

Market Survey for Early-Career Researchers (ECRs) Workshops

Greetings to all of you,

Hope everyone is in good condition. This project was a collaboration with UK researchers and one of the required outputs for this study is to conduct a workshop for early-career researchers (ECRs). We intend to conduct a survey about the type of workshops that you think that is suitable for early-career researchers, which can benefit them in terms of research publication.

For this reason, we humbly seek your advice on what kind of course you think is suitable for ECRs. Kindly note, that this market survey focuses on the social science field, with a focus on business, management, and marketing area. There is no right or wrong answer and you are not required to provide your personal information for this survey. Your opinion might be helpful for us to conduct the right workshops for early career researchers.
