

## Two new cases of pneumonitis infected with coronavirus confirmed in Vietnam

2020-01-24 01:45:59 Source: Xinhuanet

Xinhua News Agency, Hanoi, January 23 (Reporter Wang Di Huang Shuo) According to a report by Yuetong News Agency on the 23rd, two Chinese citizens were diagnosed with a new type of coronavirus in Vietnam and are currently being treated in isolation at Da Shui Ho Hospital in Ho Chi Minh City. This is the first confirmed case of pneumonia in a new coronavirus infection in Vietnam.

Yuetong News reported that the two Chinese citizens are in a father-son relationship. A 66-year-old man from Wuhan entered China from Hanoi Noi Bai International Airport on the 13th and then went to Nha Trang, Khanh Hoa province. His 28-year-old son went to Nha Trang from his southern residence in Long An province to meet with his father and then to Ho Chi Minh City. And Long An Province. On the 17th and the 20th, the father and the son developed fever symptoms one after another. At the hospital on the evening of the 22nd, they were diagnosed with a new coronavirus. Currently, the two patients are in stable condition.

Vietnam's Deputy Minister of Health Nguyen Chang Shan said on the 23rd that the epidemic is likely to spread as two patients have traveled to multiple places and contacted many people.

The Chinese embassy in Vietnam issued a notice on the 23rd, reminding Chinese citizens visiting Vietnam to pay close attention to the relevant epidemic notifications from the Ministry of Foreign Affairs and the embassy, to keep abreast of Vietnam's epidemic prevention and control situation, strengthen its own security protection, and actively cooperate with various entry quarantine measures in accordance with its own health Reasonable arrangements for the trip. If you feel unwell during Vietnam, please seek medical treatment in time. If you are isolated for treatment or diagnosed with a new coronavirus, please contact the embassy or consulate in Vietnam in time.
