# (Open) Data Management in Horizon 2020 and Horizon Europe

## Extended Open Research Data Pilot in Horizon 2020

If selected, all applicants will by default participate in the [Pilot on Open Research Data in Horizon 2020<sup>1</sup>](#), which aims to improve and maximise access to and re-use of research data generated by actions.

However, participation in the Pilot is flexible in the sense that it does not mean that all research data needs to be open. After the action has started, participants will formulate a [Data Management Plan \(DMP\)](#), which should address the relevant aspects of making data **FAIR** - findable, accessible, interoperable and re-usable, including what data the project will generate, whether and how it will be made accessible for verification and re-use, and how it will be curated and preserved. Through this DMP projects can define certain datasets to remain closed according to the principle "as open as possible, as closed as necessary". A Data Management Plan does **not** have to be submitted at the proposal stage.

Furthermore, applicants also have the possibility to opt out of this Pilot completely at any stage (before or after the grant signature), thereby freeing themselves retroactively from the associated obligations.

Please note that participation in this Pilot does not constitute part of the evaluation process. Proposals will not be penalised for opting out.

We wish to opt out of the Pilot on Open Research Data in Horizon 2020.

☐ Yes

☒ No

# Europa / Funding & Tenders Portal notification

Dear Madam/Sir,

According to our data, you are the Lead beneficiary of one or more deliverables that should be submitted soon for the project [REDACTED]

Please log on to the Funding & Tenders Portal > My Project(s) ( <https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/myarea/projects>) and click on Actions > Manage Project, access the continuous reporting and upload/update the corresponding document or inform the Project Officer of any possible delay.

Please, find below the list of the project deliverables and their due dates.

- 1, Data Management Plan, 2019-11-01

Regards,  
Grant Management Services

## **EUROPEAN OPEN SCIENCE CLOUD**

- "Open Festival of Science" where millions of European science producers & science consumers come together and enjoy the offerings: FAIR research data, publications and software. All in one place!
- A community-driven, living e-Infrastructure
- A pillar in the Digital Single Market – and a policy priority in EU R&I
- Open by default – closed when necessary
- The development of EOSC will continue throughout 2020, but many datasets can already be accessed at [www.eosc-portal.eu](http://www.eosc-portal.eu) – log in with your SU credentials!
