**Abstract :**

EIFER developed an information platform (website) dedicated to the project to ensure dissemination to the Internet community. For this purpose, a domain name was purchased (http://www.sapphire-project.eu/). The website offers some information about project objectives, content and partners and is continuously updated to share status of advancement and public results with the scientific community.

**Keywords :**

Website, internet, dissemination

# Table of Contents

# 1. SAPPHIRE WEBSITE

EIFER developed an informatics platform (website) dedicated to the project to ensure dissemination to the internet community. For this purpose, the following domain name was purchased: http://www.sapphire-project.eu/
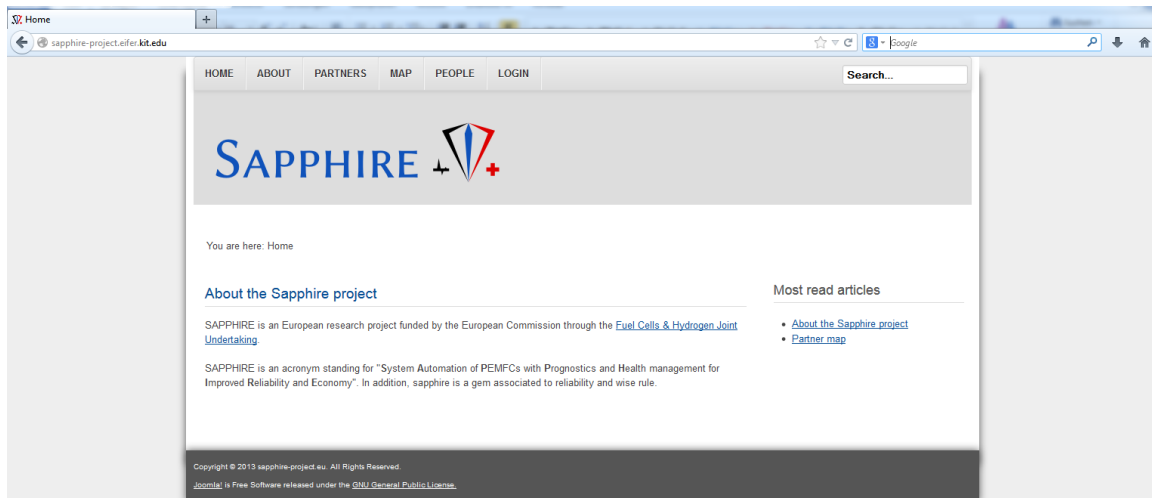

## *Homepage*

**Figure 1 – SAPPHIRE website *homepage***

Figure 1 shows the website *homepage* with the project logo and title. From this page, it is possible to access the other pages.

## *About*

A screenshot of the page *about* is illustrated in Figure 2, where general information about the project objectives, budget and content is provided.

**Figure 2 – SAPPHIRE website *about***

AE – Website

## Partners

The *partners* list along with hyperlinks to their respective website is provided on the page *partners* as shown in Figure 3.

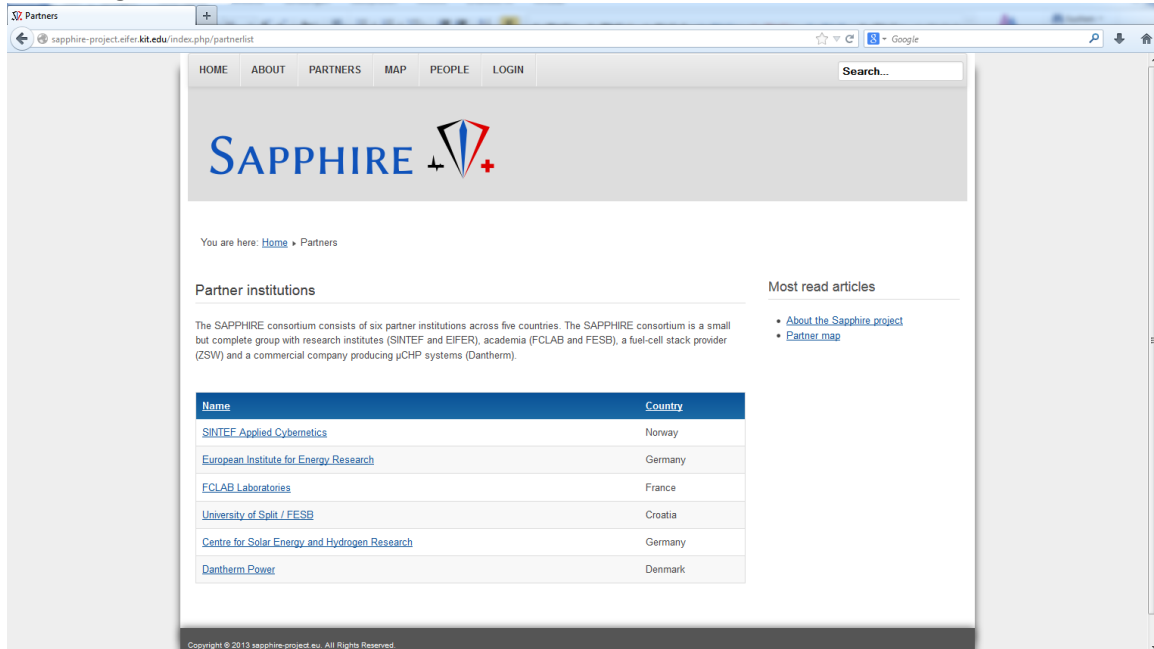

**Figure 3 – SAPPHIRE website *partners***

## Map

Figure 4 shows the location (*map*) of the several partners on the Europe map.

**Figure 4 – SAPPHIRE website *map***

AE – Website

## People

The list of project participants for each partner, along with the WP leaders, is provided on the page *people* (Figure 5).

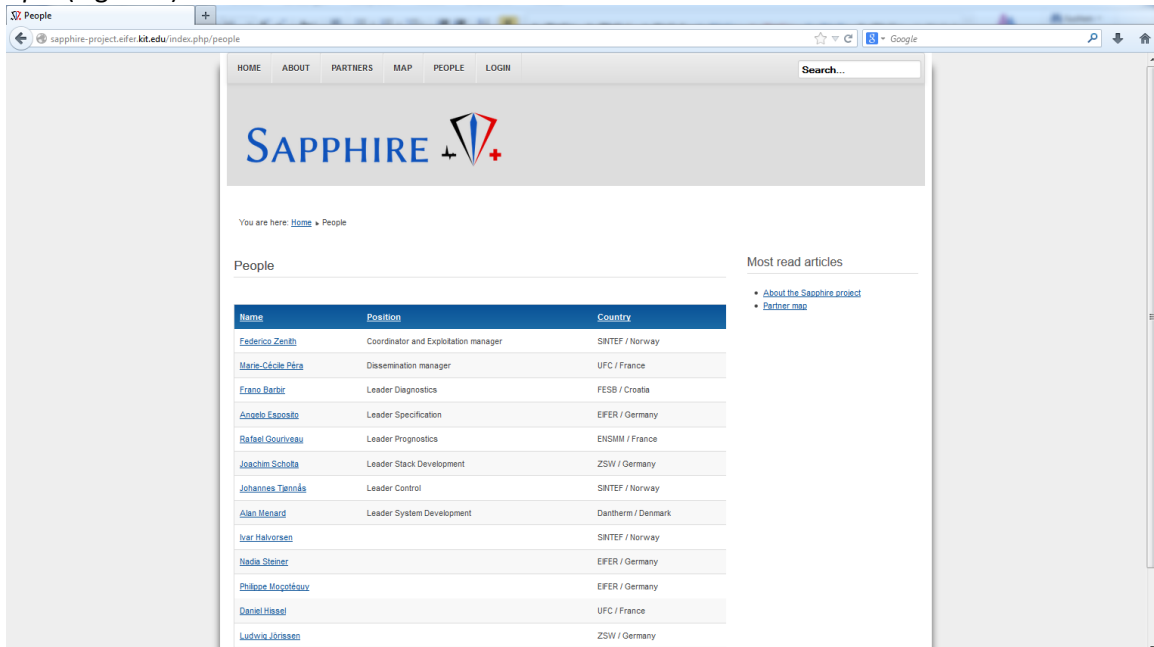

**Figure 5 – SAPPHIRE website *people***

## Login

The website offers also the possibility of logging in for the administration and the other partners to upload material and information to catalyse dissemination (Figure 6).
