

GREENSCENT PROJECT SMART CITIZEN EDUCATION FOR A GREEN FUTURE

OBJECTIVE

GreenSCENT - Smart Citizen Education for a Green Future - aims to educate and empower the people of Europe to change their behaviour towards the environment by fostering empathy for the planet.

OUR TOOLS

- GreenSCENT competence framework: a competence framework that embraces all areas of the Green Deal
- GreenSCENT box: digital, physical and hybrid educational technologies that can be used to promote environmental awareness
- Green Licence: European "driving licence" for Climate and Environmental competences and skills

AT A GLANCE

- Green and smart education for all
- 16 partners in 11 countries
- 45 schools and universities involved
