IN A NUTSHELL

RISIS (Research Infrastructure for Science and Innovation policy Studies) is a project under Horizon 2020 programme. It gathers 18 partners aiming to transform the field of STI studies into an advanced research community.

RISIS datasets cover five critical dimensions: ERA dynamics, firm innovation dynamics, public sector research, research careers and a repository on research and innovation policy evaluations.

RISIS newsletter is scheduled every six month, and is an opportunity to talk about RISIS research topics, outputs and publications focusing on last RISIS results, events which involved our team.

We are proud RISIS activity is growing:
Have fun reading!
