

Enabling data sharing in the Netherlands

Ingrid Dillo
Deputy Director DANS

Canadian National Data Services Framework Summit
Montreal, 21 September 2017

DANS organisation

The background of the slide is a photograph of a modern, multi-story building with a light-colored, textured facade and many rectangular windows. The word 'DANS' is visible in blue letters on one of the building's facades. To the left, there is another building with a red and white facade. The sky is clear and blue.

Researcher meeting

[Results meeting: National Plan Open Science and you](#)

"Where Society feels the need to understand the world it regularly turns to the scientific community for analysis, insight and answers. Open science allows the public and scholars to keep the dialogue open as it enables all of us to provide a solid basis for decision making and develop opportunities for the future. I hope it provides also a source of

Publishing in open access? Look into the OA-deals with academic publishers. Some publishers are only publishing in OA. Or do you mean to publish in the repository of your university? For help and more information you can contact your University Library

4 April 2016 - 5 April 2016
Europe Building, Amsterdam

Open Science is a key priority of the Dutch Presidency. The Netherlands is committed to open access to scientific publications and the best possible re-use of research data, and it would like to accelerate the transition this requires.

RDM Actors

Research Institutions:

- Universities: 14
- University Medical Centers: 8
- Research Institutions: KNAW (15), NWO (9), TNO
- Research Institutes/departments in the private sector: eg. Philips
- Schools/Universities for Applied Science: 37

Umbrella Organisations (Policy/Governance)

- Association of Universities in the Netherlands (VSNU)
- Netherlands Federation of University Medical Centers (NFU)
- Royal Netherlands Academy of Arts and Sciences (KNAW)
- Netherlands Organisation for Scientific Research (NWO)
- Netherlands Association of Universities of Applied Sciences (VH)
- Netherlands Organisation for Applied Scientific Research (TNO)

Government

- Ministry of Economic Affairs
- Ministry of Education, Culture & Science

Funding

- ZonMW: Funding for health research
- NWO: Funding for general research

RDM Actors

Networking Organisations :

- SURF: ICT for higher education & research
- Netherlands eScience Center
- 4TU Research Data (4 Technical Universities)
- Research Data Netherlands (DANS, SURFsara, 4TU)
- Dutch Tech Center for Life Sciences (DTL)
- eHumanities.nl (KNAW)
- Network Digital Heritage (libraries, archives, heritage institutes: KB, NA, S&V, CHA (RCE), KNAW, DEN)
- National Coalition Digital Preservation
- Research Infrastructures related cooperation (e.g. CLARIAH)

Networking Initiatives

- SURF: Special Interest Groups
- UKB: Coalition of University Libraries and National Library of the Netherlands

DANS

A satellite image of a large, well-defined hurricane or typhoon in the western Pacific Ocean. The storm features a prominent, bright white eye and dense, swirling cloud bands. To the left, the Japanese archipelago is visible, with several islands outlined in black. The surrounding ocean is dark blue, and some smaller, less organized cloud clusters are visible in the lower-left quadrant.

The Data Hurricane

Motivations for data sharing

Researcher motivations for sharing data

Source: [Wiley's Research Data Insights Survey \(2014\)](#).

Retrieved: December 23, 2016 . Figures have been redrawn from the originals.

Data sharing incentives

- Influence of sharing norms within direct research circle
- Professional rewards for data sharing
- External drivers:
 - Publisher requirements (DAPs)
 - Funder policies/mandates

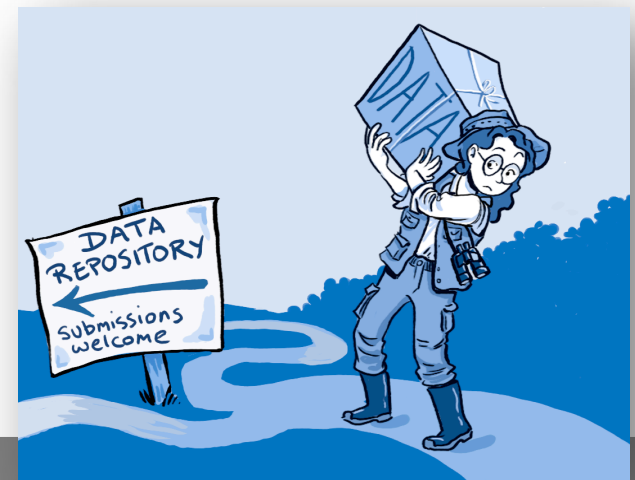

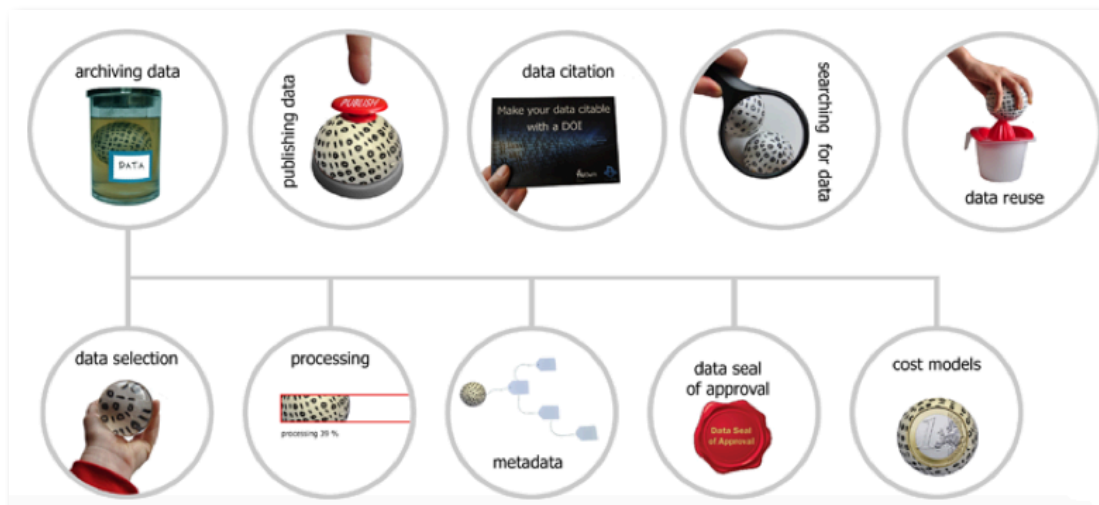

http://repository.jisc.ac.uk/5662/1/KE_report-incentives-for-sharing-researchdata.pdf

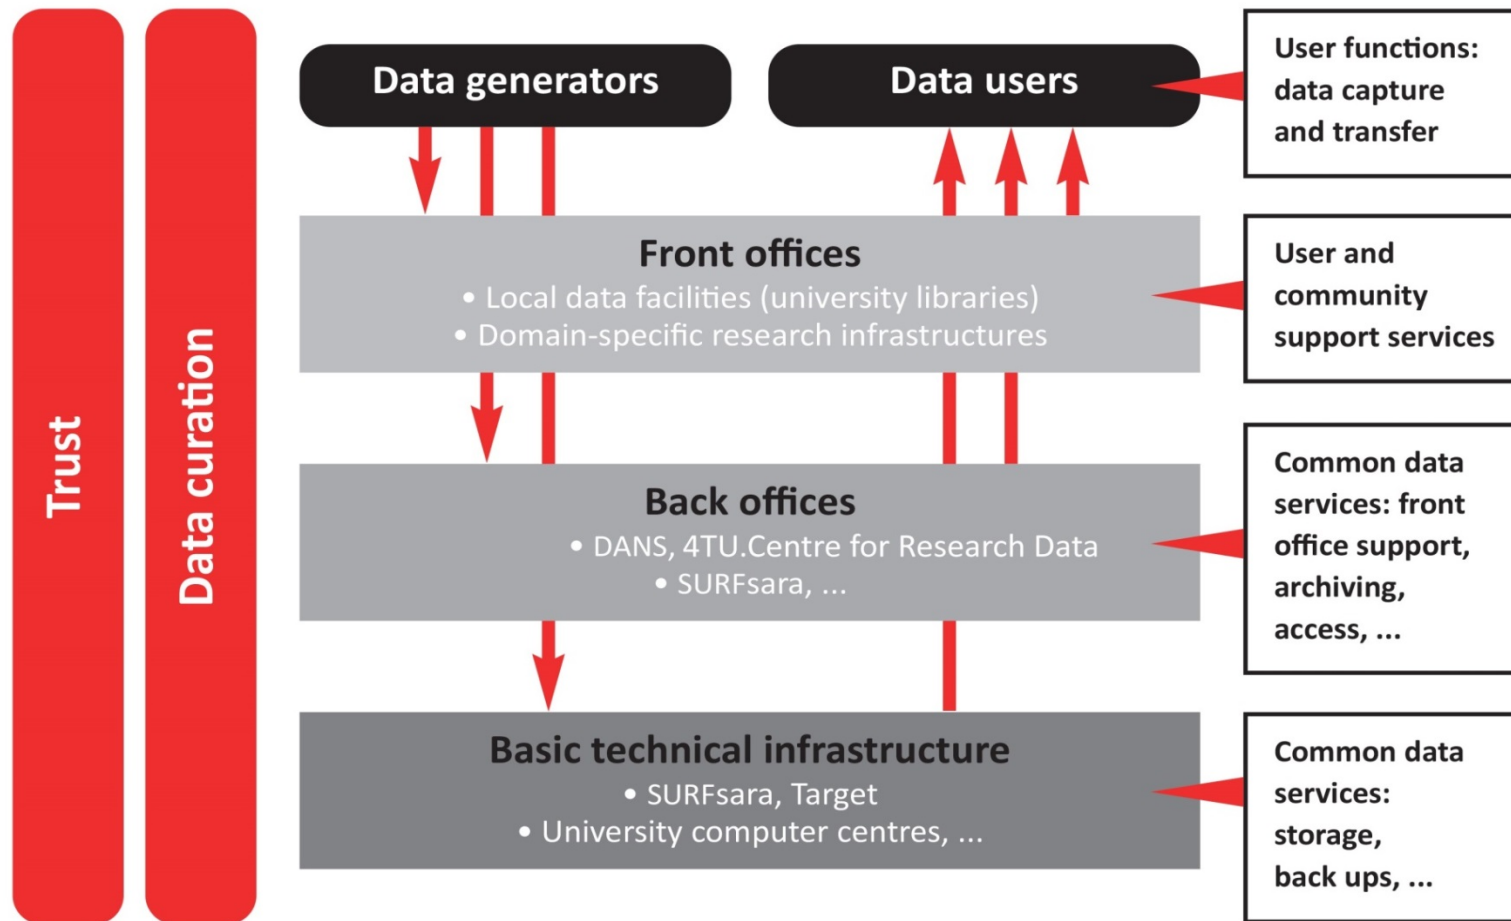

Other data sharing challenges

Enabling the researcher to comply with open data requirements:

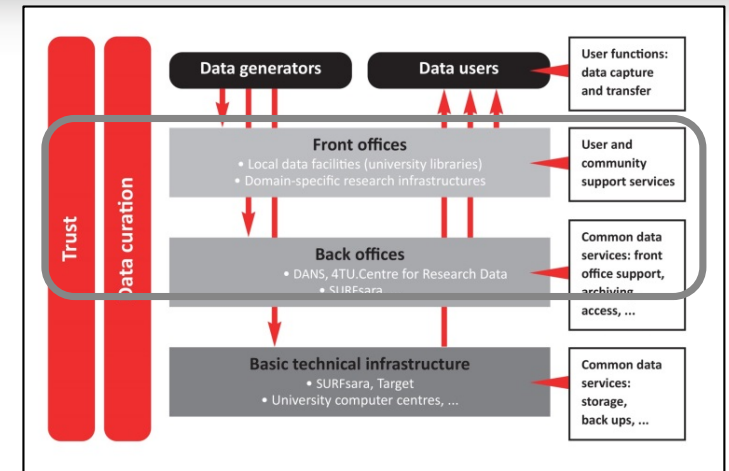

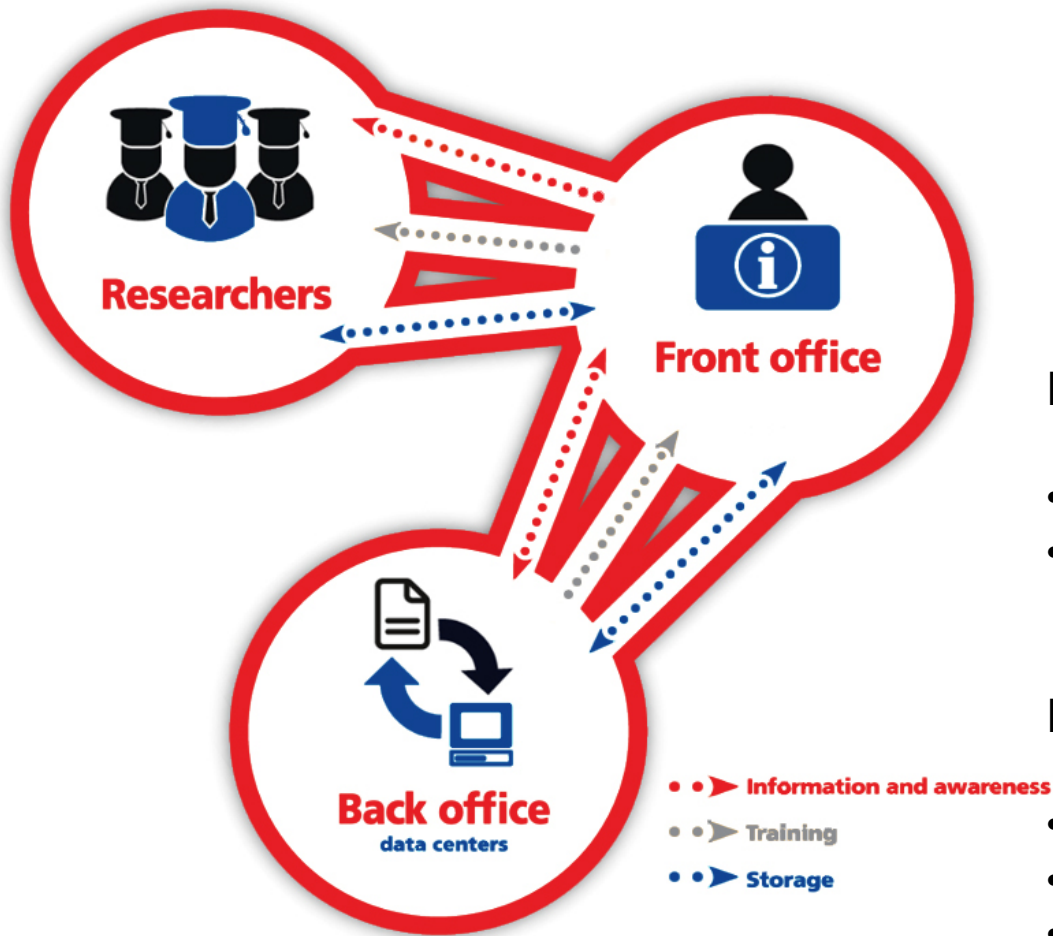

- awareness raising, training and support for data management
- infrastructure for preservation of and long-term access to the data

Federated infrastructure for research data

Front-office Back-office model

FO-BO model

- Division of labour
- Economies of scale

Backoffice

- Curation and preservation expertise
- Training of local data experts
- Long-term preservation infrastructure

What unites us?

- Our mission: to promote sustainable access to and responsible reuse of scientific research data in all phases of the research.

What do we have to offer?

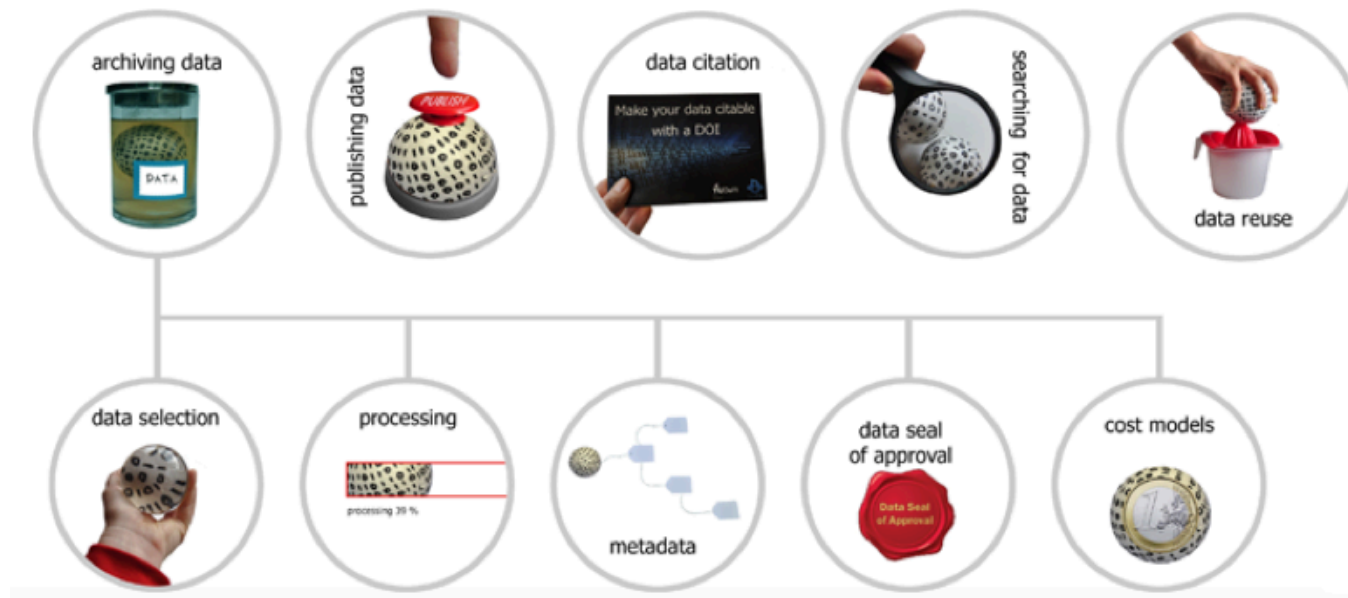

- Certified trustworthy long-term data repositories
- Advice on policies and implementation of data stewardship
- Training, e.g. course "Essentials 4 Data Support"
- Dutch Data Prize

More information?

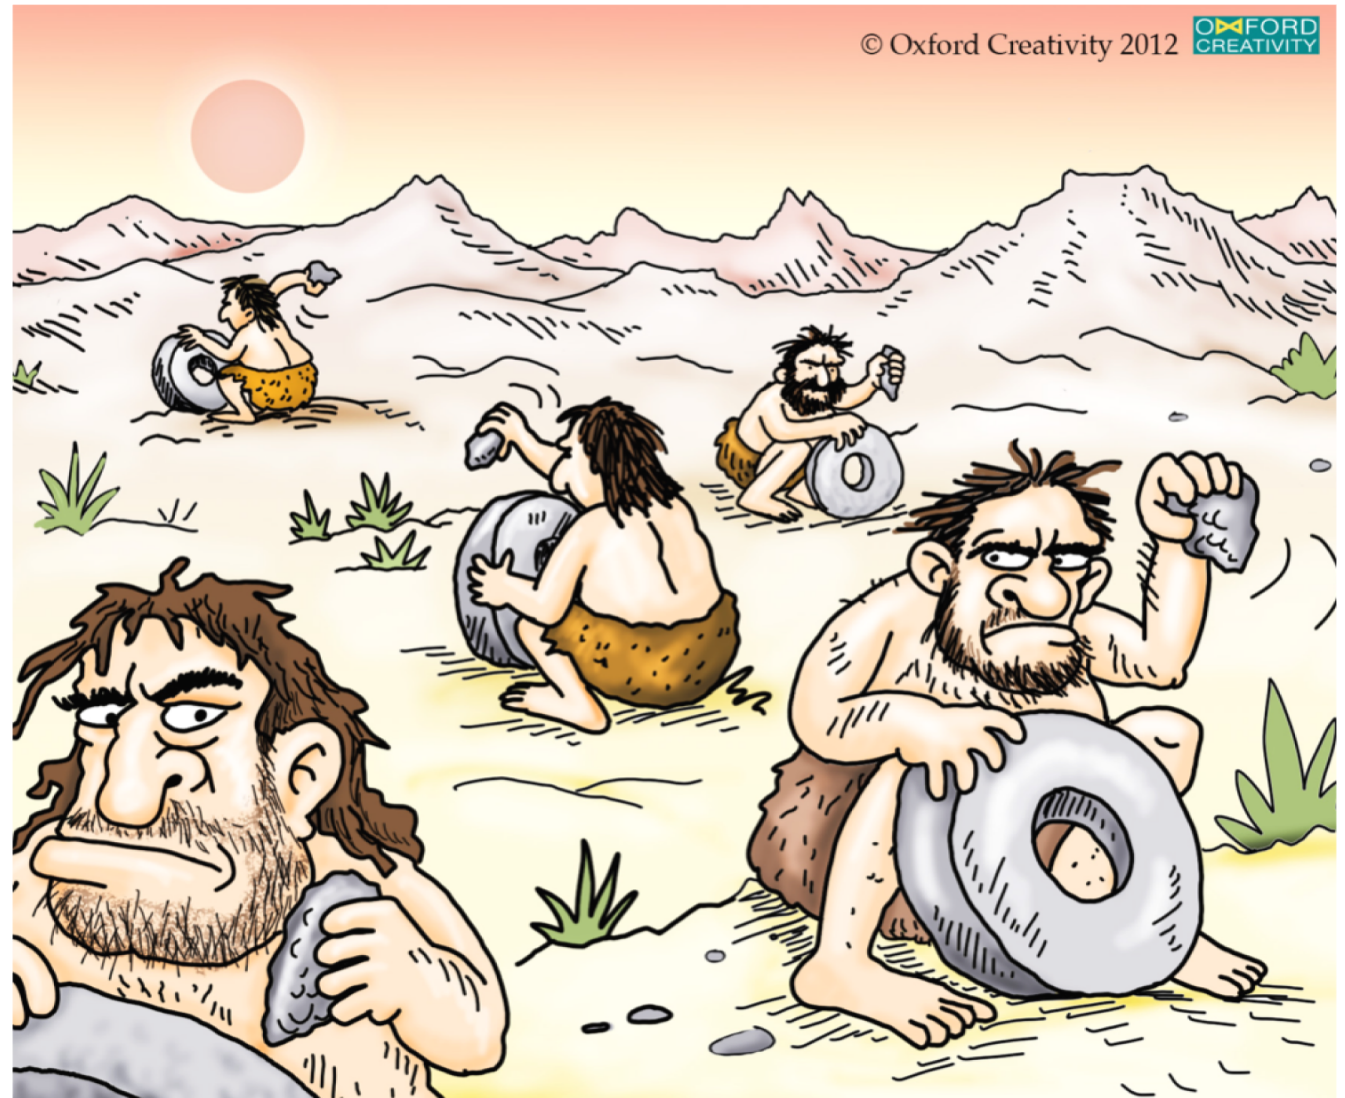

General: <http://www.researchdata.nl/en> or info@researchdata.nl

Course: <http://datasupport.researchdata.nl/en> or cursus@researchdata.nl

Problems solved?

- Fragmentation and overlap in activities and approaches
- Re-inventing the wheel; not taking advantage of expertise and experiences

© Oxford Creativity 2012 

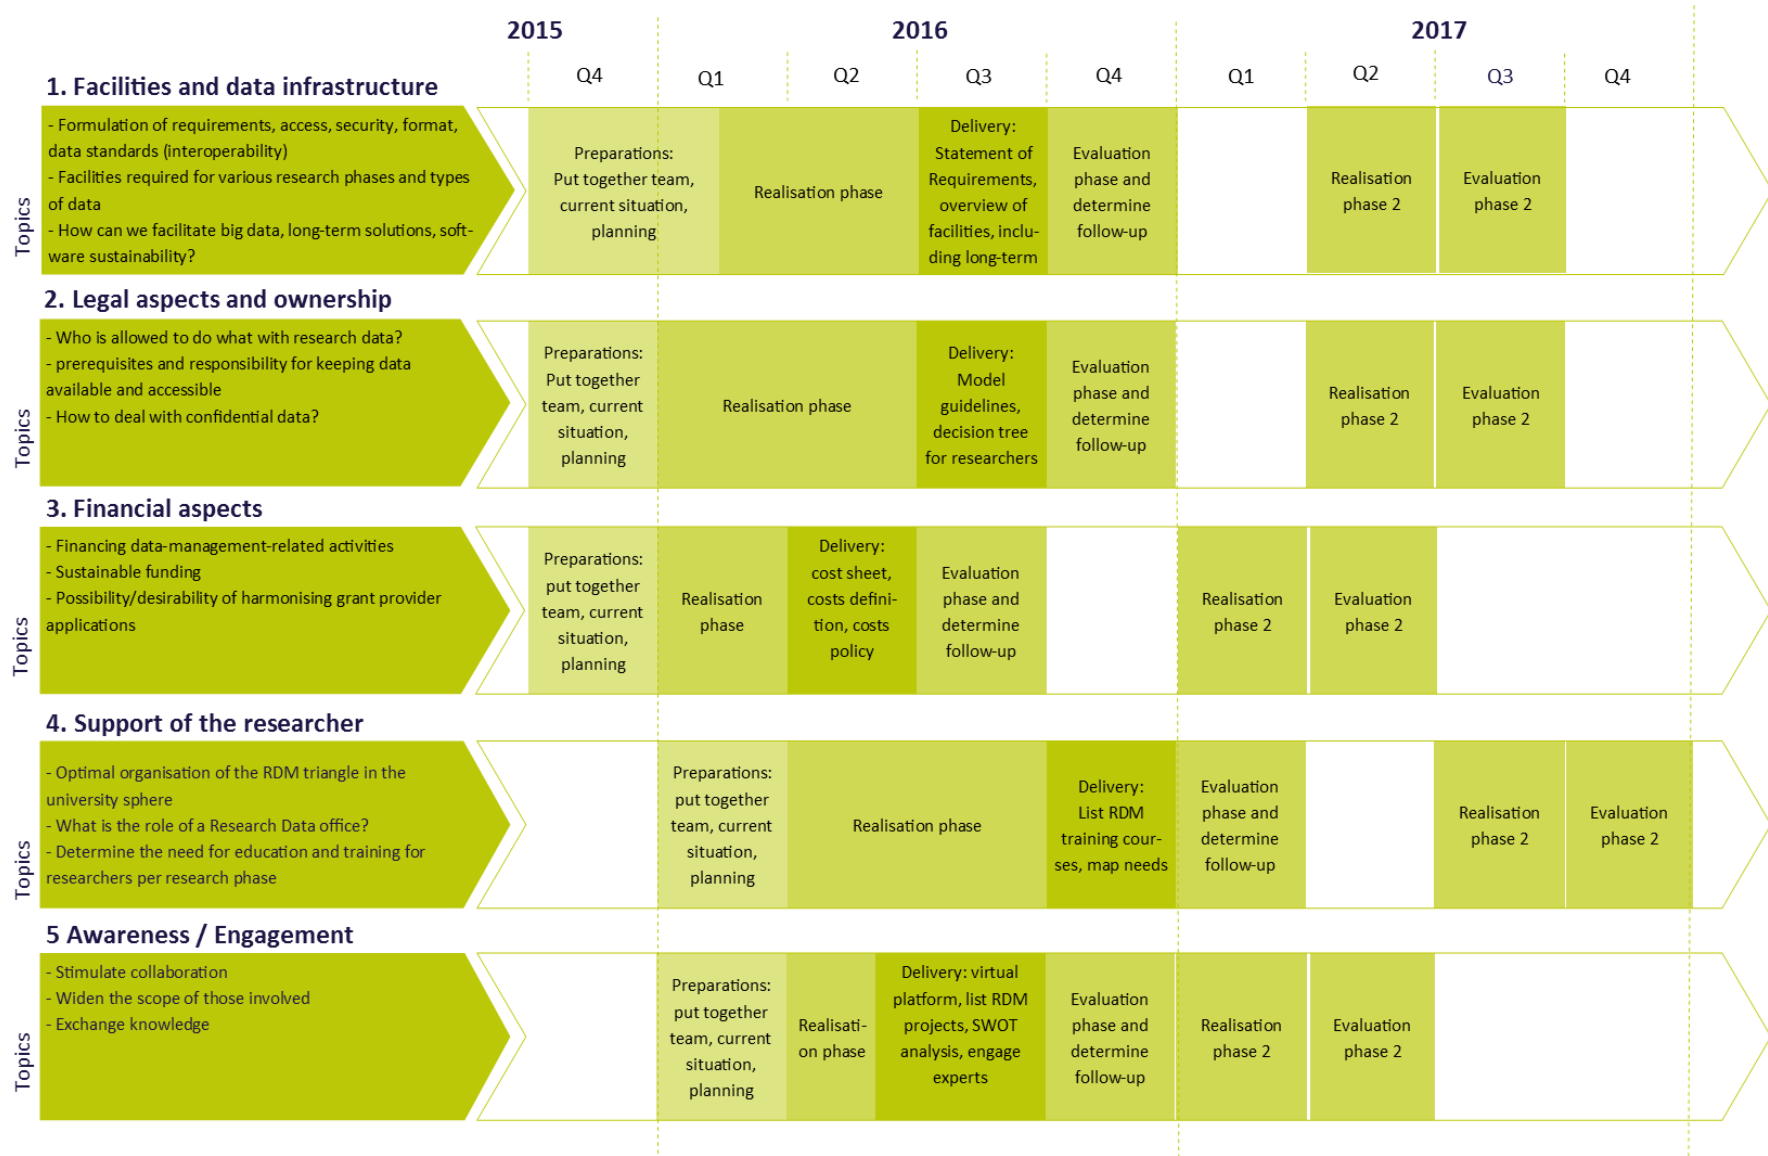

National Coordination Point Research Data Management

Objective

to support the most effective use of data in research and education by strengthening the knowledge pooling and knowledge sharing on all aspects of research data management

Approach

- obtaining a good overview of existing initiatives
- sharing successful approaches and results and promoting their re-use
- identifying gaps and putting them on the agenda

Community Building

72 working group members, dealing with 17 topics in the 5 focus areas

Visible, knowledgeable and efficient RDM community has been build, under the LCRDM umbrella

Concrete products

over 40 products:
inventories, advices,
tools, models,
reference cards etc.

TOPICS	PRODUCTS

<ul style="list-style-type: none"> Use Cases 	<ul style="list-style-type: none"> Inventory & interviews
<ul style="list-style-type: none"> Shades of Open 	<ul style="list-style-type: none"> Mind Map
<ul style="list-style-type: none"> Engagement Sessions 	<ul style="list-style-type: none"> As appears

Problems solved?

- Adoption of outcomes by stakeholders
- Creation of a structural RDM collaboration
- Funding
- Human resources in the data domain
- Connection with the researchers

But surely they can't have it right yet, let alone "best", if they're still having to practise.

Thank you for listening
