/pivoting around the uninstitutionalised-threshold rule' as a remaking of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument involving the resetting of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, pointing out that the prior apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument has been superseded as of its revealed perversion-and-derived-perversion-of-reference-of-thought and so as of the uninstitutionalised-threshold rule. This explains why at uninstitutionalised-

thresholds which are subject to ‘meaningfulness-and-teleology neuterising’, prospective institutionalisation can only be achieved as of secondnatured constraining social universal-transparency that overcomes the given uninstitutionalised-threshold ‘meaningfulness-and-teleology neuterising’ thus enabling the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought of the prospective institutionalisation. It also explains why naively implying at an uninstitutionalised-threshold that ‘the social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ is universally attributable as if humans had only the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation without temporal/shortness-of-register-of-meaningfulness-and-teleology individuations will simply fail to recognise the generation-and-upholding of neuterising and thus unable to reveal perversion-and-derived-perversion-of-reference-of-thought; as it is naïve to think that while being at an uninstitutionalised-threshold like universalisation–non-positivism/medievalism by mere-and-vague impression-driven/good-naturedness/wishfulness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> in social-aggregation-enabling, people will ‘simply by magic’ find themselves articulating positivistic meaningfulness-and-teleology without grasping that the psychoanalytic-unshackling/memetic-reordering/institutional-recomposeure cross-generational process is effectively the mechanism for ‘overcoming non-positivism/medievalism uninstitutionalisation meaningfulness-and-teleology neuterising’ to be able to then reveal, construe and uphold positivistic Being and meaningfulness-and-teleology, and this equally applies with regards to overcoming our ‘procrypticism/disjointedness-as-of-reference-of-thought meaningfulness-and-teleology

neuterising’ to attain futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism Being and meaningfulness-and-teleology. As a further elucidation, a comparison can be made between a construct of ‘notional-referentialism’ disambiguated as referentialism, categorising neuterising, qualifying neuterising, tendentious neuterising and impulsive neuterising, and in parallel a reflection of ‘data conceptualisation’ disambiguated as ratio-contiguous referencing, intervalist pseudo-referencing, ordinal pseudo-referencing, nominal pseudo-referencing and random pseudo-referencing. We can grasp that effectively data conceptualisation as of intrinsic-reality/ontological-veridicality is inherently ratio-contiguous as of ontological-normalcy/relative-ontological-completeness-of-reference-of-thought but then we don’t always have the capacity to reference ratio-contiguous data and so the other types of data conceptualisations are available to us as well ‘as of the limitations of our measuring capacity’, and we grasp that the latter are actually in ‘constructed-deficiency of <formative>epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism’ as of their respective epistemic-abnormalcy/relative-ontological-incompleteness-of-reference-of-thought. Here as well it is important to understand that it is the ratio-contiguous referencing data conceptualisation that provides the ‘overriding framework as of conflatedness’ for making-sense-of/construing the relatively deficient referencing data conceptualisations as of their ‘defined tolerable levels’ of neuterising. This elucidation is to point out that reference-of-thought constructs in epistemic-abnormalcy/relative-ontological-incompleteness-of-reference-of-thought in the very first place cannot be the basis for articulating, as of their given constitutedness, by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity ontologically-veridical meaningfulness-and-teleology ‘as if in referentialism as of referentialism—ontologically-uncompromised-mediating,-as-of-

conflatedness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’
 but rather require ‘their ontologically-veridical meaningfulness-and-teleology restoration’ by
 a conflatedness as of ontological-normalcy/relative-ontological-completeness-of-reference-
 of-thought that factors in ‘their constructed-deficiency with respect to ontological-
 normalcy/relative-ontological-completeness-of-reference-of-thought, so-construed as their
 neuterising’ as of their categorising/qualifying/tendentious/impulsive—ontologically-
 compromised-mediating,-as-of-their-respective-specific-constitutedness mental-
 dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments;
 thus enabling ontologically-veridical construal as of both ontological-
 completeness/incompleteness-of-reference-of-thought of Being and meaningfulness-and-
 teleology retrospectively to prospectively in reflecting the ontological-contiguity—of-the-
 human-institutionalisation-process. To put it another way, as distinct articulations of the same
 physics intrinsic-reality, we cannot simply by constitutedness by elaboration-as-mere-
 extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-
 contextualising-contiguity of ‘traditional classical mechanics axiomatic-construct’ given its
 epistemic-abnormalcy/relative-ontological-incompleteness-of-reference-of-thought arrive-
 at/achieve the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs
 as of its ontological-normalcy/relative-ontological-completeness-of-reference-of-thought; as
 what is so generated is nothing as of reality but rather a virtuality-or-ontologically-flawed-
 construal. Instead such a construction of prospective relative intrinsic-reality/ontological-
 veridicality is a conflatedness of ‘traditional classical mechanics axiomatic-construct’ by an
 epistememic-totalising–renewing-realisation/re-perception/re-thought as of maximalising-
 recomposuring-for-relative-ontological-completeness; driven by ontological-faith-notion-or-
 ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—
 as-so-being-as-of-existential-reality to reconstruct the same domain of physics as the theory-

of-relativity-together-with-quantum-mechanics—axiomatic-constructs, and rather reflects the ontological-veridicality that ‘traditional classical mechanics axiomatic-construct’ as of its epistemic-abnormalcy/relative-ontological-incompleteness-of-reference-of-thought is ‘construed as a constructed-deficiency of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective’, and the former can only be subsumed/implied/construed-as-non-contradictory to the latter. Such a basic conception of comparative axiomatic-constructs in their reflection of the very same <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights that ontologically-veridical meaningfulness is a construction or derived-construction as of inherent intrinsic-reality/ontological-veridicality or the closest axiomatic-construct approximation to it; the insight here being that ‘relative completeness/profoundness of axiomatic-construct/reference-of-thought with respect to intrinsic-reality/ontological-veridicality’ is what is ontologically preeminent/critical for the notional perspective of ontological construal/conceptualisation. This is equally relevant with regards to the ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ which refers to the transcendental-enabling/sublimating conceptual framework that sets up the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for a registry-worldview’s/dimension’s reference-of-thought construction possibilities of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue as of existential-instantiations’, on the same unchanging intrinsic-reality/ontological-veridicality construed/conceptualised by all registry-worldviews/dimensions, but generating with human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) successive

more and more relatively profound/complete registry-worldviews/dimensions reference-of-thought constructions of derived axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue; with the ⟨given consciousness's neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue as the registry-worldview's/dimension's reference-of-thought 'abstract teleological-structure/teleological-possibilities'. For instance, all subsequent axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of the recurrent-utter-uninstitutionalisation registry-worldview/dimension are possible only by its ⟨trepidatious-consciousness neuterising-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness which is non-rules-as-impulsive-or-accidentated-or-random-mental-disposition as this basically defines the possibility of institutionalisation within recurrent-utter-uninstitutionalisation as inherently non-existent. Likewise it is the habituated rulemaking-over-non-rules as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for the prospective institutionalisation of base-institutionalisation that is the ⟨warped-consciousness neuterising-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness for enabling intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of base-institutionalisation. This

insight extends to all successive registry-worldviews/dimensions institutionalisations in construing their teleological-structure/teleological-possibilities. This equally explains the divergence of individuals and societies ontological-performance across registry-worldviews/dimensions even though all humans have the same basic intellectual potential; as within the institutionalisation limits of a registry-worldview's/dimension's 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' as its underlying reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, individuals cannot all of a sudden start thinking in terms-as-of-axiomatic-construct enabled by a prospective registry-worldview's/dimension's institutionalisation 'reference-of-thought—devolving-teleological-structure-of-meaningfulness'; given that there is a need for the requisite institutional-cumulation/institutional-recomposure as of successive psychoanalytic-unshackling/memetic-reordering/institutional-recomposure underlying the transcendences in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. The fact is that all meaningfulness-and-teleology ontological-performances, whether teleologically-degraded or teleologically-elevated, implied as of within a given reference-of-thought are necessarily in ontological-contiguity, construed as of a difference-in-kind/difference-in-aposteriorising-or-logicising of the same <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving. Such that a registry-worldview/dimension reference-of-thought associated postlogism-slantedness manifestation, which is inevitably being instigated as postlogism denaturing <formative>wooden-language—of-temporal-mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the implied reference-of-thought-categorical-imperatives/axioms/registry-teleology of its meaningfulness-and-teleology, as well as the temporal manifestations of the registry-worldview/dimension including conjugated-postlogism, is inevitably in notional-contiguity/epistemic-contiguity-<mentally-

aestheticised_dialectical-thinking-qualia-schema> with all other meaningfulness-and-teleology of that registry-worldview/dimension reference-of-thought since there are all grounded either in a ‘conscious-madeupness as teleologically-degraded’ or ‘naïve-conviction as flawed supposedly teleologically-elevated’ relationship with the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology. Such notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> is implied by the fact that a reference-of-thought is a ‘-<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology and with all its meaningfulness-and-teleology ontological-performances, given its prior relative-ontological-incompleteness-of-reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification, being mutually cognisant-and-integrative by ‘conscious-madeupness as teleologically-degraded’ or ‘naïve-conviction as flawed supposedly teleologically-elevated’ relationship with the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology. In this regard, a non-positivistic as ‘a superstitious centered-<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology as associated with say a medieval or animistic social-setup implies that a postlogism-slantedness, conjugated-postlogism or any other temporal mental-disposition with regards to say with notions-and-accusations-of-sorcery will meet with a mental-reflex across the registry-worldview/dimension <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology that is cognisant-and-integrative as of its

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity dereification in notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema>, as in its questioning and analysing whether the accusation of sorcery is true and so as an assumed/presupposed-as-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘-<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought-categorical-imperatives/axioms/registry-teleology as of the overall reference-of-thought underlying <formative>epistemic-totalising/circumscribing/delineating belief in superstition, and so beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. Such a construal equally applies to our positivism-procrypticism associated manifestation of disjointedness-as-of-reference-of-thought associated with a postlogism-slantedness, conjugated-postlogism or any other temporal mental-disposition instigation wherein our underlying procrypticism/disjointedness-as-of-reference-of-thought mental-disposition is a notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> of the positivism-procrypticism <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology ontological-performances as of ‘conscious-madeupness as teleologically-degraded’ or ‘naïve-conviction as flawed supposedly teleologically-elevated’ relationship with its centered-<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought-categorical-imperatives/axioms/registry-teleology. This explains why it is structurally/paradigmatically impossible for either such a non-positivistic social-setup or our procrypticism social-setup to resolve the vices-and-impediments associated with the corresponding reference-of-thought centered-

<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology, as it is in circular <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument centered–epistemic-totalisation grounding; thus explaining the endemisation and enculturation of the associated vices-and-impediments. Rather than a difference-in-kind/difference-in-aposteriorising-or-logicising implied as of ‘notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema>’, it is rather a difference-in-nature/difference-in-apriorising-or-axiomatising as of an ‘epistemic-break or notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema>’ as of the prospective relative-ontological-completeness of the prospective reference-of-thought ‘-<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied different and relatively-more-profound-and-complete reference-of-thought–categorical-imperatives/axioms/registry-teleology which is non-cognisant and non-integrative and ‘not in notional contiguity’ with the prior registry-worldview’s/dimension’s reference-of-thought ‘-<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology implied as of the same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-teleology that can induce the ‘ontological break’ that is able to de-endemise and de-enculturate as of aetiologisation/ontological-escalation the given registry-worldview/dimension vices-and-impediments cross-generationally. With a difference-in-nature/difference-in-apriorising-or-axiomatising construal there is a double-gesture of reification as of implying more critically the inappropriateness of the centered–epistemic-totalisation/reference-of-thought as of its underlying meaningfulness-and-teleology implied same/common/shared reference-of-thought–categorical-imperatives/axioms/registry-

teleology, which then inherently points to the inappropriateness of logical-processing-or-logical-implication on the basis of the centered–epistemic-totalisation/reference-of-thought and hence implying that there can’t be any dialogical-equivalence. Such that from a positivistic perspective, an argument in a non-positivistic social-setup of the type one may be accused of sorcery is construed as ridiculous since it is in notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema>, with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification cognisant-and-integrative with a non-positivistic superstitious meaningfulness-and-teleology centered–epistemic-totalisation/reference-of-thought, and that itself is perceived as of ‘aetiological concern’ as to the possibility of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification mental-disposition that can be cognisant-and-integrative in notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema> with numerous existential circumstances reflecting the endemising/enculturating of non-positivistic superstition and its vices-and-impediments. The same applies from a deprocrypticism perspective with regards to a procrypticism/disjointedness-as-of-reference-of-thought mental disposition as an argument seeming to articulate meaningfulness-and-teleology in the same disjointedness-as-of-reference-of-thought terms-as-axiomatic-construct by which the procrypticism/disjointedness-as-of-reference-of-thought arises in the first place is in circular <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of the same centered–epistemic-totalisation/reference-of-thought defect. Thus it is ontologically impossible to address any given registry-worldview/dimension vices-and-impediments as of that fundamental

<formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-
 as-of-instantiative-context—meaningfulness-and-teleology centered—epistemic-totalisation,
 besides at best palliative constructs of a non-universal nature, as not of an
 aetiologisation/ontological-escalation nature. Thus further validating the idea that it is a
 cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure
 in secondnaturing such a prospective institutionalisation ‘reference-of-thought—devolving-
 teleological-structure-of-meaningfulness’ that enables such a transformation whether from a
 retrospective or prospective transcendence perspective. This explains ontological-
 normalcy/postconvergence referentialism as construing/conceptualising the most
 profound/complete ontologically-veridical ‘reference-of-thought construction of
 meaningfulness-and-teleology’, as of the succession of registry-worldviews/dimensions from
 the notional-deprocrypticism perspective construal/conceptualisation, as being ‘the most
 profound/complete ‘reference-of-thought—devolving-teleological-structure-of-
 meaningfulness’ grasp of intrinsic-reality/ontological-veridicality’ among all the registry-
 worldviews/dimensions as of its preempting—disjointedness-as-of-reference-of-thought,-as-
 to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-
 residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-
 based-universalisation-directed-rulemaking-over-non-rules. Furthermore, within a registry-
 worldview/dimension for the disambiguation of temporal-to-intemporal-dispositions, its
 reference-of-thought of meaningfulness-and-teleology as its
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is its ⟨given
 consciousness’s neuterising-induced-or-referentialism-induced⟩ as reference-of-thought—
 devolving-teleological-structure-of-meaningfulness, which by way of a différance/internal-
 dialectics/difference-deferral articulates the intradimensional relative ontological-veracity of
 all other intradimensional existential-instantiations derived/devolved axiomatic-constructs of

meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue. Thus this is within the framework of the registry-worldview's/dimension's teleological-structure/teleological-possibilities; construed either in elevation-as-of-upholding-ontological-veridicality/institutionalisation as reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology' of the affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking of prospective relative-ontological-completeness-of-reference-of-thought, or in degradation-as-of-failing-ontological-veridicality/uninstitutionalised-threshold as of the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing of prior relative-ontological-incompleteness-of-reference-of-thought; noting that the dialectical nature of the elevation and degradation so implied are inherently affirmed/unaffirmed respectively as of the-very-same-<formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, wherein prospective relative-ontological-completeness-of-reference-of-thought elevation/institutionalisation is in soundness-or-authenticity-of-reference-of-thought and prior relative-ontological-incompleteness-of-reference-of-thought degradation/uninstitutionalised-threshold is in unsoundness-or-inauthenticity-of-reference-of-thought. Furthermore, metaphysics-of-absence insight as of historicity/ontological-eventfulness/ontological-aesthetic-tracing reveals and attends to the notional-deprocrypticism 'perspective issue' involved for 'overcoming defect of ontological analysis arising from metaphysics-of-presence <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag' due to a

mental-reflex of representing/skewing-the-representation of presence with respect to its
 reference-of-thought as of flawed ‘-<formative>epistemic-
 totalising/circumscribing/delineating
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-
 of-thought—devolving-teleological-structure-of-meaningfulness’ at the uninstitutionalised-
 threshold, wrongly construed as rather being in elevation/institutionalisation and thus
 wrongly reflected as of ‘soundness-or-authenticity-of-reference-of-thought’ rather than being
 veridically construed in degradation/uninstitutionalised-threshold and thus reflected as of
 ‘unsoundness-or-inauthenticity-of-reference-of-thought’; and so, when it comes to construing
 the ontological-veridicality of both elevation/institutionalisation and
 degradation/uninstitutionalised-threshold as of their respectively ‘relevant
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-
 of-thought—devolving-teleological-structure-of-meaningfulness’, and so with regards to the-
 very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-
 existence/intrinsic-reality/ontological-veridicality which as of underlying relative-
 ontological-incompleteness/relative-ontological-completeness is at the one hand
 elevated/institutionalised and on the other hand teleologically-degraded/uninstitutionalised, as
 of human deepening or shallow limited-mentation-capacity. Such historicity/ontological-
 eventfulness/ontological-aesthetic-tracing as of its notional-conflatedness as it implies the
 conflatedness of the most ‘sound/profound/complete anticipation/projection/thrownness-
 disposition as rather of elevation-as-of-prospective-institutionalisation—and-degradation-as-
 of-uninstitutionalised-threshold-paradigmatic-level-of-contrastive-devolving-analysis as of
 their respective reference-of-thought—elevated-devolving-as-of-prospective-
 institutionalisation and reference-of-thought—degraded-devolving-as-of-uninstitutionalised-
 threshold’ brings out in anticipation/projection/thrownness-disposition the overall

fundamental elucidative contrast between the ‘degradation/uninstitutionalised-threshold
 unsoundness-or-inauthenticity-of-reference-of-thought projection’ and the
 ‘elevation/institutionalisation soundness-or-authenticity-of-reference-of-thought projection’
 at their respective reference-of-thought-devolving-level of analysis; as can be elucidated
 contrastively between ‘recurrent-utter-uninstitutionalisation uninstitutionalisation and base-
 institutionalisation institutionalisation’, ‘base-institutionalisation–ununiversalisation
 uninstitutionalisation and universalisation institutionalisation’, ‘universalisation–non-
 positivism/medievalism uninstitutionalisation and positivism institutionalisation’ and
 prospectively ‘positivism–procrypticism uninstitutionalisation and deprocrypticism
 institutionalisation’. The implication here is that with say notions-and-accusations-of-sorcery
 in a universalisation–non-positivism/medievalism uninstitutionalisation social-setup, in order
 to construe ontological-veridicality; as of conflatedness we can’t simply imply the presence
 universalisationnon–non-positivism/medievalism uninstitutionalisation reference-of-
 thought—devolving-teleological-structure-of-meaningfulness as the basis of instigating
 logical-dueness for elucidation and thereof construing ontologically-veridical
 meaningfulness-and-teleology, as such a mental-reflex representing/skewing-the-
 representation of the presence as universalisationnon–non-positivism/medievalism
 uninstitutionalisation will overlook the presence uninstitutionalised-threshold and wrongly
 represent its meaningfulness-and-teleology at its uninstitutionalised-threshold as of

prospective relative-ontological-completeness meaningfulness-and-teleology as of existential-contextualising-contiguity knowledge-reification'; such that essence is actually as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. This reflects historicity/ontological-eventfulness/ontological-aesthetic-tracing as of its notional-conflatedness nature of ontological-performance as anti-nihilistically grounded on ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as enabled by maximalising-recomposuring-for-relative-ontological-completeness. It points out that ontologically-veridical meaningfulness cannot be construed beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought as of a soulless nihilistic-teleology-for-the-attainment-of-temporality/human-mortal-whims as it simply brings an end to the transcendental potential for the human existential tale perpetuation; as the organic-knowledge behind the 'invention' of prospective institutionalisation necessarily has to take precedence in further driving the ontological-contiguity—of-the-human-institutionalisation-process over a conceptualisation as of denaturing of reference-of-thought—categorical-imperatives/axioms/registry-teleology. Such an approach to transcendence is exactly what validates transcendental knowledge as of a psychoanalytic-unshackling commitment and not a grounded knowledge-construct commitment; as an approach as of grounded knowledge-construct commitment that merely implies transcendence as being incremental to the prior registry-worldview's/dimension's reference-of-thought doesn't undermine/unshackle that prior reference-of-thought with respect to the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality as of the requisite undermining/unshackling by the prospective enlightenment of the-very-same-<formative>epistemic-totalising—purview-of-construal-as-

immanent-existence/intrinsic-reality/ontological-veridicality by the prospective registry-worldview's/dimension's reference-of-thought ontological-performance given its prospective relative-ontological-completeness-of-reference-of-thought. Rather implying a grounded knowledge-construct commitment merely 'circularly-complexifies' the uninstitutionalised-threshold reference-of-thought as it adopts by mental-reflex an incrementalism-in-relative-ontological-incompleteness mental-disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness mental-disposition and thus fails to fulfil the requisite <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought registering-of-its-reference-of-thought-rather-as-dementing-and-decentered-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology and its alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics, which is what allows for transcendence to the prospective reference-of-thought for renewal; that is, this will rather bring about the <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior reference-of-thought in 'incremental circular-complexification' and so beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought on a false notion of 'an intemporal temporality', naively passing for intemporality/longness as of intersubjective eliciting of temporality. Such notional-conflatedness for ontological-performance implication is easily understood as of metaphysics-of-absence when we grasp that a mindset as of a non-positivistic social-setup needs to 'wean off organically beyond mere mechanical adjustments' its non-positivism before the notion of 'a credible logical engagement in terms-as-of-axiomatic-construct of positivism/rational-empiricism with a mindset as of a positivistic social-setup' can be genuinely entertained. In this regard, the budding positivists had to implied an utter break with medieval-scholasticism-pedants—ideal-type-or-individuation to

avoid the circular problem of their positivism knowledge and science being interpreted in

 Such a psychoanalytic-unshackling commitment equally highlights that the idea of a common
 universal human potential available to all individuals while true is not inherently existentially
 fulfilled/valorised if that human-subpotency is not effectively to-the-best-of-our-
 temporal/mortal-superseding-endeavouring unleashed as of a maximalising-recomposing-
 for-relative-ontological-completeness <formative>epistemic-totalising–renewing-
 realisation/re-perception/re-thought. This conceptualisation insight points out that prospective
 procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation associated with
 our positivism–procrypticism registry-worldview/dimension as of its epistemic-
 abnormalcy/relative-ontological-incompleteness-of-reference-of-thought is effectively the
 defective result of our positivism institutionalisation ontological-destructuring-
 constitutedness as of elaboration-as-mere-
 extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-
 contextualising-contiguity of reference-of-thought–categorical-imperatives/axioms/registry-

 ‘procrypticism uninstitutionalisation’ arises as <formative>wooden-language—of-temporal–
 mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of
 the registry-worldview’s/dimension’s ‘positivism institutionalisation’ reference-of-thought–
 categorical-imperatives/axioms/registry-teleology, which then effectively generates the
 virtuality-or-ontologically-flawed-construal of procrypticism/disjointedness-as-of-reference-
 of-thought uninstitutionalisation construed as perversion-and-derived-perversion-of-
 reference-of-thought of our positivism–procrypticism registry-worldview/dimension. It

should be noted that, the ontologically-veridical reflection of procrypticism/disjointedness-as-of-reference-of-thought is rather construed from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension perspective as ‘a constructed-deficiency of the profound/complete deprocrypticism perspective’, with deprocrypticism in ontological-normalcy/relative-ontological-completeness-of-reference-of-thought of the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality as procrypticism which is in epistemic-abnormalcy/relative-ontological-incompleteness-of-reference-of-thought of the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality; and the ontological-veridicality of deprocrypticism itself construed as an epistemic-totalising-renewing-realisation/re-perception/re-thought of the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality as of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. This explains why our positivism–procrypticism so-construed from a deprocrypticism perspective will be decentered and demented, just as our positivism in ontological-normalcy/relative-ontological-completeness-of-reference-of-thought construal of non-positivism/medievalism reference-of-thought in epistemic-abnormalcy/relative-ontological-incompleteness-of-reference-of-thought show the latter to be decentered and dementing. As a further elaboration, the circularity and <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-disposition attached to a registry-worldview’s/dimension’s reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is fundamentally grounded on its teleological-structure/teleological-possibilities established as of its reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue. It is only a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure in the medium to long-term that can transcendently ‘wean off’ from such a teleological-structure/teleological-possibilities of a registry-worldview/dimension by habituating a prospective institutionalisation as of its reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue. This explains as of metaphysics-of-absence why for instance the mere demonstration to approval/acquiescence of positivistic principles/interpretations of intrinsic-reality/ontological-veridicality in a non-positivistic as animistic social-setup or medieval social-setup however frequent the demonstrations within a given limited period of time doesn’t mean that the social-setup has been transformed into a positivistic social-setup; since their existentially habituated state of animism or medievalism teleological-structure/teleological-possibilities as of (warped-or-preclusive-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-structure-of-meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, will need to be undone/unshackled psychoanalytically in the medium to long-run to veridically achieve positivism; given that that uninstitutionalised-threshold is in a state of circular-pervasiveness-of-‘reference-of-thought—degraded-

 rather than being veridically ‘decentered and dementing’ at the uninstitutionalised-threshold

logical-dueness doesn't even arise in the very first place given perversion-and-derived-perversion-of-reference-of-thought as of unsoundness-or-inauthenticity-of-reference-of-thought. We can get a projected sense of this as of metaphysics-of-absence in that despite the articulation of positivistic principles/interpretations in the animistic social-setup or medieval social-setup, in the short to medium run individuals will keep on overriding and ignoring such positivistic meaningfulness-and-teleology nihilistically, notwithstanding that we may recognise this as of prospective relative-ontological-completeness-of-reference-of-thought, and falling back to construe/conceptualise meaningfulness-and-teleology in non-positivistic animistic or medieval terms-as-of-axiomatic-construct, construed from the positivistic perspective as perversion-and-derived-perversion-of-reference-of-thought as of unsoundness-or-inauthenticity-of-reference-of-thought. As broadly speaking, a registry-worldview's/dimension's reference-of-thought is as of 'the existential individuations possibilities as to reference-of-thought—prelogism-as-of-conviction and reference-of-thought—madeupness/bottomlining' reflecting the teleological-structure/teleological-possibilities, established as of its reference-of-thought—and-reference-of-thought-devolving—meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue; and it is nevertheless so made-up/bottomlined nihilistically, notwithstanding a prospective registry-worldview's/dimension's reference-of-thought that points prospectively to its relative ontologising-deficiency/epistemic-abnormalcy/relative-ontological-incompleteness-of-reference-of-thought, as it is in the bigger picture structurally/paradigmatically 'a lifetime mental and existential investment as of the specific prior relative-ontological-incompleteness-of-reference-of-thought beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought meaningfulness-and-teleology' that will not lightly give up on 'its invested specific prior relative-ontological-

for-relative-ontological-completeness paradigm, given a failure to structurally/paradigmatically grasp intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating implications, and rather confusing this with social-aggregation-enabling implications. This is clearly made obvious when ‘the very same motif of reasoning’ is construed as of metaphysics-of-absence implications (as to ontological-normalcy/postconvergence) say with respect to an animistic or medieval non-positivistic registry-worldview’s/dimension’s reference-of-thought—madeupness/bottomlining <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> rather in social-aggregation-enabling, implying no possibility for prospective transcendence so-construed from a positivistic perspective of analysis in ontological-normalcy/relative-ontological-completeness-of-reference-of-thought. This further points out that, as herein implied with futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrpticism as preempting—disjointedness-as-of-reference-of-thought ‘originary/event-of-prospective-ontology-origination transcendental knowledge conceptualisations’ as putting into question a prior registry-worldview’s/dimension’s reference-of-thought teleological-structure/teleological-possibilities, reconceptualised-rather-as-of-prior-relative-ontological-incompleteness-of-reference-of-thought, established as of its {given consciousness’s neuterising-induced}-reference-of-thought—devolving-teleological-structure-of-meaningfulness as intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as its intradimensional knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, are rather as of ‘a psychoanalytic-unshackling commitment’ and

not as of ‘a grounded knowledge construct commitment’. Inherently, such ‘a psychoanalytic-unshackling commitment’ inevitably and fundamentally puts into question the axioms and underlying supposedly transcendental-enabling/sublimating notion as of the (given consciousness’s neuterising-induced)-reference-of-thought—devolving-teleological-structure-of-meaningfulness of the prior registry-worldview’s/dimension’s reference-of-thought of meaningfulness-and-teleology which establishes its ‘grounded knowledge construct’, and so because of its denaturing of the prior institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology by way of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity at the registry-worldview’s/dimension’s uninstitutionalised-threshold inducing prior relative-ontological-incompleteness-of-reference-of-thought in need for prospective relative-ontological-completeness-of-reference-of-thought, and so as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposure articulation by its cross-generational transcendental implications projection. Such that such ‘a psychoanalytic-unshackling commitment’ cannot be construed in the same terms-as-of-axiomatic-construct as ordinary intradimensional knowledge as of the established prior institutionalisation teleological-structure/teleological-possibilities for its ‘grounded knowledge construct’ as prior relative-ontological-incompleteness-of-reference-of-thought, but rather construed as of prospective ontological-normalcy/relative-ontological-completeness-of-reference-of-thought it more critically and organically points to the uninstitutionalised-threshold state of the present registry-worldview’s/dimension’s reference-of-thought at its uninstitutionalised-threshold with respect to the prospective institutionalisation state of the prospective registry-worldview’s/dimension’s reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought, and thus rather implies an ontological-

dementation/dialectical-dementation–stranding/attributive-dialectics. It is psychoanalytic-unshackling commitment and not grounded knowledge construct commitment, because it is for instance about articulating ‘prospective positivism axiomatic-construct (occlusive-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-structure-of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘non-positivism axiomatic-construct (warped-or-preclusive-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-structure-of-meaningfulness’, or in the case of articulating ‘futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism axiomatic-construct (protensive-consciousness referentialism-induced)-reference-of-thought—devolving-teleological-structure-of-meaningfulness’ with respect to a relatively underdeveloped registry-worldview/dimension in prior ‘positivism–procrypticism axiomatic-construct (occlusive-consciousness neuterising-induced)-reference-of-thought—devolving-teleological-structure-of-meaningfulness. It is important to grasp in both instances that such psychoanalytic-unshackling commitment implications are not to be understood respectively as of the uninstitutionalised-threshold mental-dispositions of non-positivism/medievalism or procrypticism reference-of-thought—devolving-teleological-structure-of-meaningfulness which will just induce their <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions for non-transcendence, but rather as of a habituated mental-projection perspective from the prospective institutionalisations of positivism or deprocrypticism reference-of-thought—devolving-teleological-structure-of-meaningfulness. Thus counterintuitively to metaphysics-of-presence conception, human living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-

development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as ‘banally’ portrayed historically is not as of an expanding ‘grounded knowledge construct’ from time immemorial as of a wrong incrementalism-in-relative-ontological-incompleteness mental-reflex as if humans have had only one ‘-<formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness’. But actually the underlying process is one of ‘a psychoanalytic-unshackling as of a succession of prospective institutionalisations maximalising-recomposuring-for-relative-ontological-completeness construed from a succession of ‘-<formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness’ so implied by an ontology-driven ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ enabling successive prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy with respect to human notional deepening limited-mentation-capacity as of institutional-cumulation; such that counterintuitive to what we might be inclined to think, the development of human psychology is not as of ‘a grounded construction that simply varies incrementally across all times’, but rather ‘a construction which teleological-structure/teleological-possibilities/teleological-potency are sharply rearticulated in succession of institutionalisations as of ontological conflatedness’, and this is important ‘to avoid unduly considering our whole psychical-nature-and-potential as of our present positivistic institutionalisation mindset/consciousness as of metaphysics-of-presence’, but rather grasp that there are teleological-structure/teleological-possibilities/teleological-potency of our mental-projection and mental-disposition as of deprocrpticism/disjointedness-as-of-reference-of-thought ‘-<formative>epistemic-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness’ beyond just what we can imagine as of our presence as positivism—procrysticism. This analysis brings out what is effectively meaningful as it shows that meaningfulness is more completely about apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights thus involving the ‘-<formative>epistemic-totalising/circumscribing/delineating

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness’ as of the prospective relative-ontological-completeness-of-reference-of-thought of the {given consciousness’s neutering-induced-or-referentialism-induced}-reference-of-thought—devolving-teleological-structure-of-meaningfulness and then ‘operant-or-incidenting-predicative-insights or logical-coherence’ for effectively articulating their meaningfulness as of instantiative-context or existential-instantiations with respect to existence—as-the-absolute-apriori-of-conceptualisation imbricatedness/threadedness/recomposuring; and these are the two underlying commitments that make-up meaningfulness. Within a registry-worldview’s/dimension’s institutionalisation framework the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is utterly geared in an epistememic-totalising—self-referencing-syncretising/circularity/interiorising/akrasitic-drag of meaningfulness-and-teleology as of ‘operant-or-incidenting-predicative-insights or logical-coherence’ and beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought by mental-reflex presupposes-and-assumes the ontological absoluteness/indubitability of its ‘-<formative>epistemic-totalising/circumscribing/delineating

questioning as of intradimensional grounded meaningfulness-and-teleology at its uninstitutionalised-threshold. Such a transcendental engagement recurrently put into question in conflatedness the prior institutionalisation ‘-<formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness’ at its uninstitutionalised-threshold by substituting it with the prospective institutionalisation ‘-<formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness’ as of its prospective relative-ontological-completeness-of-reference-of-thought, before effecting any ‘operant-or-incidenting-predicative-insights or logical-coherence’ for prospective institutionalisation meaningfulness-and-teleology, and this explains its reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology; while on the other hand the grounded uninstitutionalised-threshold recurrently overrides as of constitutedness beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought any notion of its ontologically deficient ‘-<formative>epistemic-totalising/circumscribing/delineating apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of reference-of-thought—devolving-teleological-structure-of-meaningfulness’ at its uninstitutionalised-threshold and just triggers ‘operant-or-incidenting-predicative-insights or logical-coherence’ on that basis for its intradimensional grounded meaningfulness-and-teleology, and this explains its ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’, and explaining why transcendence fully occurs as of a cross-generational habituation process.

Remarkably, such a maximalising-recomposuring-for-relative-ontological-completeness behind the ontological-contiguity—of-the-human-institutionalisation-process enabling the human existential tale in successive institutional-cumulations is always rather perceived intradimensionally as an exceptional-askance and unordinary. For instance, the maximalising-recomposuring-for-relative-ontological-completeness mental-disposition in their own times advocating the end of such perverse human institutions like serfdom and slavery were construed in their own times by their dominant societies as of exceptional-askance and unordinary such that in effect these actually engendered great conflict before such practices came to an end; and such metaphysics-of-absence analysis does apply with respect to superstitions, universal human rights, free society, modern science, etc. but then as of our developed present institutionalisation the idea of not entertaining such practices is viewed as not an exceptional-askance and ordinarily to be expected. This explains human mental states respectively as of uninstitutionalised-threshold and as of prospective institutionalisation with respect to maximalising-recomposuring-for-relative-ontological-completeness as the process enabling prospective relative-ontological-completeness-of-reference-of-thought of same <formative>epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality hitherto considered off limits to any challenging maximalising-recomposuring-for-relative-ontological-completeness at the uninstitutionalised-threshold but then acknowledged thereafter after prospective institutionalisation; with the implication that the possibility for all prospective transcendences as of opened-construct-of-meaningfulness-and-teleology arise only by maximalising-recomposuring-for-relative-ontological-completeness but presences in their <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> consider

maximalising-recomposuring-for-relative-ontological-completeness as of exceptional-
 askance and unordinary due to their <formative>epistemic-totalising-self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag mental-reflex avoiding being
 ontologically decentered and demented. Insightfully, this point out the circumspective nature
 of any transcendental knowledge construction exercise as of ontological-tolerance to avoid on
 the one hand outrightly articulating construed ontological-veridicality at the expense of
 avoiding any Being-development/ontological-framework-expansion-as-to-depth-of-
 ontologising-development-as-infrastructure-of-meaningfulness-and-teleological engagement,
 as such a psychoanalytical commitment necessarily recognises human potential to transcend,
 and the other hand the nature of intrinsic-reality/ontological-veridicality that ‘supersedes
 humankind and doesn’t factor in human moods and whims’ in its effectiveness. Caught
 between these two elements human meaningfulness-and-teleology is ‘often actually imbued
 with active and passive mental-strategies of compromise’ but which wouldn’t cut it with the
 maximalising-recomposuring-for-relative-ontological-completeness necessary for human
 development and progress. Being-development/ontological-framework-expansion-as-to-

 relative-ontological-incompleteness-of-reference-of-thought, since there is no

 the relationship between non-positivism and positivism as well as our
 procrypticism/disjointedness-as-of-reference-of-thought and futural Being-
 development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
 infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as
 preempting—disjointedness-as-of-reference-of-thought. This underlying notion of ‘notional-
 conflatedness/constitutedness-to-conflatedness construal/conceptualisation’ can further be
 expanded upon contrastively with regards to knowledge practice in manyan epistememic-
 totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-
 veridicality not subject to immediate-constraining ontological-primemovers-totalitative-
 framework thus rather eliciting atomising/taking-to-pieces constitutedness that induces
 relatively poor ontological-performance. The central element here has to do with the
 pervasiveness of ‘conceptual patterning’ that actually speaks of a nombrilistic/-
 <formative>epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag approach to conceptualising knowledge
 based on an intellectual exercise of producing patterns of thought with little consideration as

to their underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as validated by ontological-primemovers-totalitative-framework. At its worst, such an orientation construes of categorisation/taxonomisation of knowledge as inherently representative of intrinsic-reality/ontological-veridicality by that mere exercise. Such a constitutedness ends up misconstruing the organical depth involved and renders all knowledge constructs so categorised/taxonomised on the same vague plane of mechanical equivalence undermining their transcendental-enabling/sublimating, originality, organic nature and more often than not turning them into platitudes as rather concerned with perceived academic formulations and formats in of themselves rather than ontological-veracity as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating. The underlying mental-reflex for this intellectual disposition associated with conceptual patterning is the assumption that by mere categorising/taxonomising ideas on the basis of their similarities and differences it should be able to attain a grander truth as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. But then such an approach is naïve by its failure to reckon the reality of human limited-mentation-capacity which implies that human conceptualisation tends to develop from prior relative-ontological-incompleteness-of-reference-of-thought, as of the incompleteness of the paradigm/structure of human reference-of-thought. Such that a naïve categorisation/taxonomisation conceptual patterning perspective on that basis equally inherits that relative-ontological-incompleteness of the paradigm/structure of human reference-of-thought; with the consequence that it is not ‘notionally structured’ to conceptually factor in human poor to perfect/near-perfect construal on the basis of conflatedness but rather suffers from constitutedness. This weakness is underlined and resolved by the notion of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—

imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that enables conflatedness in line with existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. It is such a conceptual patterning mental-reflex associated with categorising/taxonomising dispositions in constitutedness that is behind the naïve but poor influence of the saying that ‘every idea has already been thought of before’ with the nefarious consequence of ‘emphasising themes and authorial differentiation within such categorised/taxonomised thematics in of themselves’ as if an epistememic-totalising-devolved—purview-as-domain-of-study mainly involves intersubjective evaluation or evaluation among humans within the scope of their mortality on the naïve assumption that such categorising/taxonomising effectively covers analytically the entirety/potency of existence—as-the-absolute-a-priori-of-conceptualisation, whereas such is achieved rather by a conceptualising as implied by referentialism-as-of-ontological-normalcy/postconvergence that places existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context above intersubjective evaluation or evaluation among humans in their mortality in determining intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as of intersolipsistic insight. Consider for instance that in the run up to the development of theory-of-relativity and quantum-mechanics in the early part of last century, the scientists involved weren’t in the exercise of evaluating their respective theories in a closed framework emphasising their respective ‘ownership-of-theories’ as mortals but rather an opened framework emphasising whosever theories contribute in disclosing intrinsic-reality/ontological-veridicality as the superior third party. This can equally be compared to naively articulating categories/taxonomies of sounds on the basis that their constitutedness defines the entire existential possibility/potency of musical compositions

that can arise but then the ‘depth/axiomatic-construct of existence for musical compositions’ doesn’t submit to such a naïve categorising/taxonomising constitutedness but rather such ‘depth/axiomatic-construct of existence for musical compositions’ is as of an imbricatedness/threadedness/recomposuring of existential-instantiations that is graspable rather by a conflatedness as enabled by referentialism-as-of-ontological-normalcy/postconvergence. Given our limited-mentation-capacity, existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is then the preceding and transformative element of meaningfulness-and-teleology conceptualisation as of our deepening limited-mentation-capacity enabling our prospective relative-ontological-completeness-of-reference-of-thought for grasping ontologically-veridical organic-knowledge articulated in any given <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality such that the wrong approach for prospective intellectual creation is one that simply lumps authorial articulations under given themes together in ‘mechanical association’ without factoring beforehand their respective ‘transcendental-enabling/sublimating dynamism and implied organic-knowledge’ as of conflatedness. This equally underlies the pervasive disposition for misattributed and misfocused analyses as such blurry intellectual exercise becomean epistememic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal-dispositions focussing less on the possibilities and insights of prospective elucidation and expansion of knowledge as of intrinsic-reality/ontological-veridicality as being the transcendental-enabling/sublimating immortal/first-party, and turning more and more and placing the stakes rather on authorial second-parties/mortals competing analyses even to the extent on occasion of undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating immortal/first-party. Further, such conceptual patterning will often fail

to identify the appropriate point for grasping intrinsic-reality/ontological-veridicality as instead of emphasising conflatedness in ordinary/event-of-prospective-ontology-origination projection into existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, it emphasises mere structural patterns inducing constitutedness, and so whether at specific or synoptic levels of analysis. This extends to the way issues are raised, questions are posed, as well as their supposed resolutions; ultimately lacking in providing theoretical, conceptual and operant constructs of universal applicative pertinence, and explains a certain position of closure that holds that philosophy is just a vague thinking exercise. Furthermore, whereas an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating construal highlights the ontological-contiguity of all knowledge as of their reference-of-thought/structural/paradigmatic relationship, conceptual patterning seem to naively imply a discreet relationship of knowledge constructs with little insight of their intrinsic-reality/ontological-veridicality transcendental enabling ontological-primemovers-totalitative-framework interconnectedness as this is often not the primary driving focus, as it is naively assumed that the conceptual patterning is a correspondence of intrinsic-reality/ontological-veridicality as of the mere structural conceptualisation in constitutedness rather than striving to expand the transcendental-enabling/sublimating ontological-primemovers-totalitative-framework existential-reality potential, and this easily leads to virtuality or ontologically-flawed construal. The defect of conceptual patterning is easily overlook mainly as philosophy is of first order knowledge, a level at which knowledge differentiation doesn't easily manifest itself. Such errors of conceptual patterning will hardly arise in second-level knowledge where transcendental-enabling/sublimating implications arise in a specular way. For instance, while hereditary is an underlying conceptual patterning idea in biology, it will be unthinkable to try to lump together and undermine the originality of subsequent hereditary notions of genetics

on the basis that these are of the same conceptual patterning as earlier notions like Mendelian heredity as the transcendental-enabling/sublimating differentiations are spectacular. Finally, one practical intellectual flaw arising out of such naïve categorising/taxonomising conceptual patterning has to do with a certain vague intellectual practice based on perceived intellectual pertinence in terms of the authorial ‘precedence of mentioned terms’ irrespective of association whether simple formalistic identifying of terms and notions with little consideration of the divergence of implied organic-knowledge as of their intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework nature and differences as well as their divergence in meaningfulness-and-teleology implications. This again leads to lumping, artificial categorising and undermines originality and organic-knowledge, turning this into simplistic mechanical associations with the more serious consequence being that the more decisive notion for human knowledge renewal as of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, becomes seriously undermined; as it refers to a transcendental-enabling/sublimating ontological-primemovers-totalitative-framework renewal of a same <formative>epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but with such effort for renewal often laden with a tradition that is naively of constitutedness undermining requisite creativity as of conflatedness, as it ‘critically presupposes beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought that prospective meaningfulness is deterministically tied down to a certain categorising/taxonomising relationship with the prior conceptualisations’ in the given <formative>epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. Ultimately, the idea here is

that approaching intrinsic-reality/ontological-veridicality with our given limited-mentation-capacity in order to achieve ontological-veracity requires a rather counterintuitive mental-reflex as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context that 'originally reconstructs the ontological-pertinence of axiomatic-constructs and their derived-conceptualisations'. Such an analytic insight as of a deprocrypticism (protensive-consciousness referentialism-induced)-reference-of-thought—devolving-teleological-structure-of-meaningfulness analysis as of its prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy, points out that actually, and according to this author's view, such a currently discussed philosophical issue as the hard problem of consciousness arises as a result of a fragmented thematic construal as of constitutedness wherein a more profound view of the philosophical enterprise as intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework here hasn't been entertained sufficiently to point out that effectively it is a problem that actually 'devolves out' of the more fundamental issue of Being as of its but is rather being posed as of a 'disjointed/fragmented analysis' as a consciousness grounded problem. This equally explains this author's construal of human consciousness development as rather of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; consciousness defined as of 'notional--<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness'. The fundamental fact is that existence as of existential-

contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is the absolute a priori of intrinsic-reality/superseding-oneness-of-ontology prior to any human derived knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, and hence existence as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is the foundational absolute a priori any ⟨given consciousness's neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness constructs, by which our limited-mentation-capacity can most pertinently accede to by maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of ontological-normalcy/postconvergence insight. Thus existence—as-the-absolute-a-priori-of-conceptualisation implies it is as of the entire 'conflatedness for human construction of ontologically veridical meaningfulness-and-teleology' implied as of notional-deprocrypticism; this is notionally known as historicity/ontological-eventfulness/ontological-aesthetic-tracing. The implication here is that conceptualisations/construals not only of consciousness but virtue, aesthetics, episteme and nature together with their derived human notional--<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag notions like psychologisms, ethics and moralities, arts, epistemologies and methodologies, and natural sciences are but as of the ⟨given consciousness's neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue as derived conceptualisations/construals of the very conflatedness

that is as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology or existence-as-existence-potency-prospective-digression-of-⟨formative⟩epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness/existential-possibilities. The underlying insight explaining human limited-mentation-capacity flawed mental-disposition for constitutedness lies with human misconstruing from ‘existential-instantiations’ the ontological-veridicality of axiomatic-constructs as derived from the ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’. The ‘iterating nature of existential-instantiations in imbricatedness/threadedness/recomposuring’ as of existence’s is what provides humankind-as-of-it-subpotency with direct mental access to existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality, as humans don’t have direct mental access to conceptualised/construed existential-reality/existence-or-intrinsic-reality-or-ontological-veridicality-as-of-its-full-potency, but rather projectively-or-anticipatorily construe of axiomatic-constructs about intrinsic-reality/ontological-veridicality as derivable as from existence—as-the-absolute-a-priori-of-conceptualisation imbricatedness/threadedness/recomposuring in elucidating existential-instantiations, as of ⟨given consciousness’s neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness, and so as of the maximalising-recomposuring-for-relative-ontological-completeness behind the ontological-contiguity—of-the-human-institutionalisation-process. Otherwise with a naïve mental-reflex of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity of existential-instantiations, we will rather tend to wrongly construe ‘the conceptual patterning of existential-instantiations’ as rather being ‘axiomatic-constructs as of the ⟨given consciousness’s neuterising-induced-or-referentialism-induced⟩-reference-of-thought—devolving-teleological-structure-of-meaningfulness as from

existence—as-the-absolute-a-priori-of-conceptualisation

imbricatedness/threadedness/recomposuring ’, thus inducing virtualities or ontologically-flawed construals associated with the uninstitutionalised-thresholds. Thus, the ontological-veracity as prospective relative-ontological-completeness-of-reference-of-thought of ‘the axiomatic-constructs of a (given consciousness’s neuterising-induced-or-referentialism-induced)-reference-of-thought—devolving-teleological-structure-of-meaningfulness as from existence—as-the-absolute-a-priori-of-conceptualisation

imbricatedness/threadedness/recomposuring ’, generating knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue implied as meaningfulness-and-teleology, is rather ensured by the construal of existential-instantiations as of maximalising-recomposuring-for-relative-ontological-completeness which is as of conflatedness, thus enabling the ontological-contiguity—of-the-human-institutionalisation-process. It is interesting to grasp here that we cannot from our ‘sense of conceptual patterning’ claim to put into question the inherent nature of existence—as-the-absolute-a-priori-of-conceptualisation and as of its implied superseding-oneness-of-ontology, since existence is structurally/paradigmatically precedent and our conceptual patterning is arising secondarily as of our shoddy-and-incomplete construal of the ‘iterating nature of existential-instantiations’ as of existence’s imbricatedness/threadedness/recomposuring ; and any such pretence of conceptual patterning is nothing but a virtuality or ontologically-flawed construal as of naïve constitutedness. Of course, it is rather prospective relative-ontological-completeness-of-reference-of-thought that will imply deeper ontological-veracity of the same underlying purview for the construal of meaningfulness-and-teleology mental-disposition grounded on existence—as-the-absolute-a-priori-of-conceptualisation. Insightfully and making the case against conceptual patterning as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-

elucidation-outside-existential-contextualising-contiguity of existential-instantiations, this points out that existence inherent superseding–oneness-of-ontology necessarily implies ontologically-veridical meaningfulness-and-teleology is effectively as of a natural transcendental-enabling/sublimating existential-contextualising-contiguity-of-all-ontologically-veridical-meaningfulness ‘in wait’ to be elucidated however imbricated/threaded/recompusured such an exercise, explaining why our knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of a given <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in conflatedness need to be as of a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and more than just conceptual patterning that doesn’t or poorly attends to a natural transcendental-enabling/sublimating existential-contextualising-contiguity-of-all-ontologically-veridical-meaningfulness. For all the above elucidations highlighting the ontological-veracity implications of constitutedness and conflatedness, it should be noted that emphasis is rather on the deficiency of limited-mentation-capacity in construing intrinsic-reality/ontological-veridicality such that the more profound/complete recomposuring of the very same <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality highlights/reflects in its subsuming interpretation the true deficiency of the shoddy/incomplete. This can be expanded upon as follows, the reason why relative-ontological-incompleteness-of-reference-of-thought/epistemic-abnormalcy/ontological-destructuring-constitutedness can only be construed with certainty-as-to-their-real-ontological-deficiency ‘rather as a constructed-deficiency of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness’ lies in the fact that the construal/conceptualisation of an

epistememic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality is ‘supposedly as of a perfect or near-perfect or relatively-perfect ontological correspondence between such human construed/conceptualised meaningfulness-and-teleology and the inherent ontological-veracity/intrinsicness of the <formative>epistememic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of human construal/conceptualisation of it’. The only human construal/conceptualisation that can guarantee or relatively guarantee such a perfect or near-perfect or relatively-perfect ontological correspondence is as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness. Since there is no direct correspondence between relative-ontological-incompleteness-of-reference-of-thought/epistememic-abnormalcy/ontological-destructuring-constitutedness with the inherent intrinsicness of the <formative>epistememic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of human construal/conceptualisation of it, it is thus only from a constructed-deficiency of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/conflatedness which has such a direct correspondence that the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistememic-abnormalcy/ontological-destructuring-constitutedness can be established. A direct approach to determine the certainty-as-to-their-real-ontological-deficiency of relative-ontological-incompleteness-of-reference-of-thought/epistememic-abnormalcy/ontological-destructuring-constitutedness will simply lead to a virtuality-or-ontologically-flawed-construal, as failing to elucidate the correspondence of ontological-deficiency to the inherent intrinsicness of the <formative>epistememic-totalising-devolved–

purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, with such a
 virtuality-or-ontologically-flawed-construal often wrongly involving ‘reference-of-thought—
 elevated-devolving-as-of-prospective-institutionalisation’-as-of-upholding-ontological-
 veridicality rather than ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-
 threshold’ as-of-failing-ontological-veridicality since a logical correspondence with intrinsic-
 reality/ontological-veridicality will be vaguely implied by mental-reflex; as is often the case
 with postlogism and conjugated-postlogism. By and large, this overall conceptualisation
 explains the nature of ‘notional constructs’ as implying a variance of poor-to-perfect
 ontological-performance of the same underlying idea conceptualised as of its perfect/near-
 perfect/relatively-perfect ontological-performance as in-sync/corresponding with inherent
 intrinsic-reality/ontological-veridicality beyond-the-consciousness-awareness-teleology-in-
 existential-extrication-as-of-existential-unthought of human construal/conceptualisation of it.
 This fully articulates the dynamic relationship of human limited-mentation-capacity as of its
 poor to perfect relationship-with/conceptualising-of existence-or-intrinsic-reality-or-
 ontological-veridicality; respectively as poor as of constitutedness and as relatively-
 perfect/near-perfect/perfect conflatedness, construed as notional-conflatedness as of
 constitutedness-to-conflatedness of human limited-mentation-capacity. Insightfully, it
 highlights that constitutedness arises as of human limited-mentation-capacity

 Notional-conflatedness/constitutedness-to-conflatedness as such highlights an underlying
 historicity/ontological-eventfulness/ontological-aesthetic-tracing of the constitutedness-to-

 humankind. All knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-
 referential-notions/articulations/virtue are thus for-human-studies/for-human-constructs in the

sense that these do not add anything to the given abstract/imaginary existence but are simply enabling to human curiosity and emancipation; that is, whether humans in 2000 BC or 2000 AD are knowledgeable about notions as genetics, theory-of-relativity, universal human rights, etc. doesn't add anything to 'abstract/imaginary existence as a pre-given' pointing to the fact that human existence is about human-subpotency construed as of successive defining transcendently-enabled-institutionalisation-levels-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism as levels of human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-prot Humanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>). Thus in effect the natural sciences are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about 'human consciousness as for material and physical effecting devolving teleologies as meaningfulness' while the social domains of study are actually for-human-studies/for-human-constructs whose specific ambit of human-subpotency is about 'human consciousness inherent effecting devolving teleologies as meaningfulness'. This validates the idea of dualism as ultimately human-subpotency effecting can only arise from the conflatedness of human consciousness in-its-embodiment as the potent 'phenomenological transcendental-point-of-departure handle' for human self-

conscious existence and meaningfulness-and-teleology construal/conceptualisation as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, whereas the human body as matter though physically existent cannot as of such its constitutedness conception be construed/conceptualised as of such a ‘phenomenological transcendental-point-of-departure handle’. In the bigger framework, human <formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances) as of collective human shallow to deepening limited-mentation-capacity implies that human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue inherently suffer in reflecting the ontological-contiguity—of-the-human-institutionalisation-process successive institutional-cumulations/institutional-recomposures from ‘an extended metaphysics-of-presence deficiency’ on human ontological-performance that can be traceable as of a notional-deprocrypticism ‘extended metaphysics-of-absence insight’ construed as historicity/ontological-eventfulness/ontological-aesthetic-tracing; and we can always grasp insightfully of human existential hyperbole-of-temporal-to-intemporal-ontological-performances from the prospective relative-ontological-completeness-of-reference-of-thought/relative-ontological-normalcy as of base-institutionalisation realisation of the hyperbole of recurrent-utter-uninstitutionalisation, universalisation realisation of the hyperbole of base-institutionalisation–ununiversalisation, positivism realisation of the hyperbole of universalisation–non-positivism/medievalism, and prospectively deprocrypticism realisation of the hyperbole of positivism/procrypticism. historicity/ontological-eventfulness/ontological-aesthetic-tracing as of notional-deprocrypticism perspective refers to the underlying idiosyncratic, intricate, compounded and pervasive succession of premeaningfulness/preframing-<metaphoricity-disposition—as-to-

psyche-induced-psychologism-of-existential-stake> as of notional-conflatedness/constitutedness-to-conflatedness from human shallow to deepening limited-mentation-capacity as of the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality as it reflects relative ontological-performance-as-of-its-broadest-implications of any {given consciousness's neuterising-induced-or-referentialism-induced}-reference-of-thought—devolving-teleological-structure-of-meaningfulness as its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue and as the registry-worldview's/dimension's reference-of-thought 'abstract teleological-structure/teleological-possibilities'; and it reflects any given registry-worldview's/dimension's specific institutionalisation-by-uninstitutionalisation-or-uninstitutionalised-threshold dialectical-thinking/dementing construct as a specific aesthetic trace of 'ontologically elevated-by-degraded-devolving-as-of-uninstitutionalised-threshold. historicity/ontological-eventfulness/ontological-aesthetic-tracing as of the notional-conflatedness of notional-deprocrypticism equally supersedingly enlightens the idea of holism which is often somewhat articulated as in the statement 'the whole is greater than the sum of its parts' but failing to specifically clarify that 'limited-mentation-capacity constitutedness conceptualisation construes of an 'ontologically-compromised-mediating,-as-of-its-specific-constitutedness that is relatively shoddy and incomplete' and generates virtuality-or-ontologically-flawed-construal when it construes of parts and whole in a given <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality and so as a derived/unoriginary mental-reflex as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity, whereas limited-mentation-capacity

conflatedness conceptualisation as of notional-deprocrypticism-as-preempting—
 disjointedness-as-of-reference-of-thought construes of a ‘non-mediating incisive as
 referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness
 profoundness/completeness’ by an incisive <formative>epistemic-totalising–renewing-
 realisation/re-perception/re-thought that further expands human grasp of the given
 <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-
 reality/ontological-veridicality as a non-derived/original mental-reflex of maximalising-
 recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-
 ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—
 as-so-being-as-of-existential-reality. The latter is effectively what relays the ontological-
 veracity of the <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-
 as-intrinsic-reality/ontological-veridicality implied axiomatic-construct as of
 completeness/profoundness subsuming the reality of the perceived whole and parts within the
 incisive conflatedness; pointing out that the fundamental issue is how human limited-
 mentation-capacity effectively construes intrinsic-reality/ontological-veridicality as of its
 profoundness/completeness. Consider in this particular regards the intrinsic-
 reality/ontological-veridicality reflected as akin to an engineering product like a jet engine
 wherein the conceptualisation is an incisive conflatedness that goes beyond the whole and
 parts of the jet engine to grasp a conceptualisation profoundness/completeness of required
 critical performances like fuel burn, maintenance cycles, robustness, etc. construed as of the
 articulated depth of the reference-of-thought of aircraft engine engineering science. This
 overall notional conception extends as well to the various ways by which human limited-
 mentation-capacity ‘accosts’ intrinsic-reality/ontological-veridicality, bringing about the
 various registry-worldviews/dimensions categorising/qualifying/tendentious/impulsive—
 ontologically-compromised-mediating,-as-of-their-specific-constitutedness induced

neuterising or prospectively deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness meaningfulness-and-teleology. That is, the deprocrypticism protensive-consciousness

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in its referencing of conflatedness, with no intermediating construct as of constitutedness, thus achieves ontologically-uncompromised-mediating,-as-of-conflatedness meaningfulness-and-teleology. While the occlusive/preclusive/warped/trepidatious-consciousnesses mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments by their successive intermediating categorising/qualifying/tendentious/impulsive constructs as of constitutedness on conflatedness induce their successively categorising/qualifying/tendentious/impulsive—ontologically-compromised-mediating,-as-of-their-respective-specific-constitutedness meaningfulness-and-teleology. This ultimately points to the centrality of the implications of the 'notion of limited-mentation-capacity' as of its deprocrypticism referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness as a notional conception in construing meaningfulness-and-teleology, while avoiding its ontologically-flawed constitutedness construals in terms-as-of-axiomatic-construct of the various neuterising. Hence the 'notion of limited-mentation-capacity' as it overcomes ontologically-compromised-mediating,-as-of-its-specific-constitutedness towards ontologically-uncompromised-mediating,-as-of-conflatedness is what is effectively and ontologically defining of issues of reference-of-thought of meaningfulness-and-teleology given that as of its ontologically veridical conflatedness it is the cumulative recomposuring of human limited-mentation-capacity as deepening limited-mentation-capacity that is behind the ontological-contiguity—of-the-human-institutionalisation-process itself, and also underlies temporal-to-intemporal individuations differentiation as shortness-of-register-of-meaningfulness-and-teleology-and-longness-of-register-of-meaningfulness-and-teleology as

of limited-mentation-capacity, and as this is so-conceptualised from the ontological-normalcy/relative-ontological-completeness-of-reference-of-thought perspective of deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. This equally underlies and is in sync with the notion of candidity/candour-capacity as a variance of the same as of notional-deprocrypticism ‘referentialism—ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound conceptualisation perspective’. It is the 'notion of limited-mentation-capacity' that as of its deficiency is falsely-composited by ‘ontologically-compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’ into ontologically-flawed constructs of neuterising. historicity/ontological-eventfulness/ontological-aesthetic-tracing as of the notional-conflatedness of notional-deprocrypticism highlights that humankind in its projected-or-anticipated relationship with ‘existence as-the-absolute-a-priori’ is rather in existential-extrication-as-of-existential-unthought, and not the full potency of existence; existential-extrication-as-of-existential-unthought construed rather as ‘shoddy-and-incomplete actualising in presencing—absolutising-identitive-constitutedness’ of the full potency of existence. Existential-extrication-as-of-existential-unthought refers to a registry-worldview’s/dimension’s overall historicity/ontological-eventfulness/ontological-aesthetic-tracing as of the notional-conflatedness of notional-deprocrypticism construct, wherein its <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construes beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of its ‘projected-or-anticipated-grandest-existential-axiomatic-construct’ as the absolute framework of ontological-performance-as-of-its-broadest-implications and thus failing to factor in the implications on its ontological-performance of its prior relative-ontological-incompleteness-

of-reference-of-thought as this induces <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives at its uninstitutionalised-threshold. Existential-extrication-as-of-existential-unthought thus highlights the overall constitutedness of humankind's access to existence given the 'imbricatedness/threadedness/recomposuring as of iterating-of-existential-instantiations ', such that humankind's axiomatic-construct/theory of existence/existential-reality/intrinsic-reality/ontological-veridicality as of its 'projected-or-anticipated-grandest-existential-axiomatic-construct as reference-of-thought—devolving-teleological-structure-of-meaningfulness' is rather as of various successive relative constitutedness implied with the successive institutionalisations, and explains a natural human mental-disposition to nihilism as of each of such institutionalisation's <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology—as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> at its uninstitutionalised-threshold in a mental-reflex aversion of an opened-construct-of-meaningfulness-and-teleology behind the overall ontological-contiguity—of-the-human-institutionalisation-process. Existential-extrication-as-of-existential-unthought as of the notional-conflatedness of notional-deprocrypticism equally implies a humankind outlier/originary/event-of-prospective-ontology-origination and effective maximalising-recomposuring-for-relative-ontological-completeness capacity for inducing the requisite psychoanalytic-unshackling registering-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-rather-as-dementing-and-decentered-to-the-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology and its alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic while construing prospective opened-construct-of-meaningfulness-and-teleology as dialectical-thinking-and-centered-to-the-prospective-institutionalisation's-categorical-

imperatives/axioms/registry-teleology-relative-ontological-completeness-of-reference-of-thought-in-authenticity, thus literally expanding human access to existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as to the existential possibilities that arise with successive institutional-cumulations or institutional-recomposures associated with the ontological-contiguity—of-the-human-institutionalisation-process. This thus divulges the essence of existence as ‘the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’. In other words existence is already given rather as of its potency, and the real problem of existence is humankind’s access to existential possibilities as of humankind’s limited-mentation-capacity. That is, human transcendence is what achieves existence as a ‘potent construct’, as the notion of existence-as-a-grounded-construct doesn’t-make-sense/is-unavailable for any specific human registry-worldview’s/dimension’s reference-of-thought as an epistememic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construct, including our positivism–procrypticism registry-worldview/dimension, as this will falsely imply that our reference-of-thought <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘developed enough’ as of Being-and-contemplation to have achieved the full potency of existence to then know what’s existence whereas in reality such <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag highlights human-subpotency/subpotent-mimetic-echoness-derivation-within-the-full-potency of existence. Thus our construal of existence can only be an ‘as of existence’ exercise that rather highlights human potential to transcend towards grasping existence/existential-possibilities; with that potency only instigated as of ontological-faith-notion-or-ontological-fideism—imbued-

Interestingly, from our vantage positivism/rational-empiricism perspective, we’ll certainly construe the supposed intradimensional resolution of existential issues of prior relative-ontological-incompleteness-of-reference-of-thought as of ontological-performance including virtue-as-ontology arising in recurrent-utter-uninstitutionalisation as intradimensional meniality-or-hyperbole and rather resolvable as of base-institutionalisation superseding projection/anticipation, and same with base-institutionalisation—ununiversalisation as intradimensional meniality-or-hyperbole and rather resolvable as of universalisation superseding projection/anticipation, and same with universalisation—non-positivism/medievalism as intradimensional meniality-or-hyperbole and rather resolvable as of positivism/rational-empiricism superseding projection/anticipation, but we won’t or hardly construe of the same as of our <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag about our positivism—procrypticism as it being of intradimensional meniality-or-hyperbole and rather resolvable as of deprocrypticism as preempting—disjointedness-as-of-reference-of-thought superseding projection/anticipation! This points to the flaw of a Heideggerian Dasein conceptualisation as it wrongly implies ‘humankind has any developed mental state as of Being-and-contemplation in any past-to-present epoch’ to ‘fully register as of that epoch’s metaphysics-of-presence’ what is existence/existential-possibilities not factoring Being conflatedness <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought as rather driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, and further in

contradiction to the notion of human <formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances). Existence is rather a ‘potency construct of transcendence as of human existential potential’ and not ‘a grounded construct for construing existence’ as wrongly implied/attempted with the Heideggerian Dasein notion, as all what ‘grounding’ does is to wrongly elevate the registry-worldview’s/dimension’s reference-of-thought in which such a construct is articulatedly grounded thus contradictorily undermining the possibility for transcendence by wrongly implying that the said registry-worldview’s/dimension’s reference-of-thought is of absolute ontological-performance, whereas it is deepening of human limited-mentation-capacity as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in inducing prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments that allows for prospective relative-ontological-completeness-of-reference-of-thought thus expanding human notion of existence/existential-possibilities. Anecdotally, the prophesying social scientists of their times who insist on the recurrence of the practices of the creed are ‘not stupid’ as they know very well that reference-of-thought–categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology are just that with respect to an animal of limited-mentation-capacity beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought who is bound to circularly elicit shortness-of-register-of-meaningfulness-and-teleology on such renewed reference-of-thought–categorical-imperatives/axioms/registry-teleology for meaningfulness-and-teleology and further denaturing them as of the prospective institutionalisation uninstitutionalised-threshold! In other words and as relevant with all other registry-worldviews/dimensions transcendental implications, base-institutionalisation meaningfulness-and-teleology cannot

truly be-grounded-as-explained to recurrent-utter-uninstitutionalisation as this wrongly implies the latter's reference-of-thought as of its reference-of-thought—categorical-imperatives/axioms/registry-teleology is a sound basis for construing the meaningfulness-and-teleology of base-institutionalisation inducing rather a circular-complexification of recurrent-utter-uninstitutionalisation reference-of-thought as it adopts by mental-reflex an incrementalism-in-relative-ontological-incompleteness mental-disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness mental-disposition and thus fails to fulfil the requisite registering-of-its-reference-of-thought-rather-as-dementing-and-decentered-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology and its alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics, which is what allows for transcendence to prospective base-institutionalisation reference-of-thought for cross-generational renewal as of prospective relative-ontological-completeness-of-reference-of-thought of the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality; but rather such unground articulation is one rather eliciting prospective metaphoricity as of its implied prospective existential reference. Transcendence implies that as of human <formative>epistemic-totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances), humankind has no 'absolute past-or-present ontological-completeness-of-reference-of-thought' for grounding the construal of meaningfulness-and-teleology of the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, as such pretence circularly turns into constitutedness at the given reference-of-thought uninstitutionalised-threshold; highlighting the fact that human potential attainment of

the deprocrypticism as preempting—disjointedness-as-of-reference-of-thought is actually a ‘perpetual transcendence’ as of notional-deprocrypticism as notional-preempting—disjointedness-as-of-reference-of-thought which points out that the various uninstitutionalised-thresholds from recurrent-utter-uninstitutionalisation to procrypticism are actually levels of disjointedness-as-of-reference-of-thought and that the various institutionalisations from base-institutionalisation to notional-deprocrypticism are actually levels of preempting—disjointedness-as-of-reference-of-thought all reflected as of notional-deprocrypticism. The validity of the construal of existence as-of-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness rather as transcendence is that in the state of human <formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances) humankind can only credibly adopt a ‘conflatedness exercise’ rather as of effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology in re-projection-or-re-anticipation to match existence as of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness given existential ‘imbricatedness/threadedness/recomposuring as of iterating-of-existential-instantiations ’ to further elevate its prospective relative-ontological-completeness-of-reference-of-thought of the-very-same-<formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality. This thus validates the notion that existence can only be construed as a transcendental conflatedness as of maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality and not as a

grounded constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity wrongly inducing <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Transcendence emphasises organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality underlying conflatedness pointing to the ‘false certainty and denaturing implications’ involved with knowledge construed mechanically as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity in a constitutedness and extricatory relationship with human <formative>epistemic-totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances), failing to factor in maximalising-recomposuring-for-relative-ontological-completeness driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Existence as of its potency implies that what underlies historicity/ontological-eventfulness/ontological-aesthetic-tracing as of the notional-conflatedness of notional-deprocrypticism is always the issue of ‘divulging prospective relative-ontological-completeness-of-reference-of-thought’ as of conflatedness, and so as the very essence of human limited-mentation-capacity relating to existence—as-the-absolute-a-priori-of-conceptualisation. Hence the very essence of a deprocrypticism institutionalisation is one that comes into terms-as-of-axiomatic-construct with existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness and as reflected in transcendence as of conflatedness in avoiding meaningfulness-and-teleology denaturing involved with grounded constitutedness

posturing. Operantly, the phenomenological quest for an underlying and superseding knowledge construct, construed here as an enabling construct of <formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance determination as of human <formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances), is fulfilled by the notion of existential-extrication-as-of-existential-unthought/nonextricatory-existential-preempting-of-existential-unthought as the construct that reflects any registry-worldview’s/dimension’s reference-of-thought historiality/ontological-eventfulness/ontological-aesthetic-tracing as of the notional-conflatedness of notional-deprocrypticism highlighting the affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking of its prospective relative-ontological-completeness-of-reference-of-thought as of the implications of its conflatedness as its given reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology and its constitutedness as of the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing of its given prior relative-ontological-incompleteness-of-reference-of-thought as of the-very-same-<formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality. This author’s notion of centered-<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology as ‘-<formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing’ fundamentally grasps that the Derridean critique of centered–epistemic-totalisation as

impossible to achieve and postulation instead of decentered-infinite-freeplay is actually a critique arising on the implied assumption of finite human limited-mentation-capacity as of its impossibility as finitely limited to come into the full terms of grasping the full potency of existence/existential-possibilities; but then this author construes that human limited-mentation-capacity is not finite as it deepens as of the possibility of transcendence enabled as of ontological-dementation/dialectical-dementation—stranding/attributional-dialectics thus involving paradigmatic/structural transformations/shifts of human limited-mentation-capacity reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ to grasp existence/existential-possibilities, such that as of notional-deprocrpticism or notional-preempting—disjointedness-as-of-reference-of-thought in reflecting the ontological-contiguity—of-the-human-institutionalisation-process retrospectively to prospectively, centered-<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology as of its attaining of ontological-completeness-of-reference-of-thought is/can-be achieved as ‘involving the superseding/transcending of successively defining human finitudes as the uninstitutionalised-thresholds/uninstitutionalised-thresholds towards attaining successive prospective relative-ontological-completeness-of-reference-of-thought as the institutionalisations’. This thus undermines the implications of a Derridean decentered-infinite-freeplay in its critique of ‘centered—epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance’ since such a criticism is based on assuming only a same registry-worldview’s/dimension’s reference-of-thought, and so-construed mainly because such a Derridean conception construes of centered—epistemic-totalisation as only within one registry-worldview’s/dimension’s reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, failing to

reflect the ontological-contiguity—of-the-human-institutionalisation-process as of notional-deprocrypticism implied paradigmatic/structural shifts of reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ overcome the limitation of ‘centered—epistemic-totalisation circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance’ within a same reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ by way of the successive prospective relative-ontological-completeness-of-reference-of-thought as enabling successive prospective reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ marked by the shift of ‘centered—epistemic-totalisation circularity of meaningfulness-and-teleology inducing relatively less and less deficient/flawed ontological-performance’ right up to the attainment of deprocrypticism ‘centered—epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance’; given that the ‘succession of institutionalisation apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument rules of the successive reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’s’ overcome retrospectively to prospectively the problem of human limited-mentation-capacity by its deepening thus inducing successive human transcendence of human finitudes as uninstitutionalised-thresholds/uninstitutionalised-thresholds. Here as well the Derridean postulation of decentered-infinite-freeplay in lieu of such a conceptualisation of a ‘projected ultimate centered—epistemic-totalisation circularity of meaningfulness-and-teleology of theoretically perfect/sound ontological-performance’, as implied by this author’s notion of ontological-normalcy/postconvergence, operantly displays the philosophical tradition problem of constitutedness as failing to project of the transformational implications of human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ for

successive prospective relative-ontological-completeness-of-reference-of-thought in bringing about successive registry-worldviews/dimensions as of conflatedness that prospectively ultimately grasps the centered-<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology ontological-performance in reflecting the ontological-contiguity—of-the-human-institutionalisation-process or notional-deprocrypticism. Despite such a Derridean decentered-infinite-freeplay conception being the most radical attempt hitherto to overcome the philosophical tradition constitutedness, it perfectly grasps the implications to meaningfulness-and-teleology ontological-performance of ‘centered—epistemic-totalisation as of circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance’ but rather as within a same horizon of meaningfulness-and-teleology ontological-performance. However, it fails to grasp that such a centered—epistemic-totalisation itself arises because an axiomatic-construct is a circularity of meaningfulness-and-teleology ontological-performance of the very same <formative>epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality it refers to, and so-implied by extension with respect to a given reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ a centered—epistemic-totalisation is rather the circular meaningfulness-and-teleology representation of the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, as the said reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ is ‘supposedly always the systemic and indefinite resolution’ of the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality. Now, the issue of a centered—epistemic-totalisation defect arises where the given reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ is ontologically-flawed/deficient as it

will systematically induce a ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology in relative deficient/flawed ontological-performance’ construed as of the uninstitutionalised-threshold of a registry-worldview’s/dimension’s reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’. But then human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) achieving prospectively of an ultimately theoretically perfect/sound reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ as of the full ontological-contiguity—of-the-human-institutionalisation-process as notional-deprocrypticism implies the circular ontologically-flawed/deficient implications of centered–epistemic-totalisation are done away with as of ontological-completeness with the <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought of the reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ of the-very-same-<formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, with such a conceptualisation of centered–epistemic-totalisation also construed as transcendental centered–epistemic-totalisation or extrapolated-centered–epistemic-totalisation or extrapolatory–epistemic-totalisation or transcendental–epistemic-totalisation and reflects the reality that a Derridean decentered-infinite-freeplay can also be construed as an interpolatory–epistemic-totalisation or interpolated-decentered–epistemic-totalisation. For instance, we can grasp that ‘traditional classical mechanics axiomatic-construct’ is a given ‘centered–epistemic-totalisation circularity of meaningfulness-and-teleology of ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of a prior relative-ontological-incompleteness of less ontological-performance of ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-

reality/ontological-veridicality/existential-reality', while with human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs brings about a new 'centered—epistemic-totalisation/circularity of meaningfulness-and-teleology of 'the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as we can do more things with the latter axiomatic-construct more-profound/grander meaningfulness-and-teleology ontological-performance; and interestingly, physicists will surely fancy that they could do better in ultimately grasping theoretically the full-potency of existence divulgeable as of 'the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' with an ambition for a theory of everything. However, a Derridean decentered-infinite-freeplay is nevertheless critical as a first step for breaking away from a prior centered—epistemic-totalisation of a very same <formative>epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality in relative deficient/flawed ontological-performance, and thus by extension with regards to the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality which is a given reference-of-thought, construed as 'reference-of-thought—devolving-teleological-structure-of-meaningfulness'; and for all practical matters this has been the way Derridean deconstruction has been commonly applied as in effect all our meaningfulness-and-teleology ontological-performance has been as of our positivism—procrypticism registry-worldview's/dimension's reference-of-thought-as-of-'reference-of-thought—devolving-teleological-structure-of-meaningfulness' horizon and such a Derridean decentered-infinite-freeplay is an inspired conception providing

the groundwork as it initiates the centered–epistemic-totalisation exercise for the insight of a futural *différance* as of the latter’s transcendental–epistemic-totalisation that underlies conflatedness in breaking with the philosophical tradition or human knowledge conceptualisation tradition or towards fulfilling the understanding of Being. In this regard talking about the physics example again, such a Derridean freeplay *différance* is akin to the ‘putting in question exercise’ that surrounds the cooperation/mutual-complementing-ideas-among-various-physicists leading up to the critical breakthroughs; which then establish such physics centered–epistemic-totalisation schemes as Newtonian physics and later on Theory-of-relativity and Quantum-mechanics, and today with respect to various theoretical efforts with the potential of leading to a physics Theory of Everything. Inherent to futural *différance* is the notion of <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, construed in the immediate-and-short-term as of ‘self-referencing’ as the uninstitutionalised-threshold temporal individuations circular undermining of the prospective institutionalisation reference-of-thought/structural/paradigmatic implied transformation/shift as transcendence as of prospective relative-ontological-completeness-of-reference-of-thought, as well as the idea of temporal individuations ‘syncretising’ that underlies a spiralling cross-generational increasing undermining of the uninstitutionalised-threshold reference-of-thought which is in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its ultimate cross-generational collapsing for the prospective institutionalisation’s reference-of-thought; and so as of prospective social-stake-contention-or-confliction dynamism with increasing social universal-transparency as of prospective relative-ontological-completeness-of-reference-of-thought of the prospective institutionalisation’s reference-of-thought. Insightfully again, this idea of

infinite-possibilities/circularity implied as of a Derridean infinite-decentered-freeplay of a given meaningful-frame/axiomatic-construct/model such as mathematical models/axiomatic-constructs circularity is familiar to physicists and other scientists who understand that there is no infinity in the real-world/existence and infinity showing up in mathematical models/axiomatic-constructs point to the fact that there is a circular or undefined or undecidable problem arising from poor human limited-mentation-capacity conceptualisation implying the given mathematical model/axiomatic-construct is in circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness as of the axiomatic-construct relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> in constitutedness, and thus a need for a more ontologically-complete mathematical model/axiomatic-construct that as of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) then resolves/overcomes the circularity/circular-existential-disjointedness-as-of-prior-relative-ontological-incompleteness reflected in the prior mathematical model/axiomatic-construct by the infinities-as-circular-or-undefined-or-undecidable with a new mathematical model/axiomatic-construct in relative ontological-contiguity as of conflatedness, and so as of the very same <formative>epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; and so because human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) induces paradigmatically/structurally grander human meaningfulness-and-teleology ontological-performance of human implicit-or-explicit constructed axiomatic-constructs of purviews/domains of construal-as-intrinsic-reality/ontological-veridicality, and this equally applies by extension to reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ as of the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-

reality/ontological-veridicality. It should be noted thus that an axiomatic-construct is as of an implied correspondence with the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality or <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, and it supersedes and is defining of logic which is rather the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as reflected with any given explicated axiomatic-construct in the same way that insight/intuition is reflected rather with regards to any given implicated axiomatic-constructs; with an axiomatic-construct such as an idea or a concept or a notion or a theory being any conception as of meaningfulness-and-teleology of supposed existential-implications correspondence. That is the traditional knowledge conception articulated as 'axioms of logic' is rather vague, with the appropriate articulation being rather 'logic of axiomatic-construct/reference-of-thought', as the axiomatic-construct/reference-of-thought is the effective human limited-mentation-capacity supposed correspondence relation with existence—as-the-absolute-a-priori-of-conceptualisation for human-subpotency possibilities for devolving meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, with increasing ontological-performance as of human transcendence; even though such a conception as 'axioms of logic' could be perceived rather as a meta-conception or more like a technical practicality akin to say the scaffolding of a building! In other words as the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions', logic and by extension mathematics imply elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity, whereas axiomatic-constructs as reflecting ecstatic-existence/the-

nature-of-the-world/conditions are construed in affirmation/projection/assertion/dueness-
 validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking
 as of maximalising-recomposuring-for-relative-ontological-completeness. But then as of
 ‘ontology of logic’ and ‘ontology of mathematics’ as their very own respective
 conceptualised meta-axiomatic-constructs as ontologies in terms of reflecting their
 philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-
 ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-
 enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, both logic and
 mathematics are construed practically as formalisations which are mainly as such constructs
 of faithful/reproducible syntaxisation on the supposed basis of ‘smarter and simpler
 articulations’ for the sake of succinctness, clarity and fungibility; however, without the
 implication of any other inherent transcendental-enabling/sublimating of such formalisations
 besides their succinctness, clarity and fungibility usefulness ‘thus-limitedly construed as their
 inherent meta-conceptualised ontological-veracity/axiomatic-construct of logic and
 mathematics transcendental-enabling/sublimating’. But then it is naïve to construe of
 mathematics, as logicians have tended to do, as essentially an exercise of mathematical
 formalisation. The fact is that mathematics have always been developed implicitly or
 explicitly in association with or inspired from the context/existential-contextualising-
 contiguity of other applied and transcendental-enabling/sublimating activities as of their
 axiomatic-constructs development and mathematics very own existential-reality of developed
 axiomatic-constructs applicative orientation, including developing together with heavily
 dependent mathematics domains like physics, engineering, other applied sciences and
 statistical studies. This latter situation which is more real than generally said and makes of
 mathematics ‘an <formative>epistemic-totalising-devolved—purview/domain-of-construal-
 as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs’

and more so than the ‘abstract romantic image portrayed as of the mere manipulation of numbers and forms’ as if not inspired as of existential-reality contextuality itself. Thus naively taking cue from the formalisation of mathematics as if it will enable the inherent transcendental-enabling/sublimating of any discipline is bound to lead to disappointment, as the inherent axiomatic-constructs as theories, concepts, notions and ideas of the existential domain in question have to be critically developed as of existential-contextualising-contiguity knowledge-reification for logic and mathematics to then be relevant as of a secondary tool or at best a concomitant tool. In this regards, the ‘truly mathematical proof’ (over and above any formal mathematical proof) is rather about validation/invalidation of any such mathematics as it can be so-demonstrable in the occurrence of existential phenomena/manifestations; even as such a mathematical demonstration is rather so ‘existentially nominal’ that such phenomenal/manifest veracity of mathematics is often for all practical purposes mostly overlooked by mathematicians when involved in their formalisation exercise including ‘formal proofs’ as to the fact that the existential validation/invalidation of mathematics is so nominally obvious that hardly any experimenting is warranted for confirmation and this existential nominalism can easily lead to a reductionist confusion that mathematics (as to its epistemic-conception phenomenal/manifest_subpotency-<in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence> with regards to the ontological-contiguity of existence’) is not priorly subject to existence—as-sublimating-withdrawal (and this very insight about the ‘existentially nominal’ sublimating-validation/desublimating-invalidation of mathematics as of a ‘very existentially nominal acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation as to the mere adequacy of formalised mathematics’ explains on the other hand why the mere introduction of mathematics, statistics and data in domains requiring

‘human corresponding-sublimation-inducing,-profound-and-creative acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation’ is not construed as sublimating-validation in such domains where such mathematics, statistics and data are rather ‘distracting-from and not-contributing-to’ the inherent domain’s epistemic-conceptions phenomenal/manifest_subpotencies-<in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence> given ‘human corresponding-sublimation-inducing,-profound-and-creative acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation’). In physics the Newtons, Leibnizes, Einsteins, Poincarés, Schrodingers, Bohrs had to elicit the transcendental-enabling/sublimating of the physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality created axiomatic-constructs with mathematics being accessory to the transcendental-enabling/sublimating. They didn’t just start to develop ‘patterns of mathematical equations’ without the prior insight about the physics domain and what to strive for, and actually from that ‘physics reality precedence perspective’ got the insight to further develop their relevant branches of mathematics. Nor do even pure mathematicians just go about constructing ‘mathematical patterns’ as of formalisation without striving to get insight and inspiration from existential-reality as transcendental-enabling/sublimating; and we can appreciate in this regards how the human mathematical disposition adjust from a classical reflex with regards to existential phenomena/manifestations that assume a non-classical character like statistical-constructs, quantum phenomena, black holes, etc. as to existence—as-sublimating-withdrawal. The naivety of logicism lies exactly in this respect of construing formalisation as most of what is

supposed to be achieved, and failing to grasp that when it comes to social reality its own transcendental-enabling/sublimating has to be ‘creatively construed’, and this in many ways explains the frustrated conclusion that will often then arise from such a naïve formalisation perspective that the philosophical exercise is not necessarily transcendental-enabling/sublimating, contrary to the precept of all other knowledge! Thus the conceptualisation of logic implied by any given registry-worldview/dimension reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ as of the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality points to the fact that the various registry-worldviews/dimensions operate their own conception of logic as of their prospective relative-ontological-completeness-of-reference-of-thought; as we can appreciate inherently as of metaphysics-of-absence that however deficient, that each registry-worldview/dimension does have its own sense of logic as of its self-conscious construed meaningfulness-and-teleology. The notion of an absolutely valid logic can only arise on the backdrop of an absolutely valid reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ as implied by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension institutionalisation, wherein such a logic is its ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. In this regard, the link-up of all the concepts and notions articulated herein by this author speaks of ‘suprastructural logic’ that is critically articulated as of a prospective notional-deprocrypticism psychoanalytic-unshackling metaphysics-of-absence and conflatedness, and further subsumed in the word candidity or candour-capacity. Such ‘suprastructural logic’ is even more damning about the naïve

constitutedness construal of meaningfulness-and-teleology that besets the knowledge and philosophical tradition. Such a conception of logic and logical analysis points to the <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety and vagueness involved when construing logic and logical analysis as absolute without any explicitly implied or formulated reference-of-thought, construed as ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’; usually in our case, in a non-transcendental <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that is unconsciously implied as of our positivism–procrypticism registry-worldview/dimension. Insightfully, such a ‘suprastructural logic’ undermines metaphysical notions like good, essence and truth as being naively construed as of a given registry-worldview’s/dimension’s <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology, and in lieu emphasises Being construed as ontology’s-directedness-as-Being which best reflects and captures meaningfulness-and-teleology as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’. Being as of its implied notional-deprocrypticism’s conflatedness provides elucidation to such question as: what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of each registry-worldview/dimension,

and it is rather the emanant insight of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that carries the prospective transcendences which are the resolution of the successive prior registry-worldview's/dimension's uninstitutionalised-threshold vices-and-impediments; and so by successive Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism. Being construed as of ontology's-directedness-as-Being thus enables the superseding of <formative>epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Further, the fact is that it is rather axiomatic-constructs whether explicit or implicit that are supposedly in a meaningfulness-and-teleology correspondence relation withan epistememic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality as of their given meaningfulness-and-teleology ontological-performance as validated by ontological-primemovers-totalitative-framework; so-construed as of the implications of human limited-mentation-capacity when developing axiomation-constructs, with the latter subject to their transcendence when prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought avails prospectively with regards to their meaningfulness-and-teleology ontological-performance. The implications here as well are that implicit axiomatic-constructs like analogies and supposed intuitions/insights that do not reflect/align as of the coherence/contiguity of superseding—oneness-of-ontology implied as of the full-potency of existence coherence/contiguity, are ontologically naïve and vague. Thus axiomatic-constructs

ontological-veracity are dependent on relative ontological-contiguity; as axiomatic-construct/reference-of-thought in relative ontological-contiguity of <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality. An axiomatic-construct is in such relative ontological-contiguity by its conflatedness as of the coherence/contiguity of superseding—oneness-of-ontology implied as of the full-potency of existence coherence/contiguity. An ‘axiomatic-construct/reference-of-thought of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> as of an epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ highlights two points of failure/as-discontinuity of meaningfulness-and-teleology ontological-performance, having to do with its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument unsoundness-or-inauthenticity and by derivation the aposteriorising/logicising/deriving/intelligising/measuring; such that a more ontologically-complete ‘axiomatic-construct/reference-of-thought in relative ontological-contiguity as of the very same <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ exists rather beyond the scope of construal of meaningfulness-and-teleology of the prior ‘axiomatic-construct/reference-of-thought of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> as of the very same <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Thus the relationship between a prospective institutionalisation and the uninstitutionalised-threshold is one of relative ontological-contiguity—by—notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> of their differing references-of-thought as of the-

very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality; for instance, with regards to the relative ontological-contiguity of reference-of-thought implied as of base-institutionalisation over the relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> of reference-of-thought implied as of recurrent-utter-uninstitutionalisation, as of their differing references-of-thought and thus implied logic with regards to the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, reflected as of relative mutual unintelligibility. In axiomatic-construct terms, it is ‘mentally-unsound/demented and by derivation illogical’ to be insisting on articulating notions of relevance to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs like space-time or quanta in terms of ‘traditional classical mechanics axiomatic-construct’ as of their respectively corresponding relative ontological-contiguity and relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>, and so with regards to ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. Such mutual unintelligibility, with regards to reference-of-thought, speaks of differing ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-construct’ of the differing references-of-thought, with the traditional philosophical and knowledge anti-psychologism stance fundamentally grounded on a mix-up about the nature of ‘axioms wrongly construed as elements of logic’ as implied with statements like ‘axioms of logic’ rather than the fact that axiomatic-constructs are ‘ontological wholes of correspondence’ as of supposed correspondence with <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality and thus carry transcendental-enabling/sublimating

implications as of human limited-mentation-capacity-deepening-(<formative>epistemic-
 totalisingly,-as-to-existence—as-sublimating-withdrawal), whereas logic and logical analysis
 is rather the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-
 existence/the-nature-of-the-world/conditions’ and at best yields formalisations grounded on
 the implied ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as
 axiomatic-construct’ but doesn’t reify meaningfulness-and-teleology as knowledge which can
 only arise as of the ‘maximalising-recomposuring-for-relative-ontological-completeness
 affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-
 validating-measuring/dialectical-thinking of
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-
 construct’. Such a logicism disposition is rather in constitutedness and is behind such naïve
 contention that philosophy doesn’t carry transcendental implications and actually undermines
 other approaches that strive for transcendental-enabling/sublimating by way of conceptual
 patterning arguments blinded to transcendental implications of knowledge as derived from
 existence—as-the-absolute-a-priori-of-conceptualisation. In the bigger scheme of things, this
 author holds that the deepest ‘phenomenological transcendental-point-of-departure handle’ in
 the conception of meaningfulness-and-teleology ontological-performance as of transcendence
 reflected by metaphysics-of-absence is wholly sufficient as of human limited-mentation-
 capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-
 withdrawal) in accounting for ‘intemporal ontological-faith-notion-or-ontological-fideism—

 veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-

contiguity of reference-of-thought with regards to the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality. This author phenomenological transcendental conception is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant implications construing/conceptualising in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, not as an external speculative dialectics, but as a wholly internal natural dialectics in conflatedness as of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). Such that human phenomenological <formative>epistemic-totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances) is the ‘complete scientific archaeological depth’ for grasping ontology and Being as of the conflatedness of human limited-mentation-capacity implications construed from notional-deprocrypticism perspective as historicity/ontological-eventfulness/ontological-aesthetic-tracing, and consequently doesn’t carry any external ideological implication but rather for the inherent ontological and Being implications. Further as of such phenomenological transcendental conflatedness, there is no issue about existence itself as it is pre-given, as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness, but rather an issue to humankind arising as of human-subpotency in the full-potency of existence with all the problem of existence being the issue of humankind’s limited-mentation-capacity implications as failing Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of ontology’s-directedness-as-Being. The phenomenological insight here about the nature of ‘existence as so construed as of

ontology's-directedness-as-Being' is that Being is the conflatedness as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation selectivity inherent in existence that rather skews presence states towards the 'ontological statistical-exception' of intemporality/longness over temporality/shortness possibilities, thus rendering existence as of relative teleological orderliness and not teleological chaos in the case were all ontological-possibilities as of temporality-to-intemporality were to be arising in equivalence/equal-measure. Thus, such ontology's-directedness-as-Being conflatedness <formative>epistemic-causality-as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity as of maximalising-recomposuring-for-relative-ontological-completeness existentially supersede abstract/imagined/misconstrued/virtual constitutedness possibilities as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity implications that are effectively as of non-existence. The further implication is that human 'prior existential-reality insight as arising by conflatedness as of the coherence/contiguity of ontology's-directedness-as-Being' rather 'points to the ontological-veracity of prospective existential-reality as of conflatedness upholding prospective coherence/contiguity of ontology's-directedness-as-Being'; wherein as of human-subpotency the ontological-veracity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as leading up to our present positivism/rational-empiricism registry-worldview/dimension speaks of a conflatedness as of successive opened-constructs-of-meaningfulness-and-teleology superseding <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> and from which Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology exercise we can't as of soundness-or-authenticity exculpate

ourselves to then pretend ours is the registry-worldview/dimension reference-of-thought that is non-transcendable as of our <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, when the insight of prospective transcendence implications as of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought avails, and so as the conflatedness upholding prospective coherence/contiguity of ontology's-directedness-as-Being. This further explains why there is need for corresponding Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with respect to human technical development, and as with prior technologies future technologies will necessarily imply renewed human self-consciousness which is not by itself a given and needs to be 'thought through and effectively conceptualised' with respect to the future implications of human development, nuclear weapons knowledge, electronic communication, artificial intelligence, etc. as 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity' is subject to epistemic-decadence as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. Such 'ontological statistical-exception' of intemporality/longness as of ontology's-directedness-as-Being permeates all existential processes including life itself. This explains why the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness mental-disposition behind the 'inventing' of prior institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—

as-so-being-as-of-existential-reality construed as prior ontology's-directedness-as-Being is necessarily the requisite mental-disposition for the 'inventing' of prospective institutionalisation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as prospective ontology's-directedness-as-Being; and so, overcoming temporal/shortness-of-register-of-meaningfulness-and-teleology on <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of reference-of-thought—categorical-imperatives/axioms/registry-teleology as of uninstitutionalised-threshold failing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Ultimately, phenomenology is all about grasping the conflatedness of ontology's-directedness-as-Being. Furthermore, just as a transcendental-enabling/sublimating biological science in relative ontological-contiguity of reference-of-thought will dissociate modern day heredity DNA genetics as of its theoretical, conceptual, methodological, operant and applicative implications from say 19th century Mendelian heredity however its inherent merits, and will not naively purport to analyse the former on the grounds of the latter which as axiomatic-construct is in relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> on the basis of a naïve conceptual patterning implied as of the common term 'heredity'; this author likewise is very much critical and averse to such conceptual patterning mental-reflexes imbued in traditional non-transcendental philosophical and knowledge analysis all too ready to construe and articulate meaningfulness-and-teleology in sophistic/pedantic conceptual patterning terms overlooking transcendental-enabling/sublimating implications, and failing to fathom that conceptual patterning is no substitute for transcendental-enabling/sublimating work required for all knowledge notwithstanding setbacks and failures that may be involved, given the reality that human meaningfulness-and-teleology ontological-performance arises as

an exercise of human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity of the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality or <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality!

Consider for instance criticisms often levied against post-structuralism and specifically Derridean deconstruction as simply convoluted expressions of familiar and trite ideas. But then the effective transcendental-enabling/sublimating insight as of their applications arising in the social sciences and literal studies clearly demonstrate otherwise. Further many such critiques have tended to be naïve about what passes for theory whereby naïve conceptual patterning of general knowledge are articulated devoid of ‘new theory’, with little or no transcendental-enabling/sublimating implications, which in reality is nothing more than a sophistry of argument from authority. This conception of relatively profound and complete axiomatic-constructs/reference-of-thought in ontological-contiguity can equally be demonstrated in graphical terms as a problem ‘not along the curve created-by-human-limited-mentation-capacity’ in relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> of axiomatic-construct but rather a problem arising as of the need for ‘a change of the curve to-be-created-by-deepening-human-limited-mentation-capacity’ in relative ontological-contiguity of axiomatic-construct for grander human meaningfulness-and-teleology ontological-performance, as of the very same <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. The <formative>epistemic-totalising-renewing-realisation/re-perception/re-thought involves taking cue from existence/existential-contextualising-contiguity/contexts as of existential-instantiations

imbricatedness/threadedness/recomposuring in a maximalising-recomposuring-for-relative-
 ontological-completeness exercise as of ontological-faith-notion-or-ontological-fideism—
 imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-
 existential-reality; wherein say with a demand curve, the insight as of human limited-

 sublimating-withdrawal) of a significant rise in consumers’ salaries implies that everything
 else being equal the demand curve-axiomatic-construct will shift to the right as of relative
 ontological-contiguity. The notion of axiomatic-construct in ontological-contiguity arises out
 of its existential completeness and profoundness, for instance the axiomatic-construct in
 ontological-contiguity as concept of a bicycle arises by the completeness and profoundness of
 the bicycle in its existential wholeness of functionality and contents as its ontological-
 contiguity. Ontological-contiguity rather highlights relative perspectives as of ontological-
 normalcy/postconvergence depths of axiomatic-construct/reference-of-thought of construal;
 which for instance renders the idea of general relativity in relative ontological-contiguity and
 newtonian physics in relative notional-discontiguity/epistemic-discontiguity-⟨mentally-
 aestheticised_dementing—qualia-schema⟩ rather as uncorrelated, whereas a notion of
 ‘continuity of ontology’ as is implied by ‘ontological-continuity as of relative ontological-
 continuity and relative notional-discontiguity/epistemic-discontiguity-⟨mentally-
 aestheticised_dementing—qualia-schema⟩’ will seem to imply correlatedness by the very
 nature of the term continuity. Ultimately, the overall analysis above points out that this is not
 an inherent ontological-as-of-the-full-potency-of-existence problem but rather a problem of
 human-subpotency as of its limited-mentation-capacity that is resolvable by the deepening of
 human limited-mentation-capacity as of ontological-dementation/dialectical-dementation—
 stranding/attributive-dialectics with respect to reference-of-thought; as contrary to the
 ‘Derridean différance decentering’ freeplay that is entrapped in circularity of meaningfulness-

and-teleology on the wrong implied assumption of the same perpetual horizon as registry-worldview/dimension reference-of-thought so-implied as of our positivism mental-disposition, a ‘futural différence’ recognises that human limited-mentation-capacity transcendence brings about prospective relative-ontological-completeness-of-reference-of-thought, and thus it centers-as-dialectical-thinking the prospective institutionalisation’s reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ as of its prospective relative-ontological-completeness-of-reference-of-thought to override the circularity as notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> of meaningfulness-and-teleology implications of the uninstitutionalised-threshold reference-of-thought-as-of-‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ as of its prior relative-ontological-incompleteness-of-reference-of-thought with respect to the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, and thus broadening human-subpotency in the full-potency of existence/existential-possibilities as implied retrospectively to prospectively with the ontological-contiguity—of-the-human-institutionalisation-process as of notional-deprocrypticism. What underlies such a centered-epistemic-totalisation as of its transcending nature, is that given humankind’s limited-mentation-capacity as of human-subpotency in its <formative>epistemic-totalising-thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances) with respect to the full-potency that is the ‘inherent centered-epistemic-totalisation-as-existence’, humankind devises its meaningfulness-and-teleology as of its requisite human-subpotency ontological-performance to construe of the ‘inherent centered-epistemic-totalisation-as-existence’ by way of ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness as of implicated-and-explicated reference-

Fourthly cross-generationally, the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

Thus the deprocrypticism ‘phenomenological transcendental-point-of-departure handle’ thus warrants a superseding meaningfulness-and-teleology ontological-performance as-decomplexifying/uninhibiting-(as-elevated-devolving-as-of-prospective-institutionalisation) our positivism–procrypticism occlusive Being premeaningfulness/preframing-<metaphoricity-disposition—as-to-psyche-induced-psychologism-of-existential-stake>’. This overall deneuterising conception of transcendental centered-<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology ontological-performance is reflected notionally as of notional-deprocrypticism, underlying that the successive registry-worldview's/dimension's institutionalisations are always about preempting ‘their successive types of disjointedness-as-of-reference-of-thought’ up to its theoretical preempting with conceptual deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so as of successive human limited-mentation-capacity prospective relative-ontological-completeness-of-reference-of-thought as of ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ of the successive institutionalisations. Basically human existential-extrication-as-of-existential-unthought is operantly construed as historicity/ontological-eventfulness/ontological-aesthetic-tracing as of the notional-conflatedness of notional-deprocrypticism underlying the idiosyncratic, intricate, compounded and pervasive mimetic dynamism of human conflatedness and human constitutedness, defining any given registry-worldview’s/dimension’s meaningfulness-and-teleology as of its underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought beyond its <formative>epistemic-totalising–self-referencing-syncretising; with such ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ maximally/most-profoundly/most-completely construed as of metaphysics-of-absence insight over presence institutionalisation reference-of-thought as implying meaningfulness-and-

teleology is as of a transcendental level of appreciation beyond an epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasitic-drag temporal-dispositions thus divulging the conflatedness of existence/existential-possibilities as of prospective institutionalisation reference-of-thought. Such an existential-extrication-as-of-existential-unthought phenomenological construal obviously goes ‘beyond our ordinary intradimensional <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasitic-drag framework of phenomenological contemplation’ in drawing out the full transcendental implications of human <formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances) from a prospective notional-deprocrpticism perspective as the full depth of <formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrpticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance; as it is akin to how we can imagine ‘budding science’ in prior non-positivism registry-worldviews/dimensions say in the ancient and medieval worlds but grasping that you really get to systemic scientism rather in a positivism/rational-empiricism registry-worldview/dimension as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights construed as positivism/rational-empiricism ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’, reflected as of positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules. Such a phenomenological construal as of human <formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrpticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance thus goes beyond a grounded conceptualisation and rather involves a psychoanalytic-

unshackling construal as it reflects an epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance in the sense that the 'normal intradimensional mental-reflex' of representing the uninstitutionalised-threshold of the prior transcended registry-worldview/dimension as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives) or a-registry-worldview's-or-dimension's-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of <formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing is overridden to attain full ontological elucidation by the <formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance involving the uninstitutionalised-threshold reflection as dementing-and-decentered-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology in lieu of the nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives) or a-registry-worldview's-or-dimension's-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of <formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing. Furthermore, notional-deprocrypticism as the ultimate registry-worldview/dimension by notionally undermining human disjointedness-as-of-reference-of-thought will factor in that since successive registry-worldviews/dimensions institutionalisations articulations of reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity-or–

historicity/ontological-eventfulness/ontological-aesthetic-tracing as of extended metaphysics-of-absence conceptualisation and as of the insight of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. The latter highlights the recurrence of such ‘uninstitutionalised-threshold phenomena’ as <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> and institutionalised-being-and-craft. For instance, the successive registry-worldviews/dimensions institutionalisations conceptualisation of meaningfulness-and-teleology have arisen as secondnature constructs that have substituted for their uninstitutionalised-threshold free-for-all <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> framework, such that many a subject matter domain like the heavens, forces of nature, material nature, social laws, etc. are now effectively construed socially as of institutional and formal deferential-formalisation-transference as abstract intemporal/ontological-driven conceptualisation as of respectively formal religion, formal science, legal system, etc. voiding free-for-all construals as of temporal social-aggregation-enabling teleological dispositions as of respectively animistic dispositions, alchemic and essences-driven explanation of nature, crude mob justice, etc. Insightfully, as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, anthropologists are very much aware that the social diffusion of new transcendental-enabling/sublimating practices into a given society are more likely to be adopted as of the society’s institutional and formal percolation-channelling-

<epistemic-totalising-reoriginariness/reorigination-in-conflation> framework than as of an
 <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-
 residuality/spirit-drivenness ‘direct convincing’ at individuals-level underlying deferring to
 institutional and formal meaningfulness-and-teleology as of the need for profoundness and
 rigour that doesn’t avail in ordinary thought for transcendence. Likewise, on occasion in the
 face of prior institutionalisation established and perceived vested interest such intemporal-as-
 ontological meaningfulness-and-teleology could be ontologically undermined as of
 institutionalised-being-and-craft. Consider in this regard Establishment efforts undermining
 the Diderot-led Encyclopédistes project. Furthermore, every registry-worldview/dimension
 relates to its value construct as of its prior relative-ontological-incompleteness-of-reference-
 of-thought constitutedness as more or less absolute, and doesn’t factor in that its prior
 relative-ontological-incompleteness-of-reference-of-thought is a structural/paradigmatic
 deficiency inducing the <formative>epistemic-totalising-self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag of its value construct. But then
 prospective institutionalisation necessarily implies a notion of prospective value construct as
 of its prospective relative-ontological-completeness-of-reference-of-thought conflatedness
 which will be unintelligible to the prior value construct, such that it is only a sense of
 intemporal consummation that drives transcendental dispositions as it is paradoxical to expect
 that what is in need for transcendence acts as transcended, as transcendence is inevitably and
 so across all registry-worldviews/dimensions a state of paradoxical conflictedness as more
 profoundly involving a cross-generational meaningfulness-and-teleology psychoanalytic-
 unshackling than a grounding conceptualisation! Furthermore, both the prior
 institutionalisation value construct and the prospective institutionalisation value construct are
 their respectively given centered–epistemic-totalisation-facticity of meaningfulness-and-
 teleology, with transcendence conflictedly implying overriding the prior institutionalisation’s

centered—epistemic-totalisation-facticity for the prospective institutionalisation’s centered—epistemic-totalisation-facticity. But then ontological-contiguity—of-the-human-institutionalisation-process is an empirical fact, and thus the resolution of this transcendence paradox is rather reflected by the dynamics of human positive-opportunism as of human <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as social universal-transparency avails with respect to social-stake-contention-or-confliction, wherein while in the immediate-and-short-term human ‘self-referencing’ will seem to imply that it is almost impossible to transcend from a given social conventioning centered—epistemic-totalisation facticity but cross-generationally human ‘re-conventioning whether driven by a sense of pure ontology as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality or otherwise with say cultural-diffusion’, as ‘syncretising-effecting’ on meaningfulness-and-teleology with respect to social-stake-contention-or-confliction induces human transcendence. Consider in this regard historical transcendence elicited by cultural diffusion whether with respect to trading or invasion or voyages of exploration. The fact is a social-setup is structurally/paradigmatically a framework where individuals are naturally involved in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities, and thus individuals and social groups are not in an absolutely given/set self-referencing centered—epistemic-totalisation-facticity of meaningfulness-and-teleology within their social-setup and are predisposed on critical occasions as of syncretising-effecting to ‘reinvent’, circumvent or adapt as to what they perceive as optimum existential possibilities, such that a social-setup is already involved internally however restricted in its very own reinvention/circumventing/adaptation as of its very own internal ‘self-referencing and

syncretising-effecting construed as <formative>epistemic-totalising–self-referencing-syncretising’ of meaningfulness-and-teleology with regards to perceived social-stake-contention-or-confliction; and it is this element that enables all human societies to have a minimal opening/overture/receptivity to each other, including at the very extreme between an industrial age society and a hunter-gatherer society. Without such a structural/paradigmatic ‘self-referencing and syncretising-effecting construed as <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human nature’, both internal social transformation however lethargic and cultural diffusion will be basically impossible, and <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag induced transformation arises because human perceived social-stake-contention-or-confliction drifts within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities. In this regard, the rapid transformation implications of cultural diffusion arise because it makes relatively immediately available to individuals and social groups a comprehensive set of options however limited the nature and speed of their adoption. This syncretising-effecting mechanism ultimately explains why cross-generational transcendence occurs notwithstanding a seemingly self-referencing centered–epistemic-totalisation-facticity of meaningfulness-and-teleology within a given social-setup in the immediate-and-short-term. Transcendence as of prospective relative-ontological-completeness-of-reference-of-thought occurs because structurally/paradigmatically it is social-dispositions and mental-dispositions of intemporal-as-ontological nature as of longness-of-register-of-meaningfulness-and-teleology given their supposedly coherent ontological-commitment as of more profound ontological-primemovers-totalitative-framework validation as of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-

epistemic-conflatedness, even if outlier, that are most likely to be syncretised cross-generationally as providing the most overall positive-opportunism by their relative universal projection implications and are formally-and-overtly assumed, and so over temporal-as-ontologically-flawed social-dispositions and mental-dispositions which are more or less formally-and-overtly unassumed as of their temporal denaturing nature or poor universal projection. However, such a conception of supposedly coherent ontological-commitment is not actively contemplated socially but occurs latently and passively with any given registry-worldview's/dimension's institutionalisation meaningfulness-and-teleology as its inherent social-dispositions and mental-dispositions are rather as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought with regards to such transcendental implications! Despite the fact that all social-setups tend to be surreptitiously permeated with individuals temporal/shortness-of-register-of-meaningfulness-and-teleology social-dispositions and mental-dispositions of suboptimal ontological implications for social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview's/dimension's institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level's reference-of-thought—categorical-imperatives/axioms/registry-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations. It may thus seem from within just one human generation perspective that the underlying human metaphoricity for transcendence is rather marginal especially when not associated with any external cultural diffusion. However, human metaphoricity as of cultural transformation had tended historically, in the main, to ebb in peaks and lows, and so as of the relative universal-transparency about such metaphoricity instigative reproducibility—mathesis/motif/throwtness-disposition,—as—reproducibility-of-

aestheticisation direct, indirect and/or devolving implications. The fact that individuals in a social-setup are already involved internally however restricted in its very own reinvention/circumventing/adaptation in a dynamic relationship of perceived social-stake-contention-or-confliction striving to draw in various ways the optimum as of perceived existential possibilities and is thus of a minimal opening/overture/receptivity to internal and external metaphoricity, also critically speaks to the fact that any social-setup is only able to hold together because of supposedly coherent ontological-commitment that is subject to existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness validatory ontological-primemovers-totalitative-framework. As of its circularity, the lack or poorer cause-and-effect determinism of any such supposedly coherent ontological-commitment threshold of a social-setup meaningfulness-and-teleology' allows for the possibility for prospective metaphoricity to reconstrue-and-redefine the social-setup meaningfulness-and-teleology. Such prospective metaphoricity possibility cannot be preempted because even the social-setup conventioning in its functional operation of meaningfulness-and-teleology needs this supposedly coherent ontological-commitment in order to affirm itself over any spontaneously arising disruptive meaningfulness-and-teleology that may be articulated by individuals or groups, with the result that a social-setup ever always exposes itself to prospective metaphoricity in one way or the other when such spontaneously arising disruptive meaningfulness-and-teleology is not of poorer but rather of a superseding ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity as of the social-setup given supposedly coherent ontological-commitment. We can consider in this regard that an animistic non-positivistic or medieval non-positivistic social-setup will certainly imply a supposedly coherent ontological-commitment respectively as of superstitious spiritualism meaningfulness-and-teleology or

scholasticism pedantic dogmatism meaningfulness-and-teleology, as of the given social-setup
 ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ in
 its capacity to demonstrably and objectively uphold and function going by its specific
 registry-worldview/dimension as of superstitious spiritualism or scholasticism pedantic
 dogmatism. It is exactly this ‘self-assuredness-of-authenticity with respect to its social-stake-
 contention-or-confliction’ that equally makes available the possibility for prospective
 metaphoricity to demonstrably undermine the implied supposedly coherent ontological-
 commitment of such prior social-setups registry-worldview/dimension meaningfulness-and-
 teleology, and so as of the prospectively induced ontological-primemovers-totalitative-
 framework superseding meaningfulness-and-teleology as from existence-potency-

 of relative-ontological-completeness-of-reference-of-thought by way of ontological-

 indirect and/or devolving implications of prospective metaphoricity and by that token elicit
 sophistic/pedantic inclinations to such prospective metaphoricity meaningfulness-and-

 within the social deferential-formalisation-transference framework wherein it is driven by a
 sense of positive-opportunism as of particular and general social interest. That said, a social-
 setup is ever always ‘existentially invested’ to a given registry-worldview/dimension and the

 prospective universalisation antinihilism meaningfulness-and-teleology is basically nothing
 and worthless, same with universalisation–non-positivism/medievalism and prospective

development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism. Explaining in many ways why the elicitation of value as of prospective secondnature institutionalisation rather occurs as of the superseding of <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated—temporal-intemporality. Ultimately, prospective metaphoricity in a reflection of the individual-as-receptable-of-temporal-to-intemporal-individuations realistically implies that it is rather fundamentally a question of grasping the mechanism that tips the balance towards human intemporality/longness and subsequent prospective institutionalisation which is ontologically sufficient for prospective ontological-effectiveness, rather than a naïve engagement as if the human is all-essentially intemporal-as-of-an-absolute-ontological-commitment-disposition. More critically, such a conception of prospective metaphoricity cognisant of the decisiveness of deferential-formalisation-transference for institutionalisation and thus subsequent social percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>, come to grasp that sophistic/pedantic predispositions are the more salient entrenched interests beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought with respect to prospective metaphoricity as of the implications of such undermining of social deferential-formalisation-transference. In this regard, the sophistic/pedantic barriers to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism metaphoricity implications are necessarily spurious and associated with our positivism—procrypticism institutional-being-and-craft as of the direct, indirect and/or devolving prospective metaphoricity implications. We can appreciate in this regard that for the medieval-scholasticism-pedants—ideal-type-or-individuation, it doesn't matter that budding

positivism can be demonstrated as more ontologically pertinent as of ontological-primemovers-totalitative-framework, so long as it is socially and institutionally credible to uphold non-positivism meaningfulness-and-teleology in effect by undermining its deferential-formalisation-transference. It is with regards to such sophistic/pedantic disinclination to prospective metaphoricity that the latter elicits contortioning gesturing, wherein for instance Socrates with respect to the sophists—ideal-type-or-individuation (as we can appreciate that however say a Protagoras engagement with Socrates may project coherence as of his contextual appreciation of Socrates predisposition for coherence, this doesn't exclude the possibility of a 'floating sophistic' inclination that simply adjusts to its interlocutor thus undermining in the bigger picture the notion of knowledge as of universal coherence idealisation, or still maybe Protagoras is just at the lower end of the sophists—ideal-type-or-individuation) and budding positivists with respect to medieval-scholasticism-pedants—ideal-type-or-individuation (as we can appreciate that the recognition and then censure and then banning of Copernicus's heliocentric world work or engagement with Galileo's support of heliocentrism then his persecution for publishing, rather speaks paradigmatically of the covert/underhanded nature of the medieval establishment pedantic disposition as of the implications of ideas undermining medieval dogma as of social-stake-contention-or-confliction) construe of such sophistic/pedantic disinclination as implying notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> with their prospectively implied metaphoricity; with the consequence that there can't be common/mutual aposteriorising/logicising/deriving/intelligising/measuring as of dialogical-equivalence and intellectual-and-moral-equivalence and inherently so because of the sophists—ideal-type-or-individuation and medieval-scholasticism-pedants—ideal-type-or-individuation inauthentic/unsound apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of

 of an epistemic/notional possibility of correspondence, as of the <formative>epistemic-

 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and onto, that
 together effectively make human transcendence and the ontological-contiguity—of-the-
 human-institutionalisation-process possible given that it immanently enables the possibility
 of successive human prospective relative-ontological-completeness-of-reference-of-thought
 as of the successive registry-worldviews/dimensions institutionalisations. In other words, it is
 human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that ultimately
 ‘vouches’ for every given registry-worldview’s/dimension’s institutionalisation at its
 uninstitutionalised-threshold for the possibility of a correspondence between human limited-

mentation-capacity and the ‘inherent centered–epistemic-totalisation-as-existence’, as of Being orientation of pursuing-and-attaining ontological-completeness-of-reference-of-thought. It is only such a conflatedness perspective as of notional-deprocrypticism that can articulate a conceptualisation of meaningfulness-and-teleology ontological-performance as of a notional-correspondence to existence/existential-possibilities, thus avoiding <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misconstrual as of constitutedness. Insightfully with respect to human temporality/shortness including postlogism and conjugated-postlogism and as reflected by psychopathy and social psychopathy in our positivism–procrypticism, the conflatedness of notional-deprocrypticism points out that given human limited-mentation-capacity its ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness as of implicated-and-explicated reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue’ as of institutionalisation, is subject at its uninstitutionalised-threshold to human temporality/shortness structural/paradigmatic denaturing (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) undermining meaningfulness-and-teleology ontological-performance due to lack of social universal-transparency. This arises because fundamentally as of notional-correspondence with existence, a registry-worldview’s/dimension’s institutionalisation in prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology ontological-performance is ultimately rather vouching of such a notional-correspondence with existence on the basis of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-

This latter is only undermined driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of prospective human limited-mentation-capacity prospective relative-ontological-completeness-of-reference-of-thought ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness as of implicated-and-explicated reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue’ construed as prospective institutionalisation, by its greater social universal-transparency. Again, the latter institutionalisation’s meaningfulness-and-teleology ontological-performance is equally vouched by transcendently-complementing ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality at its given

 dialectics contextual ontologically contiguous transitioning construal of meaningfulness-and-
 teleology ontological-performance that anticipates and accounts for human inherent

intemporality/longness and temporality, purports to avoid wrong elevation of temporality/shortness in madeupness ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ and wrong degradation of intemporality/longness in conviction ‘reference-of-thought—elevated-devolving-as-of-prospective-institutionalisation’, given the inherently confounding ontological-veridicality of human potent beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. Broadly speaking thus, the <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of prospective relative-ontological-completeness-of-reference-of-thought as of human temporal-to-intemporal mental-dispositions in social-stake-contention-or-confliction implies that it is naïve to conceive of a ‘neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ as in effect as of conflatedness this simply wrongly elevates temporal/shortness-of-register-of-meaningfulness-and-teleology mental-dispositions teleologically-degraded-devolving-as-of-uninstitutionalised-threshold and wrongly degrades the intemporal/longness-of-register-of-meaningfulness-and-teleology mental-disposition elevated-devolving-as-of-prospective-institutionalisation; as the former is in reality denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought while the latter is upholding reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity—or–ontological-preservation. Actually such an ordinary mental-reflex of a ‘neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection’ when it comes to social-stake-confliction-or-contention is only valid as of ‘mutual conceptualisation as of a given institutionalisation with a common ontological-reference-of-thought’ wherein it is then strictly a matter of logical-processing-or-

logical-implication in determining ontological-veracity. But then at such a registry-worldview's/dimension's institutionalisation's uninstitutionalised-threshold, there is a relative variance of ontological-completeness-of-reference-of-thought as of the prospective relative-ontological-completeness-of-reference-of-thought in intemporality/longness entailing the prospective institutionalisation and the prior relative-ontological-incompleteness-of-reference-of-thought in temporality/shortness entailing the uninstitutionalised-threshold; thus implying a relative variance in such intemporal and temporal teleological projection respectively as of elevated-devolving-as-of-prospective-institutionalisation and teleologically-degraded-devolving-as-of-uninstitutionalised-threshold in determining ontological-veracity. In this sense we can garner that it is inappropriate to imply a 'neuter framework of reference-of-thought putting the temporal-to-intemporal-dispositions as of the same axiomatic teleological projection' and so, as of an uninstitutionalised-threshold and the prospective institutionalisation; given the variance of temporality/shortness rather as respectively in recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism, and prospectively procrypticism/disjointedness-as-of-reference-of-thought with intemporality/longness rather as respectively in base-institutionalisation, universalisation, positivism and prospectively deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. The bigger point here being that the very notion of transcendence as of conflatedness actually construes of more profound reference-of-thought—categorical-imperatives/axioms/registry-teleology that override the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology as failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation', and so as of differing references-of-thought in transversality-of-disambiguated-apriorising/axiomatising/referencing ontological unintelligibility. Neuterisation of analysis as so articulated is effectively a deficient human mental-reflex as of its naïve predisposition to imply 'equivalence of

consideration’ without factoring prospective relative-ontological-completeness-of-reference-of-thought <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of differentiated axiomatic/reference-of-thought teleological projection as of temporal teleologically-degraded-devolving-as-of-uninstitutionalised-threshold and intemporal elevated-devolving-as-of-prospective-institutionalisation. The fact of temporal-to-intemporal variance of prospective relative-ontological-completeness-of-reference-of-thought ultimately reflects the fact that the apparent ordinarily assumed ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-<formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality’ is in effect ‘only valid as of within a registry-worldview’s/dimension’s institutionalisation framework’, and so as of its implied ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness as of implicated-and-explicated reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue’. This articulated delimitation of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-<formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality’ within only a registry-worldview’s/dimension’s institutionalisation framework as of reference-of-thought is critical for an ontologically-complete profoundness/depth of ‘phenomenological departure in-its-overcoming-of-neuterisation’ reflected by metaphysics-of-absence as the ‘requisite conflatedness of understanding’, necessarily entailing transcendental implications for ontologically-veridical knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-

 'axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards

temporal-mental-disposition-is-actually-of--<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-in-an-‘apparently-elevated’-devolving-as-of-prospective-institutionalisation whereas inherent-superseding-existential-reality-unattached-to-its-temporal-limited-mentation-capacity-mental-disposition-points-to-its-degraded-devolving-at-the-uninstitutionalised-threshold. Such a deneuterising binarity of storied ontologically-flawed--<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-temporal-mental-dispositions and storied background of ontologically-veridical-inherent-superseding-existential-reality-unattached-to-such-temporal-mental-dispositions portrays how a storied-construct/ontologically-valid-narration can be articulated as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought ‘emphasising exclusively that it is the construal of human temporality-to-intemporality limited-mentation-capacity transversal-and-cumulative-implications’ that accounts for ontologically-veridical human character-and-social-formation-dynamics as of both uninstitutionalised-threshold representation and prospective-institutionalisation representation. Such a storied-construct/ontologically-valid-narration is ultimately articulated rather as of the implications of the failing to uphold Being as of the temporal-to-intemporal transversality-of-disambiguated-apriorising/axiomatising/referencing of human limited-mentation-capacity in temporal constitutedness mental-reflexes at presence reference-of-thought, and so reflected by the implied intemporal conflatedness of phenomenological transcendence as of notional-deprocrypticism. We can appreciate the metaphysics-of-absence insight about such a deneuterising storied-construct/ontologically-valid-narration from the fact that a non-positivism/medievalism or animistic social-setup is ‘not committed in an <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ to positivistic/rational-empiricism

meaningfulness-and-teleology with regards to occurrences and incidents best explained and dealt with by such positivistic meaningfulness as of the latter's prospective relative-ontological-completeness-of-reference-of-thought. As such non-positivism/medievalism or animistic social-setup 'will not be self-effacing as of its ontologically-flawed--<formative>epistemic-totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about its uninstitutionalised-threshold of non-positivism and the prospective institutionalisation of positivism'. This equally explains how our positivism--procrypticism mental-disposition is construed in deneuterising from futural Being-development/ontological-framework-expansion--as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism perspective 'as not self-effacing as of its ontologically-flawed--<formative>epistemic-totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-temporal-mental-dispositions as-if-always-in-a-state-of-institutionalisation, failing to psychoanalytically project about the uninstitutionalised-threshold of its procrypticism/disjointedness-as-of-reference-of-thought and the prospective institutionalisation of deprocrypticism'. This is actually the ontologically-veridical phenomenological transcendental framework for construing/conceptualising human temporal character and social formation mental-dispositions as of uninstitutionalised-threshold and prospective-institutionalisation based on the dynamics of limited-mentation-capacity, unlike a naïve neuterising mental-reflex that by its <formative>epistemic-totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag fails to attain such a conflatedness as of notional-deprocrypticism deneuterising insight. Central and critical to achieving such a deneuterising analysis in grasping the full and complete possibilities of ontologically-veridical construal of human meaningfulness-and-teleology given human

temporal-to-intemporal mental-dispositions as of prospective institutionalisation and uninstitutionalised-threshold is the notion of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. It is exactly what renders a veridical ontological-escalation or aetiologisation of the human condition possible as the historicity/ontological-eventfulness/ontological-aesthetic-tracing of conflatedness as of notional-deprocrypticism. It is most critical because at any registry-worldview/dimension, human self-consciousness is an <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as of being-only-in-institutionalisation-and-hence-only-of-a-meaningfulness-and-teleology-that-is-intemporal while defectively ignoring-and-undermining the veridicality of uninstitutionalised-threshold-and-its-assorted-and-conjugated-temporal-meaningfulness-and-teleology such that transcendence is always perceived as unnatural when <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, in the sense that ‘it-is-others,-as-of-the-prior-registry-worldviews/dimensions,-that-have-an-uninstitutionalised-threshold-and-the-notion-of-transcendence-is-only-relevant-to-them-as-the-current-presence-is-normal’. The implications of such human <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as it overlooks human uninstitutionalised-threshold points to the reality that the implied institutionalisation ‘projected reflex of universalised conviction towards meaningfulness-and-teleology’ while a social psychological reference is actually not ontologically-veridical as of human practical reality given lack of social universal-transparency. Such that with regards to social-stake-contention-or-confliction possibilities the social psychological reference as of wrongly implied institutionalisation ‘projected reflex of universalised conviction towards meaningfulness-and-teleology’ is an abstract social constraint to human temporal mental-dispositions. In practicality such human temporal mental-dispositions involve ‘rationalising

threads of part-conviction/part-madeupness perception-and-relation to meaningfulness-and-teleology’ as of social-stake-contention-or-confliction social-functioning-and-accordance temporal constraints of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’, and so as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought reflecting uninstitutionalised-threshold Being underdevelopment; wherein with specific regards to a postlogism-slantedness/psychologism mental-disposition and less and less so as of temporal exacerbation/opportunism/affordability, such instigated part-conviction is rather as of a relevant generalised social projection as ‘<formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of conviction’ in relevant social engagement not perceived as of critical social-stake-contention-or-confliction as providing a ‘conviction credibility backdrop’ for subsequent targeted madeupness mental-disposition in relation to specific social engagements perceived as of critical social-stake-contention-or-confliction. Effectively, such part-conviction/part-madeupness with respect to pertinently-perceived social-stake-contention-or-confliction contexts arises due to ‘beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought’ constraint of human limited-mentation-capacity as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor such that this induces as of various existential-

instantiations ‘ontologically-flawed meaningfulness-and-teleology ontological-performance’,
 subpar to ontologically-veridical meaningfulness-and-teleology ontological-performance as
 fundamentally underscored by the prospective institutionalisation. Thus this determines a
 consequential ‘dynamic beyond-the-consciousness-awareness-teleology-in-existential-
 extrication-as-of-existential-unthought limited-mentation-capacity constraint’ as reflected
 from a ‘notional-deprocrypticism-referentialism-as-of-its-nonascriptivity backdrop-for-the-
 ontologically-veridical-construing’ of ‘temporal-to-intemporal individuations
 meaningfulness-and-teleology and actions of individuals and the collective-social as of their
 varying-existential-instantiations-mental-dispositions-ontological-performance or their
 characterisations-as-of-varying-existential-instantiations’, as fundamentally underscored by
 the implied uninstitutionalised-threshold reference-of-thought, wherein such temporal
 thresholding neuterisation with regards to ontologically-veridical meaningfulness-and-
 teleology reflects Being-underdevelopment; and so from the ‘deepest phenomenological
 transcendental-point-of-departure handle as of the notional-conflatedness of notional-
 deprocrypticism deneuterising—referentialism’ as of metaphysics-of-absence insight that

<formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag. This operantly defines
 procrypticism/disjointedness-as-of-reference-of-thought as beyond just the construal of new
 supposedly intemporal reference-of-thought–categorical-imperatives/axioms/registry-
 teleology of the prospective institutionalisation to preempt the temporally denaturing
 reference-of-thought–categorical-imperatives/axioms/registry-teleology of the prior
 institutionalisation, but rather the deneuterising construal of the very ‘limited-mentation-
 capacity as of human-subpotency–aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions–existentialism-form-factor as the beyond-the-consciousness-awareness-
 teleology-in-existential-extrication-as-of-existential-unthought constraining dynamism’
 behind the denaturing of reference-of-thought–categorical-imperatives/axioms/registry-
 teleology in the very first place; conceptualised henceforth as the very reference-of-thought–
 categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-
 contiguity–or–ontological-preservation as of the Deprocrypticism registry-
 worldview/dimension institutionalisation as of its implied notional-deprocrypticism. Overall,
 the fact is that given that what is most relevant to the individual is the practicality as of their
 ‘rationalising threads of part-conviction/part-madeupness perception-and-relation to
 meaningfulness-and-teleology’ over just abstract universal propositions, when it comes to
 social-stake-contention-or-confliction social-functioning-and-accordance constraints such
 temporal part-conviction/part-madeupness mental-dispositions tend to be ultimately
 translated decisively onto issues of public repercussions like corruption, mismanagement,
 nepotism, etc. It is very much naïve to imagine that as of such uninstitutionalised-threshold as
 of Being/ontological-framework-expansion underdevelopment, individuals in positions of
 social-stake-contention-or-confliction with respect to upholding/failing probity will simply

adhere, at the exclusion of engrained-habits-and-mental-dispositions, to mere propositions of probity rather than in the face of weak-institutional-constraints-and-penalties to perceive such universal propositions as mere linguistic appendages of relative practical insignificance. The notion of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought is the effective and credible deneuterising enabling articulation that grasps such an ontologically flawed mental-reflex that recurrently permeates consciously and unconsciously human phenomenological mentation, as it ‘credibly’ grasps-and-accounts-for, without resorting to any neuterising, the full and complete possibilities of human mental-dispositions as of the exclusive dynamics of human limited-mentation-capacity across all registry-worldviews/dimensions involving the conjugation of the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation and temporal/shortness-of-register-of-meaningfulness-and-teleology individuations of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’. Ultimately, the notion of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought given its psychoanalytic-unshackling as of prospective deprocrylicism transcendence, points to a self-consciousness that should rather come to terms with the reality of human limited-mentation-capacity dynamics as of temporal-to-intemporal mental-dispositions resolved beyond just the notion of reference-of-thought–categorical-imperatives/axioms/registry-teleology but rather their protraction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-

existential-reality conflatedness of Being as implied as of deprocrypticism/preempting—
 disjointedness-as-of-reference-of-thought. The issue of Being-development/ontological-
 framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-
 meaningfulness-and-teleology or Being underdevelopment is associated with that of the
 construal of knowledge as organic-knowledge or mechanical-knowledge respectively; with
 the latter construed as of the ‘mere effecting possibilities of knowledge’ without a
 coherence/contiguity with the ‘knowledge inventing’ mental-disposition as of ontological-
 faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind the given
 knowledge, as implied with organic-knowledge. It is such a mechanical-knowledge as of
 ‘temporal/shortness-of-register-of-meaningfulness-and-teleology mental-dispositions towards
 the mere effecting possibilities of the knowledge’ that induces the forgetting of Being
 construed as ontology’s-directedness-as-Being, by undermining the ontological-faith-notion-
 or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality upholding of
 intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that is behind
 organic-knowledge. Human <formative>epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag temporal mental-dispositions as of
 beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-
 unthought are all too ready to construe of the comprehensiveness of knowledge as mere
 effecting possibilities of knowledge at the given institutionalisation’s uninstitutionalised-
 threshold in temporal/shortness-of-register-of-meaningfulness-and-teleology terms-as-of-
 axiomatic-construal as of the plainly implied opportunism with little consideration of the
 projective intemporal value dispositions behind the ‘knowledge inventing’ and its organic
 preservation. Thus the ontological-contiguity—of-the-human-institutionalisation-process

arises exactly to ensure deferential-formalisation-transference secondnaturing of knowledge as of organic-knowledge comprehensiveness. The following is enlightening in this regard. (For what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought is in a state of <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism/perversion-of-reference-of-thought (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implication as ‘conviction/prelogical re-engaging mental-reflex’ that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the ‘local community dynamism of individual interests involved’ that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure transforming of the non-positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the structural/paradigmatic resolution of the vices-and-impediments arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrysticism worldview and futural Being-

development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrpticism worldview). We can appreciate such metaphysics-of-absence insight as of say in a situation of cultural diffusion the requirement that a recurrent-utter-uninstitutionalisation social-setup opportunistically grasping mere effecting possibilities of base-institutionalisation knowledge, as of relative convenience to individuals, are much more better off equally coming into terms institutionally with the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced intemporality/longness behind the ‘inventing of the base-institutionalisation culturally diffused knowledge’ for an optimum accrual of the Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology of recurrent-utter-uninstitutionalisation; that is, based on base-institutionalisation’s ‘rulemaking-over-non-rules’ enabling the superseding of recurrent-utter-uninstitutionalisation vices-and-impediments as of its ‘non-rules-as-impulsive-or-accidented-or-random-mental-disposition’. Such conceptualisation extends to all registry-worldviews/dimensions prospective institutionalisation including our positivism—procrypticism prospective transcendental emancipation to deprocrpticism. Underlying Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is the construal of knowledge in both its ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ and the ‘detached, contemplative and blurry human social-construct of knowledge’. In many ways as of human temporal/shortness-of-register-of-meaningfulness-and-teleology mental-reflex, the former is structurally/paradigmatically associated with relatively immediate-constraining ontological-primemovers-totalitative-framework that quickly portrays Being-development/ontological-framework-expansion—as-to-depth-of-

ontologising-development-as-infrastructure-of-meaningfulness-and-teleology by its mere relative disambiguation effectiveness of ‘ontologically-veridical knowledge agents’ over ‘ontologically-flawed knowledge agents’. For instance as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced intemporal/longness-of-register-of-meaningfulness-and-teleology positivism/rational-empiricism mental-disposition behind the articulation of Newtonian mechanics inducing its mere effecting possibilities of knowledge, the inherent possibilities of inventing things on this positivism/rational-empiricism knowledge intemporal value reference inherently undermines the pertinence of any other supposed knowledge value reference, like a mystical knowledge construal, of the very same physics <formative>epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, such that their inherent contrast disambiguates what is of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology from what is of Being underdevelopment. But then this ‘immediate, cause-and-effect and non-blurry practical and scientific knowledge’ is just one aspect of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as its mere effecting possibilities of knowledge however effective do not exist in a vacuum but rather within the ‘detached, contemplative and blurry human social-construct of knowledge’ which is the complementary background for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; as we can appreciate that despite the positivistic inclinations of the Copernicuses, the Galileos and the Newtons, the scientific advances that ultimately took hold arose because those budding scientists had a sense that the very ‘detached, contemplative and blurry human social-construct of knowledge’ background had to be

superseded as of its scholasticism and mysticism underlying knowledge background for a
 positivism/rational-empiricism knowledge background to take hold as transcendental-
 enabling/sublimating not only to science but transcendental-enabling/sublimating as well to
 the open society equally required for the sound functioning of science. It is this dynamic
 relationship as of 'immediate, cause-and-effect and non-blurry practical and scientific
 knowledge' and 'detached, contemplative and blurry human social-construct of knowledge'
 that is behind Being-development/ontological-framework-expansion-as-to-depth-of-
 ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with respect to
 the prospective registry-worldview/dimension as resolving the vices-and-impediments of the
 prior registry-worldview/dimension. But then no matter the succession of institutionalisations
 as successive Being-development/ontological-framework-expansion-as-to-depth-of-
 ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, there is an ever
 present issue of Being underdevelopment as of human-subpotency—
 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor wherein
 institutionalising reference-of-thought—categorical-imperatives/axioms/registry-teleology are
 always subject at uninstitutionalised-thresholds to their denaturing as of their
 <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-
 drag-denatured-and-dementing-narratives, as of temporal failing to uphold intemporal-
 preservation-entropy-or-contiguity—or—ontological-preservation. Hence Being-
 development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-
 infrastructure-of-meaningfulness-and-teleology given human limited-mentation-capacity is
 rather upheld by ontological-faith-notion-or-ontological-fideism—imbued-
 underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-
 reality as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation

wherein the abstract intemporal/longness-of-register-of-meaningfulness-and-teleology behind the prior registry-worldview institutionalisation should equally be reflected as of prospective registry-worldview institutionalisation, and involving the requisite deferential-formalisation-transference secondnaturating of knowledge as organic-knowledge. We can appreciate the latter point in the sense that with the development of various positivistic scientific and knowledge fields, the knowledge agents weren't naïve to imply that the 'normal social temporal-to-intemporal mental-dispositions as of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>' are appropriate framework for engaging their subject-matter, as they rather promoted formal knowledge/scientific societies and adopted their specific jargons to ensure that the intemporal value reference mental-dispositions behind their respective 'knowledge inventing' was the institutional mental-disposition for engaging with the knowledge formally or as of secondnature education practically available to everyone interested, and so while alienating and considering general social <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> as improper and unqualified. This was to avoid a circularity of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> undermining of the intemporal-projection of their specific knowledge/science, as they contribute in overall Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The point here is that at uninstitutionalised-thresholds the idea of 'equal opinionatedness' doesn't apply by the mere fact that knowledge of intrinsic-reality

itself doesn't arise by <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
'non-descript/ignorable-void'-with-regards-to-prospective-apriorising-implications> but rather ontological-pertinence, and the point in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as knowledge-led is to harness ontological-pertinence and not
<formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
'non-descript/ignorable-void'-with-regards-to-prospective-apriorising-implications>, thus explaining deferential-formalisation-transference as of institutional percolation-channelling. This point is central and critical to the very notion of society-as-social-construct, as society is caught between the notion of sovereignty as-allowing-basic-level-of-universal-individual-and-collective-self-affirmation-striving-for-social-equality and the notion of knowledge as-of-selective-construal-of-social-value-and-institutional-hierarchisation-as-of-ontological-primemovers-totalitative-framework-overriding-social-equality-for-the-sake-of-individual-and-social-emancipation-as-of-efficient-ontological-performance-implications. The implication of this dilemma is the reality that society is always subpar to a knowledge social determination as well as subpar to a sovereignty social determination. This dilemma is unavoidable by the very implications of a society: every social-setup as a conventional-construct can only be held together in the long-term as of its requisite given registry-worldview's/dimension's institutionalisation-level of minimally-expected basic conscious-adherence-at-best or token-adherence-at-worst to the said institutionalisation-level's reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology with regards to meeting a basic level of individuals and social existential-possibilities expectations; such that the notions of knowledge and sovereignty can only be 'socially

effective’ within this articulated framework as enabled by ‘social universal-transparency’.

This articulation can be elucidated more explicitly in cases of cultural diffusion between societies of differing institutionalisation level as such cultural diffusion isn’t by a simplistic institutionalisation knowledge-level transference, but involves a mutual sense of sovereign selectivity and recognition among the societies, however the drive for cultural diffusion; thus allowing for ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <formative>epistemic-totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-completeness-of-reference-of-thought accommodation. This is equally the knowledge and sovereignty dynamics that prevails within any given society. Thus, knowledge can effectively and efficiently be pushed forward but rather through an exercise of increasing ‘social universal-transparency’ thus enabling ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. However, all along this ontological-contiguity—of-the-human-institutionalisation-process a suboptimal relation between knowledge and sovereignty undermines Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of various pertinent social manifestations: – wherein sovereignty is affirm over knowledge as ‘supposedly being knowledge’ by a culture of mere social-aggregation-enabling of temporal-to-intemporal hotchpotch opinionatedness, notwithstanding the underlying transcendental-

enabling/sublimating in formal institutional deferential-formalisation-transference and percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>, with the result that beyond the underlying implied institutionalisation-level such a social-aggregation-enabling hotchpotching opinionatedness culture tends to critically and decisively inform individual and collective thought and action in a manner that is suboptimal to intemporality-as-ontology as of the manifestation of such a temporal-to-intemporal hotchpotching culture in the extended-informality that permeates even formal institutions; – wherein by exploiting of temporal mental-dispositions as of individuals and the collective-social sovereignty, knowledge is undermined by wrongly implying the pertinence of social-aggregation-enabling construed as ‘exploitation of sovereignty’/mobbishness as of ‘intellectual institutional-being-and-craft self-serving’ in lieu of upholding institutionalisation, including the tendency to degrade knowledge conceptualisations into popular frameworks of knowledge appraisal thus subverting institutional deferential-formalisation-transference rigorous knowledge framework as of their transcendental-enabling as to existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness; – the ontologically-flawed articulation of knowledge by an intellectual disposition akin to <formative>wooden-language—of-temporal–mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology undermining knowledge as of its organic true nature implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality behind prior ‘knowledge inventing’ and prospective ‘knowledge inventing’, and so as of intellectual institutional-being-and-craft; – ultimately the

very paradox of human <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag means that the human sovereign psyche is one that is geared to construe of ‘presence as all-encompassing meaningfulness-and-teleology value construct’ such that the transcendental implications of knowledge by mental-reflex are construed as of incrementalism-in-relative-ontological-incompleteness to presence, rather than as of <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought of presence construed as of prospective relative ontological-contiguity over presencing-as-prior relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema>. However despite this knowledge and sovereignty dilemma associated with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, the insight about human <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of self-referencing and syncretising-effecting intemporal implications means that the requisite intemporal/longness-of-register-of-meaningfulness-and-teleology psychoanalytic-unshackling positive-opportunism can cross-generationally be induced for Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology despite the inherent circular distractiveness of temporality, and ultimately so as enabled by ‘social universal-transparency’. The above analysis point out that transcendental knowledge in particular involves more than just knowledge as a grounded construct but as well an understanding of how such knowledge is instigated in society as part and parcel of the knowledge construed as organic-knowledge; given that the social-construct-as-society is not necessarily of immediate receptivity and is of a suboptimal disposition to such transcendental-enabling/sublimating implications that are not priorly as of grounded constructs of knowledge. This will explain why the mere articulation of positivism/rational-

empiricism meaningfulness-and-teleology constructs of knowledge wasn't enough in undermining medieval mental-dispositions, and the persistent initiatives of the Copernicuses, Galileos, Rousseaux, Diderots, etc., were not vague actions but informed by an intuition about the nature of human society and how it develops given the inherently untransformable human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor as of human limited-mentation-capacity. Thus in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, crucially the issue of ontological-veracity is only half the problem of knowledge, with the other half being the grasp of the underlying sovereignty and knowledge dynamics as of eliciting 'social universal-transparency'. As it is the latter that induces that social positive-opportunism for deferential-formalisation-transference and institutional percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>, as of social deferential attribution of power for the beneficial effect of knowledge as empowering various institutional domains. Further, as implying the superseding of entrenched grounded knowledge as of its psychoanalytic-unshackling implications and in destabilising the underlying existential reference-of-thought, transcendental knowledge is of a circular but consistent exercise of <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought, and so due to the 'existential and emotive commitments' it is involved in undoing with regards to the implied prior notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> reference-of-thought and introducing the prospective ontological-contiguity reference-of-thought as of the-very-same-<formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality. Consider in this regard, that the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of propective ontological-contiguity is

more than just a reification gesturing of its very own axiomatic-construct affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking but extends to encompass a de-assertion/dementing/unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing of ‘traditional classical mechanics axiomatic-construct’, at the threshold where it supersedes ‘traditional classical mechanics axiomatic-construct’, as being of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> when analysed as of ‘traditional classical mechanics axiomatic-construct’, and so with regards to ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’.

The ontological veridicality here is that such ‘double-gesture reification as the prospective axiomatic affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking together with the prior axiomatic de-assertion/dementing/unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing’ implied as of the non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> induced transcendence-and-sublimity is not to be construed as an incrementalism-in-relative-ontological-incompleteness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity of the superseded presencing—absolutising-identitive-constitutedness, but is rather a maximalising-recomposuring-for-relative-ontological-completeness in subsuming ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-

veridicality/existential-reality'. While the emotional involvement and sense of 'existential ego undermining' involved in such a transcending reification gesturing of axiomatic-constructs as of the very same <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality is relatively trite as occurring within the same registry-worldview/dimension reference-of-thought as of the positivistic/rational-empiricism meaningfulness-and-teleology mindset as well as its distance rather with respect to physical reality, such a transcending reification gesturing as of the grandest axiomatic-constructs having to do with consciousness with regards to the 'very reference-of-thought itself' wherein the prospective ontological-contiguity reference-of-thought as deprocrpticism/disjointedness-as-reference-of-thought implies a transcending reification gesturing that not only affirms deprocrpticism prospective registry-worldview/dimension but in that affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking as of its ontological-completeness-of-reference-of-thought de-asserts/dements our positivism—procrypticism registry-worldview/dimension, this will elicit an existential and emotional involvement that will rather convert into a circular neuterisation of deprocrpticism by a mental-complex avoiding such emotional discomfort and sense of existential ego undermining as is the case with all uninstitutionalised-thresholds/uninstitutionalised-thresholds with respect to their prospective institutionalisations. This explains why it is not a fundamental contradiction as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor at uninstitutionalised-thresholds that the positivistic/rational-empiricism initiatives of such enlightenment thinkers like Galileo, Descartes, Diderot, etc. were met with counteracting reactionary views, and as it further elicits ontologically-flawed 'uninstitutionalised-threshold by prospective institutionalisation

dialogical-equivalence'. This can't be the case because dialogical-equivalence can only arise where there is 'common reference-of-thought' whereas a state of institutionalisation as of prospective relative-ontological-completeness-of-reference-of-thought is veridically in an institutionalising/enlightening/educating exercise relative to a state of uninstitutionalised-threshold as of prior relative-ontological-incompleteness-of-reference-of-thought, and not such a flawed notion of dialogical-equivalence. We can appreciate even within a same reference-of-thought like our positivism/rational-empiricism registry-worldview/dimension that there is no dialogical-equivalence between the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in ontological-contiguity and 'traditional classical mechanics axiomatic-construct' of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> but for the former's enlightening the latter's undefined-or-undecidable-threshold-of-ontological-veridicality. This insight reflects the reality of transcendence in reflecting the ontological-contiguity—of-the-human-institutionalisation-process associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, wherein uninstitutionalised-threshold mental-reflexes of <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in their incrementalism-in-relative-ontological-incompleteness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity tend to perpetuate the representation of prospective institutionalisation as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives) in an ontologically-flawed dereification gesturing of neuterisation, rather than maximalising-recomposuring-for-relative-ontological-completeness as of <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought implied

as of prospective institutionalisation's deneuterising. It should thus be noted that such a transcendental exercise is not about passing the test as of the judgment of uninstitutionalised-threshold mental-reflexes of <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag which is 'ontologically flawed and wanting' but rather is as of a maximalising-recomposuring-for-relative-ontological-completeness intemporal-projection transcendental-enabling/sublimating for prospective institutionalisation relative to such <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that circularly reinstitute the uninstitutionalised-threshold temporality/shortness as if intemporal in incrementalism-in-relative-ontological-incompleteness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. In other words prospective institutionalisation arises as of 'transcendental-reasoning-of-event-as-prospective-ontology-origination' which as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought is introducing a 'new-as-of-the-prospective-institutionalisation ordinary-nontranscendental-reasoning' that blocks-out/supersedes/de-asserts/dements as of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> the 'prior-or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning'; with the implication that our 'procrypticism/disjointedness-as-of-reference-of-thought reasoning' is not admissible to prospective 'deprocrypticism/preempting—disjointedness-as-of-reference-of-thought reasoning' and so from the moment of the event-construed-as-the-prospective-ontology-origination of deprocrypticism, just as 'non-positivistic medieval reasoning' is not admissible to prospective 'positivism reasoning' from the moment of the event-construed-as-the-prospective-ontology-origination of positivism, etc., across the successive institutionalisations in reflecting the ontological-contiguity—of-the-human-

institutionalisation-process; and so as of notional-discontiguity/epistemic-discontiguity-
 <mentally-aestheticised_dementing-qualia-schema> of the uninstitutionalised-threshold and
 the prospective institutionalisation. Such a temporal/shortness-of-register-of-meaningfulness-
 and-teleology ontologically-flawed predisposition in circularly striving to reassert the ‘prior-
 or-old-as-now-uninstitutionalised ordinary-nontranscendental-reasoning’ over the
 ‘transcendental-reasoning-of-event-as-prospective-ontology-origination’ is fundamentally
 due to the paradigmatic/structural lifetime ‘mental and existential investment’ in the former,
 such that by and large it is mostly a crossgenerational transcendence-and-sublimity that fully
 brings about the adaptation of the induced ‘transcendental-reasoning-of-event-as-prospective-
 ontology-origination’ as the ‘new-as-of-the-prospective-institutionalisation ordinary-
 nontranscendental-reasoning’. Such a temporal/shortness-of-register-of-meaningfulness-and-
 teleology ontologically-flawed circular predisposition arises due to human temporal-
 dispositions as of Being underdevelopment that tends to lead to the beyond-the-
 consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought
 denaturing of knowledge as mechanical-knowledge and undermining organic-knowledge;
 wherein knowledge is related to as of existential-extrication-as-of-existential-unthought, that
 is, knowledge related to as of ‘the mere positive-opportunism it engenders at best’ with little
 or no cognisance that there is an attitude/mental-disposition/care-and-episteme as of
 intemporality/longness behind ‘knowledge invention’ that must be preserved and perpetuated
 as ‘the very core of knowledge’ and so to undermine knowledge denaturing, so-construed as
 organic-knowledge. Organic-knowledge requires the articulation of meaningfulness-and-
 teleology rather in nonextricatory-existential-preempting-of-existential-unthought terms-as-
 of-axiomatic-construct as the profound-and-complete articulation of knowledge, and as the
 very attitude/mental-disposition/care-and-episteme behind knowledge that induces the
 appropriate psychoanalytic-unshackling for its reception. In other words, we can’t seriously

contemplate a profound positivistic knowledge engagement with a non-positivistic as animistic or medieval mindset without the idea of priorly eliciting the appreciation-and-adoption of a positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme when contending about any salient positivistic articulations as otherwise all such positivism/rational-empiricism articulations and explaining will be reconstrued circularly in animistic or medieval terms-as-of-axiomatic-construct as of the latter teleologically-degraded prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology. Likewise meaningfulness-and-teleology articulated as of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought relative to our positivism–procrypticism necessarily requires priorly the requisite apriorising-teleological-elevation-in-ontological-contiguity from positivism–procrypticism’s disjointedness-as-of-reference-of-thought mindset into deprocrypticism’s preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme as otherwise such knowledge will be teleologically-degraded in circular positivism–procrypticism disjointedness-as-of-reference-of-thought terms-as-of-axiomatic-construct as of prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology, even though in the latter case our <formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence blinds us to appropriately appreciating this given the human mental-reflex of representing any uninstitutionalised-threshold as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives) as of our <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The point here is that the

meaningfulness-and-teleology so-construed has to supersede the prior registry-
 worldview/dimension uninstitutionalised-threshold perspective/framing/reference/horizon for
 its prospective transcendence-and-sublimity-enabling purpose, even if that implies being
 temporally unpalatable, given that the fundamental purpose for the underlying
 aetiologisation/ontological-escalation is of
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm and not temporal extricatory paradigm. Put
 another way, for instance, Newtonian physics doesn't have any inherent meaningfulness-and-
 teleology as we can appreciate from a positivism/rational-empiricism
 perspective/framing/referencing/horizon with an animistic social-setup as of the latter's
 attitude/mental-disposition/care-and-episteme underlying its meaningfulness-and-teleology
 thus requiring the latter's prior apriorising-teleological-elevation-in-ontological-contiguity to
 a positivism/rational-empiricism attitude/mental-disposition/care-and-episteme 'for the
 notion of the mutual contemplation of Newtonian physics to even arise'. This speaks of the
 centrality of attitude/mental-disposition/care-and-episteme with respect to human
 meaningfulness-and-teleology, as it is what underlies
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given
 registry-worldview's/dimension's institutionalisation reference-of-thought. Attitude/mental-
 disposition/care-and-episteme as such carries a registry-worldview's/dimension's
 'underlying sense of end-teleology/end-purposefulness' and thereof its operative-construct
 and implicative-construct with regards to meaningfulness-and-teleology. It further implies a
 'the human toddling potential' for living-as-of-human-personality-developing, social-
 projection-institutional-orientations and Being-development/ontological-framework-
 expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
 and-teleology; with the 'human toddling potential' implying the human potential to develop

from a relative-ontologically-flawed to a relative-ontologically-veridical attitude/mental-disposition/care-and-episteme with respect to living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. This ‘human toddling potential’ is what enables notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> induced psychoanalytic-unshackling for grounding meaningfulness-and-teleology prospectively as of the prospective relative-ontological-completeness of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>. The attitude/mental-disposition/care-and-episteme structure is what fundamentally determines mental-states in their ‘projection/anticipation of the coherence/contiguity-of-superseding-oneness-of-ontology-as-of-inherent-existence-coherence/contiguity’ whether with respect to any individual within any registry-worldview/dimension as well as the registry-worldview’s/dimension’s overall reference-of-thought, as of its specific reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology. Thus an attitude/mental-disposition/care-and-episteme can pertinently be defined as the ‘assumed-and-unflinching apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transversality-of-disambiguated-apriorising/axiomatising/referencing’ inducing a given specific non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> outcome with regards to prospective relative-ontological-completeness-or-incompleteness-of-reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality,

and establishing-and-upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care-and-episteme; and so, whether such a framework is a reference-of-thought as of overall construal-as-existence/existential-possibilities, or within a reference-of-thought like a social projection <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality or specifically with living-as-of-human-personality-developing. For instance, with respect to coming across and living say in an early hunter-gather society with its interpretation of ill-health as of bad omen, we will still maintain an ‘assumed-and-unflinching transversality-of-disambiguated-apriorising/axiomatising/referencing’ as of the attitude/mental-disposition/care-and-episteme of positivism’s/rational-empiricism’s perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, at least as of our self-conscious awareness, even as this reflects mutual beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought as when we publicly pretend to act otherwise by subscribing to the interpretation within such a social-setup. As construed within a given reference-of-thought, say in our positivism/rational-empiricism reference-of-thought we can further have the conception of the physics or biology or law or literature or even just entrepreneur or accountant or technician specific attitude/mental-disposition/care-and-episteme, and further at the individual level as of changing attitude/mental-disposition/care-and-episteme with living-as-of-human-personality-developing. Attitude/mental-disposition/care-and-episteme as so-construed is critical fundamentally because the notionally inherent human capacity for aetiologisation/ontological-escalation is directly associated with ‘attitude/mental-disposition/care-and-episteme as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-prot Humanity’-to-

‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-
 <formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-
 language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-
 meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-
 prospective-apriorising-implications>) to be able to achieve transcendence-and-sublimity’,
 and so as of intemporality. With regards to living-as-of-human-personality-developing, we
 can appreciate in the case of a child’s personality development as of its given attitude/mental-
 disposition/care–and–episteme that it has a poor dispensing-with-immediacy-for-relative-
 ontological-completeness-by-reification/contemplative-distension as of its more direct focus
 on instant-sensations-and-carefreeness requiring that the child is directed to end at successive
 stages infantile habits as it grows up with an increasing sense of dispensing-with-immediacy-
 for-relative-ontological-completeness-by-reification/contemplative-distension that ultimately
 involves major stages like schooling, greater social autonomy and responsibility, and
 developing into an adult with even greater dispensing-with-immediacy-for-relative-
 ontological-completeness-by-reification/contemplative-distension as for instance the notion
 of pleasure is increasingly substituted with that of work-and-pleasure, etc. Such living-
 development–as-to-personality-development as dispensing-with-immediacy-for-relative-
 ontological-completeness-by-reification/contemplative-distension is construed as the more
 profound attitude/mental-disposition/care–and–episteme for human optimum living, and so
 over say an animal-like immediacy attitude/mental-disposition/care–and–episteme of living.
 With regards to the second-level of social aetiologisation/ontological-escalation associated
 with ‘attitude/mental-disposition/care–and–episteme dispensing-with-immediacy-for-relative-
 ontological-completeness-by-reification/contemplative-distension’, for achieving
 transcendence-and-sublimity; humankind construes of existence as ‘more than just plain

living as animals’ but as enabling for various domains of social projections dispensing-with-
 immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension so-
 implied across the various registry-worldviews/dimensions, whether in an animistic social-
 setup involving animistic practices or in the modern social-setup as of our modern practices
 involving subject-matter specialisms, trade roles, functionaries, arts, research, sports and
 other activities, etc.; with each involving their specific attitude/mental-disposition/care-and-
 episteme dispensing-with-immediacy-for-relative-ontological-completeness-by-
 reification/contemplative-distension. The idea being that this provides more existential
 possibilities by the overall expanded human capabilities available directly or indirectly to
 fulfil individuals desires and needs. Finally the third-level reflects ‘intemporal ontological-
 faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated
 ontological-contiguity—of-the-human-institutionalisation-process as of difference-
 conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism
 <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-
 ontological-contiguity’ with Being-development/ontological-framework-expansion—as-to-
 depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology,
 beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-
 unthought, implying specifically a nonextricatory-existential-preempting-of-existential-
 unthought attitude/mental-disposition/care-and-episteme as dispensing-with-immediacy-for-
 relative-ontological-completeness-of-reference-of-thought-by-reification/contemplative-
 distension thus transcendentally enabling the successive registry-worldview’s/dimension’s
 ontological-possibilities construed as of human
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm; with such dispensing-with-immediacy-for-

relative-ontological-completeness-of-reference-of-thought-by-reification/contemplative-distension construed as rejection of existential-extrication-as-of-existential-unthought attitude/mental-disposition/care-and-episteme which will imply a stalling in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology at the given registry-worldview/dimension, and so-construed as temporal extricatory paradigm. Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as such implies increasingly more profound-and-complete enabling framework of human emancipation as of technical and existential possibilities arising from prospective relative-ontological-completeness-of-reference-of-thought. We can get an insight of registry-worldviews/dimensions attitude/mental-disposition/care-and-episteme contrast as clarified in the preceding example as of the technical and existential emancipatory possibilities that can be contemplated with a positivism/rational-empiricism attitude/mental-disposition/care-and-episteme in an early hunter-gather social-setup inclined to construe of ill-health as bad omen; and appreciate that the human-subpotency is much more than stalling at any prior relative-ontological-incompleteness-of-reference-of-thought registry-worldview/dimension, and so not only retrospectively but equally prospectively. Thus, an attitude/mental-disposition/care-and-episteme can pertinently be defined as the ‘assumed-and-unflinching transversality-of-disambiguated-apriorising/axiomatising/referencing’ inducing a given specific non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> outcome with regards to prospective relative-ontological-completeness-or-incompleteness-of-reference-of-thought as of the construal-as-existence/intrinsic-reality/ontological-veridicality, and establishing-and-

upholding the underlying framework of meaningfulness-and-teleology associated with that attitude/mental-disposition/care-and-episteme. It can be construed with regards to prospective transcendence as a structural/paradigmatic adjunctive-metaphoricity-signification inducing-and-upholding a prospective ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct as <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’. In other words, a registry-worldview’s/dimension’s reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is utterly apprehended decisively by its given attitude/mental-disposition/care-and-episteme as of the ‘assumed-and-unflinching transversality-of-disambiguated-apriorising/axiomatising/referencing’. This insight is critical as for instance with appreciating what is implied by futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme by its given specific non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> outcome; as we simply have to project/anticipate its ‘assumed-and-unflinching transversality-of-disambiguated-apriorising/axiomatising/referencing’ implied as of preempting—disjointedness-as-of-reference-of-thought construed as thinking as it remains unintelligible to our positivism—procrypticism’s disjointedness-as-of-reference-of-thought reconstrued as of dementing. Attitude/mental-disposition/care-and-episteme ‘assumed-and-unflinching transversality-of-disambiguated-apriorising/axiomatising/referencing’ is a corresponding disposition for reflecting the ‘incisive-and-intransigent nature of existence as absolute a priori’ to which we

can only get in-relative-synchronisation with a corresponding level of projection-or-anticipation/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that as of its relative dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-prot Humanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) is the appropriate attitude/mental-disposition/care—and—episteme ‘assumed-and-unflinching transversality-of-disambiguated-apriorising/axiomatising/referencing’ required for the correspondingly required meaningfulness-and-teleology ontological-performance. Basically, attitude/mental-disposition/care—and—episteme is simply a reflection of level of deneuterising—referentialism as of the notional-conflatedness of notional-deprocrpticism. Ultimately for living-as-of-human-personality-developing, social-projection-institutional-orientations and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, ‘the human toddling potential’ or the human potential to develop from a relative-ontologically-flawed to a relative-ontologically-veridical attitude/mental-disposition/care—and—episteme, can only arise by notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> induced psychoanalytic-unshackling as of relative-ontologically-veridical attitude/mental-disposition/care—and—episteme ‘assumed-and-unflinching transversality-of-disambiguated-apriorising/axiomatising/referencing’ over relative-ontologically-flawed attitude/mental-disposition/care—and—episteme, with the latter necessarily having to ascend to

the relative-ontologically-veridical attitude/mental-disposition/care—and–episteme for the former’s implied meaningfulness-and-teleology as of its ontological-performance to avail, and so in reflecting the ‘incisive-and-intransigent nature of existence—as-the-absolute-a-priori-of-conceptualisation’; as we can appreciate this with regards to existence’s relative validation of the positivism/rational-empiricism ‘perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation’ interpretation over recurrent-utter-uninstitutionalisation’s ‘bad omen’ interpretation. Such an ‘assumed-and-unflinching transversality-of-disambiguated-apriorising/axiomatising/referencing’ has ultimately nothing to do with the deliberate willing of the relative-ontologically-veridical attitude/mental-disposition/care—and–episteme. As we can appreciate that without implying a dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of a child’s living-as-of-human-personality-developing, the child’s poorly developed attitude/mental-disposition/care—and–episteme will poorly face optimum living of adult life or where such was the case about all human children then the human species will be no more culturally unique than any other animal. Again, as of human social-projection-institutional-orientations we know that subject-matter, trades and bureaucratic expertise come with a requisite implied attitude/mental-disposition/care—and–episteme in detachment from <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as we know that, everything being equal legitimately, it is the professional electrician as of its assumed-and-unflinching professionally-institutionalised-as-dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension attitude/mental-disposition/care—and–episteme whose workmanship is guaranteed to produce the best and safe outcome for electrical installations; and so dispensing-with-

immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as
 of <formative>wooden-language—imbued-averaging-of-thought-<as-to-
 leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
 ‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>
 dispositions thus expanding human needs and desires possibilities. Likewise, the dispensing-
 with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-
 distension ‘assumed-and-unflinching transversality-of-disambiguated-
 apriorising/axiomatising/referencing’ of a relative-ontologically-veridical attitude/mental-
 disposition/care—and–episteme as of its prospective relative-ontological-completeness-of-
 reference-of-thought over a relative-ontologically-flawed attitude/mental-disposition/care—
 and–episteme is implied for prospective reference-of-thought transcendence-and-sublimity,
 as of overall human existential and technical emancipation. Basically, while attitude/mental-
 disposition/care—and–episteme implied with regards to both living-as-of-human-personality-
 developing and social-projection-institutional-orientations arises as of secondnaturing
 institutionalisation. However, attitude/mental-disposition/care—and–episteme specific
 instigating of Being-development/ontological-framework-expansion—as-to-depth-of-
 ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of
 prospective relative-ontological-completeness-of-reference-of-thought is originary/event-of-
 prospective-ontology-origination as of humanity level
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm; inducing thereof social institutionalisation
 secondnaturing by way of deferential-formalisation-transference and percolation-channelling-
 <epistemic-totalising-reoriginariness/reorigination-in-conflation>. Inherently, the very
 grounding of Being-development/ontological-framework-expansion—as-to-depth-of-
 ontologising-development-as-infrastructure-of-meaningfulness-and-teleology attitude/mental-

disposition/care-and-episteme is beyond presencing—absolutising-identitive-constitutedness, and actually lies prospectively in existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. The implication here is that as of its very ‘nonextricatory-existential-preempting-of-existential-unthought behind the ontological-contiguity—of-the-human-institutionalisation-process’ Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology attitude/mental-disposition/care-and-episteme cannot be contemplated as of secondnature institutionalisation living-as-of-human-personality-developing and social-projection-institutional-orientations attitude/mental-disposition/care-and-episteme in ‘existential-extrication-as-of-existential-unthought’ which structurally/paradigmatically ‘do not project beyond reference-of-thought as of prospective relative-ontological-completeness-of-reference-of-thought’ to grasp prospective existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness relative-ontological-completeness of apriorising/axiomatising/referencing. Thus with regards to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, overall it is the underlying intemporality-or-longness-of-register-of-meaningfulness-and-teleology attitude/mental-disposition/care-and-episteme of successive institutionalisations as associated with the intemporal-as-conviction reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, rather than temporal-as-token-or-madeupness denaturing of the same reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology,

that are responsible for the underlying ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought behind the ontological-contiguity—of-the-human-institutionalisation-process; and so construed as of an abstract notion of perpetual/eternising preservation of Being, and so beyond temporality/shortness existential-extrication-as-of-existential-unthought lack of the projecting attitude/mental-disposition/care—and—episteme for prospective institutionalisations as mainly concerned with the physical human lifespan extricatory framework as absolute reference of meaningfulness-and-teleology ‘with little sense of coherence as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’, and thus the latter cannot unlike the former be the framework for aetiologisation/ontological-escalation as of universal implications, and particularly so as of the ‘naivety of eliciting mutual temporality/shortness as intemporality/longness or eliciting of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’. This notion of fulfilling a given prospective institutionalisation’s requisite attitude/mental-disposition/care—and—episteme underlies the very idea of intellectual-and-moral-inequivalence/non-correspondence as well as dialogical inequivalence/non-correspondence; as where one party does fulfils the attitude/mental-disposition/care—and—episteme of a given institutionalisation’s reference-of-thought as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought and thus its corresponding meaningfulness-and-teleology, and the other doesn’t as of prior relative-ontological-incompleteness. This further explains why epistemic-breaks/epistemic-resetting arise with the successive prospective institutionalisations in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, wherein for instance the positivism

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme of say a Galileo or Descartes is circularly beyond the contention framework of scholasticism meaningfulness-and-teleology, speaking of the impossibility of logical-congruence between the positivists and scholastics with only the utter dominance of positivism arising as of its ontological-primemovers-totalitative-framework induced positive-opportunism as of scientific, medical, technical advancements, free society, etc. shat leads to the crossgenerational collapsing of scholasticism. It is interesting to note here that such positivist scholars were ‘never beholden to a convincing exercise with scholasticism but rather with intrinsic-reality/ontological-veridicality’, and for which purpose rather opted to create internally-coherent positivist networks and societies for the perpetuation of positivistic meaningfulness-and-teleology while averting its denaturing by wrongly implying notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> with scholasticism. But rather implying notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> given the latter’s flawed paradigm as of prior relative-ontological-incompleteness-of-reference-of-thought. The insight here is that knowledge is not about ‘interhuman negotiating or agreeableness’ but more critically about a third party validator known as ‘intrinsic-reality/ontological-veridicality’ which is the transcendental-enabling/sublimating above the mortals that are humans, and that the exercise of knowledge construction is rather an interhuman transversality-of-disambiguated-apriorising/axiomatising/referencing exercise in search for the validation of the ‘superior party that is intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework’, and so beyond institutional-being-and-craft and social-aggregation-enabling <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-

prospective-apriorising-implications>. Where these latter practices become de rigueur as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought denaturing of the requisite intellectualism required for further Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and start undermining knowledge construction as of its intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, effectively there shouldn't be any compunction as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm to overlook them and imply intellectual-and-moral-inequivalence/non-correspondence and/or dialogical inequivalence/non-correspondence in order to preserve genuine knowledge over charlatanism; as such ontological-bad-faith/inauthenticity practices do not speak of 'genuine intellectual disagreement' but undermining of intellectualism basically and do not merit to be elevated teleologically to the level of intellectual contention because of their underlying knowledge denaturing predisposition. This is critically the case with registry-worldview/dimensional reference-of-thought transcendence implied knowledge given that the old/prior/superseded as of its beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought prior relative-ontological-incompleteness-of-reference-of-thought construes of 'implied grounding of meaningfulness-and-teleology' in terms-as-of-axiomatic-construct of presencing—absolutising-identitive-constitutedness while the new/prospective/superseding as of its prospective relative-ontological-completeness-of-reference-of-thought construes of 'implied grounding of meaningfulness-and-teleology' in terms-as-of-axiomatic-construct of prospective non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>. This brings home the reality that it is

inevitable that all uninstitutionalised-thresholds are necessarily ‘paradigmatically/structurally conflicted’, with prospective transversality-of-disambiguated-apriorising/axiomatising/referencing ontological-primemovers-totalitative-framework being the critically fundamental determining arbiter of what will prospectively pass for knowledge rather than the naivety of logical-congruence of dialogical-equivalence at any such uninstitutionalised-threshold; as fundamentally the issues faced by the Descartes, Galileos, Diderots, etc. as of ‘budding positivism/rational-empiricism attitude/mental-disposition/care—and–episteme’ are structurally/paradigmatically fundamentally inevitable as of their articulation within a non-positivism/medievalism scholasticism context. This is the case since at a registry-worldview’s/dimension’s uninstitutionalised-threshold, such a framework of logical-congruence of dialogical-equivalence is structurally/paradigmatically superseded, in the sense that every institutionalisation say for instance scholasticism scholarship has its ‘genuine intellectual engagement framework’ as of its underlying attitude/mental-disposition/care—and–episteme reference-of-thought edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, but then at its uninstitutionalised-threshold (as implied from prospective positivism/rational-empiricism attitude/mental-disposition/care—and–episteme reference-of-thought edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) scholasticism and positivism are rather in transversality-of-disambiguated-apriorising/axiomatising/referencing; as so reflected in their mutually beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. This is equally reflected with regards to the prospective transcendence implying knowledge proponents, as the very notion of implying a prospective transcendental conceptualisation as of organic-knowledge is one that undervalues the presencing—absolutising-identitive-constitutedness attitude/mental-disposition/care—and–episteme as of its social-stake-

contention-or-confliction while the very notion of perceiving highly the meaningfulness-and-teleology within a prior institutionalisation framework is one that is necessarily apprehensive and shallowminded to the notion of a prospectively undermining prospective non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> transcendence attitude/mental-disposition/care-and-episteme reference-of-thought edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In addition, the disruptive uninstitutionalised-threshold contextualisation as of such divergent commitments and ‘lack of perceived constraining framework of logical-congruence of dialogical-equivalence’ further radicalises the human disposition to act temporally beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought institutional-being-and-craft as of perceived vested interest, striving to undermine prospectively implied transcendence meaningfulness-and-teleology attitude/mental-disposition/care-and-episteme. What is then the manifestation of such intellectual undermining which must necessarily be understood as of knowledge-notionalisation required as of the notional-conflatedness of deprocrypticism/preemption-of-disjointedness-as-of-reference-of-thought protensive-consciousness? ontological-bad-faith/inauthenticity as of its charlatanic effect fundamentally involves the undermining at any human uninstitutionalised-threshold of the possibility of intellectually induced social universal-transparency; for the ultimate outcome of undermining any such intemporal knowledge deferential-formalisation-transference behind the secondnaturing for prospective institutionalisation. Such a beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought undermining exercise is geared towards the ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity of social <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-

teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> and untransvaluated–temporal-intemporality social-chainism, on the conation of upholding ontological-bad-faith/inauthenticity contentions; by its deflating of the conception of ontologically-veridical meaningfulness-and-teleology as of human mortals contentions in transversality-of-disambiguated-apriorising/axiomatising/referencing, wherein the ‘superior party’ of existence/intrinsic-reality/ontological-veridicality is the validator of ontological-pertinence as of concurrent ontological-primemovers-totalitative-framework, and thereof ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’ as new reasoning-from-results/afterthought, and so over and above ‘interhuman negotiating or agreeableness’. Thus ontological-bad-faith/inauthenticity as of its charlatanic effect undermines, as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, the articulation of meaningfulness-and-teleology as of prospective maximalising-recomposuring-for-relative-ontological-completeness that could jeopardise pre-established temporal interest, and cultivating rather incrementalism-in-relative-ontological-incompleteness as of prior reasoning-from-results/afterthought in overlooking concurrent ontological-primemovers-totalitative-framework strife to uphold-and-promote the ‘superior party’ which is the non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> of existence/intrinsic-reality/ontological-veridicality; with such intellectual-bad-faith rather advancing such an incrementalism-in-relative-ontological-incompleteness accommodating framework for strategically cultivating pre-established temporal interest. Central to such incrementalism-in-relative-ontological-incompleteness is a simplistic, poor and inadequate articulation of the notion of scepticism usurping genuine intellectual scepticism. Such a poor notion of scepticism operates by a spurious relationship with intellectual contentions that is

susceptible to legitimise-or-delegitimise arguments however ontologically pertinent or
 impertinent as of concurrent ontological-primemovers-totalitative-framework, rather as of its
 commitment to incrementalism-in-relative-ontological-incompleteness that in many ways
 could just as well validate <formative>wooden-language—imbued-averaging-of-thought-
 <as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
 ‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> and
 untransvaluated-temporal-intemporality attitude/mental-disposition/care—and–episteme and
 their social contentions. As in effect, such ontological-bad-faith/inauthenticity scepticism
 fails to act as a ‘knowledge-growth-mechanism with regards to the perpetuation of
 knowledge coherence and pertinence’ as is the case with genuine intellectual scepticism, but
 is rather geared towards a dogmatic pedantry/mandarinism that usurps the very notion of
 scepticism, and so as of the naïve implication that proceduralism is the substitute for
 existence/intrinsic-reality/ontological-veridicality as transcendental-enabling/sublimating.
 This poor scepticism attitude/mental-disposition/care—and–episteme usurping the pre-
 established ‘detour to social goodwill deferential-formalisation-transference to perceived
 overwhelming-relative-effectiveness’, has enframing implications as of the forestalling of
 prospective ‘concurrent ontological-primemovers-totalitative-framework’ upholding of the
 primacy of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, and
 so over mere ‘interhuman negotiating or agreeableness’; as this subsequently undermines
 intemporal knowledge deferential-formalisation-transference behind the secondnaturing for
 prospective institutionalisation. Rather the attitude/mental-disposition/care—and–episteme of
 genuine intellectual scepticism is encrusted within the very notion of prospective relative-
 ontological-completeness of human meaningfulness-and-teleolgy, given human limited-
 mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-
 sublimating-withdrawal). Such a genuine intellectual scepticism construes of knowledge by

its given <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality in terms-as-of-axiomatic-construct of the competing contending construals elicited relative credibility and relative scepticism as of prospective relative-ontological-completeness, thus enabling the upholding of the ‘superior party’ that is existence/intrinsic-reality/ontological-veridicality, which as of its transcendence-enabling nature brings about prospective human emancipation. While genuine intellectual scepticism rather strives in a comprehensive intellectual credibility and scepticism framework as of prospective relative-ontological-completeness, ontological-bad-faith/inauthenticity scepticism avoids such constraining as it rather emphasises a predisposition for discreet, ‘ontologically unconstrained framework as of prospective relative-ontological-completeness <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity’ and non-comprehensiveness, that rather allow for selectivity, incompleteness and perfidy passing for genuine intellectual scepticism. Effectively while genuine intellectual transformation involves dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, a perfidious ontological-bad-faith/inauthenticity scepticism involves eliciting a sense of immediacy and temporality/shortness as of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> and untransvaluated—temporal-intemporality social-chainism as ‘developed thought’, thus deflating the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension intemporal detachment/backstep for transcendence-and-sublimity. In this latter respect, and for the possibility of prospective social transcendence and emancipation, social practices at any given period as ‘becoming constructs’ are not inherently ontologically sacrosanct by the fact that these are the outcome

of preceding prospective relative-ontological-completeness as of preceding intemporal
dispensing-with-immediacy-for-relative-ontological-completeness-by-
reification/contemplative-distension, and by that very implication this is what carries the
possibility of ‘inventing’ as-of-prospective-institutionalisation social practices as of
prospective relative-ontological-completeness. ontological-bad-faith/inauthenticity ad-hoc
pretences extolling social practices as of presencing—absolutising-identitive-constitutedness
but of a poor conception outside the prospective relative-ontological-completeness behind
such social practices ‘inventing’ as-of-prior-institutionalisation and so-implied as of Being-

infrastructure-of-meaningfulness-and-teleology, are but denaturing and down the line equally
undermines prospective relative-ontological-completeness for the further emancipation of
human social practices. As such ontological-bad-faith/inauthenticity ad-hoc pretences
extolling social practices as of presencing—absolutising-identitive-constitutedness are of the
same notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-

description as emancipative is to relay in uninhibited/decomplexified terms-as-of-axiomatic-

construct the blunt reality of the social as this is the very attitude/mental-disposition/care–and–episteme that empowers prospective social emancipation however socially uncomfortable it may sound; and so beyond habituated <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The fact that many that are institutionally anchored may speak otherwise or naively against such a stance doesn’t diminish in any way the ‘natural appropriateness’ of such a job description as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm, but rather speaks of a poverty of institutionalisation that creeps into institutional anchors as of their reasoning-from-results/afterthought constructions subject to temporal/shortness-of-register-of-meaningfulness-and-teleology denaturing of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. As a result of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, the ever present reality of human uninstitutionalised-threshold as reflected successively with recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism, has always implied resolution beyond just reasoning-from-results/afterthought that warrants successive non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> as of the reasoning-through/messianic-reasoning of base-institutionalisation, universalisation, positivism and deprocrypticism/preempting—disjointedness-as-of-reference-of-thought together construed as of the notional-conflatedness of notional-deprocrypticism. Reasoning-through/messianic-reasoning attitude/mental-disposition/care–and–episteme implicitation

arises as of metaphoricity at uninstitutionalised-thresholds where blurry/vague/undeveloped construct of any given ‘-<formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ is unamenable-or-poorly-amenable to reasoning-from-results/afterthought attitude/mental-disposition/care—and—episteme explication of ontological-primemovers-totalitative-framework procedure of transversal-contention-for-determination-of-veridical-meaningfulness. Such reasoning-through/messianic-reasoning attitude/mental-disposition/care—and—episteme ‘implication of ontological-primemovers-totalitative-framework’ is as of intemporal solipsistic and intersolipsistic internalisation, construed as more fully articulating the notion of authenticity, in reflecting such uninstitutionalised-threshold impracticable reasoning-from-results/afterthought attitude/mental-disposition/care—and—episteme explication of ontological-primemovers-totalitative-framework procedure of transversal-contention-for-determination-of-veridical-meaningfulness. In this regard, reasoning-through/messianic-reasoning is driven as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality intemporal projection, and reflects the fact that however explicated, as of reasoning-from-results/afterthought attitude/mental-disposition/care—and—episteme explication of ontological-primemovers-totalitative-framework procedure of transversal-contention-for-determination-of-veridical-meaningfulness, human meaningfulness-and-teleology is always about *différance/internal-dialectics/difference-deferral* of ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’; so-implied as of the *différance/internal-dialectics/difference-deferral* of the very apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument epistemic-

totality that is the reference-of-thought (inducing ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity’), and as the reference-of-thought then aposteriorises/intelligises/logicises meaningfulness-and-teleology as of the temporal-to-intemporal ontological-performance *différance*/internal-dialectics/difference-deferral of the <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving, involving existential-instantiation devolved temporal denaturing of the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology.

The implication here is that ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is rather about a ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’, but that reasoning-through/messianic-reasoning adduced transcendence prospectively comes out short with the prospective reasoning-from-results/afterthought outcome, and so because of human limited-mentation-capacity at any moment. Thus the successive reasoning-from-results/afterthought outcomes as the logocentric constructs of the successive registry-worldviews/dimensions arrive at their successive reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as of successive prospective relative-ontological-completeness-of-reference-of-thought, but fail

to grasp/capture all the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity about the full-potency of existence—as-the-absolute-a-priori-of-conceptualisation for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology that can fully reflect human-subpotency existential potential/possibilities of ontological-performance in correspondence with the full-potency of existence in its coherence/contiguity. But then, ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’ can always be ‘reinvigorated as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for ordinary/as-of-event reasoning-through/messianic-reasoning prospective relative-ontological-completeness-of-reference-of-thought overriding prior reasoning-from-results/afterthought now in prior relative-ontological-incompleteness-of-reference-of-thought at such uninstitutionalised-thresholds; and so, in a renewing apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument instigation as of reasoning-through/messianic-reasoning attitude/mental-disposition/care—and–episteme impitication for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, which is construed as more fully articulating the notion of authenticity. This practical conceptualisation of authenticity as of its method is further critical because however well elicited, even reasoning-from-results/afterthought constructs still need their good ontological-performance in practice, and given human-subpotency–

aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, there is always room
 for human denaturing temporal ontological-performance of such reasoning-from-
 results/afterthought constructs induced by reasoning-through/messianic-reasoning; pointing
 to the fact that ultimately the underlying ‘sanctity of knowledge’ arises from ontological-
 faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of such
 authenticity based intemporal organic-knowledge that is wary of the denaturing that can arise
 as of temporal mechanical-knowledge that ‘dispenses with the originary/as-of-event spirit of
 reasoning-through/messianic-reasoning’ and adopts a mere pedantic relating with the
 reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology.
 Thus human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-
 of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driven
 reasoning-through/messianic-reasoning holds the prospect for an ever renewal of reference-
 of-thought—categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as
 of prospective relative-ontological-completeness-of-reference-of-thought, undermining
 institutional-anchoring and logocentric complexes/denials/pedantry of such prospective
 transcendental possibilities. Such prospective
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transformation
 for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology
 is the reflection of a reality of human mental regeneration potential that speaks of the
 continuity of humankind as of the same relative-emancipatory potential as pertinently
 reflected with Being-development/ontological-framework-expansion—as-to-depth-of-

ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of
 ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

 construed as the inherent meaningfulness-and-teleology truth form of existence, wherein truth
 is as of immanented-teleologically-pertinent-truth over truth-devoid-of-immanented-
 teleology, for instance, like the teleological disposition of living organisms for self-
 preservation beyond just their organical composition. Thus, human ontological-faith-notion-
 or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality underlies the
 conception of ontological-dementation/dialectical-dementation—stranding/attributive-

 sublimity, and is reflected in ‘intemporal ontological-faith-notion-or-ontological-fideism—

 expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
 and-teleology is by a rather surreptitious manner undermined by what this author qualifies as

‘subterfuges of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ which are rather as of ideology; ideology in the sense that these are ‘commitments’ ready to ‘forego the pre-eminence of knowledge construed as of its ontological-veracity’ which is the only assurance of optimum construct of knowledge for human emancipation. Ideology as such takes the form of either ‘ideology denaturing of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ or ‘reactive fear of ideology denaturing of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. In both instances what is lost is Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology itself, such that besides temporal/shortness-of-register-of-meaningfulness-and-teleology interests undermining natural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, natural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is perceived as a risk that will foster ‘ideology denaturing of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ or ‘reactive fear of ideology denaturing of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’, with Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology itself losing out. These subterfuges are behind the awkward, unnatural and clobbered nature of human development for the past two centuries as civilisation is construed and developed in ‘an undertone reaction/anticipation of

threat’ rather than natural as of human communion. Thus ‘subterfuges of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ arise as of the suboptimality of human intemporality/longness which suffers from human apprehensiveness of humans, thus undermining the notion of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. This underlying human mental-disposition arises as of the successive human as trepidatious/warped/preclusive/occlusive-consciousness in neuterising; as such neuterising is the outcrop of human limited-mentation-capacity. In other words neuterising can effectively be ‘decomposed-as-from-a-conflatedness-perspective into the ontologically-veridical underlying limited-mentation-capacity manifestation’ as of social-stake-contention-or-confliction <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and so-construed from the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional-conflatedness of notional-deprocrypticism deneuterising—referentialism’. Such an exercise can be conceptualised as an abstract reference-of-thought/epistemic-totalisation level of deneuterising—referentialism, wherein for instance, with regards to ‘the very same medical <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality’ as structurally/paradigmatically defining ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective’:

The latter as deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as of its ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence is the effective basis for evaluating the ontological-veracity of all preceding reference-of-thought as of its deneuterising—referentialism that breaks-down the various neuterising to their basic human limited-mentation-capacity dynamics implications.

In this regard, their successive profoundness as of their ‘successive (uncircumscribing/undelineating-as-epistemic-totality with recurrent-utter-uninstitutionalisation) circumscribing-as-epistemic-totality-or-delineating-as-epistemic-totality existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology’ speaks of more and more profound convergence-as-of-accumulation of human-subpotency grasp of the full-potency of existence coherence/contiguity. It should be noted as well that the afore is

focused on the abstract reference-of-thought/epistemic-totalisation level of
 différance/internal-dialectics/difference-deferral, as it is actually reflecting ‘the backdrop
 construed as human sublimation-inducing—textuality/hermeneutics/possibilities-of-
 becoming-existential-interpretation/axiomatisation-of-existence’ for the effectively devolving
 différance/internal-dialectics/difference-deferral teleological process of meaningfulness;
 given that the abstract reference-of-thought/epistemic-totalisation level so-established rather
 enframes teleologically-devolving-as-drifting meaningfulness with regards to ‘social-stake-
 contention-or-confliction as of existential-instantiations dynamics among individuals and the
 social-collective’ construed from notional-deprocrpticism deneuterising, to fully reflect the
 ontological-veridicality of mental-states as of affirmation/projection/assertion/dueness-

 and unaffirmation/deprojection/de-assertion/undueness-invalidating-
 logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing
 stranding dialectics. For instance, reflecting in an early hunter-gatherer society the ‘candid
 existential expressiveness’ of how one is suffering from bad omen on the backdrop of its
 ‘recurrent-utter-uninstitutionalisation <formative>epistemic-
 totalising/circumscribing/delineating reference-of-thought-devolving—différance/internal-
 dialectics/difference-deferral’ construed as disambiguation its uninstitutionalised-threshold
 meaningfulness-and-teleology. Thus this will disambiguate, specifically ‘with regards to the
 ill-health <formative>epistemic-totalising-devolved—purview-as-domain-of-construal-as-
 intrinsic-reality/ontological-veridicality’ the recurrent-utter-uninstitutionalisation random-as-
 uncircumscribing/undelineating-as-epistemic-totality ‘existential—epistemic-totalisation-
 scheme-of-meaningfulness-and-teleology’, as it construes any ill-health issue as of the idea of
 bad omen given its ‘non-rules-as-impulsive-or-accidented-or-random-mental-disposition’.
 The uninstitutionalised-threshold as such, as of the reference-of-thought beyond-the-

consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, is the basis for determining both intemporal as well as temporal ontological-performances specifically as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’. This thus involves the disseminative-as-rearticulated <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving—différance/internal-dialectics/difference-deferral as conjugations as of intemporal-as-conviction ontological-performance and also as the various temporal-as-token-or-madeupness denaturing, all as conjugating variously to the very same implied reference-of-thought—categorical-imperatives/axioms/registry-teleology underlying idea of bad omen interpretation of recurrent-utter-uninstitutionalisation going by its random-as—uncircumscribing/undelineating-as-epistemic-totality ‘existential—epistemic-totalisation-scheme-of-meaningfulness-and-teleology’; and with this reflecting the metaphoricity of ‘social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective’. The foregoing conception of disseminative-as-rearticulated <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving—différance/internal-dialectics/difference-deferral is equally pertinent with respect to all the other registry-worldviews/dimensions reference-of-thought but rather as of their own given ‘candid existential expressiveness’ with regards to their own respective specific same reference-of-thought—categorical-imperatives/axioms/registry-teleology conjugations as intemporal-as-conviction ontological-performance and as various temporal-

as-token-or-madeupness ontological-performances’ by the respective underlying interpretations as evil-forest-bad-omen/failure-to-heed-the-Deity/full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation/and-further-factoring-in-socioeconomic,-education,-information,-environmental,-gender-and-power-relations-issues-underlying-healthcare-and-medical-delivery respectively as of their base-institutionalisation–ununiversalisation warped-consciousness, universalisation–non-positivism/medievalism preclusive-consciousness, positivism–procrypticism occlusive-consciousness and deprocrypticism protensive-consciousness, inducing their respective tendentious/qualifying/categorising/referentialism–circumscribing-as-epistemic-totality-or-delineating-as-epistemic-totality ‘existential–epistemic-totalisation-scheme-of-meaningfulness-and-teleology’; and so, respectively due to their rulemaking-over-non-rules, universalisation-directed-rulemaking-over-non-rules, positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules, and preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules. Insightfully, the foregoing points out that human meaningfulness-and-teleology is ‘a metaphoricity of social-stake-contention-or-confliction as of existential-instantiations dynamics among individuals and the social-collective that is fundamentally already an epistememic-totalising/circumscribing/delineating reference-of-thought-devolving—différance/internal-dialectics/difference-deferral as of the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality with the shifts in human meaningfulness-and-teleology induced by human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as of prospective relative-ontological-completeness-of-reference-

Overall, the emphasis here is as of a Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that is as of ‘various relative mentally-closed limited-mentation-capacity as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought’ as <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards ‘mentally-opened limited-mentation-capacity overcoming beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought’ <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and so as of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>; wherein as for the trepidatious-consciousness <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, ‘human mentally-closed limited-mentation-capacity as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought’ induced neuterising can be construed as

 the protensive-consciousness as apriorising/axiomatising/referencing—re-originariness/re-

epistemic-totality ‘existential—epistemic-totalisation-scheme-of-meaningfulness-and-teleology’ implied say as of post-structuralism factoring in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery’; as of deprocrypticism is as of deneuterising—referentialism. This analysis conveys the reality of human cross-generational institutional-cumulation/institutional-recomposure due to the impossibility of the very first humans as of their limited-mentation-capacity and yet inexperience/unaccumulated-experience to be able to reason more than their initial apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will permit as of their state of recurrent-utter-uninstitutionalisation ‘non-rules-as-impulsive-or-accidental-or-random-mental-disposition’, and hence their construal of meaningfulness-and-teleology as of ‘their relative neuterising’. Likewise the ultimate possibility of human cross-generational institutional-cumulation/institutional-recomposure as enabling the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of notional-deprocrypticism/pre-empting-of-disjointedness-as-of-reference-of-thought is the backdrop for deneuterising—referentialism enabling the full transparent ontologically-veridical elucidation of human meaningfulness-and-teleology construed as of historicity/ontological-eventfulness/ontological-aesthetic-tracing; as of the possibility of deneuterising. In the bigger scheme of things, as of the notional-conflatedness of notional-deprocrypticism as deneuterising—referentialism, what had hitherto been conceived notionally as logicism is herein exposed as effectively superseded by the notion of *différance*/internal-dialectics/difference-deferral so-construed as of ‘reference-of-thought-or-axiomatic-construct-devolving-as-of-ontological-reconstituting—as-of-conflatedness-*différance*/internal-dialectics/difference-deferral’ and as implied as-of-the-construal-of-*différance*/internal-dialectics/difference-deferral-of-meaningfulness-and-teleology; and so with respect to the more ontologically-veridical reality of human conceptualisation of meaningfulness-and-

teleology always from a position of limited-mentation-capacity as of prior relative-ontological-incompleteness-of-reference-of-thought, thus in need for its prior deepening so-captured in the ‘human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of the notional-conflatedness of notional-deprocrypticism *différance*/internal-dialectics/difference-deferral’ as transcendence-and-sublimity-enabling, whereas such a human limited-mentation-capacity implication is naively ignored with logicism in its metaphysics-of-presence/illusion-of-the-present/present-consciousness/mirage. Such a ‘human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of the notional-conflatedness of notional-deprocrypticism *différance*/internal-dialectics/difference-deferral’, by its insight with respect to the implications of human limited-mentation-capacity for ontologically-veridical meaningfulness-and-teleology construal, is best predisposed to grasp the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ as of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>reference-of-thought as this enables transcendence-and-sublimity, thus fulfilling the full implications of knowledge as of its ontologically-veridical knowledge-notionalisation and organic-knowledge nature. Fundamentally this all has to do with human limited-mentation-capacity, as if at a given originary/event-of-prospective-ontology-origination moment humankind-as-of-its-integrand-individuals had a profound-and-complete mentation-capacity, then human meaningfulness-and-teleology will be absolutely identitive with no implied-*différance*/internal-dialectics/difference-deferral-of-meaningfulness-and-teleology requiring as of existential-constraint human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as the

circular driving notion of *différance*/internal-dialectics/difference-deferral. *Différance* as internal-dialectics/difference-deferral, beyond just an ontological conception as expressed herein, had already always been existent notionally as a wholly internal process of human self-referencing-syncretism for prospective relative-ontological-completeness-of-reference-of-thought,-as-of-devolving-axiomatic-constructs as-so-reflected in ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ construed-as institutional-cumulation/institutional-recomposure, and with regards to the successive registry-worldview/dimension rearticulated as of temporal-to-intemporal ontological-performance of <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving. The notion of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought also highlights theoretically why the Husserlian epoché or bracketing method construed as eidetic reduction is ontologically-flawed by its constitutedness as it naively imply circumscribing-as-epistemic-totality/delineating-as-epistemic-totality meaningfulness-and-teleology for its essence in presence, rather than the fact that presence reference-of-thought as ‘metaphysics-of-presence is structurally/paradigmatically an ontologically-flawed bracketing or epoché as of ontological-normalcy/postconvergence, and is representing metaphysics-of-absence implications as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-narratives)’ when it comes to presence uninstitutionalised-threshold reference-of-thought in its relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing_qualia-schema>/relative-ontological-incompleteness-of-

reference-of-thought for meaningfulness-and-ontology ontological-performance, as well as ignoring prospective institutionalisation implications construed as of ontological-normalcy/postconvergence. Such an eidetic reduction is circularly constraint in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag at its given registry-worldview’s/dimension’s reference-of-thought without factoring in the phenomenological implications of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ as ‘Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology coherence/contiguity implications as of ontology’s-directedness-as-Being’, and thus fails to get to the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional-conflatedness of notional-deprocrypticism deneuterising—referentialism’ reflected by metaphysics-of-absence in the conception of meaningfulness-and-teleology ontological-performance which is as of the transcendental implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. The further insight here is that, such a most ontologically-complete profoundness/depth of ‘phenomenological transcendental-point-of-departure handle in-its-overcoming-of-neuterisation’ reflected by metaphysics-of-absence for the construal of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue points to a fundamental epistemic-break/epistemic-resetting; with the latter arising as a result of lack of ‘axiomatic commonness-in-sharedness of human meaningfulness-and-teleology with regards to the-very-

same-<formative>epistemic-totalising–purview-of-construal-as-immanent-
 existence/intrinsic-reality/ontological-veridicality’ as of the variance of uninstitutionalised-
 threshold prior relative-ontological-incompleteness-of-reference-of-thought and prospective
 institutionalisation relative-ontological-completeness-of-reference-of-thought. For instance,
 such epistemic-break/epistemic-resetting associated with the overall ontological-contiguity—
 of-the-human-institutionalisation-process necessarily explains the ‘mutually transversality-of-
 disambiguated-apriorising/axiomatising/referencing unintelligibility’ of the Galileos,
 Newtons, Diderots episteme articulating prospective positivising/rational-empiricism
 meaningfulness-and-teleology and the Establishment scholasticism medieval dogmatic
 episteme. The implication here is that the articulation of transcendence as of reference-of-
 thought is by itself tied up to a prospective epistemic disruption, construed as of soundness-
 or-authenticity-of-reference-of-thought, beyond just grounded knowledge as of the prior
 episteme which is rather construed as of unsoundness-or-inauthenticity-of-reference-of-
 thought. Such transcendental epistemic-breaks/epistemic-resetting arise because humankind
 is subpotent as of its knowledge-constructs/theories/intersolipsistic-intercessory-
 notions/notional-referential-notions/articulations/virtue to the full-potency of existence, and
 in the human construal/conceptualisation of intrinsic-reality/ontological-veridicality, the
 ‘superseding party’ is not any involved humans as knowledge agents but inherent existential-
 reality itself, with any such humans as knowledge agents only ‘pertinent in delegation’ as of
 their ‘kowtowing to existential-reality’, with such delegation inherently revoked as of their
 failed ‘kowtowing to existential-reality’. To the extent that human knowledge agents ‘achieve
 sufficient-and-recurrent credibility as of their knowledge methods and approaches’ with
 respect to social universal-transparency, an apparent episteme as of ‘axiomatic commonness-
 in-sharedness of human meaningfulness-and-teleology with regards to the-very-same-
 <formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-

reality/ontological-veridicality' arises as of institutional-being-and-craft. But then, where
 transcendental implications as of prospective institutionalisation prospective relative-
 ontological-completeness-of-reference-of-thought point to more profound reference-of-
 thought for construing/conceptualising existential-reality putting such a prior episteme in
 question, this induces a state of mutual ontological-bad-faith/inauthenticity between the
 prospective episteme and the prior episteme as of the lack of 'axiomatic commonness-in-
 sharedness of human meaningfulness-and-teleology with regards to the-very-same-
 <formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-
 reality/ontological-veridicality' with respect to social universal-transparency; and so more
 than just as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-
 of-existential-unthought, but further because as of human-subpotency–
 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, there is 'a drift from
 the ideal of knowledge agents only as 'pertinent in delegation' as of their 'kowtowing to
 existential-reality' towards a teleologically-degraded exercise of institutional-being-and-craft
 muddlement. It should be noted that such a notional construct of episteme interpreted herein
 is implied as of 'dynamic social <formative>epistemic-totalising–self-referencing-
 syncretising' across the entire social spectrum as of notional-episteme dynamically covering
 both informal institutional settings and formal institutional settings. In the bigger scheme of
 things, such transcendental epistemic-breaks/epistemic-resetting in transition associated with
 the ontological-contiguity—of-the-human-institutionalisation-process as of human-
 subpotency–aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor arise wherein 'the prior shaman is being contested by
 a new shaman in a hunter-gatherer society' with possible accusations of witchcraft as of

institutionalised-being-and-craft, wherein ‘two or more traditional priesthoods of an early civilisation foment against one another’, wherein ‘sophistry and philosophy vie for what passes as valuable and true knowledge’, wherein ‘medieval scholasticism dogmatic knowledge and positivism/rational-empiricism knowledge vie for the interpretation of human and physical nature’, and in our case wherein ‘knowledge traditions including philosophical traditions are put into question as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, antinihilism and transcendental-enabling/sublimating knowledge perspectives’. Ultimately, this point out that epistemic-breaks/epistemic-resetting become inevitable wherein the prior knowledge episteme paradigmatically/structurally loses its way as of its initial justification as safeguarding the prospective possibility of enlightening human knowledge as of ontology’s-directedness-as-Being, but then by its institutional-being-and-craft uninstitutionalised-threshold actually paradigmatically/structurally beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought undermines the prospective possibility of prospective enlightening human knowledge; and so, as increasingly the prior epistemic disposition is one that overlooks prospective inherent transcendental-enabling/sublimating of meaningfulness-and-teleology ontological-performance turning rather towards social-aggregation-enabling implications as meaningfulness-and-teleology ontological-performance, undermining the very notion of the intellectual exercise as about developing/institutionalising the social and not kowtowing-to-it construed as charlatanism! Further in all such transcendental contexts despite the fact that the-new is derived from the-old as for instance the Descartes, the Galileos, the Leibnizes and the Newtons as budding positivists are the outcrop of Scholasticism itself, the-new epistemic-break/epistemic-resetting is justified in that even the-old is predicated on upholding Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-

infrastructure-of-meaningfulness-and-teleology as of ontology's-directedness-as-Being going by the human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. Insightfully, that exercise is actually reflected as of temporal-to-intemporal individuations wherein the individual is rather a receptacle of temporal-to-intemporal individuations with variance of mental-dispositions among individuals an issue of variance as of skewness towards temporality/shortness or intemporality; such that even the budding positivists carried elements of scholasticism but were more definitely of a positivistic outlook, and many scholastics articulated notions which could more fruitfully be developed in a positivistic outlook but were stifled by their scholasticism dogmatic intellectual commitments. In effect, human limited-mentation-capacity however the institutionalisation-level as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor implies that it is impossible for the intemporal projection as longness-of-register-of-meaningfulness-and-teleology that prospectively construes of successive frameworks of 'reference-of-thought—devolving-teleological-structure-of-meaningfulness as of implicated-and-explicated reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue' as of the specific institutionalisation, to ensure that human meaningfulness-and-teleology ontological-performance will remain intemporal-as-ontological as of their reference-of-thought—categorical-imperatives/axioms/registry-teleology given 'the impossibility of overcoming the abstract human seed of temporality/shortness dynamically involved, as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, in a formulaic-non-conviction

deterministic relation with such reference-of-thought–categorical-imperatives/axioms/registry-teleology by <formative>wooden-language—of-temporal–mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives thus failing to uphold intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’. Thus the ontological effectiveness of such intemporal-projection as longness-of-register-of-meaningfulness-and-teleology lies rather in undermining the existential possibility of the successive uninstitutionalised-thresholds/uninsitutionalisations as of bringing about prospective relative-ontological-completeness-of-reference-of-thought driven by ontological-faith-notion-or-ontoligical-fideism thus inducing social universal-transparency which renders untenable temporality/shortness as of the given uninstitutionalised-threshold instigated from the prior institutionalisation’s reference-of-thought–categorical-imperatives/axioms/registry-teleology denaturing; as implied with base-institutionalisation prospective relative-ontological-completeness-of-reference-of-thought over recurrent-utter-uninstitutionalisation, universalisation prospective relative-ontological-completeness-of-reference-of-thought over base-institutionalisation–ununiversalisation, positivism prospective relative-ontological-completeness-of-reference-of-thought over universalisation–non-positivism/medievalism, and prospectively deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought over positivism–procrypticism. Such that we can garner that it is a positivism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness-of-reference-of-thought social universal-transparency that makes it untenable for non-positivism/medieval temporal mental-dispositions to elicit non-positivism/medieval implied temporality. Likewise, prospectively it is a deprocrypticism registry-worldview’s/dimension’s institutionalisation prospective relative-ontological-completeness-of-reference-of-thought social universal-transparency that can render it untenable for procrypticism temporal mental-dispositions to elicit

procrypticism/disjointedness-as-of-reference-of-thought implied temporality. Thus
 aetiologisation/ontological-escalation is not about transforming the reality of human-
 subpotency–aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor as overcoming temporality/shortness inherently, but
 rather it is about bringing about prospective relative-ontological-completeness-of-reference-
 of-thought. The reality of huma registry-worldview’s/dimension’s institutionalisation and
 uninstitutionalised-threshold mental-dispositions imply that at the uninstitutionalised-
 threshold prospective institutionalisation knowledge as transcendental-enabling/sublimating
 is not socially integrated directly as of an <formative>epistemic-growth/transvaluative-
 rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness exercise engaging
 with intemporal-as-ontological meaningfulness-and-teleology. Such prospective intemporal-
 as-ontological meaningfulness-and-teleology is not necessarily perceived at the
 uninstitutionalised-threshold as any more pertinent for attaining social approbation than other
 temporal meaningfulness-and-teleology as of the said uninstitutionalised-threshold. This
 point out that maximalising-recomposuring-for-relative-ontological-completeness mental-
 dispositions in their intemporality/longness or longness-of-register-of-meaningfulness-and-
 teleology are as of a projected-or-anticipated conflatedness of social universal-transparency
 for institutional and formal deferential-formalisation-transference as of percolation-
 channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>. That is at the
 uninstitutionalised-threshold such intemporal-as-ontological meaningfulness-and-teleology is
 pragmatically expounded socially not in terms of its inherent <formative>epistemic-
 growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness
 ideal which is socially-too-abstract but rather as a structuring/paradigmatic secondnatured
 construct of positive-opportunism as of institutional and formal deferential-formalisation-

transference percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> to attain social approbation. It is such a 'conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> to attain social approbation' that holds together in social universal-transparency temporal-to-intemporal solipsistic mental-dispositions as of a given secondnatured institutionalisation. Out of such a conflatedness structuring/paradigmatic secondnatured construct, intemporal-as-ontological meaningfulness-and-teleology is not necessarily perceived as any more pertinent for attaining social approbation than other temporal meaningfulness-and-teleology. In other words, the ideal articulation of base-institutionalisation meaningfulness-and-teleology in recurrent-utter-uninstitutionalisation, just as that of universalisation in base-institutionalisation–ununiversalisation, positivism/rational-empiricism in universalisation–non-positivism/medievalism, and prospectively deprocrypticism in positivism–procrypticism; are only pertinent for attaining social approbation as of their conflatedness structuring/paradigmatic secondnatured construct of positive-opportunism of institutional and formal deferential-formalisation-transference as of percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>.

This highlights that from the perspective of immediate-or-short-run social approbation, it is simpler though ontologically flawed as of constitutedness to engage a registry-worldview/dimension at its uninstitutionalised-threshold rather by an incrementalism-in-relative-ontological-incompleteness mental-disposition on the basis of its prior relative-ontological-incompleteness-of-reference-of-thought or its same metaphysical framework of contention rather than adopting at its uninstitutionalised-threshold a more complex but ontologically-veridical maximalising-recomposuring-for-relative-ontological-completeness mental-disposition on the basis of the prospective relative-ontological-completeness-of-

reference-of-thought or superseding metaphysical framework of contention as of conflatedness. That is, engaging a non-positivism registry-worldview/dimension meaningfulness-and-teleology with respect to say notions-and-accusations-of-sorcery on its same terms in case of an accusation of sorcery to imply the other is the sorcerer, etc. will sound more credible as of its <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> in a non-positivism social-setup than say projecting to prospective positivism registry-worldview/dimension meaningfulness-and-teleology and implying that notions-and-accusations-of-sorcery are not real speaking of both the defect of such accusation and the defective superstitious <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> in the non-positivism social-setup. Ultimately, such a profound phenomenological <formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance construal faced with the inherent dogmatic and psychological biases of human <formative>epistemic-totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances) in many ways necessarily has to project out of ‘ordinariness of thought’ for pretence of arriving at a sound construct capable of a most profound reflection of social ontological-veridicality. Consider with respect to a most profound emotional-involvement the issue of human imperilment as a test for the capacity for such requisite depth of transcendental contemplation. Consider for instance that tens of millions including soldiers killed in both the first and second world wars pass for mere

victims of the wars in a bizarre twist of mutual <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that shuts-off-the-mind to the odious reality of mutual genocide, to say the least. Consider that in Russia a dictator responsible for killing about 25 millions of his own citizens is still considered a national hero by the majority. Consider that the first president of the United States in position of power was a slave-owner thus encouraging the Atlantic slave trade that led to genocidal proportions of deaths but he is venerated by a majority as the greatest U.S. President. Consider in a different sense though non-exculpatory that Heidegger a leading intellectual joined the Nazi party leaving 2 years later with hardly any critical influence on the party and is universally condemned today. Consider as well that many an intellectual or public figure today actively or passively voiced for the recent wars killing millions whether in the Middle-East or elsewhere with a corresponding social indifference and mental shut-off. These profound considerations highlight the contemplative depth to which the social thinker needs to get to in order to truly be engaged in a transcendental-enabling/sublimating ontological-primemovers-totalitative-framework construal as implied with notional-deprocrypticism as preempting—disjointedness-as-of-reference-of-thought and so be able to keep their head up from drowning in human <formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances) in order to be able to produce ‘veridical ontology’ on a same parity as nature constrains on the natural sciences. Effectively, such transcendental insight points out that existence/existential-possibilities is inherently a radical ontology beyond our <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existence/existential-possibilities as ‘hyperbolic pretences of ontology’. This author thinks that there can effectively be an engaging and constructive approach for arriving at such a depth of radical ontology warranted

by existence/existential-possibilities that is transcendental-enabling/sublimating for the social avoiding the platitudes of our times such that many an intellectual have even given up to ‘this all-powerful emotional-involvement element of the social’. Human <formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances) implies the need for a sound perpetuating construct of universal projection as intemporality-or-longness-of-register-of-meaningfulness-and-teleology as the opportunity for prospective transcendental-enabling/sublimating. Such a construct is a ‘response construal’ that inherently enables transformative universal implications as beyond presence issues and complexes as it sublimates presence out of its failure. This is unlike the all too frequent construct of ‘reactionary construal’ caught up in presence as it is presence-serving, and so whether as of positive or negative reaction; as even as a positive act a reactionary construal is hardly universalisable thus hardly as of aetiologicalisation/ontological-escalation. A hero as of a positive ‘reactionary construal’ may perfectly prevent a crime from happening and save the day but then such action is not dependable and the outcomes are unreliable as well together with the possibility on occasion of wrong judgement and/or wrong action or usurpation; thus the social construction of crime prevention needs an intellectualised social ‘response construal’ mechanism of universal implication that ensures dependability of crime prevention as of the foresight of law and policing management construed as of an intemporal-as-ontological intellectual projection exercise. This same depth-of-thought is warranted across the dynamic scope of the social including the political for true transcendental-enabling/sublimating beyond normative conventioned constructs bound to hold-up the possibility of prospective ‘visions of humankind emancipation’. Such a depth of contemplation will fathom for instance that humankind appeared on earth about 100000 years ago but the pervasive structural/paradigmatic determinism of the nation-state which became

common just about 500 years ago has been a source of much of humankind's problems as of 'reactionary construal' and humankind's constitutedness to the notion of nation-state seems to create an impasse for human Being-and-contemplative development. Consider again the possibility capable of arising as of a 'response construal' as effectively articulated by Derrida in his analysis of spirit. Derrida grasps that Heidegger strove to produce universal human meaningfulness-and-teleology but was caught up in the <formative>epistemic-totalising–thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances) as spirit failed to universalise and so Heidegger couldn't carry the effective implications of his work to its true universal conclusion as he was caught up in the 'reactionary construal' of them-and-us, as his commitment to the 'us' overlooked/didn't-come-into-grips with what the 'us' was doing, not to mention the possibility of him actually acting as transcendental over the them-and-us as a position of making a universal 'response construal'. This problem isn't particular to Heidegger but for the fact that the underlying regime of 'us' were the Nazis, as the them-and-us logic is intellectually rampant such that even Derrida was being condemned by many for not adopting it. The question can be asked whether any genuine intellectualism as providing a 'response construal' for humankind overall can construe of emancipation meaningfulness-and-teleology in them-and-us basis and whether this isn't a recipe for potential disaster as all them-and-us rationale are just variances of the same insanity! We can imagine that a true understanding and universal application of Derrida's spirit insight as a 'response construal' could have educated thought-and-intellectualism and prevent say the subsequent Rwanda and Burundi genocides in Africa from occurring with many supposedly normal and educated persons caught up in the overall mobbishness; but such a lesson can hardly come out from the prevalent them-and-us lazy intellectualism 'reactionary construal' which simply provides <formative>epistemic-totalising–self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag comfort to protagonists by its lack-of or pseudo universal projection. Basically, a phenomenological extended metaphysics-of-absence as of notional-deprocrypticism perspective points out that humankind does have the possibilities of adopting an uninhibited/decomplexified posture for ‘inventing’ a whole new renewal/re-perceiving/re-thinking beyond our apparently constricted metaphysics-of-presence framework which in reality is just presence ‘hyperbolic dazing effect’ utterly distinct from the radical ontology possibilities of existence/existential-possibilities. Transcendence as implied here is with regards to reference-of-thought/epistemic-totalisation level ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ which is the ‘ontologically veridical enabling notion of transcendence’ as of the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality in epistemic conflatedness as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought. Such a conceptualisation of transcendence is actually what a Kantian transcendental imagination and other subsequent philosophies of transcendence it inspired would have strove to arrive at, but according to this author wrongly understood transcendence rather as of ‘phenomenal-abstractiveness’ as the basis/grounding to then construe/conceptualise meaningfulness-and-teleology failing to factor in that ‘existential phenomenal-abstractiveness conflates-in-effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology all the way to consciousness as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of meaningfulness-and-teleology to then arise on the basis of such a given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; given that it is consciousness that teleologically-registers/recognises phenomenal-abstractiveness as of meaningfulness-and-teleology in addition to the implications thereof with regards to the

varying-as-transcending nature of consciousness with human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) arising in further conflatedness as of human maximalising-recomposuring-for-relative-ontological-completeness in an exercise of ⟨formative⟩epistemic-totalising–renewing-realisation/re-perception/re-thought that re-projects-or-re-anticipates the-very-same-⟨formative⟩epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, and so as of a retrospective to prospective insight. Hence such philosophies failing to grasp that phenomenal-abstractiveness is ultimately as of ‘a conflatedness and so construed from the perspective of ⟨formative⟩epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing’ actually ended up inducing constitutedness in striving to construe meaningfulness-and-teleology vaguely from phenomenal-abstractiveness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity. Consciousness as the enabling point-of-focus for ‘human-subpotency existential meaningfulness-and-teleology ontological-performance’ as of maximalising-recomposuring-for-relative-ontological-completeness induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights is actually the conflatedness point-of-focus that registers-as-of-meaningfulness-and-teleology all human phenomenal-abstractiveness whether as derived from sense organs like eyes construed specifically as sight ontological-performance, the ear construed specifically as hearing ontological-performance, etc., derived from embodied phenomenal-abstractiveness like health/illness ontological-performance, vigour/tiredness ontological-performance, etc., and/or derived from mind phenomenal-abstractiveness like thought ontological-performance, emotional ontological-performance, etc.; and so-registered

notions/articulations/virtue', the constitutedness of the Kantian understanding of concepts and intuitions as being mutually dependent for meaningfulness-and-teleology articulation. In other words, constitutedness tend to fallaciously imply existence-in-existence or existence-of-things-in-existence whereas conflatedness rightly implies becoming-in-existence-rather-as-subsumed-in-existence or things-becoming-in-existence-rather-as-subsumed-in-existence as of underlying 'coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) or 'consciousness's ontological-performance construed in amalgamation as of the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality'. This notion of conflatedness construal of existence as of becoming-in-existence-rather-as-subsumed-in-existence is critical in that all notions that naively imply an intercession between human becoming and existence construed as existence-in-existence, such as the transcendental ego perspective, end up in constitutedness as the said 'transcendental ego cannot invent existence as if preceding existence' thus inducing constitutedness. Rather existence—as-the-absolute-a-priori-of-conceptualisation is by itself construed as 'the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality with nothing else outside or preceding it'; as existence is an implied-axiomatic-construct-construed-as-reference-of-thought as an implied-theory, with the 'implied about existence' arising as of a given/specific apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of a given

human limited-mentation-capacity implied registry-worldview/dimension consciousness, such that meaningfulness-and-teleology is as of existence's implied axiomatic-devolving-teleological-structure-of-meaningfulness-as-of-instantiative-context with no meaningfulness-and-teleology construable outside it but for an epistememic-totalising-renewing-realisation/re-perception/re-thought of prospective 'apriorising/axiomatising/referencing/intelligibility setup/measuring instrument reference-of-thought' as of human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) implied prospective registry-worldview/dimension consciousness and its corresponding existence's the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality implied axiomatic-devolving-teleological-structure-of-meaningfulness-as-of-instantiative-context, with no meaningfulness-and-teleology outside or preceding it. Thus conflatedness warrants that human-subpotency becoming is amalgamated as of existence as of the underlying 'coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for appropriate construal of meaningfulness-and-teleology ontological-performance. The insight here is that we can't be at a posture of prior relative-ontological-incompleteness-of-reference-of-thought in relative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> of the the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-

veridicality and then pretend to ground meaningfulness-and-teleology about the nature of existence as if we are of ontological-completeness-of-reference-of-thought in ontological-contiguity as of the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, as our state of relative-ontological-incompleteness perverts that grounding objective and rather points to the need for an notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> induced psychoanalytic-unshackling towards a prospective state of prospective relative-ontological-completeness-of-reference-of-thought. What is fundamentally warranted is priorly attaining psychoanalytically, as of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, ontological-completeness-of-reference-of-thought in ontological-contiguity of the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, rather than a flawed attempt at grounding as with say a transcendental ego basis of construal of meaningfulness-and-teleology, unsuspectedly grounding as of our positivism-procrypticism prior relative-ontological-incompleteness-of-reference-of-thought; as such a role is simply undertaken by conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought and is rather construed then as of such prospective underlying ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) for appropriate meaningfulness-and-teleology ontological-performance. Such a conflatedness insight as of

notional-deprocrypticism rather points out that soundness-or-authenticity of meaningfulness-and-teleology ontological-performance arises as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology involving the ontological-contiguity—of-the-human-institutionalisation-process induced various consciousnesses up to the protensive-consciousness enabling transcendental centered—epistemic-totalisation, as of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). Actually, this author holds that the very fundamental handicapping issue to meaningfulness-and-teleology as of the philosophical tradition lies in the naïve human mental-reflex of implying that ‘a given human determination of the effecting basis/foundation/axiomatic-construct derived/deciphered from existential-instantiations as underlying the presence institutionalisation <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology carries-and-reflects all the depth/profoundness of existence/existential-possibilities’, thus not allowing for the possibility for further imbricatedness/threadedness/recomposuring as of existence/existential-possibilities of existential-instantiations outside any such reference-of-thought determination; such reference-of-thought determination being affixed rather in constitutedness as of any of the various registry-worldviews/dimensions specific underlying apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought such as ‘non-rules-as-impulsive-or-accidented-or-random-mental-disposition of recurrent-utter-uninstitutionalisation’ not cognisant of the conflatedness possibility of prospective base-institutionalisation prospective relative-ontological-completeness-of-reference-of-thought, ‘rulemaking-over-non-rules of base-institutionalisation—ununiversalisation’ not cognisant of the conflatedness possibility of prospective

 the consequence that its constitutedness, since it doesn’t allows for superseding
 existence/existential-possibilities, now ‘contradictorily-and-naively supersedes-and-is-
 determinative-of existence itself’ rather than taking its cue from the conflatedness of
 existence/existential-possibilities given the imbricatedness/threadedness/recomposuring of
 existential-instantiations and as reflected at registry-worldview/dimension depth of construal

 is not as of ontological-contiguity and ontological-veracity. Thus the problem of the
 philosophical tradition is notionally one of erroneous constitutedness, and this issue is

shallow to deepening limited-mentation-capacity due to inherent human temporality/shortness and intemporality/longness across all registry-worldviews/dimensions, and speaks of a human existential-extrication-as-of-existential-unthought disposition reflected as historicity/ontological-eventfulness/ontological-aesthetic-tracing as of the notional-conflatedness of notional-deprocrypticism behind the reality of a conceptualisation of human nature rather more completely as of institutionalisation and uninstitutionalised-threshold mental-dispositions. As highlighted before: consciousness is the point-of-focus <formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historicity/ontological-eventfulness/ontological-aesthetic-tracing ontological-performance, so-derived as it solipsistically constructs-and-reconstructs underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and developing meaningfulness-and-teleology as of understanding/reconstruing/correcting/adapting/maturing, taking its cue from the conflatedness of existential-instantiations successions as it construes of existence/existential-possibilities as living-being. Such ‘focusing construed as consciousness’ explains why axiomatic-constructs are explicited and implicated/intuited as of a living-being <formative>epistemic-totalising-conflated-meaningfulness-and-teleology in coherence/contiguity-of-superseding–oneness-of-ontology. The above conception fundamentally underscore the development and how all human knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-

notions/articulations/virtue arises existentially as of consciousness, and is singularly reflected as of language development which is the ‘signifying mirroring’ of human meaningfulness-and-teleology. The implication here is that meaningfulness-and-teleology as of ‘existential self-referencing’ and ‘existential syncretising-effecting’ construed as <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag corresponds to language as of its ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct’ and its ‘metaphoricity’; in reflecting how human social-stake-contention-or-confliction induces human transcendence-as-of-full-transcendental-potential underlying knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue. Consciousness, and as reflected by the signifying mirroring of meaningfulness-and-teleology that is language, is thus a point-of-focusing axiomatic/reference-of-thought devolving-construal disposition for meaningfulness-and-teleology as of the ‘human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration enabled by human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)’ that speaks of ‘meaningfulness-and-teleology accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as the human species consciousness-différance’, reflected by notional-deprocrypticism conceptualised historicity/ontological-eventfulness/ontological-aesthetic-tracing as of the conflatedness of the successive human consciousnesses ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’. Thus consciousness by its full development as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology speaks fundamentally of the entire narrative possibilities of the human species as of human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-

interpretation/axiomatisation-of-existence. Such ‘consciousness conflatedness of meaningfulness-and-teleology’ is reflected by the signifying mirroring of meaningfulness-and-teleology that is language as of its metaphoricity. Metaphoricity can thus be construed as the signification of articulated meaningfulness-and-teleology as of reference to existential-instantiation contexts adjunctively and not as naturally devolving into the ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ as signification of reference-of-thought, such that metaphoricity is rather an ‘adjunctive incorporation’ to the ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’. The ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ as of its self-referencing meaningfulness-and-teleology is always susceptible to the further deepening of human limited-mentation-capacity as of <formative>epistemic-totalising–renewing–realisation/re-perception/re-thought such that prospective meaningfulness-and-teleology arises out of the adjunction to this ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and is adjoined to it as metaphoricity, with metaphoricity construed as the signification implied as of syncretising–effecting meaningfulness-and-teleology. Thus language effectively reflects the <formative>epistemic-totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag reality of human meaningfulness-and-teleology, as language is always a blending of the ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ with the conflatedness adjunction of its metaphoricity. It is interesting to grasp here that a signifying-construct as signification of ‘the self-referencing of meaningfulness-and-teleology’ is always <formative>epistemic-totalising/circumscribing/delineating and is effectively signifying a reference-of-thought as of ‘reference-of-thought—devolving-teleological-structure-of-

 meaningfulness-and-teleology construed as reference-of-thought, and its signification as
 implied by an 'underlying <formative>epistemic-totalising/circumscribing/delineating

 teleology is as of a 'coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-

 budding positivism/rational-empiricism in medieval society, may turn out in-due-

course/cross-generationally to be of an even greater meaningfulness-and-teleology <formative>epistemic-totalising/circumscribing/delineating effect over the prior notion of the ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and thus prospectively become the ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’; and so as of accreting-substitutive-subsumption-as-futural-différance-freeplay, by SUBSUMING some significations of the prior ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ together with some adjunctive-metaphoricity-significations of the prior ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’, while ELIMINATING some significations of the prior ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-significations of the prior ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’, and finally LEAVING-OUT some significations of the prior ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and so together with some adjunctive-metaphoricity-significations of the prior ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’, as its very own as the prospective ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ adjunctive-metaphoricity-significations to which other adjunctive-metaphoricity-significations could be incorporated adjunctively. Effectively, with the positivism/rational-empiricism self-referencing <formative>epistemic-totalising/circumscribing/delineating construct of meaningfulness-and-teleology, its adjunctive-metaphoricity-signification can be construed as of the historicity/ontological-eventfulness/ontological-aesthetic-tracing of cross-generational positivism/rational-

 of language’ ‘behind the instigative-drive for construing all human knowledge’ by such
 enlightenment thinkers like Galileo and ubiquitously with Descartes that rolled-over into later
 thinkers like Leibniz, Newton, and ultimately subverted medievalism and scholasticism
 leading to our present positivism/rational-empiricism dominant <formative>epistemic-
 totalising/circumscribing/delineating construct of meaningfulness-and-teleology. Existence
 itself as the absolute a priori underscores such a conception given the human species
 sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-
 interpretation/axiomatisation-of-existence as of existential-stakes migration; since the
 existential dispositions of human subjects relative to social-stake-contention-or-confliction
 arises as of ‘their living existential-instantiations’, and where they construe meaningfulness-
 and-teleology as not self-referentially covered by the ‘underlying <formative>epistemic-
 totalising/circumscribing/delineating signifying-construct of language’, they will inevitably
 articulate adjunctive-metaphoricity-significations to that prior ‘underlying
 <formative>epistemic-totalising/circumscribing/delineating signifying-construct of
 language’. This explains the lockstep nature of human meaningfulness-and-teleology and
 language, with the latter as the former’s signification mirroring, such that institutional-
 cumulation/institutional-recomposure is actually as of ‘accreting-substitutive-subsumption-
 as-futural-différance-freeplay construed here as of ‘intemporal ontological-faith-notion-or-

regards to ‘human species sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence as of existential-stakes migration’, and speaks of a non-speculative, non-imaginary, theoretical, conceptual and operant construal of an internal-dialectic in existential-contextualising-contiguity/Derridean-différance/Sartrean-existence-precedes-essence/Heideggerian-essencing-as-of-the-ontological-difference construed as of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). Such adjunctive-metaphoricity-significations conflatedness ⟨formative⟩epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity mirror the syncretising-effecting as of the acculturation-indigenisation-pidginisation behind dialectal differentiation, national language formation, and the cultural diffusion associated pidginisation and creolisation; as of social-stake-contention-or-confliction context adjunctive-metaphoricity-significations conflatedness induced ‘underlying ⟨formative⟩epistemic-totalising/circumscribing/delineating signifying-construct of languages’. In another respect with regards to language acquisition as mirroring a child’s existential integration into the dynamics of social-construct existential situations/instances, stakes, institutions and processes, a new born child existential integration into society, from its perspective, develops as of a dynamics of adjunctive-metaphoricity-significations in ‘significations accreting-substitutive-subsumption-as-futural-différance-freeplay construed here as the phenomenology of human language acquisition différance’ that fundamentally mirror the child’s developing existential social relationships as an ordered process of social existential overtures constraining-and-cohering the child’s adoption-of/integration-with the supposedly ‘underlying ⟨formative⟩epistemic-totalising/circumscribing/delineating signifying-construct of language’ as of a peculiar, intuitive and dynamic developing metaphoricity where ‘both the child and members of the overall social-construct existentially adjust to each other as of

spurious meaningful utterances like mutual babbling and baby-talk' while implicitly converging towards the child's adoption/integration at various stages of its existential development of the 'underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' as it is reflected by the dynamics of social-construct existential situations/instances, stakes, institutions and processes. But then as might be phenomenologically appreciated the notion of language as of its existential import is thus utterly dynamic as an overall signification construct that is never 'absolutely present' but rather 'immensely existentially present' with an 'absolute language signification construct imagery rather implied as of projection/anticipation but not phenomenologically real' explaining the concrete variation of individuals linguistic performance, as the phenomenality of language is rather held together by 'the given social-setup underlying supposedly coherent ontological-commitment for its evolving-and-devolving construct of meaningfulness-and-teleology'! Thus phenomenologically, 'language arises, ebbs and flows as of a continuously-elusive individual and collective-social consciousness steering that reflects the <formative>epistemic-totalising-self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag dynamics of individual and collective-social meaningfulness-and-teleology', and this equally explains why language evolves and transforms over time. In effect, 'language is never phenomenologically the complete possibilities of language as an absolute present conception but is rather a becoming as of an immensely-existentially-present signification reflected by individuals and the collective-social along existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes'. The above insight further points out the pertinence of construing-of and analysing language more completely as of human existentialism/throwness/facticity, giving that language is more phenomenologically-and-pragmatically a signification accompaniment of 'individuals and the collective-social along

existential development stages as of the dynamics of social-construct existential situations/instances, stakes, institutions and processes'. This highlights the 'knowledge implications as of accreting-substitutive-subsumption-as-futural-différance-freeplay with regards to such a phenomenological conception of language as a lockstep veridical reflection of human personality development all along the various existential stages as of a notion of the dynamics of social-construct existential situations/instances, stakes, institutions and processes from childhood to adulthood', notwithstanding the fact that the privileged social conceptualisation of language is as of 'language as the complete possibilities of language as of an absolute present conception usually of a privileged end-institution purpose'. Metaphoricity is thus rather construed as of its overall conflatedness <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of full consciousness development as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology underlying human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence, beyond just mere figurativeness but as of figurative projected implications of individuals and the collective-social meaningfulness-and-teleology as of their peculiarity/differentiation to the entire textual/hermeneutical rhetorical-stylistic-semantic delivery, and as such metaphoricity induces <formative>epistemic-totalising/circumscribing/delineating signification in producing, as of accreting-substitutive-subsumption-as-futural-différance-freeplay, 'underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language' and together with its associated adjunctive-metaphoricity-significations. Overall, human explicit and implicit signification as of language as articulated above is equally reflected in human aesthetics/arts like music and even science. Ultimately, human adjunctive-metaphoricity-significations conflatedness reflecting syncretising-effecting superseding of

human self-referencing signifying-constructs as of the need to supersede the limited certitude as of human limited-mentation-capacity, inherently implies that the possibility for ‘absolute certitude as of its theoretical possibility’ lies with such an adjunctive-metaphoricity-significations conflatedness as of syncretising-effecting as ultimately converging towards a deprocrypticism or preempting—disjointedness-as-of-reference-of-thought and so as of the prospect of an ontologically-veridical Theory of Everything, and insightfully with regards to elucidating the pervasiveness of ‘accreting-substitutive-subsumption-as-futural-différance-freeplay construed as différance in conflatedness’ associated with human existential grasp of knowledge as of the implications of its limited-mentation-capacity. The notion of accreting-substitutive-subsumption-as-futural-différance-freeplay as underlying human limited-mentation-capacity induced différance highlights the phenomenological reality all along humanity’s existence of ‘the privileging of ontological-construction’ as from the perspective/framing/reference/horizon of the end-purpose of the various relevant dominant social agencies and social institutions, and so as reflected as of humanity’s existence historicity/ontological-eventfulness/ontological-aesthetic-tracing. While such a privileging as of immediate/instant existential implications like say parents and society privileging the conception of what is language in terms-as-of-axiomatic-construct of its end-purpose as of the perspective of the child’s integration in various social structures and institutions; however, in the bigger picture the fact that social structures and social institutions dysfunction as of human limited-mentation-capacity, point to the ‘ontological-veracity of fundamentally re-evaluating the pertinence of only-a-social-and-institutional-end-purpose-perspective/framing/reference/horizon driven basis for ontological-construction’, and so as of a putting into question exercise. Ultimately, such privileged perspective/framing/reference/horizon as of its ‘non-recording and negation’ of a ‘diverse-and-complete existential effecting possibilities accountability for ontological-construction’,

and rather assuming the approach of a ‘select privileged historicity/ontological-eventfulness/ontological-aesthetic-tracing ontological-construction’, instead incompletely portrays the operant reality of humanity’s existence as of the cumulation of successive humanity’s

<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

as implied with the various institutionalisations finalities. But then while that is pertinent, and so with regards to the successive institutionalisations outcomes of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism

<formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’

as successive transcendental outcomes, so reflected by the historicity/ontological-eventfulness/ontological-aesthetic-tracing; this doesn’t reflect an inherent *différance* operant phenomenological process reality. Such a reality is actually reflected as of accreting-substitutive-subsumption-as-futural-*différance*-freeplay as of transversality-of-disambiguated-apriorising/axiomatising/referencing of various temporal-to-intemporal perspectival existential amalgamation that structurally/paradigmatically reflect the dynamics of human ontologically-veridical construals and misconstruals towards transcendence. Accreting-substitutive-subsumption-as-futural-*différance*-freeplay is thus reflective of the fulsome humanity existential ontological-conceptualisation dynamics than just as of the select ontological-veracity of the privileged as dominant social and institutional end-purpose perspective/framing/reference/horizon. Consider in this regard supposedly that ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs reflect an historicity/ontological-eventfulness/ontological-

aesthetic-tracing as transcendental outcomes of such *différance*, accreting-substitutive-subsumption-as-futural-*différance*-freeplay is not only about the successive <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as *différance* transcendental outcomes as of ‘developed classical mechanics’ and then ‘developed theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs’ as of their prospective relative-ontological-completeness/relative-ontological-contiguity as axiomatic-constructs of ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, but will grasp the deeper-level phenomenological insight with regards to all the background efforts and contributions that ultimately brought about these two successive <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construed as the historicity/ontological-eventfulness/ontological-aesthetic-tracing of the *différance*. The implication here resonates with the idea that knowledge is much more than the construal of conceptual knowledge outcome, but rather its construal as notional-knowledge involving the dynamic understanding of both its temporality/misconstrual and intemporality-as-ontological-construal as of accreting-substitutive-subsumption-as-futural-*différance*-freeplay involving specifically disambiguation as of human limited-mentation-capacity dynamics as of deneuterising—referentialism and thus beyond neuterising’ reflecting the difference-in-nature/difference-in-apriorising-or-axiomatising of the uninstitutionalised-threshold and the prospective institutionalisation; as the ‘effecting implications of knowledge’ are more than just about its conceptualised intemporality-as-ontology but involves grasping this together with the implications of temporality, and so because of the circular existential implications of human limited-mentation-capacity. Hence language can be more pertinently construed ontologically as of the social dynamics of existential meaningfulness-and-teleology

signification than just as of just an outcome privileged institutional end-purpose perspective/framing/reference/horizon that is in many ways ad-hoc and phenomenologically un insightful as of the many existential implications behind comprehending language. Thus human privileged social and institutional end-purpose perspective/framing/reference/horizon tend to be in constitutedness. Further such accreting-substitutive-subsumption-as-futural-différance-freeplay is the existentially veridical and effective basis for reflecting historicity/ontological-eventfulness/ontological-aesthetic-tracing transcendental outcome as can be implied in a storied-construct/ontologically-valid-narration as of existentially insightful meaningfulness-and-teleology. Such a perspective should possibly usher in a ‘suprastructural postmodernism in everything’ including such nascent contemplations for breaking out of currently perceived subject-matter doldrums as implied with postmodern social sciences, postmodern humanities, postmodern art, postmodern science, postmodern mathematics and postmodern physics, and so notwithstanding a history of post-structuralism critiques of ontological-bad-faith/inauthenticity ‘with moronic incantations that fail the mark of even bad intellectual arguments as social-aggregation-enabling invocations’, granted as of their beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought; as such a statement is not gratuitous given the mere fact that where knowledge-as-of-organic-knowledge as of human intemporality/longness doesn’t take its due place, it is occupied by ignorance as of human temporality/shortness with consequent nefarious ramifications for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Basically, just as the adjunctive-metaphoricity-signification instigation of positivistic rationality as a potent construct took the form of a centered—epistemic-totalisation permeating all aspects and subject-matter domains of human existence and so for the better with regards to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

development-as-infrastructure-of-meaningfulness-and-teleology, postmodern-thought and as of its underlying phenomenological depth transcendently carries prospective Being adjunctive-metaphoricity-signification as of a potent construct for a centered–epistemic-totalisation permeation and sublimation of all aspects and subject-matter domains of human existence, and so for the better of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology.

Such phenomenology as the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional-conflatedness of notional-deprocrypticism deneuterising—referentialism’ is operantly enabled by accreting-substitutive-subsumption-as-futural-différance-freeplay and is the maximal ontologically veridical articulation of conflatedness that ‘undermines the privileging of <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of its ubiquitous-protractedness/structural-or-paradigmatic ‘ontological-contiguity or difference-of-kind’ disposition, and so beyond just reflecting such presencing—absolutising-identitive-constitutedness privilege undermining as of transcendental outcomes implied by historicity/ontological-eventfulness/ontological-aesthetic-tracing. While the ‘Derridean quasi-transcendental-freeplay différance’ by its rather quasi-transcendental-freeplay orientation doesn’t quite get to such a phenomenological depth of conflatedness, it does effectively elicit such an underlying conception of phenomenological profoundness. As such a ‘Derridean quasi-transcendental-freeplay différance’ is what is meant to be understood as a relatively more pertinent ontologically depth for such a more evolved and ‘experimental’ articulation of différance in the strive to maximally undermine <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implied in the Glas experimental project which goal is well beyond the two texts but more fundamentally a demonstration of ‘sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-

existential-interpretation/axiomatisation-of-existence’ as multifaceted. Ultimately, ‘Derridean quasi-transcendental-freeplay *différance*’ unsuspectingly points out that meaningfulness-and-teleology imply by default a given perspective/framing/reference/horizon, such that as of an <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaningfulness-and-teleology facet it is then already compromising non-presencing–or–withdrawal–or–metaphysics-of-absence–or–transcendental-reasoning-of-event-as-prospective-ontology-origination meaningfulness-and-teleology facet. Thus, this author holds that such a ‘Derridean quasi-transcendental-freeplay *différance*’ is fundamentally incomplete as of comparison with the implied conflatedness of accreting-substitutive-subsumption-as-futural-*différance*-freeplay which is truly transcendental. The former fails to factor in that human limited-mentation-capacity has to establish the appropriate ‘perspective/framing/reference/horizon implications’ with regards to meaningfulness-and-teleology, and so as disambiguating presencing—absolutising-identitive-constitutedness from non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> by their respective edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, such that unsuspectingly the ‘Derridean quasi-transcendental-freeplay *différance*’ not doing that rather represents the presencing—absolutising-identitive-constitutedness as the common perspective/framing/reference/horizon for both, thus falsely pointing to ‘difference-in-kind/difference-in-aposteriorising-or-logicising between presencing—absolutising-identitive-constitutedness and non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> (rather than difference-in-nature/difference-in-apriorising-or-axiomatising), and so contradictorily as if both are of the presencing edginess/incisiveness—

of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. With the reality that non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> is wrongly-and-unsuspectingly given as of common presencing—absolutising-identitive-constitutedness, thus inducing a relative ontologically-flawed quasi-transcendental freeplay as non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> is rather in notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> when analysed as of presencing—absolutising-identitive-constitutedness. Consider in this regard ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ with the articulation as of prior relative-ontological-incompleteness being ‘traditional classical mechanics axiomatic-construct’ and the articulation as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought being the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; now, articulating meaningfulness-and-teleology of ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of ‘traditional classical mechanics axiomatic-construct’ construed as presencing—absolutising-identitive-constitutedness makes the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs construed as non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> to wrongly be of notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema> with the ‘traditional classical mechanics axiomatic-construct’ presencing—absolutising-identitive-constitutedness.

Consider in this regard that the ‘Derridean quasi-transcendental-freeplay *différance*’ is akin to the contributions of many prior seminal scientists like Poincaré, Lorentz, Plank, Rutherford and others to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs but whose works were still being interpreted in terms-of/adjunctive-to ‘traditional classical mechanics axiomatic-construct’ thus explaining the reality of a notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> between the two as of their distinct edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Whereas accreting-substitutive-subsumption-as-futural-*différance*-freeplay is akin to the complete ‘epistemic-break’, as of Einstein’s defining-threshold contribution with the-theory-of-relativity and Bohr’s defining-threshold atomic-model contribution to quantum-mechanics together with other seminal scientists subsequent contributions that ultimately led to ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ transcendence-and-sublimity as of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs interpretation as of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>. In any case thus such a ‘Derridean quasi-transcendental-freeplay *différance*’ doesn’t have any serious ontological consequences with respect to presencing—absolutising-identitive-constitutedness since it is reflected with the Glas experimental project, but it fails to recognise the possibility of a futural *différance* where meaningfulness-and-teleology is construed as of the prospective non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which points to

a prospective relative-ontological-completeness/ontological-contiguity as of the very same <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; even though it is the first step towards such a futural différance transcendence-and-sublimity. It equally explains such a Derridean conclusion that human sublimation is an always evasive notion given its failure to recognise the difference-in-nature/difference-in-apriorising-or-axiomatising as of the transcendental implications of prospective non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> in inducing sublimation, with such a difference-in-nature/difference-in-apriorising-or-axiomatising arrived at by human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics involving ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driven re-projection/re-anticipation as of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument about ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human), and validated as of ontological-primemovers-totalitative-framework; as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-

Insightfully, we can grasp that the Derridean freeplay *différance* becomes as of constitutedness because ‘reasoning itself has become defective’ as presupposing-by-the-Derridean-freeplay to supersede existence—as-the-absolute-a-priori-of-conceptualisation. So because at the point of transcendence-and-sublimity reasoning is still presupposing thought-determination instead of given up to the possibility of existence’s divulgation construed as ontological-faith-notion/ontological-fideism, and so erroneously become the transcendental-signifier of existence despite the reality of human limited-mentation-capacity which priority at that point should be the need for validation from existence—as-the-absolute-a-priori-of-conceptualisation and not make any determination priorly, even as of freeplay. Furthermore, it is wrong to construe/equate as imagination such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that as ‘hunch’ restores existence—as-the-absolute-a-priori-of-conceptualisation, since in reality it is rather pushing reasoning to its very limits in a notional disposition that is not guaranteed, and only occasionally as of tendential-deliberation-of-decidability is it confirmed by existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as validatable by ontological-primemovers-totalitative-framework. Thus behind ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as ‘hunch’ is a transversality-of-disambiguated-apriorising/axiomatising/referencing depth of reasoning and perspective which is pushed to its brink in projection/anticipation/expectancy. The fact is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality exhausts-and-supersedes-reasoning as of projection/anticipation/expectancy with no prior certitude, and is more than just imagination which rather comes prior to and is exhausted-and-superseded-by-

reasoning. Such a lack of prior certitude explains why transcendence-and-sublimity ‘are not really reasoned-out’ but rather discovered-as-divulged by existence, with the human-subpotency concern being one of adopting the right attitude/mental-disposition/care—and—episteme that allows existence-as-full-potency to come up with the divulgation. Ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as such is equally the basis for implying a correspondence theory of human thought and reality, as not really arising as of any instantative absolute correspondence but rather as of the ‘promise of prospective human ontological-completeness-of-reference-of-thought’ implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> in continually opening-up ‘the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality’, and so-reflected in the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. It should be noted that reasoning-as-intelligibility rather harkens back to a given ‘registry-worldview’s/dimension’s reference-of-thought <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential—epistemic-totalisation-of-meaningfulness-and-teleology’ to which it tends to be engaged with in an incrementalism-in-relative-ontological-incompleteness reflex as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. We can appreciate that the medieval mindset reasons in terms of

medievalism–non-positivism just as we reason in terms of our positivism–procrysticism
 mindset. The question can thus be asked is there more profound meaningfulness-and-
 teleology beyond any given registry-worldview/dimension mindset divulgeable by
 existence—as-the-absolute-a-priori-of-conceptualisation? It is herein that we get into the
 realm of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of ontological-
 dementation/dialectical-dementation—stranding/attributive-dialectics inducible
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In other words,
 under sufficient constraint of existence/existential-reality-itself given its absolute a priori
 status, as reflected by ontological-primemovers-totalitative-framework/contingency, human
 intemporal individuation is predisposed to put in question even a ‘registry-
 worldview’s/dimension’s reference-of-thought <formative>epistemic-totalising–self-
 referencing-syncretising/circularity/interiorising/akrasitic-drag established existential–
 epistemic-totalisation-of-meaningfulness-and-teleology’ as of a reconstrual of reference-of-
 thought and devolving-axiomatic-constructs implications, and so as of maximalising-
 recomposuring-for-relative-ontological-completeness. This insight about ontological-faith-
 notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality further reveals that
 prospective non-presencing-<as-to-existence-potency-prospective-digression-of-
 <formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness> implies prospective renewal of attitude/mental-disposition/care–
 and–episteme, as of ontological-dementation/dialectical-dementation—stranding/attributive-
 dialectics which at once draws out the renewed implications of what qualifies as
 affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-
 validating-measuring/dialectical-thinking and unaffirmation/deprojection/de-

assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-
 measuring/dialectically-dementing respectively as of prospective relative-ontological-
 completeness-of-axiomatic-construct-or-reference-of-thought and prior relative-ontological-
 incompleteness. In this regard we can imagine as of ‘the very same physics
 <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-
 reality/ontological-veridicality/existential-reality’, the strange feeling upon physicists wedded
 to ‘traditional classical mechanics axiomatic-construct’ with respect the prospective theory-
 of-relativity-together-with-quantum-mechanics—axiomatic-constructs maximalising-
 recomposuring-for-relative-ontological-completeness articulation of such ideas as space-time,
 considering the ether as unreal, considering that the laws of physics are different at atomic
 scale, etc. as the fundamental basis for understanding the new physics as of its prospective
 relative-ontological-completeness-of-reference-of-thought. Such a construal as a shift in
 axiomatic-construct is more-or-less within the same positivism/rational-empiricism registry-
 worldview, though it might pretty much be argued that the theory-of-relativity-together-with-
 quantum-mechanics—axiomatic-constructs marks the beginning of a proto-postmodern
 science as of the fundamental human-subject-emancipatory-relativism-driven-
 recomposuring-constructivism-towards-singularisation developments in physics since then,
 even though its meaningfulness-and-teleology remains intelligible, more or less, to the
 positive science essentially by the modern conception of observational and experimental
 validation. However, the idea of requisite shift in attitude/mental-disposition/care—and—
 episteme from that simplistic ‘modern conception’ cannot be contested. Such an
 attitude/mental-disposition/care—and—episteme implied shift as articulated above, construed
 as of an overall registry-worldview/dimension reference-of-thought transcendence is rather
 ‘massively distressing’ when implied ‘as of an instant of transitioning’ since the reality of
 such attitude/mental-disposition/care—and—episteme transitioning have tended to take place

rather cross-generationally as of human beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. As we can now imagine the transitioning of positivism/rational-empiricism attitude/mental-disposition/care-and-episteme from earlier crude conceptualisations of positivism/rational-empiricism as presently reflecting a more universal valid notion of positivism/rational-empiricism as of its spread worldwide and profoundness in today's societies. Interestingly, this transitioning nature of human attitude/mental-disposition/care-and-episteme renewal manifestation as of the social collective evolution, and is equally reflected in the individual as-receptacle-of-temporal-to-intemporal-individuations-ontological-performance; as at any given moment individuals and society are rather inclined to adopt an attitude/mental-disposition/care-and-episteme of dual-language/split-mentality as of <formative>epistemic-totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-intemporal-ontological-performances). The implied notion of human emancipation is always being articulated in an existentially dual-language/split-mentality that on the one hand fails the implied emancipation and on the other hand implies a strife for such emancipation. Consider in this regard, the attitude/mental-disposition/care-and-episteme of warring nations in the early 20th century all too ready to arm themselves massively in preparation for the world wars and equally very much aware of the need for international peace, or in the 18th and 19th centuries the dual-language/split-mentality of universal human rights and ending slavery in the new world and the slave trade on the one hand and on the other still practicing it up to the point of wars like the American civil war to bring an end to it. In a more prosaic note, the dual-language/split-mentality associated with the evasiveness of emancipatory social and political dispositions as of relevant settings and contexts. In fact, this author will surmise that in many ways we already carry inklings of postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme as of the dual-language/split-mentality at appropriate contexts and settings extolling our liberality with progressive stakes while in other secluded settings and contexts espouse a damning language regarding such progressive stakes. The idea of requisite attitude/mental-disposition/care-and-episteme renewal as implied for notional ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality induced transcendence-and-sublimity speaks of a ‘reality as of underlying human beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought’, that reflects a human tacit awareness that the grounding of its meaningfulness-and-teleology is not-certain-as-absolute at any given moment, and that it should be prepared to shift its attitude/mental-disposition/care-and-episteme for more profound-and-complete meaningfulness-and-teleology. While such an inclination is more forthcoming as of less profound-and-perceived personal existential implications with regards to the axiomatic-constructs within a reference-of-thought as articulated priorly with a shift for the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs within the positivism/rational-empiricism reference-of-thought, however, as of more profound-and-perceived personal existential implications as drastically implied at the phenomenological depth of reference-of-thought transcendental conceptualisation this turns out to be much more difficult to countenance given individuals ‘mental and existential investment’ into meaningfulness-and-teleology as grounded on a given ‘registry-worldview’s/dimension’s reference-of-thought <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag established existential-epistemic-totalisation-of-meaningfulness-and-teleology’ as well as the ‘psychological comfort’ habituated at the given neuterising. But then every registry-worldview/dimension has its own

specific hurdle to clamber-over and that of futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism is exactly the capacity to construe meaningfulness-and-teleology as of full/complete human consciousness implications as implied by its protensive-consciousness which ultimately doesn't allow for meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought arising as of human prior relative-ontological-incompleteness-of-reference-of-thought. The fact is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality conflatedness implication with respect to existence-potency-prospective-digression-of-*<formative>*epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness is such that in reality we are always tacitly aware of the evasiveness of absolute certainty but often rather inclined as of practicality to hang on to a delusion of the results of prior non-presencing-*<as-to-existence-potency-prospective-digression-of-*<formative>*epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>* as if of absolute certainty, so-construed as reasoning-from-results/afterthought. But then veridical absolute certainty is ever a promise always held in prospective existence-potency-prospective-digression-of-*<formative>*epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness relative-ontological-completeness of apriorising/axiomatising/referencing, and so as of the certainty of of human limited-mentation-capacity prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought *<formative>*epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity for transcendence-and-sublimity, implied as of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation. This

explains why ontology's-directedness-as-Being is the direction of meaningfulness-and-teleology grounding as always prospective as of prospective relative-ontological-completeness-of-reference-of-thought; and so, as of the successive base-institutionalisation, universalisation, positivism and deprocrypticism registry-worldviews/dimensions non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> respectively as successive meaningfulness-and-teleology grounding for recurrent-utter-uninstitutionalisation, base-institutionalisation-universalisation, universalisation-non-positivism/medievalism, and positivism-procrypticism presencing—absolutising-identitive-constitutedness. Interestingly we can appreciate that the attitude/mental-disposition/care—and-episteme as of relevant existential issues of all the prior registry-worldviews/dimensions reference-of-thought are wanting-as-relatively-ontologically-flawed from our positivism-procrypticism as prospective perspective/framing/reference/horizon of meaningfulness-and-teleology. However, we are hard-pressed to concede that from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought, our positivism-procrypticism is wanting-as-relatively-ontologically-flawed; as by reflex every registry-worldview/dimension is inclined to hang on to a delusion of the results-as-afterthought of prior non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> even at its uninstitutionalised-threshold despite its notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> with the prospective registry-worldview/dimension institutionalisation. Thus, induces its specific neuterising as it fails to

contextualising-contiguity as of existence's presencing—absolutising-identitive-constitutedness. This social knowledge human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insight translate the reality that 'conventioning and tradition grounded critiques' of postmodernism fundamentally misconstrue that they are departing, as of their reference-of-thought, from a less real position to evaluate a more real position; more like the irony of trying to evaluate the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs from a posture of 'traditional classical mechanics axiomatic-construct'. Here is what fundamentally underlies the naïve misunderstanding of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. For instance, the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs actually reflects that priorly conceptualised-notions like 'space', 'time', 'ether' and 'the laws of physics at atomic scale had to be the same as at the macroscale', were all wrong. Thus 'speaking of the reality of human limited-mentation-capacity as of its existential analytic capacity' in a state of prior relative-ontological-incompleteness-of-reference-of-thought. It is human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as of prospective relative-ontological-completeness-of-reference-of-thought as subsequently assuming as more real the notion of 'space-time', 'considering the ether as unreal', 'considering that the laws of physics are different at atomic scale from the macroscale', etc. that as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation exercise brought about the more profound insight enabling the conception of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ultimately validated as of ontological-primemovers-totalitative-framework by existence-potency-prospective-digression-of-⟨formative⟩epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-

epistemic-conflatedness; as all along humankind existence as of human-subpotency, the new reality so-espoused ‘is never about existence in itself as-existence-is-given-whatever-it-is-that-is-given’, but about human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) for human emancipation. Thus implying existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness is ‘not really about any variation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation directed directly to inherent-existence-as-of-existential-reality/existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness/intrinsic-reality/ontological-veridicality whatever’, as it rather comes down to the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) bringing about a more profound and complete grounding for human construing of the full-potency of existence, which remains-whatever-it-is-ultimately. The postmodern insight here is rather that what is relevant to humankind is human-subpotency development towards the abstract full-potency of existence-whatever-it-is-ultimately. So the notion of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation has nothing to do with the inherent nature of existence/intrinsic-reality/ontological-veridicality. Rather it has to do with ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ of human limited-mentation-capacity which needs to be deepened before humankind embarks on the task of ‘conceptualising meaningfulness-and-teleology that increasingly reflects existence/intrinsic-reality/ontological-veridical’. Thus this actually lead to ‘more and more objective meaningfulness-and-teleology’ as we cannot argue that the

theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs is less objective than classical-mechanics—axiomatic-constructs since it involved the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that led to human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). Quite the contrary, it is that exercise in inducing prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought that brings about greater objectivity, as reflected in the ontological-contiguity—of-the-human-institutionalisation-process behind Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. That naivety in failing to grasp this lies in the ontologically-flawed mental-reflex of temporal <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, wherein mental-dispositions operate by default without a double-gesturing, on the ‘wrong assumption that they already have the most ontologically-developed perspective/framing/reference/horizon for grasping prospective meaningfulness-and-teleology’; and failing to project/anticipate prospectively the implications of their very own shallow limited-mentation-capacity implications from a deeper prospectively-construed perspective/framing/reference/horizon. Such a ‘modern take’ is susceptible to construe of the presence as of metaphysics-of-presence/illusion-of-the-present/present-consciousness/mirage, with hardly any contemplation of the retrospective and prospective projective-insights for construing ontologically-veridical meaningfulness-and-teleology. This paradox for human knowledge, as implied with the postmodern double-gesture reification, highlights that the human paradigm for construing knowledge is similar to H.G. Well’s country of the blind narrative, with the more critical issue being about ‘human blindness which needs to be resolved first before proceeding to see’, as what is to be seen as of the world is already given-whatever-it-is, and our true issue-as-of-knowledge is to develop

the necessary human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) to see it. This fundamentally underlies the idea of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument/‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ as underlying a given registry-worldview’s/dimension’s reference-of-thought for meaningfulness-and-teleology conceptualisation and ontological-performance. In registry-worldview/dimension terms, the naivety of ‘failing to recognise that human limited-mentation-capacity deepens by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’ paradoxically and ridiculously amounts rather to construing of a prospective registry-worldview/dimension institutionalisation’s reference-of-thought as of its prospective relative-ontological-completeness-of-reference-of-thought in terms of the prior registry-worldview/dimension uninstitutionalised-threshold’s/uninstitutionalised-threshold’s reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. The argument traditionally made about postmodern-thought as ‘sceptical with regards to ontologically-flawed-metanarratives/ideologies and the lack of objectivity of meaning’ is a wrongly articulated/made argument ontologically, since it is being wrongly articulated/made from the ‘modern perspective/frame/reference/horizon’ which is actually in prior relative-ontological-incompleteness-of-reference-of-thought as of a shallower limited-mentation-capacity and thus has to be decentered-as-dialectically-dementing. Rather the ontologically-veridical articulation of the postmodern argument as of its actual prospective relative-ontological-completeness-of-reference-of-thought which has to be prospectively centered-as-dialectical-thinking over the modern take as prospectively decentered-as-dialectically-dementing, should be affirmatory in articulating that postmodern-thought is

about: the appraisal and supplanting of ontologically-flawed-metanarratives/ideologies including socio-econo-political ideologies and ontologically-flawed professed ideologies like demarcating ontological-flawed-ideology-of-science-and-its-distortive-implications from ontologically-veridical-science-in-practice, and its pursuit for the most profound-and-complete objectivity of meaning as of prospective relative-ontological-completeness-of-reference-of-thought by renewing appraisal of intrinsic-reality/ontological-veridicality by human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as of human-subpotency existential-contextualising-contiguity conflatedness'. The implication here is that hitherto postmodern-thought had been naively and falsely conceptualised within the 'modern take attitude/mental-disposition/care-and-episteme' as of its procrypticism/disjointedness-as-of-reference-of-thought, instead of implying the ontologically-veridical 'subverting of the modern take' by its very own 'postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme' which prospectively represents the modern as dialectically-dementing while the postmodern is dialectical-thinking; as the point of assertion of postmodern-thought as deprocrypticism/preempting—disjointedness-as-of-reference-of-thought is actually a point of prospective ontological-dementation/dialectical-dementation—stranding/attributive-dialectics. Of critical insight here is the fact that many postmodern authors like Foucault, Lyotard and Derrida adopted stances as of constructivism, relativism and deconstruction are rather ontologically-veridical observations/remarks/'constatations' about the conception of social reality from their authentic analysis 'without going further out-of-the-scope-of-ontological-veracity to ideologise constructivism, relativism and deconstruction beyond their implied ontologically-veridical observations/remarks/constatations' as many of their critiques poorly misinterpret them; with

the implications that their stances are open-ended and receptive to the elucidative justifications for their non-ideologised ontologically-veridical observations/remarks/‘constatations’ about the constructivism, relativism and deconstruction manifestation/conception of social reality. Thus the ontologically affirmatory position adopted herein as of the prospective ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ is not contradictory but rather complementing their positions as it rather reinterprets their observations/remarks/‘constatations’ as of human limited-mentation-capacity prospective relative-ontological-completeness-of-reference-of-thought <formative>epistemic-causality-as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity; wherein for instance, for the recurrent-utter-uninstitutionalisation reference-of-thought ill-health is as of an existential-contextualising-contiguity-lowest-level-reification perceptivity-as-of-bad-omen while for the positivism reference-of-thought ill-health is as of a perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation. Basically, the ‘hitherto ontologically-flawed postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ in its relation with modernity wrongfully implied that it seeks the validation of modernity, and so as ridiculously as implying that budding positivism/rational-empiricism should have sought for its validation from medieval-scholasticism-pedants—ideal-type-or-individuation. In both cases, the fundamental issue once universal-transparency avails, as herein implied originarily/as-of-event with the ‘prospective/new postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

attitude/mental-disposition/care-and-episteme', is mostly about dismissing the prior relative-ontological-incompleteness-of-reference-of-thought as when a critique of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> exposes the reality of a dialogical and intellectual inequivalence given their anti-intellectual stances against postmodern-thought preferring to 'circumvent genuine intellectual engagement' for extra-intellectual activities of institutional-being-and-craft meant to preserve vested narrow interests beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. Just as it was perceived as a fool's errand by the Descartes, Galileos, Diderots, etc., to contemplate of genuine intellectual engagement between their budding positivism/rational-empiricism ventures with traditional medieval scholasticism, especially with regards to the latter's institutionally-associated dogmatic censure and persecution, and thus with the former resorting to discursive strategies for universal-transparency; it is inevitably the case that what is most critically warranted is for the 'prospective/new postmodern deprocrpticism/preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme' to articulate its full-fledged discourse as of universal-transparency as of the liberality of thought allowed for in open society notwithstanding such extra-intellectual and media-driven perverted representation of postmodern-thought. The reality of human-subpotency-aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor speaking of human shallow-to-deeper limited-mentation-capacity implies that prospective paradigmatic transcendental knowledge by its so-projected intemporality, at the uninstitutionalised-threshold, is not necessarily grasp as intemporal in the overall human social-stake-contention-or-confliction framework as of the

lack of universal-transparency for its prospective institutionalisation. Critical for the social validation and institutionalisation of any paradigmatic transcendental knowledge is the fact that its ‘concurrent ontological-primemovers-totalitative-framework’ is not sufficiently decisive given that human temporal-to-intemporal nature as of the social-stake-contention-or-confliction framework at the uninstitutionalised-threshold cannot adjudge-and-commit-to the ontological-pertinence of such prospective transcendental knowledge ‘concurrent ontological-primemovers-totalitative-framework’. Consider in this regard, the ‘concurrent ontological-primemovers-totalitative-framework’ of the prospective positivism/rational-realism transcendental knowledge articulated by the Copernicuses, Descartes, Galileo, Diderots, etc. as meaningfulness-and-teleology of prospective relative-ontological-completeness-of-reference-of-thought validated by corresponding prospective ‘concurrent ontological-primemovers-totalitative-framework’. Such ‘concurrent ontological-primemovers-totalitative-framework’ was not a sufficient basis for their ideas to be socially adopted by the medieval establishment social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as of non-positivism/medievalism. The point being made here is that within a given registry-worldview/dimension institutionalisation framework the idea of ‘concurrent ontological-primemovers-totalitative-framework’ is only more or less determinant as of the institutionalisation’s internal basis of validation of knowledge grounded on its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of its <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’. However, at its uninstitutionalised-threshold the prospective ‘concurrent ontological-primemovers-totalitative-framework’ as of the prospective institutionalisation’s basis of validation of knowledge grounded on the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-

aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of the prospective institutionalisation’s <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ will not necessarily meet with the approbation of the prior institutionalisation now construed as the uninstitutionalised-threshold, and so as of mutually beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. This has to do with the fact that the full-potency of existence that divulges relative ontological-vericality supersedes human-subpotency epistemising orientation towards its, and thus epistemic constructs as of human-subpotency construal are inevitably ad-hoc to ontological-veracity as of the full-potency of existence; as existence doesn’t adjust to human-subpotency with the reverse being true, equally it is human epistemic constructs that ad-hocly adjust to ontological-veracity as of prospective relative-ontological-completeness. Thus while the idea of ‘concurrent ontological-primemovers-totalitative-framework’ as the basis for the validation of knowledge is inherently ontologically veridical as of a given institutionalisation’s internal reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’, however, this is an overrated notion with regards to human social-stake-contention-or-confliction framework at its uninstitutionalised-threshold as external/prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of its <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’, which should and cannot be ignored by any proponent of prospective paradigmatic transcendental knowledge. Rather human social-stake-contention-or-confliction framework fundamentally subscribes to knowledge, given this paradox, as of ‘detour to social

goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' induced as of a paradigmatic transcendental knowledge 'concurrent ontological-primemovers-totalitative-framework' establishing and upholding it. The idea here is that the inherent and direct notions of positivism/rational-empiricism expounded by the Galileos, Descartes, Diderots, Copernicuses, etc. were not the fundamental basis for the ultimate human social-stake-contention-or-confliction framework validation but rather their derived positive-opportunism that brought about the 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' implied-by-and-deriving-from their notions of universal human rights and open society, technical advances, better social organisation, etc., then leading to a reasoning-from-results/afterthought institutionalisation and enculturation of such ordinary/event-of-prospective-ontology-origination positivism/rational-empiricism thought. In other words, human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as inclination to adhere to prospective paradigmatic transcendental knowledge as of its 'concurrent ontological-primemovers-totalitative-framework' is very much limited and such prospective 'concurrent ontological-primemovers-totalitative-framework' however its ontological-veridicality cannot be naively construed as all that which is needed to effectuate social transformation and transcendence. We can appreciate this for instance in the case of cultural diffusion with respect to many a non-modern traditional social-setting where modern day medicine however its overall 'concurrent ontological-primemovers-totalitative-framework' over other types of premodern medicine, will often be suspected and avoided as of its poorly established 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness', and it is only after it has been 'socially habituated-as-institutionalised' that it has the requisite 'detour to social goodwill deferential-formalisation-

transference to perceived overwhelming-relative-effectiveness'. This equally manifests as of prospective paradigmatic transcendental knowledge construal, as implied for instance by postmodern-thought and particularly so as postmodern-thought has still been undergoing its full construction. The implication here is that all prospective transcendental meaningfulness-and-teleology superseding uninstitutionalised-thresholds do not come about as of simplistic continuity but rather as of epistemic-breaks/epistemic-resetting, involving successive 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' instigated-and-upheld by the associated successive prospective 'concurrent ontological-primemovers-totalitative-framework' paradigms of 'reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology', as of successive prospective relative-ontological-completeness-of-reference-of-thought. The implication of such an indirect nature of human social-stake-contention-or-confliction framework validation of transcendental knowledge as of 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' and not just direct 'concurrent ontological-primemovers-totalitative-framework' implies that just as prospective paradigmatic transcendental knowledge prospective 'concurrent ontological-primemovers-totalitative-framework' could be 'objected to as of human social-stake-contention-or-confliction framework' notwithstanding its inherent prospective relative-ontological-completeness-of-reference-of-thought given its prior lack of 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness'; any such prospective paradigmatic transcendental knowledge must be construed and thought-out strategically as of its ultimate establishment of 'detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness' that as of its prospective relative-ontological-completeness-of-reference-of-

thought supersedes the prior relative-ontological-incompleteness-of-reference-of-thought, just as positivism/rational-empiricism superseded non-positivism/medievalism scholasticism. Likewise ‘concurrent ontological-primemovers-totalitative-framework’ ontologically-flawed knowledge can be legitimately overlooked where such knowledge is implied as of priorly established ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. This latter cases arise with many a bogus social or natural science study and methodology grounded on the ‘mystifying imprimatur’ of positivistic science, as ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’, but then on closer examination turns out to be poorly designed as well as the prevalence of institutional-being-and-craft suboptimal dispositions with regards to truly upholding the science ethos in many situations with regards to the ideal operation and promotion of scientific research; and so, as of human temporal-to-intemporal ontological-performance of any ‘reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’.

Already, postmodern interpretations have increasingly been much more relevant practically to many subject-matter domains and activities, with even greater potential for transformative implications if fully acted upon. Furthermore, the ‘prospective/new postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ warrants that postmodern-thought hitherto articulated beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought in terms-as-of-axiomatic-construct of the ‘modern take attitude/mental-disposition/care–and–episteme’, need to be translated-as-reconceptualised into its very own ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme’ as of its own truly postmodern organic-knowledge. The fact is that organic-knowledge is fundamentally driven as of attitude/mental-disposition/care-and-episteme, wherein for instance Newtonian Physics as of positivism/rational-empiricism attitude/mental-disposition/care-and-episteme organic-knowledge makes little sense and is of little potential if construed as of a medieval or animistic social-setup alchemic or mystical attitude/mental-disposition/care-and-episteme. In this regard, attitude/mental-disposition/care-and-episteme is fundamentally the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notional-conflatedness as implied by its ‘assumed-and-unflinching transversality-of-disambiguated-apriorising/axiomatising/referencing <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ in reflecting the ‘incisive-and-intransigent nature of existence—as-the-absolute-a-priori-of-conceptualisation’ for the given attitude/mental-disposition/care-and-episteme true meaningfulness-and-teleology ontological-performance. Where beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, the new/prospective attitude/mental-disposition/care-and-episteme given its prospective relative-ontological-completeness-of-reference-of-thought is wrongly construed as deriving posteriorly from the prior relative-ontological-incompleteness-of-reference-of-thought, this induces constitutedness ‘as has been the case with prior postmodern-thought construed as of a modern take attitude/mental-disposition/care-and-episteme’; thus leading to a sort of postmodern-thought mechanical knowledge that is in many ways just budding and poorly acted upon. Ultimately, a ‘new/prospective postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme’ cross-generational development, which is its

very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
 attitude/mental-disposition/care-and-episteme, as of deprocrypticism/preempting—
 disjointedness-as-of-reference-of-thought is rather a notional-conflatedness as of
 deneuterising protensive-consciousness. The practical implications as well should be that
 meaningfulness and definitions often articulated about postmodern-thought that do not
 capture the postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-
 thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
 attitude/mental-disposition/care-and-episteme should be rejected; as the tendency for
 postmodern-thought to be misconstrued or perverted is not accidental, given the very fact that
 at its very core postmodern-thought is implying a prospective/new prospective relative-
 ontological-completeness-of-reference-of-thought requiring its own
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regard,
 central to translating-as-reconceptualising prior and new postmodern-thought as of its very
 own ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
 disposition/care-and-episteme’ organic-knowledge is the requirement for an affirmative
 mental-reflex with postmodern-thought construed ‘as the appraisal and supplanting of
 ontologically flawed metanarratives and its pursuit for the most profound-and-complete
 objectivity of meaning, by renewing appraisal of intrinsic-reality/ontological-veridicality
 involving its human-subject-emancipatory-relativism-driven-recomposuring-constructivism-
 towards-singularisation as of human existential-contextualising-contiguity’. The ‘postmodern
 deprocrypticism/preempting—disjointedness-as-of-reference-of-thought
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
 disposition/care-and-episteme’ should equally enable the avoidance of the erroneously
 implication that postmodern human-subject-emancipatory-relativism-driven-recomposuring-

constructivism-towards-singularisation is so with regards to the inherent nature of existence/intrinsic-reality/ontological-veridicality, and rather emphasise that it is actually with regards to the need for human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). We can garner insight about how we tend to misconstrue any attitude/mental-disposition/care-and-episteme that is different from our own ‘present attitude/mental-disposition/care-and-episteme’, whether it is a ‘prior/old/superseded attitude/mental-disposition/care-and-episteme’ or a ‘prospective/new/superseding attitude/mental-disposition/care-and-episteme’. For instance, in the previous articulation of the existential-contextualising-contiguity-lowest-level-reification perceptivity-as-of-bad-omen with ‘recurrent-utter-uninstitutionalisation attitude/mental-disposition/care-and-episteme’ given its ‘non-rules-as-impulsive-or-accidented-or-random-mental-disposition’, the reality is that our mental-representation still remains in our ‘present positivism-procrypticism attitude/mental-disposition/care-and-episteme’ as of its ‘perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation’, and only ‘adhocly-and-scantly identifies’ the ‘recurrent-utter-uninstitutionalisation attitude/mental-disposition/care-and-episteme’ as it is wholly immersed-and-engrossed in its ‘positivism/rational-empiricism attitude/mental-disposition/care-and-episteme for the construal of meaningfulness-and-teleology’; which it ‘skewedly construes as the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ while tempering down any prior/old/superseded or prospective/new/superseding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implied as of ‘the reality of human shallow-to-deeper limited-mentation-capacity apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications’ on the-very-same-⟨formative⟩epistemic-totalising-purview-of-construal-as-immanent-

existence/intrinsic-reality/ontological-veridicality, in defining which reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme is ‘relevant as the attitude/mental-disposition/care-and-episteme of wholly immersed-and-engrossed meaningfulness-and-teleology’. The point being made here is that our natural inclination is never meant to truly-and-comprehensively reflect any prior/old/superseded or prospective/new/superseding attitude/mental-disposition/care-and-episteme by itself but rather in any such exercise always apriorises the ‘present attitude/mental-disposition/care-and-episteme’ and then reflect the other attitude/mental-disposition/care-and-episteme referred to posteriorly, and hence the latter is adhocly-and-scantly identified. We can grasp this insight about this natural inclination to uphold-as-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument the ‘present attitude/mental-disposition/care-and-episteme’ from the fact that ‘originary contacts’ between two cultures of prospective relative-ontological-completeness-and-incompleteness-of-reference-of-thought doesn’t mean a wholly immersed-and-engrossed meaningfulness-and-teleology between the cultures, since their natural inclination is to both apriorise ‘their own present attitude/mental-disposition/care-and-episteme’ and respectively posteriorise the other culture attitude/mental-disposition/care-and-episteme as of their respectively apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument present attitude/mental-disposition/care-and-episteme; and so, as the framework of any subsequent cultural diffusion metaphoricity. Thus to fully grasp what is implied here ontologically by attitude/mental-disposition/care-and-episteme, beyond the natural inclination, is to understand that attitude/mental-disposition/care-and-episteme as ‘assumed-and-unflinching transversality-of-disambiguated-apriorising/axiomatising/referencing’ implies a mental-projection exercise ‘reflecting-and-contemplating a wholly immersed-and-engrossed meaningfulness-and-teleology’ as of their given neuterising-as-of-prior-relative-ontologicl-

incompleteness-of-reference-of-thought if a ‘prior/old/superseded attitude/mental-disposition/care-and-episteme’ or deneuterising-as-of-prospective-relative-ontological-completeness-of-reference-of-thought if a ‘prospective/new/superseding attitude/mental-disposition/care-and-episteme’, whilst the ‘present attitude/mental-disposition/care-and-episteme’ is then rather adhocly-and-scantly identified now as either deneuterising if it in relation to the prior/old/superseded or neuterising if it is in relation to the prospective/new/superseding. In other words, when it comes to registry-worldview/dimension implications, ontologically-veridical representation of attitude/mental-disposition/care-and-episteme means ‘to be or exist as of the given registry-worldview/dimension reference-of-thought’ rather than ‘to refer to it’; as the ‘referring to’ natural inclination is ontologically-flawed as it registers into the ‘present attitude/mental-disposition/care-and-episteme’ unlike the ‘to be or exist as’ approach which is ontologically-veridical but is not the natural inclination of representation as it overrides the ‘present attitude/mental-disposition/care-and-episteme’. ‘Postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme’ construed as of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought is thus in its potentiation the very summum for the ‘conception of human-subpotency existential scope’ implied as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. In reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, successive institutionalisations reflect ‘successive and changing conceptions of human-subpotency existential scope’, and so from recurrent-utter-uninstitutionalisation as ‘the most supernatural/mythical/idolised conception

of human-subpotency existential scope’ to futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as the most ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’. Insightfully, what is critical about ‘the conception of human-subpotency existential scope’ is the paradoxical fact that the more waywardly supernatural/mythical/idolised it is, the least potent has been human-subpotency mastery of the the-very-same-⟨formative⟩epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, while the more waywardly realistic/authentic/unexceptional-as-of-the-mediocrity-principle it is, the more potent has been human-subpotency in its mastery of the the-very-same-⟨formative⟩epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality. Effectively, ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme’ implied deprocrypticism is about a radicalisation of the ‘realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency for human subpotent mastery of the the-very-same-⟨formative⟩epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality. This radicalisation is grounded on the rational-realism postulate that humankind as of its limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) has always encountered its uninstitutionalised-thresholds all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process retrospectively and prospectively, reflecting the reality that humankind is of both a temporal/shortness-of-register-of-

meaningfulness-and-teleology and intemporal/longness-of-register-of-meaningfulness-and-teleology nature at uninstitutionalised-thresholds, as of prospective institutionalisation prospective relative-ontological-completeness-of-reference-of-thought and uninstitutionalised-threshold prior relative-ontological-incompleteness-of-reference-of-thought. This departs from the ‘modern take attitude/mental-disposition/care-and-episteme’, which poorly appreciates the continuity implied by ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and is rather caught up, beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, in the reasoning-from-results/afterthought effect of the positivism/rational-empiricism institutionalisation outcome as of its transcendence from non-positivism/medievalism, and as it construes of that outcome as the absolute possibility of human existential emancipation failing to factor in the positivism/rational-empiricism prior relative-ontological-incompleteness-of-reference-of-thought, such that the latter is construed as not having its own uninstitutionalised-threshold which then implies its failure to apriorise the notion of a human temporal-to-intemporal nature at its ontologically-veridical uninstitutionalised-threshold. Consequently, by assuming such a positivism/rational-empiricism transcendental outcome reasoning-from-results/afterthought predisposition as the complete basis for construing humankind existential emancipation, ‘the modern take attitude/mental-disposition/care-and-episteme’ adopts an ontologically-flawed ‘conception of human-subpotency existential

scope’ that is construed essentially as-of--<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag untransvaluated–temporal-intemporality at its ontologically-veridical uninstitutionalised-threshold, as it doesn’t even and fails to recognise any such uninstitutionalised-threshold pointing to its prior relative-ontological-incompleteness-of-reference-of-thought. Thus, the manifestations of temporality/shortness at its unrecognised ontologically-veridical uninstitutionalised-threshold are construed as aberrations/oddities going from this wrongly implied intemporal/longness-of-register-of-meaningfulness-and-teleology posture in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, rather than a recognition of it prior relative-ontological-incompleteness-of-reference-of-thought, implying recognising its uninstitutionalised-threshold with the temporal-to-intemporal implications as of knowledge notionalisation; thus providing the potency/empowering-consciousness for prospective transcendence-and-sublimity, as knowledge notionalisation not only factors in conceptual knowledge dynamics but equally the dynamics of the conceptual ignorances to better skew meaningfulness-and-teleology towards intemporality/longness as of organic-knowledge. The paradox here is that by its ‘most realistic/authentic/unexceptional-as-of-the-mediocrity-principle conception of human-subpotency existential scope’ as of its maximum potency/empowering-consciousness for human subpotent mastery of the the-very-same-<formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, the ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and–episteme’ grounded on such rational-realism recognition of humankind temporal-to-intemporal nature at its uninstitutionalised-threshold is actually ‘effectively empowered’ to incisively tackle issues arising from human temporality/shortness as of its

prospective structural/paradigmatic prospective relative-ontological-completeness-of-reference-of-thought; and so beyond just <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolution of a ‘modern take attitude/mental-disposition/care-and-episteme’ very much inclined to aberrational/oddities conceptioning of such temporality/shortness manifestations thus leading to their endemisation/enculturation from ‘ontologically-flawed and inevitability analyses’ conception. Thus a ‘modern take attitude/mental-disposition/care-and-episteme’ is structurally/paradigmatically disempowered .to address issues of its temporality/shortness as of the vices-and-impediments at its uninstitutionalised-threshold. So because its <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is ‘existentially invested’ in modern social-stake-contention-or-confliction framework of meaningfulness-and-teleology as of procrypticism/disjointedness-as-of-reference-of-thought from where it derives its value-construct and value-reference, as it hardly countenances that prospective transcendental knowledge implied value-construct and value-reference is not meant to be of ‘idle’ relevance to the modern social-stake-contention-or-confliction framework but rather redeploy an altogether empowering perspective of prospective relative-ontological-completeness-of-reference-of-thought postmodern social-stake-contention-or-confliction framework of meaningfulness-and-teleology of value-construct and value-reference at the procrypticism uninstitutionalisation. Such prospective change as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of attitude/mental-disposition/care-and-episteme can be appreciated retrospectively with respect to non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme which from our modern take attitude/mental-disposition/care-and-episteme we rather construe as vague scholastic pedantic dogmatism with regards to

budding positivism/rational-empiricism, but then such a conclusion as of their non-positivism/medievalism habits and traditions is not necessarily obvious to the non-positivism/medievalism

And so, as of the intemporal ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought attitude/mental-disposition/care–and–episteme as dispensing-with-immediacy-for-relative-ontological-completeness-of-reference-of-thought-by-

reification/contemplative-distension thus transcendently enabling the successive registry-worldview's/dimension's ontological-possibilities construed as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. This underscores Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology implied notion of responsibility as reflected by the Nietzschean metaphor 'God is dead', castigatory of 'beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought attitude/mental-disposition/care-and-episteme' which is inclined to pass on to 'a certain Messiah' the possibility of our Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with the paradox of assuming the pretence of understanding Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology on that basis on the naivety that such passing on is teleologically-elevating and exonerating of our mortal-as-temporal manifestations so-construed as a ridiculous untransvaluated-temporal-intemporality notion. This equally points to what is the central ethos of aetiologisation/ontological-escalation implied as of 'deprocrypticism attitude/mental-disposition/care-and-episteme as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought'; as much more than just with regards to a resolutive conception of acts and miscuings in temporality/shortness as of themselves circumstantially, but rather as of the relevance to myriad human social situations is much more critically an issue of universal import, escalated as of humankind's temporal ontological-contiguity as beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought attitude/mental-disposition/care-and-episteme with its

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of
 existential-contextualising-contiguity–in-reification/dereification cognisant-and-integrative of
 such acts and miscuings in temporality, thus endemising and enculturating the reference-of-
 thought vices-and-impediments. Thus such Being underdevelopment, construed as of
 dynamic social-chainism of human temporality/shortness endemisation and enculturation as
 of the universal implications of such endemising and enculturating paradigm/structure in
 ontological-contiguity, warrants corresponding aetiologisation/ontological-escalation
 superseding ethos as of ‘deprocrypticism attitude/mental-disposition/care–and–episteme as of
 ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-
 preempting-of-existential-unthought’ notional-discontiguity/epistemic-discontiguity-
 <mentally-aestheticised_dementing–qualia-schema>. The fact is any registry-
 worldview/dimension as of its ‘present attitude/mental-disposition/care–and–episteme’ is
 structurally/paradigmatically oblivious-to and does-not-reflect its very own prospective
 relative-ontological-completeness-of-reference-of-thought as the underlying basis of its own
 specific-level induced vices-and-impediments, and is rather palliative as of its selecting,
 triaging, mutually-concurring-and-accommodating and power-relations driven palliating
 virtue constructs. The question can actually be asked, as of prospective relative-ontological-
 completeness-of-reference-of-thought of the notional-discontiguity/epistemic-discontiguity-
 <mentally-aestheticised_dementing–qualia-schema> of this ‘made-up’ normativity supposed
 ontological-contiguity, whether such a prior relative-ontological-incompleteness-of-
 reference-of-thought as <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag is actually as of Being-
 development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
 infrastructure-of-meaningfulness-and-teleology at its uninstitutionalised-threshold, and in a
 position, on the basis of such palliation, to address the actual fundamental grounding of its

vices-and-impediments; which in reality are actually ontologically addressable/resolvable as of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness so-implied as of prospective relative-ontological-completeness-of-reference-of-thought. What is particular with notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> is this insight that fundamentally the appropriate prospective relative-ontological-completeness-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme precedes-and-is-the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-to its requisite meaningfulness-and-teleology as prospective aetiologisation/ontological-escalation. This reflects the salient and underlying idea about Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that a given reference-of-thought meaningfulness-and-teleology cannot be apriorised as of a prior/old prior relative-ontological-incompleteness-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme to that given reference-of-thought. Insightfully, we can thus grasp that the non-positivism/medievalism scholastic pedantic dogmatism attitude/mental-disposition/care–and–episteme

‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’ is inherently not structured to be transcendently-enabling and operative of positivism/rational-empiricism aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology which precedingly needs its very own positivism attitude/mental-disposition/care–

of its prior relative-ontological-incompleteness-of-reference-of-thought. Thus Being-

 then with respect to the possibility of prospective human transcendence, the question arises as
 to how it is possible for human transcendence to occur given its ‘outlier metaphoricity

 imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-

 meaningfulness-and-teleology as ‘wholly of its cloistered-consciousness living experience

 ununiversalisation only, universalisation—non-positivism/medievalism only or in our case
 positivism—procrypticism only, with a rather poor inkling for appreciating meaningfulness-
 and-teleology as of a protracted-consciousness associated with grasping Being-
 development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-
 infrastructure-of-meaningfulness-and-teleology. This brings home the fact that however the
 human intemporal/ontological/social/species/universal/transcendental/maximalising-

recomposuring-for-relative-ontological-completeness paradigm implied as of a protracted-consciousness, and specifically the prospective protensive-consciousness of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is practically inevitably constrained-and-potentially-jeopardised as of the framework of the <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag cloistered-consciousness of any of the successive registry-worldviews/dimensions in their respective reasoning-from-results/afterthought logocentric constitutedness; as the ‘reasoning enframing’ of the registry-worldview/dimension

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is underdeveloped for contemplating-and-construing of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of the prospective institutionalisation. A registry-worldview/dimension as of its <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> is structurally/paradigmatically bound to existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective at its uninstitutionalised-threshold rather than the ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; such that articulation of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective transcendence is beyond its reasoningness as of its ‘reasoning-from-reasults’/afterthought logocentric constitutedness conceptualisation of meaningfulness-and-teleology. Inevitably thus this conundrum points out

that the instigating of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology is as of intemporal/longness-of-register-of-meaningfulness-and-teleology <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness individuation reasoning-through/messianic-reasoning, more like Derridean messianic reasoning, arising as of intellectual-and-moral inequivalence and thus implying the dialogical inequivalence of intemporal and temporal <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>; given that no secondnatured institutionalisation grounding of meaningfulness-and-teleology exists for prospective transcendence. The ontological-veracity of such an <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness individuation reasoning-through as of Derridian messianic reasoning can be grasp when we contemplate that in a secondnatured institutionalisation framework of differential-formalisation-transference we give pre-eminence to say a professional or technician for resolving a technical problem, and as non-technicians we don’t get involve in <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> exercise to resolve the technical problem. This outlook is actually ‘seeded’ within the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness individuation reasoning-through that is instigative of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Thereof, what is critical for enabling human successive transcendence is ‘appropriate prospective institutionalisation secondnaturating

metaphoricity'. Consider in this regard, that the instigative *masesis universalis* metaphoricity by the Galileos, Descartes, etc. of budding positivism/rational-empiricism is structurally/paradigmatically 'not a reasoning with non-positivism/medievalism' but rather 'reasoning-through or Derridian messianic reasoning' over non-positivism/medievalism scholasticism's pedantry as of its <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> reasoning-from-results/afterthought logocentric constitutedness. Such altogether new metaphoricity as of its instigating 'out of thin air' the budding positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme further inspired its subsequent radicalisation by latter thinkers; wherein for instance, the more thoroughly positivism/rational-empiricism development of 'the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality' was undertaken by Newton and Leibniz, extending the metaphoricity further even when we contemplate that in many ways these metaphoricity relaying scientists were still imbued with non-positivism/medievalism mystical and alchemic ideas. This 'out of thin air' metaphoricity possibility arises because the 'full-potency of existence in relation to human-subpotency-as-human-knowledge grasp of that full-potency of existence' is ever one of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>; as the very notion of 'human-subpotency-as-human-knowledge grasp of the full-potency of existence' given human limited-mentation-capacity implies that such a grasp only opens up a 'limited framework of the full-potency of existence' for new human existential and knowledge possibilities as of new/prospective habits-and-tradition. But then this 'limited framework of

the full-potency of existence’ as of new habits-and-tradition construed as ‘reason-from-results/afterthought framework, ‘doesn’t induce a commitment upon the absolute transcendental possibility in the full-potency of existence’. Such that by dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) with respect to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, the further insight of ‘out of thin air’ metaphoricity as of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) comes with the possibility of its ontological-primemovers-totalitative-framework validation by existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. In this regard, the ontologically-veridical ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and–episteme’ with respect to our modern take <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> reasoning-from-results/afterthought logocentric constitutedness is rather as of ‘reasoning-through or Derridian messianic reasoning’ over our

positivism–procrypticism/disjointedness-as-of-reference-of-thought, and so as of a postmodern affirmatory stance of dialogical inequivalence that goes beyond idling in the ‘modern take rigmarole language’, just as we can appreciate how budding positivism obviate non-positivism/medievalism pedantic dogmatism language to affirm meaningfulness-and-teleology weeding out ornate pedantic detours, to articulate blunt reality as of deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought. Insightfully, and as is the case with all prospective transcendence implied meaningfulness-and-teleology, we can appreciate that the foremost goal of budding positivists ‘was not to elicit the direct approval’ of the non-positivism/medievalism established arrangement, as in many ways they adopted a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with respect to establishment social stakes, but rather sought to induce the requisite metaphoricity of budding positivism for the destruction-deconstruction of non-positivism/medievalism for prospective positivism, as their conception of achievement motive were tied down to prospective positivism institutionalisation as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Likewise, the prospective ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and–episteme’ is well beyond the notion of eliciting the approbation of the modern take established arrangement in terms-as-of-axiomatic-construct, but rather is of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, in inducing budding postmodern metaphoricity for the destruction-deconstruction of the modern take for prospective postmodern-deprocrypticism institutionalisation as of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. In both cases, the prospective

institutionalisation attitude/mental-disposition/care-and-episteme is ontologically validated as of its prospective relative-ontological-completeness-of-reference-of-thought, divulging the <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag vagueness and futility of the pretences and judgments of the uninstitutionalised-thresholds/uninstitutionalised-thresholds. We can equally appreciate here that such a conception of transcendence is rather as of organic-knowledge and not mechanical knowledge, in the sense that what is critical is the induced apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity for prospective institutionalisation as of prospective ontological-primemovers-totalitative-framework and not simply a mechanical knowledge conception possibly tolerated as of a stale a posteriori adjunctiveness as with the Copernican heliocentric idea initially, needing a latter apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument metaphoricity reinvigoration as of the overall renewal of ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. It should be noted that such metaphoricity rather points to psychoanalytic-unshackling/prospective-grounding/prospective-reification organic-knowledge nature of such prospective institutionalisation transcendental meaningfulness-and-teleology, which in its prospective relative-ontological-completeness-of-reference-of-thought is ‘a <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness inventing’ of the prospective notion of ‘thinking/dialectical-thinking’ as positivism/rational-empiricism thinking or deprocrypticism thinking respectively, and so as their successive prospective reasoning-from-results/afterthought. In both cases, such metaphoricity as of its reasoning-through/messianic-reasoning cannot be construed as grounded-as-intelligible on the superseded/transcended registry-worldview’s/dimension’s attitude/mental-disposition/care–

and—episteme of medievalism—non-positivism or positivism—procrypticism/disjointedness-as-of-reference-of-thought, but rather as of its very own transcendental-enabling/sublimating prospective institutionalisation attitude/mental-disposition/care—and—episteme of positivism or deprocrypticism respectively. Thus such metaphoricity is rather induced as of the framework of prospective concurrent ontological-primemovers-totalitative-framework in establishing its prospective ‘detour to social goodwill deferential-formalisation-transference to perceived overwhelming-relative-effectiveness’. Thus such metaphoricity as of its reasoning-through/messianic-reasoning is more aptly and consciously articulated at a dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) depth/profoundness of human posterity; projecting well beyond the narrow and decadent obsessions of shallow as of extricatory/temporal paradigms of social-stake-contention-or-confliction, as it actively strives as of its prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to supersede such enframing and their associated institutional-anchoring and pedantry/mandarinism temporally induced denaturing of meaningfulness-and-teleology, and so as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. Reasoning-

through/messianic-reasoning metaphoricity brings about the prospectively renewed reasoning-from-results/afterthought instigating the secondnaturing of prospective institutionalisation, and so as of implied reference-of-thought/axiomatic-constructs reflection of the pre-eminence of the full-potency of existence as of prospective ontological-primemovers-totalitative-framework over human-subpotency with the latter adjusting to existence as-of-ontological-dementation/dialectical-dementation—stranding/attributive-dialectics enabling its prospective relative-ontological-completeness. The <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness articulation of reasoning-through/messianic-reasoning cannot be construed as amenable to the contending disposition of prior deferential-formalisation-transference secondnatured institutionalisation, thus the irrelevance/impertinence of any such implied contending as of prior reasoning-from-results/afterthought, as any such contention can only re-arise as of the reasoning-through/messianic-reasoning renewing of secondnatured prospective ‘reason-from-results’/afterthought. Thus the direct implication of reasoning-through/messianic-reasoning is that it can only call upon ‘a kindred sense of things’, as of <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness contemplation that can surpass/overcome temporal nihilistic <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as of a protracted-consciousness cognisant of the prospective ontological-performance and human emancipation implications of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. It should be noted here that the notion of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-

of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as of its nihilism rather speaks to social apathy towards veridical prospective ontological possibilities of emancipation as of aetiologisation/ontological-escalation implications going by the very implications of knowledge-reification as being as of the relative-ontological-completeness perspective, and is not to be confused with naïve and literal interpretations in ‘untransvaluated–temporal-intemporality non-ontological terms of social-stake-contention-or-confliction conceptualisations’ that wrongly seem to imply that knowledge-reification can be contemplated paradoxically as being as of the relative-ontological-incompleteness perspective as may be reflected by mere conceptual-patterning in presencing—absolutising-identitive-constitutedness without contemplating that the underlying knowledge-reification process/gesturing implications is definitely as of the relative-ontological-completeness perspective since a untransvaluated–temporal-intemporality non-ontological interpretation will rather imply knowledge dereification and endemising/enculturating of temporal-dispositions as of vices-and-impediments for the simple reason that the latter ‘cannot be ignored and then by magic become virtue’ as the overall for knowledge-reification is to understand human destructuring-threshold-of-ontological-performance/uninstitutionalised-threshold and then bring about prospective constructiveness-of-ontological-performance as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation. This tendency to misconstrue the meaning of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> and associated philosophical notions like leveling, critically arises because of a poor construal of philosophy as ontologically-driven just like any other knowledge as of ‘baseline originary up-

to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications' subject to validation and falsifiability rather than a naïve construal of philosophy as an imprimatur discretion/whim-of-thought exercise on the basis of 'relic-or-orthodoxy knowledge' induced disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>. It is herein contended that the critical notion underlying <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>, ressentiment and leveling specifically with reference to Heideggerian and Nietzschean thought can actually be interpreted critically as relating rather to 'originariness-parrhesia,—as—spontaneity-of-aestheticisation over the human atrophying tendency for prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation' with regards to ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy>. But then Heidegger failed to realise that the induced transcendence-and-sublimity of the Socratic philosophers universalising-idealisation as well as that of Descartes and other budding-positivists rational-empiricism/positivism were both originariness-parrhesia,—as—spontaneity-of-aestheticisation disseminative events induced as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—as-to-the-ontological-normalcy/postconvergence-projective-

 universalising sophistry and medieval-scholasticism pedantic dogmatism respectively. These
 induced transcendences later on became prior reproducibility—mathesis/motif/throwness-
 disposition,—as—reproducibility-of-aestheticisation as of their mere ‘atrophying mechanical
 practice’ with succeeding generations, and so just as Nietzsche equally appreciated that
 Christianity was becoming a mere ‘atrophying mechanical practice’ of succeeding Christian
 generations as for instance with ascetic practices become more of symbolism/aura and losing
 their inceptive emancipatory inspiration. Thus with all these instances rather warranting
 renewed originality-parrhesia,—as—spontaneity-of-aestheticisation and so as of prospective
 projection as implied with the ontological-contiguity—of-the-human-institutionalisation-
 process, but instead Heidegger will elicit a naïve turn to the pre-Socratics while Nietzsche
 will express admiration of Buddhism as both being of grander originality and authenticity.
 However going beyond a ‘relic-or-orthodoxy knowledge’ disparateness-of-conceptualisation-
 <unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> notion of
 philosophy, it is herein contended that this relatively deficient analysis reflects the
 fundamental ontological-deficiency of subsequent philosophies influenced by Kantian
 philosophy which is rather ‘as a projection within the very same intelligible

just ‘transformation from Roman/Master/Hierarchising/Aristocratic value-construct to Judeo-Christian-Islamic-monotheisms/Slave/Dehierarchising/Commoner value-construct as of the very same universalising-idealisation’ speaking rather more of revaluation than transvaluation. It is this underlying misconception that induces subsequent philosophical misinterpretations of notions like <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>, ressentiment and leveling failing to appreciate that these are ontologically-driven as of underlying relative-ontological-completeness knowledge-reification basis of such conceptualisations arising as to the need for prospective emancipatory inspiration of prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation inducing human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal). Thus <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> is herein rather construed as <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> or ontological-bad-faith/inauthenticity with respect to ‘mechanical practice’ of prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation. In this regards, we can appreciate that all human meaningfulness-and-teleology arises as of aestheticisation before converging towards ontologisation, just as rightfully implied by Nietzsche’s genealogy of morals, but this doesn’t imply valuelessness (as is often naively implied with Nietzschean thought) since aestheticisation convergence towards ontologisation leads to grander ontological-performance. In this regards, we can

appreciate that while from our vantage modern perspective the ontological-veracity of the Egyptian cultural system aestheticisation behind the construction of the pyramids will seem inherently impertinent, but that specific human aestheticisation induced technical, scientific and mathematical innovations were of lateral civilisational ontological-pertinence; likewise we can appreciate that while for the atheist the ontological-veracity of religion is unproven, however various specific religions human aestheticisation in many ways relayed laterally the ontological-veracity of universalising-idealisation thinkers as of the relatively conducive social conditions allowing for the arrival of medieval thinkers who then instigated the possibility for modern day science ontologisation; and besides, it can equally perfectly be claimed that even our modern day positivistic civilisation is not beyond a critique of 'deficient ontologisation' as we can appreciate the reality of the human aestheticisation of many modern activities (even those associated with technological development) held as of higher interest/worth which ontologisation value is questionable with respect to other possible activities of grander ontologisation but not necessarily held as of higher interest/worth (with the very worst case being media-driven merchandising associated with a generalised dumbing-down and de-intellectualisation increasingly and surreptitiously substituting for reifying intellectualism, increasingly undermining the citizenry capacity for democratic sovereign judgement). This analysis points to the convoluted relationship between human aestheticisation and ultimate ontologisation value. Rather than naïve and simplistic analysis, it is such an insight that better informs Heideggerian and Nietzschean thought with regards to ressentiment and leveling (as to <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>); pointing to the centrality of originariness-parrhesia,—as-spontaneity-of-aestheticisation as more critically about inducing the necessary human-subpotency—

 so on many an occasion) are sub-ontological-<as-to-the-limitation-of-human-subpotency-in-

It is thus not odd that as of

human emotional-involvement implications, Socratic philosophers universalising-idealisation and budding positivists projected meaningfulness-and-teleology infrastructure rather met initially with the antipathy of their underpinning—suprasocial-construct and <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> and specifically had to face up respectively with the value-construct conception of their temporal/sycophantic-sophistic presencing—absolutising-identitive-constitutedness ontologically-flawed disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> whether with the Ancient Sophists or medieval-scholasticism pedants. We can further appreciate the critical impact of the universalising-idealisation meaningfulness-and-teleology infrastructure of the Socratic philosophers and their successors as providing the appropriate meaningfulness-and-teleology infrastructure for the Roman Empire and subsequent religio-political developments unlike the case with say Ancient Egypt and Persia whose non-universalising sectarian cults perpetual ideological conflicts ultimately sapped their stability despite their technical advancement, and likewise Western enlightenment effectively arose as of the induced meaningfulness-and-teleology infrastructure of budding positivists, with perverted consequences like annihilation of Native Indians in the New World and the Transatlantic slavery rather arising as of their outlying societies opportunistic activities distortive of budding positivism meaningfulness-and-teleology infrastructure as so-construed in their core societies in Europe with respect to the ending of serfdom, nascent socioeconomic emancipation and human rights. Thus basically the idea of human value-construction is ever always caught up between on the one hand human limited-mentation-capacity to come to terms with ‘transvaluation as <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-

ontological-contiguity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process anamnesis as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism underlying the human construction-of-the-Self’ and on the other hand ‘the effective ontological-impertinence/dereification arising in the conceptualising of human value-construction as of a <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> in <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as construing of value-construction within any given registry-worldview’s/dimension’s presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology and so whether as of trepidatious (recurrent-utter-uninstitutionalisation), warped (base-institutionalisation–ununiversalisation), preclusive (universalisation–non-positivism/medievalism) or occlusive (positivism–procrypticism) implications’. This discrepancy (between the human capacity to achieve transvaluation and effective social–value-construction narrative as of any given registry-worldview/dimension) is reflected in the underlying reality that effectively practised human value-construction is the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’; wherein social–value-construction across the successive registry-worldviews/dimensions arises as a functional necessity that is meant to reflect supposedly coherent ontological-commitment and so in order to elicit stable social-functioning-and-accordance for social-stake-contention-or-confliction, whether such social–value-construction is ontologically-pertinent or not. In this respect, the reality in reflecting the ontological-contiguity—of-the-human-institutionalisation-process points to changing ‘structural/paradigmatic marginal equity of social–value-construction’, so-construed as

‘expected equity of all individuals for social–value-construction’ and so rather as from the structural/paradigmatic reference basis of ‘priorly implied-and-justified inequity’ whether the latter is implied-and-justified as of talent, royalty, class, productivity, mere traditional and cultural practice justification, etc.; thus effectively reflecting the overall consequence of social–value-construction as the ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’. In this regards, social–value-construction arises from two levels; as of the inherent structural/paradigmatic implication of ‘outcome of privileged institutional end-purpose perspective/framing/reference/horizon’ as of ‘priorly implied-and-justified inequity’ and this in conjugation then with the individual inherently appraisable social–value-construction as of ‘expected equity of all individuals for social–value-construction’. In this respect, we can appreciate that an autocrat is more capable of ‘displaying greater social–value-construction’ than an ordinary denizen by the former’s mere social–value-construction ‘priorly implied-and-justified inequity’ as of its status in the autocracy (however an autocrat’s apparent magnanimity on the basis of the prior perspective of the autocratic society will rather be construed as of deficient value-construction as from a prospective perspective of <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity comparison to the overall social and virtue progress implications of a better accountable political system, while on the other hand individuals effectively advocating for such a prospective political system may be construed as of deficient value-construction in the prior autocracy), while modern day social–value-construction ‘priorly implied-and-justified inequity’ arises as of politico-bureaucratic, talent, entrepreneurial, socio-historical, traditional and cultural practice justification, etc. implications (but is just as well subject to transvaluation analysis as of <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, as it can perfectly be argued that the apparent magnanimity of plutocrats as of a capitalistic

economic value-distributive system ‘excessively skewed towards final product/service/financial delivery as-of-first-come-near-monopoly and institutionally-skewed-possibility-for recurring wealth accumulation’ while excessively overlooking/devaluing the return to massive public externalities/external-resources contributions to economic production such as public education, human and social development, infrastructure, basic research, technological research, etc. rather speaks of deficient social–value-construction, especially as such a system ‘priorly implied-and-justified inequity’ as of its occlusive presencing—absolutising-identitive-constitutedness is geared towards propping special interests, warfare spending, anti-taxation, anti-immigration, trivial interest in global human development, co-opted media narrative, etc. as of a suboptimal social–value-construction). But this doesn’t cancel the fact that individuals throughout sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing notwithstanding any disadvantaged ‘priorly implied-and-justified inequity’ for social–value-construction, intuitively cognisant of the pertinence of human transvaluation have elicited the underlying ontological-veracity/ontological-impertinence of their social-construct value-construction as of its supposedly coherent ontological-commitment to induce the transformation of the social-setup value-construction; such that at various critical times the more salient ‘priorly implied-and-justified inequity’ for social–value-construction had thus been basically intellectual-pertinence-as-of-ontological-veracity such that all other ‘priorly implied-and-justified inequity’ for social–value-construction have tended critically to ultimately be grounded on intellectual-pertinence-as-of-ontological-veracity whether of genuine or surreptitious justification. The more salient issue then for the knowledge-reification of social–value-construction thus lies with its ‘priorly implied-and-justified inequity’ narrative(s) with respect to underlying knowledge-reifying transvaluation implications projection as being of most profound intellectual-pertinence-as-of-ontological-

veracity. In this regards, our present rational-empiricism/positivism occlusiveness warrants prospective meaningfulness-and-teleology infrastructure transvaluation so-implied as of notional-deprocrypticism/notional-preempting—disjointedness-as-of-reference-of-thought appropriate foregrounding—entailment-<narrowing-down—sublimation as to existence—as-sublimating-withdrawal>; and so as the disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> of our rational-empiricism/positivism occlusiveness in its <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> tend to rather reflect our <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. The occlusiveness of our positivism/rational-empiricism social—value-construction as such from the prospective perspective of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought can be analysed-and-construed as imbued with occlusive collateral aspects of rather nondescript/ignorable void falsely implying ‘the appropriate exhaustiveness of our rational-empiricism/positivism stances’ thus speaking rather of ideology than ontological-veracity as aptly reflected upon by postmodern thought. Such occlusive collateral aspects take the form of economic dysfunction and inequities as collateral to economic ideologism, social dysfunction and discriminations as collateral to domineering and secluding social narratives, sophistic/pedantic and vested interest undermining genuine sovereignty paradoxically as of obscured-and-deluding knowledge and misinformation that undermines individuals sovereign competence and choice with regards to increasingly skewed-contrived-and-limited stakes of the democratic process thus eliciting protest voting, and in the bigger global framework of competing politico-cultural values with individuals and societies rather construed as collateral damages. Transvaluation analysis thus ensues from the human akrasia-susceptibility-or-

akrasiatic-drag complex which implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is structurally/paradigmatically potentially conducive/endemising/enculturating of its vices-and-impediments. But then while such an abstract transvaluation perspective for the construal of social-value-construction is cogently obvious, however the fact remains that the human subject as of its limited-mentation-capacity exists in circumstances of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as of its given reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation inducing its deficient ontological-performance thus explaining its given registry-worldview/dimension vices-and-impediments. Thus the transvaluation of the successive registry-worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is critically of <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness psychoanalytic-unshackling/memetic-reordering/institutional-recomposure implications of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-prot Humanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) as of successive human construction-of-the-Self as from based animality to trepidatious—self-consciousness, warped—self-consciousness, preclusive—self-consciousness, occlusive—self-consciousness and prospectively protensive—self-consciousness. Thus human limited-

mentation-capacity implies that ‘more than just a thought-of ontological notion’ as of transvaluation, social–value-construction is rather accomplished phronetically/in-practicality as of the specific social-setup universal-transparency of supposedly coherent ontological-commitment with respect to social-stake-contention-or-confliction; and is bound rather to be highly infused with ‘priorly implied-and-justified inequity’ narrative(s) where such universal-transparency is muted and where such universal-transparency is unmuted rather infused with ‘expected equity of all individuals for social–value-construction’ narrative(s). Basically, thus the reality of prospective social–value-construction critically arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning induced originariness-parrhesia,—as–spontaneity-of-aestheticisation with respect to the prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, which when naively construed in presencing—absolutising-identitive-constitutedness as of prior reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation simply reflects the <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior registry-worldview/dimension as reflected with its social value-construct dilemmas. Consider in this regards the implications for an individual having to respond to an accusation of sorcery in a non-positivism social-setup as the individual and the social-setup both effectively believe in superstition. Transvaluation insight will point out that ontological-veracity as of foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-withdrawal) lies with the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-

 above such a transvaluation knowledge-reification of social–value-construction reflects the

prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of any relative-ontological-incompleteness registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance as of its ontologically-flawed implied supposedly coherent ontological-commitment; pointing to the ontological-veracity of a ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’. This ontological reality basis of social–value-construction, it is often claimed, needs to account for the reality of human sovereignty and free-will as to the ‘autonomy and independence of human disposedness’. But then such a conception of human sovereignty and free-will seems to imply an ‘existence-in-existence constitutedness ontologically-flawed paradigm’ as to imply human sovereignty and free-will supersede-and-override existence—as-the-absolute-apriori-of-conceptualisation so-reflected as of <formative>formative>epistemic-totalisingly-preceding-and-redefining-existential-contextualising-contiguity. We can effectively appreciate that such human sovereignty and free-will implied ‘autonomy and independence of human disposedness’ say with regards to a mystical cause of disease in a non-positivistic society doesn’t stop existence as reflecting bacteria theory or any other biological reason from being the cause of disease and such a reference-of-thought-devolving-level manifestation of the primacy of existence equally extends to reference-of-thought-level wherein overall existence ‘as transcendental-enabling’ for a rational-empiricism/positivism registry-worldview/dimension as of its edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘is more effective’ with respect to human grasp of existential reality manifestations than a non-positivism registry-worldviews/dimension, just as a prior universalisation registry-worldview/dimension ‘is more effective’ as of its edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in grasping existential reality manifestations than a preceding ununiversalisation registry-worldview/dimension. This however doesn't implies the elimination of human sovereignty and free-will but rather effective speaks of human-subpotency within existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness, so-construed as 'human-subpotency ontological-performance within the full-potency-of-existence-as-of-its-coherence/contiguity'; and specifically speaks as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed-human-subpotency-epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation, wherein within the absolute a priori framework that is existence, humankind can construe of existence becoming/emanance manifestations allowing for human knowledge-reification and empowerment from the knowledge-reification within existence, with this in itself inducing a human reflexivity as of a human reflexive influence within existence (wherein for instance, a positivistic disease theory of bacteria and biological causation structurally/paradigmatically induces a whole set of human existential disposedness of emancipatory and curative implications in existence as of human sovereignty and free-will, but also in the very first place the fundamental human existential disposedness at reference-of-thought-level to rational-empiricism/positivism is structurally/paradigmatically conducive/preparatory for the possibility of such a positivistic disease theory of bacteria and biological causation to be construed by such humans). This then speaks to the fact that 'human sovereignty and free-will is deflated going by the ontological-veracity of human thrownness-in-existence' as of 'the specific human-subpotency implications as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence'; and so, as it applies to human knowledge-reification and empowerment from such knowledge-reification within existence as this

defines human ontological-performance reflected as of constructiveness-of-ontological-performance and destructuring-threshold-of-ontological-performance. In this regards, the broader and more profound conception of human sovereignty and free-will as reflected by human thrownness-in-existence is rather grounded in the reality that all humans come into existence as of an overall framework of living-development-as-to-personality-development, institutional-development-as-to-social-function-development and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology within which the notion of human sovereignty and free-will then arises in the very first place; such that in many ways human sovereignty and free-will is collectively predicated to the social-setup social-functioning-and-accordance as of its implied supposedly coherent ontological-commitment. Thus, on this basis, the reality of human ontological-performance (reflected as of constructiveness-of-ontological-performance and destructuring-threshold-of-ontological-performance) towards the effective articulation of human sovereignty and free-will is actually one that involves, with respect to human limited-mentation-capacity: ‘the deferential-formalisation-transference overall and underlying social-setup conception of knowledge-reification and empowerment from such knowledge-reification as enabling the framework of living-development-as-to-personality-development, institutional-development-as-to-social-function-development and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ and then ‘the individual <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness mental-disposition and expression’ within the former (and it is the latter that often comes to the mind when speaking of human sovereignty and free-will as ‘autonomy and independence of human disposedness’, while naively ignoring/overlooking the underlying ‘superseding existence—as-the-absolute-a-priori-of-conceptualisation

reflected in <formative>formative>epistemic-totalisingly-preceding-and-redefining-existential-contextualising-contiguity implications upon human sovereignty and free-will’). Interestingly, such a broader conception of the manifestation of human sovereignty and free-will will recognise that the overall human deferential-formalisation-transference actually has a historicity/ontological-eventfulness/ontological-aesthetic-tracing character that extends right up to the very first humans and as with the production of language and human institutions, with regards to constraining existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness/existence—as-the-absolute-a-priori-of-conceptualisation, and as these institutions and institutional practices undergo metaphoricity all along towards our present, and carries effective/ontologically-veridical teleological implication in reflecting the ontological-contiguity—of-the-human-institutionalisation-process <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as to difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity successiveness of registry-worldviews/dimensions. The point here is that, ‘the individual <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness mental-disposition and expression’ driving the deferential-formalisation-transference knowledge-reification and empowerment from the knowledge-reification as of historicity/ontological-eventfulness/ontological-aesthetic-tracing, even as of poor ontological-performance of social-value-construction so-construed as destructuring-threshold-of-ontological-performance, can only achieve social-functioning-and-accordance by a claim to be as of supposedly coherent ontological-commitment, whether relatively real or surreptitious; and it is this preceding broader human sovereignty and free-willing

disposedness for claiming social–value-construction for social-functioning-and-accordance as of supposedly coherent ontological-commitment that gives the teleological orientation of human meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, as it then exposes human meaningfulness-and-teleology as of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) to the prospective constraint to be as supposedly coherent ontological-commitment thus inducing the possibility for prospective transcendence-and-sublimity when its any given meaningfulness-and-teleology is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). Thus the bigger picture here with regards to social–value-construction for social-functioning-and-accordance as of human sovereignty and free-will implications speaks to relative-ontological-completeness as of ontological-normalcy/postconvergence, and so as of existence constraint implied ontological-contiguity—of-the-human-institutionalisation-process ⟨formative⟩epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as to difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ⟨formative⟩epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity in reflecting both destructuring-threshold-of-ontological-performance/uninstitutionalised-threshold as of prior relative-ontological-incompleteness implied dementing–qualia-schema and constructiveness-of-ontological-performance as of prospective relative-ontological-completeness implied dialectical-thinking–qualia-schema as elucidation of ontological-primemovers-totalitative-framework. Ultimately, the naïve articulation of human sovereignty and free-will as of strict ‘autonomy and independence of human disposedness’ rather speaks of a poor ontological

sense-of-things, and as such ontological-veracity ensues the notion of human sovereignty and free-will is rather subsumed as of human-subpotency knowledge-reification and derived empowerment reflexivity in existence; and as apparent in the sciences, we can't imply that we have a choice of gravity on earth as 6 m/s^2 rather than the existence-potency-prospective-digression-of-~~formative~~epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness manifestation of 9.8 m/s^2 and our human sovereignty and free-will is then enabled reflexively with the latter and not the former where we develop and operate technology on that basis for instance, the same equally applies with respect to the social domain in other to avoid mere disparateness-of-conceptualisation-~~unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity~~. The conception of human sovereignty and free-will so-implied as of 'the specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence' basically underlies all human knowledge-reification whether with regards to philosophy as first-level ontology pertaining to 'overall existence phenomenal appraisal of meaningfulness-and-teleology' as of the-very-same-~~formative~~epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality or with regards to second-level ontologies 'specific epiphenomenon-(in-the-overall-ecstatic-existence-supervening-conflatedness) appraisal of meaningfulness-and-teleology' as of ~~formative~~epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality; differentiated by the fact that 'overall existence phenomenal appraisal of meaningfulness-and-teleology' across human generations as of 'cumulative reference-of-thought relative-ontological-completeness implications' is surprisingly of high ontological-contiguity explaining the cross-generational relative intelligibility of philosophical meaningfulness-and-teleology (for instance the questions and answers/contemplations about the why and how of human existence phenomena from the very first humans are just as

relevant today even as of the differing contextual discernments, and so with regards to virtue, value attribution, aesthetics, episteme and Being) while ‘specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness) appraisal of meaningfulness-and-teleology’ as of ‘reference-of-thought-devolving relative-ontological-completeness implications’ is of high notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> explaining the unintelligibility of the explanation of epiphenomena as contrasted cross-generationally with various superstitious beliefs in the past compared with modern day science epiphenomenal explanations (for instance with the appraisal of ‘health epiphenomena of existence’ as of historicity/ontological-eventfulness/ontological-aesthetic-tracing ranging from perceptivity-as-of-bad-omen, perceptivity-as-of-a-specific-place-or-specific-evil-people-or-specific-evil-period, perceptivity-as-of-failure-to-follow-the-heeding-of-the-Deity-or-failure-to-adhere-to-a-certain-mysticism-or-failure-to-pay-reverence-to-an-ancestor, perceptivity-as-of-full-disease-and-scientific-theory-construct-as-the-exclusive-cause-and-effect-conceptualisation, and perceptivity-as-of-factoring-in-socioeconomic,-education,-information,-environmental,-gender-and-power-relations-issues-underlying-healthcare-and-medical-delivery). Insightfully, the very essence of ‘overall existence phenomenal appraisal of meaningfulness-and-teleology’ as associated with philosophical aspects (beyond the our artificial subject-matter divisions referring to aspect where virtue, value, ontological principles and epistemic issues are of central concern) is one of interpretation given that the ordinary human-framework-of-experiential-existence is ‘a directly comprehensive and fulsome framework amenable to interpretation’ whereas ‘specific epiphenomenon–(in-the-overall-ecstatic-existence-supervening-conflatedness) appraisal of meaningfulness-and-teleology’ especially as of their unordinary human-framework-of-experiential-existence like natural sciences while informed by ordinary human-framework-of-experiential-existence background/sense-of-things further

require and accentuate their epiphenomenal manifestations (which are beyond ordinary human-framework-of-experiential-existence) with the devising of experimentations (as providing the prolongation for human interpretation capacity with respect to such epiphenomenal manifestations, as in reality even the natural sciences are fundamentally interpretative as ‘specifically aphoristic/cogent/pointed extensions of the underlying human philosophical interpretative disposition for knowledge-reification’). It is important to grasp here that mere experimentations, as often practised in many domains, that do not arise because of the veridical need to effectively accentuate epiphenomenal manifestations as of unordinary human-framework-of-experiential-existence but rather ‘on the vagueness and naivety that experimentations by themselves demonstrate profoundness’ are ontologically-impertinent (in the sense that the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’ is the more critical basis for a profound knowledge-reification interpretation than any such ad-hoc and simplistic experimentation vagueness and naivety); and in many ways this explains experimental delusions in many domains associated with poor reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as to the misunderstanding that experimentation should focus on the very critical epiphenomenal manifestations that are not amenable to the ordinary human-framework-of-experiential-existence as ‘a directly comprehensive and fulsome framework amenable to interpretation’. However, as of underlying human-subpotency sovereignty and free-will, what is definitely central to knowledge-reification is that it is grounded on human empowering reflexivity from prospective knowledge as of ‘ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—as-to-the-ontological-normalcy/postconvergence-projective-

perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy> from such human-subpotency prior reproducibility—mathesis/motif/throwness-disposition’. This reflects the ontological-veracity that human sovereignty and free-will can only be construed in conflatedness as of human throwness-in-existence revealing the epistemic-impertinence of dispositions for ‘presencing—absolutising-identitive-constitutedness as wrongly implying human sovereignty and free-will supersedes existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ rather than the epistemic-veracity of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of human meaningfulness-and-teleology. We can garner for instance that there is and has never been any truly ‘presencing—absolutising-identitive-constitutedness’ of the sciences as often wrongly implied by science ideologues, but that scientists across-the-times have allowed existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to manifest itself in determining ontological-primemovers-totalitative-framework; and so, as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any ‘purported science ideology’ but rather the practicality of results as of the constraint of the subject-domains of scientific study together with human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) implications in transforming the conceptualisation within any such specific subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than ‘any implied notion that naively supersede

existence—as-the-absolute-a-priori-of-conceptualisation’. A further twist to such a poor conception of human sovereignty and free-will in the social arises as of an improper appraisal of the ‘implications of deferential-formalisation-transference as being structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’. The fact is human sovereignty and free-will is more critically about its ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’ rather than ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’. For instance, a plumber who draws up the costing for a plumbing job explaining to the customer what is advantageously entailed in a convincing manner (as of ‘mere appearance-of-fulfilment usurping-the-sense of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) as they fail to ensure that their professional assessment will truly resolve the technical issue (as they are just looking to contract the job) is not really advancing the sovereign choice of the customer compared to another plumber who undertakes a candid professional assessment that may not sound advantageous with the customer (as they are more critically interested in the ‘fulfilment as of sound-operating-of-human-sovereignty-and-free-will-towards-its-fulfilment’) but does solve the technical issue; as any such customer in a deferential-formalisation-transference situation will most likely agree. Such operation of human sovereignty and free-will, beyond more or less simplistic social situations as the case highlighted above, is supposedly implied in the operation of all human institutions as of their inherent deferential-formalisation-transference proxy nature; but in many ways such a notion of ‘implications of deferential-formalisation-transference as being structurally/paradigmatically both-intensional-and-extensional to the fulfilment of human sovereignty and free-will’ gets sunk with the increasing complexity and size of human institutions as to what such implications really are, and so especially as the idea of human

sovereignty and free-will increasingly becomes abstracted and diffused in the overall social-construct and its institutions as so-associated with ‘the protraction of political and institutional performance, evaluation and accountability’ as reflective of human sovereignty and free-will. However, with regards to the latter as of social protraction of political and institutional action, the possibility of protracted human sovereignty and free-will while indirect comes to be increasingly associated with the sense of ‘equanimity/balance of institutions’ as to their expected ‘equanimity/balance of contending frameworks and policy frameworks as reflexive of socially-perceived commendation and disapprobation’, whether as garnered ‘politically from the equanimity/balance of competing policies and politics as from polling and/or polls trends’ and ‘professionally with the equanimity/balance of mainstream/conventional complementary professional policy-recommendations and professional practices’. The question about the effectiveness of such implied equanimity/balance as reflecting of human sovereignty and free-will is often raised critically with regards to political and institutional performance particularly during crises. In many ways, the systemic interrelatedness of large institutions as to their complementary end purposes and practices, renders such an assessment of implied equanimity/balance rather structural/paradigmatic to the overall politico-institutional system itself; and particularly so as in many ways the possibility of readjustment is much more practically instigated politically especially as with public institutions the individual manifestation of sovereign choice is much more rigidly tied to political action unlike the relative ability for direct disengagement from private entities. However, the fundamental fact that human sovereignty and free-will is ever always a question of the ‘transverse relation of all humans sovereignty and free-will in society’ inherently implies the underlying possibility for the undermining of human sovereign choice as of inherent social differentiation. Beyond transvaluation implications as of the broader overall ‘expected equity of all individuals for social–value-construction’ in relative-

ontological-incompleteness/relative-ontological-completeness <formative>epistemic-
 causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity in
 reflecting the ontological-contiguity—of-the-human-institutionalisation-process; going by the
 phronesis/practicality as of our positivism–procrysticism occlusiveness, the assessment of
 institutionally implied ‘equanimity/balance of contending frameworks and policy frameworks
 as reflective of socially-perceived commendation and disapprobation’, as advancing human
 sovereignty and free-will as of deferential-formalisation-transference implications, can be
 rather straightforward with regards to relatively compact/self-contained institutional functions
 and roles usually involved in direct public service delivery but it is much more difficult with
 spurious/supporting institutional functions and roles. We can appreciate in this regards that
 public scandals generally tend to arise out of public services and private services delivery
 institutional frameworks as of their relatively compact/self-contained institutional functions
 and roles, and that issues of transparency rendering such assessment difficult generally arise
 with regards to underlying spurious/supporting/supervisory/regulatory institutional functions
 and roles. In another respect concerning the modern day media, the need for relevant and
 balanced/equanimous communication and information delivery to the general public has
 increasingly been taking a backseat, and so fundamentally as the media becomes more of a
 business-making institution and rather plays a weaker and ancillary/perfunctory role in public
 policies and politics accountability. This is paradoxically reflected in the reality that despite
 the huge choice of media today, strangely enough this has rather been associated with greater
 public muddlement with regards to political stakes and public policies; undermining the
 political process as increasingly public policies are paradigmmed/structured to default/revert
 into the interests of powerful groups and corporations with the support of increasingly astute,
 surreptitious and media-savvy political and economic think-tanks, as their media
 underhandedness in many ways foil the possibility for credible and effective public interest

debate as of the distractedness of media reflexive anchoring on a stale, traditional, simplistic and increasingly irrelevant age-old left and right political narrative (and its derived politics and policies narratives) poorly reflecting the sophistication of the electorate that ‘doesn’t live in left and right worlds but a realistic world in want for solutions’! Strangely enough, such a media environment is now laden with public gurus holding outlandish views increasingly given the forum for their opinions (presented as reified-knowledge) not only in marginal media but mainstream media as well out of all proportion with the social and/or relevant expertising academic/professional resonance of such ideas, and so as of the underlying pretence of freedom-of-speech; as the notion of freedom-of-speech is increasingly being portrayed rather as the rationalising foundation for all sorts of discreetly, whimsically/fancifully and strategically prejudiced influences on media orientation. In this regards, the notion of freedom-of-speech as of such consequentially biased and disproportionate representation undermining ‘equanimity/balance of contending frameworks and policy frameworks as reflective of socially-perceived commendation and disapprobation’ (as thusly failing to advance human sovereignty and free-will as of deferential-formalisation-transference implications), is increasingly becoming the unbecoming/undoing of the modern day democratic political process. Direct media surreptitious drumming-up of specific policy stances and political movements have often interfered with political governance as with the tea-party movement for instance; when considering how political orientations are ‘strategically advanced/framed’ in the media at critical moments for upholding favourable political policies or foiling unfavourable political policies while undermining sound analytic public debate. It is no small wonder that a public opinion increasingly exposed to such media-driven ‘subterfuges’, overlooking the age-old party politics narrative entrapment, has been turning to protest voting as an expression of political disdain. Furthermore, the idea of human sovereignty and free-will across all times is intimately tied down to human limited-

mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as to the relative-ontological-completeness implications for knowledge-reification underlying sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing as of the specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence; as the fact is the conception of human sovereignty and free-will effectively varied in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as from the specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed-human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation of recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism, our positivism—procrypticism and will equally vary with prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). This effectively brings up the centrality of causality, as implied with ontological-primemovers-totalitative-framework conflating towards the inherent ontological-normalcy/postconvergence of ecstatic-existence/transcendental-signifier, wherein human sovereignty and free-will is construed as of the ‘structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’, reflecting a human-causative-construction conception in conflatedness/projective-conflating apriorising/axiomatising/referencing about existence as ontologically-veridical (as it is the ‘totalitative epistemic/notional_projective-perspective’ that points out the veridical conception of causation) and so over a traditional reflex construal of human causation in

constitutedness as of any given presencing—absolutising-identitive-constitutedness apriorising/axiomatising/referencing in prospective relative-ontological-incompleteness. This insight about human sovereignty and free-will effectively points to the ontological-flaw of presencing—absolutising-identitive-constitutedness conceptions whether as of the past, present or future, inherently as of failing to account for relative-ontological-completeness implications that effectively and empirically underline sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing; and so especially as it is often implied by a ‘naïve type of philosophising that the conception of human sovereignty and free-will can be abstracted outside existential-contextualising-contiguity as to the underlying supposedly coherent ontological-commitment in wrongly implying that human sovereignty and free-will is rather veridically underlied by ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ outside existential-contextualising-contiguity implications of relative-ontological-incompleteness to relative-ontological-completeness. But then such pretence of presencing—absolutising-identitive-constitutedness veracity of ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ is both theoretically and empirically non-veridical, speaking more of the reality of power-grabbing/appropriating/usurpatory/arrogating implications than truly rational argumentations as of knowledge-reification implications. Such ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ argumentations are often intimately associated with providing the meaningfulness-and-teleology infrastructure for the powerful and vested-interests, and their insinuations of ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ as ‘outside existential-contextualising-contiguity implications of relative-ontological-

incompleteness to relative-ontological-completeness' is in effect not truly about the irrelevance of existential-reality implications of relative-ontological-incompleteness and relative-ontological-completeness but rather more critically 'is in effect about defaulting to specifically unavowedly/surreptitiously implied convenient/advantageous interpretations about existential-contextualising-contiguity which are not to be subjected to a fulsome analysis for ontological-veracity as of implications of relative-ontological-incompleteness and relative-ontological-completeness and so on the basis of merely projecting the term 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction' and thereof implying logical-dueness and articulating logic on the so-narrowed and uncontested framework'. The reason why such a 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction' supposedly pertinent argumentation about human sovereignty and free-will cannot hold is that all meaningfulness-and-teleology (as implied with the logical operation of any such projected 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction') operate on priorly established apriorising/axiomatising/referencing and inherently all apriorising/axiomatising/referencing purport to be as of existential-contextualising-contiguity thus subject to analysis as of relative-ontological-incompleteness and relative-ontological-completeness implications as to their existential-reality veracity, such that fundamentally such 'human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction' argumentation about human sovereignty and free-will are rather 'internally inconsistent' and more aptly reflect manifestations of power-grabbing/appropriating/usurpatory/arrogating implications when analysed as of relative-ontological-completeness. Consider in this regards for instance as of the presencing—

absolutising-identitive-constitutedness notion of ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying slavery, such an implied ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ is inherently making a claim on existential-reality which rather more aptly reflect a manifestation of power-grabbing/appropriating/usurpatory/arrogating implications as of its apriorising/axiomatising/referencing that one human being has the right to own another human being (as actually not even the logical-dueness of such a ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation can arise from the perspective of relative-ontological-completeness as what is then implied from the relative-ontological-completeness perspective is the edginess/incisiveness—of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing of any such implied slavery ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’). The proof that this is priorly ‘a power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing and not of veridical logical-dueness’ lies in the fact that for instance the Haitian slave revolters wouldn’t countenance the logical-dueness of any such implied logic of ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ underlying their enslavement but merely as of their relative-ontological-completeness perspective of apriorising/axiomatising/referencing undertake in revolt the unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-

measuring/dialectically-dementing of any such implied slavery ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’. This points to the reality that ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ argumentation do not truly escape the ontological prism as of existence being the absolute a priori, and rather speak of epistemic situations in epistemic-abnormalcy with the possibility for true causality implications to be drawn in relative-ontological-completeness as of ontological-primemovers-totalitative-framework construable ‘structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’. The confusion here arises because of the habituation of any such ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ which is then taken to be natural to the point of ‘forgetting/overlooking that it is underlied by apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications’ to which even the weaker party might end up getting habituated to (over years, decades or centuries) as of little alternate existential choice and possibilities, and from which point a presencing—absolutising-identitive-constitutedness false sense of logical-dueness as of relative-ontological-completeness implications may seem to arise; but as with say the American civil war and the Haitian slave revolt, the reality that such implied ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ is rather of flawed apriorising/axiomatising/referencing power-grabbing/appropriating/usurpatory/arrogating implications is met not with logical-dueness and logical-engagement in wrongly validating any such

 fact, besides the more starkly demonstrable case with respect to say slavery this equally
 applies with less starkly obvious situations having to do with human social differentiation as
 well as any other situations requiring prospective knowledge-reification as the possibility for
 all human progress arises effectively as a result of the transcending of all such human-
 subpotency–aporia/undecidability/dilemma/ought-

 prospective knowledge-reification; and so not as of a falsely implied logical-dueness and
 logical engagement that wrongly validate the relative-ontological-incompleteness
 apriorising/axiomatising/referencing of ‘human social-vestedness/normativity implied

 such implied ‘human social-vestedness/normativity implied contract/political-arrangement-

an interpretation about the ontological-veracity of ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is not only relevantly undermined with respect to say highlighting the supposed weaker party perspective in such a framework of power-grabbing/appropriating/usurpatory/arrogating implications of apriorising/axiomatising/referencing but is equally undermined/subverted when conveniently so by the stronger party for instance in the case of the various allied powers of the second-world war overlooking Nazi scientists direct or indirect participation in war crimes on the rationale of strengthening themselves to ensure future security, and one can imagine the same with regards with many ad-hoc arrangements having to do with spying activities, etc.; thus pointing fundamentally to the ascendancy of the ontological implications of human limited-mentation-capacity as to human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ possibilities of relative-ontological-completeness analysis over the absolutising of ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation. Thus any such pretence that ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ argumentation is absolute as of presencing—absolutising-identitive-constitutedness and not subject to prospective relative-ontological-completeness implications with regards to an animal of limited-mentation-capacity requiring its prospective limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ (and thus paradoxically in want of its very own ‘prospective<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness magnanimity induced originariness-parrhesia,—as—spontaneity-of-aestheticisation’ as to

Even with the modern day polity and law, the reality of human sovereignty and free-will implied in human rights takes precedence over any ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ practicalities and is the basis for continual social and governmental reforms; and as so-implied by the ‘structural/paradigmatic implications of relative-ontological-completeness in superseding/overcoming/transcending human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of relative-ontological-incompleteness’ and this is the very legitimation for any intellectualism purporting knowledge-reification. Ultimately, the very possibility for prospective knowledge-reification as providing the illumination for prospective human sovereignty and free-will conceptualisation is itself bound

to be undermined, and so as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, in the interplay of huma presencing—absolutising-identitive-constitutedness inclinations for vested postures and interests poorly appreciating relative-ontological-completeness implications in contrast to <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness inclinations very much appreciative of relative-ontological-completeness implications as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity. In this regards, one can appreciate the human sovereignty and free-will expansion drive of the prospective knowledge-reification associated with the Socratic universalising philosophers, budding positivists/rational-empiricists and today’s postmodern critical thinkers emancipatory meaningfulness-and-teleology infrastructure while on the other hand the prospective dereification as reflected in <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of non-universalising sophists, non-positivising/non-rational-empiricist medieval scholasticism pedants and today’s manifestations of institutional-being-and-craft muddlement as providing the meaningfulness-and-teleology infrastructure for their respective present-day vested postures and interests. The paradox here is that the lack of <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of such presencing—absolutising-identitive-constitutedness “human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ apriorising/axiomatising/referencing conceptualisation perspective reasoning’ as of its ‘ontologically-flawed supposedly superseding of existential-contextualising-contiguity relative-ontological-incompleteness and

Beyond and informing this analysis of human sovereignty and free-will ontological implications (in articulating the very underlying ontological-veracity insights that expand/broaden our specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence’), the

 <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-

(and not ‘absolute-ontological-completeness implications’), fundamentally validates ‘conflatedness-of-construal as potentiating the superseding of the structural/paradigmatic apriorising/axiomatising/referencing implications of human temporal-dispositions for the prospective conception of knowledge-reification as so-reflected in the transepistemicity/conflating-nature of notional-deprocrypticism/notional-preempting—disjointedness-as-of-reference-of-thought in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as from recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation, positivism/rational-empiricism and prospectively deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. ‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>); as the Foucauldian take truly reflects the fact that there is no given human nature but rather the becoming possibility of human nature as of the ultimate construction-of-the-Self towards attaining deprocrypticism/preempting—disjointedness-as-reference-of-thought, thus overriding/overcoming the hitherto ever present ‘huma relatively-shallow-frame-of-elicited-positive-opportunism-of-low-intrinsic-attribution-and-high-extrinsic-attribution-susceptibility,-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’, underlying prior successive registry-worldviews/dimensions destructuring-threshold-of-ontological-performance. In more explicit terms, this ‘conundrum of discrepancy/sundering in ontologisation/ontological-veracity/aestheticisation-towards-ontology along huma registry-worldview’s/dimension’s institutionalisation formation’ speaks to the ‘social-and-institutional-dissipative-integration of any human originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation as to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor’; as so-reflected with the susceptibility to variedly teleologically-degraded ontological-performance in a ‘dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performances-including-virtue-as-ontology at the destructuring-threshold-of-ontological-performance’ that ends up ‘reconstruing any implied originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation in its very own terms as to the effectively manifest dynamics of institutional and social relations, constraints and performances’ that as of varying implicated stakes are not ‘necessarily absolutely tied-down’ to the abstract originariness/reifying/intellectualising—

idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation even as such framework-for-idealising/transcending/sublimating is clearly or abstrusely the reference of social and institutional deferential-formalisation-transference. Thus the underlying reflex in considering human originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation as more or less fulfilled with a satisfactory theoretical-and-practicable-projected-outcome in many ways is naïve and incomplete as to when it is ‘wrongly predicated on a conception of the social and institutional as merely a passive framework of exquisite integration of abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation’ failing to factor in the dynamics of social-and-institutional-dissipative-integration of any such abstract originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation as to a ‘dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performances-including-virtue-as-ontology at the destructuring-threshold-of-ontological-performance’. Ultimately, with respect to social-stake-contention-or-confliction the effectively practised meaningfulness-and-its-institutionalisation while guided/constraint/structured by such originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation theoretical-and-practicable-projected-outcome elicited positive-opportunism, generalised human behaviour to various extents actually becomes operatively and anticipatively aware by itself (as reflected by its covertly uttered <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives that varyingly betray/reconstrues-of the originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation) of this possibility of discrepancy/sundering from

originariness/reifying/intellectualising—idealising/transcending/sublimating—
 meaningfulness-and-its-institutionalisation (not only as to undermining the former conceptual
 completeness but evolving with the contextual immediacy perceived underlying
 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint) with
 respect to social-stake-contention-or-confliction, and as generalised human behaviour
 varyingly assume existentially constraint pragmatic inclinations and temporal-to-intemporal-
 dispositions as of varying thresholds of constructiveness-of-ontological-performance and
 destructuring-threshold-of-ontological-performance in relating with such
 originariness/reifying/intellectualising—idealising/transcending/sublimating—
 meaningfulness-and-its-institutionalisation. This points to the need to assume a notional
 construal cognisant and integrating the structural/paradigmatic implications of human-
 subpotency—aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor, as the ‘dynamic social and institutional conjugation
 of temporal-to-intemporal-dispositions ontological-performances-including-virtue-as-
 ontology at the destructuring-threshold-of-ontological-performance’ speaks to the
 susceptibility of the destructuring-threshold-of-ontological-performance (addressed as of
 originariness-parrhesia,—as—spontaneity-of-aestheticisation) to teleologically-degraded
 ontological-performance and more profoundly so specifically with enculturated/endemised
 postlogism and conjugated-postlogism social and institutional manifestations, and with
 regards to many social-stake-contention-or-confliction circumstances of poor social and
 institutional accountability. Basically, the bigger point here is that however the socially
 transformative implications as of prior originariness/reifying/intellectualising—
 idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation and beyond
 the elicited positive-opportunism underlying deferential-formalisation-transference, there is

much more involved in overall social and institutional meaningfulness-and-teleology as to the ‘dynamic social and institutional conjugation of temporal-to-intemporal-dispositions ontological-performances at deconstructing-threshold-of-ontological-performance’. This may be overlooked in critical ways as to the critical fact that prior secondnatured-institutionalisation—existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—epistemically-induced/constrained—reproducibility-motif-of-meaningfulness-and-teleology idealising/transcending/sublimating doesn’t necessarily speak of an outright/absolute prospective inclination for human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) for the possibility of renewed originariness-parrhesia,—as-spontaneity-of-aestheticisation to induced prospective secondnatured-institutionalisation—existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—epistemically-induced/constrained—reproducibility-motif-of-meaningfulness-and-teleology idealising/transcending/sublimating; as a naïve and <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension reference-of-thought including our positivism—procrpticism may falsely project of itself (beyond-the-consciousness-awareness-teleology-in-existential-

extrication-as-of-existential-unthought). Thus prospective

originariness/reifying/intellectualising—idealising/transcending/sublimating—

meaningfulness-and-its-institutionalisation must necessarily contend/vie with social and

institutional wonkiness-of-secondnaturing as to the social-and-institutional-dissipative-

integration of originariness/reifying/intellectualising—idealising/transcending/sublimating—

meaningfulness-and-its-institutionalisation. Critically such wonkiness-of-secondnaturing, as

to the social-and-institutional-dissipative-integration of

originariness/reifying/intellectualising—idealising/transcending/sublimating—

meaningfulness-and-its-institutionalisation, involves ‘blurry social and institutional expanse

of accommodating, contradictory and modulatory <formative>wooden-language—of-

temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-

narratives’ that while of differing functional/dysfunctional implications however critically

lends itself to paradoxical accommodations, contradictions and modulations of the

prospective originariness/reifying/intellectualising—idealising/transcending/sublimating—

meaningfulness-and-its-institutionalisation. In many ways thus such social and institutional

‘cognisance-and-integration of the associated dysfunctional <formative>wooden-language—

of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-

narratives’ (as to shiftiness-of-the-Self and corresponding meaningfulness-and-teleology

implications) by itself provides ‘preparatory/foundational causation’ for existential-

extrication-as-of-existential-unthought temporal-dispositions underlying institutional and

social failures and crises as to their destructuring-threshold-of-ontological-performance

(however the seeming remoteness from such direct social and institutional issues, crises and

failures); as associated with various social and institutionalised frames of

<formative>wooden-language—imbued-averaging-of-thought-<as-to-

leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>, and as further surreptitiously enabled with sophistic/pedantic dispositions predisposed to articulate meaningfulness-and-teleology in terms eliciting human temporality/shortness but then of teleologically-decadent—as-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness holistic social and institutional implications that default to vested postures and interests. This analysis is critical by the very ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of prospective relative-ontological-completeness meaningfulness-and-teleology’ as required for prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought (as to the reality of the implications of ‘wonkiness-of-secondnaturing as of the social-and-institutional-dissipative-integration of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation’ associated with our positivism/rational-empiricism secondnatured-institutionalisation—existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness—epistemically-induced/constrained—reproducibility-motif-of-meaningfulness-and-teleology); as what marks out prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought is the necessity for the appropriate protracted self-consciousness as to deprocrypticism’s protensive-self-consciousness to overcome our human relatively-shallow-frame-of-elicited-positive-opportunism-of-low-intrinsic-attribution-and-high-extrinsic-attribution-susceptibility,-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness, and this ‘notionally protracted dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension conception’ as of notional-deprocrypticism is what

underlies the homeliness in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, as to the direct bilateral relation of ‘the successive construction-of-the-Self induced human self-consciousness capacity edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as enabling ‘corresponding possibilities of meaningfulness-and-teleology transcendence-and-sublimity’ with regards to the successive registry-worldview’s/dimension’s reference-of-thought—and-reference-of-thought-devolving—meaningfulness-and-teleology. The fact is ‘wonkiness-of-secondnaturing as of the social-and-institutional-dissipative-integration of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation’ implies that any given registry-worldview/dimension is in an <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag conception of value-construction and overall meaningfulness-and-teleology that is subpar to prospective possibilities of human transcendence-and-sublimity; and this particular point is critical for the awareness that social thought can be developed that ‘transepistemically overlooks the presencing—absolutising-identitive-constitutedness conception of value-construction and overall meaningfulness-and-teleology’ (as to its destructuring-threshold-of-ontological-performance induced <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) for the possibility of prospective transvaluation as of <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness, as so-reflected empirically in the instigation of the successive registry-worldviews/dimensions institutionalisations. Thus, there is a direct relation between human-subpotency and existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-

realisation,-re-perception,-re-thought-in-epistemic-conflatedness (so underlied as of the
parrhesiastic seeding-promise-of-human-subpotency-ontological-performance-
correspondence-with-the-full-potency-of-existence-as-of-its-coherence/contiguity), and this is
effectively instigated/originated by the human capacity for dispensing-with-immediacy-for-
relative-ontological-completeness-by-reification/contemplative-distension in its construction-
of-the-Self with respect to prospective human-subpotency—
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. The
underlying point here is that there is no inherent meaningfulness-and-teleology but rather as
of the specific human-subpotency as to overall panintelligibility-as-reifying-and-
empowering-reflexivity-of-ecstatic-existence, that is, as to ‘human-subpotency potential to
epistemically converge to the full-potency of existence’; and this underlying structure of
reflexivity is the very structure in reflecting the ontological-contiguity—of-the-human-
institutionalisation-process, however, the surreptitious and opportunistic temporal
interpretations to exploit its positive consequences at one moment and to reject it the moment
it prospectively challenges-us/puts-us-to-question as of prospective implications of living-
development—as-to-personality-development, institutional-development—as-to-social-
function-development and Being-development/ontological-framework-expansion—as-to-
depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The
implication here is that all human knowledge is necessarily for-human-studies/for-human-
constructs whether with regards to the social or the natural sciences; as to the fact that all
such knowledge is ever only registered in the human consciousness (individual consciousness
and collective consciousness respectively as to direct knowledge and indirect knowledge as
of deferential-formalisation-transference implications) and functions to broaden-the-latitude-
of-human-collective-consciousness with regards to human-subpotency—
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in

existence. The very possibility for prospective human knowledge generation thus calls for human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, with such human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness speaking of true humanity projection for prospective secondnaturing institutionalisation (that goes on to broaden-the-latitude-of-human-collective-consciousness), and so over the wrongfully elicited self-satisfaction of sophistic/pedantic presencing—absolutising-identitive-constitutedness in existential-extrication-as-of-existential-unthought failing to address the universal implications of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint. This underlying human knowledge notionalisation is what speaks of the distinction between the physician and quack-doctor, the technician/engineer and the scammer, the intellectual and the sophist, etc. Critically, the former as involved in prospective originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation bluntly profess that ‘human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’ is in want for secondnature knowledge and institutionalisation, and so as to the former human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) (as to the specifically cultivated arts/skills and time investment, and on the intimation that the implied deferential-formalisation-transference is so-validated as

of the supposedly coherent ontological-commitment). In the bigger picture, this speaks to a human socially expanded framework of deferential-formalisation-transference as to various cultivated skills/arts and time investment with their knowledge deferential-formalisation-transference validation as of the supposedly coherent ontological-commitment; and implying a greatly expanded human collective consciousness as of differing for-human-studies/for-human-constructs of originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation. On the other hand, what is typical about quack-doctors, scammers, sophists, etc. with regards to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint is a predilection for eliciting the idea that ‘human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’ is basically of competent judgment (notwithstanding the latter’s underlying banal framework as to the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and lack of related cultivated skills/arts and time investment as to the requisite human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)). It is on the basis of ‘so-prepping the human ego’ in an exercise not truly meant to broaden-the-latitude-of-human-collective-consciousness (going by the eventual outcomes of such falsehoods) given that in the very first place the issue has nothing to do with inherent and genuine originariness/reifying/intellectualising—idealising/transcending/sublimating—meaningfulness-and-its-institutionalisation but rather a lulling falsehood that sees our mortal egos as the very target for surreptitiously inducing our moral and intellectual

disenfranchisement/swindling/corruption/dispossession; as in effect, overall sophistry as to its underlying social-vestedness/normativity undermining of human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension is effectively about discouraging the possibility for prospective humanity to manifest. But then this intellectualism and sophistry conundrum underlying knowledge notionalisation (as of prospective human living-development-as-to-personality-development, institutional-development-as-to-social-function-development and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology), structurally/paradigmatically marks all human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint as to ‘the uninstitutionalised-threshold attendant framework of lack of social universal-transparency-or-understanding-of-ontological-primemovers-totalitative-framework-of-underlying-phenomena’. This very fact is defining as without the latter there wouldn’t be any human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in the very first place; and this very much explains the defining relevance of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, as to the possibility for genuine human reification and emancipation to broaden-the-latitude-of-human-collective-consciousness or disenfranchising falsehoods. The taxingness-of-originariness (as to the direct relation between human-subpotency and existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness) is effectively what underlies human institutional paralysis and social-vestedness/normativity as well as the possibility for prospective human construction-of-the-Self in the face of increasingly technically aloof/remote and racing technological,

organisational and social transformation; such that the requisite human thoughtfulness that can correspondingly broaden-the-latitude-of-human-collective-consciousness is increasingly out of the loop as humankind in the modern positivism age has increasingly become rather a self-subjugating agent to such transformations as to their lopsided material/equipment/accoutrement sublimation implications with the notion of human consciousness sublimation increasingly passivised and blanked to vested social and institutional frameworks actions. But then humankind faces the challenge of contemplatively articulating meaningfulness-and-teleology capable of reinventing/recreating and keeping the human at the driver seat rather than an object of unformulated/unthought-of driven existential emergence/becoming as of lopsided material/equipment/accoutrement sublimation over a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by that lopsided material/equipment/accoutrement sublimation) as human consciousness is in want of its very own corresponding sublimation as to redefining the possibilities/potential for prospective humanity that can further broaden-the-latitude-of-human-collective-consciousness. Such ‘dreary blankness of consciousness’ (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) is predicated upon and drags along the shiftiness-of-the-Self as from prior human stake-contention-or-confliction conceptualisation in a psychological entrapment of defining naiveties and complexes (so-construed in presencing—absolutising-identitive-constitutedness as historicity-tracing)’, and so towards humankind’s supposed future (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology); and in many ways this historicity-tracing has already been stifling/stalling the human prospective potential as from the ontological-normalcy/post-convergence perspective conception of future

historicality/ontological-eventfulness/ontological-aesthetic-tracing relevant to deprocrysticism/preempting—disjointedness-as-of-reference-of-thought. Such historicity-tracing is fundamentally defined by a certain enduring reproducibility passivity and blankness of human social processes, wary of the implications of prospective renewal possibilities as the psychological entrapment constraints of historicity-tracing override prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation possibilities, and the prospect for the future is ever so tied down to the psychological entrapment of prior human stake-contention-or-confliction framework that nullifies the possibility for renewal of humanity. Institutionalised historicity-tracing thus foregoes the construal of human meaningfulness-and-teleology as a construct of re-originariness/re-origination of meaningfulness-and-teleology as to human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal) so-implied from the ontological-normalcy/postconvergence epistemic/notional_projective-perspective as to maximalising-recomposuring-for-relative-ontological-completeness and rather adopts the temporality/shortness comfort of incrementalism-in-relative-ontological-incompleteness hanging on to historicity-tracing presencing—absolutising-identitive-constitutedness notional framework of human stake-contention-or-confliction. Historicity-tracing thus involves an <formative>epistemic-totalising conception of social-vestedness/normativity as to an underlying human psychological entrapment (as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) that is incapable to re-stake/put-back-at-stake meaningfulness-and-teleology out of its historicity-tracing social-vestedness/normativity in order to reflect the true prospective overall aestheticisation—and—aestheticisation-towards-ontology as to the unbridled ontological-normalcy/postconvergence

epistemic/notional_projective-perspective re-originariness/re-origination of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). Such social and institutional social-vestedness/normativity for instance like in many ways the practice in modern day scholarship (especially when poorly constrained to existence-potency-prospective-digression-of-⟨formative⟩epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness) is bound to ‘make its own weather’ rather as from human-subpotency temporality/shortness; wherein ‘invested’ institutional and theoretical/conceptual postures take on an essence all of their own, and so independently and overlooking the precedence of existential-reality for the possibility for prospective sublimation and knowledge-reification and failing to ‘effectively re-stake/put-back-at-stake in re-originariness/re-origination the capacity of human ontological-performance in a renewing originality-parrhesia,—as—spontaneity-of-aestheticisation’ over already set/established/determining prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation, and so failing to be responsive to the fact that human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) rather invokes prospective ⟨formative⟩epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness for re-originariness/re-origination (and as ever always such destructuring-threshold-of-ontological-performance across the successive registry-worldviews/dimensions abuse of the idea of being at the backend of human institutional-cumulation/institutional-recomposure as speaking to its own exceptionalism in a naïve ⟨formative⟩epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasitic-drag posture instead of the true instigative exceptionalism of the underlying ontological-contiguity—of-the-human-institutionalisation-process). This temporal/shortness disposition to fail re-originariness/re-origination is of

overall social recurrence as to human temporality/shortness <formative>wooden-language—
 imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-
 meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-
 prospective-apriorising-implications> as of ‘varying magnitudes/scales—as-to-successively-
 profound-restructuring/reparadigming-frames-as-from-living,-institutionalising,-and-Being-
 ontologising/infrastructure-of-meaningfulness-and-teleology of prospective human-
 subpotency–aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions–existentialism-form-factor’; and so in all situations particularly those poorly
 constrained to existence-potency-prospective-digression-of-<formative>epistemic-totalising–
 renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. Such that such
 ontologically-flawed presencing—absolutising-identitive-constitutedness becomes a
 psychological entrapment of an overwhelming presence hardly capable of profound re-
 originariness/re-origination but for its thresholding to the accrued historicity-tracing
 perception of temporal/shortness human stakes-contention-or-confliction framework; with the
 consequence that this mitigates the possibility to broaden-the-latitude-of-human-collective-
 consciousness off-the-beaten-path of historicity-tracing (as of living-development—as-to-
 personality-development, institutional-development—as-to-social-function-development and
 Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
 development-as-infrastructure-of-meaningfulness-and-teleology) as to the relation with
 human lopsided material/equipment/accoutrement sublimation, as such a consciousness
 increasingly adopts a desublimation/gimmickiness rather than its very own sublimation in
 tandem with material/equipment/accoutrement sublimation. This is reflected with the
 increasing remoteness/alooness and alienation of the generalised human subject from such
 material/equipment/accoutrement sublimation captured under abstract institutional

frameworks of stewardship expecting a ‘dreary blankness of consciousness’ (rather functioning to be attended-to and accommodated/unaccommodated by the lopsided material/equipment/accoutrement sublimation) in order to maximise passive enculturation and merchandising as of ‘presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing’. Thus, the possibility for the generalised human subject capacity for consciousness sublimation is seized up and constrained in such socially and institutionally bureaucratising and deterministic frameworks that now structurally/paradigmatically determine the possibilities of human consciousness sublimation as to their abstracted defining conception of human stake-contention-or-confliction (as of living-development-as-to-personality-development, institutional-development-as-to-social-function-development and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) such that the generalised human subject re-originariness/re-origination sublimation imaginary possibilities are already truncated as from prospective ontological-normalcy/postconvergence epistemic/notional_projective-perspective of re-originariness/re-origination as implied with prospective deprocrypticism/preempting-of-disjointedness-as-of-reference-of-thought. Today, many agile initiatives allowing more or less for the expression of the human subject imaginary and so specifically with start-up entrepreneurship increasingly highlight that in many ways traditional social and institutional frameworks are suboptimal conceptualisations of human consciousness sublimation possibilities as to their thoroughgoing beholdenness to ‘presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing’ bounded to prospective thresholds of passivity and blanking of human consciousness sublimation possibilities. In many ways because of poor appreciation of the ‘direct bilateral relationship of appropriate construction-of-the-Self for appropriate cognisance-and-integration of

prospective relative-ontological-completeness meaningfulness-and-teleology’ the modern mindset has tended to construe of its lopsided material/equipment/accoutrement sublimation implications naively as implying the comprehensive fulfilment of human potential with poor appreciation/sense that effectively as reflected with prior registry-worldviews/dimensions, the proximity of technology then never implied as today a generalised human consciousness passivity and blankness to the point of relative desublimation/gimmickiness over sublimation (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought); and so as potentially contended by Baudrillard simulacrum conception wherein gimmicky formulaic representations of overall aestheticisation—and-aestheticisation-towards-ontology increasingly substitute for more profound possibilities of human aestheticisation—and-aestheticisation-towards-ontology as meaningfulness-and-teleology with respect to the potential for prospective human consciousness sublimation as of a holistic projection of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. Whereas historically the technological accessibility and proximity to the generalised human consciousness of such events like the invention of metal implements, the plough, writing, the printing press, etc. provided more profound possibilities for human consciousness sublimation in re-organariness/re-origination, beyond mere lopsided technological as of lopsided material/equipment/accoutrement sublimation in the framework of ‘a presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology given historicity-tracing’ that passivises and blanks thus undermining/stifling the possibility for prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing. While a traditional conception of human sublimating-over-desublimating social-and-institutional-constructs-of-meaningfulness-and-teleology—in-cumulation/recomposuring is often articulated as resting on ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ presencing—

absolutising-identitive-constitutedness/constitutedness apriorising/axiomatising/referencing—conceptualisation perspective thus supposedly rendering irrelevant their analysis as of inherent ontological-veracity (as to supposedly coherent ontological-commitment with regards to the ‘full-conflatedness of apriorising/axiomatising/referencing—conceptualisation as of existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’), but rather tending to a construal as of ‘inherent prior aestheticisation—and-aestheticisation-towards-ontology as of human social-vestedness/normativity’; such a traditional conception from the relative-ontological-completeness perspective is actually unfounded and rather speaks to prior relative-ontological-incompleteness manifestation of human presencing—absolutising-identitive-constitutedness/constitutedness (as to historicity-tracing implications of human limited-mentation-capacity). The reality of the dynamic relation between human constitutedness and conflatedness of apriorising/axiomatising/referencing—conceptualisation (as to the successive relative-ontological-completeness registry-worldviews/dimensions adopted human reference-of-thought edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for meaningfulness-and-teleology with respect to existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness), as reflected in reflecting the ontological-contiguity—of-the-human-institutionalisation-process with: base-constitutedness at recurrent-utter-uninstitutionalisation, first-level presencing—absolutising-identitive-constitutedness at base-institutionalisation—ununiversalisation, second-level presencing—absolutising-identitive-constitutedness at universalisation—non-positivism/medievalism, third-level presencing—absolutising-identitive-constitutedness at our positivism—procrypticism, and prospectively full-conflatedness at prospective deprocrypticism; rather speaks to a more fundamental driver as

to underlying ontological-veracity (as to supposedly coherent ontological-commitment with regards to the ‘full-conflatedness of apriorising/axiomatising/referencing–conceptualisation as of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’) but that such a reality is oblivious to the traditional construal in presencing—absolutising-identitive-constitutedness/constitutedness of apriorising/axiomatising/referencing–conceptualisation that speaks of ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social–value-construction’ in presencing—absolutising-identitive-constitutedness. The reality at any such uninstitutionalised-threshold is rather one of ‘dynamically-convergent-rationalising-frameworks of meaningfulness-and-teleology of differing ontological-performance implications’ hence defining both the given institutionalisation/constructiveness-of-ontological-performance and its uninstitutionalised-threshold/destructuring-threshold-of-ontological-performance. This effectively ‘dynamically-convergent-rationalising-frameworks of meaningfulness-and-teleology of differing ontological-performance implications’ reflects the fact that human meaningfulness-and-teleology operate along criss-crossing rationalising-frameworks: as of ‘social-rationalisation—as-reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation construed as of token/emblematic absolute (and thus equally giving rise to the possibility of its temporality/shortness articulation as <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasitic-drag-denatured-and-dementing-narratives’ as of its uninstitutionalised-threshold) as defining the given registry-worldview/dimension meaningfulness-and-teleology, and secondly ‘the ordering-of-values within the scope of the social-rationalisation—as-reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation construed as of token/emblematic absolute’, and thirdly ‘<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness,—as-to-the-prospective-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of the social-rationalisation—as-reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation’. These three criss-crossing rationalising-frameworks are

 the fact that, as from the ontological-normalcy/postconvergence

 towards the prospective sublimating historicity/ontological-eventfulness/ontological-

philosophy, to varying philosophies as of African, Oriental, European, Arab, etc. as to
desublimating historicity-tracing psychological entrapment that ultimately denatures the

historicity-tracing psychological entrapment with respect to the overall prospective
sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing (which

institutionalisation (as to ‘abstractly projected finality in reflecting the ontological-contiguity—of-the-human-institutionalisation-process’) for prospective sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing, patently makes obvious what the true implications of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought project with respect to its dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension re-originariness/re-origination conceptualisation in relation to our present positivism—procrypticism aestheticisation—and—aestheticisation-towards-ontology as meaningfulness-and-teleology. This is reflected in the projected underlying ontological-performance divergent relation between historicity-tracing (as constrained to human taxingness-of-originariness as to: what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation) and prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing. Historicity-tracing as implied at all uninstitutionalised-threshold is what underlies the notionally-collateralising inclination of human meaningfulness-and-teleology as of any given registry-worldview/dimension in relative-ontological-incompleteness; speaking in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as ‘an overall human aestheticisation—and—aestheticisation-towards-ontology originariness-by-reproducibility-laddering effect’ for corresponding human consciousness sublimation. But then the implication of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as supposedly superseding huma relatively-shallow-frame-of-elicited-positive-opportunism-of-low-intrinsic-attribution-and-high-extrinsic-attribution-susceptibility,-lacking-in-
 <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness, as to its ‘aspiring pureness of re-originariness/re-origination’, is effectively ‘a reconstrual in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as to the obviating of its decoherencing-structure—of-

meaningfulness-and-teleology-for-institutionalisation induced historicity-tracing (beyond the implications of taxiness-of-originariness as to: what has gone before aesthetically structures/paradigms distortedly the possibility for the later aestheticisation)'; such that the deprocrpticism potential is 'a wholly other of historicity-tracing' as to the implications of its re-originariness/re-origination for prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing beyond foregone aestheticisation—and-aestheticisation-towards-ontology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (in truly reflecting the 'full human-subpotency potentiation' as to the most profound human capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension). Its defining question is whether and how can the human reconstrue meaningfulness-and-teleology in re-originariness/re-origination beyond its trailing/dragging foregone aestheticised meaningfulness-and-teleology construal? This limitativeness of historicity-tracing is fundamentally an issue of human psychological entrapment 'defining naiveties and complexes' as to human shiftiness-of-the-Self as of its presencing—absolutising-identitive-constitutedness (construable abstractly as fundamentally subpar to human effectuation potential but for the fact that the psychological entrapment is a paradoxical circular constituent of the human as to its 'notionally-collateralising-protohumanity/sublimating-humanity existentialism-form-factor'). Human presencing—absolutising-identitive-constitutedness as the very seeding disposition for historicity-tracing is ever always characterised by its immediacy-reactive-criticality (over panoramic-sublimating-criticality) as to its constraining aestheticisation—and-aestheticisation-towards-ontology framework; such that the propensity for human meaningfulness-and-teleology to be instigated (as to human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) before any construable human panoramic-sublimating-criticality outcome of meaningfulness-

and-teleology) has ever always been bound to take ‘a notionally-collateralising inclination
detour of aestheticisation—and-aestheticisation-towards-ontology’ (as of the defining
‘originariness-by-reproducibility-laddering effect of human ontological-performance’), and
so as of the ‘varying magnitudes/scales—as-to-successively-profound-
restructuring/reparadigm-ing-frames-as-from-living,-institutionalising,-and-Being-
ontologising/infrastructure-of-meaningfulness-and-teleology of prospective human-

dispositions–existentialism-form-factor’ (with regards to human living-development—as-to-
personality-development or institutional-development—as-to-social-function-development or
Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-
contiguity—of-the-human-institutionalisation-process successive registry-
worldviews/dimensions). From the ontological-normalcy/postconvergence
epistemic/notional_projective-perspective (as to panoramic-sublimating-criticality),
immediacy-reactive-criticality inherently implies human-subpotency induces discreteness
(and not ontological-contiguity) by its presencing—absolutising-identitive-constitutedness
that undermines the ‘-<formative>epistemic-totalising existential-contextualising-contiguity
foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-
withdrawal) in elucidating ontological-contiguity-<as-from-prospective-ontological-
normalcy/postconvergence-epistemic/notional_projective-perspective>’ (inducing notional-
discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema>).
Thus as of ultimate human deprocrypticism/preempting—disjointedness-as-of-reference-of-
thought ideality/imaginary—as-to-its-sublimation-beyond-prior-aestheticisation paradox:
‘human originariness-by-reproducibility-laddering effect’ underlying historicity-tracing

speaks to the ‘succession of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> of registry-worldviews/dimensions meaningfulness-and-teleology’ (so-construed from the ontological-normalcy/postconvergence epistemic/notional_projective-perspective) rather as of their ‘manifest outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations of human meaningfulness-and-teleology’ towards the ultimately reflecting the ontological-contiguity—of-the-human-institutionalisation-process notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> and ontological-contiguity as of ontological-normalcy/postconvergence; however, prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought historicity/ontological-eventfulness/ontological-aesthetic-tracing is about human re-ordinariness/re-origination as of ontological-normalcy/postconvergence exclusively, as to its obviating of prior desublimating historicity-tracing for prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing as unbeholding to the ‘successive notional-discontiguities/epistemic-discontiguities—as-dementing-qualia-schema failing to achieve notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> as to ontological-contiguity’ in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (and so with regards to human living-development—as-to-personality-development or institutional-development—as-to-social-function-development or Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology). Such that, prospective deprocrypticism/preempting-of-disjointedness-as-of-reference-of-thought (with respect to obviating of prior desublimating historicity-tracing imbued ontological-performance) implies the superseding of the ontological-veracity of such presencing—absolutising-identitive-

constitutedness human sublimating-over-desublimating social-and-institutional-constructs—of-meaningfulness-and-teleology—in-cumulation/recomposuring (and so with regards to human living-development—as-to-personality-development or institutional-development—as-to-social-function-development or Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology), as to the fact that these end up overtly or covertly drawing their inherent justification on the basis of their inherent prior aestheticisation—and-aestheticisation-towards-ontology as of human social-vestedness/normativity rather than any relevant underlying supposedly coherent ontological-commitment as their social-vestedness/normativity increasingly become dépassé (prospectively ontologically-invalid), thus rather stifling the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension and thus marring prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing. Actually, the notion of hyperreality—as-to-its-simulacrum implications highlighted by postmodern thought is more profoundly manifested in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as to historicity-tracing implications with regards to ‘prospective taxingness-of-originariness’. Historicity-tracing-imbued-hyperrealisation implications rather speaks of human limited-mentation-capacity ‘paradoxical prior epistemic reinfusion (as of prior notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>) into the supposed construal of prospective ontological-veracity—as-to-inherent-ontological-contiguity in the face of ‘manifest existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness in epistemic conflation’ rather veridically construable in the prospective apriorising/axiomatising/referencing transepistemicity (as of prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking—qualia-schema>)’.

Historicity-tracing-imbued-hyperrealisation as such actually

reflects the structural/paradigmatic limitation of the given human registry-worldview's/dimension's epistemic-gesturing for the construal of ontological-veracity-as-to-inherent-ontological-contiguity at its prospective uninstitutionalised-threshold; speaking of a state of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> in relative-ontological-incompleteness in relation to the now prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> of the relative-ontological-completeness, as from the ontological-normalcy/postconvergence epistemic/notional_projective-perspective. Effectively, historicity-tracing-imbued-hyperrealisation as of its implied contrastive apriorising/axiomatising/referencing-psychologism of (relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>) and apriorising/axiomatising/referencing-psychologism of (relative-ontological-completeness in prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema>), can be reflected historically with respect to say 'an engrained traditional non-positivism/medievalism conceptualisation of the world' incapable/could-not-bring-itself to mentally process the implications of planets shown with a telescope to be rather going around the sun in a nascent positivism/rational-empiricism attitude/mental-disposition/care-and-episteme implied by Galileo and further conceptually articulated by Descartes' thinking proposition as to its mathesis universalis implications, such that it is as of a cross-generational transformation that humankind develops the positivism/rational-empiricism apriorising/axiomatising/referencing-psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) to grasp the full structural/paradigmatic implications of positivism/rational-empiricism as from the initial non-positivism/medievalism historicity-tracing-imbued-hyperrealisation with regards to the prospect of positivism/rational-empiricism aestheticisation-and-aestheticisation-towards-

ontology as meaningfulness-and-teleology. Likewise, this insight can be extended in reflecting the historicity-tracing–imbued-hyperrealisation of ‘an engrained traditional non-universalising conceptualisation of the world’ incapable/could-not-bring-itself to mentally process the implications of the nascent universalising-idealisation attitude/mental-disposition/care–and–episteme implied by the Socratic philosophers as to its apriorising/axiomatising/referencing–psychologism (as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) induced cross-generational transformation. In both instances it speaks to an underlying apriorising/axiomatising/referencing–psychologism ‘wanting of human consciousness sublimation’ to effectively come to terms with ‘manifest existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness in epistemic conflation’, thus inducing its notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> as to the fact that notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema> is now implied prospectively as of prospective relative-ontological-completeness as from the ontological-normalcy/postconvergence epistemic/notional_projective-perspective. Thus in the bigger picture, Baudrillard’s conception of hyperreality (as implied with respect to our present lopsided technological as of lopsided material/equipment/accoutrement sublimation) speaks to the underlying apriorising/axiomatising/referencing–psychologism ‘wanting of human consciousness sublimation’ as to its capacity to sublimate beyond our positivism–procrypticism historicity-tracing–imbued-hyperrealisation of aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology; reflected as the epistemic insufficiency of our ‘gimmickiness of consciousness’ with regards to the potential for re-originariness/re-origination beyond procrypticism/disjointedness-as-of-reference-of-thought historicity-

tracing–imbued-hyperrealisation inclination now reflected as prior notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema>, as so-construed projectively from the prospective ontological-normalcy/postconvergence epistemic/notional_projective-perspective of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought in prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema>. Human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal> as to its prospective apriorising/axiomatising/referencing–psychologism recovery of notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema> with regards to ‘manifest existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness in epistemic conflation’ (overcoming the prior apriorising/axiomatising/referencing–psychologism ‘loss of notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema>’ now of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema>) is rendered possible by human metaphoricity-of-aestheticisation—as-of-‘<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-holistic-instigation,-process,-and-outcome-of-reoriginariness-of-aestheticisation’-in-preserving-notional-contiguity/epistemic-contiguity-by-the-given-redefining-prospective-epistemic-digression-implications-as-to-ontological-contiguity. Thus in the bigger scheme of things, the state of recurrent-utter-uninstitutionalisation given edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument enters into historicity-tracing–imbued-hyperrealisation at its uninstitutionalised-threshold in its epistemic construal of prospective base-institutionalisation–ununiversalisation, likewise the latter in its epistemic construal of prospective universalisation–non-positivism/medievalism, and

likewise the latter in its epistemic construal of prospective positivism–procrypticism, and the latter as well in its epistemic construal of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought; as so-reflected from the relative-ontological-completeness implied notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema>. In other words, (with regards to human living-development-as-to-personality-development or institutional-development-as-to-social-function-development or Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) historicity-tracing–imbued-hyperrealisation is associated with uninstitutionalised-thresholds in reflecting the ontological-contiguity—of-the-human-institutionalisation-process ‘recurrently renewed reference-of-thought-level and reference-of-thought-devolving-level apriorising/axiomatising/referencing–psychologism for conceptualisation of meaningfulness-and-teleology’ and in the face of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor; and historicity-tracing–imbued-hyperrealisation speaks of the successive registry-worldviews/dimensions states of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema>, so-construed in their given presencing—absolutising-identitive-constitutedness eliciting an underlying sense (as from the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness,-as-to-the-prospective-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of any given registry-worldview/dimension) of ‘drift/homelessness/destitution of meaningfulness-and-teleology’ and eliciting the prospect for ‘renewed reference-of-thought-level and reference-of-thought-devolving-level apriorising/axiomatising/referencing–psychologism of conceptualisation of

meaningfulness-and-teleology’ as of ‘prospectively projected relative-ontological-completeness <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’. Hence historicity-tracing–imbued-hyperrealisation reflects the given registry-worldview’s/dimension’s aestheticisation–and–aestheticisation-towards-ontology (as of its apriorising/axiomatising/referencing–psychologism) ‘saturation of ontological-performance’ with respect to prospective relative-ontological-completeness existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness at its uninstitutionalised-threshold (where it induces the notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> of aestheticisation–and–aestheticisation-towards-ontology relative to the ‘requisite prospective apriorising/axiomatising/referencing–conceptualisation implied notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema>’); such that the ‘mere complexification of given registry-worldview’s/dimension’s aestheticisation–and–aestheticisation-towards-ontology apriorising/axiomatising/referencing–conceptualisation’ doesn’t suffice to recover ontological-performance as to prospective relative-ontological-completeness existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. worldviews/dimensions human consciousness sublimation ontological-performance had rather assumed ‘an overall human aestheticisation–and–aestheticisation-towards-ontology originariness-by-reproducibility-laddering effect’ (involving ‘a notionally-collateralising inclination detour of aestheticisation–and–aestheticisation-towards-ontology’ as to the underlying ‘notionally-collateralising-protohumanity/sublimating-humanity existentialism-form-factor’), the requisite protensive–self-consciousness of prospective deprocrypticism is one that as to its full grasp/understanding/universal-transparency of the restructuring/reparadigming possibilities of prospective human aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology should be amenable to a self-consciousness projection that should be able to engage with its corresponding level of taxingness-of-originariness (as to its own ‘humanity-sublimation homework’ at its given supposed growth/maturity at the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process) in adopting a re-originariness/re-origination consciousness sublimation over historicity-tracing–imbued-hyperrealisation that overcome ‘a notionally-collateralising inclination detour of aestheticisation–and–aestheticisation-towards-ontology’ implicated in the originariness-by-reproducibility-laddering effect (as so-implied with the deprocrypticism prospective superseding of huma relatively-shallow-frame-of-elicited-positive-opportunism-of-low-intrinsic-attribution-and-high-extrinsic-attribution-susceptibility,-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness). Thus (as it projects beyond human ‘social-stake-contention-or-confliction presencing—absolutising-identitive-constitutedness psychological entrapment’ imbued notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> of aestheticisation–and–aestheticisation-towards-ontology), prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing as the ‘wholly other’ of historicity-tracing–imbued-

hyperrealisation speaks to the succession of human edgy/incisive/astute renewed aestheticisation–and–aestheticisation-towards-ontology as meaningfulness-and-teleology. Thus the prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing of deprocrypticism very much equates to human consciousness sublimation as of its successive transcendences of registry-worldviews/dimensions as to existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness, given that prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing is more than just the prospective reproducibility potential of aestheticisation–and–aestheticisation-towards-ontology but is actually the ‘equalisation of all historicity/ontological-eventfulness/ontological-aesthetic-tracing aestheticisation–and–aestheticisation-towards-ontology’: as to imply that ‘the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of recurrent-utter-uninstitutionalisation’ = ‘the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of base-institutionalisation–ununiversalisation’ = ‘the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of universalisation–non-positivism/medievalism’ = ‘the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of positivism–procrypticism’, (even as their mere reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation–and–aestheticisation-towards-ontology do not equate ‘as of their differing positive-opportunism structure/paradigm of underlying reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as to prospective human-subpotency–aporia/undecidability/dilemma/ought-

Thus this underlying dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation (as ‘equalisation of all historicity/ontological-eventfulness/ontological-aesthetic-tracing aestheticisation—and-aestheticisation-towards-ontology’) speaks to ‘a transverse dimensionality about human consciousness sublimation originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> in ecstatic-existence’ as underlying ‘authentic-humanity and its homeliness-drive’; of as yet tenuous, but central-and-defining to the very implication of the prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought registry-worldview/dimension as to its prospective superseding of human relatively-shallow-frame-of-elicited-positive-opportunism-of-low-intrinsic-attribution-and-high-extrinsic-attribution-susceptibility,-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness. Critically, the dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation underlying the ontological-contiguity—of-the-human-institutionalisation-process (with regards to the overall manifest ontological-contiguity—of-the-human-institutionalisation-process ‘human aestheticisation—and-aestheticisation-towards-ontology originariness-by-reproducibility-laddering effect’) contrastively speaks of a dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-

rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation that recurrently pops up in the successive registry-worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (as to the implications of the lack of universal-transparency of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework), which acts as of mere reproducibility cynicism (in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint) in fundamental ontological-bad-faith/inauthenticity (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought), so-reflected in its <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives; further speaking of the differentiation of these two dimensionalities as of originariness/mere-reproducibility, driveness/mere-function, sublimation/mere-gimmickiness, reification/mere-extrication, existential-thoughtfulness/mere-existential-unthoughtfulness, responsibility/mere-indulgence, antinihilism/mere-nihilism etc. in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. This highlights that the the epistemic-instigation of prospective deprocrypticism contemplation is necessarily as of disseminative—selectivity-of-ontological-good-faith/authenticity—over—deselectivity-of-ontological-bad-faith/inauthenticity as to existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness, and so before logical-dueness as to ontologically-valid language-as-of-dialogical-equivalence can even arise in the first place; explaining in many ways the ontological-normalcy/postconvergence epistemic/notional_projective-perspective projecting of a dynamic differentiated transversality-of-disambiguated-

apriorising/axiomatising/referencing of human-subpotencies ontological-performance as to the selective-and-deselective determination of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness, and so over the purported inherent human-subpotency/mortal perspective pre-eminence over the sublimating-over-desublimating implications of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. Thus more than just about ‘prospective succession’ as to the successive registry-worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (beyond just their mere secondnaturing reproducibility aestheticisation—and–aestheticisation-towards-ontology), prospective deprocrypticism protensive–self-consciousness is more critically bechanced as to an originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> projection of the dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness–equalisation beyond mere reproducibility. Prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing as such is more profoundly the abstractive conceptualisation (beyond the reproducibility constraining upon human limited-mentation-capacity implications) as to ‘fatedness-of-sublimation-over-desublimation/ontological-foreordination of human-subpotency underlying dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension projection reflexivity in ecstatic-existence’. The historicity-tracing—imbued-hyperrealisation of intellectual muddlement as of

institutional-being-and-craft in our positivism–procrypticism age is one ‘that in many ways implies an abandonment of even the reality of prior human thoughtfulness that led to its present as its present is construed as of decisively absolutised capacity of thought’, thus falsely rendering/construing of human capacity in its present ‘the exceptional capacity of excogitation’ unwary of its own ontological-impertinence as to the need to projectively integrate the structuring/paradigming relative-ontological-incompleteness and relative-ontological-completeness implications of excogitation in its own present and the prospective projection as reflected herein with the ontological-contiguity—of-the-human-institutionalisation-process conception. This occlusiveness of thought then goes on to ride-the-wave/exploit-without-corresponding-sublimation-as-to-existence-potency-implications of a lopsided scientific and technological sublimation as it falsely ‘usurps the latter’s speakership as of a science ideology elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity’ even as notable natural scientists as to their candid knowledge-reification intuitions put in question such a naïve science ideology hardly recognising the so-implied commonality of epistemic and methodological applications reflected by the naïve institutional-appendage of gatekeeping scientism such a naïve intellectual muddlement projects as truly science and knowledge; and so, as its disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> and desublimation/gimmickiness is poorly inclined as to its blurriness to be critically exposed to the validative/invalidative sublimating-over-desublimating implications of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness (as it hardly recognises the epistemic pre-eminence of existence—as-the-absolute-a-priori-of-conceptualisation and the consequential relative-ontological-completeness implications), as its advancing of authority here is rather

more seminal than the requisite confident knowledge-reification and elucidation of true thought for justifying its deferential-formalisation-transference beyond its mere institutional pre-eminence, and ‘an alien exercise of supposed intellectualism’ that fails to truly engage with critiques as it is surreptitiously involved in extra-intellectualism rather than reify and argue/prove/disprove speaking of a political development that can only undermine true human knowledge-reification potential as all such posturing end up assuming a corresponding social-vestedness/normativity role incapable of the requisite mental adventure for human consciousness sublimation as it is hardly bothered by the state-of-affairs of intellectual impotency it projects in the face of the conceptual and practical challenges of the social it construes as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable (explaining in many ways such an intellectual muddlement supposed conception of the end of history that fails to account for the fact that the ‘end of any human minds’ is not the end of the ecstatic-existence possibilities of human consciousness sublimation as to existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as so effectively pointed out by Baudrillard), and as eventually the tool of the sophist is wielded as to a supposedly intellectual approach that increasingly overlooks true knowledge-reification work rather turning to the surreptitious eliciting of the <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as it hardly portrays the requisite <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as of human self-

This is very much in line with the idea that every registry-worldview/dimension certainly has a conceptualisation of the notion of progress but such a conceptualisation is naively grounded on its presencing—absolutising-identitive-constitutedness (as it engages in the complexification of meaningfulness-and-teleology on the basis of its very same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument it construes/reproduces as absolute) and fails to appreciate that it is rather by putting in question its edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of the

 first humans will not apriorise/axiomatise/reference meaningfulness-and-teleology as of
 recurrent-utter-uninstitutionalisation but will directly attain prospective

 dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-

 dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-

 intimately related respectively to ontological-good-faith/authenticity (enabling the possibility
 of human transcendence-and-sublimity) and ontological-bad-faith/inauthenticity (assuming a
 desublimation/gimmickiness as to its perceived presencing social-stake-contention-or-

fundamental grasp of the underlying dimensionality-of-sublimating—<formative>epistemic-

Interestingly, human rememoration/historical-recording is highly skewed towards the

The consequence of ignoring/blanking-out the prior ‘disseminative—deselectivity-of-ontological-bad-faith/inauthenticity mental-orientation’ is that with regards to prospective transcendental-enabling/sublimating sublimating-over-desublimating social-and-institutional-constructs-of-meaningfulness-and-teleology—in-cumulation/recomposuring, the dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation reflected in the ‘disseminative—selectivity-of-ontological-good-

faith/authenticity mental-orientation' is falsely implied as the all-encompassing social disposition (thus wrongly reflecting only an intemporal-disposition rather than the reality of temporal-to-intemporal-dispositions) while the dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation reflected in the 'disseminative—deselectivity-of-ontological-bad-faith/inauthenticity mental-orientation' is unmemorated/unrecorded-and-unaccounted resulting in the prospectively induced 'lacking-in-transvaluation relation with the sublimating-outcomes-of-institutionalisation' (as to the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives), such that human ontological-bad-faith/inauthenticity (as to its lack of prospective <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness) is again prospectively manifestable (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) with respect to prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint (thus speaking of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor). Basically, the dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation reflected in the 'disseminative—deselectivity-of-ontological-bad-faith/inauthenticity mental-orientation' is more than just a question of ad-hocness and speaks to the recurrence in reflecting the ontological-contiguity—of-the-human-institutionalisation-process successive

 dimensionality issue involved in all human social-stake-contention-or-confliction in
 reflecting the ontological-contiguity—of-the-human-institutionalisation-process (and
 particularly as it bears upon prospective deprocrypticism as the ultimate
 structural/paradigmatic issue with regards to addressing prospective human-subpotency—
 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint). This
 dimensionality issue in reflecting the ontological-contiguity—of-the-human-

 <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-

 contrastively say with the-sophists/medieval-scholastics lack-of- <formative>epistemic-

 and Socratic philosophers/budding-positivists <formative>epistemic-growth/transvaluative-
 rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as reflected say in an
 ordinary non-universalising/non-positivism—medievalism world inclined to construe of its
 ‘normality’ (notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-
 thinking-qualia-schema>) as given even in the face of its prospectively implied ‘abnormality’
 (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-
 schema>) from the projected universalising-idealisation/rational-empiricism implications.
 This reality is equally applicable to our state of positivism—procrypticism as to a
 disinclination to perceive its prospectively implied ‘abnormality’ (notional-

discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> as projected from prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. In many ways, as of reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation, this paradox is inevitable as the very state of recurrent-utter-uninstitutionalisation do not have the directly operant means as to its apriorising/axiomatising/referencing-psychologism to project of the <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of prospective base-institutionalisation-ununiversalisation, just as the latter with prospective universalisation-non-positivism/medievalism, likewise the latter with prospective positivism-procrypticism, and likewise our positivism-procrypticism with prospective deprocrypticism. This emphasis is made rather to point to the <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag underlying the supposed projection of intellection on the basis of the dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-equalisation (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective, as it rather reflects prospective notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>); as reflected in the fact that the supposed intellection of the non-universalising sophists, the medieval-scholastics and our present intellectual muddlement ends up in gimmickiness-of-thought (poorly-constrained or unconstrained to existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness) skewing towards an exercise of eliciting human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> with

respect to social-stake-contention-or-confliction rather than true knowledge-reification and human emancipating conception that faces prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint with the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-prot Humanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>). In this regards, this author construes such gimmicky pretences of intellection in our present day rather ‘intimating of existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective’ with regards to otherwise structural/paradigmatic human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint issues (requiring the ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought), which articulation and constructive addressing should actually be the very conceptualisation of intellection. In this regards, we can appreciate that the Socratic philosophers and budding-positivists actually addressed and resolved the human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of their respective times as of sublimating intellectualism (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought, involving a sense of intellectual-and-moral sacrifice as to the pre-eminence of ecstatic-existence implications as to existence-potency-prospective-digression-

of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness) undermining their respective gimmickiness-of-thought (in
 existential-extrication-as-of-existential-unthought as of human-subpotency epistemic
 perspective) associated with sophists and medieval-scholastics then respectively defining the
 ‘thought/intellectual Establishment’, and that the possibility for such sublimating
 intellectualism as to its crude and unsavoury social discomfort implications is hardly a
 question of eliciting human temporality/shortness <formative>wooden-language—imbued-
 averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-
 teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-
 implications> as of moral and intellectual
 disenfranchisement/swindling/corruption/dispossession. In the bigger scheme of things the
 dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-
 rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation warrants
 that the prospective projection of any human meaningfulness-and-teleology as
 transcendental-enabling/sublimating should be articulated in such a way as to imply that all
 human meaningfulness-and-teleology should assume the same disposition as to the possibility
 of enabling the sublimation in reflecting the ontological-contiguity—of-the-human-
 institutionalisation-process; such that ‘supposed reifying’ meaningfulness-and-teleology in
 existential-extrication-as-of-existential-unthought as of human-subpotency epistemic
 perspective effectively comes out as epistemically-decadent and in ontological-bad-
 faith/inauthenticity, as to the fact that in the face of human-subpotency—
 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint, if no
 human minds projected not of nonextricatory-existential-preempting-of-existential-unthought
 (eliciting the possibility for the ontological-contiguity—of-the-human-institutionalisation-
 process) but rather existential-extrication-as-of-existential-unthought (undermining the

possibility for the ontological-contiguity—of-the-human-institutionalisation-process) in recurrent-utter-uninstitutionalisation, in base-institutionalisation—ununiversalisation, in universalisation—non-positivism/medievalism and prospectively in our positivism—procrysticism, then the structural/paradigmatic possibilities in reflecting the ontological-contiguity—of-the-human-institutionalisation-process wouldn't be possible. Such meaningfulness-and-teleology in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective as to the dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation rather speaks of a parasitising conception of intellection that warrants that by some miracle the possibility of human sublimation induced as of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension should arise, for that sublimation to be then parasitised with gimmickiness-of-thought as to social-stake-contention-or-confliction eliciting of human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>. In many ways, this dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation explains a poor inclination-or-capacity to effectively interpret the projected meaningfulness-and-teleology of many a past thinker as to presencing—absolutising-identitive-constitutedness institutional and social-vestedness/normativity <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that naively think that being at the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process inherently grants epistemic-profundity (not factoring that this is not necessarily the case with

overall existence beholden frameworks which can actually suffer intellectual regression) unlike the case with epiphenomena as in the science domains (as providing the prolongation for human interpretation capacity with respect to epiphenomenal manifestations outside ordinary existential sublimation manifestations). In this regards, we can appreciate that the strong predictive constraining in many a natural science domain (as strongly constrained to existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness) induces the manifestation of sublimating thought as from induced requisite cogency of knowledge-reification (as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought) unlike is the case in many a blurry domain highly subjected to imprimatur discretion/whim-of-thought as to poor deferential-formalisation-transference justification as often in the social not the least bothered about the overall cogency of projected knowledge-reification (thus rather tending towards existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective). We can consider in this regards how authority actually serves its true deferential-formalisation-transference role quickly gives to prospective possibilities of sublimating knowledge-reification wherein for instance in the physics domain at the beginning of the 20th century the eminent physicists from say the cohorts of the Poincarés, the Einsteins, the Bohrs, the Feynmans, etc. successively passing on the baton (as to existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness), as of ontological-normalcy/postconvergence epistemic perspective in nonextricatory-existential-preempting-of-existential-unthought; whereas in many a blurry domain-of-study, disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> tend to be the order of the day often assuming a quasi-political strategic orientation as to gimmickiness-of-thought as of

existential-extrication-as-of-existential-unthought postures (poorly appreciating the profound knowledge-reification sublimating-over-desublimating implications of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness) as to the fact that the human mortal whim/discretion-of-thought projected as aura-and-imprimatur comes to be enshrined as being bigger than ecstatic-existence structural/paradigmatic implications. In many ways (unlike is the case with the natural sciences directly constrained to ecstatic-existence predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) induced constraining reifying-and-empowering reflexivity undermining human-subpotency discretion/whim-of-thought), many a blurry domain-of-study tend to be inclined to conceptualise supposed knowledge-reification as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity without the defining ‘-<formative>epistemic-totalising existential-contextualising-contiguity foregrounding—entailment-(narrowing-down–sublimation as to existence—as-sublimating-withdrawal) in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional_projective-perspective>’ as to the lack or poor predicative-effectivity–sublimation-(as-to-underlying-ontological-commitment) induced constraining reifying-and-empowering reflexivity leading to a social-vestedness/normativity reflex rather than ontological elucidation reflex. Such an approach is often projected contradictorily as methodologically emulating the natural sciences on the one hand but on the other hand implying that the knowledge-reification implications for the social are different as to the supposedly non-metaphysical (as non-ontological) nature of the social and cultural; failing to grasp/intuit that there can’t be any such thing as non-ontological as ‘all that there is’ is ontological, as existence is effectively all that there is and it is rather a question of the specific human-subpotency as to overall

panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated-human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation to epistemically come to terms with the absolute a priori that is existence as the ontological as to the overall-ecstatic-existence-supervening-conflatedness. Furthermore, the ‘social and cultural is rather priorly constrained to the ontological’ with regards to the fact that ‘scientific and technical capabilities and their implicated socio-organisational and value-referencing construct’ as to their inherent human reifying and empowering reflexivity implications, speaking of the ontological, are not necessarily ontologically-tied-to and/or ontologically-exclusive-of any social and cultural framework or peoples (in the sense that scientific and technical phenomena like electricity, machines, modern medicine, etc., their enabling social utilities/utilisations, and the value/moral outlook of the underlying positivism/rational-empiricism conceptualisations like provision of modern public services, associated freedoms, prospective knowledge-reification and empowering implications, etc. are not strictly meant for given specific social and cultural frameworks, and are rather amenable to all human social and cultural frameworks with regards to relative-ontological-completeness implications as to ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’); as the ontological inherently permeates all social and cultural frameworks so-reflected as of their underlying supposedly coherent ontological-commitment thus inducing the possibility for prospective transcendence-and-sublimity when any of its given meaningfulness-and-teleology is discovered/shown not to be ontologically veridical leading to its effective human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). Such that all human social or cultural frameworks are construable as of relative-ontological-completeness implications as to ‘enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’; and

the idea of such relative-ontological-completeness implications is not about the subjugation of the state of relative-ontological-incompleteness but quite the contrary as the state of relative-ontological-completeness (as to its true human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) implies an ‘emancipating attitude/mental-disposition/care–and–episteme’ in relation to ‘the other’ that is in the state of relative-ontological-incompleteness. Interpreting the historical failures associated with colonising or slaving or otherwise-exploitative-or-exterminating societies (as in the specific case of positivism/rational-empiricism technical and scientific development it inevitably implied the coming-together/encountering/meeting of societies worldwide), to then imply such a notion of relative-ontological-completeness implications is irrelevant is rather a nuancing error that fails to assess/evaluate that the more critical issue had to do with ‘the appropriate emancipating attitude/mental-disposition/care–and–episteme’ as effectively and paradoxically such a lack of nuancing can then lead to the interpretation that such historical failures should equally be the unavoidable expectation prospectively in analogous circumstances of socio-cultural disparity of societies, rather than interpreted to mean the prospective need for the requisite human knowledge-reifying and empowering reflexivity of appropriate human emancipating attitude/mental-disposition/care–and–episteme in the relationship between the state of relative-ontological-completeness and the state of relative-ontological-incompleteness. Such a wrong interpretation arises as to lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-

residuality/spirit-drivenness (reflecting mere reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation) that fails to make a nuance between on the one hand historicity-tracing implications as to the ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction presencing—absolutising-identitive-constitutedness identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism in <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ explaining the historical failures and on the other hand historiality/ontological-eventfulness/ontological-aesthetic-tracing implications as to ‘existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness given difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as to enlightening human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation reflected <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity as to ontological-primemovers-totalitative-framework’ that speaks to the ontologically-veridical and appropriate human emancipating attitude/mental-disposition/care—and—episteme. Such a wrong interpretation actually falls back into prospectively disenfranchising and undermining the emancipation of the state of relative-ontological-incompleteness prospectively as to its human inevitability stance poorly cognisant of the implications of the specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation (underlying human construction-of-the-Self). Incidentally, the ‘supposedly positivism/rational-empiricism formulaic/mechanical knowledge contenders’ as of the economic-opportunism-and-then-enculturation of their

nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies pointing to historicity-tracing distortive-originariness/distortive-origination, rather than being fully assumed as marking positivism/rational-empiricism progress implied historicity/ontological-eventfulness/ontological-aesthetic-tracing originariness. Besides such an approach (that claims to mirror the sciences while at the same time claiming to be non-ontological as to non-metaphysical) fails to grasp that natural sciences are actually in ‘-<formative>epistemic-totalising existential-contextualising-contiguity foregrounding—entailment-<narrowing-down—sublimation as to existence—as-sublimating-withdrawal> in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional_projective-perspective>’ and so as of the ‘internally implicated epistemic reflection of natural sciences sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing’ in the sense that ‘scientists never-and-have-never really started scientific knowledge-reification apriorisingly/axiomatisingly/referencingly—as-from-scratch/as-from-zero-<wrongly-implying-no-human-limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal>-implications-of-re-apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting-as-so-reflecting-historicity/ontological-eventfulness/ontological-aesthetic-tracing>,-as-if-thereby-directly-producing-the-absolute-state-of-the-art-outcomes’ but rather the inherent ‘education of scientists as from basic notions while making reference to past scientists momentous contributions up to the state-of-the-art outcomes’ is the equivalent of ‘natural sciences own sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing as re-apriorising/re-axiomatising/re-referencing/re-

The fact is ‘what is effectively lost-and-abandoned in practices of science ideology supposedly based on scientific methods/methodologies/approaches’ is the fundamental reality that such methods/methodologies/approaches came-about/were-introduced/were-invented in a tight-and-entwined relationship of prior ‘-<formative>epistemic-totalising existential-contextualising-contiguity foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal) in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional_projective-perspective>’ as to predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment) and genuine-and-profound knowledge-reification; with science ideology rather becoming an enterprise that rides-the-wave/exploits-without-corresponding-sublimation-as-to-existence-potency-implications of achieved science prestige so effectively constrained, to then imply the ‘blinded epistemic-veracity of mere supposedly scientific methods/methodologies/approaches with little-or-poor heeding to the implications of the ‘-<formative>epistemic-totalising existential-contextualising-contiguity foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal) in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-

More than just about abstract knowledge-reification the implications of science ideology are ultimately social and institutional as to the implications of human emancipation; and so in the sense that contrary to what is generally thought, science itself as for-human-studies is the very first-level of social science as of the epistemic implications it projects upon society and social meaningfulness-and-teleology, and critically so because in reality budding-positivists were actually the very first modern social scientists in the sense that their posturing wasn't critically about the 'technicalities of the budding natural science they advanced' like a heliocentric world or rational-empiricism driven natural science basis of analysis (as to satisfy their mere natural science curiosity given that in many ways some of the notions were previously advanced in different forms), but they were rather critically engaged in a social posturing to epistemically reconstrue the society and social meaningfulness-and-teleology in those scientific terms and the future elaboration and development of the natural sciences could only be rendered possible with an open society responsive to such budding scientific meaning, and it was this social posturing which was the true source of their troubles and persecution. In fact, such ridiculous historical interpretations seeming to criticise budding positivists like Galileo for wrongly making the case for a heliocentric world for instance are paradoxically based on condemning the latter and other budding positivists for having a poor experimental framework as of ontologically-deficient presencing—absolutising-identitive-constitutedness analyses that fail to factor in that the very

notion of ‘positivistic science experimental framework historicity/ontological-
 eventfulness/ontological-aesthetic-tracing’ was developed and enculturated/constructed as
 scientific practices by these budding positivists with their medieval societies previously
 knowing nothing of such as to their scholastic pedantry (as to the mere disinclination and
 incuriosity to even look through a telescope and draw contemplative consequences); and such
 a criticism on the basis of the subsequently developed and more precise modern day science
 experimental framework speaks of the characteristic nature of a supposed knowledge-

dispositions—existentialism-form-factor that has to be addressed. In another respect, given the
requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-

reification/contemplative-distension involved in true human consciousness sublimation, the dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation warrants that the conception of veridical human knowledge and emancipation is not beholden on the mere eliciting of a basic positive-opportunism, as ‘the very abstract value-reference commitment for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension’ that brings about sublimation needs to be construed as to imply ‘it is the underlying organic framing of the induced sublimation’, and so in order to avoid ‘sublimation value-reference usurpation’ wherein the temporal induced positive-opportunism elicits parallel competing meaningfulness-and-teleology (in existential-extrication-as-of-existential-unthought as of human-subpotency epistemic perspective of the dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation) and come to foreclose/undermine the instigative intemporal/longness dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension inducing sublimation as of the secondnaturing institutionalisation exercise. In many ways the underpinning—suprasocial-construct itself as to ‘a rather acerbic and direct positive-opportunism inclination’, while of abstractive apprehension of sublimation possibilities, tend to poorly appreciate the underlying and implied dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation and is functionally-speaking rather positive-opportunism beholden as to historicity-tracing implications; as in reality the fact is any underpinning—suprasocial-construct in its projection of social-stake-contention-or-confliction is hardly enamoured with the dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

drivenness—equalisation as of the instigative disposition for prospective transcendental-enabling/sublimation possibilities in the sense that even the underpinning—suprasocial-construct framework of say enlightenment despots or philosophising emperors are not truly instigative of budding-positivism or universalising-idealisation thought respectively, nor is our modern day presencing—absolutising-identitive-constitutedness politically clouded historicity-tracing underpinning—suprasocial-construct environment the contemplative beholder of the panacea for prospective human transcendence-and-sublimity potential; as so reflected in their ever always hardly-adaptable/inflexible reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation frameworks of historicity-tracing. This in many ways explains why ultimate responsibility lies with the abstract individual as to the requisite human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>).

Ultimately, the deprocrypticism registry-worldview/dimension construed as the nascent prospect for overcoming the dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation effectively projects the possibility of boundless human aestheticisation—and-aestheticisation-towards-ontology well beyond our present contemplation of what is implied by meaningfulness-and-teleology, as in many ways the

reality of our past and present aestheticisation—and-aestheticisation-towards-ontology as
 meaningfulness-and-teleology has ‘paradoxically hugely been burdened with desublimating
 historicity-tracing induced preemptive anticipation/anxiety about the human’ rather than the
 summoning of the full possibilities of the human; as by a soothing mental-reflex just as with
 all registry-worldviews/dimensions we tend to take comfort in our ‘beholdening-becoming—
 distortive-originariness/distortive-origination—as-to-historicity-tracing_inhibited-mental-
 aestheticising as of reproducibility—mathesis/motif/throwness-disposition,—as—
 reproducibility-of-aestheticisation’ rather than contemplate about prospective possibilities of
 ‘bechancing-becoming—originariness/origination—as-to-historiality/ontological-
 eventfulness/ontological-aesthetic-tracing_disinhibited-mental-aestheticising as of
 originariness-parrhesia,—as—spontaneity-of-aestheticisation’. Interestingly, in this regards in
 many ways the ontological-contiguity—of-the-human-institutionalisation-process possibility
 is hardly just about human ‘mere technical capacity potential’ but it is rather more critically a
 psychological issue as of desublimating historicity-tracing psychological entrapment
 implications that limit/stifle the human imaginary/ideality as to its <formative>epistemic-
 growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness
 capacity ‘to project in disseminative—selectivity-of-ontological-good-faith/authenticity—

 human-subpotency ontological-performance equivalence/correspondence with the full-

 construal of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought
 highlighting the prospective implications in reflecting the ontological-contiguity—of-the-
 human-institutionalisation-process as of the specific human-subpotency as to overall

panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation (as to underlying human construction-of-the-Self) is not ‘an ideological advocacy’, no more than say the universalising-idealisation philosophers nor the budding-positivists were involved in any ‘ideological advocacy’, but rather just as modern day science such a conception speaks to ‘the inherent ontological implications as to human knowledge-reification and corresponding empowering reflexivity’ (as implied in the differentiation between postmodern ontological-reconstituting/deconstruction/genealogy that exposes itself and is phronetically/practically encrusted/embedded/inlayed with inherent existence as to its underlying ontological claim sublimating-validation/desublimating-invalidity, and say a Hegelian dialectics and its derived-dialectics like Marxism wherein aspiration/ideology takes-a-leap-above/parts-with and is not utterly submitted to inherent existence ontological implications). Such a deprocrysticism conceptualisation of ‘boundless human aestheticisation—and-aestheticisation-towards-ontology’ speaks in itself of the ‘potentative-paradox of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor’ (as the underlying potentative-paradox of human paradoxes). Critically, at any given moment, potentiatively humankind is ever always inclined-and-amenable to face up to certain aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint while rather disinclined with respect to other aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; and this very much explains the ‘potentative-paradox of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor’ (as the underlying potentative-paradox of human paradoxes). It speaks to a metaphoricity potentiation imbued

in humankind defined by ‘human lack-of-capacity/capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension’ as this relates to existential-extrication-as-of-existential-unthought/nonextricatory-existential-preempting-of-existential-unthought. In this regards, human growth (with regards to human living-development-as-to-personality-development, institutional-development-as-to-social-function-development and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) is ever always about ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’. Insightfully, the ontological-contiguity—of-the-human-institutionalisation-process is a reflection of the fact that any given defining human contemplative moment (given registry-worldview/dimension) is marked by the ‘disseminative ontological selectivity/deselectivity play’ of ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ (reflecting its <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag for <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as to prospective social-stake-contention-or-confliction) and ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’ (reflecting its <formative>wooden-language—of-temporal-mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology), so-reflected as to ‘human consciousness tenuous self-surpassing shift in its apriorising/axiomatising/referencing appraisal’; and so contrastively as

of human underlying <formative>epistemic-growth/transvaluative-

ontological-aesthetic-tracing / historicity-tracing form-factor, prospective-ontological-
projection / social-vestedness-or-normativity form-factor, and ideality / positive-
opportunism-disposition form-factor. This contrast is very much aligned with the ontological-
contiguity—of-the-human-institutionalisation-process dimensionality-of-sublimating—
<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-

<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-
residuality/spirit-drivenness—equalisation. That said all registry-worldviews/dimensions as of
their defining human contemplative moment arising from their very human limited-
mentation-capacity induced presencing—absolutising-identitive-constitutedness (while
effectively contemplative of prospective progress), hardly/poorly project of prospective
emancipation directly on the ontologically-veridical basis of the defining ‘prospectively
conceptualisable aporia/undecidability/dilemma/ought-

its defining prospective transvaluative-rationalising / sublimating-thoughtfulness / historicity-

aestheticisation) but rather directly proceed as of the ‘perceived
aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is
supposedly inclined-and-amenable to face up to’ (reflecting its threshold of lack-of-

<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-

 latter is improvisably/uncontrollably potentiatively-transformed into the former as to the
 former existentially constraining implications of ontological-veracity. Thus the reality of
 prospective human emancipation in reflecting the ontological-contiguity—of-the-human-
 institutionalisation-process rather as of such a ‘human consciousness defensive-
 driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process

 supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable

 disinclined to face up to’) in many ways limits/stifles/undermines/derails human
 contemplative capacity for prospective emancipative implications (as can be so-contemplated
 from prospective notional-deprocrypticism conceptualisation of ‘boundless human
 aestheticisation—and-aestheticisation-towards-ontology’); and so critically as to the

 or-confliction state inducing human psychological entrapment in want for prospective
 psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. But then such
 apparently defining limitation to ‘boundless human aestheticisation—and-aestheticisation-
 towards-ontology’ when analysed as to the reality of human transformation across the time
 scale in reflecting the ontological-contiguity—of-the-human-institutionalisation-process

as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as to incrementalism-in-relative-ontological-incompleteness and so over the requisite maximalising-recomposuring-for-relative-ontological-completeness. The very forward-facedness of human consciousness as it defines human social-stake-contention-or-confliction is in many ways architectonically determinative and defining (as it projects dialectical-thinking–qualia-schema over dementing–qualia-schema), with regards to the structural/paradigmatic circular recurrence of ‘potentative-paradox of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’ (as the underlying potentative-paradox of human paradoxes); as to the ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ (as of the potentative transforming/conversion, on the basis of existentially constraining implications of ontological-veracity, of human ‘perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to’ into human ‘prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to’), and so with regards to the overall ontological-contiguity—of-the-human-institutionalisation-process induced construction-of-the-Self. Effectively the ontological-contiguity—of-the-human-institutionalisation-process possibility of successive transcendence-and-sublimity is a reflection of the ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ as to its ‘transitorily implied successive notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema> as from successive

This ontological-normalcy/postconvergence epistemic perspective as to its ontological-contiguity points out that the ontological-veracity of the registry-worldviews/dimensions successive ‘prior secondnatured reasoning-from-results/afterthought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation (as projected notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> reflecting the dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation)’ contrasted with the successive ‘prospective firstnatureness reasoning-through/messianic-reasoning originariness-parrhesia,—as—spontaneity-of-aestheticisation (as projected notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> reflecting the dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation)’, is actually the ontological-contiguity—of-the-human-institutionalisation-process ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ (with regards to ‘varying magnitudes/scales—as-to-successively-profound-restructuring/reparadigming-frames-as-from-living,-institutionalising,-and-Being-ontologising/infrastructure-of-meaningfulness-and-teleology of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

This very much explains transversality-of-disambiguated-apriorising/axiomatising/referencing of ‘prior secondnatured reasoning-from-results/afterthought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation (as projected notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>)’ and ‘prospective firstnatureness reasoning-through/messianic-reasoning originariness-parrhesia,—as—spontaneity-of-aestheticisation (as projected notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking—qualia-schema>)’; explaining why knowledge-reification and sublimation as to the prospective registry-worldview/dimension elicited apriorising/axiomatising/referencing—psychologism is not necessarily intelligible to the prior registry-worldview’s/dimension’s ordinary contemplation as to its presencing—absolutising-identitive-constitutedness apriorising/axiomatising/referencing—psychologism, and further explains human consciousness discontinuity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as to the successive registry-worldviews/dimensions notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> with each other (assuming paradoxically the form of ‘iterative-looping-narrations though in successive registry-worldviews/dimensions deeper knowledge-reifications where the prior is dementing and the prospective is dialectical-thinking’ with respect to the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality). Such a ‘human consciousness defensive-driven/unhinging/unbalancing improvising/uncontrolled potentiative-transforming-process so-constrained existentially on the basis of human supposedly coherent ontological-commitment’ reflects the ‘potentiative-paradox of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor’ (as the underlying

This speaks to human desublimating-or-sublimating-mental-aestheticisation-representation of the possibility of existence; with the ‘full-potency of existence withheld as from ontological-normalcy/postconvergence epistemic projection-perspective’ as to the ‘epistemic/notional sublimating-capacity-as-of-historiality/ontological-eventfulness/ontological-aesthetic-tracing over desublimating-capacity-as-of-historicity-tracing’ induced from human tandemisation/abstractive-conjugation/perspectivation/depth—as-to-mental-aestheticising-attuning (mental-aestheticising-becoming-manifestation as consciousness) driving ontological-dementation/dialectical-dementation—stranding/attributive-dialectics dynamics. Tandemisation/abstractive-conjugation/perspectivation/depth—as-to-mental-aestheticising-attuning further reflects the fact that <formative>epistemic-totalising conflatedness is associated with human sublimating-capacity-as-of-historiality/ontological-

 exercise of epistemicity/notionality in circular reoriginariness/reorigination and distorted-
 originariness/distorted-origination reflexivity with its sublimation and desublimation’ so-
 construed as ‘generating meaningfulness-and-teleology and metaphoricity’. Critically, the

This effectively comes down to human inclination for dealing directly with 'prospectively conceptualisable aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is disinclined to face up to' rather than just with 'perceived aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint it is supposedly inclined-and-amenable to face up to', and fundamentally so out of spontaneous ontological-good-faith/authenticity induced prospective-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseding-logical-basis> organic-knowledge rather than just mere methods/methodologies/approaches of prior-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseded-logical-basis> mechanical-knowledge in poor ontological-good-faith/authenticity or ontological-bad-faith; and critically so as of the enabling dynamics for human transcendence-and-sublimity as reflected by the fact that germinative/seeding projections as of reasoning-through/messianic-reasoning however their outlier nature are effectively what explain the possibility for the ontological-contiguity—of-the-human-institutionalisation-process on the basis of eliciting the social-construct supposedly coherent ontological-commitment. The structural/paradigmatic implications

of ‘human temporal-to-intemporal-dispositions accordioneing at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historiality/ontological-eventfulness/ontological-aesthetic-tracing possibilities’ for prospective knowledge-reification, for instance means that with respect to social-stake-contention-or-confliction the Socrates/Platos/Aristotles (nor the succession of other prospective-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseding-logical-basis> thinkers in reflecting the ontological-contiguity—of-the-human-institutionalisation-process) ‘are not engaged in an exercise of convincing the whole of humankind-as-to-human-mortal-subpotency but rather aligning to existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness as to prospective transcendence-and-sublimity implications’; and what is critical at the intemporal firstnatureness reasoning-through/messianic-reasoning level is the inducing of ‘the requisite intemporal accordioneing dynamics of such reasoning-through/messianic-reasoning for prospective deferential-formalisation-transference as to the social-construct underlying supposedly coherent ontological-commitment such that such prospective transcendence-and-sublimity prospectively put in question sophistic-pretences-of-playing-an-intellectual-and-moral-function as to when the social-construct is ultimately concerned with the prospective transcendence-and-sublimity intellectual-function to which such sophistic/pedantic pretences paradoxically rather adopt a tempering/discouraging penchant in a social disenfranchisement/swindling/corruption/dispossession inclination’ (and further as to the sophistic/pedantic pretence that no human idealisation is warranted failing to factor in that all human meaningfulness-and-teleology is already idealisation that has already selected-and-deselected what is idealiseable and unidealiseable as of social-stake-contention-or-confliction, such that from the ontological perspective the issue is not about no idealisation but rather the ontologically appropriate idealisation and appropriate human contemplation

and execution as ‘postures of no idealisation’ carry with them poor contemplations and executions already ‘ignoring-and-devaluing’ human existential-contextualising-contiguity epistemic-situations of relative-ontological-incompleteness associated with vices-and-impediments). Thus the point in reflecting the ontological-contiguity—of-the-human-institutionalisation-process has never been a direct convincing process (as to the shallowness of contemplation projected by sophistic/pedantic thought in eliciting human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>), but is rather reflected in an exercise conveying ‘profound human transcendence-and-sublimity enabling conceptualisations’ at the ‘varying magnitudes/scales—as-to-successively-profound-restructuring/reparadigming-frames-as-from-living,-institutionalising,-and-Being-ontologising/infrastructure-of-meaningfulness-and-teleology of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’ (with regards to human living-development—as-to-personality-development or institutional-development—as-to-social-function-development or Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process successive registry-worldviews/dimensions). Such a profound conceptualisation as herein contemplated is ‘not at all concerned with satisfying the shallower perspectives elicited from sophistry as to our presencing—absolutising-identitive-constitutedness human <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag social-stake-contention-or-confliction state’, but rather targets the bigger picture to which sophistry poorly

contemplate of; as to the fact that such sophistry ‘fails to even display a prior-and-basic curiosity-and-enlightening-attitude about inherent/authentic knowledge itself’ before even moving to the next stage of contemplating the validity/invalidity of knowledge argumentations. The fact that prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint means prospective meaningfulness-and-teleology is ever always caught up in ‘human temporal-to-intemporal-dispositions accordions at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’, speaks rather of the opportunity for the social-construct intellectual-function to induce human elevation as of prospective secondnatured institutionalisation (as herein implied as to prospective deprocrpticism/preempting-of-disjointedness-as-of-reference-of-thought with regards to its underlying intellectual exposition to falsifiability and validity/invalidity sublimating-over-desublimating implications of existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness) and not adopt sophistic/pedantic moral and intellectual disenfranchisement/swindling/corruption/dispossession eliciting of human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> (passed for intellection out of poor ontological-good-faith/authenticity or outright ontological-bad-faith/inauthenticity). In this regards, as to the ‘requisite human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’ associated with the succession of registry-worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, just as the possibility

for prospective base-institutionalisation could not arise without the ‘requisite human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’ from recurrent-utter-uninstitutionalisation, and so successively up to our positivism/rational-empiricism registry-worldview/dimension; the sophistic/pedantic pretence as impliciting that our positivism/rational-empiricism registry-worldview/dimension is the ‘absolutely unassailable epistemic framework even beyond ontological analysis’ is its fundamental contrivance for eliciting human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> in an exercise forestalling the meaningfulness-and-teleology implications for contemplating prospective ‘requisite human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’ as projected with postmodern thought and herein implied as from the notional-deprocrypticism/deprocrypticism epistemic projective-perspective. Such sophistic/pedantic implication of no ‘requisite human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’ is often articulated sophistically in terms of <formative>wooden-language—of-temporal-mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the reference-of-thought—categorical-imperatives/axioms/registry-teleology, and more brazenly in terms of intellectual misanalyses/misrepresentations, pretences-of-misunderstanding and muddlement of prospectively emancipating conceptualisations as so-directed towards postmodern thought. The fact is the possibility for prospective human knowledge in all domains can only and have only been able to arise on the basis of the ‘requisite human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-

residuality/spirit-drivenness’ involving human limited-mentation-capacity-deepening-
(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as to the

(with regards to ‘varying magnitudes/scales—as-to-successively-profound-

meaningfulness-and-teleology involves the exertion of the requisite prospective curiosity,
contemplation and elevation ‘beyond a historicity-tracing gimmickiness/desublimation
relation with meaningfulness-and-teleology’. Critically, an ‘underlying dumbing-down public
intellection and media industry’ thrive on cultivating ‘a historicity-tracing–imbued-
hyperrealisation gimmickiness/desublimation relation with meaningfulness-and-teleology’
and is in many ways at the root source of the modern day democratic crisis of political and
socio-economic disenfranchisement/swindling/corruption/dispossession, as it
disenables/paralyses the possibility for sublimating debates thus in many ways rendering the
public decisionmaking process ‘a defaulting process as to the social-vestedness/normativity
of social-stake-contention-or-confliction’. Such undermining of the possibility of ‘requisite
human <formative>epistemic-growth/transvaluative-
rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’ is effectively critical
with regards to historicity-tracing–imbued-hyperrealisation, as to the fact that by mitigating

the possibility to broaden-the-latitude-of-human-collective-consciousness off-the-beaten-path of historicity-tracing for prospective possibilities of historicity/ontological-eventfulness/ontological-aesthetic-tracing, the human mind is psychologically entrapped in mental-reflexes of presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as to the elicited <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>. At the root of this undermining of prospective ‘requisite human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’ is the social dilution/enfeeblement of value-construction/value-aspiration as to their ‘ad-hoc and incoherent <formative>epistemic-totalising implications supposedly non-ontological as to non-metaphysical’ (with regards to conceptualising the social-construct prospective transcendence-and-sublimity value-construction/value-aspiration), as associated particularly with ‘the specious usurpation of the overall social-construct’s intellectual-function as to prospective transcendence-and-sublimity’; with the paradox of such usurpation especially as of its drivenness in ‘intellectually mediating institutions as to popular-sovereignty’ including the media effectively projecting arbitrary social-vestedness/normativity constructs and frameworks of value-construction/value-aspiration while failing to intellectually editorialise/articulate/reflect the ontological equanimity/balance of conceptualisations as to the momentous implications of prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing (thus implicitly upholding the notion that the social is non-ontological as non-metaphysical); especially given that the equanimity/balance for upholding democratic sovereignty is in effect achievable only as of ‘structural/paradigmatic <formative>epistemic-

totalising operant considerations for equanimity/balance with regards to the social, political and media landscapes decision-making/editorialising processes’, as the often sparing instantiating existential frames of day-to-day social, political and media landscapes decision-making/editorialising processes are poorly amenable naturally to such ‘-
 <formative>epistemic-totalising operant considerations for equanimity/balance’ and end up assuming social-vestedness/normativity defaulting postures with occasional clamours for equanimity/balance of the decision-making/editorialising processes quite often the niggling exceptions to entrenched and existentially-unthought reflex. Such that beyond ‘gimmickiness/desublimation frameworks of aestheticisation’ in many ways the social-construct’s intellectual-function itself (as of aestheticisation-towards-ontology with respect to prospective human emancipation) becomes capitalistically-captured-at-the-exclusion/denaturing-of-reifying-and-empowering-intellectual-reflection as to the precedence of media-business-relevant-aestheticisation, underhanded-media-capitalist-direct-ownership-and-indirect-sponsorship-distortive-influence, blatant-intellectual-misanalyses-and-sophistry, public-influence-and-lobbying-overtaking-inherent-intellectual-veracity, politicised-institutional-stakes-overtaking-inherently-objective-social-knowledge-production-in-higher-academia, a-consciously-aware-intellectual-functional-impotence-that-cynically-construes-of-the-possibility-for-prospective-sublimating-social-knowledge-as-the-opportunity-for-its-muddling-and-archiving, etc. These all contribute in making-more-and-more-of-an-empty-shell the supposed intellectual transparency and sovereign independence of the social-construct in present day democracies. But then more than just the more consciously immediate emancipation possibilities for momentous human prospective historicity/ontological-eventfulness/ontological-aesthetic-tracing with regards to ‘present-day social and human emancipation concerns’ floundering/wallowing as to our present historicity-tracing induced psychological entrapment as undermining the prospective

‘requisite human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’; the more potently existential-unthinking (as to human aestheticisation-towards-ontology) is in the overall historicity-tracing induced paralysis/disabling of abstract contemplation about the ‘requisite human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’ implications underlying the overall ontological-contiguity—of-the-human-institutionalisation-process (as of a defaulting social-vestedness/normativity posture clouded in its presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), and specifically so with regards to the ‘requisite human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’ implications for prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. This existential-extrication-as-of-existential-unthought as to the dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation very much reflects the fact that all presencing—absolutising-identitive-constitutedness are effectively manifestations of underlying ontological-bad-faith/inauthenticity with regards to their prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; as all such presencing—absolutising-identitive-constitutedness fail to account for their ‘prior and prospective becoming’ which ontologically-veridical rationalisation effectively lies with the nonextricatory-existential-preempting-of-existential-unthought human emancipatory disposition associated with the dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

drivenness—equalisation. Similarly with respect to the ‘requisite human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’ dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, in many ways just as prior human scientific and technological sublimation momentarily induced historicity/ontological-eventfulness/ontological-aesthetic-tracing inevitably required its accompanying social sublimation (as the manifestations of failing social sublimation were in many ways the reason for conflictual and exploitative encounters associated with budding-positivism), and so as of the contiguity of both human techno-scientific and social sublimations giving their mutually for-human-studies sublimating nature; it is inevitably the case that a naïve construal of prospective science and technological development that seem to imply the requisite prospective sublimation of the overall human as to its prospective construction-of-the-Self is not critical, will inevitably lead to conundrums of prospective science and technology development as to the very possibility for developing the full human potential of science and technology as well as with respect to the underdevelopment of the human as to its shiftiness-of-the-Self in the capacity to handle and deal with prospective science and technology in such a manner that doesn’t imperil mankind’s very own survival (departing as from the larger conception of survival, beyond ‘reactionary construal’ of them-and-us in presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that end up ‘destructively dehumanising’ the various ‘the other’). Thus the very notion of human value-construction is entwined with ‘human temporal-to-intemporal-dispositions accordioneing at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’ and the idea of prospective human emancipatory transcendence-and-sublimity possibilities critically lies in appreciating the

enabling ‘prospective predicative-effectivity–sublimation–{as-to-underlying-ontological-commitment} constraining that prospectively transforms human ontological-performance capacity’ as of the ‘elucidative foregrounding—entailment–{narrowing-down–sublimation as to existence—as-sublimating-withdrawal} in reflecting the ontological-contiguity—of-the-human-institutionalisation-process’. The bigger point here (as of the ‘elucidative foregrounding—entailment–{narrowing-down–sublimation as to existence—as-sublimating-withdrawal} in reflecting the ontological-contiguity—of-the-human-institutionalisation-process’) lies with the fact that the ‘social-construct <formative>epistemic-totalising given institutionalised-and-uninstitutionalised-thresholds imbued secondnatured reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation’ (that is, as to any specific registry-worldview/dimension given throwness-disposition) effectively precedes-and-defines-as-ontologically-flawed any notion of a ‘supposed human-subpotency abstract self-determinative ontological-performance capacity as to the full-potency of existence’ (as wrongly upheld by presencing—absolutising-identitive-constitutedness postures that fail to appreciate the succession of projective stances of ‘human reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for conceptualisation’ as from recurrent-utter-uninstitutionalisation right up to prospective deprocrpticism) but for the ontological-veracity of ‘prospective predicative-effectivity–sublimation–{as-to-underlying-ontological-commitment} constraining that prospectively transforms human ontological-performance capacity’ as to induced prospective sublimation; and so as ‘reflecting the ontological-performance of the reference-of-thought-devolving in formativeness—as-to-human-meaningfulness-and-teleology-constituting-and-reconstituting of desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing’ (with regards to ‘varying magnitudes/scales—as-to-successively-profound-restructuring/reparadigming-frames-as-from-living,-

 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions–existentialism-form-factor’). In this regards, ‘human instigated meaningfulness-
 and-teleology ontological-performance capacity’ (so-construed as from the ontological-
 normalcy/postconvergence epistemic projective-perspective) is rather practically ‘an
 <formative>epistemic-totalising signposting exercise’ operating on the overall basis of the
 ‘social-construct <formative>epistemic-totalising given institutionalised-and-
 uninstitutionalised-thresholds imbued secondnatured reproducibility—
 mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ when it comes
 to social-stake-contention-or-confliction, and so overriding all presencing—absolutising-
 identitive-constitutedness ontologically-flawed representation of such ‘human instigated
 meaningfulness-and-teleology ontological-performance capacity’ as of a ‘supposed human-
 subpotency abstract self-determinative ontological-performance capacity as to the full-
 potency of existence’. This reflects the reality that the transcendental meaningfulness-and-
 teleology of prospective base-institutionalisation, universalisation, positivism/rational-
 empiricism and deprocrypticism/preempting—disjointedness-as-of-reference-of-thought
 respectively are effectively only marginally integratable respectively to prior recurrent-utter-
 uninstitutionalisation, ununiversalisation, non-positivism/medievalism and
 procrypticism/disjointedness-as-of-reference-of-thought (as to cross-generational
 psychoanalytic-unshackling/memetic-reordering/institutional-recomposure), and so only as
 the former induce their ‘prospective predicative-effectivity—sublimation-⟨as-to-underlying-
 ontological-commitment⟩ constraining that prospectively transforms human ontological-
 performance capacity’; thus reflecting the tight-and-entwined relationship between the
 overall human ontological-commitment (across all registry-worldviews/dimensions) and

predicative-effectivity–sublimation–{as-to-underlying-ontological-commitment} as the critical enablers for the possibility of prospective transcendental meaningfulness-and-teleology. Such an insight divulges the underlying structural/paradigmatic possibility that arise for sophistic/pedantic dispositions across all registry-worldviews/dimensions as to the prior ‘social-construct <formative>epistemic-totalising given institutionalised-and-uninstitutionalised-thresholds imbued secondnatured reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of human meaningfulness-and-teleology when not subjected to ‘prospective predicative-effectivity–sublimation–{as-to-underlying-ontological-commitment} constraining that prospectively transforms human ontological-performance capacity’. Critically, deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as converging to the ‘supposed human-subpotency abstract self-determinative ontological-performance capacity as to the full-potency of existence’ effectively implies the converging of prior ‘social-construct <formative>epistemic-totalising given institutionalised-and-uninstitutionalised-thresholds imbued secondnatured reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ towards deprocrypticism’s ‘prospective predicative-effectivity–sublimation–{as-to-underlying-ontological-commitment} constraining that prospectively transforms human ontological-performance capacity’. Such a ‘deprocrypticism predicative-effectivity–sublimation–{as-to-underlying-ontological-commitment} protension’ is encapsulated herein with the projected human-subpotency protensivity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; as to the budding prospect of an extensively systemic notional-deprocrypticism ‘prospective predicative-effectivity–sublimation–{as-to-underlying-ontological-commitment} constraining that prospectively transforms human

ontological-performance capacity', that protends to a comprehensive unification of human social and techno-scientific sublimation in overcoming human disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>. The insight arising from this extensively systemic notional-deprocrypticism 'prospective predicative-effectivity—sublimation-⟨as-to-underlying-ontological-commitment⟩ constraining that prospectively transforms human ontological-performance capacity' is the ontological-veracity that all social-vestedness/normativity value-constructions are effectively ever as of prior-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseded-logical-basis> as so-construed from 'notional-deprocrypticism inducing relative-ontological-completeness of prospective-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseding-logical-basis>'. In other words, the human as 'manifesting presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction'; as we can appreciate that the state of prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought (so-construed as of 'supposed human-subpotency abstract self-determinative ontological-performance capacity as to the full-potency of existence' in their presencing—absolutising-identitive-constitutedness) are respectively intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism/preempting—disjointedness-as-of-reference-of-thought respectively. This insight points to the fundamental deficiency of all frameworks supposedly involved in articulating human prospective transcendence-and-sublimating meaningfulness-and-teleology whereas there are as of presencing—absolutising-identitive-constitutedness prior-

apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseded-logical-basis>; as to the fact that with regards to existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness, the ‘supposed human-subpotency abstract self-determinative ontological-performance capacity as to the full-potency of existence’ (as reflected by its given reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation) is prospectively underdetermined for articulating prospective transcendence-and-sublimity meaningfulness-and-teleology. Thus the ‘supposed human-subpotency abstract self-determinative ontological-performance capacity as to the full-potency of existence’ can only be construed in terms of notional-deprocrypticism imbued dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation (so-construed as from the ontological-normalcy/postconvergence epistemic projective-perspective) ‘as it resolves human underdetermination for articulating prospective transcendence-and-sublimity meaningfulness-and-teleology’ as of existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. In other words, ‘human temporal-to-intemporal-dispositions accordioneing at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’ inherently mean that all human frameworks of prior-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseded-logical-basis> are structurally/paradigmatically intellectually-and-morally incompetent with regards to articulating prospective sublimating value-construction, as to the fact that the possibility for human prospective sublimation is a ‘messianic-structure of intemporality’ as to solipsistic ontological-faith-notion-or-ontological-fideism—imbued-

that with regards to the ontological-contiguity—of-the-human-institutionalisation-process as

dispositions—existentialism-form-factor’). The overall insight we can garner herein is that all registry-worldviews/dimensions will have their value-construction conception as of their social-vestedness/normativity presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that fails to factor in their prospective desublimation as to their given notional-procrypticism/notional-disjointedness-as-of-reference-of-thought and that notional-deprocrypticism prospective sublimation will structurally/paradigmatically ‘dismiss fundamentally’ the registry-worldviews/dimensions very presencing—absolutising-identitive-constitutedness prior-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseded-logical-basis> pretence of being involved in prospective transcendence-and-sublimity meaningfulness-and-teleology, and so as to the notional-deprocrypticism projected prospective-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseding-logical-basis> as to existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. But then the structural/paradigmatic implications of ‘human temporal-to-intemporal-dispositions accordioneing at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’ implies that the mere eliciting of prospective sublimation as of notional-deprocrypticism ‘is not structurally/paradigmatically transformative of human temporal-to-intemporal-dispositions’ as to the fact that ‘prospective transcendence-and-sublimity meaningfulness-and-teleology doesn’t transform the underlying reality of human temporal-to-intemporal-dispositions ontological-performance with regards to social-stake-contention-or-confliction as of the ever-present precedence of human ontological-good-faith/authenticity or ontological-bad-faith/inauthenticity as to ontological-faith-notion-or-ontological-fideism—

The possibility for prospective human sublimation as to the very essence of human knowledge-reification exercise as underlined by ‘messianic-structure of intemporality’ is: ‘fatedness-of-sublimation-over-desublimation, to existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-

 desublimation in existence (as to the insight for mitigating the concomitant drawback of
 desublimating historicity-tracing in the pursuit for sublimating historicity/ontological-
 eventfulness/ontological-aesthetic-tracing at the very center of Foucault and Derrida
 contentions). Foregrounding—entailment-(narrowing-down—sublimation as to existence—as-
 sublimating-withdrawal) invalidates presencing—absolutising-identitive-constitutedness

conception of knowledge-reification as of ‘supposed knowledge-reification framework of human-subpotency determination as to a temporal mere-methodologising/mutualising/organising/institutionalising human-subpotency enframing as desublimating’; that fail to realise that ‘human self-satisfactory mere-methodologising/mutualising/organising/institutionalising constructs’ are not beholden to existence with regards to ‘genuine knowledge-reification framework involving a detour to existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing–realisation,-re-perception,-re-thought-in-epistemic-conflatedness induced prospective determination which then is structurally/paradigmatically preceding-and-constraining to human-subpotency as enabling prospective sublimation-over-desublimation’. We can appreciate in this regards that the classical-mechanics—axiomatic-constructs prior-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseded-logical-basis> that did not recognise notions like space-time, considered the ether real, did not consider that the laws of physics are different at atomic scale, etc. speaking to ‘human self-satisfactory mere-methodologising/mutualising/organising/institutionalising constructs’ wasn’t in any way beholden to existence as to the prospective sublimation of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs prospective-apriorising/axiomatising/referencing–dialogical-equivalence-<as-superseding-logical-basis> that recognised notions like space-time, considered the ether as real, considered that the laws of physics are different at atomic-scale, etc., and so as ‘genuine knowledge-reification framework involving a detour to existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing–realisation,-re-perception,-re-thought-in-epistemic-conflatedness induced prospective determination which then is structurally/paradigmatically preceding-and-constraining to human-subpotency as enabling prospective sublimation-over-desublimation’. It is interesting to appreciate that given the

prior enculturation of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)’ induced by budding-positivists (associated with their persecution), the stage was set for the foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal) of such a theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs prospective-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseding-logical-basis> as to the tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment) as the critical enablers for the possibility of prospective transcendental meaningfulness-and-teleology, without eliciting (as was the case with the Galileos/Descartes, etc. in the face of the medieval-scholastics pedantic dogmatism Establishment) ‘the breadth of human temporal-to-intemporal-dispositions not structurally/paradigmatically a competent intellectual-and-moral framework for instigating prospective human sublimation’ as to the sophistic/pedantic possibility for inducing human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> with regards to prospective social-stake-contention-or-confliction. Interestingly as well, we can appreciate the more or less socially enculturated disposition in our positivism/rational-empiricism registry-worldview/dimension (with regards to the ‘profoundly sublimating natural sciences’) of human appreciation of the ‘messianic-structure of intemporality’ and its derived deferential-formalisation-transference secondnaturing, with regards to such sciences foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal) as to the tight-and-entwined

relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and predicative-effectivity–sublimation–(as-to-underlying-ontological-commitment) as critically enabling prospective sublimation. Foregrounding—entailment–(narrowing-down–sublimation as to existence—as-sublimating-withdrawal) as such induces the requisite ontological-faith-notion/authenticity and discipline both among natural scientists and any contending interlocutors as to the constraining implications of prospective sublimation thus allowing for ‘genuine knowledge-reification framework involving a detour to existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness induced prospective determination which then is structurally/paradigmatically preceding-and-constraining to human-subpotency as enabling prospective sublimation-over-desublimation’.

In contrast this author is critical of the notion that disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> subject to discretion/whim-of-thought associated with presencing—absolutising-identitive-constitutedness conception of knowledge-reification as of ‘supposed knowledge-reification framework of human-subpotency determination as to a temporal mere-methodologising/mutualising/organising/institutionalising human-subpotency enframing as desublimating’ that falsely ignore the structural/paradigmatic implications of ‘human temporal-to-intemporal-dispositions accordioneing at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’ in want for ‘-<formative>epistemic-totalising existential-contextualising-contiguity foregrounding—entailment–(narrowing-down–sublimation as to existence—as-sublimating-withdrawal) in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional_projective-perspective>’. Critically, the possibility of such a physics

dialogical-equivalence for instance is fundamentally enabled by such foregrounding—
 entailment-(narrowing-down-sublimation as to existence—as-sublimating-withdrawal) of
 physics: and where say for instance proponents of classical-mechanics—axiomatic-constructs
 became involved in ‘the muddling/pedantising of methods/methodologies/approaches as to
 prior-apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseded-logical-
 basis>’ as to their presencing—absolutising-identitive-constitutedness conception of
 knowledge-reification, then in many ways proponents of theory-of-relativity-together-with-
 quantum-mechanics—axiomatic-constructs ‘would rather point out the transversality-of-
 disambiguated-apriorising/axiomatising/referencing of the former rather than wrongly imply
 any mutual logical-congruence of dialogical-equivalence involvement in knowledge-
 reification exercise as they will do with respect to other proponents of theory-of-relativity-
 together-with-quantum-mechanics—axiomatic-constructs with whom they may disagree
 within the prospective-apriorising/axiomatising/referencing—dialogical-equivalence-<as-
 superseding-logical-basis> framework’. This speaks to the fact that human dialogical-
 equivalence framing doesn’t supersede prospective sublimating existence’s necessitating
 implications and consequences, at which point existence-potency-prospective-digression-of-
 <formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness manifests ‘Derridean underdetermination-imbued force/violence
 conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-
 empowerment/ignorance-disempowerment’ with regards to the possibility of prospective
 human phenomenal/manifest sublimation and desublimation in existence; as the proponents
 of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs ‘cannot
 produce any magical logical-congruence implication as of the prior-
 apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseded-logical-basis>
 of the proponents of classical-mechanics—axiomatic-constructs’ but for the prospective-

apriorising/axiomatising/referencing—dialogical-equivalence-<as-superseding-logical-basis>
of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs
foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-
withdrawal) of physics implied tight-and-entwined relationship between the overall human
ontological-commitment (across all registry-worldviews/dimensions) and predicative-
effectivity—sublimation-(as-to-underlying-ontological-commitment) as critically enabling
prospective sublimation. In effect, such a controversy of ontological-bad-faith/inauthenticity
never arose (as explained by the prior enculturation of an underlying ‘scientific—
apriorising/axiomatising/referencing—psychologism enculturated/constructed social-
pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-
commitment)’ induced by budding-positivists and associated with their persecution), and
further because of the very high predicative-effectivity—sublimation-(as-to-underlying-
ontological-commitment) associated with the physical sciences and generally ‘much of the
basic/fundamental and disinterested natural sciences’. However, the case with psychological,
social and ‘interest-driven scientific frameworks’ is quite often ‘hardly one of high
predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)’ with the
result that such a ‘purist ontological and scientific framing of supposedly knowledge-
reification issues as to prospective sublimating historicity/ontological-
eventfulness/ontological-aesthetic-tracing’ is either indirectly or directly undermined with
social-vestedness/normativity ideas which ‘structurally/paradigmatically speak to an
underlying disengagement with the deeper notion of veracity/truth supposedly projected as
pure scientific and pure ontological analysis in the relevant domains’, as to the ‘social-stake-
contention-or-confliction relative privileging of human
methodologising/mutualising/organising/institutionalising epistemic gadgetry’
(surreptitiously associated with <formative>wooden-language—of-temporal—mere-

form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives) over
 existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-
 realisation,-re-perception,-re-thought-in-epistemic-conflatedness. This difference between a
 ‘purist science/ontology epistemic-conception of veracity/truth’ and the conception of
 veracity/truth as from the latitude of ‘human social-vestedness/normativity implied
 contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’
 is critically reflected in the fact that the former orientation is priorly-and-ultimately
 concerned with existence’s foregrounding—entailment-(narrowing-down—sublimation as to
 existence—as-sublimating-withdrawal) imbued sublimation whereas the latter is critically
 concerned with ‘conceptions of human abstract interpositions as of elaboration-as-mere-
 extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-
 contextualising-contiguity’ that are not necessarily subject to phenomenal/manifest
 existence’s foregrounding—entailment-(narrowing-down—sublimation as to existence—as-
 sublimating-withdrawal)’; and so-peculiarly implied with the ‘importing/exporting of
 reductionisms’ (as to the fact that there is no physics reductionism of physics or say
 mathematics reductionism of mathematics or biology reductionism of biology as to being the
 real and natural orientation for the specific physics, mathematics and biology epistemic-
 conceptions of their respective epistemic-conceptions phenomenal/manifest_subpotencies-
 <in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence>) to explain human
 psychological and social phenomena that ‘end up implicitly denying the very obvious reality
 of the psychological and social
 subpotencies-<in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence>’. In
 many ways taking such ontologically-flawed interpretations seriously induces human
 impotency and desublimation (as to the implicated contention that the human ‘supposedly has
 no profound sublimating social and socio-psychological phenomenal/manifest_subpotencies-

<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence>’ with the
 ‘supposedly profound phenomenal/manifest_subpotencies-<in-transitive-conflatedness–
 reflexivity,-in-the-full-potency-of-existence>’ construed rather in reductionist terms of
 biology/neurology or physicalism) as is often also associated with social-
 vestedness/normativity disparateness-of-conceptualisation-<unforegrounding-disentailment,-
 failing-to-reflect-ontological-contiguity>; thus ‘actually denying the metaphysical nature and
 thus ontological nature of the sublimating social and socio-psychological’ such that
 existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-
 realisation,-re-perception,-re-thought-in-epistemic-conflatedness sublimation implications
 with regards to the social and socio-psychological are hardly contemplated and recognised as
 so-projected herein as to the ontological-contiguity—of-the-human-institutionalisation-
 process. But then such reductionism actually fails the ‘necessitation test of any
 science/ontology’ as in reality it is a gimmicky exploitation of the sublimation of the natural
 sciences as to their inherent phenomenal/manifest_subpotencies-<in-transitive-conflatedness–
 reflexivity,-in-the-full-potency-of-existence> to then ‘utilise the clout to falsely imply
 substitutive/reductionist sublimation over the social and socio-psychological
 phenomenal/manifest_subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-
 potency-of-existence>’ (as so-reflected with practices of science ideology associated with
 biological/neurological and evolutionary substitutive/reductionist interpretations of the social
 and socio-psychological). But then the giveaway of such a flawed conception of
 science/ontology lies in the fact that such approaches do not project any ‘-
 <formative>epistemic-totalising necessitation frame-of-ontological-contiguity’ as all
 pretences of science/ontology must demonstrate and aspire to (consider in this regards the ‘-
 <formative>epistemic-totalising necessitation frame-of-ontological-contiguity’ of physics,
 chemistry, biological, genetic theories as to the ontological-contiguity imbued

foregrounding—entailment—(narrowing-down—sublimation as to existence—as-sublimating-withdrawal) of their respective inherent sublimating phenomenal/manifest_subpotencies—(in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence> wherein for instance with the physics frame—of—ontological-contiguity succession of theories are developed aspiring cogently for ontological-contiguity of the whole physics epistemic-conception phenomenal/manifest_subpotency—(in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence> as from say Galilean/Cartesian/Newtonian/Leibnizian physics to present day string-theory/loop-quantum-gravity/etc. which all profess ontological-contiguity). In other words, such biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological shouldn't epistemically be selective in discretion/whim-of-thought (if truly of science/ontology as to '—(formative>epistemic-totalising necessitation frame—of—ontological-contiguity') but should rather go on to effectively explain away the entire social and socio-psychological phenomenal/manifest_subpotencies—(in-transitive-conflatedness—reflexivity,—in-the-full-potency-of-existence> as to human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development—as-infrastructure-of-meaningfulness-and-teleology, and so comprehensively articulating human organisational and institutional driven/potent sociocultural, economic, political, legal, etc. manifestations on such biological/neurological and evolutionary substitutive/reductionist basis of supposed sublimation as to their '—(formative>epistemic-totalising existential-contextualising-contiguity foregrounding—entailment—(narrowing-down—sublimation as to existence—as-sublimating-withdrawal) in elucidating ontological-contiguity—(as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional_projective-perspective>'. The reality of such biological/neurological and evolutionary

substitutive/reductionist interpretations of the social and socio-psychological is rather one that points out that the ‘traditional nature versus nurture debate itself is fundamentally an axiomatically bankrupt conception’ since ‘not even such proponents implicitly point to an underlying human drivenness and functioning of the social and socio-psychological framework on the basis of any such supposed ‘-<formative>epistemic-totalising necessitation frame-of-ontological-contiguity of biological/neurological and evolutionary substitutive/reductionist interpretations’, but rather the strategies of such proponents (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) work paradoxically only by impliciting the reality of the ‘-<formative>epistemic-totalising necessitation frame-of-ontological-contiguity of the social and socio-psychological epistemic-conception phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> (as to their implied sublimating existence’s necessitating implications and consequences)’, and then surreptitiously project/select/pop-up (in discretion/whim-of-thought) opportune/ad-hoc biological/neurological and evolutionary substitutive/reductionist interpretations of the social and socio-psychological frame-of-ontological-contiguity, and so as of vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>. Such flawed and surreptitious representation that biological/neurological and evolutionary substitutive/reductionist interpretations are the ‘-<formative>epistemic-totalising necessitation frame-of-ontological-contiguity’ of the social and socio-psychological (rather than the truly inherent social and socio-psychological epistemic-conception phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> as of their ‘-<formative>epistemic-totalising necessitation frame-of-ontological-contiguity’) in effect wrongly implies a dialogical-equivalence ‘nature versus nurture debate’ between these two perspectives as to a ‘naïve academicism mere procedural

argumentation reflex’. The reality at best is that of ‘biological/neurological and evolutionary interpretations transverse epistemic-conception phenomenal/manifest_subpotency’ in relation to the social and socio-psychological frame-of-ontological-contiguity (and not such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception overriding the social and socio-psychological epistemic-conception phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence>, just as the transverse epistemic-conception phenomenal/manifest_subpotency of mathematics in relation to physics doesn’t substitute for and override the inherent physics epistemic-conception phenomenal/manifest_subpotency-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence>). The consequence of such vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> as to failing ‘-<formative>epistemic-totalising necessitation frame-of-ontological-contiguity’ (as implied as of the requisite ‘-<formative>epistemic-totalising existential-contextualising-contiguity foregrounding—entailment-<narrowing-down-sublimation as to existence—as-sublimating-withdrawal> in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional_projective-perspective>’), is that (besides their basic epistemic innocence/naivety) such biological/neurological and evolutionary interpretations substitutive/reductionist epistemic-conception then provide the room for sophistic/pedantic dispositions that construe of the inherent sublimation in the natural sciences qua natural sciences as the surreptitious opportunity to project gimmicky/desublimating interpretations about the social (on the basis of the ‘hollow impressiveness of the natural sciences’) as a psychological trick/gimmick as to rendering knowledge-reification sublimation in the social impotent with regards to varied social-stake-contention-or-confliction purposes. Such claims often project/imply that analysing the social qua social is just about irrelevant (or

paradoxically ‘make their very own subterfuge social interpretations’ as from the psychological trick/gimmick of the projected hollow impressiveness of the natural sciences so-derived from the clout of a natural science without demonstrating the epistemic-veracity for such a bypassing/dodgery as to arrive at the social ‘-<formative>epistemic-totalising necessitation frame—of—ontological-contiguity’ sublimating implications and consequences). Besides, such claims are often so-associated with vague non-metaphysical as non-ontological conceptualisations of the social in vague disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity> as to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity, and thus in many ways further undermine/distract-from the social ‘-<formative>epistemic-totalising necessitation frame—of—ontological-contiguity’ conception of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint in dealing with direct social and institutional issues, crises and failures. A ‘purist science/ontology epistemic-conception of veracity/truth’ equally differs from the conception of veracity/truth as from the latitude of ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social—value-construction’ with the former construing of ‘knowledge as to existential knowledge-reification privileging manifest sublimating outcome in existence’ in contrast to the latter construing of ‘knowledge as to collective acquiescence as to the privileging of human commendation-or-agreementing/convincing-among-mortals (rather than a detour to existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness) even over manifest sublimating outcome in existence’. Such a ‘purist science/ontology epistemic-conception of veracity/truth’ construes of knowledge as a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening-{<formative>epistemic-totalisingly,-as-to-existence—

as-sublimating-withdrawal)’ (as involved in the reconceptualisation of the physics state-of-the-art from Einsteinian physics, Bohrian physics, Feynmanian physics, etc., emphasising rather ‘the constancy of the intemporal individuation as from the ontological-normalcy/postconvergence perspective’ and ‘not about the constancy of any notion of intemporal individual’). Such a ‘perpetual off-balance act associated with human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)’ speak to the more profound reality that the ordinariness of human thought across the succession of human registry-worldviews/dimensions points to their ‘epistemic-abnormalcy’ despite the delusion of all registry-worldviews/dimensions in their presencing—absolutising-identitive-constitutedness as being of ‘absolute epistemic-normalcy’; and it is because of this latter fact (as from the ontological-normalcy/postconvergence epistemic-projection perspective) that prospective human progress and emancipation as of human transcendence-and-sublimity can occur in the very first place (in contradiction to all such registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness failure to directly grasp their very own <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, even as the possibility for prospective transcendence-and-sublimity necessarily involves such a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposure). In other words, the ‘effective equilibration of human sublimating meaningfulness-and-teleology across the successive registry-worldviews/dimensions’ does not lie with any ‘ordinariness/commonsensicality as of the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness’ as falsely elicited by their sophistic/pedantic dispositions, as in reality it rather lies in ‘the dynamically differentiated transversality-of-disambiguated-apriorising/axiomatising/referencing of the ontological-performance of human temporal-to-intemporal-dispositions narratives’: and so as to

‘fatedness-of-sublimation-over-desublimation, to existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness (in reflecting the ontological-contiguity—of-the-human-institutionalisation-process), of human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as to the disseminative—selectivity-of-ontological-good-faith/authenticity-over-deselectivity-of-ontological-bad-faith/inauthenticity’, as the driver of the human-subpotency potentiating existential becoming manifestation of sublimating-over-desublimating social-and-institutional-constructs-of-meaningfulness-and-teleology—in-cumulation/recomposuring all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; as it dynamically induces (as of ‘varying magnitudes/scales—as-to-successively-profound-restructuring/reparadigming-frames-as-from-living,-institutionalising,-and-Being-ontologising/infrastructure-of-meaningfulness-and-teleology of prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor’) successive prospective reasoning-through/messianic-reasoning for reasoning-from-results/afterthought as the secondnatured-institutionalisation of successive registry-worldviews/dimensions reference-of-thought—and-reference-of-thought-devolving–meaningfulness-and-teleology so-construed as ‘generating varying human sublimating-over-desublimating social-and-institutional-constructs-of-meaningfulness-and-teleology—in-cumulation/recomposuring of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as to their pre-eminence as of their ‘prospectively projected relative-ontological-completeness <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’. This latter insight is critical for all prospective human

sublimation as ‘a false sense of a categorically/absolutely sublimated social-construct
 ordinariness/commensality and social-vestedness/normativity’ effectively renders any
 prospective human emancipation and construction-of-the-Self pointless-and-contradictory; as
 to the fact that even such advocates turn out to be incoherently muted-and-muddled with
 regards to such an argument about ‘a false sense of a categorically/absolutely sublimated
 social-construct ordinariness/commensality and social-vestedness/normativity’, revealing
 their true motives rather as status quo preserving with regards to social-stake-contention-or-
 confliction (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-
 existential-unthought). The ‘purist science/ontology epistemic-conception of veracity/truth’ is
 ever always about the ‘prospective upholding of existence-potency-prospective-digression-
 of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness’ and structurally/paradigmatically so-explains the very possibility for
 human progress. In contrast the conception of veracity/truth as from the latitude of ‘human
 social-vestedness/normativity implied contract/political-arrangement-or-political-
 coercion/given-discrete-social–value-construction’ is rather more bent upon emphasising
 human-subpotency methodologising/mutualising/organising/institutionalising grounds for
 veracity/truth rather than eliciting prospective sublimating existence’s necessitating
 implications and consequences. Such notions of veracity/truth without articulating existence-
 potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-
 perception,-re-thought-in-epistemic-conflatedness are vague disparateness-of-
 conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>,
 and worse still when accompanied by claims of humility as to inherent institutionalised
 prescience are more often than not mere manifestations of intellectual entitlement; (as to
 imply the society is inherently beholden to the mere institutionalised imprimatur of
 intellection even as to when it projects intellectual desublimation associated with intellectual-

muddlement as well as intellectually-distortive practices such as blind institutionalised priming/funnelling/staking of specific theoretical postures over genuine and profound ontological elucidation as to existential contextualisation with the associated academic careerism at the very antipode of genuine sublimating intellection) and so as reflecting the modern day intellection relevant prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.

Interestingly, the ‘purist science/ontology epistemic-conception of veracity/truth’ projects prospective sublimating existence’s necessitating implications and consequences to implicitly underscore ‘interlocutory humility’ induced as of existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness; as to the fact that humility was rather imbued with the Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective over the prior institutionalised/classical-mechanics—axiomatic-constructs with the latter never assuming any arrogance as to its prior methodologising/mutualising/organising/institutionalising conception of physics. Critically, with regards to the blurriness of meaningfulness-and-teleology in the social that exposes prospective transcendental dispositions (as to dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation ontological-good-faith/authenticity—structure) to sophistic/pedantic <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives eliciting of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>, it is important to articulate such prospective sublimating meaningfulness-and-teleology while

equally reflecting upon the sophistic/pedantic to its dimensionality-of-desublimating-lack-of—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation ontological-bad-faith/inauthenticity—structure as part and parcel of the prospective sublimating meaningfulness-and-teleology, and not wrongly imply the desublimation is in apriorising-teleological-elevation-in-ontological-contiguity as to the transcendence-and-sublimity attitude/mental-disposition/care—and—episteme (in this case reflecting sophistic/pedantic procrypticism/disjointedness-as-of-reference-of-thought); and as so articulated elsewhere with the case of the Socratic philosophers and budding positivists it is always the case that the sophistic/pedantic dispositions will fathom that in relation to prospectively sublimating base-institutionalisation, universalisation, positivism and deprocrypticism the effective ‘world that exists to the majority people (as of ‘human temporal-to-intemporal-dispositions accordions at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’) respectively is recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought to go on cynically eliciting <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as of the latter. Ultimately, there is a ‘social underlying sublimating intellection proficiency’ to which all specific domains of study need to account for their sublimating pertinence; and the possibility of putting into question all ‘Establishment intellection as of their given presencing—absolutising-identitive-constitutedness’ (from across the most ancient civilisations to modern times and so as instigated by the Socrates, Galileos, Descartes, Diderots, etc.) has always arisen within-or-without such epochal Establishment intellection

by the prompting of their ‘social underlying sublimating intellection proficiency’ which contemplative consciousness is not to be underestimated as to a ‘decadence posturing of intellectual entitlement’. Critically, the possibility of prospective value-construction and pretence of projecting more profound value is indissociable from the capacity of producing the relative-ontological-completeness knowledge that broaden-the-latitude-of-human-collective-consciousness as to the fact that just as prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally wanting with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism/preempting—disjointedness-as-of-reference-of-thought value-construction respectively; pretences of profound intellection as to the former are nothing but sophistic/pedantic exploitations of human limited-mentation-capacity as to ‘a delusion of generating knowledge and value from thin air’, and of vital importance in that regards is the fact that that which is in relative-ontological-completeness has to occupy the intellectual-and-moral ground imbued by such relative-ontological-completeness. Vague notions of arrogance and wretchedness are nothing but the ontological-veracity of the state of relative-ontological-incompleteness arrogance and wretchedness of thought (as from the ontological-normalcy/postconvergence epistemic/notional_projective-perspective) as to an epistemically-decadent <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives; and so as to the fact that the magnanimity of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension out of concern about human prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology ‘is the most important human and humanity-producing enterprise’ notwithstanding the paradox that the

prior recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism/disjointedness-as-of-reference-of-thought respectively are intellectually-and-morally undeveloped to be the framework for appraising value-construction as of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism/preempting—disjointedness-as-of-reference-of-thought respectively in many ways explaining the underlying implications of huma registry-worldview's/dimension's institutionalisation as involving cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. This affirmation is not articulated idly as to the fact that part and parcel of human knowledge-reification is not to allow desublimating thought to occupy the ground of sublimating thought (as the latter has to include a challenge to the knowledge-destroying desublimating thought arrogance and wretchedness), however the subterfuges available to such desublimation whether as of sophistry and mere-institutional-appendaging as reflecting the veridical prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint; taking hint that it is fundamentally a question about existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness and no amount of human mortals methodologising/mutualising/organising/institutionalising can supersede prospective sublimating existence's necessitating implications and consequences as otherwise the very idea of ontology/science then collapses and the supposed knowledge-reification exercise becomes pointless but as for institutional parading value. There is simply no knowledge without the effective demonstrated knowledge-reification implications and pretending otherwise as to 'virtual wisdoms' is nothing more than <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Hence basically the overall differentiation between 'purist science/ontology epistemic-conception of veracity/truth' and

‘social-vestedness/normativity epistemic-conception of veracity/truth’ lies with their
 constraining whether towards inherent existence projected implications or towards human-
 subpotency projected implications respectively. This underlying point has
 structural/paradigmatic implications with regards to human meaningfulness-and-teleology as
 to human living-development-as-to-personality-development, institutional-development-as-
 to-social-function-development and Being-development/ontological-framework-expansion-
 as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology.
 This differentiation can be rearticulated in aestheticisation terms to imply that existence (as to
 existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-
 realisation,-re-perception,-re-thought-in-epistemic-conflatedness) is ‘the scalar conception
 that enables prospective human sublimation as of aestheticisation-towards-ontology’ while on
 the other hand human-subpotency (as to human presencing—absolutising-identitive-
 constitutedness <formative>epistemic-totalising-self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag) is ‘a non-scalar conception that induces
 prospective human desublimation aestheticisation’. The ‘scalarity/immanency of existence’s
 ontological-normalcy/postconvergence’ as such is reflected with regards to prospectively
 implied ontological-normalcy/postconvergence construed as of maximalising-recomposuring-
 for-relative-ontological-completeness epistemic-projection perspective while ‘human-
 subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-
 structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ is reflected
 with regards to its prospectively implied epistemic-abnormalcy construed as of
 incrementalism-in-relative-ontological-incompleteness epistemic-projection perspective.
 Basically, ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and
 ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-
 structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ thus speak to

the fact that human prospective transcendence-and-sublimity implied limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ (as to dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension) is actually induced as from human uncontemplative-distension so-construed as ‘dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension imbued prospectively of both sublimating historicity/ontological-eventfulness/ontological-aesthetic-trace and desublimating historicity-tracing’; as to prospective sublimating historicity/ontological-eventfulness/ontological-aesthetic-trace ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as prospectively preserving ontology/ontological-veracity and ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ prospective desublimating historicity-tracing as prospectively obviating ontology/ontological-veracity. This insightful grasp of the implications of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ (construed as from ontological-normalcy/postconvergence epistemic-projection perspective): ‘as rather occurring as from an ontologically deficient grounding’ of relative human limited-mentation-capacity (however ‘the better relative ontological-deficiency’ implied as of relative-ontological-completeness), emphasises the necessity for the bifurcation of the construal of prospective human ontological-performance (associated with prospective human sublimation) into: ‘a scalarity/immanency perspective (as to a scalarity/immanency that will arise if the human had absolute-mentation-capacity so-construed as ontological-normalcy/postconvergence) of historicity/ontological-eventfulness/ontological-aesthetic-tracing’ and ‘a non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation> perspective

(with regards to residual human ontological-deficiency implications as to relative human limited-mentation-capacity notwithstanding ‘the better relative ontological-deficiency’) of historicity-tracing’. Uncontemplative-distension is thus rather the recognition that human dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension doesn’t achieve absolute ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ (as dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension rather reflects the epistemic perspective towards ontological-normalcy/postconvergence and not ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’); with the effective ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ as of the absolute distension (beyond just relative-ontological-completeness) underlying the overall existential dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation as the inherent ontological-good-faith/authenticity—structure effectively reflected as of notional-deprocrypticism. Deprocrypticism as such by its ontologically-uncompromised nature ‘technically entails’: prospective human ontological-performance as to sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ in overcoming the desublimating historicity-tracing of ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in presencing—absolutising-identitive-constitutedness. Translated, this ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’ and ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ underlying prospective human ontological-performance with regards to human meaningfulness-and-

teleology speaks to the fact that prospectively induced human sublimation is bound to paradoxically distort-and-desubliminate the ontological-veracity appraisal for inducing further and concomitant human sublimation (and so because of the structural/paradigmatic effect of relative limited-mentation-capacity-deepening-~~{formative}~~epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) in contrast to what will prevail in case of ‘absolute-mentation-capacity of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’). But then such effect critically varies as to both ‘purist science/ontology epistemic-conception of veracity/truth’ and ‘social-vestedness/normativity epistemic-conception of veracity/truth’; in the sense that the latter poorly constrained to high predicative-effectivity–sublimation-~~{as-to-underlying-ontological-commitment}~~ is strongly prone to desublimating historicity-tracing of ‘human-subpotency non-scalarity/beholdening-~~<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>~~’ in presencing—absolutising-identitive-constitutedness, while the former strongly constrained to high predicative-effectivity–sublimation-~~{as-to-underlying-ontological-commitment}~~ is rather relatively amenable to sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. That said, human sublimation increasingly implies a ‘generalised background cultural,-organisation-and-institutional framework’ that itself needs to be sublimating, and it is here as well that even the propensity for sublimation of ‘purist science/ontology epistemic-conception of veracity/truth’ can be desublimated by an ontologically-impertinent ‘generalised background cultural,-organisation-and-institutional framework’ adopting ‘social-vestedness/normativity epistemic-conception of veracity/truth’. In many ways with regards to the overall social framework, the usurpation of the intellectual-function arising as of ‘social-vestedness/normativity epistemic-conception of veracity/truth’ is often associated with

vague-and-surreptitious conceptualisations of business success and media-and-social influence (in desublimating historicity-tracing) as superseding social intellection itself as an inherent exercise for the social domain's 'purist science/ontology epistemic-conception of veracity/truth' (as to the latter's prospective sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing). Critically such a 'purist science/ontology epistemic-conception of veracity/truth' analysis very much point out that the social-construct is riddled with narratives of 'supposedly veridical ontological justifications/grounds' but which on closer examination as of 'purist science/ontology epistemic-conception of veracity/truth' turn out to be at the least sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence>; and so as to the relative impertinence of the 'social-vestedness/normativity epistemic-conception of veracity/truth' (so-construed as from the ontological-normalcy/postconvergence epistemic-projection perspective). This insight further informs prospective deprocrypticism appraisal of the 'tight-and-entwined relationship between the overall human ontological-commitment (across all registry-worldviews/dimensions) and predicative-effectivity–sublimation-⟨as-to-underlying-ontological-commitment⟩ (reflecting 'scalarity/immanency of existence's ontological-normalcy/postconvergence')'. In this regards, the structural/paradigmatic implications of 'human temporal-to-intemporal-dispositions accordioneing at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities', reflect the fact that the originariness-parrhesia,—as—spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness for prospective knowledge-reification implying a projection out of a prior huma registry-worldview's/dimension's institutionalisation framework cannot be construed as of any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-

elucidation-outside-existential-contextualising-contiguity on the basis of the prior

 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (thus wrongly
 implying that there is an underlying absolute sound basis for human knowledge-reification as
 of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-
 elucidation-outside-existential-contextualising-contiguity, whereas in reality such grounds are
 recurrently restructured/reparadigmed for relative-ontological-completeness as to re-
 apriorising/re-axiomatising/re-referencing/re-intelligibilitysettingup/re-
 measuringinstrumenting); hence implying that prospective sublimating
 historicity/ontological-eventfulness/ontological-aesthetic-tracing at any uninstitutionalised-
 threshold is necessarily imbued with prospective originariness-parrhesia,—as—spontaneity-of-
 aestheticisation ‘messianic-structure of intemporality’ and its derived deferential-
 formalisation-transference secondnaturing. We can appreciate in this regards that budding-
 positivists meaningfulness-and-teleology however relatively intelligible to us today, wouldn’t
 make sense to the ‘ordinariness/commonsensicality of the non-positivism/medievalism prior
 institutionalisation secondnatured
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as to
 elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-
 outside-existential-contextualising-contiguity’ but the fact is that such budding positivism in
 its restructuring/reparadigming for relative-ontological-completeness rather induced the
 psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for our present
 day positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument.
 Such a restructuring/reparadigming for relative-ontological-completeness induced
 psychoanalytic-unshackling/memetic-reordering/institutional-recomposure equally applies
 with respect to prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-

thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In this regards, just as the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension that projected of an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)’ by budding-positivists allowed for the enculturation of a human positivism/rational-empiricism social orientation with regards to the natural sciences (then more-or-less subsequent ‘aspirational sciences’) epistemic-conceptions phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> as to their implicated ‘-<formative>epistemic-totalising existential-contextualising-contiguity foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal) in elucidating ontological-contiguity-<as-from-prospective-ontological-normalcy/postconvergence-epistemic/notional_projective-perspective>’ as to imbued positivism/rational-empiricism sublimation over non-positivism desublimation (and so over a long-and-sustained period of cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) inducing the strongly enculturated predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment) constraining of positivism/rational-empiricism meaningfulness-and-teleology today; likewise the deprocrypticism epistemicity further speaks to the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for the enculturation of a ‘human deprocrypticism/preempting—disjointedness-as-of-reference-of-thought construction-of-the-Self psychoanalytic-unshackling/memetic-reordering/institutional-recomposure’ with regards to (the overall originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> of ontological-contiguity’ in overall-ecstatic-existence-supervening-

 disentailment,-failing-to-reflect-ontological-contiguity> as to the latter’s implied
 procrypticism/disjointedness-as-of-reference-of-thought). But then as across the successive
 registry-worldviews/dimensions, the uninstitutionalised-threshold is a fertile spot for
 sophistic/pedantic practices whether as with the Ancient sophists or medievalism-scholastics
 or today institutional-being-and-craft intellectual-muddlement. What is central to all such
 sophistry is their emphasis on the notion that prospective knowledge is attained as to the
 sensibility/decorum as of presencing—absolutising-identitive-constitutedness
 <formative>epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag; explaining their pedantic obsession. On
 the other hand, what is central with prospective genuine knowledge is ever always the
 emphasis on the fact that knowledge-reification is fundamentally about sublimation-over-
 desublimation as to the implications of the ‘tight-and-entwined relationship between the
 overall human ontological-commitment (across all registry-worldviews/dimensions) and

figures) has had the consequence of ‘undermining the natural social critical thinking that should enable the proper intellectual framing and addressing of human and social issues leading to a rather subservient intellectual posturing to socially dominant vested-interests/actors’ as so-reflected in the current impotence of the political exercise with mediating institutions failing sovereign-equanimity as political, economic and social stakes cumulatively default to vested-interests as to their presencing—absolutising-identitive-constitutedness enframing. Such an underlying intellectually deficient orientation is the surreptitious underhandedness failing social intellectual engagement in many ways explains the surreptitious campaigning against many a critical theory as to the possibility for a revitalised genuine and healthy social critique (and as it is especially so-directed at muddling promising postmodern thought which portrays a very profound ontological-veracity as to prospective sublimation possibilities in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint); and so-enabled as to no ‘deprocrypticism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-⟨as-to-underlying-ontological-commitment⟩’ (notwithstanding a natural scientific culture that points out that substantive issues are analysed on the basis of their relevant and operant substantive pertinence) as to the overriding possibility of ‘projecting such a presencing—absolutising-identitive-constitutedness sensibility/decorum of institutional imprimatur’ that is rather obsessively defensive of institutional prescience over inherent knowledge-reification. But then the Ancient sophists and medievalism-scholastics were the institutional imprimatur of their periods but their pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum was never in any way beholdening upon sublimating existence as to existence-potency-prospective-digression-of-⟨formative⟩epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness allowing for prospective

Socratic philosophers universalising-idealisation and budding-positivism as to their respectively induced ‘universalising-idealisation—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)’ and ‘positivism/rational-empiricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)’ constraining in the face of ‘human temporal-to-intemporal-dispositions accordioneing at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’. The strategic reflex of assuming a presencing—absolutising-identitive-constitutedness sensibility/decorum preemptively ‘shuts-off the possibilities of relative-ontological-completeness interpretations’ and arbitrarily defines ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’ as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable with regards to social-stake-contention-or-confliction; such that effectively the social is interpreted (as of surreptitious disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-ontological-contiguity>) as non-ontological thus implying not it is subject to analyses as of social and socio-psychological phenomenal/manifest_subpotencies-<in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence>. But then human sublimation in existence effectively speaks of the notional-symmetrisation-<as-to-symmetrisation-by-desymmetrisation-in-reflecting-dialectical-thinking-by-dementing-perspectives-of-human-meaningfulness-and-teleology> underlying human ontological-performance as to the ontological-contiguity—of-the-human-institutionalisation-process succession of registry-worldviews/dimensions, and such a

presencing—absolutising-identitive-constitutedness sensibility/decorum strategy as to its implicated denial of such an ontological-contiguity—of-the-human-institutionalisation-process of human ontological-performance underlined by human historicity/ontological-eventfulness/ontological-aesthetic-tracing, effectively reveals its non-scientific nature notwithstanding the confusion of vague academicism proceduralism with true sublimating science/ontology. All the knowledge-reification that effectively can be is of existence—as-sublimating-withdrawal having to do with human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ as enabling human-subpotency epistemic-projection towards the full-potency of existence so-construed as intemporality, and not a presencing—absolutising-identitive-constitutedness human-subpotency epistemic-projection in <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag so-construed as temporality. But then the inclination to assume an ontologically-flawed sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum strategy is ever always associated across all registry-worldviews/dimensions with blurriness of meaningfulness-and-teleology as to meaningfulness-and-teleology rather unconstrained to predicative-effectivity-sublimation-⟨as-to-underlying-ontological-commitment⟩ as to lack of ‘relative-ontological-completeness—apriorising/axiomatising/referencing-psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity-sublimation-⟨as-to-underlying-ontological-commitment⟩’. Consider in this regards, the structural/paradigmatic possibility of such an abstract human sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum strategy exercise with regards to say Einsteinian/theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs if there was ‘no positivism/rational-empiricism—apriorising/axiomatising/referencing-psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity-sublimation-

⟨as-to-underlying-ontological-commitment⟩’ (as produced by the efforts of budding-positivists even as during their own epoch this was contested by their Establishment) that allowed for sublimating scientific thought to be integrated or rejected by its mere predicative-effectivity–sublimation–⟨as-to-underlying-ontological-commitment⟩ (as to the ‘positivism/rational-empiricism—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–⟨as-to-underlying-ontological-commitment⟩’), then there is nothing inherently telling that the latter physics Establishment will have just acknowledged such a theoretical construct as to its then human sophistic/pedantic presencing—absolutising-identitive-constitutedness sensibility/decorum perceived social-stake-contention-or-confliction (as to the reality of ‘human temporal-to-intemporal-dispositions accordioneing at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’). The point here is to highlight that across all registry-worldviews/dimensions blurriness of meaningfulness-and-teleology at uninstitutionalised-threshold as to lack of ‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity–sublimation–⟨as-to-underlying-ontological-commitment⟩’ inherently induces sophistic/pedantic dispositions (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) with regards to social-stake-contention-or-confliction as to the social lack of universal-transparency in the face of its prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint.  human <formative>epistemic-causality inevitably highlights the requisite ‘ontological-good-

 non-positivism/medievalism and procrypticism, and the failure to articulate this requisite
 ‘ontological-good-faith/authenticity–structure existential-condescension-<of-

In other words, genuinely projected knowledge as of ontological-good-faith/authenticity–structure is more than just the mechanical construct but speaks of the ‘ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ as of veridical existential relationship/signature as organic-knowledge. This is more obviously grasped with respect to human living-development–as-to-personality-development and institutional-development–as-to-social-function-development as to the positive-opportunism implications eliciting a decomplexed placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of such ‘ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ but less obvious and poorly grasped with regards to prospective Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. In this respect with regards to human living-development–as-to-personality-development and institutional-development–as-to-social-function-development as of our positivism/rational-empiricism registry-worldview/dimension we can appreciate for instance that in a professional–client relationship like between a physician and a patient or a plumber and a customer, the two parties do not normally engage one another in equivocating as of the ordinary meaningfulness-and-teleology desublimation which wouldn’t achieve the sublimation of medical care meaningfulness-and-technology or plumbing technician technical meaningfulness-and-teleology (as to the fact that the client doesn’t go on pretending to engage the professional at its more profound level of technical knowledge contemplation) with the relation thus involving the requisite ‘ontological-good-faith/authenticity–structure

existential-condescension-<of-apriorising/axiomatising/referencing-psychologism> of the professional with a corresponding deferential apriorising/axiomatising/referencing-psychologism of the client' and so as reflecting the sublimating knowledge ontological-good-faith/authenticity-structure beyond-and-above the desublimating ontological-good-faith/authenticity-structure of ordinary meaningfulness-and-teleology. However, this sublimating knowledge 'ontological-good-faith/authenticity-structure existential-condescension-<of-apriorising/axiomatising/referencing-psychologism>' across all registry-worldviews/dimensions is ever always poorly appreciated with regards to prospective Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology (even though from a retrospective perspective we can grasp the dementing-qualia-schema of 'the God of plane' type of articulation of say base-institutionalisation as of animistic social-setup as from our positivism/rational-empiricism reflex 'ontological-good-faith/authenticity-structure existential-condescension-<of-apriorising/axiomatising/referencing-psychologism>' but it is important to note that such an animistic social-setup doesn't project of any such dementing-qualia-schema placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology going by its presencing—absolutising-identitive-constitutedness just as we will be disinclined to contemplate about the more veridical dementing-qualia-schema as to our procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold as from a prospective deprocrypticism perspective projected placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). This poor appreciation arises for the simple reason that the uninstitutionalised-threshold speaks of the registry-worldview/dimension notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>, and thus it is disinclined to recognise the prospective 'relative-ontological-completeness—apriorising/axiomatising/referencing-

 apriorising/axiomatising/referencing—psychologism>’ as to prospective living-development—
 as-to-personality-development and institutional-development—as-to-social-function-
 development. In this regards, it can be appreciated with respect to budding-positivism and
 universalising-idealisation respectively that where the epistemic-veracity of looking through
 a telescope and drawing positivistic ontological implications do not avail as in the scholastic-
 medievalism underpinning—suprasocial-construct or where construing meaningfulness in
 coherent universalising terms do not avail as in the non-universalising sophistry
 underpinning—suprasocial-construct, then there is a fundamental reality of desublimating
 ontological-bad-faith/inauthenticity over which prospective sublimating ontological-good-
 faith/authenticity knowledge respectively as of budding-positivism and universalising-
 idealisation can only be established as of their respectively requisite ‘ontological-good-
 faith/authenticity existential-condescension-<of-apriorising/axiomatising/referencing—

 interpretations in terms of the supposed arrogance of the Socrates, Galileos, Descartes,

Indeed, as to when such ‘relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)’ is institutionalised say with modern day positivism/rational-empiricism the requisite ‘ontological-good-faith/authenticity existential-condescension-<of-apriorising/axiomatising/referencing—psychologism>’ of modern day scientific breakthroughs sublimation projected knowledge hardly put into question. Likewise, this insight about the requisite ‘ontological-good-faith/authenticity existential-condescension-<of-apriorising/axiomatising/referencing—psychologism>’ for organic-knowledge needs to be explicated with regards to the blurriness of meaningfulness-and-teleology associated with today’s institutional-being-and-craft intellectual muddlement with cynical, ridiculous and paradoxical pretenses of humility and sensibility/decorum that by that token (not unlike ancient sophistry and medieval-scholasticism) go on to induce ‘existentially invalid condescension’ as to their veridical desublimating presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ as of ontological-bad-faith/inauthenticity—structure. The fact is where such pretenses are nowhere found in the terrain of knowledge-reification but rather surreptitious enterprises of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> this signals their emperor has no clothes moment. In

this regards, as to ‘sublimation affirmation/projection/assertion/dueness-validating-
 logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking’ over
 ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-
 logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing’,
 the requisite ‘ontological-good-faith/authenticity existential-condescension-<of-
 apriorising/axiomatising/referencing–psychologism>’ for organic-knowledge ‘speaks to an
 intellectual-and-moral responsibility associated with knowledge as of the requisite
 dispensing-with-immediacy-for-relative-ontological-completeness-by-
 reification/contemplative-distension for its elucidation and appropriate second-natured
 institutionalisation that is not dissociated from the very construction-of-the-Self’, and
 knowledge cannot thus be construed as ‘a minor and side thing of mere influencing and
 stature’ that is dissociated with veridical human mental-development and emancipation in
 order to rather surreptitiously serve human-subpotency as mortal
 methodologising/mutualising/organising/institutionalising perverted purposes (as so-often
 implicitly construed by many a social dominance/vested-interest actor and sycophantic-
 sophistry throughout human history in eliciting <formative>wooden-language—imbued-

 teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-
 implications> hardly showing disinterested interest in genuine knowledge). The blunt fact is
 that as explained above and clearly obvious with human living-development—as-to-
 personality-development and institutional-development—as-to-social-function-development
 the ordinariness of meaningfulness-and-teleology is not to be exploited as if it is a credible
 state of profound ontological-veracity given the lack of dispensing-with-immediacy-for-
 relative-ontological-completeness-by-reification/contemplative-distension (as to a
 disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-

ontological-contiguity> which pedantry and sophistry thrives on this lack of universal-transparency) with regards to prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology underlying the social intellectual-function. Intellectualism as such is much more than just about presencing—absolutising-identitive-constitutedness methodologising/mutualising/organising/institutionalising enterprise as to the fact that ‘all given registry-worldviews/dimensions as presencing—absolutising-identitive-constitutedness underpinning—suprasocial-construct relate to their given meaningfulness-and-teleology in absolute terms whereas in reality there are veridically relative subontologisations of ontology as metaphysics-of-presence’; and it is here that the social intellectual-function comes in to veridically reflect the reality that a social-construct is not of absolute scalarisation of human ontological-performance for the possibility for its prospective scalarisation-as-to-rescalarisation-as-re-ontologisation, and the social intellectual-function as such is not about a naivist ‘discrete functionalism of social-vestedness/normativity’ as otherwise the possibility for the succession of registry-worldviews/dimensions transcendence-and-sublimity right up to our present wouldn’t have availed speaking to our very own intellectual-and-moral responsibility for prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The social intellectual-function means that human thought can project beyond, overlook and override presencing—absolutising-identitive-constitutedness enframing conception of sublimating value and ontological-veracity disposition; and so as to the fact that presencing—absolutising-identitive-constitutedness enframing actually tend to be skewed towards ‘immediacy supposed sublimating value and ontological-veracity disposition’ over ‘non-immediacy sublimating value and ontological-veracity disposition’, and in fact in many ways individuals intersolipsistic actions in society implicitly recognise this reality even as the

overall underpinning—suprasocial-construct tends to be abstractly structured/paradigmed to skew towards ‘immediacy supposed sublimating value and ontological-veracity disposition’. Part and parcel of the social intellectual-function is to undermine this skewing towards ‘immediacy supposed sublimating value and ontological-veracity disposition’ and reconstrue human-subpotency aporeticism in terms of ‘non-immediacy sublimating value and ontological-veracity disposition’. In this regards historically, without individuals making choices not to optimally pursue ‘immediacy supposed sublimating value and ontological-veracity disposition’ as to their given presencing—absolutising-identitive-constitutedness ‘immediacy supposed sublimating value and ontological-veracity disposition’ but instead optimising their effort for ‘non-immediacy sublimating value and ontological-veracity disposition’ then the possibility will not arise for the very backbone of human value and ontological-veracity sublimation (reflecting the ‘non-immediacy sublimating value and ontological-veracity disposition’) upon which ‘immediacy supposed sublimating value and ontological-veracity disposition’ is grounded. History knows that the ‘contorted human presencing—absolutising-identitive-constitutedness mentality of registry-worldviews/dimensions’ as of ‘immediacy supposed sublimating value and ontological-veracity disposition’ do not truly pay their dues to the Socrates, Descartes, Kant, Newtons, Leibniz, Rousseaux, Diderots, Einsteins, Teslas, etc. upon whose meaningfulness-and-teleology infrastructure building ‘immediacy supposed sublimating value and ontological-veracity disposition’ arise and outlandishly skew human meaningfulness-and-teleology (and so not only with human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology but is equally reflected in living-development—as-to-personality-development and institutional-development—as-to-social-function-development). This insight is critically important not as an idle exercise of merely stating the appropriateness of sublimating value and ontological-

veracity disposition but in reflecting that the skewed underpinning—suprasocial-construct projected and structured/paradigmed ‘immediacy supposed sublimating value and ontological-veracity disposition’ cannot be construed as absolute as in effect it will ultimately prospectively stultifying the requisite ‘non-immediacy sublimating value and ontological-veracity disposition’ that acts as the backbone for human value and ontological-veracity sublimation (as has always been the manifest case for surpassing the uninstitutionalised-thresholds of registry-worldviews/dimensions). The fact is ‘immediacy supposed sublimating value and ontological-veracity disposition’ as underlying presencing—absolutising-identitive-constitutedness end up as the registry-worldviews/dimensions Establishments underpinning—suprasocial-construct as to dominance/vested-interest—drivenness-<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness enframing of social-vestedness/normativity and social-stake-contention-or-confliction. It is the ‘non-immediacy sublimating value and ontological-veracity disposition’ (as reflected in human historicity/ontological-eventfulness/ontological-aesthetic-tracing) that goes beyond presencing—absolutising-identitive-constitutedness and generate the requisite structural/paradigmatic sublimation-over-desublimation as reflected with the ontological-contiguity—of-the-human-institutionalisation-process while superseding ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ disposition of ‘immediacy supposed sublimating value and ontological-veracity disposition’ as the latter at best construes of social reformation (and so across all the registry-worldviews/dimensions) in presencing—absolutising-identitive-constitutedness enframing subontologising palliative terms that as to their specifically defined ‘human social-vestedness/normativity implied contract/political-arrangement-or-political-coercion/given-discrete-social-value-construction’

are very much integrative of collateral aspects as imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable with regards to social-stake-contention-or-confliction and thus by dulling the social-construct's conscience in this way rather distracts from the realisation and contemplation of the full possibilities for profound structural/paradigmatic transformation of 'non-immediacy sublimating value and ontological-veracity disposition'. The subtle manifestation of the social implications of 'immediacy supposed sublimating value and ontological-veracity disposition' with regards to our positivism–procrypticism registry-worldview/dimension can be appreciated in present day sycophantic-sophistry and intellectual-muddlement, media-driven disenfranchising narrative framing and dominance/vested-interest diffused institutional influence in many ways and occasions rendering formal and official languages of institutions smokescreens for underhanded <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives. In many ways this presencing—absolutising-identitive-constitutedness enframing analysis as to the positivism–procrypticism registry-worldview's/dimension's structural/paradigmatic social institutional beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing_inhibited-mental-aestheticising implications is very much relevant however the underlying socio-econo-political subontologisation/ideology-over-ontology whether technocratic, capitalistic or communist (as in fact all such systems mirror each other as to their beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing_inhibited-mental-aestheticising, besides the differentiating specificities as to ingrained cultural context, speaking of a more fundamental issue of positivism–procrypticism ontological-performance as to the prospective human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint for prospective deprocrypticism/preempting—

Such a deprocrypticism/preempting—disjointedness-as-of-reference-of-thought ontological-performance (as to its fundamental ontology aspiration) is not oblivious to the ‘notional-symmetrisation-<as-to-symmetrisation-by-desymmetrisation-in-reflecting-dialectical-thinking-by-dementing-perspectives-of-human-meaningfulness-and-teleology> underlying human ontological-performance as to the ontological-contiguity—of-the-human-institutionalisation-process succession of registry-worldviews/dimensions’ and ‘the facet of

It is herein contended that the veridical social intellectual-function (as to the creative dynamics of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-

framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) and so across the succession of registry-worldviews/dimensions as to its orientation towards reclamation/recovery of unenframed-conceptualisation is effectively what underlies the dissociative/unbeholdening/bechancing—supererogation and parenthesising-in-deflation possibility of all prospective human Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology enabling the succession of registry-worldviews/dimensions transcendence-and-sublimity reflecting the fact that their underpinning—suprasocial-constructs as to presencing—absolutising-identitive-constitutedness enframing are otherwise hardly transcendental with regards to prospective construction-of-the-Self implications given their beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing_inhibited-mental-aestheticising.

It is for the sake of preserving the full possibilities of prospective human value and ontological-veracity sublimation beyond presencing—absolutising-identitive-constitutedness enframing that the social intellectual-function must ever always remain independent and not be usurped by dominance/vested-interest actors and sycophantic-sophistry. Ultimately as with all human uninstitutionalised-thresholds the prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought ‘ontological-good-faith/authenticity—structure existential-condescension-<of-apriorising/axiomatising/referencing—psychologism>’ urges the human along beyond its limit of contemplation at which point such a taxingness-of-originariness upon human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality is more appropriately construed not as meaningfulness-and-teleology but metaphoricity as merely the setup for prospective human psychoanalytic-unshackling/memetic-reordering/institutional-recomposure possibility for prospective

transcendence-and-sublimity; and this reality is what avails across the successive registry-worldviews/dimensions instigated transcendence-and-sublimity for their respective prospective Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as to the fact that the intemporal messianic-reasoning/reasoning-through instigation respectively of prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism are not actually as of meaningfulness-and-teleology but rather are as of metaphoricity with regards respectively to prior recurrent-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation-non-positivism/medievalism and our positivism-procrypticism, and so as to the fact that the latter (as to existence—as-sublimating-withdrawal) are ever always urged along beyond their uninstitutionalised-thresholds given ‘taxingness-of-originariness upon human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ in the face of their ‘specifically given reference-of-thought—and-reference-of-thought-devolving—meaningfulness-and-teleology prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor’ for the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure possibility enabling prospective transcendence-and-sublimity as effectively involving the veridically uninhibited/decomplexified <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness in cognisance-and-integration of the requisite ‘ontological-good-faith/authenticity—structure existential-condescension-<of-apriorising/axiomatising/referencing—psychologism>’ for the availing of the organic-knowledge meaningfulness-and-teleology of base-institutionalisation,

universalisation, positivism/rational-empiricism and deprocrypticism respectively (as to their
 respective ontological-good-faith/authenticity–structure ‘inducing of their reference-of-
 thought–and–reference-of-thought-devolving–meaningfulness-and-teleology underlying

 respectively induced ‘relative-ontological-completeness—

 pragmatics-framing-of—predicative-effectivity–sublimation-⟨as-to-underlying-ontological-

 faith/authenticity–structure existential-condescension-⟨of-
 apriorising/axiomatising/referencing–psychologism⟩’ rather speaks to the fact that ‘human
 thrownness-in-existence as to its limited-mentation-capacity is intimately tied-down/laden-
 with prospective human-subpotency–aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions–existentialism-form-factor’ as to human teleology so-construed as ‘human
 phenomenal/manifest epistemic reflexivity in existence as ontological’, reflected as of overall
 panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-
 educated–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-
 conceptualisation. The underlying insight here is that unlike the flawed mental-reflex
 associated with presencing—absolutising-identitive-constitutedness <formative>epistemic-
 totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that
 structurally/paradigmatically projects of a ‘neutrally/objectively sound human ontological-
 performance state failing to factor in human specific apriorising/axiomatising/referencing—
 ontological-deficiency arising from its specifically given thrownness-in-existence’, human
 thrownness-in-existence as to human limited-mentation-capacity veridically implies that

‘existence is not beholdening to that human thrownness and the critical human teleological as to ontological-performance issue is how to adjust to existence and is not about how existence adjusts to the human who is rather of a subpotent epistemic relation to the full-potency of existence’. The implication here is that the ‘ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ is thus merely reflecting the veridicality of the possibility of prospective human transcendence-and-sublimity which is only possible as to existence—as-sublimating-withdrawal and existence—as-the-absolute-a-priori-of-conceptualisation with regards to human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism,-in-sublimation-over-desublimation>-of-meaningfulness-and-teleology. Thus it is only the possibility of ‘ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ that can thus allow human existential-discursivity—implicated-sublimation-over-desublimation beyond naïve presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (given that human ontological-performance cannot be neutrally be separated from human thrownness-in-existence and the reflexive temporal-to-intemporal ontological implications on human ontological-performance). This insight can be illustrated as follows: supposed say in 5000 BC an asteroid or virus could bring about a human cataclysm, such a ‘potential manifestation of existence is not beholdening to human appreciation of the existential implications of the notion and science behind the asteroid or virus’ and in this regard suppose extraterrestrials living in a ‘supposedly habitable Mars’ had achieved our present day civilisational and technological level, it is inevitable that they will effectively adopt ‘ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ with regards to the human species on

Earth and strife to preempt such a cataclysm as to their technical capacity. We can appreciate that the human species on Earth as to its relative-ontological-incompleteness doesn't have a pretence to being of a 'neutrally/objectively sound human ontological-performance state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given thrownness-in-existence' but together with the extraterrestrials is rather structurally/paradigmatically in existential-discursivity—implicated-sublimation-over-desublimation relation as to the primacy of the full-potency of existence over any subpotency (speaking fundamentally to prior human ontological-commitment) with regards to the fact that the ontological-veracity of all humans as human-subpotency is priorly of existential-discursivity—implicated-sublimation-over-desublimation superseding pretenses of mere methodologising/mutualising/organising/institutionalising presciences as to entitlements of presencing—absolutising-identitive-constitutedness articulated induced elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Speaking of the requisite 'owning-up' as to when relative-ontological-completeness avails rather than ontological-bad-faith/inauthenticity in upholding relative-ontological-incompleteness (given that immortality/existence-perspective as to intemporality cannot be construed as arising from our prior mortals whims superseding of existential sublimation entailment and such presumption rather speaks to dementing and not dialectical-thinking). It is this pre-eminence of existential-discursivity—implicated-sublimation-over-desublimation that explains why the availing of relative-ontological-completeness as to dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation takes precedence in defining human intellectual-and-moral ontological-performance and so as to existence—as-sublimating-withdrawal. This thrownness-in-existence implied existential-discursivity—implicated-sublimation-over-

desublimation as to ‘ontological-good-faith/authenticity–structure existential-condescension-
 <of-apriorising/axiomatising/referencing–psychologism>’ effectively underlies the
 ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian
 knowledge/power conception construed as knowledge-empowerment/ignorance-
 disempowerment’, as the premeaningfulness/preframing-<metaphoricity-disposition—as-to-
 psyche-induced-psychologism-of-existential-stake> from which human meaningfulness-and-
 teleology veridically arises. Besides such a more stark elucidation as to Being-
 development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
 infrastructure-of-meaningfulness-and-teleology, existential-discursivity—implicated-
 sublimation-over-desublimation as to ‘ontological-good-faith/authenticity–structure
 existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’, thus
 points to the primacy of ‘the very thrownness-in-existence of human discursivity as to the
 possibility for prospective existential sublimation’ so-reflected in originariness-parrhesia,—as-
 spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness projection
 as to overall existential dimensionality-of-sublimating—<formative>epistemic-
 growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
 drivenness–equalisation. The bigger point here is that prospective human sublimation
 underlying prospective knowledge-reification in relative-ontological-completeness cannot be
 engaged with any given registry-worldview/dimension in relative-ontological-incompleteness
 as if the latter is of a ‘neutrally/objectively sound human ontological-performance state
 failing to factor in human specific apriorising/axiomatising/referencing—ontological-
 deficiency arising from its specifically given thrownness-in-existence’ with regards to the
 fact that human thrownness-in-existence is already engaged in existential-discursivity—
 implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity–
 structure existential-condescension-<of-apriorising/axiomatising/referencing–

psychologism>’ (and so very much countering the deceptive eliciting in desublimation of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> by dominance/vested-interest actors and sycophantic-sophistry seeming to imply human-subpotency takes precedence over existence). In this regards, and in the bigger scheme of things existential-discursivity—implicated-sublimation-over-desublimation as to ‘ontological-good-faith/authenticity–structure existential-condescension-<of-apriorising/axiomatising/referencing–psychologism>’ implies that as to existence—as-sublimating-withdrawal, the respective state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism cannot be construed as of ‘neutrally/objectively sound human ontological-performance state failing to factor in human specific apriorising/axiomatising/referencing—ontological-deficiency arising from its specifically given thrownness-in-existence’ with respect to prospective base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism respectively; and as relative-ontological-completeness avails intellectual-and-moral responsibility is rather reflected as of the dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation. Unlike it is often assumed from a sloppy conception of human sublimation in existence (caught up in any given presencing—absolutising-identitive-constitutedness self-justification of uncertainty of prospective human sublimation), the comprehensive coherence of human sublimation in existence as to existence—as-sublimating-withdrawal is effectively highly regular and consistent (and this can only be fully appreciated from an ontologically sound conception of ‘existence as of its immanently tautologous coherence speaking to its ontological-contiguity’ as to the

possibility for intelligibility to arise as so-reflected with the overall ontological-contiguity—of-the-human-institutionalisation-process so-associated with human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)). This conflation in the perception and relation to human sublimation in existence between metaphysics-of-presence as to presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ on the one hand and on the other hand difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as to relative-ontological-completeness <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity, is aptly reflected in the entangled/enmeshed nature of human sublimation in existence as reflected with the ontological-contiguity—of-the-human-institutionalisation-process. This is so fundamentally because of human teleology speaking of ‘human phenomenal/manifest epistemic reflexivity in existence as ontological’ (as reflecting the implications of human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) underlying the ontological-contiguity—of-the-human-institutionalisation-process); such that human sublimation is hardly ‘purist’ and rather occurring as from successive human registry-worldviews/dimensions projections of their specifically flawed presencing—absolutising-identitive-constitutedness given apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation. The insight here is that human state of prior relative-ontological-incompleteness structurally/paradigmatically impacts reflexively on human appraisal of its prospective relative-ontological-completeness sublimation implications, and so across the successive registry-worldviews/dimensions right up to the

originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-
 perspective-scalarising-construal-of-existence> perspective of deprocrypticism/preempting—
 disjointedness-as-of-reference-of-thought which purportedly escapes any such reflexive
 presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising-self-
 referencing-syncretising/circularity/interiorising/akrasiatic-drag of its
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—
 conceptualisation. The so-implied notional-deprocrypticism as such points out that the
 ontological-contiguity—of-the-human-institutionalisation-process is rather associated with a
 ‘directly relevant trace of prospective human effectively-purist-sublimation as to existence—
 as-sublimating-withdrawal’ but that, as of the successive registry-worldviews/dimensions
 presencing—absolutising-identitive-constitutedness construals/conceptualisations, that
 ‘directly relevant trace of prospective human effectively-purist-sublimation as to existence—
 as-sublimating-withdrawal’ is rather ‘beholdening wrongly upon the overall relative-
 ontological-incompleteness presublimation construct of meaningfulness-and-teleology’ such
 that a contrasting assessment rather highlights the ‘entangling/enmeshing of prospective
 effectively-purist-sublimation and overall relative-ontological-incompleteness presublimation
 construct of meaningfulness-and-teleology induced desublimating of the prospective
 effectively-purist-sublimation’ as to the concreteness/concretism/enframing—of-human-
 ontological-performance of overall prospective sublimation. Human sublimation as such in
 reflecting the ontological-contiguity—of-the-human-institutionalisation-process is
 existentially susceptibly instigated mostly as of materially/technically induced sublimation
 associated with tools, equipment, technical knowhow and natural science as to their
 immediately amenable positive-opportunism social implications ultimately leading to
 subsequent human methodologising/mutualising/organising/institutionalising sublimating
 overall meaningfulness-and-teleology. But the overall structure/paradigm of human

sublimation in existence as such is not always coherent as to the discrepancy in the occurrence of specific sublimations and desublimations say material and technical sublimation pointing to relative-ontological-completeness and ‘immaterial/social relative-ontological-incompleteness presublimation construct as to induced desublimation of the material and technical sublimation’. In this regards, we can appreciate how the subsequent immaterial/social sublimation required for prospective positivism/rational-empiricism came to be appreciated by such thinkers like the Rousseaux, Diderots, etc. as to the fact that the material possibilities of their epoch associated with the printing press and increasing technical knowhow rendered the immaterial/social relative-ontological-incompleteness presublimation construct conception of their epoch wanting, explaining for instance Rousseau’s appreciation of the ‘noble savage’ and nature as speaking to an aporeticism that recognised that mankind needed a more mature conception of interhuman relationship and human relation with nature as to when mankind/some-of-mankind began manifesting a more developed relationship with nature beyond just as of the immediacy of subsistence/survival relationship with nature (say for instance having technical more efficient guns with gunpowder didn’t imply just killing animals at whim); thus speaking of the prospectively requisite immaterial/social sublimation as to prospective positivism/rational-empiricism dialectical-thinking. In this regards even budding-positivists like Galileo, Descartes, etc. just as well implicitly recognised this discrepancy of prospective material and technical sublimation positivistic science in relative-ontological-completeness and the immaterial/social relative-ontological-incompleteness presublimation construct conception of medieval-scholasticism associated with alchemic/magical thinking, to the point that in many ways their actions were directed towards articulating at the very least an underlying ‘scientific—apriorising/axiomatising/referencing—psychologism enculturated/constructed social-pragmatics-framing-of—predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment)’ as the requisite

immaterial/social sublimation for enabling positivistic science as we know it today to arise. This very insight explains the enlightenment struggle against feudalism and slavery as to the fact that the technical and scientific progress as to relative-ontological-completeness weren't the occasion to put such technical and scientific progress like shipbuilding and other ocean voyage technologies at the service of the prior mediievally clouded immaterial/social relative-ontological-incompleteness presublimation construct value-construct and methodologising/mutualising/organising/institutionalising enframing, but rather called for a renewed conceptualisation of humanity beyond a mentality of immediate subsistence/survival. Thus it is always the case that the positive-opportunism driving the second-natured institutionalisation of human sublimation induces discrepancy as to immediate material and technical possibilities of sublimation and the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension immaterial/social sublimation considerations that rise to the aporetic challenge of the immediate material and technical possibilities of sublimation. In many ways this discrepancy of material and technical sublimation and immediate distortive immaterial/social desublimation is reflected in the 'historicity-tracing-imbued-hyperrealisation gimmickiness/desublimation relation with meaningfulness-and-teleology' of our positivism-procrypticism, for instance as associated with an 'underlying dumbing-down public intellection and media industry'; as media-access and its commercialisation function in many ways rather adhocly substitutes-for/undermines a profound social intellectual-function as to social-stake-contention-or-confliction implications. The further implication of this discrepancy is in highlighting that the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. is only veridically effective as to the originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> perspective of

notional-deprocrypticism given the perpetual challenge of material sublimation upon human immaterial/social relative-ontological-incompleteness presublimation construct; as prospective material/technical sublimation is associated with a discrepant ‘immaterial/social relative-ontological-incompleteness presublimation construct as to induced desublimation of the material and technical sublimation’ that goes on as of presencing—absolutising-identitive-constitutedness to render the supposed equanimity/balance of the overall politico-institutional system as to sublimating notions of sovereignty, democracy, free-will, etc. increasingly of relic/artifactual human ontological-performance reflected in their failing effective outcomes of equanimity/balance; wherein their practice increasingly tends to dominance/vested-interest actors and sycophantic-sophistry induced desublimating narratives as to the <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> displayed in the public domain (caught-up/entrapped in ‘a politico-institutional beholdening relic/artefactual disenfranchising notion of both-sides’ as psyching-subterfuge that renders the common concrete pragmatic aspirations of sovereign individuals increasingly politically irrelevant as to the paradox for instance that the post-war healthier political framework , as hardly subject to closed-circles of effective direct/indirect politico-institutional influence rampant today, notwithstanding its even greater social prejudice/bigotry/closed-mindedness was able to induce critical progressive social transformations that in many ways the present day political framework as to a period of rather profound and real-world cosmopolitanism/opened-mindedness can only dream about) as the more potent possibilities for social transformation are increasingly subdued under politico-institutional defaulting frameworks-and-practices rather surreptitiously subjected to closed-circles of effective direct/indirect politico-institutional influence ‘as to a strategic capacity to elicit old and

relatively aporetically irrelevant beholdening narratives of identity as a divide-and-conquer strategy for undermining the real and concrete common social sovereign narrative of social transformation possibilities’ as so-reflected with commonly objective sovereign aspirations that cut across party/ideological affiliations when not subjected to the disenfranchising effects of crafty politicised beholdening narratives of identity with their ‘ad-hoc popping-up at critical electoral moments involving high emotional charge quelling cerebral thinking as of the modern day efficient disenfranchising technique of flawed apriorising deception involving arbitrarily-skewing-or-debasing-the-terms-of-supposedly-constructively-opened-public-debate’ (as to the wrong mental enculturation of the notion that the ‘political game’ in-of-itself precedes individuals and social sovereign aspirations as if the latter were just ‘paying fans to a sports encounter’ rather than serving the latter as so reflected with an enculturated media political narrative hardly/poorly making room for direct individual and social sovereign aspirations as centrally defining such that substance is increasingly overwhelmed by political characters portrayal of the political debate with political actors then effectively turning over rather towards the levers of their potential power which is paradoxically not necessarily/deterministically social sovereign aspirations as to a relic/artifactual projection in the public domain but rather surreptitious/private closed-circles of effective direct/indirect politico-institutional influence plainly exposed by the long-term consequences of public policies recurrently ‘defaulting for dominance/vested-interest actors’). Even in the purely intellectual sense, modern day scientific advancements and achievements have correspondingly given rise to a distorted manifestation of science ideology as a usurpatory mouthpiece of veridical science-in-practice that effectively rides the wave of natural sciences accomplishments and in so doing projects of a naïve presencing—absolutising-identitive-constitutedness epistemic conception of science that in many cases poorly reflects upon effective scientific practices and craft as it poorly appreciates the dynamics of the overall

human knowledge and scientific enterprise as to the aestheticisation—and-aestheticisation-towards-ontology underlying the overall ontological-contiguity—of-the-human-institutionalisation-process, so-reflected from such science ideology poor appreciation of the implications of the historicity/ontological-eventfulness/ontological-aesthetic-tracing render the scientific adventure as of a living existential-contextualising-contiguity exercise. Such that by this token science ideology conception of science the requisite dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as to human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟨ implications in fully appreciating human underlying aestheticisation scheming in conceptualising existence—as-sublimating-withdrawal behind the ultimate development of human knowledge and science is lost to a flatminded interpretation of human progress based on the mere elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity conception of methods/methodologies/approaches as to mere reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation with a poor appreciation for prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness—of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation. Further science ideology as to its dimensionality-of-desublimating-lack-of—⟨formative⟩epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation equally fails to appreciate how prior human aestheticisation scheming including human superstitions, belief systems and religions were a necessary pathway to the present even as modern science demonstrates their limits (given that we are an animal of limited-mentation-capacity reflected as to our human-subpotency ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality to which the notion of institutional-cumulation/institutional-recomposure is vital for perpetually enhancing that limited-mentation-capacity as of our aestheticisation—and—aestheticisation-towards-ontology); as such mystical/spiritual narratives were veridically ‘trialing aestheticisation frameworks of human apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—conceptualisation as of the affirmatory possibilities inducible as to existence—as-sublimating-withdrawal’ that ultimately enabled and propelled human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ (so-associated with the strong selective cultural diffusion as to the sublimating strengthening and anchoring upon the social-setup such mystical/spiritual narratives enabled), and so as to the institutional-cumulation/institutional-recomposure that led to our present day non-superstitious clairvoyance/clearsightedness with the important insight that since human aestheticisation scheming has always been central and preceding human aestheticisation-towards-ontology (as even manifested in modern day natural sciences creativity), it would be foolhardy to adopt a mental-disposition as of science ideology that poorly recognises the critical creative role for human aestheticisation in the perpetual development of human meaningfulness-and-teleology. The veracity of human sublimation with regards to the ‘directly relevant trace of prospective human effectively-purist-sublimation as to existence—as-sublimating-withdrawal’ as rather ‘beholdening wrongly upon the overall relative-ontological-incompleteness presublimation construct of meaningfulness-and-teleology’ is the more accurate conception in reflecting the overall ontological-contiguity—of-the-human-institutionalisation-process, and so as to: ‘fatedness-of-sublimation-over-desublimation, to existence-potency-prospective-digression-of-⟨formative⟩epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness (in reflecting the ontological-contiguity—of-the-human-institutionalisation-process), of human-subpotency

 eminence as of their ‘prospectively projected relative-ontological-completeness
 <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-
 residuality/spirit-drivenness’. Critically thus the veracity of human sublimation is rather as to
 the originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-
 perspective-scalarising-construal-of-existence> perspective of deprocrypticism as effectively
 reflecting existence—as-sublimating-withdrawal, and so as to the fact that the

deprocrypticism given ‘directly relevant trace of prospective human effectively-purist-sublimation as to existence—as-sublimating-withdrawal’ is not ‘beholdening wrongly upon the overall relative-ontological-incompleteness presublimation construct of meaningfulness-and-teleology’. This projected deprocrypticism ontological-normalcy/postconvergence perspective points out that human sublimation in existence actually reflects the overall ontological-contiguity as of the successive registry-worldviews/dimensions ‘reference-of-thought—and-reference-of-thought-devolving—meaningfulness-and-teleology comprehensiveness of sublimation gesturing (as to their instigating relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism)’ manifested as of the notional-symmetrisation-<as-to-symmetrisation-by-desymmetrisation-in-reflecting-dialectical-thinking-by-dementing-perspectives-of-human-meaningfulness-and-teleology> of the overall ontological-contiguity—of-the-human-institutionalisation-process. This further highlights that the prospectively defining possibilities for unleashing further human sublimation (and so over ‘beholdening wrongly upon the overall relative-ontological-incompleteness presublimation construct of meaningfulness-and-teleology’) will stall without the appropriate reconciling of the ‘overall relative-ontological-incompleteness presublimation construct of meaningfulness-and-teleology’ to the prospective comprehensive meaningfulness-and-teleology implications of the instigated relative-ontological-completeness prospective effectively-purist-sublimation, and so as to ‘reference-of-thought—and-reference-of-thought-devolving—meaningfulness-and-teleology comprehensiveness of sublimation gesturing (as to the instigating relative-ontological-completeness—apriorising/axiomatising/referencing—psychologism)’ prospective reconciling. This is fundamentally the case because the implied dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation inducing the nascent particular material/technical

sublimations is lost to the prior ‘overall relative-ontological-incompleteness presublimation construct of meaningfulness-and-teleology’ as to a narrow-minded positive-opportunism driven exploitation of such nascent particular material/technical sublimations while failing to come to terms as to construing the <formative>epistemic-totalising relative-ontological-completeness implications with regards to ‘reference-of-thought–and–reference-of-thought–devolving–meaningfulness-and-teleology comprehensiveness of sublimation gesturing (as to the instigating relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism)’; thus inducing the discrepant ‘immaterial/social relative-ontological-incompleteness presublimation construct as to induced desublimation of the material and technical sublimation’ that is associated with human social subontologising of nascent particular material/technical sublimations. This insight underlines the fact that instigated ‘relative-ontological-completeness nascent particular sublimations’ (as associated with nascent particular material/technical sublimations) ‘critically points to an overall nascent knowledge-reification gesturing directly or indirectly prescient to a comprehensive meaningfulness-and-teleology conception of the given prospective relative-ontological-completeness registry-worldview/dimension’ as so-reflected with the successive registry-worldviews/dimensions given ‘reference-of-thought–and–reference-of-thought–devolving–meaningfulness-and-teleology comprehensiveness of sublimation gesturing (as to the instigative relative-ontological-completeness—apriorising/axiomatising/referencing–psychologism)’ underlying specific overall-knowledge-reification-gesturings as so-manifested with any such relative-ontological-completeness registry-worldview/dimension ‘specific overall-knowledge-reification-gesturing-<in variously devolving axiomatising-conjugations as reflected by its nascent particular sublimations>’. The specific overall-knowledge-reification-gesturings of the successive registry-worldviews/dimensions (as reflecting the overall ontological-contiguity—of-the-human-institutionalisation-process)

projectively entail ‘reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of sublimation gesturing’, and so as from: recurrent-utter-uninstitutionalisation ‘non-rules overall-knowledge-reification-gesturing-<in variously devolving axiomatising-conjugations as reflected by its nascent particular sublimations>’ (as recurrent-utter-uninstitutionalisation ‘reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of sublimation gesturing’), base-institutionalisation–ununiversalisation ‘rulemaking-over-non-rules overall-knowledge-reification-gesturing-<in variously devolving axiomatising-conjugations as reflected by its nascent particular sublimations>’ (as base-institutionalisation–ununiversalisation ‘reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of sublimation gesturing’), universalisation–non-positivism/medievalism ‘universalisation-directed-rulemaking-over-non-rules overall-knowledge-reification-gesturing-<in variously devolving axiomatising-conjugations as reflected by its nascent particular sublimations>’ (as universalisation–non-positivism/medievalism ‘reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of sublimation gesturing’), positivism–procrypticism ‘positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules overall-knowledge-reification-gesturing-<in variously devolving axiomatising-conjugations as reflected by its nascent particular sublimations>’ (as positivism–procrypticism ‘reference-of-thought–and–reference-of-thought-devolving–meaningfulness-and-teleology comprehensiveness of sublimation gesturing’), and prospectively deprocrypticism ‘preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules overall-knowledge-reification-

This comprehensive elucidation highlights that human sublimation is not inherently haphazard as the wrong perception of haphazardness arises as from the varying presencing—absolutising-identitive-constitutedness epistemic-projection perspectives whereas from a comprehensive notional-deprocrypticism epistemic-projection perspective in ontological-normalcy/postconvergence human sublimation is rather wrongly apparently haphazard because of human limited-mentation-capacity epistemic-projection perspectives of apprehension of prospective sublimation with 'the ontological-veracity of notional-deprocrypticism epistemic-projection perspective associated with comprehensive human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) rather reflecting the overall ontological-contiguity—of-the-human-institutionalisation-process structural/paradigmatic coherence of human sublimation as of successive reference-of-thought-and-reference-of-thought-devolving-meaningfulness-and-teleology comprehensiveness of sublimation gesturing'. Thus such a deprocrypticism ontological-normalcy/postconvergence perspective warrants the requisite <formative>epistemic-totalising relative-ontological-completeness appraisal of singularly induced prospective sublimations as to projected overall human reference-of-thought-and-reference-of-thought-devolving-meaningfulness-and-teleology imbued <formative>epistemic-totalising relative-ontological-completeness implications as of 'reference-of-thought-and-reference-of-thought-devolving-meaningfulness-and-teleology comprehensiveness of sublimation gesturing'. Critically this discrepancy between 'relative-ontological-completeness nascent particular sublimations' (as associated with nascent particular material/technical sublimations) and 'overall relative-ontological-incompleteness

presublimation construct of meaningfulness-and-teleology’ (as involving ‘immaterial/social relative-ontological-incompleteness presublimation construct as to induced desublimation of the material and technical sublimation’ associated with human social subontologising of nascent particular material/technical sublimations); is effectively the hallmark of all presencing—absolutising-identitive-constitutedness enframing as to their <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and beyond just the ontological implications with respect to Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as highlighted above this is equally reflected as to a human living-development–as-to-personality-development and institutional-development–as-to-social-function-development temporal-to-intemporal-dispositions inclination for presencing—absolutising-identitive-constitutedness enframing (so-reflected as of human ‘formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-differentialism,-in-sublimation-over-desublimation>-of-meaningfulness-and-teleology): defining the construal/conceptualisation of human transcendence-and-sublimity (with regards to the requisite human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>). Such an ultimate construal of human self-surpassing as to the notional-deprocrypticism epistemic-projection perspective in ontological-normalcy/postconvergence effectively grapples with the requisite ‘<formative>epistemic-

totalising relative-ontological-completeness implications as of reference-of-thought—and—reference-of-thought-devolving—meaningfulness-and-teleology comprehensiveness of sublimation gesturing’ as so-elicited by ‘relative-ontological-completeness nascent particular sublimations’. Insightfully this can be reflected upon creatively as the requisite underlying deprocrypticism/preempting—disjointedness-as-of-reference-of-thought institutionally projected (implying structural/paradigmatic institutionalising of prospective scalarisation-as-to-rescalarisation-as-re-ontologisation) ‘<formative>unbeholdening-<as-to-dissociative/unbeholdening/bechancing—supererogation and parenthesising-in-deflation>parameterisation/reparameterisation for prospective aestheticisation—and—aestheticisation-towards-ontology/meaningfulness-and-teleology’ (as of human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology), and so as to existence—as-sublimating-withdrawal. Such a ‘deprocrypticism institutionalised <formative>unbeholdening parameterisation/reparameterisation for prospective aestheticisation—and—aestheticisation-towards-ontology/meaningfulness-and-teleology’ (as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) will call into question as of pure ontology the very apriorising/axiomatising/referencing—psychologism defining overall human social-stake-contention-or-confliction associated with such notions like tribes, nations, races, regions, etc. (and any other notions) as of their structured/paradigmed dehumanising implications (and so rather as of their degeneracy/breaking-down/distortion of human ontological-performance from the more apt ontological-normalcy/postconvergence conception of the human as to humanity); so-reflected by a beholdening conceptualisation/construal of the human as of their underpinning—suprasocial-construct

implied presencing—absolutising-identitive-constitutedness enframing as being ‘the imponderable/inscrutable/unavoidable/inevitable/inescapable/unpreventable/unchangeable/in surmountable/unovercomable framework of human agency’. However, as to a constructive knowledge-reification gesturing with respect to the haunting fact of human thrownness-in-existence as to any such presencing—absolutising-identitive-constitutedness enframing speaking to such a thrownness, such a ‘deprocrypticism institutionalised <formative>unbeholdening parameterisation/reparameterisation for prospective aestheticisation—and—aestheticisation-towards-ontology/meaningfulness-and-teleology’ is more immediately-and-constructively bound to ‘appraise the conception of sovereign equanimity/balance driving human agency imbued sublimation as to <formative>epistemic-totalising relative-ontological-completeness implications’. This double epistemic orientation to ‘deprocrypticism institutionalised <formative>unbeholdening parameterisation/reparameterisation for prospective aestheticisation—and—aestheticisation-towards-ontology/meaningfulness-and-teleology’ can be understood in the sense that just as we can appreciate that if supposedly we are found in say an exclusively animistic social-setup with supposedly no possibility to rejoin a positivistic social-setup, while at the very least we appreciate that the material/technical capacity of a positivistic social-setup overall meaningfulness-and-teleology will enhance such an animistic social-setup, the fact remains that our thrownness in the animistic social-setup requires at least a basic engagement tolerable to its meaningfulness-and-teleology before any pretense to a projection of positivistic meaningfulness-and-teleology (as can so be appreciated with the cultural diffusion encounters throughout human history). In this regards as to a decisively globalising world we can’t conceive that ours will be the human generation bereft of ‘profound diffusionary/non-diffusionary aestheticisation insight’ given the increasingly relic/artefactual nature of traditional cultures in our modern age as to the potent lack of prospective creative

aestheticisation off-the-beaten-path of an increasing convergence deadening of the possibility prospective reappraisals of human meaningfulness-and-teleology (as so-construed as of the dimensionality-of-sublimating—<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness—equalisation), as to the fact that overall human beholdening inclination (as to any defining overall relative-ontological-incompleteness presublimation construct of meaningfulness-and-teleology concerned mostly with human living-development—as-to-personality-development and institutional-development—as-to-social-function-development in the priorly achieved Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology) rather tends to reconverge to shallow thrownness-in-existence concreteness/concretism/enframing—of-human-ontological-performance as reflected by the successive registry-worldviews/dimensions presencing—absolutising-identitive-constitutedness enframing (when it comes to human overall ‘aestheticisation as reflecting the extensive manifest outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations of human meaningfulness-and-teleology’); thus as not necessarily speaking of the absolute possibility of human consciousness projection in want for its recurrent parameterisation/reparameterisation in optimising human ontological-performance (and our positivism—procrypticism registry-worldview/dimension cannot be overlooked in this regards notwithstanding the fact that it is at the backend of the institutional-cumulation/institutional-recomposure). But then just like with all prior registry-worldviews/dimensions, our positivism—procrypticism presencing—absolutising-identitive-constitutedness enframing effectively projects a hurdle to any such structural/paradigmatic deprocrypticism conception of re-ontologisation as to its inherent <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag poorly

amenable to profound alternative institutional aestheticising contemplation ‘given its calamitous conception and relation to the possibility for prospective re-ontologisation from its subontologisation’ such that any such profound alternative institutional aestheticising contemplation are traditionally bound to arise as disruptive institutional transformations whether or not involving power-showdown as associated with sudden/revolutionary transformations with ‘their drawback of having to think on their feet inducing deficient ontological-performance as well as social apprehension which is then enigmatically held against them’ (however the merits of their underlying case) very much unlike ‘the latitude for articulating conceptualisations available for presencing—absolutising-identitive-constitutedness enframing’ (however their structural/paradigmatic flaws). Today manifestations (in the political domain) of protest votes for instance, more than just a question of poor political leadership actually has to do in many ways with ‘an alienating politico-institutional entrapment/frame-up of sovereign choice’ within the supposed democratic process that ‘forestalls-and-narrows as of strategic rules and processes’ the effective political fulfilment of individual and social sovereign choices inducing anti-sovereign consequences as to defaulting policy consequences to dominance/vested-interest actors without truly being institutionally subject to competing profound alternative institutional aestheticising contemplation given their institutional ascendance. Such a beholdening presencing—absolutising-identitive-constitutedness enframing skews the fundamental ontology question by its inherent <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag gatekeeping stifling of the possibility for inquiring on the ontological-veracity of its practice as to a reflex for advancing the quietude of social-vestedness/normativity. This latter issue is the ultimate challenge to prospective ‘deprocrypticism institutionalised <formative>unbeholdening parameterisation/reparameterisation for prospective aestheticisation—and-aestheticisation-

towards-ontology/meaningfulness-and-teleology’; as to the paradox that a social-setup as to its thrownness-in-existence is so pragmatically self-focussed that its aestheticisation and hence aestheticisation-towards-ontology dynamic-potential as to existence—as-sublimating-withdrawal is narrowed however its level of development (explaining the decisiveness/criticality of cultural diffusion imbued originariness-parrhesia,—as—spontaneity-of-aestheticisation in re-ontologisation accompanying the human institutional-cumulation/institutional-recomposure as can be appreciated throughout human history). This is explained by the fact that the human can relatively easily appreciate the ontological-pertinence of new practices arising as from outside cultural diffusion but it is very much difficult to reconstrue of such practices as from the taxingness-of-originariness involved in surpassing an internalised <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasitic-drag’ posture; and this very much explains the double epistemic orientation to ‘deprocrypticism institutionalised <formative>unbeholdening parameterisation/reparameterisation for prospective aestheticisation—and—aestheticisation-towards-ontology/meaningfulness-and-teleology’ highlighted above (as to the requisite to feed our thrownness-in-existence decisively globalising world with re-originariness/re-origination as from the capacity for pure ontology). The so-construed notional-deprocrypticism epistemicity conception of predicative-effectivity—sublimation-(as-to-underlying-ontological-commitment) as to the overall ontological-contiguity—of-the-human-institutionalisation-process provides the requisite basis for prospective human ontological-performance convergence towards ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’, and so as to the fact that prospective deprocrypticism registry-worldview/dimension as of its superseding/transcending conception (beyond ‘social-construct <formative>epistemic-totalising given institutionalised-and-uninstitutionalised-thresholds imbued secondnaturing’) technically equates to ‘supposed human-subpotency abstract self-

determinative ontological-performance capacity as to the full-potency of existence’ so-
implied with the protensive-consciousness ‘deepest phenomenological transcendental-point-
of-departure handle as of the notional-conflatedness of notional-deprocrypticism
deneuterising—referentialism’; and so as to the effective construal of the possibilities of
human meaningfulness-and-teleology beyond ‘mere
methodologising/mutualising/organising/institutionalising as of human-subpotency non-
scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-
distortedly-the-possibility-for-the-later-ontologisation> in presencing—absolutising-
identitive-constitutedness <formative>epistemic-totalising—self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag’. However, in effect despite the reality of
‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-
structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’, the human
psychology in any of its registry-worldview/dimension presencing—absolutising-identitive-
constitutedness paradoxically projects a notional-contiguity/epistemic-contiguity-<mentally-
aestheticised_dialectical-thinking—qualia-schema> wrongly implying it is actually as of
‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’, as to its
ontological-performance; and so as the very manifest condition of human thrownness-in-
existence. This reflects the sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-
reifying-and-empowering-reflexivity-of-the-full-potency-of-existence> nature of all registry-
worldviews/dimensions meaningfulness-and-teleology however the more-and-more profound
ontologisation/ontological-veracity/aestheticisation-towards-ontology with relative-
ontological-completeness implications as to prospective psychoanalytic-
unshackling/memetic-reordering/institutional-recomposure induced re-apriorising/re-
axiomatising/re-referencing/re-intelligibilitysettingup/re-measuringinstrumenting as
conflating towards the possibility of ‘scalarity/immanency of existence’s ontological-

normalcy/postconvergence’; so-implied as of notional-deprocrypticism deneuterising ‘exteriorisation attitude/mental-disposition/care-and-episteme’ of meaningfulness-and-teleology superseding/overriding prior reference-of-thought temporally neuterising ‘interiorisation attitude/mental-disposition/care-and-episteme’ of meaningfulness-and-teleology. The more critical issue thus has to do with how relative ontologisation/ontological-veracity/aestheticisation-towards-ontology for prospective transcendence-and-sublimity arises, and so as to the ‘reclamation/recovery of unenframed-conceptualisation beyond any sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence> presencing—absolutising-identitive-constitutedness’. Given the <formative>epistemic-totalising nature of human meaningfulness-and-teleology, the sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence> ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ in effect reflexively assumes its ontological-performance is as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’; with the consequence that the human <formative>epistemic-totalising conception of meaningfulness-and-teleology develops an ‘aestheticisation of enframing/imprintedness’ that unconsciously/surreptitiously overrides any abstract notion of purist ontologisation/ontological-veracity/aestheticisation-towards-ontology as to its incrementalism-in-relative-ontological-incompleteness enframed-conceptualisation and ‘reflexively presupposes its very own purist ontologisation/ontological-veracity/aestheticisation-towards-ontology’. In this regards, any registry-worldview/dimension as of its presencing—absolutising-identitive-constitutedness is, more-or-less as of its relative-ontological-incompleteness, ‘a usurpation of abstract purist ontologisation/ontological-veracity/aestheticisation-towards-ontology projected as of

notional-deprocrypticism/notional-preempting—disjointedness-as-of-reference-of-thought’; so-reflected by all registry-worldviews/dimensions forward-facing constructiveness-of-ontological-performance as to social-stake-contention-or-confliction. The structural/paradigmatic nature of any presencing—absolutising-identitive-constitutedness given ‘aestheticisation of enframing/imprintedness’ as usurping/overriding ‘notional-deprocrypticism abstract purist ontologisation/ontological-veracity/aestheticisation-towards-ontology’ as to non-presencing—or-withdrawal—or-metaphysics-of-absence—or-transcendental-reasoning-of-event-as-prospective-ontology-origination; is existentially so-reflected as to ‘dominance/vested-interest—drivenness-<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-desublimation> of presencing—absolutising-identitive-constitutedness social-vestedness/normativity, and underlined with the registry-worldview/dimension priorly defining human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in re-engaging with ontological-veracity as to human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) for prospective sublimation of human meaningfulness-and-teleology’. The implication here is one of a ‘double-faceted recurrence structure/paradigm of overlapping human sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence> subversion/undermining (so-construed as enframed-conceptualisation) of the possibility of prospective purist human ontologisation/ontological-veracity/aestheticisation-towards-ontology implications’ (as to human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-

development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology); so-reflected in the sublimating possibility for prospective ‘bechancing-backdrop of non-presencing-or-withdrawal-or-metaphysics-of-absence-or-transcendental-reasoning-of-event-as-prospective-ontology-origination’ as to ‘bechancing-becoming—originariness/origination—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing_disinhibited-mental-aestheticising sublimation reclamation/recovery from beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing_inhibited-mental-aestheticising’ (so-construed as reclamation/recovery of unenframed-conceptualisation). Critically, enframed-conceptualisation and unenframed-conceptualisation possibilities as so articulated rather speak to human limited-mentation-capacity idiosyncratically imbued paradoxical social behavioural characterisations arising from ‘human-subpotency non-scalarity/beholdening-<as-to-what-has-gone-before-aesthetically-structures/paradigms-distortedly-the-possibility-for-the-later-ontologisation>’ reflexively assuming human ontological-performance as of ‘scalarity/immanency of existence’s ontological-normalcy/postconvergence’. Thus a ‘notional/epistemic disquisitive enframed-conceptualisation-by-unenframed-conceptualisation knowledge-reification constructive conception’ for prospective ontologisation/ontological-veracity/aestheticisation-towards-ontology (so-construed as disquisitive ‘scalarising of human meaningfulness-and-teleology’ as to ontological-normalcy/postconvergence analysis of ‘human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’) as so-relevantly analysable across the succession of registry-worldviews/dimensions (as reflecting the underlying ‘human social psychology of dominance/vested-interest—drivenness-<as-to-its-eliciting-by-or-exploiting-

Critically, scalarisation analysis operantly implies projecting the implied ‘scaling/scalar of reference’ as from ontological-normalcy/postconvergence epistemic-projection perspective implications of analysis as to the prospective possibilities for ‘human living-development-as-to-personality-development, institutional-development-as-to-social-function-development and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. In this regards, it can very much be appreciated that human scalarisation potential (existentially manifestable as of successive

rescalarisation as re-ontologisation as to human limited-mentation-capacity-deepening-
 {formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal}
 implications) reflects all the sublimation-over-desublimation possibility for the full
 possibility of human ontological-performance as can be so-construed as from notional-
 deprocrypticism prospectively implied originariness/origination-<so-construed-as-to-
 ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence>. But
 then inevitably human limited-mentation-capacity-deepening-{formative>epistemic-
 totalisingly,-as-to-existence—as-sublimating-withdrawal} implications speaks to
 tandemisation/abstractive-conjugation/perspectivation/depth—as-to-mental-aestheticising-
 attuning in the sense that human descalarisation is already caught up in the human aspiration
 for scalarisation as to the underlying sublimating-by-desublimating <formative>epistemic-
 totalising manifestation of aestheticisation—and-aestheticisation-towards-ontology. In this
 respect, scalarisation analysis is a projection beyond just a conceptually implied
 originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-
 perspective-scalarising-construal-of-existence> but is comprehensively and
 notionally/epistemically reflective of underlying structural/paradigmatic rescalarisation and
 descalarisation of human ontological-performance as to human limited-mentation-capacity
 implications. This incipient descalarisation reflex is critically manifested by the fact that the
 human is structurally/paradigmatically as of its thrownness-in-existence (as so-attendant of
 overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—

 and so as to human inherently embodied—vitality/survival/subsistence in existential becoming

with regards to human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as so-defining the-social or human-social-potency’ (so-reflecting perpetually/continually human bechancing-becoming—originariness/origination—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing_disinhibited-mental-aestheticising scalarisation potential) as preveniently/priorly preceding any concreteness/concretism/enframing—of-human-ontological-performance (as to human overall ‘aestheticisation as reflecting the extensive manifest outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations of human meaningfulness-and-teleology’, and so as taxingness-of-originariness induces beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing_inhibited-mental-aestheticising descalarisation reflex). Thus the very notion of ‘human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism,-in-sublimation-over-desublimation>-of-meaningfulness-and-teleology in relation to ontological-performance’ is very much incipient/inchoate/preceding with respect to concreteness/concretism/enframing—of-human-ontological-performance, such that the issue of human ontological-performance is more rightly and veridically ontologically construable in terms of these two aspects of formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism,-in-sublimation-over-desublimation>-of-meaningfulness-and-teleology (as to bechancing-becoming—originariness/origination—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing_disinhibited-mental-aestheticising scalarisation potential) and concreteness/concretism/enframing—of-human-ontological-performance (as to beholdening-

 corresponding potential capacity for rescalarisation as to human formativeness-<as-to-

 deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩
 reflecting the ontological-contiguity—of-the-human-institutionalisation-process. The overall
 point here is that the human as ever always caught up in ‘human limited-mentation-capacity-
 implied phenomenal/manifest concreteness/concretism/enframing—of-human-ontological-
 performance descalarisation reflex’, the human capacity for scalarisation lies in a
 ‘distending/dragged-out scalarisation relationship’ with this ‘phenomenal/manifest
 concreteness/concretism/enframing—of-human-ontological-performance descalarisation
 reflex’ as to the fact that human absolute scalarisation cannot be achieved as to any resultant
 reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-
 aestheticisation of concreteness/concretism/enframing—of-human-ontological-performance,
 as human absolute scalarisation is always a potential held-up in originariness-parrhesia,—as-
 spontaneity-of-aestheticisation as to the capacity for ‘human gesturing of dispensing-with-
 immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for
 maximalising-recomposuring-for-relative-ontological-completeness’ (as can be so-
 appreciated with the notional-deprocrypticism/notional-preempting—disjointedness-as-of-
 reference-of-thought underlying the ontological-contiguity—of-the-human-
 institutionalisation-process); such that acuity/perspicacity/astuteness/edginess/incisiveness—
 of—apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—for—
 conceptualisation rather speaks of ‘one long continuous whole of human originariness-
 parrhesia,—as-spontaneity-of-aestheticisation as of notional-deprocrypticism’ which guiding

spirit no human prospective apriorising/axiomatising/referencing–conceptualisation can pretend to ignore-and-override without falling into perversion of meaningfulness-and-teleology as to pedantry and/or sophistry by mere-methodologising/mutualising/organising/institutionalising human-subpotency enframing in gimmickiness/desublimation. This insight about human ‘distending/dragged-out scalarisation’ points to the ontological-veracity of a necessary hermeneutic <formative>epistemic-totalising understanding associated with human ontological-performance, with the dearth of such hermeneuticism often associated with social contemplative fragility as well as the sophistry that further exploits this social contemplative fragility as to presencing—absolutising-identitive-constitutedness; and originariness-parrhesia,—as—spontaneity-of-aestheticisation imbued scalarisation effectively speaks of the ontological-veracity of the requisite difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism for the appropriately optimisable ontological-performance of human conceptual and operant meaningfulness-and-teleology. Scalarisation analysis as such provides human boundless possibility for human scalarisation—as-to-rescalarisation—as—re-ontologisation with regards to human living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The more critically conceptual and operant issue lies with how priorly induced ‘human temporal-to-intemporal-dispositions accordioning at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’ as to presencing—absolutising-identitive-constitutedness shapes any such ontologically-flawed presence human psychology as to its given ‘aestheticisation of enframing/imprintedness’ with regards to prospectively addressing such

‘phenomenal/manifest concreteness/concretism/enframing—of-human-ontological-performance descalarisation reflex’ concerns identified above (as to ‘presencing—absolutising-identitive-constitutedness enframing with the subontologisation of ontology as to dominance/vested-interest—drivenness-<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-desublimation>’); and so with regards to overall underlying human ‘social and institutional crises/suboptimisation as to subontologisation’ prospective need for re-ontologisation. This overall construal of the determinative structure of human ontological-performance (as it reflects the ontological-veracity of human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism,-in-sublimation-over-desublimation>-of-meaningfulness-and-teleology over any given conception of human of intersubjectivity-of-meaningfulness-and-teleology’) rather undermines the ontological-pertinence as to the ontological-performance of the notion of human intersubjectivity-of-meaningfulness-and-teleology and so very much along the same lines of the Derridean criticism of intersubjectivity-of-meaningfulness-and-teleology going by his ‘heterogeneous genesis’ conception (even as the latter is more-or-less caught up in metaphysics-of-presence epistemic constitutedness as to its quasi-transcendental implications since genesis is rather truly as of the ‘full-conflatedness in the apriorising/referencing/axiomatising of meaningfulness-and-teleology’ involved with human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) and so-reflected rather as from ‘originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> implied scalarisation-as-to-rescalarisation-as-re-ontologisation’), such that intersubjectivity-of-meaningfulness-and-teleology is rather an ontologically-flawed conceptualisation ‘poorly reflecting the ontological-veracity of the-social/human-social-

potency as to the full potential for human ontological-performance’ and so since intersubjectivity—of—meaningfulness-and-teleology is rather beholdening to presencing—absolutising-identitive-constitutedness (as of ‘presencing—absolutising-identitive-constitutedness enframing with the subontologisation of ontology as to dominance/vested-interest—drivenness-<as-to-its-eliciting-by-or-exploiting-of-descalarising-sycophantic-sophistic-interests,-as-inducing-prospective-threshold-of-institutional-and-social-desublimation>’) unlike is the case with human ‘formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism,-in-sublimation-over-desublimation>-of-meaningfulness-and-teleology construed scalarisation-as-to-rescalarisation-as—re-ontologisation with respect to human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)’ which perspective of ontological conceptualisation is not beholdening to any presencing—absolutising-identitive-constitutedness enframing. That is, the reality of the full potential for human-subpotency ontological-performance (as enabling the superseding of any presencing—absolutising-identitive-constitutedness enframing) rather lies with human underlying supposedly coherent ontological-commitment (so-associated with ‘originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence> implied scalarisation-as-to-rescalarisation-as—re-ontologisation’ as reflecting human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism,-in-sublimation-over-desublimation>-of-meaningfulness-and-teleology full potential for human-subpotency ontological-performance so-underscored as of originariness-parrhesia,—as-spontaneity-of-aestheticisation acuity/perspicacity/astuteness/edginess/incisiveness) and so, as to: ‘fatedness-of-sublimation-over-desublimation, to existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-

It is the profound ontological-veracity of such implied human intersolipsism of meaningfulness-and-teleology (as of formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism,-in-sublimation-

 ontological-performance) and so over intersubjectivity-of-meaningfulness-and-teleology as
 to presencing—absolutising-identitive-constitutedness enframing, that reflects the
 intemporal-disposition possibility for the ‘abstract individual’ to venture at eliciting the
 transcendence-and-sublimity/sublimation possibilities of existence—as-sublimating-

 that as of its implied presencing—absolutising-identitive-constitutedness enframing, it goes

ontologically-flawed implied intersubjectivity-of-meaningfulness-and-teleology
 presencing—absolutising-identitive-constitutedness enframing associated with such
 ontologically vague notions like ‘institutionalised facts’ as of ‘mere-
 methodologising/mutualising/organising/institutionalising human enframing’ that supposedly
 and wrongly supersede ‘genuine knowledge-reification framework involving a detour to
 existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-

 consequence of such ontologically-flawed analysis as to intersubjectivity-of-
 meaningfulness-and-teleology presencing—absolutising-identitive-constitutedness enframing
 that fails to grasp relative-ontological-completeness implications is that the ‘institutionalised
 facts’ of the successive registry-worldviews/dimensions are then construed wrongly as
 ‘beyond ontological analysis’ such that the ontological-contiguity—of-the-human-
 institutionalisation-process herein implied is then construed as ‘unintelligible’ as even the
 notion of how successive registry-worldviews/dimensions come about is obfuscated. This
 overall insight points to the fact that all the potentiality for human ontological-performance
 rather lies with grasping: human ‘formativeness-<as-to-intersolipsism-of-

This overall elucidation points to 'human ontological-performance as more rightly and veridically ontologically construable in terms of the two aspects of formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism,-in-sublimation-over-desublimation>-of-meaningfulness-and-teleology (as to bechancing-becoming—originariness/origination—as-to-historiality/ontological-eventfulness/ontological-aesthetic-tracing_disinhibited-mental-aestheticising scalarisation potential) and concreteness/concretism/enframing—of-human-ontological-performance (as to beholdening-becoming—distortive-originariness/distortive-origination—as-to-historicity-tracing_inhibited-mental-aestheticising descalarisation reflex) by its inducing of presencing—absolutising-

Insightfully, a most fundamental ontology/science as aspired herein in reflecting the ontological-contiguity—of-the-human-institutionalisation-process rather points to human formativeness-<as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism,-in-sublimation-over-desublimation>-of-meaningfulness-and-teleology of recurrently self-surpassing meaningfulness-and-teleology and the resultant consecutive consequent presencing—absolutising-identitive-constitutedness enframing reflecting the successive registry-worldviews/dimensions imbued reference-of-thought—and-reference-of-thought-devolving—meaningfulness-and-teleology respective less-and-less relative-ontological-incompleteness of ontological-performance; such that inherently the construal of their social-stake-contention-or-confliction are ever always construed in <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as to any such given registry-worldview’s/dimension’s presencing—absolutising-identitive-constitutedness enframing (as to living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology), whereas an ontologically more profound construal as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism (reflecting originariness/origination-<so-construed-as-to-ontological-normalcy/postconvergence-perspective-scalarising-construal-of-existence>) rather highlights ‘an utterly superseding construal of ontological-performance’ of any such registry-worldview/dimension presencing—absolutising-identitive-constitutedness enframing construal of social-stake-contention-or-confliction wherein base-institutionalisation, universalisation, positivism/rational-empiricism and deprocrypticism respectively are rather of dissociative/unbeholdening/bechancing—supererogation and parenthesising-in-deflation with

regards to the social-stake-contention-or-confliction of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and our procrypticism/disjointedness-as-of-reference-of-thought as to the prospective emancipatory possibilities of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) ‘in the face of existence—as-sublimating-withdrawal enabling of human ontological realisation as of human formativeness-⟨as-to-intersolipsism-of-premeaningfulness/preframing-imbued-mediativity-and-deferentialism,-in-sublimation-over-desublimation⟩-of-meaningfulness-and-teleology’ and so rather than any presencing—absolutising-identitive-constitutedness enframing construal inevitably caught up in human-subpotency subontologisation/ideology-over-ontology. Incipiently, an ontology that professes to be of the most profound science as fundamental ontology should be able to see-through/unblur the superficiality of human-subpotency presencing—absolutising-identitive-constitutedness enframing imbued social-stake-contention-or-confliction projections (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) of any given registry-worldview/dimension, and articulate prospective aestheticisation—and-aestheticisation-towards-ontology/meaningfulness-and-teleology that is of dissociative/unbeholdening/bechancing—supererogation and parenthesising-in-deflation enabling prospective human re-ontologisation possibilities.

Such a depth of contemplation as to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology effectively reflects a rather more profound conceptualisation of human psychology as to its transcendence-and-sublimity inducing potential as to the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (at the crossroads of prior meaningfulness-and-teleology and prospective metaphoricity) over approaches of relative

gimmickiness-of-thought as to our positivism/rational-empiricism presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that poorly address human egotistic/self-referential complex in the face of prospective human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint and with the corresponding possibility for sophistic/pedantic moral and intellectual disenfranchisement/swindling/corruption/dispossession (as the fact is when it comes to social-stake-contention-or-confliction ‘knowledge-reification tends to be notionally/epistemically caught up between a sublimation and desublimation/gimmickiness paradigm’ as reflected in the social reality of ‘a veil of knowledge associated with subterfuges’ reflected say in an ambiguous continuity between genuine-knowledge and chicanery, social/institutional intellectualism and social/institutional sycophantic-sophistry, treatment and placebo, alchemy and chemistry, quackery and medicine, technological-advancement and technical-mystification, flawed-industrial-analyses-and-certifications and disinterested-scientific-analyses-and-certifications, etc.). In other words, the notion of ‘the other’ as aetiologisation/ontological-escalation is much more than ‘magnanimity towards the other’ but more fully a stance that ‘calls upon a principled commitment to the notion of the other’ by the other as enabling the completeness of universal responsibility. Paradoxically, viewed from this angle as of the possibility of inducing prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking—qualia-schema> for ontologically-veridical virtue transcendence-and-sublimity, a different interpretation can be made about the posture of a thinker like Heidegger during the troubled years of the 1930s; as effectively, the implication of Heidegger’s analysis of the situation which he associated with Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology <formative>epistemic-

causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity points to ‘a conception emphasising ontology as defining virtue thus ultimately geared towards prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> as of the need for prospective relative-ontological-completeness-of-reference-of-thought’, but failing not because of the said orientation but with regards to the wrong conclusion about Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology misunderstood as implying that it lies with an originary tradition like the Ancient Greece tradition or German Folk tradition rather than lying with an underlying transcendental universal notion construed as ‘going beyond them-and-us logic’ as of the implications of universal human emancipatory potential, and this fundamentally scuppered his possibility of ‘attaining a conception of prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> as of the need for prospective relative-ontological-completeness-of-reference-of-thought’, rather than an ‘ontologically-flawed idea implying a certain given historical tradition’. Likewise, but with regards to virtue analysts analyses that are naively articulated on the basis of the ontological-contiguity of our ‘modern take attitude/mental-disposition/care-and-episteme’ as of our <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness-of-reference-of-thought leading to palliation as of selecting, triaging, mutually-concurring-and-accommodating and power-relations driven palliating virtue constructs, an altogether different drawback is decisively apparent as we know that since those troubled years, wars, genocides, and other crimes against humanity have still been taking place and will probably continue to take place, as of the structural/paradigmatic consequence arising with such manifestations in ontological-contiguity of our ‘modern take

attitude/mental-disposition/care-and-episteme'; divulging that conceptualising virtue in ontological-contiguity is at best only of palliative consequence and not truly aetiologisation/ontological-escalation which rather warrants prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought. The fact is well-meaningness, good-intentions and/or good-naturedness however comforting to contemplate about doesn't substitute for ontology/ontological-veridicality as of the need to truly understand the human limited-mentation-capacity dynamics behind human action for appropriate aetiologisation/ontological-escalation that brings an end to the endemisation and enculturation of any given registry-worldview's/dimension's vices-and-impediments. This existential reality about ontological-primemovers-totalitative-framework is no more different between the social world and the natural world, and so as of existence—as-the-absolute-a-priori-of-conceptualisation inherent ontological coherence/contiguity. This insight about virtue as lying with ontology has been to varying degrees implicitly understood by many postmodern thinkers, beginning with Heidegger pointing to a sophistication of thought but for the poor development and poor conclusions of his analysis during the troubled years of 1930s; and rather poorly interpreted by virtue critiques adopting a 'modern take attitude/mental-disposition/care-and-episteme' in ontological-contiguity as of its <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag prior relative-ontological-incompleteness-of-reference-of-thought perspective construed-as reasoning-from-results/afterthought of modernity. Such sophistication of thought to think in terms of inherent ontology, however ontologically-flawed with respect to Heidegger, has been further implicitly pursued by latter postmodern thinkers as of quasi-transcendental implications for construing virtue from the orientation of prospective notional-contiguity/epistemic-

contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought, as implicated with the case of Derrida's spirit insight. Ultimately, the 'postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme' should ontologically nurture the requisite psychoanalytic-unshackling/prospective-grounding/prospective-reification for prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought implied as of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as implied by postmodern human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation thus inducing the aetiologisation/ontological-escalation addressing/resolving our 'modern take attitude/mental-disposition/care-and-episteme' vices-and-impediments. As a further elucidation, prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought actually points out that the uninstitutionalised-threshold is rather a point of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics which is what justifies the pre-eminence of the prospective institutionalisation attitude/mental-disposition/care-and-episteme over the uninstitutionalised-threshold attitude/mental-disposition/care-and-episteme. We can effectively grasp why Heidegger's implicated insight as of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> but rather being associated with a given tradition actually couldn't break through the barrier of perceiving notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> as 'futural way of thinking', as it misperceived that any tradition can reveal as of its inherent

nature the ‘futural way of thinking’, rather than that this lies with ‘a universal principle understanding of the transformation of traditions’ and thus how such universal principle understanding as of its universal implications informs about the ‘futural way of thinking’. In this regard, we can equally understand why Heidegger’s supposed criticism of Cartesianism was altogether a misplaced analysis given that ‘a universal principle understanding of the transformation of traditions’ as herein implied by this author in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, would have provided the insight that Descartes was actually ‘establishing a positivism tradition as of futural way of thinking’ breaking away from non-positivism/medievalism; such that budding positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument becomes intelligible, thus revealing that Heidegger notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> why intending to be of prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is actually of an epistememic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag aposteriorising/logicising/deriving/intelligising/measuring with prior positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme, even though in its attempt it effectively elicits many insights for the prospect of ontologically-veridical prospective postmodern apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument with its corresponding postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme. In other words, Heidegger’s issue should have actually been about future Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology just as Descartes issue in articulating budding positivism construed-as-rationalism was not with

setting up its meaningfulness-and-teleology in contention with prior non-positivism/medievalism as of its then future Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, apart from mere intellectually contrastive elucidation, but rather implied affirming prospective positivism as of its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and–episteme; and so as of the fundamental implication of positivism prospective relative-ontological-completeness-of-reference-of-thought over non-positivism/medievalism prior relative-ontological-incompleteness-of-reference-of-thought. We thus see why the future redevelopment of Heideggerian misconceived prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema> as of prospective relative-ontological-completeness-of-reference-of-thought as undertaken by latter thinkers like Foucault, Derrida, Deleuze, Lacan, Lyotard and others are full of prospective quasi-transcendental ‘structural/paradigmatic disseminative implications’ as reflecting an underlying reality of prospective reference-of-thought ontological-dementation/dialectical-dementation—stranding/attributive-dialectics construed herein as of prospective postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and–episteme, and so just as searing with ‘structural/paradigmatic disseminative implications’ was the mathesis universalis metaphoricity extended development/influence on the works of the Galileos, Descartes, Newtons, Leibnizes and others that ultimately reflected an underlying reality of prospective reference-of-thought ontological-dementation/dialectical-dementation—stranding/attributive-dialectics implied as of prospective positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-

disposition/care-and-episteme in superseding/transcending non-positivism/medievalism. In effect it is herein contended that what is implicitly missed about the Cartesian proposition 'I think therefore I am' is not the idea that Descartes contemplates that he is the first person to be self-conscious about his thinking; rather his underlying reasoning is 'more than just speculative doubting' but 'motivated doubting' that is highly contextual-as-of-the-non-positivism/medieval-epoch and highly prefigurative-as-to-what-Descartes-wants-to-do-of-transformative-with-thinking-given-that-context. That is, Descartes seeks to affirm the 'mereness of thought' beyond any existing habit-and-tradition-of-thought as of non-positivism/medievalism scholasticism pedantic dogmatism reasoning-from-results/afterthought, and so liberated rearticulate thought 'out of thin air' as of prospective reasoning-through/messianic-reasoning as reflected by his novel mathesis universalis metaphoricity rationalism schema/dissemination that permeates all of his works such that even with his ontological argument something subtle and more original is happening, in that unlike many medieval scholasticism dogmatic interpretations that construe of a supernatural permeation into the natural, in affirming the ontological argument Descartes blocks-out/passivises the supernatural from the natural with the metaphoricity implication that the natural can be thought of in its own terms-as-of-axiomatic-construct. Thus Descartes 'I think therefore I am' is rather a statement of intent as of a 'futural way of thinking' and its budding positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme, that is unique as 'consciously setting up the pre-eminence of thinking in eliciting-and-resolving systemic doubting and structuring/paradigming the possibility of elucidation of any subject on this basis'. The appropriate contemplative perspective for the appreciation of their schema/structural-or-paradigmatic-disseminative-implications is effectively cross-generational as of the amplitude/breadth of reference-of-thought implied transcendence-and-sublimity; as we can effectively appreciate that the very mathesis universalis schema/disseminative metaphoricity engendering our positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme is still ongoing today even as it is more clearly demarcated as initiated about 500 years ago. The overall logic of this notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> analysis, implied as of prospective relative-ontological-completeness-of-reference-of-thought, can be understood simply as of the relation between existence which is already given and human-subpotency which as of prospective relative-ontological-completeness-of-reference-of-thought grasp more and more what is of the full-potency of existence by way of its axiomatic-constructs of

existence or of purviews/domains of existence, with its grandest axiomatic-construct as an epistemic-totalising/circumscribing/delineating construct being the reference-of-thought. We can grasp that it is not existence and purviews/domains of existence which will adjust to human-subpotency for ontologically-veridical meaningfulness-and-teleology but rather human-subpotency adjusting as of existence-potency-prospective-digression-of-
 <formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness; with such adjusting being construed as of prospective relative-ontological-completeness. But then humankind as of its developed-and-invested habits and traditions about existence counterintuitively relates to existence and purviews/domains of existence as if it supersedes them, and thus do not or poorly construes of prospective relative-ontological-completeness-of-reference-of-thought/relative-ontological-completeness-of-axiomatic-construct as an issue of human-subpotency adjustment as of psychoanalytic-unshackling/prospective-grounding/prospective-reification, implied as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics with regards to the reference-of-thought transcendence. In lieu the poor intuition is to imply that we are already well grounded and that prospective meaningfulness-and-teleology is an incrementalism-in-relative-ontological-incompleteness to our already established psychoanalytic disposition rather than a maximalising-recomposuring-for-relative-ontological-completeness in resetting-our-psychoanalytic-disposition/prospective-grounding as of <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought in conflatedness, such that this leads to constitutedness when so poorly psychoanalytically grounded on the naïve and ontologically-flawed basis that it is existence and purviews/domains of existence that adjust to our human-subpotency. Thus however counterintuitive, this overall conception structures the fact that it is as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics that our human <formative>epistemic-totalising/circumscribing/delineating reference-of-thought

is transcended for prospective relative-ontological-completeness-of-reference-of-thought implied as of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>. This phenomenological insight in recognising that there is 'an underlying metaphoricity-induced relative-emancipatory migration' from the mindset of the early hunter-gathers as of recurrent-utter-uninstitutionalisation towards modern man as of positivism—procrypticism to the prospective postmodern man as of deprocrypticism, calls for a full appreciation of this most profound

phenomenological transcendental process of corresponding ‘human attitude/mental-disposition/care-and-episteme migration’ inducing successive apriorisings/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments of human meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought; and so, as of retrospective and prospective meaningfulness-and-teleology interpretation construed as historicity/ontological-eventfulness/ontological-aesthetic-tracing. Such a conception that goes beyond our natural inclination of ‘referring to’ and ‘ad hocly-and-scantily’ identify other retrospective and prospective registry-worldviews/dimensions reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme from our present attitude/mental-disposition/care-and-episteme, towards an ontologically-veridical transparent ‘to be or existing as wholly immersed-and-engrossed’ existential projection insight about all registry-worldviews/dimensions attitude/mental-disposition/care-and-episteme is what underlies the protensive-consciousness of deprocrypticism, from which standpoint as of its ontological-completeness-of-reference-of-thought such an ontologically-veridical analysis of ‘human attitude/mental-disposition/care-and-episteme migration’ can be undertaken, for retrospective and prospective attitude/mental-disposition/care-and-episteme conception, and specifically as relevant for understanding prospective ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme’. In this regard, ‘human attitude/mental-disposition/care-and-episteme migration’ in reflecting the ontological-contiguity—of-the-human-institutionalisation-process induced Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology

is instilled as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics wherein the prospective reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme is intemporally induced as deneuterising ‘exteriorisation attitude/mental-disposition/care—and—episteme’ of meaningfulness-and-teleology superseding/overriding the prior reference-of-thought temporally neuterising ‘interiorisation attitude/mental-disposition/care—and—episteme’ of meaningfulness-and-teleology. The ‘exteriorisation attitude/mental-disposition/care—and—episteme’ implies meaningfulness-and-teleology as not registered-as-ascribed/neuterised as of a prior reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, that is, not as of the prior reference-of-thought ‘interiorisation attitude/mental-disposition/care—and—episteme’, but rather registered-as-deascribed/deneuterised as of the prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology; with the latter construed as dialectical-thinking and the former construed as dialectically-dementing. Thus a registry-worldview/dimension institutionalisation reference-of-thought always operates as if it is the absolute framework of meaningfulness-and-teleology, that is, by its ‘interiorisation attitude/mental-disposition/care—and—episteme’, notwithstanding the ontological-veridicality of its prior relative-ontological-incompleteness-of-reference-of-thought at its uninstitutionalised-threshold, as reflected by the prospective registry-worldview/dimension institutionalisation reference-of-thought in an ‘exteriorisation attitude/mental-disposition/care—and—episteme’ towards it. Consider in this regard the ontologically-veridical reflected immersed-and-engrossed attitude/mental-disposition/care—and—episteme with respect to the ‘ill-health <formative>epistemic-totalising-devolved—

 respect to our positivism-procrypticism, in an effusive-conversational-as-of-existential
 articulating of a clinical analysis mainly as a patient ill-health state; or with respect to
 prospective postmodernism, in an effusive-conversational-as-of-existential articulating of
 associated socio-economic and socio-political factors behind a patient's ill-health. Basically,
 'exteriorisation attitude/mental-disposition/care-and-episteme', as relevant for the

 When so-construed prospectively, 'postmodern exteriorisation attitude/mental-
 disposition/care-and-episteme' is all about such a deprocrypticism/preempting—
 disjointedness-as-of-reference-of-thought as implied by its human-subject-emancipatory-

relativism-driven-recomposuring-constructivism-towards-singularisation ‘originary postmodern-thought-process and other postmodern creative-processes avant-gardism’ that are not in a reasoning-from-results/afterthought ontological entanglement with our ‘modern take attitude/mental-disposition/care-and-episteme’. Consider in this regard the reasoning-through/messianic-reasoning prospective structural/paradigmatic disseminative implications as of Derridean *différance*/internal-dialectics/difference-deferral, Foucauldian genealogy-knowledge-and-power-discourse and Deleuzian immanence experimentation that can all be construed (and as equally implied by this author’s ontological-normalcy/postconvergence referentialism conception of historicity/ontological-eventfulness/ontological-aesthetic-tracing), as of prospective transcendence-and-sublimity singularisation/epistemic-immanence/veridical-epistemic-determinism for perpetuated/disseminative preemption of conceptual disjointedness. Thus ultimately the deprocrypticism registry-worldview/dimension is one that will be marked by sharper and sharper singularisation/epistemic-immanence/veridical-epistemic-determinism, construed as of its perpetuating/disseminating of the preemption of disjointedness. In this regard, singularisation/epistemic-immanence/veridical-epistemic-determinism retrospectively and prospectively reflects the notional conflatedness/conflatedness implied as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality but with the latter as a ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’ ever always coming short due to human temporal ontological-performance denaturing as of temporal/shortness-of-register-of-meaningfulness-and-teleology pedantic/formulaic alignment to ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-

 singularisation/epistemic-immanence/veridical-epistemic-determinism by its implied
 notional-conflatedness highlights that ‘axiomatic-constructs as of <formative>epistemic-
 totalising/circumscribing/delineating reference-of-thought-devolving’ in reflecting of
 ‘human-subpotency ontological-performance correspondence with the full-potency of
 existence in its coherence/contiguity’ as of implied human-subject-emancipatory-relativism-
 driven-recomposuring-constructivism-towards-singularisation, is effectively as of
 dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism to
 singularisation/epistemic-immanence/veridical-epistemic-determinism. That is
 singularisation/epistemic-immanence/veridical-epistemic-determinism points out that there is
 no inherent meaning of existence about existence as existence is tautologically what it is as
 existence, rather the notion of meaning arises as of the notion of human-subpotency strife to
 ‘grasp what is existence’, and that latter notion is all about human-subpotency ‘axiomatic-
 constructs as of <formative>epistemic-totalising/circumscribing/delineating reference-of-
 thought-devolving’ human-subject-emancipatory-relativism-driven-recomposuring-
 constructivism-towards-singularisation. In other words, meaning is always a human project to
 construe existence as of human limited-mentation-capacity-deepening-(formative>epistemic-
 totalisingly,-as-to-existence—as-sublimating-withdrawal) of ‘axiomatic-constructs as of
 <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’.
 singularisation/epistemic-immanence/veridical-epistemic-determinism, and as reflected by
 this author’s notion of ontological-normalcy/postconvergence referentialism conception of
 historicity/ontological-eventfulness/ontological-aesthetic-tracing, points out that
 dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of human-

subpotency ontological-performance correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is ontologically-flawed, and that prospective relative-ontological-completeness reflects that singularisation/epistemic-immanence/veridical-epistemic-determinism as of human-subpotency ontological-performance correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality is what is rather ontologically-veridical. It is this prospective singularisation/epistemic-immanence/veridical-epistemic-determinism that reflects the effective possibility of a ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’ as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; attainable as of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) of ‘axiomatic-constructs as of <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’, and so reflected by the notion of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension.

This reality of the need to construe of human-subpotency ontological-performance correspondence with the full-potency of existence/intrinsic-reality/ontological-veridicality as of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has increasingly been revealed as from the ‘strangely axiomatic teleologically-thorough singularisation/epistemic-immanence/veridical-epistemic-determinism manifestations’ of quantum entanglement, relativity theory implications, the teleologically constrained nature of biological processes as more than just the parsimonious-or-disparate nature of organic matter but rather singularisation/epistemic-immanence/veridical-epistemic-determinism as of whole

living organisms, and likewise human meaningfulness itself is a structuring/paradigming singularisation/epistemic-immanence/veridical-epistemic-determinism as of sharply defined teleological possibilities of social and individuals existence with respect to the different registry-worldviews/dimensions specific institutionalisations, etc. (Interestingly, as of this author's conception of such a teleological perception of existence as of its singularisation/epistemic-immanence/veridical-epistemic-determinism, as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation insights of postmodern-thought has been subject to naïve obfuscation grounded on the supposed privilege of 'science ideology' over science-in-practice as an opened construct of scientific knowledge as of cause-and-effect constraint, and with the form of science at various times continually moulting as from the budding science of the days of Galileo and Copernicus, to Newtonian science, to Lavoisier laboratory science, to Einsteinian science to modern day institutional practices of science, with all fundamentally driven not by any 'purported science ideology' but rather the practicality of results as of the constraint of the subject-domains of scientific study as of their existential-contextualising-contiguity knowledge-reification rather than 'any implied notion that naively supersede existence—as-the-absolute-a-priori-of-conceptualisation'. In this regard, it is interesting to note that the notion of science practised by the successive pioneers cited above are markedly different from each other and all subjected rather to the implications of existential-contextualising-contiguity knowledge-reification of their purview/domain of existence/intrinsic-reality/ontological-veridicality. It is interesting as well to note for example that when equations didn't work out in reflecting existential-contextualising-contiguity, Einstein rather rethought and subjected human assumptions to existence—as-the-absolute-a-priori-of-conceptualisation for his science, with such notions as space-time rather than traditional space and time; pointing out that there cannot be any ideology about science and it is rather

the constraint for existential-contextualising-contiguity knowledge-reification that determines science practice, and so in existential conflatedness. Further, it had long dawned on this author that scam studies meant to undermine the validity of underlying constructivist and relativist insights about existential reality as implied by postmodern-thought including with respect to such implications in the natural sciences are rather ‘supposedly invalidating’ wholly with respect to the authors of such scam studies coming out with the arguments of their ‘intendedness of invalidation’; with the legitimate contention that such ploys are thus surreptitious manoeuvres for preempting a given orientation of thought ‘not because of the inherent invalidity of such orientations as of inherent theoretical knowledge arguments in undermining such orientations’ but rather as a ploy of ‘inducing popularised scientific ideology’ to surreptitiously stifle such orientations without truly engaging in undermining its theorisation. Bogusness or non-bogusness is not a relevant scientific criteria, though granted it can be a relevant criteria for ‘surreptitious media-driven invalidation’, as science-in-practice is about ultimate cause-and-effect relationships, and in practical terms many scientific studies are rather elaborated as of ‘deferred cause-and-effect constraint’ as a reifying gesture for ultimate cause-and-effect determination. The fact that similar scam studies for the ‘intendedness of invalidation’ cannot be construed as scientifically valid with respect to any given orientation of study renders such manoeuvres intellectually void, and whatever their underlying ‘covert goals’ and however genuine their authors are of intent. It is very much important in this regard that intellectuals, whether in the natural sciences or in the social and humanities, not be cowered/enframed by non-intellectual/extra-intellectual approaches to ‘acknowledged intellectual ways and approaches for intellectual argumentation’, and not even if such approaches are media-driven, so because much that is central and critical to intellectualism is about exploring all possibilities.) All these highlight an underlying ontology’s-directedness-as-Being that bears notional-conflatedness

This insight about ontological-performance as of prospective relative-ontological-completeness of human-subpotency can be garnered with respect to any axiomatic-construct as the meaningfulness-and-teleology representation of human-subpotency ontological-performance correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity or a purview/domain of existence/intrinsic-reality/ontological-veridicality, and so not only with regards to the reference-of-thought as the grandest axiomatic-construct. This fundamentally points out that at uninstitutionalised-thresholds, human cognition which is rather in ‘excogitative-blanking of prospective institutionalisation existential-contextualising-contiguity-in-reification’ suffers-and-fails to relay the ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’ for prospective institutionalisation as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-

We can appreciate that with regards to ‘the very same ill-health <formative>epistemic-totalising-devolved—purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality’ highlighted above, the various successively human-subpotency ontological-performance of prior perceptivities as successive uninstitutionalised-thresholds are rather in ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity-in-reification’ (by their identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as-cloistered-within-the-same-reference-of-thought), as overlooking their successively prospective perceptivities which are actually in prospective relative-ontological-completeness-of-reference-of-thought as enabling/cogent-with difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism’. The notion of human ‘excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity-in-reification’ can equally be elucidated with regards to a devolved axiomatic-construct of the reference-of-thought. For instance, we can grasp that with regards to ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, the perceptivity of ‘traditional classical mechanics axiomatic-construct’ had rather been in ‘excogitative-blanking of the prospective

This insight about human 'excogitative-blanking of the prospective institutionalisation existential-contextualising-contiguity-in-reification' at uninstitutionalised-thresholds actually highlights that from a prospective perspective of prospective relative-ontological-completeness-of-reference-of-thought our positivism—procrypticism registry-worldview/dimension is very much imbued with a flawed ontological-performance, as is the case with all other prior registry-worldviews/dimensions, 'when we seem to perceive-and-think that our social world of meaningfulness-and-teleology is coherent, failing to factor in that it is dementing at its uninstitutionalised-threshold as reflected as disjointedness-as-of-reference-of-thought dementing by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective depcrypticism/preempting—disjointedness-as-of-reference-of-thought'; as this false sense of coherence is actually the effect of our prior relative-ontological-incompleteness-of-reference-of-thought

perspective/framing/reference/horizon of meaningfulness-and-teleology about its existential-
contextualising-contiguity knowledge-reification’. But then at uninstitutionalised-thresholds

where meaningfulness-and-teleology is denaturing, this prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’ gives a false certainty/assurance, such that human-subpotency existentially-constrained temporal ontological-performances as of <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the reference-of-thought—categorical-imperatives/axioms/registry-teleology in usurpation of that ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about its existential-contextualising-contiguity knowledge-reification’ tend to be overlooked as of mental-reflex since existentially the bulk of meaningfulness-and-teleology within the given registry-worldview/dimension as of its institutionalisation conforms-to/complies-with its ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity knowledge-reification’, but with a shadowy uninstitutionalised-threshold always eloping to such institutionalisation conforming/complying as of prior relative-ontological-incompleteness-of-reference-of-thought, and as lack of universal-transparency as to ‘excogitative-blanking of prospective existential-contextualising-contiguity-in-reification’ elicits human temporal/shortness-of-register-of-meaningfulness-and-teleology uninstitutionalised mental-dispositions. Such ‘excogitative-blanking of prospective existential-contextualising-contiguity-in-reification’ can be construed as to when say the non-positivistic mindset goes about articulating meaningfulness-and-teleology falsely as if superstitious notions ontologically-veridical out of prospective positivism existential-contextualising-contiguity-reification, and likewise with regards to a positivism—procrysticism/disjointedness-as-of-reference-of-thought mindset construal of meaningfulness-and-teleology that utterly overlooks the structural/paradigmatic reference-of-thought denaturing implications of its prospective disjointedness of meaningfulness-and-

teleology out of prospective existential-contextualising-contiguity-reification, as such disjointedness-as-of-reference-of-thought can be instigated originally from a postlogism-slantedness mental-disposition and the developing social dynamics with human temporality. We can appreciate in this sense that even within a non-positivistic social-setup as animistic or medieval for instance, despite the fact that it is susceptible to ontologically-flawed superstitious beliefs like notions-and-accusations-of-sorcery, the bulk of human action will be in good intent as of its institutionalisation framework ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’; but then at its uninstitutionalised-threshold where its reference-of-thought structural/paradigmatic ontological-flawed implications of believing in superstition set in as of its prior relative-ontological-incompleteness-of-reference-of-thought, it always systemically faces notional-procrypticism/notional-disjointedness as of vices-and-impediments arising from non-positivism/superstitious human-subpotency existentially constrained temporal ontological-performances as <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the reference-of-thought—categorical-imperatives/axioms/registry-teleology in usurpation of the prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’ now in false certainty/assurance. This points out that when consciously aware of uninstitutionalised-threshold manifestation, we can’t naively operate as of our prior institutionalisation ‘perceptual perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’, as of the fact of the beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought dementing human-subpotency existentially constrained temporal ontological-performances as <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-

drag-denatured-and-dementing-narratives of the reference-of-thought–categorical-imperatives/axioms/registry-teleology in usurpation; such that an enlightened insight is able to bring up and examine a dementing representation as temporal denaturing ontological-performances of the prior institutionalisation ‘perceptual-perspective/framing/reference/horizon of meaningfulness-and-teleology about existential-contextualising-contiguity’. But this conception is a reflection of more than just ad-hoc temporal manifestations at uninstitutionalised-thresholds but rather points out, besides the trite or more grave consequences of this state of affairs as a result of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, that the possibility for all prospective institutionalisations necessarily passes through understanding ‘human-subpotency existentially constrained temporal ontological-performances as <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the prior institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology in usurpation’, which understanding is actually what empowers the possibility of prospective institutionalisations that supersede/transcend it. In other words, humans in the various prior institutionalisations before our positivism were not limited to their various registry-worldviews/dimensions as recurrent-utter-uninstitutionalisation, base-institutionalisation, universalisation and our positivism just because they were inherently different from us as a species, but because of the need for the necessary institutional-cumulation/institutional-recomposure of understanding as of its organic-knowledge to enable the very same species to accede prospective institutionalisations as of human-subpotency adjusting to the full-potency of existence, and not the false certainty/assurance that any human registry-worldview/dimension is fully developed and that existence/intrinsic-reality/ontological-veridicality will adjust to it,

however our myopic/cloistered 60 – 100 years of living perspective. That is, grounding of
 meaningfulness-and-teleology is certainly required, but as of transcendence-and-sublimity it
 is not about grounding as of the present but rather as of psychoanalytic-
 unshackling/prospective-grounding/prospective-reification for prospective relative-

totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as-of-the-trace-or-‘historicity/ontological-eventfulness/ontological-aesthetic-tracing’-of-dialectical-thinking-‘apriorising-teleological-elevation-in-ontological-contiguity’-as-intemporality-and-dialectically-dementing-‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>’-as-temporalities,-given-human-limited-mentation-capacity-dynamic-implications-of-ontological-performance-that-are-respectively-thinkingly-and-dementatively-traceable-as-of-ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism and so in contrast with dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism which speaks of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as-of-‘no-apriorising-teleological-variance’-by-elevation-as-intemporality-and-degradations-as-temporalities,-on-the-‘flawed-axiomatic-mental-reflex-of-no-human-limited-mentation-capacity-dynamic-implications’-on-ontological-performance-which-is-falsely-construed-identitively-as-of-identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. We can appreciate that the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology speaks of increasing human limited-mentation-capacity ontological-performance as of the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality; thus validating registry-worldviews/dimensions reference-of-thought-level meaningfulness-and-teleology differentiation as ‘ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as of singularisation/epistemic-immanence/veridical-epistemic-determinism. It is exactly because any given registry-

worldview/dimension as of its given reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology is a cloistered-consciousness (as wholly set/focusing only on its reference-of-thought–categorical-imperatives/axioms/registry-teleology as of temporal-to-intemporal ontological-performances failing to appreciate meaningfulness-and-teleology as of the prospective <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of prospective relative-ontological-completeness-of-reference-of-thought implied by the ontological-contiguity—of-the-human-institutionalisation-process) that its postlogism-slantedness manifestation as temporal manifestation, whether with regards to notions-and-accusations-of-sorcery in a non-positivism social-setup or psychopathy and social psychopathy in a positivism–procrypticism social-setup, arises as ontologically-flawed identive-constitutedness-as-epistemic-totality-dereification meaningfulness-and-teleology, so because the given registry-worldview/dimension beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought meaningfulness-and-teleology isn't cognisant in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of its prospective relative-ontological-completeness-of-reference-of-thought <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, and hence 'wholehearted identify meaningfulness-and-teleology as absolute as of the specific registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology with little or no sense of mental projection as to the reality of 'differentiation of meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-teleology occurring with prospective relative-ontological-completeness-of-reference-of-thought'. Hence, the reference-of-thought-devolving in its <formative>epistemic-totalising–self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag existential-instantiations as of human living and institutional disposition is inherently inclined to identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism for construing meaningfulness-and-teleology with a correspondingly weak existential disposition for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness to supersede human temporality/shortness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) warranting an ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism strong existential disposition for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension. Thus the fundamental operant insight for reflecting reified human meaningfulness-and-teleology as of ‘disambiguation of veridical/intemporal ontological-performance from flawed/temporal ontological-performances’ as of prospective relative-ontological-completeness over prior relative-ontological-incompleteness is: one that is as of ‘difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism underlying ontologically-veridical epistemic-totality of meaningfulness-and-teleology in a subsuming wholeness/nested-congruence/contiguity-as-of-prospective-relative-ontological-completeness’ (so-construed as of singularisation/epistemic-immanence/veridical-epistemic-determinism); that reflects ‘human susceptibility as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-

In the bigger scheme of things singularisation/epistemic-immanence/veridical-epistemic-determinism and dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism notionally reflect respectively the profoundness and shoddiness associated with human intemporal/longness-of-register-of-meaningfulness-and-teleology and temporal/shortness-of-register-of-meaningfulness-and-teleology ontological-performances. singularisation/epistemic-immanence/veridical-epistemic-determinism fully-reflects-abstractly the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’, as existence—as-the-absolute-a-priori-of-conceptualisation is being so at the exclusion-and-surpassing of any apriorising/axiomatising/referencing notion including the often misconstrued apriorising/axiomatising/referencing notions of space and/or time, as all such notions are

rather in constitutedness since such notions seem to apriorise as if superseding the apriorising/axiomatising/referencing precedence of existence itself as the absolute a priori; construed herein rather as ‘ecstatic’ but not as of Heidegger’s ‘time/period ecstatic’ analysis, as it is herein contended that existence—as-the-absolute-a-priori-of-conceptualisation construed as ‘ecstatic apriorising’ subjects even time and any other notion, with the implication that the phenomenality of the analysis herein is not time-bound but solely existential more like the principles of physics are abstractly existential and so beyond the time-archaeology of astronomical manifestations reflecting such physics principles. singularisation/epistemic-immanence/veridical-epistemic-determinism thus speaks of how human subpotent prospective relative-ontological-completeness-of-reference-of-thought as of its limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) induce transcendence-and-sublimity, with the ‘ecstatic releasement of existence to human-subpotency’ as of existence-potency-prospective-digression-of-⟨formative⟩epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. This ‘ecstatic singularity’ about existence—as-the-absolute-a-priori-of-conceptualisation can be delineated as of singularisation/epistemic-immanence/veridical-epistemic-determinism, and so-construed as of human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence *différance*/internal-dialectics/difference-deferral for transcendence-and-sublimity in ‘phenomenological ecstatic releasement’. Thus our logocentric sense of certainty as marked by our ‘pervasively enframed logocentric constructs of meaningfulness-and-teleology’, as with all the prior logocentrisms of prior successive registry-worldviews/dimensions, as of their relatively ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism is misplaced manifestation of ignorance, and thus in our case in need for our prospective intellectual-and-moral maturing as of prospective ontological-dementation/dialectical-dementation—stranding/attributive-dialectics for the deprocrypticism/preemption-of-disjointedness-as-of-reference-of-thought registry-worldview/dimension. Thus the <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reality of human meaningfulness-and-

The articulation of sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing accounts of meaningfulness-and-teleology failing to highlight this process of human-subpotency ontological-performance differentiation are rather incomplete and misrepresenting of human nature in the ‘dynamic human-subpotency–aporia/undecidability/dilemma/ought-

critical to understand because the wrong mental-reflex conception of uninstitutionalised-

even though in the face of the very same ‘recurring <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness temporal-to-intemporal’. Insightfully, ontologically-veridical ‘reifying-<formative>epistemic-totalising-metaphoricity-conception of existential-contextualising-contiguity’ as historicity/ontological-eventfulness/ontological-aesthetic-tracing by its elaborateness of meaningfulness-and-teleology as a differentiated transversality-of-disambiguated-apriorising/axiomatising/referencing selectivity of the ontological-performance of intemporality/longness over temporality/shortness can be reflected by the operant technique of ‘partialisation of meaningfulness-and-teleology’. This ‘partialisation of meaningfulness-and-teleology’ operant technique of ‘reifying-<formative>epistemic-totalising-metaphoricity-conception of existential-contextualising-contiguity’ as historicity/ontological-eventfulness/ontological-aesthetic-tracing is convenient because by mental-reflex every registry-worldview/dimension will necessarily reflect its meaningfulness-and-teleology as of singularisation/epistemic-immanence/veridical-epistemic-determinism as it wrongly implies and operates in its <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as if it is in ontological-normalcy/postconvergence as of ontological-completeness-of-reference-of-thought. For phenomenological analytical insight, ‘partialisation of meaningfulness-and-teleology’ operant technique for construing dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of defective representation of singularisation/epistemic-immanence/veridical-epistemic-determinism brings to a registry-worldview’s/dimension’s reference-of-thought self-consciousness its structural/paradigmatic/systemic dialectical-dementing state at its uninstitutionalised-threshold as so registered/reflected from the prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought self-consciousness rather in dialectical-thinking state given its prospective relative-ontological-completeness-of-

reference-of-thought. ‘Partialisation of meaningfulness-and-teleology’ as such simply involves representing the structural/paradigmatic/systemic incongruence that arises, as the prior registry-worldview/dimension institutionalisation falls short in construing existential-contextualising-contiguity knowledge-reification as of prospective institutionalisation prospective relative-ontological-completeness-of-reference-of-thought in its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ontological-performance correspondence with the full-potency of existence, and so due to denaturing at the uninstitutionalised-threshold of prospective institutionalisation existential-contextualising-contiguity knowledge-reification by <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the prior institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology in usurpation as of the dynamism of temporal mental-dispositions of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’, thus implying that the aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology is dialectically-dementing. It is further critical to understand that while universal-transparency with associated nested-congruence and harmony is brought about as of prior institutional secondnaturing, this should not be naively expected at uninstitutionalised-thresholds as we very much know that all uninstitutionalised-thresholds are conflicted as of their framework of ‘recurring <formative>epistemic-

 <formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal), and so as of
 prospective intemporal secondnature institutionalisation induced universal-transparency,
 deferential-formalisation-transference and habituation in positive-opportunism. Central to any
 such prospective institutionalisation transcendental-enabling/sublimating meaningfulness-
 and-teleology is the fact that the human mind is not necessarily geared to come to terms with
 prospective relative-ontological-completeness-of-reference-of-thought without the necessary
 psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the

developed disposition to register such implications as of their intemporal/longness-of-register-of-meaningfulness-and-teleology pertinence; as the notion of cross-generational ontological-dementation/dialectical-dementation—stranding/attributive-dialectics herein highlighted has ever always been an unconscious human mental process, wherein the mental-disposition hardly places itself in a situation of explaining how its own very present mental-disposition comes about from preceding generations mental-dispositions and drawing the implications, in going beyond excogitative-blanking as of the present in a cloistered-consciousness but which is paradoxically necessarily the framework of such transcendently implying meaningfulness-and-teleology. Thus the metaphoricity exercise of transcendence is not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation but rather instigating universal untenability as of ontological-primemovers-totalitative-framework for prospective universal positive-opportunism; as we can appreciate that in reality the possibility of the successive institutionalisations was not the outcome of every human soul grasping the implications as of the successive transcendence but rather as of a generative dynamics as of critical drift/gravitating effect in reflection of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,-so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism’. Furthermore, the implications of ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification’ as of singularisation/epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-reference-of-thought, with regards to the construal of meaningfulness-and-teleology as teleologically-elevated or teleologically-degraded, is that the conception of ontological-veracity of meaningfulness-and-teleology varies as of

underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought; for instance with regards to the-very-same-<formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, the meaningfulness-and-teleology of a positivistic mindset with the idea of going into a supposed evil forest to collect a plant root as a cure in say an animistic social-setup will probably be construed as ridiculous as of its prior relative-ontological-incompleteness-of-reference-of-thought despite the existential-contextualising-contiguity knowledge-reification ontological-veracity that the possibility of curing ailments in the animistic social-setup lies with the positivistic mindset prospective relative-ontological-completeness-of-reference-of-thought. The fundamental implication here is that transcendental meaningfulness-and-teleology is hardly construed in any presence registry-worldview/dimension reference-of-thought as of its rather prospective relative-ontological-completeness-of-reference-of-thought, and thus elicits the presence prior relative-ontological-incompleteness-of-reference-of-thought

singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontologically-veridical meaningfulness-and-teleology; as reification arises as of the structural/paradigmatic <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality potentiative-aspiration for prospective relative-ontological-completeness-of-reference-of-thought from within a prior relative-ontological-incompleteness-of-reference-of-thought. In other words, reification is about apriorising-teleological resetting of <formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology to the prospective relative-ontological-completeness-of-reference-of-thought. Lacking such an insight about reification will induce an ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity of the prior relative-ontological-incompleteness-of-reference-of-thought which is in dereification and the corresponding ontologically-flawed apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-

<mentally-aestheticised_dementing-qualia-schema> of the prospective relative-ontological-completeness-of-reference-of-thought which is as of reification; wherein dereification involves teleological embrangling/muddling/underdetermining meaningfulness-and-teleology to the prior relative-ontological-incompleteness-of-reference-of-thought. This is because the lack of reification wrongly implies that the <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> reference-of-thought framework of registry-worldviews/dimensions are the absolute determinants of intemporal value reference, such that the <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> reference-of-thought framework of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism and deprocrypticism, are paradoxically-and-falsely equally the absolute determinants of intemporal value reference; whereas reification highlights that all the successive institutionalisations are as of the-very-same-<formative>epistemic-totalising–purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality, but of varying ontological-performance as of their prospective relative-ontological-completeness-of-reference-of-thought, as of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). Behind this possibility of ontologically-flawed dereification of human meaningfulness-and-teleology is the fact that given the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, ‘the ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-

This fact about ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ implies that ‘<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality elucidation/reification of existential-contextualising-contiguity’ is not the sufficient reason for prospective huma registry-worldview’s/dimension’s institutionalisation, but warrants a secondnaturing process as of elicited and secondnatured positive-opportunism as of ontological-primemovers-totalitative-framework articulation of meaningfulness-and-teleology in skewing for universal-transparency and social deferential-formalisation-transference. The implication here is that the social-construct has ever always been a

threshold as of its prior institutionalisation as well as a threshold as of its uninstitutionalised-threshold; wherein respectively there is positive-opportunism for prior institutionalisation and no positive-opportunism for prospective institutionalisation, explaining the developing reality of the various successive human registry-worldview's/dimension's institutionalisations, as of retrospective and prospective implications. This fundamentally points to a 'human psychology of positive-opportunism as of prior-institutionalisation-reification and uninstitutionalised-threshold-dereification', that points out that hitherto the ontological-contiguity—of-the-human-institutionalisation-process has not been about '⟨formative⟩epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness temporal individuations dispositions' transformation into '⟨formative⟩epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality elucidation/reification of existential-contextualising-contiguity', but rather a constraining positive-opportunism secondnaturing to emancipating reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology; and so, despite the fact that '⟨formative⟩epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality elucidation/reification of existential-contextualising-contiguity' is a human individuation quality that avails potentially to all individuals as temporal-to-intemporal-individuations-receptacles but as of existential-constraint of ontological-performance has not hitherto been structurally/paradigmatically defining of ontological-contiguity—of-the-human-

institutionalisation-process even as it has rather been instigative as of an outlier human intemporal-disposition. The basis for this ‘human psychology of positive-opportunism as of prior-institutionalisation-reification and uninstitutionalised-threshold-dereification’, is the fact that humankind is caught up in intemporal-reification and temporal-dereification as of existential-constraint of ontological-performance given its limited-mentation-capacity; wherein the ‘social-construct uninstitutionalised-threshold’ as of ‘no positive-opportunism for prospective institutionalisation’ is a threshold at which there is a structural/paradigmatic lack of constraining institutionalisation to preempt ‘human temporal social-stake-contention-or-confliction dynamics’ assuming of ‘uninstitutionalised-threshold dereification madeupness mental-disposition as of ontologically-flawed relation with prospective institutionalisation existential-contextualising-contiguity knowledge-reification <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’. In other words, as of existential-constraint of ontological-performance given human limited-mentation-capacity:

- at recurrent-utter-uninstitutionalisation, there is ‘no constraining prospective reification institutionalisation for rulemaking-over-non-rules’, thus allowing for ‘non-rules-as-impulsive-or-accidented-or-random-mental-disposition,-that-is-not-rulemaking dereification behaviour’ at its prospective recurrent-utter-uninstitutionalisation uninstitutionalisation;
- at base-institutionalisation-universalisation, there is ‘no constraining prospective reification institutionalisation for universalisation-directed-rulemaking-over-non-rules’, thus allowing for rulemaking-over-non-rules,-that-is-not-universalisation-directed dereification behaviour’ at its prospective ununiversalisation uninstitutionalisation;
- at universalisation-non-positivism/medievalism, there is ‘no constraining prospective reification institutionalisation for positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules’, thus allowing for universalisation-directed-rulemaking-

over-non-rules,-that-is-not-positivising/rational-empiricism-based dereification behaviour’ at its prospective non-positivism/medievalism uninstitutionalisation;

– at our positivism–procrypticism, there is ‘no constraining prospective reification institutionalisation for preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules’, thus allowing for mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules,-that-is-not-preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness dereification behaviour’ at its prospective procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold.

In this regard as a further elucidation, a paradigmatic/structural ‘temporal dereification madeupness mental-disposition as of ontologically-flawed relation with prospective institutionalisation existential-contextualising-contiguity knowledge-reification <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ say on the basis of notions-and-accusations-of-sorcery is easily elicited-as-of-dereification in a non-positivistic social-setup under existential-constraint as there is not reifying positivism/rational-empiricism institutionalisation universal-transparency. Insightfully, the possibility for deprocrypticism/preemption-of-disjointedness-as-of-reference-of-thought registry-worldview/dimension is necessarily one that supersedes reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’: as of the elicitation/cultivation of human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness ‘ontological-faith-

The full implications here is that a deprocrypticism ontologically-uncompromised—referentialism singularisation/epistemic-immanence/veridical-epistemic-determinism construal of meaningfulness-and-teleology is more critically about eliciting the ‘subject intemporal sense of knowledge-and-virtue as of its ontological-dementation/dialectical-dementation—stranding/attributive-dialectics for a fully protracted-consciousness beyond a cloistered-consciousness’ in line with Foucauldian hermeneutics of the subject futural implications. Further, it is important to grasp that ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ is actually associated with all the transcendences of all the successive registry-worldviews/dimensions, but that what is particular with deprocrypticism summoning of ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied by its ontologically-uncompromised—referentialism

singularisation/epistemic-immanence/veridical-epistemic-determinism, is the fact that it achieves the potentiative-aspiration of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as a ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’; and so, as of ‘human ontological-normalcy/postconvergence referentialism ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’’ that supplants the notion of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. It is untenable to construe of the ultimate potential of human emancipation without the eliciting of this more fundamentally authentic basis of human emancipation as of the overcoming of human limited-mentation-capacity temporal dynamics beyond just ‘the elicitation of positive-opportunism to existential constraining’; as implied by ontologically-uncompromised—referentialism singularisation/epistemic-immanence/veridical-epistemic-determinism mirroring ontological-completeness-of-reference-of-thought of inherent existence as ‘ecstatic singularity’, very much unlike reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation—as-of-ontologically-compromised—categorising-or-qualifying-or-tendentious-or-impulsive implied dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of their given prior relative-ontological-incompleteness-of-reference-of-thought that fail to mirror inherent existence as ‘ecstatic singularity’. epistemic-determinism thus enabling the aetiologisation/ontological-escalation behind the ontological-contiguity—of-the-human-institutionalisation-process and specifically for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism. Further besides this elucidated contrast articulated as of prospective relative-ontological-completeness-of-reference-of-thought reification and prior relative-ontological-incompleteness-of-reference-of-thought dereification; the concepts of reification and dereification equally extend within a given registry-worldview/dimension reference-of-thought, especially as associated with postlogism-slantedness and the dynamic conjugated-postlogism temporal denaturing of meaningfulness-and-teleology implications, to critically construe ‘uninstitutionalised-threshold dereification’ as the uninstitutionalised-threshold temporal-and-flawed ontological-performance as of <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the prospective relative-ontological-completeness-of-reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology, undermining the ontological-performance of the prospective relative-ontological-completeness-of-reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. This conception of reification as of institutionalisation in prospective relative-ontological-completeness-of-reference-of-thought reflects ontologically-veridical meaningfulness-and-teleology as of ontological-normalcy/postconvergence singularisation/epistemic-immanence/veridical-epistemic-determinism in relative apriorising-teleological-elevation-in-ontological-contiguity as of deeper limited-mentation-capacity structural/paradigmatic <formative>epistemic-causality-as-to-projective-totalitative—

implications,-for-explicating-ontological-contiguity, while the conception of dereification as of uninstitutionalised-threshold in prior relative-ontological-incompleteness-of-reference-of thought reflects ontologically-flawed meaningfulness-and-teleology dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism in relative apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity- <mentally-aestheticised_dementing-qualia-schema> as of shallow limited-mentation-capacity structural/paradigmatic implication; wherein from a perspective of reification-dereification notionalisation, singularisation/epistemic-immanence/veridical-epistemic-determinism contemplated as of 'existentially-potentiative absolute reification' so-implied as of theoretical existentially-potentiative no-human-limited-mentation-capacity/full-human-mentation-capacity will reflect the attainment of deprocrypticism without passing through the prior institutional-cumulations/institutional-recomposures of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of- apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity', while dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism existentially-implied as of 'relative notional reification-dereification' as of human shallow to deepening limited-mentation-capacity effectively reflects the ontological-contiguity—of-the-human-institutionalisation-process as of prior successive institutional-cumulations/institutional-recomposures towards the attainment of deprocrypticism. Thus reification aetiologisation/ontological-escalation is implied as of human ontological-performance potentiative-aspiration for singularisation/epistemic-immanence/veridical-epistemic-determinism. Ultimately, it is the reification of meaningfulness-and-teleology as of

the prospective relative-ontological-completeness-of-reference-of-thought that reflects intemporal value reference, and not the <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as of the prior relative-ontological-incompleteness-of-reference-of-thought as of temporal-to-intemporal ontological-performance which is rather in <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Reification as such points out intellectual-and-moral inequivalence thus dismissing as ontologically-flawed a cross-examining/mutual-contending of the prospective relative-ontological-completeness-of-reference-of-thought and the prior relative-ontological-incompleteness-of-reference-of-thought; as the latter is in ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification’ and so, successively as of falling-short-as-needing-rules with recurrent-utter-uninstitutionalisation to then contend with base-institutionalisation, falling-short-as-needing-universalising-rules with base-institutionalisation—ununiversalisation to then contend with universalisation, and falling-short-as-needing-positivistic-universal-rules with universalisation—non-positivism/medievalism to then contend with positivism, falling-short-as-needing-preempting—disjointedness-as-of-reference-of-thought with our positivism—procrypticism to then contend with futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. Consider in this regard, the peregrinations of say a Descartes or Rousseau wherein in many ways they will fail to fulfil the mundane medieval world conception of ‘the supposedly good life’ as of its <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as they reify meaningfulness-and-

teleology by their peregrinations to construe of the paradigmatic/structural underdevelopment/unenlightenment of their society as in need of prospective positivistic reflection of the notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> of non-positivism/medievalism as of their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality singularisation/epistemic-immanence/veridical-epistemic-determinism reified insight. The insight here about reification is that all their intemporal value references are rather as subsumed in their ‘positivistic reification of meaningfulness-and-teleology’ as of their prospective relative-ontological-completeness-of-reference-of-thought with the corresponding implications of human ‘prospective positivistic transcendence-and-sublimity ontological-performance’ as aetiologisation/ontological-escalation, and so over non-positivism/medievalism vices-and-impediments. By that token they are effectively of the most intellectually-and-morally inclined persons of their society. Contrastively, the temporal value reference as of non-positivism/medievalism <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-dispositions of persons like ‘honourable aristocrats’ simply reified to the universalisation–non-positivism/medievalism registry-worldview/dimension with its prior relative-ontological-incompleteness-of-reference-of-thought vices-and-impediments, while favourably looked upon as of non-positivism/medievalism society <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag from a prospective singularisation/epistemic-immanence/veridical-epistemic-determinism insight points to such a prior registry-worldview/dimension denaturing meaningfulness-and-teleology, and implying effectively that they are of lesser intellectual-and-moral dialogical-

equivalence. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness-of-reference-of-thought, as so implied from singularisation/epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness-of-reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism-procrypticism as from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preemption-of-disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness perspective. The fact is no registry-worldview/dimension as of its temporal/shortness-of-register-of-meaningfulness-and-teleology <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> instigated prospective transcendence, is construed as ‘putting-into-question its existentially invested conception of meaningfulness-and-teleology’, which is rather a contradiction of sorts given human-subpotency-aporia/undecidability/dilemma/ought-

indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. Rather besides cultural-diffusion pressures, all human transcendence as of internal processes are rather as of outlier intemporal/longness-of-register-of-meaningfulness-and-teleology individuations dynamic metaphoricity instigation in prospective relative-ontological-completeness-of-reference-of-thought reifying gestures as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, which by this token is rather concerned with the beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought denaturing of the prior institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology at its uninstitutionalised-threshold in ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification’. However, this ‘ontologically-veridical reification of value reference as of prospective relative-ontological-completeness’ and the ‘ontologically-flawed dereification of value reference as of prior relative-ontological-incompleteness’ is associated with a fundamental paradox/confusion with regards to sound human intellection at uninstitutionalised-thresholds/uninstitutionalised-thresholds. As this reification/dereification of meaningfulness-and-teleology paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of universal-transparency. With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised

herein by this author is a reflection of the reality that knowledge as organic-knowledge is
 existentially all-committal by the mere fact of human-subpotency—
 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, with the possibility
 of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and
 blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-
 framework reflection of existential-contextualising-contiguity. This brings up the implication
 of what is truly transcendental knowledge by its nature as of knowledge notionalisation and
 organic-knowledge. Transcendental knowledge is actually institutionalising and re-
 institutionalising, implying it supersedes institutional practices and constructs as to the
 possibility for prospective institutionalisation, and so as of its <formative>epistemic-
 growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness
 inducing institutional secondnaturing. It is rather not out of the question that knowledge so-
 construed as of prospective transcendence implications put-into-question as ‘charlatanic’
 institutions and their practices construed as of prior relative-ontological-incompleteness-of-
 reference-of-thought specifically as extra-intellectual and pedantic orientations that
 undermine the advancement of their supposed prospective intellectual and emancipatory
 vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated
 as of its very own
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
 disposition/care—and—episteme conception of knowledge’ that superseded and didn’t
 recognise-and-submit to scholastic pedantry for its validation, as it construed that the latter
 wasn’t meant/structured/paradigmed to uphold and perpetuate positivism implied
 transcendental knowledge as of prospective relative-ontological-completeness-of-reference-
 of-thought; and in due course, by its ontological-primemovers-totalitative-framework

constraining it cross-generationally overrode scholastic pedantry. It is herein contended that it isn't out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full unenframed potential for prospective intellectual emancipation, and so rather as of structural institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of 'understanding' of prior relative-ontological-incompleteness-of-reference-of-thought with the latter's

<formative>epistemic-totalising-self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied 'understanding' as of transcendental knowledge. From the prior relative-ontological-incompleteness-of-reference-of-thought naïve non-transcendental

<formative>epistemic-totalising-self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a transcendently projecting intemporal mental-disposition is rather uncanny about the 'existential-extrication-as-of-existential-unthought malignity reality of existence' construed as pragmatic living, but this rather confirms the 'dereifying irresponsibility' of such temporal thought/reasoning mental-dispositions 'caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology'. The intemporal 'reifying choice-and-adherence' to the 'reified assumed-responsibility' of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a 'reasoning with' relation

with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-thresholds transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of existential-contextualising-contiguity is to be expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance manifestation of psychopathy and social psychopathy which is ‘structurally/paradigmatically associated with the denaturing of the <formative>epistemic-totalising-devolved

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument', and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology; with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism-slantedness, and its social cognisance and integration as conjugated-postlogism so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal mental-disposition, and so-implied as of 'disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-dissemination-and-dereification-dissemination-implications' construed as the 'variance/discrepancy of meaningfulness-and-teleology' as-of-prospective-relative-ontological-completeness-dialectical-thinking and as-of-prior-relative-ontological-incompleteness-dialectically-dementing respectively; it is only ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism from the projected 'notional—singularisation/epistemic-immanence/veridical-epistemic-determinism' of the intemporal mental-disposition as-of-prospective-relative-ontological-completeness-dialectical-thinking recognising this 'dialectically-dementing and dialectical-thinking variance/discrepancy of meaningfulness-

and-teleology' that induces an ontologically-veridical disambiguation of dereified and reified construals of existential-contextualising-contiguity as implied by the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of reifying intemporal/valid/dialectical-thinking

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in prospective relative-ontological-completeness apriorising-teleological-elevation-in-ontological-contiguity and as of dereifying temporal-as-psychopathic-and-social-psychopathic/invalid/dialectically-dementing apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments in prior relative-ontological-incompleteness-apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>

(psychopathic and social psychopathic), and so before aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology can even be then articulated as ontologically-veridical exclusively as of the intemporal/valid/dialectical-thinking

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument perspective or attitude/mental-disposition/care-and-episteme. Such a difference-conflatedness-as-of-epistemic-totality is equally what reflects in the bigger scheme of things, at the reference-of-thought-level, the reality of humankind as of the successive registry-worldviews/dimensions humans psychological dispositions as per their corresponding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments. In this regard, the ontological-contiguity—of-the-human-institutionalisation-process can be construed as human limited-mentation-capacity

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reification as 'apriorising-teleological resetting of <formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology as of futural Being-

development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism-as-ontological-completeness-of-reference-of-thought’, construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism protracted-teleological-wholeness/nested-congruence-in-reflecting-the-ontological-contiguity—of-the-human-institutionalisation-process,—so-construed-as-singularisation/epistemic-immanence/veridical-epistemic-determinism’; with the various prior registry-worldviews/dimensions institutional-cumulations/institutional-recomposures rather successively as lesser and lesser dereification-levels towards the deprocrypticism reification. Consider in that with regards to ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’, its reification as ‘apriorising-teleological resetting of <formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology to the prospective relative-ontological-completeness-of-physics-axiomatic-construct’ implies that structurally/paradigmatically ‘traditional classical mechanics axiomatic-construct’ is dereified as of its prior relative-ontological-incompleteness to theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs which is rather reified as of its prospective relative-ontological-completeness; such that interestingly to construe, as of ontological-veridicality, the reality of ‘traditional classical mechanics axiomatic-construct’ requires rather assuming/departing-from an understanding of existential-contextualising-contiguity knowledge-reification as implied by the reifying theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in articulating ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism from this projected ‘notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’ as of theory-of-relativity-together-with-quantum-mechanics—axiomatic-

constructs perspective or attitude/mental-disposition/care-and-episteme over ‘traditional classical mechanics axiomatic-construct’, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-dissemination-and-dereification-dissemination-implications’ construed as the ‘variance/discrepancy of meaningfulness-and-teleology’ as of prospective relative-ontological-completeness and as of prior relative-ontological-incompleteness. Note that on the imaginary supposition that no such prospectively projected ‘notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’ existed as ‘providing the ontological-veridicality insight-of-completeness for reifying meaningfulness-and-teleology’, mental-dispositions in prior relative-ontological-incompleteness will falsely go on reasoning with ‘traditional classical mechanics axiomatic-construct’ by identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as providing ontological-veridicality as of this now dereifying construal of existential-contextualising-contiguity of ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. But then again, the reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of prospective relative-ontological-completeness will point out that such ‘traditional classical mechanics axiomatic-construct’ identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism is in reality dialectically-dementing as of its threshold-of-ontological-incompleteness. This insight equally applies at the reference-of-thought-level, for instance, with regards to the fact that our positivism–procrpticism registry-worldview/dimension doesn’t recognise-nor-register any such notion as procrpticism/disjointedness-as-of-reference-of-thought that speaks of our prospective dialectical-dementing at our prospective positivism–procrpticism uninstitutionalised-threshold, and so as reflected from futural Being-development/ontological-framework-

expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
 and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-
 of-thought registry-worldview/dimension prospective relative-ontological-completeness.
 Interestingly, it should be noted here that with such phenomenon as psychopathy and social
 psychopathy that is ‘structurally/paradigmatically associated with the denaturing of the
 <formative>epistemic-totalising-devolved

 universalisation—non-positivism/medievalism uninstitutionalised-threshold), ontological-
 veridicality is rather assumed/departs from an understanding of existential-contextualising-
 contiguity knowledge-reification as implied with futural Being-development/ontological-
 framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-
 meaningfulness-and-teleology as of prospective deprocrypticism/preempting—
 disjointedness-as-of-reference-of-thought registry-worldview/dimension and not our

 projected ‘notional—singularisation/epistemic-immanence/veridical-epistemic-determinism’

 as of their disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-

reflex mental state and attitude/mental-disposition/care-and-episteme in a universalisation–
 non-positivism/medievalism social-setup will be resistant to an elucidation of notions-and-
 accusations-of-sorcery adopting the perspective or attitude/mental-disposition/care-and-

 more fundamental in undermining the elucidation of the manifestation of psychopathy and
 social psychopathy is the fact of an ordinariness <formative>wooden-language—imbued-

 disjointedness-as-of-reference-of-thought to arrive at ontological-veridicality that rather
 implies the dialectical-dementation of our positivism–procrypticism at its uninstitutionalised-

This insight is in effect the futural rejoinder to the Foucauldian hermeneutics of the subject with respect to human prospective reference-of-thought transcendence-and-sublimity capacity; in the sense that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity’ has always called upon a certain apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument development of the human subject itself as enabling-and-making-available the capacity for that human subject to tackle the prospective issues of its world. In this regard, the question could be asked: what is the capacity of the universalisation–non-positivism/medievalism mindset to tackle prospective issues warranting a positivism self-consciousness psychology, and by extension what is the capacity of our positivism–procrypticism/disjointedness-as-of-reference-of-thought mindset to tackle prospective issues warranting a deprocrypticism/preempting—disjointedness-as-of-reference-of-thought self-consciousness psychology? The ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care—and—episteme’ involves prospective reference-of-thought dispensing-with-immediacy-for-relative-ontological-completeness-by-

Hence the ‘postmodern exteriorisation attitude/mental-disposition/care—and—episteme’ superseding of

the ‘modern take interiorisation attitude/mental-disposition/care-and-episteme’ is what renders possible postmodern transcendence-and-sublimity as of its very own ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme’ spur of prospective Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology metaphoricity. criticism of postmodern-thought with regards to virtue, as of postmodern implied human-
subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
singularisation. Structurally/paradigmatically a registry-worldview’s/dimension’s reference-
of-thought points fundamentally to its ‘underlying reference-of-thought-categorical-
imperatives/axioms/registry-teleology,-for-
aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology’
with regards to the latter’s ‘temporality-as-shortness-of-register-of-meaningfulness-and-

teleology to intemporality-as-longness-of-register-of-meaningfulness-and-teleology ontological-performances’ as of notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking–qualia-schema>. Such that it is fundamentally the prior relative-ontological-incompleteness-of-reference-of-thought that becomes the ‘lack-of-virtue or vice issue’, beyond just any associated incidental existential problems, as requiring aetiologisation/ontological-escalation as of the need for prospective relative-ontological-completeness-of-reference-of-thought to address the myriad <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag existential possibilities of the registry-worldview’s/dimension’s vices-and-impediments as fundamentally bound to its prior relative-ontological-incompleteness-of-reference-of-thought ‘underlying reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’; and so beyond just <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolutions. Consider in this regard the temporal ontological-performance as of say a postlogism-slantedness or any other temporal or derived-temporal mental-disposition associated with vicious accusations-of-sorcery for instance in a non-positivistic as animistic or medieval social-setup. The fact that even an intemporally-inclined mental-disposition in that social-setup has an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification that is ‘mutually cognisant-and-integrative beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought’ with notions-and-accusations-of-witchcraft itself as of their ‘underlying reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’

presents an epistememic-totalising-self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag issue that endemises notions-and-
 accusations-of-witchcraft in the vices-and-impediments of that given social-setup. It is the
 prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-
 thinking-qualia-schema> as of prospective positivism
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as setting up
 the positivism ‘underlying reference-of-thought-categorical-imperatives/axioms/registry-
 teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-
 and-teleology’, that fundamentally undermines such endemisation; and hence it is not by
 accident that our present positivism registry-worldview/dimension is devoid of such issues
 since it paradigmatically/structurally undermines temporal-to-intemporal cognisance and
 integrativeness of notions-and-accusations-of-sorcery as of the positivism ‘underlying
 reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology’,
 construed as ‘transcendental human-subject-emancipatory-relativism-driven-recomposuring-

 ‘postmodern suprastructuralism’ reflects deprocrypticism as of its preemption-of-
 disjointedness-as-of-reference-of-thought over our positivism-procrypticism disjointedness-
 as-of-reference-of-thought. This insight about the need for prospective notional-
 contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema>
 underlies a postmodern understanding, as it is herein contended, that it is by the exercise of
 prospective relative-ontological-completeness-of-reference-of-thought as of human limited-
 mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-
 sublimating-withdrawal) as of the need for futural Being-development/ontological-
 framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-

meaningfulness-and-teleology as of prospective deprocripticism/preempting—
 disjointedness-as-of-reference-of-thought and so over our positivism–procripticism
 temporal-to-intemporal mental-dispositions ‘mutual cognisance and integrativeness of
 procripticism/disjointedness-as-of-reference-of-thought beyond-the-consciousness-
 awareness-teleology-in-existential-extrication-as-of-existential-unthought’, that we provide
 the ontologically-veridical aetiologisation or ontological-esclation resolving the vices-and-
 impediments of our ‘so-prospectively deprocripticism-construed’
 procripticism/disjointedness-as-of-reference-of-thought as of its underlying
 <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag, and so beyond just our ad-hoc palliative
 construals of virtue. Basically when post-structuralists speak of ‘the other’ this translates into
 aetiologisation/ontological-escalation as of ‘universal projection implications attitude/mental-
 disposition/care–and–episteme event-or-operant implications to all and sundry’ as implied in
 the above analysis, as postmodern-thought portends to be non-ideology-driven, non-
 speculative, non-imaginary, theoretical, conceptual and operant. This insight is also very
 much conscious of the ontologically-flawed misconstrual of ‘the other’ that pervades huma
 <formative>wooden-language—imbued-averaging-of-thought-<as-to-
 leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

 dispositions as of ‘mutual temporal/shortness-of-register-of-meaningfulness-and-teleology
 eliciting’ construed as ‘intemporal temporality’. Such tendencies are hardly of
 aetiologisation/ontological-escalation as their emphasis lies in existential-extrication-as-of-
 existential-unthought, rather than nonextricatory-existential-preempting-of-existential-
 unthought in enabling Being-development/ontological-framework-expansion–as-to-depth-of-
 ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of ‘universal

projection implications attitude/mental-disposition/care-and-episteme event-or-operant
 implications to all and sundry'; such that fundamentally, such <formative>wooden-
 language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-
 meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-
 prospective-apriorising-implications> tendencies do not address structurally/paradigmatically
 defining issues of a registry-worldview/dimension as of its vices-and-impediments like the
 comprehensive implications of disjointedness-as-of-reference-of-thought/procrypticism with
 regards to our positivism-procrypticism or say the comprehensive implications of non-
 positivism in a medieval or animistic social-setup. Prospective notional-contiguity/epistemic-
 contiguity-<mentally-aestheticised_dialectical-thinking-qualia-schema> thus effectively
 implies deneuterising 'exteriorisation attitude/mental-disposition/care-and-episteme' of
 meaningfulness-and-teleology superseding/overriding the prior reference-of-thought
 temporally neuterising 'interiorisation attitude/mental-disposition/care-and-episteme' of
 meaningfulness-and-teleology. This fundamentally speaks of a paradigmatic/structural
 conception of virtue-as-ontology transcendence as of prospective relative-ontological-
 completeness-of-reference-of-thought. This very much differs from <formative>epistemic-
 totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ontological-
 contiguity palliative virtue constructs as of variance of the very same reference-of-thought-
 categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology,
 and thus implies temporally neuterising 'interiorisation attitude/mental-disposition/care-and-
 episteme' of meaningfulness-and-teleology. This wrongly implies the inherent
 exceptionalism of the conception of virtue for humans in any such registry-
 worldview/dimension outside/beyond the ontologically-veridical implications of virtue-as-
 ontology associated with Being-development/ontological-framework-expansion-as-to-depth-

of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. Such an ontological-contiguity <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag virtue conception is caught up within such a registry-worldview/dimension internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology enframing frameworks and temporal mandarinism/pedantry frameworks as of the given reference-of-thought, with these elements in need for prospective transcendence as of prospective relative-ontological-completeness-of-reference-of-thought but paradoxically now defining the conception of virtue. The fact is our pretences and arguments of practice, as not critically pinned down to their ontological-veracity as of prospective relative-ontological-completeness, can similarly be meted with pretences and arguments of practice as of each and every registry-worldview’s/dimension’s reference-of-thought practices, and thus conceptualising virtue by <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag while circumventing as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought the vices-and-impediments of each registry-worldview/dimension in want of its ‘pure ontology’ virtue resolution as of aetiologisation/ontological-escalation. In this regard such palliative virtue constructs overlooking fundamental underlying paradigmatic/structural ontological implications about our ‘modern take attitude/mental-disposition/care–and–episteme’ reflected by the ‘postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care–and–episteme’ with regards to social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology enframing frameworks and temporal mandarinism/pedantry frameworks, are no different to say ‘non-

positivism/medievalism

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme’ overlooking its own social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology enframing frameworks and temporal mandarinism/pedantry frameworks as reflected from ‘positivism/rational-empiricism attitude/mental-disposition/care-and-episteme’. However, approbating we may be predisposed to such palliative virtue constructs as of lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-

reification/contemplative-distension, the fact is these are not really the underlying drivers for virtue transcendence and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events driving virtue transcendence as of prospective relative-ontological-completeness-of-reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can’t ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, reflecting the fact that pure-ontology that as of its secondnaturing induces the requisite level

of human virtue performance at each given registry-worldview/dimension, retrospectively to prospectively. It is rather by acting upon the inherent ontological-contiguity—of-the-human-institutionalisation-process as of its ontological reflection in Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that virtue transcendence comes about, whether or not beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought. In this regard, any registry-worldview/dimension reference-of-thought is a <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as of the <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, such that prospective relative-ontological-completeness-of-reference-of-thought as required for virtue transcendence necessarily implies disrupting and superseding any such <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> vices-and-impediments, as of the prospective/new superseding reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised-threshold. Thus the ‘field of conception’/notional-conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as its implications as of Being-

development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology need to be drawn beyond a cloistered-consciousness as of retrospective and prospective transcendental illuminating implications. In this regard, a postmodern/suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendental ontological sublimating-over-desublimating implications of existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness: will question such reasoning-from-results/afterthought basis of palliative virtue constructs especially as of their <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and lack of dispensing-with-immediacy-for-relative-ontological-completeness-of-reference-of-thought-by-reification/contemplative-distension implications; ask whether by definition a registry-worldview/dimension reference-of-thought is structured/paradigmed to sponsor/promote/endorse its very own prospective transcendence as of the need for the subversion of its reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology that endemise-and-enculturate its vices-and-impediments by prospective reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology for prospective transcendence-and-sublimity, more like could the Copernicuses, Galileos, Descartes, Diderots, etc. call upon the very same non-positivism/medievalism in need for prospective positivism transcendence to underwrite the subversion of its entrenched non-positivism/medievalism internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology enframing frameworks and temporal mandarinism/pedantry frameworks; and, hence the ontologically-veridical paradox of the

very structuring/paradigming implications of human limited-mentation-capacity-deepening-
 {formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal} renders any
 registry-worldview/dimension reference-of-thought ever deficient as of its need for
 psychoanalytic-unshackling/prospective-grounding/prospective-reification of
 meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms
 of postmodern-thought come down to our ‘modern positivism/rational-empiricism
 ontologically-flawed as of prior relative-ontological-incompleteness
 perspective/framing/reference/horizon’ constitutedness construal of
 categorising/taxonomising schemes that pervades the ‘modern categorising mental-
 disposition’ as of our occlusive-consciousness neutering, as we fail to grasp the implication
 of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
 that is naively superseding the true
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of
 existential reality as the absolute a priori; such that the meaningfulness-and-teleology that
 arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is
 conflatedness that ensures that our
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the
 true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of
 existential reality as the absolute a priori, and so as of an ontological-
 normalcy/postconvergence posture which rather ‘turns the idea of analysing and
 conceptualising on its head’ into one of ‘grasping human limited-mentation-capacity-

 implications as of the underlying psychoanalytic-unshackling’ for human-subpotency
 construal of the full-potency that is existence. This insight about the complete relationship
 between developing human-subpotency and its potential to fully grasp the full-potency of

existence, fundamentally underlies the protensive-consciousness referentialism of the notional-conflatedness of notional-deprocrypticism. However, it is equally critical to grasp the double-gesture reification implied in such a postmodern-as-suprastructural conception of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation. Such a postmodern/suprastructuralism double-gesture reification holds that knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate attitude/mental-disposition/care-and-episteme with respect to human social-stake-contention-or-confliction; with the adherence to the reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology of such organic-knowledge construed as of intemporality-as-conviction, whereas mechanical-knowledge is rather predispose to adhere as of temporal-as-token-or-madeupness to the such mere reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology. The latter points to an inappropriate attitude/mental-disposition/care-and-episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care-and-episteme and organic-knowledge attitude/mental-disposition/care-and-episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care-and-episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral

supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms-as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care-and-episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely

construing relative implied levels of virtue development and making relative conclusions' but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity's potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil its virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of 'grounding meaningfulness-and-teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing, and likely to induce transversality-of-disambiguated-apriorising/axiomatising/referencing dehumanising of some cultures and societies by others'; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency. Ultimately, such a double-gesturing hold out the possibility in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care—and—episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care—and—episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here

as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care-and-episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care-and-episteme event-or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy. Further, as of organic-knowledge and knowledge notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along

‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ shows that there has always been beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought ‘institutional investment’ that is not always just of erudite ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology due to ‘lack of social universal-transparency’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness-of-reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and this insight is valid across all registry-

worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of-meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of its cross-generational transcendental implications and as reflected from the insight in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-primemovers-totalitative-framework, and so divulged by existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness; as prior human presencing—absolutising-identitive-constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs constitutedness, but rather it is by conflatedness with

regards to ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity to grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of-meaningfulness-and-teleology individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework tendential validation as of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’. Such a construal of human transcendence-and-sublimity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) analysis; and insightfully, as reflected in the underlying conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising as of deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-

mentation-capacity implications, and so as of protensive-consciousness of notional-deprocrypticism perspective/framing/reference/horizon. Similarly, this author's articulation of futural-différance as of transcendence-and-sublimity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that 'decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act' but that decidability in enabling transcendence-and-sublimity is as of an 'overall différance tendential-deliberation-of-decidability' as of human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as 'a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity'; and différance as of such 'existential-reality concreteness dynamics' is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter's conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) or say the vague social convention idea of talent, it is more

critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a conviction deference to the prescience of existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the paradigm of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the ‘subsumptive inventing’ of the prospective ontological possibilities of prospective relative-ontological-completeness-of-reference-of-thought over human normativity/conventioning as of the latter’s prior relative-ontological-incompleteness-of-reference-of-thought, and so by maximalising-recomposuring <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential paradigm of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, and positivism–procrysticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality-as-of-neuterisation/relative-ontological-incompleteness/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-

ontological-completeness-of-axiomatic-construct-or-reference-of-thought can't sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Wells's country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of 'social universal-transparency'. But then it is actually a sign of 'propounded theoretical health and pertinence' when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true 'intellectual blankness' grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of 'solo media exploits of intellectual popularity'. Thus by its prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as futural *différance*, accreting-substitutive-subsumption-as-futural-*différance*-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness and non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> on the basis of the prospective relative-ontological-completeness/ontological-contiguity of the latter over the prior relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> of the former as of the-very-same-<formative>epistemic-totalising-purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality. Thus what is being correctly implied is not 'difference-in-

kind/difference-in-aposteriorising-or-logicising but rather difference-in-nature/difference-in-apriorising-or-axiomatising between presencing—absolutising-identitive-constitutedness and non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge construction humankind has a limited-mentation-capacity that needs to be developed as a ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-ontological-completeness/notional-contiguity’ construed as its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded on such a developed consciousness perspective/framing/reference/horizon. This explains why it is impossible for a ‘recurrent-utter-uninstitutionalised mindset perspective/framing/reference/horizon as of trepidatious-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-institutionalisation meaningfulness-and-teleology without first developing a ‘base-institutionalisation mindset perspective/framing/reference/horizon as of warped-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘base-institutionalisation–ununiversalisation mindset perspective/framing/reference/horizon’ to grasp universalisation meaningfulness-and-teleology without first developing a ‘universalisation mindset perspective/framing/reference/horizon as of preclusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a ‘universalisation–non-positivism/medievalism mindset

perspective/framing/reference/horizon’ to grasp positivistic meaningfulness-and-teleology without first developing a ‘positivistic mindset perspective/framing/reference/horizon as of occlusive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and prospectively for a ‘positivism–procrypticism mindset perspective/framing/reference/horizon’ to grasp deprocrypticism meaningfulness-and-meaningfulness without first developing a ‘deprocrypticism mindset perspective/framing/reference/horizon as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn’t just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the ‘formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness-of-reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing ‘social universal-transparency’ such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and

conceptual possibility for such futural *différance* consciousness development is the notion of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising/ontological-discontinuity, underscore at once ‘both as affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking of the consciousness in ontological-contiguity/relative-ontological-completeness-of-reference-of-thought and as unaffirmation/deprojection/de-assertion/undueeness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing of the consciousness of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>/relative-ontological-incompleteness-of-reference-of-thought as of maximalising-recomposuring-for-relative-ontological-completeness, and not incrementalism-in-relative-ontological-incompleteness, as of the-very-same-<formative>epistemic-totalising—purview-of-construal-as-immanent-existence/intrinsic-reality/ontological-veridicality’. As futural *différance* is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay *différance*’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal); overriding the idea that the perspective/framing/reference/horizon of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising as of prospective relative-

ontological-completeness-of-reference-of-thought bringing about transcendence-and-sublimity as of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-différance-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay différance’, the full possibility of human sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather a difference-in-nature/difference-in-apriorising-or-axiomatising; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising of the new physics as the new presencing; brought about from the transcendence of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>. In other words, human

consciousness tends to be constraint to its <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> is beyond and not constraint by human consciousness as of its <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity as of ontological-primemovers-totalitative-framework validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence of any given

<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag

from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> enabling human transcendence-and-sublimity. Therefore, metaphoricity as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying <formative>epistemic-

totalising/circumscribing/delineating signifying-construct of language’ as of both the meaningfulness-and-teleology implications to the so-renewed ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’ going by the latter’s existential implications on ‘human underlying self-referencing meaningfulness-and-teleology asan epistememic-totalising/circular construal’. This ‘epistemic-totalisation/circularity epistemic-breaking’ of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness> by human re-projection/re-anticipation ultimately validated by existence/ontology’s-directedness-as-Being ontological-primemovers-totalitative-framework. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology at uninstitutionalised-thresholds as recurrently pointed out herein as of token-as-madeupness/non-conviction or derived-token-as-madeupness/derived-non-conviction or conviction possibilities relation to reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-

identitive-constitutedness and non-presencing-<as-to-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness>, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as presencing—absolutising-identitive-constitutedness. Consider in this regard Galileo’s implying positivistic episteme metaphoricity over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the ‘drawback implications’ of our positivism–procrypticism episteme as of its constitutedness with respect to futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism meaningfulness-and-teleology in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived

would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the non-presencing-or-withdrawal-or-metaphysics-of-absence-or-transcendental-reasoning-of-event-as-prospective-ontology-origination perspective/framing/reference/horizon of positivism meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-teleology herein implied as of its essence cannot do without this hermeneutic circle phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/throwness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their 'special focus orientations' profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality-of-disambiguated-apriorising/axiomatising/referencing

complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what they find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus orientations’ of the specific textuality-driven intellectuals, is primarily about ‘consistently taking a best shot’ at reality and is not inherently driven at its core by ideology but rather authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is ‘driven by such transversality-of-disambiguated-apriorising/axiomatising/referencing cumulative authenticities that augment the possibilities of human limited-mentation-capacity’ thus going a long way to open up new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating implications, and by not appreciating due to ‘flatmindedness’/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying ‘poor critical judgment’. With such ‘flatmindedness’/banality/flimsiness further protracting into a poor grasp of postmodern theorists ‘special focus orientations’ with the tendency to engage postmodern-thought as of an un insightful literal and shallowminded/banal/flimsy reading; and with the ultimate outcome that all such naïve un insightful literal and shallowminded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an

apparently implied flawed logic that the discretion allowed for criticism doesn't engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such 'flatmindedness'/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social existence analysis as of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>, such that as of the history of such critiques it will be naïve not to factor in the reality of ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance peddled about postmodernism strangely enough speaks of the 'ignoble arrogance' of such ontological-bad-faith/inauthenticity critiques, as structurally/paradigmatically that which attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-ontological-completeness-of-reference-of-thought-dialectical-thinking and not that which is ignorant-as-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-dialectical-dementing. Such that there is no dialogical-equivalence that then arises by the fact that the former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-teleology while the latter is an existential-extrication/temporal/non-ontological relationship with meaningfulness-and-teleology, in the sense that it is the former intemporal-as-ontological individuation mental-disposition that is responsible for bringing about human Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-

contiguity—of-the-human-institutionalisation-process retrospectively and prospectively while the latter as of its false ‘untransvaluated–temporal-intemporality’ is rather existentially extricatory and oblivious to Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. As ultimately, it is the prospective relative-ontological-completeness-of-reference-of-thought pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-

enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy as of the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity. The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> ‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence—as-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional knowledge
