

```
cf_filter< dimstate,  
dimobs, float_t >
```

A diagram showing a vertical relationship between two C++ template class declarations. At the bottom is a box with a light gray background containing the code for `kalman`. A blue arrow points upwards from the bottom box to the top box, indicating that `cf_filter` inherits from `kalman`.

```
kalman< dimstate, dimobs,  
diminput, float_t >
```
