or-contendingly-out-of-phase to articulate an aetiologisation/ontological-escalation, and so whether such mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical narratives are slanting (subknowledging-impulse), miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising and their corresponding temporal enculturation/temporal-endemisation. Explained in another way, the actual depth-of-storying involves:

- psychopathic insane-fitment formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/impulsively-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic perversion-of-reference-of-thought wrongly implied as in prelogism-as-of-conviction/thinking (the impulsive-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation);

- and this being effectively wrongly elevated as prelogical/conviction/thinking by temporal-dispositions by their hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex to these formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/impulsively-dementing in hollow-constituting—as-disjointed-misappropriation-

of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic whether unconsciously by ignorance, and consciously by affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation (the temporal-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation);

- then the reference-of-thought as the intemporal-disposition organic-comprehension-thinking in ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) of the two above as non-ontological-reference/non-contending-reference-but-rather-dementing as being in veridicality psychopathic-and-social-psychopathic phenomenon of perversion-of-reference-of-thought (the organic-comprehension-thinking);

- and so, as an ontological-escalation/aetiologisation (the organic-comprehension-thinking analytical resolution) that is essentially and prospectively deprocrpticism; ideally such a resolution articulation technique comes down to an enigmatic ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflatedness as dialectical transformation storying reflecting-or-perspectivating a procrpticism (dementing-of-positivistic-meaningfulness) registry-worldview/dimension as notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> (at positivism—procrpticism uninstitutionalised-threshold) with respect to deprocrpticism abject ontological-contiguity/ontological-veridicality (postconvergence), and so as the bigger grounding for the resolution of the epiphenomenon/incidental-phenomenon of psychopathy and social psychopathy.

By the way this operant conceptualisation is relevant with phenomena of perversion-of-reference-of-thought in all registry-worldviews/dimensions. Wherein for instance in a non-positivism/medievalism registry-worldview/dimension:

- the subknowledging-impulse/impulsive-dementation/postlogism-slantedness in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation together with its postlogical social corollary associated with instigating accusations of sorcery/witchcraft for instance involve formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/impulsively-dementing postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ (the impulsive mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation)
- and temporal-dispositions in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation by their hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives-as-of-cohering-logic-reflex to the formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ thus inducing the wrongful elevation of the formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-

- with the two above being retrospectively construed from the veridical reference-of-thought
 of a vantage positivistic registry-worldview/dimension as being non-positivism/medievalism
 mindset/reference-of-thought and non-ontological-reference/non-contending-reference-but-
 rather-dementing and construed ontologically by their reflecting/perspectivating/highlighting
 (reasoning-through-and-not-reasoning-with) as the non-positivism/medievalism sorcery
 phenomenon of perversion-of-reference-of-thought (the organic-comprehension-thinking)

- and so, as an ontological-escalation/aetiologisation (the organic-comprehension-thinking
 analytical resolution) that is essentially and prospectively positivistic, just as the ontological-
 escalation/aetiologisation of psychopathy and social psychopathy is essentially
 deprocrypticism. Likewise, one can imagine the same type of enigmatic ontological-
 normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-
 conflatedness as dialectical transformation storying reflecting-or-perspectivating a non-
 positivism/medievalism registry-worldview/dimension as notional-discontiguity/epistemic-
 discontiguity-<mentally-aestheticised_dementing—qualia-schema> (at its uninstitutionalised-

threshold) with respect to positivism as (postconvergence) ontological-veridicality/ontological-contiguity, as the bigger grounding for the epiphenomenon/incidental-phenomenon of say a medieval phenomenon of perversion-of-reference-of-thought like sorcery. As fundamentally, intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm resolution as against an extricatory/temporal/non-ontological paradigm resolution fundamentally implies putting into question a registry-worldview's/dimension's reference-of-thought (to be transcended by a prospective transcending/superseding registry-worldview/dimension) that is structured to enable the endemisation and enculturation of a phenomenon of perversion-of-reference-of-thought like sorcery in the non-positivism/medievalism world; implying that an 'intemporal-disposition mindset' of positivistic disposition finding themselves in a non-positivism/medievalism social-setup will not see the proffered accusation of sorcery against them or any other individual as simply requiring defending themselves or the accused of sorcery or 'playing out' in the social-and-temporal-trading of that social-setup to extricate themselves or the accused but rather project that the registry-worldview/dimension in endemising and enculturating the possibility of accusations and notions of sorcery is structurally dialectically-primitive/dialectically-out-of-phase (thus in need of prospective transcendence), and the undermining of that registry-worldview/dimension is the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm resolution of the epiphenomenon of sorcery across metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation.

It should be noted that an intemporal or ontological or longness-of-register-of-meaningfulness-and-teleology resolution to perversion-of-reference-of-thought in any

or mental-devising-representation of a registry-worldview/dimension reference-of-thought–categorical-imperatives/axioms/registry-teleology, i.e. not limited to its temporal conventioning compromise. In that sense, the knowledge notionalisation is about ‘a deterministic and operant construct preserving intemporality/longness as ontology’. This translates as:

- the grander problem of a subknowledging-impulse/impulsive-dementation with the instigation of recurrent-utter-uninstitutionalisation and its temporal social recurrency is failing/not-upholding-as-of-apriorising/axiomatising/referencing (postconvergence and suprastructural) intemporal preservation as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm in all recurrent-utter-institutionalised human locales beyond just an extricatorial paradigm of any human locale, requiring the ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of recurrent-utter-uninstitutionalisation by a stranding-dialectics of prior/transcended/superseded recurrent-utter-uninstitutionalisation as ‘demented’, and prospective/transcending/superseding base-institutionalisation as ‘dialectical-thinking’/soundness-or-authenticity-of-reference-of-thought and the deterministic and operant institutionalisation/intemporalisation resolution construct (and so, in an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation of existentialism/full-depth-of-existential-implications from the transcended to the transcending);

- the grander problem of a subknowledging-impulse/impulsive-dementation with the instigation of ununiversalisation and its temporal social recurrency is failing/not-upholding-as-of-apriorising/axiomatising/referencing (postconvergence and suprastructural) intemporal

preservation as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm in all ununiversalised human locales beyond just an extricatory paradigm of any one human locale, requiring the ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of ununiversalisation by a stranding-dialectics of prior/transcended/superseded ununiversalisation as ‘demented’, and prospective/transcending/superseding universalisation as ‘dialectical-thinking’/soundness-or-authenticity-of-reference-of-thought and the deterministic and operant institutionalisation/intemporalisation resolution construct (and so, in an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation of existentialism/full-depth-of-existential-implications from the transcended to the transcending);

- the grander problem of a subknowledging-impulse/impulsive-dementation with the instigation of non-positivism/medievalism with such phenomenon as witchcraft and its temporal social recurrency is failing/not-upholding-as-of-apriorising/axiomatising/referencing (postconvergence and suprastructural) intemporal preservation as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm in all non-positivism/medievalism human locales beyond just an extricatory paradigm of any one human locale, requiring the ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of non-positivism/medievalism by a stranding-dialectics of prior/transcended/superseded non-positivism/medievalism as ‘demented’, and prospective/transcending/superseding positivism as ‘dialectical-thinking’/soundness-or-authenticity-of-reference-of-thought and the deterministic and operant institutionalisation/intemporalisation resolution construct; and prospectively (and so, in an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-

reconstituting—as-of-conflatedness as dialectical transformation of existentialism/full-depth-of-existential-implications from the transcended to the transcending),

- the grander problem of a subknowledging-impulse/impulsive-dementation with the instigation of procrypticism/disjointedness-as-of-reference-of-thought with such phenomenon as psychopathy and social psychopathy and its temporal social recurrency is failing/not-upholding-as-of-apriorising/axiomatising/referencing (postconvergence and suprastructural) intemporal preservation as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm in all procrypticism/disjointedness-as-of-reference-of-thought human locales beyond just an extricatory paradigm of any one human locale, requiring the ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of procrypticism/disjointedness-as-of-reference-of-thought by a stranding-dialectics of prior/transcended/superseded procrypticism/disjointedness-as-of-reference-of-thought as ‘demented’, and prospective/transcending/superseding deprocrypticism as ‘dialectical-thinking’/soundness-or-authenticity-of-reference-of-thought and the deterministic and operant institutionalisation/intemporalisation resolution construct (and so, in an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting—as-of-conflatedness as dialectical transformation of existentialism/full-depth-of-existential-implications from the transcended to the transcending).

* In other words, fundamental construal about the conceptual-and-institutionalisation-phenomena has to do with how any and all conceptualisations and meaningfulness harken back to ‘intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, qualified as the very essence of intrinsic-reality as a suprastructural and ontological-normalcy/postconvergence conjoint-ontological-and-virtue-consistency upholding construct;

and in so doing, explicates successive institutional-cumulations/institutional-recomposures existentialisms/full-depths-of-existential-implications. Hence the subknowledging-impulse/impulsive-dementation/slantedness mechanism that induces perversion-of-reference-of-thought in all institutional-cumulations/institutional-recomposures effectively define each registry-worldview/dimension respective uninstitutionalised-threshold while reflecting/perspectivating/highlighting its mental-devising-representation/(recomposed)-consciousness-awareness-teleology specific superseded/transcended ‘stranding-as-(mentally) oblongated/decandored-and-dialectically-or-contendingly-out-of-phase’ that is its uninstitutionalised-threshold (going by the ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’). This transcended/superseded uninstitutionalised-threshold in the stranding-dialectics is a universal notion in establishing that that which is perversion-of-reference-of-thought and therefore not ontologically-veridical (superseded/transcended stranding-as-mentally- oblongated/decandored-and-dialectically-or-contendingly-out-of-phase) or the uninstitutionalised-threshold, and that which is not perversion-of-reference-of-thought and ontologically-veridical (superseding/transcending stranding-as-mentally-straight/candored-and-dialectically-or-contendingly-in-phase) or the institutionalised threshold. This is critical in overcoming our very own <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag inclination with respect to procrypticism, perversion-of-reference-of-thought of positivistic meaningfulness, that is, positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation), and so beyond our illusion-of-the-present/present-consciousness as more of a veridical ontological-normalcy/postconvergence and suprastructural intrinsic-reality/ontological-veridicality to a veridical existentialism/full-depth-of-existential-veridical placeholder-setup/mental-devising-

representation/mentation/consciousness-awareness-teleology (of perversion-of-reference-of-thought) over which memetic-reordering/psychoanalytic-unshackling can then occur. Otherwise, while such an insight is intuitive from our vantage positivistic registry-worldview point of reference with respect to prior registry-worldviews/dimensions dementability/stranding-dialectics, ours will carry a complex implying wrongly it is undementable and thus non-transcendable. Such ‘perversion-of-reference-of-thought’ applies with regards to both psychopathic subknowledging-impulse/impulsive-dementation/slantedness and its corresponding postlogism-as-of-non-conviction protraction as conjugation/inflection/deriving to temporal-dispositions implying consciously taking such insane-fitment mantle and acting like the psychopathic character once committed from ignorance (due to the postlogical inducing of a loss of social universal-transparency that acts as a constrain to temporal-dispositions for institutionalisation); at which point for all effective-predicative practicalities the temporal-dispositions character is ‘technically psychopathic’. This is the underlying basis for the development of social psychopathy. That is, after ignorance-temporal-disposition conjugation/inflection/deriving of psychopathic subknowledging-impulse/impulsive-dementation/slantedness postlogism-as-of-non-conviction protraction as assuming psychopathic subknowledging-impulse/impulsive-dementation/slantedness in ignorance and out of bad-or-wrong conviction, the other temporal-dispositions respectively involve: - (affordability-temporal-disposition) assuming psychopathic subknowledging-impulse/impulsive-dementation/slantedness in affordability and out of non-conviction-or-‘existential-decontextualised-transposition’ as uninstitutionalised-animality-threshold, - (opportunism-temporal-disposition) assuming psychopathic subknowledging-impulse/impulsive-dementation/slantedness in opportunism and out of non-conviction-or-‘existential-decontextualised-transposition’ as uninstitutionalised-animality-threshold, - (exacerbation-temporal-disposition) assuming

psychopathic subknowledging-impulse/impulsive-dementation/slantedness in exarcerbation and out of non-conviction-or-‘existential-decontextualised-transposition’ as uninstitutionalised-animality-threshold; - (social-chainism/social-discomfiture/negative-social-aggregation-temporal-disposition) assuming psychopathic subknowledging-impulse/impulsive-dementation/slantedness in social-chainism/social-discomfiture/negative-social-aggregation and out of non-conviction-or-‘existential-decontextualised-transposition’ as uninstitutionalised-animality-threshold; - (temporal-enculturation/temporal-endemisation-temporal-disposition) assuming psychopathic subknowledging-impulse/impulsive-dementation/slantedness in temporal-enculturation/temporal-endemisation and out of non-conviction-or-‘existential-decontextualised-transposition’ as uninstitutionalised-animality-threshold. What is specific about a mental-devising-representation of psychopathic/postlogical perversion-of-reference-of-thought and its protraction as social psychopathy to temporal-dispositions (not to be confused with the spontaneous conviction-reflex/prelogical-reflex-admittance-reflex/in-phase-reflex of wrongly implying prelogism-as-of-conviction as bad/poor conviction—wrongly implying logical nested-congruence—wrongly implying a logical contention); the specificity lies in the notion of ‘EMPTINESS of psychopathic postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ and the conjugation/inflection/derivation of that EMPTINESS to the temporal-dispositions in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogism conjoining-looping-sets-of-narratives-(construed-as-of-slanted-cohering-‘unsoundness-or-inauthenticity-of-reference-of-thought’-of-the-derived-perversion-of-reference-of-thought,-and-avoiding-any-wrongly-implied-logical-processing-engaging). It is the ‘reflection/perspectivation’ of this EMPTINESS of narratives/affirmations that is behind the notion of perversion-of-reference-of-thought, and so as intemporal organic-comprehension-thinking insight over mechanical-

comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation distraction. In fact, the technique for dementing involves mentally interceding/intermediating the reflected/perspectivated insight of a postlogical interlocutor’s hollow-narratives or derived-hollow-narratives with emptiness to reflect/perspectivate its unsoundness-or-inauthenticity-of-reference-of-thought as a manifestation of registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> given the narrative notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>. It is critical to note that this EMPTINESS of mental-devising-representation of perversion-of-reference-of-thought as the uninstitutionalised-threshold of (ontological-dementation/dialectical-dementation—stranding/attributive-dialectics) stranding-dialectics mentally-representing prior transcended/superseded registry-worldviews/dimensions as oblongated/decandored-and-dialectically/contendingly-out-of-phasing-or-dialectical-primitivity with respect to prospective transcending/superseding registry-worldviews/dimensions mentally-represented as mentally-straight/candored-and-dialectically-or-contendingly-in-phase; is the underlying process that permits the ‘transcendental shifting of reference-of-thought (enabling ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) to the apriorising-registry of the prospective/transcending/superseding registry-worldview/dimension while the transcended/superseded registry-worldview/dimension is no longer a dialectically-in-phase reference-of-thought but of dialectically-out-of-phase meaningfulness-and-teleology perversion-of-reference-of-thought as to its dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This process basically explains ontologically why and how humans from the very beginning to today are

the same as it fundamentally grasps the dynamism of institutional-cumulation/institutional-recomposure/memetic-reordering/psychoanalytic-reorientation that elucidates our human contiguous anthropological-continuity or anthropopsychology. Further, in the practical elucidation of social issues having to do with an issue of perversion-of-reference-of-thought-⟨reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought⟩ like psychopathy-and-social-psychopathy, it points out that the critical point is to understand what meaningful apriorising-registry is the ‘veridical reference-of-thought’ as reflected/perspectivated by soundness-or-authenticity-of-reference-of-thought/candoring-and-dialectically-or-contendingly-in-phase and what is rather non-ontological-reference-or-non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing and hence demented as reflected/perspectivated by mental-slantedness/decandoring-and-dialectically-or-contendingly-out-of-phase; and so in an underlying conceptual framework of ontology as an ideal that pulls the social towards the intemporal and the real nature of the social rather as a ‘conventioning construct’ that while susceptible to ontological/intemporal influence is equally the milieu of temporal drawbacks that need to be critically undermined including with ‘knowledge notionalisation’ involving not only the study of the ideal but ‘understanding how temporal-dispositions arise and work’ to better skew/deferential-formalisation-transference for intemporality/ontology as institutionalisation/intemporalisation together with differentiating between good-naturedness which is rather impression-driven, vague and might actually be precarious by its meaningful disposition to extrinsic-attribution and associated perversion-of-reference-of-thought and the-Good which is about understanding in ontological-primemovers-totalitative-framework how reality is/how things work to deliver virtue and hence is the basis for formalisations, and actually the ‘deferential-formalisation-transference’ has been the process by which throughout human history, increasingly segments of social thinking (present-day subject-matters) are taken out of

common hotchpotching and undisambiguated temporal-to-intemporal-dispositions in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) to be given ‘formal deferential status’ to ensure the supersedingness and internalisation of intemporal-disposition inclination to ontological-veridicality. This ontological-dementation/dialectical-dementation—stranding/attributive-dialectics insight brings up another definition of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure process relating human mental-devising-representation/(recomposured)-consciousness-awareness-teleology with the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality, wherein we can imagine ‘an initial state for memetic-reordering/institutional-recomposure of base-dementation and imagine a completed state of memetic-reordering/institutional-recomposure of non-dementation’, with the underlying mental-devising-representation/(recomposure)-consciousness-awareness-teleology taking/institutionalising/intemporalising the abstract human mind from base-dementation to non-dementation; involving at successive uninstitutionalised-threshold of the institutional-cumulations/institutional-recomposures, social universal-transparency of perversion-of-reference-of-thought, internal-contradictions induced from ontological-primemovers-totalitative-framework inoperance, stranding-dialectics divulging prospectively perversion-of-reference-of-thought, and intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic as of temporality, with corresponding formalisation and internalisation as values. While this process had occurred priorly rather beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought from base-institutionalisation, universalisation and up to positivism, it will possibly be more driven as-of-consciousness-awareness-teleology when it comes to attaining

deprocrypticism as the latter registry-worldview/dimension is actually weaker than the preceding registry-worldviews/dimensions in eliciting a positive-opportunism and will more strongly depend on percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> of intemporality/longness to be realised. Dementing as thus implied can be defined as the reflecting/perspectivating/highlighting of mental-devising-representation/(recomposed)-consciousness-awareness with respect to ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) as reference-of-thought in an ontological-normalcy/postconvergence and suprastructural proxying of intrinsic-reality, beyond mental-devising-representation/(recomposed)-consciousness-awareness-teleology within any given registry-worldview/dimension representation of meaningfulness. The storying/narrating technique for relating dementing will involve projecting suprastructurally and in ontological-normalcy/postconvergence in the transcending/superseding registry-worldview/dimension for ‘ontological-reference meaningfulness’ as the intemporal-disposition (in ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness organic-comprehension-thinking), while representing temporal-dispositions as rather in the transcended/superseded registry-worldview/dimension (dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag) meaningfulness-and-teleology which is not-of-ontological-reference, and in the place of the temporal-dispositions (in-circumventive/distractive-temporal-prioritisation-of-reference-of-thought mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservations) dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag wrongful-stranding-as-mentally-

straight/candored-and-dialectically-or-contendingly-in-phase, imply their rightful-stranding-as-mentally-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase; just as all prospective/transcending/superseding registry-worldviews/dimensions mentally-represent-and-relate-with their prior/transcended/superseded registry-worldviews/dimensions, even though all the latter naturally by <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag resist such representation by the former. Noting as well that teleologically, the transcending/superseding and the transcended/superseded are in transversality-of-disambiguated-apriorising/axiomatising/referencing. That is, the two ‘reason pass each other’ (wherein the transcending/superseding is organic-comprehension-thinking while the transcended is in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) as the transcending/superseding is involved in ‘reasoning-through/over’ and not ‘reasoning-with’ the transcended/superseded (this explains why transcendence is ‘a registry-worldview’s/dimension’s institutionalisation-constraining/secondnaturing process’ and not ‘a first-naturing transformation process’), just as a positivistic mindset/reference-of-thought ‘can only be in reasoning-through/abjection over’ a medieval mindset/reference-of-thought and ‘not reasoning-with’ it as otherwise the former wrongly validates that there is no medieval mindset/reference-of-thought dialectical-dementing—<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (that defines medievalism as stranded-as-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase not only with regards to a narrative/implication-of-act-execution-defect but comprehensive narratives registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> given the rather continuous <formative>epistemic-totalising–self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag of medieval meaningfulness, and warrants in lieu of any pretence of medieval mindset/reference-of-thought contention, which is rather a manifestation of dialectical-dementing—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as medieval meaningfulness, a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recompose for prospective positivistic mindset reference-of-thought–categorical-imperatives/axioms/registry-teleology in the first place for the notion of mutual contention to even arise) and in so doing wrongly validating the medieval meaningful frame (categorical-imperatives/axioms/registry-teleology-elements-of: implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) as mentally sound. It is the cause-and-effect-effective-predication by its grander grasp of intrinsic-reality that by way of untenability/internal-contradiction/internal-incoherence/institutional-constraining and social universal-transparency imposes cross-generationally the dominant as transcending/superseding meaningfulness over the dominated as transcended/superseded meaningfulness (there is no social-and-temporal-trading in that regard); as the intrinsic-reality that the transcending/superseding meaningfulness carries is suprastructural and ontological-normalcy/postconvergence and doesn’t adjust to the mortals, that we are, ‘social-and-temporal-trading’, otherwise the supposedly transcending/superseding compromises itself with respect to intrinsic-reality and losses its pertinence as a proxying reference-of-thought to intrinsic-reality, to start with. Such an insight can be garnered as, for instance, in the natural sciences we can’t negotiate about gravity being 9.8 m/s^2 , but with ‘the social’ which is rather ‘emotionally involved’, such negotiated social-and-temporal-trading idiocy is surprisingly quite recurrently articulated. It should be noted that the ‘ontological-dementation/dialectical-dementation—

The bigger point is that fundamentally one can't conjugate/inflect/derive intemporality/longness out of demonstrated temporality/shortness (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>) as then one is just in <formative>epistemic-totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and wrongly implying the registry-worldview/dimension is beyond transcendence or is non-transcendable (hence undementable/still-dialectical-thinking) when in fact it is dementing/subknowledging/registry-perverting-in--<formative>epistemic-totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This latter idea is actually the <formative>epistemic-totalising--self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex of all prior/transcended/superseded registry-worldviews/dimensions with respect to the suggestion of prospective/transcending/superseding registry-worldviews/dimensions, as we can appreciate from our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure process to be rather not true with prior transcendences though we'll in turn

obviously act by reflex in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with respect to the suggestion of prospective transcendence undermining our registry-worldview’s/dimension’s categorical-imperatives/axiom/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation.

The ontological-normalcy/postconvergence nature of intrinsic-reality as such explains why ontological-veridicality is rather a reasoning-through/abjection to apprehend intrinsic-reality, over incrementalism-in-relative-ontological-incompleteness and notional-procrypticism/notional-disjointedness-as-of-reference-of-thought which is more about ‘transversality-of-disambiguated-apriorising/axiomatising/referencing human conceptual elucidation of reality’ (given that the former emphasises ontological-primemovers-totalitative-framework as all-determinant); with reasoning-through/abjection generally implied in formal constructs and settings as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework settings while informal constructs and settings tend more to incrementalism-in-relative-ontological-incompleteness and notional-procrypticism/notional-disjointedness-as-of-reference-of-thought and hence are highly teleologically-degraded as impression-driven/good-naturedness settings. The reason is that formal constructs and settings emphasise ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness in longness-of-register-of-meaningfulness-and-teleology and hence are equally highly deferential whereas informal constructs and settings do not constrain temporal-dispositions and hence are highly subjected to circumventive/distractive-temporal-prioritisation-of-reference-of-thought in shortness-of-register-of-meaningfulness-and-teleology and are unsurprisingly rather not deferential given that they are opened to hotchpotching/undisambiguation of temporal-to-intemporal-dispositions. ‘Intemporal-prioritisation-of-reference-of-thought’-as-conflatedness points out that conventioning

constructs like sub-par/formulaic-association/temporal/alibi conventioning-rationalising do not supersede the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/intrinsic-veridicality, as may be naively advance with circumventing/distractive-temporal-prioritisation-of-reference-of-thought, such that just as the conventioning construct of non-positivism/medievalism cannot be evoked to imply that with respect to a non-positivism/medievalism mindset/reference-of-thought a prospective positivism mindset, which is the outcrop of an ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness exercise in non-positivism/medievalism registry-worldview/dimension, is unwarranted. Likewise, it is rather naïve and <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to advance circumventive/distractive-temporal-prioritisation-of-reference-of-thought concerning psychopathic and its social psychopathic collorary (perversion-of-reference-of-thought) in wrongly implying that a deprocrypticism ontological-escalation/aetiologisation is unwarranted. More like the evocation of circumventive/distractive-temporal-prioritisation-of-reference-of-thought about a past war criminal or rapist based on conventioning constructs like their being in the past, their settled lives, etc. doesn’t dispense them from ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness, the need for their judgment and/or in advocating unfailingly/infalibly the uncompromising notions against rape or war crimes, and so without conjugating/inflecting/deriving any excepting human temporal circumstances into it by circumventive/distractive-temporal-prioritisation-of-reference-of-thought. This further point to the dichotomy between temporal-compromising-conventioning and ontology, with a registry-worldview’s/dimension’s institutionalisation dialectics wherein ontology as reference-of-thought/ontological-normalcy/postconvergence/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation perpetually elevates conventioning. This further translates in the

conceptualisation of value-and-valor with the implication that while aspiring for temporal values and valor may be the standard <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> perception, however, grander value and valor effectively lies in the universalising and philosophising orientations (as ontological-profoundness-of-thought/ontological-normalcy in contrast to conventioning-profoundness-of-thought/intradimensional-subknowledging-normalcy) that enable the possibility, the construct and the upholding of human emancipation across successive registry-worldviews/dimensions in the very first place, that is, emancipation into base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. Aristotle’s advocating of the ‘golden mean’ is more of a heuristic and aesthetic notion but doesn’t has an ontological-basis as it is rather an impromptu articulation of a sense of desirability but fundamentally lacks the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework reference of ontological-contiguity but for naively and wrongly implying good-natured qualities as being ontological (rather than the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation validated by ontological-contiguity or a ratio-conguity notion), and since the ontological-contiguity—of-the-human-institutionalisation-process shows that ‘good-naturedness’, without the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ontological-contiguity, fundamentally has little import or worst bad implications. The truest value and valor resided in what Aristotle and other thinkers or even prophesiers were striving for actually. Aristotle nor Socrates nor Plato nor the prophets (working rather more assertively on supernatural paradigms) nor latter thinkers like Descartes, Kant, Darwin, Leibniz, Rousseau strove for the golden mean in their overall endeavours. Rather from an ontologically verifiable reality as a

the-Good/understanding/ontological-primemovers-totalitative-framework/ontological-contiguity they actually aspired for ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness, that is, they were prioritising and focussing on that which establishes universal and philosophical principles as first-order-ontology for-prospective-living as the backdrop for enabling better human emancipation and living (even though where relevant this will subsume-as-supplant-(as-of-relatively-more-profound-construal-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) the golden mean into ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness but with the latter rather superseding/encompassing it). It is the establishment of such first-order-ontology for-prospective-living as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism which are of transcendental nature as ‘shaping the human psyche’ and providing the emancipatory umbrella for second-order-ontology and their temporal yearnings which are rather non-transcendental and cannot structurally resolve fundamental issues, and of circular institutionalised-being-and-craft. A Rousseau may not be the ‘shrewdest aristocrat’ in terms-as-of-axiomatic-construct of the ordinary value of personal gain of the medieval world but the first-order-ontology resolution of issues of social emancipation passes by his and likeminded first-order-ontology philosophical projection. This certainly applies with regards to defining transformative impact of transcendental constructs across all registry-worldviews/dimensions that does not compare with ordinary being-and-craft second-order-ontology sense of value which is rather intradimensionally circular and is hardly of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm addressed from first-order-ontology constructs. Granted if humans had absolute mentation capacity then ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness will be skewed (‘intemporality-

asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality
 transcendental-enabling/sublimating) or rather supersede/encompass all such desirabilities
 implied by the golden mean. However, we don't have absolute mentation capacity and the
 most intemporal of our dispositions should take pride of place in defining our achievement
 motives whether as philosophies, causes, skillsets and talents in our value and valor
 aspirations, in line with the notion of a true principle, with the implication that such value and
 valor is capable of rationally upholding itself and its registry-worldview prospectively when
 implied universally. Such an insight can further be expanded thus, it is critical to note that the
 institutional-cumulations/institutional-recomposures are developments of human mentation
 capacity in grasping its 'internal ontological-reconstituting-as-of-
 conflatedness/deconstruction intermediating environment' and the external environment. The
 former refers to the teleological devised representation of the relationship with the external
 environment like language, organisation, culture and other institutional construct by which it
 existentially accesses the external environment. In effect, though counterintuitive, huma
 registry-worldview's/dimension's institutionalisation is actually an 'intemporal-prioritisation-
 of-reference-of-thought'-as-conflatedness/intemporal-preservation preemptive construct
 which paradoxically elicits devised mentation that goes on to build the 'internal ontological-
 reconstituting-as-of-conflatedness/deconstruction) intermediating environment'. Thus in
 effect base-institutionalisation is the outcome of the 'intemporal-prioritisation-of-reference-
 of-thought'-as-conflatedness/intemporal-preservation preemption of recurrent-utter-
 uninstitutionalisation (recurrent/-<formative>epistemic-totalising-self-referencing-

 (dementing/subknowledging/perversion-of-reference-of-thought—and—
 <formative>epistemic-totalising—self-referencing-

 deprocrypticism is the outcome of the ‘intemporal-prioritisation-of-reference-of-thought’-as-
 conflatedness/intemporal-preservation preemption of procrypticism, so construed by
 ‘deprocrypticism ontologically-perspectival-elevated/pedestaling-as-dialectical-thinking-

 and so, in the relation between human developing mentation capacity and suprastructural-
 and-postconvergence-intrinsic-reality in ontological-normalcy (prospective-transcendence-in-
 perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-
 preservation). In this regard, transcendental institutionalisation is basically an ‘intemporal-
 prioritisation-of-reference-of-thought’-as-conflatedness/intemporal-preservation preemptive
 conceptualisation. Such “‘intemporal-prioritisation-of-reference-of-thought’-as-
 conflatedness/intemporal-preservation preempting that actually create institutional-

Briefly, such an anthropopsychological/the-anthropological-continuity conceptualisation as articulated above further enables the insightful conceptualisation of ‘ontological-primemovers-totalitative-framework retracing (for temporal-to-intemporal-dispositions disambiguation articulation) analysis’ as expanded upon below, in the ‘ephemerality that is the social-construct’, on the basis of an ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity–or–ontological-preservation understanding of the social-construct. This is central in articulating a ‘creative existentialism (full-existential-depth-implications) storying construal’ which is ‘profoundly ontological’, with psychoanalytic-unshackling/memetic-reordering/institutional-recomposure possibilities for transcendental institutionalisation/intemporalisation of deprocrypticism (superseding the vices-and-impediments of procrypticism):

- Institutionalised/uninstitutionalised thresholdings of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation

- ontological-normalcy/postconvergence (as ontological-reconstituting–as-of-conflatedness/deconstruction for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) assumptive construal along the three pedestals: the given ontological/intemporal-disposition pedestal (organic-comprehension-thinking), slantedness/insane-fitment (psychopath’s ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing_qualia-schema>’ denaturing of ontologically-veridical/ontologically-continuous meaning), and temporal-dispositions notional-discontiguity/epistemic-discontiguity-as-of-epistemic-decadence in

anthropopsychology as the-anthropological-continuity as implied by intemporal-preservation-
entropy-or-contiguity—or—ontological-preservation relation to reality as ontological-
normalcy/postconvergence/precedingness points out that at registry-worldview/dimension-
level ontology as the transcending dimension is veridically an abject organicism (organic-
comprehension-thinking) over mechanicalism (mechanical-comprehension-dementing in
hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-
intemporal-preservation which is the transcended dimension. Further, such abject
organicism (organic-comprehension-thinking) in implying registry-worldview/dimension
transcendence takes stock of human perversion-of-reference-of-thought in full dispositional
capacity (as such manifestation in dispositional perversion-of-reference-of-thought fullness in
particular highlights a highly compromised and teleologically-degraded social-construct

validating such abject organicalism even if it seem counterintuitive to the transcended registry-worldview's/dimension's illusion-of-the-present perception. * So it is important to understand with regards to psychopathy and social psychopathy that the level of profoundness of its manifestation and consequences is directly related to the level of the associated perversion-of-reference-of-thought compromised and degradation of the social construct!)

Without the ‘ontological-primemovers-totalitative-framework-retracing (for temporal-to-intemporal-dispositions-pedestals-disambiguation) as reference-of-thought-scheme’ all the above will be hardly attainable as the basic fact that the ‘conviction-reflex/prelogical-reflex-admittance-reflex/in-phase-reflex instead of rightly aligning by the dialectically-or-contendingly-out-of-phase reflex or transversality-of-disambiguated-apriorising/axiomatising/referencing reflex)’ is a ‘soundness-or-authenticity-of-reference-of-thought’ functional mechanism which can only be superseded priorly in habituation of the ‘effective reality of a unsoundness-or-inauthenticity-of-reference-of-thought’ of psychopathic postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and other temporal-dispositions postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation s which are rather in perversion-of-reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of positivistic meaningfulness at the procrypticism registry-worldview’s/dimension’s uninstitutionalised-threshold.

Of course, this is more like a ‘notional template’ in a ‘dynamics of benign implications to grave existentialism/full-existential-depth-implications’ articulated over a functional social-construct which however ‘endemises psychopathy and social psychopathy rather at the uninstitutionalised-threshold of the positivistic meaningfulness reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation perversion-of-reference-of-thought known

as procrypticism or emanant-wrong/demented-shades-of-the-real, requiring futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation/intemporalisation (for the furtherance of the intemporal-preservation-entropy-or-contiguity-or-ontological-preservation or ontological-contiguity/ontological-veridicality). Further, it is important to appreciate that just as with the profoundness of treatment of subject-matters and specialisms (and even more so with regards to ‘the social’ given its characteristic ‘emotional involvement’ aspect), corresponding subject-matter ‘focussing of analysis and jargon’ will seem rather unusual and unnatural to ‘ordinary thinking’. But then ‘ordinary thinking’ is responsible for mostly nothing, if not thinking mostly in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology), and cannot be made a reference of formal thinking as issues requiring profound treatment invariably are construed based mostly on unordinary formal constructs which, granted, should be able to ultimately by their ontological-primemovers-totalitative-framework demonstrate that such formal constructs are the best ontological and virtue conceptualisation with regards to the issue or domain of concern. That’s why the populace is not asked its opinion about the law or astronomy or medicine, for instance, as the need for deferential-formalisation-transference arises for the effective ontological/intemporal treatment of domains of reality but for when the issues at stake require a sovereignty exercise requiring individuals informed consent whether political or decisional or rather as social learning/inculcation exercise; but then sovereignty exercises are not pure knowledge/ontological constructs but for the construals/conceptualisations of inherently sovereign choices as knowledge/ontological constructs of the sovereign choices. Thirdly, the conceptualisation of this paper is rather unusual and unordinary as it is transcendental by its construct and the implied registry-worldview/dimensions successive

existentialisms/full-depths-of-existential-implications, and even further unusual by its phenomenological and hermeneutics methodological approaches, which frankly speaking is the only way to creatively garner such insights in broad strokes. Like with all transcendental constructs, which by definition tend to put the usual/ordinary in question, it is not surprising that it will sound highly alienating to ordinary ways of thought. However, its ethos is that it is coming from a depth of conceptualisation that is more profound than our ordinariness when it grasps that other institutionalisations whether as recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism, had their own ‘ordinariness’ in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag no less than we do, and that the underlying ontological reasoning is beyond the illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage as metaphysics-of-presence, of any registry-worldview/dimension including our positivistic meaningful frame, to arrive at a superseding and more profound ontological-veridicality or grasp of intrinsic-reality with corresponding illuminating implications. In that sense, an argument of the type our society is great as it is, will then be meted with a same argument that there were great things happening in medieval times as well and maybe we shouldn’t have transcended into positivism; speaking of a fundamental solipsistic ontological-bad-faith/inauthenticity. One could argue in the logic of those times, the serfs were doing great feeding themselves, as many did argue; and there was no need for science, as many did argue, etc. The fact is we are the outcrop of the possibility and potential for human transcendence before which doesn’t end with us but proceeds to undermine our own registry-worldview/dimension as well. Fourthly, it is obvious that if and where what is factored in is only the folksy lifespan perspectives of individuals existentialism/full-depth-of-existential-implications of

shallowness of scale and time, without the requisite philosophical depth requiring a profound appreciation, understanding and insights from ‘humanity existentialism/full-depth-of-existential-implications level scale and time’ which easily gets lost, and thus this bigger pursuit of this paper will be lost and misunderstood by such a shallowness of scale and time of thought, and non-contemplation and pseudologism as a mark of banality/folksy-logic. It is inevitable, as has been the case throughout the human past, that transcendental ideas are inevitably suprastructural/beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of the <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension in which such notions are being advanced in. Fifthly, it is more likely that a banal/folksy inclination may hardly appreciate the difference between the outcome of a mindset/reference-of-thought as a secondnaturedness and internalisation construct across successive institutionalisations with their requisite psychoanalytic-unshackling, memetic-reordering and institutional-recomposure induced from intemporal individuation disposition, and correspondingly differentiate between being so-institutionalised with a secondnatured and internalisation mindset/reference-of-thought and the intemporal--individuation-kind disposition that will equally be responsible out of mere intemporal-solipsism/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality (and no secondnaturing and internalisation) for institutionalising/intemporalising with regards to the present registry-worldview/dimension at its uninstitutionalised-threshold that will be behind the secondnaturing and internalisation of prospective registry-worldview/dimension. This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly

determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the institutional-cumulation/institutional-recomposure, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’ though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought, defining their specificities and potentials.

This is just a basic anthropopsychology/the-anthropological-continuity elucidation which while original and useful on its own right, is equally pertinent for an insight in the social manifestation of psychopathy. Besides, one can imagine that a thorough grasp and creative application of the stranding-contiguity-of-ontology or ontological-normalcy or ontological-normalcy/postconvergence drive, as this psychologically reflects/perspectivates dialectically stranding-dialectics or <formative>epistemic-totalising-self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase of mental-devising-representation by which human transcendences occur can ultimately be the avenue for liberating the human mind to its full potential and directed transcending capacity. That is, transcendental capacity not only by way of a spontaneous and natural dialectical cycle of social constraints of stakes and confliction behind the ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure history but a ‘consciously directed’ abstract understanding, more like deprocrypticism-over-procrypticism could-be and would-need-to-be relatively highly consciously directed given the relatively lower immediate positive-opportunism (for survival-and-flourishing to the cross-section of human temporal interests) compared to the lower transcendences like base-institutionalisation, universalisation and positivism, but for its abstract veridical pertinence

and potentially grander possibilities in the institutionalisation/intemporalisation percolation channels. Such a veering to the creatively abstract, with respect to the philosophical and the social sciences, but nonetheless ontologically veridical will be liberating/emancipatory from the ‘spontaneously natural dialectical cycle of human progress’ and is increasingly certain to be the defining feature of human civilisation.

It should be noted that Entropy as defined (‘intemporal-preservation-entropy-or-contiguity–or–ontological-preservation re-institutionalisation’) relates that the intemporal-preservation-institutionalisation entropy is the preceding-and-defining reference for the hermeneutic-referencing of the ontological meaning of all other associated conceptualisations and notions. (By ontological meaning is implied intemporal/veridical/purism/operant-construct/predicative-effectivity–sublimation–{as-to-underlying-ontological-commitment} meaning or ontology/reality-centered-meaning as contrasted to temporal/non-veridical/compromised/non-operant-and-vague/-<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag meaning or metaphysical/speculative/banality/social-discomfiture/temporal-human-centered meaning).

Central to the hermeneutics approach towards elucidating psychopathy and the underlying psychological science is a method I qualify as ‘referentialism’ which makes reference to the supersedingness/precedingness of the ‘intemporal preservation institutionalisation/intemporalisation entropy/contiguity’ before articulating concepts and notions in referential and organic elucidation of the entropic construct. Referentialism as such is actually central to the spontaneity required in hermeneutics. It differs from the traditional scientific categorisation of concepts and notions, in that referentialism implies a highly contiguous, circumstantial and dynamic referencing elucidating of the superseding/preceding entropic notion while categorisation tends to be basically constitutive, definitive and ‘weakly

contiguous/relatively-fragmented overall' in its elucidation of notions, concepts and ideas. Categorisation has been very efficient with the physical and biological sciences with its classification approach enabling a profoundness of analysis while enabling excellent subject matter organisation. However, this author is of the opinion that categorisation as an approach is actually less efficient in the social sciences (and notions of an ephemeral character) as it underemphasises the 'organic dynamism' of social concepts and often leads to relatively trite classification schemes that are often inoperant or poorly operant given the relative ephemerality of the social world (a weakness of many categorisation classification schemes in the social sciences). On the other hand, referentialism carries the promise of 'point-referencing' notions and concepts in a contiguously dynamic, evolving and ontological-reconstituting-as-of-conflatedness/deconstruction way, putting emphasis on the relative relation of concepts and notions towards the central notion in its dynamic entropic conceptualisation. This author is also of the opinion that referentialism is actually the natural human cognitive development approach to acquisition and classification of knowledge with emphasis on 'the organic dynamics of understanding' wherein a child for instance doesn't necessarily grasp outright the fullness of concepts-of-meanings but rather the 'relevant dynamic contextualisation of meanings' ensuring a strongly operant and 'wealthy' relationship with meaning in the social context.

'Intemporal-preservation-entropy-or-contiguity-or-ontological-preservation re-institutionalisation' with respect to uninstitutionalised-threshold of registry-worldviews/dimensions, can be construed as follows:

Supposed all humanity across space and time that ever existed was just 'one human temporal-to-intemporal individuation', the process of general-institutionalisation from recurrent-utter-uninstitutionalisation to base-institutionalisation-ununiversalisation to ununiversalisation-non-positivism/medievalism to positivism-procrypticism, and

prospectively to deprocrypticism, is actually one same process but for ‘lack of the human-mentation-capacity and need for time for the cumulation of the mentation-capacity’ (lack of ‘brain capacity’) to get it all right from the start (i.e. to fully grasp deprocrypticism starting from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to ununiversalisation–non-positivism/medievalism to positivism–procrypticism as convergent concepts towards deprocrypticism (as ‘longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, as induced by maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation’ and involving more profound/richer ontological-levels over shallower/poorer ontological-levels; with deprocrypticism thus implying a ‘full-cycle ontological-contiguity—of-the-human-institutionalisation-process undermining of subknowledging/mimicking/emanant-uninstitutionalisation-disposition’). Thus the successive institutionalisations are thus construed as ‘levels of compromise’ allowing for sufficient human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) to handle the requisite transcendence even if from the very start the human doesn’t get a grasp of ‘higher institutionalisation/intemporalisation registry-worldviews/dimensions’ all-at-once/as-a-whole but achieves the ‘comprehensive institutionalisation/intemporalisation frame’ only at deprocrypticism; as it goes on to take on the successive challenges of base-institutionalising, then universalising, then positivising, and finally with deprocrypticism absolute ontological-contiguity by undermining ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology-in-arrogation’ (longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology). It should be noted that the issue of procrypticism had always been present at all times of human existence but the

natural priority going by human shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) was first to have a base-institutionalisation institutionalisation, universalisation institutionalisation, positivism institutionalisation before prospectively deprocrypticism institutionalisation; more precisely, previous institutional-recomposures are indirectly (skewing towards) addressing base-institutionalisation, universalisation, positivism and deprocrypticism, up to the point of the respective institutionalisation/intemporalisation-recomposure where the reference-of-thought-as-the-registry-worldview is directly addressed. This thus explains ontological-normalcy/postconvergence across human mental-devising-representation as changes to accommodate intrinsic reality by psychoanalytic-unshackling/memetic-reordering/institutional-recomposures of successive illusions-of-the-present/present-consciousnesses/epistemic-totalising-self-referencing-syncretising/mirage at these successive institutionalisation/intemporalisation levels including the positivism-procrypticism institutionalisation/intemporalisation, towards intrinsic-reality/ontological-veridicality; that has and will never change, and by way of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework inducing of social universal-transparency and internal logical coherence/contradiction this then validates the need for human psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. In the bigger scheme of things, it points to the fact that ontologically for the full potential of human science, this should be ‘rising from this fundamental philosophical depth/profoundness of thought’ to then transversally address the issues it raises while projecting prospectively.

A further insight can be grasped regarding the relationship between psychopathy, anthropopsychology/the-anthropological-continuity, veridicality (intrinsic reality/ontological

representation), non-veridical reality (illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage as metaphysics-of-presence), human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, and registry-worldviews/dimensions (of institutionalisation/intemporalisation, universalisation, positivism, and prospectively deprocrypticism). Psychopathy points to the psychopath's postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation but postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is equally socially conceptualised. Postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging or meaning-by-the-mere-illogical-possibility-of-it-being-narrated is not veridical and its genuine mental-devising-representation is 'a slantedness of the mind/mental-slantedness' (distractive-alignment-to-reference-of-thought /dialectically-or-contendingly-out-of-phase/dialectically-primitive), as there 'can't be mutual logical operation/no logical nested-congruence' between non-veridical postlogism-as-of-non-conviction in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and veridical prelogism-as-of-conviction, but for a dialectically-or-contendingly-out-of-phase (as-the-temporal-mind-is-dialectically-out-of-phase) 'ordered construct from the superseding registry-worldview/dimension validated by ontological-primemovers-totalitative-framework and implying a psychoanalytic-unshackling of the perversion-of-reference-of-thought registry-worldview'. For instance, there isn't any logical nested-congruence between the non-positivism/medievalism mindset/reference-of-thought and the positivistic mindset). A positivistic mind can't explain the denaturing of the notion of witchcraft to a non-

positivism/medievalism mindset as the state of being of non-positivism/medievalism means we make reference to non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology that end up endemising/enculturating such superstitious notions. Logic as logical-congruence only arises where there is a mutual registry-worldview reference-of-thought–categorical-imperatives/axioms/registry-teleology. What is thus needed is a ‘psychoanalytic-unshackling/memetic-reordering/institutional-recomposure’ of the medieval mindset/reference-of-thought (which is subknowledging/mimicking) wherein the untenability/internal-contradiction/internal-incoherence/institutional-constraining generated by the positivist’s scientism (superseding) makes the medieval mind put in question its reference-of-thought–categorical-imperatives/axioms/registry-teleology in the very first place. This ‘psychoanalytic-unshackling process’ equally applies prospectively (regarding the positivism–procrypticism and the deprocrypticism registry-worldviews/dimensions). In the phenomena of social psychopathy, it is important to grasp that the reflex to mentally represent the narratives of the psychopath and the protraction of the narratives by temporal conviction or prelogism minds as ‘straightness/candor/organic-comprehension-thinking of mind’ is wrong, ‘overcoming the mental-slantedness/decandoring/distractive-alignment-to-reference-of-thought is thus called for, more like we perceive the ‘slantedness of a childhood cinglé’ (in terms-as-of-axiomatic-construct of the mental state of the psychopath as well as its protraction on the psychopath’s interlocutor). In other words, *the mind is actually a mental devising tool’ whose veracity/ontological-pertinence must be validated by an abstractly veridical intrinsic-reality/ontological-veridicality. In other words, the abstract grasp of intrinsic-reality/ontological-veridicality defines mental-devising-representation as the latter is not inherently given (it is a devising tool validated by abstract intrinsic-reality/ontological-veridicality established by ontological-primemovers-totalitative-framework. For instance,

while the traditional reflex of the human mental-devising-representation is disposed to think otherwise, Einstein theory-of-relativity abstraction, and likewise with many conceptualisations of a doppler-thinking nature, is more real by its ontological-primemovers-totalitative-framework, thus pointing to the error of the human reflex/impulse thinking). In another light, this explains the transformative evolution of our registry-worldviews/dimensions mental-devising-representations of reality from the recurrent-utter-uninstitutionalised earlymen to our current positivism–procrypticism registry-worldview, with the insight that our mental-devising-representation will evolve when prospective abstract reality ontological-primemovers-totalitative-framework shows that it is defective/perverted as procrypticism/disjointedness-as-of-reference-of-thought, from a deprocryptic mental-devising-representation.

In the same vain, why we perceive the recurrent-utter-uninstitutionalised mind as that of ‘a savage’, the recurrent-utter-uninstitutionalised in its ‘-<formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence perceives its mind as straight/candored and as of organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) and soundness-or-authenticity-of-reference-of-thought. It is the prospective base-institutionalised mind that ‘invents’ the representation of mental-slantedness/decandored-and-dialectically-or-contendingly-out-of-phase/dialectically-primitive) of the recurrent-utter-uninstitutionalised mind; and likewise with the ununiversalised mind and universalised mind, non-positivism/medievalism mind and positivistic mind, and prospectively, procrypticism mind and deprocrypticism mind. This variance of straightness/candored as organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-

conflatedness/longness-of-register-of-meaningfulness-and-teleology) and
 oblongated/decandored as mechanical-comprehension-dementing in hollow-constituting—as
 disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation mental-

 psychopathic phenomena such that the ordinary reflex to keep a straight/candored organic-
 comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-
 conflatedness/longness-of-register-of-meaningfulness-and-teleology) with respect to the
 psychopath’s mindset/reference-of-thought and protracted social psychopathy non-veridical
 hollow mimicking narratives should be undermined by a slantedness/decandoring of the mind
 as distractive-alignment-to-reference-of-thought at ‘uninstitutionalised-threshold’. The
 contention is an ‘ontological-entrapment’ not about logical operation/processing/contention
 of the ‘non-veridical hollow perversion-of-reference-of-thought narratives’ but rather
 reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) it as
 ontological-primemovers-totalitative-framework. That is, an understanding of the abstract
 temporal-dispositions as a specie-level/universal/intemporal paradigm as prospective
 reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-
 preservation-entropy-or-contiguity—or—ontological-preservation, i.e. transcendence as
 deprocrypticism. It is a psychoanalytic-unshackling ordered construct (as-the-temporal-
 minds-pedestals-are-out-of-phase-dialectically-or-dialectically-primitive-by-a-bare-matter-of-
 fact) from the intemporal-solipsistic/emanant-registry-pedestal in transversality-of-
 disambiguated-apriorising/axiomatising/referencing. The bigger scheme of things being the
 structural/paradigmatic preemption of a defective/perverted registry-worldview, in this case
 procrypticism/disjointedness-as-of-reference-of-thought. Such an emanant insight can be
 garnered from the fact that, positivism was established by the ‘diktat’/ordered-construct of
 the Descartes, Comtes, Galileos, Rousseaux, Newtons, Darwins... of the world, and the rest

of humanity complied to the formalisms that ensue, by virtue of their proxying-to-intrinsic-reality and the positive-opportunism that led to psychoanalytic-unshackling/memetic-reordering/institutional-recomposure (towards human formalisation and internalisation)!

As registry-worldview/dimension defects or denaturing are responsible for the vices-and-impediments of the said registry-worldview/dimension; noting that the fundamental construction is a ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation’ making reference to ontological-primemovers-totalitative-framework and not a vague ‘impression/good-naturedness/wishfulness conceptualisation’ making reference to the banal <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as may illusory be projected intradimensionally/intra-registry-worldview (the latter being represented as oblongated non-veridical narratives by the prospective intemporal-disposition-worldview)! The reason why virtue (knowledge is virtue) is treated scientifically as highlighted above is that virtue is a ‘the-Good/understanding/knowledge construct’ and not a ‘good-natured/impression construct’. For instance, no non-positivism/medieval mindset is ‘good-natured/vague by the registry-worldview/dimension impression’ enough with the fundamental defective/perverted non-positivism/medieval worldview to be able to address ‘the-Good/understanding’ of a positivistic mindset which will resolve or structurally-rendered-inoperant the problems of superstition and witchcraft as the former will always make reference to the defective/perverted reference-of-thought—categorical-imperatives/axioms/registry-teleology of non-positivism/medievalism no matter how ‘good-natured/impression-driven’ it is. The same applies with procrypticism and deprocrypticism. No procryptic (emanant-wrong/demented-shades-of-the-real-set-of-

narratives) mind is impression-driven/good-naturedness/wishfulness enough to have the requisite ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct’ insight to resolve/structurally-rendered-inoperant the issues of the vices-and-impediments of procrypticism as it is the deprocryptic mind’s ‘the-Good/understanding/knowledge construct’ that is the virtue that carries the sound registry-worldview/axiomatic construct/categorical-imperatives to be able to do this.

- the-Good is an intemporal/ontological articulation referencing intemporality/longness in a contiguous emanance of ‘transcendental/superseding abstract intemporal-preservation-entropy-or-contiguity-or-ontological-preservation’ and corresponding derived reference-of-thought–categorical-imperatives/axioms/registry-teleology; and is imbued with the ‘memetic reordering contiguity’ of institutional-cumulation/institutional-recomposure (base-institutionalisation-to-universalisation-to-positivism-to- deprocrypticism, and thereafter). The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework is notionally more of ‘a capacity and scientific construct’ (high or low mentation-capacity) rather than a ‘stigmatising construct’ (positive or negative impressions).

- ‘Good-naturedness’ is a temporal articulation that wrongly references (distractively) for temporality-sake registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology priorly-and-over ‘transcending/superseding abstract intemporal-preservation-entropy-or-contiguity-or-ontological-preservation’; and is imbued with the memetic notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> that undermines institutional-cumulation/institutional-recomposure. Good-naturedness is notionally more of a ‘stigmatising construct’ (positive or negative stigmatising) rather than ‘a capacity and scientific construct’ (high or low mentation-capacity).

- Virtue (retrospectively to prospectively) is not determined by ‘good-naturedness’/impression-driven construal/conceptualisation of meaning but rather by the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation of meaning as validated by ontological-primemovers-totalitative-framework (the emanant/becoming ontological-normalcy/postconvergence determinant of veridicality/the-quality-of-being-emanantly-real). The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation (understanding) as per veridicality demonstrated by ontological-primemovers-totalitative-framework is the complete and sufficient elaborative framework for conceptualising virtue! Such ontological-primemovers-totalitative-framework is rather tangentially the purview of increasing realism of the institutional-cumulation/institutional-recomposure as it is contiguous with ‘human transcending across shifting virtue paradigms for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation’ (with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposure); going from recurrent-utter-uninstitutionalisation (impulsive-or-accidental-or-haphazard-or-random mental-disposition), base-institutionalisation (mythologies paradigm, which is of <formative>epistemic-totalising_nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in-‘warped-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incindenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context and represents virtue in terms-as-of-axiomatic-construct of allegiance/subservience transience), universalisation (mystical-principles paradigm, which is of <formative>epistemic-totalising_ordinal-as-qualifying-phenomenal-abstractiveness-of-presencing-in-‘preclusive-consciousness’-enabling-

Such an articulation of the human, retrospective and prospective, skewing
 ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-
 reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-
 formalisation-transference towards/development of virtue is grounded in a the-
 Good/understanding/knowledge-driven conceptualisation on veridicality established by
 ontological-primemovers-totalitative-framework validation. The overarching and defining
 notion is that each registry-worldview/dimension is only capable of the virtue reflected by its

intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. In other words, ‘a registry-worldview/dimension defective reference-of-thought—categorical-imperatives/axioms/registry-teleology as of its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought is responsible for the vices-and-impediments of that registry-worldview’s/dimension’s reference-of-thought’; and, requiring prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in anticipation and preemption of such perversion-of-reference-of-thought. Thus structurally it is the prospective registry-worldview/dimension which is always the ‘prospective virtue potential’ for the prior/superseded registry-worldview/dimension. Basically, base-institutionalisation enabled the virtuous resolution of vices-and-impediments of the state of recurrent-utter-uninstitutionalisation, and likewise with universalisation and ununiversalisation, positivism and non-positivism/medievalism, and prospectively, deprocrypticism and procrypticism/disjointedness-as-of-reference-of-thought. In the present world, we no longer do institutional slavery, we talk of universal rights and equality of all people, mob judgment and mob killing is hardly practised anymore, accusations of witchcraft are now viewed as ridiculous, etc.; it is the integration of a positivist registry-worldview/dimension, with corresponding psychoanalytic-unshackling/memetic-reordering/institutional-recomposure that enabled such human transformation from a non-positivism/medievalism registry-worldview/dimension; and not the inherent exceptionalism, as biological or otherwise, of humans living now over their forerunners.

Basically, human ‘conviction deductive reasoning’ as prelogism is effectively a sound construct for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and hence virtue; that is, so long as it is adhered to properly. However, this is not the case on two

grounds. It is critical to distinguish a defect in improper processing/operating of conviction or prelogism which is rather construed as a singular/ad hoc ‘implication-of-act-execution defect’ and can be then qualified as a ‘poor conviction’ or a ‘bad conviction’; it being nonetheless a conviction or prelogism as it holds the teleological aim of ‘intemporal preservation with a principled adherence to conviction’ even though it delivered an inappropriate/poor-or-bad logical-processing-or-logical-implication. On the other hand, a defect of non-conviction-or-‘existential-decontextualised-transposition’-or-impulsively-dementing-postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates on the ‘parasitising/co-opting’ basis that intemporal-preservation-entropy-or-contiguity—or—ontological-preservation reference-of-thought—categorical-imperatives/axioms/registry-teleology are formulaic determinants of human thought and action and is the basis for perversion-of-reference-of-thought. Such a defect is ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect-<as-Being-or-ontological-or-existential—defect>’ as it rather holds the teleological aim of ‘temporal preservation/undermining-of-intemporal-preservation without a principled adherence to prelogism-as-of-conviction’ and thus speaks to the disposition to act likewise technically in a large or infinite number of cases (syncretising). It should be noted that temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) are in-of-themselves act defects and not being defects. However, such temporal-dispositions are registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect-<as-Being-or-ontological-or-existential—defect> when these relay postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as of formulaic-non-conviction-or-‘existential-decontextualised-transposition’-or-impulsively-dementing (whether of the psychopath or not) inducing

narratives that are slanted/demented/dialectically-or-contendingly-out-of-phase/non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing/not-veridical-thinking-reference-rather-dementing-reference/in-perversion-of-reference-of-thought-and-not-of-logical-contention and are dialectically-primitive; due to the miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising and temporal-enculturation/temporal-endemisation (occurring at the specific temporal-dispositions). For instance, going by the BODMAS equation highlighted before, the mere operation of arithmetic without factoring in A's condition/subknowledging-impulse/impulsive-dementing of incrementalism-in-relative-ontological-incompleteness additionality with 1 leads to a systematic failure that is ontological and not a mere act defect, and defines an uninstitutionalised-threshold. It should be noted that at all uninstitutionalised-threshold, it is ontological-dementation/dialectical-dementation–stranding/attributive-dialectics that enables the mental-reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with)-representation of the registry-worldview's/dimension's-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> as perversion-of-reference-of-thought in construing unsoundness-or-inauthenticity-of-reference-of-thought (stranding-as-mentally-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase) from whence an exercise of 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure with new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation initiates a cross-generational transcendence. Ontologically, the mental-devising-representation of such perversion-of-reference-of-thought is as strands-of-perverting-temporal-dispositions, involving oblongating/decandoring/distractive-alignment-to-reference-

of-thought, that defines the dialectical-out-of-phasing (whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and, in the prospective representation, of procrypticism) as perversion-of-reference-of-thought. For instance, in registry-worldview/dimension terms, medievalism/non-positivistic mental-disposition is systematically registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> at the uninstitutionalised-threshold where you need a positivistic mental-disposition for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. Likewise, procrypticism (perversion-of-reference-of-thought/dementing/unsoundness-or-inauthenticity-of-reference-of-thought/mental-perversion/subknowledging/mimicking-and-corresponding--<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of positivistic reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) is registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> at the uninstitutionalised-threshold where you need deprocrypticism.

Reality being blunt/incisive as it is rather preceding/superseding and ontological-normalcy/postconvergence with respect to us, is in essence an operant and deterministic construct that doesn't have any place for discrete incrementalism-in-relative-ontological-incompleteness notions but even for the cases where such discretion is artificially devised/implied, it is applied as operant and deterministic (consider quantum-mechanics). So ontologically, the mental-devising-representation of perversion-of-reference-of-thought as strands-of-perverting-temporal-dispositions is definitely accurate on two insightful grounds. Reality's bluntness/incisiveness doesn't leave room for discretionary judgments about 'good-natured'/impression-driven conceptualisations of virtue and virtuous judgment within the overarching framework of such the-Good/understanding/knowledge-reification/ontological-

primemovers-totalitative-framework reality determinism, and such impressions can only pass for an illusion-of-the-present/present-consciousness mirage and/or <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (attempting to operate logic in a superseding registry-worldview on the basis of the reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation of a superseded registry-worldview; for instance, God of plane type of statement in say an animistic society that comes in contact with foreigners and a plane). The second reason is that we can garner insight on prior/superseded institutionalisations and understand that the vices-and-impediments are actually cross-sectional to the registry-worldviews/dimensions as of beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought and it is intemporal philosophical development that goes on to liberate/enlighten/moult-out ‘actors of transcendence’ who in turn then shine the light across society, i.e. institutionalisation/intemporalisation by skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/differential-formalisation-transference for the supersedingness of the intemporal-disposition over temporal-dispositions for intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. Transcendence as such is more of a deterministic and operant process than discretionary, and works on the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework basis, even though counterintuitively we tend to turn towards impressions to construe virtue which only confuses the issue as we then wrongly define fulfilling temporal whims (good-natured impressions or not) of the ‘collective consciousness of the corresponding present-consciousness/illusion-of-the-present’ as an intemporal reference for defining virtue (with no ‘emanance disambiguation’/temporal-to-intemporal-dispositions), rather than a transcendental

understanding of the-Good – i.e., knowledge/virtue-as-institutional-cumulation/recomposure-for-intemporal-preservation. This points to the fact that necessarily the structural/paradigmatic virtue construct (knowledge-driven) of recurrent-utter-uninstitutionalisation is base-institutionalisation, ununiversalisation is universalisation, non-positivism/medievalism is positivism, and prospectively, that of our positivism–procrypticism/disjointedness-as-of-reference-of-thought is deprocrypticism/preempting—disjointedness-as-of-reference-of-thought; and so as a veridical and contiguous deterministic-and-operant psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for intemporal-preservation-entropy-or-contiguity-or–ontological-preservation, that knows no discretion!

There are ‘traditionally 4 human mental projections/representations/dispositions’ associated with virtuous paradigmatic construct, analysed from the perspective of an ontological-veridicality establishing ontological-primemovers-totalitative-framework:

(i) The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation (understanding) which is effectively ontologically operant.

(ii) The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation which has poor operance due to bad conviction, though prelogism-as-of-conviction nonetheless.

(iii) An impression-driven/good-naturedness/wishfulness conceptualisation involving perversion-of-reference-of-thought or slantedness operance from an ontological-primemovers-totalitative-framework perspective; which is the foundation for derived-perversion-of-reference-of-thought as of ontological-incompleteness-of-reference-of-thought

(iv) An impression-driven/good-naturedness/wishfulness conceptualisation involving perversion-of-reference-of-thought or slantedness operance from an ontological-primemovers-totalitative-framework perspective; which generates (distractive-alignment-to-reference-of-thought) perversion-of-reference-of-thought/mental-perversion or slantedness along reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the-Good conceptualisation; pointing to the fact that impression-driven/good-naturedness/wishfulness conceptualisations are rather inclined to induce vices-and-impediments given that the veridicality of reality (reflected by the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation) is all the virtue enabler that there is and other conceptualisations are rather distractions that are in effect vice-ridden and an impediment, and more specifically when these undermine the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation.

Impression-driven/good-naturedness/wishfulness conceptualisation lack veridical ontological-contiguity. One may query what is the meaning of good/truth/essence in a recurrent-utter-institutionalised, an ununiversalised or a non-positivistic society? And invariably the answers will be a vague <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of each registry-worldview/dimension, and it is rather the emanant insight of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that carries the prospective transcendences which are the resolution of the successive prior registry-worldview’s/dimension’s uninstitutionalised-threshold vices-and-impediments; and so by successive Being-

development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as base-institutionalisation, universalisation and positivism respectively, and prospectively deprocrypticism. I.e. Increasing knowledge-as-virtue understanding, as of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of their respective elucidation-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules-as-impulsive-or-accidental-or-random-mental-disposition as failing/not-upholding-as-of-apriorising/axiomatising/referencing rulemaking-over-non-rules-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for base-institutionalisation—ununiversalisation, ununiversalisation failing/not-upholding-as-of-apriorising/axiomatising/referencing universalisation-directed-rulemaking-over-non-rules-(as ‘second-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for universalisation—non-positivism/medievalism, non-positivism/medievalism failing/not-upholding-as-of-apriorising/axiomatising/referencing positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules-(as ‘third-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for positivism—procrypticism or prospectively, positivism failing/not-upholding-as-of-apriorising/axiomatising/referencing ‘deprocrypticism preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-

 perpetuating-deprocrypticism). Practically, however ‘good intentioned or good-natured’ a
 non-positivism/medievalism mindset/reference-of-thought it is bound to rely on medieval
 reference-of-thought–categorical-imperatives/axioms/registry-teleology of sickness like a
 curse or witchcraft rather than a positivist notion like infection, and the virtuous outcome is
 fundamentally a question of the-Good/understanding/knowledge-reification/ontological-
 primemovers-totalitative-framework of positivistic understanding, and not any vague
 impression! Not only is impression-driven/good-naturedness/wishfulness conceptualisation at
 best vague, ontologically speaking, it is bound to be extricatory (temporal/circumstantial/self-
 interest paradigm) rather than
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm. Alignment should rather be in transversality-
 of-disambiguated-apriorising/axiomatising/referencing as strands-of-perverting-temporal-
 dispositions as the backdrop for prospective reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation of the-Good/understanding/knowledge-reification/ontological-
 primemovers-totalitative-framework conceptualisation. Further, impression-driven/good-
 naturedness/wishfulness conceptualisation induces both ‘logical and unconscionability-drags.
 A drag is a vague meaningful articulation arising out of veridical incongruence due to the
 nonreality of initiating narratives or propositions, and subsequent structural/paradigmatic
 contiguity of narratives and propositions thereafter from such initial miscues and/or
 intermittent miscues. For instance, supposed going by the example where a psychopath had

wrongly accused someone of being a paedophile (not in terms-as-of-axiomatic-construct of bad conviction or prelogism but rather non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented due to the inexistence of the psychopath's implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), suppose the interlocutor was to go on to in-conviction relay these distortions with other interlocutors, we will talk of a 'miscue', and where other meaning grounded fundamentally on this miscue were to develop, we talk of 'logical-drag', further where comprehensive generation of social meaningfulness were to arise out of this, we talk of 'unconscionability-drag', and finally sub-par/formulaic-association/temporal/alibi conventioning-rationalising refers to the temporal mental-disposition to use conventioning thinking as alibi for temporal-motivated dispositions (over the inherent sense of ontological meaningfulness). Actually, strands-of-perverting-temporal-dispositions are the characteristic backdrop mental-devising-representations of superseded/transcended registry-worldviews/dimensions when we think from an ontological perspective of the soundness-or-authenticity-of-reference-of-thought projection/representation that captures the meaningful framework of a registry-worldview teleology whether regarding a society at its ununiversalisation whether as recurrent-utter-uninstitutionalisation, ununiversalisation, and medieval/non-positivistic, and prospectively, we can garnered such strands-of-perverting-temporal-dispositions with respect to procrypticism from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation.

Human mental development across time validate the notion that we have consistently been in a state of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure as we institutionally skew/deferential-formalisation-transference towards intemporal-preservation-entropy-or-contiguity—or—ontological-preservation with a better grasp of reality and ontological-primemovers-totalitative-framework. Memetic-reordering (psychoanalytic-unshackling) inducing institutionalised skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-formalisation-transference towards intemporal-disposition involves: articulating a social universal-transparency of perversion-of-reference-of-thought defect; positive-opportunism as common interests to institutionally skew/deferential-formalisation-transference towards intemporality; disambiguating temporal-dispositions as the backdrop for new anticipatory and preempting reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; and, intemporal projection superseding of transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic for cross-generational collapsing/overriding of temporal/dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension (and not instant ‘argumentation convincing’ intradimensionally in a registry-worldview/dimension that is defective or perversion-of-reference-of-thought in the first place), and so in transversality-of-disambiguated-apriorising/axiomatising/referencing of temporal-dispositions and the intemporal-disposition; as temporal emanant registries are inclined to aside and syncretise rather than transcend or core/take-stock of the implied perversion-of-reference-of-thought/mental-perversion at uninstitutionalised-threshold. Memetic-reordering

(psychoanalytic-unshackling) is actually the institutionalisation/intemporalisation process at uninstitutionalised-threshold requiring <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection to overcome temporal-dispositions (to supersede <formative>epistemic-totalising-self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase), and so in a pedestalled disambiguation of ontologically veridical intemporal-disposition pedestal, slanting/postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as subknowledging impulse by psychopath pedestal and slantedness/postlogical-integration as perversion-of-reference-of-thought by the temporal-dispositions pedestals. Memetic-reordering (psychoanalytic-unshackling) is thus the central notion of a new and comprehensive human psychology wherein the human psyche is more of a ‘mental devising tool’ involving candoring/prelogism/organic-comprehension-thinking and decandoring/distractive-alignment-to-reference-of-thought /mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. The former (candoring/prelogism/organic-comprehension-thinking) mental orientation points to conviction or prelogism within any registry-worldview/dimension at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation basically focussed on operating/processing logic over supposedly sound reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation while the latter (decandoring/distractive-alignment-to-reference-of-thought /mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation mental orientation points to transcending situations of uninstitutionalised-threshold whereby perversion-of-reference-of-thought/mental-perversions

occur, due to the emanant reality of human temporal-to-intemporal nature, (and are relayed onto the social construct) and operates by reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) perversion-of-reference-of-thought/mental-perversions to establish unsoundness-or-inauthenticity-of-reference-of-thought and as this conjugates temporally with ignorance—affordability—opportunism—exacerbation—social-chainism/negative-social-aggregation—temporal enculturation/endemisation, and the need for new and superseding reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

These fundamental human mental-devising-representation or apriorising—registry tools of candoring and decandoring points to the very nature of logic. Logic requires that all interlocutors share a same reference-of-thought with regards to reference-of-thought—categorical-imperatives/axioms/registry-teleology/registry-teleology for its sound operation, thus logic can only be operated at institutionalised/intemporalised thresholds, and not as of uninstitutionalised-thresholds where there is divergence in reference-of-thought construed meaningfulness-and-teleology construed as transversality-of-disambiguated-apriorising/axiomatising/referencing. At uninstitutionalised-threshold, given the veridicality of human emanance as temporal-to-intemporal, logic is ridiculous because of the variance and unshared reference-of-thought—categorical-imperatives/axioms/registry-teleology/registry-teleology in terms-as-of-axiomatic-construct of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology with respect to argumentation, ‘socially-perceived-value as of social-stake-contention-or-confliction’. At which point no articulation is inherently more right, however, the intemporal-disposition being ontological has ontological-primemovers-totalitative-framework veridicality and carries a positive-opportunism that can allow it to dominate human temporal-dispositions reflecting/perspectivating/highlighting (reasoning-

through-and-not-reasoning-with) their registries/mental-representations perversion, and so, through social institutionalisation/intemporalisation percolation channels in the medium to long-run. It is only after such uninstitutionalised-threshold is superseded/dominated/preceded/overridden/abjected by the intemporal-disposition as an ordered construct institutionalisation/intemporalisation with corresponding human secondnaturing as internalisation and formalisation that logic becomes pertinent as it now operates only on one axiomatic-construct/categorical-imperatives/registry-teleology that establishes the substantive/existential-contextualising-contiguity (not formulaic-projection/mimicry) and veracity/ontological-pertinence of interlocutors' articulations.

Thus the basis for Rational-Realism which is the first institutionalisation/intemporalisation recomposure that goes beyond just articulating reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation by anticipating and preempting the perversion-of-reference-of-thought of a prior/superseded registry-worldview's reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; as rational-realism take stock of the fundamental reality across all institutional-cumulations/institutional-recomposures of human temporal-to-intemporal-dispositions and doesn't just assume the wrong notion of just an intemporal-disposition with the perversion-of-reference-of-thought result that temporal-dispositions induced manifestations are not accounted for, anticipated and preempted beforehand/as-of-a-priori to prevent their perversion-of-reference-of-thought of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation at their uninstitutionalised-threshold thus ensuring ontological contiguity. So with rational-realism the institutional-cumulation/institutional-recomposure intemporal-preservation-entropy-or-

contiguity—or—ontological-preservation comes around as the ‘full-cycle/dynamic recomposuring’ that specifically anticipates and preempt priorly/ahead in its reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation the notion of temporal-dispositions to dement/subknowledge-(dementing-as-if-of-sound-knowledge)/mimick-and-syncretise (rather than subsequently as a transcendence). This raises two dilemma with respect to the conceptualisation of virtue as rational-realism implies that at the procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold, we have to register/acknowledge priorly our inclination to subknowledge-(dementing-as-if-of-sound-knowledge) positivistic registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology to paradoxically then be able to anticipate and stifle this in the active construction of deprocryptic meaning, at which point the ontological-veridicality of meaning then involves not only logical operation/processing/contention on the basis of a sole intemporal-disposition, but equally registries-disambiguation to account for perversion-of-reference-of-thought/mental-perversion/dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by temporal-dispositions:

(i) <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside (as being in denial of perversion-of-reference-of-thought defect) arises where a registry-worldview returns to its same reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that have been shown to be subknowledge-(dementing-as-if-of-sound-knowledge)/perversion-of-reference-of-thought/mental-perversion at the uninstitutionalised-threshold, and hence remains candored/integratively-aligned; contrasted with the instance of the adoption of a new registry-

worldview's (superseding the uninstitutionalised-threshold) reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in anticipation and preemption of the afore perversion-of-reference-of-thought registry-worldview. This latter instance involves Stranding-dialectics or Coring (in reflection/perspectivation and acknowledgment of perversion-of-reference-of-thought) with corresponding decandoring/distractive-alignment-to-reference-of-thought and is what enables memetic-reordering/psychoanalytic-unshackling whereas <formative>epistemic-totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag or Setting-aside at best induces 'memetic-inching/psychoanalytic-realigning' which are not of an immediate transcending nature.

(ii) Conventioning metaphoricity involving in a continuum on one side ontologising rationalising though ontological-veridicality is not the sufficient reason for the social acceptance of rightness for rightness sake (as explained previously) and on the other side intemporality/ontology distractive sub-par/formulaic-association/temporal/alibi conventioning-rationalising.

'Rational-Realism as of Deprocrpticism or institutionalisation/intemporalisation full-cycle' can thus be construed as a contiguous cumulation of successive memetic-reordering (as institutional recomposuring) for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation; with such successiveness due to the limitation of human mentation-capacity to be able to mimeticly (across suprastructural-meaningfulness) come full-cycle in one transcendence, explaining the recomposuring of the successive institutional-cumulations/institutional-recomposures; from recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism,

positivis–procrypticism, and recomposuring full-cycle towards prospective rational-realism as of deprocrypticism.

Correspondingly, due to human limited-mentation-capacity-(as of relative constitutedness towards relative conflation), human memetic/psychoanalytic grasp-and-fulfilment of intemporal-preservation (in devising reference-of-thought–categorical-imperatives/axioms/registry-teleology) is limited at successive instances of transcendence/institutionalisation, due to:

(i) the reality of human dispositions not being just of intemporal-disposition but rather temporal-to-intemporal-dispositions (with temporal-dispositions a drawback/distractive to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at uninstitutionalised-threshold; since these induced in any given institutionalisation a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’ as of temporality/shortness thus raising the issue of the uninstitutionalised-threshold ultimately resolved by ‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation’ as of intemporality, and so on, circularly with the ontological-contiguity—of-the-human-institutionalisation-process.)

(ii) limited memetic-reordering/psychoanalytic-unshackling mentation-capacity (in devising reference-of-thought–categorical-imperatives/axioms/registry-teleology) for the intemporal-disposition as it skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) towards institutionalisation/intemporalisation

(iii) temporal-dispositions for perversion-of-reference-of-thought at uninstitutionalised-threshold (non-conviction-or-existential-decontextualised-transposition-

or-hollow-staging-and-performance-caricaturing-of-
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-
 demented/slanting/miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-
 formulaic-association-or-temporal-or-alibi conventioning-rationalising conjugated-or-
 inflected-or-derived-or-mimicked-in-protraction-to-psychopathic-dementing with temporal-
 dispositions of the prelogism-as-of-conviction act defects of
 ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
 negative-social-aggregation/temporal-enculturation-or-temporal-endemisation)

Hence intemporal-preservation is a memetically/psychoanalytically evasive construct
 at uninstitutionalised-threshold, the pursuit of which is veridically the human species
 eudaemonic contemplation, construed as ‘postconvergence memetic recomposuring’;
 recomposure is defined as ‘ontological-representation/ontological-memetism of intrinsic-
 meaningfulness (whether implying, on the one hand, an integrative/candor/organic-
 comprehension-thinking alignment or on the other hand, a
 distractive/decandored/mechanical-comprehension-dementing in hollow-constituting—as-
 disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-
 preservation/protracted-non-conviction alignment) towards intemporal-preservation-entropy-
 or-contiguity—or—ontological-preservation’ (as validated by veridicality/ontological-
 primemovers-totalitative-framework). This definition explains the succession of the
 recomposuring of institutionalisations with the notion that where intemporal-preservation-
 entropy-or-contiguity—or—ontological-preservation is lost at a registry-
 worldview’s/dimension’s uninstitutionalised-threshold, a prospective registry-
 worldview/dimension is implied/recomposured that will ensure intemporal-preservation-
 entropy-or-contiguity—or—ontological-preservation, and undermines notional-
 discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-

schema>/epistemic-totalising–self-referencing-syncretising/setting-aside by appropriate
 stranding/coring representation (-of-perverting-temporal-dispositions) as the backdrop for the
 prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought–
 categorical-imperatives/axioms/registry-teleology. That is, ‘human progress/transcendence
 happens as a matter of fact, with no registry-worldview/dimension having any ontological
 and veridical claim/pretence to extricate itself from psychoanalytic-unshackling/memetic-
 reordering/institutional-recomposure—as-dialectical-stranding-backdrop-for-prospective-
 transcendence once it is shown that it subknowledges-or-mimics (as perversion-of-reference-
 of-thought) its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
 intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its
 uninstitutionalised-threshold, even though this from the temporal-dispositions
 mindset/reference-of-thought is always an unpalatable proposition. But then the state of being
 in a transcended registry-worldview/dimension (as in our present positivist registry-
 worldview/dimension) arises because other prior registry-worldviews/dimensions
 successively underwent their own psychoanalytic-unshackling/memetic-
 reordering/institutional-recomposure—as-dialectical-stranding-backdrop-for-prospective-
 transcendence for intemporal-preservation-entropy-or-contiguity–or–ontological-
 preservation, at their uninstitutionalised-threshold; and so, going back to the recurrent-utter-
 institutionalised early men who left the caves and trees, thus any denial of prospective
 transcendence as articulated above is an argument which incoherence emanantly imply ‘we
 should go back to the caves and trees’, as we’ll seem to validate that prior registry-
 worldviews/dimensions should never had transcended up to our very own registry-
 worldview/dimension, and beyond, prospectively.

Stranding (-of-perverting-temporal-dispositions-of-reference-of-thought) should be
 construed at a registry-worldview’s/dimension’s uninstitutionalised/solipsistic threshold (the

threshold where the registry-worldview/dimension is failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or-ontological-preservation), as the ‘base structural/paradigmatic decandored/distractive-alignment-to-reference-of-thought perversion-of-reference-of-thought defect reflex’ (not a straightness/candor/organic-comprehension-thinking/prelogism reflex), and stranding-dialectics rather points to ‘a (lack of) the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework reflection/perspectivation’ (hence a veridical ontological-primemovers-totalitative-framework as operant and deterministic, and not an impression-driven/good-naturedness/wishfulness nor a veridically logically-disjointed/discretionary reflection/perspectivation). Stranding is thus articulated as non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented/dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag slanting/miscuing/disjointed-logic/logical-drag/unconscionability-drag/subpar-conventioning-rationalising conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect>’ (induced from temporal-dispositions prelogism-as-of-conviction act defects of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). The memetic-reordering is in recomposuring, at the uninstitutionalised-threshold, the non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-

demented/dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apriorising—registry (registry-worldview) elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology (i.e. reference-of-thought—categorical-imperatives/axioms/registry-teleology) towards the transcending registry-worldview’s implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology (categorical-imperatives/axioms/registry-teleology) for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, in re-institutionalising the uninstitutionalised-threshold.

There is no reason for stranding-dialectics and recomposuring but for the fact that the internal coherence of a registry-worldview/dimension is failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at its uninstitutionalised-threshold, as it provides the dynamic association for psychopathic/postlogical subknowledging/mimicking impulse leading to the vices-and-impediments of the registry-worldview/dimension from an intemporal/ontological perspective; and ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity—or—ontological-preservation veridicality (as ontological-primemovers-totalitative-framework) is the drive that resolves lack of human mentation-capacity for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (at uninstitutionalised-threshold) by stranding-backdrop-for-transcendence and then recomposuring prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology. The example highlighted on page 12 provides an excellent ‘logical insight’ on stranding-backdrop-for-transcendence and recomposuring of a registry-worldview/dimension that is failing/not-upholding-as-of-

apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity-or-
 ontological-preservation at its uninstitutionalised-threshold ...

To grasp this better say for instance the normal arithmetic we know $2+2=4$, $5+1=6$, $7-3=4$, etc. was to be undermine by a new human subknowledging caused by a disease wherein we tend to say $2+2=5$, $5+1=7$ and $7-3=3$, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-of-disambiguated-apriorising/axiomatising/referencing ontological-normalcy/postconvergence). Thus reference-of-thought–categorical-imperatives/axioms/registry-teleology are ‘mental and institutionalisation inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity-or–ontological-preservation). Hence a false subknowledging/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders reference-of-thought–categorical-imperatives/axioms/registry-teleology null and void, calling for overcoming the slantedness/decandoring/distractive-alignment-to-reference-of-thought of mental-devising-representation as to its unsoundness-or-inauthenticity-of-reference-of-thought arising from the perversions-and-derived-perversions-of-reference-of-thought, and the articulation of new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology reflecting the intemporal-preservation-entropy-or-contiguity-or–ontological-preservation as intrinsic reality.

In practical terms, human/social VIRTUE is effectively articulated at ‘the crossroad of the notions’ of intemporal-disposition, ontologising/intemporal philosophical deference, conventioning, animality (the recurrent temporal-dispositions to subknowledge-(dementing-

as-if-of-sound-knowledge) intemporal reference-of-thought–categorical-
imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
or–ontological-preservation across successive institutionalisations) and institutional
recomposuring (prospective memetic-reordering).

It is important to note that an ontological construct ‘escalates’ specific/particular instances of phenomena (in this case psychopathy and social psychopathy phenomenon) into a universal conceptualisation which ‘knowledge principle conceptualisation’ then addresses (percolates into) the ‘infinity of related incidental phenomena and cases’, i.e. newton articulates the science of mechanics metaphorically from ‘an initial apple that hits his head why under a tree’ not because the science of mechanics will revolve around an apple that hit his head but because he’ll grasp the insight to understand the myriad and infinity of instances requiring those laws of physics. So the intemporal-as-ontological pedestal (in its treatment) involves universal projection to grasp universal principles and is not meant to ‘equivocate and idle’ with perversion-of-reference-of-thought temporal manifestations which are dialectically-or-contendingly-out-of-phase, but rather then apply the knowledge principles so articulated to the theoretically infinite incidental instances (on the validation and untenability/internal-contradiction/internal-incoherence/institutional-constraining or internal-contradictions induced by the knowledge principles ontological-primemovers-totalitative-framework).

Of course, no registry-worldview/dimension thinks of itself as prospectively dialectically-primitive/dialectically-or-contendingly-out-of-phase, and as such its ‘supposed contention’ will always by reflex strive to arrive at an equilibrium in the same registry-

worldview's/dimension's institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology, but the template of human transcendence shows that the intemporal prospective/superseding registry-worldview reference-of-thought takes precedence with contention construed by its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by the ontological-normalcy/postconvergence prioritisation of the relatively intemporal/universal/intrinsic, hence, ‘the inherent cumulating/recomposing of intemporal-preservation-entropy’ going from recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivis–procrypticism, and prospectively deprocrypticism. Such a subknowledging/mimicking/registry-worldview denaturing resistance is not attended to logically/by-logical-congruence since a perversion-of-reference-of-thought as-of-its-unsoundness-or-inauthenticity-of-reference-of-thought/subknowledging registry-worldview/dimension is circular and syncretic in its logic (as it circularly makes reference to its defective/perverted reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) but by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure through the untenability/internal-contradiction/internal-incoherence/institutional-constraining induced by the ontological-primemovers-totalitative-framework of the prospective intemporal-disposition-worldview/dimension (with its more appropriate recomposed reference-of-thought–categorical-imperatives/axioms/registry-teleology/registry-teleology); involving rather a cross-generational collapsing/overriding of the temporal/dialectical-dementing—<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension (and not instant ‘argumentation convincing’ intradimensionally in a registry-worldview/dimension

that is defective as of perversion-of-reference-of-thought in the first place), and so with transversality-of-disambiguated-apriorising/axiomatising/referencing of temporal-dispositions and the intemporal-disposition, as temporal emanant registries are inclined to aside and syncretise rather than transcend or core/take-stock of the implied perversion-of-reference-of-thought registry-worldview-perversion. For instance, men did not transcend from a medieval worldview to a positivistic worldview by a ‘logical exercise’ (the logical conceptualisation we have of such a transformation in today’s positive world is rather in effect an afterthought appraisal) but because the grander grasp on reality of positivism constrained and made the medieval registry-worldview untenable/internally-contradictory (the ships that set sail around the world for spices elicit a positive commercial opportunism that is responsible for destroying the social myth of a flat world; the bacteria theory that will ensure that one lives or die if we believe in it or not coerced the destruction of a superstitious medical worldview; the scientific tools and knowledge that ensured that nation A or nation B will triumph if they believe in it or not, coerces the need to adopt a scientific worldview, etc.). It is naïve to think that such progression occurred because of cross-sectional human ‘<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness disposition’. Rather it is a secondnatured/ontological-contiguity—of-the-human-institutionalisation-process as this notion inherently validates the anthropological-continuity by distinguishing between the notion of same human natural ability across the various registry-worldviews/dimensions and the notion more and more profound institutionalised registry-worldviews/dimensions arising out of human institutional-cumulation/institutional-recomposure to the capacity bestowed by their forerunners; such that human limited-mentation-capacity is always mostly directed to the transformative of activities while taking for granted much of the bestowed knowledge heritage. Hence we can’t overrate the ‘<formative>epistemic-growth/transvaluative-

real, as the backdrop for ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; in the same way as the stranding-of-temporal-dispositions-dementing of non-positivism/medievalism provided the backdrop for positivism recomposing or that of ununiversalisation for universalisation recomposure or that of recurrent-utter-uninstitutionalisation for base-institutionalisation recomposure. It should be noted that at institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, temporal-dispositions potential inclination for dementing is suppressed by formalism and internalisation involving intemporal meaningfulness social universal-transparency, internal-contradiction, registering/stranding as sound or unsound, and alienating of unsound meaningfulness to stifle any such mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. At uninstitutionalised-threshold (extended informalities), no formalism and internalisation (generated by the intemporal-disposition for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) exists in preemption leading potentially to dementing. Basically, such a representation of organicism and mechanicalism can be storied or narrated as follows:

Supposed going by the case highlighted where a psychopath met a stranger talking about another stranger as molesting children; the so accused stranger was actually a guardian of the child assuming various responsibilities that come with it (this represents the organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) depth of meaning), the psychopath fully aware of this none the less proffered such hollow mimicking narratives to the other stranger who aligned in-conviction/prelogically/prelogically to the psychopath but is

veridically now in effect non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented/postlogical by ignorance, and goes on to miscue by articulating that the accused stranger should be reported to the police or any other relevant organisation, and possibly does that. Further still, this miscuing comes to develop into disjointed-logic, logical-drag, unconscionability-drag, temporal-dispositions preservation, and sub-par/formulaic-association/temporal/alibi conventioning-rationalising wherein ‘a comprehensive depth of perverted narratives’ has now been cultivated in the social environment. All such denaturing (and as are conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing to human temporal defects of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’) are a perversion-of-reference-of-thought mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation to the organic veridicality (deprocrypticism). In the bigger scheme of things, denaturing of apriorising—registry (as the apriorising—registry is the axiomatic-construct/categorical-imperatives on which logic operates/is processed pointing to a coherently systematic failure of logic at the uninstitutionalised-threshold; consider that the non-positivism/medievalism apriorising—registry will coherently fail logical operation/processing/contention with regards to its uninstitutionalised-threshold requiring positivism, that’s the same emanant issue with

procrypticism at its uninstitutionalised-threshold requiring deprocrypticism) do not simply point to an act defect but registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> about-and-defining the vices-and-impediments of the said registry-worldview/dimension, that abstractly apply with regards in this case not to one instance of human psychopathy and one case of social context of protracted social psychopathy but points to a registry-worldview/dimension defect that points abstractly to metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation/an-ontological-or-existential-defect of such psychopathic and protracted social psychopathy, in the same vain as the phenomena of witchcraft in a non-positivist/medieval society 'for an ontological/intemporal projecting mind' is more than just a case of witchcraft in a given non-positivism/medievalism locale but goes beyond to define a dimensional defect of non-positivism/medievalism across all human societies that are qualified as non-positivism/medievalism with the idea that the 'disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation' in the bigger scheme of things is more than just a locale but a universal articulation of positivistic thinking as the universal resolution of the vices-and-impediments associated with a witchcraft and superstition endemising/enculturating worldview. It should be noted that however 'good-natured an individual' in that worldview the basic knowledge defect of that worldview as non-empirical/superstitious defines the disposition of any such individual, as they adhere to the reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation of that registry-worldview/dimension, to commit vices-and-impediments associated with non-positivism/medievalism, since virtue actually lies in the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework' of being empirical/non-superstitious/positivistic. That's equally the problem you have with

procrysticism or perversion of reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of a positivistic registry-worldview as the virtue lies in the the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ as involving psychopathic demented postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, and its corollary as social psychopathy involving conjugating/inflecting/deriving demented postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation by the temporal-dispositions of ignorance, unconsciously, and consciously, affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation; slanting/dementing of positivistic registry-worldview/dimension reference-of-thought—categorical-imperatives/axioms/registry-teleology. That is, the ontological-primemovers-totalitative-framework is the perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought/dementing/subknowledging/mimicking—and—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. In which case contention (being about intemporal-preservation-entropy-or-contiguity—or—ontological-preservation beyond just the dementing/mimicking-or-subknowledging of ‘previously recomposured/invented’ reference-of-thought—categorical-imperatives/axioms/registry-teleology, -for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) becomes rather an intemporal-disposition reflection/perspectivation and ‘disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation’ of such psychopathic/temporal-dispositions slantedness/dementing/mimicking-or-subknowledging as

perversion-of-reference-of-thought/mental-perversion, and not logical-contention/contending-articulation. Such perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought in effect involves on the part of psychopathic and conscious conjugated-postlogism minds as with exacerbation-temporal-disposition ‘vice in demented perversions’ wherein the mimicry/subknowledging enters into an active dynamics with temporal-dispositions prelogism-as-of-conviction, which elevate such non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented perversion-of-reference-of-thoughts/mental-perversions by prelogism-as-of-conviction (which is actually in effect mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as miscues to psychopathic/postlogism-slantedness, and subsequent protraction into disjointed-logic, logical-drag, unconscionability-drag, temporal-dispositions preservation and sub-par/formulaic-association/temporal/alibi conventioning-rationalising); such that this development is actually an instrumentalisation of the initial directed-dementing. Directed-dementing as such being a conscious and operant mental awareness of psychopathic/postlogical minds of the void of their narratives and teleology but understanding and acting by instrumentalisation on the basis that prelogical/conviction minds are disposed to elevate the hollow mimicking narratives (by ignorance and/or subsequently affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to wrongly validate the apriorising—registry as veridical thus falsely implying an implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology.

Just as we work with the reality that all humans are disposed to have cancer and the virtue of curing is not denying but anticipating and preempting the possibility of having cancer with medicines, lifestyle, research, etc., i.e. ‘ontology is about working with what is/knowledge-driven, and not wishful-thinking/impression-driven’ to accede to intrinsic-reality transcendental-enabling/sublimating as it enables ontological-primemovers-totalitative-framework. It is bluntly speaking a registry-worldview’s/dimension’s institutionalisation/intemporalisation exercise involving the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-formalisation-transference towards the intemporal-disposition for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, to ‘pedestally dominate and override’ temporal-dispositions in the cross-section/averageness/banality of solipsistic human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. Reality is actually an ontological-primemovers-totalitative-framework construct. Mythologies, metaphysics and hearsays while proto-conceptual in human development are out of kilter, and the use of ontological-primemovers-totalitative-framework conceptualisation is the central notion of ontologies. Insightfully, human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor speak of ‘the-real-nature-of-man’ that can be skewed with institutional recomposuring/memetic-reordering/psychoanalytic-unshackling towards intemporal-preservation-entropy-or-contiguity—or—ontological-preservation to explain how-man-can-be/the-nature-of-man at any registry-worldview level, retrospectively or prospectively. Whereas, man, if naively perceived as a whole rather only from the angle of a specific ‘institutionalisation/secondnaturing level’ which is in ‘existential immediacy’ this

may seem to indicate that we are talking about ‘different species’ with ‘different ontological determinants’, which is naïve and false. The anthropopsychological approach to psychology is analogical to the development of physics which is not only on the basis of what is immediately at the conscious operational level of physicists but equally projecting into a physics conceptualisation of the macrocosm (astronomy and cosmology) as well as the microcosm (particle physics) in order to place the subject on a comprehensively sound footing. Central to such a sound footing in the ontological-normalcy/postconvergence conceptualisation of the social domain is the idea of temporal-to-intemporal-dispositions and institutional-cumulation/institutional-recomposure.

On another note, it is critical to distinguish between a true philosophical development that arises by intemporal and an institutionalised development that is articulated to elicit ‘positive-opportunism’ in humans, so that the intellectual exercise doesn’t naively project a philosophical idealism where this doesn’t exist and by so doing undermine its work by naively projecting universal intemporality/longness and failing/not-upholding-as-of-apriorising/axiomatising/referencing to articulate a realism that takes account of temporal mental-dispositions (knowledge notionalisation, i.e. apprehending not only intemporal implications of any knowledge construct, but preempting by transversality-of-disambiguated-apriorising/axiomatising/referencing to potential temporal undermining of that intemporal idealism construct; the reason we institutionalise/intemporalise and formalise with subsequent internalisation/secondnaturing).

It should be noted that the use of the concepts of intemporality/longness and temporality/shortness is more scientific than the impression notions of good and bad. intemporality/longness points to ‘what generates the greatest universal virtue as ontological

which is universally-centered' (and that this corresponds to reality-referencing and the ontology pedestal) while temporality/shortness points to 'what generates the non-ontological as shallow interest that may be self-centered, at various pedestals, (and that this corresponds to

<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and metaphysical pedestals)'.

intemporality/longness and temporality/shortness as such are operant knowledge concepts while good and bad are vague and non-operant impression concepts. In fact, why good and bad are impression-driven, intemporality/longness and temporality/shortness by their very definition above are made operant as an ontological-primemovers-totalitative-framework scientific principle (without making any reference to stigmatising impression of virtue) by the denotation as longness-of-register-of-meaningfulness-and-teleology (intemporality) and shortness-of-register-of-meaningfulness-and-teleology (temporality). That is, with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' (at uninstitutionalised-threshold) the intemporal mind conceptually asks what is the best disposition in universal-depth that abstractly delivers the greatest good to all humans in similar 'socially-perceived-value as of social-stake-contention-or-confliction' setup across space and time; while temporal minds under the same notion (intemporality-temporality) conceptually assume lower and lower shades 'in mentation-capacity terms' of such an intemporal universal-depth concept articulation stressing in lieu of 'all humans' various shades of ununiversal, particular or temporal-self-interest dispositions. So there is a depth of continuity in ontological-primemovers-totalitative-framework in the notion of intemporality-temporality that doesn't need any impression-drive, and this notion can certainly be made scientifically operant as it is a contiguous mentation-capacity-based notion in terms-as-of-axiomatic-construct of low to high mentation-capacity. The idea of shortness-of-register-of-meaningfulness-and-teleology and longness-of-register-of-meaningfulness-and-teleology as such is devoid of stigmatisation

which is the result of articulating meaning with respect to vague impression-driven temporal references harkening back to the prior/transcended/superseded reference-of-thought rather than the prospective/transcending/superseding reference-of-thought; since shortness-of-register-of-meaningfulness-and-teleology and longness-of-register-of-meaningfulness-and-teleology are a contiguous value construct as in <formative>epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation beyond just <formative>epistemic-totalising_random-as-impulsive-phenomenal-abstractiveness-of-presencing-in-‘trepidatious-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (impulsive-or-accidentated-or-haphazard-or-random mental-disposition), <formative>epistemic-totalising_nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in-‘warped-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (allegiance/subservience transience), <formative>epistemic-totalising_ordinal-as-qualifying-phenomenal-abstractiveness-of-presencing-in-‘preclusive-consciousness’-enabling-

 depth/register-of-meaningfulness (in memetic reordering depth) that allows for a grasp of the-
 Good intemporal-disposition (i.e., beyond just an intradimensional 'good-natured'
 conceptualisation) of intemporal-preservation-entropy-or-contiguity—or—ontological-
 preservation, with the memetic-reordering directly associated with the referential entropy in
 institutional-cumulation/institutional-recomposure/transcendence. Thus by
 intemporality/longness as a the-Good conceptualisation as 'longness-of-register-of-
 meaningfulness-over-shortness-of-register-of-meaningfulness-and-teleology', that specificity

(as pursued in this paper) that informs ontological understanding of not idling and articulating meaningfulness in equivalence of temporality/shortness in its various shades, but rather with intemporal purpose and intent, and an ultimate quest for validation only as an ontological-primemovers-totalitative-framework conceptualisation will be qualified as ‘longness-of-thought’; and it strives to achieve a prospective structural/paradigmatic existential registry-worldview/dimension conceptualisation of transcendence wherein aetiologisation/ontological-escalation for prospective transcendental intemporal virtue is the underlying drive. The non-implication of an equivalence between (‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness pedestalling) with temporality/shortness in its various shades will imply a knowledge conceptualisation rather from the perspective of the comprehension of human species intemporal potential rather than mere extrication within a temporal inter-individuals-and-social-stake-contention-or-confliction context, wherein for instance the focus of a positivistic-inclined mindset/reference-of-thought is not to idly engage a medieval world in medieval terms to stigmatise as a final end but rather for the virtuous human species potentiality to transcend into positivism, and on the other hand equally not to shy away from articulating, however temporally unpalatable and unintelligible-or-existentially-suprastructural for the temporal present registry-worldview/dimension, an intemporal transcendental prospection on the validation that the present registry-worldview/dimension is the outcome of a same-kind intemporal transcendental prospection with a same-kind corresponding emanance unpalatability and unintelligibility for the preceding registry-worldview/dimension, be it in that case driven by a spontaneous and natural dialectical cycle of social constraints of stakes and confliction, in contrast now to a more ‘consciously directed’ abstract understanding regarding deprocrypticism-over-procrypticism (with intellectual responsibility itself being defined as the spirit for

authentically upholding such construing/conceptualisation and/or facilitating it as enabling further self-development together with the furthering of social/specie development).

The use of ‘human mental-dispositions/individuations’ as temporal-to-intemporal doesn’t mean ontologically that the analyst view is that some individuals are inherently/exclusively solipsistically temporal and others are inherently/exclusively solipsistically intemporal. But rather, it is an abstract construction of human temporal-to-intemporal mental-dispositions/individuation potential possibilities that can incidentally arise in any individual by a circumstance or circumstances across time and space; but with a strong propensity of specific dispositions being nurtured in varying profundity across different individuals as per context. This abstract and fleeting notion is known as ‘individuation’ (more like an abstract and superseding ‘hermeneutic-aetiology’ of temporal-to-intemporal dispositions, and hence the possibility of ontological-primemovers-totalitative-framework or scientism), and is the more scientific notion over ‘individual’ (which is just the receptacle of individuations).

By pedestal is meant the ‘temporal-to-intemporal individuations dispositions of meaningfulness’ whether the intemporal-disposition individuation-pedestal or the temporal-dispositions individuations-pedestals (ignorance-temporal-disposition individuation-pedestal, affordability-temporal-disposition individuation-pedestal, opportunism-temporal-disposition individuation-pedestal, exacerbation-temporal-disposition individuation-pedestal, social-chainism/social-discomfiture/negative-social-aggregation-temporal-disposition individuation-pedestal or temporal-enculturation/temporal-endemisation-temporal-disposition individuation-pedestal). The intemporal and temporal-dispositions-registries individuations-pedestals imply and point to the underlying ontological-primemovers-totalitative-framework

basis of ‘the specific temporal-disposition meaningfulness-and-teleology. Further, by psychopathic or other postlogical subknowledging/mimicking-and-mimicking-protraction, the ‘temporal-dispositions individuations-pedestals’ wrongly conjugate/inflect/derive their apriorising—registry-elements (implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) from aligning prelogically to postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation thus effectively being postlogical, and this can thus be predicated as per the ‘specific temporal-disposition’. Such postlogical temporal-dispositions individuations-pedestals are conjugated/inflected/derived/mimicked-protraction-to-psychopath’s impulsive-dementation (as derived from both psychopathic and others postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation slantedness/insane-fitment/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness-dispositions) in epistemic-decadence (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing_qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’). These will include ‘postlogical ignorance-temporal-disposition individuation-pedestal’, ‘postlogical affordability-temporal-disposition individuation-pedestal’, postlogical opportunism-temporal-disposition individuation-pedestal, postlogical exacerbation-temporal-disposition individuation-pedestal, postlogical social-chainism/negative-social-aggregation/social-discomfiture-temporal-disposition individuation-pedestal, and postlogical temporal-enculturation/temporal-endemisation-temporal-disposition individuation-pedestal). While the prelogical/conviction ‘ontologically-reconstituting’ intemporal-disposition-teleology is rather the ontologising individuation-pedestal as it strives perpetually to define-and-redefine categorical-imperatives

‘Unconscionability-drag’ (from an ontological/intemporal reference) refers to the comprehensive state of undisambiguation of temporal-dispositions individuation-pedestals which are wrongly associated to the intemporal-disposition to be ontological as these conjugate/infect/derive (in mimicking-protraction) with the psychopath’s impulsive-dementation insane-fitment/slantedness/mere-possibility narratives which are dialectically-or-contendingly-out-of-phase/hollow-mimicking) inducing temporal-dispositions epistemic-decadence (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-contiguity-as-absolving/fleeting/escaping-reflex-logic or-hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex-of-the-in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-

In which case the temporal-dispositions are ‘technically psychopathic’ with corresponding conjugated/inflected/derived/mimicked-protraction-to-psychopathic impulsive-dementation (temporal unsoundness-or-inauthenticity-of-reference-of-thought-teleologies/registries-perversion-teleologies/mental-perversions-teleologies, with corresponding groundless implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology); and are rather the subject of contention and aetiologisation/ontological-escalation reflected/perspectivated as manifestations of perversion-of-reference-of-thought and not logical contention. And so, in distractive-alignment-to-reference-of-thought in a temporal contiguity (procrypticism) allowing for the conceptualisation of the registry-worldview’s/dimension’s as dialectically-out-of-phasing (dialectically-primitive) over which new recomposuring reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation is construed to reflect/preempt the perversion-of-reference-of-thought, for ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recompose of the prospective registry-worldview’s/dimension’s(deprocrypticism) new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation while keeping the temporal-dispositions downgraded/oblongated/decandored/in-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-

Given that at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding’, whether intemporal (the-Good as longness-of-register-of-meaningfulness-and-teleology) or temporal (shortness-of-register-of-meaningfulness-and-teleology); it is this mental-devising-representation as the ‘unconscionability-drag’ that provides the backdrop for skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/differential-formalisation-transference for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (enabling ontological reference), as it achieves social universal-transparency’ with corresponding untenability/internal-contradiction/internal-incoherence/institutional-constraining, in reflecting-and-preempting the comprehensively distractive-alignment-to-reference-of-thought of the subknowledging dimension temporal-dispositions for the prospective registry-worldview’s/dimension’s(deprocrypticism) intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Unconscionability-drag (from an ontological/intemporal reference) also points to the fact that at any institutional registry-worldview/dimension, there can be two mental alignments; whether the apriorising–registry is at the institutionalised/intemporalised threshold of meaning (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) or at the uninstitutionalised-threshold of meaning involving perversion-of-reference-of-thought requiring distractive-alignment-to-reference-of-thought, and in the latter case the reflex to be integratively aligned is lost across all the temporal-dispositions of the perversion-of-reference-of-thought dimension, and what is called for with the

unconscionability-drag is a distractive-alignment-to-reference-of-thought which will explain a dialectically-or-contendingly-out-of-phase or dialectically-primitive alignment by oblongating/decandoring/downgrading. * I.e. Remember ‘mental-devising-representation’ is a devising construct of preceding/superseding abstract reality/veridicality (postconvergence) as the latter never changes, and it is mental devising that adjusts to the illumination/insight we get about abstract reality/veridicality as validated by ontological-primemovers-totalitative-framework!

In the bigger scheme of things, ‘unconscionability-drag’ as a notion points to ‘ontological abstraction and mental-devising-representation of reality/veridicality defect’ whether dealing with psychopathic postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or temporal-dispositions conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation s or simply plain temporal-dispositions ‘defective mental-devising-representation of ontological reality/veridicality’. The notion of ‘unconscionability-drag’ thus extends to all mental-devising-representation of perversion-of-reference-of-thought of all registry-worldviews/dimensions with respect to the prospective transcendental as the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation registry-worldview/dimension, which is the point of ontological referencing (point-referencing).

The reason why the ‘study of the social’ had hitherto been EPHEMERAL is because of the lack of contiguity in referencing the two elements of ontological meaning (reference-of-thought and logic); with reference-of-thought being hitherto undisambiguated in the social construction of meaning, thus leading to a ‘lack of constraining social universal-transparency of temporal-dispositions prior relative-ontological-incompleteness-of-prior-reference-of-

thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-
 caricaturing—so-construed-as-from-prospective-reference-of-thought. However as articulated
 above, the ‘unconscionability-drag’ carries the resolution for disambiguating reference-of-
 thought in the ontological social construction of meaning as it is fully aligned or ‘in ratio
 alignment’ to ‘an emanant transdimensional (across registry-worldviews) point-referencing of
 intemporal-preservation-entropy’ while reflecting a social universal-transparency that shows

 discomfitures in the social-construct of meaning, and hence the perversion-and-derived-
 perversion-of-reference-of-thought, and elicits an ordered construct of meaning reference-of-
 thought (in terms-as-of-axiomatic-construct of implied—logical-dueness-or-scape/profile-or-
 stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) from the
 superseding perspective of intemporal-preservation-entropy-or-contiguity—or—ontological-
 preservation alienative-hierarchisation and ‘disambiguation of temporal-to-intemporal-
 dispositions as ontological-escalation/aetiologisation’ (longness-of-register-of-
 meaningfulness-and-teleology). This actually represents the human ‘ temporalities-to-
 intemporality constant’ at all registry-worldviews/dimensions (as postlogism-

Practically, this involves articulating: (i) the dialectically-or-contendingly-out-of-phase/dialectically-primitive-or-formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented/postlogical) psychopath's insane-fitment narratives epistemic-decadence (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'/non-ontological-reference-or-non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing/not-veridical-thinking-reference-rather-dementing-reference/perversion-of-reference-of-thought-and-not-of-logical-contention) teleology (ii) the dialectically-or-contendingly-out-of-phase/dialectically-primitive) procryptic temporal-dispositions teleological conjugations/inflections/derivations to the psychopath's dialectically-or-contendingly-out-of-phase/hollow-mimicking) insane-fitment/slantedness/unsoundness-or-inauthenticity-of-reference-of-thought narratives, whether they are ignorant, affordable, opportunistic, exacerbating, social-chainism/social-discomfiture/negative-social-aggregation or temporal-enculturation/temporal-endemisation (iii) the dialectically-or-contendingly-in-phase/transcendent/deprocryptic 'disambiguation of temporal-to-intemporal-dispositions as ontological-escalation/aetiologisation' reflecting the psychopath's and other temporal-dispositions veridical mental/perversion-of-reference-of-thought/mental-perversions/unsoundness-or-inauthenticity-of-reference-of-thought dispositions.

Unconscionability-drag (enabling ontological reference), by which the perversion-of-reference-of-thought/mental-perversions teleologies of meaning is accounted for can be demonstrated below elaborating on the example highlighted before.

Of course, this is just a most basic demonstration as ideally one can imagine a creative storied narrative should articulate the phenomenon to its utmost evolving complexities – a storying construal involving an underlying-and-superseding intemporal/ontologising emanant ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness as of historicity/ontological-eventfulness/ontological-aesthetic-tracing as of the notional-conflatedness of notional-deprocrypticism’ for ‘postconvergence intemporal-preservation-entropy-or-contiguity—or—ontological-preservation longness-of-register-of-meaningfulness-and-teleology as of deprocrypticism teleology’ putting into perspective ‘temporal emanant conjugations/inflections shortness-of-register-of-meaningfulness-and-teleology as of procrypticism teleologies’.

For instance, the storying construal ‘ontological/intemporal veridicality’ of non-positivism/medievalism perversion-of-reference-of-thought will be ‘abjectly referenced’ from positivism; likewise that of recurrent-utter-uninstitutionalisation inherently-’dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag will be ‘abjectly referenced’ from base-institutionalisation, that of ununiversalisation perversion-of-reference-of-thought will be ‘abjectly referenced’ from universalisation, and thus that of procrypticism/disjointedness-as-of-reference-of-thought perversion-of-reference-of-thought has to be ‘abjectly referenced’ from deprocrypticism/longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology. The reason for the above is that you can’t address a registry-worldview/dimension perversion-of-reference-of-thought phenomenal defect (psychopathy) without addressing the defects of the registry-worldview/dimension

(procrpticism) that endemises it from the reference of the prospective transcendental dimension, just as you can't address witchcraft without fundamentally addressing a non-positivism/medievalism registry-worldview that will necessarily and readily endemise superstitions and witchcraft. The peculiarities of successive institutionalisations is that these address the successive emanant dimensional defects of: recurrent-utter-uninstitutionalisation by emphasising 'base-institutionalising', ununiversalisation by emphasising 'universalising', superstition/non-positivism/medievalism by emphasising 'positivising', and procrpticism or emanant-wrong/demented-shades-of-the-real by emphasising 'undermining subknowledging/mimicking' or deprocrpticism or 'longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology' (noting that the latter institutionalisation/intemporalisation contains the previous institutionalisations up to its own threshold of institutionalisation/intemporalisation, with deprocrpticism being organically imbued with all the prior/superseded institutionalisations); all these, pointing to 'an ontological psychoanalytic/memetic-contiguity deconstruction across anthropology' which the present treatment of psychology doesn't recognise:

(i) Psychopath narrative teleology: an adult psychopath meets a stranger and speaks to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children

(ii) temporal-dispositions narratives teleologies: a stranger not knowing the other stranger aligning prelogically to the psychopath's narrative will have a 'conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing ignorance-temporal-disposition defect' if it articulated the following narrative:

(a) Such a person should not be allowed to roam the streets and should be interned.

A 'conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing affordability-temporal-disposition defect' will arise if another interlocutor knowing the

accused for not truly being a child molester but because of expediency with respect to the psychopath articulates the following narrative:

(b) the guy is actually a bad person and they will not be surprise that he is a child molester.

A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing opportunism-temporal-disposition defect’ will arise if a different interlocutor knowing truly that the accused is not a child molester but for a favour or sense-of-favour they owe to the psychopath articulates the following narrative:

(c) this guy has been going around molesting young children for quite a while now.

A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing exacerbation-temporal-disposition defect’ will arise where another interlocutor knowing the truth about the whole thing, thinks they can have an advantage by acting likewise as the psychopath and articulates the following narrative

(d) they had actually witnessed the accused shoplifting.

A ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing social-discomfiture/(social-chainism/negative-social-aggregation)-temporal-disposition defect’ will arise where

(e) such narratives are purposefully and consistently relayed in the social sphere based on ignorances, affordabilities, opportunisms and exacerbations, and individuals come to make it a reference for their relation with the accused.

And finally, a ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing temporal-enculturation (temporal-endemisation)-temporal-disposition defect’ arises where

(f) individuals come to learn that by having the appropriate social relations and social support network they can then initiate such narratives if they were to have competing 'socially-perceived-value as of social-stake-contention-or-confliction' situations with others, and not

only that it also includes individuals passively accepting and giving up on the principle of the intemporality/longness and intrinsicness of meaning.

It is important to distinguish all the above ‘temporal instances conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing of the psychopath’s postlogism-slantedness in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation’, and is different from ‘a defect of logical operation/processing/contention which does not imply any temporal-disposition defect (in terms-as-of-axiomatic-construct of perversion-of-reference-of-thought or the denaturing of the reference-of-thought-elements/apriorising–registry-elements out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology)’. With temporal-perversion-of-reference-of-thought (mental-perversion), the interlocutor deliberately (or naively in the case of ignorance) doesn’t project intemporally (i.e. projects in terms-as-of-axiomatic-construct of shortness-of-register-of-meaningfulness-and-teleology or immediate-temporal-interest and not a universal ontological sense of meaning), comparatively more like a student guessing that the answer of a math question is say 5 ‘artificially’ operates an equation to yield 5 as answer. Whereas with ‘a defect of logical operation/processing/contention’ (which is not the case here), an interlocutor perfectly projects intemporally (i.e. projects in terms-as-of-axiomatic-construct of longness-of-register-of-meaningfulness-and-teleology or a universal ontological sense of meaning) but poorly operates/processes the logic adhocly. This latter case unlike the former doesn’t imply registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> but rather ‘an adhoc defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-

instantiation-of-ontological-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance whereas the former is 'registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> that speaks to the unprincipled-or-derived-unprincipled disposition of the interlocutor's individuation that is, with respect to an infinite number of cases in the same situation (i.e. comparatively the disposition to go about answering math questions by figuring out their answers then 'artificially' trying to work out equations to yield the answers). Thus establishing the ontological-primemovers-totalitative-framework of this slantedness/postlogical individuation defective nature ontologically, hence enabling its aetiologisation/ontological-escalation. This also requires the disambiguation of the registries (involving stranding-of-perverting-temporal-dispositions which refers to mental-devising-representation of temporal-dispositions-registries teleologies registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect>, i.e. oblongated/decanored/mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation mechanicalism/alchemic-like-reasoning/circumventive/distractive-temporal-prioritisation-of-reference-of-thought/shortness-of-register-of-meaningfulness-and-teleology/protracted-non-conviction)/distractive-alignment-to-reference-of-thought of perversion-of-reference-of-thought procrypticism mind as per postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of 'reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing'. For intemporal-preservation-entropy-or-

contiguity—or—ontological-preservation, strands-of-perverting-temporal-dispositions implies ‘not wrongly implying precedingly the reflex of an intemporal prelogism-as-of-conviction reflex and reference on the subknowledging/mimicking-temporal-dispositions but rather reflexively downgrading as dialectically-or-contendingly-out-of-phase/subknowledging/mimicking)-stranding’, i.e. registry-precedes-logic as perversion-of-reference-of-thought undermines the operation of logic, at which point contention is about the ‘generation of ontological stranding-as-rightfully-oblongated/decandored’ of such temporal-dispositions denaturing to be reflected/perspectivated and ontologised by the intemporal mind as procrypticism as validated by ‘unconscionability-drag’ such that the temporal-dispositions, which are ‘conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing slantedness’ as these are protractions of the psychopath’s dialectically-or-contendingly-out-of-phase/hollow-mimicking) insane-fitment/postlogism-slantedness, and hence are in transversality-of-disambiguated-apriorising/axiomatising/referencing and should not be represented mentally going by the ‘unconscionability-drag’ as ‘logically/in-conviction/prelogically articulating/composing i.e. not contending’ but rather as ‘a mentally-conjugated/inflected/derived/mimicked/subknowledging/in-protraction-to-psychopathic-dementing,-and-oblongated i.e. a manifestation of perversion-of-reference-of-thought’ as is the case with the mental-devising-representation of all perversion-of-reference-of-thought at all registry-worldviews/dimensions, and should not be wrongly elevated/candored/straightened/integratively-aligned/dialectically-or-contendingly-in-phase in equivalence with intemporal-preservation-entropy-or-contiguity—or—ontological-preservation apriorising—registry (since they are not contending) but rather downgraded/decandored/in-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/protracted-dementing/oblongated/logical-incongruence-or-

transversality/dialectically-or-contendingly-out-of-phase and are rather manifestations of registry/mental defect or denaturing and are the subject of intemporal/ontological contention from the intemporal-disposition, more like at the registry-worldview/dimensional defect level medievalism categorical-imperatives/axioms being superseded and undermined with respect to positivism categorical-imperatives/axioms-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

Very much counterintuitively with regards to ‘unconscionability-drag’, the transcendental requirement for a ‘habituation’ to a so-called ‘prospective intemporal and more veridical mental-devising-representation registry-worldview’s/dimension’s reference-of-thought—categorical-imperatives/axioms/registry-teleology is rather ‘unfathomable’ for the prior <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives-of-the-prior-registry-worldview’s/dimension’s-institutionalisation-categorical-imperatives/axioms/registry-teleology of the so-called ‘perversion-of-reference-of-thought dimension’; this applies with regards to recurrent-utter-uninstitutionalisation and base-institutionalisation, ununiversalisation and universalisation, non-positivism/medievalism and positivism, and prospectively for upcoming times, procrypticism and deprocrypticism. The explanation is quite simple; as individuals in any institutionalisation/intemporalisation registry-worldview/dimension are formed by the memetic-ordering/psychoanalytic-construction at that registry-worldview/dimension which is ‘all-defining of meaningfulness (in terms-as-of-axiomatic-construct of reference-of-thought and logic)’ to the individuals and so right up to their subconscious mind. But then a prospective transcendental memetic-reordering/psychoanalytic-unshackling is placing such a prior memetic-order/psychoanalytic-construction of their existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation in jeopardy, and it is only the ontological-primemovers-totalitative-

framework social universal-transparency of the prospective intemporal dimension inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining with corresponding percolating impact from the prospective registry-worldview/dimension on the overall social-construct over a generation or two or more that allows for any such ‘habituation’ to a prospective registry-worldview’s/dimension’s transcendence with its new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology. This will explain the difficulty of medieval minds (including institutions like the church) over centuries to come to terms with positivism and scientism such that the positivistic psychoanalytic-unshackling/memetic-reordering/institutional-recomposure is still ongoing. Counterintuitively, every successive institutionalisation/intemporalisation registry-worldview/dimension naively thinks it being at the backend of the ‘institutional-cumulation/institutional-recomposure process’ means it is beyond transcendence as it doesn’t project of itself as being superseded by a prospective registry-worldview with its new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology at the point where the former starts perversion-of-reference-of-thought its own reference-of-thought–categorical-imperatives/axioms/registry-teleology, and does not tend to represent itself as oblongated/decandored/mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase from a prospective dimension perspective in the sense that. the decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase insight we think of non-positivism/medievalism with corresponding phenomena like superstitions, witch-hunts, etc. has never been the way they represented themselves as they are candored/straight/integratively-aligned/‘dialectically-or-contendingly-in-phase’ in their <formative>epistemic-totalising–self-referencing-syncretising/present-

consciousness/illusion-of-the-present mental-devising-representation of themselves. Rather it is the more profound grasp of reality from positivism that initiates that decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase mental-devising-representation of non-positivism/medievalism in the positivistic mind, and this is the case as well with all other dialectic institutionalisations across the institutional-cumulation/institutional-recomposure/anthropological-continuity/anthropopsychology.

The reason for making the above point is that we will most possibly as of act same when it is time to imply our own decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase procrypticism/disjointedness-as-of-reference-of-thought mental-devising-representation of our reference-of-thought–categorical-imperatives/axioms/registry-teleology with respect to a prospectively candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase deprocrypticism new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology that is revealed by the ‘unconscionability-drag’ disambiguation of our temporal-dispositions-perversion associated with perversion-of-reference-of-thought in our dimension (procrypticism) including psychopathy-and-its-social-psychopathy-corollary subknowledging/mimicking!

(iii) For Deprocrypticism, ‘temporal-to-intemporal-dispositions ontological-escalation/aetiologisation’ teleology: will involve identifying, defining, characterising, qualifying and articulating the aetiology of this individuation perversion-of-reference-of-thought dynamism endemic in the social-construct and prospective categorical-imperatives/axiomatic-construct for its preemption, more like a positive mind will do with respect to a non-positivism/medievalism social-construct reference-of-thought. (Though interestingly it is important to grasp that such transcendence actually takes the natural form of

a ‘cross-generational medium to long-term psychoanalytic-drag’ and not ‘instantaneous abject transformation’ towards ontological-completeness-of-reference-of-thought, even such an ‘instantaneous abject transformation conceptualisation’ is equally a necessary knowledge exercise as the social universal-transparency constraining that allows for a ‘cross-generational medium to long-term psychoanalytic-drag’): (a) articulating a social universal-transparency of the registry-worldview-perversions, (b) generating ontological-primemovers-totalitative-framework untenability/internal-contradiction/internal-incoherence/institutional-constraining in the perversion-of-reference-of-thought registry-worldview (c) registering/stranding the perversion-of-reference-of-thought perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought/subknowledging registry-worldview/dimension defect for prospective preemption with new recomposing reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the prospective registry-worldview/dimension, i.e. deprocrypticism (d) intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/being-dialectically-or-contendingly-out-of-phase/logically-incongruence with the perversion-of-reference-of-thought registry-worldview, inducing a ‘habituation’/‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure as of the prospective apriorising—registry worldview cross-generational (over a generation or two) intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic; implies that the mental-devising-representation of a superseded/transcended/unsound registry/registry-worldview (which is rather in epistemic-

decadence and hence in ontological-discontinuity) as ontological-dementation/dialectical-
 dementation—stranding/attributive-dialectics stranded-as-rightfully-oblongated/decandored-
 and-dialectically-or-contendingly-out-of-phase, entails it doesn't re-join by mere logical
 articulation the prospective superseding/transcending/sound registry/registry-worldview
 stranding-as-mentally-straight/candored-and-dialectically-or-contendingly-in-phase, as the
 prospective institutionalisation is rather about a registry-worldview/registry, and not logical,
 transformation as a 'dialectical-thinking-psychology or psychology-of-mentation-dynamics
 or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-
 reordering/institutional-recomposure; with the notion that any such wrongly implied re-
 joining as logical articulation is rather <formative>epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag of the prior registry/registry-worldview
 reflex-defect in want of 'dialectical-thinking-psychology or psychology-of-mentation-
 dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-
 reordering/institutional-recomposure. For instance, in the case mentioned before with regards
 to B (Brackets), where B was to stick with the same temporal-dispositions individuation
 disposition that delivered the wrong results with respect to subsequent equations of a similar
 context (uninstitutionalised-threshold) this will be epistemic-decadence, as
 conjugated/inflected/derived from A's defective condition which is in epistemic-decadence,
 and the both A and B are of notional-discontiguity/epistemic-discontiguity-<mentally-
 aestheticised_dementing—qualia-schema> defining the registry-worldview/dimension
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument defect. This
 implies ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of B
 to such perversion-of-reference-of-thought (as prior intemporal reference-of-thought—
 categorical-imperatives/axioms/registry-teleology) is the effective backdrop for 'dialectical-
 thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-

dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for the prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and this is rather cross-generational in nature (rather than instant intra-generational registry/registry-worldview transformation) as personhoods-and-socialhood-formation are rather grounded on the superseded/transcended/unsound reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. The above analysis shows that soundness-or-authenticity-of-reference-of-thought-of-meaningfulness is not given, as it is a devising mechanism (mental-devising-representation) for ontological-veridicality as dialectically upheld for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (ontological-normalcy or ontological-normalcy/postconvergence).

Unconscionability-drag (from an ontological/intemporal reference) ensures the disambiguation of registries so that the psychopath's and temporal-dispositions are not elevated to the intemporal level which then allows for, by reflex, a simple operation/processing of logic (whereas the fundamental defect being in terms-as-of-axiomatic-construct of the apriorising–registry-elements, implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology of the registries, i.e. rather the unsoundness-or-inauthenticity-of-reference-of-thought or the dialectically-or-contendingly-out-of-phase meaningful construct).

Unconscionability-drag (from an ontological/intemporal reference) is thus central to resolving the rational-realism paradigm as it accounts for the defect of temporal-dispositions teleologies of meaning (shortness-of-register-of-meaningfulness-and-teleology) while projecting intemporally/ontologically.

The notion of ‘unconscionability-drag’ also explain how and why banal temporal-dispositions are not readily ‘integrative of psychopathic postlogism-slantedness as conjugated-postlogism/dementing-integration’ (hence no distractive-alignment-to-reference-of-thought) to the childhood and early adolescent psychopaths but come to develop a ‘mental-unconsciousness’ (unconscionability) to be ‘integrative of psychopathic postlogism-slantedness’ during the stage of late adolescence and adult psychopath.

Antipodal to the idea of ‘unconscionability-drag’ is the idea of ‘conventioning’/social-temporal-thresholding. ‘Unconscionability-drag’ points to an abstract but more veridical ontological construct of the ‘social construction of meaning’ that is ontological-normalcy/postconvergence, based on intemporal-preservation-entropy-or-contiguity—or—ontological-preservation by using categorical-imperatives of the prospective superseding/transcendental registry-worldview/dimension whether such a representation is aligned or not with the society’s collective-social-psyche or present-consciousness. (For instance, we can generate an unconscionability-drag of a medieval society on the basis of a positivistic mental projection and categorical-imperatives; wherein we oblongate the solipsistic mental-dispositions of individuations in such a society. While such a representation, with its corresponding subknowledging/mimicking, is ontologically more accurate about such a society, however, the collective-social-psyche/present-consciousness of individuations in the said society will not recognise any such decandored/oblongated/logical-incongruence-or-transversality/dialectically-or-contendingly-out-of-phase representation of themselves, rather the medieval society will represent itself as candored/straight/integratively-aligned/dialectically-or-contendingly-in-phase which is then the ‘conventioning/social-temporal-thresholding representation of the social construction of meaning’). Conventioning/social-temporal-thresholding thus refers to the fact that in a ‘social

construction of meaning', intrinsic-reality by itself and in of itself (as may be grasped ontologically from superseding/transcendental categorical-imperatives preserving intemporality) is not necessarily the deterministic basis for human social adherence to it.

Transcended and ontological meaningfulness of reality (contrary to conventioning/social-temporal-thresholding meaningfulness of reality which is rather towards <formative>epistemic-totalising–self-referencing-syncretising/temporality-serving) requires a process of institutionalised/intemporalised social integration to induce untenability/internal-contradiction/internal-incoherence/institutional-constraining to 'prior or circumstantial social integration gatekeeping construals or (institutionalisation/intemporalisation) percolation channels' of 'any social construction of meaning' for there to be collective institutionalised social adherence (and by the relative positive-opportunism elicited). Institutionalisation/Intemporalisation percolation channels are the institutionalised relays for human survival-and-flourishing-teleology, whether diffusely from internalisation-and/or-formalism, and are increasingly vital with higher institutionalisations, and most vital for prospective perpetuation-of-deprocrypticism, such that abstractions that will normally hardly be socially integrated going just by averaging human temporal-to-intemporal nature, can actually come from outlier intemporal-disposition to inform social institutionalisation/intemporalisation, thus emphasising how vital percolation channels are for institutional-cumulation beyond just the consciousness appraisal of temporal-dispositions. Institutionalisation/Intemporalisation percolation channels imply that the would-be intellectual analyst can perfectly uphold intrinsic reality over 'social-and-temporal-trading' and still impose veridicality (if truly veridical) over populist-inclined dispositions which are not veridical, just by the fact of the extendedly implied positive-opportunism for human survival-and-flourishing imbued in institutionalisation/intemporalisation percolation channels. This implies that an exercise in institutionalisation/intemporalisation beyond just

intemporal philosophical projection is needed for the social integration of any transcending veridicality paradigm (the latter being any notion that put in question informal or formal conventioning/social-temporal-thresholding ways of perceiving and doing things for supposedly prospective better ways). Correspondingly, the social-construct cannot be and should not be related to as a philosophical construct since it is rather ‘conventionalised from institutionalisation/intemporalisation (secondnature), and has not evolved as of <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection; as it may be inclined to make references to temporal reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that are demented/of-perverted-registry/subknowledging/mimicking–and–epistemic-totalising–self-referencing-syncretising-these. This brings forth the idea of ‘ordered construct’ between the intemporal firstnature/intemporal (organic-comprehension-thinking) and temporal-and-poorly-secondnature/institutionalised (mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, in relation to transcending meaning. Such ordered construct ensures precedence of the former as it skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) solipsistically towards intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while the latter skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) for temporal preservation. Anecdotally, moral philosophy as <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness (organic-comprehension-thinking) creates law/legal-conventions but then questions of justice cannot be attended to by populist-social-construct (mechanical-comprehension-dementing in

hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) since only a developed sense of moral philosophy as <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness (organic-comprehension-thinking) ensures sound jurisprudence as a human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm rather than a temporal extricatory paradigm. ‘Prior or circumstantial social integration gatekeeping construals or institutionalisation/intemporalisation percolation channels’ that can enable the superseding of conventioning in the social integration of ontological veridicality include existing channels of formalisms/officialdom which have naturally been instituted to allow for the supersedingness of intemporal/ontological constructs and intemporal dispositions. For instance, formal institutions selectivity mechanisms; and where the latter fail or are fallacious, basic positive-opportunism wherein the ontologising construct elicits positive-opportunism for the undermining of defective conventioning/social-temporal-thresholding constructs/categorical-imperatives of meaning (for instance, a natural causes disease conception leading to more cures such that positive-opportunism then undermines a superstitious-driven disease theory which leads to more pain and deaths). The big idea here is that, it is naïve philosophically to operate mainly on the basis of ‘ontological rightness of transcendence’ with respect to a species whose construct is structured to be temporal (shortness-of-register-of-meaningfulness-and-teleology) to intemporal (longness-of-register-of-meaningfulness-and-teleology) requiring skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/differential-formalisation-transference to the latter. And any such ‘ontological transcendence by mere rightness’ has never been acquiesced to for the sole reason of its intrinsic rightness. For instance, round world idea never took off even though it

was ontologically right (as the medieval conventioning/social-temporal-thresholding construct and strongly ingrained social dispositions). It is the generated untenability/internal-contradiction/internal-incoherence/institutional-constraining together with positive-opportunism coming from sailors sailing around the world on this idea to seek for spices and create wealth that constrained/institutionalised the medieval world into such an ontological transformation/transcendence. Part and parcel of ontological transformation/transcendence is the existential cynicism to grasp the human sense of internal contradictions and positive-opportunism to introduce and uphold these by the mechanism known as institutionalisation/intemporalisation. Regarding futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism undermining of procrypticism, it is doubtful that pertinent ontological constructs and generally the ‘perversion-of-reference-of-thought dynamics of procrypticism’ are by themselves a sufficient basis for the direct and immediate social integration of deprocrypticism because of its ‘rightness’ over conventioning/social-temporal-thresholding. Part and parcel of the intellectual exercise is to understand how to manage the mechanism of transcendence wherein new and more profound ontological constructs are introduced and upheld, particularly by way of institutional percolatiuon channels for intemporal transcendence.

However, it should be noted that the conceptualisation of ‘conventioning’ is not wholly antipodal to ‘ontologising/intrinsic-veridicality’ as the latter prospective integration in the social-construct is through the former; ‘conventioning’ is thus a dynamic conceptualisation articulating, on the one hand, how prospective temporality/shortness undermines/subknowledges-or-mimics the intemporal/ontological construction of meaning (like postlogism-slantedness, miscues, logical-drag, unconscionability-drag, sub-par-conventioning-rationalising, and temporal-enculturation, with respect to reference-of-

thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the intemporal meaning), and on the other hand, how prospective intemporality/longness is regenerated to supersede/transcend such perversion-of-reference-of-thought and bring about new recomposuring reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation).

Organic-comprehension-thinking as highlighted above contrasts with ‘mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation’ which is rather temporal-driven (whether ignorance at best, slantedness/psychopathy, affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology), being intemporal-driven, with respect to transcendence points to the fact that the articulation of meaning registered differently in two registry-worldviews/dimensions, the perversion-of-reference-of-thought as retrospective and transcendental as prospective, is/should be wholly referenced intemporally from the superseding transcendence that upholds intemporal-preservation-entropy-or-contiguity—or—ontological-preservation; as the ‘intemporal mind’ can’t go after the value reference of both registry-worldviews/dimensions since transcendence is about ‘subverting’ perversion-of-reference-of-thought by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. For instance, the non-positivism/medievalism value references of aristocracy/class are contrarian to positivistic value references for the possibility of equal opportunities; and the intemporal projecting positivistic mind in medieval times has no business trying to appear ‘great and wonderful’ with respect to ‘conventioned’ value

reference of aristocracy/class in the medieval world even though it is the dominant and encultured collective mental-disposition. Likewise, such logic will apply regarding deprocrypticism and procrypticism requiring a reasoning that goes beyond the ‘-<formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present’ mindset/reference-of-thought of our current procryptic mental-disposition, i.e. ‘the limit of ontological thought is not the banal <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> of a registry-worldview/dimension’. Otherwise no progress is possible as a dimension progresses exactly because it has defects which when overcome enables the progress to occur! So the intemporal mind cannot as such ‘be impressionable’ by the banal <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> of a registry-worldview/dimension. It points to the fact that it is ‘perfectly ok’ to be ‘unintelligible/existentially-suprastructural and value-reference-wise unresponsive’ to the subknowledge-⟨dementing-as-if-of-sound-knowledge⟩ apriorising–registry but rather alienative as to the possibility for its psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. The ‘apparent profoundness’ of such temporal reference of thought is rather ‘depth-of-ignorance’ rather than ‘depth-of-elucidation’. Mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation arises as a result of shallow mental-dispositions induced by temporal-dispositions, and their disambiguation should be called for, and not candored/straightened/integratively-aligned as if intemporal/longness in nature but rather decandored / oblongated / transversality-of-disambiguated-apriorising/axiomatising/referencing as temporal/shortness. Mechanical-

comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as such is rather a ‘flatness-of-the-mind’ involving temporality, ‘mental triteness’ and ‘gullibility’ with respect to, in the case of psychopathy, insane/slantedness integration as social psychopathy; and more generally, ‘lack of intemporal philosophical depth’, i.e. lack of spontaneous <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness inclination (the-guy-who-spontaneously-stands-out-against-say-a-genocide or the milgram-experiment-guy-who-sticks-with-what-is-reality-rather-than-going-with-the-flow, etc.) not to be confused with secondnaturing/institutionalisation, and as a consequence an inclination to compromise intemporality/longness as ‘conventioning (social-temporal-thresholding) of meaning’ rather than ‘ontologising (intemporal-uncompromising) of meaning’. Overall ‘mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation’ points to the fundamental processes of ‘social temporal miscuing of meaning’ and the effective temporal consequences whether regarding defective enculturation or defective social ontologisation/ontological-veracity/aestheticisation-towards-ontology. This thus requires ‘deconventioning-for-ontologising involving the intemporal-preservation-entropy-or-contiguity—or-ontological-preservation exercise of undermining conventioning at uninstitutionalised-threshold (due to the inescapable veridicality of human individuation temporal/shortness-to-intemporal/longness which inevitably induces perversion-of-reference-of-thought at uninstitutionalised-threshold); deconventioning as such skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) and restores ontological veridicality for intemporal-preservation-entropy-or-contiguity—or-ontological-preservation.

An essential element underlying the psychopathic and other postlogical relationship with meaning has to do with the nature of attachment to meaning. A postlogical mind doesn't view meaning articulations as 'inherently sanctuous' and thus is inclined to produce mechanically whatever deductions that may engage an interlocutor in conviction/prelogically/prelogically even if these are hollow mimicking non-veridical narratives, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging (meaning-by-the-mere-illogical-possibility-of-it-being-narrated). On the other hand, prelogism-as-of-conviction/thinking imply more of an organic alignment view of meaningful articulations as 'inherently sanctuous', i.e. 'existential-contextualising-contiguity/meaningful-projection-of-intrinsicness'. Going by these two facts, the postlogical and psychopathic mindset/reference-of-thought is readily inclined to call upon a broad base of vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging narratives (meaning-by-the-mere-illogical-possibility-of-it-being-narrated) whereas the prelogic/conviction mindset/reference-of-thought is inclined to call upon just the narratives it sincerely thinks are relevant/due and intrinsically real. So it is critical not to confuse the over-articulation of postlogical narratives (vague mechanical stylising-of-locution) with an organic depth-of-thought or profoundness, given that these involve postlogism-slantedness, disjointed-logic, miscuing, inventions and platitudes from the postlogical mindset, requiring decandoring/oblongating/distractive-alignment-to-reference-of-thought. Ontologically speaking, meaning is an essential construct of human mental-devising-representation meant to allow for human intemporal teleology. A postlogic-formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-

demented relation to such a conceptualisation is sub-par-or-formulaic-association-or-temporal-or-alibi to ontology and is thus regarded as ‘perversion-of-reference-of-thought referencing’ that is ontologically inconsistent as it counts on the fact that others remain intemporal/ontological for it to exist parasitising/co-optingally. Worst still such vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging tend to be integrated at uninstitutionalised-threshold of conventioning/social-temporal-thresholds.

Without a sense of ‘rational-realism’ (the veridicality of meaning involving not only the logical processing/operation of narratives but precedingly temporal-to-intemporal-dispositions disambiguation, i.e. in terms-as-of-axiomatic-construct of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), by prelogism-as-of-conviction reflex, prelogic/conviction and postlogism-formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-demented narratives will be analysed at the same pedestal towards construing veridicality/intrinsic-reality. Such an analysis is wrong as an inherently prelogic/conviction mental-disposition will rather re-accentuate prelogic/conviction constructs in contention situations whereas the characteristic of postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as of postlogism-formulaic-non-conviction-or-‘existential-decontextualised-transposition’-or-impulsively-dementing, whether direct as with the psychopath postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ or induced as temporal-dispositions conjugated-postlogism in ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ of psychopath’s postlogical-backtracking—iterative-looping-‘set-of-

dereifying-hollow-narratives-and-acts’, is about a mental-disposition to re-undermine intrinsic-reality/veridicality hence its looping nature as absolving/fleeting/escaping-reflex-logic. Hence once the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as of postlogism-formulaic-non-conviction-or-‘existential-decontextualised-transposition’-or-impulsively-dementing is established in an interlocutor, the ontological construct is not to allow it be meaningfully sound (in terms-as-of-axiomatic-construct of implied-registry and thus implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) to be contending but rather transversality-of-disambiguated-apriorising/axiomatising/referencing to it to reflect its perversion-of-reference-of-thought. The application of the universal technique of human transcendence to procrypticism-deprocrypticism transcendence can be basically be articulated as follows (the ontological entrapment):

- prelogism-as-of-conviction ANCHORING (‘setup of conviction meaning’)
- DOWNGRADING (psychopath’s hollow mimicking narrative wrongly ‘slanting the conviction meaning’)
- MISCUING (temporal-dispositions first aligning prelogically/in-conviction/prelogically to the slantedness of the prelogism-as-of-conviction anchoring at ignorance pedestal, and then by successive temporal pedestals of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, ‘integrating/adopting deliberate postlogical dispositions with respect to the initial conviction meaning’)
- denaturing REGISTERING/STRANDING (the intemporal-disposition/ontology stigmatising of temporal-dispositions as strands-of-perverting-temporal-dispositions acting as the preempted backdrop for reference-of-thought—categorical-imperatives/axioms/registry-

teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/real-shades-of-the-real registry-worldview/dimension with its subsequent psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, just as strands-of-perverting-temporal-dispositions of the non-positivism/medievalism mindset/reference-of-thought are what act as the preempted backdrop for prospective positivism and the subsequent psychoanalytic-unshackling/memetic-reordering/institutional-recomposure that followed) – PERCOLATION (the intemporal-disposition/ontology eliciting untenability/internal-contradiction/internal-incoherence/institutional-constraining, medium to long term positive-opportunism, registering of the perversion-of-reference-of-thought for social universal-transparency and then its transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith; to fundamentally undermine procrypticism/disjointedness-as-of-reference-of-thought and bring about deprocrypticism, and so cross-generationally, and not instant argumentation convincing intradimensionally in a registry-worldview/dimension that is defective or perversion-of-reference-of-thought in the first place). Ontology being the intemporal-disposition, the exercise of ‘directing convincing’ to temporal-dispositions is inherently unwarranted and is rather <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness towards the ‘institutionalisation/intemporalisation percolation channels’; the latter being utterly impersonal (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively.

By ‘uninstitutionalised-threshold’ (where there is no ‘intemporal social universal-transparency as well as no temporal-to-intemporal-dispositions disambiguation/unequivalences/alienative-hierarchisation’) is meant, the possibilities of human dispositions and acts beyond frameworks that have not been institutionalised; manifesting as (uninstitutionalisation) ‘temporal-threshold logic’ or ‘discomfiture’. So the uninstitutionalised-threshold of the positive registry-worldview will refer to procrypticism (requiring deprocrypticism), to the non-positivism/medievalism registry-worldview it will refer to non-positivism/medievalism (requiring positivism), to the ununiversalised registry-worldview it will refer to ununiversalisation (requiring universalisation), and to the recurrent-utter-institutionalised apriorising–registry worldview it will refer to recurrent-utter-uninstitutionalisation (requiring base-institutionalisation).

Institutionalisation and formalisation are based exactly on the fact that we don't have a universal intemporality/longness or the-good disposition, but rather according to the mediocrity principle of science we are solipsistically temporal-to-intemporal in our mental-disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Hence we tend to build artifices (institutions with their formal rules) by the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-formalisation-transference of our collective thought process in the medium to long perspective towards intemporal-preservation-entropy, to dominate and preempt temporal dispositions. This explains why modern man (positivistic registry-worldview) is apparently more evolved/developed than he/she should normally be compared to previous generations (recurrent-utter-uninstitutionalised men, ununiversalised men, non-positivism/medievalism

men, and prospectively, how he/she will be superseded by the deprocryptic man). It doesn't mean that modern man has a genetic makeup or hardware that is different from the others. The difference is the cumulated 'software' or institutionalisations and formalisations that have been internalised into modern man. Anthropologists know that if you were to take a newly born child from a society like those that do not have contact with the modern world, and raise the child in a modern family, there is no different outcome on average as with any other child bred in the modern world. So our faith in virtue is not in our inherent excellence/exceptionalism but the excellence/exceptionalism of the software/institutionalisation that has cumulated, and insightfully, which creative template we will prospectively develop! Incidentally institutionalisation and formalisation ensures that we take the best form of human individuation thinking/capacity potential and constrain society and individuals to that individuation thinking/capacity potential, and inherently so, by the overall positive-opportunism to the cross-section of the species since it better grasp intrinsic reality and its virtues!

By ; solipsism means I exist alone (with respect to intrinsic reality/ontological-veridicality), and this author notionally interpret solipsism as the deepest sense of existence and meaning available to an individual in its spontaneous emanance or becoming, and as it projects itself 'purely and universally'. It is a firstnature/intemporal construct beyond and 'inventing the possibility' of secondnature institutionalisation, and places all humans at all times at the same pedestal of virtuous and ontological appraisal, as it is about our 'transcendental valour' irrespective of the level of institutional-cumulation/institutional-recomposure at which we are. It contrasts with institutionalisation/intemporalisation which is 'a negotiated and secondnature or nurtured construct with respect to existence and meaning around social-stake-contention-or-confliction'. Institutionalisation/intemporalisation as such,

by way of positive-opportunism and inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining of temporal-dispositions, has at least the merit of allowing for the possibility for human temporal-dispositions to be skewed ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-formalisation-transference towards the intemporal-disposition, and thus enabling social transcendence which is upheld by formalisation and internalisation.

By ontological-normalcy/postconvergence is meant that 'intrinsic reality' is one and given (ontology), and that the flaws and corrections in how we go about representing 'intrinsic reality' (metaphysics/temporal-human-centered) has no influence on reality's intrinsic nature. Our mental-devising-representation of the world in 5000 BC, 2000 AD and possibly 5000 AD might be worlds apart, but the intrinsic nature of reality never changed and will never change an iota. So our knowledge construct is more of a proxying to intrinsic reality to grasp the possibilities of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework for ontological-primemovers-totalitative-framework and thus a better grasp of the world; hence proxying mentation-capacity level as the various institutional-cumulations/institutional-recomposures. That idea that intrinsic reality is preceding/superseding is known as 'postconvergence' (we are converging to reality and not adding or taking away anything from it, it is us being illuminated as reality is already given). In the exercise of construing ontological veridicality what gives in when the pertinence of ontological-primemovers-totalitative-framework is known is the human psyche (whether by candoring/straightness/prelogism when pertinent or decandoring/slantedness/distractive-alignment-to-reference-of-thought when impertinent), intrinsic reality never gives in (that's why we are mortals and our hope is to always give-in to

intrinsic reality for the possibilities of the future). This latter point is important as by reflexan epistememic-totalising–self-referencing-syncretising/temporal-human-centered dimension in its flaws will strive to preserve itself by <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its registry-worldview/categorical-imperatives (setting-aside of perversion-and-derived-perversion-reference-of-thought) rather than psychoanalytically-unshackling/memetic-reordering (coring and superseding the perversion-and-derived-perversion-reference-of-thought) for prospective/transcending/superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

By ‘intemporal transversality-of-disambiguated-apriorising/axiomatising/referencing ontological-normalcy/postconvergence’ is meant ontological-normalcy/postconvergence meaningfulness-and-teleology as so articulated above is ontologically veridical but that does not necessarily imply the metaphysical framework temporal mental-dispositions will recognise that (i.e. there is no ontological-contiguity between registry-worldviews references-of-thought as this falsely implies ‘no temporal-to-intemporal disambiguation, i.e. equivalence of references-of-thought/no-alienative-hierarchisation, whereas what is warranted is ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness pedestalling’); and that it is transversality-of-disambiguated-apriorising/axiomatising/referencing of such constructed veridicality in its ontological-primemovers-totalitative-framework determinism and operance that will undermine other possible ‘temporal perverted-transversality-of-disambiguated-apriorising/axiomatising/referencing conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing-meaning’ by rendering them untenable/internal-contradiction and inoperant (not a ‘convincing’ at the philosophical or emanance level, rather a ‘constraining’ at the institutionalisation/intemporalisation secondnaturing level out of ontological-

primemovers-totalitative-framework); noting that ‘temporal perverted-transversality-of-disambiguated-apriorising/axiomatising/referencing conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing meaning’ imply temporal meaning cannot-be-registered as/have-the-registry of the ‘intemporal-disposition which is ontological’, so are stranded-as-rightfully-oblongated/decandored (dialectically-or-contendingly-out-of-phase/dialectically-primitive or dialectically-out-of-phase)’, i.e. are in distractive-alignment-to-reference-of-thought, (all along the apriorising-registry-elements: implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) of the mental-devising-representation from the intemporal-disposition/ontological perspective. Ontology being of the intemporal-disposition, the exercise of ‘directing logical convincing’ to temporal-dispositions is inherently unwarranted and is rather <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness towards ontological-primemovers-totalitative-framework which induces the positive-opportunism and untenability/internal-contradiction/internal-incoherence/institutional-constraining for its supersedingness in the ‘institutionalisation/intemporalisation percolation channels’; the latter being utterly impersonal (law, officialdoms and subject matter formalisms) and allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn’t allow reflexively. This is underlying transcendental-enabling/sublimating notion while often obscured in the social <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality due to their ‘emotional involvement’ is immediately obvious with the natural sciences whereby the physicists nor chemists nor biologists worries about convincing anyone but is rather in the business of ‘the convincing from natural truths’ which then do not ask for human temporal validation but

impose themselves because natural truths inherently supersede human egotistic/-
<formative>epistemic-totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag opinionatedness!

Postconvergence, in the bigger scheme of things, implies that knowledge has to do with the development of our ‘mentation capacity’ (an entropic-referential memetic-reordering/psychoanalytic-unshackling exercise), across ‘retrospective-and-prospective history’, in grasping ‘intrinsic reality/veridicality’ which ‘has always and will always be ontologically same’. So the concern is about ‘us’; in the appropriateness of the registries we make of intrinsic-reality across retrospective-and-prospective history or rather shifting dialectical moments of relative-ontological-completeness! The articulation of reality, registry-worldviews/dimensions, mental strands (perverted or not), and other constructs of ontological-primemovers-totalitative-framework is ‘at-a-superseding-pedestal and incisive/blunt’ by the very nature of ontological-normalcy/postconvergence reality. For instance, supposed a society with a non-positivism/medievalism belief system attributes the cause of a disease to say witchcraft, that doesn’t stop the reality of bacteria causing the disease even if such a representation of reality isn’t in the present-consciousness/illusion-of-the-present of that society. Such an ontological conceptualisation of reality equally applies in our times where it can be demonstrated prospectively that our mental-devising-representation of meaning regarding a phenomenon is out of kilter, and reality won’t stop to accommodate us or our banality of thought. Thus the conceptualisation of reality is rather articulated at this depth-of-thought whether it accommodates our present-consciousness/illusion-of-the-present or not (reality personality), and operates by an ordered construct based on ontological-primemovers-totalitative-framework and not a disposition of averageness/banality/popularity/extrinsic-attribution-of-thought recurrent in

uninstitutionalised-threshold in the extended-informality-(susceptible-to-effecting-
 parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology), allowing
 for the possibility of transcendental meaning, institutionalisation/intemporalisation (skewing
 ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-
 reality/ontological-veridicality transcendental-enabling/sublimating) for intemporal
 domination) and human progress; given human temporal/shortness-to-intemporal/longness
 dispositions. Such an articulation of reality introduces the concept of 'reasoning-
 through/abjection' over 'incrementalism-in-relative-ontological-incompleteness and notional-
 disjointedness'. Reasoning-through/abjection refers to the uncompromising and non-
 negotiable nature of reality with respect to the meaningful frames of mortal creatures that we
 are as reality doesn't adjust to our beliefs, desires, wishes, whims or miscues. Reasoning-
 through/abjection then implies that meaning is articulated exclusively in terms-as-of-
 axiomatic-construct of ontological-primemovers-totalitative-framework and anything else is
 defined, whether to be candored or to be decandored, at that ordered construct point-of-
 reference or point-referencing. Reason is thus ontologically a 'reasoning-through' as allowed
 through in a 'pure, organic and intemporally uncompromising state' by reality ontological-
 primemovers-totalitative-framework 'at-a-superseding-pedestal and incisively/bluntly'.
 Incrementalism-in-relative-ontological-incompleteness and notional-disjointedness-as-of-
 reference-of-thought refer to the human reflex to average minds or make reference to
 extrinsic elements rather than meaning by its inherence as can be predicated effectively, and
 involves 'reasoning with', as it introduces 'temporal and social trading' elements over or
 clouding or compromising inherent intemporal veridicality. Incrementalism-in-relative-
 ontological-incompleteness and notional-disjointedness-as-of-reference-of-thought as such is
 patently wrong; as can be perceived from point-referencing superseding registry-
 worldviews/dimensions such that the ontological representation of the veridicality is different

from the different perspectives of an recurrent-utter-institutionalised registry-worldview and the superseding institutionalised registry-worldview, and likewise with the ununiversalised and superseding universalised registry-worldviews, the non-positivism/medievalism and superseding positivistic registry-worldviews, and prospectively the procryptic and superseding deprocryptic registry-worldviews. It implies that ‘it isn’t veridically weird’ to articulate depths-of-meaning that may apparently seem idiosyncratic in our present illusion-of-the-present/present-consciousness registry-worldview, as the issue is not with such an articulation per se but rather ‘our defective apriorising–registry point-referencing threshold’, and implying rather the need for our psychoanalytic-unshackling/memetic-reordering/institutional-recomposure by distractive-alignment-to-reference-of-thought. Fundamentally, incrementalism-in-relative-ontological-incompleteness and notional-disjointedness-as-of-reference-of-thought in human thinking as indicated above with the various institutional-cumulations/institutional-recomposures is superseded by reasoning-through/abjection; in transversality-of-disambiguated-apriorising/axiomatising/referencing at-a-superseding-pedestal, and represented oblongated/decandored/mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or failing-intemporal-preservation-or-misappropriation-of-meaningfulness or transversality-of-disambiguated-apriorising/axiomatising/referencing, given the fact that this reflects apriorising–registry defect and not logical defect.

More precisely, how can meaning be represented in a ‘prospective apriorising–registry state’ which is ontologically more real contrasted to a present ‘retrospective apriorising–registry’, as meaning ‘temporally seems’ to vary depending on the uninstitutionalised-threshold point-of-reference to imply at one moment it is intemporal and at another it is temporal? This fundamentally has to do with our <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness

projection irrespective of the uninstitutionalised-threshold, and calls for PEDESTALLED
 CONSTRUAL or PEDESTALLED DISAMBIGUATION to skew/deferential-formalisation-
 transference meaning towards the intemporal/longness disposition for intemporal-
 preservation-entropy-or-contiguity—or—ontological-preservation, as
 institutionalisation/intemporalisation. Pedestalled construal/pedestalled disambiguation thus
 involves at a given uninstitutionalised-threshold translating the ‘apparently prelogism-as-of-
 conviction or prelogical teleological finality of a temporal-disposition into its veridical non-
 conviction-or-existential-decontextualised-transposition-or-
 apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing, non-

 ontological-preservation. Technically, pedestalled construal/pedestalled disambiguation
 should involve reflecting/perspectivating/highlighting from the intemporal-disposition
 pedestal teleology finality/questioning mental-profoundness (deep candor) the relative
 longness/shortness-of-teleology of temporal-dispositions teleologies finalities/questioning
 mental-triteness (light candor), starting with slantedness pedestal finality/questioning (which

is the psychopath's insane/slantedness-fitment-roaming/drifting-cycle), and as it conjugates/inflects across other temporal pedestals teleology finalities/questioning (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Pedestalled construal/pedestalled disambiguation points to the fact that the social representation of meaning is transversal/logically incongruent at uninstitutionalised-threshold as reflected by human temporal-to-intemporal dispositions (hence the need to articulate various pedestals of 'questioning depth-of-thought' and 'strands of depth-of-meaningfulness' to reflect effective meaningful representation from the intemporal-disposition point-of-reference). Where meaning is not articulated within an institutionalised/intemporalised framework, the idea of logical-congruence (a common reference of meaning in terms-as-of-axiomatic-construct of reference-of-thought and logic) should be avoided due to perversion-of-reference-of-thought whether psychopathic or not, and pedestalled construal/pedestalled disambiguation is then required using distractive-alignment-to-reference-of-thought to establish the ontological pre-eminence of the intemporal-disposition. Instances of perversion-and-derived-perversion-of-reference-of-thought rather point to uninstitutionalised-threshold, whether retrospectively or prospectively, as there is wrong equivalence of temporal-to-intemporal-dispositions in the articulation of meaning; instead of the pedestalled supersedingness of the intemporal-disposition as it is all about intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (superseding various shades of temporal preservations). Otherwise, perversion-of-reference-of-thought induces a 'free for all' false equivalence wrongly construed as of intemporality/longness (rather than the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor). Accounting for distractive-alignment-to-reference-of-thought is what ends such a 'free for all' and is the

basis of pedestals alienative hierarchisation as referenced from the intemporal-disposition thus bringing about institutionalisation/intemporalisation (given the social cross-sectional eliciting of social universal-transparency, untenability/internal-contradiction/internal-incoherence/institutional-constraining, positive-opportunism and transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith, for psychoanalytic-unshackling/memetic-reordering/institutional-recomposure in the medium to long-run percolation) with corresponding dismissal of temporal-dispositions-teleologies as dialectically-or-contendingly-out-of-phase/dialectically-primitive) as the backdrop for the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the intemporal-disposition anticipation and preemption of these for the institutionalisation/intemporalisation.

Pedestalled construal/pedestalled disambiguation explains the dynamism of human institutional-cumulation/institutional-recomposure going by a recurrent emanance template that involves:

(1) Free-for-all implying an equivalence of temporal-to-intemporal-dispositions as being all intemporal (rather than temporal-to-intemporal), with the result that meaning then becomes veridically a hotchpotch of various formulaic-association, temporal, existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, and the intemporal-emanance, without apriorising—registry disambiguation (as apriorising—registry disambiguation, into the intemporal and various conjugating temporal-dispositions of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of 'reference-of-thought-devolving-level difference-

conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing', allows for the establishment of contextualisation in articulating the contrast of the intemporal-disposition's organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) and temporal-dispositions mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation – involving slanting by psychopath, miscuing, disjointed-logic, logical-drag, unconscionability-drag, and sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising – with temporal-dispositions in varied shades of temporal conjugation/inflection to psychopathic postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as ontological-primemovers-totalitative-framework dispositions; thus enabling the stifling (undermining the ontological-veridicality) of temporal-dispositions and skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating), by way of institutionalisation/intemporalisation percolation channels, towards the supersedingness of the intemporal-disposition for institutionalisation's/intemporalisation's intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). For instance, a state of nature (recurrent-utter-uninstitutionalisation) application of the law variably making reference to circumstantial social power relations and spontaneously articulated notions of vices and virtues but no or poor universal rules (mob situations as well as social psychopathic situations will fall under such an interpretation as well).

(2) Pedestalling ('intemporal-prioritisation-of-reference-of-thought'-as-conflatedness pedestalling) articulates the relative grandor and virtuous consequence of the pedestalled

supersedingness of the intemporal-disposition by its intemporal-preservation-entropy-or-contiguity—or—ontological-preservation that then leads to society's temporal-to-intemporal cross-sectional '⟨formative⟩epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection induced deference'; whether deference with regards to a superstition/belief system/religion, essences/universal-notions, positivist idealism/principles-rationalism (and prospectively rational-realism as of deprocrypticism), involving a posture (institutionalised disposition) of the sort 'the-say-that or it-is-said-that' as '⟨formative⟩epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection induced deference' to the intemporal/longness disposition, for instance, 'scientists say that', 'the Bible says that', 'it is said that one should not set foot in that forest as it will bring bad luck', etc. This 'the-say-that/it-is-said-that' '⟨formative⟩epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection induced deference' explains why institutionalisation/intemporalisation has been happening across human history; whether deference from personalised/animists beliefs to philosophical, religious and other social belief systems, deference from haphazard application of social rules to universal notions, laws and principles, deference from spirit-and-mystical-driven notions of nature and various alchemies to a modern scientific construct system. Hence the very place of the averageness/banality-of-human-thought-and-meaning in history has been for it to defer to superseding intemporal-disposition construal by 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness pedestalling. There is no such thing as allowing thought-and-meaning to the whims of masses thinking but rather deference to 'reality/veridicality predicating constructs'; as enabled abstractly and existentially by the human individuation intemporal-emanant-registry in superseding human individuations temporal-dispositions.

‘Intemporal-prioritisation-of-reference-of-thought’-as-conflatedness pedestalling carries the implication that reference-of-thought and meaningfulness is fundamentally/ontologically structured for ontological-normalcy/postconvergence intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and hence the precedence of higher intemporal teleologies over low temporal teleologies of reference-of-thought and meaningfulness; and that subpar structuring of reference-of-thought and meaningfulness not for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation but rather as perversion-of-reference-of-thought of subpar reference-of-thought—categorical-imperatives/axioms/registry-teleology,-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as uninstitutionalised-threshold is ‘perverted reference-of-thought and meaningfulness’ (-<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), and is ontologically-demented (dialectically-demented) whether from a superseding/transcending registry/registry-worldview reference-of-thought/veridical-thinking-reference-over-dementing-reference that is retrospective (like base-institutionalisation over recurrent-utter-uninstitutionalisation), present (like positivism over non-positivism/medievalism) or prospective (like deprocrypticism over procrypticism/the-’dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag-of-the-positivistic-registry-worldview-or-dimension-categorical-imperatives-or-axioms-or-registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). ‘Intemporal-prioritisation-of-reference-of-thought’-as-conflatedness pedestalling underlines the fundamental nature of institutionalisation/intemporalisation not as a temporal-dispositions- to intemporal-disposition transformation (not emanance transformance) but rather ‘a positive-opportunism constraining construct’ involving ‘intemporal deferential-formalisation-transference’ (such that just as

jurisprudentialism is dismissive of whatever we'll like to think of it in our social-and-temporal-trading context about the law which is rather articulated as a formal conceptualisation and constraint to be internalised as a universal construct to avoid its 'downgrading' by mobbish or other temporal social inclinations, likewise with many a subject-matter domain). In the same vain, the outcrop of an organic-comprehension-thinking 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness conceptualisation of deprocrypticism over procrypticism can only be construed within a formal institutionalised articulation not opened to 'temporal/ordinary disposition contention' as is the case with subject-matter constructs, but rather an institutionalised percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> exercise, so as to avoid temporal-dispositions denaturing as is the case with all formal constructs, which rather strive to uphold the intemporal/longness-of-register-or-depth-of-meaningfulness teleology while relying on principled methods.

Prospectively, the intellectual exercise involved in articulating procrypticism-deprocrypticism and psychopathy and its corollary social psychopathy, will have to imply a '<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection induced deference' of the averageness/banality-of-thought (temporal-to-intemporal-dispositions) for futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/right-shades-of-the-real-institutionalisation/intemporalisation. '<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection induced deference' of the cross-section of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor to the intemporal-disposition in order for

institutionalisation/intemporalisation to take place is critical in inducing the requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposure (in relation to the unchanging-nature/same-intrinsicness of reality) for human retrospective-and-prospective progress/transcendence; and is necessary by the inherent fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, going by the mediocrity principle (if men were only of intemporal-disposition, no institutionalisation/intemporalisation nor ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness pedestalling will be necessary as the mere exposure-to/contemplation-of ‘rightness of thought and meaning’ will suffice for transcendence; such a complete human being doesn’t and has never existed, and not even philosopher-kings from the Socrates, Aristotles and others who explore such possibilities, even though intemporal-disposition possibilities will tend to accrue more to such ‘philosopher-kings’ individuals). For the big picture, this point to the fact that institutional-cumulation/institutional-recomposure/anthropological-continuity/anthropopsychology is only possible for one reason, a continuity in the intemporal-disposition institutionalisation/intemporalisation (with ‘<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection induced deference’) of the cross-section of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. Where, and if, intemporal-disposition was to possibly end or be upended (either because of lack of further human intemporal-disposition mentation-capacity for higher levels-of-transcendence, in the dynamism of individual potential, i.e. the solipsistic disposition of individuals’ individuations to assume universal projection of longness-of-thought-and-meaning, or social-construct potential, i.e. where

grander institutionalisation/intemporalisation is not confused and implied on the naivety that the institutionalised social-construct is of intemporal-disposition rather than a temporal-to-intemporal-dispositions construct requiring ‘transcending any perversion-of-reference-of-thought of the <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’), then ‘human transcendence and civilisation will stall’ (of course, such an insight is purely from an ontological point-of-reference, and not a temporal <formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness point-of-reference)!

(3) The establishment of institutionalisation/intemporalisation involves necessarily ‘delegated gatekeeping and institutionalisation/intemporalisation percolation channels processes’ to uphold it thereafter with formalisms and officialdom surrounding it with respect to temporal-dispositions perversion-of-reference-of-thoughts and corruption dispositions. For instance, the institutionalisation/intemporalisation of ‘scientific chemistry’ comes with a ‘chemistry lingua’ accessible to those sharing and/or educated to uphold the meaningful frame, on the justification that they explain and account more about the material world than any other alternative. This justification goes on to make them formalism and officialdom percolating to the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) such that over time alchemic and superstitious conceptualisations of material meaning are effectively destroyed while equally seeing to it that pseudo-scientism is kept at bay. ‘Delegated gatekeeping and institutionalisation/intemporalisation percolation channels processes’; because such a pedestalled supersedingness is only as valid as to when it is the grandest construal of material meaning until, and if, it is shown not to be the case. A further and nonetheless important reason for such delegation is the relative superficiality generally associated with

averageness/banality-of-thought <formative>epistemic-growth/transvaluative-
 rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection construal
 of meaning, and not to speak of its discomposure to the convolutedness often required in
 articulating and grasping intemporal meaning as
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm. Besides, this raises other issues related to a
 more or less temporal take of an ontological/intemporal enterprise with regards to
 articulations that are meant to have universal import (import of metaphorically-a-million-and-
 one-instances-and-locales/aetiologisation/ontological-escalation across space and time) rather
 than for the sake of any particular circumstantial/temporal take/extricator-situation in
 whichever locale, that is, an extricator paradigm. A failure to grasp the intellectual-analyst
 posture rather as a proxying-of-intrinsic-reality-as-ontology as per ontological-primemovers-
 totalitative-framework validation and that there-is-no-discretionary-construal-of-
 ontology/ontological-reality since intrinsic reality is superseding of all mortals including the
 intellectual-analyst. Basically the issue of the intellectual-analyst exercise in grasping such an
 intrinsic-reality is a proxying one superseded by the ontological-primemovers-totalitative-
 framework of reality 'which in no way depends on any notion of the intellectual-analyst's
 choice/luxury' (as the intellectual-analyst might actually have by another individuation chose
 not an intemporal/ontological projection but a temporal posture 'in moral/intellectual
 equivalence with temporal mental projections' with nefarious temporal consequences).
 Basically, there is nothing like an intemporal temporality/shortness whereby there is any
 intemporality/longness in accommodating human temporality. Likewise, supposedly the
 intellectual-analyst was to come short in its intemporal projection or other universal values by
 temporal manipulation, it is very naïve to 'reason and projecting temporally' that eliciting
 such 'an inductive-limitation (the-paradox-of-a-universal-rule-that-doesn't-apply-universally-

but-to-a-specific-circumstance-to-satisfy-a-temporal-urging)/gotcha-logic/suggestibility’ should undermine the essence of ontological/intemporal meaning which is ‘above a human intellectual proxying exercise to it’ and doesn’t depend on it to exist inherently, is nothing but temporal naivety. The reality of a round world doesn’t depend on its recognition of a medieval mindset/reference-of-thought for it to exist likewise with any veridicality/intrinsic-reality regarding psychopathy and a social manifestation whether it is palatable or not. Finally, temporal-dispositions as eliciting temporal vices-and-impediments are in no way qualified to contend about intemporal articulation/projection. In effect, such temporal pretence are nothing but <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions meant to satisfy the ‘mortals temporal preservation’ on the basis of ‘locale context logic’ and not ‘intemporal preservation as ontological veridicality with the potential for a grander human good’ on the basis of ‘universal implications’; as inevitably, ontologically, the resolution of ontological/being perversion-of-reference-of-thought defects (and as per their manifestation and conjugation as postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’) are as prospective registry-worldviews/dimensions constructs that supersede the prior/superseded registry-worldview’s/dimension’s perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (uninstitutionalisation structurally superseded/resolved/rendered-

inoperant by base-institutionalisation, ununiversalisation by universalisation, non-positivism/medievalism by positivism, and prospectively procrypticism/disjointedness-as-of-reference-of-thought by deprocrypticism). Supposed the intellectual-analyst was to act temporally to the point of overlooking such ontological implications to the level of lowly temporal minds, lowly because not universal-projecting, it won't mean that the ontological reality will evaporate. It will simply mean that the intellectual-analyst has failed in its intemporal/ontological projection, more like Darwin doesn't have the choice/luxury of deciding from his insight that evolution doesn't exist in placating any temporal mortals or Galileo doesn't have the choice/luxury of deciding from his insight that the world is not round in placating any temporal mortals, and if they were to make that choice they affirm nothing more than their 'aggrandised mortality'. The blunt/incisive reality is that they being in that position to affirm intemporality/ontology/intrinsic-reality-as-providing-future-universal-possibilities-for-the-human-species are the 'very tip of the possibility of human civilisation' and their moral/intellectual posture is to 'bluntly look down' to the 'little mortal creatures of temporality' and 'shepherd the sheepishness-of-the-species' to grander civilisational grounds. It is an ontological 'moral and intellectual responsibility and privilege', actually, to be in any such position, going by the eudaemonic-contemplation which is what 'effectively grants existential moral and intellectual superiority' and not naïve temporality/shortness accommodating conventioning constructs about any such pretence which is nothing more than temporal/the-mortal's perversion-of-reference-of-thought as to dialectical-dementing—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; as any such is not the intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will

enable deprocrypticism (to thwart procrypticism/disjointedness-as-of-reference-of-thought) and thereafter; the intemporal individuation as such projects in an ‘abstract eternity’ which is what allows for the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Temporal-dispositions may not need to understand as of for the pertinence of intrinsic reality to be established as it is preceding/postconvergence, anyway, that is why it is ‘a registry-worldview’s/dimension’s institutionalisation/intemporalisation exercise’, and ‘not human temporal-dispositions transformation exercise’ into intemporality! Ultimately, like all institutionalisation/intemporalisation construct, there is a ‘<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection induced deference’ to such an ontological construal by way of formalism-and-officialdom as the temporality/averageness/banality-of-thought is not allowed to imply an <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection depth with respect to such ontological construal (due to the reality of the mediocrity principle that we are not as of intemporal but temporal-to-intemporal, and hence the need for the artifice to skew/deferential-formalisation-transference for intemporality) otherwise we would be working with moral philosophy and not law, subject-matter informalities and not formalisms, etc. There is no such thing as ‘intemporal temporality’ as mental-dispositions ‘geared to accommodate temporality’ are doing nothing but providing the anchoring for the endemisation and enculturation of the vices-and-impediments associated with such temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> as perversion-of-reference-of-thought, and hence are doing nothing but <formative>epistemic-totalising—self-referencing-syncretising; as the state of inherent relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-

reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, in temporal-preservation-as-pseudointemporality-preservation with respect to ontological-normalcy (the latter assumed to be fully conceptually completed as deprocrypticism) as successively recurrent-utter-uninstitutionalisation recurrence, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism and positivism/procrypticism, is an inherent registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> in want for prospective transcendence (notwithstanding that the defect-in-temporal-preservation is instigated from postlogism as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness mental-disposition eliciting temporal inclinations of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in upholding its temporal-preservation-as-pseudointemporality-preservation). That is why psychopathy is better dealt with as ‘social psychopathy’ given that what is often and mostly overlooked is not with regards to the psychopath and its postlogical impulse to ‘hollow-constitute’/fail-intemporal-preservation as perversion-of-reference-of-thought but rather the ‘distortional effect on analysis’ arising from ‘postlogical/psychopathic elevation wittingly or unwittingly’ by prelogism-as-of-conviction mental-dispositions in conjugated-postlogism/dementing-integration (by ignorance, at best, then affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) which then wrongly provide ‘conviction credulity’ to elevate and integrate the perversion-of-reference-of-thought of a ‘slanted mind’. As of , virtuous construal arises structurally from a universal/intemporal projection which is operant and deterministic with no room for ‘temporal discretion’ regarding the manifestation of perversion-of-reference-of-thought in any registry-

worldview/dimension. The coherent and recurrent manifestation of phenomenal perversion-of-reference-of-thought defect in a registry-worldview/dimension speaks of the registry-worldview's/dimension's disposition to endemise/enculturate it. More like we don't have issues of sorcery and so in the positivistic society as structurally the positivistic registry-worldview's/dimension's institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology do not endemise/enculturate the notion and the social vices-and-impediments arising from it thereof. On the contrary, structurally the non-positivism/medievalism registry-worldview's/dimension's institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology endemises/enculturate this with the consequent social vices-and-impediments. It is very naïve to think that psychopathy as a social phenomenon is limited in scope to contexts where psychopaths are involved rather than involving a much wider social basis to explain how the positivistic registry-worldview/dimension integrates, enculturates and endemises it as 'social psychopathy'. Just as prior/superseded registry-worldviews/dimensions have undergone their prospective institutionalisation/intemporalisation/transcendence once it is established that the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are subknownledged/registry-perverted/dialectically-demented at their uninstitutionalised-threshold and thus the need for new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, likewise the positivistic dimension perversion-of-reference-of-thought subknowledging/mimicking/registry-perverting/dialectical-dementing of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation known as procrypticism/disjointedness-as-of-reference-of-thought implies that 'it is not and cannot be beyond a prospective

institutionalisation/intemporalisation/transcendence exercise' known as deprocrypticism which highlights the positivism–procrypticism registry-worldview's/dimension's enculturated/endemised vices-and-impediments associated with its perversion-of-reference-of-thought, and so, as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal, and not as a vague impression-driven construal. By and large, virtue is best understood as the knowledge/lack-of-knowledge ontological possibility offered in a registry-worldview's/dimension's reference-of-thought (whether as base-institutionalised, universalised, positivising or deprocrypticism existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context involving existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality) and not vagueness based on impression of discreet human or social qualities which just serve to confuse and distort the fundamental knowledge/lack-of-knowledge/understanding issue. This is very much in line with the virtues of all human subject-matter formalisms which are the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework and not vague impression-driven/good-naturedness/wishfulness.

This elucidation shows that intrinsic-reality, accessible by 'reasoning-through transversality-of-disambiguated-apriorising/axiomatising/referencing' only at-a-superseding-pedestal that is ontologically abject and incisive/blunt over human incrementalism-in-relative-ontological-incompleteness and notional-disjointedness-as-of-reference-of-thought and <formative>epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness, is graspable in transcendence only by an active transversality-of-disambiguated-apriorising/axiomatising/referencing construal involving 'intemporal-

prioritisation-of-reference-of-thought'-as-conflatedness pedestalling (beyond 'temporal-and-social trading') by distractive-alignment-to-reference-of-thought.

As a reminder to the fact that pedestalled construal/pedestalled disambiguation is with respect to perversion-of-reference-of-thought/mental-perversion (non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-dementedness defect or a defect outside the logical paradigm of the said registry-worldview) and not logical defect (conviction defect or a defect in the operation/processing of the logical paradigm of the said registry-worldview); it is critical to note that the mental state of the registry-worldview/dimension involved with the psychopath's slantedness-integration is not a 'bad conviction' (which is a conviction or prelogism nonetheless) but a non-conviction-or-'existential-decontextualised-transposition'-or-impulsively-dementing or perversion-of-reference-of-thought or strands-of-perverting-temporal-dispositions, construed by the slanted protraction of the psychopath's slantedness inducing a social psychopathy; and it is these strands-of-perverting-temporal-dispositions including that of the psychopathy that are the subject of every institutional-cumulation/institutional-recomposure level's psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. Technically, it can be said that the underlying psychopathic phenomenon known as postlogism-as-of-non-conviction is associated with all the institutional-cumulations/institutional-recomposures by its eliciting of 'protracted slantedness' in temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Hence, the need for '<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection induced

deference' to skew/deferential-formalisation-transference towards intemporal-disposition, as institutionalisation/intemporalisation.

This 'institutionalisation template' as articulated above implying 'a next best case approach' in 'construing the institutionalisation/intemporalisation of human virtue' where we are face with the reality that man is not as of intemporal but rather temporal/shortness-to-intemporal/longness may be counterintuitive with respect to our illusion-of-the-present/present-consciousness, as any present-consciousness is shaped to perceive itself as intemporal with the notion that its reference-of-thought–categorical-imperatives/axioms/registry-teleology/registry-teleology are perfectly sound. But we simply need to take a 'postconvergence' look of such 'ontological strands-of-pervverting-temporal-dispositions' regarding recurrent-utter-uninstitutionalisation from base-institutionalisation institutionalisation/intemporalisation reference, ununiversal from universalisation institutionalisation/intemporalisation reference, non-positivism/medievalism from positivism institutionalisation/intemporalisation reference, and prospectively our procrypticism from deprocrypticism institutionalisation/intemporalisation reference; to appreciate that such a representation is not farfetched and its implication of the need of our psychoanalytic-unshackling/memetic-reordering/institutional-recomposure over our perversion-of-reference-of-thought strands-of-pervverting-temporal-dispositions at our uninstitutionalised-threshold of procrypticism (involving our endemisation/enculturation of the protracted-slantedness of positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation along the various temporal-dispositions from ignorance to temporal enculturation/endemisation).

distractive-alignment-to-reference-of-thought (mental-slantedness or decandoring-of-the-mind or denaturing, and not soundness-or-authenticity-of-reference-of-thought/candor): refers to the technique at ‘uninstitutionalised-threshold’ (as against the natural reflex to align-in-conviction/prelogically or prelogism) by which to align the apriorising–registry to the postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation articulated by psychopathy and its corollary social psychopathy. Distractive-alignment-to-reference-of-thought is induced at the ‘uninstitutionalised-threshold’ by the ‘induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ derived from the psychopath’s initiated postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. It works like this, supposed by perversion-of-reference-of-thought/mental-perversion (going by the two narratives highlighted above about the psychopath’s perversion-of-reference-of-thought/mental-perversion) an interlocutor effectively integrates the perversion-of-reference-of-thought/mental-perversions, at this ‘uninstitutionalised-threshold i.e. procrpticism’, the normal institutionalised/intemporalised logic (involving secondnaturing/supersedingness of institutionalised intemporal-disposition pedestal solipsistic/emanant disposition) do no longer operate cross-sectionally socially (as mental-dispositions revert there to temporal-to-intemporal-dispositions). This involves: (i) the ‘induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ (which leads to acting as if the perversion-of-reference-of-thought/mental-perversion projected by the psychopath is not perverted) as there is a corresponding ‘lack of constraining social universal-transparency’ (in the collective human mental-devising-

representation at this uninstitutionalised-threshold) about the perversion-of-reference-of-thought/mental-perversion that would have made upholding such a perverted behaviour in the social-construct inopportune/untenable; (ii) this process can effectively be grasped ontologically (at the intemporal-disposition pedestal transversality-of-disambiguated-apriorising/axiomatising/referencing disposition by the mechanism of alienative-hierarchisation) wherein a ‘given conviction or prelogism construct’ is as of undermined postlogically/perversion-of-reference-of-thought/mental-perversion by the psychopath’s postlogism-slantedness pedestal transversality-of-disambiguated-apriorising/axiomatising/referencing disposition with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’, and in succession by the derived postlogical temporal-dispositions perversion/mental-perversion pedestal transversality-of-disambiguated-apriorising/axiomatising/referencing dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and correspondingly; (iii) an ‘uninstitutionalised-threshold aetiology’ of ‘temporal perverted-registries characterisations in their depth-of-teleologies/orientation as temporal-projections (more like mental-miscuing-projections as strands-of-temporal-dispositions-perversions, for instance, stranding-dialectics a medieval mindset/reference-of-thought with respect to a superstitious-disposition or ‘perversion-of-reference-of-thought of universalisation categorical-imperatives’ and likewise stranding-dialectics a procryptic mindset/reference-of-thought with respect to ‘perversion-of-reference-of-thought of positivistic categorical-imperatives’) and an aetiology of the intemporal-disposition/ontologising characterisation in its depth-of-teleology as intemporal/universal-projection ; (iv) in the bigger scheme of things, as explained further above ‘the abstract inherence of reality is given as it is ontological-normalcy/postconvergence’ and supersedes/precedes/overrides/objects any defective reflex of

human mental devising of representation of meaning such that it is the latter, the psyche, that gives in when demonstrated to be impertinent abstractly, and hence in lieu of ‘prelogism/candoring/straightness reflex’, ‘distractive-alignment-to-reference-of-thought (as decandored/oblongated) is always the mental apriorising–registry alignment with regards to the perversion-of-reference-of-thought registry-worldview, as positivism by stranding aligns non-positivism/medievalism distractively/decandored/oblongated/as-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/protracted-non-conviction, universalisation by stranding aligns ununiversalisation distractively/decandored/oblongated/as-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/protracted-non-conviction, base-institutionalisation by stranding aligns recurrent-utter-uninstitutionalisation distractively/decandored/oblongated/as-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/protracted-non-conviction, and prospectively (though counterintuitive, as well) deprocrypticism by stranding aligns procrypticism distractively/decandored/oblongated/as-mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/protracted-non-conviction; (v) in the bigger scheme of things, distractive-alignment-to-reference-of-thought at ‘uninstitutionalised-threshold’ will perfectly explain how ‘apparently sound human mental-dispositions’ within the scope of ‘institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ go on to produce such consequences as ‘crowd effects’ and worst still in teleologically-degraded social and political environments rationalise and/or partake in ‘genocidal acts’, for instance. Technically, distractive-alignment-to-

reference-of-thought by the temporal-dispositions involves simply conjugating/inflecting the underlying ‘(dialectically-or-contendingly-out-of-phase/hollow-mimicking) insane/slantedness fitment’ of the postlogical mind of the psychopath to ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation.

In the bigger scheme of things, the articulation of reality as referentially ontological-normalcy/postconvergence enables and allow creative thought possibilities that the all too common ‘fixated traditional categorisation conceptualisation of reality’ doesn’t allow, as ontological-normalcy/postconvergence referentialism has the strength of overcoming the fundamental difficult issue of ephemerality (as priorly explained with the concept of unconscionability-drag) as ‘it enables mental-devising-representation contiguity in recomposuring’ across all institutional-recomposures/institutional-cumulations. The reason this is possible is that such a referential ontological-normalcy/postconvergence representation is not shaped to prioritise any registry-worldview/dimension as being inherently the absolute reference of thought, such as we unwittingly do with our representation of reality due to the illusion-of-the-present/present-consciousness (a massive drawback in grasping veridical ontological reality especially in the ephemeral social world). With ontological-normalcy/postconvergence referentialism we place reality as an abstract construct of oneness that is preceding-and-supersedes our-and-all temporal representations of meaning, and the exercise of articulating ontological/intemporal meaning then becomes ‘one of recomposuring how our temporal-and-all-temporal representations of meaning are recomposured to be internally coherent with the abstract ontological-normalcy/postconvergence referentialism ‘sense of oneness of preceding-and-superseding intemporal/ontological meaning’ as implied by the intemporal-preservation-entropy-or-contiguity—or-ontological-preservation’. The

insight we can thus garner is that in absolute terms veridical meaning as represented in ontological-normalcy/postconvergence is ‘a hypothetical abstraction’ of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (more like attaining the abstract but veridical purity in a field of study like mathematics) in ‘unwinding’ applicative ‘colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation’ of manifest teleologic-articulations as ‘subexistence-in-existence/existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ (deconstruction/ontological-reconstituting—as-of-conflatedness possibilities) – subexistence-in-existence being that which holds existential possibilities or existential potency for existential reality or ontological veridicality, as allowed by referential-depth or (‘allant’ or ‘fugue’ in French) or ‘natural emanant dynamic creative vitality/drive’, i.e. ontological-normalcy/postconvergence ‘unwinding’ as deconstruction/ontological-reconstituting—as-of-conflatedness – (more like the subconscious is that which holds existential possibilities/existential potency for ontologically-veridical ontological-normalcy/postconvergence maximalising-recomposuring-for-relative-ontological-completeness consciousness reality/veridicality, or more like quantum-mechanics is actually an ontologically-veridical ontological-normalcy/postconvergence maximalising-recomposuring-for-relative-ontological-completeness about evasive atomic-level physical reality, more like musical and/or artistic creativity hermeneutics is the subexistence-in-existence possibilities or existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness/existential-potency for ontologically-veridical ontological-normalcy/postconvergence ‘unwinding’ concrete music and/or art production). Thereafter, the ontological exercise is about having

ontological-normalcy/postconvergence (intemporal-preservation-entropy-or-contiguity-or-
 ontological-preservation) as ‘an ontologically-veridical abstract and infallible
 referencing/correction-tool’ enabling dynamic recomposuring projecting-and-reflecting: on
 the one hand, candoring/prelogism/organic-comprehension-thinking ontologising, or on the
 other hand, decandoring/distractive-alignment-to-reference-of-thought /mechanical-
 comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-
 meaningfulness-and-failing-intemporal-preservation, even as intemporal-preservation-
 entropy-or-contiguity-or-ontological-preservation implies a continually-evasive/ephemeral
 social world dynamics but that is graspable in referential terms. This allows for a truly
 universal and dynamic psychological science (and sound foundation for grasping ‘the
 veridicality of meaning’). The tools for such an ontological entrapment is basically about
 ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of
 reference-of-thought’ of registry-worldview/dimensions successive existentialisms/full-
 depths-of-existential-implications ‘transdimensional-meaningfulness/memetic refinements’
 as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-
 reconstituting—as-of-conflatedness as dialectical transformation as prospective reference-of-
 thought involving fundamentally the organic harnessing of the notions of
 candoring/prelogism, dialectically-or-contendingly-in-phase, organic-comprehension-
 thinking, prelogism-as-of-conviction on the one hand and on the other hand decandoring,
 distractive-alignment-to-reference-of-thought, dialectically-or-contendingly-out-of-phase,
 non-ontological-reference, non-contending-reference-but-ontologically-or-contendingly-
 reflected-or-perspectivated-as-dementing, not-veridical-thinking-reference-rather-dementing-
 reference, perversion-of-reference-of-thought-and-not-of-logical-contention, mechanical-
 comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-
 meaningfulness-and-failing-intemporal-preservation (mechanicalism, alchemic-like-

reasoning, circumventive/distractive-temporal-prioritisation-of-reference-of-thought, shortness-of-register-of-meaningfulness-and-teleology, protracted-non-conviction); which allows the human mind to project beyond just its illusion-of-the-present/present-consciousness/epistemic-totalising-self-referencing-syncretising/mirage, and truly have a fulsome picture of universals. Postdication (as an abstract and infallible referencing/correction-tool) allows for the ‘ontological liberation of human mental-devising-representation (of meaning) from any present (recomposed)-consciousness-awareness-teleology’ (whether in the bigger scheme of reference of specific consciousness-awareness-teleologies like recurrent-utter-uninstitutionalisation–base-institutionalisation, ununiversalisation-universalisation, non-positivism/medievalism-positivism, and prospectively procrypticism-deprocrypticism) as ‘postdication doesn’t tie the mental-devising-representation process to any of the above registry-worldview/dimension habituated (recomposed)-consciousness-awareness-teleology’ (given that these consciousness-awareness-teleologies are the recomposed outcome of ‘incomplete/incremental/temporal-accommodation human brain limited-mentation-capacity-(as of relative constitutedness towards relative conflation)’)) but ‘rather ties the mental-devising-representation process to the abstract and infallible ontological-normalcy/postconvergence ontological-veridicality referencing/correction-tool’ (given that this allows for complete/object understanding by the very nature of the ontological-normalcy/postconvergence notion, of course in an ‘abstract and evasive caricature’), hence overcoming the illusion-of-the-present/present-consciousness inherent in any (recomposed)-consciousness-awareness-teleology representing the mentally devised state of any registry-worldview/dimension. Postdication is all about an ontological-normalcy/postconvergence institutionalisation/intemporalisation-constraining for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as ontological-extending-into-existentialism-becoming of personhoods-and-socialhood-formation (existential-storying-

in-contiguity). An analogical case in point will be ontological theory-of-relativity or quantum-mechanics wherein the abstractions go beyond our habitual mental-devising-representation of meaning as in the positivist registry-worldview's/dimension's (recomposed)-consciousness-awareness-teleology. However, the bigger picture is that if prior/superseded institutional-cumulations/institutional-recomposures have effectively occurred and so, counterintuitively to their natural (recomposed)-consciousness-awareness-teleologies, as anticipated by postdication right up to our present positivistic institutionalisation/intemporalisation owns (recomposed)-consciousness-awareness-teleology; there isn't any particular ontological reason for intemporal/ontological meaning not to be construed in ontological-normalcy/postconvergence (postdication) as more veridically/ontologically real, beyond and counterintuitively to the positivistic mind's temporal (recomposed)-consciousness-awareness-teleology (even if it is unintelligible/existentially-suprastructural to it). Such counter-intuitiveness arises because a prospective transcendental psychoanalytic-unshackling/memetic-reordering/institutional-recomposure implied by postdication places the prior psychoanalytic-construction/institutional-recomposure/memetic-reordering (in this case positivistic institutionalisation/intemporalisation) existentialism/full-existential-depth-implications personhoods-and-socialhood-formation in question/jeopardy. But then it is not reality that caves in, it is 'the mortal' with a renewed institutional-recomposure/memetic-reordering//psychoanalytic-reorientation at its uninstitutionalised-threshold involving organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) in contrast with mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation; in transversality-of-disambiguated-apriorising/axiomatising/referencing along 3-pedestals (psychopath's

slantedness transversality-of-disambiguated-apriorising/axiomatising/referencing pedestal,
 temporal-dispositions transversality-of-disambiguated-apriorising/axiomatising/referencing
 pedestals, and the intemporal-disposition transversality-of-disambiguated-
 apriorising/axiomatising/referencing pedestal in ontological-escalation/aetiologisation)
 enabling the stranding-as-mentally-oblongated/decandored-and-dialectically-or-contendingly-
 out-of-phase of mechanical-comprehension-dementing in hollow-constituting—as-disjointed-
 misappropriation-of-meaningfulness-and-failing-intemporal-preservation. Even if this sounds
 unintelligible/existentially-suprastructural, in any case a retrospective registry-
 worldview/dimension is ‘existentially parochial/narrow-minded as reflected/perspectivated
 by its mechanical-comprehension-dementing in hollow-constituting—as-disjointed-
 misappropriation-of-meaningfulness-and-failing-intemporal-preservation denaturing from an
 organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-
 thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology)-
 ontologising from the prospective registry-worldview/dimension’. For instance, where a
 positivist mind might see a forest as a subject of scientific inquiry/understanding, a non-
 positivist/medieval mindset/reference-of-thought might rather see a mentally unconscious
 man going into the ‘evil forest’. Such ‘existential parochial perspectives’ will arise anyway
 from procrypticism viewed from deprocrypticism, though of a different nature than the
 example expressed above. In that sense, the deprocryptic mind might actually seem ridiculous
 in the procryptic registry-worldview/dimension but ‘there should be no temptation to want to
 appear great or adjust in such a perversion-of-reference-of-thought perspective but rather to
 make it irrelevant’ otherwise the deprocryptic mind compromises the essence of its purpose,
 just as a positivistic mind going by the ‘evil forest’ comparison ‘cannot afford to compromise
 its positivist stance’ by trying ‘to be wonderful’ in a non-positivism/medievalism perspective
 that is rather ‘in want of transcendence’; as it is exactly because the temporal non-

positivism/medievalism reference is defective that it is being transcended. This speaks to the specificity of the would-be intellectualism involved in a transcendental construct, as different from just intellectualism as mere-institutionalised-being-and-craft; it carries the element of knowledge not only as an abstract intradimensional conceptual construct but in its fullness with existential implications and insights of the dialecticism and psychoanalytic-reorientations involved in all transcendences, requiring that such an intellectual analyst be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality-of-disambiguated-apriorising/axiomatising/referencing with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the registry-worldview/dimension in need of transcendence (procrypticism) to avoid dividing its meaningful-referencing instead of taking it prospectively (deprocrypticism), for instance, medieval intellectuals like Galileo and Rousseau have to be of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ in transversality-of-disambiguated-apriorising/axiomatising/referencing with temporal meaningful frames which do not define and are not a point-of-reference to intemporal/ontological meaningfulness’ with the medieval registry-worldview to generate prospective positivistic registry-worldview which at their time is not intelligible to a medieval take (categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) on meaningfulness! This can be further expanded on as follows. The intradimensional meaningful frame is ‘an abstraction to the structural/paradigmatic conceptual limits (uninstitutionalised-threshold) of the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of that registry-worldview/dimension, which do not supersede/precede/override/undermine intrinsic-reality/ontology; and the issue that then

arises is that it doesn't carries the meaningfulness sought for transcendently. On the other hand, transdimensional/transcendental meaningfulness-and-teleology is precedingness/supersedingness/ascendency accruing as 'existential psychoanalytic ontological form (in full blossoming of the transcending dimension)' beyond the superseded intradimensional structural/paradigmatic conception limits (uninstitutionalised-threshold) of the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of that registry-worldview/dimension (which itself had been the outcome of a preceding existential psychoanalytic ontological form). Memetism as suprastructural-meaningfulness will refer to the abstract conceptualisation of meaningfulness-and-teleology beyond and superseding an intradimensional registry-worldview abstraction scope to the scope of transdimensional/transcendental existential psychoanalytic ontological form (in full blossoming of the transcending dimension with its existentialism/full-existential-depth-implications personhoods-and-socialhood-formation); highlighting as ontologically wrong any relation to intradimensional meaningfulness as (intemporally/ontologically)-sanctuous-by-reflex (as this wrongly undermines the stranding-dialectics of temporal-dispositions-postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'-subknowledging/mimicking-set-of-narratives, and wrongly leads to their <formative>epistemic-totalising—self-referencing-syncretising-as-straight/candored)' at that registry-worldview's/dimension's uninstitutionalised-threshold requiring prospective memetic-reordering. (As a side note, this will explain while 'referentialism' in contrast to 'categorisation' is the appropriate knowledge-cadre for such a more or less deconstructive articulation in ontological-normalcy/postconvergence and suprastructural, as is the case with this paper, by the fact of the need for a requisite 'habituation-into and repeatability-from-different-textual-meaningfulness-perspectives' that is necessary to get-to-and-grasp not only

an explanation but critically as well the requisite psychoanalytic-state of a construed existential psychoanalytic ontological form, in full blossoming of the transcending dimension, as ontological meaningfulness.) Finally, it is just a matter of fact going by the institutional-cumulation/institutional-recomposure process that human cross-sectional mentation-capacity in relation to the intemporal-preservation-entropy-or-contiguity-or-ontological-preservation is limited given perversion-of-reference-of-thought, as virtue is rather extended by successive re-institutionalisation in transversality-of-disambiguated-apriorising/axiomatising/referencing (not nested-congruence) by the intemporal-disposition intemporalisation skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) as deferential-formalisation-transference, going from base-institutionalisation, universalisation, positivism and prospectively deprocrypticism.

Such a 'postconvergence referentialism' skewed ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) hermeneutic-circle goes beyond a traditional hermeneutics exercise of subjective interpretation and rather arrives at an exercise in 'universal objective (ontological-primemovers-totalitative-framework) ontological explanation' as it emphasises transversally/incongruently 'the recompositing precedingness/supersedingness/ascendency of abstract ontological-normalcy/postconvergence referentialism notion of reality' in referencing meaningfulness apriorising-registry (whether candored / integratively-aligned / straightness / dialectically-or-contendingly-in-phase or decandored / transversality-of-disambiguated-apriorising/axiomatising/referencing / dialectically-or-contendingly-out-of-phase colour/emotion/temporal-frame/aesthetics/memetics/psychical-representation), and so, as coming from an intemporal-disposition/ontological skewed ('intemporality-asymmetric-

subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) point-of-referencing. It further holds a promise that goes beyond our notions of reference-of-thought and meaningfulness (as rather intradimensional or a registry-worldview constructs), and arrives at the grander notion of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which grasp should enable greater human transcendental possibilities.

Of course, ontologically (i.e. ‘the-Good/understanding’ contrasted with ‘good-natured/impression-driven’) the bigger issue is how do our development and institutionalisation/intemporalisation of true knowledge ‘save us from potent-temporality and its vices-and-impediments with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’, rather than how do we over-idealise ourselves and thus fail to be preemptive (as the ‘human cross-sectional mental equilibrium disposition’, at any successive transcendence/institutionalisation in the ‘human essential temporal-to-intemporal equilibrium nature which is ontologically true’, under-accounts for ‘temporal-nature which is not ontologically true’, and over-accounts for ‘intemporal/longness nature which is equally not ontologically true’ – the insight for this is that institutionalisation/intemporalisation is a psychoanalytic-unshackling/memetic-reordering/institutional-recomposure tool, it doesn’t transform temporal-dispositions which is the exclusive purview of individual sense of <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness and by its very nature is ‘beyond a philosophical transformation exercise’ as the latter exercise is mainly to ‘construct articulations for secondnaturating’ at best (articulate new institutionalisation/intemporalisation deterministic-and-operant possibilities for skewing (‘intemporal/longness-asymmetric-subsumption-of-temporality’, for relative intrinsic-

reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-
 formalisation-transference towards intemporal-preservation-entropy-or-contiguity-or-
 ontological-preservation), hence the need to refer analytically to human temporal-to-
 intemporal dispositions as of the circularity/recurrence/repetition/repeatability delineating
 existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-
 contiguity-reification/superseding-oneness-of-ontology by maximalising-recomposuring-for-
 relative-ontological-completeness highlighting the uninstitutionalised-threshold and not
 analytically implying by reflex solely on the basis of a human intemporal mental-
 disposition); and prospectively, do our part of the ‘transcendental homework’ that has
 brought the human species this far taking cue from retrospective transcendences.

By extension this explains how the notion of ‘knowledge problem’ is to be
 apprehended transcendently/transdimensionally/interdimensionally (as a contiguous
 intemporal ontological construct). Commonly, intradimensionally, the knowledge problem as
 ‘social problem/questioning’ is an ‘intradimensional focus’ around logical
 operation/processing/contention based on the reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation of the registry-worldview/dimension ‘towards resolution’, with
 the temporal defect of possible denaturing of such reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation undermining the intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation. However, ontological-normalcy/postconvergence
 (preceding/superseding intrinsic reality) insight points to a depth-of-focus of the knowledge
 problem as ‘social problem/questioning’ on the ‘intemporal-preservation-entropy’ itself-and-
 beyond-any-set-categorical-imperatives/axioms/registry-teleology-implying-it (and by
 extension accounting for incompleteness of human mental/brain mentation-capacity which is

the reason of the institutional-cumulation/institutional-recomposure process) to define ‘social problem/questioning’ as implying a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation recomposuring/memetic-reordering/psychoanalytic-unshackling to enable intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when at the uninstitutionalised-threshold of the registry-worldview/dimension (the contiguous referential exercise of recomposuring/memetic-reordering/psychoanalytic-unshackling to perpetually enable intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is known as ‘postdication’, a term that is in contrast with ‘predication’ which is based on ‘constitutive categorisation elaboration on an intradimensionally affixed reference-of-thought–categorical-imperatives/axioms/registry-teleology whereas postdication refers to a transcendently/transdimensionally/interdimensionally/across-all-institutional-recomposures/cumulations entropy as ontological-normalcy/postconvergence recomposuring/memetic-reordering/psychoanalytic-unshackling ontological-reconstituting–as-of-conflatedness/deconstruction); involving avoiding making an intemporal-disposition representation (with the implication of a purely logical operation/processing/contention) instead of a temporal-to-intemporal-dispositions representation (with the implication of temporal-to-intemporal-dispositions disambiguation before logical operation/processing/contention; as apriorising–registry disambiguation, into the intemporal-disposition and conjugating temporal-dispositions as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, allowing for contextualisation in articulating the contrast of the intemporal-disposition’s organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) and temporal-

dispositions mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation – involving slanting by psychopath, miscuing, disjointed-logic, logical-drag, unconscionability-drag, and sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising – with temporal-dispositions in varied shades of temporal conjugation/inflection to psychopathic postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as ontological-primemovers-totalitative-framework dispositions; thus enabling the stifling (undermining the ontological-veridicality) of temporal-dispositions and skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating), by way of institutionalisation/intemporalisation percolation channels, towards the supersedingness of the intemporal-disposition for institutionalisation’s/intemporalisation’s intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). Thus the ontological veridicality of the registry-worldview’s/dimension’s perversion-of-reference-of-thought at its uninstitutionalised-threshold is articulated, with contention then being about reflecting/perspectivating/highlighting and aetiologising/ontologising this, even if it is intradimensionally unintelligible/existentially-suprastructural and unpalatable (consider in this regard, the development of positivism from non-positivism/medievalism). It should be noted then that the paradigm is an intemporal/ontological projection referencing paradigm beyond-and-the-non-implication of an equivalence between (‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness pedestalling) with the intradimensional ‘consciousness-awareness frame-of-social-stake-contention-or-confliction’ of the temporal/dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag dimension, more like the positivist ontological biology and medicine paradigm is beyond/supersedes-and-is-a-non-implication of

an equivalence with the ‘consciousness-awareness frame-of-social-stake-contention-or-confliction’ of say non-positivism/medievalism temporal value dispositions with respect to the notion of disease, that is, it’s point is to define an altogether different and superseding meaningful frame or paradigm and is not involved in an idle exercise of elevating and articulating its meaning in terms-as-of-axiomatic-construct of and implying an equivalence with non-positivism/medievalism meaningfulness. That is equally the relation between a transcending deprocrypticism registry-worldview and the transcended procrypticism worldview.

Postdication as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (postconvergence), as an ontological-reconstituting—as-of-conflatedness psychoanalytically/memetically/meaningfully allows for a purist (candored/decandored) ontological grasp/predication of the veridicality of any institutional-cumulation/institutional-recomposure (retrospectively to prospectively); avoiding the defect of intradimensional-referencing of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and consequently a superseded/transcended registry/registry-worldview-or-dimension as <formative>epistemic-totalising—self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase undermining ontological veridicality.

This transcendental insight is in line with the idea of low teleologies or temporal concerns in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, and ontologically short in a temporal 80-to-90-years-of-life-mental-project, and higher teleologies or intemporal/transcendental concerns in organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-

of-register-of-meaningfulness-and-teleology), and ontologically long in an intemporal/species-possibilities/abstract-eternality-of-being-mental-projection/eudaemonic-contemplation), and their corresponding abstract individuation aetiologies (even though in effect individuals as ‘receptacles of specific individuation aetiologies’ cannot realistically be construed as absolutely tied to low or higher teleologies but rather as tending to accrue towards a specific-individuation-aetiology/characteral-disposition whether of low or higher teleology; hence any such ‘storied/articulated’ absolutely specific-individuation-aetiologies are caricatural of the realistic nature of individuals as ‘receptacles of individuation aetiologies’, though all such storied/narrated specific individuation aetiologies represent the full possibilities of any and all individuals ‘as receptacles of individuation aetiologies’).

By ‘higher teleologies’ is meant ‘existential disposition’ which is ‘in essence intemporally preserving solipsistically/emanantly/becomingly’ (and so, by a disposition that is beyond just one institutionalised/intemporalised registry-worldview/dimension and abstractly across all transcendental retrospective-and-prospective institutionalisation/intemporalisation registry-worldviews/dimensions); with the implication that the highest teleologies of Base-institutionalisation (as percolating undermining of recurrent-utter-uninstitutionalisation and its vices-and-impediments) – equivocates as of to the highest teleologies of Universalisation (as percolating undermining of ununiversalisation and its vices-and-impediments) – equivocates as of to the highest teleologies of Positivism (as percolating undermining of non-positivism/medievalism and its vices-and-impediments) – and prospectively, equivocates as of to the highest teleologies of Deprocrpticism (as percolating undermining of procrpticism/disjointedness-as-of-reference-of-thought and its vices-and-impediments). It should thus be noted as such that ‘higher teleologies’ are ‘equivalences of existential ’ (in terms-as-of-axiomatic-construct of temporal-to-intemporal-dispositions), and not equivalences of institutionalisation/intemporalisation levels. That is,

being in a transcended institutionalised/intemporalised registry-worldview/dimension (internalisation and formalisation induced as a secondnature) doesn't equivocate as highest teleologies to the existential projection that 'had the vision' in the prior/superseded subknowledging/mimicking/untranscended registry-worldview/dimension ('with-no-elicited-positive-opportunism/much-more-likely-temporal-negative-disincentive' and 'out-of-the-blue') to articulate-and-uphold-for-percolation the prospect of the transcended-registry-worldview/dimension-with-its-prospective-universal-virtue-over-the-vices-and-impediments-of-the-prior-registry-worldview/dimension even as it seem unintelligible/existentially-suprastructural to the prior/superseded untranscended/dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension. So in terms-as-of-axiomatic-construct of 'higher teleologies' (emphasising the existential intemporal as a seed-of-virtue over institutionalisation/intemporalisation outcome, which the former enables) being in an institutionalised/intemporalised positivistic world doesn't necessarily equivocate us to the Galileos, Descarteses, Newtons, Leibnizes, Rousseaux, Darwins ... behind the articulation-and-upholding-for-percolation of a positivistic registry-worldview/dimension (even though together with them we all may recognise and operate within a positivistic world). That is, the 'existential that enables the articulation-and-upholding-for-percolation of a transcending registry-worldview/dimension' is the higher teleology 'over the mere-institutionalised-being-and-craft' in such a transcended registry-worldview/dimension. And why is this distinction critical? Because prospective (intemporality) need for prospective institutionalisation/intemporalisation/transcendence for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation necessarily calls upon the (intemporal) -kind that articulated-and-upheld-for-percolation the superseding institutionalisation/intemporalisation/transcendence; and the condition of mere-

institutionalised-being-and-craft in the untranscended registry-worldview/dimension doesn't speak of disposition to prospectively articulate-and-uphold-for-percolation an intemporally requisite prospective registry-worldview/dimension institutionalisation/intemporalisation that is intemporally preserving (in ontological-normalcy/postconvergence), highlighting the veridicality and need for 'human registries-disambiguation at uninstitutionalised-threshold', and as being temporal-to-intemporal-dispositions.

The notion of higher teleologies as such is specific to the human species in holding that beyond just 'a physical animal passing of specie generational succession' for survival and optimising-specie-flourishing, with higher teleologies there is 'an even more critical passing of generational succession' as memetic-skewing-or-reordering/philo-cultural optimising of possibilities of the species towards intemporal virtue as civilisational over temporal vices-and-impediments (philo-cultural and not cultural, because philosophy notionally supersedes and defines cultural possibilities); and so, by virtue of the exceptional possibility, in time and space, of human transformation/transcendence by philo-cultural skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/memetic-reordering with respect to the base physical animal selectivity process (genetics) of the human species generational succession.

On other issues of pertinence in the bigger scheme of things:

(i) Meaningfulness of temporal-to-intemporal-dispositions as to 'existential idealism/success' as these define mental orientations or registry-worldview teleological-dispositions. Going by the human 'institutional-cumulation/institutional-recomposure' process involving variously candored/straightness/prelogism and decandored/oblongated/distractive-alignment-to-reference-of-thought mental-devising-

representation of registry-worldviews dependent on which registry-worldview is considered perversion-of-reference-of-thought or transcendental/superseding; in any given registry-worldview's social context, the notion of 'existential idealism/success' is averagely viewed invariably as 'living to the 'opportunistic ideals or conventioning/social-temporal-thresholding' of the inherent registry-worldview' irrespective of whether it is perversion-of-reference-of-thought or transcending/superseding, and not necessarily by its veracity/ontological-pertinence. But then given that what allows for the institutional-cumulation/institutional-recomposure-process/transcendence/civilisation to take us from an uninstitutionalised animal to now a positivistic one and prospectively a deprocryptic one; it is difficult to contemplate 'existential success/idealism' from a knowledge/ontological perspective (in contrast to a temporal <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> perspective) without identifying that intemporal in contrast to temporal mental-dispositions is what is 'truly existential success' as the intemporal-disposition is very much what allows for human transcendence and subsequent institutionalisation/intemporalisation, much as the distilling process allows for the lightness of hydrocarbons, 'where lightness is virtue'. Basically, it can be said that without the human quality of the 'aetiologisation/ontological-escalation individuation of the intemporal ' we'll still be probably in caves. Of course, such a depth-and-projecting-scale-of-thought requires an appreciation of the 'percolative impact' of the 'firstnature/intemporal' (which is not readily available to the immediacy/shortness-of-register-of-meaningfulness-and-teleology of minds of temporal-dispositions). For instance, men did not 'by magic' develop the possibilities of civilisations whether the stone, bronze, copper, iron ages, the antiquities, the medieval and today modern positivism; without a corresponding 'psychoanalytic liberation' that allowed for such a development induced by

philosophical revolution, however, prosaic the philosophy. For instance, it is not by magic that science and vaccines were not developed in antiquities but were developed in early industrial Europe, as the ‘psychoanalytic liberation’ of the ideas expressed by the Descartes and Galileos ‘shaped subsequent common minds’ to be inclined to rationalise profoundly their grasp of physical phenomena like Pasteur and others. Likewise, the philosophical development in antiquities not being ‘profoundly applicative enough’ and more or less cultic (available more or less to a priestly class and poorly universalising in many such slaving-and-class society), such a psychoanalytic liberation percolating effect could hardly be obtained from say Aristotle’s writings (granted, it percolated into the medieval Arabic and European worlds), and in addition the ‘intellectualism’ was more like contained in a ‘cultic class’, and hardly the bread and butter of commoners (and even then, Athens was an outlier without scale and time and the sufficient lack of chaos and war). As the establishment of a registry-worldview’s/dimension’s ‘originary/event-of-prospective-ontology-origination psyche rule of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as of phenomenal-abstractiveness-of-presence-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context conceptualisation’ is what allows for human individual and collective orienteering–focussing–persisting of construal/conceptualisation by that transcendental-enabling/sublimating originary/event-of-prospective-ontology-origination psyche rule to the full exhaustion of what intrinsic-reality/ontological veridicality can avail to humankind as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework in construing meaningfulness-and-teleology for the prospective institutionalisation; and so, until humankind is dissatisfied of this finitude and aspires as of

 ontological-dementation/dialectical-dementation–stranding/attributive-dialectics for
 prospective transcendental possibilities. Basically, the entropy behind such a philosophical-
 driven conceptualisation of human meaning and corresponding psychoanalytic-unshackling,

percolating into an overall relaying defining the human anthropological-continuity or anthropopsychology or institutional-cumulation/institutional-recomposure could be summed up this way:

- a human-philosophical-conceptualisation of mythologies (of superstitious causations with respect to human and existential destiny/teleology) ‘inducing a human psychoanalytic-unshackling or registry-worldview memetic-reordering’ which has the merit of introducing comprehensive social institutionalisation/intemporalisation suprastructurally based around such mythologies (underlying suprastructurally the creation of superstitious practices, religions and belief systems, and practically ‘institutionalised living’ whether with respect to nature or among humans);

- a human-philosophical-conceptualisation of mystical-principles (a system of the appropriate relations humans need to have with such superstitious causations with respect to human and existential destiny/teleology) ‘renewing the human psychoanalytic-unshackling or registry-worldview memetic-reordering’ which has the merit of redefining comprehensive social institutionalisation/intemporalisation as rules/principles-driven though still based on mythological systems (underlying the suprastructural introduction of rules/principles in superstitious practices, religions and belief systems, and practically ‘universal rules of institutionalised living’ whether with respect to nature or among humans);

- a human-philosophical-conceptualisation of principles-rationalism (of principles/rules of causation-in-reflecting-ontology as not superstitious with respect to human and existential destiny/teleology) ‘redefining the human psychoanalytic-unshackling or registry-worldview memetic-reordering’ and has as merit the superseding of superstitions based on rationalising systems of universalisation, positivism and science (underlying the suprastructural introduction of intemporal principles in the operation of social endeavours including social rules and science, and practically ‘the categorical-positivising/rational-

empiricism of institutionalised living’ whether with respect to nature or among humans); and prospectively

- a human-philosophical-conceptualisation of rational-realism of ‘principles/rules of human representation of effective-causation-as-it-reflects-ontology’ as ‘not wholly solipsistically/emanantly/becomingly intemporal’ but rather ‘temporal-to-intemporal’ or shortness-of-register-of-meaningfulness-and-teleology to longness-of-register-of-meaningfulness-and-teleology (rather a notionalisation of knowledge and meaningfulness, where ‘a skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) agency towards intemporality/longness in secondnaturing is what is critical and not a false idealism wrongly implying a direct/immediate cross-sectional intemporal-disposition of humankind’), with respect to human and existential destiny/teleology ‘reorienting the human psychoanalytic-unshackling or registry-worldview memetic-reordering’ and has as merit a realistic and hence more ontological-primemovers-totalitative-framework conceptualisation over ontologically-flawed-intemporal-construction-with-the-drawback-of-temporal-dispositions-’dialectical-dementing—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag underlying the suprastructural and practical introduction of deprocrypticism/right-shades-of-the-real-from-a-longness-register-of-meaningfulness-over-shortness-register-of-meaningfulness rules/principles (postconvergence referentialism entropy of institutionalisation/intemporalisation).

The reason for a registry-worldview’s/dimension’s institutionalisation/intemporalisation transcendence from the superstitious/religion, universal-notions/essences, principles-rationalism/positivist-idealism and then rational-realism as of deprocrypticism is that psychoanalytically/memetically/meaningfully the human psyche is inclined/shaped/desires to find an all-in-all-encompassing-response (magic wand) to explain

its world, but then realises across institutional-cumulations/institutional-recomposures that successive introduction of more and more ‘realistic’ conceptualisations enable a grander ontological-primemovers-totalitative-framework and grasp of its world.

Further, what differentiates principles-rationalism/positivist-idealism and rational-realism as of deprocrypticism is that the ‘institutionalising threshold for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ of the latter introduces the disambiguation of dispositions in meaning construal and subsequent logical operation/processing/contention at reference-of-thought (on the basis that human dispositions are temporal-to-intemporal/shortness-to-longness; with human registers/registry-teleologies involving subknowledging-impulse/impulsive-dementation/slantedness/psychopath, ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). This is the peculiarity of deprocrypticism/right-shades-of-the-real institutionalisation/intemporalisation exercise. The former simply focuses on logical operation/processing/contention at ‘conviction anchors’ (on a wrong reflex basis of universal human intemporal/longness register/registry-teleology disposition). Hence the present principles-rationalism/positivist-idealism unlike rational-realism as of deprocrypticism, in the exercise of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and corresponding reference-of-thought–categorical-imperatives/axioms/registry-teleology, fails to account for perversion-of-reference-of-thought registries, as subknowledging-impulse/impulsive-dementation/slantedness/dementing of the psychopath, postlogically conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing by the temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation.

Deprocrypticism is particular, as imbued/recomposuring with the other institutionalisations

and across all the institutional-cumulation (institutional-recomposures), in that it addresses the fundamental issue of perversion-of-reference-of-thought defect by recognising the reality of human temporal-to-intemporal in principle and preempting this in principle in its operant conceptualisation i.e. in principle the deprocryptic reflex is not to simply operate/process logic, it anticipates the verification of soundness of apriorising–registry to establish that this isn't subknowledging-impulse/impulsive-dementation/slanted/psychopathy as well as the conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing perversion-of-reference-of-thought by the temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation.

Such 'deprocrypticism institutionalisation/intemporalisation transcendence' (as with any other institutionalisation/intemporalisation transcendence) involves the development of preemptive and prospective categorical-imperatives/axiomatic-construct/registry-teleology-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation over the prior now dialectically-or-contendingly-out-of-phase/dialectically-primitive) perversion-of-reference-of-thought positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation stranded-rightfully-as-decandored/oblongated, and so with the 'aetiologisation/ontological-escalation' highlighting temporal-dispositions stranding-dialectics. It should be noted that while the prior/superseded transcendences to positivistic institutionalisations have been rather incremental-to-abject, it is likely that procryptic to deprocryptic transcendence is most probably an outrightly blunt/incisive abject construct, and why, because higher institutional-cumulations/institutional-recomposures imply higher perversion of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that are 'not

readily perceived as undermining intemporal-preservation-entropy-or-contiguity—or-ontological-preservation in their ontological-primemovers-totalitative-framework and are often wrongly analysed as being intemporally preservational’ but for a very insightful ontological reflecting/perspectivating/highlighting exercise of organic-comprehension-thinking (organicism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) ontological-escalation/aetiologising over mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation; requiring a corresponding intellectually decisive and abject articulation for procryptic-to-deprocryptic cross-generational deprocryptic transcendence, as the procryptic perversion-of-reference-of-thought is weakly graspable in the cross-section of the social-construct for the transcendence to work effectively by incrementalism-in-relative-ontological-incompleteness and notional-disjointedness-as-of-reference-of-thought even though such incrementalism-in-relative-ontological-incompleteness and notional-disjointedness-as-of-reference-of-thought might later arise in social integration from institutionalisation/intemporalisation percolation channels following an intellectually abject and decisive articulation, or possibly with successive other such intellectual articulations, of the perpetuation-of-deprocrypticism transcendence. Methodologically, it should draw on phenomenological-and-hermeneutic-insights, as with this research paper, and extending into a ‘creative existentialism (full-existential-depth-implications) storying construal’ as the ‘ontologically effective, applicative and operant articulation insight’ to this background phenomenological-and-hermeneutic-insights. Its highlighting of such a transcendence should be similar to say a literary work like *Things Fall Apart* by Chinua Achebe even though the latter is rather more about cultural-diffusion-from-Western-philosophical-transcendence which positivistic transcendence integration into the society’s institutionalisation/intemporalisation percolation channels

undermines-psychoanalytically/psychoanalytic-unshackling/memetic-reordering/institutional-recomposure the society's existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation allowing for positivistic transcendence. But then unlike Things Fall Apart, such a perpetuation-of-deprocrpticism transcendence being not a cultural-diffusion-from-another-society's-philosophical-transcendence but rather a universal-human-intradimensional-philosophical-transcendence can be creatively devised as being in substitution to an 'abstract cultural-diffusion-from-another-society's-philosophical-transcendence transcendence', for an in-depth insight. However, the latter storying will have to be more deterministic, operant and of aesthetic applicability, unlike just a simple literary work, with strong existentialism/full-existential-depth-implications insights with respect to percolation effects as predication/deferred-predication and application/deferred-application to human and social issues based on temporal-to-intemporal-dispositions conceptual articulation as ontological-primemovers-totalitative-framework about the 'abstract nature of man'. This will involve 'creative existentialism (full-existential-depth-implications) storying construal' in transversality-of-disambiguated-apriorising/axiomatising/referencing articulated in a dynamic relationship along the three pedestals of: psychopathic characters slantedness as insane/slantedness-fitment in absolving-or-fleeting-logic-reflex-or-escaping-logic in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'-to-last-narrative-wronglyly-allowing-interlocutors-prelogical-or-conviction-alignment; temporal-dispositions (of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) insane/slantedness integration/conjugation in mechanical-comprehension-dementing in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-

 psychological paradigm of ‘mental-devising-representation devising’ giving-in to

veridicality/intrinsic-reality when shown to be perversion-of-reference-of-thought. This fundamental psychological paradigm operates by way of candoring/prelogism/dialectically-or-contendingly-in-phase or in dementing/decandoring/distractive-alignment-to-reference-of-thought /dialectically-or-contendingly-out-of-phase to represent registry-worldview/dimensional ontological-veridicality 'as thinking' or perversion-of-reference-of-thought 'as dementing' respectively, as is implied in all the transcendences from recurrence-of-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrypticism, and prospectively perpetuation-of-deprocrypticism. This serves to provide the perspective/reflection to the present positivistic mindset/reference-of-thought explaining while the 'seemingly unlikely 'dialectically-dementing' mental-devising-representation of its mind' at its uninstituionalised/unintemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as procrypticism/disjointedness-as-of-reference-of-thought so reflected/perspectivated from deprocrypticism is more veridical than its illusion-of-the-present/present-consciousness/-<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental 'dialectical-thinking' representation. In the bigger scheme of things, such a 'creative existentialism (full-existential-depth-implications) storying construal' on perpetuation-of-deprocrypticism re-elaborated to a 'creative existentialism (full-existential-depth-implications) storying construal' of all the transcendences provides an even more profound and emanant-insight understanding of the anthropological continuity/anthropopsychology and the proper place of the present positivistic mind in the bigger scheme, and what is prospectively implied, as a perpetuation-of-deprocrypticism transcendence).

Another ontological element of the perpetuation-of-deprocrypticism transcendence is that it is 'weakly positive opportunistic' to the cross-section of the social construct.

Prior/superseded transcendences are relatively ‘strongly positive opportunistic’ with base-institutionalisation transcendence from recurrent-utter-uninstitutionalisation being the strongest in its positive-opportunism as the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry–teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of: ‘organising rules/principles’/base-institutionalisation are opportunistically critical for temporal direct/immediate survival itself, i.e. such an uninstitutionalised state with uncertainty, lack-of-knowledge about the environment and relative lawlessness ‘focuses the individual’s mind’ to adhere to any dependable organised rules/principles/laws, even where such organising rules/principles/laws are bad so long as they are predictable, be it circumstantially (and effectively, base-institutionalisation is a state where such organising/rules/principles/laws are constantly being remade competitively with respect to survival-possibilities and power-relations, but on the other hand base-institutionalisation tends to have weak institutionalisation/intemporalisation percolation channels for intemporal transcendence in the long run due to ‘holding-on-to-the-initial-proven-survival-and-flourishing-assets/tradition’ and ‘a question of power relations’, and more likely than not, in such human society in ‘clanic turbulence’ base-institutional-recomposure is a highly-diffusionary-juggling-and-reconstituting-transcending-across-clans rather than oriented towards just a singular intra-social intemporal-philosophical transcending, but also involving on the rare occasion a lopsided diffusion from an altogether different and dominant cultural grouping); those of ‘projecting rules/principles’ or universalisation are less opportunistically critical for temporal direct/immediate survival but are relatively vital and extend the ambits of the former; while those of ‘empirical rules/principles’/positivism are even less positive-opportunistically critical for temporal direct/immediate for immediate/direct survival but relatively critical for flourishing (science, human rights, democracy, etc.). So these

institutionalisations transcendences can elicit, in effect, a grander sense of
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm rather than a temporal extricatory paradigm
 in their cross-section of the social-construct. However, it will probably be more facile for
 such a cross-section of the social-construct to be strongly disposed to adopt an
 extricatory/temporality paradigm rather than
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm regarding the reference-of-thought–
 categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-
 contiguity-or-ontological-preservation of ‘temporal-to-intemporal-dispositions
 accountability as intemporality-skewing (‘intemporality-asymmetric-subsumption-of-
 temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-
 enabling/sublimating) rules/principles’ or deprocrypticism with regards to their temporal
 direct/immediate survival opportunism statistically to individuals on the cross-section of the
 social-construct. An intemporal disposition as ontological projecting that may elicit a sense of
 positive-opportunism for survival itself with base-institutionalisation will not necessarily
 have the same adherence effect on the cross-section of the social-construct when it comes to a
 transcendence which temporal directness/immediacy for ‘individuals sense of survival-and-
 flourishing’ is not so obvious but for its abstract ontological veridicality and abstract
 intemporal transformation implications as is the case with deprocrypticism; but is rendered
 possible because of the relatively ‘strong preset institutionalisation/intemporalisation
 percolation channels for transcendence’ (on the basis of its untenability/internal-
 contradiction/internal-incoherence/institutional-constraining generation capacity); more like
 it would be fair to say that many an abstract and boring scientific efforts do not necessarily
 appeal temporarily but for the strongly preset institutionalisation/intemporalisation

percolation channels for their social integration. Basically, with transcendence as temporal directness/immediacy weaken on the one hand, the element of untenability/internal-contradiction/internal-incoherence/institutional-constraining (with institutional percolating channels for transcendence) in assuring prospective transcendence strengthens.

To sum up, this highlights the ‘temporal existentialism/full-existential-depth-implications practicality aspect’ involved in all human transcendences. That is, transcendence is more of a human-mentation-capacity driven construct and its mundane recognition is not inherently by its supposed virtue (given that survival-and-flourishing, and not veracity/ontological-pertinence, are the more immediate/direct basis for the human temporal drive). To the extent that transcendence highlights critically that it is what is the best enabler for survival-and-flourishing then it is a force of social transformation. Equally, an ontologically-veridical but not immediately/directly survival-and-flourishing will not, with regards to human temporal practicality, by mere ontological-veridicality be a basis for its social integration, if the insight that it provides a grander survival-and-flourishing scheme isn’t immediately palpable. As in this case human temporal practicality disposition is perfectly inclined to threshold at its registry-worldview/dimension uninstitutionalised-threshold. But then with an increasing cerebral grasp of our nature and our surrounding world rather than just passive endurers of nature-in-action, we can fairly anticipate and supersede intellectually our human temporal practicality dispositions, in this case with regards to deprocrpticism, and attain prospective knowledge-and-virtue generally.

Meaning (defined previously as what defines/predicates value, thought and action) is actually a referential memetic construct in the referential exercise of the entropic preservation of preceding-intemporality/intrinsic-reality as validated by ontological-primemovers-totalitative-framework. This leads in the instance of perversion-of-reference-of-thought to the

notion of ‘memetic-corruption or psychoanalytic-misrepresentation of reference-of-thought–categorical-imperatives/axioms/registry-teleology; requiring a referential ‘memetic reordering/psychoanalytic-unshackling reference-of-thought–categorical-imperatives/axioms/registry-teleology for the entropic preservation of intemporality/intrinsic-reality as validated by ontological-primemovers-totalitative-framework.

The referential memetism as suprastructural-meaningfulness implying that meaning is in fact a ‘human mental devising construct’ (not inherently ontological or intrinsic-reality) and it is grounded on its validation/veridicality by its ontological-primemovers-totalitative-framework in showing it is proxying to ‘abstract and inherent ontology/intrinsic-reality/veridicality’ which is a preceding/superseding notion (postconvergence) to our mental devising of meaning; explaining why we adjust our meaning model/memetic-reordering/psychoanalytic-unshackling (soundness-or-authenticity-of-reference-of-thought/candored, and then mentally-oblongated/decandored with respect to new/superseding soundness-or-authenticity-of-reference-of-thought/candored) when the proxying-registry-construct is internally-contradictory and demonstrated to be flawed at successive uninstitutionalised-threshold whether from recurrent-utter-institutionalised to base-institutionalised, ununiversalised to universalised, non-positivism/medievalism to positivistic, and prospectively procrypticism to deprocrypticism.

More than just an exercise of grasping the possibilities of human transcendence, it is critical that for future transcendence we don’t confuse the development of a ‘banal/temporal/averaging-of-temporal-thoughts’ notion in ‘our shortness of the lives of mortals’ (80 or 100 years or so) as defining what is ‘existential idealism/success’ on the basis of such ‘mental shortness’ (which isn’t even solipsistically/emanantly/becomingly the intemporal responsibility for the transcendence that enabled its world, the positive worldview

from non-positivism/medievalism, but has been rather ‘institutionalised and secondnatured there’, and so is ‘philosophically irresponsible’ prospectively with respect to the bigger scheme of things regarding transcendence/prospective-institutionalisation, necessarily so when inclined to an extricatory temporal-disposition that is not solipsistically intemporally responsible). Intellectually and knowledge-wise, the articulation of ‘existential idealism/success’ must be the exclusive purview of the aetiological individuation of the intemporal-disposition whose organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology)’s universal projection/intemporality keeps alive the notion of existential idealism/success as long as from its intemporal-disposition that started base-institutionalisation (to thwart recurrent-utter-uninstitutionalisation) through universalisation (to thwart ununiversalisation), positivism (to thwart non-positivism/medievalism), and prospectively its intemporal-disposition that will enable deprocrypticism (to thwart procrypticism/disjointedness-as-of-reference-of-thought) and thereafter; the intemporal mind as such projects in an ‘abstract eternity’ that is what allows for the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

In the bigger scheme of things, all the vices-and-impediments of successive registry-worldviews can be directly ascribed as corresponding perversion-of-reference-of-thought of temporal-dispositions of the registry-worldviews uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism, and prospectively procrypticism (pointing to the fact that virtue is about ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework constructs’ of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism, and not ‘good-natured/impression constructs’ which are vague, as it is inevitable that there is no good-naturedness/impression-drive that exist to prevent an

recurrent-utter-institutionalised mind from deterministically committing the vices-and-impediments of recurrent-utter-uninstitutionalisation, of an ununiversalised mind those of ununiversalisation, of a non-positivism/medievalism mind those of non-positivism/medievalism, and prospectively of a procryptic mind (as subknowledging/mimicking/perverting positivistic meaningfulness) those of procrypticism. Virtue is plainly and simply about the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct with corresponding virtuous consequences of knowledge or lack-of-knowledge thereof). It is critical for the sake of the temporal mortal that we are, not to be allowed to be our own God; that is exactly what creates transcendental possibilities, otherwise we syncretise and preserve and articulate our temporality/shortness as being intemporal!

(ii) ‘Intellectual solipsistic/emanant irresponsibility’ referring to ‘intellectual idealism’ success in conceiving intemporal meaning but failure in preserving intemporal meaning from ‘temporal mimicking, denaturing and subknowledging’ with corresponding poor temporal-dispositions orientations/registry-worldview over that intemporal meaningfulness in relation to the bigger picture of human/social progress paradigm. While intellectual ontological/intemporal meaningfulness may strive to articulate a universal idealism/intemporal projection, it is rather naïve to operate on the ‘romantic’ basis that universal idealism/intemporal projection is the sole disposition of humans as temporal dispositions like postlogism-slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation are endemically part and parcel of the reality of human dispositions; and so, as a matter of fact on a simple ‘scientific basis of determining first principles’ and not necessarily to stigmatise, as

reality works on the basis that ‘what is, is what is!’ That then being the case, what then is the relevant question is how do we ensure by institutionalisation/intemporalisation (based on the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework and not impression/good-naturedness/wishfulness vagueness) the supersedingness of the intemporal-disposition-worldview (as ontological and upholding virtue in the medium to long perspective) over the cross-section of human mental temporal-to-intemporal dispositions, i.e. secondnaturing as formalisation and internalisation. For instance, if men were of an intemporal-disposition we will only need ‘moral philosophy’ and ‘no law’ as the institutionalising principle of the law is a tacit recognition that realistically we need ‘dominating/superseding artifices’ or ‘institutions and their rules and narratives’ whether the human subjects have a grasp of the ‘philosophical’ universal end purpose or not). This is the attitude that preserves the virtue inherent in the intemporal conceptualisation of meaning and ‘not any temporal romantic idealism’ which only leads to perversion-of-reference-of-thought that goes on to undermine directly or by sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising conjugations the virtue in knowledge, and so in particular in the ‘extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)’ (informal settings) where the constraining social universal-transparency (usually introduced in formal settings) is not available. Hence intellectual responsibility warrants that the intellectual exercise (as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) involves both a construction of the intemporal ideal and equally a stifling of the possibilities of perversion-of-reference-of-thought as to dialectical-dementing—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This involves avoiding the naivety of articulating meaning only in the sense of the intemporal ideal but including a constraining and temporal-to-intemporal-dispositions-disambiguating realism that upholds/preserves

intemporality/longness and stifles temporal-dispositions perversion-of-reference-of-thought inclinations. Such an approach is known as the ‘knowledge notionalisation’ or knowledge as a continuum from ‘the ignorances’/temporal-dispositions to knowledge/intemporality which then allows for scrutinising and preempting ‘the ignorances’/temporal-dispositions, i.e. apprehending not only intemporal implications of any knowledge construct, but being transversally/logically-incongruent preemptive to potential temporal undermining of that intemporal idealism construct).

‘Intemporal and temporal disjuncture’ basically refers to the fact that in the elaboration of conventioning with respect to ontological-veridicality with regards to social-stake-contention-or-confliction both the intemporal and temporal-dispositions are preservational in their finalities, i.e. temporal-dispositions do not transcend philosophically but by untenability/internal-contradiction/internal-incoherence/institutional-constraining, and it is vague and naïve to intemporally/ontologically engage at the philosophical level to wrongly imply such a solipsistic transcendental process as this should not be confused with the formalisation effect of secondnaturing and internalisation. ‘Intemporal and temporal disjuncture’ can equally be analysed as ‘transcendental-or-transdimensional prospective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional-meaningfulness disjuncture’ given there is mutual unintelligibility between prospective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and intradimensional meaningfulness for instance respectively as deprocrypticism and as procrypticism (perversion-of-reference-of-thought of positivistic meaningfulness), just as there is mutual unintelligibility between positivism and non-positivism/medievalism meaningfulness. This mutual unintelligibility should not be ‘addressed logically’ actually by the intemporal-disposition or prospective-memetism or prospective/transcending registry-worldview/dimension as this naively implies both registry-worldviews share the same

reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (going from the insight of a common vantage perspective of mutually unintelligible/existentially-suprastructural positivism and non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation); wherein it is transversality-of-disambiguated-apriorising/axiomatising/referencing that plays out to enable the abject superseding/transcendence of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension over the prior/transcended/superseded intradimensional meaningfulness. For the simple reason that intrinsic-reality being preceding as ontological-normalcy/postconvergence it won't let the positivistic mindset/reference-of-thought (as intrinsic-reality/ontology is inherently suprastructural or beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of the mortals that we are, in the sense that a cholera epidemic that was to occur say in 100 b.c. Will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; thus naivety will be to strive to syncretise in temporal-and-social-trading our discomfort/unpalatability in construing intrinsic-reality/ontology) to be involved in social-and-temporal-trading with the non-positivism/medievalism mindset/reference-of-thought as inherently all the greater possibilities of grasping a more profound intrinsic-reality/ontology lies with 'reasoning-through/abjection' with the prospective memetism of positivism which actual mental-devising-representation of non-positivism/medievalism is as dementing (where the non-positivism/medievalism registry-worldview/dimension is the prior/transcended/superseded intradimensional meaningfulness perspective). The validation arises from the

untenability/internal-contradiction/internal-incoherence/institutional-constraining in the long-run of non-positivism/medievalism, as the more profound positivistic meaningfulness takes hold in the-the-Good/understanding/ontological-primemovers-totalitative-framework institutionalisation percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> mechanism. This ontological insight (transversality-of-disambiguated-apriorising/axiomatising/referencing that plays out to enable the abject prospective/superseding/transcending of the intemporal-disposition or prospective memetism or prospective/transcendental/superseding registry-worldview/dimension) also informs, as with all transcendences, the relation between the prospective meaningfulness/memetism or transcending/superseding registry-worldview/dimension as deprocrypticism and prior/transcended/superseded intradimensional meaningfulness/memetism as our procrypticism, with the latter superseded/transcended as of 'reasoning-through/abjection' and represented as demented in line with the preceding ontological-normalcy/postconvergence nature of intrinsic-reality/ontology, likewise with the idea that deprocrypticism validation will arise from the untenability/internal-contradiction/internal-incoherence/institutional-constraining of procrypticism as futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism takes hold in the the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework institutionalisation percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> mechanism. So deterministically and operantly, without any discretion allowed, from the intemporal/ontological perspective, it is a cross-generational collapsing/overriding-and-superseding of temporal-dispositions and a registry-worldview/dimension-intradimensional-meaningfulness that is perversion-of-reference-of-thought construed in transversality-of-disambiguated-

apriorising/axiomatising/referencing involving reflecting/perspectivating/highlighting
 (reasoning-through-and-not-reasoning-with) the stranding-dialectics as the backdrop of new
 reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-
 preservation-entropy-or-contiguity–or–ontological-preservation for prospective institutional-
 recomposure/memetic-reordering/psychoanalytic-reorientation that enables prospective
 transcendence. Thus technically, dementing arises simply by a shift of reference-of-thought
 (in the strive for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation
 wherein the latter reference-of-thought as a registry-worldview/dimension is shown to be
 more intemporally-preservational); with the dementing reflected in the mental-devising-
 representation fully implied by the new transcending/superseding reference-of-thought about
 the prior transcended/superseded reference-of-thought (and so, beyond the latter’s registry-
 worldview/dimension wrongful reflex to set-aside/ignore the implications of its demonstrated
 ontological-impertinence as of notional-discontiguity/epistemic-discontiguity-<mentally-
 aestheticised_dementing–qualia-schema> and go on to be of <formative>epistemic-
 totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag this now
 shown-to-be-wrong reference-of-thought). Dementing as such is easily and spontaneously
 reflected of a prior/superseded/transcended registry-worldview/dimension like for instance a
 positivistic registry-worldview/dimension mental-devising-representation reflecting the
 dementing of a medieval registry-worldview/dimension. But then this is because the
 positivistic registry-worldview/dimension doesn’t have to deal with any existential illusion-
 of-the-present/present-consciousness/epistemic-totalising–self-referencing-
 syncretising/mirage that the non-positivism/medievalism registry-worldview/dimension
 personhoods-and-socialhood-formation has to deal with. However, implying similarly the
 dementing of the positivistic registry-worldview/dimension from its intradimensional
 perspective where its own reference-of-thought is superseded/transcended by a prospective

reference-of-thought as deprocrypticism will, this time around by the positivistic registry-worldview/dimension existential illusion-of-the-present/present-consciousness/epistemic-totalising-self-referencing-syncretising/mirage that its personhoods-and-socialhood-formation has to deal with, lead to the positivistic registry-worldview/dimension by reflex setting-aside/ignoring the prospective and veridical reference-of-thought and corresponding (postconvergence) ontological-veridicality/ontological-contiguity, and go on to self-reference-syncretise its transcended/superseded reference-of-thought. In concrete terms for instance, whereas a positivistic mindset/reference-of-thought will likely shift the reference-of-thought with regards to say a non-positivism/medievalism context of notions-and-accusations-of-sorcery where A were to accuse B for being a sorcerer who caused A's illness, the mental-devising-representation of the positivistic mindset/reference-of-thought will be that A is dementing and that a germ and biological functioning theory of the human body is the reference-of-thought for A's disease. But then intradimensionally, A and B and their society of personhoods-and-socialhood-formation and existentialism/full-depth-of-existential-implications that are non-positivism/medievalism will tend to harken back to reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation that uphold the prior/transcended/superseded reference-of-thought that admits to notions-and-accusations-of-sorcery. The effective anthropological and dialectical evidence (mostly from diffusional transcendence given the relative abruptness of cultural diffusions compared to an intra-society philosophical transcendence which is rather slow in the making) shows that it is the cross-generational habituation by <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag into reference-of-thought of the prospective/transcending/superseding registry-worldview/dimension (in this instance the positivistic registry-worldview/dimension) that will ultimately 'wean' the

prior/superseded/transcended registry-worldview/dimension (in this instance non-positivism/medievalism) from its defective non-positivism/medievalism reference-of-thought and its prior relative-ontological-incompleteness-of-reference-of-thought–categorical-imperatives/axioms/registry-teleology towards a positivistic reference-of-thought and its prospective relative-ontological-completeness-of-reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, where contention can then take place to establish (postconvergence) relative ontological-veridicality. Likewise, the concrete analysis from a deprocrypticism insight shows that our procrypticism (perversion-of-reference-of-thought of positivistic meaningfulness) mindset/reference-of-thought will by reflex emanantly act the same at its own uninstitutionalised-threshold; wherein the idea that positivism–procrypticism reference-of-thought as of its characteristic postlogism associated with psychopathy and social psychopathy with its overall beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought defect of disjointedness-as-of-reference-of-thought-as-misappropriated-meaningfulness-and-teleology brings about a shift to a new reference-of-thought and reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as transcending/superseding deprocrypticism, will sound unintelligible/existentially-suprastructural to the positivism–procrypticism mindset/reference-of-thought which simply by reflex set this aside and harken back axiomatically to positivism–procrypticism reference-of-thought and reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that unconsciously (as ignorance) and consciously (as

affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) do not acknowledge ontological-impertinence as of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> of the perversion-of-reference-of-thought associated with such positivism-procrypticism reference-of-thought that is bound to directly and indirectly at the uninstitutionalised-threshold be integrating postlogism-as-of-non-conviction in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation teleologically involving, (i) intemporal-disposition introduction-of-‘ontological-reconstituting-as-of-conflatedness’ reference-of-thought—categorical-imperatives/axioms/registry-teleology, (ii) temporal-dispositions undermining-by-hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of the reference-of-thought—categorical-imperatives/axioms/registry-teleology, (iii) intemporal-disposition reflecting/perspectivating/highlighting the temporal-dispositions perversion-of-reference-of-thought—categorical-imperatives/axioms/registry-teleology and introduction-of-‘ontological-reconstituting-as-of-conflatedness’ of new reference-of-thought—categorical-imperatives/axioms/registry-teleology preempting the temporal-dispositions perversion-of-reference-of-thought) of the ‘temporal-dragging-of-ontology/ontological-veridicality’ (in-a-social-dynamism-of-meaningfulness-misappropriation) by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation effect; as successive circular postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-

hollow-and-vague-vocalisation-or-subknowledging as postlogism) constructs, and not as may wrongly be reflected by the natural reflex to be conviction/prelogical, as conviction (existential-contextualising-contiguity/meaningful-projection-of-intrinsicness/authentic-vocalisation/prelogism) constructs. And likewise, it is a cross-generational habituation of deprocrypticism reference-of-thought and reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation that will ultimately lead to a shift in reference-of-thought and the correspondingly more profound and grander deprocrypticism ontological-veridicality/ontological-contiguity thereof. Another validation for the dementing mental-devising-representation of retrospective/transcended/superseded registry-worldviews/dimensions has to do with the implications of the notions of impression-driven/good-naturedness/wishfulness and the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework with respect to the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/ontology/ontological-veridicality. A prospective/transcending/superseding registry-worldview the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework mental-devising-representation of a retrospective/transcended/superseded impression-driven/good-naturedness/wishfulness construct is always a demented construct, and so across all institutionalisations indicating that the ontological-normalcy/postconvergence and suprastructural nature of intrinsic-reality/ontology/ontological-veridicality as ontological-normalcy or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation effectively construes impression-driven/good-naturedness/wishfulness constructs as rather of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing–qualia-schema> and hence its dementing.

This equally implies that our very own ‘good-naturedness constructs’ in the
 positivism/procrypticism registry-worldview/dimension are of demented mental-devising-
 representation from futural Being-development/ontological-framework-expansion-as-to-
 depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of
 prospective depcrypticism registry-worldview/dimension the-
 Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework
 conceptualisation. The reason why ontological-normalcy/postconvergence indicates that
 ‘good-naturedness constructs’ are defective is quite simple as it is based on adhering to a
 registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation, which along the institutional-cumulations/institutional-
 recomposures are successively shown to be defective-as-always-being-sub-par-to-intrinsic-
 reality and defining the uninstitutionalised-threshold. Virtue and ontology/intrinsic-reality
 rather lies in the intemporal-preservation-entropy-or-contiguity–or–ontological-preservation,
 and not its reference-of-thought–categorical-imperatives/axioms/registry-teleology, with the
 latter only being pertinent in the sense where it relays intemporal-preservation-entropy-or-
 contiguity–or–ontological-preservation. Such a relaying is not within the ambits of good-
 naturedness constructs but rather the-Good as a continuous refinement of ontological-
 primemovers-totalitative-framework that ensures re-institutionalisation/re-intemporalisation
 for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation when
 ontological-primemovers-totalitative-framework so reveals it. Thus supposed an individual
 shows good-naturedness following the reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation of the recurrent-utter-uninstitutionalised registry-
 worldview/dimension that warrants that one simply gets one’s way no matter the situation

even if it means committing murder to have some food for oneself and close ones; a good-natured quality that is highly rated for survival in an recurrent-utter-uninstitutionalised setup. That is perfectly within the good-naturedness ambits of a survival-driven registry-worldview/dimension but prospectively it is the creativeness of the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that carries the virtuous and ontological insight to grasp that a registry-worldview's/dimension's institutionalisation as base-institutionalisation rulemaking-over-non-rules will provide a grander virtuous and ontological outcome for humans, and not a good-naturedness inclination which is stuck at the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of recurrent-utter-uninstitutionalisation. This same fundamental dilemma arises with all other institutionalisations. For instance, the procrypticism inclination to stick to the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of a positivistic registry-worldview/dimension viewed as deterministic by projected <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives as-to-how-others-act-in-hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation requiring the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework appreciation that an ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness indicating such a perversion-of-reference-of-thought implies a prospective/transcending/superseding registry-worldview's/dimension's

new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to ensure intemporal-preservation as deprocrypticism. Thus it is the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework that carries the mantle of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and not good-naturedness/vague-impression drive which temporal-mimicking (unconscious or conscious) shouldn't be confused with preserving ontology and virtue. Thus the basic reason for this counter-intuition about the veridical nature of good-naturedness construct is that it is intradimensionally <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with the wrong implications of inherently representing the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the registry-worldview/dimension as absolute intrinsic-reality/ontology without any factoring of intrinsic-reality/ontology ontological-normalcy/postconvergence and suprastructural nature as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework does. This fundamentally explains why all prior/transcended/superseded registry-worldview's/dimension's present-consciousness/illusion-of-the-present/epistemic-totalising–self-referencing-syncretising/mirage are necessarily demented from the mental-devising-representation of the prospective/transcending/superseding registry-worldview/dimension in the requisite 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure exercise that enables the existentialism (full-depth-of-existential-implications) deconstructed/'ontologically-reconstituted' becoming of the prospective/transcending/superseding registry-worldview/dimension. The bigger insight here has to do with the ontological-normalcy/postconvergence nature of intrinsic-reality. Intrinsic-

reality/ontological-veridicality is already given and what is required to access it absolutely is not the notion of ‘any hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation initiative/effort’ from the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of a reference/registrying/registry-worldview/dimension that is necessarily sub-par to intrinsic-reality/ontology (this is the central idea that fundamentally explains how perversion-of-reference-of-thought as to dialectical-dementing—-<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag arise, due to sub-par reference-of-thought—categorical-imperatives/axioms/registry-teleology in misconstruing ontological-normalcy/postconvergence intrinsic-reality – and so, by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect); but rather the notion of a ‘requisite and grander and grander sense of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ illuminating reflecting/perspectivating/highlighting (which is ‘more or less ontologically-reconstituting/deconstructional’, in the sense that in the bigger scheme to absolutely grasp intrinsic-reality/ontology in cumulation/recomposuring from recurrent-utter-institutionalisation-to-deprocrypticism, reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of successive institutional-cumulations/institutional-recomposures are, strictly speaking, of a more-and-more-precise-heuristic-nature in their strive to grasp intrinsic-reality/ontology as-we-predicate-better-and-more-about-the-world, notwithstanding the fact that a registry-worldview/dimension acts more-or-less-in-abstract-trust

to its given reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation mainly for the compromising sake of ‘effective functioning’, and so at one dialectical moment till a better one arises at another dialectical moment, as a transcending/superseding reference/registry/registry-worldview/dimension) that simply ‘open-up’/‘throw-up’/‘reveal’ in ontological-normalcy/postconvergence successive existentialisms/full-depths-of-existential-implications of the notion of what is meant by intrinsic-reality; more precisely and effectively, as ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation as (prospective) transdimensional-meaningfulness/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument or (prospective) existentialism/full-depth-of-existential-implications, i.e. the overall enterprise is about deconstruction/ontological-reconstituting–as-of-conflatedness-towards-intrinsic-reality wherein existence-defines-essence (along Sartrean existence-precedes-essence or existence-meeting-essence), as it is existentialism which is the ‘becoming that defines essence’ with ‘essence-of-meaningfulness being-veridically-in-ontological-reconstituting–as-of-conflatedness’ and not a traditionally naïve ‘wrong hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation perception or construct-of-essence-of-meaningfulness-in-an-abstract-classification-scheme-which-is-out-of-existential-contextualising-contiguity’ that is usurpable/impostored by mere form. This is the veridical ontological depth of mental-devising-representation/psychological-representation/(recomposured)-consciousness-awareness-teleology informed by the ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. The institutional-cumulations/institutional-recomposures as specific successive existentialisms/full-depths-of-existential-implications imply their mental-

This ‘existentialism/full-depth-of-existential-implications paradox’ involving wrongfully intradimensional <formative>epistemic-

totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-teleology-mentation and rightfully transdimensional ontological-veridicality rather in an ontological-dementing/dialectical-dementing registry-teleology-mentation is critical in understanding how to circumvent temporal-dispositions circumventive/distractive-temporal-prioritisation-of-reference-of-thought/temporal-preservation inclination associated with postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (psychopathy and social psychopathy), in lieu of ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/intemporal-preservation inclination associated with prelogism. Fundamentally, conjugated-postlogism/dementing-integration hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is always based on a wrong <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-teleology-mentation in recurrent in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic (psychopath) or hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex (derived social psychopathy) of hollow narratives, and wrongfully that this is reference-of-thought; and correspondingly, a rightful transdimensional ontological-representation should imply it is a dementing registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology ‘stranded-as-mentally-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase’ and by so doing, to start with, rightfully denying it reference-of-thought which then fundamentally collapses its soundness-or-authenticity-of-reference-of-thought, as the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogism-or-

perverted-outcome-sought-precedes-existentially-veridical-logical-dueness-or-non-

 mindset/reference-of-thought counts on the natural inclination (as ‘prelogism-as-of-
 conviction re-engaging reflex’) of the ‘ontologically-reconstituting-or-prelogical-or-logical-
 process-precedes-outcome-or-conviction mindset/reference-of-thought to reflexively engage
 contendingly/logically with its hollow narratives, with the grander faulty-mentation-
 procedure-deception-or-urge not being the hollow narratives per se but in wrongfully
 implying its veracity/ontological-pertinence as reference-of-thought and implying the falsely
 apriorising—registry-elements of its implied—logical-dueness-or-scape/profile-or-
 stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology; as being an
 even grander faulty-mentation-procedure-deception-or-urge of a registry-
 worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-
 existential-defect>’ nature of registry-teleology mental-devising-representation/mentation,
 that speaks not only to an act defect but a registry-worldview/dimension defect. Thus this
 insight in transcendental analysis is that by its very nature in that it puts into question ways,
 assumptions and traditions of thought and practices, the possibility of truly profound insights
 that go well beyond more or less platitudes and inevitably requires taking stock of the full-
 depth-of-existential-implications/existentialism of transcendental-
 meaningfulness/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
 , given the need to boldly overcome intellectual dead-ends and introduce paradigm shifts
 often with uncomfortable and unpalatable implications to the given registry-
 worldview/dimension personhoods-and-socialhood-formation. It requires more than just a
 sense of professional and technical craft but often more critically a profound sense of
 intemporal/firstnature emanant commitment, an attribute that is by definition of

<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-
 residuality/spirit-drivenness projection nature and hardly just secondnatured, in thriving for
 an abstract sense of the intemporal beyond just functioning within the ambits of given
 reference-of-thought–categorical-imperatives/axioms/registry-teleology with their intemporal
 preservation limitations as well as their corrupting nature as distractive/circumventive
 <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag. Within all registry-worldviews as
 institutional-recomposures/institutional-cumulations, there is a convergence that ensures
 intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by selecting as
 appropriate the ‘relatively ontologically/intemporally veridical’ among myriad possibilities
 and contradictions of human reference-of-thought and meaningfulness, turning away from
 human shallow-limited-mentation-capacity/shortness-of-register-of-meaningfulness-and-
 teleology/temporality-potency/perversion-of-reference-of-thought (wherein
 ‘ontological/intemporal reference-of-thought and meaningfulness’ is wrongly re-conjugated
 with the temporal-dispositions teleologies/dispositions of
 ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
 negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, inducing
 corresponding denaturing of the ‘ontological/intemporal reference-of-thought and
 meaningfulness’ by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag,
 unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-
 rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-
 enculturation/temporal-endemisation effect) towards profound-limited-mentation-
 capacity/longness-of-register-of-meaningfulness/intemporality-potency/registry-soundness
 which is behind the generation of ‘ontological/intemporal reference-of-thought and
 meaningfulness’ and the institutionalisation/intemporalisation process. This convergent

selectivity is perpetually directed by ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework’ (not to be confused with good-naturedness/impression-drive) towards the validation of intemporality-potency and the dismissal of temporality-potency, and so in dialectical succession of registry-worldviews as the successive/snowballing institutional-recomposures/institutional-cumulations. Thus establishing a human approximating/proxying/aligning relationship with the ‘potency of intrinsic-reality/ontological-veridicality (ontological-normalcy) which is a coherent oneness’ that can very much be anticipated as ontological-normalcy/postconvergence. In this regard, it should be reiterated that ‘registry (categorical-imperatives/axioms/registry-teleology) establishes reference-of-thought, and acts as the basis for and defines the operation of logic or logical processing’, and it is notionally all about registry-soundness (reflected as unsoundness of thought) when we are conviction/existential-contextualising-contiguity perversion-of-reference-of-thought when we are in non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as with the hollow and formulaic narratives slanted by psychopath and beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought mimicked by temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness). Unlike the ‘notion of agreement-disagreement’ dealing with soundness/unsoundness of logical-processing-or-logical-implication wherein a common apriorising–registry of interlocution is already established, there is no logical-basis for one apriorising–registry disposition as a prospective/superseding/transcending reference-of-thought like a positivistic registry-worldview to convince another apriorising–registry disposition as a

prior/superseded/transcended reference-of-thought like a non-positivism/medievalism registry-worldview that it is the former's reference-of-thought that is sound, other than for the fact that its better ontological-primemovers-totalitative-framework will in the middle to long-run be untenable with respect to the latter thus 'collapsing' it; and so reflecting 'Derridean underdetermination-imbued force/violence conception' and 'Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment' as to mere 'sublimation affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking' over 'desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing' so-underlining existence—as-sublimating-withdrawal and existence—as-the-absolute-a-priori-of-conceptualisation. Intradimensionally within a registry-worldview like positivism, this could be construed as there is no basis for a mindset/reference-of-thought advocating for scientific medicine as practised in hospitals to 'logically convince' another mindset/reference-of-thought advocating rather for traditional medicine (involving a mix of herbalism, incantations, spirits, etc.) that the former is more ontologically-veridical on purely logical terms (as the traditional medicine interlocutor operates logic according to the apriorising–registry or reference-of-thought–categorical-imperatives/axioms/registry-teleology behind its traditional medicine meaningful-frame while the scientific medicine interlocutor operates logic according to the apriorising–registry or reference-of-thought–categorical-imperatives/axioms/registry-teleology of a positivistic meaningful-frame), and it is purely the ontological-primemovers-totalitative-framework fact in that by and large more patients survive/get-cured by going to hospitals which then collapses the traditional medicine interlocutor's reference-of-thought in the middle to long-run to impose the scientific medicine interlocutor's reference-of-thought as a common one, and it is only when this

common reference arises that the ‘notion of agreement-disagreement’ with regards to logical processing is now relevant, and it is irrelevant and non-applicable before that. The implication is that a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ as meaning produced apparently with the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ (seemingly of veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the various instances) but actually implying ‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated temporal-to-intemporal-dispositions (aetiological ontological-primemovers-totalitative-framework construct), and so whether with regards to the epiphenomenon of psychopathy and social psychopathy (or with respect to ontological-veridicality or issues of reference-of-thought and meaningfulness generally):

- As the ‘intemporal-disposition’ disposition which is prelogism-as-of-conviction/existential-contextualising-contiguity with respect to the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ (based on ontologically-veridical reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation since its apriorising–registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are ontologically-veridical), which are ‘ontologically-reconstituted/deconstructed’ and hence of sound/veridical reference-of-thought (registry-soundness reflected as soundness-or-authenticity-of-reference-of-thought), and in registry-worldview terms dialectically-in-phase as ‘dialectical-thinking’.

- As the ‘consciously-slanting-(whether-psychopathic-or-other-postlogical)-temporal-disposition’ disposition which is non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-formulaic-projection/postlogism with respect to the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ (based on ontologically non-veridical reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation since the implied slanting apriorising–registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are not ontologically-veridical but rather usurping/impostoring), which are ‘hollow-constituted’ and hence of unsound/non-veridical reference-of-thought (perversion-of-reference-of-thought, and in registry-worldview terms dialectically-out-of-phase/dialectically-primitive as ‘dialectically-dementing’.

- As conjugating by interlocutors deriving directly-or-indirectly/unconsciously-or-consciously from the consciously-slanting-as-psychopathic/postlogical-temporal-disposition as ‘derived-slanted-ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ dispositions thus which are parenthetically/incidentally-(by-their-specific-conjugations-to-the-slanting/postlogism) non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-formulaic-projection/postlogism with respect to the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ (as ontologically non-veridical reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation since their slanting/postlogism-induced-and-implied-registry-elements of their respective implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are not ontologically-veridical), which are ‘hollow-constituted’ and hence are of unsound/non-

veridical reference-of-thought (perversion-of-reference-of-thought), and in registry-worldview terms dialectically-out-of-phase/dialectically-primitive as ‘dialectically-dementing’.

- As in registry-worldview terms, all the temporal-dispositions in their ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ paradoxically define and establish the said registry-worldview’s ‘dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness’ (or socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation or uninstitutionalised-threshold) as rather hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, and requiring the ‘ontological-reconstituting—as-of-conflatedness’/deconstruction of new/prospective ‘terms of expressions’ (along new/prospective veridical-ontological reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) for new/prospective sound/veridical reference-of-thought (registry-soundness reflected as soundness-or-authenticity-of-reference-of-thought), and in registry-worldview terms dialectically-in-phase as ‘dialectical-thinking’.

- As ‘dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness’ implies that ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) being prospective given human limited-mentation-capacity-(as of relative constitutedness towards relative conflation), the prospective registry-worldview in achieving the ontological-prospection ‘is ontologically-veridical and thus dialectically-in-phase as dialectical-thinking’ while the prior registry-worldview inherently failing/not-upholding-as-of-apriorising/axiomatising/referencing the ontological-prospection ‘becomes non-veridical ontologically and dialectically-out-of-phase

as dialectically-dementing', and in the broader sense the projective cumulation/recomposuring of limited-mentation-capacity-(as of relative constitutedness towards relative conflation) along such successive dialecticisms of ontological-prospections is what enables the institutionalisation/intemporalisation process by defining human mentation-capacity-limit in a prior reference-of-thought in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (as the new 'dialectically-dementing'), and the prospective/transcending/superseding reference-of-thought that redefines human mentation-capacity-limit by ontologically-reconstituting/deconstruction (as the new 'dialectical-thinking'). By 'reflecting a dialectically-dementing placeholder-setup/mental-devising-representation/mentation' so as to point out the registry-defect of intradimensional setting-aside/passing-over/ignoring (which implies from ontological-normalcy/postconvergence insight, the registry-worldview is rather hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation defective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) and so pointing out its notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema>, and in so doing keeping the 'superseding—oneness-of-ontology/ontological-veridicality/ontological-contiguity' by recurrently implying that the profoundness-of-ontology-as-a-oneness lies with the prospective/superseding/transcending reference-of-thought that re-establishes ontological-contiguity/ontological-veridicality by 'ontological-reconstituting—as-of-conflatedness'/deconstruction in upholding the 'dialectical-thinking'; the implication is that the successive registry-worldviews as the institutional-cumulations/institutional-

recomposures are a strive for successive better profoundness-of-ontology-as-a-oneness by perpetually undermining hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and upholding ontological-reconstituting—as-of-conflatedness as ontological-normalcy.

- As ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ (seemingly of veridical-ontological reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in the various instances) highlights broadly the socially shared/common reference-of-thought and meaningfulness primarily based on language in reflection of ontological-veridicality/intrinsic-reality, but how with respect to social-stake-contention-or-confliction our temporal-to-intemporal-dispositions/individuations contextually have differing relations to ontologically-veridical reference-of-thought and meaningfulness, notwithstanding the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ and corresponding seemingly common reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, with the ‘ontological-reconstituting—as-of-conflatedness’/deconstruction with respect to the ontologically non-veridical hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation leading-to/enabling huma registry-worldview’s/dimension’s institutionalisation/intemporalisation.

- As with regards to psychopathy and social psychopathy, ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ in order to effectively construe ontological-veridicality/ontological-contiguity and disambiguate notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking—qualia-schema> from notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> requires the operational technique of ‘Différance-existential-transitory-

This latter point can be seen in context in the example priorly highlighted at the beginning:

For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right in abstract terms but does the apriorising–registry apply? I.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the ‘implied’ denaturing of the elements of the apriorising–registry as of reference-of-thought–categorical-

imperatives/axioms/registry-teleology (by simply implying their ‘static or abstract non-veridical/vacuous state of essence-of-meaningfulness’ over suprastructuring construal-(as-of-‘perversion-and-derived-perversion-of-reference-of-thought—as-to-uninstitutionalised-threshold-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing’-and-‘corresponding-ontological-reconstituting—as-of-conflatedness-of-veridical-reference-of-thought-as-prospective-institutionalisation/supratransversality—apriorising/axiomatising/referencing’)) delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness insight of essence-of-meaningfulness) which are: implied-logical-dueness-or-implied-scape (the implied-logical-dueness-or-implied-scape doesn’t exist since the psychopath doesn’t know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn’t know), implied-assumptions (the assumptions implying the psychopath’s relationship with the guy and the guy’s relationship with children doesn’t exist), implied-value-reference (the psychopath’s elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath’s articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath’s unsoundness-or-inauthenticity-of-reference-of-thought! So with the psychopath, you don’t watch the logic, you watch out for the apriorising–registry for mental-perversion or the psychopath’s unsoundness-or-inauthenticity-of-reference-of-thought! Not only that, it is important to note that this unsoundness-or-inauthenticity-of-reference-of-thought do protract and an ignorant prelogism-

as-of-conviction mind acting prelogically (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) on such postlogical (outcome precedes logical process) non-veridical hollow mimicking narratives is ‘technically psychopathic as well’ as they are in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex to the psychopath’s postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’. This is known as postlogism or dementing-integration/slanting/impulsive-dementing/conjugated-postlogism (whether conjugated to in ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation), which is to be construed by ‘distractive-alignment-to-reference-of-thought and once it is induced by ignorance it leads to an undermining of ‘deductive social universal-transparency which protects the internal-coherence of meaning for virtue’ and so by way of the ‘induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ at ‘uninstitutionalised-threshold’ of registry-worldviews, with subsequent conjugating ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, the conjugated-postlogism/dementing-integration is derived from the psychopath’s initiated postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and goes on to lead to social psychopathy; more like a dumb-and-dumb/miscuing degeneration effect.

The insight here is that without having at hand a ‘Différance-existential-transitory-articulation-of-the-derivation-of-perversion-of-reference-of-thought-of-meaning-and-meaningfulness’ technique which is able to disambiguate the underlying existential reality of

the ‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ with regards to the various interlocutors, whether unsoundness-or-inauthenticity-of-reference-of-thought and ‘dialectically-dementing’ as slanted/psychopathic/postlogical interlocutor as well as the various (conjugated-postlogism) temporal-dispositions as derived-slanted ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation interlocutors or soundness-or-authenticity-of-reference-of-thought and ‘dialectical-thinking’ intemporal-disposition interlocutor, the natural human reflex when a contestation arises is to be ‘conviction’ as existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at (without putting into question in the very first place the veridical state of the various interlocutors registry/registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology with respect to contestation, and by foregoing this it wrongly attributes the implied essence-of-meaningfulness without the insight of existential-contextualisation by simply and wrongly implying that everybody must be of intemporal-disposition and voiding the notion of disambiguating-and-establishing the existential-contextualisation of the-various-characters-states-of-minds/the-various-characters-registries with respect to ontological/intemporal meaningfulness in establishing veridicality in the very first place (whether of temporal-dispositions, (conjugated-postlogism) intemporal-dispositions or slanted/postlogical/impulsive-dementing), hence wrongly turning the analysis into a logical-processing-or-logical-implication issue, rather than an analysis of perversion-of-reference-of-thought in the very first place, as a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’. So without existential-contextualisation, the hollow forms of the essence-of-meaningfulness are available for arrogation/impostoring by slanted/postlogical/impulsively-dementing mental-dispositions and in derivation/conjugation

by the temporal-dispositions (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought).

- As previously explained, it is important to grasp that temporal-to-intemporal individuations dispositions are within the receptacles that are individuals, and hence there is no contradiction in saying that all individuals potentially have both the intemporal-disposition and temporal-dispositions, with the major existential/contextual difference among individuals with regards to the existential/contextual inclination to preserve-intemporal or fail-intemporal/temporality as social-stake-contention-or-confliction arise varying with regards to the implications of graver and graver temporal consequences (wherein as an archetype elucidation for instance, Socrates or Galileo will strive to keep on preserving intemporal/longness even when the conventional social-stake-contention-or-confliction threaten as they view the perpetuation of the ideas and principles they stood for were more critical for human posterity, but again ‘a sense of intemporal’ may vary from an intellectual nature where for instance an ordinary person may spontaneously save from drowning or defend another or others at risk to themselves, etc., implying that individuals ‘solipsistic or secondnature philosophies’ with respect to the acuteness of social-stake-contention-or-confliction is more critical in determining their dispositions to preserve-intemporal or fail-intemporal/temporality); thus explaining a same notional and contiguous conceptualisation (rather as a variation of degree and not different notions) construed as temporal-to-intemporal-dispositions as shortness-of-register-of-meaningfulness-and-teleology to longness-of-register-of-meaningfulness-and-teleology, and equally explaining why institutionalisation/intemporalisation is possible, as the framework/social-construct wherein social-stake-contention-or-confliction arise can be construed/designed to skew (‘intemporal-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) towards and encourage

the intemporal-disposition to preserve-intemporality over failing-intemporality/temporal-dispositions of postlogism-slantedness (postlogism-as-perversion-of-reference-of-thought-instigation-at-a-given-registry-worldview/dimension, that is instigative to the turning of the prospective ‘temporal defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance into registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect>), and its subsequent conjugation with ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Critically, this accounts for how individuals arrive at their various teleologies/finalities of the intemporal-disposition as ‘logically sound acts’ or temporal-dispositions as ‘logically unsound acts’ or ‘defect of logical-processing-or-logical-implication’ or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance (in the latter case, which are more or less incidental and salvable as just contingent). Further in a ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ induced when such ‘defect of logical-processing-or-logical-implication’ or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance conjugate to (psychopath or other character) instigated postlogism as perverted-outcome-sought-precedes-existentially-veridical-logical-duedness (a mental-disposition that from its instigation ‘gives-up on ontological-veridicality/ontological-contiguity’ not only in terms-as-of-axiomatic-construct of failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as of ontological-

normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication but is not even predisposed/inclined to an ontologically veridical reference-of-thought to meaningfulness but rather relating to meaning as a hollow-form which determines how others act, so-long-as/to-the-limit-that the postlogical character can remain as of the socially-functional-and-accordant in so doing) inducing in turn temporal-dispositions conjugated-postlogical mental-dispositions (whether unconsciously or consciously, when aligning in-conviction to the postlogical non-conviction) conjugating with ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation and leading to their registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect>, because the temporal-dispositions-so-conjugated-to-postlogism are now 'acting-recurrently-in-temporal-preservation, no-longer-as-contingent (defects of logical-processing-or-logical-implication), while wrongly implying (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) they are ontologically-veridical or in intemporal-preservation' in their state of conjugated-postlogism. By 'dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality' this defines the given registry-worldview's 'dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness' (uninstitutionalised-threshold or socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation), and thus it is dialectically-out-of-phase/dialectically-primitive. It is the exercise of: temporal-dispositions 'acting-recurrently-in-temporal-preservation, and-not-as-contingent (defects of logical-processing-or-logical-implication), while wrongly implying (beyond-the-consciousness-awareness-teleology-in-

Without this institutionalisation/intemporalisation ‘constraining’, there isn’t really any temporal intradimensional compunction or insight to cease ‘acting-recurrently-in-temporal-preservation, and-not-as-contingent (defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance), while wrongly implying (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) they are ontologically-veridical or in intemporal’. This latter point is critical as it highlights that at the ‘dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness’, there isn’t any logical-basis of convincing but for the better ontological-primemovers-totalitative-framework of a prospective reference-of-thought/prospective-registry-worldview established in the middle to long run construed as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics, which then voids the prior reference-of-thought–categorical-imperatives/axioms/registry-teleology as ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. In many ways issues of perversion-of-reference-of-thought are rather with respect to ‘a-country-of-the-blind-scenario’, so to speak; wherein perversion-of-reference-of-thought necessarily imply a

dialectical situation between two ontological-references with the one being prior/transcended/superseded and the other prospective/transcending/superseding. It is important to grasp that going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, the ontological-contiguity—of-the-human-institutionalisation-process where this is skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) by deferential-formalisation-transference towards the intemporal (intemporalisation) is actually an artifice (artificial conceptualisation) that is habituated for its relative positive-opportunism with regards to the cross-section of human interest in the middle to long run construed as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics. However, no institutionalisation construct, going by its implied transcendence alienating ‘present as prior/transcended/superseded ontological-reference conceptualisation’ for ‘future as prospective/transcending/superseding ontological-reference conceptualisation’, has ever been acquiesced to socially without resistance even in instance induced by diffusion involving the power dominance of one cultural entity over another, with such resistance being at least in the short-term of a covert nature and of a <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag nature as well. Resistance is even stronger where transcendental institutionalisation is implied within a same cultural entity. Thus it might just be the case that the more or less itinerating clanic or tribal groups of early humans were the perfect model for a sort of complementary diffusion of transcendentalism that quickly enabled a hominid to achieve the core assets for its perpetuation of civilisation as complex meaningfulness enabled by language and culture. Insightfully as well the possibility of positivism/rational-realism arising in Western Europe was greater by this same mechanism

of complementary diffusion of transcendentalism given the mutually feeding diffusionary dynamics across the constitutive feudal entities of Medieval Europe sharing a common referent Judaeo-Christian worldview of a ‘relatively weak dogmatism’; and this can be contrasted during or just before the same period with the hegemonic or near-hegemonic governance of China and of the Islamic world ultimately stifling their nascent positivistic inclinations involving the stifling of a potential Chinese age of voyage and trading as it turned inward or the stifling of Islamic learning and science respectively. Equally, anthropological examination of various cultural groups shows that human progress is not a given and that if the appropriate conditions are not satisfied there is nothing that says a given society will fulfil its potential for prospective transcendence, and this author thinks that applies to us as of the positivism–procrysticism registry-worldview as we are not beyond ontological-veridicality/intrinsic-reality by mere vague egotistic/self-referential complex but rather as of a lucid contemplation and subjection to insight about prospective ontological-veridicality/intrinsic-reality axiomatic-construal, in much the same way positivism institutionalisation transcendence came about. The bigger point here is that while within ‘institutionalised constructs’, there is more or less summative perception of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction on the basis of common/same/shared registry-worldview reference-of-thought priorly institutionalised by prospective-institutionalisation/intemporalisation-as-transcendence, however, at uninstitutionalised-threshold, we should be expecting nothing less than the ‘normal’ human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and so at the threshold between recurrent-utter-uninstitutionalisation and base-institutionalisation, universalisation and ununiversalisation, non-positivism/medievalism and positivism, and prospectively procrysticism and

deprocrypticism. The implication is that naturally all prospective institutionalisations by their implied transcendence are ‘antagonistic by inducing contrariety in the temporal sense’ even though we’ll appreciate that their intemporal valor is inestimable (at least when we are looking retrospectively in appreciating that a positivistic outlook should supersede a non-positivism/medievalism outlook, and in the case where we are not uninhibited/decomplexified to equally construe that prospectively as a deprocrypticism outlook should supersede a procrypticism outlook). This insight equally highlights that institutionalisation/intemporalisation is implied with regards to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and is critical for would-be emancipation-inducing intemporal individuations in grasping the whys and hows of social reaction to transcendental conceptualisation going by human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, how temporal ‘resistance’ is superseded, the mechanism of percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> and how transcendental ideas are taken up over time and induce untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism in the short run and secondnaturing in the middle to long run construed as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics. The fact is that while the social-construct is by and large a conceptualisation that determines individuals possibilities, the reality is equally that the social-construct does has ‘powerful channels’ that enable individuals to drastically redefined what is the social. The individual, it is often ignored, is an abstract-atomic-social-construct, as in the individual is priorly implied in the social, beyond just in terms-as-of-axiomatic-construct of social aggregation in implying a meaningfulness and value-reference construct

relationship to the abstract summative social. Such insight on the nature of human transcendence will certainly highlight why the Encyclopédistes coordinated by Diderot played a relevant role in inducing a domino effect contributing in transforming medieval European societies mindsets into a positive worldview by cynically putting together all the positive knowledge they could muster and disseminating it throughout Europe, and so over the forces of obscurity of the days who understood the implications of such a venture. The fact here as well as with all issues of perversion-of-reference-of-thought (by the prior relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, say of a medieval mindset/reference-of-thought with respect to a prospective positivistic mindset, as implied by ontological-normalcy), is that there was obviously no mutually common/same reference-of-thought between the Encyclopédistes as positivists and many in the medieval establishment as non-positivists for any mutually intelligible logical exercise. But rather it was a case of transversality-of-disambiguated-apriorising/axiomatising/referencing wherein the ontological-primemovers-totalitative-framework of positivistic meaningfulness over non-positivism/medievalism ontologically imposed the positivistic reference-of-thought, as the former elicits untenability/internal-contradiction/internal-incoherence/institutional-constraining in the latter as well as its relative positive-opportunism from its relative ontological effectiveness such that it ends up being secondnatured further by percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>. Insightfully, in an intellectual conceptualisation exercise which, though conceptually contiguous, and while not necessarily implying similar dramatisation, in addition to its relatively diffuse implications in the sense of the contention being rather about human-mentation-capacity-

furtherance and the fact that as a latter institutionalisation it is apparently less dramatic, at least as of its apparent negative social consequence given it is so focussed on human individuations as atomic-level point-of-departure of transformation but rather finding its radicalness more in the boldly implied décomplexing/uninhibitedness (suprastructuring/metaphysics-of-absence) emancipation of the positive/procryptic human, and as with all other institutionalisations, it is thus not an issue that deprocrypticism meets in the short-term and temporary with ‘resistance’ or rather criticism (possibly by and large more in terms-as-of-axiomatic-construct of intellectual agreement/disagreement, as obviously every notion seriously contemplated about is); such that focus should be relatively more about construing veracity/ontological-pertinence and percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> thereof, as an objectively engaged intellectual/emancipatory exercise.

- As the above circularity/recurrence/repetition/repeatability (of temporal-dispositions acting-recurrently-in-temporal-preservation ...) is the basis for the registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> reflected/perspectivated as the perversion-of-reference-of-thought <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> of a given dialectically-out-of-phase/dialectically-primitive registry-worldview in its ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ as the ‘temporal-dragging-of-ontology/ontological-veridicality’ (in-a-social-dynamism-of-meaningfulness-misappropriation) by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-

enculturation/temporal-endemisation-effect; superseded/resolved not by logical-processing but as apriorising–registry (reference-of-thought) perversion, by the ontological-primemovers-totalitative-framework of the prospective apriorising–registry as it elicits by its positive-opportunism its untenability/internal-contradiction/internal-incoherence/institutional-constraining with respect to the prior one, going by ontological-normalcy/postconvergence. This articulation of the ‘given dialectically-out-of-phase/dialectically-primitive registry-worldview as a ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’’ can be construed going by an ontologically-veridical insight from a ‘Différance-existential-transitory-articulation-of-the-derivation-of-perversion-of-reference-of-thought-of-meaning-and-meaningfulness’ technique which allows essence-of-meaningfulness to be seen for what it really is as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness-and-contextualisation, as can be understood insightfully by the notion of ‘existence defining/preceding essence’, as existential reality sets up the veridical contextualisation of analysis that is preemptive of a hollow-form/postlogical arrogation/impostoring with respect to the ‘essence-of-meaningfulness as of intemporal-preservation’), and this as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology wherein temporal-dispositions acting-recurrently-in-temporal-preservation speaks of a relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-

 normalcy/postconvergence epistemic/notional_projective-perspective prospective-
 transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity-or-
 ontological-preservation. This is the reason why the registries of the
 dialectically/contendingly-out-of-phase prior/transcended/superseded registry-
 worldviews/dimensions of recurrent-utter-uninstitutionalisation, ununiversalisation, non-
 positivism/medievalism and prospectively procrypticism (the-perversion-of-reference-of-
 thought-of-our-positivism-construed-from-a-prospective-reference-of-thought-as-
 deprocrypticism) are correspondingly represented with their own 'specific and peculiar
 unsoundness-or-inauthenticity-of-reference-of-thought' <formative>epistemic-totalising-
 renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-
 rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing-psychologism-as-the-

 teleology of their corresponding prospective dialectically-in-phase as dialectical-thinking
 prospective/transcending/superseding registry-worldviews/dimensions of base-
 institutionalisation, universalisation, positivism and prospectively deprocrypticism. It is
 critical to note that generally the distortion of ontologically-veridical-meaningfulness from
 postlogism and conjugated-postlogism/dementing-integration leading to temporal-
 preservation-as-pseudointemporality-preservation occurs at the three levels of
 contextualisation as individuation, registry-worldview/dimension and
 transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-

ontological-completeness conceptualisations; contextually it explains incidental occasions of perversion-of-reference-of-thought, registry-worldview-wise/dimension-wise postlogical instigation of temporal-preservation-as-pseudointemporality-preservation (in self-reference-syncretising) explains relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, intradimensionally and need for prospective institutionalisation to resolve the given relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, with respect to ontological-normalcy, and transcendently/transdimensionally/interdimensionally this further explains ontological-normalcy as being about representing successive institutional-cumulations/institutional-recomposures as of ‘reducing-epistemic-abnormalcy’ so that the perspective is one of ‘abnormalcy’, such that the mindset/reference-of-thought in no institutionalisation including ours/positivistic should be ‘so-complexed’ as to wrongly imply a perspective of ‘its ontological-normalcy’ to be then defining itself as prospectively non-transcendable/unsupersedeable at its uninstitutionalised-threshold, thus being falsely ‘dialectically-undementable/dialectically-unprimitivable and dialectically-un-out-of-phaseable’ while intuitively it appreciates that prior registry-worldviews had been thus-construed in succession to deliver its own; thus speaking of an ‘ontological-bad-faith’ for the prospective possibilities of the future.

- As it is important to grasp that the postlogical/psychopathic characters instigation of conjugated-postlogism/dementing-integration in the other temporal-dispositions doesn’t mean

postlogism characters are the causation of the ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ that induces the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of a dialectically-out-of-phase/dialectically-primitive registry-worldview as dialectically-dementing. Rather, from ontological-normalcy/postconvergence insight, this points to human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) at that registry-worldview/dimension-level or registry-worldview/dimension as the dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness (or uninstitutionalised-threshold or socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation), which is ‘in wait’ to be revealed by the registry-worldview’s/dimension’s corresponding postlogism perversion-of-reference-of-thought instigation at that registry-worldview/dimension-level or registry-worldview/dimension. For instance, the corresponding postlogism as perversion-of-reference-of-thought instigation in non-positivism/medievalism instigating say of notions of sorcery and accusations of the type while effective in inducing perversion-of-reference-of-thought in a non-positivism/medievalism setup will not be effective in a positivistic social-setup, as the non-positivism/medievalism condition of being superstitious and non-empirical is by itself a condition ‘in wait’ for accusations and notions of sorcery to arise and be endemised/enculturated. Likewise, from ontological-normalcy/postconvergence insight, with regards to our positivistic registry-worldview reflected/perspectivated as being dialectically-out-of-phase/dialectically-primitive as procrypticism at its human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) registry-worldview/dimension-level as the dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness, our condition of not being in ontological-contiguity, ‘not-

reflecting-absolute-ontological-pertinence’, as being involved with ‘non-maximalising-recomposuring-for-relative-ontological-completeness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’/temporal-accommodation as well as our peculiar conjugated-postlogism/dementing-integration as psychopathy-and-social-psychopathy (that is, the conjugating of the temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation to the postlogism-slantedness associated with psychopathy and social psychopathy) specifically in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) of the positivism registry-worldview’s permeating on occasion its formalities, rather than maximalising-recomposuring-for-relative-ontological-completeness where the veridical ontological-reference is an ‘abstract-sense-of-adherence-to-intrinsic-reality’ as validated by the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework/understanding/knowledge-driven, and not impression-driven/good-naturedness/wishfulness meaningfulness associated with the ‘non-maximalising-recomposuring-for-relative-ontological-completeness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’ that ‘tends to reference/accommodate/orientate for a disposition to rather seek other humans ‘temporal-validation’ as rather ‘angling for the summative human mental-disposition’ with respect to social-stake-contention-or-confliction as ‘extrinsic-attribution’ over a ‘validation by inherent-veridicality/intrinsic-reality’ of meaningfulness as ‘intrinsic-attribution’ leading

to social-and-temporal-trading, and so whether consciously-or-unconsciously/wittingly-or-unwittingly’, and thus inducing notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> speaking of epistemic-decadence (postlogism). Insightfully again, going by the first example, it might (wrongly) be argued, by human ‘temporal extricator paradigm’, that notions-and-accusations-of-sorcery in a non-positivism/medievalism setup should imply that any such accused should equally ‘make-up’ accusations in their own defence to neutralise and possibly defend their own interests. But such a stance is a temporal extricator paradigm that faces human temporality/shortness with human temporality.

Intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm will garner the insight that humanity-at-large at all such non-positivism/medievalism setups is rather in need (as the resolution) of a renewed institutionalisation prospectively as the positivistic registry-worldview based on rational-empiricism as the paradigm for superseding the vices-and-impediments that the enculturation/endemisation of the notions-and-accusations-of-sorcery speak of inherently, together with the social-structural implications and derivations arising, with regards to the non-positivism/medievalism registry-worldview. The vocation of the intemporal-disposition (intemporality/an-ontological-construct/longness-of-register-of-meaningfulness-and-teleology) is not-to-come-to-and-construe meaningfulness at a same pedestal as a temporal extricator paradigm, and this invariably means that its on-occasion/incidental insight about temporal-dispositions defects (temporality) is ‘necessarily escalated ontologically at a humanity-at-large scale of <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’. This construal is what enables ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) or ontological-

normalcy/postconvergence, and its <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity on human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor across all the registry-worldviews whether retrospective, present or prospective. In other words, inherent human ontologising-deficiency as implied by ontological-normalcy/postconvergence due to human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) is the inherent reason why humankind has to ‘make-up-for’ (by projection as ‘ontological-reconstituting-as-of-conflatedness’/deconstruction) its ontologising-deficiency by renewing its reference-of-thought/implied-registry-worldview in successions as transcendences involving a ‘placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology dialecticism’ (‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’) that involves prospective/transcending/superseding registry-worldview as ‘dialectical-thinking’ which is dialectically-in-phase over prior/transcended/superseded registry-worldview as ‘dialectically-dementing’ which is dialectically-out-of-phase/dialectically-primitive. With the various registry-worldview/dimensions postlogisms/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness-or-perverted-outcome-sought-precedes-existentially-veridical-logical-duenessal-operation perversion-of-reference-of-thoughts (whether instigating from physiological or enculturated basis) being incidental phenomena (associated with human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor) emphasising the more fundamental issue of the dialecticism implicated in human transcendence, and with this dialecticism being the ‘suprastructural insight’ that informs the veracity/ontological-pertinence and handling of all

issues of ontological-or-existential-defect/registry-defect/perversion-of-reference-of-
 thought/transcendental-dialecticism going by a 'Différance-disambiguation-of-ontologically-
 veridical-meaningfulness-and-teleology'. This differs from issues in relation with
 existentially veridical logical-dueness and from thence enabling the construing of relevant
 soundness or unsoundness of logical-processing-or-logical-implication that 'comes only
 after the notion of a sound reference-of-thought is established in the first place' and are
 intradimensional, and doesn't put-into-question/implicate the soundness/unsoundness of
 registry/axioms/ontological-reference/contending-reference/meaningful-reference/anchoring-
 of-meaning/soundness-or-authenticity-of-reference-of-thought-or-soundness-of-
 mind/registry-worldview, and furthermore are grounded on a same/common reference-of-
 thought/implicit-registry-worldview. Thus if strictly speaking a postlogism phenomenon
 (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) like a
 psychopathic disposition is not the causation of a reference-of-thought perversion-of-
 reference-of-thought, then what is its relevance and pertinence? The fact is with or without
 postlogism including psychopathic individuations, human limited-mentation-capacity-(as of
 relative constitutedness towards relative conflation) warrants that our temporal-dispositions
 will nonetheless still fail the intemporal-preservation-entropy-or-contiguity-or-ontological-
 preservation at the uninstitutionalised-threshold that correspondingly mark the successive
 uninstitutionalised-threshold states of recurrent-utter-uninstitutionalisation,
 ununiversalisation, non-positivism/medievalism and prospectively procrypticism, just by the
 mere fact of relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-
 virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-
 construed-as-from-prospective-reference-of-thought, as-it-is-thus-'in-wait'-for-perversion-of-
 reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation,
 (ontological-completeness-of-reference-of-thought involving institutionalising,

universalising, positivising and deprocrypticising, with deprocrypticism ‘conceptually’ marking ontological-completeness as it subsumes-as-supplant-(as-of-the-more-profound-construal-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) all the rest). The critical thing however is that at these uninstitutionalised thresholds, without the postlogical effects including psychopathic, the corresponding requisite human transcendences will be more straightforward, direct and definite from the prior ‘dialectically-dementing’ to the prospective ‘dialectical-thinking’ as temporal-dispositions are less predisposed to temporal-preservation-as-pseudointemporality-preservation once social universal-transparency of perversion-of-reference-of-thought or registry-worldview-perversion is established together with the untenability/internal-contradiction/internal-incoherence/institutional-constraining of that perversion, thus facilitating the registering/stranding of the implied dialecticism in the social-psyche/collective-consciousness of what is effectively ‘dialectical-thinking’ and what is ‘dialectically-dementing’, with the latter being alienated in the operation of meaningfulness as the new institutionalisation is established. This straightforwardness, directness and definitiveness is fundamentally undermined by the iterability/iteration nature (of ontologically-veridical-meaningfulness-and-ontological-reference) induced by the postlogical hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation distorting effect including psychopathic which renders establishing social universal-transparency of perversion-of-reference-of-thought or registry-worldview-perversion together with the untenability/internal-contradiction/internal-incoherence/institutional-constraining of such perversion-of-reference-of-thought with respect to other temporal-dispositions rather obscure, and further so as conjugated-postlogism mental-dispositions equally assume a distortional purposefulness with respect to ontologically-veridical-meaningfulness of their own.

Postlogically perverted/distorted induced iterability with regards to ontologically-veridical-meaningfulness-and-ontological-reference (as denaturing the apriorising—registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) takes the form of ‘denaturing postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ as non-veridical and dialectically/contendingly out-of-phase, absolving/fleeting/escaping-reflex-logic and extrinsic-attribution with respect to successive sets of interlocutors, and as conjugated-postlogism mental-dispositions equally assume a purposefulness of their own (that must be factored-in when analysing psychopathic/postlogical and social-psychopathic situations). This in turn induces ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ as conjugated-postlogism/dementing-integration-of-temporal-dispositions in a ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect). Thus strengthening the temporality/shortness preservation dispositions of temporal-dispositions as the mere dynamism of the conjugating state of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-

Of course, in registry-worldview terms it’s more than just the individuations of individuals, but rather a dynamic-cumulative-aftereffect construed at the

comprehensive institutionalisation/uninstitutionalised-threshold level. Basically, by blurring (by way of hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in-iterating alterations or slanting) the notion that a reference-of-thought is ‘dialectically-dementing’ given its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, postlogism induces temporal-preservation by circularity/recurrence/repetition/repeatability of unprincipled-or-derived-unprincipled mental-dispositions in temporal-dispositions (which equally assume a purposefulness of their own (that must be factored-in when analysing psychopathic/postlogical and social-psychopathic situations) inducing registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> by temporal-preservation as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology-of-recurrence/repeatability in principle. Postlogism-as-of-non-conviction as ‘non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’ and conjugated-postlogism can possibly be explained by the notion of pseudointemporality wherein under social-and-confliction-stake temporal-dispositions individuation ‘mental-dispositional incapacity for intemporality’ induces ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation (at individuation-level relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-

for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, as it strives to act as if it was intemporal, whether-consciously-or-unconsciously-and-so-beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought-manifestation. In that sense the postlogical/psychopathic mental-disposition will seem to be the ‘weakest human mental-disposition for acting intemporally/in-conviction or meaning as its intrinsicness/essence/ontological-veridicality’ and so directly engages in its kind of pseudointemporality, for pathological reasons, as it takes a faulty-mentation-procedure-shortcut to meaningfulness towards its naively sought-outcome/end-purpose as ‘meaning by its mere form as being deterministic of how others will act’, such that this is actually part and parcel of its developmental psychology. While other temporal-dispositions individuations come to pseudointemporality by ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, whether-consciously-expediently-or-unconsciously-and-so-beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought-manifestation. Postlogism-as-of-non-conviction as ‘non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’ instigation of perversion-of-reference-of-thought is associated with intradimensional temporal-preservation-as-pseudointemporality-preservation at a registry-worldview’s/dimension’s uninstitutionalised-threshold or relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought-threshold (as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation), such that equally temporal-dispositions are effectively in derived-non-conviction or derived-existential-

decontextualised-transposition or derived-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing, whether-consciously-or-unconsciously-and-so-beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought-manifestation intradimensionally. This can be highlighted by the fact that from a positivistic perspective, a truly medieval mindset/reference-of-thought at its core is fundamentally and structurally of a relative structural-being/ontological-or-existential-defect no matter how ‘good-natured’ we may conceive of it by the mere fact of the ‘spectacularly defective knowledge and virtue implications’ of it not having a positivistic outlook given its medieval relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, before even speaking of an issue arising from medieval postlogism like someone coming up with notions and accusations associated with superstition. For instance, the consciousness state of say the non-positivism/medievalism mindset/reference-of-thought at its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought-threshold (as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation) with respect to the mental-dispositions of the positivistic mindset/reference-of-thought wherein obviously the latter’s more ontological-completeness construes that notions-and-accusations-of-sorcery, however serene the mental states of persons in such medieval setup, are without any doubt ridiculous from its positivistic perspective as there is no explanation for them but for the fact that having arrived at its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-

(These can perfectly be exemplified for the other lower registry-worldviews/dimensions or our procrypticism registry-worldview/dimension with respect to deprocrypticism but for the relative unpalatability compared to speaking only of medieval cases which provides the requisite relevance and insight anyway; from the insight of a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ grounded at the successive institutional-cumulations/institutional-recomposures, as ontological-completeness/ontological-normalcy driven). Taking the case of a non-positivism/medievalism context as highlighted above at its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought-threshold (as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation) warranting the positivistic registry-worldview/dimension, we can appreciate that there is a whole gamut of

seemingly genuine ontological/being/existential dispositions as social practices within the non-positivism/medievalism registry-worldview/dimension like alchemy, superstitions, beliefs and other similar social constructions of meaningfulness that from a ‘positivistic angle’ are perfectly caricaturable as nothing but apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing arising from the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of universalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology as intradimensional existential-decontextualised-transposition (of reference-of-thought—categorical-imperatives/axioms/registry-teleology of universalisation meaningfulness). This is a recurrent dynamism associated with human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor across all institutional-cumulations/institutional-recomposures, as at the point of a prospective/superseding/transcending institutionalisation’s relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporal-preservation, there is an eliciting of hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of its reference-of-thought—categorical-imperatives/axioms/registry-teleology by temporal-dispositions (as temporal-preservation-as-pseudointemporal-preservation instigated by postlogism and enculturated-postlogism) manifested in various social constructions of meaningfulness such that these are in effect derived-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing and whose ontologically-veridical-meaningfulness is defective (as intradimensional existential-

decontextualised-transposition), requiring prospective transcending/superseding institutionalisation by ontological-reconstituting—as-of-conflatedness/deconstruction/(engaged)-destruktion, with temporal-dispositions further in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of reference-of-thought—categorical-imperatives/axioms/registry-teleology of the latter transcending/superseding institutionalisation at its point of relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, inducing new derived-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing social constructions of meaningfulness, and the cycle carries on this way till the attainment of ontological-normalcy (deprocrypticism) as ontological-completeness brings an end to derived-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing social constructions of meaningfulness that are veridically-unreal. These derived-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing social constructions of meaningfulness are in effect the uninstitutionalised-thresholds requiring corresponding prospective institutionalisations/intemporalisations (whether-consciously-or-unconsciously-and-so-beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought-manifestation intradimensionally); and it is important to grasp that uninstitutionalised-thresholds (however nefarious the consequences from an ontological-normalcy/postconvergence appreciation) are as critical and defining in their existentialism/full-depth-of-existential-implications just as institutionalisations, to fully appreciate the very nature of transcendence as the most important thing/purposefulness of humanity-at-large. But then, our human intemporal-disposition responsible for the

institutionalisation/intemporalisation process is equally inclined to focus-the-mind-more-thoroughly when dealing with phenomena that undermine ontological-veridicality and so specifically with the undermining of soundness of reference-of-thought, and so across the various institutional-cumulations/institutional-recomposures. It is more likely that in this regard, more likely than not perversion-of-reference-of-thought phenomena as postlogical effect including psychopathic may actually have been a boost for more rapid huma registry-worldview's/dimension's institutionalisation/intemporalisation as our intemporal-disposition going by its own intemporal preservational individuation disposition (in intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) is rather prone to apprehend and deal with perversion-of-reference-of-thought issue at the humanity-at-large scale for the need of huma registry-worldview's/dimension's institutionalisation as secondnaturing given that with human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) it is naïve to operate on the basis of a 'human transformation on the wrong dependence of our intemporal-disposition as firstnatureness', thus the reason why we institutionalise as secondnaturing taking cognisance of the reality of our temporal-to-intemporal individuations dispositions. Just as implied elsewhere in this paper, the skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) (from shortness-of-register-of-meaningfulness-and-teleology to longness-of-register-of-meaningfulness-and-teleology) of capacity as shallow-limited-mentation-capacity to deeper-limited-mentation-capacity, is the transcendent construct of human virtue, and so as a contiguity notion, and not of abstract analogy. This notion of contiguity is what explains the capacity for humankind to accumulate/recompose/reorder its institutionalisation/intemporalisation capacity. This can be explained as follows. Considering the instance where for instance the target of accusations of sorcery was to equally adopt a temporal stance by making a vague accusation of sorcery as

well. Seemingly, such a temporal approach will more or less be more effective in preempting the ‘incidental resolution of temporal-preservation-as-pseudointemporality-preservation’ (with respect to themselves in their specific locale) associated with the ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect) rather as an extricatory/temporal paradigm in serving their purpose of a temporal mortal. In so doing incidentally it doesn’t actually preempt but fails the ‘universal resolution of temporal-preservation-as-pseudointemporality-preservation’ (at humanity-at-large scale) as it advances an argument that still enculturates/endemises the upkeep of notions of superstition and sorcery. This approach of temporal-dispositions of dealing with temporality/shortness with temporality/shortness with respect to perversion-of-reference-of-thoughts in all the registry-worldviews (institutional-cumulations/institutional-recomposures) is what endemises/enculturates the dialectically-out-of-phase or dialectically-primitive. A truly intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm warrants a transcendental posture of universal-projection/aetiologisation/ontological-escalation that overlooks resolving temporality/shortness with temporality/shortness and seeks to grasp the universal implications of all such temporal-preservation-as-pseudointemporality-preservation inclinations of perversion-of-reference-of-thought at the humanity-at-large level of all locales and situations, and only then in transversality-of-disambiguated-apriorising/axiomatising/referencing that all such incidentals of perversion-of-reference-of-thought and temporal-preservation-as-pseudointemporality-preservation endemisation/enculturation are construed and resolved by deferential-formalisation-

transference of the intemporal-disposition approach as institutionalisation/intemporalisation. It is only such an intemporal approach that suprastructurally (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought-of-temporal-dispositions) allows for the requisite base-institutionalising of recurrent-utter-uninstitutionalisation, universalisation of ununiversalisation, positivising/rational-empiricism of non-positivism/medievalism, and prospectively deprocrypticising/preempting—disjointedness-as-of-reference-of-thought of procrypticism/disjointedness-as-of-reference-of-thought. The fact has always been that throughout the various institutionalisations this human intemporal-disposition individuation disposition has always been an indispensable outlier (as longness-of-register-of-meaningfulness-and-teleology) with respect to human social-stake-contention-or-confliction-and-confliction and the reason for its conceptualisations to be construed as institutionalisation-as-virtue even though going by temporal-dispositions inclinations, ‘such abstract projection basically would hardly make sense’. The fact is that this intemporal inclination, while often not downright articulated for what it is but rather implied, is actually behind all formal constructs with an adoption of a ‘maximalist approach’ in the construal of social phenomenal possibilities. Likewise, the hermeneutic orientation of this paper takes up such a maximalist approach in understanding phenomena of perversion-of-reference-of-thought and more precisely psychopathy and social psychopathy in the social-construct even though from a simplistic temporal perception it may seem at times overblown (very much like in a core medieval setup a positivistic maximalising-recomposuring-for-relative-ontological-completeness disposition such as Galileo’s or Darwin’s or Rousseau’s or Descartes’s assertions will seem overblown to the ‘core non-positivism/medievalism mindset’ going by its customary perception), since it doesn’t accommodate temporal/incremental/‘disjointedness-as-of-reference-of-thought’ ways of thinking and instead strives for a universal implications depth-of-thought. Basically, on the same token the

maximalising-recomposuring-for-relative-ontological-completeness of formal constructs is all about construing human transcendental potential as a ‘virtue tipping exercise’ wherein for instance the seemingly overblown representation of humans as susceptible to malfeasance/offence by the construct of the Law doesn’t necessarily imply that everything about humans is how they are likely to commit malfeasance/offence but rather that the transcendental potential of the construct of Law caters for and is a virtue tipping exercise for maximalising-recomposuring-for-relative-ontological-completeness the possibility of limited committing of malfeasance/offence, just as likewise the maximalising-recomposuring-for-relative-ontological-completeness construct of medicine of humans as likely to be diseased doesn’t necessarily mean that everything about humans is how they will get an ailment but is a human transcendental potential as a virtue tipping exercise for maximalising-recomposuring-for-relative-ontological-completeness the possibility of human health. The reason for this deferential-formalisation-transference disposition is simple, as formal constructs ‘reason’ on the basis of intemporality/object-ontological-veridicality in the quest for reifying abstract universal projection very much unlike everyday informal conceptualisations that are rather driven by vague impressions and good-naturedness and tend to construe meaningfulness by reflex without factoring in relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought of ordinary day to day thinking (common sense), and tend to be unsure, poorly methodical, poorly universalising, poorly insightful, and with elevated subjectivity (not only with regards to facts but with the purported reference-of-thought as well as the apriorising—reference-of-thought-elements/apriorising—registry-elements which are implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), and so beforehand/as-of-a-priori even

without the instigating effect of any perversion-of-reference-of-thought like postlogism/psychopathy; such that such temporal/incremental/‘disjointedness-as-of-reference-of-thought’ reasoning is best left for inconsequential and trite matters of day to day living, as validated by the processes and procedures of our formal institutions however approximate in their success given the pervasiveness of the extended-informality-⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩ even in formal setups, with its susceptibility to undermine or overlook ‘formal effectiveness’ (which can sometimes be naively construed as weakness of formalism rather than insufficiently effective formalism or extended-informality-⟨susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology⟩ disruption of formal effectiveness). Abstractly maximalising-recomposuring-for-relative-ontological-completeness meaningfulness carries an intemporal/longness-of-register-of-meaningfulness-and-teleology and universal coherence that incremental meaningfulness doesn’t, and thus maximalising-recomposuring-for-relative-ontological-completeness is actually the drive for transcendence in reflecting the ontological-contiguity—of-the-human-institutionalisation-process successive institutional-cumulations/institutional-recomposures, with human ontological development from ‘shallow limited-mentation-capacity-⟨as of relative constitutedness⟩ to deeper limited-mentation-capacity-⟨as of relative conflation⟩ reconstrual/reconceptualisation’ and hence it is ontologically-contiguous as a virtue construct that is self-sustaining. Maximalising-recomposuring-for-relative-ontological-completeness as such is the mental-disposition to uphold ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from

the perspective of the ‘dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought’) as ‘shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation)’/relative-ontological-completeness/reducing-epistemic-abnormalcy avails for the development of reference-of-thought in construing intrinsic-reality/ontology, by its very intemporal/longness-of-register-of-meaningfulness-and-teleology principle-driven nature; hence it thus regenerates new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to match developing ‘shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation)’/relative-ontological-completeness/reducing-epistemic-abnormalcy. Whereas incrementalism-in-relative-ontological-incompleteness tends to operate as if at any one instance human meaningfulness is absolutely set (and so rather as a mere form) and thus incrementalism-in-relative-ontological-incompleteness is non-transcendental, and so with reference to the underlying intemporality/longness (intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) that ontological development from ‘shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation)’/relative-ontological-completeness/reducing-epistemic-abnormalcy elicits, in lieu it is rather of a temporality/shortness reflex mental-disposition such that correspondingly developed reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is related to in virtuality-or-ontologically-flawed-construal (being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference) terms, whether unconsciously (ignorance), expediently (affordability) or consciously; thus as mental-disposition, incrementalism-in-relative-ontological-incompleteness across all registry-worldviews involves ‘<formative>epistemic-

 ontological-incompleteness wrongly construes meaningfulness (both ontology and virtue
 perspectives) as rather a process of additionality over the prior reference-of-thought whereas
 in reality (from the insight that our placeholder-setup/mental-devising-
 representation/mentation/consciousness-awareness-teleology develops from shallow limited-
 mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as
 of relative conflation) by way of the ‘ontological-dementation/dialectical-dementation—
 stranding/attributive-dialectics of reference-of-thought’) meaningfulness develops rather as a
 maximalising-recomposuring-for-relative-ontological-completeness process of
 recomposuring towards a deeper superseding—oneness-of-ontology, with recomposuring
 reflecting that human progress is rather an ontological-contiguity—of-the-human-
 institutionalisation-process (as secondnaturing/institutional-design defined by skewing
 (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-
 reality/ontological-veridicality transcendental-enabling/sublimating) as deferential-
 formalisation-transference by the intemporal-disposition/longness-of-register-of-
 meaningfulness-and-teleology) and critically without the transformation of the reality of

human individuation dispositions as temporal (shortness-of-register-of-meaningfulness-and-teleology)—to—intemporal (longness-of-register-of-meaningfulness-and-teleology) as of human existential-form-factor. Thus the implication is that the ontological-contiguity—of—the-human-institutionalisation-process succumbs to uninstitutionalised-threshold due to the dynamic-cumulative-aftereffect of human temporality/temporal-dispositions as of shortness-of-register-of-meaningfulness-and-teleology in inducing uninstitutionalised-threshold which can only further be structurally/paradigmatically resolved by maximalising-recomposuring-for-relative-ontological-completeness recomposre as transcendental-enabling/sublimating. Basically, incrementalism-in-relative-ontological-incompleteness relation to meaningfulness as ‘a comprehensive additionality exercise’ thus fails to account for human temporality/temporal-dispositions as ‘not transformed’ and will tend at uninstitutionalised-threshold towards the perversion/derived-perversion of the institutionalisation reference-of-thought or reference-of-thought—categorical-imperatives/axioms/registry-teleology,—for—intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (whether unconsciously, expediently or consciously), involving flawed-existential-elevation-of-reference-of-thought. This insight equally explains the nature of human progress as the natural mental-reflex is to think that human progress occurs incrementally as an exercise of additionality to the prior reference-of-thought and institutionalisation, which is wrong as human progress is all about our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology grasp of the same intrinsic-reality-as-ontological-veridicality in construing meaningfulness-and-teleology/teleological-differentiation involving rather a ‘continuous maximalising-recomposuring-for-relative-ontological-completeness exercise’ of the same intrinsic-reality-as-ontological-veridicality but with deeper limited-mentation-capacity-(as of relative conflation) arising from the overall and specific accumulated human experiential possibilities of being on earth. Thus human

progress as maximalising-recomposuring-for-relative-ontological-completeness is a change of human <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, and it not about being incremental/additional but is rather a ‘maximalising-recomposuring-for-relative-ontological-completeness emerging-through (by maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation) of prospective-institutionalisation over the old/uninstitutionalised-threshold due to human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal’, as base-institutionalisation is not an addition/increment over recurrent-utter-uninstitutionalisation but a ‘maximalising-recomposuring-for-relative-ontological-completeness emerging-through’, just as is universalisation over ununiversalisation, positivism over non-positivism/medievalism, and prospectively deprocrypticism over procrypticism; as a maximalising-recomposuring-for-relative-ontological-completeness process in the recomposuring accrual of human ‘shallow limited-mentation-capacity-(as of relative constitutedness) towards deeper limited-mentation-capacity-(as of relative conflation)’ wherein the ontological-contiguity—of-the-human-institutionalisation-process is rather construed as of ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ providing

 effectively an existentialism construct; existentialism in the sense that our limited-mentation-

 precedingness nature of ontological-normalcy/postconvergence with respect to human

existential-reference/existential-tautologisation pivoting to ontology/ontological-veridicality speaks of a ‘decentering’ to the prospective ontological-construct that maximalising-recomposuring-for-relative-ontological-completeness effectively enables by placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology rescheduling (as it perpetually recomposure to the intemporal as the relative absolute in value and ontology) over incrementalism-in-relative-ontological-incompleteness which wrongly falls back to the relatively limited-mentation-capacity-(as of relative constitutedness towards relative conflation) of the temporal presencing-as-if-definitely-set in wrongly construing it as the relative absolute reference-of-thought. Insightfully with respect to the notion of maximalising-recomposuring-for-relative-ontological-completeness, the law typically operates on the basis of anticipating maximally the possibilities of criminal acts with the anticipation of the maximal possibilities of victimisation from such acts (when it regulates weapons ownership, for example) in effectively construing optimal prevention of criminality in society as a structural/paradigmatic construct that more vitally shapes human action and its ‘effective enforcement’ is actually a minor portion of the structural/paradigmatic construct of law over lawlessness; as it carries an inherent intemporality/longness that is further summonable in improving the law with human ‘shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) reconstrual/reconceptualisation’. Rather the limit of such intemporal thinking is not the

<formative>wooden-language—imbued-averaging-of-thought-<as-to-

 operates and is based in effect on intemporal projection-of-thought in an intersolipsistic
 relation to intrinsic-reality/ontology/ontological-veridicality on the validity of the intercession
 of ontological-primemovers-totalitative-framework implied predicative-effectivity–
 sublimation-<as-to-underlying-ontological-commitment> and by extension the intercession of
 formal/conventioning rules as institutionalisation arising in validation of the former, and their
 corresponding percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-

 the notional validation of the solipsistic argument as it frames the question in the right
 manner, that is, inversely (contrary to the traditional philosophical framing of the solipsism
 question, which by so doing naively and wrongly implies that ‘individuals precede and/or are
 in supposedly in existence in existence’ upon an affirmative solipsistic response, rather than
 the idea of becoming solipsistically in existence which subsumes their individuality and
 projecting of the same about others in an intersolipsistic recognition arising from individuals’
 own solipsistic insights of predication-and-projection as so-reflected as to overall

 conceptualisation), since it priorly implies existential emanance-or-becoming validated by
 ontological-primemovers-totalitative-framework about a superseding–oneness-of-ontology as
 the intercessory basis for mutual-solipsism/intersolipsism. This author equally conceptualise
 of a difference between solipsism and subjectivity in that solipsism is rather purely
 ontological as it implies notionally the individual’s perspective in existential becoming as of
 existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-

or-existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-
 realisation,-re-perception,-re-thought-in-epistemic-conflatedness (however effective-as-
 solipsistically-intemporal or ineffective-as-solipsistically-temporal such perspectival
 performance), whereas subjectivity refers to our animate-existential-referencing-as-
 subjectification which is not necessarily oriented to the ontological
 appropriateness/veridicality of that reference but rather is a notional construal of the reality of
 ‘human condition of perceived ontological appropriateness/veridicality’ irrespective of
 whether it can be said of such perception as being objectively right or wrong going by
 inherent ontological-veridicality. So solipsism speaks of the human projection in notionally
 construing ontological veridicality/appropriateness notwithstanding the perspectival
 effectiveness or ineffectiveness of such a construal as of solipsistic-temporality to solipsistic-
 intemporal and as such solipsism as of solipsistic-intemporal is the drive behind
 ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality. Whereas
 subjectivity speaks notionally of a human condition orientation with respect to perceived
 ontological veridicality/appropriateness no matter whether right or wrong. This possibility of
 distinguishing an inherently ontological foundation of existential meaning different from an
 ontological as human epistemic-conception reflexivity of perceived existential meaning is
 central to a deprocrpticism mindset in enabling the most elaborate transcendently-
 enabling-level-of-authenticity/objectification/desubjectification-as-
 objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-
 of-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality/antinihilism
 construal since necessarily intrinsic-reality/ontological-veridicality is inherently
 tautologous, and ‘human capacity to grasp the possibilities of referential relations to
 inherent existential tautology as of human animate-existential-referencing/subjectification’ in

conjunction with ‘human construal of the inherent existential tautology’ is exactly the definition of notional knowledge. Supposed for instance a child comes to learn the rules of addition for all types of number additions such that the child understands the addition principle, but then there is a deliberate ploy by the teacher and other ‘supposed learners’ all along to constantly calculate $2+2$ as equals to 5. Sooner or later the child’s solipsistic sense of meaning (as becoming into existence alone in an intersolipsistic relationship with others interceded with ontological-primemovers-totalitative-framework inducing projective-insights and predicative-insights) will become a self-made revolutionary and question the teacher indicating the correct answer to $2+2$ as being 4; depending equally on its notional sense of intemporal-projection/longness-of-register-of-meaningfulness-and-teleology relative to temporality/shortness-of-register-of-meaningfulness-and-teleology as to the child’s underlying ‘conception of the ontological-good-faith/authenticity–structure’, further explaining in the bigger picture why maximalising-recomposuring-for-relative-ontological-completeness pursuits, apparently unnecessary from a temporal interest point of view, are intemporal-solipsistically undertaken. Insightfully despite the constant ‘social affirming’ that the correct answer is 5, unlike it might be erroneously be thought, the child’s insistence now that the answer is 4 is ‘not truly’ out of the ordinary as with respect to its construal of all other meaning including other additions, the child’s knowledge and learning has always been about confirming any such meaning by its notional sense-of-solipsism as of superseding–oneness-of-ontology; but this particular solution for the addition rather becomes outlying for the child because despite the ‘social affirming’ of $2+2$ as being 5, such a confirmation by a notional intemporal sense-of-solipsism as of superseding–oneness-of-ontology is not forthcoming, and in lieu rather gets the solipsistic confirmation as $2+2=4$! Thus this points out that our interrelationship to meaningfulness is most authentically and fundamentally by pointing out a notional intemporal ‘sense of solipsism’ in each of us to access intrinsic

meaning. Such ‘intersolipsistic-pointing exercise’ is only possible because of: our common underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’ as of the ‘coherence/contiguity of the actual insight-giving relevant-and-implied knowledge-construct/intersolipsistic-intercessory-notion/notional-referential-notion/articulation (enabled obviously by language as well as any human meaning relaying medium like signs, whether active or passive or implied or direct)’. By extension, our consciousness-awareness-teleology as of a solipsistic notional/epistemic-construct is equally the result of our animate-existential-referencing/subjectification as of our existential underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns-and-accrues projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’, and existentially so as of our ‘social framework of intersolipsistic deambulation’. So there is no medium for intersolipsism but for the fact of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-

potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-
 perception,-re-thought-in-epistemic-conflatedness accruing to each individual, implying our
 limited-mentation-capacity enables us at any given phase of our existence to mutually be able
 to ‘solipsistically reference a common sense of inherent existential-reality’, and so
 increasingly as of our common species, common registry-worldviews, common communities,
 common institutions and common personhoods and socialhood; and so, however
 ontologically-veridical our meaningfulness-and-teleology within institutionalised-threshold
 or as of apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing
 at uninstitutionalised-threshold. This will equally explain why in the rare cases reported in the
 media of infants abandoned and adopted by animals like dogs and monkeys, such infants
 often tend to adopt behaviours of the animals as of ‘mutual solipsism or intersolipsism of
 reference to underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-

existentially inherent human-subpotency potential to manifest as human) with other humans from whence the existential specificity/instantiation basis as of the family, neighbourhood, local institutions, sociocultural context and increasingly in a globalised world social trends of all sorts whether fashion, cultural, educational, intellectual, political, environmental, social media, etc. are now critical determinants of its subjective and intersubjective meaningfulness-and-teleology. Supposed again in a non-positivism social-setup a case of accusation-of-sorcery was to be brought up, wherein as of the relative-ontological-incompleteness-of-reference-of-thought implied beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of the registry-worldview/dimension, it is a generalised certainty that sorcery and sorcerers/sorceresses do exist (as of the non-positivism social-setup own apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing at their non-positivism uninstitutionalised-threshold). This conception speaks of that registry-worldview/dimension subjectivity and intersubjectivity as of ‘a <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> human condition of construal of intrinsic-reality/ontological-veridicality as knowledge’ which is the ‘indubitable reality’ as far as they are concerned. Such a subjectivity and intersubjectivity conceptualisation/construal can be implied as well as of ‘<formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> human condition of construal of intrinsic-reality/ontological-veridicality supposedly as knowledge’ across all the successive registry-worldviews/dimensions (including the subjectivity and intersubjectivity in our positivism—procrysticism) with respect to their respectively relative-ontological-incompleteness-of-

reference-of-thought implied uninstitutionalised-threshold. However, without a solipsistic notion of construal of intrinsic-reality/ontological-veridicality as of inherent intrinsic-reality/ontological-veridicality, and so beyond subjectivity and intersubjectivity, arising as of purely ‘solipsistic-and-intersolipsistic insights in referencing underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) as a potential capacity in all individuals, then the construal of intrinsic-reality/ontological-veridicality will tend to actually be defined whether beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought as implied by subjectivity and intersubjectivity as a ‘construct of human condition of construal of intrinsic-reality/ontological-veridicality as supposedly knowledge’, with the consequence that humankind construal of intrinsic-reality/ontological-veridicality is naively-and-wrongly interpreted as superseding ‘inherent intrinsic-reality/ontological-veridicality’ at registry-worldviews/dimensions uninstitutionalised-threshold (which is obviously fallacious, as it is ‘the possibility of humankind being subjected to the meaningfulness-and-teleological implications of further solipsistic-and-intersolipsistic elucidations in referencing underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity

and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) as of intrinsic-reality/ontological-veridicality that allows for the requisite pivoting/decentering as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure enabling human emancipation and progress, and not the other way round). The further implication is that by a retrospective and prospective analysis the possibility of human transcendence, usually initiated as an outlier solipsistic-and-intersolipsistic activity in referencing of underlying ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human), will largely be jeopardised since the ‘putting-into-question’ as a solipsistic exercise with the possibility of getting at the very core of what is ‘further divulge-able’ by intrinsic-reality/ontological-veridicality, is largely compromised by a subjectivity and intersubjectivity <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-disposition. This distinction between subjectivity and intersubjectivity as referencing human condition of construal of intrinsic-reality/ontological-veridicality from solipsism and intersolipsism as referencing human effective/ineffective construal of intrinsic-reality/ontological-veridicality, is actually important because (while less critical to elucidate this in the natural sciences given the immediacy of constraint from intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating hence implicated), the

implications for its comprehensive and conscious understanding in the social world (for conceptualising knowledge while superseding human temporality/shortness as ignorances, so-construed as ‘knowledge notionalisation’) is decisive as it requires both an understanding of ‘the human condition in its construal/relation to intrinsic-reality/ontological-veridicality’ and ‘understanding of inherent intrinsic-reality/ontological-veridicality’; and so, as a prerequisite for the organic-knowledge necessary for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview institutionalisation. For instance, the concepts of constitutedness, first-level presencing—absolutising-identitive-constitutedness, second-level presencing—absolutising-identitive-constitutedness, third-level presencing—absolutising-identitive-constitutedness and conflatedness of temporal-to-intemporal individuations as of bottomlining/reference-of-thought—prelogism-as-of-conviction to reference-of-thought—madeupness so-articulated previously as of ‘notional-conflatedness/constitutedness-to-conflatedness perspectivation of ontologically-veridical dynamic-cumulative-aftereffect/aftereffect’ in enabling a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation insight, can only be properly construed as of such a disambiguation in conceptualising not only inherent intrinsic-reality/ontological-veridicality but equally the human temporal-to-intemporal conditions/states of perception/relation with intrinsic-reality/ontological-veridicality. This is fundamentally so because ‘inherent existential-reality/intrinsic-reality/ontological-veridicality is already what it is as given whether humankind knows about it or not’ but rather the point of human knowledge is an emancipatory exercise involving the need to decenter/pivot and supersede our animate-existential-referencing/subjectification as of the <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag human condition to derive knowledge-

and-virtue, and so as human-subpotency/‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’).

Solipsism as such is truly the foundational notion of all phenomenological conceptualisations and derivation of value and meaningfulness as intersolipsistic teleological constructs from a transversal-and/or-common perceived existential-reference/existential-tautologisation and derived-representations of existential-reference/existential-tautologisation. It is what allows for the possibility of human construal of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating to supersede social-aggregation-enabling as a knowledge and virtue construct. The implication being that there is a contiguity in solipsistic insight as simplistically elucidative in the relatively more simpler experimental framework of natural phenomenon studied by the natural sciences (which practice is categorisation-driven, more like elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity but then with a high risk of inducing virtualities thus explaining the continually reshaping/re-categorisation/re-optimising of experimental content when the virtualities come to be seen as unreal or deficient or suboptimal, and so more critically with the practitioner’s experience tend to be driven heuristically actually as of presencing—absolutising-identitive-constitutedness or conflatedness) but such solipsistic insight extends to the more convoluted social phenomenon studied by the social sciences, as well as the phenomenal convoluted equally inherent in scientific domains like quantum-mechanics, as herein contemplated should ideally be understood as of referentialism implied ontological-normalcy/postconvergence epistemic-projection perspective, more like maximalising-recomposuring-for-relative-ontological-completeness from the most profound of conceptualisation which is intemporality/longness or

intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, as of inherent superseding—oneness-of-ontology, and so on the basis of the absolute a priori, ‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality, construed as of increasing human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ in the apriorising/axiomatising/referencing of meaningfulness-and-teleology construal’, in the staggered elucidation of less and less profound but critical conceptualisations as undertaken in this hermeneutic design. Furthermore, solipsism will equally explain why human meaningfulness-and-teleology is developed rather by maximalising-recomposuring-for-relative-ontological-completeness of the same superseding—oneness-of-ontology as of our deepening limited-mentation-capacity (whereby successive generations take a shot at superseding—oneness-of-ontology like Ancient Civilisations like Greece establishing that matter is made up of water, fire, air, earth and ether critically establishing the psyche of matter as composed of basic elements and successive recomposurings right up to our modern day quantum-mechanics recomposuring as of historicity/ontological-eventfulness/ontological-aesthetic-tracing), rather than it erroneously being construed as an incremental exercise; as it is only incremental in the literal sense but in the ‘operant sense’ it is an exercise of maximalising-recomposuring-for-relative-ontological-completeness as of transversality-of-disambiguated-apriorising/axiomatising/referencing overall reconstruing/reconceptualising rather than just incrementing. This insight is important for critical thought and analysis as oftentimes it is naively assumed that prospective knowledge is to be simply obtained by ‘adding’ or ‘cumulating’ to prior works rather than the more pertinent insight of <formative>epistemic-totalising—renewing-realisation/re-

perception/re-thought as of a same superseding–oneness-of-ontology that is existence. On the same token, this tautological insight about the precedingness of existence can be extended to the notion of nothingness with nothingness rather existing in existence as there is no nothingness or for that matter anything out of existence which is ‘conceptually’ emanation-as-to-the-all-defining-ontological-primemovers-totalitative-framework-intercession, with nothingness rather the ‘conceptual devising of the metaphysics-of-absence of existence’ with existence conceptually construed in metaphysics-of-presence; but then with existence being its very own metaphysics-of-presence, the mutual equivalence of both metaphysics-of-presence and metaphysics-of-absence implying that nothingness is likewise tautologically the emanation-as-to-the-all-defining-ontological-primemovers-totalitative-framework-intercession of existence. Basically a nothingness conceptualisation is necessarily and tautologically an existential conceptualisation as ‘existential-contextualising-contiguity’-s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ which is necessarily ‘the absolute a priori’ (as ‘existential-contextualising-contiguity’-s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality construed as of increasing human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) in the apriorising/axiomatising/referencing of meaningfulness-and-teleology construal’) of superseding–oneness-of-ontology/oneness-of-meaningfulness and just as well the notion of nothingness can’t ‘conceptually’ exist out of the notion of meaningfulness which references

existence and all that is in existence as ontological. Actually nothingness is rather a ‘constructive tautological device’ as is actually the case with all human knowledge (mental-devising-representation of teleological reorientation), as it doesn’t speak of any inherent change in intrinsic-reality but rather of change of human <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology), just as the many conceptualisation herein like the registry-worldviews/dimensions and ontological-contiguity—of-the-human-institutionalisation-process are actually speaking of human rescheduling of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology in grasping a superseding–oneness-of-ontology/intrinsic-reality that has been so all the time; and so critically talk of transcending from shallow to deeper superseding–oneness-of-ontology is no more than about human <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) as ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ already given as ontological-normalcy/postconvergence oneness) along the same lines with the notion of ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics’ in compensation of human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) as ‘shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) reconstrual/reconceptualisation’. That is, such

‘conceptual devices’ are reformulations arising from ‘grander/transcendental insights’ about the same question but implying a radical transformation of ontological/meaningful conceptualisation of the human mind and human teleology. The idea is that ‘intrinsic-reality/ontology is not changed’ but rather it is ‘human <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) that is changed’.

Technically, the implication is that existence/being cannot be thought outside of human thought/limited-mentation-capacity); as a conclusion driven by the insight that human thought/limited-mentation-capacity in construing existence/being implies human meaningfulness-and-teleology is necessarily of ontological-primemovers-totalitative-framework or contingent. However the disavowal rather than renewal/deconstruction/ontological-reconstituting–as-of-conflatedness of human thought/limited-mentation-capacity will imply its dissolving into a ‘nihilism of meaningfulness-and-teleology’ as the alternate logical outcome, but then with this latter construal/conceptualisation being rather ‘an unequal measure alternative’ since it has the drawback of ‘putting an end to contemplation itself’, of ‘misunderstanding that contemplation is a human growth activity and not an absolutely achieved activity’, besides abandoning the notion of human existentialism/throwness/facticity behind human strife itself thus contradictorily undermining again the assumption of such an alternate logical outcome as itself a ‘contemplated strife’ construed as arising only by the implication of such existentialism/throwness/facticity, and further failing to factor in that deepening human thought/limited-mentation-capacity increasingly narrows the framework of human existential contingency/ontological-primemovers-totalitative-framework ‘enabling human existential development as less and less a question of fate’ on the basis of ‘intemporal ontological-faith-

notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated
 ontological-contiguity—of-the-human-institutionalisation-process as of difference-
 conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism
 <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-
 ontological-contiguity’. Thus the bigger issue is not existence/being in itself as it is given,
 whatever it is that is given. Rather the bigger issue of concern is our human thought/limited-
 mentation-capacity in apprehending existence/being as of our ontological-primemovers-
 totalitative-framework/contingent reconstruals/reconceptualisations of existence/being as of
 human deepening thought/limited-mentation-capacity so enabled by our capacity for
 ontological-dementation/dialectical-dementation—stranding/attributive-dialectics behind the
 successive institutional-cumulations/institutional-recomposures narrowing the framework of
 human existential contingency, with the further possibility of prospective
 <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought as
 deprocrypticism as of ontological-normalcy/postconvergence. Such maximalist intemporal
 projection reasoning doesn’t entertain banal ordinary logic (that is all too readily incremental,
 ‘disjointedness-as-of-reference-of-thought’ and temporally-preservational-as-
 pseudointemporality-preservation) of the sort: she deserves to be raped because she was
 scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he
 didn’t look after them properly; those people/group/ethnicity deserved what happened to
 them because they are so and so; etc. The intemporal reasoning maximalist approach (non-
 incremental, non-‘disjointedness-as-of-reference-of-thought’ and striving for the
 ontologically-abject) that permeates many a formalised construct does not entertain
 meaningfulness within the sphere of temporal-and-social-trading and is rather transcendental
 inherently, as it simply supersedes and skews (‘intemporality-asymmetric-subsumption-of-

temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) meaningfulness-and-teleology towards the universal/intemporal as of implication. In other words, maximalising-recomposuring-for-relative-ontological-completeness is construed as of the apparently least possibly perceived constraining context in order to truly affirm the universalism of rules or any ontological-constructs; as the test of incrimination with respect to the above apparently least possibly perceived constraining specific crimes contexts is effectively what validates the universalism for all other contexts of such specific crimes. Maximalising-recomposuring-for-relative-ontological-completeness, across all institutional-cumulations/institutional-recomposures, is effectively the projective mechanism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that reinvents new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as a metaphysics-of-absence conceptualisation in further human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) and opening up new institutionalisation possibilities behind the successive transcendences of an animal of temporal-to-intemporal-dispositions in need for skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/differential-formalisation-transference towards the intemporal to induce a registry-worldview’s/dimension’s institutionalisation-as-virtue that very much elevate it beyond its temporality/shortness which left to its own device will strive for incrementalism-in-relative-ontological-incompleteness temporal-accommodation/extrication. Maximalising-recomposuring-for-relative-ontological-completeness is an intemporal framework of <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness organic-knowledge

‘inventing’ of prospective huma registry-worldview’s/dimension’s institutionalisation possibilities allowing for their percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> as of secondnatured institutionalisation. It is behind ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity’ whether in early times as of non-universal and universal metaphysico-theological creeds or as of metaphysico-worldviews nature and practices in later human history marked by the structural/paradigmatic emphasis of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm over ordinariness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-disposition within the secondnatured institutionalisation of such percolation-channelled meaningfulness-and-teleology marked by temporal extricatory paradigm. This latter point is pertinent as invalidating any implied equivalence of reference-of-thought of meaningfulness-and-teleology between a maximalising-recomposuring-for-relative-ontological-completeness mental-disposition and an ordinariness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-disposition going by their different existential paradigms; as the ordinariness <formative>wooden-language—imbued-averaging-of-thought-<as-to-

all by itself whereas a maximalising-recomposuring-for-relative-ontological-completeness
mental-disposition emphasises the human existential tale as of the succession of opened-
structures of meaningfulness-and-teleology that account for the possibility of our present and
prospectively opened-construct-of-meaningfulness-and-teleology for enabling future
possibilities. Even when it comes to the social integration of maximalising-recomposuring-
for-relative-ontological-completeness paradigms, it is often the case that such
meaningfulness-and-teleology is bound to the denaturing in many ways as of human
ordinariness <formative>wooden-language—imbued-averaging-of-thought-<as-to-
leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> temporal
extricatory paradigm concatenation to it, if the requisite percolation-channelling-<epistemic-
totalising-reoriginariness/reorigination-in-conflation> institutionalisation and formalisation
constructs are not priorly attended to. Even such that notions like exceptional, genius,
propheying, etc. associated with maximalising-recomposuring-for-relative-ontological-
completeness mental-dispositions, as recognised by the Nietzschean imagination are more
often than not construed beyond-the-consciousness-awareness-teleology-in-existential-

extrication-as-of-existential-unthought as ‘derogation to the fact that such maximalising-recomposuring-for-relative-ontological-completeness paradigms can hypothetically be incumbent of all humans as to their choice of intellectual-and-moral orientation and their specific focus’, and thus paradoxically implying as of the blurriness of the social domain that such so-called exceptional, genius, prophesying, etc. are ‘abnormal’ with the paradox that their implied ontological-veridicality is ‘abnormal’, thus by that same token falsely upholding the ontological-pertinence of ordinariness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as a non-decenterable <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>!

Actually the paradox is that, no transcendently implied construct is effectively a ‘grounded knowledge-construct commitment’ inherently as it inevitably and fundamentally puts into question the underlying intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework notion, which is the prior <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology as of its {given consciousness’s neuterising-induced}-reference-of-thought—devolving-teleological-structure-of-meaningfulness. Such transcendental implications arise as a transitional construct that is in effect as of a psychoanalytic-unshackling/memetic-reordering/institutional-recomposure articulation by its cross-generational transcendental implications. By the mere fact of implied prospective relative-ontological-completeness-of-reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought a prospective transcendence involves the prospective reference-of-thought rather ‘registering-and-reflecting

a beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought meaningfulness-and-teleology as of organic-knowledge Being correction' of the prior reference-of-thought, such that the prior reference-of-thought logical-dueness doesn't even arise as the prospective reference-of-thought is the relatively complete 'ontological-resetting' in an 'organic effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology' over the prior reference-of-thought 'effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology'; just as the introduction of chemistry science carries an organic effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology over a non-positivism/medievalism alchemic material construal. Basically, maximalising-recomposuring-for-relative-ontological-completeness summoning a depth of 'ontological-reconstituting-as-of-conflatedness'/deconstruction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality enables humankind to supersede the circularity of intradimensional hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (which temporal-preservation-as-pseudointemporality-preservation actually speaks of relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, thus-'in-wait'-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, and defines successive institutional-cumulations/institutional-recomposures uninstitutionalised-threshold explaining why institutionalisation becomes stuck at that level until the corresponding threshold is superseded for a prospective/transcending/superseding institutionalisation) for prospective transcendental possibilities. On the basis of such hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-

preservation circularity, one may perfectly argue that any of the institutionalisations are just as good so long as people are relatively satisfied but such an argument is never made of lower/prior institutionalisations with the implications that its elicitation within a registry-worldview as present is nothing more but an act of ‘ontological-bad-faith’, but then a maximalising-recomposuring-for-relative-ontological-completeness approach is one that doesn’t reason in temporal-accommodation but provides the opportunity for prospective institutional possibilities. Maximalising-recomposuring-for-relative-ontological-completeness was what was in the minds of the Copernicuses, Galileos, Rousseaux, Darwins and the enlightenment Encyclopédistes led by Denis Diderot in cynically vouching for the possibilities of the future of positivism over a non-positivism/medievalism worldview. Such that vague arguments of the type we’ve been living well without such ideas are nothing but avowals of temporal-dispositions poor grasp of how their present institutionalisation came about and future institutionalisation possibilities; since we can project that all humans in recurrent-utter-uninstitutionalisation were recurrent-utter-institutionalised, all humans in ununiversalisation were ununiversalised, all humans in medieval non-positivism were non-positivistic, and by extention (but for the complexes arising from our metaphysics-of-presence) all humans in our procrypticism are procryptic and it is no use turning around to our fellow mortals to do social-aggregation-enabling; with the more critical issue being how is the ontological-contiguity—of-the-human-institutionalisation-process as from the prospective epistemic perspective! Such temporal-dispositions are characteristically draggy across all registry-worldviews/dimensions explaining why all transcendences meet with temporal resistance going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor which take the form of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality (slantedness/postlogic-effect,

miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect).

- As the ‘non-maximalising-recomposuring-for-relative-ontological-completeness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’ disposition tends to wrongly define the reference-of-thought of a given prior/transcended/superseded registry-worldview as the absolute framework of ‘dialectical-thinking’, and so by reflex, as if the successive prior institutional-cumulations/institutional-recomposures were geared to end at its own registry-worldview as the absolute registry-worldview that doesn’t incur perversion-of-reference-of-thought (in our case, the positivistic registry-worldview) without any notion of a prospective registry-worldview by which, where our own perversion-of-reference-of-thought arises, we will be ‘dialectically-dementing’ as dialectically-out-of-phase/dialectically-primitive, at our dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness (or uninstitutionalised-threshold or socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation); as our relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought endemises/enculturates the denaturing and generally explains the vices-and-impediments of any registry-worldview/dimension as of its given limited-mentation-capacity-(as of relative constitutedness towards relative conflation). As by reflex ‘the-<formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’ wrongly ignores the ontological-normalcy/postconvergence (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) nature of intrinsic-reality/ontological-veridicality, such that when there is a need to achieve ontologically-veridical meaningfulness by prospective reference-of-thought with new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation, the ‘non-maximalising-recomposuring-for-relative-ontological-completeness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’ simply engages in ‘-<formative>epistemic-totalising–self-referencing-syncretising’ to its prior/transcended/superseded reference-of-thought with its prior/old reference-of-thought–categorical-imperatives/axioms/registry-teleology that are failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or-ontological-preservation due to their temporal-preservational nature with respect to their own perversion-of-reference-of-thought threshold. It is only the ontological-primemovers-totalitative-framework and positive-opportunism of the prospective/transcending/superseding reference-of-thought in the middle to long run construed as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics that will induce its untenability/internal-contradiction/internal-incoherence/institutional-constraining and the collapsing/overriding of the prior/transcended/superseded (as ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure), and so going by their ‘relative ontological-effectivity’. This explains why a recurrent-utter-uninstitutionalised, an

ununiversalised, a non-positivism/medievalism, or prospectively a procrypticism mindset, by
 <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag, cannot correspondingly ‘dialectically-
 think’ in terms-as-of-axiomatic-construct of the reference-of-thought mindset/reference-of-
 thought of base-institutionalisation, universalisation, positivism and prospectively
 deprocrypticism, going by human limited-mentation-capacity-(as of relative constitutedness
 towards relative conflation) as of human-subpotency–aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions–existentialism-form-factor with respect to social-stake-contention-or-confliction
 in all registry-worldviews, thus rather requiring the corresponding institutionalisation at the
 corresponding dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness
 (or uninstitutionalised-threshold or socially-betraying-threshold-of-ontologising-depth-of-
 analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation). However, contrary to the ‘non-maximalising-recomposuring-
 for-relative-ontological-completeness <formative>wooden-language—imbued-averaging-of-
 thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-
 of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’
 disposition, it is only solipsism-of-thought by its emphasis on intrinsicness (I come to reality
 alone solipsism) that has the requisite and socially-uncompromised backdrop for construing
 ontologically-veridical-meaningfulness, that is, ‘at such uninstitutionalised-threshold
 requiring prospective transcendence’, by the possibility for its adherence to ontological-
 normalcy/postconvergence, and hence the requisite transcendental limited-mentation-
 capacity-(as of relative constitutedness towards relative conflation) to put the
 prior/transcended/superseded into question (including and priorly, the transcendental
 emancipator own’s mentation) for the prospective/transcending/superseding reference-of-

thought; and so, with the notion that the prior/transcended/superseded is dialectically-dementing as dialectically-out-of-phase/dialectically-primitive, with no place for its ‘-<formative>epistemic-totalising–self-referencing-syncretising’ which is no more than its ‘internal myth/metaphysics’ that has nothing to do with ontological-veridicality/ontological-contiguity. As such, solipsism enables the requisite ‘moulting’ of human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) of temporal-to-intemporal-dispositions to allow for successive transcendences; and as a social conceptualisation operates as ‘a relation of intersolipsistic mindsets in transversality-of-disambiguated-apriorising/axiomatising/referencing led by the preceding/superseding intercession of intrinsic-reality/ontological-veridicality as validated by ontological-primemovers-totalitative-framework’. (Noting that beyond this point of solipsistic contemplation is the end of ontology, as of ontological-primemovers-totalitative-framework/contingent-projective-and-predicative-validation, and metaphysics arises though metaphysical constructs tend to harken back towards ontology in trying to explain the metaphysical-as-of-existential thus explaining the blurring that often arises between metaphysics and ontology as there is hardly any metaphysical construct that doesn’t strive to be existentially relevant as of the present, thus carrying ontological implications of conceptualisation whether it is demonstrably ontologically-veridical or not; and this latter point answers the fundamental philosophical quest to escape metaphysics for ontology as of the very ontological-contiguity—of-the-human-institutionalisation-process which is rather about ‘successions of metaphysics-of-absence insights as the successive transcendental-enabling/sublimating rules in reflecting the ontological-contiguity—of-the-human-institutionalisation-process yielding in-lockstep the successively more ontologically profound metaphysics-of-presence construed as the successive institutionalisations as implied by ontological-normalcy/postconvergence’ towards the depcrypticism registry-

worldview/dimension which is what then achieves ontology as ‘attained ontological-normalcy/postconvergence’. Likewise, since in effect there is hardly any ‘present pure ontology’ as one that is beyond existential implications contentions about the purity/absoluteness/unassailability of its veracity, this rather validates a novel and positive construal of metaphysics as that which is subject to present existential implications contentions such that all supposed present ontologies are metaphysical constructs as of their non-elucidations. Hence even science itself despite its positive perspective is a metaphysical construct.) Hence, from a maximalising-recomposuring-for-relative-ontological-completeness insight, the <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of ‘non-maximalising-recomposuring-for-relative-ontological-completeness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>’ disposition is rather the prior/transcended/superseded reference-of-thought to be construed as dialectically-dementing and dialectically-out-of-phase/dialectically-primitive with respect to a prospective/transcending/superseding reference-of-thought that is ‘dialectical-thinking’ as dialectically-in-phase.

- As informing human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor is the idea that the notion in reflecting the ontological-contiguity—of-the-human-institutionalisation-process (accounting for the institutional-cumulations/institutional-recomposures) as ‘the-transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness’, the notion of ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ by human-

can be elucidated going by the ‘ontological implications’ of the Derridean conceptualisations
of Différance, Répétition, Altérité and Iterabilité (in a further elaboration of the notion of
‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ based
on the technique of ‘Différance-existential-transitory-articulation-of-the-derivation-of-

and analysing the <formative>epistemic-causality-as-to-projective-totalitative–implications,-
for-explicating-ontological-contiguity with regards to the ‘Différance-disambiguation-of-
ontologically-veridical-meaningfulness-and-teleology’ of same-terms-of-expressions
(seemingly-same-implied-meaningfulness)’ wherein there is ‘induced alterity/alteration’ of
‘same-terms-of-expressions (seemingly-same-implied-meaningfulness)’ of the
répétition/repeatability/recurrence, as ‘same-terms-of-expressions (seemingly-same-implied-
meaningfulness) by temporal-dispositions is rather ‘hollow-constituted’ which is then
‘ontologically-reconstituted’/deconstructed by the intemporal-disposition, and thus the ‘same-
terms-of-expressions (seemingly-same-implied-meaningfulness) revealing, in the bigger
picture, the alterities/alterations of the the-individuations, the registry-worldview/dimension
or intradimensional level and the-interdimension/transcendental’. The insight here is that the
spontaneous and generalised human prelogism-reflex-as-existentially-veridical-logical-

dueness-precedes-logical-outcome-arrived-at/‘conviction-reflex’/intemporal-disposition-
 reflex-admittance-reflex/in-phase-reflex is wrong when dealing with perversion-of-reference-
 of-thought-(reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought)-(registry-
 worldview/contending-reference/ontological-reference/meaningful-reference/anchoring-of-

 incrementalism-in-relative-ontological-incompleteness disjointedness-as-of-reference-of-
 thought to ‘socially-perceived-value as of social-stake-contention-or-confliction’ (whether
 consciously, expediently or unconsciously) and particularly so at thresholds where there is no
 deferential-formalisation-transference as institutionalisation (uninstitutionalised-threshold),
 and this fundamentally undermines the ‘ontological validity and veracity’ of such a
 placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-
 teleology as supposedly of prelogism-reflex-as-existentially-veridical-logical-dueness-
 precedes-logical-outcome-arrived-at/‘conviction-reflex’/intemporal-disposition-reflex-
 admittance-reflex/in-phase-reflex. Beyond our illusion-of-the-present/present-
 consciousness/mirage/-<formative>epistemic-totalising-self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag positivistic registry-worldview
 perspective, we can grasp that the lower registry-worldviews ‘mentally projected prelogism-
 reflex-as-existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-
 at/‘conviction-reflex’/intemporal-disposition-reflex-admittance-reflex/in-phase-reflex’ are
 flawed at their uninstitutionalised-threshold, and the same applies to us in ontological-
 normalcy/postconvergence. The nature of this ‘conviction-reflex flaw’ is that it actually
 defines ‘a threshold of circularity/recurrence/repetition/repeatability of the failing/not-
 upholding-as-of-apriorising/axiomatising/referencing conviction-reflex’ in
 circularity/recurrence/repetition/repeatability, effectively as its uninstitutionalised-threshold.
 For instance, where a non-positivism/medievalism mindset/reference-of-thought keeps on

arguing a case of sorcery recurrently in non-positivism/medievalism terms which inherently defines its placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as non-positivism/medievalism, and the same insight does apply from a prospective ontological-normalcy/postconvergence reference (as deprocrypticism) wherein we'll need to psychoanalytically-unshackle/mimetically-reorder/institutionally-recompose from a positivism-procrypticism mindset/mental-devising-representation/mentation. Further, the temporal-to-intemporal-dispositions implies that where there is postlogism-and-conjugated-postlogism as uninstitutionalised-threshold, the more ontologically-veridical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology reflex is actually a non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing reflex (and not new logical-processing-or-logical-implication as 'conviction/prelogical re-engaging reflex')/temporal-disposition-reflex-reflex/out-of-phase-reflex). Both postlogism and conjugated-postlogism instances of the failing/not-upholding-as-of-apriorising/axiomatising/referencing circularity/recurrence/repetition/repeatability at uninstitutionalised-threshold (including associated postlogism-and-conjugated-postlogism) reveal the 'alteration of the same-terms-of-expressions (seemingly-same-implied-meaningfulness)' as temporal-dispositions alterity/alteration. Insightfully, it is this grasp of the uninstitutionalised-threshold (including associated postlogism-and-conjugated-postlogism-of-temporal-dispositions) in the existential-flux of ontologically-veridical in circularity/recurrence/repetition/repeatability of same-terms-of-expressions (seemingly-same-implied-meaningfulness) alternating with ontologically-non-veridical alterity/alterations of same-terms-of-expressions (seemingly-same-implied-meaningfulness)', as Différance, that is critical in defining temporal-to-intemporal-dispositions disambiguated teleological-differentiations. It is the dynamic-extension of this Différance-suprastructurally-

disambiguated-mental-dispositions-meaningfulness-as-the-various-temporal-to-intemporal-dispositions in ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ (as slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect) at the-individuations level to registry-worldview level and the-transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness level that explains the ‘alterating iterability dynamism’ at these three levels; whether at the-individuations level involving the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation alteration’ by temporal-dispositions as slanted-and-formulaic postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ of meaningfulness of the postlogical disposition or ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ of the slanted-and-formulaic perverted meaningfulness as the conjugated-postlogical disposition, meted with the ‘ontological-reconstituting—as-of-conflatedness/deconstruction compensating-alteration or realteration of meaningfulness’ of the intemporal-disposition), as the basis of the institutionalisation/intemporalisation process at registry-worldview/dimension or intradimensional level, and ultimately explaining the-transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness level successiveness of institutionalisations (as recurrence-of-utter-uninstitutionalisation, base-institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism, positivism/procrypticism, and perpetuation-of-deprocrypticism); and so, by ‘a human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) recurrence of intemporal projection over the alterity/alteration, in circularity/recurrence/repetition/repeatability by temporality’, and such iterability/iteration

(of ontologically-veridical-meaningfulness-and-ontological-reference) being driven by intemporal-preservation-in circularity/recurrence/repetition/repeatability (as longness-of-register-of-meaningfulness-and-teleology) with the latter ‘distracted/circumvented’ by temporal-preservation-as-pseudointemporality-preservation alterity/alteration-in circularity/recurrence/repetition/repeatability as shortness-of-register-of-meaningfulness-and-teleology, requiring the further realterity/realteration-of-such temporal-preservation-alterity/alteration-in circularity/recurrence/repetition/repeatability as ‘ontological-reconstituting—as-of-conflatedness/deconstruction’ by intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in iterability/iteration (for the preservation of ontologically-veridical-meaningfulness-and-appropriateness-of-reference-of-thought-as-of-conflatedness). In the bigger picture and as with all natural iterations, this ‘alterations-iterability dynamism’ at the-individuation-level takes the form of an existential-flux (‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’) of recursive/recurrent alterity/alterations which tend to be perpetuating (like the pathological psychopath’s disposition out of a faulty-mentation-procedure-deception/‘urge’/entitlement-folie of postlogism-slantedness effect) or progressive alterity/alterations which could be regular (like an exacerbation or opportunism interlocutors in conjugated-postlogism) or regressive alterity/alterations which could be momentary (like an ignorance or affordability interlocutors in conjugated-postlogism). The notion of iterability as ‘the induced effect of alterity/alterations (by the temporal-dispositions hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and the intemporal-disposition compensation-alterity/alteration by ‘ontological-reconstituting—as-of-conflatedness’/deconstruction) in the repeatability/recurrence of same-terms-of-expressions or same-implied-meaningfulness’, implies that temporal-dispositions being just as preservational as the intemporal-disposition thus inducing the circular

recurrence of iterability (as prospective successive institutionalisations and uninstitutionalised-thresholds), the exercise of institutionalisation/intemporalisation is not about transforming temporal-dispositions as of an <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness exercise but rather institutionalisation/intemporalisation or secondnaturing, which is about ‘skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/constraining towards’ the intemporal-disposition for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation to enable the given prospective institutionalisation. Thus the fact is that this iterability (of meaningfulness and ontological-reference) is not a property of ‘intrinsic-reality as existence-emanance’ but actually the result/effect of human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) coming-into-grips with intrinsic-reality as existence-emanance, and so in the succession of institutionalisations. The implication of this iterability (due to temporality-preservational-alterity/alterations in distraction/circumvention of intemporality-preservation-iteration for construct of intemporal/ontologically-veridical meaningfulness) is that all issues of perversion-of-reference-of-thought (as opposed to issues of logical-processing-or-logical-implication), can only be construed as implying ‘a perpetual construct for upholding intemporality-in-preservational-compensation-alterity/alteration over temporality-in-preservational-distorting-alterity/alterations’ hence validating the notion of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ontological-normalcy/postconvergence; and that the ‘illusion-of-definitiveness-of-ontological-construal-on-the-basis-of-an-intemporal/ontological-definitive-construct-as-a-common-ontological-reference-of-the-meaningfulness-of-the-various-temporal-to-intemporal-dispositions’ is wrong, as this simply allows for temporality-in-preservational-alterity/alterations to ‘hollow-constitute’ at that

supposed ‘intemporal/ontological-definitive-construct-as-a-common-ontological-reference-of-the-meaningfulness-of-the-various-temporal-to-intemporal-dispositions’. And just as we grasp this notion of ‘the-upholding-of-intemporal/ontologically-veridical-meaningfulness’ at the-interdimension level where the registry-worldviews/dimensions are intemporally ‘ontologically-reconstituted’/deconstructed, only to be temporally ‘hollow-constituted’ requiring prospective intemporal ‘ontological-reconstituting-as-of-conflatedness’/deconstruction explaining the successive institutional-cumulations/institutional-recomposures, rather than going by the wrong idea of an ‘illusion-of-definitiveness-of-ontological-construal-on-the-basis-of-an-intemporal/ontological-definitive-construct-as-a-common-ontological-reference-of-the-meaningfulness-of-the-various-temporal-to-intemporal-dispositions’, likewise at registry-worldview level, ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ ensures that (by factoring in the distraction/circumvention of intemporally/ontologically-veridical-meaningfulness in circularity/recurrence/repetition/repeatability, by temporal-preservation-alterity/alteration in circularity/recurrence/repetition/repeatability, requiring the further intemporal-preservation compensation-alterity/alteration of such temporal-preservation-alterity/alteration in circularity/recurrence/repetition/repeatability to uphold intemporally/ontologically-veridical-meaningfulness) the intemporal-disposition doesn’t imply a same/common reference-of-thought with temporal-dispositions, and in so doing avoid to wrongfully elevate postlogism-and-conjugated-postlogism/dementing-integration-of-temporal-dispositions to a ‘conviction-reflex’ rather than to a non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing reflex/temporal-disposition-reflex-reflex/out-of-phase-reflex when dealing with their meaningful-reference-defect/registry-defect/perversion-of-reference-of-thought defect. The implication being that the intemporal-disposition ontological-reference

of meaningfulness is suprastructural (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) of the postlogism-and-conjugated-postlogism/dementing-integration-of-temporal-dispositions (which explains the latter ‘temporal-dragging-of-ontology/ontological-veridicality’ (in-a-social-dynamism-of-meaningfulness-misappropriation) by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect). Ultimately the philosophical pessimism of many a philosopher stems from this confusion about the achievement of human emancipation and virtue, in naively construing that such an achievement is a definitiveness-construct-of-meaningfulness rather than an ‘iterability-construct-of-meaningfulness for the upholding of the intemporal construct of ontologically-veridical-meaningfulness’ as implied by the intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy or ontological-normalcy/postconvergence. Strangely enough, this idea can be derived from the contrastive implications of metaphysics-of-presence (with its illusion-of-the-present/present-consciousness/mirage/epistemic-totalising–self-referencing-syncretising) and metaphysics-of-absence as postdication (suprastructuring transcendental-insight-projection-capacities). Ontologically speaking, the institutional-cumulations/institutional-recomposures in their evolving ontological-dementation/dialectical-dementation–stranding/attributive-dialectics registry/registry-worldview/ontological-reference dialecticisms as at one moment ‘dialectical-thinking’ and at another ‘dialectically-dementing’ are effectively a reflection of the reality of a dynamic dialectics of ‘metaphysics-of-presence’ and ‘metaphysics-of-absence’ retracing of ontologically-veridical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology retrospectively, presently and prospectively, going by a human shallow limited-mentation-capacity-(as of relative

constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) institutionalisation/intemporalisation process. Such an insight points out that a non-positivism/medievalism ‘metaphysics-of-presence’ will ‘wrongly be contending’ on the basis of a non-positivism/medievalism reference-of-thought with regards to issues of sorcery and so and so, instead of the requisite ‘metaphysics-of-absence’ as a suprastructuring transcendental-insight-projection into positivistic (rational-empiricism) mindset/reference-of-thought that supersedes the ‘flaws-and-manipulations’ or vices-and-impediments involved in such a non-positivism/medievalism setting reference-of-thought; in need of deconstruction/(engaged)-destruktion/‘ontological-reconstituting-as-of-conflatedness’ into prospective suprastructuring positivism reference-of-thought of ontologically-veridical meaningfulness, and so, ‘as the suprastructuring construal-(as-of-‘perversion-and-derived-perversion-of-reference-of-thought-as-to-uninstitutionalised-threshold-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing’-and-‘corresponding-ontological-reconstituting-as-of-conflatedness-of-veridical-reference-of-thought-as-prospective-institutionalisation/supratransversality—apriorising/axiomatising/referencing’) delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding-oneness-of-ontology of ontologically-veridical meaningfulness that is not actually spoken-of by non-positivism/medievalism mindset/reference-of-thought wrongly contending’; with the Derridean (existential)-trace being the suprastructuring positivistic reference-of-thought of ontologically-veridical meaningfulness with respect to intrinsic-reality. Such an insight can certainly be grasped with respect to procrypticism and deprocrypticism as well, with the associated postlogical perversion-of-reference-of-thought phenomena. The ontological-normalcy/postconvergence referentialism perspective inherently carries the requisite suprastructuring transcendental-insight-projection for fulfilling the promise of ‘metaphysics-of-absence’ as postdication.

Paradoxically, postdication (as metaphysics-of-absence) highlights that ontological-normalcy/postconvergence is rather conceptualised more effectively with the present-considered-as-being-in-epistemic-abnormalcy-perspective-(‘dialectically-dementing’-reference-of-thought)-and-hence-suprastructurable by ‘metaphysics-of-absence’-perspective-(‘dialectical-thinking’-reference-of-thought) which is then actually prospective (to-resolve-the epistemic-abnormalcy); and not ‘metaphysics-of-presence’ conceptualisation which ‘wrong pretence of being in ontological-normalcy’ is actually stifling the prospective orientation by its illusion-of-the-present/present-consciousness/mirage/-<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This posture is validated by the decreasing epistemic-abnormalcy nature of the successive institutional-cumulations/institutional-recomposures from retrospective to present to prospective, whereby there is decreasing epistemic-abnormalcy as the institutionalisation/intemporalisation process veers towards ontological-normalcy (from recurrent-utter-uninstitutionalisation to base-institutionalisation to universalisation to positivism and prospectively to deprocrypticism). With respect to the postlogism-as-of-non-conviction perversion-of-reference-of-thought (reflected as mental-perversion/unsoundness-or-inauthenticity-of-reference-of-thought) phenomenon of psychopathy and social psychopathy, the Derridean (existential)-trace as the suprastructuring transcendental-insight-projection (metaphysics-of-absence) reference-of-thought, wherein there is perversion-of-reference-of-thought of positivistic reference-of-thought of ontologically-veridical meaningfulness as procrypticism/emanant-wrong-or-dementing-shades-of-the-real, in need of deconstruction/(engaged)-destruktion/ontological-reconstituting-as-of-conflatedness into prospective suprastructuring deprocrypticism reference-of-thought of ontologically-veridical meaningfulness, and so, ‘as the suprastructuring as of the circularity/recurrence/repetition/repeatability delineating

deprocrypticism registry-worldview will be suprastructural to it (or beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of the procrypticism perversion-of-reference-of-thought as reflected/perspectivated as ‘dialectically-dementing’). The idea equally is that as a perversion-of-reference-of-thought, there isn’t any ‘definitiveness-intemporal/ontological-construal-of-meaningfulness-as-there-is-no-common-reference-of-thought-relative-to-the-temporal-to-intemporal-dispositions’ but rather ‘iterability-(of-ontological-veridicality)-by-(ontologically-reconstituting/deconstructing)-alteration/alterity-for-intemporal/ontological-construal-as-the-basis-for-suprastructurally-disambiguating-reference-of-thought-of-the-various-temporal-to-intemporal-dispositions’ in grasping and preempting postlogism and temporal-dispositions-conjugated-postlogism in temporal-preservation-as-pseudointemporal-preservation. As by implying rather a ‘definitiveness-of-intemporal/ontological-construal-of-meaningfulness-on-the-basis-of-a-common-reference-of-thought-relative-to-the-temporal-to-intemporal-dispositions’ will just be a basis for the further iterability-(of-ontological-veridicality)-by-(hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation)-alteration/alterity of ontologically-veridical meaningfulness by the postlogism-and-temporal-dispositions-conjugated-postlogism as the fundamental ontological-primemovers-totalitative-framework agency hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in alterity/alteration’ by ‘perverting the reference-of-thought of ontologically-veridical meaningfulness’ in iteration/succession; as a ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect) as shortness-of-register-of-meaningfulness-and-

teleology. Thus avoiding wrongly implying their <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness transformation as instigative intemporal-disposition (longness-of-register-of-meaningfulness-and-teleology), but rather ‘institutionalisation-skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)’ in the social-construct for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-⟨as of relative constitutedness towards relative conflation⟩ by a re-equilibrating metaphysics-of-absence/postdication, as secondnaturing. It is this understanding of postlogism-and-conjugated-postlogism/dementing-integration-of-temporal-dispositions as a ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ as ‘perverting, by alterity/alteration, the reference-of-thought of ontologically-veridical meaningfulness’ in iteration/succession’, wherein new sets of denaturing slanted-and-formulaic-postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ (absolving/fleeting/escaping-reflex-logic) involving their conjoining as ‘conjoining-looping-set-of-narratives of flawed-existential-elevation-of-reference-of-thought’ by temporal-dispositions-conjugated-postlogism, as well as extrinsic-attribution with different sets of interlocutors in succession underlies the psychopathic and social psychopathy phenomenon, ‘with emphasis being rather on examining this alterity/alteration as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology as ‘successive slanted-and-formulaic-postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ with their corresponding conjoining-looping-set-of-narratives’ perverted-meaningfulness and

extrinsic-attribution with successive sets of interlocutors and as conjugated-postlogism mental-dispositions equally assume a purposefulness of their own (that must be factored-in when analysing psychopathic/postlogical and social-psychopathic situations), in grasping the true nature of the fundamental psychopathic-postlogism-and-other-temporal-conjugated-postlogism mental-dispositions in ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect)’, and so, as of aetiologisation/ontological-escalation in grasping the importance of social and formal institutionalisation percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> in the construing of institutionalised deconstruction/(engaged)-destruktion as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure in the medium to long-run as with other perversion-of-reference-of-thoughts in prior institutionalisations (for instance a scientific worldview over notions-and-accusations-of-sorcery in medieval times). The insight from an ontological-normalcy/postconvergence epistemic/notional_projective-perspective with regards to perversion-of-reference-of-thought arises by the mere fact that the registry-worldview’s/dimension’s prior relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, upon instigation of postlogism-as-of-non-conviction by conjugating to temporal-dispositions inducing ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> or intradimensional’ as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-

iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-
 reification/superseding—oneness-of-ontology. This is the abstract foundation that defines
 registry-worldviews/dimensions uninstitutionalised-thresholds, and so, as fundamentally
 imbued in human-subpotency—aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor which is structurally/paradigmatically susceptible to
 relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-
 virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-
 construed-as-from-prospective-reference-of-thought, up to deprocrypticism which when
 effectively achieves escapes uninstitutionalised-threshold by the mere fact that
 deprocrypticism psychologism is one that factors in in its (recomposured)-consciousness-
 awareness-teleology the reality of human-subpotency—aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor. Thus issues of perversion-of-reference-of-thought
 including postlogisms are more-than-just-and-beyond an issue of a temporal frame of
 contemplation as this requires an overall registry-worldview/dimension transcendental
 structural/paradigmatic resolution, as abjectly-ontologising deprocrypticism with respect to
 procrypticism, notwithstanding the further conceptualisation of the necessity of the resolution
 at temporal frames of issues of psychopathy in the present positivistic registry-worldview.
 Thus psychopathy and social psychopathy should rather be related to suprastructurally (as
 dementing consciousness-awareness-teleology which reference-of-thought is invalid in the
 very first instance, going by ontological-normalcy/postconvergence
 epistemic/notional_projective-perspective for intemporal-preservation-entropy-or-contiguity—
 or—ontological-preservation). The nature of perversion-of-reference-of-thought structural-
 resolution is very much in line with human-subpotency—

aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor which represents that
 any transcendence is a secondnatured institutionalisation/intemporalisation exercise of

 subpotency—aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

 the positive-opportunism thereof’, and thus undermining human temporal-preservation-as-
 pseudointemporal-preservation behind the uninstitutionalised-threshold and
 institutionalisation/intemporalisation secondnaturing; and not as may wrongly be construed
 as an emanance transformation exercise from temporal-dispositions as shortness-of-register-
 of-meaningfulness-and-teleology to intemporal-disposition as longness-of-register-of-
 meaningfulness. This latter point is to highlight that ontological focus should rather be placed
 on the ‘abstract conceptualisation that enables institutionalisation-as-virtue and not any naïve
 purported <formative>epistemic-growth/transvaluative-
 rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection
 transformation-as-virtue arguments, as in the bigger scheme of things the latter is delusional
 (for an animal whose potency under social-stake-contention-or-confliction is rather as of
 human-subpotency—aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor thus needing its secondnatured skewing
 (‘intemporal-asymmetric-subsumption-of-temporality’, for relative intrinsic-
 reality/ontological-veridicality transcendental-enabling/sublimating as deferential-

formalisation-transference to the intemporal for its transcendence) and that's why society and more specifically formal organisations 'operate on the clairvoyance of institutionalising principles and rules', and 'not the purported impression-driven/good-naturedness dispositions of the one or the other', as this is an unsustainable construct and is simply a call for institutional failure in the middle to long run. A human secondnaturating institutionalising construct is a requisite because, at best even the intemporal-disposition individuation in individuals purporting prospective emancipation comes from and are from the stock of the prior reference-of-thought uninstitutionalised-threshold registry-worldview/dimension, and such prospective emancipation involves such individuals own 'moulting', as actually intemporality/longness is a 'potential construct of orientation' as implied by ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) and it is only a devised institutionalisation construct as secondnaturating that achieves that potential-construct-of-orientation and not any naïve inherently intemporal-disposition in individuals. By that token there is no base-institutionalised individual in recurrent-utter-uninstitutionalisation, no universalised individual in ununiversalisation, no positivistic individual in non-positivism/medievalism, and prospectively no deprocrypticism individual in procrypticism, as at best such emancipating intemporal individuals are 'moulting' their intemporal individuations and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained.

- As the notion of 'dynamic-cumulative-aftereffect of ontology and temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-

endemisation-effect),’ is rather an operant conceptualisation that highlights the need for an operant conceptualisation of psychology in grasping human dynamics. But then psychological science as we know today in many ways mainly takes the form of an adjunct construct in grasping the social as is equally the case with social psychology; as the focus of can mostly be resumed to ‘identity’ of individual dispositions such that psychology tends more to have a subjective intercessory practice nature involving intersubjective valuation). Thus, as with all such approaches it is hardly surprising that we haven’t got an academic ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ (as an ontology-driven <formative>epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context conceptualisation); but rather a ‘psychology of qualifications’ as is equally the case with social psychology. The author as previously implied with the notion of a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ perceives the need for defining human psychology from a transcendentally-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism and thus operant perspective of ontologically-dynamic-and-coherent construal/conceptualisation, as a profound superseding-oneness-of-ontology. This is implied in ontological-normalcy/postconvergence, and should be more precisely invigorated in the construal/conceptualisation of the ‘reference-of-thought as futural Being-

development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension as metaphysics-of-absence of the positivism/procrypticism reference-of-thought metaphysics-of-presence'; implying an ontologically-driven conceptualisation of 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' as the prospective psychoanalysis, implying the epistemic-abnormalcy perspective ('dialectically-dementing' reference-of-thought) of the prior positivism/procrypticism with respect to ontological-normalcy perspective of futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism ('dialectical-thinking' reference-of-thought). With ontology-driven implying that our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is just a 'placeholder-setup' that doesn't has any inherent ontological validity, but is rather as valid as its representation/schedule of ontology/ontologically-veridical-meaningfulness/intemporality, such that with the insight of more profound ontology/ontologically-veridical-meaningfulness/intemporality, the 'placeholder-setup' as placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is accordingly rescheduled psychoanalytically ('dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure), validating and explaining why our placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology has been developing all along from the mindset/reference-of-thought of an recurrent-utter-institutionalised, base-institutionalised, universalised and positivised, with the implication that the latter's mindset/reference-of-thought is not beyond prospective transcendence where such prospectively more profound ontology is demonstrated to imply a

renewal of human reference-of-thought of meaningfulness (as deprocrypticism), and with the further implication that all along it is essentially about a same species of a same underlying human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor induced dynamism of shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation). In fact, psychoanalysis is actually a natural existential human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology process with the difference that such comprehensively conceptually-directed constructs as is implied with deprocrypticism with respect to the present positivism/procrypticism are relatively more focussed and thus potent where ‘ontologically-pertinent and so-demonstrated to be ontologically-pertinent’; and by and large form part and parcel of the human psychoanalytic experience with regards to passive to conceptually-directed constructs of human teleological projection. Transcendence (prospective) as a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology effectuation, is not technically achieved as may naively/counterintuitively be implied by construing directly of a prospective placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology (from the present) but rather, on the basis of ‘prospective reference-of-thought transcendental insights’, it correspondingly implies ‘construing the present as metaphysics-of-present as the transcended/superseded/prior placeholder-setup/mental-devising-representation/mentation’ to be represented as ‘dialectically-dementing reference-of-thought’, and so implied by the ‘prospective reference-of-thought transcendental insights’, such that the prospective (transcending/superseding) placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology defect as ‘dialectical-thinking reference-of-thought’ is naturally implied as being the new and prospective suprastructuring,

(beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) of the ‘old present’/retrospective as prior. That is it is critical to grasp that ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of ‘dialectical-thinking’ and ‘dialectically-dementing’ is never about generating a prospective ‘dialectical-thinking’ (with respect to the present as ‘dialectical-thinking’), but such stranding-dialectics is rather about decentering and dementing/oblongating the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of the present as ‘dialectically-dementing’ which becomes ‘old present’/retrospective as prior’ and dialectically ushering contrastively from that backdrop a new and prospective ‘dialectical-thinking’. This is actually about maximalising-recomposuring-for-relative-ontological-completeness of the implied prospective meaningful-reference/anchoring-of-meaning/ontological-reference/contending-reference, rather than attempting its elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity which will ‘wrongly make reference to and wrongly elevate’, and so by mix-up, the prior reference-of-thought as veridical. Maximalising-recomposuring-for-relative-ontological-completeness being about optimally rescheduling the ‘placeholder-setup’ (as placeholder-setup/mental-devising-representation/mentation) with regards to ontologically-veridical-meaningfulness, on the ontological backdrop of a more profound superseding–oneness-of-ontology construal/conceptualisation of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. This involves a pointedness-of-prospective reference-of-thought which maximalising-recomposuring-for-relative-ontological-completeness then ‘upholds in contiguity’ the ‘trace of disambiguated-mental-dispositions-and-meaningfulness implied by intemporal/conviction mental-dispositions, postlogism/psychopathic mental-dispositions and conjugated-

postlogism/dementing-integration mental-dispositions’ as universal and aetiological ontological-primemovers-totalitative-framework construct, (while equally reflecting the flaws induced in misrepresenting ontological-references arising from elaborative elucidation), on the backdrop of a more profound superseding—oneness-of-ontology construal/conceptualisation. As maximalising-recomposuring-for-relative-ontological-completeness achieves this by not letting non-veridical/vacuous hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation reference-of-thought by postlogism/psychopathic and conjugated-postlogism/dementing-integration mental-dispositions wrongly being implied as sound reflection of existentialist/‘ontologically-reconstituting’ reference-of-thought and thus wrongly implying their ontological-veridicality, and equally avoiding their perversion-of-representation of conviction/intemporal mental-dispositions by the ‘mere ontological-decontextualising’ (of the latter rightfully existentially-veridical reference-of-thought) implied in their non-veridical/vacuous hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation reference-of-thought; such that a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology defect as ‘dialectically-dementing’ by mere non-veridical/vacuous hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (of reference-of-thought) is what restores the ontologically-veridical ‘existentialist reality’ reference-of-thought. Thus unlike elaboration-as-mere-extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity what maximalising-recomposuring-for-relative-ontological-completeness enables is to uphold in contiguity ontological-reality as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-

reification/superseding–oneness-of-ontology in other to reflect that the ‘perversion-of-reference-of-thought phenomena’ is as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology reflecting/perspectivating registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> even though it is iterating-by-alterations, whereas elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity will erroneously lead to a reassessment of perversion-of-reference-of-thought as ‘defect of logical-processing-or-logical-implication’ or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance by wrongly implying that it is an issue of defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance whereas it is an issue of perversion-of-reference-of-thought, and thus not upholding intemporality/longness in the contiguity as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology and reflected/perspectivated as structural/paradigmatic registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> or intradimensional defect’. Basically, maximalising-recomposuring-for-relative-ontological-completeness creatively puts into perspective temporality/shortness in non-veridical/vacuous hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation terms as

‘shallow superseding–oneness-of-ontology construal/conceptualisation’, and longness-of-register-of-meaningfulness-and-teleology in existentialist/‘ontologically-reconstituting’ terms as ‘deeper superseding–oneness-of-ontology construal/conceptualisation’ veering towards transcendence. That is, by transcendence is meant dispose to construe the ontological resolution of registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>

transcendentally/transdimensionally/interdimensionally, as needing a prospective registry-worldview/dimension; for instance, capable of putting in question medieval intradimensional superstition in the first place supersedingly/transcendentally by implying the need for positivising rather than a usual temporalities-drives reciprocity of superstitious contentions or capable of putting into question positivism–procrypticism postlogism-and-conjugated-postlogism in the first place supersedingly/transcendentally by implying the need for deprocrypticism rather than temporalities-drives reciprocal equivalence of procrypticism/disjointedness-as-of-reference-of-thought. Further the notion of deeper superseding–oneness-of-ontology conceptualisation and shallow superseding–oneness-of-ontology conceptualisation, central to a maximalising-recomposuring-for-relative-ontological-completeness, can be demonstrated as follows: supposed A has the (existentially veridical) mental projection with respect to say a housing project and undertook the initiative of bringing together and obtaining advanced payments from prospective buyers for the project, and B was to by non-veridical/vacuous hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation mental-disposition spread stories of the scheme being a scam (not to the buyers who have all the documentations validating the genuineness of A’s housing project) but rather other interlocutors mainly to undermine A’s business credibility, and so whether B is pathological/psychopathic or postlogically-enculturated, and supposed some other interlocutors, not only by ignorance but

affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation further engaged in such vilifying (as social universal-transparency of their mental denaturing disposition is socially opaque); engaging meaningfulness at a same reference-of-thought will wrongly imply that there is an issue of ‘logical-processing-or-logical-implication’ at hand rather than in veridicality one of perversion-of-reference-of-thought, requiring instead a maximalising-recomposuring-for-relative-ontological-completeness that is ‘dialectical-thinking’ from the ‘deeper superseding-oneness-of-ontology construal/conceptualisation’ as existentialist/‘ontologically-reconstituting’ of A as intemporally-preservational, (in a pointedness of deprocrypticism prospective reference-of-thought which maximalising-recomposuring-for-relative-ontological-completeness then ‘upholds in contiguity’ the ‘trace of disambiguated-mental-dispositions-and-meaningfulness implied by intemporal/conviction deprocryptic mental-dispositions, postlogism/psychopathic procryptic mental-dispositions and conjugated-postlogism/dementing-integration procryptic mental-dispositions’ as universal and aetiological ontological-primemovers-totalitative-framework construct), and reflecting in transversality-of-disambiguated-apriorising/axiomatising/referencing as both B’s postlogism ‘perversion-of-reference-of-thought as procrypticism/disjointedness-as-of-reference-of-thought mental-perversion/unsoundness-or-inauthenticity-of-reference-of-thought disposition’ ontological/being-construal-defect together with B’s interlocutors’ conjugated-postlogism/dementing-integration ‘perversion-of-reference-of-thought as procrypticism/disjointedness-as-of-reference-of-thought mental-perversion/unsoundness-or-inauthenticity-of-reference-of-thought dispositions’ ontological/being-construal-defects (as temporally-preservational-as-pseudointemporality-preservation); and so, going by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology that precedes, is abject and doesn’t increment with human placeholder-setup/mental-devising-

representation/mentation, and further so in ‘intellectual-and-moral in-equivalence’, not only as an incidental/on-occasion ontological/being-construal-defect’ phenomenon but a potent intradimension construal/conceptualisation of the basis of vices-and-impediments in metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation. That is, just as from a positivistic perspective (as metaphysics-of-absence), an incidental/on-occasion phenomenon of notions-and-accusations-of-sorcery in a medieval setup (as metaphysics) intemporally/ontologically elicits a conceptualisation of how such ‘perversion-of-reference-of-thought as mental-perversion/unsoundness-or-inauthenticity-of-reference-of-thought dispositions’ of ontological/being-construal-defects define human vices-and-impediments in medieval setups, that’s the same elicitation going by human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor which is intemporally/ontologically prompted with an on-occasion/incidental manifestation of postlogism and conjugated-postlogism/dementing-integration ontological/being-construal-defects in our positivistic/procrypticism registry-worldview from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview ontological point-of-reference (as the deeper superseding—oneness-of-ontology construal/conceptualisation, rather of a transcendental/abject nature in line with intrinsic-reality/ontology, and not incremental). A rule of thumb with maximalising-recomposuring-for-relative-ontological-completeness will be to void the wrongly implied existentialist-as-ontologically-veridical-meaningfulness by perceiving the reference-of-thought of postlogical/psychopathic and conjugated-postlogism/dementing-integration mental-dispositions as purely non-veridical/vacuous hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. Effectively,

reality/existence/being as becoming is actually an ‘unwinding elucidation’ model construct. However, since meaningfulness involves an interceding placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as reference-of-thought in relation to intrinsic-reality/ontology and given our limited-mentation-capacity-(as of relative constitutedness towards relative conflation), there thus tend to develop a mix-up of our representation (with unsound/vacuous/denaturing hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of reference-of-thought—categorical-imperatives/axioms/registry-teleology) when reflecting/perspectivating ontologically-veridical existential reality, such that there is a rule of recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology defined by the uninstitutionalised-threshold which arises structurally and accounts for vices-and-impediments. This is more than just a question of acts-execution/logical-processing defects but registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect>, that speaks of the registry-worldview’s/dimension’s inherent relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation. That is at the basis of the <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag nature of a registry-worldview/dimension vices-and-impediment. This is equally why epistemologically-speaking categorisation schemes tend to be incomplete and requiring further re-categorisations and readjustments as rather construed/conceptualised onan epistememic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag basis of organisation that isn’t in the full

potency for grasping intrinsic reality and requiring further adjustments all along (the whole exercise actually being ‘ad-hoc referentialism’), and why referentialism as previously articulated, though ‘relatively abstract as a notion of representation’ is a conceptualisation basis needing constant insights, it is actually a better conceptualisation scheme of prospective being/becoming notions particularly of an ephemeral nature. Just as we will represent the non-positivism/medievalism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology allusions to superstition in its <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as abjectly dementing and unintelligible/existentially-suprastructural and being as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity with it will wrongly imply the ontological-veridicality of its meaningfulness, a deprocrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of a procrypticism mindset/reference-of-thought will rather be abjectly dementing and unintelligible/existentially-suprastructural of ‘our procrypticism terms of meaningfulness’ and will equally avoiding elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity recognition of the soundness of our procrypticism/disjointedness-as-of-reference-of-thought at the (deprocrypticism) unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in other to effectively and adequately reflect the requisite metaphysics-of-absence necessary to act as the registered-psychical-backdrop for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of

prospective deprocrypticism, as implied by ontological-dementation/dialectical-dementation—stranding/attributive-dialectics as-uninstitutionalised-threshold-suprastructuring stranding-dialectics that is the mechanism that enables ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. *The fundamental ontological/meaningful question is: which is the ‘superseding reference-of-thought, from where meaningfulness is aligned as ‘thinking and contending’ over the ‘perverting/superseded reference-of-thought’ aligned to as ‘dementing and not-contending’? ‘Anchoring-of-meaning as base-institutionalisation’ over recurrent-utter-uninstitutionalisation, ‘anchoring-of-meaning as universalisation’ over perversion-of-reference-of-thought-of-base-institutionalisation-as-ununiversalisation, ‘anchoring-of-meaning as positivism’ over perversion-of-reference-of-thought-of-universalisation-as-non-positivism/medievalism or ‘anchoring-of-meaning as deprocrypticism’ over perversion-of-reference-of-thought-of-positivism-as-procrypticism. A ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ will actually be about a novel construal of the social as ‘metaphysics-of-absence’/postdication of the individual as ‘metaphysics-of-presence’; with the implication that the concepts and conceptualisations of the individual of the current ‘psychology of qualification and qualification schemes’ are actually and effectively construed by the ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as of a postconvergent/ontological-normalcy cadre and as becoming into the social, for its analytic purposes and framework. ‘Possibly’ this won’t imply ‘doing away’ with concepts and conceptualisations of the current ‘psychology of qualifications and qualification schemes’, but will however be uncompromising with respect to being ontology-driven, and thus ‘possibly’ enable the reconstrual of such psychology concepts as the self, ego, id, etc. in their

metaphysics-of-absence/postdication (as the existential social) articulation. Insightfully, a
 ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural
 psychology-of-dynamics’ rather mobilises maximalising-recomposuring-for-relative-
 ontological-completeness as is necessarily the case with all metaphysics-of-
 absence/postdication conceptualisations (which must avert the mix-up induced by the
 illusion-of-the-present/present-consciousness/mirage/-<formative>epistemic-totalising-self-
 referencing-syncretising/circularity/interiorising/akrasiatic-drag as metaphysics-of-presence)
 in ontologising/ontological-conceptualising. This thus validates and operates on the
 fundamental assumption that the individual-as-of-its-temporal-to-intemporal-individuation-
 potency is an abstract-atomic-social-construct capable-of-and-as-the-basis-for-both-social-
 effectuation-and-institutionalisation/intemporalisation. What is then qualified as social
 phenomenon is determined and effectively deconstructible/ontologically-reconstitutable from
 the inherent dynamism of human-subpotency–aporia/undecidability/dilemma/ought-

 the ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural
 psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-
 recomposure that sustains the possibility for human-cross-generational prospective
 institutionalisation transcendence towards ontological-normalcy. As previously indicated, a
 registry-worldview/dimensional ontological/being-construal-defect (as its temporal-dragging-
 of-ontology) is ‘not caused’ by non-conviction-or-existential-decontextualised-transposition-
 or-hollow-staging-and-performance-caricaturing—of-
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism,
 whether pathological/psychopathic or enculturated, (as this is priorly due to the inherent
 registry-worldview’s/dimension’s uninstitutionalised-threshold ‘in wait’ for such non-
 conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-
 caricaturing—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism instigation, for instance, the state of being superstitious in non-positivism/medievalism is itself ‘in wait’ for notions-and-accusations-of-sorcery to be instigated in such a social-setup by corresponding non-positivism/medievalism non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism), whereas the positivistic registry-worldview reference-of-thought has the prospective relative-ontological-completeness-of-reference-of-thought for the instigation of such a notions-and-accusations-of-sorcery not to arise. However, as highlighted again previously, the subsequent temporal-preservation-as-pseudointemporality-preservation of a registry-worldview’s/dimension’s temporal-dragging-of-ontology is largely due to the perpetuating recurrence, as an intradimensional dynamic-cumulative-aftereffect, of such pathological/psychopathic-and-enculturated non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism and conjugated-postlogism/dementing-integration that blurs recurrently intemporal-dispositions to induce social universal-transparency of the registry-worldview’s/dimension’s ontological/being-construal-defect as unsound reference-of-thought of meaningfulness and the positive-opportunism thereof for prospective institutionalisation transcendence and leading to the registry-worldview’s/dimension’s uninstitutionalised-threshold-endemised/enculturated temporal-preservation-as-pseudointemporality-preservation. This aspect of postlogism and conjugated-postlogism/dementing-integration temporal-preservation-as-pseudointemporality-preservation endemisation/enculturation is thus the more salient construal for the de-endemisation/de-enculturation of ontological/being-construal-defect as unsound reference-of-thought of meaningfulness, as defined by recurrence

and ‘non-transient transcendability’ at the uninstitutionalised-threshold; (in contrast with either a state of logical-processing-or-logical-implication that doesn’t speak of ‘recurrence of perversion/unsoundness of reference-of-thought’ or an ‘abstract’ state of inherent uninstitutionalised-threshold but which is ‘transiently transcendable’ as it is not in temporal-preservation-as-pseudointemporality-preservation instigated by postlogism-as-of-non-conviction). Thus it is the condition of ‘recurrence’ and ‘non-transience’ transcendability arising from postlogism and conjugated-postlogism/dementing-integration that is ontologically relevant for ontological-reconstituting-as-of-conflatedness/deconstruction for prospective transcendability (as it conceptually defines the successive uninstitutionalised-thresholds of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism), and it basically encapsulates the phenomenon of ‘protracted postlogism-as-of-non-conviction’ as postlogism and temporal-dispositions-conjugated-postlogism construed as ‘Existential-decontextualised-transposition of ontology/ontologically-veridical-meaningfulness/intemporality’ (and so reflected of the registry-worldview’s/dimension’s social-construct of temporal-to-intemporal-dispositions at its uninstitutionalised-threshold defined by recurrence and ‘non-transient transcendability’). Thus temporal-dragging-of-ontology is induced as ‘Existential-decontextualised-transposition of ontology/ontologically-veridical-meaningfulness/intemporality’/postlogism-and-conjugated-postlogism leading to temporal-preservation, and so at a registry-worldview’s/dimension’s uninstitutionalised-threshold defined by recurrence and ‘non-transient transcendability’. The ‘maximalising-recomposuring-for-relative-ontological-completeness construct’ for prospective institutionalisation transcendence is thus fundamentally grounded on the ‘backdrop’ of the construal of the ‘existential-decontextualised-transposition of ontology/ontologically-veridical-meaningfulness/intemporality’ which is reflected and superseded postconvergently by the

existentially-veridical ontology as shallow to deeper superseding–oneness-of-ontology
 construal/conceptualisation. So derived, ‘Existential-decontextualised-transposition of
 ontology/ontologically-veridical-meaningfulness/intemporality’ is actually the central tool of
 suprastructuring or a conceptualisation that can integrate both relevant metaphysics-of-
 presence and metaphysics-of-absence, with the capacity of easily reflecting both dialectical-
 dementing and dialectical-thinking as implied from a renewed human mentation
 transcendental insights (tautological) about intrinsic-reality/ontological-veridicality.
 ‘Existential-decontextualised-transposition of ontology/ontologically-veridical-
 meaningfulness/intemporality’ implies that at registry-worldview’s/dimension’s
 uninstitutionalised-threshold at which they are prospectively reflected/perspectivated as being
 in epistemic-abnormalcy (as shallow superseding–oneness-of-ontology
 construal/conceptualisation) with respect to ontological-normalcy/prospective-transcendence-
 in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-
 preservation (as deeper superseding–oneness-of-ontology construal/conceptualisation),
 correspondingly the ontological-veridicality of human dispositions is construed as requiring a
 temporal-to-intemporal-dispositions disambiguation of reference-of-thought (rather than
 naively, an assumption of universal human intemporal-disposition as reflected/perspectivated
 within a functional institutionalised registry-worldview’), with the implication that the ‘same-
 terms-of-expressions (seemingly-same-implied-meaningfulness)’ are actually of
 disambiguated temporal-to-intemporal-dispositions reference-of-thought and meaningfulness.
 This broadly sums up the importance of ‘existential-decontextualised-transposition of
 ontology/ontologically-veridical-meaningfulness/intemporality’ when it comes to registry-
 worldviews/dimensions construed as an uninstitutionalised registry-worldviews/dimensions
 or being in epistemic-abnormalcy, as it enables the conceptual articulation of meaningfulness
 that the ‘perspective of a functionally institutionalised registry-worldview/dimension’ doesn’t

permit beyond its <formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage limits at its uninstitutionalised-threshold. The suprastructuring effect of ‘existential-decontextualised-transposition’ is what actually enables the prospectively reflected/perspectivated perversion-of-reference-of-thought and as dialectically-out-of-phase/dialectically-primitive at the uninstitutionalised-threshold thresholds marking recurrent-utter-uninstitutionalisation from base-institutionalisation, ununiversalisation from universalisation, non-positivism/medievalism from positivism and procrypticism from deprocrypticism; thus enabling the requisite ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure by which prospective institutionalisation/intemporalisation for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as ‘ontological-reconstituting–as-of-conflatedness’/deconstruction is undertaken to supersede (as deeper superseding–oneness-of-ontology construal/conceptualisation) the drawback or vices-and-impediments of the prior registry-worldview/dimension as now dialectically-dementing and dialectically-out-of-phase. Thus the reality of ‘existential-decontextualised-transposition of ontology/ontologically-veridical-meaningfulness/intemporality’ implies that virtue shouldn’t naively be perceived in terms-as-of-axiomatic-construct of ‘a universal human intemporal-disposition nature or intemporal nature’ since human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor speaks otherwise (even though such an axiom of ‘a universal human intemporal-disposition’ is only surreptitiously implied, as a necessary ‘functional pseudo-conceptualisation’ which functionally assumes intemporality/longness to avoid the need for disambiguating reference-of-thought of meaningfulness into temporal-to-intemporal-dispositions ‘within established institutionalised registry-worldview/dimension’

but not beyond the uninstitutionalised-threshold, that is, as the result of intemporalisation-as-institutionalisation secondnaturing, for instance, we can broadly argue that the positivistic registry-worldview/dimension implies more or less a ‘universal positivistic intemporality’ as a functional pseudo-conceptualisation of intemporality/longness ‘as people do not act medieval by and large’ but at its uninstitutionalised-threshold wherein procrypticism arises it can only be qualified as of temporal-to-intemporal-dispositions since the requisite intemporalisation-as-institutionalisation as deprocrypticism secondnaturing is wanting), but virtue should rather be construed as the superseding/transcendental institutionalisation/intemporalisation design/conceptualisation that by inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism in the short run and secondnaturing in the long run enables the prospective registry-worldview/dimension institutionalisation; it is this focus on institutionalisation/intemporalisation that is effectively institutionalisation-as-virtue given that in the succession of human institutional-cumulations/institutional-recomposures, no institutionalisation effectively transforms human temporal-to-intemporal nature into an absolutely intemporal nature, but rather reduces human epistemic-abnormalcy towards ontological-normalcy as deeper and deeper superseding–oneness-of-ontology construal/conceptualisations. The bigger point being that it is by effectively grasping that any human intemporal-disposition individuations that can ‘spontaneously’ arise in whatever concern there is should be directed/skewed (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) (as deferential-formalisation-transference of meaningfulness) for institutionalisation/intemporalisation-as-virtue from secondnaturing, and not a wrong implication of functionally grounding virtue on human ‘temporal disposition’ which will inevitably bring about temporal-and-social-trading with respect to ‘socially-perceived-value

as of social-stake-contention-or-confliction'. The fact is that our institutional and organisational constructs at their very core, unspokenly do imply this notion of institutionalisation-as-virtue (in tacit recognition of our temporal-to-intemporal-dispositions), however, the notion of 'consciously-spoken' as herein highlighted in this paper is that it enables the necessary uninhibitedness/decomplexification that allows the requisite 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure required in fully assuming the reference-of-thought of any prospective registry-worldview/dimension. Actually, it could be argued that the more critical element of medieval emancipators/enlighteners had to do often not with their specific discoveries, which were more or less debated issues as well in their societies, but critically the idea that they were ready to imply 'a new psychological orientation as positivistic' that in itself structured the possibilities of a new worldview and many other positivistic discoveries once it became mainstream. Insistence of making mainstream such ideas as a heliocentric solar system by Galileo a century after Copernicus based on observations, the evolution of living things by Darwin based on research analysis, universal rationalism by Descartes based on methodical thinking, universal human rights by Rousseau based on thorough analysis of the human condition, principles explaining physical phenomena by Newton and Leibniz based on physical observation, etc. all speak of a new mindset/reference-of-thought as a paradigmatic shift that has no complexes and is uninhibited with respect to notions of the old notions of dogmas, alchemies, essences and myths. The fact is that (unlike we may naively reason by reflex from our relatively vantage position at the backend of the institutional-cumulation/institutional-recomposure process) this is not spontaneously given, when we consider that many of such emancipators were equally relatively enmeshed with the old psychology like Newton's involvement with alchemy, for instance. This point to the critical

importance of the psychological state of the mind for the very possibility of prospective ontologically-veridical transcendence to occur; as ontology is already given as a oneness and it is up to the human psyche to ‘moult itself’ (psychoanalytical-unshackling/memetic-reordering/institutional-recomposure) towards a more profound construal/conceptualisation as of that superseding–oneness-of-ontology, however strongly we might naively believe in our ideas in any given epoch as of its metaphysics-of-presence. Thus metaphysics-of-absence notion of ‘existential-decontextualised-transposition of ontology/ontologically-veridical-meaningfulness/intemporality’ (substituting, to induce ‘a dialectically-dementing mentation reflex’ in sync with the ontological perspective, over the same notion as ‘temporal-dragging of ontology/ontologically-veridical-meaningfulness/intemporality’ as metaphysics-of-presence, which rather induces ‘a dialectical-thinking mentation reflex’ out of sync with the ontological perspective, thus is subject to <formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage) effectively arises from a maximalist construct in grasping the salience of a transcending/abject conceptualisation that mirrors the uncompromising nature of intrinsic-reality/ontology over incrementalism-in-relative-ontological-incompleteness notional-procrypticism-or-notional-disjointedness-as-of-reference-of-thought as the natural intradimensional summative temporal mental-disposition (which speaks of a registry-worldview/dimension relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, and the need for ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation), which incrementalism-in-relative-ontological-incompleteness notional-procrypticism-or-notional-disjointedness-as-of-reference-of-thought however

represents the enculturation/endemisation that is defining of given registry-worldview's/dimension's uninstitutionalised-threshold. In other words, without a maximalising-recomposuring-for-relative-ontological-completeness disposition no prospective institutionalisation transcendence will be possible, as base-institutionalisation is the ultimate maximalising-recomposuring-for-relative-ontological-completeness construct over a summative mental-disposition of <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in recurrent-utter-uninstitutionalisation enabling the latter's transcendence, likewise universalisation is the ultimate maximalising-recomposuring-for-relative-ontological-completeness construct over a summative mental-disposition of <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in ununiversalisation enabling the latter's transcendence, so too with positivism over non-positivism, and prospectively deprocrypticism over procrypticism/as-the-perversion-of-reference-of-thought-of-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology. An 'existential-decontextualised-transposition (apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing defect) of ontology/ontologically-veridical-meaningfulness/intemporality conceptualisation' is equally critical, along with the implied psychological uninhibitedness/décomplexing for a prospective registry-worldview/dimension as deprocrypticism, with respect to the central concept of 'knowledge notionalisation' wherein understanding is much more than about grasping the ideals but equally preemptively construing the possibilities of 'the ignorances'/temporal-dispositions as part and parcel of knowledge construct, not for an idle temporal motive, but to better skew ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) for institutionalisation/intemporalisation-as-virtue, as a specific necessity for a deprocrypticism registry-worldview/dimension preempting—

disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-
growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-
drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-
universalisation-directed-rulemaking-over-non-rules as deprocrypticism. Ultimately the
purpose of maximalising-recomposuring-for-relative-ontological-completeness as an
intemporal conceptualisation of transcendental implication should be of ‘presencing—
absolutising-identitive-constitutedness consummated/forfeiting posture’ and is not for the
sake of ‘immediate intelligibility’ within a given uninstitutionalised registry-
worldview/dimension in want for a prospective corresponding institutionalisation registry-
worldview/dimension, as such a purpose will wrongly and paradoxically imply that the
logical-dueness/logical-pertinence of the uninstitutionalised-threshold is sound as its
reference-of-thought is prospectively defective (for instance a positivistic implied
transcendence cannot be logically intelligible to a medieval setup that harkens back to
medieval reference-of-thought—categorical-imperatives/axioms/registry-teleology for its
logic, i.e. ‘issue of articulating chemistry rules and principles for the evaluation of an
alchemist not logically cognisant of chemistry rules and principles, in the very first place’),
but rather it is a middle to long run construed as of ontological-dementation/dialectical-
dementation—stranding/attributive-dialectics instigation of prospective registry-
worldview/dimension institutionalisation reference-of-thought as of a ‘dialectical-thinking-
psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’
psychoanalytic-unshackling/memetic-reordering/institutional-recomposure (though we can
mostly grasp such an insight not from instances of ‘natural intra-society transcendence’ since
this takes a longer time to occur and is relatively obscure, but transcendence by cultural
diffusion associated with conquests where the dominant is at a more advanced stage of
institutionalisation or in the rare cases where it is the reverse like Ancient Egypt or Ancient

Greece, with the dominated actually relatively dominating or in parity with the dominant culturally as of divergent aspects). The implication here is that transcendental maximalising-recomposuring-for-relative-ontological-completeness is rather grounded on a relatively intemporal-and-deeper existential-reference-of-meaningfulness with the positive-opportunism of the prospective institutionalisation ontological-primemovers-totalitative-framework over its corresponding uninstitutionalised-threshold to put in question the latter's reference-of-thought-categorical-imperatives/axioms/registry-teleology for the ones of the prospective institutionalisation, and it is only after that that the notion of mutual logical intelligibility arises (it is only after the alchemist 'psychoanalytically-unshackle' into a positivistic-inclined mindset/reference-of-thought with respect to appreciating notion of natural cause-and-effect and experimentation as well that the notion of mutual intelligibility of chemistry rules and principles makes sense, until then there cannot be much of intelligibility without such a 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure exercise from the perspective of the prospective chemist). That explain why maximalising-recomposuring-for-relative-ontological-completeness construct are meant to be detached and universalising so as to act as a backdrop for prospective institutionalisation, and not to necessarily make sense in terms-as-of-axiomatic-construct of 'the now temporal mental-disposition reference-of-thought' which, it is contended, is in want of prospective institutionalisation with its corresponding psychologism. In the bigger scheme of things, it is inevitable that suprastructuring (the conceptualisation that renders ontological-dementation/dialectical-dementation-stranding/attributive-dialectics relative-mutual-construal of the prospective/superseding/transcending registry-worldview/dimension as deeper superseding-oneness-of-ontology construal/conceptualisation over the prior/superseded/transcended registry-worldview/dimension as shallow superseding-oneness-

of-ontology construal/conceptualisation by (suprastructurally) reflecting/perspectivating, beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of the prior/superseded/transcended, respectively the ‘dialectical-thinking as dialectically-in-phase’ and the ‘dialectically-dementing as dialectically-out-of-phase’), is rendered operant by the notion of ‘existential-decontextualising-transposition (apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing defect) of ontology/ontologically-veridical-meaningfulness/intemporality’ in operantly grasping such suprastructuring transcendence/transdimensional/interdimensional construct; as it perpetually upholds ontological-veridicality by its ‘existential-reality’ (not non-veridical/vacuous hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) on the basis of, first and critically, the validity of the reference-of-thought so-reflected as soundness-or-authenticity-of-reference-of-thought if valid and unsoundness-or-inauthenticity-of-reference-of-thought if invalid (before even recognising whether the ‘implication-of-notion-of-agreement-or-disagreement’ or ‘of logical-processing’ arises) to determine the ‘dialectical-thinking and dialectically-in-phase’ over the ‘dialectically-dementing and dialectically-out-of-phase/dialectically-primitive’. It is critical to grasp that the notion of ‘existential-decontextualised-transposition of ontology/ontologically-veridical-meaningfulness/intemporality’ is rather a conceptual metaphysics-of-absence (meant to ensure a natural maximalising-recomposuring-for-relative-ontological-completeness to avoid mix-up of reference-of-thought) arising from <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag whether wittingly or unwittingly with the notion of ‘temporal-dragging-of-ontology/ontological-veridicality/intemporality’ (in-a-social-dynamism-of-meaningfulness-misappropriation) as metaphysics-of-presence. So both notions are conceptually the same but implying different approaches with respect to the temporal

undermining of ontological-veridicality; with ‘temporal-dragging’ referencing/biased within the contextual perspective of institutionalised registry-worldview/dimension, with ‘existential-decontextualised-transposition’ referencing/biased within the contextual perspective of uninstitutionalised registry-worldview/dimension, thus the latter enabling an appropriate disambiguation of temporal-to-intemporal-dispositions with respect to ontologically-veridical reference-of-thought, and by extension it is the concept of ‘existential-decontextualised-transposition of ontology/ontologically-veridical-meaningfulness/intemporality’ that is appropriate in all instances of implied uninstitutionalised registry-worldviews/dimensions as metaphysics-of-absence perspective since it avoids <formative>epistemic-totalising—self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage that is inevitable when reason by a metaphysics-of-presence (temporal-dragging-of-ontology/ontological-veridicality/intemporality). Besides even within the intradimension contextual perspective of institutionalised registry-worldview/dimension, it is equally the best approach with respect to the construal/conceptualisation of the instigating of postlogism-as-of-non-conviction hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation mental-disposition that will induce temporal-preservation-as-pseudointemporality-preservation in temporal-dispositions as conjugated-postlogism/dementing-integration (by hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation on the reference-of-thought—categorical-imperatives/axioms/registry-teleology of the priorly institutionalised registry-worldview/dimension) and by so doing reflecting the uninstitutionalised registry-worldview/dimension. That is an construal/conceptualisation approach that construes the ontological-contiguity—of-the-human-institutionalisation-process as of reducing-epistemic-abnormalcy. Effectively, such a highlight of how human secondnaturing within

institutionalised construct implies a pseudo-conceptual universal human intemporal-disposition as metaphysics-of-presence in contrast to a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor mental-dispositions highlight at uninstitutionalised construct as metaphysics-of-absence is effectively the unspoken psychoanalytic conceptualisation which needs to ‘be registered/consciously-recognised’ as the backdrop for superseding into deprocrypticism. Such a psychoanalytic insight about the ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ grasps how postlogism instigates the temporal-preservation-as-pseudointemporality-preservation inclination of temporal-dispositions that enculturates/endemises the various uninstitutionalised-thresholds even though the state as dynamic-cumulative-aftereffect of temporal-dispositions is in ‘ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought, as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, with respect to ontological-normalcy’ by ‘undermining social universal-transparency for ontological-veridicality’; wherein the postlogical mental-disposition is recursive in eliciting temporal-preservation, the conjugated exacerbatory/opportunistic mental-dispositions are progressive in upholding temporal-preservation-as-pseudointemporality-preservation and the conjugated ignorance/affordable mental-dispositions as largely summative of the dynamic-cumulative-aftereffect, are geared towards upholding or undermining temporal-preservation-as-pseudointemporality-preservation by conviction inclination whether naively conjugating to postlogism as misconstrual or good conviction when the untenability/internal-contradiction/internal-incoherence/institutional-constraining and positive-opportunism of

ontological-veridicality is established from an intemporal-disposition, in which latter case as being largely summative of the dynamic-cumulative-aftereffect it leads to the collapsing of postlogism mental-disposition recursiveness and exacerbatory/opportunistic mental-dispositions progressiveness with respect to temporal-preservation, and thus orienting towards intemporal-preservation/intemporalisation and the possibility for prospective institutionalisation, itself subjectable to temporal-preservation-as-pseudointemporality-preservation at its uninstitutionalised-threshold. Thus this is the underlying <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness in the psychoanalytic dynamism of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor across all the institutional-cumulations/institutional-recomposures as of human shallow to deeper limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) explaining the alternation of prospective institutionalisation (as ontologically-reconstituting) and uninstitutionalised-threshold (in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation with regards to the reference-of-thought—categorical-imperatives/axioms/registry-teleology of the prior institutionalisation) which need to be brought to the collective consciousness appraisal for the necessary psychological uninhibitedness/décomplexing enabling prospective deprocrypticism.

* Ultimately, an ‘ontological-reconstituting—as-of-conflatedness/deconstruction articulation’ (beyond just conceptualisations as in this paper) for more thorough insights reflective of a ‘suprastructural construal of any given state of uninstitutionalised-threshold from prospective institutionalisation point-of-reference, such as can be retrospectively implied of non-positivism/medievalism from positivism or prospectively implied of procrypticism from deprocrypticism’, will more profoundly involve

a ‘storied-construct/ontologically-valid-narration of comprehensive intuitive insight’ grounded on: the construal of temporal-dispositions ‘existential-decontextualised-transposition of ontology/ontologically-veridical-meaningfulness/intemporality’ (enabling the EXISTENTIAL-TRACING-as-ontological-primemovers-totalitative-framework of disambiguated temporal-to-intemporal-dispositions and-their-associated reference-of-thought’, reflecting soundness-or-authenticity-of-reference-of-thought/dialectical-thinking (as-in-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) over unsoundness-or-inauthenticity-of-reference-of-thought/dialectically-dementing (as-failing-intemporal-preservation-or-misappropriation-of-meaningfulness-entropy/contiguity) non-veridical/vacuous reference-of-thought—categorical-imperatives/axioms/registry-teleology/‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’, so-construed insightfully and contextually as existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness, reflecting ‘shallow/temporal superseding—oneness-of-ontology to deeper/intemporal superseding—oneness-of-ontology mental-conceptions teleologies’; from the perspective of a suprastructural superseding/transcending/deeper/intemporal superseding—oneness-of-ontology mental-conception teleology.

- As beyond the epiphenomenon of psychopathy and social psychopathy, as it provides a peculiar perspective for insight on human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with respect to reference-of-thought and meaningfulness; ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ implies preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-

formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules as deprocrypticism. Insightfully, ontological-normalcy/postconvergence establishes beyond human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) that there is a potent and overall oneness/contiguity of ontologically-veridical meaningfulness which transverses and supersedes all other conceptualisations of reference-of-thought and meaningfulness (which are therefore approximates) by mere ‘ontological-consistency’ whether with regards to virtue conceptualisation (as highlighted with the intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) or second-level ontological constructs as is the case with subject matters conceptualisations. Ultimately, the capacity for philosophy to further clarify such an ‘ontological-consistency’ will be a further critical foundation for broadening the efficacy of all second-level ontologies (as the veritable job of philosophy). Inherently, ‘ontological-consistency’ as superseding-oneness-of-ontology is by itself the complete rationale for explaining human possibilities with regards to knowledge and virtue as so reflected/perspectivated by the very potency of ontological-normalcy/postconvergence, as the latter is ‘the potency for all the text-of-ontologically-veridical-meaningfulness that can exist’. Ontological-consistency in the inherent intemporalisation/institutionalisation orientation of ontological-normalcy/postconvergence validates virtue conceptualisation not as a discreet notion of choice, but rather a necessary disposition as ‘intemporal projection’ (or longness-of-register-of-meaningfulness-and-teleology) for human-mastery-of-reality or knowledge, as inherently implied by ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation). The reason is simple. It is impossible, for instance, for an utter-ununiversalisation setup ‘to access’ the emancipatory ontological possibilities available to a prospective base-institutionalisation setup without the ‘requisite solipsistic insight’ of intemporal-disposition individuation within the recurrent-utter-

uninstitutionalisation registry-worldview that ‘projects’ that rulemaking-over-non-rules-(as

 solipsistic insight is the effective ‘transcendental virtue conceptualisation’ that drives
 ontological-normalcy/postconvergence across all the successive institutionalisations and by
 that token coincides with ontology as a necessary ontological development driver in an
 animal of shallow limited-mentation-capacity-(as of relative constitutedness) to deeper

 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor points out that it is

rather such intemporality/longness solipsistic ‘transcendental virtue projection’ that enables the superseding of the uninstitutionalised-threshold of the various registry-worldviews/dimensions as institutional-cumulations/institutional-recomposures. In other words, it is the necessary ‘transcendental virtue projection’ for a prospective registry-worldview superseding the vices-and-impediments of the prior registry-worldview that enables the ontological possibilities for such prospective registry-worldview to even arise existentially; as the temporally-inclined recurrent-utter-institutionalised individuation is non-cognisant of any such thing as base-institutionalisation and the ontological possibilities availing to it, likewise with the temporally-inclined ununiversalised individuation with respect to universalisation and its ontological possibilities, the temporally-inclined non-positivism/medievalism individuation with respect to the positivistic and its ontological possibilities, and prospectively the temporally-inclined procrypticism individuation with respect to deprocrypticism and its ontological possibilities, and all such possibilities as allowed by ontological-normalcy/postconvergence. A question that arises will be how can a society deliver an Einstein or a Bohr respectively that will articulate the theory-of-relativity or quantum-mechanics without it having the necessary institutional-recomposure (orientation and capacities) and memetic-reordering (of the individual mindset/reference-of-thought and associated other contributing mindsets) that allows for the possibility of such discoveries? In other words what was the possibility for the theory-of-relativity or quantum-mechanics to be delivered in the Middle Ages, for instance? Rather improbable. As a side note, such an insight equally attends to such a debate we currently entertain with respect to coming into contact with an advanced alien civilisation. A transcendental virtue conceptualisation will hold that in the very first place such a civilisation won’t be able to exist without the necessary virtue construct (as successions of metaphysics-of-absence insights yielding in-lockstep the successively more ontologically profound metaphysics-of-presence as implied by

ontological-normalcy/postconvergence) that enables it to come into being; as necessarily they will be base-institutionalising, universalising, positivising and probably deprocrypticising, such that it will be untenable and inconsistent to have cosmic travellers that are savage-inclined or of a medieval age, for instance, going by the mere human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. Insightfully thus, while ontological-normalcy/postconvergence expands human ontological possibilities (comprehensively), it also leads to a growth in human institutionalised virtue disposition in equivalence which sustains such ontological development. However wary we should be with the possibility of nuclear annihilation, we equally can recognise that the ‘better’ registry-worldview/dimension-level, in terms-as-of-axiomatic-construct of its relative transcendental virtue conceptualisation, to handle such weapons is the present one (positivistic) with regards to the possibility of averting a global annihilation compared to say feuding tribal or medieval setups (that is, if by some imaginary circumstances they could have access to and utilise such weapons). This points out that virtue is rather an inherent and necessary construct of ontology, existentially speaking; as the transcendental construct that enables the expanding of the ontological possibilities of an animal of shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation) by enabling ‘solipsistic moulting’ (as ‘intemporal-disposition individuation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ at uninstitutionalised-threshold states, with a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor mental-disposition due to lack of social universal-transparency about virtue inducing

apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing') and the secondnaturing of the social-construct (as institutionalisation-as-virtue) including the requisite human psychical pivoting/decentering. In another respect, ontological-consistency as highlighted previously is in coherence with the notion of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology with the implication that 'the reflected/perspectivated temporal-to-intemporal-dispositions disambiguation' (at the uninstitutionalised-threshold) as ontological-primemovers-totalitative-framework, underlines the iterability/iteration nature of ontologically-veridical-meaningfulness, grasped from the perpetuating intemporal-disposition 'ontological-reconstituting—as-of-conflatedness'/deconstruction realiteration over the perpetuating hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation alteration by temporal-dispositions. Fundamentally, a normally institutionalised functional disposition warrants that there is 'a common/same ontological-reference of ontologically-veridical-meaningfulness' but this is voided at the uninstitutionalised-threshold where temporal-dispositions become temporally-preservational-as-pseudointemporal-preservation whether by recurrence registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> (whether beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought), as may arise with postlogism-and-conjugated-postlogism, with the effective consequence of 'temporal-to-intemporal-disambiguated-mental-dispositions' wherein the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of

temporal-dispositions are reflected/perspectivated as rather in temporal-preservation-as-pseudointemporality-preservation ‘-<formative>epistemic-totalising-self-referencing-syncretising’, with their meaningfulness ontologically being suprastructured (as perverted beyond their consciousness-awareness-teleology) by the intemporal-disposition in construing the ontological-primemovers-totalitative-framework as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology. This disambiguated-mental-dispositions as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology develops, with changing contextualisation, at the registry-worldview/dimension or intradimensional level as the ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’ (slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect), and is equally characteristic across registry-worldviews; with the implication that this is an attribute of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. That is, the uninstitutionalised-threshold is characterised by the ‘trace of disambiguated-mental-dispositions as temporal-to-intemporal-dispositions ontological-primemovers-totalitative-framework. It is mainly a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ that can establish the ontological-veridicality-of-meaningfulness precisely by disambiguating the effective ontological-references of the various temporal-to-intemporal-dispositions individuations, and

so not only at an instant or act or specific circumstance or context (which is rather an act construal and not a being/ontological construal) but projectively in their retrospective-to-present-to-prospective existentialism-deambulation/meandering which provides the full insight of temporal-to-intemporal-dispositions individuations mental-dispositions/meaningful-references/ontological-references/contending-references as ontological-entrapment. Such a being/ontological-basis, as described above, of a 'Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology' is in line with and further elucidates the 'Différance-existential-transitory-articulation-of-the-derivation-of-perversion-of-reference-of-thought-of-meaning-and-meaningfulness' technique. Going respectively by the Sartrean and Derridean principles for establishing ontologically-veridical-meaningfulness, that is, 'existence precedes/defines essence' or 'there is nothing outside the text' in evaluating 'same-terms-of-expressions (seemingly-same-implied-meaningfulness)' with respect to their veridical-ontological reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in-various-instances as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness. What is critical to understand here is to distinguish between: (i) recurrence in existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness basis of meaningfulness that is grounded on grasping that reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are deterministic by virtue of reflecting/perspectivating/highlighting their recurrent context of

reality and thus subjects them to ‘ontological-reconstituting—as-of-conflatedness’/deconstruction in upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and (ii) an elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity basis of meaningfulness that is purely and wrongly grounded on grasping that reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ are by themselves abstractly deterministic, even as this fail intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication, and thus subjects meaningfulness to hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. Intemporal-disposition as conviction disposition (whether appropriate/good or inappropriate/poor-or-bad conviction) are construed as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness basis of meaningfulness on the ground that successive-instances-of-’existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness requires their subjection to ‘ontological-reconstituting—as-of-conflatedness’/deconstruction to establish the existential context of reality thus establishing ontologically-veridical-meaningfulness. On the other hand, the postlogical/psychopathic disposition (and by extension temporal-dispositions conjugated-postlogism/dementing-integration dispositions) adhere to an elaboration-as-mere-

extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity basis of meaningfulness on the ground that plausibly construing a false-premising to an existential-context-of-reference-narrative ‘provides licence’ to then (‘recursively’ in concurrence – in the case of the postlogical/psychopathic character, progressively – in the case of a conjugated-exacerbatory and conjugated-opportunism characters, and regressively – in the case of a conjugated-ignorance and conjugated-affordability characters) comprehensively articulate any possible existentially-unreal-and-abstract-narratives (on the basis of a conceptualisation of mere hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation static-or-abstract non-veridical/vacuous-state of essence-of-meaningfulness’ with respect to reference-of-thought–categorical-imperatives/axioms/registry-teleology and hence failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or–ontological-preservation) by exploiting the plausibility derived from the concurrently-false-premising existential-context-of-reference-narrative. So the latter disposition, and so particularly with the postlogical/psychopathic mindset, is to induce or generate or exploit any plausible existential-context-of-reference-narrative to then unleash slanted-and-formulaic hollow existentially-unreal-and-abstract narratives by concurrently-false-premising on the plausible existential-context-of-reference-narrative. In other words, the postlogical/psychopathic individuation character gets that there is a human mental-reflex to grasp ontologically-veridical-meaningfulness on ‘static-or-abstract non-veridical/vacuous-state (abstract reference-of-thought–categorical-imperatives/axioms/registry-teleology) of essence-of-meaningfulness terms, so long as their existential basis is established, including and critically for its purpose, where it is so deceptively implied’, to artificially or opportunistically construe a plausible existential-context-of-reference-narrative which then ‘provides licence’ to articulate existentially-unreal-and-abstract-narratives in hollow-

constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation concurrently-false-premising on the initial plausible existential-context-of-reference-narrative, with the idea that that human mental-reflex will by reflex naively-and-wrongly imply the existential/contextualisation ontological-veridicality of its generated slanted-and-formulaic hollow existentially-unreal-and-abstract-narratives; and so, in terms-as-of-axiomatic-construct of the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology as highlighted priorly. This non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing mental-disposition to reference-of-thought is in contrast with that of a conviction mindset/reference-of-thought (be it of inappropriate/bad or appropriate/good conviction) which is always inclined to ensure that the succession-of-narratives it propounds are tied to successive-instances as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness. Thus, the reason why the ontological construal (ontological-entrapment) of the postlogical/psychopathic individuation characters and conjugated-postlogism/dementing-integration individuation characters is rather as an intemporal/ontological suprastructuring (implying ontological-dementation/dialectical-dementation—stranding/attributive-dialectics) of their hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of ontologically-veridical-meaningfulness, as this fail intemporal-preservation-entropy-or-contiguity—or—

 transcendental issues within our present positivistic/procryptic registry-worldview/dimension
 as its own metaphysics-of-presence problem), if say a totem was to be presented as proof that

a targeted individual was a sorcerer (as existential-context-of-reference-narrative) for establishing plausibility for subsequent comprehensive articulation of existentially-unreal-and-abstract-narratives accusing the target of sorcery, a transcendental/object/intemporal conceptualisation will imply rather a prospective ontological-reference of essence-of-meaningfulness as positivism, with the ontological-normalcy/postconvergence implication of construing not only the accuser as being of ‘medieval mental-perversion/perversion-of-reference-of-thought but the temporal-dispositions and overall social-enculturation of that inclination abstractly with respect to metaphorically-a-million-and-one-instances-and-locales/aetiologically/ontological-escalation as a fundamental ontological/being-construal-defect of such a medieval reference-of-thought; noting as well that there is no need ontologically/intemporally for such a target to adjust to such accusation but rather a dismissive disposition with respect to such perversion-of-reference-of-thought as to dialectical-dementing—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and its defective ontological-reference of meaningfulness, as acting otherwise like ‘being logical’ with such implied meaningfulness by saying for instance it is not its totem or it doesn’t know about it or it is somebody else’, wrongly validates that the reference-of-thought of such medieval accusation is valid and is thus rather contributing then to upholding its temporal-enculturation/temporal-endemisation, as where there is perversion-of-reference-of-thought there is no logical-dueness and from thence enabling the construing of relevant soundness or unsoundness of logical-processing-or-logical-implication) to start with in the very first place but rather a superseding/transcendental representation of such perversion-of-reference-of-thought as unsoundness-or-inauthenticity-of-reference-of-thought/dementing and actually implying a suprastructuring (beyond its consciousness-awareness-teleology) at the said (non-positivism/medievalism) uninstitutionalised-threshold requiring positivism registry-

worldview reference-of-thought institutionalisation. Thus unlike in a case of defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance the idea of falling-back to the same exercise to correctly do the exercise (logical-processing-or-logical-implication) in a same or different circumstance, is invalidated when dealing with perversion-of-reference-of-thought as registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> (with regards to both postlogism and conjugated-postlogism); with the implication that there can't be mutual contention but rather transversality-of-disambiguated-apriorising/axiomatising/referencing wherein the superseding (and ontologically-veridical) reference-of-thought can only construe of the superseded (and ontologically unsound) as dialectically-dementing/unsoundness-or-inauthenticity-of-reference-of-thought/oblongated requiring psychoanalytic-unshackling/memetic-reorder/institutional-recomposure to transcend into the superseding reference-of-thought in the very first instance, before any ontologically-veridical pretence to mutual contention. Certainly this same reaction is what is warranted in the example highlighted before (if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about,...) In the bigger perspective with regards to the institutionalisation of deprocrypticism for instance, it is such an existentialism construal from a transcendental intemporal reference-of-thought over temporal perversion-of-reference-of-thought that allows for the superseding of vices-and-impediments as prospective registry-worldview/dimension structural-resolution of procrypticism/emanant-dementing/wrong-shades-of-the-real. It should be noted that as earlier articulated, intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm (in contrast to a temporal extricatory

paradigm) can only be transcendental as superseding (by implying an altogether different reference-of-thought as ‘dialectical-thinking’), and not incremental/‘disjointedness-as-of-reference-of-thought’ (wrongly operating on the same temporal registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> reference-of-thought which is actually ‘dialectically-dementing’/oblongated and dialectically/contendingly-out-of-phase). Taking the previously articulated case of sorcery in a non-positivism/medievalism setup, it has no ontological structural-resolution by reciprocity of sorcery accusations on the same reference-of-thought terms but rather by the transcendental undermining of such non-positivism/medievalism mindset/reference-of-thought with an altogether superseding positivistic reference-of-thought that is in transversality-of-disambiguated-apriorising/axiomatising/referencing with a non-positivism/medievalism ontological-reference (registry-worldview). Even though, inevitably (and as in the ‘present as-present-consciousness’ of all registry-worldviews with regards to their own corresponding perversion-of-reference-of-thought phenomena), there is bound to be more or less a dumb-and-dumb effect of summative social acquiescence to a superstitious mindset/reference-of-thought in a non-positivism/medievalism setup, that will in the short term temporal perspective be a drawback to such a transcendental projection of positivistic mental-disposition, and likewise there will inevitably be more or less be a dumb-and-dumb effect of summative social discontentment where a transcendental deprocrypticism mental-disposition is implied in a procrypticism setup. This shows that going by human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, in all registry-worldviews/dimensions the more or less summative mindset/reference-of-thought is bound to be incremental/‘disjointedness-as-of-reference-of-thought’ and not transcending such that would-be emancipating individuation’s projection (that is, if ontologically pertinent) is

necessarily the middle to long run construed as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> for the necessary ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure accompanying such prospective transcendental institutionalisation. That is, by transcendence is meant dispose to construe the ontological resolution of an intradimensional ontological/being-construal-defect transcendently/transdimensionally/interdimensionally; for instance, capable of putting in question non-positivism/medievalism intradimensional superstition as of the registry-worldview defect in the first place supersedingly/transcendentally rather than a usual attendant/incidental reciprocity of superstitious contentions or capable of putting into question procrypticism/perversion-of-positivistic-meaningfulness with its corresponding postlogism-and-conjugated-postlogism of psychopathy and social psychopathy as of the registry-worldview in the very first place supersedingly/transcendentally rather than a temporally reciprocal equivalence. Basically, such an intemporal-disposition/ontologically-veridical transcendental disposition storied-construct/ontologically-valid-narration will be of imbricatedness/threadedness/recomposuring as existential-tracing of ontologically-veridical-meaningfulness reflecting temporal-dispositions rather in ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. The fact being that, in the short term, the temporally-minded recurrent-utter-institutionalised individuation has no place for the ‘transcendental rulemaking-over-non-rules-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) notion’ (for base-institutionalisation) of the intemporal-minded individuation; the temporally-minded ununiversalised individuation (in base-institutionalisation) has no place for the

‘transcendental rules universalising notion’ of the intemporal-minded individuation; the temporally-minded non-positivism/medievalism individuation has no place for the ‘transcendental positivising/rational-empiricism notion’ of the intemporal-minded individuation; and likewise, prospectively, the temporally-minded procrypticism individuation has no place for the ‘transcendental deprocrypticism/rational-realism notion’ of the intemporal-minded individuation; rather as the temporal-dragging-of-ontology moves from slantedness-effect, miscuing towards sub-par/formulaic-association/temporal/alibi conventioning-rationalising in all the different registry-worldviews/dimensions, ‘for intradimensional functionality sake a transcendental articulation is beyond the intradimensional summative mental-disposition of value-referencing’, as the summative mental projection of individuals is more of an earthly life-span conceptualisation rather than transcendental or poorly appreciative of the transcendentalism that is structurally responsible for present reference-of-thought to project to the structural/paradigmatic need of prospective transcendence. This further points out that with regards to ‘metaphysics-of-absence’ projection (in overcoming the illusion-of-the-present/present-consciousness/mirage/epistemic-totalising–self-referencing-syncretising), across all registry-worldviews from prior to prospective there are basically two ways by which the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology works with respect to the same intrinsic-reality/ontologically-veridical-meaningfulness; for the ‘intradimensional reflex’ sake of having a coherent functioning by sharing a common/same reference-of-thought as it is obvious that if one was to drop in a thoroughly non-positivism/medievalism setup and insisted absolutely to articulate meaningfulness in positivistic terms, there will be no mutual understanding, at least at the (positivistic) uninstitutionalised-threshold of that medieval setup, whether at one moment or another it fails intrinsic-reality/ontologically-veridical-meaningfulness/intemporal-preservation-entropy-or-

contiguity–or–ontological-preservation, any registry-worldview/dimension as prior wrongly represents that such its registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> is non-transcendable/unsupersedable by its <formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as ‘metaphysics-of-presence’ thus upholding its soundness-or-authenticity-of-reference-of-thought by ignoring the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> while the prospective registry-worldview/dimension implying a new reference-of-thought that structurally resolves the prior’s registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> represents the prior as prior/transcended/superseded and hence unsoundness-or-inauthenticity-of-reference-of-thought/dementing/suprastructurable (at that uninstitutionalised-threshold). The bigger point here is that just as we will represent the non-positivism/medievalism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology allusions to superstition in its <formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage as abjectly dementing and unintelligible/existentially-suprastructured, a deprocrpticism placeholder-setup/mental-devising-representation/mentation/(recomposed)-consciousness-awareness-teleology of procrpticism/disjointedness-as-of-reference-of-thought mindset/reference-of-thought will rather be construed as decentered and dementing, unintelligible/existentially-suprastructured with respect to ‘our positivism–procrpticism terms of meaningfulness’ that is, at the (deprocrpticism) uninstitutionalised-threshold in order to effectively and adequately reflect the requisite metaphysics-of-absence necessary to act as the registered-psychical-backdrop for futural Being-development/ontological-framework-expansion–as-to-depth-of-

ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of
 prospective deprocrpticism, as implied by ontological-dementation/dialectical-dementation–
 stranding/attributive-dialectics as-uninstitutionalised-threshold-suprastructuring stranding-
 dialectics that is the mechanism of a ‘dialectical-thinking-psychology or psychology-of-
 mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-
 unshackling/memetic-reordering/institutional-recomposure for prospective
 institutionalisation. This latter notion is important as with all psychoanalysis whether of an
 individual or social conceptualisation nature, the idea of recognising/registering the registry-
 worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-
 existential-defect> is central to superseding it, and so the idea of implying ‘dialectically-
 dementing’/out-of-phase/dialectically-primitive is ‘beyond the notion of an idle denotative
 exercise’, be it validly so, and the meaningfulness of such conceptualisations certainly do not
 carry the poorer connotations of temporal/banal mental-dispositions, but rather it is
 technically a necessary and useful ontological conceptualisation in the memetic-
 reordering/institutional-recomposure from our shallow limited-mentation-capacity-(as of
 relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation).
 Thus psychoanalysis is actually in effect an existentialism process of human skewing towards
 intemporal as we construe meaningfulness and value-referencing, and so beyond the
 Foucauldian referenced critique of a relatively ‘economic/traded/exchange/battered’
 conceptualisation of psychology we know of when we talk of psychoanalysis in the subject
 matter of psychology, but rather construed as a natural ontologically-driven ‘dialectical-
 thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-
 dynamics’ behind human secondnaturing across the successive institutional-
 cumulations/institutional-recomposures in reflecting the ontological-contiguity—of-the-
 human-institutionalisation-process. As a side note though, it is important to grasp that the

registry-worldviews as the institutional-cumulations/institutional-recomposures are actually broad categorisations and that actually human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of intrinsic-reality/ontologically-veridical-meaningfulness varies (though not varying in terms-as-of-axiomatic-construct of the central defining conceptualisation of each registry-worldview/dimension) within each registry-worldview/dimension from its early to later spectrum, given human more or less passive continuous psychoanalytic readjustment to 'ontological experience'. For instance, there is certainly a marked difference in scope and depth between the positivistic construct in the 19th century with its nature in the late 20th and early 21st century. Further to the two elucidations made of postlogism/psychopathic and conjugated-postlogism/dementing-integration distortion/perversion of essence-of-meaningfulness that go on to endemise psychopathy and social psychopath with reference to with the 'Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology' and its 'Différance-existential-transitory-articulation-of-the-derivation-of-perversion-of-reference-of-thought-of-meaning-and-meaningfulness' technique as well as plausibly concurrently-false-premising to an existential-context-of-reference-narrative providing licence for postlogical narratives, a third elucidation provides an even more profound insight of the distortion/perversion of essence-of-meaningfulness and the implications at the comprehensive existential level. This basically has to do with the ontological consequences and implications of the 'existentialist' and 'non-veridical/vacuous' conceptualisation of reference-of-thought and meaningfulness, and so with respect to perception of registry-soundness/soundness-or-authenticity-of-reference-of-thought and perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought, and ultimately the disambiguation of ontological-reference (trace) with respect to postlogism and conjugated-postlogism/dementing-integration individuation characters, and

conviction/intemporal mental-dispositions individuation characters. Basically the ontological-veridicality of meaningfulness is construed in ‘non-veridical/vacuous’ terms of reference-of-thought–categorical-imperatives/axioms/registry-teleology ‘supposedly’ in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and this ‘supposedly-ness’ is only validated if ‘existentially real’ as ontologically-veridical. However there is an ‘existentialist-shortfall’ of the human conviction mind with respect to assuring the ‘existential-reality’ in the face of ‘non-veridical/vacuous terms of reference-of-thought–categorical-imperatives/axioms/registry-teleology. This ‘existentialist-shortfall’ has to do with the fact that it will be ‘a waste of too much mental energy’ to be verifying in detail the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology – of every interlocutor, and so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and can be undermined and usurped, but it is standard as it ‘saves mental energy and time’. This ‘existentialist-shortfall’ is relatively inconsequential where interlocutors are mutually of prelogism-as-of-conviction or existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context and even better when mutually of good conviction (than when one or the other is of bad/poor conviction even though the latter is relatively circumspect and ad hoc in its misrepresentation of reality, and so its consequence with respect to the ‘existentialist-shortfall’ is rather limited as ‘defect of logical-processing-or-logical-implication’ or defect of incidenting-or-logicising-instantiation-of-ontological-

performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance rather than registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> associated with postlogism, whether pathological/psychopathic or enculturated, and conjugated-postlogism). However, with the psychopathic/postlogical and social psychopathic case where non-conviction-or-'existential-decontextualised-transposition'/postlogism as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness is the underlying principle as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging, this 'existentialist-shortfall' is highly consequential as it is the basis of the induced registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect>; by wrongly and so comprehensively implying the 'existential-reality' of 'non-veridical/vacuous <formative>wooden-language—of-temporal-mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought-categorical-imperatives/axioms/registry-teleology articulated in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or otherwise by the rather non-veridical/vacuous implied meaningfulness and reference-of-thought or otherwise by the non-veridical/vacuous implied meaningfulness and reference-of-thought based on inductive limitation nature or 'so-called principles' that are actually fallacious since such arguments cannot truly be universalised as they require that others do not act likewise or their implications should be limited to given target(s) and not be universalised, since their fundamental teleology is not intemporal/not-of-universal-import but speak more of temporal motive. In other words meaningfulness and reference-of-thought is only veridical as an 'ontologically-veridical construct' validated in the construal of the circularity/recurrence/repetition/repeatability delineating existential-

transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-
 reification/superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-
 ontological-completeness that establishes ontologically-veridical-meaningfulness. The human
 ‘existentialist-shortfall’ with respect to ontologically-veridical meaningfulness and reference-
 of-thought thus allows for an overall existential/being framework/cadre of ‘non-
 veridical/vacuous distortion/perversion’ of meaningfulness in hollow-constituting—as-
 disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation induced
 from postlogism/psychopathic and temporal-dispositions-conjugated-postlogism which is
 wrongly projected as of the recurrence in existential-transitioning-or-iterability-trace-of-
 narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-
 ontology by maximalising-recomposuring-for-relative-ontological-completeness as
 ontologically-veridical-meaningfulness, and particularly so as the postlogism/psychopathic
 disposition is basically recursive (recursive denaturing alteration of the essence-of-
 meaningfulness and so ‘pathologically iterative’, in the form of hollow-constituting—as-
 disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation
 ‘denaturing postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-
 and-acts’-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-
 of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-
 enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’
 as non-veridical and dialectically/contendingly out-of-phase, based on
 absolving/fleeting/escaping-reflex-logic and extrinsic-attribution with respect to successive
 sets of interlocutors, and as conjugated-postlogism mental-dispositions equally assume a
 purposefulness of their own (that must be factored-in when analysing
 psychopathic/postlogical and social-psychopathic situations), and conjugated-
 postlogism/dementing-integration dispositions are either progressive (with conjugated-

opportunistic/conjugated-exacerbation) or regressive (with conjugated-ignorance/conjugated-affordability) in their hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives-as-of-cohering-logic-reflex to the psychopath's 'denaturing postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'-with-'successive-shifting-of-the-narratives-and-acts-foci'-construed-as-'deception-of-successively-shifting-or-noncohering-narratives-and-acts' towards 'social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating' as non-veridical and dialectically/contendingly out-of-phase. The centrality of 'concurrently-false-premising-of-meaning thread/tracing' in the entire process of postlogism and conjugated-postlogism/dementing-integration lies in the fact that it provides the 'as non-veridical and dialectically/contendingly out-of-phase hollow-form concurrently-false-premising' for perversion-of-reference-of-thought as 'denaturing postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'-with-'successive-shifting-of-the-narratives-and-acts-foci'-construed-as-'deception-of-successively-shifting-or-noncohering-narratives-and-acts' towards social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, and so together with a 'false-projection-of-bad-or-good-conviction representation of meaning' rather than' veridically of a non-conviction concurrently-false-premising of meaning' (and so, wrongly implying an issue of 'defect of logical-processing-or-logical-implication' or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance rather than veridically the perception of non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism

as hollow-form implying an issue of perversion-of-reference-of-thought; inducing conjugated-postlogism/dementing-integration mental-dispositions (as conjugated-ignorance, conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-chainism and conjugated-temporal-enculturation) involved in conjoining-looping-set-of-narratives of the postlogical/psychopathic hollow-form postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’; and thus leading to temporal-preservation-as-pseudointemporality-preservation. It is critical to understand this underlying thread of concurrently-false-premising by its non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism instigation as a ‘false-sense-of-good-to-bad conviction’ postlogism and conjugated-postlogism/dementing-integration in psychopathic and social psychopathic situations. Thus unlike in the instance of defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance the idea of falling-back to the same exercise to correctly do the exercise (logical-processing-or-logical-implication) in a same or different circumstance, is invalidated when dealing with perversion-of-reference-of-thought as registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> (with regards to both postlogism and conjugated-postlogism); with the implication that there can’t be mutual contention but rather transversality-of-disambiguated-apriorising/axiomatising/referencing wherein the superseding (and sound) reference-of-thought can only construe of the superseded (and non-veridical) as dialectically-dementing/unsoundness-or-inauthenticity-of-reference-of-thought/oblongated requiring psychoanalytic-unshackling/memetic-reorder/institutional-recomposure to transcend into the superseding reference-of-thought in

the very first instance before any ontologically-veridical pretence to mutual contention. The nature of how ‘concurrently-false-premising-of-meaning thread/tracing’ arises can equally conspicuously be understood at childhood psychopathy situation wherein the childhood psychopathy blatantly attempts to initiate a dereifying narrative like in the case of spilling water on a chair highlighted before to which if concurred to by the interlocutor will be the basis for the child to assume apparently normal logical contentions but fundamentally based on this distorted deceptive high-point of concurrently-false-premising as of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. It is basically the same process with an adult psychopath but for the fact of the highly opaque nature of adult psychopath mental-disposition unlike a child psychopath, and as previously explained is ‘maturated’ in its theme on issues that are rather of serious import, ‘spatialising’ (to confound by not acting postlogically/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness within the same spatialisation of relevant social interlocutors, which may raise the hollow nature of its narratives from cross-examination), being ‘indirect’ (by increasingly appearing neutral and unmotivated unlike at childhood), increasingly ‘credulous’ (by effective but unreal instigation of existential-decontextualised-transposition of ontologically-veridical-meaningfulness as temporal-dragging-of-ontology miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-conventioning-rationalising/temporal-enculturation where its ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are all false) and ‘crafty’ (with increasingly greater staging and performance: as the psychopath

perceives instances of rebuttal of its postlogism not essentially in terms-as-of-axiomatic-construct of the rightness or wrongness of the postlogical acts in its personality development into adulthood, as a conviction/prelogical mental-disposition will, but rather in terms-as-of-axiomatic-construct of its failure in performing the postlogical acts well with the idea of how to further confound/muddle hence the reason it is recursive as absolving/fleeting/escaping-reflex-logic to the point of faking remorsefulness or acting as a victim as long as fundamentally its ‘interlocutor is in a prelogism-as-of-conviction relation to its postlogism-formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness mental-disposition’ in order for the interlocutor to go on to conjoin the psychopath’s postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’). Paradoxically, the basis of the adult psychopath ‘concurrently-false-premising-of-meaningful thread/tracing’ is the disposition of a conviction mindset/reference-of-thought to be open-minded in wrongly granting conviction (be it good or bad conviction) to a non-conviction mental-disposition for its deceptive high-point of concurrently-false-premising for producing ontologically non-veridical narratives (in terms-as-of-axiomatic-construct of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology). This ‘concurrently-false-premising-of-meaningful thread/tracing’ can be construed as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness wherein ontologically-veridical-meaningfulness is established by reflecting soundness-or-authenticity-of-reference-of-thought/dialectical-thinking (as-in-

intemporally-preservational) narratives over unsoundness-or-inauthenticity-of-reference-of-thought/dialectically-dementing narratives. Critically, this ‘concurrently-false-premising-of-meaning thread/tracing’ explains how temporal-preservation-as-pseudointemporality-preservation occurs operantly and how by intradimensional cumulative-dynamic-aftereffect it instigates the endemising/enculturating of uninstitutionalised-threshold in the transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness dynamism, as it further extends to explain how and why ‘ontological-reconstituting-as-of-conflatedness’/deconstruction on the one hand and hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation on the other hand drive the dynamism of successive prospective institutionalisations and uninstitutionalised-thresholds respectively; as postlogical/psychopathic-individuations hollow postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ and conjugated-postlogism/dementing-integration individuations conjoining-looping-set-of-narratives to the hollow postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’, in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation to reference-of-thought—categorical-imperatives/axioms/registry-teleology (but then failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and undermining transcendence) of ‘ontologically-reconstituted’/deconstructed institutionalised registry-worldview/dimension’ inducing prospective ‘uninstitutionalised registry-worldview/dimension’ (as prospective reducing-epistemic-abnormalcy), eliciting the intemporal-disposition to ‘ontologically-reconstitute’/deconstruct the new ‘uninstitutionalised registry-worldview/dimension’... and so on, circularly up to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-

infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalised registry-worldview as abjectly-ontological (ontological-normalcy) as ‘it can’t be hollow-constituted’ by its mere ontological-completeness or ontological-abjectness or as-ontological-normalcy. This further highlights the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor as validating the requisite ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure decomplexifying/uninhibiting paradigm for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism, in contrast to a ‘wrongly misconstrued universal human intemporal-disposition nature’ (which is rather a ‘functional construal/conceptualisation’ arising from intemporalisation/institutionalisation within an institutionalised registry-worldview/dimension as secondnature but not beyond its uninstitutionalised-threshold) as it will fail to account and register for the ontological/being-construal-defect of the present as procrypticism which should enable superseding for the prospective transcendent institutionalisation secondnaturing as deprocrypticism.

This explains how a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ gives ontological-anchoring for a Derridean metaphysics-of-presence (due to human limited-mentation-capacity-(as of relative constitutedness towards relative conflation)) propped up by a metaphysics-of-absence (rather as human projection in ‘making-up for’ its limited-mentation-capacity-(as of relative constitutedness towards relative conflation)), and so beyond a Derridean pessimism, ‘making-up for’ with the abstract and infallible ontological-normalcy/postconvergence referencing/correction-tool as postdication, which upholds intemporal-preservation-entropy-or-contiguity—or—ontological-preservation),

to paradoxically transcend and supersede towards deeper ontological-veridicality/intrinsic-reality, as so enabled by the dialecticism of ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’ in construing the reference-of-thought and meaningfulness of ‘the prospective’ (of a more intemporal-potency as it further deepens the socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness over ‘the prior’ in the strive for ontological-normalcy (potency of intrinsic-reality/ontological-veridicality) along with disambiguating human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor as the pathway towards intrinsicness/essence, reality, truth and virtue. Such a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ is rather about the ontological-veridicality of reference-of-thought. It should not be confused with the more familiar issue involving existentially veridical logical-dueness and from thence enabling the construing of relevant soundness or unsoundness of logical-processing-or-logical-implication, and this doesn’t put-into-question the soundness/appropriateness or unsoundness/inappropriateness of reference-of-thought. Thus unlike in the instance of defect of logical-processing-or-logical-implication or defect of incidenting-or-logicing-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s—reference-of-thought-for-social-functioning-and—accordance the idea of falling-back to the same exercise to correctly do the exercise (logical-processing-or-logical-implication) in a same or different circumstance, is invalidated when dealing with perversion-of-reference-of-thought as registry-worldview’s/dimension’s-uninstitutionalised-threshold—defect-<as-Being-or-ontological-or-existential—defect> (with regards to both postlogism and conjugated-postlogism); with the implication that there can’t

be mutual contention but rather transversality-of-disambiguated-

 thought can only construe of the superseded (and unsound) as dialectically-
 dementing/unsoundness-or-inauthenticity-of-reference-of-thought/oblongated requiring
 psychoanalytic-unshackling/memetic-reorder/institutional-recomposure to transcend into the
 superseding reference-of-thought in the very first instance before any ontologically-veridical
 pretence to mutual contention). It is based on perpetuating the
 precedingness/supersedingness/ascendency over reference-of-thought and meaningfulness of
 the intemporal-disposition as ontological over the temporal-dispositions; as the latter, going

 rather implying a ‘structural or paradigmatic registry-worldview’s/dimension’s-

 defines a registry-worldview/dimension as dialectical-dementing and dialectically-out-of-

 constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-
 preservation (take the case of the BODMAS characters highlighted previously where the
 other characters simply went along calculating without factoring A’s defect), such that where
 there is induced derived-perversion-of-reference-of-thought when such ‘defect of logical-

 ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-
 social-functioning-and-accordance dispositions are conjugated to postlogism (which directly
 perverts reference-of-thought), temporal-dispositions are rather then construed as in registry-
 worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-
 existential-defect>’ in line with a ‘dynamic-cumulative-aftereffect of temporal-dragging-of-
 ontology/ontologically-veridical-meaningfulness/intemporality’ of the
 prior/transcended/superseded registry-worldview as being in a dialectically-out-of-phase state
 which is thus dialectically-dementing, while the intemporal-disposition is inclined to
 ‘maximalising-recomposuring-for-relative-ontological-completeness intemporal projection-
 of-thought’ (implying deprocrypticism in its preempting—disjointedness-as-of-reference-of-

thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules as ‘ontologically-reconstituting’ intrinsic-reality and thus with respect to perversion-of-reference-of-thought is inclined to solipsistically-put-into-question/ontologically-reconstituting of the perversion-of-reference-of-thought and imply a prospective/superseding/transcendental registry-worldview that is the new dialectically-in-phase and thus the new ‘dialectical-thinking’ as the prior registry-worldview becomes dialectically-out-of-phase/dialectically-primitive and ‘dialectically-dementing’. A ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ in registry-worldview terms is rendered operant by ‘ontological-reconstituting—as-of-conflatedness’/deconstruction over hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (with ‘ontological-reconstituting—as-of-conflatedness’/deconstruction more like ‘a making-up for projection’ in transcending as a metaphysics-of-absence conceptualisation over hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as a ‘failing, due to limited-mentation-capacity-(as of relative constitutedness towards relative conflation),’ metaphysics-of-presence conceptualisation), forming the very backbone of the huma registry-worldview’s/dimension’s institutionalisation/intemporalisation process that is behind the institutional-cumulations/institutional-recomposures as it dialectically leaves by the wayside human temporality/shortness and temporal reference-of-thought and meaningfulness. Critically, the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology implications are utterly different between such a familiar logical-processing-or-logical-implication and a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ as the latter calls upon ontological-

dementation/dialectical-dementation–stranding/attributive-dialectics in setting up two dialectical reference-of-thought, wherein the one as prior/present/transcended/superseded is dialectically-dementing and the other as prospective/transcending/superseding is dialectical-thinking. In other words, ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ is dealing with perversion-and-derived-perversion-of-reference-of-thought (at the uninstitutionalised-threshold or socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness) is all about articulating the ‘dialectically-in-phase reference’ (which is relatively sound ontologically/intemporally) over the ‘dialectically-out-of-phase or dialectically-primitive reference’ (which is relatively unsound ontologically/intemporally). In registry-worldview terms of temporal-to-intemporal-dispositions ‘dynamic-cumulative-aftereffect of temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality’, this establishes ontological precedence/supersedingness/ascendency. The grander insight and answer to the elusive Derridean conundrum is that the full <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ renders our presencing-as-positivistic meaningful-reference/anchoring-of-meaning/registry/axiomatic-construct/ontological-reference/contending-reference/registry-worldview ‘dialectically-out-of-phase or dialectically-primitive’ as dialectically-dementing to a prospective-as-deprocryptic reference-of-thought, which is ‘dialectically-in-phase’ as dialectical-thinking. The latter (as with all relative dialectical-thinking references) can only be ‘habituated’ over the former, and so ‘by virtue of its more profound intemporality-potency’ validated by its greater ontological-primemovers-totalitative-framework in the middle to long-run with

respect to the dialectically corresponding prior meaningful-reference/anchoring-of-meaning/registry/axiomatic-construct/ontological-reference/contending-reference/registry-worldview. For instance, there is no logical-basis for a positivistic mindset/reference-of-thought to convince a non-positivism/medievalism mindset/reference-of-thought that its reference-of-thought is better but for the fact that its better ontological-primemovers-totalitative-framework will in the middle to long-run be ontologically untenable thus ‘collapsing’ the non-positivism/medievalism mindset/reference-of-thought; and so reflecting ‘Derridean underdetermination-imbued force/violence conception’ and ‘Foucauldian knowledge/power conception construed as knowledge-empowerment/ignorance-disempowerment’ as to mere ‘sublimation affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring/dialectical-thinking’ over ‘desublimation unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring/dialectically-dementing’ so-underlining existence—as-sublimating-withdrawal and existence—as-the-absolute-a-priori-of-conceptualisation. This is the only basis for establishing the relative ascendancy of divergent reference-of-thought (not to be confused with ‘logical-processing-or-logical-implication convincing’ as this by definition will instead make circular references to a prior reference-of-thought that is already established and uncontested in the very first place; thus highlighting the notion that it is the veridicality of the prospective reference-of-thought that precedes and defines the pertinence of an exercise of ‘logical-processing-or-logical-implication convincing’ whereby interlocutors already share this common reference-of-thought, and not the other way around). Such a dialectical-thinking over dialectically-dementing habituation (at their respective ‘uninstitutionalised-threshold or socially-betraying-threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation or dialectically-dementing-

threshold-to-ontologically-veridical-meaningfulness’) with regards to the dialectical-thinking and dialectically-dementing dialecticism of meaningful-reference/anchoring-of-meaning/registry/axiomatic-construct/ontological-reference/contending-reference/registry-worldview’ developed as base-institutionalisation over recurrent-utter-uninstitutionalisation, universalisation over ununiversalisation, positivism over non-positivism/medievalism and prospectively deprocrypticism over procrypticism. It should equally be noted that just as no reference-of-thought will recognise itself as rather dialectically-dementing (from its own present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of itself as dialectical-thinking) as we may appreciate from our relative vantage point being at a higher registry-worldview ontological-completeness-of-reference-of-thought, we will equally have a hard time recognising a dialectically-dementing placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of our present positivistic registry-worldview as rather dialectically-dementing (as procrypticism/disjointedness-as-of-reference-of-thought) from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism higher registry-worldview ontological-completeness-of-reference-of-thought; as in both instances, the ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ highlights that the prior dialectically-dementing reference-of-thought faces a ‘Heideggerian (engaged)-destruktion’, as it is not about substituting our species but enabling the further development of our same species as institutionalisation/intemporalisation, articulated as a Derridean deconstruction involving ‘ontological-reconstituting—as-of-conflatedness’ of the prospective dialectical-thinking reference-of-thought over the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of the prior dialectically-dementing meaningful-reference/anchoring-of-meaning/ontological-

reference. So our natural ‘argumentation reflex’/new logical-processing-or-logical-implication as ‘conviction/prelogical re-engaging reflex’ with respect to the more familiar existentially veridical logical-dueness and from thence enabling the construing of relevant soundness or unsoundness of logical-processing-or-logical-implication do not apply with respect to “Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology”; as the latter is more about an engagement between a prior/transcended/superseded reference-of-thought say in registry-worldview terms like non-positivism/medievalism (which harkens back to its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) as rather hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation to its reference-of-thought–categorical-imperatives/axioms/registry-teleology whether these are failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation and a prospective/transcending/superseding reference-of-thought like positivism (which develops new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) as ‘ontologically-reconstituting’ to uphold intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, no matter what. Such a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ equally takes cognisance of the fact that a reference-of-thought construal is simply as of a dynamic-cumulative-aftereffect conflation, and with perversion-reference-of-thought involving a temporal-dragging-of-ontology/ontologically-veridical-meaningfulness/intemporality rather indirectly as a comprehensive socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or dialectically-dementing-threshold-to-ontologically-veridical-meaningfulness) arising from the ‘cumulative

effect’ of the various temporal-to-intemporal-dispositions individuations dispositions with respect to intradimensionally operant <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of perversion-of-reference-of-thought, as the various ‘temporal-dispositions individuations’ will, at the given uninstitutionalised-threshold, betray ontologising/ontological-depth-of-analysis/intemporal-preservation by hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation at their specific temporal-dispositions individuations thresholds (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation). Thus providing the basis for a ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ of ontological-reconstituting—as-of-conflatedness not only at a registry-worldview/dimension or intradimensional level of hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation but also at temporal-to-intemporal-dispositions individuations level of hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, which then allows for disambiguated ontological-primemovers-totalitative-framework with respect to individuals teleologies as being of any of the various temporal-to-intemporal-dispositions individuations (for instance, psychopath postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-as-reflex-fleeting-logic, psychopath’s or postlogic interlocutor conjoining-looping-set-of-narratives as-reflex-cohering-logic, etc.). This effectively allows for ‘différance conceptualisation’ of hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and ontological-reconstituting—as-of-conflatedness/deconstruction analysis’ of intradimensional phenomena, and rather construed as of the conflation of the corresponding registry-worldview reference-of-thought transcendental dialectics. Such a ‘Différance-

disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ thus goes on to encompass the ontological-articulation-as-extending-into-existentialism-becoming of personhoods-and-socialhood-formation marking a registry-worldview reference-of-thought. The underlying idea here being that faced with incidental issues arising in various effective social contexts, the ‘ontological/intemporal paradigm approach’ is to have at hand a ‘universal cadre’ that conceptualises and is geared towards attending-to/resolving all such and other incidental issues as it is suprastructural to all such incidentals. That universal cadre with regards to issues of perversion-of-reference-of-thought pointing to ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’, and so across all registry-worldviews/dimensions, is human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor conjugating with respect to intemporal/ontological meaningfulness requiring re-institutionalisation/re-intemporalisation in successive institutional-cumulations/institutional-recomposures, cumulating/recomposuring along various ontologising-depth-of-analysis/intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (as institutionalising, universalising, positivising and fully/abjectly-ontologising into deprocrypticism). Human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor as such is ontologically a preceding and defining construct that provides insight on ‘existentialism/full-depth-of-existential-implications issues’ across all the institutional-recomposures since ‘it grasps the ontological-veracity of temporal-to-intemporal-dispositions as it recomposes across all the successive institutional-cumulations/institutional-recomposures’; due to the inherent/permanent nature of human shallow to profound limited-mentation-capacity-(as of relative constitutedness towards relative conflation) (temporal-to-intemporal-dispositions

individuations dispositions) along the successive/snowballing institutional-recomposures with respect to the succession of recomposured human meaningfulness-and-action based-on/given this same form-factor. This implies individuality is then simply ‘the unique incidence’ of ‘human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor individuations dispositions (as form-factor)’ in the ‘receptacle’ that is an individual in a given ‘recomposured-existentialism contextualisation’, and as such a given ‘recomposured-existentialism contextualisation’ harbours other individuals (as receptacles) of their own ‘unique incidence’ of ‘human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor individuations dispositions’. A further implication is that going by ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) that is behind the institutional-cumulations/institutional-recomposures involving the skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor (as human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor individuations dispositions) towards the ascendancy of the intemporal-disposition’s meaningfulness (longness-of-register-of-meaningfulness-and-teleology) as institutionalisation/intemporalisation, this highlights that ‘Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ which is rather about perversion-and-

derived-perversion-of-reference-of-thought (as human-subpotency—

 disambiguation-of-ontologically-veridical-meaningfulness-and-teleology’ is the mechanism
 of transcending the registry-worldview reference-of-thought as ‘ontological-reconstituting—
 as-of-conflatedness/deconstruction’ articulates better and better reference-of-thought—
 categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-

 preservation-entropy-or-contiguity—or-ontological-preservation, and thus recomposuring-in-
 a-snowballing-effect base-institutionalisation, universalisation, positivism, and prospectively
 deprocrypticism. It also points out that the exercise of institutionalisation/intemporalisation is
 not an exercise of human emanance transformation from temporal-dispositions to intemporal-

disposition (as we wrongly imply by intuition) but a registry-worldview's/dimension's institutionalisation or secondnaturing exercise, explaining why we are continually the same species from utter-institutionalisation to prospectively deprocrypticism. This point can be demonstrated by the fact that when a prospective/transcending/superseding registry-worldview is institutionalised, our same temporality/shortness as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor will now rather conjugate temporarily as shortness-of-register-of-meaningfulness-and-teleology or perversion-of-reference-of-thought (conjugated: postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of 'reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing') to the new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at the new institutionalisation's uninstitutionalised-threshold, and thus eliciting the need for prospective intemporalisation/institutionalisation. The need for successive institutional-cumulation/institutional-recomposure thus leads to deprocrypticism which specificity going by the increasing 'rational-realism' of the institutional-cumulation/institutional-recomposure process is to recognise the veridicality of this human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor (as of the intemporal-disposition and temporal-dispositions of postlogism-

 constructs induced by institutionalisation with respect to social-stake-contention-or-

it whether as a temporal extricatory paradigm or as an
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm, and knowledge notionalisation is grounded
 on addressing meaningfulness insightfully in these two respects. The veridical insight to the
 reality of human-subpotency–aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor lies in the fact that the cross-section of humankind at
 any institutionalisation is institutionalised at its socially-betraying-threshold-of-ontologising-
 depth-of-analysis or socially-betraying-threshold-of-intemporal-preservation-entropy-or-
 contiguity—or—ontological-preservation or uninstitutionalised-threshold or dialectically-
 dementing-threshold-to-ontologically-veridical-meaningfulness; as basically
 intemporality/longness is a pathway from base-institutionalisation to universalisation to
 positivism and prospectively deprocrypticism as the fulfilment of ontological-
 normalcy/postconvergence potency, and any pretence at a positivistic registry-worldview to
 be non-transcendable (in terms-as-of-axiomatic-construct of ‘‘Différance-disambiguation-of-
 ontologically-veridical-meaningfulness-and-teleology’’) is untenable as the same could be
 implied at base-institutionalisation and universalisation, which obviously we won’t recognise
 and acquiesce to, implying the temporal-difficulty of dealing with the transcendental
 implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-
 process often lead to ontological-bad-faith/inauthenticity as human-subpotency–
 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor! The grander insight
 being that ‘institutionalisation devising and devices’ already speaks a lot about human
 potential and capacity (and are basically our virtue with no need for ‘false idealisation’ that
 just induces ‘vain-temporality passing for intemporality’), and just as previous

institutionalisations prospered, due to increasing realism, because they did away with deities and spirits in recognising that human potential lies in what humans can do themselves, and strived even more by doing away with essences in recognising that understanding effectively what happens in the world is what gives power and effectiveness over nature, a further extension of rational-realism is to do away with the ‘false feel good’ naivety of construing man by reflex in intemporal terms (not recognising or rather taking full cognisance of the implications that we have temporal-to-intemporal-dispositions as shortness-to-longness-of-register-of-meaningfulness-and-teleology or perversion-of-reference-of-thought teleologies) which failure only leads to unrealistically grounded reference-of-thought and meaningfulness (characterised by the readiness to overlook vices-and-impediments of our registry-worldview/dimension as side notes rather than the idea that these point to our deficiencies and ‘that these are actually the necessary pathway for superseding/transcending’ for prospective paradigms, just as preceding registry-worldviews had to deal with their paradigms that led up to our positivistic registry-worldview) and aspiring for the intemporal while factoring in the temporal. In a further elaboration, there is no pathway for prospective base-institutionalisation without a recognition of recurrence-of-utter-uninstitutionalisation for its superseding, no pathway for prospective universalisation without a recognition of perversion-of-reference-of-thought-of-base-institutionalisation-as-ununiversalisation for its superseding, no pathway for prospective positivism without a recognition of perversion-of-reference-of-thought-of-universalisation-as-non-positivism/medievalism for its superseding, and there is equally no pathway for futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism without a recognition of perversion-of-reference-of-thought-positivism-as-procrypticism for its superseding. However, such an intemporal-disposition of transcendental depth-of-thought, it must be acknowledged is hardly

the panacea of a <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> temporal mental-disposition that is more predisposed to project mainly in terms-as-of-axiomatic-construct of ‘temporal lifespan of living scale’ rather than ‘humanity-at-large spatial and timeless scale’ of intemporal projection-of-thought mental-disposition; with the inherent moral and intellectual superiority of the latter warranting an uncompromising stance over the former, in transversality-of-disambiguated-apriorising/axiomatising/referencing, as has always been the case all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, and so ‘looking down’ at temporality/shortness effects of ‘country-of-the-blind effect’ and ‘crowd effects’. Already with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism, our formalisation mechanisms acknowledge unspokenly/tacitly/by-mere-intuition the veracity/ontological-pertinence of our potential ‘perverting temporal-dispositions inclinations’ by its ‘abstract preemptive mechanisms’, the bigger prospect though lies in fully unleashing such a potential for a knowledge notionalisation emancipation that is consciously aware of the full implications and thus paradoxically uninhibited/decomplexified in dealing with this realism rationally and further expand human intemporal potential as the deprocrypticism registry-worldview. Actually the Deprocrypticism registry-worldview/dimension we will be able to supersede human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor because its preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-

The conceptualisation of ‘knowledge notionalisation’ is rather based on the fundamental notion of a superseding—oneness-of-ontology with respect to knowledge-and-virtue conceptualisation such that so-construed it is rather a ‘referential-as-natural’ conceptualisation of knowledge that consciously tautologically subsumes temporal-to-intemporal-dispositions (as opposed to our present ‘categories-as-artificial’ conceptualisation of knowledge often predisposed to overlook the temporal, and critically so, with respect to understanding the social as of the human condition together with inherent ontological-veridicality in naively assuming the intemporal/longness-of-register-of-meaningfulness-and-teleology by reflex focussed mostly on inherent ontological-veridicality, and whose artificially-demarcated subject-matters and hierarchical relationship with the first-order-ontology/philosophy is by itself a structural/paradigmatic shortcoming with respect to our understanding possibilities, given that our artificial subject-matter categories-schemes do not precede nor define intrinsic-reality as ‘knowledge-in-its-oneness-and-entirety’), and is postconvergent in its ontological-tautologisation/existential-reference conceptualisation of reality in a unison of second-order-ontologies with the first-order-ontology/philosophy wherein second-order subject-matters aren’t discontinuously hollowed out from the first-order-ontology but rather their inter-relational and hierarchical relationship with the first-order-ontology (philosophy) is subsumptive with the latter as superseding—oneness-of-ontology and the place for elucidating epistemic disagreement (with the practical desire for an appropriate proportion of subject-matter experts directly studying and understanding the first-order-ontology/philosophy elucidations and the possibilities implied for their subject-

matters), and as the first-order-ontology/philosophy furthermore is the ‘abstractly inventing conceptualising construct that construes the requisite overhanging knowledge psychical-orientation/psyche’, as the fact is it was a philosophical orientation whether explicit with Descartes’s ‘I think therefore I am’ establishing the positivistic mindset/reference-of-thought/consciousness-awareness-teleology so excellently, with the later requalification of Hume, Kant and others of that same mindset/reference-of-thought/consciousness-awareness-teleology and actually ‘in complement to it’ than truly criticisms (which is often philosophically misconstrued, as Descartes’s ‘thinking proposition’ is so profound that it is the very ‘transparent pillar or social universal-transparency for the tenability of the supposed critiques of rationalism, which are actually in complement to it, by latter philosophers, and it is rather the failure to compare what the ‘thinking proposition’ implies with respect to the prior as the core-medieval mindset/reference-of-thought/consciousness-awareness-teleology of essences, alchemies and superstition as an altogether different <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought of human mindset/reference-of-thought/consciousness-awareness-teleology, together with the naïve predisposition for categorisation of knowledge in artificial human categories undermining the ‘natural referentialism ontological-normalcy/postconvergence nature of knowledge’ that is at the basis of misapprehending the complementing as criticisms, as in fact these will actually be better construed as Extended Rationalism – rationalism, empiricism, subjectivism, realism, idealism, phenomenology, as the fact is none of the latter claims to be ‘irrational’) or less-explicit with Copernicus, Galileo, Darwin, etc. scientific endeavours/postures that ‘invented-and-upheld’ the positivistic psyche/psychical-orientation for our present-day positivistic knowledge form, as the fact is Descartes ‘abstractly-thinking-proposition psyche’ is not a given as of its epistemological and ontological implications, and in the same token there is a case to be made that suprastructuralism as a meaningful-frame ushered in by post-structuralism will

Going by our mirage/illusion-of-the-present/present-consciousness we will possibly think otherwise, but this rather points to how our forerunners felt psychologically when their worlds built of deities and later essences were being put into question by ‘an increasing realism insight’ of an intrinsic-reality that is ontologically given and in ontological-normalcy/postconvergence with respect to us, with the implication that it is our psyche that ‘gives-in’ to intrinsic-reality and not the other way around.

Basically, a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’ (in defining individual, summative intradimensional and

 epistemic-conflatedness’, as the given subject-matter in a full-blossoming unison of second-
 order ontology with first-order ontology. Insightfully, superseding–oneness-of-ontology
 points out that human ascription of knowledge into various categories as science, humanities,
 arts, etc. is actually an unnatural differentiation that has to do with arbitrary human
 categorisation out of practicalities of division of labour and organisation, while equally
 leading to confusions. Actually knowledge as a whole imply the two basic elements: its
 conceptualisation and the causal effectiveness thereof of the conceptualisation. Knowledge
 conceptualisation and causal effectiveness can successively be construed in three respects;
 specific, intermediary and general, with all aspects of conceptualisations being notionally
 philosophical as providing meaningful insights while all aspects of causal effectiveness
 provide confirmatory and predicative-insights to meaningful insights. (Interesting it is
 important to note that empiricism speaks of the possibility of knowledge revelation by the
 inherent nature of the subject-matter and not an abstract approach as often naively construed;
 with the implication that empiricism can be construed as deriving from a confirmatory
 analysis of a mere insight, observation or experiment depending on the inherent nature of the
 said subject-matter, so long as this then allows for ontological-primemovers-totalitative-
 framework.) Thus notionally speaking all human knowledge is philosophical knowledge as
 being about meaningful insights. For practicalities, the general basis for establishing
 conceptual pertinence as of the more general abstract notions of knowledge is attributed to
 the philosophical disciplines (involving philosophy and the philosophies of subject-matters
 including sciences, and its extension in the humanities and social sciences) even though in
 further practical terms such construal will be punctually undertaken as well when relevant to
 specific disciplines of immediate cause-and-effect construals/conceptualisations. This equally

practically partakes in the denotative and connotative disambiguation of subject-matters. The practical basis for intermediate conceptual pertinence has to do with the inter-relation and delineating of subject-matters with a lesser direct implication of the philosophy, and even less so when it comes to the practical basis for specific conceptual pertinence as practised within subject-matters/specialisms themselves. Thus in human practical terms, knowledge can be construed as a wheel made up of three parts with the central part viewed as the hub of the wheel (philosophical) that provides control (as asking the most basic notional questions of meaningfulness and logic), the outer part of subject-matter (tyre) that connects with the ground (as causal effectiveness asking the more immediate questions of specific domains of nature and reality) and the middle part as the rim and spoke of the wheel holding the other two parts together (providing logical coherence, construed both within subject-matters/specialisms and philosophical disciplines). For practical purposes though, any of these conceptualisation – logical-coherence – causal-effectiveness dispositions can be overemphasised or underemphasised, but it is critical to grasp that any such underemphasising or overemphasising doesn't speak of a change of ontological-veridicality/intrinsic-reality but a human practicality purpose (conventioning) which pertinence lies in not losing sight of and ultimately recovering the superseding ontological-veridicality/intrinsic-reality. This basic conception of knowledge fundamentally explains what to expect of the philosophical as first-order ontology or the sciences including all other applied studies of second-order ontology. Often times, issues are raised which underlying presumption/presupposition/premise should actually be wholly or partially of fundamental philosophical conceptualisation of meaningfulness-and-teleology but naively purported to be answered wholly as of a second-order ontology terms. Broadly speaking philosophy as the first-order ontology (acting as a cog) has been more about providing the overall scope for meaningful insights and the broader conceptual background for other subject-matters while

science and other second-order ontology disciplines (as the wheel that meets the ground) draws on a sound and broad philosophical conceptual background to articulate causal effectiveness (as of the inherent nature of their subject-matters). It is rather naïve to depart from a philosophical angle and try to imply causal effectiveness of a science nature (rather than effective validation techniques relevant to philosophical conceptualisation) just as the same holds true the other way round. The reality is that if science was the best method to answer philosophical questions as of its subject-matter, then it would have already taken over from philosophy as practised and the reverse holds true as well, as in reality it is all about human practical organisation in construing a superseding–oneness-of-ontology while dealing with our given limited-mentation-capacity-(as of relative constitutedness towards relative conflation). The fact is science is structurally bound to construe causal effectiveness as of the inherent nature of its domains of reality and philosophy is fundamentally conceptualising by its very nature and providing the broad conceptual background for all human knowledge with the implication that without such conceptualisation the historical insight for the need and upholding of the sciences and scientific method wouldn't have come about while equally defining the limits of what science can achieve. Insightfully and beyond their practical differentiations, with all knowledge actually being conceptually philosophical, a lot of science is actually a sort of impromptu and punctual heuristic philosophy at sciences subject-matter level. So it is rather critical here to distinguish between a human denotative and segmenting exercise (as not determining inherent reality) which is conventioned knowledge and the inherent connotation of the reality of knowledge as the superseding knowledge ontology inherent structure. In that sense, one often misconstrued notion with respect to notional philosophy is that it is not as successful as the sciences, which is a naïve conceptualisation as the very idea of such notional philosophy is its conceptualising irrigation of second-order ontology with the more immediate and ontological-primemovers-totalitative-

framework success being not only a success of the second-order ontology but a percolated success of notional philosophy as of its historical development of human conceptualisation in inducing the second-order-ontologies and irrigating them with meaningful-insights, whether we talk about the sciences, jurisprudence and law, ethics, engineering, aesthetics, etc. (This insight means that the classical conception we have of philosophy as mainly about great philosophical thinkers is incomplete as we equally need to understand the ‘organic-knowledge’ as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of other thinkers as they were developing second-order ontologies, and analyse such thoughts in philosophical terms and make these part and parcel of philosophy without necessarily going deeply in their concrete ‘operant mechanical-knowledge’ except where this clarifies their ‘organic-knowledge’. That’s why the work of such transcendental thinkers like Newton, Galileo, Einstein, Bohr, Pasteur, etc. are ‘more than just technicalities’ as these involve a certain commitment as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality which needs to be properly relayed not only in the further development of the ‘mechanical-knowledge’ they advanced but equally about elucidating the profundity of knowledge itself. This insight is equally valid with respect to great artists like Michelangelo, among others. While critically, highlighting how human emancipation has been associated with such ‘organic-knowledge’ brought by scientists, artists and philosophers as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across various epochs, such that the history of philosophy is much more than just biographical and analytical accounts of past masters but further involves the active relation of these in construing the ‘becoming-and-emancipating human psyche as of individual and social implications then and

now'.) 'Notional philosophy' as articulated above is the very profundity behind the human ('social framework of intersolipsistic deambulation') imagination, projection, development, articulation and conceptualisation-resourcing possibilities for all second-order ontologies; not so as an instant present development (of philosophers and philosophy-impacting scientists and artists) but rather as of its historical development, accrual and drive into today's second-order ontologies, as inventing the overall knowledge psyche and their perspectives in the very first place. A notion that is often hardly grasped because of the poor imagination of the notional philosophical work across epochs inducing human <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought, and psychically and institutionally bringing about our present conventioned knowledge being naively related to as if our present mentation-capacity and insights are simply a given, lacking a full appreciation of prior notional philosophical transformations of mindsets/references-of-thought/psychologisms and human developments of knowledge construal/conceptualisation, and correspondingly lacking a full appreciation of prospective overall human knowledge development possibilities of future philosophical <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought as of a prospective mindset/reference-of-thought/psychologism for the construal/conceptualisation of all human knowledge. It should be noted that this articulation about the role of notional philosophy speaks of the ontologically philosophical beyond just conventioning/classical sense of conceptual philosophy. That is, a scientist that develops insights about issues of philosophical import is ontologically contributing to philosophy even though qualified as a scientist by conventioning (as the natural ontological construct of knowledge as intrinsic-reality/ontological-veridicality doesn't recognise our artificial delimitations of knowledge organisation), just as the reverse equally holds true as well. Consider that Aristotle set out as a philosopher but in many ways has turned out to be the true father of science. Notional philosophy in the bigger framework construed of organic-

knowledge itself as of ontological-faith-notion-or-ontological-fideism—imbued-
 underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-

 be construed as defining itself ‘in its self-referencing/nombrilism as being the ultimate
 grounding of meaningfulness-and-teleology’, be it at the backend in reflecting the
 ontological-contiguity—of-the-human-institutionalisation-process. That is the most important
 work of all human jobs whether it is done as of ‘institutionally secondnature construed

 doesn’t guarantee such a requisite <formative>epistemic-growth/transvaluative-
 rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness projection even
 though the latter does ensue in any case as of notional philosophy. Such
 ‘<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-

such retrospective-and-thus-prospective insight by their temporal extricatory paradigms in distractive-alignment-to-reference-of-thought as of epistemic-abnormalcy. This is enabled by the tautological/referential/existential-reference nature of intrinsic-reality/ontology/existence allowing for ‘predication or predictive-insight’ and ‘postdication or projective-insight’, the latter very much attached with the arts and aesthetic forms but hardly hitherto associated with the predicting of the former like in scientific constructions, though such postdication-as-predictive can possibly be enabled as ‘metaphysics-of-absence conceptualisations’ in domains concerned with predication as introduced (besides the ‘projective intemporal-preservation-contiguity/referential analysis’ of this author in this paper taking cognisance of metaphysics-of-absence as the need to supersede our illusion-of-the-present/present-consciousness/epistemic-totalising–self-referencing-syncretising/mirage) in the form of conceptualisations based on ‘creative-spaces-of-metaphors’ (or for that matter the jargon as can reasonably be expected of the thoroughness of all inherently analytical subject matter especially in this case by the highly exploratory nature of such analysis, as such writing are not ‘story writings’ nor should the artificial excuse in the case of core post-structural writings like quoting Einstein in saying that good science is associated with beautiful equation as obviously just as $E=MC^2$ is beautiful but the underlying physics is a head-scratcher one can equally say ‘there is nothing outside the text’ is a beautiful statement but don’t expect the underlying Derridean deconstruction and implications to be child’s play, nor should the fact that the meaningfulness of the social ‘being closer to us emotionally’ compared to the natural sciences that this should preclude its analysis if and when we are temporally uncomfortable with it, as that is part and parcel of our human development as our forerunners had taken their responsibilities about that to usher in our positivistic registry-worldview/dimension and we can’t exclude ourselves from prospective transcendence), which ultimate knowledge-credential is not in the ‘metaphors themselves’, as misunderstood by naïve critics, since these

are just a ‘conceptualisation detour’ with respect to apprehending a fleeting-perception of reality but rather ‘as-of-the-implied-or-derived-elucidation’ which is the actual ‘product of ontological import’, by such thinkers as Deleuze, Guattari, Lacan, Rorty, Derrida and others, and so, as pertinent and as so-validated by ontological-primemovers-totalitative-framework and insight. Central to such ‘ontological-tautologisation/existential-reference conceptual-scheme’ is the idea of superseding–oneness-of-ontology, as obviously there can’t be any predication-and-postdication without a ‘sole ontology’ with a ‘sole intrinsic ontologically-veridical-meaningfulness’ (otherwise meaningfulness will be chaotic-and-meaningless), not to be confused with human constantly evasive meaningful grasp of intrinsic-reality/ontology having to do with our relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought due to our limited-mentation-capacity-(as of relative constitutedness towards relative conflation), with such a conceptual scheme thus enabling aetiologisation/ontological-escalation. However, with our human limited-mentation-capacity-(as of relative constitutedness towards relative conflation), we are actually involved in a ‘developmental notional-teleology of ontology’ construed as coherent shallow superseding–oneness-of-ontology to coherent deeper superseding–oneness-of-ontology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; with such limited-mentation-capacity-(as of relative constitutedness towards relative conflation) reflected and encapsulated in the operant concept of ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation (as relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, with

With respect to social-and-confliction-stakes ‘the same-terms-of-expressions/seemingly-same-implied-meaningfulness’ have different implications with respect to whether the interlocutor is a conviction/intemporal interlocutor or postlogical/psychopathic/postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ interlocutor or conjugated-postlogical/conjoining-looping-set-of-narratives interlocutor, and is what makes it a requisite to construe as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-

iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-
 reification/superseding–oneness-of-ontology by maximalising-recomposuring-for-relative-
 ontological-completeness. We can't be certain about the ontological-veridicality of 'separate
 dots as separate narratives' themselves as the 3 different interlocutors can all express 'the
 same-terms-of-expressions/seemingly-same-implied-meaningfulness' going by their mental-
 dispositions with the latter two, postlogical/psychopathic/postlogical-backtracking—iterative-
 looping-'set-of-dereifying-hollow-narratives-and-acts' interlocutor or conjugated-
 postlogical/conjoining-looping-set-of-narratives interlocutor, being deceptive by their mental-
 dispositions (recursively with postlogical/psychopathic, progressively with
 exacerbation/opportunism and regressively with ignorance/affordability). However, we can
 ascertain the true motive and ontological-veridicality of the 3 types of interlocutors by the
 'trace of their dots as separate narratives' in revealing their true mental-dispositions and
 motives, as of the circularity/recurrence/repetition/repeatability as of 'existential-
 transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-
 reification/superseding–oneness-of-ontology' quickly reveals that however coherent and
 sound each separate narrative of the postlogical/psychopathic/postlogical-backtracking—
 iterative-looping-'set-of-dereifying-hollow-narratives-and-acts' interlocutor or conjugated-
 postlogical/conjoining-looping-set-of-narratives interlocutor (particularly as recursive and
 progressive), the 'perception-together-in-succession or as-a-trace' of their 'expressed dots as
 separate narratives' reveals 'disjointedness-as-of-reference-of-thought' misappropriated
 meaningfulness-and-teleology in arrogation that shines the light on the fundamental
 driver/ontological-primemovers-totalitative-framework of the postlogism/psychopathic and
 conjugated-postlogism interlocutors as well as the apriorising/axiomatising/referencing-in-
 hollow-staging-and-performance-caricaturing nature or vague-rhyming-or-copied-mimicry-
 or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-

subknowledging of their narratives (whether-consciously-or-unconsciously) whereas the same exercise with conviction/intemporal interlocutor will show a coherence of the trace-of-dots-as-narratives and actually in the case where a conviction interlocutor is actually the target of such postlogism-slantedness inducing ‘faulty-mentation-procedure-deception-or-urge’ about the latter, that trace-of-dots-as-narratives from the conviction and the postlogical/psychopathic and/or conjugated-postlogical interlocutors will reveal the ontological nature of the ‘faulty-mentation-procedure-deception-or-urge’. The reason why ‘separate dots as separate narratives’ lead to postlogical and conjugated-postlogical faulty-mentation-procedure-deception-or-urge is that their extrapolation is actually an extrapolation of perversion-of-reference-of-thought of ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness as if conviction/intemporal’ whereas retracing of the mental-disposition foregoes elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity of separate dots as separate narratives, and thus is existentially involved in construing the reality to the point of revealing ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation in the trace-of-successive-dots-as-(hollow)-narratives that shines the light on the fundamental driver/ontological-primemovers-totalitative-framework of the postlogical and/or conjugated-postlogical interlocutor as well as the apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of its narratives. That’s why spatialisation, indirectness and craftiness are critical to postlogical and conjugated-postlogical mental-dispositions so as to avoid their prospective interlocutors ‘putting one and one together as will arise in an existentially veridical context and so that their interlocutors should rather undertake elaboration-as-mere-

extrapolating/constituting/abstracting/deducing/inferring-of-elucidation-outside-existential-contextualising-contiguity the purely abstract meaning as seemingly sound separate dots as separate narratives but which are non-existentially real, rather than existentially trace the successive dots as separate narratives. This is what enables the establishment, as of the circularity/recurrence/repetition/repeatability as of ‘existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding—oneness-of-ontology’, at the relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought-threshold (as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation), defining the typical apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing psyche of successive uninstitutionalised-thresholds (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought manifestation intradimensionally, and so-construed from the perspective of their corresponding superseding/transcending/prospective institutionalisations) as recurrent-utter-uninstitutionalisation dementing-psyche, ununiversalisation dementing-psyche, non-positivism/medievalism dementing-psyche and our uninstitutionalised-threshold as procrypticism/disjointedness-as-of-reference-of-thought dementing-psyche. This equally reflect how the childhood psychopathy psyche is dementedly perceived though at childhood temporal-dispositions-conjugated-postlogism/dementing-integration to psychopathy is not significant as its perversion-of-reference-of-thought is still universally transparent as delirious and thus it doesn’t elicit temporal-preservation by conjugated-postlogism/dementing-integration, since it is not spatialising, maturing, and being sufficiently indirect, credulous and crafty to be non-transparent by its motives and acts. Ultimately, this highlights generally that at relative-ontological-incompleteness-of-prior-

reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought-threshold (as-it-is-thus-‘in-wait’-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation)s or uninstitutionalised-threshold, hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/extrapolating/inferring to derive essence-of-meaningfulness is not a credible notion with respect to an human animal of temporal-to-intemporal-dispositions wherein ‘same-terms-of-expressions/seemingly-same-implied-meaningfulness’ is bound to be perverted by temporal-dispositions, though within institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation this is secondnatured, for instance, with respect to the fact that a medieval postlogical phenomenon like witchcraft cannot be credibly implied both in terms-as-of-axiomatic-construct of eliciting abstract/extrapolating/inferring hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation nor existential-transitioning/iterability-tracing-of-dots-as-(hollow)narratives in our present institutionalised positivistic registry-worldview. Vitaly, with regards to postlogism and conjugated-postlogism, it is always about ‘falsely and parasitisingally/co-optingly’ staking a claim to the reference-of-thought in order to wrongly elicit its implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology to a prospective interlocutor, and so recursively (psychopathic/postlogical-character), progressively (conjugated-exacerbation and conjugated-opportunism characters) and regressively (conjugated-ignorance and conjugated-affordability characters). Generally, this insight harkens back to the previous elucidation with regards to the BODMAS characters where the pure arithmetic operation as a deductive/inferring/extrapolation exercise is no longer valid when the fundamental axiom is breached due to a pathological condition, and

with the ‘lack of constraining social universal-transparency resulting in other temporal characters, beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, operating arithmetic as if the condition never existed; and thus there is a need for a retracing to establish the existential reality of the breaching or non-breaching of axiomatic rules, before determining the ontological-veridicality of the results of the arithmetic operations. In a further elucidation of psychological/psychoanalytical basis of meaningfulness representation, this further confirms the fact that temporality/shortness (shortness-of-register-of-meaningfulness-and-teleology) and intemporality/longness (longness-of-register-of-meaningfulness-and-teleology) are both basically the same notion of intemporality, but with temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) being rather in various grades of poor execution of intemporality/longness (longness-of-register-of-meaningfulness-and-teleology) but that in so doing such temporal-dispositions of individuation ‘falsely retaining their teleology/purposefulness’ as if of intemporal-disposition leading to their ‘pseudointemporality’ (and so with respect to their apriorising–registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), inducing structural/paradigmatic registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> where such false-retention construed as temporal-preservation-as-pseudointemporality-preservation is rather in conjugated-postlogism; with the idea that this ‘false-retention’ by temporal-dispositions individuations results in ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation with respect to ontologically-veridical-meaningfulness as meaningfulness become ‘an exercise in apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’

(whether-consciously-or-unconsciously), as can be so established as of the circularity/recurrence/repetition/repeatability delineating existential-transitioning-or-iterability-trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding-oneness-of-ontology by maximalising-recomposuring-for-relative-ontological-completeness. This conceptualisation of temporality/shortness as being about failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporality/longness (which perfectly syncs intemporality/longness and temporality/shortness as longness-of-register-of-meaningfulness-and-teleology and shortness-of-register-of-meaningfulness-and-teleology, beyond just a qualification notion but rather an <formative>epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context construct), equally perfectly renders the notion of temporality/shortness and intemporality/longness operant for a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme’. The notion of temporality/shortness as actually ‘pseudointemporality’ provides a deeper insight to such traditional notions as bad, evil, wicked, etc. that we attach to temporal-dispositions (specifically, in the moral sense as temporality/shortness is much more than morality as derived from intemporality/longness which is about ‘full potency of ontological-and-virtue effectiveness’) by de-emphasising the naïve but wrong intuition that these notions have their own ‘mental-dispositional drives-as-teleology’ (to be bad, to be evil, to be wicked, etc.) by rather highlighting that ‘mental-dispositional incapacity for intemporality’ of such

individuations induces ‘disjointedness-as-of-reference-of-thought’ misappropriated

the basis, in dynamic-cumulative-aftereffect, of given registry-worldviews/dimensions vices-and-impediments, and how these can be superseded/transcended, because the reality is that humans have transcended retrospectively to the present and there is no particular reason to think that there can't be prospective transcendence going by human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. Such a 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' 'psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme' will further highlight in contrast to the present 'psychology of qualification/qualification-schemes' that human psychology is actually much more of a becoming dynamic construct, rather than static, which wholly readjusts to human deepening grasp of ontologically-veridical-meaningfulness/intrinsic-reality/existence as a retrospective, present and prospective development; that collectively-and-inclusively-individuals-and-their-social-constructs do have latitude for the choices they make in existence more than and beyond the limits of personality traits and social character, and further that the human mind is 'not irresponsible' with respect to given personalities dispositions (whether with respect to abnormal psychology or functional psychology) with the idea that such stances taken by a 'psychology of qualifications/qualification-schemes' induces a confounding-effect with respect to individual personalities themselves in assuming their self-emancipation possibilities and what they can aspire for together with their interveners/relators, whether social or clinical. Such insight do arise when we factor in that all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, human secondnaturing is actually the very central ontologically-led developmental element as the critical tool of human psychological renewal that enabled 'an animal in many ways' to emancipate itself developmentally across epochs such that the 'insightful depth' of such a developmental

understanding of human psychology is necessarily much more than ‘a cultural universe of several decades of modernity’, as it conceives that human psychology is an ongoing active construct such that a ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ rather captures the ontological undercurrents that constantly redefine human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as it recognises that (and explains why) the mental-disposition/consciousness-awareness-teleology of a recurrent-utter-institutionalised mindset/reference-of-thought varies from that of a based-institutionalised/ununiversalised mindset, the latter from that of a universalised/non-positivistic-or-medieval mindset, the latter from that of a positivistic/procrypticism mindset/reference-of-thought (our own mental-disposition), and the latter from that of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism mindset, while not ignoring as well the intradimensional spectrum of variation within each mindset; and wherein ontological-dementation/dialectical-dementation—stranding/attributive-dialectics is the central concept for such a succession of human ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ renewal retrospectively, presently and prospectively, with ontological-normalcy/postconvergence teleology being the central determinant driving and defining human psychology construed by its metaphysics-of-absence as reducing-psychological-abnormalcy. Interestingly, psycho-ontological-tautologisation/psycho-existential-reference as a human disposition for correspondence/equalisation/squaring-off with existence/intrinsic-reality/ontology, as of sub-potency-to-full-potency as qualified by recomposuring from shallow limited-mentation-capacity-(as of relative constitutedness) to deeper limited-mentation-capacity-(as of relative conflation), speaks of the mind as an

abstract ‘teleologically imbricated tautologisation/existential-reference’ (‘teleologically imbricated tautologisation/existential-reference’ implying: striving for ontological-normalcy/postconvergence, in-lockstep/intertwining of success-and-pseudo-success/failure as institutionalisation-and-pseudo-institutionalisation/uninstitutionalised-threshold/apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing), as the teleological driving-seat of the body validating dualism as ‘imbricated dualism’; the human mind being rather ‘an abstract imbricated transcendable/maximalisable placeholder-setup-of-tautologisation/placeholder-setup-of-existential-reference for prospective ontological-normalcy/postconvergence superseding the human body, as entailing human existence’. This points out that the potency for ontological-normalcy/postconvergence is tautologically inherent in our being construct, and that abstract tautologisation/existential-reference as human teleology is the mind as ‘human <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) as subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’, as our being construct is more than just ‘constituted-matter’ but rather ‘being within the contextualisation potency that is existence’ and thus imbued with existential tautological/existential-reference supotent-mimetic-teleology as the human-mimetic-mind. Existence is actually a contextualising-contiguity of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality (so-construed from our given ‘limited-mentation-capacity as of our relative-ontological-incompleteness-of-prior-

construed-as-from-prospective-reference-of-thought'. Existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality in sync with existence 'speaks of threaded-or-intertwined subsumed referencing of all in existence' beyond just elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity, thus validating philosophically such approaches in physics as string-theory concepts lending support to the string phenomenology approach. This conceptually implies that the 'all-in-one/oneness' (of ontology) implied of existence supersedes our elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity conceptualisations, and while these are 'mental tools of analysis' we have in grasping knowledge, as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity these are rather 'sub-par to the full grasp of existential reality' (given that our limited-mentation-capacity-(as of relative constitutedness towards relative conflation) as of our relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, will often fail to reference the underlying being-construal/existential-reference/existential-tautologisation 'for a contextualising-contiguity of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality that syncs with existential reality'. For instance say in the case of the BODMAS characters highlighted before, where the other characters ignore the given pathological condition in simply operating arithmetic rules, however, the inherence of

existential reality will not be superseded simply by such elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity of arithmetic rules in derivation as ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’, as such arithmetic rules of extrapolating/constituting/abstracting/deducing/infering will have to be adjusted-in-a-‘threadedness/imbricatedness/recomposuring’ like subtracting 1 to A’s results to sync with the existential reality implications of A’s pathological condition of wrongly adding 1 to the correct result of arithmetic operations), and as metaphysics-of-presence (i.e., ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’) metaphysics-of-absence is rather the ontological-normalcy/postconvergence correction-tool of postdication, as-of projective-insight for predication, which is equally construed as ontological-reconstituting-as-of-conflatedness/deconstruction (i.e. implying ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’). This is more of a simplistic though conceptually correct demonstration, and the implications to meaning and meaningfulness can be much more elaborate and as explained further below, with the notion of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity as ontologically-veridical only as abstract-construal (such as the abstract arithmetic operations) but its wrong ontological derivation in lieu of being-construal/existential-reference/existential-tautologisation is ontologically wrong/non-

veridical as it leads to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’ (wherein the elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity in derivation of the abstract arithmetic operations wrongly overlooks existential-reality as of being-construal/existential-reference/existential-tautologisation given by the existential pathological condition), instead of ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’ as the ontological-veridicality of being-construal/existential-reference/existential-tautologisation (which in the face of the ‘existential pathological condition’ as being-construal/existential-reference/existential-tautologisation upholds existential-reality by way of imbricatedness/threadedness/recomposuring by subtracting 1 from A’s result to existentially account for its pathological condition). It is thus not a coincidence that a Deleuzian approach and string phenomenology approaches intuitively develop the same insight about the need for ‘creative-spaces-of-expression/metaphors’ to be able to conceptualise by projective-insights on topics that critically highlight this more fundamental nature of existential reality as a contextualising-contiguity of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality so-construed from the perspective of our limited-mentation-capacity-(as of relative constitutedness towards relative conflation) as of our relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-

construed-as-from-prospective-reference-of-thought, in order to avoid elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity inducing ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. It is important to grasp here that elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity are not ontologically wrong concepts in themselves as of abstract-construal but are ontologically wrong when implied in lieu of being-construal/existential-reference/existential-tautologisation as this leads to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. Philosophically, this critically brings up the reality of how the ontological-veridicality of an ‘abstract-construal’ and a ‘being-construal’ can be established; going by human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) as of our relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought. An abstract-construal is of vague-reference/vague-tautologisation, and is of existential import only as of a being-construal, and is effectively conceptualised by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity and this is ontologically-veridical by abstract-construal/abstractly. Being-construal on the other hand is of existential-reference/existential-tautologisation as of becoming/being (as practically qualified by our consciousness-awareness-teleology). If by mere derivation of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity (given human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) as of our relative-ontological-incompleteness-of-

prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought) is implied as being-construal, this will lead to ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’ which is ‘conceptually’ ontologically non-veridical. Being-construal as of existential-reference/existential-tautologisation needs to be conceptualised as in existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect in order to be ontologically-veridical, and besides that imbricatedness/threadedness/recomposuring gets deeper the deeper the being-construal/existential-reference/existential-tautologisation. The elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity as of abstract-construal as ontologically-veridical harkens to a disposition for abstract predication (predictive-insights) while ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’ as of being-construal/existential-reference/existential-tautologisation harkens to a disposition for postdication (projective-insights as predicative, brought to their full potential as metaphysics-of-absence). But, then how is the ontological-veridicality of being-construal/existential-reference/existential-tautologisation attained? Though ontologically non-veridical, ‘virtuality-

or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference' as metaphysics-of-presence has as metaphysics-of-absence 'projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect'), which is ontologically-veridical with regards to being-construal/existential-reference/existential-tautologisation. More precisely, 'projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect' as with all metaphysics-of-absence can be ontologically-reconstituted/deconstructed from the corresponding metaphysics-of-presence as 'virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference', even though the latter is ontologically wrong/non-veridical (not to be confused with elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity which is ontologically-veridical as abstract-construal). This ontological-reconstituting—as-of-conflatedness/deconstruction is rather a 'honing exercise'/recomposure of 'virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference' to deliver 'projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-

Critically important to grasp is that the notion of reference-of-thought is rather a ‘being-construal’/existential-reference/existential-tautologisation that implies ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-

ontologically-same-existential-reality/dynamic-cumulative-afereffect/aftereffect', and should not mistakenly be confused with the notion of an abstract-construal since this is ontologically non-veridical as it will lead to virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference; as reference-of-thought as being-construal/existential-reference/existential-tautologisation makes reference to the comprehensive implications existentially with respect to mental-dispositions along the apriorising–registry-elements /anchoring-of-meaning-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology, and involving the potency of both consciousness-awareness-teleology representations and implications, for instance, the difference of the reference-of-thought as an alchemist and a chemist is much more than just an on-occasion/incidental difference (difference in abstract-construal) with respect to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity of meaning but carries derived being-construal/existential-reference/existential-tautologisation differences with respect to their consciousness-awareness-teleologies and registry-worldviews/dimensions <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. In fact, ontological-reconstituting–as-of-conflatedness/deconstruction which always refers rather to the issue of reference-of-thought is actually of 'projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-afereffect/aftereffect' nature and it is about implying a prospective reference-of-thought,

rather than just a *différance* (differentiation) as within the same prior/given reference-of-thought as of a basic abstract-construal. This is one of the reasons for its misapprehension as it implies an overall change in the reference-of-thought of appreciation which ends up putting everything ‘of old/of prior’ into question, contrary to the traditional analytical expectation of selective-or-limited critique/contestation usually of a non-transcendental nature. Insightfully, the overall relation of deconstruction as ontological-reconstituting-as-of-conflatedness to the existential framework of ontological-veridicality should further allay the confusion. Deconstruction is actually tautological with respect to intrinsic reality/ontological-veridicality because it is always about the same existential reality being dealt with by improving human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) as shallow-limited-mentation-capacity to deeper-limited-mentation-capacity ontological-reconstituting-as-of-conflatedness; generating differing consciousness-awareness-teleology outcomes of the same existential reality whether talking of deconstruction at the registry-worldview/dimension or intradimensional level or individuation-level. Since it is always about the same existential reality, in effect the readjustment for intrinsic-reality/ontological-veridicality is actually a human ‘changing-of-the-psyche’/psychical-readjustment (psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) with its increasing-ontological-completeness or reducing-ontological-abnormality as implied by an ontology-driven ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’, wherein placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology scheduling ‘is not inherently sanctimonious’ (the naïve way every registry-worldview tends to relate to its mental-disposition) but is determined and shaped (by way of ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’) by construed ontological-veridicality. Since it is always about the same existential reality but improving-

rather-as-cumulating/recomposuring human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) in ‘engaging the same existential reality and drawing implications thereof’ as human <formative>epistemic-totalising–renewing–realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) as ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence/intrinsic-reality/ontology-as-of-its-mimetic-echoness-or-existence-in-reverberation-or-existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing–realisation,-re-perception,-re-thought-in-epistemic-conflatedness, it is thus analysed as maximalising-recomposuring-for-relative-ontological-completeness as a mental-rescheduling and goes by the ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’ unlike an elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity which will wrongly hollow-constitute and induce ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. So the tautological implication of deconstruction as ontological-reconstituting–as-of-conflatedness is all about human rescheduling of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology in deepening its grasp of a superseding–oneness-of-ontology/intrinsic-reality that has been so all the time, and so critically talk of transcending from shallow to deeper superseding–oneness-of-ontology is no more than about human <formative>epistemic-

the ontological-contiguity implied by ‘projective-insights of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality/dynamic-cumulative-aftereffect/aftereffect’ as of deepest being-construal/existential-reference/existential-tautologisation that induces the ontological-contiguity—of-the-human-institutionalisation-process behind base-institutionalisation/universalisation/positivism/prospective-deprocrypticism, and likewise it is the notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing—qualia-schema> implied by ‘virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’ thus in ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought manifestation), that induces the uninstitutionalised-threshold process behind recurrent-utter-uninstitutionalisation/ununiversalisation/non-positivism-or-medievalism/procrypticism. The implications at the individuation-level is that our limited-mentation-capacity, as of our temporal-to-intemporal mental-dispositions, in the construal of intrinsic-reality/ontological-veridicality tends towards temporality/shortness as of constitutedness that ultimately fails hence inducing virtualities. And so, when initially striving to explicate the coherence of a given ontological/being phenomenon or explicating its coherence with other ontological/being phenomena or more profoundly explicating its coherence with the overall existential ontological/being phenomenon. Thus, requiring on our part an imbricatedness/threadedness/recomposing exercise in grasping how the underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation ‘intuitively-assigns projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’ as of the ‘coherence/contiguity of the actual insight-giving relevant-and-implied knowledge-construct/intersolipsistic-intercessory-notion/notional-referential-notion/articulation for the <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality articulation’ should be construed to compensate for our temporality/shortness disposition associated with constitutedness, with this compensating exercise construed as of ‘presencing—absolutising-identitive-constitutedness’ or more consummately as conflation/conflatedness. This presencing—

absolutising-identitive-constitutedness and conflatedness compensation mechanism, given our limited-mentation-capacity for the construal/conceptualisation of intrinsic-reality/ontological-veridicality/ontology, equally clarifies why maximalising-recomposuring-for-relative-ontological-completeness (as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) takes precedence over elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity (as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality). With regards to logic and by extension mathematics, this equally points out that logic as well as mathematics (and for that matter all other knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue like time, space, virtue, historicity/ontological-eventfulness/ontological-aesthetic-tracing, instantaneity, cogency, methodology, etc.) are abstract constructs that underscore the ‘underlying underlying ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) which as of derivation by presencing—absolutising-identitive-constitutedness or conflatedness ‘intuitively-assign projected-and-then-ensuing-predicated coherence/contiguity as meaningfulness’ in the construal/conceptualisation of intrinsic-reality/ontological-veridicality/ontology. Thus implying that ontology-as-of-existence is ‘potently-and-cogently superseding’ and knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue are subsumed derivations as of the superseding conflatedness of ontological/existential-implications; with such ontological/existential-implications construed

operantly as of a given deepening/shallow level of human limited-mentation-capacity as human-subpotency existential-extrication-as-of-existential-unthought, construed rather as of the implied given registry-worldview's/dimension's reference-of-thought {given consciousness's neuterising-induced-or-referentialism-induced}-reference-of-thought—devolving-teleological-structure-of-meaningfulness as of its intradimensional existential-instantiations derived/devolved axiomatic-constructs of meaningfulness-and-teleology as knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, thus reflecting the registry-worldview's/dimension's reference-of-thought ontological-performance as of its historicity/ontological-eventfulness/ontological-aesthetic-tracing as so-analysed as from notional-deprocrypticism! (It is important in this regard to distinguish what is implied by 'incidenting' not to be confused with 'instantiation', as incidenting implies an 'abstract construction' of the implication of logic or any 'knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue' that may or may not be of existential-instantiation, whereas instantiation refers actually to 'actual existential instance'. It is critical to uphold this distinction with respect to the existentially contingent nature, as of imbricatedness/threadedness/recomposuring, of human limited-mentation-capacity grasp of all 'intersolipsistic-intercessory-notions/notional-referential-notions'/knowledge including our grasp of logic or mathematics. As 'abstractly-speaking' there is no absolute certitude that in say a million years from now 'a given as of yet unelucidated notion', as a further imbricatedness/threadedness/recomposuring, will invalidate in a million years from now the 'existential-instantiations' validity of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue including logic and mathematics as we know of them today. Such distinction as of more immediate concern is to point out the subsuming precedence of existence as of its inherent intrinsicness beyond-and-

over human construal/conceptualisation of meaningfulness-and-teleology about it as at best the latter can only achieve as of its upper limit ‘a correspondence of construal/conceptualisation of existence’; noting here as well for coherence sake that such a statement cannot be made about existence itself as the absolute a priori, simply because any arising existential-instantiations no matter the strangeness or abnormality to what is traditionally thought or expected however imbricated/threaded/recomposed or unimbricated/unthreaded/unrecomposed is of the inherently valid scope of existence itself as of its superseding–oneness-of-ontology and precedence, thus meaningful.) Logic and mathematics (and any such knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue) are only as meaningful as when reflecting a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of a given <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality whether as of a science, a social science or social study, or even abstract logic ontology or abstract mathematics ontology; otherwise the naïve use of logic or mathematics (and/or any such knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue) become a relatively sub-ontological-<as-to-the-limitation-of-human-subpotency-in-its-reifying-and-empowering-reflexivity-of-the-full-potency-of-existence> exercise qualified more pertinently as ‘conceptual patterning’ as of constitutedness in any such <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality rather than actually conceptualising a reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of a given <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality as of conflation. Pointing out that there

must necessarily be an exercise in developing the requisite 'ontological reference-of-thought or axiomatic-construct of an epistememic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality' to which logic and mathematics (and any knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue) can then contribute in furthering its elaboration (as of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness), but it wouldn't work out the other way round on the basis of simple methodological mimicry starting out from the mimicked construal/conceptualisation of logic and mathematics (and any such knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue) on the naïve goal of then grasping a reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology of a given <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality. For instance, the need to develop a reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology of the specific biology <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality as DNA-based genetics that explains genes and genetic principles is ontologically preceding and defining of how the knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of mathematics, logic, information processing, etc. can further contribute in elaborating DNA-based genetics but it is rather naïve to think mathematics, logic, information processing or for that matter any other knowledge-

 a given <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-
 intrinsic-reality/ontological-veridicality by such vague methodological mimicry. The latter at
 best induces a vague and blurred ‘conceptual patterning’ particularly in such domains-of-
 study where the positive or negative sanctioning by ontological-primemovers-totalitative-
 framework of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating is
 not immediately perceptible but rather remote like in the human sciences and to some extent
 as well with some studies in the natural sciences (where for instance the overall cogency of
 the whole experimental framework relative to the conclusions advanced of many a research
 study is dubious as not pertinently unconfounded). Supposedly a mathematical and/or
 statistical methodological analysis was to be introduced with regards to the underlying
 articulation herein and based say on an ‘arbitrary historicity/ontological-

The contention being that studies and research that do not develop their conceptual formulations validly and succinctly as the underlying framework of the <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality but simply expect to dangle/associate methodologies including statistical and mathematical analyses are rather involved in vague conceptual patterning as of reference-of-thought constitutedness. This insight is critical with respect to the validity of interpretations and conclusions in many experimental and study frameworks in the social sciences often ‘under-elaborating the ontological reference-of-thought or axiomatic-construct of their study’ to which the implications of statistical and mathematical methodologies and analyses are naively brought to bear. This further speaks in the bigger scheme of things, of the need for the articulation of what will be a ‘fully intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating constraining social science’ as futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview psychologism should fully enable (rather as an overall grounding of meaningfulness-and-teleology that overcomes disjointedness-as-of-reference-of-thought-as-misappropriated-meaningfulness) just as the positivism registry-worldview psychologism relatively enabled an intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating natural sciences including an emerging and upcoming social science. Insightfully, this analysis equally underlines that there is a ‘human sense-of-ontology/intersolipsistic-intercession as of underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework

This ‘aetiologisation/ontological-escalation storied-construct/ontologically-valid-narration conceptualisation’ can be extended ‘correspondingly as of positivism,

 reflected/perspectivated/highlighted suprastructural construal of each of the corresponding
 uninstitutionalised-thresholds (as beyond their respective corresponding consciousness-
 awareness-teleology) which we will readily acknowledge from the vantage backend of our
 positivistic prospective registry-worldview position of analysis equally speaks of the validity
 of such a corresponding suprastructural construal of deprocrypticism as beyond-the-

 our present ‘procrypticism–virtuality-or-Being-construal-as-abstract-construal-as-of-flawed-
 and-shallow-and-non-veridical-existential-reference’. Thus it may be useful for ontologically
 inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining
 (as we are more likely to have complexes about our positivistic/procrypticism registry-
 worldview/dimension as untranscendable) by articulating the same
 aetiologisation/ontological-escalation storied-construct/ontologically-valid-narration at a
 ‘deprocrypticism imbricatedness/threadedness/recomposuring as against procrypticism-
 virtuality’ as well as ‘positivism imbricatedness/threadedness/recomposuring as against non-
 positivism-or-medieval-virtuality’ wherein from our vantage positivistic position we’ll
 recognise the suprastructurally implied dialectical-dementing and dialectically-out-of-phase

state of non-positivism/medievalvirtuality-or-ontologically-flawed-construal putting us in a paradox with respect to recognising the same from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism about the suprastructurally implied dialectical-dementing and dialectically-out-of-phase state of our procrypticism-virtuality; and so, introducing the grounds for our prospective ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure wherein deprocrypticism is the structural-resolution for the perversion-of-reference-of-thought as the structural/paradigmatic vices-and-impediments of our positivistic meaningfulness. The fact is all constructs as transcending or implying transcendence are always by definition in confliction with the constructs being transcended. The reason is rather straightforward as there is a ‘mental/psychoanalytic investment’ behind the construal of meaning and meaningfulness in a given way within a registry-worldview’s/dimension’s reference-of-thought defining its ontological-capacity with respect to inherent intrinsic-reality/superseding-oneness-of-ontology. Where its ontological-capacity is limited is known as its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, and includes the following registry-worldviews/dimensions recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation-non-positivism/medievalism and positivism-procrypticism. (i) the phased storied articulation of procrypticism uninstitutionalisation apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as being a social-construct ‘uninstitutionalised-threshold mirroring development of the fundamental insane-fitment of the childhood-psychopath/cinglé perversion-of-reference-of-thought mental-disposition structure’ (which is very much socially universally transparent at childhood and thus does not start to elicit protracted social postlogism-as-of-non-conviction

as conjugated-postlogism/dementing-integration by temporal-dispositions at that point, as it is frowned upon and the childhood-psychopath is socially dysfunctional with its postlogism),

(ii) and creatively protracting this fundamental phased storied articulation in ‘successive phased phases of integration with the social construction’ (wherein the ‘increasing shrewdness and selectivity’ of the growing-and-developing childhood-psychopath postlogism lessens the social dysfunctioning of its postlogism as it learns from past experience and is now select and targeted as per social circumstances and interlocutors), and obviously at this point the social integration as conjugated-postlogism/dementing-integration apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing is rather ‘storied-construed/conceptualised from a broader society-at-large/humanity-at-large angle-of-perception as of a creative dynamic-cumulative-aftereffect/contextualising-contiguity of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality aetiologisation/ontological-escalation of temporal-to-intemporal-dispositions individuations and social-circumstances phenotyping elucidation in the social-construct, wherein the-social-dynamics-of-individuation-phenotypes-of-individuals is a construable metaphysics-of-absence of the social as metaphysics-of-presence’ (arising because of the decreasing social universal-transparency of the cinglé’s postlogism-slantedness/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness as well as increasing temporal-dispositions enculturation and thus endemisation of conjugated-postlogism-slantedness in a social atmosphere where it is not universally transparent to be the denaturing of reference-of-thought with respect to social-stake-contention-or-confliction), as postlogism-and-its-conjugated-postlogism/dementing-integration is upheld by temporal-preservation-as-pseudointemporal-preservation apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing of the procrypticism uninstitutionalisation, and

thus is temporally integrated by conjugated-ignorance/conjugated-affordability/conjugated-opportunism/conjugated-exacerbation/conjugated-social-chainism/conjugated-temporal-enculturation, of course, with the broader point and purpose for aetiologisation/ontological-escalation here being that ‘our virtue is not inherent’ but rather our ‘understanding/knowledge/ontological-primemovers-totalitative-framework construction’ is what creates our virtue in superseding our vices-and-impediments, just as for instance, ‘medieval vices-and-impediments’ weren’t inherently because they were a different human species to us but rather due to their lack of positivistic understanding/knowledge which creation-and-accrual led to our relatively grander state of virtue and knowledge, likewise the point here is about articulating such prospective understanding/knowledge/ontological-primemovers-totalitative-framework and its corresponding ‘institutional-designing by deferential-formalisation-transference and percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation>’ as our virtue and knowledge potential),

(iii) and so subsumed and articulated in a creative ‘psycho-ontological-tautologisation/psycho-existential-reference conceptual-scheme of insightful ‘tone-as-temperament and thematic construal of temporal-to-intemporal-dispositions individuations teleologies/teleological-differentiations (by maximalising-recomposuring-for-relative-ontological-completeness covering the concepts articulated in this paper on social-construct and social institutions teleology and value-reference as of deprocrypticism imbricatedness/threadedness/recomposuring with regards to the ‘implications of postlogism-and-procrypticism mental orientations’,

(iv) and further, the possibility of a remaking of the above storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation (as elaborated in i, ii and iii above) rather as of ‘positivism imbricatedness/threadedness/recomposuring referential-depth-or-

existential-reference-or-tautologisation’ reflecting/perspectivating/highlighting ‘non-positivism/medieval uninstitutionalised-threshold apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as dialectically-dementing and dialectically-out-of-phase in pseudointemporality’, to contrastively provide the revealing retrospective insight of apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as uninstitutionalised-threshold as human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor is construable from the perspective of ontological-normalcy/postconvergence and so paradoxically provide the décomplexage/uninhibitedness (induced by our metaphysics-of-presence or illusion-of-the-present/present-consciousness/epistemic-totalising—self-referencing-syncretising/mirage) of the afore deprocrypticism-procrypticism articulated prospective storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation construed from the perspective of ontological-normalcy/postconvergence, wherein we are then in a position to appreciate the ‘apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as dialectically-dementing and dialectically-out-of-phase in pseudointemporality’ representation of the present positivism—procrypticism uninstitutionalisation as procrypticism/disjointedness-as-of-reference-of-thought-and-teleology reference-of-thought—categorical-imperatives/axioms/registry-teleology with respect to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism, even though such an appreciation is rather counterintuitive.

* The underlying technique for perpetually upholding ontological-veridicality as ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-

thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—
 rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-
 ontologically-same-existential-reality’ (from the perspective of the ‘dialectical-thinking-
 reference-of-thought in relative-ontological-completeness as depth-of-thought’) and
 preempting virtuality-or-ontologically-flawed-construal (being-construal-as-abstract-
 construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference), is by not
 allowing for the ‘breaking of the threadedness/thread of ontologically-veridical
 meaningfulness (as such a breaking induces virtuality-or-ontologically-flawed-construal
 leading correspondingly to the false uptake as ontologically-veridical of the wrongly implied
 soundness/non-perverted-reference-of-thought, i.e., unsound/perverted ‘apriorising—
 reference-of-thought-elements/apriorising—registry-elements (out of existential-
 contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-
 completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ including
 implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-
 arrogation/assumptions/value-reference/teleology); by rather
 reflecting/perspectivating/highlighting the points where such ‘breaking-of-the-
 threadedness/thread-of-ontologically-veridical meaningfulness’ occur as of
 ‘apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing (in
 postlogism and conjugated-postlogism) and as dialectically-dementing and dialectically-out-
 of-phase’, as ‘the very notion of postlogical-backtracking—iterative-looping-‘set-of-
 dereifying-hollow-narratives-and-acts’ and conjugated-postlogism conjoining-looping-set-of-
 narratives of postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-
 narratives-and-acts’ is about the ‘breaking-of-the-threadedness/thread-of-ontologically-
 veridical meaningfulness as virtuality-or-ontologically-flawed-construal/being-construal-as-
 abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference’. As

breaking (by new logical-processing-or-logical-implication as ‘conviction/prelogical re-engaging reflex’) wrongly implies the validity of a logical-level-engagement (logical-processing-or-logical-implication) based on wrongly implied prospective relative-ontological-completeness-of-reference-of-thought-(as-of-existential-contextualising-contiguity)’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) and wrongly implied soundness/non-perverted-reference-of-thought, whereas in reality it is just an epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasitic-drag of the relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought and its unsound/perverted ‘apriorising-reference-of-thought-elements/apriorising-registry-elements (out of existential-contextualising-contiguity)’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-fulness-or-scope/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. Such a defect as registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> having to do with the defect of reference-of-thought and relative-ontological-incompleteness is utterly different from ‘a defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance which doesn’t bar a new logical-processing-or-logical-implication as ‘conviction/prelogical re-engaging reflex’ as the latter is with regards to wrong logical-processing-or-logical-implication which might be well/soundly-be logically-processed or effectively-executed upon reengagement, so long as the reference-of-thought for the

reengaging is not unsound/perverted and not undermined by relative-ontological-incompleteness. A registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> on the other hand having to do with defect of reference-of-thought needs a more fundamental transformation as a psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of the reference-of-thought, and so a decentering of meaningfulness; the <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity being more like what it takes to get a medieval as non-positivistic mindset/reference-of-thought into a positivistic mindset/reference-of-thought, that is, suppose for instance where in a medieval social-setup an accusation of witchcraft is demonstrated by an outsider from a positivistic social-setup to be incorrect and unsound to the approval of all in that social-setup, that outsider understanding fundamentally that the medieval setup by its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought is in a state of <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of a medieval worldview will grasp that that unique demonstration of medieval-postlogism/perversion-of-reference-of-thought (as accusation of witchcraft) is not to be construed naively as an adequate basis for a new logical-processing-or-logical-implication as 'conviction/prelogical re-engaging mental-reflex' that re-engages with non-positivism/medievalism mindset/reference-of-thought, given the possibilities of further accusations of witchcrafts or by-and-large the vices-and-impediments potentially arising from such a non-positivism/medievalism worldview as of the 'local community dynamism of individual interests involved' that endemises and enculturates notions-and-accusations-of-sorcery. It is rather the cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure transforming of the non-

positivism/medievalism mindset/reference-of-thought into a positivistic mindset/reference-of-thought that is ontologically-speaking to be construed as the structural/paradigmatic resolution of the vices-and-impediments arising from a non-positivism/medievalism worldview with respect to such notions-and-accusations-of-sorcery. The same applies with respect to our positivism–procrypticism worldview and futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism worldview. This explains why ‘perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology is more than just an issue of an act or acts, but is ‘reconceptualised rather as prior relative-ontological-incompleteness-of-reference-of-thought as of denaturing’ in implying that inherent intrinsic-reality/ontological-veridicality is already given and the perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology is in the bigger picture revealing an inherent problem as of the prior human reference-of-thought conceptualisation of inherently given intrinsic-reality/ontological-veridicality, and that the ‘occurred event of perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology is simply ‘pointing to an altogether deeper underlying huma relative-ontological-incompleteness-of-reference-of-thought issue, in this case as of psychopathy and its conjugated-postlogism at the uninstitutionalised-threshold of positivism–procrypticism as well as providing a revealing overall understanding of the human uninstitutionalised-threshold-by-ontological-contiguity—of-the-human-institutionalisation-process with deprocrypticism prospective institutionalisation <formative>epistemic-causality-as-to-

projective-totalitative-implications,-for-explicating-ontological-contiguity, which are then the-entire-reconceptualised-problem as of aetiologisation/ontological-escalation' as the prospective relative-ontological-completeness-of-reference-of-thought; just as an apple falling on Newton's head under a tree is simply 'pointing to an altogether deeper underlying human non-positivistic relative-ontological-incompleteness-of-reference-of-thought issue which is then the-entire-reconceptualised-problem as of the aetiologisation/ontological-escalation in producing the science/laws of physics and equally inspiring other such similar positivistic ontological-primemovers-totalitative-framework approaches in human conceptualising of the natural world as the prospective relative-ontological-completeness-of-reference-of-thought. Hence contrary to what we may think from our <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perspective the mere fact of relative-ontological-incompleteness-of-reference-of-thought is structurally/paradigmatically associated with a perversion-or-derived-perversion-of-reference-of-thought by the very inherent nature of ontology/intrinsic-reality as preceding/superseding our reference-of-thought conceptualisation as of its shallow limited-mentation-capacity such that where our 'reference-of-thought/structural/paradigmatic—ontological-performance of reference-of-thought conceptualisation' is deficient we are in perversion-or-derived-perversion at that threshold, wherein the threshold defect reference-of-thought/structural/paradigmatic—ontological-performance is rather 'construed in emotionally-laden terms' with respect as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue of the social like law, virtue, etc., as of our subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. Thus intrinsic-reality/ontological-

veridicality is derived ‘wholly by conflatedness’ or in other words ensuring the prospective relative-ontological-completeness-of-reference-of-thought with respect to problematic prior relative-ontological-incompleteness-of-reference-of-thought reflected by perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology, with no <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag allowed by intrinsic-reality/ontological-veridicality. In other words as of metaphysics-of-absence, the ordinariness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> in non-positivism/medievalism with its reference-of-thought is inclined to relate to perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology phenomenon as a non-positivism/medieval postlogism phenomenon such as notions-and-accusations-of-sorcery on the basis of non-positivism/medievalism reference-of-thought <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> of ‘great living’ as of its prior relative-ontological-incompleteness-of-reference-of-thought but then a ‘conflatedness of conceptualisation’ will convert such perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology in terms of the ‘Being defect as uninstitutionalised-threshold of the so-called great living of non-positivism/medievalism reference-of-thought’ to arrive at the prospective relative-

ontological-completeness-of-reference-of-thought of positivism opened-construct-of-meaningfulness-and-teleology which structurally/paradigmatically resolves the vices-and-impediments of non-positivism/medievalism. This same process applies to our positivism—procrypticism with respect to psychopathy and social psychopathy wherein the associated perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology will elicit an ordinariness <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> procrypticism/disjointedness-as-of-reference-of-thought <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> of ‘great living’ as of its prior relative-ontological-incompleteness-of-reference-of-thought but then a ‘conflatedness of conceptualisation’ will convert such perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology in terms of the ‘Being defect as uninstitutionalised-threshold of the so-called great living of our positivism—procrypticism in disjointedness-as-of-reference-of-thought’ to arrive at the prospective relative-ontological-completeness-of-reference-of-thought of deprocrypticism as preempting—disjointedness-as-of-reference-of-thought opened-construct-of-meaningfulness-and-teleology which structurally/paradigmatically resolves the vices-and-impediments of our positivism—procrypticism; as basically, our intellectual-and-moral constructs as of our <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag are shown to be of prior relative-

ontological-incompleteness-of-reference-of-thought and thus ontologically-speaking our
 logical-ness doesn't even arise, no more than the logical-ness of a non-
 positivism/medievalism mindset arises as with respect to medieval postlogism phenomenon
 like notions-and-accusations-of-sorcery as in both cases ontologically-veridical
 meaningfulness-and-teleology exists beyond their <formative>wooden-language—imbued-
 averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-
 teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-
 implications> as of the respective deprocrypticism as preempting—disjointedness-as-of-
 reference-of-thought and positivism reference-of-thought that carry the prospective relative-
 ontological-completeness-of-reference-of-thought opened-construct-of-meaningfulness-and-
 teleology. Ultimately, the very transversality-of-disambiguated-
 apriorising/axiomatising/referencing between the prior registry-worldview/dimension as of its
 prior relative-ontological-incompleteness-of-reference-of-thought and the prospective
 registry-worldview/dimension as of its prospective relative-ontological-completeness-of-
 reference-of-thought is 'the very paradox of meaningfulness-and-teleology explaining their
 discordance, construed as the paradox of transcendence'. In other words, if the former had a
 grasp of its state 'as to its prior relative-ontological-incompleteness-of-reference-of-thought'
 with the transcendental structural/paradigmatic <formative>epistemic-causality-as-to-
 projective-totalitative-implications,-for-explicating-ontological-contiguity arising thereof it
 would have paradoxically transcended, thus explaining the psychoanalytic-
 unshackling/memetic-reordering/institutional-recomposure nature of transcendence as of a
 cross-generational exercise and why such implied transcendental meaningfulness-and-
 teleology might seem arbitrary when meaningfulness-and-teleology is rather interpreted in
 terms of the prior reference-of-thought. This further explains 'the socially conflicted nature of
 all implied transcendental constructs' whether with prophesying metaphysico-theological

constructs of early times reflected in non-universal and universal creeds up to our metaphysico-ontological worldviews implied transcendence, and so as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor; but then humankind has always been called upon to show itself capable of superseding/surpassément for prospective possibilities to avail. This is exactly what underlies the notion of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics in that relative-ontological-incompleteness-of-reference-of-thought ‘is not a logical issue/problem’ but ‘a Being/existential/ontological/axiomatic-construct problem’ with its structural/paradigmatic implied vices-and-impediments, as it is rather an issue of uninstitutionalised-threshold as of recurrent-utter-uninstitutionalisation uninstitutionalisation requiring base-institutionalisation institutionalisation, ununiversalisation uninstitutionalisation requiring universalisation institutionalisation, non-positivism/medievalism uninstitutionalisation requiring positivism institutionalisation, and our procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation requiring prospective deprocrypticism institutionalisation as preempting—disjointedness-as-of-reference-of-thought institutionalisation, and so rather as of a transcendental habituation exercise construed as ‘ontological-resetting’ of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of relative epistemic-abnormalcy for relative ontological-normalcy as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics stranding dynamics. A ‘relative-ontological-completeness-of-reference-of-thought’ implies ‘a new all-pervasiveness of reference-of-thought—categorical-imperatives/axioms/registry-teleology as the axiomatic-construct of meaningfulness-and-teleology’ as a prospective institutionalisation reference-of-thought. Thus a reference-of-thought is an all-pervasiveness of reference-of-thought—categorical-

imperatives/axioms/registry-teleology as the axiomatic-construct of meaningfulness-and-teleology; explaining why it is structurally/paradigmatically non-derogable as of its state of prospective relative-ontological-completeness-of-reference-of-thought, with such implied derogation of such ‘all-pervasiveness of reference-of-thought–categorical-imperatives/axioms/registry-teleology as the axiomatic-construct of meaningfulness-and-teleology’ signalling fundamentally a threshold of failure of reference-of-thought/structural/paradigmatic—ontological-performance and construed as relative-ontological-incompleteness-of-reference-of-thought. As a further elucidation, across all registry-worldviews/dimensions prospective relative-ontological-completeness-of-reference-of-thought, construed as its institutionalisation, is as of ‘conflatedness’ which itself involves the ‘universally-transparent constraining mechanical-knowledge as of the bare reference-of-thought–categorical-imperatives/axioms/registry-teleology as axiomatic-construct’ and ‘the social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as the creating-and-essence-attributing drive for knowledge-and-virtue’. Perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology is induced by ‘denaturing of the form of meaningfulness-and-teleology’ on the ‘universally-transparent constraining mechanical-knowledge as of the bare reference-of-thought–categorical-imperatives/axioms/registry-teleology as axiomatic-construct’ and obviating ‘the social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as the creating-and-essence-attributing drive for knowledge-and-virtue’ while paradoxically wrongly projecting it in distractiveness/shortness-

of-register-of-meaningfulness-and-teleology as if it was of ‘conflatedness’ in
<formative>epistemic-totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag implying an uninstitutionalised-threshold
of perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-
mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-
imperatives/axioms/registry-teleology reconceptualised as prior relative-ontological-
incompleteness-of-reference-of-thought. Across all registry-worldviews/dimensions, the
specific association of postlogisms to ‘denaturing of the form of meaningfulness-and-
teleology’ arises as of its ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-
projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’ physiological
condition in relation to ‘prelogism-as-of-conviction meaningfulness-and-teleology’, which at
childhood postlogism is more or less universally-transparent but with adulthood given
maturation/indirectness/spatialisation/credulity/craftiness is associated with bringing about
social lack of social universal-transparency inducing the conjugated-postlogism of temporal-
dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-
discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-
endemisation as a grounding for the social extension of ‘denaturing of the form of
meaningfulness-and-teleology’. Thus at that uninstitutionalised-thresholds which highlight
‘denaturing of the form of meaningfulness-and-teleology’ as temporality/shortness in
concatenation with ‘conflatedness’ as intemporality, it is only a renewed ‘conflatedness’ as of
ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that induces a
prospective ‘universally-transparent constraining mechanical-knowledge as new bare
reference-of-thought–categorical-imperatives/axioms/registry-teleology as axiomatic-
construct’ and ‘its social-universally-non-transparent-thus-non-constraining-element of

ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as the creating-and-
 essence-attributing drive for knowledge-and-virtue’ that brings about prospective relative-
 ontological-completeness-of-reference-of-thought; construed as ‘ontological-resetting’ of
 placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-
 teleology of relative epistemic-abnormalcy for relative ontological-normalcy as of
 ontological-dementation/dialectical-dementation—stranding/attributional-dialectics stranding
 dynamics ‘which is effectively the concatenated mechanism that engenders sublimating
 historicity/ontological-eventfulness/ontological-aesthetic-tracing towards prospective
 notional-deprocripticism’. Thus this further explains the very thorny difficulty of dealing
 with psychopathy and social psychopathy, because more than just an individuation phenotype
 and incidental/on-occasion phenomenon, it speaks of a registry-worldview’s/dimension’s our
 dimension, relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-
 virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-
 construed-as-from-prospective-reference-of-thought as procripticism/disjointedness-as-of-

 positivism/medievalism relative-ontological-incompleteness-of-reference-of-thought itself is

the grander problematic with respect to the endemisation/enculturation of notions-and-accusations-of-sorcery acts/occurrences, and so more than just an act or acts of notions-and-accusations-of-sorcery construed as perversion-and-derived-perversion-of-reference-of-thought-as-of-human-limited-mentation-capacity-induced-temporal-to-intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology, as revealing of the grander framework of vices-and-impediments inherent to the relative non-positivism/medievalism relative-ontological-incompleteness-of-reference-of-thought. Rather it is about articulating the ontological-completeness-of-reference-of-thought as 'Being correction' as of base-institutionalisation institutionalisation over recurrent-utter-uninstitutionalisation uninstitutionalisation, universalisation institutionalisation over ununiversalisation uninstitutionalisation, positivism institutionalisation over non-positivism/medievalism uninstitutionalisation, and prospectively deprocrpticism institutionalisation over our procrpticism uninstitutionalisation. Obviously a traditional approach of analysis of psychopathy (as so construed from this papers holistic/nested-congruence insight including psychopathy and social psychopathy) will tend to be just as palliative as a non-positivism/medievalism world's postlogism of say notions-and-accusations-of-sorcery were individuals will equally be wary of non-positivism/medievalism perversion-of-reference-of-thought and will equally be inclined to palliation regarding notions-and-accusations-of-sorcery depending on circumstances; though obviously the ontologically structural/paradigmatic resolution in both instances is with respect to the necessary ontological-completeness-of-reference-of-thought in overcoming <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by prior/transcended/superseded non-positivistic or procrpticism reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation that are failing/not-upholding-as-of-

 of-reference-of-thought has always been recurrent in reflecting the ontological-contiguity—
 of-the-human-institutionalisation-process because institutionalisation is not emanance
 transformation of temporal-dispositions as shortness-of-register-of-meaningfulness-and-

 teleology but designed to skew (‘intemporality-asymmetric-subsumption-of-temporality’, for
 relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)
 towards the intemporal-disposition, such that where institutionalisation reaches its design
 limits given human limited-mentation-capacity-(as of relative constitutedness towards
 relative conflation), the possibility for perversion-of-reference-of-thought arises with its
 corresponding enculturation/endemisation as uninstitutionalised-threshold in want for
 prospective institutionalisation as the ontologically-veridical structural/paradigmatic
 resolution. When that insight avails (a Derridean event), it is properly time to ‘trample’ the
 melee of common sense disposition for self-preserving extrication/temporal paradigm with
 the elicited intemporal/ontological/social/species/universal/transcendental/maximalising-
 recomposuring-for-relative-ontological-completeness paradigm, as has been the case along
 and defining human history ultimately ushering our very own registry-worldview/dimension.

The disambiguation of transversality-of-disambiguated-apriorising/axiomatising/referencing into a ‘supratransversality—apriorising/axiomatising/referencing reference-of-thought of

meaningfulness-and-teleology’ over a ‘subtransversality—
 apriorising/axiomatising/referencing reference-of-thought of meaningfulness-and-teleology’
 can equally be understood by comparison with the notion of
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as reference-of-
 thought of meaningfulness-and-teleology, as there can’t be common reference-of-thought of
 contention (mutually intelligible aposteriorising/logicising/deriving/intelligising/measuring as
 mutually intelligible meaningfulness-and-teleology) between a flawed
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
 (subtransversality—apriorising/axiomatising/referencing reference-of-thought of
 meaningfulness-and-teleology, as ‘dialectically-dementing’ from ontological-
 normalcy/postconvergence epistemic/notional_projective-perspective) and a correctly
 functioning apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
 (supratransversality—apriorising/axiomatising/referencing reference-of-thought of
 meaningfulness-and-teleology, as ‘dialectical-thinking’ from ontological-
 normalcy/postconvergence epistemic/notional_projective-perspective). It is the idea of the
 ontological-primemovers-totalitative-framework of the latter over the former that will
 existentially/ontologically impose the latter, and not common/mutual logical-processing as
 logic is then ‘a lower, inappropriate and inherently defective level of meaningfulness-and-
 teleology processing’ in relation to ‘appropriateness-of-reference-of-thought-as-of-
 conflatedness processing’ (just as there can’t be logical intelligibility between a non-
 positivisit/medieval mindset/reference-of-thought of meaningfulness-and-teleology with a
 positivistic one); by its ontologically inducing untenability/internal-contradiction/internal-
 incoherence/institutional-constraining as the correct functioning
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (the
 appropriateness-of-reference-of-thought-as-of-conflatedness) in the middle to long run

construed as of ontological-dementation/dialectical-dementation—stranding/attributive-
 dialectics. This process can be qualified as the ‘blunt act of existence over the human
 temporal egotistic/self-referential complex to prospective transcendence/superseding
 ontological-veridicality/intrinsic-reality reference-of-thought’, and is the actual basis for all
 transcendences for prospective institutionalisations since the successive institutional-
 cumulations/institutional-recomposures do not arise because of the reality of a ‘human
 intemporal-emanance philosophical acquiescence’ but rather by ontologically inducing
 untenability/internal-contradiction/internal-incoherence/institutional-constraining of
 existential reality as a constraint for the secondnaturing of institutionalisation, without
 transforming the underlying reality of a human-subpotency—
 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor individuations. That
 is while the implied aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-
 obtained-measurements (implied meaningfulness-and-teleology) imply speaking the same
 language but the existential/ontological/being realities are utterly different with the correct
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
 measurements (supratransversality—apriorising/axiomatising/referencing) being real and the
 defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
 (being unreal as of apriorising/axiomatising/referencing-in-hollow-staging-and-performance-
 caricaturing), without mutual intelligibility of logical-processing-or-logical-implication but
 for the effectiveness/ontological-primemovers-totalitative-framework of the correct
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
 measurements (supratransversality—apriorising/axiomatising/referencing) appropriateness-
 of-reference-of-thought-as-of-conflatedness that collapses the defective
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

(subtransversality—apriorising/axiomatising/referencing) perversion-of-reference-of-thought, as of the consequences in a comparative use of both apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument after a while (cross-generationally). Thus issues of defect of reference-of-thought (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument defect issues) cannot be resolved by mutually intelligible logical-processing-or-logical-implication (mutually intelligible measuring), but rather by the superseding supratransversality—apriorising/axiomatising/referencing reference-of-thought (as-of correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) in intemporal/longness projection for aetiologisation/ontological-escalation over the subtransversality—apriorising/axiomatising/referencing reference-of-thought (as-of defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) of temporal extricatory paradigm incidental construal in wrong equivalence to the supratransversality—apriorising/axiomatising/referencing reference-of-thought. This equally validates the notion of transversality-of-disambiguated-apriorising/axiomatising/referencing as logical-incongruence of appropriateness-of-reference-of-thought-as-of-conflatedness and perversion-and-derived-perversion-of-reference-of-thought. This is structurally the most elevated construct for the production of human knowledge as transcendental knowledge and as implied in its dissemination along formal constructs based on a structuring for skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) towards intemporality, and not wrongly averaging of human thought in equivalence as logical-congruence of temporality/shortness and intempolity/longness-of-meaningfulness, such that knowledge is not constructed as a 'human mutual agreement exercise for its construal/conceptualisation/discovery/invention/development' since

solipsistically/emanantly/becomingly we are of temporal/shortness to intemporal/longness mental-disposition and this cannot be averaged to get transcendental knowledge which is rather the outcome of an enabling process as ‘intrinsic-reality/ontological-veridicality transcendental enabling’ that allows what is intemporal as of mental-disposition to be effective by ontological-primemovers-totalitative-framework as of ontological and virtue constructs, and be imposed as knowledge. Thus it is critical to understand that the exercise of reconstituting ontological veridicality is a wholly maximalising-recomposuring-for-relative-ontological-completeness in grasping ‘existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’, even when it would seem weird due to metaphysics-of-presence, and is creatively grounded on ‘on phased phases construed in mirroring the fundamental insane/postlogism-fitment of the childhood-psychopath perversion-of-reference-of-thought mental-disposition structure as it induces conjugated-postlogism/dementing-integration later on and most effectively at adulthood psychopathy’. This fundamental structure of the denaturing nature of postlogism and conjugated-postlogism/dementing-integration can be demonstrated with the blatantly obvious case of the childhood-psychopath even though the denaturing of its mental-disposition is relatively socially-universally-transparent (enabling an understanding-of-ontological-primemovers-totalitative-framework-of-the-underlying-phenomenon). In the case were in a ‘dereifying act’ water is spilled on a chair, and a visiting stranger (as-of-pseudointemporality by ignorance) not aware of the mental-disposition of the childhood-psychopath coming into the scene after the event and sitting unknowingly on the soaked sofa, and was to frown and remonstrate against or possibly smack the innocent brother, such a stranger is in ignorance-conjugated-postlogism or

 prospective-reference-of-thought as procrypticism/disjointedness-as-of-reference-of-thought
 which can't be overlooked for aetiologisation/ontological-escalation conceptualisation by the
 fact that the visiting stranger or more precisely an individuation of the type expressed by the
 visiting stranger (as-of-pseudointemporality by ignorance) might act the same way he acted

in ‘metaphorically-a-million-and-one-instances-and-locales’ as aetiologisation/ontological-escalation, and this particular example symbolises why virtue is a ‘The-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct’ and not ‘impression-driven/good-naturedness/wishfulness construct’ as reality is above all ‘effectivity’ by its manifestation). But then given the relative social universal-transparency at this childhood stage, it is more likely that the whole situation will be explained to the visiting stranger (as-of-pseudointemporality) and will assume mostly an incidental/on-occasion conjugated-postlogism effect in the contingent social space. The fact is at this childhood stage conjugated-postlogism will tend to be incidental and mostly arise as ignorance-conjugated-postlogism. (Such a construal can further be articulated not only in the case of ignorance as ignorance-conjugated-postlogism but equally as the child-psychopath develops into adulthood and is less and less socially-dysfunctional and social universal-transparency of the postlogism is lost socially with its maturation/spatialisation/indirectness/credulity/craftiness, giving rise to the conjugated-postlogism cases of conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-chainism and conjugated-temporal-enculturation by temporal-dispositions where the effect is ‘more than just benign and incidental/on-occasional with dramatic social consequences and as there is further eliciting of enculturated postlogism as social psychopathy, however ad hoc and opportunistic’.  pretences of ‘second-order meaningfulness’ of extricatory/temporal paradigm within
 secondnatured institutionalised-being-and-craft constructs. Supratransversality—
 apriorising/axiomatising/referencing (as-of-non-pseudointemporalities) speaks of upholding
 the intemporal/transcendental/maximalising-recomposuring-for-relative-ontological-

 of reference-of-thought, reflecting a teleologically-perverted (postlogism) and derived-
 teleologically-perverted (conjugated-postlogism) mental-dispositions and so as of
 ontological-bad-faith/inauthenticity, where such is not unconscious/unwitting as arises with
 ignorance-conjugated-postlogism. It is this ever-perverting effect on ontological-veridicality
 of subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities)
 reflected by the ‘contrastive intellectual-and-moral tone-as-temperament and thematic
 teleological constructs of subtransversality—apriorising/axiomatising/referencing (as-of-
 pseudointemporalities) in relation to supratransversality—
 apriorising/axiomatising/referencing (as-of-non-pseudointemporalities)’ as instigated by
 postlogism/enculturated-postlogism in derivation as temporal-preservation-as-
 pseudointemporalities-preservation that tends to generate apriorising/axiomatising/referencing-

in-hollow-staging-and-performance-caricaturing reflecting the uninstitutionalised-thresholds at institutionalisations' uninstitutionalised-threshold. Basically, from a transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness insight, the supratransversality—apriorising/axiomatising/referencing contends about the perversion-of-reference-of-thought of the subtransversality—apriorising/axiomatising/referencing which is in protracted-pseudointemporality; more like a deprocrypticism, positivism, universalisation or base-institutionalisation supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporality) contending correspondingly about the perversion-of-reference-of-thought of the procrypticism, non-positivism/medievalism, ununiversalisation or recurrent-utter-uninstitutionalisation subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporality). The implication here is that from a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, just as a positivistic supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporality) will imply a deeper intellectual-and-moral ontological construct (in a projection of a positivistic worldview where the mental-dispositions and conventioning in a non-positivism/medievalism setup are construed as prospectively questionable) of non-equivalence over that projected by a non-positivism/medievalism subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporality) as a 'distractive looping-alignment-of-narratives' in distraction to the former, with the positivistic supratransversality—apriorising/axiomatising/referencing rather a maximalising/transcendental firmament for obtruding the subtransversality—apriorising/axiomatising/referencing as of 'apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as dialectically-dementing and dialectically-out-of-phase in pseudointemporality', reflected by the subtransversality—

apriorising/axiomatising/referencing ‘temporal-dragging-of-ontology/ontological-
 veridicality’ (in-a-social-dynamism-of-meaningfulness-misappropriation) by
 slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag,
 sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-
 enculturation/temporal-endemisation effect; the same analysis will be drawn for a storied-
 construct/ontologically-valid-narration aetiologisation/ontological-escalation with respect to
 deprocrypticism supratransversality—apriorising/axiomatising/referencing (as-of-non-
 pseudointemporality) and procrypticism subtransversality—
 apriorising/axiomatising/referencing (as-of-pseudointemporality) in terms-as-of-axiomatic-
 construct of their implied intellectual-and-moral implications (in a projection of a
 deprocrypticism worldview where the mental-dispositions and conventioning in a
 procrypticism setup are construed as ‘prospectively questionable’). Such a
 supratransversality—apriorising/axiomatising/referencing over subtransversality—
 apriorising/axiomatising/referencing insight can transcendently be grasped in the archetype
 characters of say a Socrates or Rousseau. Wherein within their respective registry-
 worldviews/dimensions setups, their maximalising/transcendental mental-dispositions in
 projection for prospective institutionalised-being-and-craft, i.e. ontologising of future
 conventioning, as supratransversality—apriorising/axiomatising/referencing (as the grander
 intellectual-and-moral effort that can be made within their registry-worldviews/dimensions)
 is rather poorly construed to the ordinariness/averageness of thought within their respective
 registry-worldviews/dimensions setups (which mental-dispositions and conventioning – as
 ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-
 virtuality-or-ontologically-flawed-construal (which is rather ‘a prior dementing—
 apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing

 ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of
 existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-
 that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' – will
 rather think as irrational the projective disposition of a Socrates that doesn't rather advance a
 temporal interest in the city-state polity but is rather bent on spreading new ideas as a natural
 philosopher while prioritising as of nonextricatory-existential-preempting-of-existential-
 unthought in his asceticism the prospective intemporal over the temporal status quo, and
 likewise with a Rousseau who isn't advancing a temporal interest that his aristocratic stature
 should warrant like actively pursuing for landed properties and currying favours with kings
 but is rather bent principally on a prospective commitment on grasping and spreading notions
 of a renewal of the human condition as universal rights and enlightened despotism. This is
 certainly because emanantly/becomingly/solipsistically temporal-dispositions do not
 appreciate that there is a more 'profound level of living in the realm of human
 thoughtfulness' based on eudaemonic-contemplation of 'intemporal-prioritisation-of-
 reference-of-thought'-as-conflatedness that then 'invents/creates' the possibility for
 prospective registry-worldview/dimension as there isn't any inherent intemporality/longness
 but for the disposition for maximalising-recomposuring-for-relative-ontological-
 completeness out of the apathy of the ordinariness/averageness of any prior registry-
 worldview/dimension. Hence such intemporality/longness as maximalising-recomposuring-
 for-relative-ontological-completeness needs its <formative>epistemic-totalising–renewing-
 realisation/re-perception/re-thought as of given that the-succession-of-registry-worldviews-
 or-dimensions-institutionalisations/the-ontological-contiguity—of-the-human-
 institutionalisation-process is 'not a human emanance transformation of temporal-
 dispositions/shortness-of-register-of-meaningfulness-and-teleology into the intemporal-

disposition/longness-of-register-of-meaningfulness-and-teleology but rather is solely a secondnaturing to supersede the uninstitutionalised-threshold'. The implication is that acting as-of-a-secondnature nature is not enough for articulating prospective institutionalisation requiring 'intemporal projection <formative>epistemic-totalising-renewing-realisation/re-perception/re-thought' for the requisite prospective maximalising-recomposuring-for-relative-ontological-completeness, and such conceptualisations from only a secondnaturedness of thought as rather contextually temporal is not intemporal as of-universal-and-abstractive nature but is in '<formative>epistemic-totalising-self-referencing-syncretising'/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Thus institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism-or-medievalism and procrypticism in need for a renewed institutionalisation respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. This is rather addressed by transversality-of-disambiguated-apriorising/axiomatising/referencing as supratransversality—apriorising/axiomatising/referencing non-pseudointemporality-as-thinking-and-in-phase over subtransversality—apriorising/axiomatising/referencing pseudointemporality-as-dementing-and-out-of-phase so reflected in storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation evolving thematic and tone-as-temperament rather by maximalising-recomposuring-for-relative-ontological-completeness of imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-

potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as existential-reality, for the ultimate cross-generational purpose of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure). The transcendental first-order-ontology/ontological-construal work derived by maximalising-recomposuring-for-relative-ontological-completeness (as intemporal-projection/longness-of-register-of-meaningfulness-and-teleology) in recurrent-utter-uninstitutionalisation inducing transcendental/intemporal-preserving base-institutionalisation, maximalising-recomposuring-for-relative-ontological-completeness in base-institutionalisation—ununiversalisation inducing transcendental/intemporal-preserving universalisation, maximalising-recomposuring-for-relative-ontological-completeness (as intemporal-projection/longness-of-register-of-meaningfulness-and-teleology) in universalisation—non-positivism/medievalism inducing transcendental/intemporal-preserving positivism, and prospectively maximalising-recomposuring-for-relative-ontological-completeness (as intemporal-projection/longness-of-register-of-meaningfulness-and-teleology) in positivism—procrypticism inducing transcendental/intemporal-preserving deprocrypticism, are the most important effort available at every corresponding registry-worldview as defining the institutionalisation possibilities and psyches that secondnatured as institutionalisation as their corresponding institutionalised-being-and-craft setups even though paradoxically the ordinariness within such institutionalised-being-and-craft setups may be impervious to what is behind this very creation/invention in the first place as it fails philosophically to appreciate the need for transcendental first-order-ontology/ontological-construal in the elucidation (as institutionalisation and psychical-reorientation) of meaningful-and-teleological pertinence within its own registry-worldview/dimension but equally in ‘inventing/creating’ the institutionalisation possibilities and psyche for the prospective institutionalised-being-and-

craft setup. Thus it is generally not surprising that the transcendental first-order-ontology/ontological-construal by an ascetic intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness Socrates will be passed by the ordinariness/earthliness of thought in that institutionalised-being-and-craft setup as vague while upholding its shallow notion of value with the true worth and value of such implied transcendence grasped, at least expediently, mostly in the prospective institutionalised-being-and-craft setup it ushers, the same could be said of an intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness Copernicus, an intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness Rousseau, an intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness Galilei or an intemporal-prioritising/maximalising-recomposuring-for-relative-ontological-completeness Darwin, and so as a fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. But then mental-dispositions that come to intemporal notions by expediency cannot truly have the pretence of engaging such on the basis of shallow temporal extricatory paradigms as of institutionalised-being-and-craft setup whose temporal-dispositions terms are alien to the intemporal disposition required for transcendental/maximalising-recomposuring-for-relative-ontological-completeness first-order-ontology/ontological-construal required for ‘creating/inventing’ the prospective institutionalised-being-and-craft setup! That failed test of understanding the transcendental/maximalising-recomposuring-for-relative-ontological-completeness not in a prospective appreciation, but rather possibly as of retrospective appreciation and expediency, speaks of the social-construct as more of a secondnatured institutionalised-construct rather than an intemporal-disposition construal, and therefore assertive pretences that naively imply the latter should necessarily be suspect of their apriorising/axiomatising/referencing-in-

hollow-staging-and-performance-caricaturing without the corresponding demonstration of the requisite salient philosophical insight of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm (that goes beyond temporal-dragging-of-ontology/ontological-veridicality as slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect); and the fundamental issue that will then arise in that instance is one of ‘irrealism and corresponding virtualities’ that will undermine analytical pertinence, as man has to be understood exactly for what man is in effective reality, to then articulate effective knowledge constructs that are actually most efficient because of their realism, and that is paradoxically our virtue, not a wrong or false idealism (which metaphorically ends up hiding things under the table beyond the analysis required for their understanding and resolution)! It equally speaks of the ‘requisite specialness of the discipline of philosophy as a first-order ontology’ among all subject-matters (or-as-it-protrudes-into-subject-matters-or-second-order-ontologies), as the one that can least afford to be of normal trade, as it starts with a commitment of the mind (rather like modern day religion) rather than just a normal craft, and further requiring the central quality of transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism of thought, postures and teleology above anything else (not even the value of institutional recognition as Socrates, Rousseau, Sartre and others intuitively understood, necessarily so, since it is what is of a priori definition and can’t be compromised in institutional-constructs-and-setups)! The blunt fact here is that, with respect to social-stake-contention-or-confliction within a given registry-worldview, the

everyday <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
 ‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> or
 banality-of-thought doesn’t necessarily as of appreciate ‘the need for prospective
 transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm
 over the extricatory/temporal/expediency paradigm with respect to its registry-
 worldview/dimension’ (even though it does appreciate this retrospectively with respect to
 prior registry-worldviews/dimensions), but for effective secondnatured institutional devising.
 Inevitably an aetiologisation/ontological-escalation construct is rather about
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm which is necessarily antipodal to the
 everyday temporal extricatory paradigm mental-disposition, ontologically justifying
 ‘subtransversality—apriorising/axiomatising/referencing(as-of-
 pseudointemporalities)/suprastraversality ‘point-of-departure-of-construal of reference-of-
 thought technique of distractive-alignment-to-reference-of-thought given its applicative
 pertinence and validation to the ontologically-veridical but counterintuitive notion of
 apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as
 dialectically-dementing and dialectically-out-of-phase in pseudointemporality underlying all
 uninstitutionalised-thresholds, and so beyond their consciousness-awareness-teleologies; with
 the implication that (from a maximalising-recomposuring-for-relative-ontological-

 perspective) the subtransversality—apriorising/axiomatising/referencing (as-of-
 pseudointemporalities) is ‘unprofound’-or-of-a-non-
 transcendental/extricatory/impostoring/disjointing-of-narratives-implied-intellectual-and-

non-pseudointemporality) is ‘profound’-or-of-a-transcendental-intemporal/universalising-ontologically-hegemonising-narrative-implied-intellectual-and-moral-disposition. We would possibly appreciate this argument from a retrospective insight of how the retrospective institutionalisations came about to the present, but it will certainly be alienating to think the same of our present in those transcended terms from a prospective transcending reference, even though the ontological insight points in that direction. This ‘subtransversality—apriorising/axiomatising/referencing/suprastraversality technique of transversality-of-disambiguated-apriorising/axiomatising/referencing alignment’ is further rendered operant as the teleological structure of the storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation based on the underlying principle involved in the example of the visiting stranger (as-of-pseudointemporality) or generally the BODMAS characters. This underlying principle is one of ‘decentering’ wherein apparently the visiting stranger (as-of-pseudointemporality) was of ‘sound registry-(reflected-as-soundness-or-authenticity-of-reference-of-thought)’ in its circumstantial/existential relationship with meaningfulness but it turned out that its ‘ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing-so-construed-by-prospective-reference-of-thought’ (as lacking deprocrypticism from an ontological-normalcy/postconvergence epistemic/notional_projective-perspective) arising from its procrypticism/disjointedness-as-of-reference-of-thought (as social universal-transparency about the child-psychopath’s postlogism wasn’t available to it) implied an existential-reality of imbricatedness/threadedness/recomposuring that ‘decentered’ (by maximalising-recomposuring-for-relative-ontological-completeness) its meaningfulness as ‘effective non-conviction-or-derived-non-conviction-(as-in-this-case)/intemporal-failing/non-transcendental/non-maximalising-recomposuring-for-relative-ontological-completeness registry-teleology/anchoring-of-meaning/meaningful-reference/ontological-

reference/contending-reference/registry-worldview’, as subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities), of the visiting stranger rather as a virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference given the visiting stranger’s (as-of-pseudointemporality) ignorance-conjugated-postlogism, such that it was actually in ‘apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as dialectically-dementing and dialectically-out-of-phase in pseudointemporality’. apriorising/axiomatising/referencing (as-of-non-pseudointemporality) that is a complete and unique ‘ontologically-hegemonising-narrative ontological-performance’ in its conviction/transcendental/intemporal/maximalising-recomposuring-for-relative-ontological-completeness disposition of reference-of-thought which ‘bounces off and decenters’ (by maximalising-recomposuring-for-relative-ontological-completeness) the-recursive/progressive/regressive-dementing-distractive-looping-narratives-of-arrogation/impostoring/disjointedness-non-contending-meaningful-reference of temporal-dispositions (postlogism and conjugated-postlogisms) as the subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities), to their collapsing (psychoanalytic-unshackling/memetic-reordering/institutional-recomposure). Thematically (with regards to ‘associated-themes-and-social-contexts’/thematic) psychopathy as postlogism interlocks with temporal-dispositions (instigating social psychopathy in 'socially-perceived-value as of social-stake-contention-or-confliction situations') as temporal-dispositions are already preset/'in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought—categorical-imperatives/axioms/registry-teleology for its induced conjugated-postlogism by inherent relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought (procrypticism, i.e. the corresponding uninstitutionalised-threshold), such that the postlogism dynamism in its derivation elicits derived-non-conviction/temporality/non-transcendence/non-maximalising-recomposuring-for-relative-ontological-completeness in corresponding conjugated-postlogisms of temporal-dispositions with the protracting effect of ‘significant others basis of logic’, as subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities). Such that grasping and superseding of psychopathy and social psychopathy ontologically requires 'avoiding to

construe the generality/averaging of the social-construct as being of the sound/appropriate ontological cadre/framework' but rather ontologically adopting deferential-formalisation-transference (as all formal constructions whether the law, subject-matters, formal institutions, etc. have always been conceived) to 'abstractly reference prospective institutionalising as a secondnaturing that is of universal implications/aetiologisation/ontological-escalation for all times and all humans' by factoring-in the requisite conviction/transcendental/intemporal-preserving/maximalising-recomposuring-for-relative-ontological-completeness construct that transcends/supersedes subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities), as supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporalities). Such a technique for articulating supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporalities) in aetiologisation/ontological-escalation with respect to 'associated-themes-and-social-contexts'/thematic as deferential-formalisation-transference involves 'construing supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporalities) over subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities)' wherein the differentiated-conjugated-postlogisms are construed as interlocking with postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts' (as the conjugated-postlogisms conjoin to and elevate postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts') in the 'associated-themes-and-social-contexts'/thematic framework/cadre. The fact is this thematic construal is further compounded by the varying tone-as-temperament associated with psychopathy and social psychopathy wherein the non-conviction-or-derived-non-conviction/temporal/non-transcendental/non-maximalising-recomposuring-for-relative-ontological-completeness mental-disposition of postlogism/conjugated-postlogism means that it is 'ontologically wrong to be engaged solely on the basis of a conviction tone as temperament'; as the 'consciously

eluding/circumventing' psychopathy as postlogism mental-disposition adopts various 'hollow tones as temperaments' on the basis of its perceived position of weakness/disadvantage or strength/advantage, with implications on soundness of reference-of-thought, whether acting (apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing) by 'imploing, contesting, affirming, condescending, rebelling or self-victimising' depending on what it perceives as advancing its postlogism-as-of-non-conviction-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) at one moment or the other, and this mental-disposition is naively (where ignorant-conjugated-postlogism) or consciously adopted by conjugated-postlogisms mental-dispositions particularly when exacerbatory or opportunistic. This 'contrastive intellectual-and-moral tone-as-temperament and thematic teleological constructs of subtransversality—apriorising/axiomatising/referencing (as-of-pseudointemporalities) in relation to supratransversality—apriorising/axiomatising/referencing (as-of-non-pseudointemporality)' is central in articulating a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation that further elucidates the conceptualisations herein. The conceptual background for this tone-as-temperament and thematic teleological conceptualisation (for the storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation) lies in the notion that human construal of meaningfulness/memetism defines and structures its teleology/teleological-differentiation with respect to 'socially-perceived-value as of social-stake-contention-or-confliction' situations whether in 'temporal-to-intemporal-dispositions individuation terms' and as this in dynamic-cumulative-aftereffect defines individuals actions intradimensionally or transcendently/transdimensionally/interdimensionally/maximalisingly. For instance, in the latter case a meaningfulness/memetism fundamentally based on spirits as causes-and-effects will fundamentally be predisposed to a defining teleology/teleological-differentiation of

animism practices, and the corresponding ways of thoughts and live patterns; likewise a meaningfulness/memetism fundamentally based on a grand religion will fundamentally be structured on the basis of such religious practices, and the corresponding ways of thoughts and live pattern (depending on the degree of religious absolutism) as its defining teleology/teleological-differentiation, and likewise a meaningfulness/memetism that is mostly secular-inclined will be predisposed to the defining teleology/teleological-differentiation of down-to-earth interests including utilitarianism and practical knowledge/scientism, and the corresponding ways of thoughts and live patterns. Going by the defining temporal-to-intemporal-dispositions of individuals action intradimensionally (and as recurrently affirmed by the ontological-contiguity—of-the-human-institutionalisation-process across all the registry-worldviews/dimensions, giving rise to prospective institutionalisations and uninstitutionalised-thresholds), this establishes that there is a deterministic existential-tautologisation/existential-reference of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor mental-dispositions with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’ highlighting a teleology/teleological-differentiation at the individuation-level in a continuum from pseudointemporality (involving the ‘faulty-mentation-procedure-deception-or-urge’ of postlogism-slantedness and the derived-by-conjoining temporal-accommodation-of-this-perversion-of-reference-of-thought as conjugated-postlogisms/dementing-integration, grounded on ‘extrinsic-attribution involving inducing sociologically significant others basis of meaning and logic’) as it induces the uninstitutionalised-thresholds—to—non-pseudointemporality (of intemporal mental-disposition inclined to account for pseudointemporality as intemporal-preservation/aetiologisation/ontological-escalation operating on a teleology/teleological-differentiation of ‘intrinsic-attribution based on solely

eliciting intersolipsistic understanding of intemporally/universally valid meaning and logic', inducing the institutionalisations; with the implication that futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism teleology/teleological-differentiation by its deprocrypticism/preempting—disjointedness-as-of-reference-of-thought existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context involving existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality preempting 'the dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing rational-empiricism/positivising-rules' is necessarily construed to stall the possibility of any uninstitutionalised-threshold). This then validates the idea that teleology/teleological-differentiation is not a discrete construct but rather deterministic as of existential-reference/existential-tautologisation/ontology/ontological-veridicality of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (as a naïve free-willist conceptualisation may construe teleology/teleological-differentiation solely as discrete, as such a conceptualisation of discretion of teleology is valid rather by 'emanance /becoming/existential-intersolipsism mental-disposition orientation made' with regards to reference-of-thought (as conviction/prelogical from whence logical-processing-or-logical-implication arises whether the conviction is appropriate/good or inappropriate/poor-or-bad, or as non-conviction/postlogical in a state of mentarchy/mental-anarchy logical-undueness as reflected by postlogism and conjugated-postlogisms) but from whence/which-point the teleology/teleological-differentiation attached to that as of mental-disposition orientation

made, whether as of various temporal-dispositions as postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’ or intemporal-disposition, is wholly deterministic-as-predictable/projectable enabling ontological-primemovers-totalitative-framework construal/conceptualisation). Existence/existential-reality is thus a teleological-contiguity/oneness-of-teleology ‘with teleological-discretion being defined only by epistemic choice/differentiation’, as epistemically-situated chosen/differentiated meaningfulness (as to ontology/ontological-veridicality which is epistemically/notionally a contiguity construed-as-ontological-contiguity/superseding-oneness-of-ontology), defines and structures teleology/teleological-differentiation in its derivation as ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought’). Beyond, the individuation-level and the intradimensional perspectives, at the transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness perspective as across all institutional-cumulations/institutional-recomposures, this maximalising-recomposuring-for-relative-ontological-completeness decentering drive in a dynamic-cumulative-aftereffect (wherein prior relative-ontological-

Thus, decentering is what divulges all the uninstitutionalised-thresholds as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism by maximalising-recomposuring-for-relative-ontological-completeness’, while ‘centering’

divulges all the institutionalisations as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism; and so with their ontological possibilities and limits as well as corresponding ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ or registry-worldview/dimension orienting/pivoting/decentering psyches (by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure), reference-of-thought and teleologies/teleological-differentiations. recomposure to supersede the vices-and-impediments associated with a positivism–
procrypticism mental frame, even though we’ll possibly carry-complexes/complexé about the
blunt fact, as all registry-worldviews/dimensions prior to ours had equally done. Decentering
thus fundamentally speaks of human shallow-limited-mentation-capacity to deeper-limited-
mentation capacity recomposuring from ontological-normalcy/postconvergence point of
reference maximalising-recomposuring-for-relative-ontological-completeness across all
institutional-cumulations/institutional-recomposures. The notion of pivoting/decentering as

fundamentally psychoanalytic actually extends to the construal of understanding itself with regards to the underlying rescheduling of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, as the idea of pivoting/decentering extends to the notions of the ‘self’s own pivoting/decentering for understanding’. It is an aberration to construe ‘transcendental text’ which puts into question the reference-of-thought itself in non-transcendental terms ‘as the transcendental reality (divulged by human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) with corresponding recomposuring of ontological import) that is being implied given the ontological-normalcy/postconvergence nature of transcendental text doesn’t concede to a human temporal complex of its established metaphysics-of-presence conventioning/traditional-ways of understanding as superseding but rather superseded, and having to cave in’. In other words the aporetic nature of a Derridean deconstruction text doesn’t speak of the poor writing of Derrida, it speaks of the reader’s ‘complex of understanding’ that fails to recognise its need to psychoanalytically-unshackle, construed in interdimensional transcendence terms as akin to a positivistic laden text articulated in a non-positivism/medievalism setup implying a necessary psychoanalytic-unshackling as requiring the pivoting/decentering of the reader for its understanding as it is more than an explanation in the terms of the old as non-positivism/medievalism meaningfulness-and-teleology but more critically an invitation into the new as of a positivising/rational-empirical mindset/reference-of-thought meaningfulness-and-teleology; having to do fundamentally with the human mind complex and reflex of failing/not-upholding-as-of-apriorising/axiomatising/referencing to acquiesce to prospective transcendence and so all across the various institutional-cumulations/institutional-recomposures in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, even though it will readily acquiesce from a standpoint of retrospectively implied

construal of transcendence. Such a pivoting/decentering of understanding itself is what is implied by ‘projective-insights’/postdication/metaphysics-of-absence; further explaining the underlying notion of suprastructuralism as the ability to construe/conceptualise meaningfulness across different ontological-completeness-of-reference-of-thought perspective whether recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, our present positivism–procrypticism or futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism, with the necessary ontological-dementation/dialectical-dementation–stranding/attributive-dialectics involved in such a pivoting/decentering as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure.

Suprastructuralism as such will also explain the underlying logic of Bruno Latour’s famous criticism of the notion that scientists reported discovery of TB as being the cause of Pharaoh Ramses II death together with the organisation of an official ceremony in full honours in celebration of Ramses II corpse and the discovery, as being an entanglement of references-of-thought between the modern frame-of-reference/collective-consciousness-awareness-teleology and the Ancient Egypt pharaonic era frame-of-reference/collective-consciousness-awareness-teleology (a mix-up that must not occur for history itself to conceptually exist ‘since history wouldn’t deny its object of study its very own frame-of-reference, as being oblivious here to the notion of TB’, for an exercise of understanding the past and projecting to the future); as if it were ‘possible and desired’ that the modern frame-of-reference equally carry modern weapons back in time in Ancient Egypt and fight pharaoh Ramses II wars (which is obviously ridiculous). Suprastructuralism as such highlights the ‘mental complex of all present mindsets as metaphysics-of-presence’, and going by ‘projective-insights’/postdication/metaphysics-of-absence is equally what can enable our own

prospective transcendence in grasping a more profound intrinsic-reality/ontological-veridicality as deprocrypticism which is deeper than our present positivism–procrypticism registry-worldview reference-of-thought. As implied in this paper, the implication of pivoting/decentering for understanding itself is that our metaphysics-of-presence traditional/conventioning reference-of-thought–categorical-imperatives/axioms/registry-teleology is put into question, and the notion of understanding itself is pivoted/decentered such as implied by the referentialism approach of this hermeneutic design (as opposed to a categorisation constituting elaboration basis for understanding). As the referential harkens to the most profound concept (intemporal-preservation-entropy-or-contiguity—or—ontological-preservation also construed as ontological-normalcy/postconvergence) and ontologically-reconstitutes/deconstructs lesser and lesser profound concepts in relation to the most profound concept by a referencing understanding. The implication is that the entirety of the text is a unity in contiguity perceptible from the subtexts fusion with the unity. Hence the organisation of the text can only be cross-referencing (and not, wrongly, an organisation based on categorisation constituting elaboration) to retain its cross-referencing coherence of prospective meaningfulness. The recognition for the need to disambiguate human mental-dispositions as of temporal-to-intemporal is not an exception here as all our formalisations implicitly operate on this basis as deferential-formalisation-transference, tacitly confirming its veracity/ontological-pertinence. It should be noted that the representation as of ‘apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as dialectically-dementing and dialectically-out-of-phase in pseudointemporality’ of registry-worldviews/dimensions about their uninstitutionalised-thresholds based on their respective relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought while most ontologically-veridical from

an ontological-normalcy/postconvergence epistemic/notional_projective-perspective, such a suprastructural-meaningfulness/memetism is rather unordinary and suprastructural (beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought) to the given uninstitutionalised-threshold registry-worldview's/dimension's reference-of-thought; since in our positivism–procrypticism uninstitutionalisation (which is procrypticism), ‘abject-ontologising/maximalising-recomposuring-for-relative-ontological-completeness ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘dialectical-thinking-reference-of-thought in relative-ontological-completeness as depth-of-thought’) will reflect/perspectivate/highlight procrypticism to be rather of apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as dialectically-dementing and dialectically-out-of-phase in pseudointemporality thus pivoting/decentering/‘psychoanalytically-unshackling/memetically-reordering/institutionally-recomposuring’ into deprocrypticism suprastructuring/transcendental/intemporal-preserving reference-of-thought by way of the given ‘abject-ontologising/maximalising-recomposuring-for-relative-ontological-completeness’. <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-
ontological-contiguity at the individuation-level is that with respect to ‘socially-perceived-

value as of social-stake-contention-or-conflict' situations, there is an underlying meaningfulness-and-teleological differentiation of human mental-dispositions as of non-pseudointemporality/conviction and pseudointemporality/non-conviction (including as derived/conjugated pseudointemporality/non-conviction), and so in contrast to the social/normal reflex of naively-and-wrongly construing and falling back to the idea of meaningfulness-and-teleology (as of reference-of-thought) rather essentially of non-pseudointemporality/conviction. For pseudointemporality/non-conviction and by its derivations (consciously, expediently or unconsciously), the representations of meaningfulness-and-teleology are set/formulaic and the fundamental essential/intrinsic/inherent attributions behind the representations of meaningfulness-and-teleology are irrelevant, and a parasitising/co-opting association that is alien to the fundamental essential/intrinsic/inherent/intemporal attributions of meaningfulness-and-teleology is just as valid; basically due to the fact that our fundamental relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought at all prior registry-worldviews/dimensions, whether as recurrent-utteruninstitutionalisation/ununiversalisation/non-positivism-or-medievalism/procrypticism, is bound to lead to human integration of the corresponding postlogism/perversion-of-reference-of-thought-of-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation at the uninstitutionalised-threshold that speaks of relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought. Thus a non-pseudointemporality mental-disposition re-affirmatory (as maximalising) of the essential/intrinsic/inherent/intemporal attributions behind the representations of

meaningfulness-and-teleology will put in question the reflex idea (in instances of perversion-of-reference-of-thought and the corresponding <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity) to naively operate logic and its axioms as of a sound human universal mental-disposition for construing ontologically-veridical meaningfulness as virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, in order to account for such ‘parasitism/parasitising/co-opting-meaningfulness’ by parasitising/co-opting association with the essential/intrinsic/inherent attributions behind the representations of meaningfulness-and-teleology, and so as intemporal-preservation/aetiologisation/ontological-escalation enabling prospective reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation that override such ‘parasitism of meaningfulness-and-teleology’ as temporal arrogation/disjointedness/impostoring/extrication/misappropriation whether consciously/by-expediency/unconsciously. This is the intemporal-disposition individuation decentering mechanism with respect to ontology/ontologically-veridical-meaningfulness in a dynamic-cumulative-aftereffect at the registry-worldview/dimension or intradimensional level that brings about prospective institutionalisations by rescheduling the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with respect to construed prospective ontology/ontological-veridicality (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) explaining why we are able and do transcend; or else as in all prior registry-worldviews, the pseudointemporality logic will tend to become one of conscious or unconscious ontological-bad-faith/inauthenticity that construes of the present (by its reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation

whether being usurped/disjointed/impostored/parasitized/co-opted) as of absolute reference-value regardless, failing/not-upholding-as-of-apriorising/axiomatising/referencing to register that the grandest value as ontologically-coherent (as a principle sustaining its perpetuation) is the transcendental/maximalising-recomposuring-for-relative-ontological-completeness as longness-of-register-of-meaningfulness/intemporality that accounts for the becoming from all the priors to the present to the prospective registry-worldviews/dimensions institutionalisations, thus not wrongly implying an equivalence between such a meaningful construct of universal import with temporal extricatory paradigm contentions (more like metaphorically an apple falling on Newton's head and his projection of this in grasping the universal implications of the laws of motion being wrongly equivocated in the terms of say an apple merchant and other interests in extricatory/temporal fear of the idea that understanding the laws of motions will be 'temporally' undermining in one way or the other). Critically, it isn't idle idealism but rather a realistic insight, as just as articulations of notions of positivism like evolution, universal human emancipation, rationalism, empiricism and science cannot be sustainably intelligible in a mindset/psyche that is non-positivism/medievalism and has not been pivoted (psychoanalytically-unshackled/mimeticly-reordered/institutionally-recomposured) to a positivistic mindset/psyche thus explaining why their proponents actively undermined the overall ordinary meaningful-frame of non-positivism/medievalism including such effort as the Encyclopédistes, likewise it is naïve to think that deprocrypticism (by its deprocrypticism/preempting—disjointedness-as-of-reference-of-thought imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality) is an inherent

meaningfulness that is perfectly construable within just a positivism–procrypticism mental-disposition and the latter’s many compromised assumptions as articulated in this paper, as deprocrypticism is priorly implying futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism psyche/mindset. This equally raises the fundamental issue with post-structuralism, does it fully make sense in a ‘modern mindset’ of reference or reference-of-thought or rather it is implying priorly a prospective ‘postmodern mindset’ of prospective reference or reference-of-thought as its existential-reference/existential-tautologisation wherein human ‘deeper limited-mentation-capacity-(as of relative conflation)’ pivots/decenters to reconstrue/reconceptualise meaningfulness-and-teleology, most critically marked by suprastructuralism/meaningfulness-as-beyond-temporal-consciousness-awareness-teleology as a knowledge construct grounded on the ontological-veridicality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor and the implications for the derivation of meaningfulness (a progression from just a positivism mindset/reference-of-thought of meaningfulness-and-teleology grounded pre-eminently on a human intemporal nature construct thus failing/not-upholding-as-of-apriorising/axiomatising/referencing to appropriately factor in the dynamism of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor mental-dispositions prospectively, with focus wholly on positivistic construal and logic grounded solely on an intemporal construct (overlooking the implication of ‘parasitism of meaningfulness-and-teleology’ as temporal arrogation/disjointedness/impostoring/extrication/misappropriation whether consciously/by-expediency/unconsciously, coming from the extended-informality-

(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)) in inducing defect of reference-of-thought as perversion-and-derived-perversion-of-reference-of-thought). Critically, ontological-normalcy/postconvergence points out that paradoxically the transcendental mindset/reference-of-thought associated with a 'knowledge construct of intrinsic-reality' should priorly be established ('centered' over the prior meaningful-frame which is 'decentered') for the knowledge construct to take hold by the continuing 'moulting' of its proponents and corresponding social construct, as intrinsic-reality doesn't adjust its inherent meaningfulness to us but rather humans need to achieve a given psychical development to have-access-to or be-able-to-register the knowledge construct of the more profound existential-reference/existential-tautologisation to intrinsic-reality/ontological-veridicality that that psychical development allows for, in meaningfulness-and-teleological terms. This is rather a difficult task as it implies 'ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought' behind the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, and no registry-worldview/dimension sees itself as dementable prospectively, as being decentered for a prospective centering, even where it acquiesces to the notion retrospectively up to its own institutionalisation; pointing that ontological-normalcy/postconvergence is the genuine perspective for construing the dynamism of knowledge-and-virtue or meaningfulness-and-teleology. The fundamental point of a knowledge construct (which is necessarily tautological as intrinsic-reality/ontology is already given) is rather an exercise of 'human <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) as subpotent-mimetic-echoness-derivation-

within-the-full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ wherein we pivot/decenter (psychoanalytic-unshackling/memetic-reordering/institutional-recomposeure) for redefined meaningfulness-and-teleology. Thus for a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation in ‘grasping the uninstitutionalised-threshold reflecting procrypticism involving postlogism and conjugated-postlogism’, the knowledge construct will assume this same fundamental goal of ‘human <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) as subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’. Pivoting/decentering as such for transcendence at the individuation-level speaks of intemporal-disposition maximalising-recomposuring-for-relative-ontological-completeness value and disposition re-ontologising terms even though for temporal-dispositions value and disposition conventioning terms this may sound unintelligible. Such a transcendental/intemporal pivoting/decentering necessarily construed from the prospective institutionalisation (whether base-institutionalisation, universalisation, positivism or deprocrypticism, as ontological-normalcy/postconvergence epistemic/notional_projective-perspective), of temporal-dispositions individuations in uninstitutionalised-thresholds (recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism) as being of ‘mental anarchy’ (mentarchy) which ‘speaks of a defining state of ontologically-defective meaningfulness-and-teleology, arising

from lack of common (lack of an ordered construct of deferential-formalisation-transference) ontologically-veridical reference-of-thought, wherein both temporal-dispositions in various shades and the intemporal-disposition are socially-perceived as meaningfully-and-teleologically entitled-in-equivalence ‘notwithstanding veridical veracity/ontological-pertinence conveyable by imbricatedness/threadedness/recomposuring of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ which ‘breaking’/existential-decontextualised-transposition by temporal-dispositions (on the wrong basis of a conviction/prelogical mental-disposition reflex that will wrongly reassumed soundness/non-perversion-of-reference-of-thought over-and-ignoring the reality of a postlogism-as-of-non-conviction induced unsound/perverted-reference-of-thought, as the breaking undermines existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality thus eliciting virtuality-or-ontologically-flawed-construal) is what induces uninstitutionalised-thresholds mental-anarchy/mentarchy at the individuation-level of conceptualisation, and which in a dynamic-cumulative-aftereffect of ‘apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as dialectically-dementing and dialectically-out-of-phase in pseudointemporality’ accounts for the uninstitutionalised-thresholds of recurrent-utter-uninstitutionalisation/ununiversalisation/non-positivism/medievalism/procrypticism. Thus insightfully, the same notion as uninstitutionalised-threshold,

Apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as dialectically-dementing and dialectically-out-of-phase and Mental-anarchy/Mentarchy (the latter which emphasises the state of ontological-veridicality implying an equivalence between-entitlement of both the temporal-dispositions and the intemporal-disposition, unlike an ordered-construct-of-deferential-formalisation-transference or an-institutionalised-construct that rightfully assumes the longness-of-register-of-meaningfulness/intemporal-meaningfulness of the intemporal-disposition individuation as ‘the superseding secondnaturing construct’), respectively reflecting the transcendental/transdimensional/interdimensional, intradimensional and individuation-levels; providing the necessary dynamic-cumulative-aftereffect grasp for storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation for maximalising-recomposuring-for-relative-ontological-completeness from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism reference-of-thought, with no elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity allowed as this induces virtualities/being-construals-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference.

Mentarchy/Mental-anarchy (as inducing ‘apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as dialectically-dementing and dialectically-out-of-phase’ and uninstitutionalised-threshold) can also be construed as a disposition for temporal-finitude on the basis of referencing ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ by the temporal-dispositions references-of-thought (whether consciously, expediently or unconsciously) in order to undermine the referencing of intrinsic-reality/ontological-veridicality transcendental-

enabling/sublimating as intemporal reference-of-thought (thus implying a mental-representation-devising/mentation/placeholder-setup of the ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ as ontologically dementing from the perspective of the transcendental-enabling/sublimating as ontologically thinking). Insightfully, for a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, such a ‘dynamic-cumulative-aftereffect of individuation/intradimensional/transcendental-or-transdimensional-or-interdimensional levels of conceptualisation’ ontologically validates ‘a deterministically teleological-differentiated storied-construct/ontologically-valid-narration’ of projectable/predictable-relative-existential-implications of the various ‘non-maximalising-recomposuring-for-relative-ontological-completeness temporal-dispositions incremental/shortness-disposition-relative-finitudes’ and ‘maximalising-recomposuring-for-relative-ontological-completeness intemporal-disposition superseding/longness-disposition-to-finitude’; finitude being the full-depth-of-existential-implications/existentialism arising when acting (as-being/as-existing) with regards to one’s prior relative-ontological-incompleteness/ontological-completeness of reference-of-thought. As a side note, such a notion of mentarchy in its dynamic-cumulative-aftereffect should be able to highlight the peculiarity of reference-of-thought associated with human languages from ancient ones to modern ones (as of the registry-worldview/dimension-levels of the corresponding societies), facilitating the deciphering and understanding of ancient languages, as well as the reconceptualisation of meaningfulness-and-teleology across history, which conceptual exercise tends to be rather biased towards a modern perspective metaphysics-of-presence. Finally, a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to take cognisance of the very peculiar nature of the social world (in contrast to the natural world) that makes the social ‘susceptible to incorrect understanding and analysis’ particularly at a practical and operant level by the fact

that it is highly emotionally-involved/politically-driven especially so with disturbing issues, and this is further compounded by the ‘blurriness and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’, and finally from a transcendental/maximalising-recomposuring-for-relative-ontological-completeness perspective human mental-disposition with regards to the social can be poorly ontological with unconscious, expedient or conscious emphasis on significant others basis of logic as well as <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-dispositions (social-aggregation-enablers) undermining the solipsistic relationship with intrinsic-reality required for veracity/ontological-pertinence (transcendental-enabling/sublimating). In this regard, it will actually be naïve to assume that an articulation of veracity/ontological-pertinence as with the natural sciences is all that is necessary in achieving effectiveness. With the weaknesses highlighted above with regards to grasping the social, it is important that such veracity/ontological-pertinence is effectively emphasised within the ‘realistic social contexts of mental-dispositions and actions’ driven by social-aggregation-enabling, wherein for instance the transcendental-enabling/sublimating that is intrinsic-reality/ontology grounded on intrinsic-attribution can easily take a backseat over social-aggregation-enabler grounded on extrinsic-attribution driven by such ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ as perverted use of notions of differentness, infamy, status, significant-others basis of logic, reputé, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation

(so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake), etc., and so, including intellectual milieus as well. The implications for a truly ontologically effective social science can be construed as follows; say for instance an accused miscreant was to articulate a credibly demonstrable notion in physics or chemistry, the ‘promptness of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ will easily allow for such veracity/ontological-pertinence to establish itself without undermining of the transcendental-enabling/sublimating that is intrinsic-reality/ontology by any social-aggregation-enabler (perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation or so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake, etc.). The ‘blurriness and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ makes this altogether a more difficult proposition in the social sciences particularly with issues that are highly emotionally-involved/‘interested’/politically-driven wherein even in intellectual circles arguments of differentness/subtle-infamy-implications/status/significant-others-basis-of-logic/repute are often easily advanced in undermining inherent veracity/ontological-pertinence. One such notorious argument with regards to poststructuralists involved the notion that French post-structuralism was developed by peripheral intellectuals of French society but then failing to equally say that a lot of the good science and social science in many Western countries have generally had the same personalities attributes. Of course, such a narrative will not be countenanceable in the

promptness of effectiveness driven natural science of ontological-primemovers-totalitative-framework, for instance, holding that Einstein's theory-of-relativity is flawed with the non-substantive argument he was a peripheral intellectual to German or Swiss or American society. The bigger point here with respect to a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation, is that veracity/ontological-pertinence by mere articulation of sound ontological conceptualisations as transcendental-enabling/sublimating-of-intrinsic-social-reality in the social contextualisation especially where blurry is often not sufficient purely by itself but that it needs to be creatively construed in facing off 'social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating' with the transcendental-enabling/sublimating-of-intrinsic-social-reality ontological-primemovers-totalitative-framework. This weakness actually takes a turn for the worst when it comes to the phenomenon of psychopathy and social psychopathy as this phenomenon is actually the quintessence of active extrinsic-attribution 'social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating' as driven by postlogism—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts' and corresponding conjugated-postlogism conjoining-looping-set-of-narratives of such postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts', respectively in recursiveness (psychopathic), progressiveness (opportunistic and exacerbatory) and regressiveness (ignorance and affordability). So a storied-construct/ontologically-valid-narration aetiologisation/ontological-escalation will need to demonstrate veracity/ontological-pertinence of the conceptualisations highlighted in this paper not purely by themselves as transcendental-enabling/sublimating-of-intrinsic-social-reality but rather such conceptualisation in a supratransversality—apriorising/axiomatising/referencing should be over-and-face-off a subtransversality—

apriorising/axiomatising/referencing of temporal undermining by ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ such as perverted use of notions of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation (so-called principle that is not articulated as a universal construct but targeted, avowing its reality as fake), etc., and this is the realistic developing social contextualisation within which psychopathy and social psychopathy manifests itself. Further the social-aggregation-enabler mechanism is what brings about social-chainism/social-discomfiture/negative-social-aggregation as well as the temporal-endemisation/temporal-enculturation of psychopathy and social psychopathy by eliciting of differentness, infamy, status, significant-others basis of logic, repute, social authorities and influencers naively involved in fallacies of authority, disparagement, contrivance, duplicity, imposturing, ontological-bad-faith/inauthenticity, implying an equivalence between universal/intemporal sense of purpose with extricatory/temporal/mundane sense of purposes, underhandedness, inductive-limitation, etc., to induce temporal-dragging-on-ontology/ontological-veridicality/intemporality or existential-decontextualised-transposition. Ontologically, thus the construal/conceptualisation of the Social paradigm is necessarily a construct that harkens to the intemporal-projection enabling the thoughtfulness as the imbued intemporal-preservation consciousness-awareness-teleology with the corresponding meaningfulness-and-teleology as ontological-contiguity—of-the-human-institutionalisation-process/institutional-design inducing the maximalising-recomposuring-for-relative-ontological-completeness enabling the development and endemisation/enculturation from recurrent-utter-uninstitutionalisation (non-rules-as-

impulsive-or-accidented-or-random-mental-disposition) of base-institutionalisation (rulemaking-over-non-rules) social-setup, universalisation (universalisation-directed-rulemaking-over-non-rules) social-setup, positivism (positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules) social-setup and prospectively deprocrpticism (preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules) social-setup. The implication being that the Social is much more than aggregativity (social-aggregation) wherein a mental-disposition of ‘overt aggregative social disposition’ that conceives that a social-setup reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are simply ‘perceptively-and-formulaically deterministic’ for ‘its purpose of temporal extricatory paradigm relating with the reference-of-thought—categorical-imperatives/axioms/registry-teleology (as perversion-and-derived-perversion-of-reference-of-thought)’ that undermines the imbued intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of the social-setup ‘is not ontologically social’ (as aggregativity construals and mental-dispositions about social relations of extricatory temporal-dispositions are perfectly construable as of varying covert to overt ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’). Likewise a mental-disposition of ‘overt non-aggregative social disposition’ conceiving the social-setup reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation ‘as of inherent essence and to be upheld and maximalisingly recomposured’ (as appropriateness-of-reference-of-thought-as-of-conflatedness) ‘is ontologically social’. The Social as such is an abstract construct not about the ‘equability in mutuality of the mortals that we are’ but rather

the opportunity for transcendental construal of our potential for intemporality. Paradoxically and across all registry-worldviews this has always imply sociologically that uninstitutionalised-thresholds are in a transversality-of-disambiguated-apriorising/axiomatising/referencing of these two divergent mental-dispositions with respect to meaningfulness-and-teleology whether conceptualisation of the transcendental as defining prospective social ontology in a sense of intellectual solipsistic fulfilment driven by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating or conceptualisation in aggregativity/social-aggregation as of <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> driven by social-aggregation-enabling, explaining the underlying confliction implied by any prospective institutionalisation as transcendental. This insight can be grasped from ontological-normalcy/postconvergence epistemic/notional_projective-perspective, when we garner that the ‘equability in mutuality of temporally-disposed minds as shortness-of-register-of-meaningfulness-and-teleology’ in a non-positivism/medievalism social-setup doesn’t supersede the ontological-veridicality of a social ontology insight providing anchoring for prospective positivistic institutionalisation construed reference-of-thought. Plausibly most likely the ‘developing consciousness-awareness-teleology mindset’ of such a ‘social ontology insight about prospective positivism’ (as maximalising-recomposuring-for-relative-ontological-completeness for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) may lead to its very own circumspection with the registry-worldview’s/dimension’s meaningfulness-and-teleology and possibly non-aggregativity. Consider the instance of such characters as Galileo and Newton, at the crossroad of ‘what is to be considered as valued meaningfulness-and-teleology’ with respect to the prospective as the positivistic registry-worldview/dimension and the prior as the

non-positivism/medievalism world, as consciously-or-unconsciously they register that the prior needs to be ‘decentered’ and the prospective ‘centered’, even though by reflex the prior will construe of itself as undecenterable center of meaningfulness-and-teleology. This may go a long way in explaining such biographic accounts about Isaac Newton as unsocial wherein a naïve conceptualisation of impression-driven/good-naturedness/wishfulness construal as virtue (in lieu of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework in its <formative>epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of intemporality) will not factor in the inherent deficiency in value judgment of a non-positivism/medievalism inclined ordinary mindset/reference-of-thought from which such accounts are coming from (given such a society’s state of paradox of transcendence of relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought) about a figure involved in ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness as partaking in the ‘inventing/creating’ of the structural/paradigmatic possibility (and the corresponding psychologism) for prospective positivism institutionalised-being-and-craft, more like biting a hand that intemporal-solipsistically as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality provides the opportunity for prospective structural/paradigmatic human flourishing, with the underlying fact being that inherently such a personality type rather as of a solipsistic-intemporality individuation disposition, by its

contemplative reappraisal, is exactly what can provide the opportunity for such transcendental possibilities (when we come to grasp that the true profoundness of knowledge is more than just ‘mechanical as something construed soullessly’ without a more complete appreciation of knowledge as ‘organic as something construed with a profound sense of intemporal philosophy’ with the idea that the type of knowledge construed as of first order transcendental-enabling/sublimating is not based on an ordinary notion of ‘intelligence as we’ll normally think of as simply technical’ but rather on such a sense of intemporal philosophical projection and more than just a ‘product’ for a materiality purpose but a driven sense of human emancipation). In fact, this equally points to a major flaw of the inherently implied value judgement in a lot of what passes for social sciences today explaining the vagueness, platitude and emptiness of little or no relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating implication as an epistememic-totalising—self-referencing-syncretising/circularity/interiorising/akrasitic-drag circular exercise, wherein the unabated recourse to naïve feel good averaging of thought mental-dispositions are equated with ontological-veridicality uncritically, rather than construing that the animal that we are is in want of knowledge as a construct that enable it to supersede/transcend itself rather than a vain exercise of nombrilism, in which case one may argue that each registry-worldview/dimension <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> ideas should be the basis for construing its social science! In fact, technically Newton might be the most inclined person for social engagement but then will he as of intemporal projection be inclined to ‘go along as social’ where he construed beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought ‘the medieval social’ as in want of its further development (this highlights a contrast between a stigmatic/mented

psychology of the present, as of any ‘present registry-worldview/dimension’, with value references related to as absolute without or poorly factoring in that the animal that is the human is rather a becoming animal in constant psychological development of its limited-mentation-capacity with respect to social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as of ontological-completeness-of-reference-of-thought; as determining its value reference and defining its underlying placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology, and hardly addressing such a more fundamental question as implied by ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural-psychology-of-dynamics’). In this respect, this makes many such so-called ‘social science approaches’ ‘poorly grounded on a social relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ more or less sciences of methodological mimicry, as we know that much of the ‘true sciences’ (including the natural sciences and many a true social science are not grounded on an epistememic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag construal but identify objective reality by its naturally constraining ontological-primemovers-totalitative-framework, as differing from sovereign constructs, as the determinant of pertinence (and such profound transcendental-enabling/sublimating basis of knowledge are then bound to further redevelop sovereign constructs and conventions, with the sovereign constructs and conventions not becoming intrinsic-reality/ontological-veridicality in of themselves but rather as of social, institutional, cultural, moral or historical reality of the human condition); though much more easier for the natural sciences as hardly any or nobody feels impinged today with scientific discoveries and inventions given that their transcendental-enabling/sublimating as of a positivism outlook psychologism of the world had taken place both in philosophical and practical scientific

terms with the Descartes, Hobbes's, Kants, Copernicuses, Galileos, Newtons, of the past. Whereas a lot of present day social science is relatively pulled back in many an unsuspecting manner, by elicited emotional involvement and underlying constraints of their institutional setups. Such can equally be implied with regards to procrypticism from futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism insight, wherein positivism–procrypticism is decentered and deprocrypticism is centered, and so in comprehensive psychologism terms; with the idea that the possibly unsavoriness is not of this author's or anyone's chosen but rather that the test for futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism transcendence set by intrinsic-reality/ontological-veridicality requires us coming to terms with it, no lesser than the test set by positivistic transcendence in the non-positivism/medievalism epoch intrinsic-reality required them to come to terms with this, however unpalatable to many then, and this underlying vitality across all epochs as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, induced by prospective relative-ontological-completeness-of-reference-of-thought is what counts as true knowledge beyond the blurriness-in-reflecting-and/or-coming-to-terms-with-implied-transcendence that often tends to arise with all institutionalisations institutionalised-being-and-craft erudition! More fundamentally, as previously highlighted with the mediocrity principle of science as it applies to humankind as well (as the notion of metaphysics-of-absence is pushed to its full implications over metaphysics-of-presence as our present-consciousness/illusion-of-the-present/epistemic-totalising–self-referencing-syncretising/mirage), the reality of a human-subpotency–

aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor may actually more
 objectively (and so beyond-our-consciousness-awareness-teleology) point to the idea that
 institutionalisation (the ontological-contiguity—of-the-human-institutionalisation-process) as
 intemporalisation is actually ‘a maximalising-recomposuring-for-relative-ontological-
 completeness recomposed abstract-construction/institutionalisation-designing’ which ‘in its
 operant effectuation (due to limited-mentation-capacity as of ‘presencing—absolutising-
 identitive-constitutedness’) defines its very own prospective interspersing with
 uninstitutionalised-threshold’ articulated as ‘socially-functional-and-accordant
 temporalisation of meaningfulness-and-teleology as from idiosyncratic individuations frame-
 of-reference at childhood to full-blown apriorising/axiomatising/referencing-in-hollow-
 staging-and-performance-caricaturing individuations frame-of-reference at adulthood’; that
 is, the ontological-contiguity—of-the-human-institutionalisation-process or
 institutionalisation design construed rather as about reducing-human-temporalisation-
 (shortness-of-register-of-meaningfulness-and-teleology) as uninstitutionalised-threshold, with
 such a notion of uninstitutionalised-threshold being the central notion of
 conceptualisation/construal for a thorough the-Good/understanding/knowledge-
 reification/ontological-primemovers-totalitative-framework construct (however
 counterintuitive from our natural thinking reflex metaphysics-of-presence ‘based on
 reasoning in terms-as-of-axiomatic-construct of cumulating institutionalisations’). Such a
 construal/conceptualisation of ‘institutionalisation as of uninstitutionalised-threshold’ will
 explain why with regards to ‘all the successive institutionalisations formal constructs’ as of
 their respective ‘comprehensive abstract setups of differential-formalisation-transference
 institutionalised meaningfulness-and-teleology’, there is a tendency associated with their
 corresponding extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-

and-incompleteness-to-meaningfulness-and-teleology) wherein there is ‘parallel construed extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) meaningfulness-and-teleology-as-of-a-relatively-poor-institutionalising-inclination’ of a subpar and occasionally of a superseding practical applicative bearing/effectiveness over the supposedly formal construct. By and large, this will often arise within the scope of blurry institutional setups not construed for operant effectiveness. Strangely enough we do actually tend to elicit such extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) construal as more determinant when the principles of formal constructs are rearticulated operantly in extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) meaningfulness-and-teleology-as-of-a-relatively-poor-institutionalising-inclination terms; and often contributing to institutional inefficiencies and failures of all sorts whether with respect to mismanagement, misappropriation, incompetence, etc. from a modern perspective of analysis. Further, the fact is such extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) effect can be more than just about the operant effect but equally protracted as ‘designed-formalisation-ineffectiveness’ in ensuring the ascendancy of extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) meaningfulness-and-teleology-as-of-a-relatively-poor-institutionalising-inclination over formal constructs. By and large, this can be construed as the residual temporalisation effect arising from the fundamental reality of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor with respect to all the successive institutionalisations; with the notion of deprocrypticism requiring registering

the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor without any complexes and psychically pivoting/decentering (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) over its deprocrypticism/preempting—disjointedness-as-of-reference-of-thought (just as the ‘positivistic mindset’ arose from registering the reality of defective essences, alchemic, spirits, etc. Universalising-rules and psychically pivoting/decentering for rational-empiricism/positivising-rules, just as the ‘universalising mindset’ arose from registering the reality of vague, sporadic, incidental, and animistic rulemaking-over-non-rules-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) and psychically pivoting/decentering for universalisation-directed-rulemaking-over-non-rules-(as ‘second-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument), and just as the ‘base-institutionalised mindset’ arose from registering the reality of non-rules-as-impulsive-or-accidental-or-random-mental-disposition-(as ‘basic constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) and psychically pivoting/decentering for rulemaking-over-non-rules-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument); and so, as of psychical and institutionalisation implications). Across all institutional-cumulations/institutional-recomposures in reflecting the ontological-contiguity—of-the-human-institutionalisation-process defining why any given institutionalisation is stuck at its level of relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-

construed-as-from-prospective-reference-of-thought is its flawed notion of sanctified-conventioning-social-aggregation-enablers defining the conventioning threshold of the given institutionalisation wherein the inherent prospective intrinsic-reality/veracity/ontological-pertinence transcendental-enabling/sublimating is (unconsciously, expediently or consciously) superseded/overridden by the given institutionalisation's sanctified-conventioning-social-aggregation-enablers, thus endemising/enculturating the said institutionalisation specific perversion-of-reference-of-thought (postlogism-and-conjugated-postlogism), whether as 'Procrypticism perversion-of-reference-of-thought (psychopathy and social psychopathy)', 'Non-positivism/medievalism perversion-of-reference-of-thought', 'Ununiversalisation perversion-of-reference-of-thought' or 'Recurrent-utter-uninstitutionalisation perversion-of-reference-of-thought', whereby the specific uninstitutionalised-threshold has its specific point of sanctified-conventioning-social-aggregation-enablers where transcendental-enabling/sublimating is impeded; with recurrent-utter-uninstitutionalisation sanctified-conventioning-social-aggregation-enablers reference-of-thought failing/not-upholding-as-of-apriorising/axiomatising/referencing the rulemaking-over-non-rules-(as 'first-level presencing—absolutising-identitive-constitutedness of reference-of-thought'

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for the transcendental-enabling/sublimating of base-institutionalisation, with ununiversalisation sanctified-conventioning-social-aggregation-enablers reference-of-thought failing/not-upholding-as-of-apriorising/axiomatising/referencing 'universalisation-rules' required for the transcendental-enabling/sublimating of universalisation, with non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers reference-of-thought failing/not-upholding-as-of-apriorising/axiomatising/referencing 'rational-empiricism/positivising-rules' required for the transcendental-enabling/sublimating of positivism or prospectively, with

procrypticism sanctified-conventioning-social-aggregation-enablers reference-of-thought
 failing/not-upholding-as-of-apriorising/axiomatising/referencing
 ‘deprocrypticism/preempting—disjointedness-as-of-reference-of-thought/existential-
 contextualising-contiguity involving existence-potency-prospective-digression—rules-of-
 apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-
 ontologically-same-existential-reality’ required for the transcendental-enabling/sublimating
 of deprocrypticism. Such sanctified-conventioning-social-aggregation-enablers involves a
 perversion-of-reference-of-thought (postlogism-and-conjugated-postlogism) wherein the
 instigated postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-
 dueness) and protracted-conjugated-postlogism mental-dispositions contendingly perceive the
 sanctified-conventioning-social-aggregation-enablers as the point of ‘denaturing postlogical-
 backtracking devoided-of-conviction-or-prelogism-basis’ when facing the ‘intrinsic-
 reality/veracity/ontological-pertinence transcendental enabler’. Concretely, the fact is that
 psychopathic postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-
 narratives-and-acts’ and conjugated-postlogism as ‘conjoining looping narratives of flawed-
 existential-elevation-of-reference-of-thought’ of postlogical-backtracking—iterative-looping-
 ‘set-of-dereifying-hollow-narratives-and-acts’ are ‘denaturing devoided-of-conviction-or-
 prelogism-basis’ towards the given institutionalisation’s sanctified-conventioning-social-
 aggregation-enablers in order to override, undermine and escape from the intrinsic-
 reality/veracity/ontological-pertinence transcendental-enabling/sublimating. As in the case
 previously highlighted where a psychopath spoke to an interlocutor that it is a bad thing for a
 said individual to be molesting children, with its logic being sound from an abstract/virtuality
 appreciation but with the existential-reality of its ‘apriorising—reference-of-thought-
 elements/apriorising—registry-elements (out of existential-contextualising-contiguity)’s-
 reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-

thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology being utterly unfounded as a first-order faulty-mentation-procedure-deception-or-urge potentially enabling an infinite possibility of second-order level deception if re-engaged as of logical-processing-or-logical-implication. Where the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-narrated) over the previous narrative, and so in ‘denaturing postlogical-backtracking devoided-of-conviction-or-prelogism-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogical-backtracking devoided-of-conviction-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a conviction mind). Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-thought or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order

faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implication on such false axioms. Thus, with respect to postlogism generally what is critical for the psychopath/postlogical-mindset is to be seen as being conviction/prelogical even if it is a perception of bad-conviction (and not to be seen as being non-conviction/postlogical) since that will validate the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity)’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ on the basis that it was the logical-processing-or-logical-implication that was wrong hence the possibility and credibility not to question and imply the denaturing of reference-of-thought as perverted reference-of-thought–categorical-imperatives/axioms/registry-teleology and thus to wrongly re-engage logical-processing-or-logical-implication turning the issue into one of ‘notion of agreement or disagreement’ instead of construing a perversion-of-reference-of-thought ‘dementing manifestation’ implying and requiring intellectual-and-moral-inequivalence/non-correspondence in transversality-of-disambiguated-apriorising/axiomatising/referencing). This equally applies in the instance of derived-perversion-of-reference-of-thought as conjugated-postlogism by temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogical-backtracking devoided-of-conviction-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers. Summarily, instances of such sanctified-conventioning-social-aggregation-enablers could be exemplified in dereifying context as: in the case of child psychopathy, - pour water on chair, - point stranger to sit on, -

accuse brother, - when found out, postlogically retreat with delirious statement accident happened, etc.; in the case of adult psychopathy (including the conjugated-postlogism acts involved in protraction of postlogism), - commit offence, - act as morally ascendant, - when the postlogical and conjugated-postlogism mental-dispositions are ontologically undermined, ‘falsely contend’ by extrinsic-attribution of ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> as ‘denaturing postlogical-backtracking devoided-of-conviction-or-prelogism-basis’ towards the sanctified-conventioning-social-aggregation-enablers in order to undermine the intrinsic-attribution/ontological-veridicality transcendental-enabling/sublimating, - when further undermined claim in ‘denaturing postlogical-backtracking devoided-of-conviction-or-prelogism-basis’, things have moved on, on the basis of sanctified-conventioning-social-aggregation-enablers over and undermining intrinsic-reality/veracity/ontological-pertinence transcendental enabler as a civilisational/institutional-being-and-craft setup creating mental-disposition. The fundamental issue, going by the postlogism-and-conjugated-postlogism/perversion-of-reference-of-thought is then one that at the transcendental/transdimensional/interdimensional/maximalising-level defines the uninstitutionalised-threshold vices-and-impediments construct of the registry-worldview/dimension, more than just on-occasionally/incidentally. From an intemporal/ontological perspective that speaks of ‘modern savage mentality’, whether as postlogical or conjugated-postlogical, as procrypticism/disjointedness-as-of-reference-of-thought in need for prospective institutionalisation as deprocrypticism, not as an on-occasion/incidental issue but about ontologically appreciating the how and why in reflecting

the ontological-contiguity—of-the-human-institutionalisation-process as it undermines uninstitutionalised-thresholds arising from perversion-of-reference-of-thought for the recurrent intemporal <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought possibility of further prospective civilisational living/institutionalised-being-and-craft setup, and so as an aetiologisation/ontological-escalation/‘metaphorically-a-million-and-one-instances-and-locales’ conceptualisation. The grandest job and the grandest living from an intemporal-projection/longness-of-register-of-meaningfulness/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality point-of-departure-of-construal is one that construes and purports for human engaged-destruction/deconstruction/ontological-reconstituting—as-of-conflatedness of such uninstitutionalised-thresholds: by ‘engaged-destruction/deconstruction/ontological-reconstituting—as-of-conflatedness of prospective recurrent-uninstitutionalisation vices-and-impediments’ for prospective base-institutionalisation, ‘engaged-destruction/deconstruction/ontological-reconstituting—as-of-conflatedness of prospective ununiversalisation vices-and-impediments’ for prospective universalisation, ‘engaged-destruction/deconstruction/ontological-reconstituting—as-of-conflatedness of prospective non-positivism/medievalism vices-and-impediments’ for prospective positivism, and ultimately, ‘engaged-destruction/deconstruction/ontological-reconstituting—as-of-conflatedness of prospective procrypticism vices-and-impediments for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism. That exercise has always been one of decentering of the defective center for the emergence of a new and more ontologically-complete-reference-of-thought center, and no registry-worldview/dimension can pretend to imply it is ‘un-decenterable (implying its dementing and out-of-phasing for the prospective thinking centering and in-phasing) by its

<formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-

 full implication of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-

 explicating-ontological-contiguity’ for our present as well, its psychoanalytic-
 unshackling/memetic-reordering/institutional-recomposure. As with all prospective
 institutionalisations, a human secondnaturating institutionalising construct is a requisite
 because, at best even the intemporal-disposition individuation individuals, purporting (by
 maximalising-recomposuring-for-relative-ontological-completeness) prospective
 emancipation come from and are of the stock of the prior reference-of-thought
 uninstitutionalised-threshold registry-worldview/dimension, and such prospective
 emancipation involves such individuals own ‘moulting’, as actually intemporality/longness is
 a ‘potential construct of orientation’ as implied by ontological-normalcy (prospective-
 transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—
 ontological-preservation) and it is only a devised institutionalisation construct that achieves
 that potential-construct-of-orientation and not any implied inherent emanance intrinsicness
 (though the meaningfulness as articulated as such, and as the meaningfulness in this entire
 paper, is rather of an intemporal register validation and not of any temporal register
 validation, since an authentic psychoanalytic-unshackling/memetic-reordering/institutional-
 recomposure is what underlies transcendence as a ‘deeper limited-mentation-capacity-(as of
 relative conflation)’ existential-tautologisation/existential-reference pivot/decenter to
 reconstrue/reconceptualise meaningfulness-and-teleology; more like a jurisprudential

maximalising-recomposuring-for-relative-ontological-completeness contention for rehabilitation is not of the same meaningful-framework as a temporal mental-disposition of illicitness for shifty expectation of rehabilitation which it should necessarily anticipate and preempt). By that token there is no base-institutionalised individuation in recurrent-utter-uninstitutionalisation, no universalised individuation in ununiversalisation, no positivistic individuation in non-positivism/medievalism, and prospectively no deprocrypticism individuation in procrypticism; as at best such emancipating intemporal individuation are ‘moulting’ and implying-of-the-same of their registry-worldview in prospective institutionalisation design/conceptualisation, as the effective institutionalisation is what is really and effectively attained.

The notion of apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as defining the registry-worldviews/dimensions uninstitutionalised-thresholds is rather a most real idea from an ontological-normalcy/postconvergence epistemic/notional_projective-perspective wherein we can very much fathom out that the successive relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought as the successively reducing-ontological-abnormalities of recurrent-utter-uninstitutionalisation uninstitutionalisation, ununiversalisation uninstitutionalisation, non-positivism/medievalism uninstitutionalisation and procrypticism uninstitutionalisation effectively speaks of their apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as the respective uninstitutionalised-threshold with respect to the superseding—oneness-of-ontology which as existential-reality isn’t changed but rather the respective cumulating/recomposuring uninstitutionalised-thresholds are due to ‘changes in human meaning and meaningfulness and the teleological implications thereof’ confirming by extension that their

apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing nature is veridical or a most real idea with implications on psychical-orientations/mindsets as structured by the ontology-driven ‘dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’. However apparently logical this idea, it is an altogether different to mentally register the idea of such an apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing construct and perception about our own registry-worldview uninstitutionalised-threshold as procrypticism just as it would be by reflex difficult in all the successive registry-worldviews, often requiring a generation or more for transcendental implications to sink in. This apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing conceptualisation of ‘the social as at its uninstitutionalised-threshold threshold’ wherein the representation as ‘being in apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’ is more real (from an ontological-normalcy/postconvergence epistemic/notional_projective-perspective) than the actual placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology defect of conscious mindsets within the given uninstitutionalised-thresholds registry-worldview/dimension (as the apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing insight is suprastructural to it or beyond-its-consciousness-awareness-teleology); is an ontological validation of Derridean hauntology/hantologie conceptualisation of the social in cinematographic terms of meaningfulness (and will seem very much akin, from an ontological perspective, to the central notion of ‘intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as the superseding referential conceptualisation of ontology and inherently imbued with ontological-reconstituting—as-of-conflatedness as a centering/decentering mechanism’ as implied in this paper, though hauntology/hantologie is not quite articulated in such more precise ontological terms but

imbricatedness/threadedness/recomposuring notion of existential-reality in there can be grasped), and equally highlights the fundamental ‘paradox of post-structural deconstruction by its transcendental implications’, in that the mental-disposition/psychical-orientation of the present registry-worldview/dimension as positivism–procrypticism is not developed enough (in terms-as-of-axiomatic-construct of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) to grasp its implications (in want of futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation), just as the core non-positivism/medievalism mindset/reference-of-thought wasn’t developed enough to grasp the implications of created-and-accruing positivistic meaningfulness and redefined mindset/psyche inducted by the Descartes, Copernicuses, Galileos, Newtons, Kants, Rousseaux and it had to psychoanalytically-unshackle/memetically-reorder/institutionally-recomposure over generations ‘for what were outlier ideas to become the defining ideas of modernity’. Thus the apparent issues today raised with post-structuralism have as much to do with the psychical orientation (as underdeveloped) of its critiques as well as the requisite effort required to further develop, elucidate and focus it; and in this regard why there have been many serious and constructive

criticisms of post-structuralism as required for any subject-matter, most of the ‘popular criticisms’ levied against post-structuralism fail to past the test of intellectual criticism and have mostly been populist and media-driven attacks, gaining traction by social trending than genuine intellectual validity. The most popular being an initiative on an unrecognised social science journal which by that mere token disqualifies the so-called criticism but has turned out to be the most populist ploy by all accounts for condemning post-structuralism. Furthermore and critically, the intellectual exercise as with all institutional processes operate fundamentally on a basis of mutual trust. However, the methodologies, theories, concepts what can be articulated as new knowledge is not necessarily assessed on the basis that any peer review mechanism is absolutely full-proof particularly as the new knowledge is often at the margin of what is understood, and thus much of peer reviewing is not really an approval of the knowledge but rather an admission into the body of institutionally or formally acknowledgeable perspectives for further elucidation. Even then many a study not approved with peer reviewed journals have later on down the years ended up becoming dominant theory. So there isn’t any inherent sanctity in peer reviewing but for its practicality in formal knowledge organisation (and not even so with approval). Technically the majority of all new knowledge down the years will be found wanting in many ways, and the objective of the overall peer review process is to channel potentially admissible and debatable knowledge towards further elucidation in the overall scheme of establishing overall human knowledge as of veracity/ontological-pertinence. Review of new knowledge doesn’t end with a journal’s peer review though that point tends to be a ‘highly political point nowadays’ as of the increasing bean-counting institutional reflex of funding implications and sometimes at the detriment of novel approaches to knowledge. The abstract notion of reviewing goes well beyond journals approval and extends with the continual critiquing of knowledge whether dominant or outlier. Ultimately, the more fundamental test in such a negotiated process is a

strive for consistency and validity clues with no guarantees of effectiveness but for the overall consistency, as of the very cutting edge of peer reviewed knowledge. Just for the sake of perspective here, it might equally be argued that peer-reviewing and by extension all epistemological and their corresponding methodological activities are not natural knowledge activities as of inherent pure ontology in of itself but derived activities as of human norms, practices and policies for establishing thresholds that then enable articulated qualifications as of pure ontology; in other words, any such epistemological and methodological activity is irrelevant if pure ontology can be arrived at without it. Consider for instance that mathematicians hardly make use of experimental designs or that many secret research by corporations and government aren't peer reviewed, at least not publicly. Besides at a more fundamental level the question can be asked what are the metaphysics-of-absence implications of knowledge epistemology, methodologies and peering as to the weightier construal of the successive human ontological developments involving increasing prospective relative-ontological-completeness-of-reference-of-thought associated with the overall institutional-cumulations/institutional-recomposures in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, beyond just an intra-positivism registry-worldview/dimension illusion-of-the-present/present-consciousness/epistemic-totalising-self-referencing-syncretising/mirage conceptualisation of knowledge epistemology, methodologies and peering naively articulated-and-implied-as 'universally applicable', à la Kantian positivism registry-worldview/dimension <formative>epistemic-totalising_intervalist-as-categorising-phenomenal-abstractiveness-of-presence however remarkable, to all registry-worldviews/dimensions particularly since such a conceptualisation doesn't factor in 'transcendental implications' as structurally/paradigmatically overthrowing/fazing-out/collapsing the uninstitutionalised-threshold of meaningfulness-and-teleology of the prior/old registry-worldview's/dimension's reference-of-thought as a

decentering subsumption; along the same line as the medieval ‘dogmatic scholastics’ insisting that the now established positivism registry-worldview/dimension knowledge constructs, which were then transcendental, should conform to their ‘institutionalised dogmatic scholasticism methods and processes of reviewing’. By extension the question can be asked whether beyond our ‘-<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag institutionalised positivism conceptualisation of meaningfulness-and-teleology’ whether such is truly in a ‘requisite contemplative-and-Being position as of the prospective transcendentially-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism’ of ‘evaluating a construct of prospective transcendence’ as herein implied about futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension meaningfulness-and-teleology which paradoxically structurally/paradigmatically entails overthrowing/fazing-out/collapsing the positivism–procrypticism meaningfulness-and-teleology at its uninstitutionalised-threshold as a decentering subsumption; when we factor that such a contemplation-and-Being as from a positivism–procrypticism meaningfulness-and-teleology is being called upon to evaluate as to ‘a meaningfulness-and-teleology world beyond its ordinary contemplation’ with the mental tools for such a prospective projection mostly of abstract projective contemplation for grasping the prospective organic-knowledge implied, and so beyond an ordinary evaluation within an implied same reference-of-thought. It should be noted here that the more pertinent quality for such implied transcendentalism as of its implied organic-knowledge beyond just a mechanical construct is ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality explaining the disparate nature of the development of human knowledge. This author as previously articulated points out that there is a more profound basis for how and why new/prospective knowledge whether outlier or main stream is socially integrated in driving ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ across all the institutional-cumulations/institutional-recomposures as the very human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

dispositions—existentialism-form-factor implying that human registry-worldview’s/dimension’s have institutionalisation-thresholds and uninstitutionalised-thresholds broken only in the medium to long-run beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought ‘by a power relations dynamics structurally ingrained in the social universal-transparency; and so as of ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework’, and thereafter the eliciting of positive-opportunism, deferential-formalisation-transference, ordered-construct, percolation-channelling-<epistemic-totalising-reoriginariness/reorigination-in-conflation> as of transversality-of-disambiguated-apriorising/axiomatising/referencing of opposing axiomatic-constructs/references-of-thought that allows for the more ontologically-veridical to supersede as inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining. This is the more profound suprastructural-construct of ‘human validation-

conceptualisation/epistemological relationship to knowledge' applicable across all registry-worldviews/dimensions as of 'a notional futural différence' construed as of a 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics', notwithstanding the more superficial constructions of 'human validation-conceptualisation/epistemological relationship to knowledge' within a same registry-worldview's/dimension's institutionalisation whether base-institutionalisation/animistic-universalisation shamanism, universalisation-non-positivism/medieval dogmatic scholasticism or our positivism-procrypticism 'categorisation epistemes'; but also the conflatedness of futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism 'referentialism as epistemological' (as of notional-deprocrypticism which reflects ontological-construal along the full potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness). Such a notional futural différence as a suprastructural construct appreciation of epistemological implications about social integration of knowledge certainly informs a commitment to outlier ideas as being ultimately validatable in effect as of their intrinsic-reality/ontological-veridicality, if that is as of what they truly are, in the medium to long-run. Basically the transcendental as originary/event-of-prospective-ontology-origination to a knowledge and its knowledge system however remote the origination, in the very first place, speaks of the notion of <formative>epistemic-totalising-renewing-realisation/re-perception/re-thought associated with 'dialectical-thinking-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' behind any retrospective or prospective registry-worldview's/dimension's reference-of-thought validation-conceptualisation/epistemological relationship to knowledge/ontological-construal.

Ultimately, the very transversality-of-disambiguated-apriorising/axiomatising/referencing between the prior registry-worldview/dimension as of its prior relative-ontological-incompleteness-of-reference-of-thought and the prospective registry-worldview/dimension as of its prospective relative-ontological-completeness-of-reference-of-thought is ‘the very paradox of meaningfulness-and-teleology explaining their discordance, construed as the paradox of transcendence’. In other words, if the former had a grasp of its state ‘as to its prior relative-ontological-incompleteness-of-reference-of-thought’ with the transcendental structural/paradigmatic <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity arising thereof it would have paradoxically transcended, thus explaining the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure nature of transcendence as of a cross-generational exercise and why such implied transcendental meaningfulness-and-teleology might seem arbitrary when meaningfulness-and-teleology is rather interpreted in terms of the prior registry-worldview’s/dimension’s reference-of-thought not factoring its prior relative-ontological-incompleteness-of-reference-of-thought. But this is simply valid on the fact that a more profound axiomatic-construct on a given domain of reality as of prospective relative-ontological-completeness-of-reference-of-thought is of intemporal-or-ontological prioritisation as of its conflatedness relative to a less profound axiomatic-construct on that same given domain of reality as of prior relative-ontological-incompleteness-of-reference-of-thought as of its constitutedness, as the latter is rather in shortness-of-register-of-meaningfulness-and-teleology/distractiveness to the former as of reference-of-thought/structural/paradigmatic—ontological-performance. Consider for instance Einstein’s theory-of-relativity and Newton’s laws of motion with respect to the same given domain of physics reality, wherein the former’s prospective relative-ontological-completeness-of-reference-of-thought over the latter implies the former’s utter ‘ontological-resetting’ in the

conceptualisation of that given domain of physics reality as of transversality-of-disambiguated-apriorising/axiomatising/referencing with the latter; as henceforth the logical-ness of the latter doesn't even arise but rather as it maybe subsumed/implied/is-non-contradictory as of the former or for educational insights purposes! Of course, this comparison differs from a construal of postlogism and conjugated-postlogism associated perversion-and-derived-perversion-of-reference-of-thought ; in that as of a human condition relations it is construed rather as beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought postlogism-and-conjugated-postlogism-as-of-non-conviction prior relative-ontological-incompleteness-of-reference-of-thought 'waylaying', as <formative>wooden-language—of-temporal—mere-form/virtualities/dereification/akrasiatic-drag-denatured-and-dementing-narratives of the registry-worldview's/dimension's institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology hence dementing, of prior prelogism-as-of-conviction prospective relative-ontological-completeness-of-reference-of-thought, thus requiring for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation renewed 'conflatedness' as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality that induces a prospective 'universally-transparent constraining mechanical-knowledge as new bare reference-of-thought—categorical-imperatives/axioms/registry-teleology as axiomatic-construct' and 'its social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as the creating-and-essence-attributing drive for knowledge-and-virtue' bringing about prospective relative-ontological-completeness-of-reference-of-thought, construed as 'ontological-resetting' of placeholder-setup/mental-devising-

representation/mentation/consciousness-awareness-teleology. By the mere fact of implied prospective relative-ontological-completeness-of-reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought a prospective transcendence involves the prospective reference-of-thought rather ‘registering-and-reflecting a beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought meaningfulness-and-teleology as of organic-knowledge Being correction’ of the prior reference-of-thought, such that the prior reference-of-thought logical-duedness doesn’t even arise as the prospective reference-of-thought is the relatively complete ‘ontological-resetting’ in an ‘organic effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology’ over the prior reference-of-thought ‘effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology’; just as the introduction of chemistry science carries an organic effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology over a non-positivism/medievalism alchemic material construal. This further explains ‘the socially conflicted nature of all implied transcendental constructs’ whether with prophesying metaphysico-theological constructs of early times reflected in non-universal and universal creeds up to our metaphysico-ontological worldviews implied transcendence, and so as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor; but then humankind has always been called upon to show itself capable of superseding/surpassément for prospective possibilities to avail. A second weakness of many critiques is by naively misrepresenting post-structural meaningfulness, and going on to criticise this. For instance, such arguments about post-structuralism as a theory that has no worldview are not made by poststructuralists who in their transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-

ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—
 as-so-being-as-of-existential-reality/antinihilism have been rather questioning openly what
 the reality of the meaningfulness they construct implies, as a basis for further intellectual
 development. This explains the convoluted responses of say Derrida because that is the
 intrinsic-reality insight at hand, and the issue is rather how to further develop. This will be
 tantamount to criticising early quantum physics for contending that the fundamental particles
 are rather like waves and evasive without yet establishing an advanced basis of the science.
 Knowledge is not an exercise of one set of individuals arguing against another nor is it a
 popularity contest but rather it is all about finding out what constitutes intrinsic-reality as it
 permits ontological-primemovers-totalitative-framework; intrinsic-reality being the
 superseding transcendental enabler, and not any humans no matter their statuses. A third
 weakness has been by relating to poststructuralists as if they have got to get all their ideas
 right on by the instant, as if the theoretical framework isn't in development like all theoretical
 frameworks (by the same token imagine all the unanswered questions that underlie quantum
 physics for over half a century that are still being elucidated, for instance, string theory which
 is so highly speculative but is still credibly a basis for research and analysis). The purpose of
 a theoretical framework is not to provide an immediate answer for everything but rather to
 provide a framework for constant critical development of ideas. Otherwise, it will be best to
 develop a correlational construct that may statistically be coherent with many arguments at
 any given point in time but is of little predicative or projective value because it hasn't got a
 profundity as a genuine theoretical construct which may actually be mostly incoherent with
 many arguments at its earlier stage but provides a wealthy framework for the continuous
 articulation of ideas and resolutions, and this is actually the point of a theory in the very first
 place. It is thus no accident that many other disciplines have found post-structuralism as a
 relatively ideal tool for invoking much needed insight. A fourth criticism has to do with the

‘political nature’ of human affairs obviously, and even the intellectual is not beyond this especially with ideas of ‘socially-perceived disturbing implications’ (as has been the case throughout human history) and further so in a social domain that is not immediately amenable to predicative-effectivity—sublimation—{as-to-underlying-ontological-commitment} as with the natural domain even though the latter equally faces similar issues but to a lesser extent. When we come to reflect that the leading poststructuralist of his time had an entire school, rather than focusing on developing research criticisms of his work and other poststructuralists (which would have been the more impressive thing to do) instead taking a ‘political stance’ for the denial of his recognition with an institution of higher learning. Thus it is obviously, naïve for anyone to think that intellectualism and ideas occur in an absolute neutral environment particularly when of socially-perceived disturbing implications. While it is generally recognised that knowledge is determined on its own merits as an interest-free principle, the fact is in the real world of ‘socially-perceived-value as of social-stake-contention-or-confliction’ situations, human mental-disposition is not that intemporal and principled, whether wittingly or unwittingly, and extra-intellectual meaningfulness becomes fair game. Fifthly, the argument of unintelligibility of post-structural meaning is outright ridiculous with respect to the exegetical aims of its authors, and no less so as expecting advanced chemistry, biology and physics writing to be popularly intelligible. Jargon is rather a mechanism of deferential-formalisation-transference permeating all subject-matters and disciplines, which speaks to the idea that the ‘ordinariness of thought’ is not the sound basis for construing issues raised in terms-as-of-axiomatic-construct of profoundness of contemplation. The ontological-contiguity—of-the-human-institutionalisation-process by its deferential-formalisation-transference is an exercise of shrinking the melee of common sense wherein spheres previously opened for common opinionionatedness are shoved away as ‘deferred to’ specialisms whether institutional or subject-matters by the mere effectiveness,

with ‘informed common and individual opinions’ being the panache for the expression of sovereignty whether about the polity or individual choices, but not to be confused as a sign of inherent knowledge as of popularity. The idea that there is a common sense social science is a falsehood no more than there is no common sense natural science, and intellectuals are irresponsible when peddling the notion that readers shouldn’t acquire the requisite ‘intellectual elevation’ to grasp the profundity of meaningfulness and rather expect that they should be able to satisfactorily engage at the same intellectual level (reference-of-thought) involving advanced studies and research on the basis of ordinariness of thought. This should not be confused with a popularising exercise meant to stir popular interest like popular science, though in fact there is no truly popular science for that matter but serious/candid science. Such a confusion can hardly arise in the natural sciences because of the ‘promptness of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ in constraining veracity/ontological-pertinence of thought by the immediate effectiveness of studies, discoveries and inventions wherein a flawed thought proposition will be proven wrong by its ontological ineffectiveness with relatively little concern for third-party convincing over the transcendental-enabling/sublimating that is existence/intrinsic-reality/ontological-veridicality, whereas the ‘blurriness and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ in the social sciences allows for propositions to crop up that are hardly constrained by immediate effectiveness of studies, discoveries and inventions, such that such propositions will often border on popular thinking or the political (technically) or a concern priorly driven with garnering support and agreement, rather than of genuine intellectual strife for ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating. In this regard, the central tenet of poststructuralists with respect to their pursuit has been transcendently-enabling-

level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-
 notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism with
 respect to their reflections, studies and research at all cost, even at the cost of many
 poststructuralists not recognising explicitly that they are poststructuralists or not recognising
 similarities in their works with other poststructuralists, so because fundamentally they can
 only vouch for their authentic reflections and analyses without a ‘surreptitious pretence’ for
 such amalgamation which will undermine their authenticity with regards to conceptualising
 intrinsic-reality/ontological-veridicality, with the idea that the notion of a commonness of
 their ideas and as a movement will take care of itself if they are truly articulating an intrinsic-
 reality/ontological-veridicality that reflects that commonness; more like the Indian story of
 blind men who came across an elephant and each one sincerely/authentically said what their
 capacity enabled them to say, no more no less, with the idea that if what they say is of-the-
 reality of an elephant, that notion will take care of itself but their first posture is to say
 authentically what is in front of them. This speaks of the essential nature of all sciences
 wherein the researcher considers the most determinant element to be not itself or other
 humans (who are together mortals; mortal because they/humans don’t really invent any rules
 of existence-or-intrinsic-reality-or-ontological-veridicality but rather at best discover them or
 utilise them as ‘supposed inventions’ – and the scientist is all about a validation by intrinsic-
 reality/ontological-veridicality-as-the-transcendental-enabling/sublimating in contrast to a
 mental-disposition of social-aggregation-enabler where the emphasis is naively about
 convincing the other mortal or mortals over a validation by intrinsic-reality/ontological-
 veridicality transcendental enabler thus leading to temporal-dragging-of-
 ontology/ontological-veridicality in-a-social-dynamism-of-meaningfulness-misappropriation,
 rather than the supersedingness/precedingness of intrinsic-reality/ontological-veridicality

transcendental enabler) but the superseding transcendental-enabling/sublimating which is intrinsic-reality/existential-reality/ontological-veridicality as reflected by effectiveness of ontological-primemovers-totalitative-framework and projection; with the latter wholly the focus of intellectual contention. The medical researcher involved in seeking a cure by reflex is concerned about what the transcendental-enabling/sublimating that is intrinsic-reality/ontological-veridicality/existence ‘naturally and best construed/conceptualised’ in the crafted jargon of biomedical sciences will make available as cure as the ‘superior party’ over whatever they themselves or for that matter any other humans no matter their statuses may ‘sovereignly’ want to think or imagine. This same notion applies in the construct of knowledge in the social sciences, the pursuit of the social scientist as the study of social reality is ‘not about convincing people or making sense to people’ (that can be accessory) but rather about grasping/conceptualising the intrinsic-reality/ontological-veridicality of the social as the transcendental-enabling/sublimating whatever the jargon required for that purpose; the social education/enlightening exercise that arise thereafter just as a popular science exercise is an altogether different exercise of education and not first-level scientific engagement, and even then such education exercise will still call for a degree of intellectual elevation of the general public. It is critical that in the natural competition of intellectual ideas, intellectuals do not fall in the pattern of using debased or social feel good basis of non-intellectual logic in eliciting ‘mass thinking’ in order to advance their postures but rather fairly and squarely engage at the transcendental-enabling/sublimating of intrinsic-reality/ontological-veridicality level in proving or disproving those they agree or disagree with as of ontological-primemovers-totalitative-framework ontological implications of existence—as-the-absolute-a-priori-of-conceptualisation. Sixth, thus the idea of deferential-formalisation-transference behind formal predicates of institutions and subject-matter specialisms is all about construing meaningfulness in a depth-of-thought (intemporality) that

is not available to ordinariness of thought, wherein there is a disambiguating of the supratransversality—apriorising/axiomatising/referencing as a construct of formalised reference-of-thought that is of intemporal-projection/longness-of-register-of-meaningfulness/universalising/maximalising/transcendental over the subtransversality—apriorising/axiomatising/referencing informal reference-of-thought as melee of common sense of temporality/non-universalising/non-maximalising/non-transcendental constructions. The idea is that such a disambiguating is a necessity going by human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor requiring skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) towards the intemporal/longness-of-register-of-meaningfulness-and-teleology as the ontological construct that institutionalises (intemporalises). Hence such a skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) in the ontological-contiguity—of-the-human-institutionalisation-process of shrinking the melee of common sense involves developing institutional and subject-matter specialisms as supratransversality—apriorising/axiomatising/referencing narratives (for instance, the developing sciences and institutional specialisms) that induce corresponding untenability/internal-contradiction/internal-incoherence/institutional-constraining by effectiveness on the subtransversality—apriorising/axiomatising/referencing as the melee of common sense inducing the latter’s ‘deference’, for instance, such deference as such postures as the law says that..., physicists say that..., etc. and not a common sense posture of the sort I think that..., thus relegating the melee of common sense out of the construal and conceptualisation of institutional or domain specialisms which hitherto had been free-for-all opinionatedness.

Such an exercise is not just retrospective but prospective as well in the expansion of human formalised constructs and including in this case the relatively profound insights of such social science as post-structuralism which sadly get undermined paradoxically by some critiques not by a same-level supratransversality—apriorising/axiomatising/referencing intellectual criticism but raising subtransversality—apriorising/axiomatising/referencing narrative to wrongly imply that post-structuralism should be as intelligible as common sense thinking, which is paradoxically never the case with say the jargon of law, natural sciences, etc. exactly for the reason highlighted above. The fact is the melee of common sense as subtransversality—apriorising/axiomatising/referencing hasn't got the requisite intemporality/longness in terms-as-of-axiomatic-construct of universal projection of reference-of-thought and the logical-dueness/profile/presumption/assumptions/value-reference/teleology that arises from such a formal reference-of-thought (for instance, as the universal/intemporal proposition underlying this paper's purported construct for aetiologisation/ontological-escalation in grasping the phenomenon of postlogism in general and the general background human science conceptualisation; together with its exposure for falsifiability/validation from subsequent critical analyses). Such that there will tend to be 'confusion of reference-of-thought' where such subtransversality—apriorising/axiomatising/referencing melee of common sense was apparently to act assumingly/presumptuously rather than 'to defer', or otherwise the instance where individuals assume the requisite intellectual elevation (whether by corresponding education and reflection) for a first-level engagement with such specialisms. As our melee of common sense defers when it comes to the natural sciences, it defers when it comes to the legal science, it shouldn't expect otherwise but to defer when it comes to rigorous post-structural and other social science constructions however their approximations, and so as the best construction potential of human meaningfulness and teleological possibilities. On that same

token the notion of validation of supratransversality—apriorising/axiomatising/referencing with respect to subtransversality—apriorising/axiomatising/referencing is not one of contending/argumentative validation at a same contending pedestal but rather as a validation of the supratransversality—apriorising/axiomatising/referencing reference-of-thought as intellectually-and-morally institutionalising and not implying its equivalence with subtransversality—apriorising/axiomatising/referencing melee of common sense reference-of-thought, wherein for instance a consistent demonstration of a chemistry science (as supratransversality—apriorising/axiomatising/referencing) effectiveness earns chemistry science the deferential-formalisation-transference of no longer being engaged at a same contending pedestal as the melee of common sense with respect to human social contention about material constitution in order to avoid the circular drawback of constantly making arguments in <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> terms-as-of-axiomatic-construct, such that social deference is now institutionalised as ‘chemists say that/it is said in chemistry that’ rather than a social melee of common sense equivalence of ‘chemists think that but I also think that going by my common sense’. This argumentation is not idle as the social sciences as ‘being closest to human conscious sense of sovereignty’ tend to be most affected by such fallacies as highlighted that should be superseded by all knowledge whether natural or social-construct, and while such notion are often intuitively grasped with other formalisms whether institutional, legal or in the natural sciences subject-matter specialisms, for the social sciences there is a need to actively bring this notion to the consciousness-awareness-teleology in order to circumvent such nature of knowledge fallacies with regards to an emotionally charged domain that is the social. This equally explain why the studies of the social are easiest prone to ontological-bad-faith/inauthenticity, whether

beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, as even where contending intellectual postures are of relative elevated formal knowledge paradigm, it is quite easy for a muddling with <formative>wooden-language—imbued-averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mentality in order to advance one intellectual posture, and so as intellectual politics rather than genuine intellectualism. Seventh, as advanced by this author the ontological-normalcy/postconvergence of intrinsic-reality as reflecting the ontological-contiguity—of-the-human-institutionalisation-process validates and restores the notion of essential meaningfulness (the notion of a center – be it conceptualised as an ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’-s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’) to post-structural thought as its scholars had rather previously mostly focussed on disambiguating/clarifying the certitude/lack-of-certitude of human meaningfulness and thought. Even then the practical application and conceptualisation of post-structural meaningfulness has always been one that has tended to restore a sense of re-equilibrium with respect to perceived vested interest and skewed power relations whether with regards to its articulation in feminist studies, postcolonial studies, power relations in social settings with regards to appropriate deliverance and more responsive public services, etc. as post-structuralism has often been a framework giving weaker and subjected meaningful frames public voice. Thus the so-called ‘human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation of post-structuralism’ has been in real and practical world terms more a question of abstract reconstructive thinking since

such practical applications have tended to be effective further highlighting the need rather for more decentering contemplations. Besides, post-structuralism practical emphasis has mostly been methodical rather than dogmatic. In the bigger scheme of things, this author further highlights that post-structuralism by implying ‘decentering’ is implying transcendence or an ‘existential-reference/existential-tautologisation pivoting/decentering’ such that ‘the center’ as the new basis of analysis/knowledge-construct has moved to the prospective/transcendental/superseding reference-of-thought putting into question the now-and-present way of thinking as prior/transcended/superseded reference-of-thought. What has been misconstrued is exactly the idea of ‘existential-conversion’ that is actually central to all subject-matters wherein the abstract articulation of principles are of existential-tautologisation/existential-reference neutrally. For instance, physics principles can be used for either aggressive and warring applications or peaceful and life-enhancing applications, and to say that physics principles are wrong because these can be construed as applicable for non-peaceful purposes is to misunderstand the fundamental nature of theoretic knowledge as fundamentally construing the possibility of existential-reality. Hence human application of knowledge as ‘human existential-conversion’ implies human self-preservation disposition in redefining meaningfulness-and-teleology from existential-tautologisation/existential-reference as of human subpotent existential-teleology within the full potency of existence-as-of-its-mimetic-echoiness/existence-in-reverberation/existence-potency-prospective-digression-of-<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness. In other words, abstract post-structural construct as any other theoretical constructs have no commitments to upholding any value-disposition and teleology but rather construe the ontological possibility conflated as of existential reality. The idea of eliciting value-disposition and teleology is a secondary exercise of human social application (with teleology fundamentally construed as ‘phenomenal/manifest epistemic

reflexivity in existence as ontological' and so with regards to the specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation), and specifically with regards to the practical application of post-structural thought as a re-equilibrium exercise derived from the 'theoretic reshuffling-of-the-cards/putting-into-question'. Thus post-structuralism being so construed as ontologically-driven (having a center as of ontological-normalcy/postconvergence graspable by 'the dynamics of metaphysics-of-absence or postdication insight with respect to metaphysics-of-presence' involving reducing-epistemic-abnormalcy/increasing-relative-ontological-completeness-of-reference-of-thought in construing-ontological-veridicality as determined-by-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context due to human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as 'shallow limited-mentation-capacity to deeper limited-mentation-capacity-⟨as of relative conflation) development') effectively heralds post-ideology as ideas and notions are validated/invalidated by their demonstrated ontological-veracity/ontological-pertinence. In order words the supposed ontological-terms of notions and ideas are the basis for their analysis as ontologically-pertinent or impertinent, and so more than just perfunctory analyses constrained by the limiting framework of institutionalised-being-and-craft constructs and setups but at an existentialism/full-depth-of-existential-implications level highlighting the precedingness/supersedingness/ascendency of ontologically-driven analysis over 'habits', 'conventions' and rights-of-precedence/entitlement fallacies. Post-structuralism as such should posit to remedy and supersede the inherent 'conceptual hyperbole' imbued in the often 'poorly-ontological, non-ontological or metaphysical constructions permeating ideologies'

and projected as worldviews, to ‘restore existential veracity/ontological-pertinence as the central notion behind worldview construction and representation’, and so beyond just ‘present-driven conceptualisations’ of ideologies, but of an insight derived from a historical and anthropological depth with respect to human mentation, meaningfulness and institutional-development—as-to-social-function-development as implied by a suprastructuralism highlighting of metaphysics-of-absence or postdication. Such a grounding of post-structuralism provides the underlying ontological outlet of analysis with regards to issues and conundrums of veracity/ontological-pertinence faced by earlier poststructuralists like Sartre (not often recognised as a poststructuralist but whose work interpretively does fit the mould, just as the works of many ‘seriously engaged’ critiques of post-structuralism like Gadamer and Habermas have been highly beneficial to post-structuralism), Foucault and Derrida when it came to draw out veracity/ontological-pertinence from such hyperbolic traditional ideologies including Marxism as constructs highly laden with metaphysics/non-ontology, on the one hand, while addressing, on the other hand, the imbued liberal and neoliberal dogmas of their times wrongly upholding that its ‘dogmatic practices and conventions’ are beyond ontological-reconstituting—as-of-conflatedness/deconstruction, and pertinently so by highlighting their underlying ontological failures with recurrent just about decadal institutional crises and social malaises, speaking of the ontological-wobbliness of a liberal thought that has become highly contradictory as marked by its very own perpetual second-guessing. Eighthly, it is this author’s ‘suprastructural contention’ that human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor and a social world is inherently hampered by a blurriness and distance of ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’. Thus approaching a

scientific study of the Social on the same operational basis as that of the natural world is necessarily deficient as the latter's immediacy of concurrent ontological-primemovers-totalitative-framework/intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as well as the fundamental pivoting/decentering of understanding involving the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure that took place starting over 500 years ago in establishing the positivising/rational-empirical mindset/reference-of-thought by the Galileos, Newtons, Leibnizes, Darwins, etc. of the world, such that an Einstein could perfectly articulate the idea of the-theory-of-relativity that would normally make no sense even to the majority of the scientific community at the time but for the 'very strength' of the established positivistic/rational-empiricism psyche (operating on the basis that what predicates on rational-empirical basis takes precedence) already established which ensured its transcendental enabling. The positivistic/rational-empirical psyche today, it is this author opinion, is not strong enough (of sufficient ontological-completeness-of-reference-of-thought in construing-ontological-veridicality as determined-by-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context for the further development today of the study of the Social as of its fleeting nature (on such terms of what predicates should take precedence). It must be said that the notion of transcendental enabler with regards to the Social today is rather relatively weak such that critically a lot of the basis for the social sciences today is influenced rather by practice, authority, and more or less intellectual-politics driven beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought, rather than truly ontological-primemovers-totalitative-framework deterministic ontological 'projected constructs'. Consequently despite the projected candour, the study of the social is inevitably permeated with 'intellectual-ontological-bad-faith' (unconsciously or consciously), and by this is meant

it will be naïve to think that all issues of intellectual disagreements with respect to the study of the social are necessarily in purely logical terms without factoring the possibility of ‘intellectual perfidy’. What the blatant constraining of the natural world can do to thinking by mere ontological-primemovers-totalitative-framework under the rational-empiricism paradigm is often weakly possible with the Social particularly where there is perceived interest to act otherwise. This is particularly the case with regards to the undermining of social criticism and especially post-structuralism with the intellectual standards of such criticisms strangely enough falling incredibly so low (and mostly finding credibility by ‘pride of place’ of intellectual engagement often beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought abused as objective bases of intellectual criticism get discarded easily for highly subjective ones); and this author equally holds that a ‘fully emancipated social science’ will only prevail with the requisite pivoting/decentering of understanding as deprocrypticism/preempting—disjointedness-as-of-reference-of-thought psychoanalytical-unshackling/memetic-reordering/institutional-recomposure, which should enable the attainment of a suprastructural/beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought level of social thought involving deprocrypticism as preempting—disjointedness-as-of-reference-of-thought. More like in many ways the level of thought in the natural sciences is wholly divorced from our consciousness-awareness-teleology and is fully transcendental-enabling/sublimating by confirmatory existence/intrinsic-reality/ontological-veridicality with little or no social-aggregation-enabling but say for human organisational issues and wrong preconceptions induced by social-aggregation-enabling. This arises because it is inevitable to have conscious or unconscious ontological-bad-faith/inauthenticity just going by human temporal-to-intemporal nature without an inherently strong transcendental-enabling/sublimating. While in the natural and mathematical sciences the subject-matter by itself is highly transcendental-

enabling/sublimating this is not the case with the subject-matter of the social due to its high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising-self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction requiring rather a further strengthening of ontologising rules as of knowledge notionalisation and abject-ontologising-recomposuring (deprocrypticism as preempting-procrypticism or preempting—disjointedness-as-of-reference-of-thought) beyond the present just positivistic/rational-empiricism striving social science bringing together profound insight with causal effectiveness. This doesn't necessarily imply a naïve mimicry of the experimental approach as is often the case it can be argued as prevalent in the psychological sciences, and even in the natural sciences there is need for thorough insight when experimenting like say much of quantum physics is often based on elaborate abstractness of thought that is merely validated by critical confirmatory experiments. In fact, this author will contend that the overall 'insightful empirical' conceptualisation of this paper is actually more profound than catches the eye in a naïve empirical sense that cannot see beyond our positivistic registry-worldview to recognise human successive transcendental states like recurrent-utter-uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism and deprocrypticism; as even empirical conceptualisations requires insight and it is more than just a matter of obtaining results because an experiment has been made which is certainly simplistic as the very existential state of things when disambiguated is actually a more profound notion of experiment. It is interesting to note that this argument on the specific basis of (conscious or unconscious) ontological-bad-faith/inauthenticity for the requisite condition of a 'fully emancipated social science' is more than just of circumstantial and idle implication but is rather construed as a structural/paradigmatic notion much like saying it is impossible to have a fully emancipated science in a transitory non-positivism/medievalism to positivistic social-setup still

emphasising essences and supranatural causations over a transcendental-enabling/sublimating of rational-empiricism/positivising based knowledge of intrinsic-reality, as transcendental-enabling/sublimating positivistic contentions will still be undermined with such a discrepancy of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing-qualia-schema> in the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of reference-of-thought/axiomatic-construct. Likewise, the positivism-procrypticism meaningful-frame is not sufficiently beyond-the-consciousness-awareness-teleology-in-existential-extrication-as-of-existential-unthought of social-aggregation-enabling with respect to its social reality subject-matter as of its spurious/remote nature, for a more profound transcendental-enabling/sublimating (unlike the relative case with the physical reality subject-matter as immediate) as required for futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism intrinsic-reality/ontological-veridical transcendental enabling. Thus, the only credible logic this author can think of is that post-structuralism as one of the major critical theories given its potential ontological vigour has been seen as a threat with a deliberate covert non-intellectual effort to stifle it and limit its influence often having to do with misrepresenting the ideas and implications of the ideas of its main proponents (as in fact, one of the central issue with regards to post-structural thinking with respect to other intellectual postures has had to do with the unusually high level of accusations of its proponents of misrepresentation of their ideas by many of their critiques whether with respect to such accusations of nihilism or untruth, with a central characteristics of many of such critiques being a failure of recognising exactly the central point of post-structural thinking as rather 'a putting-into-question/shuffling-of-the-cards for a more profound perspective for ontological analysis'. Consider in this case one media-driven and popularised argument that Karl Rove 'we make our own reality' quote during the Bush

mandate, is due to post-structuralism. Such arguments are revealing of the ‘non-intellectual spirit’ of many such critics, and in this instance wrongly intimating that Karl Rove considered himself a poststructuralist whereas a sincere take will garner that this is nothing other than a Machiavellian, opportunistic and unprincipled statement than ‘truly post-structural theory inspired’ as with or without post-structuralism it is no less likely that the same statement would have been uttered. And the pseudointellectual exercise of linking the two is revealing not only of such out-of-the-way criticism but equally the ‘wayward mindset’ that is often brought into supposedly rigorous social science on the basis of such anything-goes-rhyming-logic! Post-structuralism generally occupy a relatively sound position when it comes to all the practical applications of post-structural thought which, to say the least, have always highlighted a sense of re-equilibrium rather than the bogus and insincere criticisms of nihilism or untruth which this author construes as ‘in-effect ontological-bad-faith/inauthenticity’ of ‘parodying’ of poststructuralists positions and analysing the ‘parody’ in usurpation as against a genuinely candid critical intellectualism of their true postures in authenticity. Post-structural exposition of the realities of the social are not value judgements in themselves just as natural sciences exposition of natural and physical reality doesn’t carry any value judgements. For instance, discovering that bacteria cause disease is a simple objective truth then giving rise to human animate-existential-referencing/subjectification inducing the teleological meaningfulness to pivot/decenter that knowledge into avoiding disease and finding cure for diseases. This is no more different with post-structural thought which is not an advocacy but telling the social reality for what it is, with human pivoting/decentering to apply that knowledge for its defined teleological meaningfulness. One of the serious consequence of such a weakened social criticism driven by such a targeted and induced atmosphere of quasi-anti-intellectualism is the result that the domain of the political economy and corresponding economic interests have been spared from the critical

analysis of such powerful ontological tools; specifically going by the issues of misallocation and inequality we face today based on axioms of models that remain critically beyond analysis, as effectively an anti-intellectualism with respect to social criticism including post-structuralism is cultivated in favour of a default socially uncritical political economy practice (with the cover-up of an ‘intellectually platitudinal’ media) to protect them. Notwithstanding the impressive theoretical conceptualisations of an ever second-guessing economics science, the ‘underlying liberal political economy axiomatic constructs’ on which it rests are massively arbitrary, flawed and degenerate; and this is one area in which developed social criticism including post-structuralism could do an excellent job in debunking the ‘underlying mysticism’, as the domain of the political economy beyond competition of ideas at such a fundamental level is the very foundation of the uncritical preservation of such axioms. Such issues as political choices for bailouts, reallocations and remuneration practices are strictly speaking not economic science issues but political economy issues that require a criticism with respect to social choice about the political economy, but this has been usurped uncritically as if of a natural economic allocation mechanism (a falsehood). This author makes this latter point on the belief that knowledge is an existential exercise and that the intellectual should sincerely put their ‘hand in fire’ at the risk of being proven wrong, as the intellectual exercise is not one of self-veneration but discovering the truth (even at the risk of sounding/looking ridiculous). If there is one area of speculative thinking allowed to this author in this paper, it is such a proposition together with the idea that it is incredible to think that a lot of the criticisms directed to post-structuralism since the 1980s arises out of such (it is herein contended) ‘intellectual triteness’ by such critics particularly going by the ‘frivolous arguments’ advanced compared to the high intellectual standards they have been able to show elsewhere, together with the notion that these have tended to be unusually media driven in inducing a populist effect. Imagination will point to the idea that something much more

‘cynical and non-intellectual’ must be at work but passing for legitimate intellectualism; or is it, more like the medieval scholasticism erudition establishment more or less grasping the true implications of a non-medieval positivistic thinking on the whole intellectual, belief system and social-construct, and cynically upholding notions they knew better to be wrong but for their overall sense of preservation of their present and their present interests. This impression can be extended as well with respect to the idea of the social implications of postlogism-as-of-non-conviction as of its ontological-resolution (aetiologisation/ontological-escalation) in all the successive registry-worldviews given human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. As we can grasp that an aetiologisation/ontological-escalation as resolution for non-positivism/medievalism world postlogism which is more than just palliative/incidental-in-its-implication with regards to a specific instance or specific instances of notions-and-accusations-of-sorcery for instance, but rather construing the whole non-positivism/medievalism registry-worldview/dimension relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought (as of metaphorically-a-million-and-one-instances-and-locales as enabling the possibility of the phenomenon of notions-and-accusations-of-sorcery and other vices-and-impediments of the state of non-positivism/medievalism and thus requiring structurally and comprehensively a positivistic ontological-completeness-of-reference-of-thought will structurally elicit a non-positivism/medievalism world sense of ‘temporal/shortness-of-register-of-meaningfulness-and-teleology preservation’ that wouldn’t necessarily construe the social manifestations of notions-and-accusations-of-sorcery with their associated vices-and-impediments as abstractly and ontologically unwarranted universally (which we know was actually the case, with the

‘establishment’ idea being that the masses didn’t need to know about such ‘positivistic stuff’ even if such stuff was ontologically-veridical), to ensure its ‘temporal/shortness-of-register-of-meaningfulness-and-teleology preservation’. Likewise an articulation as of aetiologisation/ontological-escalation (ontological-resolution) that is more than just palliative/incidental-in-its-implication with respect to the notion of psychopathy and social psychopathy with regards to a specific instance or specific instances of psychopathy and social psychopathy but by pointing to the bigger picture to the procrypticism registry-worldview’s/dimension’s disjointedness-as-of-reference-of-thought relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought (as enabling the possibility of the phenomenon of psychopathy and social psychopathy as of metaphorically-a-million-and-one-instances-and-locales as well as other vices-and-impediments of procrypticism structurally and comprehensively requiring a deprocrypticism ontological-completeness-of-reference-of-thought will structurally elicit a human procrypticism sense of ‘temporal/shortness-of-register-of-meaningfulness-and-teleology preservation’ that wouldn’t necessarily construe the social manifestations of psychopathy and social psychopathy with their associated vices-and-impediments as abstractly and ontologically unwarranted universally and such an approach may just be off-putting with regards to the prospective implication for the need for deprocrypticism ontological-completeness-of-reference-of-thought (as intemporal/longness-of-register-of-meaningfulness-and-teleology) undermining of procrypticism relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought (as the temporal/shortness-of-register-of-meaningfulness-and-teleology). Such an articulation equally extends to the idea that notions overlooking vices-

and-impediments associated with psychopathy and equally wrongly implying its associated virtue in the procrypticism registry-worldview are just as of ‘temporal apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’ like the disposition to overlook vices-and-impediments associated with notions-and-accusations-of-sorcery and equally implying the associated virtue in a non-positivism/medievalism setup; and so, as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor due to their respective relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought with respect to their respective perversion-and-derived-perversion-of-reference-of-thought phenomena. Thus in all registry-worldviews reference-of-thought, postlogism-as-of-non-conviction once it is ‘as of socially-functional-and-accordant’ (beyond the case at childhood where it is accompanied by overt delirium and social universal transparency of the defect) as at adulthood, the postlogism ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation tends to extend as conjugated-postlogism ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation involving the temporal elicitation of derived-perversion-of-reference-of-thought, and it is thus naïve to construe postlogisms without such a corresponding differentiation of social analysis in the construing/conceptualisation of ontological-veridicality. Now the criticism of populism-driven critiques of post-structuralism is not raised idly, as an exercise that purports to articulate such breadth and depth of novel ideas as this paper does necessarily requires that the authorship effectively assume the profile and presumption that the implied knowledge construct warrants (which obviously every truly intellectual spirit will appreciate for what it is, if not agree with the arguments). Such an

articulation is driven by the idea that knowledge as a transcendence-enabling construct is more than just about its craftiness/technique but part and parcel of the intellectual exercise is to articulate meaningfulness by its existentialism/full-depth-of-existential-implications. And just as faced with the evasive nature of quantum theory the physicists never said reality is wrong since it is difficult to understand, likewise it is naïve to imply that the reality reflected by post-structuralism is wrong because it doesn't quite fit into our ordinary everyday way of thinking (that is exactly the point, our ordinary everyday way of thinking is in want of its further development, just as all prior ordinary everyday ways of thinking had to be psychoanalytically-unshackled)!
