

Open Research Europe: Key Synergies for an Open and Sustainable Platform

9.6.2022

On ORE & University Libraries

Susanna Nykyri, PhD, Chief Specialist (Open Science),
Publishing Manager @TUP_UniPress

([https://orcid.org/ 0000-0002-5018-5176](https://orcid.org/0000-0002-5018-5176))

Agenda

- On motivation to use ORE
- On promoting ORE
- On further development

On motivation

- **Practices!!** Quality, responsible editorial and OS practices, long-term preservation and access, impact.
- **Prices!!** TAU OpenAPC 2021: ~ **1 869 €** (210 articles)
 - full oa 1 588 € (134 articles) and hybrids 2 365 € (76 articles).
 - TAU OpenAPC 2020 ~ 1490 € (238), full oa 1383 € (143) and hybrids 1651€ (95).
- [https://treemaps.openapc.net/apcdata/tampere-u/#publisher/period=2021&is_hybrid=.](https://treemaps.openapc.net/apcdata/tampere-u/#publisher/period=2021&is_hybrid=)

On promoting ORE

Trust bases on transparency and responsible editorial and OS practices.

Not solely about filling the OA criteria of the funders, but promoting more broadly and deeply sustainable OA and OS as part of good research practices.

Several forms and ways:

- Training, kick-off project meetings, faculty and unit meetings, happenings, social media
- Libguide on OA publishing and other relevant ones, guidance (e-mail, intra, web-pages etc)

What next?

- More **awareness of already excellent practices of ORE!** – On (good) rapidness, preprints, versioning, open peer review, responsible metrics, data policies and DM practices – and on economic sustainability.
- Open **monographs?**
 - To enable OA publishing evenly to all disciplines, respecting the variety of publishing formats
 - Monographs are published in each of the seven TAU faculties, mostly in SSH
- **Other research outputs** (cf. DORA), e.g. research data?
 - Liber Conference, Session 9: Trusted partners in research data support 8.7.2022: *Data as a new research publication type : What could be the role of research libraries as service providers?* (by Kuusniemi M E & Nykyri S)
- ORE publishes solely in English -> Libraries should consider and provide guidance and services also for the broader publishing needs and the use of other relevant languages, formats and channels (see e.g. *Helsinki Initiative on Multilingualism in Scholarly Communication* (2019), <https://doi.org/10.6084/m9.figshare.7887059>.)

Thank You!
