Found it - user-config attached for an OAE2 run. I just added the
settings
below to the user-config.

Dom

```
# Call orbit_radfor
ea_38="y"
# Specify the type of orbital forcing default (0), time-varying (1),
alternative config (2)
ea_39=1
# Number of data points in orbits file
ea_40=1001
# Interval between data points in goldstein time steps
ea_41=96000
# filename for orbital parameters (must be in genie-embm/data/input)
ea_42="orbits_La2004_1Myr.dat"
#
```
