

Station information for N3TWM's SEQP Station

Antenna: Pacific Antenna 20/40m trapped dipole

Coaxial Cable: 25 ft RG-174

Exact Antenna Location: 40.906997N, 77.752009W

Antenna Orientation WNW to ESE, approx 280>100

Antenna Configuration: Inverted V, apex at 18 ft, ends at 4 ft, included angle approx 70 degrees.

Station Configuration:

12V SLA Battery > KX3 > KX3 Internal Antenna Tuner > 25ft RG-174 >

Inverted V Dipole
