

QUESTION

I am modifying and adapting an image that was released under a CC BY-SA licence. Under which Creative Common licence should I release my work?

Hints:

There is only one that works.

PASSWORD

The password is a two digit number of an infamous article of the EU's new copyright directive

Hints:

It is mostly known because of the impact the article will have on memes but it is very relevant to Open Science

TASK

Next time you need to use an image or any other type of work, make sure you can use, adapt or share it. Use public domain/CCØ or correctly attribute the author(s)
