This insight fundamentally explains ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity’ as involving successive reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology as of limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal); geared towards more and more robust secondnature institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology even though in the face of the very same ‘recurring <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness temporal-to-intemporal’. Insightfully, ontologically-veridical ‘reifying <formative>epistemic-totalising-metaphoricity-conception of existential-contextualising-contiguity’ as historicity/ontological-eventfulness/ontological-aesthetic-tracing by its elaborateness of meaningfulness-and-teleology as a differentiated transversality-of-disambiguated-apriorising/axiomatising/referencing selectivity of the ontological-performance of intemporality/longness over temporality/shortness can be reflected by the

operant technique of ‘partialisation of meaningfulness-and-teleology’. This ‘partialisation of meaningfulness-and-teleology’ operant technique of ‘reifying <formative>epistemic-totalising-metaphoricity-conception of existential-contextualising-contiguity’ as historicity/ontological-eventfulness/ontological-aesthetic-tracing is convenient because by mental-reflex every registry-worldview/dimension will necessarily reflect its meaningfulness-and-teleology as of singularisation/epistemic-immanence/veridical-epistemic-determinism as it wrongly implies and operates in its <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as if it is in ontological-normalcy/postconvergence as of ontological-completeness-of-reference-of-thought. For phenomenological analytical insight, ‘partialisation of meaningfulness-and-teleology’ operant technique for construing dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of defective representation of singularisation/epistemic-immanence/veridical-epistemic-determinism brings to a registry-worldview’s/dimension’s reference-of-thought self-consciousness its structural/paradigmatic/systemic dementing-or-preconverging–apriorising-psychologism state at its uninstitutionalised-threshold as so registered/reflected from the prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought self-consciousness rather in dialectical-thinking-or-postconverging–apriorising-psychologism state given its prospective relative-ontological-completeness-of-reference-of-thought. ‘Partialisation of meaningfulness-and-teleology’ as such simply involves representing the structural/paradigmatic/systemic incongruence that arises, as the prior registry-worldview/dimension institutionalisation falls short in construing existential-contextualising-contiguity knowledge-reification as of prospective institutionalisation prospective relative-ontological-completeness-of-reference-of-thought in its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ontological-performance correspondence with the full-potency of existence, and so due to denaturing at

we can garner that the implications of ‘notional-discontiguity/epistemic-discontiguity-

meant to uphold existential-contextualising-contiguity knowledge-reification as of

It is further critical to understand that while universal-transparency with associated nested-congruence and harmony is brought about as of prior institutional secondnaturing, this should not be naively expected at uninstitutionalised-thresholds as we very much know that all uninstitutionalised-thresholds are conflicted as of their framework of ‘recurring <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness temporal-to-intemporal ’ for prospective institutionalisation prospective relative-ontological-

Thus uninstitutionalised-thresholds, are necessarily imbued with varied temporal-to-intemporal transversality-of-disambiguated-apriorising/axiomatising/referencing narratives as of the ‘lack of intemporal secondnature institutionalisation induced universal-transparency, deferential-formalisation-transference and habituation in positive-opportunism’; since any uninstitutionalised-threshold ever always brings about human ‘recurring <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness temporal-to-intemporal ’ but with this recurring as of human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness temporal operating rather in denaturing the prior institutionalisation’s ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’ as <formative>wooden-language-⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives⟩ for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology. The implication here is that <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness prospective transcendental meaningfulness-and-teleology is not directly intelligible in the narrow framework of temporal-to-intemporal social-stake-contention-or-confliction at uninstitutionalised-thresholds, but rather as a dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-

 such prospective institutionalisation transcendental-enabling/sublimating meaningfulness-
 and-teleology is the fact that the human mind is not necessarily geared to come to terms with
 prospective relative-ontological-completeness-of-reference-of-thought without the necessary
 psychoanalytic-unshackling/prospective-grounding/prospective-reification as of the
 developed disposition to register such implications as of their intemporal/longness-of-
 register-of-meaningfulness-and-teleology pertinence; as the notion of cross-generational

ontological-dementation/dialectical-dementation—stranding/attributive-dialectics herein
 highlighted has ever always been an unconscious human mental process, wherein the mental-
 disposition hardly places itself in a situation of explaining how its own very present mental-
 disposition comes about from preceding generations mental-dispositions and drawing the
 implications, in going beyond excogitative-blanking as of the present in a cloistered-
 consciousness but which is paradoxically necessarily the framework of such transcendently
 implying meaningfulness-and-teleology. Thus the metaphoricity exercise of transcendence is
 not one of necessarily eliciting instant meaningfulness-and-teleology universal approbation
 but rather instigating universal untenability as of ontological-primemovers-totalitative-
 framework for prospective universal positive-opportunism; as we can appreciate that in
 reality the possibility of the successive institutionalisations was not the outcome of every
 human soul grasping the implications as of the successive transcendence but rather as of a
 generative dynamics as of critical drift/gravitating effect in reflection of difference-

 implications of ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of
 prospective institutionalisation existential-contextualising-contiguity-in-reification’ as of
 singularisation/epistemic-immanence/veridical-epistemic-determinism as the latter reflects
 ontological-completeness-of-reference-of-thought, with regards to the construal of
 meaningfulness-and-teleology as teleologically-elevated or teleologically-degraded, is that
 the conception of ontological-veracity of meaningfulness-and-teleology varies as of
 underlying relative-ontological-incompleteness and relative-ontological-completeness
 reference-of-thought; for instance with regards to the-very-same-immanent-

existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising–purview-of-construal’, the meaningfulness-and-teleology of a positivistic mindset with the idea of going into a supposed evil forest to collect a plant root as a cure in say an animistic social-setup will probably be construed as ridiculous as of its prior relative-ontological-incompleteness-of-reference-of-thought despite the existential-contextualising-contiguity knowledge-reification ontological-veracity that the possibility of curing ailments in the animistic social-setup lies with the positivistic mindset prospective relative-ontological-completeness-of-reference-of-thought. The fundamental implication here is that transcendental meaningfulness-and-teleology is hardly construed in any presence registry-worldview/dimension reference-of-thought as of its rather prospective relative-ontological-completeness-of-reference-of-thought, and thus elicits the presence prior relative-ontological-incompleteness-of-reference-of-thought <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; with the possibility of transcendence arising as of cross-generational induced metaphoricity. In a further analysis of ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification’ as of singularisation/epistemic-immanence/veridical-epistemic-determinism as the latter reflects ontological-completeness-of-reference-of-thought, with regards to the dialectical-thinking-or-postconverging–apriorising-psychologism and dementing-or-preconverging–apriorising-psychologism ‘ontologically-veridical representations of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of respectively living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology underdevelopment issues’; human meaningfulness-and-teleology is ever always caught up in

a confusion of its dialectical-thinking-or-postconverging–apriorising-psychologism or dementing-or-preconverging–apriorising-psychologism as of the ontologically-veridicality of its underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought reflection of existential-contextualising-contiguity. <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness reification. Reification as such is teleologically reflected as of singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontologically-veridical meaningfulness-and-teleology; as reification arises as of the structural/paradigmatic <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality potentiative-aspiration for prospective relative-ontological-completeness-of-reference-of-thought from within a prior relative-ontological-incompleteness-of-reference-of-thought. In other words, reification is about apriorising-teleological resetting of <formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology to the prospective relative-ontological-completeness-of-reference-of-thought. Lacking such an insight about reification will induce an ontologically-flawed apriorising-teleological-elevation-in-ontological-contiguity of the prior relative-

ontological-incompleteness-of-reference-of-thought which is in dereification and the corresponding ontologically-flawed apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema> of the prospective relative-ontological-completeness-of-reference-of-thought which is as of reification; wherein dereification involves teleological embrangling/muddling/underdetermining meaningfulness-and-teleology to the prior relative-ontological-incompleteness-of-reference-of-thought. This is because the lack of reification wrongly implies that the <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)> reference-of-thought framework of registry-worldviews/dimensions are the absolute determinants of intemporal value reference, such that the <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)> reference-of-thought framework of recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism, positivism—procrypticism and deprocrypticism, are paradoxically-and-falsely equally the absolute determinants of intemporal value reference; whereas reification highlights that all the successive institutionalisations are as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising—purview-of-construal’, but of varying ontological-performance as of their prospective relative-ontological-completeness-of-reference-of-thought, as of human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). Behind this possibility of ontologically-flawed dereification of human meaningfulness-and-teleology is the fact that

 for prospective human registry-worldview’s/dimension’s institutionalisation, but warrants a
 secondnaturating process as of elicited and secondnatured positive-opportunism as of

ontological-primemovers-totalitative-framework articulation of meaningfulness-and-teleology in skewing for universal-transparency and social deferential-formalisation-transference. The implication here is that the social-construct has ever always been a threshold as of its prior institutionalisation as well as a threshold as of its uninstitutionalised-threshold; wherein respectively there is positive-opportunism for prior institutionalisation and no positive-opportunism for prospective institutionalisation, explaining the developing reality of the various successive human registry-worldview's/dimension's institutionalisations, as of retrospective and prospective implications. This fundamentally points to a 'human psychology of positive-opportunism as of prior-institutionalisation-reification and uninstitutionalised-threshold-dereification', that points out that hitherto the ontological-contiguity—of-the-human-institutionalisation-process has not been about '(<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness temporal individuations dispositions' transformation into '(<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality elucidation/reification of existential-contextualising-contiguity', but rather a constraining positive-opportunism secondnaturing to emancipating reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology; and so, despite the fact that '(<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality elucidation/reification of existential-contextualising-contiguity' is a human individuation

quality that avails potentially to all individuals as temporal-to-intemporal-individuations-receptacles but as of existential-constraint of ontological-performance has not hitherto been structurally/paradigmatically defining of ontological-contiguity—of-the-human-institutionalisation-process even as it has rather been instigative as of an outlier/unenframed human intemporal-disposition. The basis for this ‘human psychology of positive-opportunism as of prior-institutionalisation-reification and uninstitutionalised-threshold-dereification’, is the fact that humankind is caught up in intemporal-reification and temporal-dereification as of existential-constraint of ontological-performance given its limited-mentation-capacity; wherein the ‘social-construct uninstitutionalised-threshold’ as of ‘no positive-opportunism for prospective institutionalisation’ is a threshold at which there is a structural/paradigmatic lack of constraining institutionalisation to preempt ‘human temporal social-stake-contention-or-confliction dynamics’ assuming of ‘uninstitutionalised-threshold dereification madeupness mental-disposition as of ontologically-flawed relation with prospective institutionalisation existential-contextualising-contiguity knowledge-reification <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’. In other words, as of existential-constraint of ontological-performance given human limited-mentation-capacity:

- at recurrent-utter-uninstitutionalisation, there is ‘no constraining prospective reification institutionalisation for rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’, thus allowing for ‘non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidental-or-random-mental-disposition,-that-is-not-rulemaking dereification behaviour’ at its prospective recurrent-utter-uninstitutionalisation uninstitutionalisation;
- at base-institutionalisation–ununiversalisation, there is ‘no constraining prospective reification institutionalisation for universalisation-directed-rulemaking-over-non-rules—

apriorising/axiomatising/referencing–psychologism’, thus allowing for rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,-that-is-not-universalisation-directed dereification behaviour’ at its prospective ununiversalisation uninstitutionalisation;

– at our positivism–procrypticism, there is ‘no constraining prospective reification institutionalisation for preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism’, thus allowing for mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism,-that-is-not-preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness dereification behaviour’ at its prospective procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold.

In this regard as a further elucidation, a structural/paradigmatic ‘temporal dereification madeupness mental-disposition as of ontologically-flawed relation with prospective institutionalisation existential-contextualising-contiguity knowledge-reification

The full implications here is that a deprocrypticism ontologically-uncompromised—referentialism singularisation/epistemic-immanence/veridical-epistemic-determinism construal of meaningfulness-and-teleology is more critically about eliciting the ‘subject intemporal sense of knowledge-and-virtue as of its ontological-dementation/dialectical-dementation—stranding/attributive-dialectics for a fully protracted-consciousness beyond a cloistered-consciousness’ in line with Foucauldian hermeneutics of the subject futural implications.

Further, it is important to grasp that ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ is actually associated with all the transcendences of all the successive registry-worldviews/dimensions, but that what is particular with deprocrypticism summoning of ‘reinvigoration as of furthered ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as implied by its ontologically-uncompromised—referentialism singularisation/epistemic-immanence/veridical-epistemic-determinism, is the fact that it achieves the potentiative-aspiration of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as a ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’; and so, as of ‘human ontological-normalcy/postconvergence referentialism ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’’ that supplants the notion of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology. It is untenable to construe of the ultimate potential of human emancipation without the eliciting of this more fundamentally authentic basis of human emancipation as of the overcoming of human limited-mentation-capacity temporal dynamics beyond just ‘the elicitation of positive-opportunism to existential constraining’; as implied by ontologically-uncompromised—

 human shallow to deepening limited-mentation-capacity effectively reflects the ontological-
 contiguity—of-the-human-institutionalisation-process as of prior successive institutional-

 reification aetiologisation/ontological-escalation is implied as of human ontological-
 performance potentiative-aspiration for singularisation/epistemic-immanence/veridical-
 epistemic-determinism. Ultimately, it is the reification of meaningfulness-and-teleology as of
 the prospective relative-ontological-completeness-of-reference-of-thought that reflects
 intemporal value reference, and not the <formative>wooden-language-(imbued—averaging-

 of the prior relative-ontological-incompleteness-of-reference-of-thought as of temporal-to-
 intemporal ontological-performance which is rather in <formative>epistemic-totalising-self-

 out intellectual-and-moral inequivalence thus dismissing as ontologically-flawed a cross-
 examining/mutual-contending of the prospective relative-ontological-completeness-of-
 reference-of-thought and the prior relative-ontological-incompleteness-of-reference-of-
 thought; as the latter is in ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-
 of prospective institutionalisation existential-contextualising-contiguity-in-reification’ and so,
 successively as of falling-short-as-needing-rules with recurrent-utter-uninstitutionalisation to
 then contend with base-institutionalisation, falling-short-as-needing-universalising-rules with
 base-institutionalisation—ununiversalisation to then contend with universalisation, and falling-

short-as-needing-positivistic-universal-rules with universalisation–non-positivism/medievalism to then contend with positivism, falling-short-as-needing-preempting—disjointedness-as-of-reference-of-thought with our positivism—procrypticism to then contend with futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. Consider in this regard, the peregrinations of say a Descartes or Rousseau wherein in many ways they will fail to fulfil the mundane medieval world conception of ‘the supposedly good life’ as of its <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as they reify meaningfulness-and-teleology by their peregrinations to construe of the structural/paradigmatic underdevelopment/unenlightenment of their society as in need of prospective positivistic reflection of the notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging–qualia-schema> of non-positivism/medievalism as of their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality singularisation/epistemic-immanence/veridical-epistemic-determinism reified insight. The insight here about reification is that all their intemporal value references are rather as subsumed in their ‘positivistic reification of meaningfulness-and-teleology’ as of their prospective relative-ontological-completeness-of-reference-of-thought with the corresponding implications of human ‘prospective positivistic transcendence-and-sublimity ontological-performance’ as aetiologisation/ontological-escalation, and so over non-positivism/medievalism vices-and-impediments. By that token they are effectively of the most intellectually-and-morally inclined persons of their society. Contrastively, the temporal value reference as of non-positivism/medievalism <formative>wooden-language-(imbued—

averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>> mental-dispositions of persons like 'honourable aristocrats' simply reified to the universalisation–non-positivism/medievalism registry-worldview/dimension with its prior relative-ontological-incompleteness-of-reference-of-thought vices-and-impediments, while favourably looked upon as of non-positivism/medievalism society <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag from a prospective singularisation/epistemic-immanence/veridical-epistemic-determinism insight points to such a prior registry-worldview/dimension denaturing meaningfulness-and-teleology, and implying effectively that they are of lesser intellectual-and-moral dialogical-equivalence. This further explains why vague classification schemes of value like good-naturedness, kindness, honesty, etc. have no inherent meaning as of themselves, as all the meaningfulness-and-teleology that there is and can exist is ontological as of prospective relative-ontological-completeness, such that any such implied meaning is only ontologically intelligible with its reification as of prospective relative-ontological-completeness-of-reference-of-thought, as so implied from singularisation/epistemic-immanence/veridical-epistemic-determinism as the reflection of ontologically-veridical meaningfulness-and-teleology. This points out that as of its very own <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, a registry-worldview/dimension reference-of-thought is not the ontologically-veridical point of conceptualisation of intemporal value reference, which is rather as of prospective relative-ontological-completeness-of-reference-of-thought reification of meaningfulness-and-teleology, as we can appreciate with regards to all prior institutionalisations but will certainly be complexified/inhibited to construe the same as of our positivism–procrysticism as from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-

development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preemption-of-disjointedness-as-of-reference-of-thought prospective relative-ontological-completeness perspective. The fact is no registry-worldview/dimension as of its temporal/shortness-of-register-of-meaningfulness-and-teleology <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) instigated prospective transcendence, is construed as ‘putting-into-question its existentially invested conception of meaningfulness-and-teleology’, which is rather a contradiction of sorts given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor. Rather besides cultural-diffusion pressures, all human transcendence as of internal processes are rather as of outlier/unenframed intemporal/longness-of-register-of-meaningfulness-and-teleology individuations dynamic metaphoricity instigation in prospective relative-ontological-completeness-of-reference-of-thought reifying gestures as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, which by this token is rather concerned with the beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> denaturing of the prior institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology at its uninstitutionalised-threshold in ‘notional-discontiguity/epistemic-discontiguity-with/falling-short-of prospective institutionalisation existential-contextualising-contiguity-in-reification’. However, this ‘ontologically-veridical reification of value reference as of prospective relative-ontological-completeness’ and the ‘ontologically-flawed dereification of value reference as of prior relative-ontological-incompleteness’ is associated

with a fundamental paradox/confusion with regards to sound human intellection at uninstitutionalised-thresholds/uninstitutionalised-thresholds. As this reification/dereification of meaningfulness-and-teleology paradox/confusion has always provided the room for intellectual-and-moral charlatanism throughout human history as of lack of universal transparency. With such charlatanism certainly knowing better but opting for denaturing conceptions of value reference as of <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)> advancement of temporal interests in stifling the possibility of prospective human intellectual-and-moral emancipation. The idea of ontological-bad-faith/inauthenticity raised herein by this author is a reflection of the reality that knowledge as organic-knowledge is existentially all-committal by the mere fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, with the possibility of denaturing as of social-stake-contention-or-confliction, and particularly so in spurious and blurry domains of study not readily/easily constraint to ontological-primemovers-totalitative-framework reflection of existential-contextualising-contiguity. This brings up the implication of what is truly transcendental knowledge by its nature as of knowledge notionalisation and organic-knowledge. Transcendental knowledge is actually institutionalising and re-institutionalising, implying it supersedes institutional practices and constructs as to the possibility for prospective institutionalisation, and so as of its <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness inducing institutional secondnaturing. It is rather not out of the question that knowledge so-construed as of prospective transcendence implications put-into-question as ‘charlitanic’ institutions and their practices construed as of prior relative-ontological-incompleteness-of-

reference-of-thought specifically as extra-intellectual and pedantic orientations that undermine the advancement of their supposed prospective intellectual and emancipatory vocations. Interestingly, we can garner that positivistic knowledge arose and was cultivated as of 'its very own apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme conception of knowledge' that superseded and didn't recognise-and-submit to scholastic pedantry for its validation, as it construed that the latter wasn't meant/structured/paradigmed to uphold and perpetuate positivism implied transcendental knowledge as of prospective relative-ontological-completeness-of-reference-of-thought; and in due course, by its ontological-primemovers-totalitative-framework constraining it cross-generationally overrode scholastic pedantry. It is herein contended that it isn't out of the question that a creeping and slumbering institutional-being-and-craft intellectual tedium today increasingly fails to elicit the full unenframed potential for prospective intellectual emancipation, and so rather as of structural institutionally-induced and societally-induced anti-intellectualism implications. The question can further be asked whether transcendental implied knowledge can actually be construed as the subject of 'understanding' of prior relative-ontological-incompleteness-of-reference-of-thought with the latter's <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, given the psychoanalytic-unshackling/prospective-grounding/prospective-reification implications of transcendental knowledge. Is transcendental knowledge as of that token rather more a metaphoricity constraint as of ontological-primemovers-totalitative-framework for the possibility of prospective transcendence as more than just about abstract intellection but extending intellectualism to supersede the existential-investment implications that underlie excogitative-blanking to such prospectively implied 'understanding' as of transcendental knowledge.

From the prior relative-ontological-incompleteness-of-reference-of-thought naïve non-transcendental <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, it may be thought/reasoned that a transcendently projecting intemporal mental-disposition is rather uncanny about the ‘existential-extrication-as-of-existential-unthought malignity reality of existence’ construed as pragmatic living, but this rather confirms the ‘dereifying irresponsibility’ of such temporal thought/reasoning mental-dispositions ‘caught up mainly in their 60-to-100 years of existence reality of meaningfulness-and-teleology’. The intemporal ‘reifying choice-and-adherence’ to the ‘reified assumed-responsibility’ of aetiologisation/ontological-escalation is ever always a reasoning-through/messianic-reasoning that by definition is not in a ‘reasoning with’ relation with reasoning-from-results/afterthought deficient prior institutionalising; and certainly explaining why uninstitutionalised-thresholds transcending has ever always been conflicted as to the necessary reality of imposing the ‘superior party’ that is as of the full-potency existence/existential-reality/intrinsic-reality/ontological-veridicality over the denaturing mortals that we are for our prospective emancipation. Without an insight about reification and dereification, the notion of singularisation/epistemic-immanence/veridical-epistemic-determinism as it reflects ontological-completeness-of-reference-of-thought for ontologically-veridical meaningfulness-and-teleology is easily misconstrued since denaturing of meaning in dereification will be teleologically-elevated and meaning produced as of reification will be teleologically-degraded; as so blatantly obvious particularly with the dereification manifestation of childhood psychopathy postlogism-slantedness but then takes on a wholly covert nature as of adulthood psychopathy and social psychopathy dynamics. In this regard, divergent as of temporal-to-intemporal dynamics of human ontological-performance of aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology reflecting dereified and reified construals of existential-contextualising-contiguity is to be

expected, and assessable on the basis of a commonly expected apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, which then speaks of a dialogical-equivalence of both temporal mental-dispositions and the intemporal mental-disposition with no dereification and reification contrast. However, compounding this situation making relevant the need to contrast reification and dereification and imply moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal mental-dispositions and intemporal mental-disposition, is specifically the flawed ontological-performance manifestation of psychopathy and social psychopathy which is ‘structurally/paradigmatically associated with the denaturing of the <formative>epistemic-totalising-devolved

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, and arises so fundamentally with regards to the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is the <formative>epistemic-totalising-self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag backdrop for existential-instantiations aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology; with the fundamental implication that there are thus divergent apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments as of psychopathic induced postlogism-slantedness, and its social cognisance and integration as conjugated-postlogism so-conjugating as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of social psychopathy. In this latter case of contrasted reification and dereification and implying moral-and-intellectual inequivalence together with dialogical inequivalence, and so between temporal-as-psychopathic-and-social-psychopathic mental-dispositions and the intemporal

mental-disposition, and so-implied as of ‘disseminative-notional-discontiguity/epistemic-

 successively as lesser and lesser dereification-levels towards the deprocrypticism reification.
 Consider in that with regards to ‘the very same physics <formative>epistemic-totalising-
 devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-
 veridicality/existential-reality’, its reification as ‘apriorising-teleological resetting of

<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology to the prospective relative-ontological-completeness-of-physics-axiomatic-construct' implies that structurally/paradigmatically 'traditional classical mechanics axiomatic-construct' is dereified as of its prior relative-ontological-incompleteness to theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs which is rather reified as of its prospective relative-ontological-completeness; such that interestingly to construe, as of ontological-veridicality, the reality of 'traditional classical mechanics axiomatic-construct' requires rather assuming/departing-from an understanding of existential-contextualising-contiguity knowledge-reification as implied by the reifying theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs in articulating ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism from this projected 'notional—singularisation/epistemic-immanence/veridical-epistemic-determinism' as of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs perspective or attitude/mental-disposition/care-and-episteme over 'traditional classical mechanics axiomatic-construct', and so-implied as of 'disseminative-notional-discontiguity/epistemic-discontiguity—contrastive-reification-dissemination-and-dereification-dissemination-implications' construed as the 'variance/discrepancy of meaningfulness-and-teleology' as of prospective relative-ontological-completeness and as of prior relative-ontological-incompleteness. Note that on the imaginary supposition that no such prospectively projected 'notional—singularisation/epistemic-immanence/veridical-epistemic-determinism' existed as 'providing the ontological-veridicality insight-of-completeness for reifying meaningfulness-and-teleology', mental-dispositions in prior relative-ontological-incompleteness will falsely go on reasoning with 'traditional classical mechanics axiomatic-construct' by identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as providing ontological-

veridicality as of this now dereifying construal of existential-contextualising-contiguity of
 ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-
 construal-as-intrinsic-reality/ontological-veridicality/existential-reality’. But then again, the
 reality of theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of
 prospective relative-ontological-completeness will point out that such ‘traditional classical
 mechanics axiomatic-construct’ identitive-constitutedness-as-epistemic-totality-dereification-
 in-dissingularisation-as-flawed-epistemic-determinism is in reality dementing-or-
 preconverging—apriorising-psychologism as of its threshold-of-ontological-incompleteness.
 This insight equally applies at the reference-of-thought-level, for instance, with regards to the
 fact that our positivism—procrypticism registry-worldview/dimension doesn’t recognise-nor-
 register any such notion as procrypticism/disjointedness-as-of-reference-of-thought that
 speaks of our prospective dementing-or-preconverging—apriorising-psychologism at our
 prospective positivism—procrypticism uninstitutionalised-threshold, and so as reflected from
 futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
 development-as-infrastructure-of-meaningfulness-and-teleology as of prospective
 deprocrypticism/preempting—disjointedness-as-of-reference-of-thought registry-
 worldview/dimension prospective relative-ontological-completeness. Interestingly, it should
 be noted here that with such phenomenon as psychopathy and social psychopathy that is
 ‘structurally/paradigmatically associated with the denaturing of the <formative>epistemic-
 totalising-devolved
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as of our
 positivism—procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-

determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity' has always called upon a certain apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument development of the human subject itself as enabling-and-making-available the capacity for that human subject to tackle the prospective issues of its world. In this regard, the question could be asked: what is the capacity of the universalisation-non-positivism/medievalism mindset to tackle prospective issues warranting a positivism self-consciousness psychology, and by extension what is the capacity of our positivism-procrypticism/disjointedness-as-of-reference-of-thought mindset to tackle prospective issues warranting a deprocrypticism/preempting—disjointedness-as-of-reference-of-thought self-consciousness psychology? The 'postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme' involves prospective reference-of-thought dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-protohumanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of- '<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness' to supersede human temporality/shortness <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>)) as spurring Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology metaphoricity as of protensive-consciousness that is prospectively-grounded-or-psychoanalytically-unshackling, and implying prospective existence-potency-prospective-digression-of-

 ‘postmodern exteriorisation attitude/mental-disposition/care–and–episteme’ superseding of
 the ‘modern take interiorisation attitude/mental-disposition/care–and–episteme’ is what
 renders possible postmodern transcendence-and-sublimity as of its very own ‘postmodern

 criticism of postmodern-thought with regards to virtue, as of postmodern implied human-
 subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
 singularisation. Structurally/paradigmatically a registry-worldview’s/dimension’s reference-
 of-thought points fundamentally to its ‘underlying reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’
 with regards to the latter’s ‘temporality-as-shortness-of-register-of-meaningfulness-and-
 teleology to intemporality-as-longness-of-register-of-meaningfulness-and-teleology
 ontological-performances’ as of notional-contiguity/epistemic-contiguity-<mentally-
 aestheticised_dialectical-thinking/postconverging–qualia-schema>. Such that it is
 fundamentally the prior relative-ontological-incompleteness-of-reference-of-thought that
 becomes the ‘lack-of-virtue or vice issue’, beyond just any associated incidental existential
 problems, as requiring aetiologisation/ontological-escalation as of the need for prospective
 relative-ontological-completeness-of-reference-of-thought to address the myriad
 <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag existential possibilities of the registry-
 worldview’s/dimension’s vices-and-impediments as fundamentally bound to its prior relative-

ontological-incompleteness-of-reference-of-thought ‘underlying reference-of-thought–
 categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’;
 and so beyond just <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag and ad-hoc palliative resolutions.
 Consider in this regard the temporal ontological-performance as of say a postlogism-
 slantedness or any other temporal or derived-temporal mental-disposition associated with
 vicious accusations-of-sorcery for instance in a non-positivistic as animistic or medieval
 social-setup. The fact that even an intemporally-inclined mental-disposition in that social-
 setup has an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
 reflection of existential-contextualising-contiguity–in-reification/dereification that is
 ‘mutually cognisant-and-integrative beyond-the-consciousness-awareness-teleology-<in-
 existential-extrication-as-of-existential-unthought>’ with notions-and-accusations-of-
 witchcraft itself as of their ‘underlying reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’
 presents an epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag issue that endemises notions-and-
 accusations-of-witchcraft in the vices-and-impediments of that given social-setup. It is the
 prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-
 thinking/postconverging–qualia-schema> as of prospective positivism
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as setting up
 the positivism ‘underlying reference-of-thought–categorical-imperatives/axioms/registry-
 teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-
 and-teleology’, that fundamentally undermines such endemisation; and hence it is not by

accident that our present positivism registry-worldview/dimension is devoid of such issues since it paradigmatically/structurally undermines temporal-to-intemporal cognisance and integrativeness of notions-and-accusations-of-sorcery as of the positivism ‘underlying reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology’, construed as ‘transcendental human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation that reflects ‘modern suprastructuralism’; just as a ‘postmodern suprastructuralism’ reflects deprocrypticism as of its preemption-of-disjointedness-as-of-reference-of-thought over our positivism–procrypticism disjointedness-as-of-reference-of-thought. This insight about the need for prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking/postconverging–qualia-schema> underlies a postmodern understanding, as it is herein contended, that it is by the exercise of prospective relative-ontological-completeness-of-reference-of-thought as of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as of the need for futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought and so over our positivism–procrypticism temporal-to-intemporal mental-dispositions ‘mutual cognisance and integrativeness of procrypticism/disjointedness-as-of-reference-of-thought beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>’, that we provide the ontologically-veridical aetiologisation or ontological-esclation resolving the vices-and-impediments of our ‘so-prospectively deprocrypticism-construed’ procrypticism/disjointedness-as-of-reference-of-thought as of its underlying <formative>epistemic-totalising–self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag, and so beyond just our ad-hoc palliative construals of virtue. Basically when post-structuralists speak of ‘the other’ this translates into aetiologisation/ontological-escalation as of ‘universal projection implications attitude/mental-disposition/care—and—episteme event-or-operant implications to all and sundry’ as implied in the above analysis, as postmodern-thought portends to be non-ideology-driven, non-speculative, non-imaginary, theoretical, conceptual and operant. This insight is also very much conscious of the ontologically-flawed misconstrual of ‘the other’ that pervades human <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩ mental-dispositions as of ‘mutual temporal/shortness-of-register-of-meaningfulness-and-teleology eliciting’ construed as ‘intemporal temporality’. Such tendencies are hardly of aetiologisation/ontological-escalation as their emphasis lies in existential-extrication-as-of-existential-unthought, rather than nonextricatory-existential-preempting-of-existential-unthought in enabling Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of ‘universal projection implications attitude/mental-disposition/care—and—episteme event-or-operant implications to all and sundry’; such that fundamentally, such <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩ tendencies do not address structurally/paradigmatically defining issues of a registry-worldview/dimension as of its vices-and-impediments like the comprehensive implications of disjointedness-as-of-reference-of-thought/procrypticism with regards to our positivism—procrypticism or say the comprehensive implications of non-positivism in a medieval or animistic social-setup.

Prospective notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking/postconverging-qualia-schema> thus effectively implies deneuterising ‘exteriorisation attitude/mental-disposition/care-and-episteme’ of meaningfulness-and-teleology superseding/overriding the prior reference-of-thought temporally neuterising ‘interiorisation attitude/mental-disposition/care-and-episteme’ of meaningfulness-and-teleology. This fundamentally speaks of a structural/paradigmatic conception of virtue-as-ontology transcendence as of prospective relative-ontological-completeness-of-reference-of-thought. This very much differs from <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ontological-contiguity palliative virtue constructs as of variance of the very same reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology, and thus implies temporally neuterising ‘interiorisation attitude/mental-disposition/care-and-episteme’ of meaningfulness-and-teleology. This wrongly implies the inherent exceptionalism of the conception of virtue for humans in any such registry-worldview/dimension outside/beyond the ontologically-veridical implications of virtue-as-ontology associated with Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. Such an ontological-contiguity <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag virtue conception is caught up within such a registry-worldview/dimension internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology enframing frameworks and temporal mandarinism/pedantry frameworks as of the given reference-of-thought, with these elements in need for prospective transcendence as of prospective relative-ontological-

completeness-of-reference-of-thought but paradoxically now defining the conception of virtue. The fact is our pretences and arguments of practice, as not critically pinned down to their ontological-veracity as of prospective relative-ontological-completeness, can similarly be meted with pretences and arguments of practice as of each and every registry-worldview's/dimension's reference-of-thought practices, and thus conceptualising virtue by <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag while circumventing as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> the vices-and-impediments of each registry-worldview/dimension in want of its 'pure ontology' virtue resolution as of aetiologisation/ontological-escalation. In this regard such palliative virtue constructs overlooking fundamental underlying structural/paradigmatic ontological implications about our 'modern take attitude/mental-disposition/care-and-episteme' reflected by the 'postmodern deprocrypticism/preempting—disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme' with regards to social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology enframing frameworks and temporal mandarinism/pedantry frameworks, are no different to say 'non-positivism/medievalism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-disposition/care-and-episteme' overlooking its own social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology enframing frameworks and temporal mandarinism/pedantry frameworks as reflected from 'positivism/rational-empiricism attitude/mental-disposition/care-and-episteme'. However, approbating we may be predisposed to such palliative virtue constructs as of lack of

dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension, the fact is these are not really the underlying drivers for virtue transcendence and are peripheral to more ontologically profound theorised-or-untheorised emancipatory events driving virtue transcendence as of prospective relative-ontological-completeness-of-reference-of-thought, notwithstanding our state of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>.

The fact is from an ontological standpoint, we inherently are no more virtuously exceptional even with regards to the earliest of humans, and so as of the very same species potency, and thus we can't ascribed inherent virtuous superiority by the mere token of our own practice. Rather the exceptionality behind human virtuous potential lies ontologically with 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity' as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, reflecting the fact that pure-ontology that as of its secondnaturing induces the requisite level of human virtue performance at each given registry-worldview/dimension, retrospectively to prospectively. It is rather by acting upon the inherent ontological-contiguity—of-the-human-institutionalisation-process as of its ontological reflection in Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology that virtue transcendence comes about, whether or not beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. In this regard, any registry-worldview/dimension reference-of-thought is a

<formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩ as of the <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, such that prospective relative-ontological-completeness-of-reference-of-thought as required for virtue transcendence necessarily implies disrupting and superseding any such <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩ vices-and-impediments, as of the prospective/new superseding reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. Inevitably any such virtue construct is transcendental as meaning ‘going beyond oneself’; and so with regards to any prospective institutionalisation relative to the uninstitutionalised threshold. Thus the ‘field of conception’/notional-conception/notion of virtue-as-ontology covers way more than its articulation within a same registry-worldview’s/dimension’s <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as its implications as of Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology need to be drawn beyond a cloistered consciousness as of retrospective and prospective transcendental illuminating implications. In this regard, a postmodern/suprastructuralism philosophical stance with regards to virtue-as-ontology very much aware of the transcendental ontological sublimating-over-desublimating implications of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’: will

question such reasoning-from-results/afterthought basis of palliative virtue constructs especially as of their <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and lack of dispensing-with-immediacy-for-relative-ontological-completeness-of-reference-of-thought-by-reification/contemplative-distension implications; ask whether by definition a registry-worldview/dimension reference-of-thought is structured/paradigmed to sponsor/promote/endorse its very own prospective transcendence as of the need for the subversion of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology that endemise-and-enculturate its vices-and-impediments by prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology for prospective transcendence-and-sublimity, more like could the Copernicuses, Galileos, Descartes, Diderots, etc. call upon the very same non-positivism/medievalism in need for prospective positivism transcendence to underwrite the subversion of its entrenched non-positivism/medievalism internal social-stake-contention-or-confliction changing temporal constraints, temporal meaningfulness-and-teleology enframing frameworks and temporal mandarinism/pedantry frameworks; and, hence the ontologically-veridical paradox of the very structuring/paradigming implications of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal renders any registry-worldview/dimension reference-of-thought ever deficient as of its need for psychoanalytic-unshackling/prospective-grounding/prospective-reification of meaningfulness-and-teleology. Ultimately, anti-constructivism and anti-relativism criticisms of postmodern-thought come down to our ‘modern positivism/rational-empiricism ontologically-flawed as of prior relative-ontological-incompleteness

perspective/framing/reference/horizon' constitutedness construal of
 categorising/taxonomising schemes that pervades the 'modern categorising mental-
 disposition' as of our occlusive-consciousness neutering, as we fail to grasp the implication
 of an implied apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
 that is naively superseding the true
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of
 existential reality as the absolute a priori'; such that the meaningfulness-and-teleology that
 arises is a relatively virtual-or-ontologically-flawed-construal. On the contrary it is
 conflatedness that ensures that our
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument syncs with the
 true apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument nature of
 existential reality as the absolute a priori, and so as of an ontological-
 normalcy/postconvergence posture which rather 'turns the idea of analysing and
 conceptualising on its head' into one of 'grasping human limited-mentation-capacity-
 deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)
 implications as of the underlying psychoanalytic-unshackling' for human-subpotency
 construal of the full-potency that is existence. This insight about the complete relationship
 between developing human-subpotency and its potential to fully grasp the full-potency of
 existence, fundamentally underlies the protensive-consciousness referentialism of the
 notional-conflatedness of notional-deprocrypticism. However, it is equally critical to grasp
 the double-gesture reification implied in such a postmodern-as-suprastructural conception of
 human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-
 singularisation. Such a postmodern/suprastructuralism double-gesture reification holds that
 knowledge involving virtue-as-ontology is truly organic-knowledge as of its appropriate
 attitude/mental-disposition/care-and-episteme with respect to human social-stake-

contention-or-confliction; with the adherence to the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of such organic-knowledge construed as of intemporality-as-conviction, whereas mechanical-knowledge is rather predispose to adhere as of temporal-as-token-or-madeupness to the such mere reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

The latter points to an inappropriate attitude/mental-disposition/care–and–episteme which is not beholden to the prospective institutionalisation but rather is of existential-extrication-as-of-existential-unthought relation with it. More concretely, consider the practice of serfdom in Europe, or the annihilation of many Native American tribes and slavery and slave trade in the new world, while at the same time in a registry-worldview/dimension transitioning from the non-positivism/medievalism to the positivism/rational-empiricism registry-worldview with this contrastive mechanical-knowledge attitude/mental-disposition/care–and–episteme and organic-knowledge attitude/mental-disposition/care–and–episteme. While the full implications of a positivism/rational-empiricism organic-knowledge attitude/mental-disposition/care–and–episteme will imply an end to such practices as of universal human rights, ‘economic-opportunistic-and-then-enculturated tenants’ of such blatant moral supremacy and thus racial supremacy distorted the implications of the technical and social organisation advancement brought about from budding positivism/rational-empiricism to reconceptualise by their specific interests meaningfulness-and-teleology in terms-as-of-axiomatic-construct of the prior non-positivism/medievalism attitude/mental-disposition/care–and–episteme as of its prior relative-ontological-incompleteness-of-reference-of-thought, and thus justify their nefarious practices; speaking of mechanical-knowledge in positivism/rational-empiricism. Whereas progressive organic-knowledge

tenants construed positivism/rational-empiricism as an openness to the potential of all societies and peoples to rather arrive at the higher possibility of positivism/rational-empiricism virtue, and so as of a human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation posture that allows for universal human emancipation as expressed by the Quakers movement, Rousseaux, Diderots, etc. Incidentally, the positivism/rational-empiricism mechanical-knowledge contenders as of the economic-opportunism-and-then-enculturation of their nefarious practices, were very much countervailing the practice and trend within their own societies of origin undergoing-positivism/rational-empiricism-transformation and the underlying dual-language/split-mentality unscrupulousness was given away as of the ‘out-of-sight demeanour’ in their main societies, rather than being fully assumed as marking positivism/rational-empiricism progress. The occasional development of enlightenment and positivism/rational-empiricism by its technical and social organisation transformation implications wasn’t the opportunity for such societies to turn around and then dehumanise other societies and humanities that haven’t done likewise, but rather as of organic-knowledge called for a double-gesture reification in recognising that such positivism/rational-empiricism implications are about all of humanity, just as implied in preceding human cultural emancipations. Suprastructuralism or postmodernism double-gesturing of virtue doesn’t function on the naïve basis of ‘merely construing relative implied levels of virtue development and making relative conclusions’ but rather orientate meaningfulness-and-teleology to the more profound perspective of all of humanity’s potential as of prospective relative-ontological-completeness-of-reference-of-thought/ontological-normalcy/postconvergence and then reconstrue the possibility of all of humanity-as-of-societies to ultimately fulfil it virtuous potential; and this is the optimum and emancipatory virtue disposition for all humankind and human societies. It adopts this orientation because it always put into question the idea of ‘grounding meaningfulness-and-

teleology as of any specific human society relative-ontological-incompleteness-of-reference-of-thought as fundamentally denaturing, and likely to induce transversality-of-disambiguated-apriorising/axiomatising/referencing dehumanising of some cultures and societies by others'; as it recognises, however tepid, that all societies and humans are curious, predisposed to their emancipation and achieving optimum existential possibilities, and can uphold universal values, and so as of universal-transparency. Ultimately, such a double-gesturing hold out the possibility in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as pertinent for all humankind, whether as of internal social-progress, cultural diffusion or cultural-reappropriations. This practically translates, say considering an instance of a given traditional practice that is abhorrent to modern positivism/rational-empiricism attitude/mental-disposition/care—and—episteme, by implying from a postmodern perspective that emancipation truly arises when the humans come to assume as well by themselves a universal positivism/rational-empiricism attitude/mental-disposition/care—and—episteme in transforming their society. We can appreciate that supposed a space civilisation come to earth, implying for instance in a position of strength that we are too violent, disorganise, etc. and thus morally inferior, and that our best interests was just to take our cue from them. Here as well, the postmodern double-gesture reification of virtue will project that we do have the potential for further development, and that to be ourselves we cannot be utterly alienated from ourselves like robots in our relationship with them, and that our curiosity and openness will correspondingly bring about our functional moral equivalence with universal-transparency. Further arguing that if they are truly more advanced than us, then that advancement is necessarily about a greater aetiologisation/ontological-escalation as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-

singularisation that will necessarily subscribe to recognising ‘the other’ that we are to them; as insightfully, grander aetiologisation/ontological-escalation come with relative-ontologically-veridical attitude/mental-disposition/care—and–episteme. Claims of such grander aetiologisation/ontological-escalation as implying dehumanising interpretations are ontologically-flawed as such claims are rather surreptitiously based on prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as teleological-degradations-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging–qualia-schema>. In other words, the organic-knowledge in its true appreciation of ‘the other’ as of aetiologisation or ontological escalation implies a ‘universal projection implications attitude/mental-disposition/care—and–episteme event-or-operant to all and sundry’. Finally, the naivety when facing such anti-constructivism and anti-relativism arguments is to think that these are always about fair and objective intellectual disagreements; but then the history of many such criticisms has revealed its underlying perfidy. Further, as of organic-knowledge and knowledge notionalisation, this author holds that it is naïve to conceptualise of human knowledge mainly as of pure erudition warranting mainly sound arguments, proofs and convincing demonstrations, and that the reality all along ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ shows that there has always been beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>

‘institutional investment’ that is not always just of erudite ideal, inclined to undermined prospective knowledge as of its prospective relative-ontological-completeness-of-axiomatic-constructs-and-reference-of-thought, and that true knowledge especially as it portends to transcendence cannot be conceptualised losing sight of this fact. The blunt fact is that postmodern-thought has shown itself to be more useful and applicable across the humanities with a massive potential for furthering human emancipation, however the tentativeness of many of its bold ideas, and so much more than the vagaries peddled by many such critiques surreptitious anti-intellectual media-driven waylaying who on the contrary seem to construe of institutional anchoring as the very essence of validation. Such situations are often highly liable to ontological-bad-faith/inauthenticity undermining of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology due to ‘lack of social universal-transparency’. In other words, medieval charlatanic eliciting of old ways, conventioning and existence as of non-positivism/medievalism despite its prior relative-ontological-incompleteness-of-reference-of-thought as underscoring medieval vices-and-impediments with respect to prospective positivism was psychically and surreptitiously undermining of a sense of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and this insight is valid across all registry-worldviews/dimensions as of the eliciting of temporal individuations self-referencing cloistered-consciousness in nihilistically undermining prospective ontological-completeness-of-reference-of-thought. It is only an organic-knowledge sense of consummation-as-not-beholden to temporal/shortness-of-register-of-meaningfulness-and-teleology stakes that human intemporal individuations as of a protracted-consciousness can contemplate of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of its cross-generational transcendental

implications and as reflected from the insight in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. Again, it can be noted here that Einstein, Bohr and the other seminal physics contributors to the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs had no prior basis to adopt their subsequently transcendental and sublimation orientation but for their ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as of their ‘re-projection/re-anticipation’ about ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ which was then validated as of ontological-primemovers-totalitative-framework, and so divulged by existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’; as prior human presencing—absolutising-identitive-constitutedness experience wouldn’t have thought about space-time, considered the ether as unreal, considered that the laws of physics are different at atomic scale, etc. In other words, there wasn’t any prior ‘logocentric transcendental-signifier’ as of the prior classical-mechanics—axiomatic-constructs construed as presencing—absolutising-identitive-constitutedness enabling the obtention of any such conclusions from the given classical-mechanics—axiomatic-constructs constitutedness, but rather it is by conflatedness with regards to ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ that the prospective theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs was construed as of non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’>. Interestingly, as of the underlying phenomenology-driven ontology, it is rather more pertinent with respect to transcendence-and-sublimity to

grasp that such ultimate decidability is construed as of human intemporal/longness-of-register-of-meaningfulness-and-teleology individuation mental-disposition in ‘a tendential-deliberation-of-decidability as enabled by ontological-primemovers-totalitative-framework tendential validation as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’’. Such a construal of human transcendence-and-sublimity will cover the seminal contributions prior and after the defining-threshold epistemic-break/epistemic-resetting of the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs by Einstein and Bohr. Such an ontological-basis for construing sublimation overrides our neuterising laden modern convention ways of judging breakthroughs overemphasising singular initiative, as it is rather grounded more soundly on an abstract notion of ‘intemporal-as-ontological individuation’ as the basis of human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) analysis; and insightfully, as reflected in the underlying conflatedness of accreting-substitutive-subsumption-as-futural-différance-freeplay, sublimation is achieved rather out of the notional obviating of human temporal-as-non-ontological neuterising as of deneuterising—referentialism and with correspondent intemporal-as-ontological rearticulation/reconstrual of meaningfulness-and-teleology as of dynamics of insight of shallow-to-deeper human limited-mentation-capacity implications, and so as of protensive-consciousness of notional-deprocrypticism perspective/framing/reference/horizon. Similarly, this author’s articulation of futural-différance as of transcendence-and-sublimity is necessarily construed ontologically as of a rearticulated protractedness as futural différance that coincides-and-is-contiguous with a prior Derridean différance as of quasi-transcendence and evasiveness of sublimation. In both cases, this highlights that ‘decidability is not instantaneous as of inherent spontaneous identification and occurrence of decisional act’ but that decidability in enabling

transcendence-and-sublimity is as of an ‘overall différance tendential-deliberation-of-decidability’ as of human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ process. Thus sublimation is equally reflected in the deliberateness involved in cultivating artistic, educational, technical or research capabilities/skill in the final outcomes derived forthwith, as of the quality imbued on human limited-mentation-capacity to deepen itself; and this translates into human contemplation of the existential-possibilities attainable by its human-subpotency. Tendential-deliberation-of-decidability is thus the central ontological insight attached to différance as ‘a contiguously theoretical and operant phenomenological construct involving necessarily the deliberateness as of Derridean freeplay différance, as a putting into question exercise, and subject to ontological-primemovers-totalitative-framework validation before attaining defining-transcendence and defining-sublimity’; and différance as of such ‘existential-reality concreteness dynamics’ is scientific and utterly dissimilar from a speculative idealisation exercise à la Hegelian dialectics and well beyond the latter’s conceptual patterning. Ultimately, such tendential-deliberation-of-decidability for attaining defining-transcendence and defining-sublimity, arises from more than just a blatant/flatminded notion of human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ or say the vague social convention idea of talent, it is more critically beyond and about a question of human mental-disposition with respect to the prescience of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ so-implied as of ontology’s-directedness-as-Being. This is the very meaning of organic-knowledge beyond the conception of mechanical-knowledge as-knowledge-as-a-mere-thing-to-be-acted-upon-for-given-outcomes. Organic-knowledge as such implies priorly a conviction deference to the prescience of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–

renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness' over any human-as-mortal framing of meaningfulness-and-teleology including oneself-as-human-as-mortal, as it is human mortality-as-temporality that is rather what is in need for further Being and consciousness development. Thus the paradigm of sublimation for a registry-worldview/dimension reference-of-thought, as reflected in the Derridean social ethics stance, is rather one for the 'subsumptive inventing' of the prospective ontological possibilities of prospective relative-ontological-completeness-of-reference-of-thought over human normativity/conventioning as of the latter's prior relative-ontological-incompleteness-of-reference-of-thought, and so by maximalising-recomposuring <formative>epistemic-totalising-renewing-realisation/re-perception/re-thought as of organic-knowledge. A nonextricatory existential paradigm of sublimation implying that the state of recurrent-utter-uninstitutionalisation, base-institutionalisation-ununiversalisation, universalisation-non-positivism/medievalism, and positivism-procrypticism, are successively-wanting of prospective defining-transcendence and defining-sublimity going by their successively-given mechanical-knowledge in temporality-as-of-neuterisation/relative-ontological-incompleteness/existential-extrication-as-of-existential-unthought. In other words, an intemporal-as-ontological mental-disposition projecting of the organic-knowledge as of prospective registry-worldview/dimension reference-of-thought in prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought can't sidestep such implied prospective defining-transcendence and defining-sublimity, and undertake existence as of the prior registry-worldview/dimension reference-of-thought in prior relative-ontological-incompleteness, even if it such a mental-disposition could lead to such an outcome as in H.G. Wells' country of the blind or Galileo say with the medieval Establishment; despite the fact that the possibilities of such outcomes arise out of establishment Charlatanism, which knows better, but exploits lack of 'social universal-

transparency'. But then it is actually a sign of 'propounded theoretical health and pertinence' when all such Establishment charlatanism comes to dodge such substantive-and-frontal articulation of prospective knowledge, and in lieu come up with worn out refrains and sidestepping manoeuvres avowing their true 'intellectual blankness' grounded on institutional-being-and-craft; as we know that in all genuinely inclined intellectual pursuits the very central tenet has always been about theoretical disputative engagement and not acts of escapism and downgrading of intellectual arguments as of 'solo media exploits of intellectual popularity'. Thus by its prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought as futural *différance*, accreting-substitutive-subsumption-as-futural-*différance*-freeplay comes into terms with both presencing—absolutising-identitive-constitutedness and non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’> on the basis of the prospective relative-ontological-completeness/ontological-contiguity of the latter over the prior relative-ontological-incompleteness of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging–qualia-schema> of the former as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising–purview-of-construal’. Thus what is being correctly implied is not ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather difference-in-nature/difference-in-apriorising-or-axiomatising between presencing—absolutising-identitive-constitutedness and non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’>. Such an insight is enabled as of the fundamental awareness that human knowledge construction fundamentally involves two different exercises; with the first factoring in that at the fundamental level of knowledge

construction humankind has a limited-mentation-capacity that needs to be developed as a
 ‘developed consciousness perspective/framing/reference/horizon as of prospective relative-
 ontological-completeness/notional-contiguity’ construed as its
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument to then be able
 at an operative level to articulate sound-or-authentic meaningfulness-and-teleology grounded
 on such a developed consciousness perspective/framing/reference/horizon. This explains why
 it is impossible for a ‘recurrent-utter-uninstitutionalised mindset
 perspective/framing/reference/horizon as of trepidatious-consciousness
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ to grasp base-
 institutionalisation meaningfulness-and-teleology without first developing a ‘base-
 institutionalisation mindset perspective/framing/reference/horizon as of warped-
 consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’;
 for a ‘base-institutionalisation–ununiversalisation mindset
 perspective/framing/reference/horizon’ to grasp universalisation meaningfulness-and-
 teleology without first developing a ‘universalisation mindset
 perspective/framing/reference/horizon as of preclusive-consciousness
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; for a
 ‘universalisation–non-positivism/medievalism mindset
 perspective/framing/reference/horizon’ to grasp positivistic meaningfulness-and-teleology
 without first developing a ‘positivistic mindset perspective/framing/reference/horizon as of
 occlusive-consciousness
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’; and
 prospectively for a ‘positivism–procrypticism mindset
 perspective/framing/reference/horizon’ to grasp deprocrypticism meaningfulness-and-
 meaningfulness without first developing a ‘deprocrypticism mindset

perspective/framing/reference/horizon as of protensive-consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'. As we can get that the fundamental stake for the Copernicuses, Galileos, Descartes, etc. during the Enlightenment wasn't just about the specific positivistic knowledge they articulated or else they would have been satisfied with just their personal curiosity and enlightenment and leave it at that, but rather they surreptitiously undermined many of the prevailing social norms and rules in trying to expound their knowledge and vision, and more critically so because they knew it is the 'formation of a positivistic social consciousness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' that would enable the anchoring of all such prospective positivistic knowledge, and this sense of things fully underscored such a more comprehensively directed project-and-purpose undertaken later by the Encyclopédistes; with the underlying insight that while a social state of generalised prior relative-ontological-incompleteness-of-reference-of-thought is enabling to surreptitious Establishment charlatanism, however with increasing 'social universal-transparency' such charlatanism is exposed for what it really is, explaining the panickiness and falsehood associated with such charlatanism as with the reactionaries to the Encyclopédistes project, as if the articulation of knowledge by itself was a threat rather than subject to disputation! Underlying as the non-speculative, non-imaginary, theoretical and conceptual possibility for such futural différance consciousness development is the notion of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics which by pointing out an epistemic-break as of difference-in-nature/difference-in-apriorising-or-axiomatising/ontological-discontinuity, underscore at once 'both as affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<dialectical-thinking-or-postconverging–apriorising-psychologism> of the consciousness in ontological-contiguity/relative-ontological-completeness-of-reference-

of-thought and as unaffirmation/deprojection/de-assertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<dementing-or-preconverging–apriorising-psychologism> of the consciousness of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging–qualia-schema>/relative-ontological-incompleteness-of-reference-of-thought as of maximalising-recomposuring-for-relative-ontological-completeness, and not incrementalism-in-relative-ontological-incompleteness, as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising–purview-of-construal’’. As futural *différance* is enabled, unlike the case with the ‘Derridean quasi-transcendental-freeplay *différance*’, as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality involving human mental-disposition successive apriorising/axiomatising/referencing reprojection-or-reanticipation capacity inducing human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal); overriding the idea that the perspective/framing/reference/horizon of contemplation is absolutely given-and-determined as of the implication that all meaningfulness-and-teleology should be as of ‘difference-in-kind/difference-in-aposteriorising-or-logicising, but rather reconceptualising the possibility of difference-in-nature/difference-in-apriorising-or-axiomatising as of prospective relative-ontological-completeness-of-reference-of-thought bringing about transcendence-and-sublimity as of non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’>. Thus such a phenomenology associated with accreting-substitutive-subsumption-as-futural-*différance*-freeplay further divulges, unlike the ‘Derridean quasi-transcendental-freeplay *différance*’, the full possibility of human

sublimation. Consider in this regard the decisive transitions-as-sublimitys that occurred in physics: with ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs; wherein the successive axiomatic-constructs in prior relative-ontological-incompleteness and prospective relative-ontological-completeness, with regards to ‘traditional classical mechanics axiomatic-construct’ and the theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs as of ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ are not as of a ‘difference-in-kind/difference-in-aposteriorising-or-logicising but rather a difference-in-nature/difference-in-apriorising-or-axiomatising; with human-subpotency aligning towards the full potency of existence which thus divulges the possibility of human sublimation as of the physics science implications today. It is interesting to note that the difference-in-nature/difference-in-apriorising-or-axiomatising bringing about the successive physics axiomatic-constructs/theories are successive ‘epistemic-breaks’ from prior reasoning and are akin to ‘leaps of faith’ which then ‘establish new reasoning’ that then becomes the internal ‘difference-in-kind/difference-in-aposteriorising-or-logicising of the new physics as the new presencing; brought about from the transcendence of non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’>. In other words, human consciousness tends to be constraint to its <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus assumes a ‘difference-in-kind/difference-in-aposteriorising-or-logicising mental-disposition as of presencing—absolutising-identitive-constitutedness. But existence/ontology’s-directedness-as-Being as of non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’> is

beyond and not constraint by human consciousness as of its <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and thus hints-at the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality possibilities of transcendence-and-sublimity as of ontological-primemovers-totalitative-framework validation that is at the very center of the ‘promise of correspondence between human-subpotency as of Being-and-consciousness development and existence as of ontological-veridicality’, and so despite the complexifying/inhibiting metaphysics-of-presence of any given <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag from a ‘difference-in-kind/difference-in-aposteriorising-or-logicising posture; such that humankind then overlooks presencing—absolutising-identitive-constitutedness and re-projects/re-anticipates non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’> enabling human transcendence-and-sublimity. Therefore, metaphoricity as highlighted herein is actually construed as of ‘its natural ontology implications’, and this natural ontological notion of metaphoricity is construed herein as superseding-and-englobing all other differentiated adjunctive significations including conventional figures-of-speech. Metaphoricity as such simply refers to signification adjunctiveness to ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ as of both the meaningfulness-and-teleology implications to the so-renewed ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’ and the specific adjunctive-metaphoricity-signification within such renewed ‘underlying <formative>epistemic-totalising/circumscribing/delineating signifying-construct of language’. Metaphoricity is very much a mirroring of existential ‘syncretising-effecting’

going by the latter's existential implications on 'human underlying self-referencing meaningfulness-and-teleology as an epistemic-totalising/circular construal'. This 'epistemic-totalisation/circularity epistemic-breaking' of self-referencing associated existentially with syncretising-effecting as mirrored in metaphoricity arises because of human limited-mentation-capacity, and is a reflection of the circular deepening of human limited-mentation-capacity as of growing certitude from the opening up of non-presencing-<as-to-existence-potency-prospective-digression-of- '<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness'> by human re-projection/re-anticipation ultimately validated by existence/ontology's-directedness-as-Being ontological-primemovers-totalitative-framework. Further, metaphoricity as such speaks of the evasiveness of all human meaningfulness-and-teleology at uninstitutionalised-thresholds as recurrently pointed out herein as of token-as-madeupness/non-conviction or derived-token-as-madeupness/derived-non-conviction or conviction possibilities relation to reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology as of human limited-mentation-capacity implications. The implications of this reality as of metaphoricity explains why epistemes are fundamentally and necessarily constricted as of their specific registry-worldview/dimension reference-of-thought; as ultimately epistemes are as relevant as the ontological-possibilities divulgeable by presencing—absolutising-identitive-constitutedness and non-presencing-<as-to-existence-potency-prospective-digression-of- '<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness'>, such that in the case of the latter there is no prior insight about the veracity of any episteme before it is divulged with Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as presencing—absolutising-identitive-

constitutedness. Consider in this regard Galileo's implying positivistic episteme metaphoricity over a medieval Establishment scholasticism-and-mysticism episteme as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as the necessary backdrop for the knowledge he articulates and all subsequent positivistic knowledge. In many ways, this author as of organic-knowledge is very much aware of the 'drawback implications' of our positivism-procrypticism episteme as of its constitutedness with respect to futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism psychoanalytic-unshackling organic-knowledge, as of the full articulation of accreting-substitutive-subsumption-as-futural-différance-freeplay with respect to our procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalisation and futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation implications representation, and so beyond just our natural inclination for <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Galileo could well had possibly recasted his implied positivism meaningfulness-and-teleology in scholasticism-mysticism terms, just as Copernicus work was held back priorly in limbo, but then the implications as he perceived would have been a degradation and lost of the essence of what he was doing, and so more than just the specific scientific knowledge but more critically it warranted a psychoanalytic-unshackling into the non-presencing-or-withdrawal-or-metaphysics-of-absence-or-transcendental-reasoning-of-event-as-prospective-ontology-origination perspective/framing/reference/horizon of positivism meaningfulness-and-teleology we entertain today. Likewise, as of such metaphoricity episteme, the meaningfulness-and-

teleology herein implied as of its essence cannot do without this hermeneutic circle phenomenological ontology elucidation as of its psychoanalytic-unshackling conflatedness; and the ideal backdrop for this lies in a further developed postmodern-thought phenomenological-depth of construction, as implied herein by this author as of accreting-substitutive-subsumption-as-futural-différance-freeplay. This author conceives that at the very core to such genuine understanding of postmodern-thought is a double-gesture reification that consists of perspective/framing/reference/horizon and then contention/argumentation within such articulated perspective/framing/reference/horizon, as so implied by postmodern-thought together with other kindred though less dramatic textuality-thinkers like Gadamer and Habermas; as of the need to adopt/instigate the appropriate mindset for knowledge appraisal given the fundamental distorting effect, beyond just perception, of human limited-mentation-capacity. This double-gesture reification reality for construing human knowledge amounts to a quasi-psychoanalytic-unshackling, as it reflects the fact that The-Given as of existentialism/thrownness/facticity is always an insufficiently/poorly developed perspective/framing/reference/horizon for direct instigation of contention/argumentation aspiring for profundity and completeness. Such that this double-gesture reification of the textuality-driven intellectuals involves their ‘special focus orientations’ profundity say like genealogy with Foucault, deconstruction with Derrida, etc., and this together with transversality-of-disambiguated-apriorising/axiomatising/referencing complementarity and criticisms of all such ‘special focus orientations’, go on to conjointly-and-fruitfully define what is postmodern-thought. Postmodern-thought as such can be analogised with the anecdote of the blind men striving to determine what an elephant is, but with each one saying authentically what they find in front of them in developing the relevant specific imageries and overall imagery of what an elephant is. This in itself is a milestone in theorisation, and as an overall conception postmodern-thought, besides the ‘special focus

orientations' of the specific textuality-driven intellectuals, is primarily about 'consistently taking a best shot' at reality and is not inherently driven at its core by ideology but rather authenticity. As such it effectively achieves a more potent construal of the human condition and knowledge especially as it is 'driven by such transversality-of-disambiguated-apriorising/axiomatising/referencing cumulative authenticities that augment the possibilities of human limited-mentation-capacity' thus going a long way to open up new and coherent thought possibilities as of its grander and overall conception and spirit. Interestingly, what is central about the ontological-bad-faith/inauthenticity critique of postmodern-thought is the lack-of-insight/feinting-lack-of-insight about all these underlying elements of postmodern-thought construction: as failing to grasp/recognise the implied double-gesture reification as of its transcendental-enabling/sublimating implications, and by not appreciating due to 'flatmindedness'/banality/flimsiness the implications of perspective/framing/reference/horizon before contention/argumentation as of any given perspective/framing/reference/horizon, thus implying 'poor critical judgment'. With such 'flatmindedness'/banality/flimsiness further protracting into a poor grasp of postmodern theorists 'special focus orientations' with the tendency to engage postmodern-thought as of an un insightful literal and shallowminded/banal/flimsy reading; and with the ultimate outcome that all such naïve un insightful literal and shallowminded/banal/flimsy readings are cumulated and summated as the entirety of the postmodern theoretical construct, and so on an apparently implied flawed logic that the discretion allowed for criticism doesn't engage the intellectual credibility of the critique, a notion that is especially abused within a media background. Such 'flatmindedness'/banality/flimsiness with respect to postmodern-thought fails to grasp that all subject-matter as of their inherently deferential-formalisation-transference as of institutional percolation-channelling are necessarily construed as of a double-gesture reification that supersedes the ordinariness/banality of day to day social

existence analysis as of <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
 ‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>), such
 that as of the history of such critiques it will be naïve not to factor in the reality of
 ontological-bad-faith/inauthenticity and so particularly as it tends to shy away from genuine
 intellectual engagement with postmodern-thought, and highlighting that the idea of arrogance
 peddled about postmodernism strangely enough speaks of the ‘ignoble arrogance’ of such
 ontological-bad-faith/inauthenticity critiques, as structurally/paradigmatically that which
 attributes value judgments is that which is knowledgeable-as-of-its-prospective-relative-
 ontological-completeness-of-reference-of-thought-dialectical-thinking-or-postconverging—
 apriorising-psychologism and not that which is ignorant-as-of-its-prior-relative-ontological-
 incompleteness-of-reference-of-thought-dementing-or-preconverging—apriorising-
 psychologism. Such that there is no dialogical-equivalence that then arises by the fact that the
 former is a nonextricatory/intemporal/ontological relationship with meaningfulness-and-
 teleology while the latter is an existential-extrication/temporal/non-ontological relationship
 with meaningfulness-and-teleology, in the sense that it is the former intemporal-as-
 ontological individuation mental-disposition that is responsible for bringing about human
 Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-
 development-as-infrastructure-of-meaningfulness-and-teleology in reflecting the ontological-
 contiguity—of-the-human-institutionalisation-process retrospectively and prospectively while
 the latter as of its false ‘untransvaluated—temporal-intemporality’ is rather existentially
 extricatory and oblivious to Being-development/ontological-framework-expansion—as-to-
 depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in
 reflecting the ontological-contiguity—of-the-human-institutionalisation-process. As
 ultimately, it is the prospective relative-ontological-completeness-of-reference-of-thought

pursued by the former that supersedes and dissolves human vices-and-impediments as of prospective registry-worldview/dimension transcendence reference-of-thought. The overall insight here of such ontological-bad-faith/inauthenticity can be construed analogically as say in a non-positivistic social-setup where the modern disease theory is not yet socially familiar such that patients may assume that they should be cured immediately/instantly after treatment with no perspective/framing/reference/horizon of appreciation for judging medicine as optimally an over-a-time-period-bodily-reparation construed as the basis of a positivist physician practice; a notion being spread and advocated by the positivist physician in the social-setup. Now consider a competing healer very much aware of such a non-positivist social-setup ‘lack of social universal-transparency’ with regards to such over-a-time-period-bodily-reparation notion and throwing a spanner in the works by pretending that the physician should confirm that patients are cured immediately as otherwise the physician must be practising witchcraft on the patients, understanding fully well the authentic disposition of the physician to affirm a practice of over-a-time-period-of-bodily-reparation for a long term dependable notion of medicine. While they are pragmatically inclined to advanced opportunistically whatever explanation to justify that their healing is immediate/instant and so involving any such stratagem like opportunistically accusing patients or some other persons for any implied failure of immediate/instant cure having the effect on the most part of shutting-off any complain or at least negative allegations about the healer’s cure, and so-enabled on the basis of the healer priorly institutionalised deferential-formalisation-transference posture in the social-setup. Such a healer encouraging the social-setup notion of immediate/instant cure as a ploy as of the possibility of the positivistic disease theory conception subverting their own non-positivistic healing practice notwithstanding ontological-veracity. The manifest acts of many such ontological-bad-faith/inauthenticity critiques with respect to postmodern-thought: whether when pretending to misunderstand

postmodern double-gesture reification of meaningfulness, blatantly caricaturing in the most inane terms postmodern-thought, avoiding genuine intellectual-level disputation, and so rather opting for subversive <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)

‘uncritical social media preaching towards sold publics-of-conquest’ paradoxically while claiming not to grasp postmodern-thought, with subterfuges of unoriginal thought usurping the notion of science and intellectualism towards such uncritical publics; and all this as a manifestation of perverted intellectual institutional-being-and-craft. While postmodern-thought is not and has never been immuned from genuine intellectual criticism not only from other schools-of-thought but among postmodern and poststructuralist thinkers themselves, and this calling out of such ontological-bad-faith/inauthenticity critics is much more than an issue about postmodern-thought but about all intellectualism generally as such malpractices tend to mark the beginning of intellectual teleological-decadence—as-lacking-in-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness subversion of progressive thinking and go on to permeate social practices and media practice, thus rendering social and critical thought impotent. Further knowledge as understood by this author is more than just the conception of its intemporal-as-ontological nature but knowledge is much more completely and potently notional knowledge as it understands as well the implications of temporal-as-non-ontological mental-dispositions dynamics in relation to pure ontology, and thus in the face of ontological-bad-faith/inauthenticity shouldn’t take the bait of overlooking and thus falsely elevating teleologically as intellectually pertinent ontological-bad-faith/inauthenticity rather than relating to it at its teleologically-degraded level for what it truly is, and so as part and parcel of a complete conception of knowledge. Ultimately, intellectual statuses are as pertinent as

veridically enabling to human emancipation as of
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm, and intellectuals' choice of ontological-bad-
 faith/inauthenticity is nothing less than self-inflicting irreverence and cannot thus turn around
 to intimate irreverence when surreptitiously undermining knowledge of universal
 consequential implications. This author as of metaphysics-of-absence will summate that prior
 postmodern thinking is akin-and-pointing-to a proto-prospective reference-of-thought as of
 prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-
 thought over an <formative>epistemic-totalising-self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag as prior reference-of-thought, and that
 necessarily it speaks by its double-gesture reification of quasi-psychoanalytic-unshackling
 thus requiring a psychoanalytic-reorientation to such an implied prospective reference-of-
 thought 'as of the prospective relative-ontological-completeness-of-axiomatic-construct-or-
 reference-of-thought of a better knowledge perspective/reference-of-thought before/as-
 preceding contention/argumentative-engagement, and so avoiding
 'flatmindedness'/banality/flimsiness. The underlying current of postmodern-thought is that
 our limited-mentation-capacity induces our prior relative-ontological-incompleteness with
 regards to reference-of-thought and its derived meaningfulness-and-teleology, with the
 implication that we need to a prospective relative-ontological-completeness-of-reference-of-
 thought to be able to articulate intemporal-as-ontological construal as of the internal-
 dialectics/différance of meaningfulness-and-teleology. In other words, all concepts, notions
 as of ontologically-veridical meaningfulness-and-teleology, are made to have their internal-
 dialectics/différance as of non-presencing-<as-to-existence-potency-prospective-digression-
 of- '<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness'> for their sublimation and transcendence into more profound and

more complete meaningfulness-and-teleology. For instance the ‘postmodern take’ about science is rather a more profound and complete notion of science than the ‘modern take’, such that a ‘modern approach’ to the conception of science naively fails to factor in unlike the ‘postmodern approach’ the implications of human limited-mentation-capacity and the need to deepen it, thus translated into the prior need for prospective relative-ontological-completeness; wherein the ‘modern take’ might naively consider medicine as simply providing medications and remedies, the ‘postmodern take’ by an internal-dialectics/différance of the notion of medical science will factor in socioeconomic, education, information, environmental, gender and power relations issues underlying healthcare and medical delivery as a more profound and complete notion of medical science; construed effectively as of deprocrpticism/preempting—disjointedness-as-of-reference-of-thought. Thus, for postmodern-thought the capacity to attain relative ontologically-veridical meaningfulness-and-teleology comes down to the capacity of arriving at the very essence of meaningfulness-and-teleology while overcoming the drawback of our human limited-mentation-capacity. This insight about the essence of things is what underlies fundamentally Heideggerian-essencing-as-of-the-ontological-difference, Sartrean-existence-precedes-essence and Derridean-différance-as-there-is-nothing-outside-the-text, all construed by this author as of existential-contextualising-contiguity; is the enabling approach for human ontological-reconstituting—as-of-conflatedness as of aetiologisation/ontological-escalation. Basically thus, the overall postmodern project implication is that we deepen our limited-mentation-capacity first (and so as of the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of our edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) to ensure that we go about deriving ontologically-veridical meaningfulness-and-teleology in relative-

ontological-completeness. This is in reality the ultimate scientific insight as such an internal-dialectics/différance is articulated as of non-speculative, non-imaginary, theoretical, conceptual and operant scientific implications; and this is reflected in the very initiation of the postmodern paradigm with Heidegger's criticism of Hegelian dialectics, with the latter construed by this author as 'not founded-on-and-constrained-by ontological-veridicality/intrinsic-reality as of ontological-primemovers-totalitative-framework', but rather dialectical discretion, imagination and speculation 'as to lack of a congruent,-cogent-and-operant entailing framework of ontological-contiguity' as herein implied by this author with 'the ontological-contiguity—of-the-human-institutionalisation-process congruent,-cogent-and-operant entailing framework of ontological-contiguity'. Anecdotally, the shallowmindedness of a 'modern take' in failing to recognise the postmodern double-gesture reification will simply consider the blind men reporting of an elephant as a tree-trunk, a rope, a wall, a fan or a spear as 'postmodern madness' without factoring in the underlying double-gesture reification for perspective and insight, given the problematic of human limited-mentation-capacity that itself needs to be factored in and thus actually strengthen the human thought process in its aetiologisation/ontological-escalation. In the bigger scheme of things, such an internal-dialectics/différance is what explains the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology and so-construed as suprastructuralism beyond just the specific interpretation of suprastructuralism as of postmodernism with respect to modernism. This internal-dialectics/différance as of successive transcendence-and-sublimity is behind the respective registry-worldviews/dimensions as of their given reference-of-thought specific neuterising as well as the ultimate deneuterising—referentialism of deprocrypticism. But then ontological-bad-faith/inauthenticity is equally elicited by 'lack of social universal-transparency' as of a

cynicism of institutional-being-and-craft. The transcendental implications of a registry-worldview/dimension reference-of-thought ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ arises for instance in the sense that however ‘wishful’ the ontological-primemovers-totalitative-framework transcendental-possibilities/potential as of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue and human emancipation potential/possibilities of a prospective registry-worldview/dimension like positivism as of its ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’, cannot avail to a prior registry-worldview/dimension like non-positivism/medievalism. In this regard the Copernicuses, Galileos and Diderots of their eras, and more explicitly Descartes in his direct construal of the positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, would have certainly sensed that their specific knowledge conceptualisations wasn’t the more critical issue but rather their insistence was an implicit understanding that the non-positivistic ‘reference-of-thought—devolving-teleological-structure-of-meaningfulness’ was structurally/paradigmatically a framework that wouldn’t be enabling for their positivistic and all other positivistic knowledge conceptualisations as of its prior relative-ontological-incompleteness-of-reference-of-thought. Such conflatedness imbued in postmodern-thought address more than just constitutedness implications of knowledge construction as articulated herein but equally points critically to intellectually decadent institutional dispositions and practices where imprimatur and the dynamics of imprimatur by themselves are increasingly construed as of more critical epistemic pertinence for knowledge constructions undermining the possibilities of breakthroughs given that the primacy of intellectualism as of the pertinence of intellectual arguments increasingly takes a back seat, with intellectual postures increasingly defended with non-intellectualism obsession of ideologies of schools-of-thought as of institutional-being-and-craft. This manifests itself in the form of many an intellectual

increasing disposition 'to misunderstand' others works, as there are little common stakes for breakthroughs but rather the stakes are increasingly of institutions academic visibility and tenure with emphasis on likeminded networks and forums driven increasingly by influence than carefree universal intellectual curiosity. Furthermore intellectualism has increasingly been surreptitiously mingling-and-yielding to social and economic interests undermining its obligation for enabling social clairvoyance, with a resultant sense of socioeconomic and socio-political impotence as such a blurriness is increasingly undermining the relevance of intellectualism in its public discourse and enlightenment mission. Ultimately, the epistemic and structural paradigm of academic institutional setups are not dissociated from the effective possibility for transcendental-enabling/sublimating, especially as such breakthroughs require the spontaneity of Dionysian arrangements. This author's construes of deprocrpticism/preempting—disjointedness-as-of-reference-of-thought 'reference-of-thought—devolving-teleological-structure-of-meaningfulness' conceptualisation as of ontological-escalation or aetiologisation, with respect to our present positivism—procrypticism disjointedness-as-of-reference-of-thought, as the more fundamental transcendental issue for prospective ontological-primemovers-totalitative-framework transcendental-possibilities/potential beyond self-referencing-syncretism and circular palliative knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue with regards to attending to the inherent deficient uninstitutionalised-threshold of knowledge-construct possibilities and vices-and-impediments imbued in our positivism—procrypticism disjointedness-as-of-reference-of-thought 'reference-of-thought—devolving-teleological-structure-of-meaningfulness'. Such a paradox of human ontological-performance is effectively construed as arising out of human <formative>epistemic-totalising—thrownness-in-existence (I exist therefore existence is of transcendental-enabling/sublimating to my human-subpotency / hyperbole-of-temporal-to-

 institutionalisation <formative>epistemic-totalising/circumscribing/delineating reference-of-
 thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology arises because
 the ontological-contiguity—of-the-human-institutionalisation-process is inherently a
 secondnatured construct that is cross-generationally constrained by percolation-channelling
 as of ontological-primemovers-totalitative-framework on the social-construct and internalised
 as of its overall middle to long term social positive-opportunism arising from social

 residuality/spirit-drivenness adherence as of full reference-of-thought—prelogism-as-of-
 conviction when it comes to social-stake-contention-or-confliction where there is lack of
 social universal-transparency, giving room for human shallow-limited-mentation-capacity as
 of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-
 existential-unthought> at uninstitutionalised-thresholds; such that at the uninstitutionalised-
 threshold in given presencing—absolutising-identitive-constitutedness, the disposition to
 reference-of-thought—madeupness/bottomlining is elicited as of covert-shallow-limited-
 mentation-capacity-as-uninstitutionaled-threshold-denaturing-as-of-circular-complexification
 undermining ontological-performance. In other words, the ontological-contiguity—of-the-
 human-institutionalisation-process as of transcendence is achieved by undermining-and-
 overcoming the 'reference-of-thought—madeupness/bottomlining (beyond-the-consciousness-

awareness-teleology-<in-existential-extrication-as-of-existential-unthought> disposition) for
 covert-shallow-limited-mentation-capacity-as-uninstitutionalized-threshold-denaturing-as-of-

 <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-
 as-of-instantiative-context—meaningfulness-and-teleology at its uninstitutionalised-threshold
 as of cross-generational psychoanalytic-unshackling for the prospective registry-
 worldview's/dimension's <formative>epistemic-totalising/circumscribing/delineating
 reference-of-thought-devolving. However, 'reference-of-thought—madeupness/bottomlining
 in covert-shallow-limited-mentation-capacity-as-uninstitutionalized-threshold-denaturing-as-
 of-circular-complexification' is bound to arise anew at the prospective institutionalisation
 reference-of-thought uninstitutionalised-threshold as of prior relative-ontological-
 incompleteness-of-reference-of-thought, thus requiring again prospective institutionalisation
 as of maximalising-recomposuring-for-relative-ontological-completeness conflatedness
 inducing social universal-transparency as of a new prospective institutionalisation reference-
 of-thought to further undermine-and-overcome the 'reference-of-thought—
 madeupness/bottomlining for covert-shallow-limited-mentation-capacity-as-
 uninstitutionalized-threshold-denaturing-as-of-circular-complexification' with respect to social-
 stake-contention-or-confliction. The reason why social universal-transparency is empowering
 for prospective institutionalisation in superseding uninstitutionalised-threshold lies in the fact
 that the 'succession of premeaningfulness/preframing-<metaphoricity-disposition—as-to-
 psyche-induced-psychologism-of-existential-stake>' idiosyncrasy as of human thrownness in
 existence that allowed for prior institutionalisations are inherently predicated on their
 successive social universal-transparency such that even at presence uninstitutionalised-
 threshold, involving denaturing of reference-of-thought—categorical-
 imperatives/axioms/registry-teleology as <formative>wooden-language-(imbued—temporal—

mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging–

 preservation as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-
 as-of-existential-unthought>, the supposedly implied assumption though false is one of social
 universal-transparency as all uninstitutionalised-thresholds-or-uninstitutionalised-thresholds-
 are-overtly-unassuming-and-rather-parasitising-or-coopting-of-institutionalisation-in-false-
 representation-as-institutionalisation such that prospective social universal-transparency
 elucidation of prospective institutionalisation reflecting the inherent veridicality of the
 uninstitutionalised-threshold in its beyond-the-consciousness-awareness-teleology-<in-
 existential-extrication-as-of-existential-unthought> collapses it. Thus the ‘notion of limited-
 mentation-capacity’ is basically the ‘underlying veridical human meaningfulness-and-
 teleology notion’ for which ‘ontologically-compromised-mediating,-as-of-their-specific-
 constitutedness consciousnesses flawed conceptualisation perspectives’ construed as
 ontologically-flawed constructs in terms-as-of-axiomatic-construct of ‘neuterising as of
 <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’
 whether beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-
 existential-unthought>, and so elucidated from the ontological-normalcy/relative-ontological-
 completeness-of-reference-of-thought perspective of deprocrypticism ‘referentialism—
 ontologically-uncompromised-mediating,-as-of-conflatedness protensive-consciousness
 sound conceptualisation perspective’. In so doing, the latter reflects the limited-mentation-
 capacity dynamism of meaningfulness-and-teleology as of notional-deprocrypticism as well
 as temporal-to-intemporal individuations mental-dispositions, by way of deneuterising—
 referentialism, in lieu of neuterising. Thus this notion of human limited-mentation-capacity as
 the basis of différance/internal-dialectics/difference-deferral divulges ‘ontologically-
 compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed

intemporal-Binarity-of-categorical-imperatives/axioms/registry-teleology of temporal
 projections as of postlogism-
 slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-
 discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-
 endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-
 conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism
 reflected as the divergent ontological-performances of the historicity/ontological-
 eventfulness/ontological-aesthetic-tracing’, all occurring as of the conjoined dynamism of
 conflatedness and distractive-alignment-to-reference-of-thought. This overall disparateness-
 of-ontologically-construed-social-reality dynamism is reflected in ‘ontologically-
 compromised-mediating,-as-of-their-specific-constitutedness consciousnesses flawed
 conceptualisation perspectives’ as of their neutering: wherein recurrent-utter-
 uninstitutionalisation has the deepest reference-of-thought/structural/paradigmatic as
 ‘impulsive—ontologically-compromised-mediating,-as-of-its-specific-constitutedness
 consciousness flawed conceptualisation perspective’ neutering by its trepidatious-
 consciousness, while on the other extreme in contrast deprocrypticism rather has a reference-
 of-thought/structural/paradigmatic deprocrypticism ‘referentialism—ontologically-
 uncompromised-mediating,-as-of-conflatedness protensive-consciousness sound
 conceptualisation perspective’ that by its ‘reference-of-thought-devolving—
 différance/internal-dialectics/difference-deferral’ grasp the ontologically-veridical
 ‘underlying human limited-mentation-capacity dynamics of <formative>epistemic-
 totalising/circumscribing/delineating reference-of-thought-devolving, and so without being
 subject to any neutering’ as is the case with all ‘ontologically-compromised-mediating,-as-
 of-their-specific-constitutedness consciousnesses flawed conceptualisation perspectives’.
 Thus by its deneutering—referentialism construed as of historicity/ontological-

eventfulness/ontological-aesthetic-tracing, deprocrypticism enables a fundamental ontology-driven ‘dialectical-thinking-or-postconverging-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’, and so superseding a naïve metaphysics-of-presence affect-driven mented or stigmatic psychology rather as of a shallow perspective and vaguely articulated as of universal import. The idea here with regards to human transcendental-enabling/sublimating/transcendence-and-sublimity, is that from a creative perspective: the notion of a given neuterising is equinominal/equivalent with a given presencing—absolutising-identitive-constitutedness, and as this speaks of human limited-mentation-capacity prospectively-construed ontologically-flawed implications as of ontological-normalcy/postconvergence. It is over this neuterising that human transcendental-enabling/sublimating/transcendence-and-sublimity is achieved from the prospective notional-conflatedness of notional-deprocrypticism and so by deneuterising—referentialism, which is equinominal/equivalent to non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’>. In other words the historial implications of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) is that ‘as of a less and less ontologically-flawed meaningfulness-and-teleology towards ontological-normalcy/postconvergence, ‘it projectively/anticipatorily brought about the successive registry-worldviews/dimensions <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving’ as of their given neuterisation, construed as equinominal/equivalent with their successively given neuterising. From the above insight, transcendental-enabling/sublimating/transcendence-and-sublimity, is attainable as of deneuterising, construed as equinominal/equivalent with deneuterising—referentialism as the notional-conflatedness of notional-deprocrypticism that produces the ontologically-veridical historicity/ontological-eventfulness/ontological-aesthetic-tracing.

Ultimately, this sociohistorial disparateness-of-ontologically-construed-social-reality dynamism comes down to the limited/incomplete association of human ‘invention’ of organic-knowledge with the reflection of ‘this organic-knowledge underlying mental-disposition as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology rather defectively as of mechanical-knowledge construal in existential instantiations’, inducing prospective neuterising. This disparateness is increasingly closed-down all along in reflecting the ontological-contiguity—of-the-human-institutionalisation-process from recurrent-utter-uninstitutionalisation to positivism—procrypticism, with the underlying tenet for achieving futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as preempting—disjointedness-as-of-reference-of-thought being a full and cogent reflection of ‘human construal of organic-knowledge’ with ‘the mental-disposition behind that construal of organic-knowledge for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in existential instantiations’ thus resolving the open-ended-incompleteness/nonachievement-of-ontological-normalcy. Overall, such a notional conflatedness reference-of-thought/structural/paradigmatic—ontological-performance ‘performance-construct of candidity/candour-capacity’ can be garnered as of metaphysics-of-absence wherein across the successive registry-worldviews/dimensions a notional-deprocrypticism insight makes obvious that it is increasing ontological-normalcy/postconvergence by increasing prospective relative-ontological-completeness-of-reference-of-thought that underlies reference-of-thought/structural/paradigmatic—ontological-performance as a wholly internal process of conflatedness, highlighting ‘the concatenation of intemporal-projection inextricably with derived-denaturing-deprojections-

in-distractiveness-of-intemporal-projection, with the former in relative longness-of-register-of-meaningfulness-and-teleology and the latter in relative shortness-of-register-of-meaningfulness-and-teleology/distractiveness' that occurs at the individuation-level and is reflected in the registry-worldview/dimension-level by the concatenation of institutionalisation inextricably with uninstitutionalised-threshold as the former is in longness and the latter in shortness/distractiveness to the former. This conceptualisation of candidty/candour-capacity associated with deprocrypticism with regards to 'ontological-dementation/dialectical-dementation-stranding/attributive-dialectics implications for reference-of-thought transcendence' is in effect a 'more profound-and-comprehensive notion of différance construed rather with respect to the defining reference-of-thought of meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought' and can be qualified as 'futural différance' as of its suprastructural nature, and goes beyond the limits of a Derridean perspective of différance as 'historial différance' rather articulated from 'presencing-as-prospective-relative-ontological-completeness-of-reference-of-thought construing of past-as-prior-relative-ontological-incompleteness-of-reference-of-thought in ad-hoc reassessing of meaningfulness-and-teleology of presencing-as-prospective as from its very own reference-of-thought in grasping alterations of meaningfulness-and-teleology going back from the past but not to the point of putting into question the presencing-as-prospective overall reference-of-thought in prospective transcendence'; such that the transcendence implications of 'historial différance' is rather obscure as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> though ancillary as to the possibility of eventual cumulating of 'historial différance' realterations of meaningfulness-and-teleology enabling the beyond-the-consciousness-awareness possibility of subsequent presencing-as-prospective reference-of-thought transcendence. Whereas such candidty/candour-capacity

Such a construal of futural *différance* structurally/paradigmatically answers the Heideggerian *techne* concern as construed by this author of humankind thrown in the midst of the technical as utility while without ‘matching notional philosophically developed mindset/reference-of-thought for a coherent grasp and aligning with the organic mental origination as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality enabling that technical knowledge to arise-and-be-elevating-of-contemplation-and-Being in the very first place and prospectively’. But rather related to as of transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic marked by incoherence of contemplative mindset/reference-of-thought development in the midst of the technical world as rather literally ‘hurling along’ prospectively prospectively-underdeveloped-Being-as-of-unexpanded-ontological-framework; and so as reflected by conflatedness <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of ‘the concatenation of intemporal-projection inextricably with derived-denaturing-deprojections-in-distractiveness-of-intemporal-projection’. Consider a metaphysics-of-absence elucidation with regards to say a remote/isolated non-positivistic animist/base-institutionalisation society for instance which by some token has sustainable-

and-learned access to basic but greatly enhancing productive techniques from travellers of a positivistic culture but without a substantial corresponding organisational and institutional diffusion associated with such greatly enhancing productive techniques due to the very brief nature of the encounter or disconnected/incoherent/perfunctory/chaotic nature of their relations, this will structurally/paradigmatically have degenerative effect on such an animistic social organisation wherein this isn't enhancing of the society's social organisation and relations and will be possibly disruptive. This example isn't that farfetched as anthropological evidence of such cases abounds with many native societies so disrupted by culturally alienating positivistic material diffusion. Human material/technical development and corresponding mentality as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology are inextricable and critical in reflecting the ontological-contiguity—of-the-human-institutionalisation-process including our positivism—procrysticism registry-worldview/dimension. Inevitably the disparity of being thrown in the midst of technical development associated with 'the underdevelopment of Being construed herein as of individuation-level and registry-worldview/dimension-level disjointedness-as-of-reference-of-thought with respect to our positivism—procrysticism registry-worldview/dimension' is by itself a structural/paradigmatic basis for human vices-and-impediments whether at a micro-level interactional or macro-level social and political paradigm basis, notwithstanding our inclination for <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag where what passes as profound is our temporal mortal-to-mortal acquiescing as social-aggregation-enabling rather than a sense of intersolipsistic intemporal projection of intrinsic-reality/ontological-veridicality; with mental-dispositions rather geared towards temporal extricatory paradigm as of constitutedness, rather than intemporal/ontological/social/species/universal/transcendental/maximalising-

END OF DIGRESSION (ON OVERALL CONCEPTION OF THE FULL POTENTIAL OF HUMAN ONTOLOGICAL-PERFORMANCE)

Prelogism at worst implies an ad hoc problem of defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance, while postlogism implies a fundamental defining being/existential/ontological/axiomatic-construct problem of perversion-of-reference-of-thought, that is inherently in circularity/recurrence/repetition/repeatability thus requires ontological-reconstituting–as-of-conflatedness. Postlogism is thus an expansive construct developing into conjugated-postlogism associated with endemising/enculturationg social psychopathy, as temporal-dispositions arrive at beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> perversion-and-derived-

perversion-of-reference-of-thought as mental-dispositions finalities/determinations inducing disjointedness-as-of-reference-of-thought-as-misappropriated-meaningfulness associated with procrpticism.

Prelogism even when ontologically-flawed can be compared to the defect arising using a ‘correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements’ (appropriateness-of-reference-of-thought-as-of-conflatedness) for aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (to derive meaningfulness-and-teleology) but in doing so aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements wrongly (construed as using the correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements’ wrongly) which specifically speaks of the possibility of reusing the ‘same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements’ as same appropriateness-of-reference-of-thought-as-of-conflatedness (notwithstanding the specifically flawed aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements) for producing veridical meaningfulness-and-teleology. While postlogism is akin to the ‘defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements itself’ (perversion-of-reference-of-thought) besides the ‘specific act of aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements’ for producing veridical meaningfulness-and-teleology, and speaks to a fundamental flaw that is bound to circularly/repetitively/recurrently give erroneous aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-

measurements given the fundamentally incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements. Postlogism thus speaks of the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect> in producing meaningfulness-and-teleology, thus divulging a ‘reference-of-thought existentialism construct defect’ that is comprehensively devolving all across the given ‘reference-of-thought existentialism construct’ i.e., construed variously as of the registry-worldview/dimension meaningfulness-and-teleology ‘implied specific teleological differentiation/scission/variance/disambiguation’ as to its institutionalised-and-uninstitutionalised-thresholds implied relative-ontological-completeness-of-reference-of-thought), and so as of the contending-reference (meaningfulness ‘implied teleological construct’), the ontological-reference (meaningfulness ‘implied being/existential construct’), the meaningful-reference (meaningfulness ‘implied contextualisation construct’), the anchoring-of-meaning (meaningfulness ‘implied operant construal’) and the apriorising–registry (meaningfulness ‘implied basic defining construct’ in terms-as-of-axiomatic-construct of logical-dueness/profile/presumptuousness/assumptions/value-reference/teleology).

This elucidation of postlogism in comparison with the implications of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements provides a comprehensive insight about the underlying perversion-of-reference-of-thought associated with postlogism-as-of-non-conviction and its social derivation as conjugated-postlogism/dementing-or-preconverging-integration as of relative-ontological-incompleteness-of-reference-of-thought. That apparently minor twitch in the ‘defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements’ (perversion-of-reference-of-thought) is ‘a covert negative vista’

that wrongly undermines/dismantles ‘inherent/preceding intrinsic-reality/ontological-veridicality ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘dialectical-thinking-or-postconverging-reference-of-thought in relative-ontological-completeness as depth-of-thought’), and so because the perversion-of-reference-of-thought is existentially being related to as if it is of appropriateness-of-reference-of-thought-as-of-conflatedness with all the derived corresponding implications with respect to perverted representation of meaningfulness as well as teleologically-degraded/dementing-or-preconverging-reflexive/entailing-teleology-differentiation implications, given that all the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ which are implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology falsely/deceptively induced by the perversion-of-reference-of-thought (defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements itself) lead to a first-order faulty-mentation-procedure-deception-or-urge as perversion-and-derived-perversion-of-reference-of-thought (inappropriateness of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements and the derived uses) and which subsequent implications then go on to induce a second-order level wrongly implied deception of logical-processing-or-logical-implication of infinite deception possibilities with respect to the infinite possibilities of

‘perfect logical-processing-or-logical-implication’ on the false basis of the perversion-and-derived-perversion-of-reference-of-thought (infinite possibilities of errors arising for aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements with a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements and the derived uses) for producing ‘meaningfulness-and-teleology’ (aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements) based on the perversion-and-derived-perversion-of-reference-of-thought (defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements itself and its derived uses). Just as fundamentally not resolving the defect of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements induces systematically a circularity/recurrence/repetition/repeatability in the ‘incorrect aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements’ in the overall enterprise of the aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (say architectural for instance) and so ‘reflected as dementing-or-preconverging—apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought’ in relation to ‘correct aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements’ reflected as dialectical-thinking-or-postconverging—apriorising-psychologism/soundness-or-authenticity-of-reference-of-thought, likewise perversion-of-reference-of-thought related to as being of appropriateness-of-reference-of-thought-as-of-conflatedness wrongly undermines/dismantles the ‘existential meaningfulness-and-teleology’ implied by ‘inherent/preceding intrinsic-reality/ontological-veridicality ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’-

 thought’ in relation to veridical ‘existential meaningfulness-and-teleology’ reflected as
 dialectical-thinking-or-postconverging–apriorising-psychologism/soundness-or-authenticity-
 of-reference-of-thought. The critical importance of highlighting ‘inherent/preceding intrinsic-
 reality/ontological-veridicality’ here as ‘imbricatedness/threadedness/recomposuring as of
 existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-

 existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-
 that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from
 the perspective of the ‘dialectical-thinking-or-postconverging-reference-of-thought in
 relative-ontological-completeness as depth-of-thought’) has to do with the fact that the
 language (say technical terminology for architecture) for construing meaningfulness-and-
 teleology (purposeful architectural
 aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-
 measurements) is equally available to both the appropriateness-of-reference-of-thought-as-of-
 conflatedness (correct
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
 measurements) and the perversion-of-reference-of-thought (defective
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-

measurements) for expression as aposteriorising/logicising/deriving/intelligising/measuring—
 purpose—of-obtained-measurements due to the ‘covert negative vista’ of the perversion-of-
 reference-of-thought as well as derived-perversion-of-reference-of-thought (derived relation
 to the defective
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
 measurements as being ‘correct
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
 measurements’). Thus technically speaking all elocution associated with the defective
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
 measurements for the aposteriorising/logicising/deriving/intelligising/measuring—purpose—
 of-obtained-measurements (perversion-and-derived-perversion-of-reference-of-thought), as
 meaningfulness-and-teleology is structurally dementing—
 apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing, as
 from candidity/candour-capacity perspective. The implication being that
 structurally/paradigmatically reference-of-thought (axiomatic-construct) in effect protracts
 into meaningfulness-and-teleology; with appropriateness-of-reference-of-thought-as-of-
 conflatedness structurally/paradigmatically implying ‘appropriate meaningfulness-and-
 teleology of reference’, perversion-of-reference-of-thought structurally/paradigmatically
 implying ‘perverted meaningfulness-and-teleology of reference’ and derived-perversion-of-
 reference-of-thought structurally/paradigmatically implying ‘derived-perverted
 meaningfulness-and-teleology of reference’. (Hence the circular-pervasiveness reflex by
 which a registry-worldview always resets its meaningfulness-and-teleology as
 neuter/conviction/dialectical-thinking-or-postconverging—apriorising-psychologism and so
 even at the point of its underlying demonstrated incompleteness-of-reference-of-thought
 behind its perversion-and-derived-perversion-of-reference-of-thought is nothing but ‘a flawed

<formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag exercise’, and revealed so by the
 prospective/transcending/superseding registry-worldview.) This technically highlights two
 issues, the inherent perversion-of-reference-of-thought and the registry-worldview/dimension
 relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-
 virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-
 construed-as-from-prospective-reference-of-thought, that induces a derived-perversion-of-

 non-positivism/medievalism mindset/reference-of-thought will certainly be enabling for a
 non-positivism/medievalism type of perversion-of-reference-of-thought like notions-and-
 accusations-of-sorcery to arise in circularity/recurrence/repetition/repeatability (as-of-
 ‘perversion-and-derived-perversion-of-reference-of-thought–as-to-uninstitutionalised-
 threshold-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing’)
 in a non-positivism/medievalism social-setup, a positivistic mindset/reference-of-thought
 prospective relative-ontological-completeness-of-reference-of-thought makes it impossible
 by its ‘rational-empiricism/positivising <formative>epistemic-totalising–renewing-

 mindset/reference-of-thought of procrypticism/disjointedness-as-of-reference-of-thought is
 all too ready to endemise/enculturate the possibility of psychopathy and social psychopathy
 arising in circularity/recurrence/repetition/repeatability (as-of-‘perversion-and-derived-
 perversion-of-reference-of-thought–as-to-uninstitutionalised-threshold-self-referencing-and-

(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal), can effectively be construed as a maximalising-recomposuring-for-relative-ontological-completeness ‘successive shifting in the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought of human meaningfulness-and-teleology’ (rather than a naïve construal based on incrementalism-in-relative-ontological-incompleteness as successive additions which will wrongly imply an improvement along the same ‘curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought of human meaningfulness-and-teleology’) wherein going by the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as reference-of-thought comparison, the implication is one of successive ‘transformative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ (successive transformative references-of-thought) undertaking respectively the aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (as logical-processing-or-logical-implication) of the same inherent existential-reality but with ‘respective dramatic changes in the aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements’ (as dramatic changes in meaningfulness-and-teleology from the successive registry-worldviews/dimensions references-of-thought), together with an underlying recurrent postlogism-as-of-non-conviction issue with the successive registry-worldviews/dimensions references-of-thought as of their prospective relative-ontological-completeness-of-reference-of-thought (due to ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’); highlighting the notion of defectiveness in successive transformative apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as corresponding to perversion-and-derived-perversion-of-reference-of-thought/postlogism-

and-conjugated-postlogism as of prospective relative-ontological-completeness-of-reference-of-thought. Consider for instance (with regards to human growing/developing prospective relative-ontological-completeness-reference-of-thought), the historical transformation of meaningfulness-and-teleology associated with the development of human astronomical instruments, as from objects for religious calculations such as astrolabes to the development of telescopes today rather for advanced astronomical science mirroring a corresponding human <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) as of the successive institutionalisations. This explains the peculiar mimetised-dementing-or-preconverging–apriorising-psychologism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology we’ll construe for instance of a non-positivism/medievalism mindset/reference-of-thought that doesn’t register positivistic meaningfulness reference-of-thought and likewise prospectively such a construal will have our present placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of priorly unsoundness-or-inauthenticity-of-reference-of-thought/dementing-or-preconverging–apriorising-psychologism by its positivism–procrypticism reference-of-thought. Just as the very nature of existential-reality by our limited-mentation-capacity-(as of relative constitutedness towards relative conflation) construal/conceptualisation of it is rather ‘an uncompromising windedness/foldedness susceptible to our limited-mentation-capacity-(as of relative constitutedness towards relative conflation) virtuality-or-ontologically-flawed-construal as decontextualising/unimbricating/unrecomposuring of its inherent nature’, correspondingly the exercise of ontologically-veridical reasoning is rather maximalising-recomposuring-for-relative-ontological-completeness. Correspondingly, from the vantage position of our present

positivising/rational-empirical ontological-completeness-of-reference-of-thought with respect to a non-positivism/medievalism worldview, we can garner an insight of dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing of the postlogism-and-conjugated-postlogism in a non-positivism/medievalism setup, wherein faced with arguments of the sort who is the sorcerer, how are they using their sorcery, etc., speaking of the non-positivism/medievalism relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought (given that sorcery doesn't exist, going by the insight of positivistic prospective relative-ontological-completeness-of-reference-of-thought whereas the non-positivism/medievalism registry-worldview/dimension is ridden with a whole complexity of dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing construct of notions-and-accusations-of-sorcery meaningfulness-and-teleology as its paradigm of circularity/recurrence/repetition/repeatability (perversion-and-derived-perversion-of-reference-of-thought—as-to-uninstitutionalised-threshold-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing). This insight can equally be drawn prospectively in our positivism—procrypticism registry-worldview/dimension faced with its postlogism-as-of-non-conviction like psychopathy and social psychopathy. This speaks of the very nature of all apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing with regards to the limits of a registry-worldview's/dimension's institutionalisation (whether base-institutionalisation, universalisation and positivism eliciting respectively the uninstitutionalised-thresholds of ununiversalisation, non-positivism/medievalism and procrypticism) across all the ontological-contiguity—of-the-human-institutionalisation-process wherein the prior/transcended/superseded registry-worldview's/dimension's reference-of-thought in its <formative>epistemic-totalising-self-

referencing-syncretising/circularity/interiorising/akrasiatic-drag (as metaphysics-of-presence: illusion-of-the-present/present-consciousness/mirage) is representing itself as ‘dialectical-thinking-or-postconverging–apriorising-psychologism and dialectically/contendingly in-phase’ whereas from the prospective institutionalisation registry-worldview’s/dimension’s reference-of-thought, as of the ontological-normalcy/postconvergence epistemic/notional_projective-perspective, it is ‘dementing-or-preconverging–apriorising-psychologism and dialectically/contendingly out-of-phase’. The reason for the ontologically defective <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is that all registry-worldviews/dimensions reference-of-thought ‘tend to convention’ and in so doing close the ‘existential frame-of-ontology/meaningfulness (which is the transcendental-enabling/sublimating)’ in their conventioning, and thus to the exclusion of prospective ontological profoundness of reference-of-thought. Thus all registry-worldviews/dimensions had hitherto been <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>).

However human existential closure of meaningfulness as conventioning doesn’t supersede but is rather superseded by existential ontological-veridicality, explaining the susceptibility of registry-worldviews/dimensions references-of-thought to be transcended/superseded with human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) expansion of ontological-depth as increasing ontological-completeness-of-reference-of-thought (or reducing relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought). Existential closure of meaningfulness as conventioning induces

psychically a registry-worldview/dimension ‘exclusive representing’ of itself as as ‘candored and straight’ with respect to meaningfulness-and-teleology whereas its transcending/superseding by the prospective registry-worldview/dimension exposes psychically that it is rather ‘decandored and oblongated’ with respect to more profound prospective/transcending/superseding meaningfulness-and-teleology. A further example will be say ‘the God of plane’ type of articulation wherein such a base-institutionalisation as of animistic social-setup which is not positivistic (not the case of non-positivistic as medieval) is psychically ‘candored and straight’ with itself in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag (its metaphysics-of-presence) and goes on articulating meaningfulness-and-teleology even in the new existential transcendental/superseding contextualisation in terms-as-of-axiomatic-construct of the doubly-prior/transcended/superseded base-institutionalisation/animistic registry-worldview/dimension. Given such a state of <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the notion of generating meaningfulness-and-teleology from the ontological-normalcy/postconvergence epistemic/notional_projective-perspective priorly implies a requisite psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, and so by maximalising-recomposuring-for-relative-ontological-completeness. While excluding any exercise of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity since the latter is only appropriate in the instance of prospective relative-ontological-completeness-of-reference-of-thought; as the base-institutionalisation (animistic) prior relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought puts into question the very first and absolute

 of a non-positivism/medievalism setup will seem 'deranged' from their perspective and their
 mental orientation will be geared to their traditional sense of meaning and living as absolutely
 defining, but then the 'center' had moved from their world (from non-positivistic as base-
 institutionalisation/animistic or medieval dementing-or-preconverging—apriorising-
 psychologism decenter) to the positivistic world (as dialectical-thinking-or-postconverging—
 apriorising-psychologism center). Likewise such a suprastructural articulation of our
 positivism—procrypticism relationship to its postlogism that includes psychopathy and social
 psychopathy will apparently not make any sense to our present but then ontologically our
 present is now decentered as dementing—apriorising/axiomatising/referencing-in-hollow-

 register-of-meaningfulness-and-teleology inclinations' that drove human registry-

worldview's/dimension's institutionalisations and resolved uninstitutionalised-thresholds from recurrent-utter-uninstitutionalisation to base-institutionalisation–ununiversalisation to universalisation–non-positivism/medievalism to positivism–procrypticism (as by reflex the temporal mental-disposition will rather be inclined to temporal (shortness-of-register-of-meaningfulness-and-teleology) extrication in any registry-worldview/dimension with no upholding of transcendental possibilities), to that extent the intemporal-disposition should rather construe/conceptualise its intemporal-disposition as the tip of human transcendental institutionalisation possibility and thus inherently that it transversally takes precedence over human temporal complexes (and such a 'transversality-of-disambiguated-apriorising/axiomatising/referencing confliction' resolved intemporally by prospective ontological-primemovers-totalitative-framework and secondnaturating. This actually explains the inevitable contrariety involved in the making of transcendental human progress involving a prior/transcended/superseded reference-of-thought and a prospective/transcending/superseding reference-of-thought; given the blunt fact that 'there is no untransvaluated–temporal-intemporality' and pretences of inevitability of human progress without need for intemporal projection are falsehoods 'arising as temporal/shortness-of-register-of-meaningfulness-and-teleology distraction' with respect to the institutionalising/intemporalising constraining effect of intemporal/longness-of-register-of-meaningfulness-and-teleology projections.). Critically, the notion of transcendence and transcendental-enabling/sublimating associated with intemporality/longness and institutionalisation/intemporalisation as of its very defining core is rather one of ontological-primemovers-totalitative-framework as it propounds the supersedingness/primacy/ascendency of intrinsic-reality as a the-Good/understanding/knowledge-driven construct over human 'good-naturedness'/impression-driven constructs as well as social-aggregation-enablers. The idea being that ontological-

primemovers-totalitative-framework is much more than a notion associated with the positivistic registry-worldview/dimension (as has naively been traditionally implied) but is a central heuristic drive in defining and structuring meaningfulness-and-teleology in all prior registry-worldviews as well however relatively inefficient; given that with corresponding shallow to limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal), as institutionalising ontological-primemovers-totalitative-framework successively induce more and more profound ‘mimetic-echoness to ontological-normalcy/postconvergence’ as of the full-potency of existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’. (Consider the case with ancient Egyptians and even ancient Greeks where their relations with their deities were closely related to the fortune they expected on an empirical basis whether with respect to such occurrences like droughts, warfare, etc. which technically speaking is a rational allocation as ontological-primemovers-totalitative-framework of meaningfulness-and-teleology going by their limited-mentation-capacity-(as of relative constitutedness towards relative conflation)). Transcendence and transcendental-enabling/sublimating as so construed is more than just a vague notion of dialecticism but one that recognises on ‘an effective reality basis that human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)’ implies more and more profound reconstruals/reconceptualisations (<formative>epistemic-totalising–renewing-realisation/re-perception/re-thought) inducing transformative implications with respect to meaningfulness-and-teleology as transcendence; in contrast to mere abstract dialecticism speaking thus of human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence. As knowledge conception as contrasted to sovereign conception, ‘transcendence

and transcendental-enabling/sublimating doesn't recognise any human discreet primacy with respect to intrinsic-reality/ontological-veridicality' but rather intrinsic-reality is the inherent purveyor of pertinence and primacy. For instance, we don't have a choice in deciding that gravity is about 9.8 m/s^2 on earth since intrinsic-reality imposes that idea and the corresponding knowledge construction and organisation where intrinsic-reality is ascendant is rather based on an 'intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating. This is not to be confused with sovereign constructions and organisations driven by human sovereign choices such as political choices or marketing choices or other sovereign choices based on practices and habits. The latter are social-scientific (besides the previous notion of social-scientific referring to intrinsic social reality transcendental-enabling/sublimating), with respect to transcendental-enabling/sublimating construals/conceptualisations only as of existence-in-its-mimetic-echoiness as inclusive of the human condition, i.e., human existential sovereign choices of meaningfulness-and-teleology as ontological construals 'not in terms of the inherent intrinsic-reality/ontological-veridicality of the meaningfulness-and-teleology itself' but 'rather as of the veracity/ontological-pertinence of the reality of the human sovereign choices as of themselves as humans values independent of their inherent intrinsic-reality/ontological-veridicality as ontologically construing the reality of human condition', and so with respect to historicity/ontological-eventfulness/ontological-aesthetic-tracing, politicisation and other social choices like moralisation, cultural value, economic value, etc. This distinction is critical because very often sovereign choices as conventions will tend to be acted upon as if these were transcendental knowledge of intrinsic-reality/ontology construal of the social in a wrong equivalence, and further because the transcendental-enabling/sublimating as of the intrinsic-reality/ontology construal of the social is more fundamental as the tool for 'creating/inventing-and-destroying/deconstructing conventions'

for more and more profound grasp of intrinsic-reality/superseding-oneness-of-ontology as of human subpotent knowledge. Sovereign constructs can as such be construed beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> to stifle the possibility of intrinsic-reality/ontology of the social, construed as ontology/ontological-veridicality transcendental-enabling/sublimating knowledge, from arising. This insight explains why all deferential-formalisation-transference are only of pertinence as they justify and are derived from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating conceptualisations, and collapse when they fail that test. For instance, notions such as arguments from authority are useful in ensuring social efficacy but when authority is demonstrated as relatively fallacious, it then has no pretence to the sanctity of not being undermined. Ultimately, the veridical nature of knowledge beyond ‘institutionalised-being-and-craft’ (as established by prior transcendence) to prospective transcendence is not as an exercise of ‘logical mere convincing’ as of social-aggregation-enabling about what is knowledge and appropriate, but rather as a critical exercise of channelling of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as secondnaturing institutionalisation percolation-channelling to elicit the necessary positive-opportunism for prospective institutionalisation as skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) towards the intemporal/longness-of-register-of-meaningfulness. The fact is as construed by the Galileos, Corpernicus, Diderots and others of the world, transcendental knowledge (as relatively ‘consecrated’ by relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) necessarily carries a ‘cynicism-of-grandeur-as-of-effective-intemporal-solipsistic-commitment’ to deal with the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—

imbued-temporal-to-intemporal-dispositions—existentialism-form-factor (and so as of ‘circular-complexification’/perpetual-reinstitutionalisation as a result of the same human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor mental-dispositions across all the successive ontological-contiguity—of-the-human-institutionalisation-process registry-worldviews/dimensions). In the bigger scheme of things, as of the ‘deepest phenomenological transcendental-point-of-departure handle as of the notional-conflatedness of notional-deprocrypticism deneuterising—referentialism’ reflected by metaphysics-of-absence in the conception of meaningfulness-and-teleology ontological-performance as of the transcendental implications in reflecting the ontological-contiguity—of-the-human-institutionalisation-process of knowledge-constructs/theories/intersolipsistic-intercessory-notions/notional-referential-notions/articulations/virtue, we can appreciate that the successive registry-worldviews/dimensions conventioning are increasingly ontologically-driven in their value construct as it is more and more profound ontological-veridicality that enables human transcendence and the ontological-contiguity—of-the-human-institutionalisation-process in the first place; with the deprocrypticism institutionalisation conventioning supposedly attaining absolute ontological grounding. The insight here is that the relative pure ontology-drive of a Socrates philosophical clairvoyance superseding Athenian society conventioning limits but then with the latter perceiving in <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Socrates is paradoxically construed as ontologically-impertinent and thus accused of heresy. Such an argument can also be extended to say a Copernicus or a Galileo whose relative pure-ontology drive advocating a heliocentric universe in medieval society comes against medieval society scholastics dogmatism conventioning limits but then with the

latter perceiving in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as absolutely ontological, Copernicus and Galileo are paradoxically construed as ontologically-impertinent. This highlights that a registry-worldview’s/dimension’s construes in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag its conventioning limits as being the absolute ontological determinant of meaningfulness-and-teleology ontological-performance, and that meaningfulness-and-teleology as of relative pure ontology superseding it is paradoxically construed as ontologically-impertinent. This is relevant with regards to the ‘intellectual projection’ choices made as of their transformative implications on society; wherein such highly unconventional thinkers like Diderot of more dramatic social transformation implications are actually less appreciated as of the <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of their epochal society conventioning limits naively construed by mental-reflex as the absolute ontological determinant of meaningfulness-and-teleology ontological-performance, over similar thinkers whose thought are more forthcoming towards such societal conventioning limits. As of relevance to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought with regards to our positivism–procrypticism, such a phenomenological transcendental-point-of-departure handle reflected by metaphysics-of-absence for the conception of meaningfulness-and-teleology ontological-performance is necessarily ‘suspicious’ of our presence society ‘conventioning-limits’ in its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> naively construed <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex as the absolute ontological

determinant of meaningfulness-and-teleology ontological-performance, with regards to its capacity of appreciating prospective relatively profound pure-ontology as herein implied that paradigmatically/structurally supposedly supersedes our positivism–procrypticism registry-worldview’s/dimension’s institutionalisation reference-of-thought. This explains why fundamentally most human transcendental ideas of progress have been outlier/unenframed ideas which ‘proponents ultimate purpose (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>)’ weren’t fundamentally a ‘direct convincing’ of humans exercise as of social-aggregation-enabling but rather in projecting a big picture of the-Good/understanding/knowledge-drive as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, however unintelligible, as a prospective institutional percolation-channelling exercise as validated by ultimate ontological-primemovers-totalitative-framework with subsequent corresponding formalisation and secondnaturing. The point of this construal/conceptualisation is inevitably equally along the same lines. In fact, it can be further contended going by the reality of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor that ‘human knowledge is necessarily a secondnaturing construction’ and not an ‘intemporal disposition construction’ as the latter will wrongly imply that we are only intemporal-as-longness-of-register-of-meaningfulness-and-teleology, which is obviously false since we are temporal-to-intemporal by our mental-disposition and our virtue with the Deprocrypticism registry-worldview/dimension institutionalisation is actually to understand (as knowledge/the-Good) this and paradoxically be superseding in that respect by a pivoting/decentering psyche and institutionalisation, and not an artificial projection that is not real and hence will be ineffective and circular as apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. Thus

human knowledge is a dynamic secondnature construct in upholding-and-vouching for the intemporal while preempting of the temporal, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>.

[The notion of ‘beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>’ as used herein goes beyond the notions of ‘consciously’ or ‘unconsciously’ as we normally understand them, in the sense that ‘beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>’ speaks of the mental state as of apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing by its relative-ontological-incompleteness-of-reference-of-thought at the point of uninstitutionalised/unintemporalised/solipsistic/recomposuring/animality-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation (also referred to as ‘uninstitutionalised-threshold’) where the mental-disposition/mindset/reference-of-thought is rather emphasised as being in ‘a state of relative incapacity’ rather than one of full-conscious-capacity but neither full-unconscious-capacity mental-disposition. Thus unlike just ‘conscious’ or ‘unconscious’, the notion of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> implies ‘conscious’ and/or ‘unconscious’ as of apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing at the uninstitutionalised-threshold of a registry-worldview/dimension whether with regards to retrospective or prospective transcendental analysis. For instance say in a non-positivistic as medieval or animistic/base-institutionalisation social-setup someone accused another of sorcery. It is hardly the case that we can absolutely say they committed a conscious immoral act with their accusation of sorcery since the ontological-completeness-of-reference-of-thought as knowledge-framework available to them doesn’t enable their full conscious appraisal of such a judgment call as they are in an insecure-certitude-by-incertitude-and-virtue-by-vice-mental-flux with notions-and-

accusations-of-sorcery. However, supposed they adopted such an attitude not only by such ignorance but rather affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, then they are effectively relatively conscious with respect to their action as a dishonest/deceitful/immoral act even though beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. Of course, where supposed someone from a positivistic social-setup found themselves in such a non-positivistic social-setup and equally proffered such an accusation of sorcery, then their conscious immorality is fully engaged as being in full-conscious-capacity with respect to their deception going by their positivistic prospective relative-ontological-completeness-of-reference-of-thought that supersedes superstitions including notions-and-accusations-of-sorcery. By extension, psychopathic/postlogical induced deception can only be construed as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when eliciting ignorance (as of 'lack of constraining social universal-transparency of the psychopath's mental-disposition of postlogism-(perverted-outcome-sought-precedes-existentially-veridical-logical-dueness)), and while construed as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as when eliciting affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, is not disculpating. Ultimately, going by the very decisiveness of relative-ontological-incompleteness-of-reference-of-thought, as it leads to 'lack of constraining social universal-transparency, associated with the successive uninstitutionalised-threshold states, the notion of 'human beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>' is actually in the bigger picture the larger determinant of manifest human vices-and-impediments as of virtue-as-ontology conceptualisation, speaking

fundamentally of the specific registry-worldviews/dimensions ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>’ inherent with the state of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and procrypticism. Whereas the notion of human conscious vices-and-impediments as of ‘defect of logical-processing-or-logical-implication’ or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance is mostly able to arise incidentally ‘within the scope’ of the registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>’ as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of the registry-worldview/dimension uninstitutionalised-threshold; as social universal-transparency is a strong inherent deterrent of human temporality/shortness and enabler of human intemporality/longness (explaining why knowledge is truly virtue), even though at the uninstitutionalised-threshold of such knowledge-as-virtue arises the temporal-dispositions denaturing its reference-of-thought–categorical-imperatives/axioms/registry-teleology for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. This nature of ‘registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>’ as induced beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as of registry-worldview/dimension uninstitutionalised-threshold explains why fundamentally issues of reference-of-thought defect or perversion-of-reference-of-thought point more decisively/fundamentally as to their resolution as aetiologisation/ontological-escalation towards the need for ontological-completeness-of-reference-of-thought as to the successive registry-worldviews/dimensions institutionalisations-in-superseding-their-corresponding-uninstitutionalisation with regards to

base-institutionalisation-superseding-recurrent-utter-uninstitutionalisation, universalisation-superseding-ununiversalisation, positivism-superseding-non-positivism/medievalism and prospectively deprocrypticism-superseding-procrypticism. Thus structurally/paradigmatically, this is the supratransversality—apriorising/axiomatising/referencing associated with intemporality/longness and construed as ‘intemporality-asymmetric-subsumption-of-temporality’ since it is ‘not equable’ with the relative shallowness as temporal/shortness-of-register-of-meaningfulness-and-teleology in intradimensional construal of meaningfulness-and-teleology but projects directly in grasping fundamentally the issue of relative-ontological-incompleteness-of-reference-of-thought and the corresponding virtue-as-ontology implications; as insightfully, an arising issue of accusation of sorcery in non-positivism as medieval or animistic setting is more fundamentally/structurally/paradigmatically as of aetiologisation/ontological-escalation a question of their relative-ontological-incompleteness-of-reference-of-thought as it endemises/enculturates such notions as its vices-and-impediments and the same approach applies to our state of positivism—procrypticism involving procrypticism/disjointedness-as-of-reference-of-thought-as-misappropriated-meaningfulness-and-teleology as it endemises/enculturates perversion-of-reference-of-thought of positivistic meaningfulness as vices-and-impediments requiring its preemption by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation.]

This effective realism as of rational-realism is the requisite insight in understanding how supposedly outlier/unenframed transcendental notions of intemporality/longness in successive epochs become dominant notions of human knowledge and institutionalisation by giving man access to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating. Further along the rational-realism line of thinking, the fact is

paradoxically that as more cuttingly demonstrated with ‘cultural diffusion driven transcendence’, the mechanism of transcendence is not a simplistic transference from a more ontologically-completeness-of-reference-of-thought registry-worldview to a lesser one. Surprisingly, the lesser one is actually in the position of determination in the contention for transcendence, and it is the competitiveness of ideas that are more ontologically-complete and ontologically inducing untenability/internal-contradiction/internal-incoherence/institutional-constraining and inconsistency that initially leads to the <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the path of its transcendence; as notions and ideas of the prospective reference-of-thought gradually creep over those of the prior reference-of-thought. (This should be distinguish from the case of the transference of ideas where there is a common reference-of-thought, for instance, the-theory-of-relativity and quantum-mechanics are spectacular developments from Newtonian physics but they still share the same common reference-of-thought of positivism/rational-empiricism enabling the new theories to be quickly adopted within the mechanism of the common reference-of-thought in terms-as-of-axiomatic-construct of psychical and institutional orientation). Consider in this regard the case in an animistic social-setup wherein failure to be cured from the traditional healer tempts individuals in that setup as a matter of life and death to approach the newcomers of a positivistic registry-worldview/dimension, and with a successful cure sowing doubts about animistic tradition relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, and with various other such positivistic outcomes inducing in the middle to long run further <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of thought; as explanations for the cure will still be advanced in terms-as-of-axiomatic-construct of the old reference-of-thought (giving human natural predisposition to social-aggregation-enabling) but increasingly ridding

such explanations of their credible substance until there is critical transference into the new registry-worldview's/dimension's reference-of-thought. <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is actually the process by which transcendental meaningfulness, as of prospective/transcending/superseding registry-worldview reference-of-thought, is institutionalised; underlying the essential contiguity of human mental-disposition across all registry-worldviews/dimensions. This equally highlights a superficiality-of-inherent-sanctimony displayed by succeeding institutional-cumulations/institutional-recomposures, which may wrongly imply being out of the scope of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and thus fundamentally undermine ontologically-veridical analysis where exceptionalism is adhered to instead of the mediocrity principle. This quite sums up the <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mechanism by which outlier/unenframed transcendental ideas (transcendental in terms-as-of-axiomatic-construct of putting in question the prior <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving, beyond just novel ideas within the same reference-of-thought), whether by diffusion or internal transformation, come to be dominant when ontologically pertinent; as even the ‘moulting’ intellectual/emancipator, beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, is coming from a point of habitation with prior traditional ideas (consider the case of Newton with alchemic notions), wherein acceptance of the new ideas they are purporting only comes after an unconscious process of suspicion and denial of such nagging new ideas until they arrive at a firm point of conviction before admitting to themselves the possible veracity/ontological-pertinence of the ideas, and so as their very own <formative>epistemic-totalising–self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag which makes it unsurprising that even socially <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag is a necessary process for the ultimate acceptance of prospective ontological-primemovers-totalitative-framework as this subsumes-as-supplant-(as-of-the-more-profound-construal-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) the prior ontological-primemovers-totalitative-framework. It is hardly the case of just a direct intemporal sense of meaningfulness-and-teleology transference of transcendental notions. The bigger point being that the construal/conceptualisation of transcendental ideas is not necessarily validated by their immediate recognition, a notion the would-be intellectuals/emancipators should be of a ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’, but rather as providing fodder in the competitive ideas assuring human progress with emphasis rather with respect to cross-generational import (prospective-institutionalisation <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure). It is doubtful that Galileo or Diderot and others of their inclination were naïve to think that their initiatives will immediately lead to a positivistic transformation of society but they certainly had a cynical sense of cross-generational purposefulness (whether beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>). This equally explains why in all epochs, however different the nature, there is an inherent temporal mental-disposition abhorrence of transcendental ideas as putting into question the present and present interests

(for instance, even the industrial revolution when considered as actually generating material wealth was poorly perceived by many trade guilds). It is only the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘dialectical-thinking-or-postconverging-reference-of-thought in relative-ontological-completeness as depth-of-thought’) that allows for ‘a relative teleological-differentiation/scission/variance/disambiguation of references-of-thought’ of what the appropriateness-of-reference-of-thought-as-of-conflatedness (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) and the perversion-of-reference-of-thought (defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) truly are, and the implications thereof with regards to meaningfulness-and-teleology (purposeful architectural aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements). Without the notion of ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘dialectical-thinking-or-postconverging-reference-of-thought in relative-ontological-completeness as depth-of-thought’, so-undertaken as of maximalising-recomposuring-for-relative-ontological-completeness), the new logical-processing-or-logical-

implicitation as ‘conviction/prelogical re-engaging reflex’ (as existentially-veridical-logical-
 dueness-precedes-logical-outcome-arrived-at) will simply skip the notion of any perversion-
 of-reference-of-thought and ‘prelogism-as-of-conviction re-engaging reflex’ (undertaken as
 elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-
 outside-existential-contextualising-contiguity) inducing a ‘wrongly-projected
 decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-
 ontologically-flawed-construal (which is rather ‘a prior dementing—
 apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing
 reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in
 grasping existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-
 ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of
 existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-
 that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’), thus
 structurally upholding the perversion-of-reference-of-thought associated with postlogism and
 its derived implications as conjugated-postlogism whether as ignorance (unconsciously),
 affordability (expediently) or opportunism/exacerbation/social-chainism-or-social-
 discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-
 endemisation (consciously); and with the corresponding existential
 circularity/recurrence/repetition/repeatability of the postlogism and conjugated mental-
 projections implied, involving temporality/shortness in denaturing postlogical-
 backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ towards
 ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-
 enabling/sublimating’, and so to the point that it is upholding postlogism and conjugated-
 postlogism as socially-functional-and-accordant. On the other hand, intemporality-as-
 longness-of-register-of-meaningfulness-and-teleology aetiologisation/ontological-escalation,

can supersede the above perversion-of-reference-of-thought phenomena as of its derived vices-and-impediments implications, as veridically validated by intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating so-divulged by the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the prospective ‘dialectical-thinking-or-postconverging-reference-of-thought in relative-ontological-completeness as depth-of-thought’) enabling social universal-transparency-or-understanding-of-ontological-primemovers-totalitative-framework-of-underlying-phenomena superseding grasp of social vices-and-impediments as of the given transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic, by its psychoanalytic-unshackling/memetic-reordering/institutional-recomposure or social pivoting/decentering to reconstrue/reconceptualise meaningfulness-and-teleology as of prospective relative-ontological-completeness. The difference between postlogism (postlogism-as-of-non-conviction-⟨perverted-outcome-sought-precedes-existentially-veridical-logical-dueness⟩) and prelogism (prelogism-as-of-conviction-⟨existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at⟩) can further be developed as such. Supposed there is a given context where the solution to additions of the aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (meaningfulness-and-teleology) taken involves rewards depending on how big is the number with the Donor not in a position to pay particular attention to the exact sums to be resolved if a character is in a position to fiddle with the implied sum to be resolved like

deliberately using the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements as perversion-of-reference-of-thought (more like the ‘covert negative vista’ of the hidden-nature/unavailable social universal-transparency of psychopathy especially at adulthood). Now supposed to resolve a ‘purposeful measurement’ (meaningfulness-and-teleology), A appropriately uses a correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements (appropriateness-of-reference-of-thought-as-of-conflatedness) and find out that the numbers measured and to be added are $5 + 2$ and is trying its best thereafter to resolve the sum but fails in its logical-processing-or-logical-implication and gives 9 as the answer, this doesn’t void logically re-engaging with A with respect to other sums in terms of aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements to be undertaken (as to logical-processing-or-logical-implication) so long as A learns and understands the addition principle well. This instance of A’s reference-of-thought where it is not perverted (correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) but its logical-processing-or-logical-implication has failed because of A’s genuine incapacity for addition calculations is part and parcel (whether successful or not) of prelogism. Now supposed B is in a position and has the mental-disposition to covertly add 1 to any of the numbers measured and to be involved in the calculations to be undertaken before then calculating and so as to measurement (so-construed as use of a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements speaking of B’s perversion-of-reference-of-thought) such that its calculations as aposteriorising/logicising/deriving/intelligising/measuring—purpose—of-obtained-measurements (meaningfulness-and-teleology) is undertaken erroneously rather implying $6 +$

3 instead of $5 + 2$ (with respect to the same correct apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as measurement undertaken by A for subsequent calculation as $5 + 2$) and then resolved correctly to be 9 as well just as A did out of wrong calculation, fundamentally the idea of re-engaging with B for solutions of additions (as to logical-processing-or-logical-implication) is flawed since B is not committed due to its perversion-of-reference-of-thought (incorrect apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements) to genuinely strive for correct answers (ontological-veridicality), and this speaks of the possibility of B denaturing an infinite number of additional calculations (to the extent where it is ‘socially-functional-and-accordant’ to do so, i.e. functionally possible in the social context). Unlike the case with A having to do with A’s addition ability but whose reference-of-thought is not perverted, such that A’s defect is a ‘defect of logical-processing-or-logical-implication’ or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance, on the other hand B’s defect is a Being/ontological/existential–defect, i.e., the teleological disposition of B inherently carries the defect (to the point that B can be socially-functional-and-accordant while committing the defect, i.e. where the veridical notion/axiomatic-construct of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument is not universally transparent as a ‘negative covert vista’). Now supposed we are in a social context where C, D, E, F are to calculate additions as well but from the solutions arrived at by A and B. In the instance where C is ignorant of B’s Being/ontological/existential–defect, there is a possibility of re-engaging with C but only where B’s condition is exposed to it, but where the characters are not that ignorant but in any of the mental states (implying undermining the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating of normal

additionality with such a social-aggregation-enabler situation) and so as of expediency or
 affordability for D, opportunism for E, exacerbation for F, social-chainism/social-
 discomfiture/negative-social-aggregation for B, C (where B's condition is not exposed to it),
 D, E and F or temporal-endemisation/temporal-enculturation of B's condition for B, C (where
 B's condition is not exposed to it), D, E and F. It should be noted that C (where B's condition
 is not exposed to it), D, E and F technically speaking have a 'derived-
 Being/ontological/existential-defect' as well, and so to the point that they consciously
 perceive it can be socially-functional-and-accordant to them wherein lack of 'social
 universal-transparency which protects the internal-coherence of meaning for virtue' enables
 their own 'covert negative vista' however ad hoc as conjugated-postlogism i.e. as to the
 conjugated-ignorance of C (where B's condition is not exposed to it), conjugated-
 affordability of D, conjugated-opportunism of E, conjugated-exacerbation of F, and
 conjugated-social-chainism of B, C (where B's condition is not exposed it) D, E and F, and
 conjugated-temporal-enculturation to B's condition of B, C (where B's condition is not
 exposed to it), D, E and F; and they cannot therefore be re-engaged logically with (as of
 'prelogism-as-of-conviction re-engaging reflex') on the basis that they will relay in
 circularity/recurrence/repetition/repeatability the defective

categorical-imperatives/axioms/registry-teleology to enable their conjugated-postlogism, where it is socially-functional-and-accordant to do so. It should be qualified that postlogism (psychopathy) and conjugated-postlogism (as social psychopathy) are enabled, endemised and enculturated by the possibility of the phenomena being socially-functional-and-accordant without negative consequences to its agents so long as it is not socially universally transparent, and so eliciting the respective temporality/shortness over the intemporality/longness of adhering to proper apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (ontologically-veridical meaningfulness-and-teleology). Further more than postlogism and conjugated-postlogism being just passively socially-functional-and-accordant, a more active socially-functional-and-accordant framework is often induced by extrinsic-attribution on the token of eliciting ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’. This is highly specific and circumscribe for efficacy-sake from accrued involvement with childhood psychopathy (with regards to adult psychopathy or adult postlogism) wherein achieving the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance threshold enabling postlogism/psychopathy and/or conjugated-postlogism/social-psychopathy involves an insight about how ‘lack of constraining social universal-transparency of perversion-and-derived-perversion-of-reference-of-thought determines how prelogism-as-of-conviction minds will act as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. Besides and critically as well, in addition to this inherently induced faulty-mentation-procedure-deception involved with the state of postlogism-as-of-non-conviction and its protraction into conjugated-postlogism/social-psychopathy, postlogism and conjugated-postlogism is equally and decisively sustained socially by the accompanying

inherent disposition to uphold the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance thereafter as of mechanical-knowledge (given that inevitably social confliction is bound to arise in the social-setup with the phenomena of postlogism/psychopathy and conjugated-postlogism/social-psychopathy), and as the mere recurrence of such social conflictions associated with the postlogism/psychopathy and conjugated-postlogism/social-psychopathy characters might ultimately jeopardise the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance (even when other prelogism-as-of-conviction minds do lack a social universal-transparency of the veridical postlogism/psychopathy and conjugated-postlogism/social-psychopathy underlying phenomena of perversion-and-derived-perversion-of-reference-of-thought as perverted-outcome-sought-precedes-existentially-veridical-logical-dueness). In this regard, prelogism-as-of-conviction minds generally adopt a generalising approach for determining 'the overall registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance experiences and recounts with any specific individual' including psychopathic or conjugated-postlogism, and in so doing construe dichotomously the said individual's as adhering or not-adhering to the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance (and so specifically judged rather in various shades of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance implied mechanical-knowledge), as entails with associating or not associating the said individual in given occasions or in specifically given aspects of life depending on such experiences and recounts. With this in mind (based on its dormant childhood development experience), the adult psychopathy personality arising from its growth experience (and correspondingly the protraction into conjugated-postlogism behaviour in this regard), wherein its childhood psychopathy failing the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance

induced a shift in behaviour such that in lieu of ‘such preposterous acts-and/or-narratives of vicious postlogism-as-of-non-conviction’ at childhood, the childhood psychopathy comes to grasp that ‘acts-and/or-narratives of vicious postlogism-as-of-non-conviction’ as of ‘compensating directed pseudo-virtue acts-and/or-narratives’ will lead to relative social overlooking of the ‘postlogism-as-of-non-conviction vicious acts-and/or-narratives’; and so cultivating its deterministic ontological-primemovers-totalitative-framework faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’. For instance, as highlighted further below where John in a ‘dereifying act’ spills water on a chair, his ‘misconception of meaningfulness-and-virtue’ involving such a mental-disposition of ‘compensating directed pseudo-virtue acts-and/or-narratives’ may be to do some house chore but rather in ‘crude behaviour manner’ that reveals an ad-hoc quest to re-establish the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance with others. The adult psychopathy personality development arising from this fundamental faulty-mentation-procedure-deception ‘misconception of meaningfulness-and-virtue’ at childhood, further evolves a long way with a constantly readjustment process to ultimately enable the credulity for the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance at adult psychopathy, such that at adulthood social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of its underlying postlogism-as-of-non-conviction often gets lost enabling its faulty-mentation-procedure-deception at adulthood. By derivation the subsequently induced conjugated-postlogism/social-psychopathy, as of human temporal-dispositions will exploit unconsciously (as ignorance), expediently (as affordability) or consciously (as opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) the lack of

such social universal-transparency of the psychopathic/postlogism perversion-of-reference-of-thought, and thus its own derived-perversion-of-reference-of-thought; wherein even in the case of occasional elucidation of specific postlogism-set-of-narratives-and-acts of the psychopath as being rather of non-conviction and dementing-or-preconverging-apriorising-psychologism, this does not necessarily transform the mental-dispositions of temporal-dispositions in their conjugation to psychopathic postlogism as conjugated-postlogism since the induced-deception is fundamentally of reference-of-thought-elements/registry-elements (implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), with the conjugated-postlogism interlocutor as of ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’, even when they recognised the specific postlogism-set-of-narratives-and-acts and are rather inclined to contend on the basis of the same flawed and deceptively-induced reference-of-thought-elements/registry-elements (whether unconsciously as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as conjugated-ignorance or by expediency as conjugated-affordability or consciously as conjugated-opportunism/conjugated-exacerbation/conjugated-social-chainism-or-social-discomfiture-or-negative-social-aggregation/conjugated-temporal-enculturation-or-temporal-endemisation, given the ‘lack of constraining social universal-transparency) without reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology to the ontological implications of the appropriate existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context reference-of-thought-elements/registry-elements and thus explaining derived-perversion-of-reference-of-thought arises, in addition to the more fundamental issue of relative-ontological-incompleteness-of-reference-of-thought as

of prospective procrypticism uninstitutionalisation. In other words, ‘psychopathic/postlogism and social-psychopathic/conjugated-postlogism vicious acts-and/or-narratives’ as of perversion-and-derived-perversion-of-reference-of-thought take the form of mental ‘misconception of meaningfulness-and-virtue’ that such ‘postlogism-as-of-non-conviction vicious acts-and/or-narratives’ based on their systematic combination with ‘compensating directed pseudo-virtue acts-and/or-narratives’ directed to relevant significant others will enable the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance, by such a compensation mechanism. With this faulty-mentation-procedure-deception, this is thus supposed to override the ‘postlogism-as-of-non-conviction vicious acts-and/or-narratives’ as of an association between the ‘postlogism-as-of-non-conviction vicious acts-and/or-narratives’, and ‘compensating directed pseudo-virtue acts-and/or-narratives’ towards relevant significant others, wherein that compensating is not a trite equivalence but rather involves ‘high-proportionality of overcompensating directed pseudo-virtue acts-and/or-narratives’ relative to ‘specific or given postlogism-as-of-non-conviction vicious acts-and/or-narratives’ in order to enable the postlogism/psychopathic manifestation achieve the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance (with such overcompensation involving sought after overall preceding and subsequent sense of social allegiance with relevant significant others and then corresponding ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ towards relevant significant others, whether relevant individuals and/or relevant social network, as overall ‘social investment’ that should allow its instigated ‘postlogism-as-of-non-conviction vicious acts-and/or-narratives’ with respect to another individual or situation, as the occasion may arise, to be overlooked/absolved/exonerated/exculpated socially). This faulty-mentation-procedure-deception mental-disposition at adulthood psychopathy is more profound than just an ad hoc trite association between committing a given vicious act and

initiating a given limited ‘compensating directed pseudo-virtue act-and/or-narrative’ in compensation as is the case at childhood psychopathy, since the adult psychopath discovers at that stage that such triteness of association is relatively inefficient for attaining the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance (but rather requires a more profound association of the ‘postlogism-as-of-non-conviction vicious acts-and/or-narratives’ and ‘compensating directed pseudo-virtue acts-and/or-narratives’). As then during its childhood the ‘compensating directed pseudo-virtue acts-and/or-narratives’ are relatively universally transparent socially for what these truly are, as rather being associated with its faulty-mentation-procedure-deception mental-disposition of perversion-of-reference-of-thought, ‘than just merely or confused with innocent virtue acts-and/or-narratives’; and as ‘interlocutors in prelogism-as-of-conviction come to grasp the deliberativeness/consciousness of the artificial and fallacious systematic eliciting of ‘compensating directed pseudo-virtue acts-and/or-narratives’ as a crude-trite-compensating mechanism for its urge to commit ‘postlogism-as-of-non-conviction vicious acts-and/or-narratives’ and is thus socially-dysfunctional at childhood. Whereas at adulthood psychopathy the overcompensating involves a surreptitious upending/undermining/blurring of this underlying insight that the ‘high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives’ is rather as of a personality development derived-from and connected-with such fallacious crude-trite-compensating at childhood; such that it is then adopted and relayed as contending thus wrongly validating its apriorising-reference-of-thought-elements/apriorising-registry-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology (which are actually outside existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) as first-level deception, and thus enabling the infinite possibilities of second-level

deception from their logical-processing-or-logical-implication. This underlying postlogism/psychopathic faulty-mentation-procedure-deception mental-disposition and its protraction in conjugated-postlogism/social-psychopathy involving deliberative/conscious or unconscious (conjugated-ignorance) artificial, fallacious and surreptitious systematic eliciting of 'high-proportionality overcompensating directed pseudo-virtue acts-and/or-narratives' systematically enabling the possibility for committing 'postlogism-as-of-non-conviction vicious acts-and/or-narratives' with respect to another individual or situation, as the occasion may arise, while ensuring social overlooking/absolving/exonerating/exculpating is a central enculturating/endemising mechanism at the registry-worldview/dimension-level (beyond the individuation-level) of human temporalities-drives to adhere to the <formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives)-<of-the-prior-registry-worldview's/dimension's-institutionalisation-reference-of-thought—categorical-imperatives/axioms/registry-teleology> (failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence). Further, at the confluence of postlogism/psychopathy and conjugated-postlogism/social-psychopathy with respect to ontologically-veridical meaningfulness-and-teleology arises disjointedness-as-of-reference-of-thought; inherent in temporality/shortness and as of postlogism and conjugated-postlogism mental-dispositions (shallowness-of-thought construed as of temporal-extricator reasoning as well as incoherent and awkwardly implied universal projections, but which actually speaks of <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag explaining why its 'universal projection lip-servicing nature or inductive limitation fails the test of a true principle', basically highlighting a dynamic reference-of-thought relationship with meaningfulness-and-teleology

as of poor performance of supposed intemporal-projection but actually in effect pseudointemporality-as-temporality and speaks, more specifically with regards to psychopathic/postlogical meaningfulness-and-teleology, rather as of relatively ‘mere-rhyming mental-disposition’ emphasising <formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives)-<of-the-prior-registry-worldview’s/dimension’s-institutionalisation-reference-of-thought—categorical-imperatives/axioms/registry-teleology> in ‘toning-triggering/snappings-of-impression/tenseness-of-interlocutory-engagement-(easily copied with conjugated-postlogism at an intuitive-level)’-falsely-projecting-profoundness-of-thought more like vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging with respect to ontologically-veridical meaningfulness-and-teleology given psychopathic slantedness ‘deception-of-successively-shifting-or-non-cohering-narratives-and-acts/deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives/deception-by-concurrently-false-assumptive-dementing-or-preconverging—apriorising-psychologism’), over an intemporal/ontological profoundness-of-thought (as of the ‘intemporal synopsis-ing-depth-of-meaningfulness-and-teleology/supratransversality—apriorising/axiomatising/referencing as-to-<formative>epistemic-totalising—social-context-construed-conflatedness’ of aetiologisation/ontological-escalation driven by ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness emphasising reference-of-thought—categorical-imperatives/axioms/registry-teleology as rather about intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence); and interestingly such a contrastive insight (of temporal-to-intemporal contrastive-synopsis-ing-depths-of-meaningfulness-and-teleology) should be central to an elucidative storied-construct/ontologically-valid-narration of temporal-to-intemporal-dispositions

disambiguation. The very ‘intemporal synopsis-ing-depth-of-meaningfulness-and-teleology’ required for ‘intemporal mental-projections’ or ‘ontological construals’ outside institutionalisation framework as enabled by deferential-formalisation-transference render them highly susceptible to denaturing in uninstitutionalised-threshold framework as with regards to the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) where these face in the same space of temporal-to-intemporal the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance thresholds ‘temporal-distractively-aligned synopsis-ing-depth-of-meaningfulness-and-teleology’-as-shallowness-of-thought/subtransversality—apriorising/axiomatising/referencing and with the ‘lack of constraining social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context meaning that same-terms-of-expressions/seemingly-same-implied-meaningfulness are undisambiguated, and available to postlogical/psychopathic, temporal-dispositions in conjugated-postlogism as well as the intemporal-disposition in conviction. The relative transparency of childhood psychopathy perversion-of-reference-of-thought (as highlighted with the case of John in a ‘dereifying act’ spilling water on a chair in conjunction with its psychopathic perverted compensation mental-disposition as a basis for concurrently instigating postlogism-as-of-non-conviction so long as it can be socially-functional-and-accordant in satisfying its faulty-mentation-procedure-deception-or-urge by vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging) is highly revealing of the perverted nature of ‘temporal psychopathic/postlogical synopsis-ing-depth-of-meaningfulness-and-teleology’, and as it develops into adult psychopathy where social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-

completeness-of-reference-of-thought-devolving-as-of-instantiative-context gets lost and its perversion-of-reference-of-thought is related to as appropriateness-of-reference-of-thought-as-of-conflatedness in ‘prelogism-as-of-conviction rather than as postlogism-as-of-non-conviction’ as the adult psychopath undergoes maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction (further elucidated elsewhere) inducing the further protraction in conjugated-postlogism/social-psychopathy of derived-perversion-of-reference-of-thought ‘temporal-synopsising-depth-of-meaningfulness-and-teleology’-as-shallowness-of-thought in derived-vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>). This at the institutional-level, a framework as the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) without social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as so reflected by its relative-ontological-incompleteness-of-reference-of-thought (disjointedness-as-of-reference-of-thought) is bound to induce defective/perverted ‘temporal-distractively-aligned synopsising-depth of meaningfulness-and-teleology’ relative to intemporal/ontological and virtue constructs.

 reference-of-thought-devolving-as-of-instantiative-context as of relative-ontological-

incompleteness-of-reference-of-thought such that mental states with respect to postlogisms and conjugated-postlogisms as of specific registry-worldviews/dimensions reveal the reality of the registry-worldview/dimension relative-ontological-incompleteness-of-reference-of-thought, and more specifically relevant to the phenomenon of psychopathy and social psychopathy it points to disjointedness-as-of-reference-of-thought associated with procrypticism relative-ontological-incompleteness-of-reference-of-thought. It should be noted as well that the notion of overlooking and resetting (as the fact is the conscious manifestation of perversion-and-derived-perversion-of-reference-of-thought doesn't truly qualify for such a notion of overlooking and resetting since it is of registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> and not defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance, more like it can't be pretended that overlooking the nefarious implications of notions-and-accusations-of-sorcery in a non-positivistic social-setup in some way implies a resetting of non-positivism/medievalism mindsets/reference-of-thought, and it will be more of an intellectual-and-moral dereliction from a positivistic insight) doesn't cancel the fundamental temporal mental-dispositions as portrayed above given that intrinsic-reality/ontological-veridicality is a contiguity (superseding-oneness-of-ontology), and the relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought as displayed by the individuations (speaking not of a defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance) above is of 'existential perpetuation in

circularity/recurrence/repetition/repeatability (as-of-‘perversion-and-derived-perversion-of-reference-of-thought-as-to-uninstitutionalised-threshold-self-referencing-and-subtransversality-of—apriorising/axiomatising/referencing’); and so as socially-functional-and-accordant, (wherein with respect to ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’, social meaningfulness-and-teleology is downgraded into ‘temporal <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩ mental-dispositions and projections disposition’ with corresponding degrading of the profoundness/sophistication of reference-of-thought of a maximalising-recomposuring-for-relative-ontological-completeness disposition such that for veracity/ontological-pertinence there is need for teleological-differentiation/scission/variance/disambiguation in construing a ‘supratransversality—apriorising/axiomatising/referencing reference-of-thought of meaningfulness-and-teleology’ as ontological and ‘subtransversality—apriorising/axiomatising/referencing reference-of-thought of meaningfulness-and-teleology’, while with respect to ‘maximal-operating-modality-of-reference-of-thought-as-of-formalisation’ social meaningfulness-and-teleology is deferred to the profoundness/sophistication of reference-of-thought of a maximalising-recomposuring-for-relative-ontological-completeness disposition by its ontological-primemovers-totalitative-framework induced prospective institutionalisation formalisations, percolation-channelling and secondnaturing). Thus in summary ‘existential perpetuation in circularity/recurrence/repetition/repeatability’ (of ‘maximal-as-intemporal-operating-modality-with-respect-to-categorical-imperatives/axioms/registry-teleology-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-inducing-

This is so reflected as of maximalising-recomposuring-for-relative-ontological-completeness. This explains why the ‘recurrent-utter-uninstitutionalisation’ mindset/reference-of-thought is existentially perpetuating ‘failing/not-upholding-as-of-apriorising/axiomatising/referencing of rulemaking-over-non-rules—apriorising/axiomatising/referencing–psychologism’ in circularity/recurrence/repetition/repeatability as-inherently-implied-by-the-uninstitutionalised-threshold (apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing-of-recurrent-utter-uninstitutionalisation), the ‘base-institutionalisation–ununiversalisation’ mindset/reference-of-thought is existentially perpetuating ‘failing/not-upholding-as-of-apriorising/axiomatising/referencing of universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing–

any-uninstitutionalised-threshold. It should further be noted that the notion of in circularity/recurrence/repetition/repeatability is not about conceptualising in the simplistic sense of any specific effective factual acts of circularity/recurrence/repetition/repeatability-as-of-conflated-construal but rather about a defining defectiveness of registry-worldview reference-of-thought-(reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought-and-not-logically-contending) construed as ‘circularity/recurrence/repetition/repeatability-as-of-conflated-construal of perversion-and-derived-perversion-of-reference-of-thought’ inherently-implied (apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing-of-the-uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrpticism) given the registry-worldview/dimension-level of relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought. So basically, circularity/recurrence/repetition/repeatability-as-of-conflated-construal is about the ‘circularity of recurrent-utter-uninstitutionalisation-(reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought-and-not-logically-contending) in need for base-institutionalisation-(reflected-as-soundness-or-authenticity-of-reference-of-thought-and-logically-contending)’, the ‘circularity of ununiversalisation-(reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought-and-not-logically-contending) in need for universalisation-(reflected-as-soundness-or-authenticity-of-reference-of-thought-and-logically-contending)’, the ‘circularity of non-positivism/medievalism-(reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought-and-not-logically-contending) in need for positivism-(reflected-as-soundness-or-authenticity-of-reference-of-thought-and-logically-contending)’ and prospectively the ‘circularity of procrpticism-(reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought-and-not-logically-contending) in need for

deprocripticism-(reflected-as-soundness-or-authenticity-of-reference-of-thought-and-logically-contending)', successively as of their prospective relative-ontological-completeness-of-reference-of-thought.

[For instance, resetting relations anew and overlooking non-positivism/medievalism postlogism issue of say notions-and-accusations-of-sorcery does not mean that characters in such a non-positivism/medievalism setup are no longer susceptible to the same mental-dispositions 'as of non-positivism/medievalism reference-of-thought' on different or subsequent occasions/instances where the medieval postlogism-as-of-non-conviction issue of notions-and-accusations-of-sorcery will arise again, where it is socially-functional-and-accordant to do so passively or actively by eliciting social-aggregation-enablers over the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating'. The reason being that the perversion-of-reference-of-thought speaks to a fundamental relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought as a non-positivism/medievalism mindset/reference-of-thought as susceptible to further instances (in circularity/recurrence/repetition/repeatability-as-of-conflated-construal) of endemising/enculturating notions-and-accusations-of-sorcery and hence this issue can only be structurally/paradigmatically resolved by a relative prospective ontological-completeness-of-reference-of-thought ushered in by 'a positivistic mindset/reference-of-thought and social-setting construct prospective/transcending/superseding <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)' involving psychoanalytic-unshackling/memetic-reordering/institutional-recomposure as of a cross-generational import.

That is equally the fundamental and structural/paradigmatic problem associated with psychopathy and social psychopathy given the relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought of our procrypticism/disjointedness-as-of-reference-of-thought for a deprocrypticism reference-of-thought. Such naïve construal of resetting relations anew and overlooking with regards to perversion-and-derived-perversion-of-reference-of-thought (utterly different from defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance resetting anew and overlooking) simply becomes at best 'impression-driven/good-naturedness/wishfulness active enabler' for temporally inclined mindsets with respect to what can be habituated/endemised/enculturated as of perversion-of-reference-of-thought (where postlogism and conjugated-postlogism can be passively socially-functional-and-accordant or actively socially-functional-and-accordant by eliciting social-aggregation-enablers, and so over inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating'). Rather than the idea of resetting relations anew and overlooking, a true intellectual-and-moral elevation is instead achieved by a prospective institutionalisation secondnaturing process construing the inherent reality and derived-implications of perversion-of-reference-of-thought for its superseding, which effectiveness skews ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) to the veritable intemporal/longness-of-register-of-meaningfulness-and-teleology in deferential-formalisation-transference as of aetiologisation/ontological-escalation, as the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct; and so construed suprastructurally as of beyond-the-consciousness-awareness-

teleology-<in-existential-extrication-as-of-existential-unthought>-of-the-prior/transcended/superseded. In other words, recurrent-utter-uninstitutionalisation manifestation of postlogism can only be structurally/paradigmatically resolved by base-institutionalisation reference-of-thought, ununiversalisation manifestation of postlogism can only be structurally/paradigmatically resolved by universalisation reference-of-thought, non-positivism/medievalism manifestation of postlogism can only be structurally/paradigmatically resolved by positivism reference-of-thought, and prospectively procrypticism manifestation of postlogism can only be structurally/paradigmatically resolved by deprocrypticism reference-of-thought. As palliative construal is rather ontologically incoherent as the idea for striving to construe intemporality/longness from temporality/shortness is rather naïve and actually as of ontologically-flawed <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag here implies that every registry-worldview/dimension is rather pre-inclined to represent its own apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing at worst as a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-or-preconverging-narratives) or a-registry-worldview's-or-dimension's-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of <formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing, and so rather than as truly 'decandored/oblongated and dementing-or-preconverging-apriorising-psychologism and dialectically/contendingly-out-of-phase or decentered', and doing so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>,

to avoid its ‘ontologically-perspectival-degraded-as-decentered/dementing-or-preconverging-reflexive/entailing-teleological-differentiation-as-of-subtransversality—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’ with respect to prospective notional-deprocrypticism ‘ontologically-perspectival-elevated/pedestaling-as-dialectical-thinking-or-postconverging-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing’; though paradoxically it will effectively recognise such a representation about prior/transcended/superseded registry-worldviews/dimensions. For instance, we’ll be hard pressed to acquiesce to an argument with regards to medieval manifestation of postlogism for instance as it instigates notions-and-accusations-of-sorcery, associated with a logic in terms-as-of-axiomatic-construct of non-positivism/medieval relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought of the type ‘A’s action was what brought about the accusation of witchcraft, and A should stop the practice’, from our positivistic transcendently <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought as of its positivism prospective relative-ontological-completeness-of-reference-of-thought, and would rather imply ‘the decandored/oblongated and dementing-or-preconverging–apriorising-psychologism and dialectically/contendingly-out-of-phase nature’ of such non-positivism/medievalism reference-of-thought priorly without its contending status even arising in the very first place; but then with respect to our own postlogism-and-conjugated-postlogism as psychopathy and social psychopathy pointing to our own relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought as procrypticism, we will tend to advance a ‘nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-

 reference-of-thought or derived-perversion-of-reference-of-thought going by ontological-
 normalcy/postconvergence <formative>epistemic-totalising—renewing-realisation/re-
 perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-
 of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-
 prospective-meaningfulness-and-teleology) as of notional-deprocrypticism (which is rather of
 'ontologically-perspectival-elevated/pedestaling-as-dialectical-thinking-or-postconverging-
 differentiation-as-of-supratransversality—apriorising/axiomatising/referencing') in longness-
 of-register-of-meaningfulness-and-teleology in order to grasp ontologically-veridical
 meaningfulness; and so, no more different as the non-positivism/medieval mindset/reference-
 of-thought trying to process logic on the basis of its relative-ontological-incompleteness-of-

prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought as notions-and-accusations-of-sorcery. This reason underlies the notion of prospective institutionalisation which arises not as of logical-processing-or-logical-implication issue but ‘more fundamentally an appropriateness-of-reference-of-thought-as-of-conflatedness-or-perversion-of-reference-of-thought issue as of a paradigmatic and ontological meaningfulness-and-teleology implication with respect to eliciting the prospective relative-ontological-completeness-of-reference-of-thought of the prospective/transcending/superseding registry-worldview/dimension, without <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasitic-drag of the relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought of the prior/transcended/superseded registry-worldview/dimension. Thus the articulation of prospective institutionalisation ‘is not about ontological-primemovers-totalitative-framework implying equivalence between the prior/transcended/superseded and the prospective/transcending/superseding’. It is rather about the precedingness/supersedingness/ascendency of the latter in transversality-of-disambiguated-apriorising/axiomatising/referencing and inequivalence with the former. For instance the factual ontological-primemovers-totalitative-framework/effectiveness validations of say a chemistry mindset/reference-of-thought (with demonstrations of chemistry principles by chemical reactions producing elements and compounds) say in a non-positivism/medievalism setup prone to alchemy and essences-driven explanations ‘is not and cannot be construed as a logical-processing-or-logical-implication validation as of alchemic mindset/reference-of-thought’ but rather ‘a chemistry scientific mindset/reference-of-thought

validation’, critically because the issue is fundamentally not about the specific validations of chemistry principles but rather about the non-positivism/medievalism alchemy and essences-driven explanations defective mindset/reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mental-disposition reflex with respect to metaphorically-as-of-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of interpretive defects of that may arise from such non-positivism/medievalism mindset/reference-of-thought based on alchemy and essences-driven explanations given its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought. Thus wrongly implying that a contending engagement between the two is of logical-processing-or-logical-implication, ‘wrongly elevates and validates the non-positivism/medievalism mindset/reference-of-thought’ as the mindset/reference-of-thought of contention, as such a possibility of contending engagement from the chemistry mindset/reference-of-thought is about harkening rather to a paradigmatic and conflatedness (psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) of the alchemy and essences-driven explanations mindset/reference-of-thought reflex for the ascendancy of a positivistic chemistry registry-worldview reflex as of its prospective relative-ontological-completeness-of-reference-of-thought as it addresses the former defect of <formative>epistemic-totalising—self-referencing-syncretising/metaphysics-of-presence and thus provides the possibility for resolving metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-escalation of defects of that non-positivism/medievalism mindset/reference-of-thought based on alchemy and essences-driven explanations given its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-

construed-as-from-prospective-reference-of-thought. This insight equally comes to the mind as we can equally imagine that a mere demonstration or demonstrations of positivistic meaningfulness effectiveness/ontological-primemovers-totalitative-framework in say a base-institutionalisation/animistic social-setup or non-positivism/medievalism social-setup to their approbation is not a sufficient basis to imply that they are thereafter of positivistic mindset/reference-of-thought and to be engaged with as of logical-processing-or-logical-implication, as any such positivistic demonstration pertinence is not about its factual effectiveness approbation in the base-institutionalisation/animistic social-setup per se but rather as of its paradigmatic and conflatedness (psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) of the underlying base-institutionalisation/animistic relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought which is rather of cross-generational import (prospective-institutionalisation <formative>epistemic-totalising-renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing-psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) as enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure). Such an insight can be extended prospectively on the same measure with respect to our procrypticism prior relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought and futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism ontological-completeness-of-reference-of-thought; though as previously indicated we will wrongly tend to (just as any

The bigger picture here is that in reflecting the ontological-contiguity—of-the-human-institutionalisation-process and the institutional-cumulations/institutional-recomposures, and as reflected insightfully from cultural diffusion induced institutionalisations, ‘the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought in its <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’ need to be recognised, registered and represented from the prospective/transcending/superseding registry-worldview reference-of-thought for what it is, rather than a ‘nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-or-preconverging-narratives) as a-registry-worldview’s-or-dimension’s-ignoring-of-its-prior-relative-ontological-incompleteness-of-reference-of-thought-as-an-ontologically-flawed-neuterisation-or-bracketing-or-epoché of <formative>epistemic-totalising-conflated-meaningfulness-and-teleology-as-of-notional-deprocrypticism-reflected-historiality/ontological-eventfulness/ontological-aesthetic-tracing to then allowed for the necessary cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of the prospective institutionalisation by its prospective relative-ontological-completeness-of-reference-of-thought.]

It should be noted as well that the idea of ‘<formative>epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)’ enabled by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure is the deterministic phenomenon behind ‘dialectical-thinking-or-postconverging–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ and the specific institutional-

cumulations/institutional-recomposures in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as recurrent-utter-uninstitutionalisation, base-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism, positivism—procrypticism, and deprocrypticism. It captures the true notion of transcendence as a maximalising-recomposuring-for-relative-ontological-completeness involving utterly putting-into-question/reshuffling/remaking the human psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology in the very first instance, and on a second-level then imply eliciting the corresponding meaningfulness-and-teleology for such renewed psyche as reference-of-thought. Such ‘<formative>epistemic-totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)’ involves specific ‘memeticism/meaningfulness circular-caricature’ with respect to the implied registry-worldview/dimension in their respective institutionalisation state (as candored/straight and dialectical-thinking-or-postconverging—apriorising-psychologism/dialectically-or-contendingly in-phase) and their uninstitutionalised-threshold state (in apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as decandored/oblongated and dementing-or-preconverging—apriorising-psychologism/dialectically-or-contendingly out-of-phase). The notion of ‘<formative>epistemic-totalising—renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing—psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)’ as being of true transcendence can be further elucidated with regards to two remarkable historical developments which while inherently exceptional, to say the least, aren’t truly transcendental. Consider for instance that

transcendental is generally considered as the central notion of Kantian philosophy. The reality however is that the supposed transcendentalism is actually an elaboration in the terms of the actual and true rational-empiricism/positivism reference-of-thought transcendence established by Descartes' thinking proposition and scepticism exercise as the fundamental basis for continuously re-elaborated 'extended rationalism' right up to the present. Kantian supposed transcendence (Copernican revolution) is not eliciting a 'dialectical-thinking-or-postconverging-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics' of '<formative>epistemic-totalising-renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing-psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)' (which is exactly what Descartes' thinking proposition and scepticism exercise does with respect to the non-positivism/medievalism psyche/placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology). The Kantian construct is an elaboration well within the psychical framework established by the rationalism thinking proposition and scepticism exercise, and Kantian meaningfulness-and-teleology is utterly comprehensible and intelligible to that psyche, though in many ways it is a more profound elaboration of meaningfulness-and-teleology issues. So it is actually an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument within the extended-rationalism reference-of-thought that doesn't psychically and meaningfully supersede it but elaborates within it; and it doesn't reference an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument '<formative>epistemic-totalising-renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing-psychologism-as-the-new-referencing-basis-of-

prospective-meaningfulness-and-teleology)’ as implied by a ‘dialectical-thinking-or-postconverging-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ from Recurrent-utter-uninstitutionalisation to Base-institutionalisation—ununiversalisation, to Universalisation—non-positivism/medievalism, to Positivism—procrypticism, and prospectively to Deprocrypticism; as successively non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidented-or-random-mental-disposition-(as ‘base constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) gives way to rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) which gives way to universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-(as ‘second-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) which gives way to positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-(as ‘third-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument), and prospectively bringing about preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-(as ‘conflatedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument); and

wherein the successive mindsets/references-of-thought and institutionalisations are suprastructural to each other (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>). Insightfully, this highlights that human mentation capacity is in a dynamic cumulation as of the maximalising-recomposuring-for-relative-ontological-completeness of its limited-mentation-capacity-(as of relative constitutedness towards relative conflation). It puts into question the Kantian philosophical exercise (Copernican revolution) of striving to establish universal human mental apriorising/axiomatising/referencing principles with respect to a mental state that is perpetually in a transformative becoming state of shallow to deeper limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). (This latter condition inherently means that the certitude of such an enterprise itself can only be grounded on the human existential existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality as the absolute apriorising.) It is this author's contention that the Kantian conceptualisation exercise while interesting is in many ways rather a heuristic construct given its grounding on a categorisation reflex that poorly syncs with and is in constant need for heuristic re-adaptation to match 'an existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality existential reality nature that is preceding-and-superseding to any human mental apriorising/axiomatising/referencing of it', and thus rendering such an apriorising/axiomatising/referencing conceptualisation exercise highly heuristic (to constantly resolve the virtualities it raises by re-categorisation/re-adaptation/re-classification), and so when not employing a referentialism reflex that is naturally inclined to be contiguous with intrinsic-reality as of ontological-normalcy/postconvergence/intemporal-preservation-

entropy-or-contiguity—or—ontological-preservation. A further weakness is the naive implication thus that an apriorising/axiomatising/referencing exercise of human mental understanding only starts and ends with the positivistic/rational-empiricism registry-worldview's/dimension's reference-of-thought as if it is the only one that had existed, against the anthropological and historical trend, and without explaining how previous meaningful-frames developed into the positivistic/rational-empiricism and how the latter could develop prospectively. Besides the Kantian argument that the transcendent (in all its connotations beyond direct experiences) cannot be known is equally anthropologically and historically erroneous as even in his days, with respect to adopting of a positivistic/rational-empiricism worldview over non-positivistic/alchemic/essences/medieval registry-worldview/dimension certainly does has a name (transcendence). But then it is more the case that from an epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag posture holding only one registry-worldview/dimension reference-of-thought—categorical-imperatives/axioms/registry-teleology as absolute, then prospective transcendence is rather a beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> notion. Besides, Kant's notion of transcendence (transcendental idealism) and subsequent philosophical development of the notion is one relating to immediate phenomenal conceptualisation rather construed as 'phenomenal-abstractiveness of presence' (and more precisely phenomenal-abstractiveness of presence as of 'the positivism/rational-empiricism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights' transcendence implied by Descartes) rather than a construal of transcendence as implied herein as of deepening limited-mentation-capacity with respect to the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to 'human<formative>epistemic-totalising—purview-of-construal' as superseding—oneness-of-ontology as an all-encompassing <formative>epistemic-totalising—renewing-realisation/re-

perception/re-thought of human psychical and institutionalisation disposition for
 meaningfulness-and-teleology, even though fundamentally enabled by developing human
 phenomenal-abstractive-ness of presence as of <formative>epistemic-totalising_random-as-
 impulsive-phenomenal-abstractive-ness-of-presencing-in-‘trepidatious-consciousness’ with
 recurrent-utter-uninstitutionalisation, <formative>epistemic-totalising_nominal-as-
 tendentious-phenomenal-abstractive-ness-of-presencing-in-‘warped-consciousness’ with base-
 institutionalisation–ununiversalisation, <formative>epistemic-totalising_ordinal-as-
 qualifying-phenomenal-abstractive-ness-of-presencing-in-‘preclusive-consciousness’ with
 universalisation–non-positivism/medieval, <formative>epistemic-totalising_intervalist-as-
 categorising-phenomenal-abstractive-ness-of-presencing-in-‘occlusive-consciousness’ with

 contiguity/ratiocination-as-referentialism-phenomenal-abstractive-ness-of-presencing-in-
 ‘protensive-consciousness’ with deprocrypticism. Basically, Kant lacked a notion of
 metaphysics-of-absence (to overcome <formative>epistemic-totalising–self-referencing-
 syncretising/illusion-of-the-present/present-consciousness/mirage) with respect to the
 positivism/rational-empiricism registry-worldview/dimension. In other words, Kant is
 involved in an epistemological conceptualisation at a given point in time (erroneously
 construed as the absolute point of human thought apriorising, without a decentering sense of
 projection with respect to the prior and prospective). But existential-reality as of its human
 mental apriorising/axiomatising/referencing (heuristically at least) started well before that
 point and carries on well after that point, and such an exercise is more profound when it
 construes human mental apriorising/axiomatising/referencing along the full existence-
 potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-
 epistemically-unconceal-the-very-ontologically-same-existential-reality of existence as it
 redefines meaningfulness-and-teleology on the basis of human limited-mentation-capacity-

deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) in
 its construal/conceptualisation of a superseding-oneness-of-ontology construed as
 transcendental-enabling/sublimating. Insightfully, this author construes an existential-
 reference/existential-tautologisation basis of such human mental
 apriorising/axiomatising/referencing process for the transcendental-enabling/sublimating of
 successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-
 transcendental registry-worldviews/dimensions rather as of an exercise of maximalising-
 recomposuring-for-relative-ontological-completeness over conceptualisations of human
 mental apriorising/axiomatising/referencing process on a simple categorisation reflex basis as
 elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-
 outside-existential-contextualising-contiguity which tend to require constant heuristic
 adaptations to sync in contiguity with existence-potency-prospective-digression—rules-of-
 apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-
 ontologically-same-existential-reality of existential-reality and avoid virtualities, as wrongly
 operating on the basis of an absolute point of human thought
 apriorising/axiomatising/referencing that doesn't recognise that successive
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-as-
 transcendental registry-worldviews/dimensions are defining/transcendental-
 enabling/sublimating for new prospective relative-ontological-completeness-of-reference-of-
 thought. In the bigger framework, this author holds that conceptually and operantly nothing is
 certain but for the certitude of existence and its oneness, thereafter defining relative certitudes
 by the contextualising-contiguity of existence as of human shallow to deeper limited-
 mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-
 sublimating-withdrawal) as of its successively developed transcendental psychical and
 institutionalisation notions from

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument relationship to ontological-primemovers-totalitative-framework that is not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating as of its non-scientific psyche. In other words however ‘good-natured, well-meaning and wishful for enabling human progress’ the mental-disposition in that epoch as alchemic and non-positivistic was structurally not ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating, and instinctively one may argue that it is by coming out from the frustration of not achieving anything decisive but for ‘palliative results’ in terms of progress with an alchemic and non-positivistic psyche that the Newton’s of that epoch increasingly adopted a positivistic sense of things which they increasingly came to realise as being ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating. This same ‘ontological misconstrual’ naively grounded on ‘palliative constructs and naïve conceptual patterning’ driven by ‘good-naturedness, well-meaningfulness and wishfulness’ is pervasive in the social sciences today as of its poor ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating construction having to do with an epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag agent of limited-mentation-capacity that we are as of our animate-existential-referencing/subjectification wherein our <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaningfulness-and-teleology is often wrongly construed as ontological as of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

Consider for instance a situation where statistically people likely to rest more in their home in winter are compared with people spending more time outdoors with regards to prevalence of flu, and then arriving at the conclusion that the treatment for flu is resting more at home.

Such a construct as basic constitutedness is at best a sound palliative construct and naïve conceptual patterning however good-natured, well-meaning and wishful, but doesn't deal with the required pure-ontology conflatedness as of ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating in establishing a comprehensive disease theory for flu that syncs with other human diseases theories and human biology theories and general biology theories and informed by the bigger 'transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy' (construed rather as of an organic depth of ontological coherence/contiguity that is structurally/paradigmatically transcendental-enabling/sublimating contiguously as from the deeper apriorising/axiomatising/referencing of 'transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy' and not vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating conceptualised/construed relations), and so as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

The practice in many a social science specialism is often to articulate concepts whose linkage with other social science concepts and the overall social science background knowledge construct is vague such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating is hardly established but for bare 'palliative constructs and naïve conceptual patterning' that are more often than not <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag than truly ontological when examined closely such that the test of transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism when the implications of such notions are examined as of metaphysics-of-absence not only in terms of one registry-

worldview's/dimension's meaningfulness-and-teleology but two or more, say our present positivism reference-of-thought and retrospective non-positivism reference-of-thought, their 'supposed ontological status' turn out to be ridiculous <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, exposing their true nature as rather palliative constructs and conceptual patterning. In the bigger framework can notions construed/conceptualised as of 'human subjectivity so-construed as ineffectively transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism' be given the label ontology, or rather is ontology exactly not about effective transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism? as-so-being-as-of-existential-reality/antinihilism as ontologically-driven as of increasing prospective relative-ontological-completeness-of-reference-of-thought. It is this author's contention that the 'transcendental-enabling/sublimating deprocrypticism psyche-and-thereof-philosophy' as so transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism provides the requisite ontologically-veridical background referencing as of its conflatedness (in the same vein as the prior positivism—procrypticism registry-worldview/dimension bigger 'transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy' with regards to non-positivism/medievalism) as of the prospective-and-more-profound deprocrypticism registry-worldview/dimension bigger 'transcendental-enabling/sublimating deprocrypticism psyche-and-thereof-philosophy' as herein implied by this hermeneutic psychology suprastructuralism insight construed as of metaphysics-of-absence as 'dialectical-thinking-or-postconverging-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics', not only with regards to the social sciences but also when it comes to the many instances of poor scientific studies thus enabling the decisive superseding of palliative construals and conceptual-patterning that can hardly be qualified as ontological. The underlying contention of both such a present 'transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy' and prospective 'transcendental-enabling/sublimating deprocrypticism psyche-and-thereof-philosophy' as of their respective relative ontologically-veridical psychical background referencing as of conflatedness for knowledge/meaningfulness-and-teleology has to do with the bigger ontological-normalcy/postconvergence reality (of ontologically valid knowledge/meaningfulness-and-teleology) as of its notional-conflatedness/constitutedness-to-conflatedness as the structural/paradigmatic basis by which 'ontological-deficiency

(conceptually represented as subsuming of virtue-defect or vices-and-impediments ‘with virtue not truly differentiated from ontology’ but rather such a conceptual-differentiation being represented as of our notional <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag animate-existential-referencing/subjectification emotional-involvement implications)’ is construed fundamentally going by a registry-worldview’s/dimension’s reference-of-thought relative deficiency as prior relative-ontological-incompleteness-of-reference-of-thought (as its uninstitutionalised-threshold) thereby resolvable structurally/paradigmatically by the prospective registry-worldview’s/dimension’s reference-of-thought prospective relative-ontological-completeness-of-reference-of-thought; thus validating with regards to both reference-of-thought respectively as the ‘transcendental-enabling/sublimating positivism psyche-and-thereof-philosophy’ and the ‘transcendental-enabling/sublimating deprocrypticism psyche-and-thereof-philosophy’ their relative ontologically-veridical background referencing as of conflatedness as of ontological-normalcy/postconvergence. Since we can perfectly conceptualise with both reference-of-thought the articulation of coherent meaningfulness-and-teleology respectively in non-positivism terms-as-of-axiomatic-constructs and non-deprocrypticism/procrypticism terms-as-of-axiomatic-constructs, or rather in terms-as-of-axiomatic-construct that do not grasp structurally/paradigmatically the respective reference-of-thought organic grounding as of underlying ontological-normalcy/postconvergence implications, and so beyond just a question of vague ad-hoc mechanical patchwork of non-transcendental-enabling/sublimating conceptualised/construed relations. This elucidation points out that transcendence ‘must truly’ involve an ontological-dementation/dialectical-dementation–stranding/attributive-dialectics with the utter decentering of understanding itself by the prospective/transcending/superseding reference-of-thought over the apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing of the

prior/transcended/superseded at its uninstitutionalised-threshold as an epistemic-totalising–renewing-realisation/re-perception/re-thought-as-utter-placeholder-setup-ontological-rescheduling-(by-a-renewing-of-apriorising/axiomatising/referencing–psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology) eliciting a new apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of prospective/transcending/superseding reference-of-thought as candored/straight, dialectical-thinking-or-postconverging–apriorising-psychologism and dialectically/contendingly-in-phase over the prior/transcended/superseded reference-of-thought as decandored/oblongated, dementing-or-preconverging–apriorising-psychologism and dialectically/contendingly out-of-phase. Basically, ontological-dementation/dialectical-dementation–stranding/attributional-dialectics speaks of the contingent supersedingness of prospective relative-ontological-completeness-of-reference-of-thought of prospective/transcending/superseding reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought of prior/transcended/superseded reference-of-thought, and so ‘with respect to the relative veracity/ontological-pertinence of their projected logical-processing-or-logical-implication of meaningfulness-and-teleology as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’, wherein the prior/transcended/superseded reference-of-thought is construed as dementing-or-preconverging–apriorising-psychologism and decentered/out-of-phase thus subsumed-as-supplanted while the prospective/transcending/superseding reference-of-thought is construed as dialectical-thinking-or-postconverging–apriorising-psychologism and centered/in-phase thus subsuming-as-supplanting (by supratransversality—apriorising/axiomatising/referencing as of ‘intemporality-asymmetric-subsumption-of-temporality’, rather as of intellectual-and-moral-inequivalence/non-correspondence). Ontological-dementation/dialectical-dementation—stranding/attributive-dialectics as of transcendental/interdimensional/transdimensional registry-worldview/dimension-level conceptualisation/construal as enabling prospective suprastructuration (suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsis-ing-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology), is technically apprehended rather as of the ‘reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold’ of meaningfulness-and-teleology of the prior/transcended/superseded registry-worldview reference-of-thought implied as of distractive-alignment-to-reference-of-thought in reflecting the prospective/transcending/superseding registry-worldview reference-of-thought suprastructuration as the ‘new ontologically-veridical becoming-or-present-of-reference-of-thought’ since there ‘cannot be two different becoming-or-present-of-reference-of-thought’ but rather that the prospective/transcending/superseding suprastructuration is by its prospective relative-ontological-completeness-of-reference-of-thought the becoming-or-present-of-reference-of-thought. However, in all the ontological-dementation/dialectical-dementation—stranding/attributive-dialectics implied successive institutional-cumulations/institutional-recomposures, such a ‘confusion of relative ontologically-veridical becoming-or-present-of-reference-of-thought’ induces an underlying ‘paradox of transcendence’ involved in all such transcendences wherein mental-dispositions as of reference-of-thought are caught between the prospective/transcending/superseding registry-worldview prospective relative-ontological-completeness-of-reference-of-thought and the

prior/transcended/superseded registry-worldview prior relative-ontological-incompleteness-of-reference-of-thought, with respect to meaningfulness-and-teleology referencing. Consider in this case the human condition of transience of reference-of-thought as experienced by Okonkwo returning from banishment to Umuofia village in Chinua Achebe's *Things Fall Apart*. That is, basically and by reflex, mental-dispositions as of the formation of 'recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidented-or-random-mental-disposition reference-of-thought—categorical-imperatives/axioms/registry-teleology will not necessarily construe transitorily at its uninstitutionalised-threshold that 'base-institutionalisation—ununiversalisation rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism reference-of-thought—categorical-imperatives/axioms/registry-teleology is the relative ontologically-veridical reference-of-thought (as explained further below with respect to 'symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction' associated with distractive-alignment-to-reference-of-thought, and 'intemporality-asymmetric-subsumption-of-temporality'/ontological-asymmetrisation as of deconstruction/ontological-reconstituting—as-of-conflatedness in aetiologisation/ontological-escalation); such that on a logical-basis the <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> in recurrent-utter-uninstitutionalisation will be more inclined to turn towards the 'prior conventional non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidented-or-random-mental-disposition' as reference-of-thought—categorical-

imperatives/axioms/registry-teleology, and so over the ‘prospective relative pure-ontology conflatedness implying rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’. This is because a registry-worldview/dimension is a ‘circular-pervasiveness <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩’ wherein achievement motives and temporal-stakes of the conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩ so-construed prospectively, will tend to ‘take precedence as of relative-ontological-incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-thought and override any such sense of relative pure-ontology conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought (as implied by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality as heuristic but non-constraining compensation for human limited-mentation-capacity where constraining social universal-transparency doesn’t yet avail) even though, it is such relative pure-ontology conflatedness that is the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality enabling (by ultimately making available such prospective constraining social universal-transparency) the successive institutional-cumulations/institutional-recomposures. Even then and ultimately, it is mainly a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure that progressively rids the prior

conventional constructs of their essence as of <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that enables prospective registry-worldview/dimension suprastructuration/transcendence. This insight extends to all the successive registry-worldviews including ours as positivism–procrypticism as the relative pure-ontology conflatedness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality implying such a construct as the deprocrypticism institutionalisation suprastructuration (preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-(as conflation of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument)) will certainly be a remote contemplation of such a <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) mental-disposition of our registry-worldview/dimension, rather construing its circular-pervasiveness <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) as absolute by reflex beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> wherein achievement motives and temporal-stakes of the conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview’s/dimension’s denaturing <formative>wooden-language-(imbued—averaging-of-thought-<as-to-

leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) so-
construed prospectively, will tend to ‘take precedence as of relative-ontological-
incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-
thought and override any such sense of relative pure-ontology conflatedness notion as of
prospective relative-ontological-completeness-of-reference-of-thought and implying rather a
prospective transcendental depth-of-thought/reference-of-thought. This equally explains why
the implied supratransversality—apriorising/axiomatising/referencing as of
aetiologisation/ontological-escalation is necessarily a ‘presencing—absolutising-identitive-
constitutedness consummated/forfeiting posture’ of intemporality-asymmetric-subsumption-
of-temporality/ontological-asymmetrisation that needs to take into account this ‘paradox of
transcendence’. And critically so, because beyond just ‘human conscious willing’,
transcendence necessarily implies the ‘prospect of humans to appreciate/understand
meaningfulness-and-teleology beyond-the-consciousness-awareness-teleology-<in-
existential-extrication-as-of-existential-unthought>’; such that,
structurally/paradigmatically/necessarily, that which gets to ‘conceptualise/construe beyond-
the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-
unthought>’ is necessarily ontologically-asymmetrical as rather imbued with intellectual-and-
moral responsibility over that which doesn’t get there (and so, even with regards to a basic
non-transcendental construal of asymmetrisation within a same registry-
worldview’s/dimension’s reference-of-thought like Doctor – Patient, Parent – Child, Server –
Customer, Teacher – Student etc. as ensues from a Derridean binary opposition analysis).
However at uninstitutionalised-threshold, the notion of intemporality-asymmetric-
subsumption-of-temporality/ontological-asymmetrisation is not readily acquiesced to for the
simple reason that two references-of-thought/axiomatic-constructs are at play with those

adhering to the prior/transcended/superseded reference-of-thought–categorical-
 imperatives/axioms/registry-teleology inclined beyond-the-consciousness-awareness-
 teleology-<in-existential-extrication-as-of-existential-unthought> to uphold meaningfulness-
 and-teleology as such, whereas in contrast adherence to the
 prospective/transcending/superseding as of its prospective relative-ontological-completeness-
 of-reference-of-thought will certainly grasp the pertinence of intemporality-asymmetric-
 subsumption-of-temporality/ontological-asymmetrisation as of deconstruction/ontological-
 reconstituting–as-of-conflatedness aetiologisation/ontological-escalation; so construed, as
 prospective relative-ontological-completeness-of-reference-of-thought brings about

 denaturing of Additionality as further articulated below with regards to the characters A, B,
 C, D, E, F and Z, it is naïve to think that the characters A, B, C, D, E, F will simply acquiesce
 to Z’s supposedly ontologically-veridical posture, as by their prior relative-ontological-

This is to point out that at uninstitutionalised-threshold temporal-dispositions as of relative-ontological-incompleteness-of-reference-of-thought do not necessarily acquiesce to intemporality-asymmetric-subsumption-of-temporality or asymmetrisation (as Z’s ... looking down on A, B, C, D, E and F mental-dispositions perversion-and-derived-perversion-of-reference-of-thought as allowing for the endemisation/enculturation of the denaturing of additionality and the implications thereof of subsequent denaturing in circularity/recurrence/repetition/repeatability that ensue where socially-functional-and-accordant due to lack of constraining social universal-transparency which protects the internal-coherence of meaning for virtue’; not only as a specific/particular construal/conceptualisation but of universal import as having to do with endemisation/enculturation of perversions-of-reference-of-thought-⟨reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought⟩. Does the ‘intellectual romanticism’ of a Rousseau articulation of universal human rights necessarily register fully in the mindset/reference-of-thought of the <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-

Likewise, it could be asked whether such an aetiologisation/ontological-escalation notion as deprocrypticism institutionalisation implied suprastructuration over our positivism—

procrpticism is rather not a beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> notion as of the present <formative>wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>> mental-disposition and mental-projection. The fact is that registry-worldviews/dimensions operate meaningfulness-and-teleology as of their ontological representation of reality within the limits of their reference-of-thought—categorical-imperatives/axioms/registry-teleology which provide them with their ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ (so derived from prior ontological-faith-notion-or-ontological-fideism induced projective-insights/postdication/deconstruction), but then the further possibility of expanding the axiomatic-construal/axiomatic-conceptualisation of ontological representation of reality as prospective registry-worldview/dimension suprastructuration requires new projective-insights/postdication/deconstruction to establish more profound reference-of-thought—categorical-imperatives/axioms/registry-teleology as new/prospective ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’; but then, such ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ of each registry-worldview/dimension suprastructuration comes with a fundamental mentation-reflex flaw that their given ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ is absolute and non-transcendable’ beyond-the-consciousness-awareness-teleology-<in-existential-

incompleteness-of-reference-of-thought and override any such sense of relative pure-ontology conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought) arose by projective-insights/postdication/deconstruction as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Further, even more decisively though by reflex we naively-and-erroneously tend to construe of human virtuous-dispositions or vices-and-impediments as arising mainly as of their conscious choices, paradigmatically/structurally a registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought as a beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> notion is the more decisive/salient notion as to human ‘objectively construed/analysed virtuous-dispositions or vices-and-impediments’ even though individual ‘conscious choices’ will tend to ‘simply qualify the effective possibility of such virtuous-dispositions or vices-and-impediments arising’; such that a registry-worldview/dimension incompleteness-of-reference-of-thought is paradigmatically/structurally susceptibility as a state of ‘in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought—categorical-imperatives/axioms/registry-teleology for the vices-and-impediments so implied to arise-and-be-endemised/enculturated beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This explains why the ontological-contiguity—of-the-human-institutionalisation-process is basically about shifting apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments to supersede the state of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) in handling the more and more profound/depth of intrinsic-reality/ontological-veridicality construing

reference-of-thought/axiomatic-construct that avails as of ontological-normalcy/postconvergence or increasing ontological-completeness-of-reference-of-thought; (such that such meaningfulness as expressed herein is more than just of logical construct implying simple logical meaningfulness as within only a single-as-our-present positivistic predicative-insights framework of reasoning and understanding, but requires a more profound retrospective and prospective mental-projection in its contemplation). This equally explicates the empirical reality associated with the occurrence of human transcendence cross-generationally as the timeframe for psychoanalytic-unshackling/memetic-reordering/institutional-recomposure of projective-insights/postdication/deconstruction induced prospective/transcending/superseding registry-worldview/dimension ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument specific referencing/reference-of-thought/axiomatic-construct for predicative-insights’ to take hold. It equally explicates why apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing (as ‘vague staging and performing’ and not truly dialectical-thinking-or-postconverging–apriorising-psychologism meaningfulness-and-teleology) tend to arise in each registry-worldview/dimension at its uninstitutionalised-threshold. This has to do fundamentally with the antipodality of the mental-dispositions of postlogism-as-of-non-conviction as of effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology and prelogism-as-of-conviction as of effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology in the construal of intrinsic-reality/ontological-veridicality. It is important to grasp that such ‘prelogism-as-of-conviction existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context dynamic’ of the nature of ‘postlogism-as-of-non-conviction/distractive-alignment-to-reference-of-thought dynamism’ as knowledge-construct/intersolipsistic-intercessory-

 prelogism-as-of-conviction of meaningfulness, and so as of conflatedness of social-stake-
 contention-or-confliction comprehensive-and-insightful itemisation for developing storied-
 construct/ontologically-valid-narration. As conceptualised at both registry-
 worldview/dimension-level and individuation-level of analysis unlike reference-of-thought–

prelogism-as-of-conviction, reference-of-thought–madeupness/bottomlining is associated with relative ‘temporal-mental-dispositions’-construed-as-surreptitiously-or-palpably-committed-to-extrinsic-attribution-or-its-perpetuating-upon-other-mental-dispositions-as-supposedly-superseding-intrinsic-reality/ontological-veridicality as so-mentally-invested with regards to perceived social-stake-contention-or-confliction’ notwithstanding subsequent apprehension of ontologically-veridical meaningfulness-and-teleology, that speaks of ‘ad-hoc social-commitment-thresholds for foregoing the upholding of intrinsic-reality/ontological-veridicality’ and assuming denaturing as of ‘lack of constraining social universal-transparency at the uninstitutionalised-threshold’. It is this dynamic-cumulative-aftereffect/aftereffect that underlies perversion-and-derived-perversion-of-reference-of-thought associated with uninstitutionalised-thresholds.) This thus conveys the individuation-level of analysis ontological-primemovers-totalitative-framework as well as differentiated intemporal-conflatedness-as-effecting-wholeness-as-of-profoundness-and-completeness-to-meaningfulness-and-teleology-or-temporal-constitutedness-as-effecting-parsimony-of-meaningfulness-and-teleology (so implied by metaphysics-of-absence as of our procrypticism uninstitutionalised-threshold as disjointedness-as-of-reference-of-thought). By mental-reflex a postlogism-as-of-non-conviction stand is a ‘mental-shortcut’ that is fundamentally perverted as it perceives meaning as ‘deterministic of others behaviours by its empty-form’ while a prelogism-as-of-conviction stand is one that relates to meaning on the basis of its assumed existential validity, or at worst involves omissions or exaggerations relative to such fundamental existential validity, but doesn’t countenance by mental-reflex the projection of empty-form of meaningfulness which is ‘existentially invalid’ in the very first place. Consequently, where there is ‘lack of constraining social universal-transparency at the uninstitutionalised-threshold due to relative-ontological-incompleteness-of-reference-of-thought, postlogism-as-of-non-conviction implied meaningfulness-and-teleology will tend to

be incidentally conjugated with prelogism-as-of-conviction dispositions as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. This is the case beyond just any such specific instances and such specific postlogism-as-of-non-conviction character(s) and specific conjugated-postlogism character(s) but rather as of dynamic-cumulative-aftereffect/aftereffect, and thus defining together with the registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought at its ‘uninstitutionalised-threshold the apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as a dementing-or-preconverging–apriorising-psychologism enculturation’. This is characteristic of the successive uninstitutionalised-thresholds whether as recurrent-utter-uninstitutionalisation (non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidented-or-random-mental-disposition hollow-staging-and-performance-caricaturing as random/impulsive mental-disposition), ununiversalisation (non-universalising hollow-staging-and-performance-caricaturing like animistic attributing of misfortune to someone else’s malevolent spirit), non-positivism/medievalism (non-positivising/non-rational-empirical hollow-staging-and-performance-caricaturing like notions-and-accusations-of-sorcery) or procrypticism (disjointed-misappropriating-of-meaning hollow-staging-and-performance-caricaturing like psychopathy and social psychopathy), thus construing of a registry-worldview as of its relative-ontological-incompleteness-of-reference-of-thought as rather reflecting ‘virtue-and-ontological-veridicality’ as of its institutionalisation and ‘vices-and-impediments’ as of its uninstitutionalised-threshold. This consequently implies at the uninstitutionalised-threshold a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived

Now supposed Z was another character inclined for maximalising-recomposuring-for-relative-ontological-completeness as preserving the inherent intemporality/longness of additionality as allowing civilisational/institutional-being-and-craft setup preservation, brought in by the Donor, there is no question that Z will register the newly divulged ontological-veridicality/intrinsic-reality of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument and its derived-implications as perversion-and-derived-perversion-of-reference-of-thought to renew the construal/conceptualisation of what is considered as a relatively ontological-completeness-of-reference-of-thought for a prospective reference-of-thought that preserves intemporality, by factoring in the fact of this contextual relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought as it enculturates/endemises the perversion-of-reference-of-thought, and thus will be predisposed to a reconstrual/reconceptualisation of arithmetic principles factoring in and superseding this specific-type (as exposed by B's postlogism and C, D, E, F conjugated-postlogism) of 'imbricatedness/threadedness/recomposuring as existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality' or 'dialectical-thinking-or-postconverging-reference-of-thought in relative-ontological-completeness as depth-of-thought', and will look down on B, C, D, E and F mental-dispositions perversion-and-derived-perversion-of-reference-of-thought as allowing for the endemisation/enculturation of the denaturing of additionality and the implications thereof of subsequent denaturing in circularity/recurrence/repetition/repeatability that ensue where socially-functional-and-

accordant (lack of constraining social universal-transparency which protects the internal-coherence of meaning for virtue'), not only as a specific/particular construal/conceptualisation but of universal import as having to do with endemisation/enculturation of perversions-of-reference-of-thought-(reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought) speaking fundamentally of the given prior relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought (wherein Z's disposition is an ordered-construct or secondnaturating institutionalisation over B, C, D, E and F mental-anarchy/mentarchy inducing of 'uninstitutionalised-threshold'). Though metaphorically in the mortal's temporal/shortness-of-register-of-meaningfulness-and-teleology terms, that 'low-life' of universal import may be utterly oblivious to the practicalities of B, C, D, E and F so engrossed in a world of 'high-life' of temporality/extrication as the 'fullness of meaningfulness-and-teleology' over the appreciation of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm, be it that the latter disposition as philosophically intemporal is what creates-and-enables the being in civilisation/institutionalised-being-and-craft in the first place, as the metaphorically 'high-life' of temporality/extrication cannot count on an overall principle of temporality/extrication for its existential sustainability (as B, C, D, E and F needs that the Donor grants the rewards by not factoring in the deceit, thus their existential principle doesn't sustain the 'civilisation/institutionalised-being-and-craft setup' in which they are living in, hence qualified as extricatory/temporal/parasitising/co-opting as 'least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold') but unavowedly and

paradoxically rather on the parasitising/co-opting of the intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm enabling the ontological-contiguity—of-the-human-institutionalisation-process; and besides, it is because the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as prospective ontologising (as undertaken by Z) can supersede denaturing postlogical-backtracking towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ (referenced by B, C, D, E and F) that the further possibility (as transcendence) for prospective civilisation/institutionalised-being-and-craft setup as new conventioning arises. Hence the notion of ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ (from the perspective of the ‘dialectical-thinking-or-postconverging-reference-of-thought in relative-ontological-completeness as depth-of-thought’) exposes contextually the relative temporality-to-intemporality (shortness-to-longness-of-register-of-meaningfulness-and-teleology) of human mental-dispositions implying an intellectual-and-moral-inequivalence/non-correspondence between of temporal-dispositions perversion-and-derived-perversion-of-reference-of-thought involved in postlogism and conjugated-postlogism as it discloses the temporal-dispositions individuations mental-dispositions displayed by B, C, D, E and F (as ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in

caricaturing—so-construed-as-from-prospective-reference-of-thought arises (as
 uninstitutionalised-threshold); i.e., from recurrent-utter-uninstitutionalisation to base-
 institutionalisation—ununiversalisation to universalisation—non-positivism/medievalism to
 positivism—procrypticism and prospectively to deprocrypticism. While for the temporal
 mental-disposition individuations the form-and-perception or derived-form-and-perception of
 intemporal-preservation-entropy-or-contiguity—or—ontological-preservation whether
 upholding ontological-veridicality/intrinsic-reality or not (and so whether unconsciously,
 expediently or consciously) is a sufficient basis so long as it is socially-functional-and-
 accordant such that the possibility of blurring or undermining existential-reality by ‘wrongly-
 projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-
 or-ontologically-flawed-construal (which is rather ‘a prior dementing—

 existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-
 that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ is just
 as valid, hence a failure to abstractly recognise intemporality/longness as of-existential-
 reality with the implication thereof as perversion-and-derived-perversion-of-reference-of-
 thought with respect to the registry-worldview’s/dimension’s vices-and-impediments implied
 by its implied relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-
 virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-
 construed-as-from-prospective-reference-of-thought. Hence the reason why the vices-and-
 impediments inherent of a given registry-worldview/dimension cannot be
 structurally/paradigmatically/ontologically resolved within it as there is need for prospective

ontological-completeness-of-reference-of-thought structured to inherently supersede such
 vices-and-impediments, whether as base-institutionalisation in superseding recurrent-utter-
 uninstitutionalisation, universalisation superseding base-institutionalisation—
 ununiversalisation, positivism superseding universalisation–non-positivism/medievalism and
 deprocrypticism superseding positivism–procrypticism/disjointedness-as-of-reference-of-
 thought. The central idea here being that the most critically important notion in the situation
 of A, B, C, D, E, F and Z, is Z's upholding of prospective transcendental-
 enabling/sublimating over any temporal extricatory paradigm, however, the enculturation and
 mass thinking behind temporal extricatory paradigm. (* Noting that individuation as defined
 elsewhere speaks of temporal-to-intemporal trait characteristic, as anywhere between
 shortness-to-longness-of-register-of-meaningfulness-and-teleology, that can accrue at least
 incidentally/on-occasion in all individuals-as-receptacles-of-individuations but more
 recurrently as teleologically defining in a-life-phase-or-life-phases-of-given-individuals, thus
 critically enabling a dynamic-cumulative-aftereffect intradimensional and
 transcendental/transdimensional/interdimension/maximalising-recomposuring-for-relative-
 ontological-completeness analysis as metaphysics-of-absence/postdication). Finally, thus it is
 critical to note that the existential contextualisation above as
 'imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity's-
 reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-

 ontologically-same-existential-reality' (from the perspective of the 'dialectical-thinking-or-
 postconverging-reference-of-thought in relative-ontological-completeness as depth-of-
 thought') is a priori and supersedes the mere notion of additionality as elaboration-as-mere-
 extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-

contextualising-contiguity since mere additionality is bound to wrongly represent the additions of B, C, D, E and F as correct (as it is a virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference in <formative>epistemic-totalising-self-referencing-syncretising/illusion-of-the-present-present-consciousness/mirage as metaphysics-of-presence) thus overlooking their ‘wrongly-projected decontextualising-unimbricatedness/unthreadedness/unrecomposuring-as-virtuality-or-ontologically-flawed-construal (which is rather ‘a prior dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing reference-of-thought’ in shallowness-of-thought-or-unsophistication-of-understanding) in grasping existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’. Such ‘a relative teleological-differentiation/scission/variance/disambiguation of references-of-thought’ of Z’s intemporal-disposition reference-of-thought as supratransversality—apriorising/axiomatising/referencing over B, C, D, E and F temporal-dispositions references-of-thought as subtransversality—apriorising/axiomatising/referencing, can be demonstrated in the archetype characters of say a Socrates or Rousseau (even though no human individual as receptacle of individuations can be qualified as purely of intemporal-disposition or purely of temporal-dispositions). Wherein within their respective registry-worldviews/dimensions setups, their maximalising-as-transcendental recomposuring mental-dispositions in projection for prospective institutionalised-being-and-craft, i.e. ontologising of future conventioning, as supratransversality—apriorising/axiomatising/referencing (as the grander intellectual-and-moral effort that can be made within their registry-worldviews/dimensions) is rather poorly

construed to the ordinariness/averageness of thought within their respective registry-
 worldviews/dimensions setups (which mental-dispositions and conventioning – as ‘wrongly-

 existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-
 that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ – will
 rather think as irrational the projective disposition of a Socrates that doesn’t rather advance a
 temporal interest in the city-state polity but is rather bent on spreading new ideas as a natural
 philosopher while prioritising as of nonextricatory-existential-preempting-of-existential-
 unthought in his asceticism the prospective intemporal over the temporal status quo, and
 likewise with a Rousseau who isn’t advancing a temporal interest that his aristocratic stature
 should warrant like actively pursuing for landed properties and currying favours with kings
 but is rather bent principally on a prospective commitment on grasping and spreading notions
 of a renewal of the human condition as universal rights and enlightened despotism. This is
 certainly because emanantly/becomingly/solipsistically temporal-dispositions do not
 appreciate that there is a more ‘profound level of living in the realm of human
 thoughtfulness’ based on eudaemonic-contemplation of ‘intemporal-prioritisation-of-
 reference-of-thought’-as-conflatedness that then ‘invents/creates’ the structural/paradigmatic
 possibility for prospective institutionalised-being-and-craft as there isn’t any inherent
 intemporality/longness needed for maximalising-recomposuring-for-relative-ontological-
 completeness out of the ordinariness/averageness of any institutionalised-being-and-craft

setup. Hence such intemporality/longness as maximalising-recomposuring-for-relative-ontological-completeness need its <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought as of given that the-succession-of-registry-worldviews-or-dimensions-institutionalisations/the-ontological-contiguity—of-the-human-institutionalisation-process is ‘not a human <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness transformation exercise as of temporal-dispositions/shortness-of-register-of-meaningfulness-and-teleology but rather is solely a secondnaturing to supersede the uninstitutionalised-threshold divulged by relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought’. The implication is that acting as-of-a-secondnatured nature is not enough for articulating prospective institutionalisation requiring ‘intemporal projection <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought’ for the requisite prospective maximalising-recomposuring-for-relative-ontological-completeness, and such conceptualisations from only a secondnaturedness of thought as rather contextually temporal is not intemporal as of-universal-and-abstractive nature but is in ‘<formative>epistemic-totalising–self-referencing-syncretising’/illusion-of-the-present/present-consciousness/mirage as metaphysics-of-presence. Thus a registry-worldview’s/dimension’s institutionalisation secondnaturedness is challenged by its very own level of relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought marking its uninstitutionalised-threshold whether as recurrent-utter-uninstitutionalisation with recurrent-utter-uninstitutionalisation, ununiversalisation with base-institutionalisation, non-positivism-or-medievalism with universalisation and procrypticism with positivism, in need for a renewed institutionalisation

respectively as base-institutionalisation, universalisation, positivism and prospectively deprocrypticism. This equally explain why the notion of human transcendental progress is relatively ‘outlier/unenframed driven’ as it requires an intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of thought more than just institutionalised secondnaturing such that it has often been the erudition periphery of institutional-cumulations/institutional-recomposures that had tended to fundamentally put into question their present with new paradigm shifts. It is ontologically-speaking impossible to comprehensively undermine a dimension’s/registry worldview’s postlogism without undermining the registry-worldview’s/dimension’s reference-of-thought itself as implied by its state of relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, for instance psychopathy in positivism—procrypticism or notions of sorcery in universalisation–non-positivism/medievalism (wherein from the prospective point-of-reference respectively as deprocrypticism or positivism, it is in ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as of the placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology), given that this fundamental relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought of the given registry-worldview/dimension as reflected from ontological-normalcy/postconvergence epistemic/notional_projective-perspective, by its ‘contextualising-contiguity of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ means it is structurally bound to enculturate/endemise its given postlogism. Obviously we can appreciate

that without a positivistic outlook/reference-of-thought there is no chance that a non-positivism/medievalism registry-worldview/dimension will do away with notions-and-accusations-of-sorcery, as the latter is bound to arise as of human apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing in non-positivism/medievalism where the mindset/reference-of-thought is not rationally-empirical/positivising. Likewise the procrypticism/disjointedness-as-of-reference-of-thought wherein the perversion-of-reference-of-thought from a psychopathic character is contextually likely to be engaged with (as ‘prelogism-as-of-conviction re-engaging reflex’) and even exploited (whether unconsciously, expediently or consciously), implies a comprehensive structural/paradigmatic undermining of the phenomena of psychopathy and social psychopathy is impossible without putting in question and undermining our uninstitutionalised-threshold as procrypticism for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism which is effectively the structural/paradigmatic resolution of psychopathy and social psychopathy (besides palliative conceptualisations that can hardly make a dent on the comprehensively defined structural/paradigmatic phenomenon in terms-as-of-axiomatic-construct of the larger aetiologisation/ontological-escalation) just as positivism is the structural/paradigmatic ontological resolution of notions-and-accusations-of-sorcery, and ad hoc tempering with medieval postlogism (perverted-outcome-sought-precedes-existentially-veridical-logical-dueness) as instances of notions-and-accusations-of-sorcery doesn’t grasp the underlying and comprehensive medieval social-construct structural/paradigmatic endemisation/enculturation of such a phenomenon. Further, registry-worldviews/dimensions being prospectively <formative>wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) with their ‘intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis’ or ‘socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ determined by their sanctified-conventioning-social-aggregation-enablers, there is a need to circumvent and break these sanctified-conventioning-social-aggregation-enablers by prospective ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ to allow for new defining transcendental meaningfulness and its corresponding grander teleological-differentiation/teleology that can then perceive the prior registry-worldview/dimension as of its relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought and accessorily its enculturating/endemising of its postlogism, and superseding both of these in the prospective registry-worldview/dimension institutionalisation. For instance, the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating of a medicine based on natural causes and drugs as natural cures carried the effectiveness/ontological-primemovers-totalitative-framework that undermined non-positivism/medievalism sanctified-conventioning-social-aggregation-enablers to do away with such notions as curses, sorcerers, etc. being the cause of disease, and undermine the whole teleologically-degraded dispositions based on such sanctified-conventioning-social-aggregation-enablers. Likewise only by articulating comprehensive and effective aetiologisation/ontological-escalation resolutions to the defect of procrypticism and its postlogism first with respect to formal constructions that the derived effectiveness/ontological-primemovers-totalitative-framework can feed back as percolation-channelling to dimensionally (registry-worldview) to undermine the relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-

prospective-reference-of-thought of our procrypticism and accessorially its enculturating/endemising of psychopathy and social psychopathy. Thus suprastructurally (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) and as of the ontological-normalcy/postconvergence ontological-completeness-of-reference-of-thought perspective, ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing—that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ implies a transversality-of-disambiguated-apriorising/axiomatising/referencing as ‘a relative teleological-differentiation/scission/variance/disambiguation of references-of-thought’ by maximalising-recomposuring-for-relative-ontological-completeness of prospective reference-of-thought as supratransversality—apriorising/axiomatising/referencing (as of higher ontological-completeness-of-reference-of-thought reflected in operant individuation terms as ‘coherence in depth of maximalising-recomposuring-for-relative-ontological-completeness/longness-of-register-of-meaningfulness-and-teleology construal of reference-of-thought’) over the dementing-or-preconverging—apriorising-psychologism and dialectically/contendingly-out-of-phasing of the prior reference-of-thought as subtransversality—apriorising/axiomatising/referencing (as of lesser ontological-completeness-of-reference-of-thought with respect to perversion-of-reference-of-thought reflected in operant individuation terms as ‘disjointed-misappropriation/arrogation and derived-disjointed-misappropriation/arrogation of meaningfulness-and-teleological-differentiation in shallowness as incremental/shortness-of-register-of-meaningfulness-and-teleology construal of perversion-of-reference-of-thought and derived-perversions-of-reference-of-thought’; construed as of defective

 psychologism-as-the-new-referencing-basis-of-prospective-meaningfulness-and-teleology)
 by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. As explained,
 the reason for the successive institutional-cumulations/institutional-recomposures underlying
 the ontological-contiguity—of-the-human-institutionalisation-process has to do with human
 limited-mentation-capacity-(as of relative constitutedness towards relative conflation)
 inducing successive recomposuring from shallow-limited-mentation-capacity to deeper-
 limited-mentation-capacity construed as reducing-epistemic-abnormalcy/preconvergence
 towards ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-
 contiguity—or-ontological-preservation. Hence notionally speaking if humans had completed-
 mentation-capacity there will only be deprocrypticism institutionalisation and not the
 subsuming-succession of recurrent-utter-uninstitutionalisation, base-institutionalisation—
 ununiversalisation, universalisation-non-positivism/medievalism, positivism—procrypticism,
 with all mutually implied as subsumed-as-supplanted in deprocrypticism as of achieved

 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument). This
 existential-becoming-transitioning to deprocrypticism as well as the overall existential-

 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument), and up to
 when uninstitutionalised-threshold is structurally/paradigmatically superseded by ‘notional-
 deprocrypticism’ construed as deprocrypticism-as-of-its-mimetic-echoness/deprocrypticism-
 as-of-its-reverberation as ‘notional-deprocrypticism’ accounts for both deprocrypticism and
 procrypticism since it is a potency-construal and not a given reference-of-thought construal
 (contrasted with ‘conceptual deprocrypticism’ as a given reference-of-thought construal); just
 as ‘knowledge notionalisation’ implies a potency-construal of both knowledge and the
 ignorances wherein the enlightening referencing of knowledge extends to a grasp of the
 nature and possibilities of the ignorances as well, in contrast to human ‘knowledge
 conceptualisation’ as of knowledge as of its enlightening or intemporal referencing only.
 Thus just as deprocrypticism subsuming perspective (of institutionalisation-upholding)

thus inherently implies and is about articulations of perversion-of-reference-of-thought with
respect in the very first instance to the validity of implied reference-of-thought rather than
valid articulations of logical contention as the latter is with respect to ontological-veridicality
of logical-processing-or-logical-implication only after the former (reference-of-thought) has
been established as veridical/true. Postlogism/outcome-sought-precedes-logical-dueness is

circularity/recurrence/repetition/repeatability of a subsequent implication of a second-order
level wrongly implied deception of logical-processing-or-logical-implication of infinite
deception possibilities with respect to the infinite possibilities of 'perfect logical-processing-

or-logical-implication' on the false basis of the perversion-and-derived-perversion-of-reference-of-thought). Such perversion-of-reference-of-thought/mental-devising-representation-perversion has various shades of 'temporal/shortness to intemporal/longness depth/register of meaningfulness stranded finalities/teleologies'. This can be demonstrated as follows with psychopathy at childhood (which at this point is relatively transparent to the critical observer). Let's say John is a psychopath, he wants to get his brother Peter punished for annoying him. John knows that dad will punish anyone who spills water on the chair. John, in a 'dereifying act', then spills water on a chair and goes and tell dad Peter has spilled water on the chair, and waits for Peter to get punished (and, this way of acting and thinking is not limited only to a benign notion like spilling water as it could be setting fire, destroying an equipment, etc.). This is different even from bad conviction or prelogism in that a child who has a bad conviction or prelogism is ad hoc and circumspect by taking advantage or reacting to a situation that has developed to accuse another as of temporal-existential constraint. They don't initiate such a situation 'as a rational way of thinking' and even less to the gravity that the psychopath does.

One other major flaw in the perception of the psychopath is that they are liars (a pathological liar, it is said). This again is a flawed notion. To lie is to be in prelogism-as-of-conviction (bad or poor conviction), whether by omitting or exaggerating in a circumspect and ad hoc manner but relative to existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Lying as such is 'an ad-hoc defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance that doesn't speak of the true postlogism/psychopathic

phenomenon which has to do with the perversion-of-reference-of-thought-and-not-of-logical-contention with regards to registry/anchoring-of-meaning/meaningful-reference/ontological-reference/contending-reference/registry-worldview as the psychopath perversion-of-reference-of-thought speaks of ‘a circularity/recurrence/repetition/repeatability as enabled by social-functioning-and-accordance—as-of-social-stake-contention-or-confliction’ implying a ‘being or ontological or meaningfulness or existential defect’ which is poorly construed as ‘pathological lying at the level of logical-processing-or-logical-implication of conviction/prelogic mental-reflex engagement’ rather than being construed as a mental and teleological disposition defect at the level of the reference-of-thought as of perversion-of-reference-of-thought construed as mental-unsoundness). In fact, besides ‘lying’ such poor characterisation of the psychopath extends to other notions like ‘bullying’, ‘manipulating’, ‘fooling’, etc. which are all in prelogism-as-of-conviction/thinking notions though ‘bad or poor convictions’ (bad or poor conviction/prelogism construed as wrong logical-processing-or-logical-implication or wrong operation of prelogism-as-of-conviction but nonetheless prelogism-as-of-conviction). Fundamentally, psychopathic slanting is particular in that it departs from a relation to the ‘empty-form-of-meaning-as-inherently-deterministic outside the framework of a veridical existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’ contrasted with bad/poor conviction which departs with a relation to ‘omitting or exaggerating within the framework of a veridical existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’. But while poor-or-bad prelogism may be what is perceived from a ‘normal’ social and conviction point of view, particularly with adult psychopathy; these are all wrong and actually will make an analysis of the psychopath and psychopathy ontologically-flawed. The psychopath is in a state of non-

conviction-or-‘existential-decontextualised-transposition’-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-‘impulsive-dementation’ (not recognising/giving-up-on the sound operation/processing of logic as the basis for deriving essence of meaning but rather perceiving meaning as just a hollow mimicking form that determines how others will act, more like a projection of form, i.e. non-conviction-or-‘existential-decontextualised-transposition’ being a state of ‘conscious, unprincipled and instrumentalised non-conviction in veridical unsoundness-or-inauthenticity-of-reference-of-thought as the psychopathic mindset/reference-of-thought ontological-primemovers-totalitative-framework value-reference reflected by its perversion-of-reference-of-thought’ in contrast to conviction as a state of ‘conscious, principled and uninstrumentalised conviction in veridical soundness-or-authenticity-of-reference-of-thought as the conviction mindset/reference-of-thought ontological-primemovers-totalitative-framework value-reference’. This is the fundamental fact that explains the evasiveness in grasping the psychopath in its motive and orientation as the psychopath’s actions can be as simple as a basic formulaic (meaning-by-the-mere-illogical-possibility-of-it-being-narrated-or-postlogism-formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-dementing-or-preconverging-apriorising-psychologism) understanding of the effects on interlocutors of endearing, pleasing, laughter, etc. in inducing distraction, empathy, suspension-of-profound-reasoning or reference-of-thought teleological-degradation in relation to its mechanical-comprehension-dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in undermining an prelogism-as-of-conviction perspective which

reference-of-thought is veridical. All the bad or poor conviction terms above, i.e. lying, bullying, manipulating, fooling, etc., wrongly point to the fact that the psychopath is having a ‘deliberative prelogism-as-of-conviction mental process’ with respect to its end purpose, and thus wrongly implying it is in ‘prelogism-as-of-conviction’ with the wrong idea that its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-thought-elements/registry-elements/anchoring-of-meaning-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology are existentially veridical. The psychopath is operating on the basis of ‘a last mimicking denaturing postlogism—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-with-succeeding-shifting-of-the-narratives-and-acts-foci-as-deception-of-successively-shifting-or-non-cohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’, and so to satisfy ‘a faulty-mentation-procedure-deception-or-urge’; and so, one narrative iteration at a time. Now the faulty-mentation-procedure-deception-or-urge implying ‘a convictional deliberativeness’ is coming from its interlocutor’s ‘prelogism-as-of-conviction mind’ itself which prelogically/in-conviction (as the prelogism, which is wrongly induced in distractive-alignment-to-reference-of-thought, conjoins all the denaturing postlogism—construed-as-of-perverted-outcome-sought-precedes-existentially-veridical-logical-dueness postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-with-succeeding-shifting-of-the-narratives-and-acts-foci-as-deception-of-successively-shifting-or-non-cohering-narratives-and-acts as absolving/fleeting/escaping-reflex-logic, to wrongly imply a depth-of-conviction whether as of bad or good conviction/prelogism) in reality is wrongly assuming a depth-of-postlogism-slantedness/insane integration. The psychopath being postlogical—construed-as-of-perverted-

outcome-sought-precedes-existentially-veridical-logical-dueness or
 pathologically/impulsively hollow-constituting—as-disjointed-misappropriation-of-
 meaningfulness-and-failing-intemporal-preservation is not lying (or manipulating or
 bullying), in fact the psychopath will prefer that normal conviction minds think it is lying (or
 any notion of a bad-or-poor conviction rather than the idea of non-conviction), as at least they
 will then wrongly realign prelogically/(existentially-veridical-logical-dueness-precedes-
 logical-outcome-arrived-at) again to it with respect to its subsequent narratives to examine
 the pertinence of its logic/logical-processing i.e. engaging logical operating/processing and
 wrongly granting it conviction (be it even bad-or-poor conviction as this will then wrongly
 imply its wrong or poor performance of logical-processing-or-logical-implication, rather
 than its hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-
 intemporal-preservation/vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-
 projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging/slanting of empty
 narratives that are flawed or non-existent as postlogism-as-of-non-conviction) thus wrongly
 involved in prelogism hence wrongly validating as real its ‘fundamental faulty-mentation-
 procedure-deception-or-urge’ which is its ‘apriorising—reference-of-thought-
 elements/apriorising—registry-elements, that in reality are out of existential-contextualising-

 reference/teleology (instead of examining in the very first place their relevance/pertinence or
 its soundness-or-authenticity-of-reference-of-thought); in so doing, analysing its meaning as
 essence instead of analysing it as non-veridical hollow mimicking form or vague-rhyming-or-

narrated or non-veridical hollow mimicking narratives. What the psychopath is doing is 'SLANTING' or impulsive—dementing-or-preconverging-apriorising. That is to arrive at a sought-outcome by subknowledging-or-mimicking the non-veridical hollow-form of the meaning of other persons conviction narratives which it perceives as 'being blatantly deterministic' of the views and actions of the 'normal prelogism-as-of-conviction mind', i.e. the psychopath is 'narrating veridical emptiness/hollow narratives'. The idea being about arriving at a sought-outcome by taking a posture that does not attach a depth of conviction on narratives but rather simply 'the mere possibility of the hollow narratives being articulated, and then integrated by interlocutors as real'. Thus the psychopathic postlogical mindset and by derivation conjugated-postlogism/dementing-or-preconverging-integration mindset is one of relating to meaning and meaningfulness as valid by 'the mere performative-form representation of meaning and meaningfulness' rather than veracity/ontological-pertinence of meaningfulness. The psyche is thus fundamentally one geared towards how to perform in interlocution rather than express a genuine sense of conviction and hence the disposition for extrinsic-attribution by active social-aggregation-enabling. Meaning and meaningfulness is seen not as an end-construct that is of passive social determinism by its inherent veracity/ontological-pertinence as of intrinsic-attribution associated with transcendental-enabling/sublimating, but rather as a potent and active construct of social determinism which requires actually eliciting a sought after outcome and not a notion of intrinsic existential/ontological inherence. This mental-disposition is qualified as epistemic-decadence or postlogism and its derivation/adoption by temporal-dispositions is derived-epistemic-decadence in conjugated-postlogism. More precisely, it is critical to distinguish between the notion of slanting (*cinglé* in French) as postlogism-as-of-non-conviction and the notion of a lie which is prelogism-as-of-conviction (be it a bad conviction) as with a lie the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry

elements) are existentially veridical with the ‘lying deception’ being of ad-hoc exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality but as of ‘effectively due’ logical-processing-or-logical-implication. The narratives-and-acts-foci of the set-of-narratives of a ‘lying deception’ do not successively shift (as with slanting) but carry an overall coherence implying deception-but-as-of-successively-cohering-narratives. This is because a lie is more of deception arising out of ad-hoc contextual-ambiguity-constraint(s) ad-hocly articulated as deception-but-as-of-successively-cohering-narratives to resolve the ad-hoc contextual-ambiguity-constraint(s), and lying doesn’t fundamentally imply where such ad-hoc contextual-ambiguity-constraint(s) is non-existent the interlocutor will still not be predisposed to a veridical and appropriate logical-engagement/interlocution/implication. This equally explains why a lie collapses as a whole (or whole pieces of the lie) since such a collapse arises out of the truth/ontological-veridicality resolution of the contextual-ambiguity-constraint(s) behind the coherent structure(s) of the lying deception. Slanting on the other hand speaks of a fundamental pathological faulty-mentation-procedure-deception-or-urge associated with postlogism-as-of-non-conviction with respect to social-stake-contention-or-confliction (and by extension ‘derived-slanting’ induced as conjugated-postlogism-opportunism and conjugated-postlogism-exacerbation arises out of purposeful enculturation/endemisation of the slanting habit where it is viewed by some interlocutors of the psychopath as socially-functional-and-accordant, since its manifestation is not universally transparent as ontologically decadent); due to the slanted child psychopathy mind’s developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-

thought-devolving-as-of-instantiative-context, whereas the latter is exactly what validates logical-processing-or-logical-implication as a process reflecting existential-reality as of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), with respect to construing meaning and meaningfulness as prelogism-as-of-conviction, but instead construes meaning and meaningfulness as postlogism-as-of-non-conviction explaining the circular nature and its particularly overblown extrinsic-attribution mental-disposition to elicit social-aggregation-enabling over relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating with regards to inherent reality and meaningfulness. The peculiarity of slanting is that it is deception-of-successively-shifting-or-non-cohering-narratives-and-acts wherein the initiation of a hollow falsehood narrative is followed by the projection of another hollow falsehood narrative on the basis of the former as if the former was true, and the projection of another falsehood narrative on the basis of the previous one as if the previous one was true, and so on. Thus slanting doesn't have a 'coherent whole of narratives' with respect to existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as is the case when someone tells a lie, and actually where such a 'coherent whole of narratives' with respect to existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context is wrongly implied about slanting, it has to do with prelogism-as-of-conviction mind/mental-disposition 'wrongly conjoining the succession of slanting narratives from the last iterated slanted narrative' to wrongly imply that the slanting psychopath narratives are a 'coherent whole of narratives as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context', and this is the mechanism that induces

conjugated-postlogism/dementing-or-preconverging-integration by some interlocutors of the adult psychopath, whether conscious or unconsciously. It is interesting to note that at childhood psychopathy where the mental-disposition is relatively universally-transparent what is perceived and related to by conviction interlocutors is not a 'coherent whole of narratives' but a deliriousness/delirious-effect/cinglé-effect/mental-unsoundness-effect arising out of its contemplation (as if it were true), pointing out that the reality of mental-states in wrong prelogism-as-of-conviction alignment to psychopathic slanting is actually a mental-unsoundness not different as contemplating aligning in conviction to the childhood psychopathy slanting as with the dereifying example of spilling water on a chair and accusing another. A salient comparison that strongly highlights the difference between slanting and lying, is that a lying child doesn't come across as delirious since its lying deception is a coherent whole as of contextual-ambiguity-constraint(s) while a slanting deception is as of faulty-mentation-procedure-deception-or-urge due to psychopathic developmental failure to relate to meaning and meaningfulness as of prelogism-as-of-conviction with the personality development out of that developmental failure bringing about the adult psychopath slanting mental-disposition with respect to social-stake-contention-or-confliction; and as the adult psychopath developed maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, induces interlocutors conviction/prelogical alignment to its non-conviction/postlogical narratives whereas at childhood psychopathy interlocutors will not align in-conviction/prelogically (in order not to wrongly conjoin the psychopathic postlogical slanting narratives as deception-of-successively-shifting-or-non-cohering-narratives-and-acts as if of coherent whole as conviction/prelogical narratives, and this is what actually occurs by inducing conjugated-postlogism/dementing-or-preconverging-integration in interlocutors at adulthood psychopathy) given the obvious and transparent deliriousness/delirious-effect/cinglé-effect

associated with slanting over a slant over a slant, successively. Hence, this slanting deception (deception-of-successively-shifting-or-non-cohering-narratives-and-acts) is also qualified as deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-dementing-or-preconverging-apriorising-psychologism. Thus, with slanting the implied-logical-dueness (with the corresponding implied-reference-of-thought/implied-registry elements) are existentially unreal/non-veridical/flawed explaining the meaningful emptiness/hollowness of slanting (as not even an exaggeration or omission or inappropriate accounting of circumstantiality and/or factuality as of ‘effectively due’ logical-processing-or-logical-implication), thus explaining why ‘slanting and derived-slanting’ is construed as unsoundness-or-inauthenticity-of-reference-of-thought/dementing-or-preconverging-apriorising-psychologism as opposed to lying deception construed in a shade of soundness-or-authenticity-of-reference-of-thought. Insightfully, it points out as well that the basis of the postlogism/psychopathic induced deception is not the psychopath itself (as it is commonly asserted about psychopathic manipulation), but rather it lies in the very nature of the reasoning of the prelogism-as-of-conviction interlocutor mental engagement reflex who ‘aligns in-conviction’ as it will ‘normally do’ with other conviction/prelogical minds to a postlogism-as-of-non-conviction mind, and then wrongly validates that the postlogism-as-of-non-conviction mind is in prelogism-as-of-conviction. In other words, the operation of the psychopathic mind as of its incomplete mentation development (as inclined to induce a faulty-mentation-procedure-deception) as it fails to construe meaning and meaningfulness as based on prelogism-as-of-conviction but rather as based on postlogism-as-of-non-conviction with its personality development into adulthood on this basis, paradoxically leads to the prelogism-as-of-conviction mind’s deception since the latter operates on the basis that everyone must be conviction (be it bad-conviction at worst) and the notion of postlogism-as-of-non-conviction

doesn't register naturally except where the personality development of the childhood psychopathy into an adult psychopath is experienced closely, and the adulthood psychopath mentation processes structure can be retraced to the delirious mentation processes structure at childhood psychopathy when it is universally transparent as maturation/indirectness/spatialisation/credulity/craftiness continually developed during its personality development into adulthood psychopathy now enables it becoming socially-functional-and-accordant. This induced deception does not however occur at childhood psychopathy since it is very much transparent as a deliriousness/delirious-effect/cinglé-effect as the childhood psychopathy has hardly achieved maturation/indirectness/spatialisation/credulity/craftiness of its slanting-deception mental-disposition. What underlies the slanting of the psychopath is its rather unnuanced understanding and gauging of social situations and social cues as out of existential-contextualising-contiguity by its dereification on a mental-processing disposition that is rather a 'dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence', and so in contrast with the expected 'reifying nuanced/multivalent mental-processing' of convictional dispositions in existential-contextualising-contiguity, however bad-or-poor their ontological-performance of convictional mental-processing. This underlies the apparent vividness of interlocution with the psychopath especially with regards to social-stake-contention-or-confliction due to a 'conviction by non-conviction cross-perception effect' wherein the convictional interlocutor by its mental-reflex is wrongly inclined to perceive and so specifically with adult psychopathy a 'reifying nuanced/multivalent mental-processing' in existential-contextualising-contiguity knowledge-reification with regards to the psychopath 'dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence' out of existential-contextualising-contiguity-in-reification/dereification, while the psychopath view of the convictional interlocutor's supposedly 'reifying

nuanced/multivalent mental-processing' in existential-contextualising-contiguity knowledge-reification is rather as of its 'dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence' inclination out of existential-contextualising-contiguity-in-reification/dereification. While at childhood psychopathy such a 'dereifying bivalent-disposition-to-acute-caricatural-prepotence-or-acute-lulling-diffidence' out of existential-contextualising-contiguity-in-reification/dereification is socially inefficacious and trouble-inducing giving the deliriousness effect from universal-transparency of its acts, at adulthood psychopathy the lack of such universal-transparency of the postlogism-slantedness rather makes the latter 'sound impassioned/stirring/vivid/spirited' to the unsuspecting interlocutor who by mental-reflex wrongly assumes as ontologically-veridical the falsely implied existential-contextualising-contiguity, giving the psychopath life-long learnedness and adaptation from its childhood inefficacy as of its increasing maturation/indirectness/spatialisation/credulity/craftiness with adulthood, and this latter 'apparently impassioned/stirring/vivid/spirited but rather falsely implied existential-contextualising-contiguity' disposition tends to be socially enculturated/endemised as of conjugated-postlogism. But then, more than just the deception this state of affairs has a further nefarious effect on the natural human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, as the induced 'lack of constraining social universal-transparency with respect to intrinsic meaningfulness further elicits conviction minds temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, which can actually be more decisive grounds for the perpetuation of psychopathy as social-psychopathy,

as the fact is the psychopath is very much pathological and tends to act impulsively in its faulty-mentation-procedure-deception as of circumstantiality.

[This is more profoundly exposed in the conceptualisation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as it induces ‘socially-functional-and-accordant reference-of-thought as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor; that can be elucidated by an existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context analysis of ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’-and-not-‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation’. Central to such an insight, is the understanding of what the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor means about human mental-disposition. The implication is that we ‘consistently’ have two sets of mental-dispositions having to do with the uninstitutionalised-threshold of all registry-worldviews/dimensions; as of metaphysics-of-presence and metaphysics-of-absence representations. First, ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ within the scope of a registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (as-not-failing/upholding intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-

normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication). Then, ‘human temporal uninstitutionalised-threshold mental-disposition’ construed either ‘as out of the scope of the registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ or ‘the registry-worldview/dimension uninstitutionalised-threshold reference-of-thought’ (as-failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ‘by projected <formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging–narratives)-<of-the-prior-registry-worldview’s/dimension’s-institutionalisation-reference-of-thought–categorical-imperatives/axioms/registry-teleology> of the registry-worldview/dimension institutionalisation reference-of-thought’, as of an ontological-normalcy/postconvergence epistemic/notional_projective-perspective) as so reflected from the prospective registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. With the attainment of registry-worldview/dimension institutionalisation by social universal-transparency we can very much uphold a secondnatured quasi-intemporal-disposition reference-of-thought as ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ which is why humankind pursues institutionalisations as devising human collective emancipation from base-institutionalisation to universalisation to positivism and prospectively to deprocrypticism in resolving the vices-and-impediments of their respective uninstitutionalised-thresholds as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and

procrypticism. But exactly for the purpose of ensuring the perpetuation of this human registry-worldview's/dimension's institutionalisation capacity (as in enabling futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism) as the very essence of human virtue itself, it is equally important to understand how institutionalisation comes to be limited at successive registry-worldviews/dimensions institutional-cumulations/institutional-recomposures (as of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor) to grasp how we can then supersede/transcend prospectively. 'Human temporal uninstitutionalised-threshold mental-disposition' refers to our fixation to the mere-categorical-imperatives/axioms/registry-teleology of the registry-worldview/dimension institutionalisation reference-of-thought but failing/not-upholding-as-of-apriorising/axiomatising/referencing prospective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication as construed from the prospective registry-worldview/dimension institutionalisation reference-of-thought, and as revealed by this prospective institutionalisation existential-contextualising-contiguity-in-reification's-elucidation-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Fully understanding psychopathy which is the postlogism-as-of-non-conviction of the positivism—procrypticism registry-worldview/dimension institutionalisation—uninstitutionalisation reference-of-thought is inevitably tied to understanding our procrypticism as our 'human temporal uninstitutionalised-threshold mental-disposition' from futural Being-development/ontological-framework-expansion—as-

to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as
 of prospective deprocrypticism registry-worldview institutionalisation reference-of-thought,
 as of ontological-normalcy/postconvergence wherein our procrypticism ‘human temporal
 uninstitutionalised-threshold mental-disposition’ is decentered and dementing-or-
 preconverging–apriorising-psychologism as dialectically-out-of-phase, just as understanding
 the postlogism of the universalisation–non-positivism/medievalism registry-
 worldview’s/dimension’s reference-of-thought like notions of and accusations of sorcery, is
 inevitably tied to understanding non-positivism/medievalism as the ‘human temporal
 uninstitutionalised-threshold mental-disposition’ so-construed from prospective positivism
 registry-worldview/dimension institutionalisation reference-of-thought as of ontological-
 normalcy/postconvergence ‘wherein the non-positivism/medieval mental-disposition is
 decentered and dementing-or-preconverging–apriorising-psychologism as dialectically-out-
 of-phase; and in both instances, construed as of their relative-ontological-incompleteness-of-

 (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective of
 the prospective registry-worldview/dimension institutionalisation reference-of-thought) by its
 ‘decentering and dialectical-dementation of its reference-of-thought’; which we can
 effectively acquiesce to as of the uninstitutionalised-thresholds but will rather have a mental
 complex when this is implied prospectively to imply our uninstitutionalised-threshold as
 procrypticism, just as all registry-worldviews/dimensions had hitherto displayed a mental
 complex when their construal as uninstitutionalised-threshold is implied. Thus this implied
 human ‘dialectical-thinking-or-postconverging-psychology or psychology-of-mentation-
 dynamics or natural psychology-of-dynamics’ as driven by ontological-
 normalcy/postconvergence will explain the specific natures of registry-
 worldviews/dimensions references-of-thought (as ‘underlying scheduling of soundness-or-
 authenticity-of-reference-of-thought’) behind the successive registry-worldviews/dimensions

institutional-cumulations/institutional-recomposures peculiar psychologisms/psychologism-constructs of meaning and meaningfulness in explaining the empirical-realities of the various anthropological societies mindsets/reference-of-thought/consciousness-awareness-teleology; whether as recurrent-utter-uninstitutionalisation psychologism, base-institutionalisation-universalisation psychologism, universalisation-non-positivism/medievalism psychologism, positivism-procrypticism psychologism, and prospectively deprocrypticism psychologism equally qualified as suprastructuralism. Hence, our present positivism mental-disposition is just one of human historical psychologisms/psychologism-constructs, and it is not absolute as to imply there aren't or weren't other human psychologisms/psychologism-constructs, wherein in their own realisation, perception and thought they are 'not decentered' and 'not dementing-or-preconverging-apriorising-psychologism' as of their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing rather so construed from a higher psychologism's articulation of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as ontologically-veridical. Thus, deprocrypticism as decentering and dementing-or-preconverging-apriorising-psychologism the positivism-procrypticism registry-worldview reference-of-thought will certainly imply an altogether different psychologism of meaning and meaningfulness-and-teleology as suprastructuralism. It should be noted that the implied meaning of psychologism here has to fundamentally do with a psychology arising out of ontological development in the construal of intrinsic-reality/ontological-veridicality establishing a mindset/reference-of-thought of meaningfulness-and-teleology with its psychologism/psychologism-construct, and so it is ontologically-driven. As further ontological development in the construal of intrinsic-reality/ontological-veridicality arises (as of human limited-mentation-capacity-deepening-

(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)) a renewing of mindset/reference-of-thought of meaningfulness-and-teleology with its corresponding psychologism/psychologism-construct occurs, with this ontological-contiguity—of-the-human-institutionalisation-process leading to the successive registry-worldviews/dimensions reference-of-thought psychologisms/psychologism-constructs, and implied prospectively as well with the deprocrypticism worldview/dimension reference-of-thought psychologism/psychologism-construct. Critically, a psychologism/psychologism-construct takes an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument form that construes meaning and meaningfulness from the prior (and even lower) registry-worldview's/dimension's reference-of-thought psychologism up to its own registry-worldview's/dimension's reference-of-thought psychologism as of its more profound existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in reflecting/perspectivating their relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing. Hence this articulation of successive registry-worldviews/dimensions reference-of-thought psychologisms up to the deprocrypticism, is an initiation into deprocrypticism psychologism as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its more profound existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in reflecting/perspectivating the relative-ontological-incompleteness-of-reference-of-thought-induced-virtuality-or-ontologically-flawed-construal-or-hollow-staging-and-performance-caricaturing of positivism–procrypticism and all the lower registry-worldviews/dimensions. Basically, this idea of 'human temporal uninstitutionalised-threshold mental-disposition' as

metaphysics-of-absence points out that ontological analysis should rather be from the prospectively implied 'human registry-worldview's/dimension's institutionalisation mental-disposition', and in this instance implying an ontological analysis of psychopathy and social psychopathy from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview reference-of-thought and not the present positivism—procrypticism, just as analysing notions-and-accusations-of-sorcery should rather be from the prospective positivism registry-worldview reference-of-thought and not its present universalisation—non-positivism/medievalism registry-worldview reference-of-thought; as of the fact of fundamental registry-worldview/dimensional 'prospective registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect>, so construed in order to supersedes its structural/paradigmatic vices-and-impediments. Paradigmatically, this idea extends to all issues implying metaphysics-of-absence 'human temporal uninstitutionalised-threshold mental-disposition'. This brings home the underlying notion of rational-realism as construed herein, as rational-realism attends to the idea of human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as enabling its more profound grasp of intrinsic-reality/ontological-veridicality by way of a concurrently more and more 'rational realistic' construal of intrinsic-reality/ontological-veridicality as of a natural human psychological growth disposition ('dialectical-thinking-or-postconverging—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics'). Wherein, going by its first impulse with respect to its 'construal/conceptualisation activity as of its coming into existence in the world', human natural mental-reflex starts out with a simplistic idealism to account at one fell swoop for the comprehensiveness/complexity of intrinsic-reality/ontological-veridicality it faces and has to contend with while

construing/conceptualising fundamental meaningfulness-and-teleology. This then gives rise to such a simplistic idealism of the natural idea of Gods or God or Spirits, as taking away the chore of understanding and purpose, and giving a sense of intuitive guidance, hope, peace of mind and as to what humans should expect in their existence. But as of the intrinsic-reality constraints of having to deal with matters of the world on its own by developing notions of understanding and purposefulness as the mere imagination of God or Gods or Spirits by itself doesn't give agency (or at the least 'perceived' sufficient agency) in resolving human issues of the world and making its need for understanding and purposefulness go away. This induces a bifurcation of human intellectual-and-moral allegiance to the supernatural and the real in adjunction, as of their 'perceived' effectiveness. With a commitment to the idealism of the supernatural not only as of its 'perceived' virtuous import, but as of 'perceived' nefarious effects to human volition to it, man hangs on to both an effective realistic as well as idealistic conceptualisation/construal in existence. Such a growth psychology ultimately goes beyond construing idealism as the supernatural but as a complement to more and more profound realistic understanding and purposefulness in existence, but then having to readjust such idealism wherein the real as of its critical import to critical existence issues increasingly comes to take presence as of its effectiveness. Such that as construed today, human history overall has been an exercise in toning down the grander notion of idealism as of notions of the supernatural, essences and metaphysical ideals, and enabling increasing permeation and/or superseding of such notions with an effectiveness-driven realism leading to a general and increasing elevation of knowledge as the-human-and-social-emancipator, the present ascendancy of philosophies increasingly concerned with the human realities of existence (strongly so, lately with such movements as positivism, phenomenology, existentialism and post-structuralism) and science in all its facets whether physical, biological or social, as well as a human-centeredness of arts and culture. Rational-realism is grounded on this historic

empirical state of affairs of increasing human realism in taking hold of its destiny on ‘the premise of a deference to intrinsic-reality as of its effective inherence validated by ontological-primemovers-totalitative-framework’ that has accompanied human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) in construing/conceptualising meaningfulness-and-teleology. Rational-realism thus finds in the grander notion of idealism, an avowal of human limited-mentation-capacity-⟨as of relative constitutedness towards relative conflation⟩ that actually is behind all apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing of successive registry-worldviews/dimensions; with the idea that there is no place to hide behind idealisms and that human emancipation and virtue has been and is fundamentally about buckling down and undertaking the requisite effort in ‘understanding for real’ and not differing to ‘thin air’ in the name of idealism. Rational-realism pushes the grander notion of realism further by asking the question, have all the idealisms as of the grander idealism been identified and superseded? It comes to the conclusion that while that has been decisively the case with supernaturalism, belief in essences and metaphysical idealism, as of structural/paradigmatic social implications, one other sort of idealism remains to be recognise as ‘false realism’; the idealism that doesn’t grasp what man itself is, rather as overly indulgent in not recognising how a thorough understanding of itself in enabling pivoting/decentering is effectively the strongest asset for its full emancipation. Central to such a most basic realism is grounding human knowledge of itself and thereof all knowledge on the ‘mediocrity principle’ as to enable the full construal of both metaphysics-of-presence and metaphysics-of-absence ontologies as enabling a further human emancipation registry-worldview’s/dimension’s reference-of-thought psychologism, deprocrypticism psychologism. This is the insight behind the articulation of the social construed in threshold terms of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction rather as socially-

functional-and-accordant. This insight further divulges the reality across all registry-worldviews/dimensions of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ and ‘human temporal uninstitutionalised-threshold mental-disposition’, as powerful conceptualisations for framing issues in their appropriate psychologism however unpalatable/inconveniencing, as history has always shown that unpalatability, inconvenience and contrariety have always been the test that all humans have had to undergo to effectively achieve their respective prospective registry-worldview/dimension transcendence, and the more complete conceptualisation of knowledge goes beyond its technicalities and plainness to imply its underlying sense of dedication as the very intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition behind its creation, cultivation and projection. And as with all previous realism drives, the idea of rational-realism is not as an articulation within the finite scope of the present meaningfulness-and-teleology frame of thought and social-stake-contention-or-confliction but rather carries a prospective scope, just as the vocation of the realism of a positivistic mindset/reference-of-thought in a non-positivistic social-setup should not be about elaborating meaning as of positivistic meaningfulness-and-teleology to engage the non-positivistic social-setup in terms-as-of-axiomatic-construct of its non-positivistic sense of social-stake-contention-or-confliction of human relations as that will certainly just induce an ‘idle circularity and contrariety’ within the non-positivistic social-setup. But rather the point is all about recognising ‘human prospective institutionalisation capacity as the very essence of human virtue’ available to all humans past and present, that enabled this animal among all creatures to be engaged in a grander collective exercise of ‘existential-tautological eudaemonic-contemplation’ (as of human ‘subpotent-mimetic-echoness-derivation-within-the-full-potency of existence-as-of-its-mimetic-echoness’), to imply that there is a prospective virtuous

possibility of human registry-worldview's/dimension's institutionalisation that can be grasped, and so expressed in terms-as-of-axiomatic-construct of the notion of social-stake-contention-or-confliction of that prospective institutionalisation psychologism, just as the vocation of the positivistic mindset/reference-of-thought is all about eliciting the notion of social-stake-contention-or-confliction in terms-as-of-axiomatic-construct of positivistic psychologism to imply that the non-positivistic community has the capacity and should come to terms with its human emancipatory institutionalisation potential. Insightfully, the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument comparison can be used to reveal the 'perpetually stable temporal-to-intemporal nature of human mental-disposition as of institutionalisation or uninstitutionalised-threshold', across all registry-worldviews/dimensions references-of-thought but for the fact that they have different reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation building up from the prior ones as of their respective elucidation-of-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidentated-or-random-mental-disposition as failing/not-upholding-as-of-apriorising/axiomatising/referencing rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-{as 'first-level presencing—absolutising-identitive-constitutedness of reference-of-thought' apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for base-institutionalisation—ununiversalisation, ununiversalisation failing/not-upholding-as-of-apriorising/axiomatising/referencing universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-{as 'second-level presencing—

absolutising-identitive-constitutedness of reference-of-thought' apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for universalisation–non-positivism/medievalism, non-positivism/medievalism failing/not-upholding-as-of-apriorising/axiomatising/referencing positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-(as 'third-level presencing—absolutising-identitive-constitutedness of reference-of-thought' apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for positivism–procrypticism or prospectively, positivism failing/not-upholding-as-of-apriorising/axiomatising/referencing 'deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as conflation of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) required for perpetuating-deprocrypticism). Supposed there was no apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument defect (no perversion-of-reference-of-thought) with social universal-transparency of the calculations to be done, it is fair to say 'human registry-worldview's/dimension's institutionalisation mental-disposition' in this reference-of-thought is of quasi-intemporal-disposition (and the whole point of human knowledge aspiration and virtue is to achieve this state or deferential-states-of-this-state as with formalisations and percolation-channelling). Thus calculations (logically-derived meaningfulness) in such an institutionalised framework are effectively in ontological-good-faith/authenticity but for failure in performance as defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance. But then human existential-reality comes with human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) with limited

grasp of intrinsic-reality at various stages of human emancipation up to the present day, such that social universal-transparency required for ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’ has been made transcendently available only in partial construals/conceptualisations that are as-of existential-reality, and where non-available at uninstitutionalised-threshold, it is naïve to construe human mental-disposition as of quasi-intemporal-disposition; as the anthropological and historical evidence consistently points to a different structure with regards to the ‘human temporal uninstitutionalised-threshold mental-disposition’ as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context elucidated ontological-normalcy/postconvergence. It points to a fundamental structural disposition for human temporalities-drives to adhere to the <formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives)-<of-the-prior-registry-worldview’s/dimension’s-institutionalisation-reference-of-thought—categorical-imperatives/axioms/registry-teleology> (failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication) of the given registry-worldview/dimension, when incapable of construing a prospective registry-worldview reference-of-thought as providing the resolution for the vices-and-impediments associated with such a present registry-worldview/dimension institutionalisation. Such notions as the following that can be at the very centre of ways of thought in various social-setups or subcultures are not fortuitous but speaks of the reality (as metaphysics-of-absence) of the notion of ‘human temporal uninstitutionalised-threshold mental-disposition’ that

structurally/paradigmatically ‘notionally acquiesce to the possibility of a registry-worldview’s/dimension’s temporality/shortness and is non-transcendental to that possibility’: she deserves to be raped because she was scantily clad as well dressed women will not be raped; his goods deserve to be stolen as he didn’t look after them properly; those people/group/ethnicity deserved what happened to them because they are so and so; etc.

[We can note here that such statements as of a variance of more banal to weightier nature can be made as being socially-functional-and-accordant (without or hardly any negative consequences at the acceptable socially-functional-and-accordant-threshold like being repudiated or incriminated, etc.), construed as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’ in the same social space that statements of ‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-maximalising-recomposuring-for-relative-ontological-completeness-as-inducing-the-prospective-institutionalisation’ are made but with both construed in the conventioning of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as effectively ‘non-dissociable’, thus validating the notion that institutionalisation is not about solipsistic transformation into the intemporality-drive (longness-of-register-of-meaningfulness-and-teleology disposition) but rather about acceptable thresholds for the registry-worldview/dimension institutionalisation defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction, explaining why uninstitutionalised-thresholds are bound to arise successively in the ontological-contiguity—of-the-human-institutionalisation-process (out-of-human temporality) together with corresponding prospective institutionalisations (out of-human intemporality) with the latter enabling <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought of defined social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as of the

notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking/postconverging-qualia-schema> in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. This equally explain why and in particular in certain domains like the philosophical construed as ‘notional philosophical’ (by its very ‘first-ontology responsibilities’), the social-construct conventioning cannot and should not be considered and related to as an absolute determinant of meaningfulness, value and worth as it is more of a conventioning however ontologically-informed the conventioning, and ‘the need for the social-construct further development requires that it can utterly be put into question by pure-ontology conflatedness with no conventioning complexes’! (As a reminder, the notion of intemporality/temporality is an ontological-as-of-being construct and the apparent references to virtue imply the subsumed construal of virtue by the ontological-as-of-being construct, such that it is important to grasp that all notions articulated herein are ontological, just as the notions of the being domains-of-study of the natural world are ontological, and the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature of the being domains-of-study of the social world should not naively imply a construct that isn’t ontological or otherwise, as in both instances the aspiration is for ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as an otherness from any emotional-involvement/subjectification/notional <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag predilection of the inquirer’. This elucidation is equally to highlight that the idea of socially-functional-and-accordant ‘modular-thresholds’-of-temporal-to-intemporal-dispositions-dissociability is beyond just a construal as of virtue analysis but rather an ontological analysis, as it applies in all social conceptualisations of performance and functionality whether virtuous or virtuously-neutral but necessarily as of the social being/existence domains-of-study.) The conventioning

of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction effectively ‘non-dissociable’ modular construal of temporal-dispositions and intemporal-disposition rather as of socially-functional-and-accordant thresholds, has deterministic implications with regards to ‘interdimensional/transdimensional/transcendental registry-worldview/dimension-level of analysis’ as well as ‘temporal-to-intemporal-dispositions individuation-level of analysis’; for construing the implications of such ‘modular-thresholds’-of-temporal-to-intemporal-dispositions-dissociability social-functioning-and-accordance—as-of-social-stake-contention-or-confliction effectiveness-or-ineffectiveness and ontological-resolution as of ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing—psychologism by way of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ in resolving registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance capabilities, as the very foundational operant conceptualisation of an ontologically-contiguous ‘dialectical-thinking-or-postconverging—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’. This fundamentally highlights a ‘notional-conflatedness/constitutedness-to-conflatedness dynamic relationship’ with meaningfulness-and-teleology as directly reflecting ‘ontological-normalcy/postconvergence dynamics (in abstractly elucidating any given registry-worldview’s/dimension’s ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsis-ing-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology’, and so by the successive registry-worldviews/dimensions in corresponding snowballing succession of synopsis-ing-depth of meaningfulness-and-teleology reconstrual going by ontological-normalcy/postconvergence implications); involving successively, <formative>epistemic-

for-social-functioning-and-accordance with no-temporal-to-intemporal-dispositions-non-dissociability (due to social universal-transparency of deprocrypticism meaningfulness-and-teleology), is equally the need to supersede human ‘emotional involvement’. As ‘emotional-involvement’ is self-centering-and-definitional of human consciousness as of our animate-existential-referencing/subjectification, but actually such reality is otherwise of the same ontologically-veridical nature as existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ into which everything else is caught into as superseding–oneness-of-ontology (even though our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction will often tend to induce a relatively flawed meaningfulness-and-teleology construal in this regard, that explains our metaphysics-of-presence mental-disposition). Thus an appropriate ontologically-veridical social-conceptualisation and/or storied-construct/ontologically-valid-narration as aetiological/ontologically-escalatory that has the capacity to supersede the inherent human high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction specific element (which tend to denaturing meaningfulness-and-teleology construal, as high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction is behind manifest human ‘non-dissociability’ of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance temporal-to-intemporal thresholds’ within the ontological scope of any given institutionalisation), should be able to imply the same underlying ontologically-veridical existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-

prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ of the superseding–oneness-of-ontology as any other truly ontologically-veridical conceptualisation, be it of animate or inanimate nature. The implication being that the underlying notional <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag(of our ‘emotional-involvement’ as self-centering-and-definitional of human consciousness as of our animate-existential-referencing/subjectification) can perfectly be escaped from to more profound and unsuspecting depths of ontologically-veridical meaningfulness-and-teleology construal (enabling ‘dissociability of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance temporal-to-intemporal thresholds’ ontologically), and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, ushering in ‘an ontologically-veridical existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’’ contemplation to a point that subsumes equably both animate-existential-referencing/subjectification and inanimate-existential-effecting, wherein the underlying teleological-determinism of human functional and performance thresholds are effectively desubjectifiable-as-objectifiable to the point of attaining ‘effecting teleological-determination’ of the same level as inanimate ‘effecting determination’ (with little temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction denaturing meaningfulness-and-teleology construal), and so enabled with the referentialism technique of point-referencing for conflation in construing temporal-to-intemporal contrastive-synopsising-depths-of-meaningfulness-and-teleology as ‘dissociable temporal-to-intemporal thresholds of the registry-worldview’s/dimension’s–reference-of-thought-for-social-

 tends to point to a commonness of reference-of-thought as of prospective relative-
 ontological-completeness-of-reference-of-thought construed as reference-of-thought—
 prelogism-as-of-conviction, however at the uninstitutionalised-threshold the implication of
 such a commonness of reference-of-thought is rather construed as of the relative-ontological-
 incompleteness-of-reference-of-thought so-disambiguated as of temporal-dispositions (as
 well as as such temporal-dispositions conjugate with postlogism perversion-of-reference-of-
 thought inducing derived-perversion-of-reference-of-thought beyond-the-consciousness-

 construed as reference-of-thought—madeupness/bottomlining, in the sense that in this instance
 such interlocutors reference-of-thought—madeupness/bottomlining tend to be circular with
 respect to their ontologically-effective 'decided temporal/shortness-of-register-of-

 transversality-of-disambiguated-apriorising/axiomatising/referencing. This construal
 effectively enabling delineation of underlying ontological-primemovers-totalitative-
 framework of mental-dispositions. reference-of-thought—madeupness/bottomlining across all
 registry-worldviews/dimensions refers to the constituent temporal individuations mental-

dispositions at a registry-worldview/dimension uninstitutionalised-threshold and points to their apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as of its uninstitutionalised-threshold pointing to an inclination for untranscendability and undementability as of mechanical-knowledge (beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) but for the constraint of prospective social universal-transparency, and so in contrast to the same registry-worldview/dimension reference-of-thought–prelogism-as-of-conviction mental-disposition that reflects its ontologically-veridical meaningfulness-and-teleology as its institutionalisation which rather points to an inclination for transcendability and dementability as of organic-knowledge once it does conceptualise the veridicality of the uninstitutionalised-threshold as ontologically-flawed. Such construal of temporal individuations reference-of-thought–madeupness/bottomlining at uninstitutionalised-threshold is critical because then and in effect, the mental-reflex to ontologically validate these as of reference-of-thought–prelogism-as-of-conviction mental-disposition so-construed as of sound/existential-contextualising-contiguity logical-dueness is ontologically put into question given the perversion-and-derived-perversion-of-reference-of-thought. Such that ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating is projectable about the uninstitutionalised-threshold, and not as it is circularly construed within the uninstitutionalised-threshold frame as a construal of logical pertinence (logical-processing-or-logical-implication), but rather involving priorly the determination of temporal individuations reference-of-thought–madeupness/bottomlining as these fail to reflect soundness-or-authenticity-of-reference-of-thought, that is, establishing whether or not there is perversion-and-derived-perversion-of-reference-of-thought in the first place before any implication of logical-dueness/logical-pertinence arises. Consider as of metaphysics-of-absence or ontological-normalcy/postconvergence analysis the case of notions-and-accusations-of-sorcery in a non-

positivistic social-setup uninstitutionalised-threshold which is rather in want of positivistic
 meaningfulness-and-teleology. Effectively establishing deconstructive ontological-
 veridicality implies recognising the overall registry-worldview's/dimension's relative-
 ontological-incompleteness-of-reference-of-thought as superstitious/non-positivistic inclined,
 its postlogism and conjugated-postlogism as acknowledging and contending about notions-
 and-accusations-of-sorcery (beyond-the-consciousness-awareness-teleology-<in-existential-
 extrication-as-of-existential-unthought>) thus leading to perversion-and-derived-perversion-
 of-reference-of-thought, with this succinctly reflecting the reality of temporal-dispositions as
 to reference-of-thought-madeupness/bottomlining as of such non-positivism reference-of-
 thought uninstitutionalised-threshold. Such that it is not a logical exercise (logical-
 processing-or-logical-implication) that is in order which will rather be circular as
 fundamentally operating on false non-positivism registry-worldview's/dimension's
 institutionalisation reference-of-thought-categorical-imperatives/axioms/registry-teleology of
 superstition but rather one of determination of temporal individuations reference-of-thought-
 madeupness/bottomlining as this reflects postlogism denaturing and conjugated-postlogism
 derived-perversion-of-reference-of-thought as deconstruction of ontological-veridicality in
 implying and projecting about the prospective institutionalisation as of positivism
 meaningfulness-and-teleology reference-of-thought-categorical-imperatives/axioms/registry-
 teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation
 (rather than a naïve operation of logic as is further highlighted below). The fact is with or
 without postlogism and derived conjugated-postlogism, human reference-of-thought-
 prelogism-as-of-conviction tends to be relative. That is, even within a registry-
 worldview's/dimension's institutionalisation basis we don't necessarily function socially
 absolutely on the basis of veridical sound logic as we are limited by capacity (beyond-the-
 consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>)

given our relative-ontological-incompleteness-of-reference-of-thought and secondly by arbitrariness in the choices we make, and this get even worst at the uninstitutionalised-threshold. Consider in this regard even the case of Heidegger as one of the greatest thinker of the last century in his ‘perplexed cooperation’ with the Nazi regime. The closest we come to absolute reference-of-thought–prelogism-as-of-conviction has to do with the abstract and uncompromising determination of mathematical meaningfulness, and receding more and more as we get towards domains of increasing ‘emotional involvement’ (the social) as ontological-veridicality increasingly takes a backseat to extricatory/temporal paradigms and further so with respect to increasing informality as in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) of all human institutions, and particularly where social universal-transparency is blurred and not forthcoming as logic tends out to be an issue of making-a-mistake-at-one-moment-expressing-the-most-profound-conviction-at-the-other-moment in a circular reference-of-thought. This tendency is further exacerbated with the dynamic conjugation of temporal-dispositions (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) to postlogism-slantedness. This reality of our reference-of-thought–prelogism-as-of-conviction as being in effect subpar rather than absolute and specifically more compromised at uninstitutionalised-threshold and as associated with postlogism as conjugated-postlogism is what qualifies contextually as temporal individuations reference-of-thought–madeupness/bottomlining as a temporal mental-disposition defect contrasted to a wrongfully implied supposedly reference-of-thought–prelogism-as-of-conviction as of ontologically-sound mental-disposition. This manifestation as a social dynamic (dynamic-cumulative-aftereffect) of such contrastive ‘madeupness of reference-of-thought’ and reference-of-thought–prelogism-as-of-conviction takes the form of temporal-to-intemporal

social interlocutors beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> de-convergence as of transversality-of-disambiguated-apriorising/axiomatising/referencing. Such a distinction particular at the uninstitutionalised-threshold is required because it then implies ontologically the relegation of logical engagement as rather irrelevant and in lieu determines ontological-veridicality by the soundness-of-the-reference-of-thought as of reference-of-thought–categorical-imperatives/axioms/registry-teleology in the first place to establish or not perversion-and-derived-perversion-of-reference-of-thought. This delineation is in line with the idea of human temporal (shortness-of-register-of-meaningfulness-and-teleology) to intemporal (longness-of-register-of-meaningfulness-and-teleology) individuations nature as implicitly recognised in the structuring of formal constructs like the law, formal institutions, etc. It equally falls in line with the idea of knowledge notionalisation on the basis that it is equally critical to understand the possibility of the ignorances just as conceptual knowledge itself to further uphold, advance and skew for the latter. The point being that meaningfulness-and-teleology construal should supersede just a naïve unilateral construing of interlocution mainly on the basis of reference-of-thought–prelogism-as-of-conviction as of reflex but equally examine ‘as of circumstances pointing to uninstitutionalised-threshold’ the possibility of the ontological-veridicality of interlocutors reference-of-thought–madeupness/bottomlining mental-dispositions, and as is often associated with mental-dispositions geared towards ‘flawed impression-driven, expletive-driven and non-intellectual critique’ contention. This difference between reference-of-thought–madeupness/bottomlining and reference-of-thought–prelogism-as-of-conviction critically explains how the successive registry-worldviews/dimensions psychoanalytically-unshackled/memetically-reordered/institutionally-recomposed going by the fact that projective-insights about prior registry-worldview/dimension reference-of-thought–madeupness/bottomlining as of prior

relative-ontological-incompleteness-of-reference-of-thought is what needs to be superseded for prospective registry-worldview/dimension institutionalisation prospective relative-ontological-completeness-of-reference-of-thought effective reference-of-thought–prelogism-as-of-conviction (as operant construal) by social universal-transparency rendering the prior registry-worldview/dimension reference-of-thought–madeupness/bottomlining (as operant construal) untenable. This brings to the fore the idea that the salient point about human mental-disposition whether construed as of institutionalisation basis or at its uninstitutionalised-threshold has to do with the possibility of attaining or not attaining social universal-transparency. Where this is effectively attained, it becomes psychically and institutionally untenable for interlocutors to act as of subpar (reference-of-thought–madeupness/bottomlining) with regards to reference-of-thought–prelogism-as-of-conviction. This will explain why the apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing within a prior registry-worldview/dimension utterly disappears within the prospective registry-worldview/dimension meaningfulness-and-teleology, in the sense that notions-and-accusations-of-sorcery for instance are not entertained in a positivism social-setup as the positivism/rational-empiricism social universal-transparency knows this to be non-veridical ontologically-speaking giving its prospective relative-ontological-completeness-of-reference-of-thought. This imbued potency in social universal-transparency across all registry-worldviews/dimensions is what explains the possibility of social transcendence. The reason for this is that the entire construct of human social-functioning-and-accordance—as-of-social-stake-contention-or-confliction as the ‘social existential contract’ is implicitly built on supposed reference-of-thought–prelogism-as-of-conviction to meaningfulness-and-teleology as of both the individual’s expectation and the social’s expectation such that failure in this respect arises mostly surreptitiously since even the most disingenuous individuation will want the social-construct to function well in order to

‘parasitise’ it, as a failing social-construct as of ‘universal social surreptitious parasitising/co-opting’ puts even such individuation in jeopardy. We can appreciate this notion by the fact that even a miscreant will tend to advance, however dubious, a rationale that is meant to be socially functional. Basically, the postlogism-as-of-non-conviction mindset reference-of-thought–madeupness/bottomlining arises out of its temporal individuation’s surreptitiousness (‘lack of constraining social universal-transparency such that it can induce apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing rule) as of marginal social instigation (consider the targeted nature of the adult psychopath’s maturation/indirectness/spatialisation/credulity/craftiness within the scope of social functionality) while socially enabled circularly (due to the underlying prior relative-ontological-incompleteness-of-reference-of-thought as social procrypticism/disjointedness-as-of-reference-of-thought is itself an enabler for psychopathy just as a non-positivistic registry-worldview/dimension social superstition is itself an enabler for its corresponding postlogism for ‘imaginary’ accusations of sorcery); and so, while socially inducing temporal-dispositions conjugated-postlogisms derived reference-of-thought–madeupness/bottomlining, and so overall, on the flawed mental-reflex that such protraction of reference-of-thought–madeupness/bottomlining is supposedly reference-of-thought–prelogism-as-of-conviction (as to the lack of constraining social universal-transparency). Such conditions as highlighted above (surreptitiousness, marginality and circularity) are not fulfilled at childhood psychopathy explaining why conjugated-postlogism as a social dynamism of protracted reference-of-thought–madeupness/bottomlining doesn’t socially take hold then, as such childhood postlogism perversion-of-reference-of-thought hasn’t superseded the social universal-transparency in further inducing temporal-dispositions derived-perversion-of-reference-of-thought. The further implication is that such surreptitiousness, marginality and circularity with regards to a registry-worldview’s/dimension’s temporal-dispositions are often

construed rather as circumventive issues as of temporal extricatory paradigm, and not by ontological-veridicality insight as of structural/paradigmatic <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity with respect to vices-and-impediments. Thus ensuring ontological-veridical social universal-transparency is structurally/paradigmatically inherently 'advantaged ultimately' by the social-construct functioning. (But then this can rather be achieved in the medium to long term as of a cross-generational transcendence import and hardly so in the short-run, given that in the short-run the issue of the registry-worldview/dimension relative-ontological-incompleteness-of-reference-of-thought is a drawback in this respect. As the framework of generalised social referencing of meaningfulness-and-teleology is a circular-pervasiveness closed-structure as of the habituated predicative-insights for meaningfulness-and-teleology based on the relative-ontological-incompleteness-of-reference-of-thought of the registry-worldview/dimension as prior (despite the relative-ontological-incompleteness-of-reference-of-thought induced distractive-alignment-to-reference-of-thought and override any such sense of relative pure-ontology conflatedness as of prospective relative-ontological-completeness-of-reference-of-thought conflatedness). So the transcendental meaningfulness-and-teleology implied as of projective-insights about the prospective registry-worldview/dimension predicative-insights of meaningfulness-and-teleology going by its prospective relative-ontological-completeness-of-reference-of-thought doesn't supersede the prior's 'circular-pervasiveness closed-structure of habituated predicative-insights for meaningfulness-and-teleology' in the short run. Chinua Achebe's *Things Fall Apart* Okonkwo returning from his long banishment construes meaningfulness-and-teleology in terms of the old/prior whereas his Umuofia village which had the same inclination as his as of prior relative-ontological-incompleteness-of-reference-of-thought before he was banished and likewise at the very beginning of the foreigners cultural diffusion inducing a subsequent prospective relative-ontological-completeness-of-

reference-of-thought had moved on to the new/prospective meaningfulness-and-teleology which is now antipodal to his, hence his confliction with his circular-pervasiveness <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) which is equally a reflection of the confliction the village had had with the same prior circular-pervasiveness <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) when the foreign cultural diffusion arrived before superseding it cross-generationally. We can equally construe of the inverse situation as in H.G. Well’s The Country of the Blind which also highlights the implications of relative contrast of ontological-completeness-by-incompleteness-of-reference-of-thought with regards to meaningfulness-and-teleology construal where Nunez’s ‘seeing of the environment’ reference-of-thought as of it prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought doesn’t make an impression but is actually frowned upon on the habituated ‘feeling of the environment’ reference-of-thought as of its prior relative-ontological-incompleteness. This is because the personhood and socialhood formation have been constructed in circular-pervasiveness out of the prior reference-of-thought as ‘feeling of the environment’ explaining why a registry-worldview is a <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) that hardly entertains its own transcendability/dementability, and why transcendence is rather cross-generational for the requisite personhood and socialhood psychoanalytic-unshackling exercise to be initiated. Consider that the ‘existential value references as what is worth living

for’ for both Okonkwo and ‘feeling of the environment’ reference-of-thought are temporally construed as definite-and-set as of their given perspectives or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights in the circularly-pervasive closed-structure of their reference-of-thought’ despite their respective inherent prior relative-ontological-incompleteness-of-reference-of-thought without room for countenancing new perspective-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-new-predicative-insights overcoming their circularly-pervasive closed-structure of reference-of-thought, speaking of their distractive-alignment-to-reference-of-thought from an ontological-normalcy/postconvergence epistemic/notional_projective-perspective as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality. Interestingly, facing their respective conundrum to take a drastic and immediate decision as of their ‘existential value references as what is worth living for’, and without the prospect for cross-generational adjustment, their decisions are equally dramatic in terms of considering physically doing away with Nunez’s notion of ‘seeing of the world’ reference-of-thought, and Okonkwo’s tragic acts upon the foreigners messenger and subsequently upon himself. This reflects the mental-disposition of all registry-worldviews uninstitutionalised-thresholds, including our own as positivism–procrypticism as of its disjointedness-as-of-reference-of-thought with regards to their ‘existential value references as what is worth living for’ rather temporally construed as definite-and-set as of distractive-alignment-to-reference-of-thought notwithstanding any notion of relative prospective ontological-completeness-of-reference-of-thought. Furthermore, it should be noted that the relative validity of a prospective <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implication validity’ but rather such a demonstration is more structurally/paradigmatically, together with all other such demonstrations of the prospective <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, ‘a contributory invalidation of the prior <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology

Just as the exercise of demonstrative convincing on the basis of a scientific principle within a non-positivistic social context ‘is not at all about the demonstrable instantiative logical-processing-or-logical-implication validity’ but rather structurally/paradigmatically, together with all other such demonstrations as of scientific and positivistic principles/axioms/reference-of-thought meaningfulness-and-teleology

as of its ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought. We can grasp an abstract sense of this situation as follows. Supposed human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as inducing more and more profound projective-insights construed as the successive apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments representing the successive registry-worldviews/dimensions reference-of-thought under which their respective predicative-insights construct their respective meaningfulness-and-teleology, so grounded axiomatically as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights; is compared imaginarily to ‘mental-dispositions at different successive ascertaining-perspectives unbeknown-to-each other for gauging the overall earth landscape’ (representing analogically ‘different successive registry-worldviews/dimensions for meaningfulness-and-teleology’), construed say at ‘sea-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as recurrent-utter-uninstitutionalisation), ‘hill-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as base-institutionalisation–ununiversalisation), ‘mountain-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as universalisation–positivism), ‘airplane-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as positivism–procrypticism) and ‘space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights’ (as deprocrypticism), rather as successive mental-states/reference-of-thought unbeknown-to-each-other in ‘circular-pervasiveness closed-structure of

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring—
purpose—of-obtained-measurements’. We know that having never experienced ‘hill-level-
height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (base-institutionalisation–ununiversalisation) the ‘sea-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (recurrent-utter-uninstitutionalisation) will hardly countenance operating
the perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument
for predicative-insights of the former as more ontologically profound, given its ‘circular-
pervasiveness closed-structure of
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-
measurements for earth landscape aposteriorising/logicising/deriving/intelligising/measuring—
purpose—of-obtained-measurements’ on the basis of its ‘sea-level-height
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’; and this same mental-reflex applies successively to relatively ‘lower-
level-heights
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prior registry-worldviews/dimensions) with respect to relatively
‘higher-level-heights
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (prospective registry-worldviews/dimensions). The fundamental
difficulty is that ‘no given
perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
predicative-insights’ (registry-worldview/dimension) recognises that there is any above it,

and by reflex circularly undertakes predicative-insights from its perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (and it is only the long run cross-generational habituation construed as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics with the prior ontologically construed as decentered and dementing-or-preconverging–apriorising-psychologism as of distractive-alignment-to-reference-of-thought, with the implication that its logical-dueness doesn't exist just as the logical-dueness of the animist reference-of-thought with their God of plane proposition doesn't ontologically exist.) We can grasp as well that it is the 'space-satellite-level-height perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for predicative-insights' (as deprocrypticism) that ultimately provides the ideal 'ascertaining-perspectives for gauging the overall earth landscape'. Besides, why the explication herein is necessarily implying a prospective reference-of-thought (as the author in here with a supposed deprocrypticism reference-of-thought construal as implying a prospective relative-ontological-completeness-of-reference-of-thought over our positivism–procrypticism), the fact is that any transcendental analysis is caught in two worlds as two different reference-of-thought in striving to explicate the ontological pre-eminence of the prospective reference-of-thought as of ontological-normalcy/'postconvergence, thus facing the dilemma that by mental-reflex we are not 'habituated' to the notion of our reference-of-thought being construed as 'dementing-or-preconverging–apriorising-psychologism and not thinking', and so whether speaking of being construed within our positivism–procrypticism uninstitutionalisation as dementing-or-preconverging–apriorising-psychologism and not thinking, within non-positivism/medievalism uninstitutionalisation as dementing-or-preconverging–apriorising-psychologism and not thinking, within ununiversalisation uninstitutionalisation as dementing-or-preconverging–apriorising-psychologism and not

thinking, and recurrent-utter-uninstitutionalisation uninstitutionalisation as dementing-or-preconverging–apriorising-psychologism and not thinking. We can grasp this by imagining how a non-positivism uninstitutionalised-threshold will react when construed as dementing-or-preconverging–apriorising-psychologism and not thinking with say notions-and-accusations-of-sorcery it considers given as a matter of fact, and imagine of such a reaction with a dementing-or-preconverging–apriorising-psychologism and not thinking representation of ourselves construed from futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought perspective as in disjointedness-as-of-reference-of-thought and rather in distractive-alignment-to-reference-of-thought ! Thus the reality of this analysis in that sense is ‘sparing as of our high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction nature’ for the sake of deconstructive-engagement/engaged-destruktion because an analysis construed as of reference-of-thought is all about mental-soundness or unsoundness representation (with no logical engagement implication) hence rather of a psychoanalytic-unshackling purpose; as a change of reference-of-thought implies a change of perspective/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-of-meaningfulness-and-teleology as a shift of the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought/axiomatic-construct and not a change in logic as a change along the same reference-of-thought/curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought/logical-processing-or-logical-implication. In other words, a truly direct deprocrypticism ontological analysis will be a ‘mental break-in’/dementing-or-preconverging–apriorising-psychologism of our positivism–procrypticism

as we by reflex ‘mentally break-in’/dement a non-positivistic reference-of-thought (as we don’t engage it on the basis of the non-positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology just as a deprocrypticism analysis will not engage us on the basis of our procrypticism/disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, and so in both cases as of the relative ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought of non-positivism and procrypticism/disjointedness-as-of-reference-of-thought). But then wholly carried out in both instances it will be off-putting to both prior reference-of-thought, explaining why a transcendental analysis is a deconstructive-engagement/engaged-destruktion recognising and harnessing the human potential to psychoanalytically-unshackle. This is more than just an abstract conceptualisation but an empirical reality of how cultural diffusion possibility as of ‘relative-ontological-completeness-of-reference-of-thought over prior relative-ontological-incompleteness-of-reference-of-thought’ took place historically (and so for instance, as of the relative ‘ontological-veridicality tolerance as stretched-truth’ allowed to the animist to say ‘God of plane’ in the view that in due course there will be psychoanalytic-unshackling towards positivistic meaningfulness-and-teleology; considering as well as of registry-worldview level of analysis that such a conceptualisation of ‘ontological-veridicality tolerance as stretched-truth’ is cross-generationally associated with the meeting of cultures wherein their meeting points often as of cultural and commercial relationships initiate ‘acculturating-indigenising-pidginising transitioning settings and their social constructions as of <formative>epistemic-totalising–self-referencing-syncretising’ prior to eventual prospective relative-ontological-

completeness-of-reference-of-thought accommodation). Likewise, this ‘ontological-veridicality tolerance as stretched-truth’ as of a deprocrypticism construal herein may elicit a misconstrual from a positivistic perspective failing to factor in the circular-pervasiveness implied in the notion of positivism–procrypticism uninstitutionalisation as procrypticism/disjointedness-as-of-reference-of-thought reference-of-thought–categorical-imperatives/axioms/registry-teleology failing/not-upholding intemporal-preservation-entropy-or-contiguity–or–ontological-preservation, and thus failing to grasp the deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights that construes our positivism–procrypticism as dementing-or-preconverging–apriorising-psychologism/not-thinking and decentered, and wrongfully trying to engage meaningfulness-and-teleology in positivism–procrypticism terms-as-of-axiomatic-construct failing to factor in the circular-pervasiveness of the disjointedness-as-of-reference-of-thought. (More like a non-positivistic mindset/reference-of-thought insisting to contendingly engage a positivistic mindset/reference-of-thought but failing to grasp the implications as of circular-pervasiveness of being of non-positivistic of reference-of-thought as of its prior relative-ontological-incompleteness-of-reference-of-thought. Such insight point out that the ‘mental tools’ available to a mental state of recurrent-utter-uninstitutionalisation are not logically-intelligible-but-rather-are-distractively-dementing-or-preconverging–apriorising-psychologism with respect to an implied prospective state of base-institutionalisation, the ‘mental tools’ available to a mental state of base-institutionalisation–ununiversalisation are not logically-intelligible-but-rather-are-distractively-dementing-or-preconverging–apriorising-psychologism with respect to an implied prospective mental state of universalisation, the ‘mental tools’ available to a state of universalisation–non-positivism/medievalism are not logically-intelligible-but-rather-are-distractively-dementing-or-preconverging–apriorising-psychologism with respect to an implied prospective mental

state of positivism, and prospectively the ‘mental tools’ available to a state of positivism—
 procrypticism are not logically-intelligible-but-rather-are-distractively-dementing-or-

 of deprocrypticism. Thus unlike is the case with issues of logical-dueness/logical-pertinence
 as of appropriateness or inappropriateness of logical-processing-or-logical-implication,
 issues of perversion-and-derived-perversion-of-reference-of-thought rather render such
 notions as forgiveness/overlooking/resetting nothing more but vague <formative>epistemic-
 totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag misconstruing
 based on ‘a naïve traditional reflex’ that truly has no grander virtuous implications but quite
 the contrary as actually endemising/enculturating vices-and-impediments as when so-

 effectively means perpetuating the endemising/enculturation of the given uninstitutionalised-

 at the recurrent-utter-uninstitutionalisation in permanence that doesn’t allow for any such
 transcending enabled by the ontological-contiguity—of-the-human-institutionalisation-
 process. In other words the notion of forgiveness/overlooking/resetting with respect to
 perversion-and-derived-perversion-of-reference-of-thought is rather vague, as the more
 fundamental issue here is that human meaningfulness-and-teleology as of human limited-
 mentation-capacity for construing virtue-as-ontology/ontology/intrinsic-reality/ontological-
 veridicality is ‘ever structurally/paradigmatically in need for prospective relative-ontological-

completeness-of-reference-of-thought’ and that is what is to be sought after as with the recurrent-utter-uninstitutionalised striving for base-institutionalisation, the base-institutionalised–ununiversalised striving for universalisation, the universalised–non-positivist/medievalist striving for positivism and in our case the positivist–procryptist striving for deprocrypticism as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality; and so as of human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ enabled by reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure’ and so allowed by ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. Such naïve construal of forgiveness/overlooking/resetting is on the impression-driven/good-naturedness/wishfulness basis that human mental capacity is a given as if there is no structural/paradigmatic issue of relative-ontological-incompleteness-of-reference-of-thought with no recognition of any such ontological-contiguity—of-the-human-institutionalisation-process as human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ retrospectively to prospectively. This equally explains the ontological vagueness when it comes to perversion-and-derived-perversion-of-reference-of-thought not only with regards to the notions of forgiveness/overlooking/resetting but also such notions associated with positive psychology as positivity, flourishing, emotional intelligence, etc. as naively instigating social <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with their implications when considered at a more profound level turning out to be rather vague and at best palliative since these are

not construed structurally/paradigmatically as of intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating within the framework in reflecting the ontological-contiguity—of-the-human-institutionalisation-process involving human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). In other words, what does it mean in a recurrent-utter-uninstitutionalised mental state to have a positive psychology when its fundamental structural/paradigmatic issue as failing rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism is not factored-in in its virtue-as-ontology construal/conceptualisation? And the same can be asked of us with regards to our positivism—procrysticism disjointedness-as-of-reference-of-thought. In which case such vague approaches will simply imply beyond-the-consciousness-awareness-teleology-⟨in-existential-extrication-as-of-existential-unthought⟩ naïve perpetuation in ⟨formative⟩epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the fundamental vices-and-impediments with both uninstitutionalised-thresholds, thus explaining the fundamental dilemma of all institutional Establishments in their ⟨formative⟩wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications⟩). Such confusion arises from a misconstruing of what is veridically implied deconstructively/ontological-restitutively by ontological-dementation/dialectical-dementation—stranding/attributive-dialectics, which implies that ‘any registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of its prior relative-ontological-incompleteness-of-reference-of-thought’ is ‘a dementing-or-preconverging-and-decentered-prior-institutionalisation’s-categorical-imperatives/axioms/registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-

teleology as unsoundness-or-inauthenticity-of-reference-of-thought' from the 'prospective registry-worldview/dimension presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of its prospective relative-ontological-completeness-of-reference-of-thought' as 'a dialectical-thinking-or-postconverging-and-centered-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as soundness-or-authenticity-of-reference-of-thought'. Certainly, we can recognise the veracity/ontological-pertinence of the above articulation with respect to retrospective registry-worldviews/dimensions placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as of their prior relative-ontological-incompleteness-of-reference-of-thought while our positivism registry-worldview/dimension placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology is always of prospective relative-ontological-completeness-of-reference-of-thought. But when it comes to a prospective assessment wherein we are of prior relative-ontological-incompleteness-of-reference-of-thought as 'a dementing-or-preconverging-and-decentered-prior-institutionalisation's-categorical-imperatives/axioms/registry-teleology positivism-procrypticism placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as unsoundness-or-inauthenticity-of-reference-of-thought' from the 'prospective presence placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of deprocrypticism as of its prospective relative-ontological-completeness-of-reference-of-thought' as 'a dialectical-thinking-or-postconverging-and-centered-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as soundness-or-authenticity-of-

reference-of-thought', we are rather less apt to concur going by our <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag reflex such that such notions as forgiveness/overlooking/resetting and notions of positive psychology are rather just a failure to structurally/paradigmatically recognise the implied perversion-and-derived-perversion-of-reference-of-thought as of our relative-ontological-incompleteness-of-reference-of-thought, and what we are doing then is 're-referencing from the same positivism–procrypticism relative-ontological-incompleteness-of-reference-of-thought' and thus wrongly implying our undementability hence our untranscendability for a structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure', and paradoxically thus by implication that there is no relative-ontological-incompleteness-of-reference-of-thought, to then wrongly imply such articulations of forgiveness/overlooking/resetting and positive-psychology are of intemporal projection whereas these are actually of conscious or unconscious beyond-the-consciousness-awareness-teleology temporal/shortness-of-register-of-meaningfulness-and-teleology projection. This insight explains the bizarreness we face from time to time discovering that even institutions we imagine should relatively be spared by scandals as human vices-and-impediments like many public-facing institutions, the media, faith institutions, etc. are now-and-then plague with scandals bound to re-occur because of this misunderstanding of knowledge as virtue-as-ontology/ontology articulated above as of structural/paradigmatic nature of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation, and not naïve at best palliative construals in impression-driven/good-naturedness/wishfulness. A further reason for the difficulty has to do thus with the fact that each registry-worldview's/dimension's reference-of-thought is

inherently a metaphysics-of-presence construed as dialectical-thinking-or-postconverging-
 and-centered-prospective-institutionalisation's-categorical-imperatives/axioms/registry-
 teleology soundness-or-authenticity-of-reference-of-thought that is in a circular-evasiveness
 from more ontologically-veridical metaphysics-of-absence construals/conceptualisations as
 implied by prospective relative completeness-of-reference-of-thought which rather construes
 it as a dementing-or-preconverging-and-decentered-prior-institutionalisation's-categorical-
 imperatives/axioms/registry-teleology unsoundness-or-inauthenticity-of-reference-of-thought.
 The ontological implication is that beforehand/axiomatically with respect to the cross-
 engagement of a prior relative-ontological-incompleteness-of-reference-of-thought and a
 prospective relative-ontological-completeness-of-reference-of-thought, the former is priorly
 invalidated into a dementing-or-preconverging-and-decentered-prior-institutionalisation's-
 categorical-imperatives/axioms/registry-teleology unsoundness-or-inauthenticity-of-
 reference-of-thought by the latter as a dialectical-thinking-or-postconverging-and-centered-
 prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology
 soundness-or-authenticity-of-reference-of-thought, invalidating by implication the logical-
 dueness/logical-pertinence as of logical-processing-or-logical-implication of the former.
 This we can grasp retrospectively in a cross-engagement with say notions-and-accusations-
 of-sorcery between our positivism and the non-positivism/medieval registry-
 worldview/dimension going by our prospective relative-ontological-completeness-of-
 reference-of-thought with respect to its prior relative-ontological-incompleteness-of-
 reference-of-thought. But since we have been habituated as of our existential formation
 within our <formative>wooden-language-(imbued—averaging-of-thought-<as-to-
 leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
 'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) to be in
 logical-dueness for logical-processing-or-logical-implication by default and thus always

contendingly relevant on the basis of sharing a mutual positivism reference-of-thought, we will hardly entertain though a deprocrypticism cross-engagement implied invalidation of our logical-dueness for logical-processing-or-logical-implication and thus rendering us contendingly irrelevant on the basis of our prior relative-ontological-incompleteness-of-reference-of-thought construed as disjointedness-as-of-reference-of-thought. But then ironically such a undementability posture could as well be adopted by a non-positivism/medievalism reference-of-thought in its own existential formation that recognises non-positivistic ideas and notions-and-accusations-of-sorcery as relevant and dialectical-thinking-or-postconverging-and-centered-prospective-institutionalisation's-categorical-imperatives/axioms/registry-teleology with its logical-dueness for logical-processing-or-logical-implication valid by default. This point out that there is necessarily a central growth element of a structural/paradigmatic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology for cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure' allowing for dementability and thus transcendability as enabling human virtue-as-ontology/ontology. Further to the points made this far, talk of such a narrative as of such structural/paradigmatic <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of vices-and-impediments of our prior relative-ontological-incompleteness-of-reference-of-thought that does not focus on substantive critiquing/assessment of the arguments made but is rather geared to imply beforehand that such arguments are impropriety, is actually nothing more than our falsehood as mortals circularly pretending to imply that humankind-in-its-deficit does have a status above its mortal shortfall, and so paradoxically as a flawed and unsubstantiated route to wrongly imply no such argumentation is admissible. This is often a choice deterrent of

institutional and eruditical Establishments of presence failing to recognise that more profound human insights arise from Dionysian dispositions and not just a reflex of looking at the presence as forever given as it is. The bluntness of reality/ontology doesn't recognise the mortals that we are and we can't advance our mortal statuses as superseding inherent reality/ontology, but we are rather bound to be much more substantive than that to avoid 'human closure of meaningfulness-and-teleology' which easily arises given our temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising-self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction. The fact is such an articulation is not idle but rather the requisite fervour associated with many an enlightening thought, however qualified as impropriety, as a <formative>wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>> start arising when we temporally carve away statuses out of the reach of ontological contention making the mortals that we are bigger than intrinsic-reality/ontological-veridicality.) On any such occasion, ontological-veridicality as of deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought is restored by doing away with 'ontological-veridicality tolerance as stretched-truth' and articulating a 'mental break-in'/dementing-or-preconverging-apriorising-psychologism of positivism-procrypticism meaningfulness-and-teleology at its procrypticism uninstitutionalisation as of disjointedness-as-of-reference-of-thought from deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights, just as we'll appreciate that were the animists insistent say on relating to the plane as God of plane to a point implying their potential non-transcendability as of psychoanalytic-unshackling in due course, 'ontological-veridicality tolerance as stretched-truth' is no longer warranted but a direct 'mental break-in'/dementing-

or-preconverging–apriorising-psychologism by a demonstration to uphold ontological-veridicality. Such a demonstration might be construed as of a simple paper plane demonstration of ontological-primemovers-totalitative-framework principles or extraordinarily a flight from the flight deck with explanation or more extensively articulating that things work by natural causes and effects with no spirits inside them thus implying that a positivism-centered meaningfulness-and-teleology is more ontologically pertinent. Certainly such a ‘mental break-in’/dementing-or-preconverging–apriorising-psychologism demonstration with regards to our procrypticism reference-of-thought as of its disjointedness-as-of-reference-of-thought construed from a deprocrypticism reference-of-thought perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights will look weird to us going by our circularly pervasive <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag procrypticism/disjointedness-as-of-reference-of-thought, but it is more of ontological-veridicality/intrinsic-reality even though we are unhabituated to it since it is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and not yet by social universal-transparency, just as had been the case from the perspective or apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights of all the uninstitutionalised-thresholds reference-of-thought with respect to the ‘mental break-in’/dementing-or-preconverging–apriorising-psychologism of their corresponding prospective institutionalisations reference-of-thought. The bigger point being that by definition a reference-of-thought doesn’t fathom the nature and degree of its relative-ontological-incompleteness-of-reference-of-thought as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. (Thus suggesting base-institutionalisation in recurrent-utter-

uninstitutionalisation, implying universalisation in base-institutionalisation—
 ununiversalisation, suggesting positivism in universalisation—non-positivism/medievalism
 and suggesting deprocrypticism in positivism—procrypticism will be perceived initially as
 ‘bullshit’ going by human-subpotency—aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions—existentialism-form-factor as of our temporal inclination to

 expletives is not intellectual argument but a mark of intellectual ineptness, with the
 ‘ontologically relevant’ intellectual issue being about understanding the ‘habituation
 exercise’ as of ontological-primemovers-totalitative-framework and percolation-channelling
 involved in the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure
 behind the ontological-contiguity—of-the-human-institutionalisation-process as pertinent for
 deprocrypticism ‘without in the very least entertaining’ the <formative>wooden-language-

 meets ontology.) Explained in other terms, implying in a non-positivism social-setup that
 notions-and-accusations-of-sorcery are inherently vices-and-impediments as of the
 transcendental prospective positivism prospective relative-ontological-completeness-of-

reference-of-thought will-not-be-convincing-on-a-par-with-other-argumentators in that social-setup but rather for such temporal/shortness-of-register-of-meaningfulness-and-teleology purpose requires making a ‘temporal palliation argument’ of the type oneself or another person is not involved in sorcery or a counterargument that the accuser is the sorcerer, and so on the basis of the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought, to-be-more-convincing-on-a-par-with-other-argumentators in that non-positivism social-setup (but then all this will wrongfully validate superstition and thus fail the very point of ontology/aetiologisation/ontological-escalation as an exercise in ‘intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation and not a temporal extrication exercise of ‘social-aggregation-enabling as of symmetrisation-of-reference-of-thought, as this is in effect an ontologically-non-veridical-or-flawed <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and/or desymmetrisation for perceived temporal social-stake-contention-or-confliction’). Thus there is a fundamental ontological-veridicality/intrinsic-reality argumentation handicap in the short run for undermining the postlogism-and-conjugated-postlogism as notions-and-accusations-of-sorcery associated with the non-positivism registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought social referencing of meaningfulness-and-teleology which is ‘superstitious’ in the very first instance such that any argumentator putting into question superstitiousness like there is nothing like sorcery is ‘shooting itself on the foot’ in the short run. It is rather the long run cross-generational resolution construed as of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics by superseding the prior non-positivism prior relative-ontological-incompleteness-of-reference-of-thought as of the prospective positivism registry-worldview/dimension prospective relative-ontological-

completeness-of-reference-of-thought by ‘continuous habituation going by the latter’s
 ontological-primemovers-totalitative-framework in the long run as superseding the prior
 beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-
 unthought> and initiating the appropriate prospective social universal-transparency that will
 structurally/paradigmatically harken back to undermine the postlogism-and-conjugated-
 postlogism grounded on notions-and-accusations-of-sorcery associated with the non-
 positivism registry-worldview/dimension. That is, it is by turning the non-positivistic
 mindset/reference-of-thought into a positivistic mindset/reference-of-thought that the
 possibility of ‘ontologically’ and ‘not palliatively’ resolving notions-and-accusations-of-
 sorcery can arise in the very first instance. Likewise, it is the cross-generational resolution of
 our positivism–procrypticism prior relative-ontological-incompleteness-of-reference-of-
 thought as of its circular-pervasiveness in countenancing of procrypticism or disjointedness-
 as-of-reference-of-thought from
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
 incidenting-predicative-insights of meaningfulness-and-teleology as conceptualising,
 articulating and preempting such disjointing/disparateness/disentailing meaningfulness-and-
 teleology of our positivism–procrypticism that is the structural/paradigmatic resolution as of
 prospective relative-ontological-completeness-of-reference-of-thought that can
 structurally/paradigmatically harken back in undermining the circular-pervasiveness in
 countenancing of ‘disjointedness-as-of-reference-of-thought’ and the
 enculturation/endemisation of the manifest postlogism-and-conjugated-postlogism in our
 positivism–procrypticism as psychopathy and social psychopathy, and so going beyond just a
 temporal palliative resolution within a positivism–procrypticism circular-pervasiveness
 closed-structure countenancing ‘disjointedness-as-of-reference-of-thought’ of
 meaningfulness-and-teleology, beyond-the-consciousness-awareness-teleology-<in-

existential-extrication-as-of-existential-unthought>, and hence overlooking the structural/paradigmatic ontological vices-and-impediments implications of postlogism-and-conjugated-postlogism including psychopathy and social psychopathy arising given the relative-ontological-incompleteness-of-reference-of-thought of our procrypticism as disjointedness-as-of-reference-of-thought. This explains how and why outlier/unenframed ideas can supersede conventionalised ideas where the former provide in the big picture the possibility for the social-construct to function better by social universal-transparency at a cross-generational depth of analysis, and equally explains human historical suspicions of new ideas just in case their social universal-transparency turn out to be better and possibly leading to the dismantling of the prior and vested and contingent interests. It should be grasped that the comprehensiveness/dynamic-cumulative-afereffect of a registry-worldview's/dimension's reference-of-thought-madeupness/bottomlining (as an operant construal) at its uninstitutionalised-threshold is what defines it as uninstitutionalised-threshold which is decentered and dementing-or-preconverging-apriorising-psychologism from the prospective institutionalisation perspective while that of its reference-of-thought-prelogism-as-of-conviction (as an operant construal) of its institutionalisation is what defines it as prior institutionalisation. (As implied by this author the nature of human individuations accounts respectively for human intemporality/longness and human temporality/shortness as the 'more fundamentally ontological-primemovers-totalitative-framework analysable operant agency of the human condition as of human knowledge-and-virtue or vices-and-impediments respectively as such individuations then accrue in varying degrees in individuals as of varying circumstances'; and so-construed respectively as of intemporal individuation conflatedness which enables prospective institutionalisations or temporal individuations distractive-alignment-to-reference-of-thought that induce uninstitutionalised-thresholds at all the institutionalisations uninstitutionalised-threshold.) The conceptual technique for

disambiguating individuations as to reference-of-thought–prelogism-as-of-conviction at institutionalised-threshold/institutionalisation and reference-of-thought–madeupness/bottomlining at uninstitutionalised-threshold has to do with the given reference-of-thought–closeness-of-tethering-to–prelogism-as-of-conviction or reference-of-thought–looseness-of-tethering-to–prelogism-as-of-conviction wherein on one extreme the prelogism-as-of-conviction mental-disposition individuation adheres to a reference-of-thought–closeness-of-tethering-to–prelogism-as-of-conviction (not necessarily implying their logical-processing-or-logical-implication appropriateness but logically-due as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context) while on the other extreme the temporal postlogism-as-of-non-conviction individuation’s mental-disposition as a ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’ as reference-of-thought–looseness-of-tethering-to–prelogism-as-of-conviction (reference-of-thought–madeupness/bottomlining) is a mental-disposition for hollow-staging-and-performance-caricaturing (with respect to whatever narratives or acts can be made or committed opportunistically by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’), while the reference-of-thought–madeupness/bottomlining arising as of a corresponding derived-perversion-of-reference-of-thought hollow-staging-and-performance-caricaturing of the temporal conjugated-postlogism individuation’s mental-disposition is as of corresponding reference-of-thought–looseness-of-tethering-to–prelogism-as-of-conviction (as of ‘derived–vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-

Such temporal postlogism-as-of-non-conviction individuation's mental-disposition reference-of-thought-madeupness/bottomlining failing existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as a 'vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging'-as-non-conviction-of-tethering-trajectory to reference-of-thought-prelogism-as-of-conviction can be seen transparently in the instance of the childhood psychopathy spilling water on a chair as a dereifying mental-shortcut to accuse another. Such personality development into adult psychopathy at which point social universal-transparency is undermined with its increasing maturation/indirectness/spatialisation/credulity/craftiness and the corresponding conjugated-postlogism leads to contextualised social dynamics of temporal individuations reference-of-thought-looseness-of-tethering-to-prelogism-as-of-conviction that underlies various shades of reference-of-thought-madeupness/bottomlining. As a general rule the reference-of-thought-closeness-of-tethering-to-prelogism-as-of-conviction implies a mental-disposition for intrinsic-attribution of meaningfulness-and-teleology involving an inclination for presuming and implying of meaningfulness-and-teleology as limited/constraint by existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context while the reference-of-thought-looseness-of-tethering-to-prelogism-as-of-conviction implies a mental-disposition for extrinsic-attribution of meaningfulness-and-teleology as hollow-staging-and-performance-caricaturing involving an inclination for falsely presuming and implying meaningfulness-and-teleology as vague-rhyming-or-copied-mimicry-or-formulaic-projection-

 fact is by mental-reflex we relate to social meaning by constitutedness as of elaboration-as-
 mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-
 existential-contextualising-contiguity which by habit or chance will often turn out to be as of
 existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-

ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as of
 the institutionalisation ambits of the domain-of-concern precedingly so-established/so-
 institutionalised by maximalising-recomposuring-for-relative-ontological-completeness, and
 so with hardly any consequence for our methodological imprecision/inexactitude where the
 established/institutionalised reference-of-thought–categorical-imperatives/axioms/registry-
 teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-
 and-teleology is not ontologically superseded as at uninstitutionalised-threshold. But that is
 technically/abstractly speaking inappropriate from an ontological-veridicality perspective
 requiring unassailability/reliability/dependability at uninstitutionalised-threshold. As
 explained elsewhere and implied above it is the conceptualising (by maximalising-
 recomposuring-for-relative-ontological-completeness) of a reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as
 of conflation that enables such a certitude at uninstitutionalised-threshold of an epistemic-
 totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-
 veridicality by its specific institutionalisation. And that reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of
 the social at uninstitutionalised-threshold involves a holistic/nested-congruence social
 construal/conceptualisation that necessarily should factor in the reality of a human-
 subpotency–aporia/undecidability/dilemma/ought-
 indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-
 dispositions–existentialism-form-factor but we fail to do this due to our
 <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag metaphysics-of-presence disposition as of

institutionalisation and thus wrongly implying intemporal construal as of our secondnature institutionalisation which while inconsequential within the ambit institutionalisation is not ontologically-veridical at the institutionalisation uninstitutionalised-threshold with the latter rather requiring a temporal-to-intemporal appraisal as of metaphysics-of-absence as its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.

The implication is that postlogism/psychopathy and other human temporal phenomena (and so, across all registry-worldviews) which speak of uninstitutionalised-threshold are often wrongfully construed on the basis of intemporal secondnature institutionalisation human nature whereas the conflatedness requires ‘synopsising-depth of a human temporal-to-intemporal nature’ and so by conflatedness to establish the uninstitutionalised-threshold reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology rather as of maximalising-recomposuring-for-relative-ontological-completeness (construed as intimately tying down our limited-mentation-capacity by imbricatedness/threadedness/recomposuring to the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as should be the case at all uninstitutionalised-threshold, and so over the mental-reflex of assuming secondnature institutionalisation reference-of-thought/axiomatic-construct as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity (construed as letting our limited-mentation-capacity by unimbricatedness/unthreadedness/unrecomposuring out of the ‘leash’ of existential-reality/ontology/intrinsic-reality/ontological-veridicality) as the latter is only practically effective when dealing with an already established human registry-worldview’s/dimension’s institutionalisation/institutionalised-construct but not at uninstitutionalised-threshold which

require their own new specific reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology which so established then enables the practical effectiveness of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Consider the childhood psychopathy ‘dereifying act’ of spilling water on a chair and accusing another, even at that relatively social universal-transparency level there is a chance of mistaking as with the visitor sitting on the wet chair and needing an explanation of the whole situation including the child’s condition, and such insight gets more and more opaque with the manifestation of adulthood psychopathy. This is an uninstitutionalised-threshold situation which is necessarily beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and without social universal-transparency of the visitor. This example is exactly along the lines of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology needed for construing postlogism/psychopathy and conjugated-postlogism as of its social model at uninstitutionalised-threshold, and so by way of maximalising-recomposuring-for-relative-ontological-completeness (the latter is what sets up apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments and is of imbricatedness/threadedness/recomposuring existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, in contrast to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity which is what renders-operant/incidenting predicative-insights). It is only then that such an established institutionalisation framework allows for elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-

existential-contextualising-contiguity on the basis of the established reference-of-thought–
 categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology.
 Such a conceptualisation/construal is dramatically different from how we ordinarily conceive
 the construal of social meaningfulness-and-teleology before the institutionalisation of such a
 specific uninstitutionalised-threshold takes place. (Consider in this respect how the visitor
 erred in its relation with the childhood psychopathy on the basis of its commonly assumed
 social elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-
 elucidation-outside-existential-contextualising-contiguity. At this individuation-level
 representation of the disambiguation of the transcending and transcended registry-
 worldviews, the visitor is using the
 ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-
 incidenting-predicative-insights’ of positivism–procrypticism that do not factor in the
 possibility of the childhood psychopathy’s slantedness as inducing procrypticism or
 ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-
 teleology going by the visitor’s relative-ontological-incompleteness-of-reference-of-thought
 as of positivism–procrypticism, while the explainer of the situation has factored in
 deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to
 preempt the induced procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-
 misappropriated-meaningfulness-and-teleology from the childhood psychopathy slantedness.
 At this individuation-level, the fact is that in order to be certain to avoid a similar deception
 again in its relation with the childhood psychopathy the visitor will now construe of
 deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-
 aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology to

preempt the slanted inducing of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology and gives up on positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology with respect to its relations with the childhood psychopathy. Thus at this individuation-level uninstitutionalised-threshold with respect to the childhood psychopathy, a new deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology has superseded the prior positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, as it is the one to be circularly/recurrently/repetitively/repeatedly be utilised for operant/incidenting predication as elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. This is equally implied at the registry-worldview/dimension-level by dynamic-cumulative aftereffect, but in this instance factoring in well more than just one incident of childhood psychopathy but rather the dynamic-cumulative-aftereffect implications on the social structure of myriad cases of psychopathy, and as of postlogism/psychopathic personalities development from childhood to adulthood together with the implications of conjugated-postlogism/social-psychopathy not only with regards to conjugated-ignorance as with the visitor but all the temporal-dispositions including ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as of habits and thinking patterns consequences as of the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) by

formality dynamics; with the implication of lack of social universal-transparency as the manifestation is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> at this uninstitutionalised-threshold, together with the inherent human complex of non-transcendability and hence undementability across all the registry-worldviews/dimensions. At this registry-worldview/dimension-level it is obvious that a straightforward articulation going by the incidental situation of such an individuation-level analysis will not be the case, but rather requires focussing on the bigger structural/paradigmatic picture of perversion-and-derived-perversion-of-reference-of-thought. However, suggesting at the registry-worldview/dimension-level of analysis the ontological-veridicality/intrinsic-reality of a new deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology that implies that the registry-worldview/dimension is in circular-pervasiveness of procrypticism or ‘disjointedness-as-of-reference-of-thought’-as-misappropriated-meaningfulness-and-teleology will meet with a mental-complex of <formative>epistemic-totalising–self-referencing-syncretising/illusion-of-the-present/present-consciousness/mirage metaphysics-of-presence and can only arise as of a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. (Such an insight can be further elucidated in a storied-construct/ontologically-valid-narration given the limits of the possibility of explanation as herein about the ‘lived social’ as of the aforementioned implied deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology construing a storied-construct/ontologically-valid-narration driven by such postlogism/psychopathic associated vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging

maturation/indirectness/spatialisation/credulity/craftiness induced narration-construed-as-instantiative-moulting involving childhood psychopathy to adulthood psychopathy development, and corresponding evolving of social relations as of dynamic-cumulative-aftereffect ‘disjointedness-as-of-reference-of-thought’-misappropriated-meaningfulness-and-teleology involving non-conviction/psychopathic/postlogism–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring-meaningfulness-and-teleology-as-prelogism-as-of-conviction thus leading to hollow-staging-and-performance-caricaturing; and so construed as of ‘themes-driven underlying-agency-or-sous-agencement dynamics for narration-construed-as-instantiative-moulting’). However, we can still get a sense of such structural/paradigmatic <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity from a retrospective registry-worldview/dimension perspective like postlogism in a non-positivistic social-setup as of our prospective relative-ontological-completeness-of-reference-of-thought perspective but it is more difficult to grasp from a deprocrypticism prospective perspective of analysis where we will rather be unpalatably represented as decentered and dementing-or-preconverging–apriorising-psychologism, given our state of metaphysics-of-presence. Supposed with regards to a case of notions-and-accusations-of-sorcery as highlighted before as of a social-setup whose relative-ontological-incompleteness-of-reference-of-thought is non-positivistic, a positivism minded interlocutor arguing that notions-and-accusations-of-sorcery do not exist upon an accusation of sorcery is literally undermining itself but is seen as ontologically necessary for the cross-generational possibility of prospective transcendence. Supposed however that the interlocutor isn’t an isolated individual but a member from a positivistic society bringing about a cultural diffusion in the non-positivistic society such that the latter looks up to the former by its prospective relative-ontological-completeness-of-reference-of-

thought as it effectively has greater control on intrinsic-reality/ontological-veridicality reflected by way of say its relative technology, then in this case the non-positivistic social-setup will at least in ad-hoc instances be circumspect in countenancing that notions-and-accusations-of-sorcery do not exist as of <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. This new positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology voiding notions-and-accusations-of-sorcery and superstition generally as of the prior non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will more likely be taken-up-fully/habituated only cross-generationally in the middle run as the mental-reflex will constantly relapse into notions-and-accusations-of-sorcery and superstition of the prior non-positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, highlighting that a postlogism like psychopathy in our positivism–procrypticism or one associated with notions-and-accusations-of-sorcery in non-positivism social-setup is not truly speaking an isolated phenomenon as construed from an individuation-level of analysis but speaks in the bigger picture of an underlying registry-worldview/dimension registry-worldview/dimension-level relative-ontological-incompleteness-of-reference-of-thought as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and ‘lack of constraining social universal-transparency; such that implying that our prior positivism–procrypticism, as of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology,

cannot longer be upheld at such uninstitutionalised-threshold but requiring in lieu a deprocrpticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology will be difficult to countenance but for a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure since the issue is one of registry-worldview’s/dimension’s-uninstitutionalised-threshold–defect-<as-Being-or-ontological-or-existential–defect>. Thus supposed the case of the childhood psychopathy ‘dereifying act’ of spilling water on a chair arose in say a non-positivistic social-setup, as of its superstitiousness, with its explanation that the reason had to do with its suspicion of sorcery from the brother. While the social-setup entertains superstitious notions however the childhood psychopathy relatively poor maturation/indirectness/spatialisation/credulity/craftiness means that it is more likely to be disbelieved in this instance as well in addition to the household familiarisation with the psychopathic/postlogism condition of the child. Likewise, a visiting stranger in such a non-positivistic social-setup might just as well have a similar reaction as the visitor in a positivism–procrypticism social-setup by believing and reacting to the childhood psychopathy manifestation as the non-positivism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification entertains/is-cognisant-and-integrative-of/is-in-notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking/postconverging–qualia-schema>-with superstitious claims in its meaningfulness-and-teleology. An explainer to the visiting stranger in the non-positivism social-setup case about the whole situation would have articulated at the individuation-level of analysis a prospective ‘logically-due prelogism-as-of-conviction conflatedness as of positivism reference-of-thought–categorical-imperatives/axioms/registry-

teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’, going by their familiarisation with the childhood psychopathy ‘logically-undue postlogism-as-of-non-conviction denaturing as of non-positivism reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’ over the visiting stranger prior superstition believing ‘logically-undue conjugated-postlogism/conjugated-non-conviction derived-denaturing as of non-positivism reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology’, with both latter logically reference-of-thought construed as of distractive-alignment-to-reference-of-thought or lacking-an-ontologically-veridical-reference-of-thought due to their derived-denaturing which as of dynamic-cumulative-aftereffect/aftereffect at registry-worldview/dimension-level of analysis is the very ontologically-central notion of every registry-worldview/dimension uninstitutionalised-threshold which should thus be always construed as being in distractive-alignment-to-reference-of-thought with respect to its prospective institutionalisation. It is effectively derived-denaturing that induces apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as of uninstitutionalised-thresholds, as we can appreciate that the childhood psychopathy and the visitor’s meaningfulness-and-teleology are in effect ontologically-speaking apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. But then at the registry-worldview/dimension-level of analysis however, when compared to the simplistic individuation-level postlogism analysis insight, implying ontological-veridicality/ontological-reality on the basis of ‘logically-due prelogism-as-of-conviction conflatedness as of positivism reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-

and-teleology’ with respect to the overall non-positivism registry-worldview/dimension as of its dynamic-cumulative-aftereffect/aftereffect with regards to the manifest registry-worldview/dimension-level social construal of superstitions and notions-and-accusations-of-sorcery in general, can only arise from a cross-generational psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, as the non-positivism registry-worldview/dimension in relation to the prospective positivism registry-worldview/dimension is a <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) just as our positivism–procrypticism registry-worldview/dimension in relation to futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension is a <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>), in that as with all registry-worldviews/dimensions both do not contemplate of their transcendability and thus dementability, and keep on relapsing into their respective non-positivism and procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology in lieu of the respective prospective positivism and deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology as of prospective relative-ontological-completeness-of-reference-of-thought. This is further rendered difficult by a natural human ‘emotional involvement’ driven social-aggregation-enabling as of human condition that undermines intrinsic-reality/ontological-veridicality

transcendental-enabling/sublimating. This insight equally explains the pertinence of understanding postlogism/psychopathy in general as an epiphenomenon that can provide deeper insight about human nature given its ‘lateral-and-transversality-of-disambiguated-apriorising/axiomatising/referencing disruptive nature on human meaningfulness-and-teleology’ and with the structure/paradigm relatively easily perceived at childhood, much like the early modern human biologists relatively simplistic but counterintuitive-as-of-their-epochs understanding of disease provided deeper insight in understanding how the complexity of the human body works. Both individuation-level understanding of postlogism in a non-positivism as of notions-and-accusations-of-sorcery and positivism social-setup as of psychopathy and social psychopathy divulge a bigger reality at the registry-worldview/dimension-level dynamic-cumulative-aftereffect/aftereffect that is hidden by registry-worldview/dimension-level complexity, wherein the childhood postlogism individuation-level construal points out the reality at the registry-worldview/dimension-level of respectively a conventioning non-positivism in lieu of an ontologically-veridical positivism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology and a conventioning positivism–procrypticism as procrypticism in lieu of an ontologically-veridical deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology. That insight then brings up the idea of how does a registry-worldview/dimension-level dynamic-cumulative-aftereffect reflect the more simplistic individuation-level ontological-veridicality at childhood postlogism/psychopathy; which is the more elaborate purpose herein. That is, how distractive-alignment-to-reference-of-thought as undermining conflatedness induces psychological-complexes pointing to, as of dynamic-cumulative-aftereffect/aftereffect, the registry-worldview/dimension-level ontologising-

deficiency/relative-ontological-incompleteness-of-reference-of-thought. Considering again the childhood psychopathy case in a ‘dereifying act’ of spilling water on a chair, these basic elements can be expounded at the individuation-level of analysis. It should be noted that the visitor ‘as of its conjugated-postlogism as conjugated-ignorance’ is rather inclined to wrongly imply a ‘symmetrisation-of-reference-of-thought but which is in effect an ontologically-non-veridical-or-flawed <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that may induced its inclination for desymmetrisation for its perceived temporal social-stake-contention-or-confliction but for the fact of the relative contextual innocuousness with respect to social-stake-contention-or-confliction when it comes to childhood psychopathy compared to adulthood psychopathy’. The explainer of the situation ‘as of its prelogism-as-of-conviction-of-reference-of-thought’ is in an ‘intemporality-asymmetric-subsumption-of-temporality’/asymmetrisation relative to the visitor and childhood psychopathy with respect to the construal of ontological-veridicality. Hence the explainer of the situation construes the conflatedness as of its asymmetrisation with respect to the visitor whose reference-of-thought ontologising-deficiency/relative-ontological-incompleteness-of-reference-of-thought as not factoring in the childhood psychopathy postlogism-as-of-non-conviction-of-reference-of-thought which is ‘pathologically ontologically-destructuring’ implying both the childhood psychopathy and the visitor are rather in a state of unsoundness-or-inauthenticity-of-reference-of-thought and not bad or poor logic such that the notion of logical-dueness doesn’t arise in the very first place, as a reference-of-thought/axiomatic-construct is fundamentally construed as of its soundness-or-authenticity-of-reference-of-thought prior to the notion of logical-dueness arising once soundness-or-authenticity-of-reference-of-thought is established; thus, given the asymmetrisation of the explainer of the situation reference-of-thought/axiomatic-construct as existential/ontological as of existential-contextualising-contiguity’s-reifying/elucidating-of-

prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as contextually-manifest prospective relative-ontological-completeness-of-reference-of-thought in contrast to the visitor's 'supposed reference-of-thought/axiomatic-construct' which is non-existential/non-ontological as not-of-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as contextually-manifest prior relative-ontological-incompleteness-of-reference-of-thought. It is this fundamental fact that underlies the notion of 'distractiveness or arrogation or usurpation or co-opting' associated with the construal of the meaningfulness-and-teleology of temporal-dispositions perversion-and-derived-perversion-of-reference-of-thought as apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing in relation to intemporal meaningfulness-and-teleology as ontological; as such symmetrisation and subsequent desymmetrisation will wrongfully lead to the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of the visitor's reference-of-thought so ontologically-destructured by the childhood psychopathy postlogism 'dereifying act' of spilling water on a chair and accusing another, thereby undermining ontological-veridicality where logic-as-of-prelogism-as-of-conviction is wrongly assumed thus supposedly implying logical-processing-or-logical-implication is now to be engaged on the basis of the visitor's ontologically-destructured reference-of-thought/axiomatic-construct rather than implying the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology of the explainer of the situation reference-of-thought/axiomatic-construct as soundness-or-authenticity-of-reference-of-thought and the visitors and childhood psychopathy 'reference-of-thought—degraded-devolving-as-of-uninstitutionalised-threshold' unsoundness-or-

inauthenticity-of-reference-of-thought. The implication here is that the construal/conceptualisation of ontologically-veridical meaningfulness-and-teleology lies entirely/exclusively/supersedingly on the reference-of-thought/axiomatic-construct/curve-of-prospective-relative-ontological-completeness-of-reference-of-thought of the explainer of the situation while the logical-dueness of the visitor's 'supposed but rather non-existential/non-ontological reference-of-thought/axiomatic-construct/curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought' doesn't even arise in the very first place and fundamentally explains why its meaningfulness-and-teleology is operantly qualified as of 'distractiveness'/distractive-alignment/dismissal-as-being-in-arrogation and so more aptly as distractive-alignment-to-reference-of-thought. Distractiveness as it implies that in such a context, ontological-veridicality is construed exclusively as of intemporal prelogism-as-of-conviction reference-of-thought conflatedness denying any implied symmetrising of meaningfulness-and-teleology from temporal-dispositions in perversion-and-derived-perversion-of-reference-of-thought as their logical-dueness doesn't arise in the very first place, hence the reason why perversion-and-derived-perversion-of-reference-of-thought is construed more than just as of 'ontological-destructuring-constitutedness' but more completely and critically to avoid misconstrual rather as of distractive-alignment-to-reference-of-thought ; to point out that temporal-dispositions perversion-and-derived-perversion-of-reference-of-thought haven't got any 'existentially/ontologically-veridical reference-of-thought' given that they are in arrogation/usurpation/co-opting but rather the reality of their perversion-and-derived-perversion-of-reference-of-thought is construed operantly as of temporal postlogism-as-of-non-conviction-and-conjugated-postlogism 'exercise of distracting from' the intemporal prelogism-as-of-conviction reference-of-thought as of conflatedness', and so construed as distractive-alignment-to-reference-of-thought. That is, a 'temporality distracting from intemporality' construct; wherein the 'conflatedness of

intemporal prelogism-as-of-conviction projection' is misconstrued in 'denaturing' of psychopathy/postlogism with the consequent alignment to it of conjugated-postlogism as 'derived-denaturing'. In other words, prospective relative-ontological-completeness-of-reference-of-thought is 'precedingly/supersedingly structurally/paradigmatically cogent and comprehensive framework of meaningfulness-and-teleology' such that any arising temporal disruption of meaningfulness-and-teleology 'has nothing to do with constituting meaningfulness-and-teleology as of the temporal disruption prior relative-ontological-incompleteness-of-reference-of-thought', but rather meaningfulness-and-teleology is reconstrued as structuring/paradigming from the very prospective relative-ontological-completeness-of-reference-of-thought itself. Consider the case of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as perversion-of-reference-of-thought and temporal alignment in assuming the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as appropriate as derived-perversion-of-reference-of-thought as of relative-ontological-incompleteness-of-reference-of-thought and intemporal projection of appropriate apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as prospective relative-ontological-completeness-of-reference-of-thought. One cannot depart from both 'the state of the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as perversion-of-reference-of-thought or any states of temporal alignment in assuming the defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as appropriate as derived-perversion-of-reference-of-thought' to construe meaningfulness-and-teleology as of intrinsic-reality/ontological-veridicality structurally/paradigmatically by their relative-ontological-incompleteness-of-reference-of-thought, as all the meaningfulness-and-teleology that can be as of intrinsic-reality/ontological-veridicality wholly lies with the intemporal

projection of appropriate
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its
 prospective relative-ontological-completeness-of-reference-of-thought. The implication at the
 registry-worldview level is that base-institutionalisation ‘wholly carries all the
 meaningfulness-and-teleology that can be as of intrinsic-reality/ontological-veridicality’ over
 a state of recurrent-utter-uninstitutionalisation, and likewise for universalisation over base-
 institutionalisation–ununiversalisation, positivism over universalisation–non-
 positivism/medievalism, and in our case futural Being-development/ontological-framework-
 expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
 and-teleology as of prospective deprocrypticism over our positivism–procrypticism. The
 point here is to highlight that ‘conflatedness’ doesn’t imply any symmetrisation of
 meaningfulness-and-teleology with regards to perversion-and-derived-perversion-of-
 reference-of-thought since the latter is structurally/paradigmatically not logically-due for
 logical-processing-or-logical-implication in the very first place as is erroneously assumed
 by temporal projection mental-reflex. But rather, it implies an utter structural/paradigmatic
 reconstrual of meaningfulness-and-teleology as of intrinsic-reality/ontological-veridicality
 wholly by the intemporal projection of the prospective relative-ontological-completeness-of-
 reference-of-thought. The psychoanalytic-unshackling/memetic-reordering/institutional-
 recomposure implications associated with perversion-and-derived-perversion-of-reference-of-
 thought ultimately falls to the grander issue of prior relative-ontological-incompleteness-of-
 reference-of-thought as fundamentally endemising/enculturating such perversion-and-
 derived-perversion-of-reference-of-thought possibilities; such that an
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm as maximalising-recomposuring-for-relative-
 ontological-completeness is not one that simply identify a perversion-of-reference-of-thought

in a social-construct but as ‘covering all the possibilities for vices-and-impediments hypothetically susceptible to arise’ projects how structurally/paradigmatically the social-construct as of its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> prior relative-ontological-incompleteness-of-reference-of-thought is ‘susceptible to integrate’ perversion-of-reference-of-thought as derived-perversion-of-reference-of-thought, and ‘build a structural/paradigmatic ontology as of prospective relative-ontological-completeness-of-reference-of-thought going from this more comprehensive-possibilities bases that doesn’t allow for incrementalism-in-relative-ontological-incompleteness’ with the implication that no logical interlocution of the <formative>wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> arises as of prior relative-ontological-incompleteness-of-reference-of-thought. We can appreciate that the childhood psychopathy ‘dereifying act’ of spilling water on a chair is a distractiveness-drive with no existentially/ontologically veridical reference-of-thought which when wrongly implied as valid prelogism-as-of-conviction reference-of-thought/axiomatic-construct leads to its reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring—meaningfulness-and-teleology wrongly transforming the issue into one of logic-as-of-prelogism-as-of-conviction thus supposedly implying logical-processing-or-logical-implication by wrongly enabling logical-duedness to arise instead of an issue of unsoundness-or-inauthenticity-of-reference-of-thought implying its dismissal as distractive-alignment-to-reference-of-thought ; and this flaw extends into the visitor’s conjugated-postlogism as conjugated-ignorance given its relative-ontological-incompleteness-of-reference-of-thought as of positivism—procrypticism disjointedness-as-of-reference-of-thought which is cognisant-and-integrative as of its

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflection of existential-contextualising-contiguity–in-reification/dereification of the childhood psychopathy slantedness, and so as a derived-distractiveness-drive with no existentially/ontologically veridical reference-of-thought which when wrongly implied falsely as ontologically-veridical reference-of-thought/axiomatic-construct also leads to its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology wrongly transforming the issue into one of logic-as-of-prelogism-as-of-conviction thus supposedly implying logical-processing-or-logical-implication by wrongly enabling logical-ness to arise instead of an issue of derived unsoundness-or-inauthenticity-of-reference-of-thought and thus also implying as well its dismissal as distractive-alignment-to-reference-of-thought. In both wrongful ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology what is produced isn’t ontologically-veridical meaningfulness-and-teleology but rather dementing—apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing qualified as arrogation or usurpation or co-opting’ exactly because of the induced postlogism/psychopathy distractive-alignment-to-reference-of-thought out of existentially/ontologically veridical context; and its social integration/derivation in conjugation with human temporality/shortness of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation as conjugated-postlogism due to relative-ontological-incompleteness-of-reference-of-thought, and specifically in the case of positivism–procrysticism, due to disjointedness-as-of-reference-of-thought. This equally underlies on the basis of dynamic-cumulative-aftereffect/aftereffect at

the individuation-level and registry-worldview/dimension-level of analyses the notion of ‘decentering’ as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics, as the idea of value-reference if wrongfully ontologically construed as determined by the ‘<formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) as respectively non-positivism reference-of-thought’ or as procrypticism reference-of-thought’, then in effect the phenomena of non-positivism/medievalism postlogism like notions-and-accusations-of-sorcery as well as psychopathic-postlogism-and-its-social-integration as of our procrypticism/disjointedness-as-of-reference-of-thought will respectively be wrongfully construed to be existentially/ontologically veridical. The bigger point being that symmetrisation implying mutual recognition of reference-of-thought can only arise where there is mutual appropriateness-of-reference-of-thought-as-of-conflatedness as existentially/ontologically veridical thus enabling the logical-dueness of both interlocutors to arise as of their soundness-or-authenticity-of-reference-of-thought in the very first place, notwithstanding thereafter the appropriateness or inappropriateness of the logical-processing-or-logical-implication exercise which is then an altogether different issue of effective/ineffective logic-as-prelogism-as-of-conviction, and this latter is what tends to be falsely implied in situations of postlogism/psychopathy and conjugated-postlogism/social-psychopathy, and need to be ‘ontologically dismissed offhand’ and brought back to the fundamental issue of perversion-and-derived-perversion-of-reference-of-thought rather reflected-as-of-soundness-or-authenticity-of-reference-of-thought in determining whether logical-dueness arises in the very first place. Central to such a dynamic-cumulative-aftereffect/aftereffect registry-worldview/dimension-level analysis derived from such an individuation-level insight is the idea that social-functioning-and-accordance—as-of-social-

stake-contention-or-confliction is contiguous as of meaningfulness-and-teleology as of the individuation-level and registry-worldview/dimension-level of analysis, notwithstanding it developing complexification as of dynamic-cumulative-after/effect as from the individuation-level to the registry-worldview/dimension-level and thus with a greater opportunity for the simplistic individuation-level childhood postlogism/psychopathy phenomenon relatively resolvable at that individuation-level to fail resolution with the myriad of such cases at the circular-complexification registry-worldview/dimension-level of more surreptitious adulthood pathological postlogism/psychopathy as the maturation/indirectness/spatialisation/credulity/craftiness induces 'lack of constraining social universal-transparency with consequent conjugated-postlogism 'involving beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> dynamics further associated with a generalised social 'lack of constraining social universal-transparency reflected by the given registry-worldview's/dimension's prior relative-ontological-incompleteness-of-reference-of-thought thus reflecting the uninstitutionalised-threshold backdrop for the registry-worldview's/dimension's apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. In other words, social-functioning-and-accordance—as-of-social-stake-contention-or-confliction is structurally/paradigmatically 'ontologically compromised' as of a registry-worldview's/dimension's prior relative-ontological-incompleteness-of-reference-of-thought such that what a registry-worldview/dimension institutionalisation accede to as socially-functioning-and-accordant is limited by its given beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> with the implication that 'lack of constraining social universal-transparency at this uninstitutionalised-threshold allows for denaturing, which is rather subpar to the notional-conflatedness/constitutedness-to-conflatedness required for ontological-normalcy as 'preempting epistemic-decadence', as

inherent-ontology; with dynamic-cumulative-aftereffect/aftereffect implications at the individuation-level and registry-worldview/dimension-level of analysis as of metaphysics-of-absence. In this regard, metaphysics-of-absence as articulated herein by this author is rather about, 'human limited-mentation-capacity construed as of ontological-normalcy/postconvergence metaphysics-of-absence/Doppler-thinking as it disambiguates human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor meaningfulness-and-teleology <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity', as of historicity/ontological-eventfulness/ontological-aesthetic-tracing. For instance, the immediacy of intrinsic-reality/ontological-veridicality transcendental enabling in the natural sciences which is implicated in those fields by their 'relatively high results-constraining-effectiveness nature' provides metaphysics-of-absence insights with regards to obviating the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction bound to disrupt thought and analysis in the social as of its 'relatively low results-constraining-effectiveness nature'. Along the same argument and with regards to the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction inherent in the social, it is important to grasp that such an epiphenomenon/incidental-phenomenon insight as implied herein with postlogism/psychopathy and corresponding human social dynamics implications is rather a social construction supposedly coherent ontological-commitment that goes well beyond any given specific epiphenomenon—(in-the-overall-ecstatic-existence-supervening-conflatedness)/incidental occurring behind the inspired/insight-for-the social construction

supposedly coherent ontological-commitment as of aetiologisation/ontological-escalation for universal retrospective to prospective understanding of postlogism/psychopathy and human social dynamics implications. In other words such a social construction supposedly coherent ontological-commitment is inherently the more expansive, universal, decisive, objective and easier basis for critiquing its theorising-conceptualising-operationalising narratives ‘in order to assess the veracity/ontological-pertinence of the structural/paradigmatic universal implications arrived-at of the social construction supposedly coherent ontological-commitment as of the possibilities of easily transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism myriad retrospective and prospective social contexts of analysis, and so more critically rather than an obscured/muddled/obfuscated and difficult critiquing grounded on ‘assessing the veracity/ontological-pertinence of the structural/paradigmatic universal implications arrived-at of the social construction supposedly coherent ontological-commitment rather on the basis of any such specific epiphenomenon—(in-the-overall-ecstatic-existence-supervening-conflatedness)/incidental occurring as of its relatively poorly objectifiable-as-desubjectifiable/subjectified incidental social context for analysis. flouted and sidetracked with the high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction that permeates the study of the social as of its blurriness. This equally explains why it is actually better and more critical to construe/conceptualise social knowledge not only on the basis of the inherent veracity/ontological-pertinence of supposedly coherent ontological-commitment as with the natural sciences but equally factoring in the human social condition as of high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising–self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction, and so as of a knowledge notionalisation exercise. In other words metaphysics-of-absence refers to any such projections, as of human imaginative capacity derived from our underlying ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human) and existence/intrinsic-reality/ontology-as-of-its-mimetic-echoiness-or-existence-in-reverberation-or-existence-potency; thus enabling human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) insights as apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights. We can further get a sense with respect to the implications of what is meant by reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-

teleology, relative to the construal/conceptualisation from the middle of the last century in the biological domain as of its specific uninstitutionalised-threshold then over which the DNA-based genetics reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology was developed which induced an altogether new dramatically different but ontologically-veridical imagery/picture of the nature of biology at that uninstitutionalised-threshold that then became a new specific institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology thereafter amenable to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity such that the prior non DNA-based construal/conceptualisation (as of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology) with respect to that now DNA-based genetics specific institutionalised <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of biology cannot longer be upheld, and this is so in the bigger picture as a contributory conflatedness within the same positivism registry-worldview institutionalisation. (In fact, the institutional-cumulations/institutional-recomposures are the conjoined effect of all specific uninstitutionalised-threshold institutionalisation breakthroughs of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology construed conjointly as of the prospective registry-worldview/dimension institutionalisation.) In this case, however the ‘emotional involvement’ in conflatedness within the same positivism registry-worldview of appraisal is way low compared to the high ‘emotional

involvement’ in making the same construct as of a contrastive transcending/superseding of a prior registry-worldview/dimension institutionalisation reference-of-thought into an entirely new/prospective registry-worldview/dimension institutionalisation reference-of-thought like between non-positivism and positivism or prospectively between our positivism–procrypticism and deprocrypticism as in this latter instance such a construal/conceptualisation is comprehensively redefining of the human psyche and tend to elicit the highest levels of ‘emotional involvement’ thus requiring rather a cross-generational adjustment as conflatedness over the prior distractive-alignment-to-reference-of-thought. In conclusion, such a construal/conceptualisation as of deprocrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology over our positivism–procrypticism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology of our ‘lived social’ uninstitutionalised-threshold with respect to psychopathy and social psychopathy and procrypticism in general is a wholly new dramatically different depth of understanding, and from our present inclination of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity within the positivism institutionalisation framework. Beyond the above contrastive individuation-level and registry-worldview/dimension-level of analysis with respect to the uptake of prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-aposteriorising/logicising/deriving/intelligising/measuring–meaningfulness-and-teleology, this social reality of varying social reference-of-thought–closeness-of-tethering-to-prelogism-as-of-conviction and reference-of-thought–looseness-of-tethering-to-prelogism-

as-of-conviction’ implying increasing reference-of-thought–looseness-of-tethering-to–prelogism-as-of-conviction as of greater temporality/shortness construed as of various shades of reference-of-thought–madeupness/bottomlining speaks in the bigger picture of a social reality across all registry-worldviews/dimensions that tends to ‘destructure any registry-worldview/dimension institutionalisation meaningfulness-and-teleology’ by an ‘ontological degradation effect’ having to do with human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor, and in so doing inducing apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as uninstitutionalised-threshold. In other words, a prospective registry-worldview/dimension institutionalisation meaningfulness-and-teleology in becoming the new reference-of-thought (over the prior registry-worldview’s/dimension’s reference-of-thought) with its supposedly grander intemporal-preservation-entropy-or-contiguity—or–ontological-preservation reference-of-thought–categorical-imperatives/axioms/registry-teleology as of the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of–apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality driving/behind its construal, turns out to be a prospective institutionalisation ‘reset framework for human temporal-to-intemporal mental-dispositions’ respectively in reference-of-thought–looseness-of-tethering-to–prelogism-as-of-conviction and reference-of-thought–closeness-of-tethering-to–prelogism-as-of-conviction of the new reference-of-thought’; as facing/dealing anew with human temporal-to-intemporal mental-dispositions but this time around doing the same thing as occurred with the prior institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology that was transcended/superseded to deliver the new registry-worldview/dimension, but now on the new registry-worldview’s/dimension’s institutionalisation reference-of-thought–categorical-imperatives/axioms/registry-teleology

(with the difference as of a ‘relatively lower sensibility’ arising just because of the new registry-worldview/dimension prospective relative-ontological-completeness-of-reference-of-thought limiting/constraining on the possibilities of vices-and-impediments); implying an underlying ontological-contiguity of the reality of human temporal-to-intemporal mental-dispositions across all the registry-worldviews/dimensions. Thus while ‘ontologically superseding the prior beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and prior ‘lack of constraining social universal-transparency this does not imply apart from such institutionalisation-as-secondnaturing a change of human temporal-to-intemporal nature, given that this nature will further manifest at the prospective registry-worldview uninstitutionalised-threshold as its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and ‘lack of constraining social universal-transparency inducing anew the new reference-of-thought owns apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. This social dynamism (dynamic-cumulative-aftereffect) as of the new registry-worldview/dimension uninstitutionalised-threshold can be construed ontologically as arising out of a further temporal/shortness-of-register-of-meaningfulness-and-teleology distortedness of the new <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology in the social extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) ultimately extending to the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) spheres of formal constructs distorting formal construal of meaningfulness-and-teleology, and so to a point of equilibrium of the new registry-worldview/dimension between its institutionalised meaningfulness-and-teleology and its uninstitutionalised-threshold’s apriorising/axiomatising/referencing-in-hollow-staging-and-

performance-caricaturing. The operant and technical conceptualisation basis of this phenomenon has to do with the inherent nature of pure-ontology conflatedness for ontologically-veridical meaningfulness-and-teleology and ‘human temporal-to-intemporal condition’ of reception/distortion across the successive registry-worldviews/dimensions involving denaturing where there is ‘lack of constraining social universal-transparency. The establishment or rather coming into being of a prospective registry-worldview/dimension institutionalisation reference-of-thought can thus be construed as of pure-ontology conflatedness for ontologically-veridical meaningfulness-and-teleology, and so because it is both the mechanical-knowledge as the constraining technical outcome and the non-constraining driving underlying intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, with both constituting the organic-knowledge. This transcendental knowledge construct establishes a dominant social framework of knowledge grounded on its inherent intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework (as it supersedes the prior beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> meaningfulness-and-teleology and the prior ‘lack of constraining social universal-transparency), and then imbues the prospective institutionalisation with social validity and social structure of meaningfulness-and-teleology as of deferential-formalisation-transference. This is the social-setup of the prospective institutionalisation reference-of-thought as of pure-ontology conflatedness for prospective relative-ontological-completeness-of-reference-of-thought meaningfulness-and-teleology. But then in due course and at the uninstitutionalised-threshold of this prospective institutionalisation reference-of-thought, its organic-knowledge (as driven by intemporal-disposition ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for intemporal-
 preservation-entropy-or-contiguity—or—ontological-preservation) wanes as the reality of
 human temporal-to-intemporal nature sets in as it is related to at the uninstitutionalised-
 threshold by the registry-worldview's/dimension's least common denominator as
 <formative>wooden-language-(imbued—temporal—mere-
 form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—
 narratives)-<of-the-prior-registry-worldview's/dimension's-institutionalisation-reference-of-
 thought—categorical-imperatives/axioms/registry-teleology> for social-functioning-and-
 accord—ance—as-of-social-stake-contention-or-confliction (in a social dynamics at the given
 uninstitutionalised-threshold that is a drawback-to/undermines prospective-knowledge-and-
 institutional deferential-formalisation-transference as of prospective relative-ontological-
 completeness-of-reference-of-thought intrinsic-reality/ontological-veridicality transcendental-
 enabling/sublimating ontological-primemovers-totalitative-framework, and is rather oriented
 to sovereign extrication over knowledge-reification at this uninstitutionalised-threshold as of
 social-aggregation-enabling), as of its bare constraining mechanical-knowledge since
 reference-of-thought—categorical-imperatives/axioms/registry-teleology are only
 'mechanistically' constraining, lacking the organic-spirit or ontological-faith-notion-or-
 ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—
 as-so-being-as-of-existential-reality. Anecdotally, we know as of our uninstitutionalised-
 threshold that in effect the technical constraints of the law tend to supersede the spirit of the
 law as it is naïve to think that a 'sense of rightness' is all that matters before the law, and this
 extends to human meaningful and organisational principles in general. Such that temporal-
 dispositions fulfilment of such 'mechanistic' effectiveness as mechanical-knowledge 'without
 the non-constraining and abstract organic mental-disposition as of ontological-faith-notion-
 or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the emanant-kind that-had-driven the reference-of-thought construal in the first place’ distort in due course organic meaningfulness-and-teleology, as of temporal mental-dispositions of shortness-of-register-of-meaningfulness-and-teleology. Thus such implied prospective reference-of-thought, social organisations and institutions as organic meaningfulness-and-teleology then tend to develop ‘subcultural reorientations’ that are ‘mildly alien’ and ‘on-occasional gravely alien’ to the (especially in the extended-informalities of the social and institutions) original organic-knowledge conceptualisation as of the implied prospective reference-of-thought social and institutions meaningfulness-and-teleology. Thus for an ontological-veridicality/intrinsic-reality transcendental-enabling/sublimating ontological-primemovers-totalitative-framework construal for the deprocrypticism prospective institutionalisation, it is critical to grasp both the inherent ontological-veracity of the meaningfulness-and-teleology behind the construal of deprocrypticism and the ‘reality of a human condition of temporal-dispositions distractive-alignment-to-reference-of-thought, and so as of notional-conflatedness/constitutedness-to-conflatedness as historicity/ontological-eventfulness/ontological-aesthetic-tracing in articulating a {protensive-consciousness referentialism-induced}-reference-of-thought—devolving-teleological-structure-of-meaningfulness, that is preemptive of a least-common-denominator-of-social-functioning-and-accordance-effecting to bare mechanical-knowledge as of <formative>wooden-language-⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives⟩-<of-the-prior-registry-worldview’s/dimension’s-institutionalisation-reference-of-thought—categorical-imperatives/axioms/registry-teleology> inducing apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing as of uninstitutionalised-threshold. This is achieved by a perpetuating metaphysics-of-absence that factors in human temporal-to-

intemporal-dispositions nature. Insightfully, a storied-construct/ontologically-valid-narration technique apprehending the temporal-to-intemporal-dispositions respective mental-dispositions for reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction and reference-of-thought–closeness-of-tethering–to–prelogism-as-of-conviction can be construed, wherein the instigating temporal postlogism-as-of-non-conviction reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction (as postlogism-as-of-non-conviction temporal reference-of-thought–madeupness/bottomlining) as of the childhood psychopathy (where the reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction mental defect is of social universal-transparency socially like in a ‘dereifying act’ of spilling water on a chair and accusing another, pointing to a mental-shortcut as faulty-mentation-procedure-deception-or-urge in relating to social-stake-contention-or-confliction) and adult psychopath (where the reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction mental defect is opaque due to its maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction) can be elucidated. The underlying process as of temporal postlogism-as-of-non-conviction/psychopathic reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction mental defect beginning at childhood involves ‘its circular non-consequential vague trialing of reference-of-thought–looseness-of-tethering–to–prelogism-as-of-conviction’ as of its temporal postlogism reference-of-thought–madeupness/bottomlining with respect to its postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’, in full conscious-awareness-teleology, which when perceived as uncontested by the psychopath (likely to arise where the concerned party lacks insight of its underlying faulty-mentation-procedure-deception and as it seem socially-function) will ultimately lead to its slanting-deception (or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-

presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-dementing-or-preconverging-of-narratives) inducing its apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing and its consequent derivation as conjugated-postlogism or social psychopathy apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. This process is mirrored with the various conjugated-postlogisms conscious or unconscious aligning to the psychopathic/postlogical postlogism-as-of-non-conviction vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging. Thus effectively such a postlogism-as-of-non-conviction process is rather very simplistic, and the deception arises actually from the prelogism-as-of-conviction mental-states to be by mental-reflex in prelogism-as-of-conviction thus inducing wrongful teleological elevation of the postlogism/psychopathic meaningfulness-and-teleology, which wouldn't occur at childhood psychopathy. Finally, as of dynamic-cumulative-aftereffect and across all registry-worldviews/dimensions, the 'distractive-alignment-to-reference-of-thought of any registry-worldview/dimension institutionalisation meaningfulness-and-teleology as of its organic knowledge' can be construed and analysed across 3 lines; - the initiating temporal postlogism distractive-alignment-to-reference-of-thought of meaningfulness-and-teleology, - the generalised temporal-dispositions to integrate such ontologically-destructured meaningfulness-and-teleology as of the registry-worldview's/dimension's relative-ontological-incompleteness-of-reference-of-thought explaining its beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> and 'lack of constraining social universal-transparency, - and the prospective institutionalisation construing/conceptualising the ontological-veridicality and analysis of such registry-worldview/dimension institutionalisation meaningfulness-and-teleology distractive-alignment-to-reference-of-thought dynamics (as of the previous two) as social

ontology/aetiologisation/ontological-escalation, and equally serves as an ideal storied-construct/ontologically-valid-narration of intuitive elucidation framework. The implication of such ‘temporal distractive-alignment-to-reference-of-thought of institutionalisation meaningfulness-and-teleology’ across all registry-worldviews/dimensions is that meaningfulness-and-teleology as of prospective registry-worldview/dimension institutionalisation involves ‘its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights enabling utter psychical-and-institutional conflatedness of meaningfulness-and-teleology exactly by transcending/superseding the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights behind the prior registry-worldview/dimension uninstitutionalised-threshold’. The statements articulated priorly (before the square brackets texts digression) speak of the reality of ‘human temporal uninstitutionalised-threshold mental-disposition’ even in our own positivism reference-of-thought registry-worldview. It is fair to say the statement made before, “Z ... will look down on B, C, D, E and F mental-dispositions perversion-and-derived-perversion-of-reference-of-thought as allowing for the endemisation/enculturation of the denaturing of additionality and the implications thereof of subsequent denaturing in circularity/recurrence/repetition/repeatability” is circumstantially relevant even in our positivistic registry-worldview wherein ‘lack of constraining social universal-transparency induces a ‘human temporal uninstitutionalised-threshold mental-disposition’ temporality/shortness or shortness-of-register-of-meaningfulness-and-teleology drive. The Milgram experiments, a demonstration par excellence of the human condition at uninstitutionalised-threshold with respect to perceived-social-stake-contention-or-confliction constraints as of human limited-mentation-capacity-(as of relative constitutedness towards relative conflation), truly reflect the inherent nature of 'human temporal uninstitutionalised-

threshold mental-disposition'; and the deprocrypticism-driven understanding of which should rather be an avenue for a pivoting/decentering psychologism with respect to positivism—procrypticism registry-worldview/dimensions vices-and-impediments (just as with all previous transcendences of 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity', rather than a naïve metaphysics-of-presence mental complex that only serves 'flawed egos' and is of no ontologically-veridical import). The point of this distinction made between the nature of 'human registry-worldview's/dimension's institutionalisation mental-disposition' registry-worldview's/dimension's reference-of-thought and 'human temporal uninstitutionalised-threshold mental-disposition' registry-worldview's/dimension's reference-of-thought, as of prospective ontological-normalcy/postconvergence is to put into perspective the idea that the present and as of our present social construction and individuations as being relatively more exceptional than the solipsistic nature of humans in prior epochs is false, with such wrongly implied exception rather being a confusion between 'cumulated institutionalisation' (which we carry by being secondnatured at the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) leading to the positivistic registry-worldview/dimension) and that our inherent solipsistic sense of intemporality/longness (which overall is no more greater than that of humans of previous successive registry-worldviews/dimensions); and further that we are just of the same 'human temporal uninstitutionalised-threshold mental-disposition' as all humans past when it comes

to making solipsistic choices at uninstitutionalised-threshold, which choices when of intemporality-drive solipsistic-choices are maximalising-recomposuring-for-relative-ontological-completeness leading to prospective institutionalisations. This notion of human mental-disposition and by extension meaningfulness-and-teleology as comprising, rather as a more complete and grander conceptualisation, a registry-worldview's/dimension's institutionalisation-facet and an uninstitutionalised-threshold-facet, so-construed by metaphysics-of-absence, carries institutionalisation and uninstitutionalised-threshold implications with respect to the determination of ontologically-veridical meaningfulness-and-teleology as of pertinent scientific conceptualisation (scientific approach, methodology and methods) as rather construed most critically by its relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating. Such metaphysics-of-absence considerations are critically relevant in fully appreciating the articulation herein by this author of such notions (that rather speak of uninstitutionalised-threshold implications with respect to 'a social pretence of scientific conceptualising as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating'), like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-disambiguated-apriorising/axiomatising/referencing. Insightfully, it is the case that our present-day positivistic institutionalisation secondnatured scientific practice outcome of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating is grounded on institutionally-determined peerage/collegiality as of positivistic institutionalisation deferential-formalisation-transference, so supposedly recognised within the social collective or 'social framework of intersolipsistic deambulation'. But then we grasp that at the disjuncture of positivistic meaningfulness-and-teleology (as 'moulting' firstnature/intemporal conceptualisation of what developed to become today our scientific practice institutionalisation as of its relative intrinsic-reality/ontological-veridicality

transcendental-enabling/sublimating) from the non-positivism/medievalism registry-worldview/dimension, we can definitely fathom that the enlightenment actors like the Descartes's, Galileos, Diderots, etc. of those transitioning times would have certainly been circumspect with regards to any such notion of preceding social approval (for their scientific meaningfulness-and-teleology as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating), given the social non-positivism/medievalism uninstitutionalised-threshold non-scientific disposition, as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This points to an altogether different social relation with the notion of scientific practice construed as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, by such intemporal-solipsism as to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality mental-disposition that conceive of positivistic meaningfulness-and-teleology in the uninstitutionalised-threshold social-setup of non-positivism/medievalism where they were institutionally-outlier/unenframeds. As exemplarily implied with the Encyclopédistes led by Diderot, such construal is grounded on a more basic and potent construct of ontological-primemovers-totalitative-framework and actually reveals in many ways the reality of a natural Foucauldian power relations which it turns out is actually in the medium to long term a social-granting-of-power-exercise with respect to the virtue of true knowledge, as of the social percolation-channelling possibilities enabling promising ideas, however institutionally-outlier/unenframed or institutionally-central, to take hold in society depending on their relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating as of veracity/ontological-pertinence; without heed given to mere centrality as veracity/ontological-pertinence but decentering if the centrality is not ontologically pertinent, and rather further secondnaturating prospective institutionalisation of scientific practice as of

its relative intrinsic-reality/ontological-veridicality transcendence-enabling; very much highlighting the prospective institutionalisation pertinence of such notions articulated by this author like deferential-formalisation-transference, ordered-construct, percolation-channelling and transversality-of-disambiguated-apriorising/axiomatising/referencing. In another respect, with regards to scientific meaningfulness-and-teleology and as it informs the social-construct of knowledge and deferential-formalisation-transference (as power relations with respect to knowledge as socially empowering), it is critical to grasp that it is relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating that induces social deference to formal knowledge constructs and other formal constructs, on the basis that that will ‘produce the greater human Good’, as at the prior as uninstitutionalised-threshold when such domains lacked or were deficient with respect to formal knowledge constructs or other formal constructs like officialdoms, it was rather a question of ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ with relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <formative>wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications> mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections’; explaining why higher and higher registry-worldviews/dimensions as of their prospective relative-ontological-completeness-of-reference-of-thought increasingly defer domains of meaningfulness-and-teleology more and more to formal constructs while increasingly reducing the sphere of the extended-informality-<susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-

meaningfulness-and-teleology) as of its free-for-all nature. The bigger point being that even in our positivism–procrysticism registry-worldview/dimension with relatively strong ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections’ in many domains; however, with regards to domains (and so, more than just about broad subject matter areas and broad spheres of other formal constructs including officialdoms, but rather and critically the specifically relatively undeveloped knowledge spheres of such broad subject matters and broad spheres of other formal constructs including officialdoms, and as specific in this instance as with regards to our understanding of psychopathy) that are spurious and blurry, these are often not socially related to in profound knowledge/scientific meaningfulness-and-teleology terms on the basis of ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections’ profound treatment, and are rather prone to ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ in rather relatively impulsive and simplistic contending mental-dispositions on the basis of the determining or non-determining need for ‘social consensus as of social-aggregation-enabling by human temporal <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) mental-dispositions and projections’ and not necessarily emphasising ‘social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections’. This contrasts with those domains that are more pertinently and decisively intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating which quickly obtain deferential-formalisation-transference (deferential as not opinionating randomly with respect to imagining the legal implications of one

another's actions but deferring one's understanding to the formal legal domain, appreciating in deference scientific principles and not opinionating about what we imagine about the stars but deferring to the astronomer and physicist, appreciating statistics and human geography methods and not imagining how censuses and polls should be done but deferring to the demographer and statistician, etc.; as providing a grander depth of knowledge by deferential-formalisation-transference pointing out that 'human intemporal mental-dispositions and projections' are the basis for 'inventing' human knowledge and corresponding virtue (as of aetiologisation/ontological-escalation), and not 'human temporal <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) mental-dispositions and projections'. Hence the construal of knowledge construct in such domains that are spurious and blurry as with respect to postlogism/psychopathy social implications should as of precedence be about articulating the illuminating insight that ultimately allows for the attainment of their own deferential-formalisation-transference based on 'social consensus as of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating by human intemporal mental-dispositions and projections', and undermining a social relations with regards to knowledge and virtue that is based on 'social consensus as of social-aggregation-enabling by human temporal <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) mental-dispositions and projections', and so in order to release the inherent virtue imbued in true knowledge. The afore elucidations are mainly to point out that it is naïve to construe the analysis of postlogism phenomenon including psychopathy on the assumption of an overall 'human registry-worldview's/dimension's institutionalisation mental-disposition' of the

social as of the present as metaphysics-of-presence instead of assuming a ‘human temporal uninstitutionalised-threshold mental-disposition’ of the social by prospective metaphysics-of-absence, since the construal of our postlogism as of psychopathy and social psychopathy is necessarily, from ontological-normalcy/postconvergence epistemic/notional_projective-perspective, reflected from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview’s/dimension’s reference-of-thought. Insightfully, by metaphysics-of-absence we can appreciate this logic with respect to notions-and-accusations-of-sorcery as intuitively we’ll be hard-pressed to recognise that the non-positivism/medievalism social-construct mental-disposition is one of human registry-worldview’s/dimension’s institutionalisation of an intemporality-drive whereas in fact it is one of human uninstitutionalised-threshold of temporalities-drives such that it is endemised/enculturated in various temporality/shortness shades (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) as of ontological-normalcy/postconvergence from a prospective positivism registry-worldview’s/dimension’s reference-of-thought. The same applies with psychopathy in our positivism–procrypticism, as the <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)> in such a context should not and cannot be the trusted reference of intellectual contemplation as of ontological-normalcy/postconvergence in the elucidation of psychopathy and social psychopathy (just as it is not a trusted reference with regards with priorly established formal knowledge constructs whether subject-matter disciplines or formalising constructs including the law, officialdom, etc.), as it is effectively poorly ontological or non-ontological in the

sense that it tends to be of an extricatory/temporal paradigm and not intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm as when it fails to appreciate the virtuous implications of aetiologisation/ontological-escalation (metaphorically-as-of-a-million-and-one-instances-and-locales) as providing the possibility for prospective institutionalisation as structurally/paradigmatically superseding the positivism–procrypticism registry-worldview/dimension vices-and-impediments! It is thus important to grasp that the notion of virtue as of our temporal-to-intemporal mental-dispositions is more than just about the notion of being at the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process of institutional-cumulations/institutional-recomposures, but rather the intemporal mental-disposition (intemporal-disposition) to strive as maximalising-recomposuring-for-relative-ontological-completeness for base-institutionalisation to supersede recurrent-utter-uninstitutionalisation equates that striving for universalisation to supersede base-institutionalisation–ununiversalisation equates that striving for positivism to supersede universalisation–non-positivism/medievalism equates that striving for deprocrypticism to supersede positivism–procrypticism; as the highest human virtue of ontological import. Since the inducing of institutionalisation-as-a-secondnatured-construct across all institutional-cumulations/institutional-recomposures or registry-worldviews/dimensions inevitably implies a dichotomy of reference-of-thought modalities of the same perpetual temporalities-drives and intemporality-drive (given human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor), respectively as ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’ and ‘maximal-as-intemporal-operating-modality-of-reference-of-thought-as-of-

maxi. Virtue is essentially about the intemporality-drive as maximalising-recomposuring-for-
 relative-ontological-completeness for intemporal-preservation-entropy-or-contiguity-or-
 ontological-preservation as of ontological-normalcy/postconvergence which always factor in
 human limited-mentation-capacity-(as of relative constitutedness towards relative conflation)
 by a re-equilibrating metaphysics-of-absence/postdication with reference-of-thought-
 categorical-imperatives/axioms/registry-teleology subservient to that purpose, and not about
 the temporalities-drives as ‘mere adherence as intradimensionally deterministic by form’ to
 reference-of-thought-categorical-imperatives/axioms/registry-teleology as these are
 failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-
 entropy-or-contiguity-or-ontological-preservation as of ontological-
 normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of
 relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-
 absence/postdication rather than upholding it, their very raison d’être. Interestingly, supposed
 by some circumstance an individual of a positivistic insight found themselves in a non-
 positivistic community, whether base-institutionalisation/animistic or medieval, facing a
 disease attributed to a negative spirit or so, but the positivistic individual knows it is a case of
 an infection with the idea that a certain root or leaf in the nearby forest can be used as cure,
 however, the community rather believe that the forest is an evil forest and this will just make
 things worse for them overall. Obviously, as of its positivism prospective relative-
 ontological-completeness-of-reference-of-thought, by ‘intemporal-prioritisation-of-reference-
 of-thought’-as-conflatedness its mental-disposition will be to unleash its maximalising-
 recomposuring-for-relative-ontological-completeness intemporality-drive to supersede the
 non-positivistic reference-of-thought-categorical-imperatives/axioms/registry-teleology that
 the evil forest brings bad omen substituting it with the positivistic one that the root or leaf in
 the forest brings about cure by walking over the supposed ‘evil forest’, and more than just the

circumstantial situation will equally appreciate that positivistic thinking over animistic or medieval thinking will go a long way in improving the community's existence. It is interesting to grasp the difference in the dereifying and reifying construal of existential-contextualising-contiguity here between the non-positivists mindsets and the positivist mindset as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought and respectively as of their divergent non-positivists dereification perspective and positivist reification perspective; as seeing the positivist stranger walking into the supposed 'evil forest' will be the confirmation for members of the non-positivist social-setup of its viciousness-or-supernaturalness-or-evil-disposition. It can be noted here that seeing the positivist walking into the evil forest will be branded as proof/evidence by the non-positivists of its viciousness-or-supernaturalness-or-evil-disposition going by their supernatural conception of existential-contextualising-contiguity—in-reification/dereification as of their prior relative-ontological-incompleteness-of-reference-of-thought, contrasted with the positivist naturalist conception of existential-contextualising-contiguity-in-reification as-seeking-a-cure as of its prospective relative-ontological-completeness-of-reference-of-thought; and possibly ensuing into a country of the blind scenario. This insight equally highlights the evasiveness of 'what is meant by proof/evidence' even in our positivism—procrypticism registry-worldview/dimension as of its prior relative-ontological-incompleteness-of-reference-of-thought, as the notion of proof/evidence is more critically tied down to existential-contextualising-contiguity-reification as of singularisation/epistemic-immanence/veridical-epistemic-determinism; just as postmodern-thought notional-contiguity/epistemic-contiguity-<mentally-aestheticised_dialectical-thinking/postconverging—qualia-schema> in decentering the 'modern-take thinking' reveals the underlying bias of the latter meaningfulness-and-teleology as reflected particularly more vividly in gender, race, class, etc. Interestingly, this paradox is very much typical of all

transcendental situations and explains the universal ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ contorted gesturing associated with transcendental thresholds. As we can garner in this case that the positivist constrained to existence rather in such a country-of-the-blind scenario cannot simply be deferential to living and Being as of the non-positivist social-setup value reference while very much aware of the structural/paradigmatic virtue implications as of prospective positivism prospective relative-ontological-completeness-of-reference-of-thought, and thus will ‘contortively’ hold on to the reasoning-through/messianic-reasoning possibility of positivistic value references over non-positivistic value reference, even as the latter is always in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag; with the implication that such ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning contortion is rather in transversality-of-disambiguated-apriorising/axiomatising/referencing of the prior relative-ontological-incompleteness-of-reference-of-thought and the contorted prospective relative-ontological-completeness-of-reference-of-thought from their respective existentialism intelligibility stances. This contortion as of prospective relative-ontological-completeness-of-reference-of-thought projection is what marks ‘transcendental acts of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen/asceticism as of reasoning-through/messianic-reasoning’ whether of philosophical implications as with say Socrates or philo-religious implications as of nonextricatory-existential-preempting-of-existential-unthought. The contortion arises because

inherently the state of prior relative-ontological-incompleteness-of-reference-of-thought ever
 always fails to accompany prospective state of prospective relative-ontological-completeness-
 of-reference-of-thought but for the induced cross-generational transcendental metaphoricity
 possibility, and the contortion is more of a token as of the metaphoricity possibility for
 prospective transcendence and without which token contortion there is ‘no existential
 reference for such transcendence’, as a gesturing of metaphoricity that is ‘beyond the prior
 relative-ontological-incompleteness-of-reference-of-thought full meaningfulness-and-
 teleology implications contemplation’. The contortion implies that there is ‘nothing any more
 important than upholding the metaphoricity possibility for prospective relative-ontological-
 completeness-of-reference-of-thought’; as transcendental instigation can’t be of ordinary
 inclination at one moment and at another moment of transcendental inclination, as this will
 only ‘teleologically-degrade and devalue’ the implied prospective relative-ontological-
 completeness-of-reference-of-thought transcendence into the ordinariness of prior relative-
 ontological-incompleteness-of-reference-of-thought thus
 psychoanalytically/exegetically/symbiologically existentially undercutting the token
 contortion existential reference for prospective relative-ontological-completeness-of-
 reference-of-thought transcendence. Thus ‘ontological-faith-notion-or-ontological-fideism—
 imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-
 existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-
 reasoning’ only evolves into such asceticism as of contortive metaphoricity gesturing for
 prospective relative-ontological-completeness-of-reference-of-thought as of nonextricatory-
 existential-preempting-of-existential-unthought; and has historically acted as a sort of internal
 cultural diffusion disposition. Such a prospective ontological conception of asceticism rather
 as of reasoning-through/messianic-reasoning asceticism, different from asceticism as
 reasoning-from-results/afterthought or institutional asceticism, should basically be

aestheticisation fails to induce an ontologically-veridical reifying trace/ontological-aesthetic-tracing of existential-contextualising-contiguity. We can imagine as of a non-positivistic social-setup reference-of-thought identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism <formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology, the ‘candid existential expressiveness’ that ‘integrates superstition as-thinking’ as of its uninstitutionalised-threshold, much like as from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism perspective we can imagine the ‘candid existential expressiveness’ in our positivism–procrypticism that ‘integrates procrypticism/disjointedness-as-of-reference-of-thought as-thinking’ as of its uninstitutionalised-threshold; and in both cases the ‘trace/ontological-aesthetic-tracing of ontological wholeness/nested-congruence’ as of existential-contextualising-contiguity knowledge-reification breaks down at the uninstitutionalised-threshold thus assuming a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-or-preconverging-narratives) identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism representation of the breakdown and going on in both cases to ‘overlook effectively as-if-thinking respectively’ the ontologically-veridical reality of ‘dementing-or-preconverging–apriorising-psychologism superstition’ and ‘dementing-or-preconverging–apriorising-psychologism procrypticism/disjointedness-as-of-reference-of-thought’. It is singularisation/epistemic-immanence/veridical-epistemic-determinism in preempting any such structural/paradigmatic threshold construed as uninstitutionalised-threshold as implied by notional-deprocrypticism that reflects ‘ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism’ as factoring in prior registry-worldviews/dimensions

reference-of-thought prior relative-ontological-incompleteness as of the ontologically-flawed threshold of its reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation from the perspective of prospective registry-worldview/dimension reference-of-thought prospective relative-ontological-completeness to construe historicity/ontological-eventfulness/ontological-aesthetic-tracing as of notionally-full existential-contextualising-contiguity knowledge-reification. In other words, existential-contextualising-contiguity as reflecting existence—as-the-absolute-a-priori-of-conceptualisation isn't halted at any given registry-worldview's/dimension's structural/paradigmatic limit/threshold-construed-as-mathesis/motif/throwness-disposition for ontological conception, but rather reifies as of singularisation/epistemic-immanence/veridical-epistemic-determinism as implied with ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as of notional-deprocrpticism, with such singularisation/epistemic-immanence/veridical-epistemic-determinism reflecting an historicity/ontological-eventfulness/ontological-aesthetic-tracing of all such structural/paradigmatic limits/thresholds-construed-as-mathesis/motif/throwness-disposition of reference-of-thought ontological conception. In effect, such a trace/ontological-aesthetic-tracing can be construed as a 'creative metaphoricity tracing' of human temporal-to-intemporal ontological-performances of human meaningfulness-and-teleology as of the dynamics of 'human overall Being-personality-growth and the implications for its living-personality-growth and institutional-personality-growth' implied as of notional-deprocrpticism ontologically-uncompromised—referentialism, as a fundamental hermeneutic psychological science which as of singularisation/epistemic-immanence/veridical-epistemic-determinism articulates-and-rearticulates such tracing/ontological-aesthetic-tracing as of comprehensive/holistic/nested-congruence conflatedness from a most profound existential-contextualising-contiguity

knowledge-reification depth of notional-deprocrypticism protracted-consciousness. Such a hermeneutic psychology is necessarily cognisant and departs from a construal of the fundamental instigation of human knowledge and emancipation as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’, as establishing in the very first place the prospective relative-ontological-completeness reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation for reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so prior to assumed meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring. Hence such a notion cannot be construed on the basis of ordinarily assumed meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring which doesn’t put into question its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it is rather submerged/drowned into it by mental-disposition reflex; but rather as implied as of reasoning-through/messianic-reasoning, such a hermeneutic psychology is more about instigating a parrhesiastic psychoanalytic-unshackling soul-searching acumen. In this regard, it is akin for instance to budding positivism reasoning-through/messianic reasoning implied within a non-positivism/medievalism social-setup, in the sense that that budding positivism reasoning-through/messianic reasoning then ‘is-not reasoning as-of-yet’ as reasoning is then as of the non-positivism/medievalism social-setup apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument ‘as non-positivism reasoning susceptible to superstition and scholasticism-like pedantry construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism but not yet as of rational-empiricism’; with such budding positivism rather a

deprocrypticism is very much alien to our positivism–procrypticism cloistered-consciousness. In both instances the notion of prospective metaphoricity is one that necessarily faces the fact that the human mind is ever always entrapped in an existentially-invested ‘epistemic-totality/reference-of-thought/epistemic-totalising–self-referencing-syncretising/circularity conception of meaningfulness-and-teleology’ which effective dislodgment/displacement/decentering is as of a cross-generational instigation, but then wouldn’t happen just by accident and thus has to be instigated for prospective relative-ontological-completeness! In fact such an insight can be extended across ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ to imply that the state of recurrent-utter-uninstitutionalisation is cognisant of emancipation but doesn’t anticipate that emancipation as of prospective relative-ontological-completeness is rather as of base-institutionalisation reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation, and likewise the latter doesn’t anticipate the universalisation reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation, with the latter not anticipating our positivism reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation which itself doesn’t anticipate prospective ontologically-uncompromised—referentialism deprocrypticism. The fact is human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor at its uninstitutionalised-thresholds implies that the human psychological reflex as of its limited-

mentation-capacity at any such uninstitutionalised-threshold ‘is not geared to adhere to abstract ontological-veridicality’ as it will operate its state of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as if in a fully-attained state of singularisation/epistemic-immanence/veridical-epistemic-determinism, as of the-very-central-implication-of-thrownness, as reflected by the successive prior relative-ontological-incompleteness reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation towards ontologically-uncompromised—referentialism deprocrypticism/preempting—disjointedness-as-of-reference-of-thought; and thus from a strictly ontologically-veridical point-of-view/perspective, and so beyond our enculturated-conception,-normalisation-and-practice-of-psychology and just as various mystical-and-mythical-practices of prior non-positivism registry-worldviews/dimensions were their own sort of enculturated-conception,-normalisation-and-practice-of-psychology as of their own times, the notion of a psychological science as reinforcing/propping-up human psychology in any prior relative-ontological-incompleteness-of-reference-of-thought meaningfulness-and-teleology state is downright ontologically ridiculous and the manifestation of an epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag naivety. We can appreciate that the psychoanalytic-unshackling of all prior registry-worldviews/dimensions reference-of-thought is rather one that shouldn’t wrongly be reinforcing/propping-up the human subject as if a given reference-of-thought in prior relative-ontological-incompleteness as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism has its very own complete transformative and emancipative potential as if of fully-attained singularisation/epistemic-immanence/veridical-epistemic-determinism, but an ontologically-veridical psychology rather warrants implying the human subject displacement/decentering as the structural/paradigmatic possibility of the human subject emancipation with regards to the successive prior relative-ontological-

incompleteness registry-worldviews/dimensions superegoic vices-and-impediments; wherein
 dialectical-thinking-or-postconverging–apriorising-psychologism reasoning-from-
 results/afterthought reproducibility—mathesis/motif/throwness-disposition,—as—
 reproducibility-of-aestheticisation at its uninstitutionalised-threshold is construed as
 dementing-or-preconverging–apriorising-psychologism as of prospective dialectical-thinking-
 or-postconverging–apriorising-psychologism reasoning-through/messianic-reasoning
 reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-
 aestheticisation up to the prospective ontologically-uncompromised—referentialism of
 deprocrypticism. As of its inherent organic knowledge, such a hermeneutic psychology
 parrhesiastic articulation as herein ‘doesn’t do gimmicks of communication’ as if to imply
 any favour whatever as of ‘emotional or whatever feel-good trading for the appreciation of
 the possibility for prospective human emancipation’, since by its ‘presencing—absolutising-
 identitive-constitutedness consummated/forfeiting posture’ it is beyond the idea of
 convincing for convincing sake as it is simply ‘a blunted eliciting of a solipsistic sense of
 intemporal/longness-of-register-of-meaningfulness-and-teleology projection in any human
 and no more’ with no point going beyond that point as it then becomes as of intellectual-and-
 moral apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-
 <mentally-aestheticised_dementing/preconverging—qualia-schema>; and so, as its essential
 meaningfulness-and-teleology is as of a solipsistic transversality-of-disambiguated-
 apriorising/axiomatising/referencing reflection of the ontologically ‘superior party’ that is
 intrinsic-reality/ontological-veridicality/existence—as-the-absolute-a-priori-of-
 conceptualisation in its ecstatic singularity, on the same token that a natural scientist is in a
 transversality-of-disambiguated-apriorising/axiomatising/referencing reflection of its object
 of study as of existence as the ontologically ‘superior party’ without any need to be involved
 in any bogus exercises that may imply that gravity may not be 9.8 m/s^2 on earth if any given

human subject isn't accommodated for in some way somehow however faintly, be it that it may be the case that gravity is not 9.8 m/s^2 but that as well needs to be established as of the ontologically 'superior party' that is existence—as-the-absolute-a-priori-of-conceptualisation as of ontological-primemovers-totalitative-framework. But then the human reality across all registry-worldviews/dimensions, isn't inherently 'of immediate intellectual responsiveness' to the notion of its uninstitutionalised-threshold and the corresponding superseding of this as of prospective institutionalisation; as even the disposition to assume an intellectually enlightening mental-disposition is existentially-invested and not necessarily a given. We can appreciate from our positivistic perspective the 'obvious reality' of the fact that superstitious beliefs are bogus, but then paradoxically from the beginning of times superstitious beliefs had pervaded all the echelons of human societies whether as of true belief or opportunistically, and have only been increasingly undermined with the advent of positivistic reasoning at the beginning of modern times about 500 years ago. This has to do with the 'existentially invested nature as of assumed reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation' of human '<formative>epistemic-totalising/circumscribing/delineating meaningfulness-and-teleology'/reference-of-thought-devolving. Thus any given registry-worldview/dimension is strongly constrained to represent itself as of its 'dialectical-thinking-or-postconverging—apriorising-psychologism' prior institutionalisation as reasoning-from-results/afterthought and very weakly constrained to represent itself as of its dementing-or-preconverging—apriorising-psychologism uninstitutionalised-threshold which it tends to represent as nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-or-preconverging-narratives), for the possibility of its prospective transcendence-and-sublimity into prospective institutionalisation. This reality is known as human 'dementative constraint' to prospective institutionalisation transcendence-and-sublimity as of the possibility of prospective relative-

ontological-completeness-of-reference-of-thought. Human dementative constraint is fundamentally associated with poor universal-transparency with respect to social-stake-contention-or-confliction at uninstitutionalised-thresholds. This then fails to induce the necessary existential assurance for prospective transcendence-and-sublimity and on that token fails to tip the balance over the ‘social obfuscation dynamic effect’ of <formative>wooden-language-⟨imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives⟩ as of the prior institutionalisation’s reference-of-thought—categorical-imperatives/axioms/registry-teleology that stifle the transcendence-and-sublimity possibility for prospective institutionalisation. Thus as of the more critical insight that prospective relative-ontological-completeness-of-reference-of-thought is actually ontologically transformative as of aetiologisation/ontological-escalation, over mere palliative construals as of the very same prior reference-of-thought in prior relative-ontological-incompleteness, for resolving a given registry-worldview/dimension vices-and-impediments; this notion of human dementative constraint is critical for the psychoanalytic-unshackling/prospective-grounding insight underlying dynamism with regards to the human mind prospective transcendence-and-sublimity as implied by a ‘dialectical-thinking-or-postconverging—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ that emphasises the ‘Lacanian subject’ growth as of ontological-dementation/dialectical-dementation—stranding/attributive-dialectics, rather than a second-guessing mented or stigmatic psychology that fails to integrate the decisively ontological transformative implications of human psychology as of underlying relative-ontological-incompleteness and relative-ontological-completeness reference-of-thought <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity, and thus making the given presence reference-of-thought as our positivism—procrypticism ‘all-

determinative of what can be construed as psychological emancipation' as of its <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag despite the fact of its prior relative-ontological-incompleteness-of-reference-of-thought to futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism prospective relative-ontological-completeness-of-reference-of-thought. The underlying issue here as well as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism has to do with deficient human capacity for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ to supersede human temporality/shortness <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)) in construing meaningfulness-and-teleology beyond the constraint of ‘human lifespan of depth-of-thought’ to a more profound appreciation of the underlying possibility for human transcendence-and-sublimity as of human intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm. In this regard as of lack of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension is the human temporal inclination to decontortion construed as a disposition to undermine ‘intemporal ontological-veracity as of universal existential import’ for the sake of ‘temporal

narrow-and-specific existentially-invested advantage/interest with little concern about emancipatory universal meaningfulness-and-teleology’, and so as the very contrary disposition to reasoning-through/messianic-reasoning contortion. Decontortion as of human <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag incrementalism-in-relative-ontological-incompleteness is rather counter to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality disposition by its deterministic hanging onto prior relative-ontological-incompleteness-of-reference-of-thought reasoning-from-results/afterthought while ignoring/overlooking the ontological-veracity implications of the trace/ontological-aesthetic-tracing of reifying existential-contextualising-contiguity, and thus adopting a dereification posture as enabled by ‘lack of constraining social universal-transparency’. Such a human disposition to decontortion at uninstitutionalised-thresholds arise on the naïve basis that human temporal willing/volition can effectively supersede the ontological integrity/veracity of meaningfulness-and-teleology as it reflects existence’s coherence/contiguity as of singularisation/epistemic-immanence/veridical-epistemic-determinism. But then such a decontorting disposition as can be manifested by a falsely striving to elevate the temporal frame of our 60–100 years of living above the intemporal/ontological frame of intrinsic-reality/ontological-veridicality/existential-reality is rather definitional of our uninstitutionalised-threshold where we are actually dementing-or-preconverging–apriorising-psychologism and prospectively dialectically-primitive, notwithstanding our attendant <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and vague untransvaluated–temporal-intemporality gesturing. The ontological-contiguity—of-the-human-institutionalisation-process can thus be construed as one of increasingly undermining the human subject temporal

decontortion disposition not to dispense-with-immediacy-for-relative-ontological-completeness; wherein across the successive institutional-cumulations/institutional-recomposures, decontortion is ontologically-constrained both as of the ‘dynamic construal of appropriate-as-intemporal existential phenomenality/phenomenal-manifestation and construal of appropriate-as-intemporal existential human mental-disposition’. The former is ontologically-constrained as of ontological-primemovers-totalitative-framework in undermining the human temporal inclination to phenomenality/phenomenal-manifestation decontortion, while human temporal mental-disposition for decontortion is additionally ontologically-constrained with availability of universal-transparency. Relatively objectified phenomenality/phenomenal-manifestation as implied in the natural sciences is hardly subjected to decontortion while relatively subjective phenomenality/phenomenal-manifestation as implied in the social is rather easily subjected to decontortion as of blurriness and emotional-involvement. In another respect the implications of flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism also has implications with the ontological-performance as of the effective productivity potential of human knowledge construction. In this regard, it is herein contended that the historically recurrent critique of naïve formalisation particularly in many a field of study that uncritically strive to adhere to a ‘supposedly pre-given science methodology and epistemology naively construed as of inherent transcendental signifier’ such as in the analytic tradition of philosophy, naïve scientific psychology as of facetious methodologies as well as many a natural science domain, that purport to conceptualise complex social meaningfulness-and-teleology in naïve naturalistic methodology terms, all arise because of a flawed predisposition to identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism implied as of

dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism that in many ways ignores/overlooks existential-contextualising-contiguity knowledge-reification as of singularisation/epistemic-immanence/veridical-epistemic-determinism; and so, as of their ‘formalisation credo as identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism’ thus leading to a disposition that considers knowledge as an exercise of mere conceptual patterning inherently validated by formalisations on the basis of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity without the constraint of existential-contextualising-contiguity knowledge-reification as of existence—as-the-absolute-a-priori-of-conceptualisation as its very own transcendental signifier which ultimately manifestly-as-inherently enables transcendence-and-sublimity as the very essence of knowledge. This has led in many ways to a dissonance between their knowledge productivity implications and existential reality wherein for instance psychological and psychiatric science seems to imply that all along its practice human psychological illnesses have multiplied many times over as of ever transforming and expanding formalisation credo, while the analytical tradition of philosophy by the avowals of its internal critics has been involved in a recurrent second-guessing exercise as of its visceral inclination for ‘abstracting reality by formalisation outside of social reality’ wrongly mimicking a natural science tradition whose domain-of-study ecstatically allows for such an attitude/mental-disposition/care-and-episteme. Such an approach that atomises/takes-to-pieces analysis ‘as supposedly elucidative’ tends to be rather abstract as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Such that beyond its abstracting exercise, as when it returns in striving to supposedly elucidate social and other existential phenomenality, it is lost to it that social and other existential phenomenality is already

precedingly/supersedingly as of ‘ecstatic holism/nested-congruence’, with the consequence that it naively construes of reification as simply projecting ‘the supposedly reifying atomising/taking-to-pieces formalisation analysis’ on the social and other existential phenomenality. Hence it ends up abstractly pulling-apart the ‘ecstatic holism/nested-congruence’ of existential phenomenality and thus misrepresenting, denaturing and producing relatively ontologically-flawed meaningfulness-and-teleology. Such articulations tend out to be merely implied decontextualised/abstracted constructs with poor appreciation and construal of their conceptualisations as of underlying relative-ontological-incompleteness/relative-ontological-completeness with respect to temporal-to-intemporal ontological-performance which is what enables the reification of existence/intrinsic-reality/ontological-veridicality. In this regard for instance, the well-articulated Foucauldian discourse of ‘speech activity’ conceptualisation associated with the notion of parrhesia more critically enables its existential-contextualising-contiguity knowledge-reification with regards to the possibility of human transcendence-and-sublimity as can be projected from an Ancient Greece context right up to our modern and futural context in contrast to say analytic philosophy ‘speech act’ which by its atomising/taking-to-pieces formalisation orientation is in many ways by its mere denotative/connotative constitutedness nature just an implied existentially decontextualised/abstracted construct as of its poor ontological-as-existential-commitment with respect to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, in contrast to the reifying conflatedness connotative nature of ‘speech activity’ discourse as of its contextualising ecstatic-holism/nested-congruence; such that the former assumes rather an identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity posture as of atomising/taking-to-pieces formalisation rather than a difference-conflatedness-

<formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity posture that is as of ecstatic-holism/nested-congruence as with the latter. Such a conclusion can be extended to other analytic tradition concepts assuming rather an atomising/taking-to-pieces formalisation orientation like the broader notion of language games when rather analysed as of a denotative/connotative constitutedness nature outside existential-contextualising-contiguity whereas in contrast this author construes of the ontologically-veridical reflection of the social purview as better served by the notion of ‘ontologically-hegemonising-narrative ontological-performance’ as of its reifying conflatedness connotative nature reflecting the ontological-veracity/ontological-performance of human-subpotency epistemic/notional_projective-perspective meaningfulness-and-teleology articulated within any given registry-worldview/dimension social-setup going by its supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction exposing it to existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ epistemic/notional_projective-perspective of ontological-primemovers-totalitative-framework as of prospective relative-ontological-completeness <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’, and so-construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity; thus further articulating meaningfulness-and-teleology as from prior relative-ontological-incompleteness to prospective relative-ontological-completeness, and so from the notional/epistemic perspective of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-

epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism and this ‘ontologically-hegemonising-narrative ontological-performance’ orientation is theoretically, conceptually and operantly ontologically efficacious inherently by its ecstatic-holism/nested-congruence as it reflects holistically the ‘temporal-to-intemporal-dispositions accordioneering-<as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance> ontological-performances-including-virtue-as-ontology of narratives’ as of the social epistemic-totality of meaningfulness-and-teleology. This holistic insight is reflected in the Derridean deconstruction orientation with its obvious narratology implications pertinence to literary studies as of its conflatedness with existential-contextualising-contiguity in contrast to such a notion like language games when construed rather in constitutedness. This difference of conceptualising comes down to the atomising/taking-to-pieces flaw reflex of constituting-towards-epistemic-totality implied as of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism as against the ecstatic-holism/nested-congruence disposition for reifying-epistemic-totality-for-completeness implied as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism; wherein the conflatedness mental-reflex is involved in construing of both the right apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset-as-of-prospective-deprocrypticism-dissemination and thus the knowledge for that right mindset-as-of-prospective-deprocrypticism-dissemination for completeness as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism/postdication projected conflatedness (as of singularisation/epistemic-immanence/veridical-epistemic-determinism

 in many of its conceptualisations has to do with the very notion of knowledge as being about
 supposedly coherent ontological-commitment as of ‘affirmation/projection/assertion/dueness-

construct', and logic actually being in effect the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions', with the implication that all the knowledge as ontologically-veridical meaningfulness-and-teleology that exists is about existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of supposedly coherent ontological-commitment implied as of 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions'. In this regard, 'speech activity' discourse speaks of an supposedly coherent ontological-commitment as of 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as expressed above (with regards to the social contextualisation beyond just speech for the possibility of human transcendence-and-sublimity...) which is then being reified/elucidated for the prospective possibility of human emancipation, with logic being the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as of this articulated ontological-as-existential-commitment having to do with such social contextualisation'. Likewise the underlying notion of ontological-performance as herein articulated by this author is as difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity as from existence-potency-prospective-digression-of- '<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness' as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism supposedly coherent ontological-commitment about 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions'; articulating knowledge as ontologically-veridical meaningfulness-and-teleology as of the existential-contextualising-contiguity knowledge-reification

<formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-
 ontological-contiguity of human underlying relative-ontological-incompleteness/relative-
 ontological-completeness. This underlying notion of ontological-performance speaks more
 fundamentally of aetiologisation/ontological-escalation, as explicitly underlined in all
 transcendence-and-sublimity elucidating/reifying subject-matters and sciences, unlike
 approaches that do-not-or-poorly-appreciate the fact that just as scientific studies are
 transformative the study of the social rightly articulated beyond-institutional-being-and-craft
 is just as transformative with regards to prospective human living-development-as-to-
 personality-development, institutional-development-as-to-social-function-development and
 Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-

 subject to higher emotional-involvement as of its displacement/decentering-of-the-human-
 subject <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-
 explicating-ontological-contiguity. Whereas the analytic tradition posture as with ‘speech act’
 gives precedence to logical-commitment as reflected in its atomising/taking-to-pieces
 formalisation approach (implied as of elaboration-as-mere-
 extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-
 contextualising-contiguity) geared towards identitive-constitutedness-as-epistemic-totality-
 dereification-in-dissingularisation-as-flawed-epistemic-determinism, which by the token of
 working by atomising/taking-to-pieces formalisation on specific aspects or specific
 interpretation as of formalisation construct ignores/overlooks ‘axiomatic-construct construal
 of ecstatic-existence/the-nature-of-the-world/conditions’ as the veridical supposedly coherent
 ontological-commitment in want of existential-contextualising-contiguity knowledge-
 reification for knowledge as ontologically-veridical meaningfulness-and-teleology, as can be
 validated and falsified by ontological-primemovers-totalitative-framework

<formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-
 ontological-contiguity. This fundamental difference of conceptualisation very often underlies
 the disagreements between the analytic philosophical orientation and other philosophical
 traditions, in the sense that while the latter might be implicitly implying supposedly coherent
 ontological-commitment about 'axiomatic-construct construal of ecstatic-existence/the-
 nature-of-the-world/conditions' when making its argument, the former will tend to be making
 a logical-commitment argument as of formalisation construct that ignores/overlooks-and-
 hence-is-poorly-constrained to the precedence/supersedingness/ascendency of 'axiomatic-
 construct construal of ecstatic-existence/the-nature-of-the-world/conditions' in need of
 existential-contextualising-contiguity knowledge-reification as of ontological-primemovers-
 totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-
 implications,-for-explicating-ontological-contiguity, and goes on to naively deploy outside
 existential-contextualising-contiguity knowledge-reification such logic notions like non-
 sequitur, fallacies, etc. and/or mere categorising denotative/connotative formalisations in
 constitutedness as ends in themselves, rather than construing logic as of the 'inner working
 coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-
 world/conditions' of supposedly coherent ontological-commitment for knowledge
 elucidating/reifying which validation and falsifiability is rather a matter of ontological-
 primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-
 totalitative-implications,-for-explicating-ontological-contiguity. The fundamental point here
 is that logic (reflected by the atomising/taking-to-pieces formalisation approach) is instead
 the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-
 existence/the-nature-of-the-world/conditions' as of Being and beings as reflected in first-level
 ontology and second-level ontologies, and logic cannot derive the superseding/preceding
 ecstatic existential veridicality of Being and beings which validation and falsifiability is ever

always a matter of ontological-primemovers-totalitative-framework <formative>epistemic-
 causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity.

 syncretising/circularity/interiorising/akrasiatic-drag, and by that token is geared towards
 antinihilistic undermining of sophistic/pedantic dispositions as of incrementalism-in-relative-
 ontological-incompleteness. With the very blurry nature of the social, even with the best of
 intentions as when continental philosophers try to engage the analytic tradition, the
 experience has often turned out poorly given the failure to explicitly grasp/appreciate the
 conflicting implications of their differing knowledge commitments as of supposedly coherent
 ontological-commitment implied ecstatic-holism/nested-congruence with the former and
 logical-commitment implied atomising/taking-to-pieces formalisation with the latter; even as
 going by conceptual-patterning, it can be naively implied that similar conceptual wordings
 imply similar knowledge commitments and operant articulations. In the same vein, one can
 say that notions like spacetime, force, atoms, etc. in the physics <formative>epistemic-
 totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-
 veridicality/existential-reality are inherent supposedly coherent ontological-commitment
 about ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’
 that are in need of existential-contextualising-contiguity knowledge-reification as of
 ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-
 projective-totalitative–implications,-for-explicating-ontological-contiguity, and logic can
 only be the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-
 existence/the-nature-of-the-world/conditions’ as of such supposedly coherent ontological-
 commitment, and all the physics that is relevant is their further existential-contextualising-
 contiguity knowledge-reification as physics knowledge as of its ontological-veridical
 meaningfulness-and-teleology as can be validated and is falsifiable by ontological-
 primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-
 totalitative–implications,-for-explicating-ontological-contiguity. Even mathematics it is often

underestimated works rather an supposedly coherent ontological-commitment as of ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, as of the existential-contextualising-contiguity knowledge-reification constraining implications of its ‘equal sign’, speaking of a self-conscious awareness that calculations should reflect-and-be-constrained as per calculations operative validation and falsifiability with regards to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and with mathematical logic as of mathematics supposedly coherent ontological-commitment ‘concurrent formatting as formalisation’ being the ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ towards that purpose. Such reflecting-and-constraining to ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ can difficultly be said with regards to the overall atomising/taking-to-pieces formalisation approach as of its <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag presumption; which strangely enough has been subjected to no less than five major successive internal indictments but still keeps up its operative predilection of atomising/taking-to-pieces, with this author of the opinion that such an in-built institutional grip might be in many ways inducing diversion of intellectual and scholarly resources from a more profound advancement of philosophy for greater human transformation implications. It is important to grasp here that ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’ is superseding/preceding as of existence’s ecstatic singularity, such that ontology supersedes logic which is rather ontology’s ‘inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’. It is rather ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ that provides the ‘apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as axiomatic-

construct' insight about supposedly coherent ontological-commitment articulated as 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' and not mere logic, with logic not able by itself to derive 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' as it is often naively implied but instead reflecting the 'inner working coherence/contiguity of axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions' and as any such implied derivation is rather as of explicated/implicated coherence/contiguity with another/other 'transversally devolving-or-complementary ontological/axiomatic-construct conceptions' as of 'axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions'. Interestingly, such notions like experimentation, testing, trials, case studies, observational studies, interview, data analysis, content analysis, statistics and basically overall research orientations and research methods as of their formal study implications are just focussed-and-contrasted extensions, with regards to the general and normal day to day experience about living itself for the inspired construing of 'the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence' providing insight about supposedly coherent ontological-commitment in producing knowledge as meaningfulness-and-teleology; such that critically, appropriate philosophical phenomenal insight with regards to 'the general and normal day to day experience about living itself' as of observational and articulated ontological-pertinence sufficiency, and as supplemented with the grasp and engagement with other philosophical works, speaks of veridical scientific insight and validity subject to ontological-primemovers-totalitative-framework, and so because such well-inspired experience-and-interpretation from 'general and normal day to day experience about living itself' in the philosophical domain-of-study is generally more ontologically profound and comprehensive as of conflatedness than any contrasted ad-hoc and focussed domain study, even though such domain studies may be insightfully relevant in

specific ways but still as of the more profound background of well-inspired experience-and-interpretation from ‘general and normal day to day experience about living itself’. The point here is to highlight that by its very given domain-of-study with respect to overall existence, philosophical knowledge more profoundly makes a holistic conflatedness demand on human living experience for the inspired construing of ‘the ecstatic manifestation of existence and then human experience-and-interpretation of that ecstatic manifestation of existence’ than other more specific domains-of-study for which ad-hoc and focussed domain study methods are pervasively decisive for ontological pertinence. But then this is more a question of ‘expanded onticising construal of existence as of <formative>epistemic-totalising-devolved purviews of existence so-construed as subject-matters/domains-of-study’. The ontological-veracity and epistemic-veracity of all such <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality are effectively as of the very same underlying congruent philosophical domain-of-study construal of ecstatic manifestation of existence but for their ‘onticising specifisms of existence’s ecstatic manifestation’; as so-implied as of overall existence metaphoricity/ecstasy panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence as of supervening-conflatedness. Knowledge as meaningfulness-and-teleology, whether of underlying ontological-construal or ontical-construal, is epistemically validated as of supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework. Inherently, because human-subpotency supposedly coherent ontological-commitment is very much intimately linked with the ontological-performance of human as of prospective relative-ontological-completeness appraisal, it is always ever the case that as of human <formative>epistemic-totalising–thrownness-in-existence the validation of knowledge as meaningfulness-and-teleology as of supposedly coherent ontological-commitment is equally as of the-very-same-immanent-existence/intrinsic-reality/ontological-

veridicality,-as-to-‘human<formative>epistemic-totalising–purview-of-construal’ or
 <formative>epistemic-totalising-devolved–purviews-as-domains-of-construal-as-intrinsic-

 mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-
 sublimating-withdrawal), thus invalidating the epistemic-veracity of constitutedness of
 knowledge. The implication here is that the epistemic-veracity of knowledge as
 meaningfulness-and-teleology is rather as of the ‘<formative>epistemic-
 totalising/circumscribing/delineating construal as of existence’ with <formative>epistemic-
 totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-
 veridicality rather ‘narrowing-construals of their specifically-implied human-subpotency as to

 existence’. This further points out that the traditional explicated constitutedness conception of
 the notion of cause-and-effect so-implied herein as ontological-primemovers-totalitative-
 framework is actually epistemically-impertinent and flawed; as this traditional conception
 tends beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-

veridicality, hence implicitly-or-explicitly liable to elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. This constitutedness nature of the notion of cause-and-effect so-implied veridically as ontological-primemovers-totalitative-framework arises as of the ‘basic and mere mimicking and deployment’ of supposedly science approaches and methodologies on the naïve assumption that their mere deployment is inherently of epistemic-veracity, such that such deployment when it undermines the ‘inherently nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising–purview-of-construal’ or <formative>epistemic-totalising-devolved–purviews-as-domains-of-construal-as-intrinsic-reality-or-ontological-veridicality’ is in effect just elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Rather any such science approaches and methodologies striving to validate knowledge as meaningfulness-and-teleology by the supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’, is necessarily instigated as from a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. Insightfully, while in many ways such an elucidation hardly needs to be explicated in many a natural science domain-of-study as of their directly constraining cause-and-effect nature such that such nested-congruence with existence will often tend to arise naturally as of valid/invalid outcome constraining of ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-

re-perception,-re-thought-in-epistemic-conflatedness’, this unexplicated implicitness should not be confused with the notion that the natural sciences are essentially reduced to their science approaches and methodologies; as is often and awkwardly naively construed from without in many a social domain-of-study. The fact is notwithstanding the ‘onticising specifisms of existence’s ecstatic manifestation’ of the natural science domains-of-study, these are just as driven by a philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ as reflected in the often ‘unspoken/unelaborated scientific hunches and fine-tuning’ which is effectively what drives their deployed science approaches and methodologies for their sought after scientific reifying outcomes; and it is this subsuming/nestedness that keeps such science approaches and methodologies in nested-congruence with existential-contextualising-contiguity as of conflatedness; so-implied as of their supposedly coherent ontological-commitment reflected by ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’. In other words, science approaches and methodologies in reality are simply the extension of philosophical depth of contemplation when it comes to ‘onticising specifisms of existence’s ecstatic manifestation’ as of the <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality of natural sciences; with the implication that the philosophical depth of contemplation has to be undertaken, notwithstanding the fact that the implicated nature in the natural sciences of their onticising direct sublimating-validation/desublimating-invalidiation outcomes as of ontological-primemovers-totalitative-framework will seem to wrongly imply otherwise. Such a philosophical depth of contemplation in nested-congruence as of ‘coherence/contiguity-of-

superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-
 and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-
 consciousness’ is very often incomplete, of-divvied-theorisation and/or ‘poor coherence of
 theorisation with operant approaches and methodologies’, when it comes to many a social
 domain-of-study; as quite often theorisation in many a social domain-of-study strives on
 disparateness, rather than a tendency to ‘ontological-primemovers-totalitative-framework as
 of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-
 realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ enforced’ unifying
 coherence as in many a natural science domains-of-study, with the consequence that studies
 are often aloof to direct existential-contextualising-contiguity knowledge reifying exercise as
 of a tendency to technicality as of institutional-being-and-craft imprimatur, ‘fallback to
 unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed
 subject-matters and institutional-setups structurally/paradigmatically stifle the possibility for
 conceptualisation as of existence-potency-prospective-digression-of-‘<formative>epistemic-
 totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’
 sublimating-validation/desublimating-invalidating implications, beyond their conventioning-
 referencing enframing. Ultimately the bigger issue arises as of the poorly-
 singularised/poorly-immanent nature of many a social domain-of-study unlike the grand
 singularised/immanent ‘<formative>epistemic-totalising/circumscribing/delineating
 foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-
 withdrawal reflecting ‘immanent-ontological-contiguity’)’ that are actually actively sought in
 the natural sciences; and this author portends that the suprastructuralism/postmodernism as of
 deprocrpticism ontology as ‘true-ontology—as-of-Being-development/ontological-
 framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-
 meaningfulness-and-teleology’ holds the promise for such effective grand

singularised/immanent social conceptualisation that doesn't dodge/ignore/disregard outstanding questions about the human existential reality including structural/paradigmatic biases arising beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> as of human emotional-involvement and sophistic/pedantic distortion of perception of reality so-implied in our present positivism-procrypticism 'contingent-ontology—as-of-conventioning-referencing' and just as well when 'science-ideology' seem to subvert and undermine science-in-practice. Worst still while in effect the idea of specialisation in many a natural science domain is often the natural progression of a 'comprehensively elucidated/reified foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting 'immanent-ontological-contiguity') of the given natural science domain-of-study' with specialism more of a furtherance of such a foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting 'immanent-ontological-contiguity') scheme in a strong arborescent syncing with the subject-matter general-theoretical-level, in many such social domain-of-study of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> (including some science domains as well which naively tend to draw comprehensive social and human implications of their studies) the drawback to such specialisms is often associated with 'major interpretative loopholes at the general-theoretical-level of the subject-matter' with regards to the knowledge-reification implications of supposedly specialisation domains and their studies since such an approach fails to effectively validate its methodological and conclusive implications with respect to the subject-matter general-theoretical-level implied ontology as of the subject-matter specific epistemic-conception phenomenal/manifest_subpotency-<in-transitive-conflatedness—reflexivity,-in-the-full-potency-of-existence> as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-

 conceptualisation so-reflected in its philosophical depth of contemplation as of
 ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-
 coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-

 methods as well as drawing out conclusions based rather on ordinary average-thinking
 interpretation as of human-subpotency ‘rather than interpretations and conclusions ensuing

 epistemic-conflatedness’ knowledge-reification implications derived from the general-
 theoretical-level of the subject-matter as reflecting ontological-contiguity’ whereas this is
 ever always the case with good practice in the natural sciences and just as well as with an
 increasingly self-conscious social science as specifically upheld by postmodern-thought. For
 instance, the internal-coherence/nested-congruence speaking of the underlying
 foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-
 withdrawal reflecting ‘immanent-ontological-contiguity’) implications articulated herein in
 reflecting the ontological-contiguity—of-the-human-institutionalisation-process can be
 garnered by the fact that all the knowledge-reification herein implied arises as of the very
 same underlying ‘objectifying cogent unifying process and gesturing’ as of ‘the
 <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-
 ontological-contiguity of relative-ontological-incompleteness/relative-ontological-
 completeness’, which is exactly what avails in the good practices of the natural sciences as
 driven by their ‘cogent-unifying-operant-dynamics’ whether with regards to say ‘objectifying
 chemical processes articulation’, ‘objectifying physical principles articulation’ or
 ‘objectifying biological processes articulations’, contrary to a practice of disparateness-of-

conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> in many a social domain-of-study wherein supposedly reified knowledge ‘hardly has any underlying implied knowledge-reification process/gesturing for its derivation’ as ‘cogent-unifying-operant-dynamics’ such that these turn out to be poorly operant or non-operant with the conceptual-patterning gesturing of mere-referring-confused-with-explicating, mere-mentioning-confused-with-deriving and mere-conceptual-synonymising-confused-for-knowledge-reification, such that the underlying ‘cogent-unifying-operant-dynamics’ of the supposed knowledge-reification is hardly operantly existent or is operantly non-existent. Bizarrely, the blurriness of the social seem to be misconstrued as implying knowledge-reification in the social should reflect such blurriness-as-of-disparateness rather than the ultimate objectifying foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’), and so by conjugating ‘relative-ontological-completeness <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ together with ‘subject-matter breadth and depth’ to achieve such an overall subject-matter knowledge-reification as of objectifying foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’), in order to elucidate the blurriness. Such that quite often as of institutional practice the notion of foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’) is often misconstrued non-aporetically/undilemmatically/unreframed/untransformed as ‘merely bringing together disparate conceptualisations for their cross-examination (on the basis of prior reproducibility—mathesis/motif/throwness-disposition,-as-reproducibility-of-aestheticisation)’ in a naïve substitution of the idea that foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting

‘immanent-ontological-contiguity’) truly speaks of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint elicited reframing/transforming/reconstrual underlying ‘cogent-unifying-operant-dynamics’ that ‘runs-through/deflates’ implied conceptualisations in elucidating their ontological-veracity by its capacity to ‘objectively deflate-all-conceptualisations as of operant <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity in existential-contextualising-contiguity conflatedness’ as herein implied (involving prospective originariness-parrhesia,—as–spontaneity-of-aestheticisation for veridical ontologisation/ontological-veracity/aestheticisation-towards-ontology), rather than vague contrasting-and-comparison of disparate conceptualisations poorly reflecting underlying existential-contextualising-contiguity conflatedness; and further, such an insight of underlying ‘cogent-unifying-operant-dynamics’ as herein implied is often misconstrued as being monotonous (whereas such ‘supposedly monotonous process/gesturing of knowledge-reification’ reflecting inherent domains-of-study as of their given epistemic-conceptions phenomenal/manifest_subpotency-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation takes the form of the process/gesturing of knowledge-reification in say physics with the ‘supposed monotony’ of differential equations on physical variables, in chemistry with the ‘supposed monotony’ of valence bonding explaining chemical reactions or in biology with the ‘supposed monotony’ of gene regulation rather ultimately central to all biological processes), with the false implication of construing that disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> is inherently convenient as of a mental-reflex oriented towards ordinary <formative>wooden-language-(imbued—

averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) human-subpotency ways-of-looking-at-things rather than adopting-the-intellectual-hat for reifying the former in a mental-reflex oriented towards existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity ways-of-looking-at-things. Critically, lost to many naïve ‘science ideologues’ preaching about modelling the social domains-of-study along the natural sciences, is the fact that more than mere adoption-and-mimicking of scientific methods and approaches, the truly pertinent and decisively scientific notion of the natural sciences lies with their ‘cogent-unifying-operant-dynamics’ from whence statistical, mathematical and other scientific methods become interpretatively intelligible; such that merely adopting-and-mimicking such methods without precedingly construing of the ‘cogent-unifying-operant-dynamics’ of any such social domain-of-study is ‘massively un insightful/shallow and subject to institutional-being-and-craft sophistic/pedantic misconstrual and manipulation’ as it is rather such a ‘cogent-unifying-operant-dynamics’ as of existential-contextualising-contiguity conflatedness that points to the specific scientific methodology of relevance or irrelevance, given that in certain cases the qualitative nature of things will for instance render statistical and mathematical methods irrelevant. This further explains why Derridean deconstruction and Foucauldian discourse analysis have been found in many social domains-of-study, including domains like medical and healthcare practice for instance, to provide a ‘cogent-unifying-operant-dynamics’ that ‘fully-address-in-depth social issues’; in the sense that Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative address the displacement/decentering-of-the-human-subject in reflecting the need to undermine human destructuring/uninstitutionalised-

thresholding to further advance its constructive/institutionalising nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeness transcendental-and-sublimity implications, and thus reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of the <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of existential-contextualising-contiguity conflatedness. It is thus not surprising that naive disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> leads to subject-matters and studies whose supposed knowledge-reification tend to be most heavily dependent on ‘peering to a fault’ of the contingent-ontology—as-of-conventioning-referencing of institutional-being-and-craft that is poorly constrained to existential-reality, rather than a peering process that is heavily constrained to existential-reality as of underlying supposedly coherent ontological-commitment as validatable and falsifiable by ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as it is critically the case in the good practices of the natural sciences. The implication here is that the modern positivist ‘identitive conception of meaningfulness-and-teleology’ as of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism is basically caught up in its very own enframed <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) which as of its presencing—absolutising-identitive-constitutedness is rather ‘predisposed to a mental-

 conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism
 in its unenframed opened-construct-of-meaningfulness-and-teleology so-implied with respect

 of concepts and conceptualisations as of <formative>epistemic-causality-as-to-projective-
 totalitative–implications,-for-explicating-ontological-contiguity of relative-ontological-
 incompleteness/relative-ontological-completeness. This explains why postmodern-thought
 cannot truly be understood in terms-as-of-axiomatic-construct of naïve identitive positivistic
 modern thought because the meaningfulness-and-teleology of postmodern-thought only arise
 rather in the reification process/gesturing involving the displacement/decentering-of-the-

human-subject implied as of its <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness for elucidating, deriving and knowledge-reification of its concepts and conceptualisations; as naïve identitive positivistic modern thought in its <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag very often and systematically rather construes of such postmodern concepts and conceptualisations substitutively in its predisposition of presencing—absolutising-identitive-constitutedness by its mere referring, mentioning and synonymising of postmodern concepts and conceptualisations thus undermining the inherent postmodern-thought implied elucidation, derivation and knowledge-reification of concepts and conceptualisations, and as such identitive positivistic modern thought fundamentally fails to recognise and factor in the aforementioned postmodern-thought knowledge-reification process/gesturing as of <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness. Such a recurrent ontologically-flawed predisposition is tantamount to say construing Newtonian physics in the absolute terms-as-of-axiomatic-construct of its concepts and conceptualisations of say space, time, force, etc. to then project this predisposition by mere referring, mentioning and synonymisation of these Newtonian physics concepts and conceptualisations as if of Einsteinian physics in the hope that this will enable the elucidation, derivation and knowledge-reification of Einsteinian physics, whereas the latter implies an utterly different reification process/gesturing for its specific physics elucidation, derivation and knowledge-reification as of its <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness. It is rather the

suprastructuralism/postmodernism reification process/gesturing as of <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness that supersedingly induces postmodern-thought implied concepts and conceptualisations elucidation, derivation and knowledge-reification, just as the same can be said of Einsteinian physics reification process/gesturing as of <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness in supersedingly inducing its specific implied concepts and conceptualisations elucidation, derivation and knowledge-reification of say space-time, force, etc. In both instances, when interpreted from the relative-ontological-incompleteness perspective in ontologically-flawed presencing—absolutising-identitive-constitutedness of naïve positivistic modern thought or Newtonian physics respectively, suprastructuralism/postmodern-thought and Einsteinian physics will be ‘qualified negatively as relativistic’ since the latter do not assume a presencing—absolutising-identitive-constitutedness with concepts like truth, space, time, force, etc. and the latter rather perceive these as ontologically-flawed elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity as from the relative-ontological-completeness perspective which emphasises construing existential-reality as it manifests itself as of existential-contextualising-contiguity in conflatedness; and likewise, the fact that existential-contextualising-contiguity in conflatedness ‘epistemically implies human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) for construing ontological-veracity’, thus ‘putting-in-question/deflating by difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism’ all presencing—absolutising-identitive-constitutedness traditional conceptions

beyond their simplistic conceptual-patterning to reflect underlying ecstatic-existence, will tend to be construed from the relative-ontological-incompleteness perspective in presencing—absolutising-identitive-constitutedness as nominalistic rather than as of ‘foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’)’ edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ as from the relative-ontological-completeness perspective. In other words, the concepts and conceptualisations of postmodern-thought are meaningless without their relevant and underlying theoretical background framework gesturing, and there is no point in construing them as of simplistic conceptual-patterning by mere referring, mentioning and synonymisation as if these are of positivistic modern thought theoretical background framework gesturing just as the same can be said of striving for the elucidation, derivation and knowledge-reification of Einsteinian physics concepts and conceptualisations as if of Newtonian physics concepts and conceptualisations by mere referring, mentioning and synonymisation as if of the latter. In both cases, the <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-completeness implied displacement/decentering-of-the-human-subject points to different sense-of-conscious-representation-of-meaningfulness-and-teleology between the relative-ontological-incompleteness and relative-ontological-completeness such that the former is rather in pseudo-edginess/pseudo-incisiveness implying the need for its unaffirmation/deprojection/deassertion/undueness-invalidating-logicising/unsuitablemeasuringinstrument-invalidating-measuring-<dementing-or-preconverging—apriorising-psychologism> and cannot simply be projected as the latter which is what is rather truly and effectively of edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument

 further naivety is the appreciation of postmodern knowledge-reification process/gesturing
 arises as of a general misunderstanding of what is generally implied with regards to any given
 knowledge-reification process/gesturing. As indicated before all subject-matters/domains-of-

 to-projective-totalitative-implications,-for-explicating-ontological-contiguity of relative-
 ontological-incompleteness/relative-ontological-completeness/relative-ontological-
 incompleteness, such that for instance even a naïve traditional conception of the physics
 domain-of-study as of atomising/taking-to-pieces constitutedness is shown to be veridically
 rather as of existential-contextualising-contiguity conflatedness going by the successive
 relative-ontological-completeness physics conception of such notions as space, time, etc. in
 <formative>epistemic-totalising/circumscribing/delineating development of successive
 theories say Cartesian, Newtonian, Einsteinian, String theory, etc. using the very same
 notions and derived-notions but with different implications. This <formative>epistemic-
 totalising/circumscribing/delineating nature of all domains-of-study in existential-
 contextualising-contiguity conflatedness as of <formative>epistemic-causality-as-to-
 projective-totalitative-implications,-for-explicating-ontological-contiguity, speaks of the
 epistemic-veracity of the fact that 'all knowledge is truly developed as of a hermeneutic circle
 for relative-ontological-completeness' that involves human limited-mentation-capacity-

deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal).

This hermeneutic circle knowledge-reification process/gesturing is furthermore reflected in both human scholarly-and-pedagogic exercise wherein subject-matters/domains-of-study are grasped in successive articulations of deeper and deeper hermeneutic insight as of maximalising-recomposuring-for-relative-ontological-completeness. The implication here is that postmodern knowledge-reification process/gesturing simply integrates this notion in the sense that top-level postmodern scholars articulate their knowledge-reification process/gesturing at its ‘appropriate hermeneutic circle level of postmodern knowledge-reification’ no different from say top-level physicists and natural scientists articulating their knowledge-reification process/gesturing at their ‘appropriate hermeneutic circle level of top-level physics/natural-science knowledge-reification’. In both instances, the knowledge-reification process/gesturing implies that the scholar or student striving to engage at that top-level understanding, needs to grasp the ‘preceding formative/pedagogic hermeneutic circle levels of knowledge-reification’. Such a supposed scholar or student cannot depart from ordinary/banal <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) level of knowledge conception to then claim that the top-level physics/natural-science/postmodern-thought hermeneutic circle of knowledge-reification process/gesturing should be directly and fully graspable to it as of a <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)

predisposition to incrementalism-in-relative-ontological-incompleteness. The fact is the various pedagogic hermeneutic circle levels of any subject-matter/domain-of-study as of successive maximalising-recomposuring-for-relative-ontological-completeness are meant to

transmit a ‘<formative>epistemic-totalising/comprehensive organic-attitude-to-knowledge which is much more than just its technical knowledge veracity’ and that ‘<formative>epistemic-totalising/comprehensive organic-attitude-to-knowledge’ is needed together with the induced technical dispensation of the lower hermeneutic circle of pedagogic knowledge-acquisition to then be able to engage with the higher/top-level scholarly/pedagogic hermeneutic circle of knowledge-reification in its maximalising-recomposuring-for-relative-ontological-completeness. It is important to understand here that the top-level physics/natural-science/postmodern-thought hermeneutic circle of knowledge-reification process/gesturing cannot strive to engage the supposed scholar or student at any such ordinariness/banal <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) level of knowledge conception, and implicated in its knowledge-reification gesturing/process is the notion that the prior/all-the-prior hermeneutic circle level(s) of the subject-matter/domain-of-study need to be grasped beforehand; and this is basically because such a top-level is imbued with fundamental and new knowledge-reification priorities. While in many ways the unblurred/sharply-delineated nature of the natural sciences renders such a ‘hermeneutic circle of levels of understanding’ more or less very transparent, with regards to the blurriness of the social such a postmodern-thought ‘hermeneutic circle of levels of understanding’ rather requires increasing familiarisation, habituation and contemplation with regards to such critical texts and analyses (and as is particularly necessary with regards to the ‘parrhesiastic nature of philosophy that is behind the engendering/parrhesiastic-aestheticisation of underlying reference-of-thought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation and thereof derived domains-of-study reified-knowledge as from the underlying reference-of-thought reproducibility—

mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’, and one’s intemporal solipsistic level of parrhesiastic contemplation is itself a decisive element for the capacity to appreciate-and-understand philosophical thought more than just an issue of technical acquisition of philosophical knowledge as of mere knowledge (mathesis/motif/throwness-disposition). More critically, social and philosophical knowledge are no different from any other type of knowledge subject to ontological-primemovers-totalitative-framework as of inherent existence/ontological implications, as fundamentally requiring contemplative reification arising with human limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal), with the implication that any philosophical, historical and social conception of knowledge is not an imprimatur discretion/whim-of-thought exercise on the basis of ‘relic-or-orthodoxy knowledge’ induced disparateness-of-conceptualisation-<unforegrounding-disentailment,—failing-to-reflect-‘immanent-ontological-contiguity’> but rather implying a furtherance of the overall hermeneutic exercise involved in the advancement of all human knowledge as of <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought, wherein all such knowledge-reification is a hermeneutic circle involving: the analyst’s/philosopher’s baseline originary up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications whether say with a natural science domain like hereditary as of its given specificity or philosopher’s thought as of the general ontological comprehensiveness of philosophical thought; to then credibly analyse the coherence of the given prior contribution on the basis of the analyst’s/philosopher’s baseline originary up-to-date knowledge-reification process/gesturing of the specific knowledge area as of inherent existence/ontological implications as to what it brings and reflects about current knowledge-reification; and then the analyst’s/philosopher’s reflection on the shortfall in the ontological-performance of the given prior contribution while reflecting the epochal

constraints for such a shortfall going beyond a construal of the given prior contribution as mere ‘relic-or-orthodoxy knowledge’; and finally, the analyst’s/philosopher’s conceptual interpretation as its prospective contribution that is subject to validation and falsifiability as of inherent existence/ontological implications thus amenable to foregrounding—entailment—(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’) with other so-constructed knowledge-reification, that are well beyond a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> orientation driven by the cultivation of mere imprimatur discretion/whim-of-thought ‘relic-or-orthodoxy knowledge’ disposition. It is important to appreciate here that a history of postmodern-thought criticism driven by populism, media operations, false intellectual engagement and ontological-bad-faith/inauthenticity, is particularly telling not about postmodern thinkers knowledge-reification epistemic-veracity but rather ‘the knowledge-reification epistemic-veracity of such critics who often pride themselves on not understanding postmodern-thought then by a strange paradox have the knowledge to produce a profound criticism of postmodern-thought which they supposedly do not understand’. Even more critically, the question can be raised whether such critics profoundly appreciate the overall human knowledge-reification process/gesturing as herein articulated, and whether this very fact isn’t linked to the knowledge-reification methodological difficulties arising in many social domains-of-study ‘assuming a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> epistemic-disposition that is in many ways poorly constrained to existential-reality’ with the result of their relative knowledge-reification passivity with regards to many a social issue ‘but for adventures into social commentary divorced from genuine operant knowledge-reification implications’; and in this regards could it be that the true ‘unsaid issue with suprastructuralism/postmodern-thought’ lies with its

parrhesiastic emphasis on the displacement/decentering-of-the-human-subject for the right mindset-as-of-prospective-relative-ontological-completeness and thereof the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected existential-contextualising-contiguity in conflatedness, an issue that has always been a difficult knot throughout the ontological-contiguity—of-the-human-institutionalisation-process but which inevitably has to be dealt with for the possibility of prospective human registry-worldview's/dimension's institutionalisation. Such weaknesses manifested by many a postmodern critic fundamentally points to an atomising/taking-to-pieces predisposition that poorly appreciates the <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity involved in knowledge-reification, and is reflected in a lack of parrhesiastic and hermeneutic insight that 'poorly grasp the philosophical analysis implications of the existential background/development of becoming-as-historiality/ontological-eventfulness/ontological-aesthetic-tracing, as if philosophy only started as of our present positivist era with a naivety that seems to imply that all-that-should-have-been,-that-is-and-that-will-be,-as-of-the-human-potential is as of a modern positivist <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>⟩ in its given reference-of-thought reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation with no or poor insight of prior-and-prospective human becoming as of existential-contextualising-contiguity in conflatedness'; and so when it generally comes to analysing philosophical texts requiring a sense of parrhesia and hermeneutic insight. This lack is quite often reflected in such misconstrued analyses of traditional philosophical figures by a failure to understand the overall coherent narrative of such figures as of an atomising/taking-to-pieces predisposition to identitive-constitutedness-

as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism

ending up quite often claiming the incoherence of such figures and/or of their narrative accounts, and so in a ‘naïve insight’ arising exactly because the possibility for understanding requires the critic’s own parrhesiastic insight and then hermeneutic conceptualisation to then develop the capacity to grasp first of all such traditional philosophical figures underlying knowledge-reification process/gesturing and thus be able to understand how such knowledge-reification process/gesturing develops and why, and thus enabling the grasp not only of the accuracy of narrated accounts and notions but equally insight about the nuanced and covertly narrated accounts and notions, and all these while being informed by the immediate and broader underlying social background and implicated social and philosophical stakes of contention-and-confliction. In this regards, more than just the simpleminded analysis of traditional philosophical figures, such parrhesiastic and hermeneutic analytical insight actually converges with the epochal philosophical implications of existential-contextualising-contiguity in conflatedness and are actually more scientifically profound in that respect than meets the eye as to the fact that such analyses are more than just ‘archivistic retrieving’ but structurally/paradigmatically conceptualise the extended existential possibilities of falsifiability and validation in determining ontological-veracity as of a critical exercise of <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’. In this regards, such hermeneutic and parrhesiastic depth of analysis is more profoundly driven beyond the specific accuracy of narrative accounts about traditional philosophical figures but goes on to analyse the structural/paradigmatic possibilities of overall human social transformation reflected in the narrative accounts of such traditional philosophical figures. For instance, the ontological-veracity of Socratic philosophy

is rather more strongly based on the overall social implications and underlying narrative of its novel universalising-idealisation that ‘runs-through/is-deflating’ by its event instigating traditional philosophical figures and schools, and as pursued by their successors including the stoics, cynics, etc. and as to its induced universalising-idealisation transformative meaningfulness-and-teleology infrastructure impact with respect to societies of the Mediterranean including the Roman empire and subsequent religio-political developments. In another respect, it is often touted from a presencing—absolutising-identitive-constitutedness orientation that Socratic philosophers were institutionally ‘anti-democratic’, going particularly by the Platonic emphasis on philosopher kings, by the naivety and mere token that the prevailing ancient Athens ‘mob-rule democracy’ is of the same conceptual-patterning as our modern conception of democracy; but this is rather unnuanced with regards to what was a more pressing question of good governance in Ancient Athens and in the sense that such a ‘mob-rule democracy’ is not what prevails today and more critically the fact is the modern democracy model whether of direct or indirect manifestations is rather more critically informed by these criticisms of the Socratic philosophers (and not intellectual inspiration from any such mob-rule instigating sophists) wherein we rather place emphasis on ‘informed expertising and expertising-institutions for the comprehensive process of our modern democracy’ such that modern day crises of democratic governance with regards to bad governance, institutional crisis, economic crisis or undesirable wars are rather generally construed as arising from ‘failure or sophistry of expertise and expertising-institutions’ in need of better expertising, and furthermore major political calamities of the 20th century leading to totalitarian governments and their instigation of genocides arose exactly due to misinformed populist democracy. Paradoxically, this insight validates the point advanced herein that human meaningfulness-and-teleology is critically more than just its mechanical-knowledge reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-

aestheticisation but rather an organic-knowledge as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness that then feeds into prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation; emphasising as of any given registry-worldview’s/dimension’s specific limited-mentation-capacity that knowledge ‘more profoundly lies with the knowledge-reification gesturing and organic implications’, just as we cannot simplistically interpret the importance of Aristotelian science in terms of its constitutive elements as earth, water, air, fire and aether on a naïve presencing—absolutising-identitive-constitutedness basis from the vantage perspective of our modern positivism (as being at the receiving backend of the institutional-cumulation/institutional-recomposure in reflecting the ontological-contiguity—of-the-human-institutionalisation-process) but rather the more critical insight lies with its novel and transformative universalising-classificatory knowledge-reification gesturing as opening up the possibility for prospective human reconceptualisation of science providing the backdrop from which modern science took off from the medieval times to the present. Likewise, the transformative nature of budding positivism more than just as garnered from the precised narrative accounts about budding positivist thinkers, lies more profoundly with its meaningfulness-and-teleology infrastructure impact on the developing enlightenment social developments and as this budding positivism metaphoricity epistemic-ricochettingly/transepistemically brought about our positivism/rational-empiricism modern society. The analyses of human becoming so-implied as of parrhesiastic and hermeneutic development is in of itself a pure science that is epistemically-derivable as of ‘coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,—and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-

of-embodied-consciousness', and so beyond the specific accuracy of narrative accounts of traditional philosophical figures and besides such parrhesiastic and hermeneutic insight actually informs about the ontological-pertinence of such narrative accounts. In another respect, even with a most natural sense of parrhesia and hermeneutic insight, many a figure predispose to atomising/taking-to-pieces analysis, including founders of this orientation and other of its leading figures, have ultimately come to realise its relative underlying platitude with respect to prospective human transcendence-and-sublimity such that a prevailing notion has developed within as to imply philosophy doesn't necessarily involve a transcendental-and-sublimity promise as of a nombrilistic institutional-being-and-craft predisposition; and as such a merely reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation knowledge culture that 'dodges potential parrhesiastic implications from its very own tentative analyses' speaks of 'a supposed intellectualism' that does not lead prospective social progress as it becomes a sophistic/pedantic problem for prospective social progress especially so when it originates from the 'mother of all disciplines'. The fact is 'philosophy just as any of its derived domain-of-study is not the ownership of any institutional culture' but rather 'a human abstract-property co-opted institutionally in deferential-formalisation-transference to the extend that that deference fulfils its promise of knowledge-reification for prospective human transcendence-and-sublimity'. In this regards, the transcendental-and-sublimity possibilities of 7.5 billion humans today and human posterity cannot be construed as hanging on such terms of institutional-being-and-craft dispositions prevailing in many a social domain-of-study and even some of the natural sciences as of naïve science-ideology, and so because beyond the temporal human disposition to contemplate of existence as of a-lifespan-of-existence-implications there need to be 'human intemporal contemplation that abstractly lives/exists beyond a-lifespan-of-existence-implications to fetch for prospective possibilities of meaningfulness-and-teleology

infrastructure’, something which a-lifespan-of-existence-implications projection as of a <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩ is not structured/paradigmed to do! But then the phenomenological question arising with respect to the fact that many a social domain-of-study ‘tend to assume a disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> epistemic-disposition that is in many ways poorly constrained to existential-reality’, is how exactly does such lack of ‘cogent-unifying-operant-dynamics’ affect the realisation of the full knowledge-reification potentiality of domains-of-study as of their supposedly coherent ontological-commitment as reflected by ontological-primemovers-totalitative-framework as of existence-potency? Insightfully, this fundamentally has to do with the contrastive implications in construing ontological-primemovers-totalitative-framework as of good-practice/epistemic-veracity and bad-practice/epistemic-impertinence for knowledge-reification; wherein objectifying foregrounding—entailment-⟨narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’⟩ as good-practice/epistemic-veracity of knowledge-reification involves the construal of ontological-primemovers-totalitative-framework as of ‘cogent-unifying-operant-dynamics of primemovers’ so-construed veridically as ‘ontological-primemovers-totalitative-framework as of existential-contextualising-contiguity conflatedness’, whereas disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> as bad-practice/epistemic-impertinence of knowledge-reification involves the construal of ontological-primemovers-totalitative-framework as ‘disjointing/disparateness/disentailing of primemovers’ so-construed wrongly as ‘ontological-primemovers-totalitative-framework in constitutedness outside existential-

contextualising-contiguity'. Thus 'disjointing/disparateness/disentailing of primemovers as disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>' basically undermines the veridical underlying 'ontological-totalitative-framework as of existential-contextualising-contiguity conflatedness', and thus undermines aetiologisation/ontological-escalation predicative-effectivity-sublimation-(as-to-underlying-ontological-commitment).

'Disjointing/Disparateness/Disentailing of primemovers as disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'>' undermines the inherent 'cogent-unifying-operant-dynamics of primemovers' reflecting existential-contextualising-contiguity conflatedness, such that the supposed exercise of knowledge-reification ends up 'losing the edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of axiomatic-constructs as reflective of existential-reality'; as of the flawed disjointing/disparateness/disentailing of overall inherent existential-reality edginess/incisiveness, and further reflected variously as temporal over-emphasising and/or underemphasising/ignoring of primemovers reflecting 'ontological-totalitative-framework as of existential-contextualising-contiguity conflatedness', and so due to 'human-subpotency presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as well as lack of prospective intemporal parrhesiastic aestheticisation for prospectively renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation' thus undermining existence-potency-prospective-digression-of- '<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness' <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity of relative-ontological-incompleteness/relative-ontological-

completeness. While in many a natural science ‘the high-and-immediate subjection to existential/experimental falsifiability and validation as of <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of conceptualisations’ acts as a strong constraining effect in relatively undermining ‘disjointing/disparateness/disentailing of primemovers’ and rather encouraging ‘cogent-unifying-operant-dynamics of primemovers’ reflecting existential-contextualising-contiguity conflatedness, ‘the blurriness and remoteness of falsifiability and validation as of <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of conceptualisations’ in many a social domain-of-study relatively undermines ‘good-practice/epistemic-veracity selectiveness towards cogent-unifying-operant-dynamics of primemovers’ reflecting existential-contextualising-contiguity conflatedness, as the latter is inclined to an institutional-disposition that construes of the unification of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> substitutively as merely ‘human-subpotency institutional-practice driven unification as of vague contrasting-and-comparison’ rather than as of ‘existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ driven foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’)’. This equally explains this author emphasis that ontological-veridicality cannot be construed as the mutual-agreement as of human-subpotency but rather as of the constraining sublimating-over-desublimating implications of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ on human-subpotency. Human meaningfulness-and-teleology as of its ontological-performance is the outcrop of human-subpotency conscious-able aestheticisation of ecstatic-existence.

Human aestheticisation speaks of the extensive manifest outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations of human meaningfulness-and-teleology as from: human ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. Basically, human meaningfulness-and-teleology refers to human-subpotency conscious-able aestheticisation of ecstatic-existence as of varying human ontological-performance in veridically reflecting existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’. Underlying the ontological-performance of human-subpotency conscious-able aestheticisation of ecstatic-existence is both the human instigative-drivenness construed as originariness-parrhesia,—as—spontaneity-of-aestheticisation and human reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation reflected-together in all human meaningfulness-and-teleology, as-of-their-inversely-varying-emphasis; and more specifically ‘as institutive of underlying reference-of-thought’, their implied spontaneity and reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation conjointly drive ‘human existence historicity/ontological-eventfulness/ontological-aesthetic-tracing creative aestheticisation of meaningfulness-and-teleology’. In this regards, originariness-parrhesia,—as—spontaneity-of-aestheticisation is marked by its greater taxing of human limited-mentation-capacity and specifically so as it ‘re-stakes/put-back-at-stake the capacity of human ontological-performance by its renewing spontaneity-of-aestheticisation’ over already set/established prior reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation; and so as ‘human corresponding-sublimation-inducing,-

meaningfulness-and-teleology and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology meaningfulness-and-teleology, and so epistemic-ricochettingly/transepistemically as of ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ with respect to unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance wherein originariness-parrhesia,—as—spontaneity-of-aestheticisation restakes/puts-back-at-stake the reconstruing of existential-reality despite the taxingness-of-originariness. This human aestheticisation process involves inversely-varying-emphasis of originariness-parrhesia,—as—spontaneity-of-aestheticisation and reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation (so-construed as of ‘high/low parrhesiastic-pressure-of-aestheticisation’ with respect to ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’), reflecting the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’. For instance with regards to living-development—as-to-personality-development meaningfulness-and-teleology, human aestheticisation is reflected in childhood to adulthood social development wherein a child’s development as of its ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ involves initially a more direct focus on instant-sensations-and-carefreeness with the child aspiring for social-integration-and-evolving at successive stages as it grows up with an increasing sense of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension in a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of its ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-

aestheticisation’ that ultimately involves major stages like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, and developing into an adult with even greater dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as for instance the notion of pleasure is increasingly substituted with that of work-and-pleasure, etc. It is critical to grasp here that such living-development-as-to-personality-development human aestheticisation of meaningfulness-and-teleology (‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as of a ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation’) in existential-contextualising-contiguity conflatedness involving ‘hermeneutic reactualising as <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought’ always entails the three human aestheticisation manifest elements: ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’, ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’, and ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’. This human aestheticisation insight is informing about what exactly is meant by such major stages of human personality development like language acquisition achievement, schooling achievement, greater social autonomy and responsibility achievement, etc. in the sense that the underlying/induced ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ already speaks of the ‘hermeneutic reactualising as <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought’ long before a child’s language acquisition achievement recognition, schooling achievement recognition, greater social autonomy and responsibility achievement recognition, etc. More specifically we can thus factor in that language as formally defined, and so specifically as this reflects a particular phonetic/written signification construct, is

rather in reality the ‘teleological outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ of a rather ‘complex sense of meaningfulness-and-teleology aestheticisation’ induced from a ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ driven ‘hermeneutic reactualising as <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought’ that starts long before a child’s ‘recognised’ acquisition of any such ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, as the child already has a ‘complex sense of meaningfulness-and-teleology aestheticisation’ before its ‘recognised’ acquisition of ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, and that acquisition of a specific ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ in due course (though annunciative) is rather secondary-and-prolongative of the child’s evolving underlying human ‘complex sense of meaningfulness-and-teleology aestheticisation’ as of its ‘high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’. It is this underlying ‘complex sense of meaningfulness-and-teleology aestheticisation’ that is truly of ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ ontological analysis in existential-contextualising-contiguity conflatedness (and as it may then be reflected in practice with regards to its analysis on the basis of any specific ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’); and so, reflecting ‘its prior-not-recognised-as-language-acquisition stage’, ‘its recognised-as-

language-acquisition stage’ and ‘its subsequent-deepening-of-recognised-as-language-acquisition stage and as this extends to specialised language or secondary language developments’. Beyond ‘living-development-as-to-personality-development meaningfulness-and-teleology aestheticisation’ (as implied above with living-development-as-to-personality-development aestheticisation of underlying becoming ‘complex sense of meaningfulness-and-teleology aestheticisation’ as of the ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ of language), with human ‘institutional-development-as-to-social-function-development meaningfulness-and-teleology aestheticisation’ as of any given conventioned human ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’, such an insight about ‘high/low parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving’ as to the implications of ‘more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ is highly informing about ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’ and so highlighting the collective social ‘existentially developing/becoming-as-of-social-integration-and-evolving relevant meaningfulness-and-teleology’ in reflection of ‘institutional-development-as-to-social-function-development meaningfulness-and-teleology aestheticisation’ of any given conventioned human ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation’. It is important thus to grasp that ‘language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-

institutional-manifestation' is rather established institutionally as of the collective social human 'complex sense of meaningfulness-and-teleology aestheticisation' that drives human social institutions, and that while 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' does reflect this collective social human 'complex sense of meaningfulness-and-teleology aestheticisation' rather as an 'institutional-development—as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions' in existential-contextualising-contiguity conflatedness, it is ontologically-flawed for 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' to be construed in constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity (even as on occasion such an ontologically-flawed construal in identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism may be incidentally/accidentally/ad-hocly seemingly veridical but ontologically-flawed in principle from the perspective of the precedence over 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation' of the collective social human 'complex sense of meaningfulness-and-teleology aestheticisation' as of the 'more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation' of language, as of the implied 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' driven 'hermeneutic reactualising as <formative>epistemic-totalising—renewing-

This is so because ‘human <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness orientation’ supersedes any such human ‘institutional-development-as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like language’, in its existential-contextualising-contiguity conflatedness (even as the latter had been precedently contributive to that purposefulness-reflexivity) such that such a human ‘institutional-development-as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like language’ is more critically a passive ready-at-hand conception that is epistemically/notionally ever always critical only in existential-contextualising-contiguity conflatedness as it is adapted to ‘human <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness orientation’. This basically explains the constantly developing nature of human ‘institutional-development-as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions like language’ which are not truly absolutely of present-at-hand as to wrongly imply presencing—absolutising-identitive-constitutedness-of-meaningfulness-and-teleology (even as the privileged social conceptualisation of say language is as of ‘language as the complete possibilities of language as of an absolute present conception usually of a privileged end-

institution purpose'). Insightfully, we can garner that it is 'human <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity purposefulness-reflexivity for prospective relative-ontological-completeness orientation' implied as of maximalising-recomposuring-for-relative-ontological-completeness that fundamentally renders/makes human institutional-development-as-to-social-function-development meaningfulness-and-teleology outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation/conflatedness conceptions' to be necessarily as of existential-contextualising-contiguity in conflatedness and not in constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. In another respect, 'living-development-as-to-personality-development meaningfulness-and-teleology aestheticisation' is of 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' with regards to human childhood to adulthood personality development as of the forming individual need to assimilate/integrate human progressive cultural cumulation, and this is very much in contrast to 'institutional-development-as-to-social-function-development meaningfulness-and-teleology aestheticisation' that rather cumulatively holds-on-to and complexifies the culturally cumulated outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,-so-reflected-as-institutional-manifestations from historically accrued 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' construed as of human institutional-cumulation such as with regards to any specific 'language-as-phonetic/written-signification-construct outcome/outfit/shell—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating-as-institutional-manifestation'. This will explain why the ontological-contiguity—of-the-human-institutionalisation-process as of 'institutional-development-as-to-social-function-

development meaningfulness-and-teleology aestheticisation' is 'highly parrhesiastically economical' as reflected in the overall ontological-contiguity—of-the-human-institutionalisation-process 'more and more profound enlarging-framework of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation'; wherein only the perception of unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance of prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation epistemic-ricochettingly/transepistemically elicits 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving'. This is so because given the taxingness-of-originariness any such 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' has to resolve considerably unduly aporetic/undecidable/dilemmatic/indeterminate/deficient/limitative/constraining ontological-performance of prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation for such 'institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation' underlying 'hermeneutic reactualising as <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought' to be worth the epistemic-ricochetting/transepistemicity effort, with the preference for any such effort rather directed at the complexification of the prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation. This will explain for instance why as of the furtherance in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, the 'institutional-development—as-to-social-function-development meaningfulness-and-teleology aestheticisation' with regards to language development hasn't warranted any 'high parrhesiastic-pressure-of-aestheticisation for social-integration-and-evolving' with respect to new language creation but this has rather been directed towards language complexification as of advancing human knowledge and

construction-of-the-Self. In the bigger picture, the above human meaningfulness-and-teleology aestheticisation analysis (and as reflected specifically with language acquisition) is reflective of the fact that the specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation, reflected in human underlying supposedly coherent ontological-commitment, is ultimately potentiated/ontologisable as of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’. This instigation of human aestheticisation of meaningfulness-and-teleology so-reflected in ‘human existence historicity/ontological-eventfulness/ontological-aesthetic-tracing creative aestheticisation of meaningfulness-and-teleology’ driven as of originariness-parrhesia,—as-spontaneity-of-aestheticisation in renewing reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation involves an ‘overall flux of human meaningfulness-and-teleology of varying temporal-to-intemporal ontological-performances’ wherein such a flux construed as human aporetic dissemination is confronted to ‘existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ validative/invalidative selectivity/deselectivity’ enabling living-development—as-to-personality-development meaningfulness-and-teleology, institutional-development—as-to-social-function-development meaningfulness-and-teleology and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology meaningfulness-and-teleology; and thereof reflected in the secondnatured institutionalisation framework of the given registry-worldview underpinning—suprasocial-construct and its <formative>wooden-language-(imbued—

averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) as uninstitutionalised-threshold. It is important here to grasp that despite any human registry-worldview/dimension <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ontologically-flawed inclination to think otherwise, its given underpinning–suprasocial-construct and its given <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) ‘are not the absolute possibility of ontological-performance’, as of their induced reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation, for the prospective aestheticisation of human intemporal-as-ontological meaningfulness-and-teleology given that such underpinning–suprasocial-construct and <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) are effectively rather secondnature institutionalisation outcome of reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation. In this regards, the more profound basis for prospective generation of human intemporal-as-ontological meaningfulness-and-teleology arises as of transepistemic/epistemic-ricochetting originariness-parrhesia,—as–spontaneity-of-aestheticisation that renews reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation as of prospective existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ sublimating-validation/desublimating-invalidating implications of human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal).

This underlying insight is reflective of the fact that ‘secondnatureddness is no substitute for
 originariness as of the <formative>epistemic-causality-as-to-projective-totalitative–
 implications,-for-explicating-ontological-contiguity of relative-ontological-
 incompleteness/relative-ontological-completeness’, as originariness is ever always about
 ‘intemporal parrhesiastic seeding-promise <formative>epistemic-growth/transvaluative-
 rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of the registry-
 worldview/dimension meaningfulness-and-teleology beyond just its mechanical
 reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-
 aestheticisation for the possibility of further prospective parrhesiastic instigation as from
 ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ in contrast to the
 essentially mechanical/mere-form of reproducibility—mathesis/motif/thrownness-
 disposition,—as—reproducibility-of-aestheticisation of secondnatureddness. This fundamental
 originariness and secondnatureddness conundrum in reflecting the ontological-contiguity—of-
 the-human-institutionalisation-process is reflected by the fact that the human Self is ever
 always in disseminative constructiveness/destructuring defining its given registry-
 worldview/dimension shiftiness-of-the-Self as of ‘a subpar existence-potency-prospective-
 digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-
 thought-in-epistemic-conflatedness’/human-subpotency disposition to construe as of full
 existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-
 realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ at its uninstitutionalised-
 threshold’ its prior secondnaturedd reproducibility—mathesis/motif/thrownness-disposition,—
 as—reproducibility-of-aestheticisation; and so in obfuscation and pedantry. The possibility for
 prospective human transcendence-and-sublimity has ever always been able to arise at such
 uninstitutionalised-thresholds of registry-worldviews/dimensions not by a ‘false pretence’

that the ontologically-veridical underlying issue of prospectively-aporetic/prospectively-undecidable/prospectively-dilemmatic/prospectively-indeterminate/prospectively-deficient/prospectively-limitative/prospectively-constraining ontological-performance of prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation in the construal of ecstatic-existence, is one in want of candid analysis as of the very same prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation but rather the ontological-veracity of originariness-parrhesia,—as—spontaneity-of-aestheticisation for prospective/renewed reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation; as perfectly understood by the Socratic philosophers advancing of universalising-idealisation relative to the Ancient sophists non-universalising inclination, budding positivists/rational-empiricists advancing of positivism/rational-empiricism relative to the medieval-scholastics pedantic dogmatism and equally as of our positivism—procrypticism this author construes practices of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-ontological-contiguity’> not constrained to existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ but rather institutionalised imprimatur as of institutional-being-and-craft as intellectually wanting and in need of the advancing of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought foregrounding—entailment-<narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’> edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In other words, the uninstitutionalised-thresholds of all registry-worldviews/dimensions as of their shiftiness-of-the-Self are the aporetic point at which their languages collapse into ‘wooden languages’ that are from a prospective perspective not profound but mechanical/mere-form

reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-

 ontological-performance of prior reproducibility—mathesis/motif/throwness-disposition,—
 as—reproducibility-of-aestheticisation that can only be dealt with as of prospective
 originariness-parrhesia,—as—spontaneity-of-aestheticisation so-construed as ‘intemporal
 parrhesiastic seeding-promise <formative>epistemic-growth/transvaluative-

 ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’. The fact is that
 the possibility for prospective institutionalisation transcendence-and-sublimity is ever always
 underdetermined, as between prior reasoning-from-results/afterthought and prospective
 reasoning-through/messianic-reasoning is the ‘aporia of underdetermined madness’ that
 human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

 <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-

 thought-in-epistemic-conflatedness’ sublimating-validation/desublimating-invalidation
 implications as of ontological-primemovers-totalitative-framework. That is, between

reasoning—as-reasoning-from-results/afterthought and reasoning—as-reasoning-through/messianic-reasoning is ‘aporetic underdetermined madness’ that renders a pretence of hanging unto prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation more like ‘a pretence of already grasping the complete implications of ecstatic-existence while ignoring/not-registering the epistemic-ricochetting/transepistemicity implications of prospective relative-ontological-completeness’ and rather speaks in effect of a nihilistic <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>); and this temporal nihilism at uninstitutionalised-thresholds has ever always been associated with a corresponding intemporal asceticism for opened-construct-of-meaningfulness-and-teleology (not partaking as of transversality-of-disambiguated-apriorising/axiomatising/referencing in any such ‘wooden language’) that is the sine qua non for the habituation of the possibility of prospective transcendence-and-sublimity. Overcoming this ‘aporia of underdetermined madness’ despite human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, has ever always been the absolutely determinative possibility for the fulfilment of the construction-of-humanity-as-of-its-developing-construction-of-the-Self enabling human transcendence-and-sublimity to arise; as its overcoming has ever always elicited humankind’s ability to ascetically go beyond its ‘prior comfort zone’ to reconstrue its future emancipatory possibilities. In this regard, the idea of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness, however its recurrent

outlier/unenframed intemporal instigation as of originariness-parrhesia,—as—spontaneity-of-aestheticisation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, speaks to the fact that the sense of prospective base-institutionalisation in prior recurrent-utter-uninstitutionalisation is potentially an actionable possibility as of the latter's 'parrhesiastic structure' construed as 'its-given-developed-level-of-Will/Spirit/Drive in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-'notionally-collateralising-prot Humanity'-to-'attain-sublimating-humanity',-as-to-existence-potency-prospective-digression-of- '<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness' to supersede human temporality/shortness <formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>))', and likewise between base-institutionalisation and universalisation, non-positivism/medievalism and positivism/rational-empiricism, and prospectively positivism—procrypticism and deprocrypticism. But then in reflecting the ontological-contiguity—of-the-human-institutionalisation-process what is easily lost is exactly 'this most vital but brittle ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness element of meaningfulness-and-teleology instigating the successive transcendences-and-sublimity', as the very renewing of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation seems to induce a 'deferment of human instinctual responsibility' as to temporally imply 'human ontological-performance strategies are valid by their mechanical/mere-form alignment to any

such reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ inducing human naïve untransvaluated—temporal-intemporality as of the shiftiness-of-the-Self of the corresponding registry-worldview/dimension wherein the eliciting of a mutual sense of temporality/shortness within such a framework as of <formative>epistemic-totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag is wrongly reconstrued as ‘intemporality’ (but then we can garner from our vantage modern positivism perspective that such defective process in prior registry-worldviews/dimensions effectively spoke of their corresponding uninstitutionalised-threshold and the same does applies in our own respect from a prospective perspective). In this regards the prospective deprocrypticism registry-worldview/dimension, as of its notional-deprocrypticism reflexivity of this human limited-mentation-capacity instigating ‘aporetic deficiency of ontological-performance’ along the overall ontological-contiguity—of-the-human-institutionalisation-process, effectively elicits originariness-parrhesia,—as—spontaneity-of-aestheticisation but then as of its ‘foregrounding—entailment—(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’) edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, it is not receptive to a human dephasing shiftiness-of-the-Self as of ‘deferment of human instinctual responsibility’ that dehistorialises humankind into Being/Existential homelessness as a vague temporal-to-intemporal nihilism wherein we wrongly deify our presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag while paradoxically failing to articulate a coherent existential narrative underlying human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor involving a

developing historicity/ontological-eventfulness/ontological-aesthetic-tracing of human recurrent destructuring-threshold-of-ontological-performance/uninstitutionalised-threshold and its superseding with human recurrent constructiveness-of-ontological-performance, and so beyond just the nombrilism of our lifespans. This orientation is very much the peculiarity of deprocrypticism as in reality all the other prior registry-worldviews/dimensions are notionally/epistemically various levels of notional-procrypticism-or-notional-disjointedness-as-of-reference-of-thought (in successive relative-ontological-completeness as of increasing notional-deprocrypticism or increasing notional-preempting—disjointedness-as-of-reference-of-thought) but it is prospective deprocrypticism ontological-faith-notional-or-ontological-fideism

dissingularisation-as-flawed-epistemic-determinism failing to grasp the dynamism implied in the Socratic knowledge-is-virtue insight when it attributes to individuals inherence of good-naturedness or bad-naturedness and ‘failing to construe of the knowledge-driven ontologically-pertinent structural/paradigmatic process as of relative-ontological-incompleteness/relative-ontological-completeness implications that then reflects the manifestation of human virtue at constructiveness-of-ontological-performance and human vices-and-impediments at destructuring-threshold-of-ontological-performance’. The bigger point here is that it is at the edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought as ‘point of <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process’ that one can reflect upon the ‘notional-procrypticism/notional-disjointedness as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism’ of our procrypticism—positivism meaningfulness-and-teleology in order to construe its induced virtue at constructiveness-of-ontological-performance and vices-and-impediments at destructuring-threshold-of-ontological-performance as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. We can thus appreciate that just as a presencing—absolutising-identitive-constitutedness/identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism assessment of the virtue and vices-and-impediments of individuals in any of the preceding registry-worldviews/dimensions will find them relatively wanting/deficient with regards to our

positivism, this ‘is not decisively/critically the case on the basis that we are inherently better individuals than any of the prior registry-worldviews/dimensions individuals’ but rather a question of us being at the vantage backend of the institutional-cumulation/institutional-recomposure in reflecting the ontological-contiguity—of-the-human-institutionalisation-process relative-ontological-incompleteness/relative-ontological-completeness implications of limited-mentation-capacity-deepening-(<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal), pointing out that what is decisive/critical for inducing human virtue over vices-and-impediments rather lies with the assessment of any such registry-worldview/dimension prospective ‘point of <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process’ as so-implied by the prospective registry-worldview/dimension edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as it reflects upon the preceding registry-worldview/dimension ‘notional-procrypticism/notional-disjointedness as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism’ in order to construe/assess/supersede by its induced virtue at the prospective constructiveness-of-ontological-performance over vices-and-impediments at the destructuring-threshold-of-ontological-performance as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The overall emphasis herein of the conjunction between psychopathic manifestation with the ontological-contiguity—of-the-human-institutionalisation-process arises in the sense that as previously articulated the ‘postlogism/psychopathy-as-of-dementing-or-preconverging—apriorising-psychologism destructuring-threshold-of-ontological-performance’ manifestation of any given registry-

worldview/dimension is just a difference-in-kind/difference-in-aposteriorising-or-logicising on the basis of the same <formative>epistemic-totalising/circumscribing/delineating edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument construed as of the ‘underlying apriorising/axiomatising/referencing–psychologism/mental-schema’ of the given registry-worldview’s/dimension’s reference-of-thought-devolving meaningfulness-and-teleology. Thus a registry-worldview’s/dimension’s ‘postlogism/psychopathy-as-of-dementing-or-preconverging–apriorising-psychologism destructuring-threshold-of-ontological-performance’ manifestation is rather as of an ‘inordinarily/unexpectedly/anormally lower-threshold of human limited-mentation-capacity in failing dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for living-development–as-to-personality-development’ that is just a difference-in-kind/difference-in-aposteriorising-or-logicising to the registry-worldview’s/dimension’s ‘ordinary/expected/assumed-normal higher-threshold of human limited-mentation-capacity in failing dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension for living-development–as-to-personality-development’ considered as ‘prelogism/dialectical-thinking-or-postconverging–apriorising-psychologism constructiveness-of-ontological-performance’ manifestation. universalising narrative, as to when medieval-scholasticism fail to engage prospective
budding positivism/rational-empiricism meaningfulness-and-teleology and harkening rather
to its dogmatism pedantry, and as to when modern day intellectual muddlement seems to be
blinded to the implication of ‘prospective event/aporetic thinking implied
deprocrypticism/preempting—disjointedness-as-of-reference-of-thought’ and take the route
of eliciting disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-

of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-‘immanent-
ontological-contiguity’> impotence-inducing exercise’ (as to the fact that where there is
uncertainty, whether real or unreal, ontological implications cannot then be effectively
derived). The manifest reality of human ontologisation/ontological-veracity/aestheticisation-
towards-ontology is thus one that is ever sub-ontological-<as-to-the-limitation-of-human-

of human-subpotency—aporia/undecidability/dilemma/ought-
indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

human limited-mentation-capacity, human aestheticisation is ever always
reactualising/recomposuring towards a fully ontologising reproducibility—
mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as of
edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument; that is, human aestheticisation as from prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation instigation develops by recomposing as from ‘perceptive motif-manifest aestheticisation as of human conscious-able imagery’ to ‘mere-tracial-and-symbolisation-manifest aestheticisation as of human conscious-able works-of-art/artistry’ and then to ‘signification-as-of-existential-reality-manifest aestheticisation as of human conscious-able intermediating ascriptivity’ with the latter achieving the given registry-worldview/dimension reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation ontologisation/ontological-veracity/aestheticisation-towards-ontology. Basically, human aestheticisation, in reflection of human limited-mentation-capacity and human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,—as-to-existence—as-sublimating-withdrawal) possibility, ever always involves a ‘human disposition in portraying/reflecting/construing existence/ontological-veracity’ as of ‘presencing—absolutising-identitive-constitutedness finitism of aestheticisation’ and as of ‘human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative⟩epistemic-totalising—renewing-realisation,—re-perception,—re-thought-in-epistemic-conflatedness’>/transcending infinitism of aestheticisation possibilities’ which then define together the aestheticisation specificity of the culturally cumulated outcomes/outfits/shells—construed-historially-as-of-the-specifically-aestheticised-incrusting/plating/coating,—so-reflected-as-institutional-manifestations explaining why human institutional constructs like language, cultural practices, etc. are inherently of their given cultural specificness. In this regards, the social-setup in its furtherance of human aestheticisation towards human ontologising of meaningfulness-and-teleology is ever always drawn between ‘presencing—absolutising-identitive-constitutedness

This structurally/paradigmatically defined existential framework of knowledge-reification of any given registry-worldview/dimension is known as its ‘parrhesiastic structure’ and is intimately associated with its given shiftiness-of-the-Self. The ‘parrhesiastic structure’ speaks of ‘a-given-developed-level-of-Will/Spirit/Drive in dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ to supersede human temporality/shortness <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>))’ that then allows for the corresponding ‘reproducibility—mathesis/motif/throwness-disposition,—as–reproducibility-of-aestheticisation reference-of-thought-level edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for

meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring'. This is fundamentally what explains why the state of recurrent-utter-uninstitutionalisation cannot all of a sudden start reasoning as of base-institutionalisation, and the latter as of universalisation, the latter as of positivism/rational-empiricism and prospectively the latter as of deprocrypticism. The overall point here is that it is the 'parrhesiastic structure' as of parrhesiastic-aestheticisation that 'invents/creates' the prospective registry-worldview's/dimension's reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation, and carries the 'intemporal parrhesiastic seeding-promise <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness of the registry-worldview/dimension meaningfulness-and-teleology beyond just its mechanical reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation for the possibility of further prospective parrhesiastic instigation as from ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality'. But then human temporality/shortness loses sight of this 'parrhesiastic instigative intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic seeding-promise of prospective knowledge-reification' and assumes at the given registry-worldview/dimension destructuring-threshold-of-ontological-performance 'an absolutising disposition as of temporal/sophistic-as-ontologically-flawed/ontological-bad-faith reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation seeding-misprising as mere-form of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation reflected in the absolutising of normativities, conventions, practices, etc.' without or a poor sense of the 'intemporal parrhesiastic seeding-promise <formative>epistemic-growth/transvaluative-

 shiftiness-of-the-Self loses sight of ‘Will/Spirit/Drive parrhesiastic instigative dispensing-
 with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-
 distension’). Such an ‘absolutising disposition with the registry-worldview/dimension mere-
 form of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-
 aestheticisation’ is what underlies disparateness-of-conceptualisation-<unforegrounding-

 totalising—renewing-realisation/re-perception/re-thought of ontological-veracity’, and
 explains the Sophists—ideal-type-or-individuation non-universalising inclination on the basis
 that that social practice is absolutely deterministic of meaningfulness-and-teleology and the
 medieval-scholasticism-pedants—ideal-type-or-individuation non-positivising/medievalism

 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ on the basis

that such social practices are absolutely deterministic of meaningfulness-and-teleology. In other words, adherence to prospective knowledge-reification as of human temporality/shortness arises as of the existentially constraining untenability of positive-opportunism induced reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation but doesn't necessarily elicits intemporal parrhesiastic seeding-promise <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness for prospective knowledge-reification as of 'a weak social mental-reflex that any parrhesiastic <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought of ontological-veracity will put in question prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as can be reflected in normativities, conventions, practices, etc.', and this is what explains the prevalence of disparateness-of-conceptualisation-<unforegrounding-disentailment,-failing-to-reflect-'immanent-ontological-contiguity'> at uninstitutionalised-thresholds as 'mere-form of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation' temporally takes pride-of-place and so unconstrained to prospective existence-potency-prospective-digression-of-'<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness' sublimating-validation/desublimating-invalidiation implications 'as of parrhesiastic <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought of ontological-veracity' thus providing the framework for ontological-bad-faith/inauthenticity and sophistry hanging on unto secondnatured normativities, conventions, practices, etc. thus rendering prospective transcendence-and-sublimity impotent. Thus 'the possibility for prospective human transcendence-and-sublimity is ever always a renewed parrhesiastic structure' that as of its reasoning-through/messianic-reasoning can overcome such a <formative>wooden-language-(imbued—averaging-of-thought-<as-to-

leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

counterintuitively to any given registry-worldview/dimension notion/sense of transcendence-
and-sublimity as rather occuring along its already secondnature established
reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-
aestheticisation normativities, conventions, practices, etc.; and this very much explains why
the successive registry-worldviews/dimensions are successive parrhesiastic instigation of
renewed reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-
aestheticisation. Further the ‘renewed parrhesiastic structure’ in undermining prior
‘reference-of-thought-level and thus reference-of-thought-devolving-level of disparateness-

‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-
epistemic-conflatedness’ imposing ontological-veracity as of prospective ontological-
primemovers-totalitative-framework. This explains why the universalising-idealisation of
Socratic philosophers, budding positivists thought and herein as well

suprastructuralism/postmodern-thought are all characterised in their knowledge-reification not by an articulation along the prior established reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation but rather prospective existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,—re-perception,—re-thought-in-epistemic-conflatedness’ constraining parrhesiastic aestheticisation of prospective reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation, that in all three cases looks down upon the notion of human-subpotency sophistic/pedantic pretence of foregrounding—entailment-⟨narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’⟩ that is no more than complexification of disparateness-of-conceptualisation-<unforegrounding-disentailment,—failing-to-reflect-‘immanent-ontological-contiguity’>. Critically as of such parrhesiastic instigation of prospective relative-ontological-completeness the prior reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation ‘sycophantic-sophistic pretences of candour’ are edgily/incisively trampled-upon parrhesiastically as the Socratic philosophers go out of their way to highlight the intellectual discredit of the sophists, as budding positivists go out of their way to highlight medieval-scholasticism dogma, and likewise suprastructuralism/postmodern-thought is beyond just our positivism—procrpticism reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation and as reflected herein with the parrhesiastic highlighting of institutional-being-and-craft and intellectual muddlement as of positivism—procrpticism ‘disjointedness-as-of-reference-of-thought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as of its lack of prospective deprocrpticism/preempting—disjointedness-as-of-reference-of-thought foregrounding—entailment-⟨narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-

It should be noted here as well that it is human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ as of relative-ontological-completeness as of <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ that underlies the <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism over ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. In another respect this author’s re-elaboration of postmodern difference conception, as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism contends that this effectively captures-and-reflects the evolving reality of existential-contextualising-contiguity knowledge-reification of human meaningfulness-and-teleology, and so over analytic atomising/taking-to-pieces formalisation approach as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism that

goes on to analyse as if all the analysis that has ever been is as of presencing—absolutising-identitive-constitutedness while ignoring the <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of human underlying relative-ontological-incompleteness/relative-ontological-completeness with respect to temporal-to-intemporal ontological-performance as from past to present to future with regards to existential-contextualising-contiguity knowledge-reification. Another criticism is the inclination for such atomising/taking-to-pieces formalisation predisposition to start out with ad-hoc disparate conceptualisations as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism that often poorly reflect the ‘ecstatic holism/nested-congruence’ of existential phenomenality rather than the contrary approach that delves directly in existential-contextualising-contiguity and then reifies-out conceptualisations as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. The implication here is that quite often when required to explicate social phenomena outside the framework of such abstract atomising/taking-to-pieces formalisation approach, what happens is that responses will often tend not to be as of the direct import of such analytical atomising/taking-to-pieces formalisation frameworks of supposed reification/elucidation, but rather as extra-contemplative articulations and commentaries that in many ways fall back into the very <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩ that is supposed to be reified but now under the imprimatur of authority. This is very much unlike the case with proponents of ‘ecstatic holism/nested-congruence’ whose social and existential analyses are just a natural reification/elucidation projection as from within the ‘ecstatic holism/nested-congruence’ of existential phenomenality framework of their study.

Furthermore this contrast equally produces other distractive effects in the sense that when such abstract atomising/taking-to-pieces formalisation analysis is presumed to be more profound as of its poorly nuanced interpretation of existential-contextualising-contiguity in a rather blurry social domain-of-study, then it assumes that issues of mutual misunderstanding are due to poor writing, poor use of language or ambiguous conceptualisations of such ‘ecstatic holism/nested-congruence’ proponents thought, failing to factor in the existential-contextualising-contiguity dereifying effects of abstract atomising/taking-to-pieces formalisation as decontextualising and pulling-apart the ‘ecstatic holism/nested-congruence’ of existential phenomenality, wherein the constraining effect of existence/intrinsic-reality/ontological-veridicality as the ‘superior party’ is ignored/overlooked on the naïve token of working on specific aspects or specific interpretation, and so out of sync with existence/intrinsic-reality/ontological-veridicality. Again, what is loss of critical pertinence here is exactly what is implied by ‘meaningfulness-and-teleology/knowledge as of existential-contextualising-contiguity knowledge-reification’, as being rather all about elucidating the necessary-existential-states-and-conditions so-construed as ‘axiomatic-construct construal of ecstatic-existence/the-nature-of-the-world/conditions’, and not presuming-and-skirting-around them, before further expanding on the elucidation/reification of their manifestations as validated or can be falsifiable by ontological-primemovers-totalitative-framework; or otherwise this simply leads to a loss of the sense of ontologically-veridical reality. Ultimately, such abstract atomising/taking-to-pieces formalisation tendencies and further as of a frequently gestational knowledge state with respect to the possibility for prospective social transcendence-and-sublimity, induces a penchant for flawed intellectually supplementing rhetorisation rather than reification as well as naïve focussing on disparateness of conceptualisations-and-interpretations as of lack or poor constraining ontological-primemovers-totalitative-framework disposition rather than an orientation

towards the ‘transversality-of-disambiguated-apriorising/axiomatising/referencing or transversal-analysis-towards-validatory-selectivity-for-foregrounding—entailment-
 ⟨narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’⟩ of conceptualisations-and-interpretations’ as constrained to ontological-primemovers-totalitative-framework which is what further reifies the body of knowledge by enabling existence as the transcendental-enabling/sublimating/transcendental-signifier to continually select the trace/ontological-aesthetic-tracing of sound and complementary conceptualisations-and-interpretations out of a genuine ecstatic reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation disseminative insight, with unsound/superseded conceptualisations-and-interpretations being discarded thereafter. Concretely, we can easily appreciate the greater pertinence of a Foucauldian statement of relative truth as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism, construable rather as a more precise theoretical, conceptual and operant notion of truth by its existential-contextualising-contiguity knowledge-reifying <formative>epistemic-causality-as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation as reflected with ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity’ as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and

so when compared to the atomising/taking-to-pieces formalisation notion of truth-value as of ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. Such a construal of relative truth doesn't imply a lack of commitment in truth, but is utterly the contrary as of 'a much more critical and ontologically decisive commitment to truth and growing truth' as any pertinent critique can garner in Foucault's truth-delogocentering works/research-programme and its extensive interpretational citability in other scholarly works/research-programmes as of its scholarly advancing of the humanities and social sciences; as his works/research-programme quest for truth 'expands the conception of truth beyond our presencing—absolutising-identitive-constitutedness <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-dispositions as if all the world that has ever existed is as of presencing—absolutising-identitive-constitutedness', and displaces/decenters the human subject as of its presencing—absolutising-identitive-constitutedness cloistered-consciousness for a more mature and nuanced conception of truth and the implications of truth; and so, beyond the contemplation of naïve atomising/taking-to-pieces formalisation dereifying rhetorisations that border on <formative>wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications> populist interpretations rather than elevating human ontological construal of the social domain-of-study! It is herein contended that existence—as-the-absolute-a-priori-of-conceptualisation as of its ecstatic singularity actually points to appropriate attitude/mental-disposition/care—and-episteme as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism for existential-contextualising-contiguity knowledge-reification of every domain-of-study; as the fact remains that the domain-of-study of the social world is utterly

different as of existential-contextualising-contiguity from the domain-of-study of the natural world, and not to mention that even within the natural world or social world there are equally subject-matters peculiarities that require their own specific approaches to elucidation/reification as of existential-contextualising-contiguity – and this said without undermining the idea of the ecstatic singularity of existence from which all such subject-matter-human-specialisms ecstatically arise as veridically implied by singularisation/epistemic-immanence/veridical-epistemic-determinism speaking of an underlying ecstatic commonness though not common phenomenality. Thus, in all cases the overall implications for the optimum advancement of human knowledge is most critically about constraining knowledge to existential-contextualising-contiguity elucidation/reification rather than just mere formalisation as of conceptual patterning for its own sake. The fact is the natural sciences are already naturally constraint to existential-contextualising-contiguity knowledge-reification by the implicated immediate-constraining ontological-primemovers-totalitative-framework transcendence-and-sublimity whereas the human world is rather blurry in this regard and hence requires the requisite explicated insight about existence as of its ecstatic singularity for its appropriate approach for transcendence-and-sublimity. In many ways such an insight is often implied in the natural sciences as of its relative transparency of cause-and-effect reification of existential-contextualising-contiguity but not by a naïve/mimicked formalisation as of mere conceptual patterning. Consider in this regard the implications of interpreting natural science transcendental-enabling/sublimating knowledge say between Mendelian heredity and DNA genetics or say Descartes Physics and Newton and Leibniz Physics on the basis of naïve formalisation as of conceptual patterning, then in many ways the latter contributors would be poorly appreciated given that the spectacular transcendence-and-sublimity implications of their studies are massively overlooked by a poor appreciation that knowledge is critically all about formalisation as of conceptual patterning

rather than existential-contextualising-contiguity knowledge-reification
 <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-

 which implied singularisation/epistemic-immanence/veridical-epistemic-determinism enables

transcendence-and-sublimity which is ‘concurrently formatted as formalisation’. Thus we know of the recurrent stories of ‘mathematics invented by physicists or mathematicians working under the physics existential-contextualising-contiguity guise’ as of the insight of their existential-contextualising-contiguity knowledge-reification of the physics domain, with such mathematics ‘very often not well presented but essentially sublime’, and thereafter such existential-contextualising-contiguity initially reified mathematics is further reified as of mathematics more generalised-level of existential-contextualising-contiguity insight while ‘exquisitely formalised in concurrence’. This reality of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising—purview-of-construal’ with increasing prospective relative-ontological-completeness’ is very much obvious from the accounts of ‘successive partial contributions-and-failures’ that lead to major breakthroughs in the natural sciences as of the ‘very same <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’; with this ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising—purview-of-construal’ with increasing prospective relative-ontological-completeness’ construed as occurring within the very same scientist, across scientists of the same interest-of-study in a generation, and across scientists of the

 their differing ontological-performance the threshold where the theory-of-relativity-together-
 with-quantum-mechanics—axiomatic-constructs projects its prospective relative-ontological-
 completeness is considered as dialectical-thinking-or-postconverging—apriorising-
 psychologism, and striving to operate the classical-mechanics—axiomatic-constructs in its
 projected prior relative-ontological-incompleteness is effectively dementing-or-
 preconverging—apriorising-psychologism; even though both address the ‘very same physics
 <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-

 credo as of conceptual patterning identitive-constitutedness-as-epistemic-totality-
 dereification-in-dissingularisation-as-flawed-epistemic-determinism implied
 dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism extends, as of its
 flawed primacy of conceptual patterning on the basis of a conception of knowledge that tends
 to belittle and trivialise original knowledge contributions geared towards creative existential-
 contextualising-contiguity knowledge-reification while naively overrating contributions to
 knowledge of a conceptual patterning orientation, in further blurring the study of the social
 with mischaracterisations and poor appreciation of transcendence-and-sublimity implications
 and ultimately induces self-perpetuating artifices of institutional-being-and-craft that
 mechanically ‘paradoxically then supersede knowledge’ as of its very organic authenticity.
 One recurrent consequence of the formalisation credo that keeps on arising for instance in the
 analytic tradition of philosophy as of its non-holism or ‘poor conflatedness of holism/nested-
 congruence’, is that the underlying conception about growing the body of human knowledge
 seems to be the ‘incrementing of all such conceptual patterning conceptualisations’ going by

their cross-analysis as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. Basically, the underlying implication of conflatedness, and so over naïve constitutedness, is that all ontologically-veridical conceptualisations can only be veridical by their ‘abstract reduction to the holistic/nested-congruence implication of existence—as-the-absolute-a-priori-of-conceptualisation as of its ecstatic singularity’, and thus implies the articulation of all such ontologically-veridical conceptualisations as of singularisation/epistemic-immanence/veridical-epistemic-determinism; while avoiding any such conceptualising naivety that may imply ‘existence in existence’ as this can only lead to flawed conceptualisations, <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and logocentrism as of constitutedness. Critically, no concepts have any veridical meaningfulness-and-teleology but only rather as of their conflatedness with existence, and cannot be construed as ‘existing in existence’ as implied by constitutedness which just leads to ontologically-flawed dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism implied identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. We can appreciate that the naïve conceptual patterning of conceptualisations in many a social domain-of-study failing to disambiguate divergent knowledge implications-and-contributions as of existential-contextualising-contiguity knowledge-reification end up transforming subject-matters into descriptive enunciations of weak existentially explanatory and predicative capacity. The entire project of human meaningfulness-and-teleology is nothing but one of creatively elucidating/reifying existence/existential-possibilities, ‘with no out of existence knowledge project’, which is merely delusional. Thus, what is critically missing here is the fundamental constraining reality for creative existential-contextualising-contiguity knowledge-reification, and so over

the mere possibilities for abstracting conceptualisations. This very much explains why many of those who subscribe to the formalisation credo have a poor existential projection and appreciation for grasping the existential-contextualising-contiguity reifying gestures of postmodern-thought and other critical theories, and end up often haranguing such orientations by striving to constrain them on the basis of vague abstractions as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity. This failure in fully appreciating the import of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness’ as of implied singularisation/epistemic-immanence/veridical-epistemic-determinism has fundamental <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity, as transcendence-and-sublimity only arise as of human expansion of its reifying grasp of existential-contextualising-contiguity. Consider in this regard that the repeated maximalising-recomposuring-for-relative-ontological-completeness articulation by this author on the theme of conceptual patterning here further complements as of further articulated reification of this very theme elsewhere herein, more than just about a mechanical repeating; and this knowledge-reification insight often goes missing with many a subscriber to the formalisation credo, as of reification along the three frames indicated above (as of same scholar interest-of-study, scholars of the same generation interest-of-study and scholars cross-generationally developing interest-of-study). In this regard, the contribution of post-structuralist scholars

like Foucault, Derrida, Lyotard, Lacan, Deleuze have now and then been belittled as not original, as of a very much naïve conceptual patterning conception of knowledge; going by their profound association with earlier scholars and more specifically Heidegger and Nietzsche. From a creative existential-contextualising-contiguity knowledge-reification perspective of knowledge construal, this is no less silly as dismissing and belittling as unoriginal the ideas of later physicists since their contributions are just more evolved formalisation as of conceptual patterning of concepts originally/as-of-event available to earlier contributors to the ‘traditional classical mechanics axiomatic-construct’ propounded by Newton together with the conceptual patterning influences of Galileo, Descartes, Leibniz, etc. as of the conceptual patterning of such concepts like space, time, force, etc. Such a conclusion certainly reflects a ‘massive ontological dearth’ in failing to appreciate the creative existential-contextualising-contiguity knowledge-reification <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of the latter contributors in both instances. This further speaks of a poor grasp of the human knowledge project as being all about further reifying human grasp of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising-purview-of-construal’, with the intellectual’s job to the best of their abilities rather being about orientating its effort for the best possibility to further this goal whether as of critical altogether new thought development or critical recomposuring of prior thought, or both. More likely than not the headway made by prior scholars means that the good intellectual knows as of the true goal of human knowledge advancement beyond just institutional-being-and-craft that their best effort is rather in further advancing/reifying/elucidating the headway as of ‘repeating/repetition of maximalising-recomposuring-for-relative-ontological-completeness for existential-contextualising-contiguity knowledge-reification, inducing successive differences of ontological-performance

of meaningfulness-and-teleology as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising–purview-of-construal’ with increasing prospective relative-ontological-completeness’. This is especially the case where such headway mirrors ‘pure ontology’ articulation, as there is only one ontological as existential reality. This orientation and rearticulating exercise by postmodern-thought speaks rather of an assurance that they are on a solid ontological pathway just as physicists orientation and redevelopment of the ontic lines setup by the early Galileos, Newtons and Leibnizes speaks of an assurance of ontological depth, in both instances as of their existential-contextualising-contiguity knowledge-reification. Ultimately, and it is this author’s contention, the various scholarly contributions to postmodern-thought can be understood as rather pointing to the structural/paradigmatic disseminative implications of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. We can equally appreciate that much of the disseminative rational-empiricism/positivism implications of the works of such pioneers like Copernicus, Galileo, and specifically Descartes, etc. created ‘a rational-empiricism/positivism disseminative metaphoricity orientation making the human subject thinking as of mathesis universalis conceptualisation central’ reflected by Descartes ‘I think therefore I am’, and as followed and adopted to resolve various human knowledge issues by subsequent thinkers in successive generations as of human ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning wherein in their states of undecidability/aporia ‘left it’ to existence as of ontological-primemovers-totalitative-framework as the veritable

transcendental-signifier/transcendental-enabling/sublimating to ‘continually select’ rational-empiricism/positivism disseminative orientations for transcendence-and-sublimity, leading to our present refined positivism/rational-empiricism conception! But then because our present ‘positivism—procrypticism human subject is rather undecentered’ relative to the prospective postmodern—deprocrypticism self-conscious mindset we fail to truly appreciate the structural/paradigmatic disseminative implications of postmodern-thought as of the prospective exercise of ‘leaving it’ to existence as of ontological-primemovers-totalitative-framework as the veritable transcendental-signifier/transcendental-enabling/sublimating to ‘continually select’ postmodern—deprocrypticism disseminative orientations for transcendence-and-sublimity, in the same vain that the ‘non-positivism/medievalism undecentered human subject’ failed to truly appreciate the structural/paradigmatic disseminative implications of prospective positivism/rational-empiricism thought. On the other hand, recurrent conceptual patterning predispositions and orientations arise because of poor appreciation/reference for judging knowledge often as of poor institutional mechanical conceptualisation of knowledge, wherein the constraining metrics of institutional setups including strangely enough also many such tertiary institutions where poststructuralist thinkers studied-and-taught-as-outlier/unenframed-intellectuals, ‘apparently and falsely surpass existence—as-the-absolute-a-priori-of-conceptualisation’. Such institutional nombrilistic inclinations operate on the naivety that institutional processes are inherently reifying by their mere infrastructure and deferential-formalisation-transference, and set up enframed constraints that are in many ways self-defeating for the purpose of profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity. But then with regards to the social notwithstanding its high emotional-involvement disruptiveness to knowledge, more profoundly existential-contextualising-contiguity knowledge-reification here implies human displacement/decentering even though our

temporal/shortness-of-register-of-meaningfulness-and-teleology dispositions certainly have a hard time assuming the full implications of such prospectively implied transcendental meaningfulness-and-teleology. This further speaks to the fact that human knowledge is much more than distantly/remotely abstracted conceptions of meaningfulness-and-teleology of trite existential-contextualising-contiguity knowledge-reification <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity, as on critical occasions this puts the human subject itself into question; and so, as of ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen as of reasoning-through/messianic-reasoning’ even where this edges into contortioning asceticism as of nonextricatory-existential-preempting-of-existential-unthought. Such ‘pure ontology’ orientation grounded on creative existential-contextualising-contiguity knowledge-reification is ever always a ‘conflatedness holism/nested-congruence’ as it aspires to grasping and articulating meaningfulness-and-teleology as portends to the wholeness/nested-congruence of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising-purview-of-construal’; with such construal in reality rather very much as of singularisation/epistemic-immanence/veridical-epistemic-determinism rather than dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. It is thus not a surprise that many natural sciences in their ‘creative existential-contextualising-contiguity knowledge-reification’ develop as and aspire to be whole/congruent in conception, even though their concepts can be misconstrued as rather disparate but in effect are ‘operant as of wholeness/nested-congruence’. Likewise, the underlying deprocrypticism-or-preempting—disjointedness-as-of-reference-of-thought conflatedness holism/nested-congruence suprastructuralism conception herein is rather articulated as of singularisation/epistemic-immanence/veridical-epistemic-

determinism as of epistemic reflection of the ecstatic singularity of existence—as-the-absolute-a-priori-of-conceptualisation. Unlike the constitutedness rampant with human and social conceptualisations, it is important to grasp that conceptualisations in many a natural science domain tend to be naturally as of conflatedness holism/nested-congruence given their theoretical, conceptual and operant existential contiguity/congruence <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity with ‘the ecstatic singularity of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising–purview-of-construal’ implied with regards to all such seemingly ad-hoc conceptualisations being contiguously reflected across space and time’. We can consider in this regard the strongly nested-congruence/contiguity of seemingly disparate conceptualisations as force, energy, etc. in physics or hereditary and functional conceptualisations in biology; reflected as of the specifically ecstatically nested-congruence of such conceptualisations with the existential wholeness, and so more than just abstractable conceptualisations out of sync with effective nesting as of the existential wholeness. In other words, the nestedness of the conceptualisations imply that there is a natural or existential cogency-and-fluidity among the concepts, speaking-of-and-reflecting their wholeness; the implication is not necessarily that all the whole field-of-study must be grasped all at once but rather that this existential cogency-and-fluidity speaking-of-and-reflecting wholeness must insightfully be grasped before articulating existentially/ontologically pertinent conceptualisations that are equally cogent-and-fluid with the wholeness. That underlying dynamic theoretical-conceptual-operant interrelatedness speaking of singularisation/epistemic-immanence/veridical-epistemic-determinism is often very much lacking in many a social domain-of-study which ad-hoc nature of conceptualisations can easily be misconstrued as of the same wholeness/nested-congruence nature with many natural science conceptualisations. This

reality of comprehensive depth of knowledge is easily lost to ad-hoc and disparate social conceptualisations that by their constitutedness token tend to give up on the central issue of knowledge as of its wholeness/nested-congruence reflection ‘as of creative existential-contextualising-contiguity knowledge-reification’ of existence—as-the-absolute-a-priori-of-conceptualisation in its ecstatic singularity. The naivety of implied constitutedness in the social is in the expectation that the unity of disparateness of conceptualisations as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-

‘human<formative>epistemic-totalising–purview-of-construal’ will take care of itself in reflecting the ecstatic singularity of existence without human self-conscious wholeness/nested-congruence conception as of conflatedness in this respect; but then such parsimony loses more than just wholeness/nested-congruence in the sense that sound conceptualisations cannot be done without a sense of wholeness/nested-congruence in the first place, and more precisely as of ‘holistic/nested-congruence conflatedness with existence as of its ecstatic singularity’. While in many ways the natural sciences as immediately-and-directly constrained by ontological-primemovers-totalitative-framework are naturally and ad-hocly structured/paradigmed to implicitly construe wholeness/nested-congruence of conception as of ‘holistic/nested-congruence conflatedness with existence as of its ecstatic singularity’ with regards to their conceptualisations, this cannot be said of the same of the social as of the need for its self-conscious understanding of wholeness/nested-congruence conception as of ‘conflatedness with existence as of its ecstatic singularity’ given its inherent blurriness,

<formative>epistemic-totalising–self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag and emotional-involvement, in order to then achieve parallel level of ontological-primemovers-totalitative-framework knowledge conception as of singularisation/epistemic-immanence/veridical-epistemic-determinism. In effect this ontological difficulty fundamentally has to do with the inherent difficulty of

dispensing-with-immediacy-for-relative-ontological-completeness-by-

 epistemic-determinism being that as of its ‘dispensing-with-shallow-
 mathesis/motif/throwness-disposition’-for-relative-ontological-completeness-by-reification,
 as increasing prospective relative-ontological-completeness-of-reference-of-thought towards
 ontologically-uncompromised—referentialism avails, effectively the construal of the social
 assumes the requisite reproducibility—mathesis/motif/throwness-disposition,—as—
 reproducibility-of-aestheticisation
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
 wholeness/nested-congruence conceptualisation as of the conflatedness of ‘prospective

 deprocrypticism
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’, as implied by

the suprastructuralism conception herein in fully reflecting the ecstatic singularity of
 existence—as-the-absolute-a-priori-of-conceptualisation, and so over our present

 disposition,—as—reproducibility-of-aestheticisation as-of-ontologically-compromised—
 categorising positivism—procrypticism
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. Thus we can
 appreciate here that ultimately singularisation/epistemic-immanence/veridical-epistemic-
 determinism is not just artificially prompted but is rather the structural/paradigmatic
 consequence of the prospective relative-ontological-completeness-of-reference-of-thought
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument attitude/mental-
 disposition/care—and—episteme, ultimately as of prospective ontological-
 normalcy/postconvergence ontologically-uncompromised—referentialism
 deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. Our mental-
 disposition is caught up between its capacity to conceptualise as of singularisation/epistemic-
 immanence/veridical-epistemic-determinism implied prospective relative-ontological-
 completeness conflatedness and dissingularisation/epistemic-nonimmanence/flawed-
 epistemic-determinism implied prior relative-ontological-incompleteness constitutedness; and
 basically intemporal ontological-performance arises by drawing out the full
 <formative>epistemic-causality-as-to-projective-totalitative—implications,—for-explicating-
 ontological-contiguity of meaningfulness-and-teleology exclusively as of
 singularisation/epistemic-immanence/veridical-epistemic-determinism implied conflatedness
 prospective relative-ontological-completeness as it enables ‘ontological-performance to be
 utterly as of predictable structural/paradigmatic internal-necessity/determinism so-construed
 as immanence-function-conflatedness’. Thus the inherent ecstatic singularity of existence
 carries intemporal ‘immanence-functions-conflatedness <formative>epistemic-causality-as-

to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ as of singularisation/epistemic-immanence/veridical-epistemic-determinism conflatedness, while dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism constitutedness arises as of <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ontological-construal defect when naively failing to convey the ‘immanence-function-conflatedness implication’ of overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation. Thus naturalistic methodologies are only as pertinent as of their explaining of underlying background of the social as of physical and biological reality, but not as substitutive explanations as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation of social immanence as this is bound to induce constitutedness. What is misjudged by many naturalistic methodologies with regards to the social is the fact that the very reality as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation of an outright social immanence as arising from ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ as of ‘abstract cumulation of human memorisation and knowledge immanence’ is beyond the human neuropsychological background, and as human

consciousness as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation is of an altogether social and socio-psychological immanence; with the implications that a hypothetical instantaneous erasure of all humans memory and knowledge will lead to humankind's retrograding to its most basic animalistic background potential for social immanence as of the earliest of humans, speaking of an altogether substantive cumulated abstract tissue as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation social immanence built up by 'intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity' as of institutional-cumulation/institutional-recomposure. In this regard, immanence-function-conflatedness rather reflects 'the ontological-normalcy/postconvergence disposition as of ontological-completeness-of-reference-of-thought deprocrypticism point-of-departure/perspective as of its protensive self-consciousness' that fulfils-and-assumes meaningfulness-and-teleology as of singularisation/epistemic-immanence/veridical-epistemic-determinism going by its full comprehension of existence's ecstatic singularity immanence <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity, hence overcoming our positivism—procrypticism <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag mental-reflex in constitutedness that induces dissingularisation/epistemic-nonimmanence/flawed-epistemic-

determinism; and so, as of immanence-function-conflatedness insight as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation, and so-reflected the supervening-conflatedness of subject-matter epistemic-conceptions say chemistry immanence-function-conflatedness reifying-and-empowering-reflexivity-of-ecstatic-existence over physics, biology immanence-function-conflatedness reifying-and-empowering-reflexivity-of-ecstatic-existence over chemistry, neurology immanence-function-conflatedness reifying-and-empowering-reflexivity-of-ecstatic-existence over biology, mental/psychological immanence-function-conflatedness reifying-and-empowering-reflexivity-of-ecstatic-existence over neurology, social immanence-function-conflatedness reifying-and-empowering-reflexivity-of-ecstatic-existence over mental/psychological, and narrativity (hegemonising intemporal-as-ontological narrative metaphoricity as of historicity/ontological-eventfulness/ontological-aesthetic-tracing) immanence-function-conflatedness reifying-and-empowering-reflexivity-of-ecstatic-existence over social, and as of reasoning-through/messianic-reasoning immanence-function-conflatedness reifying-and-empowering-reflexivity-of-ecstatic-existence over reasoning-from-results/afterthought. Basically, immanence-function-conflatedness speaks of the counterintuitive mental-reflex for drawing out the full <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity for ‘creative understanding’/insight as of singularisation/epistemic-immanence/veridical-epistemic-determinism, going by existence’s ecstatic singularity as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation. This immanence-function-conflatedness insight is effectively what marks prospective deprocrysticism/preempting—

disjointedness-as-of-reference-of-thought as of an utterly different protensive self-consciousness from our hesitant and occlusive positivism–procrypticism self-consciousness. Hence existence’s ecstatic singularity is very much akin with the Deleuzian plane of immanence construed herein as of existence’s ecstatic singularity immanence/internal-necessity <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of singularisation/epistemic-immanence/veridical-epistemic-determinism; the ontological implication here being that ‘we are as potently transcendental as from our flawed constitutedness’ or ‘we are as potently immanent as of our virtuous conflatedness’. Immanence-function-conflatedness points out that the mental-reflex for objectifying discursivity between prospective relative-ontological-completeness and prior relative-ontological-incompleteness is fundamentally flawed as of constitutedness, as all the objectifying discursivity that is ontologically-veridical is as of the conflatedness of prospective relative-ontological-completeness over prior relative-ontological-incompleteness construed as immanence-function-conflatedness. Thus metaphoricity of non-positivism mindset ‘supposedly in an objectifying/contending discursivity’ with a positivism mindset registers as of positivism immanence-function-conflatedness reflection of the underlying non-positivism mental-disposition with regards to such issues like existential desublimation manifestations of superstition, spiritualism, etc. This same conception holds with the deprocrypticism immanence-function-conflatedness overriding the meaningfulness-and-teleology of procrypticism/disjointedness-as-of-reference-of-thought mindset ‘supposedly in an objectifying/contending discursivity’ with the deprocrypticism mindset, as the latter reflects the underlying positivism–procrypticism mental-disposition mindset with regards to existential desublimation manifestations of disjointedness-as-of-reference-of-thought. In both instances, the issue lies in the lack of a common apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for

meaningfulness-and-teleology aposteriorising/logicising/deriving/intelligising/measuring,
with immanence-function-conflatedness implying that all the meaningfulness-and-teleology
is necessarily as of the prospective relative-ontological-completeness over the prior relative-
ontological-incompleteness; respectively as of positivism and deprocrypticism. If by
anticipation we do know immanently that a non-positivism mindset is bound to a non-
positivistic-as-existentially-superstitious

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of
structural/paradigmatical internal-necessity/determinism insight from positivism immanence-
function-conflatedness with the obviousness there is no point implying an ontologically-
flawed objectifying/contending discursivity in assessing the non-positivism existentially-
superstitious inclination, the same implication will extend to deprocrypticism immanence-
function-conflatedness as of structural/paradigmatical internal-necessity/determinism insight
with regards to anticipating the disjointedness-as-of-reference-of-thought
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument mindset of our
positivism–procrypticism mental-disposition with no pretence of such a positivism–
procrypticism ontologically-flawed objectifying/contending discursivity in assessing the
disjointedness-as-of-reference-of-thought inclination. In other words, immanence-function-
conflatedness is all about reflecting the straightforwardness of ontological-primemovers-
totalitative-framework as of singularisation/epistemic-immanence/veridical-epistemic-
determinism in arriving at ontological-veridicality over the human mindset flawed-and-naive
predisposition to make of its objectifying/contending discursivity as
structurally/paradigmatically deterministic by mere mental-reflex of naively elevating prior
relative-ontological-incompleteness meaningfulness-and-teleology as if of prospective
relative-ontological-completeness

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Immanence-

function-conflatedness equally highlights knowledge as of its essential organic construct implications. As a constitutedness predisposition tends to imagine that knowledge is basically a cumulative exercise to an already soundly structured/paradigmed mindset, but nothing could be farther from the truth as knowledge is really an exercise of re-forming-or-reshaping-as-transforming the structuring/paradigming of the mind. In other words, it is rather vague to ‘surreptitiously sneak in supposedly positivism knowledge’ into an unquestioned/unchallenged non-positivism mindset, as at best the outcome will be simply a further complexification of the non-positivism mindset apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as with such a reflection as ‘God of plane’ in a non-positivism animistic social-setup, speaking of non-positivism complexification and not positivism knowledge acquisition. This is effectively what validates the notion of the ‘decentering of the human subject’ as central to the very notion of organic knowledge as it enables prospective transcendence-and-sublimity as of prospective relative-ontological-completeness-of-reference-of-thought. Such a ‘decentering of the human subject’ implies that the false ontological-certitudes of the non-positivism mindset as of its non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument are necessarily ironically trampled-upon in the discourse of positivism organic knowledge in a non-positivism social-setup. For instance, walking into the evil forest to retrieve a plant cure with induced curing eliciting psychoanalytic-unshackling with respect to the non-positivism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as its superstitious value-reference structure is shown to be inadequate given that it is the violation of that non-positivism value-reference that is what carries the potential for its prospective emancipation into-and-as-of-the-implications-of a prospective positivism mindset. Thus organic knowledge as of its transcendental implications cannot imply that the

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of a prior relative-ontological-incompleteness-of-reference-of-thought is an appropriate framework for prospectively implied reference-of-thought knowledge acquisition. Likewise, it is herein contended that similarly a deprocrypticism contortion reifying gesture necessarily questioning our positivism–procrypticism disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for the possibility of psychoanalytic-unshackling implications as of the ‘decentering of the human subject’ is the necessary organic knowledge for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought transcendence. The implication of organic knowledge conception is that the state of recurrent-utter-uninstitutionalisation by its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument fails the objectifying/contending discursivity as of prospective base-institutionalisation immanence-function-conflatedness, likewise does base-institutionalisation–ununiversalisation fails as of prospective universalisation immanence-function-conflatedness, universalisation–non-positivism/medievalism fails as of prospective positivism immanence-function-conflatedness, and prospectively positivism–procrypticism fails in futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism immanence-function-conflatedness; so-implied as of singularisation/epistemic-immanence/veridical-epistemic-determinism reflection of existence’s ecstatic singularity. Hence ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of

difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity' implied organic knowledge is ever always as of the structural/paradigmatic internal-necessity/determinism of prospective relative-ontological-completeness-reference-of-thought as of immanence-function-conflatedness, with the pretence of prior relative-ontological-incompleteness-of-reference-of-thought for objectifying/contending discursivity nothing more but flawed <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag temporal meaningfulness-and-teleology. The study of the social as of immanence-function-conflatedness insight grasp that the blurriness, <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag and remoteness of cause-and-effect invoke a more refined conception of ontological-primemovers-totalitative-framework as reflecting existence/intrinsic-reality/ontological-veridicality. Such a refinement while cognisant of the pertinence of falsifiability and validation is more in line with the Lakatosian research-programme perspective given the complexity of the social just as many a complex domain in the natural sciences in effect assume the research-programme epistemic model; consider that while the natural sciences are generally more amenable to strong immediate cause-and-effect determination, such complex studies like string theory in physics, medical research, etc. tend to assume in effect the research-programme epistemic model. The underlying insight here is that many a complex study purview as well as the study of the social given its poorly constraining immediate cause-and-effect determination, renders knowledge validation more of a 'construct of comprehensive-coherence and competitive claim to ontological pertinence as of extensive research-programme implications', but this should however implicitly reflect concurrently the underlying notions of falsifiability-or-deferring-falsifiability and validation-or-deferring-validation. It is herein contended that it is

the implicated orientation of many post-structuralists thinking as of the research-programme epistemic model as articulated herein that renders their thought scientifically credible and pertinent as such scholars like Foucault, Derrida, Deleuze, to cite just these few have turn out to be the dominant scholarly-cited authors in the general humanities, and so precisely because of the very thorough existential-contextualising-contiguity knowledge-reification in their scholarly output, and paradoxically so over purported scholarly approaches ‘supposedly of a more scientific methodology but when evaluated as of such authorial scholarly comprehensive research-programmes’ turn out to be of weaker existential-contextualising-contiguity knowledge-reification. This insight equally informs this author’s conviction that it is ultimately as of such comprehensive research-programme epistemic model as articulated herein and its further existential-contextualising-contiguity knowledge-reification, as well as existential-contextualising-contiguity knowledge-reification as of the disposition for advancing the metalevel transversality-of-disambiguated-apriorising/axiomatising/referencing foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’) of the ‘structural/paradigmatic disseminative implications of postmodern and other human sublimation-inducing—textuality/hermeneutics/possibilities-of-becoming-existential-interpretation/axiomatisation-of-existence’ thought, that the ontological-pertinence assumes ontological-primemovers-totalitative-framework unassailability; and so, not for the mere sake of research-programme extensiveness but as of its internal constraining to falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as of existential-contextualising-contiguity knowledge-reification as implied by the articulation of authenticity herein as of reasoning-through/messianic-reasoning attitude/mental-disposition/care—and—episteme ‘implication of ontological-primemovers-totalitative-framework’, on the basis that the very first epistemic frontier for ontological-pertinence lies with the scholarly developed

creative insight for existential-contextualising-contiguity knowledge-reification as knowledge. Ultimately, postmodern-thought has been unassailable to vague scepticism and ontological-bad-faith/inauthenticity criticism exactly because of its strong scholarly research-programme existential-contextualising-contiguity knowledge-reification, and thus an immanence-function-conflatedness insight in the study of the social as of its inherent complex nature is certainly justified to adhere to a research-programme epistemic model as herein articulated. In another respect, while intellectualism as of organic knowledge implications in many ways commands massive social deference and adherence, it is equally important not to naively assume that at uninstitutionalised-thresholds, human existential-investment as of its temporality/shortness cannot be predisposed to anti-intellectualism, as this insight is pertinent in the sense that transcendental knowledge is articulated mostly as of its undermining of human temporal existential-investment. The bigger point here being that the possibility of prospective transcendence lies in upholding-and-defending authentic intellectualism even as of metaphoricity beyond <formative>wooden-language-{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} socially intelligible meaningfulness-and-teleology conceptualisation in <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. Metaphoricity as such ironises on social intellectual nihilism as it is bent on undermining any temporality/shortness as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality solipsistic intemporality/longness parrhesiastic askance, and as of immanence-function-conflatedness ‘highlights and keeps wide-opened the prospect’ for prospective authentic intellectualism by undermining its blending with inauthentic untransvaluated—temporal-intemporality

manifestations that usurp and undermine human transcendence. Further, while ‘human projected conception of knowledge cumulation’ seems to be ever always ‘perceived absolutely as within an only same institutionalisation reference-of-thought’, with their merits at least for expanding human mastery of its environment at their given level as well as their defects as of undermining the possibility for prospective knowledge, for instance as of the animistic social-setup to perceive its animistic knowledge system as absolute, as of the medieval/non-positivism social-setup to perceive its medieval scholasticism as absolute or as of our positivism–procrysticism social-setup to perceive our positivism–procrysticism humanistic knowledge system as absolute; it is immanence-function-conflatedness by its implied internal-necessity construct that best reflects the reality of human knowledge cumulation by the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology conception, recognising the underlying retrospective and prospective epistemic dynamics behind knowledge as of protracting self-consciousness over the cloistering self-consciousness of falsely absolutising specific registry-worldviews/dimensions reference-of-thought. With such immanence-function-conflatedness insight, the epistemic and methodological pretences as of our humanistic positivism–procrysticism are evaluated on their true merits, and such an evaluation reveals that such epistemic and methodological pretences while ‘developed institutional practice’ are just that as-more-or-less-mechanically-institutionalised, and that critically from a deeper perspective the reality is that it is the research-programme as articulated above that underlies human knowledge cumulation, and so as of the competitive evaluation of various epistemic and methodological commitments made in immediacy and their ultimate prospective evaluation as of their research-programmes productive outcomes. The research-programme as such can be reconstrued as the reevaluation of any propounded

knowledge and epistemic paradigms as of their ultimate existential-contextualising-contiguity
 knowledge-reification as knowledge; such that the immediacy of contention of
 appropriateness of epistemic and methodological approaches is less critical, as ultimately all
 knowledge constructs and their epistemic and methodological commitments face their long
 term bottomline reevaluation as to their relative existential-contextualising-contiguity
 knowledge-reification as knowledge construed as their research-programmes. This speaks of
 the fact that such a conception of epistemic commitment as of research-programme is
 effectively one of epistemic singularisation/epistemic-immanence/veridical-epistemic-
 determinism so-implied as of ontological-normalcy/postconvergence associated with
 ontologically-uncompromised—referentialism deprocrypticism; and very much overcoming
 the limiting effect of our present conception of epistemic commitment as rather
 dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as of
 ontologically-compromised—categorising positivism—procrypticism. Thus, if immanence-
 function-conflatedness reveals that it is the ‘projected research-programme of any given
 knowledge construct as of its prospective relative existential-contextualising-contiguity
 knowledge-reification’ that is its preeminent epistemic and methodological validation,
 ‘pretences of pre-given epistemic predispositions’ that do not attend pertinently and similarly
 to prospective relative existential-contextualising-contiguity knowledge-reification are
 nothing more but <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag predispositions that pretend to supersede
 existence—as-the-absolute-a-priori-of-conceptualisation, and institutionalised, such
 <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag predispositions may actually be
 structurally/paradigmatically stifling for the possibility of prospective knowledge and
 transcendence, and more seriously so where the possibility of varied research-programme

choices are difficultly entertainable without institutional backing for research needing major funding and/or resources. Finally, the research-programme epistemic model attends to the social as of the reality of human emotional-involvement by its extensiveness. Consider that many a transformative natural science idea have certainly been ‘supposedly gross conceptualisations’ but with varied social responses as of their given social epoch sensitivities; consider in this regard Copernicus and Galileo heliocentric world argument eliciting social sensitivities then and equally stark physics ideas at the beginning of the last century with relativity and quantum mechanics hardly eliciting any social sensitivities, rather as of the disarming effect on conventioning simply on the basis of their matter-of-fact cause-and-effect. In many ways the prospect of prospective knowledge very much lies with a shakeup of the social ‘sense of presence’ and this is not contradictory in the sense that if the present was all that great then its very transcendence wouldn’t be occurring, and so existence/intrinsic-reality/ontological-veridicality warrants that transcendence occurs as to conflict with the naïve social ‘sense of presence’ as absolute, and so because it is all about the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising-purview-of-construal’ but with contrastive underlying relative-ontological-incompleteness/relative-ontological-completeness. It is quite absurd to think that the possibility of prospective human transcendence especially, as of our apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, lies wholly within the ambit of our ‘sense of presence’ agreeableness; as this rather speaks of the framework of our limited certitudes as this limits/stifles the possibility of further profound existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity. While today that notion of contrariety has in many ways sanked in and been accepted with natural science knowledge especially so as it hardly elicits social emotional-involvement, the fact of the matter is that the possibility of the profound study and emancipation of the social

inevitably comes with a contrariety of our social ‘sense of presence’. Just as the ‘decentering of the subject’ was what brought about the positivistic mindset today that allowed for modern day science to develop and just as well modern day social science, it is inevitable that a further development of human knowledge as of its organic knowledge construct warrants a further ‘decentering of the human subject’ as implied by deprocrypticism/preempting—disjointedness-as-of-reference-of-thought; and justified by the fact that if previous generations had to undergo their psychoanalytic-unshackling for prospective institutionalisation, we can only ever be pushed into the corner of our intellectual nihilism when we seem to pretend that we are beyond the prospect of our transcendence. Immanence-function-conflatedness analytical implications equally arise as of the ‘countervailing transversality-of-disambiguated-apriorising/axiomatising/referencing relation induced as of ontological-primemovers-totalitative-framework’ between ‘existence/existential-possibilities as the selecting transcendental-signifier/transcendental-enabling/sublimating’ and ‘the ever developing human limited-mentation-capacity as of its deepening from relative uninstitutionalised-threshold to relative institutionalisation so-construed as prospective institutionalisation dissemination’, as this transversality-of-disambiguated-apriorising/axiomatising/referencing is exactly what validates epistemic-veracity as of prospective relative-ontological-completeness as relevant for the protracted-consciousness of notional-deprocrypticism. Thus for such a notion of research-programme as articulated herein rather than just implying mere epistemic latitude/anarchy, it speaks instead of the construal/justification of epistemic-veracity as of precedence of prospective relative-ontological-completeness <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity, and so as of the structural/paradigmatic implication of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Thus prospective

relative-ontological-completeness is inherently bound with its very own epistemic <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity as of the ‘decentering of the human subject’ involved in knowledge-reification. This inherently projects a ‘practical picture of human epistemic determination’ of ‘maximal disseminative human epistemic articulations at relative uninstitutionalised-threshold’ and ‘minimum select human epistemic articulations at prospective institutionalisations’, and so as of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating transversally induced ontological-primemovers-totalitative-framework selective epistemic-veracity transcendence-and-sublimity. In this regard and at the general epistemic level of reference-of-thought-devolving, we can appreciate the massively shrunk epistemic-veracity possibilities available for our present positivism credible construal of ontological-veridicality over the epistemic-veracity possibilities previously available for non-positivistic social-setups credible construal of ontological-veridicality as of their full existential cognition of superstition, witchcraft, spiritualism, etc., and their social implications; and this reflects the very fact that ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ is one associated with increasing thinning out of epistemic-veracity as of prospective relative-ontological-completeness <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity induced from ontological-primemovers-totalitative-framework. Central to such epistemic-veracity thinning out is the very essential process behind increasing ontological-contiguity—of-the-human-

institutionalisation-process which is deferential-formalisation-transference. Besides deferential-formalisation-transference associated epistemic-veracity relevance for institutional construction and institutional rules of critical importance for human organisation like political and legal institutions, such deferential-formalisation-transference associated epistemic-veracity has been inherently of strongest relevance in knowledge domains more easily amenable to ontological-primemovers-totalitative-framework and low emotional involvement like the natural sciences but weakly so inherently in many a social domain-of-study not readily amenable to strong ontological-primemovers-totalitative-framework and of high emotional involvement, and as such social domains practically tend to get into amalgamation with the extended-informality as of its deficient <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) epistemic impertinence. Prospective notional-deprocrypticism necessarily implies a further epistemic-veracity thinning out as of its prospective relative-ontological-completeness-of-reference-of-thought associated ontological-primemovers-totalitative-framework, with the implication that our positivism-procrypticism uninstitutionalised-threshold epistemic-veracity is in many ways construed as of epistemic impertinence at its disjointedness-as-of-reference-of-thought uninstitutionalised-threshold and superseded by futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism disseminative epistemic-veracity and so as the prospective epistemic-veracity thinning out outcome of existence/existential-possibilities as the transcendental-signifier/transcendental-enabling/sublimating determinant selector as of the deprocrypticism/preempting—disjointedness-as-of-reference-of-thought disseminative research-programme coherence and ontological-contiguity. The idea being that the

deprocripticism epistemic-veracity as of such disseminative research-programme coherence and ontological-contiguity equally imply an underlying falsifiability-or-deferred-falsifiability and validation-or-deferred-validation as a constraint to the social domain-of-study meant to render it more thoroughly amenable to ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity capable of reflecting the unassailability of the most transversally profound theorisations and conceptualisations on the basis of their demonstrable operant implications as of existential-contextualising-contiguity knowledge-reification for transcendence-and-sublimity. Such a deprocripticism epistemic-veracity implication is pertinent because blurriness and un-disambiguation underlies the indecision and relative impertinence in many an instance of social knowledge conception that is not thoroughly subjected to ontological-primemovers-totalitative-framework, such that it is obvious to all that the epistemic-veracity as of existence/existential-possibilities selective function of ontological-primemovers-totalitative-framework as developed in the natural sciences tends to be poorly developed in many a domain-of-study of the social. In this regard, we can appreciate for instance in the physics and other natural sciences <formative>epistemic-totalising-devolved-purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality, the ‘thin epistemic-veracity line’ arrived at transversally as of concurrent cause-and-effect determinations that allows for developed singular or near-singular comprehensive explanations of phenomena ‘discarding the demonstrably impertinent conceptions’, while in contrast with many a domain-of-study in the social, without necessarily implying this as all-encompassing but still critically and substantively so, such a spearheading towards the ontologically decisive is lost/obliterated in an approach driven by theoretical and conceptual mutuality/equilibrium rather than a transversality-of-disambiguated-apriorising/axiomatising/referencing constraining to the ‘superior party’ that is

existence/existential-possibilities, and thus specifically giving room for many an instance of obvious muddlement as well as ontological-bad-faith/inauthenticity with a corresponding relative passivity to social issues and problems as if institutional-being-and-craft was an end in itself as structurally/paradigmatically knowledge certifying. Furthermore, while the idea of falsifiability and validation have traditionally been associated with the fundamental research methodologies of experimentation and observation, however the complex nature of social phenomena and even some natural science phenomena has dragged out the epistemic-veracity of the scientific methodology. Such that what increasingly underlies the scientific methodology is more extensive as of the reflection of pertinent phenomenality experimented or stated or demonstrated, by the coherence and implied ontological-contiguity of observations, conceptualisations and predictions, in their conflatedness holism/nested-congruence or how these conflate as of prospective relative-ontological-completeness with existence—as-the-absolute-a-priori-of-conceptualisation. Ultimately, the contrastive epistemic-veracity of theoretical and conceptual articulations rather lies with regards to their existential-contextualising-contiguity knowledge-reification as of their critical operant implications and unmuddled conceptions. Furthermore, the deprocrypticism epistemic-veracity implies a further extension of deferential-formalisation-transference as of less predisposition to extended-informality <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>).

With the <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity that the deprocrypticism/preempting—disjointedness-as-of-reference-of-thought extended-informality requires an organic-knowledge type of pedagogy based on eliciting an ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing-as-so-being-as-of-existential-

reality solipsistic sense-of-things, over the usual mechanical-knowledge type of pedagogy which is rather based on eliciting positive-opportunism sense-of-things. This is critical because the deprocrypticism reference-of-thought warrants a more originary/as-of-event mental-disposition ‘beyond just responsiveness to secondnature institutionalisation’ but equally the capacity to assume the <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen behind the ‘inventing’ as of reasoning-through/messianic-reasoning with respect to ‘upholding and defending ontological-veridicality beyond constraining-and/or-secondnature institutionalisation framework’ as well as actually perpetuating prospective ontologically-veridical sublimation-as-of-deprocrypticism-immanent-implications, and so as of a fundamental mental-disposition for perpetually preempting—disjointedness-as-of-reference-of-thought. With the foregoing immanence-function-conflatedness insight, of most critical importance and decisiveness as structurally/paradigmatically anchoring futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism meaningfulness-and-teleology is the need for a deprocrypticism reconceptualised conception of the human construction-of-the-Self. In this regard, we can appreciate critically that hitherto and as of a natural human predisposition to <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, the psychology traditions have tended to ad-hocly construe construction-of-the-Self as of a human-subpotency flawed absolutising epistemic reference, and so over an existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ absolutising epistemic reference, specifically as so-construed from

our positivism–procrypticism registry-worldview/dimension flawed absolutising epistemic reference. The fact that existence/intrinsic-reality/ontological-veridicality precedes human-subpotency thus questions the veracity of the ontological orientation of traditional psychology/psychoanalysis; wherein ‘the human psychology of absolutising epistemic reference is wrongly conceived as of ontological-normalcy rather than as of epistemic-abnormalcy/preconvergence’ considering the necessarily decontorting human-subpotency psyche on the constraint of our ontologically-compromised reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation as of our <formative>epistemic-totalising–throwness-in-existence. The implication here is that we cannot have a human-subpotency flawed absolutising epistemic reference that as of human-subpotency can surpass the ontological-veracity of the full-potency of existence/intrinsic-reality/ontological-veridicality as absolutising epistemic reference as of ontological-normalcy/postconvergence, and so given human-subpotency prior relative-ontological-incompleteness implied flawed prospective ontological-performance. Such a human-subpotency flawed absolutising epistemic reference for meaningfulness-and-teleology can be construed as of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’; as of ‘human-subpotency temporality/shortness flawed absolutising epistemic reference’ as it induces flawed ontological-performance as by its <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag it ‘wrongly seem to advantageously substitute’ for the potent as intemporal absolutising epistemic reference ontological-performance of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’/intrinsic-reality/ontological-veridicality. It is this construction-of-the-Self human-subpotency deficiency element construed as ‘human akrasia-susceptibility-or-

akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex' that raises-the-charge-that-and-reflects-the-notion-that the mental-disposition of recurrent-utter-uninstitutionalisation is structurally/paradigmatically bound to fail the ontological-performance of base-institutionalisation mental-disposition, that of base-institutionalisation–ununiversalisation will likewise fail as of universalisation mental-disposition, universalisation–non-positivism/medievalism will likewise fail as of positivism mental-disposition, and prospectively our positivism–procrypticism will likewise fail as of deprocrypticism mental-disposition. This element of the dynamic evolution of the human psyche and the underlying instigative agency, herein articulated as 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex', is mostly lost to traditional psychology that doesn't register our own positivism–procrypticism prior relative-ontological-incompleteness-of-reference-of-thought as of an ontological-normalcy/postconvergence/referentialism notional-deprocrypticism perspective of analysis as of singularisation/epistemic-immanence/veridical-epistemic-determinism. We can perceive the '<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–qualia-schema' associated with akrasia-susceptibility-or-akrasiatic-drag complex only from the perspective of prospective relative-ontological-completeness-of-reference-of-thought, and so as of the latter's difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism as from the ontological-congruity of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, as it reflects-and-contemplates of the uninstitutionalised-threshold of the prior relative-ontological-incompleteness-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, whereas the prior relative-ontological-incompleteness-reference-of-thought mental-disposition reflects its

uninstitutionalised-threshold as a nondescript/ignorable void (actually speaking of akrasiatic-
 drag-denatured-and-dementing-or-preconverging-narratives) of notional-
 discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging-
 qualia-schema> by 'resetting its
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument which is flawed
 at its uninstitutionalised-threshold' thus taking a flawed posture of identitive-constitutedness-
 as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism of
 notional-discontiguity/epistemic-discontiguity-<mentally-
 aestheticised_dementing/preconverging-qualia-schema>. Such akrasia-susceptibility-or-
 akrasiatic-drag complex '<formative>epistemic-totalising/circumscribing/delineating
 dementing/preconverging-qualia-schema' is reflected as of the '<formative>epistemic-
 totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the prior
 relative-ontological-incompleteness-reference-of-thought
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as
 mathesis/motif/thrownessdisposition-at-its-uninstitutionalised-threshold'. Consider the
 akrasia-susceptibility-or-akrasiatic-drag complex '<formative>epistemic-
 totalising/circumscribing/delineating dementing/preconverging-qualia-schema' from a
 prospective positivism/rational-empiricism
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in this regards,
 with respect to 'God of plane' type of expression in an animistic/base-institutionalisation
 setup wherein their fundamental
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument psychologism
 is so ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is
 inevitably reconstrued/devolved in the animistic/base-institutionalisation
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reference-of-

thought psychologism of meaningfulness-and-teleology in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with its uninstitutionalised-threshold as a nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-or-preconverging-narratives) whereas such a representation as a nondescript/ignorable void wouldn't be recognised from the positivism/rational-empiricism perspective as of its prospective relative-ontological-completeness-of-reference-of-thought. Likewise, as of prospective insight, the nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-or-preconverging-narratives) we imply as of our positivism–procrypticism disjointedness-as-of-reference-of-thought is certainly prospectively contemplatable in futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism reflection of our akrasia-susceptibility-or-akrasiatic-drag complex ‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–qualia-schema’ of positivism–procrypticism disjointedness-as-of-reference-of-thought in ‘<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism from the deprocrypticism ontological-contiguity, whereas from our positivism–procrypticism perspective we'll tend to a ‘resetting of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ of positivism–procrypticism in ontological-disconguity as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. This expansion of the traditional notion of akrasia, as akrasia-susceptibility-or-akrasiatic-drag complex is rather as of the perspective of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-

epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism ‘notional preempting—disjointedness-as-of-reference-of-thought’/notional-deprocrypticism and not as of ontologically-compromised human-subpotency epistemic/notional_projective-perspective; and is articulated more completely to reflect ontological-performance as of the the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construal/conceptualisation with respect to prospective relative-ontological-completeness <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity in accounting for human differences of ontological-performance. It is herein contended that such a traditional psychology approach to construction-of-the-Self is constituted as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism. Thus the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ refers to the mental dispositional state of structural/paradigmatic rationalised-closedness-of-ontological-performance-of-the-self ‘as bound to define-and-shape any given registry-worldview’s/dimension’s specific ontological-performance-and-vices-and-impediments’. Rather an ontologically-veridical construction-of-the-Self is necessarily in conflatedness as of the intemporal absolutising epistemic reference of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ constrainous-implications-over-human-subpotency so-implied as of ontologically-uncompromised ontological-normalcy/postconvergence/referentialism and construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. Such a conflatedness construction-of-the-Self is one that is structurally/paradigmatically enframed in grasping the ‘notional dissonance/consonance of human superego and existence-potency-prospective-digression-of-‘<formative>epistemic-

totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’’, as it construes of human-subpotency reference-of-thought given level of ontological-veridicality-commitment/aetiologisation/ontological-escalation/otherliness implications; and so as devolvingly thereof, construction-of-the-Self is the individual autonomous ecstatic/existential registering, contemplating, responding, conceptualising, articulating, effecting and acting-out of its social meaningfulness-and-teleology as of the <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of living-development–as-to-personality-development, institutional-development–as-to-social-function-development and Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Thus fundamentally the <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and orientations underlying construction-of-the-Self as of a deprocrypticism conception is rather transformative, in reflecting its protensive-consciousness insight of varied human constructions-of-the-self as of institutional-cumulations/institutional-recomposures with successive registry-worldviews/dimensions human-subpotency reference-of-thought induced recurrently from the instigative <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics. Thus, what critically stands out from traditional psychology as inducing such a novel differentiated and transformative articulation of construction-of-the-Self is the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. Interestingly, many a traditional take on the notion of akrasia, construed herein as akrasia-susceptibility-or-akrasiatic-drag complex, like the Socratic argument of its non-veridicality strangely enough rather confirms its veridicality, in the sense that such arguments are being made from the

perspective of human-subpotency, which is exactly the irrelevant perspective for ontological-veridicality articulation. Consider the idea that a cholera epidemic that was to occur say in 100 B.C. will not stop from occurring because human beings did not know of notions-of-bacteria-as-causing-diseases-and-instead-believed-in-bad-omen-for-not-making-the-right-sacrifices-or-so-so-and-so; as existence/intrinsic-reality/ontological-veridicality will not factor in such a state of 'human-subpotency in its <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag', and adjust to it by stopping such an epidemic. This is exactly why ontologically-veridical meaningfulness-and-teleology implies a displacement/decentering-of-the-human-subject with its emancipation arising as of its submitting to the 'superior party' that is existence/intrinsic-reality/ontological-veridicality as is falsifiable and can be validated by ontological-primemovers-totalitative-framework. Thus intemporal ontological-performance ever always warrants human prospective relative-ontological-completeness-of-reference-of-thought for empowering and responsible meaningfulness-and-teleology for transcendence-and-sublimity. Thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance arises as of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its 'seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity'. Can we wish that we don't have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren't intellectually-and-morally accountable then? How can we

reconcile the fact that given human <formative>epistemic-totalising–thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance as of human <formative>epistemic-totalising–thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. It is this insight that validates the ontological-veracity of the conception of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’, and it is inherently so-validated as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism

 psychoanalytic pertinence of human akrasia-susceptibility-or-akrasiatic-drag complex, so-
 implied as 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-

 but rather indirectly as of its ontologically-flawed perspective as of human-subpotency

<formative>epistemic-totalising–self-referencing-

 traditional psychology fails a theoretical-conceptual-operant accounting for the changing
 construction-of-the-Self, as reflected by the fact that ‘intemporal ontological-faith-notion-or-
 ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–

as-so-being-as-of-existential-reality instigating recurrent shot for prospective relative-ontological-completeness as reasoning-through/messianic-reasoning enabling in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ brings about successively weaker degenerative constitutedness ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’, with increasing ontological-performance as of the successive registry-worldviews/dimensions reference-of-thought. The implied psychoanalysis is one that propounds that all the psychoanalysis that is ontologically-veridical is rather as of the ‘displacement/decentering of human-subpotency epistemic/notional_projective-perspective towards the realisation of the full existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ epistemic perspective’ in order to induce transcendence-and-sublimity, so-construed as superegoic cleansing as of living-development—as-to-personality-development, institutional-development—as-to-social-function-development and Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in dispensing-with-immediacy-for-relative-ontological-completeness/contemplative-distention; as of a prospective psychoanalysis rather constrained to existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism ‘notional preempting—disjointedness-as-of-reference-of-thought’/notional-deprocrypticism. We can fundamentally appreciate that just in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is associated

with epistemic-veracity foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’) with the increasing existential ousting of superfluous notions like superstitions, etc., likewise ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ as of prospective relative-ontological-completeness epistemically shrinks with the ontological-contiguity—of-the-human-institutionalisation-process. That is, in reflecting the ontological-contiguity—of-the-human-institutionalisation-process epistemic-veracity of foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’) constraining, the ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ for everyday existential occurrences as of meaningfulness-and-teleology ‘is of less-and-less-degenerate epistemic-veracity prompting’, and so successively as from:

This reality in reflecting the ontological-contiguity—of-the-human-institutionalisation-process very much explains the statement ‘I know that I know nothing’ made by Socrates reflecting his conception of anamnesis, as the state of human limited-mentation-capacity implies that it is foolhardy to articulate in presencing—absolutising-identitive-constitutedness terms meaningfulness-and-teleology as of absolutising reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation but rather ‘the anamnesis of meaningfulness-and-teleology reflects prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation as of recurrent transepistemic renewing of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ (and so, in reflecting the ontological-contiguity—of-the-human-institutionalisation-process <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,—for-explicating-ontological-contiguity). This explains why Socrates construed knowledge as virtue, given that what approaches absolutising capacity in the human is rather the ‘sense-of-right-orientation with regards to human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint of existentially-becoming-and-developing phronetic/practicality situations as to existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,—re-perception,—re-thought-in-epistemic-conflatedness’’ (with anamnesis so-construed as ‘<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness

mental-disposition') and not any presencing—absolutising-identitive-constitutedness as reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation. This in many ways explains many a critic misinterpretation of a rift between Socrates and Plato as of their emphasis on anamnesis and the forms/ideas on the one hand and Aristotle on the other hand as of his phronesis/practicality emphasis (on the basis of the specific universalising-idealisation phronetic/practicality situations as to its defining existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,—re-perception,—re-thought-in-epistemic-conflatedness’). The fact is that Socrates (and as momentarily reflected in his abhorrence of writing as of his focus on the ‘very spirit-of-things in his pedagogy’ over ‘mere reproducing by writing that is not necessarily pedagogically instructive’, and thus not contradictory with Plato’s writing as of recording-for-posterity) and Plato were more engaged with establishing overall philosophical insight beyond just their universalising-idealisation renewed reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation over non-universalising sophistry (even as their association of anamnesis with mythical recollection was caught up in the universalising-idealisation apriorising/axiomatising/referencing—psychologism but by the practical demonstration is relevant in all registry-worldviews/dimensions as of the example articulated as well herein by this author with regards to a child’s solipsistic sense of meaning wherein after grasping the rules of additionality even a deliberately collective social misleading will not derail the child’s true sense of meaning) as they factored that any such renewal is being undertaken phronetically/practically with human limited-mentation-capacity that is not of absolutising conceptualisation, speaking prospectively of destructuring-threshold-of-ontological-performance, and thus what is more profoundly critical is knowledge-reification as of the transepistemic implications of human limited-mentation-capacity-deepening-

<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). Aristotle as successor to their thought effectively had to move on to more fruitfully and complementarily elaborate phronetically/practically the implications of universalising-idealisation meaningfulness-and-teleology infrastructure as of science, practical-virtue, rationality, etc., rather than just theoretically reiterating his predecessors, and as such phronesis as of reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation is what induces existential-contextualising-contiguity and thus allows prospective <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness insight for further human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) (as to ‘coherence/contiguity-of-superseding-oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’, so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides the existentially inherent human-subpotency potential) leading to further superseding/transcendence as of prospective reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation. But the fact is there is comprehensive coherence in the philosophical articulations of the three thinkers when construed with this comprehensive philosophical knowledge-reification projection insight. In other words, Socratic anamnesis anticipates the implications of knowledge as virtue in the sense that human knowledge-reification, and so in all domains without exception, is one of a dynamic complementary relationship between <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness and phronesis

existential-contextualising-contiguity in order to grasp ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence> as so reflected with prospective originariness-parrhesia,—as—spontaneity-of-aestheticisation for renewed reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation. In this regards, Socratic philosophy as of its knowledge is virtue contention recognises that the impression-driven/good-naturedness/wishfulness of any given reproducibility—mathesis/motif/thrownness-disposition,—as—reproducibility-of-aestheticisation whether as of non-universalising sophistry or even prospective Socratic philosophers universalising-idealisation is not sufficient to ‘absolutely capture’ ecstatic-existence-as-transcendental-signifier—becoming-spontaneity-implications-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’–as-to-the-ontological-normalcy/postconvergence-projective-perspective,-to-which-latter-human-subpotency-projectively-conflates-to-in-order-to-overcome-our-prospective-epistemic-abnormalcy/preconvergence>, and that such a possibility lies in perpetual knowledge-reification disposition as of the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework. Thus Socratic philosophy as of its very ‘anamnesis core implications’ doesn’t only supersedes prior non-universalising sophistry with universalising-idealisation but it can equally be said that it anticipates prospective positivism/rational-empiricism phronesis existential-contextualising-contiguity as it reconceptualises science, practical-virtue, rationality, etc. in superseding universalising-idealisation phronesis

existential-contextualising-contiguity at the latter's destructuring-threshold-of-ontological-performance, as well as anticipate the overall human institutional process as herein conceptualised as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of phronesis existential-contextualising-contiguity.

In concrete terms, we can contrastively construe of such akrasia-susceptibility-or-akrasiatic-drag complex ' <formative>epistemic-totalising/circumscribing/delineating dementing/preconverging-qualia-schema' existential desublimation manifestation of meaningfulness-and-teleology as of both a universalisation-non-positivism/medievalism and our positivism-procrypticism registry-worldview/dimension with regards to 'mental-dispositions of general social living, institutional and Being ontological-bad-faith/inauthenticity geared to undermine ontological-veracity'; but then the positivism-procrypticism perspective as of its prospective relative-ontological-completeness will be less complexed in identifying the mental flaw of the universalisation-non-positivism/medievalism manifestation of akrasia-susceptibility-or-akrasiatic-drag complex ' <formative>epistemic-totalising/circumscribing/delineating dementing/preconverging-qualia-schema' as of the former's <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as it underlies non-positivism dementing-or-preconverging-apriorising-psychologism acts 'like say a plot to accuse someone of sorcery' than its own akrasia-susceptibility-or-akrasiatic-drag complex ' <formative>epistemic-totalising/circumscribing/delineating dementing/preconverging-qualia-schema' as of its <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag underlying nondescript/ignorable void (actually speaking of akrasiatic-drag-denatured-and-dementing-or-preconverging-narratives)

of its dementing-or-preconverging—apriorising-psychologism acts of disjointedness ‘say like a plot to frame-up someone’; as the latter on occasion as of a positivism—procrypticism <formative>wooden-language-⟨imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument contemplation may be construed as smart while it construes of the former as abhorrent, but then not factoring in its own abhorrence from futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism/disjointedness-as-of-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument contemplation. This point out the ontological-veracity for avoiding the absolutising/presencing—absolutising-identitive-constitutedness referencing of psychology/psychoanalysis as of any human-subpotency epistemic/notional_projective-perspective in prior relative-ontological-incompleteness-of-reference-of-thought as of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema>, and the critical pertinence in this regard of the notion of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’ as it reflects a more profound and fuller construct of the human psychological potency as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism in ontological-contiguity as from existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism;

relative-ontological-incompleteness. Thus more critically prospective transcendence is induced as of the displacement/decentering-of-the-human-subject in its prior relative-ontological-incompleteness

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and so as of epistemic-ricochetting/transepistemicity reasoning-through/messianic-reason metaphoricity that exploits the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ which opens it up to prospective intemporal-as-ontological metaphoricity. The reality thus is that prospective transcendence from a presencing—absolutising-identitive-constitutedness perspective is not actual meaningfulness-and-teleology but rather such is rather acting as a constrained metaphoricity upon a social-setup supposedly coherent ontological-commitment to which the social-setup cannot overtly turn around and wholly assume a contradictory nihilistic disposition; with metaphoricity rather inducing prospective meaningfulness-and-teleology mostly as of prospective cross-generational reasoning-from-results/afterthought. In this regards as of the possibility of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism transcendence, this author is of the opinion that any intellectual endeavour must precedingly guarantee that it is truly involved in a transparent ontological reification exercise exclusively as of the full existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ reflection of its ontological-veracity or ontological-impertinence, and so rather than subject to sophistry, as the latter instance will fundamentally undermine and ridicule the underlying intellectual a priori aspiration for reification. In this regards, and as of extensive contemplation, it is herein contended that in many ways such ontological virginity with regards to intellectual practice today is covertly

being undermined at the more fundamental level of social emancipation contemplation, and explains why it has herein been seen as relevant to introduce the notion of ontological-bad-faith/inauthenticity anticipating of such anti-intellectual dispositions. As of a further indictment, this author is sceptical of ‘covert cohorting initiatives’ that substitute intellectual work for ontological-veracity with ‘politicised intellectualism’ as to which type of theories can be entertained or not, as if there can be knowledge without knowledge! Such cohorting initiatives pretences like those of many supposedly ‘thinking political societies’ since the end of the Cold War have rather had catastrophic consequences on the world all round in terms of the price of wars including with regards to the hegemonising policies these covert initiatives were supposed to instigate. Generally, the idea that such entities and initiatives covertly undermining the sovereignty of democracies, serve any given society, nation or human progressive purposes is rather counterproductive, as in fact this actually disrupts the natural course of sensible human answers to problems and issues and because of their parochial vision end up aggravating and escalating them, furthering a social narrative of double standards. The last frontier one can contemplate of with regards to such a proclivity is when it comes to undermining the intellectual sovereignty as of prospective Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. Knowledge cannot and should not be forestalled because of any supposed politico-economic penchant. The idea that liberal society can only be upheld by artificial and anti-intellectual undermining of many a critical theory including postmodern-thought as of the vital possibility of human social regeneration, is ridiculous and speaks of intellectual lack of self-assuredness; with such institutional grip subterfuges rendering such inclinations just as objectionable as the former ousted communist regimes. Ultimately, it is up to free intellectuals to affirm themselves as to what they think society and human intellectual potential can be, beyond the institutional constraints geared to

such naïve conventioning-referencing which seem to imply that as of its anti-knowledge posture it will determine the limits of what can be human knowledge. Human history has systematically shown that despite human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor there is an effective mechanism of human registry-worldview's/dimension's institutionalisation that draws out the best from mankind, and the more critical problem for human emancipation arises as of the contending sophistries that confuse-and-disrupt-as-of-significant-otherness that institutionalisation mechanism in one way or the other, and that's why at all stages of human history, the reasoning-through/messianic-reasoning disposition has more critically focussed rather on calling out the prospective institutionalisation perturbation of such sophistries; especially when these show no qualm in integrating the most ignoramus of <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) dispositions as of a supposed notion of intellectual advancement. In this regards, this author is very much proud of the theoretical orientation taking herein as of a strictly ontological-veracity inclination as to the reality of the fact that existence-potency-prospective-digression-of-'<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness' supersedes human-subpotency, and it is the latter that adjusts to the former. This is exactly what is reflected by ontological-fracturing, wherein the potential for ontological-normalcy/postconvergence is structurally/paradigmatically fractured-at-given-ontologically-compromised-thresholds in the <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of the successive given levels in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; from

 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and points out that
 the way we tend to conceptualise/construe-of idealisation as reflected in rules, institutional
 essence, institutional processes and ideals is ontologically-flawed/wrong as the assumption is
 one that tends to imply beyond-the-consciousness-awareness-teleology-<in-existential-
 extrication-as-of-existential-unthought> only human intemporal ontological-performance by
 mental-reflex, rather than the reality of human temporal-to-intemporal ontological-
 performances of any given idealisation; speaking of the reality that any idealisation construed
 as of rules, institutional essence, institutional processes and ideals is

structurally/paradigmatically bound to be ontological-fractured as of human-subpotency—
 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor. The implication here
 is that all projections of idealisation should be anticipatory-and-preemptive of the possibility
 of their prospective ontological-fracturing, for efficient institutionalisation deferential-
 formalisation-transference and percolation-channelling, ‘in order to be more ontologically
 pertinent and resilient constructs’, as they are otherwise subject to the temporal denaturing of
 such idealisations with regards to their more profound transcendence-and-sublimity
 implications. In the same vein, we tend as of habit to construe of the fulfilment of human
 ideals as of the inherent institution and/or inherent individual identitive dispositions, rather
 than the fact that it is actually brought about by the structural/paradigmatic relations as of
 projected principles and essences implied intemporally (in cognisance of human temporal-to-
 intemporal-individuations-within-the-receptable-of-the-individual); and thus that our capacity
 to fulfil such principles and essences lies with our grasping-and-nurturing-appropriate-
 intemporal-individuation projection rather than falling back to identitive individual inherence
 or institutional inherence. As even where it may seem that any given individual or
 institutional ontological-performance is inherent, the underlying structural/paradigmatic
 reality is rather guaranteed and accounted for as of the effective grasping-and-nurturing-
 appropriate-intemporal-individuation projection for ontological-performance in that
 individual or institution rather than just identitive inherence. In the bigger scheme of things,
 human registry-worldview’s/dimension’s institutionalisation outcome as of deferential-
 formalisation-transference and percolation-channelling doesn’t substitute for the

disposition that of reasoning-through/messianic-reasoning brought about secondnatured institutionalisation. The bigger point here is that there is never going to be an inherent suprasocial or <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)

veridicality. The fact is and as confirmed by ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity’, prospective reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument transcendence-and-sublimity idealisation as of their prospective reasoning-through/messianic-reasoning highlight that the traditional reasoning-from-results/afterthought construct is construed: - for the Platonic idea transcendence-and-sublimity as of sophistry, - for the Cartesian cogito transcendence-and-sublimity as of scholasticism pedantry, and prospectively for deprocrypticism transcendence-and-sublimity as of spurious institutional-being-and-craft muddlement. Effectively, human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-

dispositions—existentialism-form-factor implies that metaphoricity why tending ultimately towards intemporality, is effectively of both intemporal/longness-of-register-of-meaningfulness-and-teleology and temporal/shortness-of-register-of-meaningfulness-and-teleology manifestations. But any given social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ in its capacity to demonstrably and objectively uphold and function going by its specific registry-worldview/dimension meaningfulness-and-teleology as well as the fact that human perceived social-stake-contention-or-confliction interests drift within-and-across social-setups whether with regards to basic trading, curiosity, social competition and generally as of a predisposition to achieve optimum existential possibilities, implies that any such registry-worldview/dimension social-

setup has basic structuring/paradigming supposedly coherent ontological-commitment for its effective functioning which lays it prospectively exposed to metaphoricity as of prospective ontological-primemovers-totalitative-framework as from prospective existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ epistemic/notional_projective-perspective; as such a registry-worldview/dimension would difficultly renege, as of contradictory and incoherent implications, on such critical prospective ontological-veracity implications of such prospective relative-ontological-completeness of meaningfulness-and-teleology. It is this element that equally ultimately renders the study of the social, notwithstanding its strong underlying <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as of potentially the same ontological-performance possibility as with the natural sciences. That is the apparent conventioning-referencing of the social as of an immediacy perspective naively implies the social is of a poor supposedly coherent ontological-commitment but from a more profound level of appreciation this not the case as explained above, as in effect a society/social-setup conventioning projects correspondingly a profound supposedly coherent ontological-commitment as of its ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ which is then enabling for the critical metaphoricity of prospective meaningfulness-and-teleology ontological-veracity implications of ontological-primemovers-totalitative-framework as of prospective relative-ontological-completeness. In other words, as of transversality-of-disambiguated-apriorising/axiomatising/referencing of human metaphoricity of temporal-to-intemporal–ontological-performances-of-narratives, we know that the ontological-primemovers-totalitative-framework that underlies existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ sublimating-validation/desublimating-

invalidation implications of ontological-veracity is bound in the long run to select/skew-toward the intemporal/ontological over the temporal, whether as of internal cultural transformation or cultural diffusion. This is exactly why the overall ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’ ultimately has a direction as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, notwithstanding structural/paradigmatic implications of ‘human temporal-to-intemporal-dispositions accordioneing-<as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance> at uninstitutionalised-thresholds as reflecting both desublimating historicity-tracing—imbued-hyperrealisation/hyperreal-transposition and sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing possibilities’.

We can appreciate both with regards to the social fabric as well as the natural sciences this common basis of supposedly coherent ontological-commitment from a long-term perspective, in the sense that technical and scientific progress associated with the industrial revolution ‘could hardly be socially reneged’ not only in Western Europe but with respect to its diffusion throughout the world, and so because the supposedly coherent ontological-commitment of human societies conventioning as of their ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ render themselves exposed to the transcendence-and-sublimity of the prospective relative-ontological-completeness as projected by the industrial revolution underlying technical and scientific knowledge

manifesting as of existence-potency-prospective-digression-of-‘<formative>epistemic-
 totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’
 selection/skewing of ontological-primemovers-totalitative-framework <formative>epistemic-
 causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity
 and so because these project beyond subjectivity-of-truth-as-of-human-subpotency as implied
 by the universal objectivity as of existence-potency-prospective-digression-of-
 ‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness’ of the underlying sciences and their applications. It is this insight as
 of ‘existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-
 realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ selection/skewing of
 ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-
 projective-totalitative–implications,-for-explicating-ontological-contiguity’ that animates the
 elucidation of metaphoricity herein as of ontology-driven ‘ontologically-hegemonising-
 narrative ontological-performance’, more than just a notion of mere subjective human-
 subpotency epistemic/notional_projective-perspective narratives; and so, as underlined by
 human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-
 existence—as-sublimating-withdrawal) inducing prospective relative-ontological-
 completeness-of-reference-of-thought <formative>epistemic-causality-as-to-projective-
 totalitative–implications,-for-explicating-ontological-contiguity. This ontology-driven
 assessment of intemporality/longness metaphoricity perspective rejects the often wrongly
 made critique of relative-for-the-mere-sake-of-relative-disparateness by atomising/taking-to-
 pieces identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-
 flawed-epistemic-determinism critiques when misrepresenting the ontologically-veridical
 observations/remarks/‘constatations’ as of ecstatic-holism/nested-congruence of postmodern
 thinkers. Rather as construed herein, relative truth speaks to human-subject-emancipatory-

relativism-driven-recomposuring-constructivism-towards-singularisation as of the <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity of prospective relative-ontological-completeness, and so-construed as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism perspective. In other words, it is herein contended that the implied notion of relative truth expressed by postmodern-thought is not a rejection of truth as they are wrongly accused, but that truth deepens relatively with human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal); and this notion of relative truth is reflected in their works/research-programmes that undermine our <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism perspective. Further, the implication as well is that the adjudicator/transcendental-enabling/sublimating/transcendental-signifier with regards to truth as it enables transcendence-and-sublimity then is existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as of its ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity selecting/skewing for ontological-pertinence within the underlying human metaphoricity scheme of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity’, and not just mere human

subjectivity. Even though in the short-term/immediacy perspective the specific metaphoricity of say a scientific and liberal worldview narrative as implied with the industrial revolution may actually be in the most part ignored/overlooked in a pre-industrial society from a merely meaningfulness-and-teleology transmission/spreading perspective, the supposedly coherent ontological-commitment so-implied as of a social-setup 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' exposes it to the metaphoricity of the scientific and liberal worldview narrative; wherein for instance such pre-industrial societies were constrained politically and as of national vision, economically and culturally to the effect of progressing industrialisation as it induced the requisite knowledge, skills, beliefs, lifestyle, organisations, etc. changes undermining systematically prior paradigms of societies. Such an overall prospective institutionalisation metaphoricity constraining is very much unlike what we may naively imagine the prior human meaningfulness-and-teleology to be from an after the fact analysis; since such a process is much more critically more than just 'mere transmission/spreading of scientific and liberal meaningfulness-and-teleology for say a suprasocial or <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
 'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) human mindset processing', but critically was an epistemic-ricochetting/transepistemicity process that was in many ways beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> unlike our subsequent reasoning-from-results/afterthought contemplation afterwards 'wrongly implying a metaphoricity as of a self-consciously instigated prior suprasocial or <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) comprehensive sense of prospective metaphoricity'. This points to a more

comprehensive reality of human epistemic-veracity arising as of our <formative>epistemic-totalising—thrownness-in-existence with regards to the fact that while of immediate epistemic strive for knowledge we are naturally predisposed to immediate validation-and-falsifiability implications as of ontological-primemovers-totalitative-framework, in the long run our sense of epistemic-veracity is rather more aptly refined as of our overall existential knowledge insight as reflected with say the research-programme knowledge implications, and ultimately we come to realise that even then epistemic-veracity is in many ways more profoundly as of a beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’> ricochetting that speaks of the structural/paradigmatic reality of a human epistemic-veracity as of prospective relative-ontological-completeness appraisal. The reason for making this point is equally to undermine any overrating of human comprehensive contemplation of any such implied suprasocial or <formative>wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>> presencing—absolutising-identitive-constitutedness mindset not dispensing-with-immediacy-for-prospective-ontological-completeness/contemplative-distension, and so in order to effectively put in perspective the deficiency of epistemic-veracity so-inherent when it comes to prospective metaphoricity implications of operant prospective intemporal individuation transversality-of-disambiguated-apriorising/axiomatising/referencing intemporal projection as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality for reasoning-through/messianic-reasoning. We can appreciate as well in the bigger scheme of things the ontological-veridicality of this scepticism with regards to any such

suprasocial or <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)

epistemic-veracity pretence, as expressed before with respect to Plato’s idea universalisation involving the undermining of the suprasocial epistemic-veracity pretence associated with sophistry or Descartes’ cogito implications of positivism/rational-empiricism involving the undermining of the suprasocial epistemic-veracity pretence of scholasticism pedantry. Just as we can appreciate that in ‘the very same physics <formative>epistemic-totalising-devolved—purview/domain-of-construal-as-intrinsic-reality/ontological-veridicality/existential-reality’ as of prospective relative-ontological-completeness-of-axiomatic-construct-or-reference-of-thought, the epistemic-veracity as implied in succession from Copernicus, Galileo, Descartes, Newton, Leibniz, Faraday, Rutherford, Poincaré, Einstein, Bohr up to our very present 21st century physics is mostly as of ricochetting prospective non-presencing-<as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’>. In a certain way this is obvious, when we appreciate that having the right epistemic-veracity should provide the direct possibility for constructing its structural/paradigmatic meaningfulness-and-teleology as knowledge, such that the fact that a domain-of-study prospective knowledge possibility is thresholding/has-attained-its-limits somewhere is ever always directly related to the fact that its epistemic-veracity has equally thresholded/attained-its-limits, with the possibility of prospective breakthrough arising as of shifting epistemic-veracity; such that we can appreciate that the history of physics or any domain-of-study can be construed as the history of its developing epistemic-veracity in succession as ultimately constrained to ontological-primemovers-totalitative-framework validation-and-falsifiability. Naivety will be the pretence of constraining the possibility for transcendence-and-sublimity as of prospective

meaningfulness-and-teleology as knowledge on a vague notion of any presencing—
 absolutising-identitive-constitutedness epistemic-veracity that at the very least doesn't rise to
 projectively contemplate and appraise of such prospective meaningfulness-and-teleology as
 knowledge prospectively implicated epistemic-veracity of research-programme and
 validation-and-falsifiability. Thus metaphoricity as such is a notion that is beyond just
 simplistic transmission/spreading of prospective meaningfulness-and-teleology as
 knowledge, even though this can be relevant as of a shared prospective
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
 meaningfulness-and-teleology as say the commonality of such metaphoricity inclined
 outlier/unenframed thinkers sharing a common emancipatory metaphoricity mathesis/motif-
 thrownness-disposition like Socrates, Plato, Aristotle and their schools with their
 universalisation projection or the Descartes, Galileos, Copernicuses, Newton, etc. with
 budding positivism/rational-empiricism. But rather beyond such shared prospective
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for
 meaningfulness-and-teleology that is instigative, metaphoricity is critically about the
 prospective ricochetting structuring/paradigming implications for inducing such prospective
 meaningfulness-and-teleology implications on the fabric of the social as an epistemic-totality
 framework beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-
 existential-unthought>, as the supposedly coherent ontological-commitment of 'self-
 assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' of the
 social-setup exposes it to such an epistemic-ricochetting/transepistemicity metaphoricity.
 This is so because in the long run transversality-of-disambiguated-
 apriorising/axiomatising/referencing of temporal-to-intemporal—ontological-performances-of-
 narratives is rather as of ontological-primemovers-totalitative-framework selecting/skewing-
 towards intemporality/ontological-veracity as of existence-potency-prospective-digression-

of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-
 normalcy/postconvergence/referentialism. It is important thus to grasp that a social-setup
 value construct lies somewhere between the possibility of its conventioning-referencing and
 its presencing—absolutising-identitive-constitutedness Being-development/ontological-
 framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-
 meaningfulness-and-teleology, when it comes to assessing the possibility of prospective
 meaningfulness-and-teleology inducing of metaphoricity. It is not necessarily the case that a
 society that doesn’t or poorly appreciate the implication of science will value as of
 immediacy prospective Being-development/ontological-framework-expansion—as-to-depth-
 of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology like the
 cultivation of science over its conventioning-referencing as a cultural inclination or
 metaphysical predisposition or a creed; as we can appreciate the contrasting disposition
 towards the cultivation of science as in Europe and the Arabic world during the medieval
 period, or even disparity in ontological progressiveness within the very same societies at
 various epochs. Thus the assumption that any given society or period is absolutely
 turned/committed to prospective Being-development/ontological-framework-expansion—as-
 to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology
 including our modern period, is a flawed appraisal; as in many ways, beyond our
 <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag perception, a closer look at institutional
 functioning easily points out the pre-eminence of spurious institutional-being-and-craft
 muddlement highlighting an uninstitutionalised-threshold as of the privileging of
 conventioning-referencing over purely prospective Being-development/ontological-
 framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-

meaningfulness-and-teleology, and in many ways this explains at the more socially visible spectrum that is politics, the perceived political impotence today. This insight is critical for appreciating the implication of the conception of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism metaphoricity in our positivism—procrypticism; as its brings to the self-consciousness the reality that the implication of such a deprocrypticism articulation is bordering on the limits/thresholds of our institutional capacity for prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of a privileging of conventioning-referencing disposition to adopt and assume intellectual nihilism at such an uninstitutionalised-threshold; it is herein contended that the reality is similar to that which scuppered Arabic medieval science or scuppered medieval China progressiveness. The ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality reasoning-through/messianic-reasoning instigated ontological-contiguity—of-the-human-institutionalisation-process as of difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity’ warrants such intemporal relaying of prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology beyond just conventioning-referencing; as the very possibility of successive registry-worldviews/dimensions as of prospective relative-ontological-completeness arises because such reasoning-through/messianic-reasoning can devalue their presencing—absolutising-identitive-constitutedness conventioning-referencing to value prospective possibility for Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-

 present positivism–procrypticism wherein its conventioning-referencing procrypticism
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument falsely seem to
 project ontological-pertinence why assuming little or no prospective Being-
 development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
 infrastructure-of-meaningfulness-and-teleology responsibility in an existential-extrication-as-
 of-existential-unthought posture; as such conventioning-referencing narratives increasingly
 protrude into supposedly prospective Being-development/ontological-framework-expansion–
 as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology
 purviews in usurpation, and so together with generalised intellectual teleological-decadence–
 as-lacking-in-<formative>epistemic-growth/transvaluative-

 mediatically. This human contrastive mental-disposition to prospective Being-
 development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-
 infrastructure-of-meaningfulness-and-teleology and presencing—absolutising-identitive-
 constitutedness conventioning-referencing speaks at a more fundamental level of the reality
 that the human subject is not psychologically necessarily driven by an absolute commitment
 to prospective ontological-veracity given its registry-worldview/dimension structural ‘human
 akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-
 fracturing/desublimation/gimmickiness complex’; and thus that it has an ontological-veracity

destructuring/uninstitutionalised-thresholding, where beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> it will relate to ontological-veracity as relatively impertinent on critical occasions as of its apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and so-reflected socially as of the uninstitutionalised-threshold. The underlying insight about such ontological-veracity destructuring/uninstitutionalised-thresholding is that the state of human-subpotency is one where overall its capacity to reflect existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism is inherently limited such that human meaningfulness-and-teleology construal ever always varies as of ‘individual whim/impulsion narratives ontological-performances’, ‘<formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) narratives ontological-performances’, ‘suprasocial narratives ontological-performances’ and ‘ontologically-hegemonising-narrative ontological-performance’, with the latter as critically bound to fulfil ontological-veracity as of its direct and utter subjection to the superior party that is existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’/intrinsic-reality/ontological-veridicality as of ontological-primemovers-totalitative-framework and then its deferential-formalisation-transference and percolation-channelling implications, while it can be appreciated that the preceding three dispositions as of their <formative>epistemic-totalising–self-referencing-

syncretising/circularity/interiorising/akrasiatic-drag are not critically as so-committed to ontological-veracity. Narratives as such are the very <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag drive for human meaningfulness-and-teleology underlying language development, wherein ‘ontologically-hegemonising-narrative ontological-performance’ as of its dispensing-with-immediacy-for-relative-ontological-completeness profoundness is as of singularisation/epistemic-immanence/veridical-epistemic-determinism and so over the temporal–ontological-performances-of-narratives as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Unsuspectingly, the reality of projected narratives as of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor across the institutional-cumulation/institutional-recomposure is rather regular and stable as of the dynamics of temporal-to-intemporal–ontological-performances-of-narratives, and so as of their respectively poor to profound dispensing-with-immediacy-for-relative-ontological-completeness/contemplative-distension implications with regards to social-stake-contention-or-confliction at the given registry-worldview/dimension. It is equally critical to note that as of the profoundness of their social-stake-contention-or-confliction existential-investment, temporal–ontological-performances-of-narratives will drag out as of dementing-or-preconverging–apriorising-psychologism-‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging–qualia-schema>’ of akrasia-susceptibility-or-akrasiatic-drag complex in obviation of prospective ontological-veracity without the constraining untenability as of ontological-primemovers-totalitative-framework as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ of intemporal

‘ontologically-hegemonising-narrative ontological-performance’, going by the fact that the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ opens it up to the prospective intemporal-as-ontological metaphoricity of ‘ontologically-hegemonising-narrative ontological-performance’. The reality of a regular and stable dynamic of human temporal-to-intemporal–ontological-performances-of-narratives across the institutional-cumulation/institutional-recomposure, critically and naturally makes of anthropology more of a universally and operantly principled construction of human existence reification as of anthropopsychology, beyond more or less a traditional orientation categorising epistemic disposition with regards to human cultural life, the social and practices of specific societies, with respect to the coherence of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions–existentialism-form-factor <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of the structural/paradigmatic <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’; as reflected as of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism. Basically, the possibility in reflecting the ontological-contiguity—of-the-human-institutionalisation-process arises as of human generation of ‘temporal-to-intemporal-dispositions accordioneering-<as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance> ontological-performances-including-virtue-as-ontology of

narratives’ as of the specific destructuring/uninstitutionalised-thresholding of ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex’. It is ultimately ‘ontologically-hegemonising-narrative ontological-performance’ that is implicated with respect to the supposedly coherent ontological-commitment so-implied as of a social-setup ‘self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction’ opening it up to prospective intemporal-as-ontological metaphoricity, such that sublimating historicity/ontological-eventfulness/ontological-aesthetic-tracing in reflecting the ontological-contiguity—of-the-human-institutionalisation-process can effectively be construed as of the dynamism of the ‘ontologically-hegemonising-narrative ontological-performance’, as it supersedes temporal–ontological-performances-of-narratives as of its constraining to existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as of ontological-primemovers-totalitative-framework over human-subpotency, and so with respect to human construal of existence and purviews of existence. We can appreciate in this regards the ‘ontologically-hegemonising-narrative ontological-performance’ drive in generally overcoming human egregious superstitious beliefs towards our positivism and science orientation today as well as ‘relatively free-for-all opinionatedness and imaginary knowledge constructs’ about purviews-of-existence which are today articulated in institutionalised frameworks as of subject-matter narratives like physics, law, biology, etc. relegating social opinionatedness and substituting social deferential-formalisation-transference and percolation-channelling for ‘ontologically-hegemonising-narrative ontological-performance’.

The ontological-contiguity—of-the-human-institutionalisation-process successive overcoming of uninstitutionalised-thresholds involves a migration of the hegemony of social meaningfulness-and-teleology away from ‘individual whim/impulsion narratives ontological-

performances’, ‘<formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)

As such we can appreciate that our present positivism institutionalisation outcome is the result of prior institutional-cumulation/institutional-recomposure in succession of mainly the ‘ontologically-hegemonising-narrative ontological-performance’ as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’, while all ‘individual whim/impulsion narratives ontological-performances’, ‘<formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)

 aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, is the reality that
 human meaningfulness-and-teleology fundamentally develops out of the
 constructive/institutionalising and destructuring/uninstitutionalised-thresholding nature of the
 social-construct (as significant otherness to the individual), and as this social-construct
 conventioning-referencing is thereof reflected in its relationship with inherent ontological-
 veracity as of Being-development/ontological-framework-expansion—as-to-depth-of-
 ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, that goes into
 building the individual capacity to uphold ontological-veracity when the social-construct as
 its significant otherness is constructive/institutionalising of meaningfulness-and-teleology as
 knowledge while by the same token can undermine the individual capacity to uphold
 ontological-veracity when the social-construct as significant otherness is as of

deconstructing/uninstitutionalised-thresholding of meaningfulness-and-teleology as knowledge; as social-construct settings are fundamentally the background of significant otherness for their inherent generalised purposefulness and their enlivening of the possibility for individual human purposefulness as well, such that beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> the notion of ontological-veracity is not necessarily of absolute pertinence to the individual as of pure ontology implications of aetiologisation/ontological-escalation where individual possible construal of ontological-veracity is subject to its perception/engagement/endearament of specific and/or underpinning–suprasocial-construct settings significant otherness deconstructing/uninstitutionalised-thresholding implications of its possible constructive/institutionalising construal of ontological-veracity. This deconstructing/uninstitutionalised-thresholding effect of social-construct settings with regards to individual possible constructive/institutionalising construal of ontological-veracity is validated by the idea that even the most assured critique in the ontological-veracity of their ideas when this elicits the uninstitutionalised-threshold cannot just articulate them as if the social-construct is ‘purely/absolutely receptive-as-constructive/institutionalising to ontological-veracity’ but need to implicitly recognise the social-construct predisposition to destructure such meaningfulness-and-teleology as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold, and so in order by its dispensing-with-immediacy-for-relative-ontological-completeness/contemplative-distension to strategically articulate such meaningfulness-and-teleology going by the possibility of the social-construct as of its potential constructive/institutionalising significant otherness to tolerate it in the immediacy, even as the social-construct is rather predisposed in the immediacy to destructure at this uninstitutionalised-threshold as of its registry-worldview/dimension structural ‘human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-

From the foregoing, while the supposedly coherent ontological-commitment so-implied as of a social-setup 'self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction' opens it up to prospective intemporal-as-ontological metaphoricity, it is rather 'naïve to construe of social-stake-contention-or-confliction in any social-setup as absolutely about ontological-veracity' giving a social-construct predisposition to destructure meaningfulness-and-teleology as of its conventioning-referencing for social-functioning-and-accordance at its uninstitutionalised-threshold; with any such superseding ontological-veracity at the social-setup uninstitutionalised-threshold rather beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, as base-institutionalisation implied meaningfulness-and-teleology is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of recurrent-utter-uninstitutionalisation, that of universalisation is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of base-institutionalisation-universalisation, that of positivism is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of universalisation-non-positivism/medievalism, and prospectively that of deprocrysticism is beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> of positivism-procrysticism; and so because any given registry-worldview/dimension structural 'human akrasia-susceptibility-or-akrasiatic-drag/shiftiness-of-the-Self/ontological-fracturing/desublimation/gimmickiness complex' defines the social-construct institutionalisation threshold perceived intemporal meaningfulness-and-teleology as of its reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation reference-of-thought—categorical-imperatives/axioms/registry-teleology but then is equally amenable to <formative>wooden-language-(imbued—temporal—mere-

 The ultimate point here being that critically the notion of human transcendence-and-sublimity
 more often than not occur as ‘reasoning-through/messianic-reasoning projection-beyond-the-
 presencing-human-self-consciousness-as-reinventing-prospective-non-presencing-<as-to-

 referencing-syncretising/circularity/interiorising/akrasiatic-drag. In this regards, ontological-
 veracity as of a perpetual predisposition for prospective relative-ontological-completeness is
 ensured by supposedly coherent ontological-commitment to undermine the social-construct
 predisposition to destructure meaningfulness-and-teleology as of its conventioning-
 referencing for social-functioning-and-accordance at its uninstitutionalised-threshold, and
 enable the construal of prospective ontological-veracity by ‘ontologically-hegemonising-
 narrative ontological-performance’, as of ontologically-veridical difference-conflatedness-as-
 totalitative-reification-in-singularisation-as-veridical-epistemic-determinism, over ‘individual
 whim/impulsion narratives ontological-performances’, ‘<formative>wooden-language-

{imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>} narratives ontological-performances’ and ‘suprasocial narratives ontological-performances’ in their various flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism postures. The social epistemic-totality reality of the metaphoricity flux of temporal-to-intemporal—ontological-performances-of-narratives thus implies that in effect a social-setup is a construct of ‘temporal-to-intemporal-dispositions accordioning-<as-of-varying-individuations-contextually-transverse-desublimation/sublimation,-as-to-the-redounding/wavering/waveforming—of-their-referencing-and-their-devolved-referencing-imbued-ontological-performance> ontological-performances-including-virtue-as-ontology of narratives’ as an epistemic-totality of meaningfulness-and-teleology, wherein the most universalising/ontologising/institutionalising of narratives as of ‘ontologically-hegemonising-narrative ontological-performance’ is structurally superseding over more specific and spurious temporal—ontological-performances-of-narratives but with all such temporal-to-intemporal—ontological-performances-of-narratives susceptible to recombination in unsuspecting ways given human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, and are variously enabled or inhibited in different spheres/settings wherein the extended-informality including the extended-informality of institutional frameworks is more susceptible to spurious and specific temporal—ontological-performances-of-narratives unlike the strictly formalised institutional frameworks tending to universalising/ontologising/institutionalising of narratives. It is this possibility of narratives recombination as of formative and enculturating implications as well as the criss-crossing of formal and informal spheres/settings differing temporal-to-intemporal value-references that

renders even universalising/ontologising/institutionalising narratives susceptible to recombination with temporal–ontological-performances-of-narratives, thus leading to their possible ontological denaturing as of uninstitutionalised-threshold implications. Ultimately, it is herein contended that conceptualising ontological-veracity reflecting existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism as this underlies retrospective, present to prospective meaningfulness-and-teleology rather boils down to grasping prospective relative-ontological-completeness <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of notional-deprocrypticism. Effectively prospective meaningfulness-and-teleology, as articulated from ‘ontologically-hegemonising-narrative ontological-performance’ reflecting existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism perspective, can be construed as: prospective relative-ontological-completeness re-structuring/re-paradigming in superseding/undermining/deflating the ‘relative-ontological-incompleteness perception of prospective relative-ontological-completeness structuring/paradigming’; wherein the former’s apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument as of its re-structuring/re-paradigming substitutes for the latter’s apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument structuring/paradigming, and so as of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising–purview-of-construal’. The possibility of ‘ontologically-hegemonising-narrative ontological-performance’ as construed from existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism is what allows for veridical aetiologisation/ontological-escalation as of transcendently-enabling-level-of-authenticity/objectification/desubjectification-as-objectification/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality/antinihilism implied as of singularisation/epistemic-immanence/veridical-epistemic-determinism over dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism, just as with the natural sciences and so beyond the notion of subjectivity as of ontological-primemovers-totalitative-framework validation and falsifiability implications. It is important to grasp that since every registry-worldview/dimension social-construct is involved in a constructive (as of its institutionalising disposition) and destructuring (as of its disposition at its uninstitutionalised-threshold) relationship with ontological-veracity, this is exactly what inevitably validates the articulation of ontological-veracity/ontological-veridicality as more completely involving the

displacement/decentering-of-the-human-subject priorly as implied with Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative in reflecting the need to undermine human destructuring/uninstitutionalised-thresholding to further advance its constructive/institutionalising nature, thus overcoming underlying logocentrism as of prospective relative-ontological-completeness implications; reflecting the fact that human knowledge is more completely a two-fold process involving building the right mindset-as-of-prospective-relative-ontological-completeness and thus the knowledge for that given right mindset-as-of-prospective-relative-ontological-completeness as of projected conflatedness. This is very much unlike the Ricoeurian narrative theory conception that while of palliative and practical significance is in relative constitutedness since it poorly deals with logocentrism implications as of prior relative-ontological-incompleteness on ontological-veracity; as it construes of 'logocentric habituated social conditions' as inherently ontological or beyond ontological treatment while failing to countenance the 'decentering heavy lifting' involved in undermining ontologically impertinent 'logocentric habituated social conditions' in enabling the ontological-contiguity—of-the-human-institutionalisation-process as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology right up to our present, and as of prospective transformative emancipatory possibilities. In the bigger scheme of things, the social-construct as significant otherness is ever always inherently put into question itself given its constructive/institutionalising and destructuring/uninstitutionalised-thresholding nature speaking of its reasoning-from-results/afterthought, with regards to its capacity-and-disposition to uphold prospective transcendence-and-sublimity ontological-veracity/ontological-veridicality; as so implied in the epistemic-ricochetting/transepistemicity unorthodoxy herein expounding futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-

and-teleology as of prospective deprocrpticism, just as with the unorthodoxy of postmodern-thought or generally the unorthodoxy of all prospective transcendence-and-sublimity meaningfulness-and-teleology whether with regards to the Socrates/Plato/Aristotle, Copernicuses, Galileos, Descartes, Newtons, Darwins, Rousseaus, Nietzsches, Einsteins, etc. as reasoning-through/messianic-reasoning. This basic idea of the social-construct as of its constructive/institutionalising and destructuring/uninstitutionalised-thresholding nature is effectively what underlies in ontologically neutral/objective terms-as-of-axiomatic-construct such displacement/decentering-of-the-human-subject narratives like Derridean deconstruction narrative or Foucauldian genealogy-knowledge-and-power-discourse narrative. However, the capacity to appreciate the ontological neutrality/objectivity of a decentering narrative like deconstruction as being fully more of a purely ontological notion is caught up in our positivism–procrpticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction in disjointedness-as-of-reference-of-thought, and thus deconstruction will tend to be deficiently construed in terms-as-of-axiomatic-construct of the circumstantial social primacy of this temporal framework social-stake-contention-or-confliction over its fuller pure ontology as of prospective relative-ontological-completeness deprocrpticism; explaining in many ways the difficulty for Derrida to define deconstruction. Again, such a social situation is no more different with say the articulation of budding positivism/rational-empiricism science in say a non-positivism/medievalism social-setup as caught up in the universalisation–non-positivism/medievalism prior relative-ontological-incompleteness temporal framework of social-stake-contention-or-confliction, such that the more ontologically pure idea we may appreciate today as science is poorly disentangled from that circumstantial social primacy of the non-positivism/medievalism social-stake-contention-or-confliction like the entrenched interests that will rather focus mindsets rather in a nominal adversarial binarity perspective as of defending or attacking the traditional scholasticism

pedantic literature over a more pure, nuanced and enlightening ontology contemplation of science as of prospective relative-ontological-completeness positivism, as a result of the failure of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ to supersede human temporality/shortness <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)); which will explain in many ways the difficulty of the Copernicuses, Galileos, Descartes’, Diderots, etc. so effectively enculturate their budding positivism. With respect to deconstruction in this regard, it is herein contended that such a Derridean deconstruction notion like binary opposition effectively speaks of the fact that it is encrusted/caught-up in our positivism—procrypticism prior relative-ontological-incompleteness human social-stake-contention-or-confliction as of its disjointedness-as-of-reference-of-thought but that a more fuller pure ontology appreciation of the deconstruction notion as of prospective relative-ontological-completeness depcrypticism rather subsumes all such binary opposition conceptions basically into the binarity of intemporality/longness and temporality/shortness as to human limited-mentation-capacity relative ontological-performance. It is effectively from this fuller pure ontology perspective of prospective relative-ontological-completeness depcrypticism that we can appreciate more profoundly the universal ontological epistemic pertinence of decentering narratives like deconstruction, and so pervasively well beyond the stereotypical grand themes of gender, race, postcolonialism, power, etc. but rather just as of an all-pervasive universal ontological profundity for analysing everything as of prospective

relative-ontological-completeness deprocrypticism herein construed as human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; with the implied knowledge emancipation rather construed as of mutual human emancipation beyond just the idea of a decentering narrative being about stronger and weaker but transcending that framework of contemplation in projecting of aetiologisation/ontological-escalation/otherliness as of a converging vision of emancipation as conjoint human emancipation, as the reality of the supposedly unemancipated speaks of the ontological emancipative deficiency of the supposedly emancipated in need of the latter's state very own deconstructing. Such a mutual-emancipation appreciation of deconstruction will appreciate for instance that the civil war ending slavery in the U.S. was both as emancipative to its practitioners as well as to the freed beyond just the overall social adversariality practical implications, just as in decolonising terms it will appreciate that the more matured as mutually-emancipative notion of decolonisation involved both the capacity of colonised territories to attain and choose independence in mutual cooperation and even in other cases with such territories choosing to follow a mutually respectful and healthy relationship with the metropolitan country which in a few cases turn out to be more beneficial to both. In this regards, we can appreciate that the human predisposition not to dispense-with-immediacy-for-relative-ontological-completeness/contemplative-distension as of a nominal adversarial binarity predisposition in many ways renders such an ontologically more profound construct of deconstruction difficult. In this very contrastive sense with regards to our present prospective relative-ontological-completeness positivism/rational-empiricism, we don't ideally construe of science as of its pure ontology as discriminatorily selective in its conclusions and we further appreciate that its usefulness is universally emancipatory as of social-stake-contention-or-confliction, and so in both instances with regards to say medicine or civil technology or consumer technology or even scientific and technological

nomenclatures; with any such discriminatorily selective predisposition and failure to share its usefulness being an indictment of a lack of the requisite liberalism for perpetuating human scientific progress and basically overall human emancipation. Ultimately, the social-construct as of its constructive/institutionalising and destructuring/uninstitutionalised-thresholding nature inherently points out why human transcendence-and-sublimity as of intemporal metaphoricity epistemic pertinence doesn't lie with any inherent suprasocial framework or inherent <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

The destructuring-threshold-of-ontological-performance of human articulated–or–acquiesced-to meaningfulness-and-teleology ontological-performance, and as structurally/paradigmatically reflected at the uninstitutionalised-threshold, speaks of a threshold at which as of our human-subpotency we fail to assume the intellectual-and-moral responsibility arising as of ontological-veridicality so-reflected as from the full sublimating-over-desublimating implications of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,—re-perception,—re-thought-in-epistemic-conflatedness’ ontological-veracity perspective insight of affirmation/projection/assertion/dueness-validating-logicising/suitablemeasuringinstrument-validating-measuring-<dialectical-thinking-or-postconverging–apriorising-psychologism>. This is the overall notion explaining human akrasia-susceptibility-or-akrasiatic-drag complex, and so as of human limited-mentation-capacity notional implications. Thereafter, understanding of this human

‘ontologically-flawed antiakrasiatic disposition’ is all about conceptualising the effective operant ontologically-constraining conditions as of human existential-instantiations given our limited-mentation-capacity implied as of temporality/shortness and intemporality/longness implications, and so construed epistemically as ontological-normalcy/postconvergence analysis. Insightfully, we can appreciate that the absolute human ontologically-veridical antiakrasiatic disposition can only be as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism so-reflected with futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism registry-worldview/dimension, over human-subpotency–as-of-ontologically-compromised-epistemic-abnormalcy/preconvergence so-reflected variously with the preceding successive registry-worldviews/dimensions; wherein notional-deprocrypticism as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ will rather speak of prospective ‘ontologically-hegemonising-narrative ontological-performance’ which as of its inherent constructive ontological-performance is of a structural/paradigmatic implication that ultimately supersedes the destructuring-threshold-of-ontological-performance notionally underlying human-subpotency. Thus all the problem of human ontologically-flawed antiakrasiatic disposition boils down to construing the underlying human mental-processing disposition, construed as of phenomenal-abstractiveness implications, as from human-subpotency dispositional possibilities of ontological-performances to existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ possibility of ontological-performance. In

this respect, we can appreciate that the successive registry-worldviews/dimensions reference-of-thought in reflecting the ontological-contiguity—of-the-human-institutionalisation-process are effectively differing structural/paradigmatic antiakrasiatic dispositions-as-of-self-consciousness varying from most ontologically-flawed as of recurrent-utter-uninstitutionalisation to most ontologically-veridical as futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism. We can further appreciate that all the successive registry-worldviews/dimensions reference-of-thought are marked at their reference-of-thought-devolving-level by temporal-to-intemporal ontological-performances speaking of differing ontological-performances-including-virtue-as-ontology of intemporal and disambiguated temporal ontologically-flawed antiakrasiatic disposition as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation reflecting <formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives). This analysis so far sums up the overall framework of human temporal-to-intemporal ontologically-flawed antiakrasiatic disposition as of the social epistemic-totality of meaningfulness-and-teleology in reflecting the ontological-contiguity—of-the-human-institutionalisation-process. Further and of much more profound reification implications, is the reality that the social-construct constructive and destructuring nature can be fundamentally accounted for by the fact that human antiakrasiatic disposition aspiration is truly reflected as from the effective implications of the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic

askesis-or-acumen reasoning-through/messianic-reasoning ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’; thus with the latter reconceptualised as ‘human-subpotency equivalence/correspondence antiakrasiatic-aspiration ontological-performance’.

This reflects the epistemic-veracity of construing human-subpotency ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ of its articulated—or—acquiesced-to meaningfulness-and-teleology as from existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ ontological-performance, which underlies beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> the universal-transparency of the social epistemic-totality of meaningfulness-and-teleology with respect to social-stake-contention-or-confliction; with the implication here that human-subpotency is ever always as-of-its-level-of-constructiveness-of-ontological-performance/institutionalisation-by-destructuring/uninstitutionalised-threshold in ‘a metaphorising vacillating-conception’ of the social epistemic-totality of meaningfulness-and-teleology as can be fully reflected from existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ epistemic perspective in ontological-normalcy/postconvergence.

This thus points out that human-subpotency ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ supposedly of universal-transparency is mainly and rather the overtly presumed social posture of articulated—or—acquiesced-to meaningfulness-and-teleology ontological-performance, and that human-subpotency implications of human limited-mentation-capacity induces covert-pretence-of-equivalence/correspondence—antiakrasiatic-aspiration-ontological-performance construed as destructuring-transitoriness-as-of-deratiocination/deratiocontiguity; as implying in effect a destructuring-by-

 <mentally-aestheticised_dementing/preconverging—qualia-schema> of
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument thus denaturing
 the true ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ from

 reflects the destructuring-threshold-of-ontological-performance as the point where human-
 subpotency from its ‘destructuring relative-ontological-incompleteness ontologically-flawed

aposteriorising/logicising/deriving/intelligising/measuring as ‘God of plane’, a further proposition as of positivism aposteriorising/logicising/deriving/intelligising/measuring like ‘wings generate lift’ will just as well elicit a further proposition of non-positivism/superstitious aposteriorising/logicising/deriving/intelligising/measuring ‘along the lines of a superstitious effect from the wings’; with the positivism relative-ontological-completeness perspective rather reflecting the non-positivism/superstitious relative-ontological-incompleteness perspective as of a ‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–qualia-schema’ while the latter perspective wrongly holds on to an ontologically-flawed ‘<formative>epistemic-totalising/circumscribing/delineating dialectical-thinking/postconverging–qualia-schema’. This is the fundamental conception underlying the notion of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics as implying an underlying apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument structural/paradigmatic misconstruing for aposteriorising/logicising/deriving/intelligising/measuring meaningfulness-and-teleology, thus disambiguating/differentiating prospective relative-ontological-completeness as of ‘<formative>epistemic-totalising/circumscribing/delineating dialectical-thinking/postconverging–qualia-schema’ and the prior relative-ontological-incompleteness as of ‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–qualia-schema’. This is equally what very much underlies from a prospective relative-ontological-completeness constructiveness perspective of deprocrypticism as preempting—disjointedness-as-of-reference-of-thought the social manifestation of a phenomenon like psychopathy and social psychopathy reflecting our prior relative-ontological-incompleteness positivism–procrypticism destructuring-threshold-of-ontological-performance as of its disjointedness-as-of-reference-of-thought, wherein the fundamentally induced destructuring-

totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of any given registry-worldview's/dimension's uninstitutionalised-threshold, and is so-reflected as of its endemised/enculturated social construal of the 'types of vices-and-impediments that can be overlooked' beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>, determining its uninstitutionalised-threshold. Critical to the social manifestation of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity and its extension-in-complexification is that it is socially perceived decisively as not destructuring going by the narrative of the collective social-setting destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema> in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism at its destructuring-threshold-of-ontological-performance, to then reflect of such 'pretence of equivalence/correspondence antiakrasiatic-aspiration ontological-performance' as if of 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance' and to assent to such a state of affairs. Destructuring-transitoriness-as-of-deratiocination/deratiocontiguity thus arises as of human limited-mentation-capacity deficient personality adherence, personality formation and personality development as of the social-setting very own registry-worldview/dimension institutionalisation level, with regards to the construal of the social-construct in its constructiveness-of-ontological-performance as of 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance', with such destructuring deficiency defining its uninstitutionalised-threshold. Destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as it speaks to the reference-of-thought-devolving-level is a most potent social phenomenon in the extended-informality rather than defined-and-constrained formalised social-settings (though it more fundamentally speaks of the uninstitutionalised-threshold implied overall registry-worldview/dimension prospective

structural/paradigmatic ontological-performance deficiency), as of the dearth of ontologically-hegemonising-narrative as of ‘<formative>epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation/epistemic-immanence/veridical-epistemic-determinism’ in the extended-informality with the latter variously substituted as of human phenomenal-abstractiveness ‘<formative>epistemic-totalising_random-as-impulsive destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema> in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism’, ‘<formative>epistemic-totalising_nominal-as-tendentious destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema> in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism’, ‘<formative>epistemic-totalising_ordinal-as-qualifying destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema> in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism’ and ‘<formative>epistemic-totalising_intervalist-as-categorising destructuring-disposition—flipping/changing/transitioning-induced-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema> in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism’ as these covertly pass as constructiveness disposition in ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’, thus distinctly destructuring. It is important to grasp here that this destructuring-threshold-of-ontological-performance analysis is notionally/epistemically as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-

realisation,-re-perception,-re-thought-in-epistemic-conflatedness’

epistemic/notional_projective-perspective of deprocrypticism which is in ontological-normalcy/postconvergence and beyond/superseding the internal positivism–procrypticism disjointedness-as-of-reference-of-thought human-subpotency social-stake-contention-or-confliction perspective wherein the human-subpotency <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag perspective of analysis as of its prior relative-ontological-incompleteness apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument will rather be in a muddling undisambiguated appraisal of its destructuring-threshold-of-ontological-performance in contrast to the notional/epistemic veracity of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ implication as of deprocrypticism in prospective relative-ontological-completeness

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument implications of aetiologisation/ontological-escalation; and this is akin to the existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ projection to prospective positivism insight of aetiologisation/ontological-escalation with regards to say the reflection of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity in the manifestation of notions-and-accusation-of-sorcery in a non-positivism social-setting social-stake-contention-or-confliction, with the construal of such purportedly constructiveness disposition of ‘equivalence/correspondence antiakrasiatic-aspiration ontological-performance’ as of positivism ontologically-hegemonising-narrative not necessarily telling from within the perspective of the non-positivism human-subpotency social-stake-contention-or-confliction narratives, but for the implied prospective metaphoricity as prospective ontologically-

hegemonising-narrative of positivism. Insightfully, such an ontological-normalcy/postconvergence destructuring-threshold-of-ontological-performance analysis insight is more like a projective contrast as with the case of the BODMAS characters deficient apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity operation of Arithmetic construed as of dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism in epistemic-abnormalcy/preconvergence and with regards to our normally conceived apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity for the operation of Arithmetic as of singularisation/epistemic-immanence/veridical-epistemic-determinism in ontological-normalcy. Basically, such an ontological-normalcy/postconvergence destructuring-threshold-of-ontological-performance analysis speaks of the reality of human ontological-dementation/dialectical-dementation-stranding/attributive-dialectics insights; and the appreciation of the latter as to the displacement/decentering-of-the-human-subject in reflecting the ontological-contiguity—of-the-human-institutionalisation-process is a requisite for understanding such an ontological-normalcy/postconvergence destructuring-threshold-of-ontological-performance analysis. The destructuring-threshold-of-ontological-performance analysis is highly abstracted from such an ontological-normalcy/postconvergence epistemic/notional_projective-perspective (so-understood as of ontological-normalcy/postconvergence/Doppler-thinking perspective of analysis). It reflects the abstract development of human-subpotency ‘dynamic phenomenal-abstractiveness possibilities in their psychodynamic operant conflatedness with the social epistemic-totality of meaningfulness-and-teleology’. This psychodynamic operant conflatedness reflects human-subpotency ‘constructiveness-of-ontological-

performance/institutionalisation-by-destructuring/uninstitutionalised-threshold metaphorising vacillating-conception of the social epistemic-totality of meaningfulness-and-teleology'; as can veridically be construed from existence-potency-prospective-digression-of- '<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness' epistemic perspective as of ontological-normalcy/postconvergence with respect to assessing 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance'. This destructuring-threshold-of-ontological-performance analysis further highlights the 'transitive nature' of the human psyche across the various registry-worldviews/dimensions uninstitutionalised-thresholds in reflecting the ontological-contiguity—of-the-human-institutionalisation-process with respect to destructuring at all uninstitutionalised-thresholds; as so-implied by ontological-dementation/dialectical-dementation—stranding/attributive-dialectics. The comprehensive social susceptibility to destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as the defining element of the social-construct destructuring is what underlies passive to active social mobbishness phenomena as of human limited-mentation-capacity social dynamic implications of lacking social ontologically-hegemonising-narrative. The failing cogency and individual wariness of the social as of the lack of a comprehensive expectation of 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance' arises because of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity as of its implied destructuring-threshold-of-ontological-performance parasitism <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> this reflects the individual psyche conception of the social especially as of its extended-informality as not necessarily of high operant 'equivalence/correspondence antiakrasiatic-aspiration ontological-performance', and is further reflected in a social dynamics of dual

overt and covert implicated interpretations of social phenomenality arising as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> cognisance-and-adaptation to the reality of the ontologically compromisable possibility of social meaningfulness-and-teleology. Insightfully, it can be appreciated that the ontological-contiguity—of-the-human-institutionalisation-process is one long process involving the undermining of destructuring-transitoriness-as-of-deratiocination/deratiocontiguity at uninstitutionalised-thresholds with relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance’ as of ontologically-hegemonising-narrative implied as of prospective ‘<formative>epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism constructiveness disposition in singularisation/epistemic-immanence/veridical-epistemic-determinism’. In this regard, we can appreciate anthropologically as of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) implications the destructuring-transitoriness-as-of-deratiocination/deratiocontiguity that upheld superstitious beliefs in non-positivism social constructs but as of positivism/rational-empiricism ontologically-hegemonising-narrative implied with social enlightenment and the sciences rendered many purviews of existence as of relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-performance’. We can similarly project of the same with respect to our positivism–procrypticism disjointedness-as-of-reference-of-thought destructuring-transitoriness-as-of-deratiocination/deratiocontiguity at its uninstitutionalised-threshold as to be prospectively superseded by deprocrypticism preempting—disjointedness-as-of-reference-of-thought ontologically-hegemonising-narrative thus rendering human ontological-performance correspondence with the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising_purview-of-construal’ as of prospective relative ‘equivalence/correspondence antiakrasiatic-attainment ontological-

performance'. This destructuring-threshold-of-ontological-performance analysis effectively points to the fact that human akrasia-susceptibility-or-akrasiatic-drag complex is such a decisive and determinant notion with respect to the human psyche as the critically interceding notion with respect to human social construction-of-the-Self and as it remains a transitive and constant notion in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as to the destructuring implications at uninstitutionalised-thresholds implied human-subpotency epistemic/notional_projective-perspective in dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism relative to existence-potency-prospective-digression-of- '<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness' epistemic/notional_projective-perspective in singularisation/epistemic-immanence/veridical-epistemic-determinism. This overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation of the social-construct as from the elucidation/reification as 'destructuring-threshold-of-ontological-performance analysis' is rather notionally/epistemically reflective of the social-construct constructiveness-of-ontological-performance, as such an antiakrasiatic analysis of uninstitutionalised-thresholds notionally/epistemically reflects the ontological-contiguity—of-the-human-institutionalisation-process; and so, similarly as the analysis of prospective possibilities of disease and illness is not about being pessimistic about the biology of human beings but is notionally/epistemically reflective of the possibility for the further development and provision of medicine and healthcare, and just as the projective analysis of lack of science and technology capacity is not about being pessimistic about human technical development but is notionally/epistemically reflective of the possibility for the further invention of technologies and scientific discoveries. We can appreciate here that the very same epistemic/notional conceptualisation with respect to the human subject as with

natural subject-matters elicits in the former high emotional involvement whereas the latter as of its direct ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity elicits low emotional-involvement, but for the case where with regards to high and conflicting human social-stake-contention-or-confliction even the natural domain is not immuned from high emotional-involvement as with the climate change issue for instance. The point being made here is that sober analyses of the social as herein articulated tends to elicit naïve criticism that human progress happens anyway, but then such naïve criticism only recounts the fact of human progress while failing to be reifying and is actually dereifying when by its ‘implicated passivity implications for prospective human progress’ it fails to account for how human progress occurs in the very first place or even whether there is any underlying process for its occurrence or non-occurrence. Actually, human progress occurs because of effective human constructive disposition to supersede identified-and-defined destructuring-threshold-of-ontological-performance and as reflected at uninstitutionalised-thresholds. As the Copernicuses, Galileos, Darwins, Diderots, etc. of the world with their subsequently metaphorising societies didn’t progress on the basis that human progress occurs anyway but because they effectively superseded their identified-and-defined ontological-performance destructuring-threshold-of-ontological-performance and uninstitutionalised-threshold, and it is this difficult task of cross-generational mobilisation that enables the prospective constructiveness-of-ontological-performance for human living-development-as-to-personality-development, institutional-development-as-to-social-function-development and Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. The implicated passivity behind such reflections that human progress occurs anyway again highlights why the intemporal mental-dispositions behind the superseding of destructuring-threshold-of-

ontological-performance need to be integrated into the very core of such secondnatured
 formulaic/mechanical-knowledge outcome as part and parcel of knowledge, construed as
 organic-knowledge. Otherwise, the very vocation behind such organic-knowledge end up
 being denatured as of deficient
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, and this
 inevitably actually occurs and reoccurs throughout the ontological-contiguity—of-the-
 human-institutionalisation-process; such that prospective social-construct constructiveness-
 of-ontological-performance and institutionalisation is ever always a process of maximalising-
 recomposuring-for-relative-ontological-completeness to prospectively recapture the
 edginess/incisiveness—of-
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for prospective
 organic-knowledge lost in secondnatured institutionalisation with the latter construed in
 temporality/shortness often bound to induce incrementalism-in-relative-ontological-
 incompleteness as of poor
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. Inevitably
 across the various registry-worldviews/dimensions in reflecting the ontological-contiguity—
 of-the-human-institutionalisation-process, the universally-transparent articulation-and-
 implications (as herein) of human destructuring as reflected by ‘<formative>epistemic-
 totalising/circumscribing/delineating dementing/preconverging—qualia-schema’ and
 constructiveness as reflected by ‘<formative>epistemic-totalising/circumscribing/delineating
 dialectical-thinking/postconverging—qualia-schema’ inherently elicits from the human-
 subpotency epistemic/notional_projective-perspective reflected as of the
 ‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging—
 qualia-schema’ in <formative>epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag, a sense of temporal social-stake-

contention-or-confliction existential-investment ushering in the furthering of
 temporality/shortness as of untransvaluated-temporal-intemporality inclination and
 accompanying sophistic/pedantic complexes. But from the intemporal-as-ontological
 teleologically-elevated projection reflected as from existence-potency-prospective-
 digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-
 thought-in-epistemic-conflatedness’ epistemic/notional_projective-perspective for
 aetiologisation/ontological-escalation such temporal-dispositions are rather unwarranted and
 irrelevant since such aetiologisation/ontological-escalation is rather geared towards the
 prospective relative-ontological-completeness implied social-stake-contention-or-confliction
 as of human intemporal/ontological/social/species/universal/transcendental/maximalising-
 recomposuring-for-relative-ontological-completeness paradigm and not the prior relative-
 ontological-incompleteness social-stake-contention-or-confliction in extricatory/temporal
 paradigm; and candidly so to the extent that the intemporal-as-ontological dispensing-with-
 immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as
 of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-
 collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-
 prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-
 perception,-re-thought-in-epistemic-conflatedness’ to supersede human temporality/shortness
 <formative>wooden-language-(imbued—averaging-of-thought-<as-to-
 leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-
 ‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)) is not
 interpreted from a temporal existential-extricator-as-of-existential-unthought perspective as
 ineptness warranting the furtherance of temporal-dispositions as of untransvaluated-
 temporal-intemporality inclination and accompanying sophistic/pedantic complexes as well
 as to the extent of entailing prospective relative-ontological-completeness. We can appreciate

in this regards that the intemporal projection as of base-institutionalisation implies an incisive/edgy apriorising-teleological-elevation-in-ontological-contiguity beyond recurrent-utter-uninstitutionalisation social-stake-contention-or-confliction as of its ‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–qualia-schema’ in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and likewise with the intemporal projection as of universalisation over base-institutionalisation–ununiversalisation, positivism over universalisation–non-positivism/medievalism and prospectively deprocrypticism over positivism–procrypticism. In this regards, the notion of dementing-or-preconverging–apriorising-psychologism as reflected as of ‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–qualia-schema’ of prior relative-ontological-incompleteness is tied-to and a necessarily associated notion with that of dialectical-thinking-or-postconverging–apriorising-psychologism as reflected as of ‘<formative>epistemic-totalising/circumscribing/delineating dialectical-thinking/postconverging–qualia-schema’ with respect to the possibility of a protracted-consciousness conceptualisation in reflecting the ontological-contiguity—of-the-human-institutionalisation-process; and as this explains the successive construction-of-the-Self reflected in the successive registry-worldviews/dimensions. It is the possibility for the human mind to dement as of a ‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–qualia-schema’ by its self-conscious <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought as of its <formative>epistemic-totalising–thrownness-in-existence that structurally/paradigmatically allows for the possibility of prospective institutionalisation involving the displacement/decentering-of-the-human-subject. Unlike our naïve human-subpotency epistemic/notional_projective-perspective inclined to perceive prior registry-worldviews/dimensions in their

‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–qualia-schema’ in stigmatising terms-as-of-axiomatic-construct, the ontological-veracity from existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’

epistemic/notional_projective-perspective is one that rather entails a forward-thinking appreciation that the possibility of all prospective relative-ontological-completeness dialectical-thinking-or-postconverging–apriorising-psychologism reflected as of ‘<formative>epistemic-totalising/circumscribing/delineating dialectical-thinking/postconverging–qualia-schema’ can only arise as of the psychoanalytic-unshackling/memetic-reordering/institutional-recomposure possibility of prior relative-ontological-incompleteness dementing-or-preconverging–apriorising-psychologism reflected as of ‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–qualia-schema’, and so whether from a retrospective, present or prospective perspective; speaking of the ‘miracle of the human mind malleable potential as of the human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation’, and implying an obligation for any given registry-worldview/dimension to maximise this human capacity for Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of its growing self-consciousness and self-awareness. In fact, the notion of dementing-or-preconverging–apriorising-psychologism as such speaks of the fact that the entire cross-section of humanity as of recurrent-utter-uninstitutionalisation is of a ‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–qualia-schema’ with respect to prospective base-institutionalisation ‘<formative>epistemic-totalising/circumscribing/delineating dialectical-thinking/postconverging–qualia-schema’, and likewise universalisation with respect to base-institutionalisation–ununiversalisation,

universalisation–non-positivism/medievalism with respect to positivism, and our present
 positivism–procrypticism with respect to prospective deprocrypticism. The fact is, even the
 said prospective transcendence-and-sublimity emancipators across the successive registry-
 worldviews/dimensions in reflecting the ontological-contiguity—of-the-human-
 institutionalisation-process are just as equally relatively enmeshed in many ways with their
 reference-of-thought old psychology ‘<formative>epistemic-
 totalising/circumscribing/delineating dementing/preconverging–qualia-schema’ like say
 Newton’s involvement with alchemy, and the idea of projecting to a prospective
 ‘<formative>epistemic-totalising/circumscribing/delineating dialectical-
 thinking/postconverging–qualia-schema’ speaks of a first level of human
 uninhibitedness/decomplexification that is exactly what allows for human emancipation. This
 further shows how our seemingly objectified presencing—absolutising-identitive-
 constitutedness positivism–procrypticism disposition is all-encompassing as of our
 <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag when we construe of ourselves as
 ‘dialectical-thinking-or-postconverging–apriorising-psychologism as of in-the-absolute’
 without projecting that just as prior generations of humans were both dialectical-thinking-or-
 postconverging–apriorising-psychologism as of their constructiveness-of-ontological-
 performance reflected as of ‘<formative>epistemic-totalising/circumscribing/delineating
 dialectical-thinking/postconverging–qualia-schema’ at their relative-ontological-
 completeness and dementing-or-preconverging–apriorising-psychologism as of their
 destructuring-threshold-of-ontological-performance reflected as of ‘<formative>epistemic-
 totalising/circumscribing/delineating dementing/preconverging–qualia-schema’ at their
 relative-ontological-incompleteness, we equally manifest the same and so-perceived from the
 prospective relative-ontological-completeness of deprocrypticism/preempting—

disjointedness-as-of-reference-of-thought. The critical point here has to do with the fact that beyond the ‘contingent-ontologies—as-of-conventioning-referencing’ of successive registry-worldviews/dimensions, in their <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) as of their ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism, that are enabled by human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as herein implied successively as of non-rules—apriorising/axiomatising/referencing—psychologism of recurrent-utter-uninstitutionalisation, rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism of base-institutionalisation, universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism of universalisation, positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism of our positivism and preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism; the ontological-contiguity—of-the-human-institutionalisation-process can thus be qualified as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ as its opened-construct-of-meaningfulness-and-teleology

reflects the comprehensive ontological-veracity of the successive registry-worldviews/dimensions becoming as of ontologically-veridical difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism. This ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ is ultimately construed as of notional-conflatedness with futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as notional-deprocrypticism, reflecting the fact that the ontological-contiguity—of-the-human-institutionalisation-process as of successive registry-worldviews/dimensions outcomes can be construed as one of human successive failings to attain deprocrypticism/preempting—disjointedness-as-of-reference-of-thought singularisation/epistemic-immanence/veridical-epistemic-determinism and so up to the prospective human attaining of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought singularisation/epistemic-immanence/veridical-epistemic-determinism. Thus the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ highlights that as of our positivism–procrypticism <formative>wooden-language-⟨imbued—averaging-of-thought-⟨as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>⟩ as of its ontologically-flawed identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism, we are involved in a fundamental disjointedness-as-of-reference-of-thought in the sense that we seem to imply in our <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag that our ‘positivism–procrypticism

contingent-ontology—as-of-conventioning-referencing’ as reflected by our positivist science-ideology and humanism ideology seemingly surpasses the very ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ in reflecting the ontological-contiguity—of-the-human-institutionalisation-process that engendered our positivism/rational-empiricism creating as of epistemic-ricochetting the said science without the science-ideology and the said human emancipation without the humanism ideology. This fundamental disjointedness explains why and how our positivist science-ideology and humanism ideology so-misconstrued beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> rather turns out to be denaturing and undermines prospective Being-development/ontological-framework-development, and explains our inclination to ask the wrong questions given the false sense of certainty arising from this ‘positivism—procrysticism contingent-ontology—as-of-conventioning-referencing’. Such questions with regards to how the humanities can be further developed as efficaciously as the natural sciences, how can philosophy be more socially potent, and on the social paradoxes of our suboptimum institutional-development—as-to-social-function-development and living-development—as-to-personality-development, more critically point to the ontological-veracity in reflecting the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ as of its implied intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/throwness-disposition,—as-reproducibility-of-aestheticisation registry-worldviews/dimensions; and so critically by

the displacement/decentering-of-the-human-subject as of psychoanalytic-

‘contingent-ontology—as-of-conventioning-referencing’ is the outcome in reflecting the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ and that any such ‘contingent-ontology—as-of-conventioning-referencing’ is not of the appropriate ontological-veracity depth/perspective for contemplating prospective Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity as it inevitably enters into an epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag given its relative-ontological-incompleteness that fails to put itself in question with regards to the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. This displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure further points out from the perspective in reflecting the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ the underlying ontological-veracity of human ontological-dementation/dialectical-dementation—stranding/attributive-dialectics as it speaks of the human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology as actually of an underlying coupling of dialectical-thinking-or-postconverging—apriorising-psychologism constructiveness-of-ontological-performance as reflected by ‘<formative>epistemic-totalising/circumscribing/delineating dialectical-thinking/postconverging—qualia-schema’ and dementing-or-preconverging—apriorising-psychologism destructuring-threshold-of-ontological-performance as reflected by

‘<formative>epistemic-totalising/circumscribing/delineating dementing/preconverging–
 qualia-schema’. Ultimately, human ontological-dementation/dialectical-dementation–
 stranding/attributive-dialectics is the notion underlying human self-consciousness as of
 construction-of-the-Self all along in reflecting the ontological-contiguity—of-the-human-
 institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-
 framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-
 meaningfulness-and-teleology’. It all arises from the ‘human capacity for
 decomplexified/uninhibited dementing-or-preconverging–apriorising-psychologism’ in order
 to then ‘prospectively induce originally/as-of-event prospective dialectical-thinking-or-
 postconverging–apriorising-psychologism’. In this regards, we can factor in for instance that
 more critically rather than construing the prospective reification of the humanities and
 philosophy for instance in terms of breakthroughs along the lines of say exceptional methods
 or capacity along the lines of our ‘positivism–procrypticism contingent-ontology—as-of-
 conventioning-referencing’, the reality of any such transcendence-and-sublimity will rather
 be ‘a more candid face-up with our procrypticism/disjointedness-as-of-reference-of-thought’
 as herein implied by this author as of the notion of ‘beyond-the-consciousness-awareness-
 teleology-<in-existential-extrication-as-of-existential-unthought> institutional-being-and-
 craft, muddlement and other intellectual complexes/inhibitions’ that
 structurally/paradigmatically as of a destructuring-threshold-of-ontological-performance
 cloud/undermine the potential for further intellectual emancipation, and so similar to the
 breakthrough that brought about budding positivism/rational-empiricism as of say the
 reasoning-through/messianic-reasoning Galilean gesturing paradigm based on the fact that
 looking in the telescope we can appreciate how the planets moved around the sun and as this
 budding positivism/rational-empiricism reproducibility—mathesis/motif/throwiness-
 disposition,—as—reproducibility-of-aestheticisation was relayed by other budding positivists,

and so over the destructuring-threshold-of-ontological-performance of traditional medieval no-trouble disposition to perceive and take comfort in traditional scholasticism reasoning-from-results/afterthought pedantry as if critical reification will arise by that pathway. In other words, the possibility of all human prospective transcendence-and-sublimity arises not as we may naively construe vaguely as of exceptional occurrence on the basis of incrementalism-in-relative-ontological-incompleteness disposition but rather more concretely only after human decomplexing/uninhibiting paradigmatic development ‘weaning humankind from its traditional complexes/inhibitions reasoning-from-results/afterthought conceptualising flaws’ that then brings about the corresponding existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ level for human emancipation as of maximalising-recomposuring-for-relative-ontological-completeness; and this is effectively reflected in all cases of human transcendence-and-sublimity. Whether of low or high emotional-involvement, it is inevitably the case that the structural/paradigmatic possibility for prospective human transcendence-and-sublimity ever always and has ever always involved or been-grounded-on-prior ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning recurrent shot for completeness as of successive reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation’ inducing the displacement/decentering-of-the-human-subject as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure; as we can appreciate for instance that without the secondnature institutionalisation arising as from the Galilean gesturing reasoning-through/messianic-reasoning highlighted above, there wouldn’t have been the human psychology reflected in the displacement/decentering-of-the-human-subject as of the resultant reasoning-from-results/afterthought later on in the 20th century to

acquiesce to such breakthroughs like theory-of-relativity-together-with-quantum-mechanics—axiomatic-constructs with barely any social contestation. Thus psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, as of human ontological-dementation/dialectical-dementation—stranding/attributive-dialectics implied prospective dialectical-thinking-or-postconverging—apriorising-psychologism and prior dementing-or-preconverging—apriorising-psychologism, is merely a reflection of the fact that human meaningfulness-and-teleology is ever always as of the very same overall purview that is existence but then as of various state of human relative-ontological-incompleteness/relative-ontological-completeness of reference-of-thought so-construed as registry-worldviews/dimensions, such that human meaningfulness-and-teleology is thus of lower to higher ontological-veracity/ontological-performance as of relative-ontological-completeness. Further as of human <formative>epistemic-totalising—thrownness-in-existence with human meaningfulness-and-teleology rather undertaken on the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising—purview-of-construal’ and thereof devolving as of existence-as-of-existential-instantiations, the implication is that human meaningfulness-and-teleology is thus ‘a-given-<formative>epistemic-totalising—thrownness-in-existence construct on existence-as-of-devolving-existential-instantiations’ as reflected in the ontological-veracity/ontological-performance of its given <formative>epistemic-totalising—thrownness-in-existence registry-worldview/dimension reference-of-thought-devolving meaningfulness-and-teleology; such that inherently the possibility of prospective virtue and prospective grander ontological-veracity/ontological-performance as required for prospective transcendence-and-sublimity beyond/superseding the given <formative>epistemic-totalising—thrownness-in-existence registry-worldview/dimension ontological-veracity/ontological-performance as so-reflected in its ‘apriorising-teleological-thresholding—as-teleological-framework/narrative-framework

It is this <formative>epistemic-totalising-throwness-in-existence induced <formative>epistemic-totalising/circumscribing/delineating nature of human meaningfulness-and-teleology that renders it necessarily an exercise of <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as of existence-in-devolving-existential-instantiations; such that the construal of human meaningfulness-and-teleology is rather as of the given <formative>epistemic-totalising-throwness-in-existence registry-worldview/dimension 'apriorising-teleological-thresholding-as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness', as of <formative>epistemic-totalising/circumscribing/delineating-narrative. This comprehensive elucidation as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ and human-subpotency implications of ontological-performance articulated above, can more fully be abstracted to reflect the overall ‘effecting-phenomenality underlying existence and existential-manifestations’. The implied underlying singularisation/epistemic-immanence/veridical-epistemic-determinism of existence as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism notionally/epistemically reflecting the ecstatic singularity of existence speaks of the imbued structural/paradigmatic unity of the reflected existential sublimation manifestations. Such an ecstatic singularity of existence is

what renders intelligibility possible as of the ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human). This ecstatic singularity of existence is its primordial ineffability, as beyond any <formative>epistemic-totalising–thrownness-in-existence appraisal but then enabling the meaningfulness-and-teleology validatory possibility of any such state of <formative>epistemic-totalising–thrownness-in-existence by way of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity. The ecstatic singularity of existence is the very shepherding/ushering/heralding possibility for existence’s intelligibility. Thus the supervening unity of all existential sublimation manifestations arises as of their notional-conflatedness intelligibility derived from the primordial ineffability of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’ (so-enabled by underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity and not any notion of vague innateness besides existentially inherent human-subpotency potential to manifest as human); and this primordial ineffability is thus the epistemic guidance for the construal of intelligibility in all existential sublimation manifestations. <formative>epistemic-totalising–thrownness-in-existence’ is the metaphoricity/ecstasy of existence in its supervening notional-conflatedness intelligibility. This basically captures the very notions of singularisation/epistemic-immanence/veridical-epistemic-determinism and dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism as can be reflected in explicating ‘phenomenal/manifest_subpotencies-<in-transitive-conflatedness–reflexivity,-in-the-full-potency-of-existence> in <formative>epistemic-totalising–thrownness-in-existence’ ontological-veracity/ontological-performances as of ontological-primemovers-totalitative-framework potential sublimating-over-desublimating implications of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’, as stood out outstanding/in-waiting/in-abeyance/in-pending. In all these instances, the sophists as of its existential-extrication-as-of-existential-unthought with respect to social-stake-contention-or-confliction are ever always inclined to eliciting-of-immediacy-as-of-relative-ontological-incompleteness-dereification for <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) disposition, and when the outcome of reasoning-through/messianic-reasoning dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension accrue prospectively the sophists react

as if ‘human progress occurs anyway’ as the idea of a human existential tale perpetuation and its implications is alien to the sophists since all that counts is the immediate now and its temporal/mortal social-stake-contention-or-confliction interests; and worst still, human limited-mentation-capacity in inducing prospectively relative-ontological-completeness as of the weaknesses associated in all human transcendence-and-sublimity is held by the sophists against any such reasoning-through/messianic-reasoning for transcendence-and-sublimity. Inherently, while the intemporal projection coherence of reasoning-through/messianic-reasoning spans the ontological-contiguity—of-the-human-institutionalisation-process as the ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’, what is peculiar about sophistry is that the whole tale of humanity starts-and-ends by their given registry-worldview/dimension and other registry-worldviews/dimensions are just other ones and have nothing to say about the present one as of an overall human tale, as the threat of rationalising the implications of such a human existential tale perpetuation may jeopardise their present social-stake-contention-or-confliction temporal interests; and this pattern of sophistic/pedantic interpretation is the same at each and every given registry-worldview/dimension as it is obviously not oblivious to the reasoning-through/messianic-reasoning which organic-contemplation spans registry-worldviews/dimensions and identifies the nature of the sophistic/pedantic inclination in each and every one of the registry-worldviews/dimensions. Inevitably thus since the possibility for human ideal as of prospective transcendence-and-sublimity implications necessarily involves a parrhesiastic reifying gesture of dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension which is ‘never always the easiest of notion’ for human <formative>wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-

‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)

disposition, especially as this often always implies the displacement/decentering-of-the-human-subject, it is inevitably the case that such ideal as of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning’ has to reckon with the temporal social-stake-contention-or-confliction human sophistry eliciting-of-immediacy-as-of-relative-ontological-incompleteness-dereification for <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)

disposition meant at stifling the possibility for prospective transcendence-and-sublimity, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. In all such instances as was realised by universalising-idealisation philosophers Socrates/Plato/Aristotle as well as budding positivists, the notion of dialogical-equivalence and intellectual-and-moral-equivalence is not a given, and as the sophists commit to sophistry the genuine intellectual holds it against the sophists to imply they are effectively of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema>’ rather than ‘apriorising-teleological-elevation-in-ontological-contiguity’ to avoid wrongly implying dialogical-equivalence, as the latter notion only arises as of mutual apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in relative-ontological-completeness as of the underlying registry-worldview/dimension reference-of-thought <formative>epistemic-totalising-devolved-apriorising-rule; as there can be no genuine contention between a universalising-idealisation mindset and a sophistic/pedantic ad-

hoc/makeshift/nonprincipled–syllogising mindset or a positivising/rational-empiricism mindset and medieval pedantic/dogmatic mindset, if just for the mere sake of preserving and avoiding the denaturing of the universalising-idealisation meaningfulness-and-teleology or positivising/rational-empiricism meaningfulness-and-teleology. This is more critically the case as the fact is the possibility for prospective human emancipation is exactly the most difficult thing for humankind to countenance, and that is exactly why the successive uninstitutionalised-thresholds arise in the first place; and the sophistic/pedantic treachery/muddlement/acting-out of usurping such difficult quest for its temporal social-stake-contention-or-confliction has always been addressed not by a faulty pretence of mutually objectifying intellection between genuine intellectualism and sophistry, which is of flawed epistemic-veracity and thus ontological-veracity, but rather a blunt parrhesiastic disavowal of such sophistic/pedantic treachery/muddlement/acting-out for what it essentially is; as with the universalising-idealisation philosophers not wasting their time in pretence of engaging the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset or the budding positivists/rational-empiricists dismissing off-hand pedantic scholasticism. The habituated idea of dialogue/dialogical-equivalence arises as of the mental-reflex that ordinarily all meaningfulness-and-teleology as of a given registry-worldview/dimension is grounded on the same apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument notwithstanding the existential-instantiation soundness or unsoundness of its devolving aposteriorising/logicising/deriving/intelligising/measuring. But where in the instance of dissimilar apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, despite our habituation, dialogue/dialogical-equivalence as of ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging–qualia-schema>’ does not avail as of epistemic-

veracity and thus ontological-veracity as of the ‘apriorising-teleological-degradation-in-
 notional-discontiguity/epistemic-discontiguity-<mentally-
 aestheticised_dementing/preconverging–qualia-schema>’ closed <formative>epistemic-
 totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in prior
 relative-ontological-incompleteness which rather warrants psychoanalytic-
 unshackling/memetic-reordering/institutional-recomposure for prospective relative-
 ontological-completeness. This is akin to the mathematician opened to mutual calculating
 even where one could produce a wrong solution as of
 aposteriorising/logicising/deriving/intelligising/measuring flawed ontological-performance
 but this only holds with the mathematical
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit for
 engaging genuinely and naturally in the calculations; where that
 apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument spirit is lost,
 fundamentally the notion of mutual calculating is then ontologically and epistemically
 flawed. Ultimately, the notion of meaningfulness-and-teleology as of ontological-veracity is
 about the ‘reasoning-through transversality-of-disambiguated-
 apriorising/axiomatising/referencing’ of contentions for the determination of existence-
 potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-

 totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–
 implications,-for-explicating-ontological-contiguity; and it is rather different from a
 sovereign construct grounded on sovereign choice whether there is ontological-veracity or
 ontological-impertinence. The human existential tale as ‘humanity project’ has ever always
 been one of ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-
 underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-

 through/messianic-reasoning' as implied in the 'seeding promise of human-subpotency
 ontological-performance equivalence/correspondence with the full-potency-of-existence-as-
 of-its-coherence/contiguity'. The secondnatured institutionalisation constructs as of sovereign
 institutions and establishment frameworks are 'not to be necessarily-and-absolutely
 considered as knowledge reifying frameworks', as could falsely be implied by cohorting
 sovereign institutions and establishments surreptitiously usurping the knowledge-reification
 role and as beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-
 existential-unthought> surreptitiously defining what can be thought or not thought. The fact
 is such implied underpinning—suprasocial-constructs are mainly secondnatured whether as

 <formative>epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag in prior relative-ontological-
 incompleteness with respect to social-stake-contention-or-confliction and are thus not the
 absolutising framework of human meaningfulness-and-teleology, as the social knowledge-
 reification role must always be opened to 'intemporal individuation ontological-faith-notion-
 or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic

 possibility of its arising in any humans and in whatever specific purviews of existence, as this
 is what is instigative of 'true-ontology—as-of-Being-development/ontological-framework-
 expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-
 and-teleology'; as it is only by the latter process that the 'suprasocial obsession/myopism as
 of a given registry-worldview/dimension social-stake-contention-or-confliction' can be
 superseded, as of reconstruing recurrent-utter-uninstitutionalisation underpinning—

suprasocial-construct rather as of base-institutionalisation, base-institutionalisation–
 ununiversalisation underpinning–suprasocial-construct rather as of universalisation,
 universalisation–non-positivism/medievalism underpinning–suprasocial-construct rather as of
 positivism, and prospectively positivism–procrypticism underpinning–suprasocial-construct
 rather as of deprocrypticism/preempting—disjointedness-as-of-reference-of-thought. We can
 appreciate in this regards that the universalising-idealisation philosophers and budding
 positivists trajectory of contemplation were actually counterintuitive to what their respective
 underpinning–suprasocial-construct construed as human progress and the possibility for
 human progress. The naivety of referring to the underpinning–suprasocial-construct
 conventioning-referencing as of its framework of establishments and sovereign institutions as
 if this was absolutely substitutive of ontology as of prospective ‘true-ontology—as-of-Being-
 development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-
 infrastructure-of-meaningfulness-and-teleology’ induced as of ‘intemporal ontological-faith-
 notion-or-ontological-fideism—imbued-underdetermination-of-
 apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic

 nothing but <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag which obviously doesn’t register/is-
 unaccounted internally because (but from the existence-potency-prospective-digression-of-
 ‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-
 epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-

 structurally/paradigmatically ‘no registry-worldview/dimension has the eyes to see of its
 defective ontological-performance as it surreptitiously implies that it is absolute beyond-the-
 consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>’.

The fact is, it is this possibility of the universalising-idealisation philosophers Socrates/Plato/Aristotle and the budding positivists putting into question their conventioning-referencing meaningfulness-and-teleology and value that allows for prospective institutionalisation to arise as of universalising-idealisation and positivism/rational-empiricism respectively. In this regards, it is important to grasp that what is peculiar about the successive registry-worldviews/dimensions is the sense that these as of their immediacy disposition are very much cognisant of the Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology leading to the establishment of their given registry-worldviews/dimensions over which their conventioning-referencing is setup but then tend to fail to construe of their prospective possibility of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology; and in this regards, we can appreciate that the pre-Socratic world very much construed of critical ontological insights that went into their various conventioning-referencing like say the Ancient Egyptians with their conventioning-referencing mobilising ontological insights much more obviously with the building of pyramids, the Persians mobilising their ontological insights in empire building, etc. but unlike these relatively cosmopolitan lands with greater technical and knowledge potential, it was the smaller and rustic Greece and specifically Athens that contemplated of prospective Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology with the emergence of universalising-idealisation over ancient mythologies and cultism, likewise the medieval Europe scholasticism was the height of this universalising-idealisation as of its establishment and religious conventioning-referencing but it took budding positivists to come up with the prospect of renewed Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-

meaningfulness-and-teleology, and likewise it is the case that our conventioning-referencing is rather predisposed to construe of our elaborate positivism/rational-empiricism as absolutising and hardly countenancing of its own effort for prospective Being/ontological-framework-expansion. It is herein contended that, as of the implications of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, that in many ways just as the manifestation of postlogism-slantedness associated with notions-and-accusations-of-sorcery as of non-positivism whether as of animistic or medieval social-setups, was difficultly amenable to address as of their given underlying muddlement of social-stake-contention-or-confliction associated fundamentally with their overall <formative>wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>> and underpinning—suprasocial-construct meaningfulness-and-teleology integration of their given non-positivism and superstition, in many ways the manifestation of psychopathy and social psychopathy in our positivism—procrypticism is equally subject to our <formative>wooden-language-<imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>> and underpinning—suprasocial-construct underlying disjointedness-as-of-reference-of-thought muddlement of social-stake-contention-or-confliction as of our uninstitutionalised-threshold; and in both instances insightfully point to underlying reference-of-thought relative-ontological-incompleteness at destructuring-threshold-of-ontological-performance which is the grander issue of aetiologisation/ontological-escalation as to the fact that fundamentally prospective positivism registry-worldview/dimension supersedes-and-deflates the vices-and-impediments of non-positivism as of animism or medievalism and thereof their devolving

associated manifestations of non-positivism and specific superstitious nature as well as the idea that prospective deprocrypticism/preempting—disjointedness-as-of-reference-of-thought supersedes-and-deflates the overall vices-and-impediments of our positivism—procrypticism/disjointedness-as-of-reference-of-thought underlying the devolving social manifestation of psychopathy and social psychopathy. Thus the practice of construing absolutely the <formative>epistemic-totalising–self-referencing–syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of any given registry-worldview/dimension in relative-ontological-incompleteness like our positivism–procrypticism speaks of a loss of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ to the given registry-worldview/dimension conventioning-referencing. In this regards, we can appreciate that our own projection of prospective deprocrypticism implied Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of its prospective singularisation/epistemic-immanence/veridical-epistemic-determinism will construe of our present positivism–procrypticism conventioning-referencing as dissingularisation/epistemic-nonimmanence/flawed-epistemic-determinism to be more than just as of our traditional, cultural and aesthetic idiosyncratic habituations grounded on our positivism–procrypticism underlying reference-of-thought that more or less supresses the possibility of prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’, and equally garner that just as the sophists—ideal-type-or-individuation of ad-hoc/makeshift/nonprincipled–syllogising mindset and medieval-scholasticism-pedants—ideal-type-or-individuation never factored in that their respective supposedly presencing—

absolutising-identitive-constitutedness construal of ontology as sophistic/pedantic ad-hoc/makeshift/nonprincipled-syllogising and medieval scholastic pedantry were to be reconstrued as rather being of contingent-ontology—as-of-conventioning-referencing respectively by Socratic philosophers universalising-idealisation and budding positivists as of their respective prospective parrhesiastic revaluation of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’; likewise, our supposedly positivism-procrypticism presencing—absolutising-identitive-constitutedness construal of ontology as reflected in present subject-matters in many ways will be reconstrued as contingent-ontology—as-of-conventioning-referencing as of deprocrypticism implied prospective parrhesiastic revaluation of ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. As such deprocrypticism ontology as ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ reflects that: our philosophising should rather be able to conceptualise its epistemic-emanence as a holistic conflatedness reifying of the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising-purview-of-construal’ as of transepistemic/epistemic-ricochetting retrospective-to-prospective implications of relative-ontological-completeness-of-reference-of-thought underlying the ontological-dementation/dialectical-dementation—stranding/attributive-dialectics in reflecting the ontological-contiguity—of-the-human-institutionalisation-process and as such construal of philosophy is rather considered as morphing as of human division of labour into the disparate subject-matter purviews-of-construal-of-existence reification and so in reflection of existence’s supervening-conflatedness, and with all human meaningfulness-and-teleology

Ultimately, Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology points to the fundamental dialecticism of human meaningfulness-and-teleology; as to the fact that the human is that which is in <formative>epistemic-totalising—thrownness-in-existence as of recurrent-utter-uninstitutionalisation <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag by its reference-of-thought

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument but then is warranted to ontologically-complete itself successively as of base-institutionalisation, universalisation, positivism and prospectively deprocrypticism apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. The human then is what is warranted to reconstrue Rousseauian perfectibility out of its <formative>epistemic-totalising—thrownness-in-existence flawed constructiveness-of-ontological-performance as of its destructuring-threshold-of-ontological-performance, as it can’t pretend to avoid this purposefulness as it is, as of its any presencing—absolutising-identitive-constitutedness state, the outcome of such purposefulness as relayed with the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-

Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. This coherently explains the inevitability of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen’ for originary/as-of-event reasoning-through/messianic-reasoning prospective relative-ontological-completeness-of-reference-of-thought; as when the organic-knowledge avails it is much more than just an idea of choice but rather an obligation as of the implied inherently antiakrasiatic disposition that can’t afford to overlook as if lacking the organic-knowledge for degrading into <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in existential-extrication-as-of-existential-unthought. When the dialecticism of human meaningfulness-and-teleology as of its prospective ontological-performance implications as of virtue at constructiveness-of-ontological-performance and vices-and-impediments at destructuring-threshold-of-ontological-performance shows itself to be definitely determinable and is no longer the bigger issue for prospective human emancipation but rather the bigger issue becoming one of human psychological cognisance and adjustment to any such prospective emancipatory meaningfulness-and-teleology as so-reflected across the successive registry-worldviews/dimensions transcendence-and-sublimity. The underlying difficulty of all such psychoanalytic-unshackling/memetic-reordering/institutional-recomposure is all about how can a mindset adjusted as of its <formative>epistemic-totalising—thrownness-in-existence as of its given <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument for construing meaningfulness-and-teleology in <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-

 The 'shiftiness-of-the-Self' thus refers to any given registry-worldview's/dimension's—
 reference-of-thought-for-social-functioning-and-accordance 'specific bottomline—of-mere-
 mathesis/motif/thrownness-disposition for the constructiveness of meaningfulness-and-

teleology as of its specific construction-of-the-Self”, beyond which bottomline-of-mere-mathesis/motif/throwness-disposition the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance allows/disregards/unaccounts for human temporal shiftiness as defining its prospective destructuring-threshold-of-ontological-performance, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>; and this is exactly what explains the differentiation of registry-worldviews/dimensions as of their relative-ontological-completeness-of-reference-of-thought. The ‘shiftiness-of-the-Self’ structurally/paradigmatically defines the given ‘edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflected as of singularisation-as-of-intemporality/dissingularisation-as-of-temporality of the meaningfulness-and-teleology’ of a given registry-worldview/dimension implied as of its ‘apriorising-teleological-thresholding—as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’ temporal-to-intemporal ontological-performance. Thus the requisite profoundness/depth of prospective human ‘social-construction of meaningfulness-and-teleology as of social-stake-contention-or-confliction’ as reflected at the prospective superseding/transcending registry-worldview/dimension, as from existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ as-to-ontologically-uncompromised-ontological-normalcy/postconvergence/referentialism perspective, can only arise fundamentally as of the prospective construction-of-the-Self renewed secondnatured institutionalisation ‘edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflected as of singularisation-as-of-intemporality/dissingularisation-as-of-temporality of the meaningfulness-and-teleology’ arising from renewed ‘intemporal antiakrasiatic disposition

for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ for prospective relative-ontological-completeness’ in undermining the prior registry-worldview’s/dimension’s ‘shiftiness-of-the-Self’ that defines its deconstructing-threshold-of-ontological-performance as uninstitutionalised-threshold; and thus moving the ontological-contiguity—of-the-human-institutionalisation-process bar of ‘shiftiness-of-the-Self’ to the prospective registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance ‘specific bottomline—of-mere-mathesis/motif/thrownness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self’. Thus we can appreciate fundamentally that, as reflected in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, human ‘prospective intemporal-as-ontologically-veridical/ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing-as-so-being-as-of-existential-reality parrhesiastic seeding-promise of reasoning-through/messianic-reasoning meaningfulness-and-teleology as equivalence/correspondence antiakrasiatic-aspiration’ over ‘temporal/sophistic-as-ontologically-flawed/ontological-bad-faith reproducibility—mathesis/motif/thrownness-disposition,—as-reproducibility-of-aestheticisation seeding-misprising of reasoning-from-results/afterthought meaningfulness-and-teleology as covert-pretence-of-equivalence/correspondence—antiakrasiatic-aspiration-ontological-performance’, has ever always been more critically about the ‘existentially-operant constraining’ for: moving the ontological-contiguity—of-the-human-institutionalisation-process bar of ‘shiftiness-of-the-Self’ to the prospective registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance ‘specific bottomline—of-mere-mathesis/motif/thrownness-disposition for the constructiveness of meaningfulness-and-

teleology as of its specific construction-of-the-Self” in order to undermine human destructuring-threshold-of-ontological-performance; rather than truly eliminating human ‘shiftiness-of-the-Self’ arising from the ever always present human ‘temporal/sophistic-as-ontologically-flawed/ontological-bad-faith reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation seeding-misprising of reasoning-from-results/afterthought meaningfulness-and-teleology as covert-pretence-of-equivalence/correspondence—antiakrasiatic-aspiration-ontological-performance’. Thus the ontological-contiguity—of-the-human-institutionalisation-process as of the successive registry-worldviews/dimensions given ‘edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflected as of singularisation-as-of-intemporality/dissingularisation-as-of-temporality of the meaningfulness-and-teleology’ arising from renewed ‘intemporal antiakrasiatic disposition for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) for prospective relative-ontological-completeness’, in the restructuring/reparadigming of human ‘social-construction of meaningfulness-and-teleology as of social-stake-contention-or-confliction’, can be interpreted as moving the ontological-contiguity—of-the-human-institutionalisation-process bar of ‘shiftiness-of-the-Self’ to the prospective registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance ‘specific bottomline—of-mere-mathesis/motif/throwness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self’: so-construed as from recurrent-utter-uninstitutionalisation non-rules—apriorising/axiomatising/referencing—psychologism ‘shiftiness-of-the-Self’; base-institutionalisation—ununiversalisation rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism ‘shiftiness-

We can appreciate in this regards that both for the individual and the social, the capacity to 'spontaneously' be able to articulate 'social-construction of meaningfulness-and-teleology as of social-stake-contention-or-confliction' as in the prospective relative-ontological-completeness registry-worldview/dimension is fundamentally hampered by its given registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance 'specific bottomline–of-mere-mathesis/motif/throwness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self' due to its corresponding lack of 'intemporal antiakrasiatic disposition for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension as of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) for prospective relative-ontological-completeness' that can then allow for the requisite 'edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflected as of singularisation-as-of-intemporality/dissingularisation-as-of-temporality of the meaningfulness-and-teleology'. In this regard, we can more specifically appreciate the central

and transformative implications of the Socratic philosophers universalising-idealisation as of the prospective universalisation registry-worldview/dimension ‘social-construction of meaningfulness-and-teleology as of social-stake-contention-or-confliction’, wherein such prospective ‘shiftiness-of-the-Self’ as induced by the Socratic philosophers universalising-idealisation construed as universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism inducing the secondnatured institutionalisation of the universalisation registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance ‘specific bottomline-of-mere-mathesis/motif/throwness-disposition for the constructiveness of meaningfulness-and-teleology as of its specific construction-of-the-Self’ brought about the coherently universalising construction of meaningfulness-and-teleology with the associated elevated level of ontological-performance as manifested with the Socratic method for universal consistency and coherence, Plato’s ideas for universal consistency and coherence and Aristotle’s qualifying-categories and universalising-syllogism for universal consistency and coherence; thus superseding/transcending the ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled—syllogising mindset as of base-institutionalisation mere rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism ‘shiftiness-of-the-Self’. This is the more profound explanation for the hegemonising ontological-grip thereafter of the Socratic philosophers defining universalisation meaningfulness-and-teleology thereafter over the antiquity and their defining relevance in the latter meaningfulness-and-teleology of all the medieval societies of the Mediterranean and beyond, and so especially as the increasing population mixing thereafter particularly with the Roman empire naturally required/called-for ‘universally coherent, consistent and credible meaningfulness-and-teleology infrastructure as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-

infrastructure-of-meaningfulness-and-teleology’ that went well beyond traditional ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset; as of the knowledge reifying capacity-and-template for developing and cumulating such universalising-idealisation coherence and consistency across culturally diverse peoples and across space and time. The Socratic philosophers crucial and defining emphasis for differentiating themselves from sophists—ideal-type-or-individuation was very much a self-conscious insight as of the requisite parrhesiastic gesturing of ‘intemporal antiakrasiatic disposition for dispensing-with-immediacy-for-relative-ontological-completeness-by-reification/contemplative-distension (as of human self-surpassing—existentialism-form-factor,-in-overcoming-‘notionally-collateralising-protohumanity’-to-‘attain-sublimating-humanity’,-as-to-existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ to supersede human temporality/shortness <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)) as of human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) for prospective relative-ontological-completeness’ to allow for the requisite universalising-idealisation ‘edginess/incisiveness—of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument reflected as of singularisation-as-of-intemporality/dissingularisation-as-of-temporality of the meaningfulness-and-teleology’; which otherwise would be highly underminable as of a predisposition to ad-hoc mysticism, ad-hoc cultism and sophistic/pedantic ad-hoc/makeshift/nonprincipled–syllogising mindset by which populist <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-

 <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-
 ontological-contiguity, dementing-or-preconverging–apriorising-psychologism representation
 is wrongly singularised/immanent while dialectical-thinking-or-postconverging–
 apriorising-psychologism representation is wrongly dissingularised/not-immanent. This
 actually points out why dialogical-inequivalence/intellectual-and-moral-inequivalence as of
 ‘apriorising-teleological-degradation-in-notional-discontiguity/epistemic-discontiguity-
 <mentally-aestheticised_dementing/preconverging–qualia-schema>’ is associated with
 sophistic/pedantic representations as knowledge as well as temporal manifestations of

postlogism-slantedness and conjugated-postlogism manifestations including psychopathy and social-psychopathy as of the positivism–procrypticism registry-worldview. While as of human-subpotency temporal <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag we may be inclined to construe of the notion of dialogical-equivalence as absolutely requisite, the fact is dialogical-equivalence cannot supersede existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ sublimating-validation/desublimating-invalidating implications where its eliciting is structurally/paradigmatically flawed for the simple reason that knowledge as of implied underlying supposedly coherent ontological-commitment as of ontological-primemovers-totalitative-framework <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity is all about existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ and not about human sovereignty; in the sense that for instance gravity on earth as 9.8 m/s^2 doesn’t heed to any human sovereignty exercise as of dialogue as the latter is only as pertinent as it structurally/paradigmatically implies an intermediative process for the deferred-outcome as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ but not otherwise, and as being subpotent with existence it is the human that has to ensure that its meaningfulness-and-teleology coincides with existential veracity, such that where dialogical-equivalence is wrongly implied and thus likely to undermine existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ what gives in is the false notion of dialogical-equivalence. This is equally reflected in the idea that the edginess/incisiveness—of-

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of
 meaningfulness-and-teleology is rather as of the implication of relative-ontological-

habitual human mental-reflex as of any given registry-worldview's/dimension's-reference-
of-thought-for-social-functioning-and-accordance to systemically imply and attribute
dialogical-equivalence with regards to social-stake-contention-or-confliction as of
'apriorising-teleological-elevation-in-ontological-contiguity'. While this mental-reflex is
usually valid in most circumstances, however, in the specific circumstances of pseudo-

Contrary to the ontologically-flawed implications of identitive-constitutedness-as-epistemic-totality-dereification-in-dissingularisation-as-flawed-epistemic-determinism in reflecting that human meaningfulness-and-teleology as implied by the ontological-contiguity—of-the-human-institutionalisation-process is rather ad-hoc and disparate across cultures-as-sovereign-constructs-not-constrained-existentially-as-of supposedly coherent ontological-commitment, a <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-ontological-contiguity construal as difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism of human meaningfulness-and-teleology reflects the ontological-contiguity—of-the-human-institutionalisation-process implied connectedness of human meaningfulness-and-teleology as constrained-existentially-as-of supposedly coherent ontological-commitment thus developing as of relative-ontological-completeness ontological-performance implications of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal). ontological-contiguity') schemes. The underlying explanation for disparateness here is effectively construed as a question of the implications of 'relative-ontological-incompleteness/relative-ontological-completeness of ontological-performance' wherein varying ontologically-flawed superfluous, superstitious, mystical and cultic interpretations of the natural world <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality speaks rather of states of relative-ontological-incompleteness and the prospective possibility of ontologically-veridical grander unifying scientific explanation of the natural world <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality speaks rather of relative-ontological-completeness. Such <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity construal points out that disparateness of meaningfulness-and-teleology as often wrongly projected in many a social domain-of-study is not an inherently sovereign notion as to the fact that construal as of relative-ontological-incompleteness cannot be 'qualified as sovereign and beyond the countenance of its ontological-veracity as from relative-ontological-completeness perspective' given that all human meaningfulness-and-teleology are of supposedly coherent ontological-commitment as so-reflected by its self-assuredness-of-authenticity with respect to its social-stake-contention-or-confliction'; such that while recognising the human-subpotency epistemic-veracity perspective of say a given social-setup attributing an ailment to say magic, this doesn't override the notion of inherent ontological-veridicality as of existence-potency-prospective-digression-of- '<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness' epistemic/notional_projective-perspective wherein modern society in relative-ontological-completeness attributes the ailment to say flu. In order words, sovereign commitments, recognised as of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation, do not override the

pre-eminence of supposedly coherent ontological-commitment as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ epistemic/notional_projective-perspective, in which case no human transcendence-and-sublimity will be possible. Stated another way, if Einstein’s or Bohr’s seminal theories were viewed say unfavourably by the physics community of their time as of their sovereign predisposition, that wouldn’t annul the ontological-veracity of their theories even if Einstein or Bohr were to acquiesce to that sovereign predisposition over their own theories, for the simple reason that knowledge is constructed as of the absolute dominance of intrinsic-reality as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ over the mortals that we as human beings are in order for transcendence-and-sublimity to be possible; and that reality with respect to knowledge doesn’t speak of totalitarianism as will often be sophistically usurped when it comes to the blurriness of the social domain-of-study, as the charge of totalitarianism can only apply with respect to sovereign choice. Further a <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity construal equally points out that the-very-same-immanent-existence/intrinsic-reality/ontological-veridicality,-as-to-‘human<formative>epistemic-totalising–purview-of-construal’ or any <formative>epistemic-totalising-devolved–purview-as-domain-of-construal-as-intrinsic-reality/ontological-veridicality does not imply the structural/paradigmatic change of existence-as-of-existential-contextualising-contiguity but rather that change is the outcome of human limited-mentation-capacity-deepening-(formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) maximalising-recomposuring-for-relative-ontological-completeness involving ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of prospective dialectical-thinking-or-postconverging–

apriorising-psychologism representation and prior dementing-or-preconverging–apriorising-psychologism representation; with the implication here that the issue of knowledge is all about developing human-subpotency towards existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’. The conflatedness of existential-contextualising-contiguity in the natural sciences is often poorly perceived inherently because of their subject-matter/domain-of-study implicated nature of philosophical depth of contemplation as of ‘coherence/contiguity-of-superseding–oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness’; such that it is often wrongly construed in atomising/taking-to-pieces constitutedness as of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity but with little consequence since such an atomising/taking-to-pieces constitutedness is generally an ontologically-flawed afterthought reflection/contemplation whereas operantly beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> scientists generally adopt a conflatedness of existential-contextualising-contiguity posture. The reality of existential-contextualising-contiguity conflatedness here is validated by the fact that ‘abstract scientific notions are not the point of departure scientists contemplation’ as they are rather ‘delved in existential-contextualising-contiguity in <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity conflatedness to then reflect abstract scientific notions in existential-contextualising-contiguity knowledge-reification or depart from existential-contextualising-contiguity already reified abstract scientific notions to then reflect further abstract scientific notions in existential-contextualising-contiguity knowledge-reification’. For instance, we can appreciate that physics never establish any

absolute atomising/taken-into-pieces notion of say atoms, space, time, energy, etc. on which it merely then go on to be constituting meaningfulness-and-teleology/knowledge as physics knowledge-reification. Rather we can better appreciate the occurrence of existential-contextualising-contiguity knowledge-reification as of <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity construal in the sense that our ordinary thought process itself is as of <formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity construal of notions like space, time, force, etc. with no absolutely given point of atomising/taking-to-pieces constitutedness even when we may harbour such a confusion, and likewise the development of theories say Cartesian, Newtonian, Einsteinian, String theory, etc. are equally <formative>epistemic-totalising/circumscribing/delineating as to the fact that these imply various ways of reconceptualising the notions of space, time, force, etc. as of the precedence of <formative>epistemic-totalising-renewing-realisation/re-perception/re-thought of existential-contextualising-contiguity of such notions like space, time, force, etc. in <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity conflatedness to then articulate their abstract/theoretical notions/conceptualisations of space, time, force, etc.; thus there isn't any absolutely identitive atomising/taking-to-pieces notions of space, time, force, etc. which are 'constituted once-and-for-all to later on build/reify physics knowledge as of progressive constituting' but rather physics knowledge is always epistemic-retotalising/re-holistic of 'the very same physics notions and their derived implications of new notions' as of existential-contextualising-contiguity in conflatedness involving human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) hermeneutics in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness. We can appreciate that the atomising/taking-to-pieces disposition that is

often wrongly sought in other domains-of-study is often ontologically-flawed because it fails to see that ‘the more elaborate panintelligibility nature of existential-contextualising-contiguity in epistemic conflatedness in their domains-of-study’ implies that their knowledge-reification should increasingly be explicitly holistic/nested-congruence as to the hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness, as even the natural sciences are implicitly epistemically holistic by the mere fact of the ‘precedence of existential-contextualising-contiguity in <formative>epistemic-causality-as-to-projective-totalitative-implications,-for-explicating-ontological-contiguity in epistemic conflatedness to which their abstract notions are aligned’ as well as so-implied by their foregrounding—entailment-(narrowing-down—sublimation as to existence—as-sublimating-withdrawal reflecting ‘immanent-ontological-contiguity’) orientations which drives their knowledge-reification gesturing for unification as to ontological-contiguity as not just an idle quest; and this misconstrual is further reflected by the fact that the life sciences (as of their axiomatic-construct ‘apriorising-teleological-thresholding—as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’) have a more inherently elaborate panintelligibility nature of existential-contextualising-contiguity supervening-conflatedness thus rendering its methodology more explicitly holistic and teleological even as it is often naively and wrongly construed as ‘a relatively weaker natural science’ from a naïve epistemic constitutedness perspective. This underlying <formative>epistemic-totalising/circumscribing/delineating existential-contextualising-contiguity insight reflects ecstatic-existence’s supervening-conflatedness as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educated—human-subpotency—epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation; wherein inherently ‘more immediate epistemically constrained to ontological-primemovers-totalitative-framework’ domains-of-study like physics and the

natural sciences generally are of a less elaborate existential-contextualising-contiguity conceptualisation nature in epistemic conflatedness and can thus be ontologically-falsely be perceived as being of atomising/taking-to-pieces epistemic constitutedness while inherently 'less immediate epistemically constrained to ontological-primemovers-totalitative-framework' domains-of-study like the social domains-of-study are more of an elaborate existential-contextualising-contiguity conceptualisation nature in epistemic conflatedness that speaks to the need for their appropriate holistic hermeneutic depth of ontological-construal, and in both cases in reflecting the implications of human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal⟩ hermeneutics involved in avoiding-and-superseding any presencing—absolutising-identitive-constitutedness for construing their veridical historicity/ontological-eventfulness/ontological-aesthetic-tracing. In many ways the natural sciences by the immediate constraining of their ontological-primemovers-totalitative-framework implicitly avoid atomising/taking-to-pieces constitutedness but the misunderstanding that their knowledge-reification gesturing is effectively as of atomising/taking-to-pieces constitutedness in other domains-of-study ends up having naïve and distortive effects on such domains-of-study knowledge-reification and particularly so with regards to the development of their self-conscious philosophical depth of contemplation as of 'coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness'. It is herein contended that this poor self-conscious philosophical depth of contemplation as of 'coherence/contiguity-of-superseding—oneness-of-ontology-implied-as-of-inherent-existence-coherence/contiguity,-and-so-construed-as-the-enabler-of-insight-or-intuition-or-foresight-as-of-embodied-consciousness' is the structurally/paradigmatically defining issue of many of the social domains-of-study today, as in effect many such domains

are turned into technicality as of institutional-being-and-craft imprimatur, ‘fallback to unquestioned/dogmatic normativities’ and ‘habituated dispositions’ which priorly enframed subject-matters and institutional-setups structurally/paradigmatically stifle the possibility for conceptualisation as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ sublimating-validation/desublimating-invalidating implications beyond their conventioning-referencing enframing, so-implied as of the perspective of notional-deprocrypticism prospective ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’.

Thus existence’s overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation implies the ‘primacy of a <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity basis for conception due to human <formative>epistemic-totalising–thrownness-in-existence’ as ‘existence doesn’t wait for the human to incrementally have the complete picture’ and thus it is ‘the human subject who has to aspire maximalisingly to conform-as-of-its-self-consciousness-growth with existence in a <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity conception’, and this further indicts our traditional conception of induction as being epistemically incremental wrongly construed as of incrementalism-in-relative-ontological-incompleteness that underlies dispositions for <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag because of ‘failure to draw <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity as of displacement/decentering-of-the-human-subject and wrongly construing presencing—absolutising-identitive-constitutedness situations as of

absolute/absolutising grounding’, whereas in reality human <formative>epistemic-totalising–thrownness-in-existence rather points out that the epistemic-veracity of induction is rather as of ‘maximalising <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity’ (which is rather as of epistemic-retotalising/re-holistic of meaningfulness-and-teleology as to <formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness with regards to successive inductions) rightly construed as of maximalising-recomposuring-for-relative-ontological-completeness and ‘totalitatively involving human limited-mentation-capacity-deepening-⟨formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)’ with displacement/decentering-of-the-human-subject; and such a misconstruing of the effective notion of induction speaks of ‘an ontologically-flawed modern positivistic academicism proceduralism reflex of incrementalism-in-relative-ontological-incompleteness’ that misses-out-on and ends up pruning-and-enframing the natural human <formative>epistemic-causality-as-to-projective-totalitative–implications,-for-explicating-ontological-contiguity construal predisposition. The specific human-subpotency as to overall panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence—imbued-and-educed–human-subpotency–epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation, reflecting human underlying supposedly coherent ontological-commitment, is ultimately potentiated as of human ‘intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen for originary/as-of-event reasoning-through/messianic-reasoning’ as of the ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’, as this drives epistemic-ricochettingly/transepistemically the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-

Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’ in developing successive reference-of-thought reproducibility—mathesis/motif/throwness-disposition,—as—reproducibility-of-aestheticisation reflecting human successive self-consciousness/construction-of-the-Self that transcendently-and-sublimely transform human-reflexivity-in-ecstatic-existence so-construed as of human-subject-emancipatory-relativism-driven-recomposuring-constructivism-towards-singularisation; wherein we can appreciate that the instigation of universalising-idealisation meaningfulness-and-teleology infrastructure or subsequent positivising/rational-empiricism meaningfulness-and-teleology infrastructure transform human potentiation construed as ‘human-subpotency convergence to existence’ with regards respectively to the specific base-institutionalisation or rational-empiricism/positivism self-consciousness/construction-of-the-Self implied as of the specific Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology. This self-consciousness/construction-of-the-Self notion is what deflates such ‘issues implied with regards to human sovereign options/choice or freewill’ and ‘issues of natural determinism beyond human sovereign options/choice or freewill’, as human self-consciousness/construction-of-the-Self as of Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology implies ‘induced human potentiation of sovereign options/choice or freewill that invalidate natural determinism’. In this regards we can appreciate for instance that with the positivism/rational-empiricism modern society’s disease theory, parents failing to figure out that a baby is likely to get sick if kept in dirty surroundings due to bacteria and germs as well that high temperature is a sign that the baby needs medical care, such that were it to be established that the baby develops a serious medical condition because of such failure of

parental care then the human potentiation of freewill of the parents is engaged with regards to the parents responsibilities as of the self-consciousness/construction-of-the-Self implied as of our positivism/rational-empiricism Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, however, supposed a similar situation arises in a non-positivistic social-setup with the parents acting that way because of say animistic beliefs that are utterly normal in the given animistic social-setup then it is difficultly the case that the human-potentiation of freewill of the parents is engaged with regards to their responsibilities as of the self-consciousness/construction-of-the-Self implied as of their non-positivism/animistic Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology (as the relative-ontological-incompleteness in the latter case renders it as an ‘ought indeterminacy’ while the relative-ontological-completeness in the former case renders it as an ‘is determinacy’); but then, a general underlying human potentiation of freewill of all humans is engaged passively to the effect that prospective relative-ontological-completeness inducing prospective self-consciousness/construction-of-the-Self reflected as of Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology in deflating human vices-and-impediments, necessarily warrants all humans to effectively aspire-for/be-receptive-to prospective relative-ontological-completeness. And such a more broad construal of freewill and natural determinism implications can be contemplated as elaborated elsewhere herein with regards to akrasia-susceptibility-or-akrasiatic-drag complex; thus akrasia-susceptibility-or-akrasiatic-drag complex further implies that the very state of unwariness with respect to prior relative-ontological-incompleteness as of a nihilistic disposition is structurally/paradigmatically potently conducive/endemising/enculturating to its vices-and-impediments, and as the very possibility for prospective ontological-performance arises as of

the intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning as of its ‘seeding promise of human-subpotency ontological-performance equivalence/correspondence with the full-potency-of-existence-as-of-its-coherence/contiguity’. Can we wish that we don’t have understanding whether directly, or indirectly as of reifying deferential-formalisation-transference, so that we aren’t intellectually-and-morally accountable then? How can we reconcile the fact that given human <formative>epistemic-totalising—thrownness-in-existence the possibility for prospective human registry-worldview’s/dimension’s institutionalisation enabling transcendence-and-sublimity could only arise as of prospective reasoning-through/messianic-reasoning that had no prior effective knowledge and virtue reference to go on to prospectively ‘invent’ reasoning-through/messianic-reasoning knowledge and virtue before the institutionalising of such reasoning-from-results/afterthought emancipatory possibilities, and then contend to make any given reasoning-from-results/afterthought knowledge and virtue limits intellectually and morally deterministic as of a nihilistic <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>)? In this regard, the anti-nihilist stance implies that the very first notion of human ontological-performance as of human <formative>epistemic-totalising—thrownness-in-existence induced anxiety lies in the fact that as of intemporal ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality parrhesiastic askesis-or-acumen reasoning-through/messianic-reasoning, humankind has the relative capacity to build and/or adhere to prospective relative-ontological-completeness possibilities. Further, in the specific instances it is important to

recognise that natural determinism invalidation of sovereign options/choice or freewill ‘applies critically only as of poor self-consciousness/construction-of-the-Self implications arising from the underdevelopment of Being/ontological-framework-expansion or self-consciousness/construction-of-the-Self incapacity as of say insanity’, and not necessarily as of lack of new knowledge-construct or technical-development; in the sense that say a criminal that had gone uncaught before a new technical-development like DNA testing establishes their criminal responsibility as of human potentiation, cannot talk of natural determinism implications as a defence just as covert predispositions associated with vices-and-impediments as of ‘self-conscious drive’ cannot be qualified to be of natural determinism implications when unmasked. Panintelligibility-as-reifying-and-empowering-reflexivity-of-ecstatic-existence ‘speaking epistemically with respect to the overall phenomenal/manifest_subpotencies-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> including human-subpotency epistemic-perspective’, inherently reflects the veridical-epistemic-determinism as of existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ in the construal of any such phenomenal/manifest_subpotency-<in-transitive-conflatedness-reflexivity,-in-the-full-potency-of-existence> ‘apriorising-teleological-thresholding-as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’, with human-subpotency ‘apriorising-teleological-thresholding-as-teleological-framework/narrative-framework of contextualising/instantiative-devolving-meaningfulness’ effectively construable in reflecting the ontological-contiguity—of-the-human-institutionalisation-process ‘true-ontology—as-of-Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology’. impediments, as it further contendingly implies a prospective decentering and dialectically-dementation reflection/perspectivation of positivism–procrypticism. We can imagine that futural Being-development/ontological-framework-expansion–as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism inclined agent given its ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness can effectively forego the normally construed positivistic reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as projected <formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging–narratives)-<of-the-prior-registry-worldview’s/dimension’s-institutionalisation-reference-of-thought–categorical-imperatives/axioms/registry-teleology> failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ‘valued-viability’ to expend on a ‘so-construed most important work’ that can be done in a positivism–procrypticism registry-worldview/dimension, as of prospective institutionalisation into deprocrypticism (more like an archaeologist might don on dirty clothing and dig their hands in mud and rubbish ‘like an animal’ to find out about the treasures that are human histories); and by that equally implying prospectively the decentering and dialectical-dementation of positivism–procrypticism <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>). Such an insight can be appreciated as with the instance in the non-positivistic community where the positivistic mindset/reference-of-thought will most likely not necessarily perceive and construe the ‘achievement motives and temporal-stakes in animistic or medieval lives and living’ in the non-positivistic social-setup

as ‘grandest living’ but rather the maximalising-recomposuring-for-relative-ontological-completeness ‘of positivistic transcendental institutionalisation projection over the animistic or medieval setup as much more of existential worth’ from its vantage ontological-normalcy/postconvergence epistemic/notional_projective-perspective. There is nothing inherently wrong with achievement motives across all registry-worldviews/dimensions conventional constructs as of human finite aspirations whether socially, professionally, family-wise, hedonic, etc. However, with regards to a prior registry-worldview’s/dimension’s <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) denaturing of meaningfulness-and-teleology so construed prospectively, whether as of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism, such motives are necessarily superseded-and-overridden or subsumed-as-supplanted or transvaluated in the bigger picture of human eternalising aspiration as of the intemporal/longness-of-register-of-meaningfulness-and-teleology individuation mental-disposition of ‘inventing’ the successive becoming possibilities in reflecting the ontological-contiguity—of-the-human-institutionalisation-process as inducing successively base-institutionalisation, universalisation, rational-empiricism/positivism and prospectively deprocrypticism; as going by ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. hand of such intemporal 'inventing', should never have been transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview's/dimension's denaturing <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) so-construed prospectively are rather more pertinent) in order to 'invent' positivism—procrypticism (that is, paradoxically we shouldn't be existing today!), and which contradictorily as well, as 'biting the hand of such intemporal 'inventing', itself should not be transcended and overridden (as its human finite aspirations whether socially, professionally, family-wise, hedonic, etc. as of the registry-worldview's/dimension's denaturing <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-'nondescript/ignorable-void'-with-regards-to-prospective-apriorising-implications>) so-construed prospectively are rather more pertinent) in order to 'invent' prospective deprocrypticism, rather reflecting intellectual absurdity; and speaking rather besides a natural weakness of human incapacity that can arise and do arise as a result of our limited-mentation-capacity rendering us unconscious/unaware/as-of-the-poorer-halves-of-ourselves which is fathomable/understandable, of a graver problem if that was to be the case even when we then 'understand', of intellectual-and-moral irresponsibility of failing/not-upholding-as-of-apriorising/axiomatising/referencing to do our own 'homework' with respect to our forerunners in the bigger notion of the human species continuous emancipation. In order words, the most vital human activities has to do, whether as of a consciously aware or unconscious nature, with the 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness that enables human memetic-rescheduling (institutional-recomposure/psychoanalytic-unshackling) as from recurrent-utter-uninstitutionalisation to

present day positivism–procrypticism and prospectively deprocrypticism; together with the idea that by the very intemporal essence of that ‘inventing’ it is inappropriate to construe such institutional-being-and-craft construct as a framework of temporal extricatory paradigm relationship with meaningfulness-and-teleology (undermining the implied reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation as of ontological-normalcy/postconvergence, by adhering by flaw rather to the <formative>wooden-language-⟨imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging–narratives⟩-<of-the-prior-registry-worldview’s/dimension’s-institutionalisation-reference-of-thought–categorical-imperatives/axioms/registry-teleology> as deterministic thus subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives, and strangely enough ‘reflecting’ the uninstitutionalised-threshold, represented ontologically as decentered and dementing-or-preconverging–apriorising-psychologism), but rather appreciative of the intemporal mental-disposition (as ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing–as-so-being-as-of-existential-reality) behind the mental projection associated with and contributing to such institutional-being-and-craft ‘inventing’. But then transcendental constructs of meaning and meaningfulness going beyond the ‘conventioning limits’ of a given registry-worldview/dimension by definition are not actually perceived as ‘most critical in value’ going by ‘intradimensional conventions’ which define registry-worldviews/dimensions ontological and virtue limits; the effort of a Socrates, Galileo, Diderot, Copernicus as of implying a prospective reference-of-thought of meaning and meaningfulness, is an afterthought social recognition by the prospective registry-worldview’s/dimension’s reference-of-thought institutionalisation, not the social recognition of their own registry-worldview’s/dimension’s

reference-of-thought (as the prior/transcended/superseded), as transcendental meaningfulness-and-teleology involves psychical and institutional recomposuring of high contrariety implications to human temporality/shortness as putting into question the present as prior/old, but then the vocation of all transcendence as all knowledge is not about being responsive to the mortals that we are (including this author's mortality as anyone's else) as of social-aggregation-enabling but rather responsive to relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating of an intersolipsistic nature. It is equally important to grasp that transcendence is the more profound origination of reference-of-thought that enables knowledge conceptualisations, and that the praxis of knowledge may naively be construed as non-transcendental. So all knowledge is actually transcendental and this is not to be confused with its distance/remoteness as coming from the 'transcendental origination of the reference-of-thought of the knowledge' (whether as base-institutionalisation, universalisation, positivism or prospectively deprocrypticism knowledge), and the idea of neutral/equable knowledge is a 'mental complex of institutional inherence' arising from incrementalism-in-relative-ontological-incompleteness naivety, as if a given institutionalised reference-of-thought for knowledge has always been that way. By its very nature as construed from relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating and not social-aggregation-enabling, transcendence (transcendental knowledge) cannot be construed as a neutral/equable exercise that doesn't involve contrariety, as it implies superseding the prior reference-of-thought—categorical-imperatives/axioms/registry-teleology with the prospective one for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) maximalising-recomposuring-for-relative-ontological-completeness <formative>epistemic-totalising—renewing-realisation/re-perception/re-thought, in contrast to a naïve incrementalism-in-relative-ontological-incompleteness mental-reflex.

The idea that knowledge-as-virtue will be obtained neutrally and be inserted in the social-construct neutrally is rather a simplistic/naïve virtuality-or-ontologically-flawed-construal, as at best such knowledge is not really neutral but rather remote/distant as coming from the ‘transcendental origination of the reference-of-thought of the knowledge’. For instance, scientific discoveries and our liberal notions today are grounded on the transcendental origination of positivistic modern scientific knowledge and liberal thinking reference-of-thought established and developed from the days of the Newtons, Galileos, Pasteurs, Copernicus, Descartes, Rousseaux, etc. who and others, then were transcendental as of apriorising/axiomatising/referencing—re-originariness/re-origination in their positivistic outlook relative to other outlooks then like alchemy, essences, mysticism, serfdom, feudalism, etc., while equally inducing high social contrariety then to supersedingly establish our positivistic psyche leading to corresponding institutionalisation implications like the culture of science, notions of human rights, etc.; and we now take for granted today such a scientific disposition by the low temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction but right back in their epoch this elicited a high temporal-to-intemporal-conjugating-emotional-involvement/subjectification/epistemic-totalising—self-referencing-syncretising-as-of-perceived-social-stake-contention-or-confliction. The point here is to highlight that where the need for ‘reappraisal of reference-of-thought’ arises as for prospective transcendence, it will be naïve to imply that knowledge is neutral failing/not-upholding-as-of-apriorising/axiomatising/referencing to register that all knowledge is the outcome of transcendence as ‘reappraisals of references-of-thought’ and inducing their corresponding prospective psychologisms (apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incindenting-predicative-insights). Effectively, the wrong argument of knowledge neutrality is

actually the argument of the prior transcendence of reference-of-thought that enabled it to be as of the present reference-of-thought, as a statement of knowledge neutrality respectively in non-positivism/medieval or positivism registry-worldviews/dimensions are just naively asserting respectively the former or the latter as the reference-of-thought for knowledge; implying that a mental-disposition doesn't naturally factor in its very own relative-ontological-incompleteness-of-reference-of-thought. Hence it is rather ontological-completeness-of-reference-of-thought that is the viable construing reference of knowledge with its transcendence implications for completing the reference-of-thought, and so not only with regards to transcendence of retrospective registry-worldviews/dimensions reference-of-thought but equally with the implication of transcendence for prospective registry-worldview's/dimension's reference-of-thought as so validated by ontological-normalcy/postconvergence. This insight about a more succinct social reality as of human institutionalised-and-uninstitutionalised-facets is critically vital for the appraisal of psychopathy and social-psychopathy as social manifestation of postlogism as perversion-and-derived-perversion-of-reference-of-thought within the positivism–procrpticism registry-worldview/dimension 'dynamic social construction of perceived social-stake-contention-or-confliction'. The social dynamics of perceived social-stake-contention-or-confliction as elicited in psychopathy and social psychopathy are more decisively determined by its induced 'lack of constraining social universal-transparency hence speaking of the positivism–procrpticism uninstitutionalisation; wherein prospective institutionalising-facet insight will construe perversion-and-derived-perversion-of-reference-of-thought while prospective uninstitutionalising-facet insight will rather overlook such implied denaturing as of beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>. This very much mirrors such a dichotomy as articulated before within the same social space of relative perception of social-stake-contention-or-confliction at a registry-

worldview's/dimension's uninstitutionalised-threshold defining its very notions of lawfulness and lawlessness, social-functioning and social dysfunction, accordance and discordance, probity and corruption, principledness and unprincipledness, etc. across the full breadth and depth of human institutions dynamic social construction of perceived social-stake-contention-or-confliction at that uninstitutionalised-threshold especially as of generalised-and-all-pervasive extended-informality. Such a dichotomy points out the reality in positivism-procrypticism that the construal of psychopathy and social psychopathy is in effect a social construction wherein while prospective institutionalisation mental-disposition relates-to-and-construes-a-narrative-of grave institutional implications of phenomenal psychopathy as of the social dichotomy notions implied above, and so as of intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm, uninstitutionalised-threshold mental-disposition will mostly construe irrelevance-and-benignancy as of temporal extricatory paradigm. This is very much in sync with the reality that at a registry-worldview's/dimension's uninstitutionalised-threshold human solipsistic mental-dispositions are temporal-to-intemporal with the implication that such intemporal mental-orientation as ontology divulging is just one mental-disposition among others such that any such pre-eminence arises only as of positive opportunity ontological-primemovers-totalitative-framework induced untenability/internal-contradiction/internal-incoherence/institutional-constraining in the middle to long run or cross-generationally as intemporality-asymmetric-subsumption-of-temporality. This dichotomy of contradictory narratives explains why it is the bigger framework of prospective relative-ontological-completeness-of-reference-of-thought that perfectly grasp in sync a superseding institutionalising aetiologisation/ontological-escalation in deprocrypticism conflatedness and so over procrypticism disjointedness-as-of-reference-of-thought denaturing and harkening back in

undermining psychopathy and social psychopathy as the more specific individuation-level denaturing. Interestingly this construing of psychopathy and social psychopathy within a dichotomy of institutionalisation and uninstitutionalised-threshold mental-dispositions with respect to dynamic social construction of perceived social-stake-contention-or-confliction is very much reflective of human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, as we can grasp the veracity/ontological-pertinence of this uninstitutionalised-threshold dichotomy more transparently with regards to say non-positivism/medievalism postlogism manifestation like notions-and-accusations-of-sorcery. We know that such incidents associated with notions-and-accusations-of-sorcery speak of the more profound relative-ontological-incompleteness-of-reference-of-thought issue wherein the incidental denaturing of such manifestations reflected a social denaturing of the registry-worldview/dimension itself as non-positivistic and susceptible to endemise/enculturate superstitiousness as of the ‘dynamic social construction of perceived social-stake-contention-or-confliction’. And in both instances it is the corresponding institutionalising aetiologisation/ontological-escalation conflatedness directed to the bigger and subsuming issue of relative-ontological-incompleteness-of-reference-of-thought for inducing deprocrypticism over procrypticism or positivism over non-positivism/medievalism respectively that harkens back to undermine in a decisive and nonextricatory and non-palliative manner the associated postlogisms. Conflatedness as such implies an utter shift as the curve-of-prospective-relative-ontological-completeness-of-reference-of-thought thus superseding the curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought now being construed as dementing-or-preconverging-and-decentered-prior-institutionalisation’s-categorical-imperatives/axioms/registry-teleology as denaturing.] The defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as

perversion-of-reference-of-thought) comparison can equally be used to illustrate how slanting is different from lying. Insightfully, we can grasp that the fundamental defect of the apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument just as with slanting arising as a faulty-mentation-procedure-deception explains why it keeps on falsely presupposing new narratives in deception just as a defective apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument—producing-measurements systematically keeps on making wrong aposteriorising/logicising/deriving/intelligising/measuring-purpose—of-obtained-measurements (systematically flawed meaningfulness) as its fundamental registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> (in registry-worldview terms of implications). On the other hand, a lying deception is tantamount to undertaking an inappropriate measurement-as-of-aposteriorising/logicising/deriving/intelligising/measuring-purpose (flaw logical-processsing/act-execution-implication meaningfulness) with an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument that is not defective (thus appropriateness-of-reference-of-thought-as-of-conflatedness). This point to the ad-hoc nature of lying deception wherein there is nothing inherent that precludes subsequent appropriate logical-processing-or-logical-implication meaningfulness where the contextual-ambiguity-constraint(s) are resolved. In the bigger scheme of things (at the transcendental/transdimensional/interdimensional level) postlogism epistemic-decadence and its integration as perversion-and-derived-perversion-of-reference-of-thought of reference-of-thought-categorical-imperatives/axioms/registry-teleology,-of-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation defines a registry-worldview's/dimension's uninstitutionalised-threshold; arising in 'socially-perceived-value as of social-stake-contention-or-confliction' situations. This is ontologically/intemporally

represented or stranded-as-rightfully-oblongated/decandored postlogical mindsets in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic (which are not ignored/overlooked but cored/stranded-as-rightfully-oblongated/decandored) wherein ontologically-speaking the psychopath’s interlocutors had hitherto by new logical-processing-or-logical-implication as ‘conviction/prelogical re-engaging reflex’ represented/registered/related-to the postlogical mindsets in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic wrongly as candored/straightness (wrongly ignoring/overlooking and setting-aside to reassume a candoring/straightness-of-thought instead of rightfully stranding-as-slantedness/decandoring-of-thought). Thus the registry-worldviews/dimensions which are in epistemic-decadence (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging-qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’) with respect to ontological-veridicality (ontological-contiguity or reference-of-thought as intemporal-preservation-entropy-or-contiguity—or-ontological-preservation) and ‘wrongly being temporally integrated intradimensionally’ as candored/straightness rather than decandored/oblongatedness are recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively, procrypticism. The conscious or unconscious exercise of ‘subknowledging/mimicking the non-veridical hollow/empty form of the meaning of narratives’, whether by a psychopath or a temporally-inclined mental-disposition pedestal, in

view of getting interlocutors to wrongly align prelogically/in-conviction/prelogically and perceive the non-veridical hollow mimicking form of the meaning of narratives as veridical/true/real is known as perversion-of-reference-of-thought, requiring ontologically, at the ‘uninstitutionalised-threshold’, ‘distractive-alignment-to-reference-of-thought which is decandored/oblongated, non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing, dialectically-or-contendingly-out-of-phase and transversality-of-disambiguated-apriorising/axiomatising/referencing (contrasted to prelogism which is candored, straightness, conviction, dialectically-or-contendingly-in-phase and logically-congruent). From an intemporal/ontologising perspective i.e., aetiological understanding of the abstract human animal, perversion-of-reference-of-thought rather calls to engage with the unsoundness-or-inauthenticity-of-reference-of-thought/apriorising—registry of the postlogical mindset/reference-of-thought as transversality-of-disambiguated-apriorising/axiomatising/referencing and not operating/processing logic based on the articulated perversion-of-reference-of-thought, so as to ‘invalidate the projected false apriorising—registry’s implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology, and consequently to articulate a manifestation of mental-slantedness/decandoring/‘distractive-alignment-to-reference-of-thought’/mechanical-comprehension-dementing-or-preconverging—apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation/distractive-temporal-priorisation (and not soundness-or-authenticity-of-reference-of-thought/candoring/prelogism/organic-comprehension-thinking) of the mind’s mental perversion/defect; and so, as an abject and mentally dialectically-or-contendingly-out-of-phase – as-the-temporal-mind-pedestals-are-dialectically-out-of-phase/dialectically-primitive

– from ‘an ordered construct from the intemporal as ontological mindset’. Since the state of exhibiting a demonstrated perversion-of-reference-of-thought annuls temporal-dispositions’ implied logical-dueness/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology as ‘logically contending’; from a pure ontological-veridicality perspective, more like a medieval mind with a superstitious registry-worldview reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation doesn’t has the implied-profile-or-implied-stature and the implied-presumptuousness-or-implied-arrogation to logically contend about the ontological veridicality of an accusation of witchcraft with a relatively suprastructuring positivistic mental-disposition). This technique of mentally grasping the psychopath and other postlogical minds is by reflecting/perspectivating/highlighting a ‘distractive-or-circumventive-mental-alignment-or-postlogism’ (explained further in the text) as against an ‘integrative-mental-alignment-or-prelogism’ (the latter being the normal reflex by which the normal prelogism-as-of-conviction mind ordinarily aligns to meaning, and it is this mental-alignment reflex to meaning that makes it difficult to truly grasp the psychopath’s and other postlogical mental-dispositions which mental-alignment are rather non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing–of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-dementing-or-preconverging–apriorising-psychologism with respect to meaning).

Paradoxically, this is the fundamental strength of psychopathy, i.e. to get the normal prelogism-as-of-conviction mind to wrongly elevate psychopathic meaningfulness as of ‘existential-contextualising-contiguity’ rather than reflect the reality of its ‘formulaic

meaning’ which is ‘meaning-by-the-mere-illogical-possibility-of-it-being-narrated’. So when we talk about psychopathy we are talking about perversion-of-reference-of-thought rather than logical defect (defect of logical operation/processing/contention). This distinction is critical. Why? Basically, meaning is what defines/predicates value, thought and action. Meaning has two elementary aspects: reference-of-thought or axioms or categorical-imperatives (reflected-as-soundness-or-authenticity-of-reference-of-thought, by the prospective relative-ontological-completeness-of-reference-of-thought and logic (logical-operation/processing/contention/implication-of-act-execution, and so, ‘fundamentally and validatorily’ on the basis of sound reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation in the very first instance). Meaning and meaningfulness is thus essentially about the ‘operation of reference-of-thought as-of-its-veracity/ontological-pertinence as-soundness-or-authenticity-of-reference-of-thought’, with logic/logical-processing basically about the operation of reference-of-thought as rules as of ontological-coherence/superseding–oneness-of-ontology validated as of established ontological-veridicality/intrinsic-reality/existential-reality. Otherwise stated, meaning has ‘reference-of-thought’ reflecting its being/ontological/existential veridicality, and logic as an operation of elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity based on the meaning’s implied reference-of-thought–categorical-imperatives/axioms/registry-teleology valid only inasmuch as the reference to the ‘registry elements’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology is ‘existentially’ established. *Critical for ontological-veridicality of meaning and meaningfulness and knowledge, the relatively ontologically-complete-reference-of-thought defines what is meaning and meaningfulness as of its ‘soundness-or-authenticity-of-

reference-of-thought' construed as 'dialectical-thinking-or-postconverging-apriorising-psychologism and centered understanding' over the relatively ontologically-incomplete-reference-of-thought as of its 'unsoundness-or-inauthenticity-of-reference-of-thought' construed as 'dementing-or-preconverging-apriorising-psychologism and decentered understanding'. Slanting (and by derivation cohering-slanting) is 'technically coherent logical articulation' however over flawed or non-existent apriorising-reference-of-thought-elements/apriorising-registry-elements, and thus falsely implying the apriorising-reference-of-thought-elements/apriorising-registry-elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology as being 'existentially' established, with the possibility of a further infinite possibility of logical faulty-mentation-procedure-deception-or-urge arising where the reference-of-thought-elements are wrongly implied as of existential-reality. Normally we assume that everyone is sound of mind (that is, assume everyone operates by soundness-or-authenticity-of-reference-of-thought, with contention arising by reflex rather with respect to logical coherence and not the soundness-or-authenticity-of-reference-of-thought in the first place) so 'we don't tend to question the being/ontological/existential veridicality of reference-of-thought-(reflected-as-soundness-or-authenticity-of-reference-of-thought)'. But with the phenomenon of psychopathy, this is a critical flaw at its adulthood stage, as at its childhood stage the 'deliriousness/delirious-effect/cinglé-effect' of the implied-reference-of-thought/implicit-registry and its elements of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology is rather obvious and we don't normally process/operate logically the childhood psychopathy's non-veridical hollow mimicking narratives since 'we just invalidate those apriorising-registry-elements to start with as not of being/ontological/existential veridicality'. For instance in the case above, where John were to witness Dad punish his sister Mary for spilling water on a

chair, and by ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of meaning’ (meaning-by-the-mere-illogical-possibility-of-it-being-narrated) determines that if in a ‘dereifying act’ he spilt some water on a chair and said it was Peter, Peter will be punished by dad; dad, however, having an ‘existential-contextualising-contiguity sense/projection of meaning’ doesn’t even dare to operate/process the logic articulated by John (a logic which in-of-itself while utterly sound technically, but is actually irrelevant in the given context by its fundamental logical-undueness as of its unsound-reference-of-thought/unsoundness-or-inauthenticity-of-reference-of-thought/mental-perversion) as he simply engages his unsoundness-or-inauthenticity-of-reference-of-thought by way of distractive-alignment-to-reference-of-thought and then reflect the reference-of-thought or registry-teleology of John as perversion-of-reference-of-thought or mental-perversion in terms-as-of-axiomatic-construct of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. In so doing determines that John is ‘manifesting a mental defect’ and more so, not an ad-hoc defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance, but rather registry-worldview’s/dimension’s-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> that speaks to how John may act in many other similar situations, i.e. epistemic-decadence (notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’) by the denaturing of the reference-of-thought or the soundness-or-authenticity-of-reference-of-

thought of meaning over which denaturing he tries to get interlocutors to operate/process logic; and 'is not even contending and that he is the subject of prelogism-as-of-conviction contention about his perversion-of-reference-of-thought/mental-perversion/unsoundness-or-inauthenticity-of-reference-of-thought'. The above is the fundamental nature of psychopathy and 'it should not be lost even more critically at the adulthood stage and the corollary of social psychopathy' as increasingly prelogism-as-of-conviction minds will tend to align to adult psychopaths and other postlogical teleological mindsets wrongfully as prelogical/conviction/candored/straightened/prelogism instead of rightfully keeping a decandored/oblongated/distractive-alignment-to-reference-of-thought /mechanical-comprehension-dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (circumventive/distractive-temporal-prioritisation-of-reference-of-thought). Such reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) inherently implies a dialecticism involving conviction narratives as organic-comprehension-thinking (organicism)/'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness or longness-of-register-of-meaningfulness-and-teleology and narratives that are non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-dementing-or-preconverging-apriorising-psychologism/subknowledging/mimicking/distractive-alignment-to-reference-of-thought qualified as mechanical-comprehension-dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. This points to a perversion-of-reference-of-thought basically or a registry-worldview denaturing (when it comes to a registry-

worldview/dimension transcendence). The dialecticism involves stranding-dialectics-in-a-contiguity-of-increasing-ontology/ontological-normalcy/postconvergence pointing to the skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) for intemporalisation/institutionalisation over the reality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor individuations in transversality-of-disambiguated-apriorising/axiomatising/referencing, and enabling ontological-escalation or aetiologisation as 'metaphorical principle for an infinity/a-million-and-one-instances-and-locales'/aetiologisation/ontological-escalation.

The underlying fact about meaning is that the apriorising—registry (as the individual grounding of the reference-of-thought of the social-construct registry-worldview/dimension) precedes logic as of apriorising/axiomatising/referencing basis for logic. For instance, if an adult psychopath were to meet a stranger and spoke to him about another stranger whom it knows nothing about, saying logically that it is a bad thing for this guy to be molesting children, etc. The logical operation is entirely right and sound in abstract terms but does the apriorising—registry (reference-of-thought) apply? I.e. The faulty-mentation-procedure-deception-or-urge is not with regards to the logic (which is technically true) but with the 'implied' denaturing of the elements of the apriorising—registry as of reference-of-thought—categorical-imperatives/axioms/registry-teleology which are: implied-logical-dueness-or-implied-scape (the implied-logical-dueness-or-implied-scape doesn't exist since the psychopath doesn't know the guy), implied-profile (the psychopath is projecting a false representation of itself and the situation), implied-presumptuousness-or-implied-arrogation (the psychopath has no stature to talk about the guy he doesn't know), implied-assumptions (the assumptions implying the psychopath's relationship with the guy and the guy's

relationship with children doesn't exist), implied-value-reference (the psychopath's elicitation of a sense of value reference in the interlocutor is unfounded and ridiculous) and implied-teleology (the psychopath's articulation of a sense of purpose on its interlocutor about the guy is hollow mimicking). Finally, the psychopath has articulated a lot of faulty-mentation-procedure-deception-or-urge but none to do with logic, but everything to do with the denaturing of registry/axiom/categorical-imperatives or the psychopath's unsoundness-or-inauthenticity-of-reference-of-thought, i.e., slanting-deception or deception-of-successively-shifting-or-non-cohering-narratives-and-acts or deception-by-concurrently-false-presupposing/false-presuming/false-premising-of-narratives or deception-by-concurrently-false-assumptive-dementing-or-preconverging-of-narratives! So with the psychopath, you don't watch the logic, you watch out for the reference-of-thought/apriorising-registry for mental-perversion or the psychopath's unsoundness-or-inauthenticity-of-reference-of-thought! Not only that, it is important to note that this unsoundness-or-inauthenticity-of-reference-of-thought as perversion-of-reference-of-thought do protract and an ignorant prelogism-as-of-conviction mind acting prelogically (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) on such postlogism-as-of-non-conviction non-veridical hollow mimicking narratives is 'technically psychopathic as well' as they are in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex to the psychopath's 'denaturing postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'-with-'successive-shifting-of-the-narratives-and-acts-foci'-construed-as-'deception-of-successively-shifting-or-noncohering-narratives-and-acts' towards 'social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating' as non-veridical and dialectically/contendingly out-of-phase. This is known as conjugated-postlogism/dementing-or-preconverging-integration

(whether conjugated to in ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation), which is to be construed as ‘distractive-alignment-to-reference-of-thought and once it is induced by ignorance it leads to an undermining of ‘deductive social universal-transparency which protects the internal-coherence of meaning as of soundness-or-authenticity-of-reference-of-thought and corresponding virtue’ and so by way of ‘induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality’ at ‘uninstitutionalised-threshold’ of registry-worldviews, with subsequent conjugating ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, the conjugated-postlogism/dementing-or-preconverging-integration is derived from the psychopath’s initiated postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and goes on to lead to social psychopathy; more like a dumb-and-dumb/miscuing degeneration effect. It should be noted that both psychopathic postlogism and conjugated-postlogism cases of unsoundness-or-inauthenticity-of-reference-of-thought (as slanted and cohering-slanted, respectively), by their ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’, involve ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness in arrogation by the fact that taken singularly from the same interlocutor in different circumstances, each (hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) narrative is apparently coherent but ‘construed together as of the retracing of set-of-narratives’ these reveal ‘unsoundness-or-inauthenticity-of-reference-of-thought as dementing-or-preconverging-apriorising-

psychologism’. It is rather their respective ‘retracing of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of set-of-narratives together’ that reveals ‘postlogical slanting unsoundness-or-inauthenticity-of-reference-of-thought perversion-of-reference-of-thought’ and ‘conjugated-postlogism cohering-slanted unsoundness-or-inauthenticity-of-reference-of-thought derived-perversion-of-reference-of-thought (dementing-or-preconverging-integration)’; as in successive postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ and corresponding conjugated-postlogical conjoining of the iterating narratives, the succeeding changing/decentering/non-cohering foci (thus revealing the ‘deliriousness/delirious-effect/cinglé-effect’ as unsoundness-or-inauthenticity-of-reference-of-thought inducing the dementing-or-preconverging-apriorising-psychologism which is particularly obvious at childhood psychopathy but its perception easily gets lost at adult psychopathy with psychopath increasing maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction) are constantly modified with circumstantial hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation by ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold’; and so in order to wrongly imply the apriorising-reference-of-thought-elements/apriorising-registry-elements as the foundation for its faulty-mentation-procedure-deception-or-urge. However, the natural level of human interlocution engagement ‘is not the enlightenment of the retracing of an interlocutor’s sets-of-narratives’ (as this could vary anywhere from say a few days or weeks to years of conviction engagement, for such an insight to arise), but rather as of ‘specific singular circumstantial narrative of interlocution without a comprehensive existential-

contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context projection' by which interlocutors deduce circumstantially. Thus the postlogical-and-conjugated-postlogical habit of producing sets-of-narratives (which collective retracing reveals their unsoundness-or-inauthenticity-of-reference-of-thought and perversion-and-derived-perversion-of-reference-of-thought from existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context insight, but singularly out of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context are apparently of soundness-or-authenticity-of-reference-of-thought) come to be endemised and enculturated socially, as of -'least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold'. Further, this 'natural level of human interlocution engagement is a perpetuation' explaining why the conjugated-postlogism mental-disposition is one of 'slanted-cohering/conjoining' as it rather re-rationalises the latest iterated narrative as an elucidation rather than a further dementing-or-preconverging-apriorising-psychologism of adult psychopath/postlogism (as obvious with the child psychopathy 'delirium effect' as it slants and re-slants on the initial slanting in an absolving-logic/fleeting-logic/escaping-logic reflex); and, the falsely projected reference-of-thought implied-elements of logical-dueness-or-implied-scape/implied-profile-or-implied-stature/implied-presumptuousness-or-implied-arrogation/implied-assumptions/implied-value-reference/implied-teleology, create a new foundation for further dementing-or-preconverging-apriorising-psychologism when wrongly eliciting in an interlocutor logical-processing-or-logical-implication issue, such that one salient manifestation of conjugated-postlogism arises with many of such an interlocutor vaguely articulating propositions based

on such falsely ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’.

The idea that the ‘natural level of human interlocution engagement is a perpetuation’ can be understood insightfully with respect to a non-positivism/medievalism setup wherein a contention arising in non-positivism/medievalism reference-of-thought terms when invalidated positivistic terms doesn’t imply that such interlocutors will instantly dramatically change their reference-of-thought into the positivistic terms with their successive contentions (due to <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag), as their reference-of-thought remains rather in non-positivism/medievalism circularity/recurrence/repetition/repeatability, and in the big picture in all likelihood can only be ‘weaned from’ cross-generationally as of psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. Likewise the ‘natural basis of human interlocutory engagement tends to be perpetuating’ when it comes with psychopathy and social psychopathy with respect to its eliciting of a ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-threshold-(as-procrypticism)’, thus equally implying a <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag circularity/recurrence/repetition/repeatability of the reference-of-thought as of the uninstitutionalised-threshold or procrypticism/disjointedness-as-of-reference-of-thought. Thus the central notion for preempting psychopathic postlogism and conjugated-postlogism is the ‘retracing of their sets-of-narratives as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context’. That revealing unsoundness-or-inauthenticity-

of-reference-of-thought of the traces of sets-of-narratives is analogous to resolving a list of BODMAS equations where the solution of the first equation is a variable of the second equation and whose solution is a variable of the third equation whose solution is a variable of the fourth; and where the first equation is fundamentally flawed (as of an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument flaw, for instance), systematically the three other equations will be wrong whether by (ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) mental-disposition to resolve the equation of the traditional arithmetic principles as reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation without factoring that such reference-of-thought–categorical-imperatives/axioms/registry-teleology are only as pertinent (not by habit or tradition or expediency) but as of when they are truly for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation or ontological-normalcy to then articulate the necessary ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ over naïve elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity (as of <formative>wooden-language-(imbued—temporal–mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging–narratives)-<of-the-prior-registry-worldview’s/dimension’s-institutionalisation-reference-of-thought–categorical-imperatives/axioms/registry-teleology>) that is only pertinent when it is of the existential existence-potency-prospective-digression—rules-of-

apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-
 ontologically-same-existential-reality. It is important thus to know that since the defect of
 psychopathy and its derivation as social psychopathy has nothing to do with logical-
 processing but everything to do with perversion-of-reference-of-thought/perversion-of-
 axiomatic-construct and the false ‘apriorising–reference-of-thought-elements/apriorising–
 registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-
 prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-
 instantiative-context)’ which are implied—logical-dueness-or-scape/profile-or-
 stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology, it is simply
 maximalising-recomposuring-for-relative-ontological-completeness that is ontologically
 called for to invalidate the psychopathic ‘implied falsehood’ by invalidating the ‘apriorising–
 reference-of-thought-elements/apriorising–registry-elements (out of existential-
 contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-
 completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—
 logical-dueness-or-scape/profile-or-stature/presumptuousness-or-
 arrogation/assumptions/value-reference/teleology, and not involve in any elaboration-as-
 mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-
 existential-contextualising-contiguity which will ‘hollow-constitute’ and falsely validate the
 deceptive foundation of ‘apriorising–reference-of-thought-elements/apriorising–registry-
 elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-
 relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-
 context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-
 arrogation/assumptions/value-reference/teleology. This is most apparent with childhood
 psychopathy as with the dereifying example of spilling water on a chair where it is directly
 obvious there is no elaboration-as-mere-

extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity to be had/entertained nor any logical analysis but rather maximalising-recomposuring-for-relative-ontological-completeness invalidating that the implied-logical-dueness-or-implied-scape of the child psychopath who deliberately in a ‘dereifying act’ spills water on the chair to accuse another even exists, its implied-profile is ridiculous, just as its implied-presumptuousness-or-implied-arrogation, its implied-assumptions, its implied-value-reference and its implied-teleology (or sense-of-purpose), and such an approach will equally extend with regards to social psychopathy where by ignorance at best or ‘other cynical temporal manifestations as of conjugating affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation’ an interlocutor was to falsely imply the need for logical analysis in order to falsely validate the foundational faulty-mentation-procedure-deception-or-urge of the ‘apriorising—reference-of-thought-elements/apriorising—registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’.

This phenomenon of the ‘social protraction of psychopathy across individuals and society’ can be articulated as follows. It is important to grasp that the mechanism of SLANTING or impulsive—dementing-or-preconverging-apriorising is actually about ‘denaturing postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ as non-veridical and dialectically/contendingly out-of-phase. The suspected psychosomatic

basis for the psychopath to be slanted/‘cinglé’ is a ‘faulty-mentation-procedure-deception-or-urge (entitlement folie/folie raisonnée)’ as opposed to a logical motivation of a conviction or prelogical mental-disposition. It is as if ‘the psychopath’s mental state is to take a faulty-mentation-procedure-shortcut’ to the normal process of prelogism-as-of-conviction logical articulation with respect to ‘socially-perceived-value as of social-stake-contention-or-confliction’. Going by the example highlighted above, say for instance the interlocutor finds out that the other stranger isn’t really a child molester. The psychopath simply articulates another postlogic/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness/formulaic non-veridical hollow mimicking narrative (meaning-by-the-mere-illogical-possibility-of-it-being-narrated) over the previous narrative, and so in ‘denaturing postlogical-backtracking devoiced-of-conviction-or-prelogism-basis’. For instance, by saying (in a different social spatial location where the interlocutor cannot verify the underlying contextual reality) it is critical that the stranger should not be taking young children in his house as it suspiciously points to a molester (which is certainly a sound statement but rather being parasitised for a perverse purpose of ‘denaturing postlogical-backtracking devoiced-of-conviction-or-prelogism-basis’ towards sanctified-conventioning-social-aggregation-enablers, as the statement, not to take young children into his house, is sanctifying/as-not-requiring-any-further-contemplation to many a mental-disposition). Even if this latter narrative is proven to be false (as it is another perversion-of-reference-of-thought or mental-perversion demonstrable as above with it faulty-mentation-procedure-deception-or-urge not being the logic itself, but in wrongly implying as existentially real the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-

reference/teleology such that the mere fact of engaging logically with it validates these fundamental falsehood as a first-order faulty-mentation-procedure-deception-or-urge paving the way for an infinite possibility of second-order faulty-mentation-procedure-deception-or-urge operating logical-processing-or-logical-implication on such false axioms. Thus, with respect to postlogicism generally what is critical for the psychopath/postlogical-mindset is to be seen as being conviction/prelogical even if it is a perception of bad-conviction since that will validate the ‘apriorising–reference-of-thought-elements/apriorising–registry-elements (out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context)’ on the basis that it was the logical-processing-or-logical-implication that was wrong hence the possibility and credibility not to question the reference-of-thought/apriorising–registry/categorical-imperatives/axioms and to re-engage logical-processing-or-logical-implication by ‘prelogicism-as-of-conviction re-engaging reflex’ wrongly turning the issue into one of logical-processing-or-logical-implication instead of construing a perversion-of-reference-of-thought ‘dementing-or-preconverging–apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought manifestation’). The psychopath simply needs to loop another non-veridical hollow mimicking narrative over the previous one in ‘denaturing postlogical-backtracking devoided-of-conviction-or-prelogicism-basis’ towards sanctified-conventioning-social-aggregation-enablers. What is critical for the psychopath is that ‘the last postlogic/formulaic non-veridical hollow mimicking narrative/meaning-by-the-mere-illogical-possibility-of-it-being-narrated’ allows its interlocutors to prelogically ‘rationalise’ (align in-conviction to or prelogicism, at-a-pedestal,-in-this-case-ignorance-pedestal) the other narratives even if there are all ‘non-veridical hollow mimicking narratives’. This might further involve juggling such hollow mimicking in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-

backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic among different set-of-interlocutors (this is simply because postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation operates by extrinsic-attribution, i.e. who can I convince to make my argument right as per ‘perverted-outcome-sought-precedes-existentially-veridical-logical-dueness’ unlike postlogism as prelogism which operates by intrinsic-attribution, i.e. what is intrinsically real to uphold ontological virtue as per ‘existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at’), and inducing mutual misconstruing; and the reason for a perpetual psychopath’s extrinsic-attribution inclination is that the outcome of its postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (which is an unusual and rare social experience given that a psychopathic personality and postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation are an outlier/unenframed phenomenon) with one set-of-interlocutors will involve either a temporal commitment to the postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (due to the ‘lack of constraining social universal-transparency as inducing vices-and-impediments which will then make it alienating) or a ‘fool-me-once-phenomenon’ where there is a relative insight on postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation from some interlocutors with no more commitment given the inconsistency of the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic, in time speaking to the fundamental mental denaturing involved in postlogism in hollow-constituting—as-disjointed-misappropriation-of-

meaningfulness-and-failing-intemporal-preservation, and so for the shallowness of the postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation the extrinsic-attribution inclination is in constant need for new sets-of-interlocutors. The mental process that takes place in the ignorant prelogism-as-of-conviction mind is a prelogic/existential-contextualising-contiguity /conviction alignment (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) to the psychopath's (meaning-by-the-mere-illogical-possibility-of-it-being-narrated) postlogism-formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-dementing-or-preconverging—apriorising-psychologism projection (distractive-alignment-to-reference-of-thought) such that the former's mind is rather in a hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation 'conjoining looping narratives (of flawed-existential-elevation-of-reference-of-thought and developing a conviction or prelogism out of them), to the psychopath's 'denaturing postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts'-with-'successive-shifting-of-the-narratives-and-acts-foci'-construed-as-'deception-of-successively-shifting-or-noncohering-narratives-and-acts' towards 'social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating' as non-veridical and dialectically/contendingly out-of-phase. But again, this is just when the temporal prelogical/prelogism-as-of-conviction mind is ignorant of the slanted mental state of the psychopath.

The general and complete operative psychopath perversion-of-reference-of-thought mechanism (it isn't necessarily completed in all manifestations as is rather a 'mental

roaming/drifting-cycle disposition known as postlogism-retreating' that carries on depending on how the situation permits) involves the psychopath first projecting initially neutral narratives (pre-valuation), then narratives meant to elicit the sense of excellence/exception/accommodation of its interlocutor (pri-individuation) as well as any other person or notion the interlocutor holds in high esteem, which are then contrasted 'out of context' unfavourably with non-veridical hollow mimicking narratives about the psychopath's 'socially-perceived-value as of social-stake-contention-or-confliction target' (de-individuation) ensuring the latter narratives are articulated craftily and at different social locations/spaces. De-individuation further consists of four elements; 'consternation' wherein narratives with a 'sense of dismay' are induced on the interlocutor about the psychopath's social-stake-contention-or-confliction target, 'revulsion' wherein narratives with a 'sense of repugnance' are induced on the interlocutor about the target, 'certainty' wherein narratives with a 'false sense of undoubtedness' are projected about the target on the interlocutor, and finally 'a sense of passive or suggestive alienation' towards the psychopath's target is projected upon the interlocutor to 'subconsciously induce a sense of alienation from the target'. The psychopath then strives to settle on the whole of this process circularly doing likewise with other new and pertinent interlocutors as well (commitment). By and large this circularity perversion-of-reference-of-thought thus involves these four elements as pre-valuation/pri-individuation/de-individuation/commitment. Together with its corollary, social psychopathy, this disposition (passive or suggestive alienation) is at various level-of-consciousness-and-wittiness extended to the social-construct as a comprehensive nature of extrinsic-attribution. Passive or suggestive alienation as such with corresponding 'temporal-dispositions miscuing' which is 'misconstrued as intrinsic ontological depth-of-conviction'.

The underlying reason for the entirety of this mental process in the psychopath has to do with its 'formulaic perception of meaning' (vague-rhyming-or-copied-mimicry-or-

formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging faulty-mentation-procedure-deception/meaning-by-the-mere-illogical-possibility-of-it-being-narrated) which poorly perceives ‘conviction contentions’ not in the ‘essence/conviction sense’ but rather as ‘formulaic mental alienation schemes’ wherein perverted-outcome-sought-precedes-existentially-veridical-logical-dueness (in order words the developmental psychology of the psychopath is actually to perceive conviction meaning as formulaic-schemes/meaning-by-the-mere-illogical-possibility-of-it-being-narrated, to which it responds in kind), and so is in transversality-of-disambiguated-apriorising/axiomatising/referencing to prelogism-as-of-conviction, and strives to ‘square off as perversion-of-reference-of-thought at uninstitutionalised-threshold involving organic-comprehension-thinking (‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness) being circumvented/distracted by mechanical-comprehension-dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation in an epistemic-totalising—self-referencing-syncretising; and so, in transversality-of-disambiguated-apriorising/axiomatising/referencing along 3-pedestals (psychopath’s slantedness/impulsive-dementation transversality-of-disambiguated-apriorising/axiomatising/referencing pedestal, temporal-dispositions transversality-of-disambiguated-apriorising/axiomatising/referencing pedestals, and the intemporal-disposition transversality-of-disambiguated-apriorising/axiomatising/referencing pedestal in their ontological-escalation/aetiologisation), enabling the stranding-dialectics, and not <formative>epistemic-totalising—self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase, of mechanical-comprehension-dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation as being distractive to organic-comprehension-thinking

(organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology)’; to ultimately prevent its own ‘perceived social alienation’ by inducing the alienation of its ‘perceived social-stake-contention-or-confliction target’ over a social-stake-contention-or-confliction paradigm. Critically, it should be understood that passive or suggestive alienation is actually the summum of the possibilities of the psychopath’s meaningful finality that starts from prevaluation (neutral narrations).

It should be noted that the mental state of the psychopath’s interlocutor as ‘ignorance-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing-or-preconverging-apriorising-psychologism’ is not really ontologically-speaking a prelogical/conviction mental state but rather technically a ‘miscuing/dialectically-or-contendingly-out-of-phase postlogical mental state’. There are two stages at which an interlocutor can be in relation with the psychopathic manifestation: first, as an ignorant of psychopathic postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation to which the interlocutor aligns prelogically and then miscues, and then secondly (in addition), as ‘committed-by-temporality/interest over intrinsic-veridicality’ whether in the form of affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation.

It should be noted that this psychopathic manifestation process can be mimicked in the context of social psychopathy, and more thoroughly when as ‘exacerbation-temporal-disposition conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing-or-preconverging-apriorising-psychologism’. Over a given or extended period the underlying effect sought by the psychopath might stick, especially where the social target, interlocutors and others are utterly unaware of the mental state of the psychopath, and so evolving more like a social-discomfiture of relationship over ‘socially-perceived-value as of

social-stake-contention-or-confliction’ (*social-discomfiture as such can be defined as the subsequent, ignorant or deliberate/disingenuous, adherence as if veridical to the slanted and hollow mimicking narratives of the psychopath with the corresponding perversion-of-reference-of-thought or mental-perversion in the social context). It is important to see that such social-discomfiture is in reality not a veridical logical ‘contention’ but in veridicality/ontologically a ‘protracted manifestation’ of procrypticism/disjointedness-as-of-reference-of-thought registry-worldview/dimension perversion-of-reference-of-thought of both the psychopath and its interlocutors (even when the interlocutor is at best ignorant of the underlying psychopathic state), requiring ‘distractive-alignment-to-reference-of-thought at ‘uninstitutionalised-threshold’ initiated by the psychopath’s postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, and resolved suprastructurally by a deprocryptic mindset/reference-of-thought making reference to superseding deprocryptic reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (just like an accusation of witchcraft in medieval society is not veridically/ontologically a ‘contention’ but rather a ‘protracted manifestation’ of non-positivism/medieval registry-worldview/dimension perversion-of-reference-of-thought by the dynamism of non-positivism/medieval mindset, resolved/structurally-rendered-inoperant suprastructurally by a positivistic mindset/reference-of-thought making reference to superseding positivistic reference-of-thought—categorical-imperatives/axioms/registry-teleology). It should be noted that suprastructuring implies reflection about an abject and mentally dialectically-or-contendingly-out-of-phase; as of non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing-or-preconverging—apriorising-psychologism/not-veridical-thinking-reference-rather-dementing-or-preconverging-reference as-the-temporal-dispositions-are-dialectically-

out-of-phase/dialectically-primitive as suprastructurally reflected by an ‘ordered construct from the intemporal/ontologising disposition’ (since the state of exhibiting/demonstrating perversion-of-reference-of-thought will annul temporal-dispositions pedestals/statures/presumptuousness as dialectical-thinking-or-postconverging–apriorising-psychologism/‘logically contending’, more like a medieval mind with a superstitious registry-worldview doesn’t has the stature/presumptuousness to ‘logically contend’ about the ontological veridicality of an accusation of witchcraft with a suprastructuring positivistic mind, as the former makes syncretic/circular references to non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology in its supposed articulation of logic).

Paradoxically, the normal prelogism-as-of-conviction mind is so attached by conviction-reflex/prelogical-reflex-admittance-reflex/in-phase-reflex to the notion of the essence of conviction meaning (as it is not priorly inclined to put into question narratives but rather to quickly operate/process logic to arrive at outcome while ‘trusting’ that the other is also prelogism-as-of-conviction in their apriorising–registry, and so because psychopathy is a relatively outlier/unenframed phenomenon thus the natural human personality development doesn’t take it much into account in the bigger scheme of things, i.e. it will be ‘a waste of too much mental energy’ to be verifying in detail the apriorising–registry – implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology – of every interlocutor, so mentally the human mind has developed ‘a referencing scheme of trusting that involves closeness, familiarity, reputation and appearance’; but such a scheme is strictly speaking ontologically incomplete and underminable but it is standard as it ‘saves mental energy and time’, hence it is the strongest factor for the social prevalence of psychopathy and its social psychopathy corollary, and by

extension all postlogisms//outcome-sought-precedes-logical-dueness across all registry-worldviews/dimensions); that it will find it hard to articulate or for that matter not believe the comprehensiveness and extent by which the psychopath can produce non-veridical hollow mimicking narratives towards its end purpose, particularly as it is a rather social outlier/unenframed phenomenon and hence not usually integrated in many an individual's conceptualisation of social relations and phenomena. That's why the manifestation of bad conviction, contrasted to the psychopath's non-conviction-or-'existential-decontextualised-transposition'-or-impulsively-dementing, is ad hoc, circumspect and highly contextualised since the prelogism-as-of-conviction mind even when acting temporally/badly has a hard time escaping from conviction or prelogism (it has qualms/conscience) while the psychopath's non-conviction-or-'existential-decontextualised-transposition'-or-impulsively-dementing-or-preconverging-apriorising-psychologism is comprehensive since the psychopath naturally doesn't attach any 'emotional involvement' and qualms to the meaning of the narratives it articulates (it views them just as non-veridical hollow mimicking form narratives that determine its interlocutors prelogism-as-of-conviction dispositions and actions). In so doing, the psychopath has a parallel formulaic-representation-of-meaning/meaning-by-the-mere-illogical-possibility-of-it-being-narrated which 'subknowledging/mimics' the fundamental elements of 'conviction deductive meaning' such that the (adult) psychopath's non-veridical hollow mimicking narratives come across paradoxically as highly credulous. Basically the relevant question for the psychopath is: 'how was the hollow mimicking form that can be grasped in a prelogism-as-of-conviction mind deterministic of other prelogism-as-of-conviction minds behaviours, and how can I then mimic-and-project this hollow mimicking form to determine how others minds will act. These parallel formulaic-projection/extrinsic-attribution induced-meaningfulness elements (meaning-by-the-mere-illogical-possibility-of-it-being-narrated) with their corresponding

prelogism-as-of-conviction/intrinsic-attribution veridical-meaningfulness elements (which are subknownledged/mimicked) involve: ‘toning-triggering/snappings-of-impression/tenseness-of-interlocutory-engagement-(easily copied with conjugated-postlogism at an intuitive-level)’ as subknowledging ‘prelogism-as-of-conviction toning/mannerisms’; ‘hollow mimicking presumptuousness/arrogation/usurpation’ as subknowledging ‘prelogism-as-of-conviction suppositions’; ‘folie-raisonnante/non-veridical assumptions’ as subknowledging ‘veridical assumptions’; ‘absolving/fleeting/escaping-reflex-logic’ as subknowledging ‘prelogism-as-of-conviction logical operation narratives’; inductive/contextual limitation as subknowledging ‘principles/projected-logic’; structured-manipulation/deception-or-mimicking-or-gotcha-logic as subknowledging ‘value referencing/applicative-logic’; ‘taking-out-of-context/offsetting logic’ as subknowledging ‘veridical contexts logic’, and ‘extrinsic-attribution acts with respect to conventioning/social-temporal-thresholding contexts on the basis that acts by the psychopath to elicit the temporal-self-interest of its interlocutors will override intrinsic right or wrong; whether such actions include praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.’ as subknowledging ‘intrinsic-attribution of acts as inherently right or wrong’. On the above basis, the psychopath’s relation to ‘deductive meaning’ is actually reverting to ‘vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging as non-conviction/postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ deductions’ as ‘revert deduction’ whereas ‘conviction deductions’ emphasise the intrinsic attributive essence of deductions with corresponding latent forms of prosody, psychopathic vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging ‘revert or non-conviction/postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ deductions’ imply the psychopath overemphasises in a

consciously active manner the empty forms of prosody in-of-themselves first and over the intrinsic attributive essence of meaning like overemphasising the toning form (toning triggering) and the supposition form (presumptuousness) in their expressed deductive reasoning, as it mimicks the fact that the forms of prosody tend to be overemphasised spontaneously when naturally expressing profound/deep conviction; thus naturally the psychopathic mindset/reference-of-thought has an unusually large repertoire of ‘sense of meaningfulness associated with empty forms of prosody’ since it artificially perceives them as more critical than the conviction mind’s intrinsic meaningfulness the forms of prosody are latently associated with. The peculiarity with the psychopath and in the instance of protracted slantedness/social psychopathy with the case of exacerbation for instance, is the over-elaboration of such forms in a way that is rather an instrumentalisation of form of expression and not natural expression (mimicking or vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging). In fact, it is often the case that such line of rather ‘overly emphasised forms of expression with peculiar tonality’ will be noticeable across an entire set of the psychopath interlocutor’s in conjugated-postlogism in their ‘conjoining looping narratives of flawed-existential-elevation-of-reference-of-thought’ (pointing to vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging), and can be an advanced insight of a ‘psychopathic/postlogical and social psychopathic/conjugated-postlogism situation’, construable with an appropriate maximalising-recomposuring-for-relative-ontological-completeness. This mirrors the operant case highlighted further below, wherein the implied meaningfulness (of postlogical/psychopathic, conjugated-postlogism/dementing-or-preconverging-integration and conviction mental-dispositions) is existentially-traced as of the circularity/recurrence/repetition/repeatability as of ‘existential-transitioning-or-iterability-

trace-of-narratives-as-dots/existential-contextualising-contiguity-reification/superseding-oneness-of-ontology’ to establish ontological-veridicality, and not simply operating on the ‘naïve supposition of universal human prelogism-as-of-conviction’ without factoring the non-conviction/postlogical-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing mental-disposition of the postlogical/psychopathic and conjugated-postlogism/dementing-or-preconverging-integration mindsets/reference-of-thought.

It is important to note that the psychopath’s targeting is highly evolutive throughout its life (along human personality development stages) as ‘socially-perceived-value as of social-stake-contention-or-confliction’ with others arise and ‘the possibility of going undetected’ permits. The psychopath being ‘out-of-phase’ is pushed by a faulty-mentation-procedure-deception/urge/fole raisonnante, and the idea of psychopath’s having a grand plan/an overall scheme in its actions is ridiculous and unfounded (this idea again, is due to prelogism-as-of-conviction mental-alignment or in-phasing or prelogism to the last narrative(s) of the psychopath and rationalising prelogically/by-essence/candor all its previous ‘denaturing postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’-with-‘successive-shifting-of-the-narratives-and-acts-foci’-construed-as-‘deception-of-successively-shifting-or-noncohering-narratives-and-acts’ towards ‘social-aggregation-enablers over intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ as non-veridical and dialectically/contendingly out-of-phase’ over ‘the intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating’ instead of mentally aligning postlogically/by-form/slantedness/distractive-alignment-to-reference-of-thought before reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) a protracted unsoundness-or-inauthenticity-of-reference-of-thought/insanity). In fact, the psychopath’s faulty-mentation-procedure-deception-or-urge occurs because of

overthinking (elevating its perverted registry/mimicking-subknowledging to wrongly contend with it) rather than underthinking downgrading the perversion-of-reference-of-thought-⟨reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought and not contending with it⟩, just as is naturally done with a ‘childhood cinglé’ who is not yet surreptitious and the delirium is rather obvious. Actually, instead of being ‘deliberate of thought’/‘conviction logical motive’, the psychopath ‘impulsively learns’ as of its non-conviction/postlogical faulty-mentation-procedure-deception-or-urge from the successive experiences of its failing/not-upholding-as-of-apriorising/axiomatising/referencing childhood postlogism-slantedness as it grows into an adult by learning first to be socially-functional-and-accordant while being maturated, indirect, spatialising, credulous and crafty about its postlogism-slantedness so that it starts becoming effective in inducing conviction minds to align in-conviction to its non-conviction/hollow narratives. Thus, social universal-transparency’ of its slanted/postlogical narratives mental-disposition at childhood ‘gets lost’ socially at adulthood to many a conviction mind just getting acquainted but this is basically the same hollow-formulaic structure. This social loss-of-awareness of the social universal-transparency as being postlogism-formulaic-non-conviction further elicits a ‘sense of temporality’ as of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation in many an acquainted or non-acquainted (ignorance) conviction minds to the psychopathic postlogism-formulaic-non-conviction-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-existential-decontextualising-transposition/dementing-or-preconverging–apriorising-psychologism narratives as if it was truly ‘thinking’/prelogical/conviction/about-effective-reality thus inducing the phenomenon of social-psychopathy. Thus, a non-ignorant temporal pedestal mindset/reference-of-thought whether affordability/opportunism/exacerbation/social-

chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation may find it in their temporal-self-interest to cynically elevate the psychopath's postlogism-as-of-non-conviction/slantedness/hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-mimicking-or-subknowledging, when this is not socially universally transparent (at uninstitutionalised-threshold). Further, the element of the need to be socially-functional-and-accordant first, implies that psychopathy is 'more than just the drive of a pathological individual' but inevitably psychopathy and correspondingly social psychopathy involves a 'social split-dynamism' wherein the 'unordinary eliciting' of temporal interest among some as extrinsic-attribution (praising, endearing, owing a favour, gifting, assisting, being friendly towards, etc.) is the basis for the targeting of another or others, further compounded by the fact that while so-called 'rules of sound logic' abstractly permeate more or less effectively most of our formal setups, their sociological pertinence is actually far from established, but for the fact that broad and large general education diminishes social egregiousness in this respect, as specifically 'reasoning by significant others' is actually the more common mental-disposition in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) including the 'informal spaces' of formal setups, with the result that this is a further factor that makes psychopathy poorly graspable as simply of individual denaturing dynamics rather than of social denaturing dynamics, thus better construed phenomenally as social psychopathy; as logic will often tend to be 'rationalised in social rather than abstract terms' depending on level of individuals intuition about the underlying dynamism of the postlogism-as-of-non-conviction mental-disposition (going by experience), and then their sense of abstraction or gullibility or disposition to bandwagon effect with respect to a critical aetiologisation/ontological-escalation. (The

implication here is that, for instance, it will be very naïve for an investigation involving a psychopath without the investigators being extra-cautious with respect to the underlying social aggregation linkage of potential interlocutors).

Hence, the above phenomenon is further compounded in increasing profoundness (i.e. where the psychopath's childhood delirium gives way to an adulthood mental articulation which is diffused/with-hardly-any-social universal-transparency-but-rather-select-transparency-to-some about the nature of the psychopath's veridical mental state) when the 'temporal prelogism-as-of-conviction interlocutor', by the mechanism of 'induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality' at the point of lack of social universal-transparency about the psychopathic postlogism/slantedness non-conviction in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (and wherein there is no transparency about temporal-to-intemporal-dispositions disambiguation/unequivalences/alienative-hierarchisation), becomes 'affordable' (as it doesn't think it has got anything to lose personally), 'negatively opportunistic' (as it occasionally finds a temporal-self-interest in backing the psychopath, even though it knows better), 'negatively exacerbatory' (as it gains some insight in the psychopath's mental process and actually strives to copy it adhocly, as a successful way of going about one's temporal-self-interest). There is equally a social dynamism aspect wherein the issue of 'social allegiance, affordability and initial prelogism-as-of-conviction alignment to psychopath-and/or-the-protracted-postlogism' comes to override the issue of 'intrinsic rightness' leading to what is known as 'social-chainism or negative-social-aggregation or social-discomfiture' which in turn (because individuals find 'apparent social success and conventioning/social-

temporal-thresholding’ in such social behaviour) leads to the ‘temporal endemisation/enculturation of social psychopathy’. The underlying mental-disposition of the psychopath as postlogical and the temporal prelogical/conviction minds pedestals that endemise/enculturate this process thus becoming conjugated-postlogism, is known as ‘extrinsic-attribution’, i.e. the idea of satisfying an interlocutors sense of temporal interests is more important and critical in gaining their support than the notion of intrinsic truth/veridicality of meaning (intrinsic-attribution). Ontologically, this requires an altogether PURIST and UNCOMPROMISING intemporal/ontological conceptualisation of such a-comprehensive-social-temporal-hodgepodging which is rather ontologically-discontinuous. This author qualifies as procrypticism dementing-or-preconverging-apriorising-psychologism, and so as ‘ONTOLOGICAL ENTRAPMENT’ going by the ‘human solipsistic/emanant template of institutionalisation/intemporalisation’, given that reality and predication doesn’t compromise with the ‘mortal’ that man is (more like the positivistic mind can’t afford to compromise positivism to non-positivism/medievalism) exactly for the ‘intemporal good-of-man’.

At childhood the psychopath’s mental process can fully be seen in operation as the slanted effect of its thinking produces ‘a delirium effect’. However, as the psychopath matures it start adjusting to its failing/not-upholding-as-of-apriorising/axiomatising/referencing slanted mental process as it faces the negating social reaction of its immediate family environment and the grander society with respect to its slanting/impulsive—dementing-or-preconverging-apriorising. But then in its child development psychology, this social negation is rather the backdrop by which it evolves (in a process of trial-and-error in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-

looping-‘set-of-dereifying-hollow-narratives-and-acts’-absolving-or-fleeting-logic-reflex-or-escaping-logic wherein ‘perverted-outcome-sought-precedes-existentially-veridical-logical-dueness, i.e. vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’) from ‘a direct and blatant faulty-mentation-procedure-deception-or-urge for postlogical slantedness’ in a given social space during its childhood to a state in which the psychopath ‘externalises, displaces and transfers its faulty-mentation-procedure-deception-or-urge for postlogical slantedness to attain an apparent normal social equilibrium or socially-functional-and-accordant state within any given social space as it develops into adulthood’. It is in this way that a mechanism for psychopathic and postlogical slantedness is relayed to apparently sound conviction interlocutors, and so along five factors:

- MATURATION (as childish slanted delirious non-veridical hollow mimicking narratives give way to increasingly adult and serious non-veridical hollow mimicking narratives which unsoundness-or-inauthenticity-of-reference-of-thought/slantedness become harder to perceive);
- INDIRECTNESS (as the psychopath makes its motive, i.e. the psychopathic faulty-mentation-procedure-deception-or-urge, less direct and obvious, by increasingly appearing to bring up narratives in a neutral and unmotivated manner);
- SPATIALISATION (as the psychopath learns to articulate narratives at different ‘social spaces/locations’ to prevent interlocutors from judging their non-veridical hollow mimicking narratives and comparing with the effective social reality context to establish whether the narratives are sound);
- CREDULITY (as with development from childhood to adulthood psychopathy, its narratives increasingly mimic ‘genuine conviction narratives’ and at an even deeper level mimicking ‘profound conviction mindsets on issues’ the psychopath has witnessed or has

experienced insight of, and projecting these out of their social context to elicit the same effect) as well as readjusting its slanting/impulsive—dementing-or-preconverging-apriorising in a roaming/drifting-cycle as per evolving situation whether succeeding, being discovered and undermined, reassessing, backing down whether momentarily or not, bifurcating with the slanting/impulsive—dementing-or-preconverging-apriorising, etc. oince it is evolving in an ‘absolving or fleeting-logic-reflex-or-escaping-logic’. Further slanting is done at what it perceives to be ‘the credulity-level-of-slanting’ with respect to a given interlocutor which constantly evolves with psychopathic maturation. While the childhood psychopathy slanting is rather haphazard and by reflex, however the successive failing/not-upholding-as-of-apriorising/axiomatising/referencing is an experiential basis that ultimately skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) it into more strategic postlogical slanting at adolescence and adulthood with more matured construction and themes. Thus implying a corresponding development from a low credulity effect at childhood to high credulity effect at adulthood with respect to interlocutors, in addition to the fact that at adulthood its postlogism-slantedness is not socially-universally-transparency, that is, it now passes the intradimensional socially-betraying-threshold-of-ontologising-depth-of-analysis (or socially-betraying-threshold-of-intemporal-preservation-entropy-or-contiguity—or-ontological-preservation or dementing-or-preconverging–apriorising-psychologism-threshold-to-ontologically-veridical-meaningfulness or ‘uninstitutionalised-threshold’) of many an interlocutor;

- CRAFTINESS (with increasingly greater crude-to-polished apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing):

Actually when it comes to social-and-confliction-stakes, the psychopath being postlogism-as-of-non-conviction construes meaningfulness as a hollow-constituting—as-disjointed-

misappropriation-of-meaningfulness-and-failing-intemporal-preservation construct driven as an apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing exercise (with respect to same-terms-of-expressions/seemingly-same-implied-meaningfulness with regards to ordinary meaning) as determining of others/conviction interlocutors behaviours and mental-dispositions; this is rather crude with the childhood-psychopath/cinglé such that it fails to elicit conviction in others as the postlogical-effect is rather ‘delirious’ then (as in the case of wetting a chair) but the postlogism at adulthood psychopathy becomes rather polished/less-crude in its effect ‘with maturation/indirectness/spatialisation/credulity’ to the point then of eliciting a prelogical/conviction mental-disposition as conjugated-postlogism/dementing-or-preconverging-integration (conjugated-ignorance, conjugated-affordability, conjugated-opportunism, conjugated-exacerbation, conjugated-social-chainism and conjugated-temporal-enculturation) which is hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation with respect to the meaningfulness of reference-of-thought–categorical-imperatives/axioms/registry-teleology from the apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing. The psychopath perceives instances of rebuttal of its postlogism not essentially in terms-as-of-axiomatic-construct of the rightness or wrongness of the postlogical acts as a conviction/prelogical mental-disposition will but rather in terms-as-of-axiomatic-construct of not delivering well and failing/not-upholding-as-of-apriorising/axiomatising/referencing in its apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing of the postlogical narratives with the idea of how to further confound/muddle hence the reason it is recursive (postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’) as absolving/fleeting/escaping-reflex-logic to the point of faking remorsefulness or being a victim as long as fundamentally it ‘succeeds in placing its interlocutor in a prelogism-as-of-conviction relation to its non-conviction-or-existential-decontextualised-transposition-

or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism mental-disposition' in order for the former to conjoin to its postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’). So basically, as social-and-confliction-stakes develop from childhood to adulthood, likewise the psychopath’s postlogical narratives exercise develop and become increasingly serious in its social consequences as the context of ‘socially-perceived-value as of social-stake-contention-or-confliction’ moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath. The fact, however, is that many of those who grow together with the psychopath (immediate family, close family friends and relatives, etc.) generally have some insight, however wobbly, into this mental process. Further, psychopathic phenomenon meets with varying impact levels as it’s just a way of being/living for the psychopath, and differences in the setup of 'socially-perceived-value as of social-stake-contention-or-confliction' context and time might play a role in making its social consequences benign or aggravated.

But then psychopathy and its social consequences, as a social phenomenon, is often wrongly perceived as exclusively due solely to an individual (the psychopath). This is rather an incomplete picture of things actually. The psychopath in a way can be said to suffer from a pathological dysfunction arising in the interaction of biology and the social environment. The psychopath has an urge or the inclination to take a faulty-mentation-procedure-deception to resolving ‘socially-perceived-value as of social-stake-contention-or-confliction’s. This is the reason why its narratives are of succeeding changing/decentering/non-cohering foci in order to wrongly imply the veridicality of the projected apriorising–reference-of-thought-elements/apriorising–registry-elements which when wrongly acquiesced to is the foundation

for its faulty-mentation-procedure-deception-or-urge; as the succession of narratives are successive slants over one another, more like a non-cohering deception which is a deception as the basis for a succeeding deception as the basis for a further succeeding deception, and so on, explaining its peculiar absolving/fleeting/escaping-reflex-logic and the deliriousness/delirious-effect/cinglé-effect). Paradoxically, this faulty-mentation-procedure-deception-or-urge points to the fact that the slanted child psychopathy mind has ‘a developmental incompleteness (as it is so focussed on attaining its sought after outcome in advance that it construes of ‘presupposing/presuming/premising in concurrence’ as an independent mental activity that must not necessarily be derived-and-implied from existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, which is what validates logical-processing-or-logical-implication as a process reflecting existential-reality as of implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology), in the formation of a basic and normal conviction/prelogical (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) mindset/reference-of-thought’ inducing rather a non-conviction/postlogical mindset/reference-of-thought as it relates to meaning and meaningfulness as a faulty-mentation-procedure-deception-or-urge relative to social-stake-contention-or-confliction’ (explaining its absolving/fleeting/escaping-reflex-logic mental-disposition); rather than as of the ‘requisite existentially veridical logical-dueness (of apriorising—reference-of-thought-elements/apriorising—registry-elements) and logical-processing-soundness driven construct’ associated with a conviction/prelogical mindset/reference-of-thought. And this fundamental faulty-mentation-procedure-deception-or-urge relative to social-stake-contention-or-confliction of its non-conviction/prelogical mindset/reference-of-thought then goes on to account for the developmental psychology of

the psychopath from childhood to adulthood wherein it gains maturation/indirectness/spatialisation/credulity/craftiness in circumventing its postlogism failing/not-upholding-as-of-apriorising/axiomatising/referencing experiences at childhood and early adolescence to achieve the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance at adulthood. The paradox being that the conviction/prelogical mindset/reference-of-thought will project its own mental-disposition unwittingly upon the psychopath (in the case of adult psychopathy but not in the instance of childhood psychopathy where the latter's deliriousness/delirious-effect/cinglé-effect is often obvious due to lack of maturation/indirectness/spatialisation/credulity/craftiness to attain social-functioning-and-accordance—as-of-social-stake-contention-or-confliction), and paradoxically then wrongly validate the psychopath as conviction/prelogical with respect to meaning and meaningfulness as of 'requisite existentially veridical logical-dueness (of apriorising-reference-of-thought-elements/apriorising-registry-elements) and logical-processing-soundness driven construct'. However, psychopathy tends to take a social dynamism all of its own which cannot only be explained by the nature of the psychopath who initiates it. The fact is, while conviction, the rest of the human mental-dispositions include varying levels of temporality/shortness (when there is no social universal-transparency of our acts at 'uninstitutionalised-threshold' thus there is not 'intemporal social universal-transparency of temporal-to-intemporal-dispositions disambiguation/unequivalences/alienative-hierarchisation,' thus creating an 'induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality' derived from the psychopath's initiated postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation). That is, abstractly, with respect to 'socially-perceived-value as of social-stake-

contention-or-confliction' humans do solipsistically/emanantly/becomingly suffer perpetually, at 'uninstitutionalised-threshold', from the temporal-dispositions of slantedness (the psychopath), ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation. These poor solipsistic abstract temporal-dispositions that pervade the social context tend to be overcome with institutionalisation/intemporalisation and formalisations with corresponding internalisation of values or secondnaturing. However, at circumstances where the institutionalisation/intemporalisation threshold is surpassed or often made irrelevant like in the 'extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)', then 'a induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality' will elicit the 'mediocrity/averageness of mind'. This is strongly the case with psychopathy which when 'successful' (and not perceived deliriously but rather wrongly integrated prelogically/in-conviction) will often perfectly elicit an 'induced-ring-of-gyges-effect/point-of-solipsistic-threshold/point-of-ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality dynamism' in the social-construct such that others will find it to their temporal self-interest to perpetuate, whether circumstantially or profoundly, the phenomenon of psychopathy in society, so long as they can rationalise their dispositions and acts. This as 'social psychopathy' as a result of the psychopath's initiated postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (involving protracted/derived slantedness), in the absence of social universal-transparency on the veridicality of narratives with respect to social-and-confliction-stakes tends to induce ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-

discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-
endemisation (at the point of such lack of social universal-transparency of its postlogism-
slantedness to many a conviction interlocutor as the ‘uninstitutionalised-threshold’).

Hence psychopathy when studied dynamically is rather ‘social psychopathy’. Psychopathy through this social dynamism effect equally influences social behaviour as at ‘uninstitutionalised-threshold’ human learned behaviour is primarily geared towards what is ‘perceived as succeeding or conventioning/social-temporal-thresholding rather than ontological rightness for rightness sake’, whether intemporal (the-Good as longness-of-register-of-meaningfulness-and-teleology) or temporal (shortness-of-register-of-meaningfulness-and-teleology), hence its relation to sociopathy which is a more generalised notion of social vices-and-impediments. The social psychopathy phenomenon (in describing the underlying abstract nature of man before institutionalisation/intemporalisation; institutionalisation/intemporalisation being the exercise of utilising the intemporal-disposition by its purist and universal projection rules in an ‘ontological entrapment’ exercise to undermine/override temporal-dispositions subknowledging/mimicking, by virtue of its ontological-primemovers-totalitative-framework and overall medium to long term good to the cross-section of human temporal interests) is equally associated with the notion of the stages of human transcendence/civilisation, in an intemporal-preservation-entropy-or-contiguity-or-ontological-preservation exercise, from an recurrent-utter-institutionalised animal through subsequent stages of institutionalisation/intemporalisation (as intemporal-preservation-entropy-or-contiguity-or-ontological-preservation exercise, ‘as against the temporal human disposition to subknowledge-(dementing-or-preconverging-as-if-of-sound-knowledge)/pervert intemporal categorical-imperatives) starting with base-institutionalisation (initial sense of social rules/organisation), universalisation, positivism and prospectively the

future institutionalisation/intemporalisation this author qualifies as deprocrypticism (preempting procrypticism, so construed by ‘deprocrypticism ontologically-perspectival-elevated/pedestaling-as-dialectical-thinking-or-postconverging-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing’). That is, psychopathy as postlogism is associated with temporal-dispositions in their ‘perversion-of-reference-of-thought (as prior intemporal reference-of-thought—categorical-imperatives/axioms/registry-teleology) of the various institutionalisation/intemporalisation levels (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging of the reference-of-thought—categorical-imperatives/axioms/registry-teleology behind a registry-worldview’s/dimension’s institutionalisation/intemporalisation level that then warrants a subsequent ‘intemporal-preservation-entropy-or-contiguity—or—ontological-preservation re-institutionalisation of prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology). To grasp this better say for instance the normal arithmetic we know $2+2=4$, $5+1=6$, $7-3=4$, etc. was to be undermine by a new human perversion-of-reference-of-thought caused by a disease wherein we tend to say $2+2=5$, $5+1=7$ and $7-3=3$, then the traditional categorical-imperatives of addition and subtraction will be modified to take account of our perversion/defect by saying that additionality will involve subtracting 1 from the result and subtractivity will involve adding 1 to the result, so that arithmetic mirrors intrinsic reality outcome (intemporal transversality-of-disambiguated-apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence). Thus reference-of-thought—categorical-imperatives/axioms/registry-teleology are ‘inventions’ that are as pertinent as the extent of their preservation of intemporal reality (intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). Hence a false subknowledging/mimicking-and-protracted-mimicking with no relationship to intrinsic reality renders categorical-

imperatives/registry/axioms-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation null and void, calling for the overcoming of the slantedness/decandoring/distractive-alignment-to-reference-of-thought of mental-devising-representation and the articulation of new reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation reflecting intrinsic reality. These registry-worldview/dimension perversions-of-reference-of-thought include:

- RECURRENT-UTTER-UNINSTITUTIONALISATION (base perversion-of-reference-of-thought-(reflected-as-unsoundness-or-inauthenticity-of-reference-of-thought), resolved/structurally-rendered-inoperant by BASE-INSTITUTIONALISATION categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy),

- Procrypticism/disjointedness-as-of-reference-of-thought (slanted perversion-of-reference-of-thought of positivism reference-of-thought-categorical-imperatives/axioms/registry-teleology, resolved/structurally-rendered-inoperant prospectively

by DEPROCRIPTICISM categorical-imperatives/registry-worldview/axioms-for-intemporal-preservation-entropy-as-of-ontological-normalcy).

In the bigger scheme of things such ‘institutional-cumulations/institutional-recomposures’ as articulated above gives coherence in conceptualising a continuity in the human emanant/becoming anthropological experience; as putting into perspective and not excepting any particular stage of institutionalisation/intemporalisation, as we might tend to do by focussing on the present positive registry-worldview which is just the backend in reflecting the ontological-contiguity—of-the-human-institutionalisation-process, while ignoring the ‘effective and causative intemporal behind the institutional-cumulation/institutional-recomposure transcendental/psychoanalytic-unshackling process’, which skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) ‘the cross-section of human entropic being’ in the medium to long run towards intemporal-disposition preservation while undermining temporal-dispositions. Such a depth-of-thought as projected by the ‘institutionalisation intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ is what creates ‘a sounder scientific foundation’ for ‘a hermeneutic psychological science’ termed ‘anthropopsychology’ or the ‘anthropological continuity’. This can be comparatively compared to the hydrocarbon fractionation column wherein virtue is ‘lightness’. We may be confused to think that being at a lighter state, a particular hydrocarbon fluid like kerosene is inherently the definition of virtue. But actually, the exceptionality (lightness) of kerosene is the result of the ‘distilling process’ which fractionates crude oil into kerosene. So if we start having issues of ‘lightness’ at the kerosene stage of the hydrocarbon fractionation column, what is called for is applying the ‘distilling process’ over kerosene to produce say petroleum gas. So inherently, all the hydrocarbon

fluids are hydrocarbon, with virtue being the application of the distilling process. Thus reasoning from the overall perspective of the human species we can't afford not to pass 'so-called modern man' through the 'distilling process' (transcendence as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure) as it is because every successive transcendental level 'did its homework' that we are in the positivistic world, and we can't confuse 'being at the backend of the institutional-cumulation/institutional-recomposure' with us being inherently exceptional (it is the transcendental/psychoanalytic-unshackling process of undermining perversion-of-reference-of-thought that is). Hence 'our homework' is to articulate our very own perversion-of-reference-of-thought for the possibilities of the future, and not strive to arrive at a normalcy of 'our temporal-preservation-as-pseudointemporality-preservation' which speaks of inherent relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought, as-it-is-thus-'in-wait'-for-perversion-of-reference-of-thought-or-temporal-preservation-as-pseudointemporality-preservation, with respect to ontological-normalcy as we get at our 'uninstitutionalised-threshold'; instead enabling 'intemporal preservation' (by oblongating/decandoring/distractive-alignment-to-reference-of-thought of our mental-devising-representation as a registry-worldview defect/perversion of positivistic categorical-imperatives/axioms known as procrypticism dementing-or-preconverging-apriorising-psychologism, for a prospective anticipation and preemption of this known as 'deprocrypticism')!

It should be noted that while 'institutional-cumulation' and 'institutional-recomposure' are used interchangeably, however, the two terms carry two different connotative emphases necessary to make the conceptualisation complete. 'Institutional-cumulation' emphasises the contiguity of the process of human institutional transcendence

(with respect to intemporal-preservation-entropy-or-contiguity-or-ontological-preservation) while institutional-recomposure stresses the peculiarity of the transcendence/memetic-reordering wherein, for instance with regards to positivist institutionalisation/intemporalisation, the constituent institutionalisation and universalisation for positivism are recomposed peculiarly towards the positivism registry-worldview/dimension, and memetically/meaningfully differently reordered from base-institutionalisation and universalisation, and so too, the constituent institutionalisation recomposed in universalisation is memetically/meaningfully differently reordered from base-institutionalisation, and prospectively, the constituent institutionalisation, universalisation and positivism recomposed into depcryptoicism will be memetically/meaningfully differently reordered from base-institutionalisation, universalisation and positivism. This speaks of snowballing/expansive recomposing/memetic-reordering existential capacity depth with higher institutionalisations; a snowballing akin to the underlying evolutionary and genetic principles behind evolution from say amoebic cells across various other life-forms into a hominid like man, wherein the underlying basic principles go on to induce the complexity of man from simple amoebic cells. Institutional-recomposure also carries the idea that successive/prospective ‘memetic-reordering’ had tended to be based on the use of the outcome of prior memetic-reordering, and so focus mentation capacity on developing new memetic-reordering/recomposing. This implies that mentation-capacity-wise, human mentation-capacity across all successive institutionalisations is the same but latter institutional-recomposure/successive memetic reordering show ‘grander institutionalisation/intemporalisation outcome’ as this is due to their being at the backend of the emanant institutional-cumulation paradigm, utilising the outcome of previous institutional-cumulation effort. Hence the <formative>epistemic-growth/transvaluative-

rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness instigation recurrently inducing the institutionalisation/intemporalisation process (is not analogical but a contiguous notion by it intemporal-preservation-entropy-or-contiguity—or—ontological-preservation across institutional-cumulations) applies universally across space and time (beyond the institutional mirage/illusion-of-the-present/present-consciousness) such that ontologically speaking it is prospectively predicative of future institutionalisation/intemporalisation like deprocrypticism. This thus points to the fact that transcendental analysis (institutional-cumulation/institutional-recomposure analysis) is not, as may wrongly be thought, analogical but is rather ‘a contiguous meaningful reference’ (given the contiguity in the ‘precedingness/supersedingness/ascendency-and-continuity of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation referencing’ across all cumulating/recompositing institutionalisations); i.e., memetic contiguity as the underlying principle of memetic-reordering which is the ‘contiguous dynamism for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in the continuous transdimensional/transcendental relation of intemporal and temporal-dispositions’ at uninstitutionalised-threshold, and so, across all cumulating/recompositing institutionalisations whether from a retrospective, present or prospective perspective. Memetic-reordering (psychoanalytic-unshackling/memetic-reordering/institutional-recomposure process) can then be defined as arising when a registry-worldview’s/dimension’s (recomposured)-consciousness-awareness-teleology is transcended; at its uninstitutionalised-threshold involving-organic-comprehension-thinking in contrast with mechanical-comprehension-dementing-or-preconverging—apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation; in transversality-of-disambiguated-apriorising/axiomatising/referencing along three transversality-of-disambiguated-

apriorising/axiomatising/referencing pedestals (postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation whether-psychopathic-or-not/slantedness/impulsive-dementation/subknowledging-impulse
 transversality-of-disambiguated-apriorising/axiomatising/referencing pedestal, temporal-dispositions transversality-of-disambiguated-apriorising/axiomatising/referencing pedestals, and the intemporal-disposition transversality-of-disambiguated-apriorising/axiomatising/referencing pedestal with intemporal-disposition aetiologisation/ontological-escalation) enabling the stranding-dialectics, and not <formative>epistemic-totalising–self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase, of mechanical-comprehension-dementing-or-preconverging–apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation with the corresponding ‘collapsing’/overriding and ‘stranding-as-rightfully-oblongated/decandored’ of the prior registry-worldview/dimension ‘mental-devising-representation’ as dementing-or-preconverging–apriorising-psychologism/decandored/dialectically-or-contendingly-out-of-phase consciousness-awareness-teleology by the new registry-worldview’s/dimension’s (recomposed)-consciousness-awareness-teleology (and so deterministically and operantly without any discretion of appraisal which only leads to <formative>epistemic-totalising–self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase) such as recurrent-utter-uninstitutionalisation ‘dementing-or-preconverging–apriorising-psychologism mental-devising-representation’ by base-institutionalisation, ununiversalisation ‘dementing-or-preconverging–apriorising-psychologism mental-devising-representation’ by universalisation, non-positivism/medievalism ‘dementing-or-preconverging–apriorising-psychologism mental-devising-representation’ by positivism, and prospectively, procrypticism ‘dementing-or-preconverging–apriorising-psychologism mental-

devising-representation' by deprocrypticm. This brings up the notion that while candoring/straightness is the way meaning is represented within any registry-worldview/dimension institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, this is just a mental-devising-representation for implying intemporality-of-thought without which meaningfulness is not functional in the registry-worldview's/dimension's (recomposed)-consciousness-awareness-teleology, but then at that same prior registry-worldview's/dimension's uninstitutionalised-threshold, transcendence into a prospective registry-worldview's/dimension's (recomposed)-consciousness-awareness-teleology put into question this candoring/straightness mental-devising-representation and the prior registry-worldview's/dimension's consciousness-awareness-teleology is then represented as dementing-or-preconverging—apriorising-psychologism/decandoring/oblongated. This process is known as collapsing/overriding the prior registry-worldview/dimension, and such perpetual representation in the mental-devising-representation of the registry-worldview/dimension as collapsed/overridden is known as stranding or stranding-dialectics. Stranding purely has to do between placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology and ontological-veridicality/ontological-contiguity of reference-of-thought (from the ontological-normalcy/postconvergence epistemic/notional_projective-perspective); with the ontologically-veridical/ontological-contiguity mental-devising-representation stranded/represented as straight, and various shades of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’' stranded as oblongated/decandored in

reflection/perspectivation of their veridical perversion-of-reference-of-thought, beyond their <formative>epistemic-totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present. Hence we know of the following stranded registry-worldviews/dimensions: recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism/disjointedness-as-of-reference-of-thought (our own prospective mental stranding); as these form the backdrop for the articulation of transcending anticipatory and preemptive reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the prospective registry-worldview/dimension that are the resolution to the vices-and-impediments of the prior (uninstitutionalised-threshold) registry-worldview/dimension, successively as base-institutionalisation, universalisation, positivism and prospectively, deprocrypticism.

Each of such institutional-recomposures (along the institutional-cumulation process), have particular ‘central recomposuring determinants’ which the new registry-worldview is coming after, as follows:

(i) for Base-Institutionalisation, it has to do with the requisite ‘organising rules/principles’ as ‘a memetic ontological entrapment’ for superseding recurrent-utter-uninstitutionalisation (as an inherently-’dementing-or-preconverging–apriorising-psychologism-or-subknowledging-or- perversion-of-reference-of-thought-and-corresponding-<formative>epistemic-totalising–self-referencing-syncretising’ relation to meaningfulness).

(ii) for Universalisation, it has to do with requisite ‘projection rules/principles’ as ‘a memetic ontological entrapment’ for superseding ununiversalisation (as perversion-of-reference-of-thought of base-institutional meaningfulness).

(iii) for Positivism, it has to do with the requisite ‘empirical rules/principles’ as ‘a memetic ontological entrapment’ for superseding non-positivism/medievalism (as perversion-of-reference-of-thought of universalistic meaningfulness).

(iv) for Rational-Realism (Deprocrpticism), it prospectively has to do with ‘temporal-to-intemporal-dispositions accountability/intemporality-skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) rules/principles’ as ‘a memetic ontological entrapment’ for superseding procrpticism (as the perversion-of-reference-of-thought of positivistic meaningfulness).

Thus in the bigger scheme of things, just as a contrastive dialectical insight (from our present vantage position of the positivism backend of the institutional-cumulation/institutional-recomposure process), will strongly highlight by ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought’, recurrent-utter-uninstitutionalisation, ununiversalisation and non-positivism/medievalism as non-ontological-reference/non-contending-reference-but-ontologically-or-contendingly-reflected-or-perspectivated-as-dementing-or-preconverging–apriorising-psychologism/not-veridical-thinking-reference-rather-dementing-or-preconverging-reference/perversion-of-reference-of-thought-and-not-of-logical-contention, this shows ontologically speaking that it isn’t out-of-the-stranding-template to prospectively imply (beyond our own illusion-of-the-present/present-consciousness) such a prospective stranding-dialectics of our perversion-of-reference-of-thought as of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of our registry-worldview/dimension (positivistic meaningfulness) as procrpticism/disjointedness-as-of-reference-of-thought. Noting as well that uninstitutionalised-thresholds like recurrence-of-utter-uninstitutionalisation, base-

institutionalisation/ununiversalisation, universalisation/non-positivism-or-medievalism equally had a sense of straightness/candor of their meaningfulness in a full blossoming of their own existentialism/full-existential-depth-implications paradigm as we do in our positivistic/procrypticism registry-worldview, within the ambits of their the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework conceptualisation. But then their stranding from their prospective institutionalisation/intemporalisation represents them as oblongated/decandored/dialectically-or-contendingly-out-of-phase/dialectically-primitive as the transcendental backdrop/opportunity for the prospective registry-worldview/dimension. This when extrapolated will equally apply with our present positivism/procrypticism uninstitutionalisation/unintemporalisation for futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation/intemporalisation, and any 'complex' we'll have about that has to do with our illusion-of-the-present/present-consciousness/epistemic-totalising-self-referencing-syncretising/mirage than the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective). This equally explains why uninstitutionalised-thresholds equally carried a complex about their registry-worldview/dimension and these complexes certainly sound unintelligible to us given our vantage perspective at the backend of the institutional-cumulation/institutional-recomposure process.

With rational-realism (deprocrypticism), institutionalisation/intemporalisation raises the issue of hodgepodging of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging-qualia-schema> (undisambiguation as temporal-to-intemporal-dispositions are wrongly given the same elevation), and relevantly so at the

procrypticism/disjointedness-as-of-reference-of-thought uninstitutionalised-threshold. The very specific nature of the deprocryptic transcendence/institutionalisation is to recognise and articulate the veridicality of the fact of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor at the procryptic uninstitutionalised-threshold, and conjugate this in meaningfulness by going beyond just logical operation/processing/contention of narratives but rather in the first instance introducing the notion of ‘temporal-to-intemporal-dispositions disambiguation’ to avoid wrongfully operating/processing of logic by the reference-of-thought of the intemporal-disposition reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation which is ontological (i.e. is in sync with intrinsic-reality/veridicality), where the effective registries are actually temporal-dispositions thus to be construed as of their temporal references-of-thought. It involves stranding-dialectics temporal-dispositions manifest denaturing and thus to avoid elevating temporal-dispositions to intemporal logical contending status as this result in the miscuing of meaning as hodgepodging of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema>. Deprocrypticism institutionalisation/intemporalisation takes stock of the veridicality of human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor; as successive circular/recurrent/repetitive/repeatable iterating non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing (vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging as postlogism) constructs, and not as may wrongly be reflected by the natural reflex to be

conviction/prelogical, as conviction (existential-contextualising-contiguity/meaningful-projection-of-intrinsicness/authentic-vocalisation/prelogism) constructs, to emphasise the ‘dominance/supersedingness/suprastructuring of the intemporal-disposition skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)’ for the fulsome articulation of ontology as ‘object (postconvergence) ontological-veridicality/ontological-contiguity in conscious transdimensional/transcendental-memetic-depth (thinking-and-dementing-or-preconverging-dialectical-dynamism-or-dialectics) of ontological-normalcy/postconvergence or prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (unlike all prior institutionalisations which are rather intradimensional in their meaningful-depth construed only as a closed <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag ‘dialectical-thinking-or-postconverging—apriorising-psychologism dynamism’). As a corollary, meaningfulness or rather memetism or suprastructural-meaningfulness (the more veridical nature of meaningfulness beyond intradimensionality as being transdimensional/transcendental) should be notional and reflect this temporal-to-intemporal-dispositions nature of deprocrypticism institutionalisation/intemporalisation to the point of inducing a collective consciousness/social universal-transparency of ‘knowledge notionalisation’ (knowledge as understanding not only of the ideal/intemporal but equally how the temporal/defective works distractively, to anticipate and preempt the latter perverseness but doing so rather in a superseding ontologically-minded manner) and intemporal skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/differential-formalisation-transference as virtue and (postconvergence) ontological-veridicality/ontological-contiguity; in contrast to the

hotchpotching of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging-qualia-schema> of temporal-dispositions and particularly in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) which covers all informal spheres of institutions and society generally. So because knowledge notionalisation recognises that in a specie of temporal-to-intemporal-dispositions individuation dispositions, deferential-formalisation-transference which is the bases for institutionalisation/intemporalisation by skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) for the supersedingness/lead of the intemporal-disposition individuation is responsible for elevating human uninstitutionalised-threshold across the successive institutional-cumulations/institutional-recomposures by the resultant formalisation and internalisation involved in institutionalisation explaining effectively the dialectical evolution from deeper primitivites/mental-out-of-phrasings to the present state (limited-and-shallower-human-mentation-capacity to limited-but-deeper-human-mentation-capacity) as a result of the inherent 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness skewing ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-formalisation-transference for intemporalisation/institutionalisation, and the implications prospectively. For instance, the uninstitutionalised-threshold for getting one's way slyly will involve higher and higher thresholds with respect to virtue from a low threshold at recurrent-of-utter-uninstitutionalisation compared to base-institutionalisation-ununiversalisation, then higher and higher with universalisation-non-positivism-or-medievalism and our positivism-procrypticism, and prospectively highest with deprocrypticism; in line with the ontological-normalcy/postconvergence nature of ontological-veridicality. For instance, some hideous acts

will hardly be seen as vices in an recurrent-utter-uninstitutionalised registry-worldview. Knowledge notionalisation as such carries a transcendent-existentialism/in-full-existential-depth-of-temporal-to-intemporal-dispositions-implications which is more than just reactionary to the possibility of temporality/shortness (shortness-of-register-of-meaningfulness-and-teleology) but rather ‘a transcendent-existentialism maturing of thought’ (intemporality as longness-of-register-of-meaningfulness-and-teleology) that takes abstract cognisance of temporality/shortness as an intransient potency (hitherto accounting for the circularity/recurrence/repetition/repeatability of human circular-uninstitutionalised-thresholds) to be conceptually understood and superseded recurrently and perpetually. Critically, this insight about the effective nature of ontological-normalcy (in its becoming in a conscious transdimensional/transcendental-meaningfulness or memetism or suprastructural-meaningfulness) as ‘dialectical-thinking-or-postconverging–apriorising-psychologism-by-dementing-or-preconverging–apriorising-psychologism dialectics/dialectical-dynamism’ indicates that while psychoanalytically prior registry-worldviews/dimensions had hitherto been based on mental-devising-representations of ‘thresholding meaningfulness constructs’ (with their reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) within their ‘functional institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’, deprocrypticism going by ontological-normalcy implies a mental-devising-representation of ‘non-thresholding meaningfulness as transdimensional/transcendental-meaningfulness or memetic refinement (or a dialectical-thinking-or-postconverging–apriorising-psychologism-by-dementing-or-preconverging–apriorising-psychologism dialectics/dialectical-dynamism paradox) ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation as-prospective reference-of-thought’ in its

 deprocrypticism. The paradox of ontological-normalcy/postconvergence brought to bear with
 deprocrypticism will imply ontologically/intemporally that a registry-worldview/dimension-

referencing-syncretising/circularity/interiorising/akrasiatic-drag analysis. Insightfully, it implies the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework illumination driven institutionalisation over an impression-driven/good-naturedness/wishfulness conceptualisation as the-Good sticks by essence to intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and reinvents reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for prospective/transcending/superseding registry-worldview to comply with intemporal-preservation-entropy-or-contiguity—or—ontological-preservation when the prior one fails, while the latter sticks by form to reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation whether this fails intemporal-preservation-entropy-or-contiguity—or—ontological-preservation or not. The conceptualisation of reference-of-thought—categorical-imperatives/axioms/registry-teleology refers to the same deconstructed/ontological-reconstituting—as-of-conflatedness notion; axioms emphasises and hints of ‘basis’ and ‘foundation’ as well as ‘fundamental validation’ as of existential-reality, categorical-imperatives emphasises and hints of ‘necessity’, ‘rigour’, ‘constraining’ and ‘enforcing’, while registry-teleology (short for the apriorising—registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology) emphasises the ‘operant’ aspect as of human situatedness existential-instantiation elements implied when producing meaningfulness-and-teleology. The reference-of-thought is the fundamental-dispositional mentation architecture for human referencing or construing of meaningfulness-and-teleology, and is capable of ontological-reconstituting—as-of-conflatedness/deconstruction involving ontological-dementation/dialectical-dementation—stranding/attributive-dialectics with corresponding stranding-dialectics ontologically-extending-into-the-existentialism-becoming

of personhoods-and-socialhood-formation. This explains human transcendental capacity and sublimation as well as perversion-of-reference-of-thought. More precisely, perversion-of-reference-of-thought as to dementing-or-preconverging-apriorising-psychologism—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag implies registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect> as of 'non-conviction-being-teleology' (reflecting 'non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing-defects') and so in effective postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation wherein perverted-outcome-sought-precedes-existentially-veridical-logical-dueness whether as slantedness/impulsive-dementation (postlogical-backtracking—iterative-looping-'set-of-dereifying-hollow-narratives-and-acts') or induced as ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and so ideally reflected in 'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness organic-comprehension as 'ontological-reconstituting—as-of-conflatedness/deconstruction of new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation'. Fundamentally perversion-of-reference-of-thought has to do with the defect of the reference-of-thought and not the defect of ontological-veridicality/ontological-contiguity (which is rather a logical-process/implication-of-act-execution defect and which implies an 'implication-of-notion-of-agreement-or-disagreement'), as can be reflected in ontological-normalcy/postconvergence/from-ontological-normalcy. A reference-of-thought speaks of the

fundamental appropriateness/soundness-or-authenticity-of-reference-of-thought of reference-
 of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-
 entropy-or-contiguity—or—ontological-preservation irrespective of their appropriate or
 inappropriate logical-processing-or-logical-implication with respect to ontological-
 contiguity/ontological-veridicality, and implying sound reference-of-thought further
 emphasises appropriate incidental logical-processing-or-logical-implication in producing the
 right outcome. Hence a registry-worldview/dimensional defect is one of systematic defect of
 reference-of-thought; whether when recurrent-utter-uninstitutionalisation reference-of-
 thought as of non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-

 Thus fundamentally dementing-or-preconverging—apriorising-psychologism/unsoundness-or-
 inauthenticity-of-reference-of-thought does not arise because of failure of logical-processing-
 or-logical-implication but rather because of failure of reference-of-thought as of perversion-
 and-derived-perversion-of-reference-of-thought. This is unlike the case where logical-
 engagement of mental-devising-representation as ‘dialectical-thinking-or-postconverging—
 apriorising-psychologism’/soundness-or-authenticity-of-reference-of-thought is still relevant
 where there is failing/not-upholding-as-of-apriorising/axiomatising/referencing logical-
 processing-or-logical-implication (like calculating the answer of an arithmetic operation
 wrongly) so long as the reference-of-thought is sincerely/genuinely working in adherence to
 arithmetic axioms to produce the right answer. But this is invalid and not applicable where
 the issue is about deliberate disposition not to adhere to arithmetic axioms but usurp them
 (whether consciously, expediently or unconsciously). Soundness-or-authenticity-of-
 reference-of-thought on the other hand implies being-or-ontological-or-existential-or-
 meaningfulness-and-teleology disposition as of ‘conviction-being-teleology’ (reflecting
 ‘conviction-logical-processing-or-logical-implication’ and at worst conviction-defects of
 logical-processing-or-logical-implications’) and so in effective prelogism wherein logical-
 process-precedes-outcome thus upholding intemporal/veracity/ontological-pertinence; so
 construed from a more profound ontological-normalcy/postconvergence insight. This is the
 fundamental basis and backdrop for an insight for drawing ‘the implications of the (preceding

and superseding) ontological-normalcy/postconvergence nature of intrinsic-reality as ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation)', in reflecting/perspectivating/highlighting 'the mental-devising-representations of registries/references constructs and protractedly of registry-worldviews/dimensions (on the basis of the ontological-dementation/dialectical-dementation—stranding/attributive-dialectics) whether as of registry-soundness and thus as 'dialectical-thinking-or-postconverging—apriorising-psychologism representations' (thinking or stranded-as-straight/candored-and-dialectically-in-phase) or as of perversion-of-reference-of-thought and thus as 'dementing-or-preconverging—apriorising-psychologism representations' (dementing-or-preconverging—apriorising-psychologism or stranded-as-oblongated/decandored-and-dialectically-out-of-phase-or-dialectically-primitive), and so ontologically-extending-into-their-existentialism-becoming. Such dialectical articulation of mental-devising-representations can be conceptualised as defining individuations in terms-as-of-axiomatic-construct of 'conviction-being-teleology' (thinking or stranded-as-straight/candored-and-dialectically-in-phase) and 'non-conviction-being-teleologies' (dementing-or-preconverging—apriorising-psychologism or stranded-as-oblongated/decandored-and-dialectically-out-of-phase-or-dialectically-primitive). apriorising-psychologism’/soundness-or-authenticity-of-reference-of-thought
prospective/transcending/superseding registry-worldviews/dimensions). The mental-devising-

representations of ‘conviction being teleology’ performers (reflected as conviction-logical-processing-or-logical-implication and conviction-defects of logical-processing-or-logical-implications) with respect to subsequent acts ‘of-similar-or-derived-contextualisation’ by their performers always harken back to a reflex of ‘dialectical-thinking-or-postconverging–apriorising-psychologism or stranded-as-straight/candored-and-dialectically-in-phase’ to imply the upholding of ‘ontological-reference/contending-reference’; and so, for the simple reason that the state of being conviction (whether the act is defective or not) implies a ‘mental-disposition’ of the performer to be intemporal/ontological, and in the instance of conviction-defects of logical-processing-or-logical-implications the defects simply have to do with inappropriate logical-processing-or-logical-implication, and not unsound-mental-disposition or perversion-of-reference-of-thought (which in this latter case will speak of a mental-disposition to act with non-conviction-or-‘existential-decontextualised-transposition’ with regards to subsequent acts of similar context by their performers). Hence the mental-devising-representations of ‘conviction-being-teleology’ performers subsequent acts from their prior acts acknowledged to be conviction-logical-processing-or-logical-implication and conviction-defects of logical-processing-or-logical-implications are ‘validated/projected by reflex as ‘possibly-thinking’/possibly-soundness-or-authenticity-of-reference-of-thought and not invalidated by reflex as ‘possibly-dementing-or-preconverging–apriorising-psychologism’/possibly-unsoundness-or-inauthenticity-of-reference-of-thought in implying the upholding of their reference-of-thought status. To illustrate, suppose X and Y are contending (ontological-reference) to know what $5+4$ will give as answer (ontological-veridicality), if X is using pencils to count but inadvertently misplaced a pencil or doesn’t perfectly understand how to stack up the pencils to use to count the whole lot, then where his answer was to come out as $5+4=8$, we talk of a conviction-implication-of-act-execution-defect as X sincerely wants to calculate to produce the right answer but X’s logical-

processing-or-logical-implicitation failed. This doesn't invalidate the notion that Y can still engage X as 'possibly-thinking'/possibly-soundness-or-authenticity-of-reference-of-thought in contending (appropriateness-of-reference-of-thought-as-of-conflatedness) with respect to another arithmetic operation, that is, possibly after pointing out to X where they went wrong in their operation of arithmetic. While the mental-devising-representation of 'non-conviction-being-teleologies' performers subsequent acts of-similar-or-derived-contextualisation to their prior acts verified to be non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing priorly dementing-or-preconverging-apriorising-psychologism are 'invalidated/projected by reflex as 'possibly-dementing-or-preconverging-apriorising-psychologism'/possibly-unsoundness-or-inauthenticity-of-reference-of-thought and not 'possibly-thinking'/possibly-soundness-or-authenticity-of-reference-of-thought in implying the revoking of their reference-of-thought status. To illustrate, suppose X above rather slyly and deliberately (non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing) miscalculated (non-ontological-reference/non-contending-reference) the answer (of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging-qualia-schema>) and Y grasps this, then this invalidates the notion that Y can still 'genuinely' engage X (ontological-pertinence) with regards to another arithmetic operation of-similar-or-derived-contextualisation, with respect to the upheld context behind X's sly and deliberate basis for miscalculating.

The 'ontological-dementation/dialectical-dementation-stranding/attributive-dialectics of reference-of-thought' notion requiring prospective dementing-or-preconverging-apriorising-psychologism of non-conviction-or-'existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing'-acts

 or—ontological-preservation explains how and why successive institutional-
 cumulations/institutional-recomposures are at their given institutionalisation levels on the

basis of a memetic/suprastructural-meaningfulness analysis or a
 transcendental/transdimensional-meaningfulness analysis, the notion of socially-betraying-
 threshold-of-ontologising-depth-of-analysis or socially-betraying-threshold-of-intemporal-
 preservation-entropy-or-contiguity—or—ontological-preservation actually initially applies
 intradimensionally in all registry-worldviews/dimensions and it is actually the
 ‘intemporal/ontological signal’ for the need of prospective transcending/superseding due to
 ‘failing/not-upholding-as-of-apriorising/axiomatising/referencing intradimensional
 ontologising/intemporal-preservation’. Insightfully, we can grasp the ‘intemporal/ontological
 signal’ pointing to a socially-betraying-threshold-of-ontologising-depth-of-analysis with
 regards to a dimension’s/registry-worldview ‘dementing-or-preconverging—apriorising-

 contiguity—or—ontological-preservation or dementing-or-preconverging—apriorising-
 psychologism-threshold-to-ontologically-veridical-meaningfulness) is rather an overall
 registry-worldview/dimension perversion-of-reference-of-thought aftereffect rather as an
 indirect comprehensive socially-betraying-threshold-of-ontologising-depth-of-analysis (or

Thus for instance with regards to adult psychopathy and the induced social psychopathy, it will be naïve to simply analyse on a dichotomous basis of psychopathy and its violation of social norm, with the idea that

psychopathy is associated with temporal-dispositions destructuring-thresholding 'as the
 positivism–procrypticism registry-worldview's/dimension's socially-betraying-threshold-of-
 ontologising-depth-of-analysis'/socially-betraying-threshold-of-intemporal-preservation-
 entropy-or-contiguity—or—ontological-preservation (in conjugation to
 ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-
 negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) and it is naïve
 to simply analyse on the basis that other interlocutors have an intemporal/ontological
 disposition, in the very first instance. Thus the need, in order to attain such a prior requisite
 ontological/intemporal foundation, to formalise (as deferential-formalisation-transference)
 contexts of psychopathy and social psychopathy (and generally formalise contexts of
 'perversion-of-reference-of-thought-(reflected-as-unsoundness-or-inauthenticity-of-
 reference-of-thought)/dementing-or-preconverging—apriorising-psychologism—
 <formative>epistemic-totalising—self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag' in all registry-worldviews/dimensions to
 attain priorly an ontological/intemporal foundation), before conducting 'a truly
 ontological/intemporal analysis' as the-Good/understanding/knowledge-
 reification/ontological-primemovers-totalitative-framework construct, which necessarily
 implies projecting into a prospective/transcending/superseding registry-
 worldview/dimension, in this case deprocrypticism; as otherwise the 'ordinary' reasoning of a
 social context imbued with interlocutors temporal-dispositions destructuring-thresholds of
 postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-
 social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-
 endemisation, so-disambiguated as of 'reference-of-thought-devolving-level difference-
 conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism
 reflected as the divergent ontological-performances of the historicity/ontological-

eventfulness/ontological-aesthetic-tracing' on the basis of the fundamental ontologising limits or the uninstitutionalised-threshold of the registry-worldview/dimension (procrypticism being the fundamental ontologising limits of a positivistic registry-worldview/dimension), will pervert/corrupt the possibility of 'a truly ontological/intemporal analysis as the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct' preempting the said perversion-of-reference-of-thought phenomenon. In this respect, it is equally important to be cognisant of potentially nefarious influences that may arise from pseudo-formalisms as well, and where these are construed out of their inherent context to wrongly imply a genuine ontological analysis especially given the gullible/susceptible nature of the social-construct as it 'becomes existentially in a dynamism of conventioning and ontology'. Take the case of works of arts like novels and films primarily meant to entertain, and in so doing may induce wrong impressions and conceptions with regards to perversion-of-reference-of-thought phenomenon like psychopathy wherein the whims of their creators, aesthetic quality and ultimate financial gain are the primary driving motif, and not necessarily a profound and candid ontological insight of the phenomenon and its social implications/consequences. Basically, as we all know novels and films, while excellent in articulating aesthetic qualities, are not the true world of human lives and consequences. While there is more or less some deontological practice implemented with respect to such tendencies when it comes to issues of gender equality, racism, recently homophobia as well as say the portrayal of victims of some degenerative diseases, such intellectually-sound deontology requiring aesthetic-representations-produced-from-sound-ontological-insight by their creators (which is often not the case but for a cursory understanding focused on entertainment) is not ubiquitous especially when the relevant 'theme and the intellectual projection behind its ontological analysis' seem rather aloof to many in society, as is the case with regards to psychopathy and social psychopathy; such that

the influential nature of such aesthetic products broadcasted or sold to millions of people can easily induce wrong insights, undue romanticism, a poor grasp of its nefarious effects at individuals-and-institutional levels, and worst still perpetuate social ignorance simply by wrongly implied, naïve and fallacious explanations. Central to all such fallacies prevalent in many an aesthetic product with regards to psychopathy is that these often tend to be short-sighted given the unsustainable nature of the arguments in the middle to long run, and tend to be based on inductive limitation or ‘so-called principles’ that are actually fallacious since such arguments cannot truly be universalised as they require that others do not act likewise or their implications should be limited to given target(s) and not be universalised, since their fundamental teleology is not intemporal/not-of-universal-import but speak more of temporal motive. In this respect, one can cite at individuals-levels instances of many a human interest story tragedy in the press which often go unanalysed, and in the bigger institutional-level for instance what is the underlying dynamics that lead many an organisation or corporate entities to fail inexplicably due to grave and unprincipled mismanagement with profound social repercussions.

The implied intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm, contrasted with a temporal extricatory paradigm, is necessarily the prospective transcending/superseding registry-worldview/dimension. Consider the case of contending about a perversion-of-reference-of-thought like accusations and notions of sorcery in a non-positivism/medievalism setup where there is no intradimensional intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm given the obliviousness to a positivistic ontological-reference-of-veridicality/contending-reference-of-veridicality as it is suprastructural/beyond the registry-worldview’s/dimension’srecomposed-consciousness-

awareness-teleology to non-positivism/medievalism. Likewise the positivistic meaningful frame is oblivious to its procrypticism, and corresponding resolution as deprocrypticism as the prospective/transcending/superseding ontological-reference-of-veridicality/contending-reference-of-veridicality. Further, this notion of registry-worldviews/dimensions having socially-betraying-threshold-of-ontologising-depth-of-analysis (that need to be suprastructured by prospective/transcending/superseding registry-worldviews/dimensions) explains why a ‘dialectical-thinking-or-postconverging–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ aligned with ontological-normalcy is what escapes and provides for grander emancipatory possibilities that an intradimensionally mented or stigmatic psychology wouldn’t enable. The bigger notion of such a ‘dialectical-thinking-or-postconverging–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is to reconcile the idea that we have one ontology/ontological-veridicality/intrinsic-reality across all times whereas our placeholder-setup/mental-devising-representation/mentation/(recomposed)-consciousness-awareness-teleology in reference (as ‘tentative references-of-thought’) of this same one (ontological-normalcy/postconvergence) ontology/ontological-veridicality/intrinsic-reality and our corresponding/derived meaningfulness-and-teleology thereof, has been varying all along as we evolve from shallow-limited-mentation-capacity to deeper-limited-mentation-capacity; with the implication that the finality of such a ‘dialectical-thinking-or-postconverging–psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ is one that aligns with and is driven by ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) wherein ontological-normalcy is ‘an abstract conceptualisation that by artifice covers for human limited but deepening mentation capacity’. Ontological-normalcy (postconvergence) abstractly refers to any relevant/implied registry-worldview/dimension

that is in a reflected/perspectivated state of prospective transcending/superseding whether as base-institutionalisation, universalisation, positivism or deprocrypticism as having reference-of-thought status, in relation to a corresponding reflected/perspectivated state of prior transcended/superseded registry-worldview/dimension whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism which is then correspondingly devoid of reference-of-thought, and so going by the inherent human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor that arises by the mere fact that all the institutionalisations are of the same form-factor since their ‘snowballed differences’ arise solely due to ‘the deepening of limited-mentation-capacity-(as of relative constitutedness towards relative conflation)’. Ontological-normalcy as such will imply that the successive institutionalisations are rather shifts-in-the-curve-of-prospective-relative-ontological-completeness-of-reference-of-thought-as-of-ontological-normalcy (shifts-in-the-curve-of-human-grasp-of-one-ontology/‘ontological-reference-of-veridicality’, which will graphically/as-imagery imply ‘human-grasping-capacity’ on one axis and ‘depth-of-ontology/ontological-reference-of-veridicality/ontological-completeness’ as the institutional-cumulations/institutional-recomposures on the other axis or dialecticisms-of-an-imperfect-human-grasping-of-‘ontological-reference-of-veridicality’-which-mastery-improves-dialectically) which rather implies defects of perversion-of-reference-of-thought or unsoundness-or-inauthenticity-of-reference-of-thought of corresponding prior/transcended/superseded registry-worldviews/dimensions implying a voiding of their reference-of-thought as ontologically-veridical as these become the subject of contention and aetiologisation/ontological-escalation from the corresponding prospective/transcending/superseding registry-worldviews/dimension which is then the

ontologically-veridical reference-of-thought. It should be noted that a defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance (unlike a perversion-of-reference-of-thought) implies movement-along-the-same-curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought of a given registry-worldview's/dimension's reference-of-thought whether as an inappropriate/poor-or-bad or appropriate/good or any other variation of the logical-processing-or-logical-implication, and doesn't fundamentally voids the reference-of-thought status with regards to the possibility of an appropriate logical-processing-or-logical-implication in another instance. This insight is critical because the defect of logical-processing-or-logical-implication or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview's/dimension's-reference-of-thought-for-social-functioning-and-accordance will often be implied with regards to an issue and resolution of perversion-of-reference-of-thought which rather speaks to a defect of reference-of-thought status construed as perversion-and-derived-perversion-of-reference-of-thought speaking of registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect>. For instance, there is no intradimensional resolution of sorcery accusations and notions of sorcery as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm within a non-positivism/medievalism world, as what is required is a shift-in-the-curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought-as-of-ontological-normalcy to imply a prospective transcending/superseding positivistic registry-worldview/dimension as the resolution wherein positivising/rational-empiricism takes pride of place as reference-of-thought of meaningfulness. This applies with all perversion-of-reference-of-thoughts in all

institutionalised as the reference-of-thought is what gives registry/anchoring-of-meaning/meaningful-reference/ontological-reference/contending-reference/registry-worldview status which is voided in the instance of perversion-of-reference-of-thought with such perversion-of-reference-of-thought defining that registry-worldview/dimension uninstitutionalised-threshold as it then becomes, by way of ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought’, the subject of contention and aetiologisation/ontological-escalation. This implies that psychopathy and social psychopathy as perversion-of-reference-of-thought phenomenon in the positivistic registry-worldview/dimension (procrypticism) requires a shift-in-the-curve-of-prospective-relative-ontological-completeness-of-reference-of-thought-as-of-ontological-normalcy from positivism to deprocrypticism registry-worldview/dimension as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm resolution to psychopathy and social psychopathy, and so beyond an extricatory/temporal paradigm which will wrongly imply a movement-along-the-curve-of-prior-relative-ontological-incompleteness-of-reference-of-thought-as-of-ontological-normalcy that preserves procrypticism (perversion-of-reference-of-thought of positivistic meaningfulness-and-teleology) while inducing dementing-or-preconverging—apriorising-psychologism—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag within the same defective procrypticism registry-worldview/dimension which requires prospective transcendence as deprocrypticism. Insightfully again with regards to ontological-normalcy and ontological-normalcy/postconvergence critical for a ‘dialectical-thinking-or-postconverging—psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’, just in reflecting the ontological-contiguity—of-the-human-institutionalisation-process has to do with a human-limited-mentation-capacity maximalising-recomposuring-for-relative-ontological-

empiricism/positivising’ methodology of positivistic science which is subsuming of the

‘universalising-of-rules’ methodology of universalisation and the latter subsuming of the rulemaking-over-non-rules—apriorising/axiomatising/referencing-psychologism,-(as ‘first-level presencing—absolutising-identitive-constitutedness of reference-of-thought’ apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) methodology of institutionalisation – these in reflection of the development of human shallower-limited-mentation-capacity to deeper-limited-mentation-capacity cumulation/recomposuring/reordering/reorientation. In the case of dementing-or-preconverging-apriorising-psychologism acts of-similar-or-derived-contextualisation with regards to slantedness/impulsive-dementation (with an underlying element of physiological issue with regards to psychopathic personalities) and the derived social dynamisms of social psychopathy, such implied ‘deconstruction/ontological-reconstituting-as-of-conflatedness perpetuation of the hermeneutic circle ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought analysis’ is potentially beyond just ‘benign-and-specific-shallow-contexts-scale-of-implications’ but can be more profound involving institutions and individuals contextualisation as individuals-lives-and-institutional-lives-scale-of-implications and in the bigger scheme of things where such dynamics involve social structuring effects on perceived meaningfulness and values in the overall social-setup it has a social-structure-scale-of-implications (specifically not only in terms-as-of-axiomatic-construct of vices-and-impediments but also in undermining the enculturation of intellectual/emancipatory dispositions). Effectively, such a deconstruction/ontological-reconstituting-as-of-conflatedness perpetuation of the hermeneutic circle ‘ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of reference-of-thought analysis’ ontologically-extending-as-the-existentialism-becoming of conviction-being-teleology individuation as intemporal/ontological (longness-of-register-of-meaningfulness-and-teleology) and non-conviction-being-teleologies individuations as temporal (shortness-

of-register-of-meaningfulness-and-teleology), will comprehensively articulate in ‘a deconstruction/ontological-reconstituting-as-of-conflatedness perpetuation of the hermeneutic circle ‘ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of reference-of-thought analysis’ reflecting/perspectivating/highlighting temporal-dispositions pseudo-ontological-finalities, across social-setups and institutional settings with their evolving ‘socially-perceived-value as of social-stake-contention-or-confliction’. The state of ‘non-conviction-being-teleologies’ requires dementing-or-preconverging–apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought mental-devising-representations and implies the revoking of reference-of-thought status with respect to interlocution of-similar-or-derived-contextualisation (in the very first instance) while the state of ‘conviction-being-teleology’ implies a ‘dialectical-thinking-or-postconverging–apriorising-psychologism’/soundness-or-authenticity-of-reference-of-thought mental-devising-representation implying a veridical reference-of-thought with respect to interlocution (in the very first instance), and enabling the second instance of engaging in terms-as-of-axiomatic-construct of logical pertinence to establish (postconvergence) ontological-veridicality/ontological-contiguity. Typically, such an insight with regards to a ‘non-conviction-being-teleology’ is obvious and transparent with respect to the childhood psychopathy/cinglée mental-disposition, given that an initial encounter often involves a natural ‘dialectical-thinking-or-postconverging–apriorising-psychologism reflex’ by the interlocutor with respect to their initial narratives but after some familiarisation we come to understand that the initial narratives are in fact dementing-or-preconverging–apriorising-psychologism and thus our expectation of the subsequent narratives they iterate is to initiate or be ready to align by a mental-devising-representation as a ‘dementing-or-preconverging–apriorising-psychologism reflex’. This dementing-or-preconverging–apriorising-psychologism veridicality explains both the childhood and adult psychopath disposition for

absolving-logic-or-perpetually-fleeting-logic-reflex-or-escaping-logic based on extrinsic-attribution wherein the mental-disposition is to move postlogically/perverted-outcome-sought-precedes-existentially-veridical-logical-dueness from one set of narratives to the other and one set of interlocutors to the other with the idea convincing is the notion of getting more people ‘mechanically convinced by vague-rhyming-or-copied-mimicry-or-formulaic-projection-or-projection-of-form-or-hollow-and-vague-vocalisation-or-subknowledging’ and not an articulation of conviction/existential-contextualising-contiguity principle, be it by adhering to the mere hollow form of principles and narratives in existential-decontextualisation as being deterministic of others inclinations and actions. Intrinsic-reality in its ontological-normalcy/postconvergence indicates that effectively the conjugating/inflecting/deriving/mimicking/in-protraction-to-psychopathic-dementing-or-preconverging–apriorising-psychologism (which is often the case with the adult-psychopathic dementing-or-preconverging–apriorising-psychologism) whether unconscious (ignorance) or conscious (affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation) effectively underlies an ontologically valid mental-devising-representation reflex as dementing-or-preconverging–apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought of such derived ‘non-conviction-being-teleologies’. In the bigger scheme of things, it equally explains our mental-devising-representation dementing-or-preconverging–apriorising-psychologism/unsoundness-or-inauthenticity-of-reference-of-thought underlying reflex with respect to prior/transcended/superseded registry-worldviews/dimensions and ‘dialectical-thinking-or-postconverging–apriorising-psychologism’/soundness-or-authenticity-of-reference-of-thought mental-devising-representation underlying reflex with respect to prospective/transcending/superseding registry-worldviews/dimensions. A perversion-of-reference-of-thought speaks of a hollow-constituting—as-disjointed-

It should thus be noted that the dementing-or-preconverging–apriorising-psychologism of reference-of-thought of a registry-worldview/dimension implicitly reflects a defective/sub-par relative state-of-conceptualisation in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation (a fundamentally defective/sub-par state-of-disposition) with respect to ontological-normalcy/postconvergence, as can be demonstrated by ontological-reconstituting–as-of-conflatedness/deconstruction, (and has nothing to do, as-being-caused-by, with an inducing phenomena of ‘perversion-of-reference-of-thought as to dementing-or-preconverging–apriorising-psychologism—⟨formative⟩epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag’ behind say sorcery and psychopathy; even though such phenomena tend to instigate and reveal the inherent defect/sub-par nature of registry-worldviews with respect to ontological-normalcy, with the need for ontological-reconstituting–as-of-conflatedness/deconstruction). In other words, the

state of being non-positivism/medievalism with respect to ontological-normalcy is already a defective state ‘in-wait as of prior relative-ontological-incompleteness-of-reference-of-thought defective reference-of-thought—categorical-imperatives/axioms/registry-teleology for issues of superstition/lack-of-rational-empiricism to arise whether we talk of sorcery, bodily mutilations and their effects, charlatanisms, etc. Likewise, it will be naïve to imply that our registry-worldview as positivism—procrypticism is in absolute sync with ontological-normalcy by the mere fact that we are at the backend of the institutional-cumulation/institutional-recomposure, as we can equally project prospectively from a retrospective projection insight to grasp how ‘from an abject hermeneutic circle exercise of ontological-reconstituting—as-of-conflatedness/deconstruction (of our temporal-to-intemporal-dispositions nature)’ how procrypticism (dementing-or-preconverging—apriorising-psychologism—<formative>epistemic-totalising—self-referencing—syncretising/circularity/interiorising/akrasiatic-drag as to mere formulaic positivistic meaningfulness-and-teleology) in a positivistic registry-worldview structurally endemises psychopathy and social psychopathy. Insightfully, for a grander grasp of ontological-normalcy, the notion of institutional-cumulation/institutional-recomposure and their related conceptualisations are not just ad-hoc in nature but of ‘existentialism/full-depth-of-existential-implications form-factor’; which is fundamentally defined by ontological-normalcy/postconvergence (going by shallower-limited-mentation-capacity to deeper-limited-mentation-capacity), in reflecting the precedence/supersedingness of intrinsic-reality/ontology to which an ‘animal’ comes-to-and-re-compose-with-cumulatively by ontological-reconstituting—as-of-conflatedness/deconstruction (which is the critical subsuming mechanism for re-establishing reference-of-thought and ontological-veridicality/ontological-contiguity as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, above and beyond the simple hollow-constituting—as-disjointed-

This ‘existentialism/full-depth-of-existential-implications form-factor’ is the reflection of the contiguity of successive existentialisms/full-depths-of-existential-implications across varying meaningful frames, references and registry-worldviews/dimensions; and is abstractly determined by the ontological-normalcy/postconvergence nature of intrinsic-reality/ontology (ontological-normalcy) whatever the institutional-cumulation/institutional-recomposure, and inherently implies ‘a universal existentialisms/full-depth-of-existential-implications form-factor across institutionalisations’; which define their specificities and potentials which are basically abstractly of ‘a same form-factor’, with regards to the reality of their temporal-to-intemporal-dispositions and the existential implications on every registry-worldview/dimension thereof, though of differing ‘snowballed recomposuring’ of meaningfulness and reference-of-thought. Ontological-entrapment (as a deterministic point of reference that defines dialectical-out-of-phasing/dialectical-primitivity registry-worldview/dimension, and thus avoiding any confusing effects to analysis of the stranding-dialectics of ontological-dementation/dialectical-dementation—stranding/attribution-dialectics) is attained by ‘keeping or aligning’ placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology the hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogism-or-pervverted-outcome-sought-precedes-existentially-veridical-logical-dueness-or-non-conviction-or-existential-decontextualised-transposition-or-apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing (with no shifting by reflex into conviction-or-prelogism) of the placeholder-setup/mental-devising-

 This equally explains why a prior/transcended/superseded registry-worldview’s/dimension’s
 reference-of-thought is cross-sectionally dialectically-out-of-phase/dialectically-primitive
 given it is sticking to its ‘good-natured’ but ‘ontologically-wrong and failing’ reference-of-

 intemporal-preservation-entropy-or-contiguity—or—ontological-preservation (in ontological-
 reconstituting—as-of-conflatedness/deconstruction); wherein no amount of ‘good-naturedness’
 of any individuation based on the former (prior/transcended/superseded) reference-of-thought
 can fundamentally supersede its structural/paradigmatic vices-and-impediments, but for the
 ‘emancipatory moulting’ (psychoanalytic-unshackling/memetic-reordering/recomposuring)
 into reference-of-thought of the latter (prospective/transcending/superseding) of such would-
 be emancipating individuation/intellectuals and consequent
 institutionalisation/intemporalisation as transcendence. That is why there is no ontologically-
 veridical intradimensional resolution of issues and notions of sorcery for instance in a non-
 positivism/medievalism social-setup with any such pretence being nothing but a ‘temporal
 extricatory paradigm’ to satisfy temporal preservation’, but for implying a prospective need

Fundamentally, the reason for all the dimensions/registry-worldview perversion-of-reference-of-thoughts as limited-mentation-capacity-(as of relative constitutedness towards relative conflation) has to do with the veracity/ontological-pertinence of our temporal-to-intemporal as individuations of shortness-to-longness-of-register-of-meaningfulness-and-teleology, such that whenever relatively sound reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation are institutionalised/intemporalised, human temporality in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation individuation dispositions (at uninstitutionalised-threshold) will tend to relate, by limited-mentation-capacity-(as of relative constitutedness towards relative conflation), to this as hollow/formulaic constraining deterministic constructs which have to be exploited by the mere determinism-of-form about how others will act (hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) rather than the essence as intemporal-preservation-entropy-or-contiguity–or–ontological-preservation being sought originally by the institutionalised/intemporalised reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-

preservation-entropy-or-contiguity—or—ontological-preservation (ontological-reconstituting—
 as-of-conflatedness). This fundamental dilemma of the cross-section of human mentation
 disposition is ‘a lost cause’, given the reality of the notion of a shortness-to-longness-of-
 register-of-meaningfulness/temporal-to-intemporal-dispositions inherent in a limited-
 mentation-capacity-(as of relative constitutedness towards relative conflation); any resolution
 is not by wrongly implying any ‘ <formative>epistemic-growth/transvaluative-
 rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness transformation’ but
 rather institutionalisation/intemporalisation by its inherent eliciting of positive-opportunism
 to the grander cross-section of society in the medium to long-run wherein intemporal-
 disposition/longness-of-register-of-meaningfulness-and-teleology individuation dispositions
 by artifice/institutionalisation/intemporalisation come to constrain-or-dominate the social-
 construct (over temporal-dispositions/shortness-of-register-of-meaningfulness-and-teleology-
 or-hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-
 intemporal-preservation individuations dispositions); with corresponding percolation-
 channelling facilitating the perpetuation of such intemporal enculturation even when such
 positive-opportunism gets weaker with grander institutionalisations/intemporalisations, and
 so as the grander human good. This underlies the fundamental construct of rational-realism
 that human progress is the outcome of human increasingly realistic grasp of what man is with
 ‘lesser and lesser vague idealisations’, and that such ‘rational-realism’ enables humans to
 fully grasp their ‘emancipatory potential’ over ‘deluded idealisms’ that simply create space
 for falsehood, dead-end dilemmas as well as the consequent incapacity to take action, since
 basically knowing-is-acting!

Rational-realism (deprocrypticism) as such involves rather distractive-alignment-to-
 reference-of-thought /decandoring with three paradigmatic teleologies:

- subknowledging-impulse/impulsive-dementation temporal-disposition (psychopath), with ‘slanted mechanical narratives’ (stranded-as-rightfully-oblongated/decandored and not <formative>epistemic-totalising–self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase);
 - subknowledging-temporal-dispositions-teleologies (the-various-temporal-dispositions-teleologies), with ‘banal mechanical narratives discomfiture’ (stranded-as-rightfully-oblongated/decandored and not <formative>epistemic-totalising–self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase);
- and
- the intemporally given and ontologising teleology which ontologically reflects/perspectivates the subknowledging-impulse/impulsive-dementation-temporal-disposition-(psychopath) and the subknowledging-registries-teleologies (the-various-temporal-dispositions-teleologies), from a ‘organic-comprehension-thinking depth as the stranding-dialectics backdrop of new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation.

Thus at the uninstitutionalised-threshold, it is counterintuitive for temporal-dispositions not to perceive their registry-worldview/dimension as ‘un-transcendable’ (acting as if in intemporal-preservation-entropy-or-contiguity–or–ontological-preservation while actually in temporal preservation-as-pseudointemporality; hence dementable/no-longer-thinking) due to <formative>epistemic-totalising–self-referencing-syncretising/present-consciousness/illusion-of-the-present/mirage as metaphysics-of-presence which blinds the temporal-dispositions to the registry-worldview’s/dimension’s ‘intemporal preservation discontinuity’ as a result of the perversion-of-reference-of-thought as-of-unsoundness-or-inauthenticity-of-reference-of-thought-defects (and not logical defect) of

slanting/impulsive—dementing-or-preconverging-apriorising (psychopath) and the consequent derived – miscuing, disjointed-logic, logical-drag, unconscionability-drag, and sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation; arising from the conjugation with the relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought whether as recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism. The reason why this is critical to grasp is that the veridical intemporal-disposition preserving emanance has to ‘organically and existentially pass-through’/reflect/perspectivate the registry-worldview/dimension perversion-of-reference-of-thought as to dementing-or-preconverging-apriorising-psychologism—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag for psychoanalytic-unshackling/memetic-reordering/institutional-recomposeure on the basis of prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. * It is not an ‘avoidable luxury’ as it is the necessary transcendental element in establishing the backdrop for transcendence/prospective-institutionalisation. Galileo’s medieval ‘round world utterances’ nor Darwin’s and others ‘evolution contentions’ are not idle-and-dispensable articulations as all transcendences (occurring at the registry-worldview/dimension or intradimensional level and not logical operation/processing/contention level, are fundamentally about a new existential mental-devising-representation orientation) need to ‘break-the-mind’ of the prior temporal perversion-of-reference-of-thought existential mental orientation to avoid <formative>epistemic-totalising-self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase (for example, no ‘God of plane’

for say an animistic mental orientation that sees gods and spirits as causative, i.e. avoiding to operate the meaningfulness of a transcendent registry-worldview/dimension in terms-as-of-axiomatic-construct of the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the transcended registry-worldview/dimension). This starts with the would-be transcendence inducing intellectual(s)/emancipator(s) ‘owns reflexive individuation maximalising-as-transcendental liberation/emancipation’ from the reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of such prior registry-worldview/dimension from which it/they necessarily come from as well as not heeding generalised-social-temporal-preserving-mental-inclinations; and so, consistently cross-generationally since transcendence/institutionalisation is ‘beyond just logical argumentation/contention’ as it points to ‘being-or-ontological existentialism/full-depth-of-existential-implications structure defect’ (defect of reference-of-thought/soundness-or-authenticity-of-reference-of-thought, and so beyond logical defect). It is more like (a knowledge-driven/not impression-driven) ‘intemporal preservation recomposuring need or memetic-reordering/psychoanalytic-unshackling’ for institutionalised/intemporalised being/ontology over recurrent-utter-uninstitutionalised, universalised being/ontology over ununiversalised, positivistic being/ontology over non-positivism/medievalism and prospectively deprocryptic being/ontology over procrypticism/disjointedness-as-of-reference-of-thought.

The dynamism of social psychopathy and the perversion-of-reference-of-thought involved with regards to both the psychopath and protracted social psychopathy (requiring ‘distractive-alignment-to-reference-of-thought at ‘uninstitutionalised-threshold’) can be resumed as follows. Basically, the psychopath is involved in postlogical-backtracking—

iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ in a committed drifting-circularity/roaming (of non-veridical dialectically-or-contendingly-out-of-phase narratives ‘it wants to falsely represent veridically’), leading to temporal-dispositions slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect (contrasted to ontologising/intemporal conventioning-rationalising) and temporal-enculturation/temporal-endemisation effect, and these, hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, conjoining and conjugating to temporal-dispositions of ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, and fundamentally referenced from base ontologising effectivity (intemporal preservation); in ephemeral/temporal and ontologic/intemporal contrast, thus reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) the stranding-dialectics of temporal-dispositions denaturing of social psychopathy (subknowledging/mimicking) arising from initiating phenomenal psychopathy (subknowledging impulse) involving a distractive-alignment-to-reference-of-thought construal (as the backdrop of new recomposuring reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation and ultimately enabling its transcendental collapsing/overriding for institutional-recomposure/prospective-memetic-reordering). That’s how the ‘given reality’ is being subknowledged/registry-perverted. The technique to be utilised comprehensively for grasping the social psychopathy dynamism is by articulating an intemporal-referencing transversality-of-disambiguated-apriorising/axiomatising/referencing ontological-normalcy/postconvergence reality construct (by intemporal transversality-of-

disambiguated-apriorising/axiomatising/referencing as from ontological-normalcy/postconvergence is meant an approach that makes the given prelogism-as-of-conviction reality the ‘reference of soundness-or-authenticity-of-reference-of-thought/candor/organic-comprehension-thinking’, and re-orientating the mimicking-subknowledging into a slantedness/(decandoring)/distractive-alignment-to-reference-of-thought based on:

1. Given prelogism-as-of-conviction reality actually being dementing-or-preconverging–apriorising-psychologism/subknowledged/registry-perverted (which ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness should highlight that meaningful projections of implied intemporality/longness from banal <formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) are not veridically and demonstrable to be ontologically real and should be related to as being in distractive-alignment-to-reference-of-thought /mechanical-comprehension-dementing-or-preconverging–apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and are rather involved in ‘temporal preservation’ and not intemporal-preservation-entropy-or-contiguity—or—ontological-preservation),

2. Psychopath’s slanting/impulsive-’dementing-or-preconverging–apriorising-psychologism—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in (dialectically-or-contendingly-out-of-phase/hollow-mimicking) in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic in committed ‘circularity-of-extrinsic-attribution’ (it should be noted that there is an

internal contradiction reason why the psychopath in its postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, and equally other temporal interlocutors mimicking the psychopath’s postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, will carry on such a ‘circularity-of-extrinsic-attribution’ as the need to square up to the priorly slanted hollow mimicking narratives call for new slanted hollow mimicking perversion-of-reference-of-thought narratives even if it’s just to get a respite to enable an interlocutor’s or another interlocutor’s prelogical/conviction alignment to the new hollow mimicking postlogism-formulaic-non-conviction-or-‘existential-decontextualised-transposition’-or-impulsively-dementing-or-preconverging–apriorising-psychologism narrative, a process known as absolving/fleeting/escaping-reflex-logic),

3. Psychopath’s interlocutor’s perversion-of-reference-of-thought in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or conjoining-looping-set-of-narratives as-of-cohering-logic-reflex narratives integration from its prelogical/conviction rationalisation (existentially-veridical-logical-dueness-precedes-logical-outcome-arrived-at) of the last psychopath’s postlogical non-veridical hollow mimicking narratives in circularity as well,

4. Analyst’s reflection/perspectivation of the above 3 mechanisms as postlogical/subknowledging/mimicking/registry-perverting with contention never being about logical operation/processing/contention of the non-veridical hollow mimicking narratives but rather mental-slantedness/decandoring (distractive-alignment-to-reference-of-thought) of the psychopath and the interlocutors as ‘a manifestation of vice-and-impediment (never contention), i.e. rORIENTATION’,

5. Analyst’s intellectual articulation known as SUPRASTRUCTURING, wherein the universal ontological implication of social psychopathy dynamism across the human species

(across space-and-time)/the-social/ontological-paradigm is drawn so that the principles so articulated can be applied in all incidental cases of social psychopathy dynamism (with the intellectual responsibility of avoiding just an ad hoc/circumstantial based analysis and never elevating such poor rationalisations into an ontology, i.e. avoid the extrication-paradigm). SUPRASTRUCTURING effectively involves: (a) ‘registering’/stranding-dialectics of the perversion-of-reference-of-thought associated with social psychopathy dynamism, i.e. procrypticism/disjointedness-as-of-reference-of-thought mental-slantedness/decandoring (b) ‘superseding’ by developing universal axiomatic construct/categorical-imperatives preempting ‘(a)’ above which are habituated over a generation or two of the human species for deprocrypticism institutionalisation/intemporalisation transcendence involving its formalisations and internalisations (psychoanalytic-unshackling by: (i) articulating a social universal-transparency of the registry-worldview-perversion, (ii) generating ontological-primemovers-totalitative-framework ‘internal contradiction’ in the perversion-of-reference-of-thought registry-worldview (iii) registering/stranding-dialectics the perversion-of-reference-of-thought perversion-of-reference-of-thought/mental-perversion/dimension defect for prospective preemption with new recomposuring reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation of the prospective registry-worldview/dimension (iv) intemporal projection superseding the transcendence-unenabling-uninstitutionalised-threshold in alienation—as-inauthentic/poorly-objectified/poorly-desubjectified-as-objectified/ontological-bad-faith/nihilistic (being-dialectically-or-contendingly-out-of-phase/logically-incongruent/transversal) to reflect/perspectivate a mental-devising-representation of the superseded/transcended registry-worldview/dimension as ontologically-dementing-or-preconverging–apriorising-psychologism/dialectical-dementing-or-preconverging–apriorising-psychologism (perversion-of-reference-of-thought/registry-

worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect>/unsoundness-or-inauthenticity-of-reference-of-thought/mental-perversion/subknowledging/mimicking-and-corresponding-<formative>epistemic-totalising-self-referencing-syncretising), inducing a 'habituation' of the prospective/superseding/transcending registry-worldview/dimension cross-generationally. For instance, structurally the positivistic mental frame is in alienated-disposition/logically-incongruent and generates internal contradiction towards the non-positivism/medievalism mental frame as otherwise you have <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag or the registering of meaning in terms-as-of-axiomatic-construct of the registry-worldview/dimension that needs to be superseded/preceded/overridden/abjected, for instance, retrospectively the 'god of plane'... type of proposition from an early animistic society which doesn't comes to terms with the prospective positivist worldview construct as it hangs on to its non-positivist reference-of-thought-categorical-imperatives/axioms/registry-teleology, and this will equally apply prospectively between deprocrypticism and procrypticism as the procryptic mindset/reference-of-thought will strive to register meaning not prospectively taking account of procrypticism as a 'mental perversion/defect', and likewise retrospectively with the 'medieval mindset' with respect to the positivist mental frame. This obviously calls for an 'intellectual/scientism detachment' towards the perversion-of-reference-of-thought registry-worldview/dimension, with an intemporal-disposition sense of contributing to the bigger possibilities for of the species, i.e. intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm as opposed to an extricatory or incremental or 'disjointedness-as-of-reference-of-thought' or temporal-accommodation paradigm which is about temporal interest, and so, beyond 'temporal emotional involvement' or at 'reality

personality’ wherein the notion of human temporal compromising is not an ontological notion but rather defines and qualify the nature of human temporality/shortness in an ontological construct).

This way of hermeneutic ‘ontological reasoning’ to arrive at ‘intemporal-or-ontological meaning’ that is beyond any <formative>epistemic-totalising–self-referencing-syncretising/self-centered/present-consciousness/illusion-of-the-present/mirage mental projection within just a given registry-worldview/dimension so as to ‘grasp fundamental intemporal as of the inherent nature of existential-reality’ is central to the Depropticism registry-worldview/dimension as a doppler-thinking exercise known as suprastructuralism. Suprastructuralism is grounded on ontological-normalcy/postconvergence insight and places ‘abstract intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’ above the reference-of-thought–categorical-imperatives/axioms/registry-teleology devising (supposedly for intemporal-preservation-entropy-or-contiguity–or–ontological-preservation) meant to represent it in a given registry-worldview/dimension as prior/transcended/superseding (which as such is now construed as perversion-of-reference-of-thought in the mental-devising-representation of intrinsic-reality/ontological-veridicality, thus requiring new recomposing reference-of-thought–categorical-imperatives/axioms/registry-teleology to ‘preserve the abstract and intrinsic-reality as of intemporal-preservation-entropy-or-contiguity–or–ontological-preservation’. Depropticism’s suprastructuralism involves ‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling existence-potency-prospective-digression-of-‘<formative>epistemic-totalising–renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ so-construed as longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology’; and so, beyond

just about a prospective moral virtue but the prospective overall the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct as ‘ontology and its subsuming of virtue’, just as positivism is beyond just about a moral virtue but comprehensively an overall the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework construct carrying a virtue that supersedes the vices-and-impediments of the non-positivism/medievalism registry-worldvieww/dimension). It calls for a knowledge construct, whether social or physical, beyond just positivistic categorisation of knowledge but as ‘ontological-normalcy/postconvergence referentialism as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation ontology’. Thus, the doppler-thinking exercise of suprastructuralism enables the conceptualisation/construal of institutionalisation-or-intemporalisation-or-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in grasping the denaturing of reference-of-thought—categorical-imperatives/axioms/registry-teleology as of ontological-normalcy/postconvergence basis of analysis, and by so doing grasping the precedingness/supersedingness/ascendency of intrinsic-reality.

[Referentialism involves a reference-of-thought (characteristic of deprocrypticism) construing existence and existential-conceptualisation/construal as about the ‘precedingness of becoming’ as of conflation rather than constitutedness (notwithstanding the instances of the latter’s contingent approximating-nature for conceptualisation/construal construed as presencing—absolutising-identitive-constitutedness). Constitutedness tend to fallaciously imply ‘existence of things in existence’ whereas conflation rightly implies ‘things becoming in existence rather as subsumed-in-existence in a superseding—oneness-of-ontology’; so because constitutedness takes a simplistic shot at construal/conceptualisation of existential-reality practically presuming this to be ‘effectively absolutely real and final’ but then with

human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) this is erroneous hence the need for re-categorisation/re-adaptation/re-classification as ‘re-constitutedness of reference-of-thought’ perpetually when aware of its deficiency. Conflation takes a shot at construal/conceptualisation of existential-reality from an open-ended insight/fugue as of referentialism from the more profound ontological-normalcy/postconvergence of existential-reality factoring in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) as of metaphysics-of-absence, and as implied by the notion of intemporal-preservation-entropy-or-contiguity-or-ontological-preservation that goes beyond <formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives)-<of-the-prior-registry-worldview’s/dimension’s-institutionalisation-reference-of-thought—categorical-imperatives/axioms/registry-teleology> which are continually put into question, by being open-ended to upholding/not-failing intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication. Thus, constitutedness will wrongly induce virtuality-or-ontologically-flawed-construal/being-construal-as-abstract-construal-as-of-flawed-and-shallow-and-non-veridical-existential-reference, and so, with more and more profound defective construal/conceptualisation consequence with deeper and deeper categorisation and analysis. Often, and where aware, about the critical defective nature implied by constitutedness in categorisation schemes, there will be re-categorisation/re-adaptation/re-classification as a contingent resetting resolution for the induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of axiomatic-construct/reference-of-thought’ (by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-

contextualising-contiguity) that will then require another contingent resetting resolution for the subsequently induced ‘virtuality-or-ontologically-flawed-construal-of-constitutedness of reference-of-thought’ down the line when aware of its further critical defect again (though, in a sense the entire recomposuring process could be qualified as a ‘practical presencing—absolutising-identitive-constitutedness’ exercise). But then the inherent nature of existence in relation to human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) construal of it is one of evasiveness as implied by the ‘imbricatedness/threadedness/recomposuring as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of existence-potency-prospective-digression—rules-of-apriorising/axiomatising/referencing-that-further-epistemically-unconceal-the-very-ontologically-same-existential-reality’ such that we are only occasionally and partially aware about the critical defective nature implied by constitutedness in categorisation schemes, thus fundamentally defining the limits even of a presencing—absolutising-identitive-constitutedness as of existential-conceptualisations/construals. The implication is beyond just the notion of knowledge construal/conceptualisation categorisation schemes and scheming but extends to the very inherent construal/conceptualisation of knowledge as of its implied ontological and virtue construct itself; so because the structural/paradigmatic basis of categorisation scheming are equally the structural/paradigmatic basis of the inherent analysis and meaningfulness-and-teleology construed/conceptualised. Since categorisation schemes (whether construed/conceptualised beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>) define the ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’, it is critical to grasp that the inherent structural/paradigmatic limits/defects of such ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’ are systemic hence inducing ‘flawed-existential-

elevation-of-reference-of-thought’ as of ontological and virtue implications (as ontologically-perspectival-degraded-as-decentered/dementing-or-preconverging-reflexive/entailing-teleological-differentiation-as-of-subtransversality—apriorising/axiomatising/referencing) at the given ‘reference-of-thought of categorisation construal/conceptualisation of knowledge’. Beyond its conceptualisation as of knowledge categorisation and categorisation scheming but rather as of effective ontological-and-virtue conceptualisation/construal, constitutedness implies a simplistic/trite categorical relation in the construal/conceptualisation of meaningfulness-and-teleology as of its ontological and virtue essence that is susceptible to defect as perversion-of-reference-of-thought or derived-perversion-of-reference-of-thought; and as such, constitutedness will speak of subtransversality—apriorising/axiomatising/referencing and various shades of temporality/shortness in their ‘constitutedness and conjugated-constitutedness of reference-of-thought’ including psychopathic slantedness constitutedness. The comparison highlighted further below with respect to the 6 BODMAS characters and character A (Addition) as the additionality defect character, is most telling of the inherent nature of human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) induced constitutedness which is conceptually associated with conceptualisation/construal of ‘human temporal uninstitutionalised-threshold mental-disposition’ (since such a construal fully reflect the reality of a human temporal-to-intemporal reference-of-thought nature, with high ‘constitutedness and conjugated-constitutedness of reference-of-thought’ of temporal-dispositions reference-of-thought, much like the ‘conjugated-constitutedness of reference-of-thought’ of the other BODMAS characters to A’s fundamental postlogism-slantedness pathological condition/constitutedness as when insisting on upholding the <formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—

narratives)-<of-the-prior-registry-worldview's/dimension's-institutionalisation-reference-of-thought-categorical-imperatives/axioms/registry-teleology> and not factoring in A's underlying condition and defect as constitutedness, and so out of sync with the existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as the more fundamental a priori whose imbricatedness/threadedness/recomposuring reveals the fundamental defect of applying additionality reference-of-thought-categorical-imperatives/axioms/registry-teleology by elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity.). The resolution by imbricatedness/threadedness/recomposuring is most telling of the inherent nature of conflation which is conceptually associated with 'human registry-worldview's/dimension's institutionalisation mental-disposition'; as conflation speaks of a more profound relation in the construal/conceptualisation of meaningfulness-and-teleology as of its ontological and virtue essence that is susceptible to uphold intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as of ontological-normalcy/postconvergence which always factor in human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) by a re-equilibrating metaphysics-of-absence/postdication, and so even when elaboration-as-mere-extrapolating/constituting/abstracting/deducing/infering-of-elucidation-outside-existential-contextualising-contiguity is denaturing as exposed by existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, to further construe new reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation factoring in the imbricatedness/threadedness/recomposuring reflecting the existential-contextualising-

contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Conflation, as so-construed in referentialism, by striving to sync with the very inherent evasive nature of existence in its imbricatedness/threadedness/recomposuring (with respect to human limited-mentation-capacity-(as of relative constitutedness towards relative conflation)) as of referentialism is absolutely referencing on the basis of ontological-normalcy or ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as being the preceding notion for construal/conceptualisation with respect to existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context, and so grasped as conflation emphasises projective-insights for upholding ontological-normalcy or ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Hence conflation will tend to avoid systemic defects of analysis associated with constitutedness requiring re-categorisation/re-adaptation/re-classification as 'presencing—absolutising-identitive-constitutedness'. Conflation is thus naturally inclined to induce 'appropriate-existential-elevation-of-reference-of-thought' by the ontological and virtue implications (as ontologically-perspectival-elevated/pedestaling-as-dialectical-thinking-or-postconverging-differentiation-as-of-supratransversality—apriorising/axiomatising/referencing). As so articulated, these two concepts operantly address in a storied-construct/ontologically-valid-narration or any other operant conceptualisation the notion of a 'Différance-disambiguation-of-ontologically-veridical-meaningfulness-and-teleology' as meaning produced apparently with the 'same-terms-of-expressions/seemingly-same-implied-meaningfulness' (seemingly of veridical-ontological reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in the various instances) but actually implying

‘different relations to an ontologically veridical reference-of-thought’, underlined by the disambiguated temporal-to-intemporal-dispositions. Further, constitutedness and conflation, as so articulated, are such fundamental notions with respect to how humans limited-mentation-capacity-(as of relative constitutedness towards relative conflation) come to grasp existential-reality/ontological-veridicality that these two underlying notions are critically definitional relative to existential-construal/conceptualisation of understanding and failing-understanding, and insightfully explain the fundamental basis of the consecutive transformations of human psychologisms as induced by ‘dialectical-thinking-or-postconverging-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ at the transcendental/transdimensional/interdimensional-level of institutionalisations as well as at the individuation-level with respect to conception and misconceptions of meaningfulness-and-teleology not only with respect to understanding but equally dynamics of ‘personality formation and teleological-differentiation’, and so specifically as associated with the dynamics implied of a human-subpotency—aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor, further reflected in the overall dynamics of postlogism and conjugated-postlogism (including the dynamics of psychopathy and social psychopathy as social reprising out of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context of psychopathic pathological insane-fitment, as of fundamental/most-simplistic constitutedness socially reprised with ‘conjugated-constitutedness of reference-of-thought’) as well as grasping fundamental dynamics of institutions and especially as influenced by the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) which is highly subject to the reality of human-subpotency—

 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor (emphasising
 socially-functional-and-accordant thresholds rather than abject ontology, thus giving room for
 ‘least-and-derived-temporal-operating-modalities-of-the-reference-of-thought-as-of-
 incrementalism-in-relative-ontological-incompleteness-inducing-the-uninstitutionalised-
 threshold’). These two concepts are critical relative to grasping and analysing human
 choice/notions relative to reference-of-thought—categorical-imperatives/axioms/registry-
 teleology of meaningful-frameworks. Other implications have to do with human personality
 development psychology in relation to meaning and meaningfulness extending to the
 construal/conceptualisation of language development as well as aesthetics and virtue as
 reflecting the ontological-contiguity—of-the-human-institutionalisation-process. In a further
 elaboration of constitutedness and conflation with respect to psychologism, the reason why a
 prospective/transcending/superseding registry-worldview/dimension needs its own
 knowledge-construct reference-of-thought psychologism has to do with the fact that every
 registry-worldview/dimension has ‘its own specific constitutedness/conflation psychological
 complex reflex mechanism’ wherein its limits in the construal/conceptualisation of intrinsic-
 reality/ontological-veridicality are defined, and this is subpar to the
 prospective/transcending/superseding registry-worldview/dimension knowledge-construct
 reference-of-thought which thus needs its own corresponding psychologism for its
 superseding meaningfulness-and-teleology, achieved by ‘presencing—absolutising-
 identitive-constitutedness’ as constitutedness re-categorisation/re-adaptation/re-
 classification’. Consider the example of the ‘God of plane’ type of expression in an
 animistic/base-institutionalisation setup, where their fundamental psychologism is so
 ingrained that every meaningfulness from a positivistic social-setup cultural diffusion is
 inevitably reconstrued in the animistic/base-institutionalisation psychologism, until down the

line the latter's meaningfulness-and-teleology <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, by way of continuous 'presencing—absolutising-identitive-constitutedness' as 'recurrent re-categorisation/re-adaptation/re-classification of the prior constitutedness of reference-of-thought' is critically rid of the very essence of animistic/base-institutionalisation psychologism inducing an overall break into a positivism psychologism. It is interesting to note that going by the psychologism of a base-institutionalisation social-setup reference-of-thought for instance, the idea of arithmetic as we may grasp today in a positivistic registry-worldview/dimension Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology, and as of its operant nature, isn't the case in its operant conceptualisation in such a base-institutionalisation social-setup <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving-as-of-instantiative-context—meaningfulness-and-teleology as rather the mental-disposition apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument in the use of numbers is more about acting in currying favours or in view to receiving favours meaningfully as of '<formative>epistemic-totalising_nominal-as-tendentious-phenomenal-abstractiveness-of-presencing-in-'warped-consciousness'-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context' (as can be observed by anthropologists in various forms in many a hunter-gatherer and animist societies), rather than use of numbers considered as of such a relatively independent-domain and exactness of meaningfulness-and-teleology orientation as we construe of arithmetic and mathematics in say a universalisation or positivism registry-worldview/dimension Being-development/ontological-framework-

expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology <formative>epistemic-totalising/circumscribing/delineating reference-of-thought-devolving. Thus use of numbers is defined by other ideas in such early hunter-gather and animist societies given Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology like the notion of wealth accumulation, which will be predominantly about ‘inducing a sense of social obligation or faithfulness or deference’ from other persons, and so together with other cultural peculiarities that avoid hoarding and emphasise wealth display, gifts, etc. Psychologism (as being central in conflation or rather ‘presencing—absolutising-identitive-constitutedness’ as recurrent re-categorisation/re-adaptation/re-classification of constitutedness), refers to the underlying human reflex mental scheme of a given registry-worldview’s/dimension’s reference-of-thought ‘allowing for its given capacity to supersede its psychological complex in construing ontological-primemovers-totalitative-framework transcendental-enabling/sublimating and corresponding meaningfulness-and-teleology’. The bigger question could be asked; why doesn’t humans in recurrent-utter-uninstitutionalisation spontaneously articulate and relate to meaningfulness-and-teleology as humans in base-institutionalisation—ununiversalisation, who do not do likewise as humans in universalisation—non-positivism/medievalism, who do not do likewise as humans in positivism—procrypticism? Is it a difference in species, as of successive species? Obviously, no! As we know from history and anthropology that cultural diffusion has shown that all humans are able to come to terms and operate at the highest forms of human registry-worldview’s/dimension’s institutionalisation. This fundamentally points to the centrality of a registry-worldview’s/dimension’s reference-of-thought psychologism ‘placeholder-setup/mentation/mental-devising-representation/consciousness-awareness-teleology as arising and determined by its specific limited-mentation-capacity-(as of relative constitutedness in

relation to conflation) construal/conceptualisation as soundness-or-authenticity-of-reference-of-thought'. The underlying human psyche is in need of a 'framework of intelligibility construal/conceptualisation' as its mental-scheme (psychologism) by which humans, given their limited-mentation-capacity-(as of relative constitutedness towards relative conflation), can then project 'mental and existential investment' in a world of perceived stakes (social, natural and/or supernatural) in a 'social framework of intersolipsistic deambulation' (which holds the resources for individual and collective human possibilities, like prior developed culture, language, skills, etc. available for individual and collective intersolipsistic exploitation and renewal). Noting that at stake is its existential survival and thriving, and so it is involved in a relative zero-sum game of existential possibilities, on the basis of its limited-mentation-capacity-(as of relative constitutedness towards relative conflation) determining its prospective relative-ontological-completeness-of-reference-of-thought, as enabled by the 'social framework of intersolipsistic deambulation'. This 'social framework of intersolipsistic deambulation' is highly linear as of the possibilities for construing human psychical and institutional readjustments in inducing successive institutional-cumulations/institutional-recomposures which are thus equally in a linearity. This notion of 'social framework of intersolipsistic deambulation' harkens back to that of human registry-worldview's/dimension's institutionalisation by its socially-functional-and-accordant thresholds of temporal-to-intemporal-dispositions further redefining the possibility of uninstitutionalised-threshold as the threshold for failing/not-upholding the institutionalisation's reference-of-thought-categorical-imperatives/axioms/registry-teleology and the possibility of prospective institutionalisation as renewing reference-of-thought-categorical-imperatives/axioms/registry-teleology for upholding intemporal-preservation-entropy-or-contiguity-or-ontological-preservation as of ontological-normalcy/postconvergence with respect to the uninstitutionalised-threshold, thus further

redefining successive prospective socially-functional-and-accordant thresholds as successive prospective registry-worldviews/dimensions. Thus, implying a dual-faceted representation of human mental-disposition as uninstitutionalised-and-institutionalised, wherein by metaphysics-of-presence, the present registry-worldview's/dimension's reference-of-thought by its inherent presencing-inclination disposition will asymmetrically be oriented as institutionalised in secluding its uninstitutionalised facet from placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology with any sense of uninstitutionalised-threshold being rather an afterthought posture rather with respect to the prior registry-worldview/dimension uninstitutionalised facet of reference-of-thought. It is this appreciation successively implied registry-worldviews/dimensions prospective relative-ontological-completeness-of-reference-of-thought emphasising both institutionalised-and-uninstitutionalised-facets that naturally validates the notion of a 'contingent ontologising-capacity driven apriorising/axiomatising/referencing-psychologism as of the grander ontological-normalcy/postconvergence

 when factoring in such mental-dispositions as believing in superstitions, alchemy, notions-

and-accusations-of-sorcery, etc). As we come to recognise that such an approach renders the meaningfulness-and-teleology as value-reference of every registry-worldview/dimension at the backend of the institutional-cumulation/institutional-recomposure as the absolute determinant of what can be psychology, with a naivety that doesn't allow consciously, (as consciously decentering and pivoting with respect to human psychical and institutionalisation implications), for prospective transcendence, as it doesn't factor in the said registry-worldview/dimension prior relative-ontological-incompleteness-of-reference-of-thought to then project that there may be a prospective relative-ontological-completeness-of-reference-of-thought which meaningfulness-and-teleology as value judgment transforms psychological-construal/psychologism. The best possible outcome in this regard is as of the construal of a 'contingent ontologising-capacity driven apriorising/axiomatising/referencing-psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument' as it establishes prospective relative-ontological-completeness-of-reference-of-thought by social universal-transparency as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. As setting up the relevant contingent psychologism is only by a construal that the best possible psychology-construct/psychologism is necessarily attained by successive registry-worldviews/dimensions construals/conceptualisations by their contingent prospective relative-ontological-completeness-of-reference-of-thought by social universal-transparency as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context (that is, 'contingent ontologising-capacity driven apriorising/axiomatising/referencing-psychologism as of the grander ontological-normalcy/postconvergence

apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument'), and so successively across all registry-worldviews/dimensions, whether retrospectively or prospectively. This insight about the nature of a mented/stigmatic psychology compares with the instance about a Kantian absolute apriorising/axiomatising/referencing exercise; in that in both instances, human mentation capacity is construed as absolutely given at all times, with that mentation capacity rather 'reflexively and erroneously' absolutely construed as of the positivistic mindset/reference-of-thought, and what is not factored in is the fact that there is a human limited-mentation-capacity that maximalisingly-recomposures as of human shallow to deeper limited-mentation-capacity inducing the successive registry-worldviews/dimensions institutionalisations reference-of-thought with their own 'specific institutionalisation/uninstitutionalised-threshold mental-dispositions/apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstruments' as of their prospective relative-ontological-completeness-of-reference-of-thought with respect to their social universal-transparency as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; with the implications being that social universal-transparency as of existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context as of prospective relative-ontological-completeness-of-reference-of-thought redefines prospective meaningfulness-and-teleology and the corresponding apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument, implying an epistemic-totalising—renewing-realisation/re-perception/re-thought based on prospective maximalising-recomposuring-for-relative-ontological-completeness ultimately as of 'notional-deprocrypticism'; as this consciously factors in the reality of the need of transcendence as decentering/pivoting with respect to psychical-orientation, meaningfulness-

and-teleology construal/conceptualisation, institutionalisation and overall existential becoming. This validates the notion of ‘dialectical-thinking-or-postconverging-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as of its construing of notional-deprocrypticism as ‘deprocrypticism suprastructuration’ or ‘deprocrypticism suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology as of the overall registry-worldview/dimension reconstrual of superseding-oneness-of-ontology’ (enabling the <formative>epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abtractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context/conflation of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument of the deprocrypticism socially-functional-and-accordant as of intemporal/ontological contiguity, with no-temporal-to-intemporal-dispositions-non-dissociability, thus upholding deprocrypticism as preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing-psychologism). Thus, with notional-deprocrypticism further enabling the abstract intemporal/ontological contiguity grasp of human ‘individuation-level and registry-worldview/dimension-level meaningfulness-and-teleology’ as it can accrue at the intradimensional-level of individuals-notionally-as-receptacles-of-temporal-to-intemporal-individuations and individuals-as-institutionally-constrained-actors-as-of-intersolipsistic-deambulation, and hence ontologically-adjoins in its

construal/conceptualisation the construct of the individual and the social as of
 ‘deprocrypticism suprastructuration’ or ‘deprocrypticism suprastructural psychical-and-
 institutionalisation orientation of meaningfulness-and-teleology synopsis-depth as of the
 overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology’
 (just as in the natural sciences, physics ontologically-adjoins chemistry and chemistry
 ontologically-adjoins biology). This is in contrast with an ontologically non-contiguous
 stigmatic/mented psychology construct which relative ‘third-level presencing—absolutising-
 identitive-constitutedness’ largely limits its notion to ‘affect’, and not a full-blown
 ontological-contiguity as conflation elaborated ‘meaningfulness-and-teleology’ determination
 in full ontological converging with the social (as metaphysics-of-absence of the social,
 ‘conflation psychologism’ based on ‘temporal-to-intemporal contrastive-synopsis-depths-
 of-meaningfulness-and-teleology’ going by the ‘referentialism technique of point-
 referencing, explained elsewhere,’ that restores existential-contextualising-contiguity’s-
 reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-
 thought-devolving-as-of-instantiative-context in undermining procrypticism or
 disjointedness-as-of-reference-of-thought). Hence by recurrent re-categorisation/re-
 adaptation/re-classification of constitutedness of reference-of-thought as a ‘presencing—
 absolutising-identitive-constitutedness’ exercise at worldview-level, institutional-level and
 operant-level of meaningfulness-and-teleology, the requisite psychoanalytic-
 unshackling/memetic-reordering/institutional-recomposure for <formative>epistemic-
 totalising—renewing-realisation/re-perception/re-thought for prospective transcendence is
 achieved. Insightfully, (beyond ‘presencing—absolutising-identitive-constitutedness’) the full
 <formative>epistemic-causality-as-to-projective-totalitative—implications,-for-explicating-
 ontological-contiguity of conflation as implied with referentialism as the underlying
 transcendental memetic/suprastructural-meaningfulness fugue reflecting existential-reality

will take an even more critical bearing with respect to deprocrypticism psychologism as unlike the articulation as presencing—absolutising-identitive-constitutedness (rather heuristically and beyond consciousness-awareness-teleology) in previous institutional-cumulations/institutional-recomposures, with deprocrypticism conflation is rather bound to be perceived and construed as of the (recomposured)-consciousness-awareness-teleology in its full potential on the basis of referentialism as of the full development of ontological-normalcy/postconvergence. Thus, the notion of conflation (including ‘presencing—absolutising-identitive-constitutedness’) can be conceptualised across all transcendences as providing the ‘centering platform’ (that reflects the imbricatedness/threadedness/recomposuring of existential-reality as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context in ontological-normalcy/postconvergence or intemporal-preservation-entropy-or-contiguity—or—ontological-preservation) as the prospective registry-worldview/dimension institutionalisation reference-of-thought, for ‘decentering’ the prior registry-worldview/dimension uninstitutionalised-threshold reference-of-thought in its ‘constitutedness and conjugated-constitutedness of reference-of-thought’ with respect to the prospective registry-worldview/dimension institutionalisation reference-of-thought overall existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context meaningfulness-and-teleology; (as ontology/ontological-veridicality/intrinsic-reality increasingly supersedes ‘prior-conventioning as social-aggregation-enabling’, wherein for instance scientific explanations psychologism (as of prospective conflation) supersede mythical/supernatural/alchemic explanations psychologism (as of prior constitutedness) as ‘prospective-conventioning as transcendental-enabling/sublimating’; interestingly, highlighting how and why transcendence

for prospective institutionalisation is construed in transcendental-enabling/sublimating terms as its strive for a prospective relative-ontological-completeness-of-reference-of-thought necessarily implies a more profound grasp of intrinsic-reality/ontological-veridicality with respect to the prior as uninstitutionalised-threshold prior relative-ontological-incompleteness-of-reference-of-thought revealing which by reflex adopts a social-aggregation-enabling disposition with respect to the prior-conventioning). In this respect, ultimately the full achievement of conflation will involve fully expanding the sphere of relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating, as of ‘intemporal knowledge constraining construct’, for thorough construal/conceptualisation of social reality which is relatively highly prone to ‘constitutedness and conjugated-constitutedness of reference-of-thought and thus resultant presencing—absolutising-identitive-constitutedness’ as of social-aggregation-enabling, hence undermining relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating of the social. Ultimately, given the comprehensive and typical underlying proneness of human limited-mentation-capacity-(as of relative constitutedness towards relative conflation) to constitutedness as its fundamental mentation deficiency at uninstitutionalised-threshold or as of ‘human temporal uninstitutionalised-threshold mental-disposition’ (which it tends to resolve by ‘presencing—absolutising-identitive-constitutedness’ when aware of defective constitutedness) with respect to psychical-orientation, meaningfulness-and-teleology construal/conceptualisation, institutionalisation and its overall existential becoming, as so reflected in the succession of registry-worldviews/dimensions; deprocrypticism by its very transcendental essence comprehensively comes into grips with the constitutedness in positivism–procrypticism as it attains more than just ‘presencing—absolutising-identitive-constitutedness’ but an overall comprehensive conflation insight as of ontological-normalcy/postconvergence referentialism for superseding positivism–procrypticism. Conflation as of ontological-

normalcy/postconvergence referentialism in superseding constitutedness, provides resolution as of 3 aspects of meaningfulness-and-teleology: firstly, with respect to temporal instigating as constitutedness like psychopathic-slantedness insane-fitment ‘disjointedness-as-of-reference-of-thought’ misappropriated meaningfulness-and-teleology in arrogation and its derivation with respect to temporal reprisings of such constitutedness as ‘conjugated-constitutedness of reference-of-thought’ associated with conjugated-postlogism temporal reprisings by construing/conceptualising such perversion-and-derived-perversion-of-reference-of-thought phenomenon, and re-establishing social universal-transparency that by itself is the fundamental basis for human knowledge-and-virtue; secondly, articulating the universal aetiologisation/ontological-escalation as of ontological-reconstituting-as-of-conflatedness; and thirdly, highlighting the structural/paradigmatic pivoting/decentering as prospective ontological-completeness-of-reference-of-thought possibilities. It should be noted that ‘a mentation reflex as decentered and in ontological-dementation/dialectical-dementation–stranding/attributive-dialectics’ is no less valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human temporal uninstitutionalised-threshold mental-disposition’ (speaking of uninstitutionalised-threshold) as ‘a mentation reflex as centered and dialectical-thinking-or-postconverging–apriorising-psychologism’ is valid with respect to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology of ‘human registry-worldview’s/dimension’s institutionalisation mental-disposition’; and so, with no relevant need for attending to any ‘psychological complexes’ with respect to a representation as of an uninstitutionalised-threshold wrongly being construed as of institutionalisation (at the uninstitutionalised-threshold) as being ‘a mentation reflex as centered and dialectical-thinking-or-postconverging–apriorising-psychologism’ instead of ‘a mentation reflex as decentered and in ontological-dementation/dialectical-dementation–

stranding/attributive-dialectics'. The point of this statement is that when procrypticism as our uninstitutionalised-threshold is bound to be construed as of metaphysics-of-absence, the normal psychologism we know of as of our positivism institutionalisation will no longer apply, as our procrypticism meaningfulness-and-teleology will be represented as decentered and in ontological-dementation/dialectical-dementation—stranding/attributive-dialectics as the necessary/requisite backdrop for the construal of prospective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation ushering in deprocrypticism as prospective institutionalisation. In this regard, we'll certainly inherently relate to preceding successive uninstitutionalised-thresholds of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism effectively as decentered and in ontological-dementation/dialectical-dementation—stranding/attributive-dialectics, though this will most probably be resisted with respect to such a representation of our denaturing of positivistic meaningfulness as our prospective procrypticism uninstitutionalisation (just as the correspondingly humans in the preceding successive uninstitutionalised-thresholds by mentation reflex had, consciously and unconsciously, resisted a representation as decentered and in ontological-dementation/dialectical-dementation—stranding/attributive-dialectics); while we can recognise successively the centered and dialectical-thinking-or-postconverging—apriorising-psychologism nature of base-institutionalisation, universalisation and positivism, though probably less so of deprocrypticism institutionalisation as it points to the decentering and ontological-dementation/dialectical-dementation—stranding/attributive-dialectics of our procrypticism uninstitutionalisation. Such institutionalisation and uninstitutionalised-threshold construal at the transcendental/transdimensional/interdimensional-level is reflected/perspectivated operantly by the concepts of conflation as of centering and dialectical-thinking-or-postconverging—apriorising-psychologism reference-of-thought

implied with institutionalisations and constitutedness as of decentering and
 ontologically/dementing-or-preconverging-apriorising-psychologism reference-of-thought
 implied with uninstitutionalised-thresholds; prompting the respective institutionalisation and
 uninstitutionalised-threshold psychologisms as of the apriorising/precedingness of existential-

 reality beyond and above our subpar <formative>epistemic-totalising-self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought in positivism-
 procrypticism from a deprocrypticism perspective, just as we'll recognise for instance that a
 universalisation-non-positivism/medievalism mental-disposition contending against
 positivism institutionalisation meaningfulness is actually acting out a subpar
 <formative>epistemic-totalising-self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag reference-of-thought as of the
 apriorising/precedingness of existential-contextualising-contiguity's-reifying/elucidating-of-
 prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-
 instantiative-context reflecting this reality beyond and above it from the positivism
 perspective. Thus it is fundamentally the case that the requisite construal/conceptualisation as
 decentered and in ontological-dementation/dialectical-dementation-stranding/attributive-
 dialectics of an uninstitutionalised-threshold is hardly just one of 'simplistic knowledge
 elucidation' but rather an elucidation as of intellectual courage in bluntly asserting
 decentering and ontological-dementation/dialectical-dementation-stranding/attributive-
 dialectics. Intellectual courage as imbuing knowledge with organic profoundness of
 intemporal philosophy rather than just a mechanical construct of technicalities is the central
 driver for all initiated transcendences and prospective institutionalisations, as this goes
 beyond intellectual institutional-being-and-craft, since there is 'no magical knowledge

technicality' for implying a more profound ontological-completeness-of-reference-of-thought over a relatively relative-ontological-incompleteness-of-reference-of-thought but for such intellectual bravery to buck the trend or subvert as so displayed by the many illustrious positivism registry-worldview/dimension enablers subverting a non-positivism/medievalism mindset/reference-of-thought, fundamentally so with respect to such an intrinsic-reality/ontological-veridicality knowledge construct issue associated with transcendental-enabling/sublimating rather than a conventioning sovereign construct/choice issue associated with social-aggregation-enabling. In this regard, the issue arising is 'altogether not a knowledge elucidation problem' with respect to the implied representation of uninstitutionalised-threshold as decentered and in ontological-dementation/dialectical-dementation—stranding/attributive-dialectics but rather a 'psychological complex issue' of the prior/transcended/superseded reference-of-thought. This explains why the issue is construed ontologically in 'psychologism terms as of <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag', as requiring a coming to terms with the understanding implied by prospective institutionalisation as of its more profound existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; as more fundamentally, Galileo's use of a telescope to demonstrate a heliocentric system with respect to the non-positivism/medievalism reference-of-thought is not about the inherent knowledge implications to which the non-positivism/medievalism mindset/reference-of-thought has 'mentally shut-off' to, but fundamentally about the 'psychological complex' of the non-positivism/medieval world of countenancing such meaningfulness as jeopardising the prior (non-positivism/medievalism), with the implication rather for the need of the prospective psychologism as the positivism institutionalisation psychologism (<formative>epistemic-totalising—renewing-realisation/re-perception/re-thought foundation as new placeholder-

setup/mental-devising-representation/mentation/consciousness-awareness-teleology) requisite knowledge or meaningfulness-and-teleology reference-of-thought. Such equally applies with respect to deprocrypticism prospective institutionalisation relative to our procrypticism uninstitutionalised-threshold. In other words, prospective institutionalisation as transcendence is construed not in terms-as-of-axiomatic-construct of ‘mechanical-knowledge’ which refers to ‘the simplistic ontological-primemovers-totalitative-framework outcomes construed as the overtly compelling aspect of the knowledge’ validating a knowledge construct but is construed rather in terms-as-of-axiomatic-construct of ‘organic-knowledge’ which refers to ‘the mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretionary contemplative aspect of the knowledge, behind the thought process that eventually leads to and is subsuming of the mechanical-knowledge’. Thus prospective institutionalisation as transcendence is grounded on such an underlying reference-of-thought associated with organic-knowledge qualified as the institutionalisation psychologism. In this regard, a chemist or botanist for instance in a non-positivistic as medieval or animistic/base-institutionalisation setup will certainly not confuse the fact that its demonstration of chemical reactions or a plant demonstration to approval in such a social-setup necessarily imply that ‘the underlying positivism mental-disposition and mental-orientation as reference-of-thought/psychologism construed as including the discretionary contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of positivistic knowledge’ behind its thought process eventually producing the validating ontological-primemovers-totalitative-framework outcomes means the medieval or animistic/base-institutionalisation setup has grasped the positivistic organic-knowledge, as it is very much likely that it will surreptitiously and beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought>

conjure up

explanations/meaningfulness-and-teleology in terms-as-of-axiomatic-construct of its non-positivistic medieval alchemic or non-positivistic animistic reference-of-thought psychologism; as it is naïve to think that implied organic-knowledge as of prospective institutionalisation transcendence requiring its own reference-of-thought psychologism can simply be construed as ‘mechanical-knowledge’ while still upholding/keeping the prior/transcended/superseded registry-worldview’s/dimension’s reference-of-thought psychologism, as the organic-knowledge rather points to ‘validating ontological-primemovers-totalitative-framework outcomes as its mechanical-knowledge aspect but further requires a development of the discretionary contemplative aspect as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality of the knowledge’, grounded rather on such a prospective institutionalisation psychologism as its ‘suprastructuration’ or its ‘suprastructural psychical-and-institutionalisation orientation of meaningfulness-and-teleology synopsis-ing-depth as of the overall registry-worldview’s/dimension’s reconstrual of superseding—oneness-of-ontology’, and not the prior/superseded/transcended uninstitutionalised-threshold psychologism. Such organic-knowledge gets institutionalised to an extent by the habituation as of circularity/recurrence/repetition/repeatability of the mechanical-knowledge implied reference-of-thought of meaningfulness-and-teleology as of cross-generational psychoanalytic-unshackling involving <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag towards the ultimate cross-generational alignment to the prospective/transcending/superseding registry-worldview reference-of-thought, as a positivistic registry-worldview reference-of-thought. Interestingly, and so across all successive institutionalisations, what tends to be lost ‘the failure to register fully that the ‘intemporal projecting mental-disposition’ behind ontological-primemovers-totalitative-

framework validating the institutionalisation of ‘mechanical-knowledge’ is rather the ‘vitality aspect’ of organic-knowledge and it is ‘not a passive dispensation’, just as well that the ‘temporal mental-dispositions’ superseded towards attaining the ‘mechanical-knowledge’ is ‘not simply a passive distraction’ with the insight that there is a contiguity as of temporal-to-intemporal mental-disposition relative to ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality across all the successive registry-worldviews as at all their uninstitutionalised-threshold temporal-individuations-as-shortness-of-register-of-meaningfulness-and-teleology are a drawback to transcendence (by adherence to <formative>wooden-language-<imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives> of the successive registry-worldviews’/dimensions’ reference-of-thought—categorical-imperatives/axioms/registry-teleology inducing their successive apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing, and critically so as across all registry-worldviews postlogism leads to a characteristic mental-disposition at their uninstitutionalised-threshold of deception-of-concurrently-false-presupposing/false-presuming/false-premising-of-narratives and the consequent derivation, due to induced ‘lack of constraining social universal-transparency, to other temporal-dispositions as conjugated-postlogism, and so beyond-the-consciousness-awareness-teleology-<in-existential-extrication-as-of-existential-unthought> whether conscious or unconscious) while the intemporal-individuation-as-longness-of-register-of-meaningfulness-and-teleology ushers in transcendence (by it perpetual vouching for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality in pushing as this enables successive prospective

relative-ontological-completeness-of-reference-of-thought to raise better and better reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation); thus validating the notion of a human intersolipsistic relation to meaningfulness-and-teleology in transversality-of-disambiguated-apriorising/axiomatising/referencing since a wrong ‘wishful thinking’/intemporal-romanticism/good-naturedness of vouching for logical-congruence will overlook the inevitable reality of temporal-perversion with prospective implications as of <formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, as its resolution is rather an anticipation as of transversality-of-disambiguated-apriorising/axiomatising/referencing. Likewise, futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism institutionalisation meaningfulness-and-teleology implies that transcendence rather reasoned in our positivism—procrypticism terms of psychology is inevitably denaturing as of ontological-normalcy/postconvergence epistemic/notional_projective-perspective; as it is in need of the organic-knowledge of the prospective institutionalisation psychology or deprocrypticism psychology as conflatedness (conflation psychology) on the basis of the ‘referentialism technique of point-referencing (explained elsewhere), which involves ‘contrastive temporal-to-intemporal synopsising-depth from a deprocrypticism perspective’ that re-establishes existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context and in so doing undermines the relatively defective terms of ‘positivism—procrypticism uninstitutionalisation psychology’ (disjointedness-as-of-reference-of-thought) and setting up ‘deprocrypticism organic-knowledge institutionalisation psychology including the discretionary contemplative as of

the ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality aspect in preempting—disjointedness-as-of-reference-of-thought or upholding jointedness’, as structurally/paradigmatically transcending the overall vices-and-impediments of positivism—procrypticism registry-worldview/dimension. The further implication is that deprocrypticism is rather construed as a perpetuating metaphysics-of-absence which driven by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality can then enable that way the perpetual upholding of organic-knowledge. This ‘mechanical-knowledge by organic-knowledge’ implication for conceptualising institutional-cumulations/institutional-recomposures is validated by ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing—psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ across retrospective and by implication prospective registry-worldviews/dimensions. This can be further expounded as follows in similar terms. The ontological-contiguity—of-the-human-institutionalisation-process behind the institutional-cumulations/institutional-recomposures doesn’t only imply that the ontological-contiguity—of-the-human-institutionalisation-process is simplistically the result of ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ successively as: non-rules—apriorising/axiomatising/referencing—psychologism,-as-impulsive-or-accidental-or-random-mental-disposition in recurrent-utter-uninstitutionalisation, ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’ in base-institutionalisation—universalisation, ‘universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’ in universalisation—non-positivism/medievalism, ‘positivising/rational-empiricism-based-

universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’ in positivism—procrypticism, and prospectively in depcrypticism, ‘preempting—disjointedness-as-of-reference-of-thought,-as-to-<formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness-in-superseding-mere-formulaic-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’. Rather the ontological-contiguity—of-the-human-institutionalisation-process is driven by human limited-mentation-capacity as of deepening limited-mentation-capacity in the human drive to grasp a same intrinsic-reality/ontological-veridicality that doesn’t change with respect to existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-‘<formative>epistemic-totalising-renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’ (with change rather reflected as a result of human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal)), such that in addition to the human limited-mentation-capacity-deepening-<formative>epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) eliciting the successive ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ as highlighted above equally inherently imply (and so, as of complement to human limited mentation capacity), a grander non-constraining element qualified as ‘ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation’ in-complement-to and reflecting the incompleteness of the ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’; with both the ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ and the ‘complementing grander social-universally-non-transparent-thus-non-constraining-element of

 however at the intemporal-threshold as of the registry-worldview’s/dimension’s-reference-

Likewise, base-institutionalisation–ununiversalisation too by dynamic-cumulative-aftereffect at its intemporal-threshold of the registry-worldview’s/dimension’s–reference-of-thought-for-social-functioning-and-accordance notwithstanding limited-mentation-capacity, the intemporally projecting individuation will be able to summon heuristically a sense of the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework, from its ‘complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, (beyond the mere ‘mechanical-knowledge’ of ‘rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’) as ‘organic-knowledge’, for maximalising-recomposuring-for-relative-ontological-completeness (as intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-for-relative-ontological-completeness paradigm) leading by a dynamic-cumulative-aftereffect to the subsequent prospective universalisation—non-positivism/medievalism as of the new ‘social-universally-transparent-and-implicitly-formulated direct-constraining-construct’ of ‘universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism’ as the new ‘mechanical-knowledge’ as well as implying the ‘complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, with both forming the new ‘organic-knowledge’. The ontological-contiguity—of-the-human-institutionalisation-process carries on this way right up to deprocrypticism, such that across the successive institutionalisations apart from the intemporal-threshold of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance as explained above; with respect to temporal-thresholds of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance or defect of incidenting-or-logicising-instantiation-of-ontological-performance of the registry-worldview’s/dimension’s-reference-of-thought-for-social-functioning-and-accordance, temporal mental-dispositions are rather in arrogation/usurpation relation with the determinant nature of ‘social-universally-transparent-and-implicitly-formulated direct-constraining-

construct' as 'mechanical-knowledge', and so as <formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives)-<of-the-prior-registry-worldview's/dimension's-institutionalisation-reference-of-thought—categorical-imperatives/axioms/registry-teleology>, while failing/not-upholding-as-of-apriorising/axiomatising/referencing the 'complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation' which together with the 'mechanical-knowledge' make up the 'organic-knowledge', and so rather as of temporal extricatory paradigm. This further involves shades-of-temporality as postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of 'reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing' inducing defects of logical-processing-or-logical-implication as well as postlogism inducing defect of reference-of-thought or perversion-of-reference-of-thought. Postlogism as such involves deliberate and wrong pretence of rational projection of thought (as of teleologically-degraded synopsis-ing-depth) whereas existential-contextualising-contiguity's-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context reveals that such thought derives from 'denaturing axiomatic relation' as the <formative>wooden-language-(imbued—temporal—mere-form/virtualities/dereification/akrasiatic-drag/denatured/dementing-or-preconverging—narratives) of the reference-of-thought—

categorical-imperatives/axioms/registry-teleology of mechanical-knowledge as deterministic for temporal/shortness-of-register-of-meaningfulness-and-teleology purpose in disdain of the intemporal/longness-of-register-of-meaningfulness-and-teleology essence of knowledge as of its organic essence. The conjugation of other shades-of-temporality to postlogism induces their respective conjugated-postlogism leading by dynamic-cumulative-aftereffect to a broader social derived-perversion-of-reference-of-thought construed as social-postlogism that fundamentally is denaturing of meaningfulness-and-teleology at the given uninstitutionalised-threshold as apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing, in want for prospective institutionalisation. The underlying insight being that human formulation of meaningfulness-and-teleology is necessarily incomplete because of its limited-mentation-capacity and thus comes with an inherent sense/projection of ontological-appropriateness, and as of human developing ontological-completeness-of-reference-of-thought, as the driving element in upholding ontological-contiguity/ontological-veridicality. This notion as reflected by ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality (as it enables the further expansion of the registry-worldview's/dimension's—reference-of-thought-for-social-functioning-and-accordance intemporal-thresholds and so as of ontological-emancipation-beyond-just-virtue) should be the critical and decisive constructive/institutionalising element for attaining deprocrypticism wherein the 'social-universally-transparent-and-implicitly-formulated direct-constraining-construct' as mechanical-knowledge is construed as overlapping with the 'complementing grander social-universally-non-transparent-thus-non-constraining-element of ontological-faith-notion-or-ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality construed as of intemporal-preservation-entropy-or-contiguity—or-ontological-preservation' as organic-knowledge.  dispositions—existentialism-form-factor as upheld by the mediocrity principle underlying a
 rational-realism perspective, and explains why articulating knowledge merely as
 ‘mechanical-knowledge’ is bound to lead to its distortion/perversion/misconstrual by the
 mere fact of human temporal/shortness-of-register-of-meaningfulness-and-teleology mental-
 disposition adhering rather to <formative>wooden-language-(imbued—temporal—mere-

 fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—as-so-being-
 as-of-existential-reality to overcome such distortion/perversion/misconstrual; as in fact
 despite such a vague idealism as intemporal-romanticism, implicitly where highly pressing
 we tend to be obliged to recognised this temporal-to-intemporal reality as implied in the way
 we go about developing many a social formal construct. Thus deprocrypticism knowledge as
 overlapping the mechanical with the organic, as of the intemporal/longness-of-register-of-
 meaningfulness-and-teleology mental-disposition driven by ontological-faith-notion-or-
 ontological-fideism—imbued-underdetermination-of-apriorising/axiomatising/referencing—
 as-so-being-as-of-existential-reality behind the mechanical-knowledge, is a further validation

of the idea of notionalisation of knowledge which emphasises in principle and beforehand/as-of-a-priori a deliberative consideration of this temporal-to-intemporal human disposition in relating to mechanical-knowledge as of prospective possibilities for a better preempting of temporality/shortness and skewing towards the intemporal/longness-of-register-of-meaningfulness-and-teleology, and so as of organic-knowledge overlapping. Further, the reality of a human-subpotency–aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—imbued-temporal-to-intemporal-dispositions—existentialism-form-factor means that human meaningfulness at all times is more of ‘a solipsistic transversality-of-disambiguated-apriorising/axiomatising/referencing of human meaningfulness as of temporal-to-intemporal mental-dispositions transversality-of-disambiguated-apriorising/axiomatising/referencing’ and ‘not a ‘solipsistic commonness of meaningfulness that wrongly implies no temporal-to-intemporal mental-dispositions’, as any commonness is ‘a commonness implied with respect to secondnaturing institutionalisation as of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction thresholds’, with the implication that there is no point acting and relating with knowledge as if it is about a solipsistic transformation into intemporality/longness but rather relating to it as a secondnaturing exercise of skewing (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating or deferential-formalisation-transference) with respect to the institutionalisation/intemporalisation process as virtue (a notion equally implied by many a prophesying metaphysico-theological construct as the intemporality/longness and transcendental projections as of their limited-mentation-capacity in their own times in resolving the issues of human temporality/shortness in their times). In which case while such intemporality/longness cannot be construed as of a social commonness of reference-of-thought, it’s occurrence if it does occur can only be construed in transversality-of-

disambiguated-apriorising/axiomatising/referencing (more like the abstract notion of faith, by definition and as implied in many a creed, however metaphysical though, can only be solipsistic to an individual and not amenable to a commonness of social contemplation) as of abstract intersolipsism. The Nietzschean metaphor ‘God is dead’, as of human emancipation, is one whose validity can only be countenance where it implies the capacity of human pretence of intellectual-and-moral sublimation, and not the notion of intellectual-and-moral decadence. *Thus to sum up, the overall notion of conflation in relation with other elucidative associated notions can further be clarified as follows in ‘interdimensional/transdimensional/transcendental terms in reflecting the ontological-contiguity—of-the-human-institutionalisation-process’ as well as ‘individuation terms of human temporal-to-intemporal mental-dispositions’. With regards to the interdimensional/transdimensional/transcendental ontological-contiguity—of-the-human-institutionalisation-process level, we can construe of conflation as of the <formative>epistemic-totalising_ratio-contiguity/ratiocination-as-referentialism-phenomenal-abstractiveness-of-presencing-in-‘protensive-consciousness’-enabling-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-for-operant-or-incidenting-predicative-insights-of-existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context potency implied as of ontological-normalcy/postconvergence and reconstrued in the successive prospective relative-ontological-completeness-of-reference-of-thought, wherein the referentialism technique for conflation known as point-referencing delineates/disambiguates the various institutional-cumulations/institutional-recomposures as of ontological-normalcy/postconvergence revealing their ‘contrastive-synopsising-depths-of-meaningfulness-and-teleology’ as the varying synopsising-depth of human meaningfulness-and-teleology (recurrent-utter-

uninstitutionalisation, base-institutionalisation–ununiversalisation, universalisation–non-positivism/medievalism, positivism–procrypticism, and prospectively deprocrypticism which as ‘notional-deprocrypticism’ is the ‘point of point-referencing for conflation’, by the construal of its ontological-contiguity—of-the-human-institutionalisation-process reference-of-thought as of ontological-normalcy/postconvergence), with respect to the same intrinsic-reality/ontological-veridicality such that such varying is attributed to human limited-mentation-capacity-deepening-⟨formative⟩epistemic-totalisingly,-as-to-existence—as-sublimating-withdrawal) as of conflatedness (or construed as from constitutedness/‘presencing—absolutising-identitive-constitutedness’ to conflation) inducing both the registry-worldviews/dimensions institutionalisation-facets (‘centered/in-phase’ and ‘dialectical-thinking-or-postconverging–apriorising-psychologism’) and uninstitutionalised-threshold-facets (‘decentered/out-of-phase’ and dementing-or-preconverging–apriorising-psychologism as hollow-staging-and-performance-caricaturing). Supposed a notional conflatedness or conflation abstraction across all the registry-worldviews/dimensions on the basis of the referentialism technique of point-referencing (‘notional-deprocrypticism-or-as-from-recurrent-utter-uninstitutionalisation—to-deprocrypticism’) is undertaken with respect to establishing ‘reference-of-thought/structural/paradigmatic—ontological-performance relative to social-stake-contention-or-confliction’, it will fundamentally be perceived sceptically by the respective uninstitutionalised-thresholds as it ‘decenters and dementes beforehand/as-of-a-priori’ as of their respective prior relative-ontological-incompleteness-of-reference-of-thought, so implied by their given social universal-transparency as of existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context; that is, as ‘decentering and dementing-or-preconverging–apriorising-psychologism beforehand/as-of-a-priori’ recurrent-utter-uninstitutionalisation given its non-rules—

 with the last stage since our positivism–procrypticism registry-worldview/dimension is
 necessarily in <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag as with all ‘present-states’ of registry-
 worldviews/dimensions as construed from their backend perspectives in reflecting the
 ontological-contiguity—of-the-human-institutionalisation-process, it would hardly be
 inclined to interpret such conflation referentialism technique of point-referencing (notional-
 deprocrypticism) that ‘decenters and dements it beforehand/as-of-a-priori’ on the basis of

such ‘doppler-thinking’ based on contingent-ontologising-capacity driven ‘dialectical-thinking-or-postconverging-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’ and thus rendering its meaningfulness-and-teleology apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing at the positivism–procrpticism uninstitutionalisation, while it ‘pointlessly strives to be centered and dialectical-thinking-or-postconverging–apriorising-psychologism by reflex’ by not recognising its uninstitutionalised-threshold or the procrpticism uninstitutionalisation reference-of-thought in disjointedness-as-of-reference-of-thought (as all ‘present-states’ of registry-worldviews/dimensions do by reflex), and thus rather involved in <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of meaning as of <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag. But then we know and can appreciate that all the prior registry-worldviews/dimensions were ‘decentered and dementing-or-preconverging–apriorising-psychologism beforehand/as-of-a-priori’ going by ‘contingent ontologising-capacity driven apriorising/axiomatising/referencing–psychologism as of the grander ontological-normalcy/postconvergence apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument’. This ‘anti-transcendence as anti-uninstitutionalised-threshold and anti-prospective institutionalisation mental-disposition’ of all ‘present-states’ of all registry-worldviews/dimensions is due to the fact of such ‘present-states’ <formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag desymmetrisation alignment overly-overemphasising the registry-worldview/dimension institutionalisation-facet in a corresponding relation with a dissymmetrical alignment over underemphasising its uninstitutionalised-threshold-facet, but with such representation becoming critically

In other words, suprastructuralism (as of its referential and ontological-normalcy/postconvergence emanance perspective and as a doppler-thinking exercise) ushers in a whole new comprehensive registry-worldview across the entire social construction-of-meaning called deprocrypticism, much like positivism did over non-positivism/medievalism or universalisation over ununiversalisation or base-institutionalisation over un-institutionalisation. Central to such ‘a universal notion of deprocrypticism’ is the idea of an abject-recomposuring-ontologising by upholding ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, involving postdication with postdicatory techniques and postdicatory mindset/reference-of-thought in reflection of the suprastructural and ontological-normalcy/postconvergence nature of intrinsic-reality (more like the positivistic registry-

worldview is all about existential positivistic conceptualisations, positivistic techniques and basic positivistic mindset/reference-of-thought superseding existential alchemic conceptualisations, alchemic techniques and a basic alchemic mindset/reference-of-thought that defined the non-positivism/medievalism registry-worldview/dimension); involving ensuring intemporal-disposition organic-comprehension-thinking that upholds-and-is-the reference-of-thought for ontological-contiguity/ontological-veridicality, over mechanical-comprehension-dementing-or-preconverging—apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation by temporal-dispositions meaningfulness hotchpotching disjointing/disparateness/disentailing’ as perverted-and-derived-perverted-reference-of-thought and induces notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema> as of apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument. In the bigger picture of human institutional transcendence, this is very much in line with the transcending/superseding of human uninstitutionalised-threshold ‘with increasing cumulation of placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity’ that defined the successive institutional-cumulations/institutional-recomposures specificities as: existential base-institutionalising with base-institutionalising techniques and base-institutionalising mindset/reference-of-thought (Base-institutionalisation); existential universalising with universalising techniques and universalising mindset/reference-of-thought (Universalisation); existential positivising/rational-empiricism with positivising techniques and positivising mindset/reference-of-thought (Positivism); and prospectively ‘existential ontologising’, and so beyond its conventioning incrementalism-in-relative-ontological-incompleteness disjointedness-as-of-reference-of-thought as of temporal-accommodation of positivistic

meaningfulness, as ‘existentially abject postdicatory ontological-normalcy/prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’, with postdicatory methods and techniques and an overall postdicatory mindset/reference-of-thought (Deprocrpticism). Existential ontologising is effectively the human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology aspiration towards a fulsome grasp of intrinsic-reality/full-ontological-veridicality as fulfilling ontological-normalcy; all along the institutional-cumulation/institutional-recomposure levels but for incomplete human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity the preceding institutionalisation levels are more like successive compromises towards deprocrpticism as ontological-normalcy (prospective-transcendence-in-perpetually-upholding-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation). A critical distinction between deprocrpticism institutionalisation and positivistic institutionalisation has to do with the former uncompromising relation with respect to upholding ontological-contiguity thus overcoming the temporal-emananances-registries hotchpotching (<formative>wooden-language-(imbued—averaging-of-thought-<as-to-leveling/ressentiment/closed-construct-of-meaningfulness-and-teleology-as-of-‘nondescript/ignorable-void’-with-regards-to-prospective-apriorising-implications>) or banality-of-thought dynamism, and specifically in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) even though it is very much present in the formal sphere as well) and the incrementalism-in-relative-ontological-incompleteness and notional-disjointedness-as-of-reference-of-thought inherent in the positivistic mindset, thus the latter tends relatively to be weakly ontologically-contiguous with all the existential implications thereof, whether with regards to virtue construal or subject-matters issues. Further as with all transcendences, the transcendence

going from procrypticism, or the dementing-or-preconverging–apriorising-psychologism (perversion-of-reference-of-thought as to dementing-or-preconverging–apriorising-psychologism—<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag) of positivistic meaningfulness-and-teleology, to deprocrypticism will involve a psychoanalytically dementing-or-preconverging–apriorising-psychologism deconstruction/ontological-reconstituting–as-of-conflatedness of our present positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology wherein this is presently stranded-as-straight/candored-and-dialectically-or-contendingly-in-phase to a placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology wherein the deprocrypticism mindset/reference-of-thought reflects/perspectivates the positivistic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology at its uninstitutionalised-threshold in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation or stranded-as-oblongated/decandored-and-dialectically-or-contendingly-out-of-phase. So the deprocrypticism institutionalisation (as a renewed existentialism/full-depth-of-existential-implications meaningfulness-and-teleology or memetic-refinement) ontologising involves an ontological-normalcy/postconvergence-or-postdicatory deconstruction/ontological-reconstituting–as-of-conflatedness as dialectical transformation, as-prospective reference-of-thought, of intradimensional-meaningfulness psychoanalytically into-dementation/as-dementing-or-preconverging–apriorising-psychologism of our present positivistic mindset/reference-of-thought at its uninstitutionalised-threshold. Even though as with all transcended registry-worldviews/dimensions such an implied veridical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology will probably sound unintelligible/existentially-suprastructural due to our positivistic illusion-of-

the-present/epistemic-totalising–self-referencing-syncretising/present-consciousness/mirage;
 as the reference-of-thought, in articulating ontological-normalcy/postconvergence and the
 suprastructural nature of intrinsic-reality/ontological-veridicality, moves away from a
 positivistic registry-worldview registrying/dueness to a deprocrypticism registry-worldview
 registrying/dueness with the corresponding ontological-dementation/dialectical-dementation–

 organic-comprehension-thinking and the prior/superseded/transcended registry-
 worldviews/dimensions meaningfulness as mechanical-comprehension-dementing-or-
 preconverging–apriorising-psychologism in hollow-constituting—as-disjointed-
 misappropriation-of-meaningfulness-and-failing-intemporal-preservation; as-and-when-it-is-
 established that a registry-worldview’s/dimension’s institutionalisation is no longer

intemporal-preservational, when it is ‘perversion-of-reference-of-thought its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation at its uninstitutionalised-threshold). It should be noted that human uninstitutionalised-threshold refers to the point where a specific institutionalisation is failing/not-upholding-as-of-apriorising/axiomatising/referencing intemporal-preservation-entropy-or-contiguity–or–ontological-preservation by a formulaic adherence (lip-servicing) to reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation hence attaining its uninstitutionalised-threshold wherein the ontological-veridicality of the mental-devising-representation is ‘in mechanical-comprehension-dementing-or-preconverging–apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and not organic-comprehension-thinking’, and we can envision retrospectively the points of ontological-dementation/dialectical-dementation–stranding/attributive-dialectics of preceding registry-worldviews/dimensions from our vantage point of being at the backend of the institutional-cumulation/institutional-recomposure process like an insight in the recurrent-utter-institutionalised ‘so-called savage’ mindset/reference-of-thought or the medieval mindset, for instance. Likewise such a mechanical-comprehension-dementing-or-preconverging–apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation registry-worldview projection though of a different nature of the positivistic registry-worldview/dimension can be made prospectively from a deprocrypticism insight that overrides our illusion-of-the-present/epistemic-totalising–self-referencing-syncretising/present-consciousness/mirage given its more suprastructural and ontological-normalcy/postconvergence vantage perspective in relation to intrinsic-reality/ontological-veridicality/ontological-referencing. The general underlying principle for

deprocrypticism methods and techniques is that of being abjectly ontologising, beyond positivistic meaningfulness conventioning and temporal-accommodation as ‘ontologically-reconstituting/deconstruction’ for undermining notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging-qualia-schema> arising from temporal-dispositions perversion-of-reference-of-thought as to dementing-or-preconverging-apriorising-psychologism—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag, and as it upholds veridical ontological-veridicality/ontological-contiguity as the veridical reference-of-thought; which is what is actually up for contention and is effective contention (organic-comprehension-thinking) over what is being ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging-qualia-schema>’, and is actually dementing-or-preconverging-apriorising-psychologism (mechanical-comprehension-dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation) and not contending. When implied specifically with regards to psychopathy and social psychopathy (just like a superseding positivistic orientation implied with regards to notions-and-accusations-of-sorcery and medieval mindset/reference-of-thought to sorcery), deprocrypticism as an intemporal transcendental construct implies ontological-contiguity deconstruction/ontological-reconstituting—as-of-conflatedness construct of temporal-dispositions notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging-qualia-schema> as the backdrop/grounding of the veridical reference-of-thought; as what is actually up for contention and is effective contention (organic-comprehension-thinking) over what is ‘epistemically-decadent in notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging-qualia-schema>’, as the latter is actually in

mechanical-comprehension-dementing-or-preconverging–apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and is not contending as organic-comprehension-thinking. Noting as well that with regards to human mentation capacity, the successive institutional-recomposures/institutional-cumulations elicit successive circumspections (as recomposured-consciousness-awareness-teleology) in human placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity that are enablers of the associated institutional-cumulations/institutional-recomposures: for base-institutionalisation the circumspection is one of contrastive uninstitutionalised-threshold – institutionalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity for upholding institutionalisation; with universalisation the circumspection involves contrastive ununiversalisation – universalisation analytical placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity for upholding universalisation; with positivism the circumspection involves contrastive non-positivism/medieval/alchemic – positivism/rational-empiricism analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity for upholding positivism/rational-empiricism; and prospectively, for deprocrypticism the circumspection will involve contrastive temporal-to-intemporal-dispositions analytic placeholder-setup/mental-devising-representation/mentation/consciousness-awareness-teleology capacity for upholding the intemporal-disposition as ontology. Critically, human analytical mentation capacity mainly disambiguates what-is-in-effect organic-comprehension-thinking and mechanical-comprehension-dementing-or-preconverging–apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation, respectively as the mental-devising-representation of dialectical-thinking-or-

postconverging–apriorising-psychologism representation and dementing-or-preconverging–apriorising-psychologism representation. Equally, with regards to human mentation capacity, the effect of limited mentation capacity characterising a given registry-worldview/dimension or intradimensional level and its social-construct not only defines its inherent vices-and-impediments but such a social-construct further and critically structures and stifles the natural renewal of human emancipative dispositions. For instance, non-positivism/medievalism stifling inclinations to think outside of medieval mental-dispositiona and likewise with regards to our procrypticism. The bigger point of successive institutionalisations has to do overall with their specific emancipative registry-worldview/dimension framework as fertilising the cross-section of human practical and conceptual incidental issues and endeavours as well as the virtue constructs at the said registry-worldview/dimension. What is interesting with regards to an incidental study like psychopathy and social psychopathy with respect to the grander deprocrypticism institutionalisation level within the treatment of the institutional-cumulations/institutional-recomposures meta-conceptual frame is that it provides (besides being critically important to grasp by itself as a parasitising/co-opting phenomenon that can potentially arise in all human locales) the incidental and the Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework backdrop and background that informs and deepens understanding of the overall meta-conceptual analysis of perversion-of-reference-of-thought issues (issues arising from the tempering or false implying of the apriorising–registry-elements as implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology and thus inducing a fundamental flaw with the reference-of-thought in the first place, and further at a second-order level in wrongly implying the existential veridicality of logical-dueness (thus making irrelevant the construing of soundness or unsoundness) of logical-processing-or-logical-implication), which in turn further enlighten the incidental

analysis of psychopathy and social psychopath. Such dynamic and mutually beneficial insight at the meta-conceptualisation and incidental further extends to other related incidental issues relevant to the meta-conceptualisation.

It should be noted that this overall explanatory exercise is ‘not reasoning by analogy’ but rather contiguous (ontological-contiguity) as the fundamental notion is institutionalisation/intemporalisation entropy (intemporal-preservation contiguity; by a skewing device (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/deferential-formalisation-transference of the averageness of human temporal-dispositions, with corresponding formalisation and internalisation as psychoanalytic-unshackling/memetic-reordering/institutional-recomposure, towards the supersedingness of the intemporal-disposition which is inherently ontological and syncs with intrinsic reality in its ontological-primemovers-totalitative-framework, and hence its supersedingness as it induces overall social virtue-as-of-ontology). Institutionalisation/intemporalisation entropy (intemporal-preservation-entropy-or-contiguity—or–ontological-preservation) involves:

- recurrent-utter-uninstitutionalisation (initial state of ‘perversion-of-reference-of-thought’ that intemporally calls for the introduction of reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation as base-institutionalisation),

- base-institutionalisation institutionalisation/intemporalisation (whose reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or–ontological-preservation ‘perversion-of-reference-of-thought’ as ununiversalisation intemporally calls for universalisation),

- universalisation institutionalisation/intemporalisation (whose reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ‘perversion-of-reference-of-thought’ as non-positivism/medievalism intemporally calls for positivism),

- positivism institutionalisation/intemporalisation (prospectively, whose reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation ‘perversion-of-reference-of-thought’ as procrypticism intemporally calls for deprocrypticism),

- and prospectively deprocrypticism institutionalisation/intemporalisation (whose reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation will carry the ‘virtuous and intellectual responsibility’ to recognise that ‘perversion-of-reference-of-thought’ is an endemic human mental defect/perversion disposition retrospectively to prospectively, and that this is ‘a lost cause’ due fundamentally to mediocrity principle of humans having in reality ‘temporal-to-intemporal-dispositions’ and not ‘universal intemporal-disposition’, and the construct of deprocryptic categorical-imperatives/axioms should be anticipatory and preemptive of ‘perversion-of-reference-of-thought’ perpetually at the ‘uninstitutionalised-threshold’. More like the modern notion of medicine doesn’t work on the idea of exceptional people, as this will ultimately lead to a wrong and superstitious disease theory, but accepts that structurally bacteria, cancer, organ failure, etc. cause disease and that the virtue of medicine is about how to understand and preempt the above causations; likewise deprocryptic virtue operates on a realistic grasp of human subknowledging/mimicking/temporal-to-intemporal-solipsistic-projections at uninstitutionalised-threshold and then strives to skew/deferential-formalisation-transference for the supersedingness of the intemporal-disposition, which is ontological, for intemporal-preservation entropy/contiguity).

We can garner such emanant (becoming) ‘psychoanalytic unshackled insight’ of how we transcended from non-positivism/medievalism to a positivistic registry-worldview. A literary insight can also be grasped reading Chinua Achebe’s *Things Fall Apart* on how a community where a traditional registry-worldview with its sense of purpose had to deal with positivistic transcendence. Think of the state of the mind of Okonkwo of the Umuofia Clan. Though, in this case the transcendence is by cultural diffusion rather than by internal philosophical transcendence. Basically, all transcendences involve ‘a psychoanalytic-unshackling of this sort’. Counterintuitively, it should be understood that no transcendence is rational because you rationalise by operating logic on a sound registry-worldview/axiomatic construct/categorical-imperatives but then the need for transcendence due to perversion-and-derived-perversion-of-reference-of-thought and the registry-worldview’s/dimension’s relative-ontological-incompleteness-of-prior-reference-of-thought,-induced-virtuality/ontologically-flawed-construal/hollow-staging-and-performance-caricaturing—so-construed-as-from-prospective-reference-of-thought is putting the soundness of registry-worldview/axiomatic construct/categorical-imperatives in question (as reference-of-thought supersedes/precedes logical-processing-or-logical-implication), so you rather have a reinvention as <formative>epistemic-totalising–renewing-realisation/re-perception/re-thought of a new and better registry-worldview/axiomatic-construct/categorical-imperatives by the psychoanalytic-unshackling coming from its better grasp/ontological-primemovers-totalitative-framework of the world/intrinsic reality. Basically, we can say that human-emanant/becoming-transcendence is the first level of human invention (incremental inventions of relatively sounder minds; with the would-be ‘intellectual-analysts’ undergoing their own philosophical/first-level transcendence to liberate themselves before secondnaturizing/institutionalising for the new possibilities for the species; noting that, this

doesn't mean that the Descartes, Comtes, Galileos, Newtons, Darwins... of the world, miraculously came up with positivism to supersede/precede/override/abject medievalism, as they were of medieval stock but by philosophical transcendence could project beyond the limits of non-positivism/medievalism even were they were still imbued with remnants of the old like alchemic beliefs. Hence it is the transcendental process that is actually critical)!

Now what positive can come from psychopathy? From the intemporal perspective NONE. Besides specific social consequences of psychopathy as the context of 'socially-perceived-value as of social-stake-contention-or-confliction' moves from family, neighbourhood, school, company, administration, business, criminality, etc. depending on the development of the specific psychopath; by and large, ontologically and as reflected by the organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology), the psychopath's and other postlogical articulations have a nefarious effect, on social meaning particularly in 'spheres of extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology)' of society in general and social institutions, as the postlogical perversion-of-reference-of-thought induces mechanical-comprehension-dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation with many an interlocutor, and which by slantedness/postlogic-effect, miscuing, disjointed-logic, logical-drag, unconscionability-drag, sub-par/formulaic-association/temporal/alibi conventioning-rationalising, and temporal-enculturation/temporal-endemisation-effect, and temporal-enculturation/temporal-endemisation effect, undermines the sophistication/intricacy of thought involved with organic-comprehension-thinking (organicism/'intemporal-prioritisation-of-reference-of-thought'-as-conflatedness/longness-

of-register-of-meaningfulness-and-teleology), and often leads to a social dynamism of plainness and mediocrity which is subpar and corrupting to social and institutions teleological potential. In-conviction (prelogically), mechanical-comprehension-dementing-or-preconverging—apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation is vis a vis organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology), a ‘defect of contiguity (ontological-contiguity)’ in terms-as-of-axiomatic-construct of an intemporal point-of-reference of meaningfulness; with mechanical-comprehension-dementing-or-preconverging—apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation involving miscuing/disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of the organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) point-of-referencing of intemporal/ontological-veridicality. Basically, organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) carries the idea of ‘a higher teleology complex of being more profound with respect to mechanical-comprehension-dementing-or-preconverging—apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation’ with respect to meaningfulness-and-teleology ontological-veracity in terms-as-of-axiomatic-construct of registry-teleology implied—logical-dueness-or-scape/profile-or-stature/presumptuousness-or-arrogation/assumptions/value-reference/teleology. However, with psychopathy and postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-

failing-intemporal-preservation as non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-dementing-or-preconverging-apriorising-psychologism, a further dimension is added to the defects of mechanical-comprehension-dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation which are more or less acts/occasional defects then, as conjugating these as to registry-worldview's/dimension's-uninstitutionalised-threshold-defect-<as-Being-or-ontological-or-existential-defect>, as meaningfulness is now not about a 'defect of failing/not-upholding-as-of-apriorising/axiomatising/referencing contiguity' intemporality/ontological-veridicality as of specific existential-instantiation ontological-performance but rather a defect in being in ontological-contiguity with non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-impulsively-dementing-or-preconverging-apriorising-psychologism as postlogical temporality/shortness perversion-of-reference-of-thought of meaningfulness-and-teleology, as the mechanical-comprehension-dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation aligns to the psychopath's/postlogical-mind's slantedness and is thus insane/slantedness integrative. And this, in its fulsome articulation taken beyond individual and social contexts to the comprehensive registry-worldview/dimension speaks of an underlying 'perversion-of-reference-of-thought registry-worldview/dimension defect of reference-of-thought-categorical-imperatives/axioms/registry-teleology: wherein recurrent-utter-uninstitutionalisation, as of its inherently-non-rules—apriorising/axiomatising/referencing-psychologism,-state-in-relation-to-meaningfulness-and-

teleology requires prospective base-institutionalisation—ununiversalisation which as of its inherently-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-state-in-relation-to-meaningfulness-and-teleology requires universalisation—non-positivism/medievalism which as of its inherently-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-state-in-relation-to-meaningfulness-and-teleology requires positivism—procrypticism as of its inherently-positivising/rational-empiricism-based-universalisation-directed-rulemaking-over-non-rules—apriorising/axiomatising/referencing—psychologism,-state-in-relation-to-meaningfulness-and-teleology, and prospectively positivism—procrypticism which as of its inherent disjointedness-as-of-reference-of-thought requires deprocrypticism. And this memetic-reordering/psychoanalytic-unshackling process, is fundamentally about ‘the precedingness/supersedingness/ascendency/postconvergence of the entropy to preserve intemporality’ known as intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, with the idea that reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation are as pertinent only as these preserve intemporality, and are collapsed/overridden by new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, when shown not to be preserving intemporality, as when of perversion-of-reference-of-thought as to dementing-or-preconverging—apriorising-psychologism—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag with regards to the preceding reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation.

Further a registry-worldview dimension that so misanalyses is not ‘shaped’ to review but rather syncretises/is-circular in its failing/not-upholding-as-of-

implications on human civilisation of postlogism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation and perversion-of-reference-of-thought phenomena as reflected above regarding the contiguous process of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation behind human civilisation.

It is equally important to note that as much as the psychopath seem to have a weird mentality (slantedness), the incidence and initiation of psychopathy, equally has to do both with the nature of the psychopathic/postlogism mind contrasted to the nature of the ‘normal conviction or prelogical mind’, which are antipodal as the normal mind is by reflex conviction/prelogical/existential-contextualising-contiguity and by reflex will tend to see a conviction or prelogism in narratives while the psychopath is non-conviction-or-‘existential-decontextualised-transposition’-or-‘apriorising/axiomatising/referencing-in-hollow-staging-and-performance-caricaturing’/impulsively-dementing-or-preconverging—apriorising-psychologism/formulaic (meaning-by-the-mere-illogical-possibility-of-it-being-narrated)/postlogical and does has an covert vista when not forewarned/experienced about its nature in wrongfully inducing a sense of conviction in the normal mind by non-conviction narrating (an insight that is easily picked up seeing the childhood psychopathy growing into an adolescent and an adult, as its more covert mental structure at adulthood can be retraced and associated to the awkwardness of expression at early life in understanding what the adult psychopath is up to), hence the reason a mind in search of conviction or prelogism (normal prelogism-as-of-conviction mind) will speak of a pathological liar, by liar wrongly granting the psychopath a conviction, be it a bad or poor conviction, in the very first place, hence aligning integratively to the psychopath instead of aligning in transversality-of-disambiguated-apriorising/axiomatising/referencing. It is rather a flaw in the prelogism-as-of-

conviction mind's perception (prelogism or conviction while the psychopath's mental-disposition is formulaic-non-conviction-or-existential-decontextualised-transposition-or-hollow-staging-and-performance-caricaturing-of-apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument-or-postlogism/impulsively-dementing-or-preconverging-apriorising-psychologism)!

Straying into a basic elucidative anthropopsychology/the-anthropological-continuity (a novel hermeneutic approach to psychology); extrinsic-attribution is a fairly common social mental-disposition, at 'uninstitutionalised-threshold' as we are not inherently intemporal (the-Good as longness-of-register-of-meaningfulness-and-teleology) in our solipsistic projection but have the potential of temporal (shortness-of-register-of-meaningfulness-and-teleology) solipsistic/emanant projections of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of 'reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing'. The mechanism of institutionalisation/intemporalisation and formalisation ensures that because of the positive-opportunism that the intemporal-disposition (as it syncs with intrinsic reality and is thus ontological) brings to the cross-section of human temporal interests at 'socially-perceived-value as of social-stake-contention-or-confliction', it tends to skew ('intemporality-asymmetric-subsumption-of-temporality', for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating)/differential-formalisation-transference and dominate temporal-dispositions in the medium to long perspective. For instance, everyone will like to

see a good legal system to ensure that they do not fall afoul of a bad judgment even if, circumstantially, maybe they themselves may be inclined not to have others or some others to enjoy the same (of course, the internalisation of our ‘present institutionalised/intemporalised positivistic meaningful worldview’ will seem to imply that we do have a first nature disposition to be inherently civilised to want to universally wish that everyone have to deal with a fair legal system, that anyway is to the credit of the institutionalisation/intemporalisation process, but that is a secondnature/internalised construct). This explains why there is no need to breach the scientific principle known as the ‘mediocrity principle’, (which says that there are no exceptions/specialness in science), to wrongly say that man is inherently intemporal (as in reality man is a temporal-to-intemporal creature in its moral/virtuous-agency); to explain why society tends to improve/progress. Rather, the intemporal disposition structurally brings more overall good and hence skews (‘intemporality-asymmetric-subsumption-of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-enabling/sublimating) man in the medium to long perspective towards ‘the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework (institutionalised, formalised and internalised)’. This elucidation is important because while internalisation might point to the social good it is important to understand that when dealing with our solipsism at ‘uninstitutionalised-threshold’ we aren’t anymore intemporal (the-Good as longness-of-register-of-meaningfulness-and-teleology) than temporal (shortness-of-register-of-meaningfulness-and-teleology) going by the ‘mediocrity principle’, and the analysis should take account of this (by not just operating/processing logic but construing temporal-to-intemporal-dispositions disambiguation with a stranding-dialectics highlighting organic-comprehension-thinking (organicalism/‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness/longness-of-register-of-meaningfulness-and-teleology) and the distracting mechanical-comprehension-

dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation. Why talk of ‘uninstitutionalised-threshold’? This is the underlying notion of ‘a grand theory of psychology’ that has been missing to turn psychology from a paradigm of the human present as modern into a paradigm of across-and-of-all-times! Why? The foundation of a human psychological science should be fundamentally about ‘the contiguity/entropy conceptualisation of the human psyche’ (and as this permits institutional-cumulation/institutional-recomposure or anthropopsychology or ‘the-anthropological-continuity’, i.e. cumulating/recomposuring from recurrent-utter-uninstitutionalisation, based-institutionalisation—ununiversalisation, universalisation—non-positivism/medievalism, positivism—procrypticism, and prospectively deprocrypticism). The present treatment of psychology will seem to imply that all psychology is about psychoanalytic techniques on the modern positive mind, which is rather naïve and unsightful not just in terms of scope but critically depth of conceptualisation. The answer to this ‘contiguity/entropy conceptualisation of the psyche’ is about how the underlying notion of ‘intemporal-preservation-entropy-or-contiguity—or—ontological-preservation abstractly allows for human-subpotency survival/existence/emanance/fulfilment/flourishing in existence-as-of-its-mimetic-echoness/existence-in-reverberation/existence-potency-prospective-digression-of-‘<formative>epistemic-totalising—renewing-realisation,-re-perception,-re-thought-in-epistemic-conflatedness’’ and assumes a fundamental referencing base in the study of the psyche (noting that by saying ‘notion’ is meant, the notion of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation covers the concepts of temporal preservation (including subknowledging, mimicking)-to-intemporal preservation, just as the notion of good covers the concepts of good-to-bad). Correspondingly, this notion of intemporal-preservation-entropy-or-contiguity—or—ontological-preservation involves ‘mental

candoring' where mental-devising-representation syncs with intrinsic-reality and mental decandoring where mental-devising-representation is a wrong/flawed perverted representation of intrinsic-reality. If we have an anthropological continuity/anthropopsychology, then the continuity as entropy is the exercise of candoring as 'straightness/soundness-or-authenticity-of-reference-of-thought registering/registry-teleology' (being a functional representation of how an intemporalising registry-worldview/dimension perceives itself) and decandoring as 'perverted/brazen-but-unsoundness-or-inauthenticity-of-reference-of-thought registering/registry-teleology' (being a functional representation of how a prospective intemporalising registry-worldview/dimension perceives the prior-and-'dementing-or-preconverging-apriorising-psychologism—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag registry-worldview/dimension); with this latter representation undermining the 'temporal-dispositions solipsistic/emanant postlogical miscuing presumptuousness/arrogation effect' as the unconscionability-drag responsible for perversion-of-reference-of-thought across the institutional-cumulations/institutional-recomposures, whether in the perversion-of-reference-of-thought as to dementing-or-preconverging-apriorising-psychologism—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag of recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism or procrypticism/disjointedness-as-of-reference-of-thought.

Such a transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness conceptualisation, for a novel genuinely universal psychology as anthropopsychology, involved in all successive institutional-cumulations/institutional-recomposures for intemporal-preservation-entropy-or-

contiguity—or—ontological-preservation is profoundly elucidated with associated notions as follows:

- The concept of ‘stranding’/stranding-dialectics is the very drive (in providing insight on the transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness ontological-primemovers-totalitative-framework, i.e. temporal-to-intemporal-dispositions) for such a conceptualisation of anthropopsychology or ‘genuinely universal psychology’. The philosophical conceptualisation of stranding is rather ‘temporal-to-intemporal-dispositions disambiguation’ which serves to avoid the conviction-reflex/prelogical-reflex-admittance-reflex/in-phase-reflex (instead of rightly aligning by the dialectically-or-contendingly-out-of-phase reflex or transversality-of-disambiguated-apriorising/axiomatising/referencing reflex) of ‘intemporal-disposition’ being wrongly attributed to all interlocutors by reflex without ensuring that their disposition is effectively intemporal and not temporal. Stranding-dialectics, and the corresponding notion of <formative>epistemic-totalising—self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase, are central to transcendental psychoanalytic-unshackling and memetic-reordering. Stranding ensures the ‘upholding of the ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective) of the intemporal-preservation-entropy-or-contiguity—or—ontological-preservation’ by articulating the veridically contiguous ontological mental-devising-representation of the transcending (and so, in a veridical dialectic and existential psychoanalytic reorientation as oblongated/decandored in representing/implying defective/perverted temporality). It implies reflecting/perspectivating/highlighting (reasoning-through-and-not-reasoning-with) hollow and in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-

hollow-narratives-and-acts’ as absolving/fleeting/escaping-reflex-logic as of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’’ as these pervert/dement/subknowledge-<dementing-or-preconverging-as-if-of-sound-knowledge>/mimick-and-syncretise the reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation providing the backdrop for prospective transcendental dimension with new superseding reference-of-thought—categorical-imperatives/axioms/registry-teleology. Stranding-dialectics can be implied as mental-devising-representation across all registry-worldviews/dimensions not withstanding any registry-worldview’s/dimension’s illusion-of-the-present/present-consciousness mental-devising-representation, and so, by accounting anticipatorily and preemptively for the registry-worldview’s/dimension’s perversion-of-reference-of-thought-of-its-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation whether a retrospective, present or prospective registry-worldview/dimension. Hence the need for ‘collapsing’/overriding of the transcended registry-worldview’s/dimension’s institutionalisation reference-of-thought—categorical-imperatives/axioms/registry-teleology with prospective transcending/superseding reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation in anticipation and preemption as untenability/internal-contradiction/internal-incoherence/institutional-constraining, as secondnaturing and ‘not as temporal-dispositions transformation’ to wrongly imply a universal <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness

human predisposition. For instance, the veridical stranded mental-devising-representation we may have from a positivistic standpoint of the non-positivism/medievalism mind as oblongated/decandored is not recognised by the non-positivism/medievalism mindset/reference-of-thought by its syncretic reflex to be functionally in its mental straightness and candored (even though such a representation is ontologically wrong regarding its mental-devising-representation with respect to the its uninstitutionalised-threshold requiring positivism insitutionalisation/intemporalisation). Prospectively, the stranding-dialectics of our own mental-devising-representation by futural Being-development/ontological-framework-expansion-as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as oblongated and decandored at our uninstitutionalised-threshold requiring deprocrypticism institutionalisation/unintemporalisation will equally meet with an epistemic-totalising-self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase reflex that will not recognise its slantedness and decandored veridicality. The intemporal-disposition is rather about emphasising institutionalisation/intemporalisation percolation-channelling as the means and basis for prospective institutionalisation/intemporalisation. This highlights the vacuousness in all transcendental relations wherein the transcended is vacuous with respect to the transcending. Such vacuous transcendental manifestations involves dialectically (the transcended and transcending relation with regards to:) deductive narratives instances, life episodes, life schemes, general being/existential dispositions and the specific existentialism/full-existential-depth-implications involved with a registry-worldview/dimension; wherein temporal-dispositions present-consciousness (in their illusions-of-the-present) perpetually portray candor and straightness but on retrospection are shown to be decandored and oblongated which ontologically implies these are veridically in stranding-dialectics notwithstanding their

<formative>epistemic-totalising–self-referencing-syncretising-as-wrongfully-
straight/candored. This is ontologically foundational (more like the
apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument grounding spirit
of arithmetic cannot be undermined in any way possible and you then have the possibility of
sound arithmetic thereafter). Stranding-dialectics prevents temporal-dispositions (in the
articulation and re-articulation of narratives) by the ‘temporal-dispositions
disjunction/skipping’ to ‘wrongly imply the narratives subsequently articulated and re-
articulated are of intemporal-disposition teleology hence wrongly implying candored and
straightness, whereas these are in effect <formative>epistemic-totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag iterating narratives of temporal-

<formative>epistemic-totalising–self-referencing-
syncretising/circularity/interiorising/akrasiatic-drag (the-perversion-of-the-categorical-
imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity-or-
ontological-preservation). This ensures in effect ‘the stranding-dialectics-in-a-contiguity-of-
increasing-ontology/ontological-normalcy/postconvergence’. Ontology is an altogether
coherent construct with no room for excepting from coherence, which then simply implies the
superseding of any such pretence of an excepting. (For instance, we can be calculating the
sum $(5 * 5) + 5 - 5$, and make the mistake to say $5 * 5 = 24$ but then overlook it and agree

together that the answer should be 24 and go on to resolve the entire equation as 24. This type of non-ontological thinking (a non-ontological thinking is also known as a misanalysis or misthinking or misreasoning or mislogic or <formative>epistemic-totalising-self-referencing-syncretising-as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase or circularity or notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging-qualia-schema>, as there is no veridical meaningfulness that exists out of ontology or isn't in ontological-contiguity) is highly prevalent in the extended-informality-(susceptible-to-effecting-parsimony-as-of-shoddiness-and-incompleteness-to-meaningfulness-and-teleology) of society as social-aggregation-enabling, the reason we strive to formalise whether in terms-as-of-axiomatic-construct of laws, institutions, organisations, etc. The basic fact is that the virtue of the intemporal-disposition constructs cannot accommodate non-ontology since reality doesn't adjust to man and it is man that adjusts to reality. The stranding-dialectics-in-a-contiguity-of-increasing-ontology/ontological-normalcy/postconvergence implies that an interlocutor's retrospectively demonstrable narratives miscuing and subsequent perversion-of-reference-of-thought speaks of the real nature of its present and prospective narratives as decandored and oblongated in effect ontologically but that by an illusion-of-the-present reflex as well as for the sake of functioning we tend to represent by default such miscuing and perversion-of-reference-of-thought meaning as straightness/candored (intemporal) which is not ontologically veridical; in which case the prospective transcended registry-worldview strands such meaningfulness as decandored/oblongated (subknowledging/mimicking) even if the mental-disposition of the transcended registry-worldview is in an illusion-of-the-present straightness/candoring mental-devising-representation of meaning. In other words, stranding-dialectics ensure an affixing of temporal-dispositions perversion-of-reference-of-thought teleologic orientations denaturing to the corresponding temporal perversion-of-reference-of-thought mindsets in their

ontological-escalation/aetiologisation without letting for a disjunction/skipping into
 intemporal/straightness-of-mental-devising-representation disposition teleologic orientation,
 and so, to the point of the temporal-dispositions collapsing/overriding ('dialectical-thinking-
 or-postconverging-psychology or psychology-of-mentation-dynamics or natural psychology-
 of-dynamics' psychoanalytic-unshackling/memetic-reordering/institutional-recomposure)
 with the new prospective reference-of-thought-categorical-imperatives/axioms/registry-
 teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation of
 the transcending registry-worldview/dimension. For instance, the mental-devising-
 representation of a non-positivism/medievalism mindset/reference-of-thought relating to say
 an accusation of sorcery by an intemporal positivistic mindset/reference-of-thought will not
 be limited to that particular instance but carries the 'disambiguation of temporal-to-
 intemporal-dispositions as ontological-escalation/aetiologisation' that speaks to
 metaphorically-a-million-and-one-instances-and-locales/aetiologisation/ontological-
 escalation dispositions of that non-positivism/medievalism mindset/reference-of-thought by
 way of stranding-dialectics from the intemporal positivistic mindset, and upholding such the
 'disambiguation of temporal-to-intemporal-dispositions as ontological-
 escalation/aetiologisation' for the psychoanalytic-unshackling/memetic-
 reordering/institutional-recomposure that collapses/overrides the non-positivism/medievalism
 mindset/reference-of-thought cross-generationally (consider the diffusion of positivistic
 registry-worldview and its psychoanalytic-unshackling/memetic-reordering/institutional-
 recomposure of non-positivistic registry-worldviews in the 19th and early 20th century).
 Stranding defines the 'decandored registry-worldview/dimension dialectically-or-
 contendingly-out-of-phase/dialectically-primitive) mental-devising-representation' such as
 the mental-devising-representation of recurrent-utter-uninstitutionalisation,
 ununiversalisation, non-positivism/medievalism and prospectively procrypticism, and so,

beyond the illusion-of-the-present/present-consciousness of all these successive registry-worldviews/dimensions which in their <formative>epistemic-totalising-self-referencing-syncretising/present-consciousness/illusion-of-the-present will tend to wrongly recover/syncretise to project straightness/candoring of mental-devising-representation as intemporality/longness rather than decandored/oblongated mental-devising-representation as temporality. Stranding is validated by the fact that transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness conceptualisation speaks of an ‘institutionalisation/intemporalisation constraint/secondnaturing’ and ‘not temporal-dispositions transformation into intemporal-disposition as <formative>epistemic-growth/transvaluative-rationalising/transepistemicity/anamnestic-residuality/spirit-drivenness’; and this idea is so foundational that it is beyond-and-supersedes/precedes/overrides/abjects the consciousness-awareness-teleology of temporal-dispositions such that ‘they are not called upon in argumentation’, just as we are not consciously called upon to establish whether blood flows in our body, as it is a preceding/superseding truth that supersedes/precedes/overrides/abjects our thinking or not of it! Thus stranding-dialectics is rather intemporally/ontologically conceptualised for its validation and integration in the survival-and-flourishing imbued institutionalisation/intemporalisation percolation-channelling (formalisms and internalisations) mechanism with the implied ontological-primemovers-totalitative-framework and positive-opportunism as ontological entrapment, with no temporal-dispositions firstnature-or-intemporal-level-validation but rather secondnatured-or-institutionalisation/intemporalisation-level-validation. At which point stranding-dialectics articulates temporal-dispositions teleologies orientations as ‘subknowledging/mimicking/mental-perversions/slantedness manifestations at that

‘uninstitutionalised-threshold’, i.e. the reference-of-thought–categorical-
 imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–
 or–ontological-preservation of temporal-dispositions undermining the very ‘intemporal-
 preservation-entropy’ supposedly they are supposed to uphold). Ultimately and in the bigger
 picture, (with teleology fundamentally construed as ‘phenomenal/manifest epistemic-
 reflexivity in existence as ontological (reflecting <formative>disposedness-⟨as-to-

 teleology for ontological-dementation/dialectical-dementation–stranding/attributive-dialectics
 reflects the human-subpotency for attaining cross-generational transcendence with
 corresponding dialectical and psychoanalytic existential reorientations (‘dialectical-thinking-
 or-postconverging–psychology or psychology-of-mentation-dynamics or natural psychology-

 and it is well beyond the idea of just a ‘structural/paradigmatic argumentation convincing’
 intradimensionally as to presencing—absolutising-identitive-constitutedness (based-on-the-
 categorical-imperatives/axioms/registry-teleology-of-the-registry-worldview/dimension as
 absolutised) as to a registry-worldview/dimension in relative-ontological-incompleteness that
 is ontologically-deficient/dementing-or-preconverging–apriorising-psychologism—
 <formative>epistemic-totalising–self-referencing-
 syncretising/circularity/interiorising/akrasiatic-drag as of its reference-of-thought–
 categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-
 contiguity–or–ontological-preservation, in the first place; as teleology as such reflects

human-subpotency sublimation-over-desublimation possibilities in existence as to underlying supposedly coherent ontological-commitment. Ontology being the intemporal-disposition, the exercise of ‘directing’ convincing as logical-processing/logical-operation to temporal-dispositions is inherently unwarranted and is rather of <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase as it wrongly implies that temporal-dispositions perversion-of-reference-of-thought of their dimension’s/registry worldview’s reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation is of sound mental representation; rather what should be implied is the prospective intemporality/longness instead preserving prospective reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation with pertinence being about ‘articulating and directing’ intemporal/ontologically-contiguous meaningfulness-and-teleology towards the ‘institutionalisation/intemporalisation percolation-channelling’ as secondnaturing of the new reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. For instance, the positive (intemporal mind) will not engage in a direct logical convincing with the non-positivistic/medieval mind as this just validates to the non-positivism/medievalism disposition that its non-positivism/medievalism reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation relation with meaningfulness-and-teleology is sound such that it goes on to operate/process logic by <formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag non-positivism/medievalism meaningfulness-and-teleology reference-of-thought–categorical-imperatives/axioms/registry-

teleology. Rather the positivistic mindset/reference-of-thought will project the new reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation of positivism (as rational-empiricism/positivising basis of reasoning) through positivism institutionalisation/intemporalisation percolation-channelling and highlighting, in the bigger scheme of things, the relative efficiency and positive-opportunism of a positivism-based rule of law, social organisation, polity, nation-building, etc. based on positivism axioms and which inherent effectiveness and supersedingness/transcendence breaks the non-positivism/medievalism mindset/reference-of-thought (which are not rational-empirical/positivising and tend to essences, alchemic-logic, sorcery constructs, etc.) with its defective reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. This takes an utterly impersonal form (law, officialdoms and subject matter formalisms) which allows for an abstraction of the virtue of ontological contiguity that personalised social-and-temporal-trading doesn't allow reflexively. The 'transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness complex-of-stranding' refers to the counter-intuition from a registry-worldview/dimension perspective in not representing itself as stranded (decandored or oblongated or in mechanical-comprehension-dementing-or-preconverging—apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation when it is demonstrated that it is perversion-of-reference-of-thought as perversion-of-the-categorical-imperatives/axioms/registry-teleology-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation, and rather syncretises in operating those same reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—

or-ontological-preservation prospectively; while that same registry-worldview/dimension intuitively recognises that a prior/superseded registry-worldview/dimension mental-devising-representation as stranded is ontologically veridical as the prior/superseded registry-worldview/dimension subknowledges/mimics and self-reference-syncretises it's reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation at its uninstitutionalised-threshold. The reason for the human 'transcendental/transdimensional/interdimensional/maximalising-recomposuring-for-relative-ontological-completeness complex-of-stranding' is that a registry-worldview's/dimension's institutionalisation reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation are fundamental and constitutive functional elements of its existentialism (full-existential-depth-implications) personhoods-and-socialhood-formation and hence the complex when <formative>epistemic-totalising-self-referencing-syncretising/present-consciousness/illusion-of-the-present. But then, if such a complex is to stand, the transcendental exercise by which man left the cave-to-so-called-modern-man wouldn't have happened, and any registry-worldview/dimension (retrospective, present, prospective) that fails its own stranding-dialectics/elucidation-and-superseding-of-its-perversion-of-reference-of-thought-as-to-dementing-or-preconverging-apriorising-psychologism—<formative>epistemic-totalising-self-referencing-syncretising/circularity/interiorising/akrasiatic-drag to allow for prospective psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for transcendence-as-the-grander-possibility-for-human-survival-and-flourishing is obviously failing/not-upholding-as-of-apriorising/axiomatising/referencing its 'own homework' for the bigger picture in the human species survival-and-flourishing scheme, notwithstanding it is at the backend of the

institutional-cumulation/institutional-recomposure ontological-contiguity—of-the-human-institutionalisation-process!

As an anthropopsychological disposition, rational-realism as deprocrypticism just like all successive transcendences in emphasising increasing realism counter-intuitively to a naïve temporal take is actually a ‘positive-minded/well-meaning disposition with respect to man/the-human-species’ with the idea that ‘it is better working with what intemporally/ontologically is (that is, the-Good/understanding/knowledge-reification/ontological-primemovers-totalitative-framework) to achieve the best intellectual-and-moral outcome for man’ than ‘working with what-one-wishes’ from a wrong temporal/impression-driven construal’. The idea of understanding the ontology of human temporal mental defect is not to ‘idle’ in a temporal circularity that defeats-and-debase the grandor of a universal/intemporal projection but rather strives to better stir man towards the intemporal-and-ontological as virtue, an exercise which while of ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ with regards to human temporality/shortness wouldn’t however acquiesce to the naïve disconcertment that takes the ‘presencing—absolutising-identitive-constitutedness consummated/forfeiting posture’ of intemporality/longness for temporal correctness towards which the intemporal-disposition is definitely intransigent and uncompromising for effective intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Such a rational-realism as deprocrypticism disposition views the fundamental anthropopsychology drive for transcendence which involves stranding-dialectics for transcendence by decandoring/oblongating (representation of perversion-of-reference-of-thought as to dementing-or-preconverging—apriorising-psychologism—<formative>epistemic-totalising—self-referencing-syncretising/circularity/interiorising/akrasiatic-drag as-wrongfully-straight/candored-and-dialectically-or-contendingly-in-phase) on the basis of the veridicality of human-subpotency—

aporia/undecidability/dilemma/ought-indeterminacy/deficiency/limitation/constraint—
 imbued-temporal-to-intemporal-dispositions—existentialism-form-factor rationally, and
 ontologically represents the social-construct (as validated by the shifting relation of social
 conventioning and purist ontology) as being in effect ‘a highly cohesive paradigm’ at
 institutionalised/intemporalised-thresholds-of-intemporal-preservation-entropy-or-contiguity—
 or—ontological-preservation but ‘a poorly cohesive extricatory paradigm’ at
 uninstitutionalised-threshold. The notion of the social-construct as
 intemporal/ontological/social/species/universal/transcendental/maximalising-recomposuring-
 for-relative-ontological-completeness paradigm is actually an aspirational ideal and reference
 for ‘human intemporal projection towards it’ but it isn’t ontologically veridical by the
 inherent solipsistic human nature due to a temporal-to-intemporal-dispositions human reality,
 and thus the need for institutionalisation to skew (‘intemporality-asymmetric-subsumption-
 of-temporality’, for relative intrinsic-reality/ontological-veridicality transcendental-
 enabling/sublimating) towards intemporality/intemporal-preservation as human
 secondnaturing. This elucidation is vital in pointing out that the teleology of rational-realism
 as deprocrypticism (with teleology fundamentally construed as ‘phenomenal/manifest
 epistemic-reflexivity in existence as ontological (reflecting <formative>disposedness-⟨as-to-
 orientation/value-construct/valuation-and-derived-parameterising⟩ and
 <formative>entailment-⟨as-to-totalising-contiguous/coherent—factuality-of-variability⟩)’ and
 so as to the specific human-subpotency as to overall panintelligibility-as-reifying-and-
 empowering-reflexivity-of-ecstatic-existence—imbued-and-educed—human-subpotency—
 epistemic-perspective-of-apriorising/axiomatising/referencing-conceptualisation), is not to
 strive for the wrong notion of human intemporal/ontological ‘congruence’ with respect to
 knowledge and virtue (as human dispositions are not congruent, as thus the idea of
 ontological-congruence of the intemporal-disposition with temporal-dispositions will

compromise intemporality, and hence compromise ontology), but rather to aspire for a transversality-of-disambiguated-apriorising/axiomatising/referencing of human intemporal-disposition with respect to temporal-dispositions (as this upholds and doesn't compromise the ontological veridicality in intemporal-disposition projection as to the ontological reality of human temporal-to-intemporal-dispositions at uninstitutionalised-thresholds). That is, knowledge notionalisation involving grasping and understanding both the ignorances/temporal-dispositions and ideals to better skew/deferential-formalisation-transference towards idealism as the fulsome ontology, and not failing/not-upholding-as-of-apriorising/axiomatising/referencing to understand or overlooking the ignorances/temporal-dispositions as the temporal on the wrong basis that all that matters is the ideal as intemporal. Furthermore, temporal-dispositions tendency to pervert/dement/subknowledge-(dementing-or-preconverging-as-if-of-sound-knowledge)/mimick-and-syncretise at uninstitutionalised-threshold with the dialectical consequence of the development of the successive registry-worldviews/dimensions (institutionalisations) validates the appropriateness of striving rather for transversality-of-disambiguated-apriorising/axiomatising/referencing and not nested-congruence to uphold intemporality, and hence a complete ontology. To put it in other terms, for instance, transversality-of-disambiguated-apriorising/axiomatising/referencing of 'keeping the faith' only in the intrinsic operation of rules of arithmetic (transversality-of-disambiguated-apriorising/axiomatising/referencing among interlocutors, in principle or notionally, so that at all times it is always about the intrinsic reality of the arithmetic and not the agreement-disagreement of any human interlocutors as we are all mortals and likely to corrupt such intemporal rules with our mortality out of an intemporal frame of reference that is transcendental-enabling/sublimating) is vital to preserving 'ontological arithmetic' as transcendental-enabling/sublimating, whereas if the notion of arithmetic calculations was to involve social-and-temporal-trading with other humans (interlocutors logical nested-

congruence) instead of intemporal exercise, it is obvious that down the line the notion of ‘ontological arithmetic’ will sooner or later be corrupted and/or teleologically-degraded as more likely than not the intemporality/purity of mathematics will be compromised to human mortals stakes of social-and-temporal-trading as social-aggregation-enabling, and so as of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’.

* It should be noted that in the stranding-dialectics-in-a-contiguity-of-increasing-ontology/ontological-normalcy/postconvergence dialecticism of transcendence involving the transcended and the transcending dimensions, the terms highlighting the transcended dimension like decandored, oblongated, dialectically-out-of-phasing/dialectically-primitive, etc. do not carry the same connotation as a shallower temporal analysis intradimensional to the transcended dimension. The idea is not to idle in articulating meaningfulness within the dimension in need of transcendence. For instance, a positive mind’s articulation of defective meaningfulness in non-positivism/medievalism registry-worldview/dimension is not to ‘idle’ by relating and staking such meaningful articulation in terms-as-of-axiomatic-construct of the non-positivism/medievalism world sense of meaningful purposefulness but rather to project a positivistic worldview’s transcendental meaningful purposefulness. In that sense, actually for the social scientist and philosopher words like dialectically-or-contendingly-out-of-phase, primitive, decandored, perverted don’t carry the ordinary and temporal connotations of stigmatising under a temporal extricatory paradigm. Rather, these are critical and actively sought after notions that provide the ‘dialectical backdrop’ for enabling prospective

transcendence by psychoanalytic-unshackling/memetic-reordering/institutional-recomposure. The idea is that these notions are veridically dialectical notions that apply in all transcendences unlike a simplistic 'history fixating conceptualisation' will have. In other words, our non-positivism/medievalism ancestors' possibility of being-represented/mental-devising-representation as dialectically-or-contendingly-out-of-phase/dialectically-primitive) is the opportunity for the contrastive construction of a superseding/transcendental registry-worldview/dimension that brought about the relative virtue in the positivistic registry-worldview/dimension of their great-grandchildren today. That is rather the uninhibited/decomplexified and forward-looking perspective imbued in a deprocrypticism institutionalisation/intemporalisation with respect to procrypticism. In the bigger picture, identifying inherent virtue in the institutionalisation/intemporalisation process on the basis that humans of all generations (times and epochs) are 'capacity-wise same' as per temporal-to-intemporal going by a paradigm of mentation-capacity (shortness-of-register-of-meaningfulness-and-teleology to longness-of-register-of-meaningfulness-and-teleology) with respect to the intemporal-preservation-entropy-or-contiguity-or-ontological-preservation, but for the semblance of the superiority of latter registry-worldviews/dimensions which is nothing but the result of being at the backend of the institutional-cumulation/institutional-recomposure process. ontological-normalcy/postconvergence equally involves articulating the possibility for the supersedingness of the intemporal-disposition over temporal-dispositions as intemporalisation/institutionalisation, and so, involving 'temporal-to-intemporal-dispositions accountability' beyond an 'idle temporal-dispositions stigmatisation'. In that spirit, it can be reasoned that the intradimensional 'ontological blindspot' in human mental-devising-representation (wherein temporal perversion-of-reference-of-thought by miscuing, and in subsequent derivation of disjointed-logic/logical-drag/unconscionability-drag/sub-par-or-formulaic-association-or-temporal-or-alibi conventioning-rationalising of

temporal-dispositions perversions/defects of postlogism-slantedness/ignorance/affordability/opportunism/exacerbation/social-chainism-or-social-discomfiture-or-negative-social-aggregation/temporal-enculturation-or-temporal-endemisation, so-disambiguated as of ‘reference-of-thought-devolving-level difference-conflatedness-as-totalitative-reification-in-singularisation-as-veridical-epistemic-determinism reflected as the divergent ontological-performances of the historicity/ontological-eventfulness/ontological-aesthetic-tracing’ conjugated/inflected/derived/mimicked/in-protraction-to-psychopathic-dementing-or-preconverging–apriorising-psychologism), actually points to a decandored/slantedness of the temporal-dispositions (and not candored/straightness), and is definitional of all registry-worldviews/dimensions perversion-of-reference-of-thought whether recurrent-utter-uninstitutionalisation, ununiversalisation, non-positivism/medievalism and prospectively procrypticism, as these are in epistemic-decadence-and-derived-epistemic-decadence, i.e. not veridical but perverted and requiring transcendence. This basically undermines the idea that any such registry-worldview/dimension temporal-dispositions should be encouraged to be ‘<formative>epistemic-totalising–self-referencing-syncretising/circularity/interiorising/akrasiatic-drag in meaning’ in a logical engagement with it from an intemporal/ontological perspective (of ontological-normalcy/postconvergence), as it is rather in perversion-and-derived-perversion-of-reference-of-thought of its reference-of-thought–categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity–or–ontological-preservation. Instead this requires a transversality-of-disambiguated-apriorising/axiomatising/referencing (due to the dialectically-out-of-phasing/unsoundness-or-inauthenticity-of-reference-of-thought/dementing-or-preconverging–apriorising-psychologismness with regards to the veridical ontology of temporal-dispositions registries); wherein the intemporal-disposition (which is ontological) doesn’t recognise nor

acquiesce to the implied-logical-dueness-or-implied-scape and subsequent apriorising-registry-elements of implied-profile-or-implied-stature, implied-presumptuousness-or-implied-arrogation, implied-assumptions, implied-value-reference and implied-teleology projected by the temporal-dispositions, but rather advances that there is perversion-of-reference-of-thought requiring a transversality-of-disambiguated-apriorising/axiomatising/referencing ‘dialectical-thinking-or-postconverging-psychology or psychology-of-mentation-dynamics or natural psychology-of-dynamics’ psychoanalytic-unshackling/memetic-reordering/institutional-recomposure for prospective reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation. For instance, there is no possible logical engagement but rather a transversality-of-disambiguated-apriorising/axiomatising/referencing between the recurrent-utter-institutionalised and base-institutionalised mindsets/references-of-thought, likewise between the ununiversalised and universalised mindsets/references-of-thought, non-positivism/medievalism and positivistic mindsets/references-of-thought, and prospectively procrypticism and deprocrypticism mindsets/references-of-thought. Just as there would have been no ontological possibility for a positivistic worldview without the backdrop of the stranding-as-rightfully-oblongated/decandored/in-mechanical-comprehension-dementing-or-preconverging-apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of the perversion of reference-of-thought-categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity-or-ontological-preservation of non-positivism/medievalism uninstitutionalisation, there can’t equally be an ontological eventuality of futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism without the ‘requisite

uninhibited/decomplexified mental-devising-representation' by the stranding-as-rightfully-oblongated/decanitored/in-mechanical-comprehension-dementing-or-preconverging—apriorising-psychologism in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation of dementing-or-preconverging—apriorising-psychologism perversion of reference-of-thought—categorical-imperatives/axioms/registry-teleology,-for-intemporal-preservation-entropy-or-contiguity—or—ontological-preservation as the backdrop for futural Being-development/ontological-framework-expansion—as-to-depth-of-ontologising-development-as-infrastructure-of-meaningfulness-and-teleology as of prospective deprocrypticism as a structural/paradigmatic human-social-cross-sectional resolution for the virtues of deprocrypticism and superseding of the vices-and-impediments of procrypticism at its uninstitutionalised-threshold. This construal is placed on a solid firmament (that is able to supplant any intradimensional illusion-of-the-present mental-devising-representation) by the 'ontological-primemovers-totalitative-framework retracing (for temporal-to-intemporal-dispositions disambiguation articulation)' that demonstrably oblongates/decanitors temporal-dispositions as it articulates the dialecticism of a registry-worldview's/dimension's transcendence (transcending-dimension/organicism and transcended-dimension/mechanicism), on the validity of the stranding-contiguity-of-ontology. * It should be noted that this element of deconstructed meaningfulness is obviously reflected in the articulation of this paper itself in a creative, referential and dynamic grasp of reference-of-thought and meaningfulness-and-teleology in a rather ephemeral subject, the social. In this regard, the hermeneutic exercise originates from an even more wildly idiosyncratic (but personal incommunicable) reflexive process initiated rather spontaneously by the author a few years back which has formed the backdrop for this 'rather relatively benign idiosyncrasy' in this paper as the reader may come across and is the explanation for many of the author's insights. It is this mechanism of deconstructing meaningfulness exhaustively in search of an idiosyncratic but profound philosophical and creative insight that allows the hermeneutic design in a 'continuous meaningfulness reshuffling in the quest for veracity/ontological-pertinence' analogical to a twisty puzzle cube exercise in order to infer and arrive at a profoundly explanatory hermeneutic insight extending to the possibility of a 'creative existentialism (full-existential-depth-implications) storying construal' which is 'profoundly ontological', with psychoanalytic-unshackling/memetic-reordering/institutional-recomposure possibilities for transcendental institutionalisation/intemporalisation of deprocrypticism (superseding the vices-and-impediments of, as well as human emancipation over, procrypticism). Such ontological-normalcy/postconvergence-or-postdicatory

To further elucidate, the underlying idea of ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness (organic-comprehension-thinking) holds that ‘critically what matters with respect to ontology and virtue is simply and completely intemporal-preservation-entropy-or-contiguity—or-ontological-preservation as ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective), and holds that other and subsequent notions are as pertinent as they are intemporally-preservational and where those same supposed notions social use was not intemporally-preservational but perverted/subknowledge/mimicked/confounded, their ontological and virtuous validity is

apriorising/axiomatising/referencing—as-so-being-as-of-existential-reality, so construed as organic-knowledge. This is the central idea of ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness that informs organic-comprehension-thinking. ‘Intemporal-prioritisation-of-reference-of-thought’-as-conflatedness further holds that in the bigger scheme of things, it is intemporal-preservation in its entropy/contiguity that is the referencing of stranding as to stranding-dialectics (as of dementing-or-preconverging—apriorising-psychologism representation when temporally-preservational-as-pseudointemporality-preservation or of notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema>) or dialectical-thinking-or-postconverging—apriorising-psychologism representation when intemporally-preservational/ontological-contiguity. ‘Intemporal-prioritisation-of-reference-of-thought’-as-conflatedness highlights effectively that ontological meaningfulness is contiguous as highlighted further in the paper with regards to virtue ‘as a contiguous mentation-capacity (longness-of-register-of-meaningfulness-and-teleology over shortness-of-register-of-meaningfulness-and-teleology transience)’ of ontological-contiguity conceptualisation for intemporal-preservation-entropy-or-contiguity—or—ontological-preservation. Finally, by affirming ontological-veridicality/ontological-contiguity of reference-of-thought (from ontological-normalcy/postconvergence epistemic/notional_projective-perspective) over notional-discontiguity/epistemic-discontiguity-<mentally-aestheticised_dementing/preconverging—qualia-schema>-as-of-epistemic-decadence in hollow-constituting—as-disjointed-misappropriation-of-meaningfulness-and-failing-intemporal-preservation postlogical-backtracking—iterative-looping-‘set-of-dereifying-hollow-narratives-and-acts’ as perverted, ‘intemporal-prioritisation-of-reference-of-thought’-as-conflatedness validates ‘the stranding/mental-devising-representation of temporal-dispositions in mechanical-comprehension-dementing-or-preconverging—apriorising-

In other words, distractive-alignment-to-reference-of-thought by the dementing-or-preconverging–apriorising-psychologism and decentering of the prior-as-present/transcended/superseded beforehand/as-of-a-priori implies that the prospective/transcending/superseding reference-of-thought is a more profound representation of intrinsic-reality/ontological-veridicality (with regards to deprocrypticism as

of the non-disjointedness/jointedness of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument) by the ‘distractive-alignment-to-reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument point-of-departure-of-construal’ over and subsuming-and-supplanting the presencing-as-prior/transcended/superseded reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument (as of its disjointedness-as-of-reference-of-thought of reference-of-thought apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument with regards to positivism–procrypticism), as validated by existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. *Thus, distractive-alignment-to-reference-of-thought is an apriorising/axiomatising/referencing/intelligibilitysetup/measuringinstrument point-of-departure-of-construal of reference-of-thought as it is about assuming beforehand/as-of-a-priori for logical-contention as dialectical-thinking-or-postconverging–apriorising-psychologism and centered the prospective/transcending/superseding reference-of-thought (as of its prospective relative-ontological-completeness-of-reference-of-thought) in dementing-or-preconverging–apriorising-psychologism and decentering the prior-as-present/transcended/superseded reference-of-thought (as of its prior relative-ontological-incompleteness-of-reference-of-thought), as validated by existential-contextualising-contiguity’s-reifying/elucidating-of-prospective-relative-ontological-completeness-of-reference-of-thought-devolving-as-of-instantiative-context. Critically, for aetiologisation/ontological-escalation as of an intemporal synopsising depth of analysis what is decisive with regards to a postlogism manifestation is the grasp of the reality of prior relative-ontological-incompleteness-of-reference-of-thought as ‘in-wait as of prior relative-

ontological-incompleteness-of-reference-of-thought defective reference-of-thought—
 categorical-imperatives/axioms/registry-teleology for a postlogism manifestation; and just as
 we can appreciate that the organic-knowledge depth of base-institutionalisation is what is
