views of the prophetic future seem open to criticism. But, as a challenge to the divisive critics to submit their processes and results to the tests applied by men in courts of law and in the business world, this book has a mission. The Codes of Hammurabi and Moses.

By W. W. Davies, Ph. D. Jennings & Graham, Cincinnati. Pages 125. Price 75 cents net.

This is easily the most convenient manual on the Code of Hammurabi. The text of the Code is given in Small Pica type, the parallels from the Old Testament in Long Primer, while the author's notes are printed in Brevier type. The book is thus a delight to the eye. Dr. Davies has made good use of the best work of the specialists in Assyriology. He has appended indices that greatly increase the usefulness of the manual. Bible students everywhere ought to have the book.
