

# GOLD OPEN ACCESS AT CHARLES UNIVERSITY

## Options of financing publication fees and discounts for CU authors

The gold route of open access stands for **publishing in an open access journal**. How to publish in the gold route is described in detail on the **website of the Open Science Support Centre of Charles University** ([library.cuni.cz/open-access](http://library.cuni.cz/open-access)).

Paid and so-called hybrid open access journals are associated with **article processing charges** (APC). These can be covered from the budget of a grant or research project (open access publishing costs for the duration of the grant are eligible, e.g. in projects within H2020, ERC, MEYS, etc.), or from the workplace budget (if funds for these fees are set aside).

More detailed information on open access to scientific information can be found on the website of the **Open Science Support Centre** ([library.cuni.cz/open-access](http://library.cuni.cz/open-access)). If necessary, contact your **open access faculty coordinator** or the **Open Science Support Centre** ([openaccess@cuni.cz](mailto:openaccess@cuni.cz)).
