

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

PRESENTATION
December 08-2016
Academic Hall - H1

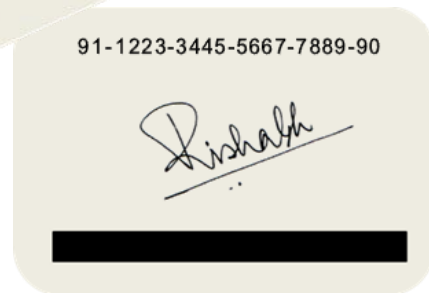

RISHABH GARG DELHI PUBLIC SCHOOL BHOPAL INDIA

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

At the time of birth, the Registrar, Births & Deaths would record the birth details and provide a 20-digit **unique digital identification number (UDI)** to the new born baby.

GI Card with SIM Carrying your UDI number

Registrar, Births & Deaths

The parents or legal guardian of the baby would be allotted a GI Card with a SIM carrying the particular UDI number.

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

The Family details viz. name of the child, date of birth, place, parents' name, address, caste, etc.) together with Genetic and Biometric Information (DNA Map, Finger Impressions, Retinal image, Blood Group etc. as per feasibility) of the child shall be saved online, on the given UDI number. The biometric details would be supplied after every five years till he attains 15.

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

This SIM of the GI Card would work for Smart phone too

The GI Card will be inserted into Smart Phone

The Biometric device, or its function on touch screen, would ensure all information and documents double protected (through digital password as well as unique biometric thumb or retinal scan)

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

Having furnished with all details, the GI Card is ready to use. Insert the card into the slot (a bigger slot would be required for GI). Now learn to carry it all the time.

Admissions and Transfers from one School to another

Carry your GI Card and swipe it in the school device. Your family details and biometric information would automatically transfer to school portal. No need to carry proofs or evidences. Alternatively, school can also fetch data online from UDI Authority using candidate's UDI and OTP received at candidate's mobile phone.

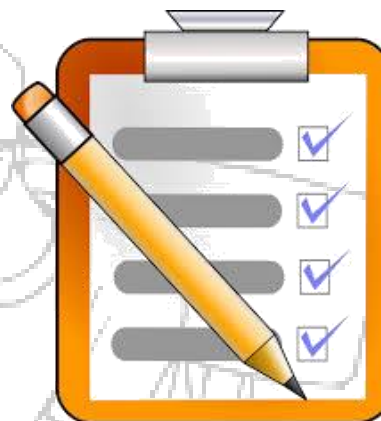

New Mobile with SIM Carrying your UDI number

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

All significant activities, including scholastic grades, co-curricular achievements, sports, etc. of the candidate would be recorded on the same UDI.

Academic Report Card				
Grading Period	1	2	3	4
Art				
English				
Geography				
History				
Math				
Music				
Social Studies				
Technology				
Average				
A- Excellent D- Acceptable				
B- Very Good F- Fail				
C- Good				

Learning Outcomes and Report Card

On seeking transfer from one institution to another, the previous school would deactivate his UDI link from the school portal and as soon as, he takes admission in the successive institution, his UDI number would again activate and start fetching information from the later school. This is how a candidate would never be able to take admission in two institutions at one time.

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

GI Card will also carry one's marital history. Sorry gentlemen, you have to be genuine with your spouse.

Think of your son or daughter too, at least my device would secure their lives from cheating.

Due to biometric impressions and thermal spectrum, there would be no possibility of scorers to appear in examinations

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

If one visits a hospital, either as an outdoor patient or gets hospitalized, all chronic and major ailments shall be entered into his GI Card so that he should not be able to deceive medical or insurance authorities for dishonest claims.

At the same time, doctors would be able to study the entire medical history of the patient at one go. This will help the patients to get better treatment.

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

Since your UDI number and all bank account numbers would be same, it would be a matter of seconds to get the details of all deposits and borrowings at one click.

Even wherever you go, be it a restaurant, club, shopping mall or fly abroad, GI would carry statement of every paisa you earn or spend.

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

Since one would have single 20-digit number (UDI) for everything - vehicle, insurance, passport, PAN, Aadhar, EPIC ... all his details would be available at one click. No duplicity, no impersonation and no concealment of vital information.

This would enable honest tax payers to display all their assets and liabilities before the IT authority and even the IT authorities would have no reason to doubt his integrity.

However, dishonest tax payers would have bad days.

GENERIC INFOTRACKER

(An All-Inclusive ID with Digital Tracking System)

As evident, every single detail in the life time of an individual would be recorded on his GI Card, there shall be no room for hard copies of the documents or certificates. The life would be free from redundant documentation which would rule out all possibilities of fraudulence.

On death, the Registrar of Birth & Death shall be informed. He would inactivate the GI for further use. In such case, only the legal heir shall be entitled to draw claims through his UDI.
