

ARMA 2022

HYBRID CONFERENCE

15-16 November | Virtual
22 November | Newcastle

Connecting Communities:
building resilience and value
in an evolving international
research ecosystem

Putting people before technology

how communities build better research infrastructure

Tamsin Burland

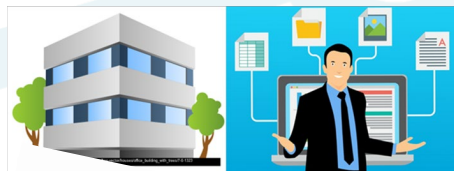

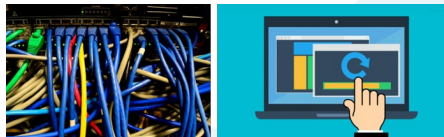

Victoria Moody

Christopher Brown

Jenny Evans

What is research infrastructure?

- Hardware & Software
- Institutions & Services
- People

But ALSO – Standards!

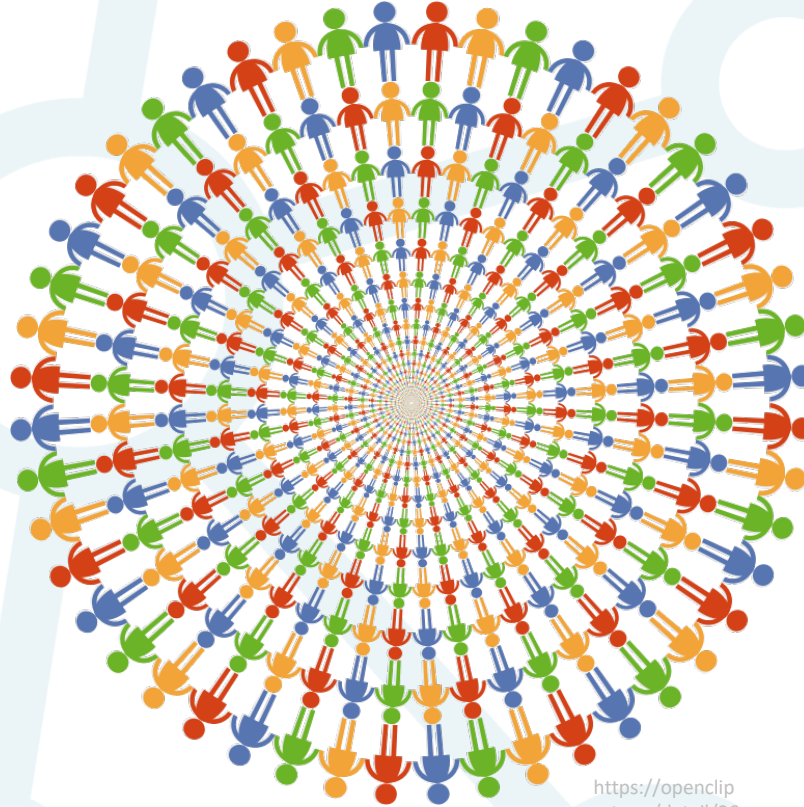

- Identifiers
- Vocabularies
- Policies & protocols

Agenda

- Victoria Moody
Community approaches to the management and sharing of research assets
- Christopher Brown
Developing an international approach to the adoption of Persistent Identifiers (PIDs) for research
- Jenny Evans
Practice Research Voices (PRVoices)

Communities and research infrastructure
