

FAIR Implementation Workshops

Supporting FAIR adoption at the National Level: Denmark

09.30 - 11.00 CEST
11 October 2023 *Online*

Where are you joining from (country)?

32 responses

What organisation do you represent?

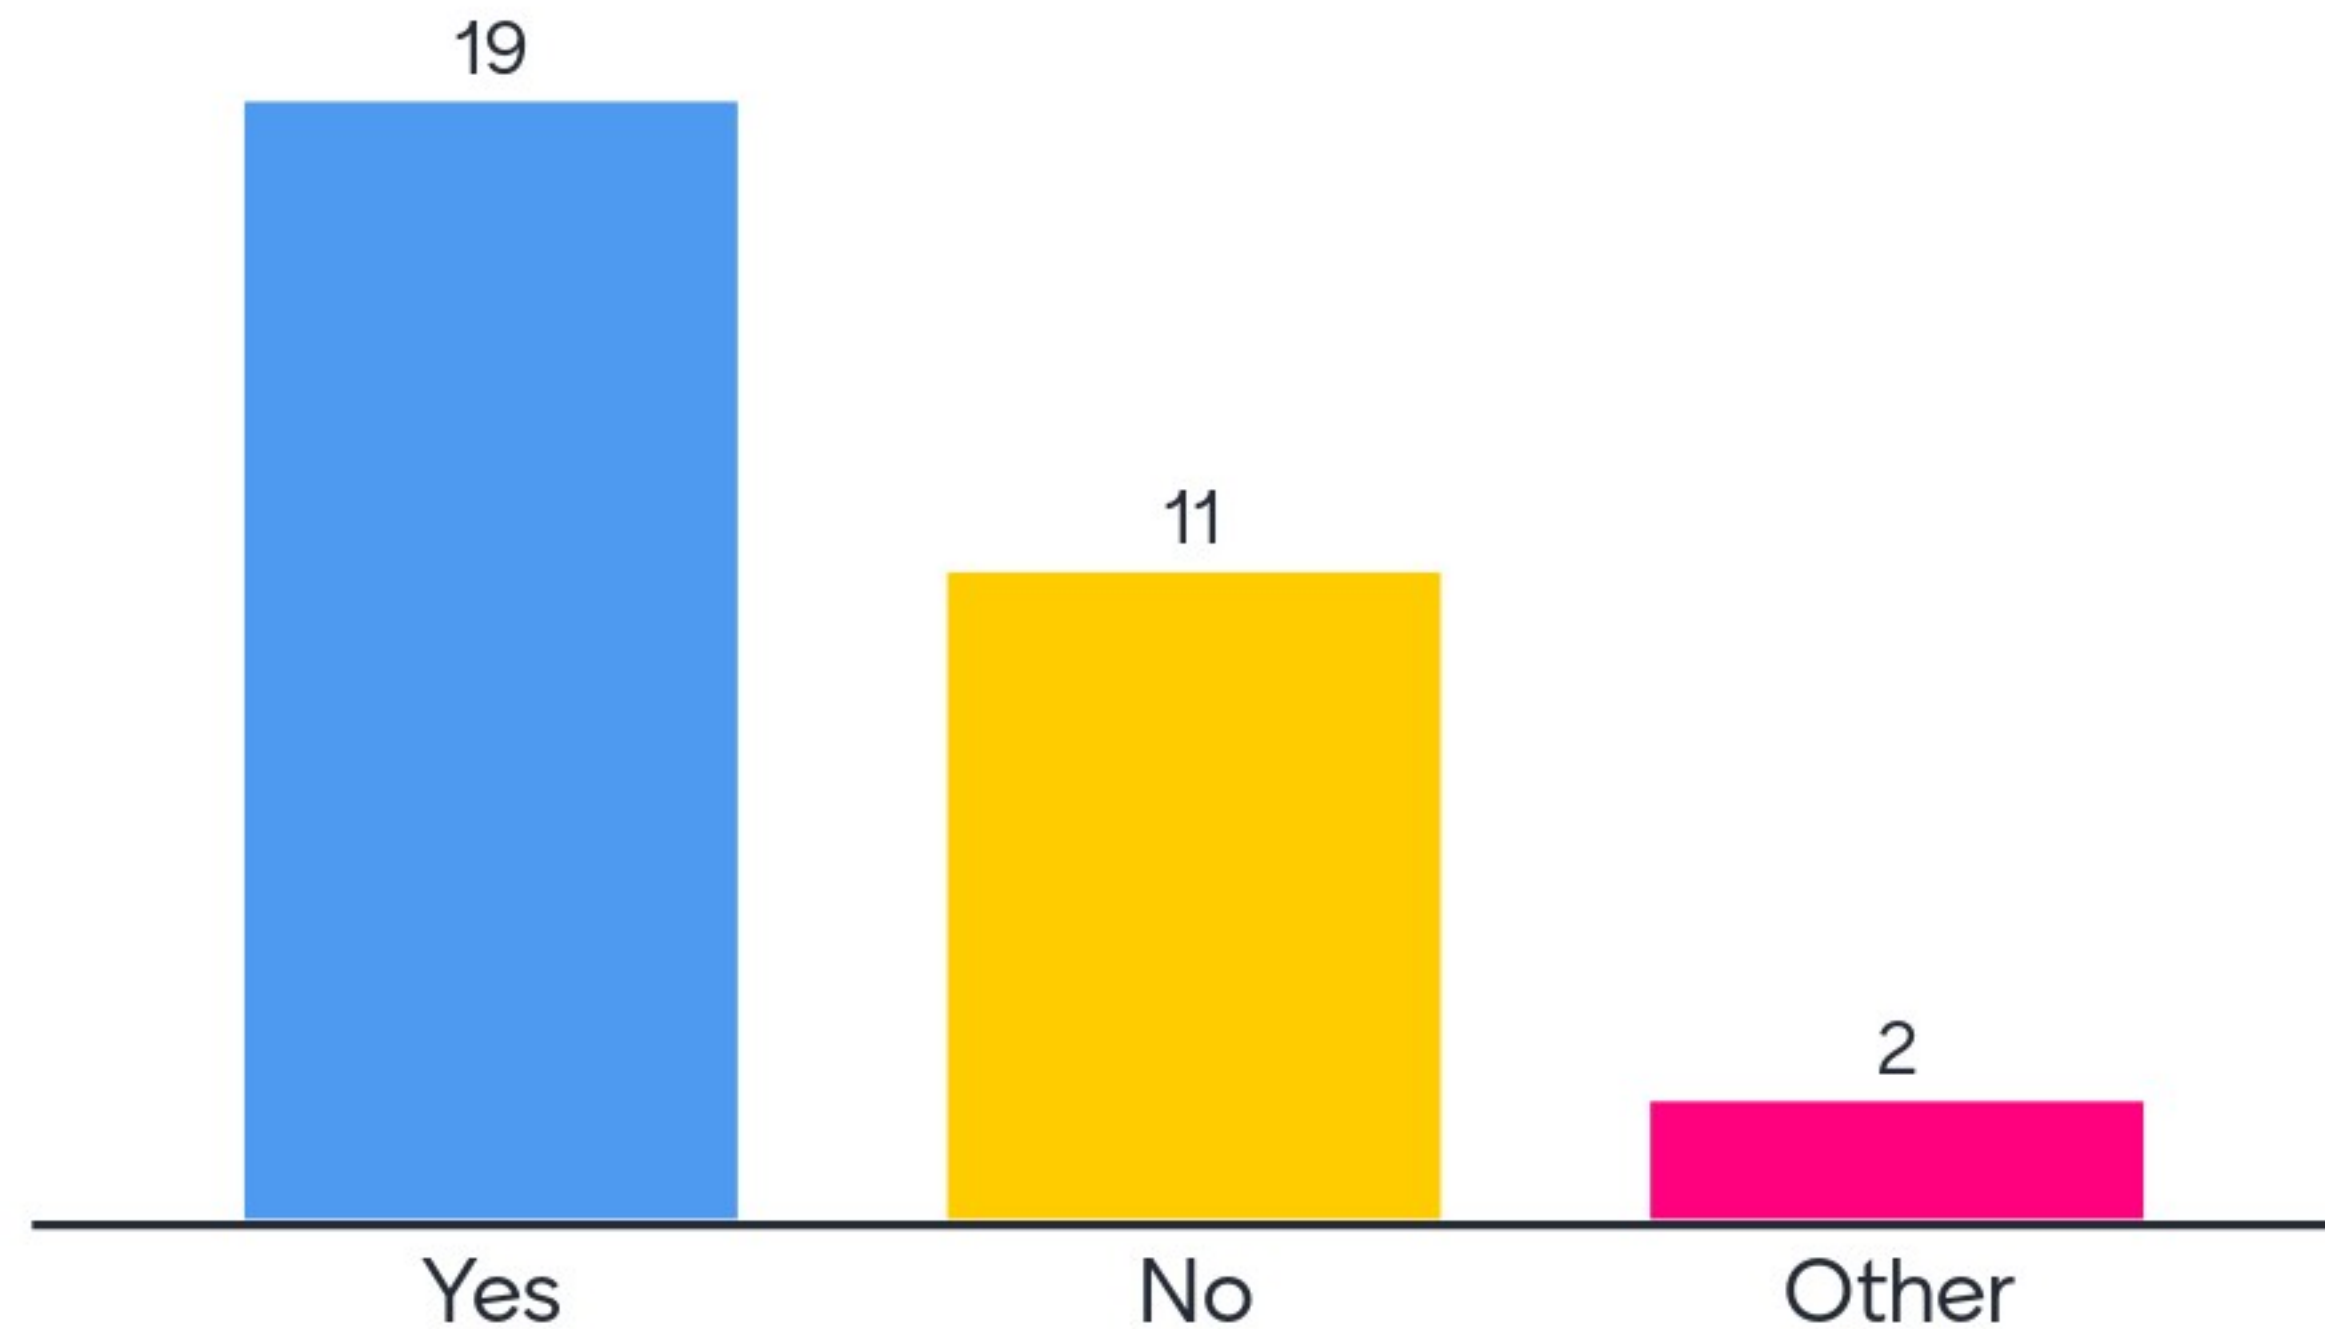

What is your role (data steward, researcher, research manager, policy maker, service provider, other)?

29 responses

Are you involved in supporting FAIR adoption at the national level?

What are you hoping to get out of today's workshop?

23 responses

Good practices

Inspiration

Good practices

better understanding

Inspiration

Learn from other countries

Some inspiration for things we might do nationally

Overview of FAIR adoption initiatives and FAIR maturity in DK

Good practices, better understanding of current FAIR initiatives at national level

What are you hoping to get out of today's workshop?

23 responses

Stakeholders and who is involved, how this is coordinated

better understanding

Inspiration

A better understanding of FAIR and its implementation

Inspiration for implementation rather than "just" strategy

Inspire with potential for collab

ideas about how to implement FAIR at a policy level in our institution

feed back

Inspiration

What are you hoping to get out of today's workshop?

23 responses

Learn from the Danish example

FAIRification Status

An update on the processes in motion, and a chance to see the diverse efforts in greater perspective.

inspiration

Some examples of work that is underway and some ideas that we might adapt.

What did you get out of today's session that can help you with your own work?

13 responses

Concrete insight into to WGs' tasks.

a way to organise work into WGs

It is interesting to see how your work do is related to our work with FAIR.

Working with reference groups

Real-life examples that we can adapt

Great set of questions for the various reference groups. Most should be relevant for other countries as well.

Idea of how Denmark is organised and what they are focused on, that might help us connect to the right people if needed

Culture change within academia needs top-down and bottom-up support initiatives

The complexity of an independent university structure, combined with the national an international initiatives

What did you get out of today's session that can help you with your own work?

13 responses

Interesting to see all the goals that the working groups are working with

The width of the scope needed to implement FAIR

Inspiration for identifying our own priorities at a strategic level

Revisit our own draft plan, and reflect on whether we've thought about all aspects

What action do you plan on taking based on what you've heard today?

7 responses

Further knowledge sharing with colleagues at other organisations.

Considering how to get the different stakeholders to start talking about the issues

Thinking about how to integrate FAIR competences in professional competence profiles for researchers, research support staff, and students

Create roadmaps for implementing FAIR infrastructure from data capture to final repository

Share what I have learned here today with my working group and work with FAIR.

revisit our own action plan to reflect on whether we've considered all the different aspects

not work alone at a local level but build from national strategies and national RI
