Open Access Talk | open-access.network | 27. August 2020

Agenda

Was ist OpenAIRE?
Was bedeutet Open Access?
Open-Access-Mandat
Wie erfüllen?
Wie finanzieren?
Was gilt unter Plan S?
Was tun bei Fragen?

Was ist OpenAIRE?

Projekt OpenAIRE

- OpenAIRE ist ein Projekt, das von der EU-Kommission gefördert wird
- Repräsentationen in allen EU-Ländern und weiteren (z.B. Türkei)
- Soll helfen, Open Science Realität werden zu lassen
- Steht allen EU-geförderten Wissenschaftler*innen bei Fragen zu Open Science mit Rat und Tat zur Seite
- Bietet Plattform openaire.eu mit Training zu Open Science, Vernetzung, Hilfe für Content Provider und Forschungsinformationssystem OpenAIRE Research Graph

Projektphasen OpenAIRE

- Implementierung Open Access Pilot in FP7
- Aufbau der nationalen Open Access Büros

- Verlinkung von Publikationen mit Forschungsdaten

- Horizon2020:
- Open-Access-Mandat
 - Open-Data-Pilot

- Horizon2020:
- Open-Access-Mandat
 - Open Data als Regelfall

Projektphasen OpenAIRE

Horizon2020:

- Open-Access-Mandat
- Open Data als Regelfall

- Keine Projektform mehr
- gemeinnütziger Verein
- griechisches Recht
- eigene Struktur & eigene Finanzierung
- Services nachhaltig weiter bereitstellen

Infrastruktur mit zwei Komponenten

Human Network

Integriertes Forschungsinformations-System:

23 Millionen+ Publikationen; 600K+
Datensätze; 1000+ Dataprovider, 800K mit
Projekten verlinkte Publikationen von 19
Förderern

34 Experten in ganz Europa:

Open Science Training & Support,
OA Policy Harmonisierung,
Infrastruktur-Compliance

Digital Network

Open-Access-Mandat

Was bedeutet Open Access?

Open-Access-Literatur steht allen Nutzer/innen mit Internetzugang frei und kostenlos zur Verfügung – zum Lesen, Drucken, Verteilen, Zitieren.

Autoren behalten die Copyright an ihren Texten und Kontrolle über ihre Arbeit.

Wie erfüllen?

Was fordert die EU?

29.2 Open access to scientific publications

The beneficiary must ensure open access (free of charge online access for any user) to all peer-reviewed scientific publications relating to its results.

In particular, it must:

(a) as soon as possible and at the latest on publication, deposit a machine-readable electronic copy of the published version or final peer-reviewed manuscript accepted for publication in a repository for scientific publications.

Moreover, the beneficiary must aim to deposit at the same time the research data needed to validate the results presented in the deposited scientific publications.

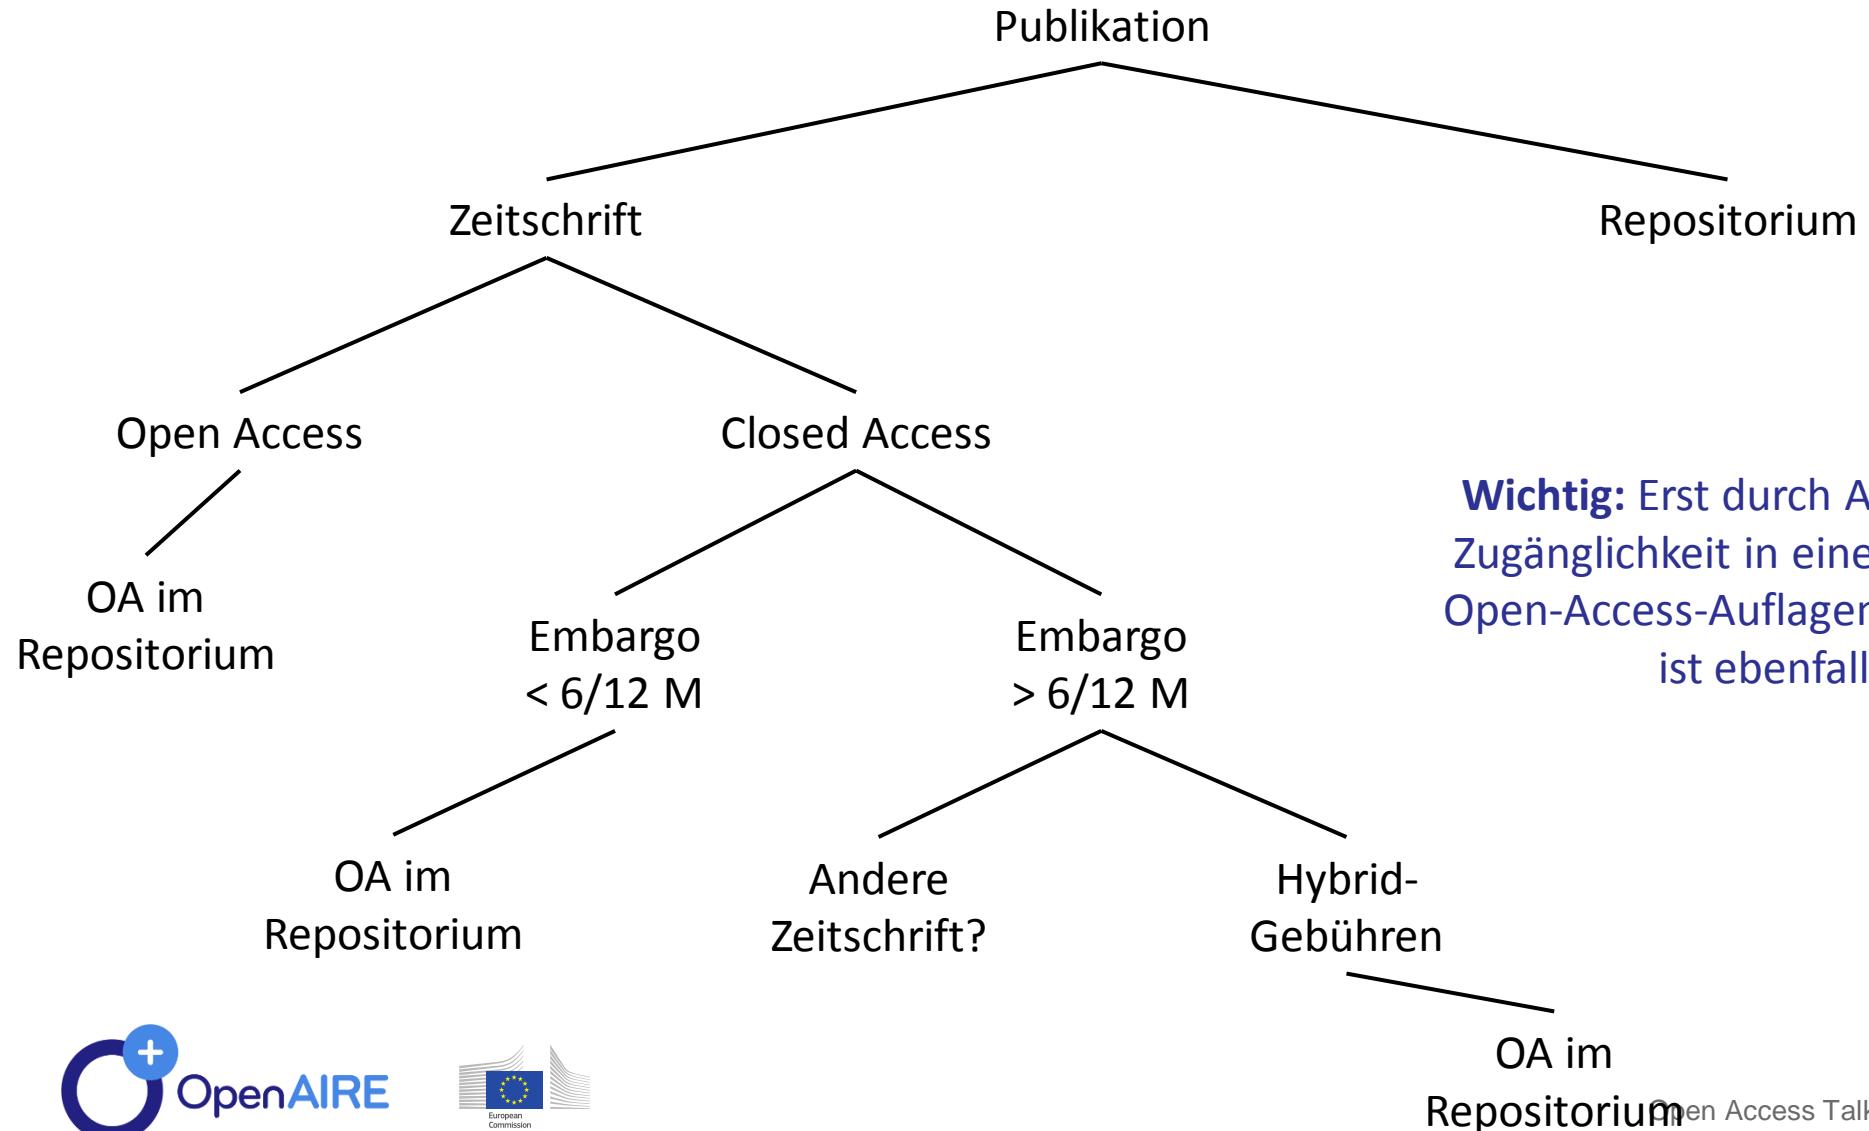

(b) ensure open access to the deposited publication — via the repository — at the latest:

(i) on publication, if an electronic version is available for free via the publisher, or

(ii) within six months of publication (twelve months for publications in the social sciences and humanities) in any other case.

(c) ensure open access — via the repository — to the bibliographic metadata that identify the deposited publication, which must include a persistent identifier.

Wie erfüllen?

Wie erfüllen?

In der Praxis:

1. Manuskript an ausgewählte Zeitschrift senden
2. Repozitorium auswählen
3. Ablage Metadaten + Post-Print-Datei in Repozitorium
 - Angabe der Embargo-Dauer für Post-Print
 - Angabe der EU-Förderung mit Grant-Agreement-Nummer

Auf Projektwebseite einstellen allein reicht nicht!

Wozu ist das gut? openaire.eu

The screenshot shows the OpenAIRE website interface. At the top, there is a navigation bar with links for Home, EXPLORE (which is highlighted in orange), PROVIDE, CONNECT, MONITOR, and DEVELOP. Below the navigation bar, there are links for SEARCH, SHARE, LINK, CONTENT PROVIDERS, and SIGN IN. On the left side, the OpenAIRE logo and the word "EXPLORE" are visible. The main content area displays a project titled "GARNICS". Below the title, it says "Gardening with a Cognitive System (247947)". There are buttons for PROJECT, EC, OPEN ACCESS MANDATE FOR PUBLICATIONS, and SPECIAL CLAUSE 39. It also lists funding information (FP7 | SP1 | ICT), start date (2010-03-01), end date (2013-02-28), and an open access mandate for research data (no). The organization is listed as CSIC | FORSCHUNGSZENTRUM JÜLICH GMBH | UGOE | LIU. A link to detailed project information (CORDIS) is provided. Below this, there is a section for "Publications (58)" with a link to "View all 58 results →". Three publications are listed: 1. "Förkroppsligad objektigenkänning" by Wallenberg, Marcus; (2017). It is a DOCTORAL THESIS in ENGLISH, OPEN access. Project: EC | GARNICS (247947). 2. "Efficient probability distribution function estimation for energy based image segmentation methods" by Dedovic, Ines; (2016). It is a DOCTORAL THESIS in ENGLISH, OPEN access. Project: EC | GARNICS (247947). 3. "ToF cameras for active vision in robotics". To the right of the publications, there is a "Share - Bookmark" button with various social media icons. Below that is an "Application Box" containing links for "Include in your site (HTML)", "Get EC report (HTML)", "Get EC report (CSV)", and "Deposit". A large orange button at the bottom of the box says "Link this project to...".

Das OpenAIRE-Portal greift automatisch Daten aus Repositorien ab und präsentiert sie offen.

Das erhöht die Sichtbarkeit Ihrer Arbeit massiv und dient als Grundlage für die Evaluation Ihres Projekts.

Wie erfüllen?

Repositorium finden:

1. Institutionelles Repotorium
 - Hier bekommen Sie Services und Ansprechpartner vor Ort
 - Bei Problemen oft kurzfristig individuelle Hilfe möglich
2. Anderes Repotorium
 - Fachspezifisches Repotorium vorhanden? (Kennen Fach-Standards und sind evtl. in der Community bekannt)
 - OpenAIRE compliant? (Wichtig für das automatische Abrufen der Daten durch das OpenAIRE-Portal, Compliance kann auf explore.openaire.eu geprüft werden, einfach Repo-Name suchen)
 - Im Directory of Open Access Repositories OpenDOAR (opendoar.org) verzeichnet? (Liste vertrauenswürdiger Text-Repositorien)

Wie finanzieren?

Im Projekt:

- Umsichtige Wahl der Zeitschrift:
 - Open-Access-Zeitschrift
 - Embargo innerhalb der 6/12-Monate-Frist der EU
- Open-Access-Gebühren (Gold und Hybrid) können als *eligible Costs* geltend gemacht werden
- Evtl. institutionelle Förderung (Es kann sich lohnen, bei Ihrer Institution nachzufragen.)
- Reporte zu Publikationen bei Reviews (falls Probleme mit Open-Access-Status von Publikationen auftauchen: mit offenen Karten spielen, Kooperationsbereitschaft zeigen)

Bei Antragstellung:

- Überblick über gewünschte Zeitschriften und deren Bedingungen
 - Embargo-Dauer?
 - Hybrid-Gebühren?
 - Open-Access-Zeitschrift?
- Voraussichtliche Kosten für Open-Access-Publikation überschlagen
- Gelder mit beantragen

Was gilt unter Plan S?

Was ist Plan S?

coalition-s.org

- Initiative für Open-Access-Publikationen
- cOAlition S
- Gestartet 2018
- Ziel:

“With effect from 2021, all scholarly publications on the results from research funded by public or private grants provided by national, regional and international research councils and funding bodies, must be published in Open Access Journals, on Open Access Platforms, or made immediately available through Open Access Repositories without embargo.”

coalition-s.org/about

Was will Plan S?

Plan S Principles:

01 Authors or their institutions retain copyright to their publications. All publications must be published under an open license, preferably the Creative Commons Attribution license (CC BY), in order to fulfil the requirements defined by the Berlin Declaration;

02 The Funders will develop robust criteria and requirements for the services that high-quality Open Access journals, Open Access platforms, and Open Access repositories must provide;

03 In cases where high-quality Open Access journals or platforms do not yet exist, the Funders will, in a coordinated way, provide incentives to establish and support them when appropriate; support will also be provided for Open Access infrastructures where necessary;

04 Where applicable, Open Access publication fees are covered by the Funders or research institutions, not by individual researchers; it is acknowledged that all researchers should be able to publish their work Open Access;

Was will Plan S?

Plan S Principles:

05 The Funders **support the diversity of business models for Open Access journals and platforms.** When Open Access publication fees are applied, they must be commensurate with the publication services delivered and the structure of such fees must be transparent to inform the market and funders potential standardisation and **capping of payments of fees;**

06 The Funders encourage governments, universities, research organisations, libraries, academies, and learned societies to **align their strategies, policies, and practices, notably to ensure transparency.**

07 The above principles shall apply to all types of scholarly publications, but it is understood that the timeline to achieve Open Access for monographs and book chapters will be longer and requires a separate and due process;

Was will Plan S?

Plan S Principles:

08 The Funders do not support the ‘hybrid’ model of publishing. However, as a transitional pathway towards full Open Access within a clearly defined timeframe, and only as part of transformative arrangements, Funders may contribute to financially supporting such arrangements;

09 The Funders will monitor compliance and sanction non-compliant beneficiaries/grantees;

10 The Funders commit that when assessing research outputs during funding decisions they will value the intrinsic merit of the work and not consider the publication channel, its impact factor (or other journal metrics), or the publisher.

Was will Plan S?

Zusammengefasst:

- › No scholarly publication should be locked behind a paywall;
- › Open Access should be immediate i.e., without embargoes;
- › Full Open Access is implemented by the default use of a Creative Commons Attribution CC BY licence as per the [Berlin Declaration](#);
- › Funders commit to support Open Access publication fees at a reasonable level;
- › Funders will not support publication in hybrid (or mirror/sister) journals unless they are part of a transformative arrangement with a clearly defined endpoint.

Was will Plan S?

Änderungen nach Überarbeitung:

But a number of important changes are proposed in the implementation guidance

- › In order to provide more time for researchers and publishers to adapt to the changes under Plan S, the timeline has been extended by one year to 2021;
- › Transformative agreements will be supported until 2024;
- › More options for transitional arrangements (transformative agreements, transformative model agreements, 'transformative journals') are supported;
- › Greater clarity is provided about the various compliance routes: Plan S is NOT just about a publication fee model of Open Access publishing. cOAlition S supports a diversity of sustainability models for Open Access journals and platforms;
- › More emphasis is put on changing the research reward and incentive system: cOAlition S funders explicitly commit to adapt the criteria by which they value researchers and scholarly output;
- › The importance of transparency in Open Access publication fees is emphasised in order to inform the market and funders' potential standardisation and capping of payments of such fees;
- › The technical requirements for Open Access repositories have been revised.

Was tun bei Fragen?

Was tun bei Fragen?

Open-Access-Beauftragte Ihrer Institution

- Kennen sich mit allen Belangen zu Open-Access-Publikationen aus
- Kennen Fördermöglichkeiten
- Wissen um eventuelle Mitgliedschaften der Institution bei Verlagen (Rabatt auf Publikationsgebühren?)

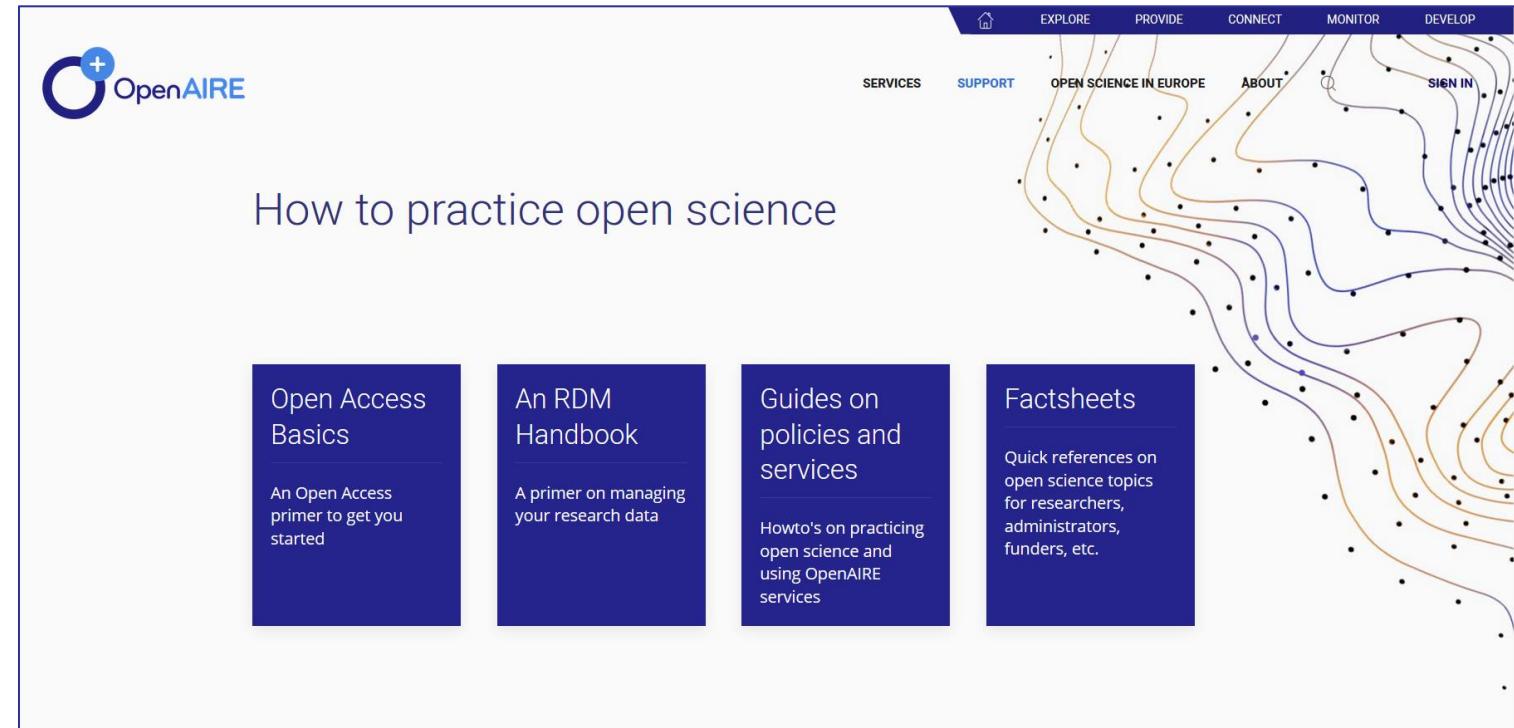

Repositoriumsbetreiber Ihrer Institution

- Kennen rechtliche Umstände von Post-Print-Publikationen
- Kennen sich mit Dateiformaten und Textlizenzierungen aus
- Helfen bei Fragen zu Speicherung, Sicherung, Archivierung
- Kennen Compliance-Level ihres Repositoriums

Was tun bei Fragen?

OpenAIRE Portal openaire.eu/support

- Guidelines und FAQs zu Fragen und Problemen rund um Open Access und FAIR Data
- Basiswissen über Open Access und Forschungsdatenmanagement
- Webinare
- Trainingsmaterialien

Was tun bei Fragen?

National Open Access Desk Germany

- Zuhause am KIM der Universität Konstanz
- Bei allen Fragen und Problemen zu OpenAIRE, Horizon2020, Open Access, Open Data
