Japan's health ministry says it has confirmed the country's fourth case of the new coronavirus.

The ministry said on Sunday that the patient is a male tourist in his 40s from the Chinese city of Wuhan.

Ministry officials say he arrived in Japan on Wednesday and developed a fever the following day.

He reportedly visited a medical institution on

the seafood market in Wuhan, where many people are believed to have been infected, and he didn't have a fever when he arrived in Japan.

The three earlier cases involve a Chinese resident of Japan who visited Wuhan and two tourists from the city.
