# Proposed Questions for the Panel

1. What are your thoughts on the results of the ranking poll?
  2. What are your top 3 and why?
  3. What is your experience regarding the level of involvement of different stakeholders in standardisation?
  4. What other best practices are there that you can identify from your own experience/perspective?
  5. What challenges can you think of that can direct best practice?
  6. Are there any other domains that require the need for standardisation coordination (i.e. STAND4EU's 4 domains)?
-

# Thank you!
