EVIDENCE BASED POLICYMAKING IN EUROPE 2021

USE CASES AND DIGITAL TOOLS
FOR IMPROVED DECISIONS

Innovative Tools for Evidence Based Policy

Track 3: Governance Ethics

- While developing data-driven policy management tools, the cluster keeps a close eye on legal and ethical aspect.
- Data management tools and new AI technologies may raise legal issues related to privacy and data protection.
- Massive data processing raises also ethical concerns that are more difficult to manage since ethic is more “personal”
