

Module 4: Extracurricular activities

Extracurricular activities

Extracurricular activities

Out of school programm that covers additional topics

Extracurricular activities

Out of school programm that covers additional topics

- School courses

Extracurricular activities

Out of school programm that covers additional topics

- School courses
- Preparation for different competitions

Out of school programm that covers additional topics

- School courses
- Preparation for different competitions
- Mathematical camps

Out of school programm that covers additional topics

- School courses
- Preparation for different competitions
- Mathematical camps
- Private organizations

Out of school programm that covers additional topics

- School courses
- Preparation for different competitions
- Mathematical camps
- Private organizations
- Self preparation

Extracurricular activities

Extracurricular activities

School courses

Extracurricular activities

School courses

- Organized weekly by almost all math schools in the past

Extracurricular activities

School courses

- Organized weekly by almost all math schools in the past
- Unfortunately at present do not exist in many schools

Extracurricular activities

School courses

- Organized weekly by almost all math schools in the past
- Unfortunately at present do not exist in many schools
- Good teachers are needed to ensure relevant preparation of students

Extracurricular activities

School courses

- Organized weekly by almost all math schools in the past
- Unfortunately at present do not exist in many schools
- Good teachers are needed to ensure relevant preparation of students
- Currently such preparation is done regularly and successfully mostly in: Sofia Mathematical School, 125 SU, Varna, Burgas, Plovdiv

Extracurricular activities

School courses

- Organized weekly by almost all math schools in the past
- Unfortunately at present do not exist in many schools
- Good teachers are needed to ensure relevant preparation of students
- Currently such preparation is done regularly and successfully mostly in: Sofia Mathematical School, 125 SU, Varna, Burgas, Plovdiv
- For good and successful preparation financial support is essential

Extracurricular activities

Preparation for different competitions

Preparation for different competitions

- Training courses before all major competitions are organized

Preparation for different competitions

- Training courses before all major competitions are organized
- The aim is to prepare the students for particular competition

Preparation for different competitions

- Training courses before all major competitions are organized
- The aim is to prepare the students for particular competition
- Lecturers are members of the *Team for extracurricular activities in mathematics*

Preparation for different competitions

- Training courses before all major competitions are organized
- The aim is to prepare the students for particular competition
- Lecturers are members of the *Team for extracurricular activities in mathematics*
- Main organizers are UBM and IMI

Extracurricular activities

Mathematical Camps

Mathematical Camps

- Summer camps organized by the team for extracurricular activities in mathematics

Mathematical Camps

- Summer camps organized by the team for extracurricular activities in mathematics
- Preparation camps during Spring breaks organized by Burgas math school

Mathematical Camps

- Summer camps organized by the team for extracurricular activities in mathematics
- Preparation camps during Spring breaks organized by Burgas math school
- Summer camps organized by math schools, private organizations, etc.

Extracurricular activities

Extracurricular activities

Private organizations

Private organizations

- Founded by former contestants or members of the team for extracurricular activities

Extracurricular activities

Private organizations

- Founded by former contestants or members of the team for extracurricular activities
- Usually younger students are involved

Extracurricular activities

Extracurricular activities

Self preparation

Self preparation

- In high school it is the most important part of the preparation

Self preparation

- In high school it is the most important part of the preparation
- It is successful if the student is motivated, capable and perseverant

Annual schedule of math competitions

National competitions (MES and UBM)

Annual schedule of math competitions

National competitions (MES and UBM)

- National Math Olympiad in three rounds

Annual schedule of math competitions

National competitions (MES and UBM)

- National Math Olympiad in three rounds
- Winter mathematical competition

Annual schedule of math competitions

National competitions (MES and UBM)

- National Math Olympiad in three rounds
- Winter mathematical competition
- European Kangaroo

Annual schedule of math competitions

National competitions (MES and UBM)

- National Math Olympiad in three rounds
- Winter mathematical competition
- European Kangaroo
- Mathematical competition for foreign language schools

Annual schedule of math competitions

National competitions (MES and UBM)

- National Math Olympiad in three rounds
- Winter mathematical competition
- European Kangaroo
- Mathematical competition for foreign language schools
- Spring mathematical competition for 4th grade students

Annual schedule of math competitions

National competitions (MES and UBM)

- National Math Olympiad in three rounds
- Winter mathematical competition
- European Kangaroo
- Mathematical competition for foreign language schools
- Spring mathematical competition for 4th grade students
- Spring mathematical competitions

Annual schedule of math competitions

National competitions (MES and UBM)

- National Math Olympiad in three rounds
- Winter mathematical competition
- European Kangaroo
- Mathematical competition for foreign language schools
- Spring mathematical competition for 4th grade students
- Spring mathematical competitions
- Mathematical competition for 4th grade students
„Mathematics for all“

Annual schedule of math competitions

Organized by UBM and supported by MES

Annual schedule of math competitions

Organized by UBM and supported by MES

- Mathematical Tournament „Svetlozar Doichev“, Stara Zagora

Annual schedule of math competitions

Organized by UBM and supported by MES

- Mathematical Tournament „Svetlozar Doichev“, Stara Zagora
- Mathematical competition „Hitar Petar“, Gabrovo

Annual schedule of math competitions

Organized by UBM and supported by MES

- Mathematical Tournament „Svetlozar Doichev“, Stara Zagora
- Mathematical competition „Hitar Petar“, Gabrovo
- Dimitrovden mathematical competition, Vidin

Annual schedule of math competitions

Organized by UBM and supported by MES

- Mathematical Tournament „Svetlozar Doichev“, Stara Zagora
- Mathematical competition „Hitar Petar“, Gabrovo
- Dimitrovden mathematical competition, Vidin
- Mathematical tournament „Petar Beron“, Stara Zagora
November 2021

Annual schedule of math competitions

Organized by UBM and supported by MES

- Mathematical Tournament „Svetlozar Doichev“, Stara Zagora
- Mathematical competition „Hitar Petar“, Gabrovo
- Dimitrovden mathematical competition, Vidin
- Mathematical tournament „Petar Beron“, Stara Zagora
November 2021
- Mathematical tournament „Chernorizec Hrabar“ November
2021

Annual schedule of math competitions

Organized by UBM and supported by MES

Annual schedule of math competitions

Organized by UBM and supported by MES

- Autumn mathematical tournament „Akad. Stefan Dodunekov“
November 2021

Annual schedule of math competitions

Organized by UBM and supported by MES

- Autumn mathematical tournament „Akad. Stefan Dodunekov“
November 2021
- Mathematical tournament „Dimo Maleshkov“, Plovdiv
November 20, 2021

Annual schedule of math competitions

Organized by UBM and supported by MES

- Autumn mathematical tournament „Akad. Stefan Dodunekov“
November 2021
- Mathematical tournament „Dimo Maleshkov“, Plovdiv
November 20, 2021
- Mathematical tournament „Perperikon“ November 2021

Annual schedule of math competitions

Organized by UBM and supported by MES

- Autumn mathematical tournament „Akad. Stefan Dodunekov“
November 2021
- Mathematical tournament „Dimo Maleshkov“, Plovdiv
November 20, 2021
- Mathematical tournament „Perperikon“ November 2021
- Online competition „VIVA Mathematics with computer“ First
round – November 2021 Second round – March 2022

Annual schedule of math competitions

Organized by UBM and supported by MES

Annual schedule of math competitions

Organized by UBM and supported by MES

- Regional math competition „St. Nikolaus “November, 28, Burgas

Annual schedule of math competitions

Organized by UBM and supported by MES

- Regional math competition „St. Nikolaus “November, 28, Burgas
- Students Institue, November 2021

Annual schedule of math competitions

Organized by UBM and supported by MES

- Regional math competition „St. Nikolaus “November, 28, Burgas
- Students Institute, November 2021
- National mathematical tournament „Ivan Salabashev“, December 4, 2021

Annual schedule of math competitions

Organized by UBM and supported by MES

- Regional math competition „St. Nikolaus “November, 28, Burgas
- Students Institute, November 2021
- National mathematical tournament „Ivan Salabashev“, December 4, 2021
- Christmas mathematical tournament, December 11, 2021

Annual schedule of math competitions

International competitions

Annual schedule of math competitions

International competitions

- European girls' mathematical olympiad, April 2022, Hungary

Annual schedule of math competitions

International competitions

- European girls' mathematical olympiad, April 2022, Hungary
- Russian mathematical olympiad April 2022

Annual schedule of math competitions

International competitions

- European girls' mathematical olympiad, April 2022, Hungary
- Russian mathematical olympiad April 2022
- Balkan Mathematical olympiad, May 2022

Annual schedule of math competitions

International competitions

- European girls' mathematical olympiad, April 2022, Hungary
- Russian mathematical olympiad April 2022
- Balkan Mathematical olympiad, May 2022
- Balkan Mathematical olympiad for students up to 15,5 years old, June 2022

Annual schedule of math competitions

International competitions

- European girls' mathematical olympiad, April 2022, Hungary
- Russian mathematical olympiad April 2022
- Balkan Mathematical olympiad, May 2022
- Balkan Mathematical olympiad for students up to 15,5 years old, June 2022
- International Mathematical Olympiad, July 2022, Norway
