About me

- At the VU Library's RDM Support Desk since 2020
- Since 2021: Data Steward
- Since 2023: Coordinator RDM Support Desk
- Since 2023: Member of the LIBER WG RDM

The RDM Support Desk

- Answers researchers' questions about RDM and Open Science
- Refers researchers to specialists who know everything about their question
- Helps researchers with writing a DMP and how to set up their project based on those outcomes (e.g. IT/privacy)

DMPs at VU Amsterdam

- DMPonline, managed by the library
- Data stewards in faculties can review DMPs
- Institutional DMP template is accepted by Dutch funders
- DMP template includes questions relevant for GDPR registration
- GDPR template for those who do not write a DMP

Which DMP template would you like to use?

1 - VU DMP template 2021 (NWO & ZonMW certified) v1.4

1 - VU DMP template 2021 (NWO & ZonMW certified) v1.4

2 - VU GDPR registration form for research 2021 v1.1

The GDPR register

- A requirement in the GDPR
- Much overlap with DMP
- DMPonline API
- But also reliant on someone running the script manually every day

General warning: developing stuff is easier than embedding it

And from here on...

'RDM Administrations project': reuse of DMP content in other forms

Proof of concept and looking at technical implementation

Challenges:

- Technical
- Organisational
- Financial

Thank you!
Questions 😊
