care to keep open spaces, so as to allow the ropes to be easily withdrawn. The plant was then lowered, the old sides and superfluous trappings removed, the new tub put round, taking care that the bottoms of the staves were inserted properly into the groove; the iron hoops were then driven up, the lower hoop previously kept out was cut, and the ends prepared, so as to be drawn together by means of a screw; drainage was then inserted, and the tubs finally filled up with soil.

The method here noticed for the re-tubbing of the two large plants was also practised on all the others, where the ball of roots was too large to raise high enough with safety to enable the new tubs to be run under. In these cases the drainage was put into shallow tubs 8 and 10 inches deep, placed on the centre of the bottom, the plants were lowered upon it, and the vacant spaces filled up with drainage after the sides had been put together.

III. *Notice of an Excursion along the Line of the Roman Wall from Chollerford to Wall-Town Crags.* By MR JOHN SADLER.

The author gave a general description of the Roman Wall and its principal camps, observed on the way from Newcastle to Carlisle, and noticed the following plants which he found on the Wall:—*Trollius europæus*, *Draba verna*, β . *inflata*, *Teesdalia nudicaulis*, *Helianthemum vulgare*, *Viola lutea*, *Drosera anglica* and *rotundifolia*, *Polygala vulgaris*, *Genista anglica*, *Lonicera Xylosteum*, *Valeriana dioica*, *Antennaria dioica*, *Carduus heterophyllus*, *Erica cinerea* and *Tetralix*, *Vaccinium Myrtillus*, *V. Oxycoccus*, *V. uliginosum* and *V. Vitis-Idea*, *Menyanthes trifoliata*, *Digitalis purpurea*, *Pinguicula vulgaris*, *Utricularia minor*, *Lysimachia nemorum*, *Empetrum nigrum*, *Habenaria albida* and *H. bifolia*, *Allium schænoprasum*,—a plant which was probably cultivated by the Romans, —*Endymion nutans*, *Athyrium Filix-femina*, *Blechnum boreale*, *Botrychium Lunaria*, *Cystopteris fragilis*, *Lastrea Oreopteris*, *Polypodium Dryopteris* and *P. Phegopteris*, *Lycopodium clavatum* and *L. Selago*, &c.
