DATA MANAGEMENT PLAN

Background

This is a public deliverable of One Health EJP Joint Research Project, **Integrative Action-2.2, OH-HARMONY-CAP**: One Health Harmonisation of Protocols for the Detection of Foodborne Pathogens and AMR Determinants

<https://onehealthejp.eu/jip-oh-harmony-cap/>

OH-Harmony-CAP is a 2.5 year project which aims to collect information on current capabilities, capacities and interoperability at both the National Reference Laboratory (NRL) and the primary diagnostic level. The quantitative description of current and best practices and the development of harmonised protocols will identify and possibly close the gaps and support future studies of how best to detect and characterise food borne pathogens across the One Health sectors. The OH-Harmony-Cap Consortium comprises 15 One Health EJP partners.

Project Leader and DMP contact person: Nadia Boisen, P13-SSI, nbo@ssi.dk

Data Management Plan (DMP) is an important element of data management during a project as it is needed to continuously tracking, monitoring, analyseing and storing data in order to ensure progress throughout the project. Note, OH-Harmony-Cap is dedicated to make the research data findable, accessible, interoperable and reusable (FAIR-principle). Further, this data asset will be readily available for all our purposes, as well as those that may need this data in the future, also contributing to the sustainability of the project and its outcomes.

The specific deliverable will be a preliminary data management plan, which can be adjusted as the project progresses.

Process and format

The list of data covered in OH-Harmony-Cap DMP was specified during the first year of the project. DMP is a living document during the lifetime of the project. Also, the management of the data is discussed proactively and the DMP is regularly discussed with the WP-leaders and with the OH-Harmony-Cap Consortium during the project.

This deliverable is the general description of the DMP. The DMP itself was compiled using a specific tool provided by the OHEJP: Collaborative Data Platform (DCP). Due to the delayed access of the tool the first version of the DMP was finished with minor delay, M33. OH-Harmony-Cap project Leader is responsible for the OH-Harmony-Cap DMP with contributions from task participants: 1-ANSES, 9-BfR, 13-SSI, 30-RIVM, 26-Teagasc, 41-SVA.

The final DMP will be published at the end of the project lifetime.

First version of DMP (2020)

Four research datasets are listed in the first version of OH-Harmony-Cap DMP:

1. Questionnaire for WP2

“JIP-4-WP2_OHLABCAP_PILOTSURVEY_WP2-T2_SCORING_OF_COLLECTED_DATA_AND_CHOSEN_INDICATORS”

2. Questionnaire for WP3

“JIP-4-WP3_ONE_HEALTH_LABORATORY_INTEROPERABILITY_GUIDANCE._WP3-T1_SAMPLING_AND_TESTING”

3. Data collection for WP4

“JIP-4-WP4_HARMONISATION_OF_PROTOCOLS_WP4-T1_COLLECTION_OF_THE_LABORATORY_PROTOCOLS”

4. Data collecton for WP4

“JIP-4-WP4_HARMONISATION_OF_PROTOCOLS_WP4-T2_EVALUATION_OF_THE_COLLECTED_LABORATORY_PROTOCOLS”
