[# Heilongjiang diagnoses the first case of new pneumonia # case] Today, the National Health and Health Commission confirmed the first confirmed case of pneumonia imported from Heilongjiang Province. The patient was a 69-year-old male from Mudanjiang. After returning from Wuhan City to Mudanjiang City on January 12, she was isolated and treated at Mudanjiang Second Hospital due to fever, cough, sputum and fatigue. At present, the patient is seriously ill and is now in full care. The patient's close contacts are under medical observation and are currently normal. (Record of CCTV Wang Yuejun and Zhang Yixin)

Scent of passion fruit

After many years, our ancestors screened out what we could eat and what we could n't eat. There were always people with bad brains who wanted to eat what they could n't eat. The things around their necks were probably decorations. 😊

Many netizens report that their family members are queuing up for hospitalization and have no beds. Please pay attention! Heilongjiang also fell😭😭😭

Day Flight Cycle

Can you tell people from all over the country to return home from Wuhan and have been to Wuhan to register and check with local hospitals? Act early to curb the development of the epidemic!

The first rich girl in the universe

I begged Wuhan to consider closing the city. There is no discrimination and very serious treatment. 🙏🙏

Everyone must wear a mask when they go out, and no one should be lucky, even if your city is Line 18, even if there is no case in your city, even if you don't think you will be infected like this. It's very crowded during the Spring Festival, but you will never know where the passers-by walking by come from and who they are in contact with.
