

Code review changes - report - eclipse platform text

Code review changes - report - eclipse platform text

Response ID:1 Data

1. (untitled)

1. After you have looked at this interface for your project, it would be great if you could let us know what you think about it:

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree	No Answer
The information is clear and easy to understand				X		
This summary is useful for my project and contains relevant information				X		
This information can be useful for a developer				X		
This information can be useful for a project manager				X		
This information reflects my expectations of the code review process of the project					X	

2. Feel free to add any further comments about your answers above or the information:

3. After you have looked at this visualization, it would be great if you could let us know what you think about it:

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree	No Answer
The graph is clear and easy to understand				X		
This summary is useful for my project and contains relevant information					X	
This information cab be useful for a developer				X		
This information can be useful for a project manager				X		
This information reflects my expectations of the code review process of the project				X		

4. Feel free to add any further comments about your answers above or the visualization:

I'd expect a detailed description of the categories as you did in the survey's introduction, e.g. as hover text.

The coloring is a bit doubtful, esp. "Visual Representation" does not fit the other Documentation color grades. Structure and Documentation are not distinct enough on first sight.

Use tools like <https://htmlcolorcodes.com/color-picker/> to find colors that make good matches.

5. After you have looked at this visualization for your project, it would be great if you could let us know what you think about it:

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree	No Answer
The graph is clear and easy to understand			X			
This summary is useful for my project and contains relevant information				X		
This information can be useful for a developer				X		
This information can be useful for a project manager				X		
This information reflects my idea of the temporary distribution of the changes in our review				X		

6. Feel free to add any further comments about your answers above or the visualization:

I find the different scales for functional/non-functional changes a bit hard to grasp on first sight. If you prefer a combined chart, I would first mention functional changes ("form follows function"). They are more important, but less frequent.
Think about having 2 charts.

7. The whole report is useful for my project and contains relevant information.

Agree

8. Please specify:

The report shows that only few to none functional changes are done. This reflects the maturity of the project and the need for non-functional evolution which had less focus in the past.

9. I have learned something about my project that I have not been aware of before.

Neutral

Please specify:

11. The results made me curious. I plan to investigate further the code review process of my project.

Agree

12. This report provides information that is not available in any other tool I know.

Agree

13. Having this kind of information at ready would have a positive influence over the Code Review process of my team.

Disagree

14. Based on the information you have seen in this report, I would change something in the code review practices of my project:

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree	No Answer
Code review policies (e.g., mandatory review after each commit)		X				
Use of tools (e.g., static analysis tools like Check style or FINDBUGS)		X				
Reviewers assignment (e.g., by finding specific reviewers for specific defects)		X				

Please, give us further details on this:

16. I think that the information of this report might help with ...

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree	No Answer
To understand how resources are spent on our project				X		
To avoid performing the same mistakes again	X					

17. Please, give us further details on this *(optional)*:

18. If you want, please give further feedback on our report. (Optional)

19. What is your involvement with the development of the project analyzed in this report?

I have committing/merging rights

20. What is your current job?

Professional Developer

21. How many years have you developed software in a professional setting?

11 years or more

22. How often do you currently program software?

Daily or more often

23. How many years have you performed code reviews?

6-10 years

24. How often do you currently perform code reviews?

Daily or more often

In addition to analyzing your data in an anonymous form, can we also share your answers (in an anonymous form) in a publicly available dataset?

Yes

26. If you have any comments on the report or on the topic, please add them here.
