Contents

1. Introduction	81
1.1. The Gulf of Castellammare	82
1.1.1. The Structure of the Fishery	83
2. Laws and Regulations of the Fisheries in the Gulf of Castellammare	85
2.1. National Legislation	90
2.2. Regional Legislation	91
3. Trawl Surveys in the Gulf of Castellammare 2000/2001	92
3.1. Materials and Methods	92
3.1.1. Sampling design	92
3.1.2. Fishing vessel and fishing gear	95
3.1.3. Fishing operations	96
3.1.4. Laboratory operations	96
3.1.5. Data analysis	97
3.2. Results	98
3.2.1. Fishing yields	98
3.2.2. Commercial categories	99
3.2.3. Biomass estimates	100
3.2.4. Assessment of the effect of the trawl ban	103
Appendix 3.I: List of species collected during the 2000-01 trawl surveys	107
Appendix 3.II(a): Trawl hauls (survey IX, summer) catch (g) and CPUE (g/30min)	109
Appendix 3.II(b): Trawl hauls (survey X, autumn) catch (g) and CPUE (g/30min)	110
Appendix 3.II(c): Trawl hauls (survey XI, winter) catch (g) and CPUE (g/30min)	111
Appendix 3.II(d): Trawl hauls (survey XII, spring) catch (g) and CPUE (g/30min)	112
Appendix 3.II(e): Trawl surveys IX-XII (year) catch (g) and CPUE (g/30min)	113
4. A Bioeconomic Model of the Gulf of Castellammare	115
4.1. The Overall Structure of the Bioeconomic Model	115
4.1.1. Mathematical framework of the model	117
4.2. The Biological Component of the Model	118
4.3. The Economic Component of the Model	127
4.4. The Bioeconomic Analysis	128

¹ Please note there is no lead authorship assigned to this case study, hence the authors are listed alphabetically.

4.5. Results.....	129
4.5.1. Simulations.....	129
4.5.2. Optimisations.....	133
4.5.3. Sensitivity Analysis.....	134
4.6. Discussion and Conclusions.....	137
5. Economic Sustainability of the Artisanal Fisheries.....	139
5.1. Spatial management of fisheries: a bioeconomic framework.....	140
5.2. Removing the Gulf of Castellammare trawl ban: Effects on artisanal fleet performance.....	142
5.2.1. Pressure on the stocks.....	142
5.2.2. Financial viability.....	143
5.3. Fishermen's expressed intentions.....	145
5.4. Conclusions.....	147
Appendix 5.I: Net present value calculations.....	148
6. The Gulf of Castellammare Compared to FEZs in Greece.....	150
6.1. Data Set.....	150
6.2. Data Analysis.....	151
6.2.1. Spatial analysis.....	151
6.2.2. Temporal analysis.....	153
6.3. Discussion.....	155
7. References.....	157

Acknowledgments

The data from trawl surveys conducted in Greece were provided by NCMR in the context of Contract no. CP/02/2001 stipulated between IRMA and NCMR. We thank George Petrakis and Stefanos Kavadas for their kind collaboration.
