

# FairCopy

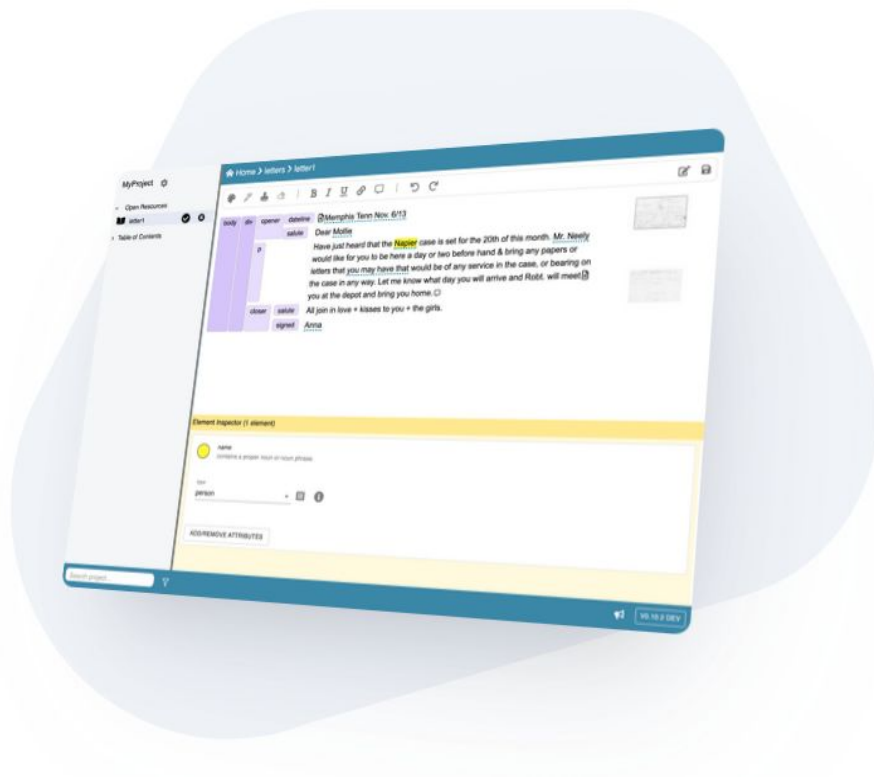

Creating Digital Editions with FairCopy

DigEdTnT Workshop, Graz, Austria  
February 2023

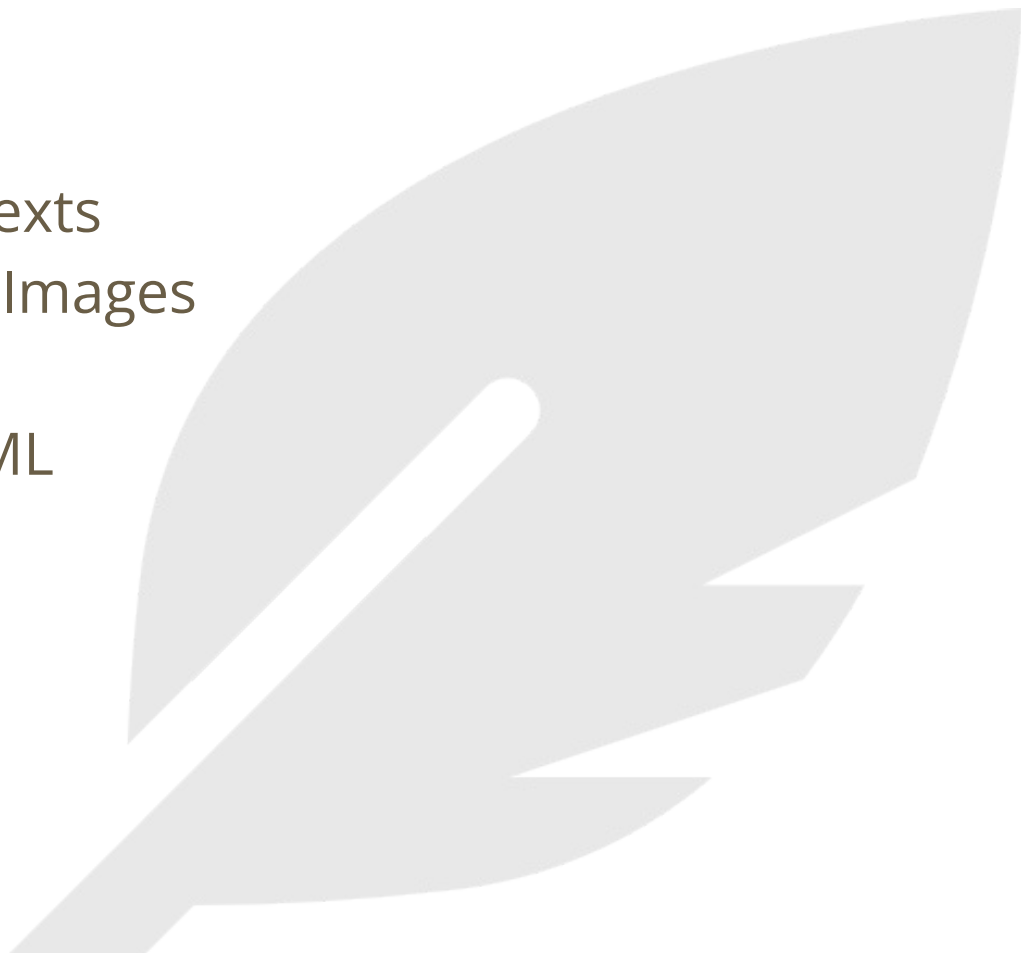

# Introducing FairCopy

- Word processor built around TEI semantics
- Reads/Writes TEI/XML
- Works with IIIF Images

## What can it do?

- Transcribe and Encode Texts
- Import and Annotate IIF Images
- Project Specific Schemas
- Import and Export TEI/XML

# Types of Texts Supported

- Poetry and Prose
- Correspondence
- Drama
- Bibliographies
- And more...

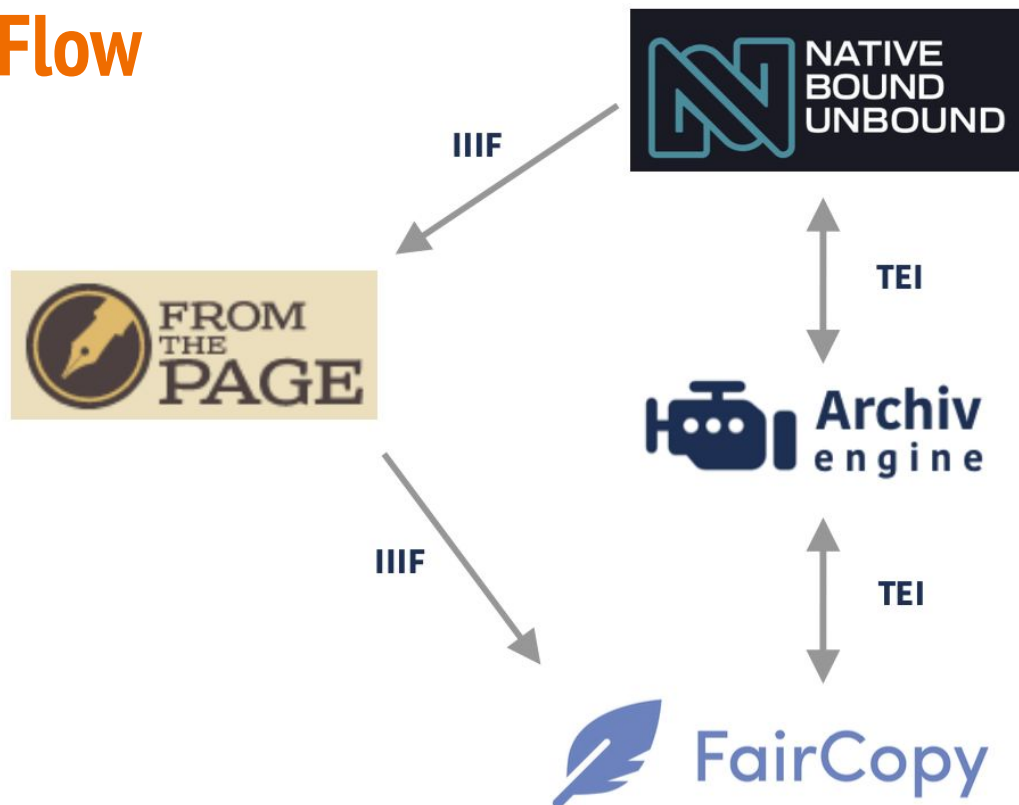

# Native Bound Unbound Project

- Archive of Indigenous Slavery
- Many different types of Digital Assets
- Written record in several languages (Spanish, English, Portuguese, Dutch)
- Publishes open access primary sources
- Extracts data for use in search portal, database records, and visualizations.
- Large, collaborative team without TEI encoding expertise.

# NBU Data Flow

# FairCopy Demo

# Future Directions

- EditionCrafter for Publishing
- Processor Agents
- Full Text Search API

# Current Seeking

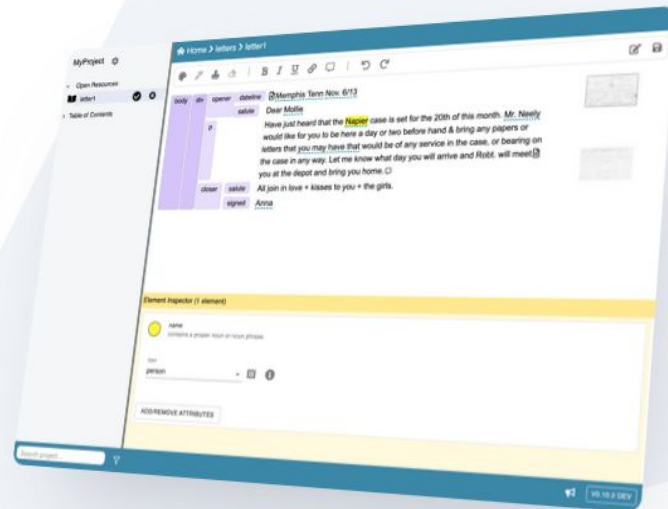

- Tool Integrations and Partners
- Project Collaborations
- Your feedback and ideas!

# Thank you!
